CENSUS OF INDIA, 1981

DISTRICT CENSUS HANDBOOK

PART A—VILLAGE AND TOWN DIRECTORY

BALESHWAR

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns etc.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features alongwith the restructuring of the formats of village and town directory have been attempted. At the same time, compatability with the 1971 data has also been kept in views. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village-directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities

with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and accordingly to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirement of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class—II towns (Statement IV-A) has been introduced with this objective in mind It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement-IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement-V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the column on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahasil/Town levels. At the beginning of the DCH, a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The District and Tahasil/Police Station/C. D. Block etc., level maps depicting the boundaries, and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. R. Nanda, I. A. S., the Director of Census Operations, Orissa on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General, India

New Delhi
The 26th April, 1982

PREFACE

It has been the tradition of Indian Census to present demographic data in as detailed a manner as possible so as to serve effectively the interests of the users of Census data. 1981 Census has been completed leaving behind a vast mass of data collected carefully and meticulously on a country-wide basis by an army of trained enumerators. It is needless to mention that modern Census is no more confined to mere counting of heads. It is a kind of stock-taking, as it were, of the nation's human wealth. It has collected information of every individual, besides a host of other activities, institutions, establishments services and so on. Thus, it has become an indispensable instrument of policy for development planning-referred to by planners, data users, scholars and people from different disciplines and aims at presenting a complete picture of man in socio-economic and cultural settings.

District Census Handbook was first introduced as an auxilliary to 1951 Census and appeared as a State Government publication in more comprehensive and ambitious form in subsequent censuses. Under the existing instruction, the Director of Census has the responsibility of providing the Census data as well as non-census socio-economic and administrative statistics for this publication which is the responsibility of the State Government. In 1951 and 1961, it was published in one volume. During 1971, this publication was proposed to be presented in three parts. Part-A incorporated the Town and Village Directories, Part-B incorporated the Primary Census Abstract and provided data upto village level for the rural area and upto enumeration block level for the urban area. Part-C incorporated other Census tables and administrative statistics.

According to the publication programme of 1981 Census, it has to be pubilshed in two parts. Part-A will comprise the Village and Town Directory whereas Part-B will contain Village and Town-wise Primary Census Abstract. The first Part— Part-A consists of important statistical information relating to each town besides an array of statistical data relating to land use and various other amenities available in each village. Part-B of the present publication contains the essential census data known as Primary Census Abstract which provides demographic details of each district, tahasil, police station and down to each village and town and within the town, each ward. The aforesaid statistical information is enriched by the administrative map of the administrative units viz., district, tahasil and police station, availabe in the publication. These maps have been prepared in the Directorate of Census on the basis of maps obtained from the competent local authorities. In the Police Station maps, villages have been presented by their location code number for want of space. For the names of villages, one would have to refer to the alphabetical list of village of each tahasil, which are available both in Part-A and Part-B for facility of the readers.

With the object of avoiding delay and also to make each volume handy and not-too-bulky, it has been decided to bring out 1981 District Census Handbook in two parts.

In pursuance of the scheme for publication of the District Census Handbook, an analytical note has been provided explaining the census concepts adopted in the operation for easy appreciation of the subjects covered in the directory. An administrative map of the district is given at the beginning of the volume. Brief history of the district has

been provided for introducing the district to the reader. The scope of Village Directory, Town Directory, Statements and Primary Census Abstract has been explained with reference to the contents of statements available in the publication.

The geographical aspect of the district including decadal jurisdictional changes available in the publication is intended to make it more informative. Another venture of 1981 is presentation of major characteristics of the district particularly in relation to the economic resources as furnished by the district authorities in the various fields of administration. This is directed to provide an interesting profile of the district to the reader as well as appreciation of developmental activity in the district during the decade. Notes on different codes used in this directory have been provided for the convenience of the reader in understanding the data. Note on places of religious/historical interest has been provided to make the publication more interesting. The analysis of census results of the district at the end will be of some interest to the readers and data users.

Information on amenities in the Village Directory has been collected from the Tahasildars and Block Development Officers. A very few selected items were collected through the census enumerator during his door-to-door visit. The Executive Officers of Municipalities and Notified Area Councils provided such data on towns. The collection and compilation of such massive data of each village and town was a stupendous task. Despite all possible care taken through intensive check and re-check to remove discrepancies in facts and figures, possibility of errors still creeping in can not be altogether ruled out.

I must express my deep gratitude to Shri P. Padmanabha, I. A. S., Registrar General and Census Commissioner, India and Shri N. G. Nag, Deputy Registrar General (Social Studies) for the timely guidance and advice through circulars.

I must place on record my deep appreciation and thanks to the Departments of Government of Orissa, Heads of Departments, local bodies, District Officers, Tahasildars, Block Development Officers, Executive Officers of Municipalities and Notified Area Councils for whose active co-operation and help the voluminous compilation has been possible.

For providing additional information on general characteristics of the district as economic activity, decadal changes (1971—81) of special note, I am grateful to Shri L. Tunga, I.A.S., and Shri S. C. Pani, I.A.S., District Magistrates and Shri P. C. Patnaik, O.A.S.(I), Additional District Magistrate-cum-District Census Officers, Baleshwar who had taken keen interest in making this compilation more informative.

For timely scrutiny, compilation and tabulation of District Census Handbook data, the supervision and assistance rendered by Shri B. Sahu, O. A. S (I), N. C. Dutta, O. A. S. (I), J. Panda, O. A. S. (I), P. C. Roy, O. A. S. (I), and P. K. Mohapatra, O. A. S. (I), Deputy Directors in-charge of Regional Tabulation Offices and their staff are worth mentioning. The job would have been difficult but for their diligent and tireless [illegible]

In my office, I am specially thankful to Shri S. K. Swain, Deputy Director, Shri Madan Mohan Das, O. A. S., Deputy Director, Shri C. R. Mohanty, Asst. Director and the staff of District Census Handbook, Map and Printing branches of the Census Directorate for diligence and zeal shown in this important assignment. Its expeditious preparation has placed a heavy burden on all officers and staff of this office. To each of them I am deeply obliged. The Deputy Director of Survey & Map Publication, Orissa, Cuttack has ensured printing and to him I offer my thanks.

Bhubaneswar,
September, 1982.

A. R. NANDA

ANALYTICAL NOTE

Census Concepts

Some of the important concepts and definitions used in 1981 Census and frequently mentioned in this publication are briefly explained below :

Village

It has been the Census tradition to present tatistics by rural-urban break-up. Villages and owns are universally accepted as the basic nits of human habitation. A "Village" refers o any tract of land recognised as a village by he local administration in the revenue record. The revenue village may have a definite surveyed boundary or not. The revenue village may comprise several hamlets which do not have definite boundary or areas distinctly marked. The revenue village is inclusive of the sites of residence of the inhabitants and the entire area including hills, nalas, cultivable land and village forest, but excluding reserve forest. An uninhabited village is one which does not have any residential population in the entire tract. A revenue village may comprise several hamlets with a boundary in case of a surveyed village or a notional boundary in case of unsurveyed village; but the entire village is one unit for presentation of census data.

There are some forest villages located inside reserve forests and recognised by the State Government, which have been taken as villages for the purpose of census. Similarly, inside the reserve forest, some clusters of habitation were located, which are sometimes unauthorised in the eye of law. Such cases were also recognised as villages by way of treating clusters inside the jurisdiction of a forester's beat as one village. In course of the decade, several areas in the State remaining unsurveyed upto the previous census, have been surveyed in the meanwhile and such villages were included in the frame of current census.

Town

No society can be strictly termed as fully urban or completely rural. The dividing line is a far from sharp, since condition varies from country to country and it has not been possible to formulate a uniform definition which can be applicable to all places.

For the purpose of 1981 Census in India, an urban area has been defined as :

(a) all places with a Municipality, Corporation or Cantonment Board or Notified Town Area, and

(b) all other places satisfying the following criteria :

(i) a minimum population of 5, 000,

(ii) atleast 75 per cent of the male working population engaged in non-agricultural (and allied) activity,

(iii) a population density of atleast 400 per Sq. Km. (or 1, 000 per Sq. Mile).

Similar criteria were also adopted during 1971 Census.

Thus the area statutorily notified by the State Government as "Municipalities" and "Notified Area Councils" have been brought under the urban frame of Census. Besides, there are some marginal cases having distinct urban charecteristic which as such do not qualify to be town by the State Government. Such cases—13 in number throughout the State were finalised by the Director of Census in consultation with the District Magistrates, which have been presented under the nomenclature of non-statutory census town, satisfying the following conditions :

(a) a minimum population of 5, 000 as projected in 1981 ;

(b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits ;

(c) a density of population of at least 400 per Sq. Km. (or 1, 000 per Sq. Mile)

Classification of Towns

It has been customary for the census to classify the towns according to the size of their population. For 1981 operation, the classification was as follows :

CLASS	POPULATION
I	1,00,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000— 9,999
VI	Less than 5,000

Urban Agglomeration

The concept of "Urban Agglomeration" introduced during 1971 Census has also been adopted during 1981 to take care of the continuous urban spread of a recognised urban area. Very often, large railway colonies, university campuses, port areas and military camps etc. come up around the statutory boundary limit of the city or town having distinct urban characteristics. Such areas may not by themselves qualify to be treated as towns, but form a continuous spread with the town as 'out-growths' of the town and deserve to be treated as urban. Such town(s) together with their out-growths have been treated as urban units and are called "Urban Agglomerations". Thus an Urban Agglomeration may comprise :

(a) a city with continuous urban out-growth, (the part of the out-growth being outside the statutory limits but falling within the boundaries of the adjoining village or villages) or

(b) one town with similar out-growth or two or more adjoining towns with their out-growths as in (a) or

(c) a city and one or more adjoining towns with their out-growths all of which form a continuous spread.

Accordingly, eight Urban Agglomerations have been formed in the 1981 Census throughout the State.

Standard Urban Area

During the 1971 Census, a new concept of "Standard Urban Area" was introduced in the context of urban classification. The Standard Urban Area is defined as the projected growth area of a city or town having a population of 50, 000 or more during a period of two or three decades. While delineating Standard Urban Area it is not only necessary to take into account the towns and villages which will get merged into it, but also the intervening areas which are potentially urban. The Standard Urban Area is a long-term planning area having a growth potential in a longer time span. In the context of developmental planning for urban areas, it is desirable to fix the Standard Urban Area beyond the boundary of large town having growth potential over a period of 20 years or so.

The standard urban area includes all areas which have any or all of the following characteristics (b) to (e), while characteristic (a) should be the basic minimum :

(a) Core town having minimum population of 50,000;

(b) Predominent urban land use;

(c) Intensive interaction with urban centres as reflected in communication for the purposes of work and secondary educational facilities; extension of city bus service, sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck haul) and purchase of food grains, clothes, general provisions etc. by the consumers directly;

(d) Anticipated urban growth as a result of future location of industry, market, transport and communication, administrative and servicing facilities;

(e) Existence of big villages with large population of working force engaged in non-agricultural and industrial categories.

Taking these factors into account the following standard urban areas were formed during the 1971 Census; 1. Sambalpur

2. Raurkela, 3. Baleshwar, 4. Cuttack 5 Jeypur, 6. Brahmapur, 7. Bhubaneswar and 8. Puri. The standard urban areas of these towns were finalised in consultation with the Town and Country Planning Organisation of Government of India and Town Planning Organisation of Government of Orissa and are continued in 1981 Census.

There is subtle difference between the standard urban area and urban agglomeration. For the urban agglomeration out-growths should be contiguous having distinct urban characterstics, whereas, standard urban areas would cover both urban and rural areas around a core town which are likely to be urbanised within a period of two to three decades.

Building

A "Building" is generally a single structure on the ground Sometimes, it is made up of more than one component unit which are used or likely to be used as dwellings (residence) or establishments, such as shops, business houses, offices, factories, workshops, schools, places of entertainment, places of worship, godowns and stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. Usually, a structure will have 4 walls and a roof. However, there are some areas where the very nature of construction of house is such that there may not be any wall. A typical example of this may be found in the Nolia habitation at Puri, where the house does not have wall, but an entrance and the conical roof which almost touches the ground. Such structures are also treated as buildings.

Census House

A 'Census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

An "occupied residential house" is a census house which is partly or wholly used for the purpose of residence at the time of Census enumeration.

Household

A 'Household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of un-related persons or having a mix of both. Example of unrelated households are boarding houses, messes, hotels, residential hotels, rescue homes, jails and ashrams etc. These are called "institutional households". There may be one member households, two-member-households or multi-member-households. For Census purposes, each one of these types is regarded as a household. If a group of persons who are un-related to each other live in a census house, but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person is treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen.

Enterprise

An "Enterprise" is an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. The workers in an enterprise may consist of members of the household or hired workers or both. An enterprise may be owned and operated by one household or by several households jointly (on a partnership basis) or by an institutional body. The activities of an enterprise may be carried on in a single census house or in more than one census house or in the open i.e. without premises. The activity of the enterprise may also be carried on only for a part of the year but on a fairly regular basis. It may also be possible that more than one enterpreneurial activity can be carried out in one census house. However, the results of such economic census after tabulation are being brought out by the Central Statistical Organisation separately. This excercise was extended to provide data for the planners regarding categories of agricultural and non agricultural enterprises. The voluminous data included location of enterprise, description of the activities of enterprise, nature of operation,

type of ownership, social group of owner, power/fuel used for the activity and the total number of hired persons usually working in the enterprise.

Literate

A person is considered to be literate if he is able to read and write in any language with understanding. A person who can merely read but can not write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 4 years or less have been treated as illiterate, even if the child is going to school and may have picked up reading and writing a few odd words

Scheduled Caste

The Scheduled Castes are specified in the Government of India (modification) order of 1956. 93 castes have been notified as Scheduled Castes in this State.

One caste, viz., 'Kuli' in Sambalpur district has been dropped from the Scheduled Caste list as per the Amendment Order, 1976.

Worker and Working Population

The population of a country can be divided into economically active and inactive. The economical active group is generally referred to as the working population. What proportion of our population are engaged in work or are economically active and what job they do for their living, these are the issues which the Census proposed to obtain through its massive operation in order to provide a broad dimensional picture of the labour-force. The Censuses conducted so far contain a wealth of economic data. There have been experimentations with the definitions from Census to Census and as a result, the definition of working force has rarely remained unchanged between two Censuses as would be evident from the paragraphs to follow.

"The means of livelihood' approach was adopted from 1901 upto 1951. From 1901 to 1921 the expressions used were "Workers" and "Dependents". In 1931, the concepts used were 'earner', "working dependent" and "non-working dependent". In 1951, the categories were "self supporting persons", "earning dependents" and "non-earning dependents". In 1961 and 1971, however, there was a shift to the labour-force approach, according to which a person was treated as "worker" if his activity during the reference period was productive one. Thus, from 1961 the concept of worker and non-worker came into being. The difference in the concepts in 1961, 1971 and 1981 Censuses is summarised below :

(a) 1961 CENSUS

"Workers" = main workers + marginal workers of 1981
"Non-workers" = non-workers of 1981

(b) 1971 CENSUS

"Workers' = main workers of 1981.
"Non-workers" = marginal workers + non-workers of 1981.

The questions which were canvassed in the individual slips during 1981 Census to elicit information on the characteristics of the population were as follows :

I. Q. 14A Worked any time at all last year ?
Yes
No (H/ST/D/R/B/I/O)

II. Q. 14B If yes in 14A, did you work for major part of last year ?
Yes (1)/No. (2)

III. Q. 15A Main activity last year ?
Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

IV. Q 15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No 14B No—Work done any time last year ? (C/AL/HHI/OW)

V. Q. 16 If no in 14A or 14B, seeking/available for work ? Yes (1)/No (2)

Basically, during 1981 Census the questions have been formulated so as to divide the population into those who have worked any time at

all during the last year and those who have not worked at all. Having classified the population into these two broad streams, the next attempt was to divide those who have worked any time into two sub-streams viz., those who have worked in some economic activity over a period of 6 months or more or in both the agricultural seasons and those whose work can be considered as marginal or secondary (i.e. less than 6 months). Finally an attempt has also been made to determine whether those who are non-workers or those who are marginal workers are either seeking or are available for work.

"Work" has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. In all these questions the reference period is one year preceding the date of enumeration. Some work viz., agriculture and household industry are carried on either throughout the year or during a particular season or part of the year depending on local circumstances. In such cases the reference period has been the broad time span of the agricultural season preceding the enumeration has been kept.

An attempt has been made in this publication to present data relating to "main workers", "marginal workers" and "non-workers" separately. In case of main workers the distribution of such workers among cultivators and agricultural labourers, those engaged in household industry and other workers have also been given. The main workers are those who have worked for a major part of the year preceding the enumeration.

"Marginal workers" are those who have worked any time at all in the year preceding the enumeration but have not worked for a major part of the year. The type of work in which marginal worker were engaged have been elicited through question 15B.

"Non-workers" are those who have not worked any time at all in the year preceding the enumeration.

If the number of main workers, marginal workers and non-workers are added up, one would arrive at the total population itself. In other words, these are exclusive categories.

Main activity of workers has been classified into the following four broad categories :

(i) Cultivator

A person is regarded as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops viz., wheat, paddy, Jawar, bajra and other crops, such as sugarcane, groundnut etc. and pulses, raw jute and kindred fibre crops, cotton, etc. and does not include fruit, growing of vegetables or keeping orchard or groves or working of plantation like tea, coffee, rubber etc.

(ii) Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation, but merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

(iii) Household Industry

"Household Industry" is defined as an industry conducted by the head of household himself/herself and/or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. It should involve production, processing, servicing or repair of articles or goods, not on the scale of a registered factory. The larger proportion of workers in a household industry should consist of members of the household including the head.

The main characteristics of the "Household industries" are the following :

a) One or more members of the household must participate. Participation by hired labour must be minimum.

b) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sell.

d) In an urban area the industry must be carried on in the precincts of the house in which the household lives. In the rural areas, the industry may be anywhere within the limits of the village.

e) The activity should not be on the scale of a registered factory.

f) Professions such as those practised by Pleader, Doctor, Barbar, Musician, Dancer, Dhobi, Astrologer etc. will not be Household Industry.

(iv) Other Workers

All workers i.e. those who have been engaged in some economic activity during the last one year, but are not cultivators or agricultural labourers or engaged in household industry are "Other Workers". This includes factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, teachers, priests and artists etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry are other workers.

Other particulars, viz., name of the establishment, description of work, nature of industry, trade or service and class of worker were also obtained in respect of those who returned "household industry" or "Other work" as their activity.

Non-worker

In case of persons who are non-workers throughout, information relating to them has been obtained through categories, as mentioned below :

i) Household duties

ii) Students

iii) Dependents

iv) Retired persons or rentiers

v) Beggars etc.

vi) Inmates of institutions

vii) Other non-workers

(i) Household duties

This covers all persons who are engaged in un-paid home duties and who do no other work, or have not done any work at all during the last one year. If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker. For example, a housewife may help in family cultivation or agriculture or make and sell cowdung-cakes etc. at odd times. She is treated as worker.

(ii) Students

This will cover all full-time students and children attending school. If a student participates in some economically productive work, like helping sometimes as an un-paid family worker in family cultivation etc. such students should be treated as a worker and not as student. Very often the daughter in the family helps in the household work though she is studying full time, in which case she is treated as student.

(iii) Dependent

This includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. Dependents include even able-bodied persons who can not be categorised in any other category of non-worker but are dependent on others.

(iv) Retired persons or rentiers

A person who has retired from service and is doing no other work and is not employed again in some full time work or engaged in some other work such as cultivation, business, trade etc. or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he/she does not have to work comes under this category. If a retired person is doing some work,in such case he/she is a worker.

(v) Beggar

This covers beggars, vagrants or persons without indication of source of income and those without specified source of subsistence, who are not engaged in economically productive work.

(vi) Inmates of institutions

This covers convicts in Jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc. in such institution. However, an under-trial prisoner enumerated in a jail is recorded for the work he/she was doing before he/she was apprehended. Similarly a person temporarily in a hospital or similar institution is recorded for the kind of work he/she was doing before being admitted into the hospital or institution. However, the previous work is not recorded in respect of long term under trial prisoner or convict or for long term inmates of penal, mental or charitable institutions. A person is considered as 'long term',if he or she is in such an institution for 6 months or more.

(vii) Other non-workers

This includes all non-workers who do not come under any of the above six categories, but are looking for work. A boy or girl who has completed education or has stopped studying and is looking for work comes under this category. Alternatively a person who is merely spending time at home as a dependent and is not doing any work and not seeking any work is not coming under this category. In case of students who may be seeking work and are quite prepared to give up studies, if they get a job they are to be recorded as 'Students'.

Area figure

In keeping with the census tradition, the Surveyor General of India provides the area figures for the State and district level. Hence the area figures of the district along with the spelling of the district name as adopted by the Surveyor General, India has been adopted in the publication, with a view to maintaining uniformity of data at the national level. The area figures of the units down below the district level, viz, tahasil, police station, towns have been given in sq. km. The Tahasildars had reported the area figures in acres in respect of the units in the rural area, whereas the Executive Officers of the urban bodies have reported the area figuers for the urban units. The area report in acres by such functionaries were converted into sq. km. Regarding the area of the villages, the same were also furnished by the Tahasildars. The total area of all tahasils of the district does not add upto the area of the district because the former represents the land-use area and is derived from the figures supplied by the local revenue authorities. Similarly the total of the village area may not tally with the rural areas of the tahasil. The difference may be due to the fact that the village area may not necessarily include the area under hills and rivers etc. which are included in the tahasil area besides, there are also varying methods on computation adopted at different levels. Area figures for the unsurveyed revenue villages have been left blank like the forest villages and are indicated as "Not available".

Though there has been no change in the boundary of the State between 1971-81, the revised computation in the area of some districts has resulted in marginal decrease of 135 sq. kms.

Density

The density (population per sq. km.) shown for the State/District/Tahasil/Police Station/Town have been worked out using the area figure corrected upto two places of decimals.

Spelling of administrative unit

As explained above, the spellings of district have been adopted from the Survey of India to maintain uniformity at all-India level. However, the spellings of lower units, viz., tahasils, police stations, village, town are in confirmity with the spellings available in the State Government records.

Physically handicapped persons

It is customary for the Census to introduce new concepts in every Census. Accordingly an attempt was made during the houselisting operation conducted in April-May, 1980 to find out the statistics regarding the physically handicapped

persons all over the country. Physically handicapped persons were broadly recorded under three categories, viz., totally blind, totally crippled and totally dumb.

The term "Totally crippled" refers to such persons who have not lost their arms or limbs The loss of arms or legs or all the 4 limbs refers to loss of both the arms or loss of both the legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus a paralytic who has lost use of both the legs or both the arms was taken as totally crippled, though the limbs are physically available. However, the loss of either one arm and/or leg did not classify a person as totally crippled. There are other situations where a person unfortunately suffers from more than one of the aforesaid disabilities. In such cases, the intention was to record the persons by greater disability. For example, a person may be both blind and dumb or blind and crippled. In such cases the intention was to find out the greater disability, whether blindness is considered as greater disability than either dumbness or being crippled. Similarly being crippled is greater disability than being dumb. In the extreme cases, where a person suffered from all the 3 disabilities, it was recorded under the category 'blind' which is certainly the most unfortunate disability. It was usual to find a person blind or crippled due to old age and such cases were also taken note of and categorised under appropriate classification since he suffered from disabilities

Brief History of the District

The present district of Baleshwar in ancient time was a part of Kalinga. During the Moghul rule of Sahajahan the English Merchants established themselves in Baleshwar and in fact the Baleshwar region witnessed the first English Settlement in Bengal Presidency in 1634. In 1640 the English factories were established in the town and the Dutch and the Danish settlement were founded soon after that. It came under Maratha rule in the 18th century and in 1803 Orissa was occupied by the English. The district of Baleshwar was created in October, 1828. National Movement in Baleshwar started in 1921 after the visit of Mahatma Gandhi alongwith popular feelings expressed against the ruler of Nilagiri State. In January 1948, when the ex-states merged with Orissa, the ex-state of Nilagiri was added with Baleshwar.

The District Magistrate and Collector is the head of the district administration and is assisted by two Additional District Magistrates. For administrative convenience, the district has been divided into three Sub-divisions viz., Baleshwar Sadar, Bhadrak and Nilagiri each in charge of a Sub-division Officer for general administration. So as the revenue administration is concerned the district has been divided into 9 (nine) Tahasils each kept in charge of a Tahasildar. Land Revenue collection and revenue administration is carried through 140 Revenue Inspector Circles available in the district as on March, 1981. Each Revenue Inspector is kept in charge of a group of villages. Development administration, however, is looked after by the Sub-divisional Officer at the sub-divisional level and carried through 19 Block Development Officers each in charge of a development block. The development blocks are further sub-divided into 285 Gram-panchayats of the district for proper co-ordination of developmental activities. The Sadar sub-division alone has 10 number of blocks, followed by Bhadrak sub-division with 7 blocks and Nilagiri sub-division having only 2 blocks. There are 21 Police Stations in the district to run the general administration besides the law and order situation. The district has also got 5 statutory and one non statutory urban areas, such as Baleshwar Municipality, Notified Area Councils at Jaleshwar, Soro, Basudevpur and Bhadrak and the Census Town at Chandabali.

District Census Hand Books

Among the traditional documentation of the Census, the fairly comprehensive and uniform publication of District Census Handbook (D. C. H.) consisting of town and village directory and town and villagewise Primary Census Abstract (P.C.A.) has been found to be very useful and are constantly referred to by the planners and data users. The District Census Handbook is the only publication that incorporates the data down to a village level in rural area and upto ward level in the urban area. The data published in these volumes are of immense value to the planners, scholars and administrators for the purpose of village level, block level and district level planning and studies. It is a publication of the State Government. The cost thereof is borne by the State Government. However, the Director of Census of the State is responsible to the extent of providing necessary data which are obtained through Census.

This document was first published as an auxiliary to 1951 Census, consequent upon the request of the Government of India to State Government to publish District Census Handbooks containing statistical information relating to villages, towns and police stations etc. of the districts. The State Government agreed to this and decided to bring out District Census Handbook as a priced publication to be published in the State Government Press. This publication since then is continuing with unbroken chain. Apart from giving the rural statistical information, it readily gives a complete list of villages contained within a Police Station and District. It will not, however, be out of place to mention here that in many districts, complete list of villages is not maintained properly and the present list is the result of extensive enquiries and contacts with different agencies and can be regarded as exhaustive.

To make the data component more illustrative maps of the district, tahasil and police station are also published in the publication. The Police Station maps showing the villages as per the population size, having different amenities represented in approved legend will help the readers in easy appreciation.

According to the 1951 publication programme the District Census Handbook was published in one volume and did not contain information given in the village and town directory. Apart from this the brief introduction of the district, general features, density map, prescribed tables for general population, economic tables, social and cultural tables and village statistics were provided in the District Census Handbook. The Primary Census Abstract was given under the heading "village statistics". However, the information on villagewise list of displaced persons, and information on small scale industries were presented in the 1951 District Census Handbook volume.

Similarly, 1961 Census publication was presented in one volume. This volume was divided into 3 parts. First part contained the introduction of the district, second part contained the census tables and the official statistics was given in the third part. The information given in the Village Directory and Town Directory for 1981 Census was not given in the 1961 District Census Handbook. The villagewise Primary Census Abstract was given in the second part under the heading of "Village Directory". The information on villagewise list of industries and tables on fairs and festivals were presented in 1961 District Census Handbook publication.

According to the 1971 Census publication programme, the District Census Handbooks were to be published in 3 volumes; Part-A containing the data on amenities, Part-B incorporating Primary Census Abstract (P. C. A.) and Part-C giving administrative statistics and census tables. District Census Handbooks, part-A and part-B for the 1971 Census could be published quickly. Both these volumes were in great demand by the data users, as they contained a vast mass of data on amenities available in the Village/Town alongwith demographic features. In regard to the District Census Handbook Part-C, we faced difficulties in collecting administrative statistics from various Offices and our progress in

publishing the report was considerably delayed. After obtaining necessary statistics, much difficulty had to be encountered in printing of the part-C, which was pending in the State Government Press at Cuttack for a pretty long time. Under compelling circumstances the manuscript could be printed in the Private Presses located at Cuttack and elsewhere. In view of the inordinate delay in collecting administrative statistics which would in any case be available to the data users in the publications of the respective Statistical bureaus/departments of the State Government there was re-thinking in the matter to drop the publication of part-C of the District Census Handbook for the 1981 Census.

However, it has been decided to publish the 1981 District Census Handbook in two parts. Part 'A' would be confined to village and town directory, whereas part 'B' would be confined to village and townwise Primary Census Abstract including Scheduled Castes and Scheduled Tribes Primary Census Abstract upto Police Station/ Town levels. Despite the fact that publication of both the parts in one volume would have enhanced the value, it could not be helped in respect of the bigger districts comprising large number of villages and towns. Therefore, the publication has been broken up into two volumes (Part 'A' and 'B').

By and large, the contents of the Village and Town Directory are almost similar to those adopted for 1971 Census, barring a few changes necessitated by the requirements of the planners and data users.

The new feature of 1981 format is having provision of the distance range of the particular amenities to a village where it is not present. A few items of information like adult literacy centres have been introduced in the village directory to meet some requirement of the Minimum Needs Programme.

Another introduction viz., "total population and number of households" for each village has been shown in the village directory to ascertain the co-relation of the amenities with population and number of household they serve. Since current day planning has been initiated from the Community Development Block level, villages coming under each Community Development Block has been furnished in the annexure of the village directory for the facility of the administrators and planners, which is a departure from the earlier Censuses.

Similarly in the Town Directory, information on Scheduled Castes and Scheduled Tribes population in statement-IV and availability of adult literacy centres in statement-V are innovations keeping in view the requirement of Minimum Needs Programme.

The significant change in the Town Directory is the provision of class of town in all statements for analysis of the infrastructure of amenities.

Both the Village and Town Directory and objectives of various columns thereunder alongwith the connotation of various abbreviations used therein have been explained in the relevant sections.

Scope of Village Directory

The data on village directory have been presented Tahasil/P.S -wise and Village-wise. The village includes revenue village and the clusters of habitation located in any tract mentioned thereunder. The names of villages have not been arranged alphabetically since location code thereof have been provided in ascending order. However, for facility of the readers, an alphabetical list of villages under each Police Station with its location code numbers has been provided at the beginning of the village directory. In case of a village treated as an out-growth of an urban agglomeration, the code number and name have been provided minus data thereof which has been shown against such core town. In case of part-village forming a portion of an out-growth, the corresponding data has been shown in the village directory. In case of census towns, such villages have been listed in the village directory without any data on amenities, for which the town directory has to be referred to. However, the land utilisation data for such census town has been made available in Appendix—II

It has been the tradition of census to present maps of constituent administrative units beginning with the district, followed by Tahasils, and Police Stations thereunder. All the maps so presented in this volume have been authenticated by the concerned revenue authorities in so far as the boundary and spellings and locations are concerned. In case of the units adjacent to the coast land of the State, such maps have been cleared by the Survey of India through the office of the Registar General, India.

In addition to the district map, the administrative map of each Tahasil/Police Station has been given in the beginning of the village directory of that Tahasil/Police Station. The boundaries of Police Stations in the Tahasil, location of towns, large villages, rivers, roads, railways, hills forests and important institutions such as High Schools, Colleges, Medical Institutions, Post & Telegraph Offices etc. have been shown in the Tahasil map. An administrative map of the Police Station has also been presented in the beginning of the village directory of that Police Station giving the boundaries of the villages in location codes and towns located within it and other details similar to the Tahasil map. Besides, villages have also been shown through symbolic representation by different population sizes. The uninhabited villages have been shown by cross marks (X). The shaded portion of the map represents the area of the towns.

The information on Village Directory has been provided in the statement containing 20 columns giving areas of the village in hectares, population and number of households, amenities viz., educational, medical, drinking water, power supply, post and telegraph and communication etc. available in the village. In case of non-availability of any of the amenities the distance range of its availability has been provided in the directory. Similarly, the land uses pattern of the village providing the extent of forest area, area under irrigation, un-irrigated area, culturable waste and area not available for cultivation have been indicated in the directory in hectares. Places of religious, historical/archaeological interest have been shown for reference of the readers.

COLUMN 14— *Staple Food* :— Staple food refers to grain and only relates to the majority population of the village using for major portion of the year. Combination of grains in staple food viz., rice, wheat and maize etc. have been indicated.

COLUMN 15 to 19—*Land Use* :— The land use pattern given in the village directory conforms to the pattern of classification of

land use as recommended by the Ministry of Agriculture, Government of India. The guidelines in this regard are as follows. :

1. Forests
2. Not available for cultivation :
   (a) Lands put to non-agricultural uses
   (b) Barren and un-culturable lands
3. Other un-cultivated lands excluding fallow lands :
   (a) Permanent pastures and other grazing lands
   (b) Lands under miscellaneous tree crops and groves not included in the net area sown
   (c) Culturable wastes
4. Fallow lands :
   (a) Fallow lands other than current fallows
   (b) Current fallows
5. Net area sown.

In the village directory Column-15 (forest) represents, the category one above. Column-16 (Irrigated) and column-17 (un-irrigated) given break-up of agricultural land, which are a combination of categories-4 (a+b) and 5 above. Column-18 (culturable waste) corresponds to category-3 (a+b+c) above. Column-19 (area not available for cultivation) corresponds to category-2 (a+b). Area figures of the village have been shown in hectares. The total of figures under columns 15 to 19 will not necessarily tally always with the total area of the village as indicated in column-3 of the directory, as there are waterways and hills etc. which may not be included in the land use statistics of the village.

Forests may mean either state owned or private forest and whether wooded or maintained as potential forest land. There are situations where patches of land have been put to agricultural use within the statutory notified forest and have been considered as forest by the revenue administration. These areas have been treated as forest. In Orissa, forest is broadly known under two categories, viz., village forest, known in local parlance as khesra forest and reserved or protected forest. The village forest constitutes an integral part of the village area unlike the reserve or protected forest. This is because communal right in land is not exercisable in the areas known as reserve forest under the Orissa Forest Act.

Leaving aside this, 4 Appendices in the village directory have been presented in this publication, which is a distinct feature of the current census publication.

These are :

i) Tahasil/Police station-wise abstract of educational, medical and other amenities.

ii) Land utilisation data in respect of non-municipal towns(Census Towns).

iii) Tahasil/Police Station-wise list of villages where no amenities are available and

iv) Tahasil/Police Station-wise list of villages indicating the proportion of Scheduled Caste/Scheduled Tribe population to the total population by ranges.

These appendices are new to the present census which provides Tahasil-wise abstract of villages on different priorities. The intention is that the abstract will be helpful for planning inputs in areas/villages where the basic infrastructure is lacking. Similarly the Appendix—IV will be helpful for planning of welfare programmes, for Scheduled Castes/ Scheduled Tribes at micro-level, as it provides data by ranges of Scheduled Caste/Scheduled Tribe population.

Scope of Town Directory

The town directory is intended to cover all the towns in the district statutorily notified as such as also the non-municipal census towns. The towns have been arranged in the town directory in the alphabetical order and do not cover strictly the military areas. The data on amenities and other aspects presented in codes has been explained in detail in separate chapters. Regarding the urban agglomeration the conventional creation of census the names of such agglomerations have been indicated which is similar to the name of the main town of the agglomeration. The particulars for such constituents of the agglomeration have been furnished separately. Such presentation was operationally found to be convenient to have an idea of the particulars of the city or town agglomeration in toto and also severally.

Regarding the out-growths which do not classify to be treated as town, the particulars are not separately available. The directory particulars relating to the out-growths have been merged with the different town and have not been shown separately.

To sum up the earlier format of 1971 D.C.H. Part-A has been restructured for 1981 census, keeping in view the objectives of the Planning Commission for the Minimum Needs Programme and the revised 6th Five Years Plan. More interest has been taken to know the over-all infrastructure in terms of amenities, however, modest or from whatever source it may have been provided.

Information on town directory has been furnished in 6 separate Statements. The scope and the content of the statement adopted for the towns is briefly explained below :

Statement I—This statement gives the status and growth history of the town. In columns 1 and 2, serial No. of the towns in alphabetical order and names of the town with class and civic administrative status have been furnished. in columns 3 and 4 location code of the town has been indicated giving the names of the tahasil under which it is located. Column 5 gives the area figures of the town in sq. kms. The number of households including the houseless household has been shown in column 6. In columns 7 to 15 the population alongwith the growth rate of town from 1901 to 1981 have been shown, for easy comparability. In column 16 density i.e. population per sq. km. has been furnished. In columns 17 to 19 the sex ratios (females for 1,000 males) as recorded from the 1961 census onwards have been furnished.

Statement II—It provides the physical aspects and location of the town. In columns 3 to 5 the average rainfall and temperature have been furnished. Distance of the town in kilometers from the State Headquarters, District Headquarters, Sub-divisional Headquarters/Tahasil Headquarters, the nearest city with population of one lakh or more, railway station, bus route, navigable rivers/canals within 10 kms. It have also been indicated in column 6 to 12 respectively.

Statement III—The statement reveals a picture of the municipal finance for the year 1978-79. The receipts of the urban local body from various sources have been provided under columns 4 to 10 whereas the expenditure under various items have been disclosed under coumns 11 to 17.

Statement IV—It gives information relating to civic and other amenities as it stood in 1979. Scheduled Castes and Scheduled Tribes have been given under columns 5(a) and 5(b) of the statement. The road length in kms. has been shown under column 6. The system of sewerage, number and type of latrines available in the town in addition to the method of disposal of night soil have been shown under columns 7 to 11. Columns 12 and 13 of the statement deals with the source of water supply and system of storage of the town.

Column 14 of the statement provides the availability of fire service if any in the town. In case, such service is not available in the town, the name of the nearest place where available has been shown alongwith the distance from town. Electrification with number of connections for different uses has been shown in columns 15 to 19 of the statement.

Statement V—In this statement information relating to medical, educational, recreational and cultural facilities in the town has been shown. Medical facility available in the town has been shown in columns 4 and 5. Educational facilites, viz., number of different types of Colleges. Technical Schools, recognised commercial and vocational institutions, Higher Secondary Schools, Secondary Schools, M. E. Schools, Primary Schools and Adult Literacy Centres have been indicated in columns 6 to 15. Column16 shows the Working Women's Hostel with the number of seats. Columns 17 to 20 of the statement discloses recreational and cultural facilities like Stadia and Cinema halls etc. available in town. In case of non-availability of medical and educational facilities in the town the name of the nearest place along with the distance where the ficility is available has been given.

Statement VI—This represents the information on Trade, Commerce, Industry and Banking as it stood in 1979. In columns 3 to 5, important commodities as imported into the town have been mentioned as against the exported items out of the town shown under columns 6 to 8. The names of the three important commodities manufactured in the town have been shown in columns 9 to 11. Number of banks, number of agricultural credit socities and number of non-agricultural credit societies available in the town have been furnished in columns 12 to 14 respectively in the statement.

There is no notified slum area in any of the towns of the State. Hence, the prescribed statement IV-A has not been provided in the Town Directory.

The towns having out growths have been provided in an Appendix to the Town Directory showing their population separately.

Physical Aspects

Baleshwar is the north-eastern district of Orissa and lies between 20° 43′ N and 21° 59′ N latitude and between 86° 16′ E and 87° 29′ E longitude. The district lies in the northern portion of Orissa with the Bay of Bengal in the east and sharing common borders with the district of Cuttack in the south, Mayurbhanj and Kendujhar in the west, and Midnapore (West Bengal) in the north. The arc shaped coastal line extends to 130 Kms. joining the coastal line of the district of Cuttack in the south to that of Midnapore in the north. The area according to the Surveyor General of India is 6,311 Sq. Kms. and area-wise the district ranks 13th in the State. The current operation has recorded the population of 22,52,808 and it ranks 6th in the State. Out of this population, the Scheduled Caste component is 4,04,197 as against Scheduled Tribe population of 1,54,153. The percentages of Scheduled Caste and Scheduled Tribe population of the district to the total papulation works out to 17.94 and 6.84 respectively.

The disrict is composed of 3 distinct geographical regions viz., the coastal belt, inner alluvial plain and north-western hills. The coastal belt is a narrow maritime strip of land 2 6 miles in width, running alongwith the coastal line. Towards the beach there are sand dunes and ridges covered with crippers traversed by brackish streams. This part is generally not fit for cultivation but considered suitable for salt manufacture. In the recent years, coconut plantation and betel vines are found in the inner fringes of the belt The 2nd tract is the deltaic alluvial plain, covered with vast stretches of fertile paddy land and most populous. This tract has no forest. The 3rd region comprising mostly Nilagiri sub-division is predominantly hill terrain and covered with tropical semiever green forest. The hills of Nilgiri has the highest peak of 1,783 ft. above the sea level and this region contains valuable timbers and stone quarries.

The district is intersected by number of rivers and streams. Important of them are the Subarnarekha in the north, the Budhabalang in the central region and the Baitarani in the southern periphery. In the south the area is traversed by the tributaries of the Baitarani viz., Salandi, Genguti and Mantei which are responsible for drainage of enormous mass of water causing extensive floods particularly in Bhadrak sub-division.

The soil of the district is mainly alluvial and laterite besides a small strip of saline soil along the coast. The soil in the central region is composed mostly of clay, clay loom and sandy loam.

The district has 40,240 Sq. Kms. of forest area, out of which 84.74 Sq. kms. comes under reserve forest category only. Nilagiri sub-division is predominantly having the maximum forest area.

Being a coastal district the climate is generally hot with humidity. The cold season from December to February is followed by hot season from March to May. The period from June to September constitutes the south-west monsoon season. The mean atmospheric temperature varies from 22°C to 32°C. The average annual rainfall in the district is 1,583mm. Precipitation is being highest in the months of July and August. The district is frequently on the tract of most of the cyclonic storm and depression which form in the Bay of Bengal in the Orissa coast.

Jurisdictional Changes—During the decade 1971-81, a new tahasil at Basudebpur was created by way of transferring the entire Basudebpur Polic Station area coming under the jurisdiction of Bhadrak tahasil earlier in Bhadrak subdivision. The other changes relate to transfer of one village from Nilagiri Police Station to Berhampur Police Station which came under the jurisdiction of Nilagiri tahasil under the same sub-division.

The changes in Sadar sub-division relate to Baleshwar Police Station and Sheragada Police Station in Sadar sub-divison of Baleshwar district. The Sheragada Police Station was existing in census record in 1971, for which necessary notification of the State Government regarding this formation was not avilable despite of all attempts with relevant offices of the State Government. Thus, all the villages forming the Sheragada Police Station earlier have been shown under Baleshwar Police Station in the current operation.

Major Characteristics of the Dirstrict

Mining—There are no minerals of any great economic importance in the district. There are some stone quarries in hilly tracts. Mica and and soap stone are also available in some areas.

Industry—In the earlier days this district had the reputation of being one important centre of commerce and export trade. In the recent plan period various steps have been taken by the Government for rapid industrialisation in the district with the collaboration of the Industrial Promotion and Investment Corporation of Orissa Limited (IPICOL). Jute, twine and vegetable oil industries have been set up at Rupsa and Baleshwar repectively. A Charge-Chrome factory with an investment of Rs. 30 crores is coming up at Bhadrak. Another Paper Mill with an investment of Rs. 1·8 crores is coming up near Mitrapur. In Co-operative Sector a spinning mill is proposed to be set up at Nilagiri. Besides these, further industries like producing fibre glass boats and trawlers, straw board, printing paper, rigid PVC pipe fittings are under emplementation at different places in the district, which on completion will provide employment oportunity for the local people and growth of ancillary industries around.

Orissa Industrial Infrastructure Development Corporation (IDCO) the State Government undertaking has taken up a programme of setting up well-planned industrial estates in the identified growth centres for locating the small and medium industries by way of constructing industrial estates and allotting land with infrastructure for the industrialists. The Corporation has already constructed 23 sheds in the industrial estate at Baleshwar and further construction has been taken up to accommodate the additional demand for sheds.

In pursuance of the Government policy for rapid industrialisation, emphasis has been made for expansion of Cottage Industries and Small Scale Industries Centres. District Industries Centres were set up in 1978 to bring about.

(i) a rapid development of small, village and cottage industries in towns, villages and backward areas.

(ii) additional avenues of employment and

(iii) a reduction of regional imbalances with regard to industrial development.

The objectives include appraisal of projects, recommendation to the lending institutions for timely availability of loan, providing technical assistance and organising training programme for man power development besides assuring availability of raw-materials and market for helping the industries.

With a view to provide employment to the large number of artisans and unemployed, unskilled youths, the district has mounted a big programme for devlopment and revival of rural crafts and industries. According to the adhoc survey conducted by the District Industries Centre, the total number of rural artisans in spatial concentration, has been repoted as 54,038 for the entire district. By March, 1981, 796 Small Scale Industries existed in the district which provided employment to 5,258 persons. These industies cover rice and flattened rice processing unit, oil mill, textile, bakery and confectionery, ice candy, saw mill and wooden furniture, cold storage, stone crusher, printing press, brick kiln, leather and foot wear, cement tile, synthetic polymer, coal briquette tyre retrading, fish mill, bone mill, fishing boat, wax candle etc. 4,010 artisan units were functioning which provided employment for 5,848 persons. After imparting training to the interested individual, impoved tools were supplied to the artisans so as to start new industries. 3 Panchayat Samiti Industries on Carpentry and Blacksmithy are doing progress in Remuna and Nilagiri

Power—The district does not have any potential for power generation, hence the supply depends on Talcher Thermal Grid. All

the urban areas of the district have been electrified. Under the Rural Electrification Scheme 2,078 villages of the district were electrified by the end of March, 1981. By the said period 1,252 number of Lift Irrigation Points were energised. The number of power consumers for various purposes as on March, 1981 are 1,621 for agricultural, 1,649 for industrial, 6,659 for commercial and 22,874 for domestic purposes.

Agriculture—The net area shown in the district is 4.32 lakh hectres. Irrigation is available for limited areas, hence more percentage of the land shown is under dry land farming. For maximisation of yield, adminstration has put emphasis on maximum coverage of high yielding drought resistant variety of crops besides optimum dose of plant nutrients under short duration. Farmers are being educated for use of improved tillage empliments for preservation of silt and diversification of cropping pattern by extention of area under non-paddy crop and adoption of multiple crop pattern. The strategy includes reduction of paddy crop area and includes the areas under millets and other less exhaustive crops for which the farmers are being motivated by way of demonstration. Efforts are also being oriented incerease productiom of pulses and oil seeds.

The principal crop of the district is paddy followed by other crops viz., greengram, jute; chilly, ragi, blackgram, groundnut, mustard etc. Under kharif, coverage of 4·49 lakh hectres were achieved in 1980-81 which include an area of more than 4 lakh hectres under paddy alone. The kharif crop mostly include paddy, ragi greengram, blackgram and groundnut. During rabi season the achievement of 1,63,840 hectres was reported during 1980-81, which included 18,155 hectres under cereals, and 80,062 hectres under pulses, besides 21,383 hectres under oil seeds.

Co-operation—By March, 1981, the district has 443 number of Co-operative Societies which include 247 Primary Agricultural Co-operative Societies; 38 Primary Consumer Co-operative Societies, 14 Co-operative Market Supply Societies, one Poultry Co-operative Society. 22 Housing Co-operative Socities and ,34 Fishery Co-operative Socities. The total membership under Co-operatives is 3·09 lakhs in the district as on March, 1981.

The district Co-operative Central Bank with its 14 branches scattered in the district, attends the financial need of the Societies and advance, short term and medium term loan to the needy farmers. The district has 3 Co-operative Land Development Banks functioning at 3 Sub-divisional head quarters. The major area of lending operations are under minor irrigation, betelvine and pisciculture. The Regional Co-operative Marketing Society has 5 branches in the district which take up distribution of fertilisers, pesticides, agricultural implements to the needy farmers besides procurement of paddy for the rural areas.

Animal and Husbandry—According to 1977 livestock census, the livestock population of the district is as follows :—

Cattle	...	1,076,852
Buffalo	...	20,979
Goat	...	314,421
Poultry	...	565,919
Sheep	...	9,729
Horse & Pony	...	306
Pig	...	9,055
Ducks	...	13,752

The Blocks of Jaleswar, Remuna, Bhograi, Khaira, Sadar, Bhadrak, Chandabali and Bant are rich in cow population. However, Chandbali, a costal block has the highest number of Buffalos. Regarding Poultry population, Nilagiri block ranks first. Goat population is the highest in Jaleswar and Dhamanagar blocks.

Regarding veterinary facility, besides one veterinary hospital, there are 31 dispensaries, 180 livestock aid centres, one dairy farm and 3 poultry farms in the district. The developmental programme of the district is carried through these intitutions located at different places of the district.

Activities allied to agriculture encompasses a variety of activities linked with livestock farming, which includes programme under dairy, poultry, goatery etc., with a view to supplement the agrarian income. Under this approach, special schemes like ERRP, IRD, ITDA and Scheduled Caste Schemes have been taken-up, which provide facility for infrastructure, suppply of livestock, incentive like subsidy and loan alongwith market availability.

Under Dairy Programme, 415 units under ERRP, 101 units under IRD, 10 units under ITDA and 22 units under Scheduled Caste Schemes have been functioning by March, 1981. Under Goatery Scheme, 655 units under ERRP, 50 units under ITDA, 957 units under IRD and 150 units under Scheduled Caste Scheme is the reported achievement by March, 1981. 30 duckery units besides 40 poultry units and 61 pigery units are functioning in the district by March, 1981. There are 32 Milk Producers Co-operative Societies besides 2 Poultry producers Co-operative Societies in the district. In view of the demand for cattle-feed and limited grazing ground, fodder cultivation is being popularised and during 1980-81 an area of 150·75 acres were brought under fodder cultivation.

Irrigation—The district has a potential of 91,088 hectres on 31-3-81 as indicated below source-wise.

Salandi Canal System	...	37,086 Hectres
High Level Canal-III	...	19,445 Hectres
M. I. P. (including 1,874 Hectres under Jalaka barrage available for Rabi only)	...	5,896 Hectres
Lift points under O.L.I.C	...	30,535 Hectres

The availability of irrigation facility both for kharif and rabi crops as on March,1981 may be seen below.

Sl. No.	Source	Kharif	Rabi
1	2	3	4
1	Salandi irrigation-project	37,086	18,800
2	High level Canal-III	19,445	764
3	Minor irrigation projects	4,022	1,874
4	Lift irrigation	30,535	18,542
	Total	**91,088**	**39,980**

Thus it may be seen, a small cropped area of the district is provided with irrigation facility and the major chunk are rain fed. The Minor Irrigation Project having more than 60 hectres ayakut are administered through the Minor Irrigation Division of the Irrigation Department, whereas the projects having less than 60 hectres ayakut are administered by the Panchayat Samiti.

To tap the ground water resources, other irrigation measures like lift irrigation and Dug-well have been taken up in the last decade. According to the ground water survey 32,745 Dug-wells and 5,527 shallow tube-wells are feasible. Such projects are being financed by the Co-operative Sector and different Commercial Banks. Chandabali, Tihidi, Bhograi and Baliapal have been excluded from the dug-well programme due to want of feasibility, whereas optimum utilisation have been reported in Nilgiri Soro and Khaira Block areas. Upto March,1981, 881 Dug-wells have been completed in the district.

Pisciculture—Fishery activities in the district is of considerable socio economic significance so as to provide gainfull employment to a sizable segment of the people. The district is abundant in inland as well as marine fishery ground. The inland resources constituted 23,810 tanks with an water area of 10,988.50 acres.

During the recent plan period emphasis has been laid to improve the pisciculture, so as to supplement the agrarian income wherever

possible. For devleopment of inland fishery, during 1980-81, 125·001 lakhs of spawn were stocked and distributed. Besides this by introducing breeding technique quality spawn was produced to the tune of 171 001 lakhs. Fish farmers are being educated on intensive fish production. Under this scheme 23.15 acres were covered during 1980-81. There are 4 departmental fish farms at Dighi, Bhadrak, Randia and Bant were quality spawn are reared up and fries were distributed to the interested farmers. Under tank fishery scheme, an water area of 8·06 acres were covered during 1980-81 through the Integrated Tribal Development Agency functioning at Nilagiri and 4 acres of water area were developed during 1980-81 for improving the economic status of the Tribal people

Fish farmers Development Agency (FFDA) has been set up by the Government in 1980 and have completed the survey of the potential and prepared a block-wise action plan from 1980 81 to 1984-85. The agency proposes to develop an water area of 6,000 acres by 1985. Grampanchayat tanks numbering 457 with an water area of 174·52 acres have been settled on long term lease for development of pisciculture. The agency has recommended pisciculture in 2,108 number of tanks covering an area of 438 acres.

Regarding marine fishery, pisciculture was taken up departmentally at Chandipur and Dhamara. Cold Storage Plant has been set up at Chandipur Traditional fishery-men are also being given financial assistance for country boats and net for marine fishery During 1980-81 99 beneficiaries were covered which included 47 Scheduled Caste persons. There are two fisheryman Co-operative Societies functioning in the district for marine fishery and 3 societies for inland fishery. Institutions for training on marine fishery have been opened at Chandipur and Dhamara to encourage pisciculture.

To encourage brakish water fish farming in the coastal belt, survey work has been taken up in the district and by 1980 81 an water area of 1,994 18 acres were surveyed

Communication—From the remote past, the high road running from the north to south of India along the eastern coast, was the only outlet for the invaders, piligrims, merchants and travellers. Compared to other districts of the state better infrastructural facility is available in this district. The National Highway No. 5 running from Calcutta to Madras runs through the district. The road length of the district under different categories are given below in Kms.

National Highway	106.5
State Highway	50.3
Major District Road	374 5
Other District Road	192·2
Urban Road	304·00
R.E O Road	433 0
Panchayat Samiti Road	416.0
Grampanchayat Road	3,023 0
Classified Village Road	188 6

The district headquarters has got all weather road communication with the state headquarters as well as all district headquarters besides important places in the state. All sub-divisional headquarters, Tahasil headquarters and Block headquarters have all weather road communication. The State Government transport organisation are playing passenger bus services on all the routs of the district. However, private bus services are also available in many important routes.

The main railway line runs from Haora to Madras in the south-eastern railway passes through this district from north to south and the district has 132 Kms. covered by railway trak

The main rivers flowing in the district are Baitarani, Budhabalanga, Subarnrekha and Salandi which are navigable only in the rainy season.

In earlier days there were ports at various places of the district which were abandoned due to silting of river mouth The only port which was retained at Chandabali is in the left bank of river Baitarani in Bhadrak sub-division. The export of commodities through this port is mainly rice.

Harijan and Tribal Welfare—Upliftment of the living condition of the Harijan and Tribal Welfare people had received momontum during the plan period as a measure of state policy. For promotion of education, number of institutions have been expaneded in course of time. By March, 1981 there were 43 Sevashrams, 2 High Schools and one Kanyashram in the district having 1,619 Scheduled Caste and 2,424 Scheduled Tribe students. As a measure of incentive, award of Pre-matric and Post-matric Scholarships are being given to encourage education. During 1980-81, 86 Scheduled Tribe and 705 Scheduled Caste students were awarded Post-matric Scholarship. By March, 1981, 1,395 Scheduled Caste and 7,880 Scheduled Tribe students had received Pre-matric Scholarship in the district. In addition to this other incentives like supply of nationalised text books, supply of uniform etc. are being made available to the students.

The tribal concentration of Nilagiri block have been covered by the Integrated Tribal Development Agency where special attention is being made for upliftment of the living condition of the tribals. Various schemes under agricultural and non-agricultural sectors have been intiated to supplement the agrarian income of the tribal families. These include schemes under pisciculture, animal husbandry, particularly diary, poultry industry, horticulture, construction of roads and schools, irrigation sources and drinking water sources besides public health measures. Emphasis has also been laid to popularise land reclamation and land development for horticulture, cashew plantation and sabai plantation. Necessary training on different avocation are being imparted to the interested farmers.

Another modified area development scheme is also in operation in Jaleswar block for upliftment of the living conditions of the identified tribal families. Under this programme different measures have been initiated under agriculture, animal and husbandry, industry etc. to supplement the income of the family. Construction of roads, school buildings drinking water wells are being taken up. So far 436 Scheduled Tribe persons have availed of goatery scheme. Necessary flow of finance from the lending institutions have been assured for the intersted farmers.

Leaving aside the Special programmes in the aforesaid 2 blocks, the weaker sections of the Community in the rest 17 number of blocks are being served by the District Rural Development Agency. Target group of families have been identified and covered under this programme.

Financial assistance is also being available to the weaker section for construction of dwelling houses.

Housing—Apart from providing house site for the houseless persons towards the construction of houses as a measure of State Policy, Government are also constructing houses for the economic weaker section and providing necessary financial assistance to the individuals towards construction of houses.

Integrated housing scheme was introduced by the Government in all the districts. Under this scheme, beneficiaries are identified, who were provided with financial assistance for construction of their houses. In this district by March, 1981, 512 number of houses have been constructed and ownership transferred to the concerned beneficiaries. This includes 71 number of Scheduled Caste and 433 number of Scheduled Tribe benficiaries.

Village housing project scheme has also been implemented where financial assistance are being made available for construction of dwelling houses by the individuals in the rural area in their own sites.

Loan assistance is being made available to the individuals under low income and middle income group. Under low income group, 342 beneficiaries alongwith 117 beneficiaries under middle income group have been benefited so far in the district.

To do away with the housing problem in the urban area like Baleshwar, Bhadrak, with particular reference to the slum dwellers, housing programme have been taken-up by the Government.

Education—The district is educationally advanced compared to the neighbouring districts. In the post independent era opening of new Schools and Colleges throughout the length and breadth of the district has provided additional avenues for educational advancement. There were 403 High Schools, 962 M E. Scools and 2,399 Primary Schools besides 7 Training Institutions in the district as on March, 1981. The students strength at pimary level was 261,180 and in M.E. stage was 70,100 whereas 60,538 students were available at High School level. The teacher student ratio at High School level is 1.17, at M.E. School 1 : 19 and at Primary School 1:48.

For spread of education and attracting the chilldren number of incentives such as supply of free uniform, free text-book, award of attendant scalarship for girl students etc. are being given. By March, 1981, 13,179 boys were benifited under suply of free uniform and 38,993 were benifited under supply of free text-books.

Rural Functional Literacy Programme is in operation and the objective is to remove the illiteracy creating social awareness among them. The beneficiaries under this programme are from the age group of 15 to 35. In 1980-81, 300 adult literacy centres with 9,000 beneficiaries were in operation.

Water Supply—The district is usually affected by natural calamities like flood, drought and saline inundation. Either the existing drinking water resources go up dry or pose unhealthy sanitary problems. In hilly terrain of the district like Nilagiri, the existing drinking water sources dry up. The scarcity villages of the district, where provision of drinking water has been taken up on priority. Tube wells were preferred to as a necessary measure for suyply of drinking water Such tube wells have been taken up under different programmes like draught, flood, MNP, ARNSP, DANIDA etc. By March, 1981, the district had 8,080 tube wells in usable condition besideshaving ambitious target for the subsequent year.

Land Tenure—The distr ct comprises 3 Subdivisions of which Nilagiri was the ex-state areas where the regulation or ex-state Government were in force earlier. In Nilagiri State, First Settlement was attempted by the Darbar Administration during the years 1849, thereafter in 1886, 1897 and 1917. In the later period Survey was taken up on notional basis. After the independence due to rationalisation of land structure and tenure, the Survey and Settlement operation of the State Government was taken up reducing the classification of land and rationalising the Statuses existing under different names hitherto. By March, 1981 3,892 villages were covered by this programme and 2,070 villages were completed from final publication of records of rights. For the rest, the operation was in progress. The present settlement has recorded the following classification of land in the district in respect of cultivated areas only.

1 Sarad-I

Tenancy—Consequent upon abolition of estates and agrarian reforms brought out by the legislative measures in the recent past, almost a total change has been effected in the tenancy system. Their effect has been so fundamental and widespread that the entire texture of relationship between State and the land holder on the one hand and the tenat with his immediate land-lord on the other has undergone a metamorphosis. As a result, the status of land has changed its complexion and character in the same manner as the rights of the persons who hold them. The reality in statuses connoting the same rights in more than one way under different names had to be rationalised through comprehensive legislative measures. The result of such reform reduced the statuses as follows as it exists under different local names.

1. Sthitiban
2. Bajyapti Sthitiban
3. Dakhala Satwabisistha
4. Dakhala Satwasunya
5. Chadana
6. Dardar Chandana
7. Darchandana
8 Minha
9. Sikim
10. Bebondobasta
11. Chirasthai Jamabisista Rayata
12. Chirasthai Jamabisista Niskara.

Trade and Commerce—The district had commercial importance from the earlier days. The high road running from north to south India alongwith eastern coast was the main road link in the earlier days. Regarding the other routes there were many parts alongwith the coast of which Chandbali is in existance now. Dhamara port is also being develped. The export through this port mainly relate to rice whether imports are K.oil and Salt etc. Chandbali is now having all weather communication by road.

The articles mainly exported from the district are timber, minor forest produce, rice whereas the import is confined to K.oil, lubricants, automobiles and spare parts, consumer goods, building materials etc. There has been phenomenal expansion of communication facility in the present day for which activities of commerce has expanded.

The Regional Co-operative Marketing Societies with its 5 branches takes up the distribution of fertiliser, agricultural implements in the rural area besides paddy procurement. The Civil Supply Corporation, a State Government undertaking along with the Food Corporation of India also deals with the procurement of paddy. The Civil Supply Corporation with the civil supply branch of the District Magistrate's Office also takes up the distribution of essential commodities in the district for facility of the consumers. The district had received the following quantity of essential commodities for internal consumption.

1. Cement	...	5,782 M.Ts
2. Sugar	...	95,963 Quintals
3. Wheat	...	45,624·34 Quintals
4. K. oil	...	11,372·2 K.Ls.

The essential commodities are supplied through fair price shops in the district and such number was 1,258 during 1980-81

Apart from the regulated markets, 38 Primary Consumers Co-operative Societies were functioning in the district during 1980-81.

The district had 213 un-regulated recognised markets scattered throughout the district, held weekly and bi-weekly for transaction of commodities. These are locally known as hats.

Subsequent upon the decentralisation of banking facility there are as many as Commercial Bank operating in the district with 40 branches, as reported by the lead Bank of Baleshwar district. The Central Co-operative Bank and Land Development Bank also help the Commercial Banks in extending rural finance. However, all the blocks have atleast one branch of Commercial Bank and highest concentration is available in Sadar and Bhadrak Sub-divisions.

Decadal Development

Command Area development Authority (CADA)—The Command Area Development Authority Bhadrak was constituted and registered into a society during the year 1976-77 with the primary objective of ensuring optimum use of irrigation potential already created in Delta for maximisation of agricultural production in the command area and close the gap between irrigation potential created for actual utilisation. CADA authority has been giving stress on the following aspects.

(i) Development of field channels and field drains within the command of each outlet.

(ii) Land levelling

(iii) Consolidation of holding and re-alignment of field boundaries.

(iv) Ground water exploitation.

The project area extends to 6 blocks, viz., Bant, Bhadrak, Basudebpur, Tihidi, Similia and Khaira.

Under agriculture front, the objective is to make judicious use of water in the command area of Salandi canal with suitable corpping pattern for increasing production. The cultivators have been educated for improved agronomic practices, short duration cropping and technical know how by way of training, seminar and multicrop demonstration etc. Upto March, 1981 under water management programme, 986.32 hectres were covered under construction of field drain etc. 121 hectres were covered under warabandi. 6,378 minikits of high yielding paddy etc. were distributed by march, 1981. Farmers are being encouraged to take up other subsidiary schemes like goatery, dairy, poultry and pisciculture to augment their income by way of availing the subsidy available through this programme.

Distribution of Government waste land for Agricultural and homestead purposes—This scheme is in operation from the year 1972. Persons identified as landless by the Tahasildars are given two acres of Government waste land for agricultal purpose in free of salami. Similarly 4 decimal of land are made available to the houseless persons for homestead purposes. The intention is to utilise the Government waste land for the community on priority for the weaker sections.

During the year 1980-81, 345 number of persons were benefited under waste land and 139 number of persons were benefited under homestead land as given below.

	Agricultural		Homestead	
Category of beneficiary	No. of beneficiary	Area in acres	No. of beneficiary	Area in acres
1	2	3	4	5
Schedule Tribe	106	52 865	27	1.140
Schedule Caste	85	54.090	49	2.020
Others	154	89.590	63	4.510
Total	**345**	**196.545**	**139**	**7.670**

Places of Historical & Tourist Importance

A coastal district on the north-eastern sea board, Baleshwar has the distinction of having been called the "Granary of Orissa" with stretches of green paddy fields, a net work of rivers, blue hills, extensive meadows and an extraordinary beach.

The religious centres at Remuna, Chandaneswar and Panchalingeswar popular among the devotees are some of the major attraction's for the tourists.

Chandipur—The beach at Chandipur is surely one among many of the fine beaches of the country, but with a plus-there the waters of the sea recede five miles off shore and proceed rhythmically after a regular interval. The sand dunes greened with wild creepers and the casuarina whistling with the breeze create a fantastic moment for a visitor absorbed in observing the play of the tide. One can get into the sea by a catamaran of the fisherman who spread their nets at the mount of river Budhabalanga.

The nearest railhead is at Baleshwar on S. E. Railway. Chandipur is 16 Kms. by road from Baleshwar. Govenment and public buses play from Baleshwar to Chandipur.

Remuna—Famous for Khirachora Gopinath, Remuna has been a seat of Vaishnavite culture for centuries. Madhabendra Puri, the teachers of Shri Chaitanya and Shri Chaitanya himself and his disciple Goswamis visited Remuna and offered their worship to Khirachora Gopinath. To-day hundreds of devotees gather daily for the sacred Darsan of the Lord. Specially prepared milk is the most delicious Prasad of the temple. Remuna is a chunk of Vrindaban in Orissa.

The nearest railhead is at Baleshwar. Remuna is 9 Kms. far from Baleshwar.

Chandaneswar—Situated amidst a beautiful natural setting, the virgin beach Chandaneswar is a point of attraction for the visitors. One can observe with surprise the glistening glory of the beach at sun-rise and sunset. On the tranquil beach stands the sacred shrine of Lord Chandaneswar. During 'Nilaprava' a local festival which falls in April every year, pilgrims from neighbouring States visit the shrine and a grand Mela takes place.

Chandaneswar is only 8 Kms. from Digha in West Bengal and can be approached by a Jeep.

The nearest railhead is at Jaleshwar.

Chandaneswar is 88 Kms. from Baleshwar. Bus services are available from Baleshwar and Jaleswar.

Panchalingeswar—Panchalingeswar is situated on a hillock near Nilagiri surrounded by green forests. A perennial stream flows on the five lingams. Tradition says that this was the capital of king Banasura and the five lingams known as Panchalingeswar were installed by the same king. This is a place with beautiful surroundings. It serves as a picnic spot for the visitors.

The nearest railhead is at Baleshwar and Panchalingeswar is about 42 Kms. from Baleshwar.

Aradi—A beautiful spot on the bank of the river Vaitarani, the sacred Ganges of Orissa, Aradi is famous for the shrine of Akhandalamani. Every day hundreds of pilgrims visit Aradi for Darsan of the deity. Aradi is 52 Kms. from Bhadrak and 120 Kms. from Baleshwar on road.

Chandabali—Chandabali is a famous river port since mediaeval time. Being situated on the bank of the river Vaitarani, it has a direct inlet to the sea. The tourists can enjoy boat journey to Aradi and Dhamara by river route from Chandabali. Chandabali is 120 Kms. from Baleshwar.

Dhamara—Dhamara on the mouth of the river Vaitarani is approachable by moter launch. Being the confluence of river Vaitarani and Brahmani with the sea it has a special appeal for the tourist's loving thrill and adventure. The group picnickers can enjoy a stay in Dhamara. Dhamara is 40 Kms. from Chandabali.

Raibania—4 Kms. to the north of the river Subarnarekha. Raibania is known for its group of forts in ruins. Raibania had historical importance and finds mention in the book "Ain-i-Akbari'. A number of tanks inside the fort which was once the place for kings is now a plain filed littered with the remnants of the past.

Analysis of Village and Town Directory Data

Introduction of new table in District Census Hand book is a novel feature of 1981. Census which is aimed at providing a brief analysis of results for facility of the planners, data users. 13 inset tables have been provided in this publication. The content of each table is explained below in brief.

Table-1 depicts the distribution of villages according to the amenities under each tahasil of Baleshwar district.

TABLE—1

Distribution of villages according to the availability of different amenities.

Sl. No	Name of Tahasil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Jaleswar	515	344 (66 80)	43 (8.35)	514 (99 81)	144 (27 96)	45 (8.74)	27 (5 24)	98 (19.03)	334 (64 85)
2	Basta	566	345 (60 95)	82 (14.49)	565 (99.82)	133 (23.50)	51 (9.01)	33 (5 83)	222 (39.22)	403 (71.20)
3	Baleshwar	433	247 (57.04)	33 (7 62)	430 (99.31)	83 (19.17)	22 (5.08)	29 (6 70)	166 (38.34)	332 (76.67)
4	Nilagiri	301	179 (59.47)	14 (4 65)	300 (99.67)	42 (13.95)	28 (9.30)	27 (8.97)	58 (19.27)	61 (20.27)
5	Soro	796	436 (54.77)	149 (18 72)	795 (99.87)	135 (16·96)	101 (12.69)	68 (8.54)	282 (35.43)	291 (36.56)
6	Bhadrak	467	346 (74 09)	99 (21.20)	467 (100.00)	133 (28.48)	68 (14 56)	46 (9.85)	189 (40 47)	242 (51.82)
7	Basudebpur	169	126 (74.56)	14 (8.28)	169 (100.00)	41 (24.26)	35 (20 71)	15 (8 88)	46 (27 22)	96 (56.80)
8	Chandabali	288	196 (68 06)	9 (3 13)	288 (100.00)	80 (27 78)	24 (8 33)	11 (3.82)	111 (38 54)	45 (15 63)
9	Dhamanagar	297	240 (80 81)	17 (5.72)	297 (100.00)	78 (26 26)	32 (10.77)	29 (9.76)	105 (35 35)	257 (86 53)
	Total District	**3,832**	**2,459 (64 17)**	**460 (12 00)**	**3,825 (99 82)**	**869 (22 68)**	**406 (10.59)**	**285 (7 44)**	**1,277 (33.32)**	**2,061 (53 78)**

Out of 3,832 inhabited villages in the district 2,459 villages are having educational facility, 460 villages are enjoying medical facilitiy, driking water facility is available in 3,825 villages, Post and Telegraph facility in 869 villages, market and hat facility in 406 villages, communication facility in 285 villages, and power supply facility in 2,061 villages. 1,277

villages are approached by pucca road. It is clear from the table about gradual development of the district.

Proportion of rural population served by different amenities in different tahasils of the district is shown in table-2.

TABLE—2

Proportion of Rural Population served by different amenities

Sl. No.	Name of the Tahasil	Total Population of inhabited villages in the Tahasil	Proportion of Rural Population served by the amenity of—							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Jaleswar	297,525	86·39	20·87	100·00	50·84	20·00	11 76	22 40	81 79

5 Market/Hat	2,536	700	190	3,426
6 Communication	2,412	866	269	3,547

Out of 3,832 inhabited villages in the district, the educational facility is not available in 1,373 villages, medical facility in 3,372 villages, drinking water facility in 7 villages, Post & Telegraph facility in 2,963 villages, market and hat facility in 3,426 villages and communication facility in 3,547 villages. Most of the villagers are enjoying these facilities within a distance of less than 5 Kms.

Table-4 depicts the data on distribution of villages according to the distance from the nearest town and availability of different amenities in the district.

TABLE–4

Distribution of villages according to the distance from the nearest town and availability of different amenities.

Distance Range from the nearest town (in Kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
0-5	187	131 (70·05)	23 (12·30)	187 (100·00)	45 (24·60)	14 (7·49)	21 (11·23)	97 (51·87)	128 (68·45)
6-15	1,190	764 (64 20)	128 (10 76)	1,188 (99 83)	266 (22 35)	113 (9 50)	93 (7·82)	439 (36·89)	692 (58·15)
16-50	2,303	1,477 (64 13)	272 (11·81)	2,299 (99 83)	518 (22·49)	260 (11·29)	158 (6 86)	707 (30·70)	1,173 (50·93)
51+	152	87 (57·24)	37 (24·34)	151 (99·34)	39 (25·66)	19 (12·50)	13 (8 55)	34 (22 37)	68 (44 74)
Unspecified	..	.		.	..	..	...	...	...
Total	**3,832**	**2,459 (64 17)**	**460 (12 00)**	**3,825 (99·82)**	**869 (22 68)**	**406 (10·59)**	**285 (7 44)**	**1,277 (33 32)**	**2,061 (53·78)**

Out of 3,832 inhabited villages, 2,303 villages are coming under the distance range of 16-50 Kms. from the nearest town. 1,190 villages are coming under the distance range of 6-15Kms. 152 villages are coming under the distance range of more than 50Kms. and the rest 187 villages are under the distance range of 0-5 Kms. from the nearest town. It is revealed from the table that the villages nearer to the town are enjoying more facility than those which are far away from the town.

Distribution of villages according to the population range and amenties available is shown in table-5.

TABLE–5

Distribution of villages according to Population Range and Amenities Available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
–499	2,440	1,147 (47 01)	125 (5 12)	2,433 (99 71)	231 (9·47)	111 (4·55)	85 (3 48)	706 (28·93)	1,074 (44 02)
500 – 1,999	1,274	1,196 (93 88)	271 (21·27)	1,274 (100 00)	536 (42·07)	226 (17·74)	161 (12 64)	519 (40.74)	886 (69 54)
2,000 - 4,999	111	109 (98.20)	60 (54·05)	111 (100 00)	95 (85·59)	63 (56·76)	35 (31·53)	48 (43 24)	95 (85 59)
5,000+	7	7 (100·00)	4 (57·14)	7 (100 00)	7 (100·00)	6 (85·71)	4 (57·14)	4 (57·14)	6 (85 71)
Total	**3,832**	**2,459 (64 17)**	**460 (12 00)**	**3,825 (99 82)**	**869 (22·68)**	**406 (10·59)**	**285 (7·44)**	**1,277 (33 32)**	**2,061 (53·78)**

Most of the villages of the district are coming under the lowest population range of less than 500 population. It is seen that villages having more population are enjoying better facility than the villages coming under the lower population range. All the villages coming under the highest population range i e. 5,000 and above are enjoying educational facility, drinking water facility, Post & Telegraph facility fully and market & hat facility, and power supply facility are available about 86 per cent and other facilities are also available to about 57 percent of the villages coming under this range.

Main staple food in the majority of the villages in each Tahasil of ths district is shown in Table-6.

TABLE—6

Main Staple Food in the majority of villages in each Tahasil

Sl. N.o.	Name of the Tahasil	Main Staple Food
1	2	3
1	Jaleswar	Rice
2	Basta	Rice
3	Baleshwar	Rice
4	Nilagiri	Rice
5	Soro	Rice
6	Bhadrak	Rice
7	Basudebpur	Rice
8	Chandabali	Rice
9	Dhamanagar	Rice

It is revealed from the table that the main staple food in all the tahasils of the district is rice.

Table-7 depicts the distribution of villages according to the land use pattern of different tahasils of the district.

TABLE—7

Distribution of villages according to land use

Sl. No.	Name of the Tahasil	No. of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Jaleswar	515	65,515·16	84·02	0 89
2	Basta	566	63,646·39	86 79	2 77
3	Baleshwar	433	54,052·77	82 29	2 02
4	Nilagiri	301	40,342·34	73 02	3 38
5	Soro	796	96,070·33	92,07	19 94
6	Bhadrakh	467	84,327·76	90 96	22 20
7	Basudebpur	169	38,416·88	94 76	14 67
8	Chandabali	288	54,047 83	96 13	.
9	Dhamanagar	297	47,031·85	81·29	37 92
	Total District	**3,832**	**543,451·31**	**87·58**	**12·27**

Note: —The area figures for uninhabited village and village for which the land use data are not available are excluded from the total.

It is revealed from the table that percentage of irrigated area to total cultivable area is only 12·27 percent which implies that the irrigation facility is not sufficient for the district.

Table-8 shows the growth, density and sex ratio of Urban population in the district in relation to the State.

TABLE—8

Growth, Density and Sex-Ratio of Urban Population in the District in relation to the State

Census Year	BALESHWAR						ORISSA					
	Total Population	Urban Population	Percentage of Urban Population	Decadal Percentage variation in Urban Population	Density (Population per Sq. km)	Sex-ratio (No. of females per 1,000 males)	Total Population	Urban Population	Percentage of Urban Population	Decadal Percentage variation in Urban Population	Density (Population per Sq. km.)	Sex ratio (No. of females per 1,000 males)
1	2	3	4	5	6	7	8	9	10	11	12	13
1951	11,06,012	41,646	3·76	+6 91	1,071	884	1,46,45,946	5,94,070	4·06	+44·01	1,195	881
1961	14,15,923	91,905	6·49	+120.68	765	846	1,75,48,846	11,09,650	6.32	+86 79	1,078	807
1971	18,30,504	1,00,154	5·47	+8·98	1,440	848	2,19,44,615	18,45,395	8 41	+66·30	1,113	845
1981	22,5?,808	1.85,963	8 25	+85·68	1,274	883	2,63,70 271	31,10,287	11 79	+68 54	1,359	859

The percentage of Urban Population to total population of the district during the current decade (8 25 per-cent)is lower than that of the State average of 11·79 per-cent· This is due to non-existence of big town/city in the district. Percentage of Urban population in 1951 Census was only 3.76 per-cent which was lower than the State average Though in 1961 Census it had surpassed the State average, in 1971 census it had fallen down the State average. The growth rate of Urban population of the district is 85 68 percent during the current decade which is higher than that of the State growth rate of 68·54 percent. The density of population i. e. population per Sq.Kms is also less in Urban areas of the district than that of the State average but the sex ratio i. e. number of females per 1,000 males, is more than that of the State.

Table-9 gives the new town created/ declassified in 1981 Census.

TABLE—9

New towns added/de-classified in 1981 Census

Name of the Town	Population in 1981 Census
1	2
(a) Added.	
(i) Soro	18,599
(ii) Basudebpur	20,031
(b) De-classified	Nil

In addition to the list of towns in 1971 Census two new towns have been created and no town has been has been de-classified during current decade.

Per capita receipt and expenditure in towns have been shown in table-10.

TABLE—10

Per Capita Receipt and Expenditure in Towns 1978-79

Class, name & civic status of the town	Per Capita Receipt (in Rs.)			Per Capita Expenditure (in Rs.)					
	Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	General Administration	Expenditure on public health and conveniences	Public works	Expenditure on public institutions	Other aspects
1	2	3	4	5	6	7	8	9	10
II Baleshwar (M)	54·30	22·42	31·88	54·03	2·08	10·48	5·10	5·78	30·59
III Basudebpur (N·A C.)	9·06	0·18	8·88	6·53	1·54	1·51	2·33	...	1·15
II Bhadrak (N A·C·)	58 64	24·06	34·58	53·03	7 08	4·42	11·46	0·15	29·92
V Chandabali (C.T·)	Non Municipal Town								
IV Jaleswar (N·A·C·)	22·28	0·17	22·11	14·19	4·18	0·43	6·31	..	3·27
IV Soro (N.A.C.)	6·48	0·18	6·30	6·03	1·48	0·34	2·95	..	1 26
Total	**43·34**	**16·51**	**26·83**	**40·40**	**3·81**	**5·61**	**6·82**	**2·19**	**21·97**

The financial aspects have been presented in this table for all the towns of the district. Coming to the receipt side the per capita receipt has been assessed at Rs. 43.34 in the district. Out of which Rs 16.51 through taxes Rs. 26.83 through other sources under Government grant etc. As regards expenditure side per capita total expenditure under Urban area of the district is Rs. 40.40 out of which Rs. 31.81 is utilised under general administration, Rs 5.61 under Public health and Rs. 6.82 on Public works, Rs. 2.19 in Public Insitutions and Rs 21.97 in other aspects. It is revealed from the table that the financial position of the Urban bodies in the district is better.

Table-11 depicts the number of Schools per 10,000 population in the towns.

TABLE—11

School per ten thousand Population in Towns

Class, name and civic status of town	No. per ten thousand population			
	Higher Secondary/ Intermediate/ P.U.C./ Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
1	2	3	4	5
II Baleshwar (M)	..	2	2	6
III Basudebpur (N.A.C)	..	2	3	6
II Bhadrak (N·A.C)	..	2	2	7
V Chandabali (C.T)	...	3	3	8
IV Jaleshwar (N.A.C)	...	2	4	8
IV Sora (N.A.C)	...	2	4	9
Total	**...**	**2**	**2**	**7**

It is revealed from the table that only 7 Primary Schools, 2 Junior/Secondary/Middle Schools, 2 Secondary/High Schools are available for each 10,000 population in the town as a whole of the district. No Higher Secondary/ Inter-mediate/Junior College is available for the 10 000 Urban population of the district.

Table-12 depicts the number of beds in Medical Institutions in towns.

TABLE—12

Number of Beds in Medical Institutions in Towns

Class, name and civic status of the town	No. of beds in Medical Institutions per 1,000 population
1	2
II Baleshwar (M)	3
III Basudebpur (N.A.C)	Negligible
II Bhadrak (N A.C)	1
V Chandabali (C.T)	2
IV Jaleswar (N.A.C)	2
IV Soro (N.A.C)	1
Total	2

It is revealed from the table that only 2 beds are available per 1,000 Urban population in the district.

Table-13 depicts the most important commodities manufactured in the towns and the commodities imported and exported.

TABLE—13

Most Important commodity manufactured, exported and imported in Towns.

Class, name and civic status of the town	Most Important Commodity		
	Manufactured	Exported	Imported
1	2	3	4
II Baleshwar (M)	Plastic goods	Paddy	Cloth
III Basudebpur (N A.C)	Ice	Paddy	Sugar
II Bhadrak (N A.C)	Cycle Tyres	Rice	Cloth
V Chandabali (C.T)	Ice	Fish	Wheat
IV Jaleswar (N.A.C)	Mat	Betel leaf	Potato
IV Soro (N.A.C)	Ice	Paddy	Cloth

It is revealed from the table that plastic goods, Cycle Tyres, mat and ice are manufacturee and paddy, rice, fish, betel leaf are also exported from the towns of the districts, whereas Cloth, Sugar, Wheat etc. are some of the main commodities which are imported to the Urban areas of the district.

SECTION-I

VILLAGE DIRECTORY

Codes used in the Village Directory

In the Village Directory various amenities and other data have been indicated by codes for want of space. The codes used in different columns are explained below.

COL. 5—**Educational Amenities** :

This column is intended to provide availability of educational facility in the village under the following codes :

1.	Primary or Elementary School	... P
2.	Junior Secondary or Middle School	... M
3.	Matriculation or Secondary	... H
4.	Higher Secondary/Intermediate/ Pre-University/Junior College	...PUC
5.	College	... C
6.	Industrial School	... I
7.	Training School	... Tr.
8.	Adult literacy Class/Centre	... Ac
9.	Other Educational Institutions	... O

Schools upto Class-V have been treated as Primary School and have included Nursery School, Kindergarten School, Pre-basic School, Pre-Primary School, Junior Basic School, upto Class-V. Schools upto Class-VII have been treated as Junior Secondary or Middle English School. Schools upto Class-XI (Matriculation) have been considered as Secondary or High School. This also includes High Madarsa upto Class-X. Schools or Colleges upto Class-XII are considered as Higher Secondary Schools. In case of composite Schools like M. E. with Primary classes or Higher Secondary Schools with M. E. classes, those have been included in the number of Primary School and Middle School respectively. In a village having two Primary Schools and one M. E. with primary classes, the total number of Primary Schools in the village has been recorded as three and M. E. as one.

In this process, the number of institutions have been determined and presented under the approved code. In cases of availability of more number of institutions of a type, the number has been indicated within bracket after the code. In case the amenity is not available in the village the same has been shown by a dash(—) in the relevant column having a note of the distance range regarding its availability.

COL. 6—**Medical Amenities** :

Availability of such amenities has been presented under the following codes. In case of availability of more number of institutions of a type, such number has been indicated within bracket against the abbreviation. Where the amenities are not available,it has been indicated by a 'dash' in the relevant column with a note thereunder including distance range of its availability.

Hospital	...	H
Maternity and Child Welfare Centre	...	MCW
Maternity Home	...	MH
Child Welfare Centre	...	CWC
Health Centre	...	HC
Primary Health Centre	...	PHC
Primary Health Sub-centre	...	PHS
Dispensary	...	D
Family Planning Centre	...	FPC
T. B. Clinic	...	TB
Nursing Home	...	NH
Registered Private Practitioner	...	RP
Subsidised Medical Practitioner	...	SMP
Community Health Worker	...	CHW
Others	...	O

COL. 7—Drinking water Amenities :

The types of potable drinking water supply sources available within the village has been indicated by the following codes. If the amenities are not available in the village it has been presented by a dash (—) in the relevant column and the distance range of its availability thereunder.

Tap Water	...	T
Well Water	...	W
Tank Water	...	Tk
Tubewell Water	...	TW
Hand Pump	...	HP
River Water	...	R
Fountain	...	F
Canal	...	C
Lake	...	L
Spring	...	S
Nallah	...	N
Others	...	O
Information not available	...	NA

COL. 8—Post & Telegraph :

Availability of amenities in the village has been presented under the following codes. In case of non-availability it has been presented by a dash (—) in the relevant column also indicating the distance range thereunder.

Post Office	...	PO
Telegraph Office	...	TO
Post and Telegraph Office	...	PTO
Telephone connection	...	Phone

COL. 10—Communication :

Availability of public transport like bus, rail and water way to the village have been indicated by the following codes. In case of non-availability, it has been presented by a dash (—) in the said column with the distance ange of its availability mentioned thereunder.

Bus Stop	...	BS
Railway Station	...	RS
Navigable Watar Way (including river, canal, back-watar etc.)	...	NW

COL. 11—Approach to the Village :

This is a new introduction in the 1981 Census not covered by the 1971 series. Approach to the village refers to the state of road etc. leading to the village. The intention is to see whether the village is approachable : both in fair and foul weather and whether it is inaccessible sometime in the year. Such approach has been presented under the following codes.

Pucca Road	...	PR
Kutcha Road	...	KR
Navigable River	...	NR
Navigable Canal	...	NC
Navigable Water Way (other than river or canal)	...	NW
Foot Path	...	FP

COL. 13—Power Supply :

If the power is actually available in the village in any form, then the same has been presented in this column under the following codes.

Electricity for domestic purpose	...	ED
Electricity for Agriculture	...	EAg
Electricity for other purposes like industrial or commercial etc.	...	EO
Electricity for all purposes listed above	...	EA

COL. 20—**Remarks including any place of religious, historical or archaeological interest :**

This column is intended to record particulars of any place of importance as well as the information on number of copies of news papers coming to the village and motor cycles/scooters, cars/jeeps and tractors available in the village. The codes used in this column are as follows.

N—Copies of the news papers coming to the village.

M—Motor cycles/Scooters available in the village.

C—Cars/Jeeps available in the village

T—Tractors available in the village

The information presented under this column is illustrated below.

N-32, M-2

Here N-32 represents the copies of newspapers viz. 32 and M-2, the number of motorcycles/scooters viz. 2.

SECTION–II

TOWN DIRECTORY

Codes used in the Town Directory

STATEMENT—I

Status and growth history :

Col. 2—Class, name and civic administration status.

Class has been introduced to facilitate analysis on town directory data at State and all-India levels. It has been presented according to 1981 Census population of the core town in following ranges by the classification noted against each.

POPULATION		CLASS
1,00,000 and above	...	I
50,000—99,999	...	II
20,000—49,999	...	III
10,000—19,999	...	IV
5,000— 9,999	...	V
Below 5,000	...	VI

The name of the town has been shown in this column, with the correct spelling as adopted in the official record. Regarding the civic administration status, the town as it stood in 1980 has been indicated by the following abbreviations :

Municipality	...	M
Notified Area Council	...	NAC
Census Town	...	CT

STATEMENT—II

Physical aspects and location of towns :

Col. 12—The name of the navigable river/canal which is situated within a distance of 10 kms. has been shown under this column with distance from the referrent town. After the name of the river/canal 'R' for river and 'C' for canal has been given in brackets to denote whether it is a river or canal as illustrated below.

Mahanadi (R)—5

STATEMENT—IV

Civic and other Amenities :

Col. 6—Road length (in kms.)

Information under this column has been obtained from the officer in-charge of the concerned urban local body. There are cases where the municipalities/notified area council maintain their roads accounts separately. Pucca roads and kutcha roads available in the town have been presented under the abbreviation 'PR & KR' respectively.

Col. 7—System of sewerage :

The sewerage system is implied the net work of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal in the town. For the towns which are not provided with such underground sewerage system, availability of open surface drain or box drain etc. have been mentioned. The various type of sewerage/drainage system have been indicated upto two places in the town under the following codes :

Sewer	...	S
Open Surface Drains	...	OSD
Box Surface Drains	...	BSD
Sylk Drains	...	SD
Cesspool method	...	CD
Pit system	...	Pt

Col. 11—Method of disposal of night soil :

Information in this regard has been obtained from the local body and the prevalent method of disposal of night soil has been presented with the following codes upto two places in order of their importance in the town. The objective of providing such data is to collect information which could help Government to provide a programme of stopping the practice of

rempval of night soil as head loads and also minimising the use of human labour in the process of disposal.

Head Loads	...	HL
Baskets	...	B
Wheel Barrows	...	WB
Septic Tank latrines	...	ST
Sewerage	...	S

Col. 12 & 13—Protected water supply :

The information collected from the local offices has been incorporated in these columns, in some cases such data had to be obtained from the State Public Health Engineering Department. The information on sources of water supply has been indicated in Col. 12 as against the system of storage with capacity in litres (in brackets) which has been presented in Col. 13. The same has been presented under following codes :

Over Head Tank	...	OHT
Service Reservoir	...	SR
River infiltration gallery	...	IG
Bore Well Pumping system	...	BWP
Pressure tank	...	PT
Tubewell Water	...	TW
Tap water	...	T
Well water	...	W
Tank water	...	Tk

The first five codes started above relate to the system of storage whereas the remaining four codes represent the different sources of water supply.

STATEMENT—V

Medical, Educational, Recreational and Cultural facilities.

Col. 4 & 5—Medical facilities— Hospitals/ Dispensaries and beds available :

Information in this regard has been collected from the local offices. However, the institutions run by private doctors have not been included in these data, which have been restricted to the institutions run/aided by Government/ Semi-Government/ Local bodies/ Charitable institutions/ Social service agencies. The various types of institutions have been presented under the following codes :

Hospital	...	H
Dispensary	...	D
Health Centre	...	HC
Family Planning Centre	...	FC
T. B. Clinic	...	TB
Nursing Home	...	NH
Others	...	O

For places where medical facilities are not available, the name of the nearest place in the same district or nearest district, if in the same State or other State and its distance from the town where the facility is available has been indicated. All types of hospitals/dispensaries etc. whether allopathic, ayurvedic or homoeopathic have been covered. These are further distinguished by providing additional codes :

A—Ayurvedic

U—Unani

Hom—Homoeopathic

In case of allopathic, no separate code has been given.

Col. 6 to 9—Educational facilities :

Information in this regard has been collected from the local officials and to the extent possible have been checked up with the informotion available in the office of the Director of Public Instructions of the State. For the place where more than one institutions of each type is available, the number thereof has been given against each in brackets. The codes used for different institutions are as follows :

Arts only	...	A
Science only	...	S
Arts and Science only	...	AS
Commerce only	...	C
Arts and Commerce only	...	AC
Combined of all categories Arts, Science and Commerce	...	ASC
Law	...	L

Col. 10—Recognised shorthand, typewriting and vocational training institutes :

Information has been collected from the local authorities. Here "recognised" means the institution recognised by statutory authority like Education Department, Commerce Department or Labour Department of the Government or semi-Government or autonomous bodies. The institution of each type has been presented under the following codes :

Shorthand	...	Sh
Typewriting	...	Type
Shorthand and Typewriting	...	Sh. Type
Others	...	O

Col. 11-14—Higher Secondary/ Intermediate/ PUC (Pre-University College)/ Junior College Level, Secondary/ Matriculation, Junior Secondary/ Middle Schools and Primary Schools :

Information in this regard has been collected from the local authority and presented under the following codes;

Primary School	...	P
Junior Secondary or Middle School	...	M
Matriculation or Secondary	...	H
Higher Secondary/ Intermediate/ Pre-University/ Junior College/ '10+2' system whether held in Schools or Colleges.	...	PUC

If educational facility is not available in the town, the name of the nearest place in the same district or name of the nearest district in the same State or other State with its distance from the town where the facility is available has been indicated.

Col. 17 to 20—Number of recreational and cultural facilities :

Information in this respect has been obtained from the local authority. Touring cinema has been eliminated from our purview and only permanent cinema/theaters have been included. Community halls, auditorium have been added in this column as the same are becoming a common feature of the urban landscape. Information on Public libraries including reading rooms has been collected from the local authority and presented under the following codes :

Public Library	...	PL
Reading Room	...	RR
