CENSUS OF INDIA, 1981

DISTRICT CENSUS HANDBOOK

PART A—VILLAGE AND TOWN DIRECTORY

BALANGIR

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns etc.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features alongwith the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in views. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities

with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and accordingly to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirement of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class—II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement-IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement-V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the column on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahasil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The District and Tahasil/Police Station/C. D.Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. R. Nanda, I. A. S., the Director of Census Operations, Orissa on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General, India

New Delhi
The 26th April, 1982

PREFACE

It has been the tradition of Indian Census to present demographic data in as detailed a manner as possible so as to serve effectively the interests of the users of Census data. 1981 Census has been completed leaving behind a vast mass of data collected carefully and meticulously on a country-wide basis by an army of trained enumerators. It is needless to mention that modern Census is no more confined to mere counting of heads. It is a kind of stock-taking, as it were, of the nation's human wealth. It has collected information of every individual, besides a host of other activities, institutions, establishments services and so on. Thus, it has become an indispensable instrument of policy for development planning-referred to by planners, data users, scholars and people from different disciplines and aims at presenting a complete picture of man in socio-economic and cultural settings.

District Census Handbook was first introduced as an auxilliary to 1951 Census and appeared as a State Government publication in more comprehensive and ambitious form in subsequent censuses. Under the existing instruction, the Director of Census has the responsibility of providing the Census data, as well as non-census socio-economic and administrative statistics for this publication which is the responsibility of the State Government. In 1951 and 1961, it was published in one volume. During 1971, this publication was proposed to be presented in three parts. Part-A incorporated the Town and Village Directories, Part-B incorporated the Primary Census Abstract and provided data upto village level for the rural area and upto enumeration block level for the urban area. Part-C incorporated other Census tables and administrative statistics.

According to the publication programme of 1981 Census, it has to be pubilshed in two parts. Part-A will comprise the Village and Town Directory whereas Part-B will contain Village and Town-wise Primary Census Abstract. The first Part— Part-A consists of important statistical information relating to each town besides an array of statistical data relating to land use and various other amenities available in each village. Part-B of the present publication contains the essential census data known as Primary Census Abstract which provides demographic details of each district, tahasil, police station and down to each village and town and within the town, each ward. The aforesaid statistical information is enriched by the administrative map of the administrative units viz., district, tahasil and police station, available in the publication. These maps have been prepared in the Directorate of Census on the basis of maps obtained from the competent local authorities. In the Police Station maps, villages have been presented by their location code number for want of space. For the names of villages, one would have to refer to the alphabetical list of village of each tahasil, which are available both in Part-A and Part-B for facility of the readers.

With the object of avoiding delay and also to make each volume nandy and not-too-bulky, it has been decided to bring out 1981 District Census Handbook in two parts.

In pursuance of the scheme for publication of the District Census Handbook, an analytical note has been provided explaining the census concepts adopted in the operation for easy appreciation of the subjects covered in the directory. An administrative map of the district is given at the beginning of the volume. Brief history of the district has

been provided for introducing the district to the reader. The scope of Village Directory, Town Directory, Statements and Primary Census Abstract has been explained with reference to the contents of statements available in the publication.

The geographical aspect of the district including decadal jurisdictional changes available in the publication is intended to make it more informative. Another venture of 1981 is presentation of major characteristics of the district particularly in relation to the economic resources as furnished by the district authorities in the various fields of administration. This is directed to provide an interesting profile of the district to the reader as well as appreciation of developmental activity in the district during the decade. Notes on different codes used in this directory have been provided for the convenience of the reader in understanding the data. Note on places of religious/historical interest has been provided to make the publication more interesting. The analysis of census results of the district at the end will be of some interest to the readers and data users.

Information on amenities in the Village Directory has been collected from the Tahasildars and Block Development Officers. A very few selected items were collected through the census enumerator during his door-to-door visit. The Executive Officers of Municipalities and Notified Area Councils provided such data on towns. The collection and compilation of such massive data of each village and town was a stupendous task. Despite all possible care taken through intensive check and re-check to remove discrepancies in facts and figures, possibility of errors still creeping in can not be altogether ruled out.

I must express my deep gratitude to Shri P. Padmanabha, I. A. S., Registrar General and Census Commissioner, India and Shri N. G. Nag, Deputy Registrar General (Social Studies) for the timely guidance and advice through circulars.

I must place on record my deep appreciation and thanks to the Departments of Government of Orissa, Heads of Departments, local bodies, District Officers, Tahasildars, Block Development Officers, Executive Officers of Municipalities and Notified Area Councils for whose active co-operation and help the voluminous compilation has been possible.

For providing additional information on general characteristics of the district as economic activity, decadal changes (1971—81) of special note, I am grateful to Shri K. C. Mohapatra, I.A.S., and Shri H. S. Sarkar, I.A.S., District Magistrates and Shri Sk. T. Baksh, O.A.S.(I), Additional District Magistrate-cum-District Census Officers, Balangir who had taken keen interest in making this compilation more informative.

For timely scrutiny, compilation and tabulation of District Census Handbook data, the supervision and assistance rendered by Shri B. Sahu, O. A. S (I), N. C. Dutta, O. A. S. (I), J. Panda, O. A. S. (I), P. C. Roy, O. A. S. (I) and P. K. Mohapatra, O. A. S. (I), Deputy Directors-in-charge of Regional Tabulation Offices and their staff are worth mentioning. The job would have been difficult but for their diligent and tireless effort.

In my office, I am specially thankful to Shri S. K. Swain, Deputy Director, Shri Madan Mohan Das, O. A. S., Deputy Director, Shri C. R. Mohanty, Asst. Director and the staff of District Census Handbook, Map and Printing branches of the Census Directorate for diligence and zeal shown in this important assignment. Its expeditious preparation has placed a heavy burden on all officers and staff of this office. To each of them I am deeply obliged. The Deputy Director of Survey & Map Publication, Orissa, Cuttack has ensured printing and to him I offer my thanks.

Bhubaneswar,
September, 1982.

A. R. NANDA

ANALYTICAL NOTE

Census Concepts

Some of the important concepts and definitions used in 1981 Census and frequently mentioned in this publication are briefly explained below :

Village

It has been the Census tradition to present statistics by rural-urban break-up. Villages and Towns are universally accepted as the basic units of human habitation. A "Village" refers to any tract of land recognised as a village by the local administration in the revenue record. The revenue village may have a definite surveyed boundary or not. The revenue village may comprise several hamlets which do not have definite boundary or areas distinctly marked. The revenue village is inclusive of the sites of residence of the inhabitants and the entire area including hills, nalas, cultivable land and village forest, but excluding reserve forest. An uninhabited village is one which does not have any residential population in the entire tract. A revenue village may comprise several hamlets with a boundary in case of a surveyed village or a notional boundary in case of unsurveyed village; but the entire village is one unit for presentation of census data.

There are some forest villages located inside reserve forests and recognised by the State Government, which have been taken as villages for the purpose of census. Similarly, inside the reserve forest, some clusters of habitation were located, which are sometimes unauthorised in the eye of law. Such cases were also recognised as villages by way of treating clusters inside the jurisdiction of a forester's beat as one village. In course of the decade, several areas in the State remaining unsurveyed upto the previous census, have been surveyed in the meanwhile and such villages were included in the frame of current census.

Town

No society can be strictly termed as fully urban or completely rural. The dividing line is a far from sharp, since condition varies from country to country and it has not been possible to formulate a uniform definition which can be applicable to all places.

For the purpose of 1981 Census in India an urban area has been defined as :

(a) all places with a Municipality, Corporation or Cantonment Board or Notified Town Area, and

(b) all other places satisfying the following criteria :

(i) a minimum population of 5, 000,

(ii) atleast 75 per cent of the male working population engaged in non-agricultural (and allied) activity,

(iii) a population density of atleast 400 per Sq. Km. (or 1, 000 per Sq. Mile).

Similar criteria were also adopted during 1971 Census.

Thus the area statutorily notified by the State Government as "Municipalities" and "Notified Area Councils" have been brought under the urban frame of Census. Besides, there are some marginal cases having distinct urban charetteristic which as such do not qualify to be town by the State Government. Such cases—13 in number throughout the State were finalised by the Director of Census in consultation with the District Magistrates, which have been presented under the nomenclature of non-statutory census town, satisfying the following conditions :

(a) a minimum population of 5, 000 as projected in 1981 ;

(b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits ;

(c) a density of population of at least 400 per Sq. Km. (or 1, 000 per Sq. Mile).

Classification of Towns

It has been customary for the census to classify the towns according to the size of their population. For 1981 operation, the classification was as follows :

CLASS	POPULATION
I	1,00,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000— 9,999
VI	Less than 5,000

Urban Agglomeration

The concept of "Urban Agglomeration" introduced during 1971 Census has also been adopted during 1981 to take care of the continuous urban spread of a recognised urban area. Very often, large railway colonies, university campuses, port areas and military camps etc come up around the statutory boundary limit of the city or town having distinct urban characteristics. Such areas may not by themselves qualify to be treated as towns, but form a continuous spread with the town as 'out-growths' of the town and deserve to be treated as urban. Such town(s) together with their out-growths have been treated as urban units and are called "Urban Agglomerations". Thus an Urban Agglomeration may comprise :

(a) a city with continuous urban out-growth, (the part of the out-growth being outside the statutory limits but falling within the boundaries of the adjoining village or villages) or

(b) one town with similar out-growth or two or more adjoining towns with their out-growths as in (a) or

(c) a city and one or more adjoining towns with their out-growths all of which form a continuous spread.

Accordingly, eight Urban Agglomerations have been formed in the 1981 Census throughout the State.

Standard Urban Area

During the 1971 Census a new concept of "Standard Urban Area" was introduced in the context of urban classification. The Standard Urban Area is defined as the projected growth area of a city or town having a population of 50, 000 or more during a period of two or three decades. While delineating Standard Urban Area it is not only necessary to take into account the towns and villages which will get merged into it, but also the intervening areas which are potentially urban. The Standard Urban Area is a long-term planning area having a growth potential in a longer time span. In the context of developmental planning for urban areas, it is desirable to fix the Standard Urban Area beyond the boundary of large town having growth potential over a period of 20 years or so.

The standard urban area includes all areas which have any or all of the following characteristics (b) to (e), while characteristic (a) should be the basic minimum :

(a) Core town having minimum population of 50,000;

(b) Predominent urban land use;

(c) Intensive interaction with urban centres as reflected in communication for the purposes of work and secondary educational facilities; extension of city bus service, sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck haul) and purchase of food grains, clothes, general provisions etc. by the consumers directly;

(d) Anticipated urban growth as a result of future location of industry, market, transport and communication; administrative and servicing facilities;

(e) Existence of big villages with large population of working force engaged in non-agricultural and industrial categories.

Taking these factors into account the following standard urban areas were formed during the 1971 Census; 1. Sambalpur

2. Raurkela, 3. Baleshwar, 4. Cuttack, 5 Jeypur, 6. Brahmapur, 7. Bhubaneswar and 8. Puri. The standard urban areas of these towns were finalised in consultation with the Town and Country Planning Organisation of Government of India and Town Planning Organisation of Government of Orissa and are continued in 1981 Census.

There is subtle difference between the standard urban area and urban agglomeration. For the urban agglomeration out-growths should be contiguous having distinct urban characterstics, whereas, standard urban areas would cover both urban and rural areas around a core town which are likely to be urbanised within a period of two to three decades.

Building

A "Building" is generally a single structure on the ground. Sometimes, it is made up of more than one component unit which are used or likely to be used as dwellings (residence) or establishments, such as shops, business houses, offices, factories, workshops, schools, places of entertainment, places of worship, godowns and stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. Usually, a structure will have 4 walls and a roof. However, there are some areas where the very nature of construction of house is such that there may not be any wall. A typical example of this may be found in the Nolia habitation at Puri, where the house does not have wall, but an entrance and the conical roof which almost touches the ground. Such structures are also treated as buildings.

Census House

A 'Census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

An "occupied residential house" is a census house which is partly or wholly used for the purpose of residence at the time of Census enumeration.

Household

A 'Household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of un-related persons or having a mix of both. Example of unrelated households are boarding houses, messes, hotels, residential hotels, rescue homes, jails and ashrams etc. These are called "institutional households". There may be one member households, two-member-households or multi-member-households. For Census purposes, each one of these types is regarded as a household. If a group of persons who are un-related to each other live in a census house, but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person is treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen.

Enterprise

An "Enterprise" is an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. The workers in an enterprise may consist of members of the household or hired workers or both. An enterprise may be owned and operated by one household or by several households jointly (on a partnership basis) or by an institutional body. The activities of an enterprise may be carried on in a single census house or in more than one census house or in the open i.e. without premises. The activity of the enterprise may also be carried on only for a part of the year but on a fairly regular basis. It may also be possible that more than one enterpreneurial activity can be carried out in one census house. However, the results of such economic census after tabulation are being brought out by the Central Statistical Organisation separately. This excercise was extended to provide data for the planners regarding categories of agricultural and non-agricultural enterprises. The voluminous data included location of enterprise, description of the activities of enterprise, nature of operation,

type of ownership, social group of owner, power/fuel used for the activity and the total number of hired persons usually working in the enterprise.

Literate

A person is considered to be literate if he is able to read and write in any language with understanding. A person who can merely read but can not write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 4 years or less have been treated as illiterate, even if the child is going to school and may have picked up reading and writing a few odd words.

Scheduled Caste

The Scheduled Castes are specified in the Government of India (modification) Order of 1956. 93 castes have been notified as Scheduled Castes in this State.

One caste, viz., 'Kuli' in Sambalpur district has been dropped from the Scheduled Caste list as per the Amendment Order, 1976.

Worker and Working Population

The population of a country can be divided into economically active and inactive. The economical active group is generally referred to as the working population. What proportion of our population are engaged in work or are economically active and what job they do for their living, these are the issues which the Census proposed to obtain through its massive operation in order to provide a broad dimensional picture of the labour-force. The Censuses conducted so far contain a wealth of economic data. There have been experimentations with the definitions from Census to Census and as a result, the definition of working force has rarely remained unchanged between two Censuses as would be evident from the paragraphs to follow.

"The means of livelihood" approach was adobted from 1901 upto 1951. From 1901 to 1921 the expressions used were "Workers" and "Dependents". In 1931, the concepts used were 'earner', "working dependent" and "non-working dependent". In 1951, the categories were 'self supporting persons", "earning dependents', and "non-earning dependents". In 1961 and 1971, however, there was a shift to the labour-force approach, according to which a person was treated as "worker" if his activity during the reference period was productive one. Thus, from 1961 the concept of worker and non-worker came into being. The difference in the concepts in 1961, 1971 and 1981 Censuses is summarised below :

(a) 1961 CENSUS

"Workers" = main workers + marginal workers of 1981
"Non-workers" = non-workers of 1981

(b) **1971 CENSUS**

"Workers" = main workers of 1981.
"Non-workers" = marginal workers + non-workers of 1981.

The questions which were canvassed in the individual slips during 1981 Census to elicit information on the characteristics of the population were as follows :

I. Q. 14A Worked any time at all last year ?
Yes
No (H/ST/D/R/B/I/O)

II. Q. 14B If yes in 14A, did you work for major part of last year ?
Yes (1)/No. (2)

III. Q. 15A Main activity last year ?
Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

IV. Q. 15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No
14B No—Work done any time last year ? (C/AL/HHI/OW)

V. Q. 16 If no in 14A or 14B, seeking/available for work ? Yes (1)/No (2)

Basically, during 1981 Census the questions have been formulated so as to divide the population into those who have worked any time at

all during the last year and those who have not worked at all. Having classified the population into these two broad streams, the next attempt was to divide those who have worked any time into two sub-streams viz., those who have worked in some economic activity over a period of 6 months or more or in both the agricultural seasons and those whose work can be considered as marginal or secondary (i.e. less than 6 months). Finally an attempt has also been made to determine whether those who are non-workers or those who are marginal workers are either seeking or are available for work.

"Work" has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. In all these questions the reference period is one year preceding the date of enumeration. Some work viz., agriculture and household industry are carried on either throughout the year or during a particular season or part of the year depending on local circumstances. In such cases the reference period has been the broad time span of the agricultural season preceding the enumeration has been kept.

An attempt has been made in this publication to present data relating to "main workers", "marginal workers" and "non-workers" separately. In case of main workers the distribution of such workers among cultivators and agricultural labourers, those engaged in household industry and other workers have also been given. The main workers are those who have worked for a major part of the year preceding the enumeration.

"Marginal workers" are those who have worked any time at all in the year preceding the enumeration but have not worked for a major part of the year. The type of work in which marginal worker were engaged have been elicited through question 15B.

"Non-workers" are those who have not worked any time at all in the year preceding the enumeration.

If the number of main workers, marginal workers and non-workers are added up, one would arrive at the total population itself. In other words, these are exclusive categories.

Main activity of workers has been classified into the following four broad categories :

(i) Cultivator

A person is regarded as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops viz., wheat, paddy, jawar, bajra and other crops, such as sugarcane, groundnut etc. and pulses, raw jute and kindred fibre crops, cotton, etc. and does not include fruit, growing of vegetables or keeping orchard or groves or working of plantation like tea, coffee, rubber etc.

(ii) Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation, but merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

(iii) Household Industry

"Household Industry" is defined as an industry conducted by the head of household himself/herself and/or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. It should involve production, processing, servicing or repair of articles or goods, not on the scale of a registered factory. The larger proportion of workers in a household industry should consist of members of the household including the head.

The main characteristics of the "Household industries" are the following :

a) One or more members of the household must participate. Participation by hired labour must be minimum.

b) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sell.

d) In an urban area the industry must be carried on in the precincts of the house in which the household lives. In the rural areas, the industry may be anywhere within the limits of the village.

e) The activity should not be on the scale of a registered factory.

f) Professions such as those practised by Pleader, Doctor, Barbar, Musician, Dancer, Dhobi, Astrologer etc. will not be Household Industry.

(iv) Other Workers

All workers i.e. those who have been engaged in some economic activity during the last one year, but are not cultivators or agricultural labourers or engaged in household industry are "Other Workers". This includes factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, teachers, priests and artists etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry are other workers.

Other particulars, viz., name of the establishment, description of work, nature of industry, trade or service and class of worker were also obtained in respect of those who returned "household industry" or "Other work" as their activity.

Non-worker

In case of persons who are non-workers throughout, information relating to them has been obtained through categories, as mentioned below :

i) Household duties
ii) Students
iii) Dependents
iv) Retired persons or rentiers
v) Beggars etc.
vi) Inmates of institutions
vii) Other non-workers

(i) Household duties

This covers all persons who are engaged in un-paid home duties and who do no other work, or have not done any work at all during the last one year. If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker. For example, a housewife may help in family cultivation or agriculture or make and sell cowdung-cakes etc. at odd times. She is treated as worker.

(ii) Students

This will cover all full-time students and children attending school. If a student participates in some economically productive work, like helping sometimes as an un-paid family worker in family cultivation etc. such students should be treated as a worker and not as student. Very often the daughter in the family helps in the household work though she is studying full time, in which case she is treated as student.

(iii) Dependent

This includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. Dependents include even able-bodied persons who can not be categorised in any other category of non-worker but are dependent on others.

(iv) Retired persons or rentiers

A person who has retired from service and is doing no other work and is not employed again in some full time work or engaged in some other work such as cultivation, business, trade etc. or a person who is a rentier or living on agriclutural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he/she does not have to work comes under this category. If a retired person is doing some work in such case he/she is a worker.

(v) Beggar

This covers beggars, vagrants or persons without indication of source of income and those without specified source of subsistence, who are not engaged in economically productive work.

(vi) Inmates of institutions

This covers convicts in Jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc. in such institution. However, an under-trial prisoner enumerated in a jail is recorded for the work he/she was doing before he/she was apprehended. Similarly a person temporarily in a hospital or similar institution is recorded for the kind of work he/she was doing before being admitted into the hospital or institution. However, the previous work is not recorded in respect of long term under trial prisoner or convict or for long term inmates of penal, mental or charitable institutions. A person is considered as 'long term', if he or she is in such an institution for 6 months or more.

(vii) Other non-workers

This includes all non-workers who do not come under any of the above six categories, but are looking for work. A boy or girl who has completed education or has stopped studying and is looking for work comes under this category. Alternatively a person who is merely spending time at home as a dependent and is not doing any work and not seeking any work is not coming under this category. In case of students who may be seeking work and are quite prepared to give up studies, if they get a job they are to be recorded as 'Students'.

Area figure

In keeping with the census tradition, the Surveyor General of India provides the area figures for the State and district level. Hence the area figures of the district along with the spelling of the district name as adopted by the Surveyor General, India has been adopted in the publication, with a view to maintaining uniformity of data at the national level. The area figures of the units down below the district level, viz, tahasil, police station, towns have been given in sq. km. The Tahasildars had reported the area figures in acres in respect of the units in the rural area, whereas the Executive Officers of the urban bodies have reported the area figuers for the urban units. The area report in acres by such functionaries were converted into sq. km. Regarding the area of the villages, the same were also furnished by the Tahasildars. The total area of all tahasils of the district does not add upto the area of the district because the former represents the land-use area and is derived from the figures supplied by the local revenue authorities. Similarly the total of the village area may not tally with the rural areas of the tahasil. The difference may be due to the fact that the village area may not necessarily include the area under hills and rivers etc. which are included in the tahasil area besides, there are also varying methods on computation adopted at different levels. Area figures for the unsurveyed revenue villages have been left blank like the forest villages and are indicated as "Not available".

Though there has been no change in the boundary of the State between 1971-81, the revised computation in the area of some districts has resulted in marginal decrease of 135 sq. kms.

Density

The density (population per sq. km.) shown for the State/District/Tahasil/Police Station/Town have been worked out using the area figure corrected upto two places of decimals.

Spelling of administrative unit

As explained above, the spellings of district have been adopted from the Survey of India to maintain uniformity at all-India level. However, the spellings of lower units, viz., tahasils, police stations, village, town are in confirmity with the spellings available in the State Government records.

Physically handicapped persons

It is customary for the Census to introduce new concepts in every Census. Accordingly an attempt was made during the houselisting operation conducted in April-May, 1980 to find out the statistics regarding the physically handicapped

persons all over the country. Physically handicapped persons were broadly recorded under three categories, viz., totally blind, totally crippled and totally dumb.

The term "Totally crippled" refers to such persons who have not lost their arms or limbs. The loss of arms or legs or all the 4 limbs refers to loss of both the arms or loss of both the legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus a paralytic who has lost use of both the legs or both the arms was taken as totally crippled, though the limbs are physically available. However, the losso either one arm and/or leg did not classify a person as totally crippled. There are other situations where a person unfortunately suffers from more than one of the aforesaid disabilities. In such cases, the intention was to record the persons by greater disability. For example, a person may be both blind and dumb or blind and crippled. In such cases the intention was to find out the greater disability, whether blindness is considered as greater disability than either dumbness or being crippled. Similarly being crippled is greater disability than being dumb. In the extreme cases, where a person suffered from all the 3 disabilities, it was recorded under the category 'blind' which is certainly the most unfortunate disability. It was usual to find a person blind or crippled due to old age and such cases were also taken note of and categorised under appropriate classification since he suffered from disabilities.

Brief History of the District

The princely State of Patna was an important State in western Orissa under the Chauhans since 14th century A. D. Sonapur, which was formerly a chiefship sub-ordinate to Patna was constituted as a separate State about the middle of 17th century A. D. The States of Patna and Sonapur were under the occupation of Marathas of Nagpur since 1755, which were occupied by the East India Company during the second Maratha war early in 1804. These States were again restored to the Raja of Nagpur in 1806. After the third Maratha war these States came under the permanent possession of the British. When the central province was constituted in November, 1861, these States formed a part of new province. From 1877 onwards feudatory chief of Patna and Sonapur administered their own States. In 1905 these States were transferred to Bengal alongwith the district of Sambalpur to form a part of Orissa division. After the merger of feudatory States of Orissa on Ist January, 1948 the ex-State of Kalahandi, Patna and Sonapur were combined together to form a new district called Balangir-Patna. Subsequently on 1-11-49, the ex-States of Patna and Sonapur were separated and together formed a new district presently known as Balangir with 4 sub-divisions viz., Balangir, Patnagarh, Titlagarh and Sonapur.

For administrative convenience the district has been divided into 4 Sub-divisions, 6 Tahasils and 20 Blocks. The revenue administration is headed by the Collector of the district and run through the 4 Sub-divisional Officers and 6 Tahasildars, and 58 number of Revenue Inspector circles. The developmental administration is also headed by the Collector of the district through the Sub-divisional Officers and twenty Block Development Officers. The district has 212 number of Grampanchayats for developmental administration. The general administration of this district is also vested with the Collector, who functions as District Magistrate. The District Magistrate is also responsible for maintenance of law and order in his area, for which the district has been divided into 17 police stations. There are however, 7 urban areas in the district, statutorily known as Municipality and Notified Area Council.

District Census Hand Books

Among the traditional documentation of the Census, the fairly comprehensive and uniform publication of District Census Handbook (D. C. H.) consisting of town and village directory and town and villagewise Primary Census Abstract (P.C.A.) has been found to be very useful and are constantly referred to by the planners and data users. The District Census Handbook is the only publication that incorporates the data down to a village level in rural area and upto ward level in the urban area. The data published in these volumes are of immense value to the planners, scholars and administrators for the purpose of village level, block level and district level planning and studies. It is a publication of the State Government. The cost thereof is borne by the State Government. However, the Director of Census of the State is responsible to the extent of providing necessary data which are obtained through Census.

This document was first published as an auxiliary to 1951 Census, consequent upon the request of the Government of India to State Government to publish District Census Handbooks containing statistical information relating to villages, towns and police stations etc. of the districts. The State Government agreed to this and decided to bring out District Census Handbook as a priced publication to be published in the State Government Press. This publication since then is continuing with unbroken chain. Apart from giving the rural statistical information, it readily gives a complete list of villages contained within a Police Station and District. It will not, however, be out of place to mention here that in many districts, complete list of villages is not maintained properly and the present list is the result of extensive enquiries and contacts with different agencies and can be regarded as exhaustive.

To make the data component more illustrative maps of the district, tahasil and police station are also published in the publication. The Police Station maps showing the villages as per the population size, having different amenities represented in approved legend will help the readers in easy appreciation.

According to the 1951 publication programme the District Census Handbook was published in one volume and did not contain information given in the village and town directory. Apart from this the brief introduction of the district, general features, density map, prescribed tables for general population, economic tables, social and cultural tables and village statistics were provided in the District Census Handbook. The Primary Census Abstract was given under the heading "village statistics". However, the information on villagewise list of displaced persons, and information on small scale industries were presented in the 1951 District Census Handbook volume.

Similarly, 1961 Census publication was presented in one volume. This volume was divided into 3 parts. First part contained the introduction of the district, second part contained the census tables and the official statistics was given in the third part. The information given in the Village Directory and Town Directory for 1961 Census was not given in the 1961 District Census Handbook. The villagewise Primary Census Abstract was given in the second part under the heading of "Village Directory". The information on villagewise list of industries and tables on fairs and festivals were presented in 1961 District Census Handbook publication.

According to the 1971 Census publication programme, the District Census Handbooks were to be published in 3 volumes; Part-A containing the data on amenities, Part-B incorporating Primary Census Abstract (P. C. A.) and Part-C giving administrative statistics and census tables. District Census Handbooks, part-A and part-B for the 1971 Census could be published quickly. Both these volumes were in great demand by the data users, as they contained a vast mass of data on amenities available in the Village/Town alongwith demographic features. In regard to the District Census Handbook Part-C, we faced difficulties in collecting administrative statistics from various Offices and our progress in

publishing the report was considerably delayed. After obtaining necessary statistics, much difficulty had to be encountered in printing of the part-C, which was pending in the State Government Press at Cuttack for a pretty long time. Under compelling circumstances the manuscript could be printed in the Private Presses located at Cuttack and elsewhere. In view of the inordinate delay in collecting administrative statistics which would in any case be available to the data users in the publications of the respective Statistical bureaus/departments of the State Government there was re-thinking in the matter to drop the publication of part-C of the District Census Handbook for the 1981 Census.

However, it has been decided to publish the 1981 District Census Handbook in two parts. Part 'A' would be confined to village and town directory, whereas part 'B' would be confined to village and townwise Primary Census Abstract including Scheduled Castes and Scheduled Tribes Primary Census Abstract upto Police Station/ Town levels. Despite the fact that publication of both the parts in one volume would have enhanced the value, it could not be helped in respect of the bigger districts comprising large number of villages and towns. Therefore, the publication has been broken up into two volumes (Part 'A' and 'B').

By and large, the contents of the Village and Town Directory are almost similar to those adopted for 1971 Census, barring a few changes necessitated by the requirements of the planners and data users.

The new feature of 1981 format is having provision of the distance range of the particular amenities to a village where it is not present. A few items of information like adult literacy centres have been introduced in the village directory to meet some requirement of the Minimum Needs Programme.

Another introduction viz., "total population and number of households" for each village has been shown in the village directory to ascertain the co-relation of the amenities with population and number of household they serve. Since current day planning has been initiated from the Community Development Block level, villages coming under each Community Development Block has been furnished in the annexure of the village directory for the facility of the administrators and planners, which is a departure from the earlier Censuses.

Similarly in the Town Directory, information on Scheduled Castes and Scheduled Tribes population in statement-IV and availability of adult literacy centres in statement-V are innovations keeping in view the requirement of Minimum Needs Programme.

The significant change in the Town Directory is the provision of class of town in all statements for analysis of the infrastructure of amenities.

Both the Village and Town Directory and objectives of various columns thereunder alongwith the connotation of various abbreviations used therein have been explained in the relevant sections.

Scope of Village Directory

The data on village directory have been presented Tahasil/P.S.-wise and Village-wise. The village includes revenue village and the clusters of habitation located in any tract mentioned thereunder. The names of villages have not been arranged alphabetically since location code thereof have been provided in ascending order. However, for facility of the readers, an alphabetical list of villages under each Police Station with its location code numbers has been provided at the beginning of the village directory. In case of a village treated as an out-growth of an urban agglomeration, the code number and name have been provided minus data thereof which has been shown against such core town. In case of part-village forming a portion of an out-growth, the corresponding data has been shown in the village directory. In case of census towns, such villages have been listed in the village directory without any data on amenities, for which the town directory has to be referred to. However, the land utilisation data for such census town has been made available in Appendix—II

It has been the tradition of census to present maps of constituent administrative units beginning with the district, followed by Tahasils, and Police Stations thereunder. All the maps so presented in this volume have been authenticated by the concerned revenue authorities in so far as the boundary and spellings and locations are concerned. In case of the units adjacent to the coast land of the State, such maps have been cleared by the Survey of India through the office of the Registar General, India.

In addition to the district map, the administrative map of each Tahasil/Police Station has been given in the beginning of the village directory of that Tahasil/Police Station. The boundaries of Police Stations in the Tahasil, location of towns, large villages, rivers, roads, railways, hills, forests and important institutions such as High Schools, Colleges, Medical Institutions, Post & Telegraph Offices etc. have been shown in the Tahasil map. An administrative map of the Police Station has also been presented in the beginning of the village directory of that Police Station giving the boundaries of the villages in location codes and towns located within it and other details similar to the Tahasil map. Besides, villages have also been shown through symbolic representation by different population sizes. The uninhabited villages have been shown by cross marks (X). The shaded portion of the map represents the area of the towns.

The information on Village Directory has been provided in the statement containing 20 columns giving areas of the village in hectares, population and number of households, amenities viz., educational, medical, drinking water, power supply, post and telegraph and communication etc. available in the village. In case of non-availability of any of the amenities the distance range of its availability has been provided in the directory. Similarly, the land uses pattern of the village providing the extent of forest area, area under irrigation, un-irrigated area, culturable waste and area not available for cultivation have been indicated in the directory in hectares. Places of religious, historical/archaeological interest have been shown for reference of the readers.

COLUMN 14— *Staple Food* :— Staple food refers to grain and only relates to the majority population of the village using for major portion of the year. Combination of grains in staple food viz., rice, wheat and maize etc. have been indicated.

COLUMN 15 to 19—*Land Use* :— The land use pattern given in the village directory conforms to the pattern of classification of

land use as recommended by the Ministry of Agriculture, Government of India. The guidelines in this regard are as follows:

1. Forests
2. Not available for cultivation :
   (a) Lands put to non-agricultural uses
   (b) Barren and un-culturable lands
3. Other un-cultivated lands excluding fallow lands :
   (a) Permanent pastures and other grazing lands
   (b) Lands under miscellaneous tree crops and groves not included in the net area sown
   (c) Culturable wastes
4. Fallow lands :
   (a) Fallow lands other than current fallows
   (b) Current fallows
5. Net area sown.

In the village directory Column-15 (forest) represents, the category one above. Column-16 (Irrigated) and column-17 (un-irrigated) given break-up of agricultural land, which are a combination of categories-4 (a+b) and 5 above. Column-18 (culturable waste) corresponds to category-3 (a+b+c) above. Column-19 (area not available for cultivation) corresponds to category-2 (a+b). Area figures of the village have been shown in hectares. The total of figures under columns 15 to 19 will not necessarily tally always with the total area of the village as indicated in column-3 of the directory, as there are waterways and hills etc. which may not be included in the land use statistics of the village.

Forests may mean either state owned or private forest and whether wooded or maintained as potential forest land. There are situations where patches of land have been put to agricultural use within the statutory notified forest and have been considered as forest by the revenue administration. These areas have been treated as forest. In Orissa, forest is broadly known under two categories, viz., village forest, known in local parlance as khesra forest and reserved or protected forest. The village forest constitutes an integral part of the village area unlike the reserve or protected forest. This is because communal right in land is not exercisable in the areas known as reserve forest under the Orissa Forest Act.

Leaving aside this, 4 Appendices in the village directory have been presented in this publication, which is a distinct feature of the current census publication.

These are :

i) Tahasil/Police station-wise abstract of educational, medical and other amenities.

ii) Land utilisation data in respect of non-municipal towns(Census Towns).

iii) Tahasil/Police Station-wise list of villages where no amenities are available and

iv) Tahasil/Police Station-wise list of villages indicating the proportion of Scheduled Caste/Scheduled Tribe population to the total population by ranges.

These appendices are new to the present census which provides Tahasil-wise abstract of villages on different priorities. The intention is that the abstract will be helpful for planning inputs in areas/villages where the basic infrastructure is lacking. Similarly the Appendix—IV will be helpful for planning of welfare programmes, for Scheduled Castes/ Scheduled Tribes at micro-level, as it provides data by ranges of Scheduled Caste/Scheduled Tribe population.

Scope of Town Directory

The town directory is intended to cover all the towns in the district statutorily notified as such as also the non-municipal census towns. The towns have been arranged in the town directory in the alphabetical order and do not cover strictly the military areas. The data on amenities and other aspects presented in codes has been explained in detail in separate chapters. Regarding the urban agglomeration the conventional creation of census the names of such agglomerations have been indicated which is similar to the name of the main town of the agglomeration. The particulars for such constituents of the agglomeration have been furnished separately. Such presentation was operationally found to be convenient to have an idea of the particulars of the city or town agglomeration in toto and also severally. In the instant case, there is no such agglomeration at all in Kalahandi district.

To sum up the earlier format of 1971 D.C.H. Part-A has been restructured for 1981 census, keeping in view the objectives of the Planning Commission for the Minimum Needs Programme and the revised 6th Five Years Plan. More interest has been taken to know the over-all infrastructure in terms of amenities, however, modest or from whatever source it may have been provided.

Information on town directory has been furnished in 6 separate Statements. The scope and the content of the statement adopted for the towns is briefly explained, below:-

Statement I—This statement gives the status and growth history of the town. In columns 1 and 2, serial No. of the towns in alphabetical order and names of the towns with class and civic administrative status have been furnished, in columns 3 and 4 location code of the town has been indicated giving the names of the tahasil under which it is located. Column 5 gives the area figures of the town in sq. kms. The number of households including the houseless household has been shown in column 6. In columns 7 to 15 the population alongwith the growth rate of town from 1901 to 1981 have been shown, for easy comparability. In column 16 density i.e. population per sq. km. has been furnished. In columns 17 to 19 the sex ratios (females for 1,000 males) as recorded from the 1961 census onwards have been furnished.

Statement II—It provides the physical aspects and location of the town. In columns 3 to 5 the average rainfall and temperature have been furnished. Distance of the town in kilometers from the State Headquarters/ District Headquarters/ Sub-divisional Headquarters/Tahasil Headquarters, the nearest city with population of one lakh or more, railway station, bus route, navigable rivers/canals within 10 kms. It have also been indicated in column 6 to 12 respectively.

Statement III—The statement reveals a picture of the municipal finance for the year 1978-79. The receipts of the urban local body from various sources have been provided under columns 4 to 10 whereas the expenditures under various items have been disclosed under columns 11 to 17.

Statement IV—It gives information relating to civic and other amenities as it stood in 1979. Scheduled Castes and Scheduled Tribes have been given under columns 5(a) and 5(b) of the statement. The road length in kms. has been shown under column 6. The system of sewerage, number and type of latrines available in the town in addition to the method of disposal of night soil have been shown under columns 7 to 11. Columns 12 and 13 of the statement deals with the source of water supply and system of storage of the town. Column 14 of the statement provides the availability of fire service if any in the town. In case, such service is not available in the town,

the name of the nearest place where available has been shown alongwith the distance from town. Electrification with number of connections for different uses has been shown in columns 15 to 19 of the statement.

Statement V—In this statement information relating to medical, educational, recreational and cultural facilities in the town has been shown. Medical facility available in the town has been shown in columns 4 and 5. Educational facilites, viz., number of different types of Colleges. Technical Schools, recognised commercial and vocational institutions, Higher Secondary Schools, Secondary Schools, M. E. Schools, Primary Schools and Adult Literacy Centres have been indicated in columns 6 to 15. Column16 shows the Working Women's Hostel with the number of seats. Columns 17 to 20 of the statement discloses recreational and cultural facilities like Stadia and Cinema halls etc. available in town. In case of non availability of medical and educational facilities in the town the name of the nearest place along with the distance where the ficility is available has been given.

Statement VI—This represents the information on Trade, Commerce, Industry and Banking as it stood in 1979. In columns 3 to 5, important commodities as imported into the town have been mentioned as against the exported items out of the town shown under columns 6 to 8. The names of the three important commodities manufactured in the town have been shown in columns 9 to 11. Number of banks, number of agricultural credit socities and number of non-agricultural credit societies available in the town have been furnished in columns 12 to 14 respectively in the statement.

There is no notified slum area in any of the towns of the State. Hence, the prescribed statement IV-A has not been provided in the Town Directory.

The towns having out growths have been provided in an Appendix to the Town Directory showing their population separately.

Physical Aspects

Balangir district is situated in the western part of Orissa between 20° 9'N and 21° 11'N Latitudes and 82° 41'E and 84° 16'E longitudes. It is bounded by Sambalpur district on the North, Phulbani district on the East and by Kalahandi district on the South and West. The area of the district is 8,913 Sq. Kms. according to the Surveyor General, India as against 1,55,707 Sq. Kms. of the State. Area-wise the district ranks 11th in the State. The current census has recorded the district population as 14,59,113 which includes 2,28,260 Scheduled Caste and 2,80,381 Scheduled Tribe population. Population-wise the district ranks 9th in the State. The Scheduled Caste and Tribe population of the district accounts for 15·64 and 19·22 percentage to the total population of the district. The district has two distinct physiographical regions namely rolling plains and hilly areas of western and southern part of the district. The plain area can be further sub-divided in to irrigated plains and non irrigated plains adjacent to Sambalpur district. This region enjoys irrigation facilities from the Hirakud canal system and the Ong Medium Irrigation Project. The non-irrigated plains comprise 12 Blocks spread over the entire district. The hilly area have undulating terrain with isolated hill ranges with height of about 3500mts. The famous Gandhamardan hill range lies in the western side of the district.

Forest occupies sizeable portion of the total geographical area of the district and found mostly in western and southern parts of the district. Kendu leaves, Sabai grass, Timber, Hill brooms, Mahua flowers, Sal seeds, Bamboos are collected by M/S Bengal Paper Mills and M/S Orient Paper Mills. Many tribal families of the district earn their livelihood by selling minor forest product. The Orissa Forest Corporation Ltd. is the sole agent for collecting Kendu leaves in the District.

The river Mahanadi and its tributaries viz. Tel, Suktel and Ong are the principal rivers of the district. The river Mahanadi entering from Sambalpur district cuts a nearly semi circular area with the block Ullunda and Birmaharajpur inside. The Tel river flows across the eastern boundary and joins the river Mahanadi. The Suktel river originating from the hill ranges on the western side flows through Patnagarh, Balangir and Loisingha Blocks before meeting the river Tel. The Ong river enters the district at Agalpur, passes through Binika, Sonapur Blocks and joins the river Mahanadi. Except the river Tel which flows along the eastern boundary of the district, the flow of other rivers is confined to the northern and north eastern parts of the district.

The soil of the Mahanadi, Tel, Ong basins is alluvial in nature and is very fertile. The soil in the remaining part of the eastern side varies from light sandy type to sandy loam, similar soil, but with patches of block earth is found in the central parts of the district. The soil of the southern and western fringers is mostly laterite in character. Starting from hill ranges on the western and southern fringes, the terrain is undulating in character. While in the river basin the soil is suitable for raising paddy, wheat, and cash crops, the soil of the central and eastern blocks is suitable for paddy, millets and pulses. On the hill slopes, oil sheeds like til, mustard and niger are extensively grown.

The climate of the district is of extreme type, hot and dry in summer, hot and humid in rainy season and cold and dry in winter. The hot season from March to May is followed by the south west monsoon and lasting up to the end of September. The cold season usually is the months from December to February. In Summer the temperature rises up to as high as 41°C and in winter the temperature falls to as low as 7°C.

The average annual rain fall is 1,423·5 MM. Due to wide veriation in precipitation and its erratic distribution often with long dry spells,

crop failures are frequent. Barring the canal irrigated areas on account of Hirakud system, most part of the district is draught prone and often experience scarcity conditions.

Jurisdictional changes—During the decade 1971-81 a new tahasil was created in the district known as Rampur tahasil by way of transfering the entire Binika Police Station and 124 villages of Dunguripali Police Station forming the jurisdiction of Sonapur Tahasil in Sonapur Sub-division earlier. Besides above one village of Kantabanji Police Station was transfered to Bangomunda Police Station during the decade.

Major Characteristics

Mining—During the Darbar administration there was no mining activity in the district until 1917 when graphite mining were operated. Similarly manganese ore was found to the small scale during 1940. During 1980-81, 24 mines were working in the district which included 23 numbers on graphite only. The mineral revenue and cess of royalty to the tune of Rs.2.23 lakhs and Rs.1.04 lakhs were realised during the year 1980-81.

Mining operation is being carried through private sector, both by manual and mechanical process. Transportation of minerals is mostly done by road transport. Mineral based industry like crucible factory with benefication plant at Titlagarh is working. Another six such plants for upgrading the graphite are in-progress.

Industry—In earlier days, cottage industries on agricultural implements like sickles, axe, swords, daggers were in existance. The existing ruins of brick structure of temple available at Titlagarh and Tushura conform that rawbricks were burnt in earlier days. Similary the image of deities of brass and bale metal are found in old temples. The Textile product of cotton and tussore silk at Balangir had a high standard of excellence. Other Industries like bamboo mat, basket, rope making from sabai-grass, clay pottery were available in the earlier days. In the ex darbar administration few small scale industries also existed like tannery at Titlagarh in 1943.

The district is one of the backward districts of the State, hence emphasis was laid in the post independent period for rapid industrialisation. One spinning mill at Sonapur and edible/refined oil mill at Chinajuri are in progress and will scart production in the near future. With the collaboration of Industrial Promotion and Investment Corporation of Orissa Ltd, State Government undertaking, medium industries like refined oil have come up in Dunguripali at an investment of Rs.130 lakhs. Further additional industries like printing an writing paper, graphite crucibles, A. C. cement sheets, aluminium sheets and explosives are likely to come up in the near future and on completion it will provide employment opportunity to the local people besides promotion of ancillary industries around.

Orissa Industrial Infrastructure Development Corporation (IDCO) a State Government undertaking assists in the rapid and orderly establishment of organisation of industry, trade and commerce in designated industrial estates and industrial areas in the State. This corporation has provided buildings and sheds in industrial estate at Balangir and undertaking construction of additional sheds for location of small and medium industries. They are also providing vacant land for location of industries.

District Industry Centre was set up in 1978 to bring about a rapid development of small and cottage industries in towns, villages and backward areas, provide additional avenues of employment and reduction in regional imbalance with regard to industrial development. The objective of this centre constitutes appraisal of projects and recommendation to the lending institution for timely availability of loan, providing technical assistance, organising training programme for man power development and helping the entrepreneur by assuring market and better information centre besides availability of raw materials. By 1980-81, 593 were set up including 91 S.S.I. units under different categories rulling 1980-81 out of which 22 were Agro based, 3 chemical based, one electrical based, 17 engineering and 10 forest based industries. Besides the S. S. I. units, 4,709 artisans were identified in 1980-81 and provided with financial assistance for setting up their industries. Entrepreneurs have been identified and are being trained for taking up industries. Six number of Panchayat Samiti Industries are operating in the district.

Power— Electricity was first made available to the Balangir town in 1911 from a station. Diesel power house was also working in Sonapur town during the premerger period. However, electricity from Hirakud Hydro Electricity Project was made available to the district and all towns have been electrified. The power supply and distribution is controlled by the Orissa State Electricity Board, a State Government undertaking. Under the rural electrification scheme by March, 1981, 1,170 number of villages were electrified. The consumption of power under different catagories are 2,025 for agriculture 639 for industrial, 2,855 for commercial and 11,304 for domestic purposes. Under energisation scheme 3,126 number of dug-wells and Lift-irrigation points have been energised up to March, 1981.

Forest—Forest plans an important role in the economy of the district. The total forest area of the district is 2,175.15 Sqr. Kms. as on 1-4-81 Out of this area, 1,450·97 Sqr. Kms. comes under reserve forest alone, and the rest comes under other catagories. The forest produce are mostly timber, bomboo, kendu leaf, sabai grass, mahua flowers, sal seeds etc. Products like kendu leaf and bamboo are the two principal raw-materials for bidi and paper industries respectively. The State Government realised a revenue of Rs. 60·19 lakhs during 1980-81 on account of forest produce alone.

In the recent past, the trade on kendu leaf has been taken over by the State Government, through which additional revenue are being collected.

Agriculture—The main crops of the district are paddy, maize, ragi ,mung, biri, arhar, ground nut and til in khariff and wheet high-yielding paddy, Mung, biri, kulthi, sugarcane, Mustard, groundnut, and til in rabi season. Paddy is the principal crop and coverage thereunder is the highest. The total cultivated area of the district during the year 1980-81 was 4.69 lakh hectres, out of which paddy crop was raised in 3.29 lakh hectres during khariff of 1981. The coverage under millet was 30,756 hectres, under pulses 43,783 hectres, under oil seeds, 32,522 hectres. There has been appreciable coverage under high yielding varieties of paddy in canal irrigated area of Binika and Dunguripali blocks.

Out of the total cultivated land of 4,69,177 hectres of the district, 2,47,422 hectres are highland, 99,247 hectres are medium land 1,22,508 hectres are low land.

Co-operation—During 1980-81 the district had 322 number of co-operative societies which include 219 primary co-operative societies. 11 milk supply co-operative societies, 26 conjumers co operative societies, 5 housing co-operative societies, 18 thrift co-operative societies. The total membership under co-operative stood at 2,56,453 in 1981. A co-operative bank was established in 1934 during the Darbar administration, which in 1956 was converted to district central co-operative bank by way of amalgamating the co-operative banks fuctioning at Balangir and Sonepur. Besides this, 4 land development banks are functioning in the district at all sub-divisional headquarters. These banks provide short term and medium term loans to the needy farmers.

Other types of assistance are available through the regional co-operative marketing societies which has established 5 branches located at Balangir, Sonapur, Titlagarh, Dunguripali and Birmaharajpur. These societies distribute fartiliser, agricultural implements to the farmers through the primary co-operative societies and procure paddy from the rural area.

Animal Husbandry—According to 1977 livestock census, the distric had the following cattle population.

Cattle	...	7,08,771
Ducks	...	5.916
Mole & Donkey	...	9
Buffaloes	...	1,30,924
Sheep	...	1,71,618
Goat	...	1,95,482
Pig	...	2,473
Poultry	...	4,53,409
Horse & Pony	...	218

As regards veterinary institutions one veterinary hospital, 30 veterinary dispensaries, one key village block, 133 live-stock aid centres, one live-stock breeding-cum-dairy farm, one district poultry farm, one sheep breeding farm, two ANP (Poultry) units, besides one live-stock inspector training centre were in the district on March, 1981.

The institutions implement the A. H. programme of the district.

Activities under animal husbandry have gained momentum in the recent plan period as a supplement measure to aggression income as well as employment generating scheme. Livestock farming are being encouraged through various media and schemes of the government. These include dairy farming, poultry farming sheep/goat rearing, duck rearing etc. These schemes are being implemented through various programmes like ERRP, IRDP etc. By 1981 March, 416 units of dairy, 1,450 units of goat, 1,143 units of sheep, 2 units of pig and 15 units of poultry is the reported achivement in the district. There are 11 milk supply societies besides 5 sheep breeding societies in the district.

Due to reduction of grazing ground in the district fodder development and pasture development has assumed importance in the recent days. There has been achievement of 227 acres under fodder cultivation, during 1980-81 required sheeps are also being supplied to the individual farmer. During the said period 30.25 acres were covered under pasture development programme which has benefitted 130 farmers.

Irrigation— The Darbar administration encouraged tenants to dig more tanks and develop other water resources with the permission of the authorities and to utilise water free of rent during the period of settlement. After settlement operation, such lands were declared as jalchar lands. In the post independence era, there has been marked improvement of irrigation facilities in the district, which has a potential of 98,344 hectres as per the following details.

Major and medium	...	43.47
Minor flow		33 41
Minor Lift (Public)	...	1.06
Minor Lift (Private)	...	20·40
	Total	**98·34**

The Hirakud Multi Purpose Project provide irrigation to some areas of Binika and Dunguripali blocks of the district.

In addition to above, few ungoing medium projects will provide additional potential. Ong Irrigation Projects undertaken with World Bank assistance is likely to be completed by 1984-85 and will provide irrigation for 24,680 hectres. On completion, these projects will benefit 133 villages of Agalpur, Sonapur blocks of the district along with Gaisilet block of Sambalpur district. The other project Upper Suktel Irrigation Project envisages the construction of a earth dam across the river Suktel near village Mahurandi of Khaprakhol block. On completion, this project will irrigate an area of 1,350 hectres of land. The 3rd project "Hariharjore Project" envisages the construction of a earth dam across the river Hariharjore near village Durjantaila of Birmaharajpur block. On completion, this will irrigate an area of 1,350 hectres. The minor irrigation projects having ayacut of more than 60 acre are being administered by the minor irrigation division of Irrigation Department. Where as such projects having less than 60 acres of ayacut are administered through panchayat samity.

To tap the ground water resources, other irrigation measures like Lift Irrigation and dug wells have been taken up in the last decade. Orissa Lift Irrigation Corporation Ltd. have conducted a datailed hydrological survey of the ground water potential of the district and estimated that 37,605 dug wells are feasible in the district. Each well is expected to provide irrigation for 1·2 hectres in Khariff and 0·6 hectre in Rabi and for 4 hectres when fitted with motor and pump sets. The district

Rural Development Agency has taken up execution of dug well and L. I. Projects with priority for small farmers and marginal farmers already identified. By March, 1981, 34,644 dug wells have been sunk in the district out of which 3,126 wells were energised. The Lift Irrigation Deparment has also energised another 23 projects.

Pisciculture—The fishery activity in the district is of considerable significance due to flow of rivers like Mahanadi and its tributaries like Tel and Suktel. District does not have any potential for marine fishery. The inland resources mainly relate to tank, reservoir and rivers to a limited extent.

Due to emphasis laid in the post independence era there has been marked improvement in pisciculture particularly during the last decade as given below.

Source	1971		1981	
	No.	Area covered	No.	Area covered
Tank	5200	1,003 hcts.	5956	2,433.6 hcts.
Reservoir	800	N. A.	1662	N. A.
Fish Production	5·70 tons		70·25 tons.	

Various schemes initiated by the Government have been oriented to provide gainful employment to the people. Under the fish seed production programme, by way of hatchery production method, quality spawn of 121.25 lakhs were raised in the district during the year 1980-81. During the said year 147 250 lakhs of spawn were stocked and were distributed to the Grampanchayats and private tanks for pisciculture. Intensive fish production programme is also being undertaken in private individual tanks under this programme, and water area of 13·58 acres, were covered during 1980-81.

Fish farmer development agency were established by the Government in the year 1978-79 with the objective of promoting pond fish culture in selected areas in an integrated manner by adopting modern techniques on fish production. This agency provides necessary training to the fish farmers by providing institutional. finaance to ensure production of quality of fry and finger lings. Under this progress, tanks have been surveyed and 63 Gram Panchayat tanks were leased out on long term basis with a water area of 278·34 acres. By 1980-81, 272 tanks with an area of 408·00 acres were developed in the district. Two fishery co-operative societies are functioning in the district for promotion of pisciculture.

Communication—In the eariler days construction and maintenance of communication system were vested with the respcetive rulers. Towards the last part of 18th century there was a regular road from Cuttack passing through Banki, Baideswar, Baudh and Sonapur etc. to Nagpur. The Darbar administration had taken interest by providing better communication facility for administrative convenience.

In the post independence are, there has been a spectacular achievement under communication and total road length of the district as in 1980-81 is mentioned below.

National high Way	...	Nil
State High Way	...	249.0 Kms.
Major district road	...	300.8 Kms.
Other district road	...	110.0 Kms.
R. E. O. Road	...	294.0 Kms.
Panchayat Samiti road	...	1,189.2 Kms.
Grampanchayat road	...	3,158 Kms.
Classified village road	...	296.3 Kms.

Due to availability of better communication facility vehicular traffic have increased considerably. All the routes of the district have been Nationalised and State Transport Corporation are playing buses for passenger traffic. Despite this, Muribahal blocks of the district is not approachable by all weather route. Birmaharajpur, Ullunda and Tentelkhunti blocks remain in accessable for want of bridges over the river Mahanadi and Tel. The district headquarters has got all weather communication by road to the

State headquarter and to other district headquarters and important places of the State. Inter State bus services connecting important places of the adjoining States are also available for the people.

During the Darbar administration in 1896 survey of railway line from Raipur to Vizianagaram was taken-up and railway communication inside the district connecting places like Kantabanji, Titlagarh etc., were available in 1890. Subsequently in the post independence era, railway communication was available connecting the main route, Calcutta, Bombay. The total rail route length in the district is 169 Kms and the routes are Vizianagaram-Raipur and the Raurkela-Titlagarh.

Regarding water ways river Mahanadi and its tributaries viz., Tel, Suktel and Ong are the principal rivers of the district. The type of boats used for ferries are called Dangas, which are dug out due to danger in rapids and the entire belt being streamed with rock. Navigation is possible with difficulty,

Harijan and Tribal Welfare—Upliftment of living condition of harijan and tribal people has received momentum during the plan period as a measure of State policy. For increasing the living standard of the caste and tribal people, number of institutions have. extended in course of time and various schemes are being implemented. The district had 3 residential High Schools, two residential Ashram Schools, one Kanyaashram (for girls) 39 Sevaashrams by March, 1981 having total student strength of 4,506. In High Schools and Ashram Schools training are being imparted to the students on different trades. As a measure of incentive, supply of text books, reading and writing materials are being made available to the students free of cost besides supply of uniform to the students of Sebashram. Pre-matric and post matric scholarships are being awarded to the caste and tribe students for encoragement of their education which has covered 5,350 students in pre-matric and 285 students in post matric stage during 1980-81.

With a view to make available direct family benefit programme to the tribals more and more, the Government have extended the benefit of special schemes to select pockets outside the sub-plan areas where tribal concentration is 50 or more and the population is 10,000 or more. In this modified area development approach, Khaprakhol and Turekela blocks of the district have been selected where various programmes under core economic sectors like agriculture, animal husbandry, irrigation, communication, education, Sanitation etc. are being implemented. By March, 1981, 254 families have been benefited under this programme.

For rehabilitation of the tribals, colonisation scheme is being implemented. 30 families in Balangir Sub-division, 27 in Tililagarh Subdivision and 40 families in Patnagarh Sub-division have been settled under this programme. Besides this 51 houses constructed at the cost of Rs. 2000/ each have been given to 51 S. C. families under Jayanti village scheme. Under the intergrated housing scheme financial assistance is being provided to the selected beneficiaries for construction of their residential houses. Under this programme during 1980-81, 286 S. C. and 210 S. T. persons have been benefited.

Under legal aid scheme 71 S. C. and 63 S. T. persons were benefited relating to the land disputes.

Housing—Apart from providing house sites for the houseless persons for construction of houses, Government are constructing houses for the economically weaker section and providing necessary financial assistance. Under integrated housing scheme, 729 houses have been constructed in the district by March, 1981 which has benefited 286 S. C. and 210 S. T. persons. For rehabilitation of the persons in the flood affected area, 370 houses were constructed during 1978-79 and possession delivered to such beneficiaries. In addition to above, lands, are available by the State Government for construction of houses to the individuals coming under low income and

middle income group. So far financial assistane for 180 houses for low income group and 40 houses under middle income group have been given in the district.

Education—The spread of education was however, not remarkable during the Darbar administration particularly in 18th and 19th Century A. D. The village "pathasalas" were maintained by the villagers where the "abadhanas" were being engaged for teaching. Western education came in 1894 when an english school was started by the-then Maharaja. By 1907—there were, however, three Middle English Schools besides two Middle Vernacular Schools in the ex-states of Balangir and Sonapur. Both Sonapur and Balangir had the previlege of High School education in 1912 and 1916 respectively.

Due to emphasis on education in the post independence era there has been appreciable advancement in the field of education. By 1944-45, there were 126 schools in Patna ex-state and 81 schools in Sonapur ex-state. By 1947-48, there are only 3 High Schools and 206 Primary Schools in the district. By March, 1981 the district had 102 High Schools with a student strength of 17,517; 388 M. E. Schools with a strength of 28,279; 2,293 Primary Schools with a strength of 1,32,831. Besides above there were 5 Training Schools with a strength of 600.

In the recent plan period, various incentives in the shape of free supply of uniform, text book, award of scholarship in pre-matric and post matric stage, award on attendance to encourage the students have been adopted. 80 NRTS, 40 NRT matching and 116 of scholarships for Middle English standard under 500, 300 and 652 schemes were available to the students during 1980-81.

There were however, 5 M. E. Schools and 731 Primary Schools going without building of its own on March, 1981. The teacher, student ratio by the same period was 1:13 in High Schools, 1:17 in M. E. Schools and 1:30 in Primary Schools.

Recently emphasis has been laid on the removal of adult illiteracy and therefore the adult literacy centres have been functioning throughout the district. During 1980-81, 300 such centres were functioning in the district and 9,000 adults were made literate.

Land Tenure—The present district came into existence in 1948 and was carved out by combining two former States viz., Patna and Sonapur. Land revenue administration in the earlier period was carried out by leasing out the villages to the highest bidder who were later known as Gauntias and such lease was for a period of four years. There was uncertainty of tenure; no right was conferred on the rayat over the land and he could be rejected at the will of the Gountia. There was no alternation of land from one lease to another but an increase was affected on the nazarans paid by the Gauntia. The assessment on all rayati lands including this free hold by the Gauntia. The tenants land were classified and accordingly malguzari was determined. The Gauntia enjoyed all the bhogra lands rent free in return for the nazarana paid by him. The tenant was ignorant about the rent and for this he had to rely on the word of the Gauntia. Such State of affairs continued up to 1871 when the next settlement was taken up under the British Administration. According to this settlement a summery enquiry was made and leases were given to the Gauntia, who in turn had to sign a Kabuliyat. Education cess was imposed. The next settlement was conducted in 1885 and provided a liberal approach for the tenant. A regular settlement was taken up in 1895-96 when the remuneration of Gauntia was changed and he was given a "draw back" of 20% and in some cases more of the whole village assets. The next settlement was taken up in 1903 when the survey was conducted on regular basis. The subsequent settlement of 1932-37 was a revisional one where lands were classified and a rent policy could be evolved.

In Sonapur State, several revenue laws were enacted like Patna State and rayats were given some concession particularly after 1932. The previous code ' Bhumibidihi document" of

1907 and modified in 1915 and 1939 contained to operate so far as land revenue administration of Sonapur is concerned. Like Patna State, here also prior to 1887 the bhogra lands were put to quinquennial auction and the thikadar deposited the amount in the State treasury. By this process, the Gauntias repaid heavy benefit. In 1883, 1910 settlement operations were taken up when traverse survey was done and maps were prepared. The last settlement operation was initiated in 1954 under the provision of Bengal Survey Act, 1875 and the records were up-dated.

After the independence, due to rationalisation of land structure and tenures, the survey and settlement operation were taken up in the district during 1963-74 reducing classification of lands as well as rationalising the statuses existing under different named hitherto. The operation has been completed in the entire district and the record of rights has been finalised. The present settlement has recorded the following classification of land in the district.

(For Balangir, Titlagarh, Patnagarh Sub-divisions)

1 Bahal — Bahal Pani-I, Bahal Mahali
2 Berna — Berna Pani-I, Berna Mahali
3 Mal — Mal Pani-I, Mal Mahali

27 Ghar
28 Puratan Patita
29 Nutan Patita

Tenancy—Consequent upon abolition of estates, and agrarian reforms brought out by legislative measures in the recent past, almost a total change has been effected in the tenancy system. Their effect has been so fundamental and wide spread that the entire texture of relationship between State and the land holder on the one hand and the tenant with his immediate landlord on the other has undergone a metamorphosis. As a result, the status of

land has changed its complexion and character in the same manner as the rights of the persons who hold them. The reality in statuses containing the same rights in more than one way under different names had to be rationalised through comprehensive legislative measures. The result of such reform reduced the statuses as follows as it exists under different local names:—

(a) Rayati

(b) Bebandobasti

Trade and Commerce—Trade activities in the district increased consequent upon the construction of Raipur-Vizianagram Railway line in 1933. Businessmen from out side the State had their establishment at different rail-heads of the district, viz.. Titilagarh, Kantabanji etc. to avail of the rural market centres. In the earlier days the export from the district was confined to procurement of agricultural commodities like paddy, rice, oil seed, kendu-leaf, bamboo, timber and other minor forest produce. The imported items included consumer goods, petrol and lubricants, kerosene oil, machinaries etc. The impact of money lenders in the earlier days was more on the petty traders and producers who were forced to pay high rate of interest.

Consequent upon establishment of Co-operative Bank in mid 1934, liberal credit facility was available to the traders. There was no other bank in the district till 1943. In the post-independence era, there has been increased activity of trade and commerce consequent upon availablility of better communication and transport facilities by road and rail besides decentralisation of banking facilities in the rural areas. The Central Co-operative Bank and Land Development Banks besides 52 branches of different Commercial Banks operating in the district provide necessary finance to the traders on easy terms. Five Regional Co-operative Marketing Societies in the district deal with procurement and Supply of agricultural implements, fertilisers etc. through the primary societies and service co-operative societies. The Food Corporation of India has a monopoly procurement of paddy in the district. In addition to above there are 131 unregulated markets (locally known as hats) held weekly or bi-weekly scattered through out the district where trade relating to agricultural and forest produce and consumer goods are mostly taken up. The Civil Supply Corporation as well as the Civil Supply branch of the district regulates the receipt and distribution of essential commodities in the district through fair price shops for facility of the consumers. During the year 1980-81 the district received 3,157.6 tonnes of wheat, 3,181 litres of kerosene oil for consumption purpose and the same was distributed through 758 number of retail centres scattered throughout the district.

Trust Fund—On september, 1925 the-then Maharaja of Sonapur created 23 trust funds with an original corpus with Rupees Ten Lakhs which was intended to be utilised for various development and humaniterian works. In course of time additional funds were also created and the original corpus was increasd from time to time. After merger of the State the District Magistrate is functioning as the administrator of the fund.

Command Area Development Authority (CADA)—The CADA, Sambalpur constituted in the year 1976-77 also looks after a very selected portion of Balangir district. The objective is to ensure optimum use of irrigation potential already created for maximisation of agricultural production in the command area and close the gap between irrigation potential created and actual utilisation. CADA has been giving stress on the development of field channel/field training, land levelling, consolidation of holding and ground water exploitation. The jurisdiction of CADA comprises two blocks, viz., Binika and Dunguripali. Under drainage-cum-recycling scheme, 181 acres have been covered in Dunguripali Block benefiting 60 farmers. Under multicrop demonstration, coverage of 61.25 hectres has been reported in khariff alongwith coverage of 144.16 hectres under Rabi. The crop

emphasis are high yielding paddy, mung, mustard, wheat, pulses, cotton etc. Community nursery has been taken up to educate the interested farmers, 675 minikit packets containing paddy, oil seed and pulses have been supplied in the aforesaid blocks.

Distribution of Government Waste Land for Agricultural and Homestead Purposes—This scheme is in operation from the year 1972. Persons indentified as landless by the Tahasildars are given two acres of Government waste land for agricultural purposes, free of salami. Similarly four decimals of land are made available to the houseless persons for homestead purpose. The intention is to utilise the Government waste land for the community on priority for the weaker sections.

During 1980-81, 78 persons were benefited under homestead land and 143 persons were benefited under waste land, as given below.

Category of beneficiary	Agricultural		Home-stead	
	No. of beneficiary	Area in acres	No. of beneficiary	Area in acres
1	2	3	4	5
S. T.	18	33·100	17	0·680
S. C.	37	70·140	18	0·720
Others	88	166·709	43	1·720
Total	**143**	**269·949**	**78**	**3·120**

Places of Tourist and Historical Importance

A district of ever green forests throughed with colourful wildlife and the cradle for humanity from its infancy from paleolithic and neolithic period of history. Balangir has its own appeal for the nature-loving tourists.

Known as South-kosal from the time of the Ramayan, its soil has been swept by the cross currents of culture giving rise to Sahajayana of Laxmikara and the seven maidens who excelled in esoteric practices. The unspoilt antiquities with their mystery and enchantment as in Ranipur-Jharial, the limitless panorama of scenic splendour of the Gandhamardan hills be jewelled with waterfalls as in Harisankar and the ravishing beauty of the river Mahanadi at dawn and dusk especially in winter have carved out a niche for Balangir district in the grand hall of Orissa Tourism.

Sonapur—Situated on the confluence of the river Mahanadi and Tel, Sonapur otherwise known as Suvarnpura or the city of gold, has a rich antiquity. A number of Kalachuri gold coins and Ganga gold-fanams have been collected from the different parts of the sky line of Sonapur, verily justifying its name as meru lingam is held in high esteem. As legend holds it, on the occasion of Suvaranamarus first appearance at Sonapur, there was a shower of gold pieces for more than half of a day. The temple of Narasinghanath is the tallest among the temples and measures 34·37 metres in hight.

Sonapur known as Paschima Lanka enshrines Goddess Lankeswari on a hillock in the bed of the river Mahanadi forming the gorge known as Lankeswari Dhara. Crusing and fishing with local boat men in the gorge afford a pleasant experience. The doorless temples of Sonapur be speak the tantric occultism which once flourished in this land. Nearest rail head at Balangir on South-Eastern Railway. Sonapur is 48 kms. from Balangir and is connected with good motorable road.

Harishankar—On the southern slope of Gandharmardan hill stands Harisankar a place of pilgrimage favours for its uncommon scenic charms and for the presence of Hari and Sankar, the dual deity of the Vaisnavism and the Saivism. A perennial stream bursting into droplets rushes on its hard granite bed forming cascades at different stages. The murmuring sound resounds all around mingled with the occasional chirp of jungle birds and the jayous shout of the happy bathers in the natural pool formed on the descending bed of the stream. As a cool resort in the lap of nature, Harisankar is a panacea for the heat of the summer seasons.

The Gandhamardan hill enshrines Harisankar on its southern slope in the Balangir district and Nrusinghanath on the northern slope in the Sambalpur district. Both the places are connected by a rough road of 16 kms. long across the hill top which the pilgrims cover in a day on foot. The hill abounds in medicinal herbes and justifice its name, the Gandhamardan. Nearest rail head is at Harisankar Road on South-Eastern Railway Raipur-Titilagarh lines 45 kms. Harisankar is 83 kms. from Balangir and is connected with a good motorable road.

Patnagarh—The ancient capital of the kingdom of Patna, the place is known as Kuanri Patna, the legendary seat of tantrism and Sahajayan cult. The seven maidens of Kuanripatna, with profound occult power belonging to 9th century were great teachers of tantrism. Tantra, as it were, had its base at and around Patnagarh during early christian era. The temples of patneswari and samaleswari in chalukyan style and that of Someswar Siva belonging to 12 century are the monuments, those have survived the worth of time, Patnagarh is a nice little town which combines in happy synthesis its mythic past and the modernity of the present. The nearest rail head is at Balangir. Patnagarh is 38 kms. from Balangir by road.

Ranipur-Jharial—Ranipur-Jharial known as 'Soma Tirtha' in scriptures is a popular centre of pilgrimage for the peole of Orissa

and Madhya Pradesh alike. The circular open vault enclosure (the Hypeetheral temple) of sixty four Yoginis is one of the major attraction of the place. Among many more shrines stand the majestic brick temple 'Indralath' the highest brick temple of Orissa. The shrine of Someswar Siva is the honoured shrine of the Somatirtha, Ranipur-Jharial. The rich archaeological treasures of Ranipur-Jharial reveal that the Saivism, Budhism, Vaishnavism and Tantrism once flourished as an integral part of the cultural heritage of the land.

Nearest rail head is at Titlagarh on South-Eastern Railway and 42 kms. from the place. Ranipur-Jharial is 108 kms. from Balangir by road.

Approach—The nearest airport for approaching the places of interest in the district of Balangir is at Bhubaneswar, which is connected with Calcutta and Vishakhapatham by daily flights. Tourists office at Balangir is 327 kms. from the airport at Bhubaneswar.

Analysis of Village and Town Directory Data

Introduction of new table in District Census Handbook is a novel feature of 1981 Census which is aimed at providing a brief analysis of results for facility of the planners, data users. 13 inset tables have been provided in this publication. The content of each table is explained below in brief.

Table—1 depicts the distribution of villages according to the amenities under each tahasil of Balangir District.

TABLE—1

Distribution of villages according to the availability of different amenities.

Sl. No.	Name of Tahasil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Patnagarh	414	398 (96·14)	27 (6·52)	414 (100·00)	60 (14·49)	42 (10.14)	51 (12·32)	114 (27·54)	257 (62 08)
2	Titlagarh	659	604 (91 65)	95 (14·42)	659 (100·00)	84 (12·75)	77 (11·68)	76 (11·53)	131 (19·88)	106 (16.08)
3	Balangir	681	645 (94·71)	40 (5·87)	681 (100·00)	113 (16·59)	74 (10·87)	66 (9 69)	124 (18 21)	361 (53 01)
4	Rampur	192	183 (95·31)	10 (5·21)	192 (100·00)	27 (14·06)	16 (8·33)	36 (18·75)	36 (18 75	64 (33 33)
5	Birmaharajpur	318	243 (76·42)	18 (5·66)	317 (99·69)	31 (9·75)	14 (4·40)	55 (17.30)	59 (18 55)	161 (50·63)
6	Sonapur	273	224 (82·05)	9 (3·30)	271 (99·27)	26 (9·52)	19 (6·96)	13 (4 76)	39 (14 29)	78 (28 57)
	Total District	**2,537**	**2,297 (90.54)**	**199 (7·84)**	**2,534 (99 88)**	**341 (13·44)**	**242 (9·54)**	**297 (11·71)**	**503 (19·83)**	**1,027 (40·48)**

Out of 2,537 inhabited villages in the district 2,297 villages are having Educational facility, 199 villages are enjoying Medical facility, Drinking Water facility is available in 2,534 villages, Post & Telegraph facility in 341 villages, Market & Hat facility in 242 villages, Communication facility in 297 villages, Power Supply facility in 1,027 villages and only 503 villages are appoached by pucca road. It is clear from the table about the backwardness of the district.

Proportion of rural population served by different amenties in different tahasils of the district is shown in Table—2.

TABLE—2

Proportion of Rural Population served by different amenities

Sl. No.	Name of the Tahasil	Total Population of inhabited villages in the Tahasil	Proportion of Rural Population served by the amenity of—							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Patnagarh	2,37,175	99.07	15.93	100.00	30.93	21·62	22·85	39·13	70·12
2	Titilagarh	3,45,530	97.66	25.34	100.00	27·04	22.62	19.30	26.86	29.15
3	Balangir	3,74,178	98 87	14·96	100·00	34·92	19·15	17.66	22·97	66·87
4	Rampur	1,55,790	99.49	11·57	100 00	29.55	16·83	28·48	29·54	49·12
5	Birmaharajpur	1,08,703	93·21·	16·95	99·99	26.23	13.91	25 08	22·73	72·46
6	Sonapur	1,04,512	95·35	9.03	99·99	24·97	15·11	10.54	18.43	44.95
	Total district	**13,25,888**	**97·92**	**17.14**	**100.00**	**30·03**	**19.48**	**20.33**	**27.27**	**54.27**

Out of 13,25,888 rural population of the district 97.92 per cent of the population are served by Educational facility, 17.14 per cent by Medical facility, 30.03 per cent by Post & Telegraph facility, 19.48 per cent by Market & Hat facility, 20.33 per cent by Communication facility. 54.27 per cent by Power Supply facility. 27.27 per cent of pucca road facility, drinking water facility is available to the entire rural population of the district except a few in Birmaharajpur and Sonapur Tahasil where 99.99 per cent of the rural population are enjoying drinking water facility in the village.

Table—3 depicts the distribution of villages not having certain amenities arranged by distance range from the places where these are available.

TABLE—3

Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available.

Village not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	—5 Kms.	5-10 Kms.	10+Kms.	Total (Cols. 2 to 4)
1	2	3	4	5
1 Education	232	8	...	240
2 Medical	905	829	604	2,338
3 Drinikng water	3	...	...	3
4 Post & Telegraph	1,576	521	99	2,196
5 Market/Hat	1,198	821	276	2,295
6 Communication	995	717	528.	2,240

Out of 2,537 inhabited villages in the district the educational facility is not available in 240 villages, Medical facility in 2,338 villages, Drinking Water facility in 3 villages, Post & Telegraph facility in 2,196 villages, Market and Hat facility in 2,295 villages and Communication facility in 2,240 villages. Most of the villagers are enjoying these facilities within a distance of less than 5Kms.

Table—4 depicts the distribution of villages according to the distance from the nearest town and availability of different amenities in the district.

TABLE—4

Distribution of villages according to the distance from the nearest town and availability of different amenities.

Distance Range from the nearest town (in Kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
0-5	163	151 (92·64)	6 (3·68)	163 (100.00)	33 (20.25)	9 (5·52)	23 (14·11)	58 (35·58)	102 (62.58)
6-15	739	670 (90·66)	39 (5·28)	738 (99·86)	92 (12·45)	64 (8·66)	76 (10.28)	158 (21.38)	361 (48.85)
16-50	1,508	1,368 (90.72)	146 (9·68)	1,506 (99.87)	199 (13·20)	163 (10.81)	185 (12·27)	277 (18·37)	536 (35·54)
51+	127	108 (85·04)	8 (6·30)	127 (100.00)	17 (13·39)	6 (4·72)	13 (10·24)	10 (7·87)	28 (22·05)
Unspecified	...	...	...	...	...	...	...	...	...
Total	**2,537**	**2,297 (90·54)**	**199 (7.84)**	**2,534 (99·88)**	**341 (13·44)**	**242 (9·54)**	**297 (11·71)**	**503 (19·83)**	**1,027 (40·48)**

Out of 2,537 inhabited villages, 1,368 villages are coming under the distance range of 16-50 Kms. from the nearest town, 670 villages are coming under the distance range of 6-15 Kms., 108 villages are coming under the distance range of more than 50 Kms, and the rest 151 villages are under the distance range of 0-5 Kms. from the nearest town. It is revealed from the table that the villages nearer to the town are enjoying more facility than those which are far away from the town.

Distribution of villages according to the population range and amenities available is shown in Table—5.

TABLE—5

Distribution of villages according to Population Range and Amenities available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10

Total	**2,537**	**2,297 (90·54)**	**199 (7·84)**	**2,534 (99·88)**	**341 (13·44)**	**242 (9·54)**	**297 (11·71)**	**503 (19·83)**	**1,027 (40·48)**

Most of the villages of the district are coming under the lowest population range of less than 500 population. It is seen that villages having more population are enjoying better facility than the villages coming under the lower population range. There is no village coming under the highest population range i.e. 5,000 and above. The villages coming under the higher population range i.e. 2,000—4,999 are enjoying educational facility, drinking water facility fully and other facilities are also available in more than 60 per cent of the villages coming under this range.

Main staple food in the majority of the villages in each tahasil of the district is shown in Table—6.

TABLE—6

Main Staple Food in the majority of villages in each Tahasil

Sl. No.	Name of the Tahasil	Main Staple Food
1	2	3
1	Patnagarh	Rice
2.	Titlagarh	Rice
3	Balangir	Rice
4	Rampur	Rice
5	Birmaharajpur	Rice
6	Sonapur	Rice

Rice is reckoned as the main staple food in all the thasils of the district.

Table—7 depicts distribution of villages according to the land use pattern of different tahasil of the district.

TABLE—7

Distribution of villages according to land use

Sl. No.	Name of the Tahasil	No. of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Patnagarh	414	1,53,491·30	82·78	7·53
2	Titlagarh	659	1,86,574·90	80 69	8 26
3	Balangir	681	1,96,578·52	79·22	12·80
4	Rampur	192	56,728·93	99.54	78·62
5	Birmaharajpur	318	59,199·17	86·04	19·13
6	Sonapur	273	53,565·98	89 96	26·05
	Total District	**2,537**	**7,06,138·80**	**82·68**	**17·92**

Note :—The area figures fo uninhabited villages and villages for which the land use data are not available are excluded from the total.

It is revealed from the table that percentage of irrigated area to total cultivable area is only 17· 92 per cent which indicates that the irrigation facility is not sufficient for the district.

Table-8 shows the growth, density and sex ratio of urban population in the district in relation to the State.

TABLE—8

Growth, Density and Sex-Ratio of Urban Population in the District in relation to the State

Census Year	BALANGIR						ORISSA					
	Total Population	Urban Population	Percentage of Urban Population	Decadal percentage variation in Urban Population	Density (Population per sq. km.)	Sex-ratio (No. of females per 1,000 males)	Total Population	Urban Population	Percentage of Urban Population	Decadal percentage variation in Urban Population	Density (Population per sq. km.)	Sex ratio (No.of females per 1,000 males)
1	2	3	4	5	6	7	8	9	10	11	12	13
1951	9,17,875	40,693	4.43	+37·26	654	957	1,46,45,946	594,070	4·06	+44.01	1,195	881
1961	10,68,686	49,659	4·65	+22·03	800	923	1,75,48,846	11,09,650	6.32	+86·79	1,078	807
1971	12,63,657	86,663	6·86	+74.57	862	923	2,19,44,615	18,45,395	8 41	+66·30	1,113	845
1981	14,59,113	133,225	9·13	+53.73	1,092	930	263,70,271	31,10,287	11·79	+68.54	1,359	859

The percentage of urban population to total population of the district during the current decade (9 13 per cent) is lower than that of the State average 11·79 per cent This is due to non-existence of big town/city in the district.

Percentage of urban population in 1951 Census was only 4·43 which was higher than that of the State average. In succeeding decades it has gradual growth, but in each decade, it remained below the State average. The growth

rate of urban population of the disstrict is 53·73 per cent during the current decade, which is lower than that of State growth rate of 68·54 per cent. The density of population i. e. population per Sq. Km. is also less in urban areas of the district than that of the State average. But the sex ratio i. e. number of females per 1,000 males is more than that of the State.

Table—9 gives the data on new towns created/de-classified in 1981 Census.

TABLE—9

New towns added/de-classified in 1981 Census

Name of the Town	Population in 1981 Census
1	2
(a) Added	
(i) Binika	11,004
(b) De-classified	NIL

In addition to the list of the town in 1971 Census only one new town namley Binika has been created and no town has been de-classified during the decade.

Per capita receipt and expeuditure in towns have been shown in Table—10

TABLE—10

Per Capita Receipt and Expenditure in Towns 1978-79

Class, Name & civic status of the town	Per Capita

III Titlagarh (N.A.C.) *	30·11	0.06	30.05	26·38	1·98	1·52	3·78	...	19.10
Total	34·28	8.11	26.17	32·46	5.76	6.11	6.46	1·04	13.39

* The town having outgrowth

The financial aspects have been presented in this table for all the towns of the district. Coming to the receipt side the per capita receipt has been assessed at Rs. 34.28 in the district. Out of which Rs. 8.11 through taxes, Rs. 26·17 through other sources under Government grant etc. As regards expenditure side per capita total expenditure under urban area of the district is Rs. 32.46, out of which Rs. 5·76 is utilised under general administration, Rs. 6.11 under public health Rs. 6.16 under public works, Rs. 1.04 under public institution

and Rs. 13.39 under other aspects. It is revealed from the table that the financial position of the urban bodies in the district is better.

Table—11 depicts the number of schools per 10,000 population in the towns.

TABLE—11

School per ten thousand Population in Towns

Class, name and civic status of town	No. per ten thousand population			
	Higher Secondary/ Intermediate/ P.U.C./ Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
1	2	3	4	5
II Balangir (M)	...	1	1	3
IV Binika (N·A·C·)	...	1	2	2
IV Kantabanji (N·A·C·)	...	1	1	5
IV Patnagarh (N·A·C·)	...	1	2	8
IV Sonapur (M)	...	3	2	7
V Tarbha (N.A·C·)	...	3	1	13

III Titlagarh (N·A·C·) *	...	1	1	5
Total	...	**1**	**1**	**6**

* The town having outgrowth.

It is revealed from the table that only 6 Primary Schools, 1 Junior/Secondary/Middle Schools and 1 Secondary/High Schools are available for each 10,000 population in the town as a whole of the district. No Higher Secondary/ Intermediate/Junior College is available for the 10,000 urban population of the district.

Table—12 depicts the number of beds in Medical Institution in towns.

TABLE—12

Number of Beds in Medical Institutions in Towns

Class, name and civic status of the town		No. of beds in Medical Institutions per 1,000 population
1		2
II	Balangir (M)	3
IV	Binika (N·A·C·)	1
IV	Kantabanji (N·A·C·)	1
IV	Patnagarh (N·A·C·)	Negligible
IV	Sonapur (M)	5
V	Tarbha (N·A·C·)	1
	Titlagarh Urban Agglomeration	2
III	Titlagarh (N·A·C.) *	2
	Total	2

* The town having outgrowth.

It is revealed from the Table that only 2 beds are available per 1,000 urban population in the district.

Table—13 depicts the most important commodities manufactured in Towns and the commodities imported and exported

TABLE—13

Most important commodity manufactured, imported and exported in Towns.

Class, name and civic status of the town	Most Important Commodity		
	Manufactured	Exported	Imported
1	2	3	4
II Balangir (M)	Ayurvedic Medicine	Kendu leaf	Coal
IV Binika (N.A·C)	Tile	Paddy	Wood
IV Kantabanji (N. A· C)	Oil	Rice	Oil Seed
IV Patnagarh (N· A· C)	Cloth	Paddy	Graphite
IV Sonapur (M)	Gudakhu	Rice	Sugar
V Tarbha (N· A. C)	Gudakhu	Gudakhu	Silver
Titlagarh Urban Agglomeration	See Constituent Units		
III Titlagarh (N· A. C) *	Graphite Crucibles	Graphite	Edible Oils

* The town having out-grouth

It is revealed from the table that Ayurvedic Medicines, Tile, Oil, Cloth, Gudakhu, Graphite, crucibles are manufactured and exported alongwith Kendu leaf, Paddy, Rice, Graphite from the towns whereas Coal, Wood, Oilseeds, Sugar, Silver, Edible oils etc. are some of the main commodities imported to the towns of the district.

SECTION–I

VILLAGE DIRECTORY

Codes used in the Village Directory

In the Village Directory various amenities and other data have been indicated by codes for want of space. The codes used in different columns are explained below.

COL. 5—**Educational Amenities :**

This column is intended to provide availability of educational facility in the village under the following codes :

1.	Primary or Elementary School	... P
2.	Junior Secondary or Middle School	... M
3	Matriculation or Secondary	... H
4.	Higher Secondary/Intermediate/ Pre-University/Junior College	...PUC
5.	College	... C
6.	Industrial School	... I
7.	Training School	... Tr.
8.	Adult literacy Class/Centre	... Ac
9.	Other Educational Institutions	... O

Schools upto Class-V have been treated as Primary School and have included Nursery School, Kindergarten School, Pre-basic School, Pre-Primary School, Junior Basic School, upto Class-V. Schools upto Class-VII have been treated as Junior Secondary or Middle English School. Schools upto Class-XI (Matriculation) have been considered as Secondary or High School. This also includes High Madarsa upto Class-X. Schools or Colleges upto Class-XII are considered as Higher Secondary Schools. In case of composite Schools like M. E. with Primary classes or Higher Secondary Schools with M. E. classes, those have been included in the number of Primary School and Middle School respectively. In a village having two Primary Schools and one M. E. with primary classes, the total number of Primary Schools in the village has been recorded as three and M. E. as one.

In this process, the number of institutions have been determined and presented under the approved code. In cases of availability of more number of institutions of a type, the number has been indicated within bracket after the code. In case the amenity is not available in the village the same has been shown by a dash(—) in the relevant column having a note of the distance range regarding its availability.

COL. 6—**Medical Amenities :**

Availability of such amenities has been presented under the following codes. In case of availability of more number of institutions of a type, such number has been indicated within bracket against the abbreviation. Where the amenities are not available,it has been indicated by a 'dash' in the relevant column with a note thereunder including distance range of its availability.

Hospital	...	H
Maternity and Child Welfare Centre	...	MCW
Maternity Home	...	MH
Child Welfare Centre	...	CWC
Health Centre	...	HC
Primary Health Centre	...	PHC
Primary Health Sub-centre	...	PHS
Dispensary	...	D
Family Planning Centre	...	FPC
T. B. Clinic	...	TB
Nursing Home	...	NH
Registered Private Practitioner	...	RP
Subsidised Medical Practitioner	...	SMP
Community Health Worker	..	CHW
Others		

COL. 7—Drinking water Amenities :

The types of potable drinking water supply sources available within the village has been indicated by the following codes. If the amenities are not available in the village it has been presented by a dash (—) in the relevant column and the distance range of its availability thereunder.

Tap Water	...	T
Well Water	...	W
Tank Water	...	Tk
Tubewell Water	...	TW
Hand Pump	...	HP
River Water	...	R
Fountain	...	F
Canal	...	C
Lake	...	L
Spring	...	S
Nallah	...	N
Others	...	O
Information not available	...	NA

COL. 8—Post & Telegraph :

Availability of amenities in the village has been presented under the following codes. In case of non-availability it has been presented by a dash (—) in the relevant column also indicating the distance range thereunder.

Post Office	...	PO
Telegraph Office	...	TO
Post and Telegraph Office	...	PTO
Telephone connection	...	Phone

COL. 10—Communication :

Availability of public transport like bus, rail and water way to the village have been indicated by the following codes. In case of non-availability, it has been presented by a dash (—) in the said column with the distance range of its availability mentioned thereunder.

Bus Stop	...	BS
Railway Station	...	RS
Navigable Watar Way (including river, canal, back-watar etc.)	...	NW

COL. 11—Approach to the Village :

This is a new introduction in the 1981 Census not covered by the 1971 series. Approach to the village refers to the state of road etc. leading to the village. The intention is to see whether the village is approachable both in fair and foul weather and whether it is inaccessible sometime in the year. Such approach has been presented under the following codes.

Pucca Road	...	PR
Kutcha Road	...	KR
Navigable River	...	NR
Navigable Canal	...	NC
Navigable Water Way (other than river or canal)	...	NW
Foot-Path	...	FP

COL. 13—Power Supply :

If the power is actually available in the village in any form, then the same has been presented in this column under the following codes.

Electricity for domestic purpose	...	ED
Electricity for Agriculture	...	EAg
Electricity for other purposes like industrial or commercial etc.	...	EO
Electricity for all purposes listed above	...	EA

COL. 20—**Remarks including any place of religious, historical or archaeological interest:**

This column is intended to record particulars of any place of importance as well as the information on number of copies of news papers coming to the village and motor cycles/scooters, cars/jeeps and tractors available in the village. The codes used in this column are as follows.

N—Copies of the news papers coming to the village.

M—Motor cycles/Scooters available in the village.

C—Cars/Jeeps available in the village

T—Tractors available in the village

The information presented under this column is illustrated below.

N-32, M-2

Here N-32 represents the copies of newspapers viz. 32 and M-2, the number of motorcycles/scooters viz. 2.

SECTION–II

TOWN DIRECTORY

Codes used in the Town Directory

STATEMENT—I

Status and growth history :

Col. 2—Class, name and civic administration status.

Class has been introduced to facilitate analysis on town directory data at State and all-India levels. It has been presented according to 1981 Census population of the core town in following ranges by the classification noted against each.

POPULATION		CLASS
1,00,000 and above	...	I
50,000—99,999	...	II
20,000—49,999	...	III
10,000—19,999	...	IV
5,000— 9,999	...	V
Below 5,000	...	VI

The name of the town has been shown in this column, with the correct spelling as adopted in the official record. Regarding the civic administration status, the town as it stood in 1980 has been indicated by the following abbreviations :

Municipality	...	M
Notified Area Council	...	NAC
Census Town	...	CT

STATEMENT—II

Physical aspects and location of towns :

Col. 12—The name of the navigable river/canal which is situated within a distance of 10 kms. has been shown under this column with distance from the referrent town. After the name of the river/canal 'R' for river and 'C' for canal has been given in brackets to denote whether it is a river or canal as illustrated below.

Mahanadi (R)—5

STATEMENT—IV

Civic and other Amenities :

Col. 6—Road length (in kms.)

Information under this column has been obtained from the officer in-charge of the concerned urban local body. There are cases where the municipalities/notified area council maintain their roads accounts separately. Pucca roads and kutcha roads available in the town have been presented under the abbreviation 'PR & KR' respectively.

Col. 7—System of sewerage :

The sewerage system is implied the net work of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal in the town. For the towns which are not provided with such underground sewerage system, availability of open surface drain or box drain etc. have been mentioned. The various type of sewerage/drainage system have been indicated upto two places in the town under the following codes :

Sewer	...	S
Open Surface Drains	...	OSD
Box Surface Drains	...	BSD
Sylk Drains	...	SD
Cesspool method	...	CD
Pit system	...	Pt

Col. 11—Method of disposal of night soil :

Information in this regard has been obtained from the local body and the prevalent method of disposal of night soil has been presented with the following codes upto two places in order of their importance in the town. The objective of providing such data is to collect information which could help Government to provide a programme of stopping the practice of

removal of night soil as head loads and also minimising the use of human labour in the process of disposal.

Head Loads	...	HL
Baskets	...	B
Wheel Barrows	...	WB
Septic Tank latrines	...	ST
Sewerage	...	S

Col. 12 & 13—Protected water supply :

The information collected from the local offices has been incorporated in these columns, in some cases such data had to be obtained from the State Public Health Engineering Department. The information on sources of water supply has been indicated in Col. 12 as against the system of storage with capacity in litres (in brackets) which has been presented in Col. 13. The same has been presented under following codes :

Over Head Tank	...	OHT
Service Reservoir	...	SR
River infiltration gallery	...	IG
Bore Well Pumping system	...	BWP
Pressure tank	...	PT
Tubewell Water	...	TW
Tap water	...	T
Well water	...	W
Tank water	...	Tk

The first five codes started above relate to the system of storage whereas the remaining four codes represent the different sources of water supply.

STATEMENT—V

Medical, Educational, Recreational and Cultural facilities.

Col. 4 & 5—Medical facilities— Hospitals/ Dispensaries and beds available :

Information in this regard has been collected from the local offices. However, the institutions run by private doctors have not been included in these data, which have been restricted to the institutions run/aided by Government/ Semi-Government/ Local bodies/ Charitable institutions/ Social service agencies. The various types of institutions have been presented under the following codes :

Hospital	...	H
Dispensary	...	D
Health Centre	...	HC
Family Planning Centre	...	FC
T. B. Clinic	...	TB
Nursing Home	...	NH
Others	...	O

For places where medical facilities are not available, the name of the nearest place in the same district or nearest district, if in the same State or other State and its distance from the town where the facility is available has been indicated. All types of hospitals/dispensaries etc. whether allopathic, ayurvedic or homoeopathic have been covered. These are further distinguished by providing additional codes :

A—Ayurvedic

U—Unani

Hom—Homoeopathic

In case of allopathic, no separate code has been given.

Col. 6 to 9—Educational facilities :

Information in this regard has been collected from the local officials and to the extent possible have been checked up with the informotion available in the office of the Director of Public Instructions of the State. For the place where more than one institutions of each type is available, the number thereof has been given against each in brackets. The codes used for different institutions are as follows :

Arts only	...	A
Science only	...	S
Arts and Science only	...	AS
Commerce only	...	C
Arts and Commerce only	...	AC
Combined of all categories Arts, Science and Commerce	...	ASC
Law	...	L

Col. 10—Recognised shorthand, typewriting and vocational training institutes :

Information has been collected from the local authorities. Here "recognised" means the institution recognised by statutory authority like Education Department Commerce Department or Labour Department of the Government or semi-Government or autonomous bodies. The institution of each type has been presented under the following codes :

Shorthand	...	Sh
Typewriting	...	Type
Shorthand and Typewriting	...	Sh. Type
Others	...	O

Col. 11-14—Higher Secondary/ Intermediate/ PUC (Pre University College)/ Junior College Level, Secondary/ Matriculation, Junior Secondary/ Middle Schools and Primary Schools :

Information in this regard has been collected from the local authority and presented under the following codes;

Primary School	...	P
Junior Secondary or Middle School	...	M
Matriculation or Secondary	...	H
Higher Secondary/ Intermediate/ Pre-University/ Junior College/ '10+2' system whether held in Schools or Colleges.	...	PUC

If educational facility is not available in the town, the name of the nearest place in the same district or name of the nearest district in the same State or other State with its distance from the town where the facility is available has been indicated.

Col. 17 to 20—Number of recreational and cultural facilities :

Information in this respect has been obtained from the local authority. Touring cinema has been eliminated from our purview and only permanent cinema/theaters have been included. Community halls, auditorium have been added in this column as the same are becoming a common feature of the urban landscape. Information on Public libraries including reading rooms has been collected from the local authority and presented under the following codes :

Public Library	...	PL
Reading Room	...	RR
