PHULPUR	1,152.6	529,288	1,042	–
LALGANJ	997.7	413,440	860	–
TOTAL	5744.0	2,857,484	5,628	5

BARAH MOORTI

Barah Moorti a very old idol made of black stones, is placed in a temple situated in village Pakadon Kalan of district Azamgarh. During the reign of Aurangzeb, so runs the story, the idol was destroyed and thrown in a tank Malahara—near the present temple. About 200 years back a *Barai* resident of the village spotted out this idol while digging a well for irrigating his field. The idol was reinstalled in the present temple by a saint of repute.

ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the Village and Block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-Census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G.A.D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A.P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintendent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics preparation of notes and reading of proofs. I am grateful to Shri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandrasekhar, Registrar General, India, Sri K. D. Ballal and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations
Uttar Pradesh.

Lucknow
Dated : October 3, 1972.

INTRODUCTORY NOTE

1. History of District Census Handbook

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognized and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise-Primary Census Abstract

Part C : Analytical Report and Administrative Statements—District Census Tables

2. Scope of District Census Handbook

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and Scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex,

Scheduled Caste and Scheduled Tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc. in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. **Town Directory.**—Given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as towns :—

1. All Municipal Corporations, Municipal Boards, Contonments & Notified Areas.

2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.

3. Other places satisfying all the three under mentioned conditions :

   (*i*) Population exceeds 5,000.

   (*ii*) At least 75% of the male working population engages in non-agricultural pursuits, and

   (*iii*) The density of population exceeds 1,000 persons per Sq. mile (386 persons per Sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) **Statement I**—This statement presents the population of the towns at the end of each decade from 1901, to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been re-grouped into five broad functional classifications.

(*i*) Primary Activities—Categories I, II, III & IV.

(*ii*) Industry—Categories V(a), V(b) and VI.

(*iii*) Trade and Commerce—Category VII

(*iv*) Transport—Category VIII and

(*v*) Services—Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40 per cent or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60 per cent or above, the town is designated as bi-functional. If the total does not yield 60 per cent the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are ;

C—Municipal Corporation

M—Municipal Board

NAC—Notified Area Committee

TC—Town Area Committee

CB—Cantonment Board

(b) Statement II—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest city with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The attitudes of the towns given in column 3 have been supplied by the Surveyor General of India.

(c) Statement III—It reveals the Municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) Statement IV—In this statement, the Civic and other amenities available in the towns have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notation used in the statement are as below :

Column 3	PR	for Pucca Road
	KR	for Kachcha Road
Column 4	PT	for Pit Tank
	OSD	for Open Surface Drain
Column 8	B	for Basket
	HC	for Hand Cart
	HL	for Head Load
	MT	for Mechanical Transport
Column 9	TW	for Tube well
	OHT	for Overhead Tank

(e) Statement V—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Column 3	H	for Hospital
	D	for Dispensary
	HC	for Health Centre

Column 3	FC	for Family Planning Centre
	TBC	for T. B. Clinic
	MCW	for Maternity and Child Welfare Centre
Column 5	AS	for Arts and Science College
Column 17	PL	for Public Library
	RR	for Reading Room

(f) **Statement VI**—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) **Statement VII**—The census Table CVII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. Whereas sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others'.

(4) **Village Directory** reveals the general living conditions of peasantry and the overall development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, Post and Telegraph have been given in columns 4 to 9 of this Directory. Besides the information relating to staple food, distance from nearest town, days of market/*hat* and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purposes only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

In Column 4

JBS	for Junior Basic School
SBS	for Senior Basic School
HSS	for Higher Secondary School
C	for College
O	for Others

In Column 5

H	for Hospital
D	for Dispensary
FC	for Family Planning Centre
HC	for Health Centre
MCW	for Maternity & Child Welfare Centre
O	for Others

In Column 6

E	for Electricity

In Column 7

T	for Tap
HP	for Hand Pipe
W	for Well
WE	for Well with Electricity
TK	for Tank
R	for River
F	for Fountain
C	for Canal
WF	for Waterfall
L	for Lake
TWE	for Tube-well with Electricity
O	for Others

In Column 8

KR	for Kachcha Road
PR	for Pucca Road
T	for Train
CR	for Canal Road
R	for River
C	for Canal

In Column 9

PO	for Post Office
TO	for Telegrap Office
PTO	for Post and Telegraph Office
Phone	for Telephone

In Column 12

T	for Total
C	for Canal
W	for Well
WE	for Well with Electricity
TW	for Tube-well
TWE	for Tube-well with Electricity
TK	for Tank
R	for River
WF	for Waterfall
L	for Lake
F	for Fountain
O	for Others

In Column 18

T	for Temple
M	for Mosque
C	for Church
G	for Gurudwara
HP	for Historical Place
RP	for Religious Place
A	for Archaeological monument
EA	for Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil-wise break up.

THE DISTRICT

A—TOWN DIRECTORY

(a) Statement I—Azamgarh District consists of five urban areas viz. Azamgarh, Mubarakpur, Kopaganj, Maunath Bhanjan and Muhammadabad. There is no change in the total number of towns since 1961. The functional distribution of towns of the district is as follows :

Table 1

Functional Category	Name of Towns
1. Industry	Maunath Bhanjan, Mubarkpur and Kopaganj
2. Services	Azamgarh
3. Primary Activities-*cum*-Industry	Muhammadabad

It can be seen from the above table that four towns out of five are mono-functional, Maunath Bhanjan, Mubarakpur and Kopaganj are Industry towns with 71.28 per cent, 80.16 per cent and 47.00 per cent working population engaged in Industrial group.

Azamgarh is service town with 43.32 per cent of its working population engaged therein.

Muhammadabad is a bi-functional town where primary activities predominate with 35.73 per cent followed by Industrial group with 27.98 per cent of working population.

(b) Statement II—The physical and locational aspects have been covered in this statement. The data of annual rainfall and the maximum and minimum temperature of all the towns relate to the observatory at Azamgarh.

(c) Statement III—The per capita receipt and expenditure by the local bodies in the five towns is as below :

Table 2

Class of Towns	No. of Towns	Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health and convenience	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class II 50,000 to 99,999 (Maunath Bhanjan)	1	15.29	8.59	6.70	14.74	5.53	2.87	6.34
Class III 20,000 to 49,999 (Azamgarh & Mubarakpur)	2	24.57	9.25	15.32	24.69	9.63	5.35	9.71
Class IV 10,000 to 19,999 (Kopaganj)	1	6.51	2.10	4.41	5.43	1.57	...	3.86
Class V (Muhammadabad)	1	7.00	0.83	6.17	6.72	0.12	...	6.60

The per capita receipt of class II, III, IV and V towns is Rs. 15.29, 24.57, 6.51 and 7.00 respectively. Against this the per capita expenditure is Rs. 14.74, 24.69, 5.43, and 6.72 respectively.

(d) Statement IV—All the towns have protected water supply and road lighting arrangements. Fire-fighting services is not available in any town. There is no arrangement of mechanical transport for removing night soil and baskets are used for this purpose in all the towns.

(e) Statement V—All the towns of the district have medical facilities. A T. B. Clinic is established at Azamgarh. The total beds in the medical institutions of the towns of the district number 216, the highest (167) being in Azamgarh and lowest of (3) in Muhammadabad. The number of beds per 1,000 population has been shown in the following table :—

Table 3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
216	1.45

Three degree colleges with faculties of Arts, Science and Commerce are located in Azamgarh. One degree college with faculty of Arts is located in Maunath Bhanjan. There is one Polytechnic and one Short Hand Typewriting institute in Azamgarh and Maunath Bhanjan respectively. The number of Higher Secondary, Middle and Primary Schools (1969) per 1,000 population is given in the following table :—

Table 4

Name of Town	Number per 1,000 population		
	Higher Secondary School	Middle School	Primary School
1	2	3	4
Azamgarh	0.15	0.12	0.51
Kopaganj	0.07	0.07	0.21
Maunath Bhanjan	0.09	0.03	0.62
Mubarakpur	0.09	0.05	0.09
Muhammadabad	0.12	0.24	0.24

There are two cinema halls each in Azamgarh and Maunath Bhanjan. Facilities of Public libraries are also available in both the towns.

(f) Statement VI—The main article manufactured in as well as exported from Kopaganj, Maunath Bhanjan, Mubarakpur and Muhammadabad is Hand and Power-loom cloth. Plastic goods are manufactured in and exported from Azamgarh.

Cotton yarn is the most important commodity imported to Kopaganj, Maunath Bhanjan and Muhammadabad, where as cloth and silk yarn are imported to Azamgarh and Mubarakpur respectively.

(g) Statement VII—The population of all the urban areas is mainly comprised of Hindus (42.27 per cent) and Muslims (57.41 per cent). The percentage growth of Hindu population of these towns during the last decade is 23.26 which is much short of the growth rate of Muslim population (34.07 per cent).

The percentage of scheduled caste persons to total persons in all the urbans areas together is 7.69 per cent. There is no scheduled tribes population.

B—VILLAGE DIRECTORY

(a) According to their area in acres the villages have been stratified in the following table :

Table 5

Area (in acres)	No. of Villages	Percentage
1	2	3
50 acres or less	849	15.08
51—100	1,058	18.80
101—200	1,434	25.48
201—500	1,641	29.16
501—1,000	488	8.67
1,001—2,000	127	2.26
2,001—5,000	30	0.53
5,001 acres and above	1	0 02
Total	5,628	100 00

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 500 acres are highest claiming the percentage of 29.16. Thereafter, the number of villages goes on decreasing as the size of villages increases. There is only 1 village having an area exceeding 5,000 acres. As regards smaller villages, there are 849 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table :

Table 6

Distance from the nearest town (in kms.)	Total No. of villages	No. of villages having				
		Primary Schools	Middle Schools	Higher Secondary Schools	Colleges	Others
1	2	3	4	5	6	7
0—5	371	91	13	6	2	7
6—10	687	159	19	10	1	2
11—15	456	90	8	7	1	2
16—25	1,301	256	24	18	2	2
26—50	2,340	467	62	30	1	8
51—100	473	125	17	2	...	4
101—200	...	...	...	...	...	...
201 and above	...	...	...	...	...	...
Total	5,628	1,188	143	73	7	25

The cursory perusal of the table would show that the largest number of educational institutions (568) are in villages which are in the distance group 26—50, but it is actually so on account of the large number of villages falling in this distance group which number 2,340. If the number of educational institutions are correlated with the number of villages the highest proportion of institutions is found in the villages which are located in the distance group (0—5).

(c) 47 villages in district Azamgarh have hospitals. If all kinds of medical institutions including dispensaries, health centres, etc., are taken into account only 96 villages out of 5,628 are reported to have medical institutions.

The following table presents the number of medical institutions per 100 sq. kms. :—

Table 7

Name of Tahsil	Total area (in sq. kilometres)	No. of medical institution of any kind per 100 sq. kilometres
1	2	3
Azamgarh	808.19	3
Ghosi	937.00	3
Lalganj	996.47	1
Sagri	917.34	1
Muhammadabad	920.23	2
Phulpur	1,154.68	1

Tahsils Ghosi and Azamgarh each has 3 medical institutions per 100 sq. kms. whereas there is only one medical institution per 100 sq. kms. in tahsils Lalganj, Sagri and Phulpur.

(d) 1,495 villages are electrified in the district out of 5,628 villages. Their percentage comes to 26.56.

The largest number of electrified villages (405) lie in Tahsil Muhammadabad and lowest Tahsil in Lalganj (96). The power supply in villages with reference to their distance from the nearest town is given in the following table :

Table 8

Distance from the nearest town	Total No. of villages	Number of villages with Electric Power Supply	
		Total	Percentage of total electrified villages to total villages
1	2	3	4
0—5	371	191	51.48
6—10	687	268	39.01
11—15	456	146	32.02
16—25	1,301	313	24.06
26—50	2,340	481	20.56
51—100	473	96	20.30
101—200	...	...	...
201 and above	...	...	...
Total	5,628	1,495	26.56

The percentage of electrified villages to the total villages is highest 51.48 for those situated within a radius of 0 to 5 kms. and the minimum percentage of 20.30 is for those situated at a distance 51 to 100 kms. from the nearest town. It is evident from the above table that the percentage of electrified villages to total villages decreases with the increase of distance from the nearest town.

(e) 1.46 per cent of villages of the district are connected by rail, 21.93 per cent are connected by *pucca* roads and 3.11 per cent by *kachcha* and *pucca* roads. The percentage of villages having only *kachcha* roads is 30.10. The nature of communications have been shown in the following table, where the villages have been classified according to their distance from the nearest town :—

Table 9

Distance from the nearest town	Total No. of villages	No. of villages connected by							
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road & River	Kachcha Road & River	Pucca Road & Train	Kachcha Road & Train	Others
1	2	3	4	5	6	7	8	9	10
0—5	371	106	58	12	...	1	17	5	4
6—10	687	166	214	36	1	...	6	4	23
11—15	456	87	153	19	1	...	16	1	9
16—25	1,301	287	441	24	2	1	18	...	35
26—50	2,340	472	742	73	...	...	14	...	82
51—100	473	116	86	11	...	...	1	...	15
101—200	...	...	...	...	...	...	...	...	...
201 and above	...	...	...	...	...	...	...	...	...
Total	5,628	1,234	1,694	175	4	2	72	10	168

(f) There are in all 370 post offices in the rural areas of the district. On an average, 1 post office caters to the need of about 15 villages. The number of post offices per 100 sq. kms. in the various tahsils have been shown in the following table : —

Table 10

Name of Tahsil	Total area (in Sq. kilometres)	No. of Post Offices per 100 Sq. kilometres
1	2	3
Azamgarh	808.19	8
Ghosi	937.00	7
Lalganj	996.47	6
Sagri	917.34	5
Muhammadabad	920.23	7
Phulpur	1,154.68	7

Tahsil Azamgarh has the lowest number (8) of post offices per 100 sq. kms. whereas the minimum number (5) of post offices per 100 sq. kms. is in tahsil Sagri.

(g) Wheat and Rice are the staple food in the district.

(h) The cultivated area is 79.01 per cent of the total rural area of the district, of which 54.41 per cent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivated waste per village to average cultivated land per village
1	2	3	4	5	6	7
0—5	371	72,140	194	6,539	18	9.28
