SRI KODANDARAMASWAMY TEMPLE

The motif presented on the cover page is 'Sri Kodandaramaswamy Temple' of Vontimitta village in Sidhout taluk of Cuddapah district.

This ancient temple is most impressive and imposing, known far and wide. Centuries back, the French traveller Tavernier described the shrine as 'ONE OF THE GRANDEST PAGODAS IN THE WHOLE OF INDIA'. The main diety in the temple is Lord Kodanda Rama (Lord Rama with bow). In the main shrine, on a single stone, images of Rama, Lakshmana and Sita have been carved. Since the dieties are carved on a single stone, the village is also known as 'Ekasila-nagaram'.

The temple has three gopurams, of which the central and loftiest is adorned with carved figures, others being plain. Within the court-yard are two stone mantapams, a large one with thirty two pillars and a smaller one with fourteen. The former is the place where the Uthsava Vigrahams (procession idols) are decorated during festivals and the latter is the Kalyana-mantapam where, on the day preceding the car festival, the ceremony of the God's marriage with Sita is performed. Opposite to the eastern entrance, there is the stone 'dhwajasthambham' (flagstaff). There are two small ponds behind the temple towards the north called 'Ramatheertham' and 'Seethammatheertham'. Within the compound wall, to the north of the temple a Siva-lingam (phallic emblem) is also installed. This lingam is said to be traced four feet below the earth within the vicinity of the temple while digging a 'Yagagundam' (sacrificial pit) for performing 'Yagam' (sacrifice) some two decades back.

It is difficult to surmise as to who exactly built this temple. But it is said that the single stone with the images of Rama, Lakshmana and Sita have been installed by Jambavantha, one of the greatest devotees of Sri Rama. An inscription of S. 1477 (A.D. 1555) in the temple referring to Emperor Sadasiva Roya of the Vijayanagar Dynasty records the gift of Pulapaturu and Bhogepalle villages to this temple. Another inscription of S. 1480 (A.D. 1558) referring to the same Emperor records the grant of Vontimitta village to the temple.

This ancient centre has been associated with great scholars and 'bhaktas' (devotees). Among them are Potana – author of 'Srimadandhra Maha Bhagavatamu', Ayyalaraju Tripurantaka, Ayyalaraju Rama-bhadra and the early twentieth century poet Vavila-kolanu Subba Rao who wrote 'Andhra Valmiki Ramayanamu'.

Sri Kodandaramaswamy festival is celebrated from Chaitra Suddha Navami to Bahula Panchami (April-May) for 12 days. The festival is of ancient origin and widely known. Hundreds of pilgrims perform abhishekams daily and thousands offer abhishekams during festival days.

Vontimitta village is well connected both by road and rail. Vontimitta Railway Station is the rail-head practically for the entire taluk located in the South Central Railway jurisdiction on Madras – Dadar broad-gauge line.

FOREWORD

The district census handbook (DCH), compiled by the Census organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in the local area planning but in the regulating of the provision of goods and services as well as in minimising the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Information on adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy class/centres under educational facilities in Statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Section I & II of the volume contains village and town directory and Section III, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I.A.S., Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr. N. G. Nag, Deputy Registrar General (Social Studies) of my office, Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
the 26th April, 1982

P. PADMANABHA
Registrar General, India

PREFACE

The District Census Handbook, a valuable publication containing census information has become a constant guide in the fields of planning and administration right from the village to State level, besides serving the needs of academicians and researchers. This publication provides Primary Census Abstract data upto grass root level for both rural and urban areas. It also provides data on infrastructure and amenities available in villages and towns.

Sri P. Padmanabha, IAS, Registrar General, India, in his foreword has succinctly explained the scope and contents of District Census Handbook from 1951 to 1981. A review of this publication for the last three decades reveals tremendous improvement in the presentation of data. The District Census Handbook of 1981 Census comprises of two parts – Parts A – detailed analytical note supported by a number of inset tables based on census and non-census data in relation to infrastructure and Part B-Village and Town Directory as well as Primary Census Abstract of villages and towns, and these two parts are composed in a single volume. An attempt has been made to provide exhaustive data on infrastructure aspects to meet the Minimum Needs Programme of the Planning Commission. Certain new features like, location of adult literacy centre, availability of the services of community health worker and method of approach to village, in the village directory format and certain additional features like access to adult literacy programme, existence of working women's hostel and presentation of data on civic amenities on notified towns by size class of town in town directory, are sequel to the Minimum Needs Programme.

Analytical notes have been incorporated, explaining the history of the district with changes, if any, of the district or of the taluk or of the villages between 1971-81, besides the census concepts, codes used in various statements and places of tourist. interest. District and Taluk maps which are prepared in this office on the basis of maps certified by the competent authorities also have been incorporated. In the district map, just to avoid over crowding, the villages having more than 5,000 population alone have been shown by names. For the rest, one has to refer to the alphabetical list of villages of each taluk, presented in Part B of this publication.

This Publication is a joint venture of both Central and State Governments. The processing including compilation, tabulation and finalisation of the write up, is done in the Office of the Director of Census Operations, while the cost of the paper and printing required for this publication is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of publication for 1981 District Census Handbooks. I am grateful to the A. P. State Government and in particular to the Chief Secretary, Sri S. R. Rama Murthy, IAS, for his co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for selecting good private presses to print these Handbooks. The data presented in the village and town directories are obtained from the State and Central Government Departments, but for whose co-operation, Part A and B of the Handbooks could not have been compiled. I am thankful to all those departments which have provided the data required.

I am extremely grateful to Sri P. Padmanabha, IAS, Registrar General and Census Commissioner for India and Dr. N. G. Nag, Deputy Registrar General for formulating the contents of the Handbook in detail. I have also been considerably assisted by Dr. B. K. Roy, Deputy Registrar General (Map) and M. M. Dua, Senior Research Officer (S.S.).

The arduous task of collection, compilation, scrutiny and preparation of analytical note of this volume laid heavy burden on the staff of the District Census Handbook section. The credit goes chiefly to Sri B. Satyanarayana who worked as Assistant Director as well as Deputy Director of Census Operations

while handling this subject. He took great pains to tour the districts, contact various officers of the district and culled out information from various sources. Sri Ch. Purnachandra Rao, Deputy Director of Census Operations and Sri A. C. Reddy, Assistant Director of Census Operations of my office have also involved themselves in the processing of this most important census publication programme. Sri Shyam Deo, Research Officer ably guided the preparation of the maps included in this publication.

The following officials of my office worked on the present volume of Cuddapah District Census Handbook.

Smt.	P. Lalitha, Investigator	Drafting and Scrutiny and Supervision of Printing.
Sri	N. C. Hanumantha Reddy, Tabulation Officer	
Smt.	P. A. M. Tayaru, Tabulation Officer	
Sri	V. Ananthasayana Rao, Statistical Assistant	Supervision of Printing
Sri	T. B. Ramchander, Statistical Assistant	Collection, compilation, scrutiny of maps and proof reading
Sri	M. Narsing Rao, Statistical Assistant	
Sri	G. K. Yadagiri, Statistical Assistant	
Sri	Khamolal, Statistical Assistant	
Smt.	J. Sitamahalakshmi, Statistical Assistant	
Sri	Y. Gopala Krishna Murthy, Statistical Assistant	
Sri	M. Ramprasad, Computor	
Smt.	B. Kusuma Kumari, Computor	
Kum.	Arifa Sultana, Computor	
Smt.	A. R. Vidyasri, Computor	
Smt.	S. Ambujam, Computor	
Smt.	N. Sita Kumari, Computor	
Smt.	G. E. Rani, Computor	
Sri	K. Ramesh Reddy, Computor	
Sri	B. Nadavaiah, Computor	
Sri	G. Venkateswara Rao, Computor	
Dr.	(Kum.) Aqueela Begum, Cartographer	Supervision of Mapping Work
Sri	M. N. Ram Mohan, Senior Artist	
Sri	Syed Ahmed, Senior Artist	
Smt.	Daya Saxena, Artist	Preparation of maps
Sri	*M. J. Sadiq, Senior Draughtsman*	
,,	Mohinuddin Hasan, Senior Draughtsman	
,,	B. Ragu Ram, Senior Draughtsaman	
,,	K. Deva Dass, Senior Draughtsman	
,,	M. A. Qadeer, Draughtsman	
,,	B. Ramsheshu, Draughtsman	
,,	T. Trinadh, Draughtsman	
,,	K. Shyam Prasad Reddy, Draughtsman	
,,	G. Marianna, Draughtsman	
,,	D. Chiranjeevi Raju, Draughtsman	
Smt.	R.R.S.N. Subba Lakshmi, Draughtsman	
Sri	M.K. Zahiruddin, Draughtsman	

Sri N. V. Manohar Rao, Senior Steno Smt. P. V. D. Lakshmi, Junior Steno Smt. Ch. Lalitha Kumari, Junior Steno Smt. J. Bharathi, L.D.C. Sri Md. Khaja Moinuddin, L.D.C. Sri Md. Ismail, L.D.C.	Preparation of fair copies

I am thankful to their services.

My endeavour has been to present data concerning each district as detailed as possible and I hope this volume will prove useful for all data users.

S. S. JAYA RAO
Director of Census Operations

CONTENTS

Part A	Pages
1 Important statistics of the district	ix–x
2 Map of the district	Facing Page [i]
3 Analytical note	
(i) Brief history of the district	[1–6]
(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular ...	[7–16]
(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc. ...	[17–21]
(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district ...	[22–24]
(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc. ...	[25–27]
(vi) The history of district census handbook, scope of village directory, town directory statements and PCA ...	[28–38]
(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons ...	[39–53]

Part B – Village and Town Directory and Primary Census Abstract

SECTION I – VILLAGE DIRECTORY

(i) Note explaining the codes used in the Village Directory	1–2
(ii) Village Directory with Taluk Map on facing page of alphabetical list	
1 Jammalamadugu Taluk	3–9
2 Proddatur Taluk	11–21
3 Badvel Taluk	23–41
4 Sidhout Taluk	43–53
5 Cuddapah Taluk	55–67
6 Kamalapuram Taluk	69–77
7 Muddanur Taluk	79–87
8 Pulivendla Taluk	89–99

9	Lakkireddipalle Taluk	101–109
10	Rayachoti Taluk	111–127
11	Rajampet Taluk	129–137
12	Kodur Taluk	139–149
(iii)	Appendices (I-IV) to the Village Directory	150–169
(iv)	L. C. Nos. for three decades (1961 to 1981)	170–257

SECTION II – TOWN DIRECTORY

(i)	Note explaining the codes used in the Town Directory	261–262
(ii)	Town Directory Statements (I to VI and IV A)	264–275

SECTION III – PRIMARY CENSUS ABSTRACT

(i)	District PCA	278–283
(ii)	Taluk-wise PCA	
(a) 1	Jammalamadugu Taluk	285–295
2	Proddatur Taluk	297–305
3	Badvel Taluk	307–319
4	Sidhout Taluk	321–329
5	Cuddapah Taluk	331–341
6	Kamalapuram Taluk	343–351
7	Muddanur Taluk	353–361
8	Pulivendla Taluk	363–371
9	Lakkireddipalle Taluk	373–377
10	Rayachoti Taluk	379–389
11	Rajampet Taluk	391–401
12	Kodur Taluk	403–409
(b)	Description of Urban Enumeration Blocks	410–427
(c)	Appendix to Urban PCA	428–446
(iii)	Special PCA on SC and ST	448–455

HISTORY

Cuddapah is considered one of the backward and perhaps also one of the most remotely situated districts of the State. One hardly realises that the tract covered by the district carries the foot prints of some of the most illustrious rulers of South India. Tipu Sultan, Haidar Ali, Sivaji, Krishnadevaraya, Pratap Rudra are some of the names associated with the history of this tract. The holy names of the rivers that cut across the district give the land a sanctity of their own. The district is made up of a series of beautiful valleys through which flow Papaghni (the destroyer of sin), Chitravati (a Hindu Goddess), Mandavya (a Rishi), Pennar or Pinakini ("the sister of Pennaki another name for Siva meaning the skull-bearer, alluding to one of his incarnations during which he killed a Brahmin, and as a penalty, a skull was attached to his hand until the sin was removed by Penance"). Penneru which is the most important river flowing right through the district has a legend which is incorporated in a Sasanam (inscription) at Gandikota. Once subject to a curse, Agastyamahamuni was changed into a river and doomed to flow northwards from the foot of the God at Nandidurg, and to furnish, on its way to the ocean, fresh water for the innumerous Rishis or holy men who would settle on its banks, until at last, in the course of countless centuries, the curse would be removed. The Seshachalam range of hills that pass through this district and crowned ultimately with the holy shrine of Tirumala in Chittoor district is named after the Serpent God who served as the bed of Lord Vishnu. Thus, Cuddapah tract associated with such holy rivers and hills should, at one time, has been considered as a truly holy land. This tract has also been identified as the great forest of Dandaka through which the God King Sri Rama and his consort Sita wandered in their 14 years of exile. Thereafter, little is known of the history of this land until about the 10th or the 11th Century A D. It has been observed that "each stream in this part of the country has its song to sing and every hill its story to narrate" but it is the regret of the historians that "unfortunately they do not narrate them, or, if they do, do it in language unintelligible to the modern historian. These streams and mountains being the only depositories of the chronicles of Cuddapah, the early history of the district, is, and is likely to remain, a sealed book".

The area comprising Cuddapah district and its neighbourhood was situated on the borders of several great kingdoms of South India which often warred with each other. The tract was the victim of ravage of the victorious hordes of armies. The district was only the tributary of the distant capitals. The local chieftains that had established themselves in the river valleys of the district owned their allegiance to the changing rulers at the top. "Almost without exception, each of the rivers has a more or less broad belt of alluvial soil rising gradually from either bank; and each of these river basins has, in times gone by, been the centre of a separate political unit – a little state restrained, as it was protected by the line of the hills that hemmed it in on either side. Thus the level lands of the Pennar round Cuddapah and east and west of that town formed the dominions of the Sidhout Raja, and later the seat of the Nabob of Cuddapah; the valley of the Cheyyair was the Raj of Chitwail; the broad plains of Kundairoo belonged to the Poligar of Nossum; those near Gandikota to the petty Raja of that place, and the narrow and the barren defile through which runs the Sagalair supported the families of the Pullalo Cheruvoo and Poremomillah; and this physical isolation of every separate nook and corner of this wild country is the key that unlocks its past history, the fact that explains the successive uncontested conquest, and long continuity of foreign occupations that left the tenants undisturbed under every new master. The Hindu Poligars served the Mughal Emperors, Vijayanagar Princes, Hyderabad Nizams, Maharata Rulers and the Mysore Sultans, with the most perfect adaptiveness to their own interests and the will of their temporary rulers".

The earliest known dynasty that held sway over what can be now roughly called the area comprising the district of Cuddapah, was that belonging to the Pallava Kings. They controlled an extensive territory which included the present Nellore district and probably all the Telugu country on the East Coast as Krishna. From Nellore they penetrated for a time into the north of Cuddapah district, presumably following the course of the Pennar upstream, for, it is in the neighbourhood of this river in the taluks of Jammalamadugu and Proddatur, that the earliest historical evidence, in the shape of lithic monuments,

Source : An extract from DCHB, Cuddapah Dist. A. P. 1961 Pp. X-XVI

has been collected. In the latter part of the fifth century the growing power of the Pallavas seems to have been checked by the Cholas in the south; and in the north the Pallava King suffered defeat at the hands of a Chalukyan adventurer named Vijayaditya who claimed to have come from Oudh. This battle is said to have taken place in Cuddapah district as the queen of Vijayaditya seems to have taken refuge at Peddamodium in Jammalamadugu taluk after the death of her husband in battle. Subsequently the Cholas also overran the Pallava territory and established themselves for a couple of centuries in the black cotton country on the banks of Penner in this district. The rule of the Telugu Cholas appears to have lasted till the later part of the 8th century. The next dynasty which established its authority for a considerable period in these parts appears to be that of the Banas. This presumption is supported by the discovery of an inscription at Pottipadu in Jammalamadugu taluk, the date of which corresponds to A. D. 884 in which a grant was made by a Bana King.

With the retreat of the Banas, fertile plains of north-west Cuddapah came under the sway of a dynasty of kings called the Rashtrakutas from the north and west. Kannada verses in praise of the General of King Indra III (A. D. 915) have been found recorded at the Village of Danavulapad on the north bank of the river Penner five miles south of Jammalamadugu. A later King Krishna III seems to have further extended his influence over this area and the power of Rashtrakutas had reached its zenith. With his death, the power and influence of this dynasty declined.

About this time the Cholas began to establish their authority in these parts, for in the reign of Chola King Rajaraja I, who ascended the throne in A. D. 982, a Vaidumba chief was his feudatory and ruled over the "Inagallur-nadu" which corresponds to a tract in Pulivendla taluk, with the village of Inagalur as its headquarters. The whole of Cuddapah district might have been under their control, for the taluks of Sidhout and Pullampet were under the Telugu Chodas who were also feudatories of the Cholas and originally belonged to the same family.

The Telugu Chodas claim the same ancestry and possess the same family titles as the Cholas. It is on record that one Dasavarman, the grandfather of a Choda chieftain, conquered the Paka – Rashtra and ruled at Pothapi about A. D. 1000. This place has been identified with absolute certainty with the village of that name situated on the bank of the river Cheyyer in Pullampet taluk. A rich harvest of information has been obtained from lithic records discovered in or near several villages on the banks of Cheyyer river in Pullampet taluk, such as Nandalur, Lebaka, and Tangatur. During the reign of Rajarajadeva III (A. D. 1216 to 1243), the power of the Cholas seems to have suffered a temporary eclipse, chiefly due to the aggression of the Pandyas in the south. But due to the prowess and loyalty of the Viceroy of Pakanadu (what now roughly corresponds to the district of Nellore and the eastern division of Cuddapah district) the Chola Kingdom was once again firmly established.

In the latter half of the 13th century A. D. it is found that the Pottapi country *i. e.*, the tract corresponding to the taluks of Jammalamadugu, Proddatur, Cuddapah, Kamalapuram and probably Pulivendla had fallen into the hands of Ambadeva who had temporarily usurped the Kakatiya crown. He ruled from Vallur, ten miles from Cuddapah, and during his time he carried out land survey of Pottapi-nadu under the direction of his subordinate Peddi-nayaka and a river channel was constructed at Lebaka. Subsequently a Kakatiya King Prataparudra succeeded to the throne at Warangal after the death or the downfall of the usurper Ambadeva. Thus at the opening of the 14th century we find the whole of Cuddapah district, except Rayachoti taluk, under the sway of the great northern kingdom whose capital was Warangal. But in A. D. 1309 came the invasion of the Deccan by the Muslims during the reign of the Khilji Emperor Allah-ud-din. Warangal fell and with it the Kakatiya dynasty. The whole of the Carnatic and the Coromandel was overrun by the invaders, who penetrated to the extreme south of the Peninsula. The subjugation of the country was completed about A. D. 1325 when Warangal was captured and King Prataparudra carried a prisoner to Delhi. But in A. D. 1336 the Vijayanagar Kingdom was founded by Harihara and Bukka, two Hindu refugees from Warangal and in A. D. 1344 a Hindu confederation, consisting of the son of Prataparudra of Warangal, Krishna Nayakkar of Vijayanagar, and the Hoysala King from Mysore, with an immense force drove the Muslims out of Warangal and rolled back the tide of their advance. The outcome of this was the establishment of the Vijayanagar Empire. During the two centuries of its ascendency it included the whole of the present Cuddapah district. "During this rule the natural resources of the country must

have been greatly developed. The rich Cuddapah valley was highly cultivated and produced grain and cotton. The districts above the ghats, though poorer as far as soil and water are concerned, were most carefully looked after. The rivers produced gold and precious stones, and diamonds were found in the valleys. So prolific were their diamond mines that even at the close of the last century, after having been worked for generations, the mines in the Cuddapah valley yeilded an annual income of half a lakh of rupees. All this wealth poured into the neighbouring capital of Vijayanagar, and in the end proved source of its decay."

Within a few years of the founding of the Empire we find the whole of Cuddapah district and probably most of Nellore included in the province of Udayagiri (in Nellore district). This province was ruled over by a son of the Emperor Kampa I as early as A.D. 1356, a fact which illustrates that close relatives of the reigning monarch were appointed as Viceroys of outlying provinces. During the reign of Bukka I (A. D. 1352 to 1376) we learn that his son Bhaskara, then Viceroy of Udayagiri province, constructed the great irrigation tank at Porumamilla in the Badvel taluk in the year A. D. 1369.

Several inscriptions have been found in the district in which mention is made of the Emperor Sadasiva of Vijayanagar. During his reign and that of his predecessor Achyuta, the decline of the Empire began. The Empire was actually governed, while Sadasiva still occupied the throne, by his brother-in-law Ramaraja. The latter was the only ruler of the Empire who ever made any headway against the Muslims. Finally at the famous battle of Talikota in January, 1565, the Hindus and Muslims, with forces of almost fabulous strength, contested for the supremacy of the Deccan. In the result, the Raja was totally defeated and killed in the battle.

Though the Hindu power in the south was irretrievably broken, the brother and successor of Ramaraja managed to conserve a part of his territory, which still included the whole of Cuddapah district. He was succeeded by his son Ranga who was followed by his brother Venkatapathi. The latter died in A. D. 1614. For thirty years afterwards his successors continued to rule the remnants of their territory with Chandragiri as their capital, but in A. D. 1646 this stronghold fell into the hands of the King of Golconda. However, it was not till the beginning of the 17th Century that the Golconda kings turned their attention to the present Cuddapah district and surveyed the country for revenue purposes. It is not clear as to how much of revenue was collected from this "Kamil assessment", yet this assessment was utilised by later Governments down to the British occupation as a sort of a standard by which to measure the tax-paying capacity of the district. Till the reduction of Golconda by Aurangazeb, the only representatives of the central authority in Cuddapah district appear to have been the Nawabs of Gandikota and Cuddapah, but as they had not the means of reducing the local chiefs who had rendered military service during the Vijayanagar period, their political importance was almost negligible. Subsequently due to the continuous preoccupations of Aurangazeb with the Maharattas, the opening of the 18th century saw Deccan fall into little short of anarchy. This led to the rise of power and influence of the local chiefs and poligars fostered by the absence of any effective central authority. These petty chieftains who in fact exercised sovereign rights within their jurisdiction were finally reduced after about two hundred years by British troops and their allegiance won by the unflinching determination and never failing tact of Sir Thomas Munro.

A long period elapsed between the battle of Talikota and the establishment of Muslim rule in Cuddapah district for the simple reason that the Muslim kings of the Deccan were occupied during the next century in the final annihilation of the Vijayanagar Empire and in continual wars with the Maharattas. It is not until the Nizam of Hyderabad began to rule the Deccan as a practically independent monarch in the early part of the 18th century that the Nawabs of Cuddapah attained any political significance. The first Nawab of Cuddapah to assert his control of the district was Abdul Nabi Khan whose Governorship began in the year A. D. 1714. He established garrisons at Gandikota in the north and Gurramkonda in the south but did not seem to have made any real attempt to reduce the country to order. In May, 1740, the Maharattas invaded the country, defeated the Nawab of Kandanur (Kurnool) and marched against Cuddapah with a big force, defeated the Nawab who made peace with them by giving them a sum equivalent to a lakh and a half of rupees and other presents.

The rise of Haidar Ali constituted a new element in the political forces which shaped the destinies o Cuddapah. Haidar Ali obtained possession of Gurram konda in 1766, temporarily lost it to the Maharatta in 1772, and regained it early in 1774 through his sc

Tipu. In 1780 Haidar Ali, due to his annoyance with the Nawab of Cuddapah for a supposed disobedience of his orders in the previous year, himself took the field and effecting a junction with Mir Saheb, gave battle to the forces of the Nawab near the small fortified town of Duvvur on the banks of the Kunder about ten miles north-east of Proddatur. The Nawab's cavalry was defeated, and he himself escaped to the fort of Sidhout, which was immediately afterwards captured by Haidar Ali. The Nawab and his family were then sent as prisoners to Seringapatnam (Srirangapatnam) where the Nawab finally died in captivity. Haidar Ali then left for Mysore leaving his brother-in-law Mir Saheb in charge of the whole district. Mir Saheb and his son Kamaluddin were the first rulers of the district who seriously grappled with the problem of the poligars, the importance of which was fully recognised by Haidar Ali. In the words of Munro "The Cuddapah Nawabs expelled some of them (Poligars), but neither they nor the Maharattas were ever able to reduce the rest, or even enforce the regular payment of their Peshkash."

The whole of the Cuddapah district formed a part of the Ceded Countries which fell to the Nizam by the treaties of Mysore and Seringapatnam. The officers of the Nizam for some reason or the other permitted the Poligars to return and in some cases also invested them with the management of Sircar Villages in addition to their own.

In the year 1800, the Hyderabad contingent was increased to eight battalions, and the district (including the whole of modern Cuddapah) yielding sixty-three lakhs a year was made over by the Nizam in perpetual sovereignty to the East India Company under the stipulation that the British Government should guarantee all the remaining territories of the Nizam from every attack. In their order dated October 24th, 1800 the Government of Madras acquainted Major Thomas Munro, with the particulars of this treaty, and posted him as the principal Collector with four Sub-Collectors under his immediate authority. A small military detachment was placed under his control for meeting unavoidable demand for military aid. Less than a month after taking charge, Major Munro reported as follows:- "By every report which has reached me, it appears that almost every Poligar, however, insignificant, who had been expelled since the beginning of Haidar's usurpation, has been within these few years permitted to resume the management of his district."

At the opening of the 19th century we thus enter on a last phase of the History of the Cuddapah district viz., the subjugation of the Poligars, the establishment of a well ordered Government and the inauguration of the Revenue system which obtains at the present day. All this was the work of Munro, who was later knighted and became the Governor of Madras.

Munro enumerates eighty different Poligars, of whom a large number were in the Cuddapah district. Most of these were grouped round the more influential Poligars to whom they paid their allegiance. A peculiarity of these Poligars was that every one, however petty his territory, kept up a mimic court; nominal officers were appointed, holding the same title as similar officers did in the sovereign courts, and a small standing army was maintained of permanently appointed peons, aided by a militia of relatives of these peons, who were liable to be called out in times of disturbance. These small standing armies were but seldom paid, and the greater part of their earnings were gained by their depredations in time of war. During peace these bodies of peons continued their usual practices and earned their livelihood by pillaging border villages. Where a village was wealthy or populous enough to be able to defend itself against the attack of these border robbers, it advanced in the course of a few years from the defensive to the offensive, the village chief emerging as a petty poligar. As a result, the hilly areas became infested with bands of robbers and bandits, and the ryots and country people were tormented by a continual state of violence and rapine. Collection of revenue had thus become almost an impossible problem. One of the difficulties confronting Munro at the outset was the presence of bodies of the Nizam's troops who refused to leave the country until their arrears of pay were settled. This Munro did at once, leaving the money to be recovered afterwards. At the same time the Poligars were kept in check by a proclamation declaring that every chieftain who garrisoned a Fort, maintained an armed force, or levied contributions, would be treated as a rebel. This was not a mere threat, as in May, 1801 Major-General Campbell marched against Vemula in the Pulivendla *taluk* and reduced the Poligar to obedience by demolishing his Fort. From there the General proceeded to Pullampet taluk and forcibly dispossessed the Matla Raja of Chitvel. For a time this policy did not meet the approval of the Board of Directors who even threatened to remove Munro from his appointment and never again to appoint him on revenue work. But later Munro by an unassailable defence of his position

convinced the Directors of his policy and the latter never again questioned the measures he adopted. Munro's policy gave the district the first taste of tranquility. Each delinquent was steadily followed to the end. All the Poligars one after another, were subdued when finally after completing his mission in 1807, Munro resigned his post of Principal Collector and proceeded home on leave, having first received the following handsome acknowledgment of his services from the Madras Government. "From disunited hordes of lawless plunderers and free-booters they (the people) are now stated to be as far advanced in civilization, submission to the laws, and obedience to the Magistrates, as any of the subjects under this Government. The revenues are collected with facility; everyone seems satisfied; with his situation, and the regret of the people is universal on the departure of the Principal Collector."

Before passing over Munro, an interesting story but probably a true one, relating to an incident that occurred in this district may be recorded here. A short time before his death, whilst on his way to Bellary, Sir Thomas travelled through the district of Cuddapah. He passed from the upper table-land of the sub-division to the valley below the ghats by means of the narrow gorge where the Papaghni breaks through the hills. Whilst riding, he suddenly looked up at the steep cliffs above, and remarked to the natives riding behind him, "what a beautiful garland of flowers they have stretched across the valley". They all looked, but said they could see nothing: "Why there it is; all made of gold." Again they looked, but saw nothing Sir Thomas made no further remark, but one of his old native servants quietly observed "Alas; a great and good man will soon die!" A few days afterwards, Sir Thomas Munro passed away.

With the assimilation of Cuddapah district to the more orderly parts of the Madras Presidency, its political history remained uneventful except that after the thirties of the twentieth century the people of Cuddapah district too responded to the call of the Nation and whole-heartedly participated in the freedom movement. Among the popular political leaders of the district who played a prominent part in the freedom struggle a few names that can be mentioned are those of Late Sri Kadapa Koti Reddy, an ex-minister of Composite Madras and Andhra States, his wife Smt. Ramasubbamma and Sri D. Rama Subba Reddy.

Revenue Administration

Before the advent of the British rule in this area there was neither respect of the central authority nor settled form of administration. And so without the necessary appendage of law and order, proper collection of revenue had become almost an impossible task. Secondly there was no uniform land revenue system. Under the Vijayanagar rule, the Hindu systems of land revenue never concerned themselves with definitions of landed property or State rights. The ryots usually settled among themselves the exact proportion of the whole rent that each individual has to pay. Cultivation was in a sense 'collective', as we understand today, where there was no question of property in the land and the holdings were interchangeable or liable to redistribution. The really important thing was the division of produce which as far as the ryots were concerned was regulated by the contribution made to the common stock. The State, also asserted its right to a share, the extent of which the State itself determined. The State, however, recognised no limitation except such as arose from its own exigencies and the ability of the ryot to pay. Usually the State's share was half the produce.

The Kamil assessment introduced under the Golconda kings about the beginning of the 17th century was based on the same principle of the equal division of the crop between Government and the cultivator. This was based upon an actual survey which took four years to be completed. As all rents were to be paid in money, the equivalent of half the produce in kind was found by taking the estimated gross produce of the different sorts of dry and wet land and then converting it to money at the average price of the preceding ten years. This survey could not be effectively implemented due to the malpractices adopted by the Revenue authorities. Aurangazeb also adopted the Kamil, but had to make allowances for the loss. This was doubtless due to the depredations of the Poligars who took advantage of the decay of the Golconda power and the opportunities for the falsification of accounts which the change of Governments afforded to the karnams (Village Accountants). Under Haidar Ali and Tipu Sultan, the Kamil standard was gradually restored by rigorous measures adopted against both the Poligars as well as the fraudulent revenue officials. But once again under the Nizam (1792-1800) misgovernment resulted as usual in decreased cultivation and loss of revenue.

Munro took charge of the Ceded Districts late in the season of 1800-01 (Fasli 1210). The rough and ready method adopted by him for the settlement of assessment was as follows:- He assembled all the headmen and karnams and questioned them as to the value of their own and the adjoining villages. This done, these officers were made severally responsible for the rent (assessment) of their own villages and jointly for those of the taluk.

Ryotwari system was introduced in the following year, Fasli 1211 whereby each ryot held his land immediately from the Government under a patta, and in Fasli 1212 the natural complement of a field survey and assessment was commensed and completed in 1805. Munro then drew up a scale of rates for the different classes under which the fields were classified. For the next seven years, the annual revenue was settled on the ryotwari principles thus inaugurated. Loans were freely given and lease (cowle) granted for waste land.

In 1804, however, the desirability of a reversion from the ryotwari to a permanent settlement began to be discussed. Munro who was asked to report on the proposal to rent out the whole village at a fixed annual sum to Zamindars sent his reply defending the ryotwari settlement which he had with such pains introduced in the district. He indicated the evils that are likely to result from the proposed plan. He anticipated mismanagement and oppression if a speculator or an adventurer was allowed to come between the Government and the cultivator. A settlement direct with the cultivators appeared to him more suited to the manners and prejudices of the inhabitants, more adopted to the narrowness of their circumstances in that it did not insist on the same amount of revenue being paid every year but limited it by the actual extent of cultivation, more likely to reclaim them from their wandering habits and fix them to their fields by giving them an interest in the improvement of these, less liable to embarass the Government, and more calculated to promote the general prosperity of the country and the people. Munro also believed that a saleable value should be given to the land, for the ryots to acquire proprietary interest in their holdings. Hence he recommended that the total assessment should not exceed one-third of the gross outturn. He, therefore, suggested a reduction of 25 per cent on all rates with an additional 8 per cent on lands under wells and small tanks on condition that the ryots kept them in repair. He believed that the initial loss of revenue would soon be counterbalanced by the extension of cultivation induced by these measures.

After the departure of Munro and Lord William Bentinck, the strongest supporters of ryotwari system, it was ordered early in 1808 that villages should be leased out to the village headmen and chief cultivators for a term of three years on conditions stipulated by the Government. The triennial lease was not a success. The headmen fearful of being ousted by new comers accepted higher conditions of rent than they could meet. The ryots were unduly oppressed and the cultivation fell off. The failure was attributed to the shortness of the lease and hence in Fasli 1222 (1812-13) the decennial lease was introduced. It resulted in even a worse failure. Cultivation decreased and many villages reverted to the Government. Finally the results of a bad season in Fasli 1226 made the abandonment of the renting system inevitable. When on his return in 1816 Munro was consulted, he advised that the ryotwari system should be re-established after carrying out the reductions of 25 per cent and 33 per cent he had formerly proposed. Final orders to this effect were passed by Munro himself as Governor in 1820 and the new settlement was introduced in 1821. The assessment thus arrived at remained in force for upwards of fifty years which remained an uneventful period in the revenue history of the district, being marked by the removal of a few glaring inequalities of assessment and the reduction of some exceptionally high rates. Remissions on waste lands and on lands under ruined irrigation sources gradually became more liberal.

The Settlement Department started its operations in Jammalamadugu taluk in 1864. The settlement mainly effected for the administration, led to a simplification of the accounts, and for the ryots a more equitable incidence of assessment. Its financial results represented an increase in the land revenue of a little over 9 per cent. Resettlement was carried out in the district between 1908-12. This resettlement of the district resulted in a net decrease of Revenue by 7 per cent which is almost entirely attributable to transfers of double crop to single crop and wet to dry, as well as the more favourable rates allowed for the composition of the double crop charge.

PHYSICAL ASPECTS

General : The district of Cuddapah is bounded on the north by Kurnool district, on the east by Nellore, on the south by Chittoor and on the west by Anantapur. The earliest inscriptional evidence reveals that Cuddapah or more precisely 'Kadapa' towards the close of tenth century A. D., was the principal station of a territorial division. It is a popular belief that 'Kadapa' meaning in Telugu 'Threshold' was a convenient camping place for the pilgrims visiting the Tirupati Temple. It was therefore regarded as threshold to it on the ancient highway.

Physical features : Cuddapah lies between 13°43' 15°14' of the northern latitude and 77°55' and 79°29' of the eastern longitude, the district spreads northwards beneath the western slopes of the eastern ghats as a rough parallelogram dented deeply in its southern, western and northern boundaries. The district comprises of twelve taluks namely–Jammalamadugu, Proddatur, Badvel, Sidhout, Cuddapah, Kamalapuram, Muddanur, Pulivendla, Lakkireddipalle, Rayachoti, Rajampet and Kodur.

The Hill Ranges : The hills of Cuddapah District are of ancient crystalline rock and are mostly steep sided. The system of Cuddapah rocks is of great geological interest. They have been determined as belonging to the pre-cambrian era, presumably Alogonikan, when life did not exist in this world. They are folded and give rise to flat topped hills.

One can only gaze in mute adoration upon these often bone rocks of the district which stand as the pillers of the ages, proclaiming that the land comprising the rock system is one of the most ancient ever land ma ses of the world that existed even before life itself had taken root on earth. These hills also find mention in the puranas and are called 'Kula Parvata' with the rest of the eastern ghats and may be taken to start from Mahendragiri or Mahendrachala in the Ganjam district and run on to the Kulakkal hills, also styled Mahendragiri, in the Tirunalvelly district of the Madras State. Under the name of Mahida (Mahendra in Sanskrit), the Eastern Ghats find mention in the Nasik Eulogy of Gautamiputra Satakarni*.

The Cuddapah system of hill ranges forms part of the central portion of Eastern Ghats. The Eastern Ghats do not possess structural continuity. The Cuddapah system of hill ranges part themselves from the orographical knot at what may be called the Cuddapah outliers at the southern tip of the district near Balapalle pass of Rajampet taluk through which passes the Madras-Bombay Railway line, dividing the Settigunta Reserve Forest and the Balapalle Reserve Forest. Each of these ranges are described below.

Vellikonda Hills : The Vellikonda hills of the Eastern ghats run northwards going through the eastern borders of Rajampet, Sidhout and Badvel taluks, forming the boundary line between the Cuddapah district and littoral district of Nellore almost crescent in shape. The highest peak located at Thollipenta of Rajampet taluk is said to be about 2,710 feet high. Some of the hills are surrounded by thick undergrowth consisting of primeval forests.

Palakonda Hills: The second hill range called the Palakonda hills or Seshachalam hills formed of massive quartzites interbedded with slates and lavas also shoot forth into the district from the southern knot of the district and run along the western border of Rajampet taluk, till this range forks itself into two - one fork running northwards and the other westwards. The western fork is called Palakonda or Seshachalam hills. It is in this range near Vempalle that we have the beautiful gorge called the Vempalle Gandi of Ramayana fame where the river Papaghni cuts through the range.

Nallamalais and Lankamalais : The northern fork of the hill range now called Nallamalais and Lakkamalais run northwards along the boundary line dividing Cuddapah and Sidhout taluks and thence to Proddatur taluk to emerge into Kurnool district. The Nallamalais are covered by fairly thick forests and abound in wild animals. Generally, the hill ranges average a height of 2,500 to 3,000 feet.

Yerramalais : The Cuddapah hill systems have also other subsidiary hill ranges. These are called Yerramalais. The red granite rocks bereft of growth, present a desolate appearance of red in contrast to the black cotton fields that they overlook and because of this they acquired the name of 'Yerra' meaning red in Telugu.

Rivers : Cuddapah district is drained by the Penneru Basin and its tributaries. This river rises in the Mysore State and after passing through Anantapur district enters this district at the north-western corner near Tallaproddatur in Muddanur taluk. Near Gundlur of Muddanur taluk it is joined by River Chitravati. Penneru then flows through Jammalamadugu taluk and at the historic fort of Gandikota, it cuts through the Yerramalai hill ranges. At Potladurthi, it is joined by Kallamallivanka. Near Kamalapuram, the river is joined by Papaghni and a little further on by the Kunderu river and enters into Cuddapah taluk at Adinimayapalle, where there is the anicut for diverting the water of this river into the K. C. Canal. Flowing slightly eastwards, the river touches the holy hill of Pushpagiri. Near Chennur a bridge has been built over the river. The chief northern tributaries to Penneru are the Kunderu, Sagileru and the southern tributaries – the Cheyyeru, Papaghni and the Chitravati.

Kunderu: This river rises in Kurnool and enters Cuddapah district at the northern tip of Jammalamadugu taluk. There is a bridge across Kunderu in Proddatur taluk near Alladupalle. The Kunderu joins Penneru just above Adinimayapalle. Kunderu river is a very fast flowing river and is known for the sudden floods that it brings down during the rainy season. As the river flows through steep country, the flood waters attain ferocious velocity until they reach more even ground through which the Penneru flows.

Sagileru : The river Sagileru rises near Cumbum in Bestavaripeta taluk of Prakasam district and enters Badvel taluk near Gangayapalle. In Badvel taluk, there is a dam across this river to form the lower Sagileru project, which feeds the big tank of Badvel and also 13 other tanks on the way. The river enters Sidhout taluk near Puttayapalle village of Badvel taluk and runs along southwards and joins river Penneru within Malemaripatnam village limits.

Cheyyeru : Cheyyeru river joins Penneru at Gundlamada in Sidhout taluk Cheyyeru gathers water from its three tributaries and runs through the Balarajupalle gorge. The river flows out of Rajampet taluk near Ellampeta of Sidhout taluk The rivulet flowing through Rajampet taluk joins it at Narasingarajupuram.

Papaghni : This river is another tributary of Penneru entering Cuddapah district near Rayachoti taluk and runs northwards. The Mogamurevu joins Papaghni in Kamalapuram. There is a railway bridge across this river at Kamalapuram.

Chitravati : Rising in Dharmavaram of Anantapur District this river joins the Penneru near Gundlur. Across this river there is a railway bridge near Kondapuram railway station.

Climate : The year may be divided into four seasons. The period from December to February is the dry and comparatively cool season. The summer seasons starts from March and lasts till May. May is the hottest month of the year. This is followed by the south-west monsoon from June to September. October and November constitute the post monsoon or the retreating moonsoon season.

Rainfall : The average annual rainfall in the district is 685.4mm*. The rainfall generally increases from the north-west to the south-west in the district. The rainy season starts from June and lasts till September. September is the month with the highest rainfall.

Soil : The soil of the district has been classified into (1) red ferruginous soil and (2) black soil. These two classes can be subdivided into (1) clay (2) loam (3) sand with finer distinctions, the soil can be subdivided into six subdivisions – (1) black clay, (2) black loam, (3) black sand, (4) red clay, (5) red loam and (6) red sand.

Black clay : Black is the most superior soil of the district. Black clay occupies about 23.7% of the district area. It retains moisture for a long period and when wet, it is very much miry and tenacious. Its origin is stated to be largely an aqueous deposit of lecustrine origin.

Black loam : Black loam is an alluvial soil, varying in colour and texture and occurs throughout the district. It forms 18.2% of the soil of the district. This soil is not very deep and therefore subject to a good deal of erosion by the *Vankas* (hill streams) in the taluks.

Black sand : This soil is not of much importance. It occupies just 3.9% of the classified soils of the district.

Red clay : This soil which extends over very small area i.e., 1.3% of the classified soils of the district is not of much consequence. This soil suits Sajja (bajra or pearl millet) Crops.

Red loam : This variety of soil covers exactly quarter of the soil area of the district. This is of high agricultural value and all varieties of crops and

*: Statistical Supplement to Part II of Andhra Pradesh Gazette, Hyderabad, dated 15-1-1981 Monthly and Annual Rainfall table for the year 1978 p 57.

fruit trees can be grown in this soil. There is a great possibility of developing crops in this soil by proper conservation and reclamation. It is suitable for wet cultivation and responds well to the application of proper dosages of chemical fertilisers.

Red Sand : This type of soil in the district is of the lowest productive type. The yield per acre of this soil is poor and value of these lands is very low. However, the low lying lands of this type of soil are slightly better being dark red in colour where paddy and ragi are grown under wells.

Flora : The forests of the district are of a dry deciduous type. They vary considerably in their condition and density and also in floristic distribution due to natural factors and depradations of man. Natural factors include factors such as the altitude, the soil conditions, the quantity and regularity of rainfall. The ravages of man relate to fire, theft and grazing. The overall condition of the forests in the district is not very good. The only distinction of the forests of the district is that its most important species is the famous pterocarpus santalinus or red sanders. Since, this is the only district of the country in which this species occurs, a policy to conserve and extend them has been evolved. The forests of Cuddapah south division fall under three zones, viz., those of terai or fuel forests upto an elevation of 800 feet, hill forests or red sanders lying between the elevation of 800 feet and 2,000 feet of the shorea-eugenia occupying elevations about 2,000 feet.

Fauna : The indiscriminate exploitation of wild-life has reduced the game in this district considerably. The bonnet monkey (Macaca Radiata) the Madras lengur are commonly found in this district. The tiger can still be seen in the interior areas of Nallamalas, Lankamalas, Palkonda—Seshachalam and Velikonda. Panther or leopard occurs in appreciable numbers in the reserved forests over the Nallamalas, Lankamalas, Palkonda-Seshachalams and Velikondas. The other animals found in this district are the mungoose, jackal, fox, wolves, wild dogs, bear, the Malabar squirrel, porcupine, the Indian antelope, Indian Gazelle, blue bull, sambar, deer and spotted deer and wild pigs, etc. Among the avifauna the grey partridge (Kauju) and the quail especially the jungle bush-quail and the button quail can be seen in the open forests and the countryside. The jungle fowl, the dove, pigeon, wild goose, etc., are the other common birds found in this district.

Changes in Administrative units and its component parts : Cuddapah district when constituted as a unit of administration, extended from the Krishna in the north to the Kaundinya in the south i. e, from the old taluk of Dupadu to the former Zamindari of Punganuru. Its administrative history can be traced to the days of the Treaty of Srirangapatnam of 1792.

For the administration of the vast area ceded by the Nizam under the Treaty of 1800, the Government of Madras, appointed Major Munro as the Principal Collector, with four sub-collectors under his immediate authority. The area was then divided into 37 taluks. Munro apportioned the taluks among his sub-collectors, retaining some under his immediate charge. He established his headquarters at Anantapur while those of the other sub-collectors were set-up at Harpanahalli, Adoni, Cuddapah and Cumbum respectively.

In 1807, Government directed the area to be formed into three divisions or colloctorates, corresponding with the jurisdiction of the respective Zilla Courts established by that time. This led to the constitution of three collectorates or divisions with headquarters at Bellary, Cuddapah and Kodikonda. The Kodikonda division was abolished and its area was absorbed in the other two, what was subsequently known as the ceded districts of Bellary and Cuddapah which comprised the taluks of Badvel, Jammalamadugu, Duvvuru, Chitvel, Siddhavattam, Chennuru, Chintakunta, Kamalapuram, Pulivendla, Rayachoti, Cumbum, Giddaluru, Dupadu, Koilkuntla, Nossam, Gurramkonda and Punganuru with Sidhout (Siddhavattam) as headquarters. Sometime later, the taluks of Nossam, Giddaluru and Chintakunta were merged with those of Koilkuntla, Cumbum and Jammalamadugu taluks. About 1812, the district headquarters was shifted from Siddhavattam to Cuddapah.

About the middle of the nineteenth century, the district comprised the taluks of Jammalamadugu, Duvvuru Koilkuntla, Chitvel, Sidhavattam, Chennuru, Kamalapuram, Gurramkonda, Madanapalle, Pulivendla, Rayachoti, Cumbum, Dupadu and Badvel. In the same year Pulivendla, an extensive taluk of the district, was bifurcated into Pulivendla and Kadiri. In 1858, the taluks of Cumbum, Koilkuntla and Dupadu were taken away from Cuddapah district for being constituted separately along with certain other areas into the Kurnool district. In 1860,

the taluks of Chennuru and Kamalapuram were combined and designated as Cuddapah taluk. In 1861, Dupadu taluk was redesignated as Markapuram and Duvvuru as Proddatur.

Inspite of having been divested of three taluks and a big Zamindari, the district continued to be unwieldy in size. On October 1, 1910, the taluk of Kadiri was transferred to Anantapur. On April 11, 1911, the taluks of Madanapalle and Vayalpad were also separated from Cuddapah to form part of Chittoor district.

In 1911, the taluk of Kamalapuram was again constituted with 64 villages taken from the taluks of Cuddapah and Proddatur. In 1914, sixteen villages, stretching from Idupulapaya to Gottamitta including Surabhu, were transferred from Pulivendla to Rayachoti. The Kamalapuram taluk was once again abolished as a measure of retrenchment on the 1st of July, 1932. Fiftythree of its villages were constituted into the dependent sub-taluk of Kamalapuram and attached to Cuddapah taluk, while the remaining were transferred to Proddatur. Kamalapuram emerged on July 1, 1939, as an independent sub-taluk.

Attempts were made in the twenties of the century to readjust the boundaries of this district. The accent was on minimising the number of divisions or districts in the presidency as a measure of economy.

Both at 1961 and 1971 Censuses the district remained unchanged. It comprised of 3 Revenue Divisions and 9 taluks as detailed below:

Sl. No.	Name of Revenue Division	Taluks comprised in Revenue Division
(1)	(2)	(3)
1	Cuddapah	Cuddapah Rayachoti Kamalapuram (Independent sub-Taluk)
2	Rajampet	Rajampet Sidhout Badvel
3	Jammalamadugu	Jammalamadugu Proddatur Pulivendla

The district at 1981 Census consisted of 12 taluks and 13 towns. The district is divided into the following three Revenue Divisions.

STATEMENT SHOWING THE REVENUE DIVISIONS, TALUKS AND TOWNS IN CUDDAPAH DISTRICT

Sl. No.	Name of the Revenue Division	Name of the taluk	Name of the town (M/P)
(1)	(2)	(3)	(4)
1	Cuddapah	1 Cuddapah	1 Cuddapah (M)
		2 Kamalapuram	2 Kamalapuram (P)
			3 Yerraguntla (P)
		3 Rayachoti	4 Rayachoti (P)
2	Rajampet	1 Rajampet	1 Rajampet (P)
			2 Nagireddipalle (P)
		2 Badvel	3 Badvel (P)
		3 Sidhout	4 Madhavaram (P)
		4 Kodur	—
3	Jammalamadugu	1 Jammalamadugu	1 Jammalamadugu (P)
			2 Dommara Nandyal (P)
		2 Proddatur	3 Proddatur (M)
		3 Pulivendla	4 Pulivendla (P)
		4 Lakkireddipalle	—
		5 Muddanur	5 Veparala (P)

The taluks in the district have undergone many jurisdictional changes between 1971 and 1981, though there has been not much variation in the total number of villages during the decade. For convenience, the jurisdictional changes in the district during the decade have been presented in the following statement.

	District Total	**15,359.0**	**13**	**968**	**896**	**72**	**12**	**13**

Note: –1 The district "Geographical Area" figures are as supplied by the Surveyor General, India.

2 The total of the area figures of taluks will not tally with the district area figures because the former represents land-use area and are derived from the figures supplied by the State Survey Department.

3 Villages shown under Col. 5 do not include the villages given under Col. 8

MAJOR CHARACTERISTICS

Forestry : Cuddapah is one of the important districts in respect of forests. The total forest area of the district is 4,776 sq. kms. The forest area forms about 31 per cent of the total land area of the district.

For administrative convenience, the forests are grouped into three divisions viz., Cuddapah, Rajampet and Proddatur divisions.

Cuddapah division comprising forests in Sidhout, Badvel, Porumamilla, Vontimitta and Cuddapah; Rajampet comprising Balapalle, Kodur, Rajampet, Chitvel and Sanipaya and Proddatur comprising Muddanur, Onipenta, Proddatur, Rayachoti and Vempalle.

The forests of the district are of a dry deciduous type They vary considerably in their condition and density and also in floristic distribution due to natural factors and depredations of man. The principal forests of the district lie on its important hill ranges, the Velikondas, the Lankamalas, the Nallamalas and the Palakonda - Seshachalams.

The Kodur red sanders is one of the most important plantations in the state. It is located along the bend of the Gunjana to the immediate south of Kodur, in between the Guntakal - Madras railway line and the road from Cuddapah to Renigunta. It is spread over 0.17 sq. kms.

Minerals and Mining : Cuddapah district is rich in minerals. The high grade asbestos of chrysotile variety, barytes and limestone suitable for the manufacture of cement are the minerals present in the district in large quantities. In addition to the above minerals the district possesses important deposits of white clay, small deposits of iron ore, ochre and steatite and abounds in construction material. There are old workings for diamond and lead in the district.

Asbestos of chrysotile variety occurs at the contact of the Vempalle dolomite with the dolerite in the Pulivendla taluk. It occurs as veins, with the fibres oriented across the veins, mostly in the serpentine zone near the contact of Vempalle dolomite with the dolerite. The best developed zone stretches for about 11 kms. from near Lingala to Brahmanapalle. Pulivendla taluk has 14,400 tonnes of superior asbestos.

Deposits of barytes occur in the Vempalle dolomites and associated basic igneous rocks in Pulivendla, Kamalapuram and Cuddapah taluks. The most important deposits are situated in the belt between Velupula and Vempalle in the Pulivendla taluk. The barytes deposit of 70 million tonnes in Rajampet taluk is said to be the best in the world.

The deposits of white clay are situated in Pullampet shales and Cumbum shales of Rajampet taluk, Anantharajupeta, Chinna Orampadu and Hastavaram. White clay which could be used as filler in paper, textile industries, etc., occurs in the deposits near Rampathadu in Cuddapah taluk, in the Nandyal shales.

There are several old workings for lead ore near Jangamrajupalle and Varikunta in Badvel taluk and Nagasanipalle in Cuddapah taluk.

Limestones eminently suitable for cement manufacture occur in the Narji stage in Jammalamadugu and Kamalapuram taluks. Cuddapah, Jammalamadugu and Mydukur areas contain 4,000 million tonnes of limestone.

There are extensive outcrops of limestones, dolomites, granites and quarzites in various parts of the district, which could be utilised as building stones.

Electricity and Power : Cuddapah district came under the power supply from 1st January, 1936 with the electrification of Proddatur town. At present 610 villages are electrified constituting 68.8% out of total 896 inhabited villages in the district.

The major irrigation sources in the district are Kurnool-Cuddapah canal, the Mydukur and the Chapadu Projects, the Upper Sagileru, the lower Sagileru and the Pincha projects. In addition to these projects, tributaries of Penneru river, tanks, wells and spring-heads constitute general irrigation sources. The irrigated area at 1981 Census is 1,303 sq. kms., constituting 28.69% of the cultivable area of 4,542 sq. kms.

The district has no heavy or large scale industries except two cement factories run by Cement Corporation of India and M/s. Coromandal Fertilizers. It is

also poor in small scale industries. Majority of its establishments are represented by groundnut decorticating factories, oil and rice mills, ginning factories, turmeric polishing mills, saw mills and barytes pulverising mills.

At present there are 12 large and medium units with an investment of 61 crores and 983 small scale units.

STATEMENT SHOWING CATEGORY-WISE UNITS, INVESTMENT AND EMPLOYMENT IN MAJOR AND MEDIUM UNITS

Industrial Category	Units	Investment (Rs. crores)	Employment Persons
Food and Agro-based	5	9	11,000
Chemicals	3	2	5,000
Textiles	1	19	6,000
Minerals	2	30	12,000
Electrical	1	1	2,000
Total	**12**	**61**	**36,000**

The Small Farmers Development Agency, Cuddapah was registered in February, 1971 with the aim to bring the benefits of modern technology to small farmers, marginal farmers and agricultural labourers and raise their standard of living by improved agriculture, subsidiary occupations and supplementary employment offering a capital subsidy of 25% to small farmers and 33 $\frac{1}{3}$% to Marginal Farmers and Agricultural Labourers subject to a maximum of Rs. 3,000/-

Later, from 1-4-'76, the activities of the Small Farmers Development Agency were restricted to Sidhout Block only and the remaining blocks in the district are covered under the Drought Prone Areas Programme. The Small Farmers Development Agency was merged with Integrated Rural Development Programme with effect from 2-10-'80.

A total outlay of Rs. 165.00 lakhs was approved and fully financed by the Government of India to the Small Farmers Development Programme since inception till its merger with the Integrated Rural Development Programme on 2-10-80, to spend in the district of which the Agency has spent Rs. 167.84 lakhs forming 101% of the outlay. During its period of operation, it has identified 62,804 beneficiaries of whom 28,849 were assisted under various programmes taken up by the Agency. The following table shows the sector-wise outlay and expenditure in lakhs.

Sector	Period				Total
	1969-71 to 1975-76	1976-79	1979-80	1980-81	
1. Agriculture	5.02	0.37	0.50	..	5.89

4. Co-operation	20.25	1.42	0.17	..	21.84
5. Establishment	9.96	3.80	0.52	0.53	14.82
Total expenditure	**154.80**	**9.93**	**2.52**	**0.58**	**167.84**
Outlays sanctioned	**150.00**	**10.00**	**2.50**	**2.50**	**165.00**

The Drought Prone Areas Programme was started in the district from 1974 in the Fifth Five Year Plan period. The programme covers all the ten blocks in the district except Sidhout which are identified as chronically drought affected areas in the district. The programme aims at reducing the incidence of drought and scarcity in the identified drought prone areas through package of infrastructural and forms developmental activities by constructive development and utilisation in an optimum manner of land, water, livestock and human resources in the selected areas. The Drought Prone Areas Programme is essentially are development programme but individual beneficiary approach also was adopted and it helped small farmers marginal farmers, and agricultural labourers by way of subsidy at 25% and 33$\frac{1}{3}$% on investment on economic activities to improve their income subject to a maximum of Rs. 4,000 each. The necessary funds for this programme are being met from Central and State Governments at 50:50 basis.

The total outlay approved by the Government for various schemes under this programme from 1974-'75 to 1982-'83 accounted for Rs. 1,634 30 lakhs, while the corresponding releases made by the Government were Rs. 1,141.79 lakhs against which the expenditure incurred was Rs. 1,140.74 lakhs, benefitting 46,579 persons. The subsidy element of the programmes implemented was Rs. 138.19 lakhs, and the balance expenditure Rs. 1,002.55 lakhs was incurred on creating infrastructual facilities in the district under various sectors. Year-wise outlays approved, releases made and expenditure incurred are shown in the following statement.

STATEMENT SHOWING THE EXPENDITURE AND BENEFICIARIES ASSISTED UNDER DROUGHT PRONE AREAS PROGRAMME SINCE 1974-'75 TO MARCH, 1983.

Name of the Year	Approved outlay (Rs. in lakhs)	Releases made by Govt. (Rs. in lakhs)	Expenditure in Rs. 0.000 lakhs		Number of beneficiaries			Subsidy released (Rs. in lakhs)		
			Total	Subsidy	Total	S.C.	S.T.	Total	S.C.	S.T.
1974-75 to 1978-79	884.33	684.27	642.64	61.56	28,114	6,778	1,401	61.56	14.84	3.07

1981-82	182.68	156.90	119.78	13.35	476	99	33	13.35	2.78	0.92
1982-83	172.52	45.60	93.79	1.30	96	11	..	1.30	0.24	..
Total	**1,634.30**	**1,141.79**	**1,140.74**	**138.19**	**46,579**	**9,850**	**2,669**	**138.19**	**27.68**	**7.99**

The Chairman of the Task Force on Drought Prone Areas Programme have recommended to discontinue the Drought Prone Areas Programme in five blocks in the district viz., Cuddapah, Proddatur, Kodur, Rajampet and porumamilla from 1982-83 as they attained the reasonable level of immunity from drought and accordingly it was ordered by the Government of India in their reference 1 (1)/182-DPAP Vol. I dated 8-6-1982. As such, the Drought Prone Areas Programme is at present, operative only in six blocks viz., Rayachoti, Lakkireddipalle, Kamalapuram, Jammalamadugu, Muddanur and Pulivendla.

The allocation under Drought Prone Areas Programme from 1983-84 onwards is, therefore, Rs. 90 lakhs at the rate of Rs. 15 lakhs per block.

Integrated Rural Development Programme was started by Government of India in 1978. The main objectives of the programme are to improve the living conditions of families in "Target Groups" thereby raising them above the 'poverty line' and to create adequate employment opportunities in the rural sector. The target groups consist of the poorest of the poor small farmers, marginal farmers, agricultural labourers, artisans, scheduled castes and scheduled tribes.

Initially the Integrated Rural Development Programme was confined to only 10 of the 12 blocks in the district excepting Jammalamadugu, Muddanur blocks with an outlay of Rs. 5 lakhs per block on subsidies. The programme was later extended to all the 12 blocks in the district from 2-10-1980, with an annual outlay of 5 lakhs per block during 1980-81; Rs. 6 lakhs per block during 1981-'82; and Rs. 8 lakhs per block during the remaining three years of the Sixth plan period. An additional outlay of Rs. 5 lakhs per year was made available to each of the five blocks viz., Rajampet, Kodur, Sidhout, Rayachoti, and Proddatur, selected under self employment programme during 1978-'79. Against the allocated outlay of Rs 353 lakhs for the period from 1978-'79 to 1982-'83, the grants received from State and Central Governments are Rs. 303.98 lakhs and the total expenditure incurred till 31-3-'83 is 297.42 lakhs which works out to 97.8 per cent of the releases made. With the expenditure of Rs. 260.94 lakhs as subsidy, an institutional credit of the order of Rs. 656.06 lakhs was arranged for assistance to the beneficiaries under this programme. Thus a total investment of Rs. 917 lakhs is made to benefit 39,830 persons who were below the poverty line; of whom the S. C. and S. T. families are 12,194 and 2,555 respectively.

STATEMENT SHOWING BENEFICIARIES ASSISTED UNDER INTEGRATED RURAL DEVELOPMENT PROGRAMME WITH THE SUBSIDY AND CREDIT ARRANGED DURING 1978-'79 TO 1982-'83

Name of the year	Releases made by Govt. (Rs. in lakhs)	Number of beneficiaries assisted			Total expenditure (Rs. in lakhs)	Subsidy released (Rs. in lakhs)			Credit (Rs. in lakhs)		
		Total	S. C.	S. T.		Total	S. C.	S. T.	Total	S. C.	S. T.

A comprehensive programme known as TRYSEM i. e., Training Youths (18 to 35 years) for Self Employment was therefore taken up, as part of Integrated Rural Development Programme, for implementation in the district from the year 1979–80 onwards. The scheme aims at imparting training in engineering and non-engineering trades to rural unemployed youth to enable them to set up small but viable ventures of their own at the village level. Persons selected for training will be given stipends of Rs. 125/- or Rs. 50/- per month according to the trainee happened to be non-local or local with reference to the place of training and these rates are revised as Rs. 150 with free accommodation and Rs. 200 without accommodation or 75 per month from 1983–'84. After completion of the training, the candidates will be given a tool kit suitable to the trade in which he was trained to facilitate him to set up his own economic ventures. The number of persons who have completed training till 31–3–83 was 1,716 persons of whom 872 persons have been rehabilitated.

STATEMENT SHOWING YEAR-WISE AND TRADE-WISE NUMBER OF PERSONS TRAINED UNDER TRYSEM

A special programme has been formulated in 1983–84 for the benefit of small farmers and marginal farmers to increase their production by strengthening minor irrigation and water management, fuel and fruit plantations and to provide the needed inputs particularly fertilizers and improved seeds of pulses and oil seeds in the form of mini kits and land development.

The programme covers all the blocks in the district and provide an outlay of Rs. 5 lakhs per block to be shared equally by the central and state Governments during 1983–84. An amount of Rs. 3.5 lakhs is intended to be spent as subsidy on wells/pumpsets to small farmers/marginal farmers; Rs. 0.5 lakhs on plantation of fuel and fruit trees on the holdings of small farmers/marginal farmers and the remaining

one lakh rupees for free distribution of mini kits of seeds and fertilizers for oil seeds and pulses production and development.

Under the "Development of women and children in Rural Areas" Programme all the blocks in the district are covered. On an average, 12 groups of women of 15-20 each and each group is assisted to take viable economic venture to generate additional incomes to the families of the members of the group. An amount of Rs. 10,000 is made available to each group under this scheme. In additian to the above, the United National International Children's Fund (UNICEF) made available an amount of Rs. 5,000 per group towards training/demonstration and Child Care facilities equipment and another Rs. 5,000 per block for creating temporary child care facilities at the National Rural Employment Programme work spots.

PLACES OF INTEREST

Places of religious, historical or archaeological importance : Places of religious institutions (temples) and mutts and of historical or archaeological importance in the district are presented in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS, TEMPLES AND MUTTS IN CUDDAPAH DISTRICT

Sl. No.	Taluk	Name of the Town/Village	Name of the Monuments/Temples/Mutts
1	2	3	4
1	Jammalamadugu	Jangalapalle	Sri Jangam Mutt
2	Proddatur	Proddatur	*Sri Agasteswara Swamy Sri Narayanam Rangaiah Choultry Sri Krishna Geetashramam Sri Jagadguru Mahalingeswara Swamy Mutt
3	Badvel	1 Kandimallayapalle	Sri Kakkayyagari Mutt Sri Veerabrahmendra Swamy Mutt Sri Eswari Devi Mutt
		2 Mudumala	Sri Siddaiah Swamy Mutt
4	Sidhout	1 Sidhout	Bhogamdani Bhavi
		2 Pennaperur	Pennaperur Kona
5	Cuddapah	1 Cuddapah	*Sri Venkateswara Swamy Sri Yadala Pitchaliah Charities Sri Chanda Muniswamy Mutt Nawabi's Tower } Muslim Architecture of Syed Ahmed Sahib's Tomb } late medieval period
		2 Akkayapalle	Sri Ananda Balamba Avadhuta Mutt
		3 Vallur	Siva Temple
6	Rayachoti	1 Yerraguntla	Yerraguntla Kota
		2 Devagudipalle	Narasimha Swamy Temple
7	Rajampet	1 Gundluru	Sree Changaiahgari Mutt
		2 Pothapi	Mulastaneswara Temple (An ancient temple)

Source : Commissioner of Endowments, Andhra Pradesh
The Director, Archaeology and Museums, Government of Andhra Pradesh
*These Temples have an income of Rs. 20,000 and above but less then Rs. one lakh.

Places of tourist interest :

Animela (Kamalapuram Taluk) : This village lies at the foot of the Animela hills and is connected by a feeder road, two miles long, to its hamlet of Virappanayanipalle lying on the Yerraguntla – Vempalle road. The well known ancient temple of Sangamesvara has a 'Prakaram' and 'Gopurams' sculptured 'Mandapams' the large idol of Siva and its carvings of lions, mounted on elephants, chiselled in quartzite sandstones. This place has a fort with four bastions. A large number of inscriptions reveal its antiquity.

Athirala Agraharam (Rajampet Taluk) : This is now an inconspicuous hamlet of Poli village. It is a place of considerable antiquity with a temple of Parasurama. The carvings which include floral representation, images of Vishnu, Parasurama, Rama, Krishna, etc. The miniature chaitya crowning the sanctum is still there. At the other end of the hall facing the idol of Parasurama, an image of Ekatatayya, a saint who lived during the days of Matli Rajas has been installed. Beyond a narrow passage, a mantapam, with seventy two square pillars exists. The other temples here are that of Tretesvara and Gadadhara. There is also a Jyotistambham higher up the temple. It is lighted on special occassions.

Chilamakuru (Kamalapuram Taluk): The ancient village lies on the Cuddapah – Tadpatri road. The temple of Agastevara is architecturally the most impos-

ing in the taluk. Besides this, a temple of Vighneswara and to the east of this temple, a particularly impressive and well carved image of Anjaneya in a dilapidated condition are there. This image of Anjaneya is believed to have been that of 1442 A.D.

Cuddapah (Cuddapah Taluk) : Cuddapah is the headquarters of the district and is a municipality. The most prominent of the relics of the rule of the Cuddapah Nawabs are two towers. Near the fort, there is a beautiful mosque called Masjid-e-Azam. A persian inscription indicates that it has been built during the reign of Aurangazeb in 1691 A.D. In the centre of the town, Syed Shah Mohammad Hussain's dargah, popularly known as the Chand Phira Gumbadh is situated. It is a square building with walls about 35 feet in length surrounded by a large dome in the centre. The parapets of the building contain some good arabesque panels in plaster. Apart from this are the Hazarat Syed Shah Peerullah's dargah, three churches and a number of temples in the town.

Gandikota (Muddanur Taluk) : Gandikota or the gorge fort is situated about 6 miles to the west of Jammalamadugu. The width within the fort is, at its broadest, about five and a half furlongs from west to east and almost a mile from northwest to southwest. The area within is full of the debris of ages and many ancient structures in varying stages of decay. The Jama Masjid has two majestic minarets. The large granary, with a vaulted roof, is at present used as the travellers' bunglow. Inside the fort there are two temples of Madhava and Raghunatha.

Apart from these, the fort has another large granary, an attractive 'Pigeon Tower' and an extensive palace built of bricks with some plastered decorations and some wells. The perenniel springs of Rayalacheruvu irrigate some gardens. Two miles to the southwest of the fort, there is a temple of Venkateswara. This picturesque wooded hollow is known as 'Guriginjakona'. Another interesting spot in this place is the Agastyasram.

Gudipadu (Proddatur Taluk) : Gudipadu village is situated on the Cuddapah-Kurnool highway about seven miles north-west of Mydukur. The temples dedicated to Chennakesava and Siva are noted for their beautiful sculptures.

Jyothi (Sidhout Taluk) : This village is situated about four miles to the west of Sidhout. The temple of Jotisvara or Jotinatha, built on the left bank of the Penneru is one of the most important shrines from the historical point of view. An inscription in the temple states that the Gopuram and compound wall were constructed by an officer in Rakkasa Gangarasa's service. Another undated inscription in the temple refers to the construction of steps by Rayasam Kondamrasayya.

Kalasapadu (Badvel Taluk) : The village is situated on the left bank of the Sagileru on the Badvel-Giddalur road. A large number of dilapidated choultries indicate that this was a halting place in the earlier days. An inscription belonging to the period of Sadasiva (1550 A.D.) hints that this place was of administrative importance in the past. Important shrines in this place are the one dedicated to Chennakesava and Narayana Brahmendraswami Mutt, popularly known as the Muth of Induru Appayya, a saint of the 19th Century to whom many miracles are attributed. This place is noted for the activities of the S.P.G. Church. Apart from all these, there are a number of rural industries such as pottery, hand pounding of rice, carpentry, basket making, tailoring, etc.

Kamalapuram (Kamalapuram Taluk) : This town lies about a mile to the southwest of the confluence of the Penneru with the Papaghni and the Pageru. The local places of worship include two ancient shrines dedicated to Somesvara and Varadaraja with a number of inscriptions and a rich Kanyakaparameswari temple, besides, the dargah of Hazarat Gaffar Shah Qadri and a church near the taluk office. The dargah has a pretty dome and a spacious compound and choultries, wells and a mosque. An Urs held in March-April attracts a large number of devotees from Kamalapuram and surrounding villages.

Katheragandla (Badvel Taluk) : Katheragandla is situated on the left bank of Sagileru, about two miles from Porumamilla. The old temple of Chennakesava situated on the other bank of the Sagileru, exhibit good carvings on the pillars and on the roof of its mandapam, which are a fine example of workmanship. This temple belonging to the period of Krishnadevaraya, presents a neglected appearance.

Pendlimarri (Cuddapah Taluk) : The village is situated at a distance of 13 miles from Cuddapah on the way to Vempalle. A dilapidated bastion, with massive stones is a relic of an old fort. There is also a viragal with an inscription in characters of the 15th century at the Virabhadra temple bearing a well carved image of a man attacking a tiger.

Pennaperuru (Sidhout Taluk) : Pennaperuru lies some furlongs to the east of the road from Sidh-

out to Vontimitta via Gangaperuru. There is a small cave temple of Narasimhaswami, on hill to the east of the village close to the stream. At the foot of the hill is a Kalyana Mandapam, made of stone, with a small Koneru and a banyan tree. There is another temple nearby. In between these, water trickles out of a rocky crevice and falls about 30 ft. below, even in scorching summer. One of the stories connected with this temple was the visit of Sir Thomas Munro. The Collector, who had come to the village for examining the Inam tenures, refused to allow the Inam granted for the worship of Narasimhaswami. When the Karnam made an earnest representation, he declared that he would confirm the Inam if he should see the God in person. In the evening Munro, hearing the sound of a galloping horse came out and saw the God ride past on a white horse. He was so pleased at the sight that he at once confirmed the Inam.

Pushpagiri (Cuddapah Taluk): Pushpagiri, the hamlet of Kotluru is connected to the Cuddapah – Kurnool highway by a branch road, about five miles long. This place is known for its various temples. Some of them are of considerably ancient and a few are of artistic importance. Many of the temples lie on or along a hill devoid of vegetation. The largest and the best known among them is situated on the lower slopes of the hill, overlooking the hamlet of Pushpagiri on the other side of the river. It is known as the Chennakesava temple. Its entrance is surmounted by a lofty five storeyed Gopuram. The main temple in the yard within, has a few attendant temples on either side. The exterior walls containing the sculptures are built of limestone. The sculptures depict scenes from Ramayana, Mahabharata, dancers, rows of warriors and other carvings with various animal and floral motifs and fancifully engraved pillers. The annual utsavam of Chennakesava lasts for ten days from Chaitra Bahula Trayodasi (March-April) and attracts a large number of devotees. Pushpagiri is the seat of one of the important Advaita Maths. It has a large following both within and beyond Rayalaseema.

Vontimitta (Sidhout Taluk): Vontimitta is about nine miles from Sidhout via Bhakarapeta. Vontimitta or Ontimitta is famous for its temple of Kodandaramaswami. It is the most impressive and imposing temples of the district. The lofty gateway, the large and beautifully sculptured Mandapam, with thirty-two pillars, called the Madhyarangamandapam, leading to the inner chamber and the sanctum are of great architectural interest. The remains of bastion and fields near Vontimitta are indicative of some earlier fortifications. This place has been associated with great scholars and bhaktas like Potana - author of Srimadhandra Bhagavatam, Ayyalaraju Tripurantaka and Ayyalaraju Ramabhadra.

CENSUS CONCEPTS

Rural and urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit,

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns	Population size
Class I	100,000 and above
Class II	50,000 - 99,999
Class III	20,000 - 49,999
Class IV	10,000 - 19,999
Class V	5,000 - 9,999
Class VI	below 5,000

The class I towns are termed as cities.

Standard Urban Areas : Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a Standard Urban Area are – (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971

Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes.

a) A city with continuous out growth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages) ;

b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) ;

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common court yard or staircase etc , used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/ Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work."

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the refrence period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day

in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-Workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i e , all those persons basically engaged in unpaid home duties doing no other work;
2. Students i.e., all full-time students or children attending school ;
3. Retired persons or a rentier i.e , a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;
4. Dependent i.e , an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either, but are purely dependent.
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work ;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers - all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later the Madras Government replaced the District manuals by another publication viz., the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. It was decided that Volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after 1931 Census. Due to the world war II, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Prakasam have been published.

The Village Statements : Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each district immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I.C.S , the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General Population Tables, Economic Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of Village and Town Directory which was the most vital part of the Handbook, giving the villagewise and town-wise primary census abstract i.e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and

town. Nine such tables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. . All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons 1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below.

Part – A : Village and Town Directory
Part – B : Village and Town Primary Census Abstract
Part – C : Administrative Statistics and Report.

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However, the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Part – A : Analytical Note.
Part – B : Village and Town Directory and Village and Town-wise Primary Census Abstract.

It has been decided not to go in for administrative statistics that is Part-C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of house holds at 1981 Census, availability of amenities such as educational, medical, drinking water and P&T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the Survey Department, the

figures furnished by the Tahsildars have been adopted. Cols. 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests : (Col. 15) These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated: (Columns 16 & 17) This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming, etc.

(iii) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable waste: (Column 18) This includes the land under the following three categories.

(i) Permanent pastures and other grazing lands :

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste :

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation : (Column 19) This includes the land under the following two categories.

(i) Land put to non-agricultural uses:

All lands occupied by buildings, roads and railways or underwaters e. g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and un-cultivable land like mountains, etc., i. e, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this background that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at 1971 census except for a few additional columns. The titles of the statements are as follows :

Statement	I	:	Status and growth history
Statement	II	:	Physical aspects and location of towns, 1979
Statement	III	:	Municipal Finance, 1978-1979
Statement	IV	:	Civic and other amenities, 1979
Statement	IVA	:	Civic and other amenities in notified slums, 1979
Statement	V	:	Medical, Educational, Recreational and Cultural facilities in towns, 1979
Statement	VI	:	Trade, Commerce, Industry and Banking, 1979

With a view to facilitate analysis of data, a few new columns have been introduced. The columns – class of town, in every statement is a significant addition. By taking the class of town into consideration, the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in Statement III and IV and population in Statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme the columns, Scheduled Castes and Scheduled Tribes population in statement IV and Adult Literacy classes/centres in Statemement V are identical.

In case such of the amenity as Fire Fighting service in Statement IV, the Educational Facility in Statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same State or other State where available along with its distance from the referrent town has been given. This is a new feature of 1981 census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i. e., population by religion and scheduled castes/scheduled tribes in towns of 1971 census was discontinued at the 1981 census and a new Statement IV A has been introduced to explore the possibility of civic and other amenities available in notified slums in Class I and II towns only.

The following thirteen places are the urban units in Cuddapah district at the 1981 Census.

1	Badvel	8	Proddatur
2	Cuddapah	9	Pulivendla
3	Dommara Nandyal	10	Rajampet
4	Jammalamadugu	11	Rayachoti
5	Kamalapuram	12	Veparala
6	Madhavaram	13	Yerraguntla
7	Nagireddipalle		

Of these Cuddapah and Proddatur are municipalities. All others are panchayat towns.

Of these thirteen towns Dommara Nandyal, Madhavaram, Nagireddipalle, Veparala and Yerraguntla are the places classified as towns for the first time in the 1981 Census in consideration of the distinct urban features. Badvel, Cuddapah, Jammalamadugu, Proddatur, Rajampet and Rayachoti were classified as towns from 1901. Kamalapuram was classified as town from 1921 while Pulivendla was classified as town from 1971.

None of the towns in this district has been treated as urban agglomeration. Cuddapah and Proddatur, with the neighbouring villages as detailed below are treated as standard urban areas.

Standard Urban Area	Component Units	
	Urban	Rural
(1)	(2)	(3)
1 Cuddapah	1 Cuddapah (M)	1 Patha Cuddapah
		2 Chinnachowk(R)
		3 Gudur (R)
		4 Ankayapalle
		5 Nagarajupet (R)
		6 Viswanatha-puram(R)
		7 Puttampalle
		8 Mamillapalle
		9 Utukur
		10 Chemmumiah-peta (R)
2 Proddatur	1 Proddatur (M)	1 Bollavaram (R)
		2 Dorasanipalle
		3 Rameswaram (R)
		4 Kothapalle

Among these thirteen towns, Cuddapah and Proddatur are cities with a population of one lakh and more and therefore categorised as class I towns. There are no class II towns i.e., with a population of 50,000 to 99,999. Jammalamadugu, Pulivendla and Rayachoti are class III towns with a population range of 20,000 to 49,999. Badvel, Rajampet and Yerraguntla are class IV towns the population of which ranges from 10,000 to 19,999. Dommara Nandyal, Kamalapuram, Madhavaram, Nagireddipalle and Veparala are class V towns the population of which ranges from 5,000 to 9,999. There are no class VI towns i.e., towns with a population less than 5,000. The urban population of the district is 374,503 out of total population of 1,933,304 persons thus consisting an urban population of 19.37% as against 14.2% at 1971. The increase in proportion of urban is partly due to the addition of five new towns at 1981.

Statement I–Status and Growth History : This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 census and sex ratio from 1961 to 1981 Censuses of each town in columns 2 to 19.

In this as well as in all other town directory statements columns 1 & 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of town directory data at the state and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M' for Municipality and 'P' for Panchayat. The location code numbers under Col. 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India level. Area in sq. kms. and number of households including houseless households for each town is included in the town directory for the first time in 1981 Census. The population of the town with decadal growth rate from 1901 census to 1981 is given in cols. 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column (Col. 16) intro-

duced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per sq. km. Sex ratio from 1961 to 1981 censuses has been given in cols. 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1,000 males.

It is observed that Cuddapah and Proddatur towns kept up a steady growth in their population, while Badvel recorded a decline in its population growth during the decades *1921 & 1931*, Jammalamadugu in 1921 and 1941, Kamalapuram and Rayachoti in 1931. Rajampet had recorded a deepfall in its population growth consequently for three decades from 1911 to 1931. However, these towns have recouped in the subsequent decades by maintaining an upward trend in their population growth.

Of the 13 towns in the district, Rayachoti is the only town having an area of 39.78 sq. kms. Next to it comes Jammalamadugu with an area of 24.82 sq. kms. The third important town as far as area is concerned is Rajampet spread over an area of 20.60 sq. kms.

Cuddapah, the district headquarters town with an area of 6.84 sq. kms. recorded the highest density of 15,077 as against the district average density of 126 persons per sq. km.

Statement II–Physical aspects and location of Towns, 1979 : This statement has 12 columns and depicts physical aspects and location of towns in the district. Under cols. 3 to 5 in the statement data relating to the rainfall recorded in 1978 and the maximum and minimum temperature recorded in 1971 census were given. If this information was not available for any town then the particulars available for that nearest town have been given against such town. Cuddapah, Kamalapuram, Nagireddipalle, Rajampet and Yerraguntla towns are directly connected by railways. The remaining 8 towns are not directly connected by railways. Four of these towns are within a distance of 25 kms. While the remaining 4 towns are within a distance of 26 to 50 kms. range.

All the towns except Dommara Nandyal in the district have bus communication facility. Dommara Nandyal town is not directly connected by bus route and it is at a distance 5 kms. from the bus route. Five out of 13 towns have navigation facility.

Statement III–Municipal Finance, 1978–79 : The data for inclusion in this statement were obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The statement shows that no town except Dommara Nandyal has an excess of expenditure over income. Nearly 25% of the total receipts is utilised for purposes of public health and conveniences in Cuddapah town. For public institutions like schools and libraries except Cuddapah, the remaining towns have spent nothing from their incomes.

Statement IV–Civic and other amenities, 1979 : As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The facility of sewerage and open surface drains is available in Badvel, Cuddapah and Jammalamadugu towns, while the facility of open surface drains and sylk drains are available in Kamalapuram and Proddatur. Dommara Nandyal, Pulivendla, Rajampet and Rayachoti towns have the facility of open surface drains, Madhavaram and Yerraguntla have sylk drains and Nagireddipalle and Veparala have the facility of Pit system. All the towns have protected water supply. Of the thirteen towns in the district, Cuddapah, Jammalamadugu, Proddatur, Pulivendla and Rajampet have the facility of fire fighting service.

All the thirteen towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh, Domestic Service includes supply of energy for lighting, fans and domestic purposes in domestic premises and supply in poultry farming units upto 100 birds. Industrial Service means supply for purposes of manufacturing, processing and or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government departments or Co-operative house building societies and pumpsets of Railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational

were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L.C. Nos. of villages were given in Arabic numerals while those of towns in Roman numerals.

Col. 3 : This column shows the area of villages in hectares while the area of town is given in sq.kms. based on the information furnished by the respective State agencies. Where the area of particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4 : Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5 : This column includes houseless households and institutional households as well.

Cols. 6 to 8 : Total population includes houseless and institutional population with sex break up.

Cols. 9 to 12 : Under these columns the population of S. Cs. and S. Ts. by sex is given. A copy of the list of S. Cs. and S. Ts. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27-7-1977 is appended hereunder.

31 Valmiki (in the Agency tracts)
32 Yenadis
33 Yerukulas

Cols. 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Cols. 15 to 28 : At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census, a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of

the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 382,140 occupied residential houses and 385,244 households in Cuddapah district compared to 308,677 residential houses 322,845 households in 1971 registering an increase of 23.80 % in number of residential houses and 19.33 % in number of households.

The total number of persons returned at the 1981 Census in Cuddapah district is 1,933,304 as against 1,577,267 in 1971 Census, thus recording an increase of 22.57% as against the State's growth rate of 23.10%. The proportions of rural and urban population to the total population in the district works out to 80.63% and 19.37% respectively in 1981 Census compared to 85.82% and 14.18% in 1971. There are 959 females per every 1,000 males at 1981 census when compared with State index of 975 females per 1,000 males. The ratio of 958 females per every 1,000 males was recorded at 1971 Census.

Cuddapah district returned 601,539 literates at 1981 Census forming 31.11% of the total population of the district, compared with 390,091 literates constituting 24.73% at 1971 Census. The sex break up of literacy rates during 1981 Census is 43.91% among males and 17.77% among females. Rural - Urban break up of literacy rates indicate 26.86% of population are literates in rural while this is 48.84% in urban population. The corresponding rural and urban rates of literacy at 1971 are 21.33% and 45.31% respectively.

In Cuddapah District there are 867,120 workers constituting 44.85% of the total population as against 632,245 workers forming 40.08% in 1971 Census. Among males the workers constituted 57.70% while among females only 31.45% are workers.

Brief Analysis of the Village & Town Directory and Primary Censns Abstract Data

There were 968 villages in the district at the 1981 Census as against 972 at 1971*. Out of the 968 villages, 896 are inhabited while 72 villages are uninhabited. 13 inhabited villages are reported as partly included in different towns of the district. 12 villages which are fully included in urban areas are not considered in computing the total number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Proddatur taluk has more urban population than other taluks, while Muddanur taluk has the least urban population as per 1981 Census. There are two rural taluks which have no urban population in this district.

Table 2 compares the taluk-wise population from 1971 and 1981 Censuses for total, rural and urban areas. Cuddapah taluk has recorded the highest growth rate of 41.27% during the decade 1971-81, while Muddanur taluk has recorded the lowest growth rate of 5.28%. In the rural areas of Jammalamadugu and Muddanur taluks, negative growth rates of 4.32% and 1.98% respectively have been registered.

* Decrease is due to the merger of two main revenue villages with other villages and five main revenue villages are reported as fully included in their respective urban areas by loosing their rural character during the decade. 3 villages which were included fully in the proximate urban areas in 1971 are reported as partly included in 1981 and hence the variation over 1971.

Table 2

Table 3 shows the tolal number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500–1,999 population and form 48.10% of total villages in this district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of Population	No. of villages in each range	Percentage of villages in each range
1	2	3
— 199	56	6.25
200 — 499	151	16.85
500 — 1,999	431	48.10

5,000 — 9,999	40	4.47
10,000 +	6	0.67
Total	**896**	**100.00**

The following table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 101–200. More than 63% of villages come under density group 101 and above. This district has returned a density of 126 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range

501 +	56	6.25
Not known	—	—
Total	**896**	**100.00**

According to 1981 Census the population of scheduled castes in Cuddapah district is 250,943 accounting for 12.98% of the total population of the

district. Scheduled Caste population in this district forms 3.15% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range, 43.75% of the villages have Scheduled Caste population in a percentage range below 15. Only 14.51% of villages are without Scheduled Castes population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Castes Population to total Population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	130	14.51

Table 7 provides the total population, scheduled caste and scheduled tribe population and the percentage of scheduled caste and scheduled tribe population to total population of the towns in the district.

The total scheduled caste population in all the urban areas of the district at 1981 census was 25,558 persons representing 6.82% of the total urban population. Among the towns, proportions of scheduled castes population varies from 3.31% in Veparala town to 24.34% in Nagireddipalle panchayat town.

The scheduled tribe population in urban areas of the district according to 1981 Census is 3,346 persons constituting 0.89% of the total urban population. The proportions of scheduled tribes population vary from 0.01% in Dommara Nandyal town to 2.51% in Pulivendla panchayat town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

Table 10 presents the proportions of literates, workers, non-workers, scheduled caste/scheduled tribe population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. The district has returned 31.11% of the total population of the district as literates. Cuddapah taluk has returned 38.25% of literates and this is the highest in the district. Proddatur taluk has returned the largest number of workers 96,994 in its rural areas accounting for 13.09% of the total rural workers of the district and 52.91% of the total rural population of the taluk. Lakkireddipalle taluk stands first among the taluks in the district in the proportion of workers to total population. Sidhout taluk has returned 22.38% of scheduled caste population while the least is in Jammalamadugu taluk with 6.70%. In rural areas of the taluks also these two taluks only stand on either sides of the scale occupying the first and last places among the taluks in the district. The percentage of scheduled caste population in urban areas range between 12.96% to 3.31% among the taluks. Kodur taluk has recorded highest proportion of scheduled tribe population with 4.06% while Kamalapuram taluk has the least proportion of scheduled tribe population with only 0.82%.

Table 10

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table, education (95.42%) and drinking water facilities (99.89%) are available in all the villages, while amenities of P & T, approach by pucca road, power supply and communications are available in 73.44%, 68.30% and 68.08% and 53.79% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities *viz.*, 23.88% of villages have medical facility and only 2.23% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

Table 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

42.56% of rural population only has medical facilities while about 6.30% of the population has access to market facility. More than 75.6% of the rural population have P & T, communication, approach by pucca road and power supply, while almost all the population has access to education and drinking water.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is one village in this district which do not have drinking water facility. Over one-fourth of the villages (26.56%) have no Post and Telegraph facility in the village. Only 41 villages do not have education facility within the village, but these are available at different distance ranges. Large number of villages do not have market, medical, communication facilities within the village, but are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+ kms.	Total (Cols. 2-4)
1	2	3	4	5

3. Drinking Water	1	—	—	1
4. P & T	225	10	3	238
5. Market	93	210	573	876
6. Communication	318	91	5	414

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

10.04% of the villages have towns within the range of 0-5 kms. About 39.40% of the villages have towns within a range of 6-15 kms., while the balance have nearest town located within 16-50 kms. and 51+ kms. forming 50.45% and 0.11% of the villages respectively. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

(Table 14 overleaf)

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Total	**896**	**855**	**214**	**895**	**658**	**20**	**482**	**612**	**610**
		95.42	**23.88**	**99.89**	**73.44**	**2.23**	**53.79**	**68.30**	**68.08**

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999,and 5,000+are considered and the villages are distributed in these ranges. About 48% of the villages are in the range of 500-1,999, while the villages less than 500 and those in the range of 2,000-4,999 form 23% and 24% respectively. Only 5% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier, only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market	Communi-cation	Approach by Pucca Road	Power Supply

The staple food in the majority of villages in each taluk is given in the following table 16.

Rice, Ragi and Jowar are the three staple foods in the villages in this district.

Table 16

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK

Sl. No.	Name of Taluk	Main Staple food
(1)	(2)	(3)
1	Jammalamadugu	Rice, Ragi
2	Proddatur	Rice, Jowar
3	Badvel	Rice, Ragi
4	Sidhout	Rice, Ragi
5	Cuddapah	Rice, Ragi
6	Kamalapuram	Rice, Jowar
7	Muddanur	Rice, Ragi
8	Pulivendla	Jowar, Korra
9	Lakkireddipalle	Rice, Ragi
10	Rayachoti	Rice, Ragi
11	Rajampet	Rice, Ragi
12	Kodur	Rice, Ragi

Table 16—*(Concld.)*

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 38.94% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 454,204-60 hectares 130,286.72 hectares forming 28.68% is only tenable. Jammalamadugu taluk has the largest percentage of cultivable area of 61.97% while the irrigated area is only about 2.16% of cultivable area. Sidhout taluk which has the least proportion of cultivable area of 19.84%. has the highest percentage (79.75) of irrigated area to total cultivable area of the taluk.

Table 17

The following table indicates the towns added/ declassified at the 1981 Census with their population.

Five towns have been added to the list of 1971 Census and there is no case of declassification at the 1981 Census.

Table 19

NEW TOWNS/TOWNS DECLASSIFIED IN 1981 CENSUS

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the thirteen urban areas in the district, the highest per capita receipt is noticed in Cuddapah Municipality (Rs. 106.30) followed by Proddatur Municipality (Rs. 50.30) and Pulivendla panchayat town (Rs. 42.93) takes the third rank. The lowest per capita receipt is recorded in Dommara Nandyal panchayat (Rs. 3.41). Receipts through taxes is highest in Pulivendla panchayat (Rs. 14.54) while this is lowest in Dommara Nandyal panchayat (Rs. 1.82). From all other sources together, the highest per capita receipt is seen in Cuddapah Municipality (Rs. 92.48) while this is lowest in Dommara Nandyal panchayat (Rs. 1.59).

Cuddapah Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 91.62 followed by Proddatur Municipality (Rs. 38.46) and Pulivendla panchayat (Rs. 34.88). Dommara Nandyal town ranks last in per capita expenditure (Rs. 3.71). The per capita expenditure of Rs. 25.86 on public health and conveniences in Cuddapah is the highest among the towns while Dommara Nandyal has the minimum of Rs. 0 53. The highest per capita expenditure of Rs. 19.38 on public institutions like schools and libraries is recorded by Cuddapah Municipality. No expenditure is incurred by Badvel, Kamalapuram, Madhavaram, Nagireddipalle, Proddatur, Pulivendla, Rajampet, Rayachoti and Yerraguntla towns for this purpose.

All the civic bodies are running on sound lines with surplus budget except Dommara Nandyal town which is functioning with deficit budget.

Table 20

The following table provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented refers generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appearing the different grades of examination conducted by the concerned Examination Boards periodically.

There are 142 primary schools, 43 upper primary schools, 31 high schools and 10 junior colleges in all the urban areas of the district.

Table 21

SCHOOLS PER TEN THOUSAND POPULATION IN TOWNS

Class, name and civic status of Town	Number per ten thousand population			
	Higher Secondary/ Inter/PUC/Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary

Total	**0.27**	**0.83**	**1.15**	**3.79**

From table 22 it can be seen that the number of beds available in urban areas of this district is very low being 2.65 beds per every 1,000 population. Nearly 65% of the total bed strength in the urban areas of the district is concentrated in Cuddapah and Jammalamadugu towns. The bed-population ratio is highest in Jammalamadugu town where there are 10.99 beds per 1,000 population. Cuddapah and Pulivendla towns have recorded the bed-population ratio more than the district average. All other towns have this ratio less than the district index.

Table 22

NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Class, name and civic status of the town	No. of beds in medical institutions per 1,000 Population

IV Yerraguntla (P)	Groundnut oil	Groundnut oil	Cement

Physically Handicapped Persons :

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in the 1931 Census. After independence, the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houselesss do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows:

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these *i. e.*, both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present."

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities he was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Cuddapah district is given below.

Physically handicapped form 0.22% of the total population in the district, comprising 0.24% of rural and 0.10% of urban population. Out of the total 4,085 persons recorded as physically handicapped, *i. e.*, totally blind, totally crippled and totally dumb in the district, as many as 3,707 persons forming 90.75% are from rural areas only. Among the total physically handicapped in the district 37.92% are totally blind, 29.01% are totally crippled and 33.07% are totally dumb. The survey revealed that Kodur taluk has recorded the highest number of physically handicapped persons accounting for 478 persons, the lowest being Muddanur taluk with 162 persons.

PART B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No. 5)

P	...	Primary or Elementary School (Upto Class IV)
M	...	Middle School or Junior Secondary (Class V to VIII)
H	...	Matriculation or Secondary School (Class IX and X)
JC	...	Higher Secondary/P U C/Intermediate/ Junior College
C	...	College
I	...	Industrial School
Tr	...	Training School
AC	...	Adult literacy class/Centre
O	...	Other educational institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

H	...	Hospital
MCW	...	Maternity and Child Welfare Centre or Maternity and Child Health Centre
MH	...	Maternity Home
CWC	...	Child Welfare Centre
HC	...	Health Centre
PHC	...	Primary Health Centre
PHS	...	Primary Health Sub-Centre
D	...	Dispensary
FPC	...	Family Planning Centre
TB	...	T. B. Clinic
NH	...	Nursing Home
RP	...	Registered Private Practitioner
SMP	...	Subsidised Medical Practitioner
CHW	...	Community Health Worker
O	...	Others

Drinking Water : (Column No 7)

T	...	Tap
W	...	Well
TK	...	Tank
TW	...	Tube Well
HP	...	Hand Pump
R	...	River
F	...	Fountain
C	...	Canal
L	...	Lake
S	...	Spring
N	...	Nallah
O	...	Others
NA	...	Information not available

Post and Telegraph : (Column No 8)

PO	...	Post Office
TO	...	Telegraph Office
PTO	...	Post and Telegraph Office
Phone	...	Telephone Connection

Communications : (Column No. 10)

BS	...	Bus Stop
RS	...	Railway Station
NW	...	Navigable Waterway

Approach to village : (Column No. 11)

PR	...	Pucca Road
KR	...	Kaccha Road
NR	...	Navigable River
NC	...	Navigable Canal
NW	...	Navigable Waterway
FP	...	Foot Path

Power Supply : (Column No 13)

ED	...	Electricity for domestic purpose
EAG	...	Electricity for Agriculture
EO	...	Electricity for other purposes like industrial, Commercial etc.
EA	...	Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

GC	...	Government Canal
PC	...	Private Canal
W	...	Well (without Electricity)
WE	...	Well (with Electricity)
TW	...	Tube Well (without Electricity)
TWE	...	Tube Well (with Electricity)
TK	...	Tank
R	...	River
L	...	Lake
WF	...	Water Fall
O	...	Others
T	...	Total

Remarks. etc. : (Column No. 20)

N ... Copies of the News Papers (Coming in the village)
M ... Motor Cycles/Scooters
C ... Cars/Jeeps
T ... Tractors

As an example an entry showing figures like P(2), or D(2), or T(35.21), TK(35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 Hectares and extent of land irrigated by water from tanks is 35.21 Hectares.

Where a facility is not available in the village. the distance at which the facility available is shown in broad ranges viz. -5 kms; 5-10 kms. and 10+ kms. of the nearest place.

SECTION Ii – Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town the codes used are :

Municipal Corporation/ Corporation	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca Road	PR
Kuccha Road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel Barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows :

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping System	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In Statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T. B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic, or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A–1,2), D (Hom. 2, U–1)

Here H (A-1, 2), represents one Ayurvedic and 2 Allopathic hospitals and D (Hom-2, U-1) represents 2 Homoeopathic and 1 Unani Dispensaries.

The Codes used for the Col. 6 are as follows :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Short-hand & Typewriting	Sh.Type
Others	O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B. Ed. College, Teacher's Training institutes, Music/Dancing School, Nursing School etc., are covered under "Others".

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary Schools. Schools upto Class VIII are treated as Junior Secondary or Middle Schools. Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary / Intermediate / Pre - University / Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public Library	PL
Reading Room	RR
