NAGARI NOSE

Chittoor district which has a happy combination of plains, valleys, plateau and the hills, is one of the most picturesque areas of the State. The most extensive range of hills, namely, the Eastern Ghats enter the district in Kuppam taluk in the south-west corner and passing northwards to the eastern parts of Palmaner and Punganur taluks, gradually bend towards the east as far as the hills of Tirupati known as Seshachala hills on which the world renowned temple of Lord Sri Venkateswara is situated.

2. The spurs of the Eastern Ghats run through Chittoor taluk into west of Puttur taluk. Through Puttur taluk runs a broad and fertile valley and this is shut in on the eastern side by a hill range known as Nagari Hills, which extends northwards into Srikalahasti taluk. These hills which present an appearance of having been suddenly upheaved by volcanic action, overlook the valley with high precipitous cliffs. The prominent cliff, popularly referred to as the "Nagari Nose" is a land mark that can be seen for about 100 Kms. around and from Madras light house. People visiting Tirumala Hills are familiar with these range of hills which present a panoramic view.

3. The Nagari Nose first gained its popularity when William King, Geologist, Geological Survey of India, surveyed this area and published his report in 1870 (a strange coincidence with the first Census year). The rock on the top of this nose is quartzite and is named as Nagari quartzite by William King. This rock is supposed to be 1,500 millon years old and is equivalent to the Pulivendla quartzite which is the standard reference rock in the geological formations of this area. This cliff which lies about 10 Kms. north of Nagari rises to a height of 2,814 ft. (855 Mtrs.) M.S.L. and is popularly known as 'Nagarimur Konda'. The longitude and latitude of the hills are 79° 35' 43" and 13° 22' 42" respectively.

4. The cliff is also described as 'Nagari Nose' because it projects towards one side in the form of a human nose. This nose structure is due to the fact that the rock projects steeply towards east, south-west and north-west and slopes off gently towards east, north-east and south-east. The nose with its elegant appearance looks as though it is in eternal conversation with the One above!

5. Nagari Nose served as a 'light house' during medieval period for guiding navigation in the Bay of Bengal as the nose was serving as a landmark for the ships touching Madras. A bonfire was created on the tip of the nose which used to guide the ships in those days. The then Rajas of Karvetinagar bestowed a land grant of 0.75 Acre of wet land to a Jangam family in Kemparapalem village which lies at the foot of the hill for the services rendered. Even now, a big earthen oil lamp is lit on every full moon day on the tip of the nose by one of the descendants of this Jangam family who is still enjoying the hereditary land grant. Of late, the cliff is also used for mountaineering and range practices.

6. There is not much of flora except vegetation like lemon grass and cactus. But like any other important hill in this country, this hill also is said to contain some medicinal herbs and creepers, the important one being a rare medicinal leaf used by the famous Puttur Bone-Setters at Rachapalem village about one Km. north of Puttur on Puttur-Tirupati road.

7. Under the very nose of this Nose, there is the temple of Sri Kalyana Venkateswara Swamy of pilgrim importance in Narayanavanam village. There is a legend to say that Lord Sri Venkateswara married Goddess Padmavathi here and the nose which is determined to be of 1,500 million years old must have witnessed this marriage!

8. At the sloping end of the nose, there is a waterfall, known as "Kailasanatha Kona" which is attracting large number of tourists, particularly from the neighbouring Tamil Nadu State on the week-ends and holidays mostly for picnic purposes. There is an idol of Lord Siva where daily poojas are performed by a priest appointed by a committe of trustees. Some Sadhus who find this place congenial for meditation are having their abodes here and attracting persons interested in spiritual matters. Thus this place can very well be developed both as a religious centre and picnic resort.

9. It is said that sage Gowthama lived very near to this hill on the bank of Kusasthali river and the Bugga (spring) in the Ashram was named Gowthama Bugga. In the precincts of the Ashram there are temples of Lord Iswara and Kalabhairava. There are 14 temples dedicated to Lord Siva on the 30 mile path known as Lord's path (దేవుని బాట) surrounding this massive mountain. Procession of the deities of these temples on the third day to Sankranti (Pongal) festival and their termination at Nagari, a small and prosperous town was an occasion for the mixing of the local people and recreation. There is an idol of Lord Ganapati at the tip of the nose.

10. Mountains of Chittoor district attracted the attention of pandit Jawaharlal Nehru during his tour of the district in 1952. Viewing the pristine beauty of the skyline of the encircled mountain ranges which formed a picturesque background to the vast sea of humanity that congregated there to hear him, he said "It was essential that people should develop the strength of rocks to stand up to difficulties—a strength which would enable them to face the challenge of the lightning and the tempest and refuse to submit even to the thunderbolt from the skies", and exhorted the audience "to develop not only the kindness of good earth but the sternness and hardness of the rocks and the hills that surround them." People of Chittoor district live upto his advice.

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of these Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts viz., Part A — Village and Town Directory, Part B — Village and Town Primary Census Abstract and Part C — Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities *etc.*, available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of the 1971 Census Handbooks of all the 21 Districts in the State have been finalised already and I expect that before the end of 1973 Parts A and B for all the 21 Districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing, *etc.*, required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Shri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part-A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Shri A. Chandra Sekhar, IAS., Registrar General, India and Dr. B.K. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of Chittoor District Census Handbook under the guidance and supervision of Shri P. S. R. Avadhany, Deputy Director of Census Operations and Sri K. Narasimha Murthy, Assistant Director of Census Operations of my Office.

Sri P. B. Sunder Raj, Tabulation Officer ,, T. Brahmiah, Statistical Assistant ,, T. Govardhana Rao, Statistical Assistant	Drafting Scrutiny and Supervision of Printing
Smt. K. Subbalakshmi, Computor Sri G. V. Ramachandran, Computor ,, S. Ramakrishna, Assistant Compiler Kumari. Anasuya, Assistant Compiler	Collection and Compilation
Sri K. Ram Reddy, Junior Reader, G.C.P. ,, P. Innayya, Junior Reader, G.C.P.	Proof Reading

Sri	A. Venkateswara Rao, Assistant Compiler	... Scrutiny and Printing of maps
Sri	M. N. Ram Mohan, Artist	... Supervision of Mapping Work
Sri	Syed Ahmed, Senior Draughtsman	Preparation of maps
,,	M. J. Sadiq, Draughtsman	
,,	N. G. Swamy, Draughtsman	
,,	M. Hasan, Draughtsman	
,,	M. Shankaraiah, Draughtsman	
,,	Md. Yakub Ali, Draughtsman	
,,	B. Raghu Ram, Draughtsman	
Smt.	Daya Saxena, Draughtsman	
Sri	D. Koteshwara Rao, Computor	

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

T. VEDANTAM
Director of Census Operations

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published District Manuals for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two Volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. They decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume 'B' was also stopped after the 1931 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from the District Manual and Gazetteers, the census data upto village level used to be published in a brochure called "Village Statement" for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census, the Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbooks for each district in place of the Village Statements was first entertained and put forward at the 1951 Census by Sri R. A. Gopalaswamy, I.C.S., the then Registrar General, India and *ex-officio* Census Commissioner of India as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the village statistics of the past censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each districts at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing Administrative Statistics and Part II the Census Tables. In the composite Madras State, the Handbooks were brought out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the Physical features, and History, Social, Economic and Demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961 Census Tables *viz.*, General Population Tables, Economic Tables, Cultural and Migration Tables, special Tables on Scheduled Castes and Scheduled

Tribes. The fourth part consisted of Village and Town Directory which was the most important section of the Handbook, giving village-wise and town-wise Primary Census Abstract *i.e.* particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population *etc.* Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine Sub-Tables containing village wise particulars such as irrigation sources, important crops raised, value of land, Co-operative Societies, Industrial Establishments, Police Stations, list of skilled craftsmen *etc.*, were given after Village and Town Directory. A tabular statement on Fairs and Festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful publications and had considerable demand by public as well as the official users of the census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the 1961 Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important census data to the planners, administrators and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts *viz.* Part A, Part B and Part C. Part A contains the Village and Town Directory. Part B contains the Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later

A brief outline on the scope of each of these three parts is given below.

Part A: Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory : It is arranged taluk-wise and gives for each village, particulars of amenities such as of educational and medical institutions, power and drinking water supply, post and telegraph facilities, communications, markets, particulars of land use, places of religious, historical or archaeological interest in the village.

Town Directory : The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the scheduled castes/tribes population are presented in seven statements. These particulars are given for each town in the district arranged in alphabetical order.

Part B: Village and Town Primary Census Abstract

This part gives for each revanue village and also for each Enumerator's Block and ward of a town the Primary Census data *i.e*, area, occupied residential houses, number of households, total population and its break up by sex, scheduled castes and scheduled Tribes population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry fishing, plantations *etc.* in mining and quarrying, in manufacturing, in construction, in trade and commerce in transport, storage and communications and in other services and the non-working population as per the 1971 Census.

Part C: Administrative Statistics and Report

This part comprises the various administrative statistics pertaining to the district with special reference to the development taken place during 1961–70 in different spheres and also the 1971 Census Tables relating to the General Population, Economic characteristic, Cultural and Migration features, Housing and Establishment tables and data pertaining to the district regarding language and religion. A write up, indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries Trade and Commerce, Education, Medical and Public Health, Community Development *etc.*, is given at the

beginning of this part, In view of the elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban classification of areas

It is customary to classify the population of every country at a census as Rural and Urban. Such a classification has considerable significance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic charecteristics of the population. Hence at the beginning of each census, the criteria for treating a place as town (*i.e.* urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The Towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the provincial Directors of Census Operations, having regard to the character and relative density of population, their importance as centres of trade, decided to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an Urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census.

1. All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and

2. All other places which satisfied the following criteria.

   (a) a minimum population of 5,000

   (b) a density of population of at least 1,000 persons per Sq. mile (400 persons per Sq. Km) and

   (c) at least three fourths (75%) of themale working population is non-agricultural.

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to treat a place as a town or a village.

The Towns are categorized into six classes as detailed below:

Classification of Towns	*Population size*
Class I	1,00,000 and above
Class II	50,000-99,999
Class III	20,000-49,999
Class IV	10,000-19,999
Class V	5,000- 9,999
Class VI	Below 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.* Urban Agglomeration and Standard Urban Area were evolved at the 1971 Census. They are briefly explained below:

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port areas, Military Camps *etc.* Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowth would deserve to be treated as an integrated urban area, At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomeration replaced the concept of Town group followed in the 1961 Census. An urban unit is treated as an urban agglomeration in the following situations.

(a) Atcity with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of the adjoining village or villages).

(b) One town with similar out-growth or two or more adjoining twons with their out-growths as in (a) and

(c) A city and one or more adjoining towns with their out-growths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh, the following four places are treated as Urban Agglomerations.

Name of the Urban Agglomeration	*Constituent units in the Urban Agglomeration*
(1)	(2)
1 Visakhapatnam Urban Agglomeration	(*a*) Visakhapatnam City (*i*) Visakhapatnam Municipality (*b*) Gopalapatnam town (*ii*) Gajuvaka Outgrowth
2 Rajahmundry Urban Agglomeration	(*a*) Rajahmundry Municipality (*b*) Rajahmundry Non-Municipal Area
3 Vijayawada Urban Agglomeration	(*a*) Vijayawada Municipality (*b*) Patamata Town (*c*) Gunadala Town
4 Hyderabad Urban Agglomeration	(*a*) Hyderabad Municipal Corporation (*i*) Hyderabad Division (*ii*) Secunderabad Division (*b*) Secunderabad Cantonment (*c*) Malkajgiri (*d*) Alwal (*e*) Uppal Khalsa (*f*) Balanagar (*g*) Fatehnagar (*h*) Macha Bolaram (*i*) Osmania University (*j*) Lalaguda (*k*) Kukatpalle (*l*) Moosapet (*m*) Bowenpalle (*n*) Zamistanpur

The Standard Urban Area (S. U. A.)

The concept of the Standard Urban Areas has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at the 1961 Census did not effectively tackle the problems involved in reporting urban statistics apart from lacking a uniform application throughout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constitutent units whose jurisdictions were subjected to frequent changes and thus lacked in stability. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over time but also lost spatial comparability with similar data processed both within the country and outside. These short-comings reduced considerably the utility of the town-group concept. To enable the presentation of urban statistics on uniforam basis and also to ensure comparability of the census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban out-growth such as the suburbs (industrial and residential), Railway Colonies, civil lines, Cantonments and also such of those villages that are iikely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, the village. The boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed:

(i) The core town should have a minimum population of 50,000

(ii) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town and

(iii) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In Chittoor District, Chittoor and Tirupati Towns with their surrounding villages are treated as Standard Urban Areas.

PART - A

VILLAGE AND TOWN DIRECTORY

SECTION I - Village Directory

SECTION II - Town Directory

SECTION I
VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electric supply in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides presenting the data on basic amenities like, educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, places of historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The Village-wise Primary Census Abstract is presented separately in Part B of this Volume.

In the Village Directory, the revenue village is taken as the lowest unit for presentation of data. The villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory, the Villaga Directory contains only one statement. An alphabetical list of villages with the Location Code Numbers against them is given at the beginning of the Village Directory of each taluk. This facilitates the reader to select the required village from the alphabetical list and after knowing its location code number to obtain the necessary particulars from the Village Directory. The Village Directory is broadly divided into four broad sections *viz.* location particulars, basic amenities like education, medicai *etc.*, land utilisation and distance from urban area and the importance of the village as religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the villagc. The area gvien under Col. 3 is as per the data furnished by the Tahsildar and the State Survey Department. Columns 4 to 9 give the basic amenities available in the village such as the educational, medical, electricity, drinking water, communications, postal facilities.

The educational facilities are shown by the following symbols under column 4.

P	...	Primary or Elementary School
M	...	Middle School
H	...	High Schools or Higher Secondary School
C	...	College
T	...	Technical Institution

If there are more institutions than one of a type in the village the number of institutions precedes the abbreviations *eg.*, 3,P 2,M 3,H *etc.*

Medical and Public Health facilites existing in the village are shown by the following symbols under Col. 5.

H	...	Hospital
D	...	Dispensary
Mcw	...	Maternity and Child Welfare Centre
Fpc	...	Family Planning Clinic
Phc	...	Public Health Centre

If the village is electrified then it is indicated by the letter E under Column 6.

The types of drinking water supply sources available with in the village are indicated as below:

T	...	Tap
W	...	Well
Tk	...	Tank
Tw	...	Tube Well
R	...	River
C	...	Canal

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, then the communication facilities of the village under column 8 have been indicated as below:-

PR ... Pucca Road
KR ... Katchcha Road
T ... Train
R ... River
C ... Canal

The postal facilities, if any, existing in the village are indicated under column 9 by the following symbols.

PO ... Post Office
TO ... Telegraph Office
PTO ... Post & Telegraph Office
Phone ... Telephone

If a village does not have any of the above facilities then "....." is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 as indicated below. If variety of grains are mainly used in the village, then they have been indicated, accordingly.

Ri ... Rice
W ... Wheat
J ... Jowar
B ... Bajra
Ra ... Ragi
M ... Maize

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 the extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells *etc.*, are given, wherever available under column 12 while under column 13 the extent of land unirrigated is given. Column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells *etc.*, is given under column 15.

The various types of land use given under each of the 11 to 15 columns are listed out and the concepts explained below.

1 Forests (Col. 11) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with breakup of irrigated & unirrigated (Cols. 12 and 13). This includes the land under the following three categories.

(i) Net area sown :
The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Current fallows :
This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(iii) Other fallows :
This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3 Cultivable waste (Col. 14) This includes the land under the following three categories.

(i) Miscellaneous tree crops, groves not included in the area sown.
Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under "Orchards" are classed under this category.

(ii) Culturable waste :
This includes lands available for cultivation but not taken up for cultivation or abandoned after few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

3 Cultivable waste (Col. 14)-(*Concld*).

(*iii*) *Permanent pastures and other grazing lands :*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

4 Area not available for cultivation (Col. 15)

This includes the land under the following two categories.

(*i*) *Barren and uncultivable land :*

This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(*ii*) *Land put to non-agricultural uses:*

All lands occupied by buildings roads and railways or under waters *e.g.*, rivers and canals and other lands put to uses other than agricultural.

Under column 16 the distance of the village from the nearest town in K. Ms. is given. The days on which weekly market/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeological tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and local bodies concerned and also from the concerned departments like Postal, Medical, Education, Electricity.

INHABITED AND UNINHABITED VILLAGES

There are, in all, 1,316 villages in the district at 1971 Census of which 1,277 are inhabited and 39 are uninhabited villages. 14 villages are partly included in different urban areas of the district. Kuppam taluk has the largest number of villages *viz.*, 183 while the smallest number of villages *viz.*, 78 is in Bangarupalem taluk. There is a steep fall in the number of villages in Srikalahasti taluk from 427 in 1961 to 183 in 1971. This is mainly due to the regrouping of the villages under survey and settlement operations. 509 villages or about 40% of the total inhabited villages in the district have a population of less than 1,000 each. 409 villages or about 32% of the total inhabited villages in the district are in the population size of 1,000-1,999. There are only 25 villages in the population size of 5,000-9,999 and two villages with a population of 10,000 and above. A large proportion of these villages are in Madanapalle and Puttur taluks. The proportion of number of villages belonging to population size of 1,000-1,999 are generally more in all the taluks except Kuppam, Madanapalle, Vayalpad and Puttur. Kuppam taluk has a larger number of villages *viz.*, 39 out of 183 villages with a population of less than 200.

The distribution of villages by size class of population and taluks is given below:

STATEMENT 1

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE OF POPULATION

Name of the Taluk	Total Villages (Inhabited)	No. of Villages by population						
		less than 200	200-499	500-999	1,000-1,999	2,000-4,999	5,000-9,999	10,000 and above

Total	**1,277**	**93**	**182**	**234**	**409**	**332**	**25**	**2**

VILLAGES CLASSIFIED BY GEOGRAPHICAL AREA

The are 438 villages or about 33% of the total villages including the uninhabited villages, in the district with a geographical area of less than 1000 acres each. 340 villages have area between 1001 to 2000 acres each. 410 villages or about 31% of the total villages have an area ranging from 2001 to 5000 acres each. Only 125 villages have an area more than 5000 acres each. There is relatively a higher proportion of villages in the area range of 2001 to 5000 acres each in the district and particularly so in Punganur, Vayalpad, Srikalahasti and Puttur taluks. Chittoor, Palmaner, Bangarupalem and Satyavedu taluks have a relatively high proportion of villages in the area range of 1001 to 2000 acres each. Madanapalle taluk has a very high proportion of villages in the area range of 5001 acres and above. Kuppam Taluk has the bulk of small size villages with area ranging between 201 and 1000 acres each. The area particulars in respect of 3 villages distributed one to each of the three taluks-Chittoor, Kuppam and Puttur are not available. The table showing the taluk - wise distribution of villages by size class of area is given below.

STATEMENT 2

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE CLASS OF GEOGRAPHICAL AREA

Name of the Taluk	Total No. of Villages	No. of Villages by area (in Acres)							
		50 or less	51–100	101–200	201–500	501–1,000	1,001–2,000	2,001–5,000	5,001 and above	Un specified

EDUCATIONAL FACILITIES

Education which has come to be viewed now as a patent means of development, has a role, which needs no emphasis, in the gradual evolution of an enlightened community. It is, therefore, one of the basic facilities that has to be provided to the people. An idea of the extent and the level to which it has been provided in the rural areas of the district can be had from the table given below. The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links.

STATEMENT 3

EDUCATIONAL FACILITIES

Distance from the nearest town in Kms.	Total No. of villages (Inhabited)	No. of villages having				
		Primary Schools	Middle Schools	High or Higher Secondary Schools	Colleges	Other educational institutions
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less .	132	105	13	12	1	1
6–10 .	191	141	14	9	..	..
11–15 .	188	144	15	16	..	..
16–25 .	322	268	27	23	1	1
26–50 .	386	337	37	36	1	..
51–100 .	58	51	7	6	..	..
Total	**1,277**	**1,046**	**113**	**102**	**3**	**2**

Out of the total 1,277 inhabited villages in the district, Primary Schools exist in 1,046 villages or about 82% of tatal inhabited villages while 231 villages constituting 18% of the total inhabited villages do not have the minimum educational facilities. 113 villages or about 9% of the total inhabited villages have Middle or Upper Primary Schools while 102 villages or about 8% of the total inhabited villages have High or Higher Secondary Schools. There are three Junior Colleges, which are spread over in the rural areas of Palmaner and Vayalpad taluks. The institutions shown under 'others' generally include technical schools, basic training schools, *etc.*

MEDICAL FACILITIES

Expansion of the medical facilities particularly in the rural parts has been emphasised in the development plans. An idea of the extent of the availability of these facilities in the rural areas of the district can be had from the following table.

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Name of the Taluk	No. of Medical Institutions		
	Hospitals	Dispensaries	Others (Phc, Fpc & Mcw)
(1)	(2)	(3)	(4)
Chittoor	..	3	20
Bangarupalem	..	5	3
Palmaner	..	5	13
Kuppam	..	1	6
Punganur	..	5	18
Madanapalle	1	10	23
Vayalpad	..	9	21
Chandragiri	3	4	15
Srikalahasti	..	3	10
Satyavedu	1	7	15
Puttur	..	3	18
Total	**5**	**55**	**162**

There are 222 medical institutions of various types in the rural parts of the district. These institutions include 5 hospitals, distributed among Madanapalle, Chandragiri and Satyavedu taluks, 55 dispensaries and 162 other medical institutions such as Primary Health Centres, Family Planning Clinics, Maternity Child Welfare Centres, *etc.* Hospital facilities do not exist in the rural areas of 8 of the 11 taluks while dispensaries exist in all the taluks. The rural parts of Kuppam taluk have comparatively fewer medical facilities while the rural parts of Madanapalle taluk have good medical facilities. Next to Madanapalle, the rural parts of Vayalpad have good medical facilities. On an average, there is one medical institution for every 100 sq. Kms. of rural area in the district.

ELECTRIFICATION

The number of villages including the uninhabited which have electricity supply is given in the table below, classifying the villages by the distance to the nearest town.

STATEMENT 5

NUMBER OF VILLAGES HAVING ELECTRICITY

Distance from the nearest town in Kms.	Total No. of villages	No. of villages where electric supply is available
(1)	(2)	(3)
5 or less	136	93
6–10	196	112
11–15	194	89
16–25	335	120
26–50	394	154
51–100	61	15
Total	**1,316**	**583**

It may be noticed that a higher proportion of villages proximate to urban areas are electrified. Nearly about 70% of the villages lying at a distance of less than 5 Kms. to the urban areas are electrified. In all there are 583 villages or about 44.3% of total villages are electrified in this district. The taluk-wise break-up of these 583 electrified villages and the percentage of villages electrified to the total villages in the taluk are given in the following table.

STATEMENT 6

TALUKWISE DISTRIBUTION OF ELECTRIFIED VILLAGES

Name of the Taluk	Total No. of villages	No. of electrified villages	Percentage of villages electrified to total number of villages in taluk
(1)	(2)	(3)	(4)
Chittoor	126	59	46.8
Bangarupalem	78	55	70.5
Palmaner	100	30	30.0
Kuppam	194	45	23.2
Punganur	103	38	36.9
Madanapalle	108	37	34.3
Vayalpad	126	58	46.0
Chandragiri	119	105	88.2
Srikalahasti	130	33	25.4
Satyavedu	120	47	39.2
Puttur	112	76	67.9
Total	**1,316**	**583**	**44.3**

Comparatively Chandragiri taluk has a higher proportion of electrified villages viz., 88.2%. Next to it Bangarupalem and Puttur taluks come in the order with 70.5% and 67.9% of electrified villages respectively. Kuppam taluk has the lowest proportion of villages electrified viz., 23.2%. The proportion of villages electrified in Srikalahasti and Palmaner taluks is also not encouraging.

COMMUNICATION FACILITIES

Good road transport and communication facilities are essential for the economic development. 536 villages or about 41% of the total number of villages including the uninhabited villages are connected by pucca road while 665 or about 51% villages are connected by katcha road only. Rail transport facilities are availably only in 45 villages or about 3% of the total villages. 115 villages out of the total of 1,316 villages in the district are not connected either by pucca roads or katcha roads.

A table showing the distribution of villages by the type of connecting roads and transport facility available is given below.

STATEMENT 7

COMMUNICATION FACILITIES

Distance from the nearest town in Kms.	Total No. of villages	Number of villages connected by				
		Pucca road	Katcha road	Pucca road & train	Katcha road & train	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less .	136	72	58	7	..	6
6–10 .	196	72	106	2	1	18
11–15 .	194	90	79	14	1	25
16–25 .	335	116	173	8	4	46
26–50 .	394	166	215	8	..	13
51–100 .	61	20	34	..	..	7
Total	**1,316**	**536**	**665**	**39**	**6**	**115**

POSTAL FACILITIES

The following statement indicates the number of villages having post offices, telegraph offices, and telephone facilities in the different taluks of the district.

STATEMENT 8

POSTAL AND TELEGRAPHIC FACILITIES

Name of the taluk	Inhabited Villages	Total Number of villages having				
		Post Offices	Telegraph Offices	Others		No. of Post Offices per 100 Sq. Kms.
				Post & Telegraph Offices	Phones	
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Chittoor .	121	73	2	..	6	7.3
Bangarupalem .	78	45	..	..	3	5.5
Palmaner .	91	35	..	..	1	3.3
Kuppam .	183	30	..	..	..	4.0
Punganur .	103	61	..	1	..	3.6
Madanapalle .	104	68	..	1	8	3.1
Vayalpad .	125	80	..	9	5	3.9
Chandragiri .	117	41	..	6	..	3.1
Srikalashstl .	129	58	..	2	..	3.7
Satyavedu .	116	40	..	..	1	6.0
Puttur .	110	76	2	1	1	4.9
Total	**1,277**	**607**	**4**	**20**	**25**	**3.9**

Among the total 1,277 inhabited villages in the district, 607 villages have post Offices, 24 villages have telegraph facility and 25 villages have telephones in the rural areas of the district. For every 100 Sq. Km., rural area in the district there are about 4 post offices The proportion of villages having post offices is higher in Chittoor. Punganur, Madanapalle, Vayalpad and Puttur taluks while it is low in Kuppam, Chandragiri and Satyavedu compared to other taluks in the district.

The main staple foods of the people in the rural areas in this district are rice and ragi. In a few places Bajra and Jowar are also reported as staple foods.

CULTIVATED LAND

In the context of land reforms the data on the extent of land which could be brought under the plough but is lying uncultivated and the extent of land cultivated in each village are very important. A statement showing the average cultivated land and the average cultivable waste per village classified by the distance to the nearest town is given below.

STATEMENT 9

PERCENTAGE OF AVERAGE CULTIVABLE WASTE TO AVERAGE CULTIVATED LAND PER VILLAGE BY DISTANCE

Distance from the nearest town in Kms.	Number of villages	Total cultivated land (in Acres)	Average cultivated land per village (in Acres)	Total cultivable waste (in Acres)	Average cultivable waste per village (in Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	136	79,189	582	30,345	223	38.3
6–10	196	1,43,600	733	54,423	278	37.9
11–15	194	1,47,994	763	76,019	345	45.2
16–25	335	2,69,387	804	94,006	281	35.0
26–50	394	4,64,797	1,180	1,16,967	411	34.8
51–100	1	97,668	1,601	27,957	458	28.6
Total	**1,316**	**12,02,635**	**914**	**4,35,716**	**331**	**36.2**

On an average the area under cultivation in each village is 914 acres, while the extent of cultivable waste is 331 acres. In other words there is cultivable waste in each village equivalent to about 36 2% of the cultivated land which could be brought under the plough, perhaps, with some efforts. The taluk-wise picture is also given below to have a comparative idea of the different taluks in the district.

STATEMENT 10

PERCENTAGE OF AVERAGE CULTIVABLE WASTE TO AVERAGE CULTIVATED LAND PER VILLAGE BY TALUKS

Name of the Taluk	Number of villages	Total cultivated land (in Acres)	Average cultivated land per village (in Acres)	Total cultivable waste (in Acres)	Average cultivable waste per village (in Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Chittoor	126	78,193	621	63,551	504	81.1
Bangarupalem	78	69,296	888	22,893	294	33.1
Palmaner	100	89,811	898	29,212	292	32.5
Kuppam	194	72,622	374	3,729	19	5.1
Punganur	103	1,01,496	985	38,687	376	38.2
Madanapalle	108	2,34,864	2,175	62,238	576	26.5
Vayalpad	126	1,98,788	1,578	55,918	444	28.1
Chandragiri	119	63,166	531	62,091	522	98.3
Srikalahasti	130	1,09,478	842	40,826	314	37.3
Satyavedu	129	86,869	724	30,721	256	35.4
Puttur	112	98,052	875	25,850	236	27.0
Total	**1,316**	**12,02,635**	**914**	**4,35,716**	**331**	**36.2**

The average cultivated land per village is more in Madanapalle and Vayalpad taluks while it is less in Kuppam and Chandragiri taluks. The proportion of average cultivable waste to the cultivated land in each village is more in Chandragiri and Chittoor taluks with proportions of 98.3% and 81.1% respectively while it is less in Kuppam and Madanapalle where the proportions are 5.1 and 26.5 respectively.

The several particulars furnished in the Village Directory reveal that

(i) minimum educational facilities are not available in 18% of the inhabited villages in the district;

(ii) there is about one medical institution for every 100 sq. kms., rural areas;

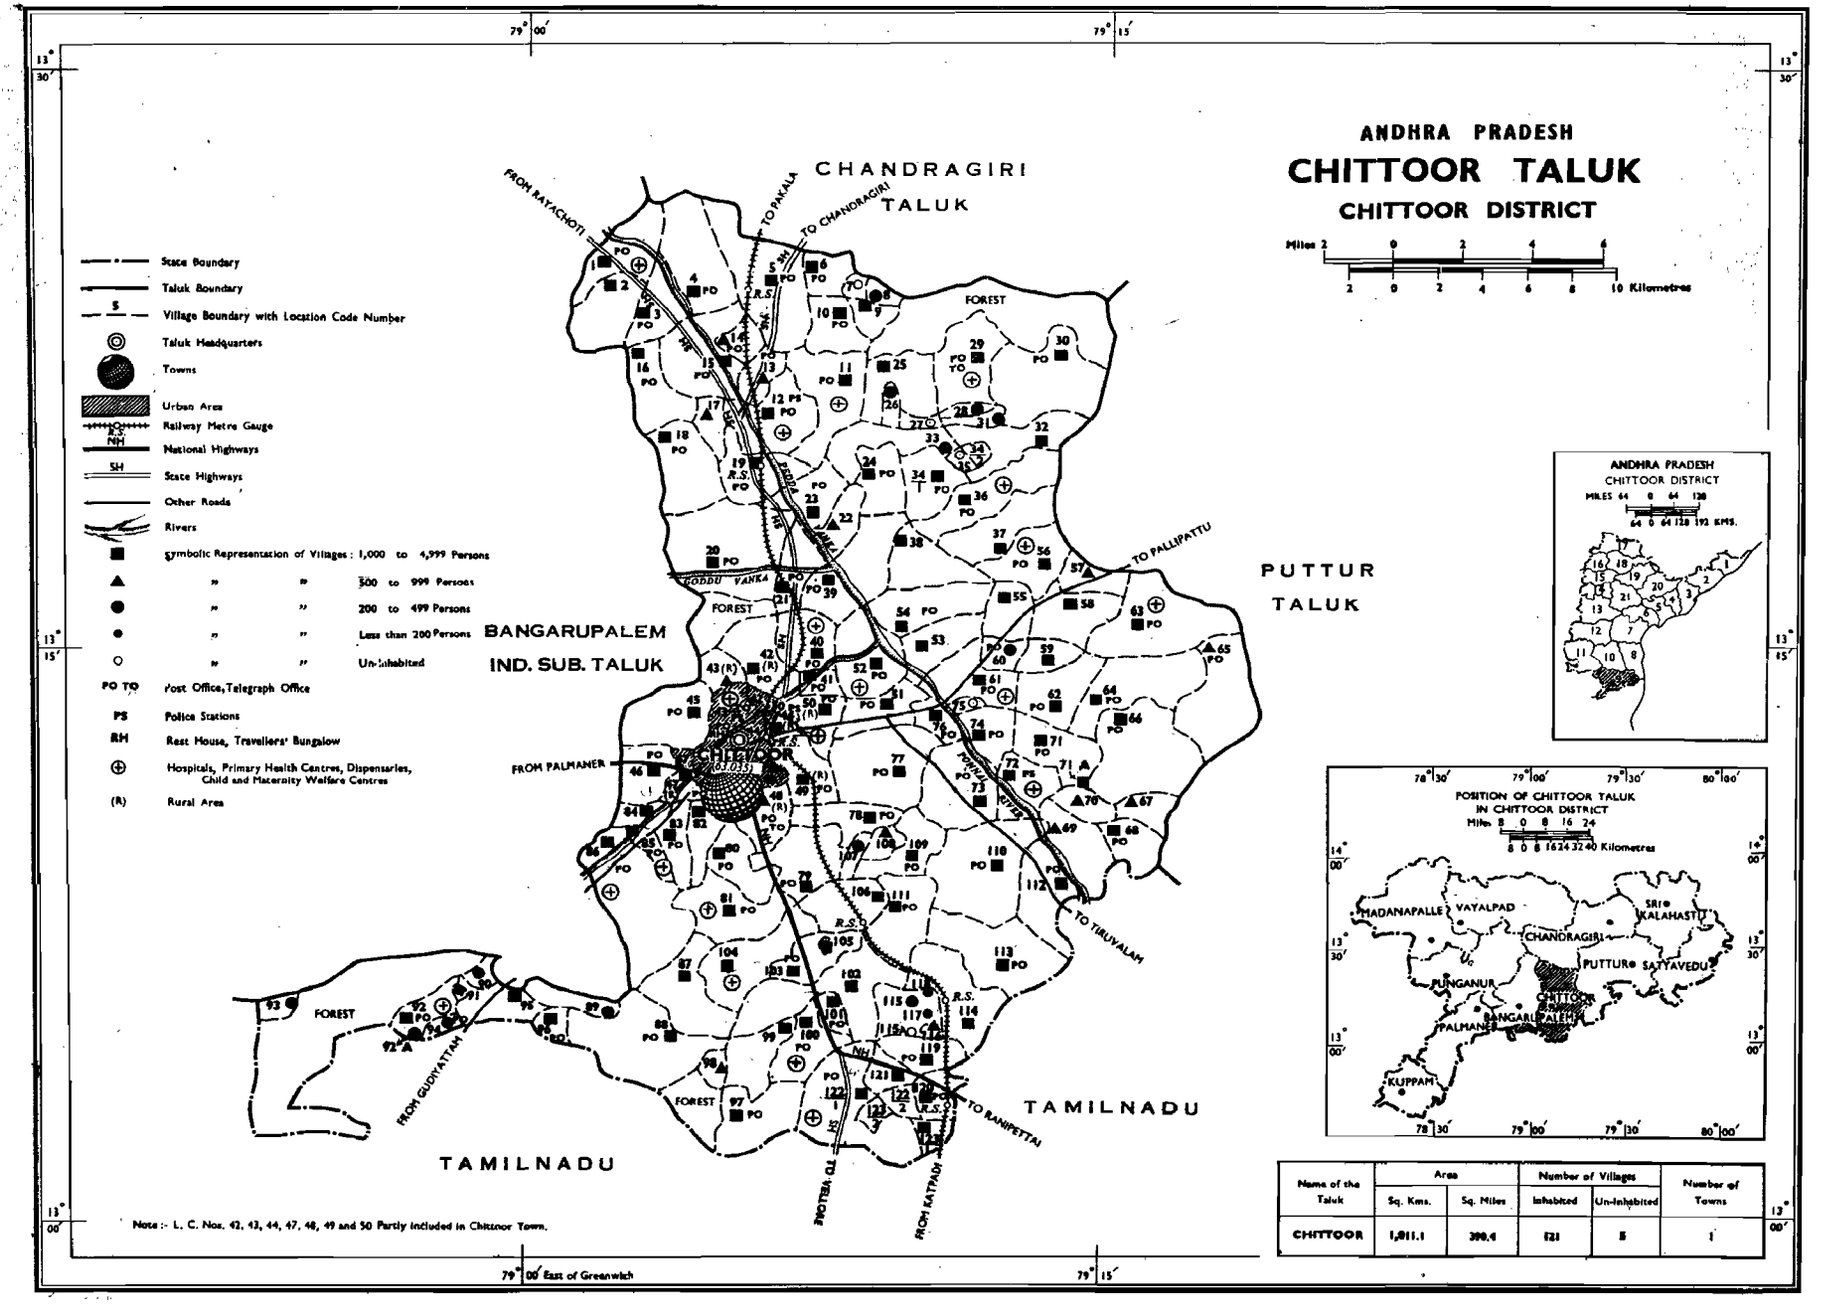

(iii) electricity is available in only 44.3% of the total villages in the district;

(iv) the pucca road and good means of transport are available for about 41% of the total villages; and

(v) an extent equivalent to about 36.2% of the cultivated land is left uncultivated in a village on the average: this proportion is much higher (almost twice) in Chandragiri and Chittoor taluks.

These facts indicate clearly that further development in all these fields is necessary in the rural parts of Chittoor District,

SECTION II

TOWN DIRECTORY

Town Directory

In the Town Directory, the towns in the district are arranged alphabetically and the several particulars relating to them are given in the following seven statements :

Statement	I	Status, Growth History and Functional Category of Towns
Statement	II	Physical Aspects and Location of Towns
Statement	III	Civic Finance
Statement	IV	Civic and other Amenities in Towns
Statement	V	Medical, Educational, Recreational and Cultural Facilities in Towns
Statement	VI	Trade, Commerce, Industry and Banking Facilities
Statement	VII	Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The following thirteen places have been treated as Towns in Chittoor district at the 1971 Census.

1 Chittoor
2 Palmaner
3 Kuppam
4 Punganur
5 Madanapalle
6 Tirupati
7 Tirupati Non-Municipal area
8 Tirumalai
9 Renigunta
10 Pakala
11 Sri Kalahasti (formerly known as Kalahasti)
12 Puttur
13 Nagari

Of these 13 towns Tirupati Non-Municipal Area is the only place which is classified as a town for the first time in the 1971 Census. Kuppam, Palmaner and Tirumalai have been classified as towns from 1921, 1941 and 1961 respectively, while Renigunta, Pakala, Puttur and Nagari have been classified as towns from 1951 onwards. All other towns *viz.*, Chittoor, Punganur, Madanapalle, Tirupati and Sri Kalahasti have been classified as such from 1901. Vayalpad of Vayalpad Taluk which was a town at the 1961 Census has been declassified as rural in 1971 as it did not fully satisfy the criteria laid down for treating it as a town. The gradual and steady increase in the number of urban units in the district from census to Census is shown below.

Census Year	*No. of urban units*
1901	5
1911	5
1921	6
1931	6
1941	7
1951	12
1961	13
1971	13

None of the towns in this district has been treated as an Urban Agglomeration, while Chittoor and Tirupati with some of the surrounding villages as detailed below are treated as Standard Urban Areas in this district. The rural and urban components of these 2 Standard Urban Areas are given below.

Standard Urban Area	Component Units	
	Urban	Rural
(1)	(2)	(3)
1. Chittoor	Chittoor	1. Murakambattu 2. Doddipalle 3. Timmasamudram 4. Mangasamudram 5. Iruvaram 6. Greamspet 7. Gandlapalle 8. Kattamanchi 9. Chittoor (R)
2. Tirupati	Tirupati Renigunta Tirupati (Non-Municipal area)	1. Thummalagunta 2. Peruru 3. Avillala Vedantapuram 4. Akkarampalle 5. Thimminaidupalle 6. Mangalam 7. Karakambadi 8. Thukkivakam 9. Tiruchanoor

Chittoor District is industrially an undeveloped district, but reputed for a healthy climate in the State.

The total urban area in the district is only 174 Sq. Kms. constituting 1.1% of total geographical area of the district. The urban population of the district is 307,454 persons constituting 13.3% of the total population and is distributed among the 13 towns. The corresponding proportion of urban population in 1961 was 11.9%. Chittoor town, a district headquarters has a population of 63,035 persons. It is the second largest town in this district from the point of view of population, while Tirupati, an important centre of education, a pilgrimage centre of countrywide repute is the largest town in the district, with a population of 65,843 persons. Tirupati and Chittoor are the two towns in the district, falling under class II towns with population ranging between 50,000 and 99,999 persons. Madanapalle and Sri Kalahasti which are also important in the district for the salubrious climate and pilgrimage respectively will come next in the order and are class III towns with population ranging between 20,000 and 49,999 persons. Punganur, Pakala, Palmaner, Tirumalai, Puttur and Kuppam are the 6 towns next in the order. They are class IV towns with population ranging between 10,000 and 19,999. The remaining three towns *viz.*, Nagari, Renigunta and Tirupati Non-Municipal area are the three towns next in the order and are class V towns with population ranging between 5,000 and 9,999. The smallest urban unit in this district is Tirupati Non-Municipal area with population of only 6,141 persons. The largest town in this district according to area is Punganur with 26.06 Sq. Kms. while Kuppam is the smallest unit with an area of 3.08 Sq. Kms. only.

Statement I–Status, Growth History and Functional Category of Towns

In this statement the civic status of each town as at the 1971 Census and its population since 1901 or from the census in which it was treated as urban for the first time, are presented thereby indicating the place at which the population in these urban units is increasing from census to census. The functional characteristics of these towns as determined in 1961 and 1971 Census based on the proportion of working population returned under each industrial category are also shown in the statement. This would give an idea of the change, if any, in the economic pattern of the town between 1961 to 1971.

The civic status of town *i.e.*, whether the town is a Municipality or a Panchayat is indicated under column 5 by an abbreviated letter like 'M' for Municipality and 'P' for Panchayat. Chittoor, Madanapalle, Tirupati and Sri Kalahasti are the only four Municipalities in this district while the remaining 9 towns *viz.*, Palmaner, Kuppam, Punganur, Tirupati (Non-Municipal area) Tirumalai, Renigunta, Pakala, Puttur and Nagari are Panchayats. The population of the towns recorded at each of the censuses from 1901 to 1971 or from the census at which it was treated as urban unit is given under Cols. 6–13. In columns 14 and 15 the functional characteristics of each town *i.e.*, whether the town is an industrial town or a service town or a trade and commerce town *etc.*, as decided at 1961 and 1971 Censuses are given.

All the towns in the district except Madanapalle, Sri Kalahasti and Punganur towns recorded steady and slow growth of population in the earlier decades but rapid growth in the later decades of the 20th century which seems to be due to the improvement of several amenities of life, medical facilities and consequent fall in the general mortality rates. In respect of Madanapalle, Sri Kalahasti and Punganur towns, there had been a fall in their population in 1921 but the fall is marked and more conspicuous in respect of Madanapalle town. The variation in population in respect of the other towns is generally low in 1911.21 compared to other decades. This is the result of the great wave of influenza in 1918 that spread all over the country. There has been a spurt in the increase of population in Tirumalai, Tirupati and Madanapalle in 1971 Census compared to other towns in the district. This is mainly due to the unique position these towns occupy in the field of pilgrimage and education.

FUNCTIONAL CATEGORY :

By the very nature of urban development, the towns are bound to serve a variety of purposes. In order to know to what extent the functions are diversified or the predominant characteristic is accentuated, a scheme of statistical classification was evolved at the 1961 Census. Accordingly each town has been classified broadly under the following categories *viz.*

(i) **Primary Activity:**—Agriculture, Mining and Fishing (Census-Industrial Categories, I, II and III of 1961 Census and Categories, I, II, III and VI of 1971 Census).

(ii) **Industrial:**—Industriy including Construction (Census Industrial Categories IV, V and VI of 1961 Census and Categories V (a) and (b) and VI of 1971 Census).

(iii) **Commercial:**—Trade and Commerce (Census Industrial Category VII of 1961 and 1971 Censuses).

(iv) **Transport** :—Transport (Census Industrial Category VIII of 1961 and 1971 Censuses).

(v) **Services:**—Other Services (Census Industrial Cateogory IX of 1961 and 1971 Census).

The predominant functional character of a city/town is determined on the basis of the following principles :

(a) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above five characteristics then the city/town was designated by that characteristic.

(b) If the proportion is not more than 40% in any one of the characteristics, then the next predominant characteristic was taken into account and if the first two predominant characteristics combined together have a proportion of over 60% then the town was designated as having the two characteristics and was termed as Industrial-*cum*-Services or Industrial-*cum*-Commercial, etc.

(c) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial-*cum*-Commercial-*cum*-Services or Industrial-*cum*-Services-*cum*-Primary Activity, *etc.*

Examined against this background the thirteen towns of this district fall under the following classification in 1961 and 1971 Censuses.

Functional Category	Name of Town	
	1961	1971
(1)	(2)	(3)
1 Primary Activities	Punganur, Pakala, Puttur	Punganur, Pakala
2 Industry	Sri Kalahasthi	Sri Kalahasthi
3 Services	Tirupati, Tirumalai	..
4 Transport	Renigunta	..
5 Commercial	..	Tirumalai
6 Industry-*cum*-Primary Activities	Kuppam, Nagari	..
7 Services-*cum*-Industry	Chittoor	..
8 Services-*cum*-Primary Activities	..	Tirupati (Non Municipal area)
9 Services-*cum*-Industry-*cum*-Primary Activities	Madanapalle, Palmaner	..
10 Industry-*cum*-Primary Activities-*cum*-Commercial	..	Kuppam, Puttur, Nagari
11 Commercai-*cum*-Services-*cum*-Industry	..	Chittoor; Tirupati (M)
12 Primary Activities-*cum*-Commercial-*cum*-Services	..	Madanapalle, Palmaner
13 Transport-*cum*-Industry-*cum*-Primary Activities	..	Renigunta

As Tirupati Non-Municipal town was not a town at 1961 Census, its functional category as per 1961 data is not given above.

Statement II–Physical Aspects and Location of Towns

This statement deals with physical aspects and location of towns in the district. There are 13 columns in the statement. Under columns 3 to 5 in the statement data relating to the average annual rainfall and the maximum and minimum temparature recorded in 1969 are given. If this information is not available for any town then the particulars available for the nearest town have been given against such town.

Under column 6, the name of the nearest city with population of a lakh or more is given. Under columns 7 to 9 the name of the State Headquarters, the District Headquarters, Revenue Divisional Headquarters and the Taluk Headquarters together with the distance therefrom are given. Under the columns 10 and 11 the nearest railway station and bus stand and the distance therefrom are given. If navigation and sea port facilities are available to the town they are also given under columns 12 and 13.

The Horseley Hills and Arogyavaram near Madanapalle and Tirumalai town are known to be good summer resorts where the climate is very delightful. On the average, the climate in the district is moderate and the minimum and maximum temperatures among the towns in the district range from 11.7° C to 32.2° C and 33.8° C to 43.3° C respectively. The average annual rainfall in the towns ranges from 741.6 mm to 1143.6 mm from both South-West and North-East monsoons. Sri Kalahasti town recorded the maximum average annual rainfall and Madanapalle the minimum (which is even less than the minimum for sustenance of dry crop).

All the towns are taluk headquarters except Tirupati (M), Tirupati (N.M), Tirumalai, Renigunta, Pakala and Nagari towns which are at a distance of 12, 16, 26, 28, 40 and 14 Kms. respectively from their respective taluk headquarters. Three towns are located at a distance of 50 Kms. or less, eight towns are at a distance of 100 Kms. or less and two towns are at a distance of more than 100 Kms. from the district headquarters.

There is a good net work of roads in the district and all the towns are connected with good roads and buses ply very frequently on these roads. Besides,

the district is also served by broad gauge and meter gauge railway. 7 towns of the 13 towns in the district are directly connected by railways of which the important are those connecting 1. Madras and Bombay 2. Renigunta to Guntur, 3. Madras to Bangalore, 4. Renigunta to Katpadi and 5. Renigunta to Dharmavaram. Renigunta and Pakala are railway junctions. In order to meet the increasing demand of passenger and goods traffic, modernisation of the present railways like converting the meter gauge into broad gauge, introducing high power traction using diesel engines, and improvement of road transport system and introducing long distance bus services also were taken up in the district.

None of the thirteen towns in the district is in the vicinity of any sea port or navigable rivers.

Statement III—Civic Finance

Since the introduction of the democratic decentralisation the popular institutions like panchayats have an important role in the various developmental programmes. The effective run of these institutions would depend naturally on the financial soundness, or otherwise of these institutions. The receipts from various sources of these municipalities and panchayats are presented under Cols. 3 to 8 and their total under Col. 9 The broad items of the expenditure are given under Cols. 10-15 with their total under Col. 16. It may be seen from the statement that revenue receipts of all the towns, except Punganur, Madanapalle, Tirupati Non-Municipal Town, Tirumalai, Renigunta and Sri Kalahasti are not adequate to meet their expenditure. The deficit in respect of Tirumalai and Sri Kalahasti is more while in respect of Punganur, Madanapalle, Tirupati Non-Municipal Town, and Renigunta is nominal.

Statement IV—Civic and other Amenities in Towns

The various amenities being provided to the citizens by the civic administration in the towns are given in this statement under 16 columns. Particulars are given in respect of internal road facility, the existence of drainage system, protected water supply, the availability of fire fighting services, electrification (domestic, industrial and commercial) and road lighting services and 'others'.

The method of disposal of night soil recorded under Col. 8 will indicate the extent to which the objective of avoiding the practice of removing the night soil by means of 'head loads' and minimising the human labour in this regard has been achieved so far.

All the 13 towns have open surface drains. Sewerage system also exists to some extent in Chittoor, Madanapalle, Tirupati (Non-Municipal Area), Tirumalai, Renigunta, Sri Kalahasthi and Puttur. The facility of either the water borne or service latrines are available in all the 13 towns and the bucket system seems to be the chief practice of removing the night soil but in a few towns *viz.*, Chittoor, Kuppam, Punganur, Pakala and Tirupati (Non-Municipal Area) the wheel borrows are used or the septic tank system prevails.

Protected water supply which is the primary responsibility of the civic administration of the towns, is reported to be available only in Chittoor, Kuppam, Tirupati, Tirumalai, Renigunta, Pakala, Sri Kalahasti, Puttur and Nagari. Fire fighting service facility is available in four towns only *viz.*, Chittoor, Madanapalle, Tirupati and Sri Kalahasti. Electricity is available in all the 13 towns.

Statement V—Medical, Educational, Recreational and Cultural Facilities

Medical, Educational, Recreational and Cultural facilities available in the towns are given in this statement under 17 columns.

Medical facilities

The types of medical institutions with their number within brackets and the total bed strength of each eategory available in each town are shown under Cols. 3 and 4 respectively. The following abbreviations are used under column 3 to show the type of medical facilities available in the town.

H	...	Hospital
D	...	Dispensary
Mcw	...	Maternity and Child Welfare Centre
Fpc	...	Family Planning Clinic
NH	...	Nursing Home

All the 13 towns in the district together have 56 medical institutions which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, Family Planning Clinics, Nursing Homes, *etc.*, of which the district headquarters hospital at Chittoor, the Ruia Hospital at Tirupati, the Rajkumari Amrit Kaur Tuberculosis Hospital and the Mary Lott Lyles Hospital at Madanapalle are well equipped and attract patients from long distances. Puttur has reputation for Bone Setting by indegenous methods. The total bed strength available in all the 56 institutions

is 1,818 catering the needs of entire urban population of 307,454 persons in the district. Thus there are about 6 beds for every 1,000 urban population in the district. Chittoor, Madanapalle, Tirupati (M) and Tirupati (N.M) towns are better placed compared to other towns, with a bed strength of 260, 410, 500 and 500 respectively.

Educational Facilities

Particulars of various academic and professional institutions available in the towns are presented under Cols. 5 to 13. The number shown in brackets is the number of institutions available in the category.

The following abbreviations are used to indicate the type of educational facility available in the town.

A	:	Arts College
AS	:	Arts and Science College
AC	:	Arts and Commerce College
ASC	:	Arts, Science and Commerce College
SH	:	Shorthand Institution
TW	:	Typewriting Institution

Prior to 1951 this district was lagging beind in collegiate education. After the setting up of Sri Venkateswara University in 1954 the district has made considerable progress in collegiate education also.

There are at present eight colleges in this district of which two colleges, one at Madanapalle and another at Tirupati impart instruction in Arts, Science and Commerce subjects. Four colleges impart instruction in Arts and Science subjects only and located in Chittoor, Tirupati (M), Tirupati (N.M) and Sri Kalahasti; two colleges imparting instructions in Arts and Commerce are located at Kuppam and Puttur towns. Colleges teaching Medicine, Engineering, Veterinary Science, Agricultural, Home Sciences are also located in the Sri Venkateswara University campus in Tirupati (N.M). Tirupati is also renowned to be a seat of Sanskrit learning. Kendriya Sanskrit Parishad organised by the Union Ministry of Education is located in Tirupati. There is a Government Polytechnic in Tirupati. There are 20 type writing and 10 short-hand institutions in the district, the bulk of which are at Tirupati. Being the seat of Sri Venkateswara University, Tirupati occupies a unique place in collegiate education in the district as well as region.

There are 37 higher secondary or secondary schools, 20 middle or upper primary schools and 90 junior secondary or primary schools in the urban areas of the district. The following table shows the number of these institutions per 10,000 urban population in the district.

Name of Town	No. of schools for 10,000 population		
	Higher Secondary or Secondary	Middle	Junior Secondary and Primary
(1)	(2)	(3)	(4)
Chittoor	1.1	0.3	4.0
Palmaner	2.2	...	4.4
Kuppam	1.8	1.8	3.7
Punganur	1.6	...	3.3
Madanapalle	1.6	1.4	2.2
Tirupati (M)	0.8	0.8	2.3
Tirupati (N.M)	1.6	...	1.6
Tirumalai	0.8	...	0.8
Renigunta	1.2	...	2.3
Pakala	0.6	...	1.9
Sri Kalahasti	0.6	1.7	3.7
Puttur	1.7	...	2.5
Nagari	0.3	...	0.3
District urban average	**1.2**	**0.7**	**2.9**

Regarding the recreational and cultural aspect, the position in the district is quite encouraging as there are 31 cinema halls, 3 auditoria, 1 stadium and 38 reading rooms including libraries in all the 13 towns together.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement, data on trade, commerce, industry and banking facilities available in each town are given under fifteen columns. Under columns 3 to 5 the three most important commodies imported into the town are given while under columns 6 to 8 the three most important commodities exported from the town are given. Under columns 9 to 11 the three most important articles manufactured in the town are given. Columns 12 to 14 are devoted to present the banking and co-operative credit facilities available in the town.

The three most important commodities under imports, exports and manufature were decided in terms of the estimated volume of the commodities transacted and in terms of the volume of total output of the commodities concerned respectively in each of the towns and not on the basis of the value. However, the uniqueness of town which exhibited special characteristics in the spheres of either industry or manufacture or mining *etc.*, has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the

other commodities in sheer terms of their estimated volume of transaction.

Chittoor district is generally a dry tract largely containing red soils which lack moisture holding capacity. There are very few dependable irrigation sources. Tanks and wells are the main sources of irrigation which are dependant on rain. Parts of the district are therefore exposed to famine during the drought years. The chief food crops of the district are rice, ragi and bajra of which rice predominates. Though crops under pulses are not grown to a significant extent in the district, horsegram is important among them. Among the commercial crops, groundnut, sugarcane and tamarind are important crops but groundnut is predominant among them. The district has also some mineral wealth such as iron ore, building stones, road metal, moulding sand, *etc.*

IMPORTS

The principal imports into the distrct are rice, pulses, sugar, chemical fertilisers, mill cloith of various types including teryene and terylene, electrial goods and agricultural machinery and equipment.

EXPORTS

The important commodities exported from this district are groundnut, mangoes, jaggary, tamarind, wigs, brass and bronze vessels, toys, slates, confectionery. Sandal wood oil and polished granite which are exported mostly from Kuppam earn foreign exchange of about Rs. 80 lakhs a year.

The district is industrially backward. There are not many large scale industries in the district. The textile mills at Renigunta, Tirupati, Madanapalle, the Moped factory with French colaboration at Tirupati which manufactures the light motor cycle known as 'Suvega' mopeds, the Co-operative Sugar Factory with an industrial plant utilising the molasses of the sugar factory and the Nutrine confectionary at Chittoor are the worth mentioning large scale manufacturing establishments in the district. There are many small scale industries in the district such as rice and oil mills all over the district, stone granite polishing units and sandal wood oil units at Kuppam, units relate to slate manufacturing, tyre-retrading, truck and body building, match and sewing thread mills at Chittoor, the brass and gun metal works at Sri Kalahasti and Tirupati tile manufacturing units at Palmaner and bone meal unit at Renigunta. There are a few cottage industries *viz.*, wig manufacturing and toy manufacturing at Tirupati, comb, beedi and bell metal manufacturing at Puttur and Sri Kalahasti and handloom weaving in Puttur, Nagari and Sri Kalahasti. The Kalamkari dyeing industry at Sri Kalahasti is a popular ancient known industry. The district is also provided with two assisted private industrial estates one at Chittoor and the other at Tirupati.

Chittoor, Nagari, Puttur, Tirupati, Madanapalle, Punganur, Kuppam are the chief commercial centres of the district with big wholesale and retail markets. A substantial volume of wholesale business of the district in jaggery, tamarind, groundnuts and sugar is transacted at these trading centres. Besides the commercial importance of some of these centres, they are also rapidly growing to be important industrial centres.

Banks play an important role in industry, trade and commerce particularly in mobilising the savings of the community and making them available for investment for productive activities. The district presents a fair picture in the field of banking since every town has one or more banks. In all, there are 36 banks, 5 agricultural credit societies and 25 non-agricultural credit societies in all the 13 towns together. Besides these banks there are also private financial corporations which have come up recently in good numbers particularly in Madanapalle and Tirupati towns to promote trade, commerce and industries.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes

The details of the population, as par 1971 Census count, by Religion, Scheduled Castes and Scheduled Tribe wtih sex break-up are shown for each of the towns in the district under columns 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement, while other religions which account for less than 10% of the total population of a town are grouped together and shown under the category *viz.*, "others" in columns 17 and 18. The Scheduled Castes, and Scheduled Tribes, population in a town are shown under columns 19–22. 20,617 persons are reported under Scheduled Castes in the urban areas of the district accounting for 5.2% of the total Scheduled Castes, population in the district, while only 4,421 persons are reported under Scheduled Tribes in the urban areas constituting 6.6% of the total Scheduled Tribes, population in the district.

The particulars presented in the statements II to VI are based on the data obtained from the Tahsildars and local bodies concenred and also from the concerned departments like medical, educational, electricity, *etc.*, while the particulars furnished in statement I and VII are based on the census data.

PART B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census on the following aspects is presented for each Revenue Village in respect of rural areas and for each Ward and Enumerator's Block of a town in urban areas.

1 Location Code No. and Name of the village/town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex breakup

4 Population of Scheduled Castes and Scheduled Tribes by sex breakup

5 Literate and educated persons by sex

6 Total workers and the breakup of the workers into nine categories and also the total non-workers by sex as shown below

Category I Cultivators

Category II Agricultural Labourers

Category III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied Activities

Category IV Mining and Quarrying.

Category V Manufacturing, Processing, Servicing and Repairs

(a) Household Industry

(b) Other than Household Industry

Category VI Construction

Category VII Trade and Commerce

Category VIII Transport, Storage and Communications

Category IX Other Services

Category X Non-Workers

A District Abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluks are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the Ward Number. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word "Rural" has been added in italics and in brackets after the name of the village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an Alphabetical List of Villages together with their Location Code Numbers are given. This Alphabetical List of Villages given in the P.C.A. facilitates the reader in locating the required Village and its Location Code Number and thereafter to know the Primary Census Abstract particulars. The taluk map showing all the villages and towns with their boundaries given in the Village Directory facilitates the location of the required village/town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in 38 Cols. of the Primary Census Abstract relate to all persons alive at sunrise on 1st April, 1971 and were present within the territory of Chittoor district whether they lived in normal residential houses or in institutions, such as hospitals, hostels, asylums, boarding houses, hotels *etc.*, or whether they were merely houseless persons like the wandering tribes, tramps, pavement dwellers, or those living in boats *etc.* They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of Chittoor district as on 1st April, 1971 recorded at the Census enumeration is as follows:

	Total	Rural	Urban
Persons	2,285,536	1,978,082	307,454
Males	1,166,232	1,007,241	158,991
Females	1,119,304	970,841	148,463

The criteria adopted for classifying a place as rural or urban and the concepts of Urban Agglomeration and Standard Urban Area have already been explained at the beginning of this volume.

Columns 1 and 2 of the Primary Census Abstract indicate the Location Code Number and name of the village or town concerned. In respect of towns the Ward/Block/Locality numbers and the Enumerator's Block numbers are indicated under Col. 2.

Location Code is the method by which every village and town in a taluk in every district of a State is identified. Each district in this State has been given a separate code number, serially numbering the districts in a clock-wise order starting from Srikakulam district and ending with Nalgonda district. Chittoor district, in this process, is assigned Location Code No. 9. Within in each district the taluks had similarly been allotted Location Code Numbers, the taluk in which the district headquarters lies being allotted Location Code No. 1 and the other taluks are numbered in a clock-wise order. The revenue villages within each taluk are assigned separate serial numbers starting from the north-western corner of the taluk and ending with the south-eastern corner in a serpentine order. All the towns within a district were assigned Location Code Nos. in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk location code numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located is assigned Location Code No. first and then the other towns in the taluk in a clock-wise order. The Location Code Nos. of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under Col. 3 the area of each of the villages and towns is given in square miles based on the information furnished by the State Central Survey Office, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "NA". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills *etc.*, within the taluk, the area of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under Col. 4 the total number of occupied residential houses in each village and in each Ward and Enumerator's Block of a town are given. These figures include those of partly residential houses also but not of the completely non-residential houses. The total number of households including houseless households and institutional households is given under Col 5.

The total population including houseless and institutional population with sex breakup is given under Cols. 6 to 8.

Under Cols. 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I and Schedule II respectively of the Scheduled Castes and Scheduled Tribes Lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. The list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given below.

LIST OF SCHEDULED CASTES AND SCHEDULED TRIBES IN ANDHRA PRADESH

SCHEDULED CASTES

I. Throughout the State

1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

II. Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano
10 Ghasi, Haddi or Relli, Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madar Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulvandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Mala Jangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

SCHEDULED TRIBES

I. Throughout the State

1 Chenchu or Chenchwar
2 Koya or Goud with its sub-sects–Rajah or Rasha Koyas, Lingadhari Koyas (ordinary), Kottu Koyas, Bhine Koya and Rajkoya.

II. Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia-Bentho Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya, Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora
15 Porja (Parangiperja)
16 Reddi Dhoras
17 Rona, Rena
18 Savaras, Kapu Savaras, Maliya Savaras or Khutto Savaras
19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Medak, Nizamabad, Karimnagar, Warangal, Khammam and Nalgonda.

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

IV. In the Agency tracts

1 Goudu (Goud)
2 Nayaks
3 Valmiki

The number of literate and educated persons is given under Cols. 13 and 14. A person who could both read and write any language with understanding was treated as a literate at the 1971 Census. A person who could merely read but could not write or *vice-versa* was not treated as a literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterate. The test for education was that the person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education

The details of Workers and Non-Workers are given under Cols. 15 to 38. At the 1971 Census the population has been broadly divided into two sections based on the main activity *viz.*, (1) Workers and (2) Non-Workers.

The definitions and concepts adopted in the economic classification of the population at the 1971 Census are explained below :

Worker : A 'Worker' was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A man or woman who was engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker, was not treated as a worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time attended to some household chores or attended a night school *etc.*, he or she was treated basically as a worker for the main activity and categorised accordingly.

A person who was working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference period : The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this had been returned as his main

activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike *etc.*, was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *e.g.* cultivation, livestock keeping, plantation work, some types of household industry *etc.* A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

Cultivator : For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner of lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, *etc.*, and pulses, raw jute and kindred fibre crops, cotton, *etc.*, and other crops such as sugarcane, groundnuts, tapioca, *etc.*, and does not include fruit growing, vegetable growing or keeping orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer : A person who worked in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He had no risk in the cultivation but he merely worked in another person's land for wages. The labourer had no right or lease or contract on land on which he worked.

Household Industry : For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, dairying, cycle repairing, blacksmithy, tailoring *etc.*, it was ascertained if it was a household industry.

A Household Industry was defined as an industry conducted by the Head of the household himself/ herself and/ or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. In the rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor, or barber, musician, dancer, waterman, dhobi, astrologer *etc.*, or merely trade or business, even if such profession, trade or services were run at home by members of household.

Some times it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. It was, therefore, enquired whether the person who was not working in his own household industry was working in any other Household Industry as an employee.

Other Workers : A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of 'Other Workers'. The type of workers that may come under the category of 'Other Workers' are factory workers, those working in trade or transport, all government servants, municipal employees, teachers, mining workers, political or social workers, building labourers *etc.* In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as 'Other Workers'.

According to the 1971 Census there were 429,922 residential houses and 452,480 households in Chittoor district compared to 373,653 residential houses and 382,051 households in 1961. Thus there were 1.1 households per residential house at 1971 compared to 1.0 households per residential house in 1961.

The total number of persons returned at the 1971 Census enumeration in Chittoor district was 2,285,536 as against 1,915,331 in 1961 Census recording an increase of 19.3% over the population of 1961. The proportion of rural and urban population to the total population in the district works out to 86.5% and 13.5% respectively in 1971 Census compared to 88.5% and 11.5% respectively in 1961. There were 960 females for every 1,000 males at the 1971 Census as against 957 females per 1,000 males in 1961 Census.

The number of literates and educated persons and the number of illiterates as per the 1961 and 1971 Censuses are given below.

NUMBER OF LITERATES AND EDUCATED PERSONS

Year	Number of Literates and Educated persons	No. of Illiterates	Percentage of Literates to Total Population of the dist.
1961	400,997	1,514,334	20.94
1971	580,590	1,704,946	25.40

It is observed that though there has been an increase in the proportion of literate persons to total population in 1971 compared to the population in 1961 the actual number of illiterates increased in 1971 inspite of the increased educational facilities. Actually 90% of the villages (vide village directory) have at least primary schools at present in the district.

The percentage of literates by sex for total, rural and urban areas in 1961 and 1971 in the district are given below.

PERCENTAGE OF LITERATES TO TOTAL POPULATION IN

	1961			1971		
	T	R	U	T	R	U
Persons	20.94	17.79	45.23	25.40	21.65	49.54
Males	31.58	28.06	58.40	35.95	32.09	60.46
Females	9.82	7.08	31.18	14.41	10.83	37.85

The higher proportion of literates in the urban areas is mainly due to the fact that urban areas have more educational facilities and several urban occupations require a minimum level of education so that a larger number of parents try to get their children educated, whereas the rural areas have relatively less educational facilities and the predominant rural occupation of Agriculture or Household Industry generally does not require the workers in these fields to be educated. Even boys and girls of school going age are required to work in the fields in the rural areas. It is significant to note that the proportion of female literates has gone up significantly during 1961-71 both in the rural and urban areas of the district. However about 90% of the females in the rural areas of the district are still illiterate.

939,387 workers were returned in 1971 as against 1,025,524 workers in the 1961 Census. Thus 41.1% of the total population were workers in 1971 as against 53.5% in 1961. The decrease in the number and proportion of working population in 1971 compared to that of 1961 Census is mainly due to the change in the definition adopted at the 1971 Census. In 1961 even marginal workers who spent most of their time basically as non-workers were treated as workers while in 1971 only those who were engaged for most of the time in productive work were treated as workers. A detailed analysis and comparision with 1961 of work participation rates is given in the Chapter on population in Part 'C' of the District Census Handbooks printed as a separate Volume.

The following table gives the percentage distribution of the working population by industrial categories in rural and urban areas and for males and females in Chittoor District.

PERCENTAGE DISTRIBUTION OF THE WORKING POPULATION

Category	Percentage of workers by category to total workers				
	Persons				
	Total	Rural	Urban	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)
I Cultivators	43.47	47.49	7.62	48.35	29.52
II Agricultural Labourers	33.81	36.40	10.77	25.41	57.87

Total	**100.00**	**100.00**	**100.00**	**100.00**	**100.00**

Cultivators and Agricultural labourers in the district form more than three fourths of the total workers in the district. Their proportion is as high as 83.89% of the total workers in the rural areas while it is only 18.39% in the urban areas.

Workers in 'other services' which includes State and Central Government Service, educational Services, religious and welfare services, local and business services, personal services etc. Constitute the second largest sector in which 6.29% of the total workers are engaged. The proportion of these workers is higher naturally in the urban areas the proportion being 22.75% as against 4.44% in the rural areas. Trade and Commerce takes the third place providing employment to 4.44 % of the total workers. The proportion of workers in other categories is less than 4% the proportion being less than 1% in mining and quarrying.

Male agricultural workers account for 73.76% of the total male workers in the district while the corresponding proportion for females is 87.39%. Generally a larger number of females than males work as agricultural labourers because several agricultural operations like sawing, weeding, harvesting *etc.* do not involve heavy manual labour. The female participation rates in all other industrial categories is low compared to the male participation rates.

Scheduled Castes and Scheduled Tribes

399,139 persons returned themselves as Scheduled Castes at the 1971 Census compared to 340,404 persons at the 1961 Census recording an increase of 18.34% over the Scheduled Castes population recorded at the 1961 Census. The Scheduled Castes population of the district in 1971 forms 6.91% of the total Scheduled Castes population of the State or 17.5% of the total population of the district. The proportion of Scheduled Castes population to total population of the district is relatively more compared to their proportion in the State *viz.*, 13.3%. About 95% of the Scheduled Castes population in the district reside in rural parts of the district as they generally are unable to find suitable employment in urban areas because many of them are illiterates.

66,801 persons (34,271 males and 32,530 females) returned themselves as Scheduled Tribes at 1971 against 50,836 persons at the 1961 Census recording an increase of 31.40% over the Scheduled Tribes population in 1961. The Scheduled Tribes population of the district in 1971 Census forms 4.03% of the total Scheduled Tribes population of the State or 2.92% of the total population of the district. The proportion of Scheduled Tribes population to the total population of the district is also relatively low compared to the corresponding proportion of 3.8% for the State. As in the case of Scheduled Castes population a large

section of Scheduled Tribes population *viz.*, about 93% of the total Scheduled Tribes population in the district reside in the rural parts of the district.

Detailed analysis of demographic data at the 1971 Census is given in Part-C of District Census Hand Book.

ALPHABETICAL LIST OF VILLAGES

SATYAVEDU TALUK

1971 Location Code No. (1)	Name of Village (2)
27	Agaram
26	Alapakam
51	Ambakam
78	Ambur
34	Appambattu
101	Appayapalem
94	Arudur
9	Arur
103	Arror
25	Athur
79	Ayyavaripalem
58	Baitakodiyambedu
63	Beerakuppam
12	Buchivantham
8	Chavarambakam
87	Chedulapakam
91	Chengambakam
100	Chervi
45	Chilamathuru @ Bangala
88	Chilamathur
108	Chinaeetivakam
96	Chinnapandur
111	Dalavai Agraharam
48	Dasukuppam
7	Elakatur
11A	Gangamambapuram
93	Gollavaripalem
83	Gudalavaripalem
19	Illathur
104	Irugulam
82	Isukapalem
15	Jagannadhapuram
8A	Kacharavedu
54	Kadirvedu
62	Kadivedu
73	Kadur
37	Kalanjevi
74	Kalathoor
13	Kalimbakam
71	Kambakam
114	Kannavaram
57	Karani
85	Karepakam
43	Karur @ Krishnagiri
1	Kavanur
4	Keelapudi
105	Kolladam
3	Koppedu Acharyula Khandriga
22	Kosalanagaram
109	Kothamarikuppam
17	Kothur Venkatapuram
70	Kovurpadu
38	Krishnapuram
10	Kuramarajulapalem
81	Kuvvakolli
115	Madanambedu
53	Madanamjeri
98	Madanapalem
23	Maharajapuram @ Pathur
102	Mallavaripalem
18	Mangalam
75	Marudavada
92	Mopurpalle
31	Mudiyur
39	Nagalapuram
110	Narasaraju Agraharam
29	Neervoy
84	Nellatur
76	Nelavoy
10A	Netturi
5	Nindra
