STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

District Census Hand-books for each of the 43 Districts in Madhya Pradesh

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking features. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

inconsistency even in case of these nineteen districts. Revision of Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy back-log of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker, etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary and irregular units of

area, carved out chiefly for revenue and administrative purposes, there are many revenue villages which do not have any habitation. They are not, therefore, of much demographic interest, and their inclusion in the Village Directory is only for a proper tally of area aggregates.

A—General Population Tables:

There are four main tables and three appendices in this series.

Table A-1.—This table presents the basic figures relating to area, houses and population separately for the rural and urban areas of each district, each tahsil, and for each city, towngroup or town. The area figures used in the table for the district and the tahsils are those furnished by the State Director of Land Records. In case of the district, the area figures furnished in 1962 by the Surveyor-General, India are also given. The Surveyor-General does not furnish area figures for tahsils. In case of cities and towns the area figures are furnished by the local urban authority (if any) in charge of the municipal administration, or by the local revenue authorities. Except in case of Raipur and Sagar districts, there is no agreement between the area figures for the district furnished by the Director of Land Records and the Surveyor-General, India. These differences arise principally from the differences in the methods adopted by the two agencies in measuring and computing the area.

In the case of eighteen districts (Bastar, Raipur, Durg, Raigarh, Bilaspur, Surguja, Balaghat, Seoni, Chhindwara, Mandla, Narsimhapur, Jabalpur, Sagar, Hoshangabad, Betul, East Nimar, Tikamgarh and Panna), only the district 'total' and 'rural' figures for area include the forest area; the figures for forest area were not available for individual tahsils in these districts, and hence the tahsilwise area figures for these districts do not include forest area. This fact is important particularly for appreciating the district and tahsil population density figures of these districts. The population density (*i.e.*, persons per square mile) given in column 4 of the table is calculated on the basis of the figures of area supplied by the State Directorate of Land Records.

Occupied Residential House.—This is a Census house which was actually occupied at the time of enumeration for residential purposes either partly or fully. The concept of 'Census house' together with the allied concepts of 'building' and 'household' are dealt with later in this note.

Town Group.—The introduction of the concept of "towngroup" is a new feature of the 1961 Census. One kind of 'towngroup' has its basis in what may be called demographic prognosis, this being that a particular group of towns is situated in such a way, and exhibits some interconnecting features of such a kind, that they can be considered a single demographic entity whose organic nature is likely to become more and more evident in the future. Examples are: Bhopal City with Bairagarh in the West and Heavy Electricals Township in the East; and Durg Town and Bhilai Industrial Township. The other type of towngroup is a group only in name in the sense that it represents a group of localities which geography unites but definition separates. Examples are Sagar Towngroup consisting of Sagar Municipality and Sagar Cantt., and Jabalpur Towngroup (consisting of Jabalpur Corporation, Jabalpur Cantt. and Khamaria). In both these instances, the urban complex is single and continuous, but as each corporation or cantonment is a separate town by definition, it gets split up in the Census into more than one town. In Madhya Pradesh there are six towngroups in all; three of them belong to the first type: Bhopal in Sehore District: Murwara in Jabalpur District and Durg in Durg District; the other three belong to the second type, Pachmarhi in Hoshangabad District, Sagar in Sagar District and Jabalpur in Jabalpur District.

Houseless & Institutional Population:—"Houseless population" means those who did not live and were not enumerated, in Census-houses at the last Census. Obviously these swell the ranks of the social destitutes who, to speak in every day parlance do not have even a roof over their heads, but live under the shade of trees or bridges or on pavements. "Institutional population" means the population that was enumerated in institutions at the last census *i.e.*, in hostels, jails, boarding houses, hospitals etc.

Class of Towns.—Towns are classified into six classes as below according to their population sizes:—

Class	*Population range*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000—9,999
VI	Below 5,000

Towns of Class I are also known as Cities.

"Status" of a town means the authority in charge of its local urban administration. Thus a town could have a Municipal Corporation; a Municipality, a Cantonment Board, a Gram Panchayat, a Town or Notified Area Committee, etc.

B—(*i*) *General Economic Tables.*—This series includes 22 tables containing information on certain economic aspects of the population. The concepts involved have undergone significant changes as compared with the 1951 and earlier Censuses. In the 1951 and earlier censuses or at any rate in the last few censuses income or economic independence (and dependence) were treated as the criteria for denoting the economic status of a person. Separate account used to be taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced in the 1931 Census. This consisted of the 'earning dependents' of the 1951 Census and even there the element of income was present. This income-based classification seems to have not infrequently resulted in a suppression of information relating to those who worked in household economic activities but did not actually earn any income like men other than the head of the household and women of the family or children working at the family cultivation or cottage industry but not earning any incomes. The 1961 Census introduced the concept of work and totally abandoned the 'income' approach. Thus all people who worked (*i.e.*, were "economically active") including family workers who were not in receipt of any income, & working children who did not earn enough for their maintenance were treated as workers. On the other hand such persons as a receiver of rents on immovable property, or of interest on securities deposited in a bank, and doing no other work, were treated as non-workers. Persons professionally engaged in anti-social activities (*i.e.*, thieves, robbers, prostitutes, beggars, etc.) were, however, not treated as workers. The approach to the concept of "work" was pragmatic and numerous illustrations were given to clarify the concept. The basis of work was held to be satisfied in the case of seasonal work *i.e.*, work at cultivation, livestock, dairying or household industry if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which he was visited by the Census enumerator. A person who was working but was absent from his work during those fifteen days or for a longer period owing to illness or other causes was treated as worker. Work included not only actual physical work but also effective supervision and direction of work.

The Working Categories:—The primary classification of the population is by means of a simple dichotomy into workers and non-workers. The former is further sub-divided into nine sub-classes or working categories of the Census. These are listed below; the correspondence with the Standard National Industrial Classification is also indicated.

	CENSUS WORKING CATEGORY	CORRESPONDING DIVISION OR MAJOR GROUP OR MINOR GROUP OF NIC
I	Workers in cultivation	Minor Groups 000, 001, 002, 003, 004,
II	Agricultural Labourers ...	The same as in I above
III	Workers in mining, quarrying, live-stock, forestry, fishing, hunting and plantations, orchards and allied activities	Major Groups 01, 02, 03 and 04 and Division 1; Minor Groups 005, 006, 007, 008, 009 (if not classifiable as household industry)
IV	Workers in household industry ...	Minor Groups 005 to 009, 013, 014, 015, 020 to 026, 031, 032, 040 to 048, 107, Divisions 2 & 3 (excepting Minor Groups 201, 217, 218, 232, 252, 260, 290, 324, 325, 338 and 380) if on a household scale
V	Workers in manufacturing other than household industry ...	Divisions 2 & 3
VI	Workers in construction ...	Division 4
VII	Workers in Trade and Commerce ...	Division 6
VIII	Workers in Transport Storage and Communications ...	Division 7
IX	Workers in other services ..	Divisions 5, 8 & 9

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division 0—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating, (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukuric, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and allied services such as processing editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately described:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	**999**

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(Code Structure)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers*:

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 Jurists:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering Technicians, n.e.c.
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X3 Librarians, Archivists and Related Workers
- 0X4 Geographers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.

1 *Administrative, Executive and Managerial Workers*:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers*:

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413 Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers, n.e.c.

5 *Mines, Quarrymen and Related Workers*:

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers, and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers

793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-lithographers
806 Engravers, Etchers & Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
810 Furnacemen, Kilnmen and Ovenmen
811 Potters, and Related Clay Formers
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
821 Crushers and Pressers, Oil Seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
824 Bakers, Confectioners, Candy and Sweetmeat Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

† Area figures furnished by the State Survey Department.

INTRODUCING THE DISTRICT

by

K. S. Bhatnagar

Deputy Superintendent of Census Operations, Madhya Pradesh

The District

The constituent units of the district were the following States. The table below gives the area of these constituents in 1941.

Bundelkhand Agency	Area in 1941
1 Alipura	73 sq. miles
2 Chhatarpur	1,170 sq. miles
3 Charkhari	785 sq. miles
4 Bijawar	980 sq. miles
5 Garrauli	39 sq. miles
6 Gaurihar	72 sq. miles
7 Lugasi	45 sq. miles
8 Naigawan Rebai	12 sq. miles
Total	3,176 sq. miles

The other details regarding the above States are :—

1. Alipura

Alipura was a small Sanad State whose chief belonged to the Parihar clan of the Agnikula Rajputs. The main town Alipura is situated on Harpalpur-Nowgong road. The State dated back to 1708, when Ali Bahadur the Nawab of Banda acquired Bundelkhand and confirmed Dewan Pratap Singh in the Jagir. Dewan Pratap Singh named the town Alipura in honour of his suzerain, the Nawab of Banda. In 1808 the British recognised his possession and gave him a Sanad. Thus it continued as a Sanad State upto its merger in Vindhya Pradesh.

2. Chhatarpur

The State was founded by Kunwar Sone Shah Ponwar during the later part of XVIII century. Kunwar Sone Shah was a retainer of Raja Hindupat of Panna, whose death in 1777 occasioned chaos. In this chaos, Sone Shah siezed the jagir in 1785 and thereafter added more areas to his territories. In 1800 he became a tributary to Nawab Ali Bahadur of Banda. When the British became supreme in Bundelkhand he was recognised and given a Sanad in 1806. Thus Chhatarpur became a Sanad State. In 1896 the present title of Maharaja was bestowed on the then ruler Vishwanath Singh. The title became hereditary and the ruler enjoyed the distinction of a salute of eleven guns.

Chhatarpur, the chief town of the State, is named after Chhatrasal of Panna who founded it in 1707. The British in 1806 reserved the town of Chhatarpur for themselves but two years later restored it. The State continued under the Bundelkhand Agency during the British regime, till its merger with Vindhya Pradesh in April 1948.

3. Charkhari

Charkhari was a small Sanad State in the Bundelkhand Agency. The State was found in 1765. Chhatrasal the ruler of Panna divided his territories into several portions In 1804 the British gave the ruler a Sanad, for the chief was the first Bundela to come to terms with the English. The chief also remained loyal to the British The State was finally merged in to Vindhya Pradesh in April 1948. Out of the villages in the State, 91 villages constituting an area of 198.28 sq. miles were merged into Uttar Pradesh and the others with Madhya Pradesh.

4. Bijawar

Bijawar was a Sanad State under the Bundelkhand Agency. The State is named after its founder Bijai Singh one of the Gond chieftains of Garha Mandla. Raja Keshri Singh, professed his allegiance to the British when they became the supreme power. The British in turn granted a Sanad in 1811, and a hereditary title of Maharaja in 1866; the prefix of Sawai was awarded in 1877.

Bijawar town is about 1,200 feet above sea level.

5. Garrauli

Garrauli was a petty Sanad State under the Bundelkhand Agency. The jagir was recognised by a Sanad granted by the British in 1812, to Dewan Gopal Singh Bundela, who descended from Orchha family. Gopal Singh was one of the most daring fighters and surrendered to the British only when he realised the utter hopelessness of further resistance. The main town Garrauli is situated on the right bank of the Dhasan about 5 miles away from Nowgong.

6. Gaurihar

Gaurihar was a petty Sanad State in the Bundelkhand Agency. It was ruled by the Jijotia Brahmins. The British made a grant in 1807 and the local chief remained loyal to tne British in 1857–58 for which he was given a Khillat of Rs. 10,000. The main town is Gaurihar.

7. Lugasi

Lugasi was a petty Sanad State under the Bundelkhand Agency, The original grant was made to Dewan Salim Singh an adopted son of Hirde Shah, son of Chhatrasal of Panna. The British gave a Sanad to the son of Salim Singh in 1808. In 1857 the State was laid waste by anti-British elements. The chief was later rewarded by the British. The main town is Lugasi which is situated on the Nowgong-Banda road.

8. Naigawan Rebai

Naigawan Rebai was a petty State in the Bundelkhand Agency. The Jagirdar was an Ahir by caste The jagir was formerly included in the Jaitpur State, which lapsed in 1849. Naigawan was the main town and the headquarters later shifted to Rebai about 18 miles north of Nowgong.

Flora and Fauna

Flora

The following trees are more commonly met with:—

Achar (*Buchanaia latifolia*), *am* (*Mangifera indica*), *babul* (*Acacia arabica*), *bahera* (*Terminalia balerica*), *bans* (*Dendrocalamus strictus*), *bel* (*Aegle marmelos*), *ber* (*Zizyphus jujuba*), *bihi* (*Psydium guava*), *bija* (*Pterocarpus maruspium*), *chhola or dhak* (*Butea frondosa*), *dhawa* (*Anogeissus latifolia*), *ghont* (*Zizyphus xylopera*), *imli* (*Tamarindus indica*), *jamun* (*Eugenia jambolana*), *khair* (*Acacia catechu*), *mahua* (*Madhuca indica*), *nim* (*Melia indica*), *pipal* (*Ficus religiosa*) *reonja* (*Acacia leucophlea*), *sagon or teak* (*Tectona grandis*), *salai* (*Boswellia serrata*), *tendu* (*Diosypyros melanoxylon*). The above trees provide timber, fruits and fuel.

Fauna

The jungle does not afford cover to the larger species of animals and is mostly of the scrub type. Tigers are therefore rare. Among other animals the following ones:-panther, hynae, black-bucks, rusadeer, *cheetal, bherki, neelgai, chinkara* and wild boars, jackals, and foxes are found. Black-buck is becoming rare. Among domestic animals, bullocks, buffalos, cows, donkeys are common. A very sturdy variety of bullocks is the Ken breed which is very sturdy and is able to live on little fodder. It is found along the banks of the Ken river and used in plough. In the rivers and tanks the following varieties of fishes are found:—*rohu, patola, chal, jhalar and louch.* Crocodiles are also found in the two rivers.

Climate

The climate is generally of the dry type and is subject to extremes. The winter commences with the advent of November and usually lasts till about the beginning of March. During the last decade the observatory at Nowgong recorded a lowest temperature of 0.6° C in January 1954. The mean minimum temperature in December and January varied between 6.2 C and 9.1 C. The months of May and June are the hottest and the highest temperature of 46.7 C has been recorded on a few occasions in these months. The highest rainfall during the decade was in 1959 when 1,443.7 mm. was recorded at Chhatarpur, In 1955 there were 67 rainy days the highest during the decade. The average of the rainfall during the decade is 1137.4 mms. There is a meteorological station at Nowgong.

Forests †

At the beginning of the twentieth century, Luard wrote* :—

"The forests of the State are not very valuable. Such as they are, however, they are divided into three classes. The first class comprises timber trees, such as sagon or teak, soja, tendu, saj, etc.; the second class, mahua, achar, khair, pipal and jamun chiefly used for their fruit; and the third class, less valuable trees, such as ber, makor, ghont etc."

The above classification seems to hold good even now. They have been classified into three categories corresponding to the above : —

(1) Dry mixed forests, (2) Mixed forests and (3) Scrub types.

(1) Dry Mixed Forests ;—

In which teak is found which is a main feature of the Buxwaha and Malehra Ranges and contributes about 1/3rd of the revenue of this division.

(2) Mixed Forests ;—

Such forests occur in patches in which 20 to 25% is poor quality teak together with bamboos. The general forest produce of this division is teak, bamboo and khair out of which teak and khair are the main sources of revenue from trees.

Tendu leaves used for the manufacture of bidis are found in abundance in this division which is one of the main tendu leaf producing divisions in Madhya Pradesh. Last year a revenue of Rs. 4 lakhs was realised from tendu leaves by auction to contractors. Consequent to nationalization of the tendu leaf trade the revenue rose to Rs. 10 lakhs during the current year. Tendu leaves offer good prospects of raising the forest revenue in the years to come.

(3) Scrub Forests ;—

These have no tree species worth the name and contain karonda. dava, jharberi and makoh ghont etc.

Tendu leaves used in manufacture of bidis are in abundance. The revenue realised has been going up in the last few years.

The forest is mainly exploited for timber and fuel and minor produce being gum, honey, horn and bones. The total revenue of the forests in the district was about 9 lakhs, but has been going up.

Hills

In the southern part of the district hills which form the Vindhyan ranges run from east to west and attain an average height of 1,600' feet above sea level. The highest point is 1,910' above sea level near Chandanpura in Bijawar tahasil, which is covered with hills and woods. Only the area north of Bijawar is plain, the elevation varies from 1,000' to 1,200' feet above sea level. Most of the area in Chhatarpur tahsil is plain and although scattered hills are met with, the elevation is somewhat less. The terrain slopes towards the east where the Ken flows an about 28 miles from Chhatarpur (distance as the crow flies) and there is a drop of nearly 500 feet. Tahsil Laundi is situated in the plains. The banks of the river Kail, Kusiar, and Lohori appear heavily eroded, (The ground is thus mostly broken and appears rough). This also poses a threat of soil erosion and ravine formation.

The Main Rivers

The Ken

This river forms the eastern border of the district with Panna. It flows north in the district, taking a sweep towards the east and enters Banda district in Uttar Pradesh from the south finally joining the Yamuna near Chilla village in Banda district. Both the banks of the river in Bijawar

---

† Based on a note from Divisional forest officer Chhatarpur.

* The Central India State Gazetteer Series, Chhatarpur State Gazetteer, 1907, by Capt. C. E. Luard, P. 23.

tahsil, are heavily wooded. The river is perennial but not navigable, and while passing through Bijawar tahsil, there are many falls and rapids. The benefits of irrigation from waters of the Ken however mostly go to Banda district

Tradition and Legend

'There is a tragic legend associated with the name of the river. The field of an old Ahir was at the foot of a hill, from whence gushed forth a stream. All efforts to dam the stream proved futile. So he consulted a Brahmin who advised him to offer a human sacrifice. It so happened that the daughter of this Ahir was in love with a Kurmi youth and the old man suspected an intimacy between the two. In a fit of rage the old man killed the Kurmi youth and buried the body underneath the dam. The lovelorn daughter ran to the spot protesting her innocence and praying to see her lover. The stream then burst disclosed the lover but swept the dead and the living the two lovers along. The Ahir was a resident of Panna State and even now before launching a boat in the Ken, the boatsmen offer glass bangles and *mahawar* to propitiate the river-lest evil may over-take them. There is another interesting legend about the river Ken. It appears that there was some dispute regarding the division of certain islands appearing within the river. The dispute related to Chhatarpur, Panna and Ajaigarh State and was resolved by floating a ('diya') lighted lamp down the river. All island to the west of the lamp were taken by Chhatarpur and those to the East by Panna and Ajaigarh States.

The Dhasan

The river forms the western boundary of the district and flowing north finally joins the Betwa. The irrigation benefits from Dhasan however go to Uttar Pradesh.

The Smaller Rivers

Among the lesser rivers the tributaries of the Dhasan are the Kutni, the Mangrar, the Bachneri, and the Tarper. They mostly flow in the north-western direction. The following rivers are the tributaries of the river Ken-Urmal, Kutni, Khurar, Barana, Syamri, Kail and Kusiar.

II

THE ADMINISTRATIVE SET UP

The representation of the district in the Parliament and the State Legislature

Parliament

Khajuraho Parliamentary Constituency covers a major portion of the district, the remaining being tagged on the Scheduled Constituency of Tikamgarh. The details are reproduced from the Delimitation of Parliamentary and Assembly Constituencies Order, 1961 VI Madhya Pradesh :—

Parliamentary Constituencies

S. No. and name of Constituency.	Extent in terms of Assembly Constituencies.
1	2
5 Tikamgarh (SC)	(20) Seondha, (21) Datia, (32) Niwari, (33) Lidhaura, (34) Jatara, (35) Tikamgarh, (36) Malehra, (37) Bijawar.
9 Khajuraho	(38) Chhatarpur, (39) Maharajpur, (40) Laundi, (41) Panna, (42) Devendranagar (Panna), (43) Pawai (Panna), (47) Unchera (Satna), (48) Satna.

Constituencies at Serial Nos. 36, 37, 38, 39 and 40 are from Chhatarpur district.

The State Legislature

For the State Legislature the district returns five members from the above Constituencies. Two of these are reserved for Scheduled Castes and other details are :—

Assembly Constituencies

S. No. and name of Constituency.	Extent in terms of Assembly Constituencies
1	2
36 Malehra (SC)	Malehra, Ghora and Buxwaha R. I. Circles and Bokna,

		Gulganj, Angor, Bhartoli. Deoran, Nayatal, Mankari, Andhyara and Mankhera patwari circles in Bijawar R. I. C. in Bijawar Tahsil.
37	Bijawar	Deora R. I. C. and Bijawar R. I. C. (excluding Bokna, Gulganj, Angor, Bhartoli, Deoran, Nayatal, Mankari, Andhyara and Mankhera patwari circles) in Bijawar tahsil; and Isanagar R. I. C. and Nowgong R. I. C. (excluding Naigawan, Thatha, ora, Nowgong and Bilchri patwari circles) in Chhatarpur tahsil.
38	Chhatarpur	Chhatarpur, Basari and Chandranagar R. I. Circles, Bangaon, Kalani and Damchi patwari circles in Maharajpur R. I. C. in Chhatarpur tahsil.
39	Maharajpur (SC)	Rajnagar R. I. C., Maharajpur R. I. C. (excluding Bari and Niwari patwari circles), Lugasi R. I. C. (excluding Bangaon, Kalani, and Damchi patwari circles) and Naigawan, Thatheora, Nowgong and Bilchri patwari circles in Nowgong R. I. C. in Chhatarpur tahsil.
40	Laundi	Laundi tahsil.

The District Administration

The administration is headed by the Collector, who is also the District Magistrate in which capacity he is responsible for the maintenance of law and order. The Judiciary headed by the District and Sessions Judge Stationed at Chhatarpur is independent of the Executive. The Judiciary had all along been separate. The Collector is also the Chief Revenue Authority in the district and in this work, he is assisted by four Deputy Collectors, who are members of the State Civil Service all posted at the district headquarters. Two of these officers are also Sub Divisional Magistrates and as such assist the Collector in law and order problems. The other two are his general assistants dealing with development works and other matters. A Tahsildar assisted by one Naib Tahsildar is posted at the tahsil headquarters.

Revenue Administration in Retrospect

The following extracts regarding Revenue Administration are reproduced from the Imperial Gezetteer of India, 1908 for Chhatarpur, Charkhari and Bijawar States. For other States none are available.

Chhatarpur State

"No regular revenue settlement has been made. Most of the land is periodically leased out village by village to farmers, who are responsible for the revenue. The State has in such cases no direct concern with the cultivators, who make their own terms with the farmers, the Darbar, however, reserving the right to intervene in cases of oppression." (pp. 201 Vol. X).

Charkhari State

"The rates are fixed in accordance with the quality of the soil, a higher rate being levied from irrigated land." (pp. 179 Vol. X).

Bijawar State

"Until 1902 these were held on feudal tenure (*zabta*) under which each land-holder was bound when called on to provide a certain quota of men and horses. In 1902 this tenure was commuted to a cash tribute." (pp. 191 Vol. VIII).

Revenue Administration—The Present Set-up

The Collector assisted by Sub-Divisional Officers exercises complete supervisory control over the Land Records staff. He is thus responsible for the maintenance of the village records, for the collection of the land revenue and depositing the same in the treasury. In this capacity he also hears revenue cases both in original and appellate capacity. In the above task the staff of patwaris and Revenue Inspectors assist him. The collection of land revenue is

through the agency of Patel or village head-man who is paid remuneration on the following scale: —

Table showing remuneration paid to Patel.

Land Revenue & Miscellaneous Collected

		Rates
1	On the first Rs. 1,500	6 p in the rupee
2	On the second Rs. 1,500	4 p in the rupee
3	On the third Rs. 1,500	3 p in the rupee
4	On the fourth Rs. 1,500	2 p in the rupee
5	For the balance exceeding Rs. 6,000	1 p in the rupee

Provided that the annual remuneration of any patel in respect of any village shall not be less than Rs. 36.00. The remuneration is paid from the treasury once each year. As a measure of reform, panchayats have been given the powers for collecting land Revenue.

In the erstwhile States village head-men were appointed and were responsible for the collection of land revenues. The present composition of the district in terms of the former States is as follows:—

Chhatarpur Tahsil

Total number of villages 427 and (4 towns)

S. No.	Break-up of the above unit	No. of villages	Remarks
1	Bundelkhand group	275	Settlement expires in 1965-66
2	Chhatarpur State villages.	135	Settlement expired but continues as per Sec. 84 of the Madhya Pradesh Land Revenue Code 1959.
3	Panna State villages (on fromation of V. P.)	12	
4	Garrauli State villages (on formation of V. P.)	8	
5	Hamirpur District (U. P.)	1	(including the towns)
	Total	431	

Bijawar Tahsil

S. No.	Break-up of the above unit	No. of villages	Remarks
1	Villages of Chhatarpur State	44	Settlement expired but continues as per Sec. 84 of the Madhya Pradesh Land Revenue Code 1959.
2	Villages of Panna State.	189	
3	Villages of Sagar District.	3	
4	Villages of Bijawar State.	235	Settlement expires in 1965-66
	(Bundelkhad Group)	471	

Laundi Tahsil

Total number of villages—312

S. No.	Break-up of the above unit	No. of villages	Remarks.
1	Villages from Chhatarpur State.	65	Settlement expired but covered by Sec. 84 of the Madhya Pradesh Land Revenue Code 1959.
2	Villages from Panna State.	8	
3	Villages from Gaurihar State.	15	
4	Villages from Uttar Pradesh.	4	
5	Laundi Tahsil (Bundelkhand Group)	220	Settlement expires in 1965-66.
		312	

The Bundelkhand Group Villages

The Revenue Settlement of the villages is as under :—

S. No.	Unit	Year of Settlement	Nnmber of villages
1	Chhatarpur	1939-40	240
2	Panna	1916	209
3	Gaurihar	1925	15

4	Uttar Pradesh	1905-06	5
5	Garrauli State	1906-07	8
6	Sagar District (C. P.)	1913-16 1935-36	3
7	Bundelkhand Group	1943-44	730
		Total	1,210

The details of the above are:—all areas of the district excepting the Panna and Chhatarpur portions were settled in 1943–44. In Chhatarpur State the Settlement was done by Shri L. R. S. Singh I. C. S., in 1939–40 and finally Panna State was settled in 1916.

Soils

There are mainly four types of soils in the district *viz. Mar, Kabar Padua and Rankar. Mar* is loamy black soil, retains moisture and is very fertile. *Kabar* is like *mar*, lighter in colour and fertility. *Padua* is a lighter type lacking in organic matter and *Rankar* is reddish coloured, very light consisting of gravel and the least fertile of the lot. This constitutes nearly sixty percent of the total area and is responsible for the backwardness in cultivation.

Revenue Sub-Divisions

The three tahsils are further divided into 19 Revenue Inspector's Circles and 370 patwari circles, the details being :—

S. No.	Name of the Tahsil.	Revenue Inspector's Circles.	Patwari Circles
1	Chhatarpur	8	178
2	Laundi	6	98
3	Bijawar	5	94

The Police Department

The Superintendent of Police is the head of the police administration in the district. He is assisted by four Deputy/Assistant Superintendents who are gazetted officers. Besides the above officers the strength of the police force in 1960-61 was :—

Inspectors Sub-Inspectors.	Assistant Sub-Inspectors.	Head Constables	Constables	Total
56	4	120	643	823

This gives one police-man for 4 sq. miles, or 714 persons. The force is spread over 20 police stations and 11 out-posts-their tahsilwise break-up being :—

Tahsil	Police Stations	out-posts
Bijawar	8	4
Chhatarpur	7	4
Laundi	5	3

Besides the above, detachments of Special Armed Force (S. A F.) are deployed all over the district to curb the dacoity menace. Dacoity has been an old problem in the district.

The Problem of Dacoity

The Thagi of yester years is the dacoity of to-day-a legacy of the past-a tradition which has survived despite the changing times. It was in these regions that the Thugs of Central India operated and even the powerful British administration could not entirely free the area of this menace. During the times of the princely States the problem continued although it was not so acute This was so, not because dacoits were few, but because these States were not bothered about the offences committed in the jurisdictions of their neighbours and as long as a particular State was free, they did not view these gangs adversely.

With the abolition of the princely States, consequent to the formation of the Vindhya Pradesh in 1948, the problem began to appear in greater dimensions It was then that regular efforts were made to eliminate the gangs and for sometime a special D. I. G. was deputed for this purpose Units of the Central Reserve Police were also stationed in Chhatarpur for dealing with this situation. The efforts were renewed on the formation of the new State, and from time to time although important gangs had

been eliminated, yet newer one cropped up and at no time has the district been ever free from this menace In the Rewa division, Chhatarpur is mainly affected by this problem though Tikamgarh and Panna are also to a lesser extent affected by dacoity. The dacoit gangs also operate in the neighbouring districts of Sagar and Damoh of Madhya Pradesh and Jhansi of Uttar Pradesh. With a past tradition for lawlessness and suitable background, provided by inter state boundaries, the menance has continued to defy all attempts so far.

Some Important Gangs

The most important gang in this region was that of Devi Singh who was eliminated by the U. P. Police in 1962. After Devi Singh was killed, Pooran Singh assumed its leadership, and this gang mainly operates in Sagar and Jhansi districts. In a recent encounter in 1964 two members of the gang, Majboot Singh and Bhagwant Singh, were shot. The gang of Moorat Singh, is also a successor to Devi Singh's gang and operates mainly in Chhatarpur, Damoh and Panna districts. This gang has been operating for over twenty years now and seems to be going strong despite the police pressure.

The gang of Hardeo Singh operates mostly in Chhatarpur district and sometimes on the borders of Tikamgarh and Sagar districts. It his been eliminated by the Sagar Police in the year 1964 in an encounter near village Nainagir (Police Station Buxwaha of Chhatarpur district). Another gang that has been eliminated in the year 1964 is the gang of Galiyan Sonr. Another important gang which was liquidated in the year 1964 was that of Pajan Singh who was responsible for many dacoities, murders and nose-choppings. In one encounter with Daulata Khangar, two S. A. F. constables were killed in village Sargawan (Police Station Malehra) The gang was later smashed by the police. The following dacoits were eliminated in the year 1964.

(i) Karna Khangar (gang: Daulta Khangar);
(ii) Ghasita Sonr (gang: Moorat Singh);
(iii) Galiyan Sonr (gang: Galiyan Sonr-leader)
(iv) Bhagwant Singh (gang : Pooran Singh);
(v) Uttam Singh (gang: Pajan Singh);
(vi) Dhokal Singh (gang : Moorat Singh);
(vii) Pajan Singh (gang: Pajan Singh-Leader) and
(viii) Lallu Musalman (gang: Pajan Singh).

Statistics and Crime

The table below gives the statistics of crime :—

Table—Showing Incidence of Crime.

	Crime	1951	52	53	54	55	56	57	58	59	60	61	62	63	64
1	Murder	17	19	21	28	25	30	26	41	34	23	33	45	31	44
2	Dacoity	31	21	23	33	37	36	35	42	28	17	18	20	33	19
3	Robbery	44	26	20	44	37	51	45	61	65	26	29	39	43	46
4	Riot	23	12	8	25	14	19	19	20	19	17	37	23	36	26
5	Burglary	288	262	231	236	132	191	191	227	216	239	260	305	278	285
6	Kidnapping	5	5	8	4	3	9	5	13	7	7	9	13	16	10
7	Abduction						NIL								
	Dacoits														
1	Arrested	42	1	15	58	25	88	38	85	109	37	50	44	85	64*
2	Shot dead	1	..	...	6	8	7	7	15	11	8	1	6	5	10
3	Surrendered	...	...	...	...	..	1	...	...	...	...	...	...	...	...

*12 dacoits of listed and 52 of local gangs.

It reveals that the incidence of murder is fairly high. As against seventeen murders in 1951, there were 30 in 1956 and 33 in 1961 which exhibit an increase in the offence. The number of dacoities, however, shows a slight decline. Among other offences, a notable feature is kidnapping which again seems to be going up. It has been observed that kidnapping for ransom is becoming very popular with the dacoits. The table showing the number of dacoits arrested, shot-down or who surrendered indicates a very high number of arrests in 1959 and a corresponding fall in the following year. But there after the number of dacoits who have been arrested has been on the increase. Again in the year 1958 as many as 15 dacoits were shot-down and this represents the highest number ever shot during the last fifteen years. The year 1958 also appears to be the year when the incidence of crime was very high with 41 murdered, 42 dacoities, 61 robberies and 13 kidnapping. Another noticeable feature is that excepting one dacoit who surrendered in 1956 no one else has given himself up. This affords a contrast with the dacoits in Gwalior division (Bhind, Morena and Gwalior in particular) where every year a few dacoits are known to surrender.

The statistics further reveal that upto 1958 murder, dacoity and robbery kept on increasing; therafter they showed some decrease. The year 1962 showed a spurt in crime. This was the year in which the general elections were held and the police force was scattered in many places. It is likely that the dispersal of the force, led to an increase in crime.

Statistics show that the district has 30 murders a year or one murder in about 12 days. Similarly on an average 28 dacoities are committed every year or in about 13 days one dacoity is committed. The returns of robbery, riot, burglary and kidnapping reveal that this crime continues to grow.

The Administration of Justice

Even before Independence there has been a complete separation of the Executive from the Judiciary. The Political Agent at Nowgong exercised the powers of a Sessions Judge and the Agent to the Governor General in Central India was invested with the powers of the High Court. The Sessions Judge heads the judiciary in the district. His jurisdiction also extends to Tikamgarh and Panna districts. He is assisted by four Civil Judges who are also First Class Magistrates in the district, out of whom one is posted at Bijawar. The criminal work in the district is rather heavy. The judiciary functions under the High Court of Judicature at Jabalpur.

The Medical and Health Department

During the time of the States there was only one hospital in Chhatarpur State as is noticed from the Gazetteer :—

"The only hospital in the State is that at the Capital. It was founded during the time of Colonel Thompson when the State was under supervision. At first, it was merely a dispensary located in a small room and was in charge of a native doctor. No regular records of any sort were kept and medicines were distributed to out-door patients only*."

A Civil Surgeon is in over all charge of the department. There are as many as 8 hospitals in the district. The bed capacity has gone up from 88 in 1951 to 143 in 1960. There are 5 Primary Health Centres in 1961 as against not a single one in 1951. Besides this a Filaria Control Unit has been located at Chhatarpur from where its activities spread out to cover Panna, Satna and Tikamgarh districts. Thanks to the efforts of the Malaria Eradication Programme, the incidence of malaria has to a considerable extent been controlled. The incidenee of filaria is also reported to be going down.

The Forest Department

The administrative control of the Forest Department rests with the Divisional Forest Officer, whose office is located at Chhatarpur. The total area of the forest division is 1,038 sq. miles † and is spread over five ranges; *viz*:—

*The Central India State Gazetteer Series, Chhatarpur State Gazetteer, (1907), p.46. by Capt. C. E. Luard.

†Source : D.F.O., Chhatarpur.

S, No.	Name of the Range	Area in sq. miles
1	Chhatarpur	260
2	Bijawar	278
3	Malehra	151
4	Buxwaha	130
5	Laundi	219

The forest resources are not particularly valuable. The forest is divided into three classes. These are:—

(1) Of timber trees such as :—

teak	Tectona grandis
sagaun	Dalbergia sissu
saja	Boswellia serrata
tendu	Diosypyros melanoxylon

(2) Of fruit trees such as :—

mahuva	Madhuca indica
khair	Acacia catechu
pipal	Ficus religiosa
jamun	Eugoenia jombolana
achar	Buchanania latifolia

(3) Other lesser valuable trees such as :—

ber	Zizyphus jujuba
makor ghont	Zizyphus xylopyrus

The income from the exploitation of forests is between 7 to 8 lakhs per year. (Also please see under Forests p. xxxix).

The Public Works Department

An Executive Engineer posted at Nowgong looks after the maintenance and construction of all government buildings and roads. Roads are the main arteries of communications in the district. The Superintending Engineer's office is also located at Nowgong and Tikamgarh, Panna and Chhatarpur districts are in his circle. (Also please see Communications)

The Irrigation Department

There are quite a few old tanks in the district. These were built by the Chandela rulers. As many as 26 tanks each irrigating over 100 acres have been handed over to Irrigation Department. Other tanks irrigating less than 100 acres are under the Revenue Department. The work on the following projects have been undertaken in the First and Second Five Year Plan period.

S No.	Name of the Project	Medium or Minor	Target fixed	Achievement
(1)	(2)	(3)	(4)	(5)
	FIRST FIVE YEAR PLAN			
1	Beniganj	Medium	5 lacs	7.39
2	Burha Dam	Medium	6 lacs	6.52
3	Sindurk Bandhi	Minor	below 2 lacs	
4	Gora Tal	Minor	...	4.98
5	Saraini Bandhi	Minor	...	0.24 lacs
6	Sendhpa Nala	Minor	10,000	
7	Andhiyara Nala	Minor	10,000	
8	Madarka Bandhi			0.38
9	Chanparra	Minor		0.14

In the Second Five Year Plan one medium and 8 minor irrigation schemes were included and out of these one medium and six minor projects were carried over from the First Plan.

SECOND FIVE YEAR PLAN

S. N.	Name of the Project	Medium or Minor	Remarks.
(1)	(2)	(3)	(4)
1	Beniganj Dam	Medium	Carried over from First Five Year Plan. Expected to complete by III Plan, likely to incur an expenditure of Rs. 45 lacs and enhance irrigation potential by 10,000 acres.

(1)	(2)	(3)	(4)
2	Burha Nala		Carried from I Five Year Plan, will irrigate 4,500 acres at a total cost of 16.5 lacs, work under progress.
3	Gora Tal		Carried from I Five Year Plan, expected to irrigate 3,200 acres at an expenditure of 6 lacs. Already irrigating about 2,000 acres.
4	Sendhpa Dam		Work still under progress; total cost likely to be 9.19 lacs.
5	Andhiyara Dam		Work still in progress Expected to cost 2.29 lacs.
6	Bandhis		All Bandhis carried over from I Five Year Plan have been completed.

(Please also see under Irrigation for other details)

The Agriculture Department

A Deputy Director of Agriculture is posted at Chhatarpur. He is asisted by an Assistant Director who guides the field staff and an Assistant Soil Conservation Officer who looks after contour bunding and other rural programmes An Assistant Agricultural Engineer also carries out the tractor ploughing operations. At the Block level Agricultural Assistants have been posted to carry out programmes. Besides these, staff is also provided for plant protection and marketting work. There are four farms and the one at Mau Jagatsagar is under an Assistant Director of Agriculture. The other farms are at Nowgong, Bijawar and Hanuman Chowki. Out of these only the one at Nowgong and Bijawar existed during the State times and the other two were established by Vindhya Pradesh Government.

The department has also sponsored Soil Conservation Schemes under which bunding of fields for rabi and paddy crops has been carried out. Attempts have also been made to distribute the improved variety of seeds through the farms. Manures and fertilisers have been distributed and they are fast becoming popular. The economy of the district leans heavily on agriculture. (Please also see under cultivation).

The National Extension Service Blocks

There are eight N. E. S. Blocks in the district.

The inset table gives the details* :—

S. No.	Name of the Block	Tahsil	Date of establishment	No. of villages	Area in sq. miles	Remarks
1	2	3	4	5	6	7
1	Bijawar	Bijawar	2-10-62	143	520	P. E.
2	Malehra	Bijawar	1-4-56	151	455	Reverted to stage II on 1-4-62.
3	Rajnagar	Chhatarpur	1-4-55	138	454.8	Converted to C.D. on 1-4-58. Reverted to stage II on 1-4-61.
4	Nowgong	Chhatarpur	1-4-54	136	355	Started as N. E. S. Converted to C.D. on 1-4-57. Reverted to stage II on 1-4-61 and extended to 31-3-64.

* *Source*—Development Commissioner, Bhopal. The area figures differ slightly from those furnished by the Director of Land Records M. P.

(1)	(2)	(3)	(4)	(5)	(6)	(7)
5	Gaurihar	Laundi	1-4-61	158	351	Stage I
6	Butwaha	Bijawar	1-4-59	128	337.5	Started as P. E. Converted to stage I on 1-4-60.
7	Laundi	Laundi	1-4-58	158	322	Stage I
8	Chhatarpur	Chhatarpur	1-4-62	153	411	Stage I

The entire district has been covered by N. E. S. Blocks.

Co-operatives

An Assistant Registrar Co-operatives looks after the working of the Department. The number of agricultural credit societies has been steadily going up. In 1961-62 they numbered 231. Among the non-agricultural societies there were one Farming and seven Weaver's Societies in 1961-62. The details are* :—

S. No. (Year)	Agricultural Credit Societies	No. of Members of Agricultural Credit Societies	Non-Agricultural Credit Societies			
			Farming	Member ship	Weavers	Member ship
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1961-62	231	13,598	1	15	7	119
1962-63	249	14,362	8	150	7	128

Industries

An Assistant Director of Industries looks after the working of the Department. The industries are mostly small scales ones and the more important are: (1) oil seed crushing; (2) soap; (3) brass works; (4) leather industry and (5) handloom industry.

Education

A start was made in Chhatarpur State in 1865. "The first school to be opened in the State was the Urdu Madarsa started at the capital in 1865 by Colonel Thompson. Later on, English and Hindi, departments were added to it, and ultimately in 1884, it was raised to the status of a high school. In this school, instruction was given in English up to the standard of the Entrance examination of the University of Allahabad, and boys are prepared in Sanskrit for the *Prathama and Madhyama Parikshas* of the Sanskrit College at Benaras. The annual expenditure on this institution is about Rs. 6,000, the average number of boys on the rolls being about 200,

*Source—Assistant Registrar, Co-operative Societies, Chhatarpur.

and the average number attending 130. Two girl's schools have been opened in the town of Chhatarpur, one for Hindi girls, and the other for Muhammadan girls; and more than 20 schools in important villages, where instruction was given to boys in Hindi and Urdu. An Educational Department was ultimately created and placed under the direct control of the Head Master of the High School. There are now 31 Schools, one High School, two girl's schools, three branch schools and 25 village schools*."

In Bijawar at about the same time there was one school in the town with 142 pupils.

Since the beginning of the century much progress has been made. A District Educational Officer looks after the schools of the district. There has been considerable expansion in the educational facilities during the decade. Primary Schools have also increased from 260 in 1951 to 623 in 1961. The table below indicates the expansion in the decade :—

Number of			1951	1961
1			2	3
Primary Schools		...	260	623
Scholars	Persons	...	7,296	37,985
	Males	...	6,508	33,089
	Females	...	788	4,896
Middle Schools		...	12	38
Scholars	Persons	...	1,342	5,898
	Males	...	1,135	4,431
	Females	...	207	1,467
Higher Secondary or Senior Basic		...	4	14
Scholars	Persons	...	632	4,925
	Males	...	632	4,575
	Females	...	...	350
(1)			(2)	(3)
Degree College		...	1	Elevated to Post Degree
Scholars	Persons	...	68	545
	Males	...	65	523
	Females	...	3	22

There is a Post Graduate Teaching Institution at Chhatarpur called the Maharaja College, a P.G. B. T. College as well as a Law College in the town. Apart from these institutions a Polytechnic has been located at Nowgong. From the above it is clear that during the decade there has been considerable expansion at all levels of educational institutions.

The Fisheries

An Assistant Fisheries Officer who looks after the department is posted at Nowgong. A Fishery Centre was first opened at Nowgong. in 1955-56. Fish seeds are sent out from here to Rewa, Satna and other districts. The department is also trying to improve the conditions of fisher-men, and co-operative societies have been formed. The Fishery Research Centre has developed an improved technique called dry bund breeding; As a result carp have been bred in artificially constructed tanks, this has made propogation of this fish possible.

The Local Bodies ; (Urban)

There are three municipalities in the district *viz.* Chhatarpur, Nowgong and Maharajpur (1939)- all in Chhatarpur tahsil. Out of these the one at Chhatarpur is the oldest having been founded in 1908.

Chhatarpur Municipality

Founded in 1908 it advised the ruler about the conservancy tax. In 1934 the Dewan conducted an election for the Chairman of the Body; thereafter a legislation *viz.* 'Kanoon Nagar Sabha Rajya Chhatarpur 1935' was passed. It set up 18 members—

* The Central India State Gazetteer Series, Chhatarpur State Gazetteer, (1907), p. 45. by Capt. C. E, Luard.

10 nominated and 8 elected and the legislation became effective from 1937. The Rewa Municipalities Act 1946 was made applicable from 11-10-1948 and there were then 3 nominated and 10 elected members. The Madhya Pradesh Municipality Act 1961 became applicable from 1-2-1962 and at present there are 16 elected and 4 nominated members. In 1960-61 the municipality had an income of Rs. 184, 468.58.

Nowgong Municipality

Nowgong was originally a Cantonment Board and was handed over to Chhatarpur State on 30-9-1935 and since then it became a Municipal Board. It was administered as a part of Chhatarpur State. Its income for 1960-61 was Rs. 61,119.

Maharajpur Municipality :—

It was founded in 1939 and at present has 12 members—9 elected and 3 nominated. In 1960-61 it had an income of Rs. 70,215.04.

Rural

After the formation of Vindhya Pradesh Gram-panchayats and Nyaya-panchayats the latter being purely a judicial body—were constituted. Their break up is :—

District/Tahsil	Gram Panchayats	Nayaya Panchayats
Chhatarpur District	326	104
Bijawar Tahsil	82	26
Laundi Tahsil	95	32
Chhatarpur Tahsil	149	46

These were reduced under the Madhya Pradesh Panchyat Act 1962 (No. 7 of 1962) and the N. E. S. Blocks have been regarded as administrative units. The present position is indicated below :—

	Unit.	Number of Gram Panchayats	Nnmber of Nyaya Panchayats
1	Chhatarpur Distt.	261	104
2	Nowgong	35	14
3	Rajnagar	41	16
4	Ishanagar	36	16
5	Laundi	32	16
6	Gaurihar	32	16
7	Bijawar	30	9
8	Garhi Malehra	32	10
9	Buxwaha	23	7

These have been constituted on 30-6-1964.

Other Offices

Apart from these, the following offices are also located at Chhatarpur: (1) Office of the Executive Engineer, Public Health Division, (2)District Publicity Officer, (3) Employment Exchange, (4) District Excise and (5) the District Statistical Officer.

III

THE PEOPLE

The Growth of the Population

The table following gives the variation and the percentage growth of the population in the district during the last sixty years.

Table—Showing Variation in Population 1901-61.

District	Year	Population	Decade Variation	Percentage Decade Variation	Percentage Decade Variation	
					Rewa Division	Madhya Pradesh State
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Chhatarpur District.	1901	441,124	...	...	...	...
	1911	476,507	+ 35,383	+ 8.02	+ 11.80	+ 15.30
	1921	437,318	— 39,189	— 8.22	— 8.93	— 1.38
	1931	434,014	— 3,304	— 0.76	+ 9.28	+ 11.39
	1941	464,041	+ 30,027	+ 6.92	+ 13.59	+ 12.34
	1951	481,140	+ 17,099	+ 3.68	+ 6.46	+ 8.67
	1961	587,373	+ 106,233	+ 22.08	+ 24.65	+ 24.17
	1901-61		+ 146,249	+ 33.15	+ 67.73	+ 92.00

At the beginning of the twentieth century the population of the district stood at 441,124 persons and during the decade 1901-11 it increased by 8.02%. The increase was more or less in accordance with the growth of the Rewa division, where it was only slightly higher being 11.80%. Then in the next two decades there was a continuous and considerable decrease in the population. The decade 1911-21 was particularly a bad one. Influenza raged and took a very heavy toll of lives; it impaired the vitality of the people and though in the subsequent decade the conditions had stabilized yet there was practically no recovery. In 1911–21 the entire division suffered a loss of population. Whereas the population in the 1921–31 decade, in other districts *viz* Tikamgarh, Panna, Satna, Shahdol, Rewa and Sidhi increaxed, Chhatarpur alone suffered a further loss. About the population of the States of Bundelkhand Agency, (of which the present district of Chhatarpur was then a part) the Census Superintendent of 1931 wrote*:—

"Bundelkhand is by no means a favoured region. It is subject to scarcity and drought. Communications are meagre and the tract has not yet been opened up. The States are still in a state of isolation and administration in most places requires levelling up. The soil is poor and no where is it of high fertility. Tanks are numerous but many are not in use. In the decade the first half was favourable and the economic and seasonal conditions were satisfactory. In the second half locusts and frosts did damage in several parts. There was no serious scarcity or famine or epidemic anywhere. The conditions were normal on the whole. In the previous decade the Agency was badly affected by the Influenza epidemic and the recovery in most places has been slow. In Charkhari, Baoni and Chhatarpur population has fallen. Adverse economic and administrative conditions cause migration to the neighbouring parts. In the absence of migration statistics, it is not possible to estimate the fall in population due to emigration."

In the 1931-41 decade the district gained in population by 6.92 % which again was low, when compared to other districts in Rewa divison. Even in 1941 the total population of the district was below

* Census of India, 1931, Vol. XX—Central India Agency, Part I Report, by C. S. Venkatachar p. 29.

the 1911 figure. Thus so severe was the set back between 1911-21 that even after 20 years the loss of population could not be made good. The 1941-51 decade was of momentous political changes and Chhatarpur, like many States, was also merged into Vindhya Pradesh and along with other States now constitutes the present distrsct. In the areas of most of the former princely States, the increase in population has not been much. The entire Rewa division shows an increase of 6.46 % as against the State growth of 8.67 % and Chhatarpur shows an increase of only 3.68 %.

Commenting on "Natural increase Births and Deaths" the 1951 Census Superintendent of Vindhya Pradesh wrote*:—

"No vital statistics are available. In the decade there were no serious epidemics and there was no famine, cholera appears in summer and after the rains in the towns and spreads to the neighbouring villages. Inoculation against cholera and plague are given in the towns to only a part of the population. Malaria takes its usual toll everywhere. There is hardly any villager who does not suffer from malaria during September and October and suffers from its effects for two or three months. Agricultural operations suffer very much on account of malaria, Quinine and Cinchona and now Paludrine and Mapacrine are available to the educated people of the towns. The villagers depend on curing their diseases on herbs and prayers to the village deities. The total number of hospitals and dispensaries in Vindhya Pradesh is 101 which means that there is one dispensary for 35,393 population. Drinking water supply in the villages is very unsatisfactory. More than 90 % of the wells in the villages have never been chlorinated. There are a large number of villages where there are no wells and the forest people have to depend on brooks and small streams for supply of drinking water."

The out break of an occasional cholera epidemic and the continued suceptibility to malaria are no conditions for growth of population. Added to this the observations made in 1931 also hold good. No wonder the growth was slow.

In the following decade malaria has been effectively checked, thanks to the concerted drive of the National Malaria Eradication Programme Personnel. In some parts of the district, filaria still persists. For the first time the growth of population has been over 20 %. It was 22.08 % in 1951-61 decade which is almost normal for the division. Thus it is only during the present decade that Chhatarpur 'arrived' at the stage of normal growth of the population in Rewa division and the State.

In the last sixty years 1901-61 the overall growth has been only 33.15% which gives the district *forty first* place out of forty three in the matter of growth of population. The other two districts below Chhatarpur are Narsimhapur 30.71%, and Datia 24.46 %. This incidentally is the lowest in Rewa division and is almost half the growth rate of Rewa division.

The Tahsils, Towns, Villages & Houses :

The Tahsils :

There are three tahsils in the district *viz.* (1) Laundi, (2) Chhatarpur and (3) Bijawar. Out of these Laundi is entirely rural; Chhatarpur tahsil has four towns *viz.* (1) Chhatarpur (22,146), (2) Maharajpur (11,762), (3) Nowgong (8,604) and (4) Garhi-Malehra (6,728); and in Bijawar tahsil there is one town *viz.* Bijawar (7,079). Thus there are five towns in the district.

Among the tahsils Bijawar is the biggest in area and has the highest number of villages. Chhatarpur has the highest population and the highest density (rural and urban) which is 230 per sq. mile. Laundi is smaller in area and population but has more persons to a sq. mile than Bijawar. The details regarding the tahsils are given in the table following :—

*Census of India, 1951, Vol. XVI—Vindhya Pradesh, Part I—Report & Subsidiary Tables, by N. K. Dube, p. 30.

Table Showing Area, Population and Density of Population in the District for Rural Areas only.

District/Tahsil	Population	Area	Density
1	2	3	4
Chhatarpur District	531,054	3,296	161
Laundi Tahsil	127,333	679	188
Chhatarpur Tahsil	248.688	1,259	197
Bijawar Tahsil	155,033	1,358	114

The Towns

As regards the urban area the table below illustrates the growth of towns in the district.

Number of Towns in						
1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7
5	9	6	5	5	5	3

In 1951 the number of towns was 9 and out of these the following have been de-classified in 1961 : (1) Harpalpur (5,790.; (2) Buxwaha (3,555); (3) Laundi (4,939): treated as towns for the first time in 1951, and (4) Rajnagar (4.653). Among the other towns Maharajpur has been a town since 1911 and during the decade it moved to Class IV (i, e. population 10,000-19,999). Bijawar, Chhatarpur and Nowgong have been towns since 1901. They constitute the three towns in the district which have had continuous existence as towns in all the censuses. Garhi Malehra has been a town since 1941. Rajnagar a town from 1911 to 1951 was declassified in 1961.

Among the towns the decade growth has been as follows :—

Towns	Population		+ Increase — Decrease	Percentage (+) (—	Ranking
	1951	1961			
1	2	3	4	5	6
Chhatarpur	14,110	22,146	+ 8,036	+ 56.95	2
Maharajpur	5,362	11,762	+ 6,400	+ 119.36	1
Nowgong	5.552	8,604	+ 3,052	+ 54.97	3
Bijawar	6.119	7,079	+ 960	+ 15.69	5
Garhi Malehra	5,384	6.728	+ 1,344	+ 24.96	4

Of these excepting Garhi Malehra and Bijawar which are under Gram Panchayats the rest have Municipalities.

The Villages

There are 1,210 villages in the district out of which 134 are uninhabited. The tahsilwise break-up is indicated below :—

Name of District / Tahsil.	Total No. of villages	In habited	Un inhabited	Total Rural Population	Population per inhabited village
1	2	3	4	5	6
Chhatarpur District	1,210	1,076	134	531,054	494
Laundi Tahsil	312	275	37	127,333	463
Chhatarpur Tahsil	427	398	29	248.688	625
Bijawar Tahsil	471	403	68	155,033	385

The table reveals that (a) the villages generally contain more population than those in other districts of the division of the State; (b) that among the tahsils a village in Chhatarpur tahsil has the highest number of persons on an average; and (c) Bijawar tahsil has the highest number of de-populated villages followed by Laundi and Chhatarpur. The number of depopulated villages is high in Bijawar tahsil mainly because of the fear of dacoits and scarcity of drinking water. The table below indicates the size of villages :—

Unit	Total area in sq. miles (Rural Area only)	Total No. of villages (Inhabited and uninhabited)	Average Area of a village	Ranking
(1)	(2)	(3)	(4)	(5)
Rewa Division	22,601.5*	12,287	1.84	5
Chhatarpur District	3,295.7	1,210	2 72	3
Laundi Tahsil	679.0	312	2.18	4
Chhatarpur Tahsil	1,259.4	427	2.95	1
Bijawar Tahsil	1,357.3	471	2.88	2

From the above table it follows (a) that the size of a village in the district is bigger than those of Rewa division; (b) among the tahsils, the villages in Chhatarpur tahsil are the biggest closely followed by the ones in Bijawar and Laundi.

The table below indicates the growth of the population in the villages during the decade. :—

Table—showing the percentage of villages and population.

District	Year	Less than 500		500-999		1,000-1,999	
		Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Chhatarpur District	1951	75 00	39.70	17.64	31.91	6.30	21.32
	1961	65.89	30.18	22.77	32.03	9.20	24.85

* Census of India, 1961, Vol. VIII—Madhya Pradesh, Part II-A-General Population Tables by G. Jagathpathi, p. 60. & 61

2,000-4,999		5,000-9,999		10,000 & over	
Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population	Percentage of No. of villages in this class to total No. of villages	Percentage of population in this class to total population
(9)	(10)	(11)	(12)	(13)	(14)
1.06	7.07	...	...	...	..
2.05	11.85	0.09	1.09	...	..

The table brings out the following features: in the villages of less than 500 range of population there has been a decrease of 9.11 % in their number and 9.52 % in population that lived in them in 1951. The villages sustaining population between 500-999 show an increase of 5.13 % in their number but only 0.12 % in population. Similarly in the villages of 1,000-1,999 persons there has been an increase of 2.90 % in their number and 3.53 % in the population living in them. This emphasises that villages have grown in population The same trend is noticeable in the villages of 2,000-4,999 persons and 5,000 and above. Harpalpur a railway station village which was de-classified in 1951 returned a population of 5,790 persons and is thus the biggest village in the district. (Harpalpur has been shown as a *majra or hamlet* of Sarsed village, Halka No. 3, in R. I. Circle Nowgong of Chhatarpur tahsil)

The Houses

Basing the analysis of houses on 20 % sample in table E IV, it appears that a great majority of houses in the district have mud walls followed by unburnt bricks and stone. The use of G. I. sheets is rare. The roofs are mostly of tiles shingle or slate followed by concrete and stones grass leaves reeds or bamboos. In the urban areas too the above materials are used almost in similar proportions. In urban areas houses of burnt bricks are found in some numbers. In the villages few houses of burnt bricks are also found.

The Occupied Houses

The table below gives the variation during the decade in the matter of occupied houses.

Year	Total No. of occupied houses	Increase Decrease (+)(—)	Percentage variation	Persons per occupied house
(1)	(2)	(3)	(4)	(5)
1951	105,998			4.54
1961	115,636	+9,638	+9.09	5.08

The growth of the number of occupied houses is not commensurate with the general growth of the population. We may therefore expect an increase in the crowding of the houses. The growth of 9.09 % in the occupied houses being incommensurate, the pressure per occupied house has increased by 0.54 persons per house. The rural areas appear slightly more crowded; the position being :—

State Division District	Total	Rural	Urban
1	2	3	4
Madhya Pradesh	5.20	5.16	5.42
Rewa District	5.21	5.24	4.82
Chhatarpur District	5.08	5.09	5.02

The crowding is only slightly less than that found in other districts of Rewa division or the State generally.

The Density of Population

"*Chhatarpur has a density of 142 persons per sq. mile. During the last thirty years the density has increased by only 13 persons per sq mile." so wrote N. K. Dube in his 1951 report. To this it may be added that during the last ten years the density has increased by 34 persons per sq. mile which naturally suggests, better than ever, growth.

The concentration of population tahsilwise is as below :—

Table-Showing Density of Population.

Distt./Tahsil	Total	Rural	Urban
(1)	(2)	(3)	(4)
Chhatarpur District	176	161	1,630
Laundi Tahsil	188	188	...
Chhatarpur Tahsil	230	197	1,436
Bijawar Tahsil	119	114	26,219

From the above it follows that (a) in Chhatarpur tahsil the density is highest closely followed by Laundi tahsil Chhatarpur tahsil is spread out over a greater area than Laundi which with less area appears geographically more compact; (b) in the urban areas Bijawar has returned 26,219 persons per sq. mile. This does not necessarily indicate any overcrowding, but points towards the inaccuracy of the urban area figure which is 0.30 sq. mile. Garhi Malehra returns a density of 51,754 persons to a sq. mile. This is again due to the apparently inaccurate area figure of 0.13 sq. mile or 83.20 acres. The pressure of population in the district is not particularly heavy. Some adjoining districts *viz.* Tikamgarh (236), Sagar (202), have generally returned higher density of population but Panna (130) and Damoh (156) are less densely populated.

Proportion of Sexes

The northern districts of the State generally return excess of males over females. In this respect Chhatarpur follows the general pattern. In the last sixty years the number of females per 1,000 males has steadily been going down The table below indicates the trend.

Total Rural Urban	Females per 1,000 males						
	1961	1951	1941	1931	1921	1911	1901
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Total	891	893	911	920	923	943	943
Rural	893	892	908	919	924	943	946
Urban	871	906	945	924	912	940	899

During the last sixty years the proportion of females has gone down by 52. After remaining constant at 943 (females per 1,000 males) in 1901 and 1911 it went down to 923 in 1921 suggesting greater female mortality and excess of male births during the decade. Then for the next 20 years the proportion again remained more or less constant and went down in 1951 by 18 to 893. It has remained more or less constant at 891 in 1961. Thus in the last sixty years the proportion of females tends to remain constant for two decades, then seems to drop and steadies again for the next two decades.

When compared with other districts of the neighbourhood the position is :—

District	Proportion of sexes. (females per 1,000 males)		
(1)	(2)		
Tikamgarh	906		
Panna	938		
Sagar	920	Rewa Division	950
Damoh	965	Chhatarpur Distt.	891
Hamirpur (U. P.)	924		
Banda (U. P.)	905		

* Census of India, 1951, Vol. XVI—Vindhya Pradesh, Report and Subsidiary Tables. by N.K. Dube. p. 12.

Thus of all the adjoining districts the number of females per 1,000 males is least in Chhatarpur. All other districts of the Rewa division have returned more females per thousand than Chhatarpur. The proportion improves among the Scheduled Castes and Tribes who return 952 and 989 respectively. It is difficult to assign any reasons for this imbalance. The statistics point to more male births and their consequent survival.

Vital Statistics

In the merged States of Vindhya Pradesh the vital statistics were collected by the chowkidars and patwaris who submitted the returns to the police stations. At Nowgong the work was looked after by the Agency Surgeon. On the formation of Vindhya Pradesh these were collected by the Gram Panchayats. The coverage was very inadequate and hence it was remarked in 1951 that* "No vital statistics are available." In the urban areas the Municipalities are keeping a record of births and deaths. In the rural areas the chowkidars report the births and deaths to the police station as was done before"

Religion

Hindus form the bulk of the population constituting 96.43 % of the total population and are followed by Muslims, Jains, Sikhs and Christians. The table below gives the decade variation.

Religion	Population in		Decade variation + Increase — Decrease	Percentage Variation	Ranking
	1951	1961			
1	2	3	4	5	6
Hindus	465,128	566,426	+ 101,298	+ 21.78	3
Muslims	11,104	15,890	+ 4,786	+ 43.10	2
Jains	4,055	4,071	+ 16	+ 0.39	4
Sikhs	195	554	+ 359	+184.10	1
Christians	658	432	— 226	— 34.35	5
Total	481,140	587,373	+ 106,233	+ 22.08	

From the above table it appears that in terms of percentage growth Sikhs have the highest growth of 184.10 %. The growth amongst the Muslims is almost twice as high as that amongts the Hindus, among whom the growth is a little below the growth of the district; whereas Jains have hardly shown any increase, there is a decrease in the Christian population.

During the decade the composition of religion was as under :—

Table showing Percentage Composition of Religions.

Religion	1951	1961	Variation
1	2	3	4
Hindus	96.67	96.43	—0.24
Muslims	2.31	2.71	+0.40
Jains	0.84	0.69	—0.15
Sikhs	0.04	0.10	+ 0.06
Christians	0.14	0.07	- 0.07

* Census of India, 1951, Vol, XVI—Vindhya Pradesh, Part I Report and Subsidiary Tables by N. K. Dube, page 30.

The religion composition of the district remains more or less unchanged except that the percentage of Muslims and Sikhs has increased by 0.40 and 0.06 respectively and in the case of the others it has gone down-that among the Hindus having been reduced by 0.24 %

Mother Tongue

The district has returned as many as twenty languages as mother tongue in 1961 as against six in 1951. The table below gives the decade variation with respect to such languages as have returned 100 or more speakers.

Table—showing percentage increase in Mother Tongue Languages.

Language	Speakers in 1951	Speakers in 1961	Decade Variation (+)	Decade Variation (—)	Percentage Decade Variation
1	2	3	4		5
Hindi	480,789	580,708	+ 99,919		+ 20.78
Urdu	...	3,273	+ 3,273		+ 100.00
Punjabi	112	682	+ 570		+ 508.93
Gurumukhi	...	191	+ 191		+ 100.00
Sindhi	209	594	+ 385		+ 184.21
Marathi	9	937	+ 928		+ 10,311.11
Tamil	...	295	+ 295		+ 100.00
Gujarati	1	318	+ 317		+ 31,700.00
Bengali	20	207	+ 187		+ 935.00

From the above it follows that for the first time Urdu has been returned as mother tongue. There appears no ostensible reason for its emergence as a mother tongue. Growth in case of Punjabi, Sindhi, Marathi and Gujarati speakers has been quite significant. There were no speakers of Tamil in 1951 but there are 295 now.

The following table gives the percentage of speakers of prominent languages of the district.

Table—Showing the percentage of speakers of prominent languages of the District.

	Mother Tongue	No. of Speakers	Percentage
	1	2	3
1	Hindi	580,708	98.86
2	Urdu	3,273	0.56
3	Punjabi	682	0.12
4	Sindhi	594	0.10
5	Marathi	937	0.16
6	Others	1,179	0.20
			100.00

The district is essentially Hindi speaking and it is spoken in the Bundelkhandi dialect

Marital Status

In all ages there were 467.40 married males per 1,000 males. In the case of females the figure was 531.24. In 1951 the comparable figure for Bundelkhand division (which included the following districts-Datia Tikamgarh, Panna, and Chhatarpur) was 471 and Chhatarpur is fairly near the figure. In the case of females however the figure was 531 in 1951 in Bundelkhand division and this seems to have gone up slightly during the decade.

All persons below the age of 9 were tabulated as unmarried. In the next age group i. e. 10—14 however 206.66 males and 552.76 females out of 1,000 males and females, have been returned as married. In the case of females, the high incidence of marriage points to the possibility of marriage among females in the ages, nearer 9 years. In the rural areas especially, early marriages are not uncommon.

The table below gives the details of marital status for 1,000 males and females for all ages,

Table—showing Marital Status — Chhatarpur District.

Age group	Total Population		Never married		Married		Widowed		Divorced or separated.		Un-classified.	
	M	F	M	F	M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13
All Ages	1000	1000	480.63	352.46	467.40	531.24	48.38	114.93	3.59	1.37	Neg.	Neg.
0—9	1000	1000	1000	1000	..	..	..	..	..	..	..	...
10—14	1000	1000	791.38	445.14	206.66	552.76	1.48	1.91	0.48	0.19	..	..
15—19	1000	1000	507.23	39.46	482.66	954.82	7.56	4.83	2.55	0.89	..	..
20—24	1000	1000	291.28	3.64	686.18	985.44	16.12	9.39	6.42	1.53	..	..
25—29	1000	1000	151.22	1.58	816.88	977.07	24.93	19.82	6.97	1.53	..	..
30—34	1000	1000	100.93	1.13	851.99	942.06	39.30	54.18	7.78	2.63	..	..

50—54	1000	1000	56.07	0.98	766.96	483.64	171.18	512.93	5.79	2.45	..	..
55—59	1000	1000	72.35	0.99	718.35	488.24	205.20	509.11	4.10	1.66	..	..
60—64	1000	1000	46.64	19.90	687.24	261.81	262.70	715.59	3.42	2.70	..	..
65—69	1000	1000	59.26	1.39	603.90	229.14	329.71	768.08	7.13	1.39	..	..
70+	1000	1000	47.28	1.78	499.14	108.51	450.87	888.52	2.71	1.19	..	..
A.N.S.	1000	1000	988.37	862.74	..	117.65	..	..	..	..	11.63	19.61

Among the males in the 10-14 age group only 206.66 are married, the figure goes up to 482.66 in 15-19 and is 686.18 in the 20-24 age-group; from 25 onwards and upto 45-49 over 800 males per 1,000 males are married. The table reveals that among the males the age of marriage is somewhat high. In the 30-34 age-group 851.99 males out of 1,000 are married; this is the highest figure for married males in a particular age-group. This represents a fairly high marriage rate. In the 50 and above ages there is a perceptible decline in the number of married males. In these ages there is a corresponding increase in the widowers. The number of never married males has been fairly high in practically all the age-groups. Even in age-groups 20-24, 25-29, 30-34 it is 291.28, 151.22 and 100.93 per 1,000 males respectively. From 35-39 age-groups and above it begins to go down. Widowers are highest in 70+ age being 450.87 per 1,000 males. From 70+ to 45-49 the number of widowers goes down although in even 45-49 there are 120.65 persons per 1,000 males.

Among the females in the 10–14 age-group 552.76 out of 1,000 are married; the figure shoots up to 954.82 in the 15–19 age-group, reaches a maximum of 985.44 in 20-24 age-group remains steady at 977.07 in 25-29, still continues to top the 900 mark in 30-34, being 942.06 and 900.54 in 35–39 and then begins to taper off. The fall is fairly rapid-it is 798.41 in 40-44 ages, 706.17 in 45-49 ages, 483.64 in 50–54 ages. As the figure falls the proportion of widows increases, It is 95.15, 196.83 288.63, 512.93, 509.11 in 35-39, 40-44, 45-49, 50-54, 55–59 age-groups respectively. There are fewer divorces among females than males and also very few never married females.

Migration :-

The table below gives the place of birth :—

Table — showing the place of Birth
Total 100 Persons

1	Born in India	Rural	90.40
		Urban	9.54
			99.94
2	Within the State of Enumeration	Rural	86.84
		Urban	8.46
			95.30
3	Born in the place of Enumeration	Rural	64.04
		Urban	5.84
			69.88
4	Born elsewhere in the district of Enumeration	Rural	19.82
		Urban	2.00
			21.82
5	Uttar Pradesh	Rural	3.49
		Urban	0.92
			4.41

As much as 95.30 % of the population is born and enumerated in the State and another 4.41 % in the neighbouring State of Uttar Pradesh. Thus the total population born in Madhya Pradesh and in the neighbouring State of Uttar Pradesh comes to 99.71 %, which suggests the limited mobility of the population. Another 0 23 % is born in India and only 0.06 % is from countries other than India. A little over two-thirds of the population 69.88% has been born and continues to live in the place of enumeration; thus migration from the district is very limited. Within the district itself 21.82 % have moved from one place to another. Thus migration becomes still more restricted A little over one twenty-fifth of the population has come over from Uttar Pradesh. The position of persons born in Chhatarpur but enumerated in the neighbouring districts of Panna, Tikamgarh, Sagar and Damoh is indicated in the table below :—

Table—showing persons born in Chhatarpur but enumerated in the adjoining districts.

District	Percentage to total population	Total			Rural			Urban		
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8	9	10	11
1 Tikamgarh	1.00	5,883	927	4,956	5,217	692	4,525	666	235	431
2 Panna	0.99	5,803	1,133	4,670	5,051	876	4,175	752	257	495
3 Sagar	0.51	3,004	622	2,382	2,688	491	2,197	316	131	185
4 Damoh	0.26	1,555	459	1,096	1,428	419	1,009	127	40	87

The table points out that most of these persons live in the rural areas of these districts

The Age Tables

The age data given below are based on ungraduated ages and though the quinquennial groupings adopted below surpress to some extent the distorting effects of heapings at multiples of 5, still the data is not enough to permit analysis, unless corrected or smoothed. Thus it is safer to confine the scrutiny of the data at age intervals 0-14, 15-34, 35-59 and 60+ which corresponds to children, young persons, middle aged persons and old persons. The table below shows the distribution of 100 persons into certain age-groups by sex and sex-ratio.

Distribution of 100 persons by age-groups and sex-ratio

	Percentage of population in the age-group							
	Chhatarpur District			State			Sex Ratio	
Age group	P	M	F	P	M	F	Chhatarpur	State
1	2	3	4	5	6	7	8	9
All ages	**100.0**	**52.9**	**47.1**	**100.0**	**51.2**	**48.8**	**891**	**953**
0–4	16.1	8.1	8.0	16.4	8.2	8.2	978	996
5–9	13.4	7.0	6.4	14.3	7.3	7.0	920	966
10–14	10.2	5.7	4.5	10.1	5.4	4.7	780	847
0–14	*39.7*	*20.8*	*18.9*	*40.8*	*20.9*	*19.9*	*904*	*974*
15–19	8.3	4.7	3.6	7.9	4.1	3.8	786	929
20–24	8.5	4.4	4.1	8.6	4.2	4.4	941	1,069
25–29	8.4	4.5	3.9	8.8	4.5	4.3	852	939
30–34	7.2	4.0	3.2	7.4	3.9	3.5	796	897
15–34	*32.4*	*17.6*	*14.8*	*32.7*	*16.7*	*16.0*	*844*	*959*
35–39	5.5	2.8	2.7	5.8	3.1	2.7	997	878
40–44	5.9	3.2	2.7	5.2	2.7	2.5	858	950
45–49	4.6	2.4	2.2	4.2	2.2	2.0	899	886
50–54	4.6	2.5	2.1	4.0	2.1	1.9	833	908
55–59	2.1	1.1	1.0	2.1	1.1	1.0	918	903
35–59	*22.7*	*12.0*	*10.7*	*21.3*	*11.2*	*10.1*	*899*	*905*
60–64	2.7	1.4	1.3	2.4	1.2	1.2	987	1,080
65–69	0.9	0.4	0.5	0.9	0.4	0.5	1,079	1,157
70+	1.6	0.7	0.9	1.8	0.7	1.1	1,244	1,373
60+	*5.2*	*2.5*	*2.7*	*5.1*	*2.3*	*2.8*	*1,075*	*1,190*
Age not stated	Neg.	Neg.	Neg.	0.1	0.1	Neg.	593	898

The table reveals that nearly two-fifths of the population-39.7% is in the young age-group of 0-14. This is fairly near the State percentage of 40.8%. Nearly one-third of the population 32.4% is in the age-group of 15–34. This is nearly the same as for the State. In the 35-59 age-group there is 22.7% of the population as against the State figure of 21.3%. In the 60+ age-group there are 5.2% persons in the district and 5.1% in the State. A bulk of the population is in the younger age-group.

The table below gives the percentage distribution of 100 persons in 1951 and 1961 into broad age-groups.

Table—showing percentage distribution of 100 persons in 1951 and *1961* into broad age-groups.

Age–Group	1951			1961		
	P	M	F	P	M	F
1	2	3	4	5	6	7
0–14	34.9	18.7	16.2	39.7	20.9	18.8
15–34	31.4	18.0	13.4	32.4	17.6	14.8
35–64	28.5	14.9	13.6	25.3	13.3	12.0
65+	5.2	1.7	3.5	2.5	1.1	1.4
A.N.S.	..	..	..	Neg.	Neg.	Neg.

The table reveals that there has been a percentage increase in the younger population i. e. age-group 0–14. The increase to the tune of 4.9% in the composition of the population is fairly significant. There has also been an increase of 1.0% in the 15-34 age-group but there has been a decrease of 3.2% in the 35-64 age-group. This suggests that as compared to 1951 there are fewer persons in the older ages and this is confirmed by the fact that in the age-group 65+ there has been a decrease of 2.7%. Longevity in the district seems to have been affected.

The Scheduled Castes & Scheduled Tribes

The Scheduled Castes

As many as eleven Scheduled Castes (and one unclassifiable) have been returned from the district and the total population is 129,737 persons or 22.1% of the district population. It would not be possible to compare the 1951 and 1961 figures because of the changes in the number of Scheduled Castes. They generally live in rural areas and return 564 workers per thousand persons as against 513 for the district. The sex-ratio among Scheduled Castes is 952 against 891 for the district. Thus the proportion of females when compared to the rest of the district is much higher. The table below gives the details regarding important castes:–

Table—showing the Important Scheduled Castes.

All Scheduled Castes.	Total	Rural	Urban	Percentage to total Scheduled Castes		
				Total	Rural	Urban
1	2	3	4	5	6	7
All Scheduled Castes	129,737	123,063	6,674	100.00	100.00	100.00
Basor	13,994	13,070	924	10.79	10.62	13.84
Chamar	100,777	96,691	4,086	77.68	78.57	61.22
Dori or Domar	646	631	15	0.50	0.51	0.22
Kumhar	11,675	11,157	518	9.00	9.07	7.76
Mehtar or Bhangi	1,360	621	739	1.05	0.50	11.07
Sansia or Bedia	353	245	108	0.27	0.20	1.62

The main occupation among them is cultivation followed by agricultural labour, 'Other Services' and workers in Household Industries. The inset table indicates the position.

	Categories of Work								
Total Workers	I	II	III	IV	V	VI	VII	VIII	IX
100.0	44.5	23.0	1.9	12.9	0.4	1.1	0.1	0.3	15.8

The following are the main castes (which have returned 300 or more persons) (1) Chamars(100,777); (2) Basor (13,994), (3) Kumhar (11,675); (4) Mehtar or Bhangi (1,360); (5) Dori or Domar (646), (6) Beldar or Sunkar (531) and (7) Sansia or Bedia(353).

The Chamars

The Chamars are the traditional workers in leather and hides-the word being derived from Sanskrit '*Charma Kar*' meaning a workers in leather. They constitute 77.68% of the total Scheduled Castes in the district and live mostly in the rural areas. They have returned 573 workers per 1,000 population and nearly three-fourths of them are engaged either as cultivators or as agricultural labourers. The sex-ratio among them is 949. There are 332 workers engaged in tanning and carrying of hides and another 2,317 or 4.0% of the workers are in household industry which mostly consists of workers in the leather trade. As many as 10,046 persons or 17.4% of the workers are engaged in 'Other Services'. From the above it follows that the Chamars though traditional workers in leather are also taking to cultivation and other vocations.

The Basors

The Basors are the workers in bamboos and wooden materials. They constitute 10.79% of the Scheduled Castes. Their main occupation is in Household Industry in which 4,529 persons or 61.2% of the total workers are engaged The industry is mainly making of wooden products, this is followed by workers in cultivation—1,289 persons or 17.4% and 749 persons or 10.1% as agricultural labourers. Their participation rate and sex-ratio is 529 and 969 respectively.

The Kumhars

The Kumhars are the traditional potter class making earthen vessels. They have returned cultivation as their main occupation for as many as 3,085 persons constituting 46.6% of the total workers are engaged in it. This is closely followed by workers in Household Industries which is mostly making earthen vessels. This category constitutes 2,480 persons or 37.5% of the total workers. Other important categories of work returned are 364 persons or 5.5% of the total workers who are engaged as Agricultural labourers, 233 persons are 3.5% in 'Other Services'. They return 567 workers per 1,000 population and the sex-ratio is 936.

The Mehtar or Bhangi

Traditionally this is the sweeper and scavenging caste and 378 persons or 66.6% of the total population is still engaged in scavenging. Their main economic activity is under the category 'Other Services' where they are mostly engaged for personal services. This category of work is followed by cultivation, 50 persons or 8.8% and agricultural labourers 29 persons or 5.1%. They are evenly spread out in the rural and urban areas; but in urban areas they are mostly engaged in scavenging. All mehtars engaged in cultivation live in rural areas. They have returned 418 workers per 1,000 and the sex ratio is 988.

The Scheduled Tribes

The district has returned nine Scheduled Tribes; apart from such persons who were tabulated as Unclassifiables. The Scheduled Tribe population is 17,228 persons constituting 2.93% of the total population, and they live mostly in rural areas The main Tribes (returning 100 or more persons) are:- (1) Gond including Pathari (2,848); (2) Khairwar including Kondars (4,186); (3) Nat Navdigar (618); (4) Saur (5,066) and (5) Sonr (4,442). The table below gives their pattern of work.

Table— showing Distribution of 100 Workers among Industrial Categories by selected Scheduled Tribes

Name of Tribe	Total Workers	Categories of Work								
		I	II	III	IV	V	VI	VII	VIII	IX
1	2	3	4	5	6	7	8	9	10	11
All Scheduled Tribes.	100.00	48.9	24.3	4.7	2.0	0.3	1.4	0.3	Neg	18.1
1 Gond	100.00	73.1	18.0	3.6	3.5	..	0.2	..	..	1.6
2 Khairwar	100.00	57.7	17.5	5.0	3.9	0.6	0.7	0.4	..	14.2
3 Nat	100.00	53.0	24.9	2.4	1.2	1.6	0.4	0.4	1.2	14.9
4 Saur	100.00	44.6	32.0	5.0	0.7	0.1	0.9	0.6	..	16.1
5 Sonr	100.00	29.8	26.6	5.2	0.5	Neg.	2.2	0.1	Neg.	35.6

Among the Tribe the participation rate is as follows :—

Nam of Tribes	Total Population	Total Workers	Total Non. Workers
1	2	3	4
All Scheduled Tribes.	100.00	58.0	42.0
1 Gond	100.00	56.5	43.5
2 Khairwar	100.00	62.5	37.5
3 Nat	100.00	40.3	59.7
4 Sour	100.00	58.3	41.7
5 Sonr	100.00	56.7	43.3

The Gonds including Pathari

The Gonds are fairly well spread out in the entire State, being found in 39 districts. There is a lot of uncertainty about the origin of Gonds in the State. In the XIV century they ruled over Mandla, Chhindwara and the nearby regions. In the district they have returned 565 workers per 1,000 persons and are mostly working as cultivators 1,177 persons or 73.1% of the workers, agricultural labourers 289 or 18.0%. These are followed by workers in Mining, Quarrying, Fishing, Forestry, Live stock etc. 58 persons or 3.6% of the workers and persons engaged in Household Industry 56 persons or 3.5 %. The sex ratio among them is 1,018.

The Khairwar including Kondar

The Khairwars including Kondars return 4,186 persons constituting 24.3 % of the Scheduled Tribes population and live mostly in rural areas. In the districts of former Vindhya Pradesh the Khairwars have been grouped together with Kondars; their respective population being 191 and 3,995 persons. They return 625 workers per thousand and are mostly engaged in cultivation 1,510 persons or 57.7 % of the workers, in agricultural labour 459 persons or 17.5 % of the workers. Other Services 371 or 14.2 % persons, in Mining, Quarrying, and Hunting etc. 132 persons or 5.0 % and Household Industry 101 persons or 3.9 %. Except persons engaged in Mining, Quarrying ect. in which nearly half the number lives in urban areas the other live mostly in rural areas. The sex ratio is 1,079.

Nat, Navdigar, Sapera and Kabutar

In the districts of former Vindhya Pradesh Nat, Navdigar, Sapera and Kabutar have been clubbed together. They total 618 persons or 3.6 % of the Scheduled Tribes population. The participation rate and sex-ratio being 403 and 807 respectively.

The Nat ;—The Nats are treated as Scheduled Castes in the erstwhile Madhya Bharat region and are neither Scheduled Castes nor Tribes in the former Mahakoshal or Bhopal districts. They total 477

persons in the district and are professional acrobates, tight rope walkers and are generally of the wandering type. Their participation rate and sex-ratio is 413 and 863 respectively.

Sapera :—Sapera has been treated as a synonymous group of Nats. The district returns 141 persons. The Saperas are those Nats who are professional snake-charmers. Their participation rate and sex-ratio is 631 and 640 respectively.

Kabutars and Navdigars :—these are synonyms of Nat. As many as 132 persons or 53.0 % of the workers return cultivation, followed by 62 persons or 24.9 % in agricultural labourers and 37 persons or 14.9 % in 'Other Services'.

Saur

The Saurs appear to be the same tribe as Sonrs although they have been separately enumerated in accordance with the Scheduled Castes and Scheduled Tribes (Modification) Order, 1956. They number, 5,066 persons or 29.4 % of the Scheduled Tribes in the district and constitute the largest single tribe in the district. They live entirely in rural tracts and have returned cultivation 1,316 persons or 44.6% of the total workers as their chief occupation followed by Agricultural Labour, 946 persons or 32.0 %. 'Other Services' 476 persons or 16.1 % and in Mining, Quarrying, Fishing, Hunting, etc. 146 persons or 5.0 %. Their participation rate and sex-ratio is 583 and 1,069 respectively.

The Sonr

There are 4,442 persons or 25.8 % the total Scheduled Tribes population which has been returned as Sonr. Their main occupation is 'Other Services' 896 persons or 35.6 % followed by workers in cultivation 749 persons or 29.8 %, workers as Agricultural Labourers 668 persons or 26.6 % and in Mining, Quarrying, Hunting and Fishing etc. 131 persons or 5.2 %. Their participation rate and sex-ratio is 567 and 846 respectively.

The Rural/Urban Setting

Chhatarpur is essentially a rural tract and out of 1,000 persons only 96 persons live in urban areas, and though this figure is well below the State proportion of 143 persons in urban areas, it remains the highest in the division. The comparable figures for other neighbouring districts are:-Panna (51), Tikamgarh (45), Satna (91), Rewa (56), Sagar (227) and Damoh (127).

The last two districts are however in Jabalpur division. During the decade proportion of urban dwellers has gone down, as would appear from the inset table below :—

Year	Proportion of Urban population.	Decade Variation of Urban Population
1	2	3
1951	102	
1961	96	Increase of 14.59 %

This is because of de-classification of four towns *viz.* Harpalpur, Buxwaha, Laundi and Rajnagar : despite the increase in the urban population during the decade.

The Proportion of Workers & Non-workers

The district has returned 513 workers per 1,000 persons. This is a slightly lower figure when compared to the division or State figures of 526 and 523 respectively. Except for Tikamgarh district which has returned 539 workers per thousand, all other adjoining districts return much less.

Table — showing Workers per thousand Population

State/ Divison/ D'strict.	T R U	Persons	Males	Females
1	2	3	4	5
Madhya Pradesh State	T	523	602	440
	R	552	616	486
	U	349	524	145
Rewa Division	T	526	610	437
	R	536	615	453
	U	369	539	166
Tikamgarh District	T	539	612	457
	R	549	618	472
	U	326	493	143
Chhatarpur District	T	513	623	388
	R	527	634	407
	U	380	527	211
Panna District	T	527	618	429
	R	538	625	445
	U	310	494	105
Sagar District	T	473	577	359
	R	503	600	399
	U	369	501	218
Damoh District	T	472	585	355
	R	491	600	379
	U	339	482	182

The district follows the general pattern in returning more workers in the rural areas and the least number among females in urban areas.

The Workers

The table below gives the details of the working categories in the district :—

S. No.	Category of Work	Number of Workers	Percentage to total workers	Ranking
1	2	3	4	5
I	As Cultivators	185,202	61.5	1
II	As Agricultural Labourers	37,663	12.5	2
III	In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and plantations, Orchards and allied activities	10,722	3.6	5
IV	At Household Industry	22,786	7.6	4
V	In Manufacturing other than Household Industry	1,647	0.5	8
VI	In Construction	2,513	0.8	7
VII	In Trade and Commerce	5,568	1.9	6
VIII	In Transport, Storage and Communications	1,224	0.4	9
IX	In Other Services	33,771	11.2	3

From the above cultivation is the main occupation and along with workers as agricultural labourers; they constitute nearly three-fourths of the working force.

Cultivation

Nearly six out of ten workers in the district are cultivators. Barring Chhatarpur tahsil where 51.1 % of the total workers are cultivators, the other two tahsils have returned more than two third workers under this head. In Chhatarpur the figure falls, because there are fewer cultivators in the urban areas.

The details are indicated below:—

Workers in Cultivation Tahsilwise break-up

District/ Tahsil	Workers in Cultivation	Percentage to total workers
1	2	3
Chhatarpur Distt.	185,202	61.5
Chhatarpur Tahsil	75,462	51.1
Laundi Tahsil	51,172	76.3
Bijawar Tahsil	58,568	67.9

The main crops of the district are jowar, wheat, barley, rice, gram, tur, sesamum and linseed. The facilities for irrigation being mearge the cultivation is mostly of the dry type. The table below gives the cropping pattern of the district for the year 1960-61.

Area Sown under various Crops –1960-61

District/ Tahsil	Total cropped area	Area sown under							
		Rice	Jowar	Wheat	Barley	Total cereals and Millets	Gram	Tur	Other pulses
1	2	3	4	5	6	7	8	9	10
Chhatarpur District	100.00	6.52	11.94	17.17	9.82	62.79	15.87	1.93	5.87
Chhatarpur Tahsil	100.00	5.69	14.13	11.48	14.42	67.04	6.38	0.96	7.25
Laundi Tahsil	100.00	1.28	14.43	25.07	3.61	47.90	35.19	4.89	2.34
Bijawar Tahsil	100.00	13.43	5.95	17.11	9.67	72.55	9.16	0.17	7.63

Area sown under									
Total pulses	Total Food grains	Sugar cane	Total food crops	Sesa-mum (til)	Lin-seed	Total oil seeds	Total Non-food Crops	Area sown more than once	Net area sown
11	12	13	14	15	16	17	18	19	20
23.67	86.46	0.30	87.54	9.92	1.78	11.87	12.46	10.55	89.45
14.58	81.62	0.31	83.05	13.71	2.27	16.06	16.95	14.03	85.97
42.42	90.32	0.15	90.75	6.24	2.17	8.71	9.25	1.69	98.31
16.95	89.51	0.44	90.79	8.22	0.61	9.03	9.21	14.95	85.05

This table reveals (a) that out of the total area sown only 10.55 is sown more than once, (b) in Laundi tahsil the area sown more than once is only 1.69%, (c) food crops account for 87.54% of the total area sown, (d) as compared to other tahsils more oil seeds are sown in Chhatarpur, (e) the area under pulses in Laundi tahsil is as high as 42.42% of the total area and (f) although 62.79% of the total area sown in the district is covered by cereals and millets. Laundi tahsil shows only 47.90% of the area when compared to 72.55% in Bijawar.

Area

There has been a steady rise in the net area sown. It touched the highest figure of 604,891 acres in 1959-60 and again came down to 583,219 acres in 1960-61. There has been a steady decline in the area under current fallows. Table 2A. 1 gives the details of land utilisation during the decade. The table below gives the decade variation :—

Year	Net Area sown	Decade Variation Increase
1951-52	519,726	
1960-61	583,219	63,493 or 12.22%

From the above it follows that 583,219 acres or 27.37% of the area, as given in the village papers is under cultivation. The cultivated area in terms of the entire surface is also 27.37%. In the former Chhatarpur State 178,900 acres representing 25.00% of the total area was sown at the beginning of the twentieth century and the double cropped area was 3.94%.

The Crops

Rice :- In 1960-61 rice was sown in 42,486 acres and this represents the highest area sown in the decade. Out of this only 869 or 2.05% was irrigated. Thus rice is mostly an unirrigated crop. Among the tahsils the acreage proportionately is the highest in Bijawar tahsil being 13.43%.

Jowar :- The area under jowar has varied from 50,419 acres in 1951-52 to 98,359 acres in 1954-55. When the rainfall is less, acreage goes up. It is entirely unirrigated. In 1960-61 it was sown in 77,840 acres. As among the tahsils, Laundi with 14.43% has proportionately greater acreage under jowar.

Wheat :- The acreage under wheat has been going up steadily. It was 82,679 acres in 1951-52 but rose to 121,999 acres in 1959-60. In 1960-61 out of a total acreage of 111,929, 35,437 acres or 31.66% was irrigated. Thus much of the wheat is of unirrigated type. In Laundi tahsil it is sown in 25.07% of the total area sown.

Barley :- The highest acreage under barley was in 1951-52 when 65,566 acres were sown. The acreage was least 58,908 acres in 1953-54. The variation has not been much. The crop is mostly of the irrigated variety; 50,750 acres out of 64,060 or 79.22% acres being of the irrigated variety.

Gram:- In 1951-52 gram was sown in 85,134 acres and during the next six years the acreage showed a downward trend. It has gone up again and in 1960-61 it was sown in 103,504 acres. It is mostly unirrigated and only 7,970 acres or 7 7% receive the benefit of irrigation. As among the tahsils it is sown in 35.19% of the total sown area in Laundi.

Tur- The area sown under tur has been steadily going up. It was 7,252 acres in 1951-52, touched a maximum of 13,455 in 1959-60 and came down to 12,580 in 1960-61. It is mostly unirrigated. In Laundi it is sown in 4.89% of the total sown area.

Sugar-cane:- Very little of sugarcane is grown in the district. Since 1951-52 the acreage has been steadily going down. In 1960-61 it was sown in 1,940 acres out of which 1,856 or 95.67% was irrigated. The facilities for irrigation being very limited and there being no scope for marketing the sugar-cane, very little of it is sown.

Condiments & Spices:- The area sown under condiments has steadily been going down. It was 1,757 in 1951-52 touched the rock botton of 953 in 1958-59, and although it never reached its former acreage, but totalled 1,193 acres in 1960-61. Almost all condiments need irrigation. The condiments grown are:- onions, carlic, coriander and ginger.

Til (Sesamum):- Til was grown in 79,892 acres in 1951-52. During the decade the acreage showed general increase except in 1960-61 when it fell to 64,653. In Chhatarpur and Laundi tahsils it is sown in 13.71% and 6 24% of the total area respectively.

Rape and Mustard:— The cultivation of rape and mustard has shown some increase during the decade. It was sown in only 202 acres in 1951–52, 197, 284, 170 and 372 in 1952-53, 1953-54, 1954-55 and 1955-56. Thereafter it increased to 1,226 in 1956-57 and 1,063 in 1960-61.

Linseed: — The acreage has varied between 5,592 acres in 1954-55 and 11,575 in 1960-61. The crop occupies 1.78% of the total area sown. In Chhatarpur and Laundi the acreage is 2.27% and 2.17% respectively.

Fruits and Vegetables:— The acreage under fruits and vegetables has been steadily going up. It was 1,469 acres in 1951–52 and kept increasing steadily, crossed the 3,000 acres mark in 1957-58 and was sown in 3,931 acres in 1960-61.

Irrigation:-

In the district privately owned wells are the main source of irrigation followed by tanks and canals. Leather buckets or charas and wooden rehats are mainly used for irrigation. Some pumps have also been installed in the last few years There were as many as 29,328 pacca and 3,117 katcha wells in use for irrigation in 1963-64 and nearly 100,000 acres were irrigated by these giving about 3 acres per well. The progress of irrigation in terms of plan periods is indicated below* :—

Source of Irrigation	Before I Plan Period	Area Irrigated in acres End of I Plan	End of II Plan	During III Plan up to 1963-64
1	2	3	4	5
By Wells	81,660	83,900	93,379	104,941
By Tanks	7,925	8,015	6,665	5,849
By Canals	372	900	1,514	6,479
By other sources	120	700	1,306	741
Total	90,077	93,515	102,864	118,010

*Source :- District Agricultural Officer

The figures show an all round increase except in the case of tanks where they appear to have gone down.

Statistics during 1951-52—1960-61

During this period which nearly (if not exactly) coincides with the 'before I plan and after II plan stages' the area under irrigation remained as follows† :—

Year	Area under Irrigation	Variation + Increase – Decrease	Percentage Variation
1	2	3	4
1951–52	96,662		
1960–61	102,354	+ 5,692	+ 5.89

The figures given by the two sources do not exactly tally, but are fairly near each other and call for no further elucidation.

The break up of the sources of irrigation is indicated below :—

Year 1960--61

Total area	All other Sources	Tanks	Wells	Canals
1	2	3	4	5
102,354	903	5,782	92,773	2,896
100.00	0.88	5.65	90.64	2.83

†Source – Director Land Records

From the above it follows that wells are the main sources for irrigation. The acreage under canals has also been going up and this is mainly due to the construction of minor and medium projects. Out of a total area of 583,219, as many as 102,354 acres or 17.55% were irrigated in 1960-61.

Workers in Mining, Quarrying, Forestry, Fishing, Hunting, and Plantations, Orchards and allied Activities

There are 10,722 persons 8,007 males and 2,715 females or 3.56% of the workers in this category. Out or these 6,271 persons or nearly 58.49% are in the rural areas. The main categories are:—

S. N.	Code No.	Brief description of the Industry	No. of Workers			Percentage to total workers of the category	Ranking
			P	M	F		
1	2	3	4	5	6	7	8
1	005	Production of vegetables	433	347	86	4.04	6
2	006	Production of fruits and nuts in plantation, vines and orchards	232	201	31	2.16	7
3	007	Production of wood, bamboo, cane, reeds, thatching, grass etc.	2,203	1,280	923	20.55	2
4	009	Production of other agricultural produce	1,256	880 (Urban)	376	11.71	3
5	015	Production of other plantation crops not covered above	1,082	717	365	10.09	4
6	021	Felling and cutting of trees and transportation of logs	543	283	260	5.06	5
7	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as goat, buffalo and cow	4,284	3,749	535	39.96	1

Workers in the Household Industries

There are 22,786 persons 15,649 males and 7,137 females constituting 7.6% of the total number of workers. These are mostly confined to the rural areas where 20,445 persons or 89.73% of the total workers of this category live. In Chhatarpur tahsil alone there are 13,368 persons or 58.67% of this category. Laundi tahsil with 2,583 persons or 11.34% has returned the least workers among the tahsils of the district. The details regarding the industries are : (only the main household industries have been considered).

S. No.	Code No.	Brief description of the Industry	No. of workers			Percentage to total workers of the category	Ranking
			P	M	F		
1	2	3	4	5	6	7	8
1	040	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	3,585	2,680	905	15.73	2
2	206	Production of butter, ghee, cheese and other dairy products	1,262	425	837	5.54	6
3	207	Production of edible fats and oils (other than hydrogenated oil)	1,865	957	908	8.18	4
4	273	Making of textile garments including rain–coats and headgear	889	786	103	3.90	9
5	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors and windows	1,088	1,065	23	4.77	7
6	288	Manufacture of material from cork, bamboo, cane, leaves and other allied products	5,066	2,974	2,092	22.23	1
7	311	Manufacture of shoes and other leather foot wear	1,759	1,703	56	7.72	5
8	350	Manufacture of earthen–ware and earthen pottery	2,371	1,417	954	10.41	3
9	369	Manufacture of sundry hard–wares	1,001	969	32	4.39	8
10	393	Manufacture of jewellery, silver–ware and wares using gold and other precious metals.	858	813	45	3.77	10

From the above it follows that there are no household industries of any note in the district. Manufacture of materials from cork, bamboo production and rearing of live-stock and manufacture of earthen wares and pottery alone account for 48.37% of the workers in the industry. All these callings are rural in nature and do not require a professional skill of any high order and may be found in an area where the economy is markedly rural. The other callings too are of similar nature.

Workers in the Manufacturing other than Household Industry

In this category there are 1,647 persons 1,459 males and 188 females, constituting 0.5 % of the total workers. It is obvious from the above that there are very few workers in this category suggesting still fewer industries. The main industries are detailed below :

S. No.	Code No.	Brief description of the Industry	No. of Workers			Percentage to total workers of the category	Ranking
			P	M	F		
1	2	3	4	5	6	7	8
1	200	Production of rice, atta, flour etc. by milling, dehusking and processing of crops and food-grains	183	142	41 (R)	11.11	2
2	273	Making of textile garments including raincoats and headgears	301	293	8 (U)	18.28	1
3	282	Manufacture of structural wooden goods such as beams, posts etc.	141	140	1 (U)	8.56	3

As many as 1,076 persons out of 1,647 or 65.33 % of the total workers are engaged in urban areas and are engaged in various manufacturing processes. The making of textile garments, raincoats and manufacture of structural wooden goods is mostly confined to the urban areas, but the production of atta, flour etc. is carried out in rural areas. All other manufacturing processes which are not many engage less than 100 workers.

Workers in Construction

The district has returned 2,513 persons 2,205 males and 308 females or 0.8 % of the total workers in this category. They are mostly (71.15 %) in the rural areas. Laundi tahsil has returned only 88 persons—all males—followed by Bijawar 790 persons 657 males and 133 females. Chhatarpur tahsil with 1,635 persons 1,460 males and 175 females has the highest number of workers in this category.

The details regarding this category of workers are :—

S. No.	Code No.	Brief description of the Industry	No. of workers			Percentage to total workers of the category	Ranking
			P	M	F		
1	2	3	4	5	6	7	8
1	400	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	779	694	85	31.00	2
2	401	Construction and maintenance of railways, roads, bridges, tunnels	1,262	1,146	116	50.22	1
3	403	Construction and maintenance of water ways and water reservoirs such as bund, embankment, dam, canal etc.	472	365	107	18.78	3

Workers in Trade and Commerce

There are 5,568 persons 4,586 males and 982 females or 1.85 % of the total workers in this category. A greater portion of the workers 3,603 persons or 64.71 % are in the rural areas. There are only 639 persons or 11.48 % in Laundi tahsil as against 1,466 or 26.33 % and 3,463 or 62.19% in Bijawar and Chhatarpur tahsils respectively. The details regarding the above category are:—

S. No.	Code No.	Brief description of the Industry	No. of workers			Percentage to total workers of the category	Ranking
			P	M	F		
1	2	3	4	5	6	7	8
1	640	Retail trade in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry etc.	3,011	2,413	598	54.08	1
2	650	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk, etc.	409	406	3	7.35	3
3	689	Retail trade in goods unspecified	655	488	167	11.76	2

Trading is mostly of a retail and miscellaneous character and this seems to underline the fact that there is not much of trade or commerce in the district.

Workers in Transport Storage & Communications

There are 1,224 persons 1,137 males and 87 females or 0 41 % of the total workers in this category of work. They are spread out in urban and rural areas; the urban areas however return 54.98 % of the category. Laundi tahsil has returned only 46 males workers and Bijawar 142 persons 125 males and 17 females. In Chhatarpur tahsil there are 1,036 persons 966 males and 70 females constituting 84.64 % of the workers of this category. In the city itself there are 393 persons in the above category. The details are :—

S. No.	Code No.	Brief description of the Category	No. of Workers			Percentage to total workers	Ranking
			P	M	F		
1	2	3	4	5	6	7	8
1	700	Transporting by railways	62	62	..	5.07	6
2	701	Transporting by tramways and bus services	317	316	1	25.90	1
3	702	Transporting by motor vehicles (other than omnibus)	159	159	..	12.99	5
4	703	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka	202	200	2	16.50	4
5	704	Animal transporting by animals, such as horses, elephant, mule, camel	231	157	74	18.87	2
6	730	Postal, Telegraphic, Wireless and signal communications	203	203	..	16.58	3

The district leans heavily on road transport thus in the railways only 62 persons are employed. There are no tramways in the district thus all workers under Code 701 are working in bus transport. They are mostly urban dwellers. The workers under Code 702 and 703 mostly reside in urban areas but in 704 which pertains to transporting by animals the workers live in rural areas. The same is also true of workers under Code 730. (Chhatarpur town is an important main artery of communications and is an important road-head.

Workers in Other Services

The district has returned 33,771 persons 21,232 males and 12,539 females or 11.22 % of the total workers in this category. Out of these 26,882 persons are in rural areas.

As against this there were 12,310 persons 7,034 males and 5,276 females in these categories in 1951. There has been 174.34 % increase during the decade. Some of the important categories are :—

Category of Service.	Year	Persons	Males	Females	Variation (+) (—) Persons	Variation (+) (—) Percentage
1	2	3	4	5	6	7
Medical & Health Services	1951	309	297	12		
	1961	799	687	112	+ 490	+ 158.58
Educational and Research Services	1951	837	717	120		
	1961	2,588	2,399	189	+ 1,751	+ 209.20
Police other than Watchmen	1951	955	331	624		
	1961	1,004	1,004	...	+ 49	+ 5.13
State Government Employees	1951	400	390	10		
	1961	1,525	1,505	20	+ 1,125	+ 281.25
Central Government	1951	117	91	26		
	1961	185	185	..	+ 68	+ 58.12
Barbers and Beauticians	1951	1,785	1,200	585		
	1961	1,160	1,156	4	— 625	— 35.01
Laundries and Laundry Services	1951	415	304	111		
	1961	666	272	394	+ 251	+ 60.48

There has been considerable increase in practically all the categories. In the Health and Educational Services and in the number of State Government employees, the increase is of a very high order being 158.58 %, 209.20 % and 281.25 % respectively. Under the category of Police the number of females does not indicate their being in the force but includes the families, the 1961 figure however only gives the strength of the force. The increase in the number of Government servants is of a very high order. This is due to the opening of departmental offices and the expansion resulting therefrom. The expansion of educational institutions is reflected in the increase in the number of workers under this head. Barbers and beauticians have gone down in number and this is due to the fact that no females have been returned as workers under this category. In 1951 there were as many as 585 females in that category.

Non-Workers

The non-workers were tabulated under eight categories the details of which are presented in the table below :—

Table—showing Non-workers classified by the type of activity

	Name of Category	Total Rural Urban	Males	Females
	1	2	3	4
	Total Non-working Population	Total	100.00	100.00
		Rural	100.00	100.00
		Urban	100.00	100.00
1	Full time Students	Total	20.65	2.39
		Rural	18.42	1.48
		Urban	36.72	8.97
2	Household duties	Total	0.09	35.54
		Rural	0.10	34.09
		Urban	...	45.93
3	Dependents, Infants and disabled	Total	77.27	61.14
		Rural	79.80	63.51
		Urban	59.00	44.04
4	Retired, Rentier or independent means	Total	0.89	0.46
		Rural	0.73	0.46
		Urban	2.05	0.48
5	Beggars, Vagrants etc.	Total	0.74	0.45
		Rural	0.78	0.46
		Urban	0.51	0.41
6	Inmates of penal, mental and charitable institution	Total	0.10	0.02
		Rural	Neg.	...
		Urban	0.75	0.17
7	Persons seeking employment for the first time	Total	0.16	Neg.
		Rural	0.11	Neg.
		Urban	0.55	Neg.
8	Unemployed but seeking work	Total	0.10	...
		Rural	0.06	...
		Urban	0.42	...

The table reveals that among the males 97.92 % of the non-workers are either dependents or full time students. In the urban areas more than one third of the non-workers 36.72 % are full time students. The proportion of dependents falls to 590 per 1,000 in the urban areas. There are very few rentiers or persons of independent means among the males.

(Among the females a great majority, as many as 61.14 % of them are dependents or infants or the disabled type, followed by those engaged in household duties. Only in the urban areas 8.97 % have been returned as full time students. These three categories constitute 99 07 % of the total population; the rest are negligible.)

IV

COMMUNICATIONS

The only rail link in the district is at Harpalpur on Manikpur–Jhansi branch line of the Central Railway. An all weather road connects Harpalpur to Chhatarpur the distance being 32 miles. Thus from the rest of the country the district is quite cut off. During the tourist season the winter months, on every Sunday a plane service touches Panna (43 miles) and brings tourists to khajuraho. The district is also approachable from Sagar by road the distance being 97 miles, from Jhansi 80 miles, Panna 43 miles and Tikamgarh 79 miles. Recently a bridge has been constructed over the Betwa between Jhansi and Nowgong and this has greatly facilitated the flow of traffic. The Tikamgarh–Rewa road *via* Nowgong, Chhatarpur, Panna and Saina was the main artery of communication in the erst–while Vindhya Pradesh, the capital being at Rewa. In Rewa division Chhatarpur still remains a main artery for communications being centrally situated, at the cross roads to Sagar, Bhopal, Jabalpur, Kanpur, Gwalior, Jhansi, Tikamgarh, Rewa and Allahabad.

Apart from these roads there are 751 miles and 3 furlongs of district roads. Out of these 200 miles are black topped. Besides this there are 125 miles of katcha road. Lack of better facilities of communications have in no uncertain way contributed to the economic backwardness of the district.

Apart from these roads there are post and telegraph offices which connect Chhatarpur to the rest of the country.

During the tourist season an IAC Flight touches Panna carrying tourists for Khajuraho. A landing strip has now been constructed at Khajuraho, where tourists come directly. The number of flights depend on the tourists for whose convenience extra flights are made available.

THE SUMMING UP

The district is now composed of as many as eight petty States of the former Bundelkhand Agency. It lies in a hilly tract and the forest is not particularly valuable. The soil is generally poor and facilities for irrigation are limited : dry cultivation is the main prop of the economy. The district as an administrative centre has some importance as practically all the offices of the different departments are located here. The dacoity problem in the district has engaged the special attention of the Government.

The District and Statistics

The district occupies 1.96 % of the surface area of the State and returns 1.81 % of the population; thus showing lesser concentration of population than found elsewhere in the State. The district ranks twenty seventh in the matter of population (587,373) other districts in the same range of population being Guna (595,825), Sidhi (580,129) and Betul (560, 412). As compared to Bilaspur (2,021, 793) the most populous district of the State, Chhatarpur has less than one third of its, population but it has almost two and half times the population of Datia (200, 467) With an area of 3,330 sq. miles, the district ranks twenty fourth. Some other districts having comparable area are : Seoni 3,360 sq. miles, Raisen 3,277.7 sq. miles and Dhar 3,183.5 sq. miles. In terms of the largest and smallest district, Chhatarpur is over four and half times smaller than Bastar 15,127.7 sq. miles the largest district and four times bigger than Datia 786 sq. miles. In the matter of growth of population during the last sixty yearsChhatarpur with a total growth of 33.15 % ranks forty first out of forty three in the State. Only Narsimhapur 30.71 % and Datia 24.46 % have returned less growth. After 1911 the district lost in population in the next two decades. The 1931 population was less than the population in 1901.

The People

Although there are as many as five towns in the district the composition is more rural than urban; the proportion being 904 : 96. There are only 891 females per 1,000 males and this is low for the region. Hindus form the bulk of the population, and Hindi is the main mother tongue spoken. The population generally has stayed within the district and not migrated elsewhere. A little over one fifth of the population is Scheduled Castes with Chamars, Basors and Kumhars being the main castes. The participation rate in the district is 513 per 1,000 and is fairly near the State figure of 523. Cultivation is the main occupation of the people followed by workers as agricultural labourers. These two categories alone account for nearly three fourths or 74 % of the total workers. Among other categories of work 'Other Services' and Household Industrises come next. In the decade the area under cultivation has shown an upward trend although there has not been much of increase in irrigation.

The district still remains somewhat cut off, but draws a lot of tourists because of Khajuraho.

Some Important Places in the District

(1) *Alipura* : (pop. 2,964)

(Please see page xxxvii).

(2) *Bijawar* : (pop. 7,079)

Bijawar is now a tahsil and the headquarters are also located in the town, Bijawar. A Block has been located here and the tahsil along with some portion of Nowgong returns one member to the State Legislature.

(Please also see page xxxvii).

(3) *Buxwaha* : (pop. 3,555 xxxvii)

A village in Bijawar tahsil on the road to Damoh. A NES Block has been located here. Its importance lies because of its situation affording good communications, particularly for the anti-dacoity operations.

(4) *Chhatarpur* : (pop. 22,146)

(Please see page xxxvii for the historical background).

As the district headquarters the town has grown considerably in the last few years. A Degree College and Post Gradute Basic Training College have been located in the town. A Circuit House and Dak Bungalow provide accommodation for the tourists who come during the winter months. The town is situated at the junction of the cross roads leading to Jabalpur, Sagar, Panna, Datia, Jhansi and Kanpur and thus is at an important road junction.

(5) *Dhubela* :

About nine miles from Chhatarpur on the Nowgong road. (lies this small village). A museum has been located here in an ancient building.

(6) *Garrauli* : (pop. 1,445)

(Please see page xxxviii)

(7) *Gaurihar* : (pop. 1,420)

(Please see page xxxviii)

(8) *Harpalpur* : pop. 5,790)

Harpalpur is a railway station on the Jhansi-Manikpur branch line of the Central Railway and is the main rail link in the district. It is a part of Sersed village. Buses from here ply towards Nowgong, Chhatarpur and Panna.

(9) *Khajuraho* : (pop.2,140)

The name of Khajuraho conjures in the mind a series of beautiful temples, some of whom have erotic sculptures. Regarding Khajuraho Luard wrote* :—

"The old name as given in inscriptions was *Khajjuravahaka* the bard Chand in his *Prithviraj Raisa* has called it *Khajurapura* or *Khajjin-pura* Tradition ascribes the origin of the name to two golden *Khajur* trees (date-palms) with which the city gates were ornamented, but it was more probably due to the prevalence of this tree in the neighbourhood. It was in the early days a place of importance being the capital of the kingdom of Jijhotia, which practically corresponded with modern Bundelkhand."

The temples are superb pieces of architecture and are now under the protection of the Archaelogical Department, which levies a small fee for entrance.

Khajuraho is reached from Chhatarpur or Panna by a road being about 27 miles from Chhatarpur and 28 miles from Panna. An IAC Flight brings tourists every Sunday up to Panna from where buses bring them to Khajuraho. There are Circuit Houses at Khajuraho, Panna and Chhatarpur and during the season there is heavy booking.

(10) *Laundi* : (pop. 4,939)

The old name is said to be Lavapuri. Legend has it that it was founded by Lava the son of Rama. It is a tahsil headquarters, A NES Block and police station are also located here. Mahoba (U. P.) on Jhansi-Manikpur line is 14 miles away.

(11) *Lugasi* : (pop. 2,921)

(Please see page xxxviii)

(12) *Maharajpur :* (pop. 11,762)

A small town lying 13 miles north east of Chhatarpur. The town is looked after by a Municipality founded in 1939. A police station is located here and is within the jurisdiction of Chhatarpur tahsil.

(13) *Mahoba* : (pop. 1,657)

A small village about one mile west of Dhubela. Here a mausoleum had been built by the Peshwa in the memory of Chhatrasal, the founder of many Bundelkhand States. The later rajas of Chhatarpur, Charkhari made additions to it. Near this mausoleum is another one, dedicated to the memory of Rani Kamlapat first wife of Chhatrasal. It is said that Chhatrasal left his robe, sword and crown before disappearing. These, symbols of power have now been placed in Dhubela museum.

(14) *Malhera* : (pop. 6,728)

The village lies 10 miles north east of Chhatarpur on the Banda-Chhatarpur road. A police outpost is located here. Once it was particularly noted for its good quality betel which is grown even to-day.

---

* The Central India State Gazetteer Series, Chhatarpur State Gazetteer, (1907), by Capt. C. E. Luard M. A., (Oxon), p. 57.

(15) *Mau*: (pop. 2,285)

It is an old village situated about 10 miles north west of Chhatarpur and four miles south east of Nowgong and is reached by a road.

(16) *Naigawan Rebai* : (pop. 1,101)

(Please see page xxxviii)

(17) *Nowgong* : (pop. 8,604)

Nowgong was the headquarters of the Bundelkhand Agency during the British regime and the headquarters of a Political Agent. Formerly the Kitchener College for the training of the Armed Forces was located here. It was later changed to an Army Cadet College, which has now been shifted.

At present a Training Centre for Wireless is located here, It is a neat township and many rulers of Bundelkhand had built their guest houses here. Each year during the Christmas week, sports, games and a fair is organised. The following offices and Institution are also located here : The Superintending and Executive Engineers, P. W. D. and Irrigation, a T. B. Hospital and a Government polytechnic.

(17) *Rajgarh* : (pop. 620)

An old village about 27 miles south east of Chhatarpur. It is said to have been founded by Hirde Shah. The village is situated at the foot of a hill. A Basic Training Institution is located here.

(18) *Rajnagar* : (pop. 4,653)

Rajnagar is an old village said to be over 200 years old. A NES Block and a police station have been located here. It was a tahsil in the former Chhatarpur State.

APPENDICES TO TOWN & VILLAGE DIRECTORY

CONTENTS

S. No.			Pages
Appendix	I	Industrial Establishments	237—251
Appendix	II	Towns and Villages served by metalled roads (All villages having roads in the village itself or within one mile of the village are in cluded in the Appendix)	252—253
Appendix	III	Towns and Villages having railway stations within five miles	253
Appendix	IV	Towns and Villages having bus-stops	254
Appendix	V	Towns and Villages having public libraries	255
Appendix	VI	Towns and Villages having public reading rooms ...	255
Appendix	VII	Towns and Villages having pucca wells for the supply of drinking water together with their number.	256–259
Appendix	VIII	Towns and Villages having public latrines	260
Appendix	IX	Towns and Villages having drains	260
Appendix	X	Towns and Villages in which weekly or fortnightly markets are held together with the day on which it is held.	261
Appendix	XI	Towns and Villages having co-operative societies together with the description of the society	262

APPENDIX I

INDUSTRIAL ESTABLISHMENTS

Note:— This appendix has been prepared from information abstracted from the houselists. It is arranged first districtwise; that is, under the name of the district have been arranged the industries in ascending order of minor groups; showing the total number of establishments within brackets next to each minor group. The information has been shown by total, rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total rural and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been presented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separately for each ward, the number of ward being given first, followed by the industrial code numbers etc. as in the case of villages.

The following examples will make the above note clear ;—

Chhatarpur District total 200 (188) signifies that there are 188 establishments in Chhatarpur District pertaining to Minor Group 200, which stands for "Production of rice. atta, flour etc. by milling, dehusking and processing of crops and foodgrains" Laundi Tahsil Total 207 (261) signifies that there are 261 establishment in Laundi Tahsil pertaining to Minor Group 207, which stands for "Production of edible fats and oils (other than hydrogenated oil)." Village 1 Manwara 369 (1) Signifies that in Village Manwara which has 1 as its location code number there is one establishment pertaining to Minor Group 369, which stands for "Manufactare of Sundry hardlwares such as G. I. pipe, wire net, bolt, screw, bukket, cutlery". In Chhatarpur Town, Ward No. 1 200 (4) signifies that there are 4 establishments located in ward No. 1 of Chhatarpur Town pertaining to Minor Group 200, which stands for "Production of rice, atta, flour etc. by milling dehusking and processing of crops and foodgrains."

PART II

OTHER DISTRICT STATISTICS

This part contains some useful official statistics pertaining to the district collected and compiled from various agencies (the agency or source is indicated below each Table or Statement) and from official publications. These are presented under the following heads :—

1 Rainfall and Temperature

2 Economic Statistics :

- (a) Agricultural
- (b) Prices and Wages
- (c) Live-stock and Taccavi
- (d) Co-operation, Banking and Insurance

3 Administrative Statistics

4 Progress of Community Development Programme

5 Educational Statistics

6 Health, Medical and Vital Statistics—

- (a) Health and Medical
- (b) Vital Statistics

7 Communications

8 Miscellaneous
