PREFACE

1. DISTRICT AND POLICE STATION MAPS .....

2. INTRODUCING THE DISTRICT ..... 1—17

3. INTRODUCING THE STATISTICS ..... 18—21

4. THE VILLAGE DIRECTORY ..... 22—171

5. A—GENERAL POPULATION TABLES

A—I & Appendices I to III — Area, Houses and Population.....173—178

A—II — Variation in Population during sixty years.....179

A—III — Villages classified by population.....180—181

A—IV & Appendix — Towns (and Town-groups) classified by population in 1961 with variation since 1901.....182—183

6. B—GENERAL ECONOMIC TABLES

B—I — Workers and Non-workers classified by sex and broad age-groups.....184—186

B—III Pt. A — Industrial Classification of Workers and Non-workers by educational levels in urban areas only.....188—195

B—III Pt. B — Industrial Classification of Workers and Non-workers by educational levels in rural areas only.....196—201

B—IV Pt. A — Industrial Classification by sex and class of worker of persons at work at Household Industry.....212—214

B—IV Pt. B — Industrial Classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service.....215—221

B—IV Pt. C & Appendix — Industrial Classification by sex and divisions, major groups and minor groups of persons at work other than cultivation.....222—226

B—V — Occupational Classification by sex of persons at work other than cultivation.....227—249

B—VI — Occupational divisions of persons at work other than cultivation classified by sex, broad age-groups and educational levels in urban areas only.....250—254

B—VII Pt. A — Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by Secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural Labourer.....256—261

B—VII Pt. B — Industrial Classification by sex of persons working in non-household industry, trade, business, profession or service who are also engaged in Household Industry.....262—265

B—VIII Pt. A — Persons unemployed aged 15 and above by sex, broad age-groups and educational levels in urban areas only.....267—268

B—VIII Pt. B — Persons unemployed aged 15 and above by sex and educational levels in rural areas only.....269

B—IX — Persons not at work classified by sex, broad age-groups and type of activity.....270—279

7. C—SOCIAL AND CULTURAL TABLES

C—II — Age and Marital Status.....280—291

C—III Pt. A — Age, Sex and Education in all areas.....292

C—III Pt. B — Age, Sex and Education in urban areas only.....293

C—V — Mother tongue (alphabetical order).....294—302

C—VII — Religion .....303—306

C—VIII Pt. A — Classification by literacy and industrial category of Workers and Non-workers among Scheduled Castes.....308—309

C—VIII Pt. B — Classification by literacy and industrial category of Workers and Non-workers among Scheduled Tribes.....310—311

8. SCT—TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

SCT—I Pt. A — Industrial Classification of persons at work and non-workers by sex for Scheduled Castes ..... 313—327
SCT—I Pt. B — Industrial Classification of persons at work and non-workers by sex for Scheduled Tribes..... 328—336
SCT—II Pt. A — Age and Marital Status for Scheduled Castes..... 338—349
SCT—II Pt. B — Age and Marital Status for Scheduled Tribes..... 350—357
SCT—III Pt.A(i) — Education in urban areas only for Scheduled Castes..... 359—362
SCT—III Pt.A(ii) — Education in urban areas only for Scheduled Tribes.....363—364
SCT—III Pt.B(i) — Education in rural areas only for Scheduled Castes.....365—366
SCT—III Pt.B(ii) — Education in rural areas only for Scheduled Tribes.....367
SCT—IV Pt.A — Religion for Scheduled Castes.....369—371
SCT—IV Pt. B — Religion for Scheduled Tribes.....372
SC—I — — Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes .....373—376
ST—I — — Mother tongue and Bilingualism for Scheduled Tribes.....377—378
ST—II — — Persons not at work classified by sex and type of activity for Scheduled Tribes.....379—381

9. INTRODUCING THE OFFICIAL STATISTICS.....382—385

10. TABLES ON OFFICIAL STATISTICS

1. RAINFALL AND TEMPERATURE

1.1 Monthly Total Rainfall at important centres in the district from 1951 to 1960.....386—388
1.2 Average Annual Rainfall at important centres in the district.....388
1.3 Maximum and Minimum Temperatures by station and by month in the district from 1951 to 1960.....389—390

2. VITAL STATISTICS

2.1 Number of births and deaths as reported in the district from 1951 to 1960.....391
2.2 Deaths from some selected causes in the district from 1951 to 1960.....392

3. LAND UTILISATION AND AGRICULTURE

3.1 Land Utilisation Statistics in the district for the decades 1901 to 1961.....393
3.2 Area under principal crops in the district for the decades 1901 to 1961.....394
3.3 Gross area irrigated under different crops in the district for the decades 1901 to 1961.....395
3.4 Sources of irrigation in the district for the decades 1901 to 1961.....395
3.5 Yield rates of principal crops in the district, 1951-52 to 1959-60.....396
3.6 Daily agricultural wages at some selected villages in the district from 1957 to 1960.....397—410
3.7 Fortnightly wholesale prices of important commodities in the district from 1958 to 1960.....411—450
3.8 Average retail prices of important commodities in the district for 1951.....451—461

4. LIVESTOCK

4.1 Variation in the number of main Livestock in the district during 1945 to 1961.....462

5. INDUSTRIES

5.1 List of all categories of industries in the district based on Houselists.....463—468
5.2 List of small scale industries operating in the district.....471—477
5.3 Large scale industries and registered factories in the district.....478—481

6. ADMINISTRATION

6.1 Number of criminal cases tried and persons convicted in the district from 1951 to 1960.....482
6.2 Strength of Police and Jails in the district from 1951 to 1960.....483—484
6.3 Different types of Co-operative Societies in the district from 1951-52 to 1960-61.....485
6.4 Receipts of revenue under different heads in the district from 1951-52 to 1960-61.....486
6.5 Number of Registered Documents and Value of property transferred, 1951 to 1960.....487

7. PUBLIC HEALTH AND MEDICAL

7.1 Different classes of Public Health and Medical Centres in the district from 1951 to 1960.....488

8. EDUCATION

8.1 Number of different types of educational institutions and number of students in the district in 1959-60 and 1960-61.....489—491

9. PUBLIC ENTERTAINMENT, PRESS AND JOURNALS

9.1 *Number of Printing Presses, Newspapers, Cinema Houses, other places of public entertainment and Periodicals & Journals*.....492

10. COMMUNICATION

10.1 Names and length of village roads in the district .....493—503
10.2 *Different categories of roads in the district as on 31st March, 1961*.....504—505
10.3 Railway Stations in the district from 1950-51 to 1960-61.....506
10.4 Navigable waterways in the district.....507

11. LOCAL BODIES

11.1 List of Anchalik Panchayats in the district.....508—511
11.2 List of Municipalities & Town Committees in the district.....512

12. COMMUNITY DEVELOPMENT

12.1 Names and Stages of the Community Development Blocks in the district.....513

13. BANKS AND SMALL SAVINGS

13.1 List of Banking Institutions functioning in the district *1960-61*.....514
13.2 Gross and Net collections on Small Savings in the district from 1951-52 to 1960-61.....514

14. FAIRS AND FESTIVALS AND HATS AND MARKETS

14.1 List of Fairs and Festivals—times of the year and duration in the district.....515—517
14.2 List of different types of Hats and Markets in the district.....518—522

15. CALENDAR OF IMPORTANT EVENTS

A descriptive note on the calendar of important events of the district.....523—524

16. ANCIENT MONUMENTS, PLACES OF WORSHIP AND GAZETTEER OF PLACE NAMES

A descriptive note on the Ancient Monuments and Antique objects & Gazetter of place names in the district.....525—528

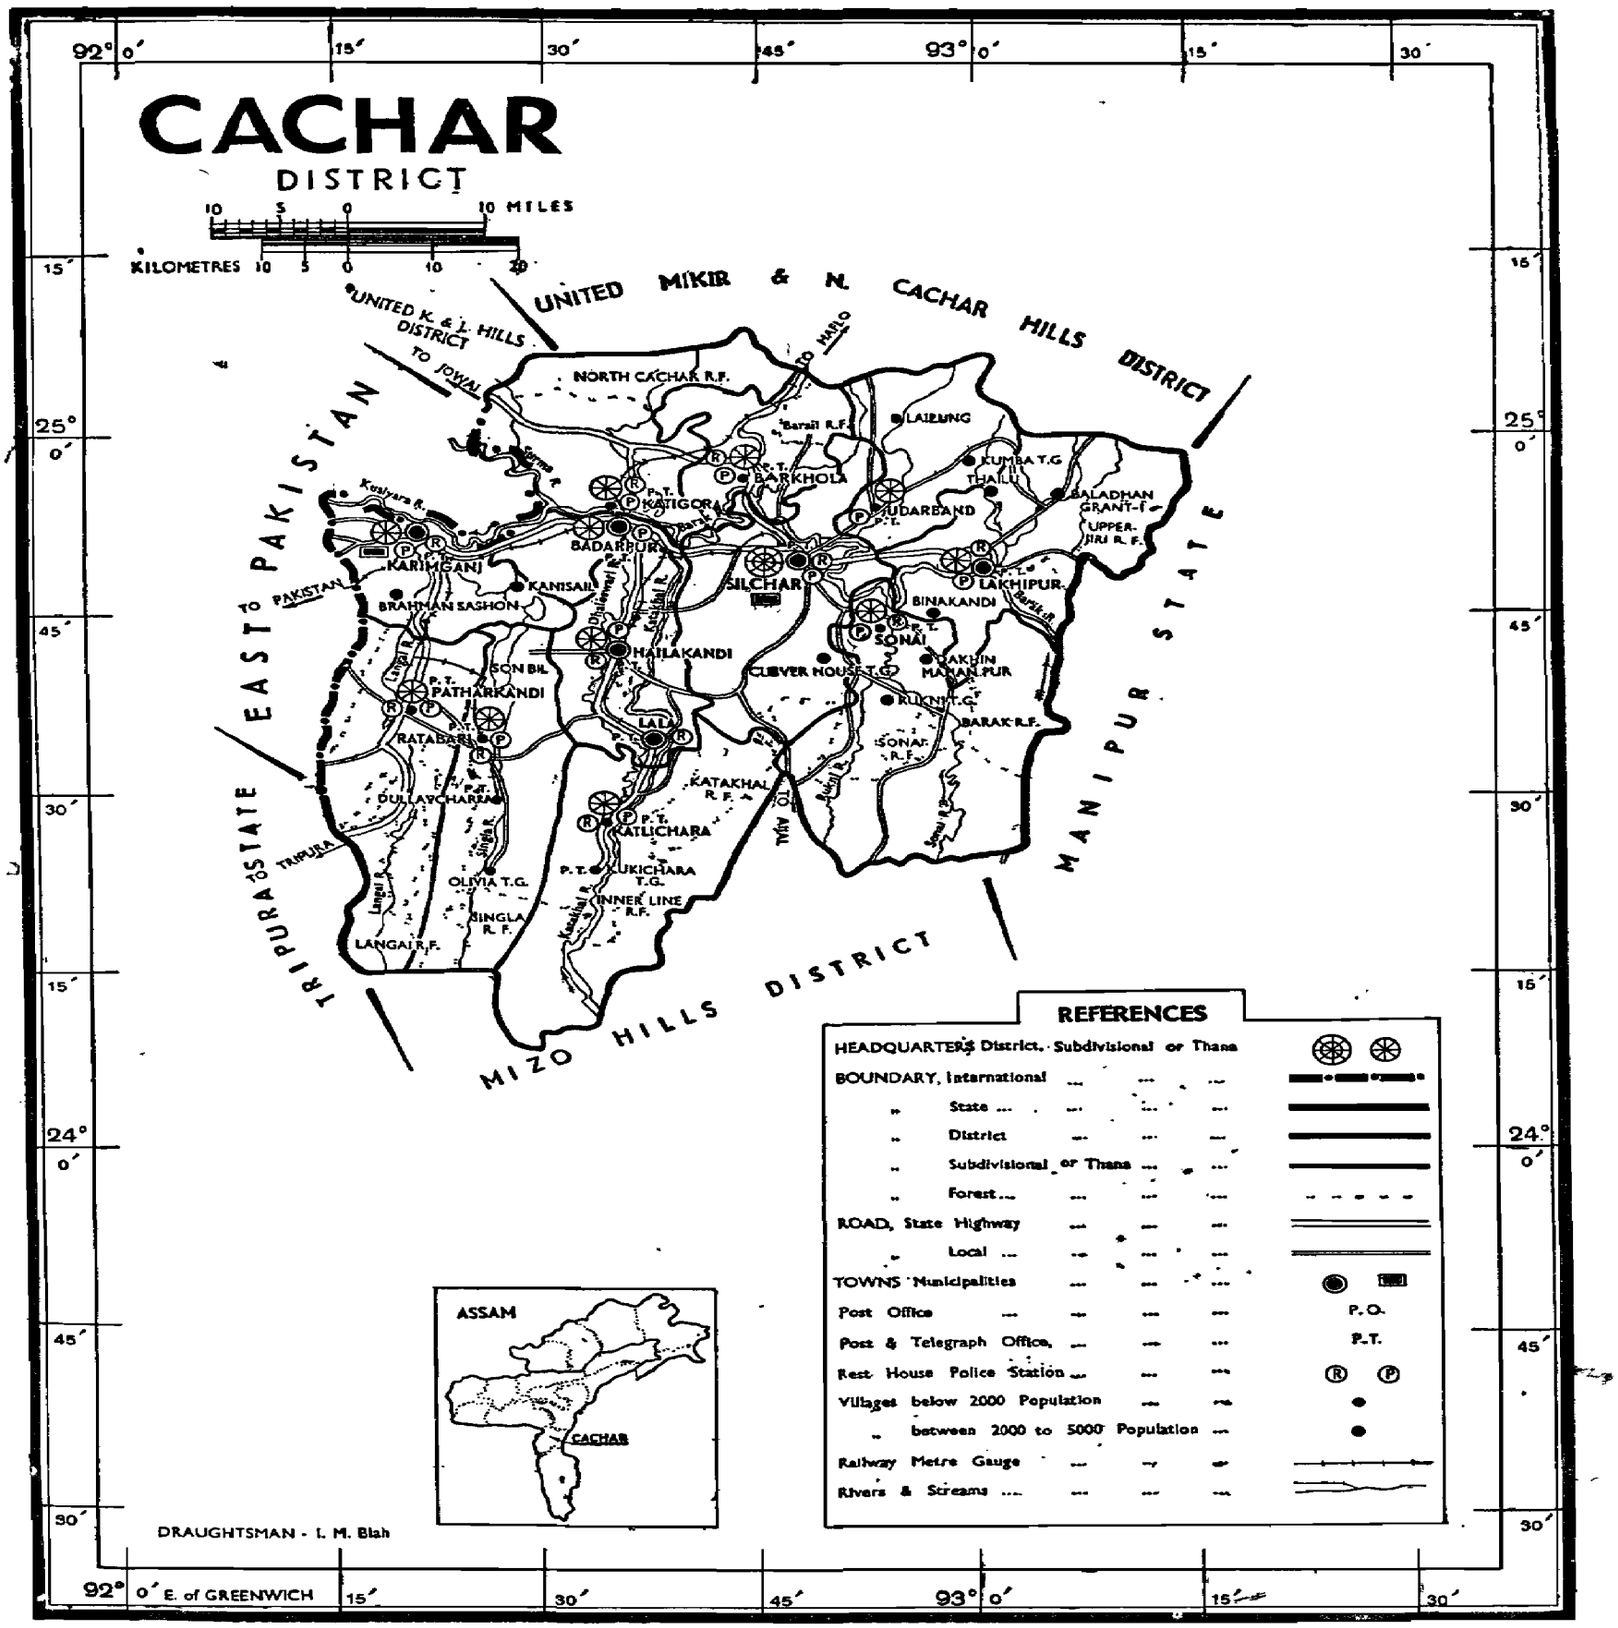

PREFACE

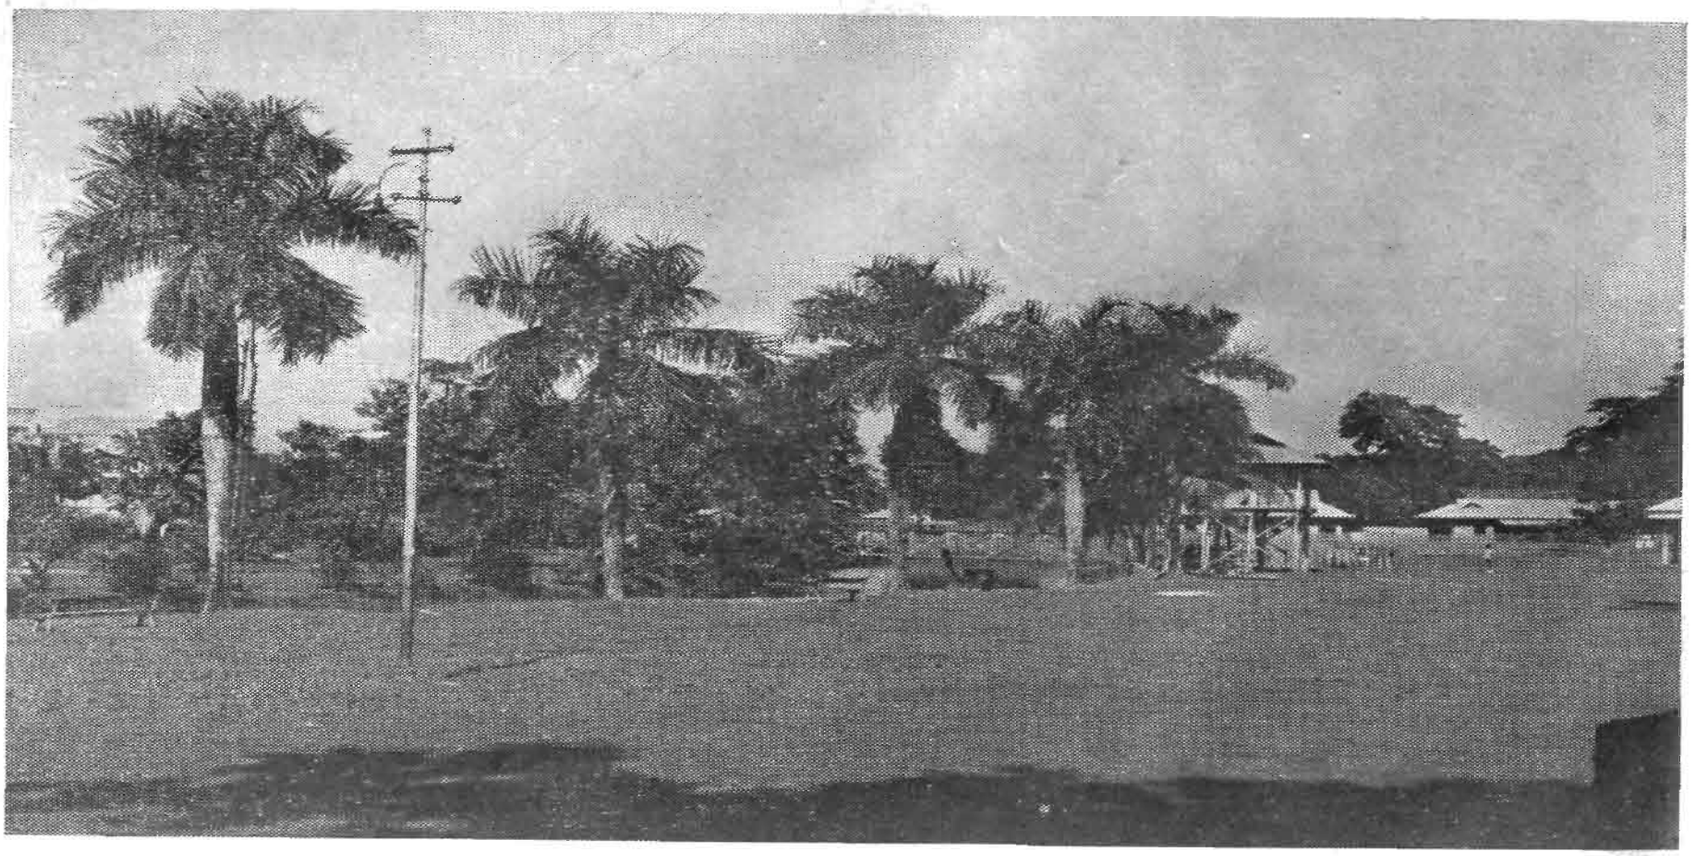

District Census Handbooks were introduced for the first time during the 1951 Census. In the 1961 Census, the District Census Handbooks have further been improved by making the introduction of the districts more elaborate, by the addition of official statistics and by having separate tables for Scheduled Tribes and Scheduled Castes. The introduction to each district is a sort of gazetteer giving the physical features, geological data, climate, rainfall and temperature, flora and fauna etc. and a short history of the people inhabiting the district. Sociological data about the people have also been given briefly. Attempts have also been made to appraise the impact of the two Five Year Plans on the economy of each district. Official statistics are given in the form of tables, but there is also an introduction explaining the purpose and utility of the official statistics. For example, the District Census Handbook will supply the number of schools and dispensaries existing in each district as well as the road mileage and many other data which one would like to know about each district. Such data will be useful to the administrators, legislators and sociologists who want to study the people of any district.

Data on the various subject mentioned above have been collected from the District Gazetteers prepared by Mr. B. C. Allen ICS, from monographs written on the people by well-known ethnographists and sociologists as well as from various Departments of Government, both Central and State. Many Deputy Commissioners and Subdivisional Officers have greatly helped me in supplying such data as are available with them concerning the district. The nature, quality and quantity of the data supplied by each Deputy Commissioner and Subdivisional Officer vary directly according to the interest that each officer has in his district/subdivision.

The preparation of tables was done under the able guidance of Sarvashri J. C. Bhuyan and K. S. Dey, Tabulation Officers, to whom I am greatly indebted. I could not have dictated my write-ups in such a short space of time had it not been for the great help given by my two Stenographers, Sarvashri G. Raghuram and J. Ramsden.

INTRODUCING THE DISTRICT

The district of Cachar is bounded on the north by the United Mikir & North Cachar Hills District and the United Khasi-Jaintia Hills ; on the east by the Manipur State ; on the south by the Mizo Hills District and on the west by the Sylhet District of East Pakistan and the Tripura State. This district is situated between longitude 92°15′ and 93°15′ East, and latitude 24°8′ and 25°8′ North, and covers an area of 2,680 sq. miles. It has three subdivisions, viz. Silchar, Hailakandi and Karimganj. The Silchar subdivision consists of the thanas of Katigora, Udarband, Lakhipur, Silchar and Sonai ; Hailakandi consists of Hailakandi and Katlicharra ; and Karimganj consists of Karimganj, Badarpur, Patharkandi and Ratabari.

PHYSICAL ASPECTS

The Cachar district is a heterogeneous land composed of both high hills, low lands, and level plains. The general appearance of this district is extremely picturesque. On the north, east and south it is shut in by ranges of purple hills whose forest-clad sides are seamed with beautiful landscapes. The Silchar subdivision includes the southern section of the Assam range and a belt of hilly country with an average width of six to seven miles, containing peaks between three to four thousand feet in height. The Bhuban range on the eastern frontier covers a considerable area, and rises in places to over 3,000 feet above the level of the sea, while the Saraspur hills on the west of the Hailakandi valley stretch in a continuous line to the Barak. Almost the whole of the country north and south of the river Barak is dotted with low-ranged isolated hills called "tillahs" which rise from the level of alluvium soil. The Barail hills on the north strike the head-water of the Larang and the Kayang nalas and culminate in the peaks of Kalangtam, Sharpal and Dolla. Low hills crept up here and there rising like rocky islets, and in one direction or another, mountains always come in view. To the south much of the country is still covered with primeval forest. Farther north the higher lands are planted with tea, while the lower levels are covered with rich crops of waving rice. The river Barak flows through the centre of the plain valley region. Here and there swamps and beels, with clumps of elephant grass and reeds lend variety to the view. Most of the parts of the Barak's banks are lined with villages covered in groves of slender areca palms, broad-leaved plantains and feathery bamboos, and in all seasons of the year the country looks fresh and green. The hills on the southern part of this district are covered with dense ever-green forest and bamboo jungle.

ORIGIN OF THE NAME

In olden times this tract of land was known as "Haidimbadesh". It is said that Haidimba, the demoness resided in this place. While in exile, prince Bhima happened to meet Haidimba as a result of which prince Ghototkach was born to them. He ruled this country during his life time. But according to the late Maniram Barman, the word "Haidimba" signifies a sacred place located between two rivers surrounded by banyan trees. The dynasty of the Kachari kings originated from an ousted prince of Kamarupa who finally settled down in this place. Mr. Gait is of opinion that "the Kacharis gave their name to this district of Cachar. It is also possible that the name might have been given to this district by the Bengalis of Sylhet because it is an outlying place skirting the mountains. The word 'kachar' in Sylhetee means a stretch of land at the foot of a mountain. The word is derived from Sanskrit where 'kachchha' means 'a plain near a mountain', or 'a place near water' whence the name of Katch in Gujarat.

In the 16th Century A.D. the Kachari kings were known as 'Hidimbeswar' according to several inscriptions of that time. One Kachari king at that time was also styled as 'Lord of Hidimba'. From this time the name Hidimba or Harimba frequently occurs in inscriptions and other records.

RIVER SYSTEM

The principal river of Cachar is the **Barak** or 'Barobakro' which rises on the southern slopes of the lofty ranges of Nagaland and forms the northern boundary of the Manipur State where it is known as Kairong. From there it flows a westerly and southerly course to

Tipaimukh, where it sharply turns to the north, and for a considerable distance forms the boundary line between Cachar and Manipur. In the language of the Kacharis the river is known as Khallangma. After its junction with the river Jiri, it turns again to the west, and flows a turtuous course across the centre of the district till it reaches Badarpur. From Badarpur to Haritikar, the Barak forms the boundary between Cachar and Sylhet district of East Pakistan. At Sylhet, the river is divided into two branches, the southern arm being called the Kusiyara, while the northern branch being known as the Surma, continues to form the boundary of Cachar up to Jalalpur. The total length of the Barak from its source to its confluence with the old channel of the Brahmaputra near Bhairab Bazar is about 560 miles ; but of this only 120 miles lie within the borders of Cachar. In the cold weather, the Barak is in places extremely shallow, the river flows between steep banks which rise to a height of 40 to 50 feet on either side. After heavy rain in the hills it is subject to strong freshets, and the level of the water sometimes rises 20 to 30 feet in a surprisingly short space of time.

THE JIRI

The Barak receives numerous small tributaries from the hills through which it makes its way, but the Jiri is the first important affluent to join in the Cachar district. This river rises in the North Cachar Hills and flows a course of 75 miles to its confluence with the Barak, during the greater part of which it forms the boundary line between Assam and Manipur. Its principal tributaries are the Jhinam and the Digli or Kumrunga which drain the hills immediately to the west.

THE CHIRI AND MADHURA

A little to the west of Lakhipur, the Barak receives the Chiri or Longkhao which rises on the southern slopes of the range near Haflong. The next important tributary is the Madhura or Bongpai which joins it a little to the west of Silchar.

THE JATINGA

The Jatinga river is well-known because the railway line runs along its valley. It rises south of Haflong and flows west and south through the hills till it emerges on the plain at Panighat. From here it flows through the Borkhala Pargana, and after receiving the Doloo on its left bank, falls into the Barak nearly oppoiste to Joynagar, after a course of 36 miles. West of the Jatinga there are numerous small streams which drain the country south of the Barail, but are of little importance except as drainage channels. The bed of the Jatinga river is full of gravels which are abundantly used in construction works. These gravels from the river beds are generally lifted by big country boats during winter.

THE SONAI

The principal rivers on the south are the Dhaleswari and the Sonai. The latter rises in the Mizo hills and after a zig-zag northerly course of 60 miles, falls into the Barak at Sonaimukh. As far as Maniarkhal it flows through forest land, but from this point to its mouth its banks are bordered with villages.

THE DHALESWARI

The Dhaleswari also rises in the Mizo Hills where it is known as the Tlong. Originally, it used to flow along the western side of the Hailakandi valley and falls into the Barak a little to the east of Badarpur. A former king of Cachar is said to have diverted its course a little above Rangpur, and the old channel is now dried up for a distance of about one mile after the commencement of the new channel which is called the Katakhal. In spite of the fact that the lower reaches of the Dhaleswari are completely cut off from the river that issues from the Mizo Hills, the bed still contains a considerable quantity of water, and between June and September a boat of about four tons burden can proceed above Hailakandi town as far as Ainakhal. The Katakhal flows along the east of the valley and falls into the Barak near Salchapra. The banks are steep and high and the channel of the river is deep, but it is liable to sudden freshets which occasionally do some damage to the villages in the neighbourhood. The country between the Sonai and the Katakhal is drained by the Rukni, a tributary of the former river.

THE LONGAI

The river Longai is a tributary of the Barak which rises in the Jampai hills of the Tripura range, and flows a northerly course towards Karimganj. Afterwards it turns its way westwards through the Hakaluki haor (marshy land) and falls into the Kusiyara. In the rainy season, the river does not possess a separate existence of its own when it flows through the Hakaluki haor. The total length of the river along with the Jiri is about 95 miles.

MOUNTAIN SYSTEM

From the Jaintia Hills to a point a little to the west of Asalu, the Barail or 'great dyke'

runs almost from the southwest to the northeast across the district, and forms a continuous wall of mountains, gradually increasing in height towards the northeast. The Bhuban hills are a continuation of the Mizo Hills range, and run almost to the north along the eastern boundary of the district to the junction of the Jiri and the Barak. The main range contains many peaks of moderate height which take the form of serrated ridges on either side to the east and the west. The Rengi hills also project from the Mizo Hills and are separated from the Bhuban hills by the broad valley of the Rukno and the Sonai rivers. After entering this district, they throw out a well-defined spur towards Baruncharra on the west, but the main range continues northwards past Cooly Ghat, and then takes a sharp bend westward to Jafirbund. Throughout the whole of its length, the Hailakandi valley is shut in between these two ranges. The first section in the south-west is known as the Chatachura range, and starts from the peak of that name whose summit is 2,087 feet above the level of the sea. The hills gradually decline in height, and in the middle section, which bear the name Saraspur, are only 1,000 feet above sea level near the Barak, where they are known as the Badarpur hills, they are only a few hundred feet in height. A little to the east of the Chatachura range runs another outer range of much lower hills, different section of which are known as the Katlicherra, Alexandrapur, and Latakandi hills. South of Jafirbund, almost the whole of the Hailakandi subdivision east of the Dhaleswari is dotted over with low hills, but the actual range which stretches northwards from the southern frontier of the district to the Barak and bounds the Hailakandi valley on the east, is known under the following names going from south to north ; Jalnacherra, Baruncherra, Rupacherra, Nunaikhal, Hasiura Kalacherra, Bandukmara, Mohonpur and Rabatabad hills. North of Jafirbund, these hills are very low, and the different sections of the range are separated from one another by considerable intervals of level land. The Bhuban range and the hills to the south of the Hailakandi valley are covered with forest and dense bamboo jungle, and take the form of narrow ridges with steeply sloping sides which here and there bristle into small peaks. North of the Barak, the outlying spurs of the Assam range have level summits covered with a rich and fertile soil.

GEOLOGY

Beyond the limestone ridge to the southeast of the hot spring, the upper tertiary rocks extend in an unbroken range of the Barail range. These rocks are horizontal, consisting of fine-grained sand-stones and shales. The tertiary succession revealed in this district is given below :—

Older Alluvium	Pebble beds	Pleistocene
Dihing	Pebble beds and beds of soft clay	do
Tipam Series	Dupitile stage, Girujan clay stage, Tipam sandstone stage	Miocene
Surma Series	Bokabil stage, Bhuban stage Unconformity	do
Barail series	Rengi stage, Jenam stage, Laisong stage	Oligacene
Disang series		Cute Eocene

The Disang series give rise to low ground and its outcrop is very clearly indicated by the strike valley of the upper part of the Larang, the Kayang and the upper part of the Jatinga. West of the Kayang, all but the upper beds are cut out by the Haflong-Disang fault.

The Tipam series is known well over a vast area being found as far south-west as the Arakan coast of Burma extending through Tripura to a few synclinal areas in North Cachar Hills and then to Hakong valley in Burma.

The Tipam series is divisible as follows :—

Dupitile stage 519 m.	.. ..	Coarse ferruginous sandstone with numerous layers of quartz pebbles.
Girujan clay stage 899 m.	.. ..	Mostly argillaceous rocks in which mottled clays predominate.
Tipam sandstone stage 914 m.	.. ..	Coarse, gritty, ferruginous sandstone, blue to green in colour, weathering orange brown to yellow and shale. Fossil wood is abundant in a few localities.

Typical sections are exposed in the hills between the Chargola and the Langlai valley, the Rath Tita, south-west of the Hailakandi valley, in the Dikcha river, north-east of Lakhipur, where the the Tipam sandstone are there and tends to show some characteristics of the Girujan stage. In the Bhuban hills, the Tipam outcrop is marked by long narrow valleys which develop in the shales. Near Labak, east of Silchar, there are several good

sections oi the Girujan stage. It is not definitely known whether the Dupi Tila beds occur at all.

The Dihing series about 609 to 914 m. thick lie unconformably over the Tipam series, showing an abrupt and entire change in lithology. They are made up of an alternation of pebble beds and beds of soft clay which look like recent alluvium. The Dihing beds are exposed near Madhura, north-east of Silchar near Nagar Tea Garden, Binnakandi, and near Chandranathpur. The pebble beds consist of quartzite and sandstone pebble (often stained red) embedded in a matrix of red sand. The development of sharp overfold here makes it impossible to ascertain the thickness of the beds exposed. It is a very thick shale series.

Over it lies with apparent conformity the Barail series of Oligocene age. The Barail outcrops which continue from Jaintiapur to East Pakistan, in an east-west direction, gradually bend north-east beyond the Jatinga gorge. The type section of the Barail is provided by the Jenam river in North Cachar where they can be classified into the following stages :—

Rengi stage 883 m.	..	Massive sandstone.
Jenam stage 1218 m.	..	Sandstone, alternation with shale and carbonaceous shale.
Laisong stage 2437 m.	..	Bedded sandstone, subordinate shale.

The Laisong stage is exposed near Bandarkhal in railway cutting and in the Jenam near Laisong. The Jenam stage is well seen near Kur Kuri, near the head water of the Dalu and the Madhura rivers. The Rengi stage forms the hills north of Badarpur.

The overlying Surma series, with an unconformity at base, occupies a large area in the district, occuring in many inliers and forming a strip along the northern side of the Barak valley. The Surma series has been sub-divided as follows :—

Surma Series	Bokabil stage 914-1523 m.	Sandy shale, clay-shale, ferruginous sand-alternatives, ferrugiunous massive, falsebedded sandstone.
	Bhuban stage 1751·5 m.	Sandstone, impure sandstone shales, sandy shales conglomerates.

The divisions are recognizable over a distance of 332 k.m. The Bhuban stage is well exposed immediately north of the Barak near Badarpur, in the Bhuban hills from which the name of the stage has been adopted, in the hills on either side of the Hailakandi Valley, in the hill section between Damchara and Bandarkhal and in the Dalu the Madhura rivers. A rich fossil bed at the top of the Bhuban stage occurs at Kanchanpur 26 k.m. south-southwest of Badarpur.

The Bakabil stage as a whole forms a sort of passage from the Bhuban stage up into the Tipam sandstone stage.

HIGH LEVEL ALLUVIAL DEPOSITS

Older alluvium occur in the two plateaus, one lying at about 61-107 m. above the alluvial level near Kumbhir, north-east of Silchar, and the other near Dewan, east of Silchar, at about 30 m. above the alluvial level. The Barak valley appears to mark the junction of two movements of rocks in different directions, one from the north and the other from the east, and to have suffered in consequence. The Barail range strike east-west and the Disang and the Barails have been folded into an anticline with an east-west axis. South of the Barak, the strata have been folded into north-south wave-like corrugations which give rise to the alternations of lines of hills and valleys. In the corrugations the tops are usually narrower than the bottoms of the troughs and the inclined flanks separating the crest from the trough are very steep, the strata dipping at high angles. In many instances one of the flanks of the fold is much steeper than the other and in these asymmetric anticlines it is common to find strike-faulting accompanied by vertical and inverted strata.

MINERAL DEPOSITS

This district is not very rich in mineral deposits. Salt springs exist both in the Bhuban hills and the Barail hills ranges. Petroleum was also found at Masimpur and Badarpur on the bank of the Barak on the Larang stream. Petroleum is reported to occur in the Patharia Reserve forest. In the Badarpur-Masimpur field, petroleum was obtained from the Bhuban stage of the Surma series. The field was actively proposed by the Burma Oil Company Ltd. for 18 years from 1915 to 1933 but the oil-bearing sands were of restricted extent and their exhaustion led to the final abandonment of the field. The company drilled 63 wells and obtained 1,864,000 barrels of crude oil which was refined at the Digboi refinery.

THE KACHARIS

HISTORY

The Kacharis of Cachar are generally supposed to be a section of the great Bodo tribe of the Tibeto-Burman family. The original place of this powerful race was somewhere between the Yarkhanddaria and the Khasgardaria rivers in the Gobi desert of Central Asia. They came down to Assam in successive waves and settled down permanently. They even penetrated as far south as the Tipperah Hills. Gradually their population increased greatly in numbers, and they travelled by land and by water to 'Nilachal' the hill near Gauhati on which the temple of Kamakhya stands. From Nilachal they moved forward and finally settled down at Dimapur. At the beginning of the thirteenth century, they occupied the western portion of Sibsagar and a large part of Nowgong district. The ruins of Dimapur still show that the town must once have been the seat of a tribe, far in advance, both in power and civilization.

Being harassed by the Ahoms, a race of people of the great Shan-Thai family who migrated to Assam in the beginning of the 13th century A. D., the Kachari kings retreated southwards in the middle of the 16th century A. D. to Maibong in the North Cachar Hills where they built up a capital on the bank of the Mahur river.The king Megha-Narayan built up a palace-cum-temple of bricks and stone with a well-built gate, probably of the Dimapur pattern. Two stone tablets dated 26th day of Ashara (July-August) in 1498 Sakabda (1576 A. D.) bear the king's name and mention the completion of the stone-built royal gate. Apart from these, an image of Vishnu in black-stone of the Orissa sculpture, a few images of gate keepers and a horse in crude Bodo sculpture in local stone have also been found. Floral works in stone display the fine artistic sense of the Kachari sculptors (R. M. Nath, B. E.). The remains of the brick ruins show that once it was a thriving place of the Kachari kingdom.

The Ahoms never gave up the pursuit after the Kacharis. They were determined to make the Kacharis own allegiance to the Ahoms, while the Kacharis were equally determined never to be subdued by the Ahoms. Rudra Shingha, one of the most powerful of the Ahom kings, proposed to invade the Kachari Kingdom and crush the Kacharis for ever. He invited all his generals and officials in his camp at Biswanath (in Nowgong) in December 1706 A. D., and after recruitment of a huge army, he blessed them personally to make a three-pronged attack against Maibong. Maibong was taken and sacked by the Ahom army. The Kachari king Tamradhwaj fled southwards to Khaspur, and hearing that the Ahom troops had surffered severely from the sickness during the rains, applied to the Jaintia king for help to recover his lost territory. But unfortunately he was treacherously seized by the Jaintia king. Means were however found of applying to the Ahom king for help, which was not refused. A strong force was sent through both the North Cachar and Jaintia Hills and the Jaintia king was severely defeated by the Ahom army. The captured Kachari king was rescued by the Ahoms and was reinstated on the Kachari throne. From this time onware the Kaceari princes seemed to have settled in the plains of Cachar, their court being usually located at Khaspur. The Kachari king Suradarpa Narayan set himself to to reorganise the people and improve the capital. Brick-built palaces and temples were constructed in different parts of Khaspur and the kingdom was named Haidimba kingdom. All the Kacharis living in different parts of Assam owned moral allegiance to the lord of Khaspur and the country up to the Jamuna river in Nowgong remained under his control. An outpost to the west of the Jamuna river near Dimapur marked the boundary of the territories of both the kingdoms. On the western bank of the river was the outpost of the Ahom (Mohong) and on the eastern bank was the outpost of the Kacharis (Di-jua), and the place was popularly called—"Mohong-Dijua", now a flourishing village inhabited by the Mikirs and the Kacharis.

The Brahmins and high class people from Koch-Behar, Tipperah and Sylhet flocked to the royal court seeking employment and the king patronised them all. Immigrants from Sylhet, Bengal and other part of India were also encouraged to settle in the newly established kingdom and cultivators were encouraged to encroach on the Tipperah territory to the south in the Dhaleswari valley which was a sloping highland.

Mr. Soppitt gives 1750 as the year in which the Kacharis migrated to the plains of Cachar. During the reign of Dharmadhwaj or his successor, Kirti Chandra, the Kacharis moved from Maibong to the plains of Cachar. Two reasons are assigned for this migration ; one that Dharmadhwaj had married the daughter of the king of Hill Tipperah and had recevied the upper valley of the Barak as dowry. The other was that the Kacharis were attacked by the Jaintia king on the west. The account given by the Ahom chronicles seems to be more acceptable. It was only natural that the king, having been once driven to the plains by the Ahoms, should remain there in preference to returning to Maibong, a place which had been destroyed.

The first connection of the British with the district dates from 1762, when Mr. Verelst

marched from Chittagong to assist the Manipuri king Jop Singh who had been driven from his throne by the Burmese and halted with his army at Jatrapur near the present Silchar town. The army remained there for about a year but due to death and disease amongst the army and due to the difficult route to Manipur, Mr. Verelst could not proceed further and was ultimately recalled.

The next historical event of importance was the formal conversion of king Krishna Chandra to Hinduism in 1790 A. D. According to Mr. R. M. Nath some shrewd Brahmin priests of Sylhet declared the king to be a pure Hindu by making him take a new ceremonial birth from the womb of a golden cow specially made for the purpose, which of course, they afterwards apportioned amongst themselves by pieces. But the old religious preceptors following the king from Assam did not give up their hold, and the Vaisnava sacred book Naradiya Purana was translated by Bhubaneswar Bachaspati (1733) into the spoken dialect, while the holy Bhagavata Puranan was read and explained daily in the royal court.

A few years later, the last prince Godinda Chandra was driven from the throne by Marjit Singh of Manipur with the help of the Burmese. Afterwards the Burmese drove Marjit Singh from this plare to the Surma Valley. The Burmese then threatened to annex Cachar, but the British Government, which was in possession of Sylhet, was unable to permit a powerful nation to extend its territory right up to the frontier of Sylhet. Taking the side of the Kachari King, they expelled the Burmese, and handed back the district to Godinda Chandra. In return for their assistance, he was required to pay an annual tribute of Rs. 10,000 which proved somewhat heavy upon the resources of country. The king then took up his abode at Haritikar, but in 1830 he was assassinated by a batch of Manipuri marauders, very likely at the machination of the Manipuri king Gombhir Singh. In the absence of natural heirs his h s territory lapsed to the British Government under the term of a treaty executed in 1826. This district was formally annexed by the proclamation of August 14, 1832.

A large portion of the North Cachar hills had however been seized by a man called Kacha-Din (Kahidan) who had originally been one of the king's table servants. He was led astray down into the plains and killed, but his son Tula Ram succeeded in holding his own against the various attacks made upon him. In 1829 Gobinda Chandra was induced by Mr. Scott, the Agent to the Governor General on the north-east frontier of Bengal, to recognise his independence and assign him a separate fief. This territory was subsequently resumed by the British Government in 1854, in consequence of the misconduct and incapacity of Tula Ram and his descendants.

During the Kachari reign numerous emigrants of Bengalis came from Tipperah, Mymensingh, Rangpur and Sylhet to Cachar and settled there. With the establishment of the British rule there was a further wave of such immigrants in connection with administrative affairs.

ARCHAEOLOGY

The district of Cachar contains some archaeological remains of recent origin of which one or two possess some archaeological merit. Brief notes of different historical remains collected from the writings of Mr. R. M. Nath B. E. with his kind permission are given below :—

(1) **Sidheswar Shiva Temple** : On the left bank of the Barak river, about a furlong to the east of the Badarpur ghat Railway Station, there is an old shrine dedicated to the Hindu god, lord Shiva. Previously there was a gap of about half a mile between the shrine and the river course. But due to heavy erosion of the river by the 1916 flood, the river course now flows grazing the main temple which is built upon a rock. There is a stone image of lord Shiva in the form a lingam and some other deities in the form of rock besmeared with red pigment. The shrine of Shiva's consort Parvati otherwise known as Shakti or Bharabhi which is always an adjunct to a Shiva temple, stands on a hillock on the south of the Railway line. The temple which was built about two hundred year ago has been improved and renovated. According to tradition, the main lingam is of touch stone and was installed there in the days of yore by a saint named Kapila, the author of the Samkhy philosophy. So the the shrine is known as Kapila-Ashram. Another tradition says that the shrine was installed by one Pura Raja, a local chief who was a vassal either of the Tipperah king or of Lokenath, a governor of the Joytunga-Varsha (i. e. Jatinga Valley) under the suzerainty of the Tipperah king.

(2) **Nimatra Shrine** : On the peak of a hillock about 2½ miles south-east of the Damcherra railway station, through the Katlicherra-Jatinga Valley T. E. there is an old shrine of Nimatra, containing a slab of roughly dressed hard sand-stone about 3½ ft. square and 6″ thick fixed up vertically. This is the emblem of the goddess Bana-Durga, an aspect of goddess Durga, being the guardian deity of the forests and hills. It is said that the shrine was in great veenration during the reign of the Kachari kings.

(3) **Imam Mehdi Mokam :** It is a grave of a Muhammedan hero, respected as a holy shrine, located in the village Banda-sil on the left bank of the Barak river about a mile below Badarpur, near Talitikar village.

(4) **Khaki Pirs Mokam :** In the Deorail village about a mile to the west of the Badarpur Railway Station, on the main road leading to Karimganj, stands the grave of Pir Adam Khaki. He was a companion of Pir Shah-Jelal with the help of whose divine power. Shikandar Gazi wrested Sylhet from the Hindu king Gaur-Govinda in 1304 A. D. Shah Jelal, coming from Yemen in Arabia, had a following of 360 desciples who were all pirs or aulias propagating the Muhammedan faith amongst the Hindus of Sylhet.

(5) **Shah Badar-Uddin Mokam :** Shah Badar-Uddin is said to have been a Muhammedan holy man who had a mokam or residence on the bank of the Barak river on a small hillock where the old Badarpur fort stands. No trace of the mokam however is there at present, and it is only a tradition.

(6) **Shah Arpin's Mokam :** About a mile and half above the Badarpur T. E. in the Saraspur hill range, there is a shrine, containing the grave of a Muhammedan saint named Shah Arpin which is regarded as a holy place.

(7) **Rajar-mar-dighi :** To the east of the Bihara Railway Station there is a small brick-built temple and a big tank. The tank is called Rajar-mar-dighi i. e. the tank of the queen mother, and a temple containing an image of lord Shiva and of other deities.

(8) **Lakhi Tillah :** A small hillock about 9 miles to the south-west of the Silchar town on the Srikona road contains ruins of a stone-built temple with a lot of carved stones and broken images of various deities. This is locally known as Laklaki tillah. It might have been contructed by the Kachari king Lakshmi Chandra (1772-1780 A.D.) who was a great builder.

(9) **Narsingh Akhra :** In the heart of the Silchar town in Narsingh tola, there is an old temple established in about 1846 A.D. by a sadhu named Bhagavan Das Ramayati hailing fram Ayodhya (Oudh) of U.P.

There are several other akhras or vaishnava shrines in the Silchar town established by the Bengalis who settled in the town during the early British period-like Shyam-Sundar, Premtola and Madan-Mohan Jiu. They were established 60 to 70 years back. In the Akhra of Madan Mohan Jiu at Tarapur, there is a beautiful stone image of the monkey god Hanuman. This is said to have been collected from the Bhuban Hills.

(10) **Normal School Collection :** In about 1903 A. D. while digging a site in the residence of the Superintendent of Police opposite to the Court Building at Silchar, two stone images-one of Hanuman and another of Garuda, the bird of god were discovered. They are now kept in the garden in front of the Normal School building. It is presumed that these two images were also the collection of the Bhuban-hill ruins meant to be carried to some other shrine, but left on the way. The Normal School collection also contains two stone images of gate-keepers, a typical Kachari sculpture found at Maibong during the construction of the hill-section railway lines.

(11) **Malugram Shiva Temple :** In the Malugram village to the northern outskirt of the Silchar town, there is a massive and high brick-built temple of lord Shiva, constructed by a Sannyasin of the Giri Order. The temple was constructed about 60 years back.

(12) **Bhairab-Bari :** A bout twelve miles west of Lakhipur (a town established by the Kachari king Lakshmi Chandra), there is a shrine of lord Shiva on a hillock about 150 ft. high. The installation is ascribed to king Lakshmi Chandra. On the west of this shrine there is another shrine on a small hilloch known as Bharam-Baba.

(13) **Langar-Shah Mokam :** At Phulertal-about two miles north-west of Lakhipur, there is a shrine of a Muhammedan Pir named Langar Shah. His grave is preserved with great care and veneration. The name of the Pir is derived from a big iron chain (Langar) which he used to wear round his waist. This chain is preserved near the grave as a sacred relic.

(14) **Narayan-Dahar :** About five miles upstream of Phulertal in the middle of the Barak river, there is an island very much like the peocock island in the Brahmaputra near Gauhati. There is an ancient shrine which contains an image of god Vishnu under a shed. It is said that this temple was established by a king of Manipur.

(15) **Khaspur :** The last capital of the Kachari kings established by Tamradhwaj Narayan about 1690 A. D. is situated about 13 miles north-east of the Silchar town. A very large area, it contains the ruins of a brick-built two-storied palace, temple of Ranachandi (Kachaai-Khati), Vishnu-temple, snan mandir and a large number of tanks. The temple of Ranachandi is still in use.

(16) **Narasingh Akhra at Sonai :** A corrugated iron sheet shed with a plot of land-grant attached to it, contains the image

of Jogannath, established about 70 years ago by a Behari Sadhu.

(17) **Shiva Tillah at Sonai** : On a small hillock named Chandragiri about a mile and a half to the south of Sonai Bazar, a brick-built temple was constructed and dedicated to lord Shiva by Joy Singha, the minister of the King of Haidimba in 1787 A. D. The temple has a plinth of 12′×10′ and 12 ft. high with a conical dome over it, which is 6 ft. in height. According to inscription, the temple was constructed in honour of Bhubaneswar, the lord of Bhuban hills.

(18) **Daivaki tample** : At Tulargram in the Mohanpur village, within a mile of the Sonai bazar, there is a small brick-built temple 9′ × 9′ in plinth and about 14 ft. high. Daivaki is said to have been a concubine of Gobinda Chandra, the last Kachari king of Cachar.

(19) **Barala or Barail Tillah** : About three miles to the east of Sonai bazar, there is a small but fairly high hillock known as Barala or Barail tillah. On the top of the hillock, there is an ancient stone image of lord Shiva in the linga form. Barala or Barail is believed to be a curruption of Bra-hla, meaning great male (Bra—old male, Brui—old female and Hla—god), i. e. god Shiva who is also known as Maheswara (great god). The term is of Bodo origin.

(20) **Bhuban Pahar** : On the peak of 3,000 ft. above sea level of the hill-range that separated the plains of Cachar from the hilly tract of Manipur stands the ancient shrine which has been described as Bhubaneswar in the stone inscription of the Shib-tillah at Sonai. After traversing an uphill tract of about seven miles, there is a table ground known as Mokam-tillah. From two ends of the mokam, two paths lead in two directions. The one towards the north-east leads to a table-land about 30 ft. above and between two high rocks from which projections like bluffs make nice cantilever roofs. Below these two roofs are the stone images of Bhubaneswar and his consort named Bhubaneswari. The image of Bhubaneswari is about 3′ × 9″ high, a slim figure wearing loin cloth, standing up with the left hand extending up to the left knee-joint and the right palm resting on the chest. He has a necklace of beads round his neck. About ten feet to the north-east lies the image of Bhubaneswari, facing southwards, a massive figure buried underground up to the waist with two hands (right hand broken), with earlobes pierced and extended up to the shoulder. This is clearly an image of a Kuki woman. Near about this image and also at a distance of about a mile and a half from it there are several images of un-identified, broken and mutilated deities. Near the Mokam-tillah, there is a stone image of a four-handed Vishnu.

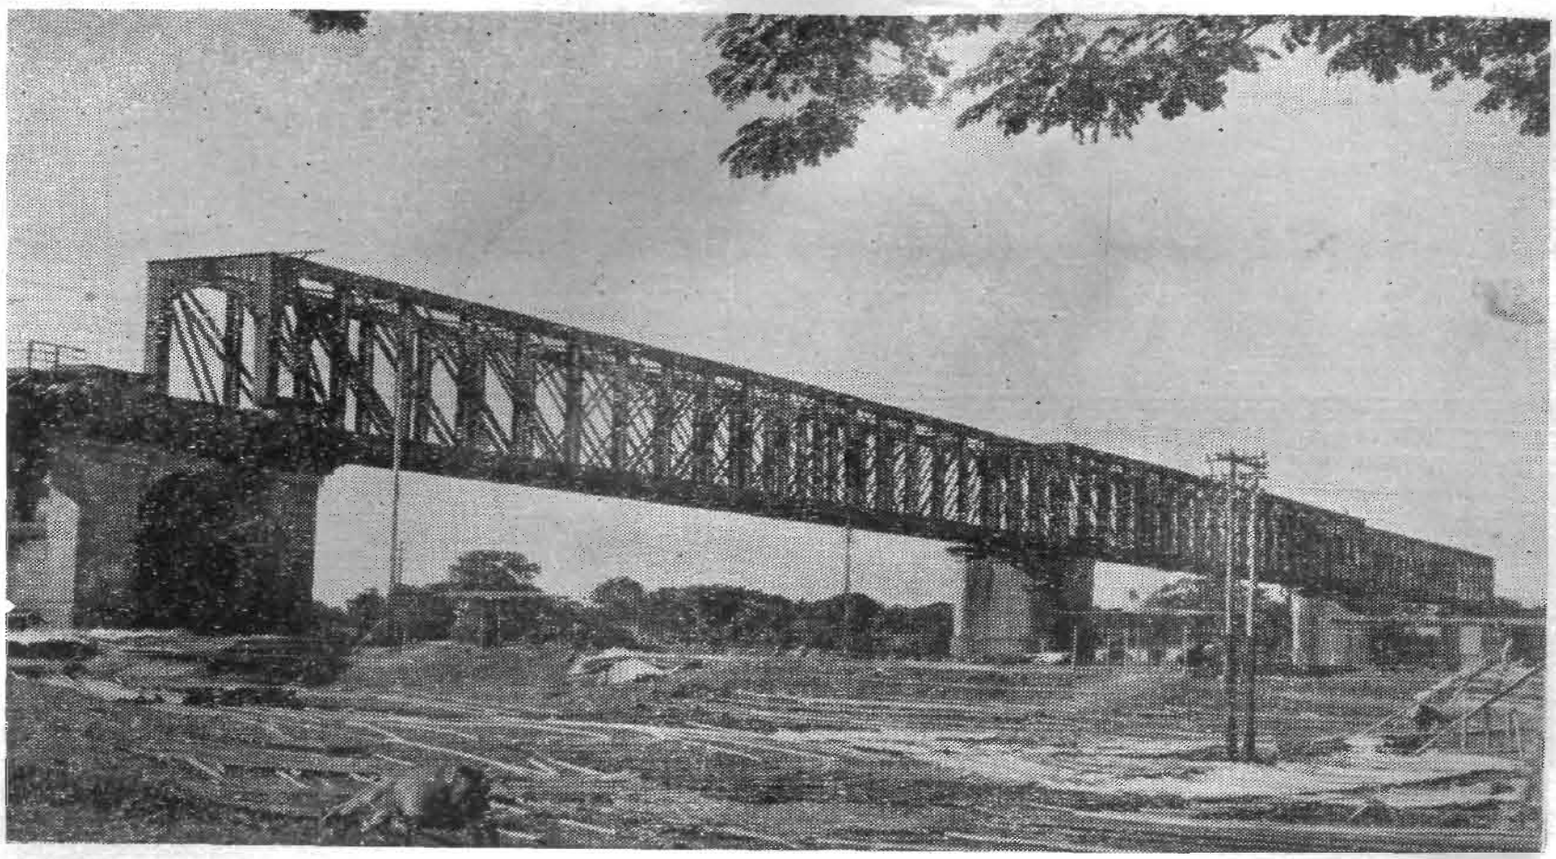

(21) **Underground Fort** : After traversing a distance of about a mile and half in the north-east direction of the Mockam tillah, there is a downgrade drop of about 400 ft. that leads to a plain ground of semicircular shape. This is know as "Chaya-Mandap" or shadow-canopied assembly hall. From the left end of this field there is a small tunnel about 10 ft. long and 18″×9″ in dimension dug under the rocky hill. This is know as "Yoni-dwara" i. e. the vaginal passage. One person can crawl through this passage on his breast with difficulty. After crossing this 10 ft. long narrow passage, there is a rectangular yard about 80 ft. long and 30 ft. wide and about 20 ft, high a wide tunnel absolutely dark. This is known as "mel-mandap" i. e. assembly hall. From this hall runs a downgrade path easily passable, for a distance of about 400 ft., and it leads to the second assembly hall almost of the same size as that of the first. From the second hall, another downgrade path form a distance of about 400 ft. leads to the third assembly halt. There are two stone images carved on the right wall of the hall, but these cannot be identified due to darkness and also due to the moss having grown on them.

From the third hall, there is a very narrow passage similarly downgrade for a distance of about 100 ft. In the centre of the passage, there is a block of stone with teeth-like nodules protruding on all sides. One can pass through this passage with great difficulty and risk to his body. From this hall, there is an upgrade narrow path with faces of big boulders protruding on all sides. After a distance of about 400 ft., there is a triangular stone in the centre of the passage leaving a very narrow slit-like passage on two ends. Only a dare-devil can attempt to pass through these slits. Generally nobody dares penetrate further. It is said that after travelling through this dangerous passage for a distance of about half a mile, one can reach a wide rectangular plain yard where there is a linga image of lord Shiva. It is also believed that there is on underground tunnel leading up to Kamakhya hill near Gauhati. There is a tradition of corresponding tunnel in the gorge at the eastern foot of the Bhubaneswari peak at Kamakhya.

This tunnel with assembly hall in intermediate places. is generally known as "rad", a simplified form of "Randhra" i. e. a hole-passage. Ordinary people belived this to be a replica of "Yoni" i. e. the generative organ of the mother-earth or the universal mother who is "Bhubaneswari" i. e. goddess of the universe.

Seddheswar Temple — Near Badarpur

Badarpur Railway Bridge

agricultural lands. From 1950, major floods occured three times in this district due to the over-flowing of its banks by the Barak river. In heavy rains, all the water of the neighbouring hills comes down to the Barak which cannot discharge the same. Construction of embankments by the P. W. D. has controlled the floods to some extent, though such occurences cannot be totally checked. The following table gives an idea about the total areas submerged annually by floods in the Cachar district :

1954	..	284 sq. miles.
1955	..	85 sq. miles.
1956	..	333 sq. miles.
1957	..	No flood.
1958	..	56 sq. miles.
1959	..	1,020 sq. miles.
1960	..	No flood.

CLIMATE AND RAINFALL

The climate of the Cachar valley is characterized by excessive humidity, and being shut in by ranges of hills on almost every side, the heat can become decidedly oppressive during certain seasons of the year. During the rainy season, the air is surcharged with moisture, the rainfall is extremely heavy, and the temperature is considerably higher than that recorded at Dibrugarh ; but the winter is not so cold as in the northern valley. The rainy season starts from the month of May and continues up to October. About 74% of the annual rainfall is received during these months. At the Silcha station, it is recorded that the average rainfall during these months in the last decade is about 457 m. m. The highest monthly rainfall recorded from this station in the last decade was 769 62 m. m. in the month of July 1952. The highest monthly rainfall during the last ten years as recorded in the Kalline Tea Estate was in the month of June, 1956 when 1494 7m. m. of rain fell. In October the nights begin to grow a little cooler, but the sun is still very hot in the middle of the day. In this month the sky is moderately clouded, and there are light showers off and on. The average annual rainfall does not materially vary much in different years. According to our own survey it is found that the average rainfall in the district from 1951 to 1960 was 3,795.05 m m.

The following table shows the average rainfall during the last ten years :

Name of stations	Yearly average rainfall (in m. m)	Average rainfall of the district during the last decade
1 Silchar	3,101.38 m.m.	
2 Kalline T.E	4,541.66 m m.	
3 Longai Valley T.E.	3,710.12 m.m.	3,795.05 m m.
4 Bikrampur T E.	4,206.63 m.m.	
5 Dewan T.E.	3,346.11 m.m.	

The cold weather can be said to have regularly set in from the month of November and continues to the end of February. During these months the sky is generally clear. Unforeseen light showers sometimes come in the month of January and February which may make the weather colder, but they are welcome as they precipitate the dust and are good for winter crops. During the period from March to May, the moderate to heavily clouded skies are common, but they prevent extreme heat. The tendency of monsoon is felt from the month of April with the accompaniment of moderate showers.

TEMPERATURE

There are two meteorological observatories in the Cachar district, one at Silchar town conducted by the Meteorological Department of the Government of India and the other at Chandighat Tea Estate. It is more convenient to take the records supplied by the Silchar station as representative for the district in general. The cold season in this district starts from the end of November when both the day and night temperature begin to fall rapidly. In the month of January it reaches the minimum point. This is the coldest month of the year when the mean daily minimum temperature generally comes below 13° centigrade. Only in 1958 the mean minimum temperature went up to 13.3° centigrade in Silchar. The mean minimum temperature recorded in Chandighat is comparatively higher than that of Silchar. The highest mean minimum temperature in January was 13.9°c in 1953, 1954 and 1960. In the year 1951, according to the report furnished by the Silchar station, the daily mean minimum temperature in the same month came down to the level of 11.2°c which was the lowest in the last decade. The mean daily maximum temperature in this month does not generally go above 30° centigrade. From the end of February the mercury level gradually goes up, and in July, August and September the temperature reaches the maximum point. During these months the mean maximum temperature does not generally come below 31 degrees centigrade. The high percentage of moisture in the atmosphere makes the weather irritating. The percentage of relative humidity in these months is between 85 and 88. The percentage of relative humidity recorded in the Silchar station in August, 1955 was 91 which is considered to be the highest in the last decade. In the month of October, the temperature gradually comes down and the nights become quite pleasant.

POPULATION

The population figure of Cachar district according to the 1961 Census is 1,378,476 persons of whom 722,487 are males and 655,989

are females. The sex ratio thus comes to 908 females per 1,000 males. The population in the 1951 Census was 1,115,865 and the overall percentage increase during the last decade is 23.53 which is the lowest in comparison with the other districts of the State. The percentage growths of population in this district are 5.32 ; 6.94 ; 11.38 ; and 24.66 for 1921, 1931, 1941 and 1951 respectively. The reason for this population growth in the last becade can be attributed to natural increase or excess of births over deaths. At present the district occupies the fifth place in regard to population among all the districts of Assam.

The density of population per square mile is 514 persons as against 416 in 1951. During the last decade the density has registered an increase of 23.56 per cent. The densities of population per square mile were 266 ; 280 ; 300 and 334 in 1911, 1921, 1931 and 1941 respectively. During the last 50 years the density has increased by 93.23 per cent. At present the district stands third regarding density of population among the districts of the State. The district of Nowgong with a density of 550 occupies the top place is immediately followed by Kamrup.

The population figures in 1961 of the three subdivisions, viz. Silchar, Karimganj and Hailakandi are 644,351, 465,198 and 248,927 respectively, In the last decade, these three subdivisions registered an increase of population by 18.91 ; 22.96 and 27.23 per cent respectively. The density of poulation per square mile in the Karimganj subdivision is 656 which is followed by the Hailakandi and the Silchar subdivisions withe 486 and 455 respectively.

The district has twelve police stations of which six are in the Silchar subdivision, four in the Karimganj subdivision and two in the Hailakandi subdivision. The Karimganj and the Badarpur police stations are the most thickly populated areas in this district with densities of 1183 and 1388 persons per square mile respectively. The Sonai police station of the Silchar subdivision is the largest police station with 374 square miles in area and a density of 331 persons per square mile. Badarpur being the smallest police station with an area of 47 squar miles claims to be the densest of all the police stations of this district. The Hailakandi police station with an area of 185 square miles holds the third position regarding density with 947 persons per square mile. Next comes the Silchar police station with a total population of 228,830 and a density of 923 persons per square mile. The police stations of Lakhipur, Patharkandi and Ratabari have densities of 422, 414 and 474 respectively which can be classified as medium density groups. The lower density groups include the police stations of Katigora, Borkhola, Udarband and Sonai with respective densities of 378, 328, 320 and 331 only. The Katlichara police station with an area of 327 square miles is the most thinly populated area holding only 226 persons per square mile.

The highest percentage growth of population during the last ten years is recorded by the Katlichara police station. The total growth of population in this police station during the last decade is 22,225 and the percentage increase comes to the level of 43.14.

The following table shows the variation in population of different police stations during the last decade on a percentage basis :

	Police Stations		Percentage variation
1.	Katigora	..	+18.34
2.	Barkhola	..	+17.27
3.	Udarband	..	+21.11
4.	Lakhipur	..	+26.14
5.	Sonai	..	+22.78
6.	Silchar	..	+23.89
7.	Badapur	..	+16.17
8.	Karimganj	..	+17.23
9.	Patharkandi	..	+26.11
10.	Ratabari	..	+33.97
11.	Hailakandi	..	+21.54
12.	Katlichara	..	+43.14

The total urban population of this district in the 1951 Census was 61,376 which was only 5.50 per cent of the total district population. In the 1961 Census the total urban population was 96,813 which works out to 7.02 per cent of the district population. The percentages of urban population recorded in 1901, 1911, 1921, 1931 and 1941 were 2.37, 2.35, 2.26, 2.58 and 3.07 respectively. The greater increase of the urban population in 1961 is mainly due to the declaration of Lakhipur as a town by the Government of Assam and the establishment of two new towns, namely Lala and Badarpur, by the Superintendent of Census Operations. From the above figures it seems that the trend of urbanisation in this district is very slow even after the independence. But that is largely due to the agrarian nature of the economy of this district.

Silchar and Karimganj are the two oldest towns in this district. Hailakandi was registered as a town in the 1911 Census. The population of Silchar in the year 1901 was 9,256. But in the next census of 1911 the population figure came down by 5.09 per cent. The percentage decennial growths of population of this town from 1911 onward are 16.15, 28.08, 27.03, 105.16 and 20.56. The present population of Silchar is 41,062. In Karimganj, the population figure in 1901 was 5,692, but in

the 1961 Census the population was 28,683. This means that the percentage increase of population in this town during the last sixty years is 403.92 In 1921 the population went down to 4,552 i. e. a decrease of 30.10 per cent. From 1921 the population began to increase gradually by 25.02, 37.29, 144.44 and 50.19 per cent in 1931, 1941, 1951 and 1961 respectively. In Hailakandi the total population was only 1,462 in 1911. In the next Census year the population increased by 766 i. e. by 52.39 per cent. In 1931 the population suddenly came down by 10.14% from the previous census. The percentage increase of population in this particular town recorded in 1941, 1951 and 1961 was 54.04, 166.50 and 71.94 respectively.

From the above population figures of the three towns, it is evident that in the period between 1941 and 1951, the population was increasing at a galloping rate which is primarily caused by the partition in 1947. A large number of Bengali refugees came from East Pakistan and settled down in this district. The density of population according to the 1961 Census in the towns of Silchar, Karimganj and Hailakandi are respectively 11,732 ; 12,525 and 5,792 persons per square mile. The Badarpur town with an area of one square mile comprises a population of 5,885. The township of Lala though not notified by the Government has been included in the category of towns in the 1961 Census with a population of 4,487.

The total number of villages in the district is 2,389. In 792 villages the population is less than 200 with 7 per cent of the total rural population of the district. In another 630 villages, the population is between 200 and 499 with a total population of 222, 774 constituting 17% of the total rural population. In another 605 villages, the population varies from 500 to 999 and they support 437,286 persons constituting 34 per cent of the total rural population. In the next group of 1000-1999 appertaining to 314 villages, the population is 408,003 persons which is 32% of the total rural population of the district. The next higher population group of 2,000-4,999, which is the highest population group in the district has 121,060 persons constituting 9% of the total rural population and is claimed by 48 villages.

ECONOMIC DEVELOPMENT

Economically, the Cachar district is not as good as the other districts of the Brahmaputra valley, but it is comparatively much better off than that of any of the hill districts of Assam. The reasons for this comparative back log are many and varied. The district is poor in respect of electricity and fuel resources. This combines with the transport bottleneck is the main reason for the slow progress of the district in the sphere of industrialization. Roads from Cachar to the neighbouring districts are mostly fair weather roads. Since the partition of the country, the direct link with Calcutta has been broken and therefore traffic to and from Calcutta has to move via Lumding and Gauhati through a difficult and circuitous railway line involving loss of time and additional cost. Boats and cargo ships between Silchar and Calcutta through Karimganj take many hours due to the fact that they have to pass through Pakistan. Frequently, during the monsoon, rail traffic between Cachar and the Brahmaputra valley is suspended for days together. The national income of this district in the year 1960-61 was Rs. 40.13 crores. The per capita income in the same year was Rs. 295 which occupies the sixth place in regard to other districts of Assam.

AGRICULTURE

The soils of the Cachar valley are not much different from thore of the Brahmaputra valley, except variations. The Cachar valley is characterized by an abundance of marshes and low lands the soils of which contain a large percentage of organic matter.

The Cachar district is the second important crop region of Assam. The rivers of Cachar have raised their beds above the level of the surrounding country in many places, and this condition leads to regular flooding of the nearby areas which remain water-logged even after the monsoon. Hence agriculture in the rainy season is mainly confined to the high lands which are free from water-logging. In winter, however, these depressions grow excellent crops like pulses and oil seeds. The hill slopes leading to the valley grow tea. The soils are generally fertile due to annual depositings of silt. Despite these natural advantages, the crop yield in this valley is relatively low, particularly that of jute and tea. About 95 per cent of the total sown area of this district is under rice and tea. There are however a number of uneconomic tea plantations in the district. There has been little replantation in tea gardens for decades. Invariably the bushes are over 50 years old against a normal economic life of 40 years.

After the orientation of the First Five Year Plan, the tempo of agricultural development was accelarated with the distribution of improved seeds, fertilizers and improved implements. The Japanese method of cultivation in this district seems to be successful, and during the last decade, the outturn of rice per acre has

increased to a fairly considerable extent. People's participation in the direction of Grow More Food Campaign is quite appreciable. The production of rice during the last decade has increased by about 20 per cent. The cultivators have been persuaded to grow boro paddy in the low-lying fallow lands which are generally kept uncultivated during winter. During these two plan periods, about 50,000 acres of fallow lands were brought under rice cultivation.

The Mechanised Cultivation Scheme was started in the State of Assam during the year 1947-48 with a small number of tractors with a view to reclaim fallow land under the Grow More Food Campaign. Prior to the First Plan very few tractors were working in some places district. During the First Five Year Plan, tractors were engaged in reclaiming land by dozing, ploughing and harrowing in the Cachar Community Project. A workshop for repair and maintenance of the tractors was started at Silchar in the year 1954. During the Second Plan, three more tractors of the Department of Agriculture were brought to Silchar from the Assam Valley and the activities of the tractors were extended to the Mizo Hills district also. Gradually, the demand for tractorization of land has increased and now it is felt that more tractors are needed for this region.

The power Pump Irrigation Scheme is in operation in this district since 1952-53. This Scheme was launched for providing water in winter in the flood affected areas where the raising of other crops is not feasible. This scheme was originally started with three pumping sets which were brought to Cachar by the last part of the year 1953. There was also one section of power pump in the Cachar Community Project with six pumping sets which were amalgamated with the Department of Agriculture in the year 1957-58. By this amalgamation, the total strength of pumping sets rose to seventeen. During the last decade, about 700 acres of land were irrigated through these power pumping sets. For the development of irrigation, the Public Works Department incurred an expenditure of Rs. 77 thousand which brought about 1,200 acres of land under irrigation.

The Government Fruit Preservation Factory at Silchar was started in 1954-55 as a pilot plant. The factory switched on to commercial production in 1956-57 with a total turnover of Rs. 14,000/- which has since increased to Rs. 51,000/- in 1961-62. Oranges and pineapples are processed in this factory which is the most wellequipped of all the units in Assam.

FISHERIES

The potentiality of fisheries development in the district comprises, of rivers, beels, swamps, anuas (i. e. dead rivers) and tanks and ponds. The rivers and beels which are under the control of the Revenue Department are generally settled with private parties for the purpose of fishing for three years. These are the main fisheries where accumulation of fish occur naturally during the rainy season. These fisheries serve as natural breeding grounds of fishes, and the fingerlings which are drifted along with the current enter the natural beels, anuas and swamps and take shelter for their growth. Most of these fisheries are stagnant and therefore the young ones and the larvae get appropriate shelter without much disturbances from flood water.

Amongst the natural fisheries, there are some termed as second class fisheries owned by the Government and are kept open to the public for personal consumption. These fisheries supply abundant quantity of fish to the public and help them in supplementing the supply of fish to their daily needs. Moreover, there are good numbers of natural fisheries where multiple ownership exist. In some cases these fisheries supply considerable quantity of fish, whereas in some cases these fisheries are left uncared for. That may be due to multiple ownership.

In the tea estates there is scope for developing pisiculture to a great extent as there are enough marshy lands which are difficult to use for any other purposes. The practice of fishing in beels by de-watering is detrimental to the fisheries which is common in this district. The conservation measures as indicated in fishery rules are not strictly followed by the fishing population. During the two Five Year Plans, emphasis has been laid on the development of fisheries by introducing cultural practices amongst the people. The main base of cultural is to make available fish seeds to the public so that their culturable areas are utilised for raising adult fishes. In order to follow up cultural practices, the people have been instructed in manuring water areas, care for seeds and management of tanks. The interest for growing fish by the people has been increased to a great extent, specially in respect of cultural practices in their own ponds and tanks. The seeds are supplied by the Department up to the capacity of individual water areas. The seeds were scarce beforehand and the transport system of seeds was not scientific, and as such there was was heavy mortality during transport. But by introducing improved method of transport, seeds are packed in containers with oxygen so that their respiration is made easy and by that process the martality in transport is minimised.

Originally the seeds were obtained from natural sources where mixed seeds both of economic and uneconomic varieties were

available and it was difficult to sort them out at that stage. These seeds were sold to the individual parties by the fishermen and the result obtained after some years was disappointing. By the method of induced breeding operation where a particular variety of fish is being induced for breeding, the problem of mixed fry has been avoided. The breeding of the Indian major carp in flowing water is the main factor which has been remedied by inducing the fish to breed in confined water also.

An exotic variety of fish viz. common carp has been introduced into the district. The advantage of this fish over the Indian major carp is that it breeds in confined water naturally, and can breed more than once in a year. This variety has already been liked by people very much.

In order to improve the socio-economic condition of the fishermen, subsidy was given to co-operative formed by actual fishermen. This subsidy was made available both in kind and cash. The fish farm which was established serves the purpose of demonstration and supply of fish from time to time. The fish farm again supplies breeders for induced breeding operations. Under the development programme, natural fisheries are brought under the Government control. During the two plan periods 13,68,000 fish seeds were distributed and stocked in different tanks and projects. By way of supply of seeds, 390 acres of water were cultured from which the total yield of marketable fish was about 48.5 metric tons. The culture of fish by individual fishermen is found to be encouraging and this is due to the distribution of seeds. Tank culture is made much more popular amongst the people. In some tea estates, fish culture is popularised by creating sheets of waters between tillahs. The seeds were obtained from the Department of Fisheries both of Indian major carp and common carp.

CO-OPERATIVE MOVEMENT

The co-operative movement of Assam is mainly concentrating its attention to the uplift of the agricultural communities from their age-old stangnation. Basically, its purpose is to evolve a scheme of co-operative community which touches all aspects of life. With this end in view, various co-operative societies were formed in different parts of the State so that the socio-economic life of the people could be upgraded. The main purpose of the co-operative movement in the district of Cachar is to grant agricultural credits to the cultivators. After the orientation of the Five Year Plan, this movement has come to the forefront in this State. In 1951-52 about 188 Primary Agricultural Credit Societies were set up in this district with a membership of 1,817. At that stage, only one thousand rupees were granted to the people as short and medium term loans. In 1960-61 the number of credits societies rose up to 828 with a total membership of 61.430 persons. In that year about Rs. 3.55 lakhs was granted to the cultivators as short and medium terms loans. From 1955-56 to 1960-61, 503 Primary Agricultural Credit Societies were registered. During these years Rs. 27.86 lakhs was invested for the promotion of agricultural business through the co-operative societies. In the Second Plan period, 12 godowns in different mundi centres were set up for the storing of agricultural crops.

FOREST

The main aspects of the Forest Development Schemes in the First and the Second Plans are : (a) afforestation, improvement of poor forests and extension of forestry, (b) development of communications, (c) development of forest industries, and (d) survey and demarcation.

People residing in forest areas are economically very poor. During the First and Second Five Year Plans, Government endeavoured to gear up the condition of the village people as well as to raise the forest products to a considerable extent. In the First Plan period, for the development of forest villages, 10 ring wells and 7 tanks were dug out. During the same period, 18 miles of forest roads, 12 bridges and 17 culverts were constructed. Only 62 acres of forest land were planted with valuable timber species. The total cost incurred by Government for forest development in the First Plan is not available in the office of the Conservator of Forests.

Much more developments were taken up in the Second Plan period during which 18 miles of new forest roads and 5 bridges were constructed in the forest areas. In the forest villages, 6 tube wells, 5 wells, 15 tanks, 1 primary school and 3 water reservoirs were constructed. About 355 acres of forest land were created for taungya plantation and 45 acres for sal plantation. The total cost of forest regeneration in the Second Plan amounted about Rs. 36,423.

The Cachar district with its forest reserves covering about 42 per cent of the total area, can develop forest industries ranging from paper-pulp to plywood factories, provided power and transport are made available. The proposed new projects in this district, such as paper and pulp mills, require power facilities and improvement in transport on the hill railway section and motorable roads between Cachar and Mizo Hills district.

INDUSTRIAL DEVELOPMENT

There are no heavy industries in the district of Cachar except the age-old tea industry. The existing industries of this district can be classified into twenty seven different groups. The principal industrial products are mainly (1) food and kindred products, (2) forest products, (3) chemical products, (4) manufacturing excluding transport equipments, (5) transport equipments, (6) match, (7) light engineering products and (8) sports goods. Industries like sports goods, alluminium, soap, chemicals, lime and bricks have flourished in this district and are mainly concentrated in the Karimganj and Silchar subdivisions. The alluminium industry farms a unique trade in Karimganj. Katakhal, within the Hailakandi subdivision, is known for the sitalpati artisans. There are about 239 small and medium sized industries with a total strength of about 13,832 industrial workers. Tea factories predominate, absorbing about nine-tenth of the factory population of Cachar. They are dispersed throughout the tea plantation areas. A few saw mills, engineering workshops, metal foundries and a big match factory are concentrated in Silchar and Karimganj which enjoy roads, railways and waterways for assembling raw materials and distributing manufactured goods. The match industry based on simul tree is a high revenue yielder and has an expanding internal market.

During the First Plan period, the Cottage Industries Department started emporia at Hailakandi, Karimganj, Silchar and Badarpur with a marketing officer. One instructor with his two assistants of sitalpati and mat-weaving were posted or imparting training to local boys. Some Extension Officers (Industries) were also posted in the Community Development Block areas. All departmental works in respect of grants-in-aid and loans were dealt with at district level by the departmental officers of the subdivisions.

During the Second Plan, a district office at Silchar was established in 1958 with three officers of whom the Assistant Director is the district head of the department. A Soap-making Training-cum-Production Centre was opened at Hailakandi to impart training to local boys in the art of soap making. Improved tools for carpentry and blacksmithy at a cost of Rs. 11,000 was distributed to the artisans at a subsidised rate of 50% loan and 50% grant. A new scheme for imparting training to young girls in the art of knitting and embroidery was open at Silchar for one year 1958-59. Rs. 1.01 lakhs was disbursed as grants-in-aid in cash as well as in kind to the artisans and institutions of different categories.

During the First Plan. industrial loans of Rs. 29 lakhs were sanctioned and disbursed to the artisans. In the Second Plan only Rs. 4.2 lakhs was disbursed as industrial loans of which Rs. 1.32 lakhs was sanctioned at the district level on the recommendation of the Subdivisional Board. In order to utilise the materials which are available in plenty in the district, a chrome and vegetable training centre has been selected at Badarpur. Rs. 57 thousand was spent for land compensation during the latter part of the Second Plan. During this period seven industrial units were licensed under the Industries (Development and Regulation) Act, of 1951 and most of these units are working satisfactorily. 33 small and cottage industrial units were registered with the Director of Industries, Assam.

SYNOPSIS REGARDING THE IMPACT OF THE TWO FIVE YEAR PLANS IN THE SPHERE OF P.W.D.

Cachar Division—Since the inception and up to 1955, the division was entrusted with all P.W.D. works of the whole district. But due to the increased volume of developmental works, a new division was established at Karimganj with effect from 15-10-55 to deal with almost the whole of Karimganj Civil Subdivision and other border roads etc.

Up to the end of the Second Five Year Plan, the Cachar Division had four subdivisions, viz. Silchar 'A', 'B', 'C' and Hailakandi subdivision.

Achievements in the First Plan :—

(1) Roads=23.04 miles of roads were metalled and blacktopped. 55.37 miles of roads were gravelled and 85.23 miles new roads were constructed.

(2) Bridges=246 11" timber bridges were constructed.

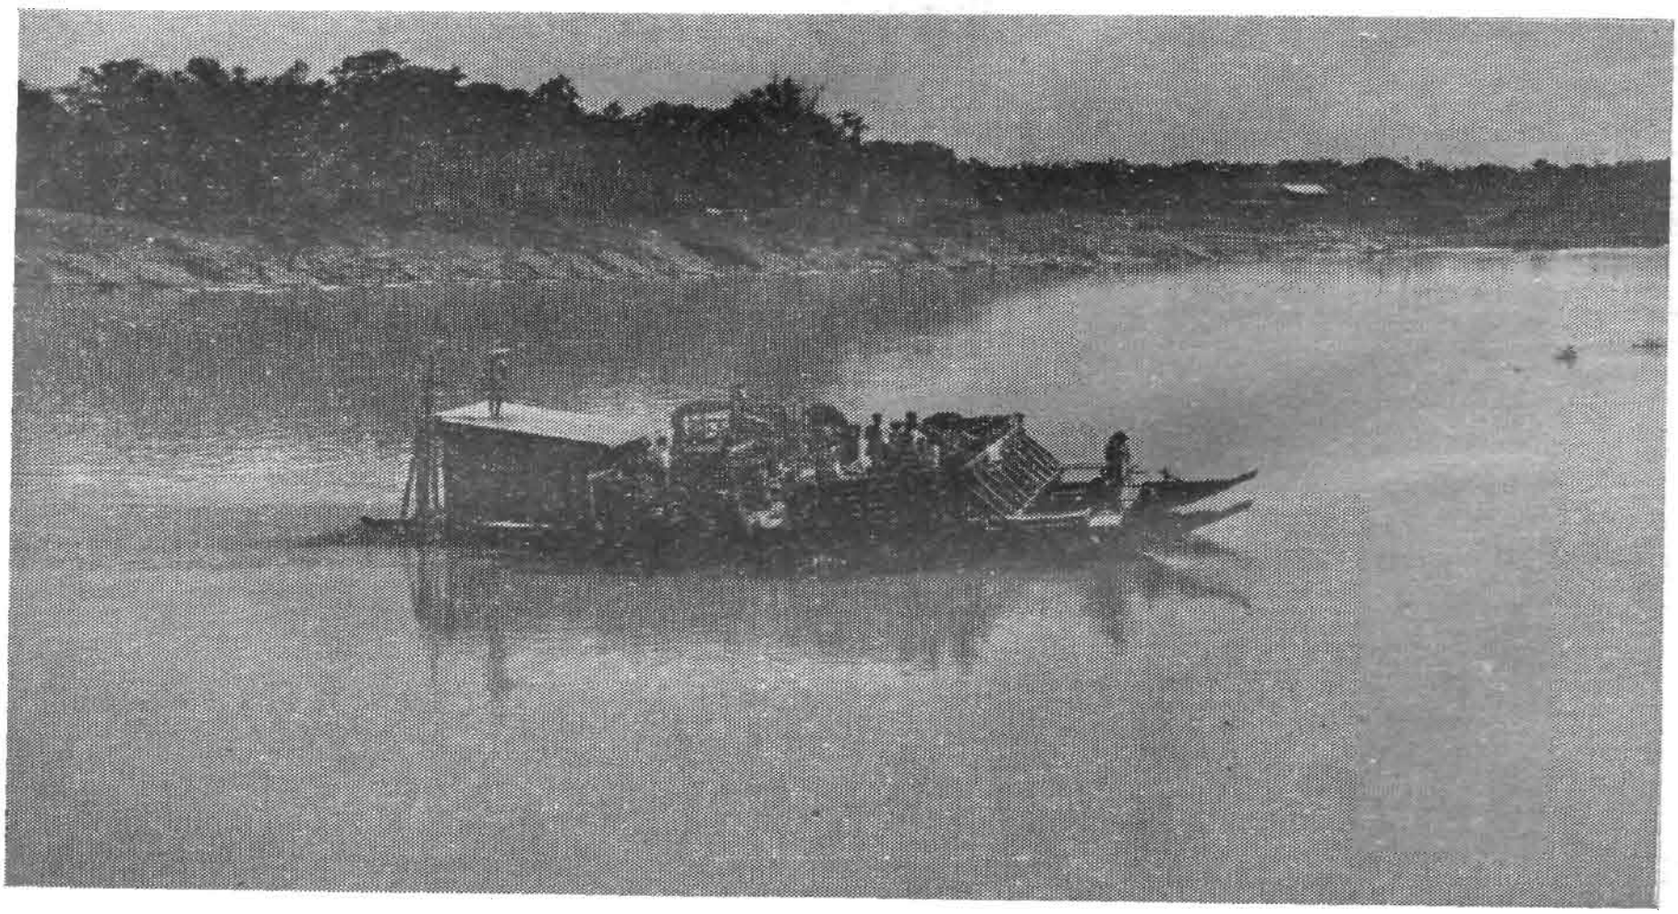

(3) Buildings=27 new buildings were constructed.

All these projects were started in the First Five Year Plan, and most of them were already completed. A sum of Rs. 85,70,959 was spent by this division in that period.

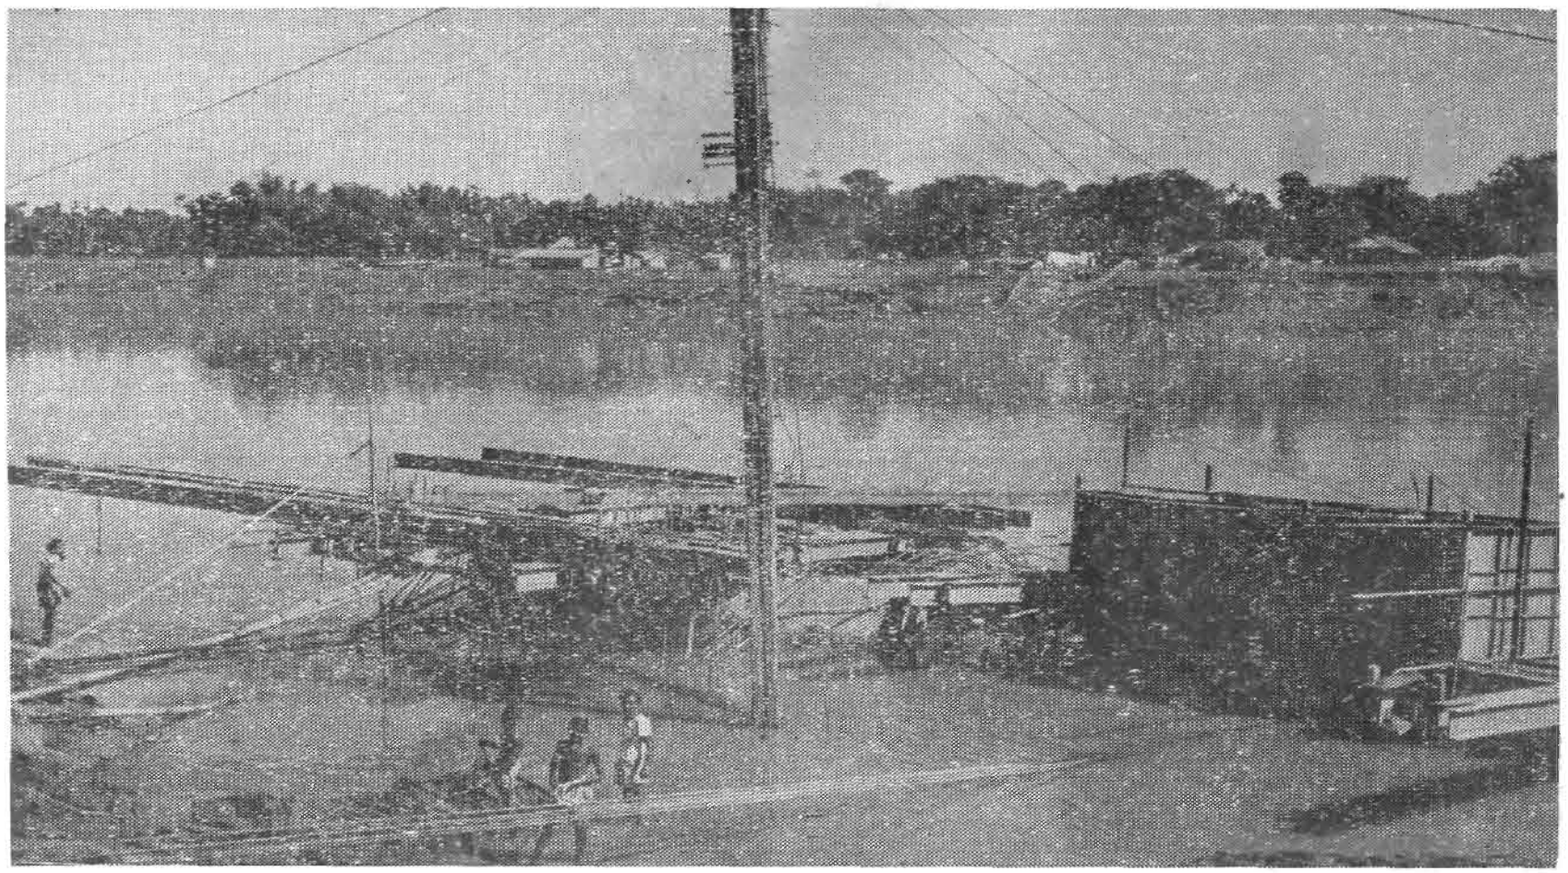

Achievements in the Second Plan :—

(1) Roads=22.27 miles of roads were metalled and blacktopped ; 111.96 miles were gravelled, and 49.78 miles of new roads constructed.

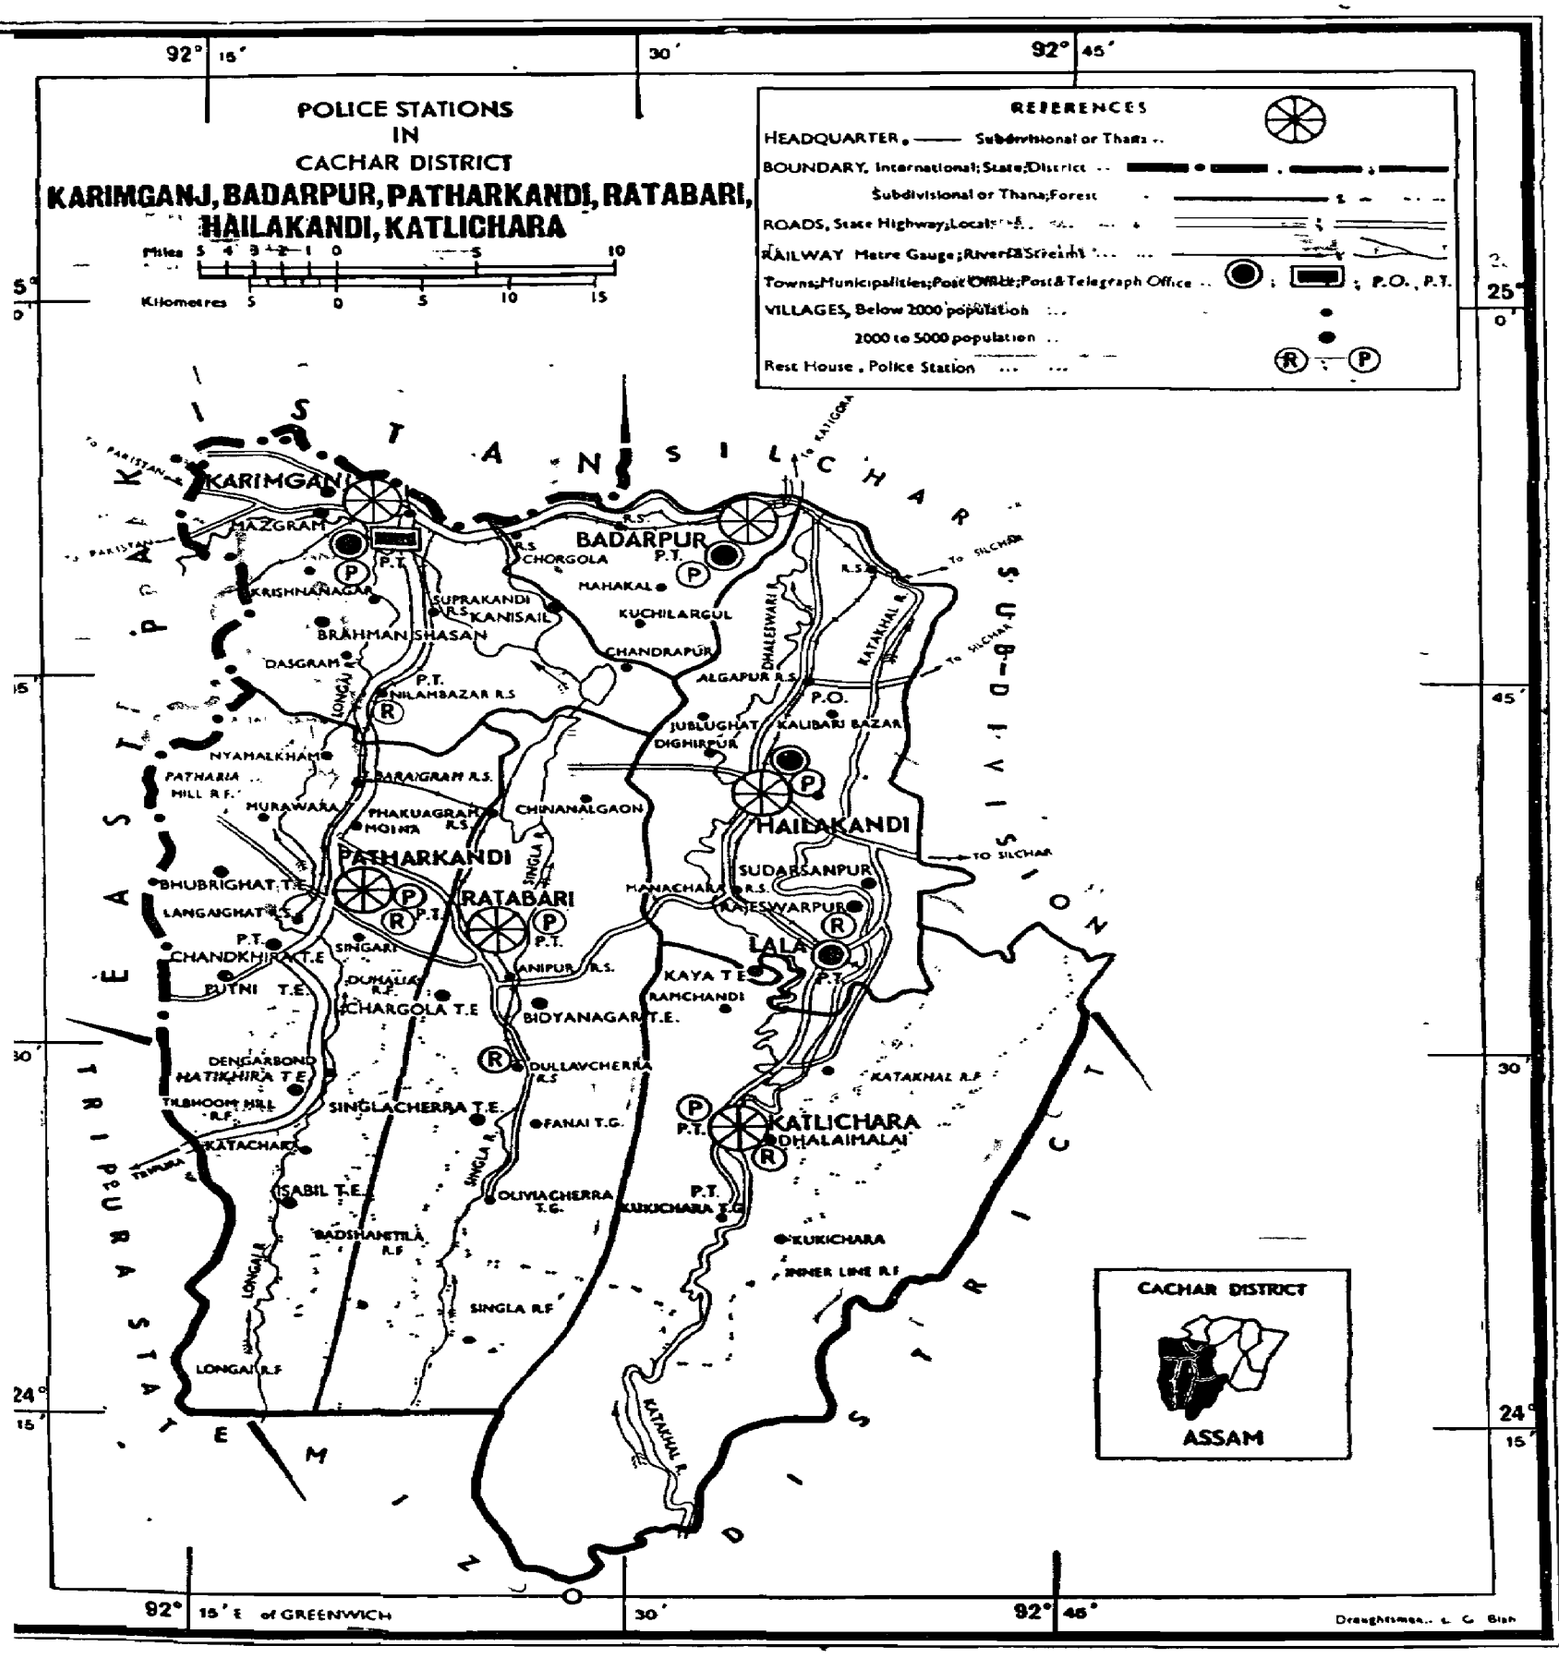

(2) Bridges=Construction of important bridges viz. (a) Barak Bridge (1536 ft.), (b)

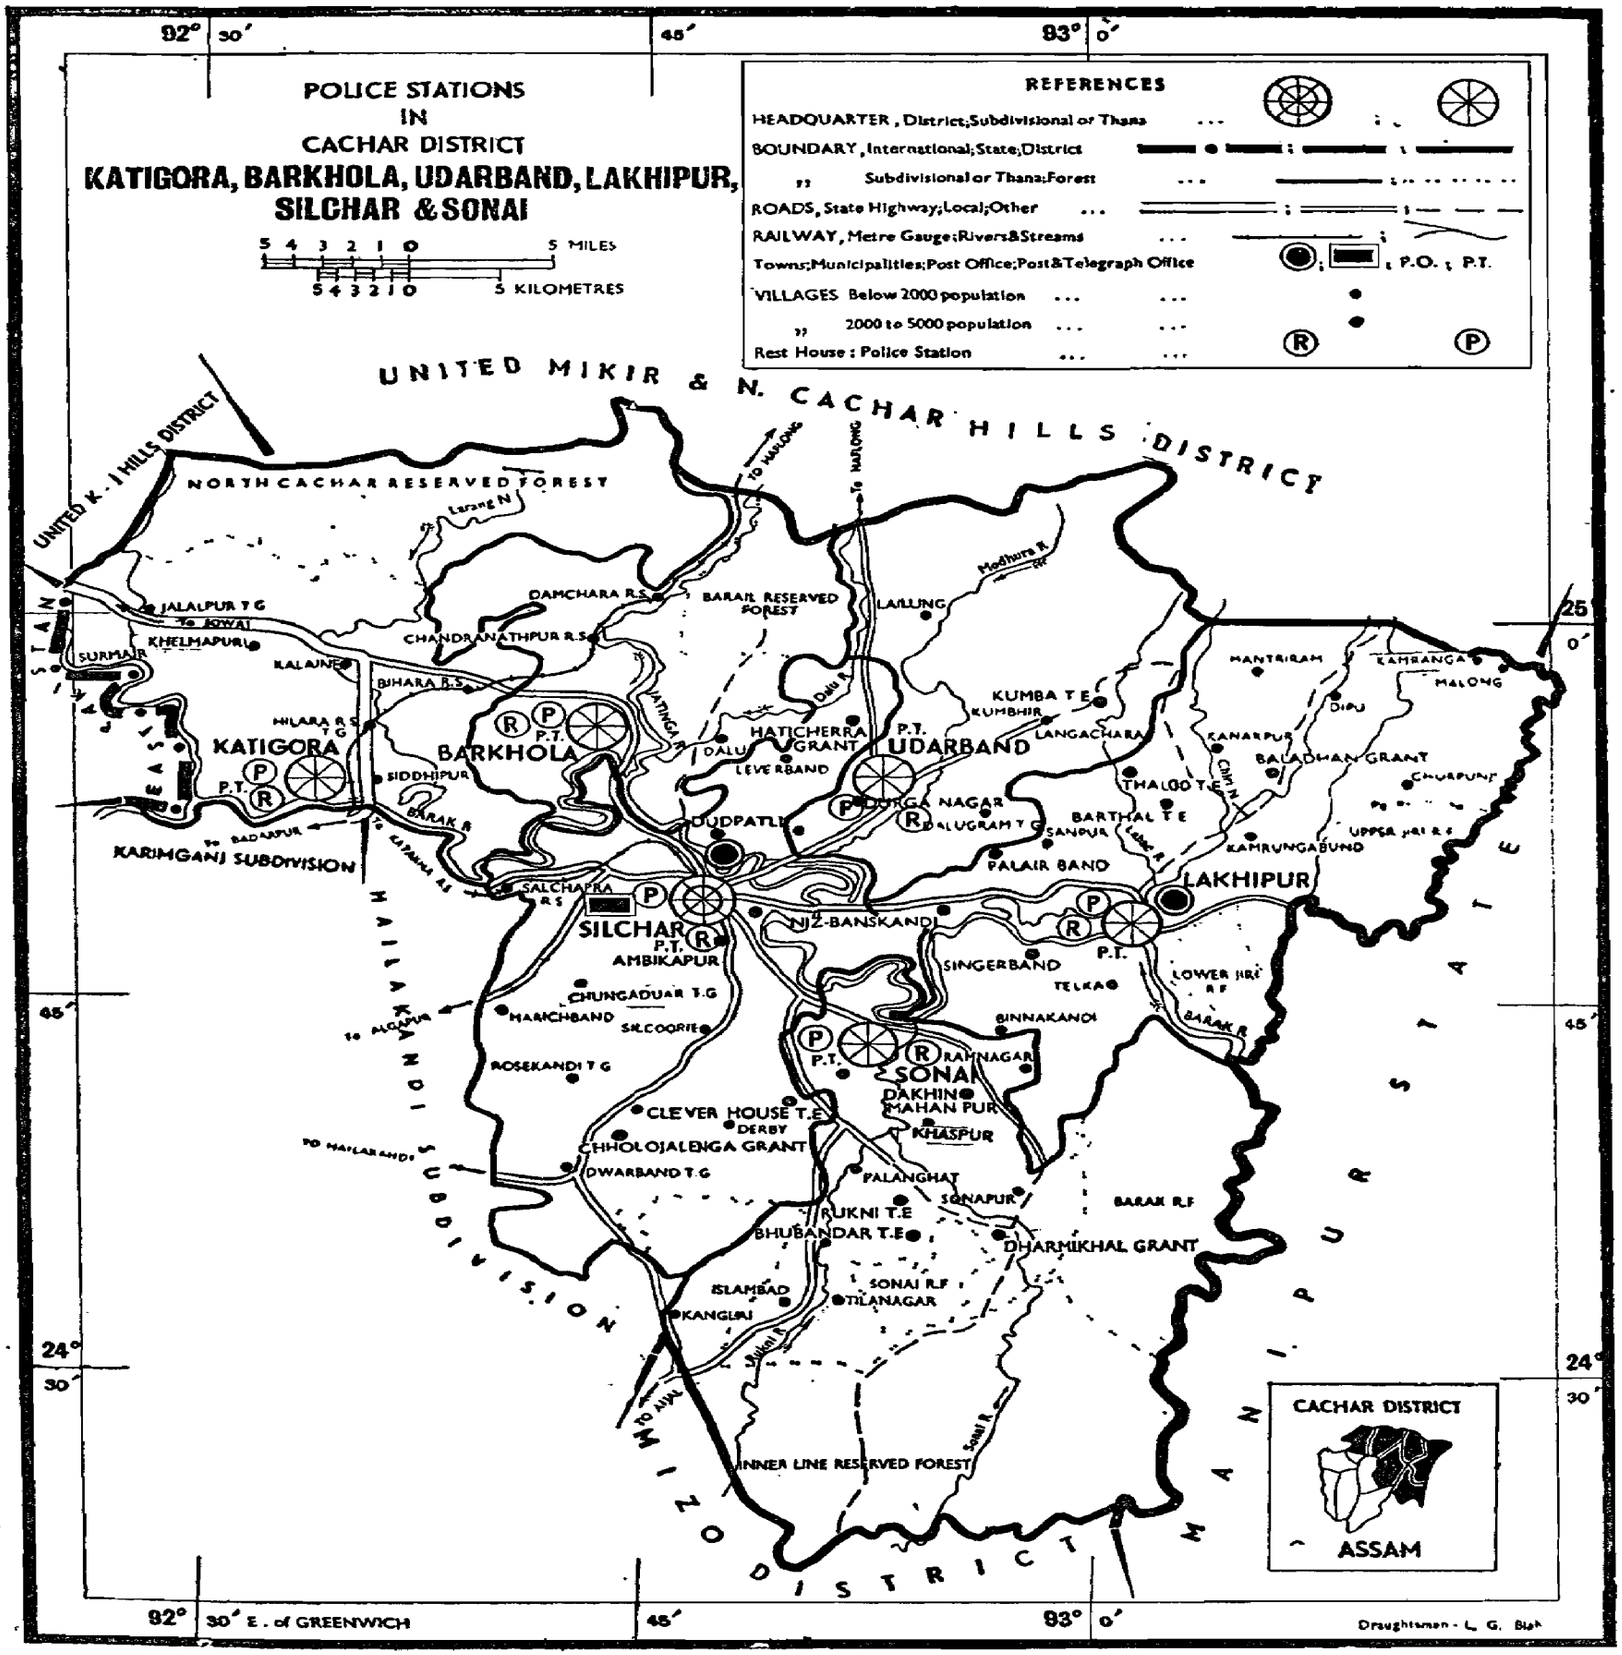

Ferry on the Barak River

Silchar Sadarghat Bridge
(Under construction)

Sonai Bridge (300 ft.), (c) Matijuri Bridge (440 ft.) and (d) Rukni Bridge (296 ft) were started in this plan. The construction of the Sonai bridge has been nearly completed and the others are in progress.

(3) Buildings=The construction of the following buildings were taken up by this Department. They are :—

(a) District Library-cum-Lecture Hall at Silchar.

(b) Additional Court Building at Silchar.

(c) Industrial Training Institute at Srikona.

(d) Junior Technical School at Meherpur.

(e) Integrated Extension Training Centre at Arunachal.

(f) Junior Basic Training Centre at Hailakandi.

(g) Primary Health Units at Lala, Bikrampur and Kalinagar.

(h) T. B. ward and T. B. clinics.

(i) Extension of Silchar and Hailakandi Civil Hospitals.

(4) Ferry Service—Ten new ferries were declared public in this Plan and are being maintained by this department. A sum of Rs. 16,970,879 was spent by this division in that Plan period.

The All-India Census Publications published by the Union Government contain data only down to the level of a district in some cases, or to the level of a police station in other cases. Data regarding each village cannot be had from the Central Government Census Publications. But the data down to the level of a village are very essential for the purposes of the State Government and the administration in the districts and subdivisions. So for the first time, the District Census Handbooks were compiled and printed for each district of Assam in 1951. The editing and compilation was done by the Superintendent of Census Operations, but the printing and expenditure thereof was borne by the State Government. The District Census Handbooks have become very popular ever since, because they are needed not only by Government and the Deputy Commissioners and Subdivisional Officers, but also by the Local Bodies and the general public. They are absolutely essential for the purposes of delimitation of constituencies, the establishment of Panchayats, the determination of quota of civil supplies, the establishment of police stations and many other administrative matters required by the State Government. It has therefore, been decided that in the 1961 Census also, the District Census Handbooks should be edited and compiled by the Superintendent of Census Operations and printed at the cost of the Government of Assam.

The Primary Census Abstracts given in the 1951 Census will now appear in the form of Village Directories which not only give detailed Census data for each village, but they also give such other informations as the existence of communication facilities, drinking water facilities, educational facilities, scheduled castes and scheduled tribes and the different categories of workers. The Village Directories also give us the area in acres of each village, if the village has been cadastrally surveyed and if the area figure is available, and they also give us the number of literates and the number of workers classified according to the nine categories of the Standard Industrial Classification adopted by the Government of India. Such informations are furnished for each village and for each block of a ward of a town. Thus the Directory furnishes information on the primary economic activities of each village or ward of a town and the literacy proportion of the population. This abstract is useful therefore, not only for the State Government and the Local Bodies for their adminstrative purposes but they are also in great demand by the various Ministries of the Union Government like the Ministry of Education, Ministry of Labour and Employment, Ministry of Food and Agriculture and the Planning Commission. These data are also required for all sample surveys, both rural and urban, based on villages or wards of a town. The District Census Handbooks also contain tables on mother tongue, religion and the various tables specially prepared for Scheduled Tribes and Scheduled Castes of each district. Official statistics relating to vital statistics, statistics of household and small-scale industries, administrative statistics and other statistics relating to various activities of Government, especially those connected with the First and Second Five Year Plans, have also been given. There is therefore, no doubt that the District Census Handbooks of the 1961 Census will furnish most of the data that are required for administrative as well as for planning and development purposes.

Before 1951, the population had been classified by religion but at the 1951 Census, the economic classification was substituted for the classification based on religion. In 1951, the people had been divided into two broad livelihood categories, namely the agricultural classes and the non-agricultural classes, and these two classes had again been sub-divided into four classes each. Each of the eight livelihood classes was again divided into three sub-classes with reference to their economic status, namely—

(i) Self-supporting Persons ;
(ii) Non-earning Dependents ;
(iii) Earning Dependents.

In the 1961 Census, the classification based on livelihood has been done away with and the basis of the classification now is WORK. People have been divided into two classes, the Workers and Non-Workers. The working population has been divided into nine categories of workers namely—

I. Working as Cultivator

II. Working as Agricultural Labourer

III. Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities

IV. Working at Household Industry

V. Working in manufacturing other than Household Industry

VI. Working in Construction

VII. Working in Trade and Commerce

VIII. Working in Transport, Storage and Communications

IX. Working in Other Services

The working population has been classified separately according to the returns relating to occupation and industry. The Indian Census Economic Classification adopted at the 1951 Census was neither a purely Industrial nor an Occupational Classification of the population, but it was a combination of both. There were only 10 divisions and 88 subdivisions of the Industries and services. In the 1961 Census, the National Classification of Industries and Occupation adopted by the Government of India was also used for the Census and there were more than 300 occupational families and 300 industrial minor groups for which figures are given for the total population sex-wise. Another unique feature of the 1961 Census is that all these Economic Tables are prepared on the basis of the principal work of a person.

Non-workers have again been classified into eight categories as follows :—

1. A full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business.
2. A person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business.
3. Any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.
4. A retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work.
5. A beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence.
6. A convict in jail (an undertrial prisoner is shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution.
7. A person who has not been employed before but is seeking employment for the first time.
8. A person employed before but now out of employment and seeking employment.

In the 1951 Census, the population was shown according to certain units known as Census Tracts. These Tracts were selected by the Superintendent of Census Operations on an adhoc basis and they may constitute one Police Station, two Police Stations or even three Police Stations and they may also consist of part of a Police Station only. Urban areas of each district were treated as separate Tracts in the 1951 Census. In the 1961 Census, I have taken Police Stations only as units of Census Divisions and so all census data are given down to the level of a Police Station. The exception is that urban areas were treated as separate entities for the Subdivision.

ABBREVIATIONS OR NOTATIONS USED IN THE VILLAGE DIRECTORY

As all details cannot be given in the Village Directory, certain abbreviations and notations were used for the sake of easy reproduction and printing. The following notations were therefore used in the Village Directory.

NOTATIONS

1. Transport and Postal Facilities

(i) Road, Bridle Path, Metalled Road, Tarred Road	'R'
(ii) Railway	'Rly'
(iii) Postal Facilities	
Branch Post Office	'BO'
Sub-Post Office	'SO'
Extra Departmental Branch Office	'Edbo'
Extra Departmental Sub-Office	'Edso'
Central Sub-Office	'CSO'

2. Educational Institutions

(i) Primary, Basic, Tol, Muktab, Night, Nursery School	'P'
(ii) Middle School (M.E. & M.V.)	'M'

(iii) High School or Higher Secondary	'H'
(iv) Higher Institutions including Colleges	'C'
(v) Technical Institutions	'T'

3. Drinking Water Supply

(i) Tanks or Beels	'Tk'
(ii) Kacha well	'Kw'
(iii) Pipes and Tube wells or Ring wells	'S'
(iv) Pucca well	'Pw'
(v) River, Running Stream or Springs	'Riv'

P. S. Distance of the items are considered up to five miles

4. Bazar Day and Medical Facilities

(i) Weekly Bazar	'Wb'
(ii) Daily Bazar	'Db'
(iii) Dispensaries	'D'
(iv) Hospitals	'Hos'

5. Veterinary Facilities and whether the village is covered by Community Development or National Extension Service Blocks

(i) Government Veterinary (ii) Private Veterinary (iii) Other Methods	'V'
(iv) Community Development	'Cd'
(v) National Extension Service	'Nes'

DEFINITIONS

The following definitions used in the 1961 Census are reproduced below for easy reference :

1. Town

For the purpose of the 1961 Census, a town means a Municipality, a Town Committee, or a Cantonment and any other area having the following urban characteristics :

(i) If the population is not less than 5,000

(ii) If the density is not less than 1,000 per square mile

(iii) If the adult male population in non-agricultural livelihoods is at least 75 per cent of the total male population.

2. Village

In Assam a village means a cadastral village where there has been a cadastral survey. In the Plains districts where there has been no cadastral survey, it is taken to be a gaon together with its adjacent 'tolas', 'paras' etc. provided that none of these independent collections of houses are so large or so distant from the cadastral village, with distinct individual names. In the Hills districts, the most convenient definition of a village is that it is a collection of houses bearing a separate name and situated with certain boundaries traditionally recognized by the villagers.

3. House

It is a structure or part of a structure inhabited or vacant or a dwelling, shop, a shop-cum-dwelling or a place of business, workshop, school etc. with a separate entrance.

4. Household

It is a group of persons who commonly live together and take their meals from a common mess or Kitchen unless the exigencies of work prevent any one of them from doing so.

5. Scheduled Tribes

They are members of the backward tribes who generally occupy the hilly areas or other rather inaccessible parts of the Indian Union. They are generally very backward and so the Government of India has prepared a schedule of such tribes for the purpose of giving them facilities in education and employment so that they may come up to the level of the other advanced people of India as soon as possible. Scheduled Tribes may belong to any religion.

6. Scheduled Castes

They belong to the lowest rung of the castes of the Hindu and Sikh religions. In order to help them rise to the level of other more advanced societies in India, the Government has made a schedule of such people—hence the name Scheduled Castes.

7. Houseless persons

They are people who have no houses to dwell and generally live in pavements or open places, such as beggars, who beg in people's houses by day and sleep under the trees by night.

8. Institutional population

They are people who are inmates of institutions, like hostels, boardings, jails etc.

9. Worker

Is a person who is working as a cultivator, an agricultural labourer, at a household industry or he may be doing any other work but he must earn some income. Work includes not only actual work but also effective supervision and direction of work.

10. Non-worker

Is a person who is either not doing any work or who does some work from which he does not earn any income. For example, a pensioner and a rentier who earn some income but if they do not do any other work they are classified as non-workers. On the contrary, students and housewives may be doing some work either in school or in the house but as they do not earn any income they are classified as non-workers for the purpose of the Census.

11. Cultivator

For purposes of the Census a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government, (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

12. Agricultural Labourer

Is a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share, such as share of produce. The labourer should have no right or lease or contract on land on which he works nor should he be responsible for taking decision as to which crops to sow and when or taking the risk of cultivation. A share of the produce goes to him only as wages.

13. Household Industry

A household industry is defined as an industry conducted by the head of the household himself or mainly by members of the household at home or within the village in rural areas and only at home in urban areas.

TABLES

Besides the Village Directory which contains the Primary Census Abstracts for each village in the district in addition to other important informations relating to the village, all A-series tables with their appendices relating to the general population ; all B(i) i. e. General Economic Tables except B-II, all C-series i. e. Social and Cultural Tables except C-I, C-IV & C-VI ; and all tables for Scheduled Castes and Scheduled Tribes are reproduced in this volume. A short explanatory note for each of the above census tables presented in this volume is also given.

TABLE A-I

AREA, HOUSES AND POPULATION

This is the basic population table for the Census. This table furnishes the data for each police station and town separately. The area is given both in square miles and square kilometres ; but the density is calculated from square miles only. In addition to the data on area and density, this table gives the number of inhabited and uninhabited villages, occupied residential houses and the population separately for males and females according to the 1961 Census for both rural and urban areas separately.

The area figures of the district and police stations are as supplied by the Director of Land Records and Surveys, Government of Assam. The area figures of the towns are collected from the respective Deputy Commissioners and Subdivisional Officers, Local Bodies and in some cases, from the Local Self-Government Department of the Government of Assam.

Appendix I to Table A-I

This appendix shows the 1951 territories constituting the present set-up of the district.

Appendix II to Table A-I

This appendix shows the number of villages in the district with a population of 5,000 and over which are not declared as towns because they do not satisfy all the three criteria required for their treatment as towns.

Appendix III to Table A-I

This table furnishes the figures for houseless and institutional population for total, rural and urban areas separately. For the purpose of studying different characteristics, this population is included in the household population.

Note :— 1. The Sq. Km. and density figures of Urban areas of Police Station/Subdivision/District are worked out by using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the table. In addition to this, the area figures relating to Sq. Km. are further adjusted to make the Police Station/Subdivision/District totals tally.

2. Towns treated as such for the first time in 1961 are printed in italics.

3. The following abbreviations have been used for the status of a town, :—
   (i) M—Municipality
   (ii) T.C.—Town Committee

APPENDIX I

Statement showing 1951 territorial units constituting the present set-up of the District

Only those names/areas which have undergone changes since 1951 have been shown below

District	1951 Territorial units	Details of gains in territories			Details of loss in territories			Net Area (gain '+' loss '–')	
		Brief Description	Area		Brief Description	Area		Sq. miles	Sq. Km.

TABEE A-II—VARIATION IN POPULATION DURING SIXTY YEARS

This table furnishes population data for the last seven Censuses from 1901 to 1961 and the variation of population in each decade. This is a very important table as it gives the growth of population from decade to decade and in the absence of reliable vital statistical data, forms the main source for estimation of population. One of the main changes in this table since the last Census is that percentage variation is given from decade to decade.

District	Years	Persons	Decade Variation	Percentage Decade Variation	Males	Females
1	2	3	4	5	6	7
CACHAR	1901	630,302	..	..	326,477	303,825
	1911	713,566	+ 83,264	+13.21	371,478	342,088
	1921	751,560	+ 37,994	+ 5.32	391,666	359,894
	1931	803,694	+ 52,134	+ 6.94	422,362	381,332
	1941	895,140	+ 91,446	+11.38	471,769	423,371
	1951	1,115,865	+220,725	+24.66	588,306	527,559
	1961	1,378,476	+262,611	+23.53	722,487	655,989

A-III—VILLAGES CLASSIFIED BY POPULATION

This table gives figures for the number and population of villages in the various population groups which are less than 200, 200-499, 500-999, 1000-1999, 2000-4999, 5000-9999 and 10,000 and above. The group less than 500 of the last Census has been split up into two groups namely, less than 200 and 200-499.

A-IV—TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

This table gives the growth of each town since 1901. This table furnishes the areas of the towns of the 1961 Census both in square miles and square kilometres. For the purpose of this table, all towns are divided into 6 classes according to population. As in table A-II, the percentage variation of each town is given from decade to decade.

Class I—100,000 and above
Class II—50,000-99,999
Class III—20,000-49,999
Class IV—10,000-19,999
Class V—5,000-9,999
Class VI—less than 5,000

B — GENERAL ECONOMIC TABLES

TABLE B-I

WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This table is prepared separately for total, rural and urban population and it gives the total population classified by the nine industrial categories of workers and non-workers. Each category is divided into five age-groups namely, 0-14, 15-34, 35-59, 60+ and Age not stated. This is the basic economic table. The classification of workers and non-workers by age-groups is a special feature of the 1961 Census. The age-groups correspond to the different stages of life which have special significance with reference to capacity to work, namely, children, young persons, middle-aged persons and elderly persons.

TABLE B-III

INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

Part A of this table relates to urban areas only. Each of the nine categories of workers and non-workers is shown by literacy and educational levels. This is an important table as it shows the employment of persons of different educational levels among the various categories of workers. This information may be of much use for the assessment of educational qualification of available man-power.

Part B of this table relates to rural areas. The educational level is confined only to (i) Literate (without educational level), (ii) Primary or Junior Basic and (iii) Matriculation and above.

B-III PART A—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN URBAN AREAS ONLY

CACHAR DISTRICT

TABLE B-IV

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK OTHER THAN CULTIVATION BY SEX AND CLASS OF WORKER

This table corresponds more or less to the Union Table B-III of the 1951 Census.

It divides the working population, other than persons at work in cultivation, industrially into 9 Divisions, 45 Major Groups, 343 Minor Groups and into four statuses of employment. The Indian Census Economic Classification adopted at the 1951 Census was neither a purely industrial nor occupational classification of the population but was a combination of both. There were only ten divisions and eighty eight subdivisions of industries and services. The present classification follows the National Classification of Industries adopted by the Government of India with some suitable minor modifications within the framework. This table deals only with the indust ial classification of workers. The workers at Household Industries are classified into two employment statuses, namely, Employee and Others. The workers in Non-Household Industries are classified by the four statuses of employment, namely, Employer, Employee, Single Worker and Family Worker against Employer, Employee and Independent Worker in the 1951 Census. An Employer is a person who has to employ other persons in order to carry on the business from which he secures his livelihood. He is not only responsible for his own personal work but also for giving work to others in the business. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others is not an employer, even if he has the power to employ another person (s) in his office on behalf of his own employer (s).

An Employee is a person who usually works under som other person for salary or wages in cash or kind. Persons employed as Manager, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their own employers are only employees.

A Single Worker is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees and also a member of a Producers' Co-operative. Each one of the partners or members of such Producers' Co-operatives is treated as a Single Worker.

A Family Worker is a member who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of this definition, members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The Family Worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relatives.

This table has three parts. Part A restricts itself to an account solely of persons at work at Household Industry. It presents data for employee and others only for major groups separately for total, rural and urban.

Part B deals with the persons at work in non-household industry, trade, business, profession or service by the four statuses of employment only for total and urban. This part of the table also gives data only for major groups.

Part C of the table furnishes data for each minor group of the Industrial Classification in respect of persons at work other than cultivation for total and urban. It does not classify the workers by status of employment.

This is a very important economic table as it gives the employment position in various sectors of the economy.

The Indian Standard Industrial Classification so far as this District is concerned, is reproduced below :—

DIVISION 0 : AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

Major Group	Description	Minor Group
00	**Field Produce & Plantation Crops**	
	Production of crops (including vegetables) other than cereal crops (including bengal grams) pulses, fibres, oilseeds, sugarcane ond other cash crops	005
	Production of fruits and nuts in plantations, vines and orchards	006
	Production of other agricultural produce (including fruits & nuts not covered by minor group 006 and flowers) not covered above	009
01	**Plantation Crops**	
	Production of tea, in plantation	010
	Production of other plantation crops other than tea, coffee, rubber, tobacco, ganja, chinchona and opium	015
02	**Forestry and Logging**	
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fodder by exploitation of forest	024
	Production of gums, resins, lac, barks, hebrs, wild fruits & leaves by exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	**Fishing**	
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
04	**Livestock and Hunting**	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Trapping of animals or games propagation	047

DIVISION 1 : MINING AND QUARRYING

10	**Mining and Quarrying**	
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107

DIVISION 2 & 3 : MANUFACTURING

20	**Food Stuffs**	
	Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and foodgrains	200
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202

Major Group	Description	Minor Group
Division 2 & 3 :	MANUFACTURING (Continued)	
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oil (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	**Beverages**	
	Production of ice	215
	Production of ice-cream	216
22	**Tobacco Products**	
	Manufacture of bidi	220
23	**Textile-Cotton**	
	Cotton ginning cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving n handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Mannfacturing of cotton, cordage, rope and twine	239
24	**Textile-Jute**	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	**Textile-Wool**	
	Embroidery and art work in woolen textile	256
26	**Textile-Silk**	
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by handloom	264
27	**Textile-Miscellaneous**	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including rain coats and headgear	273
	Manufacture of made-up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279

Major Group	Description	Minor Group
Division 2 & 3 :	MANUFACTURING (Continued)	
28	**Manufacture of Wood and Wooden Products**	
	Sawing and planning of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Maunfacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	**Paper and Paper Products**	
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	**Printing and Publishing**	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, block making and other work connected with printing industry	302
	All types of binding, stitching and sizing and other allied work connected with binding industry	303
31	**Leather and Leather Products**	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of leather products (except those covered by minor group 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes & other leather footwear	314
	Repair of all other leather products except footwear	315
32	**Rubber, Petroleum and Coal Products**	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
33	**Chemicals and Chemical Products**	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of ammunition, explosives and fiire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of other chemicals and chemical products not covered above (includiag inedible oils and fats)	339

Major Group	Description	Minor Group
Division 2 & 3 :	MANUFACTURING (Continued)	
34-35	**Non-Metallic Mineral Products Other than Petroleum and Coal**	
	Manufacture of structural clay products such as brick, tile	340
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crookery	351
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by minor group 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass bangles, beads and glass apparatus	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furnitures	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (this will also include the mauufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	**Machinery (All kinds other than Transport and Electrical Equipment)**	
	Manufacture and assembling of machinery other than electrical, except textile machinery	370
	Manufacture of machine tools	372
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	**Transport Equipment**	
	Manufacture, assembing and repairing of locomotives	380
	Manufacture of wagons, coaches, tramway and other rail road equipment other than that covered by minor group 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and reparing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipments such as animal drawn and hand drawn vehicles	389

Major Group	Description	Minor Group
Division 2 & 3 :	MANUFACTURING (Continued)	
39	**Miscellaneous Manufacturing Industries**	
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metal	393
	Manufacture and tuning of musical instruments	394
	Manufacture and repair work of goods not assignable to any other group	399
DIVISION 4 :	CONSTRUCTION	
40	**Construction**	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tubewell, wells	403
DVISION 5 :	ELECTRICITY, GAS, WATER & SANITARY SERVICES	
50	**Electricity and Gas**	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
51	**Water supply aud Sanitary Services**	
	Collection, purification and distribution of water to domestic and industrial consumers	510
DIVISION 6 :	TRADE AND COMMERCE	
60-63	**Wholesale Trade**	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food-stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics and textile products such as garments, hessian, gunny bag, silk and woolen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611

Major Group	Description	Minop Group
Division 6 :	TRADE AND COMMERCE (Continued)	
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in electrical machinery and equipment, like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in all goods not covered above	639
64-68	**Retail Trade**	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder) aerated water	641
	Retail trading in intoxicants such as wine, liquor	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food-stuff like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textile and hosiery products : (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tube and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipments not covered above	664
	Retail trading in bricks, tile and other building materials	670
	Retail trading in hardware and sanitary equipments	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipments, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock & watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone records, pictures and paintings including curio dealing	687
	Book-Selling	688
	Retail trading in goods unspecified	689

Major Group	Description	Minor Group
Division 6 :	TRADE AND COMMERCE (Continued)	
69	**Trade and Commerce Miscellaneous**	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type financial operation	695
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
DIVISION 7 :	TRANSPORT, STORAGE AND COMMUNICATION	
70-71	**Transport**	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such an hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc., by river, canal	706
	Transporting by air	708
	Transporting by other means not covered above	709
	Services incidental to transport such as packing, crating travel agency	710
72	**Storage and Ware-Housing**	
	Operation of storage such as ware-houses	720
73	**Communication**	
	Postal, telegraphic, wireless and signal communication	730
	Telephone communication	731
DIVISION 8 :	SERVICES	
80	**Public Service**	
	(This does not include Govt., Quasi Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institutions each of which is classified in the appropriate industry groups)	

Major Group	Description	Minor Group
Division 8 :	SERVICES (Continued)	
	Public service in police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	**Educational and Scientific Services**	
	Educational services such as those rendered by technical colleges, techincal schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	**Medical and Health Services**	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homoepathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	**Religious and Welfare Services**	
	Religious services rendered by religious organisations and religious establishments maintained for worship or promotion of religious activities, (this includes missions, ashrams and other allied organisations)	830
	Religious and allied services rendered by pandit, priest, preceptors, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	**Legal Services**	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, muhurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	**Business Services**	
	Engineering services rendered by professional organisations or individuales	850
	Business, services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individividuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	**Community Services and Trade & Labour Association**	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisation such as rate-payers' association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862

Major Group	Description	Minor Group
Division 8 :	SERVICES (Continued)	
87	**Recreation Services**	
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisation and individuals including horse, motor, etc., racing	873
88	**Personal Services**	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafe restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry service rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, drycleaning services	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	**Services (Not Elsewhere Classified)**	
	Services rendered by organisations or individuals not elsewhere classified	890
DIVISION 9 :	ACTIVITIES NOT ADEQUATELY DESCRIBED	
90	**Activties unspecified and not adequately described (This includes new entrants to the Labour market)**	
	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

APPENDIX TO TABLE B-IV PART C

CACHAR DISTRICT

Minor groups having less than 1% of workers of the respective Division (Less than 0.5% in case of Minor Groups of Division 2 & 3), have been shown in this appendix.

The following abbreviations have been used :—

HI—Household Industry

NHI—Non-Household Industry

M—Males

F—Females

005 Total NHI (M 7 F 3), Urban NHI (M 1) ; 006 Total NHI (M 43) ; 009 Total NHI (M 204 F 111), Urban NHI (M 3) ; 015 Total NHI (M 24 F 56), Urban NHI (M 2) ; 021 Total NHI (M 22 F 1), Urban NHI (M 20 F 1) ; 022 Total NHI (M 2), Urban MHI (M 2) ; 024 Total NHI (M 2) ; 025 Total NHI (F 16) ; 026 Total NHI (M 21) ; 040 Total NHI (M 168 F 16), Urban NHI (M 15) ; 043 Total NHI (M 16 F 5) ; 047 Total NHI (F 1) ; 202 Total HI (M 101 F 29), NHI (M 6), Urban NHI (M 3) ; 203 Total HI (M 1), NHI (M 8 F 2), Urban NHI (M 8 F 2) ; 204 Total NHI (M 1), Urban NHI (M 1) ; 205 Total HI (M 8 F 2), NHI (M 129 F 3), Urban HI (M 1 F 1), NHI (M 110 F 1) ; 206 Total HI (M 3), NHI (M 20), Urban HI (M 1), NHI (M 20) ; 207 Total NHI (M 1) ; 208 Total NHI (M 1), Urban NHI (M 1) ; 209 Total HI (M 32 F 70), NHI (M 10 F 2), Urban NHI (M 6) ; 215 Total HI (F 3), NHI (M 14), Urban NHI (M 14) ; 216 Total NHI (M 1), Urban NHI (M 1) ; 220 Total HI (M 2 F 7), NHI (M 59 F 5), Urban HI (M 2 F 3), NHI (M 39 F 5) ; 233 Total HI (M 53 F 78), NHI (M 11 F 21) Urban NHI (M 8) ; 234 Total HI (M 3 F 1), NHI (M 3 F 29), Urban HI (F 1), NHI (M 3 F 29) ; 236 Total HI (F 117), NHI (M 7), Urban NHI (M 7) ; 237 Total HI (F 1), NHI (M 61 F 23), Urban HI (F 1), NHI (M 56 F 23) ; 239 Total HI (M 60), NHI (M 22), Urban NHI (M 19) ; 240 Total HI (F 25) ; 241 Total NHI (M 1), Urban NHI (M 1) ; 244 Total HI (M 23), NHI (M 2), Urban NHI (M 2) ; 256 Total HI (F 25), NHI (M 1 F 6), Urban NHI (M 1 F 1) ; 261 Total HI (F 1) ; 262 Total HI (F 5) ; 264 Total HI (M 1 F 114) ; 270 Total NHI (M 3 F 1), Urban NHI (M 3 F 1) ; 271 Total HI (M 1 F 7), NHI (M 3 F 14), Urban NHI (M 3) ; 272 Total HI (F 58), NHI (M 3 F 2), Urban NHI (M 3 F 1) ; 274 Total HI (M 4), NHI (M 2), Urban NHI (M 2) ; 277 Total NHI (M 4), Urban NHI (M 4) ; 278 Total HI (M 4), NHI (M 35 F 2), Urban NHI (M 15 F 2) ; 279 Total NHI (M 11), Urban NHI (M 11) ; 285 Total NHI (M 96 F 13), Urban NHI (M 1) ; 286 Total NHI (M 2), Urban NHI (M 2) ; 292 Total HI (M 1 F 2), NHI (M 4), Urban NHI (M 4) ; 300 Total NHI (M 38), Urban NHI (M 38) ; 301 Total NHI (M 22 F 2), Urban NHI (M 22 F 2) ; 302 Total NHI (M 24), Urban NHI (M 22) ; 303 Total HI (M 1), NHI (M 34), Urban NHI (M 32) ; 310 Total NHI (M 20), Urban NHI (M 18) ; 311 Total HI (M 9 F 1), NHI (M 67 F 4), Urban NHI (M 65) ; 313 Total HI (M 4), NHI (M 1) ; 314 Total HI (M 23), NHI (M 36 F 11), Urban NHI (M 5) ; 315 Total NHI (M 1), Urban NHI (M 1) ; 320 Total NHI (M 10), Urban NHI (M 10) ; 321 Total NHI (M 3), Urban NHI (M 3) ; 324 Total NHI (M 13), Urban NHI (M 13) ; 330 Total NHI (M 10), Urban NHI (M 10) ; 331 Total NHI (M 5), Urban NHI (M 5) ; 333 Total NHI (M 1), Urban NHI (M 1) ; 334 Total NHI (M 28 F 5), Urban NHI (M 25 F 4) ; 335 Total NHI (M 11 F 1), Urban NHI (M 8) ; 336 Total NHI (M 73), Urban NHI (M 72) ; 339 Total NHI (M 7), Urban NHI (M 7) ; 340 Total HI (M 2), NHI (M 1) ; 343 Total NHI (M 11), Urban NHI (M 11) ; 351 Total HI (M 10 F 64) ; 355 Total HI (M 85 F 7), NHI (M 33 F 7), Urban NHI (M 28 F 4) ; 356 Total NHI (F 4), Urban NHI (F 4) ; 357 Total NHI (M 1), Urban NHI (M 1) ; 359 Total HI (M 3), NHI (M 12 F 14), Urban NHI (M 11) ; 360 Total NHI (M 9), Urban NHI (M 9) ; 361 Total NHI (M 23), Urban

TABLE B-V

Occupational classification by sex of persons at work other than cultivation

This is a new table for the 1961 Census. As discussed earlier in case of table B-IV, the classification adopted at the 1951 Census was a combination of industrial and occupational. Two separate tables are therefore prepared on the basis of industry and occupation of the workers in this Census.

This table classifies the workers other than at cultivation into 11 Occupational Divisions, 75 Groups and 331 Families according to their occupations. This classification follows the National Classification of Occupations adopted by the Government of India with minor modifications within the frame work. It gives data for each family of the National Classification of Occupations separately for total and urban and for persons, males and females, and thus brings out the distribution of occupations among males and females.

B-V OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

CACHAR DISTRICT

Families having less than 1% of the workers of the respective Division, (less than 0.5% in case of families of Division 7-8), have not been shown in this table ; but are given in the appendix to this table. Divisions thus affected are marked with an asterisk (*).

APPENDIX TO TABLE B-V

CACHAR DISTRICT

Families having less than 1% of workers of the respective Division (Less than 0·5% in case of families of Division 7-8), have been shown in this appendix. The following abbreviations have been used :—

III—In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

IV—At Household Industry

V—In Manufacturing other than Household Industry

VI—In Construction

VII—In Trade and Commerce

VIII—In Transport, Storage and Communications

IX—In Other Services

M—Males

F—Females

Note :—

Division 0—Professional, Technical and Related workers
„ 1—Administrative, Executive and Managerial workers
„ 2—Clerical and Related workers
„ 3—Sales workers
„ 4—Farmers, Fishermen, Hunters, Loggers and Related workers
„ 5—Miners, Quarrymen and Related workers
„ 6—Workers in Transport and Communication Occupations
„ 7-8—Craftsmen, Production Process workers, and Labourers not Elsewhere Classified
„ 9—Service, Sports and Recreation workers
„ X—Workers not Classifiable by Occupation

TABLE B-VII

Part A of this table shows persons working principally (i) as Cultivators or (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by Secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural Labourer.

Part B of this table shows the Industrial Classification by sex of persons working in Non-Household Industry, Trade, Business, Profession or Service who are also workers engaged in Household Industry.

Table B-VII is prepared separately for total, rural and urban population. Part A of the table is a cross tabulation in the case of persons whose principal and secondary works are any two of (i) Cultivation, (ii) Agricultural Labour and (iii) Household Industry. This table is important as it shows the extent to which cultivation is supplemented by household industry or vice versa.

Part B of this Table gives data in the case of persons who are principally engaged in Non-Household Industry etc. and are also engaged in Household Industry as a secondary work.

Divisions and Major Groups appearing in the table are described below :

DIVISION 0 : Agriculture, Livestock, Forestry, Fishing and Hunting

Major Group 00 : Field Produce and Plantation crops
,, ,, 03 : Fishing
,, ,, 04 : Livestock and Hunting

DIVISION 2 & 3 : Manufacturing

Major Group 20 : Foodstuffs
,, ,, 23 : Textile-Cotton
,, ,, 25 : Textile-Wool
,, ,, 26 : Textile-Silk
,, ,, 27 : Textile-Miscellaneous
,, ,, 28 : Manufacture of wood and wooden products
,, ,, 31 : Leather and leather products
,, 34-35 : Non-Metallic Mineral Products other than Petroleum and Coal
,, ,, 36 : Basic Metals and their products except machinery and transport equipment
,, ,, 39 : Miscellaneous Manufacturing Industries

DIVISION 6 : Trade and Commerce

Major Group 64-68 : Retail Trade

DIVISION 8 : Services

Major Group 80 : Public services
,, ,, 81 : Educational and Scientific services

B-VII PART A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

TABLE B-VIII

This table shows the persons unemployed aged 15 and above by sex, broad age-groups and educational levels.

Part A of this table relates to urban areas. This is a classification of unemployed persons by their educational levels and age-groups. The educational levels are as in Table B-III Part A. This is prepared separately for those who are seeking employment for the first time and for those who were employed before but are now out of employment and seeking work. In the first case, the age-groups are 15-19, 20-24, 25-29, 30-34, 35+ and Age not stated and in the second case, 15-19, 20-24, 25-34, 35-44, 45-59, 60+ and Age not stated. This table will throw light on educated unemployed for purposes of planning for employment and also for assessing the available man-power.

Part B of this table relates to rural areas. In this table educational levels for total unemployed persons are given. The educational levels are limited to Literate (without educational level), Primary or Junior Basic and Matriculation and above as in Table B-III Part B.

TABLE B-IX

This table shows the persons not at work classified by sex, broad age-groups and type of activity.

This table is prepared separately for total, rural and urban population. The non-workers are divided into eight categories according to their activities. This kind of tabulation was never attempted before, nor were questions asked on the activities of non-workers.

The eight categories are based on the recommendations of the United Nations. This table makes the data available separately for those who have an earning without working. Separate data are also available in respect of housewives, who though do domestic work, are not classified as economically active. Separate data are also available for school-attending children which may be useful to the Education Department. There is a category which consists of all other dependents including children and disabled persons.

B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

C — SOCIAL AND CULTURAL TABLES

TABLE C-II :

AEG AND MARITAL STATUS

This table is prepared separately for total, rural and urban population. This is a very important demographic table. The age-groups conform to the international requirements. From this table, it can be ascertained whether proportions in the various marital statuses have increased or decreased since last Census and whether any trend is observed in the age of marriage. This table which was prepared on a 10% sample at the 1951 Census is prepared on full count at the present Census.

TABLE C-III

This table is prepared separately in three parts for total, rural and urban population. There are five yearly age-groups up to 34, and other age-groups are 35-44, 45-59, 60+ and Age not stated. While in the previous Censuses, only the total literate population for different age-groups was given, at the present Census, data for broad educational levels are also given. The educational levels are different for rural and urban areas as given in Table B-III. In this Handbook the table C-III is presented for total and u ban population only.

C-III PART A—AGE, SEX AND EDUCATION IN ALL AREAS

TABLE C-VII

RELIGION

This is the only table where the urban population is also tabulated separately for each police station as a special case. This table is prepared separately for total, rural and urban population. This table gives the distribution of population according to religion.

District/Sub-division/Police Station	Total Rural Urban	Total			Name of Religions

TABLE C-VIII

SCHEDULED CASTES AND SCHEDULED TRIBES

Classification by literacy and industrial category of workers and non-workers among Scheduled Castes/Scheduled Tribes

This table is presented in two parts—Part A relates to Scheduled Castes and Part B relates to Scheduled Tribes. It is prepared separately for total, rural and urban population. The table gives the total population of Scheduled Castes and Scheduled Tribes separately and their distribution by literacy and classification of workers into different industrial categories and the total number of non-workers. Literacy figures of Scheduled Castes and Scheduled Tribes are given for the first time in the present Census. This table is important as it will be the basis for the allocation of Reserved Seats in Parliament and the State Legislatures.

C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

TABLE SCT—I

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The SCT—I Tables are prepared in two parts. Part A relates to Scheduled Castes and Part B relates to Scheduled Tribes.

This table is prepared for each Scheduled Caste and Scheduled Tribe. This table gives the population of each Scheduled Caste and Scheduled Tribe separately, for rural and urban, and also shows in which sectors of industry members of each Scheduled Caste and Scheduled Tribe are working. Data have also been given on the un-wholesome occupations in which the members of Scheduled Castes are working. The population figures of each individual caste and tribe are often required for welfare and other works.

SCT—II

AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This is an important demographic table corresponding to table C-II but it gives data for the total population only. The age-groups are restricted to 0—14, 15—44, 45+ and Age not stated. At present demographic data are not at all available in respect of these communities. This table thus fulfils a very useful role. The age and marital status data give an indication whether the population belonging to Scheduled castes/Scheduled Tribes is decreasing, stable or increasing.

TABLE SCT—III

`EDUCATION FOR SCHEDULED CASTES/SCHEDULED TRIBES

This table is prepared for each Scheduled Caste and Scheduled Tribe and separately, for rural and urban population. It gives the literacy and educational levels for each Scheduled Caste and Scheduled Tribe. In the case of urban areas, data are given for educational levels as in Table B—III Part A. In the case of rural areas, data are given only for mere literates, Primary or Junior Basic and Matriculation and above as in case of Table B-III Part-B.

Note :—Members of Scheduled Castes can belong either to the Hindu or Sikh religion. In Karimganj Subdivision, there are no members of Scheduled Castes belonging to Sikh religion. As all the Scheduled Castes belong to Hindu religion, the caste-wise population is given in Table SCT-I Part A and, therefore, no separate figures have been presented in this Table.

SCT-IV PART B

RELIGION FOR SCHEDULED TRIBES

CACHAR DISTRICT

Note :—In Cachar District there are no members of Scheduled Tribes belonging to any religion other than the Hindu religion. As all the Scheduled Tribes belong to Hindu religion, the tribe-wise population is given in Table SCT I Part B and, therefore, no separate figures have been presented in this Table.

TABLE SC—I

PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR SCHEDULED CASTES

This table is prepared for total Scheduled Castes and not for individual castes. It is prepared separately for total, rural and urban population. The table gives data for students and unemployed persons in the non-working population. They are further classified according to broad educational levels consisting of Literates, Primary or Junior Basic, Matriculation or Higher Secondary and Above Matriculation or Higher Secondary. This table gives very useful informations on the students and unemployed persons among the Scheduled Castes.

Note :—Figures for Urban areas of Hailakandi Subdivision being nil.

The Tabulation Plan and other proposals for the 1961 Census envisaged incorporation of official statistics on a large variety of subjects for each district in the District Census Handbook of the district concerned. This proposal was communicated to all Chief Secretaries of State Governments by the Registrar General as early as November 1960 with the request that each State Government should take up the collection of the data in right earnest so that the same may enrich the informations of the District Census Handbook. Each State Government was also welcome to further enrich the District Census Handbooks by any additional information that they may like to incorporate in the handbook. The items with other details were listed by the Registrar General and he also indicated the periods against which such data were to be collected. Copies of the above letter and the contents therein were forwarded to all Superintendents of Census Operations by the Registrar General with the request that the matter may be pursued with the State Governments. The data were to be processed and compiled by the Superintendent of Census Operations and incorporated in the District Census Handbook of each District.

In pursuance of this communication from the Registrar General, I opened a small cell with a Statistical Assistant, one Upper Division Assistant and a few experienced tabulation personnel to take up the work and I addressed all the State and Central Government departments dealing with the subjects under which the data were to be collected and compiled. I pursued the matter not only by letters and reminders, but also by sending my staff to the various departments concerned to copy out the data wherever it was not possible for the department concerned to supply the data to me without extra hands. But in spite of persistent pursuit for about two years, all the data could not be collected. Some informations were not available at all, while some departments were not very co-operative. As the Census Publications cannot wait indefinitely for these informations, I have to process and compile whatever data are available to me.

The subjects listed to be collected embraced almost all spheres of the socio-economic life of the people and the Governmental activities connected therewith. From rainfall and temperature to places of ancient monuments and worship, from vital statistics to statistics of banks and insurances, from agricultural and land utilisation statistics to the statistics of local bodies, industries and so on, the plan was to appraise the stage of development of each one of the socially and economically important aspect of governmental activities during the last decade which coincides with the two Five Year Plans. Had it been possible to collect all the data in full, a clear picture would have been obtained of the stage of development of each district of Assam as well as the achievements and the impacts of the two Five Year Plans on the economy of each district of Assam. It would also have been possible to bring to light the inter-district and regional disparities in respect of development schemes in each district or region and these data could then be utilised as the basis for future plans and allocation of different schemes.

Realising the fact that well-conceived plans must be based on correct statistics, I started the work of collecting the data with earnestness and tried my utmost to collect as much information as possible off all departments of Government. But in spite of the best of exertions by me and my staff, only about 60% to 70% of the data had reached me till the end of 1962. These available data have been duly processed, compiled and presented in the tables following this Note. Incomplete as they are, even the data thus presented in this book will surely give a picture of the various stages of developments in each district and region of Assam and I hope that my successor may improve upon the same in the next Census. I shall now briefly describe the original plan and the achievements in respect of the collection of data against each one of the broad heads in the cases below :—

1. RAINFALL AND TEMPERATURE

The aim was to give rainfall data of five centres and temperature data for two centres for each district of Assam for the period 1951-60. I addressed the Meteorologists in charge of the Regional Meteorological Centre, Calcutta and the Gauhati Airport, and they could furnish me with rainfall data against one centre only in the district. Regarding temperature data also they could supply for one centre only.

I also addressed the Deputy Commissioners and Subdivisional Officers as well as the Adviser, Assam Branch of the Indian Tea Association, and I was able to collect data for the remaining centres from these sources.

2. VITAL STATISTICS

I addressed the Director of Health Services, Assam, for supplying me with vital statistics which are so important for population planning and projection. Our plan was to show the births and deaths recorded for each month of the last decade against each police station in the district. The Public Health Department replied that they never have records of births and deaths down to the police station level and so I asked them to give the figures down to the district level, but even that also was not forthcoming. I sent my staff to the office of the Director of Health Services and they had to take much trouble in locating, extracting and compiling whatever data are available in that office regarding vital occurences from the Vital Statistics Returns lying uncared for in the office premises of the Director of Health Services. But these data are absolutely inaccurate and they cannot give any picture of births and deaths in the district. However, the table is presented for whatever it is worth. In the General Report of the 1951 Census, the then Director of Health Services admitted that there is no doubt that the collection of registration data is defective. As far back as 1921, my predecessor Mr. Llyod remarks that "it is obvious that the vital statistical figures are useless for purposes of comparison or checking with the Census figures." In 1911, Mr. McSwinney remarks that "the inaccuracies are so great that there is danger of inferring that present system of collecting vital statistics is absolutely useless." If the collection of vital statistics had been so bad in the past decades, it has been worse during the decade 1951-61. The Deputy Director of Health Services told me that when the data were collected by the police, mauzadars and the municipalities, something could be had from them ; but when the collection has been entrusted to the Panchayats, no figures are available at all. Government may have to devise a definite scheme and a definite agency for the collection of these vital occurences, otherwise these important statistics are of no use as far as Assam is concerned.

3. LAND UTILISATION AND AGRICULTURE

In respect of land utilisation and agriculture, informations were proposed to be furnished under the heads—(i) land utilisation statistics (ii) area under principal crops (iii) gross area irrigated (iv) sources of irrigation (v) irrigation projects (vi) yield rates of principal crops (vii) statistics of daily agricultural wages (viii) fortnightly wholesale prices of important commodities month by month (ix) consumption statistics (x) details of socio-economic enquiries and (xi) agricultural extension schemes.

Statistics under these two heads are still in a very poor stage of development in Assam. In April 1961, I addressed the Director of Agriculture, the Director of Land Records and the Director of Statistics requesting them to supply me with as much data under the above heads as are available with each of them. The Director of Agriculture straightaway shifted this responsibility to the Director of Statistics. The Director of Statistics in his turn asked me to collect the data from his office records through some of my staff. The Director of Land Records directed the Settlement Officers and Deputy Commissioners concerned to supply the data direct to me. In accordance with the suggestion of the Director of Statistics, I sent a few employees of my office to collect the available data from his office records. Except for the periods 1901-1912, 1952 and again from 1958 onwards, most of the data were available and were collected accordingly. In reply to the Director of Land Records' letter to all Settlement Officers and Deputy Commissioners, only the Deputy Commissioners of Cachar and Goalpara and the Settlement Officer, Sibsagar submitted some figures. The rest were silent. I also made direct correspondence with all the Revenue and Settlement Officers but to no effect. For the period 1901-12 and 1952, I wrote to the Registrar General to see if the necessary figures could be extracted from some of the publications preserved in the archives of the Ministry of Food and Agriculture. The Registrar General was kind enough to take the trouble and get the figures collected and forwarded to me. These figures are included in the tables prepared under this head.

Within the above limitations, tables under Agriculture and Land Utilisation statistics have been prepared and presented. Most of the tables are limited in scope and practical usefulness from the point of view of studying the trends or projecting a policy decision owing to lack of informations for the gaps during the period under reference. The period of reference 1901-1960 is interpreted as consisting of the Census years, namely 1901, 1911, 1921, 1931, 1941, 1951 and 1961. Each Census year represents five years, i. e. two years ahead and two years backward of the Census year which is also included.

But the Census years 1901 and 1961 are exceptions to this rule. In view of the non-availability of data preceding the year 1901 and following the year 1961, the figures for the year 1901 has been worked out on the average of the years 1901 to 1905 and for that of 1961, the average was worked out from the year 1956-57 to 1960-61.

Although the original plan was to publish the prices of staple food stuff and average prices of basic commodities month by month for the last decade with a cost of Living Index, the plan had to be restricted to the presentation of average retail prices of some important commodities due to the non-availability of data.

The construction of the cost of Living Index calls for informations regarding comsumption level, weightage, family budget etc. Such informations are not available even in the Department of Statistics. Consequently the idea had to be dropped. The Director of Agriculture had been requested to enlighten me with data regarding experiments in double and triple cropping and agricultural extension schemes, but even though a reply was received from him no data could be had from it. The data relating to consumption statistics and details of socio-economic enquiries have also been left out altogether on account of non-availability of data.

4. LIVESTOCK

Variation in the number of main livestock during 1920-60 was proposed to be given. I addressed the Secretary, Veterinary Department, Government of Assam who directed the Director of Veterinary and Animal Husbandry Department to compile and forward the necessary figures to me. The Director of Veterinary Department could supply me with data only from 1945 onwards. For the earlier period, he said the data were not available in the Department.

5. INDUSTRIES

I wrote to the Department of Industries for a list showing the Cottage and Small Scale Industries of the Cachar district, but I was referred to the Ass istant Director of Industries, Silchar. I wrote to the latter accordingly and he could furnish me with some data. However, the list showing all categories of industries has been compiled from the Census data extracted from the Houselists and these were presented in the tables. The few data supplied by the Assistant Director of Industries have also been incorporated in the tables. I also wrote to the Chief Inspector of Factories and the Director of Industries to supply we with informations regarding the growth of factories from 1951 up to 1961, but they expressed their inability to do so. However, a list showing the large scale establishments as extracted from the Central Publication 'Large Scale Establishments' in India 1957 has been prepared and this was later supplemented with some informations collected from the Director of Industries and Chief Inspector of Factories, Assam.

6. ADMINISTRATION

Under this head, informations were sought to be incorporated in this book in respect of the (1) number of criminal cases tried, (2) persons convicted, (3) strength of police, jails, (4) receipt of different kinds of taxes, (5) receipt of land revenue, (6) number of registered documents and (7) value of property transferred in the district for the latest period of time for which informations are available. The growth of co-operative societies from 1951 till 1960 was another item under this head.

Data regarding the number of criminal cases tried and persons convicted, strength of police and jails are collected from the 'Report on the Administration of Criminal Justice in the State of Assam' and Report on the Police Administration in the State of Assam which was subsequently supplemented by data extracted by my staff from the office records of the office of the Inspector General of Police, Assam. The Commissioner of Taxes was prompt enough to supply with the figures of collections under different categories. I wrote to the Revenue Department and the Director of Land Records to send me the figures showing the receipt of land revenue during the last decade. The Director of Land Records referred me back to the Revenue Department. The Revenue Department made a lot of correspondences but no data are available from them. At long last, the compilation team could collect some figures from the 'Statistical Abstract' published by the Director of Statistics and office records of the Revenue Department unofficially. For informations regarding the number of registered documents and value of property transferred in the district, I made necessary correspondences with the Director of Land Records and Inspector General of Registration who referred me to the Accountant General and the District Registrars. I had written to the District Registrars accordingly and at long last the data for Lakhimpur and Cachar districts had been received. Data regarding different types of co-operative societies in the district were collected by my staff from the office records of the office of the Registrar of Co-operative Societies, Assam, Shillong which was subsequently supplemented by the informations furnished by the Assistant Registrar of Co-operative Societies, Cachar, Silchar.

7. PUBLIC HEALTH & MEDICAL

The list presented regarding this item was prepared from data supplied by the Civil Surgeon, Cachar, Silchar.

8. EDUCATION

Under this head, the intention was to show the increase in the number of various categories of schools and colleges including Medical and Technical from 1951 to 1960. I wrote to the Director of Public Instruction, Assam accordingly and in spite of a number of reminders, he could not supply me with the required data. My next course was to depute some of my staff to that office and get the informations collected. In this way, my staff with the co-operation of the office staff of the Director of Public Instruction, could collect informations for two years only. My staff were given to understand that informations for the earlier years were not available in the office of the Director of Public Instruction.

9. PUBLIC ENTERTAINMENT, PRESS AND JOURNALS

The informations furnished under this head were supplied by the Deputy Commissioner, Silchar and Subdivisional Officers, Karimganj and Hailakandi.

10. COMMUNICATION

Under this head, informations were attempted to be compiled regarding the number of (1) village roads, (2) roads and bridges, (3) railway stations, (4) list of important waterways.

For data on village roads, I wrote to the Development Commissioner who was good enough to get the data collected through the Block Development Officers. But the informations received are not complete for the whole district. On roads and bridges, the Chief Engineer (Roads & Buildings) was addressed and he supplied me with a booklet from which the informations presented in this book were extracted. The list of railway stations in the district was supplied by the Chief Commercial Superintendent, North-East Frontier Railway, and the list of inland waterways was furnished by the Director of Inland Water Transport, Assam.

11. LOCAL BODIES

This includes the Panchayats in the rural areas and Municipalities and Town Committees in urban areas. A list of Anchalik Panchayats in the district with relevant particulars was received from the Panchayat and Community Development Department and presented below. A list of Municipalities and Town Committees in the district during 1961 is also furnished.

12. COMMUNITY DEVELOPMENT

The Development Commissioner, Assam, furnished me with a statement showing the names and stages of all the Community Projects in the district. After compilation to make it intelligible to the general reader, the statement is re-produced in this volume.

13. BANKS, INSURANCES AND SMALL SAVINGS

On request, the Director of Statistics was good enough to furnish me with a list showing the banking institutions in the district. Data on Small Savings were supplied by the Regional Director, National Savings, Government of India, Assam, Shillong. For data on the number of insurance policies in the district, I wrote to the Divisional Manager, Life Insurance Corporation, Gauhati, and the Managing Director, Life Insurance Corporation, Bombay but they could not supply me with the district-wise figures.

14. FAIRS AND FESTIVALS AND HATS AND MARKETS

Information on Fairs and Festivals were supplied by the Deputy Commissioner, Silchar and Subdivisional Officers, Karimganj and Hailakandi. The Secretaries of Anchalik Panchayats supplied data relating to Hats and Markets.

15. CALENDAR OF IMPORTANT EVENTS

Informations regarding some important events that took place during the decade 1951-61 in the district were supplied by the Deputy Commissioner, Silchar and Subdivisional Officers, Karimganj and Hailakandi.

16. ANCIENT MONUMENTS, ANTIQUE OBJECTS AND PLACES OF WORSHIP

Under this head also informations were received from the Deputy Commissioner, Silchar and Subdivisional Officers, Karimganj and Hailakandi.

17. GAZETTEER OF PLACE NAMES

Whatever has been presented on this item was compiled by my staff from various sources.

* The forest areas exclude the areas of the forest villages within the reserves for the years 1912-13 to 1950-51

@ Including seedling areas

£ Average of two years namely 1951-52 and 1952-53.

££ Figures for the year 1912-13 only

** The informations relating to cultivable wastes, pastures and grazing lands and miscellaneous tree crops and groves etc., were not available separately for the years prior to 1951-52 and these three categories were included under the group "cultivable wastes other than fallows" for the years 1912-13 to 1949-50 which changed into category "other uncultivated land excluding current fallows" for the year 1950-51 onwards. This category since 1951-52 had been divided into (i) cultivable wastes, (ii) permanent pastures and grazing lands and (iii) area under miscellaneous tree crops and groves not included under net area sown

@@ Including seedling areas for the years 1948-49, 1949-50 and 1950-51

*** Data presented for 1961 is the average of two years viz. 1956-57 and 1957-58. For the subsequent years viz. 1958-59 to 1960-61 data are not available

N.A.—Not available

EXPLANATIONS OF THE CODES USED FOR THE INDUSTRIES IN TABLE 5.1

Sl. No.	Description	Code
1	2	3
1	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
2	Production of rice, atta, flour etc. by milling dehusking and processing of crops and foodgrains	200
3	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
4	Production of bread, biscuits, cake and other bakery products	205
5	Production of edible fats and oil (other than hydrogenated oil)	207
6	Production of other food products such as sweatmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
7	Production of aerated and mineral water	214
8	Production of ice	215
9	Production of ice-cream	216
10	Processing of tea in factories	217
11	Manufacture of bidi	220
12	Cotton ginning, cleaning, pressing and baling	230
13	Cotton dyeing, bleaching	233
14	Cotton weaving in power looms	234
15	Cotton weaving in handlooms	235
16	Manufacturing of khadi textile in handlooms	236
17	Manufacture of other products like rope cordage from jute and similar fibre such as hemp, mesta	244
18	Spinning of silk other than in mills	262
19	Manufacture of hosiery and other knitted fabrics and garments	271
20	Making of textile garments including rain coats and headgear	273
21	Manufacture of umbrellas	278
22	Sawing and planning of wood	280
23	Manufacture of wooden furniture and fixtures	281
24	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
25	Manufacture of other wood and allied products not covered above	289
26	Printing and publishing of newspapers and periodicals	300
27	Printing and Publishing of books	301
28	All other types of printing including lithography, engraving, etching, block making and other works connected with printing industry	302
29	All types of binding, stitching, sizing and other allied work connected with binding industry	303
30	Manufacture of shoes and other leather footwear	311
31	Repair of shoes & other leather footwear	314
32	Manufacture of matches	334
33	Manufacture of medicines, pharmaceutical preparations, perfumes, cometics and other toilet preparations except soap	335
34	Manufacture of soap and other washing and cleaning compounds	336
35	Manufacture of structural clay products such as brick, tile	340
36	Manufacture of lime	342
37	Manufacture of earthenware and earthen pottery	350
38	Manufacture of brass and bell-metal products	365

Sl. No.	Description	Code
1	2	3
39	Manufacture of sundry hardwares such as G. I. Pipe, wire net, bolt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Code No. 365, 380, 382, 384, 386, 388, 390, 392, 394 & 399	369
40	Manufacture, assembling and repairing of locomotives	380
41	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
42	Repairing and servicing of motor vehioles	384
43	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
44	Repairing of bicycles and tricycles	388
45	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment supplies	390
46	Assembling and repairing of watches and clocks	392
47	Manufacture of jewellery, silverware and wares using gold and other precious metal	393
48	Manufacture and tuning of musical instruments	394
49	Manufacture and repair work of goods not assignable to any other group	399

CALENDAR OF IMPORTANT EVENTS IN THE DISTRICT

DURING 1951-1961

1. **General Election** : Along with the rest of the country Cachar also went into the polls in 1952—first election held on the basis of adult franchise. It created great interest throughout the district which was reflected in the contests of a very large number of candidates belonging to various parties. A good number of independents also contested in this election. Political parties contested in 1952 general election were : Congress, K. M. P. P., Communist, Socialist, Forward Block (Subhashbadi), and Jan Sangh. One bye-election was caused from Silchar Constituency due to invalidation of the election, but the independent candidate ultimately retained his seat

In 1957, the general election was held with lesser candidates, still lesser parties and a fewer contests and in some constituency straight contests were also seen. Major Political Parties contested in this election were—Congress, Communist and P. S. P. This time also one bye-election was caused in 1958 at Badarpur constituency due to invalidation of the election. The said bye-election was contested by Shri Bimala Prasad Chaliha, the then non-M. L. A. Chief Minister of Assam, who returned from this constituency with a comfortable victory.

2. **Influx of evacuees from Brahmaputra Valley and Language Movement** : In the year 1960, a movement for making Assamese as the State's official language gained momentum in the Brahmaputra Valley, which created suspicion and generated opposition in the Cachar district and other Hills districts. It led to unfortunate events and disturbances in the Brahmaputra Valley and a large number of Bengali-speaking Assamese rushed to Cachar as evacuees. Several relief camps were opened in the important places of the district to accommodate the evacuees. When this unfortunate situation was controlled by Government, evacuees were taken back to their homes and properly rehabilitated by Government. But fortunately this had no repercussion in the Cachar district.

To protest against the proposed language bill a conference was held at Silchar on 2nd and 3rd July, 1960 under the banner "All-Assam Bengalees and Non-Assamese Conference", which demanded maintenance of linguistic status quo in Assam. But when the language bill making Assamese as the sole official language was passed by the State Assembly, another convention under the banner "Cachar Jela Gana Sammelan" was held at Karimganj in December 1960 for launching a movement for official recognition of Bengali as one of the State languages. When its ultimatum to the Central and State Governments failed to elicit compliance, a "Padayatra" was organised from 1st Baisakh 1368 B. S. and a massive civil disobedience movement was launched on 19th May 1961. The Satyagraha at Silchar Railway Station on that day culminated in unfortunate Police firing in which eleven persons lost their lives including a girl. This unfortunate incident created commotion in the district and unprecedented upsurges were seen throughout the district. The Chef Minister of Assam Mr. B. P. Chaliha visited Silchar and announced the decision of the Government to institute a judicial inquiry into the firing. The then Home Minister Mr. L. B. Sastri also dashed to Silchar and held a series of parley with top leaders of Cachar and the State. Subsequently the Sangram Parisad Movement was called off on this negotiation and the formula enunciating safe guarding the linguistic minority rights—popularly known as "Sastri Formula" was defined by the Union Home Minister. The implementation of this formula was assured by the Union Home Minister, who got it approved by the Chief Minister's Conference held shortly afterwards, and the language bill was amended accordingly.

3. **Border Troubles** : The Indo-Pak border firing is a chronic feature of this district. During the last decade Pak firing on the Pathania and Tukergram borders were recorded several times and it assumed greatest point in August 1958 when Tukergram, a village bordering on the Indian side was occupied by Pakistani forces. Due to intermittent Pak firing on the border areas Bhanga and Patharia suffered great damages. The village of Tukergram was subsequently surrendered to India under Seikh-Saran agreement in the year 1959.

4. **Construction of Barak Bridge at Sadarghat** : The original scheme for construction of a motorable bridge over the river Baraka at Sadarghat, Silchar, was formulated during the 1st Plan for actual implementation during the 2nd Plan Period. The actual work worth a few lakhs of rupees was commenced in 1957 by an Engineering Firm from Bombay, which was ultimately abandoned due to some dispute between the Firm concerned and the Government of Assam. In the year 1961 fresh contract had been given to M/s Gamon India Private Ltd. for construction of the bridge and the work is now under progress. The proposed date for completion of the work is reliably learnt to be by the end of 1964. When the bridge will be completed, it will connect Silchar town with a direct road to Kumbhirgram airport and a vast tea-belt area of the district will also be benefited.

NOTES ON ANCIENT MONUMENTS AND PLACES OF WORSHIP IN THE DISTRICT

1. **Bhuban Hill :** It is situated at a distance of 29 miles to the south of Silchar. On the top of this Hill there are stone images of Siva and Durga believed to be of medieval age. There is also a subterranean passage from the site of these images. It is not known what passage it is. A large number of people visit this place on the occasion of Sivaratri and Baruni.

2. **Sivatilla** : About a mile to the south of Sonai, there is a hillock called 'Sivatilla'. On this hillock there is a Siva temple established by Kachari king Gobinda Chandra. A big crowd assemble here on the occasion of Sivaratri and 'Gosthastami'.

3. **Bharambara Temple** : It is situated in the Silcurigrant at a distance of about 7 miles from Silchar. There are stone images of Brahma and Lakhinarayan. A large number of people gather in the Mandir (Temple) on the occasion of Rash Purnima and Maghi Purnima every year in the month of Kartik and Magha respectively.

4. **Temple of Lakhimata** : At Lakhibari there is a temple of Lakhimata on the tilla land. A mela is held during Sivaratri every year in the month of Falgoon.

5. **Arunachal Kalibari** : About four miles west of Silchar near Arunachal Railway Station there is a temple of goddess Kali on the peak of a hillock. It is said that the same was established by Thakur Dayananda Deb, in the year 1909. In every Pausha Sankranti, a big mela is held and lasts for five days.

6. **Temple of Ranachandi** : This is situated at Bijoypur. There is a story that being dethroned by the Burma King, the descendant of Kachari Raja lived in this place. He used to worship goddess "Chandi" an aspect of goddess Durga. One day he dreamt that he would be able to defeat his enemies by the thing which he would see first after his bath on the following morning. Next morning at the time of his bath he saw a dead snake floating over the water. According to the divine direction he caught hold of the snake and at once it turned into a nice sword. Since then, the sword is preserved in the temple of Ranachandi at Bijoypur.

7. **Pratapgarh Pargana** : Two miles north-east of Patharkandi Police Station there are the remains of the Fort of Raja Pratap Singh a petty local notable who gave his name to that area.

8. **Mundamala Tank :** The remains of the tank having some legend behind it, is situated at Mundamala near Patharkandi Primary Health Unit. Story goes that this area was once under the territory of Pratapgarh. A warlike hill tribe once attacked this area with the intention of occupying the territory. But they were defeated in the hands of the ruler of Pratapgarh. To celebrate the victory, the head of the vanquised tribe was killed and captured enemies were then severed and placed all around the tank and since then the tank is named as 'Mundamala' i. e. the tank garlanded with heads.

9. **Badarpurghat** : There exists remnants of a Fort of Kachari King at Badarpurghat. There is a legend that the Kachari King Govenda Singh concealed himself in that Fort and fled away through the tunnel of the Fort to avoid attack from the late Manipur King Gambir Singh.

10. **Malugram Siva Temple** : In the Malugram ward of Silchar town, there is a massive and high brick-built temple of Lord Siva constructed by a Sannyasin of the Giri order. The temple was constructed about sixty years back. A large number of people congregate on the occasion of Sivaratri and Baruni every year.

11. **Khaspur** : The last capital of the Kachari King established by Tamradhwaj Narayan about 1690 A. D., about 13 miles north-east of the Silchar town. A very long area contains ruins of brick-built two storied palace, temple of Rana Chandi, Vishnu temple, snan mandir and a large number of tanks. The temple of Rana Chandi is still in use.

12. **Siddheswar Shiva Temple** : On the left bank of the river Barak, about a furlong to

the east of the Badarpur ghat railway station there is an old shrine dedicated to the Hindu god, Lord Shiva. Previously there was a gap of about half a mile between the shrine and the river course, but due to heavy erosion of the river by 1916 flood, the river course now flows grazing the main temple which is built upon the rock. There is a stone image of Lord Shiva in the form of Lingam and some other deities. The shrine of Shiva's consort Parvati otherwise known as Shakti or Bhairabhi which is always an adjunct to a Shiva temple, stands on a high hillock on the south of the railway line. According to the tradition, the main lingam was installed here in the days of yore by a saint named Kapila, the author of the Sankhya philosophy. The shrine is also known as the Kapila-Ashram. Every year, on the occasion of Baruni hundreds of thousands of people congregate here.

A NOTES ON THE GAZETTEER OF PLACE NAMES IN THE DISTRICT

1. **Silchar** : Silchar town, the headquarters of the district of Cachar stands on the south bank of the river Baraka. It is served by road, rail and air communications. It is also connected by a fair weather road (proposed National Highway) with Shillong, the capital of the State. Silchar is also connected by a motorable road with Aijal, the district headquarters of the Mizo district. An important business centre, perhaps, the biggest in the district. At present there are 5 Boys' H. E. School, three Girls' H. E. School, three Colleges (including one Girl's College), one B. T. College and one Law College.

2. **Lakhipur** : A new township under Silchar subdivision, lying at a distance of about 26 miles from Silchar connected by a motorable road. The border of Manipur State is not very far from this town. It is the biggest pineapple growing area of the State. Phulertol, the headquarters of an Anchalik Panchayat and Development Block is only 1½ miles away.

3. **Pailapool** : Falls under Lakhipur Police Station and important for the location of a Government Sericulture Farm.

4. **Salchapra** : Stands at a distance of about 11 miles from Silchar town on Silchar-Badarpur road. Headquarters of an Anchalik Panchayat and Development Block. An inspection bungalow is located there. Served by railway communication also.

5. **Katakhal** : Located at a distance of about 3 miles from Salchapra, an important railway junction under N. F. Railway. Connects Hailakandi Town by a branch railway line. Very famous Sitalpati producing centre of the district. Fishes are also being supplied from this place to Silchar & Hailakandi markets.

5. **Arunachal** : An important place lying about 4 miles away from Silchar town, connected with Silchar by road, rail and river. During the 2nd World War, Burmah Oil Company tried to explore oil from this particular place but had to abandone the idea due to some technical difficulties. Recently, it has become a military cantonment area. An Extension Training Centre run by the Development Department is also functioning here.

7. **Katigora** : This is an important S.D.C. Circle under Silchar subdivision on the northbank of river Baraka just on the opposite side of Badarpur. The national highway of Jowai-Badarpur road runs through this p'ace. The village is served only by road and river communication. It is an important business centre. This village is the proposed headquarters of an Anchalik Panchayat and Development Block.

8. **Srikona** : Srikona is situated at a distance of 6 miles from Silchar town on Silchar Badarpur road. It has become an important place after the establishment of the Srikona Industrial and Technical Institution.

9. **Badarpur** : It is one of the biggest railway junctions under N. F. Railway in Karimganj Subdivision. It is the nerve-centre in the sphere of communication system (road, rail and river) of the district. Constructions of an Industrial Estate and a Leather Tanning Centre are also in progress.

10. **Karimganj** : Karimganj town is situated on the southern bank of the river Kushiara, which demarcates the Indo Pak border with an area of 2.29 square miles. It is the subdivisional headquarters of Karimganj subdivision. The proposed construction of a railway line from Kalkalighat to Dharmanagar would provide a railway link between Tripura and Karimganj. Road communication from Karimganj to Agartala is already there. This town is working as a supply base for the whole af Tripura. This town is the nerve-centre of trade and commerce for the whole district of Cachar as well as North Cachar Hills and Tripura. A new road project for linking the Mizo Hills district with this subdivision via. Demagiri and Katamani is also under execution. It is a growing industrial town of this district. A few small scale manufacturing units are in existence here. There are 4 Boys' H. E. School, three Girls' H. E. School, one High Madrassa, and two Colleges (including one women's College).

11. **Nilambazar** : This is an important place under Karimganj subdivision. Connected

with Karimganj town by both rail and road. Nilambazar is the headquarters of South Karimganj Anchalik Panchayat and Development Block. It is an important market place for a few neighbouring villages.

12. **R. K. Nagar** : Ramkrishnanagar is situated in the surroundings of beautiful hillocks under Ratabari Police Station. Connected with Karimganj and Hailakandi by road. The nearest railway station Anipur is four miles from R. K. Nagar. Before the partition of India, this place was known as Vaismara, and with the settlement of refugees from East Pakistan, this place has been renamed as R. K. Nagar. R. K. Nagar has assumed importance after the establishment of Development Block-headquarters in the year 1952. As a result, this village has grown up in a planned way on both sides of the Anipur-Monachara road having a bazar, H. E. School, Girls' M. E. School, Post and Telegraph Offices Sub-Register's Office, one Industrial T. C. P. centre, Fruit Nursery and a Hospital. This place is undoubtedly the most developed village under Karimganj subdivision.

13. **Patharkandi** : Important place, connected by both rail and road with Karimganj town. Headquarters of an Anchalik Panchayat and Development Block and Sub-Deputy Collector's Circle, and having a bazar, Police Station, Public Works Department Office, H. E. School, Hospital and Veterinary Dispensary, Forest Office etc.

14. **Hailakandi** : Hailakandi Town is the subdivisional headquarters of Hailakandi subdivision. This town is bounded by beautiful hillocks. It is a prominent business centre of the subdivision. This place is famous for its supply of livestock and agricultural products to other parts of the district. There are a few H. E. Schools and one College. Besides, one temple of gooddess 'Kali', many magnificient mosques are found here. The town of Hailakandi is also connected with Silchar town by State Transport bus service.

15. **Lala** : An important place under Hailakandi subdivision. It is connected with Hailakandi by both rail and road. This is a growing village and is having a Development Block Headquarters, a Police Station, a Bazar, a Primary Health Unit, Post & Telegraph office and over and above a Higher Secondary School. It is an important business centre.

16. **Katlichara** : Falls under Hailakandi subdivision, an important market place for rice, vegetables and oil-seeds. This place is connected by a motorable road with Hailakandi Town. Katlichara is also having a H. E. School and a Police Out-post.

17. **Sonai** : Perhaps the biggest village market under Silchar subdivision. The local market deals in rice, vegetables and livestock products. Connected with Silchar town only by road.
