State Government Publications

25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages in Maharashtra

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Opertions, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(*i*) The addition of a comprehensive note introducing the district ;

(*ii*) The four-coloured map of the district ;

(*iii*) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;

(*iv*) Supplementary information showing basic amenities available for each villge; and

(*v*) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note we have drawn heavily on the District Gazetteers, Survey and Settlement

Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, every one has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, Shri D. G. Pansare and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, draughtsmen, for Maps, Charts and Diagrams. Shri K. H. Shevade of our office looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations, and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgements are due to Shri S. A. Sapre, Manager, Government Central Press, Bombay, and Shri J. D. Gandhi, Manager Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful matrial from their departments but also read through the MSS and encouraged us through this venture.

POONA :
The 27th December 1965.

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

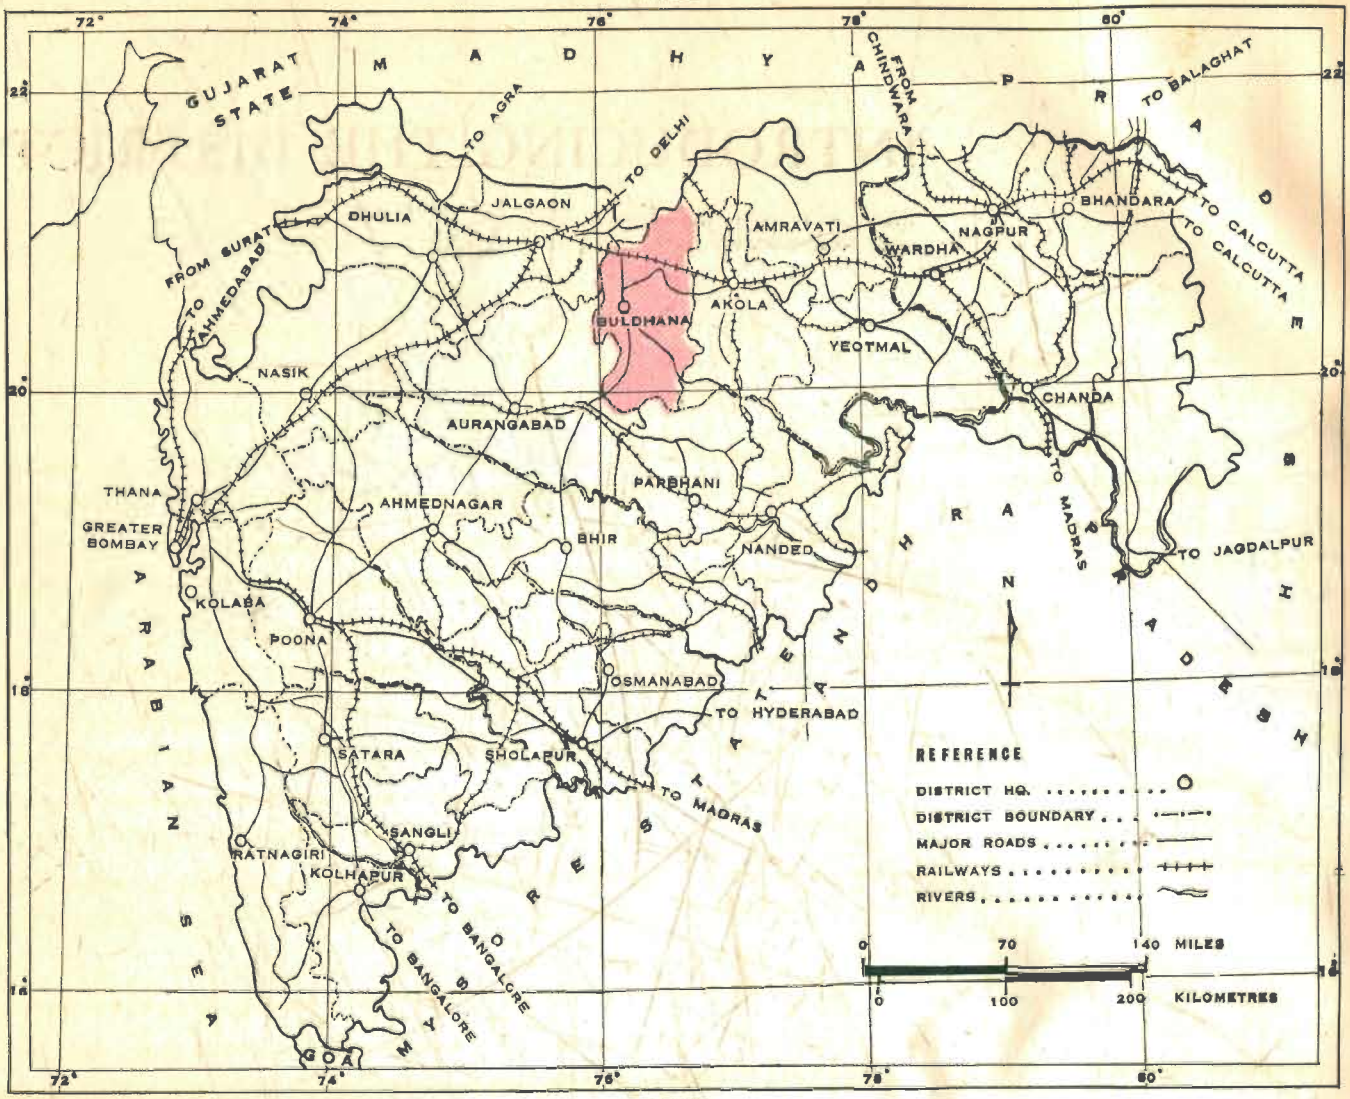

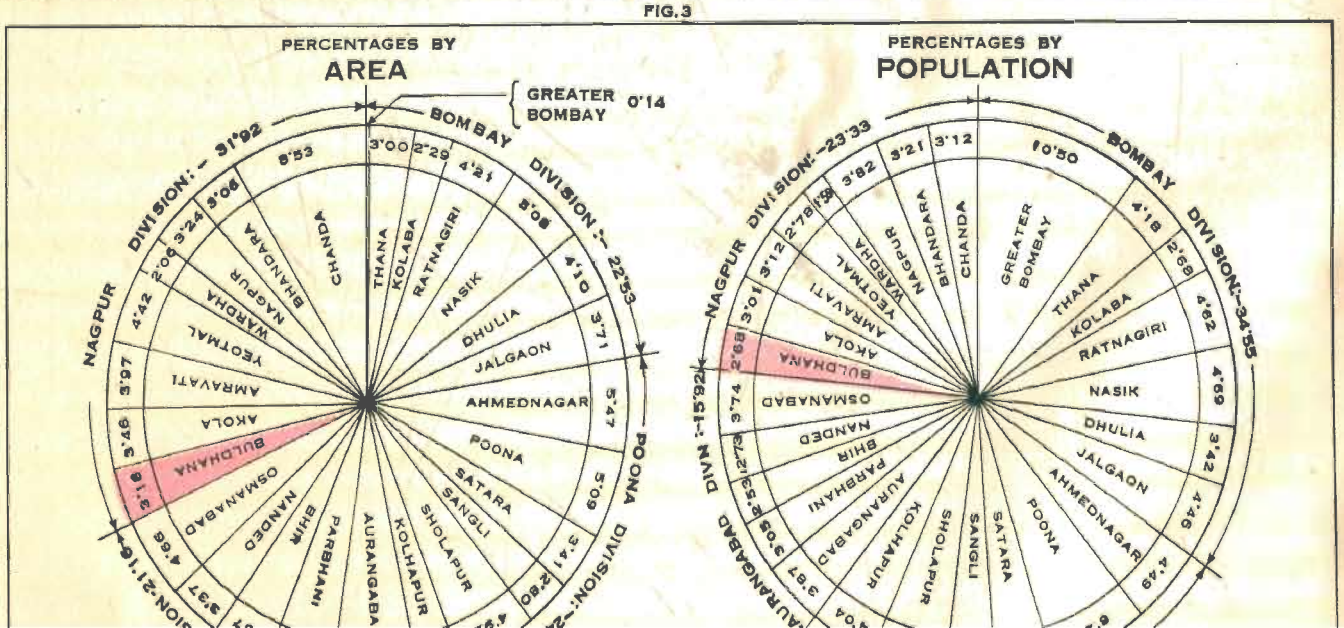

FIG. 3

INTRODUCING THE DISTRICT

PHYSICAL FEATURES

The district lies partly in the Tapi basin and partly in the Godavari basin. The northern half broadly called Payanghat is drained by the Purna which is a tributary of the Tapi. The southern half generally known as the Balaghat is drained by Penganga and Kate Purna rivers which are tributaries of the Godavari.

The district lies between 19°51′ and 21°17′ N. latitude and 75°57′ and 76°49′ E. longitude. It is bounded on the north by the Nimar district of Madhya Pradesh, on the east by Akola district, on the south by Parbhani district and on the west by Aurangabad and Jalgaon districts.

The area of the district is 3,766 sq. miles and its population in 1961 is 1,059,698. In terms of area and population it makes 3·18 per cent and 2·68 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

The main system of hills is the Ajanta range which has formed a plateau called the Balaghat. It covers the southern portion of the district, comprising Chikhli and Mehkar tahsils. A ridge of low hills running from north-west to south-east through the Balaghat forms the watershed between the valleys of the Penganga and the Kate Purna. The main Ajanta range forms the northern wall of the Deccan table-land and the watershed between the Godavari and Tapi valleys.

There is also a branch of the Satpura range in the north of Jalgaon tahsil, which separates this district from the State of Madhya Pradesh.

The general slope of the country above the ghats is from north to south.

The elevation of the three plain tahsils of Malkapur, Khamgaon and Jalgaon varies from 865 to 910 feet above sea-level. The elevation of Chikhli and Mehkar table-land varies from 1,736 to 2,415 feet above sea-level. Buldhana, the district headquarters, is situated at an elevation of 2,190 feet.

Important Rivers

The principal river in the district is the Penganga. The other important rivers are Purna, Kate Purna, Nalganga, Vishwaganga, Gyanganga and Banganga.

The Penganga rises in the hills near Deulghat, runs in a south-easterly direction past Mehkar, and then enters the Akola district. The portion of the river which lies in this district is almost dry in the hot weather.

The Kate or Lower Purna rises in the Ajanta hills to the west of the district, which it enters a little to the north of Deulgaon Raja, and traverses the Mehkar tahsil in a south-easterly direction for a distance of about 30 miles, its course running parallel to, and south of, that of the Penganga. It does not flow in the hot weather. Both Penganga and Kate Purna are important rivers of the Godavari basin, but they do not acquire their importance till they have left the district.

The Purna rises in the lower slopes of the Gawilgad hills in the Amravati district and runs westward until it leaves the district at the northernmost corner of Malkapur tahsil. Its principal tributaries within the district are Nalganga, Vishwaganga and Gyanganga from the south, and Banganga from the north. The Nalganga rising in the hills near Deulghat runs due north and joins Purna near Narvel. An irrigation project is undertaken during the Third Plan on this river. The Vishwaganga rises at Buldhana itself. It is not a perennial stream. The Gyanganga rises in the table-lands north of the valley of the Penganga and runs past Nandura before joining the Purna. The Banganga rises in the Melghat to the north of Jalgaon tahsil and flows southwards to meet the Purna.

Climate

Monthly temperature records are available for Buldhana station which is situated at about 2,200 feet above sea-level. They do not naturally represent the climate of the district as a whole. Table 1 in Part III shows monthly temperature records for ten years, 1951 to 1960.

The rainy season starts from June and lasts till the end of September. It is followed by sultry weather in October, cold weather from November to the end of February and hot weather from March to the end of May. The climate of the district is in general dry and hot and considered to be healthy.

Within the district, the seasons show local variations also. The climate of the Balaghat comprising Mehkar and Chikhli tahsils is cool and invigorating for most of the year. In this region hot weather sets in late and the heat is never intense. Buldhana town itself is the coolest place and considered to be the most pleasant district headquarters in Nagpur Division. The climate of the Payanghat comprising the tahsils of Khamgaon, Malkapur and Jalgaon is comparatively more hot. In the months of March, April and May the heat is perhaps as great as in the hottest parts of India. The strong westerly winds which then prevail become intensely heated as they pass over the black soil plain.

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years, 1951 to 1960.

Rainfall is not uniform in all parts of the district. It is highest at Buldhana with an average of 873 mm. as against the average of 715 mm. at Malkapur.

The district gets rain from the south-west monsoons. The rain falls from June to September.

Dependability of Rainfall and Scarcity Areas

The mean rainfall at Buldhana is 898·40 mm. Standard deviation is 241·55 mm. Coefficient of variability is 26·90 per cent. As coefficient of variability

is 26·90 per cent t degree of reliability of rainfall at Buldhana may be said to be moderate.

Although a few isolated villages in Chikhli, Mehkar and Khamgaon tahsils have suffered from scarcity conditions, there is no tract frequently affected. The Fact-Finding Committee appointed by the Government of Bombay in 1960 has, therefore, come to the conclusion that the district can be considered as free from scarcity.

Soils

The soils are derived from trap rock of volcanic origin. There are three main categories of soils in the district, *viz.*, (*i*) Bharkali, which is deep black soil of a very fine texture and very retentive of moisture ; (*ii*) Morand, which is black cotton soil containing lime and is less fertile than pure black cotton soil ; and (*iii*) Barad, which is the shallow soil of the higher lands of the plateau and of black, brown or reddish colour.

The soils in the northern tahsils, *viz.*, Jalgaon, Malkapur and Khamgaon are generally deep black, formed by transported material washed from the higher lands. Cotton and kharif jowar are the main crops. The largest stretches of such heavy soils are formed in strips of about eight miles on either side of the Purna river.

The belt lying between the railway main line and Purna river contains some of the finest lands in Vidarbha.

Towards the south, the soil is light and stony, but pockets and belts of rich soil are found right upto the hills, particularly in Malkapur tahsil.

On the plateau, i.e., in Chikhli and Mehkar tahsils there are considerable areas of medium black soil interspersed amidst the light and shallow soils which grow cotton, jowar, pulses and bajri. The Chikhli and Mehkar tahsils are well known for their whea which is grown in the low lands between the plateau. These soils have a murum sub-stratum and are, therefore, well drained. The existence of rock sub-soil is also not uncommon and the soils formed on such rocky beds suffer both, during scanty and heavy rains.

Minerals

No mineral of importance is known to occur in this district so far. However, the agates, cornelians and calcite formed in the trap in the southern part of the district have some value, the two first named for ornamental purposes and the last for optical purposes.

Forests

The forests cover 619·04 sq. miles or 16·41 per cent of the total geographical area of the district. They lie mainly on the hill sides in Mehkar and Chikhli tahsils. Important trees found in the forests are Teak, Babul, Anjan, Dhavada, Khair, Bija, Chandan and Salai.

Natural Zones

The district can be broadly divided into two zones. The Payanghat (or the plains) comprising Jalgaon, Malkapur and Khamgaon tahsils has fertile soil, moderate rainfall and hot weather. It grows, mainly cotton and jowar. This zone makes about half of the total geographical area of the district. The other zone is the Balaghat, comprising the two southern tahsils of Chikhli and Mehkar. It has hilly lands, forests, cool climate and shallow soils and grows cotton, jowar, pulses and bajri on the uplands and wheat in better soils in the valleys. Average rainfall in this zone is comparatively higher.

ADMINISTRATIVE SET-UP

Brief History

Up to 1863, Buldhana was a part of West Berar district. Tahsils of Malkapur, Chikhli (formerly Deulghat) and Mehkar were separated from West Berar district in 1864, to make what was at first called South-West Berar district and later named as Mehkar district. The district headquarters were shifted to Buldhana in 1867 and the district was re-named as Buldhana district. Khamgaon tahsil had been created in 1870 by separating some villages from Balapur tahsil of Akola district. Consequent upon the reconstitution of district boundaries in Berar in 1905, Buldhana district received Khamgaon and Jalgaon tahsils from Akola district.

There were no major changes in the boundaries of the district or its tahsils between 1911 and 1955.

With the Reorganisation of States in 1956, the district was transferred from Madhya Pradesh to Bombay State. The district forms a part of Maharashtra since 1st May 1960.

Present Set-up

For administrative purposes, the district is at present divided in 5 tahsils. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each tahsil are as follows :—

District/Tahsil	Name of Headquarters	Area in sq. miles	Number of inhabited Villages	Number of Towns	1961 Population	Percentage of area	Percentage of population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
BULDHANA DISTRICT ..	Buldhana ..	3,766	1,225	9	1,059,698	100·0	100·0
1 Jalgaon Tahsil	Jalgaon ..	474	165	1	115,551	12·6	10·9
2 Malkapur Tahsil	Malkapur ..	651	248	2	239,304	17·3	22·6
3 Khamgaon Tahsil	Khamgaon ..	710	213	2	211,577	18·9	20·0
4 Chikhli Tahsil	Chikhli ..	924	277	3	259,036	24·5	24·4
5 Mehkar Tahsil	Mehkar ..	1,007	322	1	234,230	26·7	22·1

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and five Deputy Collectors (Sub-Divisional Officers) who hold charge of the five revenue divisions. The Sub-Divisional Officers have their headquarters at the respective tahsil headquarters. In this respect the system is different from that obtaining in Bombay, Poona and Aurangabad Divisions where the Sub-Divisional Officers generally have jurisdiction over three or more talukas and headquarters at one of them. The justification for the large number of Deputy Collectors is the very large size of tahsils in the Nagpur Division. Five Tahsildars are in charge of five tahsils.

Land Revenue Settlements

The original Revenue Survey and Settlement of different tahsils in the district was completed between 1866 and 1870. The First Revision Settlement was completed between 1892 and 1900, and the Second Revision Settlement between 1925 and 1928. The land revenue rates have not been revised since then in spite of the expiry of the terms of revision settlements.

In the original settlement, lands were assessed separately on the basis of individual soil classification though the general level of assessment was fixed empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified during the second revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlements untaxed. The comparative incidence of land revenue from field to field is thus generally the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments in the district is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small bandharas, the land revenue is integrated and is inclusive of the charge for water supplied.

Table 24 in Part III shows demand and collection of land revenue during the last ten years 1951 to 1960 for the district and each tahsil separately.

The areas and number of villages for each tahsil in the district have varied from settlement to settlement. Inam or Jagir villages had not been covered by most of them. In fact, some of the Inam villages were unsurveyed and unsettled as late as in 1947. The work has now been completed. Because of such recently settled villages and because of the territorial changes in the tahsil boundaries from time to time, most of the tahsils today have a more varied pattern of land revenue assessments than what is seen in the reports of earlier settlements. Even then the maximum rates fixed at each settlement or revision settlement or the average land revenue rates per acre should be quite reliable indices of the incidence of land revenue as obtaining in the district from tahsil to tahsil or in the same tahsil from settlement to settlement. Those rates for dry crop lands for each tahsil are as follows :—

Tahsil	Original Settlement/ Revision Settlement	Year	Guarantee period	No. of villages	Average land revenue per acre	Group	Maximum rates per acre
							Dry lands
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

Assembly and Parliamentary Constituencies

Since 1957 the district has seven Assembly seats. In 1957, Mehkar constituency was a double member constituency with one of the two seats reserved for Scheduled Castes. After abolition of the double member constituencies in 1961, the seat from Janefal is reserved for Scheduled Castes.

The number of voters on rolls for each Assembly constituency in 1961 was as follows:—

Assembly Constituency	Number of Voters on rolls
(1) Chikhli	80,917
(2) Buldhana	68,103
(3) Malkapur	74,576
(4) Jalamb	83,516
(5) Khamgaon	86,713
(6) Mehkar	71,066
(7) Janefal	69,688
Total ..	534,579

In the 1962 General Elections, the Assembly constituencies of Chikhli, Buldhana and Malkapur combined with Yawal, Raver and Edlabad from Jalgaon District together made one Parliamentary constituency called the Buldhana constituency, and the remaining Assembly constituencies Jalamb, Khamgaon, Mehkar and Janefal combined with the Assembly constituencies Washim and Gowardhan from Akola district made another Parliamentary constituency called the Khamgaon constituency.

The total number of voters on rolls in the district in 1961 was 534,579. The total population 21 years and above according to 1961 Census is 512,573. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Administration of Justice

The District and Sessions Judge is the head of the judicial department in the district with headquarters at Buldhana. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with magisterial powers. But those powers are limited to section 37 of the Code of Criminal Procedure, 1898, and none of them ever tries any criminal case. The District Magistrate does not have any administrative control over the other Magistrates who try criminal cases in the district. This separation of the judiciary from the executive has been brought about in the district in the year 1959.

The District and Sessions Judge is assisted by one Assistant and Additional Sessions Judge, with headquarters at Khamgaon. He has jurisdiction over Khamgaon and Jalgaon tahsils and Nandura Revenue Circle in Malkapur tahsil. He attends to Civil appeals arising out of suits in which value of subject-matter is not over Rs. 10,000. He also attends to Criminal cases, both original and appellate, cases under the Guardians and Wards Act and appeals under the Indian Trade Unions Act, 1926.

There are two Civil Judges (Senior Division) one having jurisdiction over Khamgaon and Jalgaon tahsils and Nandura Revenue Circle of Malkapur tahsil and the other over Chikhli, Mehkar and Malkapur tahsils except Nandura Revenue Circle. They attend to special and regular suits (unlimited jurisdiction), cases under the Co-operative Societies Act in which value of subject-matter is over Rs. 10,000, suits under the Hind Marriages Act, 1955 and cases under the Indian Succession Act of 1925, insolvency cases, suits under the Trusts Act, cases under the Displaced Persons Act, 1951, the Workmen's Compensation Act, 1923, the Land Acquisition Act and the Railways Act.

Two Civil Judges (Junior Division) with headquarters at Buldhana and Khamgaon attend to regular suits of value of subject-matter below Rs. 10,000, cases under the Co-operative Societies Act below Rs. 10,000, insolvency cases, cases under the Payment of Wages Act, 1936, and the Minimum Wages Act, 1948, arising in their respective tahsils.

There are also five Civil Judges (Junior Division) and Judicial Magistrates, First Class, with headquarters at different tahsil headquarters. They attend to Civil suits of value of subject-matter below Rs. 10,000. They also try ordinary Criminal cases. There are also two Judicial Magistrates, First Class, with headquarters at Khamgaon and Chikhli. They attend to Criminal cases arising within their respective jurisdictions.

Police

The Police force in the district works under the (District) Superintendent of Police who is assisted by 2 Deputy Superintendents and 2 Circle Police Inspectors. There are 22 Police Stations in the district. Their headquarters and jurisdictions are shown below :—

	Police Station Headquarters	Number of Villages
1 Jalgaon Tahsil	1. Jalgaon ..	106
	2. Tamgaon ..	104
2 Malkapur Tahsil	3. Malkapur ..	79
	4. Nandura ..	72
	5. Dhamangaon ..	61
	6. Borakhedi ..	75
3 Khamgaon Tahsil ..	7. Khamgaon ..	46
	8. Shegaon ..	46
	9. Jalamb ..	40
	10. Pimpalgaon Raja	43
	11. Hiwarkhed ..	62
4 Chikhli Tahsil	12. Buldhana ..	47
	13. Chikhli ..	55
	14. Andhera ..	44
	15. Amdapur ..	69
	16. Deulgaon Raja	38
	17. Dhad ..	42
5 Mehkar Tahs	18. Mehkar ..	86
	19. Lonar ..	83
	20. Sakharkheda ..	54
	21. Janephal ..	66
	22. Kingaon Raja	61

Average number of villages and population per Police Station in the district are 62 and 48,168 against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

All the nine towns in the district have Municipal Committees functioning under the C. P. and Berar Municipal Act, 1922. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and for women are shown in the table below for each Municipality separately.

The municipality at Shegaon is the oldest of all. Five out of the nine municipalities are less than 35 years old.

The 9 Municipalities together cover 100 per cent of the urban population or 16·56 per cent of the total 1961 population of the district.

The taxation level of each Municipality is shown below :—

Name of the Municipality	1961 Population	Year 1961-62		
		Total Receipts	Receipts from Municipal Taxes	*Per capita* Municipal Tax
		Rs.	Rs.	Rs.
1. Deulgaon Raja	8,767	1,97,886	1,08,561	12·38
2. Buldhana ..	15,985	3,63,089	2,49,749	15·62
3. Malkapur ..	29,687	6,26,635	3,22,710	10·87
4. Shegaon ..	21,674	4,51,370	2,09,552	9·67
5. Chikhli ..	13,499	2,91,951	1,77,560	13·15
6. Nandura ..	17,405	2,91,298	1,70,453	9·79
7. Khamgaon ..	44,432	12,68,192	5,88,462	13·24
8. Jalgaon ..	12,117	1,16,561	48,352	4·00
9. Mehkar ..	11,872	8,64,690	1,54,100	12·98

Per capita municipal tax appears to be high at Khamgaon but it is a centre of cotton trade and much of the incidence falls on agriculturists who bring their produce for sale in the market.

Name of the Municipality	Year of establishment	Year of the last General Election	Statutory term in years	1961 Population	Total No. of Municipal Councillors	Seats reserved for

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promoting development of democratic institutions and securing greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralisation of powers and functions, a Zilla Parishad and 13 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and tahsil boundaries separately except in the case of Municipal towns which are not covered by them. Each tahsil has two or three Panchayat Samitis. Jalgaon and Khamgaon tahsils have two each and Malkapur, Chikhli and Mehkar tahsils have three each. The Zilla Parishad covers

98·62 per cent of the area and 83·44 per cent of the total population of the district. The population covered by the Zilla Parishad is entirely rural. The number of villages and population included under the Zilla Parishad and each Panchayat Samiti are shown below. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961.

	Name of Headquarters	Area in square miles	Number of inhabited villages	Population in 1961	Percentage by area	Percentage by population
(1)	(2)	(3)	(4)	(5)	(6)	(7)

13. Sindkhed Raja Panchayat Samiti	.. Sindkhed Raja	297·8	102	73,223	8·3	8·3

NOTE.—The area figures in col. (3) are according to Blockwise Census Abstract and do not agree with the figures given in Primary Census Abstract, Part II-A of the Maharashtra Census Report. The difference may be due to inclusion of forest areas in the latter.

Constitution

The Zilla Parishad has 47 directly elected councillors. Out of these 47 seats, 2 seats are reserved for Scheduled Castes. In addition, a woman councillor has been co-opted by the elected councillors. There are five associate councillors who are chairmen of five federal co-operative societies conducting business in the district. The elected Chairmen of Panchayat Samitis are also *ex-officio* councillors.

At the Block level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a co-operative society conducting the business of purchase and sale of agricultural produce in the area of the Block as an associate member and a chairman of a co-operative society conducting the business in agriculture in the area of the Block as a co-opted member. Sarpanchas elected by members of Village Panchayats are also elected members of the Panchayat Samiti. Their number is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors.

An Officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are Officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two Subject Committees are presided by the Vice-President and four by two Chairmen elected by the Zilla Parishad to preside over two specified Subject Committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the Subject Committees concerned. Co-ordination between the Subject Committees is achieved through the Standing Committee which includes the Chairmen of all the Subject Committees as members.

The Panchayat Samitis do not have Subject Committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards, the developmental and administrative functions of Government are now, with the creation of these democratic bodies at the district and block level, devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishad and Panchayat Samitis Act. By and large, all functions of Government administration including development activities, at the district level but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like Research Stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishad have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayat though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as Janapad Sabhas and District Panchayat Mandals. The functions of non-statutory body known as the District Development Board have, of course, been absorbed. Municipalities, however, remain unaffected as Municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of a cess at the rate of twenty naye paise on every rupee of land revenue and at a rate not exceeding nineteen naye paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water supply, public entertainments, amusements and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalisation grant covering the difference will be paid to the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transfeired to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III), District Service (Class III) and District Service (Class IV). The other grants which will be paid by Government to the Zilla Parishad will include a deficit adjustment grant payable at full-rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable. Incentive grants calculated to achieve speedier development and grants for Plan Schemes are also payable to the Zilla Parishad. If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in a block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963–64 are Rs. 126·93 lakhs. The major portion of the receipts is of receipts from Government. They are 91·1 per cent and the Zilla Parishad receipts are 8·9 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure is Rs. 127·61 lakhs. Following are the major items of expenditure :—

	Per cent
General Administration	4·3
Education	53·1
Community Development Project ..	10·2
Buildings and Communications	10·6
Miscellaneous	10·0
Other items	11·8

Taxation

The Zilla Parishad has raised the rate of cess on land revenue to 50 nP. per rupee of land revenue with effect from 5th October 1963.

Per capita annual expenditure of the Zilla Parishad on different development heads is as follows :—

	Rs.
General Administration	0·63
Education	7·66
Community Development	1·48
Buildings and Communications	1·53

Establishment

The establishment of the Zilla Parishad comprises the gazetted and the non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 6 Class I and 30 Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-gazetted employees of Class III and Class IV categories is 3,893. Moreover an establishment of 123 gram sevaks, 697 talatis and 129 village panchayat secretaries has been transferred from the Revenue Department to the Zilla Parishad.

VILLAGE PANCHAYATS

The number of independent village panchayats, the number of group village panchayats and the number of villages covered by the group village panchayats in each tahsil are shown below :—

Tahsil	No. of inhabited villages	No. of independent village panchayats	No. of group village panchayats	No. of villages covered by group village panchayats
1. Jalgaon ..	165	40	41	180
2. Malkapur ..	248	119	33	159
3. Khamgaon ..	213	91	41	140
4. Chikhli ..	277	128	57	161
5. Mehkar ..	322	125	74	226
Total ..	1,225	503	246	866

NOTE.—The figures in column (5) perhaps include hamlets. The totals of columns (3) and (5) do not, therefore, tally with column (2).

The break-up of the total annual income of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000) Rs.	Percentage of total income
Grants	10,36	57·30
Taxes on houses and properties ..	1,82	10·07
Octroi	1	0·05
Other taxes	3,95	21·85
Total taxes	5,78	31·97
Income from other sources ..	1,94	10·73
Total income	18,08	100 00

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more. The Village Panchayats also get the entire local fund cess collected in the village. At present it is collected at 20 nP. per rupee of land revenue. The Village Panchayats can raise it with Government approval up to 100 nP. per rupee of land revenue.

Out of 749 Village Panchayats, 211 have levied taxes on houses and properties. Only 55 Village Panchayats have levied octroi.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000)	Percentage of total expenditure
	Rs.	
Administration	2,11	13·88
Health and Sanitation ..	1,70	11·19
Public Lighting	64	4·21
Other items	10,75	70·72
Total expenditure	15,20	100·00

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells, construction of Panchayat Ghars, schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gram Sevak are now combined in one official who now works under the Village Panchayat.

POPULATION

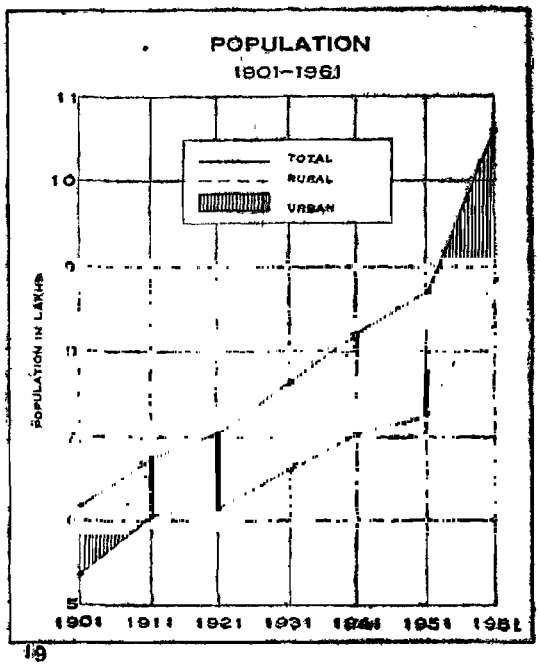

Table A-I in Part II shows the 1961 population of the district and each tahsil for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each tahsil during 1951--61.

Variation

The population of the district and decade variation rates since 1901 are as follows :—

Year	Population	Decade Variation	Rate of Variation
1901	617,990	....	....
1911	673,698	+55,708	+9·01
1921	703,643	+29,945	+4·44
1931	766,584	+62,941	+8·95
1941	820,862	+54,278	+7·08
1951	870,168	+49,306	+6·01
1961	1,059,698	+189,530	+21·78

Figure below shows the total, rural and urban population of the district for the last seven Censuses:—

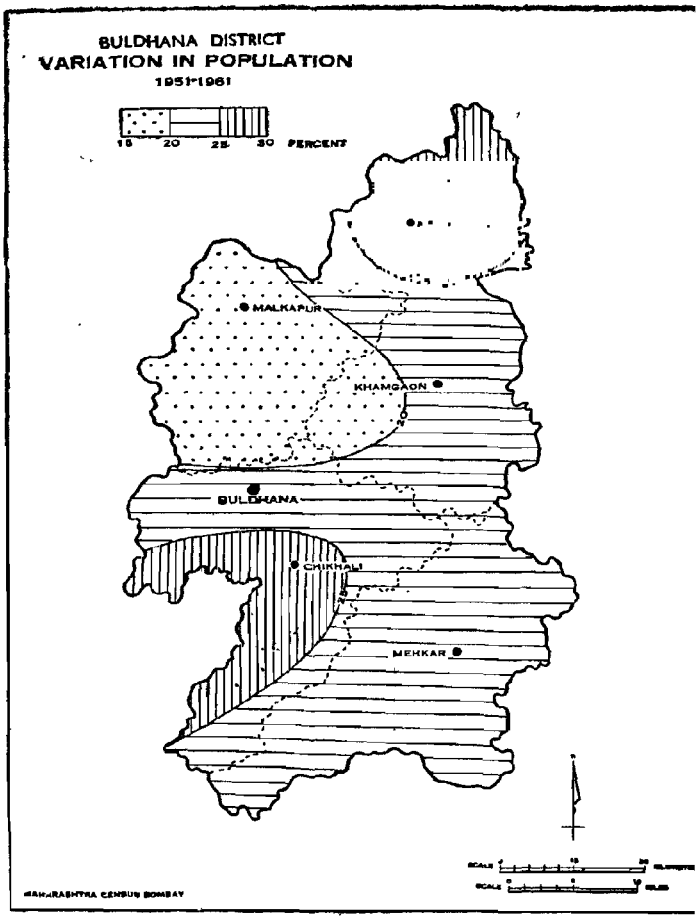

The district population had increased comparatively with a very low rate varying between 4·44 per cent in 1911–21 and 9 01 per cent between 1901–11. It has been so in the neighbouring districts of Nagpur Division also. But there has been a radical change and the population in the last decade 1951–61 had increased by 21·78 per cent which is not only the highest rate of growth observed for the district so far but the absolute growth in the last decade is also larger than the total growth of population in the earlier 30 years, i.e. from 1921 to 1951. Though the rate of growth of the district population in 1951–61 is slightly lower than the State average of 23·60 per cent, the population of the district will even with that rate be more than double that of 1961 in 1996.

The high increase in the population during the decade 1951–61 is the result of control of epidemics and other diseases since 1950. Malaria, which used to be a major public health problem in the district has been controlled by DDT spraying. Campaigns for B.C.G. and vaccination against smallpox also have their share in improving the survival rate. The death rate has thus been reduced and has resulted in the higher growth rate although the birth rate may not have increased at all.

The 1951–61 decade variation for the district and each of the tahsils is as follows :—

	Percentage Variation 1951–61
BULDHANA DISTRICT	+21·78
1 Jalgaon Tahsil	+26·22
2 Malkapur Tahsil	+16·08
3 Khamgaon Tahsil	+21·78
4 Chikhli Tahsil	+26·62
5 Mehkar Tahsil	+20·64

Figure below shows the areawise pattern of 1951–61 growth of population within the district :—

Khamgaon tahsil in the east has recorded a growth rate equal to that of the district while Jalgaon tahsil in the north and Chikhli tahsil in the south-west are above the district average. Malkapur tahsil in the west and Mehkar tahsil in the south-east are below that average.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows :—

	Buldhana District	Maharashtra
1901—1961	+71·47	+103·97
1921—1961	+50·60	+89·71
1951—1961	+21·78	+23·60

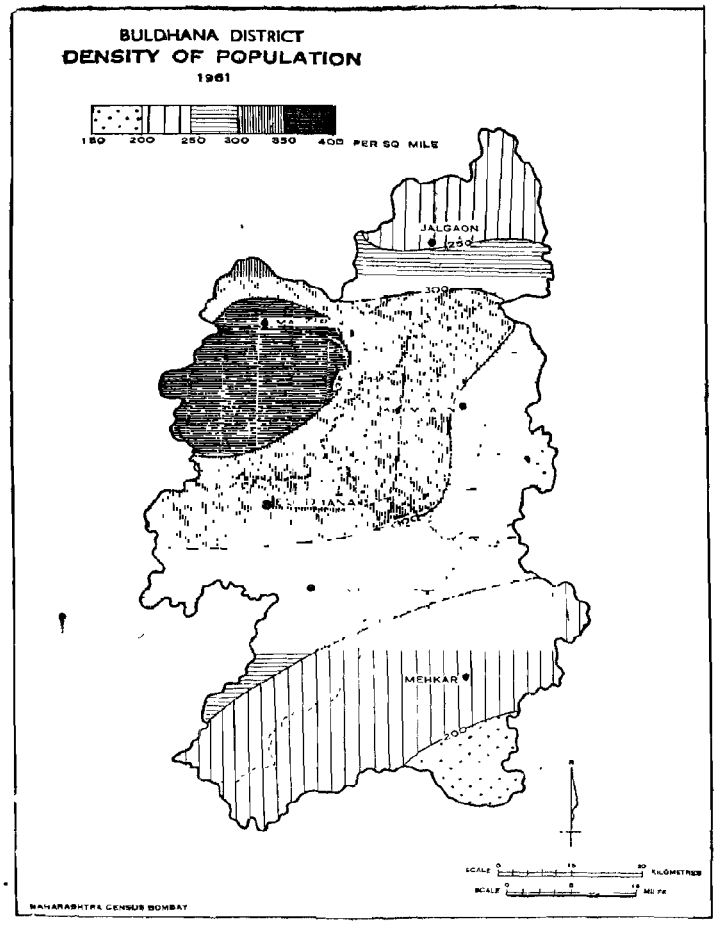

Since 1901 the population of the district has increased by 71·47 per cent against nearly 104 per cent for Maharashtra. During the last forty years the district population increased by 50·60 per cent against 89·71 per cent for the State. It is only in the last decade that the district growth rate has approached appreciably closer to that of the State.

Density of Population

The densities of population for Maharashtra Buldhana district and its tahsils for 1951 and 1961 are as follows :—

	Density per Sq. Mile		Percentage of district population in 1961
	1951	1961	
MAHARASHTRA ..	271	334	....
BULDHANA DISTRICT	231	281	100·00
1 Jalgaon Tahsil ..	193	244	10·90
2 Malkapur Tahsil ..	317	368	22·58
3 Khamgaon Tahsil ..	245	298	19·97
4 Chikhli Tahsil ..	221	280	24·45
5 Mehkar Tahsil ..	193	233	22·10

Figure in the next column shows the approximate contours of density of population in 1961 within the district.

The density of population of the district has increased from 187 persons per square mile in 1921 to 281 persons per square mile in 1961. Density of the district and the State was equal in 1901 (i.e. 164). It was higher for the district in 1921 than that of the State (182). The district density has, however, been lower than the State average since 1931.

Density of population varies from 233 persons per square mile in Mehkar tahsil to 368 persons per square mile in Malkapur tahsil. These differences generally correspond to those of topography and land utilisation.

The concentration of the population is more in Malkapur and Khamgaon tahsils. Rural density is higher in Malkapur and Chikhli tahsils. Malkapur tahsil is known for rich black cotton soil whereas Chikhli tahsil with medium black soil is wellknown for wheat crop.

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

Year	Buldhana District			Maharashtra		
	No. of Towns	Rate of variation in urban population	Percentage of urban population to total population	No. of Towns	Rate of variation in urban population	Percentage of urban population to total population
1901	... 9	..	13·48	219	..	16·59
1911	... 9	—18·60	10·07	232	+0·99	15·13
1921	... 9	+31·38	12·66	238	+18·72	18·50
1931	... 9	+17·61	13·67	258	+15·54	18·60
1941	... 9	+13·15	14·44	266	+27·11	21·11
1951	... 9	+21·11	16·50	383	+62·42	28·75
1961	... 9	+22·17	16·56	266	+21·32	28·22

In the Figure on page (9) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 110·57 per cent as against 246·96 per cent for the State.

The district is less urbanised than Maharashtra. The proportion of urban population decreased both for the district and the State in 1911. Since then it has gradually increased. The number of towns has remained constant at nine since 1901. The redefinition of urban areas in the 1961 Census had no effect on the number of towns in the district, though it has made a significant change for the State as a whole.

The 1951–61 growth of urban population has been at a higher rate (22·17 per cent) than the State average.

Khamgaon, the tahsil headquarters, in Buldhana district is the most important town and commercial centre. The population of Khamgaon town has increased by 142·26 per cent over 1901 and by 122·58 per cent over 1921. Malkapur is the headquarters of Malkapur tahsil and is also an important commercial centre in the district. It is particularly famous for the cotton industry. Its population has increased by 126·41 per cent over 1901 and by 98·62 per cent over 1921.

Rural Population

The rates of variation in rural population and the percentages of rural population to total population of the district and the State since 1901 are as follows:—

Year	Buldhana District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901 ..	....	86·52	....	83·41
1911 ..	+13·32	89·93	+12·68	84·87
1921 ..	+1·43	87·34	—6·77	81·50
1931 ..	+7·69	86·33	+14·77	81·40
1941 ..	+6·12	85·56	+8·54	78·89
1951 ..	+3·46	83·50	+7·72	71·25
1961 ..	+21·70	83·44	+24·51	71·78

The net increase in rural population of the district has been 65·38 per cent over that of 1901 and 43·89 per cent over that of 1921. The corresponding figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation in rural population have never followed any regular trend. Except for the decade 1901–11 the urban population had grown faster at the expense of rural population. As a result, the rural population increased at a lower rate than the total population. The percentage of rural population gradually decreased both for the district and the State since 1911. In 1961 it has shown an opposite trend for the State but the district rural population continued to follow the original trend.

Size of Villages

Table A-III in Part II shows for the district and for each tahsil the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

Size Class	Buldhana District		Maharashtra	
	Percentage of the No. of villages to total No. of villages	Percentage of population to total rural population	Percentage of the No. of villages to total No of villages	Percentage of population to toal rural population
Less than 500	47·84	16·54	47·72	15·02
500—999 ..	30·04	29·10	28·55	25·71
1,000—1,999 ..	16·82	30·97	16·62	28·55
2,000—4,999 ..	4·73	18·85	6·18	22·40
5,000 and over .	0·57	4·54	0·93	8·32

Villages with less than 1,000 population are 77·88 per cent of the total number of villages in the district and account for 45·64 per cent of the district rural population. The corresponding figures for the State are 76·27 per cent and 40·73 per cent, respectively. Villages with more than 1,000 population are 22·12 per cent of the total number of villages and account for 54·36 per cent of the district rural population. For the State such villages make 23·73 per cent of the total number of villages and contain 59·27 per cent of the rural population of the State. More than 60 per cent of the rural population of the district is concentrated in villages with population between 500 and 1,999.

The area, number of inhabited villages, total rural population, average population per inhabited village and the number of villages per 100 sq. miles of rural area are shown below for the State, district and each tahsil separately.

Average population per village in 1961 is 722 in the district as against 792 in Maharashtra. An average village in the district thus has a little less population than the average village in the State.

The average population per village within the district varies from 627 in Jalgaon tahsil to 797 in Chikhli tahsil. The number of inhabited villages per 100 sq. miles is 33 in the district as against 31 in Maharashtra. Within the district the number of inhabited villages per 100 sq. miles does not vary much from tahsil to tahsil.

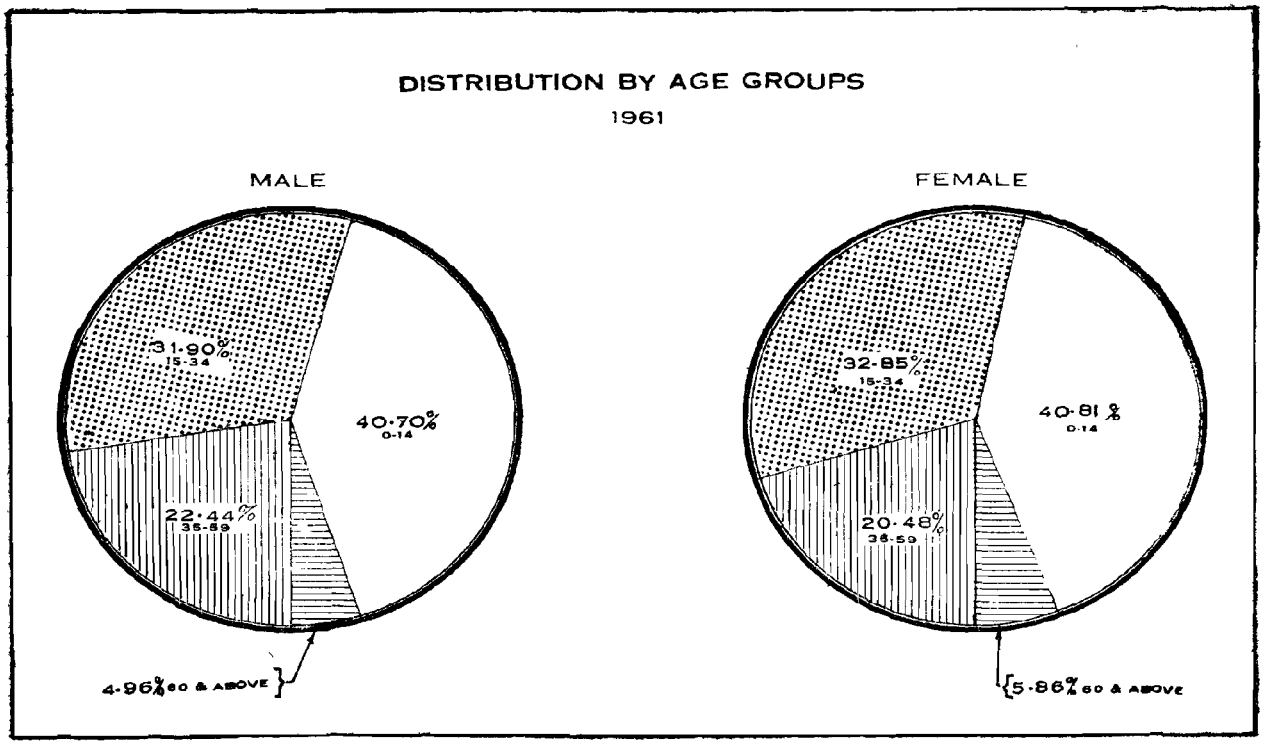

State/District/Tahsil	Area in sq. miles (Rural)	No. of inhabited villages	Rural population	Average population per inhabited village	No. of inhabited villages per 100 sq. miles of rural area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
BULDHANA DISTRICT	3,713·8	1,225	884,260	722	33
1 Jalgaon Tahsil	473·0	165	103,434	627	35
2 Malkapur Tahsil	646·8	248	192,212	775	38
3 Khamgaon Tahsil	672·0	213	145,471	683	32
4 Chikhli Tahsil	917·0	277	220,785	797	30
5 Mehkar Tahsil	1,005·0	322	222,358	691	32

Age Distribution

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 for the district and the State are shown in the next column for males and females separately compared with the corresponding proportions for 1951 for the district.

Figure below shows the distribution of the district population by broad age-groups for males and females separately.

Age-groups	Percentages of population by age-groups					
	1951 District total		1961 District total		1961 Maharashtra	
	Males	Females	Males	Females	Males	Females
0—4 ..	14·93	14·06	15·26	15·46	14·65	15·39
5—14 .	25·94	26·80	25·43	25·34	25·55	25·77
0—14 ..	40·87	40·86	40·69	40·80	40·20	41·16
15—34 .	32·98	32·05	31·89	32·84	32·70	33·13
35—59 .	22·06	21·12	22·46	20·49	22·09	20·16
15—59 ..	55·04	53·17	54·35	53·33	54·79	53·29
60 and over	4·09	5·97	4·96	5·87	5·01	5·55
Total ...	100·00	100·00	100·00	100·00	100·00	100·00

During the last decade the proportion of children aged 0—4 has increased from 14·93 to 15·26 per cent for males and from 14·06 to 15·46 per cent for females. Exactly opposite trend is observed both for males and females in the age-group 5—14. The resultant effect, if any, of these changes is seen in the decrease of a small order in the proportion of males and females of the age-group 0—14. The proportion of males in the older age-group has increased to some extent while that of females has remained almost stagnant. Males in the working age-group (15—59) have shown some decrease while females of the same age-group have increased. There are no significant differences between the age-structure of the district and that of the State

Dependency Ratio

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State, separately :—

		Buldhana District			Maharashtra		
		Youth	Aged	Total	Youth	Aged	Total
1951	Total ..	75·5	9·3	84·8	69·9	9·3	79·2
1961	Total ..	75·7	10·0	85·7	75·2	9·7	84·9
	Rural ..	76·3	10·0	86·3	80·6	10·8	91·4
	Urban ..	72·5	10·1	82·6	63·1	7·3	70·4

The dependency ratios are higher in Buldhana district than those for Maharashtra. The dependency ratios for the State and the district are both higher in 1961 than those of 1951. Both the components of youth and aged have increased. The increase in dependency may be the result both of high fertility and declining mortality. The 1961 population in the district thus has a larger load of dependants than that of 1951. The dependency load is, moreover, larger in rural areas than in urban areas.

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately:—

Year	Buldhana District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901 ..	992	999	947	978	1,002	866
1911 ..	985	992	919	966	1,000	796
1921 ..	979	987	926	950	994	776
1931 ..	971	984	889	947	987	790
1941 ..	972	979	932	949	990	810
1951 ..	981	991	934	941	1,000	807
1961 ..	959	970	903	936	995	801

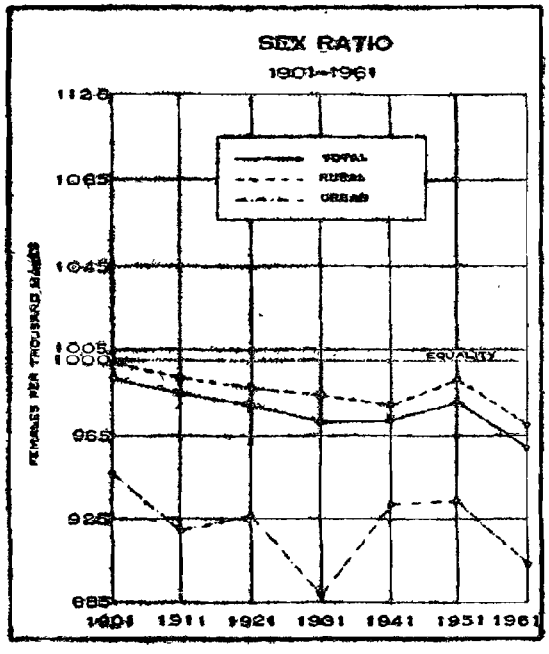

Figure above shows the variation in sex ratios since 1901 for the district total, rural and urban areas separately.

Since 1901, the sex ratio of the district population varied between 959 and 992 while that of Maharashtra varied between 936 and 978. For all the Censuses the district has recorded a higher sex ratio than that of the State. Only in 1901 the sex ratio of the district was somewhat near equality. Rural sex ratio was always higher than the corresponding urban sex ratio of the district. For the years 1911, 1931 and 1961 the rural urban differences in the sex ratios of the district were significant enough to suggest migration of males from rural to urban areas within the district or even outside the district.

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas separately:—

Age-groups	Total	Rural	Urban
0—14	961	968	927
15—34	987	1,012	876
35—59	875	877	866
60 and over	1,133	1,147	1,066
All ages	959	970	903

Sex ratio is higher than equality for the older age-group. Rural sex ratio is higher than the urban sex ratio for all the broad age-groups. Sex ratio is least in the age-group 35—59 both for rural and urban areas.

High rural sex ratio in age-group 15—34 may indicate out-migration of males to urban areas within the district and outside the district for higher education or for work.

The following are the sex ratios for each tahsil in the district for total, rural and urban areas separately :—

District/Tahsil	Total	Rural	Urban
BULDHANA DISTRICT ..	959	970	903
1 Jalgaon Tahsil ..	969	970	963
2 Malkapur Tahsil ..	955	965	916
3 Khamgaon Tahsil ..	948	967	908
4 Chikhli Tahsil ..	958	976	861
5 Mehkar Tahsil ..	967	970	905

Within the district the sex ratio varies from 948 in Khamgaon tahsil to 969 in Jalgaon tahsil. Jalgaon and Mehkar tahsils have higher sex ratio than the district average while Malkapur, Khamgaon and Chikhli tahsils are below that average. Rural sex ratio is higher than the urban sex ratio for all the tahsils.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown below, compared to those of 1951 :—

Year	Age-group	Total	Marital Status							
			Never married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951 ..	0—14 ..	100	97·82	85·45	2·13	14·28	0·05	0·20	....	0·07
	15—34 ..	100	29·97	5·03	66·43	87·23	3·06	7·02	0·54	0·72
	35—54 ..	100	2·24	0·34	85·20	63·34	11·77	35·75	0·79	0·57
	55+ ..	100	1·04	0·20	71·78	18·01	26·51	81·59	0·67	0·20
	All ages ..	100	50·38	36·62	44·23	47·24	5·01	15·76	0·38	0·38
1961 ..	0—14 ..	100	99·14	93·77	0·84	6·06	0·01	0·07	0·01	0·10
	15—34 ..	100	32·89	4·61	63·92	90·27	1·75	2·83	1·44	2·29
	35—54 ..	100	1·70	0·44	88·22	70·82	8·42	27·03	1·66	1·71
	55+ ..	100	1·11	0·13	76·41	22·48	21·56	76·80	0·92	0·59
	All ages ..	100	51·27	39·89	44·00	46·86	3·87	12·09	0·86	1·16

Figure on page (15) shows the distribution of the district population by marital status for males and females separately.

During the decade 1951–61, the proportion of never married has increased both for males and females whereas that of widowed has decreased. The proportion of divorced or separated has shown an increase and is numerically of some importance. Consequently the proportion of married has decreased both for mals and females. The rise in the age at marriage may be seen from the marital status distribution by age-groups. The proportion of never married in age-group 0—14 has increased both for males and females while in age-group 15—34 males alone showed an increase.

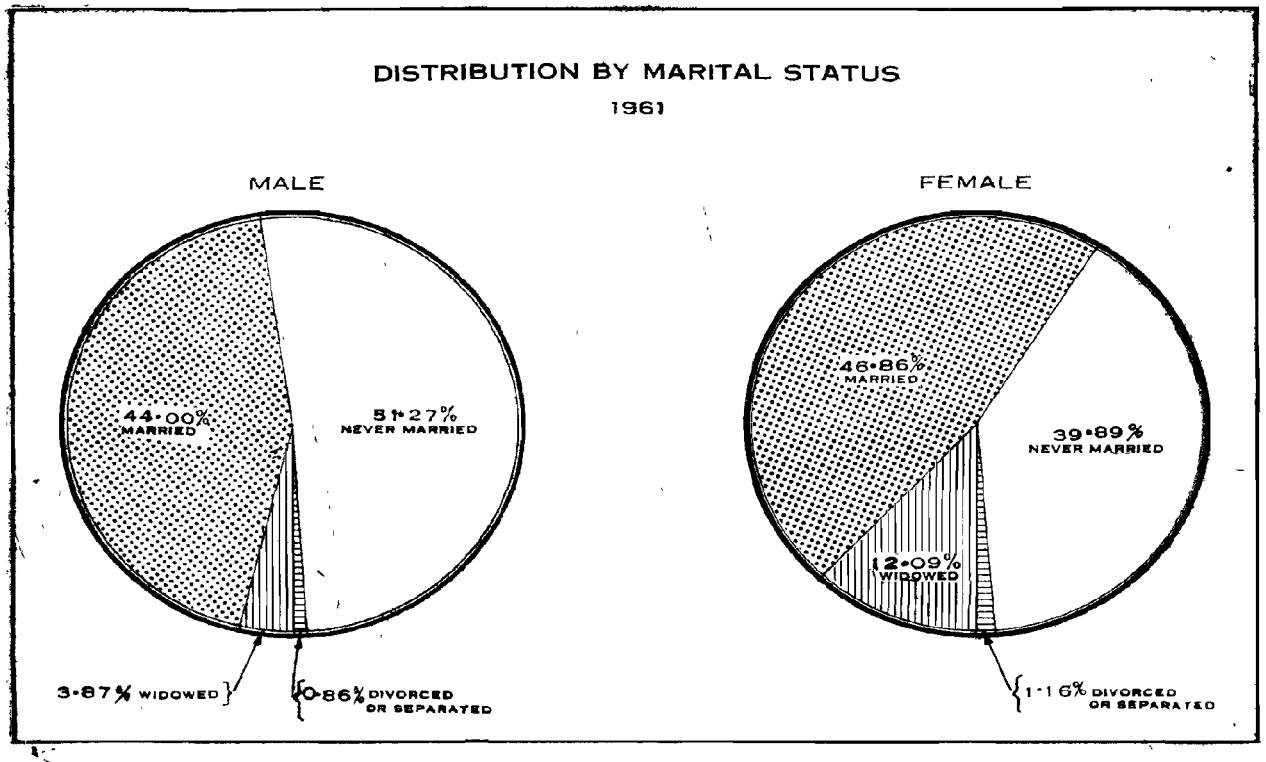

Child Woman Ratio

The following are the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group for every 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows of 15—44 years age-group to 1,000 married women of 15—44 years age-group is also shown for comparison :—

		No. of children 0—4 years age-group per 1,000 women of 15—44 years age-group	No. of children 0—4 years age-group per 1,000 married women of 15—44 years age-group	No. of widows per 1,000 married women (both in 15—44 years age-group)
1951 District	Total ..	676	809	141
1961 District	Total ..	722	821	71
	Rural ..	724	816	71
	Urban	709	848	72

The child woman ratio for rural areas is higher than that for urban areas. When standardised for married women of 15—44 years age-group, it is higher in urban areas. This may indicate either higher fertility or higher survival rate in urban areas of the district. Over the decade, the ratio has increased from 676 to 722. It may be due both to a higher birth-rate and somewhat reduced infant mortality.

The number of widows per 1,000 married women in the age-group 15—44 is reduced from 141 in 1951 to 71 in 1961. The incidence of widowhood is slightly higher in urban areas than in rural areas.

Migration

The 1961 Census showed the following proportions of population enumerated at place of birth and other places.

59·81 per cent of the population was enumerated at places of birth. This proportion for males is 73·54 per cent, but for females it is only 45·48 per cent. The difference is due to women married at places other than their places of birth. This migration of females on marriage is revealed by a very high proportion of females among those born elsewhere in the district. Among the migrants from other districts of Maharashtra also the females have a preponderance over males.

Proportions of population by places of birth

(1)	Total population (2)	Place of enumeration (3)	Elsewhere in the district (4)	Outside the district but in Maharashtra (5)	Outside Maharashtra (6)
Persons	1,059,698	632,875	305,424	105,840	14,064
Males	541,026	397,356	100,858	34,709	7,408
Females	518,672	235,519	204,566	71,131	6,656
Percentage to total population—					
Persons	100·00	59·81	28·86	10·00	1·33
Males	100·00	73·54	18·67	6·42	1·37
Females	100·00	45·48	39·50	13·74	1·28

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The proportion of non-workers is less among migrants. Cultivators have a higher proportion for those born at the place of enumeration. Agricultural labourers show a tendency to migrate within the district. The males born outside the district are mostly engaged in non-agricultural sectors and particularly in the tertiary sector. The differences in the percentage distribution of migrants and non-migrants are more significant in the tertiary sector, i.e., in the categories VII, VIII and IX.

	Categories of Workers									Non-Workers
	I	II	III	IV	V	VI	VII	VIII	IX	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
District Total	23·97	20·27	0·78	2·14	1·58	0·70	2·68	0·73	4·79	42·36
Born at place of enumeration	26·60	19·32	0·62	1·76	1·07	0·33	2·06	0·48	2·74	45·02
Elsewhere in the district	18·03	25·57	1·05	2·84	2·47	1·35	3·06	1·06	9·68	34·89
Outside the district	13·57	16·42	1·71	4·12	4·15	2·64	7·72	2·24	12·46	34·97

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

	Total	Rural	Urban
Single member	7·89	7·51	9·83
2—3 members	25·18	25·12	25·45
4—6 members	44·33	45·18	39·99
7—9 members	17·27	17·07	18·29
10 members and more ..	5·33	5·12	6·44
All sizes	100·00	100·00	100·00

Among the different size groups, households with 4 to 6 members are more common (44·33 per cent) than others. Single member and small size households are more (35·28 per cent) in urban areas than in rural areas (32·63 per cent). The average size of the household in the district is 4·86. It is 4·85 in rural areas and 4·92 in urban areas.

Household Composition

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown in the table below.

36·72 per cent of the males are heads of households as against 3·71 per cent for females. Married sons are 7·66 per cent of the total males. 50·39 per cent males and 49·61 per cent females which incidentally form the largest group are never married, widowed or divorced relations. Proportion of unrelated persons is 1·14 per cent for males and only 0·19 per cent for females. 31·79 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and daughters or sisters of the heads. The heads of the households (males) and their spouses have a higher proportion in rural areas than in urban areas. The proportion of married sons is less in urban areas

Percentage distribution of population of sample households by relationship

	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
(1) Heads of households	36·72	3·71	37·08	3·59	34·98	4·28
(2) Spouses of heads of households	0·05	31·79	0·05	32·08	0·09	30·30
(3) Married sons	7·66	....	7·92	....	6·38	....
(4) Other married relations	4·04	14·70	4·06	14·95	3·97	13·42
(5) Never married, widowed or divorced relations ..	50·39	49·61	49·94	49·21	52·55	51·71
(6) Unrelated persons	1·14	0·19	0·95	0·17	2·03	0·29
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated persons have a higher proportion in urban areas. Domestic servants are included in this category and they appear to be staying with the households more in urban than in rural areas.

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has on our request worked out projections for the total population, population in school-going ages (6—11 years) and the labour force (15—59 years) for the district for years 1966, 1971, 1976 and 1981. His projected estimates are shown below :—

	Total Population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual 1951 ...	870	*138	*470
Actual 1961 ...	1,060	169	570
Projected 1966 ...	1,207	178	650
Projected 1971 ...	1,359	203	742
Projected 1976 ...	1,534	221	855
Projected 1981 ...	1,736	237	988

*Estimated figures taken from 1951 Sample Census Tables.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each tahsil and town separately. The distribution of languages by rural and urban areas of the district is as follows :—

Language	Percentage to total population			Percentage of each language in	
	Total	Rural	Urban	Rural areas	Urban areas
(1) Banjari ..	0·46	0 54	0·06	98·00	2·00
(2) Gujarati ..	0·47	0·18	1·94	31·73	68·27
(3) Hindi ..	4·50	2·82	13·01	52·19	47·81
(4) Kachchi .	0·04	N	0·21	5·14	94·86
(5) Korku ..	0·19	0·23	N	99·90	0·10
(6) Marathi ..	83·82	88·48	60·32	88·09	11·91
(7) Sindhi ..	0·24	N	1·44	1·75	98·25
(8) Telugu ..	0·59	0 59	0·57	83·71	16·29
(9) Urdu ..	9·53	7·05	22 05	61·69	38·31
(10) Others ..	0·16	0·11	0 40	58·04	41·96
All Languages .	100·00	100·00	100·00	83·44	16 56

N = Negligible.

Marathi is the principal language and is the mother-tongue of 83·82 per cent of the population. In rural areas Marathi speakers account for 88·48 per cent of the population. They make only 60·32 per cent of the population in urban areas. Urdu has the second largest number of speakers. They make 9·53 per cent of the total population. It is spoken more in urban areas where its speakers make as much as 22 05 per cent as against 7·05 per cent for rural areas. Hindi has the third largest number of speakers. They make 4·50 per cent of the total population of the district. It is also spoken more in urban areas where its speakers make as much as 13·01 per cent against only 2·82 per cent for rural areas. Banjari and Korku are spoken mostly in the rural areas. Gujarati has been reported as 0·47 per cent of the total population. Telugu speakers are found more in rural areas. Sindhi and Kachchi are spoken more in urban areas.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Banjari	0·80	1·16	0·46
(2) Gujarati	0·78	0·63	0·47
(3) Hindi	3·39	4·97	4·50
(4) Kachchi	....	0·05	0·04
(5) Korku	.....	0·18	0·19
(6) Marathi	86·29	82·85	83·82
(7) Sindhi	.....	0·19	0·24
(8) Telugu	0·47	0·44	0·59
(9) Urdu	8·10	8·99	9·53
(10) Others	0·17	0·54	0·16
All Languages ..	100·00	100·00	100·00

The proportion of Marathi speakers has decreased from 86·29 per cent in 1901 to 82·85 per cent in 1951 but has increased to 83·82 per cent in 1961. The percentage of Urdu speakers has increased from 8·10 per cent in 1901 to 8·99 per cent in 1951 and to 9·53 per cent in 1961. The percentage of Hindi speakers has increased from 3 39 per cent in 1901 to 4·97 per cent in 1951, but has again decreased to 4·50 per cent in 1961. The proportion of Gujarati speakers has decreased from 0 78 per cent in 1901 to 0·63 per cent in 1951 and to 0 47 per cent in 1961. Proportion of Banjari speakers has increased from 0·80 per cent in 1901 to 1·16 per cent in 1951 but decreased to 0 46 per cent in 1961. Kachchi has been reported first in 1951 and the proportion of Kachchi speakers has remained fairly constant over the decade. Korku was reported first in 1951; its proportion has increased from 0·18 per cent in 1951 to 0·19 per cent in 1961. It may be added that the 1901 proportions pertain to the district as it existed in that year.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each tahsil and town separately. The distribution of religions by rural and urban areas of the district is as follows:—

	Percentage to total population			Percentage of each religion in	
	Total	Rural	Urban	Rural areas	Urban areas
(1) Buddhists ...	13·11	14·91	4·05	94·88	5·12
(2) Christians ...	0·54	0·60	0·25	92·22	7·78
(3) Hindus ...	76·20	76·49	74·69	83·77	16·23
(4) Jains ..	0·66	0·42	1·89	52·88	47·12
(5) Muslims ...	9·44	7·54	19·00	66·68	33·32
(6) Others ...	0·05	0·04	0·12	60·34	39·66
All Religions ..	100·00	100·00	100·00	83·44	16·56

76·20 per cent of the population reported their religion as Hindu. Hindus are 76·49 per cent in rural areas and 74·69 per cent in urban areas. Buddhists account for 13·11 per cent in the district. They are 14·91 per cent in rural areas but make only 4·05 per cent in urban areas. Muslims are 9·44 per cent of the total population in the district. They are only 7·54 per cent in rural areas but make as much as 19 per cent in urban areas. Christians are concentrated like Buddhists more in rural than in urban areas. Persons belonging to other religions are highly concentrated in urban areas. The Buddhists are more numerous in rural areas than in urban areas. The Jains are the most urbanised group and the Buddhists are the least urbanised.

The comparative position of the religions in 1901 and 1961 is as follows:—

	Percentage to total population	
	1901	1961
(1) Buddhists	....	13·11
(2) Christians	0·04	0·54
(3) Hindus	90·70	76·20
(4) Jains	1·02	0·66
(5) Muslims	8·16	9·44
(6) Others	0·08	0·05
All Religions	100·00	100·00

The proportion of Muslims has increased from 8·16 per cent in 1901 to 9·44 per cent in 1961. Percentage of Christians has increased from 0·04 per cent in 1901 to 0·54 per cent in 1961. The percentage of Jains has decreased from 1·02 per cent in 1901 to 0·66 per cent in 1961. The proportion of Hindus has gone down from 90·70 per cent in 1901 to 76·20 per cent in 1961 because some persons belonging to Hindu Scheduled Castes returned their religion as Buddhist or Nav-Bauddha. The combined proportion for Hindus and Buddhists has also decreased by more than one per cent during the last sixty years. The 1901 percentages, however, pertain to the district as it existed in that year.

Sex ratios for each religion are as follows:—

Buddhists 997, Christians 577, Hindus 976, Jains 791, Muslims 819 and all religions 959.

Higher sex ratio for Buddhists is due to their largest rural group. Christians have the lowest sex ratio.

SCHEDULED CASTES

Table SCT-I—Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste by sex for the district and each tahsil separately. Actually, 19 castes are notified as Scheduled Castes in the district but only 15 (including Mang Garudi) are reported in 1961 Census.

The distribution of these 15 castes by rural and urban areas of the district is as follows:—

Name of Scheduled Caste	Population		Percentage to total population of the district	Percentage of each Scheduled Caste population in	
	Males	Females		Rural areas	Urban areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Castes	28,580	27,634	5·30	82·19	17·81
(1) Balahi	12	9	N	..	100·00
(2) Basor	92	88	0·02	8·33	91·67
(3) Bedar	93	60	0·01	100·00	..
(4) Bhangi	766	706	0·14	13·11	86·89
(5) Chambhar	9,505	9,251	1·77	83·71	16·29
(6) Dohor	547	544	0·10	86·89	13·11
(7) Dom	52	61	0·01	0·88	99.12
(8) Ganda	2	5	N	100·00	..
(9) Ghasi	1	..	N	100·00	..
(10) Kaikadi	257	318	0·05	67·48	32·52
(11) Katia	14	9	N	100·00	..
(12) Khatik	206	195	0·04	52·87	47·13
(13) Kori	12	7	N	26·32	73·68
(14) Mahar	3,907	3,510	0·70	66·17	33·83
(15) Mang (including Mang Garudi)	12,967	12,743	2·43	90·90	9·10

*Inclusive of persons from the Scheduled Castes who have not reported their individual castes. N = Negligible.

The remaining 4 Scheduled Castes for which no one was returned in the district in the 1961 Census are as follows :—

(1) Bahna, (2) Madgi, (3) Sansi, (4) Khangar.

Mang (including Mang Garudi) with 25,710 persons is the largest Scheduled Caste in the district. The second largest group is of Chambhar while Mahar, Bhangi and Dohor are the third, fourth and fifth respectively. The remaining Scheduled Castes together have a population of only 1,493 which makes less than 0·2 per cent of the total population. Ghasi, Ganda, Katia, Kori and Balahi have very small populations.

The comparative position of the Scheduled Castes population in 1951 and 1961 in the district is as follows :—

	Percentage to total population in		
	Total area	Rural areas	Urban areas
All Scheduled			
1951	17·48	19·02	9·67
1961	5·30	5·22	5·71

The reduction of the Scheduled Caste proportion from 17·48 per cent to 5·30 per cent is the result of a large number of persons from the erstwhile Hindu Scheduled Castes returning their religion in the 1961 Census as Buddhist or Nav-Bauddha. Because of this change of religion these persons have not been treated as Scheduled Castes as the Constitution recognises Scheduled Castes from Hindu and Sikh religions only. The combined proportion of the Scheduled Castes and Buddhists in 1961 is 18·41 per cent which is slightly larger than that of Scheduled Castes in 1951.

Literacy

Tables SCT-III—Parts A (i) and B (i) in Part II show the literacy and educational levels for each Scheduled Caste. The percentages of literacy for the district total population, all Scheduled Castes and each Scheduled Caste are as shown below.

The Scheduled Castes as a group do not seem to have made much progress in education. Mangs which is the predominant group appears to be the most depressed so far as literacy is concerned. The females among the Scheduled Castes appear to be quite behind in literacy and education.

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
DISTRICT AVERAGE	23·81	37·89	9·30	43·03	57·04	27·53
All Scheduled Castes	11·31	18·92	3·50	24·19	39·13	8·07
(1) Balahi	....	....	....	33·33	50·00	11·11
(2) Basor	13·33	25·00	No literates	33·94	50·00	17·28
(3) Bedar	11·76	15·05	6·67	....	....	....
(4) Bhangi	23·32	37·00	8·60	20·41	36·04	3·43
(5) Chambhar	15·27	25·38	4·98	24·35	40·08	7·46
(6) Dohor	9·28	14·14	4·43	13·29	26·03	No literates
(7) Dom	No literates	No literates	....	22·32	41·18	6.56
(8) Ganda	No literates	....	....	....	....	....
(9) Ghasi	No literates	No literates	....	....	....	....
(10) Kaikadi	9·02	12·28	6·45	9·09	17·44	1·98
(11) Katia	30·43	28·57	33·23	....	....	....
(12) Khatik	19·81	32·38	7·48	24·34	37·62	9·09
(13) Kori	No literates	....	....	35·71	50·00	No literates
(14) Mahar	14·77	22·37	6·26	33·48	48·40	17·07
(15) Mang (including Mang Garudi)	7·82	13·78	1·79	17·19	31·00	2·23

Economic Activity

The industrial classification of persons at work and non-workers for the district average, for all Scheduled Castes and for each Scheduled Caste is as follows :—

	Percentage of Workers in Categories			
	Cultivation	Agricultural Labour	All other activities	Non-workers
DISTRICT AVERAGE.	21·81	21·56	7·93	48·70
All Scheduled Castes.	10·14	32·29	13·17	44·40
(1) Balahi ..	4·76	33·33	23·81	38·10
(2) Basor ..	2·22	1·11	50·56	46·11
(3) Bedar ..	3·92	15·69	25·49	54·90
(4) Bhangi ..	0·14	0·07	44·70	55·09
(5) Chambhar.	17·48	25·37	11·64	45·51
(6) Dohor ..	11·46	28·05	16·59	43·90
(7) Dom ..	0·89	....	39·82	59·29
(8) Ganda ..	28·57	....	....	71.43
(9) Ghasi ..	100·00	....	....	....
(10) Kaikadi ..	6.43	14·96	31·65	46·96
(11) Katia ..	4·35	43·48	30·43	21·74
(12) Khatik ..	12·22	21·70	18·20	47·88
(13) Kori ..	....	26·32	31·58	42·10
(14) Mahar ..	9·68	30·19	13·16	46·97
(15) Mang (including Mang Garudi).	5·39	41·05	11·47	42·09

The proportion of workers among the Scheduled Castes is more than the district population. The proportion of workers in cultivation is smaller and that of agricultural labourers is larger than the district average. This is due to the association of the Scheduled Castes with certain traditional services as well as to a fewer persons owning lands amongst them. About 76 per cent of the workers from the Scheduled Castes are engaged in agricultural activities.

Size of Land Cultivated

Tables C-I and SCT-V—Part A in Part II show a broad classification of cultivating households by size of land cultivated for the district rural population and all Scheduled Castes in rural areas, respectively. The proportions are as follows :—

Size of land cultivated	District rural population		All Scheduled Castes	
	No. of sample households	Percentage	No. of sample households	Percentage
All sizes	22,031	100·00	1,323	100·00
Less than 5 acres ..	6,354	28·84	502	37·94
5—9 9 acres ..	5,068	23·00	342	25·85
10—29·9 acres ..	7,413	33·65	359	27·14
30 acres and over ..	3,196	14·51	120	9·07

Out of a sample of 22,031 cultivating households, 1,323 or about 6 per cent households are from the Scheduled Castes against their population which is 5 22 per cent of the total rural population of the district. 37 94 per cent of the cultivating households of the Scheduled Castes are cultivating less than 5 acres of land against the corresponding average of 28 84 per cent for the district. The percentage of households cultivating land over 5 acres among the Scheduled Castes is 62·06 per cent as against the corresponding average of 71·16 per cent for the district. The proportion of households cultivating larger holdings is thus smaller in the case of the Scheduled Castes. It has been already described that their participation in agriculture is more as agricultural labourers.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful Committee of the Zilla Parishad at least two members from Scheduled Castes and other socially and educationally backward classes are required to be elected by the Parishad. This Standing Committee acts as the Subject Committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes and of any socially and educationally backward classes and in particular for the removal of untouchability. There are no Scheduled Tribes in the district.

Various other schemes for the welfare of Scheduled Castes and other educationally or socially backward classes are in operation in the district :—

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Nomadic and Semi-Nomadic Tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary Schools, High Schools or Technical Schools. 1,378 students benefited from and Rs. 86,579 were spent on these schemes during the year 1962-63. Rs. 77,009 were spent on 12 backward class hostels and 4 cosmopolitan hostels in the district during the year 1962-63. 429 students were admitted in these hostels.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for Cottage Industries and Professions and of assistance for purchase of milch cattle to the Scheduled Castes and other Backward Classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions Rs. 11,900 were given to 88 beneficiaries from the Scheduled Castes and Backward Classes from underdeveloped rural areas during the year 1962-63 and

Rs. 2,716 were spent on 14 beneficiaries under the scheme of assistance for purchase of milch cattle.

(3) *Housing.*—A number of housing societies of Backward Classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other Backward Classes is also provided. Under this scheme Rs. 21,100 were given to 68 beneficiaries during 1962-63. In addition loan amounting to Rs. 65,967 and subsidy of Rs. 24,845 were sanctioned by the Directorate of Social Welfare, Poona, for construction of 30 houses for sweepers.

(4) *Drinking Water Wells.*—An amount of Rs. 22,000 was spent under this scheme. Rs. 3,500 were spent for 2 drinking water wells for Scheduled Castes.

(5) *Medical Aid.*—Monetary aid is given to deserving persons belonging to the Scheduled Castes and Rs. 600 were spent during the year on 15 beneficiaries.

(6) *Agricultural.*—Financial assistance to poor deserving agriculturists from Vimukta Jatis, underdeveloped rural areas and other Backward Classes to purchase ploughs, bullocks, implements, seeds, carts, etc., is given. Rs. 9,200 were spent on 84 beneficiaries under this scheme during the year 1962-63.

(7) *Schemes for Removal of Untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in caste Hindu localities and subsidy is paid to caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 2,123 were spent under the schemes during the year 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan Schemes. The expenditure described above against each scheme is out of the committed schemes and also include expenditure on the Plan Schemes and schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of ' Other Backward Classes ' has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are irrespective of their religion, caste or community treated as belonging to the ' Other Backward Classes '.

Concessions to Nav-Bauddhas

From 1st May 1960, the Scheduled Castes converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus.

EDUCATION

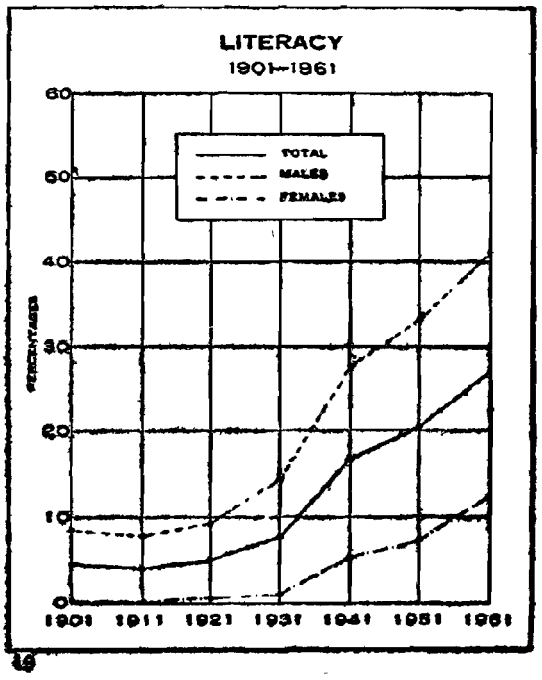

There has been a rapid growth in the number of primary institutions during the decade 1951–60. Facilities for secondary education are also steadily improving. The district literacy rates are, however, still below the State averages.

Growth of Literacy

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

	Total	Males	Females
1901	4·08	7·98	0·18
1911 .. .	4·11	7·92	0·25
1921	4·98	9·33	0·53
1931	7·74	14·31	0·98
1941 .. .	16·53	27·42	5·32
1951	20·78	32·32	9·03
1961 . ..	26·99	41·15	12·22

Figure in the next column shows the growth of literacy in the district for total population, males and females separately.

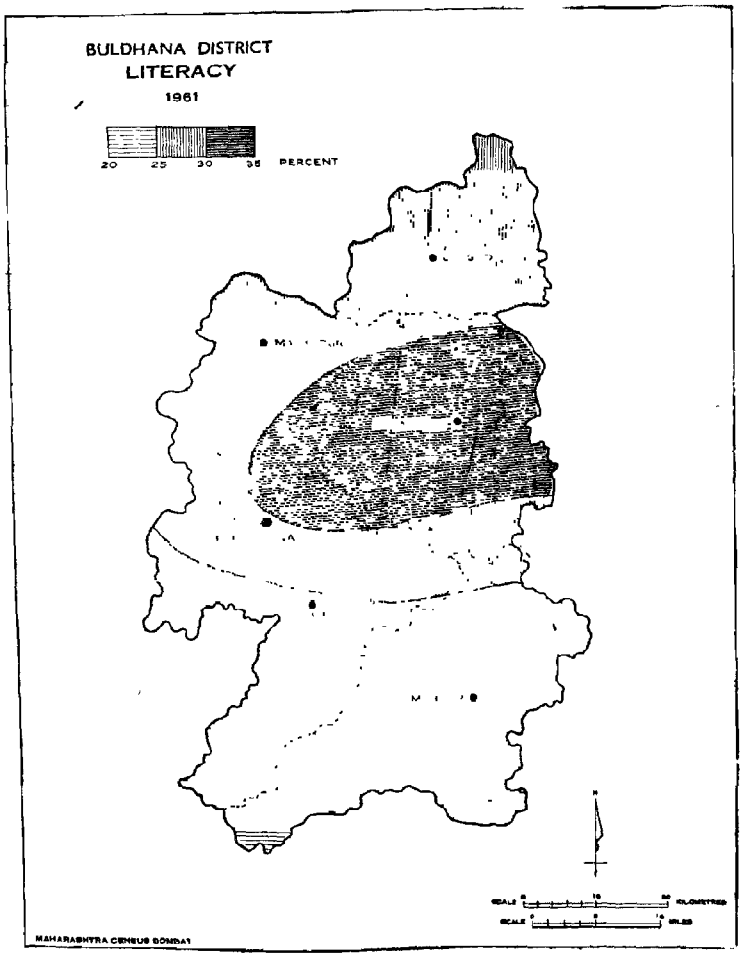

The literacy percentage has increased more than six times during the last sixty years. Improvement in male and female literacy from 14·31 per cent and 0·98 per cent respectively in 1931 to 27·42 per cent and 5·32 per cent respectively in 1941 is noteworthy. Expansion of educational facilities during the first two Five-Year Plans and the implementation of the scheme of compulsory primary education have helped to raise the literacy rates since 1951.

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each tahsil separately. The Village Directory in Part I furnishes such numbers for each village and for each ward of every town separately. Percentage proportions out of the total population for males and females and for total, rural and urban areas of each tahsil are shown below separately.

Figure in the next column shows the spread of literacy in the district by isopleths.

Highest literacy rates are in the western and central parts roundabout Khamgaon town. Literacy rates drop down beyond this zone, but they are the lowest in the southern region comprising major parts of Chikhli and Mehkar tahsils which are adjoining the low literacy areas of Aurangabad and Parbhani districts.

Within the district, the percentage of literacy is highest in Khamgaon tahsil (30·84 per cent) and lowest in Mehkar tahsil (22·47 per cent). In rural areas, Malkapur tahsil has the highest literacy for total population and for males, while female literacy is highest in Jalgaon tahsil. For urban areas Chikhli tahsil has the highest literacy for total population and for males. This is because of the district headquarters too is situated in this tahsil. Female literacy is highest in Khamgaon tahsil.

State/District/Tahsil	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
MAHARASHTRA	29·82	42·04	16·76	21·46	33·51	9·34	51·07	61·62	37·90
BULDHANA DISTRICT ..	26·99	41·15	12·22	23·81	37·89	9·30	43·03	57·04	27·53
1 Jalgaon Tahsil ..	27·75	41·69	13·36	26·97	41·21	12·29	34·35	45·71	22·56
2 Malkapur Tahsil ..	29·80	44·75	14·15	27·51	42·62	11·86	39·16	53·24	23·78
3 Khamgaon Tahsil ..	30·84	44·94	15·96	24·14	37·99	9·81	45·58	59·79	29·93
4 Chikhli Tahsil ..	25·02	39·14	10·27	21·43	35·31	7·21	45·73	59·98	29·18
5 Mehkar Tahsil ..	22·47	35·97	8·50	21·30	34·74	7·44	44·42	58·24	29·14

Literacy by Age

The percentages of literates by age-groups for the district total, rural and urban areas are shown below. Actual figures are shown in Table C-III-A, B and C in Part II which also gives figures for different educational levels separately.

Average literacy rate for males is as high as 41·15 per cent because of the high figures for age-groups 15—34 and 35—59. In the case of females, the higher figure for age-group 5—14 indicates that female education has been receiving attention only recently.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	26·99	41·15	12·22	23·81	37·89	9·30	43·03	57·04	27·53
0—4	....	....	....	....	....	....	....	....	....
5—14	32·79	43·22	21·87	29·43	40·56	17·91	49·95	56·42	42·81
15—34	37·19	57·68	16·44	32·64	53·29	12·24	59·34	77·60	38·48
35—59	26·84	45·25	5·79	23·64	41·42	3·37	42·96	64·46	18·12
60+	16·15	32·57	1·66	13·82	28·26	1·00	27·66	50·67	6·05

Primary Education

Table 15 in Part-III shows the number of Primary schools and pupils in them for the district and each tahsil in 1951, 1956 and 1961.

The number of Primary schools and their classification as on 31st March 1962 are as follows :—

	Total	Basic			Non-basic		
		Senior basic	Junior basic	Single Teacher	Single Teacher	I-IV Multi-Teacher	Middle I-VII
Total number of Schools.	1,033	15	10	3	424	446	135
State Government	29	4	2	..	..	21	2
Zilla Parishad ..	951	11	8	1	423	378	130
Municipal ..	48	..	..	..	1	45	2
Private ..	5	..	..	2	..	2	1

There has been a rapid growth in the number of Primary schools during the last ten years. The number of Primary schools was 628 in 1951. It rose to 911 in 1956 and to 1,029 in 1961. On 31st March 1962, their number is 1,033. 951 out of 1,033 Primary schools are managed by the Zilla Parishad and only 5 schools are managed by private institutions. The State Government's share in the total expenditure incurred in 1961-62 was 73·0 per cent. The expenditure on Primary education is incurred by the State Government through grants-in-aid to Zilla Parishad and building loans and grants to primary teachers' training colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes similarly get free education and scholarships are given to them at the rate of Rs. 3 per year in I and II Standards and Rs. 6 per year in III and IV Standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The policy of converting Primary schools into basic schools is also making steady progress. The number of basic schools was 5 in 1951-52. It increased to 27 by the end of the Second Plan. There were 28 basic schools in the district on 31st March 1962.

By 31st March 1962, 9 towns and 894 villages in the district had Primary schools and 245 villages had schooling facilities, i.e., Primary schools situated within a mile from the village. 86 villages did not have even schooling facilities. Total number of teachers in Primary schools is 3,242. Out of them, 2,174 or 67·1 per cent were trained teachers.

Other indices of the progress of primary education in the district compared with those of the State averages are as follows :—

(As on 31st March 1962)

	Buldhana District	Maharashtra
Average population served by a Primary school	1,038	1,135
Average area served by a Primary school (sq. miles)	4·6	3·4
Pupils per teacher	30	38
Pupils per school	93	27
Average annual salary per teacher (Rs.)	1, 35	1,250
Average annual expenditure per school (Rs.)	3,765	4,903
Average number of teachers per school ..	3·1	3·3
Percentage of trained teachers ..	67·1	64·8

Prior to the First Plan, the scheme of compulsory primary education was introduced in Buldhana Town only. In 1955-56, the scheme was applied to children in the age-group 6—10 to 4 towns and 20 villages in the district. By the end of 1960-61, the scheme was extended to two more towns.

One of the Third Plan schemes is to extend the scheme of compulsory primary education to all children in the age-group 6—11. A provision of Rs. 60·49 lakhs has been made for primary education in the Third Plan for the district. 1,110 additional teachers would be appointed in primary schools. 201 class-rooms are proposed to be built during this period. The number of students is expected to rise by 55,500.

Secondary Education

The number of institutions imparting Secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of high schools with number of students for each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows :—

	Total	Vocational High Schools	Higher Secondary Schools		Middle Secondary Schools
			Multi-purpose	Ordinary	
State ..	8	..	2	2	4
Municipal ..	7	..	..	5	2
Private ..	45	1	2	36	6
Zilla Parishad ..	14	..	..	5	9

Total number of students on roll in the Secondary schools during the year 1961-62 was 24,980. Out of them, 20,388 were boys and 4,592 girls. Total number of teachers was 1,059. Out of them 528 or 49·9 per cent were trained teachers. Other indices of secondary education compared to the State averages are as follows :—

	Buldhana District	Maharashtra
Population served by each school ..	14,493	13,805
Area served by each school (sq. miles).	50·6	40·8
Pupil-teacher ratio	24	25
Pupils per secondary school ..	338	338
Average annual salary per teacher (Rs.)	1,745	1,870
Average annual expenditure (direct) per secondary school .. .. (Rs.)	32,189	39,543
Average number of teachers per secondary school ..	14·3	13·7

The Figure on page (25) shows the proportions for literates and different educational levels among males and females for rural and urban areas separately.

The number of secondary schools rose from 29 in 1950-51 to 46 in 1955-56 and to 70 in 1960-61. It was 74 on 31st March 1962. The secondary schools are dispersed throughout the district. Jalgaon tahsil has seven which is the smallest number in the district. Chikhli tahsil has as many as 22 secondary schools.

Private institutions manage about 60·8 per cent of the secondary schools in the district. The Government share in the total expenditure on secondary education (in 1961-62) is, however, 83·9 per cent. It is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes or other Backward Class students.

Looking to the rapid growth in the number of pupils in primary schools, the number of pupils in the secondary schools may rise to 27,000 by 1965-66 and to 35,000 by 1970-71.

S. S. C. and Higher S. S. C. Examinations

The Vidarbha Board of Secondary Education, Nagpur, conducts public examinations at the end of the Secondary School course. Two examinations are held every year in March and October and Buldhana, Deulgaon Raja, Chikhli, Mehkar, Khamgaon, Malkapur, Shelgaon Bazar, Nandura, Shegaon and Jalgaon-Jamod are the examination centres in the district.

The number of candidates who appeared and passed the examination from those centres during the year 1962 are as follows :—

	Appeared	*Passed*
S.S.C. Examination held in—		
March 1962	3,278	1,750
October 1962	563	280
Higher S.S.C. Examination held in—		
March 1962	309	190
October 1962	44	18

Higher Education

A list of Colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college.

The two colleges are situated at Buldhana and Khamgaon. A new college has been recently started at Malkapur. The colleges provide education in Arts, Science and Commerce. The number of college students was 1,161 in 1960-61. All colleges are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government.

Technical Education

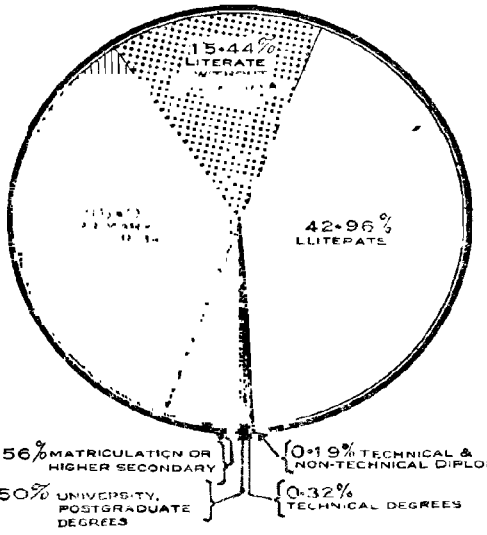

There are at present three institutions imparting technical education in the district, two of which are managed by the State Government. The Industrial Training Institute is located at Khamgaon where courses of electrician, fitter, machinist, turner and welder are available. 80 students are undergoing training there.

The Government Technical High School Centre at Khamgaon also provides training in various technical subjects. 71 students were undergoing training at this centre in 1964-65. The Samagra Gramkala Shikshan Samiti also at Khamgaon is a non-Government institution where courses in tailoring, carpentry and welding are taught. 39 students were studying at this institute in 1964-65.

Libraries

The number of libraries in the district which are recognised by the State Government is seven. These libraries were sanctioned a grant of Rs. 1,874 during 1963-64 by the State Government.

Printing Presses, Journals and Newspapers

There are 22 Printing Presses in the district. The total number of journals and newspapers is 2. One of them is a weekly and the other a monthly.

Radio Licences

The number of radio licences in the district has increased from 1,526 in 1954-55 to 3,521 in 1960-61.

Cinema Theatres

There are at present 14 permanent cinema theatres and 10 touring talkies in the district as on 21st December 1963.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A subject committee looks after its working and the District Health Officer works as secretary to that committee as well as the Officer-in-charge of Health activities in the district.

Drinking Water Supply

Column (5) of the Village Directory in Part I shows the sources and adequacy of drinking water for each village in the district.

Two villages have piped water supply. 131 villages and one town draw water from rivers, one village from a tank, three villages from nallahs, 949 villages and three towns from wells and 139 villages and five towns draw water from more than one of these sources. Drinking water supply is not adequate in 163 villages and five towns.

Malaria Eradication

A malaria control unit was first established at Jalgaon in 1953 because the incidence of malaria was high in that tahsil. The entire district was brought under the Malaria Eradication Programme in 1958. Under this programme, DDT is sprayed throughout the district every year between June and October. Surveillance Programme was introduced in 1960, under which surveillance workers visit the houses twice in a month to detect fever cases. Four sub-centres are established at Chikhli, Khamgaon, Malkapur and Mehkar for carrying out the malaria eradication programme.

Anti-T.B. Campaign

B.C.G. Vaccination campaign was held in the district in 1961. There is also one T. B. Sanatorium at Buldhana with accommodation for 200 patients.

Leprosy Control

There is a Leprosy clinic at Borkhedi in Malkapur tahsil. During the Second Plan five survey, education and treatment units were started at Nandura, Janefal, Sangrampur, Buldhana and Sindkhed Raja. A leprosy subsidiary centre was also started at Khamgaon in 1960. One special ward with six beds has been constructed in the main hospital at Buldhana.

Family Planning Centres

There are seven family planning centres at Nandura, Shegaon, Jalgaon, Kinhola, Janefal, Lakhanwada and Warwat Bakal. 343 and 223 vasectomy operations were performed in the district during 1960 and 1961, respectively.

Medical Facilities

Medical facilities available in the district are shown in Table 17 in Part III. The figures in the Table relate to the facilities provided by Government and other aided institutions. The numbers of private practitioners, hospitals and dispensaries are not shown there.

The number of doctors and nurses, number of beds available and the number of indoor and outdoor patients treated have all increased between 1950—60. The number of doctors and nurses increased from 31 and 3 in 1950 to 44 and 45 in 1960. The number of beds increased from 230 in 1950 to 401 in 1960. The number of indoor patients increased from 5,036 in 1950 to 16,621 in 1960 and that of outdoor patients from 394,922 in 1950 to 474,815 in 1960.

Hospitals

There are 16 hospitals in the district, six out of which are managed by Government. The main hospital is at Buldhana and is called the General Hospital, Buldhana. The other Government hospitals are located at Jalgaon, Tamgaon, Nandura, Khamgaon and Shegaon (the Saibai Mote Hospital). Out of the remaining hospitals, five are managed by municipalities, four by the Zilla Parishad and one (at Khamgaon) by a private institution aided by the Government.

Dispensaries

In 1960, there were 13 Government or Government aided dispensaries in the district. In addition, maternity and child welfare centres are functioning at three places, *viz.* Khamgaon, Malkapur and Mehkar.

There are also eight Maternity Homes in the district.

Primary Health Centres

There were seven primary health centres in the district at Nandura, Shegaon, Jalgaon, Kinhola, Janefal, Lakhanwada and Sangrampur in 1960.

The total number of persons working as Physicians, Surgeons, Dentists, Nurses, Pharmacists and other medical and health technicians in the district is 1,026.

The persons returned in the 1961 Census as Physicians, Surgeons and Dentists and their classifications by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 47 as against 54 for Maharashtra.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each tahsil separately.

54·52 per cent of the houses are used as dwellings, 28·24 per cent as cattle sheds, etc., 11·08 per cent were vacant at the time of the Census and the remaining are used as shops, workshops or factories, schools, etc.

The density of residential houses per sq. mile in the district has increased along with the density of population per sq. mile from 48·4 in 1951 to 57·7 in 1961. The number of persons per residential house, has also increased from 4·77 in 1951 to 4·89 in 1961.

Classified by "owned" and "rented" categories 81 per cent of the dwellings in the district are owned and only 19 per cent are rented. The proportion of owned is higher (86 per cent) in rural areas but lower (54 per cent) in urban areas. Even this low proportion of 54 per cent for the urban areas in the district is higher than the average of 30 per cent for all the urban areas of Maharashtra.

Out of the various materials used for walls, mud and stone appear to be used predominantly in the district with proportions of 36·0 per cent and 32·1 per cent respectively. Their proportions are a little lower in Malkapur tahsil where burnt bricks are used predominantly. In Jalgaon tahsil mud is predominantly used for walls, and grass, leaves, reeds or bamboos are next to mud. Mud is used for walls more in rural than in urban areas. Its proportion in the rural areas is 39·4 per cent against 18·2 per cent in the urban areas. Similarly the proportions of stone in the rural and urban areas are 35·6 per cent and 13·8 per cent respectively. Burnt bricks appear to be used more in urban areas with a proportion of 41·6 per cent as against 11·0 per cent in rural areas. Grass, leaves, reeds or bamboos are used in 11·6 per cent of the dwellings in rural and 18·8 per cent in urban areas.

Out of the materials of roof, corrugated iron, zinc and other metal sheets are predominant in the district with a proportion of 44·3 per cent. These types of roofs are, however, more common in urban than in rural areas. Their proportion in urban areas is 60·0 per cent against 41·3 per cent in rural areas. Roofs of grass, leaves, reeds, thatch, wood or bamboos which have proportions of 35·2 per cent and 7·3 per cent in rural and urban areas, respectively, are next to the corrugated iron, zinc or other metal sheets. These are generally flat roofs of wooden beams or rafters with a layer of mud on them. The use of corrugated iron, zinc or other metal sheets is common in almost all tahsils, except in Jalgaon tahsil where tiles are more in predominance. Tiled roofs are noticed in only 10·5 per cent of the dwellings in the district. They have higher proportions in urban areas (15·5 per cent) and lower (9·5 per cent) in rural areas.

Classified by the number of rooms occupied, 72·8 per cent households are occupying one-room dwellings and 18·3 per cent are occupying two-room dwellings. The households occupying larger number of rooms are more in urban than in rural areas. Average number of persons per room is 3·50 for total, 3·56 for rural and 3·22 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the most important economic activity as it engages 84·54 per cent of the working population in the district. Many others also work in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

Tables 3 to 10 in Part III present statistics for land utilisation, crop pattern, irrigation, wholesale and harvest prices, livestock and agricultural implements, etc., for the district.

Cultivating Seasons

As in other areas of the State, there are also two agricultural seasons *viz.*, Kharif and Rabi in this district. The district, however, has far more area under kharif than rabi crops. The ratio of areas under kharif and rabi crops in the year 1959-60 was 91 : 9. There are local variations in this broad pattern. The southernmost tahsil (Mchkar) has considerable proportion of the rabi crops (nearly 18 per cent) while in Malkapur and Jalgaon tahsils in the north, most of the cropped area is under kharif alone. Jowar, cotton, groundnut, udid and tur are the main crops grown in Kharif season and wheat, gram, and safflower are the principal crops of Rabi season. Jowar is grown in this district in Kharif season only. Sugarcane has a negligible area.

A crop calendar giving monthwise operations in respect of principal crops in the district is given on the next page.

Crop Calendar giving monthwise operations in respect of principal crops

Name of the Crop	April	May	June	July	August	September
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Wheat		Harrowing and sowing	Hoeing	Interculturing	Harvesting	Harvesting and ploughing.
Gram		Harrowing and Sowing.	Hoeing	Interculturing	Harvesting	Harvesting and Ploughing.

Land Utilisation

The pattern of land utilisation in the district and each of its tahsils is shown below compared with that of the State. All the figures are based on averages for three years from 1957-58 to 1959-60.

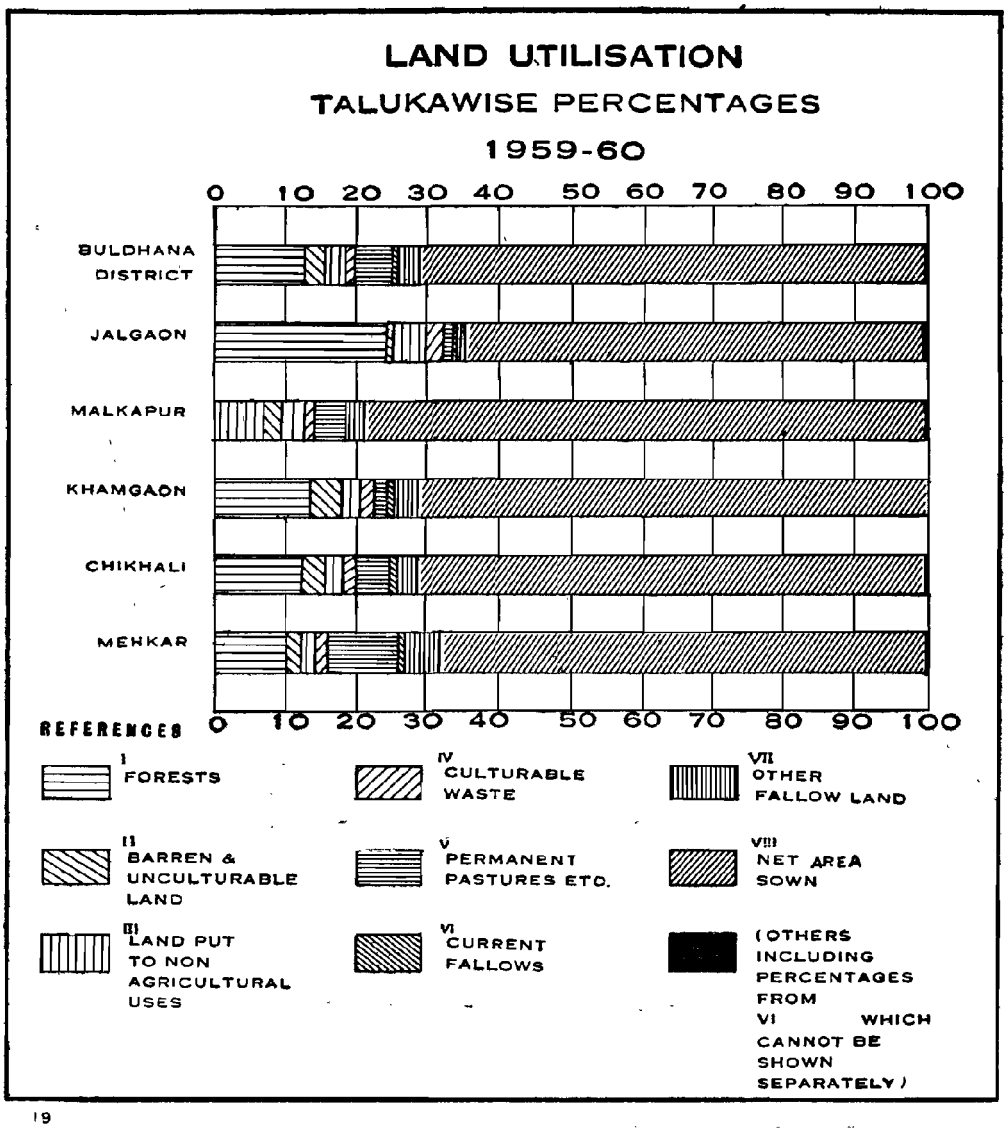

The Figure on page (29) shows the land utilisation pattern for the year 1959-60 for the district and each tahsil separately.

Compared to the State average the district has considerably lower proportion of areas under forests, barren and unculturable categories, cultivable wastes and current and other fallows. Consequently the proportion of net area sown in the district is much higher (69·92 per cent of the geographical area) than the average for Maharashtra (57·6) per cent).

Within the district the proportion of net area sown to the geographical area ranges between 64·27 per cent for Jalgaon tahsil and 78·56 per cent for Malkapur tahsil. The proportion of net area sown is thus higher than the State average in each tahsil of the district. Jalgaon tahsil has nearly one-fourth of the geographical area under forests and as such the proportion of net area sown is comparatively low there. On the other hand Malkapur tahsil has very low proportion of areas under forests, culturable wastes and fallow lands and the proportion of net area sown is very high. In the southern tahsil of Mehkar, sizable areas are under permanent pastures.

Because of changes in the classification of land utilisation effected in 1950-51 and changes in the administrative boundaries of the district, it is not possible to determine if there has been any shift in the pattern of land utilisation over the last 40—50 years.

Administrative Unit	Percentage of geographical area									
	Total geographical area	Forests	Barren and unculturable	Land put to non-agricultural uses	Culturable waste	Permanent pastures	Misc. tree crops and groves	Current fallows	Other fallow land	Net area sown	Total gross cropped area

Crop Pattern

The proportions of areas under the important food and non-food crops for the district and each of its tahsils are shown below compared with the corresponding figures for the State.

All figures are averages for three years 1957-58 to 1959-60.

Figure on page (31) shows the crop pattern for the district and each tahsil separately.

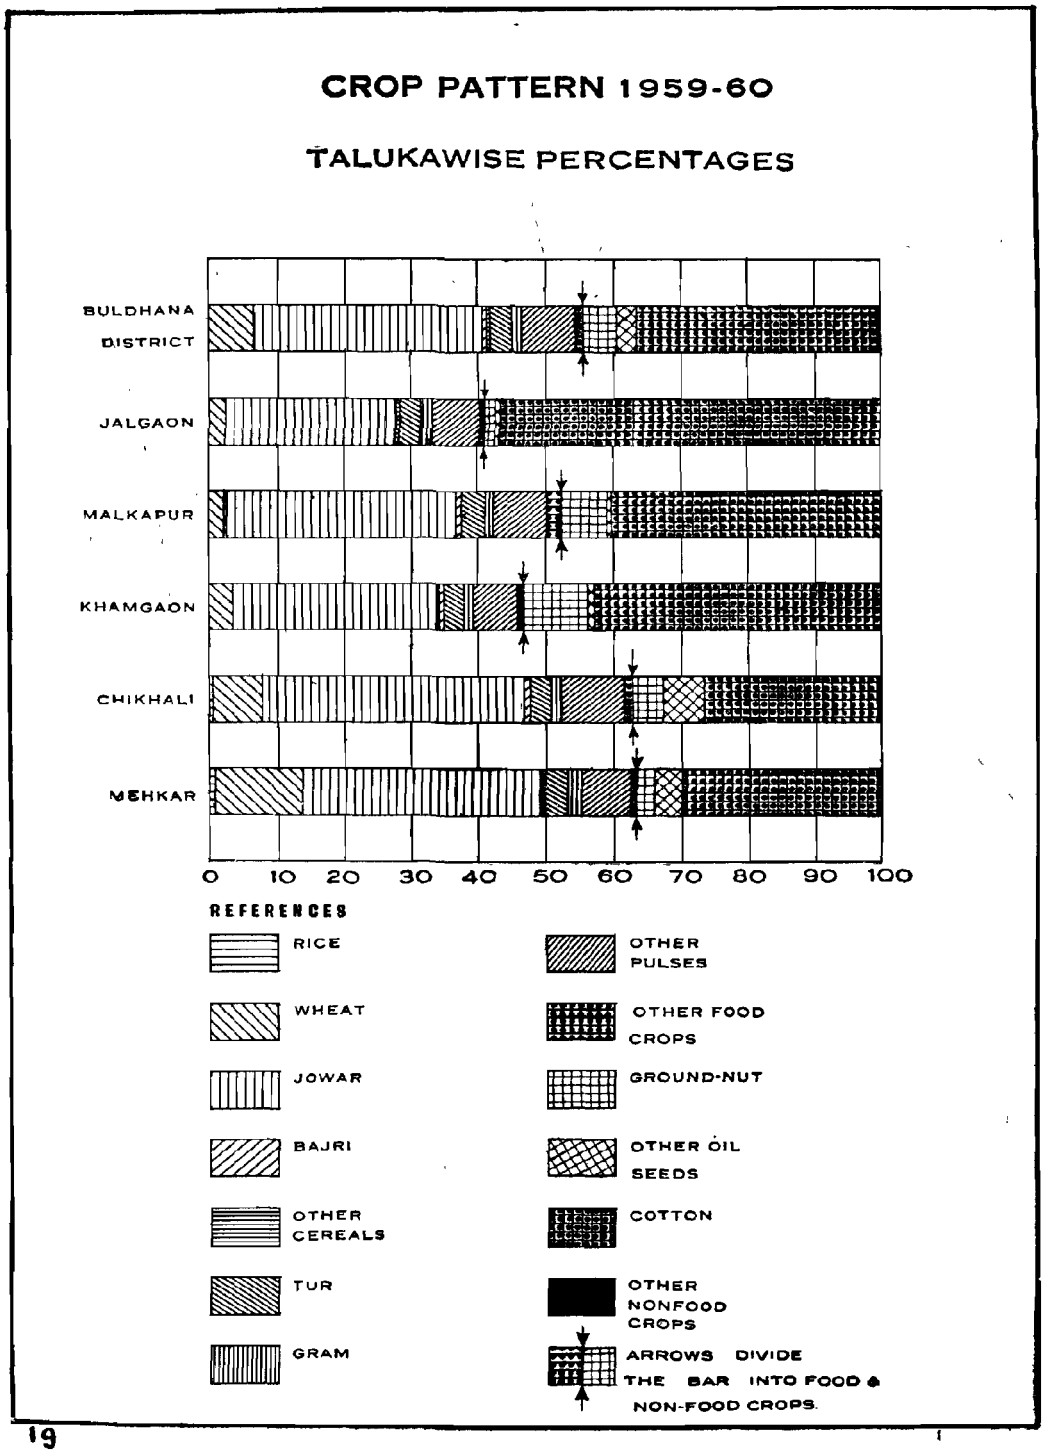

Jowar is the most important food crop of the district covering slightly more than ⅓rd of the gross cropped area. Pulses with 12·59 per cent of the cropped area come next in importance. Udid is the most important of all pulses in the district and has more than 41 per cent of the area under that group. Tur, mung and gram are the other important pulses of the district. Wheat occupies another 5·94 per cent and is also an important crop of the district. Compared to the State averages, the district has extremely small proportions of rice, bajri, other cereals, sugarcane and other food crops.

Cotton occupies 36·63 per cent of the gross cropped area. In fact, cotton is the most important among non-food crops having 80 per cent of area under that group. Most of the remaining area under non-food crops is occupied by oil-seeds chief of them being groundnut. Safflower is another important oil-seed of the district. Other oil-seeds like linseed, sesamum, have very small areas. Tobacco has an insignificant proportion.

From 1950-51 to 1959-60 there is a small decrease (from 62·30 per cent to 55·53 per cent) in the proportion of food crops to the gross cropped area and corresponding increase in the proportion of non-food crops. Amongst the food crops, the proportion of cereals reduced from 48·33 per cent to 41·87 per cent. The area under wheat has increased by 17,600 acres or by 18·51 per cent. Areas under fruits and vegetables, condiments and spices and also oil-seeds have fluctuated from year to year. The area under cotton has recorded an increase of 1·74 lakh acres (or 38 per cent) in coverage during the decade.

Comparable statistics are not available for the entire district for years prior to 1950-51. The proportions of areas under different crops reported by District Gazetteer in 1907-08 were : rice 0·28 per cent, wheat 4·45 per cent, jowar 35·22 per cent, bajri 3·31 per cent, tur 2·84 per cent, other pulses 3·02 per cent, cotton 42·57 per cent, orchards and garden crops 0·20 per cent, and sugarcane 0·06 per cent.

19

The crop pattern of the district in general can be considered as slightly inferior to the average crop pattern of the State. The crop pattern of the State itself is poor in the All India setting because of jowar, bajri and other low value crops. The district proportions of high value crops like rice, sugarcane, etc. are very poor. The district also has very small area under irrigation. The relieving factors are the large area under cotton and higher average yields for most of the crops which together raise the gross value of output per acre of gross cropped area almost equal to the State average.

The cropping pattern within the district varies according to soil types and rainfall. The predominance of food crops over non-food crops is significant in the southern tahsils of Mehkar and Chikhli while it is opposite in the northern tahsil of Jalgaon. The southern tahsils have comparatively higher proportion under Rabi crops. Sizable proportions of wheat are observed in that area, Mehkar tahsil having nearly three times the average proportion of Maharashtra.

Cotton has extremely high proportion (57·19 per cent) in the northern tahsil of Jalgaon and is comparatively less in the southern portion. However, even in the southern tahsils its proportion is twice the State average.

Oil-seeds have small coverage in the northern tahsils. The southern area has high proportion of safflower and the middle belt has larger areas under groundnut.

Nine-year average yields and 1958-59 acreages and outturns of important crops for the district are shown below with the corresponding figures for Maharashtra taken as 100 :—

	Nine-year average yield per acre	1958-59 area	1958-59 outturn
MAHARASHTRA ..	100·00	100·00	100 00
Wheat	100·57	4·45	4·83
Jowar	136·03	3·94	3·76
Tur	134·78	4·09	5·65
Gram	55·19	1·96	1·73
Cotton	106·06	10·19	10·05
Groundnut	94·70	3·17	2·50
Sesamum	101·03	1·55	1·56
Rape, Mustard and Linseed.	106 84	0·66	0·75

The district average yields of almost all the crops are higher than the State averages. Groundnut and gram are the only exceptions. The district yield of jowar and tur is more than 1⅓ times the State average. Nearly 5 per cent of area under wheat and tur in the State is covered in the district. So also more than 10th part of area under cotton in the State is occupied in this district. The contribution of the district in the State's outturn of cotton and tur is substantially high. The district also makes nearly 5 per cent of outturn of wheat in the State.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 75 for the district as against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers on land to total workers, gross area sown per worker on land and the proportion of irrigated area to gross cropped area are shown below for the district and each of its tahsils compared with the State averages :—

Administrative Unit	Density of population per sq. mile	Percentage of workers on land to total workers	Gross area sown per worker on land in acres	Percentage of gross irrigated area to gross cropped area
MAHARASHTRA ..	334	69·91	3·50	6·23
BULDHANA DISTRICT ..	281	84·54	3·81	1·35
Jalgaon Tahsil	244	88·51	3·85	0·46
Malkapur Tahsil ..	368	82·15	3·43	1·57
Khamgaon Tahsil ..	298	77·61	4·14	0·50
Chikhli Tahsil	280	85·12	3·76	2·56
Mehkar Tahsil	233	89·68	3 92	1·03

84·54 per cent of the total workers work on land. Of these 42·02 per cent are agricultural labourers and 42·52 per cent are cultivators. The proportion of workers working on land is much higher than the State average (69·91 per cent). The gross area sown per worker on land in the district (3·81 acres) is higher than the State average (3·50 acres). Consequently the gross value of agricultural production per worker on land in the district is also somewhat above the State average.

Within the district the proportion of workers working on land to the total working population ranges from 77·61 per cent for Khamgaon tahsil to 89·68 per cent for Mehkar tahsil. The proportion is thus higher than the State average in each tahsil. The gross area sown per worker on land ranges from 3·43 acres in Malkapur tahsil to 4 14 acres in Khamgaon tahsil.

Because of the very low proportion of irrigated lands and very large proportion of crops covering both Kharif and Rabi seasons, the proportion of net area sown more than once to the total net area sown in the district is considerably lower than the State average. In 1959-60 the proportion was only 2·20 per cent as against the State average of 5·05 per cent. The pattern of double cropping in vogue in the district is (1) Kharif pulses followed by wheat or gram in Rabi season and (2) groundnut in Kharif followed by wheat in Rabi season.

Irrigation

The proportion of gross irrigated area to gross cropped area in the district (1·36 per cent) is very poor compared to the State average (6·23 per cent).

Table 4 in Part III gives the break-up of irrigated areas by sources of irrigation for the district and each tahsil separately. Except for a very small proportion of net irrigated area, which is irrigated by other sources (2·14 per cent) and Tanks (0·85 per cent), the entire irrigation is done by wells. Only Mehkar tahsil has about 200 acres under Tank irrigation.

The net irrigated area has increased from 18,000 acres in 1950-51 to 23,400 acres in 1959 60 (i.e., by 5,400 acres or 30 per cent). The area irrigated by wells has increased by 5,000 acres. About 400 additional acres of land has been brought under irrigation during the decade 1950–60 through other sources of irrigation. Irrigated area has increased in all tahsils but the increase is remarkable in Chikhli tahsil.

Another remarkable increase observed is in the number of pumping sets used for irrigation worked on oil-engines and electric power. The number of oil-engines which was 243 in 1951 has increased more than four times to 1,080 in 1961.

The number of electric pumps has similarly increased from 13 in 1951 to 229 in 1961. Chikhli tahsil has the largest number of oil-engines (398) and Malkapur tahsil has the largest number of electric pumps (104).

Crop Pattern under Irrigation

Table 5 in Part III shows the crop pattern under irrigation. In the year 1959-60, 92·41 per cent of the irrigated area was under food crops and only 7·59 per cent under non-food crops. Among the food crops, 43·46 per cent of the irrigated area was covered by wheat. Another 32·07 per cent was covered by condiments, spices and other miscellaneous crops. Sugarcane occupied 10·55 per cent, gram 2·53 per cent, jowar 2·53 per cent, maize 0·85 per cent and rice 0·42 per cent. Among the non-food crops, 5·49 per cent were covered by cotton and 1·27 per cent by fodder crops. Tobacco and groundnut covered 0·42 per cent each. The proportion of irrigated areas to total cultivated areas under different crops is wheat 9·14 per cent, gram 2·36 per cent, cotton 0·21 per cent, fodder crops 3·61 per cent, tobacco 33·33 per cent and rice 1·45 per cent.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains, groundnut and cotton from 1951 to 1956 and from 1956 to 1960 compares with the production of 1951-52 as follows :—

	Average production in hundred tons per year during		
	1951–52	1951–56	1956–60
Rice . ..	14	10	17
Wheat	140	144	167
Jowar	1,900	1,533	1,463
Bajri	45	34	18
Other cereals	1	2	2
Total cereals	2,100	1,723	1,667
Total pulses ..	299	356	342
Total foodgrain	2,399	2,079	2,009
Groundnut	173	208	183
Cotton (in bales of 392 lbs. each)	1,278	1,049	1,166

This comparison taking a single year as a base may not be very much conclusive as the base year itself might perhaps have been a very good or a very bad agricultural season. Nevertheless such comparison brings out some very interesting results as follows.

Compared to the production in 1951-52, the average annual production of total foodgrains was lower by 13·34 per cent in the First Plan period and was lower by 16·26 per cent during the Second Plan period. The production was particularly lower in case of jowar. The average annual production of rice during the First Plan period was lower by 28·57 per cent than the 1951-52 production but during the Second Plan period it was higher by 21·43 per cent. The average annual production of jowar during the Second Plan period is 23·00 per cent lower than the 1951-52 production. There is an increase in the average annual production of pulses and groundnut during both the Plan periods. The average annual production of cotton decreased considerably during the First Plan period but improved slightly during the Second Plan period. It appears that 1951-52 had been a very good agricultural year in the district.

Agricultural Implements

The number of agricultural implements for the district and for each of its tahsils for the years 1951, 1956 and 1961 are separately shown in Section C of Table 9 in Part III.

The remarkable increase in the number of oil-engines and electric pumps for irrigation has already been referred to. During the decade (1951—61), the number of wooden ploughs decreased by 21·46 per cent but the number of iron ploughs increased by 9,025 (or 55·15 per cent). This is probably an indication of the suitability of the iron ploughs in the region. Both the types together increased from 25,526 to 32,585, i.e., by 27·65 per cent. The number of tractors, which were 27 in 1951 dropped to 25 in 1956 but increased to 54 in 1961.

By using standard average prices of the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 133·72 lakhs or Rs. 7·81 per acre of the net sown area. The agricultural implements not shown in the table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 10 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A subject committee of the Zilla Parishad deals with it and the Agricultural Development Officer works as a Secretary to that committee. There are Agricultural Extension Officers at tahsil level working under the Block Development Officers. The latter work as Secretaries to the Tahsil Samitis. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

There is an Agricultural Research Station at Buldhana established in 1928. It is known as 'Government Farm, Buldhana' and has an area of 211·70 acres. Research is made here on cotton as principal crop and chillies, groundnut and sugarcane as subsidiary crops.

Agricultural Improvement

(*i*) *Increasing the area under irrigation.*—The most important single item of increasing the agricultural production is increasing the area under irrigation. During the first two Plan periods emphasis was more on minor irrigation schemes, like bandharas, wells and tanks. The minor irrigation schemes undertaken during the first two Plan periods were :—

(1) Gaykhedi Tank ; (2) Gangalgaon Bandhara; (3) Rahoda anicut ; (4) Ambasi Bandhara ; (5) Khairav Bandhara ; (6) Girola anicut, etc.

During the Second Plan a major irrigation project known as Nalganga project near village Sanglad in Malkapur tahsil was taken in hand. The project on completion is likely to create an additional irrigation potential of about 24,500 acres. A medium irrigation project called the Gerumatergaon project in Khamgaon tahsil is included in the Third Plan. It will irrigate about 14,000 acres.

Construction of new wells and repairs to the old ones is the quickest and cheapest way of increasing the irrigation potential. Between 1956-57 and 1959-60, 370 new wells were constructed and 390 old wells were renovated. In addition about 380 pumping sets run on oil-engines and electric power were installed during the two Plan periods. The Third Five-Year Plan envisages construction of 1,600 new wells and installation of 1,250 pumping sets involving an outlay of about 15 lakhs.

With these increasing facilities for irrigation the question of full utilisation of the created potential is likely to assume importance. Statistics of the available potential and the current utilisation are not, however, available for the district separately.

(*ii*) *Improved Seeds.*—Another item of improving food production is the recommendation of appropriate varieties or strains of crops suitable for the tract. The Agriculture Department has recommended the following improved varieties or strains of crops for the district:—

(1) Kharif Jowar	..	N. J. 156, N. J. 164.
(2) Wheat ..	..	Hy. 65-4.
(3) Groundnut	..	A. K. 12-24
(4) Cotton	..	A. K. 277 ; Buri L. 147, Buri-O 394.
(5) Gram ..	..	D.-28, Chafa.

Seed farms have been established at 9 places in the district to provide improved seed to farmers. The combined area of all the seed farms is 455·10 acres.

(*iii*) *Soil conservation or bunding.*—During the Second Plan period an area of about 26,000 acres has been bunded. In the Third Plan an area of 68,000 acres is to be covered. Out of which more than 40,000 acres have already been bunded by the end of September 1963.

Livestock

The number of livestock for the years 1951 1956 and 1961 have been shown separately for each tahsil and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is 7·9 lakhs. This makes 45 livestock per 100 acres of cultivated area. The corresponding figure for the State is 139.

The total bovine population in the district in 1961 is 74·63 per cent of the total livestock. The number of male bovines over 3 years is 2·12 lakhs. The area cultivated per pair of male bovines over 3 years is thus 16·52 acres as against 5·84 acres for Maharashtra. There are 2·01 lakh female bovines over 3 years. That makes 189 female bovines over 3 years per 1,000 population in the district as against the State average of 158.

During the first half of the decade 1951 to 1961 there was considerable increase in the number of livestock. However during the latter half (1956--61) there was some reduction in each type of livestock (except buffaloes) with the result that on the whole there has been an overall increase of only 22·71 per cent in the total livestock during the decade. Increase is observed in all types of livestock except horses and ponies. The number of cattle and buffaloes increased by 17·28 per cent and 10·85 per cent, respectively. During the same period, the increase in the number of sheep and goats is 16·17 per cent and 60·85 per cent. respectively. The number of horses and ponies reduced to nearly half. The number of poultry has multiplied nearly four times.

Veterinary Facilities

There are 13 full-fledged veterinary dispensaries located at the following places in the district:—(1) Buldhana, (2) Chikhli, (3) Mehkar, (4) Khamgaon, (5) Shegaon, (6) Jalgaon, (7) Dasarkhed, (8) Matla, (9) Lonar, (10) Sangrampur, (11) Nandura, (12) Deulgaon Raja, and (13) Malkapur.

In addition, there are veterinary aid centres located at 36 different places. Treatment of animal diseases, control of epidemics, castration of scrub bulls and control and destruction of animal parasites are the main services rendered in these dispensaries.

Majority of cattle found in the district are of non-descript type. Nemadi breed of cattle are being used for upgrading the local breed. The use of Deoni animals for this purpose is under consideration of the authorities. The buffaloes in the district are of Nagpuri type.

Breeding bulls are located for selective breeding at four key village centres, under the key village scheme. Natural services as well as Artificial Insemination method are practised at these centres. Cattle development work is also taken up through the Gorakshan Sanstha at Khamgaon.

Bulls have also been located at different places for breeding purposes under the district premium bull scheme.

AGRARIAN STRUCTURE AND LAND REFORMS

Land Tenures

As in the other districts of Maharashtra, the land tenure has been of the Ryotwari type at least since the introduction of the survey and settlement. Under this system each field is considered a separate holding which the ryot holds directly from the State, and the holder or occupant of the field is called the Khatedar. The right of occupancy depends on the regular payment of the assessment by the Khatedar and in case of failure to meet the demand he forfeits his right and the land reverts to the State.

There were 39 Jagir villages which had been granted by the Nizam as a reward of some services performed or on condition of rendering some services. All proprietary rights in estates, mahals, alienated villages or alienated land have been abolished under the Madhya Pradesh Abolition of Proprietary Rights (Estates, Mahals, Alienated Land) Act, 1950.

Size of Land Holdings

Census Table B-X in Part II of this Volume shows that 54·85 per cent of the total number of households cultivate land and the remaining 45·15 per cent do not cultivate any land.

Census Table B-XI in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 86·63 per cent of the cultivating households cultivate their owned lands only. 3·17 per cent of the households cultivate tenanted lands only and the remaining 10·20 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown below.

The distribution of households in Table B-XI and the same shown in percentages in column 2 below, is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of those ownership holdings is also shown in column 3 below :—

Area	1961 Cultivation holdings	1952-53 ownership holdings
Less than 1 acre	0·92	10·90
1 to 4·9 acres	27·82	38·41
5 to 9·9 acres	22·99	20·48
10 to 14·9 acres	14·41	9·91
15 to 29·9 acres	19·21	11·75
30 to 49·9 acres	8·91	4·62
50+ acres	5·74	3·93
Total ..	100·00	100·00

The average size of cultivation holding in the district in 1960-61 is 15·74 acres. Average size of the ownership holding in the district was 12·09 acres in 1952-53 against the average of 11·95 acres for the State.

H 4686 (Buldhana)—4 (626—4-66)

Record of Rights

A record of rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up-to-date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual revenue accounts are prepared on the basis of the Record of Rights.

Ownership Rights to Tenants

Tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands (Vidarbha Region) Act which is in force since 1958. It provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the " Land to the tiller " policy, the Act provided for compulsory transfer of ownership rights of tenanted lands to the protected tenants from 1st April 1961. This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st March 1963, ownership rights have been conferred upon 25,813 tenants for 299,302 acres of land in the district. Number of cases in which the revenue officers settled the price is 41. In 543 cases the prices of and are mutually settled by tenants and landlords.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act, 1961, came in force from 26th January 1962. Five local areas, *viz.*, Jalgaon, Khamgaon, Malkapur, Mehkar and Chikhli have been notified in the district with different ceiling areas for dry crop land, *viz.*, 78, 84, 96, 108 and 114 acres, respectively. In the case of irrigated lands, the ceiling area in all the 5 local areas is the same, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons and 48 acres in areas which get irrigation water for one season. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, were applied to the district and work of consolidation of holdings was started in 1960 in Malkapur tahsil. The scheme is to arrange mutual exchange of small and scattered fragments of holdings and to make the land holdings as compact as possible. Up to the end of March 1963, 23 villages have been completed covering an area of 28,771 acres with 6,706 holdings. This work has, however, been stopped since July 1962.

The standard areas specified as minimum necessary for profitable cultivation under the Prevention of Fragmentation and Consolidation of Holdings Act are as follows :—

(*i*) Dry crop land .. 2·00 acres.

(*ii*) Bagait land .. 0·50 acres.

All plots of land less in area than the standard area are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the Co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the Co-operative movement in the district. In addition, an Assistant Registrar works under the Zilla Parishad. He carries out the duties of registration, deciding appeals against non-admission of members, approval to bye-laws and administrative supervision in respect of co-operative societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of Co-operative movement in the district.

The co-operative movement lacked popular enthusiasm till the attainment of independence. Since the introduction of Five-Year Plans and with the emphasis on development of rural areas, concentrated efforts were made during the last decade which have resulted in a rapid progress in the co-operative movement in the district. All the villages in the district are now covered by rural co-operatives. Besides agricultural credit, the activities are now extended to processing of agricultural products, dairying, farming, marketing, etc.

The following description is based on the report for the year 1960-61.

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1957-58 and 1960-61 is as under :—

	1957-58	1960-61
(1) Number of Agricultural Credit Societies	517	566
(2) Number of members .. .	32,927	56,686
(3) Share capital ..(Rs. in lakhs)	9·35	28·49
(4) Reserve and other funds (Rs. in lakhs)	8 02	10·44
(5) Working capital ..(Rs. in lakhs)	78·26	178·83
(6) Number of members to whom loan was advanced		38,183
(7) Amount advanced (Rs in lakhs)	56·49	124·37
(8) Amount recovered .. (Rs. in lakhs)	38·68	103·80
(9) Loans outstanding ..(Rs. in lakhs)	67·28	140·80
(10) Overdues ..(Rs. in lakhs)	18·94	30·98

Average membership per primary society in the district is 100 against the average of 96 for Maharashtra. All the villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies in the district amounted in 1960-61 to Rs. 38·93 lakhs and formed 21·77 per cent of their working capital as against 26 per cent for Maharashtra.

The loan operations of all the Primary Agricultural Credit Societies in the district amounted to 124·37 lakhs in 1960-61. The average amount of loan per borrowing member worked out to Rs. 326 in the district as against Rs. 329 for Maharashtra.

During the period from 1958 to 1961, the number of Agricultural Credit Societies has increased by nearly 10 per cent and membership by 72 per cent. There is an addition of Rs. 19·14 lakhs in the share capital and the working capital increased from Rs. 78 lakhs in 1957-58 to Rs. 179 lakhs in 1960-61. There is also an increase of Rs. 67 88 lakhs in the amount advanced as loans by the societies in 1960-61 over the amount advanced in 1957-58. Although the pace of recoveries has improved slightly, the proportion of overdues to the outstanding loans in 1960-61 (22 per cent) is significantly high. This points out to the need of improving the recoveries. A major shift in the consideration for advancing loans has been made recently. Now the credit worthiness of the agriculturist members and the crops grown by them are given weight instead of the value of land possessed by them.

Besides the financial activities, good progress has also been made by Agricultural Credit Societies in the sphere of services to agriculturists such as distribution of agricultural requisites (like seeds, manure, etc.), marketing of agricultural produce, etc.

(*b*) *Central Co-operative Bank.*—During the year under report there were 4 separate Central Co-operative Banks operating in the district. These four Banks at (1) Buldhana, (2) Khamgaon, (3) Malkapur and (4) Mehkar were amalgamated into one Bank called "The Buldhana District Central Co-operative Bank Ltd." with headquarters at Buldhana, on 26th January 1962. The amalgamated Bank has been working as a federal financing agency catering for the credit requirements of all the primary credit societies in the district. Since 1962, the Zilla Parishad also transacts its financial business through that Bank.

In the year 1960-61, the position of these 4 Banks together was as follows :—

71	Number of members—		
	(*a*) Individuals	.. ..	4,337
	(*b*) Societies	.. ..	623
(2)	Paid-up share capital	.. (Rs. in lakhs)	25 93
(3)	Reserve and other funds	.. (Rs. in lakhs)	10 43
4)	Deposits —		
	(*a*) Individuals	. (Rs in lakhs)	41·74
	(*b*) Societies and Banks	. (Rs. in lakhs)	18 70
(5)	Borrowings—		
	(*a*) State Co-operative Bank and the Reserve Bank of India ..	. (Rs. in lakhs)	107·32
	(*b*) Government ..	.. (Rs. in lakhs)	0·30
	(*c*) Other sources ..	.. (Rs. in lakhs)	1·73
(6)	Working Capital ..	.. (Rs. in lakhs)	206·15
(7)	Cash—		
	(*a*) On hand ..	.. (Rs. in lakhs)	5·11
	(*b*) At Banks ..	. (Rs. in lakhs)	28·74
(8)	Investment—		
	Government and other Trustee Securities	(Rs. in lakhs)	2·26
(9)	Percentage of cash in hand to deposits ..		8 45
(10)	Percentage of investment to deposits ..		3·74
(11)	Loans outstanding—		
	(*a*) Individuals ..	.. (Rs. in lakhs)	3·50
	(*b*) Societies ..	.. (Rs. in lakhs)	143·96
(12)	Percentage of loans outstanding to deposits		243·99
(13)	Percentage of loans outstanding to working capital .. .		71·52
(14)	Overdues .	.. (Rs in lakhs)	28·77
(15)	Percentage of overdues to loans outstanding		19·51
(16)	Cost of management ..	.. (Rs in lakhs)	3·31
(17)	Percentage of cost of management to working capital		1·61
(18)	Profit	.. (Rs. in lakhs)	0·67
(19)	No. of branches and pay offices in the district		17

During the year 1960-61, the society membership of the banks increased by 18 societies and the individual membership increased by 22·58 per cent. On the whole there has been small increase in the total membership of the banks. The share capital of the banks has, however, increased by 85 48 per cent and there is an addition of Rs. 13·32 lakhs in the owned funds. There is also an increase of Rs. 44·11 lakhs in the working capital. The banks advanced loans of Rs. 204·39 lakhs as against Rs.123·16 lakhs in the previous year. There has been an improvement in the recoveries also and the proportion of overdues to outstanding loans has decreased from 41·75 per cent to 19·51 per cent. The banks made a profit of Rs. 67 thousands during the year. All these statistics speak about the progress made by the banks during the year. Three new branches and pay offices were opened during the year under report.

(*c*) *Land Mortgage Banks.*—Two Primary Land Mortgage Banks were established in the district one at Mehkar and the other at Khamgaon in the year 1933 and 1937 respectively, with a view to providing long term finance to the cultivators. The membership of the banks is 4,058, paid-up share capital Rs. 59 thousands and working capital Rs. 14·19 lakhs. Loans amounting to Rs. 4·69 lakhs were advanced during the year and the total outstanding loans at the end of year amounted to Rs. 12·27 lakhs.

(*d*) *Urban Banks and Credit Societies.*—There are 28 societies of this type in the district. Twenty-seven of them are salary earners' societies and one other thrift and credit society. Their combined membership is 1,812, paid-up share capital Rs. 47 thousands and working capital Rs. 3·11 lakhs. Only the credit societies of salary earners are working in the district. These societies advance loans to members for domestic purpose.

Agricultural Processing Societies

There are 4 Cotton Ginning and Pressing Societies in the district. The societies have 467 members, Rs. 3·14 lakhs as share capital and Rs. 3·16 lakhs as working capital. They are, however, yet to start their operations.

Industrial Societies

There are 7 weavers' societies and 40 other industrial societies in the district. Of the 7 weavers' societies, 6 are handloom weavers' societies and 1 wool weavers' society. Their combined membership is 470, share capital Rs. 35 thousands and working capital Rs. 2·38 lakhs. The value of goods produced by the societies during the year amounted to Rs. 1·57 lakhs.

The other types of industrial societies include 5 Oil Ghanis, 2 Cane and Bamboo workers, 15 Leather working, 6 Carpentry and Smithy, 1 Metal working, 4 Pottery and Brick-making, 7 miscellaneous etc. Their combined membership is 705, share capital Rs. 50 thousands and working capital Rs. 1·27 lakhs. The value of production of these societies is Rs. 1·10 lakhs and sales value Rs. 91 thousands.

Forest Labourers' Societies and Labour Contract Societies

There are 2 Forest Labourers' Societies and 1 Labour Contract Society in the district. The combined membership of Forest Labourers' Societies is 181, share capital Rs. 5,825 and working capital Rs. 6 thousands. The societies received Rs. 3 thousands as subsidy from the Government. The Labour Contract Society has 22 members, share capital over Rs. 900 and working capital nearly Rs. 915. The society has been recently organised and yet to get work contracts.

Co-operative Farming Societies

There are 45 Collective Farming and 4 Joint Farming Co-operative Societies in the district. The Collective Farming Societies have 594 members, Rs. 27 thousands as share capital and working capital of Rs. 79 thousands. The societies cultivated 538 acres out of 5,692 acres under their command.

The combined membership of 4 Joint Farming Societies is 54, share capital of Rs. 11 thousands and working capital of Rs. 32 thousands. The societies have 690 acres under their command of which 531 acres were cultivated.

Co-operative Lift Irrigation Societies

One Co-operative Lift Irrigation Society has been registered. The membership of the society is 70, share capital Rs. 26 thousands and working capital Rs. 57 thousands. The area under the command of this society is 423 acres. The society has a scheme of lift irrigation on the Khadak Purna river. But its work has not started as yet.

Dairy Societies

There are 9 Milk Supply Societies in the district. Their combined membership is 131 individuals, paid-up capital Rs. 11 thousands and working capital Rs. 14 thousands. The societies are of recent origin and are yet to start work.

Purchase and Sales Societies

There are 7 Tahsil Purchase and Sales Societies in the district. The Tahsil Purchase and Sales Societies together have 367 society members, 3,857 individual members and Rs. 2·18 lakhs as share capital. The Government has contributed Rs. 94 thousands in the share capital of the societies. The value of purchase and sales by the societies amounted to Rs. 96·82 lakhs and Rs. 94·19 lakhs, respectively. The working of the societies received impetus only during the end of the decade and they have now undertaken activities such as sale of agricultural produce of the members on commission basis, advances of loan on pledge of produce, etc. With the introduction of scheme of linking credit with marketing, the societies get marketing finance from the central financing agencies. With a view of giving fair returns to their agriculturist members the societies have undertaken pooling of cotton of their members and they are successfully handling it.

Consumers' Movement

There are 19 Primary Consumers' Stores. The combined membership of all the societies is 2,533, share capital Rs. 28 thousands and working capital Rs. 60 thousands. During the year 1960-61 the value of sales of these societies amounted to Rs. 2·68 lakhs. 14 of these societies made a profit of Rs. 16 thousands, 4 suffered loss of Rs. 3 thousands and the remaining neither showed profit nor loss.

These consumers' societies are doing the business of trading in foodgrains and other essential commodities at a very moderate rate. The distribution of controlled commodities like sugar is also their important activity.

Housing Societies

There are 15 Co-operative Housing Societies in the district of which 2 are for persons belonging to Backward Classes. Their total membership is 526, share capital Rs. 1·02 lakhs and working capital Rs. 4·31 lakhs. 17 independent houses valued at Rs. 1·45 lakhs have been constructed by the members of the societies. The societies could not make much progress because of difficulties in securing land, building materials, etc.

Co-operative Activity for Backward Classes

Seven Farming Societies, 2 Housing Societies and 3 Credit Societies have been organised for Backward Class persons.

The Farming Societies have membership of 101 individuals, share capital of Rs. 6,000 and working capital of Rs. 26,000.

The Housing Societies have membership of 70 individuals, share capital of Rs. 4,000 and working capital Rs. 30,000. The movement in housing is of recent origin and no tenements were constructed till 1961. The Credit Societies have membership of 317 individuals, share capital of Rs. 5,000 and working capital of Rs. 46,000. The societies advanced loans of Rs. 21,000 to their members.

Audit Classification

The audit classification of different types of societies in the district on 30th June 1961 is as follows :—

	Number of Societies classified as				Number of Societies not classified	Number of Societies not audited	Total
	A	B	C	D			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
(1) Central Co-operative Banks ..	2	2	....	....	....	....	4
(2) Agricultural Credit Societies ..	10	253	242	12	2	47	566

FORESTS

The district has an area of 619·04 square miles under forests of which 470·97 square miles are in charge of the Forest Department and the remaining 148·07 square miles are in charge of the Revenue Department. The forest area makes 16·41 per cent of the total geographical area as against the average of 17·56 per cent for Maharashtra.

Of the forests in charge of Forest Department, 431·43 square miles are Reserved forests. The remaining area is Protected forest and represents the ex-proprietary forests vested in the State in 1951. The forests are administered by the Divisional Forest Officer, West Berar Division, with headquarters at Akola. The Division works under the Conservator of Forests, Amravati Circle, Amravati. The forests in charge of Revenue Department are looked after by the District Collector.

The forests are mainly situated on the Balaghat plateau of the Ajanta hills and in the Purna Valley. The forests belong to the "Southern Tropical Dry Deciduous" type and can be further classified as follows :—

(1) Superior Teak forests ; (2) Inferior Teak forests ; (3) Anjan forests ; (4) Babul forests ; (5) Mixed forests ; (6) Salai forests ; (7) Grass land and brushwood areas.

Teak is the main species found all over. Anjan is found in pure patches and Babul is confined mainly to the river banks along the black cotton soil. The forest produce is exploited through the agencies to whom contract is given and also through the Forest Labourers' Co-operative Societies. These societies are given certain privileges by the Department. Forest produce worth about Rs. 5 lakhs is exploited annually.

Forest produce is transported to Buldhana, Khamgaon, Chikhli and Malkapur towns in trucks where it is locally consumed. Some cut sizes are also transported to Bombay, Poona and Nagpur. Important centres for collecting forest produce are Khamgaon, Malkapur, Chikhli and Buldhana. According to the 1961 Census, 569 persons are engaged in forestry and logging as principal work. Their distribution for industry minor groups is shown in Table B-IV-C in Part II.

Exploitation of forests is regulated by scientifically prepared working plans which are different for different forests. The superior Teak forests are worked under improvement fellings. The inferior Teak forests are managed under the coppice with Reserves system. The Anjan forests are worked under the Selection-*cum*-Improvement system. The Babul forests are worked under Agri-Silvi system. The Salai forests along with the unworkable portions and Anjan and few workable patches and mixed types are managed in the interest of grazing. The Bamboo forests are worked under Bamboo overlapping working circle.

A number of schemes have been included in the Five-Year Plans for the development of forests. The following important schemes are included in the Third Five-Year Plan :—

(1) Plantation of Teak, Semal and Eucalyptus trees ;

(2) Afforestation and Development of pastures. 75 acres of forest land will be afforested with an outlay of Rs. 37,000. In addition, village panchayats are to be assisted for development and afforestation of pastures involving expenditure of Rs. 20,000 ;

(3) Development of minor forest produce.

FISHERIES

Fishing activities in the district are naturally restricted to inland waters only, rivers, tanks and ponds being the chief sources. The total length of perennial rivers in the district is about 220 km. There are also 7 perennial tanks and 40 seasonal tanks and ponds which provide 1,629 acres of water spread area. In addition, the Nalganga reservoir constructed recently has provided 2,714 additional acres of watersheet. The total water spread area is rather inadequate for development of fishing industry.

The commercially important varieties of fish found in the district are :—

Murrel, Dhadkya, Botri, Padhan, Tambu. Karvadi, Poshti, Dhoara, Gane or Kanheri, Chela, Katva, Seenghan, Chandni, Mahaseer, Kolus, Magur and Zinga.

These varieties are, however, not of the fast growing type. As such, under Five-Year Plan Schemes, quick growing "Bengal Carps" are stocked annually in the perennial water tanks for propagation of pisciculture. The varieties stocked are Catla Catla, Rohu and Mrigal. In the municipal tanks at Buldhana and Khamgaon, about 1·60 lakhs of Fry was stocked during the Second Five-Year Plan period. During only the first 2 years of the Third Plan period the quantity stocked amounted to 1·61 lakhs.

According to the 1961 Census, 209 persons are engaged in fishing as principal work. 193 of them are males and 16 females. Fishermen in the district belong to the communities known as Dheemer, Bhoi and Kahar. Since fishing industry has a limited scope, some fishermen take jobs in workshops and few others in seasonal agriculture. Fishing is generally done with the help of Gill nets known as 'Udan' or 'Tangar', Cast nets called 'Bhawan' Jal, Drag nets or Odhe Jal and Longlines (Dawan). The nets are mostly made of cotton twine but these days nylon is also effectively used. Under the fishery requisites scheme financial assistance in the form of subsidy is given for purchase of nylon and cotton twine.

Two co-operative societies of fishermen have been organised in the district. One of them is at Buldhana and the other at Khamgaon. The co-operative societies are given financial assistance in the form of loans and subsidy. They are also helped to secure tanks and ponds for purposes of pisciculture.

MINING AND QUARRYING

Large part of the district is covered with Deccan trap containing a material generally used in building industry. Deposits of any other mineral have not been reported so far anywhere in the district. The mining activities in the district are, therefore restricted only to quarrying of stone, murrum, sand, gravel, etc.

In the 1961 Census 160 persons are reported to be engaged in mining activities as principal work. Out of these 129 are males and 31 are females.

INDUSTRIES

Very few industries have come up during the last two decades. Cotton and groundnut are main crops, and the large-scale industries existing in the district, are mostly confined to cotton ginning and pressing and a few oil mills. There are 44 large-scale factories, 36 of which are of cotton ginning and pressing. The non-agricultural employment leans heavily towards village and cottage industries, i.e., the hereditary artisans working on traditional lines in the village crafts with locally available raw materials and for local demand.

There are in all 25,026 workers engaged in manufacturing industries, 15,433 or 61·67 per cent of them are in household industries and 9,593 or 38·33 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 5,165 which makes 20·64 per cent of all workers engaged in industries or only 5 factory workers per thousand of total population against 20 per thousand of total population of Maharashtra.

The distribution of workers engaged in each industry major and minor group is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from the houselists are also shown separately for each village in the Village Industries Table presented at the end of Part II.

Large-scale Factories

There are 42 large-scale registered factories in the district using power and employing 50 or more workers.

There are 36 large-scale cotton ginning and pressing factories, employing over 5,400 workers and located at Khamgaon, Malkapur, Chikhli, Nandura, Shegaon, Mehkar and Deulgaon Raja.

Side by side with ginning and pressing units, oil-milling provides work almost all the year round. There are four independent oil mills working as large-scale units, at Khamgaon.

The only oil hydrogenation plant located at Shegaon, has been closed recently.

A Silk Mill, located at Pimprala, manufactures silk cloth and employs about 186 workers.

Bone crushing is done by the Madhya Pradesh Bone Fertilizer Factory at Malkapur.

At Khamgaon there is a printing press employing about 75 workers and working on large scale.

A new industry has been licensed at Khamgaon to manufacture cotton seed oil, oil-cakes, hulls, linters and acid oil and is expected to go into production shortly.

Small-scale Registered Factories

There are a number of small-scale establishments pertaining to cotton ginning and pressing, oil mills, oil-cakes, foundry, printing presses, iron and steel structurals, etc. All these establishments employ nearly 1,000 workers in the district.

The number of registered factories has decreased from 86 in 1956 to 55 in 1961. The number of workers in the registered factories has also decreased from 6,499 in 1956 to 5,165 in 1961. This reduction in both the number of factories and employees is mainly due to closure of some of the seasonal units pertaining to ginning and pressing and oil-milling.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 38·2 lakhs and working capital of Rs. 14·6 lakhs. The total value of annual production was Rs. 124·6 lakhs and the value added by manufacturing was Rs. 34·9 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufacture in the district in 1959 was, however, only 0·17 per cent of the total for Maharashtra.

Small-scale and Cottage Industries

In the cottage and small-scale industries sector, handloom, leather working, oil extraction, cane and bamboo works, blacksmithy, brick-making and pottery, dyeing and printing, carpentry, tailoring, etc., are the important industries in the district. Some of these manufacturing industries are traditional crafts conducted on household and cottage industries scale. The other industries are saw milling, washing soap, disinfectants, chemicals, insecticides, pins, etc.

3,428 workers are engaged in the manufacture of textile garments. These include the tailors engaged in making garments for men and women.

2,624 persons are engaged in the production and rearing of livestock. According to the 1961 Livestock Census population, there is 7·88 lakhs of livestock in this district, mostly comprising 2·12 lakhs male bovines, 2·01 lakhs female bovines (both over 3 years) and goats 1·55 lakhs. The remaining 2·20 lakhs include young stock of cattle and buffaloes, sheep, horses and ponies etc.

2,049 workers are engaged in cotton ginning, cleaning, pressing and bailing. This is obvious, as the cotton is the major crop in the district and there are a number of cotton ginning and pressing units.

2,002 workers are engaged in the manufacture of wooden furniture and fixtures. Carpentry is one of the major small-scale and cottage industry in the district and there are 6 co-operative societies of carpenters in the district.

1,855 persons are working in the manufacture of shoes and other leather footwear.

There are 674 flour or rice mills engaging 1,051 workers. At the end of May 1961, there were 1,441 cotton and 5 non-cotton registered handlooms in the district.

3,415 workers are having their occupation as tailors, dress makers and garment makers. 3,247 persons are engaged as carpenters, joiners and pattern makers (wood). They include the carpenters who manufacture, fix or repair doors and door-frames, wooden roof beams, furniture and agricultural implements.

2,044 workers have their occupation as shoe-makers and repairers.

1,461 persons are basketry weavers and related workers while 1,412 are working as potters. These potters are generally the village potters, most of whom still work on the traditional *baluta* system under which they get a fixed quantity of foodgrains at the harvest time for supply of earthenwares during the year.

Gur is manufactured at Sengaon Jahagir in Chikhli tahsil by a multipurpose co-operative society. There are also milk supplying co-operative societies at Buldhana and Khamgaon. The centres of cotton ginning and pressing are at Jalgaon in Jalgaon tahsil; Malkapur and Nandura in Malkapur tahsil ; Shegaon and Khamgaon in Khamgaon tahsil ; Chikhli and Deulgaon Raja in Chikhli tahsil ; Lonar and Mehkar in Mehkar tahsil. Woollen blankets are manufactured at Khamgaon in Khamgaon tahsil and Sarangpur, Sultanpur and Sindkhed Raja in Mehkar tahsil. The important centres of handloom industry are Nandura and Deulgaon Raja. Saris, Khans, Pagris (turbans), Dhoties, Dupattas are manufactured on these handlooms. These are made of cotton with silk borders. Newar (tape) and Tadhao (stout carpet) are manufactured at Jalgaon and Jhul (body cloth of bullocks) and Jajam (floor cloth) at Nandura. " Tad pattis " are made at Dongar Sheoli and Mhasla in Chikhli tahsil and also at Digras in Mehkar tahsil. Gunny cloth is also made in Chikhli tahsil. Dyeing is carried at Nandura, Deulgaon Raja, Pimpalgaon Raja, Paturda, Wankhed and Wadgaon. Locks, keys, scales, compasses, nutcrackers, pen-knives, scissors, etc. are made at Buldhana. Some cutlery is also made at Deulghat while Chikhli is famous for its small razors. Glass bangles are manufactured at Dhad in Chikhli tahsil and Warna in Khamgaon tahsil. Nandura is famous for its red and black vessels. Special kind of white shoes are manufactured at Mehkar. Tooth powder, stamping ink, menthol, furniture polish and candles are manufactured at Mehkar. Lanterns and cash boxes are made at Khamgaon. Fireworks and blasting powder are made at Malkapur.

The proportions of different groups of artisans to one lakh of total population in the district are as follows :—

Blacksmiths 126 ; Carpenters 306 ; Shoe-makers and repairers 193 ; Potters 133 ; Tailors and Dressmakers 322, Spinners and Weavers 101; Basket-weavers 138.

The Industries Department has organised peripatetic demonstration parties for imparting training to the craftsmen at their door-steps in the use of improved processes and labour saving contrivances. Six weavers' co-operative societies have also been established for handloom industries. Industrial co-operative societies have also been formed for (1) Leather working; (2) Oil-milling ; (3) Bamboo and cane work ; (4) Pottery, brick-making ; (5) Blacksmithy ; (6) Dyeing and Printing. Training classes are also conducted at the various Development Blocks in the district. Development of village industries like Khadi, Palm gur, Leather tanning, Hand pounding of rice, Handmade paper, Bee-keeping, etc., is also undertaken.

The " Master Plan " prepared by the Industries Department in 1960 had indicated scope for establishment of cotton seed oil, solvent extraction, refining, fat splitting, and distillation of fatty acids industries in the district.

Industrial Estates

There are proposals to set up new Industrial Estates at Shegaon and Khamgaon initially on co-operative lines in the district.

POWER

The number of electrified towns and villages in the district is 36. Their tahsilwise lists are given in Table 31 in Part III. The total population of these electrified places is 22·14 per cent of the total population of the district.

The district consumption of electricity on different items for six years is shown in Table 30 in Part III.

The *per capita* consumption is naturally much lower than the State average as only 36 towns and villages in this district had been electrified.

Supply of electricity at important places, *viz.*, Khamgaon and Malkapur was initially taken up by private companies and electricity was generated through diesel oil engines. Khamgaon town was electrified in 1932 and Malkapur in 1939. However, after the establishment of the Khaparkheda Thermal Power Station near Nagpur in 1951, Khamgaon was connected to the grid in 1952 by the private concern only. A private electric supply company started supplying power to Buldhana and other places in Chikhli and Mehkar tahsils in 1955 through its diesel generating stations. After the reorganisation of States in 1956, the Maharashtra State Electricity Board took over the supply of electricity in the district and 20 places from Khamgaon, Malkapur and Jalgaon tahsils were covered under the Khaparkheda Electric Supply Scheme up to 1961. The Board also started diesel generating stations at Deulgaon Raja and Mehkar in 1957. From April 1961 the power supply to all the centres in Chikhli and Mehkar tahsils is from Paras Thermal Station near Akola.

All the municipal towns in the district have been provided with electricity. Apart from lighting, power is utilised for small industries, cinema houses and other commercial purposes.

TRADE AND COMMERCE

Cotton is grown extensively and is, therefore, the chief article of export from the district. Apart from cotton, cotton-seed, oil-seeds like linseed, groundnut, sesamum, chillies, jowar, hides and skins, bones, etc. are the other principal articles of export. Cotton is mainly exported to Bombay while the other commodities are sent mostly to nearby districts. The principal imports are cloth, piece-goods, gur, sugar, metals, provisions, rice, kerosene oil, timber, salt, tobacco, betel-nuts, etc. Most of these articles are brought from Bombay. Agriculturists generally bring their produce for sale to the markets. However, in some cases, the commodities are collected from villages through commission agents or the agents themselves go to the villages and purchase the produce from the producers. The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week.

Shops

Every village has one or more shops except the smallest. These shops provide the inhabitants with their day to day requirements. They deal in all kinds of grains, salt, groceries, oils, gur, spices, coconuts, soap, tea, tobacco, chillies and innumerable articles required by people for their daily use. There are in all 6,357 shops in the district. 4,083 are in rural and 2,274 in urban areas. This does not include the shops temporarily set up at the weekly markets or fairs. The number of shops per 1,000 dwellings is 30·5 for the district as a whole, 21·9 for rural areas and 65·3 for urban areas. It will be seen that the shops per 1,000 dwellings in urban areas are three times more than in rural areas. The ratio between shops and 1,000 dwellings for the district is less than the State average of 36·4. Tahsilwise number of shops may be seen in Table E-I in Part II.

Weekly Markets

The weekly markets, popularly known as " bazars ", are generally distributing rather than collecting centres. All sorts of articles like foodgrains, pulses, oils, chillies, spices, gur, cloth, fruits, vegetables, etc., are brought for sale in these markets. Pedlars and hawkers set up booths on the market days. Agriculturists from nearby villages also bring their farm produce. The traders and shop-keepers belonging to the market place also set up temporary stalls. Buyers come from nearby villages within 4—5 miles. The market is thronged by the people from the villages around at an early hour and after a slack hour or two in the heat of the day, it again fills towards the evening and closes by six to enable both the buyers and sellers to reach home before it is dark.

Column (7) of the Village Directory in Part I shows for each village in the district if a weekly market is held and if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 200 shows the locations of all these markets and also the days on which they are held.

The District Gazetteer had reported 97 weekly markets in the district in 1910. Their number in 1960-61 has increased to 104, out of which 13 are also cattle markets. 14 weekly markets are held on Sunday, 12 on Monday, 12 on Tuesday, 24 on Wednesday, 14 on Thursday, 14 on Friday and 14 on Saturday.

The map facing page 200 shows that four or five weekly markets cluster as satellites around a central village. Each has its bazar on one of the week days keeping the pedlars and hawkers engaged throughout the week and also providing a choice to buyers to go to one nearby market or the other. Jalgaon tahsil in the north has comparatively more weekly markets.

Fairs

So far as trade is concerned fairs are complementary to weekly markets. They are attended by unusually large number of persons. Considerable quantities of agricultural produce and other articles of daily use as well as luxury goods including toys etc. are brought for sale. In addition to the usual booths and stalls, these fairs also contain recreation stalls. Such fairs are mostly distributing centres. A list of fairs held in the district, showing their locations, duration and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 201 shows the location of all the fairs in the district having 1,000 or more gatherings.

A volume giving details regarding fairs and festivals in Maharashtra is also issued separately.

Trade Centres

Apart from the weekly markets and fairs, there are eight wholesale trade centres in the district, as far as collection and export of agricultural produce are concerned. They are : (1) Mehkar, (2) Nandura, (3) Malkapur, (4) Chikhli, (5) Shegaon, (6) Jalgaon, (7) Deulgaon Raja, and (8) Khamgaon. All these markets are regulated under the Central Provinces and Berar Agricultural Produce Markets Act of 1935 and the Central Provinces and Berar Cotton Markets Act of 1932. The commodities regulated at these centres are cotton and other agricultural produce. The cotton market at Khamgaon ranks second in Maharashtra. The figures of value of annual turnover at these market centres for the year 1958-59 are given below:—

Market Centre	Value of annual turnover Rs.
(1) Mehkar	1,54,609
(2) Nandura	86,156
(3) Malkapur	10,40,512
(4) Chikhli	4,54,779
(5) Shegaon	6,60,897
(6) Jalgaon	3,25,628
(7) Deulgaon Raja	2,56,561
(8) Khamgaon	15,59,441
Total ..	45,38,583

In order to prevent distress sale of agricultural produce, 9 godowns have been constructed in the district. These storage facilities are further supplemented by the large size godowns at Khamgaon and Malkapur belonging to the State Warehousing Corporation.

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district in 1961 is 15,620 out of which 6,210 or 39·76 per cent are in rural areas and 9,410 or 60·24 per cent are in urban areas. The number of workers in trade and commerce makes 2·87 per cent of all the workers in the district.

Only 6·24 per cent of the workers in trade and commerce are engaged in wholesale trade, 89·85 per cent in retail trade and 3·91 per cent in miscellaneous trade and commerce. More than 91 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 344. Mostly the wholesale trade of cereals and pulses appears to be combined with the wholesale trade of gur, sugar, spices, groundnut, oil, etc., since the number for this group is 63 for the district.

A detailed break-up of the workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by tahsils and type is shown below:—

	Number of Banking Offices		
	Scheduled	Co-operative	Total
DISTRICT TOTAL ..	10	16	26
Jalgaon Tahsil ..	..	1	1
Malkapur Tahsil ..	2	4	6
Khamgaon Tahsil ..	5	3	8
Chikhli Tahsil ..	2	6	8
Mehkar Tahsil ..	1	2	3

Buldhana, the district headquarters, is located in Chikhli tahsil. Khamgaon is an important commercial centre. These two tahsils are, therefore, leading in banking offices. All the tahsils have at least one branch of the Central Co-operative Bank. There are no non-scheduled banks in this district.

The State Bank of India works for the treasury in the district and has branches at Malkapur, Khamgaon, Buldhana, Chikhli and Mehkar and pay offices at Nandura and Shegaon.

COMMUNICATIONS AND TRANSPORT

The Bombay-Nagpur broad gauge main line of the Central Railway traverses the district in west to east direction for 44·56 miles. From Jalamb station on this line a special broad gauge section runs to Khamgaon for 8·08 miles.

The total railway mileage in the district is 52·65 miles, i.e., 1·40 miles per 100 square miles of area against 2·66 miles per 100 square miles in the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The district map facing the title page and the tahsil maps in Part I show all these roads.

The district is well connected by roads with the adjoining districts of Jalgaon, Aurangabad, Parbhani and Akola. The district headquarters is also well connected by roads with all the tahsil headquarters. The Satpuda range stretches to the north in Jalgaon tahsil, the Ajantas towards the south in Chikhli and Mehkar tahsils. Many important places in the district are situated on the plateaus. Roads are, therefore, fewer in almost all parts of the district. The Surat-Jalgaon-Malkapur-Khamgaon-Nagpur National Highway passes through the district for 66·54 miles.

During the period 1951—61, the National Highways increased by only 0·04 miles. The State Highways, however, increased by 131 29 miles. The Major District Roads increased by 72·65 miles and Village Roads by 29 miles. The other District Roads, however, decreased by 19·32 miles. This decrease may be attributed to the transfer of these types of roads into some other category because of re-classification. The total increase in all types of roads (excluding municipal roads) is, thus, 213·66 miles.

Under the Nagpur Plan, the district should have 1,656 miles of roads. It was short of this target by 1,076·81 miles on 31st March 1961.

New Roads

On 31st March 1962, improvement of the Chikhli-Jalna road was in progress while Lonar-Mantha Road was under construction.

New Bridges

On 31st March 1962, construction of two submersible bridges at miles 6/2 and 8/2 on Penganga river and its tributary on Buldhana-Palaskhed Road was in progress.

Posts, Telegraphs and Telephones

The district is included in the West Berar Division having headquarters at Akola. Head Post Office is situated at Buldhana and sub-offices at tahsil headquarters and towns. The bigger villages have branch post offices. During the year 1961-62, there were 10 sub-post offices and 197 branch post offices in the district. Together, their number has increased by about 92 per cent over that of 1951-52.

There are Telegraph Offices at the following seven places :—

(1) Chikhli, (2) Deulgaon Raja, (3) Mehkar (4) Malkapur, (5) Nandura, (6) Jalgaon, (7) Buldhana,

The following eight places have Telephone connections :—

(1) Buldhana, (2) Chikhli, (3) Malkapur, (4) Nandura, (5) Jalgaon, (6) Mehkar, (7) Lonar, (8) Phonophore system to Sindkhed Raja.

Passenger Road Transport

Passenger road transport in the district has only been partially nationalised. Buses of individual private operators run on various routes in the district. From 1st April 1961 the Maharashtra State Road Transport Corporation has also introduced buses on a few selected routes. The district is included in the jurisdiction of State Road Transport Corporation Division at Akola. There is only one depot at Khamgaon. No separate figures of passenger transport are available for the district, as the division also includes parts of Akola district. The Khamgaon depot runs buses on 8 routes which make 46 single trips per day.

Nationalisation of passenger road transport in the district has been started from March 1963 and is expected to expand under a phased programme. The Third Five-Year Plan schemes include expansion of the services to new places on public demand, construction of permanent bus stations and pick-up stands and provision of other facilities for the travelling public.

Goods Transport

The goods transport is totally managed by private transport agencies. Separate figures for lorries operated in the district are not available as the Regional Transport Officer working at Nagpur keeps combined records for Nagpur, Wardha, Buldhana, Akola, Yeotmal, Amravati, Bhandara and Chanda districts.

Workers in Transport and Communications

3,400 persons are engaged in transport and 522 in postal, telegraphic and telephone communications in the district. Out of the workers engaged in transport, 781 are in Railway transport, 1,128 in Motor transport and 1,491 in other kinds of transport like bullock carts, horses on hire, coolies, etc.

Communications in Rural Areas

The Village Directory in Part I gives information for each village in the district whether it is served by a railway or a road or has a post office or not.

CONSTRUCTION

The total number of persons engaged in construction is 4,863; 3,805 are males and 1,058 are females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

Out of 4,863 workers in construction 30·52 per cent are engaged in construction and maintenance of dams, waterways and canals, etc.; 20·42 per cent in construction and maintenance of roads, bridges, etc., and 49·06 per cent in construction and maintenance of buildings, etc. The large proportion of workers engaged in the construction of buildings, etc., include those working on private houses as well as those engaged in the construction of buildings for residential quarters for Government employees, schools, hospitals, police quarters, godowns, low-income group housing scheme, etc. The proportion for the construction of dams, waterways, etc., is also comparatively high due to the inclusion of the workers engaged in the construction of Nalganga Project, the tank at Gaikhedi and the dams at Rohoda Tapowan, Gangalgaon and Hingne Karegaon.

All the workers engaged in construction together make only 0 89 per cent of the total workers in the district.

OTHER SERVICES

29,846 persons are engaged in the district in "Other Services"; 25,935 are males and 3,911 are females. The major categories out of them are : (*i*) Public services, (*ii*) Educational services, (*iii*) Personal services. "Public Services" include administrative employees of Central, State and Local Governments. "Educational Services" include all classes of teachers and "Personal Services" include domestic servants as well as barbers, washermen and others rendering services to persons or households. The distribution of workers in other services by minor groups is shown in Table B-IV-C in Part II.

5·49 per cent of the total workers in the district are engaged in "Other Services" as against the average of 8·53 per cent in the State. 24 53 per cent of the total workers in "Other Services" in the district are engaged in "Public Services" and 17 93 per cent in "Educational Services". Both these proportions are higher than the corresponding proportions (23·86 per cent and 12 40 per cent) for Maharashtra. The proportion (21·24 per cent) of "Personal Services" in the district is lower than the State average of 27·15 per cent.

The number of domestic servants is 1,522 or one for 696 population. The number of barbers is 1,834. The number of persons in laundry services including washermen is 774.

There are 225 legal practitioners and 1,181 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is 210 and that in other schools and colleges is 5,140.

The number of State Government employees including those now working under the Zilla Parishad is 5,422.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects of the economy as a whole are discussed here.

Labour Participation Rate

The proportions of workers to total population, males and females for the district and each tahsil are as follows :—

	Percentage of workers to total population		
	Total	Males	Females
MAHARASHTRA ..	47·91	57·09	38·10
BULDHANA DISTRICT ..	51·30	57·64	44·68
1 Jalgaon Tahsil ..	50·27	59·27	40·99
2 Malkapur Tahsil ..	49·14	56·29	41·67
3 Khamgaon Tahsil ..	47·48	57·07	37·38
4 Chikhli Tahsil ..	53·16	57·21	48·94
5 Mehkar Tahsil ..	55·38	59·24	51·39

Labour participation rates in the district are higher than those for Maharashtra for total and both for males and females. Within the district participation rate varies from 55·38 per cent in Mehkar tahsil to 47·48 per cent in Khamgaon tahsil. Male participation is highest with 59·27 per cent in Jalgaon tahsil and the female participation is highest with 51·39 per cent in Mehkar tahsil. Participation rates are higher than those for State for males in all tahsils of the district except Malkapur and Khamgaon tahsils. Similarly the participation rates are higher than those for State for females in all tahsils except Khamgaon tahsil. High participation rates in all the tahsils are mostly due to the extreme dependence on agriculture and general backward economy.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract in Part II shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows :—

		Total workers	Primary	Secondary	Tertiary
MAHARASHTRA	Total	100·00	72·25	12·34	15·41
	Rural	100·00	88·73	5·68	5·59
	Urban	100·00	11·97	36·69	51·34
BULDHANA DISTRICT	Total	100·00	85·68	5·23	9·09
	Rural	100·00	92·20	3·63	4·17
	Urban	100·00	37·13	17·13	45·74

The primary sector is predominant in the district with 85·68 per cent of the workers engaged against the State average of 72·25 per cent. Both in rural and urban areas of the district the proportions of workers engaged in the primary sector are much higher than the respective State averages. The proportions of workers engaged in the secondary and tertiary sectors is much lower than the corresponding State averages. The proportions of workers engaged in the secondary and tertiary sectors in rural areas are much lower than the State rural average. Even in urban areas of the district both the secondary and tertiary sectors engage much lower proportion of workers than the State urban averages. On account of high concentration of workers in the primary pursuits including cultivation, primary sector absorbs significantly higher proportion of workers.

Categories of Economic Activity

The distribution of workers, males and females, by nine categories of economic activities for the district and the State is as follows :—

		MAHARASHTRA			BULDHANA DISTRICT		
		Persons	Males	Females	Persons	Males	Females
I	Cultivation	46·11	40·69	54 79	42·52	41·58	43·78
II	Agricultural Labour	23 80	18·12	32 90	42·02	35·16	51·26
III	Mining, Quarrying, Livestock, Forestry and Fishing, etc.	2 16	2 97	0·86	0 87	1·36	0·21
IV	Household Industry.	4·39	4·80	3·74	2·84	3·71	1·66
V	Manufacturing other than Household Industry.	6·88	10·22	1·54	1·77	2·73	0·46
VI	Construction	1 24	1·69	0·53	0·89	1·22	0·46
VII	Trade and Commerce.	4·52	6·61	1·17	2·87	4·66	0·47
VIII	Transport, Storage and Communications.	2·36	3·65	0·29	0·73	1·26	0·01
IX	Other Services	8·54	11·25	4·18	5·49	8·32	1·69
	Total workers	100·00	100·00	100 00	100·00	100·00	100·00

The proportion of agricultural labourers in the district (42·02 per cent) is considerably higher than that of State average (23·80 per cent). However, there has not been such a wide disparity between the proportion of cultivators (42·52 per cent) in the district and that of the State (46·11 per cent). Both these industrial categories taken together account for a larger percentage than that for the State presumably on account of lack of opportunity of alternative employment in industry in the district. The proportions in all other industrial categories are lower in the district than the corresponding State averages. Even the proportions of workers engaged in trade and commerce and other services are significantly of lower order.

Tahsilwise (Talukawise) distribution of workers in nine categories of economic activities is shown below. Corresponding figures for the State and the district are also shown for comparison.

Distribution of workers by nine categories of economic activity is also shown in the Figure on page (47) for the district, rural and urban areas and for each tahsil separately.

The proportions of cultivators as well as agricultural labourers differ considerably from tahsil to tahsil. The proportion of cultivators varies from 35·23 per cent for Khamgaon tahsil to 49·21 per cent for Chikhli tahsil. Similarly the proportion of agricultural labourers varies from 35·91 per cent in Chikhli tahsil to 51·72 per cent in Jalgaon tahsil. Such wide variations within the district can be ascribed to the differences in fertility of soils and the resulting cropping and land-holding patterns. Only 3·25 per cent of workers are in household industry in Chikhli tahsil which is incidentally the highest percentage among all tahsils. 3·91 per cent of workers are engaged in manufacturing other than household industry in Khamgaon tahsil. The highest percentage of workers (2·10 per cent) engaged in construction is found in Malkapur tahsil, which is higher than the State average of 1·24 per cent probably due to the developmental construction under way. Higher percentage than the State average is also seen in Khamgaon tahsil in trade and commerce. On the other hand in Khamgaon tahsil the percentage of workers engaged in other sevices is lower than the State average though it is (7·89 per cent) considerable.

State/District/Tahsil	I Cultivator	II Agricultural Labourer	III Mining, quarrying, livestock, forestry, fishing, etc.	IV Household Industry	V Manufacturing other than Household Industry	VI Construction	VII Trade and Commerce	VIII Transport, Storage and Communications	IX Other Services	Total
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
MAHARASHTRA ...	46·11	23·80	2·16	4·39	6·88	1·24	4·52	2·36	8.54	100·00
BULDHANA DISTRICT ...	42·52	42·02	0·87	2·84	1·77	0·89	2·87	0·73	5·49	100·00
1 Jalgaon Tahsil ...	36·79	51·72	1·55	2·47	0·79	0·47	1·90	0·19	4·12	100·00
2 Malkapur Tahsil ...	38·74	43·41	1·06	2·88	1·82	2·10	3·17	0·84	5·98	100·00
3 Khamgaon Tahsil ...	35·23	42·37	1·10	2·48	3·91	0·77	4·55	1·70	7·89	100·00
4 Chikhli Tahsil ...	49·21	35·91	0·54	3·25	1·33	0·62	2·81	0·62	5·71	100·00
5 Mehkar Tahsil ...	47·04	42·64	0·57	2·81	0 96	0·37	1 81	0·22	3·58	100·00

Labour Participation by Age

The labour participation rates by age-groups are shown below for the district for total, males and females separately. Corresponding figures for the State are also shown for comparison :—

Age-groups	Buldhana District			Maharashtra		
	Total	Males	Females	Total	Males	Females
All ages ..	51.30	57.64	44.68	47.91	57.09	38.10
0—14 ..	9.01	7.44	10.65	8.72	8.62	8.84
15—34 ..	80·41	89.88	70.81	74.53	87.45	60.90
35—59 ..	86.54	97.99	73.45	81.57	96.86	63.68
60+ ..	55.79	79.69	34.70	49.13	72.82	26.28

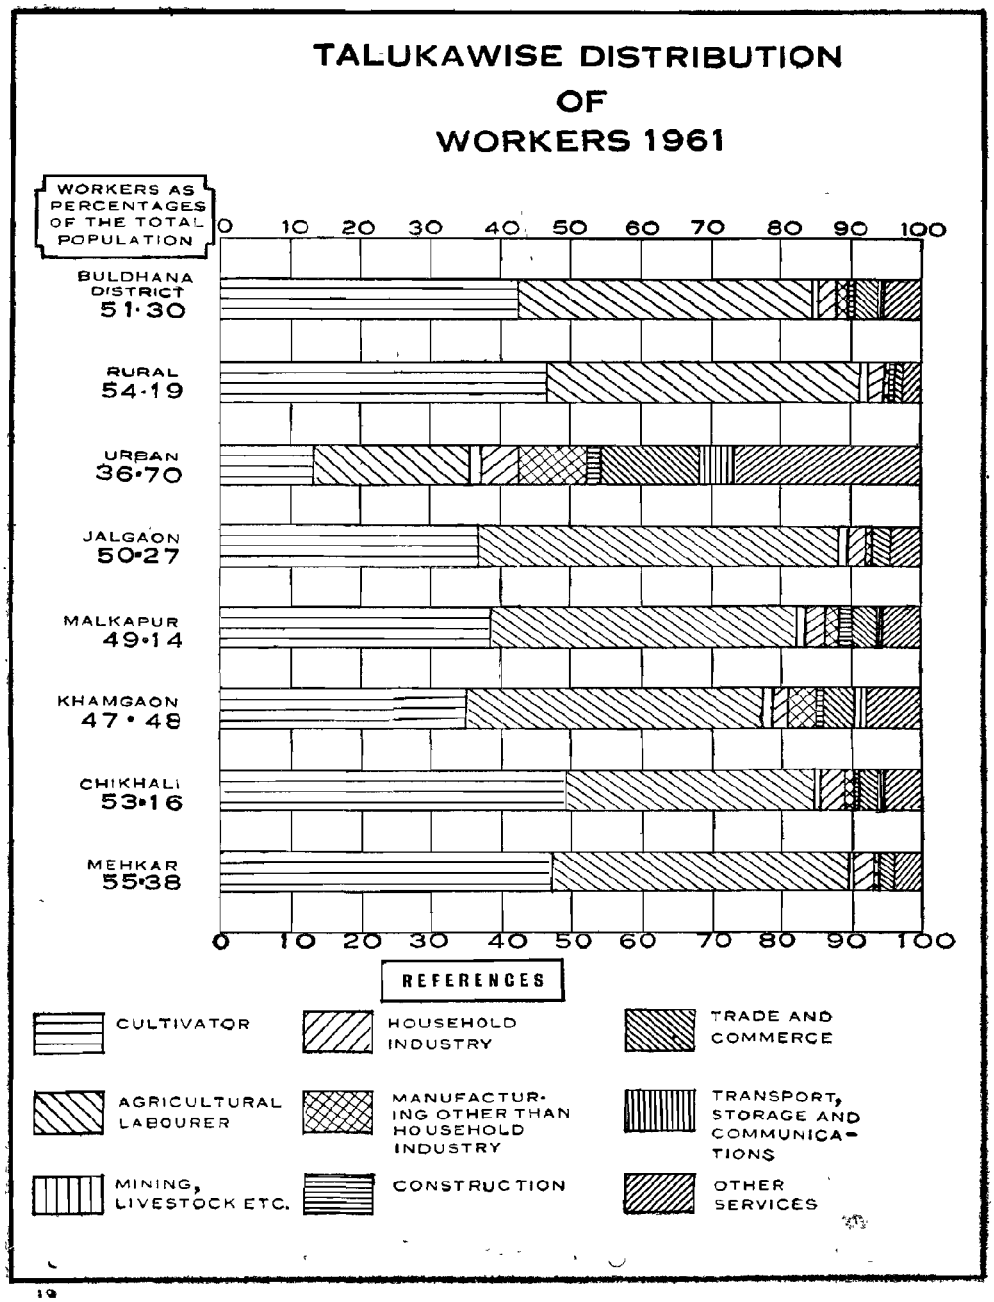

The participation rates for the district are higher than the State average in all age-groups except that for the age-group 0—14 for males. It may be so partly due to the increase in attendance of boys in schools. Higher participation rates in all other age-groups may be because of the preponderance of agriculture. However these differences cannot be explained fully without further local investigation.

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district. Corresponding figures for the State are also shown for comparison :—

	Illiterate	Literate (without educational level)	Primary or Junior basic	Matriculation and above
Maharashtra ..	68.65	14.11	13.91	3·33
Buldhana District ..	69.83	12.28	16.57	1.32

The average literacy rate in the district is a little lower than the State average. The proportion of literate workers without educational level (12·28 per cent) is less than the State average of (14·11 per cent). The percentage of workers with primary or junior basic educational level is much higher than the State average whereas that of workers with Matriculation and above (1·32 per cent) in the district is less than the State average of 3·33 per cent.

Status of Employment

Table B-IV-B in Part II shows the distribution o workers by status of employment for non-household industries. The proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are as follows. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 of the Explanatory Note to Part II :—

		Total workers	Class of workers			
			Employers	Employees	Single workers	Family workers
Maharashtra	Total	100·00	3 96	62.18	26 52	7 34
	Rural	100 00	1 57	46 47	38 58	13.38
	Urban	100·00	4 98	68 90	21.37	4.75
Buldhana District.	Total	100·00	2 80	46 00	40 42	10.78
	Rural	100·00	1 56	44 36	42 62	11.46
	Urban	100 00	3 80	47 33	38 65	10.22

Family workers and single workers have larger proportions in the district than the State average. Those differences are more marked in urban areas This is a reflection of the traditional crafts and small shops or pedlars dominating the scene. The proportion of employees is lower as a consequence of the preponderance of single workers and family workers than the State average. It is even so for rural and urban areas of the district compared to the corresponding State averages. Even the proportion of employees is lower in the district.

Percentage Distribution in Household Industry by Employees and others

The proportion of employees, i.e., hired workers and others in household industries in the district t otal rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

		Total workers	Employees	Others
Maharashtra ..	Total	100 00	8.18	91.82
	Rural ..	100·00	4.91	95.09
	Urban	100 00	16.35	83.65
Buldhana District ..	Total .	100 00	3 58	96.42
	Rural ..	100·00	3.11	96.89
	Urban ..	100 00	5.13	94.87

Household industries in the district also work more with household members than the State average. The proportions of employees are lower in the district than the State averages for total, rural and urban areas.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as follows (actual figures are shown in Table B-VII-A in Part II) :—

Principal work		Percentage of total workers by categories of secondary work		
		I	II	IV
MAHARASHTRA—				
I Cultivation ..	Total	17.85		1.97
	Rural	18.03		1.98
	Urban	10.54		1.32
II Agricultural Labour.	Total ..	13.17	..	0.94
	Rural ..	13.46	..	0.97
	Urban ..	7.12	..	0.31
IV Household Industry.	Total ..	14.78	6.97	..
	Rural ..	19.61	9.38	..
	Urban ..	2.70	0.95	..
BULDHANA DISTRICT—				
I Cultivation ..	Total .. .	11.35		0.48
	Rural .. .	12.49		0.52
	Urban	2.88		0.17
II Agricultural Labour.	Total ..	8 94	..	0.38
	Rural ..	9 82	..	0.42
	Urban ..	2.36	..	0.12
IV Household Industry.	Total ..	0.42	0 30	..
	Rural ..	0·42	0.29	..
	Urban ..	0·34	0.33	..

The proportions of cultivators also working as agricultural labourers as secondary work and of agricultural labourers also engaged in cultivation as secondary work are lower for the district than the State averages. The proportions of workers engaged in secondary work are much larger in rural areas than urban areas of the district excepting the percentage of workers in household industry and working as agricultural labourers in the secondary economic activity. The proportions of workers in household industry engaged in cultivation and as agricultural labourers as secondary work are almost insignificant.

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage istribution for the State and the district is

as follows. The occupational classification is described in the Explanatory Note to Part II :—

	Occupational Division	Maharashtra	Buldhana District
0	Professional, technical and related workers.	6.42	9 61
1	Administrative, executive and managerial workers.	3.89	5.21
2	Clerical and related workers.. ..	9.13	5.72
3	Sales workers . ..	12.23	17.02
4	Farmers, fishermen, hunters, loggers and related workers.	7.64	6.96
5	Miners, Quarrymen and related workers.	0.75	0.07
6	Workers in transport and communication occupations.	3.57	2.58
7&8	Craftsmen, Production process workers and labourers not elsewhere classified.	45 99	41.79
9	Service, sport and recreation workers	10.27	10 96
X	Workers not classifiable by occupation..	0·11	0 08
	Total .	100.00	100.00

The proportion of workers in the occupational Division 0 (Professional, technical and related workers) is higher in the district mainly because of the comparatively larger number of teachers. Sales workers account for 17·02 per cent of non-agricultural workers in the district as against the State average of 12·23 per cent. A little higher proportion than that for State is seen in the district for workers engaged in service, sports and recreation. Higher proportion than that for State is seen for workers in administrative, executive, and managerial occupations.

Non-workers

The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution for the district is shown below :—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
1. Full-time students	34 06	9 66	30 93	8.29	46.98	14.22
2 Household duties .	0 08	29 43	0 07	24 47	0 13	45.92
3 Dependants, infants and disabled	64 13	60 47	67.82	66 90	48.90	39.08
4. Retired, rentiers or persons of independent means.	0 36	0 15	0.20	0.11	1.02	0.28
5. Beggars, vagrants, etc.	0 49	0 24	0.45	0.21	0.66	0.37
6. Inmates of institutions.	0.06	0.03	0.05	0 01	0 09	0.08
7. Persons seeking employment for the first time	0 54	0 01	0.34	0 01	1.38	0.03
8. Unemployed but seeking work.	0 28	0 01	0 14	N	0.84	0.02
Total	100 00	100 00	100 00	100 00	100 00	100.00

N = Negligible.

There is a marked difference in the distribution pattern for non-workers among males and females. Of the male non-workers 34·06 per cent are full-time students while the corresponding proportion for females is 9·66 per cent. This is because of inclusion of 29·43 per cent females who are engaged in household duties as non-workers. The rural urban differences are similar both for males and females. In urban areas the percentage of full-time students is higher and that for dependants lower. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 2 22 and 0 48 for males in urban and rural areas and is negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas. The difference is not, however, entirely due to social customs of attending more to the education of boys than that of girls. The proportions for females are lower because the group of non-workers contains a large number of adult women engaged in household duties.

PART I

VILLAGE DIRECTORY

This Directory renders an account of each Village and each ward of Town.

2 Malkapur Taluka	15
3 Khamgaon Taluka	29
4 Chikhli Taluka	39
5 Mehkar Taluka	53

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number of each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A " village " is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with words " uninhabited " shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters " (FV) " suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) 75 per cent. or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown in Roman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from Census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.* shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. These taluka-wise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.), talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least 3/4ths of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term " village " has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. There have been no territorial changes during the decade 1951—1961. Appendix I does not, therefore, appear here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include : (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets ; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc. or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, seashore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are : (i) less than 200 ; (ii) 200—499 ; (iii) 500—999 ; (iv) 1,000—1,999 (v) 2,000—4,999 ; (vi) 5,000—9,999 ; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population :

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;
(ii) earning dependents ; and
(iii) non-earning dependents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. " Work " includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. Since there are no Scheduled Tribes notified for this district columns (11) and (12) are blank. The figures are related only to the group totals of all Scheduled Castes. Their break-up by individual Scheduled Caste will be found in Table SCT-I.

40. The limitations in coverage of Scheduled Castes may be mentioned here. They do not include all backward castes living in the district but only those declared as Scheduled Castes in the district. In cases where a caste is declared as a Scheduled Caste for a specified area that caste has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity:—

I. As Cultivator.
II. As Agricultural Labourer.
III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV. At Household Industry.
V. In Manufacturing other than Household Industry.
VI. In Construction.
VII. In Trade and Commerce.
VIII. In Transport, Storage and Communications.
IX. In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A " Household Industry " is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. " Manufacturing " includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

Category IX

52. This category includes (i) Public utility services like electricity or gas or water supply, sanitary services ; (ii) Central, State or Municipal employees ; (iii) Professional services ; (iv) Trade or labour associations, Recreation services, etc.

Table B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately, while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

	Category	Industry Division
I.	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II.	Agricultural Labourer	
III.	Mining, Quarrying, etc.	Division 0 except minor groups 000 to 004 and Division 1.
IV.	Household Industry ..	Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3.
V.	Manufacturing ..	Divisions 2 and 3.
VI.	Construction . ..	Division 4.
VII.	Trade and Commerce.	Division 6.
VIII.	Transport, Storage and Communications.	Division 7.
IX.	Other Services .	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer " , " employee ", " single worker " and " family worker " :

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A "single worker" is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A "family worker" is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major, or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the Industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is persented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii), even for occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time not necessarily earning a larger portion of his income is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, viz., IV-Household Industry, I-Cultivator and II Agricultural labourer. Workers who may be engaged in secondary work in other categories, viz. III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

Table B-VII-B

65. This table shows workers engaged in non-household industry—categories III and V to IX—as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka, separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before.

The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to--

(i) the size of or interest in land cultivated and/or the household industry conducted by the households; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of operational holding, i.e. land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, *viz.*—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers, and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows the sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major group of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split-up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 Tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled

Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of households are prepared from the household schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. The classification by size is as one member, small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. All the same, the table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i. e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent. sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five year age-groups. The other two groups are 0-9 years and 70 and over. The entire population in 0-9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether any trend is observed in age of marriage. A corresponding table at the 1951 Census was prepared on a 10 per cent. sample. This table is, however, prepared on a full count.

Tables C-III-A. B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent. sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i. e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent. sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group " Others ". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A footnote is added to show the number of speakers in the district for each of the mother-tongues combined in the group " Others ".

90. " Mother-tongue " is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned

in the Census are combined in the group " Others ". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table deals with the total population of Scheduled Tribes classified by literacy and by economic activity. It is not presented in this Part as there are no Scheduled Tribes notified in this district.

SCT, SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are eleven Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies. No Scheduled Tribes are notified for this district. No special tables for the Scheduled Tribes are, therefore, presented in this Part.

96. These special tables for Scheduled Castes have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste separately.

97. These tables relate to economic activity, education and classification of persons not at work. Material is presented for each Scheduled Caste separately. It will be useful information for formulating various schemes for their welfare.

98. Classification by Castes is on the basis of returns recorded in response to question 5(c) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes notified for the district and in case he belonged to one of them he was asked the name of his caste. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Bauddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-A of Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes " not stated " is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104, 105 and 106. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government ;

(ii) entirely held from private persons or institutions for payment in money, kind or share; and

(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent. sample.

Table SCT-V-B

112. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, *viz.* :—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

Table ST-II

115. This table is not presented in this Part as there are no Scheduled Tribes notified in the district.

E SERIES

HOUSING TABLES

116. There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross-tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A " house " was defined for purposes of the Census as " a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, court-yard or a gate ".

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A " workshop " is a place where some kind of production, processing, repairs or servicing of goods, goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

120. The last category of " Others " includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. " Rent free " or " Caretaker " occupation is included in the " Rented " category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists and on a 20 per cent sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or overcrowding particularly in urban areas.

127. The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A "room" has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, *viz.*, September-October 1960.

APPENDIX I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below—

DIVISIONS

0	**Agriculture, livestock, forestry, fishing and hunting**
1	**Mining and Quarrying**
2 & 3	**Manufacturing**
4	**Construction**
5	**Electricity, Gas, Water and Sanitary services**
6	**Trade and Commerce**
7	**Transport, Storage and Communication**
8	**Services**
9	**Activities not adequately described**

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Divisions 2 & 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal.
36	Basic Metals and their products except machinery and transport equipment.
37	Machinery (all kinds other than Transport) and Electrical equipment.
38	Transport Equipment
39	Miscellaneous Manufacturing Industries.

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water supply and Sanitary services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations.
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

MINOR GROUPS

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 0—Agriculture, livestock, forestry, fishing and hunting		
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urid, khesari, other gram.	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops.	004
	Production of other crops (including vegetables) not covered above.	005
	Production of fruits and nuts in plantation, vines and orchards.	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above.	009
01	*Plantation Crops—*	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above.	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs.	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest.	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests.	025
	Production and gathering of other forest products not covered above.	026

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 0—Agriculture, livestock, forestry, fishing and hunting—concld.		
03	*Fishing—*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond.	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
Division 1—Mining and Quarrying		
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mning of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone.	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt.	109
Division 2 & 3—Manufacturing		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains.	200
	Production of sugar and syrup from sugarcane in mills.	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish.	204
	Production of bread, biscuits, cake and other bakery products.	205
	Production of butter, ghee, cheese and other dairy products.	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati)..	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.	209

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 2 & 3—Manufacturing—contd.		
21	*Beverages—*	
	Production of distilled spirits, wines, liquor, from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor ..	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above.	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works ..	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco ..	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling.	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine.	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mills ..	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill .	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills .	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom .	264
	Printing of silk textile .. .	265
	Manufacture of silk cordage, rope and twine..	266
27	*Textile—Miscellaneous—*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 2 & 3—Manufacturing—contd.		
27	*Textile—Miscellaneous*—contd.	
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and up-holstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures.	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys artwares.	284
	Manufacture of veneer and plywood ..	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography engraving, etching, block making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 2 & 3—Manufacturing—contd.		
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven ..	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products.	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 2 & 3—Manufacturing—contd.		
35	Manufacture of earthenware and earthen pottery.	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues.	355
	Manufacture of earthen toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell metal products.	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can.	367
	Enamelling galvanising, plating (including electroplating), polishing and welding of metal prouct s.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery.	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, appliances not specified above.	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 2 & 3—Manufacturing—concld.		
38	*Transport Equipment*—contd.	
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear.	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles.. ..	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered eleswhere such as pencil, penholder, fountain-pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations.	400
	Construction and maintenance of roads, railways, bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water Supply and Sanitary Services*—	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, procelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petrol, mobil oil and allied products.	617
	Wholesale trading in other household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames.	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific, medical and surgical instruments.	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery.	638
	Wholesale trading in all goods not covered above.	639
64	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquor.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
	Division 6—Trade and Commerce—concld.	
64	*Retail Trade—concld.*	
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, firewood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobiloil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper.	661
	Retail trading in metal, porcelain and glass utensils.	662
	Retail trading in earthenware and earthen toys.	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware a sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery.	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Moneylending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
	Division 7—Transport, Storage and Communication	
70	*Transport—*	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, handcart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above.	709
71	Services incidental to transport such as packing, carting travel agency.	710
72	*Storage and Warehousing—*	
	Operation of storage such as ware-houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication—*	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services—*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
	Division 8—Services—contd.	
82	*Medical and Health Services—*	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services—*	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services—*	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services—*	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnists, journalists, editors, authors.	853
86	*Community Services and Trade and Labour Associations—*	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services—*	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures.	871

Major Group (Code)	Description	Minor Group (Code)
(1)	(2)	(3)
Division 8—Services—contd.		
87	*Recreation Services*—concld.	
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning services.	883
Division 8—Services—concld.		
88	*Personal Services*—concld.	
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
Division 9—Activities not adequately described		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market ..	999

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)
75 Occupational Groups (two-digit code numbers)

Note: n.e.c.= not elsewhere classsified.

DIVISIONS

0 Professional, technical and related workers
1 Administrative, executive and managerial workers
2 Clerical and related workers
3 Sales workers
4 Farmers, fishermen, hunters, loggers and related workers
5 Miners, quarrymen and related workers
6 Workers in transport and communication occupations
7-8 Craftsmen, production process workers, and labourers not elsewhere classified
9 Serivce, sport and recreation workers
X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers
- 00 Architects, Engineers and Surveyors
- 01 Physicists, Chemists, Geologists and other Physical Scientists
- 02 Biologists, Veterinarians, Agronomists and Related Scientists
- 03 Physicians, Surgeons and Dentists
- 04 Nurses, Pharmacists and other Medical and Health Technicians
- 05 Teachers
- 06 Jurists
- 07 Social Scientists and Related Workers
- 08 Artists, Writers, and Related Workers
- 09 Draughtsmen, Science and Engineering Technicians, n. e. c.
- 0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers
- 10 Administrators, and Executive Officials, Government
- 11 Directors and Managers, Wholesale and Retail Trade
- 12 Directors, Managers and Working Proprietors, Financial Institutions
- 13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers
- 20 Book-Keepers and Cashiers
- 21 Stenographers and Typists
- 22 Office Machine Operators
- 28 Clerical Workers, Miscellaneous
- 29 Unskilled Office Workers

3 Sales Workers
- 30 Working Proprietors, Wholesale and Retail Trade
- 31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
- 32 Commercial Travellers and Manufacturers' Agents
- 33 Salesmen, Shop Assistants and Related Workers
- 34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers
- 40 Farmers and Farm Managers
- 41 Farm Workers
- 42 Hunters and Related Workers
- 43 Fishermen and Related Workers
- 44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers
- 50 Miners and Quarrymen
- 51 Well Drillers and Related Workers
- 52 Mineral Treaters
- 59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations
- 60 Deck Officers, Engineer Officers and Pilots, Ship
- 61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen
- 62 Aircraft Pilots, Navigators and Flight Engineers
- 63 Drivers and Firemen, Railway Engine
- 64 Drivers Road Transport
- 65 Conductors, Guards and Brakesmen (Railway)
- 66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
- 67 Telephone, Telegraph and Related Telecommunication Operators
- 68 Postmen and Messengers
- 69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers, and Labourers not elsewhere classified
- 70 Spinners, Weavers, Knitters, Dyers and Related Workers
- 71 Tailors, Cutters, Furriers and Related Workers
- 72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
- 73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
- 74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
- 75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
- 76 Electricians and Related Electrical and Electronics Workers
- 77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
- 78 Painters and Paper Hangers
- 79 Bricklayers, Plasterers and Construction Workers n. e. c.
- 80 Compositors, Printers, Engravers, Book Binders and Related Workers
- 81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
- 82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers
- 83 Chemical and Related Process Workers
- 84 Tobacco Preparers and Products Makers
- 85 Craftsmen and Production Process Workers, n. e. c.
- 86 Testers, Packers, Sorters and Related Workers
- 87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
- 89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers
- 90 Fire Fighters, Policemen, Guards and Related Workers
- 91 House Keepers, Cooks, Maids and Related Workers
- 92 Waiters, Bartenders and Related Workers
- 93 Building Caretakers, Cleaners and Related Workers
- 94 Barbers, Hairdressers, Beauticians and Related Workers
- 95 Launderers, Dry Cleaners and Pressers
- 96 Athletes, Sportsmen and Related Workers
- 97 Photographers and Related Camera Operators
- 99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations
- X0 Workers without occupations
- X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
- X9 Workers Not Reporting Occupations

APPENDIX III

COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBERS

Note : n.e.c. – not elsewhere classified

Industrial Code Number	Household Industry
Major Group 00—Field Produce and Plantation Crops	
005.1	Production of Vegetables
005.2	Production of roots etc., not included above
006.1	Production of fruits and nuts in plantation, vines and orchards
006.2	Production of copra (from coconuts)
007.1	Production of thatching grass
007.2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass).
008.1	Production of juice (Neera) by tapping coconut trees
008.2	Production of juice by tapping other palms like date Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above.
Major Group 01—Plantation Crops	
013	Production of tobacco in plantation
015.1	Pan Cultivation
015.2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
Major Group 02—Forestry and Logging	
023.1	Production of Charcoal
023.2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025.1	Production of Kathha
025.2	Production of Lac
025.3	Production of gum
025.4	Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
Major Group 03—Fishing	
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond.
Major Group 04—Livestock and Hunting	
040.1	Rearing of goat for milk and animal power
040.2	Rearing of buffalo for milk and animal power
040.3	Rearing of cows for milk and animal power
040 4	Rearing of camels and other big domestic animals
040.5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041.1	Sheep breeding and rearing
041.2	Production of wool
042.1	Rearing and production of pigs and goats (mainly for slaughter).
042.2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043.1	Poultry keeping and production of eggs
043.2	Rearing and production of ducks, hens, etc., and other small birds *e.g.*, pigeons, parrots, peacocks, maina etc.
044.1	Bee keeping for production of honey and wax
044.2	Collection of wax and honey
045	Rearing of tassar, eri mulberry and other silk worms and production of cocoons and raw silk.
046.1	Dog breeding, rearing of rabits and guinea-pigs
046.2	Rearing of other small animals and insects n. e. c
048.1	Collection of bones
048.2	Manufacture of glue from animal carcasses
048.3	Manufacture of gut
048.4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
Major Group 10—Mining and Quarrying	
107.1	Extraction of chalk
107.2	Quarrying of lime-stone
107.3	Stone and slate quarrying
107.4	Quarrying of sand, clay, gravel, etc., n. e. c.
Major Group 20—Foodstuffs	
200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200.2	Hand pounding of rice by Dhekhi or Ukhal.
200.3	Production of rice by milling dehusking and processing of paddy by rice mill.
200.4	Grinding of chillies, turmeric, etc.
200.5	Production of pulses
200.6	Parching of grains
200.7	Production and processing of other crops and foodgrains n. e. c.
202.1	Gur and Khandsari making from sugarcane and palm
202.2	Production of bhoora and candy
202.3	Production of jaggery from coconut and palmyra juice (neera)
202.4	Production of other indigenous products from sugar and jaggery n. e. c.
203.1	Manufacture of achar, pickles, chutney and murabba
203.2	Production of sauce, jam and jelly
203.3	Processing of cashew nut
203.4	Manufacture of kokam products
203.5	Fruit preservation (canning of fruits)
203.6	Making dried vegetables
203.7	Production of other fruit products and preservation of fruits n. e. c.
204.1	Slaughtering, preservation of meat and fish and canning of fish.
204.2	Fish currying or curing and salting (currying applies more to skin and hide).
205	Production of bread, biscuit, cake and other bakery products.
206	Production of butter, cream, ghee, cheese chhana, khowa and other dairy products.
207	Oil pressing ghani, kolhu or by small machines
209.1	Confectionery
209.2	Making of sweet-meats, laddu, peda, barphi, batasa, etc.
209.3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209.4	Making of chura or chira, muri, murki, khoi
209.5	Making of chat
209.6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209.7	Making of other food products for residuary snacks
209.8	Production of other food products like cocoa, chocolate, toffee, lozenge,
Major Group 21—Beverages	
210.1	Manufacture of vinegar from coconut juice (neera)
210.2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.
211	Production of country liquor from material obtained from sources other than trees and shrubs
212.1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212.2	Production of other indigenous liquor, from other materials from trees and shrubs
214.1	Production of mineral water
214.2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice

Industrial Code Number	Household Industry
Major Group 21—Beverages—concld.	
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219.1	Preparation of sharbats and squashes
219.2	Preparation of jeerapani
219.3	Production of other beverages n. e. c.
Major Group 22—Tobacco Products	
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco.
226	Manufacture of other tobacco products n. e. c.
Major Group 23—Textile—Cotton	
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takli)
233.1	Dyeing of cloth (cotton) and yarn
233.2	Bleaching of cloth (cotton) and yarn
233.3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238.1	Making of fishing net
238.2	Making of mosquito net
238.3	Making of other nets
239.1	Making of sacred thread
239.2	Making of thread, rope, cordage and twine (cotton)
Major Group 24—Textile—Jute	
240	Jute pressing and baling
241	Jute spinning and weaving of mats, asanis, etc.
242	Dyeing and bleaching of jute
244.1	Making of rope and cordage, out of hemp
244.2	Making of rope and cordage, out of jute
244.3	Making of rope by palm fibre
244.4	Making of rope by date palm fibre
244.5	Making of fibre, sunn-hemp fibre
244.6	Making of other products from jute and similar fibres such as hemp, mesta
Major Group 25—Textile—Wool	
250	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charkha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256.1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256.2	Shawls (with traditional borders)
Major Group 26—Textile—Silk	
261	Dyeing and bleaching of silk
262.1	Spinning of tussar, other than in mills
262.2	Spinning of eri, other than in mills
262.3	Spinning of silk, other than in mills n. e. c.
263.1	Weaving of Traditional silk (Atlas) by powerloom
263.2	Weaving of tussar by powerloom
263.3	Weaving of eri by powerloom
263.4	Weaving of silk and artificial silk in powerloom n.e.c.
264.1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264.2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266.1	Goaf making
266.2	Making of silk cordage, rope and twine n. e. c.

Industrial Code Number	Household Industry
Major Group—27—Textile—Miscellaneous	
270.1	Making of durries
270.2	Making of carpets and druggets
270.3	Manufacture of other similar textile products n. e. c.
271.1	Making of hosiery goods such as banyans, socks, sweaters, muffiers, etc.
271.2	Making of nalas and azarbands
271.3	Making of parandas and chootelas
271.4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272.1	Embroidery and making of phulkari
272.2	Making of jari thread, zardoshi
272.3	Traditional embroidery
272.4	Patchwork embroidery
272.5	Lace garland making
272.6	Making of fringes and crepe laces
272.7	Making of kargota, main garlands, shell garlands, etc.
272.8	Making of other embroidery products n. e. c.
273.1	Making of cap, hat, and other head-gear
273.2	Traditional garments
273.3	Chrochet work (bora caps)
273.4	Making of textile garments including rain-coats and head-gears n. e. c
274.1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274.2	Making of newar
274.3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n.e.c.
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc.
276.1	Making of namda felt
276.2	Making of suzani (padded quilts)
276.3	Processing of coconut fibre for upholstery
276.4	Handicraft articles made of flax and fibre
276.5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277.1	Manufacture of coir matting, cactus, fibre for ropes and rope making from coconut fibre
277.2	Making of brush, broom, etc., from coconut fibre
277.3	Coir spinning
277.4	Coconut curing
277.5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279.1	Making of daura (thread) batua, cotton thread, buttons
279.2	Manufacture of dolls and toys (rags and cotton)
279.3	Manufacture of other textile products not elsewhere classified
Major Group 28—Manufacture of Wood and Wooden Products	
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283.1	Carpentry works concerned with repairs of agricultural implements (wood)
283.2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
284.1	Lecquerware (if on wood)
284.2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
284.3	Manufacture of wooden toys
284.4	Sandal wood and other wood carving
284.5	Bead making from wood
284.6	Sawdust and plaster figure making
284.7	Marquetry boxes (inlay work)
284.8	Manufacture of photo frames and framing of photo paintings, etc.
284.9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood

Industrial Code Number	Household Industry
Major Group 28—Manufacture of Wood and Wooden Products—concld.	
288.1	Making of box from moonj grass
288.2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288.3	Making of mats, handfans and umbrellas from palm leaves
288.4	Making of sirki, moora and chhaj
288.5	Making of baskets and broomsticks
288.6	Making of donas (drone) and pattals (patravali) from leaves
288.7	Caning of chairs
288.8	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289.1	Making of sticks and poles from wood
289.2	Making of wooden kharaus and other wooden sandals
289.3	Making of artwheels
289.4	Manufacture of other wood and allied products n. e. c.
Major Group 29—Paper and Paper Products	
291	Manufacture of pulp and paper by hand
292.1	Making of envelopes and paper bags
292.2	Papier mache articles
292.3	Making of kite
292.4	Paper decorations for homes
292.5	Making of card-board boxes and cards
292.6	Making of paper toys
292.7	Making of paper flowers, etc.
292.8	Manufacture of other paper products from paper, paper board and pulp n. e. c.
Major Group 30—Printing and Publishing	
301	Printing and publishing of books
302.1	Printing works, printing of handbills, invitation cards etc.
302.2	Lithography, engraving, etching, block making, type cutting and other work connected with Printing Industry.
303	Book binding, stitching, sizing and other work, connected with book binding industry
Major Group 31—Leather and Leather Products	
310.1	Flying, processing of hides and skins including taxidermy
310.2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310.3	Stuffed animals
311.1	Making of leather boots, shoes or chappals (slippers, sandals)
311.2	Making of Poola shoes
311.3	Manufacture of other footwear n. e.c.
312	Making of clothing and wearing apparel (except footwear) made of leather and fur
313	Manufacture of leather products such as leather upholstery, suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
Major Group 32—Rubber, Petroleum and Coal Products	
320	Vulcanising tyres and tubes
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including rain-coats, oil cloths, waterproof cloths etc.

Industrial Code Number	Household Industry
Major Group 33—Chemicals and Chemical Products	
331.1	Manufacture of dyes, paints, colours, abir, sindoor, varnish etc.
331.2	Manufacture of indigo
332	Manufacture of fertilizer (including from bones)
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	Manufacture of matches
335.1	Manufacture of incense and perfumes
335.2	Manufacture of Agarbatti
335.3	Manufacture of rose water
335.4	Manufacture of powder, snow, cream, bindi, tikali, hair oil and nail polish
335.5	Manufacture of kum kum and hinglo
335.6	Manufacture of mascara and kajal
335.7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335.8	Manufacture of perfumes, cosmetics and other toilet preparations n. e. c.
336.1	Manufacture of soap and washing soda
336.2	Manufacture of other washing and cleaning compounds n. e. c.
337.1	Manufacture of plastic toys
337.2	Making of plastic buttons
337.3	Manufacture of other plastic goods
337.4	Making of celluloid goods
337.5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	Salt production
339.1	Manufacture of ink including fountain pen ink
339.2	Making of candles
339.3	Making of tooth powder
339.4	Making of boot polish and inedible oils, etc.
339.5	Manufacture of other chemicals products n. e. c.
Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal	
340.1	Making of bricks
340.2	Manufacture of roofing tiles
340.3	Manufacture of other clay products n. e. c.
341.1	Manufacture of cement door frames and sanitary fittings
341.2	Manufacture of cement jali and tiles
341.3	Making of cement statues
341.4	Making of cement products n. e. c.
342.1	Manufacture of lishu
342.2	Manufacture of lime
343.1	Stone carving
343.2	Marble carving
343.3	Granite carving
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jaint utensils and other articles from stone
345	Manufacture of stone images and toys
346.1	Making of images from soap stone
346.2	Manufacture of images toys and other articles of plaster of paris
348.1	Mica splitting
348.2	Manufacture of mica products including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353.1	Making of glass bangles
353.2	Making of glass beads
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356.1	Making of earthen toys and artware
356.2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses

Industrial Code Number	Household Industry
	Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment
360.1	Re-rolling of M. S. Rods
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods, n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture
365.1	Making of utensils of brass and bell metal
365.2	Making of brassware
365.3	Making of bottom part of hookha from brass and bell metal
365.4	Making of brass and bell metal ornaments
365.5	Making of other brass and bell metal products n. e. c.
366.1	Making of aluminium utensils
366.2	Making of other aluminium products n. e. c.
367.1	Making of tin utensils
367.2	Making of articles from tin sheets
367.3	Copper utensils
367.4	Bronze works including bronze images, medals and articles of alloys
367.5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n. e. c.
368.1	Lacquerware (if on metal)
368.2	Nickel plating and electroplating
368.3	Engraving, embossing, polishing and welding of metal products
368.4	Enamelling and galvanizing of metal products
368.5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369.1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369.2	Manufacture of light engineering goods including bolts and screws
369.3	Making of iron utensils (*e. g.*, buckets, etc.) and articles from iron sheets
369.4	Making and repairing of locks and trunks
369.5	Cutlery
369.6	Manufacture of pins
369.7	Manufacture of scales, weights and measures
369.8	Foundry Industry (including blacksmithy)
369.9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c.
	Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment
370	Manufacture of mechanical water pumps, tube well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377.1	Manufacture of storage batteries
377.2	Manufacture of charging batteries
377.3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379.1	Manufacture of domestic electrical appliances
379.2	Repairing and servicing of electrical apparatus, heaters, oven, etc.

Industrial Code Number	Household Industry
	Major Group 38—Transport Equipment
382	Manufacture of body of trucks and buses including carpentry and joinery work involved
384	Repairing and servicing of automobiles
385.1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385.2	Manufacture of rikshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rikshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
	Major Group 39—Miscellaneous Manufacturing Industries
390.1	Repair of spectacles
390.2	Manufacture of small photographic equipment
390.3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393.1	Inlay work with ivory and brass
393.2	Goldsmithy
393.3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
393.4	Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images
393.5	Silver filigree industry
393.6	Manufacture of gold and silver leaves
393.7	Gold covering work (fancy jewellery)
393.8	Bidriware industry
393.9	Manufacture of jewellery, silverwares, etc. n. e. c.
394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
395.1	Manufacture of chalk pieces
395.2	Making of slate and slate pencil
395.3	Making of rubber stamps
395.4	Manufacture of fountain pen parts
395.5	Manufacture of other stationery articles such as pencils, penholders, etc.
396.1	Manufacture of deshi sports goods such as lezzim and dumbells
396.2	Making of rubber balls and balloons
396.3	Manufacture of other sports goods n. e. c. bats, rackets, balls, etc.
399.1	Making of tikka and cowdung cakes
399.2	Making of beads, from conch shells and horn goods
399.3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399.4	Making of lac bangles
399.5	Making of buttons (bone, shell, ivory)
399.6	Making of gangavan (making of wig from human hair)
399.7	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads, etc.
399.8	Repair of petromax lights, etc.
399.9	Making and repairing of goods n. e. c.

Division 2 & 3 (2,291–3,769). 200 (167–250), 202 (1–. 204 (6–6), 205 (2–6), 206 (14–14), 207 (68–156), 209 (103–338), 214 (1–2), 222 (1–6), 225 (2–14), 230 (8–52), 233 (4–5), 235 (253–610), 236 (1–5), 240 (25–43), 241 (1–2), 244 (2–2), 253 (4–8), 255 (6–12), 266 (1–3), 273 (491–599), 279 (1–2), 280 (4–16), 281 (29–60), 282 (8–9), 287 (2–5), 288 (42–60), 289 (217–286), 292 (1–1), 302 (5–21), 303 (1–2), 310 (14–17), 311 (269–339), 314 (93–122), 320 (2–4), 333 (4–16), 335 (2–4), 343 (2–2), 344 (2–2), 350 (86–124), 355 (1–4), 367 (3–3), 368 (28–28), 369 (129–241), 372 (1–2), 384 (9–15), 388 (27–54), 389 (1–1), 392 (5–5), 393 (100–134), 399 (42–56).

Rural.—200 (147–210), 202 (1–1), 207 (45–70), 209 (38–70), 230 (1–2), 235 (112–237), 240 (25–43), 241 (1–2), 253 (4–8), 255 (4–8), 266 (1–3), 273 (385–420), 281 (9–10), 282 (5–5), 288 (11–11), 289 (217–286), 310 (10–10), 311 (223–269), 314 (92–120), 320 (2–4), 343 (2–2), 344 (2–2), 350 (67–99), 367 (1–1), 369 (102–163), 388 (5–7), 389 (1–1), 393 (66–83), 399 (25–27).

Urban.—200 (20–40), 204 (6–6), 205 (2–6), 206 (14–14), 207 (23–86), 209 (65–268), 214 (1–2), 222 (1–6), 225 (2–14), 230 (7–50), 233 (4–5), 235 (141–373), 236 (1–5), 244 (2–2), 255 (2–4), 273 (106–179), 279 (1–2), 280 (4–16), 281 (20–50) 282 (3–4), 287 (2–5), 288 (31–49), 292 (1–1), 302 (5–21), 303 (1–2), 310 (4–7), 311 (46–70), 314 (1–2), 333 (4–16), 335 (2–4), 350 (19–25), 355 (1–4), 367 (2–2), 368 (28–28), 369 (27–78), 372 (1–2), 384 (9–15), 388 (22–47), 392 (5–5), 393 (34–51), 399 (17–29).

VILLAGES

(1) **Girda.**—273 (2–2), 289 (2–3),
(2) **Madha.**—200 (1–1), 207 (2–2), 273 (3–3), 311 (4–11), 369 (2–6).
(3) **Gondhankhed.**—289 (1–2).
(4) **Padali.**—200 (1–2), 240 (3–8), 273 (1–1), 311 (1–1), 369 (1–2).
(5) **Palaskhednago.**—367 (1–1)
(7) **Januna.**—289 (6–6).
(8) **Ijlapur.**—289 (1–1), 314 (1–1).
(10) **Chautha.**—273 (3–3), 289 (1–2), 311 (2–2).
(12) **Gummi.**—200 (1–1), 207 (2–4), 273 (2–2), 289 (3–4), 311 (2–2), 314 (1–1), 350 (2–3).
(13) **Atkal.**—289 (1–2).
(14) **Dahid Kh.**—289 (4–4).
(15) **Dahid Bk.**—200 (1–2), 240 (1–1), 273 (1–1), 311 (1–1).
(16) **Tandulwadi.**—369 (1–1).
(18) **Taradkhed.**—200 (1–2), 207 (1–1), 273 (3–3), 289 (3–4), 314 (1–1), 393 (2–4),
(19) **Ambhoda.**—207 (1–4), 240 (2–2), 289 (1–1), 311 (1–1), 314 (1–1), 369 (3–4),
(20) **Hatedi Kh.**—273 (2–2).
(21) **Hatedi Bk.**—200 (1–2), 240 (1–2), 273 (1–1), 369 (2–2), 393 (3–4).
(24) **Masrul.**—200 (1–2), 207 (1–1), 209 (4–4), 240 (2–2), 273 (3–3), 289 (4–5), 311 (2–2), 314 (1–1), 369 (2–3).
(26) **Deopur.**—273 (1–1), 369 (1–2).
(27) **Chikhala.**—273 (2–2), 311 (2–2), 369 (1–2).
(29) **Dhamangaon.**—200 (1–2), 207 (5–14), 209 (3–3), 273 (3–3), 289 (2–3), 314 (2–2), 369 (1–1), 393 (1–1).
(30) **Soyagaon.**—273 (1–1)
(31) **Warud.**—209 (1–1), 240 (4–7), 273 (1–2), 289 (5–6), 314 (7–11), 399 (1–1).
(32) **Pangarkhed.**—200 (1–1), 289 (1–1).
(33) **Dudha.**—200 (1–2), 273 (1–1), 281 (2–2), 311 (1–1), 369 (2–4).
(34) **Malwandi.**—200 (1–1), 273 (2–2), 311 (2–2), 369 (1–2).
(35) **Kesapur.**—273 (2–2), 289 (1–1), 311 (2–2), 369 (1–2).
(36) **Domrul.**—200 (1–2), 273 (2–2), 289 (1–2), 369 (1–4).
(37) **Dhad.**—200 (2–5), 207 (2–6), 209 (9–19), 235 (2–6), 273 (12–12), 311 (5–5), 350 (3–5), 369 (9–11), 393 (2–2), 399(2–2).

EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.

(2) Agriculture—Tables 3 to 10.

(3) Industries—Tables 11 to 14.

(4) Education—Tables 15 and 16.

(5) Public Health—Tables 17 to 19.

(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. " Normal rainfall " [(column (28))] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where rain-gauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, " Daily Rainfall of India " and " Monthly Rainfall of India."

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area :* This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests :* This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land :* This includes barren and unculturable lands like mountains, riverbeds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste :* This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands :* This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown :* This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows :* This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land :* All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years ;

(ix) *Net area sown :* The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area :* This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by " cereals, pulses and others ". Non-foodcrops are similarly shown under " oilseeds and others ".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1950-51, 1956-57 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area, and the gross irrigated area, are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yeilds are shown in pounds per acre.

The estimates of average yields and production in respect of rice, bajri, jowar, (kharif and rabi), wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the district headquarters.

Table 8

This table presents harvest prices of principal crops. The " harvest price " is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years, *viz.*, 1951, 1956 and 1961. The material is obtained from the three livestock censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

" Poultry " in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 or 1953-54 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53 or 1953-54.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word "factories" here includes only the registered factories. They are of three types :—

(*i*) Factories using no power but employing 20 or more workers ;

(*ii*) Factories using power and employing 10 or more workers ; and

(*iii*) Factories not covered by (*i*) and (*ii*) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1950 1955 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, small-pox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(*i*) Location Code Number,

(*ii*) the name of the village in which the fair is held,

(*iii*) distance from Railway station and S. T. Bus stop,

(*iv*) name of the fair, and month and date of the fair, and

(*v*) average congregation,

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.
