PREFACE

The District Census Handbooks have been compiled in pursuance of Govt. of India letter No. 51/2/51—RG, dated 16th March 1951 and para 5 of the Memorandum No. 693/51-RG, dated 2nd July 1950 at Pages 1-3 of the Tabulation plan

The District Census Handbook is a collection of the following data:—

1. Introduction which deals with the following items:—
   - (a) Physical Aspects
   - (b) Geology
   - (c) Archaeology
   - (d) Climate
   - (e) Rain Fall
   - (f) History
   - (g) Population
   - (h) Administration
   - (i) Medical and Public Health
   - (j) Education and Literacy
   - (k) Agriculture and Co-operation
   - (l) Industries
   - (m) Local Bodies
   - (n) Rehabilitation of Displaced Persons
   - (o) Places of Interest

2. District Census Tables (furnishing District data with break-up for Census tracts within the District). There is only one town in the urban tract of District Bilaspur which falls in the Bilaspur Tahsil. Hence figures for tahsils can also be given. Bilaspur Tahsil constitutes Bilaspur Tahsil Rural Tract plus District Bilaspur Non-city Urban Tract. The figures for Ghumarwin Tahsil are the same as for Ghumarwin Tahsil Rural Tract because there is no urban area in this tahsil. There are the following tables for the Bilaspur District:—

A-I	Area, Houses and Population.
A-II	Variation in Population during fifty years.
A-III	Towns and villages classified by Population.
A-IV	Towns classified by Population with variation since 1901.
A-V	Towns arranged territorially with Population by livelihood classes.

B-I Livelihood Classes and Sub-Classes.

B-II Secondary means of livelihood.

B-III Employers, Employees and Independent Workers.

C-II Livelihood Classes by age groups.

C-III Age and Civil condition.

C-IV Age and Literacy.

C-V Single year age return.

D-II Religion.

D-III Scheduled Castes and Scheduled Tribes.

D-IV Migrants and Subsidiary.

D-V Displaced persons by district of-origin and date of arrival in India.

D-VI Non-Indian Nationals.

D-VII Livelihood Classes by educational standards.

E. Summary figures by districts.

District Index.

Sorter's Ticket 2.

3. Census abstracts :—

(i) Primary Census Abstracts.

(ii) Census Abstracts of Small Scale Industries.

In the end my thanks are due to Shri S. C. Chhabra, Chief Commissioner, Bilaspur who kindly helped me in preparing the Introduction to the District Censu Handbook.

Most of the sections dealt with in the Introduction are based on the relevant accounts given in the District Gazetteer concerned, but have been carefully brought upto recent data, utilizing the infomation supplied by the District authorities in their Introductory Note for which I offer them my warmest thanks.

LAKSHMI CHANDRA VASHISHTA

INTRODUCTION

BILASPUR STATE

Physical Aspects

Name and derivation.—Bilaspur State was originally known as Kahlur State after the fort Kot Kahlur, built by Raja Kahal Chand, who was the sixth Raja. In about 1653 A.D Raja Dip Chand founded a new capital Byaspur in honour of Byasji and Bilaspur is its corrupted name.

Para 117 of the white paper reads as below:—"The group of the East Punjab Hill States included the State of Bilaspur, which had an area of 453 square miles with a population of 110,000. In view of the location in this state of the contemplated Bhakra Dam, which is a project of All-India importance, it was decided to take over the State as a separate Centrally Administrated unit. In pursuance of an Agreement (Appendix XXVIII) signed by the ruler, the State was taken over under Central Administration on 12th October, 1948."

Situation and boundaries.—Bilaspure is situated between 31° 12′ 30″ and 31° 35′ 45″ North and 76° 23′ 45″ and 76° 55′ 40″ East. It is bounded on the north by Mandi and Kangra Districts, on the west by the districts of Hoshiarpur and Kangra, on the south by Nalagarh (Kandaghat) and on the east and north-east by Mahasu and Mandi districts. It lies on both banks of the Sutlej River.

Area.— Its area, according to the Survey of India Department, is 452.7 square miles. Its maximum length from east to west is 29 miles and width from north to south is 26 miles.

Hills.—The hills may be divided into two parts, to the north and west of the Sutlej River and to the south-east of the Sutlej River. In the first part there are three well defined ridges which rise to an elevation from 3000′ to 4000′ and they. all run from north-west to south-east. They are the Kot-ki-Dhar, the Jhanjiar Dhar and the Tiun Dhar.

To the south-east of the Sutlej river the hills consist of two principle ranges— Bandla Dhar and the Bahadarpur Dhar—which run parallel to one another from north to south with the two other ranges known as Naina Devi Dhar and Ratanpur Dhar. The highest point of the Bahadarpur is 61664 feet from sea level.

The length of these ranges is as below :—

(i)	Naina Devi Dhar	...	20 miles
(ii)	Kot-ki-Dhar	...	20 miles
(iii)	Jhanjiar Dhar	...	14 miles
(iv)	Tiun Dhar	...	7 miles
(v)	Bahadarpur Dhar	...	15 miles
(iv)	Bandla Dhar	...	11 miles

Rivers.— There is only one river in the State— Sutlej— which divides the State in almost two equal parts. The portion of the State situated on the right bank of the river is called *parla* or the Ghumarwin Tahsil while the other portion situated on the left bank is called *Warla* or the Bilaspur Tahsil. It enters the State near village Kasol and leaves it near village Naila. The river is crossed by two bridges at Ram Bagh and Bhajwani and by 13 ferries. The following are the tributaries of the river:—

1. Ali Khad—It rises in the Bhagal territory and passing through the Bahadarpur Dhar joins the river at a distance of about 2 miles from Bilaspur. In the rainy season it becomes impassable. Its waters are used for running the water-mills and also for irrigating the lands.

2. Gambrola Khad.—It also rises in the Bhagal territory and after draining the Rattanpur Dhar, joins the Sutlej river 3 miles below Bilaspur. Irrigation is also done by taking off *kuhls* from this stream.

3. Gambhar Khad.—Like the former two streams, it also rises in the Bhagal territory. Its bed is very deep and cannot be used for irrigating purposes. It joins the river near village Jawaha.

The following tributaries take their rise in the north-west hills:—

1. Mani Khad.

This stream chiefly flows in Suket territory and joins the river at a place which is situated in that territory. It only touches the Bilaspur State at village Plaila where its waters are used for running the water mills as well as for irrigating the lands.

2. *Sir Khad.*

This is the largest tributary of the Sutlej river which takes its rise in the Mandi territory and after draining the Kot-ki-Dhar, joints the Sutlej River.

Geology

Most of the soil is *rausli* or somewhat sandy. This is intermixed with patches of stiff clay. As a major portion of the State adjoins Hoshiarpur district and the Siwalik range runs through it, the following geological description is reproduced from the Hoshiarpur District Gazetter 1904, Part-A, as it is more or less applicable to this State also :—

" The range consists entirely of vast beds of sand alternative with loans and clays in much smaller proportion with extensive beds of loose conglomerate or gravel "

Archaeology

The Bilaspur State derives its name from the sacred name of Rishi Ved Vyas who is said to have practised Ved Mantras in a cave named after him as 'Vyas Gufa' which is situated at the foot of the hill by the left bank of the river Sutlej near the Bilaspur town. There is another famous shrine about 4 miles from the capital town named after the Maharishi Markanda. It is said that both the Rishis *i. e.* Rishi Ved Vyas and ishi Markanda used to meet each other through the cave which runs under the grounds and joins these two sacred abodes. There are a number of other famous temples such as Khanam Khanesar, Raghunath, Murli Manohar, Kakri which are said to have been constructed by the Pandavs some five thousand years ago. Besides there is a temple of Shri Naina Devi Ji situated at the summit of the hill overlooking the plains which attracts about a lac of pilgrims from plains and the hills every year. This temple was built by Raja Bir Chand who ruled from 697-780 A. D. The fort at Kot Kehlur dates back to the 9th century.

Climate and Rainfall

The climate of the state is temperate and snow very rarely falls. In summer the heat is less than that of the plains, although it gets very hot sometimes. The rain fall varies from 30" to 70" but the average annual rainfall is 42".

History

The State was founded by Raja Bir Chand in 697 A. D. and Raja Kahal Chand, the sixth of the line built Kot Kahlur and the State subsequently derived its name from this old fort Raja Dip Chand, shifted his capital from Sunhani to a place on the Sutlej in 1653 and founded Byaspur in honour of Byasji. Since then the capital of the State is at Bilaspur. The State was taken over under Central Administration on 12th October, 1948.

Population

The population of the State, according the 1951 Census, comes to 126,099 souls. The density of the State comes to 281 per square mile. The tahsilwise density of the State is given below :—

Name of Tahsil		*Population*	*Area*	*Density*
Bilaspur Sadar	...	48,247	215	224·40
Ghumarwin	...	77,852	336	329.88

The distribution of population by livelihood classes is as below ;—

Name of livelihood Classes		*Population*
I	...	97,109
II	...	13,980
III	...	1,986
IV	...	1,323
V	...	5,541
VI	...	2,185
VII	...	297
VIII	..	3,678

About 97 per cent of the population live in the rural areas while the rest in the urban area.

Administration

The ruler of the Bilaspur State signed on agreement which resulted with the merger of the State into the Indian Union. It has now emerged as Part 'C' State administered by the Chief Commissioner appointed by the Central

Government. It has been allotted one seat in the house of People under the constitution of India. In view of its small size no Assembly or Council has been formed here. The local administration comprises the following departments :—

Serial No.	*Name of Department*	*Head of Office-Department*
1	General Administration	... Secretary to the Chief Commissioner.
2	Administration of Justice	... Judicial Commissioner, Himachal and Bilaspur.
3	Revenue Department	... Collector (assisted by Revenue Assistant and two Tahsildars).
4	Police Department	... Inspector General of Police, Delhi, Ajmer, Himachal and Bilaspur.
5	Forest Department	... Forest Officer.
6	Education Department	... Education Officer.
7	Medical Department	... Chief Medical Officer.
8	Public Health	... Ditto.
9	Veterinary	... Animal Husbandry Officer.
10	Jail	... Chief Medical Officer.
11	Agriculture	... Forest Officer.
12	Civil Supplies	... Civil Supplies Officer.
13	Public Works Department	... Chief Engineer, Himachal and Bilaspur.

Medical and Public Health

There is at present one General Hospital at the head-quarters. Three Allopathic dispensaries and two Vaidghars function in the rural areas of the State, two more dispensaries and three maternity and Child-Welfare Centres are intended to be opened in the near future. Besides two Sanitary Inspectors and two Vaccinators are working in the Health Department. The Medical aid is provided to all free of charge. The incidence of Malaria in the State is very high as according to the statistics collected for the year 1949, out of total deaths of 1,818 persons in the whole State, 1,352 were due to Malaria alone. Adequate precautionary measures are being taken to combat this menace.

Education and Literacy

During the census 1951, 7,052 persons have been found to be literate out of whom 6,221 males and 831 females. Out of the agricultural population 4,882 persons are literate consisting of 4,430 males and 452 females. Among the non-agricultural backward classes only 80 persons have been found to be literate

According to the Bilaspur State Gazetteer Part B (1934 edition) there existed in 1934 1 High School and 4 Primary Schools. At present there are 29 Primary Schools, 8 Secondary Schools, and 2 High Schools in the State.

Agriculture

The population of the State mainly depends upon agriculture. Out of a population of 126,099, the number of persons who earn their livelihood by agriculture comes to 114,398 or 90.7 per cent of the total population.

About 5 per cent of the total area is irrigated. The main source of irrigation is *Kuhls.* The crops mainly depend upon rainfall.

Crops —Rabi crops are wheat, gram, barley, sarson and *Masoor,* while in Kharif or the autumn, which is the principal harvest of the state, rice and maize are grown mostly. Besides sugarcane, poppy, cotton, pulses, and ginger are grown on the best soil and the *Kulath* on the inferior lands.

Industries

In big village, weaving of woolen *lois,* patus etc., is carried out. At Bilaspur proper leather boxes, curiously and neatly embroidered with horse-hair are manufactured. Iron, although found, but is not made use of for want of skilled workers. Slate stone is generally used for making roofs of the houses.

Local Bodies and Panchayats

There are two Small Town Committees functioning in the State viz., Bilaspur and Naina Devi. The Small Town Committee Bilaspur cansist of 9 elected and 3 nominated official members. The Collector is the President. The population of Bilaspur town is 3745 souls - males 2051 and females 1694, which comes to about 3% of the total population.

Small Town Committee Naina Devi has 6 elected and 2 nominated members, one of whom-the Tehsildar Sadar - is the President.

Panchayats.—The whole State has been divided into 40 revenue circles. In each circle Panchayat has been established, under the Punjab Panchayat Act which has been adopted by the State. The Panchayats have both judicial and administrative functions to discharge.

Rehabilitation of Displaced Persons

In entire Bilaspur State, there are only 165 displaced persons. Bilaspur proper has accommodated the largest number of 120 displaced persons, 40 are settled in Bilaspur Tahsil rural area and the remaining 5 are settled in Ghumarwin rural areas.

Places of Interest

Bilaspur.—Bilaspur is situated about 50 miles from Rupar and there is a regular Bus service between the two stations. It is the headquarters of the State. The places, hospital, school building, guest house, courts, secreteriat and Byas Gupha are worth seeing. The River Sutlej, passes by the town which adds to its beauty. A small Town Committee is functioning here. There is also Post Office and handsome temple of godess Deomati. The population of the town is 3745 souls.

Ghumarwin.—Ghumarwin is the headquarters of the tahsil of the same name and is situated towards the right side of the river on the Bilaspur-Haritaliangar road. There are a school, a Rest House, Police Station and a Post Office.

Naina Devi.—The most notable place of worship in the Bilaspur State is the temple of Naina Devi, situated on the hill of that name which rises some 3000 feet above the sacred town of Anandpur in Hoshiarpur District. The temple was built by Raja Bir Chand in the eighth century. "According to a legend Naina, an Ahir, to whom the accession of Raja Bir Chand had brought peace and protection, was herding cattle on the flat summit of a hill above Jandbhari, when he observed that his cows were giving their milk to a white stone. He informed the Raja who proceeded to the spot, and there found a beautiful image of the godess Durga close to the stone. A temple was forthwith erected, and called Naina Devi after the Ahir.

This temple stands on the very summit of the hill above a small bazar, and is reached by a long flight of stones steps. Until lately it was impossible to climb the hill otherwise than on foot, but recently a bridle road has been made.

A fair is held at Naina Devi in August, which is attended by large number of pilgrims from the plains. There is a Small Town Committee functioning here.

Bhakra.— Bhakra is situated at a distance of about 10 miles from the Nangal Township. What was recently a small village has now become a beautiful and attactive small town. A reservoir dam is to be constructed near Bhakra on the Sutlej and electric power will also be generated. Arrangements have also been made to dig a canal at Nangal, in Hoshiarpur District.

Drana.—This place is situated near the Swargha Bungalow and is famous for its spring called the 'Lund Spring' which contains water of reputed medicinal properties.

Swarghat.— It is a place situated on the Rupar-Bilaspur road at a distance of about 12 miles from Bilaspur. There are a bungalow and a Police Post. The scenery is pleasing. It is situated at an elevation of 3700' from sea level and is a healthy place.

Kot Kahlur.— In old days it was the capital of Bilaspur or the Kot Kahlur State and was founded by Raja Kahal Chand in the 9th century. There is a fort of Raja Kahal Chand and a Police Station.

LAKSHMI CHANDRA VASHISHTA

NOTE EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporatedin a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below:—

1. *Substitution of Economic Classification for Classification based on Religion:—*

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operations; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance into the following eight livelihood classes of the population:—

AGRICULTURAL CLASSES.

I. Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land; agricultural rent receivers and their dependants.

NON-AGRICULTURAL CLASSES

Persons (including dependants) who derive their principal means of livelihood from : —

V. Production other than cultivation.

VI. Commerce.

VII. Transport.

VIII. Other services and miscellaneous sources.

The resulting figures have been given in the Primary Census Abstracts which serves as the basis for village statistics.

2. *The Concurrent 10 per cent Sāmple :-*

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10 per cent sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. *Preservation of census records and registers*

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following data is included in the District Census Handbook and printed and published as such :-

i. Introduction to the District Census Handbook.

ii. District Census Tables (furnishing district data with break up for Census tracts, within the district).

iii. Census Abstracts :

(a) Primary Census Abstracts

(b) Occupational Abstracts and

(c) Census Abstracts of Small scale industries.

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES

I. *Area, Houses and Population*

(The area figures given in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Deptt : No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table).

II. *Variation in Population during fifty years.*

(The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of areas transferred to and/or from each tahsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941.)

III. *Towns and Villages classified by Population.*

IV. *Towns classified by population with variation since 1901.*

V. *Towns arranged territorially with population by livelihood classes.*

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together).

B. ECONOMIC TABLES

I. *Livelihood Classes and Sub-classes.*

(Non-earning dependants in this table mean economically passive persons i.e. who do not earn anything ; an earning dependant implies a person who is semi-active, i.e. whose earnings do not suffice his living and who has, therefore, to depend upon others ; self-supporting persons mean economically active persons i.e. who do not depend upon others, and are at least able to maintain themselves.

II. *Secondary means of livelihood*

(Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own ; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases ; the second best source of income has been given in this table as his secondary means of livelihood).

III. *Employers, Employees and Independent Workers*

(The self-supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independent Workers and are distributed in the various divisions and sub-divisions of Industries and services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive e. g. persons living principally on pensions, remittances, scholarships and funds, inmates of jails, asylums, almshouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self-supporting person falls)

C. HOUSEHOLD AND AGE (SAMPLE) TABLES.

I. *Household (Size and composition)*

This table has not been published in the handbook.

II. *Livelihood Classes by Age Groups.*

III. *Age and Civil Condition.*

IV. *Age and Literacy.*

V. *Single year Age returns.*

(Infants below 1 year of age have been shown under the age '0')

D. SOCIAL AND CULTURAL TABLES

I. Language—.

This table has not been published in the handbook.

II. Religion.

III. Scheduled Castes and Tribes.

(The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II)

IV. Migrants

(The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district)

V. Displaced Persons

(For Census purposes, a displaced person was taken to mean "any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan." But some persons, who had migrated to India from Western Pakistan even before 1st March, 1947, returned themselves as displaced persons at the time of Census taking for the simple reason that they had left their immovable property in Pakistan : such persons have also been included in the definition of 'Displaced persons').

6. Non-Indian Nationals. (This table was not prepared in the previous censuses : it has been based on a suggestion made by the U. N. Population Commission).

7. Livelihood Classes, by Educational Standards.

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes.

E. Summary Figures by Districts.

(This table furnishes selected data by Tahsils/tracts in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures have been given after giving effect to the adjustment of enclaves.)

A I—AREA, HOUSES AND POPULATION
