1981 CENSUS—PUBLICATION PLAN

(1981 Census Publications, Series 11 in All India Series will be published in the following parts)

GOVERNMENT OF INDIA PUBLICATIONS

Part I-A . . .	Administration Report-Enumeration
Part I-B . . .	Administration Report-Tabulation
Part II-A . . .	General Population Tables
Part II-B . . .	Primary Census Abstract
Part III . . .	General Economic Tables
Part IV . . .	Social and Cultural Tables
Part V . . .	Migration Tables
Part VI . . .	Fertility Tables
Part VII . . .	Tables on Houses and Disabled Population
Part VIII . . .	Household Tables
Part IX . . .	Special Tables on Scheduled Castes and Scheduled Tribes
Part X-A . . .	Town Directory
Part X-B . . .	Survey Reports on selected Towns
Part X-C . . .	Survey Reports on selected Villages
Part XI . . .	Ethnographic Notes and special studies on Scheduled Castes and Scheduled Tribes
Part XII . . .	Census Atlas
Paper 1 of 1982 . .	Primary Census Abstract for Scheduled Castes and Scheduled Tribes
Paper 1 of 1984 . .	Household Population by Religion of Head of Household

STATE GOVERNMENT PUBLICATIONS

Part XIII-A&B District Census Handbook for each of the 45 districts in the State.

प्राक्कथन

जनगणना संगठन द्वारा राज्य सरकारों की ओर से संकलित जिला जनगणना पुस्तिका जनगणना की एक बहुमूल्य उपलब्धि है। जिला जनगणना पुस्तिका की योजना निर्माताओं, प्रशासकों, विद्वानों और अनुसंधानकर्ताओं को बार-बार आवश्यकता होती है। अन्य बातों के साथ-साथ इस पुस्तिका का उपयोग निर्वाचन क्षेत्रों के परिसीमन, स्थानीय स्तरों के निर्धारण और क्षेत्रीय योजनाएं बनाने में भी किया जाता है। यह पुस्तिका जिला प्रशासन चलाने में भी सहायक होती है। जिला जनगणना पुस्तिका ही एक मात्र ऐसा प्रकाशन है जिससे ग्रामीण क्षेत्रों के ग्राम स्तर तक के एवं प्रत्येक नगरीय क्षेत्र के वार्ड वार प्राथमिक जनगणना सार के आंकड़े उपलब्ध होते है इसमें ग्रामों और नगरों आदि में उपलब्ध आंतरिक सुविधाओं के बारे में भी जानकारी मिलती है।

जिला जनगणना पुस्तिका की श्रृंखलाओं का प्रारम्भ 1951 की जनगणना में किया गया था। इसमें जिले के प्रत्येक ग्राम और नगर का प्राथमिक जनगणना सार और जनगणना की महत्वपूर्ण सारणियां होती है। 1961 के दौरान जिला जनगणना पुस्तिका के विषय क्षेत्र का विस्तार किया गया। इसमें जिले का विस्तृत ब्यौरा, प्रशासनिक सांख्यिकी, जनगणना सारणियां और प्राथमिक जनगणना सार को मिलाकर ग्राम और नगर निर्देशिका भी शामिल की गई। 1971 की जिला जनगणना पुस्तिका की श्रृंखलाओं को तीन भागों में बाटा गया था। क—भाग में ग्राम और नगर निर्देशिका, ख—भाग में ग्राम और नगर का प्राथमिक जनगणना सार और ग—भाग में विश्लेषणात्मक रिपोर्ट, प्रशासनिक साख्यिकी, जिला जनगणना सारणियां, प्राथमिक जनगणना सार पर आधारित कुछ विश्लेषणात्मक रिपोर्ट और ग्रामों के बारे में वहां उपलब्ध सुविधाओं के आंकड़े शामिल थे। तथापि, कुछ राज्यो मे इसमें केवल जिला जनगणना सारणियां ही दी गई थी। कुछ ऐसे भी मामले थे जहां सकलन और मुद्रण में देरी होने से उक्त पुस्तिका प्रकाशित ही नही की गई।

1981 की जिला जनगणना पुस्तिका के फार्म तैयार करते समय ग्राम और नगर निर्देशिका के फार्मो में कुछ नए कालम जोड़कर उन्हें फिर से तैयार किया गया। उक्त फार्म बनाते समय 1971 के आंकड़ो की तुलनात्मकता को भी ध्यान में रखा गया है। ग्रामों में बिजली की आपूर्ति के अलावा बाकी उपलब्ध सभी सुविधाओं को ग्राम निर्देशिका मे इस अनुदेश के साथ दिखाया गया है कि यदि कोई विशिष्ट सुविधा किसी ग्राम में उपलब्ध नही है तो जिस भी निकटतम ग्राम में उक्त सुविधा उपलब्ध है तो उसकी दूरी भी बताए। ग्राम निर्देशिका के फार्मो को पुनः तैयार करते समय ग्रामीण क्षेत्र मे उपलब्ध समस्त आंतरिक सुविधाओं, विशेषकर सुविधाओं और भूमि उपयोग की किस्मों के बारे में और व्यापक आंकड़े समाविष्ट करने से यह आशा की जाती है कि इससे माइक्रोस्तरीय योजना की आवश्यकता और पूरी हो सकेगी। इससे न केवल स्थानीय क्षेत्रों में योजना तैयार करने में सहायता मिलेगी अपितु माल और सेवाओं को भी विनियमित करने और विकास प्रक्रिया में क्षेत्रीय असंतुलन को कम करने में भी सहायता मिलेगी। सशोधित न्यूनतम आवश्यकता कार्यक्रम की कुछ आवश्यकताओं की पूर्ति के लिये संबंधित जानकारी की कुछ नई मदें जोड़ी गई हैं। ये नई मदें है : प्रौढ़ शिक्षा केन्द्र, प्राथमिक स्वास्थ्य-उप केन्द्र और ग्रामों में सामुदायिक स्वास्थ्य कार्यकताओं से संबंधित मदों को उक्त उद्देश्य को ध्यान में रखते हुए ग्राम निर्देशिका में जोड़ा गया है। किसी गांव में आने-जाने के साधनों के बारे में जो नया मद जोड़ा गया है उसका अभिप्राय जिले के उन ग्रामों की जानकारी एकत्रित करनी है। जिसमें आना-जाना बहुत कठिन है अर्थात् जो अगम्य है। एक नया कालम "कुल जनसंख्या और परिवारों की संख्या" को यह ज्ञात करने के लिये जोड़ा गया है कि उनके गांव की जनसंख्या और परिवार सख्या कितनी है और उनके अनुसार कितनी सुविधाएं उपलब्ध है। दो नए परिशिष्ट और जोड़े गए है जिनमें से एक उन ग्रामों के बारे में है जहां कोई सुविधा उपलब्ध नहीं है तथा दूसरी, कुल जनसंख्या के अनुपात में अनुसूचित जाति और अनुसूचित जनजाति की जनसंख्या से संबंधित है।

नगर निर्देशिका के फार्मों में भी कुछ संशोधित किए गए हैं जिससे की कुछ मदों के बारे में जानकारी मिल सके और न्यूनतम आवश्यकता कार्यक्रम कीं आवश्यकताओं की पूर्ति हो सके। इसी उद्देश्य को ध्यान में रखते हुए श्रेणी-I और श्रेणी-II के कस्बों की गन्दी बस्तियों में नागरिक और अन्य सुविधाओं के बारे मे एक नया विवरण (विवरण-IV क) जोड़ा गया है। आशा की जाती है कि इससे प्राप्त जानकारी आयोजकों को गन्दी बस्तियों के सुधार के लिये कार्यक्रम तैयार करने में सहयोग देगी। इसी बात को ध्यान में रखते हुए नागरिक और अन्य सुविधाओं के बारे में विवरण IV में अनुसूचित जातियों और

अनुसूचित जनजातियों से संबंधित कालम और विवरण-V में शैक्षिक सुविधाओं के अंतर्गत प्रौढ़ शिक्षा कक्षाएं/केन्द्रों के बारे में अन्य बातों के साथ-साथ कालम जोड़े गए हैं। नगर निर्देशिका में एक महत्वपूर्ण परिवर्धन है। सभी सातों विवरणों में कस्बे की श्रेणी के बारे में कालम I देश के नगरीय क्षेत्रों, में उपलब्ध आंतरिक सुविधाओं की जानकारी का कस्बे की श्रेणी को ध्यान में रखते हुए सर्वोत्तम विश्लेषण किया जा सकता है। कुछ विवरणों में नागरिक प्रशासन की स्थिति और जनसंख्या के कालम जोड़ने से भी इस उद्देश्य की पूर्ति होती है।

1981 की जनगणना से भरी गई व्यक्तिगत पर्चियो के आर्थिक और अन्य प्रश्नों में जो भी परिवर्तन किए गए, उन्हीं परिवर्तनो को ध्यान में रखते हुए ग्रामों और नगरों के प्राथमिक जनगणना सार के फार्म तैयार किए गए हैं।

1981 की जिला जनगणना पुस्तिका के प्रकाशन में विलम्ब न हो, इस बात को ध्यान में रखते हुए उक्त खण्ड के भाग–क में ग्राम एवं नगर निर्देशिका तथा भाग–ख में तहसील/कस्बा स्तरों तक जनगणना का प्राथमिक सारांश के साथ अनुसूचित जातियों और अनुसूचित जनजातियों के प्राथमिक जनगणना सार को भी सम्मिलित किया गया है। जिला जनगणना पुस्तिका के महत्व को सवर्धित करने के लिये उसके प्रारम्भ में एक विस्तृत विश्लेषणात्मक टिप्पणी दी गई है जिसमें विभिन्न इनसेट सारणियां सम्मिलित हैं। जो प्राथमिक जनगणना सार और अन्य सुविधाओ से सबधित और जनगणना आंकड़ो पर आधारित है। प्रकाशन को पुन: और उपयोगी बनाने की दृष्टि से उपयुक्त स्थानो पर जिला और तहसील/पुलिस स्टेशन/सामुदायिक विकास खण्डों आदि को मानचित्र में दिया गया है। मानचित्रों मे इनकी सीमाएं और अन्य महत्वपूर्ण विशेषताए दिखाई गई हैं।

यह प्रकाशन राज्य सरकार और जनगणना सगठन के सयुक्त प्रयास का फल है। राज्य में आंकड़ों का संकलन श्री के. सी दुबे, निदेशक जनगणना परिचालन मध्यप्रदेश के मार्गदशन पर राज्य सरकार की ओर से किया गया है। राज्य सरकार न ही इसके मुद्रण का खर्च वहन किया हैं। इस प्रकाशन की योजना, रूपरेखा और इसके समन्वय का कार्य मेरे कार्यालय में सामाजिक अध्ययन प्रभाग में उप महारजिस्ट्रार श्री एन. जी. नाग द्वारा किया गया। डा. बी.के. राय, उप महारजिस्ट्रार (मानचित्र) ने मानचित्रों को तैयार करने में तकनीकी मार्गदर्शन किया। जन-गणना निदेशालयों से प्राप्त आंकड़ों की सवीक्षा श्री एम. एम. दुआ, अनुसधान अधिकारी के मार्गदर्शन में मुख्यालय के सामाजिक अध्ययन प्रभाग में की गई। इस परियोजना से संबधित सभी कर्मचारियों को मैं धन्यवाद देता हूं।

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State governments is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is inter alia used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables, village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objectives in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled castes and scheduled tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class II towns (Statement IV-A) has been introduced with this objective in mind It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement

are also added *inter-alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of ir set tables based on PCA and non-census data in relatio.1 to the infrastructure has been introduced to enhance its value. The district and tahsil/police station/C D Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri K.C. Dubey, the Director of Census Operations, Madhya Pradesh on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in the project.

P. PADMANABHA
REGISTRAR GENERAL, IND'A

New Delhi
the 26th April, 1982

PREFACE

One of the most important publications of the Census are the District Census Handbooks. This publication was begun in this caption since 1951 Census. But prior to this, a similar publication was released in the Census earlier than 1951. That publication was on the title of Village Statistics and it contains only village names and total population thereof. The 1951 Census could, therefore, be said to represent a significant step in the process of making detailed Census statistics available down upto the village level.

In fact the District Census Handbook is the most important publication at the Census and is also perhaps the most widely used. Also perhaps this is the only publication used at the micro-level down upto the tahsil and development block.

The form of the District Census Handbook has gone considerable change since 1951. This is basically due to the growing demand for more information. For the purpose of convenience as well as with a view of making the basic statistics available with the data users as early as possible, the District Census Handbooks have been split into 2 parts. Part A contains the Introductory Note on the district and Town/ Village Directory. This volume will be found useful to get almost all the non-Census statistics available at one place. Part-B also contains an introductory note and the Primary Census Abstract

One of the innovation of the present Census has been in terms of allotment of Location Code numbers to the villages. In the earlier Censuses the Location Code system was such that the villages of a Patwari Circle were found at different serial numbers. Since the Patwari Circle still remains an important administrative unit, the Location Code numbers have been so given in the present Census that it may be possible to locate all the villages of a particular Patwari Circle at one place one below the other.

When the planning for the present Census was started in 1979 the tahsils were still revivable as an important unit of the administration, the whole planning was, therefore, done taking tahsil as the unit. It was during the course of the Census that some requests were informally received for making blockwise data available. Since these requests were received very late and were also received only in an informal manner, it has not been possible to disturb the original planning of villages arranged according to the location code numbers taking tahsil as one unit. However, additional exercise has been done and in addition to the tahsil figures blockwise figures have also been indicated. It is hoped that the availability of these blockwise data will enhance the utility of this publication.

It is hoped that this handbook will provide the basic statistical support to executive and developmental administration. It is needless to state that the proper implementation of policy depends on the ability of the administration authorities concerned.

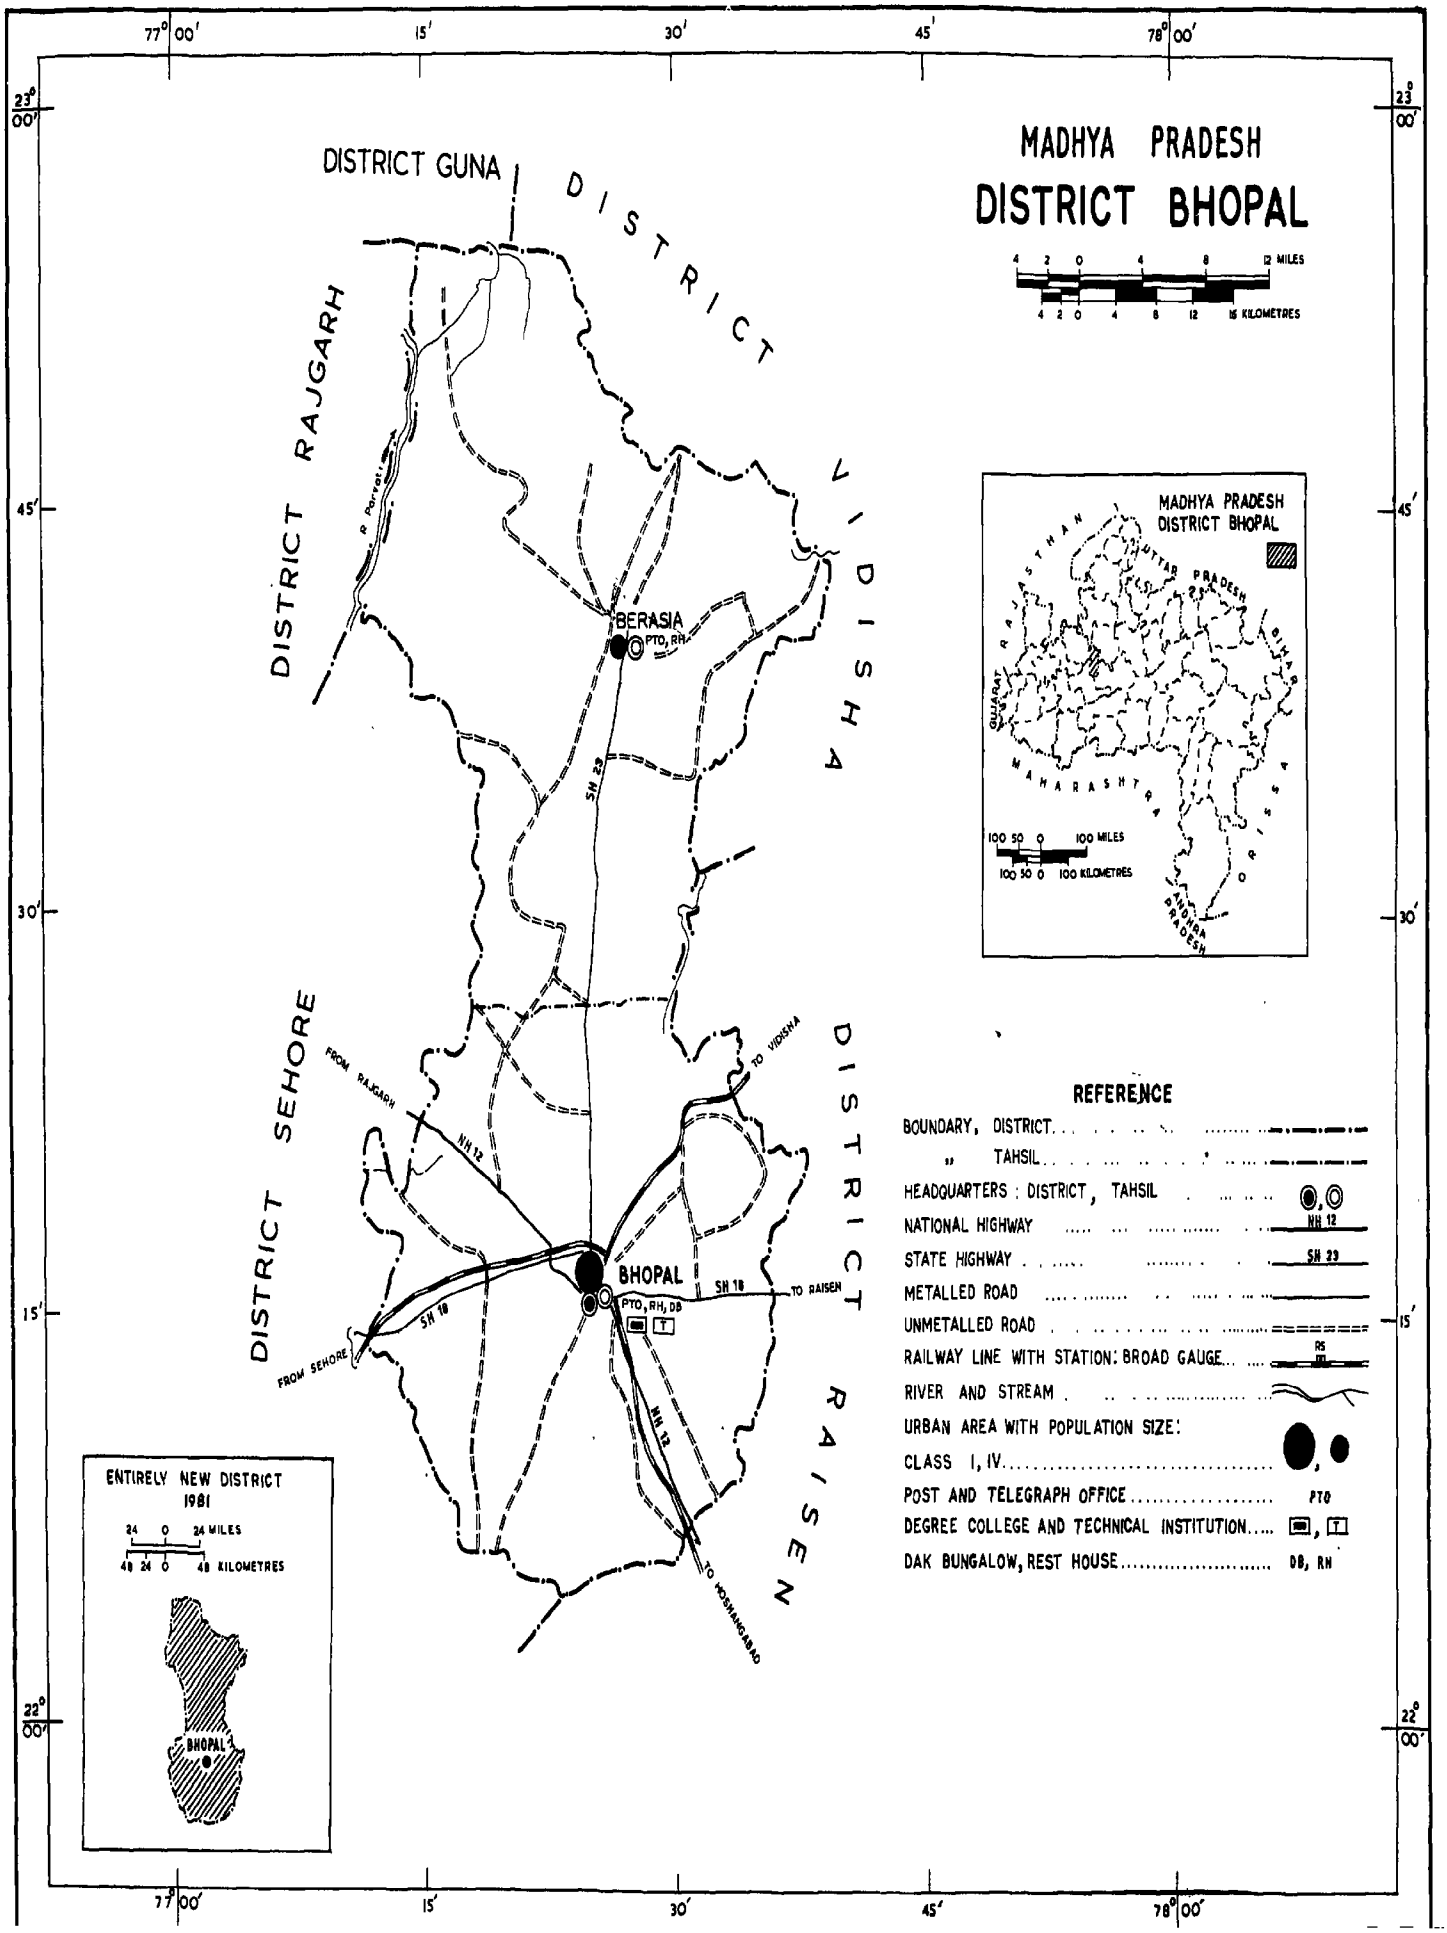

It may be remembered that the villagewise area figures given in the Primary Census Abstract and the Village Directory are those besed on the village papers while the tahsil totals given in the PCA are obtained from the Land Records department which in many cases exclude forest areas.

The statistics that are contained in the District Census Handbooks are the result of a massive and marathon exercise in the compilation and tabulation of voluminous statistics. The compilation of the statistics contained in this volume was carried out by 9 Regional Tabulation Offices each under a Regional Deputy Director of Census Operations. These Regional offices were run with the help of purely temporary staff-roughly about 1,500 Tabulators, about 250 Checkers and about 80 Supervisors. I am grateful to my colleagues the Regional Deputy Directors and those temporary staff for the speed and accuracy in the editing and basic compilation of more than nearly 522 lakhs slips and nearly 1 lakh of household schedules. The compilation of village Directory was taken up at the Headquarters and I am equally grateful to the officers and staff who have worked whole heartedly on the job in a collective and co-operative venture. It is not possible nor fair to name in this. The maps contained in the Handbook have been prepared in the Cartographic Section of my office. However, the analytical note included in this volume has been prepared by Shri M L. Sharma, Deputy Director of Census Operations.

I am thankful to all who have contributed to bring this publication possible. The Census Organisation is also grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these handbooks and to the Controller, Printing and Stationery, Madhya Pradesh, Bhopal and his staff for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri P. Padmanabha, to whom we are all deeply grateful. Our thanks are also due to Shri N.G. Nag, Deputy Registrar General (Social Studies) for all the help that we received from him and his section.

K. C. DUBEY
Director of Census Operations,
Madhya Pradesh.

* Includes 77 inhabited villages which have been treated wholly as urban outgrowth of near by City/Town.

** Includes 58 Uninhabited villages of which Abadi Area have been merged in near by City/Town.

विश्लेषणात्मक टिप्पणी

ANALYTICAL NOTE

NOTES AND EXPLANATIONS

This note gives the meanings and explanation of terms and concepts used in this handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker etc., it is not possible to appreciate the data presented in the handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a bit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manners of criminals and shady characters is as much a household as the hous hold of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent.

Concepts and Definitions

Rural/Urban :

It has been the tradition of the Indian Census to present the Census data for rural and urban areas separately. In fact, in all the Censuses throughout the world this classification of census data into rural and urban units is generally recognised. However, distinction between rural and urban is not yet amenable to a single definition which would be applicable to all countries.

The definition of an urban unit at the 1971 Census was as follows :—

(a) All places with a municipality, corporation, cantonment board or notified town area;

(b) All other places which satisfied the following criteria;

(i) A minimum population of 5,000,

(ii) At least 75 per cent of male working population engaged in non-agricultural pursuits ; and,

(iii) A density of population of at least 400 per sq. km (1,000 per sq. mile).

The same criteria is retained at the 1981 Census also so that comparability with the previous Census could be ensured and which should provide basis for analysing of figures and urbanization in the country. But it has to be remembered that the urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses in that the males working in activities such as fishing, logging, etc. were treated as engaged in non-agricultural activity and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

Applying the criteria described above, a list of 327 towns was finalised and it is these 327 towns which are treated as urban areas for the purpose of 1981 Census. The Additional Secretary to the Government of India in the Ministry of Home Affairs sent a letter to the Chief Secretaries of the State Governments as back as 10th May, 1979, requesting them to ensure that no changes are made in the jurisdiction and boundaries of municipalities and revenue villages, tahsils, sub-divisions and districts during the period from 1-1-1980 to 30-6-1981. However, subsequent to our finalisation of rural and urban frame the State Government in the Local Government Department notified many places as notified areas and municipalities Such places have not been treated as towns for the purpose of Census and the Secretary to Government in the Local Government Department had agreed to this arrangements Similarly the State Government raised the status of 6 municipal committees to that of municipal corporations. These new municipal corporations are also treated as municipal committees.

While dealing with the subject of rural and urban break up mention may be made of the area under the Special Area Development Authority. The

Special Area Development Authority have been constituted under the Madhya Pradesh Nagar Tatha Gram Nivesh Adhiniyam, 1973 and they enjoy the power to function as a municipality so far as the municipal management of that area is concerned. The limits of these Special Areas include large portions of rural areas comprising number of villages situated around the core town or village of such Special Area. For example, Orchha is a SADA area in Tikamgarh district but there is no town in this area. Similarly, Malanjkhand in Balaghat district, Bhedaghat in Jabalpur district, Mandav in Dhar district and similar other cases are SADA areas but there is no urban area within that. The objective of the SADA area perhaps is to control the future development of these in a planned manner and that is all. It was therefore, not considered desirable to treat such SADA areas at par with other urban bodies like municipal corporations, municipal committees etc, and only that part of it is treated as urban which is really so. As such in the Korba SADA area only Korba town has been treated as urban and rest of the area remains in the rural frame.

Urban Agglomeration :

Apart from town/city the 1971 concept of urban agglomeration is also adopted for the 1981 Census. Very often large railway colonies, university campuses port areas, military camps, etc. come up outside the statutory limits of the city or town but adjoining it. Such areas may not by themselves qualify to be treated as towns but if they form a contiguous spread with the town, they are outgrowths of the town and deserve to be treated as urban. Such towns together with their outgrowths have been treated as one urban unit and called 'urban agglomeration'. An urban agglomeration may constitute :—

(a) A city with continuous outgrowth, (the part of outgrowth being outside the statutory limits but failing within the boundaries of the adjoining village or villages);

(b) One town with similar outgrowths or two or more adjoining towns with their outgrowths as in (a); or

(c) A city and one or more adjoining towns with their outgrowths all of which from a continuous spread.

Standard Urban Area :

A new concept of Standard Urban Area introduced in 1971 Census will also be followed for the 1981 Census. The essential requirements for the constitution of a Standard Urban Area are:—

(i) it should have a core town of a minimum population of 50,000 (ii) the contiguous areas made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town and (iii) in all probability this entire area should get fully urbanised in a period of two or three decades. Certain Standard Urban Areas were determined on this basis in 1971 and some basic data were presented for 1951, 1961 and 1971 for such areas and their components. Similar data have been presented for the Standard Urban Areas in 1981 also. The idea is to present basic data for these Areas for four to five decades so that the urbanisation process in these areas can be studied. However, there have been minimum changes in the constituent units of the Standard Urban Areas of 1981 Census as compared to those of 1971, but the list of Standard Urban Areas remains unchanged.

Size Class of Towns :

The urban areas are classified into 6 classes referred to as towns of Class I to VI. The classification is shown below :—

Class I	100,000 and above
Class II	50,000 to 99,999
Class III	20,000 to 49,999
Class IV	10,000 to 19,999
Class V	5,000 to 9,999
Class VI	Less than 5,000

It is customary to treat a town having a population of 1 lac and above as a city.

Census House :

A Census House is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc , used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

If a building had a number of flats or blocks which were independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, they have been considered as a separate census houses.

In some cases, however, it was difficult to apply the definition strictly. For example, in an urban area, a flat has five rooms, each having direct entrance to the common staircase or courtyard which by definition, had to be treated as five Census houses. If all these five rooms were found occupied by single household entire flat was treated as one census house. In such cases singleness of use was taken into consideration to avoid undue proliferation of the number of census houses.

An occupied residential census house means a census house which is actually used for residential purposes, either wholly or partly by one or more households.

Household :

The term household in census is defined as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any one of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both Examples of unrelated households are boarding houses, messess, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called Institutional households. There may be one member households, two member households or multimember households. For census purposes, each one of these types is regarded as a 'household'.

There are three types of households viz , normal, institutional and houseless households. A houseless household is that which is normally found to be residing on the road side, pavements, in hume pipes, under staircases, or in open, temple, mandaps, platforms and the like. Institutional households have been explained above. Those households which do not fall in the category of institutional household and houseless household have been categorised as normal households, The enumerator was required to indicate in the Household Schedule whether the household belonged to 'Institutional household' or 'Houseless household'. For institutional 'I' was written against the question "Type of household" and 'O' was indicated in the case of houseless household. For normal household, no entry was required to be made.

The enumeration of institutional households was done in the manner the normal households were enumerated during the enumeration period from 9th February to 28th February, 1981. The houseless households were enumerated on the night of 28th February, 1981.

Scheduled Castes and Scheduled Tribes :

Scheduled Castes and Scheduled Tribes are those found in the Notification of Scheduled Castes/ Scheduled Tribes Order (Amendment) Act, 1976 (108 of 1976). By this amendment, area restrictions for most of the Scheduled Castes and Scheduled Tribes have been removed. However, the area restrictions still remains in respect of Dhobi (in Bhopal, Raisen and Sehore districts): Kotwal and Pardhi (in Bhind, Dhar, Dewas, Guna, Gwalior, Indore, Jhabua, Khargone, Mandsaur, Morena, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha Districts) and Kumhar (in Chhatarpur, Datia, Panna, Rewa, Satna Shahdol, Sidhi and Tikamgarh districts) Scheduled Castes. Likewise Keer and Pardhi Scheduled Tribes are still restricted only in Bhopal, Raisen and Sehore districts; Mina in Sironj sub-division of Vidisha district; Panika in Chhatarpur, Datia, Panna, Rewa, Satna, Shahdol, Sidhi and Tikamgarh districts, Pardhi, Bahelia, Bahellia. Chita Pardhi, Langoli Pardhi, Phanse Pardhi, Shikari, Takankar, Takia in [(1) Bastar, Chhindwara, Mandla, Raigarh, Seoni and Surguja districts, (2) Baihar tahsil of Balaghat district, (3) Betul and Bhainsdehi tahsils of Betul district, (4) Bilaspur and Katghora tahsils of Bilaspur district, (5) Durg and Balod tahsils of Durg district, (6) Chowki, Manpur and Mohala Revenue Inspectors Circles of Rajnandgaon district, (7) Murwara, Patan and Sihora tahsils of Jabalpur district, (8) Hoshangabad and Sohagpur tahsils of Hoshangabad district and Narsimhapur district (9) Harsud tahsil of Khandwa district, (10) Bindra-Nawagarh, Dhamtari and Mahasamund tahsils of Raipur district.]

Persons belonging to the castes/tribes mentioned above found in the districts other than those where

scheduled have not been treated as scheduled castes or scheduled tribes as the case may be. It may be mentioned here that scheduled castes can be belong to the Hindu or the Sikh religion only, while the scheduled tribes belong to any religion. The list of Scheduled Castes and Scheduled Tribes relating to Madhya Pradesh relevant to 1981 Census has been given immediately after this note as Annexure—I

Literates and Educated Persons

A person who can both read and write with understanding in any language is treated as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed and minimum educational standard.

The test for literacy was necessary only when the enumerator had any doubt about any person returning as 'literate'. The test for literacy was ability to read any portion of the Enumerator's Instruction Booklet and to write a simple letter. Ability merely to sign one's name was not considered adequate to qualify a person as being able to write with understanding. If a person claimed to be literate in some other language with which the enumerator was not familiar, the respondent's word was taken as correct.

All children of the age of 4 years or less were treated as illiterate even if they might be going to school and had picked up reading and writing a few words.

Classification of workers by Industrial Category :

At the 1981 Census, the questions which were canvassed in the Individual slip to elicit information on economic characteristics of the population were as follows :—

(i) **Q. 14A** Worked any time at all last Year ?

Yes
No(H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? Yes (1)/No(2)

(ii) **Q. 15A** Main activity last year ?

Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

14B Yes-Any other work any time last year ?
Yes (C/AL/HHI/OW)/No

Q. 15B 14B No-Work done any time last year ?
(C/AL/HHI/OW)

(iii) **Q. 16**-If no in 14A or 14B, seeking/available for work ? Yes (1)/No(2)

The above questions were formulated after detailed discussion at the Data User's Conference and technical group. At the 1961 and 1971 Censuses, the economic questions were based on different approaches, namely, usual status and current status, were adopted with reference period of one year and one week for seasonal and for regular work respectively. Current status approach was thought to be irrelevant in the context of our country where usual status of a worker is considered to be more appropriate.

The above questions are in three parts and have been designed in such a way that first of all it attempts to divide the population into two broad groups viz.,

(1) those who have worked at all during the last year, and (2) those who have not worked at all.

The latter group consists of the non-workers. This information is obtained in Q. 14A Having classified the population into two groups, the next attempt has been to classify those who have worked any time into Main workers and Marginal workers, on the basis of time spent on work as well as secondary work, if any, of the Main workers. It a person had worked for six months or more (180 days or more) he was treated as Main Worker and if the period of work was less than six months he was regarded as a Marginal Worker. In Q. 15B details of secondary work or marginal work are obtained. Finally an attempt has been made to de ermine whether those who are non-workers or marginal workers are seeking or are available for work.

It will thus be seen that these questions on economic aspects have been so designed as to identify all workers, full time workers or seasonal workers or marginal workers and non-workers with reference to the activities during the last one year period prior to the date of enumeration.

The various terms and definitions used in collecting the economic data have been explained briefly in the following paragraphs.

Definit on of work :

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

For persons on regular employment or engaged in regular type of work, temporary absence during the reference period on account of illness, holiday, temporary closure, strike etc., was not a disqualification for treating them as workers.

Persons under training, such as apprentices, with or without stipends or wages were also treated as workers. In the case of a person who had been offered work but had not actually joined, he was not treated as a worker. Rent receivers, pensioners etc., were not treated as economically active unless they also engaged themselves in some economic activity.

In all these questions, the reference period is the one year; preceeding the date of enumeration. Certain tapes of work such as agriculture, household industry like *gur* making etc., are carried on either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In all such cases the reference period has been the broad time span of the agricultural seasons preceeding the enumeration.

Main Workers :

The main workers are those who have worked for a major part of the year preceeding the enumeration. Main activity of a person who was engaged in more than one activity was reckoned in terms of time disposition. For example, if a person had worked as daily wage labourer for 4 months, as an agricultural labourer for 1 month and as cultivator for 2 months, he was treated as a Main worker on the basis of total time spent on work and his main activity have been reckoned as Daily Wage Labourer since he spent major part of his time on work in this activity than as cultivator or agricultural labourer.

Marginal Workers :

Marginal workers are those who have worked any time at all in the year preceeding the enumeration but have not worked for a major part of the year. For example, if a person who is mostly doing household duties, or is mainly a student, or mainly a dependent or a rentier or a beggar and the like who is basically a non-worker had done some work at some time during the reference period, he was treated as a marginal worker.

Non-Workers :

Non-workers constitute of householders, students, dependents, retired persons or rentiers, beggars, inmates of institutions, unemployed persons etc. They are persons who have not worked any time at all in the year preceeding the enumeration.

Main activity of workers :

The main activity of workers has been classified into four categories viz., cultivator, agricultural labourer, household industry and other work in the PCA at the 1981 Census. A significant departure has, therefore, been made this time while presenting the data on economic activity which relate to only four broad categories indicated above as against nine industrial categories of the 1961 and 1971 Censuses. The nine categories of the 1971 census were (i) Cultivators, (ii) Agricultural labourers, (iii) Livestock. Forestry, Fishing Hunting & Plantations, Orchards & allied activities; (iv) Mining, & Quarring (v) Manufacturing, Processeing and servicing with sub-categories (a) At Household Industry and (b) Other than Household Industry (vi) Construction, (vii) Trade and Commerce, (viii) Transport, Storage and Communications; and (ix) Other workers. The correspondence between the categories of 1981 and 1971 are as under :—

1981 Categories	1971 Categories
I	I
II	II
III	V(a)
IV	III,IV,V(b),VI,VII,VIII & IX

Cultivator :

For purposes of Census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land

owned or held from Government or held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc. and pulses, raw jute and kindered fibra crop, cotton etc., and 'does not' include fruit growing, vegetable growing or keeping orchards or groves or working of plantation like tea, coffee, rubber, cinchona, opium and other medicinal plantations.

Agricultural Labourer :

Person working in another person's land for wages in money, kind or share has been treated as agricultural labourer. An agricultural labourer has no risk in the cultivation and he has no right of lease or contract on land on which he works.

Household Industry :

Household Industty is defined as an industry conducted by the head of the household himself/herself and or by the members of the households at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Household industry relates to production, processing, servicing, repairing or making and selling (but not merely selling) of goods such as handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, bicycle repairing, blacksmithing, tailoring etc. It does not include professions such as a pleader or doctor or barber or dhobi even if such professions are run at home by members of the household.

Other Workers :

All workers i.e. those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in household industry are 'Other workers'. The type of workers, that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists etc.

ANNEXURE I

MADHYA PRADESH

[The Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976.]

Dated the 18th September, 1976.

Scheduled Castes :

1 Audhelia
2 Bagri, Bagdi
3 Bahna, Bahana
4 Balahi, Balai
5 Banchada
6 Bargunda

HISTORY AND SCOPE OF DISTRICT CENSUS HANDBOOK

The History of the District Census Handbook could be traced from the 'Village lists' brought out for every district in 1901 and 'Village Statistics' for every district in 1911. But this was discontinued in 1921 and 1931. In 1941, however, 'village statistics' were brought out by the then Central Provinces and Berar Government. It was for the first time in 1951 the practice of bringing out a single volume known as the District Census Handbook, giving villagewise statistics and other census tables for the district at the cost of the State Government was initiated and is continuing since then.

The District Census Handbook, compiled by the Census Organisation of behalf of the State Government is one of the most important publication of the census and is widely used by planners, administrators, academicians and researchers.

The scope of the District Census Handbook has gone considerable change since 1951. In 1951 the District Census Handbooks contained only the Primary Census Abstract and the Census tables. In view of the usefulness of this publication, improvements were made in 1961 by including non-census data like climate, agriculture, co-operation, industry, education, health etc., as also an 'Introductory Note' for each district. Unfortunately, the desire to make the District Census Handbook more comprehensive delayed its publication. Therefore in 1971, it was decided to publish the District Census Handbook in three parts in order to release the maximum data as and when finalised. Part A contained the Village Directory which gives villagewise non-census statistics of land use area and amenities available within the village, Part B contained the Villagewise Primary Census Abstract and Part C contained various administrative statistics. Parts A and B were however, published in one volume since it was economical to do so as data for both the parts become available early. Parts A and B were published separately in Hindi and English versions. Collection of data for Part C was cumbursome and it took unduly long time in its finalisation, and ultimately this publication had to be abondoned in view of the enormous delay in its printing.

In 1981 Census, with a view to avoid delay in bringing out the DCH series, the part containing the administrative statistics has been dropped. Thus the present series of District Census Handbook consists of two volumes viz DCHB Part A and DCHB Part B. Part A contains the village/Town Directory and Part B contains the Town/Villagewise Primary Census Abstract of the concerned district.

Part A—Village Directory contains information about the name of village, total area of village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, market day, communications, approach to village, distance from the nearest town, power supply, staple food, land use, places of religious, historical and archaeological interest etc.

In addition there are four appendices to the Village Directory as under :—

(1) Tahsilwise abstract of educational, medical and other amenities.

(2) Land utilization data in respect of census towns.

(3) Tahsilwise list of villages where no amenities are available, and

(4) Tahsilwise list of villages according to the proportion of Scheduled Castes / Scheduled Tribes population by ranges.

The last two appendices have been included for the first time in 1981 Census. Appendix-III will be helpful for planning input in areas/villages where basic infrastructure is lacking and Appendix - IV will be helpfull for planning welfare programmes for Scheduled Castes/Scheduled Tribes at micro level, particularly in relation to area development orientation programmes.

Similarly the Town Directory contains seven statements as below :—

Statement I—Status and growth history.

Statement II—Physical aspects and location of towns.

Statement III—Municipal Finance.

Statement IV—Civic and otheramenities.

Statement V—Medical, educational, recreational and cultural facilities.

Statement VI—Trade, Commerce, Industry and Banking.

An additional statement IV-A is meant only for Class-I and Class-II towns giving the civic and other ameni-ties in notified slums This statemnet has been intruduced for the first time in 1981 census.

Part B—The town/villagewise Primary Census Abstract gives the basic data like area of the village, occupied residential houses, total number of households, population by sex, as also the sexwise population of Scheduled Castes and Scheduled Tribes, literacy and population by sex into four broad industrial categories viz., cultivators, agricultural labourers, household industry and other workers; marginal workers and non-workers.

The inclusion of Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes at the tahsil/town level i[illegible]ier important feature of the DCHB series of 1981 Census.

An appendix containing Development Blockwise 'Vikash Khandwar' totals of PCA figures has also been included.

ANALYTICAL NOTE

Bhopal is a new district carved out of the erstwhile Sehore district of Bhopal division under the State Govt. Notification No. 24-15/77/बाद/ब.ए.क dated 13th Septmber 1972. During the days of princely State, Sehore was known as Nizamat-mashriq or the western district. It comprises of the two tahsils viz, Huzur and Berasia of the former Sehore district of 1971 Census and lies in Malva Plateau.

The district derives its name from the district headquarters town Bhopal which is also the capital of Madhya Pradesh. The name "Bhopal is popularly derived from Bhojpal or Bhoja's dam" the great dam which now holds up the Bhopal city lakes, and is said to have been built by a Minister of Raja Bhoj, the Paramara ruler of Dhar, the still greater work which formerly held up the Tal lake being attributed to this monrach himself. The name is, however, invariably pronounced, Bhupal and Dr. Fleet considers it to be derived simply from Bhupala, a king, the popular derivation being an instance of the striving after a meaning so common in such cases"*. In his "Report of Malwa and Adjoining Districts" (p-7) Sir John Malcolm has mentioned "Bhopal, we are told, derived its name from its Rajput founder who is said to have been the minister of the celebrated Raja Bhoj and was built at the same time that his master formed the present District of Tal into a lake and founded near it the city of Bhojpur, now in ruins."

The geographical area of the district is 2,772 sq kms according to the figures supplied by the Surveyor General of India which is 0.62 per cent of the total geographical area of the State. Bhopal is the second smallest district in the State in terms of area. It is situated in the central part of the state and lies between latitude 23°05' and 23°55' N and longitude 77°10' and 77°39' E and is bounded by Rajgarh district in the north west; Vidisha district in the north east; Raisen district in the east and south-east and Sehore district in the west and south-west.

According to the 1981 Census, the population of the district is 894,739 persons with 477,531 males and 417,208 females. 212,886 persons are found living in 503 inhabited villages and as many as 681,853 persons living in two urban units viz Bhopal and Berasia of the district. The former being the capital of the State of Madhya Pradesh with 671,218 persons. The district is therefore preponderently urban in character with 76.21 rpe cent of its population living in urban areas of the district.

The district has 2 tahsils and two towns as given in the following table.

Table 1

Population, Number of villages and Towns 1981

Sl. No.	Name of Tahsil	Population									No. of villages		No. of Towns
		Total			Rural			Urban			Total	Inhabited	
		P	M	F	P	M	F	P	M	F			
1	2	3	4	5	6	7	8	9	10	11	12	13	14

Note – *The Imperial Gazetteer of Central India, 1908–240.

There are 503 inhabited villages and 39 uninhabited villages in the district. Berasia tahsil is relatively more populous and is having more villages as compared to that of Huzur tahsil. The average population per village in the district is 1779 as compared to the State average of 582. It follows that the villages in this district are more populous. It is interesting to note that only 13.79 per cent of the population in this district lives in rural areas whereas the corresponding proportion for the State is 79.71 per cent. The percentage of population living in rural areas of Berasia and Huzur tahsils works out to 91.77 and 12.07 per cent respectively.

The two towns in the district are Berasia and Bhopal both being the headquarters of the respective tahsils, the population details of which are given below :

Table 1.1

Size-class of population	Location in tahsil	Name of town	Population		
			P	M	F
1	2	3	4	5	6
Class I (100,000 and above)	Huzur	Bhopal	671,018	358,907	312,111
Class IV (10,000-19,999)	Berasia	Berasia	10,835	5,747	5,094

Both Berasia and Bhopal are towns since 1901 Census of which the former is a stagnating town as the addition in its population of 4,276 in 1901 has been only 6,559 during the last 80 years. On the other hand the population of Bhopal has gone up from 77,073 in 1901 to 671,018 in 1981 which shows a phenomenal increase of 771.19 per cent or about nine fold increase during the last 80 years. Bhopal has embraced in it two more towns viz Govindpura and Bairagarh of 1961 due to the extension in its limits by Govt of M.P. Notification No. 338-XVIII-2-76 dated 8th Dec 1976. Consequent upon the reorganisation of States on linguistic basis, the new State of Madhya Pradesh came into being on 1st Nov. 1956 with Bhopal as its capital Since then, Bhopal city came into prominence and its population growth has been quite alarming as would be evident from the fact that the growth of population during the decades 1951-61 has been 117.87 per cent. The subsequent decades have also witnessed appreciably high growth rate being 72.62 per cent during 1961-71 and 74.35 per cent during 1971-81

The following table gives the decadal change in distribution of population.

Table 2

Decadal Change in Distribution of Population

Sl. No.	Name of Tahsil	Population 1971			Population 1981			Percentage decadal Variation (1971-81)		
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10	11
1	Berasia Tahsil	101,460	93,678	7,782	131,636	120,801	10,835	+29.74	+28.95	+39.23
2	Huzur Tahsil	470,709	85,850	384,859	763,103	92,085	671,018	+62.12	+7.26	+74.35
	District Total	**572,169**	**179,528**	**292,641**	**894,739**	**212,886**	**681,853**	**+56.38**	**+18.58**	**+73.66**

Bhopal district has recorded the highest growth-rate of 56.38 per cent among the 45 districts in the State during the decade 1971-81, leaving far behind the most prosperous district like Indore where the decadal growth has been 37.49 per cent, The reason for this high growth in Bhopal district is not far to seek. This district has in it the capital city of Bhopal which is a powerful growth centre and attracts a sizeable working population and their families, obviously because of the job opportunities being available here. Huzur tahsil has accordingly registered a high growth rate of 62.12 per cent during the decade 1971-81 as compared to that of Berasia tahsil.

The follwing table gives the decadal growth of population of the district since 1901.

Table 2.1

Decadal Growth of Population, Bhopal District.

Census year	%decadal growth
1	2
1901	...
1911	+ 8.61
1921	—10.27
1931	+16.71
1941	+15.18
1951	+24.95
1961	+57.73
1971	+53.93
1981	+56.38

Except for a steep fall in population during the decade 1911-21, there has been a steady increase in the population of the district from 1901 to 1951, thereafter the pace of growth has been very fast which is mainly on account of the phenomenal growth of Bhopal city after its having been made the capital of the new State of Madhya Pradesh on 1st Nov. 1956.

Decadewise position of population growth is as under :- **1901-11** There has been an increase of 8.61 per cent in the populatton of the district during the decade 1901 - 11. The growth was slow as the tract comprising the present Bhopal district witnessed the great Malwa famine of 1899-1900 corresponding to 1956 of Vikram samvat. The entire Malwa region remembers it as Chhapan-Ka-sal for it seems to have destroyed much of the population: This is what Mr C. E, Luard has recorded in the State Gazetteer " In 1899–1900 however, the great drought which attacked Malwa affecting this region also and caused a very serious diminution of the population which the country has not yet recovered, In every village numerous houses are met with roofless and in a state of decay, due as the people state, to Chhapan-ka-Sal or the year 56 ie 1956 of the Vikram Era or 1899 A.D. In 1905 great damage was brought to the spring crops notably to the poppy and grain by the excessive cold. This though producing some distress and much pecuniary loss to the State and the individual cultivator,did not cause famine, the autumn being excellent.

The famine of 1899–1900 caused a diminution in the population of 32 per cent. Everything possible was done for the unfortunate cultivator, seven lakhs being spent on relief both charitable and through works. A great influx of Marwaris from Rajputana added to the distress".*

The urban areas of the district, however ,witnessed a steep fall in the population during the decade 1901-11 as plague epidemic took a heavy toll in 1903.

1911-21 : The decade 1911-21 proved to be even worse so far as the growth of population in the district is concerned. This is also known as the dark decade as Nature's cruel spell took more than its fare share which literally decimated the population as there was a recurrence of plague and cholera. Barring the years 1915-16 and 1916-17, the entire period of ten years of this decade witnessed some or the other calamity.

1921-31 : The decade 1921-31 was free from such upheavals like famine, plague edpidemic or cholera. The population was now beginning to shake-off the after-effects of the dark decade and although the crop conditions were far from good but a steady growth of population is observed. The recorvery of population was rather good which resulted in a fairly good rise to the extent of 16.71 per cent.

1931-41 : A fairly satisfactory growth of 15.16 per cent was registered during this decade which was mainly on account of relatively higher growth of population in urban areas as compared to that in rural areas. The decade was free from any upheavals.

1941-51 : A record increase of 24.95 per cent was recorded during the decade in the district. The decade saw momentous changes and each in turn contributed to the growth of population in the district. The decade opened with the grim war conditions and the Nawab of Bhopal offered to locate a prisoner of war (POW) camp at Bairagarh (now part of Bhopal city) where the Italian prisoners of war were interned.

*The Central India State Gazetteer Series Vol. III, Bhopal State, p-59 Text.

The partition of the country and independence came about in 1947 as a consequence of which the civil conditions were much disturbed. It followed with a communal riot in the country which resulted in a large influx of Sindhis and Muslims too in the hope of better security.

These refugees particularly Sindhis from Sindh settled in the district and were allotted accomodation vacated by the POWs. Bairagarh which was till then a small village emerged as a growing township later. This led to an appreciable increase of population in the district during the decade.

1951-61 : The 1951-61 decade recorded an increase of 57.73 per cent in the population which has been an all time high since 1901 and highest for any district of the State. The reason is not far to seek. Bhopal became the capital of the new State of Madhya Pradesh which was formed as a consequence of the Reorganisation of States on linguistic basis on 1st November, 1956. Government Servants from integrating units migrated to Bhopal in large number along with thier family members. Besides, the site of Heavy Electricals Ltd, at Bhopal had also lead to an accelerated growth of population of the district during the decade.

1961-71 and 1971-81 : The increase in population of the district continued unabated as is obvious because of the capital city of Bhopal which has attracted a sizable population from other parts of the State and country. There has been a spurt in the economic activities-Industry; trade and commerce, banking, transport and communications, services and other allied activities in the district which has attributed to a stupendous growth of population in the district. Because of Bhopal which being a powerful growth centre, the district claims to have the highest population growth among the 45 districts of the State during the decades 1961-71 and 1971-81.

The following table gives the distribution of villages by population ranges.

Table 3

Distribution of Villages by Population Range

Range of Population	Bhopal District		Berasia Tahsil		Huzur Tahsil	
	No. of villages in each range	Percentage	No. of villages in each range	Percentage	No. of villages in each range	Percentage
1	2	3	4	5	6	7
Less Than- 200	146	29.03	80	28.07	66	30.27
200- 499	217	43.14	123	43.16	94	43.12
500-1999	135	26.84	79	27.72	56	25.69
2,000-4,999	5	0.99	3	1.05	2	0.92
5,000-9,999	...	...	...	...	...	...
10,000+	...	...	...	...	...	...
Total	**503**	**100.00**	**285**	**100.00**	**218**	**100.00**

Bhopal district is also characterised with predominantly small-sized villages. As many as 363 out of the total of 503 villages in the district have population less than 200 in each. This accounts for 72.17 per cent of the total number of villages in the district. More or less an identical situation prevails in both the tahsils in regard to the size of villages.

The following table gives the distribution of villages by density.

Table 4

Distribution of Villages by Population Ranges

Range of density (Per sq. km.)	Bhopal District		Berasia Tahsil		Huzur Tahsil	
	Total No. of villages in each range	Percentage	Total No. of villages in each range	Percentage	Total No. of villages in each range	Percentage
1	2	3	4	5	6	7
Less than- 10	13	2.59	6	2.11	7	3.21
11- 20	14	2.78	10	3.51	4	1.83
21- 50	71	14.12	40	14.04	31	14.22
51-100	215	42.74	142	49.82	73	33.49
101-200	156	31.01	73	25.61	83	38.07
201-300	23	4.57	9	3.16	14	6.42
301-500	9	1.79	5	1.75	4	1.84
500+	2	0.40	...	...	2	0.92
Total	**503**	**100.00**	**285**	**100.00**	**218**	**100.00**

It is interesting to note that as the density range increases till it attains the range of 51-100 persons per sq.km, the number of villages is found to be steadily increasing and thereafter with the increase in the density range the number of villages tends to decrease. It follows that the average density range for most of the villages in this district is 51 to 100 persons as would be evident that 42.74 per cent of the total number of villages in this district lie in this density range. The position among the two tahsils is somewhat different. About 50 per cent of the villages in Berasia tahsil lie in the density range of 51—100 while in Huzur tahsil largest number of villages lie in the density range of 101—200 persons per sq.km. This appears to due to the fact that villages lying in the proximity of Bhopal city in Huzur tahsil are relatively thickly populated, obviously because of the urban influence.

The following table gives the proportion of Scheduled Castes population to total population in the villages.

Table 5

Proportion of Scheduled Castes Population to Total Population in the Villages

Percentage range of S.C. Population to Total Population	Bhopal District		Berasia Tahsil		Huzur Tahsil	
	No. of villages in each range	Percentage	No. of villages in each range	Percentage	No. of villages in each range	Percentage
1	2	3	4	5	6	7
Nil	55	10.93	39	13.68	16	7.34
0–5	37	7.35	20	7.02	17	7.80
6–10	52	10.34	23	8.07	29	13.30
10–15	69	13.72	30	10.53	39	17.89
16–20	68	13.52	38	13.33	30	13.76
21–30	103	20.48	63	22.11	40	18.35
31 and above	119	23.66	72	25.26	47	21.56
Total	**503**	**100.00**	**285**	**100.00**	**218**	**100.00**

The percentage of scheduled castes to total rural population of the district works out to 22.81 per cent as against the State average of 14.52 per cent. About 11 per cent of the villages in the district do not have in them any scheduled castes population. It is, however, interesting to note that as the percentage range of scheduled castes increases, there is a greater concentration of scheduled castes population and it is probably in bigger villages. This may be evident from the figures given in the following table.

Table 5.1
Number of Villages Population, Scheduled Castes by Population Range

Range of Population	No. of villages	Total rural population	Scheduled castes	% of Scheduled castes to total population
1	2	3	4	5
less than 200	146	15,809	2,821	17.84
200–499	217	72,300	15,685	21.69
500–999	104	71,022	18,051	25.42
1,000–1,199	31	41,405	9,434	22.78
2,000–4,999	5	12,350	2,564	20.76
5,000–9,999	...	...	...	...
10,000+	...	...	...	...
Total	**503**	**212,886**	**48,555**	**22.81**

The above figures, however, reveal that majority of the villages in the district lie in the population size 200–499 and 500–999 and also the concentration of scheduled castes population in them is higher. Apart from their traditional jobs, the scheduled castes are engaged in agricultutal pursuits, mostly as agricultural labourers.

The following table given the scheduled tribes population to total population in the villages.

Table 6

Proportion of Scheduled Tribes Population to Total Population in the Villages

Percentage range of S.T. Population to Total Population	Bhopal District		Berasia Tahsil		Huzur Tahsil	
	No. of villages in each range	Percentage	No. of villages in each range	Percentage	No. of villages in each range	Percentage
1	2	3	4	5	6	7
Nil	322	64.02	204	71.58	118	54.13
0–5	102	20.28	52	18.25	50	22.94
6–15	44	8.75	20	7.02	24	11.01
16–25	15	2.98	4	1.40	11	5.05
26–35	8	1.59	2	0.70	6	2.75
36–50	6	1.19	2	0.70	4	1.83
51 and above	6	1.19	1	0.35	5	2.29
Total	**503**	**100.00**	**285**	**100.00**	**218**	**100.00**

A different trend is observed in regard to the distribution of scheduled tribes population than what has been observed in the case of scheduled castes The number of villages is found to be successively decreasing with the increase in the percentage range. This is obviously because of very low proportion of scheduled tribes population in this district The proportion of scheduled tribes in rural areas of this district works out to a mere 3.52 per cent while the State average for rural areas is 27.78 per cent. There are as many as 322 out of a total of 503 villages in this district which do not have in them any scheduled tribes population. This accounts for 64 02 per cent of the total villages. The concentration of scheduled tribes population in villages of this district is therefore very low. Among the tahsils, Berasia has relatively very small proportion of population belonging to this community.

The following table gives the proportion of scheduled tribes population in villages by population size.

Table 6.1

Proportion of Scheduled Tribes Population in Villages by Population Range

Range of Population	No. of villages	Total rural population	Scheduled castes	% of Scheduled castes to total population
1	2	3	4	5
less than 200	146	15,809	645	4.08
200–499	217	72,300	2,683	3.71
500–999	104	71,022	2,298	3.24
1,000–1,999	31	41,405	1,515	3.66
2,000–4,999	5	12,350	349	2.83
5,000–9,999	...	...	...	...
10,000+	...	...	...	...
Total	**503**	**212,886**	**7,490**	**3.52**

It is evident from the above figures that concentration of scheduled tribes population is mainly in smaller villages. As the villages grow in size, their proportion is found to be decreasing.

The following table gives the proportion of Scheduled Castes/Scheduled Tribes population in towns:

Table 7

Proportion of Scheduled Castes/Scheduled Tribes Population in Towns

Name of the Town	Total Population	Total scheduled castes population	Total scheduled tribes population	Percentage of scheduled castes population to total population	Percentage of scheduled tribes population to total population
1	2	3	4	5	6
Berasia	10,835	1,466	82	13.53	0.76
Bhopal	671,018	62,749	13,083	9.35	1.95
Total	**681,853**	**64,215**	**13,165**	**9.42**	**1.93**

Berasia town has the proportion of both scheduled castes and scheduled tribes population much below the district average while Bhopal has appreciably good number of persons of both these communities. Bhopal is predominantly a service town which seems to have attracted population of both scheduled castes and scheduled tribes obviously because of the job reservations for them.

The following table gives the literacy rate by population ranges af villages.

Table 8

Literacy Rate by Population Ranges of Villages

Range of Population	Bhopal District		Berasia Tahsil		Huzur Tahsil	
	No. of villages in each range	Literacy rate	No. of villages in each range	Literacy rate	No. of villages in each range	Literacy rate
1.	2	3	4	5	6	7
Less than 200	146	10.73	80	7.18	66	15.86
200–499	217	14.33	123	12.31	94	16.91
500–1,999	135	19.12	79	18.23	56	20.27
2,000–4,999	5	20.31	3	22.43	2	17.08
5,000–9,999	...	...	...	...	...	...
10,000+	...	...	...	...	...	...
Total	**503**	**16.94**	**285**	**15.65**	**218**	**18.63**

It may be noticed that higher the range of population, higher is the literacy rate in villages. This is obviously because educational facilities become available in bigger villages in rural areas. The number of big villages in the district is, however, small. The literacy rate in rural areas of the district works out to 17.03 per cent as against the State average of 21.22 which indicates that the rural areas of the district are very much lagging behind in terms of literacy.

Among the tahsils, Huzur tahsil is somewhat better placed in terms of literacy. The literacy rate in this tahsil is 18 63 per cent while in Berasia tahsil it is 15 65 per cent. Even the smaller villages in Huzur tahsil have fairly good position proximity to the caiptal city of Bhopal may be attributed to be the reason for its relatively better position in terms of literacy. Except in villages falling in the population range 2,000 –4,999, the literacy rate is found to be higher in the remaining villages falling under different population ranges in Huzur tahsil as compared to that in Berasia tahsil.

The following table gives the literacy rate in towns:

Table 9
Literacy Rates For Towns

Name of Town	Literacy rate
Berasia	41.08
Bhopal	56.64
Total	56.40

The literacy rate in urban areas of the district is 56.40 per cent which is a little higher than the State average of 54.02 for urban areas as a whole. Bhopal town has higher literacy rate of 56.64 per cent while that of Berasia town is 41.08 per cent. Bhopal has an added advantage of being the capital city where majority of the labour force belongs to white-collar jobs. Besides, the BHEL factory is located in the town where most of the employees are technical personnel who are mostly literates. Apart from this it has educational institutions of all types of faculities. The literacy rate ought to have been still higher in Bhopal city but due to brisk building construction activities here, it has attracted a large number of construction labourers also who are mostly illiterates. The slums coming up like mushrooms in and around Bhopal is an indication of this fact.

The following table gives the literates, workers, non-workers, scheduled castes/scheduled tribes population in the district and tahsils by total, rural and urban areas.

Table

The total population of the district is 894,739 which is 1.71 per cent of the total population of the State. Huzur is the most populous tahsil in the district with 85.29 per cent of the total population living in this tahsil.

Sex-Ratio :

Males are more in number than females. The Sex ratio ie. the number of males per 1,000 females in 1981 works out to 874 which is much less than the State average of 941. Taking into account the territory comprising the present Bhopal district, it is found that the district is characterised with sex-ratio conspicuously lower than the State average in each census from 1901 to 1981. The sex-ratio in the State as a whole had been declining successively from Census to Census ever since 1901 but it has been checked for the first time in 1981 Census while in the case of Bhopal district the figures show a declining trend from 1911 to 1941 and thereafter the trend is erratic owing to migratory influence. The partition of the country and independence came about in 1947. This was preceded and followed by communal riots which caused a lot of Muslims to flee and come over to Bhopal in the hope of better security. After the partition, refugees from Pakistan, particularly Sindhis migrated and settled in the district mostly in Bhopal and Bairagarh As a result of which the district registered a growth rate of 24.95 per cent with relatively higher proportion of female population and thereby the sex-ratio improved from 831 in 1941 to 825 in 1951. The steep fall in the sex-ratio in 1961 is obviously because of Bhopal becoming the capital of the new State of Madhya Pradesh on 1st Nov. 1956, which resulted in a large influx of male population, specially government employees who left behind their family members at their original places of abode. The family members followed after quite some time when accomodation problem got eased and as such subsequent decades show improvements in the sex-ratio of population in the district.

The following table gives the comparative position of sex-ratio in the State and Bhopal district.

Table 10 1
Sex-Ratio in State and Bhopal District, 1901-1981

Census Year	Sex-Ratio					
	Madhya Pradesh			Bhopal District		
	T	R	U	T	R	U
1	2	3	4	5	6	7
1901	990	995	937	NA	NA	965
1911	986	991	913	937	937	936
1921	974	982	878	903	916	880
1931	973	983	872	897	915	869
1941	970	980	882	881	896	861
1951	967	975	907	895	897	894
1961	953	970	856	816	890	773
1971	941	956	868	839	877	823
1981	941	956	884	874	886	870

A general pattern is observed that the sex-ratio is found to be always low in urban areas as compared to that in rural areas. This is obviously because of the fact that menfolk generally leaves behind his family at his original place of abode and moves alone to urban areas to earn his livelihood. Apart from this, paucity of residential accomodation in urban areas during the recent past has further aggravated this situation, thereby widening the gap in the sex composition of the population between rural and urban areas.

Scheduled Castes/Scheduled Tribes :

About 15 per cent of the population in the district is scheduled of which 12 60 per cent are scheduled castes and a mere 2.31 per cent scheduled tribes. The corresponding percentages for the State as a whole work out to 14.10 and 22.97 respectively. The difference in the proportion of scheduled castes population to total population between rural and urban areas is, however, large. As against 22 81 per cent scheduled castes in rural areas of the district there are only 9.42 per cent of them in urban areas. The difference is not much in the case of scheduled tribes.

The population of scheduled castes has gone up from 63,485 in 1971 to 112,770 in 1981 showing an increase of 77 63 per cent during the last ten years. There has been a phenomenal growth of 192.94 per cent in the case of scheduled tribes as the population

of this community has gone up from 7,061 in 1971 to 20,655 in 1981. The reason for this unprecedented growth in the scheduled castes and scheduled tribes population seems to be due to the area restrictions having been removed in respect of a large number of castes and tribes. For example certain castes like Bagri or Bagdi, Barahar, Khangar, Mahar etc and certain tribes like Bharia, Binjhwar, Halba, Majhi, Oraon etc. who were not scheduled in this district as per Scheduled Castes and Scheduled Tribes lists M dification Order 1956 (vide MHA notification SRO, 2477-A dated 29th Oct. 1956 and subsequent amendments) which was followed at the 1971 Census and therefore, these castes/tribes were not treated as scheduled castes/scheduled tribes then.

The above mentioned castes/tribes are also found in good number in this district which has resulted in a phenomenal growth of scheduled castes and scheduled tribes population in the district in 1981. A list of Scheduled Castes and Scheduled Tribes who are scheduled in this district has been given as Annexure 1.

As regards distribution of scheduled castes and scheduled tribes population among the tahsils, it is observed that the proportion of scheduled castes is relatively more in Huzur tahsil.

Literacy :

The percentages of literates to total population of the district has gone up from 40.81 in 1971 to 47.03 in 1981. The growth in the literacy rate during the last ten years works out to 15.24 per cent while that for the State as a whole is 25.89 per cent. It is apparent that the pace of increase in the literacy rate in the district has been rather slow. Male literacy has gone up from 49.29 per cent in 1971 to 55.46 per cent in 1981 while female literacy has increased from 30.70 per cent to 37.38. The pace of increase in the literacy rate among females has thus been much faster than what it is among males. Ironically, the literacy rate among females in rural areas of the district is very low being 4.65 per cent, which corresponds to that of many backward districts of the State.

Among the tahsils, Huzur is relatively better in terms of literacy rate which is mainly due to Bhopal city being situated in this tahsil. The disparity between the literacy rate among males and females is still very wide.

Participation Rate :

The participation rate i.e. percentage of workers (main workers and marginal workers taken together) to total population in the district works out to 31 90 (49.31 per cent for males and 11.97 per cent for females) as against the State average of 42.93. There is a wide difference in the participation rate between rural and urban areas as also among males and females. The percentage of workers to total population in rural areas works out to 41.21 while in urban it is 29 00. Female participation rate in urban areas is as low as 7.59 per cent.

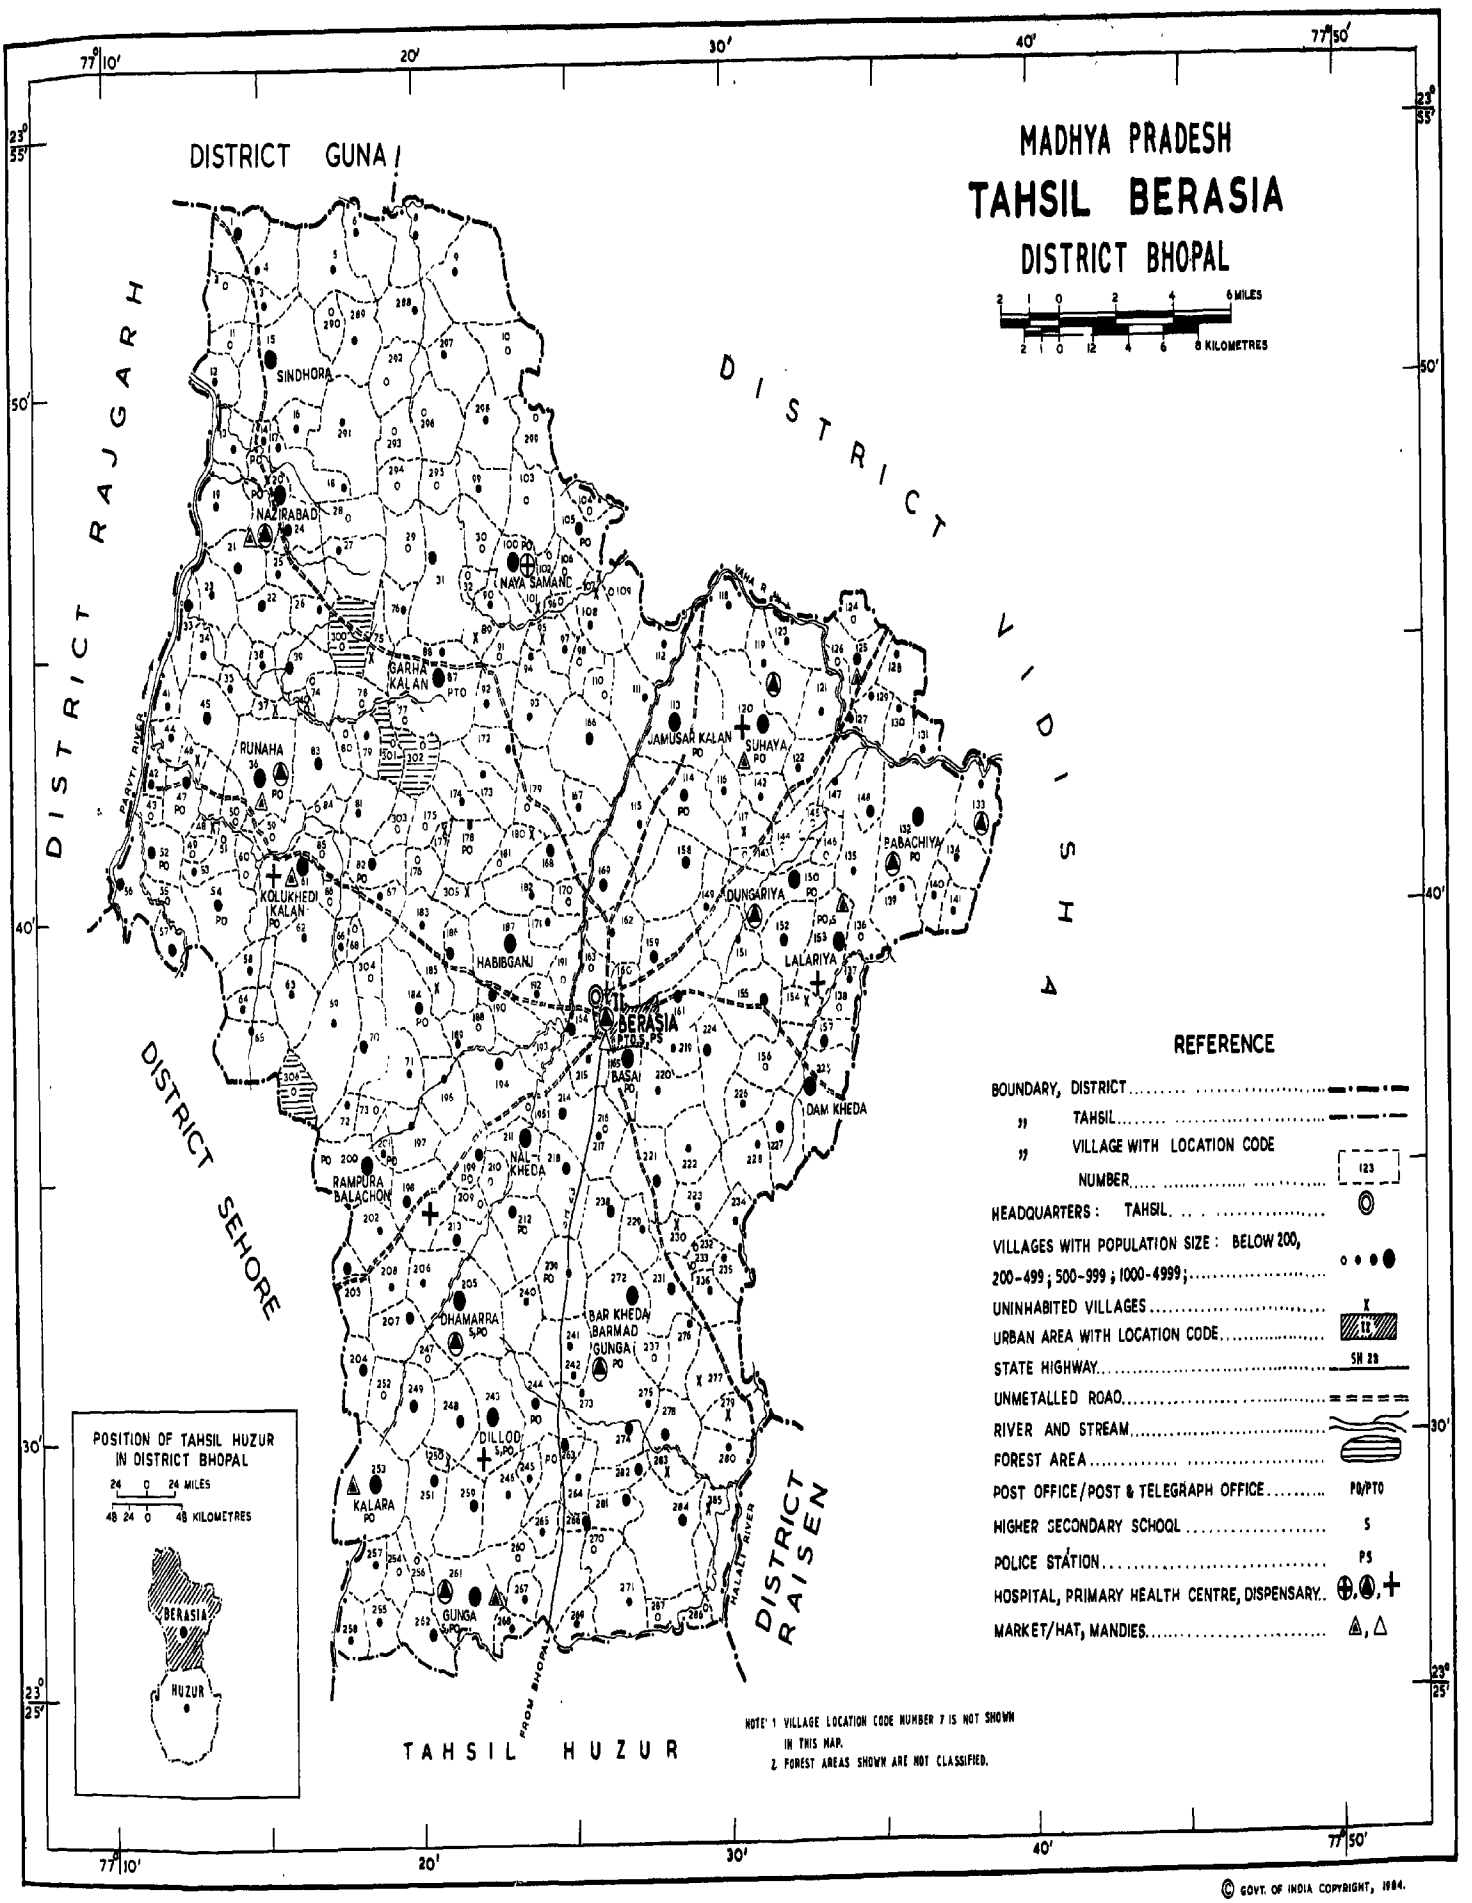

Main workers constitute 30.44 per cent of the total population of the district while marginal workers are only 1.46 per cent. Females generally form the bulk of marginal workers but the proportion of them is very insignificant being 2.60 per cent of the total population.

It is interesting to note that this district is having a large segment (67.99%) of its working population engaged in activities other than cultivation and household industry as against the State average of 20.28 per cent. 17.17 per cent of them are engaged as cultivators, 10.71 per cent as agricultural labourers and 4.13 per cent in household industry. This is obviously because this district is having a sizeable urban population living in Bhopal city where people are working in Govt. Offices, educational institutions and big industries like Bharat Heavy Electricals Ltd. and its ancillaries.

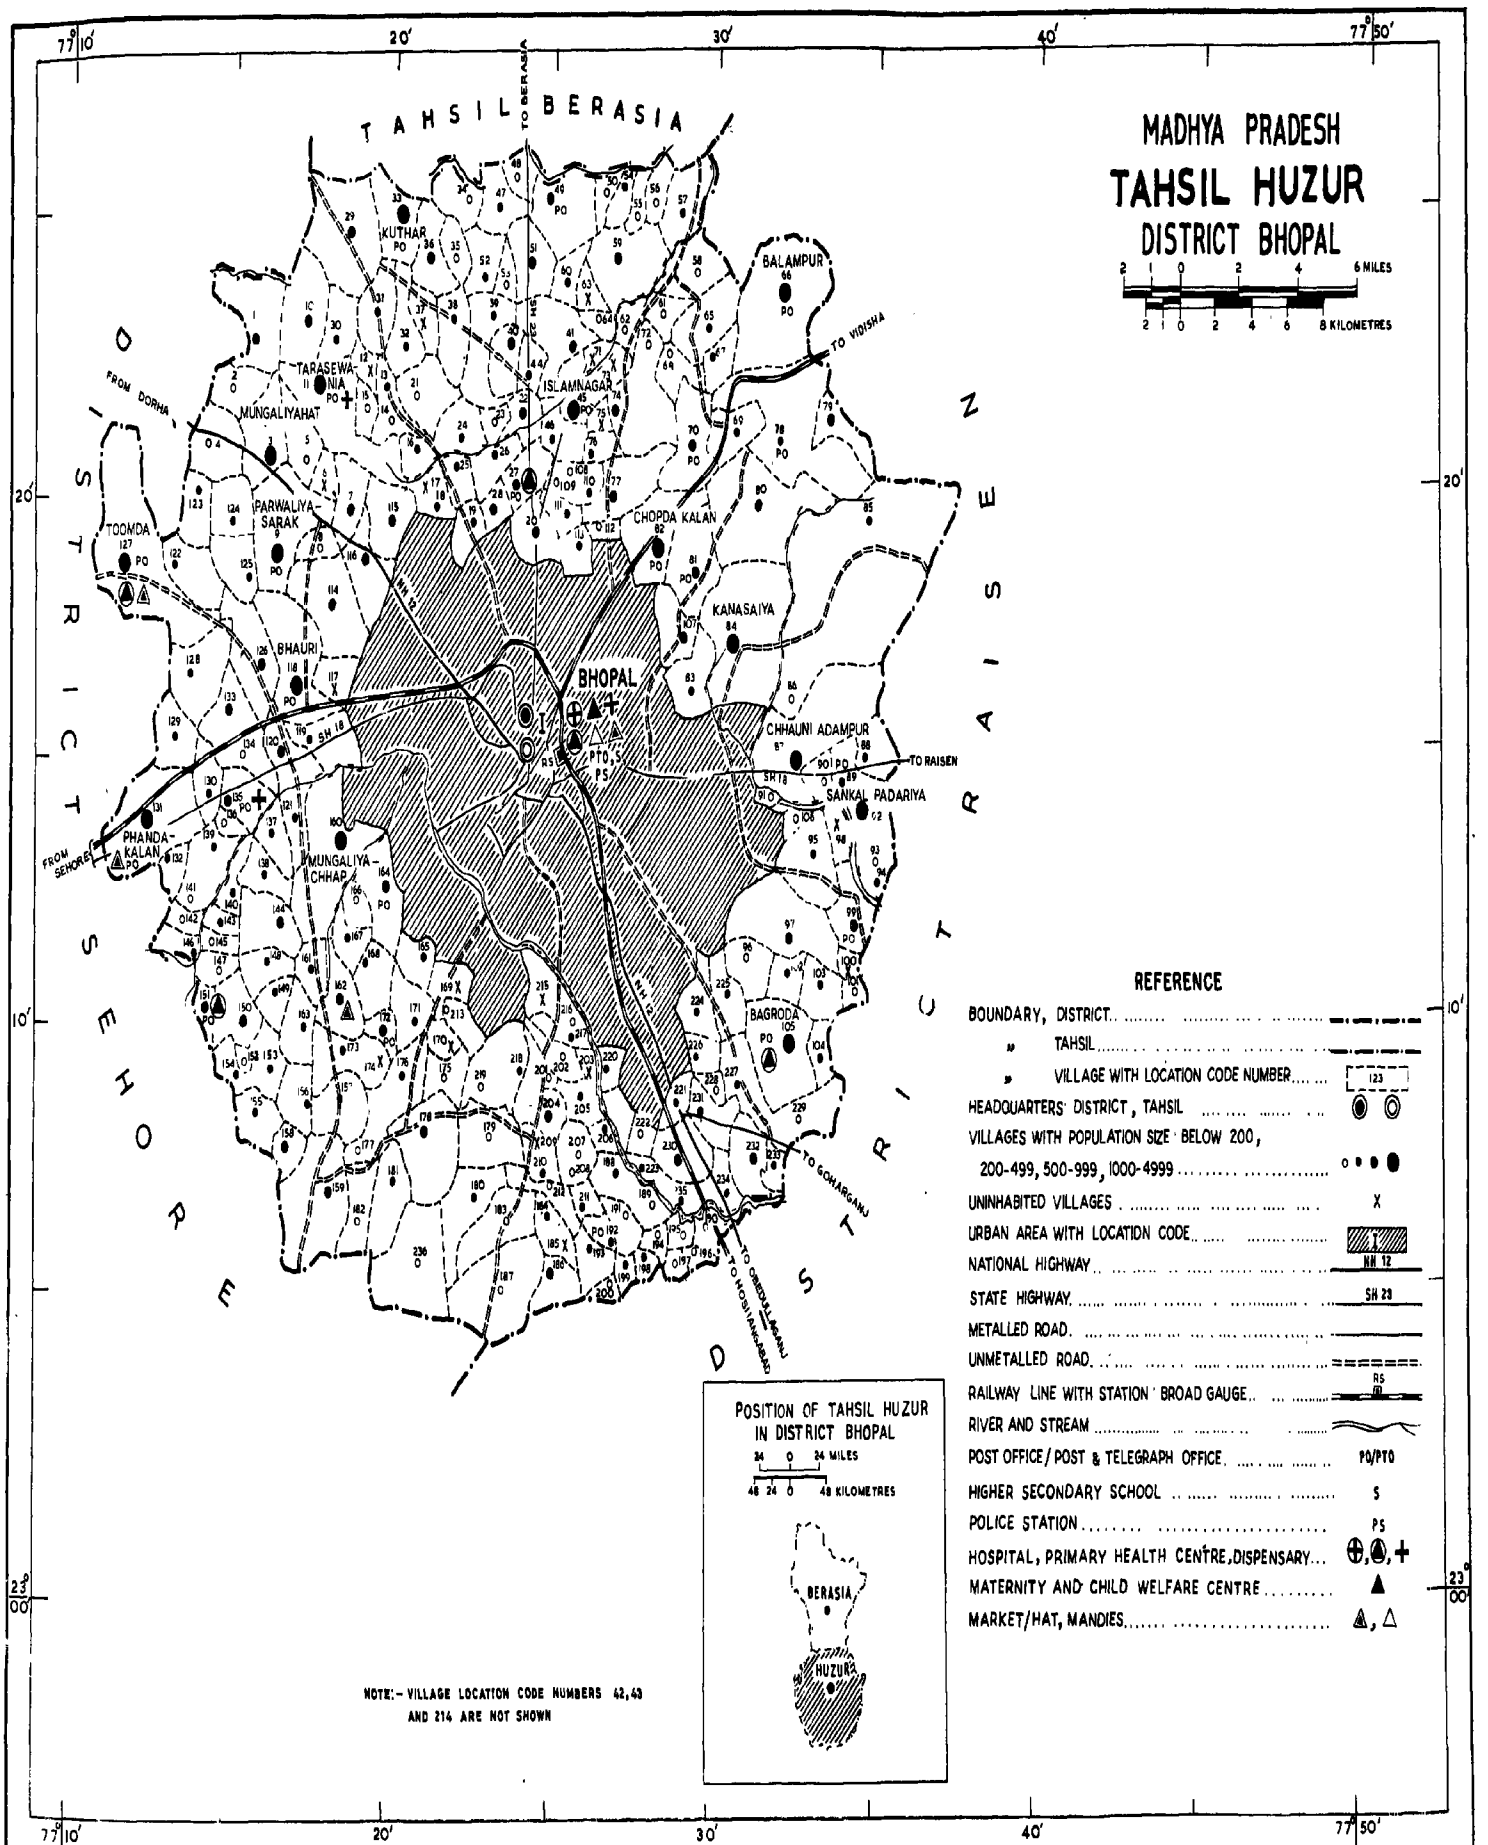

The tahsilwise figures giving the break up of main workers into broad categories will make the position clear.

Table 10.2

टिप्पणी—(1) जिले का कुल क्षेत्रफल भारत के सर्वेयर जनरल से प्राप्त अस्थाई भौगोलिक क्षेत्रफल है।

(2) नगरीय क्षेत्रफल के आंकड़े स्थानीय संस्थाओं से प्राप्त किये गये है।

(3) जिले का ग्रामीण क्षेत्रफल, जिले के कुल क्षेत्रफल में से स्थानीय संस्थाओं से प्राप्त नगरीय क्षेत्रफल को घटाकर निकाला गया है।

(4) प्रत्येक तहसील का कुल क्षेत्रफल पटवारी पत्रकों के अनुसार है। ये आंकड़े आयुक्त, भूअभिलेख, मध्यप्रदेश से प्राप्त किये गये हैं।

(3) निम्न संक्षिप्त शब्द नगर की नागरिक स्थिति को दर्शाते हैं।

(1) न. नि. — नगर निगम

(2) न. पा. — नगर पालिका
