CENSUS OF INDIA, 1981

DISTRICT CENSUS HANDBOOK

PART A—VILLAGE AND TOWN DIRECTORY

GANJAM

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by p anners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans a nd as an aid to District administration The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns etc.

The District Census Handbook series was initiated [illegible] the 1951 Census It contained important census tables and PCA f or each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, inc uding PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features alongwith the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in views. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village-directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities

with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and accordingly to the proportion of Scheduled Castes and Scheduled Tribes population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirement of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class—II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement-IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement-V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the column on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahasil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The District and Tahasil/Police Station/C. D.Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. R. Nanda, I. A. S., the Director of Census Operations, Orissa on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General, India

New Delhi
The 26th April, 1982

PREFACE

It has been the tradition of Indian Census to present demographic data in as detailed a manner as possible so as to serve effectively the interests of the users of Census data. 1981 Census has been completed leaving behind a vast mass of data collected carefully and meticulously on a country-wide basis by an army of trained enumerators. It is needless to mention that modern Census is no more confined to mere counting of heads. It is a kind of stock-taking, as it were, of the nation's human wealth. It has collected information of every individual, besides a host of other activities, institutions, establishments services and so on. Thus, it has become an indispensable instrument of policy for development planning-referred to by planners, data users, scholars and people from different disciplines and aims at presenting a complete picture of man in socio-economic and cultural settings.

District Census Handbook was first introduced as an auxilliary to 1951 Census and appeared as a State Government publication in more comprehensive and ambitious form in subsequent censuses. Under the existing instruction, the Director of Census has the responsibility of providing the Census data as well as non-census socio-economic and administrative statistics for this publication which is the responsibility of the State Government. In 1951 and 1961, it was published in one volume. During 1971, this publication was proposed to be presented in three parts. Part-A incorporated the Town and Village Directories, Part-B incorporated the Primary Census Abstract and provided data upto village level for the rural area and upto enumeration block level for the urban area. Part-C incorporated other Census tables and administrative statistics.

According to the publication programme of 1981 Census, it has to be pubilshed in two parts. Part-A will comprise the Village and Town Directory whereas Part-B will contain Village and Town-wise Primary Census Abstract. The first Part— Part-A consists of important statistical information relating to each town besides an array of statistical data relating to land use and various other amenities available in each village. Part-B of the present publication contains the essential census data known as Primary Census Abstract which provides demographic details of each district, tahasil, police station and down to each village and town and within the town, each ward. The aforesaid statistical information is enriched by the administrative map of the administrative units viz., district, tahasil and police station, availabe in the publication. These maps have been prepared in the Directorate of Census on the basis of maps obtained from the competent local authorities. In the Police Station maps, villages have been presented by their location code number for want of space. For the names of villages, one would have to refer to the alphabetical list of village of each tahasil, which are available both in Part-A and Part-B for facility of the readers.

With the object of avoiding delay and also to make each volume handy and not-too-bulky, it has been decided to bring out 1981 District Census Handbook in two parts.

In pursuance of the scheme for publication of the District Census Handbook, an analytical note has been provided explaining the census concepts adopted in the operation for easy appreciation of the subjects covered in the directory. An administrative map of the district is given at the beginning of the volume. Brief history of the district has

b een provided for introducing the district to the reader. The scope of Village Directory Town Directory, Statements and Primary Census Abstract has been explained with reference to the contents of statements available in the publication.

The geographical aspect of the district including decadal jurisdictional changes available in the publication is intended to make it more informative. Another venture of 1981 is presentation of major characteristics of the district particularly in relation to the economic resources as furnished by the district authorities in the various fields of administration. This is directed to provide an interesting profile of the district to the reader as well as appreciation of developmental activity in the district during the decade. Notes on different codes used in this directory h1 ve been provided for the convenience of the reader in understanding the data. Note on places of religious/historical interest has been provided to make the publication more interesting. The analysis of census results of the district at the end will be of some interest to the readers and data users.

Information on amenities in the Village Directory has been collected from the Tahasildars and Block Development Officers. A very few selected items were collected through the census enumerator during his door-to-door visit. The Executive Officers of Municipalities and Notified Area Councils provided such data on towns. The collection and compilation of such massive data of each village and town was a stupendous task. Despite all possible care taken through intensive check and re-check to remove discrepancies in facts and figures, possibility of errors still creeping in can not be altogether ruled out

I must express my deep gratitude to Shri P. Padmanabha, I. A. S., Registrar General and Census Commissioner, India and Shri N. G. Nag, Deputy Registrar General (Social Studies) for the timely guidance and advice through circulars.

I must place on record my deep appreciation and thanks to the Departments of Government of Orissa, Heads of Departments, local bodies, District Officers, Tahasildars, Block Development Officers, Executive Officers of Municipalities and Notified Area Councils for whose active co-operation and help the voluminous compilation has been possible.

For providing additional information on general characteristics of the district as economic activity, decadal changes (1971—81) of special note, I am grateful to Shri A. K. Tripathy, I.A.S., and Miss Rajalakshmi, I.A.S., District Magistrate on more Shri B. Sarangi, O.A.S. (I), Additional District Magistrate-cum-Distri Officer, Ganjam who had taken keen interest in making this compil informative.

i M. book data,

this p C. Dutta,

For timely scrutiny, compilation and tabulation of District Census Hand . A. S. (I) the supervision and assistance rendered by Shri B. Sahu, O. A. S (I), N.B.H re worth O. A. S. (I), J. Panda, O. A. S. (I), P. C. Roy, O. A. S. (I), and P. K. Mohapatra, C effort. Deputy Directors-in-charge of Regional Tabulation Offices and their staff a mentioning. The job would have been difficult but for their diligent and tirele

In my office, I am specially thankful to Shri S. K. Swain, Deputy Director, Shri Madan Mohan Das, O. A. S., Deputy Director, Shri C. R. Mohanty, Asst. Director and the staff of District Census Handbook, Map and Printing branches of the Census Directorate for diligence and zeal shown in this important assignment. Its expeditious preparation has placed a heavy burden on all officers and staff of this office. To each of them I am deeply obliged. The Deputy Director of Survey & Map Publication, Orissa, Cuttack has ensured printing and to him I offer my thanks.

Bhubaneswar,
September, 1982.

A. R. NANDA

ANALYTICAL NOTE

Census Concepts

Some of the important concepts and definitions used in 1981 Census and frequently mentioned in this publication are briefly explained below :

Village

It has been the Census tradition to present statistics by rural-urban break-up. Villages and Towns are universally accepted as the basic units of human habitation. A "Village" refers to any tract of land recognised as a village by the local administration in the revenue record. The revenue village may have a definite surveyed boundary or not. The revenue village may comprise several hamlets which do not have definite boundary or areas distinctly marked. The revenue village is inclusive of the sites of residence of the inhabitants and the entire area including hills, nalas, cultivable land and village forest, but excluding reserve forest. An uninhabited village is one which does not have any residential population in the entire tract. A revenue village may comprise several hamlets with a boundary in case of a surveyed village or a notional boundary in case of unsurveyed village; but the entire village is one unit for presentation of census data.

There are some forest villages located inside reserve forests and recognised by the State Government, which have been taken as villages for the purpose of census. Similarly, inside the reserve forest, some clusters of habitation were located, which are sometimes unauthorised in the eye of law. Such cases were also recognised as villages by way of treating clusters inside the jurisdiction of a forester's beat as one village. In course of the decade, several areas in the State remaining unsurveyed upto the previous census, have been surveyed in the meanwhile and such villages were included in the frame of current census.

Town

No society can be strictly termed as fully urban or completely rural. The dividing line is a far from sharp, since condition varies from country to country and it has not been possible to formulate a uniform definition which can be applicable to all places.

For the purpose of 1981 Census in India, an urban area has been defined as :

(a) all places with a Municipality, Corporation or Cantonment Board or Notified Town Area, and

(b) all other places satisfying the following criteria :

(i) a minimum population of 5, 000,

(ii) atleast 75 per cent of the male working population engaged in non-agricultural (and allied) activity,

(iii) a population density of atleast 400 per Sq. Km. (or 1, 000 per Sq. Mile).

Similar criteria were also adopted during 1971 Census.

Thus the area statutorily notified by the State Government as "Municipalities" and "Notified Area Councils" have been brought under the urban frame of Census. Besides, there are some marginal cases having distinct urban characteristic which as such do not qualify to be town by the State Government. Such cases—13 in number throughout the State were finalised by the Director of Census in consultation with the District Magistrates, which have been presented under the nomenclature of non-statutory census town, satisfying the following conditions :

(a) a minimum population of 5, 000 as projected in 1981

(b) atleast 75 per cent of the male working population engaged in non-agricultural pursuits ;

(c) a density of population of at least 400 per Sq. Km. (or 1, 000 per Sq. Mile)

Classification of Towns

It has been customary for the census to classify the towns according to the size of their population. For 1981 operation, the classification was as follows :

CLASS	POPULATION
I	1,00,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000— 9,999
VI	Less than 5,000

Urban Agglomeration

The concept of "Urban Agglomeration" introduced during 1971 Census has also been adopted during 1981 to take care of the continuous urban spread of a recognised urban area. Very often, large railway colonies, university campuses, port areas and military camps etc. come up around the statutory boundary limit of the city or town having distinct urban characteristics. Such areas may not by themselves qualify to be treated as towns, but form a continuous spread with the town as 'out-growths' of the town and deserve to be treated as urban. Such town(s) together with their out-growths have been treated as urban units and are called "Urban Agglomerations". Thus an Urban Agglomeration may comprise :

(a) a city with continuous urban out-growth, (the part of the out-growth being outside the statutory limits but falling within the boundaries of the adjoining village or villages) or

(b) one town with similar out-growth or two or more adjoining towns with their out-growths as in (a) or

(c) a city and one or more adjoining towns with their out-growths all of which form a continuous spread.

Accordingly, eight Urban Agglomerations have been formed in the 1981 Census throughout the State.

Standard Urban Area

During the 1971 Census a new concept of "Standard Urban Area" was introduced in the context of urban classification. The Standard Urban Area is defined as the projected growth area of a city or town having a population of 50, 000 or more during a period of two or three decades. While delineating Standard Urban Area it is not only necessary to take into account the towns and villages which will get merged into it, but also the intervening areas which are potentially urban. The Standard Urban Area is a long-term planning area having a growth potential in a longer time span. In the context of developmental planning for urban areas, it is desirable to fix the Standard Urban Area beyond the boundary of large town having growth potential over a period of 20 years or so.

The standard urban area includes all areas which have any or all of the following characteristics (b) to (e), while characteristic (a) should be the basic minimum :

(a) Core town having minimum population of 50,000;

(b) Predominent urban land use;

(c) Intensive interaction with urban centres as reflected in communication for the purposes of work and secondary educational facilities; extension of city bus service, sale of commodities like milk, dairy products, vegetables (other than those transported by rail or truck haul) and purchase of food grains, clothes, general provisions etc. by the consumers directly;

(d) Anticipated urban growth as a result of future location of industry, market, transport and communication, administrative and servicing facilities;

(e) Existence of big villages with large population of working force engaged in non-agricultural and industrial categories.

Taking these factors into account the following standard urban areas were formed during the 1971 Census; 1. Sambalpur

2. Raurkela, 3. Baleshwar, 4. Cuttack, 5 Jeypur, 6. Brahmapur, 7. Bhubaneswar and 8. Puri. The standard urban areas of these towns were finalised in consultation with the Town and Country Planning Organisation of Government of India and Town Planning Organisation of Government of Orissa and are continued in 1981 Census.

There is subtle difference between the standard urban area and urban agglomeration. For the urban agglomeration out-growths should be contiguous having distinct urban characterstics, whereas, standard urban areas would cover both urban and rural areas around a core town which are likely to be urbanised within a period of two to three decades.

Building

A "Building" is generally a single structure on the ground. Sometimes, it is made up of more than one component unit which are used or likely to be used as dwellings (residence) or establishments, such as shops, business houses, offices, factories, workshops, schools, places of entertainment, places of worship, godowns and stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. Usually, a structure will have 4 walls and a roof. However, there are some areas where the very nature of construction of house is such that there may not be any wall. A typical example of this may be found in the Nolia habitation at Puri, where the house does not have wall, but an entrance and the conical roof which almost touches the ground. Such structures are also treated as buildings.

Census House

A 'Census house' is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

An "occupied residential house" is a census house which is partly or wholly used for the purpose of residence at the time of Census enumeration.

Household

A 'Household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of un-related persons or having a mix of both. Example of unrelated households are boarding houses, messes, hotels, residential hotels, rescue homes, jails and ashrams etc. These are called "institutional households". There may be one member households, two-member-households or multi-member-households. For Census purposes, each one of these types is regarded as a household. If a group of persons who are un-related to each other live in a census house, but do not have their meals from the common kitchen, they would not constitute an institutional household. Each such person is treated as a separate household. The important link in finding out whether there is a household or not is a common kitchen.

Enterprise

An "Enterprise" is an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. The workers in an enterprise may consist of members of the household or hired workers or both. An enterprise may be owned and operated by one household or by several households jointly (on a partnership basis) or by an institutional body. The activities of an enterprise may be carried on in a single census house or in more than one census house or in the open i.e. without premises. The activity of the enterprise may also be carried on only for a part of the year but on a fairly regular basis. It may also be possible that more than one enterpreneurial activity can be carried out in one census house. However, the results of such economic census after tabulation are being brought out by the Central Statistical Organisation separately. This excercise was extended to provide data for the planners regarding categories of agricultural and non agricultural enterprises. The voluminous data included location of enterprise, description of the activities of enterprise, nature of operation,

type of ownership, social group of owner, power/fuel used for the activity and the total number of hired persons usually working in the enterprise.

Literate

A person is considered to be literate if he is able to read and write in any language with understanding. A person who can merely read but can not write is not literate. It is no necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. All children of the age of 4 years or less have been treated as illiterate, even if the child is going to school and may have picked up reading and writing a few odd words.

Scheduled Caste

The Scheduled Castes are specified in the Government of India (modification) Order of 1956. 93 castes have been notified as Scheduled Castes in this State.

One caste, viz., 'Kuli' in Sambalpur district has been dropped from the Scheduled Caste list as per the Amendment Order, 1976.

Worker and Working Population

The population of a country can be divided into economically active and inactive. The economical active group is generally referred to as the working population. What proportion of our population are engaged in work or are economically active and what job they do for their living, these are the issues which the Census proposed to obtain through its massive operation in order to provide a broad dimensional picture of the labour-force. The Censuses conducted so far contain a wealth of economic data. There have been experimentations with the definitions from Census to Census and as a result, the definition of working force has rarely remained unchanged between two Censuses as would be evident from the paragraphs to follow.

"The means of livelihood" approach was adobted from 1901 upto 1951. From 1901 to 1921 the expressions used were "Workers" and "Dependents". In 1931, the concepts used were 'earner', "working dependent" and "non-working dependent". In 1951, the categories were 'self supporting persons", "earning dependents', and "non-earning dependents". In 1961 and 1971, however, there was a shift to the labour-force approach, according to which a person was treated as "worker" if his activity during the reference period was productive one. Thus, from 1961 the concept of worker and non-worker came into being. The difference in the concepts in 1961, 1971 and 1981 Censuses is summarised below :

(a) 1961 CENSUS

"Workers" = main workers + marginal workers of 1981
"Non-workers" = non-workers of 1981

(b) 1971 CENSUS

"Workers" = main workers of 1981.
"Non-workers" = marginal workers + non-workers of 1981.

The questions which were canvassed in the individual slips during 1981 Census to elicit information on the characteristics of the population were as follows :

I. Q. 14A Worked any time at all last year ?
Yes
No (H/ST/D/R/B/I/O)

II. Q. 14B If yes in 14A, did you work for major part of last year ?
Yes (1)/No. (2)

III. Q. 15A Main activity last year ?
Yes in 14B (C/AL/HHI/OW)
No in 14B (H/ST/D/R/B/I/O)

IV. Q. 15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No
14B No—Work done any time last year ? (C/AL/HHI/OW)

V. Q. 16 If no in 14A or 14B, seeking/available for work ? Yes (1)/No (2)

Basically, during 1981 Census the questions have been formulated so as to divide the population into those who have worked any time at

all during the last year and those who have not worked at all. Having classified the population into these two broad streams, the next attempt was to divide those who have worked any time into two sub-streams viz., those who have worked in some economic activity over a period of 6 months or more or in both the agricultural seasons and those whose work can be considered as marginal or secondary (i.e. less than 6 months). Finally an attempt has also been made to determine whether those who are non-workers or those who are marginal workers are either seeking or are available for work.

"Work" has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. In all these questions the reference period is one year preceding the date of enumeration. Some work viz., agriculture and household industry are carried on either throughout the year or during a particular season or part of the year depending on local circumstances. In such cases the reference period has been the broad time span of the agricultural season preceding the enumeration has been kept.

An attempt has been made in this publication to present data relating to "main workers", "marginal workers" and "non-workers" separately. In case of main workers the distribution of such workers among cultivators and agricultural labourers, those engaged in household industry and other workers have also been given. The main workers are those who have worked for a major part of the year preceding the enumeration.

"Marginal workers" are those who have worked any time at all in the year preceding the enumeration but have not worked for a major part of the year. The type of work in which marginal worker were engaged have been elicited through question 15B.

"Non-workers" are those who have not worked any time at all in the year preceding the enumeration.

If the number of main workers, marginal workers and non-workers are added up, one would arrive at the total population itself. In other words, these are exclusive categories.

Main activity of workers has been classified into the following four broad categories :

(i) Cultivator

A person is regarded as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops viz., wheat, paddy, Jawar, bajra and other crops, such as sugarcane, groundnut etc. and pulses, raw jute and kindred fibre crops, cotton, etc. and does not include fruit, growing of vegetables or keeping orchard or groves or working of plantation like tea, coffee, rubber etc.

(ii) Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation, but merely works in another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

(iii) Household Industry

"Household Industry" is defined as an industry conducted by the head of household himself/herself and/or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. It should involve production, processing, servicing or repair of articles or goods, not on the scale of a registered factory. The larger proportion of workers in a household industry should consist of members of the household including the head.

The main characteristics of the "Household industries" are the following :

a) One or more members of the household must participate. Participation by hired labour must be minimum.

b) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

c) The goods produced should not be for consumption by the household itself but should be wholly or partly for sell.

d) In an urban area the industry must be carried on in the precincts of the house in which the household lives. In the rural areas, the industry may be anywhere within the limits of the village.

e) The activity should not be on the scale of a registered factory.

f) Professions such as those practised by Pleader, Doctor, Barbar, Musician, Dancer, Dhobi, Astrologer etc. will not be Household Industry.

(iv) Other Workers

All workers i.e. those who have been engaged in some economic activity during the last one year, but are not cultivators or agricultural labourers or engaged in household industry are "Other Workers". This includes factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, teachers, priests and artists etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry are other workers.

Other particulars, viz., name of the establishment, description of work, nature of industry, trade or service and class of worker were also obtained in respect of those who returned "household industry" or "Other work" as their activity.

Non-worker

In case of persons who are non-workers throughout, information relating to them has been obtained through categories, as mentioned below :

i) Household duties
ii) Students
iii) Dependents
iv) Retired persons or rentiers
v) Beggars etc.
vi) Inmates of institutions
vii) Other non-workers

(i) Household duties

This covers all persons who are engaged in un-paid home duties and who do no other work, or have not done any work at all during the last one year. If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker. For example, a housewife may help in family cultivation or agriculture or make and sell cowdung-cakes etc. at odd times. She is treated as worker.

(ii) Students

This will cover all full-time students and children attending school. If a student participates in some economically productive work, like helping sometimes as an un-paid family worker in family cultivation etc. such students should be treated as a worker and not as student. Very often the daughter in the family helps in the household work though she is studying full time, in which case she is treated as student.

(iii) Dependent

This includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. Dependents include even able-bodied persons who can not be categorised in any other category of non-workers but are dependent on others.

(iv) Retired persons or rentiers

A person who has retired from service and is doing no other work and is not employed again in some full time work or engaged in some other work such as cultivation, business, trade etc. or a person who is a rentier or living on agriclutura or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he/she does not have to work comes under this category. If a retired person is doing some work, in such case he/she is a worker.

(v) Beggar

This covers beggars, vagrants or persons without indication of source of income and those without specified source of subsistence, who are not engaged in economically productive work.

(vi) Inmates of institutions

This covers convicts in Jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing etc. in such institution. However, an under-trial prisoner enumerated in a jail is recorded for the work he/she was doing before he/she was apprehended. Similarly a person temporarily in a hospital or similar institution is recorded for the kind of work he/she was doing before being admitted into the hospital or institution. However, the previous work is not recorded in respect of long term under trial prisoner or convict or for long term inmates of penal, mental or charitable institutions. A person is considered as 'long term',if he or she is in such an institution for 6 months or more.

(vii) Other non-workers

This includes all non-workers who do not come under any of the above six categories, but are looking for work. A boy or girl who has completed education or has stopped studying and is looking for work comes under this category. Alternatively a person who is merely spending time at home as a dependent and is not doing any work and not seeking any work is not coming under this category. In case of students who may be seeking work and are quite prepared to give up studies, if they get a job they are to be recorded as 'Students'.

Area figure

In keeping with the census tradition, the Surveyor General of India provides the area figures for the State and district level. Hence the area figures of the district along with the spelling of the district name as adopted by the Surveyor General, India has been adopted in the publication, with a view to maintaining uniformity of data at the national level. The area figures of the units down below the district level, viz, tahasil, police station, towns have been given in sq. km. The Tahasildars had reported the area figures in acres in respect of the units in the rural area, whereas the Executive Officers of the urban bodies have reported the area figuers for the urban units. The area report in acres by such functionaries were converted into sq. km. Regarding the area of the villages, the same were also furnished by the Tahasildars. The total area of all tahasils of the district does not add upto the area of the district because the former represents the land-use area and is derived from the figures supplied by the local revenue authorities. Similarly the total of the village area may not tally with the rural areas of the tahasil. The difference may be due to the fact that the village area may not necessarily include the area under hills and rivers etc. which are included in the tahasil area besides, there are also varying methods on computation adopted at different levels. Area figures for the unsurveyed revenue villages have been left blank like the forest villages and are indicated as "Not available".

Though there has been no change in the boundary of the State between 1971-81, the revised computation in the area of some districts has resulted in marginal decrease of 135 sq. kms.

Density

The density (population per sq. km.) shown for the State/District/Tahasil/Police Station/Town have been worked out using the area figure corrected upto two places of decimals.

Spelling of administrative unit

As explained above, the spellings of district have been adopted from the Survey of India to maintain uniformity at all-India level. However, the spellings of lower units, viz., tahasils, police stations, village, town are in confirmity with the spellings available in the State Government records.

Physically handicapped persons

It is customary for the Census to introduce new concepts in every Census. Accordingly an attempt was made during the houselisting operation conducted in April-May, 1980 to find out the statistics regarding the physically handicapped

persons all over the country. Physically handicapped persons were broadly recorded under three categories, viz., totally blind, totally crippled and totally dumb.

The term "Totally crippled" refers to such persons who have not lost their arms or limbs. The loss of arms or legs or all the 4 limbs refers to loss of both the arms or loss of both the legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus a paralytic who has lost use of both the legs or both the arms was taken as totally crippled, though the limbs are physically available. However, the loss of either one arm and/or leg did not classify a person as totally crippled. There are other situations where a person unfortunately suffers from more than one of the aforesaid disabilities. In such cases, the intention was to record the persons by greater disability. For example, a person may be both blind and dumb or blind and crippled. In such cases the intention was to find out the greater disability, whether blindness is considered as greater disability than either dumbness or being crippled. Similarly being crippled is greater disability than being dumb. In the extreme cases, where a person suffered from all the 3 disabilities, it was recorded under the category 'blind' which is certainly the most unfortunate disability. It was usual to find a person blind or crippled due to old age and such cases were also taken note of and categorised under appropriate classification since he suffered from disabilities.

Brief History of the District

The rock edicts of Ashok inscribed on a hill (known as Khapingala Parbata) at Jaugada on the river Rusikulya confirms that Ganjam area was a part of the ancient Kalinga, which was occupied by Ashok after the fierce battle in 261 B. C. In the middle of 4th century A. D. the area was also covered in the territory of Guptas. It also continued under the Bhoumyakars in the 8th Century. A.D. About the 10th century A.D., a new Bhanja dynasty came to power at Russelkunda. Subsequently the present district remained part of the domains of Ganga and the Gajapati kings. The Marahattas, however, extended their power over Ganjam about the year 1740. The British were successful in occupation of Ganjam by defeating the French. The office of the Collector of Ganjam was established in 1794. The hilly areas of Ganjam and Vishakhapatanam districts were excluded from the jurisdiction of Civil Court and placed under the agent of Governor in 1839. However, during the second-half of 19th Century, the British rule was consolidated in Ganjam

This district was transferred from the Madras Presidency to Orissa Province created on 1.4.1936. Khondmal Sub-division, which was part of Anugul district till March, 1936 was amalgamated with Ganjam district from 1.4.1936. After the merger of the princely State on 1.1.1948, Khondmal was detached from Ganjam and added to the District styled then as Boudh-Khondmal. From 1.4.1949 Baliguda Sub-division was detached from the district of Ganjam and added to the-then district of Boudh-Khondmal. The Parlakhemundi Sub-division with Parlakhemundi and R. Udayagiri tahasils was created in August, 1956.

The Headquarters of the district is at Chhatrapur, situated on the National Highway No. 5 running from Calcutta to Madras and is 152 Kms. away from the State Capital, Bhubaneswar. The Collector and the District Magistrate is in over-all charge of the district administration. The district has been sub-divided into 4 Sub-divisions viz., Chhatrapur, Brahmapur, Ghumsur and Parlakhemundi, each in charge of a Sub-divisional officer, having functions similar to that of the Colletor within their jurisdiction. For the purpose of revenue administration, the district has been divided into 11 Tahasils, each kept in-charge of a Tahasildar and 204 Revenue Inspector circles, each in-charge of a revenue inspector. The Revenue Inspector's jurisdiction comprises of a group of villages and he functions under the direct supervision of the Tahasildar. For developmental administration, the district has been divided into 29 development blocks, each kept in-charge of a Block Development Officer. The rural area of the district has been grouped into 407 Grampanchayats, the local bodies which function under the supervision of the Block Development Officer. There are 19 number of statutory towns in the district under the name of Municipality and Notified Area Council and one non-statutory town known as Ganjam Census Town. The district has 23 number of Police Stations to look after the law and order situation. However, both Revenue Developmental, and General administration of the district rests with the Collector and the District Magistrate holding his office at Chhatrapur and supported by the Sub-divisional Officer kept in-charge of Sub-division.

District Census Hand Books

Among the traditional documentation of the Census, the fairly comprehensive and uniform publication of District Census Handbook (D. C. H.) consisting of town and village directory and town and villagewise Primary Census Abstract (P.C.A.) has been found to be very useful and are constantly referred to by the planners and data users. The District Census Handbook is the only publication that incorporates the data down to a village level in rural area and upto ward level in the urban area. The data published in these volumes are of immense value to the planners, scholars and administrators for the purpose of village level, block level and district level planning and studies. It is a publication of the State Government. The cost thereof is borne by the State Government. However, the Director of Census of the State is responsible to the extent of providing necessary data which are obtained through Census.

This document was first published as an auxiliary to 1951 Census, consequent upon the request of the Government of India to State Government to publish District Census Handbooks containing statistical information relating to villages, towns and police stations etc. of the districts. The State Government agreed to this and decided to bring out District Census Handbook as a priced publication to be published in the State Government Press. This publication since then is continuing with unbroken chain. Apart from giving the rural statistical information, it readily gives a complete list of villages contained within a Police Station and District. It will not, however, be out of place to mention here that in many districts, complete list of villages is not maintained properly and the present list is the result of extensive enquiries and contacts with different agencies and can be regarded as exhaustive.

To make the data component more illustrative maps of the district, tahasil and police station are also published in the publication. The Police Station maps showing the villages as per the population size, having different amenities represented in approved legend will help the readers in easy appreciation.

According to the 1951 publication programme the District Census Handbook was published in one volume and did not contain information given in the village and town directory. Apart from this the brief introduction of the district, general features, density map, prescribed tables for general population, economic tables, social and cultural tables and village statistics were provided in the District Census Handbook. The Primary Census Abstract was given under the heading "village statistics". However, the information on villagewise list of displaced persons, and information on small scale industries were presented in the 1951 District Census Handbook volume.

Similarly, 1961 Census publication was presented in one volume. This volume was divided into 3 parts. First part contained the introduction of the district, second part contained the census tables and the official statistics was given in the third part. The information given in the Village Directory and Town Directory for 1981 Census was not given in the 1961 District Census Handbook. The villagewise Primary Census Abstract was given in the second part under the heading of "Village Directory". The information on villagewise list of industries and tables on fairs and festivals were presented in 1961 District Census Handbook publication.

According to the 1971 Census publication programme, the District Census Handbooks were to be published in 3 volumes; Part-A containing the data on amenities, Part-B incorporating Primary Census Abstract (P. C. A.) and Part-C giving administrative statistics and census tables. District Census Handbooks, part-A and part-B for the 1971 Census could be published quickly. Both these volumes were in great demand by the data users, as they contained a vast mass of data on amenities available in the Village/Town alongwith demographic features. In regard to the District Census Handbook Part-C, we faced difficulties in collecting administrative statistics from various Offices and our progress in

publishing the report was considerably delayed. After obtaining necessary statistics; much difficulty had to be encountered in printing of the part-C, which was pending in the State Government Press at Cuttack for a pretty long time. Under compelling circumstances the manuscript could be printed in the Private Presses located at Cuttack and elsewhere. In view of the inordinate delay in collecting administrative statistics which would in any case be available to the data users in the publications of the respective Statistical bureaus/departments of the State Government there was re-thinking in the matter to drop the publication of part-C of the District Census Handbook for the 1981 Census.

However, it has been decided to publish the 1981 District Census Handbook in two parts. Part 'A' would be confined to village and town directory, whereas part 'B' would be confined to village and townwise Primary Census Abstract including Scheduled Castes and Scheduled Tribes Primary Census Abstract upto Police Station/ Town levels. Despite the fact that publication of both the parts in one volume would have enhanced the value, it could not be helped in respect of the bigger districts comprising large number of villages and towns. Therefore, the publication has been broken up into two volumes (Part 'A' and 'B').

By and large, the contents of the Village and Town Directory are almost similar to those adopted for 1971 Census, barring a few changes necessitated by the requirements of the planners and data users.

The new feature of 1981 format is having provision of the distance range of the particular amenities to a village where it is not present. A few items of information like adult literacy centres have been introduced in the village directory to meet some requirement of the Minimum Needs Programme.

Another introduction viz., "total population and number of households" for each village has been shown in the village directory to ascertain the co-relation of the amenities with population and number of household they serve. Since current day planning has been initiated from the Community Development Block level, villages coming under each Community Development Block has been furnished in the annexure of the village directory for the facility of the administrators and planners, which is a departure from the earlier Censuses.

Similarly in the Town Directory, information on Scheduled Castes and Scheduled Tribes population in statement-IV and availability of adult literacy centres in statement-V are innovations keeping in view the requirement of Minimum Needs Programme.

The significant change in the Town Directory is the provision of class of town in all statements for analysis of the infrastructure of amenities.

Both the Village and Town Directory and objectives of various columns thereunder alongwith the connotation of various abbreviations used therein have been explained in the relevant sections.

Scope of Village Directory

The data on village directory have been presented Tahasil/P.S.-wise and Village-wise. The village includes revenue village and the clusters of habitation located in any tract mentioned thereunder. The names of villages have not been arranged alphabetically since location code thereof have been provided in ascending order. However, for facility of the readers, an alphabetical list of villages under each Police Station with its location code numbers has been provided at the beginning of the village directory. In case of a village treated as an out-growth of an urban agglomeration, the code number and name have been provided minus data thereof which has been shown against such core town. In case of part-village forming a portion of an out-growth, the corresponding data has been shown in the village directory. In case of census towns, such villages have been listed in the village directory without any data on amenities, for which the town directory has to be referred to. However, the land utilisation data for such census town has been made available in Appendix—II

It has been the tradition of census to present maps of constituent administrative units beginning with the district, followed by Tahasils, and Police Stations thereunder. All the maps so presented in this volume have been authenticated by the concerned revenue authorities in so far as the boundary and spellings and locations are concerned. In case of the units adjacent to the coast land of the State, such maps have been cleared by the Survey of India through the office of the Registar General, India.

In addition to the district map, the administrative map of each Tahasil/Police Station has been given in the beginning of the village directory of that Tahasil/Police Station. The boundaries of Police Stations in the Tahasil, location of towns, large villages, rivers, roads, railways, hills forests and important institutions such as High Schools, Colleges, Medical Institutions, Post & Telegraph Offices etc. have been shown in the Tahasil map. An administrative map of the Police Station has also been presented in the beginning of the village directory of that Police Station giving the boundaries of the villages in location codes and towns located within it and other details similar to the Tahasil map. Besides, villages have also been shown through symbolic representation by different population sizes. The uninhabited villages have been shown by cross marks (X). The shaded portion of the map represents the area of the towns.

The information on Village Directory has been provided in the statement containing 20 columns giving areas of the village in hectares, population and number of households, amenities viz., educational, medical, drinking water, power supply, post and telegraph and communication etc. available in the village. In case of non-availability of any of the amenities the distance range of its availability has been provided in the directory. Similarly, the land uses pattern of the village providing the extent of forest area, area under irrigation, un-irrigated area, culturable waste and area not available for cultivation have been indicated in the directory in hectares. Places of religious, historical/archaeological interest have been shown for reference of the readers.

COLUMN 14— *Staple Food* :— Staple food refers to grain and only relates to the majority population of the village using for major portion of the year. Combination of grains in staple food viz., rice, wheat and maize etc. have been indicated.

COLUMN 15 to 19—*Land Use* :— The land use pattern given in the village directory conforms to the pattern of classification of

land use as recommended by the Ministry of Agriculture, Government of India. The guidelines in this regard are as follows.:

1. Forests
2. Not available for cultivation :
   (a) Lands put to non-agricultural uses
   (b) Barren and un-culturable lands
3. Other un-cultivated lands excluding fallow lands :
   (a) Permanent pastures and other grazing lands
   (b) Lands under miscellaneous tree crops and groves not included in the net area sown
   (c) Culturable wastes
4. Fallow lands :
   (a) Fallow lands other than current fallows
   (b) Current fallows
5. Net area sown.

In the village directory Column-15 (forest) represents, the category one above. Column-16 (Irrigated) and column-17 (un-irrigated) given break-up of agricultural land, which are a combination of categories-4 (a+b) and 5 above. Column-18 (culturable waste) corresponds to category-3 (a+b+c) above. Column-19 (area not available for cultivation) corresponds to category-2 (a+b). Area figures of the village have been shown in hectares. The total of figures under columns 15 to 19 will not necessarily tally always with the total area of the village as indicated in column-3 of the directory, as there are waterways and hills etc. which may not be included in the land use statistics of the village.

Forests may mean either state owned or private forest and whether wooded or maintained as potential forest land. There are situations where patches of land have been put to agricultural use within the statutory notified forest and have been considered as forest by the revenue administration. These areas have been treated as forest. In Orissa, forest is broadly known under two categories, viz., village forest, known in local parlance as khesra forest and reserved or protected forest. The village forest constitutes an integral part of the village area unlike the reserve or protected forest. This is because communal right in land is not exercisable in the areas known as reserve forest under the Orissa Forest Act.

Leaving aside this, 4 Appendices in the village directory have been presented in this publication, which is a distinct feature of the current census publication.

These are:

i) Tahasil/Police station-wise abstract of educational, medical and other amenities.

ii) Land utilisation data in respect of non-municipal towns(Census Towns).

iii) Tahasil/Police Station-wise list of villages where no amenities are available and

iv) Tahasil/Police Station-wise list of villages indicating the proportion of Scheduled Caste/Scheduled Tribe population to the total population by ranges.

These appendices are new to the present census which provides Tahasil-wise abstract of villages on different priorities. The intention is that the abstract will be helpful for planning inputs in areas/villages where the basic infrastructure is lacking. Similarly the Appendix—IV will be helpful for planning of welfare programmes, for Scheduled Castes/ Scheduled Tribes at micro-level, as it provides data by ranges of Scheduled Caste/Scheduled Tribe population.

Scope of Town Directory

The town directory is intended to cover all the towns in the district statutorily notified as such as also the non-municipal census towns. The towns have been arranged in the town directory in the alphabetical order and do not cover strictly the military areas. The data on amenities and other aspects presented in codes has been explained in detail in separate chapters. Regarding the urban agglomeration the conventional creation of census the names of such agglomerations have been indicated which is similar to the name of the main town of the agglomeration. The particulars for such constituents of the agglomeration have been furnished separately. Such presentation was operationally found to be convenient to have an idea of the particulars of the city or town agglomeration in toto and also severally. In the instant case, there is no such agglomeration at all in Ganjam district.

To sum up the earlier format of 1971 D.C.H. Part-A has been restructured for 1981 census, keeping in view the objectives of the Planning Commission for the Minimum Needs Programme and the revised 6th Five Years Plan. More interest has been taken to know the over-all infrastructure in terms of amenities, however, modest or from whatever source it may have been provided.

Information on town directory has been furnished in 6 separate Statements. The scope and the content of the statement adopted for the towns is briefly explained below:

Statement I—This statement gives the status and growth history of the town. In columns 1 and 2, serial No. of the towns in alphabetical order and names of the towns with class and civic administrative status have been furnished. In columns 3 and 4 location code of the town has been indicated giving the names of the tahasil under which it is located. Column 5 gives the area figures of the town in sq. kms. The number of households including the houseless household has been shown in column 6. In columns 7 to 15 the population alongwith the growth rate of town from 1901 to 1981 have been shown, for easy comparability. In column 16 density i.e. population per sq. km. has been furnished. In columns 17 to 19 the sex ratios (females for 1,000 males) as recorded from the 1961 census onwards have been furnished.

Statement II—It provides the physical aspects and location of the town. In columns 3 to 5 the average rainfall and temperature have been furnished. Distance of the town in kilometers from the State Headquarters/ District Headquarters/ Sub-divisional Headquarters/Tahasil Headquarters, the nearest city with population of one lakh or more, railway station, bus route, navigable rivers/canals within 10 kms. It have also been indicated in column 6 to 12 respectively.

Statement III—The statement reveals a picture of the municipal finance for the year 1978-79. The receipts of the urban local body from various sources have been provided under columns 4 to 10 whereas the expenditures under various items have been disclosed under columns 11 to 17.

Statement IV—It gives information relating to civic and other amenities as it stood in 1979. Scheduled Castes and Scheduled Tribes have been given under columns 5(a) and 5(b) of the statement. The road length in kms. has been shown under column 6. The system of sewerage, number and type of latrines available in the town in addition to the method of disposal of night soil have been shown under columns 7 to 11. Columns 12 and 13 of the statement deals with the source of water supply and system of storage of the town. Column 14 of the statement provides the availability of fire service if any in the town. In case, such service is not available in the town,

the name of the nearest place where available has been shown alongwith the distance from town. Electrification with number of connections for different uses has been shown in columns 15 to 19 of the statement.

Statement V—In this statement information relating to medical, educational, recreational and cultural facilities in the town has been shown. Medical facility available in the town has been shown in columns 4 and 5. Educational facilites, viz., number of different types of Colleges. Technical Schools, recognised commercial and vocational institutions, Higher Secondary Schools, Secondary Schools, M. E. Schools, Primary Schools and Adult Literacy Centres have been indicated in columns 6 to 15. Column16 shows the Working Women's Hostel with the number of seats. Columns 17 to 20 of the statement discloses recreational and cultural facilities like Stadia and Cinema halls etc. available in town. In case of non-availability of medical and educational facilities in the town the name of the nearest place along with the distance where the ficility is available has been given.

Statement VI—This represents the information on Trade, Commerce, Industry and Banking as it stood in 1979. In columns 3 to 5, important commodities as imported into the town have been mentioned as against the exported items out of the town shown under columns 6 to 8. The names of the three important commodities manufactured in the town have been shown in columns 9 to 11. Number of banks, number of agricultural credit socities and number of non-agricultural credit societies available in the town have been furnished in columns 12 to 14 respectively in the statement.

There is no notified slum area in any of the towns of the State. Hence, the prescribed statement IV-A has not been provided in the Town Directory.

The towns having out growths have been provided in an Appendix to the Town Directory showing their population separately.

Physical Aspects

Ganjam is one of the southern districts of Orissa. It lies between 18° 4c'N and 20°17'N latitudes and between 83°48'E and 85°11'E longitudes. The district is bounded by Phulabani and Puri districts in north, Srikakulam district of Andhra Pradesh in the south, Phulabani and Koraput districts in the west and the Bay of Bengal and Puri district in the east.

According to the Surveyor General of India, the area of the district is 12,531·0 Sq.Kms. Area-wise the district ranks third in the State. The current operation has recorded 26,69,899 as the population of the district, which consists of 4,01,116 Scheduled Caste and 2,53,034 Scheduled Tribe population. Population-wise this district ranks third in the State. The percentage of Scheduled Caste and Scheduled Tribe population to the total population of the district works out to 15·02 and 9·48 resepctively.

The district can be broadly divided into two divisions, the coastal plain area in the east and the table land in the west. The plains lies between the Eastern Ghat and the Bay of Bengal and contain more fertile lands. The extreme south-east is occupied by a portion of Chilka lake. The t ble land of the west, is a continuation of the Eastern Ghat's range and is formed by two plateaus featured by some of the high mountains of Orissa. The northern plateau lies between the hilly ranges of Baliguda in north and R. Udayagiri in the south, containing hills ranging from 2,000 ft. to 4,467 ft. in height. This is the home land of Khonds. The southern plateau lies between R. Udayagiri and Parlakhemundi plains which contai some of the highest hills viz., Singaraju Parbat (4,973 ft.), Mahendragiri (4,923 ft.) and Devagiri (4,534 ft.). This is the home land of Sauras. The two plateaus are the home land of many tribes, the Khonds predominating in the north and the Sauras in the South. The so called agency region contains 7 Blocks, viz., R. Udayagiri, Mohana, Nuagada, Gumma, Parlakhemundi, Kashinagara and Rayagada of the district.

The district has alluvial soil in the eastern part, laterite soil in the west and patches of black cotton soil at the centre and in the north-east close to the Chilka lake.

The northern tropical semi-evergreen forests are found in Parlakhemundi areas, whereas the forest in Guma area may be classified as northern tropical moist, and deciduous type. The important species found in the forest are Sal, Asan and Bija. The forest area of the district as on March, 1981 was 7,011·67 Sq. Kms. which comprises of 1,865·46 Sq. Kms. under reserve forest category and the rest are under demarcated and un-demarcated categories.

The climate is generally equable, the cold season from December to February is followed by the hot season from March to May. The period from June to September makes the south-west monsoon season and the subsequent two months constitute the post monsoon period. The average annual rain fall of the district is 1,189·22 mm. The relative humidities are dry throughout the year specially in the coastal belt. The depressions and the cyclonic storms some times originate in the Bay of Bengal in the monsoon and post monsoon months. During the cold season, the mean daily minimum temperature comes to 16·2°C and the mean daily maximum temperature comes to 26·9°C.

The important rivers of the district are Rushikulya,, Badanadi, Mahendratanaya, Bansadhara, Bahuda, Hadabhangi, Ghodahada, Dhanei and Baghua. The biggest river is Rushikulya, which originates from Daringibadi in Baliguda Sub-division of Phulabani district and enters the sea near Ganjam. Ghodahada is the chief tributary of Rushikulya.

Jurisdictional Changes—The following jurisdictional changes have taken place during the decade 1971-81. One new tahasil at Khalikote has been created in the district. Consequent upon large tract of the district being covered by Survey and Settlement Operation, there has been some changes in jurisdiction of Tahasils and Police Stations as indicated below

Transferred from 1971 position			Transferred to 1981 position		
Tahasil	Police Station	No. of villages	Tahasil	Police Station	No of villages
1	2	3	4	5	6
Chhatrapur	1. Chhatrapur P.S.	2	Newly created Khalikote Tahasil	1. Chhatrapur P.S. (Portion)	2

Major Characteristics of the District

Mining—The minerals found in the district are grinding materials, clay, lime-stone, manganese, monazite, sand, talc etc. Black sand is found along the coast line consisting of ilmenite monazite, zircon and granite. The only exploitation of minerals in the district is lime shells in the sea. Ilmenite and Monazite is being exploited by the Orissa Sands Project of the Indian Rare Earth Ltd., at Chhatrapur. Talc, however is found only in R. Udaygiri area.

Forest—The forest area of the district as on March, 1981 is 7,011.67 Sq. Kms. which includes 1,865.46 Sq. Kms. under reserve forest category and the rest area under demarcated and undemarcated forest category. The major forest produce are Timber, Bamboo and the minor produce includes Mahua-flower, Patala-garuda, Arrowroot, Canes, Broom-grass, lac, Myrobalan, Sunaribark, Gendoligum, Neem-seed Karanja seed, Kendu leaf, Siali leaf and minor minerals like Morrum, boulder etc. The Forest Corporation of the State Government has taken up the trade on timber whereas the Kenduleaf Corporation, a State Government undertaking has been trading on Kenduleaf. In the recent past, the trade on Kenduleaf has been taken over by the State Government. It is export oriented and provides a sizable revenue to the Government. To tackle the problem of denudation of forests to recloth the barren hills, to meet the local demand for timber and fire-wood, to prevent soil erosion, to enrich the degrading forest etc., farm forestry by raising plantation and aforestation works have been taken up in a massive scale in 4 forest divisions operating in the district. During 1980-81, 737.5 hectres were covered under social forestry. 320 hectres of degraded forest were restored with new plantation by gap filling besides 44Kms. were covered under avenue plantation 6,76,161 number of seedlings were distributed during 1980-81 under farm forestry programme. Quick growing species like Casuarina have been taken up for aforestation work as well as to check soil erosion. Coastal shelter belt plantation over an area of 100 hectres were taken up during 1980-81 alongwith 280 hectres covered by tree plantation in the catchment areas.

Power—Power supply to different areas of the district is generated from the Machhkund Hydro Electric Project located in the Koraput district. Electrification programme has received impetus in the recent plan period with a view to change the agricultural and industrial map of the State. All the towns in the district have been electrified by the Orissa State Electricity Board. However, under the rural electrification programme, by the end of 1980-81, 1,761 villages have been electrified in the district.

For rural electrification an construction of dug-wells in the district, effective steps have been taken for energisation of dug-wells. By 31.7.81, 2,250 dug-wells in the district were energised. Besides, this 428 tube-wells and Lift Irrigation Points were also energised. This has provided irrigation facility over 7,118 hectres of land.

Industry—In the earlier days indigenous industries like bellmetal and weaving had a name in the district as the articles were often exported outside the district. In the post-independence era emphasis has been laid on rapid industrialisation in the State and consequently a number of large, medium and small industries have come up through out the district providing vast opportunity for employment as well as exploitation of the existing potential.

In the Central Sector, the Indian Rare Earths Ltd., has taken up Orissa Sands Projects at Chandanpur, for exploiting the available ilmenite and monazite in the coastal belt. With the assistance of the Industrial Development Corporation of Orissa Ltd., a State Government undertaking, the Jayashree Chemical Ltd., a private sector undertaking has been set up at Chhatrapur for manufacture of chemicals. Another spinning mill is in process at Asika

which will produce clothes. In the Co-operative sector a sugar factory has come up at Asika, which is exploiting the existing sugar-cane potential of the district and has become a successful unit. In collaboration with the Industrial Promotion and Investment Corporation of Orissa Ltd., a State Government undertaking small, medium and large scale industries have been implemented in the district, which include a Bleaching-powder Plant at Ganjam. Other projects likely to come to produce shortly, include a Carbon-dioxide Plant at Asika, a Causticsoda Plant at Ganjam, a Jute Twine and Hand-tool Plant at Brahmapur, a Titanium Di-oxide Plant and an Aluminium Alloys Plant at Chhatrapur besides a Craft Paper and Straw Board Plant at Ganjam. These projects on completion will change the industrial profile of the district.

In pursuance of the Industrial Policy of the State Government the Orissa Industrial Infrastructure Development Corporation (IDCO), a State Government undertaking is assisting in rapid and orderly establishment of organisation of industries in the designated industrial assistance and industrial areas in Orissa, setting up industrial units in the identified growth centres besides providing land with infrastructure facility for location of small and medium industries in the State. This Corporation has provided sheds at Brahmapur, Parlakhemundi and have further programme for construction of additional sheds at other places.

For full exploitation of the existing potential and establishment of Village Industries, Cottage Industries and Small Scale Industries, District Industries Centres were formed in the year 1976 for establishment of such Small Industries and encouragement to the entrepreneures. These centres provided necessary know-how, raw materials and finance for starting industries besides marketing of the products and training of the necessary man-power required for the unit.

During the year 1980-81, 1,170 entrepreneures were identified in the district. 230 Small Scale Industrial Units were established with the finance of Rs. 129.90 lakhs. These units have provided employment to 1,495 persons. Under the artisans programmes, 2,691 artisans have been assisted for setting up their units.

Under handloom sector, Brahmapur silk sarees and dhotis have been traditionally famous in India There are about 7,000 weaver families having 5,912 looms. About 4,213 looms have been covered under the co-operative fold and the rest are managed by the master weavers. There is concentration of weavers at Sherogada, Kavisurjyanagar, Hinjilicut, Bellaguntha and Asika During the year 1980-81, 12·28 lakh Mtrs. of Janata Cloth with the cost of Rs. 36·46 lakhs were produced. Under Handloom Fabric 27·45 lakh Mtrs. with the cost of Rs. 130.06 lakhs were produced.

Necessary training are being given to the artisans to take up industries with necessary assistance. During the year 1980-81, 253 artisans were trained. The units established through the District Industries Centre include black-smithy, bee keeping, brass and bell metal dairy, carpentry, food processing and preservation, Handloom and Khadi, leather product, pottery, oil, tailoring and others. 13 Panchayatsamit Industrial Co-operative units and 14 Handicraft units were functioning in the district on August, 1981.

Agriculture—Agriculture is the main stay of the people. The plain area of the district contains some of the most fertile lands. However, the agency area consists of a net work of hills and forests thereby providing least scope take-up for agriculture. In the recent past efforts have been made to irrigation projects with a view to bring more coverage under agriculture.

The district has irrigation facility in a limited area. Hence agriculture is mostly dependent upon the rain fall, which are often eratic and thereby pose drought situation. Necessary emphasis has been laid on growing short duration and high yielding veriety of crops. Efforts are also being made for diversi-

fication of cropping pattern in the up lands by substituting non-paddy instead of Paddy. Simultaneously farmers are being educated on mixed cropping system as well as multi corpping system, both under irrigated and non-irrigated systems.

The principal crops of the district are paddy, ragi, mung, biri, til, ground-nut, kulthi, sugar-cane, chilly etc. Sugarcane is grown in and around Asika and Parlakhemundi areas abundantly.

The cultivable area of the district is limited to 5.73 lakh hectres out of which assured irrigation from the recognised sources is available for 2.061 lakh hectares in Kharif and about 54,140 hectres in Rabi. During 1980-81, the achievement under kharif crop was to the extent of 8,27,242.46 hectres. Similarly the achievement under rabi crop during the said year was to the extent of 3,52,631 hectres. This achievement includes a coverage of 1,51,945.9 hectres under high yielding varieties. The achievement of 1980-81 includes 4,38,511 hectres under cereals, 22,386 hectres under pulses besides 33,723 hectres under oil-seeds during kharif. Similarly, the coverage under rabi crop during 1980-81 include 2,60,406 hectres under chilly 39,650 hectres under oil-seed and 19,057 hectres under cereals.

The agriculture department have taken up special measures for supply of certified and improved seeds to the farmers and raised seedlings under Community Nursery Programme. To popularise the new short duration high yielding paddy, Mini kit programme has been introduced.

Irrigation—The main source of irrigation of the district is river Rushikulya. It supplies irrigation to the areas coming under 11 blocks besides satisfying the drinking water need of more than one lakh of urban population, living in Brahmapur Rushikulya, Hiradharabati, Dhanei, Bahuda and Jayamangala are the important major/medium irrigation projects in the district.

The certified ayacut of the Rushikulya irrigation system is 1,47,876 acres. During the year 1980-81 irrigation was provided to 1,46,880 acres in Kharif and 15,072 acres in Rabi. Leaving aside Rushikulya Project, the other projects provide irrigation to 69,950 acres in kharif and 2,745 acres in Rabi during the year 1980-81. The other on going medium irrigation projects like Daha, Baghua, Harabhangi have a designed ayacut for 48,625 acres and 19,813 acres for Kharif and Rabi respectively. The other projects like Luharikhandi, Mahendra tanaya and Chheligada on completion will add irrigation potential to the district.

Coming to Minor Irrigation, the projects having 60 acres and above ayacut are administered by the Irrigation Department, whereas the projects having less than 60 acres ayacut are being administered by the Panchayatsamitis. The district has a certifted aycut for 2,52,372 acres in Kharif, besided 19,776 acres in Rabi from minor irrigation source. However, the 19 ongoing Projects on completion can extend the irrigation to 17,989 acres in Kharif and 6,980 acres in Rabi In addition, 20 Minor Irrigation Projects have been proposed for new construction, the designed ayacut of which will be 17,610 acres. 155 Minor Irrigation Projects proposed for renovation will provide an additional ayacut for 21,873 acres in kharif in addition to the existing potential.

In the recent past emphasis has been laid to harness the ground water potential by the State Government. According to the Orissa Lift Irrigation Corporation Ltd., a State Government undertaking, an area of 4,001·33 Sq. Kms. of the district has ground water worthy having annual restorable ground water potential of 97,027·94 hectres. It is also assumed that 47,600 standard open wells are feasible in the district. By the end of 1980-81, 552 Lift Irrigation Projects were installed by the Lift Irrigation Corporation, which include river project also. Out of this source irrigation facility was available for 5,473·40 acres of Kharif during the year 1981.

The programme of constructing irrigation wells has been taken up in the district on a massive scale for utilising the ground water potential. The district has (according to the survey made by the Ground Water Cell) a potential for construction of 2,62,100 dug-wells, out of which 74,344 dug-wells were provided with credit facility and 45,529 dug-wells have been completed.

In view of the efforts initiated by the State Government, it is hoped that an appreciable extent of the area will be provided with irrigation facility by the end of sixth five year plan.

Pisciculture—In the earlier days pisciculture wag confined to Bandhas, Sagars, besides Rivers to a limited extent. The district has also a long sea belt and the Chilka coast line which provide scope for marine firhery, which was usually exported outside the district. In the post-independence era emphasis has been given for intensifying pisciculture activity with a view to supplement the agrarian income.

Ganjam district occupies an important place in fishery having a coast line of 100 Kms. Marine fishery is limited to the coastal belt having important fishing centres at Patysonepur Markonda, Gopalpur, Argipalli, Kontigarlu, Surula and Sonapur besides Chilka lake fishing having important centres at Rambha, Ganjam and Khalikote.

Including the coastal belt,Chilka lake along with the tanks and reservoirs, the district has a potential of 18,600 hectres. There are 6,722 Grampanchayat tanks including Minor Irrigation Project, Katta and Sagar with water area of 10,943 acres. In addition to this, there are 658 private tanks covered under pisciculture with water area of 632·8 acres. However, 1,044 tanks with water area of 3,498 acres were taken up for pisciculture during the year 1980-81. Pisciculture was an important source of income for the Grampanchayats of the district which had received an income of Rs, 9·43 lakhs during 1980-81. 40 Fisherymah Co-operative Societies are functioning in this district

During 1980-81, 133·0C lakhs of fish-seeds were produced and 48·070 lakhs frys were distributed to the Grampanchayats and private farmers. Intensive fish production was taken up in a water area of 20·65 acres during 1980-81. Under reservoir fishery 18 units were functioning in the district at Kodala, Bhanjanagar and Digapahandi block areas during 1980-81.

Brakisb water fish farming in the coastal area has been taken up by the department and an area of 1,133·11 acres were found suitable after necessary survey for the purpose.

Fish Farmers Development Agency (FFDA) was started from the year 1977-78, mainly concerned with inland pisciculture aiming at bringing maximum number of unutilised water area into intensive fish production. The Fish Farmers Development Agency also arranges funds through the lending institutions and renders technical advice to the fish farmers and encourages by grant of subsidy. During 1980-81, the lending institution sanctioned 118 cases involving an area of 88.46 acres.

Gopalpur on sea has a potential of a minor port. There is also a proposal for fishing harbour in this place, which on completion will help in exploitation of marine fishery potential.

Horticulture— The geophysical situation and ecological conditions of the district with its varied topography, soil and climatic factors have wide ranging scope for growing different species of horticulture plants from saline coastal belt of Bay of Bengal to the Mahendragiri hill of the Eastern Ghat regions.

A pioneering work has been undertaken in this district under insitu mango and citrus plantation covering 3,800 acres under the former and 5,318 acres under the later.

Citrus like Mandarine Oranges of both Khasi and Nagpur Santra varieties are successfully grown in Mahendragiri-Ramgiri belt.

1980-81, Kagzi lime plantation was taken up over an extensive area in Sherogodo Block. The total seedlings planted so far was 25,000 out of a target of 45,000. A special Horticulture project for this work exists. 3.24 lakhs of citrus seedlings have been also planted over an area of 1,620 acres in Mahendragiri Hill area in the fields of 773 tribal farmers in 75 villages during 1981-82.

82,742 coconut seedlings were raised during 1980-81 and 16,363 numbers of seedlings have been distributed. In 1981-82 so far 15,000 seedlings have been supplied to the various sale centres as against the total ident of 36,000 seedlings. The sale is at the subsidised rate with the funds of D. R. D. A., Ganjam.

Animal and Husbandry—The live stock census of 1977 discloses the following live stock strength of the district :

1	Cattle	...	1,078,859
2	Buffalo	...	141,173
3	Sheep	...	90,157
4	Goat	...	247,564
5	Horse and Pony	...	396
6	Pig	..	21,823
7	Poultry	...	499,567
8	Ducks	...	3,964
9	Mole and Donkey	..	121

The administrative infrastructure of the district includes 2 Veterinary Hospitals, 42 Dispensaries, 149 Live Stock Aid Centres, one Clinical Investigation laboratory, 3 Key village blocks and 7 A. I. Centres. In addition, there is district live stock breeding farm at Bhanjanagar.

For economic upliftment of the rural poor, various animal husbandry schemes have been initiated through different programmes of the Government. These efforts intended to supplement the agrarian income of the individuals by encouraging selected schemes like dairy sheep rearing, goat rearing, pig rearing, poultry rearing etc. During 1980-81, 1,442 dairy units, 1,575 goatery units, 294 sheep rearing units, 53 pigery units and 41 poultry units were achieved in the district. Due emphasis has been given to the weaker section of the community.

The district Milk Co-operative Union is handling about 1,000 to 1, 500 litres of milk per day. During the year 1980-81, 420,901 litres of milk were marketed. For sale of surplus milk, 62 Primary Milk Co-operative Societies have been organised in the district out of which 35 societies have been affiliated to the District Milk Co-operative Union.

Due to high cost of cattle feed and decrease in pasture, emphasis has been laid on fodder cultivation by way of taking demonastration at various places.

Intensive poultry development project has been functioning in the district since 1975. Poultry are supplied by the district poultry farm located at Bhanjanagar. 586 units have been supplied with hundred layer birds for each unit. The poultry Co-operative Societies are functioning at Brahmapur, Hinjilcut, Purusottampur, Rambha, Humma and Asika.

Co-Operation—Organisation of Credit Co-operative Societies at all levels and strengthening the credit structure constitute an important feature of Co-operative activities in the post independence era. This was initiated to do away with the conventional leadership of village money lenders, mahajans, who were exploiting the rural farmers and traders with high rate of interest while providing finance for their avocation.

By 1980-81, the Co-operative Socities in the district had covered 2 52 lakhs families of the district. The membership includes 22,054 Scheduled Caste and 21,056 Scheduled Tribe persons.

There are 2 Co-operative Central Banks functioned in the district at Brahmapur and Asika. Similarly the Land Development Bank with its branches scattered over the district also provide finance. During the year 1980-81, Crop loan to the tune of Rs. 960 93 lakhs have been disbursed to 84,567 weaker sections besies 20,769 normal

members. During the said year medium term loan to the extent of Rs. 59.90 lakhs were disbursed under Small Farmer Development Agency (S. F. D. A.) and I. T. D. A. Programmes. The Land Development Bank had disbursed Rs. 17.76 lakhs loan under normal schemes.

Drinking water—In the recent past emphasis has been given by the State Government to provide drinking water facility to all villages. The existing drinking water sources in the villages dry up in summer and there by post the drinking water problem.

With a view to ensure supply of safe drinking water to the Rural masses, a programme for sinking of sanitary wells and construction of tube wells was taken up in the scarcity affected villages including endemic and geophysiclaly difficult villages of the district. The programme for construction of tube wells in the aforesaid villages was taken up by the P.H.D., since 1973-74 and that of sanitary wells by the B. D. Os since 1975-76. Upto end of 1980-81, 1,515 Tube wells were sunk. During the current financial year 423 tube wells have been programmed to be taken up out of which 293 have been sunk so far. From 1975-76 to 1980-81, 1,259 sanitary wells have been sunk. During 1981-82, 310 sanitary wells are under construction.

Education—The district being under the direct administration of Government for a long time, it had the greater benefit of education than many of the other districts. During the recent plan periods, there have been phenomenal expansion in the field of educational institutions with a view to provide adequate educational scope and reduce the rate of illiteracy. Regarding college education, there are 32 colleges in the district by 1981 as against 10 colleges existing in 1971. These colleges provide courses for medical, law, teachers training course, general education in Arts, Science, Commerce and etc.

Under primary education, there were 1,367 Primary Schools during 1950-51, 2,543 by 1960-61, 2,875 by 1971 which has increased to 3,121 in 1981. The student strengh was 252,943 during 1981 as against 176,245 in 1971. There were 260 M. E. Schools existing in 1971, the corrospending figure of 1981 has been 536 with a student strength of 40, 481.

There were 27 High Schools in 1951 and 48 High Schools in 1961, 133 High Schools in 1971 which has now increased to 240 during 1981 with a student strength of 45,238. In addition to the above, there are one Technical High Schools, 7 Training Schools, 4 English Medium Schools and one Arts and Craft School in the district in 1981.

Despite the phenomenal growth, 470 Primary Schools, 5 High Schools in the district were functioning without building by March, 1981. The teacher student ratio is 1:50 in High School, M. E. School and Primary School stage.

To provide incentives to the students various scholarship are available in the district which include 108 Lower Primary Scholarships, 216 Upper Primary Scholarships, 153 M. E. Merit Scholarships, 116 N. R. T. Scholarships and 58 N. R. T. Matching Scholarships.

Communication—The district has better communication facility compared to other districts of the State. Compared to its overall economic and social activities, the district is under-developed with regard to railway facility and has only 11 Railway Stations. The total length of broad-gauge railway line (Hawra-Madras) is 79 Kms. and narrow gauge railway line (Nuapada-Gunupur) is 45 Kms., both coming under the South Eastern railway zone. The total road length of railway is 124 Kms. only. So far road transport is concerned, the district is situated on Calcutta-Madras, National Highway passing through the district headquarters at Chhatrapur and the chief town of Brahmapur. This road traversess a long distance adjoining the tourist interest on Chilka Lake. In the matter of road communication, the eastern part of the district is better served than the western part which is a hilly region.

The district headquarters has all-weather Communication facility with the State headquarters, other district headquarter and impor-

tant towns inside and outside the State. All the Sub-divisions, Tahasils and Development Block headquarters have been provided with all-weather communication facility. The Orissa Road Transport Company Ltd., runs passenger buses through out the district and connect important places outside the district. The road length of the district as on March, 1981 was as follows :-

1.	National Highway	...	86·8 Kms.
2.	State Highway	...	275·5 ,,
3.	Major District Road	...	704·4 ,,
4.	Other District Road	...	297·6 ,,
5.	Classified Village Road	...	535·6 ,,
6.	R. E. O. Road	...	854·0 ,,

Harijan and Tribal Welfare— The economic development of the weaker sections of the community has received a thrust during the plan period directed towards educational development besides the economic sector by the departmental programmes. There are 11 residential educational institutions functioning under the Harijan and Tribal Welfare Department out of which 4 are Boy's High Schools, one Girls High School, 2 Ashram Schools and 4 Sevashrams. Besides, the above, 78 non-residential schools were functioning in the district where students were provided with garments, reading and writing materials and text books free of cost. During the year 1980-81, there were 5,242 Scheduled Caste and Scheduled Tribe students enrolled in 89 Schools managed by the department. To encourage education, other incentives in form of pre-matric and post-matric scholarships are given to the students. During the year 1980-81, Rs. 6,19,947/- were spent towards pre-matric scholarship which covered 4,125 Scheduled Caste and 871 Scheduled Tribe students. Another sum of Rs. 4,07,851/- were spent under post-matric scholarship which benefited 350 Scheduled Caste and 102 Scheduled Tribe students. Leaving aside the field of education, other measures have initiated in the economic and social front to bring about revolutionary changes in their leaving pattern. Provisions under regulation 2 of 1956, prohibiting illegal alienation of land from tribal to non tribal are being enforced. By June, 1981, 3,665 cases were instituted out of which 3 244 cases were disposed off and 833·67 acres of land have been restored to the tribals.

Similarly to stop the harassment of the money lender functioning in the rural areas, provisions of money lending act are being enforced against the non-registrered money lender. 86 cases were detected and penalty was levied in 22 cases. Inter caste marriage is also encouraged by way of giving cash award of Rs. 100/- in each case.

The Orissa Scheduled Caste Corporation is providing extention of credit facility to the Scheduled Caste beneficiaries by giving loan on higher subsidy for their econmic rehabilitation.

Distribution of government waste land for agricultural purposes as well as house sites for construction of dwelling houses are being made on priority to the economically weaker section of the community. During the year 1980-81, 71 Scheduled tribe and 224 Scheduled Caste persons were benefited under homestead land distribution as against 631 Scheduled Tribe and 706 Scheduled Caste persons benefited under distribution of waste land for agriculture. For housing scheme also ready-built houses are being distributed to the identified houseless beneficiaries with priority for weaker section. During 1980-81, 224 Scheduled Caste and 190 Scheduled Tribe persons were covered under Integrated Housing Scheme sponsored by the Government.

Special efforts have been made through the Tribal Development agency to bring about the overall economic upliftment of the tribals. Such agency was set up in Parlakhemundi during March, 1972 comprising of 7 blocks of Parlakhemundi Sub-divisions and Tumba area in Patrapur block of Brahmapur Sub-division having predominent tribal population. However in 1979 this programme was substituted by Intergrated Tribal Development Agency limiting its jurisdiction to 5 Tribal Blocks of

Parlakhemundi Sub-division only. Under this programme individual benefit schemes like sinking of dug-well, taking of pisciculture, dairy, goatery, poultry etc. alongwith community benefit schemes such as construction of roads, school buildings, minor irrigation project and land reclamation, aforestation etc. have been taken up.

Housing—Providing housing facility has assumed importance in the recent plan period. Besides, supplying house sites to the houseless persons for construction of dwelling houses, State Government through different programmes are also constructing ready-built houses for delivery to the identified beneficiaries. The programmes of Intergated Housing Scheme has been initiated from the year 1976-77, under which necessary financial assistance is being given to the individuals for construction of their houses. During the year 1980-81, 680 number of such houses were constructed in the district at different locations out of which 526 houses were given to the identified persons. The beneficiaries include 244 Scheduled Caste and 190 Suheduled Tribe persons in the district.

Loan Assistance is also being made available to the individuals for construction of dwelling houses under village housing project scheme. Similarly, loan assistance is being made available to the low income group and middle income group, houseless persons for construction of their houses in their own house sites. In such programmes, due priority is being given to the weaker section of the community.

The Regional Improvement Trust, Brahmapur has also taken up housing schemes in selected urban areas of the district through HUDCO loan assistance. The Goilundi gate bazar housing scheme in Brahmapur town was initiated during the year 1979-80 and under this programme 51 houses for the low income group alongwith 33 houses for the economically weaker section were constructed. Baunsalundi housing scheme at Bhanjanagar taken up during the year 1980-81 has a programme to construct 90 houses for low income group and 40 houses for economically weaker section of the community.

Trade and Commerce—In the earlier period, the district had trade communication with the southern States. The articles usually exported include bale-metal products, cotton and silk products. The Brahmapur silk sarees and dhoties are traditionally famous in India for quite a long time and mostly find market in the eastern and southern India. The other items exported out of the district are timber, fish, sugar and other minor forest product.

Due to phenomenal achievement in road communication, the volume of trade out in the district has increased considerably by road transport. The net work of branches of Commercial Banks, Co-operative Banks have been able to provide finance on easy terms to the traders which was not available in the earlier days. Fishery export includes mostly marine fish neted in the coastal belt as well as in Chilka lake. The items imported to the district include building materials, automobile goods, consumer goods etc.

The Regional Co-operative Marketing Society with its branches takes up the procurement of paddy as well as sale of consumer goods, agricultural implement, fertiliser, pesticide at fair price rates to the needy individuals. The two regulated markets of the district also take up the procurement of paddy and other crops like jute, ragi, turmeric etc. from the local people by ensuring fair price and takes up their marketability. The Primary Co-operative Societies in the district also supply fertiliser, pesticides after obtaining the same from the Regional Co-operative Marketing Society.

The important trade centres of the district are Khalikote, Brahmapur, Asika, Surada Bhanjanagara, Kashinagar, Parlakhemundi and Kodala. The weekly bi-weekly markets are held in the rural area at several places for sale and purchase of necessary consumer articles in the rural level. The essential commodities like wheat, Cement, Keroshine oil etc. are being distributed by the Collector through the specified retail centres scattered all over the district. During 1980-81, the district had received the following quantities for distribution.

1	Wheat	...	2,400 M. T.
2	Sugar	...	10,719 M. T.
3	Cement	...	4,900 M. T.
4	K. Oil	...	10,065 K. L.
5	Rice	...	3,975 M. T.

By March, 1981, 1275 number of retail centres were functioning in the district which included 226 Co-operative Societies.

Land Tenure—This district was under Madras presidency prior to the creation of province of Orissa on 1. 4. 1936 The Madras Survey and Boundaries Act, 1923 and the Madras Estate Land Act, 1908 governed survey preparation of records of rights and settlement. During transfer to Orissa province, a minor settlement was in progress by the Collector, Ganjam in some of the Zamindaries. However, a major settlement operation was started in the year 1938 and continued up to 1962 when survey and settlement operation in ex-zamindari and ex-inama villages were completed.

The current settlement operation was started in the year, 1960 under the provision of the Orissa Survey Settlement Act. By March, 1981 Survey Settlement Operation has been completed and record of rights were finally published in respect of 2,131 number of villages in the district. According to this survey, Lands have been classified and accordingly rent assessments have been made. The following classification of land has been adopted for the district.

1 Bila Dofasali I, II and III
2 Bila I, II and III
3 Bilapani Dofasali I, II and III
4 Bilapani I, II and III
5 Barasadhar Dofasali I, II and III
6 Barasadhar I, II and III
7 Padar I, II and III
8 Bagayat I, II and III
9 Jalasaya
10 Patita
11 Gharbari

Tenancy—Consequent upon the abolition of estates and agrarian reforms brought about by legislative measures in the recent past, almost a total change has been effected in the tenancy system. The effect has been so fundamental and wide spread that the entire texture of relationship between the State and the land holder on the one hand and the tenant with immediate landlords on the other has undergone a metamorphosis. As a result, the status of land has changed its complex and character in the same manner as the rights of the persons to hold them. The reality in the status connoting the same rights in more than one way under different names had to be rataionalised through comprehensive legislative measures. Details of such land tenure are given below.

1 Rayati
2 Gharbari
3 Bebandobasti

Government lands under possession of Revenue Department are recorded as Abada Jogya Anabadi, Abada Ajogya Anabadi, Sarbasadharan and Rakhit. By March, 1981, record of rights in respect of 2,131 number of villages in the district have been finalised.

Decadal Changes (1971-81)

Distribution of Government waste land for agricultural and home-stead purposes—The State Government have initiated a policy from the year 1972 to distribute Government waste land to the identified landless persons for agricultural purposes at a scale of two acres for land-less persons. Similarly house sites at the rate of four decimals for houseless persons are also being distributed free of salami for construction of dwelling houses. Under this programme the Tahasildar of the local area has been responsible for identification of the land-less persons and distribution of land with priority for weaker section of the community. During the year 1980-81 this scheme has benefited the following beneficiaries,

		For Homestead purpose		For Agricultural purpose	
		No. of beneficiaries	Area in Acres	No. of beneficiaries	Area in Acres
1.	Scheduled Caste	224	6.107	706	823·576
2.	Scheduled Tribe	71	22.150	631	885·430
3.	Others	447	10.373	3,125	2,958·151
	Total	***742***	***38 630***	***4,462***	***4,667.157***

Natural Calamities—During rain the rivers of the district are usually in spate. The surplus flood water causes inundation of the adjoining low lying areas by over topping/ breach of embankment. During the decade 1971-81 the most calamitous year was September, 1980, which in the living memory caused unprecedented flood in river Banshadhara and caused untold misery in Kashinagara Block and Kashinagar Notified Area Council of Parlakhemundi Sub-division. This was caused due to unprecedented rain fall in the catchment areas like Mohana, R. Udayagiri and Gumma. This flood breached the embankment at many points having a total length of 4.25 kms. Out of 34 Spurs, 32 numbers were washed away resulting severe flood in the 13 villages.

48 human lives were lost besides loss of 852 Cows and Bullocks and 1,107 Goats and Sheeps. 782 number of houses were swept away, 597 houses were fully collapsed and 644 houses were partially collapsed. The other damages include crop area of 4,319.90 acres affected which is inclusive of 1323.71 acres sand casted. This also caused damage to 7 reservoirs, 22 Lift Irrigation points, 14 roads, 17 educational institutions etc.

The district administration had initiated relief measures by way of rescue operation, providing food, house building grant, loan for construction of house and other rehabilitation works. Many Philanthrophy and valuntary organisation like Nuthern World Service, TATA relief committee, Catholic relief service under took a programme for construction of houses for the rehabilitation of the flood affected people. These organisations took up construction of 1,035 number of houses for the flood affected people. Besides, this the State Government have also constructed 272 houses for the flood affected families.

Special Project for Tribal Development—Under the instructions of the Government of India, Micro level planning was

considerable necessary to bring about over all improvement in the living standard of specified class of the community. Under this programme few schemes were taken up in the district as mentioned below during the decade.

Langiasoura Development Agency— This scheme was established during the year 1978-79 with the headquaters at Seranga to bring about the economic development of 803 Langia families of 23 villages with a out lay of Rs. 75.92 lakhs in course of 5 years. Under this programme, individual benefit schemes were taken up to provide subsidiary occupation of the tribals and to do away their conventional mode of shifting cultivation which are responsible for denudation of forest growth. This includes development of land, supply of inputs, plough bullock, goats, sheeps etc. Community benefit scheme like construction of roads, school buildings, drinking water wells, getting up industries are also being encouraged.

Tumba Development Agency—This agency was established in July, 1978 for the economic uplitement of Jarasabara community inhabiting the Tumba area of Patrapada block of Brahmapur sub-division. This programme covers 657 tribal families scattered in 59 villages with an out-lay of Rs. 75 lakhs to be spent in course of 5 years. The main thrust of this programme to improve the subsidiary occupation of the individuals by way of supply of inputs, plough-bullock, goat etc. So far 165 beneficiaries have been covered under input assistance, 110 acres of land brought under horticulture programme like jack-fruits, orange, cashew-nut, cocoanut plantation. Other community benefit schemes like reclamation of land for cultivation, construction of road, school buildings, drinking water wells have been taken up.

Soura Development Agency—This agency came into force in the year 1978-79 for economic upliftment of 590 Langia, Souraf Kondha families living in 26 villages of two blocks, viz., Mahana and R. Udayagiri with an out-lay of Rs. 73 lakhs to be utilised within 5 years. Under this programme individual benefit schemes like supply of inputs, agricultural implement, plough bullock, goats etc. have been taken up besides community benefit schemes like construction of road, school buildings, drinking-water-wells etc. The tribals are also being encouraged to take up horticulture besides other subsidiary avocation like bee keeping etc. During the year 1980-81, 115 acres of land were covered under cashew plantation, 22 beneficiaries were covered under distribution of agricultural inputs. 10 pairs of plough bullocks, 22 goat units were distributed. One Minor Irrigation Project alongwith diversion weirs were constructed. 381 beneficiareies were covered under back yard programme. 45 beneficiaries were covered under backyard plantation.

Gazalbadi Development Agency—A small development scheme for Gazalbadi area in Surada block has been take up since 1978-79. Under this programme tribals are being encouraged with subsidiary occupation. During the year 1980-81, 57 tribals were supplied with bullock, goat, cows etc.

Places of Historical and Tourist importance

The district of Ganjam, as a poets describe, is the treasure house of charming scenic beauties. Covered by dense forests, surgling rivers and expansive valleys, lakes and plateau, mountain slopes and soaring hill tops, Ganjam is the haunting ground for all nature lovers.

Chilka—The lake Chilka is a varitable tourist's paradise. About 1.000 Sq. Kms. of panorama Chilka is a sumptuous feast in all seasons for the discerning eye of a visitor. Queen of Natural Beauty, Chilka is a great attraction for the tourists for fishing, bird watching and boating. In winter season Chilka is usually a flutter with birds from every corner of the globe even from distant Siberia. The fabulous beauty of Chilka has inspired poets to sing its glory and Chilka has found its rightfull place in the literature of this country. Nature poet late Radhanath Ray has immortalised Chilka depicting its beauty in his immortal poetry. The beauty of Chilka can best be enjoyed from Rambha, were there is a commodius Tourist Bungalow of the State Government. Nearest Railway station is at Rambha on S. E. Railway, 3 Kms. from the tourist bungalow and at Balugaon 6 Kms. from the Tourist Bungalow at Barkul. On N. H. No. 5-Rambha is 135 Kms. and Barkul is 106 Kms. from Bhubaneswar. Public Bus services are available from Bhubaneswar and Brahmapur to Rambha and Barkul.

Gopalpur on Sea—This sea-side resort forms a special attraction on one's way from Rambha to Brahmapur, along National Highway No. 5. The Blue Beach at Gopalpur is quiet and charming where the waves unroll on the beach. Clusters of cocoanut and palm, lovely sand-dunes overgrown with casuarina plantations separate this tiny town from the blue-bay. Its bracing and invigorating climate adds freshness to the soul. Whether it is the glistening son at the day-break spreading its silvery screen over the water or the perpetual breeze blowing from the Sea or the rhythmic lapping of the waves that shimmer in the moonlit night or even the stunning stillness around is a leasure that adds to the gaiety of holidaying at Gopalpur.

The special attraction of Gopalpur is its back-water in the form of creeks and sleepy lagoons covered with canopies of lush green foliage. The nearest Railway station is at Brahmapur on S. E. Railway which is 18 Kms. from Gopalpur. Public Bus Services are available from Brahmapur.

Taptapani—About 50 Kms. to the South of Brahmapur the Sulphurous Spring at Taptapani, amidst the heart of nature, right on the State Highway, possesses unique charm of its own. The water of this perennial spring is channelised to the Tourist Bungalow at Taptapani where a visitor can enjoy hot-water-bath in all seasons in this bath-tub. It is a great fascination for the tourists. The nearest rail-head is at Brahmapur on S. E. Railway at a distance of 50 Kms. from Taptapani on State Highway (K. V. Rout). Public Bus Services are available from Brahmapur.

Narayani—On the way to Rambha from Bhubaneswar, Narayani is a picnic spot of great scenic beauty. Close to Chilka on the National Highway No. 5 about 95 Kms. from Bhubaneswar in the lap of celebrated Valeri mountain the romantic setting of Narayani is a perennial attraction for the visitors. By the side of a natural spring the temple of goddess Narayani (Durga) adorns the place and is ideal for picnic and relaxation.

Nirmaljhar—Near Khalikote along the National Highway 5 there is the shrine dedicated to Lord Vishnu. The perennial stream that flows at Nirmaljhar is channelised to different ponds. As a picnic spot and a spot for religious worship Nirmaljhar has earned considerable distinction. For accommodation overnight, the

Inspection Bungalow (P. W. D.) may be utilised after confirming reservation from the Superintending Engineer (P. W. D.) At/PO. Brahmapur.

Taratarini—The hill Taratarini griddled by the river Rushikulya is only 25 Kms. from Chhatrapur. The temple of the goddess Taratarini which draws large number of visitors throughout the year crowns the commanding hill-top approached by a flight of thousand steps. The panoramic view of nature from the hill top is a ma or attraction of the place. Associated with legends and folk beliefs the shrine of Taratarini has gained in gathering reverential awe.

Mahendragiri—Mahendragiri is a name to conjure with. Amidst rich scenic beauty the hill Mahendragiri, 5,000 feet high, stands in its unrivalled glory in the Parlakhemundi Subdivion of the district. About 40 Kms. from Parlakhemundi, one can approach this hill associated with mythological stories centring Rama and the Pandavas. It finds mention in the works of poiet Kali Das. The Oriya poiet Late Radhanath Ray, has sung in praise of the picturesque beauty of Mahendragiri. The rivulet Mahendratanaya flows from the hill. Archaeological remains at Mahendragiri make an interesting study for the scholars.

Jaugada—The place, famous for the Ashokan rock edict (the other being at Dhauli near Bhubaneswar), is 40 Kms. from Brahmapur, 95 Kms. from Rambha and 225 Kms. from Bhubaneswar. There are regular bus services from Brahmapur to Purushottampur from where the road is jeepable. Jaugada still possesses the ruins of an anc ent fort which is believed to have been built by Duryodhana of the Mahabharata fame. Inside the fort area there are five stone images worshipped in the temple of Gupteswar. It is believed that these five images represent the five Pandavas.

Jaugada provides a melancholy picture of a sudden and sad end. The countless small fragments of pottery spread in a wide area and burnt earthen pots indicate the possible occurence of a tragic event in the past.

Jaugada forms a part of the Malati range of hills and occupies an important place in Ashokan studies. Here, on a clean surface of granite rock one could find the rock edict of Ashoka which provides valuable information about the pattern of administration followed by the great emperor.

Few kilometres from Jaugada one may visit the ruins of an ancient fort and a temple at Kesarapali near Buguda. At Buguda one could as well find Viranchinarayana temple with exquisitely carved wooden Jagamohan and moral paintings on Ramayanic stories.

About 2 Kms. from Jaugada there is Buddhakhol where a visitor can see images of the Buddhist pantheon along with Saiva shrines.

Analysis of Village and Town Directory Data

Introduction of new table in District Handbooks is a novel feature of 1981 Census which is aimed at providing a brief analysis of results for facility of the planners and data users. 13 inset tables have been provided in this publication. The content of each table is explained below in brief.

Table-1 depicts the distribution of villages according to the availability of different amenities under each tahasil of Ganjam District

TABLE—1

Distribution of villages according to the availability of different amenities.

Sl. No.	Name of Tahasil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Ghumsur	429	354 (82.52)	97 (22.61)	429 (100.00)	114 (26·57)	6 (1.40)	92 (21.45)	174 (40.56)	185 (43.12)
2	Surada	289	168 (58·13)	22 (7·61)	289 (100.00)	39 (13.49)	2 (0·69)	16 (5.54)	47 (16.26)	105 (36.33)

8	Brahmapur	187	170 (90·91)	50 (26·74)	185 (98.93)	55 (29.41)	8 (4·28)	36 (19.25)	69 (36 90)	133 (71.12)
9	Chhatrapur	182	170 (93.41)	95 (52.20)	182 (100·00)	70 (38.46)	38 (20 88)	68 (37 36)	120 (65.93)	166 (91 21)
10	Khalikote	323	235 (72.76)	12 (3.72)	322 (99·69)	70 (21 67)	14 (4.33)	55 (17.03)	115 (35 60)	134 (41.49)
11	Kodala	273	228 (83·52)	27 (9·89)	269 (98·53)	56 (20 51)	7 (2·56)	34 (12 45)	80 (29 30)	160 (58 61)
	Total District	**4,185**	**2,845 (67·98)**	**665 (15.89)**	**4,114 (98.30)**	**749 (17·90)**	**125 (2·99)**	**558 (13·33)**	**1,162 (27 77)**	**1,542 (36·85)**

Out of 4185 inhabited villages in the district, 2845 villages are having educational facility' 665 villages are enjoying medical facility, drinking water facility is available in 4114 villages. Post & Telegraph facility in 749 villages, Market & Hat facility in 125 villages, communication facility in 558 villages, power supply facility in 1542 villages and 1162 villages are approached by pucca road. It is also clear from the table about the backwardness of the district.

Proportion of rural population served by different amenities in different Tahasils of the district is shown in Table-2.

TABLE—2

Proportion of Rural Population served by different amenities

Sl. No.	Name of the Tahasil	Total Population of inhabited villages in the Tahasil	Proportion of Rural Population served by the amenity of—							
			Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply

1 Education	1,149	144	47	1,340
2 Medical	1,484	1,050	986	3,520
3 Drinking Water	71	-		71
4 Post & Telegraph	2,061	755	620	3,436
5 Market/Hat	1,078	1,285	1,697	4,060
6 Communication	1,753	941	933	3,627

Out of 4185 inhabited villages in the district, the educational facility is not available in 1340 villages, medical facitity in 3520 villages, drinking water facility in 71 villages Post & Telegraph facility in 3436 villages, Market & Hat facility in 4060 and communication facility in 3627 villages. Most of the villagers are enjoying these facilities within a distance not less than 5 Kms.

Table-4 depicts the distribution of villages according to the distance from the nearest town and availability of different amenities.

TABLE—4

Distribution of villages according to the distance from the nearest town and availability of different amenities.

Distance Range from the nearest town (in Kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply

Total	**4,185**	**2,845**	**665**	**4,114**	**749**	**125**	**558**	**1,162**	**1,542**
		(67 9)	**(15·89)**	**(98·30)**	**(17·90)**	**(2·99)**	**(13·33)**	**(27·77)**	**(36·85)**

Out of 4185 inhabited villages, 1516 villages are coming under the distance range of 6-15 Kms. from the nearest town, 1433 villages are coming under the distance range of 16-50 Kms, 784 villages are coming under the distance range of more than 50 Kms. and the rest 452 villages are under 0-5 Kms. from the nearest town. It is revealed from the table that the villages nearer to the town are enjoing more facility than those are far way from the town.

Distribution of Villages according to population range and amenities available is shown in table-5.

TABLE—5

Distribution of villages according to Population Range and Amenities available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of—							
		Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Communi-cation	Approach by Pucca Road	Power Supply

		(67 98)	**(15 89)**	**(98·30)**	**(17·90)**	**(2·99)**	**(13·33)**	**(27·77)**	**(36·85)**

Most of the villages of the district are coming under the lowest population range of less than 500 population. It is seen that the villages naving more population are enjoying better facility than the villages under lower population range. All the villages coming under the highest population range i. e. 5000 population and above are enjoying educational facility, medical facility, drinking water facility, posts & telegraph facility, approach by pucca road facility and power supply facility fully and other facilities are also available in more than 66 per cent of the villages coming under this range.

Main staple food in the majority of the villages in each tahasil of the district is shown in Table-6.

TABLE—6

Main Staple Food in the majority of villages in each Tahasil

Sl. No.	Name of the Tahasil	Main Staple Food
1	2	3
1	Ghumsur	Rice
2	Surada	Rice
3	Asika	Rice
4	Digapahandi	Rice
5	R. Udaygiri	Rice
6	Parlakhemundi	Rice
7	Chikiti	Rice
8	Brahmapur	Rice
9	Chhatrapur	Rice
10	Khalikote	Rice
11	Kodala	Rice

It is revealed from the table that main staple food in all the tahasil is rice.

Table-7 depicts the distribution of villages according to land-use pattern of different tahasil of the district.

TABLE—7

Distribution of villages according to land-use

Sl. No.	Name of the Tahasil	No of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Ghumsur	429	109,488·64	86·96	22 80
2	Surada	289	44,423·29	76·73	16·54
3	Asika	297	49,156·05	79·82	45·83
4	Digapahandi	385	70,006·32	75·20	39·54
5	R. Udaygiri	872	183,264·53	24·80	0·67
6	Parlakhemundi	672	278,618 65	40·19	27 43
7	Chikiti	276	32,224·08	97·79	44·66
8	Brahmapur	187	51,325 98	80·44	57 25
9	Chhatrapur	182	51,750 48	84·27	57.85
10	Khalikote	323	54,693·84	73·14	38 08
11	Kodala	273	60,485·73	72·29	43 86
	Total District	**4,185**	**985,437·59**	**58·73**	**33 61**

Note :—The area figures for uninhabited villages and villages for wh ch the land use data are not available are excluded from the total.

It is revealed from the table that percentage of irrigated area to total cultivable area is only 33·61 per cent which implies that the irrigation facility is not sufficient to the district.

Table-8 shows the growth, density and sex ratio of urban population in the district in relation to the State.

TABLE—8

Growth, Density and Sex-Ratio of Urban Population in the District in relation to the State

Census Year	GANJAM						ORISSA					
	Total Population	Urban Population	Percentage of Urban Population	Decadal percentage variation in Urban Population	Density (Population per sq. km.)	Sex-ratio (No. of females per 1,000 males)	Total Population	Urban Population	Percentage of Urban Population	Decadal percentage variation in Urban Population	Density (Population per sq. km.)	Sex ratio (No.of females per 1,000 males)
1	2	3	4	5	6	7	8	9	10	11	12	13
1951	6,24,829	1,14,313	7·03	+26·78	2,453	1,002	14,645,946	594,070	4·10	+44 01	1,195	881
1961	18,72,530	1,55,844	8·32	+36·33	2,572	951	17,548,846	1,109,650	6·32	+ 86 79	1,078	807
1971	22,93,808	2,59,856	11·33	+66·74	2,015	955	21,944,615	1,845,395	8,41	+66 30	1,113	845
1981	26,69,189	3,80 389	14·25	+46·38	1,381	953	26,370,271	3,110,287	11·79	+68·54	1,359	859

The percentage of urban population to total population of the district during the current decade (14·25 per cent) is higher than that of the State average of 11·79 per cent. This is due to existence of Brahmapur City and a number of urban areas in the district. Since 1951 Census percentage of urban population has been predominating the State average. The growth rate of urban population of the district is 46·38 per cent which is lower than the State growth rate of 68·54 per cent. The density of population i. e. population per sq. km. in urban areas of the district is higher than the State average. Similarly sex ratio i.e. number of females per 1000 males is more than that of the State.

Table-9 gives the new town created, declassified in 1981 Census.

TABLE—9

New towns added/de-classified in 1981 Census

Name of the Town	Population in 1981 Census
1	2
(a) Added	
(i) Kodala	8,537
(ii) Digapahandi	7,853
(iii) Chikiti	8,177
(iv) Kashinagara	9,179
(v) Ganjam	7,580
(b) De-classified	Nil

The financial aspects have been presented in this table in all the towns of the district. Coming to the receipt side the per capita total receipt has been assessed at Rs. 44·66 in the district. Out of which Rs. 17·39 through taxes, Rs. 27·27 through other sources under Government grant etc. As regards expenditure side, the per capita total expenditure under urban areas of the district is Rs. 41·56 out of which Rs. 5 43 is utilised under general administration, Rs. 10·51 under public health and conveniences, Rs. 4·77 on public works, Rs. 5·02 on public institutions and Rs. 15·83 in other aspects. It is revealed from the table that the financial position of the urban bodies in the district is better.

Table—11 depicts the number of schools per 10,000 urban population in the towns.

TABLE—11

Schools per ten thousand Population in Towns

Class, name and civic status of town	No. per ten thousand population			
	Higher Secondary/ Intermediate/ P.U.C./ Junior College	Secondary/ Matriculation	Junior Secondary/ Middle	Primary

III Parlakhemundi (M)	Horn Works	Tamarind	Paddy
IV Polasara (N. A. C.)	Hand-loom Cloth	Paddy	Cloth
IV Purusottampur (N. A. C.)	...	Paddy	Cloth
V Rambha (N. A. C.)	Iron Goods	Rice	Sugar
IV Surada (N. A. C.)	Sabai Grass Ropes	Tamarind	Rice

It is revealed from the table that Sugar, Alumimium & Brass Products, Pottery, Horn works, Handloom & Khadi clothes, Wooden furniture, Iron goods, Kewara water, Khali (leaf plates), Sabai grass rope, Bread, Causticsoda and Canned fish are manufactured in towns and Sugar, Aluminium & Brass products, Bamboo, Silk Clothes, Firewood, Fish, Paddy, Salt, Sea-fish, Betel leaves, Tamarind are exported from the towns of the district. Whereas Sugarcane, Rice, Cloth, Gold, Kerosen oil, Wheat, Salt, Food grains, Vegetables and fertiliser are imported to the Urban areas of the district.

SECTION–I

VILLAGE DIRECTORY

Codes used in the Village Directory

In the Village Directory various amenities and other data have been indicated by codes for want of space. The codes used in different columns are explained below.

COL. 5—**Educational Amenities :**

This column is intended to provide availability of educational facility in the village under the following codes :

1.	Primary or Elementary School	... P
2.	Junior Secondary or Middle School	... M
3.	Matriculation or Secondary	... H
4.	Higher Secondary/Intermediate/ Pre-University/Junior College	...PUC
5.	College	... C
6.	Industrial School	... I
7.	Training School	... Tr.
8.	Adult literacy Class/Centre	... Ac
9.	Other Educational Institutions	... O

Schools upto Class-V have been treated as Primary School and have included Nursery School, Kindergarten School, Pre-basic School, Pre-Primary School, Junior Basic School upto Class-V. Schools upto Class-VII have been treated as Junior Secondary or Middle English School. Schools upto Class-XI (Matriculation) have been considered as Secondary or High School. This also includes High Madarsa upto Class-X. Schools or Colleges upto Class-XII are considered as Higher Secondary Schools. In case of composite Schools like M. E. with Primary classes or Higher Secondary Schools with M. E. classes, those have been included in the number of Primary School and Middle School respectively. In a village having two Primary Schools and one M. E. with primary classes, the total number of Primary Schools in the village has been recorded as three and M. E. as one.

In this process, the number of institutions have been determined and presented under the approved code. In cases of availability of more number of institutions of a type, the number has been indicated within bracket after the code. In case the amenity is not available in the village the same has been shown by a dash (—) in the relevant column having a note of the distance range regarding its availability.

COL. 6—**Medical Amenities :**

Availability of such amenities has been presented under the following codes. In case of availability of more number of institutions of a type, such number has been indicated within bracket against the abbreviation. Where the amenities are not available, it has been indicated by a dash(—)in the relevant column with a note thereunder including distance range of its availability.

Hospital	...	H
Maternity and Child Welfare Centre	...	MCW
Maternity Home	...	MH
Child Welfare Centre	...	CWC
Health Centre	...	HC
Primary Health Centre	...	PHC
Primary Health Sub-centre	...	PHS
Dispensary	...	D
Family Planning Centre	...	FPC
T. B. Clinic	...	TB
Nursing Home	...	NH
Registered Private Practitioner	...	RP
Subsidised Medical Practitioner	...	SMP
Community Health Worker	..	CHW
Others		O

COL. 7—Drinking water Amenities :

The types of potable drinking water supply sources available within the village has been indicated by the following codes. If the amenities are not available in the village it has been presented by a dash (—) in the relevant column and the distance range of its availability thereunder.

Tap Water	...	T
Well Water	...	W
Tank Water	...	Tk
Tubewell Water	...	TW
Hand Pump	...	HP
River Water	...	R
Fountain	...	F
Canal	...	C
Lake	...	L
Spring	...	S
Nallah	...	N
Others	...	O
Information not available	...	NA

COL. 8—Post & Telegraph :

Availability of amenities in the village has been presented under the following codes. In case of non-availability it has been presented by a dash (—) in the relevant column also indicating the distance range thereunder.

Post Office	...	PO
Telegraph Office	...	TO
Post and Telegraph Office	...	PTO
Telephone connection	...	Phone

COL. 10—Communication :

Availability of public transport like bus, rail and water way to the village have been indicated by the following codes. In case of non-availability, it has been presented by a dash (—) in the said column with the distance range of its availability mentioned thereunder.

Bus Stop	...	BS
Railway Station	...	RS
Navigable Watar Way (including river, canal, back-watar etc.)	...	NW

COL. 11—Approach to the Village :

This is a new introduction in the 1981 Census not covered by the 1971 series. Approach to the village refers to the state of road etc. leading to the village. The intention is to see whether the village is approachable both in fair and foul weather and whether it is inaccessible sometime in the year. *Such approach has been presented under the follo-*wing codes.

Pucca Road	...	PR
Kutcha Road	...	KR
Navigable River	...	NR
Navigable Canal	...	NC
Navigable Water Way (other than river or canal)	...	NW
Foot Path	...	FP

COL. 13—Power Supply :

If the power is actually available in the village in any form, then the same has been presented in this column under the following codes.

Electricity for domestic purpose	...	ED
Electricity for Agriculture	...	EAg
Electricity for other purposes like industrial or commercial etc.	...	EO
Electricity for all purposes listed above	...	EA

COL. 20—Remarks including any place of religious, historical or archaeological interest:

This column is intended to record particulars of any place of importance as well as the information on number of copies of news papers coming to the village and motor cycles/scooters, cars/jeeps and tractors available in the village. The codes used in this column are as follows.

N—Copies of the news papers coming to the village.

M—Motor cycles/Scooters available in the village.

C—Cars/Jeeps available in the village

T—Tractors available in the village

The information presented under this column is illustrated below.

N-32, M-2

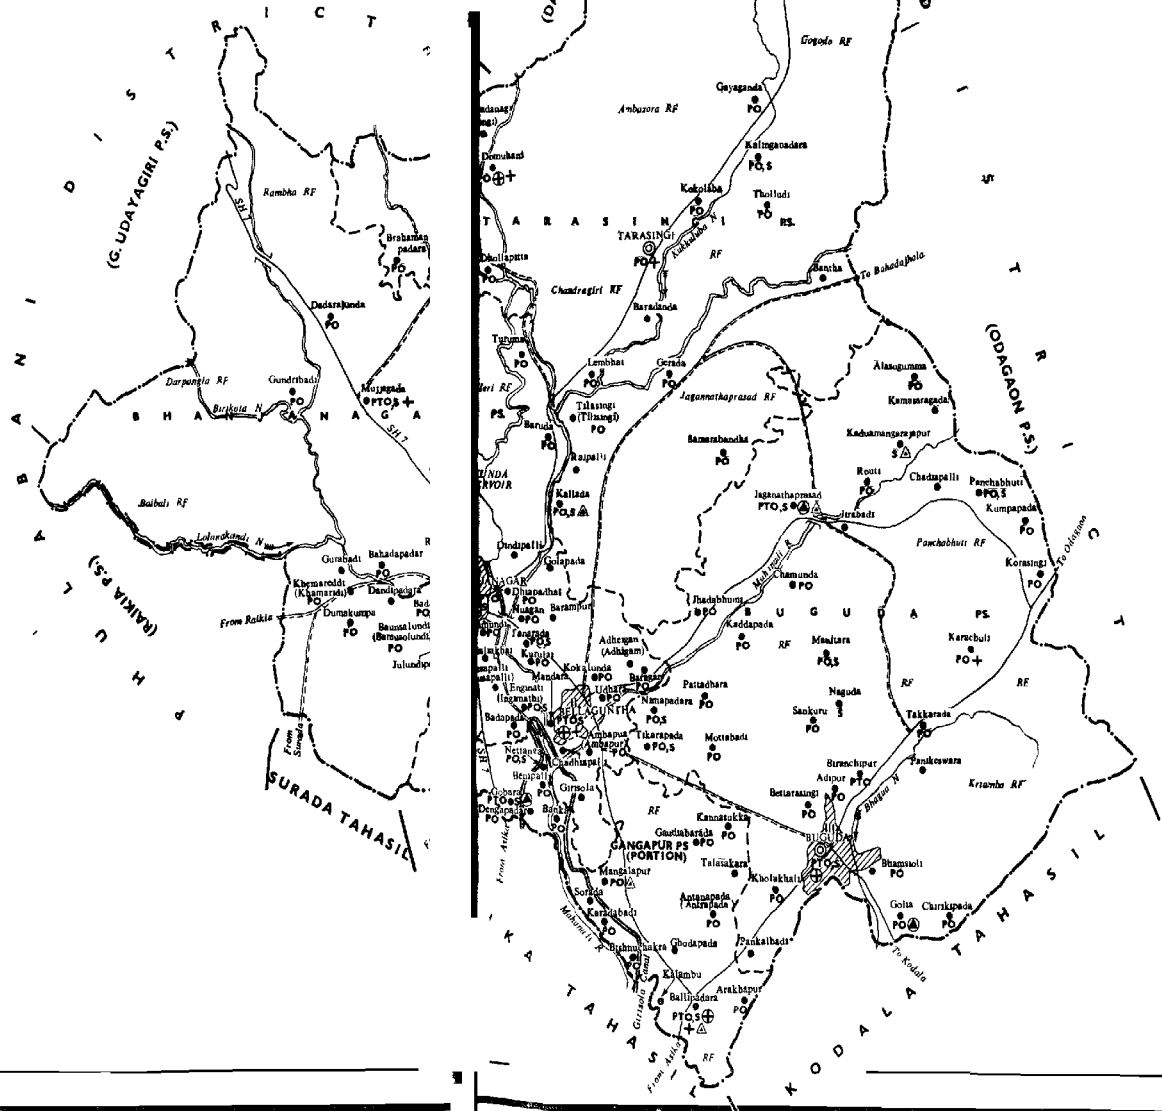

Here N-32 represents the copies of newspapers viz. 32 and M-2, the number of motorcycles/scooters viz. 2.

	279	Kendubadi
	281	Janibili

* Excludes villages with no Scheduled Tribe population.

SECTION–II

TOWN DIRECTORY

Codes used in the Town Directory

STATEMENT—I

Status and growth history :

Col. 2—Class, name and civic administration status.

Class has been introduced to facilitate analysis on town directory data at State and all-India levels. It has been presented according to 1981 Census population of the core town in following ranges by the classification noted against each.

POPULATION		CLASS
1,00,000 and above	...	I
50,000—99,999	...	II
20,000—49,999	...	III
10,000—19,999	...	IV
5,000— 9,999	...	V
Below 5,000	...	VI

The name of the town has been shown in this column, with the correct spelling as adopted in the official record. Regarding the civic administration status, the town as it stood in 1980 has been indicated by the following abbreviations :

Municipality	...	M
Notified Area Council	...	NAC
Census Town	...	CT

STATEMENT—II

Physical aspects and location of towns :

Col. 12—The name of the navigable river/canal which is situated within a distance of 10 kms. has been shown under this column with distance from the referrent town. After the name of the river/canal 'R' for river and 'C' for canal has been given in brackets to denote whether it is a river or canal as illustrated below.

Mahanadi (R)—5

STATEMENT—IV

Civic and other Amenities :

Col. 6—Road length (in kms.)

Information under this column has been obtained from the officer in-charge of the concerned urban local body. There are cases where the municipalities/notified area council maintain their roads accounts separately. Pucca roads and kutcha roads available in the town have been presented under the abbreviation 'PR & KR' respectively.

Col. 7—System of sewerage :

The sewerage system is implied the net work of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal in the town. For the towns which are not provided with such underground sewerage system, availability of open surface drain or box drain etc. have been mentioned. The various type of sewerage/drainage system have been indicated upto two places in the town under the following codes :

Sewer	...	S
Open Surface Drains	...	OSD
Box Surface Drains	...	BSD
Sylk Drains	...	SD
Cesspool method	...	CD
Pit system	...	Pt

Col. 11—Method of disposal of night soil :

Information in this regard has been obtained from the local body and the prevalent method of disposal of night soil has been presented with the following codes upto two places in order of their importance in the town. The objective of providing such data is to collect information which could help Government to provide a programme of stopping the practice of

removal of night soil as head loads ands alc minimising the use of human labour in the process of disposal.

Head Loads	...	HL
Baskets	...	B
Wheel Barrows	...	WB
Septic Tank latrines	...	ST
Sewerage	...	S

Col. 12 & 13—Protected water supply :

The information collected from the local offices has been incorporated in these columns, in some cases such data had to be obtained from the State Public Health Engineering Department. The information on sources of water supply has been indicated in Col. 12 as against the system of storage with capacity in litres (in brackets) which has been presented in Col. 13. The same has been presented under following codes :

Over Head Tank	...	OHT
Service Reservoir	...	SR
River infiltration gallery	...	IG
Bore Well Pumping system	...	BWP
Pressure tank	...	PT
Tubewell Water	...	TW
Tap water	...	T
Well water	...	W
Tank water	...	Tk

The first five codes started above relate to the system of storage whereas the remaining four codes represent the different sources of water supply.

STATEMENT—V

Medical, Educational, Recreational and Cultural facilities.

Col. 4 & 5—Medical facilities— Hospitals/ Dispensaries and beds available :

Information in this regard has been collected from the local offices. However, the inst t tions run by private doctors have not been included in these data, which have been restricted to the institutions run/aided by Government/ Semi-Government/ Local bodies/ Charitable institutions/ Social service agencies. The various types of institutions have been presented under the following codes :

Hospital	...	H
Dispensary	...	D
Health Centre	...	HC
Family Planning Centre	...	FC
T. B. Clinic	...	TB
Nursing Home	...	NH
Others	...	O

For places where medical facilities are not available, the name of the nearest place in the same district or nearest district, if in the same State or other State and its distance from the town where the facility is available has been indicated. All types of hospitals/dispensaries etc. whether allopathic, ayurvedic or homoeopathic have been covered. These are further distinguished by providing additional codes :

A—Ayurvedic

U—Unani

Hom—Homoeopathic

In case of allopathic, no separate code has been given.

Col. 6 to 9—Educational facilities :

Information in this regard has been collected from the local officials and to the extent possible have been checked up with the informotion available in the office of the Director of Public Instructions of the State. For the place where more than one institutions of each type is available, the number thereof has been given against each in brackets. The codes used for different institutions are as follows :

Arts only	...	A
Science only	...	S
Arts and Science only	...	AS
Commerce only	...	C
Arts and Commerce only	...	AC
Combined of all categories Arts, Science and Commerce	...	ASC
Law	...	L

Col. 10—Recognised shorthand, typewriting and vocational training institutes :

Information has been collected from the local authorities. Here "recognised" means the institution recognised by statutory authority like Education Department Commerce Department or Labour Department of the Government or semi-Government or autonomous bodies. The institution of each type has been presented under the following codes :

Shorthand	...	Sh
Typewriting	...	Type
Shorthand and Typewriting	...	Sh. Type
Others	...	O

Col. 11-14—Higher Secondary/ Intermediate/ PUC (Pre University College)/ Junior College Level, Secondary/ Matriculation, Junior Secondary/ Middle Schools and Primary Schools :

Information in this regard has been collected from the local authority and presented under the following codes;

Primary School	...	P
Junior Secondary or Middle School	...	M
Matriculation or Secondary	...	H
Higher Secondary/ Intermediate/ Pre-University/ Junior College/ '10+2' system whether held in Schools or Colleges.	...	PUC

If educational facility is not available in the town, the name of the nearest place in the same district or name of the nearest district in the same State or other State with its distance from the town where the facility is available has been indicated.

Col. 17 to 20—Number of recreational and cultural facilities :

Information in this respect has been obtained from the local authority. Touring cinema has been eliminated from our purview and only permanent cinema/theaters have been included. Community halls, auditorium have been added in this column as the same are becoming a common feature of the urban landscape. Information on Public libraries including reading rooms has been collected from the local authority and presented under the following codes :

Public Library	...	PL
Reading Room	...	RR
