CENSUS, 1951

RAJASTHAN AND AJMER.

DISTRICT CENSUS HANDBOOK

GANGANAGAR

PART I - GENERAL DESCRIPTION AND CENSUS TABLES.

Pt. YAMUNA LAL DASHORA, B.A., LL.B.,
Superintendent of Census Operations,
Rajasthan and Ajmer.

BIKANER,
PRINTED AT THE GOVERNMENT PRESS
1954.

LIST OF CONTENTS

S. No.	Particulars	Pages.
1.	Introduction	i-xiv
2.	Review of population figures	1–7
3.	Scheme of census tables	8
4.	Definitions and key to symbols	9–10
5	District census data at a glance	11–13
6.	A—*General Population Tables*—	
	A– I. Area, Houses and Population	15
	A– II. Variation in population during fifty years	15
	A– III. Towns and villages classified by population	16–17
	A– IV. Towns classified by population with variation since 1901	18–20
	A– V. Towns arranged territorially with population by livelihood classes.	21
7.	B—*Economic Tables*—	
	B– I. Livelihood classes and sub-classes	26–29
	B– II. Secondary means of livelihood	30–45
	B–III. Employers, employees and independent workers in industries and services by divisions and sub-divisions.	46–69
8.	C—*Household and Age (Sample) Tables.*—	
	C– I. Household (size and composition).	70
	C– II. Livelihood classes by age groups	71–76
	C–III. Age and civil condition	77–79
	C– IV. Age and literacy	80–82
	C– V. Single year age returns	83–91
9.	D—*Social and Cultural Tables*—	
	D— I. (i) Mother tongue	92
	(ii) Bilingualism	93
	D— II. Religion	93
	D—III. Scheduled castes and scheduled tribes	93
	D—IV. Migrants	94
	D— V–(ii) Displaced persons by livelihood classes	95
	D— VI. Non-Indian Nationals	95
	D—VII. Educational Standards	96–97
10.	E—Summary figures by administrative units	98–101
11.	Local (रू) Infirmities	102–103
12.	District Index of Non-Agricultural Occupations	105-121

PREFACE.

The Census Reports in olden times were printed one for the whole Province of Rajputana and another for Ajmer Merwara. Some of the Principal States now merged in Rajasthan published their own reports. This time the State Census Reports have been published in the following volumes:—

1. *Part I-A* Report.

2. *Part I-B* Subsidiary Tables and District Index of Non-Agricultural Occupations.

3. *Part I-C* Appendices.

4. *Part II-A* General Population Tables, Household and Age (Sample) Tables, Social and Cultural Tables, Table E Summary Figures by Administrative Units, and local 'KA' infirmities.

5. *Part II-B* Economic Tables.

They contain statistics down to the district level.

The idea of preparing the District Census Handbook separately for each district was put forward by Shri R. A. Gopalaswami, I. C. S., Registrar General, India, and ex-Officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the village statistics in the past. In accepting this suggestion, the Government of Rajasthan decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

This Handbook contains five General Population Tables of A Series, three Economic Tables of B Series, five Household and Age Tables of C Series, seven Social and Cultural Tables of D Series, one table E giving summary for the district and tehsils, a local table 'KA' showing infirmities by age groups and an Index of Non-agricultural Occupations. Each table contains an explanatory note necessary for the proper understanding of the figures. The numbers given to the tables in this Handbook correspond to those given in State Census Reports.

Village Directories were published for the first time in 1931 by a few States of Rajputana. The example was followed by all the States in 1941. They contained for each village the population figures by religion and also some other useful information. They were bound in a volume one for each State. This time the Village Directories are also incorporated in this Handbook under the name of "Primary Census Abstract and Village Directory" which show the basic population figures separately for each village or town-ward classified by livelihood classes instead of religion and also some information of general nature.

Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, agriculture, education, industries and other matters of general interest. The information contained in the introductory note is based on the material furnished by Collectors of districts and Departments of Government.

In addition to the above, some figures of general interest and a review of population figures have also been incorporated.

The scheduled date for the publication of the Handbooks as prescribed by the Registrar General, India, was, " Not later than March, 1952 " but practical experience showed its publication by that time an impracticability. Even the compilation of the tables together with its final touch could not be completed by that time. Then came the question of printing which proved to be a huge task. There are 25 districts in Rajasthan and 1 in Ajmer. The total number of printed pages turned out to be nearly 9000. The Government Presses were already over burdoned with the printing work of other departments and in the printing of census publications priority was given to Central Government Publications *i.e.* the State Census Reports. The result was that till March, 1954, for 14 out of 26 districts the P. C. A. and Village Directory could not be printed specially because the press had no stock of small type which was essential for their printing. It was, therefore, decided to publish the handbooks in two volumes. Part I, consists of introduction, a brief review of population figures and,

(1) General population Tables (A-I to A-V.)

(2) Economic Tables (B-I to B-III)

(3) Household and Age (Sample) Tables (C-I to C-V)

(4) Social and Cultural Tables (D-I to D-VII)

(5) E-Summary figures by Administrative Units.

(6) Local Table ' K.A ' infirmities, and

(7) District Index of Non-Agricultural Occupations.

Part II contains only Primary Census Abstracts and Village Directory.

The Handbooks of the Ajmer, Sirohi and Jhalawar Districts are, however, being published in one volume because they have been completed by this time.

While every care has been taken to ensure the correctness of figures and village names, certain mistakes might have crept in. I shall be grateful if they are brought to my notice.

Y. L. DASHORA.

GANGANAGAR DISTRICT.

INTRODUCTION.

I.—Physical Aspects.

(a) Position, area and boundary.

1. District Ganganagar forms a part of the vast Indo-Gangetic plain. It is situated between 28° 40′ and 30° 6′ north latitudes and 72° 30′ and 75° 30′ east longitudes. The area of the district is 8,225 square miles, as supplied by the Surveyor General of India. It contains the famous Gang Canal Colony spreading over an area of 1482 square miles, of which 1,209 square miles are cultivated. Of the cultivated area 1,103 square miles are irrigated and 106 square miles un-irrigated. The remaining 273 square miles are uncultivated (178 square miles being banjer and 95 square miles are uncultivable) This district is bounded on the north and west by Bahawalpur State (Pakistan), on the east by Ferozepore District of Punjab (India) State and on the south by the Districts of Bikaner and Churu of Rajasthan.

(b) Configuration.

2. The Gang Canal Colony is situated at an average elevation of 550 feet above sea level. The remaining area is somewhat higher as it is interspersed by sand dunes. There are no mountains or hills in this district.

(c) Rivers and streams.

3. There is no river or stream in this district except the Ghaggar Nali which flows through the depression of the old bed of the Ghaggar river, which is now practically extinct in this district. In times of abundant rain-fall in the Simla Hills, water is borne down to the bed inundating a portion of the Sadulgarh Tehsil of this District. However, the irrigation in the Gang Canal Colony Area of this district namely Ganganagar Karanpur, Raisinghnagar, Padampur and Anupgarh Tehsils is done by the Gang Canal. It takes off from the left bank of the Sutlej at Hussaniwala near Ferozepore. It passes through the Ferozepore District of the Punjab and the Faridkot District of Pepsu, for the first 73·7 miles of its length before it enters this district. Excepting the first 5 miles at the Head, the main Canal down to Shivpur a distance of 80 miles has been lined both on bed and the sides with concrete in order to save absorption losses, and to prevent water logging. It is thus considered to be the longest lined Canal in the world. It irrigated an area of 998,412 bighas in the year 1949-50.

(d) Lakes, their use.

4. There is one lake in Tehsil Sadulgarh of this district, known as Talwara Jheel. It is situated in the Ghaggar Nali bed area. It is a very small lake and no irrigation is possible from the waters accumulating into it.

(e) Geology.

5. No particular geology can be ascribed to this district. However the Gang Canal Colony area belong to the period, geologically termed as recent, and is chiefly of alluvial and fluvial origion.

(f) Botany.

6. Before the advent of the Gang Canal, this district was sparsely wooded. The only trees worth mentioning were Khejri (Prosopis Spicigera), Lana (Haloxylon Salicornicum) Bair (Zizyphus Jijuba), Ak (Calotropis procera) Kair (Salvadara oleoides). Fresh trees are also found here and there and the people planted Pipal trees (Ficus Religiosa) round the village tanks. Wild herbage, such as Tumba (gourd) Khimp and Bhakri also grow in plenty. On the advent of the canal the cultivators started plantation of Shisham (*Salbergia Sisso*), *Neem* (*Azadirachta Indica*), Bar (*Ficus bengalensis*) *Kikar* (*a kind of* Acacia) and Sarash trees (Albizzia lebbek) and there is now a considerable number of trees in the Colony area. There are many gardens in the Gang Canal area in which fruit trees such as Malta, Lemon, Orange and Vegetables are grown.

(g) Fauna.

7. Herds of Deer and Black buck, foxes and Hares are commonly found. The game birds are black and grey Partridges, Imperial and Desi grouses, Quails, Qung and Tillor.

Climate, temperature and rainfall.

8. The climate is dry and generally healthy though characterised by extreme temperature in summer. The heat is intense during the day. Hot winds and dust storms are violent in the months of May, June and July. The velocity in the Colony area is comparatively less than in other parts of this district. The temperature as recorded in

the Experimental form Observatory, Ganganagar, shows that the minimum temperature ranges between 38 and 34 in winter and the maximum between 115 and 122 in summer. The average rainfall of the Colony area is 7·76 for Sadulgarh Tehsil, 11·55 Suratgarh Tehsil 7·92 and more or less the same in Tehsils Nohar and Bhadra.

(i) Under ground water level.

9. The water generally is found at the depth of about 120 to 150 feet below the ground but in the Canal Area it has risen by 8 to 12 feet since the advent of the Canal viz. the year 1927.

II History.

10. The history of Ganganagar is the same as that of Bikaner. Maharaja Ganga Singh brought the Canal in 1927 since then this district comprises of nine Tehsils namely Ganganagar, Karanpur, Padampur, Raisinghnagar, Anupgarh, Suratgarh, Sadulgarh, Nohar and Bhadra. Before the advent of the Gang Canal, Tehsil Ganganagar, Karanpur, Padampur and Raisinghnagar were not in existance as such and were portions of the old Mirzawala Tehsil. After the advent of Gang Canal Tehsil Ganganagar, Karanpur, Padampur and Raisinghnagar were formed out of the old Mirzawala Tehsil and a portion of Suratgarh Tehsil, for Administrative reasons. This district was a separate Division before the merger of Bikaner State into Rajasthan. It will be interesting to give below the history of the foundation and the growth of the Gang Canal Colony.

11. One of the greatest achievements of the former Bikaner State (which was an important and advanced State of the Western Rajputana in India) is the construction of the Gang Canal from the Sutlej river. It is rightly named after the name of His Late Highness General Maharaja-dhiraj Sir Ganga Singh as it was the cherished dream of this great ruler, from the frequent famines, to which his State was subject, to secure canal irrigation for the State.

12. The idea of extending irrigation into the former Bikaner State from the Sutlej river was first put forward by Col. Dyas, R E., in 1855, but the first definite scheme was drawn up by the Punjab Government in 1905, when the Sutlej valley project was considered for harnessing the waters of the Sutlej river below its confluence with the Beas river to irrigate, among other areas of the British territory and the Bahawalpur State the Northern part of this State also. Eventually, Maharaja Ganga Singh in the course of less than 20 years converted a portion of the arid and waterless tract of the State into a smiling and green looking Colony, with channels flowing here and there, all the year round.

Description of the Gang Canal.

13. The main canal, which is 85 miles long, takes off from the left bank of the Sutlej river, quite close to Ferozepore. It is a part of the great Sutlej Valley Canals which, besides Bikaner State, also irrigate vast areas in the Punjab and in the Bahawalpur State. The agreement between the 3 partners in this scheme, i.e., Punjab Bahawalpur and Bikaner State for getting their share of supply from the Sutlej river was signed in September, 1920. The foundation was laid on the 5th December, 1925. The construction was completed in 1927, and the Canal was opened at Shivpur on the 26th October, 1927.

14. In the first 74 miles of its length, the Canal passes through the Ferozepore District and the Faridkot State and for the last 11 miles, upto its tail at Shivpur regulator, it is situated in the Bikaner State. At Shivpur, the canal branches off into 2 branches the Feeder and the Laxmi Narainji. These branches, lower down, have several distributaries and minors in the form of a net work, suitably situated all over the Colony. The total length of all these distributaries and minors (including the two branches) is 85 miles. Except in the first 5 miles of its length, the main canal right down to Shivpur, a distance of 80 miles has been lined with concrete in order to save absorption losses, to prevent water logging and to extend irrigation with the water thus saved. The Gang Canal is thus the first to be lined on a large scale in India and claims to be the longest lined canal in the World. This has enabled an area of 44,500 acres to be added to the irrigated area from the saving, effected in absorption losses. The cost of lining is about 82 lacs of rupees. The concrete has been prepared from Kankar, brought 200 to 300 miles from near Bikaner City. The Bikaner State Railway has transported nearly a million tons of Kankar for this purpose, thus not only showing the capacity of the State for using its own resources and transport, but also saving a considerable amount in the cost as compared with using stone from some quarries in the Punjab. In addition

to the above, further 10 miles length in the head reach of the Karniji Distributary, serving the Nali area, has also been lined with concrete at a cost of about $4\frac{3}{4}$ lacs of rupees, to save absorption losses and to utilise the supply thus saved for increasing the area under irrigation.

15. The Canal was originally designed for 2,144 cusecs, but as a result of the recommendations of the Indus Water distribution Committee, the share of the Gang Canal, and consequently its capacity, was increased to 2,720 cusecs from April 1935. In order to safely run this increased supply, the banks of the main Canal and its lining were suitably raised.

16. The total area of the irrigable land, commanded under the scheme, is 910,300 acres (1,456,480 Bighas) but owing to the share of the river supply allowed, being insufficient, 173,200 acres have had to be excluded from irrigation. The area which is to be irrigated by the Gang Canal, is thus 737,100 acres only.

17. The original estimated cost of the Gang Canal and the cost of the share of the Headworks was Rs. 29,121,121. The actual expenditure to the end of October, 1943, was Rs. 31,097,906. Besides this, other expenditure connected with the canal colony, like the construction of railway etc., amounting to about Rs. 60 lacs also had been incurred.

18. The population of the Colony, as a result of the irrigation facilities, has increased from 28,957 in 1921 to 1,46,259 in 1931 or an increase of 405 per cent. and to 2,63,404 in 1941, or a further increase of 81 per cent.

19. At the advent of the Gang Canal, the pipe outlets were fixed, but in the year 1933, the work of remodelling was commenced and since then A.P.M. outlets are fixed.

Perennial Channels.

20. The total length of the perennial Channels is 720 miles including Laxmi Narainji Branch and the Feeder. There are 21 distributaries, 65 minors and 943 outlets including 9 Mandi outlets and 3 garden outlets, irrigating a culturable commanded area of 648,527 acres or 1,037,643 Bighas of land, the permissible irrigation being 60 per cent. 389,116 acres or 622,585 Bighas.

Non-Perennial Channels

21. There are two non-perennial channels, the Sameja and the Lallgarh. The length of both the non-perennial channels, including their minors, is 131 miles. In the beginning the Sameja Branch was opened as a perennial channel along with other channels of the Gang Canal, but was subsequently closed. It was re-started in Kharif, 1937, as a semi-non-perennial channel. The reason for this change was that the water could not reach the tract easily and a better tract was found instead for irrigation.

22. The Sameja non-perennial channel has one distributary with 5 minors and 70 outlets and irrigates a C.C.A. of 35,780 acres or 57,248 Bighas of the Raisinghnagar Tehsil only. The limit of permissible irrigation cannot be fixed, as the supplies are allowed to flow, when the supplies are in excess of the capacity of the channels of the perennial area.

23 Lallgarh nonp-erennial Channel was started in Kharif 1938 and irrigates a C.C.A of 52,795 acres or 84,469 Bighas of the Ganganagar and the Padampur Tehsils.

24. Lallgarh non-perennial channel has 9 distributaries and 3 minors with 92 outlets. The permissible limit cannot be fixed for the same reasons, as given under the Sameja N P. Channel It starts from the Head at Shivpur and its supply of water is better than that of the Sameja.

25. Both the non-perennial channels run for about three months in a year, when the supplies in the river are high and are in excess of the requirements of the perennial channels. The irrigation is confined to Kharif crops and the first watering (Rauni) for Rabi sowings.

26. The irrigation has increased from 264,765 acres in the year 1921-29 to 583,133 acres in the year 1949-50, as the yearly table will show :—

Year.		*Irrigation in acres.*
1928-29	....	264,765
1929-30	...	341,782

Year.		*Irrigation in acres.*
930–31	...	302,950
931–32	—	300,478
932–33	...	372,844
933–34	....	366,515
934–35	....	362,221
935–36	....	385,557
936–37	....	420,920
937–38	...	457,770
938–39	...	479,648
939–40	....	487,691
940–41	..	478,022
941–42	....	483,919
942-43	....	522,690
943–44	....	534,076
944-45	....	533,660
945–46	Rabi 344,111	Financial year changed.
946–47	....	552,830
947–48	....	482,520
948–49	....	564,908
949–50	....	583,133

Rainfall.

27. The rainfall in the Bikaner State is poor. It ranges from 6 to 10 inches in the Gang Canal Colony area and from 7 to 11 inches average over the greater part of the State, a comparatively narrow belt on the east and the south-east getting a rainfall of 11 to 14 inches on the average. The spring level, therefore, is very deep. Ordinarily ranging from 100 feet on the average in the Gang Canal Colony area to 150 feet on the average outside this area below ground level. The chances of well irrigation are, therefore, almost nil, as this is possible only in a few favoured localities in the east and the south-east where spring level is not deep, due to the comparatively better rainfall and other causes. However the total of well irrigation, both from Pucca and Kacha wells, is about 1,000 acres altogether. For the same reason, storage works on any large scale are not possible, although a considerable area, having a favourable land and fairly impervious sub-strata, exists in the south-west of the State. The subsoil water table appears to be rising by 6" to 1', on the average, in the Gang Canal Colony area. The principle of extending the benefits of canal irrigation to all parts of India, whether in the territories of the British India or of the Indian States, was first laid down by the Government of India as early as 1865, when they turned down the Sirhind Canal Project of the time, which was originally limited in scope to the areas in the Patiala State only. In doing so, they directed that the only project, they would entertain, should be the best that could be devised, irrespective of the territorial boundaries of the British India and the Indian States. It is surprising now this wholesome principle was lost sight of for some time, since it was not without periods of disappointment, representation and negotiations that Bikaner State finally succeeded in getting a share in the Sutlej Valley Project. One explanation for its lying dormant for about 40 years seems to be that between the Sirhind Canal and the Sutlej Valley Projects, the only works projected and built, great though they were viz, the well-known schemes of the Chenab and the Jhelum Canals and the Triple Canal project were confined within the limits of the British territory only. It was the terrible famine of 1899-1900 that needed the famous Irrigation Commission of 1901-1903, appointed by Lord Curzon, to revive the principle just elucidated when the share of the State in the benefits of perennial irrigation from the Sutlej Valley Project was recognised.

28. In the recommendation of the Irrigation Commission, the Government of India, in November, 1903, invited the opinion of the Punjab Government on the policy to be followed with reference to the irrigation works in the Sutlej Valley and both the then Chief Engineers of the Punjab Government recorded their opinion and included the Bikaner territory as within the scope of the Sutlej Valley Project and from that date the claim of the Bikaner State was recognised to its sharing the supplies of the Sutlej river.

Railway.

29. A branch of the Bikaner State Railway has been built in the form o a loop from Hanumangarh through Ganganagar, Karanpur and Raisinghnagar to Suratgarh, which goes through the heart of he tract, thus enabling the Zamindars to export their produce. A

branch line to Anupgarh along the Ghaggar bed has also been built. It served the irrigated area along the Ghaggar bed. The total length of the new Railway to serve the tract is thus 163 miles.

Crops.

30. The chief crops, grown in the Gang Canal Colony are:—

Sugarcane ... Cotton
Guar ... ... Jowar, Bajra
and pulses during Kharif.
and
Wheat ... ... Gochani (wheat and gram mixed)
Barley ... ... Bejar (Wheat and Barley mixed),
Gram ... ... and Oil Seeds (Toria and Taramira)
during Rabi.

Their average irrigation during the last 3 years has been as below:—

Kharif.	*Acres.*	*Rabi.*	*Acres.*
Sugarcane	10,163	Wheat	31,118
Cotton	48,274	Barley	3,768
Rice	6,496	Gram	89,031
Guar	61,120	Gochani	101,832
Jowar	28,486	(Wheat and gram Mixed)	
Bajra	59,490	Bejar	6,970
		(Wheat and Barley)	
Pulses	4,405	Toria	1,359
Maize	2,191	Taramira	3,623
		Sarson	44,497

It may be added that the production of wheat and sugarcane which was only 2,000 acres and 10 acres respectively in the year 1928, has now increased to 31,118 and 10,163 acres, which shows a remarkable increase in these two important and valuable crops, not to speak of as much as 108,802 acres of wheat and gram (mixed) and barley and wheat (mixed).

Revenue details.

31. In the beginning, the area of the tract was divided into 1,046 Chaks, out of which 524 Chaks were allotted to the old inhabitants, who were previously State tenant in proprietory rights, on payment of a low Nazrana, payable in 24 years and making their status equal to those of the new purchasers of the State land. The rights of the inhabitants have been scrupulously maintained and their holdings have been consolidated. The remaining 522 State Chaks were reserved for sale to meet the cost of the construction of the Gang Canal.

32. The present number of Chaks is 1,122, perennial being 949, while non-perennial being 173. This increase is mostly due to the changes and the increase in the number of outlets. In the Colony, the practice was that the Chaks were changed and named after the outlets. This practice, has however, been stopped now, as it was defective in many respects.

33. There are 3 kinds of Chaks, Crown Chaks, Chaks of old Abadkars, mixed Chaks (in which some area is of the Crown and some of the old Abadkars). The number of each kind is as follows:—

	Crown	*Old Abadkars*	*Mixed*	*Total*
Perennial	336	536	77	949
Non-perennial	54	94	25	173
	390	630	102	1,122

34 The increase in the old Abadkari chaks and decrease in the Crown Chaks is due to the fact that certain Chaks were not allowed in the first instance, the people being unwilling to take the new area instead of the old of their own will, which was later on allotted, after great consideration.

35. At the advent of the canal, 4 new Tehsils viz. Ganganagar, Karanpur, Raisinghnagar and Padampur were created and Mirzawala Tehsil was abolished. Apart from the villages in the Mirzawala Tehsil 12 villages, as noted below, were transferred to the Raisinghnagar Tehsil from the Suratgarh Tehsil.

1. Bishanpura. 2. Thandi, 3. Thakri. 4. Amargarh. 5. Khatan. 6. Dabrasar. 7. Lakhmisar. 8. Ramsara Kumharan. 9. Sanwatsar. 10. Amarsar. 11. Tatarsar. 12. Baghicha.

No other village was transferred to another Tehsil. Only the Villages in the Mirzawala Tehsil were distributed into 4 Tehsils. No addition was made in the Anupgarh Tehsil.

36. 9 new Mandi towns have been established in the Canal area. The total income derived from the sale of shops and residential sites amounts to Rs. 55,34,998. The income derived from the sale of Agricultural Crown Waste comes to Rs. 7,02,58,344 up to the end of March 1951. The proprietary rights were granted to the old settlers in this area on payment of Nazrana in easy instalments. The total income derived from this comes to Rs. 77,55,481 upto 31-3-51.

(b) Historical and Archaeological places.

37. Historical places in this district are as under:–

There is a fort at Sadulgarh. This is an old fort and was held by Bhatis and called Bhatner Fort. It was conquered by the then ruler of Bikaner in the year 1805 A. D. As it was conquered on Tuesday (Day of Hanumanji) its name was changed to Hanumangarh by the conquerers. It is situated at a distance of 3 miles from Sadulgarh Junction and is reached from Hanumangarh Railway Station. Excepting the outer walls and a few small temples inside, the rest of the fort is in a dilapidated condition.

III–People.

38. There are 11 towns and 1353 villages in this district. The inhabitants of the Barani area of this district are mostly Jats and Rajputs, Labanas, who are muslims by caste, mostly live in Sadulgarh Tehsil. In the colony area most of the land was purchased by the Punjabis. They are mostly, Hindus, Sikhs, Jats and Kambohs. They brought with them Punjabi traditions and introduced new methods of cultivation by means of fertilizers, rotation of crops and intensive cultivation.

Language.

39. The principal language of the majority of the people of this district is Western Hindi. Next come Punjabi, which is spoken by immigrants and Marwari and Bagri which are commonly used by the local inhabitants. Sindhi is spoken by the refugee settlers.

Food Dress etc.

40. The food and dress of the people is simple. Old inhabitants wear Dhotis while the new colonists use "Tehmat". No special ceremonies are observed by them at the time of births However in marriages and in certain death cases big feasts were given by the old inhabitants but these feasts have become extinct now a days due to scarcity of foodgrains. The only big fair held in this district is Gogameri Cattle fair at Gogameri a place in Tehsil Nohar of this district. About 100,000 persons assemble in this fair.

IV.—Economic.

41. On account of high prices of the agriculture products obtaining these years the economic condition of the Agriculture classes is quite good in the Colony area and fair in the Barani portion of this district In the Colony area land held by Hindus is 43%, Sikhs 34% and Muslims 19%. Among the Hindus, the Jats predominate. They hold 50% of the area. The Muslims mostly migrated to Pakistan after the partition of the country in the year 1947. Their land has been allotted to the displaced persons. In the Barani Tehsil, the Hindu Jats predominate.

42. The principal crops in the Colony area are:—

	Kharif.	*Rabi.*
1.	Bajri	Wheat.
2.	Jowar	Gram.
3.	Gowar	Bejhar.
4.	Sugarcane	Gochani.
5.	Cotton American	Sarson.
6.	Cotton Desi	Toria.
7.	Fodder	Taramira.
8.	Others	Fodder.
		Others.

In the Barani area Bajri, Jowar, Gowar and Moth are sown in Kharif. Bajri is the principal crop of this area. In some parts however Rabi is cultivated and wheat, barley and gram are grown. A statement showing the live-stock in this district is given in Appendix B.

43. There is no pasture ground in the Colony area but waste grounds are available in the Barani Tehsils where cattle graze. There are no rivers. The irrigation is done in the Gang Canal area by the Canal system and in a portion of Sadulgarh Tehsil by Ghaggar Nali which inundates merely the area when the Nali flows. A few thousands of Bighas are also irrigated from the Ghaggar Canal in Suratgarh Tehsil. There are 11 Mandis in the Canal area and 3 in Barani area, where the agriculturists sell their products. In the old towns of Suratgarh, Sadulgarh, Nohar and Bhadra, there are no well planned Mandis. There is one Co-operative Mortgage Bank at Ganganagar. The Co-operative movement is organised by the Co-operative Department.

Post and Telegraph Offices.

44. The following towns in the district have got the combined Post and Telegraph Offices:—

1. Nohar.
2. Raisinghnagar.
3. Sadulgarh.
4. Sangaria.
5. Ganganagar.
6. Karanpur.
7. Suratgarh.

There are Post Offices at nearly 40 important villages in this district.

Means of communications.

45. There is a net work of Northern Railway encircling the whole of this district, adding to the prosperity of the district by facilitating the movement of the abundant agricultural produce of the district. Besides a number of dependable Bus Services are regularly plying between various centres.

The following towns are important. Railway Stations and Junctions:- Anupgarh, Suratgarh, Raisinghnagar, Karanpur, Ganganagar, Sadulgarh Junction, Nohar & Bhadra.

V:—Administration.

Administrative:

46. This district for the revenue and general administration purposes is divided into the following 5 sub-divisions and 9 Tehsils:—

S. No.	*Name of Sub-division.*	*Name of Tehsil.*
1.	Ganganagar	Ganganagar.
2.	Karanpur	Karanpur.
		Padampur.
3.	Raisinghnagar	Raisinghnagar.
		Anupgarh.
4.	Sadulgarh	Sadulgarh.
		Suratgarh.
5.	Nohar	Nohar.
		Bhadra.

47. The Collector of the district is also the District Magistrate. The Sub-Divisional Officers are incharge of the Sub-Division. The S D. O (Assistant Collector) exercises the powers of a 1st Class Magistrate and the Tehsildars are vested with the powers of a 2nd Class Magistrate.

48. In the Gang Canal Colony area the assessment of land revenue is fluctuating while in other parts it is fixed. The rules of revenue assessment are fixed at the time of Settlement and continue during the term of settlement. The land revenue is recovered through the agency of the Naib Tehsildars, Girdawars and Patwaris. The money, however, remains, in the custody of Lambardar of the village who is required to deposit it into the Treasury within 7 days. The Rajasthan Government have promulgated the "Rajasthan Revenue Courts and Jurisdiction Ordinance" and the Revenue work is being done in accordance with its provisions. The Rajasthan Tenancy Act is under preparation.

VI – Public Works.

Public Works.

49. Government Buildings, Roads and Irrigation Works are supervised by the Public Works Department staff.

VII – Protection.

Protection.

50. There is one Superintendent of Police, two Deputy Superintendents of Police and 4 Circle Inspectors. There are 20 Police Stations and 10 Out-posts. There is only one "B" Class Jail at Ganganagar District and 4 Lock-ups at Karanpur, Raisinghnagar, Sadulgarh Town and Nohar. List of Police Stations is given in Appendix C.

VIII – Education.

Education.

51. There is one Inter College and 5 High Schools namely Government High School, Khalsa High School, D. A. V. High School, Sanatan Dharam High School and Government Girls High School at Ganganagar. There is one private High School at Sangaria called Jat High School. There are 4 more Government High Schools in this district at the following places :—

1. Karanpur.
2. Raisinghnagar.
3. Nohar.
4. Bhadra.

52. The District Board, Ganganagar runs 80 Schools, out of which 5 are Middle Schools and the rest Primary. There are about 100 Government Primary Schools.

IX – Public Health.

53. The Public Health Department in this district functions under the supervision of the District Medical Officer. Details of Hospitals and Dispensaries etc., are given below :—

1. Hospitals (Allopathic)	....	....	2
2. Dispensaries (Allopathic)	....	....	9
3. Ayurvedic	....	....	6
4. Veterinary Hospitals...	....	...	6
5. Vaccinators ...	....	....	12
6. Travelling Dispensaries	....	...	1

X Local Self-Government.

54. One District Board called Ganganagar District Board and 11 (eleven) Municipal Boards function in this District. Municipalities are functioning at the following places:—

1. Ganganagar
2. Hindumalkot
3. Karanpur
4. Raisinghnagar
5. Gajsinghpur
6. Anupgarh
7. Suratgarh
8. Sadulgarh
9. Sangaria.
10. Nohar.
11. Bhadra.

The District Board Ganganagar is constituted of :—

Nominated (Official) members	....	18
Nominated (Non-Official) members	...	7
Elected members	...	80
Total	...	105

55. The main sources of income of the District Board are Local Rate and Professional Tax. The Board runs 80 schools 5 Middle and 75 Primary. 3,398 boys got education in these Schools during the year 1950-51. One Allopathic, two Ayurvedic, two Aided Ayurvedic Dispensaries and 6 Veterinary Hospitals and Dispensaries are being run by the District Board.

56. The District Board organizes and holds Cattle Fairs to provide facilities for the purchase of cattle, and improvement of cattle breed.

57. The function of the Municipalities are to look after the maintenance and repairs of roads as far as possible. Sanitation and street light are their other important functions.

58. There was difficulty of water supply in the town of Suratgarh. This has been removed by the Board and free water is being supplied at the mouth of the well which is run with electricity. The Sadulgarh Muncipal Board set up water works in the town and has also started street lightings.

Bhadra Municipal Board has also installed water works.

59. The main sources of income of Municipal Boards are Terminal Tax, Import and Export Duty, Rent of Teh Bazari shops entertainment Tax and License fee of minor factories.

The constitution, powers and functions etc , of the Panchayats are given in Bikaner State Panchayat Act. List of village Panchayats in this district is given in Appendix D.

XI – Miscellaneous.

60. The inhabitants of this district are mostly backward, socially and economically, illiterate and ignorant. There is much scope for improvement. In the Canal Colony area new methods of cultivation have been introduced. Cultivation by tractors has also been started at some places. There are about 120 Co-operative Credit Societies in this district Their chief function is to advance loans to the cultivators on easy terms. This work has already made much headway and is appreciated all round. Thus they serve as a brake on usurious loan system and encourage thrift among the rural folk. These Societies are being transformed into Multi-purpose Societies so that greater reform all round may be possible. In the initial stages the work of giving cheap credit, arranging for better seeds and fertilizers, and for the sale of agricultural produce on better terms; providing better living and sanitation, will be taken up by these Societies. These Societies can prove useful agencies for distribution of controlled commodities. Besides one Rural development Centre at Chunawadh (Tehsil Ganganagar) has been started recently during 1951, where Medical Relief Adult Education, Sanitation and Compost making work have already been started. Other multifarious activities such as Cottage Industries, Agriculture and Social Education will be taken up as and when adequate staff is provided for the Centre.

The procurement of foodgrains is being carried on through indirect method which is proving a success.

GANGANAGAR DISTRICT.

REVIEW OF POPULATION FIGURES.

Introduction.

1. This district is included in Bikaner division. It is situated between 29° 5′ and 30° 12′ north latitudes and 72° 30′ and 75° 30′ east longitudes. It is bounded on the north and west by Bhawalpur State (Pakistan), on the east by Ferozpur district of Punjab (I) State, and on the south by Bikaner and Churu districts. This district is served by the well known Gang Canal.

2. It consists of 5 Sub-divisions and 9 Tehsils. There are 20 Police Stations and 10 Out-posts.

Population.

3. This district consists of 11 towns and 1,353 villages having a population of 630,130 persons, (males 343,192 and females 286,938) of whom only 90,913 persons or 14·4 per cent, reside in the urban units and rest in rural ones. This district stands 12th in respect of population among the districts of Rajasthan vide Annexure "A". A majority of villages are of the smallest size with a population below 500 persons. There are 11 towns namely Ganganagar, Raisinghnagar, Suratgarh, Hindumalkot, Anupgarh, Nohar, Karanpur, Hanumangarh Bhadra, Gajsinghpur and Sangaria.

4. The population of this district, as composed on March 1, 1951, according to Census of 1941, was 533,974 (males 294,396 and females 239,578). The last decade has witnessed an increase of 96,156 *i.e*, 18.0 per cent. This district occupies 9th position in the districts of Rajasthan with respect to growth of population, vide Annexure "B". Its growth is above the average growth in Rajasthan by 3·1 per cent. This growth in urban units has been 88 9 per cent while in the rural units it is 11·0 per cent.

Area and Density.

5. The area of this district is 8,225·0 sq. miles (supplied by Surveyor General of India). It thus covers 6·3 per cent of the total area of the State and stands 5th in respect of area when compared with the other districts of Rajasthan vide Annexure "C". The Director of Land Records Rajasthan, states tl e area of the district to be 7,969 sq. miles. It has a density of 77 persons per square mile. It was 65 in 1941. It stands 21st among the districts of Rajasthan in that respect. Its density is much below the average density of Rajasthan which is 117 and ab ve that of Bikaner Division (64) of which it forms a part, vide Annexures "D" and "F".

Occupied houses, housenolds, family composition and sex ratio.

6 The number of occupied houses in this district is 98,248 which are inhabited by 117,928 households; (85,383 houses occupied by 101,496 households in rural areas and 12,865 houses occupied by 16,432 households in *urban units*).

7. The number of persons per occupied house is 6 (6 in rural and 7 in urban units) and the same was the proportion in 1941. The average composition of a household is 5 persons in rural and 6 in urban units. The household population of the district is 628,244 (538,180 in rural and 90,064 in urban), *i.e*., 1,886 less than the total population. This last figure represents the houseless persons and inmates of institutions etc. The number of females per thousand males in this district is 836 in total population and 838 in household population. It was 814 in total population in 1941 vide Annexure "E". In the rural units it is 847 and in the urban units it is 776.

Literacy.

8. The number of total literates is 53,129 or 84 per thousand (males 45,768 *i.e*. 133 per thousand and females 7,361 *i.e*., 26 per thousand). The condition is different in rural from urban units as is depicted in the inset table.

Number of literates per thousand of

	Persons	Males	Females
Rural	51	86	10
Urban	281	401	13

Principal means of Livelihood.

9. The strength of persons depending directly or indirectly upon agriculture is 510,892. They form 81·1 per cent of the total population and even if we take out of consideration those who are not directly in touch with land *i.e.*, non-cultivating owners of land and their dependants, the percentage of actual agriculturists and their dependants is not reduced to any significant extent. It comes to 80·2. Amongst the agriculturists the largest percentage *i.e*, 47·5 is that of cultivators of land, wholly or mainly owned, and their dependants. Cultivators of land wholly or mainly unowned and their dependants form a percentage of 25·2. The cultivating labourers and non-cultivating owners of land are only 7·5 and 0·9 per cent respectively.

10. Non-agricultural category forms 18·9 per cent and among themselves the large majority depend upon "Other services and miscellaneous sources" who form 9·0 per cent of the general population. Industrialists comprise 3·7 per cent, traders are 5·7 per cent, transport industry supports 0·5 per cent only.

11. In the rural units the agricultural classes form 91·3 per cent of the total rural population and the non-agricultural classes form 8·8 per cent of whom cultivators of owned land and their dependants form 53·7 per cent, cultivators of unowned land and their dependants form 28·1 per cent, cultivating labourers and their dependants form 8·6 per cent while the non-cultivating owners of land form 0·9 per cent only.

12. Of the non-agricultural category in the rural area the largest number belongs to the "Other services and miscellaneous sources" being 4·9 per cent. Industrialists rank second being 1·9 per cent. Traders come next as they support 1·8 per cent. Transport stands last with a percentage of 0·2 only.

13. In the urban units the owner cultivators and the cultivators of unowned land are 10·8 and 8·0 per cent respectively of the total urban population. The cultivating labourers and non-cultivating owners of land are 1·4 and 0·9 per cent respectively. The non-agricultural category forms 78·9 per cent. The largest number depends upon "Other services and miscellaneous sources" being 33·3 per cent, traders being 28·8 per cent, and industrialists 14·4 per cent. Only 2·4 per cent of the population are engaged in transport industry.

Economically inactive persons.

14. Economically inactive persons can be grouped into two categories—(a) Those who earn their livelihood without any activity *e.g.*, pensioners, stipend holders, receivers of rent from land or buildings or interest and (b) those whose activities are uneconomic in their nature *e.g.*, beggars, prostitutes etc., The number of such persons in this district is 1,970 (1,795 males and 175 females). They form 0·3 per cent of the total population of the district. Their further details are given in District Economic Table B. III. Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-divisions.

Language.

15. The principal language of this district is Western Hindi. It is spoken by 184,074 persons *i.e.*, 29·2 per cent. Next comes Punjabi which is spoken by 164,609 *i.e.*, 26·1 per cent of the population. Speakers of Marwari and Bagri (Shekhawati) are 143,714 and 119,694 *i.e*, 22·8 and 19·0 per cent respectively. Sindhi is spoken by 7,766 *i.e.*, 1·2 per cent. Speakers of other languages are insignificant being less than one per cent each.

Religion.

16. A vast majority of the people of this district are Hindus being 79·0 per cent, next come Sikhs who are 17·5 per cent. Muslims rank third being 3·2 per cent. Jains, Christians and Zoroastrians all combined form even less than one per cent.

Scheduled Castes.

17. The Scheduled castes population enumerated in this district is 79,169 *i.e.*, 12·6 per cent of the total population and there is none belonging to Scheduled tribes. A list of Scheduled castes notified by the Government of India is appended (Annexure "G").

Migrants.

18. Of the persons enumerated in this district 65·1 per cent are born in the district itself, while those born in other districts of Rajasthan are 5·8 per cent. For districtwise details of the above items, see District Table D. IV (migrants). Persons born in India outside Rajasthan are 80,333 that is 12·7 per cent and those born in countries in Asia beyond India are 103,216 *i.e.*, 16·4 per cent.

19. The number of displaced persons in this district is 99,464. They all are from West Pakistan (191 in 1946, 92,859 in 1947, 6,013 in 1948, 184 in 1949, 213 in 1950, and 4 in 1951). A majority of them 41,872 *i.e.*, 42·1 per cent are cultivators of unowned land. Cultivators of owned land are 16,891 *i.e.*, 17·0 per cent. Cultivating labourers and non-cultivating owners of land are 14,615 and 1,051 *i.e.*, 14·7 and 1·1 per cent respectively. 10,841 *i.e.*, 10·9 per cent earn their livelihood by "Other services and miscellaneous sources". Traders and Industrialists are 9,236 and 4,713 *i.e.* 9·3 and 4·7 per cent respectively. Transport industry supports 245 *i.e.*, 0·2 per cent only.

Displaced Persons.

20. In this district the total number of persons afflicted by infirmities (the blind, the deaf-mutes, the insane and the lepers) are 1,589 that is 2·5 per thousand. Blindness is the most prominent, the number being 1,202 that is 1·9 per thousand, persons afflicted by the rest of the infirmities are 387 *i.e.* 0·6 per thousand. 55·4 per cent of the total blind persons are in the age group 55 and over. Similarly 25·0 per cent of the total deaf-mutes, 21·4 per cent of the total insane and 21·4 per cent of the total lepers are in this age group.

Infirmities.

SCHEME OF CENSUS TABLES.

Census Tables Prepared this time fall under the following six broad groups:—

A GENERAL POPULATION TABLES.
B ECONOMIC TABLES.
C HOUSEHOLD AND AGE (SAMPLE) TABLES.
D SOCIAL AND CULTURAL TABLES.
E SUMMARY TABLE.
F LOCAL TABLE.

There are five Tables under General Population Tables. These are:—

A I AREA, HOUSES AND POPULATION.
A II VARIATION IN POPULATION DURING FIFTY YEARS.
A III TOWNS AND VILLAGES CLASSIFIED BY POPULATION.
A IV TOWNS CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1901.
A V TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY LIVELIHOOD CLASSES.

Economic Tables comprise of three separate Tables. These are:—

B I LIVELIHOOD CLASSES AND SUB-CLASSES.
B II SECONDARY MEANS OF LIVELIHOOD.
B III EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN INDUSTRIES AND SERVICES BY DIVISIONS AND SUB-DIVISIONS.

There are five Tables in the Group of Household and Age (sample) Tables. These are:—

C I HOUSEHOLD (SIZE AND COMPOSITION).
C II LIVELIHOOD CLASSES BY AGE GROUPS.
C III AGE AND CIVIL CONDITION.
C IV AGE AND LITERACY.
C V SINGLE YEAR AGE RETURNS.

They have been prepared on sample basis.

Social and Cultural Tables consist of seven Tables. These are:—

D I LANGUAGES; D I (I) MOTHER TONGUE; D I (II) BILINGUALISM.
D II RELIGION.
D III SCHEDULED CASTES AND SCHEDULED TRIBES.
D IV MIGRANTS.
D V DISPLACED PERSONS BY LIVELIHOOD CLASSES.
D VI NON-INDIAN NATIONALS.
D VII EDUCATIONAL STANDARDS.

There is only one summary Table:—

E SUMMARY FIGURES BY ADMINISTRATIVE UNITS.

There is only one local table:—

(क) INFIRMITIES.

DEFINITIONS AND KEY TO SYMBOLS.

Definitions.

Tract:—In past censuses the census figures were tabulated by administrative units *i.e.*, districts, tehsils etc. This time in almost all tables the figures have been represented by units which have been technically called "TRACTS". Tracts are of three kinds, (1) all villages of a sub-division taken together form one rural tract; (2) all towns (which are not cities) in a district taken together form an "urban non-city tract" and (3) every city is an "urban city tract" or in short "city tract". A list of tracts comprised in each district has been given in the handbook of the district.

Town:—A "Town" has been defined as every municipality, every cantonment or every village which had a population of 5,000 or over in 1941 or any other village which was treated as a town for special reasons by the State Census Superintendent.

City:—A "City" is normally defined as a town with a population of one lac or over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 or over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

Village:—A "Village" means a revenue **mauza** whose revenue is realised under a separate name. It includes all hamlets attached to it.

House:—A "House" has been defined as every structure made of any material which is actually used as human habitation or if not so used, is capable of being so used, which has separate main entrance from the street, lane, by-lane' etc. It includes structures of all kinds such as residential houses, temples, mosques, offices, etc. The **minimum**, which was necessary for qualifying a structure to be classed as a house, was at least two walls and a roof made of any material.

Occupied House:—"Occupied houses" were those which were used actually for the residence of human beings.

Household:—A "Houeshold" has been defined to mean and include all persons living in one and the same house and dining at a common mess irrespective of their blood relationship *e.g.* servants residing with their masters and taking meals in their kitchen were treated as members of the master's household. On the contrary even nearest relatives as husband or wife were treated as separate families if for any reason they happened to live in separate buildings and dine at separate kitchens.

Household Population:—"Household Population" means persons living in numbered houses as members of a commensal family including guests and servants. It does not include (a) houseless persons or (b) inmates of institutions like jails, hospitals, hostels, dak bungalows, boarding houses, orphanages, sarais, dharmashalas, police lines, military lines, asylums, etc.

Displaced person:—A "Displaced person" was defined "as a person who migrated from Western Pakistan after 1st March 1947 or from Eastern Pakistan after 15th October 1946 due to communal disturbances or fear of disturbances or due to partition of India and Pakistan. Children born to such persons after their migration to India were not to be treated as displaced persons.

Ward:—A "Ward" was defined as municipal ward in case of municipal towns. In non-municipal towns wards have been made arbitrarily by the Census Department.

Means of Livelihood:—In former censuses it was customary to represent the basic population data by community or religion. This time an innovation has been made and in most of the tables the figures are published by Means of Livelihood groups. All occupations have been classified under eight broad classes and given code numbers which are as follows:—

I . . Cultivators of land wholly or mainly owned and their dependants.

II Cultivators or land wholly or mainly unowned and their dependants.

III Cultivating labourers and their dependants.

IV Non-cultivating owners of land, agricultural rent receivers and their dependants.

Persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services and miscellaneous sources.

N. B.—In most of the Tables, the m/l class number is only given instead of describing the class.

Code No.:—In the enumeration stage a set of location code numbers was prescribed to identify each inhabited spot, whereby the districts were numbered serially within the State, tehsils within a district and cities, towns or villages within a tehsil. Similarly houses were numbered within a village and households within each house. Hamlets were given sub-numbers under the number of the parent village.

Key to Symbols.

N.B.—Figures in item No. 14, 15 and 19 include the figures of Urban areas of the Tehsils concerned.

A.—GENERAL POPULATION TABLES

A. I—Area, Houses and Population

Explanatory Note

This table shows the number of villages, towns, occupied houses and rural population for each of the tehsils of the District. Serial No. 1 contains the aggregate corresponding figures for the district as a whole.

The figures of area against each unit have been entered as supplied by the District Officer. They represent the total of unit, rural as well as urban, as separate figures for urban units were not available. The total area of the district, as supplied by the Surveyor General of India, has been given within the brackets against the name of district. The tehsilwise area could not be made available from Surveyor General's Office.

There are nine Tehsils in this District.

(1) Ganganagar. (4) Raisinghnagar. (7) Suratgarh.
(2) Karanpur. (5) Anupgarh. (8) Nohar.
(3) Padampur. (6) Hanumangarh. (9) Bhadra.

A. IV—Towns Classified by Population with Variation since 1901

EXPLANATORY NOTE

This table shows the population of the towns of the district for the last five Censuses by sex. It also gives the variation in population from decade to decade along with the net variation since 1901.

In this table, the cities and towns have been classified and arranged according to population under six classes namely:—

I	100,000 and over.	IV	10,000 to 20,000
II	50,000 to 100,000	V	5,000 to 10,000
III	20,000 to 50,000	VI	Less than 5,000

The class in which the individual town falls is shown under the name of the town.

The nature of the local body functioning in each town is shown in the brackets after the name of the town wherever such body is functioning.

In this district five fresh towns have been added in this census namely.

1. Raisinghnagar
2. Sangaria
3. Gajsinghpur
4. Hindumalkot
5. Anupgarh

A. V—Towns Arranged Territorially with Population by Livelihood Classes

EXPLANATORY NOTE:—

This table gives the number of persons (including dependants) in each town according to principal means of livelihood instead of religion as in past censuses, but means of livelihood classes I to III have been clubbed together and they have been shown in columns No. 15 and 16 after the non-agricultural classes.

(a) The towns have been arranged according to population. The nature of local body functioning in each town is shown in brackets after the name of the town wherever such body is functioning.

Serial No.	Name of Town	Population			Livelihood Classes											
					Non-Agricultural Classes								Agricultural Classes			
					Persons (including dependants) who derive their principal means of livelihood from

B. ECONOMIC TABLES.

1. In the 1951 Census, the Economic classification was substituted for the lassification based on Religion.

2. The people have been divided into two broad livelihood categories, viz, the Agricultural Classes and the Non-Agricultural Classes.

There are four Agricultural Classes, defined as below :—

I Cultivators of land, wholly or mainly owned, and their dependants.

II Cultivators of land, wholly or mainly unowned, and their dependants.

III Cultivating labourers and their dependants, and

IV Non-cultivating owners of land; agricultural rent receivers, and their dependants.

4. There are four Non-Agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services, and miscellaneous sources.

5. All these classes have been referred to as Means of Livelihood Classes or in brief M/L Classes.

NOTE.—(*a*) Land is deemed to be owned " if it is held on any tenure (by whatever name it is known locally) which carries with it the right of permanent occupancy for purposes of cultivation." Such right should be heritable. It may be (but need not necessarily be) also transferable.

(*b*) A "Cultivator" (Livelihood Class I or II) is distinguished from a "Cultivating Labourer" (Livelihood class III) as the person who takes the responsible decisions which constitute the direction of the process of cultivation. All cultivating labourers are employees of cultivators.

(*c*) The classification of a person employed in any non-agricultural enterprise or establishment is based on the nature of his own work, not on the nature of the enterprise or establishment concerned. Thus for instance not all railway employees are classifiable under Livelihood Class VII (Transport). Those employed in Railway workshops are classifiable under Livelihood Class V and those employed on constructional services under Livelihood Class VIII.

6. Livelihood Sub-Classes :—Each of the eight M/L Classes has been divided into three sub- classes, with reference to their economic status as below :—

(*i*) Self-supporting persons ;

(*ii*) Non-earning dependants ; and

(*iii*) Earning dependants.

Economically active, semi-active and passive persons :—

7. All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include " unpaid family workers or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise ".

8. All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution tdeemed to be too small to justify their description as economically active.

9. All self-supporting persons are, ordinarily, economically active. But, there are certain classes and groups which constitute an exception to this rule. These are mentioned below :—

(*i*) The self-supporting persons of agricultural class IV.

(*ii*) The following groups of selfsupporting persons who are included in non-agricultural class VIII and derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity) :—

(*a*) Non-working owners of non-agricultural property,

(*b*) Pensioners and remittance holders,

(*c*) Persons living on charity and other persons with unproductive occupations, and

(*d*) inmates of penal institutions and asylums.

Classification of Economic activities and Economically active persons :—

10. Economic activities may be defined as including all activities of which the result is the production of useful commodities or the performance of useful services but not including the performance of domestic or personal services by members of a family household to one another.

11. The most important among all economic activities is the cultivation of land (or the production of the field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as "Industries and Services". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme, all industries and services are classified in 10 divisions ; and these divisions are sub-divided into 88 sub-divisions. The scope of activities included in each sub-division is indicated by its title.

12. Economically active persons engaged in cultivation, are either cultivators or cultivating labourers i. e., they are persons of sub-class (*i*) of agricultural classes I to III.

13. Economically active persons engaged in Industries and Services are classifiable in the divisions and sub-divisions. All persons included in each sub-division are further divisible into three sections viz.,

(*i*) Employers.

(*ii*) Employees, and

(*iii*) Independent Workers.

14. In effecting this classification, no account has been taken of whether the classified person was actually employed or unemployd on the date of enumeration. He has been allocated to that particular description of economic activity from which he has been in fact deriving a regular (that is non-casual) income, as his principal means of livelihood.

The Tables.

15. The Economic tables for the State as a whole with break-up for Natural Divisions and districts will be found in Report Part II B of the Census of India 1951, Volume X, Rajasthan and Ajmer. It also contains a full discussion of the Indian Census Economic Classification Scheme and its comparison with International Standard Industrial Classication Scheme evolved by the United Nations Organisation. This Handbook contains the above tables for this district in which they are published down to tract level.

16. The replies recorded in the census slips against census questions 9, 10 and 11 have been used for classifying every enumerated person within the framework of Economic Classification of people described above. The results have been exhibited in the three tables.

(a) Economic Table I .... Livelihood classes and sub-classes.

(b) Economic Table II .... Secondary means of livelihood.

(c) Economic Table III .... Employers, employees, and independent workers in industries and services by divisions and sub-divisions.

Economic Table I.

17. This table is the result of the record of replies to the census question No. 9 (1). It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each livelihood class. A complete picture has been presented of economically active, semi-active and passive persons.

Economic Table II.

18. It specifies the number of self-supporting persons in each of the 8 classes mentioned above' who have more than one means of livelihood and cross classifies them according to the nature of such secondary means of livelihood under the same eight classes. It also displays the number of earning dependants who supplement (with their own activities) the resources provided for their maintenance by the persons on whom they are dependant. The economic activity of the economically semi-active persons whereby they supplement the above resources has been shown in this table. The replies recorded in the slips against census question 11, showing the occupation of semi-active persons as also the) secondary means of livelihood of selfsupporting persons (with more than one occupation other than the principal means of livelihood, are the basis of this table.

Economic Table. III.

19. This table is limited to economically active persons only. Self-supporting persons engaged in Industries and Services have been classified under 10 Divisions and sub-divisions thereof. They have been further divided under each division and sub-division into three categories "Employers" "Employees", and "Independent Workers".

(a) M/L Class V (Production other than cultivation) corresponds to Division 0 to 4 (0 Primary industries not elsewhere specified, 1-Mining and quarrying; 2-Processing and manufacture-foodstuffs, textiles leather and products there of; 3-Processing and manufacture metals, chemicals and products there of; 4-Processing and manufacture not elsewhere specified).

(b) M/L class VI (Commerce) corresponds to Division 6 (Commerce).

(c) M/L class VII (Transport) corresponds to sub-divisions 7·1 to 7·4 of division 7 (Transport, storage and communications).

(d) M/L class VIII (Other services and miscellaneous sources) includes Division 5 (Construction and utilities), Division 7 (Transport storage and Communication) with the exception of sub-division 7·1 to 7·4; Division 8 (Health, education and public administration) and Division 9 (Services not elsewhere specified). It also includes other miscellaneous sources of livelihood e.g. income from investment, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included, in Economic Table III which is limited to industries and services. Hence there is a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table I and the total of this table. The reconciliation has been affected by entries of economically inactive persons with the following further classification at the end of the table (columns No. 798 to 807).

Persons living principally on income from non-agricultural property.*

(ii) Persons living principally on pensions, remittances, scholarships and funds

(iii) Inmates of jails, asylums and alms-houses.

(iv) Recipients of doles.

(v) Beggars and vagrants.

(vi) All other persons living principally on income derived from non-productive activities.

20. The Unit of Classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. Tne classification of the establishment is the classification of every member of the establishment.

21. As regards "Employees", all persons, engaged, in production, commerce or transport (and not being domestic servants) have been classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants have all been classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerks, messengers, watchmen and unskilled labourers of every description) have been classified with reference to the commodity produced or services rendered by their employers.

22. In this table occupational returns under some of the sub-divisions are nil and the columns pertaining to such sub-divisions have been omitted for the sake of economising space. hence there are breaks in the serial number of columns.

C.—HOUSEHOLD AND AGE (SAMPLE) TABLES

Explanatory Note:—This series consists of the following tables:—

C. I Household (size and composition). C. IV Age and Literacy.
C. II Livelihood Classes by Age Groups. C. V Single Year Age Returns.
C. III Age and Civil Conditions.

All these tables have been prepared on sample basis. In table C. I nearly 1 in 1000 households has been selected as sample from the National Register of Citizens. In other tables 10% sample has been taken from the enumeration slips pertaining to general population excluding displaced persons population.

C. I—Household (size and composition)

EXPLANATORY NOTE:—This table shows for each census tract the total number of households, household population, the sample households population, and the size and composition of households in the sample household population.

The figures are arranged under two broad groups:—

(i) Size of households.
(ii) Composition of households.

in (i) households have been called,

(a) "Small" if the number of inmates is 3 or less.
(b) "Medium" if the number of inmates is betwee n 4 and 6.
(c) "Large" if the number ofinmates is between 7 and 9,
(d) "Very large" if the number of inmates is 10 or more.

in (ii) the inmates in a household are discribed under three heads,

(a) Relationship to the head of the household.
(b) Number in broad age groups.
(c) Civil condition.

C. IV—Age and Literacy

Explanatory Note:—This table shows the literacy by age groups of the sample population. The figures of illiterates include those of partially literates *i. e.* those who can read a simple letter in any script but cannot write one. Literate means one who can both read and write a simple letter in any script. As the figures in Col. No. 5 & 6 have been taken from national registers of citizens they will not tally with those published in table D – VII which is based on slips.

District Index of Non-Agricultural Occupations.

This Table is prepared from the Sorter's Ticket 2. This is a sort of supplement to Economic Table B. III and provides further details of the occupational groups mentioned therein.

The Sorter's Ticket 2 was prepared in accordance with the instructions to the Sorters reproduced below :—

1. *Preparation.*—You have to prepare Sorter's Ticket 2 only if you have slips relating to any of the livelihood class V, VI, VII or VIII. You are to deal only those slips which relate to self-supporting persons. The slips relating to non-earning dependants or earning dependants would have been separated already and should not be used at this stage.

2. *First operation.*—You have first to deal the slips with reference to the Principal means of livelihood recorded against question 10. Your Supervisor will give you a list of "M/L (Means of livelihood) sub-groups"* in the order of importance for which you have to sort. Select not more than ten Pigeon-holes and affix labels bearing the names of the "M/L sub-groups" (written out in full) as given to you. The number of M/L sub-groups given to you will generally exceed ten. You should reserve one or two Pigeon-holes for throwing slips which are not covered by the M/L sub-groups shown on the lables. You should then deal the slips with reference to the answer recorded against question 10. In doing so, put together slips containing entries which are written in either identical or very similar terms to each of the labelled "M/L sub-groups." If you are in doubt whether an entry, in any case is very similar or not to the labelled M/L sub-groups, consult the Supervisor. Finish the sorting for one set of M/L sub-groups. Then distribute the slips of one set into individual occupations. Now count the number and "enter" the name and number in columns (2) and (3) of Sorter's Ticket 2. Keep the unsorted slips separate. This completes the first stage of the first operation.

3. *First operation (succeeding stages).*—You should then take up the slips that remain to be sorted. You should deal them again for the remaining M/L sub-groups given to you in same manner as in the first operation. The operations should be repeated successively until all the slips are sorted for all the M/L sub-groups given to you. You may find slips where the M/L as recorded in question 10 does not fall under any of the sub-groups given to you. You should deal these slips separately in the manner explained above and enter the name and number in the Sorter's Ticket. This completes the first operation. You should keep separate the bundle for each M/L sub group.

4. *Special instructions regarding non-productive means of livelihood.*—Livelihood class VIII will contain slips of persons who derive their income otherwise than through Productive activity. They include all self-supporting persons against whom the answer to question 9, Part two, is 'O'. They should be treated as a distinct group, not falling under any of the prescribed divisions and sub-divisions; and sorted under the following sub-groups, viz.—

(*i*) Persons living principally on income from non-agricultural property.
(*ii*) Persons living principally on pensions, remittances, scholarships and funds.
(*iii*) Inmates of jails, asylums, alms houses and recipients of doles.
(*iv*) Beggars and vagrants.
(*v*) All other persons living principally on income derived from non-productive activities.

5. *Second operation.*—For this operation the slips mentioned in Paragraph 4 are excluded. You have to deal the remaining slips with reference to the answer recorded in the second compartment of question 9. Affix labels to three Pigeon-holes, the labels being marked "Employer", "Employee" and "Independent worker". Take the bundle

* *List of M/L sub-groups.*—Separate lists of sub-groups should be prepared for use in sorting each of the four different livelihood classes V to VIII. These lists should be compiled on the basis of (a) scrutinizing of entries found to occur frequently in the National Register of Citizens and (b) results of trial sorting by Supervisor and Compiler-checkers.

for each M/L sub-group and deal them into the three Pigeon-holes. You will find "मा" for "Employer" "नो" for "Employee" and "खुद" for "Independent worker" recorded in the second compartment of question 9. If you find that there is no entry you should take the order of your Supervisor. When you have completed the sorting for a M/L sub-groups you should count the number in each Pigeon-hole and enter in Columns (4) to (6) of the Sorter's Tickt according as the Pigeon-hole relates to "Employer", "Employee" and "Independent worker" respectively.

6. *Second operation (succeeding stages).*—You should take each of the other bundles for M/L sub-groups and deal them in the same manner as in the second operation; you should enter the result in the relevant columns of the Sorter's Ticket.

7. *Conclusion.*—You have now completed all operations necessary for Sorter's Ticket 2. Re-combine all the male slips and all the female slips.

If you are sorting sample slips or slips for displaced persons you should proceed to Sorter's Ticket 3.

If you are sorting general slips you should proceed to Sorter's Ticket 6.

After the Sorter completed the ticket and after due check by the Compiler-checker and the Supervisor, the ticket was handed over to the tabulation clerk to fill in the Group Code numbers in column (1) of the form of Sorter's Ticket 2 given below.—

Form of Sorter's Ticket 2.

Group Code Number	*Full name of means of livelihood (sub-groups and occupations)*	*Total*	*Employer*	*Employee*	*Independent worker*
1	2	3	4	5	6

The group code numbers were adopted from the Indian Census Economic Classification Scheme given in Part II – B of the Report.

Accuracy of Figures.

A perusal of this index shows incredible figures, against certain occupations. This is due to vague entries in the slips regarding the occupations contrary to instructions in some cases and entries with correct details in others. The result was that in the tabulation stage the only slips which contained correct details of occupations were sorted under the correct sub-group and its details, while those with vague entries were placed in the wider groups.

Another point to be borne in mind is that not all persons following an occupation have been shown against it in the Index, but those who followed it as a Principal means of livelihood. Thus if a Ticket Collector derived a greater part of his income from rent of agricultural or other land or building and some income only from his services as Ticket Collector, he would not be shown as Ticket Collector.

The third point to be kept in mind is that these figures, represent only self-supporting persons and not those who are partly dependants, thus a young boy who sits at a 'Pan shop' and gets some pay from the shop keeper which is not sufficient to support him, he has to depend upon his father's income mostly. Such a man would not appear under the occupation "Service on Betel Shop."

The last but most important defect in the figures is due to difference in the terminology prevalent in the different areas of Rajasthan describing an occupation and also partly due to want of exercise of proper care in the tabulation stage that name showing same and similar occupations have been shown as different occupations for example "Halwai's shop" and "sweet-meat selling" have been shown as different occupations. In order therefore to find out the actual strength of self-supporting persons following a particular occupation as their principal means of livelihood, figures against all such occupations should be totalled.

On the whole, this index removes the defects pointed out in the Census Tables published in the previous Census that they do not show actual occupations but their group only.

District Index of Non-Agricultural Occupations.

Persons deriving their income as principal means of livelihood from occupation given in column 3.
