CENSUS OF INDIA 1961

A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Punjab bear Volume No. XIII, and are bound separately as follows :—

Part I-A	..	General Report
Part I-B	..	Report on Vital Statistics
Part I-C(i)	..	Subsidiary Tables
Part I-C(ii)	..	Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B(i)	..	General Economic Tables (Tables B-I to B-IV, B-VIII and B-IX)
Part II-B (ii)	..	General Economic Tables (Tables B-V to B-VII)
Part II-C (i)	..	Social and Cultural Tables
Part II-C (ii)	..	Migration Tables
Part III	..	Household Economic Tables
Part IV-A	..	Report on Housing and Establishments
Part IV-B	..	Tables on Housing and Establishments
Part V-A	..	Special Tables on Scheduled Castes and Scheduled Tribes
Part V-B	..	Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI	..	Village Survey Monographs : 44 in number, each relating to an individual village
Part VII-A	..	Report on Selected Handicrafts
Part VII-B	..	Report and Tables on Fairs and Festivals
Part VIII-A	..	Administrative Report: Enumeration (Not for sale)
Part VIII-B	..	Administrative Report: Tabulation (Not for sale)
Part IX	..	Socio-Economic Atlas

PREFACE

The main reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections and by students of social sciences interested in local problems. It was, therefore, decided to continue with this series at the 1961-census. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some very useful information collected from various State Departments has been included in it, trying to make it a self-contained book of reference for the District.

The book is divided into four parts. Part I is mostly descriptive and consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. Then comes a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing the location of educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply; area; number of occupied residential houses and households living therein; population; persons belonging to Scheduled Castes and Scheduled Tribes; number of literate and educated persons; number of workers in nine broad industrial categories; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population in the District by dots: the population of towns is shown by proportionate circles; and of rural areas by dots, one dot representing 200 persons. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared in the Cartographic Section in the State Census Office, jointly by Kumaris Ranbir Sokhi and Satwinder H. Singh, both M.As' in Geography.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant and Shri Vishwa Mitter, Supervisor, under the supervision of Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, for preparing the Tables presented in Part II and of Shri Goverdhan Dass Singla, Statistical Assistant and Sarvshri Dharam Paul Jain and Joginder Nath Suri, Tabulation Assistants, under the supervision of Shri Pawan Kumar, Tabulation Officer, for preparing the Tables presented in Parts III and IV.

Shri Sita Ram, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the various parts of the Ferozepur District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K. C. Kuriyan, Controller of Printing & Stationery, Punjab, and his Deputy, Shri Tara Chand, for their personal attention in the printing of the book.

R. L. ANAND,

Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

CHANDIGARH :
November 11, 1965.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—Ferozepur, the name of the District and its headquarters, means the 'town of Feroze'. The Ferozepur town is reported to have been founded by Ferozeshah Tughlak, Emperor of Delhi, who ruled from 1351 to 1387. The Manj Rajputs, however, aver that the town was founded by their chief, Feroze Khan, in the middle of the 16th century.

Location and Boundaries.—Ferozepur District occupies the south-west corner of Punjab along the Indo-Pakistan frontier. The District lies between north latitude 29°-54′-10″ and 31°-09′-45″ and between east longitude 73°-51′ and 75°-25′-10″. In shape it is somewhat like capital E tilted eastward with the centre bar removed. The maximum length of the District from north to south is about 100 miles, but the width varies from 10 to 60 miles.

The boundary of Ferozepur on the east runs along Ludhiana, Sangrur and Bhatinda Districts. On the north-east the river Sutlej separates it from Jullundur and Kapurthala Districts. The united stream of the Sutlej and Beas separates it from Amritsar District in the north-west, and further down for a length of some 80 miles from West Pakistan. Its southern portion touches Rajasthan, and the Hissar District lies to its south-east.

Area.—According to the Surveyor General, India, the area of the District is 3,872 sq. miles, but the Director of Land Records, Punjab, places it at 3,887.6 sq. miles. It is the third biggest District of the Punjab, the first two being Kangra (6,292 sq. miles) and Hissar (5,363 sq. miles). The area is distributed among five Tahsils as shown below :—

Tahsil	Area (sq. miles)		
	Total	Rural	Urban
Fazilka	1,048.8	1,040.8	8.0
Muktsar	1,003.6	1,001.5	2.1
Ferozepur	689.3	677.5	11.8
Moga	650.7	648.0	2.7
Zira	495.2	494.2	0.4

The Ferozepur Tahsil provides the neck from which the Zira and Moga Tahsils jut out towards the east. The main body of the District consists of the Muktsar and Fazilka Tahsils, the former in the middle and the latter in the south.

PHYSICAL FEATURES

The land lacks in marked physical features, such as, hills or rocks. It is a plain of alluvial formation, sloping gently at a rate of 1½ feet per mile from north-east towards south-west. The elevation from sea level of some towns in the District is as follows :—

Town	Height above sea level feet
Moga	720
Zira	695
Muktsar	650
Ferozepur	649
Fazilka	588

The District has three main natural belts which run somewhat parallel to the course of the Sutlej. Adjoining the river is the *bet* area which in Fazilka Tahsil is called *hithar* : a riverain tract with hard alluvial dark grey clay intermixed with strata of sand. It is traversed by depressions which mark the shifts in the course taken by the river in comparatively recent times. South-east of the *bet* and at a slightly higher level lies the lower *rohi* or

Mudki plain, where the soil is fo the most part light and sandy. A characteristic of this tract is the brackishness of water in the wells which increases towards the south-west. The southern boundary of the tract is a well marked bank or ridge continued from the Ludhiana District, marking the southern limit from which the course of the Sutlej has shifted. South of the ridge and at a higher level lies the upper *rohi* or Kot Kapura plateau where the soil is lighter, and more sandy towards the south. The water table here is very low and to sink wells is a costly affair.

Rivers, Canals and Drainage Channels.—The only river which can be said to be belonging to the District is the river Sutlej. There are some drainage channels which flow only during heavy rains. The more important of them are the Sukkar *Nala*, Danda *Nala*, Sotar *Nala*, and Moga *Nala*.

The Sutlej runs for about 115 miles along the northern and western boundaries of the District. At Hari-ke-pattan the Sutlej flows into the Beas. Thereafter, the joint river is known by the former name, and it enters West Pakistan near Sulemanki.

The Sutlej is notorious for shifting its course, and it is stated to have flowed as far east as Faridkot and Muktsar within historical times. For most part of the year the Sutlej remains calm, but when in floods it over-runs its banks and inundates the area flanking it, destroying the *kharif* harvest. With the construction of the Bhakra Dam and Bhakra Canals, and the barrages at Rupar, Hari-ke-pattan and Hussainiwala, the floods in the river have now been greatly controlled. The two barrages at Hari-ke-pattan and Hussainiwala fall within the District of Ferozepur. The barrage at Hussainiwala was constructed in 1926, giving rise to three canals. The two canals from the left bank (the Bikaner and the Eastern Canals) irrigate the Indian territory and the one shooting from the right bank (the Dipalpur Canal) now serves the West Pakistan. Some twenty-five miles up stream from Hussainiwala another barrage was completed at Hari-ke-pattan, from where the Ferozepur Feeder, the Makhu Canal, and the Rajasthan Canal take off, the last being one of the biggest canals in the world.

The Sukkar *Nala* means 'dry channel', and lies between the new and old beds of Sutlej. It originates in Ludhiana District and runs in a serpentine course along the whole length of the District up to near Mamdot. The Danda *Nala* serves as a natural drainage in Zira and Moga Tahsils. Sotar *Nala* runs in Muktsar Tahsil and carries drainage water to a lake near Fazilka. The Moga *Nala* passes through Moga into Faridkot area. Feverish work is at present (early 1963) in progress to free the District from water-logging by building drains in the affected areas.

Geology.—The only mineral found in the District is *kankar* (calcarious nodules), particularly in the Mudki plain and parts of the Muktsar *rohi*. It is used for road making, or burnt for lime. In some *bet* villages some saltpetre is recovered from saline earth.

Archaeology.—Owing to the ravages of the river Sutlej, there are practically no remains of archaeological interest in the District. The oldest buildings are a mosque at Jalalabad constructed during the reign of Akbar, and a *gurdwara* at Sarai Naga which Guru Nanak is said to have visited. There is also a *marhi* of Guru Angad at Sarai Naga. The tomb of Rai Mansoor near Madrasa is also of some antiquity, as also the shrines of Mata Damodri at Daroli Bhai.

The District feels proud of having some relics of the Sikh *gurus*, e.g., Guru Nanak's *mala* (rosary) and his *pothi* (book) in the preserve of the Guru family at Guruharsahai; and an old copy of the *Granth Sahib*, presented by Guru Gobind Singh, and two *parwanas* from him and some clothes belonging to Guru Hargobind, his wife and his son at Daroli Bhai.

The Dhaliwals have a shrine called Bhiana at Bir Badhni, and the Gills have another, called Raja Pir at Rajiana where they assemble for the *Jathera* ceremony and take out handfuls of earth from the tank.

CLIMATE

In common with the drier tracts of Punjab, Ferozepur has a very hot summer, mild rainy season, and bracing winter. In recent years a certain amount of change has been noted in this pattern of weather, so that there might be a fury of rains and floods at times when formerly it used to be a long dry spell, and *vice versa*.

It begins to warm up in the middle of March, though the nights are cool. It goes on getting hotter till early July when the mercury on many days crosses 115° F. Dust storms are frequent during the hot weather, particularly in the south-west region. The monsoonic rains commence in mid-July with eccentric breaks, lasting up to the middle of September. Sometimes heavy rains occur in late September or early October, bringing floods in their wake. Such floods occurred in 1955, in 1958, and in 1962, and caused extensive damage. The days are hot until mid-October, but the nights are then cool. The cold weather for the next four months is severe and dry but healthy. Some rain occurs from mid-December to mid-February. The tract is conducive to good health except the *bet* area which during the monsoon months is malarious.

Temperature.—Table 1* contains a record of temperature on monthly basis from 1951 to 1960 for two stations in the District.

*Pages 51 to 55

It will be noticed that the hottest day at 117° F occurs mostly in June, and the coldest night at 27.5° F falls mostly in January. Ferozepur town is both hotter and colder than Abohar. Not only is there large variation in temperature between the seasons, but it fluctuates widely within a span of twenty-four hours; there is generally a gap of some 40 degrees.

Rainfall.—In Table 2* are shown monthly figures of number of rainy days and amount of rainfall during 1951 to 1960 for the five Tahsil headquarter towns. The decennial average figures are given below :—

Town	Average annual rainfall (Cms)
Zira	52.3
Moga	47.4
Muktsar	35.3
Ferozepur City	34.2
Fazilka	33.3

There is a dry belt in Punjab consisting of Ferozepur, Hissar, Mahendragarh, Gurgaon and Rohtak which is far off from the Himalayas and borders on the Rajputana desert. Ferozepur is the driest among these Districts because of its extreme west location in the tract. Another feature of the rains is their concentration in three months. Roughly three-fourths of the annual rainfall occurs during July to September, another 10 per cent in December and January, and the remaining one sixth is scattered in the remaining seven months. But for the intensive net work of irrigation canals, Ferozepur would produce only a small fraction of its present output of farm products, and would have counted among the poorer Dist.icts, sustaining its population in a miserable way.

Fauna.—With the spread of cultivation the Lakhi *Jungle* which once ran across the District vanished some two generations ago. The princely states whose territories formerly surrounded the District were liquidated on Independence and with them have disappeared the sanctuaries of wild life which were preserved by the rulers for game. The liberal grant of fire-arms and shooting licences in recent years has further contributed to the destruction of wild life in the District. However, on account of religious inhibitions, the Bishnois would not permit any shooting in their villages, and as a result in their villages, mostly in the Fazilka Sub-Division, are still to be found the black buck, *chinkara, nil gai* and deer. Pig is found in the riverain tract near Subraon. Jackal is common in the *bet* area, and fox in the sandy areas, while hare is common all over. Otters are sometimes seen along the river and near the lakes. In the river the long-nosed crocodile, tortoise, porpoise and dolphin are found. The field rats are common in the fields and mongoose is by no means rare.

The common birds are blue pigeons, doves, crows, *mainas*, parrots, vultures and hawks. The game-birds commonly found are grey partridges, and quails (*bater*), and ducks during the cold weather on the lakes and the river. The sand-grouse may be found in the sandy tracts especially during winter. In the same localities *tilur* bustard is also seen. Among the less common birds are the crane, heron, pelican, spoon-bill, paddy bird, coot, cormorant and dab chick, *sarus* and stork. *Goh* is a common reptile. The *karait* and cobras are among the common varieties of poisonous snakes. The Sutlej and the lakes abound in *mahser, rohu, sowal* and *bachwa* varieties of fish.

Flora.—There is a dearth of trees and the land presents a bare appearance. *Wan, kharil, kikar, jand, dek, reru, phalai* and *pilu*, however, grow wild on waste lands. *Shisham, neem* and *sirin* are seen in the *bet* area, or along the canal banks and roads. *Kakain* and *farash* are common in the *bet* but *ber* occurs throughout the District. *Pipal* is confined to village habitations for shade. *Dhak* is common towards the east of Moga. *Pilchi* and *jhal* growing along the river banks provide cheap fuel. *Sarkanda* is a useful reed and is plentiful in the riverain tract. The *dub* grass along the river is relished by the cattle. The fruit trees are mangoes, oranges, lime, citrus, pomegranate, *jaman* and bananas. The area around Abohar is becoming known for citrus orchards.

Aak is a widely distributed weed, as also *pohli* which defies eradication. *Piazi* is common in the riverain and canal irrigated areas, *leih* in the bet, while *bui, khip, tumba, lathia, churi, sarota* and *bel* belong to the dry tracts. The narcotic *dhatura* flourishes on the rubbish heaps in the *bet* area, whereas *resan* and *hirmal* are found in the neighbourhood of the Sukkar *Nala.*

HISTORY

Not much is known of the early history of the District. This may partly be due to the river Sutlej shifting its course constantly over a wide range, levelling down everything that came its way, leaving behind ruins and mounds of earth and pottery rubbish, called *Theh.* The vagary of the river has, however, made a strong impact on the character of the people, making them virile and turbulent, and inured to hardships.

Rajput Period.—The Rajput tribes from the neighbouring Rajashan are among the early known invaders of the territory. The Punwar Rajputs appear to be the earliest known rulers with their capital at Janer, followed

*Pages 56 to 59

by Bhati Rajputs, (the Manj, the Naipal and the Dogar) about the time the Muslims established contacts with India. The Bhatis settled south of Muktsar and continued pushing the Punwars northward till nothing further is known of the fate of Punwars in the area. The various branches of Bhatis fanned out towards east and west, the Dogars and Naipals to the west towards Pakpattan and the Manj Rajputs to the east towards Kot Isa Khan and Raikot. Two ruling branches of the Manj Rajputs embraced Islam towards the close of the thirteenth century. The Manj Rajputs aver that Ferozepur town is named after their chief, Feroze Khan, but more reliable sources maintain that it was founded by Feroze Shah Tughlak.

Muslim Period.—Some two centuries after the immigration of the Bhatis the Jat tribes, namely, Dhaliwals, Gills and Sidhus appear to have made inroads into the territory from the south and south-east and gained possession of various areas. One tribe worthy of mention from among these Jats is Sidhu Barars who came from the same stock as the Bhati Rajputs. They founded the chieftainship of Kot Kapura and were the forefathers of the ruling families of the Faridkot State and the Phulkian States of Patiala, Nabha and Jind. Most of the Jat tribes accepted the Sikh faith in the seventeenth century. In due course they took advantage of the tottering Mughal empire for strengthening their position, though still owning allegiance to it when it served their interests. Thus when Guru Gobind Singh was in flight from Chamkaur Sahib in 1705 A.D., the Chief of Kot Kapura, though a Sikh, did not offer him shelter against the Mughal pursuers, and the Guru went to Muktsar and from there to Deccan.

In the meantime, the Dogars had begun to make depredations eastward from Pakpattan side where they had emigrated earlier. They pushed the Manj Rajputs southward, and established themselves for about a hundred miles along the Sutlej, from Ferozepur to Bhawalpur boundary. Ferozepur, Khai and Mamdot became their strongholds. However, they could not hold for long against the rising power of the Sikh Misls which took them under their sway.

Sikh Period. Religious persecution was hammering the Sikhs into a number of staunch and warrior Misls whose common aim was to fight out the Mughal tyranny. In 1760, they inflicted defeat on the Mughal Governor of Lahore. Three years later, Hari Singh, the Chief of Bhangi Misl, sacked Kasur, and one of his Sardars named Gujjar Singh crossed the Sutlej and took possession of Ferozepur and made over the fort and surrounding territory to his nephew, Gurbakhsh Singh. The Dogars gave him a lot of trouble but ultimately he was able to break their resistance and added to his territory a sizeable area on both sides of the Sutlej. Nearabout 1792, while partitioning his possessions among his sons, Gurbakhsh Singh gave the fort and territory of Ferozepur to his second son, Dhanna Singh. Dhanna Singh did not prove a strong ruler and soon got into trouble with his Dogar subjects. Thereupon a favourite Sardar of Maharaja Ranjit Singh, Nihal Singh Atariwala, crossed the Sutlej and hemmed in Dhanna Singh's territory from all sides. It was the time when the British East India Company was giving protection to the Trans-Sutlej chiefs, and no sooner Dhanna Singh asked for it, the protection was readily given. Ranjit Singh was thus restrained from extending his influence east of the Sutlej. Dhanna Singh died in 1818-19 leaving his widow Lachhman Kaur as his successor. The widow died in 1835. She had no issue and the territory passed to the British. The British were yet busy in restoring peace and order and consolidating their position in the area when the First Sikh War broke out in December, 1845.

First Sikh War.—It may be rightly said that the battle for Punjab was fought in Ferozepur District. The intrigues and jealousies of the Sikh Darbar left no time with it to give correct direction to the overflowing energies of the brave Khalsa Army of Ranjit Singh, and more to exhaust itself out than for any other purpose, it was allowed to cross the Sutlej and to fight the British.

The first engagement took place at Mudki and had not Lal Singh, the Sikh Commander, left his men when the victory was in sight, and had the 7,000 odd British troops who had fallen into the hands of the Khalsa Army been destroyed, the subsequent history of Punjab, and possibly of India, would have been different.

Similarly at Ferozeshah it was only the treachery of the Sikh Commander, Teja Singh, who left the battle field when the victory was within an ace of achievement, which averted a sure defeat for the British. The Sikh Army was all the time let down by its Commanders. The next Sikh Commander, Rajhor Singh, defeated the British in the next battle at Buddiwal, but was himself defeated at Aliwal.

The worst reason was yet to be perpetrated with this great army at Subraon. The Britishers and Gulab Singh, who subsequently received Jammu & Kashmir in reward for his treachery, had pre-planned the defeat and destruction of the Sikh Army. Gulab Singh supplied to the British the Sikh plan of battle three days before it was actually fought at Subraon, and the Sikh Army had yet begun hammering the enemy, when its leader, Teja Singh, ran away sinking a boat in the middle of the bridge of communication.

British Period.—The treaty of Lahore was signed in 1845. As a result, the British acquired, *inter alia*, all the territory east of the Sutlej. This territory was divided among the Districts of Ferozepur, Badhni, and Ludhiana, the Ferozepur District getting the *ilaqas* of Zira, Mudki, Khai and portions of Kot Kapura, Guruharsahai, Jhuma, Kot Bhai, Bhucho and Maharaj. In 1847, the Badhni District was dissolved and the *ilaqas* of

Mallanwala, Makhu, Dharamkot, Kot Isa Khan, Badhni, Chuhar Chak, Mari and Sade Singh Wala were added to Ferozepur District. Sultankhanwala was taken in exchange from Faridkot State. In 1852, portions of the *ilcqa* of Muktsar and Kot Kapura were added to the District. In 1855, the *ilaqa* of Chirk was restored to Kalsia State. In 1856, the Nawab of Mamdot was deposed as a result of his and his son's attrocities and misdeeds, and his estate was attached to District Ferozepur. In 1857, nine villages of Makhu *ilaqa* were ceded to Kapurthala State. In 1884, Sirsa District was partitioned, and its western portion consisting of the Fazilka Tahsil and some forty villages of Dabwali Tahsil were included in this District. The composition of Ferozepur District has remained more or less the same since then.

Mutiny and after.—Two Regiments of Native Infantry were stationed at Ferozepur and Fazilka in 1856-57. They revolted but timely action of the local British Officers did not allow them to do much damage. Most of them deserted and others were disbanded. The native Light Cavalry also rose in revolt but with the help of the artillery manned by the Britishers, they too were overwhelmed. Forty among the Indian soldiers and another eighteen were hanged in the jail along with the Nawab of Rania. The emissaries from Hariana had succeeded in spreading the flames of revolt in Fazilka side, but with the help of feudatory Chiefs, and *lambardars,* the Britishers were able not only to suppress the revolt in this part of the country, but also to send succour to the beseiged garrison at Delhi. Sant Sham Dass who had rallied some 4,000 adherents round him was defeated near Jaitu or Saidoke. He was captured and executed. A number of villages were destroyed, and several others confiscated and bestowed on the helpers.

After 1856-57, the Ferozepur District shared with the rest of the country the benefits of settled regime and administration. The settlements carried out from time to time made the peasantry conscious of their rights in land, and law and order secured, they felt happy and contented. The canals, railways, roads, posts and telegraphs, hospitals schools and colleges, gave them a fair share in whatever prosperity came under the British rule. The District continued to be a nursery of fine soldiery and the Ferozepur Cantt., continued to be an important military station.

The District produced and nursed Lala Lajpat Rai, in its village Dhudike. On the west bank of the Sutlej, some six miles from the Ferozepur town, the bodies of Bhagat Singh, Raj Guru and Sukhdev were cremated after they had been hanged in the Lahore Jail in March, 1931. The spot has lately been transferred to India from West Pakistan and it adjoins the Hussainiwala headworks on the other side of the Sutlej.

The Partition witnessed the emigration of a vast Muslim population from this District as from various others. In their place, 349,767 Hindus & Sikhs (according to 1951-census) uprooted from West Pakistan were settled in the District.

Since the census of 1951, Nathana Sub-Tahsil has been transferred to Bhatinda District. Some minor adjustments in area have been made along the banks of the river Sutlej, consequent to a border settlement with Pakistan in 1960.

TOWNS AND PLACES OF INTEREST

Ferozepur Town (Area 3·53 sq. miles: Pop. (1961) 47,060)—This town is surrounded by a *kacha* wall with ten gates. A metalled road girdles the wall around the town. It has a railway station. There are two colleges here: R. S. D. College and Dev Samaj College for girls, as also a Training College for Women; two Government High Schools, one for boys and the other for girls. Yet another three High Schools for boys and three High Schools for girls are run by private bodies. There is a Government Industrial School for girls imparting training in tailoring, embroidery, knitting, etc., and has capacity for 100 trainees, and a Government Vocational Training Centre with seats for 130 students, imparting training in turning, welding, draftsmanship, electrical industries, etc. The city has a Civil Hospital, a Veterinary Hospital and a T.B. Clinic. There are three markets in the town, the most important of which is the grain market. A roller flour mill and an enamel works are the only industrial units worth mention.

Ferozepur Cantt. (Area 7.76 sq. miles: Pop. (1961) 46,327).—Two miles south of the town lies the Ferozepur Cantonment, which has always been an important army centre, the more so since Partition due to proximity to the Pakistan border. The Cantt. is an important railway junction. The office of the Divisional Superintendent of Railways, District & Sessions Courts and most of the other District offices are located here. Towards the south-west of the Cantonment is a Canal Colony where canal offices, a rest house, bungalows of officers and residential quarters of the employees of the Canal Department are located. To its east there is a Military Dairy Farm. A Cantonment Board looks after the civic amenities. There is an air field near the Cantonment. The Saragarhi Memorial which is in the shape of a *gurdwara* and a park, reminds of the 36 brave sikh soldiers who laid down their lives defending the fort of Saragarhi in the north-west tribal area.

Hussainiwala Headworks.—The "Hussainiwala" Headworks is six miles from Ferozepur Cantt., and from here one canal on the right side supplies water to Pakistan and two canals on the left side supply water to

India. There are two bridges on the river at this point, one for the vehicular traffic and the other for railway train, the latter being no longer in use.

At the border there is a P.A.P. post under the charge of a Deputy Superintendent of Police (Border), a Land Customs Station, a C.I.D. Check-post and a plant quarantine where plants and fresh fruit coming from Pakistan and Afghanistan are disinfected from any pest and disease. In the District this is the only point from which passengers and fresh fruit are permitted between the two countries. Some five to six thousand persons cross the border in a year; they are mostly Meos of Gurgaon having relations in Pakistan.

Bhagat Singh Memorial.—Three great revolutionaries, Bhagat Singh, Raj Guru and Sukhdev were executed in the Central Jail, Lahore, on the 23rd March, 1931, and in order to avoid facing public fury their bodies were stealthily removed and cremated at a spot in the village Khatkar, adjoining the Hussainiwala Head-works, and six miles from Ferozepur Cantt. Since then a fair is held at that spot on that day, to honour the martyrs. It is proposed to build a suitable memorial here.

Zira (Area 0.18 sq. mile: Pop. (1961) 8,118).—This town is twenty-nine miles east of Ferozepur. It is the headquarters of a Sub-Division and has a railway station out-agency. It is connected by road with Talwandi Bhai, Makhu, Ferozepur and Dharamkot. A second class Municipality and a Market Committee function here. It is an assembling market for paddy, and there are a number of rice shellers. A Jain Temple, a High School for boys and another for girls, and a maternity and child welfare centre run by the Red Cross Society, are among the institutions of the town.

Dharamkot (Area 0.21 sq. mile : Pop. (1961) 6,443).—Dharamkot is a small town on the old Ferozepur-Ludhiana route. The original name of this place was Qutabpur which was changed to Dharamkot in 1760 by the Sikh Chief Tara Singh Dallewala when he established himself here. Gram and chillies are the chief exports from this market. Moga, ten miles away, has hit the prosperity of this town since the former has the advantage of being on the railway line. There is a Civil Hospital, a Veterinary Hospital, and a High School. It is served by class III Municipal Committee.

Moga (Area 2.75 sq. miles: Pop. (1961) 47,779).—Moga is the headquarters of the Sub-Division of the same name. It is thirty-five miles east of Ferozepur, with a railway station and a number of *pacca* roads leading to Ludhiana, Amritsar through Harike, Dharamkot, Ferozepur and Kot Kapura. The town has a second class Municipality and a good waterworks, drainage system, and a well equipped Civil Hospital. There are two colleges, one for boys and the other for girls. A Training School for village teachers established by the American Missionaries in 1911 had acquired a reputation among educationists of the country, but of late it has been converted into an ordinary Middle School. Besides, a number of High Schools, both for boys and girls, are run by Christian, Dev Samaj, Arya Samaj, Sanatan Dharam and Sikh organisations.

Moga is about the biggest market for agricultural produce in Punjab and an important livestock market. It has quite a number of establishments manufacturing oil-engines, bullock shoe nails, agricultural implements like disk-harrows and ploughs, machine and wood screws, belt fasteners and motor parts. Cotton ginning and pressing, rice husking and oil-seed milling are among the usual types of processing industries.

Moga is the supplying grid station for electric power to entire Ferozepur District and a part of Bhatinda District and for transmission lines up to Ganga Nagar.

This town has made rapid progress during the decade for various reasons. It is located in a fertile tract and is one of the most important primary assembling markets of the State. It is a bit removed from the border and many families from the western portions of the District have shifted here. It is an important centre for road transport, and has very good facilities for education and medical treatment. It is the hub of political activities and has some new flourishing industries.

Besides being the most important market for agricultural produce the area produces ample quantities of good quality milk. Taking advantage of this facility, a big concern under the name of Food Specialists, Ltd., was established here in 1962, with a capital of Rs. 120 lacs : 45 per cent of the capital was raised in India and the other 55 per cent was subscribed by the Nestle Company of Switzerland. The present intake of the factory is 13,000 kilograms of milk a day collected from 93 surrounding villages. The factory produces sweetened condensed milk and Nescafe, and proposes to add to the list other products.

Another conspicious industry in which two units are engaged, is the manufacture of sodium silicate used in the manufacture of soap. This product is obtained by fusing silica sand, soda ash and small quantities of sodium nitrate and bleaching powder.

Some ten concerns manufacture wheat threshers and winnowers. This machine is finding favour with the farmers because it dispenses with the traditional methods of threshing and winnowing, which besides being laborious and time consuming expose the produce to losses from rain and storm.

Ferozeshah Village.—Ten miles short of Ferozepur from Moga lies the village Ferozeshah. It has a memorial which was erected in 1869 to commemorate the First Sikh War. The memorial is in the nature of cenotaph, a triangular pillar of masonry some 80 feet high. It is now proposed to build another memorial here to commemorate the soldiers who died in the battle fighting the British.

Lajpat Rai Memorial at Dhudike Village.—The Village Dhudike lies two miles from Ajitwal Railway Station on the Ludhiana-Ferozepur line, and is linked with the *pacca* road between Moga and Jagraon, some ten miles from either town.

This is a big village, covering some 5,000 acres and with a population of about 4,500. The people here are politically conscious having taken part in the *ghadar* movement and *Guru-ka-Bagh* agitation. Members of some seventy families have gone abroad, mostly to Canada and United States.

Lala Lajpat Rai (1865—1928), the great national leader was born in this village. His birthday, celebrated in the village attracts a large number of persons. A Lajpat Rai Birthplace Memorial Committee was formed in 1956 and it has collected half a million rupees. A plot of about one acre of land has been bought in the village *abadi* including the house where he was born. A three-storeyed building is being constructed at this site to lodge a community hall, a reading room and a library. A guest-house and a memorial piller will also be built in this compound.

Guruharsahai (Area 0 30 sq. mile : Pop. (1961) 4,295).—This town is on the Ferozepur-Fazilka section of the Northern Railway. It is a third class Municipality. It has a well laid-out market, known for paddy which is processed by five rice shellers and two rice hullers. Among the institutions in the town are a Primary Health Centre, a Veterinary Hospital, a Maternity Hospital run by the Christian Mission, and two High Schools, one for boys and the other for girls. An Industrial Estate is proposed to be established near the Railway Station. At the two temples dedicated to two virgins known as Mata Jajol and Mata Hansnewali, fairs are held twice a year. The original village of Guruharsahai is contiguous to the town where in the Pothi Mala temple a *pothi* (book) and a *mala* (rosary) of Guru Nanak Dev, and a stone in which the image of Guru Nanak Dev is stated to be visible, are shown to the public by the family of the local *Gurus*.

Jalalabad (Area 0.40 sq. mile : Pop. (1961) 7,723).—This is a well laid-out town, but is not doing well owing to water-logging having affected the surrounding area and lack of initiative among the residents.

Muktsar (Area 1.00 sq. mile : Pop. (1961) 30,765).—When the forty disciples of Guru Gobind Singh, who had deserted him at Anandpur Sahib reached their homes, they were reproached by their relations. Feeling ashamed of their conduct, they returned to join the ranks of the *Guru*. On their way they clashed with the Mughal Army and gave their lives. Guru Gobind Singh was then staying here at a short distance. He came to see the dead and the wounded. He pardoned them, restoring the spiritual relationship. This was in 1762. The place since then has been known as Muktsar (tank of salvation), and on the site a big *gurdwara* and a tank were constructed during the time of Maharaja Ranjit Singh and completed later with the help of the rulers of the Phulkian States. A big fair is held here every year on the occasion of *Maghi* when people converge from long distances to take a dip in the holy tank. A cattle fair is also organised on that occasion.

Muktsar is the headquarters of the Sub-Division of that name and an assembling market chiefly for cotton and wheat. It is connected by rail and road with Bhatinda, Kot Kapura, Malout, Jalalabad and Fazilka. It has a Government College, two High Schools, a Civil Hospital, two cinemas and two rest-houses, and a good waterworks. A second class Municipal Committee and a Market Committee function here.

There are six important *gurdwaras* at Muktsar : Gurdwara Tamboo Sahib, where the forty Sikhs camped and fought against the Mughal Army ; Gurdwara Tooti Gandhi where Guru Gobind Singh is stated to have accorded them pardon ; Gurdwara Shahid Ganj where the bodies of these Sikhs were cremated ; Gurdwara Rakab Ganj where the stirrup of the horse on which Guru rode had broken ; and Gurdwara Datan Sahib where he is reported to have thrown his used *datan* (the twig for cleaning teeth).

Fazilka (Area 2.10 sq. miles : Pop. (1961) 32,015).—Fazilka is the headquarters of a Sub-Division and the terminus railway station on the Bhatinda-Fazilka section. The town is about a century old, and takes its name from Fazil, one of its early settlers. It is a second class Municipality. Badha Lake and a clock tower are places of attraction. It has a Degree College, four High Schools and a Public Nursery School. Sunam Rai Family Planning Centre and Sunam Rai Public Library are two institutions named after the late Lala Sunam Rai of this place who took a prominent part in the freedom struggle.

Before Partition, Fazilka was the biggest wool market in India, but thereafter the trade has been hit very hard, with a major portion of the supply area going to Pakistan and the Bikaner town gradually attracting the raw wool produced in Rajasthan. The present arrivals of some 6,000 bales of wool annually are about one-sixth of what they were before Partition. There are six ginning and pressing factories for cotton and wool in the town. Other products, for which the town is known, are *ban, mooras* and *sirkis.*

Abohar (Area 5.47 sq. miles : Pop. (1961) 46,863).—Abohar is an ancient town. Ibn-Batuta, the famous historian of the fourteenth century, mentions Abohar as the first town in Hindustan, on way from Multan to Delhi. There are remains of a large fort here, supposed to have been built by a Rajput Raja Abram Chand several centuries ago. Abohar is served by a railway station on the Bhatinda-Hindumalkot section, and is also connected by road with Malout, Fazilka, Ganga Nagar, Hanuman Garh and Dabwali. It has a well laid out market which is the biggest in India for cotton and important also for other agricultural produce.

The town is well planned, and is expanding fast. A second class Municipality caters for the water-supply and other civic needs. There is a Municipal Hospital, an X-Ray Institute and a Sewa Samiti Ayurvedic Dispensary. There is a D.A.V. College with separate sections for boys and girls, and two High Schools. The Hindi Sahitya Sadan is a good public library. The Bhiwani Cotton Mills went in production in 1957 and employs 1,300 workers. There are several ginning and pressing factories, including one functioning on co-operative basis. The Canal Colony is a neat area and has a comfortable rest-house, besides the other one controlled by the Municipal Committee.

Abohar has been styled as Calafornia of India, with some 10,000 acres devoted to citrus plantations, within a radius of ten miles from the town. The Regional Fruit Research Station at Abohar is doing excellent research work on citrus, dates and grapes, and distributes young plants of tried varieties.

Malout (Area 0.40 sq. mile : Pop. (1961) 20,774).—Malout is a new flourishing mandi on Bhatinda-Hindumalkot railway line, 20 miles from Fazilka and 29 miles from Bhatinda. About one-fifth of the entire cotton produced in Punjab is raised within a radius of 20 miles from Malout. The old market being too small to accommodate the heavy arrivals, two new markets have been built recently. The annual sale of raw cotton in this market is of the tune of one and a half million maunds, dealt by one dozen *pacca artias* and some 20 *kacha artias.*

There are four ginning and pressing factories working at present, and two more are being set up. The Suraj Textile Mills gives employment to some six hundred workers, and its yarn is consumed mostly in Delhi and by the hosiery concerns at Ludhiana.

Giddarbaha (Area 0.69 sq. mile ; Pop. (1961) 17,364).—This town is some twenty two miles south of Muktsar. It is a railway station on the Bhatinda-Hindumalkot line and an important market for cotton and grains. It is also connected by a *pacca* road now with Bhatinda. A third class Municipality and a Market Committee function here. The place is known for snuff which is a product of tobacco ground together with lime, ghee, and some perfumes. About a dozen concerns, big and small, work in this line. There are three cotton ginning and pressing factories. It has one High School, each for girls and boys, and two Dispensaries.

ADMINISTRATIVE MACHINERY

For general administration, Punjab is divided into three Commissioners' Divisions, and further into nineteen Districts. Ferozepur is one of the nine Districts in the Jullundur Division. The District is in the overall charge of a Deputy Commissioner, and the first officer to be so designated being Mr. J.T. Daniell who held the charge of the District from 21st April, 1846 to 1st November, 1847.

Deputy Commissioner and his Assistants.—The Deputy Commissioner continues to be the hub of District administration. As District Magistrate, he is responsible for maintaining law and order, and is head of the District Police, Magistracy and Prosecuting Agency. As Collector, he is in charge of the revenue administration and is responsible for the collection of land revenue and other Government dues. He is the highest revenue judicial authority in the District. He is the Registrar of all transactions of immovable property. He is the executive head of the civil administration and all departments in the District, which otherwise have their own officers, look to him for guidance and co-ordination. He plays an important role in the administration of the Municipal Committees, Market Committees, *Panchayats, Panchayat Samitis,* Community Development Blocks and *Zila Parishad* which are coming into shape with the decentralisation of authority and expansion of the *Panchayati Raj.* He guides and helps all these agencies of local self-Government in the discharge of their functions and explains to them the Government policies. He is responsible for the execution of development and planning schemes in the District, and, as Chairman of the Standing Committee of General Administration and Development, he co-ordinates the activities of the various nation-building Departments. He has to keep his fingers on the pulse of the people and presents such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra-Assistant Commissioners, at the District headquarters and at the Sub-Divisional and Tahsil level. The Revenue Assistant assists him in the revenue work. He looks after the revenue work not so far transferred to the Sub-Division, and supervises the maintenance of the land records and the land revenue accounts at the District level. He controls the revenue establishment. He is also incharge of the flood relief work, anti-locust measures, famine relief, Red Cross, rehabilitation work and elections.

As District Magistrate, the Deputy Commissioner has one Additional District Magistrate, four Sub-Divisional Magistrates and eleven 1st Class Magistrates working under him. The magisterial work is controlled through the Additional District Magistrate, who also deals with Arms-licences and Passports. He exercises summary powers and has some Police Stations under his direct control like other Magistrates. S.D.Os. (Civil) at Fazilka, Muktsar, Moga and Zira function also as Sub-Divisional Magistrates, and, besides exercising summary powers, have specific Police Stations allotted to them for administration, like other Magistrates with 1st Class powers. There are four 1st Class Magistrates at District headquarters, two each at Fazilka and Moga, and one each at Zira and Giddarbaha.

The General Assistant helps the Deputy Commissioner in executive and administrative functions. He controls the office of the Deputy Commissioner and is in charge of the records, copying agency and the nazarat branch.

The District Development and Panchayat Officer looks after the work relating to Community Development at the District level, and the work relating to Municipal Committees, Market Committees and *Panchayats.*

Two revenue trained Extra-Assistant Commissioners work as Settlement Officers for the Consolidation of Holdings, one with headquarters at Ferozepur and the other at Muktsar. Though for the consolidation work they are directly responsible to the Director of Consolidation of Holdings, the Deputy Commissioner exercises general administrative control over them.

Sub-Divisions and Tahsils.—There are five Tahsils in the District namely, Ferozepur, Muktsar, Fazilka, Moga and Zira. The two sub-Tahsils of Abohar and Giddarbaha are attached with the Fazilka and Muktsar Tahsils, respectively. In pursuance of the Government policy of decentralising authority and converting Tahsils into Sub-Divisions, Sub-Divisional Officers (Civil) have been posted at Zira, Moga, Fazilka and Abohar and a similar officer will be posted shortly at Ferozepur. The Sub-Divisional Officer (Civil) is either an Assistant or an Extra-Assistant Commissioner, and exercises control over Tahsildars. His powers *vis-a-vis* the Sub-Division are analogous to those of the Deputy Commissioner *vis-a-vis* the District, though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner.

The Tahsildars and Naib-Tahsildars are assisted in the revenue work by an Office *Kanungo* (besides one Special *Kanungo* for *Thor* and *Sem*, at the District headquarters), and a number of Field *Kanungos, Patwaris* and Assistant *Patwaris.* There are 380 *Patwar* Circles in the District, each looked after by a *Patwari*; a *Patwar* Circle is the smallest unit of revenue administration. The *Patwaris* are supervised closely by the Field *Kanungo* whose number in the District is 19.

The Revenue Agency is helped in the villages by *Lambardars* and village *Chaukidars.* The *Lambardar* collects the land revenue and deposits it in the Tahsil sub-treasury and helps the administration generally, assisted by the village *Chaukidar.* The *Patwaris* and *Chaukidars* receive monthly salaries, but the *Lambardars* are paid 5 per cent of the land revenue collections.

Judiciary.—Separation of the judiciary from the executive has not yet been effected in the District. The Magistrates are still under the administrative control of the District Magistrate. Their judicial work is, however, subject to appeal and revision by the District and Sessions Judge and the High Court.

The administration of justice on the civil side is headed by the District and Sessions Judge, Ferozepur, who is assisted by a whole-time Additional Sessions Judge, and an Additional Sessions Judge who visits Ferozepur periodically from his headquarters at Faridkot. One Senior Sub-Judge, and one Sub-Judge each at Ferozepur, Moga, Muktsar and Fazilka, also work under the District and Sessions Judge for the civil cases.

Government cases in the Civil Courts and in the Sessions Courts are presented by a District Attorney and an Assistant District Attorney who are controlled by the Legal Remembrancer, Punjab. They are assisted by one or two Public Prosecutors appointed by the Government from among t the members of the Bar. The Prosecuting Deputy Superintendent Police, assisted by Prosecuting Inspectors and Sub-Inspectors conduct the cases for the State in the courts of the Magistrates.

Police.—The District Police is under a Senior Superintendent of Police. He functions under the administrative control of the Deputy Inspector-General of Police, Jullundur Range, and is assisted by one Superintendent of Police (Headquarters), one Superintendent of the Armed Police (Border Area), and three Deputy Superintendents of Police. The Prosecuting Deputy Superintendent is also under the Senior Superintendent. There is one Inspector in charge of the Criminal Investigation Agency work in the District, and another Inspector of the Security and Intelligence staff.

Besides the Gazetted Officers (Deputy Superintendents and higher officers), the strength of the police staff in the District is : 3 District Inspectors, 3 Prosecuting Inspectors, 18 Prosecuting Sub-Inspectors, 5 Inspectors, 49 Sub-Inspectors, 97 Assistant Sub-Inspectors, 134 Head Constables, 1,104 Constables, 8 Mounted Head Constables and 65 Mounted Constables.

The lowest unit of Police administration is the Police Station serving a number of villages or a town. It is in the charge of a Sub-Inspector and in some cases an Inspector. There are 24 Police Stations in the District.

44 P.A.P. (Punjab Armed Police) pickets and 9 sub-sectors, established all along the border, look to the police arrangements along the border of the District with West Pakistan. These pickets and sub-sectors are under the charge of the Superintendent of Police, P.A.P. (Border Area).

Jails.—There is a Central Jail at Ferozepur, and one sub-jail each at Moga, Fazilka Giddarbaha and Muktsar. The Central Jail, Ferozepur, is under the charge of a Superintendent who is assisted in his work by one Deputy Superintendent, one Senior Assistant Superintendent, one Welfare Officer, six Assistant Superintendents and a number of Head Warders and Warders. The authorised accommodation in this jail is for 1,036 prisoners, though the average daily population of the jail in the years 1959, 1960 and 1961 worked out to 1297, 1521, and 1407, respectively. The jail has a separate women-ward under a Matron. The jail hospital has a Medical Officer and some Assistant Surgeons. The jail has a canteen, a library and a radio for the use of the prisoners. Arrangements exist to give the prisoners elementary adult education which is compulsory, and to give them vocational training in different crafts. The three Sub-Jails are under the local S.D. Ms. assisted by suitable staff.

Community Development.—The District has been divided into the following 17 National Extension Service Blocks and ShadowBlocks :—

Tahsil	Block	Shadow Block
Ferozepur	1. Ferozepur 2. Guruharsahai 3. Ghal Khurd	
Fazilka	4. Jalalabad 5. Abohar	1. Fazilka 2. Khuyan Sarwar
Zira	6. Dharamkot 7. Zira	
Moga	8 Moga I 9. Moga II 10. Nihal Singhwala 11. Baghapurana	
Muktsar	12. Muktsar 13. Kot Bhai	3. Malout 4. Lambi

A Block consists of some 60 villages. The N.E.S. Block has a Block Development and Panchayat Officer (B.D. & P.O.) but a Shadow Block has only a Social and Panchayat Officer The Shadow Blocks are converted into regular blocks in due course. The B.D. & P.Os. are under the immediate administrative control of the S.D.Os. (Civil), and where there is no S.D.O. (Civil), under the Deputy Commissioner, through the District Development and Panchayat Officer. They have no administrative functions and are mainly concerned with the promotion and execution of development schemes, besides being Panchayat Officers, in their respective blocks.

A B.D. & P. O. has a number of Extension Officers belonging to various departments, to assist and advise him in their respective spheres, like the *Panchayats*, Agriculture, Industries. At the lowest rung of the Extension Service Scheme are the Village Level Workers and Lady Social Workers who attend to development and social educational plans aiming at improving the social, economic and health conditions of the rural population.

The first Community Development Block in the District was instituted in 1953. By the close of 1960 their number rose to ten. Seven more Blocks were created during the years 1961, 1962 and 1963. The names of these seventeen Blocks which cover the entire rural area of the District, are given below according to the four stages of development.

(i) Pre-extension stage	No Block
(ii) Stage I (13 Blocks)	Ferozepur, Baghapurana, Muktsar, Fazilka, Malout, Nihal Singh Wala, Abohar, Guruharsahai, Kot Bhai, Jalalabad, Ghal Khurd, Lambi, Khuyan Sarwar
(iii) Stage II (3 Blocks)	Moga II, Zira, Dharamkot
(iv) Stage III (1 Block)	Moga I

Zila Parishad, Panchayat Samitis and Panchayats.—*Panchayat Samitis* have been formed in all Blocks and in their function they are advised and assisted by the B.D. & P.Os. Their members are elected from amongst the members of the village *Panchayats* constituting the Blocks. At the District level, a *Zila Parishad* has been constituted consisting of represen atives from village *Panchayats, Panchayat Samitis* and nominated members. It is intended that the *Zila Parishad* takes over the entire work which was formerly done by the District Board. Due to some technical hitch this District body has not started functioning yet.

At the village level there are the *Gram Panchayats*, each constituted for one or more villages under the Punjab Gram Panchayat Act, 1952. Elected on the basis of adult franchise, the *Gram Panchayats* are intended to work finally as village republics. They have been given some specific administrative, executive and judicial powers under the Panchayat Act. These powers at the moment are limited, but will be expanded in due course, as this experiment in decentralisation of authority proves successful. They have been empowered to levy certain taxes and are allowed a specified percentage of the land revenue of the village to provide them the necessary expenses for discharging their functions.

Co-operative Department.—For purposes of administration, the Co-operative Societies in the District are divided into two Circles: Ferozepur Circle and Moga Circle each under an Assistant Registrar. The Ferozepur Circle covers Fazilka, Ferozepur and Muktsar Tahsils and the Moga Circle covers Zira and Moga Tahsils. The working of the Women Co-operatives in the District is looked after by a Lady Assistant Registrar at Jullundur, and the Industrial Co-operatives function under the Assistant Registrar, Industrial Societies, Ludhiana.

Agriculture Department.—The work of the Agriculture Department in the District is under the District Agriculture Officer. He is assisted by four specialists in Horticulture, Plant Protection, Agronomy and Soil-Science, respectively, at the District headquarters, and Agriculture Inspectors and Sub-Inspectors in the N.E.S. Blocks.

Industries Department.—There is a District Industries Officer who is assisted by one Senior Inspector, three Junior Inspectors and two Sub-Inspectors. For rural industrialisation and development work, Block Level Extension Officers are posted in various blocks. Technical education in different crafts is imparted by the Government Industrial Training Institutes, Ferozepur and Moga, and the Government Industrial Training School for girls at Ferozepur. Besides, there are instructors and demonstrators working in various industrial centres.

Medical and Public Health Department.—The Civil Surgeon is in charge of the hospitals and civil dispensaries in the District, and the District Medical Officer of Health looks after the rural dispensaries and Primary Health Centres and general sanitation in rural areas. Besides, each Municipality has health staff of its own.

Veterinary Department.—The District Animal Husbandry Officer has a staff of 24 Veterinary Assistants, three Animal Husbandry Assistants, 37 Live-stock Assistants, spread over the entire District.

Irrigation Department.—There are three main canal irrigation systems operating in the District, each having a Superintending Engineer and a number of Executive Engineers and Sub-Divisional Officers. These are, (1) the Sirhind Canal system; (2) the Grey Canals system; and (3) the Eastern Canal system.

The Sirhind Canal system is the oldest and irrigates the areas between Ludhiana and Fazilka on the left side of the Bikaner Canal. The Sidhwan Branch serves Moga Tahsil and eastern part of Zira Tahsil. Old channels of the Grey Canals system in this part have been connected with the Sidhwan Branch. The Bhatinda Branch serves the southern part of Moga and south-eastern part of Fazilka by its distributories. The Abohar Branch serves Muktsar and Fazilka Tahsils including Abohar Sub-Tahsil, east of the Bikaner Canal.

The Grey Canals were originally inundation channels carrying water from Sutlej for irrigating intermittent patches where irrigation could be possible, mostly adjoining the river. Some of these channels have been linked with the Sidhwan Branch. The remaining inundation channels have been remodelled and have been renamed as Makhu Canal system, fed by the Makhu Canal taking off from Harike Headworks. This system now covers Zira Tahsil except the portion which has been taken up by Sidhwan Branch, and a part of Ferozepur Tahsil.

The Eastern Canal system serves the area between Bikaner Canal and the Sutlej, extending from Ferozepur Headworks to Sulemanke Headworks. The Eastern Canal takes off from the Hussainiwala Headworks, but now it receives its supply from the Harike Headworks through the Ferozepur Feeder. The Sirhind Feeder, which branches out from the Ferozepur Feeder, augments the supply of Sirhind Canal system in this area.

Drainage Department .—The wide-spread and expanding net-work of canals has accentuated the problem of water-logging, the sub-soil water level having arisen considerably during the past few years. The floods of 1955, 1958 and 1962 have driven the authorities to take steps in a big way, and as a result an expensive net-work of drains has been laid. These drains carry off water during the monsoon weather and seep out excess water from paddy growing areas. The drainage work in the District is divided into two Circles : the Drainage Circle, Ferozepur, and the Drainage Circle, Ludhiana. The former Circle is under a Superintending Engineer with his headquarters at Ferozepur. He looks after the entire Ferozepur District except the Moga Tahsil. The drainage work in Moga Tahsil comes under the charge of the Superintending Engineer, Drainage, Ludhiana. Each major drainage work is under an Executive Engineer.

Other Departments.—The District Excise and Taxation Officer looks after the excise administration in the District and the collection of entertainment duty and sales tax, the immovable property tax and the State excise duties.

The District Food Controller looks after the procurement, movement and distribution of foodgrains and of other controlled commodities.

The District Inspector of Schools and the Assistant District Inspectors are responsible for the inspection of Middle and Primary Schools of boys and girls, respectively. The supervision of the High and Higher Secondary Schools is done by the Divisional Inspector of Schools, Jullundur.

Construction and maintenance of Government buildings and roads in the District are in the charge of the Executive Engineer, Ferozepur Provincial Division, Ferozepur. Similarly, there are Executive Engineers for Electricity and Public Health Works.

The District Welfare Officer looks after the welfare programmes for Scheduled Castes and Backward Classes. The District Public Relations Officer does publicity and propaganda work.

Local Bodies .—There is a Cantonment Board functioning in Ferozepur Cantonment area under the Cantonment Boards Act. Municipal Committees have been constituted under the Municipal Committee Act of 1911, for Ferozepur City, Tankanwali, Guruharsahai, Talwandi Bhai, Fazilka, Abohar, Jalalabad, Muktsar, Giddarbaha, Malout, Moga, Zira and Dharamkot. Except the first mentioned Municipal Committee which is 1st class, all others belong to second or third class.

CHAPTER II

ECONOMY

This chapter is divided in four sections, dealing with A- Agriculture, Irrigation and Livestock, B-Industries, C-Trade and Commerce and D-Communications.

A—AGRICULTURE

Peasantry.—The prosperity of Ferozepur is due essentially to its agriculture. At the time of the 1951-census, 74.2 per cent of its population was dependent on agriculture. The 1961-census revealed that 66.3 per cent of the workers in the District were cultivators and agricultural labourers. These figures should not be taken to mean a decline in the importance of agriculture as a means of subsistence. Both in 1951 and 1961 workers in agriculture (cultivators and agricultural labourers) formed 22.7 per cent of the total population. The agricultural population in the 1951-census included the agricultural rent receivers who in the 1961-census were classed among non-workers.

Land is fertile and for the most part not spoiled by water-logging. As much as 64 per cent of the net sown area in the District is irrigated, almost entirely by canals. The District has specialised in cotton cultivation, producing one-third of the entire crop of the State, and the cotton is mostly of improved varieties. The yield per acre of all crops is much above that in most other Districts. The holdings are also comparatively large, there being 6.1 acres of cultivated land per cultivator and agricultural labourer, as compared with 5.3 acres in the State as a whole.

Peasantry forms the bulk of the population, chiefly Sikh Jat, Bagari, Bishnoi and Rai Sikh, and they are good farmers. After Partition, the Muslims migrated *en bloc* to Pakistan and on their holdings were rehabilitated the Hindus and Sikhs hailing from Lahore, Montgomery and Layalpur Districts. These refugees were brought up in some of the most prosperous colonies in the country, and no wonder that with assured water-supply, cultivation at their hands showed a big spurt. Some of the best citrus orchards in the District have been reared by these refugee farmers, for they had done similar work on their former lands.

There are three broad types of active workers in agriculture : proprietors, tenants and labourers. A large majority of the cultivators are peasant proprietors, owning and cultivating their own land. Accretion to their numbers has accrued from the various land reforms introduced in the post-Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. The occupancy tenants have now become full-fledged proprietors. Similarly such of the tenants-at-will, as were able to purchase land under the law have also become proprietors. Some landlords were able to circumvent the law by entering into *benami* transactions, and mutate their lands in favour of their relatives and confidents, so as to retain ownership under a different guise. But now ceilings have been prescribed and law is becoming more helpful to the tenants to purchase the land they till.

One sequel of these land reforms has been that such former landlords whose only interest in land was to realise rent have taken to cultivation with their own hands from tenants to avoid their lands passing to the latter. This change has given a big drive to mechanised farming. Many tenants were evicted, and in the absence of alternative vocations of their choice, they have had to accept to work as agricultural labourers. In most cases the resources at their disposal are meagre and they cannot afford to purchase land even when the law affords them opportunity . The result is that the number of agricultural labourers is swelling, as the discussion in the next chapter would show.

LAND UTILISATION

Total area.—Ferozepur is the third biggest District in the State. It has a total area of 3,872 sq. miles according to the Surveyor General, India, and 3,887.6 sq. miles according to the Director of Land Records, Punjab. The discrepancy in the two figures is due to different methods of measurement adopted by the two agencies. For showing land utilisation and density of population, the figures as supplied by the Director of Land Records, Punjab, and referred to also as the figures according to village papers, have been utilised in this report.

Table 3* shows the geographical area of the District and its classification according to use, in terms of quinquennial average figures from 1901 to 1961. The differnce in the total area figures over the period of time has been due to inter-District transfers, alluvium and diluvium, and remeasurement of land. During the decade ending 1961 the Nathana Sub-Tahsil of Ferozepur District was transferred to Bhatinda District. Besides, consequent upon the adjustment of territories between Pakistan and India the District lost 7,162 acres.

The average total area during the quinquennium 1958—63 works out to 2,518,931 acres.

*Page 60

Forests.—Mention has already been made about the District not having any regular forest. In 1960-61, however, 1,328 acres in the form of lands along the road-sides, canal banks and railway lines were transferred to the Forest Department for planting trees.

Besides the general naked look of the land and its exposure to the strong winds from Rajasthan, there is a general shortage of fuel-wood and timber for buildings, furniture and agricultural implements. Necessity is being felt for establishing plantations to meet these requirements, as also to serve as shelter belts and wind-breaks to check the advance of sand from the desert in the south.

Area not available for cultivation.—This class includes absolutely barren and unculturable lands (44,743 acres) or lands under buildings, roads and canals or otherwise appropriated for non-agricultural purposes (151,022 acres). The area of such lands is 195,765 acres or 7.8 per cent of the total area of the District. There has been some increase in this type of land during the decade, due to the vast construction of buildings, roads and canals since Independence.

Other uncultivable land excluding fallow lands.—This category denotes land available for cultivation, whether not taken up for cultivation or abandoned later, and includes culturable wastes, grazing lands and lands under tree groves, not included under the sown area. The area in this category is 133,125 acres or 5.3 per cent of the total area of the District.

Kallar and water-logging has laid waste some good lands in parts of the District, and though the area thus damaged forms a small fraction of the total area, it is yet substantial. Efforts at rescuing such lands are proving partially effective, as the following figures show :—

Tahsil	Uncultivable land other than Fallow (thousand acres)	
	1951-52	1960-61
Zira	40	43
Ferozepur	50	63
Muktsar	36	10
Fazilka	52	30
Moga	2	7
Total ..	**180**	**153**

There are no permanent pastures or regular grazing lands in the District which is a common feature of the plains portion of the State. The extreme heat in summer and rains being limited to some three monsoon months and the remaining portion of the year remaining dry are not conducive to the growth of succulent grasses.

The uncultivated area is decreasing and this process will gain in momentum if the cultivators of the *kallar* affected and water-logged areas work as Co-operative Societies to which the Government would render the required assistance.

Cultivated area.—In revenue terminology land is styled as 'cultivated' if it has been sown once during the previous four harvests. As such, the cultivated area comprises (i) fallow lands and (ii) net area sown. The extent of change is brought out in the following figures :—

	Quinquennial Average	
	1948—53	1958—63
Fallow Lands (acres)	382,996	185,615
Percentage to total area	14.7	7.4
Net sown area (acres)	1,880,171	2,004,426
Percentage to total area	72.0	79.6
Cultivated area (acres)	2,263,167	2,190,041
Percentage to total area	86.7	87.0

In the State as a whole cultivated area forms 65 per cent of the total area. The high figure of 87 for Ferozepur is due to nature being generous in giving it a larger share of land which can be ploughed. At the same time it is a tribute to the diligence of the farmer who has exploited this advantage.

Another point brought out by the above figures is the reduction in the proportion of fallow lands. In 1948—53 they formed 15 per cent of the total area, and during 1958—63 only seven per cent. With the growing trend for intensive cultivation the practice of taking crops from the same plots successively for a number of years is coming in vogue. And there is nothing wrong in it, for agricultural research has proved that with good manuring and judicious rotation of crops, it is seldom necessary to allow land to lie fallow.

The figures also show that the reduction in fallow lands is not fully accounted for by the increase in sown area. The explanation of this gap is the new area put under roads, drains, canals, and other non-agricultural uses.

IRRIGATION (TABLES 5 AND 6)*

The handicap of inadequate and uncertain rainfall in the District has been almost completely offset by ample and extensive canal irrigation. Amritsar and Ferozepur are perhaps the best irrigated Districts in India, with 90 and 63 per cent of the net sown area receiving irrigation. If Amritsar has the blessings of the Ravi, Ferozepur enjoys to the full the blessings of the Sutlej. All the three canal systems operating in the Ferozepur, emanate from the Sutlej river.

The need for irrigation in the District had long been realised and as early as during 1898—1903, Government and private canals served 463,606 and 138,755 acres, respectively. Government canals gradually overshadowed private canals, and by 1958—63 all the canals in the District were owned and managed by Government and the net area served by them was 1,062,240 acres, and the corresponding figure for 1962-63, was 1,204,700 acres, representing 60 per cent of the net sown area.

Wells.—Next in importance to canals are percolation wells as a source of irrigation. They are to be found in the *bet* area, and to a less extent in the lower *rohi* and the north-eastern corner of the upper *rohi.* The water-table in the south and south-west of the District is much too low to tap for irrigation.

The net area under well-irrigation increased from 143,659 acres during 1898—1903 to 240,218 acres during 1938—43. Thereafter, the use of wells gradually declined, due to extension of canals and heavy rains during recent years, so that the area irrigated in this manner was only 149,960 acres during 1958—63.

Jhallars and *dhenklis* are utilised here and there chiefly in the *bet* area. Tanks as a means of irrigation do not feature in the District.

Crops irrigated.—There has been a steady increase in the area of irrigated crops in the District during the last sixty years. There was some recession in the years following Partition but it soon looked up again. The total irrigated cropped area was 1,315,691 acres in 1942-43. In 1948-49 it declined to 1,185,617 acres. In 1958-59, it rose to 1,646,506 acres. The two subsequent years have shown a little decline, due primarily to the transfer of Nathana Sub-Tahsil from Ferozepur to Bhatinda District.

Crops share in irrigation variously. Rice and sugar-cane are entirely irrigated crops and so is *jowar* in this District since it is sown exclusively for fodder. Very little of cotton and maize are sown *barani.* More than half the area under wheat and *bajra* receives irrigation, but gram and barley are preponderantly *barani.* Some 60 per cent of crop area is devoted to foodgrains, a major portion of which is under wheat and gram. Among non-food crops cotton is the most important : 27 per cent of the cotton area in the State is in Ferozepur.

MAIN CROPS

As elsewhere in the State, there are two main harvests : *rabi* (*hari*), and *kharif* (*sawani*). The *rabi* or spring harvest consists principally of wheat, gram, barley and some fodder crops. It is sown in October-November and harvested from mid-March to mid-May. The *kharif* or autumn harvest consists of rice, maize, *jowar, bajra,* most pulses, sugar-cane and cotton. These crops are sown in June—August and reaped from early September to late December. Sugar-cane and cotton are sown a little earlier. Some crops come in between these two harvests . For example, *toria* matures late in December and is classed as *zaid* (extra) *kharif.* Similarly tobacco and melons are harvested late in June and styled as *zaid* (extra) *rabi.*

As between the two main harvests, the area devoted to *rabi* crops is a little more than to *kharif* crops in the District. This preponderance of the *rabi* over the *kharif* is due to extension of canal irrigation. In Districts where farmers were entirely at the mercy of rains, *kharif* is the major harvest since rains for the most part are restricted to the monsoon months.

*Page 62

Wheat.—Wheat "the golden grain" is the most important among food crops, and is the staple diet of the people. Its cultivation is keeping pace with the growing irrigation. During the five years 1948—53, the acreage devoted to wheat averaged 545,588 out of the total cropped area of 2,039,517. These figures increased to 765,082 and 2,410,655 in the quinquennium 1958—63.

The production of wheat in 1960-61 was estimated at 362 thousand tons which was the highest quantity for any District in Punjab. The yield per acre at 1,107 lbs. is, however, modest as compared with some other Districts and much below what some other countries produce.

Rice.—Next to wheat, rice occupies the largest area among the cereals. Its cultivation is also looking up with the spread of irrigation and heavy rains in recent years. The area devoted to it advanced from 56,187 acres during 1948—53 to 89,770 during the quinquennium 1958—63, registering a rise of 59.8 per cent. The water-logged areas are better suited for rice cultivation, and Zira, Ferozepur and parts of Fazilka Tahsils, which are the worst affected by water-logging have shown rapid increase in rice acreage.

The rice crop of the District was estimated at 58 thousand tons in 1960-61. Ferozepur does not occupy a prominent position in rice cultivation in which Karnal leads other Districts.

Other cereals.—The water-requirement of barley is less than of wheat, and in *barani* areas in the south of the District it is sown fairly extensively. Its acreage in 1960-61 was 52 thousands.

Bajra is cultivated mostly in Muktsar and Fazilka Tahsils, but with the spread of canal irrigation its acreage had declined. In 1950-51, it occupied 119 thousand acres in the District and in 1960-61, 56 thousand acres.

Jowar is not so popular and in most years it is sown on 3 or 4 thousand acres.

The cultivation of maize has, however, gone up from 21 thousand acres in 1950-51 to 62 thousand acres in 1960-61. It does well on irrigated lands, chiefly in Moga Tahsil which is towards the Central Punjab and is a common food of the people in winter.

Pulses.—The pulses grown in the District are gram, *mung, mash, moth* and *massar.* The most important of them all is gram. The area under pulses in the District is next only to wheat : 506,279 acres during 1958—63.

Fruites and vegetables.—Some 20,000 acres in the District are devoted to vegetables and fruits. Some fine orchards have been laid in recent years. Among vegetables potatoes and onions are the most common which have a State-wide market.

Sugar-cane.—Sugar-cane is not an important crop in the District and some 15 thousand acres of land is devoted to it. It is grown mostly in the *bet* area and other moist lands. There is no sugar mill in or near the District, so the cane produced is converted into *gur.*

Condiments and spices.—Chillies is another cash crop, raised for the most part in Ferozepur and Zira Tahsils.

Oil-seeds.—Among oil-seeds, rape and mustard are the most important, occupying some 58 thousand acres chiefly in Muktsar and Fazilka Tahsils.

Cotton.—Ferozepur is, however, associated with the cultivation of cotton, chiefly of long staple and known in local parlance as *American kapas.* The soil and climate of the District are suited for this crop and its cultivation received great encouragement after Partition when the country suddenly became deficit in it. The area sown with cotton in the District rose from 177,156 acres during 1948—53 to 394,386 acres during 1958—63. The figures for 1962-63 are given below.

	Ferozepur District	Punjab
Area (thousand acres)—		
Desi Cotton	129	799
American Cotton	265	661
Production (thousand bales)—		
Desi Cotton	83	512
American Cotton	185	424

CROPPING PATTERN

Three systems of cropping are in vogue : *dofasli harsala, dofasli dosala* and *ekfasli harsala. Dofasli harsala* is double cropping, without allowing fallow. It usually takes the form of maize in *kharif* followed by wheat, gram or fodder in *rabi.* If the *kharif* be cotton, it is followed by *senji* or *methra* in *rabi.* This rotation is most common in irrigated areas. On some wells near the towns, sometimes three crops of vegetables or fodders are raised in a year.

The *dofasli dosala* system consists in taking two successive crops of *rabi* and *kharif* and then letting the land fallow for a full year. This system is practised on lands irrigated by canals and also on firmer *barani* lands, but it is not popular and is frequently upset by failure of rains.

The *ekfasli harsala* means one crop in a year, which is mostly the *rabi*. This practice is in vogue in *barani* areas. If the soil is pure sand, the crop grown is gram. If good soil lies under the sand, a mixture of wheat and gram is grown year after year. The *sailab* lands flooded by rivers, as a rule, grow *rabi*, usually wheat, year after year, though at places *mash* may be grown in *kharif*.

Crop-mixtures.—Growing of mixed crops is quite familiar particularly in *barani* tracts. Gram and wheat are sown mixed to provide against uncertainty of weather: if the rains favour, wheat comes up better, but should the rains not favour, then at least gram may be expected to bear a yield. A sprinkling of *sarson* is given in whea' fields; *sarson* thus sown is removed early for fodder and wheat is allowed to grow in full strength. Melons are sown with cotton and removed before cotton plants shade the ground. It is a common practice to grow pulses which are short crops along with *kharif* cereals, *e.g.*, maize and *mash*, *jowar* and *gowara*, *bajra* and *mung*, barley and *massar*.

Mechanised cultivation.—The farmers of the District are generally progressive. Mechanical cultivation has taken a firm foothold. In 1961 the District had 1,378 tractors out of a total number of 7,866 in Punjab. In 1961, 186 new tractors were registered in the District and 276 in 1962.

In 1961, the District had 94,954 iron ploughs against the State total of 478,122. Despite the dense network of canals the farmers have installed 1,806 oil engines with pumping sets, out of a total of 8,156 in the State in 1961, and 946 electric pumps for tube-wells out of a total of 8,784 in the State.

LIVESTOCK (TABLE 12)*

The farmers are equally good at animal husbandry and take pride in their animals. The District has a fairly large number of *Sahiwal* cows and *Nili* buffaloes. Both these breeds are known for heavy milk yield and long lactation period. However, they are being sold to Bombay and Calcutta in such large numbers that anxiety is sometimes expressed about the depletion of the basic stock. Partition brought a slump in this trade but it was a temporary phase and the post-Independence era with its ambitious schemes of improving animal husbandry under the Five-Year Plans did not take long to bring back the District a place of pride. At places the number of cattle has gone down, because of reduced grazing facilities in the face of extending cultivation. Recourse is now had increasingly to stall-feeding.

Table 12* shows the number of animals in the District counted on eight occasions between 1920 and 1961.

Cattle.—There was a mild decline in the number of cattle between 1920 and 1940 and thereafter there has been an increase. There appears to be a more constancy among bullocks, which are needed for cultivation. The cow cannot compete with the buffalo in butter-fat production, but excells in the supply of milk at a lower cost, and has the advantage of both its male and female offsprings being of value as compared to male buffaloes not finding favour for cultivation work.

The number of breeding bulls increased from 715 in 1951 to 981 in 1961. Most of them are of *Hariana* breed supplied by the Government Livestock Farm, Hissar. The 'Hariana' is a dual purpose animal, for draught and milk. The *Sahiwal* is, however, essentially a dairy animal. In the areas catering for liquid milk, it would be advantageous to have *Sahiwal* bulls. The present proportion of one bull to 130 cows seems to be high and should be a strain on the health of the bulls. If, however, the scheme of artificial insemination becomes popular, even the present number might be more than necessary.

Buffaloes.—The buffalo, because of its richer milk, finds favour with the Punjab farmer, since he can then have ample *lassi*, and butter. Besides the buffalo stands stall-feeding better than the cow. The number of buffaloes has, therefore, shown a steady increase ; it almost doubled between 1920 (238,969) and 1961 (401,648). The male buffalo is a poor worker because of its being sluggish and sensitive to sun.

Horses, Ponies and Mules.—With the introduction of speedier modes of travel, the equine population has been dwindling, the more so between 1956 and 1961 from 12,275 to 5,890. Some mules are bred in the Tahsils of Ferozepur and Fazilka, by the Remount Department.

Donkeys.—Donkey is also becoming an unwanted animal. Their number at 10,286 in 1961 was almost half of what was in 1945. Besides carrying load on their back, donkeys are yoked to small carts in towns in this District.

Sheep and Goats.—Besides the hilly tracts, sheep are found in substantial number in a sixty-mile belt along the Rajasthan border. Ferozepur has been one of the best sheep-breeding Districts in Punjab. The wool

*Page 69

produced is of coarse quality, known in the trade as 'carpet wool'. Sheep-breeding received a set-back after Partition, because the Muslim *ods*, who had sheep-breeding as their traditional occupation, migrated to Pakistan. The livestock census of 1951 recorded the lowest number of sheep (82,806) since 1920. Their number was the highest 1940 (311,909). During the last ten years they have shown great variations for reasons not easily known. Sheep-breeding is, however, receiving attention in the development programmes and some sheep extension centres have been established for providing facilities, including the service of pedigree rams.

If the goat does not give wool as is done by the sheep, the goat supplies milk for human consumption, and goat meat is relished better. Goats are kept in large numbers throughout the District, either along with the sheep or as separate flocks.

Their number at 105,176 in 1961 is the lowest so far recorded, for reasons not readily known.

Camels.—The camel occupies an important position in the rural economy of dry and sandy areas, for transport and ploughing. Camel is a rough forager and would subsist on any shrub and can stand any amount of heat and drought. In 1961 there were 27,792 camels in the District mostly in Fazilka Tahsil, against 40,634 in 1956. In camels the District ranks next to Hissar (72,054) and Bhatinda (31,418).

Cattle fairs.—The District Board and the Municipal Committees of Muktsar and Abohar arrange animal fairs at regular intervals. Apart from providing marketing facilities to the farmers and encouragement to the breeders, these fairs bring handsome income to the authorities concerned. The more important fairs are held at Muktsar, Abohar, Moga and Chirak. The fairs at Abohar and Muktsar are noted for camels and livestock generally ; horses are a feature of the Muktsar fair. Moga and Chirak attract mostly buffaloes and cows.

Livestock diseases.—The District is healthy and livestock diseases are not common except in the *bet* area where seasonal inundation bring *gal ghotu* (Halmorhagic septicaemia) and *phar sujan* (Black quarter). Foot and mouth disease also appears at times as an epidemic. Goiter and liver-rot are common among sheep and goats, and surra among the equines and camels.

The District is fairly well served by the present 25 veterinary hospitals, and 14 permanent outlying dispensaries and other centres.

B—INDUSTRIES

The pre-eminence of Ferozepur District lies in agriculture. The genius of its people did not go towards industries before Independence. And after Independence it became a border District, with the usual handicaps. With the passage of time, the people have, however, begun to respond to industry.

Prior to the First Plan, the number of industrial units in the District was estimated at 925 ; it rose to 1,456 by the end of the First Plan, and to 2,195 units during the Second Plan. These units are mostly of cottage and small scale industries. Moga and Abohar are considered securer for capital investment than the towns nearer the border.

The District abounds in cotton, wheat, rice, pulses, and oil-seeds, and most of the industries in the District are agro-based, *e.g.*, cotton ginning and pressing, cotton spinning, cotton weaving, flour milling, rice husking, *dal* making, oil-seed crushing, snuff manufacture, tanning and shoe-making. The *sarkanda* growing along the river bank is made into *ban, moorah, sirki.* Wool is cleaned and pressed at Fazilka, and saltpetre is refined at a few places. Manufacture of agricultural implements is common in the towns. A glance at Tables 14* and 15† will show that industry in the District is expanding and becoming more diversified. The more important industries of the District are described below.

LARGE SCALE INDUSTRIES

Cotton spinning.—Of the two units in this line, one is the Shri Bhiwani Cotton Mills at Abohar. It has an installed capacity of 25,000 spindles and gives employment to some 1,200 workers. In 1960-61, it produced 87 lakh lbs. of yarn. The other unit, known as the Suraj Textile Mills, is located at Malout. It has 12,000 spindles, and gives employment to 575 persons.

Dairy products.—One large scale unit of dairy products under the name of Messrs Food Specialists at Moga, with Swiss collaboration, went in operation in 1962. What a blessing this concern is for the small farmers is the fact that it secures its daily requirements of 13,000 kgs. of milk from some 3,000 suppliers scattered in 93 villages by sending out its own vans. It manufactures condensed milk and some other products based on milk.

Enamel wares.—The India Enamel Works, Ferozepur was established in 1940 by a Japan-trained Indian. With a capital investment of Rs. 75,000 it produces goods worth about Rs. 350,000 in a year.

*Pages 71 and 72 †Pages 74 and 75

Roller flour milling.—The Sutlej Flour Mills, at Ferozepur City, is the only unit in the line. It has a milling capacity of 34,000 tons a year. In 1961, it employed some one hundred persons and milled 7,045 tons of wheat.

MEDIUM AND SMALL SCALE INDUSTRIES

Cotton ginning and pressing.—Cotton ginning and pressing is the most extensive industry of the District, which produces some 270,000 bales of cotton. At Abohar, Fazilka, Malout, Giddarbaha, Muktsar and Moga, in 1951, there were 28 such factories ; by 1956 they increased to 43 ; and in 1960 they were 45, giving employment to 2,235 workers during the season. According to a survey conducted by the Industries Department in 1955-56, cotton worth Rs. 10 crores was ginned and pressed with the help of the machinery costing Rs. 38 lacs.

Rice husking.—With the heavy production of paddy in the District which is steadily increasing, there are a number of rice husking units in the District. The 1956 Industrial Survey referred to above put their number at 12 registered and 66 unregistered concerns, producing rice worth Rs. 4,949,000 during 1954-55.

Breakfast food.—The Wheato Laboratory, Ferozepur, is the only factory of its kind in Punjab, started in 1937, with a capital investment of Rs. 70,000. From wheat and barley, the factory manufacture *dalia*, 'Wheatine', and corn-flakes.

Khandsari manufacture.—Six concerns have been established in recent years for the manufacture of *khandsari* at Zira, Guruharsahai, Fazilka and Makhu.

Wool cleaning and pressing.—This was a flourishing industry before Partition, localised at Fazilka, the most important market for coarse varieties of wool in Asia. As a result of Partition, the chief wool producing areas feeding the Fazilka market went to Pakistan and the production of wool arrivals declined abruptly from 45,000 bales to some 7,000 bales in recent years. Another reason for the decline in the importance of Fazilka is the shift of trade to Bikaner and Panipat markets.

Saltpetre refining.—There is only one refinery working at Ferozepur and that too in a poor way, since saltpetre bearing lands which yielded the crude material lie in Pakistan.

Snuff manufacture.—Giddarbaha has made a name for the manufacture of good quality snuff. Before Partition there was only one such unit here, but now they are about a dozen in number. The tobacco required for the product is brought almost entirely from Shahjahanpur in U.P.

Dhoop making.—Another five concerns in Ferozepur town produce *dhoop* and similar incenses. The products are sold throughout the country and also exported abroad.

Handloom weaving.—Handloom weaving is an important cottage industry both in the urban and rural areas, and is doing well when organised on co-operative lines. The articles produced are *khes, khaddar* and *dhoti.*

Agricultural implements.—Some goldsmiths from West Pakistan on migration took to manufacturing hand agricultural implements at Fazilka, organising themselves as industrial co-operative. Similar workmen are scattered in some other towns.

Engineering industry.—Four registered and 25 unregistered units are engaged in the manufacture of oil-engines, oil-engine parts, and machines for carding cotton. They also manufacture tractor parts and tractor trollies. A very recent activity at Moga is the manufacture of wheat thrashers and winnowers, operated on electricity or mineral oil. Some ten concerns are engaged in this line, producing some 500 machines in a year, and sold variously between Rs. 1,500 and Rs. 3,000 each.

Other small scale and cottage industries.—Radio assembling units, one each at Ferozepur Cantt., Moga and Malout find a good market locally for their products. Two units manufacturing and assembling sewing machines parts are established in Ferozepur Cantt. and Ferozepur town.

There is only one registered hosiery factory in the District at Moga. Armatures, commutators, dynamos and automobile parts are also manufactured at Ferozepur. Two units at Moga manufacture Sodium Silicate which is used in soap making. One concern at Ferozepur makes optical goods. Band-saw blades, battery chargers and welding transformers are made in a small way at Moga.

Ban, rope, *moorah, sirki* and basket making are important cottage industries giving employment to hundreds of families at Fazilka, Ferozepur, Jalalabad, Dharamkot and Mamdot.

Tanning received a set-back from Partition, since the Muslim traders and workers migrated. Besides, green hides which produce best leather, are not to be had now since cows are not slaughtered. The industry is,

however, reviving and is centred at Ferozepur, Fazilka, Muktsar, Malout, Moga and Abohar. Country shoes with gold work and other leather goods are prepared at Muktsar, Fazilka and Giddarbaha. A manufacturer at Abohar produces chrome-washer for cotton ginning and pressing machines and hold-alls, bags and attache-cases.

Mention might as well be made here of *phulkaris* made chiefly in villages by women-folk. Moga Tahsil was once famous for its *phulkaris,* and the silk embroidery was liked for the designs and colours. The great labour involved in the work which was poorly rewarded, and the high price of silk, have dissuaded girls and women from making *phulkaris* now.

STATE AID TO INDUSTRIES

Government is taking effective measures for the development of industries. It granted loans amounting to Rs. 193,250 to 100 parties during the First Plan and Rs. 636,650 to 428 parties during the Second Plan period. Controlled commodities and imported raw materials are distributed among the concerns according to their requirements. There are two industrial schools at Ferozepur, one for boys and the other for girls, where training is imparted to 320 students in sheet metal work, smithy, welding, machining, fitters' work, carpentry, surveying, draftsmanship, tailoring, embroidery and needle work. A sheet metal training centre for the benefit of Backward and Scheduled Castes is located at Moga. Ten demonstration parties and eighteen women home-crafts training centres are working in the rural areas for training in different crafts. Two Industrial Training Institutes, one at Moga and the other at Fazilka, are also being opened for the same purpose.

Industrial estates.—Two Industrial Estates, one at Ferozepur with twenty sheds and the other at Sarai Naga with ten sheds, with a development and training centre at Sarai Naga, are being set up at a cost of Rs. 4 lakhs and 3 lakhs, respectively. A Rural Industrial Estate on the pattern of the Sarai Naga Industrial Estate is also being set up at the village Dhudike, the birth place of late Lala Lajpat Rai. Two Industrial Colonies, one at Moga and the other at Abohar, are being set up by industrialists themselves, with assistance from Government. A similar Industrial Development Colony is being set up by Government at Ferozepur.

Employers and industrial labour.—There are four Manufacturers' Associations in the District to advance their common interests.

(1) The Cotton Ginning and Pressing Factory Owners Association, Abohar.
(2) The District Ferozepur Engineering Association, Ferozepur.
(3) The Soap-makers' Association, Moga.
(4) The Moga Industrial Society.

There are thirty registered Trade Unions in the District which seem to be working harmoniously. The industrial labour in the District is drawn mostly from neighbouring villages where they return after work.

The prevailing rates of wages are noted below.

Skilled (Grade I) Rs. 150 to 200 per mensem approximately.
Skilled (Grade II) Rs. 100 to 150 per mensem approximately.
Semi-skilled (Grade I) Rs. 80 per mensem approximately.
Semi-skilled (Grade II) Rs. 70 per mensem approximately.
Unskilled labour Rs. 45 to 60 per mensem or Rs. 1.75 to Rs. 2 per day.

C—TRADE AND COMMERCE

Transport facilities have developed to an extent that perishable commodities like tomatoes from a far-flung place like Fazilka are marketed at Delhi after covering some 300 miles. Ferozepur is surplus in nearly all types of agricultural produce which are mostly exported. The District has 12 regulated markets listed below.

	Market	Important commodities sent out
1.	Ferozepur	Wheat, paddy, gram, barley
2.	Guruharsahai	Paddy, wheat, chillies
3.	Jalalabad	Paddy, wheat
4.	Fazilka	Wheat, cotton, paddy, gram, potatoes, wool
5.	Abohar	Cotton, wheat, gram, barley, potatoes, onions
6.	Malout	Cotton, wheat, gram
7.	Giddarbaha	Cotton, wheat, gram, *sarson*
8.	Muktsar	Wheat, cotton, gram
9.	Talwandi Bhai	Wheat, gram, *sarson, bajra*
10.	Moga	Wheat, paddy, cotton, *sarson*, maize, gram, *bajra gur*, potatoes, onions
11.	Zira	Paddy, wheat
12.	Makhu	Paddy, wheat

Cotton, cotton-seed, cotton yarn, wheat, wheat flour, barley, gram and other foodgrains, *sarson*, bones, hides, skins, and wool are the main exports of the District.

The principal imports into the District are salt, sugar, coal, gunny bags, kerosene oil, cloth, iron and machinery.

D—COMMUNICATIONS

The District is fairly well served with roads, and better still with railways. Therefore, leaving a few areas, transport position is very easy, and the same holds good about postal and telegraph facilities.

Railways.—The District lies within the Ferozepur Division of the Northern Railway. Ferozepur Cantt. is the headquarters of the Divisional Superintendent and is an important railway junction. It is connected with Ludhiana in the east, Jullundur in the north-east, Fazilka in the south-west and Bhatinda in the south-east through broad-gauge lines.

There are four sections of railway lines. The Ferozepur-Ludhiana line passes through Ferozepur and Moga Tahsils. The Ferozepur-Jullundur line runs along the north-east of Ferozepur and Zira Tahsils, crossing the Sutlej by a bridge over Hari-ke-pattan. The Ferozepur-Fazilka line runs in south-westernly direction, serving Ferozepur, Muktsar, and Fazilka Tahsils. The Ferozepur-Bhatinda line has only a small strip in this District. Yet another line from Bhatinda to Hindumalkot crosses the southern regions of Muktsar and Fazilka Tahsils. All these lines are of broad-gauge. A metre-gauge line connects Fazilka with Bhatinda through Muktsar and Kot Kapura. And the metre-gauge, Bhatinda-Hanumangarh line, also touches the southern corner of Fazilka Tahsil. There are 49 railway stations in the District, as listed in Table 36*.

Roads (Table 34†).—The post-Partition period has seen a considerable expansion in road construction, as the following figures show:—

Year	Road Mileage		
	Total	Metalled	Unmetalled
1950-51	855	290	565
1960-61	978	556	422

There are only two Districts in Punjab which have a longer road length than Ferozepur ; these are Kangra (1,483) and Hissar (1,416), and the only District with a longer mileage of metalled roads is Hissar (730). However, if road mileage is considered in terms of the area and population, Ferozepur does not enjoy a distinctive position.

Roads are maintained by the State Public Works Department, the District Board, Municipal Committees and the Cantonment Board. Most of the roads in the District are maintained by the Public Works Department, and they include the National Highways, the State Highways, and the District Major and Minor roads.

The Delhi-Hissar-Sulemanki National Highway has a strip of 69 miles in the District, on which fall Fazilka, Abohar and Malout, which are important markets for agricultural produce.

The various State Highways pass through Moga, Harike, and Khalra ; Malout, Bhatinda and Barnala ; Moga , Kot Kapura, Muktsar and Malout ; Abohar and Suratgarh ; Harike, Makhu, Zira, Ferozepur and Fazilka ; and the Ludhiana-Ferozepur border road.

The more important District Major and Minor Roads are the Muktsar-Jalalabad Road, Malout-Fazilka Road, Muktsar-Ferozepur Road, Zira-Dharamkot Road, Abohar-Sitoguno-Dabwali Road, Muktsar-Bhatinda Road, Lambi-Giddarbaha Road, and Khai-Mamdot Road. Besides there are several links connecting towns and villages with the bigger roads.

Road Transport.—The number of motor transport vehicles of all types registered in the District showed a phenomenal increase from 1,283 in 1951 to 4,458 in 1960. The biggest increase was registered by motor-cycles, public and private carriers and tractors, whose respective figures were 176, 157, 151 for 1951; and 429, 518, 2,459 for 1960.

Waterways and Airways.—There is no waterway in the District, nor any regular air-service.

*Page 91 †Pages 87 and 88

Post and Telegraph (Table 35*).—The District has a net-work of post offices and telegraph offices. The number of post offices as on the 31st March, 1961, was :

Tahsil Fazilka	75
Tahsil Ferozepur	33
Tahsil Zira	32
Tahsil Moga	87
Tahsil Muktsar	72
Total	**299**

The total number of the inhabited villages in the District according to the 1961-census was 1,426. This means that on an average there was a post office for every five villages, serving some 13 sq. miles.

*Pages 89 and 90.

CHAPTER III

POPULATION

The Part III of this book contains Tables relating to the 1961-census. These Tables are preceded by an exhaustive note explaining their arrangement, and the terms used. Only the broad facts thrown up by these statistics are stated below.

Area.—The Ferozepur District covering 3,888 sq. miles is composed of five Tahsils. Fazilka and Muktsar Tahsils have between themselves more than half the area of the District, with 1,049 and 1,004 sq. miles, respectively. The other three Tahsils are comparatively small units : Ferozepur (689 sq. miles) , Moga (651 sq. miles) and Zira (495 sq. miles) (Table A-1*).

During 1951—61 the District lost an area of 191 sq. miles. A strip of 11 sq. miles was made over to Pakistan and the Nathana Sub-Tahsil covering 180 sq. miles was transferred to the Bhatinda District (Appendix I to Table A-1†).

Population.—On the sunrise of the 1st March, 1961, the Ferozepur District had 1,619,116 persons. In this respect it leads all Districts in Punjab, with Hissar and Amritsar running close on its heels (1,540,508 and 1,534,916, respectively).

Growth of Population.—The area now constituted as Ferozepur District had 926,126 persons in 1901. During the next sixty years (1901—61) the population increased by 74.8 per cent. The population of Punjab as at present constituted similarly increased from 13,265,860 in 1901 to 20,306,812 in 1961, denoting an increase of 53.1 per cent. The higher increase in the District can be attributed to its fertile soil permitting more persons to work on agriculture.

The rates of decennial increase since 1901 are placed side by side for Ferozepur and Punjab. It will be noticed that in four out of six decades the increase was faster in Ferozepur than in the State as a whole.

Decade	Percentage decade variations	
	Ferozepur	Punjab
1901—11	(+) 0.45	(—) 9.96
1911—21	(+) 14.19	(+) 4.35
1921—31	(+) 5.22	(+) 9.64
1931—41	(+) 23.03	(+) 17.81
1941—51	(—) 7.27	(+) 0.21
1951—61	(+) 26.97	(+) 25.86

The period of ten years 1901—11 was marked by severe ravages of plague and malaria which took a heavy toll of population. During 1911—21 occurred the great influenza epidemic, but Ferozepur does not seem to have been affected by it. The decade 1921—31 was generally healthy, but Ferozepur had several epidemics of plague and cholera. The population expanded fast during 1931—41. The decade 1941—51 bore the holocaust of unprecedented communal trouble and mass migration in the wake of Partition ; the Muslim population migrated to Pakistan but most of the non-Muslim in migrants did not favour to settle in Ferozepur because of its proximity to the border. For the same reason the population of Amritsar, the adjoining border District, declined by 15.67 per cent as between 1941 and 1951. The years 1951—61 were free from disease and the health measures taken by Government considerably reduced the death rate while the birth rate remained almost unchanged. The high rate of population growth is a matter of great concern and should this rate persist, it will lead the country to most difficult problems.

Density of Population.—Punjab has on an average 429 persons to a square mile, with Jullundur District as the most thickly populated (914) and Lahaul and Spiti as the sparsest (6). The number of persons per square mile in Ferozepur works out to 416 and in this respect it ranks fourteenth among 19 Districts in the State. Among the Districts with thinner population are two Districts in the hills, and another two bordering on the Rajasthan desert. The reasons for the thin population in Ferozepur are not far to seek. The Southern Tahsils of

*Page 158. †Page 160.

Fazilka and Muktsar partake of the nature of a desert, with sandy soil and scanty rainfall, and wherever these disadvantages are not offset by irrigation, agriculture is a gamble with rains and consequently population is scarce. These Tahsils support only 367 and 378 persons, respectively, on a square mile. Then the *bet* area along the Sutlej suffers from inundation during the monsoon aggravated by the shifting course of the river. The area where canal irrigation has been provided, has developed at places water-logging and unhealthy conditions. Another factor contributing for fewer people is the area touching the Pakistan border where atmosphere is not uniformly peaceful. Zira is the worst affected in this respect and its population is 366 per square mile. Ferozepur Tahsil also suffers from these drawbacks in its western portion, but because of the location in it of the Ferozepur Town and Cantt. the density works out to 453. Further east, the Moga Tahsil has 556 persons to a square mile; land here is productive, irrigation facilities are excellent and its distance from the border has attracted industry and population.

Villages.—There is a bigger gap in the density of human population as between rural and urban areas in the Ferozepur District than in Punjab as a whole. The mean density in Punjab is 429 persons per square mile; 346 in rural areas and 9,476 in urban areas. The corresponding figures for Ferozepur District are 416, 335 and 13,024, respectively. As between the five Tahsils, Fazilka has the lowest rural density (287) owing to its riverain tract, adjacency to border and waterlogging. This figure is as high as 484 in the Moga Tahsil (Table A-I*).

The District has in all 1,562 villages of which 136 are uninhabited (*be-charag*). Most of them are in the *bet* area which runs along Fazilka, Ferozepur and Zira Tahsils. In Moga and Muktsar Tahsils there are only 12 uninhabited villages. For the same reason, 254 out of 261 villages in the District with population less than 200 are located in the former three Tahsils and the villages with population above 2,000 are chiefly in the Moga and Muktsar Tahsils (Table A-III†).

The number of persons per inhabited village works out to 908 in Ferozepur District as compared to 763 for the villages in Punjab as a whole. The villages in Moga Tahsil are big units, with 1,803 persons per village and the corresponding figures for Muktsar and Fazilka Tahsils are 1,348 and 1,032, respectively. The villages in Zira Tahsil are smaller units with an average population of 530 persons and Ferozepur Tahsil has still smaller villages with an average of 491 persons.

Towns.—In (Table A-IV††) particulars are given of the 14 towns in the Ferozepur District.

There is no Class I town (population 100,000 and above) in the District. There is no individual town in Class II either (population ranging between 50,000 and 99,999). If, however, the Ferozepur Town, Ferozepur Cantt. and Tankanwali, which are contiguous, be treated as a town group, the combined population of the area comes to 97,932. During 1951—61 the town group has shown a mild increase in the population due to its proximity to the border and lack of initiative among the residents in industry or trade. Its importance is due to administrative offices and the cantonment.

Excluding the Ferozepur Town group, there are five towns with population ranging between 20,000 and 49,999: Moga, Abohar, Fazilka, Muktsar and Malout. The population of Moga which is now the biggest town of the District has risen fast from 36,598 persons in 1951 to 47,779 in 1961. This increase is primarily due to the growth of industry which has been described in detail in an earlier chapter. Abohar and Malout have gained in importance on account of their location in the prosperous cotton-growing areas. The population of Abohar shot up from 25,476 in 1951 to 46,863 in 1961. Malout appeared as a town for the first time in 1961 with a population of 20,774. The population of Fazilka increased from 25,934 in 1951 to 32,015 in 1961. This town has suffered in importance because of its coming bang on the border and its having been shorn of its wool trade. Muktsar added to its numbers from 22,097 in 1951 to 30,765 in 1961.

There is only one town, Giddarbaha in Class IV (10,000 to 19,999) which has made fast progress from 7,421 to 17,364. Besides its location in the cotton belt, it has made a name as a centre for producing snuff.

Among Class V towns (5,000 to 9,999) there are three: Zira, Jalalabad and Dharamkot. They are more or less stagnant towns. Dharamkot has lost in population from 6,845 to 6,443 chiefly because of Moga over-shadowing it with its better facilities for industry and trade.

Three towns in Class VI (Below 5,000) are Talwandi, Bhai, Tankanwali and Guruharsahai. Tankanwali for all practical purposes is a residential locality in Ferozepur Cantt. Talwandi Bhai is a small market almost mid-way between Moga and Ferozepur, while Guruharsahai is located mid-way between Ferozepur and Jalalabad.

The towns in Ferozepur District are generally congested, there being 13,024 persons per square mile as against 9,476, the average for all the Punjab towns. But for Ferozepur Cantt. and Abohar which have spacious open places the concentration of population would work out to a still heavier figure. Two towns of Zira Tahsil have 37,336 persons per square mile and the three towns in Muktsar Tahsil have 32,968.

In the District 79.9 per cent of the total population lives in villages and 20.1 per cent in towns, by coincidence exactly the same proportion as works out for the State as a whole.

*Page 158. †Page 167. ††Page 168.

Sex Ratio.—Out of a total population of 1,619,116 of the District 742,743 are females and 876,373 males, *i.e.*, a ratio of 45.9: 54.1.

In Punjab, there are 864 females per thousand males which is the lowest figure among the States in India; the corresponding figure for the Indian Union is 941. Curiously there is a belt stretching west to east, comprising Ferozepur, Bhatinda, Sangrur, Patiala, Ambala and Simla Districts where the sex ratio is conspicuously lower than the State average, and the number of women per thousand men declines gradually from west to east: it is 848 for Ferozepur, 837 for Bhatinda, 840 for Sangrur, 830 for Patiala, 812 for Ambala and 731 for Simla.

During the last fifty years there has been an improvement in favour of women as the following figures show:—

FEMALES PER THOUSAND MALES

Year	Ferozepur District	Punjab
1911	781	807
1921	800	821
1931	817	830
1941	821	850
1951	850	858
1961	848	864

Among the five Tahsils, Fazilka leads with 866 females per thousand males, followed by Moga (861), Zira (853), Muktsar (846) and Ferozepur (808).

The sex ratio for rural areas of the District works out to 858 and for urban areas 809: the corresponding figures in 1951 were 864 and 786, respectively. The mild decrease in sex ratio in villages and the big increase in towns during the decade does not lend to an easy explanation.

Age Composition—In Table C-II* the 1961 population of the District is distributed into various age groups. With a view to comprehending the comparative strength of these groups, a Table is placed below in which totals have uniformly been taken as 1,000:—

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age group	Total Population			Rural		Urban	
	Persons	Males	Females	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	313.62	305.87	322.76	314.12	325.32	273.88	312.24
10—14	119.91	120.31	119.44	121.90	118.76	114.14	122.27
15—19	91.11	92.10	89.93	91.63	88.87	93.94	94.26
20—24	84.81	83.97	85.79	78.48	83.14	105.25	96.72
25—29	76.91	76.46	77.45	72.91	76.54	90.22	81.20
30—34	61.88	61.87	61.90	59.26	61.37	72.00	64.07
35—39	46.00	45.59	46.47	43.46	45.93	53.87	48.71
40—44	47.32	47.11	47.57	46.31	47.56	50.19	47.58
45—49	35.37	35.85	34.81	35.60	35.10	36.82	33.62
50—54	38.96	41.69	35.75	42.86	36.29	37.15	33.53
55—59	18.30	18.89	17.61	19.01	17.88	18.42	16.47
60—64	27.84	29.94	25.36	31.38	26.12	24.35	22.24
65—69	10.33	11.32	9.15	11.70	9.39	9.85	8.18
70+	27.17	28.65	25.42	31.11	27.17	19.15	18.21
Age not stated	0.47	0.38	0.59	0.27	0.56	0.77	0.70

*Page. 244

Too much reliance cannot be placed on the inferences to be drawn from the figures given in the above Table since a District is a small geographical area and the inflow and outflow of population as a disturbing factor cannot be ignored. With this reservation some inferences are mentioned below.

The age pyramid has a broad base and tapers rather obliquely: 314 persons per thousand of the population are below the age of 10 and only 84 of age 55 years and above. Roughly speaking, four out of every ten persons are below the age of 15, five in the groups 15 years to below 55, and only one past the age of 55.

Males below the age of 15 years are 426 per thousand males : corresponding figure for females is 442. In ages between 15 and below 55 years the males count 485 per thousand males but the women are 480. In ages 55 years and above the males are 89 and females are only 78. The girls in rural areas unfortunately still do not receive the same care as the boys, and after the marriage they have the extra handicap of maternity troubles and stress of domestic life.

It is a daily observation that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their village homes and live in the towns by themselves. When past the age of useful work some among them return to their villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to below 55, and 55 and above, the distribution among males is 436, 471 and 93, per thousand males in the rural areas, and 388, 539 and 73 in urban areas. The corresponding figures for females in rural areas are 444, 475 and 81, and for urban areas 434, 500 and 66.

In Table C-II* persons in different age groups are further classified according to their marital status. To comprehend the significance of these figures one thousand males and one thousand females for the District as a whole and for rural and urban are distributed according to their marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	TOTAL		RURAL		URBAN	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never married	586.51	510.60	593.03	511.15	561.19	508.31
Married	373.96	423.61	365.85	423.60	405.40	423.67
Widowed	38.04	63.98	39.57	63.38	32.13	66.44
Divorced or separated	0.93	1.02	1.00	1.06	0.67	0.84
Unspecified status	0.56	0.79	0.55	0.81	0.61	0.74

It will be noticed that in the District as a whole some 59 per cent of males and 51 per cent of females are unmarried. The higher proportion of unmarried males is due to shortage of females, which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females than among males.

The proportion of married males is higher in towns than in villages but the proportion of married females is almost the same in rural and urban areas. This might be due to better financial position among town people so that fewer persons have to defer marriage because of lack of means.

Marriage in this country is universal, and there is always an explanation for an old bachelor or spinster. In the Table given on next page the unmarried males and females, numbering 513,997 and 379,241 are classified according to age, in terms of 1,000 males and females.

*Page 244.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	Never married			
	RURAL		URBAN	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0—9	529.68	636.44	488.04	614.27
10—14	203.22	224.99	201.54	233.76
15—19	136.58	108.57	149.78	123.40
20—24	62.07	25.54	98.00	23.85
25—29	22.61	1.88	28.76	1.90
30—34	11.37	0.54	9.88	0.58
35—39	5.96	0.35	4.85	0.28
40—44	6.64	0.26	4.81	0.14
45—49	4.58	0.15	3.43	0.09
50—54	5.31	0.17	3.22	0.09
55—59	2.30	0.07	1.42	0.04
60—64	3.89	0.14	3.04	0.12
65—69	1.59	0.05	0.95	0.01
70 and above	3.92	0.13	1.30	0.14
Age not stated	0.28	0.72	0.98	1.33

It will be seen that there are only 35 never married males per thousand males in villages who are past the age of 34 years, and there are only 4 spinsters per thousand females who are past the age of 24 years, in rural areas. The corresponding figures for urban areas are 24 and 5, respectively.

Literacy.—Three Tables labelled as C-III* give information on literacy by age groups, sex and in rural and urban areas of the District. The position is summarised below.

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

	FEROZEPUR DISTRICT		PUNJAB	
	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000
Illiterate	640	841	611	831
Literate	360	159	389	169
Literate without educational level	171	85	167	85
Educational level below Matriculation	144	63	166	70
Educational level Matriculation and above	45	11	56	14

Roughly speaking only one male out of three and one female out of six can at least read and write, the test adopted for literacy. Roughly half this number had had schooling, and only one male in 22 and one female in 91 had crossed the Matriculation level.

The ruralites have a considerable leeway to make up in order to come up to the stage reached by the urbanites. In the towns of Ferozepur District there are 643 per thousand males and 395 per thousand females who are literate, but in villages they are as few as 285 and 102, respectively. This feature is common throughout the State where the literacy per thousand is 654 for males and 432 for females in towns and 319 and 104, respectively, in rural areas.

*Pages 250 & 51.

Mother tongue (Table C—V*)—There is an almost bilateral distribution in the District in regard to the mother tongue: two-third of the people gave it as Punjabi and one-third as Hindi. Assamese, Malayalam and Tamil were returned by some persons in Defence Services. The figures are given below.

DISTRIBUTION OF 1000 PERSONS BY MOTHER TONGUE

Punjabi	670
Hindi	326
Urdu	1
Tamil	1
Assamese	1
Malayalam	1
Other lanugages	N

Religion (Table C-VII@).—Distribution per thousand persons in the District, according to religions, is shown below.

	Number	Per thousand
Total population	1,619,116	1,000
Sikh	936,953	579
Hindu	657,712	406
Christian	19,234	12
Muslim	3,369	2
Jain	1,746	1
Buddhist	94	N
Religion not stated	8	N

The Sikhs form 58 per cent of the total population and the Hindus some 41 per cent. The percentage of the Sikhs is substantially higher in Moga, Muktsar and Zira Tahsils, but in the Fazilka Tahsil the Hindus are in majority. In the villages the Sikhs are twice as numerous as the Hindus, but in towns they are not even one-third.

Numerically the Christians rank third in the list, found mostly in Zira and Ferozepur Tahsils. At the time of the 1941-census the Muslims in the District counted 641,448, forming 45 per cent of the population. In the wake of Partition they migrated *en bloc* to Pakistan, and at the time of the 1961-census they were some three thousand, living for the most part in the Moga Tahsil.

Place of birth.—Table D-II† throws light on migration, based on place of birth. The Table deals only with immigration and does not take into account the persons who had gone out of the District. A three-fold classification has been made in this Table in regard to the place of birth : (i) of males and females, (ii) their place of enumeration being an urban or rural area, and (iii) their place of birth being an urban or rural area. To bring out the detailed features presented in the Table will take a big space and will interest only a few readers. Hence only some broad features are mentioned below.

Out of 1,619,116 persons enumerated in the District, as many as 833,831 persons or 51.5 per cent were born at the place of enumeration. Among the rural population this percentage works out to 53.8 and in urban areas to 42.2, denoting a higher degree of mobility in towns.

Another interesting feature is the difference between the two sexes in this respect. Among males as many as 60.0 per cent were born at the place they were enumerated in as against 41.5 per cent in the case of females. The low figure for females springs from the extra factor of their leaving the ancestoral place on marriage.

Another 16.7 per cent of the population was born at another place within the District. This percentage is 10.6 in the case of males and as high as 23.9 in the case of females, due to the factor of marriage. Persons born in the Punjab Districts other than Ferozepur numbered 180,225 or 11.1 per cent of the population. Even in this group the percentage for females is higher than for males.

The Punjab-born persons formed 79.3 per cent of the District population. The remaining 20.7 per cent hailed from areas shown below:—

Place of birth	Number	Percentage to total population
Other States of India	51,684	3.2
Pakistan	277,677	17.1
Other Countries	2,557	0.2
Information not available	2,730	0.2

Persons born in other Indian States were mostly from Rajasthan (26,562), Uttar Pradesh (14,958) and Delhi (1,968). Persons from Rajasthan were counted mostly in rural areas but from the other States were enumerated mostly in towns.

*Page 251 @Page 254 †Page 256 'N' means negligible.

The Pakistan-born persons were those who migrated in the wake of Partition. The persons reported to have been born in countries other than Pakistan were mostly children of the Punjabis who in their youth went abroad and had now come back or had despatched their children home.

Scheduled Castes.—The number of Scheduled Caste persons in the District was 314,541, forming 19 per cent of the total population. Among them 172,473 were males and 142,068 females. 15 per cent of the Scheduled Caste persons lived in towns. The Mazhabis (132,143) are the most numerous among the Scheduled Castes, and next in order are Balmikis (77,420), Chamars (57,434), Bawarias (11,068), Dhanaks (9,751) and Meghs (8,581).

Households (Tables B-X to B-XVII, C-I and SCT-V)*—Out of 1,619,116 persons in the District, 1,863 were houseless, such as the members of wandering tribes, tramps, *sadhus*, and pavement dwellers. The remaining 1,617,253 persons lived in households. A household has been defined as a person or a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so.

For studying the size and other characteristics of households, a 20 per cent sample was drawn and analysed. In this sample the persons living in institutions, such as jails, orphanages, hospitals, hostels, boarding houses, Defence and Police personnel living in barracks or under canvas, were excluded since such households do not function as economic entities. The sample thus drawn was of 287,462 households consisting of 1,610,130 persons. The Tables relating to these households are B-X to B-XVII, C-1 and SCT-V*.

The average household was found to consist of 5.6 persons in this District. Households and persons are distributed below according to the size of the households.

DISTRIBUTION OF SAMPLE HOUSEHOLDS AND SAMPLE POPULATION ACCORDING TO SIZE OF HOUSEHOLDS

Size of Household	Households		Persons	
	Number	Percentage to total	Number	Percentage to total
Total	57,000	100.0	319,045	100.0
1—member	3,844	6.7	3,844	1.2
2—3 members	10,431	18.3	26,757	8.4
4—6 members	23,300	40.9	117,259	36.8
7—9 members	14,447	25.4	112,108	35.1
10 members & over	4,978	8.7	59,077	18.5

As many as 56 per cent of the households in villages were engaged in cultivation in the capacity of peasant proprietors and tenants, but excluding such households as had let out their lands in entirety or were dependent on agricultural labour. The households of peasant proprietors and tenants are distributed below according to the size of their operational holdings.

DISTRIBUTION OF 1000 HOUSEHOLDS ENGAGED IN CULTIVATION BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY

Size of operational holding	Per thousand distribution of households	
	Ferozepur	Punjab
Less than 1 acre	3.22	23.16
1.0 to 2.4 acres	41.06	95.49
2.5 to 4.9 acres	75.14	125.25
5.0 to 7.4 acres	135.54	154.63
7.5 to 9.9 acres	92.89	101.63
10.0 to 12.4 acres	135.43	130.11
12.5 to 14.9 acres	68.98	60.25
15.0 to 29.9 acres	294.84	217.47
30.0 to 49.9 acres	106.91	64.09
50.0 + acres	42.93	22.86
Unspecified	3.06	5.06

*Pages 218—240, 242 and 284

The larger size of operational holdings in the District as compared to Punjab as a whole is brought out very clearly. Small plots of less than one acre are almost negligible in the District (3 per thousand) as compared with the State (23). Only 12 per cent of the households in the District operate on 1 to 5 acres each as against 22 per cent in Punjab: On the other side, households operating on 30 acres and above account for 15 in a hundred in Ferozepur District as against 9 in the State.

Workers and Non-Workers.—In Table B-I*, the population is distributed into broad industrial categories of workers, and non-workers. The terms are explained in the note appearing before Census Tables (Part III of this book). Figures in terms of 1,000 population are given below.

DISTRIBUTION OF 1000 PERSONS BY EACH INDUSTRIAL CATEGORY

Industrial category	Ferozepur			Punjab		
	P	M	F	P	M	F
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-workers	657	448	904	650	471	858
Workers	343	552	96	350	529	142
As Cultivator	182	283	63	197	274	107
As Agricultural Labourer	45	76	9	27	44	6
In Mining, Quarrying	4	6	1	3	6	1
At Household Industry	22	32	10	27	39	13
In Manufacturing	11	19	2	17	31	2
In Construction	9	16	1	7	12	1
In Trade & Commerce	21	38	1	19	35	N*
In Transport	7	12	N*	7	13	N*
In Other Services	42	70	9	46	75	12

It will be noticed that in Ferozepur District for every 1,000 persons the number of workers is 343 and the remaining 657 persons are non-workers. Among males the workers are more than half the total number (55.2 per cent) and among females they are less than one-tenth (9.6 per cent).

Ferozepur has a smaller proportion of workers to total population than Punjab as a whole. The District has a high percentage of males as workers but considerably low proportion of female workers in comparison with the State. This peculiarity is the outcome of the cultivators considering it derogatory to let their women-folk work in the fields. Among poorer sections doing agricultural labour, the proportion of workers among females is higher than in the State.

Agriculture (peasant proprietors, tenants and agricultural labourers) absorbs 227 persons per thousand in Ferozepur as against 224 in Punjab as a whole. However, on account of the larger size of holdings the District has agricultural labourers to a larger extent. The ranks of agricultural labourers are stated to have swelled partly as a result of land legislation since Independence, inducing the owners to oust the tenants many among whom have acquiesced to work as labour.

The proportion of population working in industry (household and other type) is smaller than in Punjab, but construction and trade absorb a larger proportion, evidently owing to Public Works activities and marketing of agricultural produce.

*Page 170 *N=Negligible.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Tables 18 to 20†).—Ferozepur was formerly a backward District educationally, but it has made up a good deal of leeway. Its present literacy at 22.6 per cent is close to the State figure of 24.2 . Since Independence many new schools have been opened and quite a few have been up-graded. The following figures show the pace of progress :—

	Schools		Scholars	
	Boys	Girls	Boys	Girls
1947-48				
Primary Schools	263	94*	13,833	7,452
Middle Schools	83	6	7,682	1,660
High Schools	23	6	11,053	1,899
Total	**369**	**106**	**32,568**	**11,011**
1960-61				
Primary Schools	861	269	59,264	14,513
Middle Schools	88	37	15,419	5,557
High Schools	55	22	20,011	13,533
Higher Secondary Schools	16	1	14,518	676
Total	**1,020**	**329**	**109,212**	**34,279**

The school-going boys are 46 per cent of the male population past five years and below 15 years in age, but the girl students are only 17 per cent of females in this age group. The schools are fairly well spread among the Tahsils though girls' schools are comparatively few in Zira and Muktsar.

Tahsil	Boys' Schools	Girls' Schools
Fazilka	257	64
Ferozepur	197	89
Zira	172	49
Moga	191	77
Muktsar	203	50
Total	**1,020**	**329**

The Scheduled Castes and the Backward Classes, mostly the Rai Sikhs and Mazhabis, inhabiting the rural areas are still not enthusiastic about education. The introduction of compulsory primary education which is free has had a salutary effect on them, and they have been given various other inducements and encouragements. Education is free up to the Middle Standard in all Government and Provincialised schools. Free books, freeships, stipends and scholarships are awarded to the students belonging to these Classes in all institutions including colleges, under the various schemes sponsored by the State and the Union Governments.

The managements and societies playing a very useful role in the educational sphere are Dev Samaj, Arya Samaj, Sanatan Dharam Sabha, the Christian Mission, Harbhagwan Memorial Trust, Ferozepur, management of the Khalsa Training College, Muktsar, and management of the Sikh Kanya Maha Vidyalaya, Ferozepur. These bodies are running a number of schools and colleges in various towns. The Sikh Kanya Maha Vidyalaya Ferozepur, was the first girls' school to be started in the District in 1883. The Arya Samaj Orphanage, Ferozepur was founded in 1878 with a school and hostel, each for boys and girls, and also maintains a home for the widows.

Basic Schools.—The number of Basic Schools was 25 (15 for boys and 10 for girls) in 1957-58 in which 1,681 scholars (828 and 853, respectively) studied. By 1959-60, the number had gone up to 35 (25 and 10, respectively) catering to 3,543 scholars (2,349 boys and 1,194 girls).

*For 1953-54. †Pages 78 to 81.

Technical Education.—The institutions imparting technical education in the District, have already been mentioned in the previous Chapter. Mention may be made here of the Arya Samaj Orphanage, Ferozepur, where instructions are imparted also in drawing, wood work, tailoring and smithy.

Colleges (Table 20*).—There were five Arts and Science colleges in 1951. During the decade three new colleges were established and one went out of existence. The number of college students in the District was, 1,858 (1,614 boys and 244 girls) in 1951, and 2,725 (2,025 boys and 700 girls) in 1960. It is heartening that girls are going in for college education in larger number.

Professional Colleges and Schools.—The District has three colleges where B.T. and B.Ed., instructions are imparted, and they had 2,161 men and 899 women as studentsin 1960-61. Besides, the Mission Training School for Village Teachers at Moga, established in 1911, claims to be the precursor for the scheme of Basic Education. For various reasons the school has been converted into an ordinary Middle School.

Other Schools.—A Home for the Blind, established at Ferozepur in 1956, runs mostly on contributions, under the patronage of the Deputy Commissioner. It provides free accommodation, food, clothing and some pocket money to the inmates and gives them training in music (vocal and instrumental), crafts (cane and bamboo works), braille, and weaving on handlooms.

There are some very good pre-primary institutions in towns which impart instructions on Montessori system, *e.g.*, D. C. Model School, Ferozepur Cantt. ; Garrison School, Ferozepur Cantt. ; Grammer School, Ferozepur Cantt.; Dev Samaj Junior Model School, Ferozepur town; Kindergarten and Nursery Classes attached to Mission Training Classes, Moga; Government Junior Model School, Abohar; and Chanan Ram Model School, Fazilka.

Mention might as well be made here of the arrangements for adult literacy. There is one Adults' Centre in the Central Jail, Ferozepur, run by the Jail authorities where prisoners are given education under regular teachers. One Social Education Centre for the benefit of the illiterate adults, especially women, has been working in the Dev Samaj College for Women, Ferozepur town, since 1956. One Adult Education Centre for Women sponsored by the Government of India has been started, in the Sikh Kanya Maha Vidyalaya, which provides two years' condensed course for women up to 35 years of age and prepares them for the Middle Standard examination with sewing, needle-work and drawing as compulsory subjects.

Cultural activities.—The Dev Samaj College for Women, Ferozepur town, has organised a Fine Arts Club and provides instruction in music, drawing and fine arts. The D. C. Model School, Ferozepur Cantt., similarly has a Fine Arts Society, and the Kalakendar Dramatic Club. The Home for the Blind, Ferozepur, has got an orchestra. The Harbhagwan Memorial Higher Secondary School, Ferozepur, runs the Tagore Kalakendar where the boys are given instructions in speeches, debates, fancy dresses, dances, action songs, etc. The Hindu Girls' Higher Secondary School, Ferozepur, has a similar club called Adarsh Dramatic Club. The S. D. Higher Secondary School, Ferozepur, has also its Mitra Kala Mandal.

There are two clubs in Ferozepur Cantt., one of which has as its members the army officers. The club at Abohar is also doing well.

Cinemas (Table 23†).—The number of cinema houses in the District increased from 6 in 1951-52 to 13 in 1959-60. Four of these are in Ferozepur Town and Cantt., two each in Abohar, Malout, Moga and Muktsar, and one in Fazilka. In addition to these permanent cinemas are the moving 'talkies', theatrical societies and circuses which visit the District off and on.

Besides providing entertainment to the public, such activities bring a handsome income to the State Exchequer. The proceeds from the Entertainment Tax amounted to Rs. 184 thousand in 1951-52 and Rs. 479 thousand in 1960-61 (Table 48@).

Libraries.—With the spread of the education the libraries are becoming popular. Some public libraries worth mention are :

1. Cantonment Board Library, Ferozepur Cantt.
2. Jain Library, Ferozepur Cantt.
3. Badri Parshad Library, Ferozepur Cantt.
4. Municipal Library, Ferozepur town.
5. Municipal Library, Basti Tankanwali.
6. Sahitya Sadan Pustakalya, Abohar.
7. Guru Singh Sabha Library, Abohar.
8. Municipal Library, Fazilka.
9. Jain Library, Zira.

Newspapers and Journals.—The Table 22†† contains a list of newspapers and magazines published in the District. It is significant that all of them were started after Independence. They cover diverse topics, but most of them have limited circulation.

*Pages 80 and 81. †Page 84. @Page 102. ††Page 83

Printing Presses.—Particulars of 28 printing presses in the District are given in Table 21*. Ten of them are located in Ferozepur City and Cantt ; six are in Moga ; three each at Muktsar and Fazilka ; two each at Abohar, Zira and Malout; and one is at Giddarbaha. They are generally small units, but are fairly adequate for the local needs.

Radios (Table 24†).—Radio is gaining in popularity. In 1961 there were 20,879 receiving sets licensed, and there are few villages where one or more of them are not to be found, owned individually or by *Panchayats*.

Fairs and Festivals.—Particulars are given about the fairs and festivals held in the District in Table 54††. The Maghi Fair at Muktsar is the biggest among them. Some fairs dedicated to the Muslim *pirs* are celebrated with enthusiasm, *e.g*, Fair of the Pir Musay Shah at village Tutwala and the Fair of Pir Balawar at village Karian. Other fairs of significance are to commemorate the sacrifice of the soldiers in the First Sikh War at Fatehgarh Sabra; the Saragarhi Fair at Ferozepur ; birth anniversary celebrations of Lajpat Rai at Village Dhudike ; and martyrdom of Bhagat Singh, Raj Guru and Sukhdev.

Social Welfare Activities.—The State Social Welfare Department looks after the welfare and uplift of Scheduled Castes and Backward Classes. It helps them in building houses and colonies giving loans and grants for the purpose. It also assists them in acquiring land for cultivation, and encourages them to take their due share in the educational and other facilities.

A number of voluntary social service organisations are also working in the District which render assistance and guidance to the poor and the needy in their respective spheres. The Indian Red Cross Society has a branch in the District. The District Council for the Welfare of the handicapped, maintains a Home for the Blind, of which a mention has already been made. The District anti-Leprosy Association has a lepers' colony in Ferozepur town where these persons are housed and looked after. The useful work of the Arya Samaj Orphanage has also been mentioned before. There is also a Rotary Club at Ferozepur. A branch of the All India Women's Organisation looks after the soial and moral hygiene of the foresaken women and helps the administration in the checking of immoral traffic in women and children.

Political Parties.—The various political parties of the country have branches working in the District, and the people participate in elections enthusiastically, as may be seen from the results of the last three general elections.

Year	Political Party	M.L.As. elected from District	M.Ps. elected from District	Total votes in District	Votes polled	Percentage Votes polled
1952	Congress	3	..			
	Akali	5	2			
	Communist	1	..

*Page 82 †Page 84 ††Pages 106 to 123

Medical and Public Health (Tables 25, 26 & 27*).—With the spread of education and scientific treatment of human ills coming nearer the reach of the people, the methods of faith-cure and quackery are taken resort by fewer people now. The Homoeopathy is practised by a few practitioners in towns. The *Ayurvedic and Unani* systems are, however, liked by the people because of the simpler and familiar medicines prescribed. Government is giving better recognition to these systems and the number of *Ayurvedic* dispensaries in District increased from one in 1953-54 to 18 in 1960-61 (Table 26), each under the charge of a *Vaid* or *Hakim,* and under he direct administrative control of the Director of Ayurveda, Punjab.

In 1961, there were 62 hospitals and dispensaries in the District, equipped with 752 beds run by the State Government, Local Bodies and Charitable Trusts and Endowments. The Civil Surgeon looks after the civil hospitals, and the civil dispensaries run by the District Board. Besides, the T.B. clinics at Ferozepur and Abohar, the maternity hospital at Abohar, the Canal Dispensaries at Ferozepur, Muktsar, Hari-ke-pattan and Fazilka, the Police Hospital at Ferozepur, the Mission Hospitals at Ferozepur and Guruharsahai, and the Zannana Hospital at Zira are also under the administrative control of the Civil Surgeon.

The District Medical Officer of Health has under him (February, 1963) 18 rural dispensaries, 9 subsidised dispensaries, 4 Primary Health Units, 5 Primary Health Centres, one Maternity Hospital, 13 Maternity and Child-Welfare Centres, and 2 Family Planning Clinics. In addition, he looks after the 7 Red Cross Family Planning Centres and 39 *Dai* Centres run by the District Red Cross Society of which he is the Honorary Secretary.

Special diseases and their treatment.—(i) *Leprosy.*—There is a Lepers' Colony in Ferozepur town where they live and receive treatment.

(ii) *Tuberculosis.*—Arrangements exist in all major institutions for the treatment of this disease, and there are two T.B. clinics, one at Ferozepur and the other at Abohar, where specialised treatment is given.

(iii) *Small-pox.*—Small-pox eradication programme is in the offing and, in the meanwhile, the programme of primary vaccination and re-vaccination is being pursued in the District under the supervision of the District Superintendent Vaccination who, in turn, is under the administrative control of the District Medical Officer of Health.

(iv) *Malaria.*—A Malaria Unit was established in the District in 1953 under the National Malaria Control Programme to undertake the malaria control operations in endemic areas of the District. The Unit was switched over to National Malaria Eradication Programme in 1958. The Unit now carries malaria surveillance operations side by side with he spraying operations. It covered 652 villages and towns with D.D.T. spray in 1953-54, involving 223,102 persons and an expenditure of Rs. 24,761 (Table 28†). By 1959-60, the number of villages and towns so covered had gone up to 1,430 involving 1,039,745 persons and an expenditure of Rs. 271,304.

General sanitation.—Sanitation in towns is the function of Municipal Committees. In rural areas, which are now covered by the N.E.S. Blocks, the work is being looked after by the Block staff and the Primary Health Units.

The P.W.D. Public Health Division executed 15 water-supply schemes during the Second Five-Year Plan, and gave safe piped water to fifteen villages having a population of 35,400 persons. Schemes for extending this facility to other villages are under way. The Block Development authorities provide grants for installing hand-pumps.

The P.W.D. Public Health Division also executed schemes for piped water-supply in the towns of Abohar, Muktsar, Malout, Giddarbaha, Jalalabad, Ferozepur town and Moga, though many of them are yet far from being self-sufficient in this respect. Sewerage works are in progress under this Division at Moga, Muktsar, Giddarbaha and Abohar, and requests from other Municipal Committees are also being attended to the extent they make funds available.

Standard of Health and of Medical Facilities.—Because of dry climate, healthy environments and comparatively high income of the people in Ferozepur District, the standard of health is good. At the same time, the public health and medical facilities have improved during the decade. The total number of hospitals and dispensaries in the District rose from 55 in 1951 to 75 in 1960, the number of beds from 519 to 722, and the number of patients treated from 738,935 to 1,335,673. In 1951 the total number of medical personnel (doctors, nurses, mid-wives, *dais,* technicians, dispensers, ministerial staff and Class IV staff) was 201 (145 males and 56 females), and among them 157 (125 males and 32 females) worked in the urban areas and 44 (20 males and 24 females) worked in the rural areas. By 1960, the total number of these persons was 559 (381 males and 178 females), out of whom 297 (185 males and 112 famales) and 262 (196 males and 66 females) worked in the urban and rural areas, respectively. The total expenditure on hospitals and dispensaries was Rs. 464,676 in 1951-52, and it went up to Rs. 1,014,338 in 1960-61.

*Page 84 †Page 85

Despite the improvements described above the District is still among the poorly served Districts. The area covered per medical institution in 1960 works out to 60.8 sq. miles, placing Ferozepur in the 12th position among Punjab Districts, the lowest figures being for Simla District (13.1) and Jullundur District (26.3), and the highest figures being for Kangra District (135.0) and Hissar District (80.0). Similarly, the population served per medical institution in the District came out to 24,778 which gave the District 11th position, the lowest figures being for Simla District (6,515) and Kangra District (14,175) and the highest for Sangrur District (33,188) and Rohtak District (33,034).

Crimes (Table 45*).—The incidence of crime in Ferozepur District is fairly high. Some of the clans in rural areas are notorious for being impulsive and voilent. Secondly, the consumption of liquor is common and heavy. Thirdly, as a border District, it offers temptation for smuggling of goods and other anti-social activities.

Table 45 shows the results of trials in the criminal courts. They appear to be on the increase, which may be partly due to better registration and detection. For studying the nature of crimes in the District and their trend the number of cases instituted in 1951 and 1960 were looked into some detail. It was found that there was a decline in offences against person and property. This was matched by an increase in excise cases. Thus, whereas in 1951, 107 murders occurred in the District, their number came down to 83 in 1960. Six dacoities occurred in 1951, but none in 1957 to 1960. The number of burglaries was 666 in 1951 and 229 in 1960. The number of robberies declined from 71 in 1951 to 4 in 1960, and of thefts from 603 to 378. Sixteen cases of roiting occurred in 1951, but in 1960 there were only four. Fifty-five cases of kidnapping occurred in 1951 against 27 in 1960. 987 cases were detected under the Arms Act in 1951 but only 695 in 1960.

Under the Excise Act the cases, however, increased from 776 in 1951 to 2,632 in 1960, resulting in the number of cases instituted for all crimes increasing from 4,927 in 1951 to 5,918 in 1960. Not only is illicit distillation on the increase, but the consumption of excise liquor is also on the increase. The receipts under the tax on liquor (excluding still head duty) amounted to Rs. 1,728 thousand in 1951-52 and Rs. 3,580 thousand in 1960-61. The still head duty on liquor brought to Government Rs. 54 thousand in 1951-52, and Rs. 1,353 thousand in 1960-61.

DEVELOPMENTAL ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sahakari Samaj* and *Panchayati Raj*, i.e., community development, co-operatives and panchayats.

Community Develpoment (Table 41†).—The administrative set up of the community development work has been given in the first chapter. The first Block in the District was started on the 2nd October, 1953. By the time of writing (early 1963) the entire rural area had been covered by Development Blocks, 13 N.E.S. Blocks and 4 Shadow Blocks.

The object of the Community Development is to improve the whole texture of rural life by originating a self-generating process of change and growth. People's participation and contribution in this programme is of prime importance. It is not easy to assess this contribution because it is mostly in the shape of manual labour which is difficult to evaluate. However, it cannot be gainsaid that the Community Development programme has on the whole met with popular support and is slowly changing the face of villages. The achievements of these Blocks cannot be set out in exact terms, hence a broad outline of their activities is given below.

The cultivators are supplied with improved seeds, fruit plants and implements. There are three Agricultural Research Centres in the District, one at Ferozepur for millets and tobacco, the second at Abohar for cotton, and the third also at Abohar for horticulture. New strains of crops with better yields and resistance to diseases and pests are evolved at these centres. The improved seeds are multiplied on the various seed-multiplication farms of which five are located in Moga Tahsil, six in Muktsar Tahsil, and two in Fazilka Tahsil.

Green manure, seeds and fertilizers are supplied to the cultivators at subsidised prices. They are encouraged to preserve dung in pits. The development authorities also help the farmers in reclaiming land and in laying out model farms.

Financial assistance is given for constructing percolation wells, and installing pumping sets and tube-wells.

Cow and buffalo bulls of good breed are supplied to villagers. Artificial insemination centres have been opened at Moga, Muktsar and Badal which are known for high milk production. Each centre has six key-villages attached to it and has pedigree bulls.

Health and sanitation activities cover opening of new hospitals, primary health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and smokeless *chullas*, pavement of streets, installation of hand-pumps and construction of wells for drinking water.

*Page 101. †Pag 96 to 99.

Educational activities cover opening of new schools, upgrading of old schools, conversion of schools into basic type, and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the three R's. The experiment has, however, yet to prove its efficacy. Libraries and reading rooms are started and young villagers are encouraged to organise into youth clubs. *Mahila samitis* are organised for the welfare of the women folk. Children parks and *balwadis* (nurseries) are started for the benefit of the children. *Panchayatghars* and community centres and community listening radio sets are provided for the benefit of the community at large.

People are encouraged to construct *kacha* roads, to repair old paths and to macadamise *kacha* roads. The villagers are encouraged to organise themselves into Credit Societies, Industrial Societies, Farming Societies, and Service Societies of various kinds.

Village and small scale industries are encouraged by setting up demonstration-cum-training centres where villagers are trained in various arts and crafts. The Block Development authorities have tried also to set up model villages to serve as examples for other villages.

Co-operation (Tables 16 and 17*).—The first co-operative credit society in the District was registered in 1911 at Khilchi Kadim in Tahsil Ferozepur. Since then the movement made steady progress. Then Partition damaged these societies badly. The apex institutions like the Provincial Co-operative Bank and the Punjab Co-operative Union were left behind in West Pakistan. Deposits accumulated in long years were lost overnight. The mass migration of Muslim members suddenly depleted the ranks of societies and the loans advanced to them became bad debts. With courage, patience and hard work the co-operative movement, however, recovered from that rude shock within a few years and dashed for still better achievements as is indicated by the following figures :—

Year ending	Societies	Members
30th June, 1951	877	35,706
30th June, 1956	1,497	59,679
30th June, 1961	2,333	117,023

By 30th June, 1961, out of a total of 1,426 villages in the District, 1,342 had at least one society, and 35.3 per cent of the entire population had been brought within the fold of co-operation.

Central Co-operative Banks finance the societies affiliated to them. There were four such banks in the District in 1950-51 with membership of 1,148 and working capital of 4,615 thousand rupees. They issued loans to the tune of 551 thousand rupees. In 1959-60, the number of these banks was three, one each at Fazilka, Moga and Ferozepur. Their membership was 2,703 and their working capital was 15,560 thousand rupees, and the loans issued stood at 13,683 thousand rupees.

In the struggle for saving the agriculturists from the exploitation by private financers, the Agricultural Credit Societies form the pivot in the co-operative movement. These societies inculcate the habit of thrift, and with that end in view they mobilize rural savings, so that they serve the twin purpose of thrift and credit. Another feature of these societies is that non-credit worthy elements of the rural community like the Harijans are not denied the facilities of credit. There are some credit societies, whose membership and loan operations are confined exclusively to the Harijans.

In 1950-51, there were 551 such societies with a membership of 17,003 and a working capital of 1,674 thousand rupees, and issued loans of 1,090 thousand rupees. By 1959-60, their number went up to 1,408 with a membership of 71,186 and a working capital of 12,512 thousand rupees ; in that year they issued loans to the tune of 9,219 thousand rupees.

The District has taken appreciable strides in the direction of Co-operative marketing and processing of agricultural produce. Whereas in 1950-51 their number was 2 with a membership of 349, by 1959-60 the number had gone up to 15 with a membership of 3,761. Besides functioning as commission agents in the markets, these societies purchase wheat and other commodities for Government, whenever required.

There is a co-operative cotton ginning and pressing factory at Abohar and another society at Moga running a cold store.

Irrigation Societies encourage installation of tube-wells and pumping sets on co-operative basis. In 1950-51 there was no society of this type in the District, but by 1959-60 there were 20 such societies with 266 members.

The number of farming societies increased from 12 with 283 members, in 1950-51 to 109 with 1,669 members, in 1959-60.

*Pages 75 to 77

To eliminate the exploitation of the artisans by the middlemen and to help the members in the purchase of raw materials and disposal of finished products, efforts are being made to organise small scale and cottage industries on co-operative lines. Tanning, shoe-making, and handloom industry have been selected for this purpose. There were 18 weavers' societies in the District in 1959-60 with 285 members, and another 101 societies with 1,503 members pursuing other industries. Manual workers are also organised into the labour and construction societies. In 1956, they were 57 in number with a membership of 6,830 and a working capital of Rs. 494,207. By 1961, their number rose to 83 with 9,050 members and Rs. 774,616 as working capital.

The women's societies and thrift societies provide facility for keeping deposits, and for training and production of handicrafts and cottage industries, like soap and oil-making. Their number was 19 with a membership of 375 and working capital of Rs. 14,687 in 1956. The corresponding figures for 1961 were 53, 1,463 and 75,580, respectively.

Panchayati Raj (Table 39*).—Waves after waves of foreign invaders like Greeks, Huns, Afghans, Mongols made depredations into this country but they failed to leave behind any permanent impression on the Indian way of life and culture. On the other hand with the passage of time the foreigners merged themselves in the vast ocean of Indian culture of which our village *Panchayats* were the biggest repositories. The British regime did a great harm by substituting them with a centralised bureaucratic system of administration. If the rural India was to rediscover itself, it was felt strongly, that the *Panchayat* system must be revived. According to Mahatma Gandhi, "India's Independence must begin at the bottom. Thus every village will be a republic or a *Panchayat* having full powers. In this structure composed of innumerable villages, there will be ever-widening, never ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle, whose centre will be the individual, always ready to perish for the village." Other leaders shared fully this view, and accordingly the organisation of village *Panchayats* was made one of the directive principles of the State Policy in the Constitution of India.

The Punjab Gram Panchayat Act, 1952, as amended up-to-date and the Punjab Panchayat Samitis and Zila Parishad Act, 1961, form the corner stones of the *Panchayati Raj* in the State. This structure consists of three tiers, namely, a *Panchayat* at the village level, a *Panchayat Samiti* at the Block or Tahsil level, and a *Zila Parishad* at the District level. These three institutions are organically linked with each other by means of indirect elections. They do not constitute a hierarchy, where one is subordinate to the other. They have clearly defined spheres of activities and have independent sources of revenue. This enables them to function without losing initiative and self-reliance.

Gram Panchayats.—A village *panchayat* has 5 to 9 members including a *Sarpanch* elected by adult franchise. There is adequate representation for women and for the Scheduled Caste persons. In case no woman is elected as a *Panch*, one is co-opted as additional *Panch*. The election to the *Panchayat* is held by secret ballot and its term is three years. The first general elections for *Gram Panchayats* were held in 1953, and for a second time in 1961.

In 1951-52, the number of the *Gram Panchayats* with very restricted functions under the Punjab Village Panchayat Act of 1939, in the District was 700, with a total membership of 2,408. In 1953-54 the number of the *Gram Panchayats* rose to 1,014 with a membership of 5,557. In 1960-61 the number stood at 1,045 with a membership of 5,551.

The *Panchayats* are expected to provide cheap and ready justice. On the criminal side, they have been given powers to try minor offences like petty thefts, hurt, affray, and committing public nuisance. They are under the control of the District Magistrate, who can hear appeals against their orders, and can transfer cases from one *Panchayat* to another. On the civil and revenue side, the *Panchayats* have been given powers to try civil and revenue cases up to certain pecuniary limits, and in respect of these cases they are under the control of the District Judge and the Collector, respectively.

Most of the villages are, however, faction-ridden and the system of elections appears to have added to this factional spirit, and the general experience is that the *Panchayat* proceedings are marred by group rivalries and group feelings. These are perhaps pangs of birth, and with the spread of education, proper guidance and maturity of public opinion, it is hoped that things will improve.

In 1953-54, 4,792 criminal cases were instituted in the *Gram Panchayats* in the District. Of these, 2,687 cases were compromised, 933 cases were dismissed and 786 cases ended in conviction. In that year the *Panchayats* also tried, 3,359 civil and revenue cases, and the number of the cases compromised was 1,646, whereas 518 cases were dismissed and 833 cases were decreed. In 1960-61, the number of criminal cases instituted before these *Panchayats* was 843 and the number of the cases compromised was 469 ; 91 cases ended in conviction and 136 cases were dismissed. On the civil and revenue side in that year, 1,002 suits were instituted, the cases compromised, dismissed and decreed were 520, 168 and 232, respectively.

*Page 92

The figures quoted above call for two observations. First there has been a substantial reduction in the number of cases coming before the *Panchayats.* This reduction has been attributed to the villagers having preference for regular courts to adjudicate their disputes perhaps because there they expect more impartiality. Second, a majority of cases coming to the *Panchayats* are compromised. This is a pleasant feature, making for harmony among the village community.

Besides, the *Panchayats* look to the requirements in their respective areas in regard to agriculture, education, animal husbandry, health and sanitation including water-supply, works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department in cash, kind, or labour. With the help of the departments concerned the *Panchayats* have done some really good work as the following account relating to the year 1962-63 shows :—

	AGRICULTURE	
1.	Improved seeds distributed (Quintals)	424
2.	Fertilizers distributed (Quintals)	105,508
3.	Improved implements distributed (Number)	24,116
4.	Fruit trees planted (Number)	15,348
5.	Compost pits dug (Number)	8,696
6.	Model Farms laid out (Number)	41
7.	Area reclaimed (Hectares)	2,833
	IRRIGATION	
8.	New irrigation wells constructed (Number)	158
9.	Old irrigation wells repaired (Number)	189
10.	Pumping sets installed (Number)	238
11.	Tube-wells constructed (Number)	83
12.	Additional area irrigated (Hectares)	1,224
	ANIMAL HUSBANDRY	
13.	Improved animals supplied (Number)	35
14.	Improved birds supplied (Number)	3,120
	HEALTH AND SANITATION	
15.	Drinking water wells constructed (Number)	5
16.	Drinking water wells renovated (Number)	255
17.	Hand-pumps installed (Number)	967
18.	Streets paved (Sq. meters)	194
19.	Drains constructed (Meters)	4,539
20.	Rural latrines constructed (Number)	59
21.	Smokless chullas constructed (Number)	1,406
	EDUCATION	
22.	School buildings constructed or donated (Number)	45
23.	Youth club started (Number)	43
24.	Mahila Samitis organised (Number)	44
25.	Children parks set up (Number)	353
26.	Community recreation centres started (Number)	20
27.	Reading rooms/libraries set up (Number)	35
28.	Number of adult education centres started (Number)	36
29.	Number of village leaders trained (Number)	997
	COMMUNICATIONS	
30.	Kacha roads constructed (Kilometers)	260
31.	Existing roads improved (Kilometers)	182
32.	Culverts constructed (Number)	164
	CO-OPERATIVE	
33.	Number of new Societies started (Number)	25
	ARTS, CRAFTS AND IDUSTRIES	
34.	Demonstration-cum-training centres started (Number)	34
35.	Small scale industries started (Number)	30

The village common lands now vest with the *Panchayats*. They receive a percentage of land revenue collected in the villages under their charge and grants from Government and sometimes from local bodies. They levy house tax and professions tax, and raise voluntary contributions. The fines and penalties they impose are also transferred to their funds. In 1960-61, the total income of the *Panchayats* in the District was Rs. 1,226 thousand and their total expenditure on education and libraries, public works, public health, agriculture and veterinary services, and administration amounted to Rs. 971 thousand (Table 39†).

Panchayat Samitis.—There is a *Panchayat Samiti* for each Block. It consists of: (i) 16 members, elected by the *Panches* and *Sarpanches ;* (ii) two members elected by the co-operative societies ; and (iii) one member elected by the Market Committees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the *Samiti* as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elected otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block work as *ex-officio* members. The associated and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years.

The *Panchayat Samiti* provides and makes arrangements for carrying out the requirements of the area under its jurisdiction, in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communications, social education, co-operation and such other miscellaneous duties as development of cottage and small scale industries and other local development works. The *Samiti* is also the agent of the Government for the formulation and execution of Community Development programme.

The sources of income with the *Samiti* would be the local rate as charged by the District Board, the fees derived from public institutions like schools and markets, fees from fairs and shows, rents and profits accruing from properties vested in it, and such moneys and grants as Government may place at its disposal. The *Samiti* can, with the permission of the *Zila Parishad* impose any tax which the State Legislature has power to impose under the Constitution.

Zila Parishad.—The *Zila Parishad* consists of the Chairman of every *Panchayat Samiti*, two members elected by each *Panchayat Samiti*, every M.P., M.L.A., M.L.C., representing the District or any part thereof and the Deputy Commissioner. Two women and five members belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The M.Ps., M.L.As., M.L.Cs., and the Deputy Commissioner do not have the right to vote. The *Parishad* has a Chairman and a Vice-Chairman elected for three years by the elected members.

The *Parishad* consolidates and co-ordinates the Plans prepared by the *Panchayat Samitis*, examines and approves the budgets of the *Panchayat Samitis* and advises Government concerning *Panchayats* and *Panchayat Samitis*, and keeps a watch over agricultural and production programmes and construction works.

The income of the *Parishad* accrues from Central or State Governments fund allotted to it, grants from all India bodies and institutions for the development of cottage, village and small scale industries, a share in the land cess, income from endowments, and such contributions as the *Zila Parishad* may levy on the *Panchayat Samitis*.

The *Zila Parishad* has not yet started functioning in the District, as the election of one of its members is in dispute, and for the time being the District Board keeps the fort.

Local Bodies in Towns (Table 40*).—As mentioned in Chapter I there is a Cantonment Board functioning at Ferozepur Cantt. and Municipal Committees in the remaining 13 towns. During the decade 1951-61, Municipal Committees were set up at Guruharsahai (1955), Malout (1956) and Talwandi Bhai (1959). Fazilka, Ferozepur town, Muktsar and Zira Municipal Committees are of long standing, instituted earlier than the present century. Among the present Municipal Committees the one at Ferozepur town belongs to Class I, while another six each belong to Class II and Class III. As many as eight Municipal Committees have less than one square mile area to administer.

The combined revenue of the local duties during the year 1960-61 amounted to Rs. 4,911,033. Abohar has a revenue of over one million rupees, and Moga, Muktsar and Ferozepur town make between half and one million rupees. The income per capita was the highest for Guruharsahai (Rs. 24.32) and the lowest for Talwandi Bhai (Rs. 4.78). Octroi is the major source of revenue of the local bodies, constituting 61 per cent of the total revenue. The combined expenditure of the fourteen local bodies during 1960-61 amounted to Rs. 5,395,352, showing a deficit of over four lac rupees. The highest item of expenditure is on Public Health (31.4 per cent), followed by Public Safety (9.9), Education (8.6) and Medical (4.3).

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot note under each Table.

There are in all 54 Tables in this Part grouped under the following heads :—

Rainfall and Temperature	Tables 1 & 2
Agriculture	Tables 3 to 11
Livestock and Implements	Tables 12 & 13
Industry	Tables 14 & 15
Co-operation	Tables 16 & 17
Education	Tables 18 to 20
Printing and Publishing	Tables 21 & 22
Entertainments	Tables 23 & 24
Medical and Health	Tables 25 to 31
Vital Statistics	Tables 32 & 33
Transport and Communications	Tables 34 to 38
Local Administration	Tables 39 to 41
Banks, Insurance and Savings	Tables 42 to 44
Justice and Administration	Tables 45 to 51
Miscellaneous	Tables 52 & 53
Fairs and Festivals	Table 54

RAINFALL AND TEMPERATURE

Table 1 gives information regarding mean maximum, mean minimum, highest maximum and lowest minimum temperatures, mean relative humidity, mean wind speed, number of days of dust storm, thunder and hail storms, recorded at one or more stations in the District for each month for the years, 1951 to 1960.

Table 2 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years, 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimeters. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 3 shows the utilisation of land in the District for the period 1901—1961. Information has been worked out for the quinquenniums centring around the Census years 1901, 1911, 1921, 1931, 1941, 1951, and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following scheme :—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallow ; (b) permanent pastures and other grazing lands ; (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types : First. lands which have remained out of cultivation for a period not less than one year but not more than 4 years, second, lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volumes I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 4 shows assessment circle-wise classification of land in the District for 1960-61 : total area according to Village Papers ; area under forests ; area not available for cultivation ; area available for cultivation ; and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 5 presents net area irrigated from (1) government canals, (2) private canals, (3) tanks, (4) tube-wells, (5) other wells and 'other sources'. The information is presented for the same quinquenniums as selected for Table 3.

Table 6 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901—61.

Table 7 shows area under principal crops in the District for selected quinquenniums during 1901—61. The principal crops have been classified into three categories : (I) basic food crops, (II) other food crops and (III) non-food crops.

Table 8 presents the average yield per acre of principal crops in the District : rice, wheat, *jowar*, *bajra*, maize, barley, gram, potatoes, sugar-cane, chillies, sesamum, rape, mustard and cotton. Information is given for 12 years ending 1960-61, and the yield figures are in terms of lbs. per acre.

Table 9 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 10 presents wholesale prices of various agricultural products like the rice (unhusked), wheat, barley, *jowar*, *bajra*, maize, gram, rape seed, til, *gur*, unginned cotton, etc., as obtaining in the market at Abohar. Prices are in terms of rupees and maunds, and are for each month, 1951 to 1960.

Table 11 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year, ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 12 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 13 provides information on agricultural implements and machinery for the District and each Tahsil for 1956 and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 14 relates to the working of registered factories during the years 1951, 1956 and 1960.

Table 15 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 16 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 17 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 18 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 19 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 20 gives the number of Arts and Science and Professional colleges in the District during the year ending 1960.

PRINTING AND PUBLISHING

Table 21 relates to printing presses in the District working in 1960 : the year of declaration, the languages in which the matter can be printed, the number of printing machines and the power used.

Table 22 lists the newspapers, magazines and periodicals published in the District during 1961 : the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 23 shows the number of cinema houses in the District during the years 1951-52 to 1959-60.

Table 24 shows the number of broadcast receiving licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND HEALTH

Table 25 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 26 shows the number of hospitals and dispensaries providing ayurvedic treatment in the District during the years 1951 to 1961 and the number of *Vaids* and *Hakims* working there.

Table 27 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 28 presents the work done and expenses incurred by the malaria control unit from 1953 to 1961 in the District.

Table 29 informs about the number of persons sterilized and other steps undertaken by the family planning centres in the District during 1960-61.

Table 30 shows the location of the primary health units and centres and rural health centres as on 1st October, 1961.

Table 31 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 32 shows the number of births, deaths, sex-wise, as recorded in the District during the years 1951 to 1960.

Table 33 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 34 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees ; according to national highways, state highways, major district roads, minor district roads and village roads ; and according to metalled and unmetalled roads.

Post Offices.—Table 35 gives a list of Post Offices in the District as on 31st March, 1961.

Railway Stations.—Table 36 is a list of railway stations located in the District.

Table 37 is a polymetrical table showing distances as between different places in the District.

Bridges.—Table 38 gives information about major bridges in the District.

LOCAL ADMINISTRATION

Panchayats.—Table 39 shows the working of *panchayats* in the District during 1960-61 : number of *panchayats*, their number, beneficial and judicial activities, and income and expenditure.

Local Bodies.—Table 40 deals with Local Bodies in the District as on 31st March, 1961 : It gives information for each Local Body, its class and area served, year in which constituted, population, the number of members and income and expenditure during 1960-61.

Community Development.—Table 41 shows the community development activities in the District as on 31st March, 1961 : for each block, its stage, area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plan, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 42 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 43 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 44 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 45 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 46 shows the sanctioned strength of Police and the number of Police Stations in the District as on 31st December, 1960.

Table 47 gives information about jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 48 shows the receipts from State Excise Duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1959-60.

Table 49 presents land revenue receipts in the District during 1950-51 to 1959-60.

Table 50 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 51 presents the number of instruments registered and value of property transferred in the District annually from 1951 to 1960.

MISCELLANEOUS

Table 52 presents important events occurred in each Tahsil of the District during the period 1950—1961.

Table 53 shows the monuments and better known places of worship or tourist interest in rural areas of the District, arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 54 relates to fairs and festivals. The material for this Table was collected from a number of agencies ; headmasters of schools, *patwaris*, police stations, District officers of health and municipal committees.

The fairs and festivals are arranged for villages in ahsils according to the Hadbast numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

TABLE I

Table SCT—IV Part A	Religion for Scheduled Castes	283
Table SCT—V Part A	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in *Rural areas only* for members of Scheduled Castes (Households of members of Scheduled Castes in a 20 per cent Sample of all Households)	284
Table SC—I	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes of the District and for Rural areas of selected Tahsils	285

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information up to Tahsil and Town level, and have been prepared exclusively for this volume. Tables A—IV, B—III (Part A), B—VI, B—VIII (Part A),C—III (Part B), and SCT—III (Part A) give information only for urban areas : Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non city urban area of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres ; number of villages, inhabited and uninhabited; number of towns; number of occupied houses; and population for the District, each Tahsil and Town, with sex break-up. The figures for Towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati*'. In Lahaul and Spiti District, the revenue estate is referred to as *kothi* and its components as '*gaon*'.

Appendix I shows the territorial changes which took place during the decade 1951—61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under columns 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses, from 1901 to 1961, and variations in population—in absolute figures and percentage—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

In **Table A-III** the villages have been graded according to the size of population as shown below, and for each group the number of villages and their population have been shown.

Villages with population—

(a) less than 200;

(b) 200 to 499;

(c) 500 to 999;

(d) 1,000 to 1,999;

(e) 2,000 to 4,999; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities: thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified (a) into nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" (Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961-census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories:—

(1) as cultivators;

(2) as agricultural labourers;

(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities;

(4) at household industry;

(5) in manufacturing other than household industry;

(6) in construction;

(7) in trade and commerce;

(8) in transport, storage and communications;
and

(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e. an owner-cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc.

The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level 'Technical Degree or Diploma equal to Degree or post-Graduate Degree' is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junoir Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to th "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An *employer* is a person who employs other persons in order to perform economic activity in which he is engaged.

An *employee* is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employers have also been taken as *employees.*

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of 'Indian Standard Industrial Classification' (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part -A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part -B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts: **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups: (i) seeking employment for the first time; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsilwise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups:—

(i) whole-time students doing no other work;

(ii) persons engaged in unpaid home duties;

(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work;

(v) beggars, vagrants or independent women without an indication of their source of income ;

(vi) convicts in jail or inmates of a penal, mental or charitable institutions;

(vii) Persons seeking employment for the first time; or

(viii) Persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household :

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories : —

(i) engaged neither in cultivation nor in household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;

(ii) held from private persons or institutions for payment in money, kind or share ; and

(iii) partly owned or held from Government , and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross-tabulated by different sizes of land-holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification"(Annexure A).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A** the households have been distributed by nature of household industry and number of persons engaged into the following five size-groups:—

(i) 1 person;
(ii) 2 persons;
(iii) 3 to 5 persons;
(iv) 6 to 10 persons ; and
(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given :—

(i) households engaged neither in cultivation nor in household industry;
(ii) those in household industry only ;
(iii) those engaged in cultivation ; and
(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion, appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in **Table B-XVII.**

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into (i) never married; (ii) married; (iii) widowed; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0—4 and 5—9 have been combined, since all the persons up to the age of 9 have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forcasting the future births. In 1951-census, this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : **Part-A** for all areas; **Part-B** for urban areas; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this Volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others". Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affair Notification No. SRO/2477-A, dated the 29th October, 1956). These castes, in Punjab are :—

1. Throughout the State :—

   (1) Ad Dharmi ; (2) Bangali ; (3) Barar, Burar or Berar ; (4) Batwal ; (5) Bauria or Bawaria ; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra ; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi ; (10) Chanal ; (11) Dagi ; (12) Dhanak ; (13) Dumna, Mahasha or Doom ; (14) Gagra ; (15) Gandhila or Gandil Gondola ; (16) Kabirpanthi or Julaha ; (17) Khatik ; (18) Kori or Koli ; (19) Marija or Marecha ; (20) Mazhabi ; (21) Megh ; (22) Nat ; (23) Od ; (24) Pasi ; (25) Perna ; (26) Pherera ; (27) Sanhai ; (28) Sanhal ; (29) Sansi, Bhedkut or Manesh ; (30) Sapela ; (31) Sarera ; (32) Sikligar ; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

   (1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kaupurthala and Sangrur :—

   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa*.

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data re ating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent samples out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dwelling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented".

Table E-IV has been prepared from a 20 per cent sample and distributs the houses according to the predominant material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multistoreyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential order referred to above the Scheduled Tribes are found in this State only in Lahaul & Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and curing of hides and skins" and "scavanging", number of persons following these occupations have also been given under cols. 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44 and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in cols. 11 and 12.

ANNEXURE 'A'

Indian Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
Division 0	**—Agriculture, livestock, forestry, fishing and hunting—**	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize ..	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops ..	002
	Production of raw cotton and kindred fibre crops ..	003
	Production of oilseeds, sugarcane and other cash crops ..	004
	Production of other crops (including vegetables) not covered above ..	005
	Production of fruits and nuts in plantation, vines and orchards ..	006
	Production of wood, bamboo, cane reeds, thatching grass, etc. ..	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above ..	009
01	*Plantation Crops—*	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above ..	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests ..	020
	Felling and cutting of trees and transportation of logs ..	021
	Preparation of timber ..	022
	Production of fuel including charcoal by exploitation of forest ..	023
	Production of fodder by exploitation of forests ..	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests ..	025
	Production and gathering of other forest products not covered above ..	026
03	*Fishing—*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries ..	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat ..	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
	Rearing of silk worms and production of cocoons and raw silk ..	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 1—Mining and Quarrying—		
10	*Mining and Quarrying—*	
	Mining of coal ..	100
	Mining of iron ores ..	101
	Mining of gold and silver ores ..	102
	Mining of manganese ..	103
	Mining of mica ..	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone ..	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt ..	109
Division 2 & 3—Manufacturing—		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains ..	200
	Production of sugar and syrup from sugarcane in mills ..	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits ..	203
	Slaughtering, preservation of meat and fish and canning of fish ..	204
	Production of bread, biscuits, cake and other bakery products ..	205
	Production of butter, ghee, ch ese and other dairy products ..	206
	Production of edible fats and oils (other than hydrogenated oil) ..	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge ..	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery ..	210
	Production of country liquor ..	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not c vered above ..	213
	Production of aerated and mineral water ..	214
	Production of ice ..	215
	Production of ice cream ..	216
	Processing of tea in factories ..	217
	Processing of coffee in curing works ..	218
	Production of other beverages ..	219
22	*Tobacco Products—*	
	Manufacture of bidi ..	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco ..	222
	Manufacture of hookah tobacco ..	223
	Manufacture of snuff ..	224
	Manufacture of jerda and other chewing tobacco ..	225
	Manufacture of other tabacco products ..	226

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
23	*Textile-Cotton*—	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching ..	233
	Cotton weaving in power looms ..	234
	Cotton weaving in handlooms ..	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile ..	237
	Manufacturing of cotton nets ..	238
	Manufacturing of cotton, cordage, rope and twine ..	239
24	*Textile-Jute*—	
	Jute pressing and baling ..	240
	Jute spinning and weaving ..	241
	Dyeing and bleaching of jute ..	242
	Printing of jute textile ..	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta ..	244
25	*Textile-Wool*—	
	Wool baling and pressing ..	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mills ..	255
	Wool weaving in power loom ..	234
	Wool weaving in handloom ..	255
	Embroidery and art work in woollen textile ..	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk ..	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by power loom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile ..	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products ..	270
	Manufacture of hosiery and other knitted fabrics and garments ..	271
	Embroidery and making of crepe lace and fringes ..	272
	Making of textile garments including raincoats and headgear ..	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow-cases, bedding materials, mattress, textile bags ..	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin ..	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling ..	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas ..	278
	Processing and manufacture of textile products not covered above ..	279

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood ..	280
	Manufacture of wooden furniture and fixtures ..	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows ..	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture ..	283
	Manufacture of other wooden products such as utensils, toys artwares ..	284
	Manufacture of veneer and plywood ..	285
	Manufacture of plywood products such as tea chest ..	286
	Manufacture of boxes and pa king cases other than plywood ..	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above ..	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill ..	290
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade ..	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp ..	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals ..	300
	Printing and publishing of books ..	301
	All other types of printing including lithography engraving, etching, block-making and other work connected with printing industry ..	302
	All types of binding, stitching, sizing and other allied work connected with binding industry ..	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear ..	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ..	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles ..	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear ..	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes ..	320
	Manufacture of rubber footwear ..	321
	Manufacture of rubber goods used for industrial purpose ..	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat ..	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries ..	324
	Production of coaltar and coke in coke oven ..	325
	Manufacture of other coal and coaltar products not covered elsewhere ..	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified ..	330

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
33	*Chemicals and Chemical Products*—contd.	
	Manufacture of dyes, paints, colours and varnishes ..	331
	Manufacture of fertilizers ..	332
	Manufacture of ammunition, explosives and fire works ..	333
	Manufacture of matches ..	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap ..	335
	Manufacture of soap and other washing and cleaning compounds ..	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber) ..	337
	Manufacture of common salt ..	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ..	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles ..	340
	Manufacture of cement and cement products ..	341
	Manufacture of lime ..	342
	Manufacture of structural stone goods, stone dressing and stone crushing ..	343
	Manufacture of stoneware, other than images ..	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products ..	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products ..	348
	Manufacture of earthenware and earthen pottery ..	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus ..	354
	Manufacture of earthen image, busts and statues ..	355
	Manufacture of earthen toys and artwares except those covered by code No. 355 ..	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above ..	357
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods ..	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ..	361
	Manufacture of armaments ..	362
	Manufacture of structural steel products such as joist, rail, sheet, plate ..	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell metal products ..	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can ..	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products ..	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39) ..	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery ..	370

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—concld.	
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors ..	371
	Manufacture of machine tools ..	372
	Manufacture of textile machinery and accessories ..	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers ..	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment such as radio, microphone ..	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives ..	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363 ..	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories ..	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and reparing of water transport equipment such as ships, boats and manufacture of marine engines ..	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles ..	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles ..	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies ..	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies ..	391
	Assembling and repairing of watches and clocks ..	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments ..	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen ..	395
	Manufacture of sports goods ..	396
	Manufacture and repair work of goods not assignable to any other group ..	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative, constructions, electrical and sanitary installations ..	400
	Construction and maintenance of roads, railways, bridges, tunnels ..	401
	Construction and maintenance of telegraph and telephone lines ..	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells ..	403
Division 5—Electricity, Gas, Water and Sanitary Services—		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy ..	500
	Distribution of electric energy ..	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers ..	502

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services—concld.		
51	*Water Supply and Sanitary Services*—	
	Collection, purification and distribution of water to domestic and industrial consumers ..	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation ..	511
Division 6—Trade and Commerce		
60-63	*Wholesale Trade*—	
	Wholesale trading in cereals and pulses ..	600
	Whol sale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere) ..	601
	Wholesale trading in all kinds of fabri s, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products ..	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water ..	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products ..	606
	Wholesale trading in animals ..	607
	Wholesale trading in straw and fodder ..	608
	Wh lesale trading in medicines and chemicals ..	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics ..	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware ..	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings ..	614
	Wholesale trading in footwear ..	615
	Wholesale trading in tyres, tubes and allied rubber products ..	616
	Wholesale trading in petrol, mobil oil and allied products ..	617
	Wholesale trading in other household equipment not covered above ..	618
	Wholesale trading in bricks, tiles and other building materials ..	620
	Wholesale trading in wood, bamboo, cane thatches and similar products ..	621
	Wholesale trading in paper and other stationery goods ..	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical ..	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb ..	632
	Wholesale trading in all kinds of transport and storage equipment ..	633
	Wholesale tr ding in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses frames ..	635
	Wholesale trading in hardware and sanitary equipment ..	636
	Wholesale trading in scientific, medical and surgical instruments ..	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above ..	639
64-68	*Retail Trade*—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry ..	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors ..	642
	Retail trading in other intoxicants such as opium, ganja, etc. ..	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products ..	644
	Retail trading in fuel such as coke, coal, firewood and kerosene ..	645
	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc. ..	646
	Retail trading in animals ..	647
	Retail trading in straw and fodder ..	648

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce—concld.		
64-68	*Retail Trade*—concld.	
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece-goods of cotton wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaw, etc.	699
Division 7—Transport, Storage and Communication		
70	*Transport—*	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communication—concld.		
71	Services incidental to transport such as packing, carting, travel agency ..	710
72	*Storage and Ware-housing*—	
	Operation of storage such as ware-houses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type ..	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications ..	730
	Telephone communication ..	731
	Information and broadcasting ..	732
Division 8—Services—		
80	*Public Services* (this does not include Government Quasi-Government or local body activities, other than Administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)—	
	Public Services in Union and State army including territorial corps and volunteer corps ..	800
	Public service in Navy ..	801
	Public service in Air Force ..	802
	Public service in Police ..	803
	Public service in administrative departments and offices of Central Government ..	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc. ..	805
	Public services in administrative departments and offices of State Government ..	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions ..	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type ..	811
	Scientific services and research institution not capable of classification under any individual group ..	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners ..	820
	Veterinary services rendered by organisations and individuals ..	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations ..	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk ..	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity ..	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi ..	840
	Matrimonial services rendered by organisations and individuals ..	841

Indian Standard Industrial Classification—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—concld.		
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals ..	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals ..	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies ..	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors ..	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations ..	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library ..	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc. ..	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc. ..	870
	Recreation services rendered by cinema houses by exhibition of motion pictures ..	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals ..	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc. racing ..	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks ..	880
	Services rendered to households such as those by governess, tutor, private secretary ..	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities ..	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services ..	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops ..	884
	Services rendered by portrait and commercial photographic studios ..	885
89	*Services (not eleswhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified ..	890
Division 9—Activities not adequately described—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affilitation to enable them to be classified ..	900

ANNEXURE 'B'

National Classification of Occupations

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—		
00	*Architects, Engineers and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurigical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers and Surveyors, n.e.c.	009
01	*Chemists, Physicits, Geologists and other Physical Scientists—*	
	Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and related Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homeopathic	032
	Physicians, Others	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and RelatedWorkers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059
06	*Jurists—*	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—concld.		
07	*Social Scientists and Related Workers*—	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Phychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and related Workers*—	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Printers, Decorators and Commercial Artists	083
	Sculptors and Modellers	084
	Actors and Related Workers	085
	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen, and Science and Engineering Technicians, n.e.c.*—	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n.e.c.	099
0X	*Other Professional, Technical and Related Workers*—	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials, Government*—	
	Administrative and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111
12	*Directors, Managers and Working Proprietors, Financial Institutions*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, others*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors Transport and Communication	134

National Classification of Occupations—concld.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—concld.		
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services ..	135
	Directors, Managers and Working Proprietors, other Services ..	136
	Directors, Managers and Working Proprietors, n.e.c. ..	139
Division 2 - Clerical and Related Workers—		
20	*Book-keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks ..	200
	Cashiers ..	201
	Ticket Sellers Ticket Inspectors including Ushers and Ticket Collectors, (excluding those on moving transport) ..	202
21	*Stenographers and Typists*—	
	Stenographers ..	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators ..	220
	Punch Card Machine Operators ..	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers—Miscellaneous*—	
	General and other Ministerial Assistants and Clerks ..	280
	Miscellaneous Office Workers including Record keepers, Muharrers, Despatchers, Packers and Binders of office papers ..	289
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc, n.e.c. ..	290
Division 3—Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade ..	300
	Working Proprietors, Retail Trade ..	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and services, and Auctioneers*—	
	Agents and Salesmen, Insurance .	310
	Agents, Brokers and Salesmen, Real Estate .	311
	Brokers and Agents, Securities and Shares ..	312
	Auctioneers ..	313
	Valuers and Appraisers ..	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c. ..	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers ..	320
	Manufacturers' Agents ..	321
	Commercial Travellers and Manufacturers' Agents, n.e.c. ..	329
33	*Salesmen, Shop Assistants and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade ..	330
	Hawkers, Pedlars and Street Vendors ..	331
	Salesmen, Shop Assistants and Related Workers, n.e.c. ..	339

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3—Sales Workers—concld.		
34	*Money-Lenders and Pawn-Brokers*—	
	Money-Lenders (including Indigenous Bankers)	340
	Pawn-Brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural labourers	414
	Plantation labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers, n.e.c.	439
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers—		
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 5—Miners, Quarrymen and Related Workers—concld.		
52	*Mineral Treaters*—	
	Mineral Treaters	520
59	*Miners, Quarrymen and Related Workers, n.e.c.*—	
	Miners, Quarrymen and Related Workers, n.e.c.	590
Division 6—Workers in Transport and Communication Occupations—		
60	*Deck Officers, Engineer Officers and Pilots, Ship*—	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen*—	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-Room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers*—	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine*—	
	Drivers	630
	Firemen	631
64	*Drivers, Road Transport*—	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)	649
65	*Conductors, Guards and Brakesmen (Railways)*—	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport*—	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Tele-communication Operators*—	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printers Operators	673
	Telephone, Telegraph and Related Tele-Communication operators, n.e.c.	679
68	*Postmen and Messengers*—	
	Postmen	680
	Messengers (including Dak Peons)	681

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 6—Workers in Transport and Communication Occupations—concld.		
69	*Workers in Transport and Communication Occupations, n.e.c.*—	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communication	693
	Workers in Communication Occupations, n.e.c.	694
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—		
70	*Spinners, Weavers, Knitters, Dyers, and Related Workers*—	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers*—	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head-gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719
72	*Leather, Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers*—	
	Shoe makers and Shoe repairers	720
	Cutters, Lasters, Sewers, Footwear and Related workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related workers, n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers*	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.	739
74	*Precision Insrtument Makers, Watch Makers, Jewellers and Related Workers*—	
	Precision instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
75	*Tool-Makers, Machinists, Plumbers, Welders, Platers and related Workers—*	
	Fitter-Machinists, Tool-makers and Machine Tool Setters ..	750
	Machine Tool Operators ..	751
	Fitter-Assemblers and Machine Erectors (except Electrical and Precision Instrument Fitter-Assemblers) ..	752
	Mechanics-Repairmen (except Electrical and Precision Instrument Repairmen) ..	753
	Sheet Metal Workers ..	754
	Plumbers and Pipe Fitters ..	755
	Welders and Flame Cutters ..	756
	Metal Plate and structural Metal Workers ..	757
	Electro-Platers, Dip Platers and Related Workers ..	758
	Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than Printing) ..	759
76	*Electricians and Related Electrical and Electronics Workers—*	
	Electricians, Electrical Repairmen and Related Electrical Workers ..	760
	Electrical and Electronics - Fitters ..	761
	Mechanics-Repairmen, Radio and Television ..	762
	Installers and Repairmen, Telephone and Telegraph ..	763
	Linemen and Cable Jointers ..	764
	Electricians and Related Electrical and Electronics Workers, n.e.c. ..	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers—*	
	Carpenters, Joiners and Pattern Makers (Wood) ..	770
	Shipwrights and Body Builders (Wood) ..	771
	Sawyers and Wood Working Machinists ..	772
	Coach and Body Builders ..	773
	Cart Builders andWheel Wrights ..	774
	Cabinet Makers ..	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c. ..	779

	Painters and Paper Hangers ..	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.—*	
	Stone Cutters, Stone Carvers and Stone Dressers ..	790
	Bricklayers, Plasterers, Masons ..	791
	Glaziers ..	792
	Cement Finishers and Terrazzo and Mosaic Workers ..	793
	Hut Builders and Thatchers ..	794
	Well Diggers ..	795
	Bricklayers, Plasterers and Construction Workers, n.e.c. ..	799
80	*Compositors, Printers, Engravers, Book-Binders and Related Workers—*	
	Type-setting Machine Operators ..	800
	Compositors ..	801
	Proof-Readers and Copy Holders ..	802
	Printers (Paper) ..	803
	Printers (Textile) ..	804
	Photo-Litho Operators, Photo-Lithographers ..	805
	Engravers, Etchers and Block Makers (Printing) ..	806
	Stereotypers ..	807
	Book-Binders ..	808
	Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c. ..	809

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers—*	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers—*	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-Farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers—*	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes—	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tobacco Preparers and Products Makers—*	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Product Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.*	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851

Notes—1.† The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of towns in the respective units, and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Towns treated as such for the first time in 1951-census which continue as towns in 1961-census are shown with an asterisk (*) on their left.
3. Towns treated as such for the first time in 1961-census are printed in italics.
4. The following abbreviations have been used for the status of a Town :—
   M.C. = Municipal Committee
   C.B. = Cantonment Board

APPENDIX I TO TABLE A-I

Statement showing the 1961 territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area	Remarks
1	2	3	4
Ferozepur District	Ferozepur District	4,085·0	
	Minus:—(i) 2 villages Mohd. Yar Chishti and Chak Mohd. Usman totally and 12 villages partly (Population nil) transferred to Pakistan from Fazilka Tahsil	(−)11·0	Details of transfer are given in Annexure at No.1
	(ii) Entire Nathana Sub-Tahsil of Ferozepur Tahsil transferred to Bhatinda Tahsil of Bhatinda District	(−)180·0	
Fazilka Tahsil	Fazilka Tahsil	1,339·0	
	Plus:— 90 villages transferred from Muktsar Tahsil	(+)152·0	Details of transfer are given in Annexure at No. 2
	Minus:—(i) 2 villages Mohd. Yar Chishti and Chak Mohd. Usman totally and 12 villages partly (Population nil) transferred to Pakistan	(−)11·0	Details of transfer are given in Annexure at No. 3
	(ii) 95 villages transferred to Muktsar Tahsil	(−)437·0	Details of transfer are given in Annexure at No. 4
Ferozepur Tahsil	Ferozepur Tahsil	680·0	
	Minus:—Entire Nathana Sub-Tahsil transferred to Bhatinda Tahsil of Bhatinda District	(−)180·0	
	Plus:— 113 villages transferred from Muktsar Tahsil	(+)188·0	Details of transfer are given in Annexure at No. 5
Zira Tahsil	Zira Tahsil	494·0	
Moga Tahsil	Moga Tahsil	646·0	
Muktsar Tahsil	Muktsar Tahsil	926·0	
	Plus:— 95 villages transferred from Fazilka Tahsil	(+)437·0	Details of transfer are given in Annexure at No. 6
	Minus:—(i) 113 villages transferred to Ferozepur Tahsil	(−)188·0	Details of transfer are given in Annexure at No. 7
	(ii) 90 villages transferred to Fazilka Tahsil	(−)152·0	Details of transfer are given in Annexure at No. 8

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1% of workers of the respective Division (less than 0.5% in case of Minor Groups of Division 2 & 3) have been shown in this Appendix. The following abbreviations have been used :—

HI=Household Industry

NHI=Non-Household Industry

M=Males

F=Females

Ferozepur District

006: Total HI (M4), NHI (M127), Urban HI (M3), NHI (M79). **007**: Total HI (M1), NHI (M39, F45), Urban HI (M1), NHI (M39, F25). **009**: Total HI (M1), NHI (M41), Urban HI (M1), NHI (M4). **010** : Total NHI (M1), Urban NHI (M1). **015**: Total NHI (M48), Urban NHI (M1). **020**: Total NHI (M 155), Urban NHI (M51). **021**: Total NHI (M55, F3), Urban NHI (M11). **023**: Total NHI (M129, F4), APPENDIX TO TABLE B-V

Families having less than 1% of Workers of the respective Division, (less than 0.5% in case of Families of Division 7-8) have been shown in this Appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

M=Males

F=Females

Ferozepur District

APPENDIX TO TABLE B-VII PART A

Major Groups of Household Industry, where Persons having Secondary Work as Cultivation or Agricultural Labour, are less than 5 % of the persons having the Major Group as Principal Work, have been shown in this Appendix.

The following abbreviations have been used :—

I = Cultivator;

II = Agricultural Labourer;

M = Males ; and

F = Females.

Ferozepur District

04: Total I (M 215, F72), II (M 46, F 9), Rural I (M 189, F 71), II (M 42, F 9), Urban I (M 26, F1), II (M 4). **20** : Total I (M 30, F 7), II (M 1), Rural I (M 27, F 7), Urban I (M 3), II (M 1). **23** : Total I (M 17, F 40), II (M 21, F 1), Rural I (M 17, F 40); II (M 20, F 1), Urban II (M 1). **27:** Total I (M 31, F 26), II (M5), Rural I (M30, F 26), II (M 5), Urban I (M). **31:** Total I (M 39, F 1), II (M 14), Rural I (M 39, F 1), II (M 14). **33:** Total I (M 1), Urban I (M 1). **34-35:** Total I (M 4), II (M 2), Rural I (M4), II (M2) **38** Total I (M 1), Urban I (M1). **39** Total I (M 13), II (M1), Rural I (M 13) II (M 1).

APPENDIX TO TABLE B-XIII

Major Groups of Household Industry having less than 10 per cent of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used :—

A means Less than 1 Acre
B means 1.0—2.4 Acres
C means 2.5—4.9 Acres
D means 5.0—7.4 Acres
E means 7.5—9.9 Acres
F means 10.0—12.4 Acres
G means 12.5—14.9 Acres
H means 15.0—29.9 Acres
I means 30.0—49.9 Acres
J means 50+ Acres
K means Unspecified

Ferozepur District

Rural 23 (B-5, C-2, D-2, E-6, F-7, G-1, H-12, I-4, J-1, K-1) ; **24** (B-2, D-1, H-1) ; **31** (A-1, B-9, C-2, D-4, E-1 F-1, I-1); **34-35** (D-1, H-1), **38** (B-1, C-1, H-1) ; **39** (D-2, E-2, G-1, H-3).

Urban 28 (F-1) ; **31** (I-1) ; **34-35** (H-1) ; **36** (F-1) ; **37**(H-1) ; **38**(C-1).

APPENDIX TO TABLE B-XIV PART A

Major Groups of Household Industry having less than 10 per cent of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used :—

A	means	1 Person
B	means	2 Persons
C	means	3—5 Persons
D	means	6—10 Persons
E	means	More than 10 Persons
F	means	Number of Persons not specified

Fero zepur District

00 Total (D-1), Rural (D-1); **20** Total (A-111, B-155, C-17, D-3), Rural (A-79, B-40, C-12, D-2), Urban (A-32, B-15, C-5, D-1); **21** Total (A-4), Rural (A-1), Urban (A-3); **24** Total (A-4, B-4, C-2), Rural (A-4, B-4, C-2) ; **25** Total (A-1), Rural (A-1) ; **29** Total (A-1, B-1), Rural (A-1), Urban (B-1); **33** Total (A-8, B-8, C-7, D-4, E-1), Rural (A-4, B-4, C-6, D-4, E-1), Urban (A-4, B-4, C-1) ; **34-35** Total (A-39, B-42, C-36, D-3), Rural (A-31, B-31, C-31, D-3), Urban (A-8, B-11, C-5) ; **36** Total (A-141, B-59, C-27, D-1), Rural (A-116, B-50, C-23), Urban (A-25, B-9, C-4, D-1); **37** Total (A-5, B-1), Rural (A-2, B-1), Urban (A-3); **38** Total (A-34, B-7, C-3), Rural (A-17, B-4, C-2), Urban (A-17, B-3, C-1); **39** Total (A-81, B-29, C-13), Rural (A-62, B-22 C-13), Urban (A-19, B-7).

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

PART B—Households Classified by Minor Groups of Principal Household Industry

Code No. of I.S.I.C.	Household Industry (Description)	Number of Households		
		Total	Rural	Urban
1	2	3	4	5
	Ferozepur District			
	All Industries	**3,339**	**2,704**	**635**
0090	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above	1	1	..
0401	Rearing of goat for milk and animal power	41	35	6
0402	Rearing of buffalo for milk and animal power	4	3	1
0405	Production and rearing of livestock mainly for milk and animal power n.e.c.	544	494	50
0411	Sheep breeding and rearing	122	119	3
0431	Poultry keeping and production of eggs	4	4	..
0432	Rearing and production of ducks, hens, etc. and other small birds, e.g., pigeons, parrots, peacock maina etc.	1	1	..
0484	Production of other animal husbandry products such as skin, ivory, teeth, and hair, etc.	20	14	6
1074	Quarrying of sand, clay, gravel etc., n.e.c.	1	1	..
2001	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.	49	43	6
2006	Parching of grains	71	61	10
2007	Production and processing of other crops and food grains, n.e.c.	2	2	..
2021	Gur and khandsari making from sugarcane and palm	6	6	..
2050	Production of bread, biscuit, cake and other bakery products	2	1	1
2060	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products	7	4	3
2070	Oil pressing ghani, kolhu or by small machines	7	7	..
2092	Making of sweet-meats, ladu, peda, barphi, batasa, etc.	39	9	30
2093	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.	1	..	1
2095	Making of chat	2	..	2
2142	Production of aerated water such as sodawater, lemonade, etc.	3	..	3
2191	Preparation of sharbats and squashes	1	1	..
2300	Cotton ginning, cleaning, carding, pressing and baling	8	6	2
2310	Cotton spinning (by charkha and takali)	66	56	10
2331	Dyeing of cloth (cotton) and yarn	13	4	9
2350	Cotton cloth weaving in handlooms	321	290	31
2360	Manufacture of khadi textile in handlooms	17	17	..
2410	Jute spinning and weaving of mats, asanis, etc.	1	1	..
2442	Making of rope and cordage, out of jute	1	1	..
2446	Making of other products from jute and similar fibres such as hemp, mesta	8	8	..
2550	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.	1	1	..
2701	Making of durries	1	1	..
2723	Traditional embroidery	1	1	..
2728	Making of other embroidery products n.e.c.	7	4	3
2732	Traditional garments	358	268	90
2741	Weaving of khes, bed-covers, curtains, pillow cases and table-cloth, cloth bags, etc.	15	10	5
2743	Manufacture of other made-up textile, goods like mattress, quilt, rezai, etc., n.e.c.	2	2	..
2793	Manufacture of other textile products n. e. c.	1	1	..
2800	Sawing, planing and milling of wood	5	2	3
2810	Manufacture of wooden furniture and fixtures	7	2	5
2820	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	6	1	5

Note .—Lines with nil entries have been ommitted.

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY

(Based on 20 per cent Sample)

PART B—Households Classified by Mnor Group of Principal Household Industry

Code No. of I.S.I.C.	Household Industry (Description)	Number of Households		
		Total	Rural	Urban
1	2	3	4	5
	Ferozepur District—concld.			
2831	Carpentry works concerned with repairs of agricultural implements (wood)	84	80	4
2849	Manufacture of other wooden products n.e.c.	166	145	21
2870	Manufacture of boxes and packing cases other than plywood	1	1	..
2882	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes	210	173	37
2884	Making of sirki, moora and chhaj	49	20	29
2885	Making of baskets and broomsticks	21	18	3
2887	Caning of chairs	1	..	1
2888	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo	1	..	1
2889	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n.e.c.	1	..	1
2893	Making of cart wheels	7	2	5
2894	Manufacture of other wood and allied products, n.e.c.	2	2	..
2921	Making of envelopes and paper bags	2	1	1
3101	Flaying, processing of hides and skins including taxidermy	1	1	..
3102	Currying, tanning and finishing of hides and skins, preparation of finished leather	28	14	14
3111	Making of leather boots, shoes or chappals (slippers, sandals)	392	289	103
3130	Manufacture of leather products such as leather upholstery suit-cases, pocket-books, Cigarette and key cases, purses, saddlery, whip, acquaducts (kos) charsa and other articles	2	..	2
3140	Repair of shoes, chappals and other leather footwear	55	49	6
3354	Manufacture of powder, snow, cream, bindi, tikali, hair oil and nail polish	1	1	..
3357	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations	3	1	2
3361	Manufacture of soap and washing soda	20	14	6
3362	Manufacture of other washing and cleaning compounds n.e.c.	1	1	..
3395	Manufacture of other chemicals products n.e.c.	3	2	1
3401	Making of bricks	32	32	..
3500	Making of earthenware such as pottery, etc.	84	63	21
3531	Making of glass bangles	1	1	..
3561	Making of earthen toys and artware	3	..	3
3651	Making of utensils of brass and bell metal	2	1	1
3672	Making of articles from tin sheets	4	..	4
3683	Engraving, embossing, polishing and welding of metal products	9	7	2
3691	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.	133	120	13
3693	Making of iron utensils (e.g. buckets, etc.) and articles from iron sheets	2	2	..
3694	Making and repairing of locks and trunks	3	..	3
3698	Foundry industry (including blacksmithy)	75	59	16
3720	Manufacture of small machine tools and machine parts	1	1	..
3730	Manufacture of sewing machine parts	2	1	1
3773	Manufacture of other batteries n.e.c.	1	1	..
3780	Repairing and servicing of radios	2	..	2
3840	Repairing and servicing of automobiles	1	..	1
3880	Repair of cycle and rickshaw	29	15	14
3890	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palki cab, wheel barrow, hand barrow, etc.	14	8	6
3920	Repairing and servicing of watches and clocks	2	..	2
3932	goldsmithy	103	79	24
3991	Making of tikka and cowdung cakes	2	2	..
3994	Making of lac bangles	1	1	..
3999	Making and repairing of goods n.e.c.	15	15	..

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry, having less than 10 per cent of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used :—

In addition to Cultivation		Without Cultivation	
A means	1—3 Months	E means	1—3 Months
B means	4—6 Months	F means	4—6 Months
C means	7—9 Months	G means	7—9 Months
D means	10 Months to 1 Year	H means	10 Months to 1 Year
X means	Months not stated	Y means	Months not stated

Ferozepur District

00 Total (H-1), **Rural** (H-1), **20** Total (A-11, B-4, C-2, D-28, X-5, E-9, F-3, G-1, H-159, Y-14), **Rural** (A-11, B-4, C-2, D-24, X-5, E-8, F-2, G-1, H-111, Y-11), **Urban** (D-4, E-1, F-1, H-48, Y-3), **21 Total** (F-3, H-1), **Rural** (H-1), **Urban** (F-3), **24 Total** (C-1, D-3, F-2, G-1, H-6, Y-1), **Rural** (C-1, D-3, F-2, G-1, H-6, Y-1), **25 Total** (H-1), **Rural** (H-1), **29 Total** (E-1, H-1), **Rural** (E-1) **Urban** (H-1), **33 Total** (E-1, F-7, H-20), **Rural** (E-1, F-7, H-11), **Urban** (H-9), **34-35 Total** (B-1, D-2, E-4, F-22, G-10, H-80, Y-4), **Rural** (B-1, D-1, E-2, F-16, G-8, H-66, Y-4), **Urban** (D-1, E-2, F-6, G-2, H-14), **36 Total** (A-1, B-3, D-52, X-2, E-2, F-4, H-214, Y-8), **Rural** (A-1, B-3, D-51, X-2, E-1, F-1, H-180, Y-7), **Urban** (D-1, E-1, F-3, H-34, Y-1), **37 Total** (D-1, H-6), **Rural** (H-3), **Urban** (D-1, H-3), **38 Total** (D-4, E-1, H-40, Y-3), **Rural** (D-3, H-21, Y-2), **Urban** (D-1, E-1, H-19, Y-1), **39 Total** (B-1, D-6, X-1, E-2, F-9, G-2, H-103, Y-7), **Rural** (B-1, D-6, X-1, E-2, F-9, G-1, H-79, Y-6), **Urban** (G-1, H-24, Y-1).

PART IV

DIRECTORY

Information is presented separately for each Tahsil of the District as under:

A. Village Directory (Rural Areas), and

B. Town Directory (Urban Areas).

	: Towns	lxxviii
Muktsar Tahsil	: Villages	lxxxii
	: Towns	xcii

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified by sex and main industrial categories. The term *village*, in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an *estate*. This definition of village is identical with that of *mauza* under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as *mauza*, but the smaller units are called *tikkas* in Kangra District, except in Kulu where the revenue estate is termed as *kothi* and the smaller unit as *phati*. In Lahaul and Spiti District, the revenue estate is referred to as *kothi* and its smaller component as *gaon*.

2. Villages having no population have been shown as *Uninhabited*. They have been retained in the Directory since they bear Hadbast Numbers.

3. In the Village Directory, villages are presented Tahsilwise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961 Census work, as far as possible arranging the villages from north-west to south-east. The Hadbast Numbers are shown in **Column 2**. The Tahsil map shows the location of each village identified by its Hadbast Number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having:

(a) a population of over 5,000; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on *amenities* based on the *Village Notes* prepared by the Patwaris at the time of the 1961 Census. These *Village Notes* contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* relate to education, medical facilities, Post and Telegraph, safe water-supply and electrification, and are indicated by the following abbreviations:—

P—Primary School.

M—Middle School.

H—High School.

C—College, including higher institutions.

T—Technical Institution.

D—Dispensary.

Rhc—Rural Health Centre.

Hos—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post Office.

P&T—Post and Telegraph Office.

S—Safe or protected supply of drinking water.

E(A)—Electricity for agricultural use.

E(D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self-Government.

7. **Column 5** relates to *occupied houses,* i.e., houses used as dwellings, or conjointly as dwellings and for some other purpose, e.g., shop-cum-dwellings. **Column 6** shows the number of *households.* A *household* means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A. dated the 29th October, 1956 and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A *literate* person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as *educated.*

10. **Columns 16 to 37** present figures for *Workers* and *Non-workers.* For the definition of the term *Workers* and a *Non-worker* and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by Roman numerals:

I—Working as cultivator (owner cultivator or tenant).

II—Working as agricultural labourer.

III—Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

IV—Working on household industry.

V—Working in manufacturing other than household industry.

VI—Working in construction.

VII—Working in trade and commerce.

VIII—Working in transport, storage and communications.

IX—Working in other services.
