'REMANENTS OF MARTYR'S GARHI'

Martyr Sri Dariyao Singh was born in 1795 in Village Khaga of district Fatehpur. He was one of the chief associates of Peshwa Nana Saheb. He valiantly fought the British troops for a long time. Along with his two sons and a few associates, he suffered a capital sentence on 6th March, 1858. During the first freedom struggle of 1857, his Garhi suffered the onslaught of British cannons, and the remanents of the martyr's Garhi are depicted in the motif.

ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the Village and Block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G.A.D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintedent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Shri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandrasekhar, Registrar General, India, Sri K.D. Ballal, and Dr. B.K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations
Uttar Pradesh.

Lucknow
Dated : October 3, 1972.

INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and Scheduled Castes/Scheduled Tribes.

Part B represets data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex,

scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc. in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. **Town Directory.**—Given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three under mentioned conditions :
   (*i*) Population exceeds 5,000.
   (*ii*) At least 75% of the male working population engages in non-agricultural pursuits, and
   (*iii*) The density of population exceeds 1,000 persons per Sq. mile (386 persons per Sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) **Statement I**—This statement presents the population of the towns at the end of each decade from 1901, to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(*i*) Primary Activities—Categories I, II, III & IV

(*ii*) Industry—Categories V (a), V (b) and VI

(*iii*) Trade and Commerce—Category VII

(*iv*) Transport—Category VIII, and

(*v*) Services—Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or above, the town is designated as bifunctional. If the total does not yield 60% the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The altitudes of the towns given in column 3 have been supplied by the Surveyor General of India.

(c) **Statement III**—It reveals the Municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the towns have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Column 3	PR	For Pucca Road
	KR	For Kachcha Road
Column 4	PT	For Pit Tank
	OSD	For Open surface drain
Column 8	B	For Basket
	HC	For Hand Cart
	HL	For Head Load
	MT	For Mechanical Transport
Column 9	TW	For Tube well
	OHT	For Overhead Tank

(e) **Statement V**—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Column 3	H	For Hospital
	D	For Dispensary
	HC	For Health Centre

	FC	For Family Planning Centre
	TBC	For T.B. Clinic
	MCW	For Maternity and Child Welfare Centre
Column 5	AS	For Arts and Science College
Column 17	PL	For Public Library
	RR	For Reading Room

(f) Statement VI : This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) Statement VII—The census Table C VII giving distribution of population by religion and scheduled castes/schedule tribes has been reproduced in this statement. Where sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others.'

(4) Village Directory reveals the general living conditions of peasantry and the over all development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water communications, Post and Telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/hat and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purposes only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information had been presented with the help of the following abbreviations :

In Column 4

JBS	for Junior Basic School
SBS	for Senior Basic School
HSS	for Higher Secondary School
C	for College
O	for Others

In Column 5

H	for Hospital
D	for Dispensary
FC	for Family Planning Centre
HC	for Health Centre
MCW	for Maternity & Child Welfare Centre
O	for Others

In Column 6

E	for Electricity

In Column 7

T	for Tap
HP	for Hand Pipe
W	for Well
WE	for Well with Electricity
TK	for Tank
R	for River
F	for Fountain
C	for Canal
WF	for Waterfall
L	for Lake.
TWE	for Tube-well with Electricity
O	for Others

In Column 8

KR	for Kachcha Road
PR	for Pucca Road
T	for Train
CR	for Canal Road
R	for River
C	for Canal

In Column 9

PO	for Post Office
TO	for Telegraph Office
PTO	for Post and Telegraph Office
Phone	for Telephone

In Column 12

T	for Total
C	for Canal
W	for Well
WE	for Well with Electricity
TW	for Tube-well
TWE	for Tube-well with Electricity
TK	for Tank
R	for River
WF	for Waterfall
L	for Lake
F	for Fountain
O	for Others

In Column 18

T	for Temple
M	for Mosque
C	for Church
G	for Gurudwara
HP	for Historical Place
RP	for Religious Place
A	for Archaeological monument
EA	for Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil wise break up.

THE DISTRICT

A—TOWN DIRECTORY

(a) Statement I—Fatehpur district has two towns, namely Bindki and Fatehpur. There is no change in the total number of towns as compared to 1961. The functional distribution of the towns is as follows :—

TABLE 1

Functional Category	Name of Towns
(i) Industry-*cum*-Services-*cum*-Commercial	Bindki
(ii) Primary activities-*cum*-Services	Fatehpur

Fatehpur, the headquarters of district, is a bi-functional town comprising 34.90 per cent Primary activities and 31.40 per cent service class. Bindki is a multi-functional town comprising 28.50 per cent Industrial, 27.40 per cent Service and 22.74 per cent Commercial workers.

(b) Statement II—The physical and locational aspects have been covered in this statement. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi so the information given in Col. 4—6 relates to the nearest observatory in the adjoining town Fatehpur. The figures reveal that both the towns enjoy the same rainfall.

(c) Statement III—The Per Capita receipt and expenditure by the local bodies in the two towns is as below :

TABLE 2

Class of Towns	No. of Towns	Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health and convenience	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class II 50,000 to 99,999 Fatehpur.	1	25.86	14.99	10.87	24.31	5.41	3.68	15.22
Class IV 10,000 to 19,999 Bindki.	1	14.88	10.94	3.94	14.42	4.19	2.70	7.53

The per capita receipt of Class II and IV towns is Rs. 25.86 and 14·88 respectively. Against this the per capita expenditure is Rs. 24.31 and 14.42 respectively. The expenditure in both the towns is less than the total receipts.

(d) **Statement IV**—Both towns have protected water supply as well as road lighting arrangements. Fire fighting service is not available in any of the towns. There is no arrangement of mechanical transport for removing night soil and hand carts and baskets are used for the purpose in the towns of the district.

(e) **Statement V**—Bindki town has 2 hospitals and 1 family planning centre. Fatehpur has 5 hospitals, 1 dispensary, 2 family planning centres and 1 T. B. Clinic. It is clear from the table that Fatehpur town has better medical facilities than Bindki.

TABLE 3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
(1)	(2)
162	2(2.25)

The number of beds in the hospitals of the district has increased from 135 in 1960 to 162 in 1969.

One Degree College having Arts faculty is located in Fatehpur while Bindki town is devoid of such a facility. There is no Medical College, Engineering College or Polytechnic in any of the two towns. The number of Higher Secondary, Senior basic and Junior basic schools (1969) per 1,000 population is given in the following table :—

TABLE 4

Name of Town	No. per 1,000 population		
	Higher Secondary	Middle	Primary
1	2	3	4
Bindki	0.02	0.02	0.09
Fatehpur	0.01	0.01	0.02

Bindki and Fatehpur possess 1 and 2 Cinema halls respectively. The facility of 1 public library in Bindki and 1 in Fatehpur are available to the residents.

(f) **Statement VI**—The articles manufactured in Bindki town are mustard oil and pressed buttons. In Fatehpur town, mustard oil is the main manufactured commodity. The most important commodities imported in Bindki and Fatehpur towns are iron and cement. Bicycles are also imported in the towns.

(g) **Statement VII**—The population of all the towns is largely shared by Hindus and Muslims. In both the towns, Muslims comprise 34.28 per cent of the population as against 64.13 per cent Hindus. The percentage growth of Hindu and Muslim population of these towns during the last decade is 42.13 and 35.20 respectively.

The percentage of scheduled caste to the total urban population in the district is 13.46. There are no persons belonging to scheduled tribes.

B—VILLAGE DIRECTORY

(a) According to their area in acres the villages have been stratified in the following table.

TABLE 5

Area (in acres)	No. of Villages	Percentage
1	2	3
50 acres or less	129	8.45
51—100	99	6.48
101—200	175	11.46
201—500	451	29.54
501—1000	370	24.23
1001—2000	219	14.34
2001—5000	77	5.04
5001 acres and above	7	0.46
*Total	1,527	

*The Total No. of villages in the district are 1530. Three villages whose area is not available are not included in this table.

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 53.77. Thereafter, the number of villages goes on decreasing as the size of villages increases. There are only 7 villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 129 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table:—

TABLE 6

Distance from the nearest town (in kms.)	Total No. of villages	No. of villages having				
		Primary School	Middle School	Higher Secondary School	Colleges	Others
1	2	3	4	5	6	7
0—5	56	15	2	1	—	—
6—10	141	49	7	3	—	—
11—15	186	79	11	4	—	—
16—25	358	164	28	4	—	—
26—50	561	218	31	14	—	—
51—100	226	87	14	6	—	—
101—200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—
*Total	1528	612	93	32	—	—

*Total is exclusive of 2 villages whose information is not available.

The above table shows that the largest number of institutions (46.88 per cent) including Higher Secondary Schools exist in the villages situate between 26 to 50 kilometres from the nearest town. The villages which lie within a radius of 5 kms. have the least number of institutions (32.14 per cent).

(c) 16 villages in district Fatehpur have hospitals. If all kinds of medical institutions including dispensaries, health centre etc. are taken into account, 71 villages out of 1528 have medical institutions.

The following table presents the number of medical institutions per 100 sq. kms.

TABLE 7

Name of Tahsil	Total area (in sq. kilometres)	No. of medical institution of any kind per 100 sq. kilometres
1	2	3
Bindki	1283.33	1
Fatehpur	1625.51	2
Khaga	1231.78	1

It transpires that tahsils Bindki and Khaga each have one medical institution per 100 sq. kms. Fatehpur is slightly better off having 2 institutions per 100 sq. kms.

(d) 153 villages are electrified in the district out of 1528 villages. Their percentage comes to 10.01.

The largest number of electrified villages (87) lie in Tahsil Bindki and minimum in Tahsil Khaga (19). The power supply in villages with reference to their distance from the nearest town is given in the following table :-

TABLE 8

Distance from the nearest town	Total No. of villages	Number of villages with Electric Power Supply	
		Electrified	Percentage of total electrified villages to total villages
1	2	3	4
0—5	56	16	23.57
6—10	141	25	17.73
11—15	186	19	10.21
16—25	358	53	14.80
26—50	561	36	6.42
51—100	226	4	1.77
101—200	—	—	—
201 and above	—	—	—
*Total	1528	153	10.01

*Total is exclusive of 2 villages whose information is not available.

The percentage of electrified villages to the total villages is highest (23.57) for those, situate within a radius of 5 kilometres and the minimum percentage of 1.77 is for those situate at a distance of 51 to 100 kms. from the nearest town. It is evident from the above table that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town.

(e) 27 villages of the district are connected by rail, out of the total number of 1528 villages. 17.08 per cent are connected by pucca road and 2.29 per cent by kachcha and pucca roads. The percentage of villages having only kachcha roads is 29.71. The nature of communications have been shown in the following table, where the villages have been classified according to their distance from the nearest town.

TABLE 9

Distance from the nearest town	Total No. of villages	No. of villages connected by							
		PR	KR	PR & KR	PR & R	KR & R	PR & T	KR & T	Others
1	2	3	4	5	6	7	8	9	10
0— 5	50	19	8	—	—	—	1	—	1
6—10	141	49	38	5	—	—	4	3	3
11—15	186	52	46	6	1	—	5	2	3
16—25	358	49	112	5	2	4	5	4	23
26—50	561	80	141	19	—	—	2	1	29
51—100	226	6	108	—	—	1	—	—	12
101—200	—	—	—	—	—	—	—	—	—
201 and above	—	—	—	—	—	—	—	—	—
*Total	1528	261	454	35	3	5	17	10	76

*Total is exclusive of 2 villages whose information is not available.

It is evident from the above table that the villages nearest to the town have better facilities of communications.

(f) There are in all 149 post offices in the rural areas of the district. On an average, 1 post office caters to the need of about 10 villages. The number of post offices per 100 sq. kms. in the various tahsils have been shown in the following table :

TABLE 10

Name of Tahsil	Total area (in Sq. kilometre)	No. of Post Offices per 100 Sq. kilometres
1	2	3
Bindki	1283.33	4
Fatehpur	1625.51	4
Khaga	1231.78	4

In all the Tahsils, the average number of post offices is 4 per 100 sq. kms.

(g) Wheat and rice are the staple food in the district.

(h) The cultivated area is 72.08 per cent of the total rural area of the district, of which 28.17 per centis irrigated area.

The table given on next page shows the average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

TABLE 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivated waste per village to average cultivated-land per village
1	2	3	4	5	6	7
0—5	56	23931	427	4922	88	20.6
6—10	141	59525	422	9182	65	15.4
11—15	186	89873	483	12136	65	13.5
16—25	358	178847	500	24387	68	13.6
26—50	561	273506	487	54873	98	20.12
51—100	226	111859	495	18321	81	16.4
101—200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—
*Total	1528	737541	483	123821	81	16.8

*Total is exclusive of 2 villages whose information is not available.

The average area of cultivated land per village is highest (500) in the distance group of 16 to 25 kms. followed by 495 in the distance group of 51 to 100 kms. It is lowest (422) in the distance group 6 to 10 kms. The average cultivable waste per village is 98 in the distance group of 26 to 50 kms. It is 88 per village in the distance group of 5 kms. or less. The average area of cultivable waste per village is lowest (65) in the distance group of 6 to 10 and 11 to 15 kms. The percentage of average cultivable waste to average cultivated land per village is highest (20.12) in the distance group 26 to 50 kms. whereas it is only 15.40 per cent in the case of villages in the distance group 6 to 10 kms.
