RAIL-CUM-ROAD BRIDGE ACROSS RIVER GODAVARI AT RAJAHMUNDRY

The motif on the cover page represents the longest rail-cum-road bridge in Asia built across the river Godavari at Rajahmundry.

Godavari is the most important river in Andhra Pradesh often referred to as 'Dakshina Ganga'. Taking its origin in the Western Ghats near Nasik and after cutting across the Eastern Ghats through the magnificent Papi Hills gorge, Godavari emerges at Polavaram into the coastal plain. From hereon, the river widens and assumes majestic proportions of about 3 kms. at Rajahmundry and nearly 6 kms. at Dowleshwaram, before it flows into the Bay of Bengal near Kakinada on the East Coast.

At Rajahmundry, the vital Madras-Howrah East-Coast line crosses the Godavari and a single line bridge constructed in 1900 A. D. at a cost of Rs. 48 lakhs, spans the river. The old bridge consists of 56 spans of 45.7 metres (150 ft.) and a land span of 12 metres (40 ft.) totalling 2,771 metres (9,096 ft.) between the abutments.

The Howrah-Madras line is one of the vital Railway trunk-routes in the country carrying principally coal, steel and surplus food grains from the rich agricultural lands of coastal Andhra Pradesh to the south. The Waltair-Gudur section of this route carries heaviest traffic on the South Central Railway. to cater to the increased traffic, arising out of various developmental activities, doubling of the track on this section was found necessary. The new bridge across Godavari at Rajahmundry was, therefore, proposed as a part of this doubling and with the commissioning of this bridge. The absence of a road bridge at this point has been keenly felt by the public and at the request of the Government of Andhra Pradesh, a road deck has been added on to the new bridge, making it a rail-cum-road bridge.

The rail-cum-road bridge has 27 spans of each 91.40 metres (300 ft.) and 7 spans of each 45.70 metres (150 ft.) making up a total length of 2,935 metres (9,594 ft.) between abutments. The cost of the bridge is Rs. 12,22 crores. This includes the cost of Rs. 5.22 crores for the road deck and the road approaches which is borne by the State Government.

The National Highway No. 5 connecting Madras and Calcutta takes diversion over Siddantham and Alamuru bridges. The present road, traffic between Madras and Calcutta and to the important parts of Kakinada and Vishakhapatnam is quite heavy. The future trend also indicates a substantial increase in traffic. The construction of the road deck on this second Godavari bridge avoids the diversion and not only reduces the distance between Madras and Calcutta by 40kms, but also provides all-weather communication throughout the year.

The work on the road deck portion on the bridge has been carried out by the Railway while road approaches on either side have been constructed by the Roads & Buildings Department of the Government of Andhra Pradesh. Special consideration was given to provide well designed and adequate illumination for the safety of vehicular traffic during night times. The entire installation work has been done by the Railway.

The rail-cum-road bridge was declared open to traffic by the then Honourable President of India, Sri Fakruddin Ali Ahmed on 20th November, 1974.

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Section-I & II of the volume contains village and town directory and Section-III, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto taluk/town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I. A. S., Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
the 26th April, 1982,

P. PADMANABHA
Registrar General, India

PREFACE

The District Census Handbook, a valuable publication containing census information has become a constant guide in the fields of planning and administration right from the village to State level, besides serving the needs of academicians and researchers. This publication provides Primary Census Abstract data upto grass root level for both rural and urban areas. It also provides data on infrastructure and amenities available in villages and towns.

Sri P. Padmanabha, I. A. S., Registrar General, India, in his foreword has succinctly explained the scope and contents of District Census Handbook from 1951 to 1981. A review of this publication for the last three decades reveals tremendous improvement in the presentation of data. The District Census Handbook of 1981 Census comprises of two parts - Part A - detailed analytical note supported by a number of inset tables based on census and non-census data in relation to infrastructure and Part B - village and town directory as well as Primary Census Abstract of villages and towns, and these two parts are composed in a single volume. An attempt has been made to provide exhaustive data on infrastructure aspects to meet the Minimum Needs Programme of the Planning Commission. Certain new features like, location of adult literacy centre, availability of the services of community health worker and method of approach to village, in the village directory format and certain additional features like access to adult literacy programme, existence of working woman's hostel and presentation of data on civic amenities on notified towns by size class of town in town directory, are sequel to the Minimum Needs Programme.

Analytical notes have been incorporated, explaining the history of the district with changes, if any, of the district or of the taluk or of the villages between 1971–81, besides the census concepts, codes used in various statements and places of tourist interest. District and taluk maps which are prepared in this office on the basis of maps certified by the competent authorities also have been incorporated. In the district map, just to avoid overcrowding, the villages having more than 5,000 population alone have been shown by names. For the rest, one has to refer to the alphabetical list of villages of each taluk, presented in Part B of this publication.

This publication is a joint venture of both Central and State Governments. The processing including compilation, tabulation and finalisation of the write up, is done in the Office of the Director of Census Operations, while the cost of the paper and printing required for this publication is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of publication for 1981 District Census Handbooks. I am grateful to the A. P. State Government and in particular to the Chief Secretary, Sri S.R. Rama Murthy, I.A.S., for his co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for selecting good private presses to print these Handbooks. The data presented in the village and town directories are obtained from the State and Central Government departments, but for whose co-operation, Part A and B of the Handbooks could not have been compiled. I am thankful to all those departments which have provided the data required.

I am extremely grateful to Sri P. Padmanabha, I.A.S., Registrar General and Census Commissioner for India and Sri N. G. Nag, Deputy Registrar General for formulating the contents of the Handbook in detail. I have also been considerably assisted by Dr. B. K. Roy, Deputy Registrar General (Map) and Sri M. M. Dua, Senior Research Officer (S.S.).

The arduous task of collection, compilation, scrutiny and preparation of analytical note of this volume laid heavy burden on the staff of the District Census Handbook section. The credit goes chiefly to Sri B. Satyanarayana who worked as Assistant Director as well as Deputy Director of Census Operations

while handling this subject. He took great pains to tour the districts, contact various officers of the district and culled out information from various sources. Sri Y. G. Krishna Murthy, Deputy Director of Census Operations and Sri A. C. Reddy, Assistant Director of Census Operations of my office have also involved themselves in the processing of this most important census publication programme. Sri Shyam Deo, Research Officer ably guided the preparation of the maps included in this publication.

The following officials of my office worked on the present volume of East Godavari District Census Handbook.

Smt. P. Lalitha, Investigator Sri N. C. Hanumantha Reddy, Tabulation Officer Smt. P.A.M. Tayaru Tabulation Officer	Drafting & Scrutiny and Supervision of Printing
Sri Khamolal, Statistical Assistant Sri K. Ramesh Reddy, Computor	Supervision of Printing
Sri G. K. Yadagiri, Statisical Assistant Smt J. Sitamahalaxmi, Statistical Assistant Sri Y. Gopalakrishna Murthy, Statistical Assistant Sri M. Ramprasad, Computor Smt. B. Kusuma Kumari, Computor Kum. Arifa Sultana, Computor Smt A. R. Vidyasri, Computor Smt. S. Ambujam, Computor Smt. N. Sita Kumari, Computor Smt. G. E. Rani, Computor Sri B. Nadavaiah, Computor Sri G. Venkateswara Rao, Computor Smt. B. Padma Chandra, Computor	Collection, Compilation, Scrutiny of maps and proof reading
Dr. Aqueela Begum, Cartographer Sri M. N. Ram Mohan, Senior Artist Sri Syed Ahmed, Senior Artist	Supervision of Mapping work
Smt. Daya Saxena, Artist Sri M. J. Sadiq, Senior Draughtsman Sri Mohiuddin Hasan, Senior Draughtsman Sri B. Raghu Ram, Senior Draughtsman Sri K. Deva Dass, Senior Draughtsman Sri M. A. Qadeer, Draughtaman Sri B. Ramsheshu, Draughtsman Sri T. Trinadh, Draughtsman Sri K. S. P. Reddy, Draughtsman Sri G. Marianna, Draughtsman Sri D. Chiranjeevi Raju, Draughtsman Smt. R.R.S.N. Subba Lakshmi, Draughtsman	Preparation of maps

Sri N. V. Manohar Rao, Senior Steno
Smt. P.V.D. Lakshmi, Junior Steno
Smt. Ch. Lalitha Kumari, Junior Steno
Smt. J. Bharathi, L. D. C.
Sri Md. Khaja Moinuddin, L. D. C.
Sri Md. Ismail, L. D. C.
} Prepartion of fair copies

I am thankful to their services.

My endeavour has been to present data concerning each district as detailed as possible and I hope this volume will prove useful for all data users.

S. S. JAYA RAO
Director of Census Operations

CONTENTS

Part A		Pages
1	Important Statistics of the district	ix—x
2	Map of the district	Facing Page [i]
3	Analytical note	
	(i) Brief history of the district	[1—4]
	(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular	[5—15]
	(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc.	[16—23]
	(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district	[24—28]
	(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes / scheduled tribes, literates, main worker, marginal worker, non-worker, etc.	[29—31]
	(vi) The history of the district census handbook, scope of village directory, town directory statements and PCA	[32—43]
	(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons	[44—64]

Part B

Village and Town Directory and Primary Census Abstract

SECTION I — VILLAGE DIRECTORY

(i)	Note explaining the codes used in the Village Directory	1—2
(ii)	Village Directory with Taluk Map on facing page of alphabetical list	
1	Rampachodavaram Taluk	3—17
2	Yellavaram Taluk	19—47
3	Prathipadu Taluk	49—63
4	Tuni Taluk	65—73
5	Pithapuram Taluk	75—81

		Pages
6	Peddapuram Taluk	83— 87

ANALYTICAL NOTE

EAST GODAVARI DISTRICT

Based upon Survey of India map with the permission of the Surveyor General of India. The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

© Government of India Copyright 1985

HISTORY

A complete picture of the history of the district was presented in 1961 East Godavari District Census Hand Book. In the present volume a very sketchy picture of the district is presented, however, avoiding information of transitory nature.

The history of East Godavari district like the rest of Andhra may be traced to the period of the Nandas. Mahapadma Nanda, the founder of the Nanda dynasty, led expeditions and defeated several monarchs of the north and the Deccan, thus making the Nandas, monarchs of a large portion of the Deccan. The subsequent history of Nanda dynasty is not known, except that, the last ruler Dhana Nanda was overthrown by Chandragupta Maurya in 322 B.C.

Thus, Chandragupta Maurya, the founder of the Mauryan dynasty assumed control over the empire which included a large portion of the Deccan. He was succeeded by his son, Bindusara (297-- 272 B.C.). Bindusara was followed on the throne by Asoka.

After the Mauryas, the district passed under the sway of the Satavahanas. The accession of Hala in about 6 or 7 A.D. lasted for only one year. Though there were no events of political importance during his reign, he won for himself a niche among the great poets of all time. The rule of Gautamiputra Satakarni (A.D. 62-86), Vasishthiputra Pulumayi (A.D. 86-114) and Yajna Sri Satakarni (A.D. 128—157) is evident from the coins excavated. The Satavahanas appear to have ruled till the first quarter of the third century A.D.

Samudragupta, the Gupta ruler, who invaded this district in A.D. 350 came into conflict with the rulers of both, Pishtapura and Avamukta. The local rulers joined the rulers of neighbouring principalities to resist the onslaughts of the Gupta ruler. However, the outcome of this united opposition is not known.

Samudragupta's invasion was followed by the rule of a line of kings belonging to the Matharakula. Their rule extended roughly from 375 A.D. to 500 A.D. The earliest known ruler of the dynasty was Maharaja Saktivarman. The districts passed into the hands of the Vishnukundin during the rule of Vikramendravarma I. They ruled for over two centuries from the first quarter of the 5th Century A.D. or slightly earlier. The records discovered indicate that their dominion extended over Vishakhapatnam, West Godavari, Krishna and Guntur besides the present East Godavari district. Ranadurjaya, a member of the Durjaya family, ruled Pistapuram or Pithapuram as a Vassal of Vikramendravarma in recognition of his services to the State. Another Vishnukundin ruler Indrabhattaraka, defeated the rulers of Vasishtakula and re-established his authority over this region. His success was, however, short-lived. The early Gangas of Kalinga with the support of some petty rulers, completely routed Indrabhattaraka's army. This resulted in the Vishnukundin's power suffering a severe set-back. Indrabhattaraka was followed on the throne by a few others belonging to the same family. Madhavavarma III was the last important ruler of this family. Madhavavarma III was, however, killed in a battle. He was succeeded by his son, Manchannabhattaraka who strove hard to maintain his hold over the ancestral dominion without much success.

Later, the western Chalukya ruler of Badami Pulakesin II, with the help of his brother Kubjavishnu, attacked Pistapura and emerged victorious. Kubjavishnu was given the newly acquired territories in the east, in token of appreciation of the service rendered by him.

The rulers of Eastern Chalukya dynasty founded by Kubjavishnu, ruled first from Pistapura, next from Vengi and then from Rajamahendri (Rajahmundry). Many rulers held sway over the kingdom and their history is, at times, largely a record of disputes about succession.

Chalukya Bhima I, who ruled during A.D. 892 - 921, built a temple in honour of Siva at Draksharama. In the subsequent period which marked a civil war for power, Amma I, son of Vijayaditya IV, came out victorious and ruled the kingdom for seven years. He was succeeded by his son, Vijayaditya V, who was ousted from power within a fortnight of his accession. He was compelled to take refuge in the fort of Pithapuram, where he founded a dynasty.

Source : Andhra Pradesh district Gazetteer, 1979 – East Godavari PP. 17-42

In 973 A.D. the Eastern Chalukya ruler, Danarnava, was killed and Vengi was occupied by Jata Choda Bhima, of Pedakallu in Kurnool district who ruled for 27 years. The two sons of Danarnava, Saktivarman I and Vimaladitya fled from the kingdom and took refuge in the court of the Chola king, Rajaraja I (A.D. 985 — 1016). Kundavai, the daughter of Rajaraja was given in marriage to Vimaladitya, the younger of the two princes. Rajaraja invaded Vengi on behalf of the sons of Danarnava. In this war, Jata Choda Bhima was killed and Vengi passed into the hands of Rajaraja. This was not liked by Satyasraya, an early ruler of the western Chalukyas of Kalyani. As a result of this, Vengi became the bone of contention between the Cholas and western Chalukyas of Kalyani. The rule of Vijayaditya VII, the last king of the Eastern Chalukya dynasty witnessed an invasion of the Vengi kingdom by the Chedi king of Dahala, Yasahkarnadeva in A.D. 1073. Vijayaditya VII lost his kingdom and with his death in A.D. 1075 the Eastern Chalukya dynasty came to an end.

With the accession of Rajendra under the title of Kulottunga I, an Eastern Chalukyan prince and a rival of Vijayaditya VII, to the chola throne, this district along with the rest of the Vengi kingdom became a province of the Chola empire. These rulers were known as Chalukya - Cholas. Kulottunga I appointed his sons Rajaraja Mummadi Choda, Vira Choda, Rajaraja Choda Ganga and Vikrama Chola, as his Viceroys in Vengi. Vikrama Chola was called back to the south in the same year and the administration of the major portion of this district by Velanadu Chiefs was not effective. This gave an opportunity to the western Chalukya ruler, Vikramaditya VI to reduce the Velanadu chief to subjection. Someswara III succeeded Vikramaditya VI. On the Chola throne, Vikrama Chola was followed by Kulottunga II and Rajaraja II and Rajadhiraja in succession. During Rajadhiraja II's period, the Velanadu rulers became more independent and entertained plans of aggrandisement. A major portion of the district was also ruled by a local dynasty known as Velanati Cholas. The other rulers of this dynasty were Gonka I, Gonka II, Kulottunga Rajendra Chola I and Kulottunga Rajendra Chola II (A.D. 1108—1181).

The Haihayas of Kona and the Eastern Chalukyas of Pithapuram took advantage of the death of Gonka II and asserted their independence. But Kulottunga Rajendra Chola II who succeeded Gonka II, despatched an army headed by his minister, Amritaluri Devana Preggada who defeated the kona chief and reduced them to subjection. Simultaneously Proliya Preggada, the Commander-in-chief of Kulottunga Rajendra Chola II conquered the Eastern Chalukya princess. Kulottunga Rajendra Chola II also came into conflict with the Kakatiya ruler Rudra. Thus the power of Velanadu chiefs reached glorious heights and the entire coastal Andhra came under their rule.

The sudden demise of Kulottunga Rajendra Chola II in A.D. 1181, led to the outbreak of a civil war among Kulottunga Rajendra Chola II's heirs for the possession of the throne. With this, the rule of Velanati Chola over this district ended.

An early ruler of Kakatiya dynasty Prola II threw off the Imperial Yoke of the western Chalukyas of Kalyani and asserted his independence. During his reign, he was opposed by the Haihayas of Kona. Prola II was succeeded by his son Rudra A.D. (1150—1195/6) who obtained the Godavari delta as a fief from the Chalukya Chola emperor Rajaraja II and attempted to avenge the defeat of his father at the hands of Haihayas of Kona. The epigraph at Draksharama dated A.D. 1158 is an evidence of this. Rudra's authority over the Godavari delta was challenged by the Velanadu Cholas. The Velanati Chief, Kulottunga Rajendra Chola II sent an army against Rudra. The Pradhani of Rajendra Chola II, Devana Preggada is said to have first reduced the territory bordering the sea and established himself at Draksharama in A.D. 1163 and then advanced on the Haihayas of Kona and having defeated them he compelled them to acknowledge the supremacy of his sovereign. However, Rudra does not seem to have left them in peaceful possession of this area.

On the death of the Chalukya Chola emperor Rajaraja II in A. D. 1172, Kulottunga Rajendra Chola II took advantage of the break down of the imperial power and made himself the master of the whole of the maritime region. However he died unexpectedly and the power of the Velanadu Cholas suffered a set back.

Rudra was succeeded by his younger brother Mahadeva who died in a conflict with the Yadavas of Devagiri. His son Ganapati succeeded to the Kakatiya throne. He conquered Divi in Krishna district. Ganapati successfully sent an army to Kalinga to reduce it to subjection. The Eastern Ganga ruler Aniyanka Bhima III and his son Narasimha I were conti-

nuously in conflict with Ganapati. Ganapati sent an army across the northern side of Godavari where a great battle was fought and the enemy was forced to beat a hasty retreat. In a conflict with the Pandyas of Madura, Ganapati inflicted a crushing defeat on them and compelled their ally Kopperunjinga to acknowledge his suzerainty. As a result of this victory, the Kakatiya power remained undisturbed in the Godavari valley until the end of Ganapati reign.

Ganapati was succeeded by his daughter Rudramba (A. D. 1259—95). During the latter part of her reign, the whole of Godavari valley appears to have come in full under her sway and remained under her control till the end of her reign. Prataparudra ascended the throne in A. D. 1295. His reign faced many invasions by the Sultan of Delhi. In A.D. 1323, he was defeated by Muhammad-Bin-Tughlaq and sent as a prisoner to Delhi. With this, the district along with the remaining Kakatiya dominion passed into the hands of the Delhi Sultans.

Muhammad-Bin-Tughlaq divided the Deccan and the South India into five provinces and entrusted the job of administering them to the Governors. The rule of the Governors, however, became unpopular. All the Nayakas living therein formed a confederacy and Prolaya Nayaka of Musunuri family, was chosen leader of the confederates. As a result of these rebellions, Kingdoms such as the Reddis of Kondavidu, the Rayas af Vijayanagara, the Recherlas of Rachakonda, the Bahmanis of Gulbarga and the Musunuri chiefs of Warangal came to be established and Prolaya Nayaka became the undisputed leader of Coastal Andhra. After his death Kapaya Nayaka, a cousin of Prolaya Nayaka, succeeded him as the leader of the chiefs of the coastal tract. Kapaya Nayaka's leadership was not able to inculcate a sense of oneness amongst the chiefs, who started acting in an independent manner. Therefore Kapaya Nayaka entrusted the administration of this region to Toyyeti Anavota Nayaka who ruled over it with Rajahmundry as his headquarters. For sometime after the death of Anavota Nayaka in A. D. 1364, Rajahmundry and the region on the eastern bank of the Godavari was without a ruler. The Manchikonda Chief, Mummadi Nayaka of Korukonda and Narasimhadeva IV of Kalinga tried to take advantage of the disturbed political situation. Though they succeeded in conquering this region, it did not remain in their hold for long, as the Reddi ruler, Anavota succeeded in capturing the throne. He was succeeded by Anavema Reddi (A.D. 1364—86), who in turn was succeeded by Kumaragiri (A. D. 1386), Kumaragiri fought many wars with the Recherlas of Rachakonda and the Kalinga rulers. He sent his Generalissimo Kataya Vema along with Prince Anavota to conquer the eastern region. This resulted in the annexation of a large tract in the north as far as Simhachalam. The newly acquired territory was annexed to the Reddi Kingdom and constituted into a separate province called the Eastern Kingdom or the Rajamahendra Rajya. Prince Anavota ruled this province with Rajamahendravaram as his capital. He died a premature death about A.D. 1395 and Kataya Vema, the general and brother-in-law of Kumaragiri was given Rajamahendra Rajya, in appreciation of services rendered by him to the State. Kataya Vema's departure to Rajamahendravaram led to the seizure of the throne of Kondavidu by force by Peda Komati Vema.

Peda Komati Vema's authority was defined by Kataya Vema. Kataya Vema was also involved in a conflict with the Eruva Chief, Annadeva Choda who managed to occupy a large portion of the Rajamahendra Rajya. He was, however, defeated and driven back by Katayavema. Later, Katayavema died in a battle with Annadeva Choda. After his death, Allada Reddi placed Kataya Vema's son. Komaragiri on the throne of Rajamahendravaram and ruled the Kingdom as his regent. Komaragiri died a premature death. Allada Reddi ruled this region till his death in A.D. 1420. About 1423 A.D., the Vijayanagar ruler Devaraya II defeated Virabhadra, who was then ruling this kingdom and reduced it to subjection.

At Kondavidu, Racha Vema succeeded Peda Komati Vema to the throne. His rule was very oppressive, therefore, he received little support from his subjects, when the Gajapatis of Orissa and the Rayas of Vijayanagar invaded the kingdom. Kapileswara Gajapati crushed the Reddi power and annexed the Rajamahendra Rajya to his dominion.

About this period, a dynasty of feudatory chiefs known as Virasamantas or Koppula chiefs, came into prominence. After the downfall of the Kakatiyas of Warangal, a minor dynasty known as the chiefs of Korukonda rose to power. The historical origin of this family is not known. These chiefs became strong in due course and entered into matrimonial alliance with their powerful neighbours. Mummadi Nayaka of this family was thus married to the niece of the

Musunuri chief, Kapaya Nayaka. He conquered the coastal region held earlier by Toyyeti Anavota Nayaka. He is believed to have further brought under subjection the kingdoms of Panara, Kona, Kuravata and others lying on either side of the Godavari. Mummadi Nayaka lived till 1388 A.D. He had three sons who ruled for a period of 40 years and later they were reduced to submission by the Reddies of Kondavidu and their principality was merged in the kingdom of Kondavidu.

After the death of Kapileswara Gajapati in A.D. 1470, there was a fight between his sons Hamvira and Purushottama for succession. Hamvira succeeded in occupying the throne with the help of the Bahmanis but he could not retain it for long. Purushottama overthrew Hamvira and tried to reconquer Rajahmundry and other places. But Muhammad Shah III led the forces marching on Rajahmundry. This battle however ended with the conclusion of a peace treaty. But after the death of Muhammad Shah III Purushottama Gajapati overran the whole of the Godavari Krishna doab and drove away the Bahmani forces as far south as Kondavidu. Purushottama was succeeded by his son Prataparudra. The Vijayanagar Monarch Krishnadevaraya invaded his kingdom and brought Rajahmundry under subjection. However, a treaty was concluded wherein Prataparudra agreed to give his daughter in marriage to Krishnadevaraya in return for the territory north of the Krishna conquered by Krishnadevaraya.

Taking advantage of the disturbed conditions, the Qutb Shahi ruler, Sultan Quli Qutb Shah, invaded the coastal region and took possession of Rajahmundry etc. Sultan Quli was murdered and he was followed on the throne by his son Jamshid Qutb Shah and his grandson Subhan Qutb Shah. During his reign Ibrahim Qutb Shah had to ward off challenges from Shitab Khan and Vidyadhar. The last ruler of this dynasty was Abul Hasan Tana Shah who ruled from 1672--87 A. D.

About this period, the Mughal power started spreading to the south. The district of East Godavari was then included in Golconda which had become one of the twenty-two provinces of the Mughal Empire. The Mughal emperor Aurangazeb appointed Viceroys to carry on the administration of these provinces. The Viceroy of Golconda carried on the administration through military officers called Fauzdars. The Mughal emperor Farrukhsiyar appointed Nizam-ul-Mulk as the Viceroy of the Deccan. He was however replaced by Husain Ali Khan, and during the time of Muhammad Shah, Nizam-ul-Mulk invaded the Deccan, defeated and killed Mubariz khan, in the battle of Shakar Khera in 1724 and ruled the Deccan in an autonomous capacity.

Nizam-ul-Mulk's death in 1748 A. D. led to a war of succession between his son Nasir Jung and his grandson Muzaffar Jung. The French and the English took different sides each. The dispute ended with the accession of Salabat Jung, with the help of the French General Bussy. General Bussy was however summoned to the south by Lally, the new Governor-General of the French possessions in India. As soon as he left, Ananda Razu, the new Raja of Vizianagaram, invited the English to come and occupy the northern circars. The tussle that ensued between the French and the English, ended with the French loosing all its possessions in northern circars.

Salabat Jung was subsequently deposed by his brother Nizam Ali Khan who leased out Rajahmundry and Chicacole to a certain Hasan Ali Khan. Lord Clive, entered into negotiations for the cession of the northern circars and obtained a Firman to that effect in August 1765, but it was kept a secret till March, 1766. General Caillaud was sent to Machilipatnam to undertake military operations, if necessary. The Nizam also made brisk preparations for war. It was however prevented with the conclusion of a treaty whereby the English agreed to hold the northern circars on payment of a tribute, accepting at the same time to furnish the Nizam with some troops. This treaty was confirmed by another treaty in 1768. Hasan Ali Khan's lease expired in A. D. 1769 and Rajahmundry and Eluru came under the control of the newly constituted chief and council at Machilipatnam.

The Zamindars came into prominence during the period preceding the transfer of the district to the English. The Zamindars of Rampa, the Zamindars of Peddapuram, the Zamindars of Pithapuram, the Zamindars of Kota and Ramachandrapuram were the important Zamindars of this region.

PHYSICAL ASPECTS

General : The district is a residuary portion of the old Godavari district after West Godavari district was separated in 1925. As the name of the district conveys, East Godavari district is closely associated with the river Godavari, occupying a major portion of the delta area. The headquarters of the district is located at Kakinada. It lies on the north-east coast of Andhra Pradesh and is bounded on the north by Vishakhapatnam district and the State of Orissa, on the east and the south by the Bay of Bengal and on the west by Khammam and West Godavari district.

Physical Features : East Godavari is located between the northern latitudes of 16° 30' and 18° and between the eastern longitudes of 81° 30' and 82° 30'. It occupies an area of 10,807.0 Sq.Kms. and has a population of 3,701,040 as per the 1981 Census count.

Hills : The general elevation of the district varies from a few metres near the sea to about 300 metres in the hills of the agency. The district can be broadly divided into 3 zones viz., the agency or the hilly tracts, the delta and the uplands. The eastern ghats rise by gradations from the level of the coast and spreads throughout the agency taluks of Rampachodavaram and Yellavaram. The deltaic portion constituting the whole of Konaseema and portions of Kakinada, Ramachandrapuram and Rajahmundry taluks presents a vast expanse of rice fields surrounded by plantain, betel, coconut gardens and innumerable palmyras.

The taluks of Tuni, Pithapuram, Peddapuram and portions of Kakinada, Ramachandrapuram and Rajahmundry constitute the upland areas.

Climate : The climate of this district is characterised by high humidity almost throughout the year. The summer season which starts about the middle of February to the first week of June is oppressive. This is followed by the south-west monsoon season which lasts till the end of September. October and November constitute the post-monsoon or the retreating monsoon season. December to mid-February, the season is generally fine.

Rainfall : The average annual rainfall of the district is 1,137.8 mm.* (44.79"). Both the south-west monsoon and the retreating monsoon bring rains to the district. The rainfall during the south-west monsoon months i.e., from June to September amounts to about 61 per cent of the annual rainfall and during the retreating monsoon season, the rainfall constitutes about 28 per cent. October is the rainiest month.

Flora : The vegetation of East Godavari district can be broadly divided into a) coastal vegetation, b) vegetation of the plains, c) vegetation of the low lying hills and d) vegetation of the hills.

COASTAL VEGETATION : The mangrove forests of Koringa Reserve are situated on a flat swampy featureless ground amongst a network of salt water creeks. In mangrove species, the seeds germinate on the tree itself which is known as vivipary and when the fruits are ripe, they develop a root system which falls to the ground and establishes itself and the mangrove forests develop.

VEGETATION OF THE PLAINS : This is a mixed, dry, deciduous type of forest found in the forest blocks such as Devunicheruvu. The average height of the trees is five metres.

VEGETATION OF THE LOW LYING HILLS : Scrub jungles of poor type with an average height of three metres are found in the Kogida and Murari forest blocks.

VEGETATION OF THE HILLS : Good, miscellaneous dry deciduous and semi evergreen forest is found in the Rampa Reserve. There are good types of forests with a height of about 10 to 25 metres.

Fauna : The district has representation of all classes of animals that are normally found in the forest area, though numerically they are small. Gaur, Sambar, Spotted deer, barking deer etc., are found

in the interior forests. Tiger and panther are found occassionally. Rabbits, hares and wild boars are also present. Among the Arifauna, peafowl, junglefowl, partridge, quail, green pigeons are found. The mangrove forests have seagulls, cranes, herons and geese during the winter.

*** Changes in Administrative unit and its component parts**: East Godavari district was for a long time not a homogeneous unit and its component parts were ruled by various dynasties at different periods of time such as the Mauryas, Satavahanas, Vishnukundins, Eastern Chalukyas of Vengi, Imperial Cholas, Velanati Cholas, Kakatiyas, Musunuri Chiefs, Reddies of Kondavidu, Gajapatis of Orissa, Qutb Shahis, Mughals and Asaf Jahis. In the early British period the Constituent parts of the district were at first administered by the Chief and Council at Machilipatnam, but in A. D. 1794 Collectors who were made directly responsible to the Board of Revenue, were appointed at Kakinada and Rajahmundry. Several changes took place in the administration of the district till A. D. 1859 when the districts of Rajahmundry, Machilipatnam and Guntur were reconstituted into Godavari and Krishna districts. The execution and extension of the great irrigation schemes on the Godavari and Krishna rivers and the enormous increase in work consequent on the improvement in the methods of administration rendered the Collectors task of efficiently controlling these two wealthy areas extremely difficult. Therefore, Godavari and Krishna districts had to be again readjusted. In 1904, the taluks of Yernagudem, Eluru, Tanuku, Bheemavaram and Narsapur (excluding the Nagaram island) were transferred to Krishna. On the 15th of April 1925, Krishna district was again bifurcated and West Godavari district was constituted. The residuary portion of Godavari district was named as East Godavari district with its headquarters at Kakinada. East Godavari district then consisted of the taluks of Rajahmundry, Amalapuram, Nagaram, Bhadrachalam, Polavaram, Yellavaram, Chodavaram, Peddapuram, Ramachandrapuram, Kakinada, Pithapuram, Tuni and Nugur. Subsequently, in 1942 Polavaram taluk was transferred to West Godavari district. The headquarters of Nagaram taluk was shifted to Razole in 1947. During the same year, Kothapeta taluk was formed. An important change that occurred subsequently in the territorial jurisdiction of the district was the transfer of Bhadrachalam and Nugur taluks to Khammam district in 1959, because of their geographical contiguity and also fo reasons of administrative convenience. From then onwards the district did not undergo any changes in its territorial jurisdiction for quite sometime. At 1961 Census, the district consisted of 12 taluks viz., Kakinada, Amalapuram, Razole, Kothapeta (IST), Ramachandrapuram, Rajahmundry, Peddapuram, Prathipadu (IST), Tuni (IST), Pithapuram (IST), Rampachodavaram (IST) and Yellavaram (IST). The last two were Agency Taluks. In July 1969, two independent sub-taluks namely, Alamur and Mummidivaram were formed out of Ramachandrapuram and Amalapuram taluks respectively. At 1971 Census the district thus consisted of eight taluks and six independent sub-taluks grouped under four Revenue Divisions - Kakinada revenue division comprising of Kakinada and Pithapuram (Independent sub-taluk); Rajahmundry revenue division with the taluks of Rajahmundry, Ramachandrapuram, Alamur (independent sub-taluk) and Rampachodavaram (independent sub-taluk), Peddapuram revenue division comprising Peddapuram taluk, Prathipadu taluk, Tuni (independent sub-taluk) and Yellavaram (independent sub-taluk) and Amalapuram revenue division with the constituent taluks of Amalapuram, Kothapeta, Razole and Mummidivaram (independent sub-taluk).

At 1981 Census, the East Godavari District consists of 19 taluks namely, Rampachodavaram, Yellavaram, Prathipadu, Tuni, Pithapuram, Peddapuram, Rangampeta, Korukonda, Rajahmundry, Rayavaram, Kakinada, Tallarevu, Ramachandrapuram, Alamur, Kothapeta, Mummidivaram, Amalapuram, P. Gannavaram and Razole. These 19 taluks with their 17 towns grouped under 4 Revenue Divisions are as follows:

* Villages shown under column 5 do not include the villages given under column 8.

1. The district total Geographical area figures are as supplied by the Surveyor General, India.

2. The total of the area figures of taluks will not tally with the district area figures because the former represent land use area and are derived from the figures supplied by the 'State Survey Department'.

MAJOR CHARACTERISTICS

Forestry: The total forest area in East Godavari District is 2,850 sq. kms. and this works out to 26.4 per cent of the total geographical area of the district. Three fourths of the forest area is hilly and the rest is in the plains.

The Forest Department in the district is under the administrative control of the District Forest Officer stationed at Kakinada. His jurisdiction extends over this district and also a portion of Vishakhapatnam district. The District Forest Officer is assisted by six Forest Range Officers or Rangers in the work of protection, exploitation and management of forests. Each range is divided into sections and beats. The Sections are under the control of Deputy Range Officers or Foresters, while the beats are manned by Forest Guards. There are four more Forest Range Officers on special duty under the control of the District Forest Officer to look after the Timber Extraction Scheme, teak plantations and quick growing species. In addition to these, there are two District Forest Officers with their headquarters at Kakinada and Rajahmundry and a Working Plan Officer at the latter place. The District Forest Officer at Kakinada is in-charge of Flying Squad Division, while the District Forest Officer at Rajahmundry is in-charge of the Saw Mills Division.

The forests in the district are of four types viz., (1) Southern tropical dry deciduous forests, (2) Southern tropical secondary moist deciduous forests, (3) Southern tropical thorn forests and (4) Moist tropical seral forests (a) beach forests and (b) tidal or mangrove forests.

(1) SOUTHERN TROPICAL DRY DECIDUOUS FORESTS : This type occurs in the uplands and agency. Patches of good forests occur on better soils and are locally known as Lankas. These Lankas are generally found close to the foothills where good soil accumulates. Top canopy trees like tectona grandis (Teku), Pterocarpus Marsupium (Pedda Yegi), Anogeissus latifolia (Chirumanu), Chloroxylon swietenia (Billudu) Dalbergia latifolia (Jittegi), Terminalia tomentosa (Nallamaddi), Lannea coromandelica (Gumpena), Dalbergia paniculata (Sopera), Salmalia malabaricum (Burugu), Lagerstroemia parviflora (Chinnangi), Sterculia urens (Tanukumanu), Garuga pinnata (garuga), Albizzia amara (Nallaregu), Ougeinia dalbergioides (Dargu), Adina cordifolia (Kadimi), Bursera serrata (Anduku), Diospyros melanoxylon (Tunki), Acacia sundra (Sandra), Acacia leucophloca (Tella Tumma), Soymida febrifuga (Somi), cleistanthus collinus (Pala Kodsha), Zizyphus Xylopyrus (Goti), Memecylon edule (Alli), Strychnos Nux-vomica (Mushti), Bauhinia racemosa (Are), Atalantia monophylla (Adavi Nimma), Sapindus emarginatus (Kunkudu), Tamarindus indica (Chinta), Zizyphus Oenopila (Pariki), Zizyphus Jujuba (Regu), Cassia Fistula (Rela), Azadirechta indica (Vepa) and Dendrocalamus strictus (Sadanapa Veduru) and shrubs like Cassia auriculata (Tangedu), Carissa spinarum (Kalivi) and Streblus asper (Pakki) are available.

(2) SOURHERN TROPICAL SECONDRY MOIST MIXED DECIDUOUS FORESTS : This type occurs on the hill slopes having an elevation of 30 to 900 metres with gneiss as underlying rock in Rampachodavaram and Yellavaram taluks. The species falling under this category are Terminalia Chebula (Karakkaya), Terminalia bellerica (Tadi), Bauhinia retusa (Nirpa), Madhuca indica (Ippa), Schrebera swieterioides (Mokheb), Terminalia Arjuna (Tellamaddi), Mangifera indica (Mamidi), Syzygium Cumini (Neredu), Dillenia pentagyna (Kalinja), Aelbizzia odoratissima (Chinduga), Anogeissus acuminat (Bhuchakram) and Givotia rottleriformis (Tella Punki).

(3) SOUTHERN TROPICAL THORN FORESTS : This is an open low forest in which thorny and hardwood species as Dichrostachyas cineria (Jammi), Capparis divaricata (Budareni) and Randia dumetorum (Manga) predominate.

(4) MOIST TROPICAL SERAL FORESTS : This type of forest is found along the coast wherever a fair width of sandy beach occurs, including sandy bars on the surface of the river deltas.

The forests of the district are managed with the objects (1) to obtain a sustained yield of timber, fuel, bamboos and minor forest produce to the fullest extent possible, (2) to regulate the supply of fuel and timber with particular reference to the requirements of both the urban and rural areas, (3) to meet the agricultural and pastoral needs of the people

living in the vicinity of the forests, (4) to improve the composition of the crop by supplementing natural regeneration, (5) to protect and conserve large areas of reserved forests in the inaccessible Rampa agency that form the watershed for the tributaries of the Godavari, (6) to obtain the maximum financial return from each hectare of the forest, (7) to protect and preserve the wild fauna against indiscriminate shooting and poaching. Several thousands of hectares of plantations of economic and fast-growing species such as teak, bamboo and eucalyptus have also been raised to meet the ever increasing demand for timber and pulpwood for paper.

The forests yield a variety of major and minor forest products. The details of important forest products are given below :

Forest produce	Value in Rs. '000			
	1975-76	1976-77	1977-78	1978-79
1	2	3	4	5
(A) Major Forest produce				
(1) Timber	5,135	8,745	8,917	14,972
(2) Firewood & Charcoal	4,840	4,606	7,427	4,299
(B) Minor Forest Produce				
(1) Bamboos	5,699	57	10,480	14,039
(2) Other Forest produce	141	..	878	1,004
(3) Miscellaneous revenue	410	123	1,035	1,056
Total	**16,225**	**13,531**	**28,737**	**35,370**

Minerals and Mining

The important minerals found in the district are bauxite, clay, graphite, illmenite-manazite sands and welframite (tungstone ore).

Bauxite is found along the eastern ghats near Ramavaram village of Yellavaram taluk and also in the interior hills around Maredumilli of Rampachodavaram taluk.

Good deposits of sedimentary clays associated with sandstone appear in the coastal uplands of the district.

Small deposits of flake graphite occurs near Utla, Yerrametta, Marrivada, north of Pothavaram, Marripalem, Judimetta, Ramavaram, Dubbumetta, Paidiputtapadu and Tebakonda.

Small concentrations of illmenite-manazite sands occur along the coastal beach at Uppada, Antervedi. Further detailed investigation is necessary to assess the economic potential of these deposits.

Welframite (Tungstone ore) is found at Burugubanda, Yetipalle and Tebakonda in Yellavaram and Rampachodavaram taluks. As this is a strategic mineral, very much required for steel, tungstone carbide and other allied industries, the location of tungstone deposits is of great significance and an intensive search for further similar occurrence is now on the way.

Electricity and Power

The history of power supply in the district dates back to the year 1929, when the Kakinada Municipality and a private undertaking at Rajahmundry were given licenses earlier for generation and supply of power to the towns of Kakinada and Rajahmundry respectively. With a view to extending power supply to places like Pithapuram, Samalkot, Mandapeta and Ramachandrapuram, the Government sanctioned in 1938 the Kakinada Thermal Scheme at an estimated cost of Rs. 3.71 lakhs. The plant was put to commercial operation in January, 1940. Since then, there has been rapid and striking development in power supply, meeting not only the demand for domestic purposes but also of the industrial and agricultural sectors.

The data furnished below reveal the progress achieved in this field during the decade 1971—81.

As on 31-3-1981, 959 villages were electrified as against 1,317 inhabited villages in the district which works out to 72.82%, while this percentage was 43.23 at the end of March, 1971.

Land and land-use pattern

The land-use pattern in the district for 1980-81 is as follows :

Sl. No.	Type of utilisation	Area (in hectares)	Percentage of area to total geographical area
1	2	3	4
	Total Geographical area	1,081,842	100.0
1·	Forest	285,400	26.4
2·	Barren and uncultivable land	144,999	13·4
3·	Land put to non-agricultural uses	92,964	8.6
4.	Permanent pastures and other grazing lands	31,565	2·9
5·	Culturable waste	11,734	1·1
6·	Land under miscellaneous tree crops & groves	25,369	2·3
7·	Current fallows	70,508	6·5
8·	Other fallows	3,882	0·4
9·	Net area sown	415,421	38·4
10·	Area sown more than once	177,882	16.4
11.	Gross cropped area	593,303	54·8

Agriculture

The Deputy Director of Agriculture, Kakinada was the district head till 1978 assisted by two Assistant Directors of Agriculture, one for Agronomy and other for plant protection. From March, 1979 the post of Deputy Director of Agriculture was upgraded to that of Joint Director of Agriculture and he is assisted by one Deputy Director of Agriculture and one Assistant Director of Agriculture stationed at Kakinada.

The soils of the District are broadly divided into red, deltaic alluviums, coastal sands and lateritic soils. The red soils occur over a large area in the northern parts, particularly in the taluks of Rampachodavaram, Yellavaram, Prathipadu, Peddapuram, Rangampeta, Rajahmundry, Korukonda, Tuni, Pithapuram, Kakinada and Tallarevu. Although the deltaic alluvium is found throughout the district, it is more in Kothapeta, P. Gannavaram, Ramachandrapuram, Rayavaram, Rajahmundry, Korukonda and Tallarevu and also in parts of Amalapuram, Razole, Pithapuram. The coastal sand occurs in a continuous belt along the eastcoast covering the taluks of Amalapuram, Razole, Pithapuram, Tuni, Kakinada and Tallarevu, while the lateritic soil is confined only to some parts of Rajanagaram, Rangampeta and Rayavaram Samithies.

The red soil in this district varies from pale brown to reddish brown in colour and sandy loam to sandy clay loam in texture. The application of readily soluble and rapidly mobile fertilisers like ammonium sulphate and urea in small doses at frequent intervals has heen recommended to get good yields of crops. The deltaic alluvium varies from silty clay to heavy clay in texture and dark grey brown to black in colour. It may be mentioned that these areas are under canal irrigation from the river Godavari. The alluvium soil is highly responsive to the application of strong doses of chemical fertilisers and quite suitable for the cultivation of paddy and sugarcane. The coastal sand is highly porous and lacks in binding material. Paddy nurseries, garden crops, coconut and casuarina are raised more successfully on this soil. The lateritic soil is very reddish in colour but differs from the red soil in its composition. In view of acidic reaction and free drainage conditions, the application of calcium content fertilisers has been recommended to get good yields.

In 1980-81 the total cropped area in the district is 5.93 lakhs hectares. Of this food crops accounted for 5.15 lakhs hectares forming 87% of the total cropped area. Non-food crops account for an area of 0.78 lakh hectares forming 13% of the cropped area. Among food crops paddy is the most important crop accounting for 62% of the total cropped area. Next to paddy, pulses account for the larger share with 7.5% of cropped area while sugarcane is the other important food crop accounting for 2.4% of the total cropped area.

The area under principal crops in the district along with their percentage to the total cropped area during 1980-81 is given below :

Sl. No.	Crop	Area (in hectares)	Percentage to total cropped area
1	2	3	4
1	Paddy	368,745	62·2
2	Jowar	6,315	1·1
3	Bajra	17,087	2·9
4	Ragi	4,732	0·8
5	Pulses	44,425	7·5
6	Sugarcane	14,323	2·4
7	Banana	7,573	1·3
8	Topioca	10,193	1·7
9	Other food crops	41,905	7·0
	Total food crops	515,298	86·9
10	Cotton	1,112	0·2
11	Gingelly	15,926	2·7
12	Tobacco	11,101	1·9
13	Groundnut	10,543	1.8
14	Coconut	24,641	4.1
15	Other non-food crops	14,682	2.4
	Total non-food crops	78,005	13·1
	Total cropped area	593,303	100·0

The main source of irrigation in the district is the river Godavari. Construction of a new barrage on the river Godavari near the existing anicut at Dowleshwaram is nearing completion. After its construction it will replace the existing anicut which is irrigating most of the delta area with its net work of canals. Besides the canals, there are tanks, tube wells and other minor irrrigation sources supplying water to the crops.

The Small Farmers Development Agency, East Godavari District, started functioning from December, 1975 with its area of operation extending over seven upland blocks i.e., Rajanagaram, Tuni, Rangampeta, Peddapuram, Pithapuram, Sankhavaram and Korukonda which are backward both socially and economically.

By the implementation of the various works and schemes 49,382 persons have so far been benefitted of whom 11,140 are scheduled caste beneficiaries under S.F.D.A. and 9,053 beneficiaries under I.R.D.P. of whom 2,176 are scheduled castes. The following are some of the details of the programmes implemented under S.F.D.A. and I.R.D.P.

a) Land Development : Emphasis was laid on identifying small and marginal farmers who are assigned waste lands for cultivation. Such waste lands do require levelling, bunding, etc., for better cultivation and so far an extent of 894 hectares is reclaimed and brought under cultivation under S.F.D.A. and 206 hectares under I.R.D.P. Out of the area reclaimed, an extent of 454 hectares belongs to scheduled castes and scheduled tribes under S.F.D.A. and 89 hectares under I.R.D.P.

b) Supply of agricultural implements : 1,529 hand operated sprayers were distributed to the individual small and marginal farmers and institutions for timely plant protection measures on subsidy basis.

c) Supply of carts and bullocks and plough bullocks : The small and marginal farmers require subsidiary occupation to augment their income by carting sugarcane and agricultural produce, etc. So far 1,972 carts and bullocks and plough bullocks were distributed.

d) Minor irrigation : To step up increased agricultural products, small and marginal farmers were identified to take up irrigation, works like drilling wells, dug cum bore wells, filter points and community bore wells and distribution of oil engines and electric motors. The Government of India have extended the minor irrigation programme to the entire district. The Irrigation Development Corporation has also taken up bores in Rajanagaram and Rangampeta blocks.

Animal Husbandry

According to livestock census of 1977, the total livestock population of the district was 10.46 lakhs accounting for 3.35% of the total livestock population of the State. The particulars of livestock population are as follows as per 1977 livestock census.

1.	Cattle	457,377
2.	Buffaloes	359,839
3.	Sheep	54,661
4.	Goats	125,222
5.	Others	48,528
	Total livestock	1,045,627
6.	Poultry	1,158,713

Most of the cattle found in the district are indigenous and non-descript breeds. A Government livestock farm was started over an extent of 385 hectares at Kakinada in 1960 with a view to producing pedigree breeding bulls of Ongole and Murrah. Cross-breeding between Ongole cows and Brown Swiss bulls is also conducted to get a better cross-breed. Calves, both male and female, produced in this farm are being distributed to Panchayat Samithis, centralised semen collection centres and private breeders for multiplication of superior germplasm. Under Key Village Scheme, there are two Key Village Centres, one each at Mandapeta and Velangi. Each main centre has ten sub-centres under its control. In addition to these, 31 artificial insemination centres attached to samithis and veterinary hospitals in the district have been functioning. There is also a mobile unit to conduct artificial insemination and diseases control work among local cattle and also the cattle migrating to the agency areas from plains during summer months for fodder.

In order to improve the economic condition of small and marginal farmers and agricultural labourers, it is necessary to provide them with subsidiary occupation which will add to their income and thus improve their living standard. Dairy is the most profitable subsidiary occupation in the area. So far 10,142 milch animals were distributed to the small and marginal farmers. The supply of animals is restricted to only the milk route villages of either Horlicks Factory or Rajahmundry Dairy.

In the upland area, sheep rearing is one of the important occupations and so far 291 sheeps units were distributed under S.F.D.A. and 234 sheeps units under I.R.D.P. Each unit consists of one Nellore ram and 19 ewes.

Integrated Rural Development Programme has been sanctioned for implementation in Rajanagaram,

Korukonda, Rangampeta and Sankhavaram blocks of this district since 1978-79 with an outlay of Rs. 5.00 lakhs each as subsidy. An amount of Rs. 32.58 lakhs has been spent so far.

Under Special Employment Scheme, both in Rajanagaram and Sankhavaram blocks, the banks have sanctioned loans to 90 milch cattle units, consisting of five milch cattle a unit. Proportionate subsidy at Rs. 3,000 per unit was released by S.F.D.A. on behalf of 53 beneficiaries in Rajanagaram block and 37 beneficiaries in Sankhavaram block. Training was also given to all candidates at Dairy Farm, Kakinada.

Under Poultry Programme (500 birds constitute a unit), so far 130 Persons have been identified in both Rajanagaram (61) and Sankhavaram (69) blocks. The banks have also sanctioned loans to all 130 beneficiaries. An amount of Rs. 3.90 lakhs was released by S.F.D.A. as subsidy to all 130 candidates and they have been given training at Regional Poultry and Research Farm, Vishakhapatnam.

East Godavari District occupies an important place in the State as far as fishery resources are concerned. The district is unique being endowed with rich fishery resources, both marine and inland.

The jurisdiction of Assistant Director of Fisheries, Kakinada during 1970-71 comprised of 1) Tallarevu, 2) Rayavaram, 3) Kapileswarapuram 4) Peddapuram, 5) Pithapuram, 6) Rangampeta, 7) Bendapudi, 8) Rajavommangi, 9) Sankhavaram, 10) Maredumilli, 11) Rampachodavaram, 12) Samalkot and 13) Addateegala Samithis. At present his jurisdiction is the same except for Maredumilli and Rampachodavaram samithis, which stand transferred to Assistant Director of Fisheries, Rajahmundry and Bendapudi samithi which has been amalgamated in Tuni Samithi. Mechanisation scheme has been transferred to the control of Deputy Director of Fisheries (Fisheries Terminal Organisation, Kakinada with effect from 1-1-1980).

In Kakinada division there are 61 Marine and Esturine fishermen villages with a total fishermen population of 45,000 of which active fishermen are 14,400. The present marine fish landings are about 44,000 tonnes per annum.

There are 104 Fishermen Co-operative Societies in this division of which 27 societies are Marine Fishermen Co-operative Societies and the remaining 77 are Inland Fisherman Co-operative Societies. The total membership of both the societies is 10,382 with a paid up share capital of Rs. 180,377.

There are 1,641 tanks in the division with an extent of 3,693.04 hectares besides 5 reservoirs with an extent of 364.50 hectares.

There were ten Fish Seed Farms in this division at Vettapalem and Dwarapudi having a limited water spread area in 1970-71. During 1979-80 this area has been increased by construction of cement nurseries. The seed production in 1970-71 was 52,562. At present it has risen to 6.84 lakhs. The natural collections which was 297,644 in 1970-71has risen to 5.94 lakhs. One Fish Seed Farm at Yeleswaram was established during 1980-81. In the same period Brackish Water Survey has been conducted in 18,230 hectares and 1,865 hectares were identified as suitable for Brackish Water fish and prawn culture.

The structure built during World War II at Kakinada for the provision of floating dock was reconstructed to form a small basin of 20 metres wide and 180 metres long to provide landing and berthing facilities for 60 small mechanised boats. In order to provide facilities for increasing number of mechanised vessels, construction of outer harbour at Vakalapudi (Kakinada) has been taken up at a total estimated cost of 460 lakhs for which World Bank is financing.

The A. P. Fisheries Corporation, Kakinada was established in 1974. The State Government transferred all ice plants and cold storages in the state besides Boat Building Yard and Canning Factory at Kakinada to the control of the corporation.

During the year 1972-73 the fishing area was effected due to draught conditions and as a measure of relief the department sanctioned distress taccavi loans to the fishermen and 676 beneficiaries were given loans to tune of Rs. 89,000.

In the year 1973-74 Government sanctioned an amount of Rs. 17,500, towards subsidy to the smaller fishermen for the purpose of new craft, at 25% on the purchase value subject to a maximum of Rs. 250/- on each craft and the amount was disbursed to 93 beneficiaries.

In 1974-75, 96 kgs. of nylon yarn was supplied to 68 beneficiaries at 50% subsidy.

During the year 1975-76 a sum of Rs. 983,675 was paid to Andhra Fishermen Central Co-operative Society, Kakinada towards subsidy on hulls and engines of 30 mechanised boats constructed under A.R.D.C. schemes and 94 kgs. of nylon yarn was supplied to 42 inland fishermen. A scheme has been approved for supply of '*navas*' with nylon nets to 32 fishermen members of Uppalanka Fishermen Co-operative Society at a total cost of Rs. 180,500 obtaining 20% margin money from Backward Class Corporation. The Indian Overseas Bank, Kakinada sanctioned the balance of 80% of the loan amount.

During the year 1976-77, 984 kgs. of nylon yarn was supplied to 131 beneficiaries and 12 Fishermen Co-operative Societies on 25% subsidy. Government sanctioned an amount of Rs. 21,000 for the construction of cement platforms for fish drying at four coastal villages in Pithapuram and Tuni taluks. On 25% subsidy 602 kgs. of nylon yarn was supplied to 140 beneficiaries. The State Bank of India, Agriculture Branch sanctioned a loan of Rs. 10.00 lakhs and Small Farmers Development Agencies released a grant of Rs. 5.00 lakhs to the Danayyapeta Fishermen Co-operative Society for supplying 120 catamarans and 420 units of nylon gill nets to 820 members of the society. 346 members of Uppada Fishermen Marketing Co-operative Society were supplied with 2,422 nylon gill nets costing Rs. 5.88 lakhs.

The State Bank of India, Peddapuram sanctioned a loan of Rs. 3.92 lakhs and S.F.D.A. provided a subsidy of Rs. 1.96 lakhs during 1977-78, The B. C. Corporation sanctioned 20% margin money and the banks 80% as loan to 227 beneficiaries for purchase of non-mechanised boats and nylon yarn worth Rs. 404,356 and 98 beneficiaries for purchase of mechanised boats at a cost of Rs. 9,396,475.

During the year 1978-79 an amount of Rs. 1.00 lakh was sanctioned for construction of bridge on Mandara drain which will facilitate the fishermen to transport their catch, 4,498 kgs. of nylon yarn has been distributed to the fishermen of Pithapuram Panchayat Samithi on 33⅓% subsidy.

An amount of Rs. 75,000 was sanctioned on 25% subsidy during 1979-80 for construction of tanks by private pisciculturists under the scheme 25 beneficiaries were selected and they were given subsidy at Rs. 3,000 each. The remaining amount was sanctioned by Commercial Banks as loan; S.F.D.A. has sanctioned 33⅓% subsidy to 400 fishermen in Tallarevu samithi and the remaining amount has been sanctioned by Commercial Banks as loan 1,663 kgs. of nylon twine, 4,770 kgs. of cotton yarn and 176 *navas* were supplied. Seven private Fish Seed Farms were sanctioned under private sector with the technical assistance of the department.

During the year 1980-81 an amount of Rs. 50,000 was sanctioned for supply of nylon yarn to 766 fishermen on 50% subsidy. 16 mechanised boats fitted with marine bukh engines were supplied to 9 fishermen and 7 scheduled caste persons who were trained in the Fisheries Training Institute. The total outlay of the scheme is Rs. 11.50 lakhs of which Rs. 9.20 lakhs is loan from State Bank of India, Kakinada and Rs. 2.30 lakhs is margin money by S.C. & B.C. Corporations. 77 beneficiaries consisting of 16 units were supplied 16 *navas* and 1,545 kgs. of nylon yarn at a total cost of Rs. 3.00 lakhs. Out of this the department sanctioned 25% subsidy and the remaining amount was loaned by the State Bank of India, Kakinada. Under the scheme for the Welfare of Scheduled Castes, 5 Fishermen Co-operative Societies were selected benefitting 294 members. The total outlay of the scheme is Rs. 0.5 lakhs on 50% subsidy. Under the scheme of uplift of 5,000 S. C. families, 5 beneficiaries from Tallarevu Samithi were supplied one *nava* and hooks for craft fishing at a total cost of Rs. 20,000. In Rayavaram Samithi 25 beneficiaries were selected for supply of one cycle each and 106 kgs. of dry fish at a total cost of Rs. 30,000. 766 fishermen were supplied 991 kgs. of nylon yarn on 50% subsidy. 8 Freezing Plants were established under Private Sector to cater the needs of fishermen.

The Konaseema area comprising of Amalapuram, Mummidivaram, Razole, Kothapeta and Rajahmundry taluks is under the control of Assistant Director of Fisheries, Rajahmundry; Rampachodavaram taluk stands attached to Assistant Director of Fisheries, Rajahmundry with effect from 1-4-1980.

In Rajahmundry division, during the decade 1971-80, production of major carp seed by induced breeding in Kadiam Fish Farm has been well established. Demand for the induced breed fish seed has steadily grown. Induced breeding of major carps seed production is under taken in Kadiam Fish Farm and natural fry collection continued in river Godavari at Katheru. Seed production has proved a profitable venture. Many seed farms have come up in private sector. Major carps seed production has doubled by the end of the decade. Total fish production has gone up from 1,000 to 5,000 tonnes. The fishing industry received tremendous impetus due to advent

of nylon yarn, mechanisation of craft and export of fish and prawn. The profits from fish rearing have attracted agriculturists. Many agriculturists came forward with proposal to convert their land into fish ponds.

Industry :

Except for the ceramic industry and the graphite crucible industry, both of which are in the small scale sector, there are no industries in the heavy sector.

The industries in the large scale sector functioning in the district consist of sugar mills, spinning and textile mills and electrical and paper manufacturing units.

DECCAN SUGAR AND AKBARI COMPANY LIMITED, SAMALKOT : This company along with the factory at Pugalur, both of which are sister concerns of the Parry and Company Limited, has an authorised capital of a crore of rupees and an issued and paid-up capital of Rs. 76.72 lakhs. It manufactures white sugar, ethyl alcohol and carbondioxide gas. The company provides employment to about 950 persons.

KIRLAMPUDI SUGAR MILLS LIMITED, PITHAPURAM : This Factory, which started functioning since 1951 in the private sector, has an authorised capital of Rs. 60 lakhs and a subscribed and paid-up capital of Rs. 22.97 lakhs. The main products of the mills are sugar and its by products. The mills provide employment to about 650 persons during working seasons and to about 250 during off-seasons.

SRI SARVARAYA SUGARS LIMITED, CHELLURU : The Sarvaraya Agencies (Pvt.) Ltd., started Sri Sarvaraya Sugars Limited in 1956 at Chelluru of Ramachandrapuram taluk with a total capital investment of Rs. 50 lakhs. The main product of this industry is sugar. The concern provides employment to about 470 persons during working seasons and to about 250 persons during off-seasons.

SRI RAMACHANDRA SPINNING MILLS, PANDALAPAKA : The mills, a private partnership firm, were established in 1928 at Pandalapaka with a total capital investment of Rs. 16.00 lakhs and produce cotton yarn of different counts. The mills provide employment to about 120 persons.

SARVARAYA TEXTILES LIMITED KAKINADA : The concern, which is a private sector, was set up in 1956 at Kakinada with a total capital investment of Rs. 80.83 lakhs. It produces cotton yarn of different counts and provides employment to about 600 persons.

ANDHRA PRADESH PAPER MILLS LIMITED RAJAHMUNDRY : The mills, located in Rajahmundry, was incorporated in 1964 as a public limited company. The mills which have an authorised capital of Rs. 5 crores and a subscribed and paid-up capital of Rs. 8 crores produce paper both for writing and printing purposes. It provides employment to nearly 2,000 persons.

SRI RAMDAS MOTOR TRANSPORT PRIVATE LIMITED KAKIADA : It was set up in Kakinada and has an authorised capital of Rs. 30 lakhs and a subscribed and paid-up capital of Rs. 51.96 lakhs. It manufactures automobile components by importing the required raw materials from foreign countries besides extending lorry parcel service and passenger transport to the mofussil areas. The concern provides employment to about 1,200 persons.

The industries in the small scale sector are mostly agro-based, as the agricultural commodities support nearly half of the total units now functioning.

Transport ;

The Madras - Calcutta National Highway passes through this district covering about a distance of 136 kms. and the important towns on the National Highway are Rajahmundry and Tuni. Road facilities have developed in the delta and upland areas, as a result of which a good number of villages are having the transport facilities mostly through A.P.S.R.T.C. The construction of bridges over Gowthami at Jonnada and Vasishta at Siddantham (West Godavari District) and a rail-cum-road bridge over Godavari at Rajahmundry have given a good momentum for the development of road transport in the district.

PLACES OF INTEREST

Places of religious institutions (Temples) and maths and of historical or archaeological importance in the district are presented in the following three statements for the convenience of the reader.

RELIGIOUS INSTITUTIONS - EAST GODAVARI DISTRICT

Sl. No	Taluk	Name of the Village/Town	Name of the Temple
1	2	3	4
* 1	Prathipadu	Annavaram	Sri Veera Venkata Satyanarayana Swamy
2	Ramachandrapuram	Draksharama	Sri Bheemeswara Swamy
3	Kothapeta	Ryali	Sri Jaganmohini Keshava & Gopala Swamy
4	Razole	Antervedi	Sri Lakshmi Narasimha Swamy
5	Peddapuram	Peddapuram	Sri Maridamma Ammavaru
6	Mummidivaram	Muramalla	Sri Veereswara Swamy

* The above mentioned are the institutions having an income of Rs. one lakh and above

** 1	Kothapeta	(i) Palivela	Sri Uma Koppeswara Swamy
		(ii) Vadapalem	Sri Venkateswara Swamy
		(iii) Mandapalle	Sri Mandeswara Swamy
		(iv) Ryali	Sri Uma Kamandaleswara Swamy
		(v) Velicheru	Sri Seetharama Swamy
2	Mummidivaram	Nadavapalle	Sri Kodandarama Swamy
3	Ramachandrapuram	(i) Vella	Sri Gopala and Someswara Swamy
		(ii) Vakatippa	Sri Kesava and Venkateswara Swamy
4	Alamur	(i) Angara	Sri Gopala Swamy
		(ii) Yeditha	Sri Kailaseswara and Sangameswara Swamy
		(iii) Jonnada	Sri Malleswara Swamy
		(iv) Chintaluru	Sri Nookambica Ammavaru
		(v) West Khandrika	Sri Khandeswara Swamy
5	Peddapuram	(i) Kattamuru	Sri Kesava and Pattabhirama Swamy
		(ii) Kandrakota	Sri Nookalamma Ammavaru
6	Rayavaram	(i) Biccavole	Sri Lakhminarayana Swamy
		(ii) Chelluru	Sri Agastheswara Swamy & Venugopala Swamy
7	Razole	(i) Kadali	Sri Kapoteswara Swamy
		(ii) Antervedi	Sri Neelakanteswara Swamy
8	Kakinada	(i) Puttakonda	Sri Lakshminarasimha Swamy
		(ii) Sarpavaram	Sri Bhavanarayana Swamy
9	Rajahmundry	(i) Jegurupadu	Sri Janardhana Swamy
		(ii) Kadiam	Sri Malleswara Swamy
10	Prathipadu	Sankavaram	Sri Seetharama Swamy
11	P. Gannavaram	(i) P. Gannavaram	Sri Garudeswara Swamy
		(ii) Avidi	Sri Kaileswara Swamy

** The above mentioned are the institutions having an income of Rs. Twenty Thousand and above but less than one lakh.

MATHS - EAST GODAVARI DISTRICT

S. No.	Taluk	Name of the Town/Village	Name of the Math
1	2	3	4
1	Rajahmundry	Rajahmundry	(a) Sri Godada Gosayi Math (b) Sri Jagannatha Swamy Math (c) Sri Venkateswara Math (d) Sri Sankara Matham
2	Peddapuram	Peddapuram	Sri Ramakrishna Paramahamsa Math
3	Prathipadu	Prathipadu	Sri Markandeya Math
4	Amalapuram	Amalapuram	Sri Sankara Matham

Places of Tourist Interest:

Amalapuram (Amalapuram Taluk) : Amalapuram, a popular town, also known as Konaseema, lies at a distance of about 61 kms. to the south-east of Rajahmundry. It is the headquarters of the taluk and the revenue division of the same name. The town has good communication facilities both by road and water. Buses ply from this place to all important towns in the district as well as to Hyderabad. It is a good trading centre especially for products of the coconut trees and jack fruits in summer season. The chief place of Hindu worship in this town is the temple of Sri Venkateswara Swami. The Venkateswara Kalyanotsavam celebrated here is attended by a few thousands of devotees. Amalapuram, with its long rows of coconut gardens and green foliage presents a picturesque scenery.

Ambajipeta (Amalapuram Taluk) : It is a hamlet to the village of Macharam situated at a distance of about 8 kms. from Amalapuram. Ambajipeta is noted for the coconut gardens and coconut oil. Because of the commercial importance attached to coconuts and their by-products, a Regional Coconut Research Station was established here for improving the varieties and aiding the cultivators. Jack fruit is also an important produce of this place.

Mummidivaram (Mummidivaram Taluk): Mummidivaram is a village situated at a distance of about 13 kms. to the north-east of Amalapuram. Balayogi, an ascetic, who appears in public only once in a year i.e., on Mahasivarathri day attracts a large number of people who congregate here to have his *Darshan*. Mummidivaram is now the headquarters of a taluk.

Chollangi (Tallarevu Taluk): Situated at a distance of about 10 kms. from Kakinada; it lies on one of the seven holy mouths of the Godavari near the sea coast. This place is visited first by those who proceed on the Sapta Sagara Yatra (Pilgrimage to the seven mouths of the Godavari). On Chollangi Amavasya (new moon) day (December-January) about 50,000 pilgrims congregate here and bathe in the sea. There is a Hanuman Temple here.

Kakinada (Kakinada Taluk): Kakinada is a railway station on the Samalkot-Kakinada branch line of the South Central Railway. It is situated on the western side of the Koringa Bay. It is the headquarters of East Godavari district and of the taluk and revenue division of Kakinada. Communication facilities by road and rail are available from this place to all the important places of the State. The port at the place, is one of the busiest sea ports in Andhra Pradesh.

The important festivals celebrated here, are the Nukalamma Thirtham (February-March), Ganapathi Navarathrulu (August-September) and Sriramanavami (March-April) which attract a large number of devotees. At a distance of about 3 kms. from the town, there is a vaishnavite temple at Sarpavaram village dedicated to Bhavanarayanaswami. The architecture of the temple depicts a perfect and harmonious blend of both the Chalukyan and Chola styles.

Palivela (Kothapeta Taluk): This village is situated at a distance of one and a half kilometres from Kothapeta and about 42 kms. from Rajahmundry Railway Station. Palivela is a very ancient and historical place. The interesting aspect of the village is the shrine of Uma Koppulingesvaraswami. The image of the presiding deity is a stone Sivalingam with 'Koppu' at the back. The image of Uma is also of stone and it is on the Panivattam (Pedestal) of the Lingam. The architecture resembling the Pallava style is beautiful. Uma Koppulingesvara Swamy Kalyanam is celebrated here for 5 days every year during January-February with pomp and grandeur and is attended by about 5,000 devotees.

Ryali (Kothapeta Taluk): This village lies at a distance of one and a half kilometres from Ubalanka village on the Bobbarlanka-Amalapuram bus route. Ryali is noted for the temple of Jaganmohini-Kesava Swami. The image of the Lord is an exquisite piece of sculpture which is considered to be the only one of its kind in India. The figure in front is Kesava and on the reverse is the female attire with a hair-do representing Jaganmohini. The image, carved in black, is excellent. The image stands at a height of five feet and the front portion, besides the face of Kesava, contains sculptural representations of Dasavatara (ten incarnations of Lord Vishnu). At the feet of the image is the figure of the river Goddess Ganga, from which drops of water trickle down throughout the day. This is considered a rare phenomenon. Much sanctity is attached to this temple and the congregation during Kalyanotsavam of the deity held during March-April for five days is largely attended.

Vanapalle (Kothapeta Taluk): This village is situated at a distance of 21 kms. from Amalapuram town. This village is famous in these parts of the district for the temple and the Jatara of Pallalamma. The deity is richly carved in stone. The image of Pallalamma looks as though it is crushing a jackal. Pallalamma Thirtham conducted for 30 days from the first Monday after Chaitra Suddha Purnima (April-May) attracts about 20,000 devotees.

Peddapuram (Peddapuram Taluk): Peddapuram is situated at a distance of 5 kms. from Samalkot Railway Station. It is the headquarters of the taluk and the revenue division of the same name. Bus facilities are available to Kakinada, Rajahmundry, Yeleswaram (Eleswaram) and Korukonda. There are ruins of a fort on a hillock overlooking the town. Peddapuram is well known for silk sarees. Maridamma Jatara which lasts for 31 days during June-July attracts about one lakh of Hindus.

Annavaram (Prathipadu Taluk): Annavaram is situated at a distance of about 3 kms. from Annavaram Railway Station on the Vijayawada-Waltair broad gauge section of South Central Railway. There are regular bus services to this village from Tuni, Kakinada, Rajahmundry and Yeleswaram. Annavaram is a reputed centre of pilgrimage in the State on account of the temple of Sri Vira Venkata Satyanarayanaswamy. The temple is situated on the sacred Ratnagiri hill. The distance from the foot of the hill to the temple at the top is half-a-kilometre by a path laid with stone steps and over three kilometres by a ghat road. The construction of the main temple resembles a chariot with four wheels in four corners. The idol which is about four metres high is in a cylindrical form. The base in the lower sanctum represents Lord Brahma, while the top in the upper sanctum represents Lord Vishnu. The middle portion represents Lord Shiva. This image of the deity forming a single idol and representing the Hindu Trinity, is of unique attraction. In the temple precincts, there is a Sundial which shows the Indian Standard time. A mantapam to provide space to conduct one thousand Satyanarayana Vrathams has been constructed. The Kalyanotsavam of the deity during May attracts thousands of pilgrims from all parts of the State.

Korukonda (Korukonda Taluk): This place is situated on the Rajahmundry-Gokavaram bus route at a distance of 20 kms. from Rajahmundry. This is a very ancient and historical place. A conical hill with a temple on its top is a prominent feature of the landscape and is seen for several kilometres around. The ruins of a fort, a Buddhist Stupa and the Pandava Caves are the other places af interest. The temple of Sri Lakshminarasimha Swamy on the hillock is a place of religious importance. The Kalyanotsavam of the deity celebrated for five days during February-March draws a congregation of about 50,000 devotees.

Rajahmundry (Rajahmundry Taluk): Rajahmundry is a railway station on the Madras-Howrah broadgauge line. It is the headquarters of the taluk and the revenue division of the same name. Situated on the left bank of the Godavari, Rajahmundry has a very long and fine bridge with a length of 2,743 metres (9000 ft.) and consists of 56 spans of 45 metres each. The place is a centre of communication by rail, road and river and a great distribution centre of merchandise and also for the timber floated down river Godavari.

Rajahmundry is noted for steel trunks, wooden furniture and ceramic wares. A large paper factory is also situated here. The Rajahmundry central jail trains the convicts in carpentry and other crafts. Tobacco companies, cotton mills, paper mills, saw mills and the porcelain industry are situated here. The bathing place known as the Kotilingam Ghat adds religious importance to the city and is an additional source of attraction to pilgrims, particularly the Godavari Pushkaram, which falls once in 12 years.

Draksharama (Ramachandrapuram Taluk): Draksharama is situated at a distance of about 5 kms. from Ramachandrapuram and 48 kms. from Rajahmundry. The Bhimesvara temple is an important place of interest. The Lingam which is a Sphatika (white) lingam, is one of the three lingams in Trilinga Desa. The temple has a large number of inscriptions. Bhimesvaraswami Kalyanam celebrated for 5 days during January-February is attended by a few thousands of pilgrims. The mosque and the tomb of Syed Shah Bhaji Aulia are sacred to the muslims.

Antervedi (Razole Taluk): Antervedi is 10 kms from Narsapur (West Godavari district) by boat and 24 kms. from Razole by road. This village is situated at the confluence of the sea and the Vasishta Godavari, one of the seven branches of the Godavari. This place is considered to be sacred and the

place of confluence is called the Sapta Sagara Sangama Pradesham. Antervedi is the last and the most important of the seven sacred bathing places. This Kshetram is also known as Dakshinakasi. The temple of Sri Lakshminarasimhaswamy is of religious importance. Lakshminarasimhaswamy Kalyanam celebrated on Bhishma Ekadasi day during January–February is largely attended.

—o—

CENSUS CONCEPTS

Rural and urban areas : It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census. Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census.

i) A minimum population of 5,000,

ii) Atleast 75% of the male working population is in non-agricultural pursuit,

iii) A density of population of atleast 400 persons per sq. km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns		Population size
Class	I	1,00,000 and above
Class	II	50,000——99,999
Class	III	20,000——49,999
Class	IV	10,000——19,999
Class	V	5,000—— —9,999
Class	VI	below 5,000

The class 1 towns are termed as cities.

Standard Urban Areas: Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was follo--wed in 1981 with a view to obviating this difficulty to some extent. The essentials of a Standard Urban Area are (i) that it should have a core town of a minimum population size of 50,000 (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 Census. The town-group was made up of independent urban units not necessarily contiguous to one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at

the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes:

a) a city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages);

b) one town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a);

c) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A census house is a building or part of a building having a separate main entrance from the road or common court yard or staircase etc., used or recognised as a separate unit. It my be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders, (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker: The definition of work adopted in 1981 Census is as follows :

"Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work."

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year, Persons engaged atleast for a day

in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have a detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-Workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non workers are divided into the following seven categories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work;

2. Students i.e., all full-time students or children attending school;

3. Retired persons or a rentier i,e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;

4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent;

5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistance and who are not engaged in any economically productive work.

6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution ; and

7. Other non-workers - all non-workers who may not come under any of the above six categories.

Marginal workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

-o-

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to populati n which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the *District Gazetteer* consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statements : Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statements' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the Village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I.C.S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, part I containing the administrative statistics and Part II the census tables Whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most vital part of the Handbook, giving the village-wise and town-wise primary census abstract i. e., particulars of area, households, population. scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities

available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons - 1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., part A, part B and part C as shown below:

Part A : Village Directory
Part B : Village and Town Primary Census Abstract.
Part C : Administrative Statistics and Report.

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following three parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Section I : Village Directory
Section II : Town Directory
Section III : Village and Town-wise Primary Census Abstract

It has been decided not to go in for administrative statistics that is part C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory

As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected

from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Cols. 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) — These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break-up irrigated and unirrigated (Columns 16 and 17) — This includes the land under the following three categories.

(i) *Net area sown*

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) *Other fallows*

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerative nature of farming, etc.

(iii) *Current fallows*

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable waste (Column 18) — This includes the land under the following three categories.

(i) *Permanent pastures and other grazing lands*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) *Miscellaneous tree crops, groves not included in the area sown*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) *Culturable waste*

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isola-

ted blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation (Column 19)

This includes the land under the following two categories.

(i) Land put to non-agricultural uses

All lands occupied by buildings, roads and railways or underwaters, e.g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land

This covers all barren and un-cultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks, if any, on matters like place of religious, historical or archaeological interest, and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back ground that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory

There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1971 census except for a few additional columns. The titles of the statements are as follows :

Statement	I :	Status and growth history
Statement	II :	Physical aspects and location of towns, 1979
Statement	III :	Municipal Finance, 1978-79
Statement	IV :	Civic and other amenities, 1979
Statement	IVA :	Civic and other amenities in notified slums, 1979
Statement	V :	Medical, Educational, Recreational and Cultural facilities, 1979
Statement	VI :	Trade, commerce, industry and banking, 1979

With a view to facilitate analysis of data, a few new columns have been introduced. The columns class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in Statement III and IV and population in statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme the columns, scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/centres in Statement V are identical.

In case such of the amenity as Fire Fighting Service in Statement IV, the Educational Facility in Statement V is not available in the town the name of the nearest place if in the same district or the name of the nearest district if in the same State

or other State where available, along with its distance from the referrent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statment VII i e., Population by Religion and Scheduled Castes/Scheduled Tribes in Towns of 1971 Census was discontinued at the 1981 Census and a new Statement IVA has been introduced to explore the possibility of civic and other amenities available in notified slums in Class I and II towns only.

The following seventeen places form part of urban in East Godavari District at the 1981 Census.

1. Amalapuram
2. Bandarulanka
3. Dowleshwaram
4. Donkarayi
5. Kakinada
6. Machavaram
7. Mandapeta
8. Peddapuram
9. Pithapuram
10. Rajahmundry
11. Rajahmundry Non-Municipal Area
12. Ramachandrapuram
13. Ramanayyapeta
14. Razole
15. Samalkot
16. Suryaraopet
17. Tuni

Of these Amalapuram, Kakinada, Mandapeta, Peddapuram, Pithapuram, Rajahmundry, Ramachandrapuram, Samalkot and Tuni are municipalities. All others are Panchayat Towns.

Of these seventeen towns Bandarulanka, Donkarayi, Ramanayyapeta and Suryaraopet are the places classified as towns for the first time in the 1981 census in consideration of the distinct urban features. Amalapuram, Dowleshwaram, Kakinada, Mandapeta, Peddapuram, Pithapuram, Rajahmundry, Samalkot and Tuni were classified as towns from 1901, Ramachandrapuram was classified as town from 1921, Machavaram and Razole from 1941 while Rajahmundry Non-Municipal Area was classified as town from 1971.

Rajahmundry Town has been treated as an Urban Agglomeration with Rajahmundry Municipality nnd Rajahmundry Non-Municipal Area as constituent units. Kakinada and Rajahmudry towns with some of their surrounding villages as detailed below are the two towns treated as standard Urban Areas in this district :

Standard Urban Area	Component Units	
	Urban	Rural
1	2	3
1. Kakinada	1. Kakinada (M)	1. Thimmapuram
	2. Ramanayya-peta (P)	2. Sarpavaram
	3. Suryaraopet (P)	3. Madhavapatnam
		4. Ganganapalle
		5. Kakinada-Madelane (R)
		6. Turangi (R)
2. Rajahmundry	1. Rajahmundry (M)	1. Torredu
		2. Morampudi
	i. Katheru (O. G.)	3. Bommuru
	ii. Hukumpeta (O. G.)	
	2. Rajahmundry Non-Municipal Area.	
	3. Dowleshwaram (P)	
	4. Kovvur (M) (of West Godavari District)	

Kakinada and Rajahmundry are Class I towns i.e., towns with a population of one lakh and above. Rajahmundry Non-Municipal Area is the only class II town with a population of 50,000 to 99,999. Samalkot, Amalapuram, Pithapuram, Peddapuram, Mandapeta, Tuni, Ramachandrapuram and Dowleshwaram are Class III towns whose population ranges from 20,000 to 49,999 each. Machavaram and Razole are class IV towns, the population of which ranges from 10,000 to 19,999. Bandarulanka, Ramanayyapeta and Suryaraopet are Class V towns whose population ranges from 5,000 to 9,999 and Donkarayi is a class VI town with a population range of below 5,000 in the district The urban population of the district is 822,180 persons constituting 22.21% of the total population. The corresponding urban population in 1971 was 593,594 persons constituting 19.23% of the total population of the district. Kakinada town has a population of 226,409 persons and is the largest town in this district from the point of view of population.

Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 Census and sex

ratio from 1961 to 1981 censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory statements, columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the State and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like 'M' for Municipality and 'P' for Panchayat. The location code number under Col. 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India level. Area in sq. kms. and number of households including houseless households for each town, is included in the Town Directory for the first time in 1981 Census. The population of the town with decadal growth rate from 1901 census to 1981 is given in cols. 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column (Col. 16) introduced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 census of the town and presented per sq km. Sex ratio from 1961 to 1981 censuses has been given in Columns. 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1,000 males.

Dowleshwaram, Kakinada, Peddapuram and Samalkot have shown a decrease in their population during the decade 1911-1921 due to the wide spread influenza epidemic that prevailed in the State. Samalkot had registered a fall in 1901-1911 also. Dowleshwaram could not recover from the fall in population in 1911-21, but continued to register a decline even in the decade 1921-31. Kakinada, Samalkot and Peddapuram towns showed a considerable increase in their population in subsequent decades due to their growing administrative, educational and industrial importance.

Amalapuram town showed decrease in its population during the decade 1931-41 and in subsequent decades it showed considerable increase.

Machavaram, Manjapeta, Pithapuram, Ramachandrapuram, Razole and Tuni have shown increase in their population from the time they have been treated as towns.

Of the seventeen towns in the district, Peddapuram is the largest town having an area of 38.98 sq. kms. Next to it comes Rajahmundry Non-Municipal Area (31.08 sq. kms.). The third important town as far as area is concerned is Kakinada with an area of 30.51 sq. kms.

Rajahmundry municipality with an area of 19.48 sq. kms. records the highest density of 11,132 persons per sq. km. as against the district urban density of 3,271 persons per sq. km. Kakinada, the district headquarters town, has recorded a density of 7,421 persons per sq. km.

Statement II : Physical aspects and location of towns, 1979

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols 3 to 5 in the statement data relating to the rainfall recorded in 1978, maximum and minimum temperature recorded in 1971 have been given. If this information was not available for any town then the particulars available for the nearest town have been given against such town.

The district has a satisfactory net work of road and rail communications. All the towns are connected by buses. Besides the road communications, the district is also served by rail transport. The Madras-Vishakhapatnam broadgauge line passes through Rajahmundry, Dowleshwaram, Samalkot, Pithapuram and Tuni towns. A branch broadgauge line emanating from Samalkot Junction connects Kakinada with Madras-Howrah broadgauge line. The remaining 11 towns are not directly connected by

railways and 5 of these towns are within a reach of less than 10 kms. While the remaining 5 towns are within a reach of 20 to 70 kms, Donkarayi town is at a distance of 205 kms. from its nearest Railway Station.

All the towns except Donkarayi, Peddapuram, Pithapuram and Tuni are served by navigable river/ canals.

Statement III : Municipal Finance, 1979

The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The statement shows that no town has an excess of expenditure over income except Dowleshwaram, Kakinada, Ramachandrapuram and Razole which are running on deficit budgets. In all the towns the amount spent on public health and conveniences and public works varies from 2.04 to 26.51% and from 3.51 to 56.83% respectively in their total expenditure. For public institutions like schools and libraries the figure varies from 1.86 to 31.50% except Dowleshwaram, Donkarayi, Machavaram, Rajahmundry non-municipal area and Suryaraopet towns. These towns have spent very little or nothing at all from their incomes.

Statement IV : Civic and other amenities, 1979

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

The facility of open surface drains is available in all the towns except Donkarayi in which sewerage system alone is available. Besides open surface drains sewerage system is also available in most of the towns All the towns have protected water supply. For Bandarulanka, Dowleshwaram, Machavaram, Ramanayyapeta, Razole and Suryaraopet the information is not available. Of the seventeen towns only five towns viz., Amalapuram, Kakinada, Peddapuram, Rajahmundry and Tuni are having the facility of fire fighting service.

All the seventeen towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh, domestic service includes supply of energy for lighting, fans and other domestic purposes in premises and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government departments or co-operative house building societies and pumpsets of railways for whatever purpose they may be used. Commercial service includes the supply of energy for light, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurudwaras, educational institutions, student hostels, municipal guest houses, T. Bs. circuit houses of the Government charitable institutions and recognised service/institutions are included in 'Others'

Rajahmundry has the highest number of industrial (445), commercial (5,758) connections and road lighting points (3,885) followed by Kakinada.

Statement IV A : Civic and other amenities in notified slums, 1979

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in Class I and II towns. Since the magnitude of slum area is greater in respect of Class I and II towns, presentation of data on slums is limited to Class I and II towns only. Kakinada and Rajahmundry are class I towns and Rajahmundry non-municipal area is the only Class II town in the district.

Statement V : Medical, educational, recreational and cultural facilities in towns, 1979

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. All the towns in the district together, have 218 medical institutions, which include hospitals, dispensaries, nursing homes, maternity and child welfare centres, family planning and leprosy centres. The total bed strength available in all the 218 medical institutions is 3,145 to cater the medical needs of the entire urban population of 822,180 persons in the district. Institutions covering all systems of medicine have been included in the statement. Kakinada and Rajahmundry towns with a bed strength of 1,179 and 807

respectively have more number of beds constituting 37.49% and 25.66% of the total bed strength respectively available in urban areas of the district.

There are two medical colleges, allopathic college at Kakinada and Homeopathic college at Rajahmundry. There is one Engineering College and two Polytechnic Colleges at Kakinada.

There are 11 degree colleges, one each in Amalapuram, Peddapuram, Rajahmundry, Rajahmundry non-municipal area, Ramachandrapuram and Razole and five at Kakinada.

There are 16 Junior Colleges or Higher Secondary Schools, 68 secondary or high schools, 110 junior secondary or middle schools and 261 primary schools in all the towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle school with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say class IV and one high school from class I to Class X, the number of primary schools in the town is given as three and that of middle school as one and secondary school as one even though there are physically only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below:

Class I	to	IV	: Primary
Class V	to	VIII	: Middle
Class IX	to	X	: Secondary
Class XI	to	XII	: Higher Secondary.

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as Higher Secondary i.e., Class XI and XII may physically belong to a college but for the purpose of Town Directory these two classes put together constitute one unit of a Higher Secondary school and the rest of the college has been treated as a college.

There are adult literacy classes/centres at Amalapuram, Kakinada, Peddapuram, Rajahmundry and Razole. There are three stadia one each at Kakinada, Rajahmundry and Ramachandrapuram. There are 63 cinema halls, 18 auditoria and 67 public libraries/ reading rooms in all the 17 towns put together.

Statement VI : Trade, Commerce. Industry and Banking, 1979

East Godavari district on account of its rich delta area has a fair sprinkling of Agro-based industries. The important industries are Rajahmundry Paper Mills at Rajahmundry, Sugar factories at Samalkot, Pithapuram and Chelluru, Spinning Mills at Kakinada, Rajahmundry and Pandalapaka, Sri Ramadas Motor Company at Kakinada and Saw Mill and timber seasoning plant at Dowleshwaram. In addition to these industries a brass manufacturing unit, general engineering workshop and steel trunk manufacturing in Samalkot and Coir Training Centre, Photo Frame Unit, Electrical Casting and Cart Wheel manufacturing in Kakinada are located in the district. There are two industrial estates one at Samalkot and the other at Dowleshwaram with a provision of 24 and 48 factory sheds respectively.

The district is served by a net work of 98 banks of which 28 each in Kakinada and Rajahmundry, 6 each in Amalapuram, Peddapuram and Ramachandrapuram, 5 each in Pithapuram and Tuni, 3 each in Mandapeta, Samalkot and Razole, 2 each in Bandarulanka and Dowleshwaram and one in Rajahmundry Non-Municipal Area.

Thirteen Agricultural Credit Societies and 270 Non-Agricultural Credit Societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1. Location Code number and name of village/town and area.

2. Total number of occupied residential houses and total number of households.

3. Total population and its sex breakup.

4. Population of Scheduled Castes and Scheduled Tribes by sex breakup.

5. Literate persons by sex.

6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories. Viz :-

Category	I	;	Cultivators
Category	II	:	Agricultural Labourers
Category	V (a)	:	Household Industry
Category	III, IV, V (b) & VI to IX	:	Other workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L.C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L.C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 irrespective whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels etc., or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of East Godavari district is as follows :

	Persons	Males	Females
Total	3,701,040	1,857,472	1,843,568
Rural	2,878,860	1,443,715	1,435,145
Urben	822,180	413,757	408,423

Col. No. 1 & 2 indicate L. C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process East Godavari district was allotted L.C. No.4. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L.C. Nos. of villages were given in Arabic numerals while those of towns in Roman numerals.

Column 3 : This column shows the area of villages in hectares while the area of town is given in sq. kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of

India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Column 4 : Number of occupied residential houses in a village/town includes partly residential houses also.

Column 5 : This column includes houseless households and institutional households as well.

Columns 6 to 8 : Total population includes houseless and institutional population with sex break-up.

Columns 9 to 12 : Under these columns the population of S.Cs. and S.Ts. by sex is given. A copy of the list of S.Cs. and S.Ts. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27-7-1977 is given below.

LIST OF SCHEDULED CASTES AND SCHEDULED TRIBES IN ANDHRA PRADESH

SCHEDULED CASTES

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhor
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammala Wandlu
22. Ghasi, Haddi, Relli Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali

30. Kolupulvandlu
31. Madasi Kuruva, Madari Kurva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Mashti
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindhollu, Chindollu

SCHEDULED TRIBES

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goudu (in the Agency tracts)
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria, Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs
17. Kotia, Bentho Oriya, Bartika, Dhulia, Bulia, Hovla, Paiko, Putiya, Sanrona, Sidhopaiko
18. Koya, Goud, Rajah, Rasha Koya, Lingadhari Koya (Ordinary) Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis (excluding Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Nizamabad, Medak, Nalgonda and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks (in the Agency tracts)
24. Pardhan
25. Porja, Parangiperja
26. Reddy Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti (in Adilabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal districts)
31. Valmiki (in the Agency tracts)
32. Yanadis
33. Yerukulas

Columns 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Columns 15 to 28 : At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work : Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more, are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census, a person is working as cultivator if he or she is engaged either as

employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 740, 364 occupied residential houses and 818,672 households in East Godavari district compared to 532, 693 residential houses and 662, 789 households in 1971 registering an increase of 38.99% in number of residential houses and 23.52% in number of households.

The total number of persons returned at the 1981 Census in East Godavari district is 3,701,040 as against 3,087,262 in 1971 census, thus recording an increase of 19.88% as against the State's growth rate of 23.10%. The proportion of rural and urban population to the total population in the district works out to 77.79% and 22.21% respectively in 1981 census compared to 80.77% and 19.23% in 1971. There are 993 females per every 1,000 males at the 1981 census when compared with State index of 975 females per 1,000 males, The ratio of 996 females per every 1,000 males was recorded at 1971 census.

East Godavari district returned 1,306,901 literates at 1981 Census forming 35.31% of the total population of the district compared with 952,062 literates constituting 30.84% at 1971 census. The sex break up of literacy rates during 1981 census is 41.71% among males and 28.86% among females. Rural-Urban break up of literacy rates indicate 30.48% of population are literates in rural, while this is 52.24% in urban population. The corresponding rural and urban rates of literacy at 1971 are 26.91% and 47.34% respectively.

In East Godavari district there are 1,407,725 workers constituting 38.03% of the total population as against 1,183,329 workers forming 38.33% in 1971 Census. Among males the workers constituted 58.51% while among females 17.40% are workers. The decrease in the working population is due to the definition of worker adopted in 1981 census.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 1,389* villages in the district at the 1981 Census as against 1,513 at 1971. Out of the 1,389 villages, 1,317 are inhabited while 72 villages are uninhabited. 6 inhabited villages are reported as partly included in different towns of the district. 20 villages which are fully included in urban areas are not taken into account in computing the total number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Rajahmundry taluk has more urban population than other taluks, while Yellavaram taluk has the least urban population as per 1981 Census. Nine taluks are reported as exclusively rural taluks.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS 1981

	Total	**3,701,040**	**1,857,472**	**1,843,568**	**2,878,860**	**1,443,715**	**1,435,145**	**822,180**	**413,757**	**408,423**	**1,389**	**1,317**	**17**

* The decrease is due to the conversion of 22 main revenue villages into hamlets, merger of 96 main revenue villages with other main villages and inclusion of 10 Villages fully with the respective urban areas. 4 Villages are reported as newly sprung up during the decade.

Table 2 compares the taluk-wise population from 1971 and 1981 Censuses for total, rural and urban areas. Rajahmundry taluk has recorded the highest growth rate of 33.95% during the decade 1971-81, while Mummidivaram taluk has recorded the lowest growth rate of 11.90%

Table 2

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 2,000-4,999 population and form 24.30% of total villages in this district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No. of Villages in each Range	Percentage of Villages in each Range
1	2	3
- 199	289	21·94

5,000 - 9,999	149	11·31
10,000+	28	2·13
Total	**1,317**	**100·00**

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 501+. More than 70% of villages come under density group 201 and above. This district has returned a density of 342 persons per square kilometre as against 195 persons for the State.

According to 1981 Census the population of Scheduled Castes in East Godavari district is 651,457 accounting for 17.60% of the total population of the district. Scheduled Caste population in this district forms 8.18% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 50% of the villages have Scheduled Caste population in a percentage range above 11. 26.34% of villages are without Scheduled Caste population.

Table 5

Table 7 provides the total population, scheduled caste and scheduled tribe population and the percentage of scheduled caste and scheduled tribe population to the total population of the towns in the district.

The total scheduled castes population in urban areas of the district at 1981 census was 90,484 persons representing 11.01% of the total urban population. Among the towns, proportions of scheduled castes population varies from 4.91% in Suryaraopet to 25.17% in Machavaram town.

The total scheduled tribes population in urban areas of the district according to 1981 census was 4,361 persons constituting 0.53% of the total urban population. The proportion of scheduled tribes population varies from 0.20% in Tuni to 2.88% in Donkarayi town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

Table 8 gives the literacy rates by population ranges of villages in the district. According to the general literacy rate, the district takes 2nd rank amongst the districts in Andhra Pradesh. The proportion of literates in this district constitutes 8.17% of the total Andhra Pradesh literates.

Interestingly, the literacy rate increases as the size-class of population of villages increases.

Highest literacy rate of 36.85% is found in villages with 10,000 + population.

Table 8

LITERACY RATES BY POPULATION RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
(1)	(2)	(3)
- 199	289	5.38
200- 499	227	14.97
500-1,999	304	27.00
2,000-4,999	320	29.87
5,000-9,999	149	31.90
10,000+	28	36.85
Total	**1,317**	**30.48**

Table 9 shows the literacy rates for the towns in the district as per 1981 Census.

The literates in all the 17 urban areas in the district together constitute 429,476 persons forming 52.24% of the urban population. Among the towns the literacy rate varies from 42.46% in Pithapuram town to 64.58% in Razole town. Kakinada, the district headquarters town, takes the sixth rank in literacy with a percentage of 51.78.

Table 9

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is more concentration of scheduled casts and scheduled tribes population in the rural areas than in the urban areas. East Godavari district has returned 35.31%of the total population of the district as literates. Rajahmundry taluk has returned 46.65% of literates and this is the highest in the district. Amalapuram taluk has returned the largest number of workers 102,985 in its rural areas accounting for 8.30% of the total rural workers of the district and 42.61% of the total rural population of the taluk. Rampachodavaram taluk stands first among the taluks in the district in the proportion of workers to total population. P. Gannavaram taluk has returned 29.07% of scheduled caste population while the least is in Rampachodavaram taluk with 4.24%. In rural areas of taluks, Amalapuram with 31.28% stands the highest while Rampachodavaram recorded the last position with 4.24%. The percentage of scheduled caste population in urban areas range between 16.65% to 6.64% among the taluks. Rampachodavaram taluk has recorded highest proportion of scheduled tribe population with 71.07% while Razole has the least proportion of scheduled tribe population with only 0.36%.

Rajahmundry taluk tops the list in literacy rates among the total and female population whereas Razole taluk stands at the top in literacy rates among the rural and urbans areas.

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table, drinking water facility is available in all the villages, while amenities of Education, P & T, power supply, approach by pucca road and communication are available in proportion of 76.39%, 62.57%, 59.68%, 56.80% and 48.90% respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 29.23% of villages have medical facility 23.69% of villages have market facilities.

The table clearly sets out the taluk-wise position of various amenities.

Table 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Table No. 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

58.25 per cent of population has only medical facilities while about 56.62% of the population has access to market facilities, 98.57% of the population has education facilities. More than 75% of the population have power supply, aporoach by pucca road and communciation while almost 100% of the population has access to education and drinking water.

Table 12

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is no village in this district without drinking water facility. 311 villages do not have education facility within the village, but these villages have that facility at different distance ranges. Large number of villages do not have market, medical, communication and P & T facilities within the village, but have at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 Kms.	5-10 Kms.	10+Kms.	Total (Cols. 2-4)
(1)	(2)	(3)	(4)	(5)
1. Education	207	59	45	311
2. Medical	391	245	296	932
3. Drinking Water	..	..	..	..
4. P & T	310	100	83	493
5. Market	375	275	355	1,005
6. Communication	334	148	191	673

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

Seven per cent of the villages have towns within the range of 5 Kms. About 24 per cent of the villages have towns within a range of 6-15 Kms., while the balance have nearest towns located within 16-50 Kms. and +5 Kms. ie. 44% and 25% respectively. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in kms.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1999, 2000-4999. and 5000+ are considered and the villages are distributed in these ranges. About 39% of the villages are in the range of 499, while the villages in the range of 500-1999 and those in the range of 2000-4999 form 23% and 24% respectively. Only 14% of the villages are in the category of 5000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these rages are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in the villages falling in the ranges other than 5000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

19·	Razole	Rice

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 67.37% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 448,746.68 hectares 254,695.15 hectares forming 56.76% is only tenable. Rayavaram taluk has the largest percentage of cultivable area of 87.80% while the lowest percentage of 44.08 is found in yellavaram taluk. Ramachandrapuram has the highest percentage of irrigated area of 92.45 to its total cuttivable area while Rampachodavaram has the lowest percentage of 7.05.

Table 17

Table 19 indicates the towns added/declassified at the 1981 census with their population.

Four towns are newly added to 1971 census list of towns and there is no case of declassification of town at the 1981 census in this district.

Table 19

NEW TOWNS / TOWNS DECLASSIFIED IN 1981 CENSUS

	Name of Town		Population 1981 Census
	(1)		(2)
(a)	Added :		
	(i)	Bandarulanka	9,810
	(ii)	Donkarayi	3,891
	(iii)	Ramanayyapet	7,703
	(iv)	Suryaraopet	6,861
(b)	Declassified :		
	Nil		

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the seventeen urban areas in the district, the highest per capita receipt is noticed in Tuni Municipality (Rs. 129.05) followed by Amalapuram Municipality (Rs. 101.15) while Rajahmundry Municipality (Rs. 89.57) takes the third rank. The lowest per capita receipt is recorded in Bandarulanka Panchayat (Rs. 5.80). Receipts through taxes is highest in Amalapuram Municipality (Rs .50.28) while this is lowest in Bandarulanka Panchayat (Rs. 1.88). From all other sources together the highest per capita receipt is noticed in Tuni Municipality (Rs. 107.19) followed by Pithapuram Municipality (Rs. 71.71) and Rajahmundry Municipality (Rs. 67.15) while the lowest per capita receipt is recorded by Dowleshwaram Panchayat (Rs. 0.35).

Tuni Municipality stands first among the urban areas of the district with its per capita expenditure of (Rs. 129.05) followed by Amalapuram Municipality (Rs. 95.90) and Rajahmundry Municipality (Rs. 89.39). Bandarulanka Panchayat ranks last in per capita expenditure (Rs. 4.93). The per capita expenditure of Rs. 15.23 on public health and conveniences in Rajahmundry is the highest among the towns while Ramanayyapet has the minimum of Rs. 0.17. The highest per capita expenditure of Rs. 19.77 on public institutions like schools and libraries is recorded by Ramachandrapuram Municipality. No expenditure is incurred by Dowleshwaram, Donkarayi, Machavaram, Rajahmundry Non-municipal Area and Suryaraopet towns for this purpose.

All the civic bodies are running on sound lines with surplus budget except Dowleshwaram, Kakinada, Ramachandrapuram and Razole towns which are functioning with deficit budget. Peddapuram, Samalkot and Ramanayyapet are having considerably more per capita receipts than per capita expenditure.

Table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following table refers generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appearing the different grades of examination conducted by the concerned Examination Board periodically.

There are 261 primary schools, 110 upper primary schools, 68 high schools and 16 junior colleges in all the urban areas of the district.

From the Table 22 it can be seen that the number of beds available in urban areas of this district is low being 3.83 beds per every 1,000 population. More than one-third of the total bed strength in the urban areas of the district is concentrated in Kakinada, the district headquarters. The bed population ratio is highest in Machavaram where there are 11.71 beds per 1,000 population and the next best is Ramachandrapuram with 11.46 beds per 1,000 population. Kakinada, Pithapuram, and Razole towns have recorded the bed-population ratio more than the district average. In all the other towns this ratio is less than the district index.

Table 22

Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. This information was earlier collected in 1931 Census. After the independence, the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows ;

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or less of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or only one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present."

In case a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, ect., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. A person suffering from all the disabilities was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in East Godavari district is given below.

DISABLED POPULATION BY TYPE OF DISABILITY

Physically handicapped form 0.15% of the total population in the district, comprising of 0.16% of rural and 0.09% of urban population. Out of the total 5,253 persons recorded as physically handicapped, i.e. totally blind, totally crippled and totally dumb in the district as many as 4,551 persons forming 86.64% are from rural areas only. Among the total physically handicapped in the district 33.28% are totally blind, 33.77% are totally crippled and 32.95% are totally dumb. The survey revealed that Tuni taluk has recorded the highest number of physically handicapped persons accounting for 420 persons, the lowest being Rampachodavaram taluk with 80 persons.

PART-B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I – Village Directory
SECTION II – Town Directory
SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

EDUCATIONAL : (COLUMN NO. 5)

- P : Primary or Elementary School (Upto Class IV)
- M : Middle School or Junior Secondary (Class from V to VIII)
- H : Matriculation or Secondary School (Class from IX and X)
- JC : Higher Secondary/PUC/Intermediate/ Junior College
- C : College
- I : Industrial School
- Tr : Training School
- AC : Adult literacy class/Centre
- O : Other educational institutions which include Sanskrit Pathasala, Senior Basic School

MEDICAL : (COLUMN NO. 6)

- H : Hospital
- MCW : Maternity and Child Welfare Centre or Maternity and Child Health Centre
- MH : Maternity Home
- CWC : Child Welfare Centre
- HC : Health Centre
- PHC : Primary Health Centre
- PHS : Primary Health Sub - Centre
- D : Dispensary
- FPC : Family Planning Centre
- TB : T.B. Clinic
- NH : Nursing Home
- RP : Registered Private Practitioner
- SMP : Subsidised Medical Practitioner
- CHW : Community Health Worker
- O : Others

DRINKING WATER : (COLUMN NO. 7)

- T : Tap
- W : Well
- TK : Tank
- TW : Tube Well
- HP : Hand Pump
- R : River
- F : Fountain
- C : Canal
- L : Lake
- S : Spring
- N : Nallah
- O : Others
- NA : Information not available

POST AND TELEGRAPH : (COLUMN NO. 8)

- PO : Post Office
- TO : Telegraph Office
- PTO : Post and Telegraph Office
- Phone : Telephone Connection

COMMUNICATIONS : (COLUMN NO. 10)

- BS : Bus
- RS : Railway Station
- NW : Navigable Waterway

APPROACH TO VILLAGE : (COLUMN NO. 11)

- PR : Pucca Road
- KR : Kaccha Road
- NR : Navigable River
- NC : Navigable Canal
- NW : Navigable Waterway
- FP : Foot Path

POWER SUPPLY : (COLUMN NO. 13)

- ED : Electricity for Domestic Purpose
- EAG : Electricity for Agriculture
- EO : Electricity for Other purposes like industrial, commercial etc.
- EA : Electricity for all purposes listed above

IRRIGATED BY SOURCE : (COLUMN NO. 16)

GC : Government Canal
PC : Private Canal
W : Well (Without Electricity)
WE : Well (With Electricity)
TW : Tube Well (Without Electricity)
TWE : Tube Well (With Electricity)
TK : Tank
R : River
L : Lake
WF : Water Fall
O : Others
T : Total

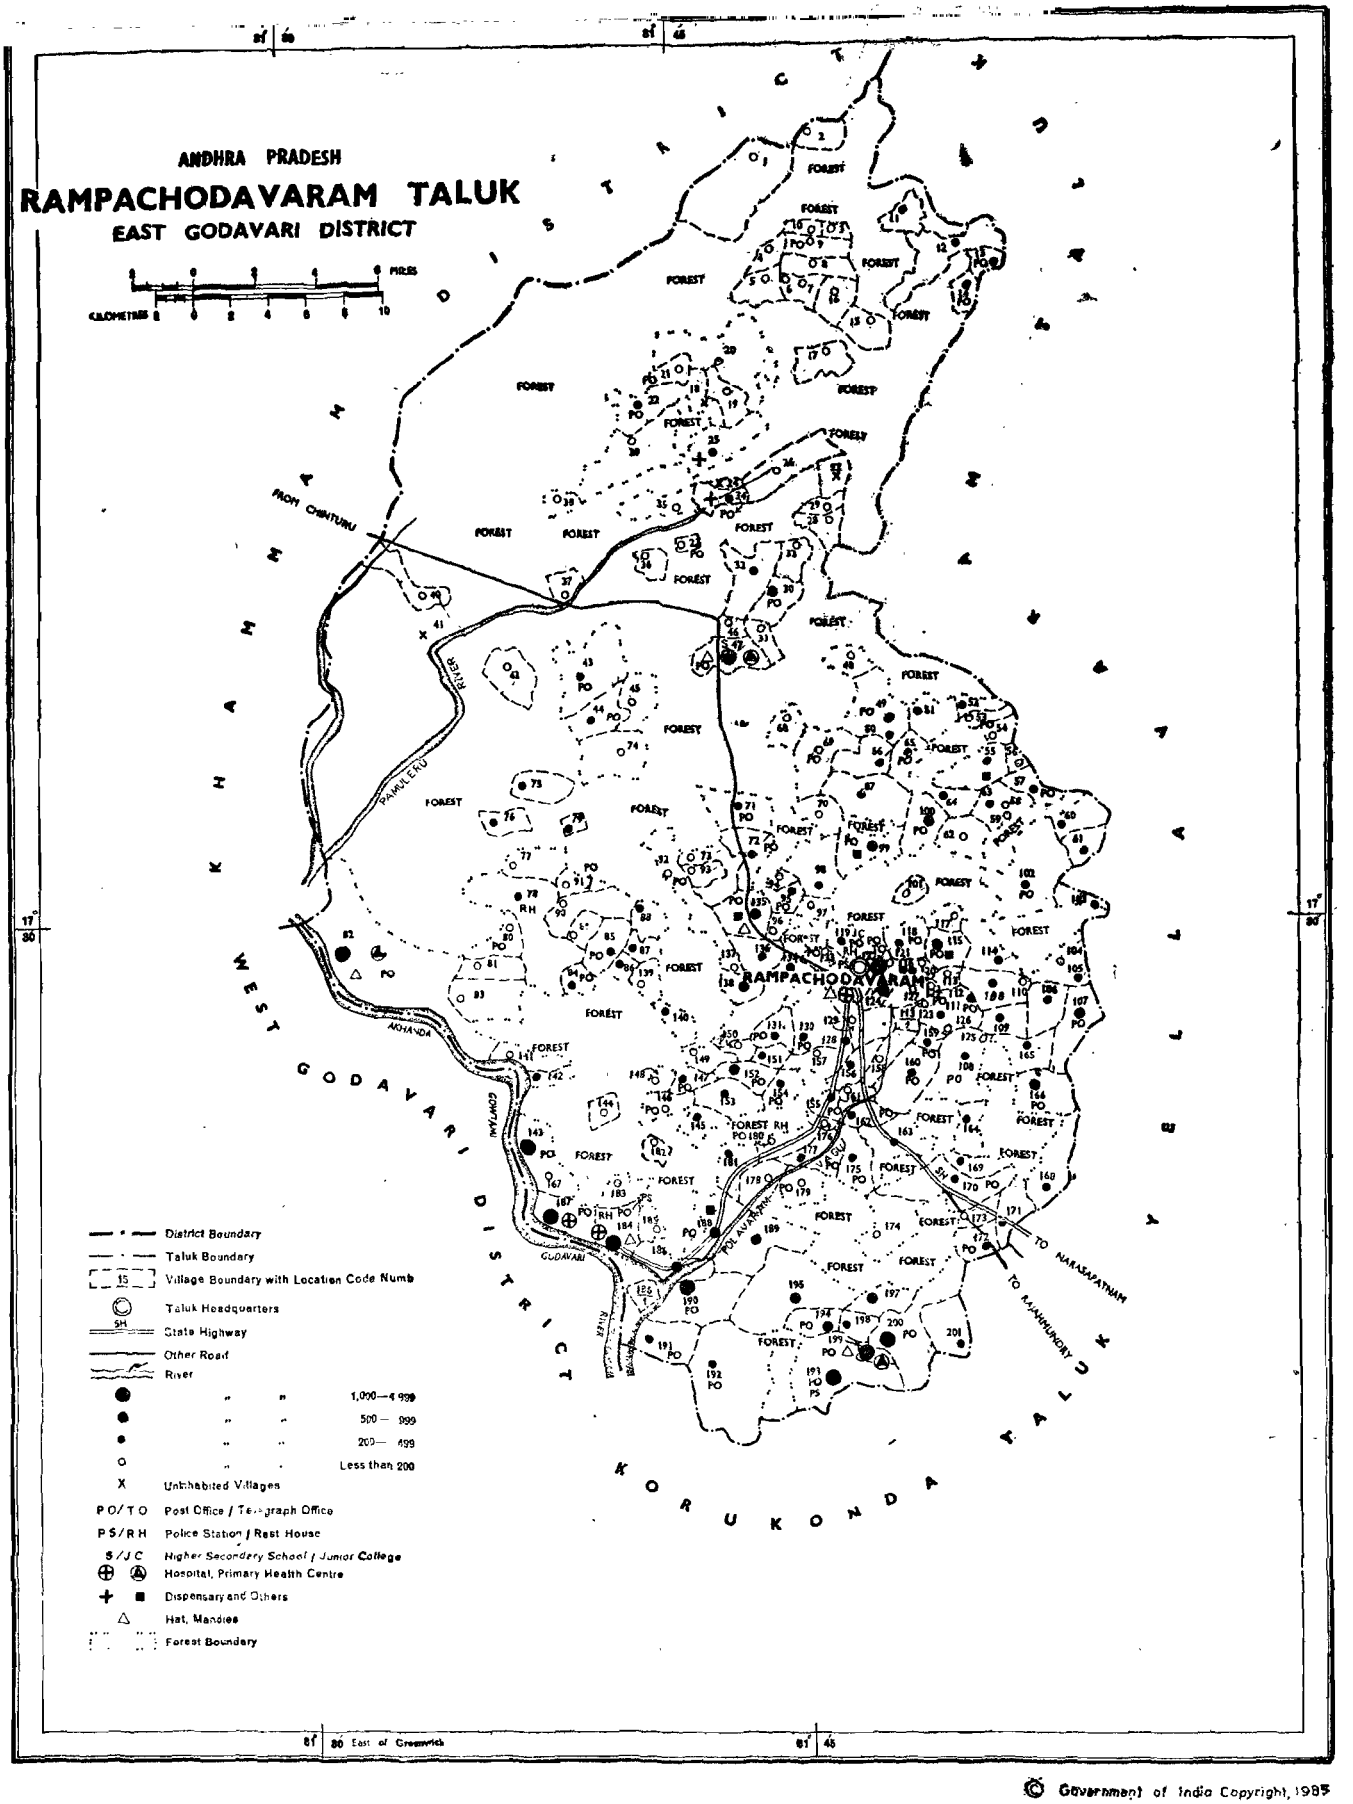

REMARKS, ETC. (COLUMN NO. 20)

N : Copies of the News Papers (Coming in the village)
M : Motor Cycles/Scooters
C : Cars/Jeeps
T : Tractors

As an example an entry showing figures like P (2), or D (2), or T (35.21), TK (35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 Hectares and extent of land irrigated by water from tanks is 35.21 Hectares.

Where a facility is not available in the village the distance at which the facility available is shown in broad ranges viz.,- 5 Kms, 5-10 Kms. and 10+kms. of the nearest place where the facility available is given.

ALPHABETICAL LIST OF VILLAGES

AMALAPURAM TALUK

1981 Location Code No. (1)	Name of Village (2)
12	Ainavilli
47	Allavaram
38	Amalapuram
22	A. Vemavaram
34	Bandarulanka
51	Bendamurlanka
39	Bhatnavilli
63	Bheemanapalle
46	Bodasakurru
66	Chinagadavilli
3	Chintanalanka
54	Devaguptam
27	Gangalakurru
48	Godi
49	Godilanka
62	Gollavilli
59	Gopavaram
44	Gudala
33	Gunnepalle Agraharam
37	Idarapalle
45	Immidivarappadu
36	Indupalle
8	Irusumanda
23	Janupalle
19	K. Jagannathapuram
52	Komaragiripatnam
16	Kondukuduru
14	Kotipalle Bhaga
17	Krapa
61	Kunavaram
29	Machavaram
1	Madupalle
20	Magam
50	Mogallamuru
26	Mosalapalle
7	Mukkamala
68	Munipalle
25	Nadipudi
64	Nagavaram
24	Nallamilli
30	Nandampudi
9	Nedunuru
71	Nimmakayala Kothapalle
28	Palagummi
5	Pasupalle
67	Pedagadavilli
32	Peruru
18	Pothukurru
56	Rellugadda
35	Sakurru
41	Samanasa
53	Samanthakurru
15	Sanapallelanka
65	Sannavilli
10	Sirasavilli Savaram
11	Siripalle

SECTION II – Town Directory

SECTION II

TOWN DIRECTORY

Town Directory

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in statements are briefly explained herein. Statement I has been compiled in this Office and Satements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town the codes used are:

Municipal Corporation/ Corporation :	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area / Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca Road	PR
Kuccha Road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel Barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows :

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell Pumping System	BWP
Pressure tank	PT
Tubewell Water/ Hand Pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In statement V under Col. 4 to indicate the type of medical facility available to the citizens the following codes are used :

Hospital	H
Dispensary	D
Health Centres	HC
Family Planning Centre	FC

T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg: D(2); NH(7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below:

H (A—1,2), D (Hom—2, U—1).

Here H(A—1,2) represents one Ayurvedic and 2 Allopathic hospitals and D(Hom—2, U—1) represents 2 Homoeopathic and 1 Unani Dispensaries.

The Codes used for the Col. 6 are as follows:

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised shorthand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Shorthand	SH
Typewriting	Type
Shorthand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training institutes, Music/Dancing School, Nursing School, etc. are covered under "Others".

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-Primary Schools. Schools upto Class VIII are treated as Junior Secondary or middle schools. Schools upto Class X is treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/Junior College, etc.

Under Col. 20 the abbreviations given are as follows:

Public library	:	PL
Reading Room	:	RR

TOWN

STATEMENT I : STATUS
