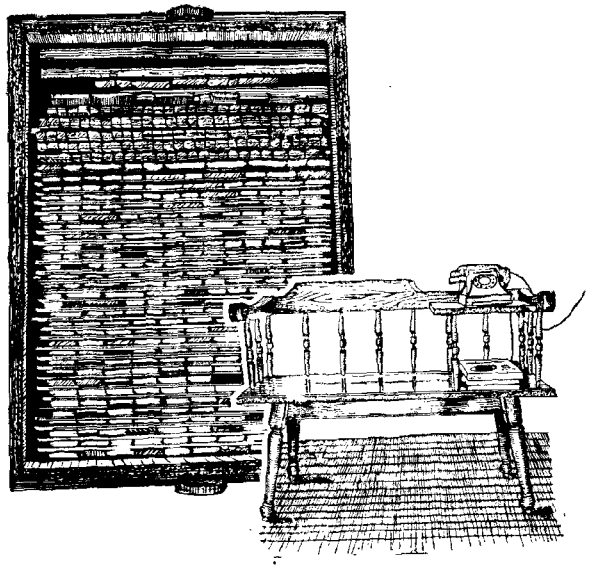
VILLAGE & TOWN PRIMARY CENSUS ABSTRACT

T. VEDANTAM
OF THE INDIAN ADMINISTRATIVE SERVICE
DIRECTOR OF CENSUS OPERATIONS
ANDHRA PRADESH

PUBLISHED BY THE GOVERNMENT OF ANDHRA PRADESH
1973



THE INTEGRATED SAW MILL UNIT, RAJAHMUNDRY

The motif on the cover page depicts a fully loaded chamber of the seasoning kiln and a piece of non-teak furniture commonly known as the "Gossip Bench" manufactured at the State-owned Integrated Saw Mill unit set up at Rajahmundry, the largest city (population 165,912) in East Godavari District and also one of the most important timber trade and saw milling centres in India. The principal object in establishing this integrated saw mill unit is to popularise the non-teak species in the place of Teak in order to restrict the demand for Teak products. This mill which actually went into production during 1964-65 has made a dent on the country's timber trade, and the mill's products have become extremely popular both in the Public and Private Sectors.

2. This plant at Rajahmundry equipped with modern and sophisticated machinery consists of five units viz., 1. Timber Depot, 2. Saw Mill, 3. The Seasoning Kiln, 4. Treatment Plant and 5. Wood Work-shop. The functions of the unit range over sawing, processing and treatment of wood of secondary and non-teak species in order to upgrade them to the level of Teak wood in respect of durability and stability of shape. The finished products from this unit include besides sawn-timber to various sizes, articles of 'drawing, bed and dining room furniture, trusses and columns, doors and windows, railway sleepers etc.' The "Gossip Bench", referred to in the previous para, with sitting space and arrangements to keep the telephone, ash tray etc., is one of the popular items of non-teak furniture produced by this unit. Rajahmundry has been an important centre of political, educational and social activities from the beginning of the present century, Rajahmundry had been in the 'News' even before this saw mill unit started producing the "Gossip Bench".

OFFICE OF THE REGISTRAR GENERAL

3. There is good demand for the wooden furniture prepared at this unit. The Indian Navy, the Port Trusts at Visakhapatnam and Madras, the Housing Boards of Andhra Pradesh and Tamil Nadu, the Hindusthan Ship building yard at Visakhapatnam, Central and State Warehousing Corporations, Post and Telegraphs and Defence Departments figure prominently among the major consumers of the mill's products.

4. The volume of business transacted between the year 1964-65 and 1970-71 indicates the stupendous growth made by this unique concern during a short span of about 6 years. The turnover in the three main divisions of the unit viz., Sawing, Processing and Treatment which stood in the order of 13,600 c.ft., 600 c.ft. and 3,900 c.ft., valued totally at Rs. 2.6 lakhs in 1964-65 increased to 2,65,000 c.ft., 14,300 c.ft. and 68,500 c.ft. valued at over Rs. 21 lakhs in 1970-71. This unit with countrywide fame is looked upon as a pioneering project in the field of country wood manufacturing industry. The Forest Research Institute at Dehra Dun often quoted the successful example of the Rajahmundry's Integrated Plant to various States in the country while recommending establishment of similar projects. The United Nations Expert, Mr. B. Gallies and Dr. B. R. Freeden paid a glowing tribute to the Unit's exemplary service to the cause of rational utilization of the vast non-teak timber stocks of the country which go into the market usually as firewood.

5. It is also noteworthy that this unique project is located at Rajahmundry on the left bank of the mighty river Godavari that passes through the forest tracts of East Godavari. East Godavari district has an extent of 2,901.68 Sq. Kms. under forests representing about 27% of the total geographical area of 10,970.0 Sq. Kms. in the district. Bamboo is available in large quantities in these forests and the Andhra Paper Mills at Rajahmundry gets about 60% of its bamboo requirements from the forests of East Godavari district. Coffee plantations are grown in a small area while rubber plantations are being tried in these forests on an experimental basis. But these forests possess neither the precious Teak wood species of Adilabad district nor the rich Red Sanders of the Nallamalais in Cuddapah and Kurnool districts but have abundant poor quality timbers usually considered fit only for fire-wood. It is this factor which led to the establishment of the Integrated unit at Rajahmundry. The consumers calling once at this Saw Mill's sales counters are convinced that the "Teak" considered the 'Queen of Woods' can no longer hold its sway over the realm of timber trade in the country.

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of the Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts *viz.*, Part A – Village and Town Directory, Part B – Village and Town Primary Census Abstract and Part C – Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities etc., available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of the 1971 Census Handbooks of all the 21 Districts in the State have been finalised already and I expect that before the end of 1974 Parts A and B for all 21 Districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing etc., required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Shri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part-A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Shri A. Chandra Sekhar, IAS., Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of East Godavari District Census Handbook under the guidance and supervision of Shri P. S. R. Avadhany, Deputy Director of Census Operations and Sri K. Narasimha Murthy, Assistant Director of Census Operations of my office.

Sri P. B. Sunder Raj, Tabulation Officer Smt. P. Lalitha, Tabulation Officer Sri T. Brahmaiah, Statistical Assistant Sri K. V. Sarma, Statistical Assistant	Drafting, Scrutiny and Supervision
Sri A. V. Krishna Reddy, Computor	Supervision of Printing
Sri N. Gangaraju, Computor Sri S. Rama Krishna, Assistant Compiler Sri P. V. Prabhaker, Assistant Compiler Sri K. Devadas, Assistant Compiler Sri V. Babu Rao, Assistant Compiler	Collection and Compilation

Sri G. Jayaraju, Proof Reader Sri M. Lakshma Reddy, Proof Reader	Proof Reading
Sri A. Venkateswara Rao, Assistant Compiler	Scrutiny of Maps
Sri M. N. Ram Mohan, Artist	Supervision of Mapping Work
Sri Syed Ahmed, Senior Draughtsman Sri M. J. Sadiq, Draughtsman Sri N. G. Swamy, Draughtsman Sri Mohiuddin Hassan, Draughtsman Sri M. Shankaraiah, Draughtsman Sri Md. Yaqub Ali, Draughtsman Sri B. Raghuram, Draughtsman Smt. Daya Saxena, Draughtsman Sri D. Koteswara Rao, Computor	Preparation of Maps

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

T. VEDANTAM
Director of Census Operations

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published District Manuals for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained datailed statistics. They decided that Volume B should be brought out periodically after each decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after the 1931 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from the District Manuals and Gazetteers, the Census data upto village level used to be published in a brochure called 'Village Statement' for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census, the Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbooks for each district in place of the Village Statements was first entertained and put forward at the 1951 Census by Sri R.A. Gopalaswamy, I.C.S., the then Registrar General, India and *ex-officio* Census Commissioner of India as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the Village Statistics of the past censuses This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing Administrative Statistics and Part II the Census Tables. In the composite Madras State, the Handbooks were brought out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the physical features and History, Social, Economic and Demographic characteristics, the progress made in each field of administration over the past decades and a brief Gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961 Census Tables *viz.*, General Population Tables, Economic Tables, Cultural and Migration Tables,

Special Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of Village and Town Directory which was the most important section of the Handbook, giving village wise and town wise Primary Census Abstract *i.e.*, particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine sub-tables containing village wise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen etc., were given after Village and Town Directory. A tabular statement on Fairs and Festivals in the district was given at the end of the volume. All these four parts were bound in a single volume ane published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful and valuable publications and had considerable demand by public as well as the official users of the Census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the 1961 Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important Census data to the planners, administrators and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts *viz.*, Part A, Part B and Part C. Part A contains the Village and Town Directory. Part B contains the Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later.

A brief out-line on the scope of each of these three parts is given below.

Part A: Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory

It is arranged talukwise and gives for each village, particulars of amenities such as educational and medical institutions, power and drinking water supply, post and telegraphic facilities, communications, particulars of land use, markets, places of religious, historical or archaeological interest in the village.

Town Directory

The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the Scheduled Castes/ Tribes population inhabiting are presented in seven statements. These particulars are given for each town in the district arranged in alphabetical order.

Part B: Village and Town Primary Census Abstract

This part gives for each revenue village and also for each enumerator's block and ward of a town, the Primary Census data *i.e.*, area, occupied residential houses, number of households, total population and its break up by sex, Scheduled Castes and Scheduled Tribes population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry, fishing, plantations etc., in mining and quarrying, in manufacturing, in construction, in trade and commerce, in transport, storage and communications and in other services and the non-working population as per the 1971 Census.

Part C: Administrative Statistics and Report

This part comprises the various administrative statistics pertaining to the district with special reference to the development taken place during 1961-70 in different spheres and also the 1971 Census Tables relating to the General Population, Economic Characteristics, Cultural and Migration features, Housing and Establishment tables and data pertaining to the district regarding language and religion. A write up, indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries, Trade and Commerce, Education, Medical and Public Health, Community Development etc., is given at the beginning of this part. In view of the elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban Classification of areas

It is customary to classify the population of every country at a Census as Rural and Urban. Such a classification has considerable significance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence at the beginning of each Census, the criteria for treating a place as town (*i.e.*, urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the Census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade, decided them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census.

1 All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and

2 All other places which satisfied the following criteria.
   (a) a minimum population of 5,000
   (b) a density of population of atleast 1,000 persons per Sq. mile (400 persons per Sq. Km.) and
   (c) atleast three fourths (75%) of the male working population is non-agricultural.

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to treat a place as a town or a village.

The towns are categorised into six classes as detailed below:-

Classification of Towns	*Population size*
Class I	1,00,000 and above
Class II	50,000 – 99,999
Class III	20,000 – 49,999
Class IV	10,000 – 19,999
Class V	5,000 – 9,999
Class VI	Below 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.*, Urban Agglomeration and Standard Urban Area were evolved at the 1971 Census. They are briefly explained below.

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port area, Military Camps etc. Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowth would deserve to be treated as an integrated urban area. At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomeration replaced the concept of Town-group followed in the 1961 Census. An urban unit is treated as an Urban Agglomeration in the following situations.

(a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of the adjoining village or villages.

(b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) and

(c) A city and one or more adjoining towns with their outgrowths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh, the following four places are treated as Urban Agglomerations.

Name of the Urban Agglomeration (1)	*Constituent units in the Urban Agglomeration* (2)
1 Visakhapatnam Urban Agglomeration	(*a*) Visakhapatnam City
	(i) Visakhapatnam Municipality
	(ii) Gajuvaka (Outgrowth)
	(*b*) Gopalapatnam

Name of the Urban Agglomeration (1)	*Constituent units in the Urban Agglomeration* (2)
2 Rajahmundry Urban Agglomeration	(*a*) Rajahmundry Municipality (*b*) Rajahmundry Non-Municipal Area
3 Vijayawada Urban Agglomeration	(*a*) Vijayawada Municipality (*b*) Patamata Town (*c*) Gunadala Town
4 Hyderabad Urban Agglomeration	(*a*) Hyderabad Municipal Corporation (i) Hyderabad Division (ii) Secunderabad Division (*b*) Secunderabad Cantonment (*c*) Malkajgiri (*d*) Alwal (*e*) Uppal Khalsa (*f*) Balanagar (*g*) Fatehnagar (*h*) Macha Bolaram (*i*) Osmania University (*j*) Lalaguda (*k*) Kukatpalle (*l*) Moosapet (*m*) Bowenpalle (*n*) Zamistanpur

The Standard Urban Area (S.U.A.)

The concept of the Standard Urban Area has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at the 1961 Census did not effectively tackle the problems involved in reporting urban statistics apart from lacking a uniform application throughout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constituent units whose jurisdictions were subjected to frequent changes and thus lacked in stability. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over a time but also lost spatial comparability with similar data processed both within the country and outside. These short-comings reduced considerably the utility of the town-group concept. To enable the presentation of urban statistics on an uniform basis and also to ensure comparability of the census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban outgrowth such as the suburbs (industrial and residential), Railway Colonies, Civil Lines, Cantonments and also such of those villages that are likely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, the village, the boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed:

(i) The core town should have a minimum population of 50,000

(ii) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town and

(iii) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In East Godavari district, Kakinada and Rajahmundry towns with their surrounding villages are treated as Standard Urban Areas. Details about Standard Urban Areas are given in Table A-V at pages 175 to 185 of Part II-A, General Population Tables of Andhra Pradesh and may be referred to.

PART - A

VILLAGE AND TOWN DIRECTORY

SECTION I – Village Directory

SECTION II – Town Directory

SECTION I

VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electric supply in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides presenting the data on basic amenities like educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, places of historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The villagewise Primary Census Abstract is presented separately in in Part B of this volume.

In the Village Directory, the revenue village is taken as the lowest unit for presentation of data. The villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory, the Village Directory contains only one statement. An Alphabetical List of Villages with the Location Code Numbers against them is given at the beginning of the Village Directory and Primary Census Abstract of each taluk. This facilitates the reader to select the required village from the Alphabetical List and after knowing its location code number to obtain the necessary particulars from the Village Directory. The Village Directory is broadly divided into four broad sections *viz.*, location particulars, basic amenities like education, medical etc., land utilisation and distance from urban area and the importance of the village as a religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the village. The area given under column 3 is as per the data furnished by the Tahsildar and the State Survey Department. Columns 4 to 9 give the basic amenities available in the village such as the educational, medical, electricity, drinking water, communications and postal facilities.

The educational facilities are shown by the following symbols under column 4.

P : Primary or Elementary School
M : Middle School
H : High School or Higher Secondary School
C : College
T : Technical Institution

If there are more institutions than one of a type in the village, the number of institutions precedes the abbreviations *e.g.*, 3P, 2M, 3H etc.

Medical and Public Health facilities existing in the village are shown by the following symbols under column 5.

H : Hospital
D : Dispensary
Mcw : Maternity and Child Welfare Centre
Fpc : Family Pl nning Centre
Phc : Primary Health Centre

If the village is electrified then it is indicated by the letter E under column 6.

The types of drinking water supply sources available within the village are indicated as below:

T : Tap
W : Well
Tk : Tank
Tw : Tube Well
R : River
C : Canal

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, then the communication facilities of the village under column 8 have been indicated as below:

PR : Pucca Road
KR : Katcha Road
T : Train
R : River
C : Canal

The postal facilities, if any, existing in the village are indicated under column 9 by the following symbols :

PO	: Post Office
TO	: Telegraph Office
PTO	: Post & Telegraph Office
Phone	: Telephone

If a village does not have any of the above facilities then "..." is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 as given below. If there is variety of grains mainly used in a village then they have been indicated accordingly.

Ri	: Rice
W	: Wheat
J	: Jowar
B	: Bajra
Ra	: Ragi
M	: Maize
Mi	: Millets (Korra, Arika, Variga)

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 the extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells etc., are given, wherever available under column 12 while under column 13 the extent of land unirrigated is given. Column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells etc , is given under column 15.

The various types of land use given under each of the columns 11 to 15 are listed out and the concepts explained below.

1. Forests (Column 11) — These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with break up irrigated and unirrigated (Columns 12 and 13) — This includes the land under the following three categories.

(i) *Net Area sown :*
The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) *Current fallows* :
This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(iii) *Other fallows* :
This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3. Culturable waste (Column 14) — This includes the land under the following three categories.

(i) *Miscellaneous tree crops, Groves not included in the area sown.*
Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under "Orchards" are classed under this category.

(ii) *Culturable waste* :
This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

(iii) *Permanent pastures and other grazing lands* :
These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and

grazing lands within forest areas are included under this head.

4. Area not available for cultivation (Column 15)

This includes the land under the following two categories.

(i) *Barren and uncultivable land*:

This covers all barren and uncultivable land like mountains, etc., *i e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(ii) *Land put to non-agricultural uses*:

All lands occupied by buildings, roads and railways or under waters, *e g.*, rivers and canals and other lands put to uses other than agricultural.

Under column 16 the distance of the village from the nearest town in Kms. is given. The days on which weekly market/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeological and tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and local bodies concerned and also from the concerned departments like Postal, Medical, Education, Electricity etc.

INHABITED AND UNINHABITED VILLAGES

East Godavari district comprises of Agency tract and plains. Rampachodavaram and Yellavaram are the two Agency taluks, while the remaining 12 taluks *viz*, Kakinada, Amalapuram, Mummidivaram, Razole, Kothapeta, Alamur, Ramachandrapuram, Rajahmundry, Peddapuram, Prathipadu, Tuni and Pithapuram have no Agency areas. There are, in all 1,513 villages in this district at 1971 Census. Among these, 1,344 villages are inhabited and 169 villages are uninhabited. Thirteen villages of the total inhabited villages are partly included in different urban areas of the district. The Agency tract comprises 676 villages (536 inhabited and 140 uninhabited), while the remaining 837 villages (808 inhabited and 29 uninhabited) constitute the rural portion of the plains. Naturally, a larger number of the uninhabited villages are in the Agency tract.

663 villages or 49.4% of the total inhabited villages have a population of less than 1,000 persons each. Half of these villages or about 27% of the total inhabited villages are very small villages, with a population of less than 200 persons each. These tiny villages evidently are concentrated in the Agency taluks of Rampachodavaram and Yellavaram. 225 villages or about (16.7%) of the total inhabited villages belong to the population size of 1,000-1,999 persons each while 327 villages or about 24.3% of the total inhabited villages fall under the population range of 2,000-4,999 persons each. There are 114 or about 8.5% of the total inhabited villages with a population of 5,000-9,999 persons each while there are only 15 villages with a population of 10,000 or more each. Excepting the two Agency taluks of Rampachodavaram and Yellavaram a large number of villages in all the other taluks lie in the population range of 1,000-4,999 persons each. The number of villages with a population of 5,000 persons or more each lie in the deltaic taluks. About one-sixth of these large villages in the State are found in this district.

The distribution of villages by size class of population and by taluks is given below:

STATEMENT 1

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE OF POPULATION

Name of the Taluk	Total inhabited villages	Number of villages by Population size						
		Less than 200	200-499	500-999	1,000-1,999	2,000-4,999	5,000-9,999	10,000 and above
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
Kakinada	101	...	1	15	27	46	9	3
Amalapuram	69	...	1	2	23	29	13	1
Mummidivaram IST	36	...	...	2	6	16	11	1
Razole	54	...	...	3	13	25	12	1
Kothapeta	54	...	2	4	10	24	13	1
Alamur IST	42	...	1	2	11	19	8	1
Ramachandrapuram	72	...	3	4	25	24	14	2
Rajahmundry	80	2	3	7	16	37	12	3

Total	**1,344**	**363**	**195**	**105**	**225**	**327**	**114**	**15**

Regarding the area-wise distribution of villages it will be seen from the table below that 91 or 6.0% of the total villages including the uninhabited villages in the district have an area of less than 200 acres each; 167 villages or about 11.0% of total villages have an area of 201-500 acres each; 229 villages or about 15.1% of the total villages have an area of 501-1,000 acres each; 258 villages or about 17.1% and 223 or about 14.7% of the total villages in the district belong to an area range of 1,001-2,000 acres each and 2,001-5,000 acres each respectively. Only 25 villages have an area of more than 5,000 acres each. Most of the villages in all the taluks except the two Agency taluks lie in the area range of 501-2,000 acres while Kakinada and Rajahmundry taluks have a higher proportion of villages with a larger area *i.e.*, more than 2,000 acres each. In fact more than half of the villages in Rajahmundry taluk have an area between 2,000 and 5,000 acres each. The area figures of a very large number of areas in the two Agency taluks of Rampachodavaram and Yellavaram are not available yet as Survey and Settlement Operations in these Agency tracts are still not completed. The taluk wise dirtribution of villages by size class of area in acres is given below:

STATEMENT 2

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE CLASS OF GEOGRAPHICAL AREA

Name of the Taluk	No. of Villages by area in acres									
	Total No. of Villages	50 or less	51-100	101-200	201-500	501-1,000	1,001-2,000	2,001-5,000	5,000 and above	Unspecified

EDUCATIONAL FACILITIES

Education which has come to be viewed now as a potent means of development, has a role, which needs no emphasis, in the gradual evolution of an enlightened community. It is, therefore, one of the basic facilities that has to be provided to the people. An idea of the extent and the level to which it has been provided in the rural areas of the district can be had from the table given below. The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links.

STATEMENT 3

EDUCATIONAL FACILITIES

Distance from nearest town (In Kms.)	Total No. of inhabited villages	No. of villages having				
		Primary Schools	Middle Schools	High or Higher Secondary Schools	Colleges	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	80	74	7	13	...	2
6-10	157	151	28	12	1	6
11-15	146	137	30	16	...	10
16-25	217	202	36	28	2	12
26-50	231	175	27	15	1	8
51-100	117	80	5	1	...	2
Unspecified	396	48	...	3	...	4
Total	**1,344**	**867**	**133**	**88**	**4**	**44**

Out of the total 1,344 inhabited villages in the district, primary schools exist in 867 villages or about 60% of the total inhabited villages. 477 villages constituting 35.5% of the total inhabited villages do not have the minimum educational facilities. 133 villages or about 9.8% of the total inhabited villages have middle or upper primary schools while 88 villages or 6.5% of the total inhabited villages have high or higher secondary schools. Four colleges are also reported in the rural areas of this district and one each is located in the rural parts of Amalapuram and Rajahmundry taluks and the ramaining two in Kothapeta taluk. A unique feature of this district is that the rural areas of all the taluks including the two Agency taluks have reported certain oriental schools mainly engaged in Sanskrit 'Adhyayanam' or 'Manthra Pathanam' and in all, there are 44 villages spread over all the taluks having these oriental schools.

MEDICAL FACILITIES

Expansion of the medical facilities particularly in the rural areas has been emphasised from time to time in the development plans. An idea on the extent of the availability of these facilities in the rural parts of the district can be had from the following table.

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Name of the Taluk	No. of Medical Institutions			No. of medical institutions per 100 Sq. Kms. of Rural Area
	Hospitals	Dispensaries	Others	
(1)	(2)	(3)	(4)	(5)
Kakinada	...	6	3	0·09
Amalapuram	1	2	2	0 09
Mummidivaram IST	...	5	1	1·68
Razole	1	4	2	1·5o
Kothapeta	1	4	2	2·35
Alamur IST	1	2	1	1·38
Ramachandrapuram	...	7	3	2·36
Rajahmundry	1	4	3	0·86
Rampachodavaram IST	1	...	2	0·01
Yellavaram IST	1	2	I	0·01
Peddapuram	...	4	2	0·65
Prathipadu	...	4	2	1·03
Tuni IST	...	1	2	0·64
Pithapuram IST	...	2	2	1·17
Total	**7**	**47**	**28**	**0·77**

There are 82 medical institutions of various types in the rural parts of the district. These institutions include 7 Hospitals distributed over 7 taluks *i.e.*, all the taluks except Kakinada Mummidivaram, Ramachandrapuram, Peddapuram, Prathipadu, Tuni and Pithapuram; 47 Dispensaries spread over all the taluks except Rampachodavaram Indipendent Sub-Taluk and 28 other medical institutions such as Primary Health Centres, Family Planning Centres and Maternity and Child Welfare Centres. The rural parts of Kakinada, Ramachandrapuram and Rajahmundry taluks have more medical facilities compared to other taluks in the district while Tuni Ind. Sub-Taluk has less medical facilities. On an average there is not even one medical institution for every 100 Sq. Kms. of rural area in the district.

ELECTRIFICATION

The number of villages including the uninhabited where power supply is available is given in the table below. The villages are classified by their distance to the nearest town so as to have an idea as to how far the rural areas remote from urban centres are provided with electricity.

STATEMENT 5

NUMBER OF VILLAGES HAVING ELECTRICITY

Distance from the nearest town (In Kms.)	Total No. of Inhabited and Uninhabited Villages	No. of villages with Electric Power supply
(1)	(2)	(3)
5 or less	84	63
6-10	159	130
11-15	146	110
16-25	222	166
26-50	244	94
51-100	117	9
Unspecified	541	2
Total	**1,513**	**574**

It may be noticed that a higher proportion of villages near about the urban areas are electrified. Out of 1,513 villages in this district only 574 villages constituting 37.9% are electrified. This proportion would be higher if Agency villages which are nearly 45% of total number of villages in the district of which nearly 1% are only electrified are not considered. The proportion of electrified villages in the plains of the district is 67.3%. The talukwise break up of these 574 electrified villages and the percentage of villages electrified to the total number of villages in each taluk are given in the table below:

STATEMENT 6

DISTRIBUTION OF ELECTRIFIED VILLAGES BY TALUKS

Name of the Taluk	Total No. of Villages	No. of Electrified Villages	Percentage of electrified villages to total number of villages
(1)	(2)	(3)	(4)
Kakinada	105	80	76·2
Amalapuram	70	55	78·6
Mummidivaram IST	36	22	61·1
Razole	54	40	74·1
Kothapeta	54	50	92·6
Alamur IST	42	41	97·6
Ramachandrapuram	72	72	100·0
Rajahmundry	83	80	96·4
Rampachodavaram IST	201	7	3·5
Yellavaram IST	475	4	0·8
Peddapuram	87	37	42·5
Prathipadu	133	25	18·8
Tuni IST	52	25	48·1
Pithapuram IST	49	36	73·5
Total	**1,513**	**574**	**37.9**

All the villages in Ramachandrapuram taluk *viz.*, 72 are electrified. Alamur, Rajahmundry and Kothapeta come next in order with 97.6%, 96.4% and 92.6% of the total villages in the respective taluks being electrified. The proportion of villages electrified in the two Agency taluks *viz.*, Rampachodavaram and Yellavaram is very insignificant while the corresponding proportions in Prathipadu, Peddapuram, and Tuni Ind. Sub-taluk are comparatively low. However, supply of electric power in the rural part of this district is relatively better compared to other districts in the State.

COMMUNICATION FACILITIES

505 villages or 33.4% of the total villages including uninhabited are connected by pucca roads while 397 villages or 26.2% villages are connected by Katcha roads only. Rail transport facilities are also available in 6 villages. 611 villages out of 1,513 villages in the district do not have the road transport facility.

A table showing the distribution of villages by type of transport facility available is given below.

STATEMENT 7

COMMUNICATION FACILITIES

Distance from the nearest town (In Kms.)	Total No. of villages	No. of villages connected by				
		Pucca Road	Katcha Road	Pucca Road and Train	Katcha Road and Train	Others

Among the 1,344 inhabited villages in this district 581 villages have post offices, 24 villages have telegraph facility and 5 villages have telephones in the rural areas of the district. For every 100 Sq.Kms. rural area in the district there are about 5 post offices. The proportion of villages having post offices is higher in Kothapeta, Ramachandrapuram, Alamur, Amalapuram, Razole, Pithapuram, Mummidivaram, Prathipadu, Kakinada, Tuni, Rajahmundry and Peddapuram taluks while it is low in Rampachodavaram and Yellavaram Ind. Sub-Taluks due to the agency tracts.

STAPLE FOOD

The main staple food of the people in the rural areas in this district is rice. However, small millets like Ragi, Bajra are also being used as staple food in some parts of the district.

CULTIVATED LAND

A statement showing the average cultivated land and the average cultivable waste per village classified by distance to the nearest town is given below:

STATEMENT 9

STATEMENT SHOWING AVERAGE CULTIVATED LAND PER VILLAGE

Distance from the nearest Town (In Kms.)	Total No. of villages	Total cultivated land (Acres)	Average cultivated land per village (Acres)	Total cultivable waste (Acres)	Average cultivable waste per village (Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	84	84,660	1,008	8,373	100	9.9
6-10	159	180,293	1,134	15,837	100	8.8
11-15	146	157,798	1,081	18,909	129	11.9
16-25	222	278,597	1,255	42,025	189	15.0
26-50	208	225,163	1,083	55,846	268	24.7
51-100	33	40,009	1,212	27,565	835	68.8
Unspecified	122	2,307	16	1,112	8	50.0
Total	**974**	**968,827**	**995**	**169,667**	**174**	**17.5**

On an average the area under cultivation in each village is 995 acres while the extent of cultivable waste is 174 acres. The average cultivable waste for each village is equivalent to 17.5% of the cultivated land, which could be brought under the plough perhaps, with some efforts. The talukwise details are also given below to have a comparative picture of different taluks in the district.

STATEMENT 10

STATEMENT SHOWING AVERAGE CULTIVATED LAND AND CULTIVABLE WASTE BY TALUKS

Name of the Taluk	Total No. of villages	Total cultivated land (Acres)	Average cultivated land per village (Acres)	Total cultivable waste (Acres)	Average cultivable waste per village (Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Kakinada	104	114,500	1,101	11,649	112	10.1

Pithapuram IST	49	57,826	1,180	12,601	257	21.7
Total	**974**	**968,827**	**995**	**169,667**	**174**	**17.5**

N.B.—539 Villages (one village each of Kakinada, Amalapuram, Razole, Rajahmundry, 3 villages each of Prathipadu and Tuni and 182 villages of Rampachodavaram and 347 villages of Yellavaram Taluks) for which land utilisation particulars are not available are not considered in arriving at the average figures in colmns. 4 and 6 for calculating percentage in colmn 7.

The average cultivated land per village is more in Mummidivaram Ind. Sub-Taluk while it is relatively less in Rampachodavaram Ind. Sub-Taluk and Yellavaram Ind. Sub-Taluk which have Agency tracts. The proportion of average cultivable waste to the cultivated land in each village is higher in Peddapuram and Yellavaram taluks indicating the necessity for programming to reclaim the large cultivable waste land in these two taluks.

The several particulars furnished in the Village Directory reveal that:

(i) Minimum educational facilities are not available in 35.5% of the inhabited villages in the district

(ii) There is not even one medical institution for every 100 Sq. Kms. of rural area

(iii) Electricity is available in 37.9% of the total villages in the district

(iv) Pucca road communication facility is available in about 33% of the total villages and

(v) An extent equivalent to about 17.5% of the cultivated land is left uncultivated in each village

Indicating thereby that further development in these fields is necessary in the rural parts of the East Godavari District.

SECTION II

TOWN DIRECTORY

Town Directory

In the Town Directory the towns in the district are arranged alphabetically and the several particulars relating to them are given in the following statements:

Statement I Status, Growth History and Functional Category of Towns

Statement II Physical Aspects and Location of towns

Statement III Civic Finance

Statement IV Civic and Other Amenities in Towns

Statement V Medical, Educational, Recreational and Cultural Facilities in Towns

Statement VI Trade, Commerce, Industry and Banking Facilities

Statement VII Population by Religion and Scheduled Caste/Scheduled Tribe in Towns.

The following 13 places have been treated as towns in East Godavari district at the 1971 Census.

1	Kakinada	8	Rajahmundry (M)
2	Samalkot	9	Rajahmundry Non-Municipal area
3	Amalapuram	10	Dowleshwaram
4	Machavaram	11	Peddapuram
5	Razole	12	Tuni
6	Mandapeta	13	Pithapuram
7	Ramachandrapuram		

Out of these 13 towns Rajahmundry Non-Municipal area is the only place which is classified as a town for the first time in the 1971 Census. Kakinada which is the district and taluk headquarters and Amalapuram, Rajahmundry, Peddapuram, Tuni and Pithapuram which are the taluk headquarters and Samalkot of Kakinada taluk, Mandapeta of Alamur Independent Sub-Taluk and Dowleshwaram of Rajahmundry taluk were classified as towns as early as 1901. Ramachandrapuram which is the taluk headquarters of Ramachandrapuram taluk was classified as a town during 1921 Census and the remaining two towns *viz.*, Machavaram of Amalapuram taluk and Razole, a taluk headquarters were classified as towns from 1941 Census. During the present census two towns of 1961 Census *viz.*, Anaparthi and Draksharama are declassifed into rural. Anaparthi town, inspite of the location of ILTD Company there, has not developed non-agricultural character and urban traits while Draksharama was degraded from a Municipality to a Panchayat because its constituent villages are treated as different Administrative Panchayats. The variation in the number of urban units ir the district from census to census is shown below:

Year	Town
1901	9
1911	9
1921	11
1931	11
1941	16
1951	20
1961	14
1971	13

The decrease in the number of units at the 1961 Census is due to the application of the stricter and more uniform definition of a town in 1961. The further fall in its urban units in 1971 is explained already.

Mummidivaram IST, Kothapeta, Rampachodavaram IST, Yellavaram IST and Prathipadu taluks in the district are purely rural in character and they do not have any towns. Yellavaram and Rampachodavaram having large Agency tracts naturally could not develop urban character. In taluks like Prathipadu the hilly terrain of a portion is responsible for lack of urban development. Taluks like Kothapeta and Alamur by virtue of the deltaic land could develop their economy mainly on agriculture and therefore are mostly rural in character. Rajahmundry town has been treated as an Urban Agglomeration with Rajahmundry Municipal town and Rajahmundry Non-Municipal town as constituent units. The district headquarters town, Kakinada and Rajahmundry with some of their surrounding villages/towns as detailed below are the two towns treated as Standard Urban Areas in the district.

Standard Urban Area	*Component Units*	
	Urban	*Rural*
(1)	(2)	(3)
1 Kakinada	1 Kakinada	1 Ramanayyapeta (R) 2 Suryaraopeta (R) 3 Timmapuram 4 Madhavapatnam 5 Ganganapalle 6 Kakinada (R) 7 Turangi (R) 8 Sarpavaram
2 Rajahmundry	1 Rajahmundry 2 Rajahmundry Non-Municipal Area 3 Kovvur 4 Dowleswaram	1 Torredu 2 Katheru 3 Morampudi 4 Hukumpeta 5 Bommuru

Among these 13 towns in the district, Rajahmundry city is the largest urban unit from the population point of view with a population of 165,912 persons followed by Kakinada city which is the district headquarters with a population of 164,200 persons as per the 1971 Census count. These two towns therefore fall under class I towns or cities, each with a population of a lakh or more. The population of these two towns account for 55.6% of the total urban population of the district. There are no class II towns in the population range of 50,000 and 99,999 in the district. Samalkot, Pithapuram, Amalapuram, Peddapuram, Tuni, Mandapeta, Ramachandrapuram and Rajahmundry Non-Municipal area come next in order and are class III towns with a population of each ranging between 20,000 and 49,999. Next in the order are Dowleshwaram and Machavaram, the two class IV towns with a population of each ranging between 10,000 and 19,999. Razole, the smallest town from the population point of view is a class V town with a population ranging between 5,000 and 9,999. The urban population of the disrict is 593,594 persons constituting 19.2% of the total population of 3,087,262 persons. The corresponding proportion in 1961 was 18.5%.

The details given in each of the seven statements of the Town Directory are explained below :

Statement I—Status, Growth History and Functional Category of Towns

In this statement the civic status of each of the towns determined at the 1971 Census with its population since 1901 or from the census in which it was treated as urban for the first time are presented. An idea of the pace at which the population in these urban units is increasing from census to census can be had from this statement. The functional characteristics of these towns as determined from the proportion in different categories of working population returned in 1961 and 1971 Censuses is are also shown in the statement. These particulars indicate as to how the economic pattern of the town has changed from 1961 to 1971.

The civic status of the town *i.e.*, whether the town is a Municipality or a Panchayat is indicated under col. 5 by an abbreviated letter like 'M' for Municipality and 'P' for Panchayat. Kakinada, Samalkot, Amalapuram, Ramachandrapuram, Mandapeta, Rajahmundry, Peddapurm, Tuni and . Pithapuram towns are the 9 Municipalities in the district while the remaining 4 towns *viz.*, Rajahmundry Non-Municipal area, Machavaram, Razole and Dowleshwaram are Panchayats. The population of each town recorded at each of the Census from 1901 to 1971 or from the census at which it was treated as an urban unit is given under cols. 6–13. In cols. 14 and 15 the functional characteristics of each town *i.e.*, whether the town is an industrial town etc., at the 1961 Census and the 1971 Census are given.

In general there was a steady increase in the growth of population in the towns of the district in all the decades except during 1911 to 1921, when there was either very low general increase in the rate of growth or decrease in the population as a result of the influenza epidemic that prevailed in the country. Kakinada, Samalkot, Dowleshwaram and Peddapuram where the epidemic was perhaps severe, recorded a significant fall in their populations. Samalkot had, however, registered a fall in 1901–1911 also. The town recovered in subsequent decades. Kakinada and Samalkot progressed gradually on account of their administrative, educational and industrial importance. Dowleshwaram could not recover from the fall in population in 1911-21 but continued to register a decline even in the decade 1921–31 and almost stagnated in its growth. The diminishing activity in the Public Works Department workshops at Dowleshwaram may be responsible partly for this phenomena. Amalapuram also had registered a fall in the decade 1931–41 but in the succeeding decade it recorded a big increase in its population.

Functional Category

By the very nature of urban development, the towns are bound to serve a variety of purposes. In order to know to what extent the functions are diversified or the predominant characteristic is accentuated, a scheme of statistical classification was evolved at the 1961 Census. Accordingly each town can be classified broadly under the following categories viz.

(i) **Primary Activities** :—Agriculture, Mining and Fishing (Census Industrial Categories I, II and III of 1961 Census and I, II, III & IV of 1971 Census).

(ii) **Industrial** :—Industrial including Construction (Census Industrial Categories IV, V and VI of 1961 Census and V(a), V(b) & VI of 1971 Census).

(iii) **Commericial** :—Trade and Commerce (Census Industrial Category VII of 1961 & 1971 Census).

(iv) **Transport** :—Transport (Census Industrial Category VIII of 1961 and 1971 Census).

(v) **Services** :—Other Services (Census Industrial Category IX of 1961 and 1971 Censuses).

The predominant functional character of a city/town is determined on the basis of the following principles.

(a) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above five characteristics then the city/town was designated by that characteristic.

(b) If the proportion is not more than 40% in any one of the characteristics, then the next predominant characteristic was taken into account and if the first two predominant characteristics combined together have a proportion of over 60% then the town was designated as having the two characteristics and was termed as Industrial-*cum*-Commercial etc.

(c) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial-*cum*-Commercial-*cum*-Services or Industrial-*cum*-Services-*cum*-Primary Activities, etc.

Examined against this back ground the thirteen towns of this district fall under the following classification at each of the 1961 and 1971 Censuses.

	Functional Category (1)	Name of town 1961 (2)	1971 (3)
1	Primary Activities	Machavaram	Machavaram, Pithapuram, Samalkot, Ramachandrapuram, Mandapeta
2	Industry	Dowleshwaram	Dowleshwaram.
3	Primary Activities-*cum*-Industry	Mandapeta, Pithapuram, Rajahmundry (N.M.)	Peddapuram
4	Primary Activities-*cum*-Services	Samalkot, Razole Ramachandrapuram	
5	Trade and Commerce-*cum*-Primary Activities	...	Amalapuram
6	Service-*cum*-Industry	Kakinada, Peddapuram, Rajahmundry (M)	...
7	Services-*cum*-Trade and Commerce	Tuni	...
8	Primary Activities-*cum*-Services-*cum*-Trade and Commerce	...	...
9	Services-*cum*-Primary Activities-*cum*-Industry	Amalapuram	...
10	Services-*cum*-Industry-*cum*-Trade and Commerce	...	Kakinada, Rajahmundry (M), Tuni

The functional classification of Rajahmundry Non-Municipal area is not shown for 1961 Census as it is newly recognised town in 1971 Census.

Statement II—Physical Aspects and Location of Towns

This statement deals with the physical aspects and location of towns in the district. There are 13 columns in the statement. Under cols. 3 to 5 in the statement data relating to average annual rainfall and the maximum and minimum temperature recorded in 1969 are given. If this information is not available for any town then the particulars available for the nearest town have been given against such town.

Under col. 6 the name of the nearest city with a population of a lakh or more is given. Under cols. 7 to 9 the names of the State Headquarters, the District Headquarters, Revenue Divisional Headquarters and the Taluk Headquarters together with the distances therefrom are given. Under the cols. 10 and 11 the nearest Railway Station and Bus Stand and the distance therefrom are given. If navigation and seaport facilities are available to the town they are also given under cols. 12 and 13.

The district lies on the 'East Coast between 16°30' and 18°30' North and 81°30' and 83°35' East. The district is bounded by Madhya Pradesh on the North and Visakhapatnam district on the East and Bay of Bengal on the South and by Khammam and West Godavari districts on the West. This district consists of Agency tract and Plains area. All the 13 towns are on the plains area of this district.

The climate in the towns is equable and although it is very warm in April and May, it is never too oppressive. The maximum and minimum temperature among the towns ranges from 46.1°C to 28.0°C and 35.6°C to 15.0°C respectively. Kakinada and Pithapuram recorded the highest maximum temperature while Mandapeta, Dowleshwaram, Rajahmundry municipal as well as non-municipal towns recorded the lowest minimum temperature. The rainfall in all the towns seem to be more than the adequate for local agricultural needs though the first four months are practically rainless. Generally the average annual rainfall among the towns ranges from 963.6 mm to 1,227.9 mm, a major part of which is from South-West Mansoon. The occasional cyclonic storm occuring in the latter parts of the year will at times swell these averages. The average annual rainfall in Amalapuram and Tuni towns is the highest and lowest respectively.

All the towns are taluk headquarters except Somalkot, Machavaram, Mandapeta, Rajahmundry Non-Municipal area and Dowleshwaram which are at a distance of 8, 7, 12, 2 and 7 Kms., respectively from their taluk headquarters. Six towns *viz.*, Kakinada, Samalkot, Ramachandrapuram, Mandapeta, Peddapuram and Pithapuram are located at a distance of 50 Kms. or less, from the district headquarters while six other towns *viz.*, Machavaram, Razole, Dowleshwaram, Rajahmundry (M), Rajahmundry (NM) and Tuni are at a distance of more than 50 Kms., but less than 100 Kms., and one town *viz.*, Amalapuram is at a distance of more than 100 Kms., from district headquarters.

The district is served by the South Central Railway and there are two important lines. (i) the main broad gauge line connecting Madras and Visakhapatnam and passing through Rajahmundry, Samalkot, Pithapuram and Tuni and (ii) a branch broad gauge line emanating from Samalkot junction and connecting Kakinada, the district headquarters and the seaport with Madras-Howrah broad gauge line. The remaining 7 towns are not directly connected by railways and four of these towns are within a reach of less than 20 Kms. While the remaining 3 towns are within a reach of 20 to 70 Kms. range. However there are out agencies located at Razole and Amalapuram to book cargo. There has been an increasing demand for passenger and goods transport on these lines due to expansion of trade and commerce, industrialisation and consequent economic development. In order to meet this, modernisation of the present railways like introducing high power traction such as diesel engines, and doubling the lines are also undertaken in this district.

Besides the railways, there are well laid out roads connecting all the towns in the district as well as important places outside the district. Relatively the road transport facilities available in the towns of Konaseema *viz.*, Razole, Amalapuram, Machavaram etc., are fewer compared to these existing for other towns in the district. This is due to the location of the roads adjacent to the canals resulting in the soil under roads being soft due to percolation of water. Heavy vehicular traffic is therefore prohibited on these roads. Consequently, the goods transport is done mainly in boats and steam-launches in the canals. All the towns except Kakinada, Mandapeta, Tuni and Pithapuram are in the vicinity of canal navigation. Sea port facilities are available in the vicinities of Kakinada, Samalkot, Ramachandrapuram, Mandapeta, Peddapuram and Pithapuram.

Statement III—Civic Finance

Since the introduction of the democratic decentralisation, the popular institutions like Panchayats have an important role in the various developmental programmes. The effective run of these institutions would depend naturally on the financial soundness or otherwise of these institutions. The receipts from various sources of these municipalities and panchayats are presented under cols. 3 to 8 and their total under col. 9. The broad items of the expenditure are given under cols. 10 to 15 with their total under col. 16. It may be seen from the statement that the revenue receipts of the local bodies in Kakinada, Samalkot, Razole, Ramachandrapuram, Dowleshwaram, Peddapuram and Pithapuram are quite inadequate to meet their expenditure while in other towns *viz.*, Amalapuram, Machavaram, Mandapeta, Rajahmundry Municipal as well as Non-Municipal towns and Tuni, the receipts are more than the expenditure. Comparatively the deficit in respect of Kakinada Municipality is more.

Statement IV—Civic and Other Amenities in Towns

The various amenities being provided to the citizens by the civic administration in the towns are given in this statement under 16 cols. The amenities include internal road facility, existence and nature of drainage system, protected water supply, availability

of fire fighting services and electrification particulars relating to domestic, industrial and commercial spheres and road lighting services.

The Government has a programme of stopping the practice of removal of night soil by means of head loads and to minimise the use of human labour in the process of removal of night soil at various stages. The particulars furnished under this column will therefore be helpful to assess the extent to which the objective of the Government has so far been achieved.

The civic administration in all the towns of the district maintain roads. Kakinada stands first in respect of internal road mileage followed by Rajahmundry and Peddapuram in the order. Out of the 13 towns in the district 9 towns *i.e.*, Kakinada, Samalkot, Amalapuram, Machavaram, Ramachandrapuram, Mandapeta, Dowleshwaram, Rajahmundry Municipal town and Pithapuram have the open surface drains besides the sewerage system. Three towns *i.e.*, Razole, Peddapuram and Tuni have only open surface drains and the town Rajahmundry Non-Municipal Area has neither of these two. The wheel barrow system seems to be the chief practice of removing the night soil but in the towns Ramachandrapuram, Mandapeta, Peddapuram, Pithapuram and in parts of Kakinada, bucket system prevails. Protected water supply which is the primary responsibility of the civic administration of the towns is reported to be available only in Kakinada, Samalkot, Rajahmundry Municipal Town, Rajahmundry Non-Municipal area and Peddapuram. Fire fighting service facility has become a dire necessity for the modern State to protect life and property from fire accidents. Fire fighting service is available only in 5 towns *viz.*, Kakinada, Amalapuram, Rajahmundry Municipal Town, Peddapuram and Tuni. Electricity which has become a necessity of modern daily life owing to its increased use for domestic and industrial purposes is supplied in all the 13 towns of this district.

Statement V—Medical, Educational, Recreational and Cultural facilities in Towns

Medical, Educational, Recreational and Cultural facilities available in the towns are given in this statement under 17 cols.

Medical Facilities

Health, besides its importance for the welfare of the community is also important to the economy which is conditioned by the productivity of its labour force and this in turn depends, among other elements, on the state of health of its population. Hence, in terms of resources for economic development nothing can be considered of higher importance than the health of the people which is a measure of their energy and capacity to do work. The data on the medical facilities available in the urban areas are, therefore, useful and are furnished under cols. 3 & 4. The number of institutions available in each category is shown in brackets under col. 3 and the number of beds available in each category is given under col. 4.

The following abbreviations are used under col. 3 to show the type of medical facilities available in the town.

H	:	Hospital
D	:	Dispensary
MCW	:	Maternity & Child Welfare Centre
FC	:	Family Planning Centre
NH	:	Nursing Home
TBC	:	T.B. Clinic
HC	:	Health Centre

All the 13 towns in the district together have 142 medical institutions which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, Family Planning Centres, Nursing Homes, T.B. Clinics and Health Centres. Generally the medical institutions in important towns are reasonably well equipped and are adequately staffed. The big General Hospital at the district headquarters town Kakinada with all the facilities for specialised treatments for different diseases is serving the purposes of clinical teaching too. The ULCM Mission Hospital, the headquarters hospital at Rajahmundry and the Christian Medical Centre at Pithapuram are also well equipped. T.B. Clinics also exist in Rajahmundry, Kakinada and Tuni of which the one at Rajahmundry is considered to be well equipped and adequate to meet the needs of its neighbourhood. The total bed strength available in all the 142 institutions in the towns of this district is 2,552 catering to the needs of the entire urban population of 593,594 persons in the district. Thus there are about 4 beds for every 1000 urban population in the district. Kakinada and Rajahmundry towns with bed facility of 800 and 819 respectively have better medical facilities compared to other towns. Next to these towns Rajahmundry Non-Municipal town and Pithapuram are having 200 beds each.

Educational Facilities

Particulars of various academic and professional institutions available in the towns are presented under cols. 5 to 13. The number shown in the brackets is the number of institutions available in the category.

The following abbreviations are used to indicate the type of educational facility available in the town.

A	:	Arts College.
AS	:	Arts and Science College
ASC	:	Arts, Science and Commerce College
SH	:	Shorthand Institution
TW	:	Typewriting Institution
O	:	Oriental College
TTC	:	Teachers Training College

There are only 8 Colleges in all the 13 towns of which 5 are combined colleges imparting instructions in Arts, Science and Commerce and are located at Kakinada, Amalapuram, Ramachandrapuram, Rajahmundry Municipal Town, and Peddapuram; two Colleges one each at Kakinada and Razole imparting instructions in Arts and Science. One College imparting instructions in Arts only is located at Rajahmundry Non-Municipal area. Kakinada, has also one Medical College, one Engineering College and two Polytechnics and thus it is an important centre of learning in the region next to Visakhapatnam. There are 110 Typewriting Institutions and 55 Shorthand Institutions in all the 13 towns together of which many are located at the two important urban centres of the district, Kakinada and Rajahmundry Municipal Town. One Industrial Training Institute is also located at Kakinada.

There are 41 Higher Secondary or Secondary Schools, 21 Junior Secondary or Middle Schools and 228 Primary Schools, in all the urban areas of this district. There are two Oriental Colleges and one Teacher's Training Centre at Rajahmundry. Pithapuram town has a Nursing School.

The following table shows the number of schools by category per 10,000 population in each town and for all the urban units in the district taken together.

Name of the Town	Number of Schools per 10,000 Urban Population		
	Higher Secondary or Secondary	Middle	Primary
(1)	(2)	(3)	(4)
Kakinada	0·54	0·42	3·04
Samalkot	0·86	0·57	3·75
Amalapuram	0·32	...	7·53
Machavaram	0·85	...	5·95
Razole	2·36	...	8·27
Mandapeta	0·79	0·39	5·53
Ramachandrapuram	0·84	...	6·75
Rajahmundry (M)	0·60	0·36	2·89
Rajahmundry Non-Municipal Area	...	...	3·49
Dowleshwaram	1·11	...	2·78
Peddapuram	1·04	0·69	6·64
Tuni	0·70	...	0·70
Pithapuram	1·27	0·95	4·45
Total	**0·69**	**0·35**	**3·34**

Regarding the recreational and cultural aspeets, there are 46 Cinema Halls, 7 Auditoria/Drama Halls and 48 Public Libraries, including Reading Rooms and one Stadium in all the 13 towns together.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement data on Trade, Commerce, Industry and Banking facilities available in each town are given under fourteen columns. Under cols. 3 to 5 the three most important commodities imported into the towns are given while under cols. 6 to 8 the three most important commodities exported from the town are given. Under cols. 9 to 11 the three most important articles manufactured in the town are given. Cols. 12 to 14 are devoted to present the Banking and Co-operative Credit facilities available in the town.

The three most important commodities under imports, exports and manufacture were decided in terms of the estimated volume of the commodities transacted and in terms of the value of total output of the commodities concerned respectively in each of the towns and not on the basis of the value. However, the uniqueness of a town which exhibited special characteristics in the spheres of either industry or manufacture or mining etc., has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the other commodities in sheer terms of this estimated volume of transaction.

East Godavari district on account of its rich delta area has a fair sprinkling of Agro based industries employing a considerable number of people. Kakinada and Rajahmundry are the main centres of industrial activity while Samalkot, Dowleshwaram, Ramachandrapuram, Amalapuram, Razole and Tuni constitute the growth centres. Industrial growth in East Godavari can be broadly divided into 4 phases *viz.*, Pre-extension phase *i.e*; upto the end of first Five Year Plan, Extention phase *i.e.*, during Second Five Year Plan, Post-extension phase *i.e.*, covering the Third Five Year Plan period and Intensive phase *i.e.*, intensive development programme from 1968 onwards.

The new approach and methodology adopted for the intensive campaign launched in 1968 has given rise to the establishment of a number of Small Scale Industries and the years 1968-69 and 1969-70 witnessed commendable progress. There are ten Large Scale industrial units in the district. The Rajahmundry Paper Mills managed by a Joint Stock Company was producing earlier 10 tonnes of paper per day and the

capacity has since been expanded to 70 tonnes per day. The 3 sugar factories at Samalkot, Pithapuram and Chelluru are having a crushing capacity of 1,000 tonnes each, per day. The Samalkot sugar factory is also manufacturing power alcohol and carbon-dioxide. There are four spinning mills one each at Kakinada and Rajahmundry and two in Pandalapaka. Peddapuram has six silk weaving units. Sri Ramdas Motor Company at Kakinada manufactures 150 automobile parts, motor bodies and also owns a fleet of lorry and passenger transport units. An integrated saw mill and timber seasoning plant was established at Dowleshwaram by the Forest Department for encouraging the use of non-teak variety wood especially for building purposes. Rajahmundry and Anaparthi are major curing centres of Virginia tobacco for the manufacture of cigarettes. A brass manufacturing unit, a general engineering workshop and a steel trunk manufacturing unit are located at Samalkot while a coir training centre, a photo frame unit and electrical casting and cart wheel manufacturing units are located at Kakinada. In addition to these, rice mills and light engineering units are spread over among the parts of the district. There are two industrial estates one at Samalkot and the other at Dowleshwaram. The industrial estate at Samalkot has a provision for 24 factory sheds and the assisted private estate at Dowleshwaram provides for 48 factory sheds.

IMPORTS

The principal imports into the district are iron ore, graphite powder, textiles, gunny bags, oils, wheat, cycle and motor parts, aluminium and cement.

EXPORTS

The most important commodities exported from this district are jaggery, sugar, coconuts, coconut oil, rice, paddy, tobacco and fish etc.

Banks play an important role in industry, trade and commerce particulary in mobilising the savings of the community and making them available for investment for production activities. In all, there are 47 Banks, 20 Agricultural Credit Societies and 31 Non-Agricultural Credit Societies in all the 13 towns together. There are no Non-Agricultural Credit Societies at Machavaram, Razole, Dowleshwaram and Tuni. There are no Agricultural Credit Societies at Samalkot, Dowleshwaram, Rajahmundry Municipal Town, Rajahmundry Non-Municipal area and Pithapuram.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The details of the population as per 1971 Census count, by Religion, Scheduled Caste and Scheduled Tribe with the sex breakup are given for each of the towns in the district under cols. 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement, while other religions for which the persons returned are less than 10% of the total population of a town are grouped together and shown under the category *viz.*, "others" in cols. 15 and 16. The Scheduled Castes and Scheduled Tribes population in a town are shown under cols. 19 to 22. 56,997 persons are reported under Scheduled Castes in the urban areas of this district constituting 11.0% of the total Scheduled Castes population in the district while only 2,347 persons are reported under Scheduled Tribes, in urban areas constituting 2.0% of the total Scheduled Tribes population in the district.

The particulars presented in the statements II to VI are based on the data obtained from the Tahsildars and Local Bodies concerned and also from the concerned departments like Medical, Educational, Electricity etc., while the particulars furnished in Statement I and VII are based on the Census data.

PART B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census on the following aspects is presented for each Revenue Village in respect of rural areas and for each Ward and each Enumerator's Block of a town in urban areas.

1 Location code number and name of the village/ town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex break up

4 Population of scheduled castes and scheduled tribes by sex break up

5 Literate and educated persons by sex

6 Total workers and the breakup of the workers into nine categories and also the total non-workers by sex as below :

Category I Cultivators

Category II Agricultural Labourers

Category III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities.

Category IV Mining and Quarrying

Category V Manufacturing, Processing, Servicing and Repairs
a) Household Industry
b) Other than Household Industry

Category VI Construction

Category VII Trade and Commerce

Category VIII Transport, Storage and Communications

Category IX Other Services

Category X Non-Workers

A district abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluks are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the Ward Numbers in each town. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word "Rural" has been added in italics and in brackets after the name of the village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an Alphabetical List of Villages together with their Location Code Numbers are given. This Alphabetical List of Villages given in the P.C.A. facilitates the reader in locating the required village and its Location Code Number and thereafter know the Primary Census Abstract particulars. The taluk map showing all the villages and towns with their boundaries given in the Village Directory facilitates the location of the required village/town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in 38 cols. of the Primary Census Abstract relate to all persons alive at sunrise on 1st April, 1971 and were present within the territory of East Godavari district whether they lived in normal residential houses or in institutions, such as hospitals, hostels, asylums, boarding houses, hotels *etc.*, or whether they were merely houseless persons like the wandering tribes, tramps, pavement dwellers, or those living in boats *etc.* They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of East Godavari district as on 1st April, 1971 recorded at the Census enumeration is as follows :

	Total	Rural	Urban
Persons	3,087,262	2,493,668	593,594
Males	1,546,865	1,248,978	297,887
Females	1,540,397	1,244,690	295,707

The criteria adopted for classifying a place as rural or urban and the concepts of urban Agglomertion and Standard Urban Area have already been explained in the beginning of this volume.

Columns 1 and 2 of the Primary Census Abstract indicate the Location Code Number and Name of the Village or Town concerned. In respect of towns the Ward/Block/Locality numbers and the Enumerator's Block Numbers are indicated under col. 2.

Location Code is the method by which every village and town in a taluk in every district of a State is identified. Each district in this State has been given a separate Code Number, serially numbering the districts in a clock-wise order starting from Srikakulam district and ending with Nalgonda district. East Godavari district, in this process, is assigned Location Code No. 3. Within each district the taluks had similarly been allotted Location Code Numbers, the taluk in which the district headquarters lies being allotted Location Code No. 1 and the other taluks are numbered in a clock-wise order. The revenue villages within each taluk are assigned separate serial numbers starting from the North-Western corner of the taluk and ending with the South-Eastern corner in a serpentine order. All the towns within a district were assigned Location Code Nos. in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk Location Code Numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located is assigned Location Code No. first and then the other towns in the taluk in a clockwise order. The Location Code Nos. of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under col. 3 the area of each of the villages and towns is given in square miles based on the information furnished by the State Central Survey Office, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "N.A". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills etc. within the taluk, the area of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under col. 4 the total number of Occupied Residential Houses in each village and in each Ward and Enumerator's Block of a town are given. These figures include those of partly residential houses also, but not of the completely non-residential houses. The total number of Households including houseless households and institutional households is given under col. 5.

The total population including houseless and institutional population with sex breakup is given under cols. 6 to 8.

Under cols. 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I and Schedule II respectively of the Scheduled Castes and Scheduled Tribes lists (Modification Order 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. The list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given below.

LIST OF SCHEDULED CASTES AND SCHEDULED TRIBES IN ANDHRA PRADESH

SCHEDULED CASTES

I. Throughout the State

1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

II. Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano
10 Ghasi, Haddi or Relli Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulavandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Mala Jangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

SCHEDULED TRIBES

I. Throughout the State

1 Chenchu or Chenchwar

2 Koya or Goud with its sub-sects-Rajah or Rasha Koyas, Lingadhari Koyas (ordinary), Kottu Koyas, Bhine Koya and Rajkoya.

II. Throughout the State except Hyderbad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia-Bentho Oriya. Bartika, Dhulia or Dulia, Holva, Paiko, Putiya, Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora
15 Porja (Parangiperja)
16 Reddi Dhoras
17 Rona, Rena
18 Savaras, Kapu Savaras, Maliya Savaras or Khutto Savaras
19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

IV. In the Agency tracts

1 Goudu (Goud)
2 Nayaks
3 Valmiki

The number of literate and educated persons is given under cols. 13 and 14. A person who could both read and write any language with understanding was treated as a literate at the 1971 Census. A person who could merely read but could not write or *vice versa* was not treated as a literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterate. The test for education was that the person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

The details of workers and non-workers are given under cols. 15 to 38. At the 1971 Census the population has been broadly divided into two sections based on the main activity *viz.*, (i) Workers and (ii) Non-Workers.

The definitions and concepts adopted in the economic classification of the population at the 1971 Census are explained below:

Worker: A 'worker' was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A man or woman who was engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker was not treated as a worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time attended to some household chores or attended a night school etc., he or she was treated basically as a worker for the main activity and categorised accordingly.

A person who was working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference period: The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service, or business. If a person had participated in any such regular work on any one of the days during this reference period and this had been returned as his main activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike *etc.*, was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as

apprentices with or without stipends or wages were considered as economically active and recorded as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *e.g.* cultivation, livestock keeping, plantation work, some types of household industry *etc.* A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

Cultivator: For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, *etc.*, and pulses, raw jute and kindred fibre crops, cotton etc., and other crops such as sugarcane, groundnut, tapioca. *etc.*, and does not include fruit growing, vegetable growing or keeping orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer: A person who worked in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He had no risk in the cultivation but he merely worked in another person's land for wages. The labourer had no right or lease or contract on land on which he worked.

Household Industry: For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, dairying, cycle repairing, black-smithy, tailoring etc., it was ascertained if it was a household industry.

A household industry was defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household in the industry. This criterion was applied in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. But in the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. Thus in urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry. It should have been located within the precincts of the house where the members lived.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor, or barber, musician, dancer, waterman, dhobi, astrologer, *etc.*, or merely trade or business, even if such profession, trade or services were run at home by members of household.

Some times it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. It was, therefore, enquired whether the person who was not working in his own Household Industry was working in any other Household Industry as an employee.

Other Workers: A person who returned his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of 'Other Workers'. The type of workers that may come

under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers *etc.* In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as 'Other Workers'.

According to the 1971 Census there were 532,693 residential houses and 662,789 households in East Godavari district compared to 470,916 residential houses and 574,370 households in 1961. Thus there were 1.2 households per residential house in 1961 and 1971 also.

The total number of persons returned at the 1971 Census enumeration in East Godavari district was 3,087,262 as against 2,608,373 in 1961 Census recording an increase of 18.4% over the population in 1961. The proportions of rural and urban population to the total population in the district are 80.8% and 19.2% respectively in 1971 Census compared to 81.5% and 18.5% in 1961. There were 996 females for every 1000 males at the 1971 Census as against 999 females per 1000 males in the 1961 Census.

The number of literates and educated persons and the number of illiterates reported as per the 1971 Census and the corresponding figures for 1961 Census are given below:-

NUMBER OF LITERATES AND EDUCATED PERSONS

	Number of literates and educated persons	Number of illiterates	% of literates to total population of district
1961	678,224	1,930,151	26.00
1971	952,062	2,135,200	30.84

It is observed that though there has been increase in the proportion of literate persons to total population the actual number of illiterates increased inspite of the increased educational facilities. Most of the villages have at least Primary Schools at present in the district.

The percentages of literates by sex to total population in total, rural and urban areas in the district in 1961 and 1971 are as follows:

	Percentage of literates to total population in					
	1961			1971		
	T	R	U	T	R	U
Persons	26·00	22·68	40·61	30·84	26·91	47·34
Males	33·40	29·62	49·98	37·31	33·03	55·26
Females	18·59	15·74	31·19	24·34	20·76	39·34

The proportion of literates and educated as well as the increase in the proportion of literates compared to that in 1961 is low in rural areas compared to the position in the urban areas. It is generally so with other districts also in the State. This is mainly due to the fact that urban areas have more educational facilities and several urban occupations require a minimum level of education so that a large number of parents try to get their children educated, whereas the rural areas have relatively less educational facilities and the predominent rural occupation of agriculture or household industry, generally does not require the workers in these fields to be educated. Even boys and girls of school going age are required to work in the fields in the rural areas.

Though there has been a significant increase in the proportion of female literates during the decade 1961-71, both in the rural and urban areas about 80% of the rural females are still illiterates.

1,183,329 workers were returned in 1971 as against 1,223,325 workers in 1961 Census. Thus 38.33% of the total population were workers in 1971 as against 46.90% in 1961. The decrease in the proportion of working population in 1971 compared to the 1961 Census proportion is mainly due to the change in the definition adopted at the 1971 Census. In 1961 even marginal workers who spent most of their time basically as non-workers were treated as workers while in 1971 only those who were engaged for most of the time in production work were treated as workers. A detailed analysis and comparison with 1961 of work participation rates is given in the chapter on Population in Part "C" of the District Census Handbook, which will be published as a separate volume.

The table given on the next page gives the percentage distribution of the working population by Industrial categories in rural and urban areas and for males and females in East Godavari district.

PERCENTAGE DISTRIBUTION OF THE WORKERS BY INDUSTRIAL CATEGORY

Category	Percentage of workers by category to total workers				
	Persons			Males	Females
	Total	Rural	Urban		
(1)	(2)	(3)	(4)	(5)	(6)
I Cultivators	21·06	24·12	4·32	25·44	6·53
II Agricultural Labourers	45·25	51·13	13·03	37·17	72·06
III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	4·19	4·40	3·01	5·26	0·62
IV Mining and Quarrying	0·26	0·13	0·93	0·19	0·47
V Manufacturing, Processing, Servicing and Repairs					
a) Household Industry	4·42	4·52	3·92	4·54	4·05
b) Other than Household Industry	5·18	2·84	18·01	6·05	2·30
VI Construction	1·16	0·66	3·89	1·33	0·58
VII Trade and Commerce	7·18	4·59	21·34	8·12	4·04
VIII Transport, Storage and Communications	2·60	1·08	10·95	3·30	0·30
IX Other services	8·70	6·53	20·60	8·60	9·05
Total	**100·00**	**100·00**	**100·00**	**100·00**	**100·00**

Cultivators and Agricultural Labourers in the district constitute two-thirds of the total workers in the district. Their proportion is as high as 75.25% of the total workers in the rural areas. Other Services, Trade and Commerce, Other than Household Industry, Household Industry and Livestock, Forestry, Fishing, *etc.*, are the only other categories accounting for 4% or more—but less than 10% of the total workers.

Male agricultural workers *i.e.*, cultivators and agricultural labourers account for about 62% of the total male workers in the district while the corresponding proportion for females is about 78%. Generally a large number of females than males work as agricultural labourers because several agricultural operations like sowing, weeding, harvesting *etc.*, do not involve heavy manual labour. The female participation rates in most of the other industrial categories is low generally compared to the corresponding male participation rates.

517,791 persons returned themselves as Scheduled Castes at the 1971 Census compared to 459,656 persons at the 1961 Census recording an increase of 12.65% over the Scheduled Castes' population recorded at the 1961 Census. The Scheduled Castes' population of the district in 1971 forms 8.97% of the total Scheduled Castes' population of the State or 16.8% of the total population of the district. The proportion of Scheduled Castes population to total population in the district is relatively high compared to their proportion in the State *viz.*, 13.3%. About 89% of the Scheduled Castes' population in the district reside in rural parts of the district as they generally are unable to find suitable employment in the urban areas because many of them are illiterates.

119,027 persons (56,627 males and 59,400 females) returned themselves as Scheduled Tribes at the 1971 Census as against 100,343 persons at the 1961 Census recording an increase of 18.62% over the Scheduled Tribes' population in 1961. The Scheduled Tribes population of the district in 1971 forms 7.18% of the total Scheduled Tribes population of the State or 3.9% of the total population of the district. The proportion of Scheduled Tribes population to the total population of the district is almost equal when compared to the corresponding proportion of 3.8% for the State. As in the case of Scheduled Castes' population, almost the entire section of Scheduled Tribes population *viz.*, about 98.03% of the total Scheduled Tribes population in the district reside in rural parts of the district.

Detailed analysis of demographic data at the 1971 Census is given in the writeup in Part "C" of the District Census Handbook, which will be published as a separate volume.

DISTRICT PRIMARY CENSUS ABSTRACT

Note:- In Tuni Town, house numbers given to dilapidated house and vacant sites had to be excluded for demarkating the Enumerator's Blocks. Hence the house numbers included in the Enumerators' Blocks are not in continuous serial order.

In Tuni Town streets 7 and 11 of Block 3, Streets 11 and 18 of Block 5, street 2 of Block 6 have not been Indicated in any Enumerators' Blocks as there were no streets having such number at the time of finalising Chargelists and Census Enumeration.

In a few cases an Enumerator was allotted parts of different Wards/Localities/Blocks. In all such cases, the E. B. No. has been repeated in each of the concerned Ward/Locality/Block and the particulars pertaining to that part only are shown against it.

Location Code No.	Name of Town/Ward or Locality or Block/ Enumerator's Block No.	Area in Square Miles	No. of Occupied Residential Houses	No. of Households	Total Population (including Institutional and Houseless Population)			Scheduled Castes		Scheduled Tribes		Literate and Educated Persons		Total Workers (I-IX)
