HISSAR DISTRICT

CENSUS OF INDIA 1961

A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Punjab bear Volume No. XIII, and are bound separately as follows :—

Part I-A	..	General Report
Part I-B	..	Report on Vital Statistics
Part I-C(i)	..	Subsidiary Tables
Part I-C(ii)	..	Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B(i)	..	General Economic Tables (Tables B-I to B-IV, B-VIII and B-IX)
Part II-B(ii)	..	General Economic Tables (Tables B-V to B-VII)
Part II-C(i)	..	Social and Cultural Tables
Part II-C(ii)	..	Migration Tables
Part III	..	Household Economic Tables
Part IV-A	..	Report on Housing and Establishments
Part IV-B	..	Tables on Housing and Establishments
Part V-A	..	Special Tables on Scheduled Castes and Scheduled Tribes
Part V-B	..	Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI	..	Village Survey Monographs : 44 in number, each relating to an individual village
Part VII-A	..	Report on Selected Handicrafts
Part VII-B	..	Report and Tables on Fairs and Festivals
Part VIII-A	..	Administrative Report : Enumeration (Not for sale)
Part VIII-B	..	Administrative Report : Tabulation (Not for sale)
Part IX	..	Socio-Economic Atlas

PREFACE

The main reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections and by students of social sciences interested in local problems. It was, therefore, decided to continue with this series at the 1961-census. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some very useful information collected from various State Departments has been included in it, trying to make it a self-contained book of reference for the District.

The book is divided into four parts. Part I is mostly descriptive and consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry, co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. Then comes a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing the location of educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply ; area ; number of occupied residential houses and households living therein ; population ; persons belonging to Scheduled Castes and Scheduled Tribes ; number of literate and educated persons ; number of workers in nine broad industrial categories ; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population in the District by dots : the population of towns is shown by proportionate cricles ; and of rural areas by dots, one dot representing 200 persons. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared by Shri J.R. Kalia, Draftsman in our office.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant and Shri Vishwa Mitter, Supervisor, under the supervision of Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, for preparing the Tables appearing in Part II and of Shri Goverdhan Dass Singla, Statistical Assistant and Sarvshri Dharam Paul Jain and Joginder Nath Suri, Tabulation Assistants, under the supervision of Shri Pawan Kumar, Tabulation Officer, for preparing the Tables appearing in Parts III and IV. Sarvshri Dharam Paul Jain and Ajab Lal Kakkar helped in correcting the proofs in the Press.

Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to various parts of the Hissar District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K.C. Kuriyan, Controller of Printing & Stationery, Punjab, and his Deputy, Shri Tara Chand, for their personal attention in the printing of the book.

R. L. ANAND,
Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—The District derives its name from its headquarters town, Hissar, which was founded by Ferozeshah Tughlak in the 14th century. He named it after himself, Hissar Feroza, *i.e.*, the 'Fort of Feroze'. The name was subsequently contracted to Hissar.

Location and Boundaries.—The District is the most western of the six Districts of the Commissioner's Division Ambala, and lies on the confines of Rajasthan Desert between 28°-36′ and 30°-1′ north latitude and 74°-31′ and 76°-22′ east longitude. It is bounded by Mahendragarh District and Jhunjhunu District of Rajasthan on the south, Rohtak and Sangrur Districts in the east, Bhatinda and Ferozepur Districts in the north and Ganganagar and Churu Districts of Rajasthan on the west.

Area (Table A-I, Part III).—The total area of the District, according to the Surveyor General of India is 5,380 sq. miles, but the Director of Land Records, Punjab, puts it at 5,363.3, sq. miles. The District ranks first in area among the nineteen Districts of Punjab. The area of each of its five Tahsils, according to the village papers, is shown below.

Tahsil	Area (sq. miles)		
	Total	Rural	Urban
Sirsa	1,638·6	1,635·1	3·5
Fatehabad	919·2	915·2	4·0
Hissar	1,022·7	1,011·6	11·1
Hansi	806·5	800·9	5·6
Bhiwani	976·3	970·5	5·8

General Landscape.—The General Landscape of the District may be described as a level plain stretching from the north-west to the south-east, and unbroken by natural irregularity, except in the south-western corner where some detached peaks of Aravali range exist. The highest of these is the Tosham hill, 800 feet high.

PHYSICAL FEATURES

The soil of the District changes gradually from light sand on the western border to a firm loam on the confines of Rohtak and Sangrur Districts. In the western parts of Hansi, Fatehabad and Hissar Tahsils sand dunes are also seen. In local parlance the District consists of four natural divisions :

(i) The *rohi* tract of Sirsa Tahsil ;

(ii) The *nali* tract covering the basin of the Ghaggar and its tributory, Joiya or Choya;

(iii) Bagar—the tract lying to the extreme west of the District along the border of Rajasthan; and

(iv) Haryana—the tract lying along the border of Rohtak and Sangrur Districts in the central and eastern parts of the District.

(i) *The Rohi Tract.*—The *rohi* of Sirsa Tahsil lies in the extreme north of the District. Its characteristic feature is that it has a soft loam known as *ratti* (red) or *rohi* (soft) with a few patches of sand interspersed here and there and generally having some admixture of yellowish clay. This tract lies between the boundary of the District touching the Ferozepur District and the northern edge of the Ghaggar Valley.

(ii) *The Nali Tract.*—It lies towards the south of the *rohi* tract and covers the valley of the Ghaggar and Joiya *nalas* in the Fatehabad and Sirsa Tahsils. This tract has the hard clay Soil, locally known as *Sotar*, which is not cultivable until it has been made soft by floods and on rain. Sometimes excessive rise in the water level in the two *nalas* causes high floods resulting in destruction of crops in this area. In Fatehabad Tahsil there are large areas of waste land which serve only as pastures for grazing cattle. In recent years, however, much of this waste land has now been brought under cultivation on account of recent irrigation facilities, provided by Bhakra Canal System.

(iii) *The Bagar Tract.*—The *Bagar* tract is a long strip of territory along the western border of the District. It covers the southern part of Sirsa and the western parts of Fatehabad, Hissar and Bhiwani Tahsils. It gradually widens towards the south. The main characteristics of this tract are low sandy soil and shifting sand dunes, of course, with some firm stretches of land with loam at the bottom. The sand dunes are locally known as *tibbas* and the finer lands between them as the *tals*. The depth to water is well over 100 feet and the water is frequently bitter or brackish. In Bhiwani Tahsil particularly, the District presents the appearance of a sea of Sandy billows of a more or less fluctuating nature.

Before the introduction of canals in some parts of this area, the only crop sown in the tract was *kharif*.

(iv) *The Haryana Tract.*—The *Haryana* is a very fertile tract and is inhabited by hardy *jats* who are good cultivators of land. This tract has also been fortunate in having irrigation from the Western Jamuna and Sirhind Canals for the past many decades.

This tract stretches from the confines of the Ghaggar valley in Fatehabad to the south-eastern corner of the District, comprising the eastern portion of Tahsils Fatehabad and Hissar, the whole of Hansi Tahsil anda small portion of the eastern part of the Bhiwani Tahsil. The main characteristic of this tract is its firm clay soil known as *karri* or *kathi* which is neither as hard as the *sotar* soil in the *nali* tract, nor as light and shifting as the sands of the *bagar*. There are some sand dunes even in this tract but their number is very small. The soil on the whole is rich and productive and requires sufficient rainfall or canal irrigation. The depth to water is generally 30 to 40 feet.

River System.—There is no perennial river in the District. The Ghaggar is the only river which has abundant water during rainy season when it swells sometimes even to cause floods and create swamps, but in winter there is hardly any water in it. The stream rises on the outer Himalyan ranges between the Jamuna and the Sutlej and receives the drainage of the Simla hills. It enters the plains near Ambala as a rapid and variable torrent. It enters the Hissar District near Jakhal and after crossing northern part of Fatehabad Tahsil and the central portion of Sirsa Tahsil it is finally lost in the vast sands of Rajasthan. It has also been identified with the sacred Saraswati, "the lost river of the Indian desert". The stream flows for a total length of about 290 miles, a strip three to six miles wide along the main channel of the Ghaggar contains dark rich clay which is highly fertile.

The second stream of some importance is the Joiya or Choya which enters Hissar a little towards south of Jakhal, a few miles away from the main Ghaggar stream. It passes along the village Ratia and then crossing a protruding portion of Bhatinda District, it re-enters the District a few miles south of Rori. It passes about four miles north of Sirsa and flows through the *Sotar* valley between Sirsa and Rania and then enters the territory of Bikaner.

Lakes.—The Ghaggar stream used to form three lakes at Chanmal, Dhanur and near Rania, all in Sirsa Tahsil. The construction of a dam near Ottu has converted the lakes at Dhanur and Chanmal into one long lake. During winter this lake shrinksinto a small patch of water near the village Dhanur and by summer it is quite dry.

Geology.—There is nothing remarkable regarding the geology of the District. Most of it is a level plain with sandy tracts. *Kankar* or lime stone is, of course, available at many places and stone is largely used in constructing roads. The only other mineral product is crude salt-peter or *Shora* which is extracted by indigenous method of crystalization.

CLIMATE

In their daily talk the people distribute the year into three seasons, each of four months duration ; *Karsa* or the hot season, *Chaumasa* or rainy season and *Jada* or winter season. In March the cold begins to give way to warmth unless disturbed by an occasional thunder shower accompanied by hail. A great rise in temperature and ferocity in sunshine is experienced in April but June is the hottest month. Hot winds blow steadily from west and bring dust storms from the neighbouring Rajasthan desert. There are, however, no disastrous cyclones or hurricanes. The first rain falls in July, marking the climax of summer. July and August have widespread rains. The last summer rain falls between mid-September and mid-October and thereafter the nights become cool. Frost occurs about the close of the year and sometimes again in February. The climate on the whole is dry and healthy.

Temperature.—Table I*-Part II contains a record of temperature on monthly basis from 1951 to 1960 for three stations in the District. It will be noticed that the hottest day at 115° F occurs mostly in May-June and the coldest night at 30° F is mostly in January. Not only is there much variation in temperature between the seasons but it fluctuates widely within a span of 30 to 40 degrees within 24 hours.

*Page 51

Rainfall.—Table 2* in Part II contains monthly figures of the number of rainy days and the amount of rainfall from 1951 to 1960 for the five Tahsil headquarter towns. The decennial average figures are given below.

Town	Average annual rainfall (Cms.)
Hissar	40·1
Sirsa	36·1
Hansi	46·4
Fatehabad	40·6
Bhiwani	51·7

There is a dry belt in Punjab consisting of Ferozepur, Hissar, Mahendragarh, Gurgaon and Rohtak Districts which is far away from the Himalayas and borders on the Rajasthan desert. There is practically no rain during April to June. Roughly 3/4 th of the annual rainfall occurs during July to September, another 10 per cent in December and January.

Fauna.—With its dry climate and general scarcity of water and trees, Hissar has very few wild animals. Even insects are rare than elsewhere. Snakes are, however, found all over the District and are more common in the moist lands of the Ghaggar Valley. Fish are to be caught in the Ghaggar for a few months in the year. Of birds, the house sparrow is common. Peacocks are found near villages. The gray partridges are found chiefly in the Ghaggar valley and the black partridge in the Hansi and Bhiwani Tahsils. Field rats are common and the ground is often honey-combed with their holes. The mungoose (*niola*), the fox and the wild cat are found in the jungle area. Jackals, hares and foxes roam about in large number in the *Birs*. Wolves and henna are sometimes seen in Bhiwani Tahsil near hills, but they do little damage to the inhabitants. Chinkara or ravine deer are common all over the District except in the Ghaggar valley.

Flora.—Of all the natural products of the District, the most important are the grasses. In the dry tract perhaps the best grass is *dhaman* (Pennisetum cenchroides), which is much valued as food for cattle and often preserved as hay. The other common grasses are the *chimbar* or *kharimbar* (Eleusine flagellifera), *khoi* or *bur* (Andropogon lainger), *duchab* (Cyperus sp.) and *dub* (Cynodon dactylon). The *sirkanda* is found on Ghaggar banks. Its thin stalks are used for thatching, for covering, for carts and for making the winnowing baskets.

The *ak* (Calotropis procera) occurs every where. Among the characteristic plants of the dry region is the *bui*, a flow and whitish plant which gives a greyish white appearance to the country where it abounds. It is found chiefly on sandy soils and is taken by camels ; cattle eat it only in times of scarcity. Another plant, characteristic to the dry tract is the *tumba* (Citrullus colocynthius) with its trailing stems and beautiful green and yellow orange like fruits, scattered in profusion over the sand dunes. The *tumba* is eaten only by goats. A preparation from it is sometimes used as medicine. The *phog* (Calligonum polygonoides), one of the most abundant and characteristic plant of the Bikaner desert, is found in the areas bordering Rajasthan. Its small leaves are dried and they make a tasty dish when eaten with curd. The *kateli* or *satyanas*, a tall plant with a yellow flower, is found on poor alluvial soil.

The most important bush of the tract is the *jhar beri* (Zizyphus nummalaria), whose small red *bers* are largely eaten while its thorns are used as fences, and its leaves known as *pala* are an excellent fodder for cattle. The *ber* fruit is dried and eaten throughout the year. The only indigenous tree of the dry tract is the *jand* or *jandi* (Prosopis spicigera) which is very common in fields and around villages. Its wood is used for making agricultural implements and also for the sacred fire (*hom*). Its pods (*sangri*) are used as fodder for cattle. The dried pods are boiled and mixed with spices to make a tasty dish. The dried leaves are also exported to Calcutta where *Marwaries* have a taste for them. The *kair* (Capparis aphylla) is common throughout the District. Its ripe fruit (*pinju*) is very largely eaten whereas achar is prepared out of raw fruit. The *van* or *jal* (Salvadora oleoides) is very often found along with the *kair*. Its characteristic wild fruit, (*pil* or *pilu*) which ripens in hot weather, is also largely eaten. Among other trees in the District, the most important and most common is the *kikar* (Acacia arabica). Another common tree is *rohera* (Tecoma undulata) with its numerous large bright orange colour flowers. The *farash* (Tamarix articulata) is common in the jungle of the Ghaggar valley. Shisham (Dalbergia sissoo) is planted on the road sides and canal banks, as also the *neem* (Melia indica). *Pipal* (Ficus religiosa) is also found all over the District.

TOWNS AND PLACES OF INTEREST

Hissar (Area 6.77 sq. miles : Pop. (1961) 60,222).—The town of Hissar, the headquarters of the District, is situated on the western Jamuna Canal about 102 miles west of Delhi and is connected with it both by rail and road. It is a junction station on the Rewari-Bhatinda railway line and is also the terminus of broad gauge

*Page 58

Ludhiana-Hissar line and meter gauge line of Sadulpur-Hissar. The town is surrounded by an old wall with four gates: the Delhi and Mori to the east, the Talaki to the west and the Nagori to the south. The town is no longer confined to the old walls. Straggling suburbs stretch irregularly beyond the wall, towards the east and south-east of the town. These suburbs are mostly composed of *kacha* houses, though in recent years many of them have been made *pacca*. The habitation is spread also towards the Civil Lines and some of the busiest parts of the town are now outside the gates. A canal runs for a short distance to the south of the town wall and is crossed by four bridges.

Within the old walls of the town the chief objects of interest are the *Jama Masjid* and the remains of Feroze Shah's palace in which the office of the Government Cattle Farm is now housed.

The most interesting relic in Hissar is the *Bara Dari* in the Gujri *Mahal*, outside the fort. It is said that the *Mahal* was built by Feroze Shah as a residence for his mistress know as Gujri. Another interesting relic is an old Jain temple converted into a mosque. The place is known as *Jahaz*, after the name of George Thomas who used to live here and whose name was distorted by the local people. A mile towards the east lie a mosque and a tomb of Behlol Shah built in 1694. The palace is now called *Dana Sher*. There are many other mosques and tombs in and around the town of Hissar and one of them is a tomb of the *Chalis* Hafiz on the road to Fatehabad to the north of the town. It is said to be the tomb of forty *faqirs* who lived in the time of Tughlaks.

After Independence the town has assumed great importance. It has become the centre of education in south-eastern Punjab. The educational institutions comprise three Arts and Science Colleges, one College of Veterinary Science and Animal Husbandry and a number of High and Higher Secondary Schools. There are also four technical institutions where training in various crafts is imparted to boys and girls. In 1960 these institutions trained 156 technicians (100 boys and 56 girls). Apart from the Government's contribution, a few trusts and individuals have done a lot for the expansion of education in the town. The Fateh Chand Trust runs a women college. The Daya Nand College is mainly the creation of one man's efforts, Shri Gian Chand. Similarly the Harjiram Higher Secondary School was managed and run for a number of years by its founder, Pt. Harjiram.

The town is a market centre for agricultural produce and has a big *mandi*. In 1955 "Hissar Textile Mills" was established by M/S Delhi Cloth Mills. A big steel pipe manufacturing company also went into production in 1963. Besides, there are about ten oil and *dal* mills. There are also three cotton ginning and pressing factories which are very busy in season on account of increase in acreage under cotton in the neighbouring areas. A few oil companies have also established their storage tanks outside the town along the Jakhal -Hissar Railway line.

Among the places of public utility are the Civil Hospital, Municipal Park and Sardar Patel and Lajpat Rai Parks, a Children's Library and *Kala Kender*. There is also a big library in the King Edward Memorial Hall.

Easily the most public institution at Hissar is the Government Cattle Farm which will be described in Chapter II.

The streets of the town are almost all *pacca*. The houses inside the town are generally well built, though of old fashioned style. They are built from brick and lime. In fact one of the main streets together with a square, called the Ram lila *Katra*, presents quite an imposing appearance. The Gandhi *Chowk* is the main centre of activity in the town. There are, however, quite good and modern houses in the Model Town, established mainly to provide accommodation to the refugees. The town is a First Class Municipality which caters to the civic needs of its inhabitants. There are sixteen *Dharamshalas* in the town which have been built mostly by individuals who have named after them. Some of these are quite imposing and have sufficient accommodation for the visitors.

Bhiwani (Area 5.0 sq. miles : Pop. (1961) 58,194).—The headquarters of a Sub-Division, the Bhiwani town is 74 miles west of Delhi and 38 miles south-east of Hissar. It is an important station on Rewari-Bhatinda railway and is connected by *pacca* roads with important towns like Hissar, Rohtak, Charkhi Dadri and Loharu.

At the beginning of the present century, Bhiwani was a small village. It is said that a Rajput, named Nim, founded the village in honour of his wife Bahni. In 1817 William Frazer, the Political Resident at Delhi, selected this village for the site of a *mandi*. Up to that time the main market of the neighbourhood had been the town of Charkhi Dadri, about 15 miles south-east of Bhiwani. The rise of the city to importance was rapid and almost all the principal firms at Dadri transferred their business to Bhiwani. At one time it was the main channel through which all the trade from Bikaner, Jaisalmer, Jaipur and other States of the erstwhile Rajputana used to flow into India. The opening of the Rajputana railway diverted this trade to some extent and decreased the commercial importance of Bhiwani. Most of the business men of the town migrated to Calcutta, Bombay and elsewhere in India where they have flourishing business. A large majority of them have concentrated in Calcutta. Even now the town is an important centre for negotiating *hundies* and also an important business centre of the neighbourhood.

The town itself is completely surrounded by an old wall with 12 gates, though now the town is no longer confined to the old wall and the habitation has spread outside towards the railway station and the water works.

The houses in the town are built of brick and lime and are mostly several storeys high. Some of the havelis belonging to the merchants are fine, imposing structures. Roads and streets in the town are all metalled and there are open *pacca* drains on both sides of the street. There are two sewerage disposal works, on both sides of the town, which yield a handsome revenue to the Municipal Committee annually. The water-supply scheme for the town was completed in 1933 at a cost of Rs. 5 lakhs. There are at present public taps in almost every street and six to seven hundred private water connections have also been granted by the Committee. The Delhi branch of the Western Jamuna Canal meets the demand of the water works.

There are two large scale composite weaving mills in the town under the name of the " Punjab Cloth Mills Limited," and the "Technological Institute of Textiles", both rune by M/s. Birla Brothers. The former was set up in 1938 and the latter in 1943. The total investment amounts to Rs. 146 lakhs and both the mills are equipped with 36,554 spindles and 853 power looms. The production of cloth, from these mills amounts to more than one crore yards annually. A Gum and Guar factory has also been started recently by the Birlas where gum and other chemicals are prepared out of *guara* which is available locally. Messrs B.K. Engineering Works manufacture diesel engines. There is one concern engaged in the manufacture of bobbins used in the textile mills. Hand-made household utensils making industry is also localised in the town where about 32 units are engaged in manufacturing utensils.

Trusts.—Bhiwani is a town of charitable trusts created by large business magnats which have contributed a lot to the welfare and importance of the town. The Birla Education Trust runs a Higher Secondary School and a Technological Institute of Textiles where education is imparted in textiles up to the degree level. The Karori Mal Trust runs a number of colleges and schools and other welfare institutions like the Vaish College, K.M. Teachers' Training College, the K.M. Model School, K.M. Public Library and Park and the Laxmi Narain Temple. This trust has also met the entire expenditure incurred for the construction of new building for the Government Higher Secondary School, the Civil Hospital, Shrimati Ashrafi Devi Nurses' Training Institute and the Bhiwani Club. The Halwasia Trust is running and helping quite a few institutions. The Chiripal Trust is running the local R.N.S.D. Higher Secondary School. The Krishan Lal Jalan Trust runs a free eye hospital where more than a lakh cataract operations were performed during the last year. Another eye hospital has also been started recently. The Ganpat Rai Free Maternity Home is run by a local philanthropist. The Civil Hospital is by far the best in the District. Many of the appliances in it are gifts from leading men in the town. The Sub-Divisional offices of Electricity, Public Health and Buildings and Roads are also located in the town. The Halu Bazar and Bichla Bazar are the important markets having the best shops in the city. Bhiwani is known for its market in *gota-kinari* (silver laces etc.) in the neighbourhood. The town is served by a class II municipality.

Hansi (Area 5.60 sq. miles : Pop. (1961) 33,712).—Hansi is an old town situated on the Western Jamuna Canal on the Delhi-Sirsa Road at a distance of about 16 miles east of Hissar. The town is surrounded by a brick wall with several gates and the houses are mostly of bricks. There are two wide roads running through the town and crossing one another at right angles. The streets are, however, narrow and winding. The town is situated on a higher level of land.

To the north of the town lies the ruined fort on a huge mound. It was dismantled in great part after the 1857 events. Rai Pithora is locally said to have been the founder of the fort. Prior to the foundation of Hissar in 1354, Hansi was a centre of local administration and the chief town of Hariana. In 1795, George Thomas made it his headquarters, and in 1902 the town was selected as a site for a cantonment. There are a few old tombs and mosques in the town, and the graves of Kutab Jamal-ud-din and his three successors are worth mentioning.

The town is a great centre of the cotton trade. There are eleven registered factories in the town engaged in cotton ginning and pressing. The town is the headquarters of the Sub-Division and is served by a Municipal Committee of the second class.

The family of late Col. James Skinner, who was the largest land holder in the District, have their headquarters here. Presently Mr. James R. Skinner is looking after the estate consisting of lands in six villages only. They have a very good library where some rare books and paintings are kept.

Water-logging has been posing a problem to the town of Hansi and the areas around it. In 1959-60 an area of 588 acres was water-logged in the Tahsil. Two drains have recently been dug out to meet the menace of water-logging and it will take sometime before it is ascertained how far they have served the purpose.

Sirsa (Area 2.0 sq. miles : Pop. (1961) 33,365).—The headquarters of a Sub-Division, Sirsa is one of the oldest towns in the District. Its old name is said to be Saraswati, after the river now known as Ghaggar. The town is situated on the Bhatinda-Hissar railway line and also along the Delhi-Hissar-Sulemanki national highway.

In the north-west of the town are situated an old fort and a large mound full of bricks and said to be the debris of the original fort. There are also numerous temples, mosques and tombs around the town. It is said that in 1783 the town was completely deserted owing to a terrible famine, but soon after the British Government occupied the territory, the old glory of the town revived.

There is a big *mandi* for agricultural produce, chiefly cotton, gram and paddy. The main roads in the town are metalled. There are 14 *dal* manufacturing concerns, three rice husking units and one cotton ginning and pressing factory located in the town. On the north side of the railway line, there is a settlement, containing the residences of the railway officials.

Among the places of public utility are the Civil Hospital and the Public Library. The offices of the Superintending Engineer for Drainage and Executive Engineers for P.W.D. are also located here. The various Higher Secondary Schools both for boys and girls and a Degree College are sufficient for the local needs.

Mandi Dabwali (Area 0.52 sq. mile: Pop. (1961) 15, 421).—Dabwali lies in the extreme corner of the District bordering Bhatinda and Ferozepur. The town of Dabwali has assumed great importance after Partition. Its population has increased from 6,655 in 1941 to 15,421 in 1961. There are eight cotton ginning and pressing factories and few others are coming up. M/s Bharat Syringes manufacture hypodermic syringes. It has a big market in gram, cotton and barley. The town is served by a Municipal Committee. Drinking water is supplied through regular water-supply works. The Civil Hospital, Maternity Hospital, Family Planning Centre and Government Higher Secondary School are there for the benefit of the inhabitants.

Fatehabad (Area 4.0 sq. miles : Pop. (1961) 12,461).—The headquarters of a Sub-Division, this town was founded by Feroze Shah Tughlak and was named after his son Fateh Khan. The town contains the remains of an old fort built by Feroze Shah. Fatehabad lies on Delhi-Hissar-Sulemanki National Highway and is not connected by rail. The nearest railway station is Bhattu Kalan, eleven miles away.

The town has made tremendous progress during the last decade. Its population has increased four times (12,461 in 1961 as against 2,968 in 1951). The main reason for this big increase is the influx of people not only from the neighbouring villages but also from other Districts of the State in the wake of Fatehabad Tahsil having been provided with irrigation by the Bhakra Canal. Lands which did not produce even a blade of grass before, have started producing cotton, gram and wheat in huge quantities. Three very big composite cotton ginning and pressing factories have been established in the town and some more are expected to come up during the next decade.

A new *mandi* has been established over an area of 210.83 acres by the Colonization Department and Fatehabad is taking the shape of a flourishing town. Drinking water was a problem a few years back. The Municipal Committee has now set up 64 hand-pumps. The Public Health Department is setting up a water works which will be fed from the canal. A drainage scheme for the town is also proposed. The main roads of the town are metalled. There are three salt-peter refining units in the town which extract salt-peter by the indigenous method of crystalisation.

A second class Municipal Committee caters to the civic needs of the inhabitants. Among the principal public institutions are the Municipal Library-cum-Reading room and the Courts of the Sub-Divisional Magistrate and the Tahsildar.

Tohana (Area 4.00 sq. miles : Pop. (1961) 12,394).—This is an old town, 40 miles north of Hissar on the Jakhal-Hissar railway line. Its population decreased from 8,950 in 1941 to 7,955 in 1951, but thereafter rose to 12,394 by 1961. The decrease during 1941-51 was mainly due to exodus of the Muslims in 1947. But the Hindus from West Pakistan gradually came and settled here.

The town has a good market in gram, wheat, barley and *taramira*. The main roads in the town are metalled, drinking water is had from hand-pumps and wells. The Municipal Committee has set up electric pumps at some of the wells, but a water-works is a great necessity. There is a good park on the Railway road.

Loharu (Area 0.78 sq. mile : Pop. (1961) 4,465).—The headquarters of a Sub-Tahsil, Loharu is an isolated and deserted town on the border of Rajasthan. People say that the site of the town was originally inhabited by *Lohars* or blacksmiths, from whom the town has taken its name. Shifting sand dunes are seen within and outside the town. It is, however, an important railway station. The town used to be the seat of the *Nawab* of Loharu till 1950 when it was merged with the Hissar District.

The *Nawab's* palace is the most important building, built in a mixture of oriental and western style and stands on a raised terrace with a fountain and tank in its centre. The Amin *mandi* having 228 shops, was got constructed by the *Nawab* of Loharu. The plan and lay out of the *mandi* is excellent, but it gives a deserted look. Only about 100 shops are let out to traders, dealing in food grains and other agricultural products and the rest are closed for want of tenants.

Loharu used to be a flourishing market during the *Nawab's* time because then owing to State restrictions, the agriculturists not only of the neighbourhood but throughout the State had to come here for selling their produce and making purchases. The merger of the State with the District and the removal of all restrictions on inter-State movement, resulted in the dwindling of the trade to a great extent, and consequently a large number of traders migrated to other towns.

The houses in the town are scattered. In 1941 the population was 4,023, which decreased to 3,438 in 1951 owing to the exodus of the Muslims. Thereafter the population increased moderately, there being much of immigration. The water in the wells is not only brackish but is also quite deep.

The streets are mostly *pacca*. The houses are generally built of stone and lime in old style. A mile away from the town is an old tank paved with stone where a fair is held on the *Amavas* day. There is an old *dharamshala* built by the *Nawab* in 1895. But now one Seth Parshadi Lal has constructed a decent modern *dharamshala* provided withall amenities, at a cost of about Rs. 1 lakh.

The social and cultural life of Rajasthan has a dominating influence over the people of Loharu. The language spoken by large majority is *Bagri* or *Rajasthani*, though Muslims speak Urdu. The dresses like *ghagra*, skirt *orni*, turban and *dhoti* etc, both of males and females, are the same as of the neighbouring Rajasthan people. The social customs and conventions are also entirely Rajasthani.

The manufactures of Loharu are of no importance. Coarse country cloth is made in almost every neighbouring village. Rough blankets are also made from camels hair, which are made into *boras* (bags)for carrying articles on the camel back. Embroidered wool *chadars* of rough type used to be made here but the industry has considerably decayed. The Amin Wool Mills of the *Nawab* of Loharu, which spin wool, is now closed for want of finances. There are also a few stone dressers in the town, who produce stone pillars, *dehliz*, and grinding mill stones. These articles are sent out to the nearby town where they have a good market.

The town lies on Bhiwani-Jaipur road and there is a regular flow of tourists to Jaipur and Pilani, the latter being an important educational centre of Rajasthan.

Kalanwali (Area 1.0 sq. mile : Pop. (1961) 4,079).—This is a small *mandi* town on Rewari-Bhatinda railway line. The town was treated as such for the first time in the 1951-census. Its population increased by 55 per cent during the decade 1951-61. It is a flourishing *mandi* for gram, cotton, *bajra*, *gur* and oilseeds. There are three cotton ginning and pressing factories which produced more than 25,000 bales of cotton during the last year. The town is electrified and is served by a Municipal Committee.

Uklanamandi (Area 0.30 sq. mile : Pop. (1961) 3,588).—It was treated as a town for the first time in 1961. Lying 20 miles north of Hissar at Jakhal-Hissar railway line, Uklana has a flourishing *mandi*. The drinking water is a problem as the sub-soil water is brackish and there is only one sweet water well from where water is supplied by means of an electric pump. The town is electrified and most of its streets are *kacha*. Important agricultural products marketed in the *mandi* are gram, *sarson*, *gowara*, wheat, *bajra* and barley.

Jakhalmandi (Area 0.05 sq. mile: Pop. (1961) 3,138).—Lying 50 miles north of Hissar, it is an important junction on the Hissar-Ludhiana section. It has quite a good *mandi* marketing gram, wheat, *taramira*, barley and cotton. The drainage scheme of the *mandi* has been completed and a water works is under construction.

Agroha (Area 7.43 sq. miles: Pop. (1961) 2,040).—The village of Agroha lies about 12 miles to the north-west of Hissar on the Delhi-Sirsa-Sulemanki National Highway. The District Gazetteer, 1915, gives the following account of Agroha :—

> "This village must at one time have been a populous city. It is said to have been founded by Agar Sen, the founder of the *Agarwal* clan of *Banias* who flourished more than two thousand years ago. Near the village is a large mound which evidently consists of the debris of a large town. This mound is surmounted by a brick built fort with four bastions connected by curtains, said to have been built by Agar Sen. Excavations made in the mound in 1889 brought to light fragments of sculpture and images. Bricks of all sizes and coins have also been found there. In one place the walls of a substantial house have been laid bare, while the large depression near the mound, in which excellent crops are now raised, is evidently the site of an ancient tank. Agar Sen's fort, which dates from before the beginning of the Christian era, is a modern structure when compared with those remains ".

Tosham (Area 13.12 sq. miles: Pop. (1961) 3,492).—Sixteen miles to the north of Hissar, Tosham is a big and important place in Bhiwani Tahsil. The Tosham Hill, about 800 feet high, is the highest of the Aravali range in the District. The summit is surmounted by an ancient fort. Two interesting antiquities are to be seen in the neighbourhood of Tosham. One is the *Baradari*, popularly called as Prithvi Raj's *ketchery*. Another is a sanskrit

inscription on a rock on the face of the hill to the west of the village. It does not appear to have been yet satisfactorily translated. There are also a few sacred *kunds* or reservoirs on the hill where a fair is held on *Somavati Amavas* day.

HISTORY*

As already mentioned the towns of Fatehabad and Hissar were founded by Frozeshah Tughlak. The town of Hansi, with its fort, is one of the most ancient towns in the country. During the reign of Ferozeshah, Hissar was made the headquarters of a Division which included Hansi, Agroha, Fatehabad, Sirsa and others.

In 1398 Timur invaded the towns of Sirsa and Fatehabad, and brought them under his empire. In 1408, Hissar fell into the hands of rebels but was recovered by Muhammed Tughlak. In 1411 the tract of Hansi came into the hands of Khizer Khan who subsequently ascended the throne of Delhi as the first of the Sayed dynasty.

During the time of the Lodhis, Hissar continued to form a part of the Delhi empire. The town of Hissar Feroza appears to have been the headquarters of an imperial garrison at the time of Babar's invasion, and it was a strategic centre in the operations prior to the Battle of Panipat in 1526. Babar subsequently handed the town of Hissar to Humayun as a reward for success in his first military expedition. During the reign of Sher Shah, Sirsa continued to form a part of the empire. On the renewed invasion of India by Humayun in 1553, the District fell into the hands of Mughals.

During the reign of Akbar, Hissar was a place of considerable importance. It was the headquarters of the revenue Division or *Sarkar* of Hissar Feroza and also a Sub-Division of the province of Delhi which included the whole of the present District. Nothing much is known of the tract included in the District during the reigns of the succeeding Mughal emperors upto the death of Aurangzeb in 1707 when Nawab Sheh dad Khan, a Pathan of Kasur, was *Nazim* of the *Sarkar* of Hissar. His tenure of office continued till 1738. He was followed by Nawabs Kamgar Khan, Faujdar Khan and Aolia Khan of Farrukh Nagar who ruled from 1738 to 1760 successively. It was during this period that the invasion of Nadir Shah in 1739 shook the imperial throne to its foundation.

With the accession of Ahmed Shah in 1748, the present Hissar District became the scene of a sort of triangular duel between the strudy Sikhs of the north-east, the marauding Bhattis of the north and north-west and the Mussalmans of the south. The struggle dragged on for about ten years without any definite result. After this the Pachadas of Bighar, a place near Faridabad and the Jatu Rajputs also joined the struggle. In 1781 a last attempt was made by the Delhi Government to restore order in the District. Najaf Ali Khan, with Raja Jai Singh, proceeded to the District with an army but an arrangement was made with the Sikhs by the treaty of Jind under which the *parganas* of Hansi, Hissar, Tosham and a few others were reserved to the empire, the remaining territory, which the Sikhs had annexed, they were allowed to retain, and Fatehabad and Sirsa were made over to the Bhattis. Raja Jai Singh was appointed *Nazim* of Hissar.

After this George Thomas appeared on the scene. He was an Englishman who had come to India as a sailor. In 1782 he entered the service of Apa Khandi Rao, a Marhatta Chief, who was at that time in possession of the Jhajjar, Dadri and Narnaul territory. George Thomas was forced to quit service after some time and he thought of setting up his own authority over the tract of Hariana. First of all he captured Hansi and established his headquarter there. Very soon his authority was extended over the tracts of Hissar, Tosham, Barwala and several other villages. In 1800-01, he was attacked by an army of Sindhia under Lt. Bourquin. After a desparate fight, Thomas retreated into the fort and subsequently surrendered on favourable terms. He abandoned all his conquests and retired into British territory. In 1802 Lt. Bourquin appointed Mirza Ilias Beg, a Mughal of Hansi, as *Nazim* of the District on behalf of the Marhattas. By the treaty of 30th December 1803, Sindhia agreed to cede to the British Government all his territories between the Jamuna and the Ganges and also those to the north of Jaipur and Jodhpur States. The latter included the present Districts of Gurgaon, Rohtak and Hissar. By the partition treaty of Poona, about five months later, the District, along with other territory, was assigned to the British Government.

Upto 1810 the Bhattis continued their raids and confusion reigned supreme in the District. In that year the Hon'ble Edward Gardiner was deputed by the British Government to restore order in Hariana. The British force was commanded by the famous Col. James Skinner. The first operation was the capture of the town of Bhiwani. The force then proceeded via Hansi and Hissar to Fatehabad where the Bhatti Khan Bahadur Khan was defeated. At Sirsa Nawab Zabta Khan surrendered. The civil headquarters were fixed at Hansi and Gardiner held charge of the District for six years.

Events of 1857.—In all 23 Europeans and Christians were murdered : 12 at Hissar and 11 at Hansi as a result of the incidents in May, 1857 while 13 persons managed to escape. However, there was open revolt against the British at almost all the places in the District. Order had been restored by May, 1858.

*Source.—Hissar District Gazetteer, 1915.

In 1858 the Districts of Bhattiana and Hissar were transferred to Punjab and the District of Bhattiana was henceforth known as Sirsa. In1861 the Bhiwani Tahsil was transferred to Hansi, and in 1884 the Sirsa District was abolished and added to the Hissar District. Steps were taken to consolidate British rule in the territory and to form the District of Hissar with boundaries which lasted till the passing of the Provinces and States (Absorption of Enclaves) Order, 1950, by which the State of Loharu was merged in the District and 15 villages were taken from it. Presently the District consists of five Tahsils, namely Hissar, Fatehabad, Sirsa, Bhiwani and Hansi and one Sub-Tahsil, that of Loharu.

ADMINISTRATION

For the purpose of general administration, Punjab is divided into three Commissioners' Divisions and further into 19 Districts. Hissar is one of the six Districts under the administrative control of the Commissioner, Ambala Division, subject to overall control of the State Government. The District is in the overall charge of a Deputy Commissioner.

Deputy Commissioner and his Assistants.—In recent years the District administration has widened its scope from mere maintenance of law and order and collection of land revenue. There is now greater stress on developmental activities. The administration of the District is vested in the Deputy Commissioner who continues to be the hub of the District administration. As District Magistrate, he is responsible for the maintenance of law and order and is the head of the District Police and Prosecuting Agency. As Collector, he is incharge of the revenue administration. He is the highest revenue judicial authority in the District. He is the Registrar of transactions of immovable property. As Deputy Commissioner, he is the executive head of the District. He co-ordinates the activities of the various departments, executes developmental schemes and looks after measures against floods, locusts, etc. He controls and guides the working of Municipal and Market Committees and Community Development Blocks. He has an important role to play in the *Panchayati Raj* set up, in his capacity as the supervising authority of *Panchayat Samitis* and *Zila Parishad* by way of general guidance explaining to them Government policies. He is responsible for the execution of development and planning schemes and as the Chairman of the Standing Committee of General Administration and Development, he co-ordinates the activities of the various nation building departments. He has to keep his finger on the pulse of the people and presents such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra Assistant Commissioners at the District headquarters and at the Sub-Divisional and Tahsil levels.

Sub-Divisions and Tahsils.—There are five Tahsils in the District; Sirsa, Fatehabad, Hissar, Hansi and Bhiwani ; the last having the Sub-Tahsil of Loharu. In pursuance of the Government policy of decentralising authority and converting Tahsils into Sub-Divisions, Sub Divisional Officers (Civil) have been posted at Sirsa, Fatehabad, Hansi and Bhiwani. The Sub-Division at Sirsa is the oldest in the District. The Sub-Divisional Officer is either an Assistant or an Extra Assistant Commissioner and exercises control over Tahsildar and Naib-Tahsildar. His powers *vis-a-vis* the Sub-Division are analogous to that of the Deputy Commissioner *vis-a-vis* the District, though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner. He also exercises First Class Magisterial powers.

The Tahsildars and Naib Tahsildars are vested with Class II and Class III magisterial powers, respectively, and on the revenue side they are Assistant Collectors II Grade. Besides, they play an important part in accelerating the execution of various development schemes. Their services are utilised to the maximum at the time of any emergency. They are assisted in revenue work by the Office *Kanungo* and a number of Field *Kanungos* and *Patwaris*. The preparation of village records and revenue statistics rests with the *Patwaris*, each in charge of a circle consisting of one or more villages.

The *Lambardar* collects the land revenue and deposits it in the Government treasury. He is in many ways an important part of the administration and looks after the law and order situation in his area and sends periodical information on births and deaths as also any breach of law to the allotted police station. For this purpose a *Chaukidar* is also appointed to assist him. The *Patwari* and *Chaukidar* receive monthly salaries while the *Lambardar* whose office is hereditary, gets five per cent of the land revenue collection.

Judiciary—Judiciary was separated from executive under the Punjab Separation of Judiciary and Executive Functions Act, 1964. On the civil and judicial sides the administration of justice is headed by the District and Sessions Judge, Hissar, who is assisted by an Additional Sessions Judge, Chief Judicial Magistrate and a Senior Sub-Judge at the headquarters and three Sub-Judges, posted at Sirsa, Hissar and Bhiwani. On the executive side, the administration of justice is controlled by the District Magistrate, Hissar, who is assisted by the General Assistant, Revenue Assistant, Sub-Divisional Magistrates and Tahsildars.

Government cases for the Civil and Sessions courts are presented by the District Attorney who is under the administrative control of the Legal Remembrancer, Punjab. The Prosecuting Inspector, assisted by Prosecuting Sub-Inspectors, conducts the cases for the State in the courts of Magistrates.

Police.—The District Police administration is controlled by the Superintendent of Police who assists the District Magistrate in the maintenance of law and order. He functions under the administrative control of the Deputy Inspector General of Police, Ambala Range and is assisted by Deputy Superintendents. The organisation under him consists of three Assistant/Deputy Superintendents, five Inspectors, 39 Sub-Inspectors, 55 Assistant Sub-Inspectors, 118 Foot Head Constables, 909 Foot Constables, 1 Mounted Head Constable and 27 Mounted Constables. The lowest unit of police administration is the Police Station (*Thana*) serving a number of villages or a town. The Sub-Inspector is the incharge of a police station. There are 19 police stations and six police outposts in the District.

Jails.—There are two District jails at Hissar where accommodation for 906 inmates is available. In the Sub-Jail at Sirsa accommodation for 86 inmates is available. There are full-time Superintendents for the District Jails at Hissar while the S.D.O. (Civil) Sirsa holds the additional charge of the Superintendent for the Sub-Jail there.

Community Development.— The District stands divided into the following 17 Community Development and National Extension Service Blocks (early 1963) : -

Tahsil	Name of Block
Hissar	Hissar-I
	Hissar-II
	Tohana
	Barwala
Hansi	Hansi-I
	Hansi-II
	Narnaund
Bhiwani	Loharu
	Tosham
	Bara Gudha
	Bhiwani
Sirsa	Sirsa
	Dabwali
	Rania
Fatehabad	Fatehabad
	Bahuna
	Ratia

In Hissar District, a Block consists of some 62 villages and is under the charge of a Block Development and Panchayat Officer who has been vested with powers of Panchayat Officer under the Punjab Gram Panchayat Act, 1952. The B.D.P.O. is under the immediate administrative control of the S.D.O. (Civil). He has no administrative functions and is mainly concerned with the promotion and execution of development schemes. He is the *ex-officio* Executive Officer of the Block *Samiti.*

The Block Development and Panchayat Officer has a number of Extension Officers belonging to various departments to assist and advise him in their respective spheres like the agriculture, industries, co-operation and education. At the lowest rung of the Extension Service Scheme are the Village Level Workers and Lady Social Workers who attend to development and social educational plans aiming at improving the social, economic and health conditions of the rural population.

Zila Parishad, Panchayat Samitis and Panchayats.—The *Panchayat Samitis*, one for each development Block, elected under the *Panchayat Samitis* and *Zila Parishads* Act, 1961, cater to the requirements of the area under their jurisdiction in respect of agriculture, health and rural sanitation, social education, co-operation and allied activities. Their members are elected from amongst the members of the village *Panchayats*, constituting the Block.

At the District level, a *Zila Parishad*, consisting of representatives from village *Panchayats*, *Panchayat Samitis* and some co-opted and nominated members, has replaced the age old District Board. The *Zila Parishad* is responsible for the framing of District Plans. It guides and supervises the *Panchayat Samitis*, scrutinises their budgets and undertakes a good deal of special development work.

The Punjab Gram Panchayat Act, 1952, provides for the establishment of a *Panchayat* in every village with a population of not less than 500 persons or a group of smaller villages with a joint population of not less than 500. At present there are 836 *Gram Panchayats* in the District with a total membership of 5,162 persons.

Elected on the basis of adult franchise, the *Gram Panchayats* are statutory bodies and are charged also with some criminal, civil and revenue justice, and administrative and executive duties. These powers at the moment are limited, but will be extended in due course, as this experiment in decentralisation of authority proves successful. They have been empowered to levy certain taxes and are allowed a specific percentage of land revenue of the village to provide them the necessary funds for discharging their functions. The setting up of these small village republics is, in fact, a bold step forward in the process of democratic decentralisation.

Government Departments.—The working of the Co-operative Department in the District is looked after by an Assistant Registrar with his headquarters at Hissar. There is a separate Assistant Registrar for industrial co-operative societies with headquarters at Gurgaon. The work of the Agriculture Department is under the District Agriculture Officer. He is assisted by a number of specialists in horticulture, plant protection, soil science etc., at the District headquarters and Agriculture Inspectors and Sub-Inspectors in the National Extension Service Blocks.

There are two Industries Officers, one at the District headquarters and the other at Bhiwani. They are assisted by Inspectors and Sub-Inspectors. For rural industrialisation and development work, Block Level Extension Officers are posted in various Blocks. Technical education in various crafts is imparted by the Government training institutions at Hissar and Bhiwani. Besides, there are instructors and demonstrators working in various industrial centres.

The Civil Surgeon is incharge of the hospitals and dispensaries in the District and the District Medical Officer of Health looks after the rural dispensaries and primary health centres and general sanitation in the rural areas. Besides, each municipality has health staff of its own.

The District Animal Husbandry Officer has under him a staff of 20 doctors, 140 compounders and live-stock assistants working in 42 veterinary hospitals and dispensaries in the District.

The District Excise and Taxation Officer looks after the excise and taxation administration in the District and the collection of Entertainment Duty, Sales Tax, Immovable Property Tax and State Excise Duties. The District Food and Supplies Officer looks after the procurement, movement and distribution of foodgrains and other controlled commodities.

The District Education Officer, Hissar, is responsible for the inspection of schools upto the Higher Secondary level.

Construction and maintenance of Government buildings and roads are under the charge of the Executive Engineers at Hissar and Sirsa. Similarly there are Executive Engineers for Electricity, Public Health, Drainage and Irrigation works. The offices of the Superintending Engineers of P.W.D. and Electricity are also located at Hissar.

The District Welfare Officer looks after the welfare programmes for Scheduled Castes and Backward Classes. The District Public Relations Officer is responsible for publicity and propaganda work.

Local Bodies.—Each of the eleven towns (Hissar, Bhiwani, Hansi, Sirsa, Mandi Dabwali, Fatehabad, Tohana, Loharu, Kalanwali, Uklanamandi and Jakhalmandi) has a Municipal Committee. Only one among them at Hissar, is a First Class Municipality.

Colonisation Department.—This Department started functioning in 1952 when the Deputy Commissioner, Hissar, was appointed as a part time Colonisation Officer. The Department is primarily concerned with the establishment of new *mandis* and factory areas in those parts where the need for them has been felt as a result of increased agricultural production due to Bhakra Nangal Project and other irrigation schemes. There are 12

such *mandis* in the District and the area under their sphere, and the amount spent on each of them upto 31st March, 1964, are shown below :—

Mandi	Area	Amount spent
	(Acres)	(Rupees)
Sirsa	638 ·50	3,264,655
Bawani Khera	141 ·43	694,805
Dabwali	120 ·00	386,568
Fatehabad	210 ·83	1,827,094
Ellenabad	328 ·91	176,002
Adampur	155 ·57	387,109
Kalanwali	397 ·25	865,232
Bhattu Kalan	294 ·60	1,125,685
Tohana	150 ·45	364,880
Barwala	415 ·16	244,122
Hansi	37 ·91	148,725
Hissar	48 ·90	Not available

The Department plans to develop these *mandis* to the fullest extent according to the lay-out plans. In almost all the *mandis* amenities such as metalled roads, parks, water-supply and sewerage are being provided.

CHAPTER II

ECONOMY

This Chapter is divided into four sections, dealing with A-Agriculture, Irrigation and Livestock ; B. Industries; C- Trade & Commerce; and D-Communications.

A-AGRICULTURE

Peasantry.—In common with other Districts of the State, agriculture is the main stay of the people of Hissar. At the time of 1951-census, 75 ·9 per cent of the population in the District was dependent on agriculture. The 1961-census revealed that 79 ·6 per cent of the workers in the District were actually working as cultivators and agricultural labourers. The agricultural population in 1951-census included the agricultural rent receivers who in 1961-census were classed among non-workers. The District is fortunate in having sturdy and hard-working Jats, Bishnois, Rajputs and Sikhs who constitute a bulk of the workers on land.

There are three broad types of active workers in agriculture; proprietors, tenants and labourers. A large majority of cultivators are peasant proprietors, owning and cultivating their own lands. Accretion to their number has accrued from the various land reforms introduced in the post-independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. Occupancy tenants have become full fledged proprietors. Many among the tenants at will, who were able to purchase land under the law, have also become proprietors. Ceilings on land holdings have been prescribed. However, some landlords have been able to circumvent the law by entering into *benami* transactions and mutate their lands in favour of their relatives and confidants, so as to retain ownership under disguise.

One consequence of the land reforms has been that such landlords whose only interest in land was in receiving rent, have now taken to cultivation with their own hands and with the assistance of labourers, in order to avoid their lands passing out of their hands.

This change has given an incentive to mechanised farming on large holdings. As a result many tenants were evicted and, in the absence of alternative vocations of their choice, they have had to accept to work as agricultural labourers. In most cases the resources at their disposal are meagre and they cannot afford to purchase lands even when law affords them opportunity. The result is that the number of agricultural labourers is swelling.

LAND UTILISATION

Total Area.—The District enjoys 1st position in size among the 19 Districts of the State. Its total area according to the Surveyor General of India is 5,380 square miles (3,443,200 acres). However, according to Village Papers maintained by the Director of Land Records, Punjab, the area of the District measures 5,363 ·3 sq. miles (3,432,531 acres). The discrepancy in the two sets of figures may be due to the survey area being calculated in big blocks, while the area in village papers is obtained by adding up the area figures of individual villages. For showing land utilisation and density of population, the figures as supplied by the Director of Land Records, Punjab, and referred to also as figures according to village papers, have been utilised in this report.

Table 3*of Part II shows the geographical area of the District and its classification according to use, in terms of quinquennial average figures form 1901 to 1961. The difference in the total area figures over the period of time has been due to inter-District transfers, alluvium and diluvium and remeasurement of land. Table 4† shows figures for each assessment circle in the District for 1960-61.

Forests.—There is no regular forest in the District. In 1960-61, the Forest Department operated on 332 acres classed as reserve forest. Also it had under its control strips (3,032 miles), along roads (762 miles), canal banks (2,209 miles) and railway lines (61 miles). Besides the forest Department had some nurseries comprising an area of 54 acres, and located at various places in the District.

The major forest produce consists of *kikar* (Acacia Arabica) and *shisham* (Dalbergia sisoo) trees while the minor forest produce mainly consists of grass and *sarkanda*. There is, at present, one Silvicultural Research Forest Range at Hissar which carries research in propagation of tree species in various types of soil, climate and temperature.

Area not available for cultivation.—This class comprises of absolutely barren and uncultivable lands and lands put to non-agricultural uses such as lands under buildings, roads and canals. The combined area of such lands is 152,939 acres or about 4 ·5 per cent of the total area (Table 4 Part II). There has been some increase during the decade in this type of land because of increased constructional activities.

Area available for cultivation.—This category relates to culturable wastes, permanent pastures and grazing lands and lands under tree grooves not included in net sown area. Such lands covered 198,964 acres, forming about

*Page 62 †Page 64

5 ·8 per cent of the total area during 1960-61 (Table 4 Part II). Such lands have shrunk considerably during the decade because with the canal irrigation provided by Bhakra Canal System, more & more lands are being brought under cultivation.

Cultivated area.—In revenue terminology a land is styled as 'cultivated' if it had been sown even once during the previous four harvests. Cultivated area comprises of (i) net sown area, and (ii) fallow lands. The figures relating to such lands during the quinquenniums ending 1952-53 and 1962-63 are given below :—

	Quinquennial Average	
	1952-53	1962-63
Fallow lands (acres)	731,985	156,976
Percentage to total area	21.3	4.6
Net area sown (acres)	2,221,393	2,930,306
Percentage to total area	64 ·7	85 ·4
Cultivated area (acres)	2,953,378	3,087,282
Percentage to total area	86 ·0	90 ·0

In the State as a whole the cultivated area forms 65 per cent of the total area. The high figure of 90 for Hissar is due to nature being generous in giving the District a larger share of land which can be ploughed. At the same time it is a tribute to the diligence of the farmers who have exploited it to their advantage. It is interesting to note that the cultivate d area has increased by four per cent during the decade. This is mainly due to increased irrigation facilities provided by the Bhakra Canal System to the arid tracts, in Hissar, Fatehabad and Sirsa Tahsils.

Another point brought out by the above figures is the reduction in the proportion of fallow lands. In 1948-53 they formed 21 ·3 per cent of the total area and during 1958-63 only 4 ·6 per cent. With the growing trend for intensive cultivation the practice of taking crops from the same plots successively over a number of years is coming in vogue; and there is nothing wrong in it, for agricultural research has proved that with good manuring and judicious rotation of crops, it is seldom necessary to allow lands to lie fallow.

Canal Irrigation.—The handicap of inadequate and uncertain rainfall in the District has been off-set to some extent by canal irrigation. Amritsar and Ferozepur are, perhaps, the best irrigated Districts in India with 87 and 66 per cent of the net sown area receiving irrigation.

The need for irrigation in the District had long been felt and as late as during 1898-1903, Government and private canals served 167,448 and 6,343 acres, respectively. Government canals have gradually overshadowed private canals, so much so that by 1958-63 all canals in the District were owned and managed by Government and the net area served by them was 1,200,180 acres, during 1952-53 and the corresponding figure for 1962-63 was 1,328,800 acres. The latter figure represents 45 ·3 per cent of the net sown area which is higher than the State figure of 41. Canal irrigation is received mainly from the Western Jamuna Canal and Bhakra Canal. Leaving Bhiwani Tahsil in general and Loharu Sub-Tahsil in particular, the other four Tahsils of the District get sufficient irrigation facilities.

Tube-wells and other wells.—The only alternative means of irrigation are percolation wells and a few tube-wells. An area of 7,080 acres was served by wells during 1958-63, and it lies mostly in Sirsa, Hissar and Fatehabad Tahsils.

Crops irrigated.—There has been a steady increase in the area of irrigated crops in the District during the last 60 years. The gross area under all crops irrigated was 179,549 acres in 1898-1903 and it increased to 1,210,550 acres in 1958-63.

Crops share in irrigation variously. Rice, sugar-cane, and cotton are almost entirely irrigated crops. Nearly 75 per cent of the area under wheat receives irrigation. But gram and barley are preponderately *barani*. Some 30 per cent of the gross area irrigated is devoted to foodgrains, a major portion of which is under wheat and gram. Among non-food crops, however, cotton is the most important.

MAIN CROPS

There are two main harvests in Punjab: the *rabi* or *hari* and the *kharif* or *sawani*. The *rabi* or spring harvest consists mainly of wheat, gram, barley and some fodder crops. They are generally sown in October-November. and harvested from mid March to end of April. The *kharif* or autumn harvest consists of rice, maize, *jowar*, *bajra*, pulses, sugar-cane and cotton. These crops are sown in June-August and reaped from early September to late December. Sugar-cane and cotton are sown a little earlier. Some crops come in between these two harvests. For example, *toria* matures late in December and is labelled as *zaid* (extra) *kharif*. Similary tobacco is harvested late in June and is termed as *zaid* (extra) *rabi*.

As between the two main harvests, the area devoted to *rabi* crops is a little more than that under *kharif* crops in the District. This preponderance of *rabi* over the *kharif* is due to extension of canal irrigation. In Districts where farmers are entirely at the mercy of rains, *kharif* is the major harvest since rains occur mostly in the monsoon months.

Wheat.—Wheat, the 'golden grain', is now the most important among food crops and is the staple diet of the people. Its cultivation in the District is keeping pace with the increasing irrigation facilities. During the five years 1958-63 the acreage devoted to wheat averaged 316,411 as against 124,428 during 1948-53.

The production of wheat in 1960-61 was estimated at 205 thousand tons. The yield per acre at 1,346 Lbs. is, quite good as compared with some other Districts but much lower than what some other countries produce.

Rice.—Next to wheat, rice occupies the largest area among the cereals. Its cultivation is also increasing with the spread of irrigation in the District. The area devoted to it increased from, 8,033 acres during 1948-53 to 42,396 acres during the quinquennium 1958-63, registering a five fold increase. The water-logged areas of Hansi Tahsil and swampy areas along the Ghaggar river bed in Sirsa Tahsil are mostly devoted to rice cultivation.

The rice crop of the District was estimated at 29 thousand tons (in terms of paddy) in 1960-61. Hissar does not occupy a prominant position in rice cultivation for which Karnal leads other Districts.

Other grains.—Barley was sown over an area of 73,311 acres during 1960-61 in the District. More than 2/3rd of the area under this crop was in Sirsa Tahsil alone. Its production in 1960-61 was 19 thousand tons.

Bajra is cultivated mostly in Bhiwani, Hissar and Fatehabad Tahsils, but with the spread of canal irrigation, its acreage has declined. In 1950-51, it occupied 983 thousand acres in the District and in 1961 only 689 thousand acres.

Jowar is cultivated chiefly in Hansi, Hissar and Bhiwani Tahsils. An area of 186 thousand acres was under this crop during 1960-61.

The cultivation of maize has increased from one thousand acres in 1951 to 19 thousand acres in 1960-61. It does well on irrigated lands, chiefly in Sirsa, Fatehabad, Hissar and Hansi Tahsils. In Bhiwani Tahsil, however, only 45 acres were devoted to this crop during 1960-61.

Gram.—The pulses grown in the District are gram, *moong*, *mash*, *moth* and *massar*. The most important of them all is gram and the area under it in the District is the highest among all the crops under foodgrains. It occupied 1,415,547 acres during 1960-61. Its production was estimated at 518 thousand tons during the same period. More than half the area under gram lies in Sirsa and Fatehabad Tahsils.

Fruits and vegetables.—Some 12 thousand acres in the District are devoted to vegetables and fruits (1958-63). Some fine orchards have been laid in Sirsa and Fatehabad Tahsils in recent years whereas a few already existed in Hansi and Hissar Tahsils.

Sugar-cane.—Sugar-cane is not an important crop in the District, with some 24,000 acres devoted to it in 1960-61. It is grown mostly on irrigated lands. There is no sugar mill in the District and as such the cane produced is converted into *gur*.

Condiments and spices.—Chillies is another cash crop, raised for the most part in Hissar and Hansi Tahsils.

Oilseeds.—Among oilseeds, rape and mustard are the most important occupying some 1½ lakh acres chiefly in Fatehabad and Sirsa Tahsils.

Cotton.—Hissar has, of late, started producing cotton in large quantity. The soil and climate of the District are suited for this crop and its cultivation has responded actively to canal irrigation. The area sown under

cotton in the District increased from 44 thousand acres during 1948-53 to 121 thousand acres in 1958-63. The increase has mostly been of the American cotton because of its long staple and suitability for the mills.

Cropping Pattern and Principal Crops.—Three systems of cropping are in vogue : *dofasli harsala, dofasli dosala and ekfasli harsala.*

Dofasli harsala is the practice of continous sowing the *rabi* and *kharif* without leaving the land fallow. It usually takes the form of maize in *kharif* followed by wheat, gram or fodder in *rabi.* If the *kharif* be cotton, it is followed by *senji* or *methra* in *rabi.* This rotation is common in irrigated areas. On some wells near the towns, sometimes three crops of vegetables or fodder are raised in a year.

The *dofasli dosala* system consists in taking two successive crops of *rabi* and *kharif* and then letting the land fallow for one full year. This system is practised on lands irrigated by canals and also on firmer *barani* lands, but it is not popular and is frequently upset by failure of rains.

The *ekfasli harsala* means one crop in a year, which is mostly the *rabi.* This practice is in vogue in *barani* areas. If the soil is pure sand, the crop sown is gram. If good soil lies under the sand, a mixture of wheat and gram is grown year after year, though at places *mash* may be grown in *kharif.*

Crop-mixtures.—Growing of mixed crops is a familiar feature particularly in *barani* tracts. Gram and wheat or barley and wheat seeds are sown mixed to provide against uncertainty of weather; if the rains favour, wheat comes up better but should the rains not favour, then at least gram or barley may be expected to bear a yield. A sprinkling of *sarson* is given in wheat fields ; *sarson* thus sown is removed early for fodder and wheat is allowed to grow in full strength. Melons are sown with cotton and removed before cotton plants shade the ground. It is a common practice to grow pulses which are short crops along with *kharif* cereals, *e.g.* maize and *mash, jowar* and *gowara, bajra* and *moong,* barley and *massar.*

Agricultural Machinery and Implements.—(Table 12-Part II)†—Mechanised cultivation is gaining momentum,. The District had 61 tractors, 37 oil engines with pumping sets. seven electric pumps in 1951 : the respective figures in 1961 are 940, 159 and 58. The shift to mechanised farming has received impetus from the rising prices of agricultural produce, and anxiety of big farmers to save their lands from tenants. Government provides loans and grants for the purchase of modern iron ploughs and tractors.

LIVESTOCK

Hissar has a name in the country for its Hariana breed of cattle which are compact animals. The bullocks of this breed are good for quick draft and the cows are fairly good milkers though with short lactation period compared with the Sahiwal cows. It is a dual purpose breed. For rich and heavy yields of milk, the Hissar buffaloes have earned a good name. Pioneer work appears to have been done in regard to cow breeding by the Sat Guru Sahibs of the Namdharies at Jiwan Nagar (Sirsa), Hissar. By constant efforts they have raised cows and bulls of very good breed and their cattle have won several prizes at the State and All-India levels.

We have seen earlier that cash crops rank fairly high in the agricultural economy of the District. The sale of animals to other states brings another handsome amount to the rural population.

The oxen of the villages in the *Nali* tract of Fatehabad and Sirsa have a special reputation. Table 11 *shows the number of animals in the District counted on eight occasions between 1920 and 1961. There are no regular pastures in the District, except those maintained by the Government Livestock Farm but the areas around Ghaggar and the natural growth of grass on fallow lands all over the District provide good grazing during the monsoon season. For the rest of the year wheat and *bajra* straw and some cultivated green crops are the mainstay for the animals.

Cattle.—There was a mild decline in the number of cattle between 1923 and 1940, which was made up in subsequent years. The number of bulls and bullocks in general and of pedigree bulls in particular has considerably increased. The number of breeding bulls increased from 1,407 in 1923 to 3,092 in 1961.

Buffaloes.—Because of its richer milk the buffalo finds favour with the farmer since he can then have ample *lassi* and butter. Besides, the buffalo stands stall feeding much better than the cow. The number of buffaloes has consequently shown a steady increase; it almost doubled between 1920 (154,747) and 1961 (314,898).

Horses, ponies and mules.—Hissar is not a horse breeding District and with the speedier modes of travel coming in vogue, the equine population has been dwindling. Their number was 10,776 in 1920 and 5,612 in 1960. The Muslims at a few places in the District used to keep horses, but after Partition they left the country *enbloc.*

†Page 71. *Page 70.

Sheep and goats.—These animals are kept all over the District but their number declined form 418,217 in 1945 to 235,458 in 1961. Most of the rearers before Partition were Muslims, who have left the country, and this avocation has not been taken up with zeal by those who were left behind or who settled here from Pakistan.

Camels.—Camel is the most important and useful animal in the District. It is employed and has aptly been described as the ship of the desert for riding and carrying loads, and where there is lighter soil, also for ploughing. They are also yoked before the carts. Camel is a rough forager and can subsist on any shrubs and can sustain any amount of heat and drought. The *Rahbaries* rear camels and ply them for transport of goods. In 1961, there were 72,054 camels in the District of which 35,521 were in Sirsa Tahsil alone. Their present number is three times what it was in 1940 (26,149).

Bullock carts.—The number of carts, mostly driven by bullocks, increased from 20,824 in 1951 to 50,290 in 1961. The carts are a great help to the farmer in transporting agricultural produce; he has nothing to spend on traction, for his bullocks he has to keep in any case.

Animal fairs.—As stated above, Hissar District is important in the export of cattle and buffaloes. The bullocks go mostly to Uttar Pradesh and cows and buffaloes to Bombay and Calcutta. Besides, the export of animals effected by specialised dealers who have links both in the District and the centres outside, the Government Livestock Farm, the *Zila Parishad* and some Block *Samitis* and Municipal Committees organise cattle fairs, which are attended in large number by sellers and buyers.

Animal fairs are held annually, bi-annually or even quarterly at fourteen places in the District. The biggest fair is that of Hissar held at the Government Livestock Farm and the next in importance are those held at Sirsa, Fatehabad, Hansi and Bhiwani. The venues of other fairs are: Khaja Khera, Kelnian, Mandi Dabwali, Bhattu Kalan, Tohana, Uklanamandi, Berhaloo, Sewan and Loharu.

GOVERNMENT LIVESTOCK FARM, HISSAR

The Government Livestock Farm, the biggest of its kind in Asia, is situated near the town of Hissar. The history of the farm dates back to 1813 when it was started as a private camel stud by Major Livingstone, an English agent for the supply of camels for Government transport. In 1873 Government took over its control and management.

Cattle breeding was introduced in 1815 with a view to produce draught bullocks for the artillery. In 1816 horse breeding was also introduced to supply horses to the army but this was discontinued in 1848. In 1903 mule breeding was taken up for supply to the army, but in 1928 this work was discontinued.

The Punjab Civil Veterinary Department (now known as Animal Husbandry Department) took over this Farm in 1899 on an understanding that it would continue supplying mules and bullocks to the army. A policy for the breeding of pedigree bulls for the furtherance of cattle wealth was also adopted. The bulls thus issued were prized and this helped in tempting the breeders to popularise Hissar Farm bulls later known as 'Hissar Breed'. It was also recognised as such by the All-India Cattle Show Committee.

Goat and Bikaneri sheep breeding were taken up by the Farm in 1928. A new breed of sheep known as the Hissar dale was evolved by crossing local Bikaneri eves with the marino rams. This breed is very popular both in the hills and plains.

After Partition the breeding of the Murrah buffaloes and Sahiwal cows was also added to the functions of the Farm, and pedigree bulls of these breeds were issued to selected breeders.

Pig breeding is a recent introduction to this Farm. The object is to issue Farm-bred Yorkshire bores and sows to the breeders so as to improve the breeding potentialities of the local breed and thereby enhance their market value.

The Farm has now an area of 27,959 acres spread over a number of villages. Irrigation facilities are provided by the Western Jamuna and Bhakra Canals to a limited area and need for additional facilities is felt.

The strength of the livestock has been varying from year to year, and it stood at 8,480 heads at the end of 1964. Detailed figures are given below.—

	Hariana	Sahiwal	Total
(1) *Kines*—			
Cows	1,654	109	1,763
Bulls	45	9	54
Male Produce	1,201	165	1,366
Female Produce	1,286	125	1,411
Others	455	2	457
Total	**4,641**	**410**	**5,051**
(2) *Murrah Buffaloes*—			
She buffaloes			125
Male Produce			88
Female Produce			126
Bulls			4
Others			6
Total			**349**
(3) *Sheep and Goats*—			
Hissar Dale sheep			204
Bikaneri sheep			664
Lohi sheep			217
Nali sheep			1,067
Beetal Goats			608
Total			**2,760**
(4) *Others*—			
Horses			31
Donkeys			56
Camels			6
Pigs			227
Total			**320**
Grand Total			**8,480**

B—INDUSTRIES

The District has made rapid progress in the industrial field since independence. The industrial units are of different types and are located chiefly at Hissar, Bhiwani, Hansi, Dabwali and Sirsa.

At the time of 1961-census the workers in household industry and manufacturing counted 43,763 persons. (Table B-I, Part III)*. The number of registered factories in 1951 was estimated at 33 which rose to 82 by the end of the First Plan and to 96 during the Second Plan. A glance at Tables 13† and 14‡ of Part II will show that industry in the District is expanding and becoming more diversified. The more important industries of the District are described below :—

Cotton Spinning and Weaving.—The Hissar Textile mills at Hissar was set up in 1955 by the Delhi Cotton and General Mills at a cost of Rs. 170 lakhs. This mill produces only cotton yarn on 18,720 spindles and gives employment to 1,122 persons. There are two large scale composite weaving mills at Bhiwani under the name of 'The Punjab Cloth Mills' and "The Technological Institute of Textile," both managed by M/s Birla Brothers. The former was set up in 1938 and the latter in 1943. Their total investment amounts to Rs. 146 lakhs. These mills are equipped with 36,554 spindles and 853 power looms, and their requirement of cotton is stated to be 22,086 bales. They employ about 3,000 workers.

Cotton ginning and pressing.—Next to Ferozepur, Hissar District is the largest producer of long-staple cotton of good quality. Cotton ginning and pressing is a very old industry of the District and has bright prospects of development and expansion. At present there are 34 factories exclusively engaged in cotton ginning and pressing, besides 41 composite units, chiefly at Hansi, Mandi Dabwali, Hissar, Kalanwali, Fatehabad, Adampur and Uklana.

Gram dal milling.—Sirsa and Fatehabad Tahsils are famous for bulk production of gram. There are 25 *dal* making concerns located mostly at Hissar, Sirsa, Kalanwali and Fatehabad, sending a bulk of their production to Madras and West Bengal States.

Rice husking.—Paddy is cultivated mainly in Sirsa Tahsil. Three concerns at Sirsa and one at Tohana, set up during the decade 1951-61, are engaged in rice husking. There are no rice shellers in the District and the units are equipped with only rice bullers. The quality of rice is reported to be inferior.

Oilseeds crushing.—This industry is carried on mainly in composite units, numbering 47 in the District which run on diesel oil and electricity and are located mostly at Hissar.

Flour milling.—In the urban areas of the District 128 units grind wheat for customers on work-charge basis.

Handloom industry.—Before Partition there were about 200 looms installed at Hansi. Thereafter the Industry received a serious set-back owing to the migration of Muslim weavers. The deficiency was, however, made up by the displaced persons taking to this crafts, trained by local manufacturers and training institutions run by the Industries Department. In all about 600 looms are installed in the urban areas of the District. The industry is mainly localised at Hansi where there are about 20 registered units.

Bobbin manufacturing.—One registered concern manufactures bobbins at Bhiwani. This industry came into existence during the World War II when their import from other countries became difficult. The concern produces some 1,250 gross of bobbins with the help of 13 workers.

Hosiery and thread balls.—One concern started production of hosiery goods at Hissar in 1955. It is equipped with two round knitting machines, three sewing machines, one calendaring plant, one sock making machine and other equipments, in all costing Rs. 10 thousand.

A cottage unit for thread balls manufacturing was set up at Hansi in 1948. It is equipped with one tube winding electric machine and one electric motor. It produces 800 dozens of thread ball tubes in a year.

Utensils making.—Utensil making is an important cottage industry at Bhiwani where 32 cottage units work with about 100 persons. The metal sheets are supplied by the local merchants to the artisans who work for wages. Due to paucity of funds, the *thatheras* are not in a position to take up the manufacture of utensils independently. There appears to be a good scope for organising the industry on co-operative lines. Four shops having in all nine workers produce *huqqa* (hubble bubble) at Sirsa.

Glue and Gum making.—M/s Indian Manufacturing Company at Hissar produces glue. The annual production is estimated at one thousand maunds. The industry is limited to about 4-5 months in a year. The 'Gum

*Page 178. †Page 72. ‡Page 73.

and Guar Factory' at Bhiwani turns out gum and other products from *guara*. This concern is managed by M/s Birla Brothers.

Manufacture of pipes.—M/s Jindal India Private Ltd. are the only manufacturers of steel pipes on large scale in the State. They established a factory at Hissar in 1960. Their production was 12,000 tonnes of steel pipes and tubes during 1963-64. They are giving employment to about 350 workers.

Punjab Iron and Steel Works.—With a view to utilising the available raw material in the neighbouring Mahendragarh District, a proposal to set up a pig iron plant in the public sector is under the consideration of the State Government. The site of the works will be village Satrod, seven miles from Hissar, and 186 acres of land has been acquired for this purpose. The production will start by the end of the Fourth Plan.

Iron and Steel Rolling industry.—Some 13 concerns mostly at Hissar, Hansi and Bhiwani are engaged in manufacturing diesel engines, agricultural implements and hardware goods.

Salt-peter refining.—Three salt-peter units extract salt-peter by indigenous method of crystalisation at Fatehabad.

Kala Namak Manufacturing.—There are two small concerns engaged in the manufacture of *kala namak* used in medicines at Bhiwani. Their output during 1960-61 was worth about Rs. 25,000.

Industrial Estates.—The object of industrial estates is to help the small-scale industrialists by providing them factory buildings of standard design and fitted with electric power and water connection. The immediate availability of ready-made factory building on rent or hire-purchase basis reduces the time-lag between the planning and starting of industries and also saves the entrepreneurs from the blocking of their capital in land and building. The establishment of industrial estates also checks haphazard growth of industries in town and avoids the creation of industrial slums. The common Facility and Development Centres, which form part of the Estates, further assist the entrepreneur by providing them technical know-how standardising their production. Government has decided to establish shortly an Industrial Estate each at Barwala, Fatehabad, Hansi, Tohana and Loharu.

Financial assistance.—To provide financial assistance to small entrepreneurs, loans and subsidies are being granted under the Punjab State Aid to Industries Act, 1935. During the year 1963-64, a sum of Rs. 185,450 was disbursed for this purpose. In addition, a sum of Rs. 60,000 was given to goldsmiths under the "Rehabilitation of Goldsmiths Scheme".

C—TRADE AND COMMERCE

The location of and commodities chiefly dealt with in the ten regulated markets in the District are shown below :—

Market	Main Agricultural produce
Mandi Dabwali	Gram, cotton, wheat, *sarson*, barley and *taramira*.
Kalanwali	Gram, cotton, *guara*, *gur* and *bajra*.
Sirsa	Gram, paddy, *gur*, *taramira*, wheat and cotton.
Jakhal	Gram, *taramira*, wheat and barley.
Tohana	Gram, *taramira*, wheat and barley.
Uklana	Gram, *sarson*, *bajra*, *guara* and wheat.
Hissar	Gram, *gur*, *taramira*, *bajra*, wheat, cotton, *moong*, potatoes, onions and *toria*.
Hansi	Gram, wheat, cotton, *sarson*, *gur* and potatoes.
Bhiwani	*Guara*, wheat, gram and *bajra*.
Loharu	Wheat, *moong*, gram and *bajra*.

Gram is the main export from the District, sent as far as Madras State. The principal imports into the District are salt, coal, gunny bags, kerosene, iron and steel, machinery and raw material for various industries.

D—COMMUNICATIONS

The District is well served with roads and better still with railways. But for a few small areas, transport position is easy, and the same holds good about post and telegraph facilities.

Railways.—Three sections of railway lines operate in the District. The Rewari-Bhatinda metre-gauge line runs right across the district through all the Tahsils for a length of 122 miles. Important stations on this

line are Bhiwani, , Bawani Khera, Hansi, Hissar, Adampur, Bhattu Kalan, Kalanwali and Sirsa. The Ludhiana-Hissar broad-gauge line serves the Hissar Tahsil with Jakhal and Tohana as the important stations on it. It runs through the District for 52 miles. The Hissar-Sadulpur railway line connects the District with important stations in Rajasthan.

There are 32 railway stations in the District, and they are listed in Table 35* of Part II.

Roads.—(Table 33 Part II)† The post-partition period has seen considerable expansion in roads in the District, as the following figures show :—

Year	Road Mileage		
	Total	Metalled	Unmetalled
1950-51	1,091	240	851
1960-61	1,416	731	685

Only Kangra District in Punjab has a longer road mileage (1,483 miles) than Hissar. Even in trms of area, Hissar enjoys quite good position there being a mile of road for 3.8 square miles area.

The Delhi-Hissar-Sulemanki National Highway has a strip of 126 miles in the District, connecting Hansi, Hissar, Fatehabad and Sirsa. The important State Highways are the Rajgarh-Hissar road, Hissar-Barwala road and Bhiwani-Loharu road. Besides, there are Major and Minor District roads maintained by the Public Works Department, and link roads connecting towns and villages with the bigger roads.

Road Transport.—The number of various kinds of motor vehicles registered in the District showed a phenomenal increase from 149 in 1951 to 492 in 1961.

There is no regular aerodrome in the District.

Water-ways.—There are no navigable rivers in the District, and only 2 miles of the Hansi branch of the Western Jamuna Canal and a strip of the Hissar Major Distributory above Rajthal are navigable, which are not made much use of. A few ferries across the Ghaggar river are used in times of floods.

Post and Telegraph (Table 34-Part II)**.—These facilities have expanded considerably since Partition, and by 1961 there were 290 post offices in the District, as detailed below :—

Tahsil	Number of Post Offices
Sirsa	73
Fatehabad	40
Hissar	62
Hansi	68
Bhiwani	47
Total	**290**

On an average there is a Post Office for every 4 villages or for every 18 square miles. The Post is delivered daily in 581 villages, and tri-weekly, bi-weekly, and weekly in other villages.

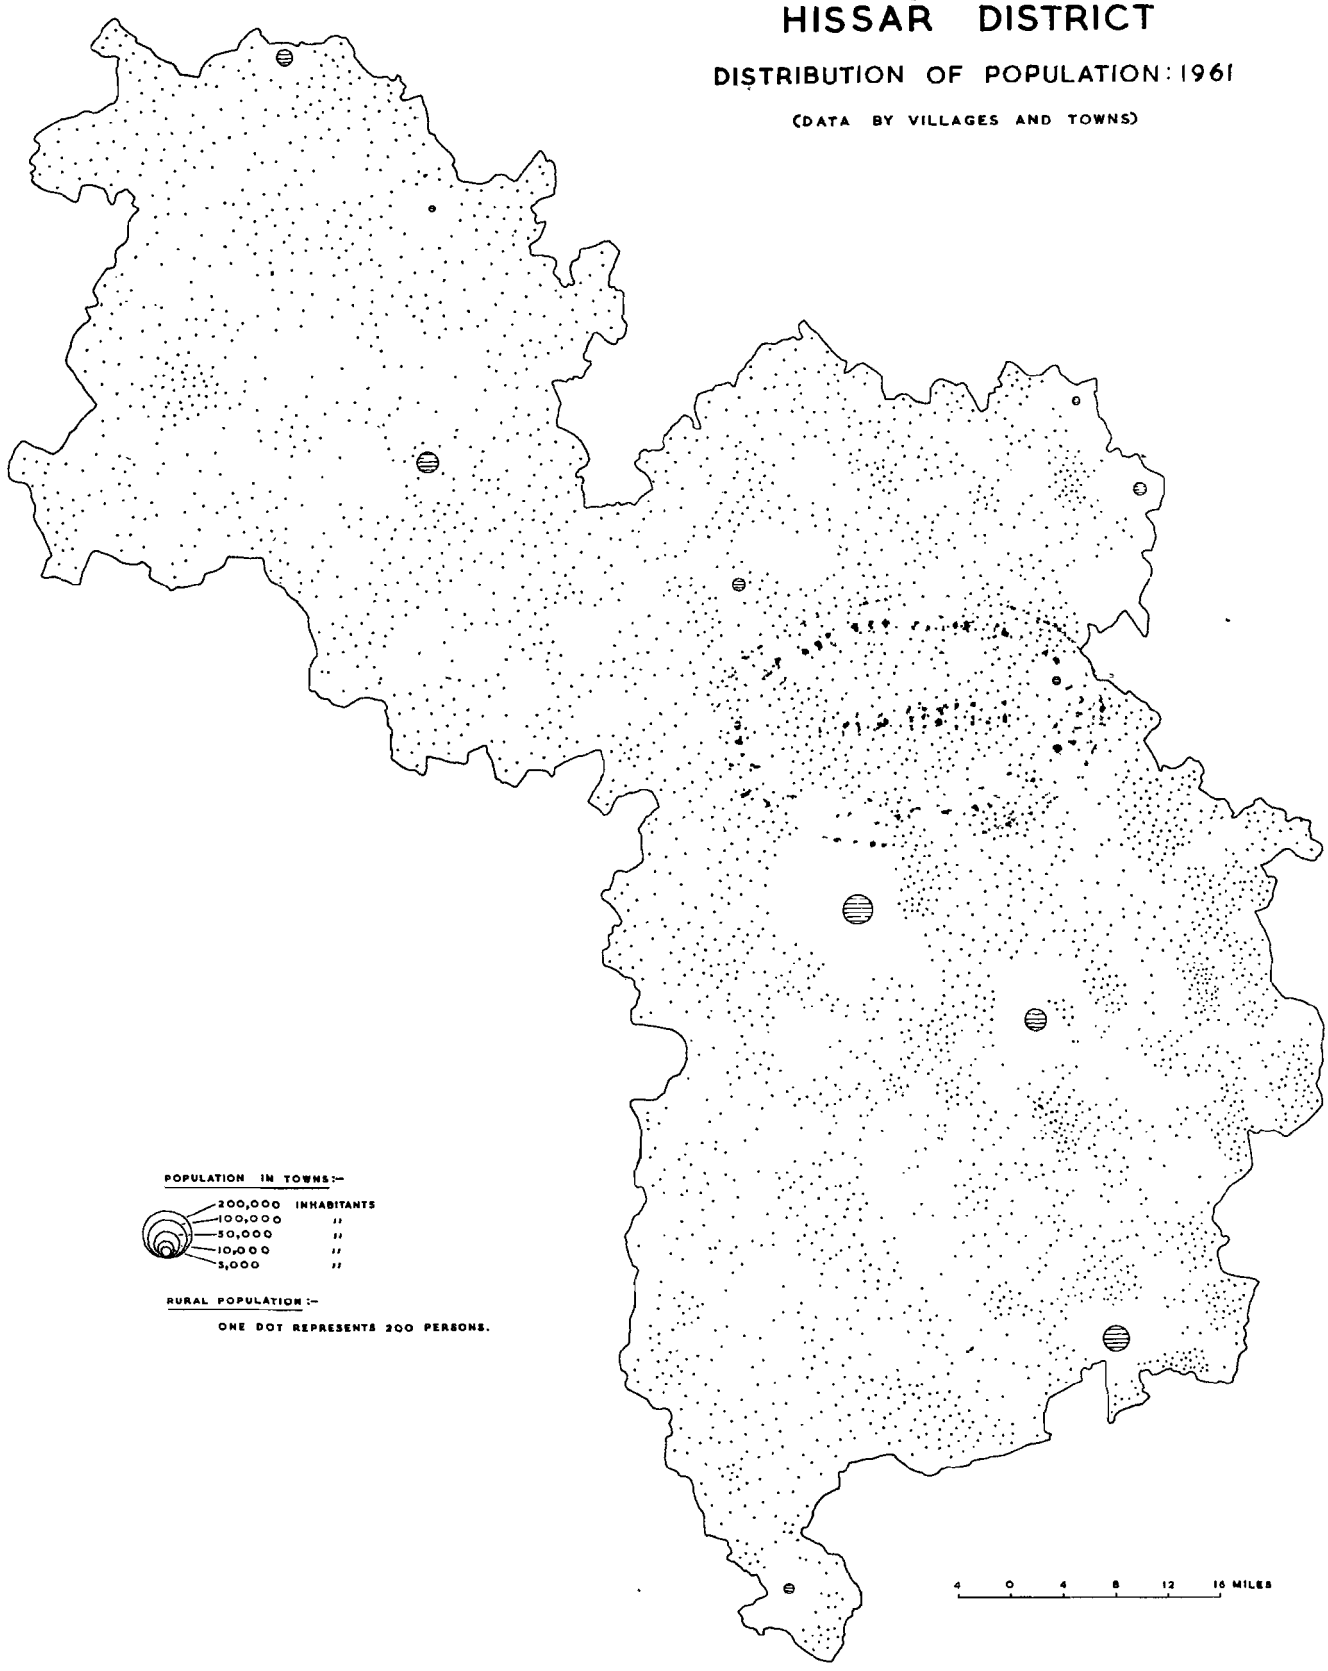

There was no telephone exchange in the District in 1910 and telegraph facilities were available only on railway stations which could be utilised by the public. There was also a telegraph line on the canal from Badopal to Delhi via Hissar. This line was not open to the public. The only direct telegraph communication existed between Bhiwani and Rohtak. But 18 regular telegraph offices functioned in the District in 1962. The position with regard to telephone exchanges has also imporoved considerably.

*Page 90. †Page 87. ** Page 89.

HISSAR DISTRICT

DISTRIBUTION OF POPULATION: 1961

(DATA BY VILLAGES AND TOWNS)

CHAPTER III

POPULATION

Part III of this book is devoted to Tables relating to the 1961-census. They are preceded by an exhaustive note explaining their arrangement and the terms used. A few facts thrown up by these statistics are stated below.

Area.—The Hissar District, covering 5,363.3 sq. miles (13,890.9 sq. km.) is composed of five Tahsils : Sirsa (1,638.6), Fatehabad (919.2), Hissar (1,022.7), Hansi (806.5) and Bhiwani (976.3) (Table A-I*).

On the sunrise of the 1st March, 1961, the District had 1,540,508 persons ; 827,658 males and 712,850 females. Hissar ranks second among Punjab Districts in population.

Growth of population.—During sixty years (1901-1961) the population increased by 97.2 per cent. Punjab as constituted at present showed an increase of 53.1 per cent during this period.

The rates of decennial increase since 1901 are placed below side by side for Hissar and Punjab. It will be seen that in four out of six decades the increase was faster in Hissar than in the State as a whole.

Decade	Percentage decade variations	
	Hissar	Punjab
1901—11	(+)3 ·35	(—)9 ·96
1911—21	(+)1 ·58	(+)4 ·35
1921—31	(+)9 ·97	(+)9 ·64
1931—41	(+)11 ·93	(+)17 ·81
1941—51	(+)3 ·58	(+)0 ·21
1951—61	(+)47 ·33	(+)25 ·86

The population during 1901-1911 increased by 3.35 per cent in the District whereas it decreased in the State as a whole. However, the pace was retarded during 1911-21, and this may be attributed, to some extent, to the large number of deaths from plauge,, fever and influenza. The decades 1921-31 and 1931-41 were comparatively healthy. The decade 1941-51 bore the holocaust of unprecedented communal trouble and mass migration in the wake of Partition. The local Muslim population migrated to Pakistan from the District was larger in number than the immigrating non-Muslims. Even then the 1951 figures show an increase of 3.58 per cent in the population. The years 1951-61 were free of diseases and health measures taken by the Government considerably reduced the death rate while birth rate remained almost unchanged. Also during the last decade large number of peasants from Amritsar and Ferozepur District and ousties from Bhakra-Nangal area shifted to Hissar District and settled particularly in Sirsa and Fatehabad Tahsils where the population has increased by 68 and 61 per cent respectively. That is why the year 1961 witnessed an increase of 47.33 per cent over the figures of 1951 for District as a whole.

Density of population.—Punjab as a whole has 429 persons to a square mile with Jullundur as the most thickly populated (914) and Lahaul & Spiti as the sparsest (6) Districts. The number of persons per square mile in Hissar District works out to 287, giving it 17th position among the 19 Districts in the State. Out of five Tahsils constituting the District, the highest density was recorded in Hansi which supports 403 persons on a sq. mile. This is mainly because of large scale irrigation facilities available in this Tahsil for the last many years. The lowest density was recorded in Sirsa which supports 226 persons per square mile and next to it come Fatehabad with 255 persons and Bhiwani 271 persons per square mile. With the coming of Bhakra Canal in Fatehabad and Sirsa Tahsils the density of population is likely to increase in the years to come. The low density in Bhiwani Tahsil may be attributed mainly to scarcity conditions.

There is a smaller gap in the density of human population as between the urban and rural areas of Hissar District than in the Punjab as a whole. The mean density of population is 429 persons per square mile ; 346 in rural areas and 9,476 in urban areas. The corresponding figures for Hissar District are 287, 244 and 8,035 respectively.

Villages.—The District has in all 1,065 villages of which 32 are uninhabited (*be-charag*). In Sirsa Tahsil alone there are 14 uninhabited villages, mostly in the *bet* area. (Table A-I* and A-III†)

Out of 72 villages in the District having less than 200 persons 22 are located in Sirsa Tahsil alone.

The number of persons per inhabited village works out to 1,258 in the District as compared to 763 for the villages in the State as a whole. The villages in Hansi Tahsil are big units with 2,223 persons per village whereas the

*Page 173. †Page 176.

villages in Sirsa and Bhiwani Tahsils are comparatively smaller units with an average population of 1,022 and 989 persons respectively. The average population per village in Fatehabad and Hissar Tahsils is 1,259 and 1,265, respectively.

There are two villages with population of 10,000 and above and 16 villages with population between 5,000 and 9,999 in the District. 159 villages have population between 2,000 and 4,999 whereas 296 villages have population between 1,000 and 1,999. The village Pabra in Tahsil Fatehabad has the highest population (11,738) among the villages in the District.

Towns.—In Table A-IV* particulars are given of the eleven towns in the Hissar District.

There is no Class I town (population one lakh and above) in the District. There are two Class II towns (population ranging between 50,000 and 99,999) ; these are Hissar (60,222) and Bhiwani (58,194). The town of Hissar has shown 70.6 per cent increase during the decade 1951-61.

The two Class III towns (population ranging between 20,000 and 49,999) are Hansi and Sirsa, with 33,712 and 33,363 persons, respectively. Both the towns showed more than 30 per cent increase in population during the last decade.

Among Class IV towns (population ranging between 10,000 and 19,999) there are three: Mandi Dabwali, Fatehabad and Tohana. This class of towns and particularly Fatehabad has also shown a remarkable growth during 1951-61.

There is no Class V town (population ranging between 5,000 and 9,999) in the District. However, there are four Class VI towns (population less than 5,000). These are Loharu (4,465), Kalanwali (4,079), Uklanamandi (3,588) and Jakhalmandi (3,138). The town of Uklanamandi has been treated as such for the first time in 1961-census.

The towns in Hissar District are generally less congested, there being 8,035 persons per square mile in comparison with 9,476 in Punjab towns as a whole.

In the District 84.4 per cent of the population lives in villages and 15.6 per cent in towns as against 79.9 per cent and 20.1 per cent, respectively, for the State as a whole.

Sex Ratio.—Out of a total population of 1,540,508 of the District, 827,658 are males and 712,850 are females, i.e., a proportion of 53.73 : 46.27.

In Punjab there are 864 females per 1,000 males which is the lowest figure among the States in India: the corresponding figure for the Indian Union is 941. In the District there were 861 females per 1,000 males in 1961.

Compared with 1901, the number of women showed a decline when compared to men, whereas in the State, as a whole their number has increased. This may be due partly to men coming to the District for work in agriculture. The sex ratio for the seven census years are given below :—

	FEMALES PER THOUSAND MALES	
Year	Hissar	Punjab
1901	871	848
1911	837	807
1921	877	821
1931	855	830
1941	878	850
1951	864	858
1961	861	864

*Page 177.

Among the five Tahsils, Hansi leads with 883 females per 1,000 males followed by Bhiwani (877), Fatehabad (858), Hissar (850), and Sirsa (845).

The sex ratio for the rural areas of the District works out to 865 and for urban areas 843: the corresponding figures for 1951 were 866 and 854.

Age Composition.—In Table C-II*, the 1961 population of the District is distributed in various age groups. With a view to comprehend the comparative strength of these groups, a Table is given below.

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age group	Total Populaion			Rural		Urban	
	Persons	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0— 9	334·44	323·66	346·94	327·49	349·99	303·24	330·31
10—14	123·94	122·06	126·11	122·64	126·89	118·99	121·85
15—19	83·28	86·05	80·08	84·04	79·32	96·77	84·21
20—24	79·36	77·14	81·93	74·67	80·50	90·31	89·73
25—29	76·87	75·92	77·97	75·27	77·84	79·39	78·71
30—34	61·29	60·38	62·34	59·77	62·06	63·65	63·85
35—39	47·51	47·92	47·03	47·47	46·34	50·36	50·78
40—44	48·42	49·44	47·23	49·20	47·03	50·68	48·34
45—49	35·76	38·29	32·84	38·31	32·67	38·16	33·75
50—54	37·19	40·41	33·45	40·66	33·45	39·09	33·46
55—59	18·16	20·30	15·68	20·63	15·75	18·55	15·35
60—64	24·13	25·61	22·41	25·96	22·23	23·72	23·36
65—69	9·83	11·26	8·18	11·64	8·07	9·22	8·73
70+	19·08	20·83	17·05	21·62	17·19	16·62	16·27
Age not stated	0·74	0·73	0·76	0·63	0·67	1·25	1·30

Too much reliance cannot be placed on the inferences to be drawn from the figures in the above Table since a District is a small geographical area and inflow and outflow of population as a disturbing factor cannot be ignored. With this reservation some inferences are given below :—

The age pyramid has a broad base and tapers rather obliquely. 334 persons per 1,000 of the population are below the age of 10 and only 71 of age 55 years and above. Roughly speaking four out of every ten persons are below the age of 15, five in the groups 15 to below 55 and only one past the age of 55.

*Page 248.

The age span of females is smaller than of the males. Males below the age of 15 years are 446 per thousand males whereas the corresponding figure for females is 473. In ages between 15 and below 55 years, the males count 475 per 1000 males but the women are 463. In ages 55 years and above the males are 79 and females are only 64. The girls in rural areas unfortunately still do not receive the same care as boys and after the marriage they have the extra handicap of maternity troubles and stress of domestic life.

It is generally observed that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their native villages. When past the age of useful work, some among them return to their villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to 54 and 55 and above, the distribution among the males in rural areas is 450, 469 and 81 and in urban areas 422, 509 and 69, respectively. The corresponding figures for females in rural areas are 477, 459 and 64 and for urban areas 452, 483 and 65.

In Table C-II,* persons in different age groups are further classified according to marital status. To comprehend the significance of these figures, 1,000 males and 1,000 females for the District for urban and rural areas are distributed according to their marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	TOTAL		RURAL		URBAN	
	Males	Females	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000	1,000	1,000
Never married	565·8	481·9	566·5	480·8	562·3	487·8
Married	391·3	450·7	388·9	453·2	403·7	437·2
Widowed	42·6	66·9	44·3	65·6	33·4	74·2
Divorced or separated	0·2	0·3	0·2	0·3	0·3	0·4
Unspecified status	0·1	0·2	0·1	0·1	0·3	0·4

It will be noticed that in the District as a whole some 57 per cent of the males and 48 per cent of the females are unmarried. The higher proportion of unmarried males is due to the shortage of females. Correspondingly there is a higher proportion of the married among females (45 per cent) than among the males (39 per cent).

The proportion of married males is slightly higher in urban areas (40 per cent) than in rural areas (39 per cent) but the proportion of married females is slightly higher in villages (45 per cent) than in towns (44 per cent).

Marriage in this country is universal and there is always an explanation for an old bachelor and spinster. In the Table given on the opposite page unmarried males and females are classified according to age.

*Page 248.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	NEVER MARRIED			
	RURAL		URBAN	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0— 9	578·14	727·94	539·33	677·11
10—14	199·76	207·08	207·78	236·44
15—19	105·68	54·44	137·76	72·42
20—24	48·17	5·79	73·25	9·37
25—29	23·85	1·30	18·03	1·37
30—34	14·11	0·44	6·17	0·41
35—39	6·57	1·33	3·62	0·20
40—44	6·12	0·10	3·63	0·17
45—49	4·41	0·07	2·24	0·07
50—54	4·25	0·09	2·22	0·04
55—59	2·09	0·04	1·05	0·04
60—64	2·65	0·08	1.35	..
65—69	1·20	0·02	0·38	..
70+	2·00	0·07	1·01	..
Age not stated	1·00	1·21	2·18	2·36

From the above Table it can be observed that there are only 29 males per thousand males who are past the age of 34 and only 9 spinsters per thousand females who are past the age of 19 years in rural areas. The corresponding figures for urban areas are 16 and 12, respectively.

Growth of literacy.—Percentage of literate persons in the District is shown below since 1901. Figures have been worked out after excluding population below the age of 5 years.

Year	Total	Males	Females
1901	3·02	5·49	0·15
1911	3·00	5·29	0·20
1921	3·14	5·57	0·31
1931	3·92	6·76	0·50
1941	8·34	13·52	2·36
1951	11·98	19·41	3·07
1961	21·17	31·32	9·13

The literacy increased more than seven folds as between 1901 and 1961. The improvement has been more pronounced after freedom.

Three Tables labelled as C-III* give information on literacy by age groups, sex and educational level in rural and urban areas of the District in 1961. The position is summarised below :—

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

	HISSAR DISTRICT						PUNJAB					
	TOTAL		RURAL		URBAN		TOTAL		RURAL		URBAN	
	M	F	M	F	M	F	M	F	M	F	M	F
Total	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000
Illiterate	687	909	743	952	395	680	611	831	681	896	346	569
Literate	313	91	257	48	605	320	389	169	319	104	654	431
Literate without educational level	148	50	134	31	222	153	167	85	155	63	211	175
Primary or Junior Basic	130	36	105	16	261	141	166	70	137	38	276	200
Matriculation and above	35	5	18	1	122	26	56	14	27	3	167	56

Roughly speaking only one male out of three and one female out of eleven could read and write—the test adopted for literacy in 1961. Roughly half this number had schooling and only one male in 28 and one female in 200 had crossed the Matriculation level.

Villages have a considerable leeway to make in order to come up to the stage reached in towns. In the towns of Hissar District there are 605 per 1,000 males and 320 per 1,000 females who are literate but in villages they are as few as 257 and 48, respectively. This feature is common throughout the State where the literacy per 1,000 is 654 for males and 431 for females in towns and 319 and 104, respectively in rural areas.

Mother tongue.—(Table C-V)†.—Hindi is the dominant language of the District ; the distribution of population on the basis of mother tongue is shown below:—

DISTRIBUTION OF 1,000 PERSONS BY MOTHER TONGUE

	Number	Per thousand
Hindi	1,358,952	882.1
Punjabi	178,802	116.1
Multani	1,233	0.8
Urdu	818	0.5
Others	703	0.5

*Page 254. †Page 256.

Religion (Table C-VII)*.—Distribution per thousand persons in the District according to religion is shown below:—

DISTRIBUTION OF 1,000 PERSONS ACCORDING TO RELIGION

	Number	Per thousand
Hindus	1,374,258	892·08
Sikhs	152,719	99·14
Muslims	6,203	4·03
Jains	6,021	3·91
Buddhists	268	0·17
Christians	1,022	0·66
Religion not stated	17	0·01

The Hindus form 89 per cent of the total population and the Sikhs form 10 per cent. The Sikhs feature a little more prominently in Sirsa and Fatehabad Tahsils where they have settled in villages lying along the Bhakra Canal.

Place of birth.—Table D-II† throws light on migration, judged from the place of birth. The Table deals only with migration and does not take into account the persons who have gone out of the District. A three fold classification has been made in this Table in regard to the place of birth:—

(i) of males and females ;

(ii) their place of enumeration being an urban or a rural area ; and

(iii) their place of birth being a rural or an urban area.

To bring out the detailed features presented in the Table will take much space and will interest only a few readers. Hence only some broad features are mentioned below.

62.9 per cent of the people were born at the place where they were enumerated in 1961. Among the rural population this percentage works out to 65.7 and in urban areas to 47.9 per cent, denoting a higher degree of mobility in towns.

Among males as many as 75 per cent were born at the place they were enumerated as against 48.8 per cent in the case of females. The low figure for females springs from the extra factor of their leaving the ancestral home after marriage.

Another 14.5 per cent of the population was born at other places within the District. This percentage is 6.6 in the case of males and as high as 23.6 per cent in the case of females due mainly to the factor of marriage. Persons born in other Districts of Punjab formed 9.5 per cent of the population. Even in this group the percentage of females (12.5) is higher than males (6.7).

Among the Hissar population 4.1 per cent were born in other States of India, chiefly in Rajasthan and Uttar Pradesh. Foreign born persons in all counted 139,559, among them 139,214 were born in West Pakistan.

Scheduled Castes.—The 1961-census recorded 304,778 persons (162,423 males and 142,355 females) belonging to 29 Scheduled Castes, forming 19.8 per cent of the total population of the District. Among them the *Chamars* claimed the highest number (145,943). The next came *Dhanaks* (50,044), *Balmikis* (41,613), *Mazhabis* (20,412), *Ods* (15,035), *Bawarias* (8,782), *Bazigars* (8,223), *Khatiks* (3,341), *Dooms* (3,147) and *Sansis* (2,710).

*Page 258. †Page 260.

The 1951-census recorded 194,667 persons belonging to the Scheduled Castes in the District. There has, thus, been an increase of about 56.6 per cent in their number over the decade 1951-61. Neither the 1951-census nor the 1961-census recorded any person as belonging to the Scheduled Tribes in the District.

Of the 304,778 persons belonging to Scheduled Castes 17,145 persons (16,211 males and 934 females) or 5.6 per cent were literate.

Households (Tables B-X to B-XVII, C-I and SCT-V)*—Out of 1,540, 508 persons in the District, 6,045 were houseless (Table A-I, Appendix III)** such as members of the wandering tribes, tramps, *sadhus* and pavement dwellers. The remaining 1,534,463 persons lived in households. A 'household' has been defined as a person or a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so. The total number of households in the District was 258,742 at the time of 1961-census (Part II-A Report).

For studying the size and other characteristics of households a 20 per cent sample was drawn and analysed. In this sample, the persons living in institutions such as jails, orphanages, hospitals, hostels, boarding houses, Defence and Police personnel living in barracks or under canvas stands were excluded since such households do not function as economic entity. The number of sample households was 51,639 consisting of 304,580 persons, or 5.9 persons on an average per household. Households and their members are distributed below according to the size of households.

Size of Household	HOUSEHOLDS		PERSONS	
	Number	Percentage	Number	Percentage
Total	51,639	100·0	304,580	100·0
1 member	3,341	6·5	3,341	1·1
2—3 members	8,418	16·3	21,552	7·1
4—6 members	21,180	39·1	101,975	33·5
7—9 members	13,954	27·0	108,359	35·6
10 members and over	5,746	11·1	69,353	22·7

As many as 72.6 per cent of the households in the villages were engaged in cultivation (Table B-X)† in the capacity of peasant proprietors and tenants, but excluding such households as had let out their lands in entirety or worked merely as agricultural labourers. The households of peasant proprietors and tenants in rural areas are distributed below according to the size of their operational holdings.

Size of operational holdings	PER THOUSAND DISTRIBUTION OF HOUSEHOLDS	
	Hissar District	Punjab
Less than 1 acre	3·36	23·16
1·0— 2·4 acres	31·56	95·49
2·5— 4·9 acres	67·32	125·25
5·0— 7·4 acres	103·87	154·63
7·5— 9·9 acres	77·91	101·63
10·0—12·4 acres	111·11	130·11
12·5—14·9 acres	69·47	60·25
15.0—29·9 acres	319·96	217.47
30·0—49·9 acres	143·78	64·09
50·0+ acres	66·15	22·86
Unspecified	5·51	5·06

*Pages 222 to 244, 246 & 288. **Page 175. †Page 222.

The larger size of operational holdings in the District, as compared with the State as a whole, is brought out very clearly in the above Table. Small plots of less than one acre are almost negligible in Hissar (3.36 per 1000) as compared with the State (23.16 per 1,000). The percentage of holdings of the size one to 12.4 acres was 39 in Hissar as against 61 in the State. The holdings covering 12.5 to 50 acres was 60 per cent in Hissar whereas the corresponding figure for the State as a whole was 36. The larger size of holdings in Hissar is attributable to its comparatively sparse population and larger percentage of irrigated area.

Workers and Non-workers.—In Table B-I* the population is distributed into the main nine industrial categories of workers, and non-workers. The terms are explained in the note appearing before the census tables (Part III of this book). Figures in terms of 1,000 population are given below:—

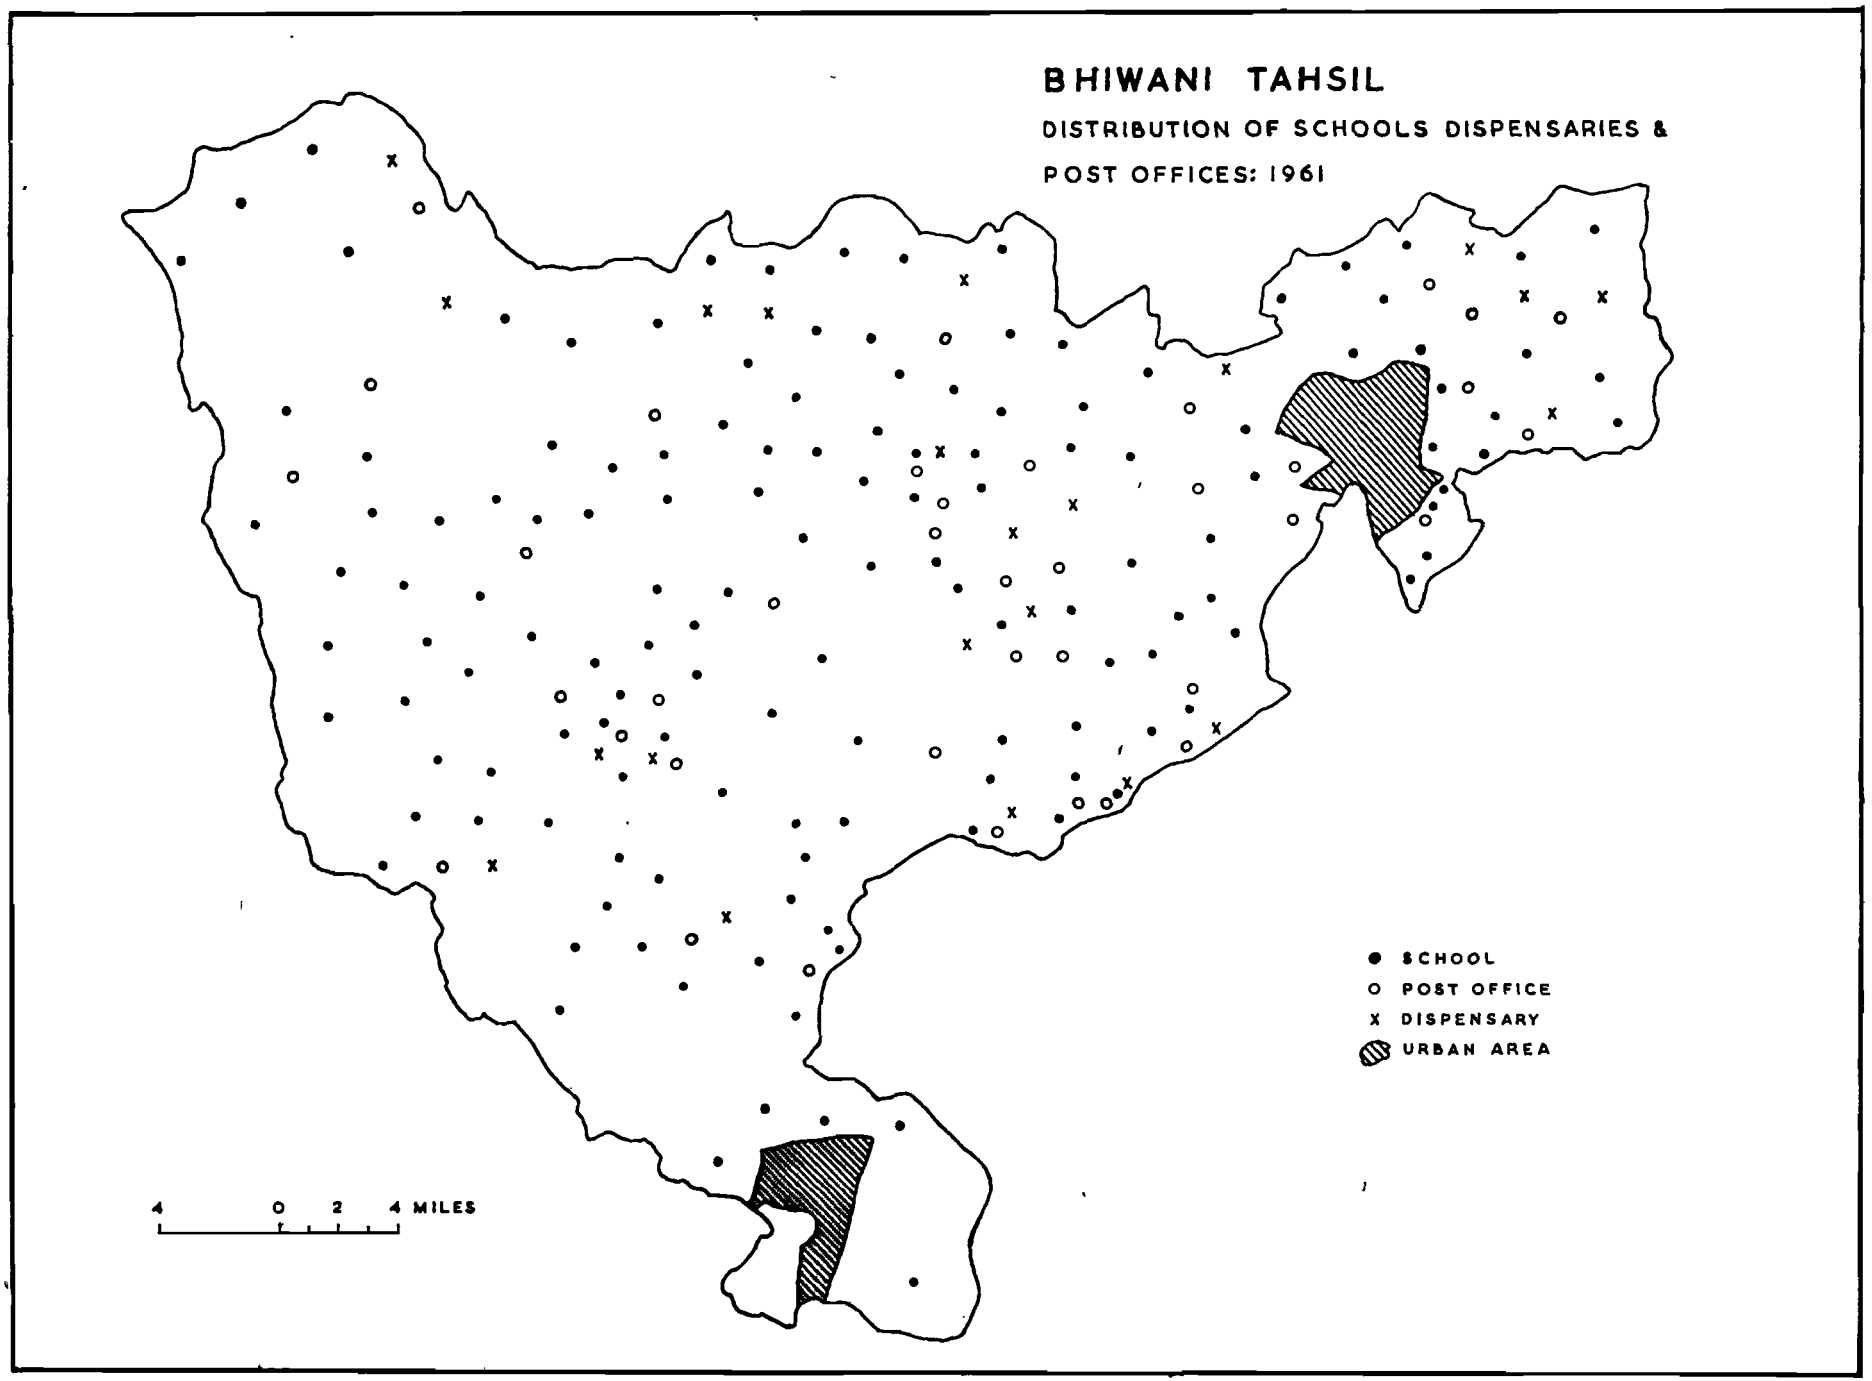

DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY

Industrial category	HISSAR DISTRICT			PUNJAB		
	P	M	F	P	M	F
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-workers	581	449	733	650	471	858
Workers	419	551	267	350	529	142
Cultivators	306	368	234	197	274	107
Agricultural Labourers	27	41	11	27	44	6
In Mining, Quarrying, etc.	2	3	N	3	6	1
At Household Industry	16	24	9	27	39	13
In Manufacturing	12	21	2	17	31	2
In Construction	6	10	1	7	12	1
In Trade & Commerce	18	32	1	19	35	N
In Transport	4	8	N	7	13	N
In Other Services	28	44	9	46	75	12

In Hissar, 419 persons per thousand are engaged in economic pursuits. Among males the workers are 551 per thousand and among the females 267. Hissar has a higher proportion of workers to total population than the State as a whole, both among males and females.

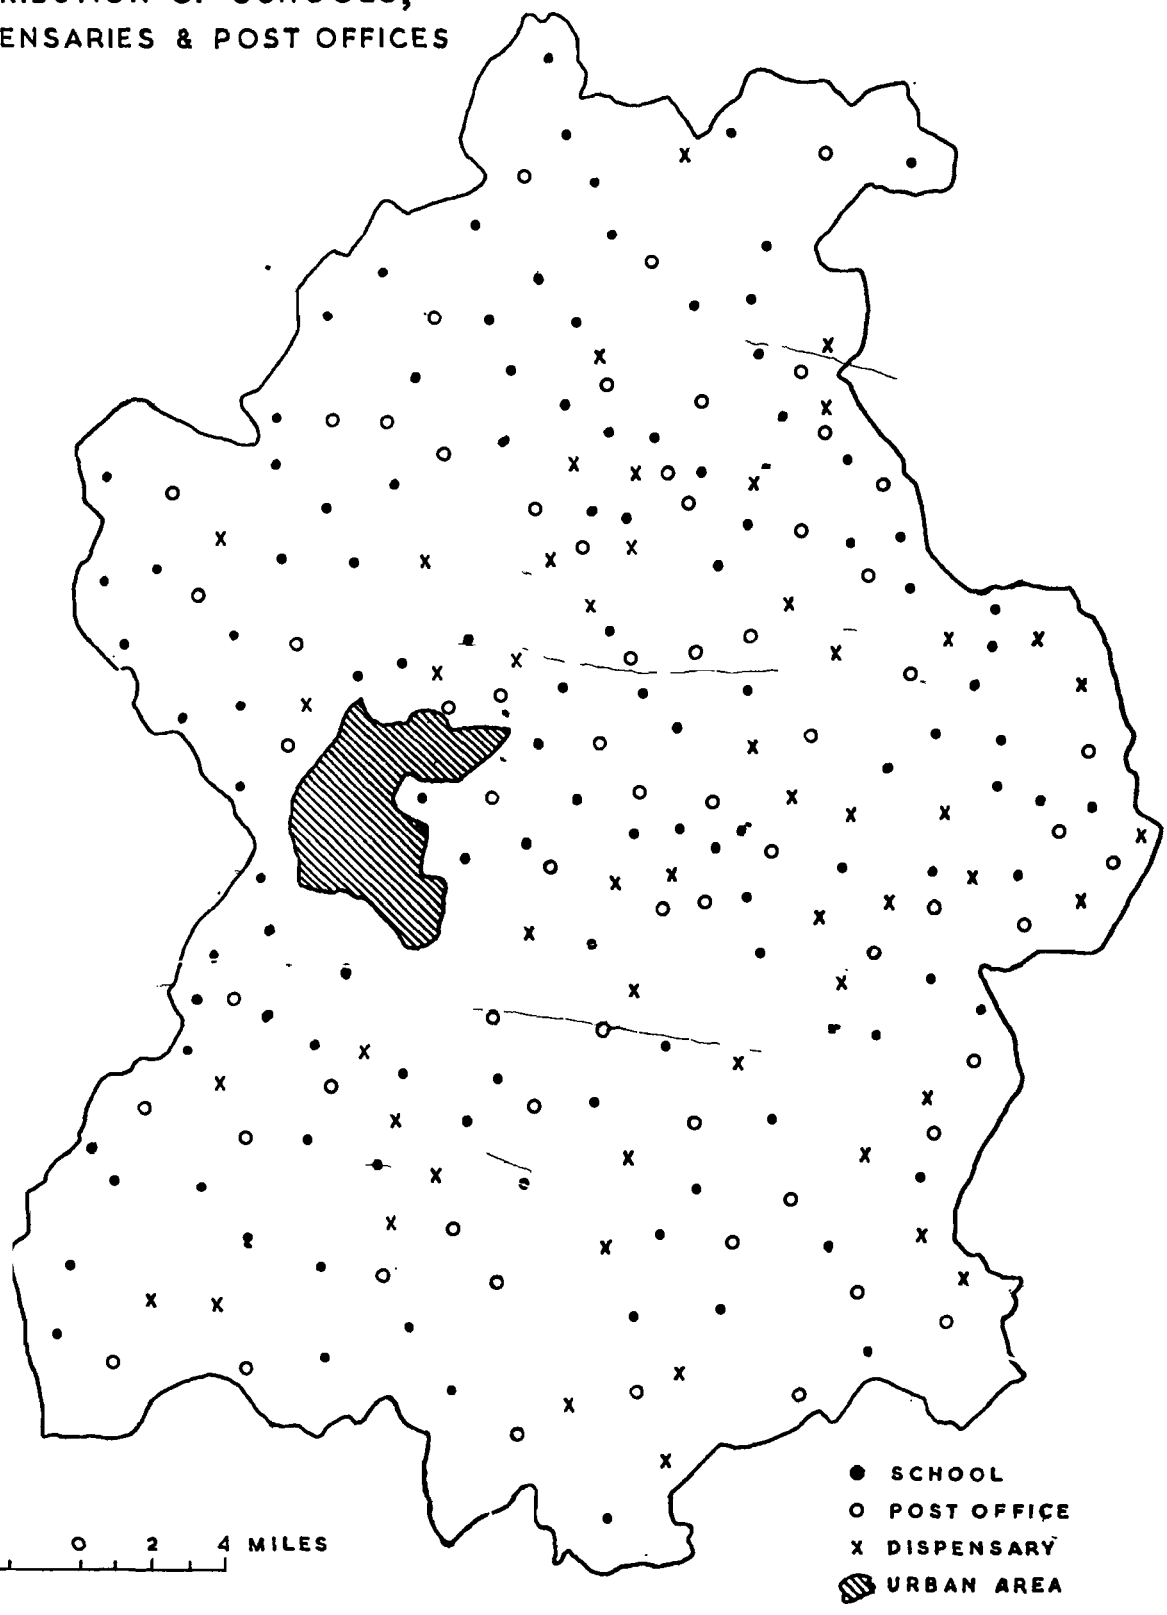

Agriculture (peasant proprietors, tenants and agricultural labourers) absorbs 333 persons per 1,000 in Hissar as against 224 in the State as a whole. On the other hand the population of persons following other pursuits is less.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education. (Tables 17 to 19—Part II)*.—In 1882, there were only 25 schools of all types in Hissar District. By 1949-50, their number increased to 494, and they were 1,073 in 1960-61.

In 1951, 9.8 per cent of the population was literate and this figure improved to 17.4 in 1961. The District is still lagging behind the overall figure of 24.2 for the State and 24.0 for the Indian Union. Even among the Punjab Districts the position in regard to literacy in Hissar is low. The following Table shows the number of schools in the District in 1949-50 and 1960-61:—

	Schools		Scholars	
	Boys	Girls	Boys	Girls
1949-50				
Primary Schools	327	68	23,771	4,034
Middle Schools	75	5	6,918	1,256
High Schools	18	1	7,656	525
Total	**420**	**74**	**38,345**	**5,815**
1960-61				
Primary Schools	772	115	39,902	11,599
Middle Schools	89	22	14,982	4,705
High Schools	63	7	21,647	4,173
Higher Secondary Schools	3	2	2,706	1,084
Total	**927**	**146**	**79,237**	**21,561**

In 1961, 26.5 per cent of the male population between 5 years and below 20 years were attending schools and the corresponding figure for girls was 8.3 per cent, indicating that education is still considered to be largely a prerogative for boys.

Primary education has been made compulsory in the District. During the decade most of the new schools were set up in rural areas, so that the children have now to cover less distance than before to reach the school. The schools are fairly well spread among the Tahsils, though girl's schools are comparatively few in Bhiwani Tahsil, particularly the Loharu Sub-Tahsil.

The Scheduled Castes and Backward classes have still not shed off completely the apathy towards their children's education. Introduction of compulsory primary education, free education up to the Middle standard, and the stipends and scholarships that are being awarded to the students belonging to these classes should in due course bring them in line with the general population. It is heartening that the proportion of girls among students is gradually rising.

*Pages 78 to 80.

The following trusts have made commendable contribution in educational and other social and cultural spheres in the District:—

(1) Birla Education Trust, Bhiwani.

(2) Seth Kirori Mal Charitable Trust, Bhiwani.

(3) R.B. Basheshar Lal Halvasia Trust, Bhiwani.

(4) Jaswant Rai Churamani Trust, Hissar.

(5) Fateh Chand Trust, Hissar.

(6) L. Giani Ram Chiripal Trust, Bhiwani.

These trusts and various other charitable institutions and philanthropists are running a number of schools, colleges and other welfare institutions at various places in the District.

Technical Education(Table 18).*—There are at present two Industrial Training Institutions for boys at Hissar and Bhiwani which impart training in various crafts such as smithy, wood work, radio mechanics. There are two Industrial Training Schools for girls located at Hissar. During 1960, 100 boys and 56 girls were receiving training in various arts and crafts in these institutions. The Birla Education Trust runs the Technological Institute of Textiles at Bhiwani which imparts instructions in textile technology up to the Degree level. There were 142 boys on its rolls in 1960.

Colleges (Table 19)†—There were three Arts Colleges in the District in 1951. During the decade 1951-61 three more colleges were established. The number of college students in the District was 570 (550 boys and 20 girls) in 1951 and 2,257 (2,049 boys and 208 girls) in 1960. It is heartening that the girls are going in for college education in larger number.

Training and other colleges.—The only Teachers' Training College in the District is at Bhiwani and it is run by the Karori Mal Trust. It had, on its rolls, 103 boys and 85 girls during 1960. One Nurse Training Centre was started by the Karori Mal Trust at Bhiwani during the decade, and it is attached with the Women's Hospital run by the Government.

The Punjab College of Veterinary Science and Animal Husbandry, Hissar, is the only institution of its type in the State. It had on its rolls 340 boys in 1960.

Education of the handicapped.—An institution which imparts training to the blind in various vocations was established at Hissar by the District Red Cross Society during the decade, and 24 blind persons received training in this institution in 1962. The Kishan Lal Jalan Eye Hospital, Bhiwani, also runs a similar training centre for the blind where training in caning of chairs, making of mats, etc. is imparted.

There is also a Reformatory School in the Borstal Jail at Hissar for the juvenile delinquents.

There is a big orphanage at Bhiwani, run by a private trust, where training is given in carpentry, weaving and carpet making besides general education.

Cultural Activities.—Two clubs at Hissar and one each at Bhiwani and Sirsa provide recreation to their members. A number of societies to promote cultural activities function in towns. In rural areas a number of Youth Clubs, *Mahila Samitis, Kisan Sewak Sanghs, Balwaries* and Community Centres have been organised.

Cinemas.—The number of cinema houses in the District increased from five in 1951-52 to eight in 1959-60. Sirsa has three cinemas and Bhiwani and Hissar have two each. Besides, the moving talkies (one each at Hissar and Fatehabad), theatrical societies and circuses visit the District off and on. Such activities bring a handsome income to the State Exchequer by way of Entertainment Tax which amounted to Rs. 356,300 in 1960-61 against Rs. 77,951 in 1951-52 (Table 46)††.

Libraries.—The Karori Mal Public Library at Bhiwani and the Public Library at Hissar are fairly well stocked with books. The various among the smaller libraries open to public are:—

The Jain Library, Hissar, The Sushila Bhawan Library for Women, Hissar, The S.D. Library, Hissar, and The Municipal Libraries at Hansi, Fatehabad, Tohana, Sirsa, Dabwali and Bhiwani.

Besides, a number of libraries have been opened in the rural areas under the Community Development Programme during 1951-61.

*Page 78. †Page 80. ††Page 100.

Newspapers and Journals.—Table 21 Part-II* contains a list of newspapers, magazines and periodicals published in the District. They cover diverse topics but most of them have limited circulation and are of different standard. All of them were started after Independence.

Printing presses.—The particulars of 30 printing presses in the District are given in Table 20 Part II**. Fourteen among them are located at Hissar, seven in Bhiwani, three at Sirsa and two each at Hansi and Dabwali. They are generally small units, but are fairly adequate for the local needs.

Radios (Table 23 Part II)†.— In 1961 there were 28,095 broadcast receiving sets in the District as against 8,237 in 1959. In villages radios have been installed in the *Panchayatghars* where the rural folks listen to various programmes.

Social Welfare Activities.—The Social Welfare Department of the State Government provides financial assistance to the members of the Scheduled Castes in the form of loans and subsidies for building houses, small scale and cottage industries and education of children. It also assists them in acquiring land for cultivation.

The Indian Red Cross Society has a branch in the District. A branch of the All India Women's Society works for the social and moral hygiene of the women and helps the administration in checking immoral traffic in women and children. In the District there are also branches of the Central Social Welfare Board, Child Welfare Society, St. John Ambulance, the *Bharat Sewak Samaj*, Soldiers, Sailors and Airmen's Board, and the Bharat Scouts and Guides.

Political Parties.—The District is politically quite conscious and participates zealously in elections. The following Table shows the interests of the electorates in the last three General Elections:—

Year	Name of Political Party	No. of M.L. As. elected	No. of M.Ps. elected	*Number of voters in the District*		*Votes polled*		*Percentage of total votes polled*		Remarks
				For Lok Sabha	For Vidhan Sabha	For Lok Sabha	For Vidhan Sabha	For Lok Sabha	For Vidhan Sabha

*Page 83. **Page 82. †Page 84.

Medical and Public Health.—With the spread of education and scientific treatment of human ills coming nearer tne reach of the people, the methods of faith cure and quackery are taken resort by fewer people now. Patients are mostly given allopathic treatment. The Homoeopathy is also practised by a few persons in towns. The Ayurvedic and Unani Systems are however, favoured because of the simple and familiar medicines prescribed. Government has given due recognition to these systems and the number of Ayurvedic dispensaries in the District increased from two in 1953-54 to 22 in 1960-61 (Table 25*).

In 1961 there were 65 hospitals and dispensaries in the District equipped with 984 beds and they treated 30,183 indoor and 540,253 outdoor patients. 927 medical personnel of all grades served these hospitals and dispensaries in 1961. The Civil Surgeon looks after the civil hospitals and the dispensaries run by the Zila Parishad.

In 1962 there was a medical institution on an average for 78.9 square miles and 23,649 persons. This criterion places the District fairly behind many others in the State.

In 1961 the District Medical Officer of Health had under him seven maternity and child welfare centres (Table 26)††, ten primary health centres, two primary health units (Table 29)** and five family planning centres (Table 28).†††

SPECIALISED INSTITUTIONS

(i) *Tuberculosis.*—Arrangements exist in all major institutions for the treatment of this disease and there are two T.B. clinics, one each at Hissar and Bhiwani where specialised treatment is given.

(ii) *Smallpox.*—The smallpox Eradication Programme was launched and completed in the District during the Third Five-Year Plan. when more than 90 per cent of the population was vaccinated by a team of Doctors, Supervisors and Vaccinators. Arrangements for vaccination exist in all hospitals and dispensaries.

(iii) *Malaria* (Table 27)‡.—A Malaria Control Unit was established in the District in 1954-55. The unit now carries Malaria Surveillance operations side by side with spraying. By 1960-61 the numbrer of villages and towns thus covered had gone up to 893 involving 939,641 persons, at an expenditure of Rs. 217,651.

General Sanitation.—General sanitation in towns is the function of the Municipal Committees. In rural areas, which are now covered by the National Extension Service Blocks, the work is looked after by the Block staff and the Primary Health Units. The P.W.D., Public Health Division, Hissar, had executed 31 rural water-supply schemes in the District by the end of 1963.

Crimes.—The incidence of crime in the District is comparatively low despite its bordering on the Rajasthan which offers temptations for smuggling and other anti-social activities. (Table 43 in Part II)‡‡ shows the results of trials in criminal courts in the District. There has been a decline in the offences against person and property. This was matched by an increase in excise cases. In 1950, 76 murders occurred in the District against 50 in 1961. Six dacoities occurred in 1950 but none in 1961. The number of burglaries was 517 in 1951 and 248 in 1961. The number of robberies declined from 72 in 1950 to five in 1961, and of thefts from 578 in 1950 to 290 in 1961. 54 cases of riots occurred in 1950 but in 1961 there were only 27 such cases. 573 cases were detected under the Arms Act in 1950 but only 211 in 1961. Under the Excise Act the number of cases, however, increased from 406 in 1950 to 578 in 1961. The number of cases for all crimes declined from 3,423 in 1950 to 2,428 in 1961.

DEVELOPMENTAL ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehkari Samaj* and *Panchayati Raj, i.e.*, Community Development, Co-operatives and *Panchayats.*

Community Development (Table 39)‡‡‡ The administrative set up of the Community Development work has been given in the First Chapter. Hansi I Block was the first to be started in 1953. By 1956, another seven Blocks were started. By early 1963 the entire rural area stands covered by 17 Development Blocks.

The programme of Community Development and National Extension Service occupies an important place in bringing technological advances, particularly in the field of agriculture to the door of the farmer. The aim is to improve the whole texture of rural life by kindling in it a self-generating process of change and growth. People's participation and contribution in this programme is of prime importance. It is not easy to assess this factor because it is mostly in the shape of manual labour which is difficult to evaluate. Therefore, the achievements of these Blocks are described as follows in a general way.

*Page 84. ††Page 84. **Page 85. †††Page 85. ‡Page 85. ‡‡Page 99. ‡‡‡Page 93.

Improved seeds and implements, and green manure and fertilizers are supplied to the cultivators at subsidised prices. They are encouraged to preserve dung in pits. The development authorities help the farmer in reclaiming land and in laying out model farms. Financial assistance is given for constructing percolation wells and installing pumping sets and tube-wells.

Cow and buffalo bulls of good breed are supplied and artificial insemination centres have been opened at various places in the District. Each centre has a few key-villages attached to it and maintains pedigree bulls.

Health and sanitation activities cover hospitals, rural health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and smokeless *chullas*, pavement of streets, installation of hand-pumps and sinking of wells for drinking water.

Educational activities cover new schools, upgrading of old schools, conversion of schools into Basic type and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the 3 Rs; this experiment has, however, yet to prove its efficacy. Libraries and reading rooms are started and young villagers are encouraged to organise into youth clubs. *Mahila Samitis* are organised for the welfare of the women folks. Children's parks and *Balwadis* (nurseries) are started for the children. *Panchayatghars* and Community centres and Community listening radio sets are provided for the benefit of the community at large.

People are encouraged to construct *kacha* roads, to repair old paths and macadamize *kacha* roads. They are helped in organising themselves into co-operative Credit Societies, Industrial Societies, Farming Societies and Service Societies of various kinds.

Village and small scale industries are encouraged by setting up demonstration-cum-training centres in various crafts. The Block authorities have tried also to set up model villages to serve as examples for other villages.

Co-operation.—(Tables 15 and 16*).—The co-operative movement, initiated a long time ago, made steady progress and the number of societies went on increasing till the Partition which affected its growth considerably. The apex institutions like the Provincial Co-operative Bank and the Punjab Co-operative Union were left in West Pakistan. Deposits accumulated for long years, were lost overnight. Mass migration of the Muslim members suddenly depleted the ranks of societies and the loans advanced to them became bad debts. With patience and hard work the co-operative movement, however, recovered from that rude shock within a few years and dashed for still better achievements as is indicated by the following figures:—

Year	Societies	Members
1950-51	1,456	39,912
1955-56	2,521	90,088
1959-60	3,517	173,354

By 1959-60, 11.2 per cent of the entire population of the District had been brought within the fold of co-operation.

Banks and banking unions finance the societies affiliated to them. There were four such banks in the District in 1950-51 with a membership of 697 and working capital of 3,400 thousand rupees. They issued loans to the tune of 1,659 thousand rupees. In 1959-60 there were only three such banks but their membership increased to 1,522 and its working capital increased to 13,421 thousand rupees and the loans issued stood at 11,160 thousand rupees.

In the struggle for saving the agriculturists from the exploitation by money lenders, the Agricultural Credit Societies form the pivot in the co-operative movement and they inculcate the habit of thrift in the members. They mobilize rural savings and serve the twin purpose of thrift and credit. Another feature of these societies is that non-credit worthy elements of the rural economy are not denied the facility of credit. There are some credit societies whose membership and loan operations are confined exclusively to Harijans.

In 1950-51, there were 405 agricultural credit societies with a membership of 10,336 and a working capital of 1,013 thousand rupees. By 1959-60, their number went up to 1,058 with a membership of 60,461 and a working capital of 11,834 thousand rupees.

*Pages 15 and 16.

The District has taken appreciable strides in the direction of Co-operative marketing. In 1950-51, there were only two such societies with a membership of 169 but in 1959-60 there were 13 such societies with a membership of 2,298. Besides functioning as commission agents in the market, these societies purchase wheat and other commodities for Government, whenever required.

The number of industrial societies increased from 18 in 1954-55 to 128 in 1959-60. The number of farming societies also increased from eleven in 1950-51 to 63 in 1959-60.

To help artisans in the purchase of raw material and disposal of finished products, the small scale and cottage industries are organised on co-operative lines. There were ten Weavers' Societies in the District in 1959-60 with 206 members, nine Consumer Societies with 675 members, eight Housing Societies with 251 members and one Supervisors' Union with 56 members.

Panchayati Raj (Table 38—Part II).*—The British regime did a great damage to the rural society by substituting village *panchayats* with a centralised system of administration. If rural India was to rediscover itself, it was felt strongly that the *Panchayat* system must be revived. To quote Mahatma Gandhi, "India's independence must begin at the bottom. Thus every village will be a republic or a *Panchayat* having full powers. In this structure composed of innumerable villages, there will be ever-widening, never-ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle, whose centre will be an individual, always ready to perish for the village". Other leaders fully shared this view and accordingly the organisation of village *Panchayats* was made one of the directive principles of State policy in the Constitution of India.

The Punjab Gram Panchayat Act, 1952, with its subsequent amendments and the Panchayat Samitis and Zila Parishad Act, 1961, form the corner stone of the *Panchayati Raj*. This structure consists of three tiers, a *Panchayat* at the village level, a *Panchayat Samiti* at the Block or Tahsil level and *Zila Parishad* at the District level. These three institutions are linked with each other by means of indirect elections. They do not constitute a hierarchy, where one is subordinate to another. They have clearly defined spheres of activities and independent sources of revenue. This enables them to function without losing initiative and self-reliance.

Gram Panchayats.—The village *panchayat* has 5 to 9 members including a *Sarpanch* elected by adult franchise. There is adequate representation for women and for the Scheduled Caste persons. In case no woman gets elected as a *Panch* one is co-opted as an additional *Panch*. The election to the *Panchayat* is held by secret ballot and its term is three years. The first general election, for *Gram Panchayats* was held in 1953 and for a second time in 1961.

In 1951-52 the number of *Gram Panchayats*, with very restricted functions, under the Punjab Village Panchayats Act, 1939, was 565 with a total membership of 3,025. In 1960-61 the number of *Gram Panchayats* rose to 836 with a membership of 5,162.

The *Panchayats* are expected to provide cheap and ready justice. They have been given powers to try minor offences like petty thefts, hurt, afray and committing public nuisance. They are under the control of the District Magistrate who can hear appeals against their orders and can transfer cases from one *Panchayat* to another. The *Panchayats* have been given powers also to try civil and revenue cases upto a certain pecuniary limit, and in respect of these cases they are under the control of the District Judge and the Collector, respectively.

Most of the villages are, however, faction-ridden and the system of elections has unfortunately added to their factional spirit and the *Panchayats'* proceedings are often marred by group rivalries and group feelings. These are, perhaps pangs of birth, and with the spread of education, proper guidance and maturity of public opinion, it is hoped that things will improve.

In 1951-52, 180 criminal cases were instituted with *Gram Panchayats* in the District while 72 cases were pending in the beginning of the year. Of these 205, cases were decided and 47 cases were dismissed. In that year the *Panchayats* also tried 243 civil and revenue cases, out of which 195 cases were decided and 30 cases were dismissed. In 1960-61 the number of fresh criminal cases instituted before the *Panchayats* was 403 while 71 cases were pending in the beginning of the year. The number of cases decided was 308. On the civil and revenue side in 1960-61, 380 cases were instituted while 180 cases were pending in the beginning of the year. Out of these 313 cases were decided (Table 38—Part II).*

The *Panchayats* look to the requirements in their respective areas in regard to agriculture, education, animal husbandry, health and sanitation, including water-supply works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department in cash, kind or labour. With the help of the departments concerned, many among the *Panchayats* have done some really good work. Tables 38* and 39† throw light on the progress made by the *Panchayats* in various spheres through their own efforts and through the assistance of the Community Development Department and other departments.

*Page 92. †Page 93.

The Village common lands now vest with the *Panchayats*. They receive a percentage of land revenue collections and grants from the Government and some time from the local bodies. They levy house tax, professions tax and raise voluntary contributions. The fines and penalties which they impose, are transferred to their funds. In 1960-61, the total income of the *Panchayats* in the District was 2,412 thousand rupees and their total expenditure on education and libraries, public works, public health and agricultural and veterinary services and administration amounted to 1,860 thousand rupees.

Panchayat Samitis.—There is a *Panchayat Samiti* for each Block. It consists of : (I) 16 members, elected by the *Panches* and *Sarpanches* ; (II) two members elected by Co-operative Societies ; and (III) one member elected by the Market Committees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the Samiti, as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elected otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block work as *ex-officio* members. The associate and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years. The Block Development and Panchayat Officer is the ex-*officio* Executive Officer of the *Samiti*.

The *Panchayat Samiti* provides and makes arrangements for carrying out the requirements of the area under its jurisdiction in respect of animal husbandry and fisheries, health and rural sanitation, communications, social education, co-operation and other such miscellaneous duties as development of cottage and small scale industries and other local development works. The *Samiti* is also the agent of the Government for the formulation and execution of Community Development Programme.

The sources of income with the Samiti would be the local rate, as charged by the *Zila Parishad*, the fees derived from public institutions like schools and markets, fees from fairs and shows, rents and profits accruing from property vested in it, and such monies and grants as Government may place at its disposal from time to time. The *Samiti* can, with the permission of the *Zila Parishad*, impose any tax which the State Legislature has power to impose under the Constitution.

Zila Parishad.—The *Zila Parishad* consists of the Chairman of every *Panchayat Samiti*, two members elected by each *Panchayat Samiti*, every M.P., M.L.A., .M.L.C., of the District, and the Deputy Commissioner. Two women and five members belonging to Scheduled Castes, if not elected otherwise, are co-opted as members. The M.Ps., M.L.As., M.L.Cs., and the Deputy Commissioner do not have the right to vote. The *parishad* has a Chairman and a Vice-Chairman elected for three years by the members.

The *Parishad* consolidates and co-ordinates the plans prepared by the *Panchayat Samitis*, examines and approves the budgets of the *Panchayat Samitis* and advises the Government concerning *Panchayats* and *Panchayat Samitis* and keeps watch over agricultural and production programmes and construction works.

The income of the *Parishad* accrues from the Central or State Government funds allotted to it, grants from all-India bodies and institutions for the development of cottage, village and small scale industries, a share in the land cess, income from endowments and such contributions as the *Zila Parishad* may levy on the *Panchayat Samitis*.

The *Zila Parishad* has started functioning in the District, replacing the age old District Board.

Local Bodies and Towns (Table 37-Part II).*—As mentioned in Chapter I, there are Municipal Committees functioning in all the eleven towns in the District. Most of these Committees are of long standing. Two of them were instituted during the 19th century. Among the present Municipal Committees, one belongs to Class I, five to Class II and the rest to Class III. Four Municipal Committees have less than one square mile area to administer. The Hissar Municipal Committee has the maximum area to administer which is 6.77 square miles. The number of members of the various Municipal Committees in the District varies between 8 to 17.

The combined revenue of all the Municipal Committees in the District during 1960-61 amounted to Rs. 4,703,028. Hissar and Hansi Municipal Committees have revenue of over ten lakh rupees and Bhiwani and Sirsa have over six and five lakh rupees, respectively. Fatehabad, Jakhalmandi and Tohana make between one and two lakh rupees while the income of Kalanwali, Uklanamandi and Loharu Municipal Committees is less than one lakh rupees. The income per capita was highest for Jakhalmandi (Rs. 43.66) and the lowest for Bhiwani (Rs. 10.76). Octroi constitutes 56 per cent of the total revenue.

The combined expenditure of the Municipal Committees during 1960-61 amounted to Rs. 4,679,493. The highest expenditure was on Public Health (28.3 per cent), followed by water-supply (23.1 per cent), Municipal Property (7.4 per cent) and public safety (5.5 per cent). The expenditure per capita was highest for Jakhalmandi (40.91) and the lowest for Bhiwani (11,20).

Electrification of Villages.—Apart from the large industrial potential for power which is being built in the urban areas of the District, the demand in the rural area is also increasing, and in the State's Third Five-Year Plan development of power is a very important item. Electrification has changed the face of the towns and villages. By 31st March, 1961, nine out of eleven Municipal towns and 66 villages in the District had been electrified. The target during the Third Five Year Plan is to electrify 220 villages in the District. There were 10,768 electricity consumers of all types in the District during 1960-61. Energy resources in the District are mainly hydel.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot note under each Table.

There are in all 52 Tables in this Part grouped under the following heads :—

Rainfall and Temperature	Tables 1 & 2
Agriculture	Tables 3 to 10
Livestock and Implements	Tables 11 & 12
Industry	Tables 13 & 14
Co-operation	Tables 15 & 16
Education	Tables 17 to 19
Printing and Publishing	Tables 20 & 21
Entertainments	Tables 22 & 23
Medical and Public Health	Tables 24 to 30
Vital Statistics	Tables 31 & 32
Transport and Communications	Tables 33 to 36
Local Administration	Tables 37 to 39
Banks, Insurance and Savings	Tables 40 to 42
Justice and Administration	Tables 43 to 49
Miscellaneous	Tables 50 & 51
Fairs and Festivals	Table 52

RAINFALL AND TEMPERATURE

Table 1 gives information regarding mean maximum, mean minimum, highest maximum and lowest minimum temperatures, mean relative humidity, mean wind speed, number of days of dust storm, thunder and hail storms, recorded at one or more stations in the District for each month for the years 1951 to 1960.

Table 2 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimetres. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 3 shows the utilisation of land in the District for the period 1901-1961. Information has been worked out for the quinquenniums centring around the Census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following scheme :—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallows; (b) permanent pastures and other grazing lands ; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types : First lands which have remained out of cultivation for a period not less than one year but not more than 4 years, second lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volume I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 4 shows assessment circle-wise classification of land in the District for 1960-61 ; total area according to Village Papers ; area under forests ; area not available for cultivation ; area available for cultivation ; and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 5 presents net area irrigated from (1) Government canals, (2) private canals, (3) tanks, (4) tube-wells, (5) other wells and 'other sources'. The information is presented for the same quinquenniums as selected for Table 3.

Table 6 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901-61.

Table 7 shows area under principal crops in the District for quinquenniums during 1901-61. The principal crops have been classified into three categories : (I) Basic food crops, (II) Other food crops, and (III) Non-food crops.

Table 8 presents the average yield per acre of principal crops in the District : rice, wheat, *jowar*, *bajra*, maize, barley, gram, potatoes, sugar-cane, chillies, sesamum, rape, mustard and cotton. Information is given for 12 years ending 1960-61, and the yield figures are in terms of lbs. per acre.

Table 9 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 10 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 11 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 12 provides information on agricultural implements and machinery for the District and each Tahsil for 1951 1956, and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 13 relates to the working of registered factories during the years 1951, 1956 and 1960.

Table 14 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 15 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 16 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 17 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary Schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boy's and girl's schools.

Table 18 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 19 gives the number of Arts and Science and Professional colleges in the District during the year ending 1960.

PRINTING AND PUBLISHING

Table 20 relates to printing presses in the District working in 1960 : the year of declaration, the language/ languages in which the matter can be printed, the number of printing machines and the power used.

Table 21 lists the newspapers, magazines and periodicals published in the District during 1961 : the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 22 shows the number of Cinema Houses in the District during the year 1951-52 to 1959-60.

Table 23 shows the number of broadcast receiving Licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND PUBLIC HEALTH

Table 24 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 25 shows the number of Hospitals and dispensaries providing Ayurvedic treatment in the District during the years 1951 to 1961 and the number of 'Vaids' and 'Hakims' working there.

Table 26 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 27 presents the work done and expenses incurred by the Malaria Control Unit from 1953 to 1961 in the District.

Table 28 informs about the number of persons sterlized and other steps undertaken by the Family Planning Centres in the District during 1960-61.

Table 29 shows the location of the Primary Health Units and Centres and Rural Health Centres as on 1st October, 1961.

Table 30 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 31 shows the number of births and deaths sexwise as recorded in the District during the years 1951 to 1960.

Table 32 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 33 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads; and according to metalled and unmetalled roads.

Table 34 gives a list of Post Offices in the District as on 31st March, 1961.

Table 35 is a list of railway stations located in the District.

Table 36 is a polymetrical Table showing distances as between different places in the District.

LOCAL ADMINISTRATION

Table 37 shows the working of *panchayats* in the District during 1960-61 : their number, beneficial and judicial activities, and income and expenditure.

Table 38 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each local body, area served, population, the number of members and income and expenditure during 1960-61.

Table 39 shows the community development activities in the District as on 31st March, 1961 : for each Block, its stage, area, number of villages and population covered, Government expenditure and peoples' participation in terms of money in the First and Second Five Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 40 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 41 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 42 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 43 gives information regarding criminal justice; cases tried and persons convicted in the District annually from 1951 to 1960.

Table 44 shows the sanctioned strength of Police and the number of Police Stations in the District as on 31st December, 1960.

Table 45 gives information about jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 46 shows the receipts from State Excise duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1960-61.

Table 47 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 48 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 49 presents the number of instruments registered and value of property transferred in the District annually from 1951 to 1960.

MISCELLANEOUS

Table 50 presents important events occurred in each Tahsil of the District during the period 1951 to 60.

Table 51 shows the monuments and better known places of worship or tourist interest in rural areas of the District arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 52 relates to fairs and festivals. The material for this Table was collected from a number of agencies : Headmasters of schools, *Patwaris*, Police Stations, District Officers of Health, and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the Hadbast (H. B.) numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

TABLE 1

TEMPERATURE, HUMIDITY AND WIND SPEED : 1951 TO 1960

Month	Temperature (F)				Mean Relative Humidity per cent		Mean wind speed	No. of days

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information upto Tahsil and Town level, and have been prepared exclusively for this volume. Tables A-IV, B-III (Part A), B-VI, B-VIII (Part A), C-III (Part B), and SCT- III (Part A) give information only for urban areas: Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non-city urban area of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES: GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometre ; number of villages, inhabited and uninhabited; number of towns; number of occupied houses; and population for the District, each Tahsil and Town, with sex break-up. The figures for Towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

- In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati.*' In Lahaul & Spiti District, the revenue estate is referred to as '*kothi*' and its components as '*gaon.*'

Appendix I shows the territorial changes which took place during the decade 1951—61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under columns 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These person were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding-houses were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses, from 1901 to 1961, and variations in population—in absolute figures and percentage—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of he District.

In Table A-III the villages have been graded according to the size of population as shown below, and for each group the number of villages and population have been shown.

Villages with population—

(a) less than 200;

(b) 200 to 499;

(c) 500 to 999;

(d) 1,000 to 1,999;

(e) 2,000 to 4,999; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES: ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities: thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified into (a) nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" (Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961-census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories:—

(1) as cultivators;

(2) as agricultural labourers;

(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities;

(4) at household industry;

(5) in manufacturing other than household industry;

(6) in construction;

(7) in trade and commerce;

(8) in transport, storage and communications; and

(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e., an owner-cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc.

The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961 -census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate.* In case he had attained any educational standard, the hihgest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level 'Technical Degree or Diploma equal to Degree or Post-Graduate Degree' is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in Industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to

the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An *employer* is a person who employs other persons in order to perform economic activity in which he is engaged.

An *employee* is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employers have also been taken as *employees*.

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of" Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts : **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups : (i) seeking employment for the first time ; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsilwise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups :—

(i) whole-time students doing no other work ;

(ii) persons engaged in unpaid home duties ;

(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age ;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work ;

(v) beggars, vagrants or independent women without an indication of their source of income;

(vi) convicts in jail or inmates of a penal, mental or charitable institutions ;

(vii) persons seeking employment for the first time ; or

(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In Part-I, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household.

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation ;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories :—

(i) engaged neither in cultivation nor in household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;

(ii) held from private persons or institutions for payment in money, kind or share ; and

(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land has been cross-tabulated by different sizes of land holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled household engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification". (Annexure A).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A** the households have been distributed by nature of household industry and number of persons engaged into the following five size groups :—

(i) 1 person ;

(ii) 2 persons ;

(iii) 3 to 5 persons ;

(iv) 6 to 10 persons ; and

(v) more than 10 persons.

This part gives data up to Major Groups, while Part-B gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given :—

(i) households engaged neither in cultivation nor in household industry ;

(ii) those in household industry only ;

(iii) those engaged in cultivation ; and

(iv) distribution of cultivating households according to the size of their operational holdings.

C-SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in **Table B-XVII.**

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into : (i) never married ; (ii) married ; (iii) widowed ; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0—4 and 5—9 have been combined since all the persons up to the age of 9 have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forecasting the future births. In 1951-census this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : **Part-A** for all areas ; **Part-B** for urban areas ; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this Volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others". Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO 2477-A, dated the 29th October, 1956). These castes, in Punjab are :—

1. Throughout the State :—

   (1) Ad Dharmi ; (2) Bangali ; (3) Barar, Burar or Berar ; (4) Batwal ; (5) Bauria or Bawaria ; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra ; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi ; (10) Chanal ; (11) Dagi ; (12) Dhanak ; (13) Dumna, Mahasha or Doom ; (14) Gagra ; (15) Gandhila or Gandil Gondola ; (16) Kabirpanthi or Julaha ; (17) Khatik ; (18) Kori or Koli ; (19) Marija or Marecha ; (20) Mazhabi ; (21) Megh ; (22) Nat ; (23) Od ; (24) Pasi ; (25) Perna ; (26) Pherera ; (27) Sanhai ; (28) Sanhal ; (29) Sansi, Bhedkut or Manesh (30) Sapela (31) Sarera ; (32) Sikligar ; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

   (1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—
   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other Countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa*.

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent sample out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A' Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as 'a dwelling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented".

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominant material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multistoreyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential Order referred to above the Scheduled Tribes are found in this State only in Lahaul & Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and curring of hides and skins" and "scavanging", number of persons following these occupations have also been given under columns 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44, and 45+

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in cols. 11 and 12.

ANNEXURE 'A'

Indian Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, livestock, forestry, fishing and hunting—		
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugar-cane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 1—Mining and Quarrying—		
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Division 2 & 3—Manufacturing—		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugar-cane in mills	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—contd.		
23	*Textile-Cotton*—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26.	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow-cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279

Indian Standard Industrial Classification—cotnd.

Major Group Code)	Description	Minor Group (Code)
Division 2	**& 3 Manufacturing**—contd.	
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—contd.		
33	*Chemicals and Chemical Products*—concld.	
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stoneware, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery. (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37 , 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—concld.	
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction—		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells	403
Division 5—Electricity, Gas, Water and Sanitary Services—		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services—concld.		
51	*Water Supply and Sanitary Services*—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6—Trade and Commerce—		
60-63	*Wholesale Trade*—	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade*—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco produc	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in foodstuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce—concld.		
64-68	*Retaill Trade*—concld.	
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and head gear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaw, etc.	699
Division 7—Transport, Storage and Communication—		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communication—concld.		
71	*Services incidental to transport such as packing, carting travel agency*—	710
72	*Storage and Warehousing*—	
	Operation of storage such as ware-houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communications*—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services—		
80	*Public Services* (This does not include Government, Quasi-Government, or Local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)—	
	Public services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Government	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institution not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homoeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, (this includes missions, ashrams and other allied organisations)	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841

Indian Standard Industrial Classification—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—concld.		
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisation of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals (this includes all types of cleaning, dyeing, bleaching, dry cleaning, services)	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—Activities not adequately described—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

ANNEXURE 'B'

National Classification of Occupations

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—		
00	*Architects, Engineers and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurgical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers, and Surveyors, n.e.c.	009
01	*Chemists, Physicists, Geologists and other Physical Scientists—*	
	Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and Related Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homeopathic	032
	Physicians, Other	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and Related Workers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related workers—concld.		
06	*Jurists—*	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069
07	*Social Scientists and Related Workers—*	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Psychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and Related Workers—*	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Painters, Decorators and Commercial Artists	083
	Sculptors and Modellers	084
	Actors and Related Workers	085
	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen, and Science and Engineering Technicians, n.e.c.—*	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n.e.c.	099
0X	*Other Professional, Technical and Related Workers—*	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials, Government—*	
	Administrators and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade—*	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—concld.		
12	*Directors, Managers and Working Proprietors, Financial Institutions*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Others*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors, Transport and Communication	134
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, Other Services	136
	Directors, Managers and Working Proprietors, n.e.c.	139
Division 2—Clerical and Related Workers—		
20	*Book-Keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors, (excluding those on moving transport)	202
21	*Stenographers and Typists*—	
	Stenographers	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers, Miscellaneous*—	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office Workers indluding Record keepers, Moharrers, Despatchers, Packers and Binders of Office papers	289
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc., n.e.c.	290
Division 3—Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors, Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers*—	
	Agents and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3—Sales Workers—concld.		
31	*Insurance and Real Estate Salesmen, Salesmen of securities and Services, and Auctioneers*—concld.	
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers	320
	Manufacturers' Agents	321
	Commercial Travellers and Manufacturers' Agents, n.e.c.	329
33	*Salesmen, Shop Assistants and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-lenders and Pawn-brokers*—	
	Money-lenders (including Indigenous Bankers)	340
	Pawn-brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural labourers	414
	Plantation labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers n.e.c.	439

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—concld.	
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
	Division 5—Miners, Quarrymen and Related Workers—	
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511
52	*Mineral Treaters*—	
	Mineral Treaters	520
59	*Miners, Quarrymen and Related Workers, n.e.c.*—	
	Miners, Quarrymen and Related Workers, n.e.c.	590
	Division 6—Workers in Transport and Communication Occupations—	
60	*Deck Officers, Engineer Officers and Pilots, Ship*—	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen*—	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-Room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers*—	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine*—	
	Drivers	630
	Firemen	631
64	*Drivers, Road Transport*—	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)	649

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 6—Workers in Transport and Communication Occupations—concld.		
65	*Conductors, Guards and Brakesmen, Railway*—	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport*—	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Tele-communication Operators*—	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printer	673
	Telephone, Telegraph and Related Tele-communication operators, n.e.c.	679
68	*Postmen and Messengers*—	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations, n.e.c.*—	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communications	693
	Workers in Communication Occupations, n.e.c.	694
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.		
70	*Spinners, Weavers, Knitters, Dyers and Related Workers*—	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers*—	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Headgear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 7-8—Craftsmen, Production Process Workers, and Labourers n.e.c.—contd.	
72	*Leather, Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers*—	
	Shoe Makers and Shoe Repairers	720
	Cutters, Lasters, Sewers, Footwear and Related Workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers*—	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers, n.e.c.	739
74	*Precision Instrument Makers, Watch Makers, Jewellers and Related Workers*—	
	Precision Instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742
75	*Tool-makers, Machinists, Plumbers, Welders, Platers and Related Workers*—	
	Fitter-machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-assemblers and Machine Erectors (except Electrical and Precision Instrument Fitter-assemblers)	752
	Mechanics-repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and Structured Metal Workers	757
	Electro-platers, Dip Platers and Related Workers	758
	Tool-makers, Machinists, Plumbers, Welders, Platters and Related Workers, n.e.c. (including Metal-engravers other than printing)	759
76	*Electricians and Related Electrical and Electronics Workers*—	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics Workers, n.e.c.	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers*—	
	Carpenters, Joiners, Pattern Makers (Wood)	770
	Shipwrights and Body Builders	771
	Sawyers and Wood Working Machinists	772
	Coach and Body-Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet Makers	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c.	779

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
78	*Painters and Paper Hangers*—	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.*—	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers, Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-binders and Related Workers*—	
	Type-setting Machine Operators	800
	Compositors	801
	Proof Readers and Copy Holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-litho Operators, Photo-lithographers	805
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-binders	808
	Compositors, Printers, Engravers, Book-binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers*—	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers*—	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers*—	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839

National Classification of Occupations—concld.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers n.e.c.—concld.		
84	*Tobacco Preparers and Products Makers-*	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Product Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.-*	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastics Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen, Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers—*	
	Checkers, Testers, Sorters, Weighers and Counters	860
	Packers, Labellers and Related Workers	861
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers-*	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Riggers and Cable Splicers	873
	Operators of Earth-moving and other Construction Machinery, n.e.c.	874
	Materials handling Equipment Operators	875
	Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment	876
	Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.	879
89	*Labourers, n.e.c.–*	
	Loaders and Unloaders	890
	Labourers, n.e.c.	899
Division 9—Service, Sport and Recreation Workers—		
90	*Fire Fighters, Policemen, Guards and Related Workers-*	
	Fire Fighters and Related Workers	900
	Police Constables, Investigators and Related Workers	901
	Customs Examiners, Patrollers and Related Workers	902
	Watchmen and Chowkidars	903
	Fire Fighters, Policemen, Guards and Related Workers, n.e.c.	909
91	*House Keepers, Cooks, Maids and Related Workers—*	
	House Keepers, Matrons, Stewards (Domestic and Institutional)	910
	Cooks, Cook-bearers (Domestic and (Institutional)	911
	Butlers, Bearers, Waiters, Maids and other Servants (Domestic)	912
	Ayas, Nurse-maids	913

Notes—1. *The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Towns treated as such for the first time in 1951-census which continue as towns in 1961-census are shown with asterisk (*) on their left.
3. Towns treated as such for the first time in 1961-census are printed in italics.
4. The following abbreviation has been used for the status a town :—
   M.C. = Municipal Committee.

APPENDIX I TO TABLE A-I

Statement showing the 1951 territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area
1	2	3
Hissar District	**Hissar District**	**5,357.0**
Sirsa Tahsil	Sirsa Tahsil	1,639.0
Fatehabad Tahsil	Fatehabad Tahsil	919.0
Hissar Tahsil	Hissar Tahsil	1,019.0
Hansi Tahsil	Hansi Tahsil	803.0
Bhiwani Tahsil	Bhiwani Tahsil	977.0

APPENDIX II TO TABLE A-I

Number of Villages with Population of 5,000 and above and Towns with Population under 5,000

District/Tahsil	Villages with Population of 5,000 and above			Towns with Population under 5,000		
	Number of Villages	Population	Percentage to Total Rural Population of the District	Number of Towns	Population	Percentage to Total Urban Population of the District
1	2	3	4	5	6	7
Hissar District	**18**	**124,804**	**9.60**	**4**	**15,270**	**6.34**

Hissar District—concld.

TABLE B-V

OCCUPATIONAL CLASSIFICATION, BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note.—Families having less than 1% of the workers of the respective Division, (less than 0.5% in case of Families of Division 7-8), have not been shown in this Table but are given in the Appendix to this Table. Divisions thus affected are marked with an asterisk (*).

Division, Group and Family Category		Total Workers					
		Total			Urban		
		Persons	Males	Females	Persons	Males	Females

APPENDIX TO TABLE B-V

Families having less than 1 % of workers of the respective Division, (less than 0.5 % in case of Families of Division 7-8) have been shown in this Appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

M = Males

F = Females

Hissar District

APPENDIX TO TABLE BVII PART A

Major Groups of Household Industry, where Persons having Secondary Work as Cultivation or Agricultural Labour, are less than 5% of the Persons having the Major Group as Principal Work, have been shown in this Appendix.

The following abbreviations have been used :—

I - Cultivator ;

II = Agricultural Labourer ;

M = Males ; and

F = Females.

Hissar District

04 : Total I (M115, F37), II (M76, F16), Rural I (M91, F26), II (M74, F15), Urban I (M24, F11), II (M2, F1). **20** : Total I (M46, F1), II (M4, F1), Rural I (M42, F1), II (M3, F1), Urban I (M4), II (M1). **23** : Total I (M30, F4), II (M38, F1), Rural I (M 29, F4), II (M37, F1), Urban I (M1), II (M1). **25** : Total I (F4), II (F1), Rural I (F4), II (F1). **27** : Total I (M71, F8), II (M7, F1), Rural I (M65, F6), II (M6, F1), Urban I (M6, F2), II (M1). **34-35** : Total I (M 34, F9), II (M14, F2), Rural I (M33, F9), II (M14, F2), Urban I (M1). **38**: Total I (M1), Rural I (M1). **39** : Total I (M 40), II (M1, F1), Rural I (M 34), II (M1, F1), Urban I (M6).

PART IV

DIRECTORY

Information is presented separately for each Tahsil of the District as under :

A. Village Directory (Rural Areas), and

B. Town Directory (Urban Areas).

CONTENTS

		Page
Sirsa Tahsil	: Villages	iv
	: Towns	xvi
Fatehabad Tahsil	: Villages	xx
	: Towns	xxviii
Hissar Tahsil	: Villages	xxx
	: Towns	xxxviii
Hansi Tahsil	: Villages	xlvi
	: Towns	l
Bhiwani Tahsil	: Villages	liv
	: Towns	lxii

EXPLANATORY NOTE

1. In this part are presented for each Village and Town in the District, its area, and 1961 population classified by sex and main industrial categories. The term '*village*', in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an '*estate*'. This definition of village is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District, except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit as '*phati*'. In Lahaul and Spiti District, the revenue estate is referred to as '*kothi*' and its smaller component as '*gaon*'.

2. Villages, having no population, have been shown as '*Uninhabited*'. They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsilwise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose 1961 Census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **column 2**. The Tahsil map shows the location of each village, identified by its Hadbast number.

4. The town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having :

(a) a population of over 5,000 ; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column** 3 gives information on '*amenities*' based on the '*Village Notes*', prepared by the Patwaris at the time of the 1961 Census. These '*Village Notes*' contain several useful items of information which it has not been possible to present in this Directory for want of space. The '*amenities*' mentioned, relate to education, medical facilities, Post & Telegraph, safe water supply and electrification ; and are indicated by the following abbreviations :—

P—Primary School.

M—Middle School.

H—High School.

C—College, including higher institutions.

T—Technical Institution.

D—Dispensary

Rhc—Rural Health Centre.

Host—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post Office.

P&T—Post and Telegraph Office.

S—Safe or protected supply of drinking-water.

E (A)—Electricity for agricultural use.

E (D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self Government.

7. **Column 5** relates to '*occupied houses*' i.e., houses used as dwellings, or conjointly as dwellings and for some other purpose e.g., shop-cum-dwellings. **Column 6** shows the number of '*households*'. A '*household*' means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Column 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S. R. O. 2477-A, dated the 29th October, 1956, and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A '*literate*' person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as '*educated*'.

10. **Columns 16 to 37** present figures for '*Workers*' and '*Non-workers*'. For the definition of the term '*Workers*' and a '*Non-worker*' and description of the categories of workers, the reader may see the Explanatory Note to Part III in this Volume. The nine categories of workers have been denoted by Roman numerals :

I—Working as cultivator (owner cultivator or tenant).

II—Working as agricultural labourer.

III.—Working in mining, quarrying, livestock, forestry, fishing, hunting, and plantations orchards and allied activities.

IV—Working on household industry.

V—Working in manufacturing other than household industry.

VI—Working in construction.

VII—Working in trade and commerce.

VIII—Working in transport, storage and communications.

IX. Working in other services.
