TALUKA JAMNAGAR

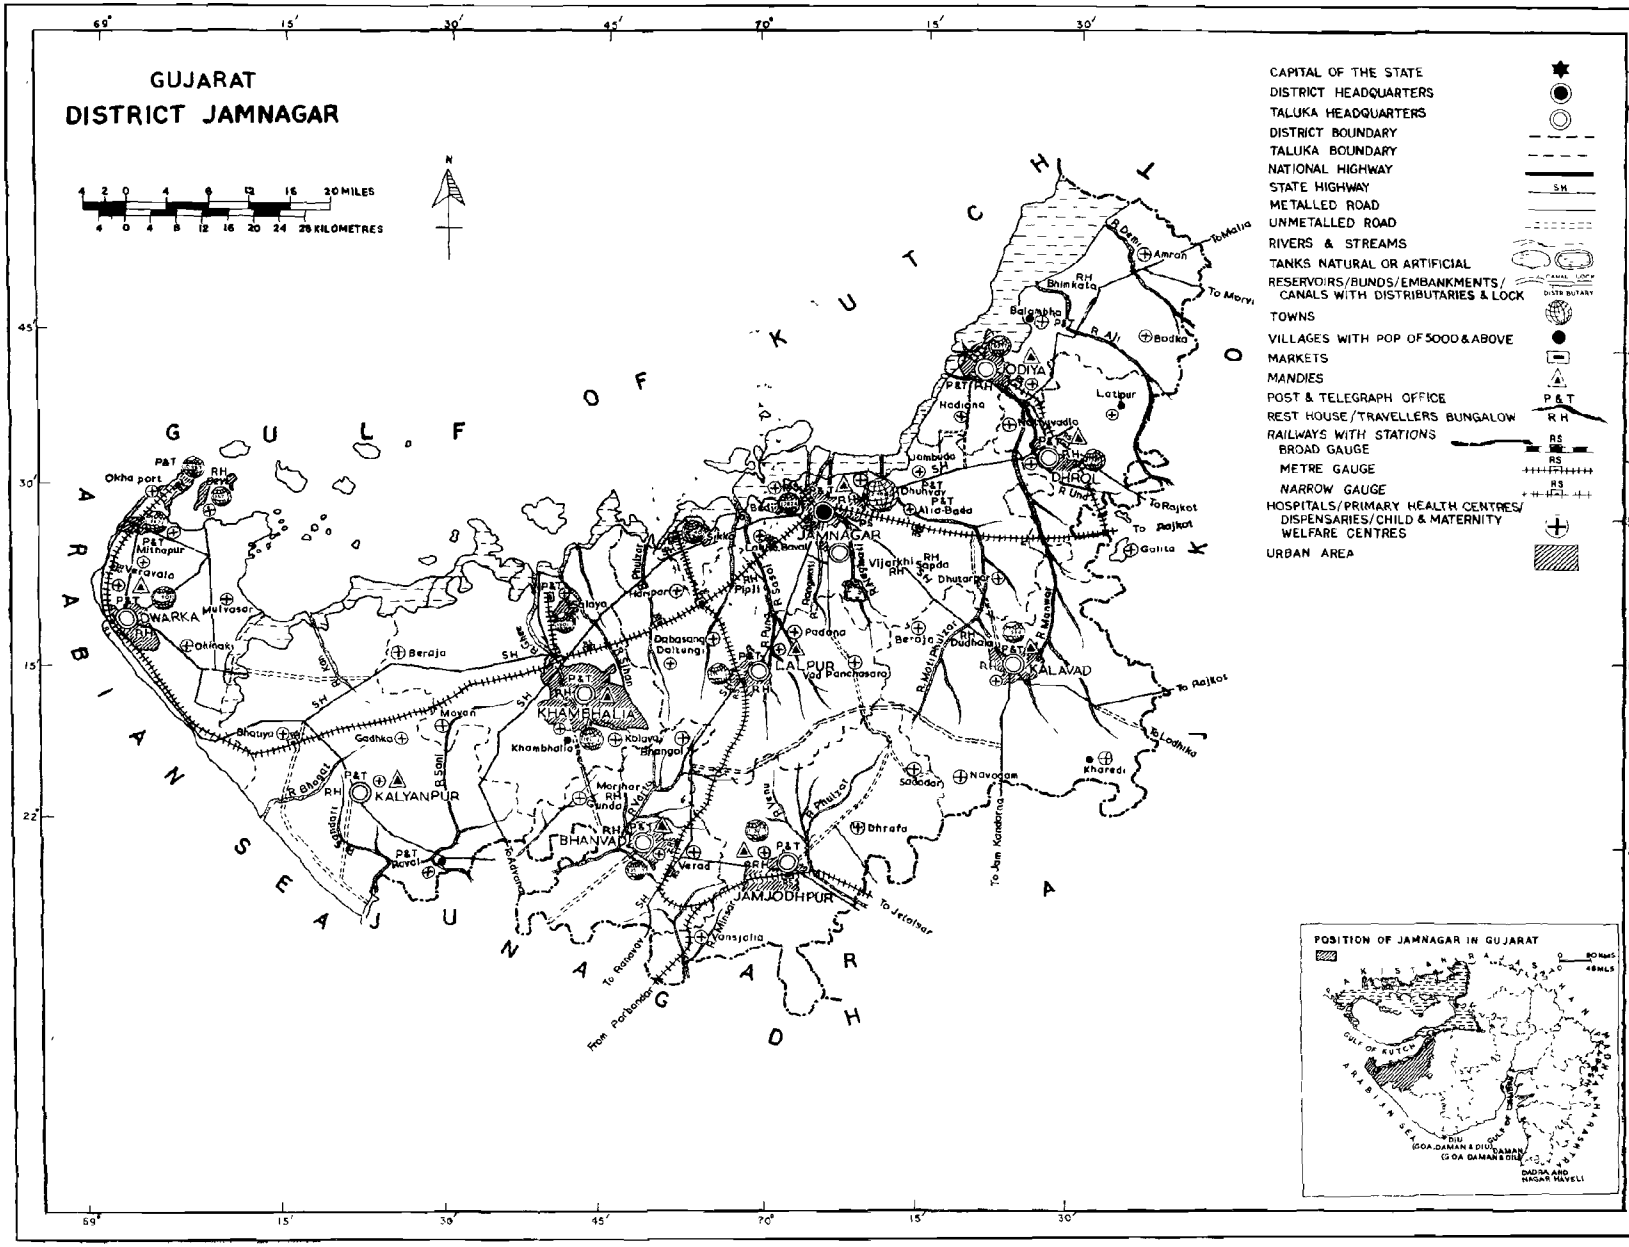

The Bandhani *or* Bandhana *which is a form of tie-resist dyeing and* patola *are said to have been the two greatest masterpieces of the Indian dyer's art. A reference to the excellence of Indian dyeing has been found in St. Jerome's fourth century Latin translation of the Bible in which Job declared wisdom to be even more lasting than the dyed colours of India.*

Originating perhaps in Rajasthan, the craft of the tie and dye migrated to Gujarat where it soon had flourishing centres at Jamnagar, Rajkot, Wankaner, Morvi, Dhoraji, Surendranagar, Porbandar, Bantva, Kutiyana, Anjar, Bhuj, Mandvi, Ahmadabad, Pethapur and Deesa. In its final evolution the craft reached its zenith at Jamnagar where it is believed to have come from Kutch.

The motif displayed on this volume is a compressed version of the design on a Jamnagar tie and dye saree. These saris are very much in demand here and abroad.

(Block from an ink tracing by K. D. Vaishnav, Geographer)

PREFACE

The District Census Handbooks are being published regularly since 1951. Earlier they were brought out under the name of "Village Handbooks" and contained only the population totals. They are prepared by the Census Organisation on behalf of the State Government and published by the latter. They are the first to be published in the series of 1971 Census publications, which are now to follow. The need for making available to the State Government, the Census data as early as possible after the taking of the count, has been recognised since long. It is a matter of deep satisfaction that the present volume is being published within a year of the taking of the Census.

The data collected during 1971 Census was tabulated initially at three Regional Tabulation Offices at Surat, Rajkot and Bhavnagar for rural areas and one more Tabulation Office at Ahmedabad which dealt with the slips of urban areas only. The data abstracted at the Regional offices was brought to Ahmedabad where it was compiled for the State as a whole and is now being published.

The District Census Handbook contains primary data upto the village level for rural areas and enumerator's block level for urban areas. It is for the first time that in 1971 Census we are giving information about urban areas of the State in a separate part called the "Town Directory". We are also giving comprehensive information about rural areas in the "Village Directory". This is further supplemented by the Alphabetical List of Villages for facility of reference.

It has been decided to bring out the District Census Handbooks of 1971 in three parts as under :—

Part A

(1) Town Directory

(2) Village Directory

Part B

(1) Urban Block and Villagewise Primary Census Abstract

Part C

(1) Analytical Report

(2) Administrative Statistics

(3) Census Tables

It was originally decided that each part would be brought out separately. But since the data for parts A and B has been prepared almost at the same time, it is decided to combine these parts into one volume. Part C which has to await the collection of official statistics from various Departments of the State Government and preparation of Census Tables, would be published separately.

The Town Directory consists of information about the status, growth history and functional category of towns and their physical aspects, location, Municipal finances, civic and other amenities like sewerage, protected water supply, fire fighting service, electrification etc. It also contains information about medical, educational, recreational and cultural facilities available at the towns. Detailed information about trade, commerce, industry and banking is also provided here. The population of the towns according to 1971 Census by religion and Scheduled Caste and Scheduled Tribe is furnished here. The Town Directory is a new feature of 1971 Census and the above information has been compiled in it for the first time.

The Village Directory contains comprehensive information about the amenities available at the village such as educational and medical, supply of electric power, drinking water facility, communication through road, rail, kutcha road, pucca road and bus route, existence of post, telegraph and telephone facilities, etc. Further information about staple food, area under various

uses like forest, cultivable land, source and extent of irrigation, cultivable waste and name of the nearest town and its distance, day on which 'bazar' is being held, if any, and its importance from religious, historical and archaeological point of view is recorded here.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Caste and Scheduled Tribe population and the distribution of working population into nine industrial categories of workers and non-workers.

The Analytical Report in Part C takes note of the social, economic and demographic changes which have occurred in the District during the last ten years. The administrative statistics are obtained from various Departments of the State Government and presented in this part which also incorporates a few of the tables generated from the data derived during 1971 Census.

There are 217 towns in Gujarat and 18,709 villages. Compilation of data for such a large number of units within such a short time was indeed a formidable task. The terms and definitions used in the schedules of the Directories were carefully studied and detailed instructions with explanatory notes, about the manner in which they were to be filled, and the source from which data was to be collected were issued by this Directorate to the Taluka Development Officers. The collection of land use data and tallying of area figures for each administrative unit presented an uphill task. The Settlement Commissioner and Director of Land Records was requested in August 1969 to confirm some of the presumptions and furnish necessary guidelines to this Organisation as to how the various figures required could be culled out from the revenue forms maintained at village level.

The printed forms of Village Directories were sent to the Taluka Development Officers with a request that they should be filled by the village officials and scrutinised at taluka level by the Statistical Assistant before returning to this office. The Development Commissioner and the Director, Bureau of Economics and Statistics, issued firm instructions to the field staff to ensure that the information was filled and scrutinised with the utmost care. After this information was received in the Census Directorate, it was subjected to a very close and rigorous checking by a cell which was specially created for the purpose. There were a number of points on which further probe became necessary, where the information was found to be incomplete or inconsistent. Our greatest hurdle was the reconciliation of area figures as reported by the village officials and those reported by the District Inspector of Land Records. A series of meetings had to be held at each District Headquarter, where the Deputy Director in charge of the District Census Handbook Unit had to remain present and point out the glaring inconsistencies reported to the Taluka Development Officers and District Inspectors of Land Records. Thanks to the dedicated efforts of all concerned, we were ultimately able to reconcile completely the area figures for each Village, Taluka and District.

It was noticed that there were minor differences in the spellings of village names reported by the Mamlatdar, Taluka Development Officer and District Inspector of Land Records. Similar differences were also noticed in the total number of villages reported by each agency. These discrepancies were reconciled on the basis of the list of villages published by Revenue Department, information obtained from taluka offices and other published sources. Location code number was given to each administrative unit at the time of taking of the Census in order to avoid repetition of their names.

The Census Directorate had obtained village-wise data relating to drinking water facility, primary and secondary school, post, telegraph and telephone, electrification etc, from the concerned Departments. The data reported in the Village Directory was cross-checked with the

official data to make it accurate and upto date. The data so processed was ultimately posted in the Village and Town Directory statements and typed in four copies. The typed data was again compared with the original manuscripts by a special cell handpicked for the purpose. The taluka totals for the area and amenities have been struck for each column. A number of inset tables have been prepared and included in the note to the District Census Handbook, as desired by the Registrar General, India.

The Town Directory statements were likewise scrutinised by a special cell in the Directorate, and the local authorities were asked to reconcile incomplete or inconsistent information wherever necessary. On account of the instructions issued by the Director of Municipalities, these references received immediate attention. The figures reported by the Municipalities have been cross checked with available statistical data.

Maps

No District Census Handbook can be complete unless it is accompanied by District and Taluka maps. We have, therefore, included at the beginning of each volume a District map showing the taluka boundaries, location of towns and large villages with population size 5000 +, communications, water features etc., and an inset map showing the position of the District in the State in hatching. A Taluka map is inserted before the Primary Census Abstract of each taluka, indicating the boundaries of each village and town within the taluka and the location code number of each village. The villages have been shown by dots of various sizes. One key map showing the location of the taluka within the District in hatching, and another key map showing the position of the District in the State have been inserted here. The urban area is hatched in both the District and Taluka maps, and is further represented by a sphere of varying size according to population.

The District and Taluka maps show several particulars by use of an appropriate symbol.

The preparation of District and Taluka maps, containing such varied information was a task of no small magnitude. The District Inspectors of Land Records had considerable difficulty even in preparing the basic maps and authenticating them. The problem was solved by requesting the Settlement Commissioner and Director of Land Records to call the District Inspectors of Land Records personally to the Office of Director of Census Operations and reconcile all the discrepancies pointed out to them and asking them to authenticate the same on the spot as far as possible, after due verification.

ACKNOWLEDGEMENTS

Compilation of such a large mass of data is impossible without the active help and co-operation of State Government. I am deeply indebted to Shri L. R. Dalal, ICS, Chief Secretary to Government of Gujarat, for agreeing to extend whatever help was sought for. I would like to make a special mention of the warm and wholehearted co-operation which was throughout extended by Shri K. V. Bhatt, Deputy Secretary in the General Administration Department, who was looking after the subject of Census. Whether it was a matter of sanction of staff or for supply of typewriters, or for additional funds for printing of the District Census Handbook volumes, it always received his most immediate attention and sanction was never denied or delayed. He showed a deep understanding of the problems of an organisation like ours, which could function in the State effectively only with the full backing of the State Government.

Shri P. B Buch, Director of the Bureau of Economics and Statistics, Government of Gujarat, placed at my disposal the entire resources at his command for any work connected with Census. Not only he spared me a few of his best officers and men but his valuable guidance in the matter of presentation of data at several places has served us in good stead. He issued instructions to the District Statistical Officers to attend to

the collection and scrutiny of any Census data and its timely submission, as if it was Bureau's own work. We were always assured that we could fall back upon the resources of the Bureau unreservedly in time of need. But for the wholehearted and most willing cooperation of the Bureau at all levels, the District Census Handbook volumes would not have been what they are today.

I also owe a deep debt of gratitude to Shri U. M. Bhatt, IAS, the then Settlement Commissioner and Director of Land Records for his help in finalising the meanings of terms and definitions used in the Village Directory. It is a matter of deep regret that he is no more with us today. His successor, Shri B. R. Mane Patil, IAS, was equally enthusiastic and helpful and but for the keen interest he took in the finalisation of District and Taluka maps, we would have been placed in serious difficulty.

My sincere and heartfelt thanks are due to the Collectors of the Districts for the wholehearted response I have received from them towards the efficient conduct of Census Operations. The interest and energy evinced by them in organising this vast operation is indeed praiseworthy. Their active participation and involvement in the programme had a far reaching effect on the countless enumerators and supervisors working under them. Their direct interest in the training programme has vastly improved the quality of our returns. The Assistant / Deputy Collectors working under them were made responsible for the urban areas of their jurisdiction. The Mamlatdars and Chief Officers of Municipalities who were appointed as Charge Officers of rural and urban areas respectively bore the real brunt of the work, and displayed great zeal and enthusiasm in shouldering these additional responsibilities. To the Commissioners of Ahmedabad and Surat Corporations I am particularly indebted for providing excellent accommodation for housing the Regional Tabulation Offices To the Special Charge Officers of Railways, Police, S.R.P., Irrigation Colonies and Forest Department and others I express my gratitude for the readiness with which they stood by us. Last but not the least, my grateful thanks are due to a large number of young boys and girls, coming from schools and colleges, to work as Sorters, Compiler Checkers and Supervisors, for the hard work they put in under difficult conditions of work. They displayed a very high sense of discipline and duty and enabled us to complete our work, at every stage, according to the deadlines set. I have no doubt the traditions of hard and systematic work they have imbibed will serve them in good stead and they will advance in life. They carry our best wishes with them wherever they go.

The District Development Officers who helped us so much in collection of data at the village level through the Taluka Development Officers and the District Statistical Officers working under them, who arranged for the scrutiny of the Town and Village Directory schedules at the taluka level through the Statistical Assistants, deserve a special mention. Had the basic work not been done by them accurately we would have been faced with a serious problem at the time of compilation. To the Heads of various other Departments, who always responded readily to any request made to them for help, I am also indebted. Limitation of space prevents me from making a separate mention of each one of them.

Shri G. J. Gonsalves, Director of Government Printing and Stationery, Government of Gujarat, who very kindly undertook to arrange the printing of some of the District Census Handbooks at Government presses and others through private presses had always been helpful in solving our difficult problems of printing. I hereby acknowledge the valuable help, guidance and assistance rendered by him in the matter of printing. Thanks are also due to the Manager, Government Photo Litho Press, Ahmedabad, at which all the District and Taluka maps as also the cover page have been printed. The care and patience with which they have attended to this work, has beautified our volumes to no small extent and increased their utility to the reader greatly.

Shri Hashim Ali Sayed, Printing Inspector, whose services were obtained on deputation from the Director, Government Printing and Stationery, rendered exemplary service by looking after the entire printing arrangement. His initiative, drive, and readiness to assume responsibility were a source of great strength to us. Everything he handled, he did perfectly well, and knew his job inside out.

I wish to place on record the valuable contribution made by my colleagues in bringing out this volume. Shri K. F. Patel, Deputy Director of Census Operations (HQ) was looking after this section before a separate staff was sanctioned by the State Government, headed by Shri S. C. Merh, Deputy Director from the Bureau of Economics and Statistics. Even after the creation of this separate cell, there were many occasions on which I had to look to him for help on account of the experience gained by him during 1961 Census. He never objected to the encroachments made on his time and energy, in spite of the fact that they were sometimes substantial. Shri S. C. Merh, Deputy Director of Census Operations (DCHB) put in hard and gruelling hours of work in spite of indifferent health to catch up with the time schedule which was once upset. Shri S. M. Shelke, Research Assistant, from the Bureau working under him, undertook almost the entire burden of Town Directories in addition to other work. Shri S. M. Nayak, Assistant Director of Census Operations, put in an indefatigable effort to ensure accuracy of the data at every stage and successfully coordinated the work throughout. The enthusiasm and energy displayed by Shri C. P. Vyas, Assistant Director of Census Operations, in the matter of preparation of inset tables for District Census Handbook volumes and several other matters connected with it deserve a special mention. The interpretation of the data of the Town and Village Directory is his personal contribution. Shri R.M. Pancholi, Statistical Assistant, prepared the inset tables to be included in the Town and Village Directory. Shri K. M. Patel, Tabulation Officer put in a very strenuous effort for the reconciliation of area figures and final checking of maps.

Kr. Fateh Singh Jasol, IAS, Deputy Director of Census Operations, Urban Tabulation Unit, took upon himself, as a labour of love, the scrutiny of work with regard to the preparation of District and Taluka maps and the selection of different motifs which now decorate different volumes of the District Census Handbook. He involved himself in this work with the ardency and fervour so characteristic of him and greatly relieved me of the anxiety on this account. Shri K. D. Vaishnav, Geographer, and his team of draftsmen have produced excellent District and Taluka maps by working on them again and again to incorporate details which were pointed out or received after the maps were once prepared. Shri N. S. Bhatt, Statistical Assistant, has checked them thoroughly. Shri B. I. Patel, Tabulation Officer, in charge of the Central Tabulation Unit took upon himself the entire responsibility for the scrutiny of Primary Census Abstracts and their typing in record time. He discharged his duties with diligence and a high sense of duty. I had in him a pillar of strength on which I could lean for work demanding precision and exactitude. His capacity to turn out work at optimum efficiency in the face of time schedules rigidly set merits avowal. Shri V. A. Dhagia, Tabulation Officer, proved himself a stalwart by shouldering the burden not only of work entrusted to him, but part of the burden of every section, including the Map Section, and rendered yeoman's service. Both the Central Tabulation Units benefited greatly by the care and attention bestowed on them by Shri K. F. Patel, Deputy Director of Census Operations (HQ), whose trained eye could detect the slightest inaccuracy or inconsistency in compilation or presentation. It was due to this team work that we were able to compile such faultless data with admirable speed, and were the first to send the Primary Census Abstracts of all the Districts of the State in one bunch to the Registrar General's Office at New Delhi. Shri Patel's patience and thorough handling of work has yielded rich dividends to us. I have relied heavily on the expertise, acumen and experience of my colleagues and they have undoubtedly

given their best to the Organisation, for which I am deeply indebted to them.

Limitations of space prevent me from making an individual mention of all those who have contributed to the making of this volume so complete and faultless to all of whom I wish to express my sincere thanks.

Finally, I would like to express my very deep gratitude to Shri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) for the valuable guidance received from them from time to time. The amount of advance thinking and planning done by them on the subject has now resulted in the production of volumes which will be of lasting value and interest to the general reader, research worker, scholar, administrator and academician.

C. C. DOCTOR,
Director of Census Operations,
Gujarat.

AHMEDABAD
1st March, 1972.

PART X-A

TOWN AND VILLAGE DIRECTORY

TOWN AND VILLAGE DIRECTORY

The Town and Village Directory of the District Census Handbook 1971 differs widely in content and presentation from the corresponding volume of 1961. The earlier volumes mainly contained the Primary Census Abstract for each village for rural area and town/ward/enumerator's block for urban area and was supplemented by some additional information which was collected from (a) village notes specially devised for the purpose and (b) information supplied by Heads of Departments on certain amenities. It was presented in Col. 2 in run on fashion for each village and town followed by the Primary Census Abstract in the remaining columns.

The Town and Village Directory of 1971 Census is presented in Part A of the District Census Handbook. An attempt has been made to interpret the data thrown up in the Town and Village Directories at the beginning under the heading "Introductory Note ... Town and Village Directory".

Part B of the District Census Handbook contains purely the Primary Census Abstract.

A number of abbreviations have been used in both the Directories to facilitate presentation. The abbreviations used in each statement of the Town Directory are given below in Statement A. Statement B gives a list of abbreviations used in Village Directory.

STATEMENT A

INTRODUCTORY NOTE ON TOWN AND VILLAGE DIRECTORY

1. History of District Census Handbook

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the erstwhile Government of Bombay. In 1951, the basis of classification of the Census was changed from a social to an economic one and the figures were given in the Primary Census Abstract according to eight Livelihood Classes. The Primary Census Abstract contained the basic information in respect of every village and town. A decision to bring out the District Census Handbooks giving the Primary Census Abstract and important Census tables for every district of the State was taken for the first time in 1951. Census statistics given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates and agricultural and non-agricultural classes distributed under eight main Livelihood Classes. These census statistics were further supplemented by the addition of useful administrative information on the availability of amenities in villages and towns on items like post offices, railway stations, the distance of a bazar from the village, primary schools, village panchayats, co-operative societies, etc. This was a unique achievement of the Indian Census. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Governments. It was, therefore, decided during the Census of 1961 that the District Census Handbooks of 1961 Census should contain a certain minimum of statistical data, maps and other useful information to be adopted uniformly throughout the country. Thus the District Census Handbook of 1961 Census differed widely in the matter of content and coverage from that published in the 1951 Census. The District Census Handbooks of 1961 were sub-divided into the following three parts :-

PART I - THE DISTRICT

(i) Introductory Essay
(ii) Brief Gazetteer of Place Names

PART II - STATISTICS

(i) Census Tables
(ii) Villagewise List of Industrial Establishments
(iii) Handicraft Tables
(iv) Departmental or Official Statistics

PART III - VILLAGE DIRECTORY

(i) Explanatory Note
(ii) Village Directory
(iii) Taluka Maps

Besides Census data, the 1961 District Census Handbooks covered villagewise and townwise information on the availability of different types of amenities such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses etc., shown by means of abbreviations placed against the name of each village. Thus, in the 1961 Census an attempt was made to make the District Census Handbooks more informative.

During the 1971 Census, efforts have been made to compile both census and non-census statistics in a uniform manner under an enlarged perspective. The District Census Handbook of 1971 Census has been divided into three sub-parts with a view to making the census and non-census information available to the data users as quickly as possible. Part A of the District Census Handbook contains the Town Directory and Village Directory. Part B contains the Primary Census Abstracts and Part C contains the Introductory Essay, Official Statistics, Census tables, etc. The details of the contents in each of the parts are described in the following paragraphs.

2. Scope of District Census Handbook 1971

The District Census Handbooks are the only publications which incorporate the data down to the village and block level of a town, which are urgently and frequently required by the data users. They are constantly referred to for several purposes by the administrator, planner, policy-maker and academician. The delay in the publication of the District Census Handbooks would reduce

the value of these very useful publications. In order to avoid delay in the publication the District Census Handbooks of 1971 are sub-divided into three parts, two of which are combined in one volume, and the third published separately. The details of the contents of each of the parts are as follows.

Part A : Town and Village Directory

Part A contains the non-census statistics of each village and town. The Town Directory portion furnishes the data for each town in the district in seven statements covering (1) the status of the civic administration and the functional category of towns and the growth of population since 1901; (2) physical aspects and location; (3) civic finances; (4) civic and other amenities; (5) medical, educational, recreational and cultural facilities; (6) trade, industry, commerce and banking facilities and (7) population by religion.

The Village Directory section of Part A gives particulars of amenities available for each village in the matter of educational and medical institutions, power supply, drinking water facilities, post and telegraph facilities, communications, particulars of land use, weekly markets and places of religious, historical and archaeological interest in the village.

Part B : Primary Census Abstract

Part B gives for each village and for each block and ward of a town the primary census data incorporating area of the town in square kilometres, and of village in acres and gunthas, the number of occupied residential houses, the number of households, total population and its break up by sex, scheduled caste and scheduled tribe population, literate population, and working population by nine broad industrial categories namely (1) cultivators, (2) agricultural labourers, (3) those working in livestock, forestry, fishing, plantations, etc., (4) mining and quarrying, (5) manufacturing, processing, servicing and repairing, (6) in constructions, (7) in trade and commerce, (8) transport, storage, and communications, and (9) in other services and the non-working population.

Part C : Administrative Statistics and Report

Part C would incorporate the administrative statistics, pertaining to the district in various fields of development. The census tables pertaining to the district regarding mother tongue, religion, migration, etc., will also be reproduced here. A write up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade would also be given

The non-census data of the village directory and town directory were collected from the local bodies. The villagewise details regarding different types of amenities available at the village, land use data and other information were collected in the village directory form through the Taluka Panchayat offices. These forms were filled by the village officials and were scrutinised by the Statistical Assistants at the Taluka level. The District Statistical Officers supervised the work and carried out percentage scrutiny. The details regarding the number of villages having post and telegraph facilities in the State, those connected with electric power supply, those having all weather and fair weather bus facilities and those without drinking water facilities etc., were obtained from the concerned departments by the Office of the Director of Census Operations. The information recorded in the village directory forms was cross checked with the data obtained from concerned departments, confirmed and made up-to-date.

The non-census data for each of the towns were obtained from the municipal authorities in the case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. The information received from the concerned municipalities and panchayats was scrutinised and cross checked with other published official statistics for a few items wherever it was possible.

3. Note on Town Directory

A. The list of urban areas, for the purpose of 1971 Census, was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area.

(1) All places where there is a Municipal Corporation, or a Municipality or a Town Committee or a Notified area or a Cantonment Board have been treated as urban areas.

(2) The remaining places were recognised as enjoying urban characteristics and declared urban areas only if the following conditions were fulfilled.

(a) The estimated population at 1971 Census should be at least 5,000.
(b) The density of population per sq. kilometre should not be below 400.
(c) 75 per cent of the male working population should follow non-agricultural pursuits, and,
(d) In the opinion of the Director of Census Operations any other place where predominant urban characteristics are noticed.

B. The town directory has been compiled in the following seven statements for all the urban areas of a district. For presentation of the data all the towns of a district are arranged in alphabetical order. In Appendix I to the Town Directory all the towns of a district are arranged according to their location code numbers. The details of the data covered in these statements are given below:—

Statement I

Statement I gives the details relating to the status of the towns, growth history of towns since 1901 and their functional categories in 1961 Census and 1971 Census.

Statement II

This statement gives details of physical aspects and location of the towns. Under physical aspects are given details relating to altitude of the towns (in metres) annual rainfall (in m.ms) and minimum and maximum temperature (in centigrade). The statement also gives the details of distance of the towns from the nearest city with population of 1 lakh and above, from State Headquarters, District Headquarters, Sub-divisional and Taluka Headquarters, from the nearest railway station and bus route. It also gives details as to whether or not the town has a navigable river or canal within 10 km. and the name of sea port within 50 km.

Statement III

This statement gives details of Municipal finance for the year 1968-69. It covers the receipts under different heads like receipt through taxes, receipt derived from Municipal property and powers, Government grant, loans, advances and other sources. It also covers the items of expenditure on different heads like general administration, public safety, public health and convenience, public works, public institutions and others.

Statement IV

This statement gives details about civic and other amenities. It covers information on the type of road with length, system of sewerage/drainage, number of latrines by types, method of disposal of night soil, source and capacity of protected water supply and availability of fire fighting services. The statement also gives details of the number of electric connections by types.

Statement V

This statement gives details relating to medical, educational, recreational and cultural facilities in the town. Details relating to medical institutions by types and the number of beds in each type of institutions are also covered. Details regarding different types of educational institutions are given. It also covers details relating to facilities of stadia, cinemas, auditoria or drama halls and libraries.

Statement VI

This statement covers the details relating to trade, commerce, industry and banking. The statement gives details of the three most important commodities imported in the towns, three important commodities exported from the towns and three important commodities manufactured in the towns. It also gives details of the number of banks and cooperative credit societies.

Statement VII

This statement gives the population of the town by religion. Data for this table is extracted from 1971 Census data.

C. During 1961 Census fifteen areas were treated as urban areas. Same fifteen areas are also treated as urban during 1971 Census.

D. Jamnagar City and Bedi town are agglomerated. Jamnagar City has also outgrowths in Jamnagar non-municipal area, the detaials of which are given in Appendix II to Town Directory.

Details of standard Urban Areas in the district are as under :—

District	Standard Area and Component Units	Civic status	Area in km².
1	2	3	4
Jamnagar	Total (Jamnagar S.U.A).		N.A.
	Urban Components.		
	Jamnagar City		N. A.
	Jamnagar	M.	25. 90
	Jamnagar	O. G.	N. A.
	Railway Colony		N. A.
	Port area		N. A.
	Bedi	N. P.	4. 83
	Total Urban group		N. A.
	Rural Components		
	Kansumra		9.29
	Naghedi		6.49
	Gordhanpur		4.93
	Khara Beraja		8.46
	Navagam (Ghed)		4.28
	Vibhapur		5.81
	Dhunvav		15.74
	Juna nagna		3.22
	Nava nagna		2.13
	Dhinchada		12.36
	Total Rural group		72.71

Note on Statement I

Townwise details relating to status, growth history and functional categories are given by arranging the towns in alphabetical order. The civic administration status of each town has been recorded in column 5 of the statement by using the following abbreviations.

Status	Abbreviation
1. Corporation	C
2. Municipality	M
3. Town Committee/Town Area Committee/Board	TC
4. Notified area Committee/Council	NAC
5. Cantonment Board	CB
6. Nagar Panchayat/Panchayat	P
7. Non-municipal/Non-Town Committee/ Non-Panchayat Committee	NM

Only one town in the district has a municipality and 13 towns have panchayats. (7 have nagar panchayats and 6 have gram panchayats). With the implementation of the Panchayat Act in Gujarat from 1-4-1963 places having a population of more than 10,000 but less than 20,000 have been given the status of Nagar Panchayats and those having a population of less than 10,000 persons have been notified as Gram Panchayats. Mithapur town has no municipality or Panchayat. The town administration is managed by the company. It would be seen from the statement that there is one town in the district having a population of more than one lakh. There is no town having a population of more than 50,000 but less than one lakh, Those having a population of more than 20,000 but less than 50,000 number nil as against one in 1961; Those having a population of more than 10,000 but less than 20,000 number 11 as against 4 in 1961 and those having a population of more than 5,000 but less than 10,000 are 2 as against 8 in 1961, and those having a population of less than 5,000 number 1 as in 1961 Census.

Columns 14 and 15 of the Statement give the functional category of the towns according to 1961 Census and 1971 Census. The method adopted for determining the functional category is uniform for 1961 (Atlas Volume) and 1971 Census. The functional categories are worked out on the basis of the following formula.

The nine Industrial Categories of workers adopted in 1971 Census are grouped into five sectors as follows.

		Categories
(1)	Agricultural and its allied activities	I, II, III & IV
(2)	Industrial including construction	V, VI
(3)	Trade and Commerce	VII
(4)	Transport, Storage and Communications	VIII
(5)	Other Services	IX

The percentage of workers under each of the above five groups to total working population is worked out for each town. These towns are then classified according to their percentage values which will determine the characteristic of the towns as Primary activity, industrial, commercial, transport and service, etc., on the following basis.

(i) If one sector of the economy absorbs more than two-fifths of the total working population (i. e. more than 40 per cent) then the town would be designated by that particular industrial category which is found predominant, e. g. industrial, commercial, transport, service or primary.

(ii) If the percentage falling under any one industrial category is less than 40, then the next predominant industrial category is taken into account, so that their total reaches three fifths of the working population i. e. 60 per cent. Such a town would then be designated as industry-*cum*-service town or commerce-*cum*-transport town etc., as the figures may indicate.

(iii) If the total of any two categories does not come upto 60 per cent, then the third predominant industrial category in order of merit is taken into account and after 60 per cent of the working population is accounted for the town is designated as industry-*cum*-service-*cum*-transport town and so on.

On the above basis each of the towns has been assigned functional categories. Table No. 1 below gives the distribution of towns by different functional categories. It can be seen that seven towns have one characteristic, four towns have two and four towns have three characteristics.

TABLE No. 1

Distribution of towns by functional categories

Functional Category-1971	Number of Towns
1	2
1. One Characteristic :	
(a) Primary activities	2
(b) Industry	3
(c) Transport	1
(d) Services	1
	7
2. Two Characteristics :	
(a) Industry-*cum*-commerce	1
(b) Industry-*cum*-Services	2
(c) Transport-*cum*-primary activities	1
	4
3. Three Characteristics :	
(a) Primary activities-*cum*-Industry-*cum*-Commerce	1
(b) Primary activities-*cum*-Commerce *cum*-Services	1
(c) Primary activities-*cum*-Commerce-*cum*-Industry	2
	4
Total	15

Note on Statement II

This statement gives the physical aspects and the location particulars of towns. Particulars regarding data on the altitude of the towns have

been obtained from the Director, Survey of India, Western Circle, Abu. Details regarding temperature and rainfall have been obtained from the Director General of Observatories, Meteorological Department, Government of India and the Regional Meteorological Centre, Colaba, Bombay. However, data on rainfall and temperature were not available from the above offices for many towns. In such cases data have been collected from local sources and remarks to that effect are given at the footnote of the statement.

It would be seen that Jamjodhpur is at the highest altitude, being 100.0 metres above mean sea level. Jamjodhpur is followed by Lalpur (76.0 metres), Kalavad (71 metres) and Khambhalia (38.4 metres). Altitude of Jamnagar, the District Headquarter is 20.0 metres. The altitude of the rest of the towns varies from 3.05 metres (at Okha Port) to 24.4 metres (at Dhrol). Highest annual rainfall was recorded (558.0 m.m.) at Dhrol in 1969. Dhrol is foilowed by Jamjodhpur (528.0 m.m.) and Bhanvad (516.9 m.m.). The minimun annual rain fall recorded was 227.8 m.m. at Bedi and Beyt in 1969. In summer which starts from April and ends in June, the maximum temperature recorded was 40.0° C. at Khambhalia. December, January and February are the winter months and during these months the temperature goes down to 10.0°C. (recorded at Sayla). Jamnagar is the nearest city having population more than one lakh for all the towns in the District. Bedi which is 5 km. from Jamnagar is treated as agglomerated with Jamnagar. Sikka is the nearest town of the District from Jamnagar (33.0 km.) whereas Beyt is the farthest town from Jamnagar (175.0 km.).

Distance of Gandhinagar, the state Headquarters from the towns of the district varies from the minimum of 308.5 km., (for Dhrol) to a maximun of 545.5 km. (for Beyt). Jamnagar, the district Headquarter is 346.5 km. away from Gandhinagar, the State Headquarter. All towns are connected by the railway station except Beyt and Kalavad. Beyt is only 5 km. away from the railway station of Okha, whereas Kalavad is 26 km. away from Railway station Jam Vanthli. All towns have facility of bus route except Beyt. Beyt is only 5 km. away from bus route of Okha.

No town in the District has a navigable river/canal. All towns except Jamjodhpur and Kalavad have sea port within a range of 50 km. Okha Port, Bedi, Sikka, Rozi, Jodiya and Salaya are the sea ports of the district.

Note on Statement III

This statement gives details of town finance. In Jamnagar district one town has a municipality 7 have Nagar Panchayts and 6 have Gram Panchayats. The following table shows the per capita receipt and expenditure by size class of town.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of Town	Number of Towns	Per capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
I 100,000 and over	1	28.39	20.57	7.82	24.44	7.71	4.18	12.55
II 50,000 to 99,999	..	..	..	..	..	..	..	..
III 20,000 to 49,999	..	..	..	..	..	..	..	..
IV 10,000 to 19,999	11	29.30	15.02	14.28	39.51	4.33	2.74	32.44
V 5,000 to 9,999	2	13.88	6.06	7.82	11.76	3.43	0.38	7.95
VI Below 5,000	1	18.39	13.21	5.18	18.90	4.93	0.19	13.78

It would be seen from the above figures that the per capita total receipt in towns having population more than one lakh and for those in population size class 10,000 to 19,999 are more or less equal. In the former it is Rs. 28.39 whereas in the latter it is Rs. 29.30. Per contra, per capita receipt in population size 5,000 to 9,999 and in towns below population 5,000 are significantly low being Rs. 13.88 and Rs. 18.39 respectively. Per capita receipt through taxes is Rs. 20.57 in towns having population more than one lakh. In towns having population 10,000 to 19,999 it is Rs. 15.02 followed by those towns having population below 5,000 being Rs. 13.21 and it is minimum in towns with population 5,000 to 9,999 being only Rs. 6.06. Per capita receipt through all other sources is highest in the towns of the population size 10,000 to 19,999 being Rs. 14.28. Per contra, it is only Rs. 7.82 in towns of the population size classes of (i) more than one lakh and (ii) 5,000 to 9,999. It is Rs. 5.18 in towns below 5,000 population.

Per capita expenditure is maximum Rs. 39.51 in towns of population size 10,000 to 19,999, followed by Rs. 24.44 in towns having population more than one lakh. It is Rs. 18.90. in towns having population below 5,000 and Rs. 11.76 for towns of population size 5,000 to 9,999. Per capita expenditure on health and conveniences is Rs. 7.71 in towns having population more than one lakh. In the rest of the population size classes it varies from Rs. 4.93 to 3.43. Per capita expenditure on public institutions is highest Rs. 4.18 in towns having more than one lakh population, followed by those in population size class 10,000 to 19,999 being Rs 2.74. It is very low in towns having population less than 10,000. Maximum per capita expenditure on all other aspect is Rs. 32.44 for towns having population 10,000 to 19,999. It is more or less equal for towns having population more than one lakh and those having population below 5,000, being Rs. 12.55 and Rs. 13.78 respectively. It is least in towns in population size 5,000 to 9,999, being Rs. 7.95 only.

Note on Statement IV

Statement IV shows the civic and other amenities available in the town. The following abbreviations are used in the statement.

Column 3

Road length	**Abbreviation**
1. Pucca Road	PR
2. Kutcha Road	KR

Column 4

System of Sewerage/Drainage

1. Sewer	S
2. Open Surface Drainage	OSD
3. Kutcha Drainage	KD
4. Cess Pool	CS
5. Pit System (or soak pits)	PT

Column 8

Method of disposal of night soil

1. Head Load	HL
2. Baskets	B
3. Wheel Barrows	WB
4. Septic Tank Latrines	ST
5. Sewerage	S
6. Soak pits or Leaching pits	PT
7. Tractor, Trailor, Trolleys or Night Soil Tankers	T

Column 9

Source of protected water supply

1. Tap Water	T
2. Tube Well	TW
3. Well Water	W
4. Tank Water	Tk
5. River	R
6. Fountain	F
7. Canal	C
8. Others	O

Only one town viz. Maithapur has a sewer. Out of remaining 14 towns 10 towns have open surface drainage, 3 towns have pit system and one has Cess Pool for disposal of waste water.

water borne latrines. Except Beyt all towns have service latrines. Night soil is transported in 7 towns on head loads. Wheel barrows are provided in six towns. One town has septic tank and one town has sewerage for disposal of night soil.

All the towns except Beyt have facility of protected water supply. Only four towns viz. Dwarka, Jamnagar, Mithapur and Okha port have facility of fire fighting service. All towns except Beyt are electrified.

Details regarding domestic, commercial, industrial and other connections are given in the statement. The following definitions have been applied for each of the terms used.

1. Domestic

(i) Heat and Power

Service to a household : supply to cooking ranges, refrigerators, air conditioners, etc., used in the household.

(ii) Lights and Fans

Service to a house which needs only lighting and fan connections.

2. Commercial

(a) Heat and Power

The same as 1 (i) except that the use is for commercial purpose i.e. shops, restaurants, etc.

(b) Lights and Fans

Same as 1 (ii) above except that the use is for commercial purposes i.e. shops, restaurants, etc.

3. Industrial

Power service to any installation at

(i) Low and medium Voltage

Upto 100 HP load for use in establishments such as flour mills, oil mills, ice factories, etc.

(ii) High voltage

Connections given for industrial purpose at a voltage of 11 KV and above.

4. Street lighting

Power service given for providing light in the streets of a village or town.

5. Others

(i) Irrigation and Agricultural dewatering

Power given to farmers for pumping water for agricultural purpose.

(ii) Public water supply and sewerage pumping

Power service given for pumping and/or preparation of potable water supply in villages/ towns and for pumping sewerage in the villages or towns.

Note on Statement V

The statement gives details relating to medical, educational, recreational and other cultural facilities in the town. In the case of medical institutions only Government, Semi-Government and charitable institutions have been covered. The abbreviations used in the statement to denote the various types of medical and educational institutions are explained below :-

Column 3 :

Type of medical institutions	Abbreviation
1. Hospital	H
2. Dispensary	D
3. T. B. Clinic	TBC
4. Health Centre	HC
5. Nursing Home	NH
6. Maternity Centre	M
7. Child Welfare Centre	CW
8. Family Planning Centre	FC
9. Other Medical Institutions	O

Column 5 :

Type of College	Abbreviation
1. Arts College only	A
2. Science College only	S
3. Commerce College only	C
4. Arts & Science College only	AS
5. Combined Arts Science and Commerce College	ASC
6. Arts & Commerce College only	AC
7. Law College	L
8. Law & Education College	LE

Hospital facilities are available in six towns. Only one town has maternity centre, two towns have tuberculosis clinics and twelve towns have family planning centres. The following table gives particulars of the number of beds available in each town.

TABLE No. 3

Medical Facilities

Sl. No.	Name of Town	Number of beds in medical institutions	Number of beds per 1,000 population
1	Beyt	1	0.27
2	Bhanvad	8	0.59
3	Dhrol	10	0.88
4	Dwarka	22	1.24
5	Jamjodhpur	4	0.24
	Jamnagar City Agglomeration		
6	Jamnagar	1,064	4.95
7	Bedi	...	...
		1,064	4.67
8	Jodiya	14	1.51
9	Kalavad	6	0.48
10	Khambhalia	64	3.20
11	Lalpur	5	0.67
12	Mithapur	100	6.42
13	Okha Port	2	0.19
14	Salaya	4	0.31
15	Sikka	8	0.60
	Total	1,312	3.34

The total number of beds in the medical institutions of the towns of the district number 1,312. The highest number of beds (1,064) is to be found in Jamnagar followed by Mithapur (100) and Khambhalia (64). The rest of the towns have beds varying from a minimum of 2 in Okha Port to a maximum of (22) in Dwarka.

It can be seen that Bhanvad, Sikka, Kalavad, Lalpur, Salaya, Jamjodhpur, Okha Port and Beyt stand lowest in the ladder. The district average for all the towns shows that there are 3.34 beds per 1,000 population. Jamnagar (4.95) and Mithapur (6.42) are above the district average whereas the rest of the towns are below the district average.

Only Jamnagar town of the district has a medical College, as well as a Polytechnic. Two towns viz. Jamnagar and Dwarka have non-technical college/colleges. Remaining thirteen towns are devoid of any college facilities. Six towns have other recognised shorthand, typewriting or other such vocational institutions.

Primary and Secondary school facilities are available in all towns except Bedi where there is no secondary school. The following table gives details of the number of primary and secondary schools per 1,000 population.

TABLE No. 4

Secondary and Primary schools per 1,000 population

Sl. No.	Name of the town	Number per 1,000 population	
		Secondary school	Primary school
1	Beyt	0.272	0.544
2	Bhanvad	0.148	0.296
3	Dhrol	0.088	0.264
4	Dwarka	0.112	0.337
5	Jamjodhpur	0.121	0.362
	Jamnagar City Agglomeration		
6	Jamnagar	0.088	0.293
7	Bedi		0.078
	Average of agglomeration	0.082	0.270
8	Jodiya	0.216	0.539
9	Kalavad	0.159	0.397
10	Khambhalia	0.100	0.751
11	Lalpur	0.266	0.266
12	Mithapur	0.064	0.193
13	Okha Port	0.093	0.281
14	Salaya	0.077	0.154
15	Sikka	0.075	0.151
	Average	0.099	0.313

The average number of secondary schools per 1,000 population for all the towns is 0.099. It can be seen that the following towns viz.,

Beyt, Lalpur, Jodiya, Kalavad, Bhanvad, Jamjodhpur, Dwarka, Khambhalia are above this average whereas the remaining are below the average.

The average number of Primary schools per 1,000 population for all the towns comes to 0.313. The towns above the average are Khambhalia, Beyt, Jodia, Kalavad, Jamjodhpur and Dwarka. The rest of the towns fall below the average.

No town has a stadium. Cinemas are found in ten towns. Beyt, Bedi Lalpur, Salaya and Sikka have no cinema house. Auditoria or drama halls are found in five towns. Public libraries are available in all the towns.

Note on Statement VI

Statement VI gives details relating to trade, commerce, industry and banking in the towns. All the towns of the district except Beyt and Bedi have banking facilities. Agricultural cooperative credit societies are found in 12 towns and non-agricultural cooperative societies are found in 13 towns. Important commodities manufactured in the towns of the district are groundnut oil, leather goods, cement, brass parts, salt, alluminium utensils soda ash, lime, bricks, Bandhani (Sarees), Benzene Hexachloride, Calcium Bauxite, oil engines and their spare parts, fertilizer mixtures, indigenous woollen blankets, handloom cloth and printed sarees, wheels of carts and ships and boats. Cement is manufactured as well as exported from Dwarka. Leather goods are manufactured and exported from Dhrol. Fish is exported from Bedi and Salaya, Jodiya, Sikka and Salaya are manufacturing and exporting salt. Mithapur is well known for manufacture and export of Soda Ash. Mithapur is also exporting Sodium Bicarbonate and Vaccum Salt. Okha Port is exporting Bauxite ore, Cement and Soda Ash. Groundnut oil is manufactured and exported from many towns viz. Bhanvad, Jamjodhpur, Kalavad, Khambhalia and Lalpur. Other important commodities exported from the towns in the District are Ghee, wool, Handloom printed sarees, garlic, wheat, bajri, tea, vegetables and fire wood. There is a woollen mill at Jamnagar which produces and exports woollen cloth, Blankets, rugs, etc.

Notes and explanations on village directory

A brief outline on each of the statement of the Town Directory has been given in the earlier pages. The handbook also incorporates, besides the town directory, villagewise particulars regarding different types of amenities and land use data for 1969 for each of the villages in the district in the village Directory section of the Handbook.

In Jamnagar district there are 762 villages distributed in 10 talukas. The following is the distribution of the villages in the various Talukas/ Mahals of the District.

Sl. No.	Name of Taluka/Mahal	Number of villages
1	Jamnagar	112
2	Lalpur	72
3	Jamjodhpur	70
4	Bhanvad	85
5	Kalyanpur	69
6	Okhamandal	78
7	Khambhalia	84
8	Jodiya	53
9	Dhrol	41
10	Kalavad	98
	Total	762

Only one taluka covers more than 100 villages, whereas the remaining talukas have less than 100 villages each. Jamnagar taluka has the largest number of villages with 112 whereas Dhrol has the least number of villages with only 41.

The following abbreviations have been used in the Village Directory section of the Handbook for the terms listed in Col. 2 of the statement below:-

Column Number	Item	Abbreviation
4	Primary School	Pr.S
	Secondary School	Sec.S
	College	C
	Industrial School	IS
	Training School	Tr.S
	Other Educational Institutions	OS

5	Hospital	H
	Maternity Home/Centre	M
	Child Welfare Centre	CW
	Health Centre	HC
	Dispensary	D
	Family Planning Centre	FC
6	Electricity for any purpose	E
	Electricity for Agricultural purpose only	E(Ag)
7	Tap Water	T
	Well	W
	Tank	Tk
	Tube Well	TW
	River	R
	Fountain	F
	Canal	C
	Other	O
	Not Available	N.A.
8	Pucca Road	PR
	Kutcha Road	KR
	Railway Station	T
	Navigable River	Ng(R)
	Navigation Canal	Ng(C)
	Bus Facility	
	Whole Year	WY
	Fair Season	FS
9	Post Office	PO
	Telegraph Office	TO
	Post & Telegraph Office	PTO
	Telephone	Phone
12	Government Canal	C
	Private Canal	C
	Tube Well	TW
	Other Wells	W
	Tank	Tk
	River	R
	Waterfall	WF
	Other Sources	O

(a) Taluka Abstract of Amenities

A talukawise abstract of the educational, medical and other amenities available at the villages is given in an Appendix to the Village Directory. It can be seen from the abstract that 635 villages have primary school facilities. There are thus only 127 villages without primary schools of which 57 are deserted villages. The details of villages without a primary school are as follows:—

Sl. No.	Name of Taluka/ Mahal	Number of villages without primary school	Number of deserted villages
(1)	Jamnagar	15	11
(2)	Lalpur	2	1
(3)	Jamjodhpur	5	..
(4)	Bhanvad	31	2
(5)	Kalyanpur	6	4
(6)	Okhamandal	48	36
(7)	Khambhalia	13	2
(8)	Jodiya	1	1
(9)	Dhrol	2	...
(10)	Kalavad	4	...
	Total	127	57

Only in three talukas significant number of villages are devoid of primary school facility. They are Bhanvad (29) Okhamandal (12) and Khambhalia (11). In rest of the talukas the number of villages without primary school varies from 1 to 5.

Only 28 villages or 3.97 per cent of the total villages of the District have secondary schools and 30 or 4.3 per cent of the total have other educational institutions.

It can be seen that only 61 villages or 8.7 per cent have dispensaries. Only 3 villages have the facility of hospitals and 8 villages have maternity homes. Only 7 villages have child welfare centres. 35 villages have primary health centres (including sub-centres) and 38 villages have family planning centres. Thus only a limited number of villages in the district have medical facilites.

Only 140 or 19.9 per cent of the total villages of the District are electrified. In Jamnagar Taluka 77.2 per cent of the villages are electrified, followed by Dhrol Taluka (31.92), Jodiya Taluka (48.6). In remaining talukas the percentage of

the villages electrified varies from 25.0 (in Jamjodhpur Taluka) to 2.4 (in Okhamandal Taluka).

Ordinary surface wells are the main source of drinking water facility. Only 31 villages or 4.4 per cent of the total have tap water supply. Other sources of water supply include tube wells (one village), tanks (123 villages), and rivers (325 villages).

Only 111 villages or 15.7 per cent of the total are connected with pucca road. 227 villages or 32.2 per cent have post offices, and only 7 villages have both post and telegraph offices. 21 villages in the district have telephones.

(b) Bus Facilities

The details of villages connected by bus services have been incorporated in the village directory. Bus facility is considered to be available at the village if a bus stop is located within one mile of the village.

It would appear from the following figures, that only 140 villages or 19.86 per cent of the villages of the district are covered by bus facilities throughout the year. 345 or 48.94 per cent of the villages have this amenity only during fair season. However there are 220 villages which form 31.20 per cent of the total which are devoid of this basic amenity even during fair season. The following figures give the talukawise break up of villages connected by bus for the whole year and during fair season only.

Villages connected by Bus services

	Name of Taluka/ Mahal	Total number of inhabited villages	Number of villages having bus facilities for the whole year	Number of villages having bus facilities during fair season only	Number of villages without bus facilities
	1	2	3	4	5
1	Jamnagar	101	24(23.76)	50(49.50)	27(26.73)
2	Lalpur	71	22(30.99)	42(59.15)	7 (9.86)
3	Jamjodhpur	70	21(30.00)	34(48.57)	15(21.43)
4	Bhanvad	83	6(7.23)	35(42.17)	42(50.60)
5	Kalyanpur	65	16(24.62)	29(44.62)	20(30.77)
6	Okhamandal	42	13(30.95)	14(33.33)	15(35.71)
7	Khambhalia	82	22(26.83)	37(45.12)	23(28.05)
8	Jodiya	52	1(1.92)	4(7.69)	47 (90.38)
9	Dhrol	41	7(17.07)	20(48.78)	14(34.15)
10	Kalavad	98	8(8.16)	80(81.63)	10(10.20)
	Total	705@	140(19.86)	345(48.94)	220(31.20)

@(57 Uninhabited villages are not included.)
(figures in brackets indicate percentage to total villages in each Taluka).

It would be seen from the above figures that Lalpur (30.99 per cent), Jamjodhour (30.00 per cent),Okhamandal (30.95 per cent),Khambhalia (26.83 per cent), Jamnagar (23.76 per cent), and Kalyanpur (24.62 per cent) talukas have greater proportion of villages connected by bus services throughout the year as compared to rest of the talukas in the district. Bhanvad (7.23 per cent), Jodiya (1.92 per cent), Dhrol (17.07 per cent) and Kalavad (8.61 per cent) talukas have only a limited number of villages covered by this facility.

It would be seen from Column 4 that about 81 per cent of the villages in Kalavad taluka hava bus facilites only during fair season. This proportion for Lalpur taluka is 59 per cent. In the rest of the talukas it varies from 33.33 per cent to 49.50 per cent except Jodiya taluka which has only 4 villages (or 7.69 per cent) connected by bus services during fair season.

It would be seen from column 5 that Jodiya taluka has largest number of villages (47) without this basic amenity. About 90 per cent villages in this taluka are devoid of this facility. It is followed by Bhanvad taluka with 50.60 per cent of villages without this facility. This proportion in the rest of talukas varies from 9.86 per cent in Lalpur to 35.71 per cent in Okhamandal.

(c) Distribution of villages by area

The distribution of villages by their areas is given in the following table in 8 size groups.

TABLE No. 5

Distribution of the villages by their areas in acres

Sl. No.	Area in acres	Number of villages
1	2	3
1	50 acres or less	...
2	51 - 100	...
3	101 - 200	2(0.30)
4	201 - 500	7(1.04)
5	501 - 1000	36(5.35)
6	1001 - 2000	147(21.84)
7	2001 - 5000	358(53.19)
8	5001 acres and above	123(18.28)
	Total :-	673 @ (100.00)

@ Total number of villages in the district are 762.23 villages whose area is amalgamated with other villages are not included. In 66 villages area is not shown because they are either nesses or islands.
(Figures in brackets indicate percentage).

Out of 673 villages, 53.19 per cent villages have their area between 2,001 and 5,000 acres, 21.84 per cent villages have their area between 1,001 and 2,000 acres and 18.28 per cent have their area above 5,001 acres. Only 5.35 percentage of the villages have their area between 501 and 1,000 acres. No villages has area less than 100 acres.

(d) Distribution of villages by Educational Amenities

Table No. 6 below shows the distribution of villages having educational amenities by distance from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages having				
			Primary school	Middle school	Higher secondary school	College	Others
1	5 km. or less	46	44(95.65)	...	...	...	3(6.52)
2	6 - 10 km.	109	87(79.82)	...	2(1.83)	...	1(0.92)
3	11 - 15 km.	101	93(92.08)	...	7(6.93)	1(0.99)	9(8.91)
4	16 - 25 km.	252	222(88.10)	...	10(3.97)	...	7(2.78)
5	26 - 50 km.	187	179(95.72)	...	9(4.81)	...	10(5.35)
6	51 - 100 km.	10	10(100.00)	...	...	...	...
7	101 - 200 km.	...	...	...	...	...	...
8	201 km. and above	...	...	...	...	...	...
	Total	705@	635(90.07)	...	28(3.97)	1(0.14)	30(4.26)

@ (57 uninhabited villages are not included.)
(Figures in brackets indicate percentage to total number of villages in each distance group.)

Out of 705 inhabited villages 90.07 per cent of the villages have facility of primary school while only 3.97 per cent have the facility of secondary school. Other educational facility is available in 4.26 percent of the villages. Figures of the number of villages having primary schools indicate no relationship with the distance of the village from the nearest town. It could also be seen that no village within 5 km. from the nearest town has a secondary school. In the intervening groups villages with such facilities vary from 2 to 10 only.

No village beyond 50 km. from the nearest town has other type of school. Number of villages with such facilities varies from 1 to 10 in the rest of distance groups.

(e) Medical Facilities

Distribution of medical institutions per 100 sq. km. is given in the following table.

TABLE No. 7

Medical facility per 100 sq. km.

Sl. No.	Name of Taluka/ Mahal	Total area (in sq. km.)	Number of medical institutions of any kind per 100 sq. km.
1	Jamnagar	1,226	1.7
2	Lapur	1,075	1.5
3	Jamjodhpur	1,084	1.6
4	Bhanvad	732	1.9
5	Kalyanpur	1,412	1.5
6	Okhamandal	717	1.4
7	Khambhalia	1,214	0.9
8	Jodiya	869	2.1
9	Dhrol	570	1.6
10	Kalavad	1,244	1.2

It can be seen from the above table that number of medical institutions of any kind per 100 sq. km. is highest for Jodiya Taluka being 2.1, followed by Bhanvad (1.9), Jamnagar (1.7), Jamjodhpur (1.6) and Dhrol (1.6). In rest of the talukas it varies from minimum 0.9 (in Khambhalia) to 1.5 (in Lalpur and Kalyanpur).

(f) Electricity

Only 140 villages have electricity. The distribution of these villages by their distance from the nearest town is as under :-

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Sl. No.	Distance from the nearest town	Total Number of villages	Number of villages with electric power supply
1	2	3	4
1	5 km. or less	46	23(50.00)
2	6–10 km.	109	30(27.52)
3	11–15 km.	101	26(25.74)
4	16–25 km.	252	34(13.49)
5	26–50 km.	187	27(14.44)
6	51–100 km.	10	..
7	101–200 km.	..	..
8	201 km. and above	..	..
	Total	705@	140(19.86)

@57 Uninhabited villages are not included.

(Figures in brackets indicate percentage to total number of village in each distance group.)

Out of 705 inhabited villages only 19.86 per cent villages are having electricity. Proportion of the villages electrified sharply decreases with the increase of a distance from the nearest town.

(g) Communications

The following table gives the distribution of villages having different type of communication facilities by distance from the nearest town.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages connected by					
			Pucca Road	Kutcha Road	Pucca road and river	Pucca road and rail	Kutcha road and rail	Others
1	2	3	4	5	6	7	8	9
1	5 km. or less	46	11(23.91)	24(52.17)	..	7(15.22)	1(2.17)	3(6.53)
2	6 - 10 km.	109	12(11.01)	82(75.23)	..	9(8.26)	4(3.67)	2(1.83)
3	11 - 15 km.	101	18(17.82)	72(71.29)	..	4(3.96)	7(6.93)	..
4	16 - 25 km.	252	27(10.71)	204(80.95)	1(0.40)	3(1.19)	16(6.35)	1(0.40)
5	26 - 50 km.	187	15(8.02)	160(85.56)	..	3(1.61)	9(4.81)	..
6	51 - 100 km.	10	1(10.00)	9(90.00)	..	..	..	..
7	101 - 200 km.	..	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..	..
	Total	705@	84(11.91)	551(78.16)	1(0.14)	26(3.69)	37(5.25)	6(0.85)

@57 Uninhabited villages are not included

(Figures in brackets indicate percentage of the total number of villages in each distance group.)

It can be seen from the table that only 11.91 per-cent of the total inhabited villages have facility of pucca road. Only 0.14 per cent have pucca road and river, 3.69 per cent have pucca road and rail. It could be seen that proportion of villages having pucca road facilities decreases with the increase in distance from the nearest town. The same trend is observed in case of pucca road and rail. The trend is almost reverse in case of kutcha road and kutcha road and rail.

(h) Number of Post Offices

The following table gives the distribution of post offices per 100 sq. km.

TABLE No. 10

Number of post offices per 100 sq. km.

Sl. No.	Name of taluka/mahal	Total area in sq. km.	Number of post offices per 100 sq. km.
1	Jamnagar	1,226	2.9
2	Lalpur	1,075	2.3
3	Jamjodhpur	1,084	2.5
4	Bhanvad	732	2.5
5	Kalyanpur	1.412	1.6
6	Okhamandal	717	0.8
7	Khambhalia	1,214	1.6
8	Jodiya	869	3.9
9	Dhrol	570	1.9
10	Kalavad	1,244	2.3

It can be seen that Jodiya taluka has the largest number of post offices per 100 sq. km. being 3.9 Jodiya is followed by Jamnagar (2.9), Jamjodhpur (2.5), Bhanvad (2.5), Lalpur (2.3) and Kalavad (2,3). In rest of the talukas it varies from 0,8 to 1 9 per 100 sq. km. Okhamandal has the lowest number of post offiees per 100 sq. km. being only 0.8.

(i) Staple Food

Wheat, Bajri and Jowar constitute the staple food of the District.

Distribution of villages by staple food

Sl. No.	Name of taluka/mahal	No. of villages reporting staple food				
		Bajri	Jowar	Wheat	Rice	Maize
1	Jamnagar	101	73	98	44	4
2	Lalpur	71	62	68	11	..
3	Jamjodhpur	70	64	70	3	..
4	Bhanvad	83	28	56	1	..
5	Kalyanpur	65	52	62	10	..
6	Okhamandal	41	41	9	4	..
7	Khambhalia	81	61	51	..	..
8	Jodiya	52	48	43	12	..
9	Dhrol	41	41	32	15	..
10	Kalavad	97	68	98	95	..

(j) Land Use

The following table gives the percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town. The cultivable waste land includes pastures and grazing land and area under miscellaneous trees and groves but does not include orchards.

TABLE No. 11

Percentage of average cultivable waste per village to average cultivated land per village by distance group from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7	8
1	5 km. or less	46	88,142	1,916.1	12,882	280.0	14.61
2	6 - 10 km.	109	175,778	1,612.6	33,367	306.1	18.98
3	11 - 15 km.	101	222,320	2,201.2	35,502	351.5	15.97
4	16 - 25 km.	252	488,563	1,938.7	86,884	344.8	17.79
5	26 - 50 km.	187	480,848	2,571.4	85,739	458.5	17.83
6	51 - 100 km.	10	37,162	3,716.2	8,024	802.4	21.59
7	101 - 200 km.	..	..	..	..	..	..
8	201 km. and above	..	..	..	..	..	..
	Total	705	1,492,813	2,117.5	262,398	372.2	17.58
	Uninhabited	57	..	..	..	..	..
	Grand Total	762	1,492,813	2,117.5	262,398	372.2	17.58

It can be seen from the table that average cultivated land per village comes out to 2117.5 acres for the district. It is more or less the same for the distance groups 5 km. or less and 16 to 25 km. For the former group it is 1916.1 acres and for the latter it is 1938.7 acres. It does not show any trend with the distance from the nearest town. Average cultivable waste per village works out to be 372.2 acres for the district as a whole It is clearly seen that average cultivable waste per village increases with the increase of distance from the nearest town except in the distance group of 16 to 25 km. The percentage of average cultivable waste per village to average cultivated land per village is 17.58 per cent for the district. This percentage for the villages in the distance groups 16 to 25 km. and 26 to 50 km. nearly correspond the district average, whereas it is greater for the villages situated in the distance group of 6 to 10 km. and those situated beyond 50 km.

† Note :- Rainfall and temperature data for Dwarka town have been obtained from the Director General of Observatories, Meteorological Department, Government of India-Corresponding figures for Jamnagar city have been obtained from the Director, Regional Meteorological Centre, Bombay. For the rest of the towns the data have been obtained locally.

* As the temperature figures for Beyt towns are not available the temperature figures of Okha Port which is the nearest town have been adopted.

† Similarly, the temperature figures for Bhanvad, Kalavad and Lalpur not being available, those of Khambhalia have been adopted for Bhanvad and of Jamnagar for Kalavad and Lalpur towns.

Note : —

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

† Area of Dhola Dhuna Nes village is included in that of the village Killeswar Nes (L. C. No. 69).

†† Area of Vi Nes village is included in that of the village Ranpar (L. C. No. 55).

Note:—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of primary, secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

N. A. = Not available.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

N. A. = Not available.

Area of villages having L. C. Nos. 43 to 78 is included in that of the urban town Beyt (L. C. No. X).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Area of Mevasa (Haripar) village is included in that of the village Haripar (Mevasa) (L. C. No. 86).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

PART X-B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1971 Census provides information in respect of each village in rural area and town/ward/enumerator's block in urban area. It gives information about the area of the village in acres and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literate and educated persons. The entire population of each village/urban enumerator's block is divided into nine industrial categories of workers and non-workers as under :—

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs
- (a) Household Industry
- (b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

X Non-workers

The sexwise break-up of total workers (industrial category I to IX) have been presented, in addition to similar break-up for each industrial category of Worker and Non-worker.

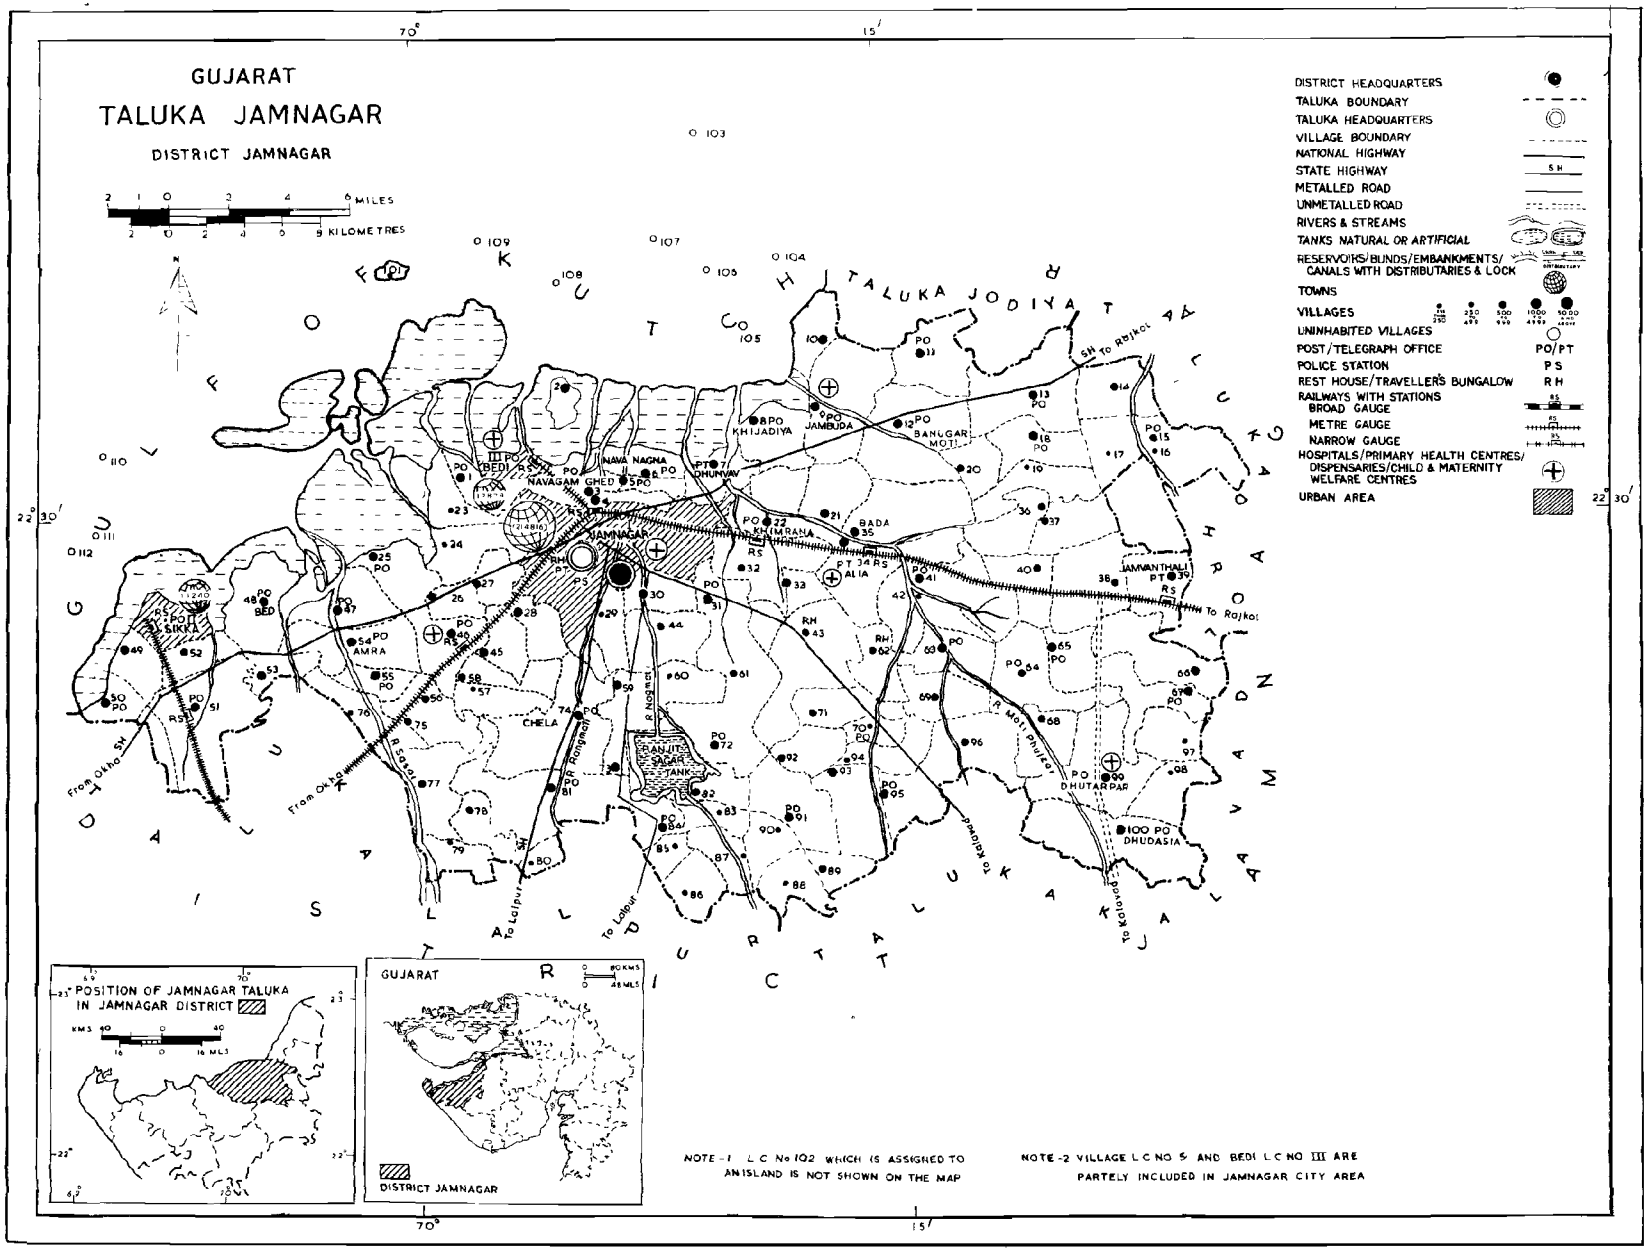

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	Cantonment	Cantt.
7	Not Available	N A

The following conversion factor has been used for converting acres into Km.^{2}

Acres x 0.004047 = Km.^{2}

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

† 270–00 Acres have been included in Jamnagar City.

†† Included in the area of Khambhalida Motovas village.
