CENSUS, 1951

RAJASTHAN AND AJMER

DISTRICT CENSUS HANDBOOK

JALORE

PART I - GENERAL DESCRIPTION AND CENSUS TABLES.

Pt. YAMUNA LAL DASHORA, B.A., LL.B.,
Superintendent of Census Operations,
Rajasthan and Ajmer.

BIKANER
PRINTED AT THE GOVERNMENT PRESS
1954.

LIST OF CONTENTS.

S. No.	Particulars	
1.	Introduction	i-vi
2.	Review of population figures	1-7
3.	Scheme of census tables	8
4.	Definitions and key to symbols	9-10
5	District census data at a glance	11-13
6.	A—*General Population tables*—	
	A- I Area, Houses and Population	15
	A- II Variation in population during fifty years	15
	A- III Towns and villages classified by population	16-17
	A- IV Towns classified by population with variation since 1901	18
	A- V Towns arranged territorially with population by livelihood classes.	19
7.	B—*Economic Tables*—	
	B- I Livelihood classes and sub-classes	24-27
	B II Secondary means of livelihood	28-37
	B- III Employers, employees and independent workers in industries and services by divisions and sub-divisions	38-60
8.	C—*Household and Age (sample) Tables*—	
	C- I Household (size and composition)	61
	C- II Livelihood classes by age groups	62-65
	C- III Age and civil condition	66-68
	C- IV Age and literacy	69-71
	C- V Single year age returns	72-89
9.	*Social and Cultural Tables*-	
	D- I (i) Mother tongue	80
	(ii) Bilingualism	81
	D- II Religion	81
	D- III Scheduled castes and scheduled tribes	81
	D- IV Migrants	82
	D- V (ii) Displaced persons by livelihood classes	83
	D- VI Non-Indian Nationals	83
	D- VII Educational Standards	84-85
10.	E—Summary figures by administrative units	86-87
11.	Local (क) *Infirmities*	88-89
12.	District Index of Non-Agricultural Occupations.	91-106

PREFACE.

The Census Reports in olden times were printed one for the whole Province of Rajputana and another for Ajmer Merwara. Some of the Principal States now merged in Rajasthan published their own reports. This time the State Census Reports have been published in the following volumes;—

1. *Part I-A* Report.
2. *Part I-B* Subsidiary Tables and District Index of Non-Agricultural Occupations.
3. *Part I-C* Appendices.
4. *Part II-A* General Population Tables, Household and Age (Sample) Tables, Social and Cultural Tables, Table E Summary Figures by Administrative Units, and local 'KA' infirmities.
5. *Part II-B* Economic Tables.

They contain statistics down to the district level.

The idea of preparing the District Census Handbook separately for each district was put forward by Shri R. A. Gopalaswami, I. C. S., Registrar General, India, and ex-Officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the village statistics in the past. In accepting this suggestion, the Government of Rajasthan decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

This Handbook contains five General Population Tables of A Series, three Economic Tables of B Series, five Household and Age Tables of C Series, seven Social and Cultural Tables of D Series, one table E giving summary for the district and tehsils, a local table 'KA' showing infirmities by age groups and an Index of Non-agricultural Occupations. Each table contains an explanatory note necessary for the proper understanding of the figures. The numbers given to the tables in this Handbook correspond to those given in State Census Reports.

Village Directories were published for the first time in 1931 by a few States of Rajputana. The example was followed by all the States in 1941. They contained for each village the population figures by religion and also some other useful information. They were bound in a volume one for each State. This time the Village Directories are also incorporated in this Handbook under the name of "Primary Census Abstract and Village Directory" which show the basic population figures separately for each village or town-ward classified by livelihood classes instead of religion and also some information of general nature.

Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, agriculture, education, industries and other matters of general interest. The information contained in the introductory note is based on the material furnished by Collectors of districts and Departments of Government.

In addition to the above, some figures of general interest and a review of population figures have also been incorporated.

The scheduled date for the publication of the Handbooks as prescribed by the Registrar General, India, was, " Not later than March, 1952 " but practical experience showed its publication by that time an impracticability. Even the compilation of the tables together with its final touch could not be completed by that time. Then came the question of printing which proved to be a huge task. There are 25 districts in Rajasthan and 1 in Ajmer. The total number of printed pages turned out to be nearly 9000. The Government Presses were already over burdoned with the printing work of other departments and in the printing of census publications priority was given to Central Government Publications *i.e.* the State Census Reports. The result was that till March, 1954, for 14 out of 26 districts the P. C. A. and Village Directory could not be printed specially because the press had no stock of small type which was essential for their printing. It was, therefore, decided to publish the handbooks in two volumes. Part I, consists of introduction, a brief review of population figures and,

(1) General population Tables (A-I to A-V.)

(2) Economic Tables (B-I to B-III)

(3) Household and Age (Sample) Tables (C-I to C-V)

(4) Social and Cultural Tables (D-I to D-VII)

(5) E-Summary figures by Administrative Units,

(6) Local Table ' K.A ' infirmities, and

(7) District Index of Non-Agricultural Occupations.

Part II contains only Primary Census Abstracts and Village Directory.

The Handbooks of the Ajmer, Sirohi and Jhalawar Districts are, however, being published in one volume because they have been completed by this time.

While every care has been taken to ensure the correctness of figures and village names, certain mistakes might have crept in. I shall be grateful if they are brought to my notice.

Y. L. DASHORA.

JALORE DISTRICT.

INTRODUCTION.

I – Physical Aspects.

(a) Position, area and boundary.

1. The District lies in the extreme south-west of Rajasthan, comprising of the three Tehsils of Jalore, Jaswantpura and Sanchore. It is situated between 24°·30′ and 25°·45′ north Latitudes and 70°·54″ and 73°·6′ east Longitudes. It is bounded on the east by Sirohi and Pali districts, on the south by Bombay State on the west by Thar Parkar. district of Sind (Pakistan) and on the north by Barmer district. Its area is 4,923·6 sq. miles as supplied by the Surveyor-General of India.

(b) Configuration and hills.

2. The Aravalli Range forms the eastern boundary of the district, the eminent peak being that of Sunda Hills of Jaswantpura, 3,253 ft. above sea level. There are a number of detachments of the range lying within Tehsil Jaswantpura which serve as water supply sources for the low-lying country. Another group of Hills lies in the centre of Jalore known as Songiri Hills (2,408 ft. above sea level). There are still other minor clusters of hills near Borta and Ledarmare to the north of Bhinmal.

(c) Rivers.

3. Besides the hills and rocky out-crops, rivers play an important part in this tract. The Luni River enters at the northern border of Tehsil Sanchore and flows southwards to drain its water into the Runn of Cutch. While thus flowing through Tehsil Sanchore, it floods some areas on its banks in villages Guda Hema, Keria, Chitalwana etc. The flooded area, known as Naid (Rel) is one of the best alluvial lands which produce excellent wheat crop. Another river viz Jawai flowing through Jalore joins the Luni River. The forest-clad hills of Jaswantpura are the source of several other stream-lets and one of these rising from the Sunda Hills, viz. "Sagi" is perennial and it flows through the village Chitrodi, Khanda Deval etc. throughout the year in a narrow bed. The rivers and hill torrents bring abundant water by percolation into the numerous wells which lie along their banks.

(d) Botany.

4. It abounds in trees like babool, Neem, Sandeshra, Khejri, Jal, etc.

(e) Fauna.

5. Tigers, leopards, jackals, pigs, deer, nilgai are found in the district.

(f) Underground water level.

6. The underground water-level in the district is 20 to 50 feet.

II. – History.

7. Jalore was held by the Paramara clan of Rajputs till towards the end of the twelfth century when the Chauhan Rao Kirti Pal (or Keytu), the fifteenth in descent from Rao Lakhan (or Lakshman Raj) of Nadol, took it and made it his capital. His grandson Udai Singh surrendered it to Shams-ud-din Altamsh about 1210, but it was immediately restored to him under the following circumstances, as related by Hasan Nizami in his Taj-ul-maasir: – "The king took his way towards Jalewar (Jalore) by the aid of God, and by reason of the scantiness of water and food it was a matter of danger to traverse that desert, where one might have thought that nothing but the faces of demons and spirits could be seen, and the means of escape from it were not even written on the tablet of providential design. Udai Sah, the accursed, took to the four walls of Jalewar, an exceedingly strong fortress, the gates of which had never been opened by any conqueror. When the place was invested by Shams-ud-din, Udai Sha requested some of the chiefs of the royal army to intercede for his forgiveness. While the terms of his surrender were under consideration two or three of the bastions of his fort were demolished. He came with his head and feet naked, placed his forehead on the earth and was received with favour. The Sultan granted him his life, and restored his fortress, and in return the Rai presented respectfully a hundred camels and twenty horses, in the name of tribute and after the custom of service."

8. About a hundred years after this event, Ala-ud-din after a lengthy siege, captured the place from Kanar Deo Chauhan (third in descent from Udai Singh), and a three domed mosque, said to have been built by him, is still in good repair and daily use. The Muhammadans appear to have remained in possession till about 1540 when both the fort and district were acquired by Rao Maldeo but only for a short time; the emperor Akbar and his immediate successors undoubtedly held sway here, though not uninterruptedly, and it is interesting to read that an ancestor of the ruler of Palanpur held the district, as a grant from Aurangzeb, from 1682 till 1689 when, "being unable to withstand the increasing power of the Rathors of Marwar", he was "compelled to quit the country and retire to Palanpur". It is probable that the town and district of Jalore became permanently a part of the Jodhpur State soon after Aurangzeb's death in 1707.

III. - People.

Towns and villages.

9. The are 4 towns and 686 villages in this district.

Language.

10. The principal language of the people is Marwari, a dialect of Rajasthani.

Food and dress.

11. The staple food is Bajra and Moth but well-to-do classes use wheat, and rice also. Dhoti, Kurta and Potia (head dress) constitute the dress of the rural male population and that of the females consists generally of Ghagra (skirt) and Kanchli (bodice) who put on Odhni as their head-dress. In towns the people use finer stuff and adopt various sorts of fashions of dress, though ordinarily their dress consists of Safa, Pagri or Cap, Kurta, Coat and Dhoties.

Dwellings.

12. In towns the houses are mostly Pucca (stone built) though the poorer sections still live in Katcha houses, plastered with cowdung and clay with thatched roofs, Katcha huts of Akra and Khimpra are the dwellings of the people of the rural area. The following proverb reveals the true picture of the people of this district.

"Akra-ka-Jhunpra-aur-kanta-ke-bar, Bajra-ka-sogra-aur motha-ki-dal. Dekhi Raja Mansingh tharee Marwar" (the cottages made of Akra shrub fenced with kanta (thorny shrub) for their dwellings and cakes made of bajra to be eaten with Moth-ki-dal. Such is the sight presented by your Marwar, O, Raja Man Singh.)

Rituals.

13. Rituals at birth, marriage and death are the same as in the other districts of Jodhpur Division.

Festivals.

14. The people in the district observe the same festivals as in the whole Jodhpur Division; among the Hindus, Holi, Dewali, Raksha Bandhan, Akshai Teej, etc., and the Muslims the two Ids etc., are the common festivals.

IV - Economic.

(a) Agriculture, (General conditions of Soil).

15. The principal occupation of the people is agriculture. The soil in this district being much diversified in physical characteristics may be grouped into three circles as under:—

(*i*) Sandy in Thal in north-western portion.

(*ii*) Good sandy in middle portion.

(*iii*) Loam in south-eastern portion.

(*i*) The Thal circle includes the extreme northern-western portions of Tehsils Jalore and Jaswantpura and the entire area of Tehsil Sanchore which is sandy except the belt of alluvial lands along the Luni River in villages Keria, Guda Hema, etc. where some emerging land is capable of growing "Senwaj" crop of Wheat. The shrubs are few and stunted in the sandy tract.

(*ii*) The good sandy circles or the middle belt is an admixture of sandy and loam soils. It covers the middle portion of the Tehsils Jalore and Jaswantpura. Here we find better vegetation.

(*iii*) The loam in the south-eastern portion in this district is directly influenced by the Aravalli Range and its off-shoots which supply water and soil to this land. The region is semi-mountainous covered with thick vegetation. It is full of wells having abundant water.

Rainfall and climate.

16. The average annual rainfall is 14" in Jalore, 19" in Jaswantpura and 15" in Sanchore but it is precarious as in the most parts of the Jodhpur Division. The stability of agriculture in the good sandy and loam circles depends on the flow of the rivers consequent upon a copious down-pour, while in the Thal area what is essential is a regular and timely rainfall for the crops to mature.

The main agricultural communities in this tract are Kalbies, Bhils, Bishnoies, Kheti-har-kumbhars, Bhambies, Minas and Rajputs. Jats and Malies are found in a small number.

The climate is generally healthy. That of Sanchore is dry except that the "Rel" flooded villages of Guda Hema, Keria, Chitalwana etc., are malarious. Malaria has taken a large toll of the population of this tract. Jalore is very hot in summer but Jaswantpura is comparatively cool due to its fertility and forestclad Hills.

Agriculture statistics.

17. The normal acreage and food production of the district are as under:—

Crop	*Acreage*	*Normal production per acre*	*Estimated production in tons*
	Kharif Crops.		
Bajra	682,662	2½ Mds.	58,809
Maize	1,870	10 „	668
Cotton	2,409	10 „	860
Til	70,695	2½ „	6,097
Jawar	1,562	3¾ „	209
Pulses	16,170	2½ „	1,443
	Rabi Crops.		
Wheat	52,415	15 Mds.	28,079
Barley	5,566	17½ „	3,478
Gram	88	5 „	15
Rapeseed	2,002	2½ „	178

Banking facilities.

18. Indebtedness is believed to be high in Jalore and Jaswantpura as in double crop growing areas, the money lender has a fast hold on the cultivators. In Sanchore, the Bisnnois and Kalbies are not so much indebted.

During recent years the condition of the agriculturists has improved on account of high prices of food grains.

19. Cooperative Credit Societies have been established in several important villages and towns which are expected to multiply as their benefits are manifested to the people.

Live Stock.

20. Sanchore tehsil is principally pastoral and is famous for its fine breed of bovine cattle. The Sanchore bullock is a short bony animal and the Sanchori cow a good milker Large herds of these cattle are reared by the Sindhis who find a ready market for them at the Tilwara fair held in the month of April in Tehsil Pachpadra.

21. For introducing up-to-date methods of cultivation and saving the crops from damage by pests, locusts etc, the Agriculture Department is active, as a result of which

the conditions have considerably improved. For ensuring the health of cattle there are veterinary hospitals at important centres viz. Jalore, Bhinmal and Sanchore.

(b) Rent, wages and prices.

22. The rents payble by the peasants in Khalsa villages are easy ones in cash based on low prices of the slump period. The rents in Jagir area are paid in kind *i. e.* a share of the actual produce. The prices of agricultural products are very high. The wages of skilled labour vary from Rs. 2/- to Rs. 5/- while those of unskilled labour vary from Re. 1/- to Rs. 2/- per day.

(c) Forest

23. Forests in this district are scanty and are confined to hill slopes. The products are fire-wood, char-coal, gum, honey and bamboos. There is no scope for further afforestation.

(d) Arts & Manufature.

24. There is no industry worth mention which is commercially sound. Jalore is famous for its "Reza" and "Tukri" and Bhinmal for its "Shoes." Reza and Tukri are not in demand in competition with mill-made cloth imported from out-side, and the industry is dying out. The number of small Scale Industrial establishments in the district according to 1951 Census is 3,615 with 11,729 persons working in them.

(e) Commerce and trade.

25. Owing to adequate rail and road facilities, Mandies exist at Jalore, Bhinmal and Sanchor.

(f) Means of communication

26. A railway branch line runs from Samdari to Raniwara through Tehsils Jalore and Jaswantpura having principal stations at Jalore, and Bhinmal. A secondary road connects Jalore with the Pali—Sumerpur section of the Grant Trunk Road. There is a road from Bhinmal to Jaswantpura and Raniwara to Sanchore. Thus the entire tract is accessible by Rail or Road except in rainy season when the tract beyond Sanchore village upto Bakasar becomes inaccessible owing to the swampy nature of the land.

(g) Post Offices.

27. A list of Post Offices in this district is given in Appendix 'A'.

V. Administration.

28. The collector is at the helm of the general Administration of the District. He is both a full-fledged Revenue Officer and a District Magistrate. The Civil work is of course dealt with independently by Munsiffs controlled by the High Court. There are Assistant Collectors or S.D.O.s at Jalore and Bhinmal who are Revenue Officers and 1st Class Magistrates. There are 3 Tehsils in this District viz. Jalore, Jaswantpura and Sanchore.

Land Revenue and Tenure.

29. The Khalsa villages are cash-rented and regularly settled There are two kinds of tenures viz. Bapi and Muafi. The Muafidars are Rent-free holders of land, *e.g.* Dolidars, Bhomias, Junajagirdars etc. There are two sorts of tenants viz. Bapidars and Gair Bapidars. The Bapidars are Patta holders who pay a fixed annual rent at rates evolved in the course of settlement. Their interests in the holdings are heritable and transferable. They can make transfers of lands permanently, and also temporarily but for a period of not more than 3 years. This restriction of sub-letting has been imposed in the interest of the real tillers of Soil with a view to check all intermediaries indulged in profiteering. The Ghair Bapidars are year to year tenants. Their rights are not transferable. Patwaries are responsible for the collections of Land revenue of the Khalsa villages. There is a regular Tenancy and Revenue Act for the proper functioning of the land Administration.

30. In this district the Jagir area is 10 times that of Khalsa. No income accrues from the Jagir areas to the Government except Rekh, Chakri etc (Tribute) payable by the Jagirdars.

Grow more food activities

31. The Khariff cultivation depends wholly on rains. If the rains are good, almost all lands fit for cultivation are voluntarily brought under the plough by the cultivators. Since there is uncertainty of rains every year, normal Kharif cultivation cannot be guaranteed year in and year out.

32. The Rabi cultivation depends upon the strength of wells and Bundhs. There is great scope for extensive Rabi cultivation in Tehsil Jalore if the Jawai Project is speeded up and water is given for Nehri Irrigation. There are about 30 villages of Tehsil Jalore which fall within the commanded area of the Jawai project. All the Barani Lands in the Tehsil are liable to become Nehri. This is the only guaranteed source for growing more food crops.

VI Public works.

33. The staff of the Rajasthan Government Public Works Department looks after the Government Buildings and roads. There are no Public Works at present worth mentioning.

VII. Protection.

34. In addition to the military posted on Pakistan border, there are regular Police Forces stationed at Police Stations for internal peace and safety. A list of Police Stations is given in Appendix "B".

VIII. Education.

35. There are two High Schools at Jalore and Bhinmal, four Gouernment Middle Schools al Jaswantpura, Sanchore, Malwara and Umedabad and Primary Schools at all important villages. A list of Schools is given in Appendix "C".

IX. Public Health.

36. There are Allopathic dispensaries at Jalore, Bhinmal, Malwara and Sanchore and nine Ayurvedic Aushdhayalayas at Ahore, Bakra, Gura Balotan, Bagra, Siana, Janvi, Jhab, Jaswantpura and Bhinmal. There is also a proper arrangement for periodical vaccination.

X. Local Self Government

37. There are Municipalities at Jalore and Bhinmal and 57 Panchayats functioning in important villages. These local bodies are yet in infancy, because the people are backward. The public does not take as much interest as it should. A list of village Panchayats is given in Appendix "D".

XI. Miscellaneous.

Jalore Town.

38. This town lies at the foot of Songiri Hill crowned with a fortress 2,408 feet above sea-level. It attained eminence in olden times when warfare and feuds were common, owing to its strategic importance and ensured safety to the rulers. It was one of the most famous forts in Rajasthan. Built early in the Christian era by the Paramara Rajputs, its walls composed of huge masses of cut stone, remain even now in a perfect state of preservation, although the place has been many times besieged. The fort is about 800 by 400 yards in extent and accessible only by an ascent of 3 miles, over a steep and slippery stone roadway passing three distinct lines of defence, all of considerable strength, it is amply supplied with good drinking water from a couple of tanks within the walls and possesses several handsome palaces and temples as well as the tomb of Malik Shah, a noted Mohomedan Saint. It possesses a combined Post & Telegraph Office, High School and a Hospital. According to the 1951 Census it contains 9,387 inhabitants.

Bhinmal Town.

39. The old name of the place was Srimal or Bhillamala (the Pi-lo-mi-to of the Chinese pilgrim Hiuen Tsiang). It was the ancient capital of the Gujars between the 6th and 9th centuries, but very few traces now remain. One of its several gates the Gujrati darwaza, though in ruins, is still distinguishable. A dozen old tanks and wells, the stone image of a king seated on a sinhasan (lion-supported throne) and a number of temples are of antiquarian interest, and several Sanskrit inscriptions referring mostly to the time of the Pramara and Chauhan rulers, have been found. It owes its importance to its being the Head Quarters of Sub-Division. It was far more important in olden days when it was the centre of business, flourishing trade and populated with moneyed people known as Shreemals, which fact is corroborated by the results of excavations where in images of antiquity have been found and bricks are even now unearthed when required for building purposes. It is said that due to some natural calamity, the old town was buried under-ground and the present town sprang up in its place. Owing to Rail and Road facilities, Mandi or market of grain has sprung up at Bhinmal and it is a fairly important Mandi in this district.

APPENDIX A.

List of Post Offices in the Jalore District.

1. Ahore.
2. Bhinmal.
3. Daspan.
4. Jalore.
5. Jaswantpura.
6. Malwara.
7. Modron.
8. Movslim.
9. Raniwara.
10. Sanchore.
11. Sayla
12. Siana.
13. Sirona.
14 Umedpur.
15. Vadgaon.

APPENDIX B.

List of Police Stations in the Jalore District.

1. Bakhasar.
2. Bagora.
3. Bhawatra.
4. Bhinmal.
5. Jalore.
6 Jaswantpura.
7. Modran.
8. Nosra.
9. Raniwara.
10. Sanchore.
11. Shedwa.
12. Umedpur.
13. Babatra.

APPENDIX C.

List of Schools in the Jalore District.

High School:—

1. Darbar High School, Jalore.
2. Darbar High School, Bhinmal.

Government Middle School:—

1. Darbar Middle School Jaswantpura.
2. Darbar „ „ Sanchore.
3. Darbar „ „ Malwara.
4. Darbar „ „ Umedpur.

Government Boys Primary Schools .... 55.

Government Girls Primary Schools ... 3.

Aided Boys Primary Schools .... 3.

APPENDIX D.

List of Gram-Panchayats in Jalore District.

Tehsil Jalore.

1. Ahore.
2. Bhuti.
3. Bhwari.
4. Wagara.
5. Saila.
6. Wala.
7. Sidhu.
8. Gudha-balotan.
9. Bhavarani.
10. Padardi.
11. Sankhwali.
12. Chadri.
13. Akoli.
14. Raithal.
15. Othwala.
16. Wakra.
17. Thanwala.
18. Harji.
19. Kabrada.
20. Dayalpura.
21. Mandwla.
22. Bhenswada.
23. Mengalwa.

25. Pavata.
26. Balwada.
27. Keswana.
28. Panthedi
29. Dudli.
30. Sakrana.
31. Umedpur.
32. Alasara.
33. Wavtra.
34. Chorau.
35. Goole.
36. Jiwara.
37. Khetra.
38. Sirana.
39. Surana.
40. Tiloda.

Tehsil Sanchore.

1. Sanchore.
2. Gudha Hema.
3. Vakasar.

Tehsil Jaswantpura.

1. Wadgaon.
2. Malwada.
3. Mandoli.
4. Raniwada Kalan.
5. Raniwada Khurd.
6. Ramsin.
7. Dhur.
8. Dumadiya.
9. Junjani.
10 Moreseem.
11. Narsana.
12. Tawav.
13. Sikwada.
14. Wagoda.

JALORE DISTRICT

REVIEW OF POPULATION FIGURES.

Introduction.

1. The district lies in the extreme south-west of Rajasthan. It is situated between 24° 30′ and 25° 45′ north latitudes and 70° 54′ and 73° 6° east longitudes. It is bounded on the east by Sirohi and Pali districts, on the south by Palanpur (Bombay) and Cutch, on the west by Thar Parkar district of Sind (Pakistan) and on the north by Barmer district.

2. It comprises the three Tehsils of Jalore, Jaswantpura and Sanchore.

Population.

3. This district consists of 4 towns and 686 villages, having a population of 459,467 persons, (males 240,220 and females 219,247) of whom only 28,051 persons or 6·1 per cent reside in the urban units and rest in the rural ones. This district stands 16th in respect of population among the districts of Rajasthan vide Annexure "A". A majority of villages are of the smallest size with a population below 500 persons. There are 4 towns Jalore, Ahore Siana, and Bhinmal.

4. The population of this district as composed on March 1, 1951, according to Census of 1941, was 399,570 (males 207,989 and females 191,581). The last decade has witnessed an increase of 59,897 *i. e.* 15·0 per cent. This district occupies 13th position in the districts of Rajasthan with respect to growth of population, vide Annexure "B". Its growth is above the average growth in Rajasthan by 0·1 per cent. This growth in the urban units has been as high as 81·3 per cent while in the rural units it is only 12·3 per cent.

Area and Density.

5. The area of this district is 4,923·6 sq. miles (supplied by Surveyor General of India). It thus covers 3·8 per cent of the total area of the State and stands 10th in respect of area when compared with the other districts of Rajasthan, vide Annexure "C". The Director of Land Records, Rajasthan, states the area of the district to be 4,730 sq, miles. It has a density of 93 persons per square mile. It was 81 in 1941. It stands 19th among the districts of Rajasthan in that respect. Its density is below the average density of Rajasthan which is 117 and above that of Jodhpur Division (62) of which it forms a part vide Annexures "D" and "F".

Occupied houses, households, family composition and sex ratio.

6. The number of occupied houses in this district is 86,959 which are inhabited by 93,126 households; (79,555 houses occupied by 84,981 households in rural areas and 7,404 houses occupied by 8,145 households in urban units).

7. The number of persons per occupied house is 5·3 (5·4 in rural and 3·8 in urban units) and the same was the proportion in 1941. The average composition of a household is 5·1 persons in rural and 3·4 in urban units. The household population of the district is 459,163 (431,112 in rural and 28,051 in urban) *i. e.* 304 less than the total population. This last figure represents the houseless persons and inmates of institutions etc. The number of females per thousand males in this district is 913 in total population and 912 in household population. It was 921 in total population in 1941 vide Annexure "E". In the rural units it is 909 and in the urban units it is 964.

Literacy.

8. The number of total literates is 18,461 or 40·2 per thousand (males 16,801 *i. e.* 70·0 per thousand, females 1,660 *i. e.* 7·6 per thousand). The condition is different in rural from urban units as is depicted in the inset table.

Number of literates per thousand of

	Persons	Males	Females
Rural	30·8	55.0	4·0
Urban	185·0	306·0	59·2

Principal means of livelihood.

9. The strength of persons depending directly or indirectly upon agriculture is 339,385. They form 73·9 per cent of the total population and if we take out of consideration those who are not directly in touch with land *i.e.*, non-cultivating owners of land and their dependants, the percentage of actual agriculturists and their dependants comes to 72·2. Among the agriculturists the largest percentage *i. e.*, 54·3 is that of cultivators of land, wholly or mainly unowned, and their dependants. Cultivators of land wholly or mainly owned and their dependants form a percentage of 13·4 only. The cultivating labourers and non-cultivating owners of land are 4·5 and 1·7 per cent respectively.

10. Non-agricultural category forms 26·1 per cent and among themselves the large majority depend upon "Other services and miscellaneous sources" who form 11·2 per cent of the general population. Industrialists comprise 8·0 per cent, traders are 6·7 per cent and transport industry supports 0·2 per cent only.

11. In the rural units the agricultural classes form 76·8 per cent of the total rural population and the non-agricultural classes form 23·3 per cent, of whom cultivators of owned land and their dependants form 13·8 per cent, cultivators of unowned land and their dependants form 56·6 per cent, cultivating labourers and their dependants form 4·7 per cent while the non-cultivating owners of land form 1·7 per cent only.

12. Of the non-agricultural category the largest majority belong to the "Other services and miscellaneous sources" class being 10·0 per cent and those deriving their principal means of livelihood from industrial activities rank second being 7·4 per cent. Traders come next as they form 5·7 per cent. Transport stands last with a percentage of 0·2.

13. In the urban units the owner cultivators and the cultivators of unowned land are 7·9 and 19·1 per cent respectively of the total urban population. The cultivating labourers and non-cultivating owners of land are 1·3 and 1·6 per cent respectively. The non-agricultural category forms 70·1 per cent. The largest group depends upon "Other services and miscellaneous sources" forming 29·9 per cent, traders being 22·0 per cent and industrialists 17·0 per cent only. 1·2 per cent of the population are engaged in transport industry.

Economically inactive persons.

14. Economically inactive persons can be grouped into two categories—(*a*) Those who earn their livelihood without any activity *e. g.*, pensioners, stipend holders and receivers of rent from land or buildings or interest and (*b*) those whose activities are uneconomic in their nature *e. g.*, beggars, prostitutes etc. The number of such persons in this district is 3,232 (2,349 males and 883 females). They form 0·72 per cent of the total population of the district. Their further details are given in District Economic Table B. III. Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-divisions.

Language.

15. The principal language of this district is Marwari which is really a dialect of Rajasthani. It is spoken by 445,512 persons *i.e.*, 96·98 per cent. Of the other languages or dialects spoken in this district, Western Hindi is spoken by 11,444 persons or 2·5 per cent of the population. The number of speakers of other languages is insignificant being less than one per cent.

Religion.

16. A vast majority of the people of this district are Hindus being 89·6 per cent, next come Jains who are 5·5 per cent, Muslims rank third being 4·9 per cent of the population. Sikhs and Christians combined form even less than one per cent.

Scheduled Castes.

17. The Scheduled castes population enumerated in this district is 17,240 *i e.*, 3·75 per cent of the total population and there is none belonging to Scheduled tribes. A list of Scheduled castes notified by the Government of India is appended as Annexure "G".

Migrants.

18. Of the persons enumerated in this district 97·1 per cent are born in the district itself, while those born in other districts of Rajasthan are 2·4 per cent. For districtwise details of the above items see District Table D. IV (Migrants). Persons born in India outside Rajasthan are 1,384 that is 0·3 per cent and those born in countries in Asia beyond India are 796 *i.e*, 0·2 per cent only.

19. The number of displaced persons in this district is only 829. All have immigrated from West Pakistan (587 in 1947, 77 in 1948, 99 in 1949, 65 in 1950 and 3 in 1951). Majority of them 548 *i. e.*, 66·1 per cent are traders. 60 *i. e.*, 7·2 per cent earn their livelihood by 'Other services and miscellaneous sources'. Industrialists are 45 *i. e.*, 5·4 per cent. Those who are engaged in transport are 14 *i. e.*, 1·7 per cent. Cultivators of owned and of unowned land are 18 and 144 *i. e.*, 2·2 and 17·4 per cent respectively.

Displaced Persons.

20. In this district the total number of persons afflicted by infirmities (the blind, the deaf-mutes, the insane and the lepers) are 1,968 that is 4·3 per thousand. Blindness is the most prominent, the number being 1,626 that is 3·5 per thousand. Persons afflicted by the rest of the infirmities are 0·74 per thousand only. 45·2 per cent of the total blind persons are in the age group 55 and over. Similarly 18·6 per cent of the total deaf-mutes, 11·2 per cent of the total insane and 12 per cent of the total lepers are in this age group.

Infirmities.

SCHEME OF CENSUS TABLES.

Census Tables Prepared this time fall under the following six broad groups:—

A GENERAL POPULATION TABLES.
B ECONOMIC TABLES.
C HOUSEHOLD AND AGE (SAMPLE) TABLES.
D SOCIAL AND CULTURAL TABLES.
E SUMMARY TABLE.
F LOCAL TABLE.

There are five Tables under General Population Tables. These are:—

A I AREA, HOUSES AND POPULATION.
A II VARIATION IN POPULATION DURING FIFTY YEARS.
A III TOWNS AND VILLAGES CLASSIFIED BY POPULATION.
A IV TOWNS CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1901.
A V TOWNS ARRANGED TERRITORIALLY WITH POPULATION BY LIVELIHOOD CLASSES.

Economic Tables comprise of three separate Tables. These are:—

B I LIVELIHOOD CLASSES AND SUB-CLASSES.
B II SECONDARY MEANS OF LIVELIHOOD.
B III EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN INDUSTRIES AND SERVICES BY DIVISIONS AND SUB-DIVISIONS.

There are five Tables in the Group of Household and Age (sample) Tables. These are:—

C I HOUSEHOLD (SIZE AND COMPOSITION).
C II LIVELIHOOD CLASSES BY AGE GROUPS.
C III AGE AND CIVIL CONDITION.
C IV AGE AND LITERACY.
C V SINGLE YEAR AGE RETURNS.

They have been prepared on sample basis.

Social and Cultural Tables consist of seven Tables. These are:—

D I LANGUAGES; D I (i) MOTHER TONGUE; D I (ii) BILINGUALISM.
D II RELIGION.
D III SCHEDULED CASTES AND SCHEDULED TRIBES.
D IV MIGRANTS.
D V DISPLACED PERSONS BY LIVELIHOOD CLASSES.
D VI NON-INDIAN NATIONALS.
D VII EDUCATIONAL STANDARDS.

There is only one summary Table:—

E SUMMARY FIGURES BY ADMINISTRATIVE UNITS

There is only one local table:—

(क) INFIRMITIES.

DEFINITIONS AND KEY TO SYMBOLS.

Definitions.

Tract:—In past censuses the census figures were tabulated by administrative units *i.e.*, districts, tehsils etc. This time in almost all tables the figures have been represented by units which have been technically called "TRACTS". Tracts are of three kinds, (1) all villages of a sub-division taken together form one rural tract; (2) all towns (which are not cities) in a district taken together form an "urban non-city tract" and (3) every city is an "urban city tract" or in short "city tract". A list of tracts comprised in each district has been given in the handbook of the district.

Town:—A "Town" has been defined as every municipality, every cantonment or every village which had a population of 5,000 or over in 1941 or any other village which was treated as a town for special reasons by the State Census Superintendent.

City:—A "City" is normally defined as a town with a population of one lac or over, but this definition has been relaxed in Rajasthan, and towns with a population of 50,000 or over have also been treated as cities, to bring the definition in uniformity with the one adopted in the Municipal Act.

Village:—A "Village" means a revenue **mauza** whose revenue is realised under a separate name. It includes all hamlets attached to it.

House:—A "House" has been defined as every structure made of any material which is actually used as human habitation or if not so used, is capable of being so used, which has separate main entrance from the street, lane, by-lane etc. It includes structures of all kinds such as residential houses, temples, mosques, offices, etc. The **minimum**, which was necessary for qualifying a structure to be classed as a house, was at least two walls and a roof made of any material.

Occupied House:—"Occupied houses" were those which were used actually for the residence of human beings.

Household:—A "Houeshold" has been defined to mean and include all persons living in one and the same house and dining at a common mess irrespective of their blood relationship *e.g.* servants residing with their masters and taking meals in their kitchen were treated as members of the master's household. On the contrary even nearest relatives as husband or wife were treated as separate families if for any reason they happened to live in separate buildings and dine at separate kitchens.

Household Population:—"Household Population" means persons living in numbered houses as members of a commensal family including guests and servants. It does not include (a) houseless persons or (b) inmates of institutions like jails, hospitals, hostels, dak bungalows, boarding houses, orphanages, sarais, dharmashalas, police lines, military lines, asylums, etc.

Displaced person:—A "Displaced person" was defined "as a person who migrated from Western Pakistan after 1st March 1947 or from Eastern Pakistan after 15th October 1946 due to communal disturbances or fear of disturbances or due to partition of India and Pakistan. Children born to such persons after their migration to India were not to be treated as displaced persons.

Ward:—A "Ward" was defined as municipal ward in case of municipal towns. In non-municipal towns wards have been made arbitrarily by the Census Department.

Means of Livelihood:—In former censuses it was customary to represent the basic population data by community or religion. This time an innovation has been made and in most of the tables the figures are published by Means of Livelihood groups. All occupations have been classified under eight broad classes and given code numbers which are as follows:—

I . . Cultivators of land wholly or mainly owned and their dependants.

II Cultivators or land wholly or mainly unowned and their dependants.

III Cultivating labourers and their dependants.

IV Non-cultivating owners of land, agricultural rent receivers and their dependants.

Persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services and miscellaneous sources.

N. B.—In most of the Tables, the m/l class number s only given instead of describing the class.

Code No.:—In the enumeration stage a set of location code numbers was prescribed to identify each inhabited spot, whereby the districts were numbered serially within the State, tehsils within a district and cities, towns or villages within a tehsil. Similarly houses were numbered within a village and households within each house. Hamlets were given sub-numbers under the number of the parent village.

Key to Symbols.

M/L Means of livelihood.

T ... Total.

R .... Rural.

N.B.—Figures in item No. 14, 15 and 19 include the figures of Urban areas of the Tehsils concerned.

A.—GENERAL POPULATION TABLES

A. I—Area, Houses and Population

Explanatory Note

This table shows the number of villages, towns, occupied houses and rural population for each of the tehsils of the District. Serial No. 1 contains the aggregate corresponding figures for the district as a whole.

The figures of area against each unit have been entered as supplied by the District Officer. They represent the total of unit, rural as well as urban, as separate figures for urban units were not available. The total area of the district, as supplied by the Surveyor General of India, has been given within the brackets against the name of district. The tehsilwise area could not be made available from Surveyor General's Office.

There are three Tehsils in this District.

(1) Jalore Tehsil. (2) Jaswantpura Tehsil. (3) SanchoreTehsil.

A. IV—Towns Classified by Population with Variation since 1901

EXPLANATORY NOTE

This table shows the population of the towns of the district for the last five Censuses by sex. It also gives the variation in population from decade to decade along with the net variation since 1901.

In this table, the cities and towns have been classified and arranged according to population under six classes namely :—

I	100,000 and over.	IV	10,000 to 20,000
II	50,000 to 100,000	V	5,000 to 10,000
III	20,000 to 50,000	VI	Less than 5,000

The class in which the individual town falls is shown under the name of the town.

The nature of the local body functioning in each town is shown in the brackets after the name of the town wherever such body is functioning.

In this district two fresh towns have been added in this census namely.

1. Ahore 2. Siana

Town and year (1)	Tehsil (2)	Persons (3)	Variation (4)	Males (5)	Variation (6)	Females (7)	Variation 8

A. V—Towns Arranged Territorially with Population by Livelihood Classes

EXPLANATORY NOTE:—

This table gives the number of persons (including dependants) in each town according to principal means of livelihood instead of religion as in past censuses, but means of livelihood classes I to III have been clubbed together and they have been shown in columns No. 15 and 16 after the non-agricultural classes.

(a) The towns have been arranged according to population. The nature of local body functioning in each town is shown in brackets after the name of the town wherever such body is functioning.

Serial No.	Name of Town	Population			Livelihood Classes											
					Non-Agricultural Classes								Agricultural Classes			
					Persons (including dependants) who derive their principal means of livelihood from

B. ECONOMIC TABLES.

1. In the 1951 Census, the Economic classification was substituted for the lassification based on Religion.

2. The people have been divided into two broad livelihood categories, viz, the Agricultural Classes and the Non-Agricultural Classes.

3. There are four Agricultural Classes, defined as below :—

I Cultivators of land, wholly or mainly owned, and their dependants.

II Cultivators of land, wholly or mainly unowned, and their dependants.

III Cultivating labourers and their dependants, and

IV Non-cultivating owners of land; agricultural rent receivers, and their dependants.

4. There are four Non-Agricultural Classes, defined as comprising all persons (including dependants) who derive their principal means of livelihood from :—

V Production other than cultivation.

VI Commerce.

VII Transport.

VIII Other services, and miscellaneous sources.

5. All these classes have been referred to as Means of Livelihood Classes or in brief M/L Classes.

NOTE.—(*a*) Land is deemed to be owned "if it is held on any tenure (by whatever name it is known locally) which carries with it the right of permanent occupancy for purposes of cultivation." Such right should be heritable. It may be (but need not necessarily be) also transferable.

(*b*) A "Cultivator" (Livelihood Class I or II) is distinguished from a "Cultivating Labourer" (Livelihood class III) as the person who takes the responsible decisions which constitute the direction of the process of cultivation. All cultivating labourers are employees of cultivators.

(*c*) The classification of a person employed in any non-agricultural enterprise or establishment is based on the nature of his own work, not on the nature of the enterprise or establishment concerned. Thus for instance not all railway employees are classifiable under Livelihood Class VII (Transport). Those employed in Railway workshops are classifiable under Livelihood Class V and those employed on constructional services under Livelihood Class VIII.

6. Livelihood Sub-Classes :—Each of the eight M/L Classes has been divided into three sub- classes, with reference to their economic status as below :—

(*i*) Self-supporting persons ;

(*ii*) Non-earning dependants ; and

(*iii*) Earning dependants.

Economically active, semi-active and passive persons:—

7. All non-earning dependants are economically passive. They include persons performing house-work or other domestic or personal services for other members of the same family household. But they do not include "unpaid family workers or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise".

8. All earning dependants are economically semi-active only. Though they contribute to the carrying on of economic activities, the magnitude of their individual contribution is deemed to be too small to justify their description as economically active.

9. All self-supporting persons are, ordinarily, economically active. But, there are certain classes and groups which constitute an exception to this rule. These are mentioned below :—

(*i*) The self-supporting persons of agricultural class IV.

(*ii*) The following groups of selfsupporting persons who are included in non-agricultural class VIII and derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity) :—

(*a*) Non-working owners of non-agricultural property,

(*b*) Pensioners and remittance holders,

(*c*) Persons living on charity and other persons with unproductive occupations, and

(*d*) inmates of penal institutions and asylums.

Classification of Economic activities and Economically active persons :—

10. Economic activities may be defined as including all activities of which the result is the production of useful commodities or the performance of useful services but not including the performance of domestic or personal services by members of a family household to one another.

11. The most important among all economic activities is the cultivation of land (or the production of the field crops). It stands in a category by itself. All other economic activities may be regarded as falling in another category which may be referred to as "Industries and Services". All these activities may be classified with reference to the nature of the commodity produced or service performed. Under the present scheme, all industries and services are classified in 10 divisions ; and these divisions are sub-divided into 88 sub-divisions. The scope of activities included in each sub-division is indicated by its title.

12. Economically active persons engaged in cultivation, are either cultivators or cultivating labourers i. e., they are persons of sub-class (*i*) of agricultural classes I to III.

13. Economically active persons engaged in Industries and Services are classifiable in the divisions and sub-divisions. All persons included in each sub-division are further divisible into three sections viz.,

(*i*) Employers.

(*ii*) Employees, and

(*iii*) Independent Workers.

14. In effecting this classification, no account has been taken of whether the classified person was actually employed or unemployd on the date of enumeration. He has been allocated to that particular description of economic activity from which he has been in fact deriving a regular (that is non-casual) income, as his principal means of livelihood.

The Tables.

15. The Economic tables for the State as a whole with break-up for Natural Divisions and districts will be found in Report Part II B of the Census of India 1951, Volume X, Rajasthan and Ajmer. It also contains a full discussion of the Indian Census Economic Classification Scheme and its comparison with International Standard Industrial Classication Scheme evolved by the United Nations Organisation. This Handbook contains the above tables for this district in which they are published down to tract level.

16. The replies recorded in the census slips against census questions 9, 10 and 11 have been used for classifying every enumerated person within the framework of Economic Classification of people described above. The results have been exhibited in the three tables.

(a) Economic Table I .... Livelihood classes and sub-classes.

(b) Economic Table II ... Secondary means of livelihood.

(c) Economic Table III ... Employers, employees, and independent workers in industries and services by divisions and sub-divisions.

Economic Table I.

17. This table is the result of the record of replies to the census question No. 9 (1). It shows the distribution of population in the eight livelihood classes and 3 sub-classes of each livelihood class. A complete picture has been presented of economically active. semi-active and passive persons.

Economic Table II.

18. It specifies the number of self-supporting persons in each of the 8 classes mentioned above' who have more than one means of livelihood and cross classifies them according to the nature of such secondary means of livelihood under the same eight classes. It also displays the number of earning dependants who supplement (with their own activities) the resources provided for their maintenance by the persons on whom they are dependant. The economic activity of the economically semi-active persons whereby they supplement the above resources has been shown in this table. The replies recorded in the slips against census question 11, showing the occupation of semi-active persons as also the secondary means of livelihood of selfsupporting persons (with more than one occupation) other than the principal means of livelihood, are the basis of this table.

Economic Table. III.

19. This table is limited to economically active persons only. Self-supporting persons engaged in Industries and Services have been classified under 10 Divisions and sub-divisions thereof. They have been further divided under each division and sub-division into three categories "Employers" "Employees", and "Independent Workers".

(a) M/L Class V (Production other than cultivation) corresponds to Division 0 to 4 (0.Primary industries not elsewhere specified, 1-Mining and quarrying; 2-Processing and manufacture-foodstuffs, textiles leather and products there of; 3-Processing and manufacture metals, chemicals and products there of; 4-Processing and manufacture not elsewhere specified).

(b) M/L class VI (Commerce) corresponds to Division 6 (Commerce).

(c) M/L class VII (Transport) corresponds to sub-divisions 7·1 to 7·4 of division 7 (Transport, storage and communications).

(d) M/L class VIII (Other services and miscellaneous sources) includes Division 5 (Construction and utilities), Division 7 (Transport storage and Communication) with the exception of sub-division 7·1 to 7·4; Division 8 (Health, education and public administration) and Division 9 (Services not elsewhere specified). It also includes other miscellaneous sources of livelihood e.g. income from investment, pensions and family remittances. proceeds of begging and other unproductive activities. These are not, however, included, in Economic Table III which is limited to industries and services. Hence there is a difference to this extent between the total self-supporting persons of the non-agricultural classes in Economic Table I and the total of this table. The reconciliation has been affected by entries of economically inactive persons with the following further classification at the end of the table (columns No. 798 to 807).

Persons living principally on income from non-agricultural property.

(ii) Persons living principally on pensions, remittances, scholarships and funds

(iii) Inmates of jails, asylums and alms-houses.

(iv) Recipients of doles.

(v) Beggars and vagrants.

(vi) All other persons living principally on income derived from non-productive activities.

20. The Unit of Classification is the organised "Establishment". The commodity produced or the service performed as a result of the work of the organised establishment is the criterion for classifying the establishment. The classification of the establishment is the classification of every member of the establishment.

21. As regards "Employees", all persons, engaged, in production, commerce or transport (and not being domestic servants) have been classified under the appropriate sub-divisions with reference to their own activity, and without reference to that of their employer. Domestic servants have all been classed in one sub-division without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerks, messengers, watchmen and unskilled labourers of every description) have been classified with reference to the commodity produced or services rendered by their employers.

22. In this table occupational returns under some of the sub-divisions are nil and the columns pertaining to such sub-divisions have been omitted for the sake of economising space. hence there are breaks in the serial number of columns.

C.—HOUSEHOLD AND AGE (SAMPLE) TABLES

Explanatory Note:—This series consists of the following tables:—

C. I Household (size and composition).
C. II Livelihood Classes by Age Groups.
C. III Age and Civil Conditions.
C. IV Age and Literacy.
C. V Single Year Age Returns.

All these tables have been prepared on sample basis. In table C. I nearly 1 in 1000 households has been selected as sample from the National Register of Citizens. In other tables 10% sample has been taken from the enumeration slips pertaining to general population excluding displaced persons population.

C. I—Household (size and composition)

EXPLANATORY NOTE:—This table shows for each census tract the total number of households, household population, the sample households population, and the size and composition of households in the sample household population.

The figures are arranged under two broad groups:—

(i) Size of households.
(ii) Composition of households,

in (i) households have been called,

(a) "Small" if the number of inmates is 3 or less.
(b) "Medium" if the number of inmates is between 4 and 6.
(c) "Large" if the number of inmates is between 7 and 9,
(d) "Very large" if the number of inmates is 10 or more.

in (ii) the inmates in a household are discribed under three heads,

(a) Relationship to the head of the household,
(b) Number in broad age groups.
(c) Civil condition.

C. IV—Age and Literacy

Explanatory Note:—This table shows the literacy by age groups of the sample population. The figures of illiterates include those of partially literates *i. e.* those who can read a simple letter in any script but cannot write one. Literate means one who can both read and write a simple letter in any script.

District Index of Non-Agricultural Occupations.

This Table is prepared from the Sorter's Ticket 2. This is a sort of supplement to Economic Table B. III and provides further details of the occupational groups mentioned therein.

The Sorter's Ticket 2 was prepared in accordance with the instructions to the Sorters reproduced below :—

1. *Preparation.*—You have to prepare Sorter's Ticket 2 only if you have slips relating to any of the livelihood class V, VI, VII or VIII. You are to deal only those slips which relate to self-supporting persons. The slips relating to non-earning dependants or earning dependants would have been separated already and should not be used at this stage.

2. *First operation.*—You have first to deal the slips with reference to the Principal means of livelihood recorded against question 10. Your Supervisor will give you a list of "M/L (Means of livelihood) sub-groups"* in the order of importance for which you have to sort. Select not more than ten Pigeon-holes and affix labels bearing the names of the "M/L sub-groups" (written out in full) as given to you. The number of M/L sub-groups given to you will generally exceed ten. You should reserve one or two Pigeon-holes for throwing slips which are not covered by the M/L sub-groups shown on the lables. You should then deal the slips with reference to the answer recorded against question 10. In doing so, put together slips containing entries which are written in either identical or very similar terms to each of the labelled "M/L sub-groups." If you are in doubt whether an entry, in any case is very similar or not to the labelled M/L sub-groups, consult the Supervisor. Finish the sorting for one set of M/L sub-groups. Then distribute the slips of one set into individual occupations. Now count the number and "enter" the name and number in columns (2) and (3) of Sorter's Ticket 2. Keep the unsorted slips separate. This completes the first stage of the first operation.

3. *First operation (succeeding stages).*—You should then take up the slips that remain to be sorted. You should deal them again for the remaining M/L sub-groups given to you in same manner as in the first operation. The operations should be repeated successively until all the slips are sorted for all the M/L sub-groups given to you. You may find slips where the M/L as recorded in question 10 does not fall under any of the sub-groups given to you. You should deal these slips separately in the manner explained above and enter the name and number in the Sorter's Ticket. This completes the first operation. You should keep separate the bundle for each M/L sub-group.

4. *Special instructions regarding non-productive means of livelihood.*—Livelihood class VIII will contain slips of persons who derive their income otherwise than through Productive activity. They include all self-supporting persons against whom the answer to question 9, Part two, is '0'. They should be treated as a distinct group, not falling under any of the prescribed divisions and sub-divisions; and sorted under the following sub-groups, viz.—

(*i*) Persons living principally on income from non-agricultural property.
(*ii*) Persons living principally on pensions, remittances, scholarships and funds
(*iii*) Inmates of jails, asylums, alms houses and recipients of doles.
(*iv*) Beggars and vagrants.
(*v*) All other persons living principally on income derived from non-productive activities.

5. *Second operation.*—For this operation the slips mentioned in Paragraph 4 are excluded. You have to deal the remaining slips with reference to the answer recorded in the second compartment of question 9. Affix labels to three Pigeon-holes, the labels being marked "Employer", "Employee" and "Independent worker". Take the bundle

* *List of M/L sub-groups.*—Separate lists of sub-groups should be prepared for use in sorting each of the four different livelihood classes V to VIII. These lists should be compiled on the basis of (a) scrutinizing of entries found to occur frequently in the National Register of Citizens and (b) results of trial sorting by Supervisor and Compiler-checkers.

for each M/L sub-group and deal them into the three Pigeon-holes. You will find "मा" for "Employer" "नो" for "Employee" and "खुद" for "Independent worker" recorded in the second compartment of question 9. If you find that there is no entry you should take the order of your Supervisor. When you have completed the sorting for a M/L sub-groups you should count the number in each Pigeon-hole and enter in Columns (4) to (6) of the Sorter's Ticket according as the Pigeon-hole relates to "Employer", "Employee" and "Independent worker" respectively.

6. *Second operation (succeeding stages).*—You should take each of the other bundles for M/L sub-groups and deal them in the same manner as in the second operation; you should enter the result in the relevant columns of the Sorter's Ticket.

7. *Conclusion.*—You have now completed all operations necessary for Sorter's Ticket 2. Re-combine all the male slips and all the female slips.

If you are sorting sample slips or slips for displaced persons you should proceed to Sorter's Ticket 3.

If you are sorting general slips you should proceed to Sorter's Ticket 6.

After the Sorter completed the ticket and after due check by the Compiler-checker and the Supervisor, the ticket was handed over to the tabulation clerk to fill in the Group Code numbers in column (1) of the form of Sorter's Ticket 2 given below.—

Form of Sorter's Ticket 2.

Group Code Number	*Full name of means of livelihood (sub-groups and occupations)*	*Total*	*Employer*	*Employee*	*Independent worker*
1	2	3	4	5	6

The group code numbers were adopted from the Indian Census Economic Classification Scheme given in Part II - B of the Report.

Accuracy of Figures.

A perusal of this index shows incredible figures, against certain occupations. This is due to vague entries in the slips regarding the occupations contrary to instructions in some cases and entries with correct details in others. The result was that in the tabulation stage the only slips which contained correct details of occupations were sorted under the correct sub-group and its details, while those with vague entries were placed in the wider groups.

Another point to be borne in mind is that not all persons following an occupation have been shown against it in the Index, but those who followed it as a Principal means of livelihood. Thus if a Ticket Collector derived a greater part of his income from rent of agricultural or other land or building and some income only from his services as Ticket Collector, he would not be shown as Ticket Collector.

The third point to be kept in mind is that these figures, represent only self-supporting persons and not those who are partly dependants, thus a young boy who sits at a 'Pan shop' and gets some pay from the shop keeper which is not sufficient to support him, he has to depend upon his father's income mostly. Such a man would not appear under the occupation "Service on Betel Shop."

The last but most important defect in the figures is due to difference in the terminology prevalent in the different areas of Rajasthan describing an occupation and also partly due to want of exercise of proper care in the tabulation stage that name showing same and similar occupations have been shown as different occupations for example 'Halwai's shop" and "sweet-meat selling" have been shown as different occupations. In order therefore to find out the actual strength of self-supporting persons following a particular occupation as their principal means of livelihood, figures against all such occupations should be totalled.

On the whole, this index removes the defects pointed out in the Census Tables published in the previous Census that they do not show actual occupations but their group only.

Index of Non-Agricultural Occupations.

Persons deriving their income as principal means of livelihood from occupations given in column 3.
