CENSUS OF INDIA 1961

Central Government Publications

Census Report, Volume X—Maharashtra, is published in the following Parts

I-A and B	..	General Report
I-C	..	Subsidiary Tables
II-A	..	General Population Tables
II-B (i)	..	General Economic Tables—Industrial Classification
II-B (ii)	..	General Economic Tables—Occupational Classification
II-C (i)	..	Social and Cultural Tables
II-C (ii)	..	Migration Tables
III	..	Household Economic Tables
IV	..	Report on Housing and Establishments
V-A	..	Scheduled Castes and Scheduled Tribes in Maharashtra—Tables
V-B	..	Scheduled Castes and Scheduled Tribes in Maharashtra—Ethnographic Notes
VI (1—35)	..	Village Surveys (35 monographs on 35 selected villages)
VII-A (1—8)	..	Handicrafts in Maharashtra (8 monographs on 8 selected handicrafts)
VII-B	..	Fairs and Festivals in Maharashtra
VIII-A	..	Administration Report—Enumeration (For official use only)
VIII-B	..	Administration Report—Tabulation (For official use only)
IX	..	Census Atlas of Maharashtra
X (1—12)	..	Cities of Maharashtra (15 Volumes—Four volumes on Greater Bombay and One each on other eleven Cities)

State Government Publications

25 Volumes of District Census Handbooks in English

25 Volumes of District Census Handbooks in Marathi

Alphabetical List of Villages and Towns in Maharashtra in Marathi

J-857—i-A (Jalgaon)

PREFACE

On the suggestion of the Census Commissioner, India, the Government of Maharashtra decided to publish the District Census Handbooks on the basis of the material collected during the 1961 Census for all the districts in Maharashtra. A Committee consisting of the Executive Editor and Secretary of the District Gazetteers (Revision) Editorial Board, the Superintendent of Census Operations, Maharashtra, and the Director, Bureau of Economics and Statistics, Maharashtra, was appointed to determine the contents and review the drafts of each volume. This is one of the twenty-five volumes compiled in the Maharashtra Census Office and published under that scheme.

District Handbooks had been published from the 1951 Census data also. As in the past, the present volume contains a set of 1961 Census Tables for the district and also presents basic demographic and economic information for each village separately. The following improvements have, however, been made in the 1961 series :—

(i) The addition of a comprehensive note introducing the district ;
(ii) The four-coloured map of the district ;
(iii) Taluka maps showing the location of each village in the district supplemented by alphabetical lists of villages ;
(iv) Supplementary information showing basic amenities available for each village ; and
(v) Addition of Part III containing 33 Tables on other official statistics.

These new features will make the volume a valuable reference for the Central and State Governments, District Administrators, departments engaged in planning and development work, legislators, private trade and business. Need for such material is far greater today as the functions of planning and implementation of development schemes have now percolated to district, taluka and village levels.

Marathi version of this volume is also being issued separately.

Part I of the volume presents villagewise statistics, Part II contains the 1961 Census Tables prepared for the district and Part III contains official statistics on Climate, Rainfall, Agriculture, Industry, Education, Health and a few other aspects. An explanatory note is added at the beginning of each part to describe the layout of the Tables and the terms or concepts used. Parts I and II are based entirely on the data collected at the 1961 Census. Part III is based on the material furnished by the District Statistical Officer and the officers of the departments concerned. Villagewise populations shown in Part I are valid for Sunrise of 1st March 1961 and are not adjusted for seasonal migration to or from other areas.

The introductory note at the beginning of the volume describes the present administrative set-up and some of the socio-economic facets of life in the district. It will illustrate how the statistics presented in the volume could be used for economic accounting or as controls of plan achievements in the district. For this note, we have drawn heavily on the District Gazetteers,

Survey and Settlement Reports, Annual Administration Reports and other Government publications. Some Heads of Departments also supplied the latest available material for the volume. We are indebted to them all.

Any views expressed in the introductory note or elsewhere in the volume are personal and the Government is not responsible for them.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I should specially mention Shri N. Y. Gore, Tabulation Officer, for his sincere and thorough work on compilation and proof-reading of Part I, Shri G. S. Gokarn, Tabulation Officer, for his painstaking work on MSS and proofs of Parts II and III, Shri S. K. Deshpande, Shri D. G. Pansare and Shri R. E. Chowdhary for assistance in preparing the introductory note, Shri S. Y. Pradhan and Shri B. M. Nagarkar, Draughtsmen, for Maps, Charts and Diagrams. Shri S. G. Deshpande of our office at Nagpur looked after the layout of the Tables and printing of the volume. Shri R. G. Phadke and Shri D. V. Rangnekar, Deputy Superintendents of Census Operations and Shri G. M. Rajadhyaksha, Tabulation Officer, made valuable contributions at all stages and specially in the preparation of notes. Acknowledgments are due to Shri S. R. Desai, Manager, Government Press and Book Depot, Nagpur, and Shri J. D. Gandhi, Manager, Government Photozincographic Press, Poona. In spite of heavy pressure of work on their presses they did their best to print this volume speedily.

I am obliged to Shri Asok Mitra, I.C.S., Census Commissioner, India, for valuable suggestions for improving this volume. I am also indebted to Shri Setu Madhava Rao and Shri M. A. Telang, Members of the District Census Handbook Committee, who not only supplied useful material from their departments but also read through the MSS and encouraged us through this venture.

POONA :

INTRODUCING THE DISTRICT

This note describes the administrative set-up and some socio-economic facets of life in the district

THE DISTRICT IN MAHARASHTRA

FIG. 2

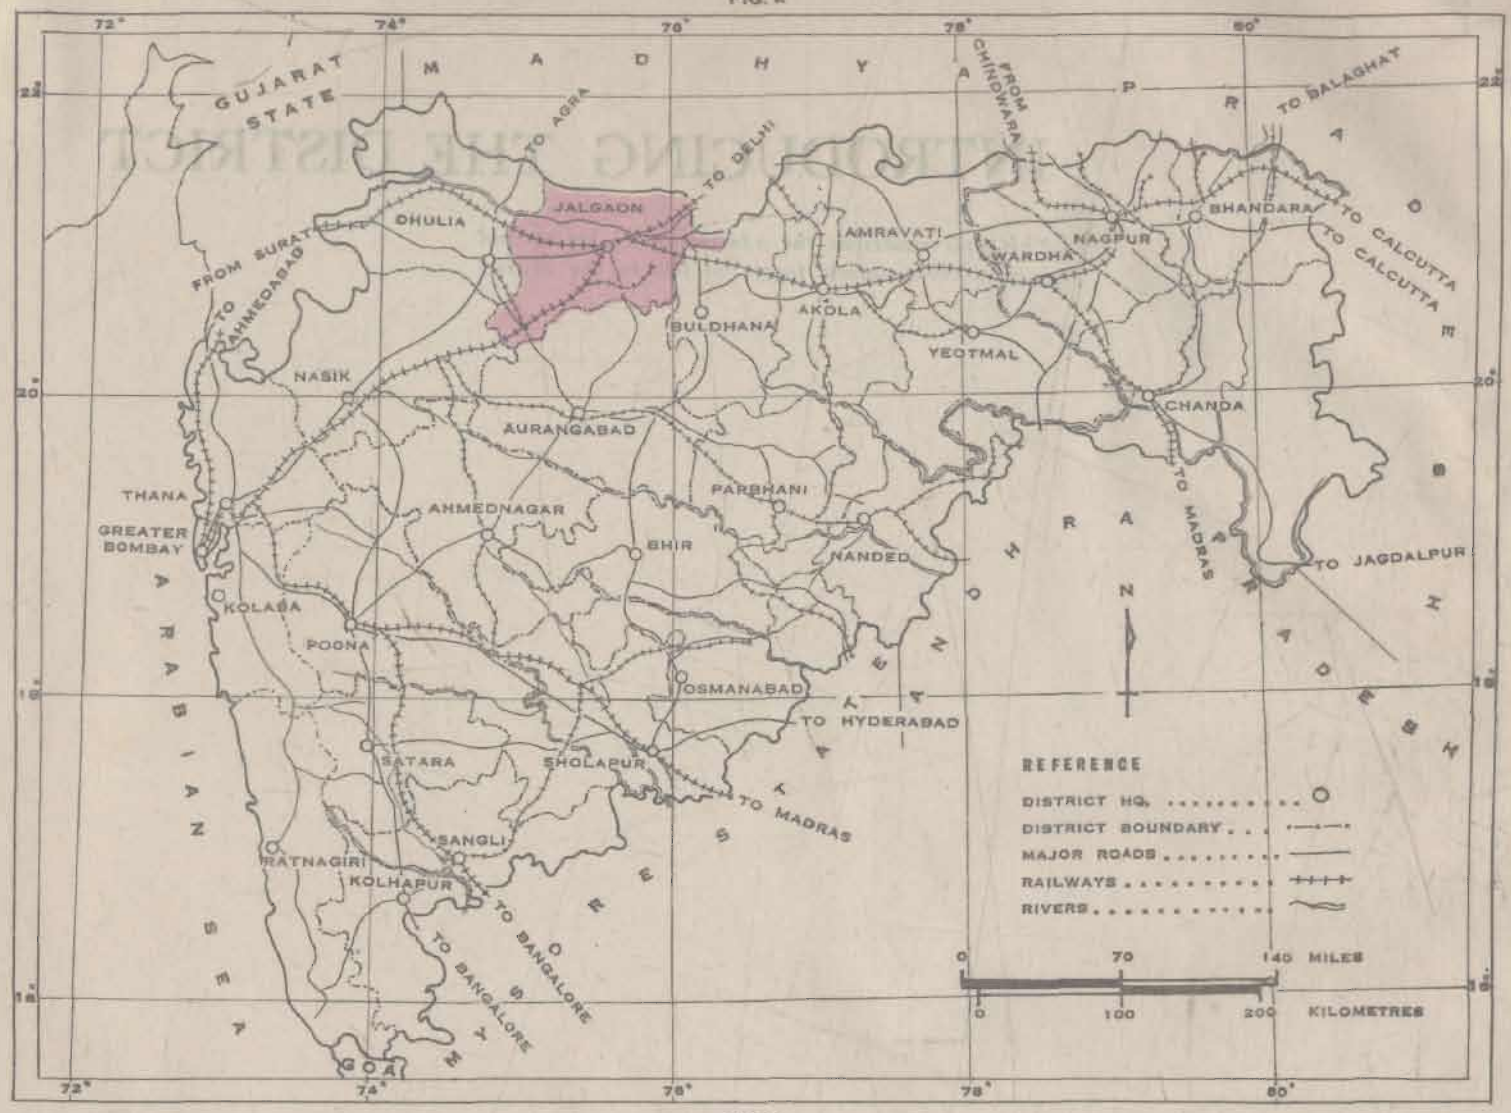

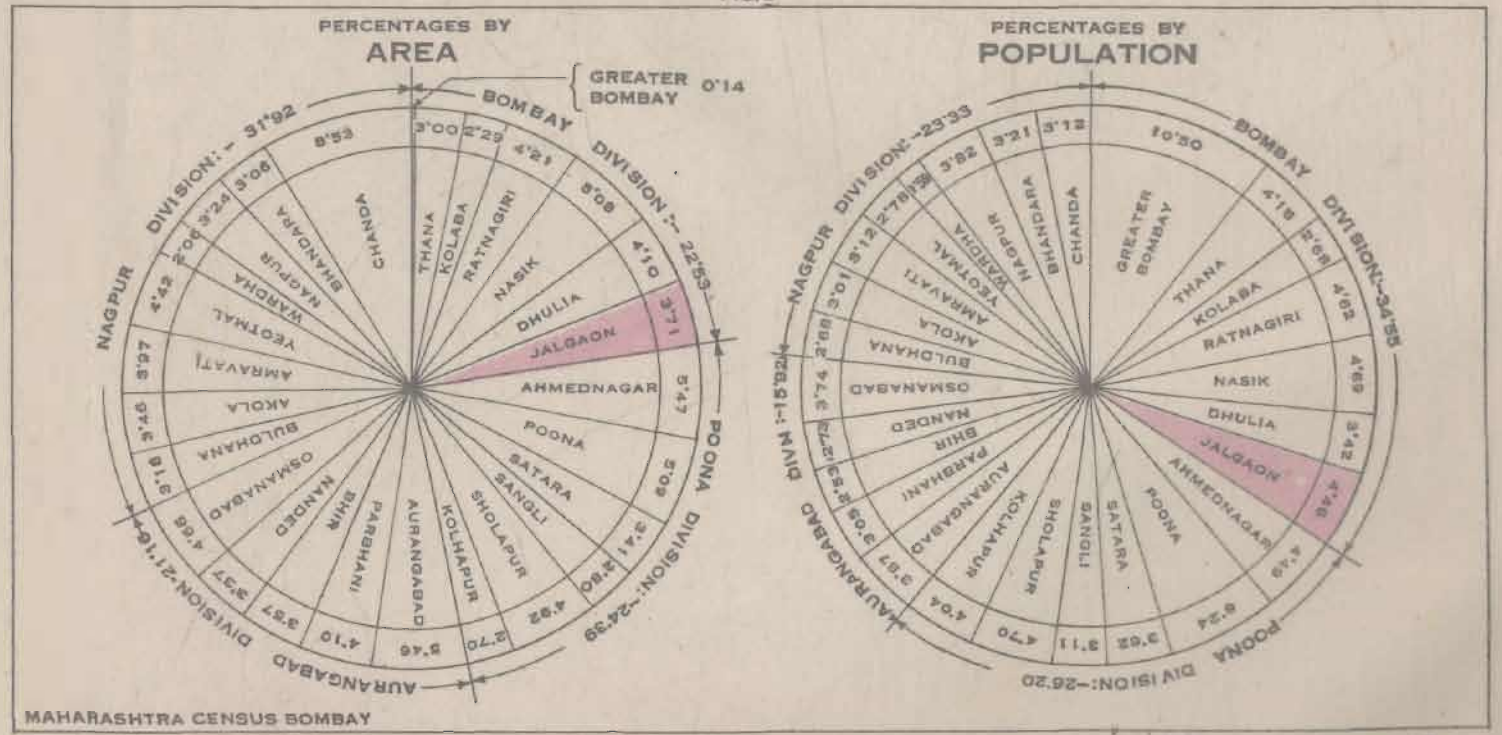

FIG. 3

H-747G. P. Z. P. POONA-1962

INTRODUCING THE DISTRICT
PHYSICAL FEATURES

Jalgaon and Dhulia districts, till recently known as East and West Khandesh districts, together constitute Khandesh. Unlike the Deccan plateau, the orientation of Khandesh is towards the west coast. Jalgaon district which lies in the upper Tapi basin is a distinct topographical unit, drained by the Tapi river and its tributaries and separated from Madhya Pradesh State by the Satpudas and from the Deccan by the Satmala hill range, with an arm of the Sahyadri mountains stretching out in the easterly direction. The Tapi river passes through the centre of the district from east to west with a deep cut-up bed and black soil fertile plains along its banks.

The district lies between 20° and 21° north latitude and 74° 55′ and 76° 28′ east longitude. It is surrounded by Madhya Pradesh in the north, Madhya Pradesh and Buldhana district in the east, Aurangabad district in the south and Nasik and Dhulia districts towards the west.

The area of the district is 4,392·0 square miles and its population in 1961 is 1,765,047. In terms of area and population it forms 3·71 per cent and 4·46 per cent of the State, respectively. The Figures facing this page show the position of the district in the State.

Hill Ranges

There are three main systems of hills in the district. The Satpuda in the north and the Satmala which is an offshoot of the Sahyadri in the south and the west and the Hatti in the south-east. The Satpuda which runs from east to west covers the northern talukas of the district. The hills in these ranges possess considerable height, the central range being about 2,000 feet high. Among the peaks that rise above 3,000 feet in height, the chief are in the east, Pancha Pandu and Mondhiamal.

The Hatti hills bounding the Purna Valley on the east, runs north-west and south-east, and for about twenty miles pass through the south-east corner of Jalgaon.

The Satmala break off sharply from the Sahyadris in the north-west of Nasik and covers the southern parts of the district for about 80 miles with lower hills. It forms a somewhat monotonous wall like boundary between Jalgaon and the Deccan. The chief interests in this range are the rock-cut Buddhist temples and monasteries at Ajanta, Patane and Chandor.

To each of the main hill ranges, the Satpudas on the north and the Satmala on the south, spurs rise at many places at right angles. They are of no great height or length and have bare rounded sides and flat tops.

Important Rivers

The major river of the district is Tapi and its course in this district is of 75 miles. Throughout its course in this district, the valley of the Tapi is flat and well-tilled and the banks at almost every three-quarters of a mile, are covered with villages. During its course in the district, the Tapi receives the Bhokar, Suki, Mora, Harki, Aner and Guli from the north and the Purna, Bhogavati, Vaghur, Girna and Bori from the south. The rivers flowing from the north arise in the southern slopes of the Satpuda hills. These rivers are small and of little use for irrigation. They have the peculiarity that near the hills and again for several miles before they fall into the Tapi, their streams flow throughout the year. While in the middle belt, the water passes underground during the fair season leaving the beds perfectly dry. The streams joining Tapi from the south drain much wider tracts and area of greater size and consequence. Except the Purna and Vaghur, all these streams have their sources in the Sahyadri hills. Girna flows north-east till near Jalgaon town and then turns north and later north-west to join Tapi at Nanded. Its waters are much used for irrigation. Bori has a course of about 35 miles in this district. It joins Tapi about 20 miles below the Girna. Like the Girna the waters of Bori are also used for irrigation.

Climate

Monthly temperature records are available only for one station, *viz.*, Jalgaon (Table 1 in Part III).

Rainy season starts from the middle of June and lasts up to the end of September. It is followed by sultry weather in October, cold season from the beginning of November to the end of February and hot season from the beginning of March to the middle of June. As the district is far removed from coastal tracts, there are large variations in day and night temperatures.

Within the district, the seasons show local variations also. In the Satpudas, the heat is somewhat tempered by the forests, but below the Satpudas, the Tapi Valley is the hottest part of the district. To the south, the Tapi plain, though subject to hot winds which flow during summer is a little cooler,

Rainfall

Table 2 in Part III shows figures of monthly rainfall and number of rainy days for ten years from 1951 to 1960.

Rainfall is not uniform in all parts of the district. The central part of the district comprising the Jalgaon, Bhusawal, Jamner and Pachora talukas receive a little more rain than the rest of the district. Amalner gets annually on an average 642 mm. while Jamner and Pachora get 771 mm. and 781 mm., respectively.

The rain starts about the middle of June and lasts till the end of September. The wet months are July, August and September and about 87 per cent of the annual rainfall is received during monsoons. There are local rains in May and scanty rains in November also.

Dependability of Rainfall and Scarcity Areas

Mean rainfall at Jalgaon is 679·27 mm. Standard deviation is 207·26 mm. The coefficient of variability is 26·58 per cent. As rainfall reliability is measured by the coefficient of variability, the degree of reliability may be said to be moderate.

The Fact-Finding Committee appointed by the Government of Bombay in 1960 has also reported that the district may be regarded as practically free from any chronic scarcity.

Soils

The soils of this district are wholly derived from the trap or basalt. But they differ from the rest of the Deccan trap soil area in that they are mostly alluvial in origin, having been transported from the mountain ranges. They can broadly be classified into five categories, *viz.*, (1) Medium black, (2) Deep black, (3) Forest, (4) Loam, and (5) Sandy.

Medium black soils are brownish black to black in colour and are fairly retentive of moisture. They cover a large proportion of the district and include most of the cultivated area in southern parts of Raver, Yawal and Chopda talukas in the north and northern portions of Pachora and Jamner talukas in the south. The soils of Chalisgaon, Erandol, Amalner, Bhusawal and Jalgaon talukas and Bhadgaon mahal also belong to a large extent to this type. Crops such as jowar, cotton and bajri are mainly grown in these soils. Garden crops such as banana and citrus fruits are also grown there.

Deep black soils are grayish black and appear deeper black when moist. They are restricted to deeper valleys and low-lying areas. Strips of these soils are observed in northern parts of Amalner, Erandol, Jalgaon and Bhusawal talukas and Edlabad mahal where the main crops are cotton, wheat and jowar.

Forest soils are dark-brown and are well-supplied with organic matter. These soils cover almost more than half of the northern portion of Raver, Yawal and Chopda talukas in the Satpuda ranges.

Loam soils are gray in colour and are observed on the banks of rivers and appear in a continuous strip in the southernmost portions of Amalner, Erandol, Jalgaon and Bhusawal talukas and Edlabad mahal. They are fertile and grow cotton, jowar, banana and citrus fruits.

Sandy soils occur in large patches on the slopes of the Satpuda ranges and near the southern hillocks in Chalisgaon, Pachora, Jamner, Bhusawal, Parola and Erandol talukas and Bhadgaon mahal. Poor crops of jowar, bajri and cotton are grown at some of these places.

Minerals

No minerals of importance are found in this district. Trap is found everywhere in the district and is used for building purposes. The best quarry in the district is the one in the bed of the Vaghur river near Bhusawal.

There are hot springs at Unapdev, Sunapdev and Najhardev in Chopda taluka. Deposits of pleistocene have also been located in the district recently.

Forests

The total area under forest in this district is 802·51 sq. miles. It accounts for 17·86 per cent of the total geographical area of the district. The forests are mainly on the hill slopes of Satpuda in Chopda, Raver and Yawal talukas and Edlabad mahal. The forest areas in other talukas of Jalgaon, Bhusawal, Jamner, Pachora, Chalisgaon, Amalner and Erandol mahal, which are on the plains are not so dense. The important forest produce is timber. There are also sixty pasture reserves under control of Forest Department.

Natural Zones

There are following three well marked natural zones in the district: (i) The high Satpudas in the north, (ii) The rich Tapi valley in the middle, and (iii) The bare ridges and well watered valleys flanked by the Satmala and Hatti ranges in the south.

The northern belt covers the hilly parts of Raver, Chopda and Yawal talukas. There are large forests in this zone.

The middle zone, *viz.*, Tapi valley region comprises talukas of Bhusawal, Jalgaon, Erandol and Amalner and Edlabad mahal. Tapi forms the northern boundary of the talukas in this zone. The soil in the northern parts of these talukas is deep black and the main crops of this zone are cotton, groundnut, jowar, bajri and pulses. Wheat is mostly grown under well irrigation.

The southern zone comprises talukas of Jamner, Pachora, Parola, Chalisgaon and Bhadgaon mahal. The soil is mostly reddish brown and poor. Cash crops like cotton, groundnut and other seeds are predominant in this zone.

ADMINISTRATIVE SET-UP

Brief History

The area now included in Jalgaon district was up to the year 1905 included in Khandesh district which had its headquarters at Dhulia. The following 13 talukas were separated from Khandesh in 1906 to form East Khandesh District with headquarters at Jalgaon:—

Amalner, Parola peta, Bhusawal, Edlabad peta, Chalisgaon, Chopda, Erandol, Jalgaon, Jamner, Pachora, Bhadgaon peta, Raver and Yawal.

In the year 1917 Parola peta was raised to Parola taluka.

Thirteen enclave villages which formed part of Chalisgaon taluka were transferred to Aurangabad district in 1950.

With the Reorganisation of States in 1956, the district was included in Bombay State. Since 1960, it forms a part of Maharashtra.

The name of the district was changed from East Khandesh District to Jalgaon District in the year 1961.

Present Set-up

For administrative purposes, the district is divided into 11 talukas and 2 mahals. The area, number of inhabited villages, number of towns, 1961 population and the position in the district by percentages of area and population for each taluka and mahal are as follows :—

District/Taluka	Name of Headquarters	Area in sq. miles	Number of inhabited villages	Number of towns	1961 population	Percentage of area	Percentage of population
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
JALGAON DISTRICT	Jalgaon	4,392·0	1,435	14	1,765,047	100·0	100·0
1 Chopda Taluka	Chopda	293·5	106	1	128,707	6·7	7·3
2 Yawal Taluka	Yawal	368·5	84	2	138,483	8·4	7·8
3 Raver Taluka	Raver	361·3	112	2	141,504	8·2	8·0
4 Amalner Taluka	Amalner	324·5	156	1	163,244	7·4	9·2
5 Erandol Taluka	Erandol	368·5	152	2	150,949	8·4	8·6
6 Jalgaon Taluka	Jalgaon	319·6	89	1	191,085	7·3	10·8
7 Bhusawal Taluka	Bhusawal	328·5	102	2	189,658	7·4	10·8

10 Bhadgaon Mahal	Bhadgaon	196·5	60	..	65,098	4·5	3·7
11 Pachora Taluka	Pachora	308·7	117	1	125,780	7·0	7·1
12 Jamner Taluka	Jamner	521·1	145	..	152,203	11·9	8·6
13 Chalisgaon Taluka	Chalisgaon	460·4	126	1	167,896	10·5	9·5

General Administration and Revenue

The Collector is in charge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector in his office and three Deputy Collectors who hold charge of the three revenue divisions and have their headquarters at Jalgaon, Chalisgaon and Amalner, respectively. Eleven Mamlatdars are in charge of 11 talukas and 2 Mahalkaris in charge of the 2 mahal offices.

Land Revenue Settlements

The original Revenue Survey and Settlement of different talukas in the district was completed between 1854 and 1882. The First Revision Settlement was completed between 1886 and 1895 and the Second Revision Settlement between 1916 and 1925. The land revenue rates have not been revised since then in spite of the expiry of the terms of the revision settlements.

In the original settlements, lands were assessed separately on the basis of individual soil classification, though the general level of assessment was fixed

empirically with reference to the dependability of rainfall, crop pattern, average yields, prices, levels of rent, nearness to the markets, facilities of communications and other similar factors observed from tract to tract. Individual lands were never reclassified during the second revision settlements and landholders were generally allowed the benefits of improvements effected by them during the term of settlements untaxed. The comparative incidence of land revenue from field to field is thus generally the same as it was at the time of the first revision settlement and the enhancements made from settlement to settlement were brought about only by raising the levels of land revenue assessments over a tract uniformly.

The method of land revenue assessments is broadly the same as in the other districts of Maharashtra. In the case of lands irrigated by wells and small bandharas, the land revenue is integrated and is inclusive of the charge for water supplied. For lands irrigated under Government Canals, the land revenue at dry land rates is assessed and recovered by the Revenue Department while the water rates determined annually on the basis of actual crops raised are assessed by the Irrigation Department and recovered by the Revenue Department.

Table 24 in Part III shows demand and collection of land revenue during the ten years 1951 to 1960 for the district and each taluka separately.

The area and number of villages for each taluka in the district have varied from settlement to settlement. Inam villages had not been covered by most of them. In fact, some of the Inam villages were unsurveyed and unsettled as late as in 1947. That work has now been completed. Because of such recently settled villages and because of the territorial changes in the taluka boundaries from time to time most of the talukas today have a more varied pattern of land revenue assessments than that is seen in the reports of earlier settlements. Even then the maximum rates fixed at each settlement or revision settlement or the average land revenue rates per acre should be quite reliable indices of the incidence of land revenue as obtaining in the district from taluka to taluka or in the same taluka from settlement to settlement. Those rates for dry, garden and rice lands for each taluka are as follows :—

Taluka/Mahal	Original Settlement/ Revision Settlement	Year	Guarantee period	Number of villages	Average land revenue per acre	Group	Maximum rates per acre

Assembly and Parliamentary Constituencies

Since 1959 the district has 12 Assembly seats. In 1957, Raver and Amalner constituencies were double-member constituencies with one of the two seats from Raver reserved for Scheduled Castes and one of the two seats from Amalner reserved for Scheduled Tribes. After abolition of the double-member constituencies in 1961, the seat from Edlabad has been reserved for Scheduled Castes and the seat from Amalner is reserved for Scheduled Tribes.

The number of voters on the rolls for each Assembly constituency in 1961 was as follows :—

	Assembly Constituency	Number of Voters on rolls
1	Chalisgaon	74,039
2	Pachora	71,349
3	Jamner	75,084
4	Erandol	74,263
5	Jalgaon	66,329
6	Bhusawal	66,817
7	Yawal	65,593
8	Raver	67,589
9	Edlabad	73,027
10	Chopda	75,951
11	Amalner	71,945
12	Parola	80,619
	Total ..	862,605

In the 1962 General Elections, the Assembly constituencies of Chalisgaon, Pachora, Jamner, Erandol, Jalgaon and Bhusawal together formed one Parliamentary constituency called Jalgaon constituency and the remaining Assembly constituencies Yawal, Raver and Edlabad combined with Assembly constituencies Chikhli, Buldhana, and Malkapur from Buldhana district formed another Parliamentary constituency called Buldhana constituency.

The total number of voters on the rolls in the district in 1961 was 862,605. The total population 21 years and above according to 1961 Census is 832,239. Comparison can, however, be only approximate as the two figures relate to two different dates in the year 1961.

Administration of Justice

The District and Sessions Judge is the head of the judicial department in the district. The judiciary is entirely separated from the executive. The Collector continues to be the District Magistrate and the Deputy Collectors and Mamlatdars are vested with magisterial powers. But those powers are limited to Chapter cases and cases under section 145 of the Criminal Procedure Code and none of them ever tries any criminal case. The District

Magistrate does not have any administrative control over the other magistrates who try criminal cases in the district. This separation of the judiciary from the executive has been brought about in the district in 1953.

The District and Sessions Judge is assisted by two Assistant Judges and two Additional Sessions Judges. They have jurisdiction over the entire district in respect of criminal suits. In regard to civil suits, they have jurisdiction over the whole district except Amalner taluka and 84 villages from Parola taluka.

The two Civil Judges (Senior Division) attend to special civil suits in the whole district except Amalner taluka and 84 villages from Parola taluka.

There are also nine Civil Judges (Junior Division) and Judicial Magistrates, First Class, with headquarters at different taluka places in the district. They attend to civil and criminal suits. Further, there are three Civil Judges of the Junior Division, two at Bhusawal and one at Chalisgaon. They attend to civil suits in their respective areas. There are also three Judicial Magistrates, one of them attending to railway cases.

Police

The police force in the district functions under the (District) Superintendent of Police who is assisted by 2 Deputy Superintendents and 2 Circle Police Inspectors. There are 25 Police Stations in the district. Their headquarters and jurisdictions are shown in the next column.

	Police Station Headquarters			No. of villages

Average number of villages and population covered by a Police Station in the district is 58 and 70,602 as against 69 and 62,547 in the State, respectively.

Crime statistics for the district for the years 1950, 1955 and 1960 have been shown in Table 28 in Part III.

Municipalities

Thirteen out of 14 towns in the district have Municipal Committees established under the Bombay Municipal Boroughs Act of 1925 and the Bombay District Municipal Act, 1901. The year of establishment, the year of the last general election, the term of the elected body, the total number of elected councillors and the number of seats reserved for Scheduled Castes and Scheduled Tribes and for women are shown in the following Table for each municipality separately:—

Serial No.	Name of the Municipality	Year of establishment	Year of the last General Election	Statutory term in years	1961 population	Total No. of Municipal Councillors	Seats reserved for		
							Scheduled Castes	Scheduled Tribes	Women
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
1	Chopda	1870	1959	4	26,460	20	2	1	2

12	Pachora	1947	1961	4	18,338	21	2	1	2
13	Chalisgaon M. Borough	1919	1961	4	34,280	22	2	1	2

The Municipalities of Jalgaon, Parola, Amalner, Dharangaon and Erandol are very old, being established about a century ago. The Municipality of Pachora was established recently, i.e., within the last two decades.

The 13 Municipalities together account for 98·71 per cent of the urban population or 22·21 per cent of the total 1961 population of the district. The remaining town Kandari does not have a Municipality.

The taxation level of each of the Municipalities is shown in the next column.

Per capita municipal tax appears to be high at Jalgaon. Since it is a trade centre it appears that much of the incidence falls on agriculturists who bring their produce for sale in the market.

Name of the Municipality	1961 population	Year 1961-62		
		Total receipts	Receipts from Municipal taxes	*Per capita* Municipal tax
		Rs.	Rs.	Rs.
1 Chopda ..	26,460	3,10,742	2,29,791	8·68

ZILLA PARISHAD AND PANCHAYAT SAMITIS

With a view to promoting development of democratic institutions and securing greater measure of participation by the people in Development Plans and in local and governmental affairs by decentralisation of powers and functions, a Zilla Parishad and 13 Panchayat Samitis have been established in the district in the year 1962 under the Maharashtra Zilla Parishad and the Panchayat Samitis Act of 1962. The areas under the jurisdiction of the Zilla Parishad and the Panchayat Samitis correspond to the district and taluka boundaries except in the case of Municipal towns which are not covered by them. Kandari town which does not have Municipal Committee but which is treated as a town in the 1961 Census is, however, included under the jurisdiction of the Zilla Parishad and Panchayat Samitis concerned. The Zilla Parishad covers 96·8 per cent of the total area and 77·8 per cent of the total population of the district. The population covered by the Zilla Parishad includes total rural population and 1·29 per cent of urban population which resides in non-municipal town in the district. The number of villages, number of non-municipal towns and population included under the Zilla Parishad and each Panchayat Samiti are shown below. The position of each Panchayat Samiti in the Zilla Parishad is also shown separately by percentages of area and population in 1961:—

(1)	Name of Headquarters (2)	Area in sq. miles (3)	Number of inhabited villages (4)	Number of non-municipal towns (5)	Population in 1961 (6)	Percentage by area (7)	Percentage by population (8)

Constitution

The Zilla Parishad has 56 directly elected councillors. Out of these 56 seats, 2 seats are reserved for Scheduled Castes and 4 for Scheduled Tribes. There are five associate councillors who a e chairmen of five federal co-operative societies conducting business in the district. The elected chairmen of all Panchayat Samitis are also *ex officio* councillors.

At the Block/taluka level, the Panchayat Samiti consists of all elected and co-opted councillors from the area of the Block and a chairman of a Co-operative Society conducting the business of purchase and sale of agricultural produce in the area of the Block as an associate member and a chairman of a Co-operative Society conducting the business in agriculture in the area of the Block as a co-opted member. Sarpanchas elected by members of Village Panchayats are also elected members of the Panchayat Samiti. Their number is at the rate of two for each electoral division in the area of the Block.

Elections were held in the year 1962. The term of office of the councillors is five years. The Zilla Parishad has elected the President and Vice-President from amongst the elected councillors.

An officer in the senior scale of I.A.S. works as the Chief Executive Officer to the Zilla Parishad. The Parishad is also assisted by various departments and the heads of those departments at the district level are Officers of Class I or Class II Service under the State Government. At the Block level, the Panchayat Samitis have elected Chairmen and Deputy Chairmen. The Block Development Officers work as Secretaries to the Panchayat Samitis. The executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishads and Panchayat Samitis Act vests in the Chief Executive Officer and the Block Development Officers. The Deputy Chief Executive Officer works as a Secretary to the Zilla Parishad.

Committees and Office-bearers

The Zilla Parishad functions through a Standing Committee presided by the President and six Subject Committees for Finance, Works, Agriculture, Co-operation, Education and Health. Two Subject Committees are presided by the Vice-President and four by two Chairmen elected by the Zilla Parishad to preside over two specified Subject Committees each. The Deputy Chief Executive Officer works as Secretary of the Standing Committee, while the District Heads of Departments work as Secretaries to the Subject Committees concerned. Co-ordination between the Subject Committees is achieved through the Standing Committee which includes the Chairmen of all the Subject Committees as members.

The Panchayat Samitis do not have Subject Committees.

The elected President of the Zilla Parishad is paid an honorarium of Rs. 500 per month. The Vice-President and the two Chairmen of the Subject Committees are paid an honorarium of Rs. 300 per month. The elected Chairmen and Deputy Chairmen of the Panchayat Samitis are paid an honorarium of Rs. 300 and Rs. 150 per month, respectively. All these persons are also provided with rent-free accommodation as is deemed suitable for them by the Zilla Parishad.

Functions

The Divisional and State Officers of the Government continue to exercise technical supervision and give guidance to Zilla Parishad and Panchayat Samitis. The State Government has powers to give direction to the Zilla Parishad regarding works and Schemes in the interest of National or State Development Plans. Inspection and supervision are carried out by the Divisional Commissioners.

Except for a few safeguards the developmental and administrative functions of Government have now, with the creation of democratic bodies at the district and block level, been devolved on them. In other words, the State Government has divested itself of the responsibility of local activities which are now left to the people's initiative and resources.

The developmental and administrative subjects transferred to the Zilla Parishad and Panchayat Samitis have been listed in Schedules I and II to the Maharashtra Zilla Parishads and Panchayat Samitis Act. By and large, all functions of Government administration including development activities at the district level, but excluding matters relating to law and order, judicial and quasi-judicial functions, and development functions involving high technical skill like Research Stations, etc., have been devolved on the Zilla Parishad and Panchayat Samitis. All Class III and Class IV employees of the Government Departments now transferred to the Zilla Parishads have been absorbed as employees of the Parishad. The Village Talati (or Patwari) and the entire village establishment of the Revenue Department have been transferred to the Parishad through the Village Panchayat, though for collection of land revenue and maintenance of Record of Rights they continue to work under the Revenue Officers.

The Zilla Parishad has replaced the erstwhile statutory bodies known as the District Local Board, the District School Board and the District Panchayat Mandal. The functions of non-statutory body known as the District Development Board have of course been absorbed. Municipalities, however, remain unaffected as municipal areas are excluded from the jurisdiction of the Zilla Parishad.

Finance

The law provides for levy of a cess at the rate of twenty paise on every rupee of land revenue and at a rate not exceeding nineteen paise per rupee of water rate. The Zilla Parishad can levy taxes on profession, trade, calling or employment and taxes on water supply, public entertainments, amusements, and pilgrims, special tax on land and buildings and other taxes. The stamp duty on transfer of certain immovable properties may be increased by one-half per cent by Government for payment to the Zilla Parishad.

The financial assistance given by the State Government includes 70 per cent of the land revenue collected within the area of the Parishad. When, however, the amount of land revenue payable falls short of the amount arrived at on the basis of two rupees *per capita* of the population of the district as appearing in the Census of 1961, an equalization grant covering the difference will be paid to

the Zilla Parishad. Government also pays what are called purposive grants being grants for specific works and development schemes transferred to the Zilla Parishad at the rate of not less than 75 per cent of the expenditure. An establishment grant equal to 75 per cent of the average annual cost on account of salaries and allowances is paid in respect of the posts held by the staff of Government transferred to the Parishad which are included in the District Technical Service (Class III) and District Service (Class III) and District Service (Class IV). The other grants include a deficit adjustment grant payable at full rates during the first five years and to be progressively reduced in the next ten years after which it will not be payable, incentive grants calculated to achieve speedier development and grants for Plan Schemes. If in pursuance of the proposal of a Zilla Parishad or a Panchayat Samiti, a cess on land revenue at a rate in excess of the minimum rate prescribed by the Act is levied by the State Government in the whole of the district or in Block, the Zilla Parishad or the Panchayat Samiti, as the case may be, shall be paid every year by the State Government a grant called the local cess matching grant.

The total revenue receipts of the Zilla Parishad for the year 1963-64 are Rs. 190·80 lakhs. The major portion of the receipts is of receipts from Government. They are 91·7 per cent and Zilla Parishad receipts are 8·3 per cent of the total revenue receipts. Major items of Zilla Parishad's receipts are local fund cess, cess on water rates and profession tax.

The total revenue expenditure is Rs. 190·60 lakhs. Following are the major items of expenditure :—

	Per cent
General Administration	1·3
Education	62·3
Community Development Project	9·7
Buildings and Communications	6·8
Miscellaneous	7·4
Other items	11·7

The Zilla Parishad has raised cess on land revenue to 40 paise in a rupee for all blocks except Raver and to 65 paise in a rupee for Raver block.

Per capita expenditure on different development heads of expenditure is as follows :—

	Rs.
General Administration	0·43
Education	8·65
Community Development Project	1·34
Buildings and Communications	0·95

Establishment

The establishment of the Zilla Parishad comprises the gazetted and the non-gazetted staff. The non-gazetted staff consists of the employees of the former local bodies and those of the various State Government Departments now transferred to the Zilla Parishad.

There are 4 Class I and 28 Class II Gazetted Officers working under the Zilla Parishad. The total strength of the non-Gazetted employees of Class III and Class IV categories is 2,125. Moreover, an establishment of 197 Gramsevaks, 505 talatis, 405 village panchayat secretaries has been transferred from the Revenue Department to the Zilla Parishad.

The allocation of Kotwals to the Zilla Parishad is cancelled by Government.

VILLAGE PANCHAYATS

The number of independent village panchayats, the number of group village panchayats and the number of villages covered by the group village panchayats are shown below :—

Taluka	Number of inhabited villages and non-municipal towns	Number of independent village panchayats	Number of group village panchayats	Number of villages covered by group village panchayats
1 Chopda	106	23	29	86
2 Yawal	84	33	13	46
3 Raver	112	31	32	74
4 Amalner	156	28	51	131
5 Erandol	152	19	49	133
6 Jalgaon	89	39	20	50
7 Bhusawal	102+1	26	27	76
8 Edlabad Mahal	79	16	21	62
9 Parola	107	18	31	90
10 Bhadgaon Mahal	60	16	18	44
11 Pachora	117	44	28	75
12 Jamner	145	33	40	115
13 Chalisgaon	126	79	19	25
Total	1,435	405	378	1,007

Note.—The figures in column (5) perhaps include hamlets. The total of columns (3) and (5) does not therefore tally with column (2).

The break-up of the total annual income of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000) Rs.	Percentage of total income
Grants	2,187	39·56
Taxes on houses and properties	550	9·95
Octroi	101	1·83
Other Taxes	1,779	32·18
Total taxes	2,430	43·96
Income from other sources	911	16·48
Total Income	5,528	100·00

The first item includes the Government grant of 30 per cent of the land revenue collected in the village or one rupee per head of population whichever is more. The Village Panchayats also receive the entire local fund cess collected in the village. At present it is collected at 20 paise per rupee of land revenue. The Village Panchayats can raise it with Government approval up to 100 paise per rupee of land revenue.

Out of 783 Village Panchayats 711 have levied taxes on houses and properties. Nine Village Panchayats have levied octroi.

The break-up of the total annual expenditure of all the Village Panchayats in the district for the year 1961-62 is as follows :—

Item	Amount (in '000) Rs.	Percentage of total expenditure
Administration	972	18·16
Health and Sanitation	1,472	27·50
Public Lighting	369	6·89
Other Items	2,540	47·45
Total Expenditure	5,353	100·00

Other items include improvement of village roads, construction of new drinking water wells or repairs to old wells, construction of Panchayat Ghars, schools and such other buildings.

Functions of the Talati (Patwari), Village Panchayat Secretary and Assistant Gramsevak are now combined in one official who now works under the Village Panchayat.

POPULATION

Table A-I in Part II shows the 1961 population of the district and each taluka for total, rural and urban areas separately. Definition of rural and urban areas may be seen in paragraphs 8 and 9 of the Explanatory Note to Part II. Table A-II shows the district population and its variation at each Census since 1901 and the variation in population for each taluka during 1951—61.

Variation

The population of the district and decade variation rates since 1901 are as follows :—

Year	Population	Decade variation	Rate of variation
1901	954,077	..	..
1911	1,028,126	+ 74,049	+ 7·76
1921	1,069,656	+ 41,530	+ 4·04
1931	1,198,260	+128,604	+12·02
1941	1,320,074	+121,814	+10·17
1951	1,471,351	+151,277	+11·46
1961	1,765,047	+293,696	+19·96

Figure to the right shows the total, rural and urban population of the district for the last seven Censuses.

The population of the district increased by 7·76 per cent during the decade 1901—11. In the succeeding decade, however, the influenza epidemic of 1918-19 checked the population growth to a great extent as revealed by very low rate of growth of 4 per cent in the district population. In the successive decades till 1951, the district population increased continuously with more or less uniform growth rates. Only in the decade 1951—61 the district population recorded growth rate of 19·96 per cent which is the highest rate of growth ever attained by the district since 1901.

The high increase in the population during the decade 1951—61 is the result of control of epidemics and other diseases since 1950. Malaria, which used to be a major public health problem in the district, has been controlled by DDT spraying. Campaigns for BCG and Vaccination against smallpox also have contributed their share in improving the survival rate. The death rate has thus been reduced and has resulted in the higher growth rate although the birth rate may not have increased to a great extent.

The 1951—61 decade variation for the State, district and each of the talukas is as follows :—

	Percentage variation 1951—61
MAHARASHTRA	+23·60
JALGAON DISTRICT	+19·96
1 Chopda Taluka	+18·85
2 Yawal Taluka	+20·22
3 Raver Taluka	+20·25
4 Amalner Taluka	+12·84
5 Erandol Taluka	+18·61
6 Jalgaon Taluka	+16·14
7 Bhusawal Taluka	+27·24
8 Edlabad Mahal	+37·31
9 Parola Taluka	+28·68
10 Bhadgaon Mahal	+15·77
11 Pachora Taluka	+19·61
12 Jamner Taluka	+23·74
13 Chalisgaon Taluka	+14·65

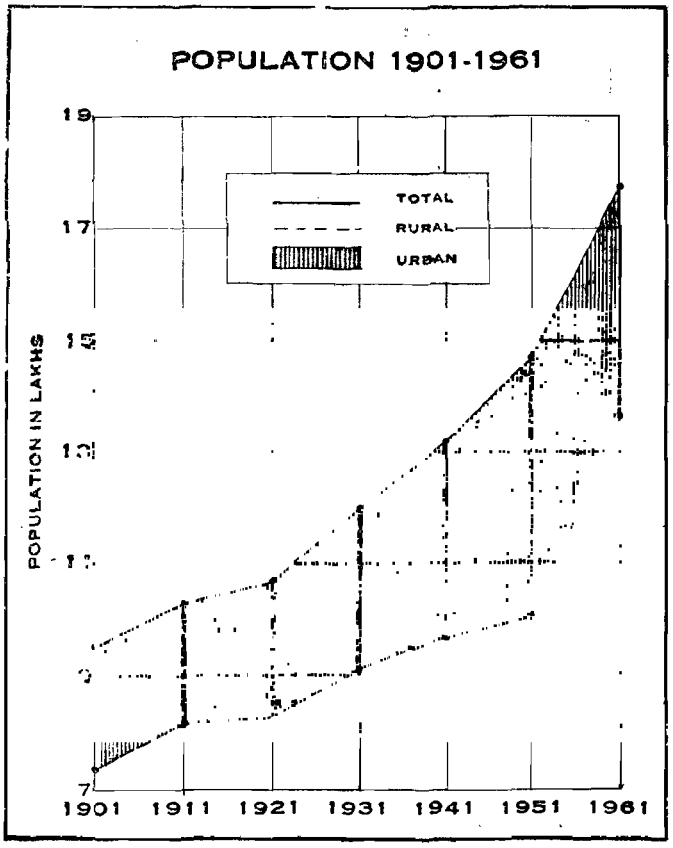

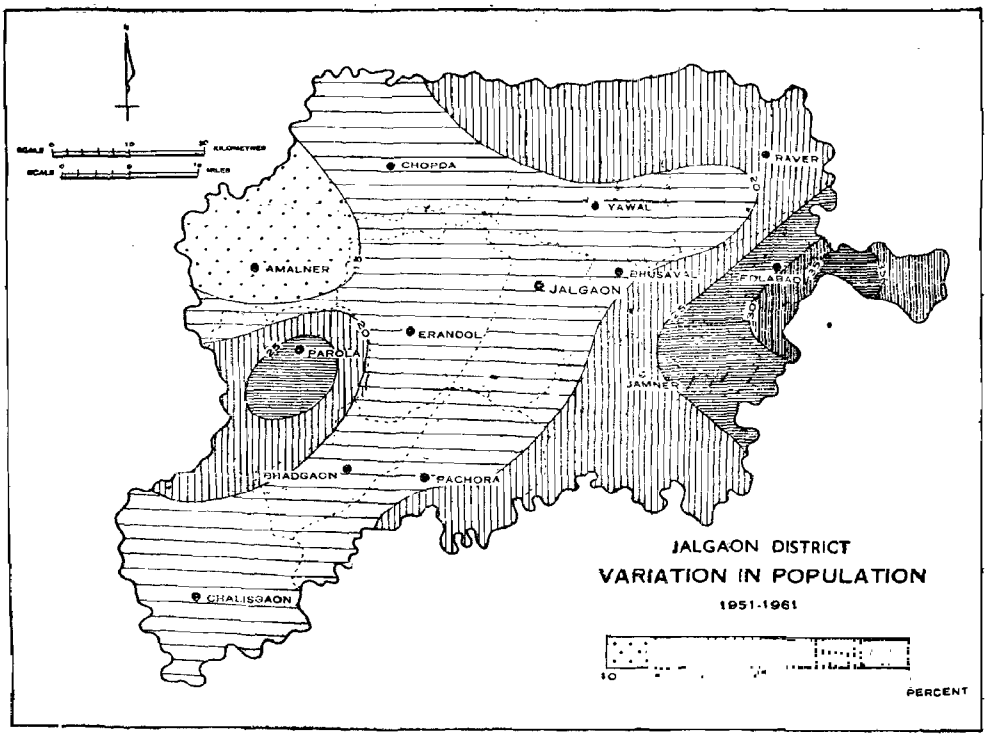

Figure to the right shows the areawise pattern of 1951—61 growth of population within the district.

There are wide differences in the decade rates of variation of different talukas. Edlabad mahal recorded the highest increase (37·31 per cent) while Amalner taluka had the lowest increase (12·84 per cent) over 1951. Yawal, Raver, Bhusawal, Parola and Jamner talukas and Edlabad mahal are above the district average and the remaining talukas are below that average. Edlabad mahal which has no town in its limits has shown the highest decade rate of growth in the district. There is no specific reason to explain this rapid growth. Local investigation may be necessary to explain the high growth rate in Edlabad mahal.

The net percentage increase since 1901, 1921 and 1951 for the district and the State has been as follows :—

	Jalgaon District	Maharashtra
1901—1961	85·00	103·97
1921—1961	65·01	89·71
1951—1961	19·96	23·60

In the last sixty years the district population increased by 85 per cent as against nearly 104 per cent for Maharashtra. During the period 1921—61 the population of the district has increased by 65 per cent over 1921 and that of Maharashtra by nearly 90 per cent. The district population has thus shown a lower growth rate than that of Maharashtra.

Density of Population

The densities for Maharashtra, Jalgaon district and its talukas for 1951 and 1961 are as shown in the next column.

	Density per sq. mile		Percentage of district population in 1961
	1951	1961	
MAHARASHTRA ..	271	334	..
JALGAON DISTRICT	335	402	100·00
1 Chopda Taluka ..	369	439	7·29
2 Yawal Taluka ..	313	376	7·85
3 Raver Taluka ..	326	392	8·02
4 Amalner Taluka ..	446	503	9·25
5 Erandol Taluka ..	345	410	8·55
6 Jalgaon Taluka ..	515	598	10·83
7 Bhusawal Taluka ..	454	577	10·74
8 Edlabad Mahal ..	183	252	3·56
9 Parola Taluka ..	234	301	4·96
10 Bhadgaon Mahal ..	286	331	3·69
11 Pachora Taluka ..	341	407	7·13
12 Jamner Taluka ..	236	292	8·62
13 Chalisgaon Taluka	318	365	9·51

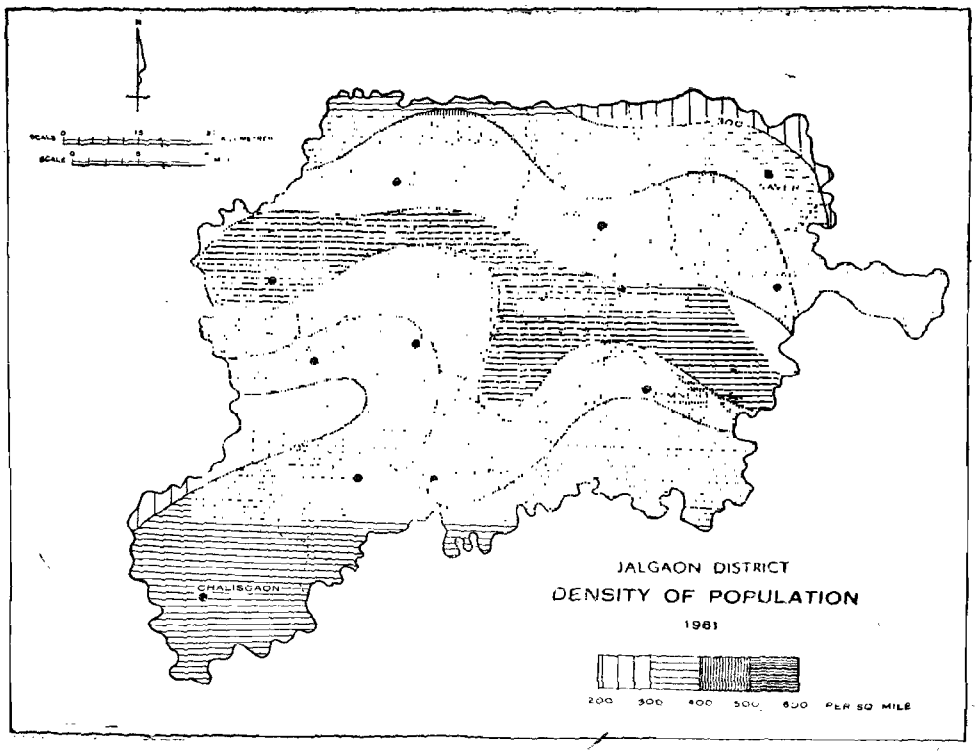

Figure on page (12) shows the approximate contours of density of population in 1961 within the district.

The density of population of the district has increased sharply from 244 persons per square mile in 1921 to 402 persons per square mile in 1961. At successive Censuses since 1901 the density of population in the district has continued to be higher than the State average.

Within the district the density varies from 252 persons per square mile in Edlabad mahal to 598 persons per square mile in Jalgaon taluka. The density seems to have been affected by the existence and the growth of urban centres. High density in Jalgaon and Bhusawal talukas may be due to the existence of large urban centres in those talnkas.

Jalgaon is the district headquarters and Bhusawal is an important railway junction and as such both the places are expanding rapidly.

It may be seen that the areas which have high percentage of the district population are the areas of relative high density. There seems to be a population concentration in Jalgaon and Bhusawal talukas. These talukas together account for 21·57 per cent of the district population with only 14·76 per cent of the district area.

Urban Population

Urban population of the district at each Census and its variation since 1901 are shown in Table A-IV in Part II. The same Table also shows the variation in population for each town in the district. The number of towns, the rate of decade variation in urban population and the percentage of urban population to total population at each Census since 1901 for the district and the State are as follows :—

Year	Jalgaon District			Maharashtra		
	No. of towns	Rate of variation in urban population	Percentage of urban population to total population	No. of towns	Rate of variation in urban population	Percentage of urban population to total population
1901 ..	22	..	22·71	219	..	16·59
1911 ..	23	−1·97	20·66	232	+0·99	15·13
1921 ..	23	+14·46	22·72	238	+18·72	18·50
1931 ..	23	+19·73	24·29	258	+15·54	18·60
1941 ..	23	+21·88	26·87	266	+27·11	21·11
1951 ..	29	+31·78	31·77	383	+62·42	28·75
1961 ..	14	−15·02	22·50	266	+21·32	28·22

In the Figure on page (10) the actual urban population of the district since 1901 is shown by the shaded portion between the two lines. The net growth in urban population of the district over that of 1901 is 83·36 per cent as against 246·96 per cent for the State.

The district is less urbanised than Maharashtra in 1961 Census. The proportion of urban population decreased both for the district and the State in 1911. Since then it gradually increased to an all time high value in 1951. There was a decrease in the last decade. The number of towns remained constant in the district from 1911 to 1941. There was an increase in the number of towns by 6 in 1951. Comparatively the number of towns increased continuously up to 1951 for the State. The drop in the number of towns was due to the declassification of 16 towns because of redefinition of urban areas in 1961. One new town named as Kandari is added in 1961. The names of declassified towns treated as villages in 1961 are as follows :—

(1) Adawad, (2) Chahardi, (3) Bhalod, (4) Nhavi, (5) Kasoda, (6) Asode, (7) Nashirabad, (8) Bodawad, (9) Varangaon, (10) Bhadgaon, (11) Lohare, (12) Nagardeole, (13) Pimpalgaon Bk., (14) Jamner, (15) Pahur, and (16) Shendurni.

The population of declassified towns was 130,441 or 27·91 per cent of the urban population in 1951. If population of those towns is excluded from the 1951 urban population the 1961 urban population would be higher by 17·87 per cent over 1951. The population of the newly added town in 1961 is 5,127 or 1·29 per cent of 1961 urban population. The net decrease of 15·02 per cent now seen in the table above is thus due solely to the change of definition of urban areas and the declassification of sixteen towns.

Jalgaon town, the headquarters of the district, is an important urban area in the district. It accounts for 20·23 per cent of the 1961 district urban population. The percentage growth of Jalgaon town since 1901 is 394·19 per cent and since 1921 it is 244·43 per cent. Population of Bhusawal town-group comprising Bhusawal town and Kandari, a nearby town has increased by 383·54 per cent since 1901 and by 222·65 per cent since 1921. It increased by 45·59 per cent in the decade 1951—61.

The growth of the town-group appears mostly due to its development as an important Railway headquarters.

Rural Population

The rates of variation in rural population and the percentages of rural population to total population of the district, and the State since 1901 are as follows :—

Year	Jalgaon District		Maharashtra	
	Rate of variation in rural population	Percentage of rural population to total population	Rate of variation in rural population	Percentage of rural population to total population
1901 ..	..	77·29	..	83·41
1911 ..	+10·62	79·34	+ 12·68	84·87
1921 ..	+1·33	77·28	−6·77	81·50
1931 ..	+9·76	75·71	+14·77	81·40
1941 ..	+6·41	73·13	+8·54	78·89
1951 ..	+3·99	68·23	+7·72	71·25
1961 ..	+36·25	77·50	+24·51	71·78

The net increase in rural population of the district has been 85·48 per cent over that of 1901 and 65·48 per cent over that of 1921. The same figures for the State are 75·53 per cent and 67·08 per cent, respectively.

The rates of variation of rural population have not followed any definite trend. The urban population had grown faster at the expense of rural population. As a result the rural population increased at a lower rate than the total population. The percentage of rural population decreased gradually both for the State and the district since 1911 and only in 1961 it has showed an opposite trend. This trend is much more pronounced for the district. The high rate of growth of rural population in 1961 and the consequent steep rise in the percentage of rural population to total population of the district may be attributed to the redefinition of urban areas in 1961 which led to the declassification of sixteen towns as villages and their population being added to the district rural population. This affected the district population to the extent of making it less urbanised than it was in 1901.

Size of Villages

Table A-III in Part II shows for the district and for each taluka the number of villages and their population for each class of villages. The distribution of population by size of villages for the district and the State is as follows :—

Size Class	Jalgaon District		Maharashtra	
	Percentage of No. of villages to total No. of villages	Percentage of population to total rural population	Percentage of No. of villages to total No. of villages	Percentage of population to total rural population
Less than 500 ..	40·70	11·36	47·72	15·02
500—999 ..	30·52	22·53	28·55	25·71
1,000—1,999 ..	18·82	27·29	16·62	28·55
2,000—4,999 ..	8·43	25·66	6·18	22·40
5,000 and over ..	1·53	13·16	0·93	8·32

Villages with less than 1,000 population are 71·22 per cent of the total number of villages in the district and account for 33·89 per cent of the district rural population. The corresponding figures for the State are 76·27 per cent and 40·73 per cent, respectively. Villages with more than 1,000 population are 28·78 per cent of the total number of villages and account for 66·11 per cent of the district rural population. For the State such villages form 23·73 per cent of the total number of villages and account for 59·27 per cent of the State rural population. More than half the rural population of the district is concentrated in villages with a population between 1,000 and 4,999 which represents slightly higher than a quarter of the total number of villages.

The area, number of inhabited villages, rural population, average population per village, and the number of villages per 100 square miles of rural area are shown below for the district and each taluka separately :—

State/District/Taluka	Area in sq. miles (Rural)	Number of inhabited villages	Rural population	Average population per inhabited village	Number of inhabited villages per 100 sq. miles of rural area
(1)	(2)	(3)	(4)	(5)	(6)
MAHARASHTRA	115,736·3	35,851	28,391,157	792	31
JALGAON DISTRICT	4,245·3	1,435	1,367,826	953	34
1 Chopda Taluka	269·9	106	102,247	965	39
2 Yawal Taluka	349·0	84	108,688	1,294	24
3 Raver Taluka	346·2	112	115,192	1,029	32
4 Amalner Taluka	305·9	156	116,281	745	51
5 Erandol Taluka	337·5	152	112,559	741	45
6 Jalgaon Taluka	312·8	89	110,734	1,244	28
7 Bhusawal Taluka	317·6	102	110,537	1,084	32
8 Edlabad Mahal	249·5	79	62,840	795	32
9 Parola Taluka	286·6	107	70,389	658	37
10 Bhadgaon Mahal	196·5	60	65,098	1,085	31
11 Pachora Taluka	303·6	117	107,442	918	39
12 Jamner Taluka	521·1	145	152,203	1,050	28
13 Chalisgaon Taluka	449·1	126	133,616	1,060	28

Average population per village in 1961 is 953 in the district against 792 in Maharashtra. An average village in the district thus has much higher population than an average village in the State. The average population per village within the district varies from 658 in Parola taluka to 1,294 in Yawal taluka. The number of villages per 100 square miles of rural area is 34 in the district as against 31 in Maharashtra. Among the talukas of the district Yawal taluka has 24 villages per 100 square miles of rural area as against 51 villages in Amalner taluka.

These observations are based on villages with their administrative boundaries and do not take into account the existence of hamlets (wadi or pada) within their boundaries.

Age Distribution

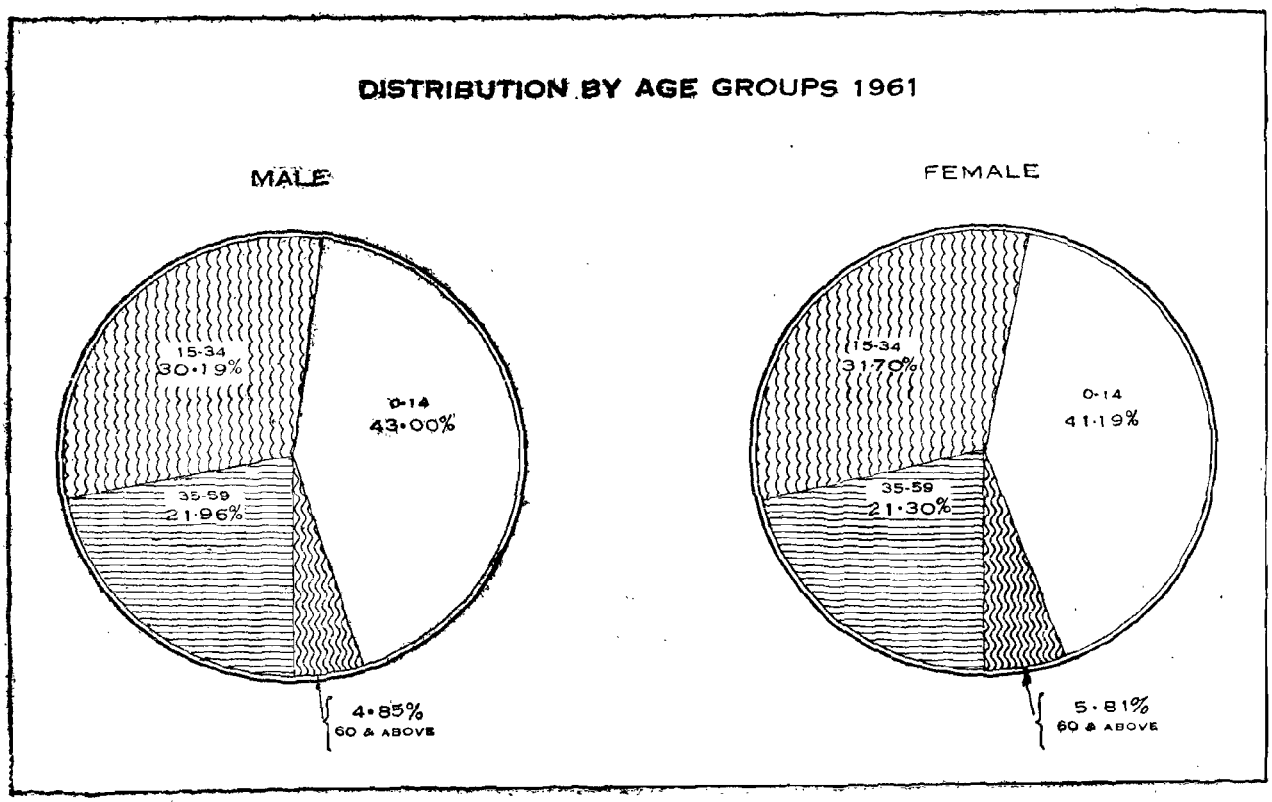

Tables C-II and C-IV in Part II show the distribution of the district population by five-year age-groups and by single-year ages, respectively. Broad age-groups are also shown in Tables B-I, B-II and C-III. The proportions of population by broad age-groups in 1961 for the district and the State are shown in the next column separately for males and females compared with the corresponding proportions for 1951 for the district.

Figure below shows the distribution of the district population by broad age-groups for males and females separately.

Percentages of population by age-groups

Age-groups	1951 District Total		1961 District Total		1961 Maharashtra Total	
	Males	Females	Males	Females	Males	Females
0—4 ..	13·55	13·48	16·04	15·89	14·65	15·39
5—14	26·74	25·53	26·96	25·29	25·55	25·77
0—14	40·29	39·01	43·00	41·18	40·20	41·16
15—34	32·88	33·83	30·19	31·70	32·70	33·13
35—59	22·65	21·55	21·96	21·31	22·09	20·16
15—59	55·53	55·38	52·15	53·01	54·79	53·29
60+	4·18	5·61	4·85	5·81	5·01	5·55
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

During the last decade, the proportion of children aged 0—4 increased from 13·55 to 16·04 per cent for males and from 13·48 to 15·89 per cent for females. Although for males more or less the same trend for the age-group 5—14 is observed, the proportions of females decreased a little during the decade. As a result the proportion of persons in the age-group 0—14 increased both for males and females. The proportions of persons in the older age-group (60+) increased both for males and females. All these changes contributed to lower the proportion of working age (15—59) population both for males and females. Compared to the age structure of the State the district population is more youthful.

Dependency Ratio

The ratio between dependants (age-groups 0—14 and 60+) and 100 of supporting (age-group 15—59) population has an economic significance. The dependency ratios and their two components of youth (0—14) and aged (60+) groups are shown below for 1951 and 1961 for the district and the State separately :—

	Jalgaon District			Maharashtra		
	Youth	Aged	Total	Youth	Aged	Total
1951 Total	71·5	8·8	80·3	69·9	9·3	79·2
1961 Total	80·1	10·1	90·2	75·2	9·7	84·9
Rural	80·6	10·3	90·9	80·6	10·8	91·4
Urban	78·5	9·4	87·9	63·1	7·3	70·4

The dependency ratios are higher in the district than those for Maharashtra. The dependency ratios for the State and the district are both higher in 1961 than those for 1951. Both the components of youth and aged have increased. The increase in dependency may be the result both of high fertility and declining mortality. The 1961 population in the district, thus, has a larger load of dependants than that of 1951. The dependency load is larger in rural areas than in urban areas. This is also true for the State.

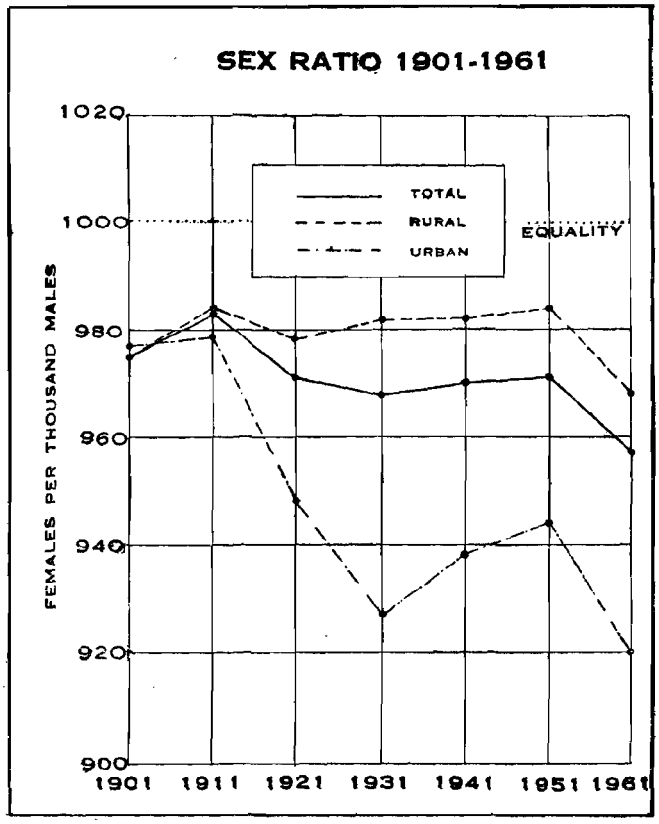

Sex Ratios

The following have been the sex ratios (number of females per 1,000 male population) for the district and the State since 1901 for total, rural and urban areas separately :—

Year	Jalgaon District			Maharashtra		
	Total	Rural	Urban	Total	Rural	Urban
1901 ..	975	975	977	978	1,002	866
1911 ..	983	984	979	966	1,000	796
1921 ..	971	978	948	950	994	776
1931 ..	968	982	927	947	987	790
1941 ..	970	982	938	949	990	810
1951 ..	971	984	944	941	1,000	807
1961 ..	957	968	920	936	995	801

Figure in the next column shows the variation in sex ratios since 1901 for the district total, rural and urban areas separately.

Since 1901 the sex ratio of the population of the district varied from 983 to 957 while that of Maharashtra varied between 978 to 936. Except in 1901 the district had always a higher sex ratio than that for the State. During the period 1901 to 1961 for the State as well as for the district the sex ratios have been the lowest in 1961. For all the Censuses the rural sex ratios were higher for Maharashtra but urban sex ratios were consistently higher in the district than in the State. Rural-urban differences in the sex ratios of the district do not indicate any sizable migration from rural to urban areas within the district.

Following are the sex ratios for different age-groups of population for the district total, rural and urban areas :—

Age-group	Total	Rural	Urban
0—14	916	918	909
15—34	1,004	1,021	953
35—59	928	950	856
60+	1,145	1,162	1,085
All ages	957	968	920

Sex ratios are higher than equality for the age-groups 15—34 and 60+. It is the lowest in the age-group 0—14 for rural areas while for urban areas it is the least in age-group 35—59. The high rural sex ratio in age-group 15—34 may be due to the migration of rural males to urban areas for higher education and jobs. The sex ratio in the higher age-group (60+) is rather very high both for rural and urban areas.

The sex ratio for each taluka in the district for total rural and urban areas separately are as follows :—

	Total	Rural	Urban
JALGAON DISTRICT ..	957	968	920
1 Chopda Taluka	978	980	969
2 Yawal Taluka	964	967	951
3 Raver Taluka	963	971	931
4 Amalner Taluka ..	958	976	913
5 Erandol Taluka	971	962	996
6 Jalgaon Taluka	935	968	890
7 Bhusawal Taluka ..	931	959	893
8 Edlabad Mahal	978	978	..
9 Parola Taluka	955	959	940
10 Bhadgaon Mahal ..	972	972	..
11 Pachora Taluka	954	960	919
12 Jamner Taluka	967	967	
13 Chalisgaon Taluka ..	951	964	

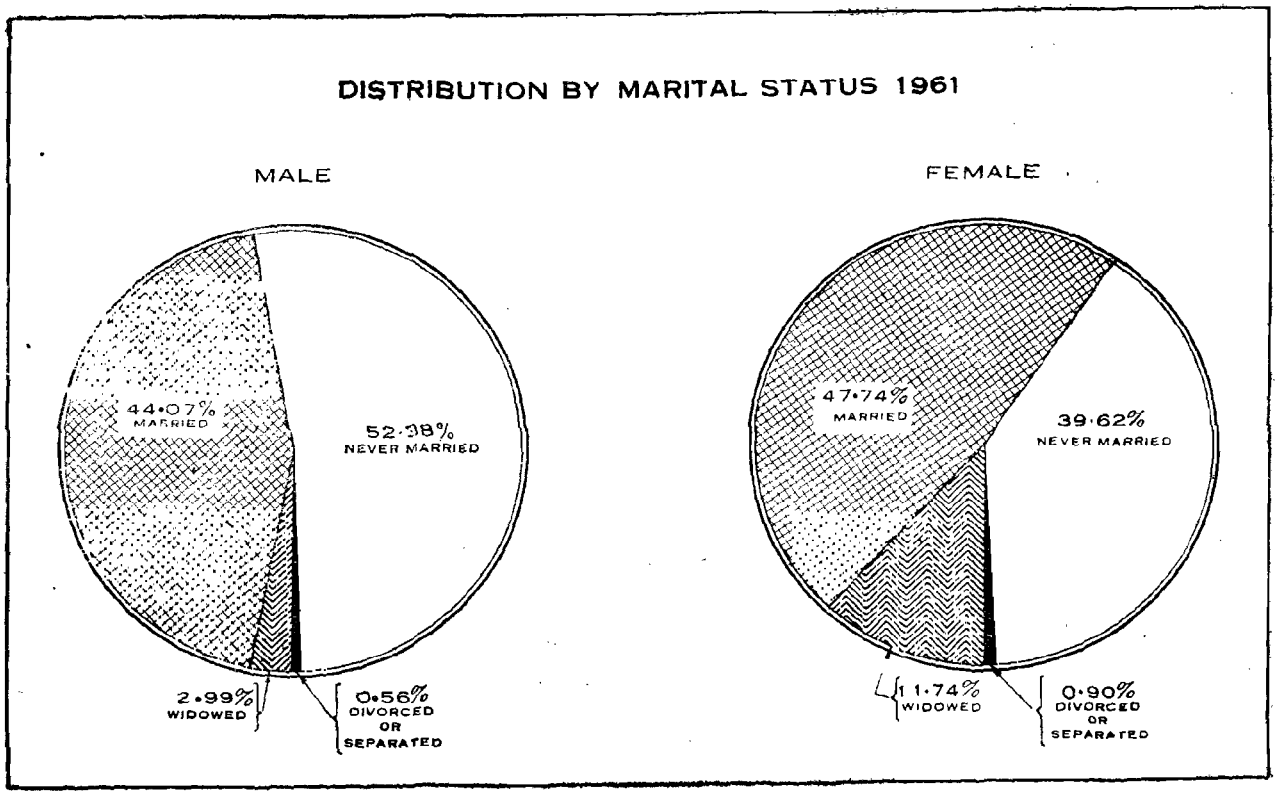

Within the district the sex ratio varies from 931 in Bhusawal taluka to 978 in Chopda taluka and Edlabad mahal. Except for Erandol taluka the rural sex ratio is higher than the urban sex ratio. Within taluka rural-urban differences in sex ratios are wider than those between various talukas of the district. Urban sex ratios are comparatively lower in Jalgaon and Bhusawal talukas possibly due to the existence of large urban centres in those talukas. In no taluka the sex ratio is near equality.

Marital Status

Table C-II in Part II shows the distribution of population by marital status by five-year age-groups. The percentages of population for broad age-groups classified by marital status are shown in the table below compared to those of 1951.

Figure below shows the distribution of the district population by marital status for males and females separately.

Year	Age-group	Total	Marital Status							
			Never Married		Married		Widowed		Divorced or separated	
			Males	Females	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
1951	0—14	100	98·31	85·73	1·65	13·99	0·03	0·25	0·01	0·03
	15—34	100	27·94	3·39	70·03	91·56	1·75	4·31	0·28	0·74
	35—54	100	1·35	0·24	90·39	69·04	7·99	30 53	0·27	0·19
	53+	100	0·66	0·13	73·93	21·20	25·29	78·62	0·12	0·05
	All ages	100	49·11	34·65	46·84	51·43	3·90	13·62	0·15	0·30
1961	0—14	100	99·16	92·47	0·83	7·39	0·01	0·07	..	0·07
	15—34	100	31·33	4·53	66·52	90·58	1·14	3·01	1·01	1·88
	35—54	100	1·10	0·30	91·93	73·31	5·86	25·15	1·11	1·24
	53+	100	0·76	0·25	78·43	25·77	20·25	73·49	0·56	0 49
	All ages	100	52·38	39·62	44·07	47·74	2·99	11·74	0·56	0·90

During the decade 1951—61 the proportion of never married has increased both for males and females while that of widowed showed a decrease both for males and females. The proportion of divorced or separated showed an increase which is hardly of any numerical importance. All these changes contributed in lowering the proportion of married both for males and females. The rise in the age at marriage may be seen from the marital status distribution by age-groups. The proportions of never married in age-groups 0—14 and 15—34 have increased both for males and females in the last decade.

Child Woman Ratio

The following are the child woman ratios for 1951 and 1961, i.e., the number of children 0—4 years age-group for every 1,000 women of 15—44 years age-group as well as for every 1,000 married women of 15—44 years age-group. The proportion of widows to 1,000 women both in 15—44 years age-groups is also shown for comparison :—

	Number of children 0—4 years age-group per 1,000 women of 15—44 years age-group	Number of children 0—4 years age-group per 1,000 married women of 15—44 years age-group	Number of widows per 1,000 married women (both in 15—44 years age-group)
1951 District Total ..	606	687	97
1961 District Total ..	763	862	71
Rural ..	774	865	73
Urban	727	851	65

The child woman ratio for rural areas is higher than that for urban areas. Even when standardised for married women of 15—44 years age-group, it is still higher in rural areas. This may indicate either a higher fertility or a higher survival rate in rural areas of the district. Over the decade, the ratio has increased from 606 to 763.

The number of widows per 1,000 married women in both the age-groups 15—44 has declined from 97 in 1951 to 71 in 1961. The incidence of widowhood is significantly higher in the rural areas than in urban areas.

Migration

The 1961 Census showed the proportions of population enumerated at place of birth and other places as shown in the table below.

58·61 per cent of the population was enumerated at their place of birth. This proportion for males is 71·91 per cent but for females it is only 44·71 per cent. The difference is due to women married and settled down at places other than their places of birth. This movement of females consequent on marriage seems to be most predominant within the district as is revealed by a very high proportion of females born elsewhere in the district. Marriage still seems to be the contributory factor in rendering females a preponderance over males for those born in other districts of Maharashtra. As the district is on the State boundary the volume of inter-State migration of females is also bigger than that of males.

Proportions of population by places of birth

—— (1)	Total population (2)	Place of enumeration (3)	Elsewhere in the district (4)	Outside the district but in Maharashtra (5)	Outside Maharashtra (6)
Persons	1,765,047	1,034,360	556,587	129,081	44,775
Males	902,001	648,496	185,544	46,527	21,314
Females	863,046	385,864	371,043	82,554	23,461
Percentage to total population—					
Persons	100·00	58·61	31·54	7·31	2·54
Males	100·00	71·91	20·57	5·16	2·36
Females	100·00	44·71	43·00	9·57	2·72

The sex ratios in the district population by five-year age-groups for total, rural and urban areas are as follows :—

Age-group	Sex ratios		
	Total	Rural	Urban
All ages	957	968	920
0—4	948	949	945
5—9	925	927	919
10—14	862	865	853
15—19	895	922	817
20—24	1,109	1,137	1,024
25—29	1,041	1,040	1,046
30—34	986	995	955
35—39	959	973	911
40—44	937	964	850
45—49	913	929	855
50—54	931	961	832
55—59	866	892	767
60 and over ..	1,145	1,162	1,085

Rural sex ratio is almost always higher than the corresponding urban sex ratio except in the age-group 25—29. Differences between the sex ratios are less significant in younger age-groups but are quite significant in young adult age-groups among which the age-group 20—24 has the highest sex ratio. Sex ratios are higher than equality in age-groups 20—24, 25—29 and the older age-group (60 and over) both for rural and urban areas. The high sex ratio in age-group 20—24 may be due to the migration of males outside the district for higher education or employment, while the males in age-group 25—29 may be migrating for jobs outside the district. The sudden drop in the sex ratio of rural and urban population for the age-group 55—59 may partly be due to misreporting of ages of women of that group in higher age-group. This may also explain very high sex ratio for the older age-group (60 and over) both in rural and urban areas.

The percentage distribution of male population born at the place of enumeration, born elsewhere within the district and born outside the district by nine categories of economic activity and of non-workers is shown below. An explanation of the nine categories will be found in the Explanatory Note to Part II, paragraphs 42 to 52.

The proportion of non-workers is lower for persons born at places other than the place of enumeration. Cultivators have a higher proportion among those born at the place of enumeration. The differences between the percentage distributions of migrants and non-migrants are more significant for categories VI, VII, VIII and IX. The percentage of non-workers is higher among the people migrating from outside the district. It may indicate that a substantial part of such migration is for education in Jalgaon and Amalner towns.

(1)	Categories of Workers									Non-workers
	I	II	III	IV	V	VI	VII	VIII	IX	
	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
District Total	21·97	15·41	0·90	2·82	2·10	0·91	2·85	1·98	4·68	46·38
Born at place of enumeration	24·50	15·33	0·80	2·56	1·46	0·51	2·17	0·87	2·81	48·99
Elsewhere in the district	17·34	17·66	1·05	3·43	3·41	1·40	3·30	3·44	9·31	39·66
Outside the district..	10·48	10·08	1·43	3·61	4·60	3·44	8·12	8·67	9·82	39·75

Size of the Household

Table C-I-A in Part II shows the proportion of sample households classified by size. Percentage proportions of different types of households are as follows :—

	Total	Rural	Urban
Single member ..	7·04	6·86	7·65
2—3 members ..	23·27	23·19	23·56
4—6 members ..	44·29	44·97	41·90
7—9 members ..	19·11	18·77	20·31
10 members and more	6·29	6·21	6·58
All sizes ..	100·00	100·00	100·00

Among the different size groups, households with 4 to 6 members are more common (44·29 per cent) than others. The percentage distribution of rural and urban households by their size shows that single and small size households are more (31·21 per cent) in urban areas than in rural areas (30·05 per cent). The average size of the household is 5·1. It is more or less the same for rural and urban areas.

Household Composition

Table C-I-B in Part II shows the distribution of sample households by the type of their composition. The percentage distribution of population of sample households by relationship for the district is shown below :—

(1)	Total		Rural		Urban	
	Males (2)	Females (3)	Males (4)	Females (5)	Males (6)	Females (7)
(1) Heads of households	34·74	3·90	34·88	3·95	34·27	3·73
(2) Spouses of heads of Households	0·08	30·85	0·07	30·83	0·10	30·94
(3) Married sons	8·62	..	9·21	..	6·59	..
(4) Other married relations	4·12	16·12	4·20	16·84	3·84	13·55
(5) Never married, widowed or divorced relations	51·68	49·01	50·94	48·26	54·21	51·64
(6) Unrelated persons	0·76	0·12	0·70	0·12	0·99	0·14
Total	100·00	100·00	100·00	100·00	100·00	100·00

34·74 per cent of the males are heads of households as against 3·90 per cent for females. Married sons are 8·62 per cent of the total males. 51·68 per cent males and 49·01 per cent females, which incidentally form the largest group, are never married, widowed or divorced relations. Proportion of unrelated persons in the composition of household is only 0·76 per cent for males and 0·12 per cent for females. 30·85 per cent females are spouses of heads of households. High proportion of females in other married relations includes the daughters-in-law and married daughters or sisters of the heads. The heads of the households have a higher proportion in rural areas whereas their spouses have a higher proportion in urban areas. The proportion of married sons is less in urban areas. It may indicate that the joint family is being replaced by the biological family more in urban areas. Unrelated persons have a higher proportion in urban areas. Domestic servants are included in this category and they appear to be staying with the households more in urban areas than in rural areas.

Population Projections

On the basis of analysis of demographic data obtained in the 1961 Census, Professor K. V. Ramchandran of the Demographic Training and Research Centre, Chembur, Bombay, has on our request, worked out projections for the total population in school-going ages and the labour force 15—59 for the district for years 1966, 1971, 1976 and 1981. His projected estimates are shown below :—

	Total population (in '000)	Population in school-going ages 6—11 (in '000)	Labour force age-group 15—59 (in '000)
Actual 1951	1,471	*229	*816
Actual 1961	1,765	290	928
Projected 1966	1,996	305	1,038
Projected 1971	2,240	348	1,171
Projected 1976	2,521	378	1,337
Projected 1981	2,852	404	1,537

*Estimated figures taken from 1951 Sample Census Tables.

LANGUAGES

Table C-V in Part II shows the population by nine major languages for the district and each taluka and town separately. The distribution of languages by rural and urban areas of the district is as follows:—

Language	Percentage to total Population			Percentage of each language in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Banjari	1·46	1·88	0·01	99·79	0·21
(2) Bhilli	0·52	0·64	0·08	96·43	3·57
(3) Gujarati	0·80	0·33	2·45	31·54	68·46
(4) Hindi	2·96	1·58	7·72	41·40	58·60
(5) Marathi	84·23	88·58	69·26	81·50	18·50
(6) Punjabi	0·06	0·01	0·24	11·06	88·94
(7) Sindhi	0·53	0·03	2·27	4·42	95·58
(8) Telugu	0·32	0·28	0·44	68·89	31·11
(9) Urdu	8·73	6·45	16·56	57·28	42·72
(10) Others	0·39	0·22	0·97	43·28	56·72
All Languages	100·00	100·00	100·00	77·50	22·50

Marathi is the principal language and is the mother-tongue of 84·23 per cent of the population. In rural areas Marathi speakers account for 88·58 per cent of the population and in urban areas they form only 69·26 per cent of the population. Urdu has the second largest number of speakers. It accounts for 8·73 per cent of the district total population. Being a mother-tongue of the minority community it is found spoken more in urban areas where its speakers form as much as 16·56 per cent as against 6·45 per cent for rural areas. Hindi has the third largest number of speakers. It accounts for only 2·96 per cent of the total population of the district. It is spoken more in urban areas where its speakers form as much as 7·72 per cent against only 1·58 per cent from rural areas. Banjari and Bhilli languages are spoken more in the rural than in urban areas of the district.

Gujarati has been reported by 0·80 per cent of the population. It is spoken mostly in the urban areas of the district. Telugu speakers which form 0·32 per cent of the population are more concentrated in rural areas than in urban areas.

The comparative position of the languages in 1901, 1951 and 1961 is as follows :—

Language	Percentage to total population		
	1901	1951	1961
(1) Banjari	..	..	1·46
(2) Bhilli	0·14	0·67	0·52
(3) Gujarati	0·91	0·71	0·80
(4) Hindi	11·17	3·02	2·96
(5) Marathi	86·11	85·80	84·23
(6) Punjabi	..	0·05	0·06
(7) Sindhi	..	0·51	0·53
(8) Telugu	0·27	0·18	0·32
(9) Urdu	..	8·89	8·73
(10) Others	1·40	0·17	0·39
All Languages ..	100·00	100·00	100·00

The proportion of Marathi speakers has decreased from 86·11 per cent in 1901 to 85·80 per cent in 1951 and further to 84·23 per cent in 1961. The percentages of both Hindi and Urdu speakers have remained fairly constant over the decade 1951—61. Hindi was reported by 11·17 per cent in 1901 whereas Urdu was not reported in 1901. Presumably its speakers were then included in the speakers of Hindi. The proportion of Gujarati speakers has decreased from 0·91 per cent in 1901 to 0·71 per cent in 1951 and has slightly increased to 0·80 per cent in 1961. Banjari is reported only in 1961 Census. The percentage of Bhilli speakers increased from 0·14 per cent in 1901 to 0·67 per cent in 1951 and has again decreased to 0·52 per cent in 1961. Percentage of Telugu speakers decreased to 0·18 per cent in 1951 from 0·27 per cent in 1901. It has again increased to 0·32 per cent in the total population of 1961. Punjabi and Sindhi speakers have almost the same percentage in 1951 and 1961. They were not reported in 1901 in the district. The 1901 percentages are pertaining to the adjusted areas of Jalgaon district.

RELIGIONS

Table C-VII in Part II shows the population by religions for the district and each taluka and town separately. The distribution of religions by rural and urban areas of the district is as follows :—

Religion	Percentage to total population			Percentage of each religion in	
	Total	Rural	Urban	Rural Areas	Urban Areas
(1) Buddhists ..	5·76	6·15	4·43	82·71	17·29
(2) Christians ..	0·17	0·03	0·67	12·16	87·84
(3) Hindus ..	83·42	85·64	75·76	79·56	20·44
(4) Jains ..	0·92	0·61	1·98	51·42	48·58
(5) Muslims ..	9·68	7·55	16·94	60·59	39·41
(6) Others ..	0·05	0·01	0·22	8·00	92·00
All Religions ..	100·00	100·00	100·00	77·50	22·50

83·4 per cent of the population reported their religion as Hindu. Hindus constitute 85·6 per cent in rural areas and 75·8 per cent in urban areas. Buddhists account for 5·8 per cent in the district. They are ·2 per cent in rural areas and only 4·4 per cent in urban areas. Muslims are 9·7 per cent of the total population in the district. They form only 7·6 per cent of the population in rural areas but as much as 16·9 per cent in urban areas. Jains are almost equally distributed in rural and urban areas of the district. Christians and followers of all other religions are similarly found in large number in urban areas. The Hindus and Buddhists are more numerous in rural areas than in urban areas. The Christians are the most urbanised group while the Buddhists are least urbanised.

The comparative position of the religions in 1901 and 1961 is as follows :—

Religion	Percentage to total population	
	1901	1961
(1) Buddhists	..	5·76
(2) Christians	0·11	0·17
(3) Hindus	89·15	83·42
(4) Jains	0·95	0·92
(5) Muslims	9·66	9·68
(6) Others	0·13	0·05
All Religions	100·00	100·00

The proportion of Muslims has remained fairly constant over the last sixty years. The proportion of Christians has slightly increased from 0·11 per cent in 1901 to 0·17 per cent in 1961. The percentage of Jains however, has decreased from 0·95 per cent in 1901 to 0·92 per cent in 1961. The decrease in the proportion of Hindus from 89·15 per cent in 1901 to 83·42 per cent in 1961 or by nearly 6 per cent is due to some persons from Hindu Scheduled Caste returning their religion as Buddhist or Nav-Bauddha. The combined proportion of Hindus and Buddhists has, however, remained the same over the last sixty years. The 1901 percentages are pertaining to the adjusted areas of Jalgaon district.

Sex ratios for each religion is as follows :—

Buddhists 1,011; Christians 926; Hindus 953; Jains 964; Muslims 957; All religions 957.

Higher Sex Ratio for Buddhists may indicate that more of their males are going out of the district for job. Christians have the lowest sex ratio. The sex ratio among Muslims is consistent with that of the total population of the district.

SCHEDULED CASTES

Table SCT-I—Part A in Part II shows the population and its distribution by workers and non-workers for each Scheduled Caste by sex for the district and each taluka separately. Actually, 24 Castes are notified as Scheduled Castes in the district but only 8 (including Mang Garudi) are reported in the district in 1961 Census.

The distribution of these eight Scheduled Castes by rural and urban areas is shown in the table below.

The remaining 15 Scheduled Castes for which no one was returned in the 1961 Census in the district are as follows :—

(1) Ager, (2) Baked, (3) Chalvadi, (4) Chenna Dasar, (5) Garoda, (6) Halleer, (7) Halsar, (8) Lingader, (9) Meghval, (10) Mukri, (11) Nadia, (12) Pasi, (13) Shenva, (14) Tirgar and (15) Turi.

Out of the 8 Scheduled Castes (Mang Garudi included in Mang) enumerated in the district the largest number is of Chambhars. Mahars formed the second largest group while Mangs and Bhangis are the third and the fourth. The remaining Scheduled Castes have together hardly 810 population which forms less than 0·1 per cent of the total population of the district. Mahyavanshi and Holaya have very small population.

Chambhars are predominant in the talukas of Chalisgaon, Jamner and Bhusawal ; Mahars in the talukas of Chalisgaon, Erandol and Amalner and Bhadgaon mahal and Mangs in the talukas of Jamner, Chalisgaon and Bhusawal.

The comparative position of the Scheduled Castes population in 1951 and 1961 within the district is as follows :—

	Percentage to total population in		
	Total	Rural	Urban
All Scheduled Castes—			
1951	9·37	10·43	7·09
1961	3·47	3·46	3·53

The reduction in the proportion from 9·37 per cent to 3·47 per cent is mainly the result of the conversions of a large number of persons from the erstwhile Hindu Scheduled Castes to Buddhism. Such conversion to Buddhism have, however, been chiefly among the Mahars who formed large number of Scheduled Castes in the district. The combined proportion of the Scheduled Castes and Buddhists in 1961 is 9·13, which is closer to that of Scheduled Castes in 1951. The slight reduction in the combined proportion of 1961 over that of 1951 may be attributed to the movement of the Scheduled Castes to the adjoining districts for employment.

Name of Scheduled Caste	Population		Percentage to total population of the district	Percentage of each Scheduled Caste population in	
	Males	Females		Rural Areas	Urban Areas
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Castes	31,161	30,158	3·47	77·10	22·90
(1) Bhangi	2,357	2,179	0·26	21·14	78·86
(2) Chambhar	13,079	12,652	1·46	79·02	20·98
(3) Dhor	246	223	0·03	40·30	59·70
(4) Holar	141	158	0·02	92·98	7·02
(5) Holaya	8	24	N	..	100·00
(6) Mahar	9,767	9,445	1·09	86·97	13·03
(7) Mahyavanshi	4	6	N	..	100·00
(8) Mang (inclusive of Mang Garudi) ..	5,507	5,442	0·62	79·73	20·27

*Inclusive of persons from the Scheduled Castes who have not reported their individual Castes. N=Negligible.

Literacy

Tables SCT-III—Parts A (i) and B (i) in Part II show the literacy and educational levels for each Scheduled Caste.

The percentages of literacy for the district total population, all Scheduled Castes and each Scheduled Caste are as follows:—

Name of Scheduled Caste	Percentage of Literacy					
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
District Average	30·46	45·94	14·46	46·26	60·67	30·60
All Scheduled Castes	17·36	29·45	4·88	26·92	42·35	10·93
(1) Bhangi	26·49	39·01	11·47	25·24	41·71	7·92
(2) Chambhar	20·07	33·46	6·32	29·73	44·91	13·63
(3) Dhor	12·70	22·00	2·25	30·36	38·36	21·64
(4) Holar	7·91	15·20	1·96	47·62	56·25	20·00
(5) Holaya	..	..	..	12·50	12·50	12·50
(6) Mahar	17·40	29·98	4·48	34·24	51·38	15·71
(7) Mahyavanshi	..	..	..	20·00	25·00	16·67
(8) Mang (including Mang Garudi)	10·49	18·89	1·77	14·15	26·30	3·02

Both males and females of some of the Scheduled Castes are not much behind in literacy than the general population of the district. They seem to be taking full advantage of the educational facilities available in the district.

Economic Activity

The industrial classification of persons at work and non-workers for the district average, all Scheduled Castes and for each Scheduled Caste is as follows:—

	Percentage of workers in categories			Non-workers
	Cultivation	Agricultural Labourers	All other activities	
District Average	19·60	16·76	9·72	53·92
All Scheduled Castes	9·03	22·10	17·98	50·89
(1) Bhangi	0·02	0·24	37·22	62·52
(2) Chambhar	10·77	21·81	15·06	52·36
(3) Dhor	12·79	4·69	23·67	58·85
(4) Holar	5·68	27·76	17·06	49·50
(5) Holaya	..	..	6·25	93·75
(6) Mahar	12·37	29·26	9·99	48·38
(7) Mahyavanshi	..	..	10·00	90·00
(8) Mang	2·83	20·06	30·30	46·81

The labour participation rate among the Scheduled Castes is higher than that of the district average. 63·4 per cent of the workers among the Scheduled Castes have agricultural activities as against 78·9 per cent for the district average. The proportion of workers engaged in cultivation is lower and those of agricultural labourers and all other activities are higher than the district averages.

This may be due to the association of the Scheduled Castes with certain services as well as to a fewer persons owning lands.

Size of Land Cultivated

Tables C-I and SCT-V—Part A in Part II show a broad classification of cultivating households by size of cultivated land for the district rural population and all Scheduled Castes in rural areas, respectively. The proportions are as follows:—

Size of land cultivated	District Rural population		All Scheduled Castes	
	No. of sample households	Percentage	No. of sample households	Percentage
All sizes	33,259	100·00	855	100
Less than 5 acres	11,604	34·89	467	54·62
5—9·9 acres	9,161	27·54	240	28·07
10—29·9 acres	10,140	30·49	130	15·20
30 acres and over	2,354	7·08	18	2·11

Out of a sample of 33,259 cultivating housholds 855 or about 2·6 per cent households are from the Scheduled Castes in Rural areas against their population which is 3·46 per cent of the total rural population of the district. 54·62 per cent of the cultivating households of the Scheduled Castes are cultivating less than 5 acres of land as against the corresponding average of 34·89 per cent for the district. The percentage of households cultivating land over 5 acres among the Scheduled Castes is 45·38 per cent as against the corresponding average of 65·11 per cent for the district. The proportion of cultivating households is thus smaller in the case of the Scheduled Castes and their participation in agriculture sector is more as agricultural labourers.

SCHEDULED TRIBES

Table SCT-I—Part B in Part II shows the population of Scheduled Tribes by each Scheduled Tribe separately. Twelve Scheduled Tribes, out of the 19 notified tribes of the district, are reported in the 1961 Census. Their population is 98,710 or 5·59 per cent of the total population of the district.

The distribution of the Scheduled Tribes population by rural and urban areas is as follows :—

Name of Scheduled Tribe	Population		Percentage to total population of the district	Percentage of each Scheduled Tribe Population in	
	Males	Females		Rural Areas	Urban Area
(1)	(2)	(3)	(4)	(5)	(6)
*All Scheduled Tribes	49,867	48,843	5·59	94·5	5·43
(1) Barda	159	116	0·02	99·64	0·36
(2) Bhil	42,922	42,461	4·84	96·67	3·33
(3) Chodhara	1	..	N	..	100·00
(4) Dhanka	2,609	2,213	0·27	88·49	11·51
(5) Dubla	13	8	N	100·00	..
(6) Gond	303	312	0·03	35·77	64·23
(7) Kokna	6	..	N	..	100·00
(8) Koli Dhor	639	377	0·06	87·99	12·01
(9) Naikda	81	85	0·01	93·37	6·63
(10) Pardhi	3,070	3,225	0·36	77·43	22·57
(11) Rathawa	36	26	N	100·00	..
(12) Varli	19	17	N	94·44	5·56

*Inclusive of persons from the Scheduled Tribes who have not reported their individual castes. N=Negligible.

The remaining 7 Scheduled Tribes which were not returned in the district in 1961 are as follows :—

(1) Bavacha, (2) Dhodia, (3) Gamit, (4) Kathodi, (5) Patelia, (6) Pomla, and (7) Vitolia.

Bhil with 85,383 persons is the predominant Scheduled Tribe in the district. Pardhi has 6,295 persons, Dhanka 4,822 persons and Koli Dhor 1,016 persons. The remaining eight Scheduled Tribes together have a population of 1,182 persons which is one per cent of the total Scheduled Tribes population.

Bhils are reported from the talukas of Chalisgaon, Chopda, Raver, Amalner, Erandol, Parola, Jamner, Yawal and Pachora. Pardhis mostly from Amalner, Jamner, Erandol, Chopda, Bhusawal and Parola talukas and Edlabad mahal, Dhanka from Yawal taluka and Koli Dhor in Erandol, Chalisgaon and Amalner talukas.

The Scheduled Tribes population in the district has recorded an increase from 64,486 in 1951 to 98,710 in 1961.

Literacy

The Scheduled Tribe as a group does not seem to have made much progress in literacy and education as they are very much backward in education compared to the general population of the district and even the Scheduled Castes. Their females appear to be most depressed in this respect. Dhanka, Koli Dhor and Pardhi are a little advanced groups so far as literacy is concerned among the predominant tribes of the district.

Economic Activity

56·79 per cent of the Scheduled Tribes in the district are reported as workers. More than 70 per cent of these workers are engaged as agricultural labourers. The proportion of workers among the Scheduled Tribes is, however, more than that of the total population of the district. The proportion of cultivating households among the Scheduled Tribes is also small as their participation in agriculture is mostly as agricultural labourers.

WELFARE OF BACKWARD CLASSES

The subject of welfare of Scheduled Castes, Scheduled Tribes and other Backward Classes in the district is now in the purview of the Zilla Parishad. In the membership of Standing Committee which is the most powerful committee of the Zilla Parishad at least two members from Scheduled Castes, Scheduled Tribes and other socially and educationally backward classes are required to be elected by the Parishad. This standing committee acts as the Subject Committee for that subject and the District Social Welfare Officer works under it. The Zilla Parishad is also legally required to spend adequate amounts for the amelioration of the condition of the Scheduled Castes, Scheduled Tribes and of any socially and educationally backward classes and in particular for the removal of untouchability.

Various schemes for the welfare of Scheduled Castes, Scheduled Tribes and other educationally or socially backward classes are in operation in the district—

(1) *Educational.*—These include schemes of granting tuition fees at all stages of education irrespective of age and income, examination fees of recognised examinations and scholarships to the students from the Scheduled Castes, Scheduled Tribes, Nomadic and Semi-nomadic tribes, Vimukta Jatis and the Backward Classes. The concession is awarded in the Primary Schools, High Schools or Technical Schools. 8,771 students benefited from and Rs. 2,23,535 were spent on these schemes during the year 1962-63.

There are a number of backward class hostels in the district. 1,100 students were admitted in these hostels and Rs. 1,12,837 were spent on them in the year 1962-63. Rs. 7,684 were also given as a building grant to one Scheduled Caste hostel.

(2) *Schemes for Economic Uplift.*—These include schemes of granting loan-*cum*-subsidy for Cottage Industries and Professions and of assistance for purchase of milch cattle to the Scheduled Castes and other Backward Classes. Under the scheme of loan-*cum*-subsidy for cottage industries and professions Rs. 13,775 were given to 66 beneficiaries from the Scheduled Castes and Backward Classes from underdeveloped rural areas during the year 1962-63 and Rs. 5,050 were spent on 25 beneficiaries under the scheme of assistance for purchase of milch cattle.

(3) *Housing.*—A number of housing societies of Backward Classes have been formed in the district. These societies construct houses for their members. Financial assistance in the form of loans and subsidies is given to these societies. Assistance in cash or kind for repairs to houses of Scheduled Castes and other backward classes is also provided.

(4) *Medical Aid to Scheduled Castes.*—Monetary aid is given to the deserving persons belonging to Scheduled Castes and Rs. 4,500 were spent during the year.

(5) *Agricultural.*—Financial assistance to poor deserving agriculturists from the Scheduled Tribes, Vimukta Jatis, underdeveloped rural areas and other Backward Classes to purchase ploughs, bullocks, implements, seeds, carts, etc., is given. Rs. 1,500 were spent on 6 beneficiaries under this scheme during the year 1962-63.

(6) *Schemes for Removal of Untouchability.*—These include various schemes of publicity against untouchability. Sanskar Kendras and Balwadis are organised, film shows exhibited and gatherings are addressed at fairs and other places. Kirtan programmes and Melas, inter-caste dinners, celebration weeks and days are also arranged. Building sites are given to Scheduled Castes in Caste Hindu localities and subsidy is paid to Caste Hindu landlords for letting their premises on hire to Scheduled Castes. Prizes are also awarded to villages which show outstanding work for removal of untouchability. Rs. 15,543 were spent under the schemes during the year 1962-63.

The schemes which were already in operation before the Third Five-Year Plan are treated as committed schemes and those added under the Third Plan are separately treated as Plan Schemes. The expenditure described above against each scheme is out of the committed schemes and also includes expenditure on the Plan Schemes. There are, in addition, some more schemes sponsored by the Central Government.

Economic Criterion of Backwardness

Castewise basis of classification of 'Other Backward Classes' has now been replaced by a new classification based on income. The income limit was raised from Rs. 900 per annum to Rs. 1,200 per annum with effect from 1st June 1960. All persons whose annual income from all sources does not exceed this limit are, irrespective of their religion, caste or community, treated as belonging to the 'Other Backward Classes'.

Concessions to Nav-Bauddhas

From 1st May 1960, the Scheduled Caste converts to Buddhism are treated as eligible for all concessions and facilities available to Scheduled Castes except the statutory concessions under the Constitution and certain special schemes for removal of untouchability, etc., which cannot by their very nature apply to non-Hindus.

EDUCATION

Rapid rise in the facilities for primary and secondary education marks the progress in the field of education in the district. The literacy rates in the district for total population and for rural population are higher than the State averages.

Growth of Literacy

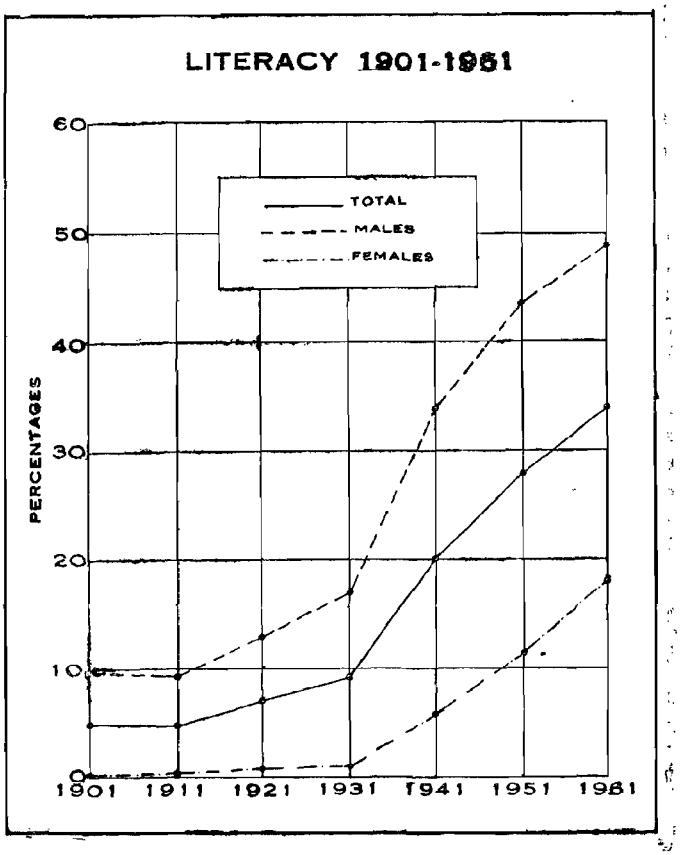

Percentage of literacy in the district for total, males and females since 1901 is as follows :—

	Total	Males	Females
1901	5·01	9·70	0·20
1911	4·86	9·32	0·32
1921	6·91	12·93	0·72
1931	9·16	17·01	1·05
1941	20·11	33·97	5·88
1951	28·15	43·82	11·83
1961	34·01	49·32	18·02

The literacy percentage has increased more than six times during the last sixty years. There has been substantial rise in the literacy rates between the decade 1931—41. The improvement in female literacy from 1·05 per cent in 1931 to 18·02 per cent in 1961 is very significant. The implementation of the scheme of compulsory primary education and the extension of educational facilities during the first two Plan periods might have helped to raise the literacy rates in the district.

Figure to the right shows the growth of literacy in the district for total population, males and females separately.

The Primary Census Abstract in Part II shows the number of literate males and females for total, rural and urban areas of each taluka separately.

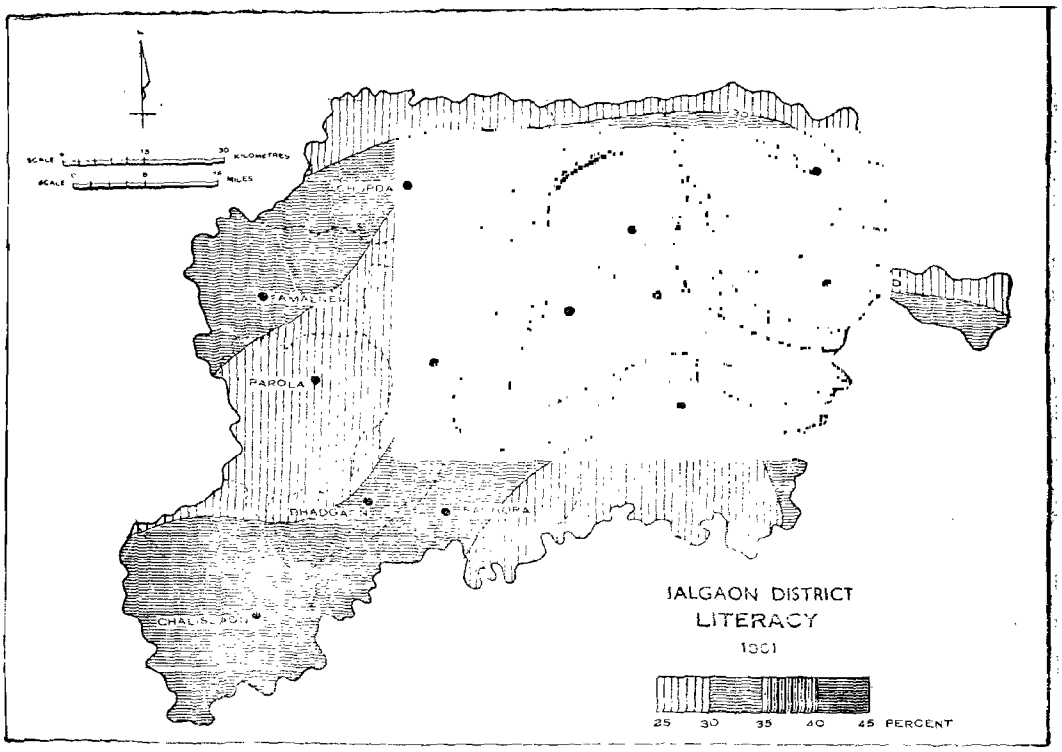

The Village Directory in Part I furnishes such numbers for each village and for each ward of each town separately. Proportions to total population for males and females are shown below for total, rural and urban areas of each taluka separately.

State/District/Taluka	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
MAHARASHTRA STATE ..	29·82	42·04	16·76	21·46	33·51	9·34	51·07	61·62	37·90
JALGAON DISTRICT ..	34·01	49·32	18·02	30·46	45·94	14·46	46·26	60·67	30·60
1 Chopda Taluka	30·86	47·16	14·20	28·96	45·40	12·19	38·21	53·89	22·02
2 Yawal Taluka	40·37	55·34	24·84	39·15	54·07	23·71	44·85	59·92	29·00
3 Raver Taluka	36·36	52·48	19·61	34·39	50·56	17·73	44·96	60·74	28·02
4 Amalner Taluka	32·86	47·96	17·09	28·35	43·19	13·15	44·02	59·39	27·18
5 Erandol Taluka	30·62	46·14	14·64	27·57	42·83	11·71	39·58	56·00	23·09
6 Jalgaon Taluka	41·89	56·96	25·77	33·66	49·62	17·17	53·23	66·67	38·14
7 Bhusawal Taluka	41·35	56·03	25·59	34·65	50·67	17·95	50·71	63·27	36·67
8 Edlabad Mahal	27·23	42·69	11·42	27·23	42·69	11·42	..	..	..
9 Parola Taluka	27·15	41·32	12·32	24·90	38·92	10·28	36·37	51·05	20·75
10 Bhadgaon Mahal	30·68	46·17	14·73	30·68	46·17	14·73	..	..	..
11 Pachora Taluka	31·56	47·36	15·01	29·88	45·85	13·24	41·45	55·98	25·65
12 Jamner Taluka	27·45	43·12	11·25	27·45	43·12	11·25	..	..	..
13 Chalisgaon Taluka	31·32	45·95	15·93	27·51	42·20	12·27	46·17	60·11	30·69

The Figure to the right shows the spread of literacy in the district by isopleths.

The most literate area in the district is concentrated in the central region comprising the neighbouring parts of Jalgaon, Yawal and Bhusawal talukas. The literacy rate drops down gradually beyond this region and the lowest rates are found in the hilly regions of Satpuda in the north and Satmala in the south and in the western portion broadly comprising Parola and Erandol talukas.

Within the district, the percentage of literacy is highest in Jalgaon taluka (41·89) and lowest (27·15) in Parola taluka. In rural areas, Yawal taluka has the highest literacy rates. Among urban areas Jalgaon taluka ranks first with 53·23 per cent.

Literacy by Age

The percentages of literates by age-groups for the district total, rural and urban areas are as follows. Actual figures are shown in Table C-III-A, B and C in Part II which also gives figures for different educational levels separately :—

Average literacy rate for males is as high as 49·32 per cent because of the high figures for age-groups 15—34 and 35—59. It is the result of persistent educational activity over a number of years as well as effective campaign for adult education in recent years. In the case of females the high figure for age-group 5—14 indicates the progress of the scheme of compulsory primary education in recent years.

Age-group	Total			Rural			Urban		
	Persons	Males	Females	Persons	Males	Females	Persons	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages	34·01	49·32	18·02	30·46	45·94	14·46	46·26	60·67	30·60
5—14	44·03	52·97	34·06	40·25	49·91	29·51	56·80	63·24	49·54
15—34	47·08	69·56	24·71	42·37	65·72	19·49	62·48	81·67	42·35
35—59	31·58	54·48	6·91	27·71	50·09	4·15	45·42	69·45	17·34
60+	20·93	42·89	1·76	18·34	38·72	0·79	30·57	57·81	5·48

Primary Education

Table 15 in Part III shows the number of Primary schools and pupils in them for the district and each taluka in 1951, 1956 and 1961. The number of Primary schools and their classification as on 31st March 1962 are as follows :—

—	Total	Basic			Non-basic		
		Senior basic	Junior basic	Single teacher	Single teacher	I—IV Multi-teacher	Middle I—VII
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Total No. of Schools	1,469	272	76	70	452	232	367
Central Government	6	..	..	..	4	1	1
Zilla Parishad	1,309	258	76	70	373	195	337
Municipal	56	9	..	..	..	21	26
Private	98	5	..	..	75	15	3

There has been a steady growth in the number of primary schools during the last ten years. The number of Primary Schools was 1,357 in 1951. It decreased a little to 1,355 in 1956 and increased again to 1,439 in 1961. On 31st March 1962 their number is 1,469. 1,309 or 89·11 per cent out of 1,469 primary schools are managed by the Zilla Parishad and only 98 or 6·67 per cent schools are managed by the private institutions. The rest are managed by the Municipalities and State Government, respectively. The share of the State Government in the expenditure incurred in 1961-62 was 80·4 per cent. The expenditure on primary education is incurred by the State Government through grants-in-aid to the Zilla Parishad and building loans and grants to Primary Teachers' Training Colleges. Similarly, wards of parents whose annual income does not exceed Rs. 1,200 get free education. The cost borne by the schools on this account is reimbursed from the State Government. Students from Scheduled Castes and Scheduled Tribes get free education at the cost of the Government and scholarships are given to them at the rate of Rs. 3 per year in I and II standards and Rs. 6 per year in III and IV standards. Government also gives aid to backward class and mixed hostels for meeting their cost on students belonging to Scheduled Castes and Scheduled Tribes.

The policy of converting primary schools into basic schools is also making steady progress. The number of basic schools was 154 in 1950-51. It increased to 185 in 1955-56 and to 248 by the end of the Second Plan. There were 418 basic schools in the district on 31st March 1962.

By 31st March 1962, 14 towns and 1,119 villages in the district had primary schools and 269 villages had schooling facilities, *i.e.*, primary schools situated within a mile from the village. 47 villages did not have even schooling facilities. Total number of teachers was 5,861. Of these 5,100 or 87 per cent were trained teachers.

Other indices of the progress of Primary Education in the district compared to those of the State averages are as follows :—

(*As on 31st March 1962*)

	Jalgaon District	Maharashtra
Average population served by a primary school	1,221	1,135
Average area served by a primary school (Square miles)	3·1	3·4
Pupils per teacher	44	38
Pupils per school	175	127
Average annual salary per teacher (Rs.)	1,264	1,250
Average annual expenditure per school (Rs.)	5,497	4,903
Average number of teachers per school ..	3·9	3·3
Percentage of trained teachers	87·0	64·8

The scheme of compulsory primary education was introduced in 1947-48 in 292 villages each having population of over 1,000 according to 1941 Census for children of age-group 7—8 years. In subsequent years compulsion was extended to higher age-groups and in 1950-51 it was compulsory for age-group 7—11. In 1951-52, the scheme was extended to another 66 villages for children in the same age-group. In 1954-55, the scheme was applied to 47 villages having a population of over 1,000 according to 1951 Census for the age-group 7 to 8 years. During the Second Plan, compulsion was introduced in 323 villages with population 500 to 999 according to 1951 Census and 668 villages having population below 500. Thus, in 1960-61 the scheme was in force in 1,396 villages for age-group 7—11.

One of the Third Plan Schemes is to extend the scheme of compulsory primary education to all the children in age-group 6—11. A provision of Rs. 31·57 lakhs has been made for primary education in the Third Plan for the district. 490 additional teachers would be appointed in primary schools. 205 class-rooms are proposed to be built during this period. The number of students is expected to rise by 24,500.

Secondary Education

The number of institutions imparting secondary education and number of pupils both boys and girls for the years 1951, 1956 and 1961 are shown in Table 15 in Part III. A list of high schools with number of students in each of them may be seen in Table 16.

By 31st March 1962, the number of institutions and their classification in the district are as follows :—

	Total	Vocational High Schools	Higher Secondary Schools	
			Multi-purpose	Ordinary
State	1	1	..	..
Municipal ..	5	..	1	4
Private	111	..	8	103

Total number of students on roll during the year 1961-62 was 37,367. Out of them, 30,553 were boys and 6,814 girls. Total number of teachers was 1,338. Out of them 922 were trained teachers. Percentage of trained teachers was thus 68·9. Other indices of secondary education compared to the State averages are as follows :—

	Jalgaon District	Maharashtra
Population served by each high school ..	15,333	13,805
Area served by each high school (Sq. miles)	39·1	40·8
Pupil-teacher ratio	28	25
Pupils per school	319	338
Average annual salary per teacher .. (Rs.)	1,831	1,870
Average annual expenditure (direct) per secondary school .. .. ..(Rs.)	32,899	39,543
Average number of teachers per secondary school	11·4	13·7

Figure on page (29) shows the proportion for literates and different educational levels among males and females for rural and urban areas separately.

The progress of secondary education in the district is rapid. The number of secondary schools increased from 39 in 1951 to 50 in 1956 and to 86 in 1961. It was 117 on 31st March 1962. The secondary schools are dispersed throughout the district. Edlabad mahal has one which is the smallest number for any taluka for secondary schools in the district.

Private institutions manage 111 out of 117 secondary schools in the district. The Government share in the total expenditure on secondary education (in 1961-62) is, however, 69·9 per cent. It is incurred through different schemes of grants for maintenance, salaries, buildings, building sites, equipment, freeships, scholarships, loans, etc., and special concessions to Scheduled Castes, Scheduled Tribes or other Backward Class students.

Looking to the rapid growth in the number of pupils in primary schools, the number of pupils in the secondary schools may rise to 42,000 by 1965-66 and to 49,000 by 1970-71.

S. S. C. Examinations

Secondary School Certificate Examination Board, Poona, conducts public examinations at the end of the secondary course. Two examinations are held every year in March and October and Amalner, Bhusawal, Chalisgaon, Jalgaon, Chopda and Faizpur are the examination centres in the district.

	Appeared	*Passed*
Examination held in—		
March 1962 ..	6,581	2,907
October 1962 ..	2,242	814

Higher Education

Talukawise list of colleges is given in Table 16 in Part III along with the 1960-61 number of students for each college.

In 1960-61, there were two colleges in the district, *viz.*, the Mooljee Jetha Arts and Science College at Jalgaon and the Pratap College at Amalner. These colleges are affiliated to the Poona University. They provide education in Arts, Science and Commerce. The number of college students in the district has increased from 922 in 1951 to 1,788 in 1961. Both the colleges are managed by private institutions and receive grants for maintenance, dearness allowance and buildings from Government.

Recently three more colleges have been started in the district, at Chalisgaon, Bhusawal and Faizpur. They are also managed by private institutions.

Technical Education

There are two Government Technical High Schools in the district, one at Jalgaon and the other at Bhusawal. In both the schools, educational facilities are available for students from standard VIII to XI. The courses in electrical/mechanical engineering, workshop technology and technical drawing are provided there. About 600 students take advantage of these facilities every year. Other courses such as in wireman, electrician and carpentry are also conducted in the Industrial Training Centre at Jalgaon. The centre was started in 1960.

Government Polytechnic was started at Jalgaon in 1960, where diploma courses in civil, mechanical and electrical engineering are conducted. A separate building for this institute is also under construction.

Libraries

The number of libraries in the district, recognised by the State Government, as on 31st March 1962, is 25. One of these is a district library and there are 12 taluka libraries and 12 town libraries. The district library receives grant from the Government subject to a maximum of Rs. 6,000. The other libraries receive a grant subject to a maximum of Rs. 1,000 each.

Printing Presses, Journals and Newspapers

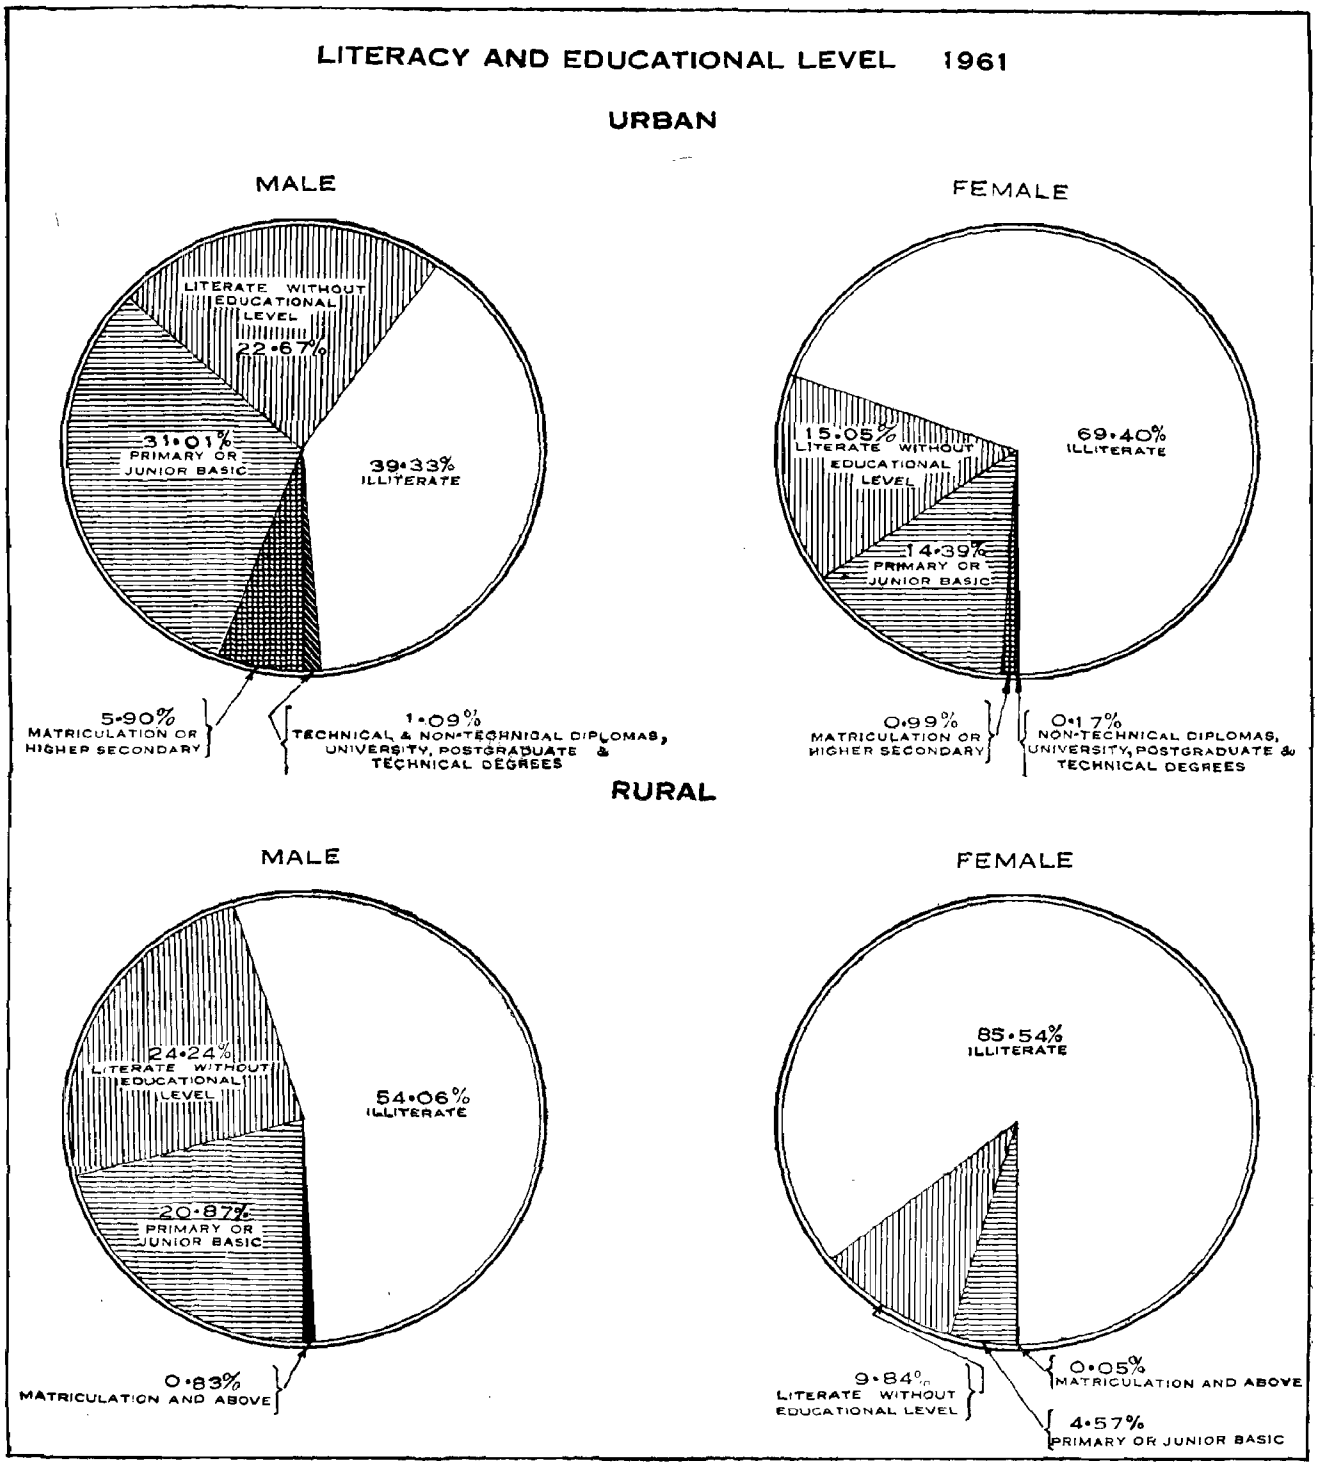

There are 58 printing presses in the district. The number of journals and newspapers is 21. Fourteen of these are weeklies, three monthlies and four journals.

Radio Licences

The number of radio licences in the district has increased from 6,234 in 1958-59 to 8,719 in 1959-60 and to 9,011 in 1960-61.

Cinema Theatres

There are 21 permanent cinema theatres, 7 quasi-permanent theatres and 10 touring talkies in the district as on 21st December 1963.

HEALTH AND MEDICAL AMENITIES

The Health Department's work in the district is now in the purview of the Zilla Parishad. A Subject Committee looks after its working and the District Health Officer works as Secretary to that Committee as well as the Officer-in-Charge of Health activities in the district.

Drinking Water Supply

Column (5) of the Village Directory in Part I shows the sources and adequacy of drinking water for each village in the district.

Four towns and four villages have protected water supply. Out of the remaining towns and villages, 166 villages draw water from rivers, one village from tanks, 13 villages from nalahs, six towns and 843 villages from wells and 4 towns and 408 villages have more than one of these sources. Drinking water supply is not adequate in six towns and 93 villages.

Malaria Eradication

The climate of this district was malarious especially at the foot of the Satpudas, particularly after the rainy season. The work of the National Malaria Control Scheme was, therefore, started in the district in May 1953. It was converted into National Malaria Eradication Programme in 1958. Under this programme DDT was sprayed twice a year in every house in the district during 15th May to 15th October. In the year 1952, there were 3,808 malaria cases in the district. This number decreased to 1,130 in 1960. An active surveillance programme has now been started under which 139 surveillance workers and 35 surveillance inspectors were working in the district in 1960-61. Each surveillance worker was allotted a block of about 11,000 population.

Anti-T.B. Campaign

BCG vaccination scheme was introduced in 1954. In 1961, BCG vaccination campaign was launched when 827 persons were vaccinated. 85 new cases were also detected during the campaign.

Leprosy Control

There is a Leprosy Subsidiary Centre at Savda in Raver taluka functioning since 1958. A project area of about 40 villages comprising 72,000 population was allotted to this centre. This centre detected more than 600 leprosy cases in the project area and more than 300 cases outside the project area. Survey, education and treatment units have been started at six places, *viz.*, Jalgaon, Erandol, Chalisgaon, Adawad in Chopda taluka, Edlabad in Edlabad mahal and Shendurni in Jamner taluka. One technician was appointed at each centre. Besides, private organisations at Bhusawal, Jamner and Erandol are doing leprosy control work.

Family Planning Centres

Five Family Planning Centres are functioning in this district at Adawad, Edlabad, Jalgaon, Varangaon and Talegaon.

Smallpox

There were 2,924 deaths due to smallpox in the district in 1958. The number came down to 11 in 1960. Mass vaccination drives were undertaken in the district for controlling the disease.

Medical Facilities

Medical facilities available in the district are shown in Table 17 in Part III. The figures in the Table relate to the facilities provided by Government and other aided institutions. The numbers of private practitioners, hospitals and dispensaries are not shown there.

The number of doctors and the number of indoor and outdoor patients have increased between 1950—60. The number of doctors has increased from 15 in 1950 to 21 in 1960. The number of indoor patients have increased from 2,846 in 1950 to 6,361 in 1960. The number of outdoor patients also has increased from 91,251 in 1950 to 165,857 in 1960. The number of nurses has, however, remained constant during this period at 13. The number of beds available was 205 in 1960.

Hospitals

There were three Government hospitals in the district in 1960, *viz.*, Civil Hospital (now called the General Hospital) at Jalgaon, the Cottage Hospital at Chopda and Railway Hospital at Bhusawal. The General Hospital at Jalgaon has provision for 70 beds, in addition to a 12-bed ward for T.B. patients. There are also various sections in the hospital such as X-Ray, laboratory, maternity home, blood bank, etc. The Cottage Hospital at Chopda has 20 beds and the Railway Hospital at Bhusawal 26 beds.

There is an Eye Hospital at Chalisgaon which is managed by the Lloyds Relief Association.

Besides, there are also nine private hospitals in the district, out of which one is managed by the Jalgaon Municipality.

Dispensaries

There are no Government dispensaries in the district. In 1960, there were 13 municipal dispensaries and six dispensaries were managed by the District Local Board (now the Zilla Parishad). There are also 36 Ayurvedic dispensaries in rural areas under the control of the District Local Board (now Zilla Parishad). Nearly 350,000 patients get benefit of these dispensaries annually.

Primary Health Centres

At the end of 1960, there were six Primary Health Centres functioning in the district at Adawad, Edlabad, Varangaon, Khedgaon, Talegaon and Wakadi. Maternity and child welfare centres are at Bodwad and Bhadgaon.

There were also 25 subsidised medical practitioners functioning in 1960, two out of these were under the control of the Sarvodaya Centre. Nearly 80,000 patients get benefit of these S. M. P. centres. There is also a mobile dispensary functioning in Yawal taluka for the benefit of backward class people in the Satpuda hills.

There are Government maternity homes at Jalgaon (in Civil hospital), Adawad, Varangaon and Edlabad and municipal maternity homes at Bhusawal, Jalgaon, Chalisgaon, Dharangaon, Yawal, Amalner, Savda and Faizpur.

The total number of persons working as physicians, surgeons, dentists, nurses, pharmacists and other medical and health technicians in the district is 2,115.

The persons returned in the 1961 Census as physicians, surgeons and dentists and their classifications by sex are shown in Table B-V in Part II. The number of medical personnel per one lakh population in the district is 35 as against 54 for Maharashtra.

HOUSING

Tables E-I, E-II, E-IV and E-V in Part II present material on different aspects of housing in rural and urban areas of the district and each taluka separately.

65·28 per cent of the houses are used as dwellings, 16·88 per cent as others (i.e , cattle-sheds, etc.), 10·22 per cent. were vacant at the time of Census and the remaining are used as shops, workshops or factories, schools, etc.

The density of residential houses per sq. mile in the district has increased along with the density of population per sq. mile from 62·6 in 1951 to 79·2 in 1961. The number of persons per residential house has, however, decreased from 5·35 in 1951 to 5·08 in 1961. This may be a sign of an increased mobility of population from rural to urban areas, as well as a tendency towards smaller families in urban areas.

Classified by "owned" and "rented" categories, 74·42 per cent of the dwellings in the district are owned and 25·58 per cent are rented. The proportion of owned is higher (82·71 per cent) in rural areas but very much lower (44·59 per cent) in urban areas. Even this low proportion of 44·59 per cent is higher than the average of 30·28 per cent for all urban areas of Maharashtra.

Out of the various materials used for the walls, mud is predominant in the district with a proportion of 45·17 per cent. Its proportion in the talukas of Jalgaon, Bhusawal, Yawal, Raver and Edlabad mahal are a little lower and the difference is made up by burnt bricks. Mud is used more in rural areas than in urban areas. Its proportion in the rural areas is 52·21 per cent as against 19·84 per cent in urban areas. Burnt bricks are used next to mud for walls in the district. Their use is, however, more in urban areas (65·44 per cent) than in the rural (27·84 per cent). Stone for walls is used in 8·75 per cent of dwellings in rural areas and 4·22 per cent in urban areas.

Out of the material of roof, grass, leaves, reeds, thatch, wood or bamboo, etc., are used predominantly for the roofs in the district with a proportion of 41·17 per cent. Roofs of this type are, however, more common in rural areas than in urban areas. Their proportion in rural areas is 41·80 per cent as against 38·92 per cent in urban areas. These types of roofs contain mostly flat roofs of wooden beams or rafters with a layer of mud on them and are locally known as "Dhaba". These roofs are seen specially in the areas where rainfall is very scanty. The other material used for roofs is corrugated iron, zinc or other metal sheets. Their use is more (30·47 per cent) in urban areas as against 15·34 per cent in rural areas.

The other material which is commonly noticed next in predominance to corrugated iron, zinc or other metal sheets is tiles. Tiled roofs are more common in urban areas with a proportion of 17·85 per cent as against 6·42 per cent in rural areas. Roofs of corrugated iron, zinc or other metal sheets and tiles are seen mostly in those parts of the district where the rainfall is comparatively more. Thus it will be seen that the distribution of material for roof corresponds more or less to the pattern of annual rainfall in the district.

Classified by the number of rooms occupied, 67·60 per cent of households are occupying one-room dwellings and 22·78 per cent are occupying two-rooms dwellings. The households occupying larger number of rooms are more in the urban areas than in the rural areas. Average number of persons per room is 3·44 for total, 3·57 for rural and 3·05 for urban areas.

AGRICULTURE AND IRRIGATION

Agriculture is the most important activity in the district as it engages 78·91 per cent of the working population in the district. Most of the others also work in industries related to processing of agricultural produce or trade, transport and services ancillary to agriculture.

Tables 3 to 10 in Part III present statistics regarding land utilisation, crop pattern, irrigation, wholesale and harvest prices and livestock and agricultural implements, etc., for the district.

Cultivating Seasons

As in other areas of the State, in this district also there are two agricultural seasons, *viz.*, Kharif and Rabi. The district however is predominantly a Kharif season crop area. The ratio of areas under kharif and rabi crops in the year 1959-60 was 92 : 8. There are indeed local variations in this pattern and the talukas of Amalner and Jalgaon with medium black soils have a fair proportion of the rabi crops (nearly 15 per cent). Cotton, jowar, bajri, groundnut, urid, mung and tur are the main crops grown in kharif season and wheat, gram and sesamum are the principal crops of rabi season. Jowar is grown in both seasons, but the district has far more area (87 per cent) under kharif jowar than rabi jowar.

The area under sugarcane, the perennial crop, has been gradually increasing.

Crop Calendar giving monthwise operations in respect of principal crops in the district is given below :—

Crop Calendar giving monthwise operations in respect of principal crops.

Name of the crop (1)	Agricultural Operations

Land Utilisation

The pattern of land utilisation in the district and each of its talukas is shown on page (33) compared with that of the State. All the figures are based on average for three years from 1957-58 to 1959-60.

The Figure on page (34) shows the land utilisation pattern for the year 1959-60 for the district and each taluka separately.

Compared to the State average the district has considerably lower proportion of areas under forests, land put to non-agricultural uses, cultivable wastes and fallows. Consequently the proportion of net area sown in the district is much higher (68·93 per cent of geographical area) than the average for Maharashtra (57·69 per cent). The district proportion of permanent pastures is nearly twice the State average.

Administrative Unit	Percentage of geographical area										
	Total geographical area	Forests	Barren and unculturable	Land put to non-agricultural uses	Culturable waste	Permanent pastures	Miscellaneous tree crops and groves	Current fallows	Other fallow land	Net area sown	Gross cropped area
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)

10 Bhadgaon Mahal	100	9·16	6·11	0·08	3·33	8·84	..	0·83	1·34	70·31	75·19
11 Pachora Taluka	100	5·10	6·15	0·10	0·26	7·33	..	1·23	0·66	79·17	81·52
12 Jamner Taluka	100	12·44	5·04	0·07	1·25	7·81	0·24	0·56	0·23	72·36	73·68
13 Chalisgaon Taluka	100	15·32	6·44	0·17	1·07	4·98	..	0·08	2·02	69·92	72·80

Within the district the proportion of net area sown to the geographical area ranges between 55·06 per cent for Yawal taluka and 82·05 per cent for Amalner taluka. Yawal and Raver talukas and Edlabad mahal have high proportion of areas under forests and as such the proportion of net area sown is low there. On the other hand Amalner taluka has very low proportion of areas under forests and fallow lands. In the north-west taluka of Chopda high proportion of areas is under permanent pastures. Jalgaon taluka has more than tenth part of geographical area under barren and unculturable categories.

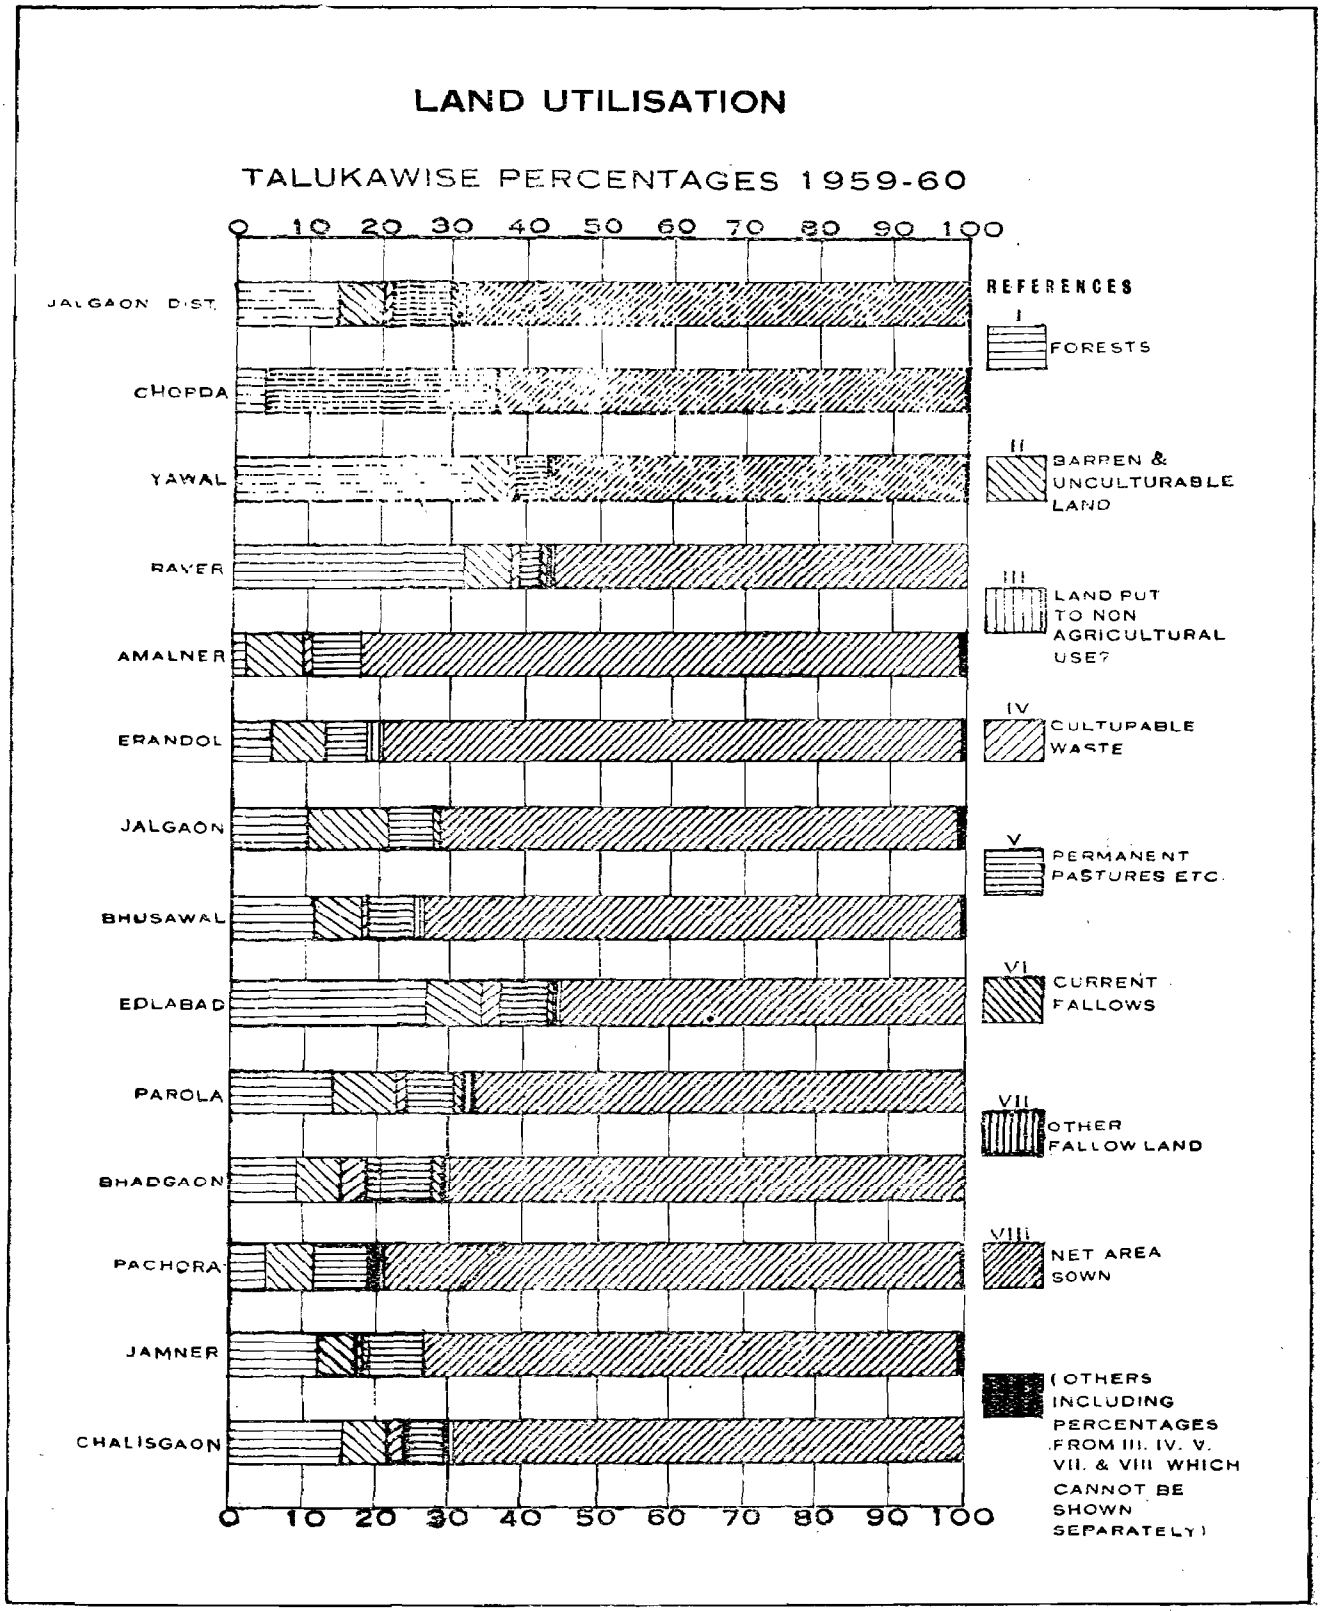

Because of several changes in the classification of land utilisation effected in 1950-51 and changes in the administrative boundaries of the district, it is not possible to determine if there has been any shift in the pattern of land utilisation over the last 40—50 years.

Crop Pattern

The proportions of areas under important food and non-food crops for the district and each of its talukas are shown on page (35) compared with the corresponding figures for Maharashtra. All figures are averages for three years 1957-58 to 1959-60.

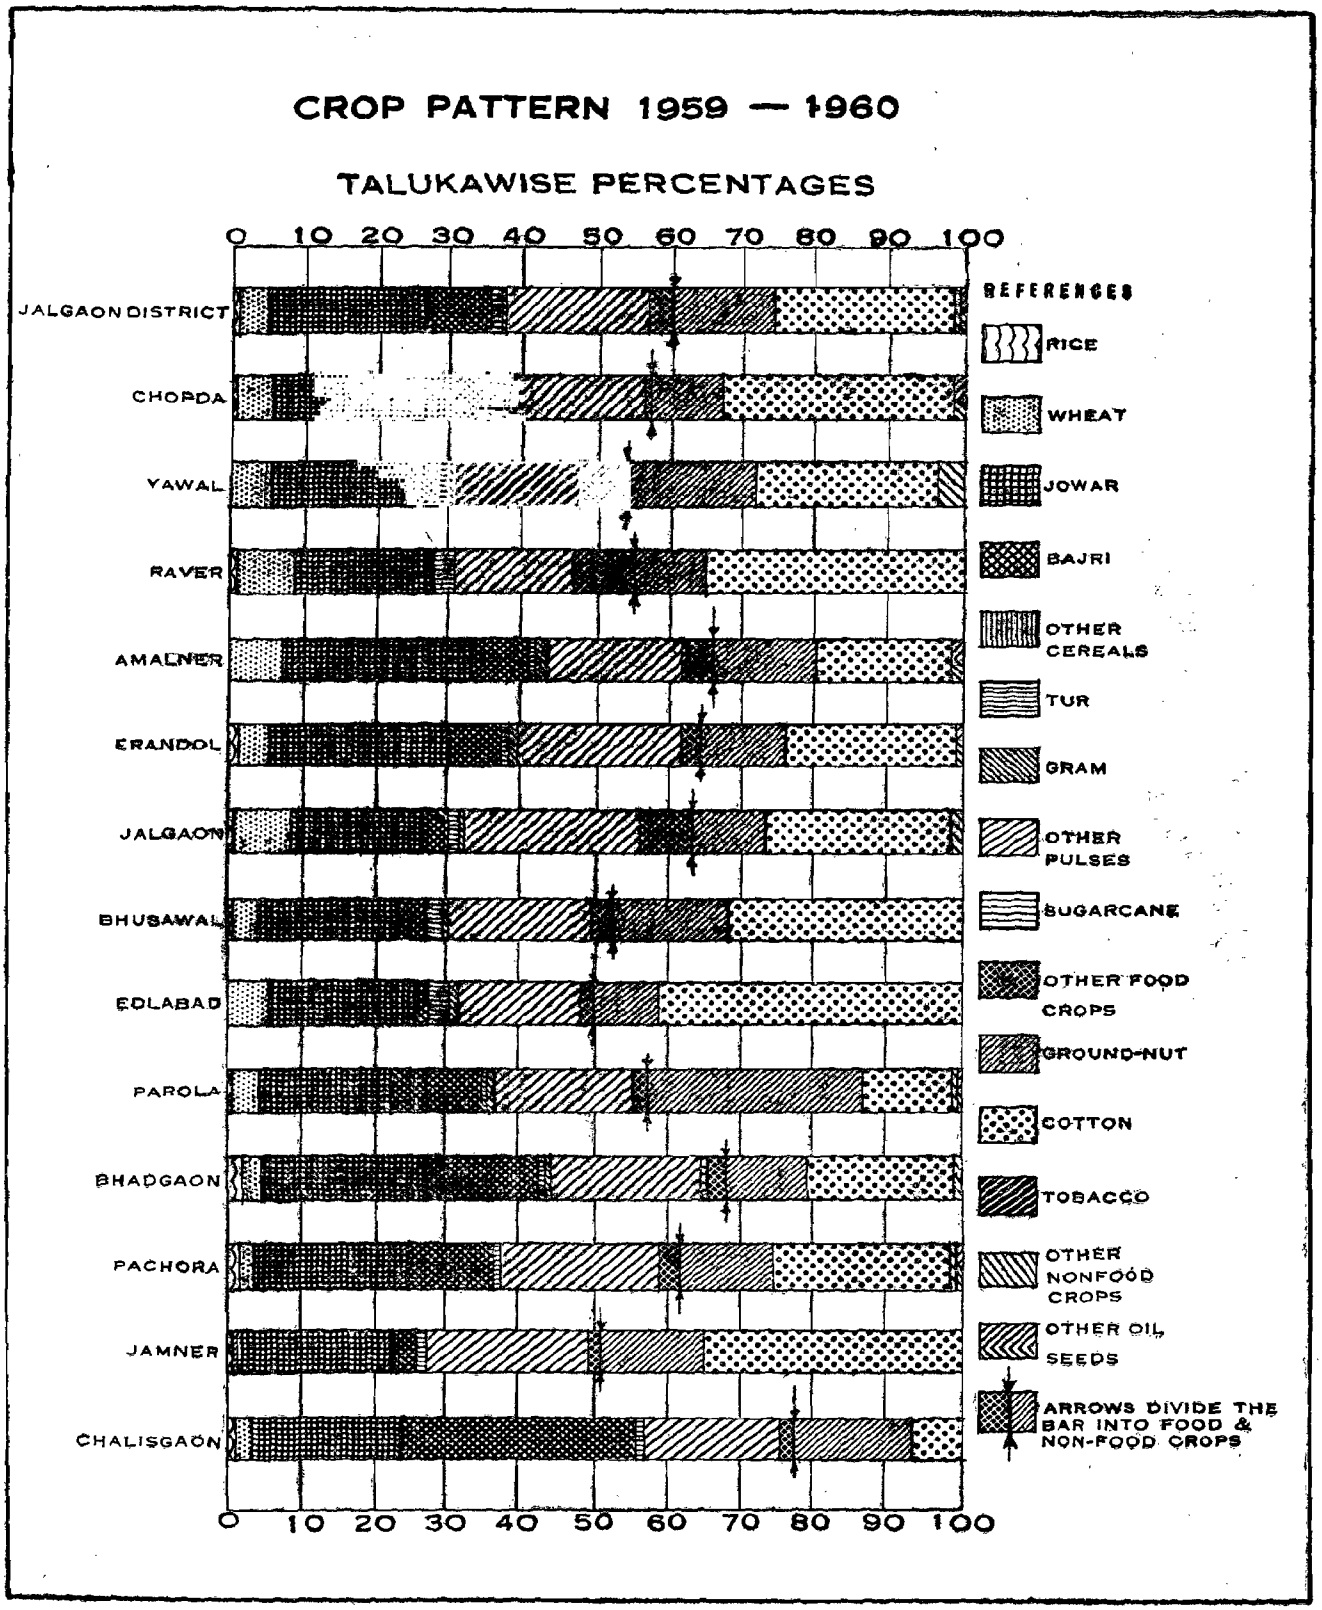

Figure on page (36) shows the crop pattern for the district and each taluka separately.

Jowar is the most important food crop of the district covering almost 1/5th of the gross cropped area. All the pulses, together cover another 5th part of the cropped area. Urid is the most important of all pulses in the district and has more than 60 per cent of the area under that group. Mung, tur, kulith and gram are the other important pulses of the district. Wheat occupies 3·87 per cent of the cropped area and is also an important crop of the district. Compared to the State average the district has extremely small proportions of areas under rice, other cereals, sugarcane, and other food crops. The district has higher proportion of areas under bajri and nearly double the State average under pulses. Although "Other food crops" have much lower proportion than the State average, fruits and vegetables cover the major portion under that group and are very important crops of the district. The plantains from this district are famous throughout the country. Half the area under plantains in Maharashtra is covered in this district. Coriander is another important crop among "Other food crops" in the district and the district ranks second in Maharashtra in its production.

ARROWS DIVIDE THE BAR INTO FOOD & NON-FOOD CROPS

Cotton is the most important among non-food crops having more than 60 per cent of area under that group. In fact cotton is the most important crop of the district and covers fourth part of the total gross cropped area. Most of the remaining area under non-food crops is occupied by oil-seeds, mainly groundnut. Safflower is another oil-seed of lesser importance. The district proportion of groundnut is more than $2\frac{1}{2}$ times the average for Maharashtra. Tobacco has insignificant proportion.

Comparable statistics are not available for the entire district for the years prior to 1950-51. From the statistics quoted in the District Gazetteer it appears that there has been a remarkable shift in favour of groundnut. The district is also emerging as an important 'spices' producing centre, coriander and chillies being the important crops. The development of betel-leaf gardens is remarkable. Fruit and vegetable (chiefly plantains) cultivation has increased rapidly. Coverage under pulses has also gone up considerably. Bajri which was at one time staple food of the district has given way to jowar.

From 1950-51 onwards there appears an inclination towards the non-food crops. The tendency was arrested with the inauguration of " Grow More Food Campaign ". However from 1950-51 to 1959-60, the proportion of food crops to gross cropped area decreased from 70 per cent to 60 per cent and the proportion of non-food crops increased correspondingly. The proportion of cereals reduced from 41 per cent to 35 per cent and of pulses from 27 per cent to 22 per cent. The proportion of sugarcane and fruits and vegetables, however, recorded increase from 0·05 per cent to 0·18 per cent and 1·41 per cent to 1·63 per cent, respectively. The areas under groundnut fluctuated from year to year but the areas under cotton increased very sharply during the First Plan period and reduced slightly thereafter in favour of food crops.

The crop pattern of the district in general can be considered as slightly inferior to the average crop pattern of the State. The crop pattern of the State itself is poor in the all-India setting because of jowar, bajri and other low value crops. The district proportions of high value crops like rice, sugarcane, etc., are very poor. The district also has very small area under irrigation. The relieving factors are the large areas under the cash crops like cotton, groundnut, bananas, coriander and better average yields for the important crops which together raise the gross value of output per acre of gross cropped area to Rs. 65 as against to the State average of Rs. 76.

The cropping pattern within the district varies according to soil types and rainfall. The predominance of non-food crops over food crops is significant in the southern taluka of Jamner and Edlabad mahal while it is opposite in all other talukas. Wheat attains significant proportions in the Tapi Valley zone of Raver, Amalner and Jalgaon talukas. Jowar has even proportion in almost all talukas. In the south-west zone consisting of Chalisgaon, Parola and Pachora talukas and Bhadgaon mahal, bajri is grown to a large extent. Chalisgaon taluka has more than three times the State average under bajri. Bhadgaon mahal and Yawal taluka have significant proportion under sugarcane cultivation. Large area in Jalgaon and Jamner talukas is under betel-leaf cultivation. The Shirsoli betel-leaf from Jalgaon taluka is very famous. Coriander is mainly grown in Jalgaon and Amalner talukas. Raver and Yawal talukas have a number of plantain gardens. Pachora and Jamner talukas also have significant proportion under plantains.

Among non-food crops, cotton has significantly high proportion in Edlabad mahal (43·61 per cent) and Jamner (35·11 per cent), Raver (34·30 per cent), Bhusawal (33·60 per cent) and Chopda (33·10 per cent) talukas. Oil-seeds have high proportion in all talukas except Edlabad mahal. Groundnut has very high proportions in Parola (29·66 per cent) and Chalisgaon (19·95 per cent) talukas. Sesamum has significant proportion in Amalner and Chopda talukas.

Nine-year average yields and 1958-59 acreages and outturns of important crops for the district are shown below taking corresponding figures for Maharashtra as 100 :—

Crop	Nine-year average yields per acre	1958-59 area	1958-59 outturn
MAHARASHTRA ..	100·00	100·00	100·00
Wheat	110·76	3·81	5·49
Jowar	165·13	2·71	3·90
Bajri	110·31	4·67	5·01
Tur	96·31	2·06	2·28
Gram	92·10	1·14	1·36
Sugarcane	53·69	1·03	0·60
Cotton	133·33	8·93	11·68
Groundnut	97·17	11·98	10·82
Sesamum	135·05	3·21	4·06

The district average yields of important cereal crops are higher than the State average and that of pulses, tur, gram, groundnut and sugarcane are lower than the average for the State. The district average yield of jowar is more than $1\frac{2}{3}$ times the State average, whereas it is nearly half in case of sugarcane. The difference is considerable in case of sesamum. Nearly 9 per cent of area under cotton in Maharashtra is covered in the district. So also nearly 8th part of area under groundnut in the State is occupied in this district. The contribution of the district in the State's outturn of cotton and groundnut is substantially high. The district also accounts for more than 5 per cent of outturn of wheat and bajri in Maharashtra.

The Techno-Economic Survey of Maharashtra has estimated the gross value of output per acre of cropped area in 1955-56 at Rs. 65 for the district as against Rs. 76 for the State and Rs. 126 for India.

The density of population, proportion of workers on land to total workers, gross area sown per worker on land and the proportion of gross irrigated area to gross cropped area are shown below for the district and each of its talukas compared with the State average :—

Administrative Unit	Density of population per square mile	Percentage of workers working on land to total workers	Gross area sown per worker on land (acres)	Percentage of gross irrigated area to gross cropped area
MAHARASHTRA	334	69·91	3·50	6·23
JALGAON DIST.	402	78·91	3·34	4·71
Chopda Taluka ..	439	84·82	3·55	0·84
Yawal Taluka ..	376	82·08	2·69	9·12
Raver Taluka ..	392	83·17	2·29	9·58
Amalner Taluka ..	503	75·72	4·10	4·83
Erandol Taluka ..	410	77·22	3·63	4·17
Jalgaon Taluka ..	598	63·13	3·34	1·81
Bhusawal Taluka ..	577	62·67	3·15	4·59
Edlabad Mahal ..	252	90·39	2·92	2·18
Parola Taluka ..	301	84·98	3·83	6·19
Bhadgaon Mahal ..	331	87·51	3·41	8·41
Pachora Taluka ..	407	82·38	3·34	5·54
Jamner Taluka ..	292	89·02	3·59	2·20
Chalisgaon Taluka	365	79·41	3·63	5·35

78·91 per cent of the total workers work on land. Of these 36·37 per cent are agricultural labourers and 42·54 per cent are cultivators. The proportion of workers engaged on land is higher than the State average (69·91 per cent). On the other hand gross area sown per worker on land in the district (3·34 acres) is lower than the State average (3·50 acres). However, the gross value of agriculture production per worker on land in the district is considerably above the State average.

Within the district the proportion of workers working on land to the total working population ranges from 62·67 per cent for Bhusawal taluka to 90·39 per cent for Edlabad mahal. Jalgaon and Bhusawal talukas have larger urban population. Bhusawal has fairly large railway workshop and Jalgaon is an important trading centre. The proportion is therefore lower in these talukas of the district. The gross area sown per worker on land ranges from 2·29 acres in Raver taluka to 4·10 acres in Amalner taluka. The former taluka has large irrigated areas and number of plantain gardens which restricts the gross area sown per worker to such a small extent.

With the increase in the proportion of irrigated lands the proportion of net area sown more than once to the total net area sown in the district has considerably increased recently. In 1959-60 the proportion was 8·12 per cent as against the State average of 5·05 per cent. The proportion varies according to rainfall from year to year, but has shown a distinct trend towards increase during the Second Plan period. In 1950-51 the proportion was 3·33 per cent, in 1952-53 it was 2·21 per cent, in 1953-54, 3·70 per cent and in 1954-55 it was 3·66 per cent. It has thereafter increased gradually to 6·49 per cent in 1958-59. The net area sown more than once is the largest (161,100 acres or 8·12 per cent) in 1959-60. In 1959-60 within the district, the double cropped areas are chiefly concentrated in Amalner (22·47 per cent), Chopda (19·60 per cent), Jalgaon (11·04 per cent), Erandol (10·77 per cent) and Yawal (8·86 per cent) talukas.

The pattern of double cropping practised in the district is : (1) kharif mung or urid followed by wheat or rabi jowar or coriander in rabi season, (2) groundnut in kharif followed by wheat or rabi jowar or gram in rabi season, (3) paddy in kharif followed by wheat or gram and (4) bajri in kharif followed by gram or wheat in rabi season.

Irrigation

The proportion of gross irrigated area to gross cropped area in the district (4·71 per cent) is considerably lower as compared to the State average (6·23 per cent). Percentage of irrigated area to gross cropped area is higher than the State average in Raver (9·58 per cent) and Yawal (9·12 per cent) talukas and Bhadgaon mahal (8·41 per cent). The proportion is insignificantly low in Chopda (0·84 per cent) and Jalgaon (1·81 per cent) talukas.

Table 4 in Part III gives the break-up of irrigated areas by sources of irrigation for the district and each taluka separately. Excepting for a very small proportion of net irrigated area, which is irrigated by "Other sources" (0·54 per cent), tanks (0·11 per cent) and canals (4·77 per cent) the entire irrigation is done by wells. Only Edlabad mahal has about 100 acres under tank irrigation. In Amalner, Jalgaon, Jamner and Pachora talukas small areas are irrigated by "Other sources" of irrigation. Canal irrigation is considerable in Bhadgaon mahal (25 per cent). In the northern talukas of Chopda, Yawal and Raver and in Erandol taluka the entire irrigation is done by means of wells.

The net irrigated area has increased from 67,000 acres in 1951-52 to 92,300 acres in 1959-60, i.e., by 25,300 acres or 38 per cent. The area irrigated by wells has increased by 28,200 acres and about 100 acres have been brought under irrigation through tanks. There is, however, a great decline (about 3,000 acres) in the area irrigated by canals during the period from 1951-52 to 1959-60. The reduction is mainly in Bhadgaon mahal and needs local investigation. Net irrigated area has increased in all talukas except Bhadgaon mahal and Jalgaon taluka wherein it has actually reduced.

Another remarkable increase is also observed in the number of pumping sets worked on oil engines and electric power used for irrigation. The number of oil engines which was 1,780 in the year 1951 multiplied nearly 4 times to 6,416 in the year 1961. The number of pumping sets worked on electric power also multiplied more than twice during the decade.

In 1961 there were 292 electric pumps in the district as against 141 pumps in 1951. In 1961 Yawal taluka had the highest number of oil engines (1,495) followed by Raver (1,418). Chalisgaon taluka had the largest number of electric pumps 130 and Jalgaon taluka 112 in 1961.

Crop Pattern under Irrigation

Table 5 in Part III shows the crop pattern under irrigation. In the year 1959-60, 90·09 per cent of the irrigated area was under food crops and only 9·91 per cent under non-food crops. Among food crops, nearly 1/3rd of the irrigated area (33·30 per cent) was covered by wheat. Another 32·01 per cent were covered by other miscellaneous crops mainly plantains. Sugarcane occupied 3·87 per cent, gram 4·06 per cent, rice 8·62 per cent and condiments and spices 7·83 per cent and maize 0·40 per cent. Among non-food crops 4·76 per cent were covered by cotton and fodder crops occupied 4·66 per cent. Tobacco covered 0·10 per cent and other oil-seeds 0·39 per cent. The proportion of irrigated areas to total cultivated areas under the different crops is : Rice 60 per cent, wheat 38·53 per cent, gram 25·95 per cent, cotton 0·91 per cent, other non-food crops including fodder crops 47·96 per cent and tobacco 25 per cent.

Production

The annual outturn of principal crops in the district is shown in Table 6 in Part III. The average production of foodgrains, groundnut and cotton from 1951 to 1955 and from 1956 to 1960 compares with the production of 1950-51 as follows :—

	Average production in hundred tons during		
	1950-51	1951—56	1956—60
Rice	21	29	28
Wheat	203	112	163
Jowar	1,344	1,085	1,558
Bajri	168	239	234
Other cereals	6	9	6
Total cereals	1,742	1,474	1,989
Total pulses	624	626	640
Total foodgrains	2,366	2,100	2,629
Sugarcane	13	17	57
Groundnut	616	539	794
Cotton (in bales of 392 lbs. each).	627	996	1,409

This comparison taking single year as base may not be very much conclusive as that base year itself perhaps might have been either a very favourable or a very bad agricultural season. Nevertheless such comparison brings out some very interesting results as follows :—

Compared to the production in 1950-51 the average annual production of foodgrains was lower by 11·24 per cent in the First Plan period but was more by 11·11 per cent during the Second Plan period. Among cereals the production was particularly lower in case of wheat. The average annual production of jowar during the First Five-Year Plan period was lower by 19·27 per cent than the 1950-51 production but during the Second Plan period it was higher by 15·92 per cent. The average annual production of bajri during both the plan periods is higher by 42·26 per cent and 39·29 per cent, respectively, than the 1950-51 production. There is an increase in the average annual production of pulses and sugarcane during both the plan periods over 1950-51 production. The increase is 338·46 per cent in case of sugarcane in the Second Plan period. The average annual production of groundnut decreased considerably during the First Plan period but improved during the Second Plan period. The production of cotton during the First Plan period is over 1½ times the 1950-51 production and during the Second Plan period it is 2¼ times the 1950-51 production.

Agricultural Implements

Section C of Table 9 in Part III shows the number of agricultural implements for the district and each of its talukas for the year 1951, 1956 and 1961 separately.

The remarkable increase in the number of oil-engines and electric pumps for irrigation has already been described earlier. The decade 1951—61 shows decrease in the number of ploughs from 78,753 to 67,069, i.e., by 14·84 per cent. This is due to decrease in wooden ploughs to the extent of 26·39 per cent. The number of iron ploughs however increased by 5,159 or 34·54 per cent. The number of tractors which were 35 in 1951 increased to 59 in the year 1961.

By using standard average prices to the agricultural implements shown in Table 9 in Part III, the total outlay on them for the year 1961 may be estimated at Rs. 320 lakhs or Rs. 16·11 per acre of the net sown area. The agricultural implements not shown in the Table may not together make more than Rs. 2 per acre. The total outlay on this item in the district may approximately be presumed to be less than Rs. 19 per acre.

Agricultural Extension

Agricultural development in the district is now looked after by the Zilla Parishad. A Subject Committee of the Zilla Parishad deals with it and the Agricultural Development Officer works as a Secretary to the Committee. There are Agricultural Extension Officers at taluka level working under the Block Development Officer. The latter works as a Secretary to the Panchayat Samiti. Talatis and Gram Panchayat Secretaries work as Assistant Gram Sevaks. Village Panchayats are expected to work for agricultural extension at the village level.

Agricultural Research

There are three Agricultural Research Stations in the district. The Agricultural Research Station at Jalgaon was established in the year 1913 and has a farm area of 110 acres. Research is conducted on groundnut and cotton as principal crops and kharif jowar, mung, urid and til as subsidiary crops. At the Agricultural Research Station at Chopda (established in 1948) research is done on cotton. It has a farm area of 3 acres. Agricultural Research Station at Savda (Raver taluka) which has started recently makes research on bananas.

Agricultural Improvements

(i) *Increasing the area under irrigation.*—The most important single item of increasing the agricultural production is increasing the area under irrigation. During the first two plan periods stress was laid on minor irrigation schemes, like construction of bandharas, wells and tanks, etc. Some of the minor irrigation schemes completed during the first two plan periods were :

(1) Bandhara on Titur river near Nagardeole Bk. (Pachora Taluka) and near Tambole (Chalisgaon Taluka).
(2) Bandhara on Dhaman river near Shirasgaon (Chalisgaon Taluka).
(3) Bandhara on Korde nallah near Umberkhede (Chalisgaon Taluka).
(4) Bandhara on Beli nallah near Pimpri Kh. (Chalisgaon Taluka).
(5) Bandhara on Bhonak nallah near Vaghode (Yawal Taluka).
(6) Bandhara on Hated nallah at Manyarkhede (Jalgaon Taluka).
(7) Construction of Tanks at Vilhale (Bhusawal Taluka), Hartale (Edlabad Mahal) and Mhasve (Parola Taluka).

These schemes have raised the irrigation potential by over 6,000 acres. Besides these schemes other minor irrigation schemes that are being implemented will on completion raise irrigation potential by another 6,000 acres. The Third Plan envisages new minor irrigation works irrigating about 1,100 acres in addition to those stated above.

In the Second Plan period a major irrigation project known as Girna River Project was taken in hand. The project which is actually situated in Nasik district will raise the irrigation potential of this district by about 1·43 lakh acres nearabout Erandol taluka and Bhadgaon mahal.

Construction of new wells and repairs to the old ones is the quickest and cheapest way of increasing the irrigational potential though to a limited extent. Much stress is therefore laid on expanding this sector. During the First Plan period about 3,800 wells were brought in use through new construction and renovations. In addition about 4,700 pumping sets run on oil engines and electric pumps were installed during the two Plan periods. The Third Five-Year Plan envisages construction of 4,400 new wells and installation of 2,000 pumping sets involving total outlay of Rs. 34·69 lakhs.

With the increasing facilities for irrigation the question of full utilisation of the created potential is likely to assume importance. Statistics of the available potential and the current utilisation are not however available for the district separately.

(ii) *Improved Seeds.*—Another item of improving food production is the recommendation of appropriate varieties or strains of crops suitable for the tract. The Agriculture Department has recommended the following improved varieties or strains of crops for the district :—

1. Kharif Jowar	(1) B. S. 12-2-11. (2) Savner (Improved) for Edlabad mahal. (3) Khedi-1-1.
2. Bajri	(1) N-28-15.
3. Cotton	(1) Virnar 197-3 (Non-irrigated). (2) Y-1 Do. (3) L-147 Do. (4) 170-CO_2 Do.
4. Groundnut	(1) Spanish Improved. (2) Faizpur 1-5.
5. Urid	(1) Shindkheda 1-1.
6. Mung	(1) China 781.
7. Tur	(1) T-84.
8. Rabi Jowar	(1) Maldandi (M) 36-1.
9. Gram	(1) Chafa.
10. Wheat	(1) Gulab 224 (Non-irrigated). (2) N-345 (Irrigated). (3) N-917 Do. (4) Hy. 65 Do. (5) N. I. 146 Do.
11. Sugarcane	(1) CO.419. (2) CO.775.

Seed farms have been established at 13 places in the district to provide improved seeds to farmers. The combined area of all the seed farms is 539·48 acres.

(iii) *Soil Conservation or Bunding and Terracing.*— During the first two plan periods an area of about 1·60 lakh acres has been bunded. In the Third Plan it is estimated that an area of 2·60 lakhs acres will be brought under improvement by construction of bunds.

Livestock

The number of livestock for the year 1951, 1956 and 1961 has been shown separately for each taluka and the district in Table 9 in Part III.

The total livestock as per 1961 Livestock Census in the district is 10·26 lakhs. This forms 47·84 livestock per 100 acres of cultivated area. The corresponding figures for the State is 138·82.

Out of the total livestock the bovine population in 1961 formed 7·27 lakhs or 70·82 per cent. The number of male bovines over 3 years are 2·67 lakhs. The area cultivated per pair of male bovines over 3 years is 16·07 acres as against 5·48 acres for Maharashtra. There are 2·49 lakhs female bovines over 3 years, in the district. That makes 141 female bovines over 3 years per 1,000 population in the district as against the State average of 158.

There has been an overall increase of 20·22 per cent in the total livestock during the decade. Increase is observed in all types of livestock except horses and ponies. The number of cattle and buffaloes increased by 12·30 per cent and 14·36 per cent, respectively. During the same period, the other livestock multiplied more than $2\frac{1}{2}$ times and the number of sheep more than doubled. The number of horses and ponies decreased from 7·2 thousand to 4·3 thousand. The number of poultry has multiplied almost two times during the decade.

Veterinary Facilities

There are 12 full-fledged veterinary dispensaries located at the following places in the district in addition to a Veterinary Hospital at Jalgaon :—

(1) Bhusawal, (2) Jamner, (3) Edlabad, (4) Savda, (5) Yawal, (6) Chopda, (7) Amalner, (8) Parola, (9) Erandol, (10) Chalisgaon, (11) Pachora and (12) Bhadgaon.

In addition to these there are 27 Veterinary Aid Centres functioning at different places in the district. Treatment of animal diseases, control of epidemics, castration of scrub bulls and control and destruction of animal parasites are the main services rendered at these dispensaries.

Majority of cattle found in the district are of non-descript type showing certain influence of Nemadi breed of cattle in talukas adjoining to Nimar tract of Madhya Pradesh and of Khillar breed in talukas adjoining the southern part of the State. Khillar breed can very well stand the scarcity conditions whereas Nemadi breed is found suitable for lifting water. The Nemadi breed are used for upgrading the local breed in areas showing Nemadi influence and Khillar breed in talukas having preponderance of Khillar breed. Natural services as well as artificial insemination methods are practised for this purpose. The breeds of buffaloes found in the district are the Surati and local ones.

For development of cattle through selective breeding, 56 breeding bulls are located in the district under the premium bull scheme. So also 10 bulls and 50 cows are located in 5 supplementary cattle breeding centres under the supplementary cattle breeding scheme. A key village centre also works at Pimpale (Jalgaon taluka) under the key village scheme. Cattle development is also undertaken by the two cattle breeding farms both established in 1932 in the district, *viz.*, Gilligan Cattle Breeding Farm, Pimpale, and Gangapuri Cattle Breeding Farm, Jamner. Both these farms are run by Co-operative Taluka Development Boards and work for the development of Nimar breed.

With a view to undertaking breeding trials for evolving new types of superior fine woolled sheep and to supply the quality seed stock for upgrading the rural flocks of sheep, a sheep breeding farm has been established at Bilakhed in Chalisgaon taluka.

Two poultry demonstration centres have been established at Jalgaon and Bilakhed in the district. There are 32 improved breeds at Jalgaon Centre and 6 improved breeds at Bilakhed.

AGRARIAN STRUCTURE AND LAND REFORMS

Land Tenures

The farming system introduced by the last Peshwas was abolished and the system of settling land revenue with individual cultivators was introduced by the British in 1818. This freed the cultivators from the various demands made by officers.

The most predominant tenure prevailing in the district is the Ryotwari tenure of heritable and transferable occupancy rights. With the object of safeguarding the lands of backward classes falling into the hands of Sowcars, lands granted by Government since 1901 were subjected to certain restrictions regarding transfer or sale and the new occupancy rights were called " new " or " restricted " tenure.

There used to be another tenure of Inam lands which were gifted or granted by the Government for meritorious services in the past or in lieu of or on condition of some continuing service useful to the Government or to the village community. Inam lands were held wholly or partially free of land revenue. There were five classes of Inams in the district:—

	Year of abolition
(i) Political or Saranjam Inams	1952
(ii) Personal Inams	1953
(iii) Hereditary Watan Inams	1951
(iv) Village servants useful to the—	
(*a*) Community	1954
(*b*) Government—	
Patils	1963
Mahars	1959
(v) Deosthan Inams.	

All Inams, excepting the last category of Deosthan Inams held by religious institutions or for religious services, have now been abolished under various measures of land reform. The year in which each class of Inam was abolished is shown above. All hereditary Watan lands held for village services have also been abolished and occupancy rights of abolished Inam lands have been conferred on their holders or tenants, as the case may be, on conditions of payment of occupancy price to the Government and/or compensation to the erstwhile holders. Consequential processes of determining titles for occupancy rights and of recovery of occupancy price or compensation are in some cases still in progress. The process of abolition of intermediary interests in land is thus being completed in the district.

Record of Rights

A Record of Rights in land is maintained by the Revenue Department for each village separately. It is integrated with annual crop returns and inspections and is, therefore, easily maintained up to date. Rights on land in respect of ownership, tenancy, mortgage and other encumbrances are recorded and a form is maintained for each parcel of land separately. It is obligatory on every person acquiring any right on land to report it within three months. Annual Revenue accounts are prepared on the basis of the Record of Rights.

Size of Landholdings

Census Table B-X in Part II of this Volume shows that 52·83 per cent of the total number of households cultivate land and the remaining 47·17 per cent do not cultivate any land.

Census Table B-XI in Part II shows the break-up of cultivating households by size of land cultivated and by the interest in the land. 86·68 per cent of the cultivating households cultivate their owned lands only. 3·02 per cent of the households cultivate tenanted lands only and the remaining 10·30 per cent cultivate lands partly owned and partly taken on lease. Percentage distribution of cultivating households by the size of land cultivated is shown in the next column.

The distribution of households in Table B-XI and the same shown in percentage in column 2 below is based on cultivation (operational) holdings as returned in the 1961 Census.

A classification of holdings on the basis of area owned (against the area cultivated) for the year 1952-53 is shown in Table 10 in Part III. The percentage distribution of these ownership holdings is also shown in column 3 below :—

Area	1961 cultivation holdings	1952-53 ownership holdings
Less than 1 acre	2·06	9·10
1·0 to 4·9 acres	33·16	38·62
5·0 to 9·9 acres	27·54	24·00
10·0 to 14·9 acres	14·70	11·63
15·0 to 29·9 acres	15·54	11·47
30·0 to 49·9 acres	5·11	3·44
50+acres	1·89	1·74
Total ..	100·00	100·00

The average size of cultivation holding in the district in 1960-61 is 10·97 acres. Average size of the ownership holding in the district was 9·68 acres in 1952-53 against the average of 12 acres for the State.

Ownership Rights to Tenants

Tenancy rights are regulated under the Bombay Tenancy and Agricultural Lands Act which is in force since 1948. It provides security of tenure to and payment of only reasonable rents by the tenants.

In pursuance of the " Land to the Tiller " policy, the Act provided for compulsory transfer of ownership rights of tenanted lands to the protected tenants from 1st April 1957. This was an important step towards the removal of absentee landlordism which was one of the disincentives in any programme of agricultural improvement.

Up to 31st March 1964, ownership rights have been conferred upon 21,806 tenants for 98,600 acres of land in the district. Out of these, 12,301 tenants had mutually agreed with the landholders on the price to be paid by them in respect of 54,716 acres. In the remaining cases, the prices were fixed by the Revenue Officers.

Ceiling on Holdings of Agricultural Land

The Maharashtra Agricultural Lands (Ceiling on Holdings) Act came in force from 26th January 1962. Three local areas, *viz.*, Raver, Amalner and Jamner have been notified in the district with different ceiling areas for dry crop land, *viz.*, 78, 84 and 96 acres, respectively. In the case of irrigated lands, the ceiling area in all the three local areas is the same, *viz.*, 18 acres in the case of perennially irrigated areas, 27 acres in areas irrigated in two seasons, and 48 acres in areas which get irrigation water for

one season only. Holders of land in excess of the ceiling areas are not now free to transfer or partition any land until the land in excess of the ceiling is determined under the Act. They were required to furnish returns of their holdings to the Collectors. The Collectors are to make enquiries to determine the surplus lands and take them over in possession. Those lands shall afterwards vest in the State Government. The Act also provides for payment of compensation to the holders at specified rates and for distribution of surplus lands to landless or other persons in the prescribed order of priority. At the moment, the enquiries to be made by the Collectors are in progress.

Consolidation of Holdings

The provisions of the Bombay Prevention of Fragmentation and Consolidation of Holdings Act, 1947, were applied to the district and work of consolidation of holdings was started in 6 talukas and one mahal. The scheme is to arrange mutual exchange of small and scattered fragments of holdings and to make the land holdings as compact as possible. The number of villages and the areas for which the work has been completed up to 31st March 1963 are as given in the next column.

Taluka/Mahal	Date of commencement of work	No. of villages completed	Area covered acres	No. of holdings
1 Jalgaon ..	18-6-50	74	102,909	22,886
2 Bhusawal ..	1-7-54	62	65,483	15,038
3 Erandol ..	17-1-59	39	32,635	8,506
4 Edlabad Mahal ..	22-4-60	5	2,407	594
5 Chalisgaon ..	29-1-60	14	12,742	2,929
6 Amalner ..	28-1-60	17	12,474	3,373
7 Parola ..	17-9-62	4	2,740	730

In all, up to end of March 1963, 215 villages have been completed involving 54,056 holdings and covering an area of 231,390 acres.

The standard areas specified as minimum necessary for profitable cultivation under the Prevention of Fragmentation and Consolidation of Holdings Act and as revised on 21st February 1961 are as follows :—

(i) Dry crop land .. 2·00 acres.

(ii) Bagait land .. 0·50 acre.

All plots of land less in area than the standard area are treated as fragments and their transfer except to holders of contiguous plots is prohibited.

CO-OPERATION

Administration

The Deputy Registrar of Co-operative Societies is in charge of the co-operative movement in the district. He is assisted by two Assistant Registrars who have territorial jurisdiction and deal with all the aspects of the co-operative movement in the district. In addition an Assistant Registrar works under the Zilla Parishad. He carries out the duties of Registration, deciding appeals against non-admission of members, approval to byelaws and administrative supervision in respect of Co-operative Societies whose working capital does not exceed Rs. 5 lakhs and whose jurisdiction does not extend beyond the district. The Zilla Parishad also looks to the promotion and extension of co-operative movement in the district.

Concentrated efforts made during the last decade have resulted in a rapid spreading of the co-operative movement in the district. All the villages in the district are now covered by rural co-operatives. Besides agricultural credit, the activities are now extended to processing of agricultural products, farming, marketing, dairying, etc. Many of these co-operatives have, however, to make much more stride and much remains to be achieved. Following description is based on the report for the year 1960-61 :—

Co-operative Credit

(*a*) *Agricultural Credit Societies.*—The number and membership of Agricultural Credit Societies have increased at a rapid pace during the last decade especially during the Second Plan period.

The position of Agricultural Credit Societies in 1950-51 and 1960-61 is as under :—

	1950-51	1960-61
(1) Number of Agricultural Credit Societies.	784	831
(2) Number of members	48,843	113,086
(3) Share Capital .. (Rs. in lakhs)	17·24	102·15
(4) Reserve and other funds (Rs. in lakhs)	26·90	49·32
(5) Working Capital .. (Rs. in lakhs)	117·13	435·78
(6) Number of members to whom loans were advanced.	Not available.	96,858
(7) Amount advanced .. (Rs. in lakhs)	88·28	319·82
(8) Amount recovered .. (Rs. in lakhs)	81·42	271·32
(9) Loans outstanding .. (Rs. in lakhs)	102·10	383·17
(10) Overdues .. .. (Rs. in lakhs)	19·69	92·57

Average membership per primary society in the district is 136 against the average of 96 members for Maharashtra. All villages in the district have been covered.

Total owned funds (share capital *plus* reserve funds) of the Primary Agricultural Credit Societies in the district amounted in 1960-61 to Rs. 151·47 lakhs and formed 34·76 per cent of their working capital against 26 per cent for Maharashtra.

The loan operations of all the Primary Agricultural Societies in the district amounted to Rs. 319·82 lakhs in 1960-61. The average amount of loan per borrowing member in the district worked out to Rs. 330 as against Rs. 329 for Maharashtra.

During the decade 1950-51 to 1960-61, the number of societies increased by 5·99 per cent and the membership multiplied nearly 2⅓ times. There is nearly six-fold rise in the share capital and the working capital increased by Rs. 318·65 lakhs. The societies advanced loans of Rs. 319·82 lakhs in 1960-61 as against Rs. 88·28 lakhs advanced in 1950-51. All these statistics speak about the spectacular progress made by the co-operatives in this field. The only point of concern is the accumulation of overdues resulting in the increased proportion of overdues to the outstanding loans from 19·29 per cent in 1950-51 to 24·16 per cent in 1960-61. This indeed points out to the need for improving the recoveries.

Besides the finar cial activities good progress have also been made by Agricultural Credit Societies in the sphere of services to agriculturists such as distribution of agricultural requisites (like seeds, manure, etc.), marketing of agricultural produce, etc. Jalgaon was the first district to introduce crop loan system.

(*b*) *Central Co-operative Bank.*—The Central Co-operative Bank was established at Jalgaon in the year 1916 and has been working as a federal financing agency catering for the credit requirements of all the primary co-operatives in the district. Since 1962, the Zilla Parishad also transacts its financial business through this Bank.

In the year 1960-61, the position of the Central Co-operative Bank was as follows :—

(1)	Number of members—	
	(*a*) Individuals	3,184
	(*b*) Societies	1,575

During the year 1960-61, the society membership of the Bank increased by 393 and the individual membership by 29 over 1959-60. On the whole there was a small increase in the total membership of the Bank. There is an addition of Rs. 3·56 lakhs in the share capital and Rs. 0·44 lakh in the reserve funds. The deposits have increased by Rs. 74·01 lakhs and working capital by Rs. 80·75 lakhs (or 16·78 per cent). The proportion of overdues to outstanding loans has also reduced to 11·97 per cent from 21·02 per cent in the previous year. The Bank made a profit of Rs. 4·78 lakhs during the year as against profit of Rs. 4·57 lakhs in the previous year. The Bank opened 4 new branches during the year. On the whole the progress of the Bank during the year is fairly satisfactory.

(*c*) *Land Mortgage Bank.*—Two Primary Land Mortgage Banks were established at Jalgaon and Pachora in the years 1935 and 1928, respectively, with a view to providing long-term finance to the cultivators. There is one branch of the Bank at Amalner in the district. The total membership of the Banks is 11,474, paid-up share capital Rs. 2·67 lakhs, and working capital Rs. 48·49 lakhs. Loans amounting to Rs. 17·20 lakhs were advanced during the year. The Banks provide long-term loans for construction or repairs to wells, purchase of oil-engines and pumping sets and other land development purposes.

(*d*) *Urban Banks and Credit Societies.*—There are in all 60 Urban Banks and Credit Societies in the district. Nine of these are Urban Banks, 5 Urban Credit Societies, 39 Salary Earners' Societies, 2 Factory Workers', 4 Millhands' and 1 other societies. Their combined membership is 28,276, paid-up share capital Rs. 21·19 lakhs and working capital Rs. 202·00 lakhs. The societies advanced loans of Rs. 342·43 lakhs during the year and the proportion of overdues to the loans outstanding was 8·78 per cent.

Agricultural Processing Societies

There are 3 cotton ginning and pressing co-operative societies and 5 other processing societies in the district. The combined membership of cotton ginning and pressing societies consists of 159 societies and 118 individuals. The paid-up capital is Rs. 4·11 lakhs and the working capital Rs. 4·46 lakhs. All the cotton ginning societies are in production and 25,760 cwt. of cotton was ginned by them. The membership of other processing societies is 106 individuals, share capital Rs. 10 thousand and working capital Rs. 16 thousand.

Industrial Societies

There are 30 weavers' societies and 86 other industrial societies in the district. Out of 30 weavers' societies 26 are handloom weavers' societies and 4 wool weavers' societies. Their combined membership is 4,141 and share capital Rs. 3·36 lakhs and working capital Rs. 15·14 lakhs. The weavers' societies

supply yarn to member weavers and get the finished products woven by the members. The value of production by the societies during the year amounted to Rs. 15·97 lakhs and the value of sales Rs. 26·49 lakhs.

The other types of industrial societies include 16 oil ghanis, 5 cane and bamboo, 11 leather working, 14 carpentry and smithy, 13 metal working, 4 pottery and brick-making, 1 coir and rope, 1 neera and palm gur and 21 miscellaneous societies. Their combined membership is 3,658, share capital Rs. 2·26 lakhs and working capital Rs. 11·20 lakhs. The value of production of these societies is Rs. 11·34 lakhs and sales value Rs. 16·44 lakhs. Many of these societies have been organised recently and have not commenced their activities in full swing.

Forest Labourers' Societies and Labour Contract Societies

There are 10 Forest Labourers' Co-operative Societies and 15 Labour Contract Co-operative Societies in the district. These 10 Forest Labourers' Co-operative Societies have membership of 1,311, share capital of Rs. 36 thousand and working capital Rs. 1·51 lakhs. The societies received Rs. 14 thousand as loans and Rs. 13 thousand as subsidy from the Government.

The combined membership of these 15 Labour Contract Societies is 674, share capital Rs. 19 thousand and working capital Rs. 73 thousand. The societies received Rs. 6 thousand as loans and Rs. 5 thousand as subsidy from the Government.

Co-operative Farming Societies

There are 8 Collective Farming and 5 Joint Societies. The combined membership of the 8 Farming collective farming societies is 326, share capital Rs. 43 thousand and working capital Rs. 1·46 lakhs. These collective farming societies have been allotted 3,075 acres of land, of which 1,962 acres were cultivated during the year. The joint farming societies have 75 members, Rs. 33 thousand as share capital and Rs. 70 thousand as working capital. These societies cultivated 690 acres during the year out of 770 acres under their command.

Lift Irrigation Societies

There are 8 Co-operative Lift Irrigation Societies operating in the district. The membership of all these societies is 283, share capital Rs. 53,000 and working capital Rs. 2,89,000. Four of these societies have schemes of lift irrigation on rivers, 3 on wells and one on nallah. The schemes known as : (1) Shri Vyankatesh Deopimpri Sahakari Pani Puravatha Mandali, Deopimpri (Jamner Taluka) ; (2) Bhaur Co-operative Multipurpose Society Limited, Bhaur (Chalisgaon Taluka) ; (3) Shivaji Group Co-operative Multipurpose Society Limited, Umberkhede (Chalisgaon Taluka) ; (4) Co-operative Lift Irrigation Society, Warkhed (Bhadgaon Mahal) ; (5) Co-operative Lift Irrigation Society, Wakadi (Chalisgaon Taluka); and (6) Mehunbare Cotton Sale Society are completed. The societies irrigated 325 acres out of 1,999 acres under their command during the year. The value of irrigation work executed by the societies during the year amounts to Rs. 2·08 lakhs.

Dairy Societies

Two milk supply unions and 64 milk supply societies have been organised in the district. The combined membership of the milk supply unions is 123, share capital of Rs. 12 thousand and working capital Rs. 40 thousand. Milk worth Rs. 25 thousand was sold during the year. The combined membership of the milk supply societies is 1,814, share capital Rs. 55 thousand and working capital Rs. 86 thousand. Milk worth Rs. 2·13 lakhs was sold during the year.

Fishery Societies

There are 3 fishermen co-operative societies in the district having membership of 120, share capital of Rs. 4 thousand and working capital of Rs. 7 thousand. The value of catch by the societies amounted to Rs. 14 thousand during the year.

Purchase and Sales Societies

There is one central co-operative marketing society in the district. The membership of the society consists of 89 individuals and 214 societies. The Government has contributed Rs. 1·25 lakhs to the total share capital of the society, which amounts to Rs. 3·09 lakhs. The society earned Rs. 10 thousand as commission during 1960-61 and made a profit of Rs. 42 thousand.

There are also 42 primary marketing societies in the district. These consist of 14 taluka purchase and sales societies, 14 cotton sales societies and 14 fruit sales societies. These societies cover all the 11 regulated mandies in the district. They own 24 and hire 95 godowns. The combined membership of these societies is 649 societies and 22,777 individuals and share capital of Rs. 20·15 lakhs. Government has contributed Rs. 6·35 lakhs towards the share capital. The purchases of these societies during the year amounted to Rs. 333·99 lakhs and the value of sales-proceeds was Rs. 493·44 lakhs. 36 of these societies made a profit of Rs. 4·90 lakhs and 6 suffered a loss of Rs. 17 thousand.

Consumers' Movement

There are 10 primary consumers' stores in the district. Their combined membership is 1,439, share capital Rs. 45,470 and working capital Rs. 79 thousand. During the year 1960-61 the value of sales of these societies amounted to Rs. 3·57 lakhs. 7 of these stores made a profit of Rs. 12 thousand, 1 suffered a loss of Rs. 1 thousand and the other 2 neither showed profit nor loss.

Housing Societies

There are 34 co-operative housing societies in the district, 24 of which are organised for backward class persons. Their total membership is 5,714,

share capital Rs. 3·05 lakhs and working capital Rs. 11·15 lakhs. 16 independent houses valued at Rs. 2·41 lakhs have been constructed by the members of the societies. The societies have constructed 27 independent houses and 65 tenements.

Co-operative Activity for Backward Classes

Under the scheme 24 co-operative housing societies and 3 credit societies have been organised for the backward classes. The membership of the housing societies is 606, share capital Rs. 37 thousand and working capital Rs. 2·41 lakhs. The societies constructed 14 tenements during the year. The credit societies have membership of 140 members, share capital of Rs. 6 thousand and working capital of Rs. 22 thousand. Loans advanced by the societies during the year amounted to Rs. 14 thousand.

Audit Classification

The audit classification of different types of societies in the district on 30th June 1961 is as follows :—

Type of Society	Number of Societies classified as				No. of societies not classified	No. of societies not audited	Total
	A	B	C	D			
(1) Central Co-operative Bank.	..	1	..	..	..	..	1
(2) Agricultural Credit Societies.	231	373	169	37	..	21	831
(3) Non-Agricultural Credit Societies.	30	17	3	3	..	7	60
(4) Primary Land Mortgage Bank.	1	1	..	..	..	..	2

FORESTS

The district has an area of 802·51 sq. miles under forests of which 778·24 sq. miles are in charge of Forest Department and the remaining 24·27 sq. miles in charge of Revenue Department. The forest area forms 17·86 per cent of the total geographical area as against 17·56 per cent for Maharashtra.

The forests are administered by the Divisional Forest Officer, Jalgaon Forest Division, with Headquarters at Jalgaon. The division works under Conservator of Forests, Nasik Circle, Nasik. The forest in charge of Revenue Department are looked after by the Collector.

The forests are mainly concentrated on hill slopes of Satpuda ranges in Chopda, Yawal and Raver talukas and Edlabad mahal. Some part of forests is also situated on the plain plateau in other talukas. The forests in the district fall in the broad type "Mix Deciduous Forests". Valuable type of forest is in the Satpuda hills only. Rest of the forest contains fuel species.

Anjan and Bamboos are the species that occur in abundance in these forests. Other important species are Teak, Khair, Salai, Dhavda, Sisam, Mohin, Palas and Babul. Teak is the most valuable species. The forest areas in the Satpudas are fairly well stocked. Those in the plains are generally sparsely stocked. Fodder and thatching grass are available in plenty.

The forest produce is exploited through the agencies to whom contract is given and also through the Forest Labourers' Co-operative Societies. These societies are given certain privileges by the department. Forest produce worth about Rs. 72,000 is exploited annually.

The forest produce is removed to the nearest market place generally at taluka headquarters in bullock-carts. From these places they are transported by trucks. Important centres of collecting forest produce are Chopda, Yawal, Jalgaon and Chalisgaon.

The exploitation of forests is regulated by scientifically prepared working plans. Presently the forests are worked under the following plans :—

(1) Working plan for Satpuda forests.

(2) Revised working plan for the Anjan and scrub forests of Edlabad range.

(3) Revised working plan for the scrub forests of East Khandesh and Jamner Teak reserves.

(4) Working plan for East Khandesh Babul forests.

(5) The revised working plan for Satmala Reserved Forests.

For development of forests a number of schemes have been included in the Five-Year Plans. During the Second Five-Year Plan, eight wet nurseries were established ; an area of 40 acres was propagated under "Bamboo" in Yawal range; match wood plantations were raised over an area of 853 acres; additional Teak plantations were raised over an area of 662 acres and Agave hedges were planted over a length of 109 miles. Afforestation and rehabilitation of pasture lands covering an area of 626 acres were carried out. Afforestation of blank and arid areas was also undertaken over an area of 925 acres. In the Third Five-Year Plan the following important schemes have been included among other :—

(1) *Plantation of valuable trees.*—Plantation of Teak and Eucalyptus trees on 320 acres involving an outlay of Rs. 0·38 lakhs.

(2) *Afforestation for soil conservation.*—5,400 acres to be afforested for which the outlay is Rs. 3·90 lakhs.

(3) *Development of forest pastures.*—The physical target is 918 acres. The sanctioned outlay is Rs. 0·74 lakhs.

(4) Assistance to village panchayats for afforestation and development of pastures involving an outlay of Rs. 20,000.

Wild life is getting scarce in the district forests. The carnivora is confined only to the Satpudas. Only bear, sambhar and nilgai are reported to be found.

FISHERIES

Fishing activities in the district are restricted to inland waters, rivers, tanks and ponds, being the chief sources. The important rivers in the district are Tapi and Girna. The total length of perennial rivers in the district is about 730 km. There are also 74 perennial tanks and 3 seasonal tanks and ponds which provide 800 acres of water spread area, which is rather inadequate for development of fishing industry.

The commercially important varieties of fish found in the district are—

Kirkit or Shinghala, Murrel, Shivda, Pahadi or Daku, Chamar or Chalat, Pal or Dandaonya, Khavlya, Khaval, Kolshi, Zinga, Boi, Kalundar, Kharabi and Muri.

These varieties are however of not fast growing type. As such, under Five-Year Plan Schemes, quick growing "Bengal Carps" are stocked annually in the perennial water tanks for propagation of pisciculture. The varieties stocked are Catla Catla, Rohu and Mrigal. During the first two years of Third Five-Year Plan period about 1·13 lakhs and 1·67 lakhs of carp fry was stocked.

In 1961 Census, 1,102 persons are reported as engaged in fishing as principal work. 829 of them are males and 273 females. Fishermen in the district belong to the communities known as Bhil, Bhoi, Adiwasi and Koli. Since fishing industry has limited scope, some of the fishermen take to seasonal agriculture, especially the Dargarwadi (Watermelon) cultivation. Fishing is generally carried on with the help of Drag nets known as Mahajal and Cast nets called Phekjal. The nets are mostly made of cotton twine but these days nylon is also effectively used.

Four co-operative societies of fishermen have been recently organised in the district having membership of 151 and share capital Rs. 5,000. These co-operative societies are given financial assistance in form of loans and subsidy for purchase of fishery requisites, such as cotton and nylon twine and boats, etc. They are helped on loan-*cum*-subsidy basis to secure tanks and ponds on lease for purposes of pisciculture.

MINING AND QUARRYING

Deposits of minerals have not been reported so far anywhere in the district. The mining activities in the district are therefore restricted only to quarrying of stones, clay, sand, gravel, etc. Large part of the district is covered with Deccan trap, a material of great use in building industry. The best quarry is in the bed of the Vaghur river near Bhusawal.

There are hot springs at Unapdev, Sunapdev and Najhardev in Chopda taluka and some medicinal properties are reported in the water of first two springs.

In the 1961 Census 767 persons are reported to be engaged in mining activities as principal work. 454 of them are males and 313 are females.

INDUSTRIES

In the existing pattern of the development of industries, cotton ginning and pressing and spinning and weaving has grown to some extent in the district due to the availability of raw cotton, cheap labour and means of transport. However, there is not much progress in respect of other types of industries. Edible oil industry which was formerly organised on cottage basis has also expanded along with the cotton ginning and pressing. There are 73 large-scale units consisting mostly of cotton pressing and oil extracting units. The non-agriculture employment, however, leans heavily on village and cottage industries, i.e., the village craft working on traditional lines with the locally available raw materials or for local demand. There is scope for further development of industries in the district when power from Paras Thermal Station in Akola district and the anticipated Thermal Power Station at Bhusawal is made available.

There are in all 54,682 workers engaged in manufacturing industries, 34,387 or 62·89 per cent of them are in household industries and 20,295 or 37·11 per cent in non-household industries. The total number of workers in the registered factories in 1961 is 16,165 which forms 29·56 per cent of all workers engaged in industries or only 9 factory workers per thousand of total population against 20 per thousand of total population of Maharashtra.

The distribution of workers engaged in each industry major and minor groups is shown in Table B-IV-C in Part II. The number of establishments and the number of workers for each industry minor group prepared from the houselists are also shown separately for each village in the village industries table presented at the end of Part II.

Large-Scale Factories

There are 73 large-scale registered factories in the district using power and employing 50 or more workers.

There are three cotton spinning and weaving mills in the district. They are : (1) Chaganlal Textile Mills Pvt. Ltd., Chalisgaon, with 604 looms and

23,220 spindles and employing more than 2,000 workers, (2) Khandesh Spinning and Weaving Mills Ltd., Jalgaon, with 465 looms and 24,244 spindles employing more than 850 workers, and (3) Pratap Spinning and Weaving and Manufacturing Co., Ltd., Amalner, with 1,077 looms and 49,444 single and 2,072 double spindles and employing more than 2,700 workers. The textile mill at Jalgaon was the first to be established in 1873 in the district.

Cotton is grown extensively in the district. There are about 57 large-scale cotton ginning and pressing units spread all over the district. Some of these have oil mills for off-season working. Cotton ginning is carried on during the cotton season and the plant and machinery during off-season are either kept idle or used for decorticating groundnut. Co-operative ginning factories have recently been started at Yawal, Jamner, Chopda and Dharangaon.

On account of sizable production of groundnut in the district, the edible oil industry is one of the oldest industries in this district. There are eight large-scale oil mills situated at Amalner, Chalisgaon, Chopda, Faizpur, Dharangaon, Kajgaon and Bhusawal. Til, linseed, castorseed, etc., are also crushed for oil extraction in these mills. There is also a solvent extraction plant at Jalgaon which can extract oil from groundnut cakes.

Vanaspati products are manufactured at Bharat Vanaspati Products, Pachora, and Western India Vegetable Products, Ltd., Amalner. Soap manufacture has also been undertaken at the latter unit. Both these units employ more than 600 workers.

Pulp is manufactured by Kagadpuri Co-operative Paper Manufacturing Society, Ltd., at Erandol. The society employs more than 100 workers who are also the members of the co-operative society. Handmade paper is manufactured by Erandol Taluka Gramodyog Utpadak Sahkari Society, Ltd., at Erandol. The unit is run on co-operative basis and employs about 200 workers.

Shama Fire Works, Jalgaon, manufactures fire works of many kinds. In addition, there are factories manufacturing soap, spare parts of textile machinery, electrical accessories, Ayurvedic medicines, etc., located at Pachora, Chalisgaon, Bhusawal and Jalgaon.

Moreover, the following units which were licensed had not gone into production :—

(1) Maharashtra Co-operative Spinning Mills, Ltd., Bhusawal, for cotton yarn ; (2) Talsania Industries, Chalisgaon, for groundnut oil, and (3) Amalgamated Electricity Co., Ltd., Chalisgaon, for vegetable oil by solvent extraction process.

Small-Scale Registered Factories

There are more than 130 small-scale registered establishments employing nearly 3,000 workers in the district. These units are mainly engaged in manufacturing biscuits and confectionery, gur, oil and oil-cakes, lime juice, ice, bidi, jerda, furniture, pulp, paper board, Ayurvedic medicines, ink, repair of motor vehicles, cotton ginning and pressing, etc. Of these, establishments for the manufacture of gur, edible oils, bidi and cotton ginning and pressing are important and have a sizable number of units which together employ about 2,000 workers in the district.

The number of registered factories has increased from 188 in 1951 to 223 in 1961. The number of workers in the registered factories has also increased from 15,138 in 1956 to 16,165 in 1961.

According to the Census of Manufacturing Industries in 1959, the manufacturing industries in the district had a combined fixed capital of Rs. 141·4 lakhs and working capital of Rs. 107·3 lakhs. The total value of annual production was Rs. 571·4 lakhs and value added by manufacturing was Rs. 96·5 lakhs. These figures relate only to the industries covered by the Census of Manufacturing Industries Act.

The value added by manufacture in the district in 1959 was, however, only 0·48 per cent of the total for Maharashtra.

Small-Scale and Cottage Industries

In the cottage and small-scale industries sector handloom weaving, carpentry, leather-working, oil seed pressing, bamboo-working, pottery and blacksmithy are the important industries in the district. Some of these manufacturing industries are traditional crafts conducted on household and cottage industry basis. Moreover, apart from the industries quoted above, there are minor cottage industries like tanning, paper-making, brick-making, bidi-making, wool-weaving, copper and brass utensils-making, etc.

6,956 workers are in the production and rearing of livestock. According to the 1961 Livestock Census, the district has a livestock population of nearly 10 lakhs. Besides there is a pasteurised milk plant at Chalisgaon from where pasteurised milk is daily sent to Greater Bombay. The district is also known for Nimari and Patanwadi types of sheep and goats which are reared in large number for wool, skin and mutton by the shepherds. There are more than two and a half lakhs of sheep and goats in this district.

6,081 workers are engaged in the manufacture of textile garments, and head gear, etc. This category includes the tailors engaged in making garments for men and women.

Cotton weaving in handlooms engages 5,948 workers. Handloom weaving is one of the important cottage industries in the district. At the end of May 1961, there were 6,835 cotton and 45 non-cotton handlooms. The handloom industry is concentrated mainly at Nashirabad, Pimprale, Dharangaon, Erandol, Parola, Kasoda, Chopda, Yawal, Faizpur, Savda, Bhalod, Kingaon and Varangaon. Large

number of workers are engaged in the manufacture of shirting, coating, sarees, dhoties and "khans" on handlooms while a few are engaged in the manufacture of coarse cloth, carpets, etc. Faizpur is known for "khans". This industry is in existence in Kasoda since last 150 years.

Some of the handlooms are used for Khadi weaving

5,368 workers are working in cotton spinning and weaving in mills. They include mostly the workers engaged in the three textile mills of the district.

There are 1,136 flour or rice mills engaging 1,713 workers.

Centres manufacturing gur are mostly located in Yawal, Chopda, Bhusawal and Jamner talukas. These are seasonal units and the produce is mostly sold locally.

Reeling sewing thread is done at the factory at Pimprale in Jalgaon taluka. The products in this factory are exported to Bombay, Uttar Pradesh and Madhya Pradesh. Bidi-making industry is located at Chopda, Dharangaon, Erandol, Raver and Savda. Tembhurni leaves required for the bidis are obtained locally while tobacco is brought from Nipani and Kolhapur. Nashirabad is known for bangle-making. Brass and copper utensils are prepared at Bhusawal and Jalgaon. Parola, Erandol, Dharangaon and Chopda are famous for making bullock-carts which have a market in Madhya Pradesh and Andhra Pradesh. Hand-made paper is manufactured at Erandol. The locations of the other small-scale and cottage industries in the district are as follows :—

(1) Stone-crushing ..	Mehrun in Jalgaon taluka.
(2) Ayurvedic medicines ..	Bhusawal.
(3) Bamboo-working ..	Amalner, Chopda, Faizpur, Yawal and Varangaon.
(4) Wool-weaving ..	Adgaon and Kasoda in Erandol taluka, Khedi Khurd in Chalisgaon taluka and Girad in Bhadgaon mahal.
(5) Tanning and Leather working.	Jalgaon, Chalisgaon, Amalner, Bhusawal, Chopda, Dharangaon, Faizpur, Jamner, Parola, Raver, Savda, Varangaon and Yawal.
(6) Oil-pressing	Nashirabad, Jalgaon, Varangaon, Erandol, Chopda, Jamner, Shendurni, Yawal, Faizpur, Nhavi, Sakali, Savda, Raver, Virawali, Chalisgaon, Parola, etc.
(7) Blacksmithy	Bhusawal, Jalgaon, Erandol and Parola.
(8) Brick-making	Bhusawal, Chalisgaon, Faizpur and Jalgaon.
(9) Lime-burning.. ..	Bhusawal, Chalisgaon, Chopda, Faizpur and Jalgaon.
(10) Carpentry	Chalisgaon, Bhusawal, Jalgaon, Jamner, Parola, Erandol, Dharangaon and Chopda.
(11) Pottery	Amalner, Bhusawal, Chalisgaon, Faizpur, Savda and Yawal.

5,845 workers are engaged as drawers and weavers in the textile industry. 5,681 persons are engaged as tailors, dress-makers and garment makers while 4,267 workers are engaged as carpenters. These carpenters are employed in producing as well as carrying on minor repairs to agricultural implements, furniture-making, house construction and repairing.

4,249 workers are engaged as spinners in the textile industry in the district.

The proportions of different groups of artisans to one lakh of total population in the district are as follows :—

Blacksmiths 104, Carpenters 242, Shoe-makers and repairers 182, Potters, etc., 168, Tailors and dress-makers 322, Spinners and weavers 572, Basket weavers 135.

For the training of artisans, the Industries Department has started five peripatetic schools and training-*cum*-production centres at Bhusawal (tanning) and Chopda (weaving) and in Edlabad Block (carpentry, blacksmithy and tailoring). For the development of handloom industry, financial assistance in the form of loans is granted for purpose of improved tools and appliances such as warping, frames, sleighs, dobbies, warping beams and drums, etc. The Maharashtra State Village Industries Board is conducting Katai Spinning Mandals and other training-*cum*-production centres at various places in the district. Development of nira and tad-gur, khandsari-gur, vegetable oil soap, hand-pound rice, matches, leather-working, oil ghanis, khadi production, pottery, etc., has also been undertaken by this Board.

The Master Plan prepared by the Industries Department in 1960 had indicated scope for establishment of the following new industries in the district :—

(1) Spinning mill, (2) Surgical cotton, (3) Solvent extraction of oil-seeds, cakes, (4) Cotton-seed oil, (5) Sugar, (6) Straw-board and paper, (7) Sulphuric acid, phosphatic fertilizers.

Industrial Estates

Two industrial estates located at Jalgaon and Bhusawal are proposed to be established initially in the Third Five-Year Plan in the district. Location of the place for the estate at Jalgaon has already been done. It has also been proposed to start in the near future industrial estates at Pachora, Chalisgaon, Amalner and Chopda.

POWER

The number of electrified towns and villages in the district is 26. Their talukawise lists are given in Table 31 in Part III. The total population of these electrified places is 24·93 per cent of the total population of the district.

The district consumption of electricity on different items for eight years is shown in Table 30 in Part III.

The *per capita* consumption is naturally much lower than the State average, as only 26 towns and villages in this district have been electrified.

There are ten centres through which the district gets its electric supply. They are : (1) Dharangaon, (2) Chopda, (3) Bhusawal, (4) Jamati, (5) Raver, (6) Amalner, (7) Pachora, (8) Chalisgaon, (9) Jalgaon and (10) Faizpur. The generating stations at Dharangaon and Chopda are owned by the Maharashtra State Electricity Board. During the year 1962-63, the private electricity undertakings at Amalner, Pachora and Faizpur were also taken over by the Board. The Power-house at Dharangaon has an installed capacity of 400 kw. and supplies electricity to Dharangaon, Erandol and Parola towns and for small-scale industries in the vicinity of these towns. The Central Railway has its own generating station of 1,000 kw. at Bhusawal and electricity is purchased from this station by the private concern, *viz.*, "The Amalgamated Electric Supply Company" of Jalgaon and supplied to Bhusawal Town. The Power-house at Jamati (Bhusawal taluka) was started on 15th August 1959 by the Grampanchayat while that at Raver was opened on 20th November 1960 by the Municipality.

The Faizpur power station of a total capacity of 572 kw. was closed and the area served by it was connected to the Vidarbha Grid Supply. As against this, five power stations, including the one at Faizpur, of a total capacity of 2,032 kw. were acquired during the year 1962-63. The other four were those at Amalner, Pachora and Jalna and Manwath of Marathwada region. It is also proposed to start a new steam station of 60,000 kw. capacity at Bhusawal with transmission lines of total length of 1,438 km. with necessary sub-stations and interconnection with the Vidarbha system. This scheme seeks to supply electricity to the entire Marathwada region and the Khandesh area. The 15,000 kw. Purna Hydro-electric Project now under construction in the Marathwada region will be linked to the scheme. The work of the Bhusawal scheme is in progress.

TRADE AND COMMERCE

The principal commodities exported from the district are cotton, groundnut, groundnut oil, bananas, cotton seed, groundnut cake, pulses like urid, mung and chavali, butter and ghee, rosha grass oil, linseed, jowar, lac, hides and horns, "tembhurni" leaves, "ghatbor" fruits, "tarwad" bark, etc. Cotton is mostly exported to Bombay, Ahmedabad, Kanpur, Madras, Nagpur, Burhanpur, Sholapur, Broach and Aurangabad. Bananas are mainly sent to Delhi and other important centres in the North and Bombay. They are also exported to some countries outside India. Groundnut, groundnut oil and oil-cake are chiefly exported to Bombay and Dalmianagar. Cotton seed is exported to Bombay, Nagpur, Nasik and Dhulia. Butter and ghee are chiefly sent to Bombay. The agriculturists themselves bring their produce including cotton for sale in bullock-carts to the markets. Some commodities like pulses, etc., are brought from villages, through commission agents or the agents themselves go to the villages and purchase the produce from the producers. Cloth, iron and steel goods, grocery, stationery goods, drugs and medicines, toilet articles, hardware, rice, wheat, metal utensils, crockery, salt, coconuts, etc.. are the chief items of imports. The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week.

Shops

Shops are found in almost all villages except the smallest. These shops provide the inhabitants with their day-to-day requirements and the articles sold are grains, salt, oil, chillies, sugar, gur, spices, coconuts, soap, tobacco, betelnuts and innumerable articles required by people for their daily use. There are in all 11,380 shops in the district. 6,043 are in rural areas and 5,337 in the urban areas. This does not include the shops temporarily set up in the weekly markets or fairs. The number of shops per 1,000 dwellings is 32·7 for the district as a whole, 22·2 for rural areas and 70·8 for urban areas. It will be seen that the shops per 1,000 dwellings in urban areas are more than three times than the shops in rural areas. The ratio between shops and 1,000 dwellings for the district is less than the State average of 36·4. Talukawise number of shops may be seen in Table E-1 in Part II.

Weekly Markets

These markets or " bazars ", as they are popularly known, are distributing rather than collecting centres. The articles sold at these markets are all sorts of grains, salt, oils, chillies, various articles of clothing, cattle, miscellaneous articles such as pots, pans, vegetables, oil-seeds, betelnuts, etc. Pedlars and hawkers set up booths on market days. Agriculturists from nearby villages also bring their farm produce. The traders and shopkeepers belonging to the market place also set up temporary stalls. Buyers come from nearby villages within 4-5 miles. The booths are generally set up overnight and at an early hour, the market is thronged by people from the villages around and after a slack hour or two in the heat of the day, it gains momentum towards the evening and closes by six to enable both the buyers and the sellers to reach home before it is dark.

Column (7) of the Village Directory in Part I shows for each village in the district if a weekly market is held and if so, on which day of the week. A list of weekly markets in the district given in Table 32 in Part III shows the location and day on which each bazar is held. The map facing page 263 shows locations of all these markets and also the days on which they are held.

There are altogether 137 weekly and bi-weekly markets in the district. Out of these, 10 are cattle markets. Cattle is brought for sale on large scale in the markets of Savda, Varangaon, Pachora, Bamnod and Jamati in the district. It is also brought from outside the district for sale. 18 weekly markets are held on Sunday, 19 on Monday, 24 on Tuesday, 20 on Wednesday, 22 on Thursday, 19 on Friday and 15 on Saturday.

The map facing page 263 will show that four or five weekly markets cluster as satellites around a central village. Each has its bazar on one of the week days keeping the pedlars and hawkers busy throughout the week and also providing a choice to buyers to go to one nearby market or the other.

Fairs

As far as trade is concerned, fairs are complementary to weekly markets. They are attended by unusually large number of persons. Most of the fairs held in the district are in the commemoration of some local anchorite or saint or a miraculous manifestation of one of the gods or a religious festival. Considerable quantities of agricultural produce and other articles of daily use as well as luxury goods including toys, etc., are brought for sale. In addition to the usual booths and stalls, these fairs also contain recreation stalls. A list of fairs held in the district, showing locations, duration and dates and approximate number of persons attending is presented in Table 33 in Part III. The map facing page 264 shows the location of all the fairs in the district having 1,000 or more gatherings.

A volume giving details regarding fairs and festivals is also issued separately.

Trade Centres

Apart from the weekly markets and fairs, there are twelve wholesale trade centres in the district, as far as collection and export of agricultural produce are concerned. All these markets are regulated under the Bombay Agricultural Produce Markets Act, 1939. A list of principal market yards and their sub-markets is given below :—

Principal Market Yards		Sub-Markets
1. Amalner	..	..
2. Bodawad	..	(i) Varangaon.
		(ii) Kurhe.
		(iii) Edlabad.
		(iv) Jamati.
3. Bhusawal	..	..
4. Chalisgaon	..	(i) Mehunbare.
5. Chopda	..	..
6. Jalgaon	..	..
7. Pachora	..	(i) Nagardeole. (ii) Varkhedi.
8. Raver	..	..
9. Jamner	..	..
10. Dharangaon	..	..
11. Yawal (Faizpur)	..	..
12. Parola	..	..

Amalner and Jalgaon are the two markets functioning in the district as far back as 1925 or so. The sale of cotton, groundnut, shelled and unshelled, was regulated. The commodities regulated at these markets are jowar, bajri, wheat, urid, mung, math, chawli, tur, chillies, coriander, cotton (ginned and unginned), gur, groundnut and grass. Trade of livestock has also been regulated in Chopda market. It is also proposed to regulate livestock in Amalner and Chalisgaon. The Jalgaon market has a voluminous trade in cotton and coriander. Most of the markets except Jalgaon have their own site for market yards. There are a number of Co-operative Marketing Societies dealing in various commodities and operating in the regulated markets.

The figures of value of annual turnover of certain important commodities in some of the market centres in the district for the year 1957-58 are given in the table on the next page.

Commodities	Value of Annual Turnover in Rs. at							
	Jalgaon	Bhusawal	Chopda	Pachora	Amalner	Chalisgaon	Bodawad	Parola
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

Castorseed	..	..	..	20,813	37,601	74,272	..	37,672
Total	1,75,24,298	63,08,744	66,48,116	1,46,10,389	1,94,44,719	97,41,614	95,97,986	14,67,288

The Maharashtra Warehousing Corporation has constructed warehouses at Jalgaon, Chalisgaon, Amalner and Pachora. Cotton, cereals, pulses, oilseeds and gur are generally stored in these warehouses. These warehouses provide facilities to agriculturists for storage of agricultural produce and for making available a cheap source of credit to agriculturists with a view to avoiding distress sales. In addition a number of godowns to store agricultural produces are constructed by the co-operative societies in the district.

Workers in Trade and Commerce

The total number of persons engaged in trade and commerce in the district in 1961 is 28,462, out of which 10,603 or 37·25 per cent are in rural areas and 17,859 or 62·75 per cent are in urban areas. The number of workers in trade and commerce forms 3·50 per cent of all the workers in the district. About 33 per cent of the district total is in Jalgaon and Bhusawal talukas.

Only 3·63 per cent of the workers in trade and commerce are engaged in wholesale trade. 92·57 per cent in retail trade and 3·80 per cent in miscellaneous trade and commerce. 94·28 per cent of the wholesalers are in urban areas.

The number of wholesalers trading exclusively in cereals and pulses is 95 only. Mostly, the wholesale trade of cereals and pulses appears to be combined with wholesale trade of gur, sugar, spices, groundnut, oil, etc., as the number for this group is 354 for the district.

A detailed break-up of the workers in trade and commerce by industry major groups and minor groups is shown in Table B-IV-C in Part II.

Banking Offices

A list of banking offices with their years of establishment, type and location is given in Table 23 in Part III. Their break-up by talukas and type is shown below :—

	Number of Banking Offices			
	Scheduled	Non-Scheduled	Co-operative	Total
DISTRICT TOTAL	13	..	40	53
1 Chopda Taluka	1	..	4	5
2 Yawal Taluka	..	..	6	6
3 Raver Taluka	..	..	3	3
4 Amalner Taluka	2	..	3	5
5 Erandol Taluka	1	..	3	4
6 Jalgaon Taluka	5	..	4	9
7 Bhusawal Taluka	1	..	4	5
8 Edlabad Mahal	..	..	1	1
9 Parola Taluka	..	..	2	2
10 Bhadgaon Mahal	..	..	2	2
11 Pachora Taluka	1	..	3	4
12 Jamner Taluka	..	..	2	2
13 Chalisgaon Taluka	2	..	3	5

Jalgaon being a commercially important town and the district headquarters located in Jalgaon taluka, this taluka is leading in banking activities and has the maximum number of banking offices in the district. Every taluka has at least one branch of the Central Co-operative Bank. The district has, however, no non-scheduled banking offices.

The State Bank of India works for the treasury in the district and has branches at Chopda, Amalner, Jalgaon, Bhusawal, Pachora and Chalisgaon.

COMMUNICATION AND TRANSPORT

The district had the railway communication as early as 1852 and the actual traffic started between 1851 and 1855. At present the Central Railway is the main line of communication in the district with Bhusawal, Jalgaon, Pachora and Chalisgaon as Junctions. It has four routes, *viz.*, Bombay-Bhusawal-Itarsi, Bombay-Bhusawal-Nagpur, Chalisgaon-Dhulia and Pachora-Jamner. The Western Railway has only one route, *viz.*, Bhusawal-Surat. The district is linked with important cities like Bombay, Delhi, Calcutta, Nagpur and Allahabad.

The Bombay-Bhusawal-Itarsi broad gauge double line route starts from Bombay and traverses the central part of the district, a distance of about 111 miles through Chalisgaon, Pachora, Jalgaon, Bhusawal, Yawal and Raver talukas and Bhadgaon mahal. There are twenty stations on this line in the district. The Bombay-Bhusawal-Nagpur line is also a broad gauge double line. After Bhusawal it goes towards east covering about 19 miles in the district with three stations on the line after Bhusawal, *viz.*, Varangaon, Achegaon and Bodawad. The Chalisgaon-Dhulia broad gauge single line starts from Chalisgaon with a length of 35 miles and has Chalisgaon, Jamda and Rajmane stations in the district. The railway has about 16 miles of route in the district. The Pachora-Jamner is a narrow gauge single line of about 35 miles with seven stations, *viz.*, Pachora, Varkhedi, Pimpalgaon, Shendurni, Pahur, Bhagadare and Jamner in the district.

The Bhusawal-Surat broad gauge single line of the Western Railway has a length of about 60 miles in the district and has eight stations (excluding Bhusawal), *viz.*, Padse, Bhortek, Amalner, Takarkhede, Dharangaon, Chawalkhede, Paldhi and Jalgaon.

The total length of the railway line in the district is about 241 miles. The existing railway mileage is thus about 5 miles per 100 square miles of area against 2·66 miles per 100 square miles in the State.

Table 21 in Part III shows the existing road mileage in the district as well as its break-up by the type of road surface. The frontispiece district map and the taluka maps in Part I show all these roads.

The district is well connected by roads with the adjoining districts of Dhulia, Nasik, Aurangabad, Buldhana and Madhya Pradesh State. Although, the district has a good length of roads, there are still a number of interruptions at various points during monsoons due to the existence of rivers and nallahs and lack of proper bridges and culverts on them. Jalgaon is a commercially advanced district and the district headquarters is well connected with taluka headquarters. The northern part of the district is a hilly terrain and the roads are, therefore, fewer in this region.

The National Highway from Surat to Nagpur (Surat-Dhulia-Edlabad-Nagpur) traverses the district breadthwise for a length of 88·50 miles, touching Parola, Erandol, Jalgaon, Bhusawal, Varangaon and Edlabad.

During the period 1951—61, there was no change in the mileage of National Highway. The State Highways, however, decreased by 3·38 miles. The major district roads increased by 3·12 miles, the other district roads by 37·37 miles and the village roads by 339·00 miles. The total increase in all types of roads (excluding municipal roads) is 376·11 miles.

Under the Nagpur Plan the district should have 2,042 miles of roads. It was short of that target by 386·39 miles on 31st March 1961.

New Roads

Improvement of the following roads has been undertaken (as on 31st March 1962) :—

(1) Widening and black topping of Surat Dhulia-Edlabad-Nagpur National Highway No. 6 ;
(2) Shirpur-Chopda-Yawal-Raver road ;
(3) Yawal-Chopda road ;
(4) Pilkhod-Chalisgaon road ;
(5) Chalisgaon-Pachora road ;
(6) Shirpur-Raver road (Savda-Raver section) ;
(7) Pachora-Jamner road ;
(8) Shirpur-Raver road (Aner-Chopda section);
(9) Dhulia-Amalner-Tapi road ;
(10) Savda-Savda Station road.

The following roads are under construction (as on 31st March 1962) :—

(1) Vadhode-Khandvi road ;
(2) Erandol-Kasoda-Bhadgaon road ;
(3) Vidgaon-Bhokar road ;
(4) Pachora-Khadakdeole-Banoti road ;
(5) Chopda-Adgaon-Virwade road ;
(6) Shirpur-Raver road ;
(7) Pachora-Jamner road ;
(8) Khamkhede-Wadhode road.

Construction work of the bridges on the following rivers/nallahs is completed (as on March 1962) :—

(1) Son river near Shendurni on Bombay-Chalisgaon-Nagpur State Highway.
(2) Gul river in Chopda taluka on Shirpur-Raver-Barhanpur road.
(3) Nagoli nallah in Raver taluka on Shirpur-Raver-Barhanpur road.

New Bridges

Construction work of the bridges on the following rivers/nallahs is in progress (as on March 1962) :—

(1) Titur river and Galari nallah on Bombay-Chalisgaon-Nagpur road ;
(2) Girna river near Mehunbare on Dhulia-Aurangabad road ;
(3) Suki nallah on Shirpur-Raver road ;
(4) Kag river near Jamner on Bombay-Chalisgaon road ;
(5) Injal river on Yawal-Bhusawal road ;
(6) Gogadi nallah near Pahur on Bombay-Chalisgaon-Nagpur road ;
(7) Tapi river near Bhusawal on Bhusawal-Yawal road ;
(8) Vaghur river on Jalgaon-Ajantha road.

Posts, Telegraphs and Telephones

The district is included in the Khandesh Postal Division. Head Post Office is situated at Jalgaon and sub-offices at taluka headquarters and towns. The bigger villages have branch post offices. During the year 1961-62 there were 36 sub-post offices and 298 branch post offices in the district. Together their number has increased by about 87 per cent over that of 1951-52. The number of post boxes in the district has increased from 106 in 1951-52 to 134 in 1961-62.

There are Telegraph Offices at the following 30 places :—

(1) Jalgaon, (2) Amalner, (3) Bhadgaon, (4) Bhusawal, (5) Bhusawal S. O., (6) Bodawad, (7) Chalisgaon, (8) Chalisgaon S. O., (9) Chopda, (10) Dharangaon, (11) Edlabad, (12) Erandol, (13) Faizpur, (14) Jalgaon Collectorate, (15) Jalgaon Bazar, (16) Jalgaon Navipeth, (17) Jalgaon Peth, (18) Jamner, (19) Nashirabad, (20) Nimbhora, (21) Pachora, (22) Pahur, (23) Parola, (24) Pratapnagar (Amalner), (25) Pimpalgaon, (26) Raver, (27) Savda, (28) Shendurni, (29) Varangaon and (30) Yawal.

The following 21 places have Telephone connections :—

(1) Jalgaon, (2) Amalner, (3) Bhadgaon, (4) Bodawad, (5) Chalisgaon, (6) Chopda, (7) Dharangaon, (8) Edlabad, (9) Erandol, (10) Faizpur, (11) Jalgaon Bazar, (12) Jamner, (13) Nimbhora, (14) Pachora, (15) Parola, (16) Pratapnagar (Amalner), (17) Raver, (18) Savda, (19) Shendurni, (20) Varangaon and (21) Yawal.

Passenger Road Transport

During the Plan periods, a number of roads connecting the villages were constructed in the district and the buses of the State Road Transport Corporation now ply regularly on these roads. Khandesh Division of the State Transport started functioning from 1st August 1952 and includes the entire districts of Jalgaon and Dhulia. The Divisional Headquarters and the workshop are at Dhulia. Six depots are situated at (1) Jalgaon, (2) Amalner, (3) Chopda, (4) Yawal, (5) Jamner and (6) Chalisgaon.

There are 14 temporary bus stations situated in the district. No separate figures for passenger transport are available for the district, as the division also includes Dhulia district. The six depots together run buses on 185 routes which perform 783 single trips per day. Special parcel booking and delivery services have also been arranged by the State Transport at Jalgaon, Chalisgaon, Amalner, Chopda, Yawal, Jamner, Parola, Erandol, Bhusawal, Faizpur, Pachora, Plattepur and Edlabad. City bus services are operating in the towns of Jalgaon and Bhusawal.

Nationalisation of passenger road transport in the district has been completed by the end of the Second Five-Year Plan. The Third Five-Year Plan schemes include expansion of the services to new places on public demand, construction of permanent bus stations, pick-up stands and provision of other facilities for the travelling public.

Goods Transport

Separate figures for lorries operated in the district are not available, as the Regional Transport Officer working at Thana keeps combined records for his region including Thana, Nasik, Dhulia, and Jalgaon.

Workers in Transport and Communications

17,020 persons are engaged in transport and 1,115 in postal, telegraph and telephone communications in the district. Out of the workers in transport, 13,004 are in railway transport, 1,465 in motor and bus transport and 2,551 in other kinds of transport like bullock-carts, horses on hire, coolies, etc. In the monsoon season boats and ferries ply through the Girna and Tapi for 3 months. Passengers and goods are transported from one bank to the other. There are 50 ferries engaged in the district.

Communication in Rural Areas

The Village Directory in Part I gives information for each village in the district whether it is served by a railway or a road or has a post office or not.

CONSTRUCTION

The total number of persons engaged in construction is 10,088; 8,229 are males and 1,859 females. Their distribution by minor groups is shown in Table B-IV-C in Part II.

41·90 per cent of the workers are engaged in the construction and maintenance of dams, waterways and canals, etc., 18·70 per cent in the construction and maintenance of bridges, roads, etc., 0·13 per cent in construction and maintenance of telegraph and telephone lines and 39·27 per cent in the construction and maintenance of buildings, etc. The large proportions of workers engaged in the construction of waterways and canals, etc., include those working on Girna Project, Jamda and Dahigaon dams, Dam on Bahula river at Pimpalgaon Hareshwar in Pachora taluka, tube wells at Hol and Rajore in Raver and Yawal talukas, and a number of wells and minor irrigation schemes of the district.

The proportion of workers engaged in construction of buildings is comparatively high, though it is lower than that under construction of dams, waterways, etc. This category includes those working on private houses, buildings for administrative offices, residential quarters for Government employees, schools, low-income and labour housing schemes, etc.

All the workers engaged in construction together form only 1·24 per cent of the total workers in the district.

OTHER SERVICES

49,791 persons are engaged in the district in "Other Services"; 42,203 are males and 7,588 females. The major categories of them are : (i) Public Services ; (ii) Educational Services and (iii) Personal Services. "Public Services" include administrative employees of Central, State and Local Governments. "Educational Services" include all classes of teachers and "Personal Services" include domestic servants as well as barbers, washermen and others rendering services to persons or households. The distribution of workers in other services by minor groups is shown in Table B-IV-C in Part II.

6·12 per cent of the total workers in the district are engaged in "Other Services" as against 8·53 per cent in the State. 22·02 per cent of the total workers in "Other Services" in the district are engaged in " Public Services" and 15·50 per cent in "Educational Services". The former is lower and the latter is higher than the corresponding proportions (23·86 per cent and 12·40 per cent) for Maharashtra. The low proportion of "Public Services" and high proportion of "Educational Services" may be due to comparatively few urban centres and a small number of business and recreation services as against a large number of educational institutions in the district. Moreover, the district ranks fourth among the districts in Maharashtra, in so far as literacy is concerned. The proportion of "Personal Services" in the district is, however, lower, i.e., 21·92 per cent than the State average of 27·15 per cent.

The number of domestic servants is 2,167 or one for 815 population. The number of barbers is 3,649. The number of persons in laundry services including the washermen is 1,190.

There are 321 legal practitioners and 1,710 persons working in medical and health services excluding veterinary services.

The number of persons including the teaching staff in technical schools and colleges is 72 and that in other schools and colleges is 7,612.

The number of State Government employees including those now working under the Zilla Parishad, is 5,496.

BROAD ASPECTS OF ECONOMY

Individual sectors of economy of the district have so far been described separately. A few broad aspects may now be discussed for the economy as a whole.

Labour Participation Rates

The proportions of workers to total population, males and females, for the district and each taluka are as shown in the next column.

	Proportion of workers (in percentage)		
	Total	Males	Females
MAHARASHTRA	47·91	57·09	38·10
JALGAON DISTRICT ..	46·08	53·62	38·20
1 Chopda Taluka	46·30	55·61	36·77
2 Yawal Taluka	47·08	51·33	42·67
3 Raver Taluka	49·87	53·20	46·42
4 Amalner Taluka.. ..	41·35	53·07	29·11
5 Erandol Taluka	49·81	55·68	43·77
6 Jalgaon Taluka	39·69	50·12	28·53
7 Bhusawal Taluka ..	41·31	51·52	30·33
8 Edlabad Mahal	55·28	58·17	52·33
9 Parola Taluka	48·22	56·28	39·79
10 Bhadgaon Mahal ..	46·57	54·41	38·50
11 Pachora Taluka	48·00	54·64	41·04
12 Jamner Taluka	51·34	56·81	45·68
13 Chalisgaon Taluka ..	44·87	52·49	36·86

Labour participation rates in the district are lower than those for Maharashtra, for total population and for males but for females the rate is little higher than that for State average. Within the district, participation rate varies from 55·28 per cent in Edlabad mahal to 39·69 per cent in Jalgaon taluka. Both male and female participation is highest with 58·17 and 52·33 per cent, respectively, in Edlabad mahal. Jalgaon taluka has the lowest participation rates both for males and females because of the largest urban area (Jalgaon town) included in the taluka. Higher participation rates than those for the State are in Edlabad mahal only for males and in all talukas except Chopda, Amalner, Jalgaon, Bhusawal and Chalisgaon talukas for females.

Primary, Secondary and Tertiary Sectors

The Primary Census Abstract shows the distribution of workers in the nine categories of economic activity. Table B-IV-C in Part II shows detailed industrial classification of all workers other than those at cultivation. The percentage distribution of workers in primary, secondary and tertiary activities for the district and the State is as follows:—

	Total Workers	Primary	Secondary	Tertiary
MAHARASHTRA—				
Total	100·00	72·25	12·34	15·41
Rural	100·00	88·73	5·68	5·59
Urban	100·00	11·97	36·69	51·34
JALGAON DISTRICT—				
Total	100·00	80·47	7·67	11·86
Rural	100·00	89·83	4·99	5·18
Urban	100·00	32·08	21·52	46·40

As can be expected the primary sector in the district engages as many as 80·47 per cent of the workers. Even in urban areas it engages 32·08 per cent of the workers as against 11·97 per cent for the State urban. In both, urban and rural areas, the district lags very much behind the urban and rural State averages in respect of both the secondary and tertiary sectors. It can be very well stated that the primary sector dominates in the district much more than in the State. Tertiary services are no doubt dominant in urban areas of the district with 46·40 per cent workers. They consist of trade and commerce, transport, administrative, teaching and other services.

Categories of Economic Activity

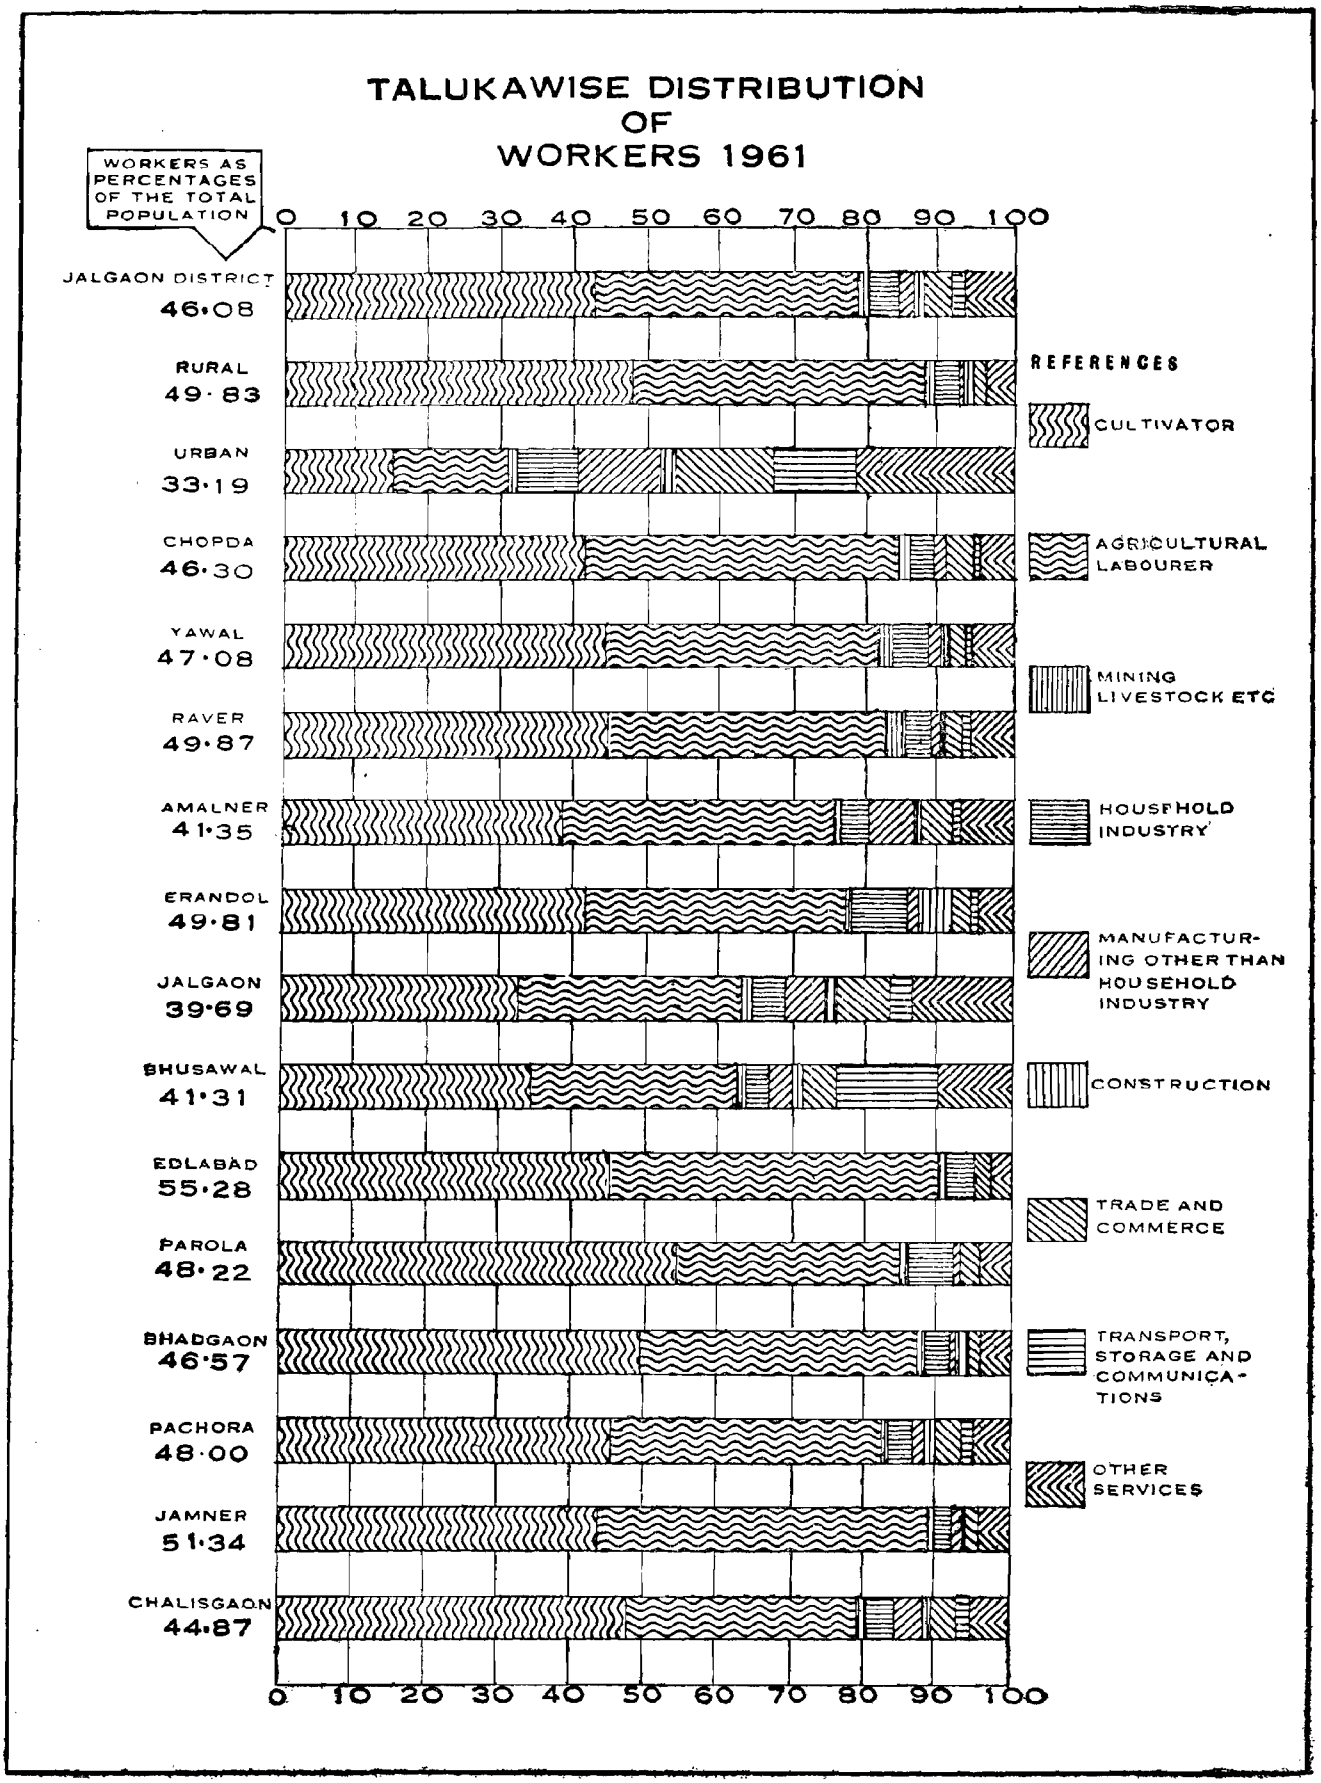

The distribution of workers, males and females by nine categories of economic activities for the district and the State, is as follows :—

	Name of the category	Maharashtra			Jalgaon District		
		Persons	Males	Females	Persons	Males	Females
	(1)	(2)	(3)	(4)	(5)	(6)	(7)
	Cultivation	46·11	40·69	54·79	42·54	40·97	44·85
II	Agricultural Labour	23·80	18·12	32·90	36·37	28·74	47·56
III	Mining, Quarrying, Livestock, Fishing, etc. ..	2·16	2·97	0·86	1·26	1·67	0·66
IV	Household Industry	4·39	4·80	3·74	4·23	5·26	2·71
V	Manufacturing other than household industry ..	6·88	10·22	1·54	2·50	3·91	0·42
VI	Construction	1·24	1·69	0·53	1·24	1·70	0·56
VII	Trade and Commerce	4·52	6·61	1·17	3·50	5·32	0·84
VIII	Transport, Storage and Communications ..	2·36	3·65	0·29	2·24	3·70	0·10
IX	Other Services	8·54	11·25	4·18	6·12	8·73	2·30
	Total ..	100·00	100·00	100·00	100·00	100·00	100·00

The proportion of agricultural labourers in the district is comparatively very high (36·37 per cent) as against that (23·80 per cent) of the State. The proportion of cultivators (42·54 per cent) is lower than the State average (46·11 per cent). Both the categories taken together account for a much larger percentage than that for the State because there appears to be no alternative employment in industry available in the district. The proportions in other services, trade and commerce and transport, storage and communications are lower and the proportion of workers in manufacturing other than household industry (2·50 per cent) is much less as compared to the State average of 6·88 per cent. The district, however, has the proportion of workers in construction equal to that for State average.

Talukawise distribution of workers in nine categories of economic activities is shown on page (58). Corresponding figures for the State and the district are also shown for comparison.

Distribution of workers by 9 categories of economic activity is also shown in the Figure on page (57).

13 Chalisgaon Taluka	47·86	31·55	1·28	4·11	3·48	1·24	3·64	1·54	5·30	100·00

The proportion of cultivators and agricultural labourers differ considerably from taluka to taluka. The proportion of cultivators varies between 32·63 per cent for Jalgaon taluka and 54·49 per cent for Parola taluka. The proportion for agricultural labourers varies from 27·91 per cent in Bhusawal taluka to 45·32 per cent in Jamner taluka. Such wide variations within the district are due to the differences in topography and fertility of soils and resulting cropping and landholding patterns. 7·32 per cent workers are engaged in household industry in Erandol taluka the proportion which is quite higher than the State average. Quite a large percentage of workers in household industry are seen in Erandol taluka, Parola taluka and Yawal taluka. 6·50 per cent workers in Amalner taluka are engaged in manufacturing other than household industry, 14·01 per cent of workers in Bhusawal taluka are engaged in transport and communications (particularly in Bhusawal town), 9·90 per cent of workers in the same taluka are in other services. 13·75 per cent workers, highest in the district and much more than the State average, are in other services in Jalgaon taluka. It is also of significance that 7·62 per cent workers, much higher than the State average, are engaged in trade and commerce in Jalgaon taluka.

Labour Participation by Age

The labour participation rates by age-groups are shown below for the district for total, males and females separately. Corresponding figures for the State are also shown for comparison:—

Age-groups	Jalgaon District			Maharashtra		
	Total	Males	Females	Totals	Males	Females
All ages	46·08	53·62	38·20	47·91	57·09	38·10
0—14	6·36	5·80	6·98	8·72	8·62	8·84
15—34	74·30	86·05	62·60	74·53	87·45	60·90
35—59	82·43	97·81	65·88	81·57	96·86	63·68
60+	48·75	75·88	25·07	49·13	72·82	26·28

Participation rates are lower for the total population and for males in the district than the State average and they are higher for females in the district than the State average. Participation rates are higher in age-groups 35—59 and 60 + (for males) and in age-groups 15—34 and 35—59 for females in the district than the State average. Male participation and female participation rates are higher in age-groups mentioned earlier because of the emphasis on agriculture. Lower participation in age-group 0—14 for both the sexes may be due to the larger proportion attending the schools.

Workers by Educational Levels

The distribution of workers by educational levels shown in Table B-III in Part II is shown below by percentages for the district. Corresponding figures for the State are also shown for comparison:—

	Illiterate	Literate (without educational level)	Primary or Junior basic	Matriculation and above
Maharashtra ..	68·65	14·11	13·91	3·33
Jalgaon District ..	60·96	17·90	19·15	1·99

Literacy percentage of workers of the district is higher than the State average. The proportion of workers who are literate without educational level is also higher. Much higher proportion is seen for workers who are educated up to primary or junior basic level, probably due to the spread of education in the district. The proportion of workers with Matriculation and above (1·99 per cent) in the district is much lower than the State average of 3·33 per cent.

Status of Employment

Table B-IV-B in Part II shows the distribution of workers by status of employment for non-household industries. The percentage proportions of employers, employees, single workers and family workers in the district for total, rural and urban areas are given in the table below. Corresponding figures for Maharashtra are also shown for comparison. The four classes of workers are defined in paragraph 58 in the Explanatory Note to Part II :—

	Total workers	Class of workers			
		Employers	Employees	Single workers	Family workers
MAHARASHTRA—					
Total	100·00	3·96	62·18	26·52	7·34
Rural	100·00	1·57	46·47	38·58	13·38
Urban	100·00	4·98	68·90	21·37	4·75
JALGAON DISTRICT—					
Total	100·00	2·73	52·80	34·06	10·41
Rural	100·00	1·42	43·93	42·03	12·62
Urban	100·00	3·67	59·14	28·36	8·83

Single workers and family workers have larger proportions in the district than the State average. The differences are more marked for single workers. The proportions of single workers are higher for rural and urban areas in the district to those for the corresponding State averages. Whereas for family workers the district proportion is higher in urban areas to that of the State and lower in rural areas. The higher proportion of single workers in the district is a reflection of small shops and pedlars dominating the scene. The proportion of employees are lower as a consequence of the predominance of single workers and family workers. The district however has a much low proportion of employers than the State average.

Percentage Distribution in Household Industry by Employees and Others

The proportion of employees, i.e., hired workers and others in household industries in the district total, rural and urban areas is shown in Table B-IV-A in Part II. The percentage distribution with corresponding figures for Maharashtra is as follows :—

	Total workers	Employees	Others
MAHARASHTRA—			
Total	100·00	8·18	91·82
Rural	100·00	4·91	95·09
Urban	100·00	16·35	83·65
JALGAON DISTRICT—			
Total	100·00	5·91	94·09
Rural	100·00	5·05	94·95
Urban	100·00	7·76	92·24

Household industries in the district also work more with household members than is the case in the State. The proportions of employees are lower in the district than the State for total and urban areas. Slightly higher proportion of employees is seen in the rural areas of the district than the State rural average.

Secondary Work

The proportions of workers also engaged in some other secondary economic activity for three categories of principal work for Maharashtra and the district are as follows (Actual figures are shown in Table B-VII-A in Part II) :—

Principal work	Total Rural Urban	Percentage of total workers by categories of secondary work		
		I	II	IV
MAHARASHTRA—				
I Cultivation	Total	..	17·85	1·97
	Rural	..	18·03	1·98
	Urban	..	10·54	1·32
II Agricultural Labour ..	Total	13·17	..	0·94
	Rural	13·46	..	0·97
	Urban	7·12	..	0·31
IV Household Industry ..	Total	14·78	6·97	..
	Rural	19·61	9·38	..
	Urban	2·70	0·95	..
JALGAON DISTRICT—				
I Cultivation	Total	..	23·46	1·18
	Rural	..	23·98	1·14
	Urban	..	14·87	1·82
II Agricultural Labour ..	Total	18·52	..	0·53
	Rural	19·30	..	0·55
	Urban	8·32	..	0·25
IV Household Industry ..	Total	12·12	6·14	..
	Rural	15·38	8·68	..
	Urban	5·15	0·71	..

The proportions of cultivators also working as agricultural labourers as secondary work and of agricultural labourers also engaged in cultivation as secondary work are larger for the district than the State average. Among all, the cultivators working as agricultural labourers as a secondary work have much higher proportion in the district than State average. Most of those workers appear to be small landholders in the district. The proportions of household industry workers also engaged in cultivation are much lower (12·12 per cent) for the district than the State average (14·78 per cent) but that for the household industry workers working as agricultural labourers are lower (6·14 per cent) for the district than the State average (6·97 per cent).

Occupational Classification

Table B-V in Part II shows the distribution of non-agricultural workers by occupation. The percentage distribution for the State and the district is as follows. The occupational classification is described in the Explanatory Note to Part II shown in the next column.

Occupational Division		Maharashtra	Jalgaon District
0	Professional, technical and related workers.	6·42	8·16
1	Administrative, executive and managerial workers.	3·89	3·03
2	Clerical and related workers ..	9·13	6·99
3	Sales workers	12·23	15·40
4	Farmers, fishermen, hunters, loggers and related workers.	7·64	7·30
5	Miners, quarrymen and related workers.	0·75	0·28
6	Workers in transport and communication occupations.	3·57	4·64
7-8	Craftsmen, production process workers and labourers not elsewhere classified.	45·99	44·88
9	Service, sport and recreation workers	10·27	9·32
X	Workers not classifiable by occupation.	0·11	..
	Total ..	100·00	100·00

The proportion for the occupat ional division 0 is higher in the district than the State proportion mainly because of the comparatively larger proportion of teachers. Workers in occupational divisions 3 and 6, sales workers and workers in transport and communication, have a higher proportion in the district than the State average. In all other occupational divisions the proportion of workers is lower than the State average.

Non-workers

The distribution of non-workers by eight broad categories is shown in Table B-IX in Part II. Percentage distribution for the district is shown below:—

	District Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
(1)	(2)	(3)	(4)	(5)	(6)	(7)
(1) Full-time students	40·93	14·10	39·30	12·91	45·71	16·89
(2) Household duties	0·12	34·55	0·11	29·06	0·14	47·48
(3) Dependants, infants and disabled	56·89	50·95	59·58	57·73	49·03	34·98
(4) Retired, rentiers or persons of independent means	0·64	0·17	0·24	0·13	1·80	0·24
(5) Beggars, vagrants, etc.	0·35	0·17	0·26	0·12	0·62	0·29
(6) Inmates of institutions	0·07	0·04	0·05	0·03	0·14	0·06
(7) Persons seeking employment for the first time ..	0·61	0·01	0·32	0·01	1·45	0·04
(8) Unemployed but seeking work	0·39	0·01	0·14	0·01	1·11	0·02
Total ..	100·00	100·00	100·00	100·00	100·00	100·00

There is a marked difference in the distribution pattern for non-workers among males and females. 40·93 per cent male non-workers are full-time students while the corrresponding proportion for females is 14·10 per cent. The reason is that 34·55 per cent females who are engaged in household duties are also included as non-workers. The rural-urban differences are similar both for males and females. In urban areas the percentage of full-time students is higher and that for dependants lower as compared to rural areas. The percentage of females engaged in household duties is higher in urban areas than in rural areas. The percentage of unemployed is 2·56 and 0·46 for males in urban and rural areas, respectively, and negligible in both cases for females. Proportions of full-time students among females are lower both in urban and rural areas. The difference is not, however, entirely due to social customs of giving more attention to the education of boys than that of girls. The proportion for females is lower because the group of non-workers contains a large number of adult women engaged in household duties. Other categories have less than one per cent for both males and females.

13	Chalisgaon Taluka	79

EXPLANATORY NOTE

This Part I presents 1961 Population Census figures for all villages and towns in the district. In the case of towns, the figures are also presented separately for each ward. These basic statistics are not published for such small administrative units in any other country in the world.

2. For each village, ward or town are shown its area, number of occupied residential houses, number of households, total population and its break-up by sex, literacy, Scheduled Castes, Scheduled Tribes workers and non-workers. The figures for workers are further split up by sex and by a broad classification of industrial activity in nine categories described in paragraph 16 below.

3. In the village directory, the villages are presented talukawise and within a taluka in the order of their location code numbers. These code numbers had been assigned to them for organising 1961 Census work and follow a regular north-west to south-east direction. The taluka map shows approximate locations of all villages with their code numbers. An alphabetical list of villages will be found facing each taluka map. It shows the code number for each village and its population in 1951 and 1961. The taluka map and the alphabetical list will together facilitate location of any village in the village directory as well as on the spot.

4. A "village" is a statutorily recognised village having a defined boundary and separate land records. Hamlets, wadies or padas have, therefore, not been shown separately. On the other hand, statutorily recognised villages having no population have been shown with separate code numbers but with words "uninhabited" shown against them.

5. Forest villages, however, make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Most of them are, however, permanent localities and also have attached cultivated areas leased out by the Forest Department under certain conditions. Their land records are not maintained by the Revenue Department. Statistics for these forest villages have also been presented in the village directory. They may, however, be distinguished from other statutory revenue villages from the letters "(FV)" suffixed after their names.

6. Survey of India maps, taluka maps, previous Census Handbooks and many other official sources have been referred both to secure accurate coverage and to get the correct spellings of village names. A very high standard of accuracy may now be claimed for both.

7. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

(*a*) a population of over 5,000 ; and

(*b*) 75 per cent or more of male workers engaged in non-agricultural occupations.

Census figures for all these towns are presented wardwise after the completion of rural portion. Their names will also be found in the alphabetical lists of villages in capital letters with code numbers shown in roman figures. They are also shown on the taluka map.

8. The taluka maps and the alphabetical lists are both improvements over the 1951 District Census Handbooks. The village figures are, moreover, extracted directly from census records and not, as was done in 1951, from their copies prepared for some other purposes. The figures presented in the village directory, therefore, tally with the taluka and district Census tables perfectly.

9. Information contained in columns (3) to (7) of the village directory is based on village enumeration reports prepared by the Talaties or Patwaries during October/November, 1960, at the time of house numbering and house listing for 1961 Census. Because of the geographical arrangement of the villages these five columns indicate the general pattern of distribution of some basic amenities within a taluka. Village enumeration reports contained many more useful items of information on the villages, which could not be presented in the village directory for want of space. They are preserved in the offices of the District Statistical Officers.

10. The area figures in column (8) have been obtained either from the Mamlatdars/Tahsildars or taken from the 1951 Census Handbooks.

11. In column (9) of the village directory, the occupied houses include houses used as dwellings or partly as dwellings and partly for some other purposes, *e.g.*, shop-*cum*-dwellings, etc.

12. Columns (14) to (17) of the village directory present, for the first time, villagewise figures of population of Scheduled Castes and Scheduled Tribes.

13. For columns (18) and (19) a "literate" is a person who knows both reading and writing.

14. For the definition of a "worker" or a "non-worker" and for a detailed description of industrial categories the Explanatory Note to Part II may have to be referred.

15. The villagewise figures for industries and the number of workers have been presented in a separate table appearing in Part II of the Handbook.

16. The following abbreviations have been used in the village directory :—

ABBREVIATIONS AND SYMBOLS USED

IN COLUMN HEADINGS

F *for* Females.

M *for* Males.

P *for* Persons.

I Working as Cultivator.

II Working as Agricultural Labourer.

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Working at Household Industry.

V Working in Manufacturing other than Household Industry.

VI Working in Construction.

VII Working in Trade and Commerce.

VIII Working in Transport, Storage and Communications.

IX Working in Other Services.

EXPLANATORY NOTE

This Part contains 58 Tables presenting 1961 Census data for the district. 29 Tables also present material for each taluka and 6 for each town separately. The talukawise and townwise tables have been prepared specially for this volume.

2. A few Tables (e.g., A-IV, B-VI, B-VIII-A, etc.) present material for urban areas only. An urban area is the aggregate of all towns in the district or in the taluka concerned. All the other tables present material for total, rural and urban areas separately. In a few cases (e.g., B-III-D, B-VIII-B, B-IX, C-III-B, etc.) talukawise break-up is given for rural areas only because the corresponding data for the urban areas had been compiled only for the district as a whole and not for each taluka separately.

3. Tables on migration and a few other topics could not be included in this volume for want of space. They will be found in the volumes of the Maharashtra Census Report.

4. An account of how the Census was taken and a description of the definitions and concepts followed will be found in Part II-A of the Maharashtra Census Report. The material presented here relates to the 1st March 1961, which was the reference date fixed for the Census and which very closely approximated the completion of the Second Five-Year Plan. An analysis of this material will be found in the Introductory Note on the district at the beginning of this volume.

5. The following paragraphs contain brief notes on the tables included in this Part. Concepts and definitions of terms used are briefly described in the notes on the tables where those terms first appear in the Series. Each table starts with the entries for the district and the talukas follow in the order of their code numbers fixed by their geographical locations for purposes of the 1961 Census.

A SERIES

GENERAL POPULATION TABLES

6. There are four General Population Tables and three Appendices in this Series. They are the basic population tables. They will be useful to study the variation of population, sex ratios, distribution by size of villages or towns and trends of urbanisation in the district.

Table A-I

7. This table presents area, density, number of villages and towns, occupied residential houses and population total, males and females. Material is presented for the district and for each taluka (Tahsil or Mahal) for total, rural and urban areas separately. Towns are shown immediately after the entries of the taluka in which they are situated.

8. A town or an urban area is a place which has a municipality, a cantonment or a civil line or a population of 5,000 or over and at least $\frac{3}{4}$ this of male population dependent on non-agricultural pursuits. A population enumerated in urban areas is urban population and the population enumerated in all other places is rural population. Total includes the population of both urban and rural areas.

9. Area figures have been obtained through Revenue and Municipal Officers. Rural area is the difference between the Total and the Urban areas. The area figures for the district have been obtained from the Director of Land Records.

10. The term "village" has been explained in paragraphs 4 and 5 of the Explanatory Note to Part I.

11. The figures for number of occupied residential houses include houses used partly as dwellings and partly for some other purpose like shop, workshop, factory, etc., but do not include vacant residential houses where no person was found to be residing at the time of the Census.

Appendix I

12. There have been no territorial changes during the decade 1951—1961. Appendix I does not, therefore, appear here.

Appendix II

13. This shows the number of villages which in spite of a population of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 population but which have been treated as towns only because they have Municipalities. Columns (4) and (7) show the percentage of populations in villages of over 5,000 and towns of less than 5,000 to the respective rural or urban populations of the district or the taluka concerned.

Appendix III

14. *Houseless Population.*—Houseless persons were enumerated in all areas on the night of 28th February 1961. These include: (i) persons who might be doing domestic service or some other work with one or more households but who do not reside in any house and sleep in the corridors, verandahs or passages in buildings or on the streets; (ii) wandering or nomadic tribes found to be staying in temporary huts, rahooties, etc., or residing without any such huts just on the open grounds; and (iii) beggars, vagrants, tramps, sadhus, fakirs, lepers, etc., who are found on the footpaths, streets, otlas, in places like parks, gardens, seashore, railway yards, etc.

15. *Institutional Population* includes persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

Table A-II

16. This table presents population of the district for the seven Censuses from 1901 to 1961 and the variation by actual figures and percentages. Population figures for 1951 and 1961 and variation during the decade are presented for each taluka separately. The population figures for earlier Censuses shown in the table have been adjusted for the boundaries or areas of the district and talukas as they existed at the time of 1961 Census.

Table A-III

17. This table gives for the district and each taluka the distribution of inhabited villages classified by seven population size groups which are: (i) less than 200; (ii) 200—499; (iii) 500—999; (iv) 1,000—1,999; (v) 2,000—4,999; (vi) 5,000—9,999; and (vii) 10,000 and above.

18. Hamlets are included in the village. The classification here is on the basis of the combined population of the village and its hamlets if there are any. In other words, the classification is not strictly according to the size of each individual nucleus of rural population but is based on the size of population of the revenue village which may in some cases be a single nucleus of population and in others a group of two or more scattered localities.

Table A-IV

19. This table shows the growth of each town since 1901. It shows population for each town for the last seven Censuses. Towns are presented in the following six classes classified by their population in 1961. Within a class, the names of towns are arranged in the order of population:

Class I	..	100,000 and over.
Class II	..	50,000 to 99,999.
Class III	..	20,000 to 49,999.
Class IV	..	10,000 to 19,999.
Class V	..	5,000 to 9,999.
Class VI	..	Less than 5,000.

20. Where two or more towns are adjacent and together form a compact urban unit, the entire town group is classified with reference to the combined population of the group. In such cases, the total population of the group is shown along with the population of each of its constituent towns.

21. Where a town was not treated as a town in some earlier Census, its population at that Census had been included in rural population. It is not presented here as the table presents figures of urban population only.

22. The total urban population of the district and its variation in the last sixty years are shown at the beginning of the table.

B SERIES

(i) GENERAL ECONOMIC TABLES

23. There are 16 Tables in this Series showing the distribution of population by economic activity correlated with sex, age and educational levels. The classification by economic activity is first by workers and non-workers. The workers are then classified in nine broad categories of economic activity. A more elaborate classification of workers by industry under the Standard Industrial Classification Scheme is presented in Tables B-IV-A, B and C and by occupation under the National Occupational Classification in Table B-V. Two Tables B-VII-A and B-VII-B show the classification of workers by secondary work. The last three tables present distribution of non-workers by sex, age and eight broad classes.

24. In the 1951 Census Reports, the population was classified into eight livelihood classes and each class was further divided with reference to economic status into—

(i) self-supporting persons ;

(ii) earning dependents ; and

(iii) non-earning dependents.

25. The concept of dependency has been abandoned for economic classification at the 1961 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence.

26. A person is classified as worker if—

(*a*) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

27. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

28. "Work" includes not only actual work but effective supervision and direction of work also.

29. Persons under training as apprentices with or without stipend or wages are regarded as workers.

30. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc., or any such work she has been treated as a worker.

31. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession, business or commerce.

32. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

33. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

34. The Census Questionnaire did not have any question to determine the extent of full employment or under-employment.

35. Classification of workers doing two or more different types of work, has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

Primary Census Abstract

36. This table shows 1961 summary figures for the district and talukas, each for total, rural and urban areas separately. Similar details for each village, town and ward of a town are presented in Part I.

37. For each unit, the table shows area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons and number of workers and non-workers. The workers are shown further classified for nine categories of economic activity.

38. Column (5) shows the number of households for each unit. The " household " is slightly different from a " family ". A " household " is a group of persons who commonly live together in the same house and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A domestic servant residing and eating at the employer's house is a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the host during the Census period is treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

39. Columns (9) to (12) of the Primary Census Abstract show population of the Scheduled Castes and Scheduled Tribes, respectively, by males and females. The figures are related only to the two group totals of all Scheduled Castes and all Scheduled Tribes. Their break-up by individual Scheduled Caste or Scheduled Tribe will be found in Table SCT-I.

40. The limitations in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in the district. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes in the district. In cases where a caste or a tribe is declared as a Scheduled Caste or a Scheduled Tribe for a specified area that caste or tribe has been separately presented only for that specified area and not for any other areas of the district.

41. Columns (13) and (14) show figures for literates and educated persons. A " literate " is a person who can both read and write a simple letter. Persons having higher education are also included in these figures. More material on literacy and education cross tabulated with age-groups is presented in Table C-III.

42. The workers are shown classified by sex and in the following nine categories of economic activity :—

I	As Cultivator.
II	As Agricultural Labourer.
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV	At Household Industry.
V	In Manufacturing other than Household Industry.
VI	In Construction.
VII	In Trade and Commerce.
VIII	In Transport, Storage and Communications.
IX	In Other Services.

Category I

43. This category includes both the owner cultivators and tenant cultivators. Along with workers personally doing work on land are also included persons who are engaged in supervision or

direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

44. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

Category III

45. Workers in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category.

Category IV

46. A "Household Industry" is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. A household industry is not run on the scale of a registered factory. Thus, the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas, household industry is confined to the house.

47. A household industry relates to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader, doctor, barber, washerman or astrologer. Persons working in other person's household industry as paid employees are also treated as workers in household industry.

Category V

48. "Manufacturing" includes all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as household industry.

Category VI

49. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph, telephones, waterways, reservoirs, etc.

Category VII

50. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estates and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

51. This category includes workers engaged in transport activities by air, rail, road or water and in service incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraph, Telephones, Wireless Signalling, Information and Broadcasting are also included in this category.

Category IX

52. This category includes (i) Public utility services like electricity or gas or water-supply, sanitary services; (ii) Central, State or Municipal employees; (iii) Professional services; (iv) Trade or labour associations, Recreation services, etc.

Tables B-I and B-II

53. This combined table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by four broad age-groups. The material is presented for the district and each taluka as well as for total, rural and urban areas separately. Towns are also shown immediately after the entries of the talukas in which they are situated. For talukas which do not have any urban areas, entries are given only for totals which correspond to those for rural areas.

Table B-III

54. This table gives break-up of the Primary Census Abstract distribution of workers in nine industrial categories and non-workers by educational levels. Material for the district is presented for total, rural and urban areas separately while that for the talukas is presented only for rural areas. The classification by educational levels is more elaborate in the case of the urban areas. Classification by educational levels and age-groups will be found in Table C-III.

Industrial Classification

55. Industry of a worker is that branch of economic activity in which he is engaged in producing goods or services. Tables B-IV-A, B-IV-B, B-IV-C, B-VII-A and B-VII-B of the present Series and Tables B-XIII, B-XIV-A, B-XIV-B and B-XVI of the following Series show the distribution of workers by industry according to the Standard Industrial Classification which is reproduced as Appendix I to this note. For want of space it has not been possible to give description of each group of industry in the tables. They are shown only by industry codes in one, two or three digits as the case may be.

56. The nine categories shown in the Primary Census Abstract and Tables B-I, B-II and B-III conform to the industry divisions as follows :—

	Category	Industry Division
I	Cultivator	Minor groups 000, 001, 002, 003 and 004 from Division 0.
II	Agricultural Labourer ..	
III	Mining, Quarrying, etc.	Division 0 except minor groups 000 to 004 and Division 1.
IV	Household Industry ..	Division 0 except minor groups 000 to 004, Divisions 1, 2 & 3.
V	Manufacturing	Divisions 2 & 3.
VI	Construction	Division 4.
VII	Trade and Commerce ..	Division 6.
VIII	Transport, Storage and Communications.	Division 7.
IX	Other Services	Divisions 5, 8 and 9.

Table B-IV-A

57. This table gives the distribution of workers engaged in household industry by status of employment and by each division and major group (Appendix I) of household industry separately. Material is presented only for the district but for total, rural and urban areas separately. Major groups of household industry which do not have any workers in the district are not shown here. Columns (7) and (8) show the workers who work at their own household industry (i.e., who are either employers, single workers or family workers in those household industries). Columns (5) and (6) on the other hand show the workers who are working as employees in household industries not of their own.

Table B-IV-B

58. This table presents distribution of all workers (other than those working in categories I, II and IV) by industry divisions and major groups (Appendix I) and by employment status. Material is presented for the district only but for total, rural and urban areas separately. Classification of workers by employment status is in four classes " employer ", " employee ", " single worker " and " family worker ".

An " employer " is a person who employs other persons in order to perform economic activity in which he is engaged.

An " employee " is a person who usually works under some other person for salary, or wages in cash or kind.

A " single worker " is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually.

A " family worker " is a member who works, without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season.

Table B-IV-C

59. This is a very important table as it gives the employment position in all sectors of economy in the district. It shows the distribution of all workers (other than those in categories I and II) by industry division, major groups and minor groups according to the Standard Industrial Classification (Appendix I). The number of workers against each division, major group or minor group, is further split up and shown separately for household industry and non-household industry. Material is presented only for the district but for total, rural and urban areas separately. Major or minor groups which do not have any workers in the district are not shown here.

Occupational Classification

60. Occupation of a worker is the function which he performs in any branch of economic activity (which is called his industry). For a clerk working in a textile mill, the industry is textile and occupation is clerical. For a person working as a driver on a bank's vehicle, the industry is banking and occupation is driver.

61. Tables B-V and B-VI show the distribution of workers by occupation according to the National Occupational Classification Scheme which is reproduced as Appendix II to this note.

Table B-V

62. This table presents the distribution of workers (other than those engaged in categories I and II) by occupational divisions and groups (Appendix II). For each division or group the workers are shown by a categorywise break-up of their industry. The material is presented only for the district but for total, rural and urban areas separately. Occupational groups which do not have any workers in the district are not shown in the table. For an occupational group which has all the workers in only one category of industry, only one line shows the total workers for that group as well as for that category of industry.

Occupational distribution of workers in the 1961 Census has been worked out and presented in Maharashtra Census Report, Part II-B (ii) even for Occupational families, i.e., up to three digits. For want of space it is presented here for occupational groups, i.e., up to two digits only.

Table B-VI

63. This table presents the distribution of workers (other than categories I and II) classified by sex, occupational divisions (Appendix II), broad age-groups and by educational levels. This table is presented only for the total urban area of the district.

Table B-VII-A

64. This table presents workers engaged as cultivators, agricultural labourers and at household industry classified by the nature of their secondary work. In case a worker is engaged in two or more kinds of work the one which consumes larger portion of his time (not necessarily earning a larger portion of his income) is treated as his principal work, another consuming second larger portion of his time is his secondary work. The secondary work is shown in the table classified only in three broad categories, *viz.*, IV-Household Industry, I-Cultivator and II-Agricultural Labourer. Workers who may be engaged in secondary work in other categories, *viz.*, III, V, VI, VII, VIII and IX are not shown in this table. The break-up of principal work in household industry by major industrial groups (Appendix I) is shown in column (1). It will enable analysis of workers engaged in secondary work by major branches of their principal work at household industry. The material is presented for the district only but for total, rural and urban areas separately.

Table B-VII-B

65. This table shows workers engaged in non-household industry categories III and V to IX as principal work and doing some additional work in household industry. The additional work in household industry is classified by industrial divisions (Appendix I) only. Similarly, the break-up of principal industry in column (1) is also by industrial divisions only. Workers engaged in the industry divisions shown in column (1), but who are doing additional work in any sector other than household industry are not shown in this table. Material is presented for the district only but for total, rural and urban areas separately.

Table B-VIII-A

66. This table presents the distribution of unemployed persons aged 15 and above by age-groups and educational levels. The number of unemployed have been further split up by persons seeking employment for the first time and persons employed before but now out of employment and seeking work. Material is presented only for the total urban area of the district. Such detailed information on the unemployed is compiled for the first time in the 1961 Census.

Table B-VIII-B

67. This table presents the distribution of unemployed aged 15 and above in rural areas of the district by educational levels. The break-up of educational levels is not as elaborate as in Table B-VIII (Part A) and classification by age-groups or by persons seeking employment for the first time, etc., is not shown in this table. As a compensatory factor, the material is presented for the rural area of the district and each taluka separately.

Table B-IX

68. This table presents the distribution of non-working population by broad age-groups and eight classes of non-workers. Such information on the non-working population had never been compiled before. The material is presented for the district separately for total, rural and urban areas and for each taluka for rural areas only.

(ii) HOUSEHOLD ECONOMIC TABLES

69. Tables B-X to B-XVI present the economic activity of the households as units. They relate to—

(i) the size of or interest in land cultivated and/or the household industry conducted by the households; and

(ii) the number of family workers and/or hired workers working in either of the two activities separately or combined in both.

70. In the case of countries of such economic status as ours where not all the goods produced enter the money market and where much of what is produced is consumed by the family itself, presentation of information on economic activity of individuals alone is likely to be slightly misleading unless that information is supplemented by material relating to economic activity of the households as entities. Such information is presented here for the first time. These tables are prepared from the household schedules specially introduced for that purpose as one of the three Questionnaire forms in the 1961 Census. The tables have been prepared on a 20 per cent sample of all the households in the district drawn for rural and urban areas separately.

71. Cultivation here includes cultivation both as owners and tenants. Size of holding shown is also of Operational holding, i.e., land actually cultivated and does not include land owned but not cultivated by the household.

Table B-X

72. This table presents distribution of sample households by those—

(i) engaged neither in cultivation nor household industry;

(ii) engaged in cultivation only;

(iii) engaged in household industry only; and

(iv) engaged both in cultivation and household industry.

The material is presented for the district and each taluka for total, rural and urban areas separately.

Table B-XI

73. This is an important table. It shows the distribution of sample households engaged in cultivation classified by size of land and interest in land cultivated. Ten size-groups are shown horizontally while the interests in land are classified in three types, *viz.*—

(*a*) Entirely owned or held from Government.

(*b*) Entirely held from private persons or institutions for payment in money, kind or share.

(*c*) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

The material is presented separately for total, rural and urban areas of the district and only for rural areas of each taluka.

Table B-XII

74. This table shows the distribution of sample households engaged in cultivation classified by size of land cultivated and the total number of family workers and hired workers. The material is presented for the district for total, rural and urban areas separately and only for rural areas of each taluka.

Table B-XIII

75. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and by industry division and major group of the household industry (Appendix I). The table shows the

sizes of cultivation holdings and the branches of household industry for which the two household economic activities combine in varying degrees. The material is presented only for the district but for rural and urban areas separately.

Table B-XIV-A

76. This table shows the distribution of sample households engaged in household industry only by the number of workers engaged and by industry division and major groups of the household industry (Appendix I). Material is presented for the district only but for total, rural and urban areas separately.

Table B-XIV-B

77. This table shows the distribution of sample households engaged in household industry only classified by industry minor groups (Appendix I) for the household industry. The industry minor group is shown with a break-up in four-digit codes in column (1). *These four-digit codes are shown in Appendix III.* The material is presented for the district only but for total, rural and urban areas separately.

Table B-XV

78. This table shows the distribution of sample households engaged both in cultivation and household industry classified by size of land cultivated and the number of family workers and hired workers working in the two activities combined. The material is presented for the district for total, rural and urban areas and for each taluka only for rural areas separately.

Table B-XVI

79. This table shows the distribution of sample households engaged in household industry classified by the period for which the household industry is worked and by industry division and major groups (Appendix I) of the household industry. A further split up of figures is shown for household industry combined with cultivation and without cultivation. The material is presented for the district only but for total, rural and urban areas separately.

C SERIES

SOCIAL AND CULTURAL TABLES

80. There are 11 tables in this Series dealing with Social or Cultural aspects like sizes and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. The first two Tables C-I-A and C-I-B relating to Size and Composition of Households are prepared from the household schedules on a 20 per cent sample. All the other tables are prepared from individual slips and on a total count.

Table C-I-A

81. This table presents distribution of sample households classified by their size and by economic activity, i.e., by work in cultivation or household industry. Households working at cultivation are further classified by size of land holding. The material is presented only for the district but separately for total, rural and urban areas. Classification by economic activity as well as by size of land holding is presented only for rural areas and classification by size of the household is alone presented for total and urban areas. This table is prepared from household schedules on a 20 per cent sample. This table appears as Table B-XVII in Part III of the Maharashtra Census Report.

82. *The classification by size is as one member,* small (2 to 3), medium (4 to 6), large (7 to 9) and very large (over 10) households. By definition, a Census household is not the same as a family. The household also includes persons who are not members of the family but who were residing with the family during the Census period. The table will give a general idea of the family sizes as in the majority of families outsiders are not likely to be present.

Table C-I-B

83. This table presents distribution of population of sample households by heads of the households, spouses of heads of households, married relations, never married, widowed or divorced relations and unrelated persons. These details are also shown for sample households classified by economic activity, i.e., participation in cultivation or household industry. For cultivation, the sample households are further classified by size of land holdings. This table is prepared from the household schedules on a 20 per cent sample. Material is presented for the district only but for total, rural and urban areas separately. The classification of households by economic activity and size of land holding is, however, shown for rural areas only. This table is of sociological interest indicating the strength of the joint family system.

Table C-II

84. This table presents distribution of population by sex, age and marital status. Classification of age between 10 and 70 years is by five-year age-groups. The other two groups are 0—9 years and 70 and over. The entire population in 0—9 years age-group has been treated as never married and no further classification by marital status is shown against them. The material is presented only for the district but for total, rural and urban areas separately. From this table it may be ascertained whether proportions in various marital status groups have changed since the last Census and whether *any trend is observed in age of marriage.* A corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table is, however, prepared on a full count.

Tables C-III-A, B and C

85. These three tables present the distribution by age, sex, literacy and educational levels. Classification by age is by five-year age-groups up to 59 years. Classification by educational levels is the same as in Table B-III. It is more elaborate in the case of urban areas. Part A presents material only for the district total while Part B presents material for rural areas of the district and of each taluka separately. Part C presents material only for the district urban areas but with more elaborate classification by educational levels.

86. These tables are a measure of the growth of literacy in the total population as well as in the different age-groups since the last Census. They are also likely to furnish information on the spread of adult education. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. These tables have been prepared on a full count.

Table C-IV

87. This table presents distribution of the district population by single year ages both for males and females separately. Figures presented are based on the actual returns recorded in the Census, i.e., they have not been smoothed or adjusted for preferences for digits 0, 5, etc. The material is presented only for the district total.

88. This is an important demographic table which is used for computing mortality rates. The corresponding table at the 1951 Census was prepared on a 10 per cent sample. This table has been prepared on a full count.

Table C-V

89. This table presents the distribution of population by mother-tongues. The figures are presented only for 9 top-ranking mother-tongues in the district. Figures for all the other mother-tongues have been shown combined in the group "Others". Mother-tongues are arranged in the alphabetical order. Material is presented for total, rural and urban areas for the district and each taluka separately. At the end material is also presented for each town separately. A foot-note is added to show the number of speakers in the district for each of the mother-tongues combined in the group "Others".

90. "Mother-tongue" is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the house. Dialects have been included in the main languages on the basis of Grierson's Classification.

91. Another Table (C-VI) on bilingualism has been prepared in the 1961 Census. It is not included in this volume and may be found in Part II-C of the Maharashtra Census Report.

Table C-VII

92. This table presents distribution of population by religion. Eight main religions have been shown in their alphabetical order. All other religions returned in the Census are combined in the group "Others". Figures for various sects returned as religion during the Census have been combined with the main religions concerned.

Table C-VIII-A

93. This table presents the total population of Scheduled Castes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka separately. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Castes.

Table C-VIII-B

94. This table presents the total population of Scheduled Tribes classified by literacy and by economic activity. Classification by economic activity is the same as in the Primary Census Abstract or Tables B-I and B-II. Material is presented for total, rural and urban areas of the district separately and only for rural areas of each taluka. Paragraph 40 above, on Primary Census Abstract, may be seen for explanation of the special group treated as Scheduled Tribes.

SCT, SC & ST SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

95. There are 11 Tables in this Series specially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. These classes of people are declared by the President's orders issued under Articles 341 and 342 of the Constitution of India as Scheduled Castes or Scheduled Tribes. Under Article 46 of the Constitution, the State has to promote, with special care, the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and Scheduled Tribes and has to protect them from social injustice and all forms of exploitation. For ensuring adequate representation to these classes, seats are also reserved for them in the House of the People, State Legislature and other elective bodies.

96. These special tables have been prepared to furnish data on the present socio-economic conditions of these people to be studied not only as a combined group as in 1951 but also for each Scheduled Caste and Scheduled Tribe separately.

97. These tables relate to economic activity, education, mother-tongue and classification of persons not at work. Material is presented for each Scheduled Caste and Scheduled Tribe separately. It will be useful information for formulating various schemes for their welfare.

98. Classification by Castes and Tribes is on the basis of returns recorded in response to question 5 (c) of the 1961 Census Questionnaire. Every person was asked if he belonged to one of the Scheduled Castes or Scheduled Tribes notified for the district and in case he belonged to one of them he was asked the name of his caste or tribe. Paragraph 40 above on the Primary Census Abstract explains the limitations of these castewise or tribewise figures. The population of Scheduled Castes shown here is much less than that for the district in 1951 as many persons from that group have returned their religion as Buddhist or Nav-Buddha, and under the Constitution, there can be Scheduled Castes only among Hindus and Sikhs and in no other religion.

99. Two more Tables SCT-II and SCT-IV on age, marital status and religion of the Scheduled Castes and Scheduled Tribes prepared in the 1961 Census are not presented here for want of space. They may be seen in Part V-A of the Maharashtra Census Report.

Table SCT-I-A

100. This table presents the distribution of Scheduled Castes population by economic activity. Material is presented for the total of all Scheduled Castes as well as for each Scheduled Caste separately. Scheduled Castes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents castewise break-up of the material presented in Table C-VIII (Part A). The last group of castes "not stated" is of persons who were returned as belonging to Scheduled Castes but in whose case the name of the Scheduled Caste concerned had not been stated in the Census.

101. Columns (28) to (31) present Scheduled Castewise figures of persons engaged in unwholesome occupations like tanning, currying of hides and skins and scavenging. The number of workers shown in these occupations as well as in any other category is on the basis of principal work. Persons engaged in cultivation or any other activity as principal work and also engaged in tanning, currying or scavenging as secondary work are not included in the figures of columns (28) to (31).

102. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

103. There are some more castes declared as Scheduled Castes for the district. They are not shown in this table because no one belonging to those castes was enumerated in 1961 Census in the district.

Table SCT-I-B

104. This table presents the distribution of Scheduled Tribes population by economic activity. Material is presented for the total of all Scheduled Tribes as well as for each Scheduled Tribe separately. Scheduled Tribes are arranged in the alphabetical order. Classification by economic activity is in the same nine categories as in the Primary Census Abstract and Tables B-I and B-II. In a way, this table presents tribewise break-up of the material presented in Table C-VIII (Part B). The last group of tribes "not stated" is of persons who were returned as belonging to Scheduled Tribes but in whose case the name of the Scheduled Tribe concerned had not been stated in the Census.

105. The material is presented for total, rural and urban areas of the district separately and only for rural areas for each taluka.

106. There are some more Scheduled Tribes declared as Scheduled Tribes for the district. They are not shown in this table because no one belonging to those tribes was enumerated in 1961 Census in the district.

Table SCT-III-A (i)

107. This table presents the distribution of each Scheduled Caste population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-A (ii)

108. This table presents the distribution of each Scheduled Tribe population by sex and educational levels. The table presents material for the district urban area only. The classification of educational levels is the same as in Tables B-III and C-III applicable for urban areas.

Table SCT-III-B (i)

109. This table presents the distribution of population for each Scheduled Caste by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-III-B (ii)

110. This table presents the distribution of population for each Scheduled Tribe by educational levels only for the district rural area. The classification by educational levels is somewhat reduced than that of Table SCT-III (Part A).

Table SCT-V-A

111. This table presents the distribution of sample Scheduled Caste households of the district (Rural) by interest in land cultivated and by size of land cultivated. The interests in land cultivated are shown in three categories :—

(i) entirely owned or held from Government ;
(ii) entirely held from private persons or institutions for payment in money, kind or share; and
(iii) partly held from Government and partly from private persons, etc.

Classification by size of land cultivated is the same as in the B Series household economic tables. Material here is presented only for the district rural and for all the Scheduled Castes as a group. The table is prepared from the household schedules on a 20 per cent sample.

Table SCT-V-B

112. This table for Scheduled Tribes (same as Part A) is presented only for the district rural. The table is prepared from the household schedules on a 20 per cent sample.

Table SC-I

113. This table presents the total non-working population of all the Scheduled Castes as a group classified by four categories of non-workers, *viz.*—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The non-working population is further classified by educational levels. The material is presented for the district only but for total, rural and urban areas separately.

Table ST-I

114. This table presents the distribution of population of each Scheduled Tribe by mother-tongue and the subsidiary languages spoken. Material is presented only for the district but for total, rural and urban areas separately. Scheduled Tribes are arranged in their alphabetical order and mother-tongues when there are more than one for any Scheduled Tribe are also shown in the alphabetical order.

Tabie ST-II

115. This table presents the total non-working population of each Scheduled Tribe classified by four categories of non-workers, *viz.*—

(i) full-time students ;
(ii) persons seeking employment for the first time ;
(iii) persons employed before but now out of employment and seeking work ; and
(iv) others.

The material is presented for the district only but for total, rural and urban areas separately.

E SERIES

HOUSING TABLES

116. There are five tables in this Series. Four of them relate to housing conditions and furnish data on the purposes for which the houses are used, the tenures on which they are occupied by the households, material of construction of walls and roofs and the distribution of households by the number of rooms occupied. The last table relates to industries and shows the number of establishments and the number of workers for each industry classified by industry division, major groups and minor groups. Another Table (E-III) on industrial establishments prepared from the houselists gives a break-up by industry and the fuel used cross tabulated by the size of the establishments. It is not presented here for want of space. It may be seen in Part IV of the Maharashtra Census Report.

117. All the five tables of this Series are prepared from the houselists which were prepared at the time of numbering of houses in September-October of 1960. Such data on housing conditions are furnished here for the first time.

118. A "house" was defined for purposes of the Census as "a structure or part of a structure inhabited or vacant, a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., having a separate entrance. The entrance may be directly on the road, street, or lane or to a common staircase, courtyard or a gate".

Table E-I

119. This table presents the distribution of houses classified by uses to which they are put to. The various uses are shown in columns (4) to (16). Houses which were not being used for any purpose at the time of houselisting were treated as vacant. A "workshop" is a place where some kind of production, processing, repairs or servicing of goods goes on a commercial scale. Manufacturing or processing establishments registered under the Factories Act are treated as factories. When a house was used both as a shop and as a dwelling or workshop and as a dwelling it is treated as a shop-*cum*-dwelling or workshop-*cum*-dwelling. The houses which were used as schools, offices, factories or restaurants and also used by some people for residence, have been treated for purposes of this table as schools, offices, factories or restaurants and not as school-*cum*-dwelling, office-*cum*-dwelling and so on.

120. The last category of " Others " includes all purposes not included in columns (4) to (15) prominent among them being cattle-sheds, garages, show-rooms, locked houses, etc. Table E-I presents material for the district and each taluka and for total, rural and urban areas separately. The table is prepared from the houselists on a full count.

Table E-II

121. This table presents the distribution of sample households by the tenure of houses occupied by them. Tenure here is of only two kinds, owned or rented. " Rent free " or " Caretaker " occupation is included in the " Rented " category. The houses occupied under each tenure are further classified by the nature of uses such as dwellings, shop-*cum*-dwellings, etc. Tenure of occupation of non-residential houses such as schools, hospitals, etc., is not shown here.

122. This table is prepared from the houselists and on a 20 per cent sample.

123. Material is presented for the district and each taluka and for total, rural and urban areas separately.

Table E-IV

124. This table presents distribution of sample houses used wholly or partly as dwelling by material of wall and material of roof. The material of wall is the material out of which most of the walls of the house are constructed. Where a house has separate portions each of different material, the material of the walls for this table is the one out of which the walls of the main bed-rooms are constructed. Similarly, the material of roof is one out of which most of the roof exposed to weather is constructed. In case of multi-storeyed buildings, the intermediate floor is treated as the roof of the lower storey.

125. Material is presented here for the district and each taluka and for total, rural and urban areas separately. This table is prepared from the houselists on a 20 per cent sample.

Table E-V

126. This table presents the distribution of sample households classified by the number of rooms occupied. For each class of households the total number of members of the households is shown by males and females separately. This will help measure congestion or overcrowding particularly in urban areas.

127. The table is prepared from the houselists on a 20 per cent sample. The material is presented for the district and each taluka and for total, rural and urban areas separately.

128. The table relates only to the family households. Institutional households like hostels, boardings, prisons, etc., are not shown here.

129. A " room " has four walls with a door and a roof overhead and is not less than $6' \times 6'$. Unenclosed verandah, kitchen, store, garage, cattle-shed, etc., though used for residential purposes are not treated as rooms. Households residing in such places are shown in columns (7) to (9) as having no regular room.

Table on Industrial Establishments and Workers

130. This is a very important table and presents the number of establishments and number of workers for each branch of industry classified by industry divisions and minor groups according to the Standard Industrial Classification (Appendix I). For each industry division, minor group figures are shown in the brackets first for the number of establishments and second for the number of workers.

131. The table is prepared from the houselists on a full count. Material is presented here for the district and talukas for total, rural and urban areas as well as *for each village and town* separately. The presentation is in the run-on style and the villages are shown both by their names and code numbers. These latter will help locate them in the taluka maps included in Part I. Villages which do not have any industrial establishments are not shown here. Similarly, for any village, town or taluka, the industry minor codes for which there are no establishments are not shown in the table.

132. The material presented here relates to September-October of 1960. Establishments where processing, repairing or servicing of goods is done are also included along with the manufacturing establishments. The number of workers shown here includes the proprietor and/or the other household members if any were working in the industry during the week preceding the enumerator's visit.

133. The list of industries presented here may not include some seasonal industries which were not actually working during the period when houselists were prepared, *viz.*, September-October 1960.

APPENDIX I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups
343 Minor Groups

The divisions, major groups and minor groups with their Code numbers, are listed below:—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary Services
6	Trade and Commerce
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and Hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Division 2 and 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing
31	Leather and leather products
32	Rubber, Petroleum and coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal
36	Basic Metals and their products except machinery and transport equipment
37	Machinery (all kinds other than Transport) and Electrical equipment
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water-supply and Sanitary Services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport.
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services

Division 8—Services—*concld.*

83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

MINOR GROUPS

Major Group Code (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops*—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize.	000
	Production of pulses, such as arhar, moong, masur, urid, khesari, other gram.	001
	Production of raw jute and kindred fibre crops.	002
	Production of raw cotton and kindred fibre crops.	003
	Production of oilseeds, sugarcane and other cash crops.	004
	Production of other crops (including vegetables) not covered above.	005
	Production of fruits and nuts in plantation, vines and orchards.	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above.	009
01	*Plantation Crops*—	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium..	014
	Production of other plantation crops not covered above.	015
02	*Forestry and Logging*—	
	Planting, replanting and conservation of forests.	020
	Felling and cutting of trees and transportation of logs.	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests.	023
	Production of fodder by exploitation of forests.	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests.	025
	Production and gathering of other forest products not covered above.	026
03	*Fishing*—	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, ponds.	032

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 0—Agriculture, livestock, forestry, fishing and hunting—*concld.*	
04	*Livestock and Hunting*—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat.	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig.	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming.	043
	Rearing of bees for the production of honey, wax and collection of honey.	044
	Rearing of silk worms and production of cocoons and raw silk.	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth.	048
	Division 1—Mining and Quarrying	
10	*Mining and Quarrying*—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone.	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt.	109
	Division 2 and 3—Manufacturing	
20	*Foodstuffs*—	
	Production of rice, atta, flour, etc., by milling, de-husking and processing of crops and food-grains.	200
	Production of sugar and syrup from sugarcane in mills.	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish.	204
	Production of bread, biscuits, cake and other bakery products.	205
	Production of butter, ghee, cheese and other dairy products.	206
	Production of edible fats and oils (other than hydrogenated oil).	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.	209
21	*Beverages*—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice.	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water ..	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
22	*Tobacco Products*—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco.	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine.	239
24	*Textile—Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta.	244
25	*Textile—Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products.	270
	Manufacture of hosiery and other knitted fabrics and garments.	271
	Embroidery and making of crepe lace and fringes.	272
	Making of textile garments including raincoats and headgear.	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin.	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling.	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above.	279

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
28	*Manufacture of Wood and Wooden Products—*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys, artwares.	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest.	286
	Manufacture of boxes and packing cases other than plywood.	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products.	288
	Manufacture of other wood and allied products not covered above.	289
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals.	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303
31	*Leather and Leather Products—*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather.	310
	Manufacture of shoes and other leather footwear.	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur.	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear.	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose.	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries.	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere.	326

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*contd.*	
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes.	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fireworks.	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaccutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds.	336
	Manufacture of turpentine, synthetic resin and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles.	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing.	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355.	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified.	359
36	*Basic Metals and their Products except Machinery and Transport Equipment—*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms.	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate.	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can.	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 2 and 3—Manufacturing—*concld.*	
37	*Machinery (All kinds other than Transport) and Electrical Equipment—*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery.	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories.	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone.	378
	Manufacture of electric machinery and apparatus, appliances not specified above.	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives.	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363.	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines).	382
	Manufacture of motor vehicles engines parts and accessories.	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear.	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines.	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles.	389
39	*Miscellaneous Manufacturing Industries—*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies.	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies.	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals.	393
	Manufacture and tunning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen.	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group.	399
	Division 4—Construction	
40	*Construction—*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations.	400
	Construction and maintenance of roads, railway bridges, tunnels.	401
	Construction and maintenance of telegraph and telephone lines.	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells.	403

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas—*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers.	502
51	*Water Supply and Sanitary Services—*	
	Collection, purification and distribution of water to domestic and industrial consumers.	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation.	511
	Division 6—Trade and Commerce	
60	*Wholesale Trade—*	
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere).	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products.	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water.	603
	Wholesale trading in intoxicants such as wines, liquors.	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products.	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder ..	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle.	611
	Wholesale trading in toilets, perfumery and cosmetics.	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware.	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings.	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products.	616
	Wholesale trading in petrol, mobil oil and allied products.	617
	Wholesale trading in other household equipment not covered above.	618
62	Wholesale trading in bricks, tiles and other building materials.	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products.	621
63	Wholesale trading in paper and other stationery goods.	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical.	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb.	632
	Wholesale trading in all kinds of transport and storage equipment.	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment.	636
	Wholesale trading in scientific, medical and surgical instruments.	637
	Wholesale trading in precious metals and stones, gold and silverware and jewellery.	638
	Wholesale trading in all goods not covered above.	639

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*contd.*	
64	*Retail Trade—*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry.	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water.	641
	Retail trading in intoxicants such as wines, liquors.	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products.	644
	Retail trading in fuel such as coke, coal, firewood and kerosene.	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, ready-made garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles).	650
	Retail trading in toilet goods, perfumes and cosmetics.	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals.	653
	Retail trading in tyres, tubes and allied rubber products.	654
	Retail trading in petrol, mobil oil and allied products.	655
66	Retail trading in wooden, steel and other metallic furniture and fittings.	660
	Retail trading in stationery goods and paper..	661
	Retail trading in metal, procelain and glass utensils.	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above.	664
67	Retail trading in bricks, tiles and other building materials.	670
	Retail trading in hardware and sanitary equipment.	671
	Retail trading in wood, bamboo cane, bark and thatches.	672
	Retail trading in other building materials ..	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances.	680
	Retail trading in transport and storage equipments.	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear.	683
	Retail trading in clock and watch, eye glass, frame.	684
	Retail trading in scientific, medical and surgical instruments.	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing.	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities.	690
	Real estate and properties	691
	Stocks, shares and futures	692

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 6—Trade and Commerce—*concld.*	
69	*Trade and Commerce Miscellaneous*—concld.	
	Providents and insurances	693
	Money-lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Division 7—Transport, Storage and Communication	
70	*Transport—*	
	Transporting by railways	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus).	702
	Transporting by road through other means of transport such as hackney carriage, bullock-cart, ekka.	703
	Animal transporting by animals such as horses, elephant, mule, camel.	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving.	705
	Transporting by boat, steamer, ferry, etc., by river, canal.	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean.	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	*Services incidental to transport—*	
	Such as packing, carting travel agency.. ..	710
72	*Storage and Warehousing—*	
	Operation of storage such as warehouses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type	722
73	*Communication—*	
	Postal, telegraphic, wireless and signal communications.	730
	Telephone communication	731
	Information and broadcasting	732
	Division 8—Services	
80	*Public Services* (This does not include Govt., quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups).	
	Public Services in Union and State army including territorial corps and volunteer corps.	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government.	804
	Public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81	*Educational and Scientific Services—*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions.	810

Major Group (Code) (1)	Description (2)	Minor Group (Code) (3)
	Division 8—Services—*contd.*	
81	*Educational and Scientific Services*—concld.	
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type.	811
	Scientific services and research institutions not capable of classification under any individual group.	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homoeopathic practitioners.	820
	Veterinary services rendered by organisations and individuals.	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations.	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk.	831
	Welfare services rendered by organisation operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity.	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi.	840
	Matrimonial services rendered by organisations and individuals.	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals.	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals.	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies.	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors.	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations.	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library.	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures.	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals.	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing.	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks.	880
	Services rendered to households such as those by governess, tutor, private secretary.	881
	Services rendered by hotels, boarding houses, eating-houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities.	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services.	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops.	884
	Services rendered by portrait and commercial photographic studios.	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified.	890
	Division 9—Activities not adequately described	
90	*Activities unspecified and not adequately described*—	
	Including activities of such individulas who fail to provide sufficient information about their industrial affiliation to enable them to be classified.	900
	Fresh entrants to the Labour Market	999

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into

11 Occupational Divisions (one-digit code numbers)

75 Occupational Groups (two-digit code numbers)

Note.—n. e. c.=not elsewhere classified.

DIVISIONS

0 Professional, technical and related workers

1 Administrative, executive and managerial workers

2 Clerical and related workers

3 Sales workers

4 Farmers, fishermen, hunters, loggers and related workers

5 Miners, quarrymen and related workers

6 Workers in transport and communication occupations

7-8 Craftsmen, production process workers and labourers not elsewhere classified

9 Service, sport and recreation workers

X Workers not classifiable by occupations

DIVISIONS AND GROUPS

00 Professional, Technical and Related Workers

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists
02 Biologists, Veterinarians, Agronomists and Related Scientists
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians
05 Teachers
06 Jurists
07 Social Scientists and Related Workers
08 Artists, Writers and Related Workers
09 Draughtsmen, Science and Engineering Technicians, n. e. c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-Keepers and Cashiers
21 Stenographers and Typists
22 Office Machine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Money Lenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related Workers
44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatsmen.
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers, Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport
67 Telephone, Telegraph and Related Telecommunication Operators
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers and Labourers not elsewhere classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers
73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers
76 Electricians and Related Electrical and Electronics Workers
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n. e. c.
80 Compositors, Printers, Engravers, Book Binders and Related Workers
81 Potters, Kilnmen, Glass and Clay Formers and Related Workers
82 Millers, Bakers Brewmasters and Related Food and Beverage Workers
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n. e. c.
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers
89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers, Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers
93 Building Caretakers, Cleaners and Related Workers
94 Barbers, Hairdressers, Beauticians and Related Workers
95 Launderers, Dry Cleaners and Pressers
96 [illegible] Related Workers
97 [illegible] Camera Operators
99 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupations

X0 Workers without occupations
X8 Workers Reporting Occupations Unidentifiable or Unclassifiable
X9 Workers not Reporting Occupations

APPENDIX III

Common Household Industries with their Industrial Code Numbers

Note—n. e. c.=not elsewhere classified

Industrial Code Number	Household Industry
Major Group 00—Field Produce and Plantation Crops	
005·1	Production of Vegetables
005·2	Production of roots, etc., not included above
006·1	Production of fruits and nuts in plantation, vines and orchards
006·2	Production of copra (from coconuts)
007·1	Production of thatching grass
007·2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)
008·1	Production of juice (Neera) by tapping coconut trees
008·2	Production of juice by tapping other palms like date, Palmyra n. e. c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above
Major Group 01—Plantation Crops	
013	Production of tobacco in plantation
015·1	Pan Cultivation
015·2	Plantation crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan
Major Group 02—Forestry and Logging	
023·1	Production of Charcoal
023·2	Production of other fuels by exploitation of forests
024	Production of fodder by exploitation of forests
025·1	Production of Kathha
025·2	Production of Lac
025·3	Production of gum
025·4	Production of resins, barks, herbs, wild fruits, berries and leaves, etc., n. e. c.
026	Production and gathering of other forest products not covered above
Major Group 03—Fishing	
030	Production of fish by fishing in sea
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries.
032	Production of pearls, conch shells, sponges, sea herbs, corals, etc., by gathering or lifting from sea, river, pond
Major Group 04—Livestock and Hunting	
040·1	Rearing of goat for milk and animal power
040·2	Rearing of buffalo for milk and animal power
040·3	Rearing of cows for milk and animal power
040·4	Rearing of camels and other big domestic animals
040·5	Production and rearing of livestock mainly for milk and animal power n. e. c.
041·1	Sheep breeding and rearing
041·2	Production of wool
042·1	Rearing and production of pigs and goats (mainly for slaughter)
042·2	Rearing and production of other animals (mainly for slaughter) n. e. c.
043·1	Poultry keeping and production of eggs
043·2	Rearing and production of ducks, hens, etc., and other small birds, *e.g.*, pigeons, parrots, peacock, maina, etc.
044·1	Bee keeping for production of honey and wax
044·2	Collection of wax and honey
045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk
046·1	Dog breeding, rearing of rabbits and guinea-pigs
046·2	Rearing of other small animals and insects n. e. c.
048·1	Collection of bones
048·2	Manufacture of glue from animal carcasses.
048·3	Manufacture of gut
048·4	Production of other animal husbandry products such as skin, ivory, teeth and hair, etc.

Industrial Code Number	Household Industry
Major Group 10—Mining and Quarrying	
107·1	Extraction of chalk
107·2	Quarrying of lime-stone
107·3	Stone and slate quarrying
107·4	Quarrying of sand, clay, gravel, etc., n. e. c.
Major Group 20—Foodstuffs	
200·1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram, etc.
200·2	Hand pounding of rice by Dhekhi or Ukhal
200·3	Production of rice by milling, dehusking and processing of paddy by rice mill.
200·4	Grinding of chillies, turmeric, etc.
200·5	Production of pulses
200·6	Parching of grains
200·7	Production and processing of other crops and foodgrains n. e. c.
202·1	Gur and Khandsari making from sugarcane and palm
202·2	Production of bhoora and candy
202·3	Production of jaggery from coconut and palmyra juice (neera)
202·4	Production of other indigenous products from sugar and jaggery n. e. c.
203·1	Manufacture of achar, pickles, chutney and murabba
203·2	Production of sauce, jam and jelly
203·3	Processing of cashewnut
203·4	Manufacture of kokam products
203·5	Fruit preservation (canning of fruits)
203·6	Making dried vegetables
203·7	Production of other fruit products and preservation of fruits n. e. c.
204·1	Slaughtering, preservation of meat and fish and canning of fish
204·2	Fish currying or curing and salting (currying applies more to skin and hide)
205	Production of bread, biscuit, cake and other bakery products
206	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products
207	Oil pressing ghani, kolhu or by small machines
209·1	Confectionery
209·2	Making of sweetmeats, laddu, peda, barphi, batasa, etc.
209·3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam, etc.
209·4	Making of chura or chira, muri, murki, khoi
209·5	Making of chat
209·6	Making of dalmot, chanachur (jor) garam, rewari, etc.
209·7	Making of other food products for residuary snacks
209·8	Production of other food products like cocoa, chocolate, toffee, lozenge
Major Group 21—Beverages	
210·1	Manufacture of vinegar from coconut juice (neera)
210·2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery
211	Production of country liquor from material obtained from sources other than trees and shrubs
212·1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees
212·2	Production of other indigenous liquors from other materials from trees and shrubs
214·1	Production of mineral water
214·2	Production of aerated water such as sodawater, lemonade, etc.
215	Production of ice
216	Production of ice-cream, ice-candy or kulphimalai, milk-shake, etc.
218	Grinding of Coffee
219·1	Preparation of sharbats and squashes
219·2	Preparation of jeerapani
219·3	Production of other beverages n. e. c.

Industrial Code Number	Household Industry
Major Group 22—Tobacco Products	
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
223	Manufacture of hookah tobacco
224	Manufacture of snuff
225	Manufacture of jerda, kimam, khaini and other chewing tobacco
226	Manufacture of other tobacco products n. e. c.
Major Group 23—Textile—Cotton	
230	Cotton ginning, cleaning, carding, pressing and baling
231	Cotton spinning (by charkha and takali)
233·1	Dyeing of cloth (cotton) and yarn
233·2	Bleaching of cloth (cotton) and yarn
233·3	Tie and dye (bandhani) of cloth and yarn
234	Cotton cloth weaving in powerlooms
235	Cotton cloth weaving in handlooms
236	Manufacture of khadi textile in handlooms
237	Printing of cloth (cotton)
238·1	Making of fishing net
238·2	Making of mosquito net
238·3	Making of other nets
239·1	Making of sacred thread
239·2	Making of thread, rope, cordage and twine (cotton)
Major Group 24—Textile—Jute	
240	Jute pressing and baling
241	Jute spinning and weaving of mats, asanis, etc.
242	Dyeing and bleaching of jute
244·1	Making of rope and cordage, out of hemp
244·2	Making of rope and cordage, out of jute
244·3	Making of rope by palm fibre
244·4	Making of rope by date palm fibre
244·5	Making of fibre, sunn-hemp fibre
244·6	Making of other products from jute and similar fibres such as hemp, mesta
Major Group 25—Textile—Wool	
350	Wool baling and pressing
251	Cleaning, sorting, carding, scouring and processing of wool
253	Spinning of wool by charkha or takali
254	Weaving of woollen cloth in powerloom such as blankets, asanis, etc.
255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
256·1	Embroidery with various colours, combinations of various threads and art work in woollen textile
256·2	Shawls (with traditional borders)
Major Group 26—Textile—Silk	
261	Dyeing and bleaching of silk
262·1	Spinning of tussar, other than in mills
262·2	Spinning of eri, other than in mills
262·3	Spinning of silk, other than in mills n. e. c.
263·1	Weaving of Traditional silk (Atlas) by powerloom
263·2	Weaving of tussar by powerloom
263·3	Weaving of eri by powerloom
263·4	Weaving of silk and artificial silk in powerloom n. e. c.
264·1	Weaving of mashru, himroo, brocade, kinkhab by handloom
264·2	Weaving of silk and artificial silk in handloom n. e. c.
265	Printing of silk textile
266·1	Goaf making
266·2	Making of silk cordage, rope and twine n. e. c.
Major Group 27—Textile—Miscellaneous	
270·1	Making of durries
270·2	Making of carpets and druggets
270·3	Manufacture of other similar textile products n. e. c.
271·1	Making of hosiery goods such as banyans, socks, sweaters, mufflers, etc.
271·2	Making of nalas and azarbands
271·3	Making of parandas and chootelas

Industrial Code Number	Household Industry
Major Group 27—Textile—Miscellaneous—*concld.*	
271·4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.
272·1	Embroidery and making of phulkari
272·2	Making of jari thread, zardoshi
272·3	Traditional embroidery
272·4	Patchwork embroidery
272·5	Lace garland making
272·6	Making of fringes and crepe laces
272·7	Making of kargota, main garlands, shell garlands, etc.
272·8	Making of other embroidery products n. e. c.
273·1	Making of cap, hat and other headgear
273·2	Traditional garments
273·3	Chrochet work (bora caps)
273·4	Making of textile garments including raincoats and headgears n. e. c.
274·1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.
274·2	Making of newar
274·3	Manufacture of other made-up textile goods like mattress, quilt, rezai, etc., n. e. c.
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin, etc.
276·1	Making of namda felt
276·2	Making of suzani (padded quilts)
276·3	Processing of coconut fibre for upholstery
276·4	Handicraft articles made of flax and fibre
276·5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
277·1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre
277·2	Making of brush, broom, etc., from coconut fibre
277·3	Coir spinning
277·4	Coconut curing
277·5	Other allied products of coir industry n. e. c.
278	Manufacture and repair of umbrellas
279·1	Making of daura (thread), batua, cotton thread, buttons
279·2	Manufacture of dolls and toys (rags and cotton)
279·3	Manufacture of other textile products not elsewhere classified
Major Group 28—Manufacture of Wood and Wooden Products	
280	Sawing, planing and milling of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
283·1	Carpentry works concerned with repairs of agricultural implements (wood)
283·2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
284·1	Lecquerware (if on wood)
284·2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
284·3	Manufacture of wooden toys
284·4	Sandalwood and other wood carving
284·5	Bead making from wood
284·6	Sawdust and plaster figure making
284·7	Marquetry boxes (inlay work)
284·8	Manufacture of photo frames and framing of photo paintings, etc.
284·9	Manufacture of other wooden products n. e. c.
285	Manufacture of match splinters, plywood and veneers
287	Manufacture of boxes and packing cases other than plywood
288·1	Making of box from moonj grass
288·2	Making of rope mats, etc., from moonj and sawai grass and making of cadjar for thatching purposes
288·3	Making of mats, handfans and umbrellas from palm leaves
288·4	Making of sirki, moora and chhaj
288·5	Making of baskets and broomsticks
288·6	Making of donas (drone) and pattals (patravali) from leaves

Industrial Code Number	Household Industry
Major Group 28—Manufacture of Wood and Wooden Products—*concld.*	
288.7	Caning of chairs
288.8	Making of chicks, cuscus-tati and fans, sticks and poles from bamboo
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n. e. c.
289.1	Making of sticks and poles from wood
289.2	Making of wooden kharaus and other wooden sandals
289.3	Making of cartwheels
289.4	Manufacture of other wood and allied products n. e. c.
Major Group 29—Paper and Paper Products	
291	Manufacture of pulp and paper by hand
292.1	Making of envelopes and paper bags
292.2	Papier mache articles
293.3	Making of kite
292.4	Paper decorations for homes
292.5	Making of card-board boxes and cards
292.6	Making of paper toys
292.7	Making of paper flowers, etc.
292.8	Manufacture of other paper products from paper, paper board and pulp n. e. c.
Major Group 30—Printing and Publishing	
301	Printing and publishing of books.
302.1	Printing works, printing of handbills, invitation cards, etc.
302.2	Lithography, engraving, etching, block making, type cutting and other work connected with printing industry
303	Book binding, stitching, sizing and other work connected with book binding industry
Major Group 31—Leather and Leather Products	
310.1	Flying, processing of hides and skins including taxidermy
310.2	Currying, tanning and finishing of hides and skins, preparation of finished leather
310.3	Stuffed animals.
311.1	Making of leather boots, shoes or chappals (slippers, sandals)
311.2	Making of Poola shoes
311.3	Manufacture of other footwear n. e. c.
312	Making of clothing and wearing apparel (except footwear), made of leather and fur
313	Manufacture of leather products such as leather upholstery suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip, acquaducts (Kos), charsa and other articles
314	Repair of shoes, chappals and other leather footwear
315	Repair of all other leather products except footwear
Major Group 32—Rubber, Petroleum and Coal Products	
320	Vulcanising tyres and tubes
321	Manufacture of chappals from torn tyres and other rubber footwear
322	Manufacture of rubber products from natural and synthetic rubber including raincoats, oil cloths, waterproof cloths, etc.
Major Group 33—Chemicals and Chemical Products	
331.1	Manufacture of dyes, paints, colours, abir, sindoor, varnish, etc.
331.2	Manufacture of indigo
332	Manufacture of fertilizer (including from bones).
333	Manufacture of fireworks and other explosives such as *pataka*, etc.
334	Manufacture of matches
335.1	Manufacture of incense and perfumes.
335.2	Manufacture of Agarbatti
335.3	Manufacture of rose water
335.4	Manufacture of powder, snow cream, bindi, tikali, hair oil and nail polish
335.5	Manufacture of kumkum and hinglo
335.6	Manufacture of mascara and kajal

Industrial Code Number	Household Industry
Major Group 33—Chemicals and Chemical Products —*concld.*	
335.7	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations
335.8	Manufacture of perfumes, cosmetics and other toilet preparation n. e. c.
336.1	Manufacture of soap and washing soda.
336.2	Manufacture of other washing and cleaning compounds n. e. c.
337.1	Manufacture of plastic toys
337.2	Making of plastic buttons
337.3	Manufacture of other plastic goods
337.4	Making of celluloid goods
337.5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
338	Salt production.
339.1	Manufacture of ink including fountain pen ink.
339.2	Making of candles
339.3	Making of tooth powder
339.4	Making of boot polish and inedible oils, etc.
339.5	Manufacture of other chemicals products n. e. c.
Major Group 34-35—Non-metallic Mineral Products other than Petroleum and Coal	
340.1	Making of bricks
340.2	Manufacture of roofing tiles
340.3	Manufacture of other clay products n. e. c.
341.1	Manufacture of cement door frames and sanitary fittings
341.2	Manufacture of cement jali and tiles
341.3	Making of cement statues
341.4	Making of cement products n. e. c.
342.1	Manufacture of lishu
342.2	Manufacture of lime
343.1	Stone carving
343.2	Marble carving
343.3	Granite carving
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n. e. c.
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone
345	Manufacture of stone images and toys.
346.1	Making of images from soap stone.
346.2	Manufacture of images, toys and other articles of plaster of paris
348.1	Mica splitting
348.2	Manufacture of mica products, including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353.1	Making of glass bangles
353.2	Making of glass beads
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356.1	Making of earthen toys and artware
356.2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment	
360.1	Re-rolling of M. S. Rods
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc., such as billets, blooms, tubes, rods n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture.
365.1	Making of utensils of brass and bell metal
365.2	Making of brassware
365.3	Making of bottom part of hookha from brass and bell metal

Industrial Code Number	Household Industry
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment—*concld.*	
365·4	Making of brass and bell metal ornaments
365·5	Making of other brass and bell metal products n. e. c.
366·1	Making of aluminium utensils
366·2	Making of other aluminium products n. e. c.
367·1	Making of tin utensils
367·2	Making of articles from tin sheets
367·3	Copper utensils
367·4	Bronze works including bronze images, medals and articles of alloys
367·5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n. e. c.
368·1	Lacquerware (if on metal)
368·2	Nickel plating and electroplating
368·3	Engraving, embossing, polishing and welding of metal products
368·4	Enamelling and galvanizing of metal products
368·5	Plating and electroplating of metal n. e. c. including silverplating, goldplating, E. P. N. S., etc.
369·1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal, etc.
369·2	Manufacture of light engineering goods including bolts and screws
369·3	Making of iron utensils (*e.g.*, buckets, etc.) and articles from iron sheets
369·4	Making and repairing of locks and trunks
369·5	Cutlery
369·6	Manufacture of pins
369·7	Manufacture of scales, weights and measures
369·8	Foundry Industry (including blacksmithy)
369·9	Manufacture of other sundry hardware such as G. I. pipe, wire net, etc., n. e. c.
Major Group 37—Machinery (All kinds other than Transport) and Electrical Equipment	
370	Manufacture of mechanical water pumps, tube well pumps, air pumps, etc.
372	Manufacture of small machine tools and machine parts
373	Manufacture of sewing machine parts
375	Repairing and servicing of fans
376	Manufacture of insulated wires
377·1	Manufactre of storage batteries
377·2	Manufacture of charging batteries
377·3	Manufacture of other batteries n. e. c.
378	Repairing and servicing of radios
379·1	Manufacture of domestic electrical appliances
379·2	Repairing and servicing of electrical apparatus, heaters, oven, etc.
Major Group 38—Transport Equipment	
382	Manufacture of body of trucks and buses including carpentry and joinery work involved
384	Repairing and servicing of automobiles

Industrial Code Number	Household Industry
Major Group 38—Transport Equipment—*concld.*	
385·1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear, etc.
385·2	Manufacture of rickshaw parts
386	Manufacture of boats and barges
388	Repair of cycle and rickshaw
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki, cab, wheelbarrow, handbarrow, etc.
Major Group 39—Miscellaneous Manufacturing Industries	
390·1	Repair of spectacles
390·2	Manufacture of small photographic equipment
390·3	Manufacture of optical and photographic equipment n. e. c.
391	Manufacture of scientific goods
392	Repairing and servicing of watches and clocks
393·1	Inlay work with ivory and brass
393·2	Goldsmithy
393·3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
393·4	Silver artware, including Silver repousse work on copper (such as in Tanjore) and silver images.
393·5	Silver filigree industry
393·6	Manufacture of gold and silver leaves
393·7	Gold covering work (fancy jewellery)
393·8	Bidriware industry
393·9	Manufacture of jewellery, silverwares, etc., n. e. c.
394	Manufacture, repairing and tunning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
395·1	Manufacture of chalk pieces
395·2	Making of slate and slate pencil
395·3	Making of rubber stamps
395·4	Manufacture of fountain pen parts
395·5	Manufacture of other stationery articles such as pencils, penholders, etc.
396·1	Manufacture of deshi sports goods such as lezzim and dumbells.
396·2	Making of rubber balls and balloons
396·3	Manufacture of other sports goods n. e. c. bats, rackets balls, etc.
399·1	Making of tikka and cowdung cakes
399·2	Making of beads from conch shells and horn goods
399·3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings, etc.
399·4	Making of lac bangles
399·5	Making of buttons (bone, shell, ivory)
399·6	Making of gangavan (making of wig from human hair).
399·7	Making of garlands from flowers, camphor, sandalwood shavings, seeds and other materials like beads, etc.
399·8	Repair of petromax lights, etc.
399·9	Making and repairing of goods n. e. c.

J-857-II—15-B-(Jalgaon).

EXPLANATORY NOTE

The scope of the 1961 District Census Handbooks has been enlarged to include in this Part, Official Statistics on climate and rainfall, agriculture, industry, education, health and a few other topics. The material presented here was mainly collected and compiled by the District Statistical Officer, for this volume. The concerned Departments of the State and Central Governments have also been consulted. For most of the Tables the footnotes show the sources from which the material has been obtained.

2. There are 33 Tables in this Part. They may be broadly grouped as follows :—

(1) Climate and Rainfall—Tables 1 and 2.

(2) Agriculture—Tables 3 to 10.

(3) Industries—Tables 11 to 14.

(4) Education—Tables 15 and 16.

(5) Public Health—Tables 17 to 19.

(6) Miscellaneous—Tables 20 to 33.

(1) CLIMATE AND RAINFALL

Table 1

This table presents the highest and the lowest temperatures recorded at one or more stations in the district for all the 12 months for the years 1951 to 1960. Annual averages are shown in the last column.

Temperature data are maintained by the Meteorological Department and are published in their monthly weather reports and their summary which is published annually.

Table 2

This table shows monthly and annual rainfall and the number of rainy days for the various stations in the district. "Normal rainfall" [column (28)] is the average rainfall over a long period—usually 80 years. Where rainfall records over such a long period are not available it may be the average for a shorter period—in some cases even five years. Rainfall records are maintained at taluka headquarters, dispensaries and a few police stations where raingauges have been supplied. These statistics are published in Part III of the State Government Gazette and Annual Season and Crop Reports issued by the Department of Agriculture. They are subsequently consolidated and issued by the Meteorological Department in two annual publications, *viz.*, "Daily Rainfall of India" and "Monthly Rainfall of India".

Rainfall statistics are presented in this table separately for each of the ten years from 1951 to 1960.

(2) AGRICULTURE

Table 3

This table shows the utilisation of land and areas under various crops. Material is presented for the district as a whole and for each taluka separately. It is presented for ten years 1950-51 to 1959-60 :

(i) *Geographical area* : This area represents the total land area and is worked out from the Survey and Settlement Records. The changes in the geographical area from year to year may be due to territorial changes or corrections on account of adjustments in the areas of former unsurveyed villages which are now surveyed ;

(ii) *Forests* : This category includes all areas actually under forests whether State-owned or private and classed or administered as forests under any legal enactment dealing with the forests ;

(iii) *Barren and unculturable land* : This includes barren and unculturable lands like mountains, river beds, etc. (land which cannot be brought under cultivation unless at a very high cost) ;

(iv) *Culturable waste* : This includes lands which can be brought under cultivation but which have not been cultivated or having been cultivated for some time have not been cultivated successively for more than five years. Such lands may either be fallow or covered with shrubs ;

(v) *Permanent pastures and other grazing lands* : This includes all grazing lands whether they are permanent pastures and meadows or not ;

(vi) *Miscellaneous tree crops and groves not included in the net area sown* : This category includes lands under casuarina trees, thatching grass, bamboo bushes or other trees used for fuel, etc. Lands which are not included under orchards are included in this class. These are lands which are put to some agricultural use but whose area is not included in the net area sown ;

(vii) *Current fallows* : This includes lands which are left fallow during the current year only ;

(viii) *Other fallow land* : All lands which have been cultivated but which are temporarily out of cultivation for a period of not less than one year and not more than five years;

(ix) *Net area sown*: The net area sown is the actual area under crops counting areas sown more than once in the same year only once ;

(x) *Gross cropped area*: This is the sum of areas under all crops and represents the sum of net area sown and area sown more than once in the year.

After the land utilisation statistics under section A in column (1) the table presents in section B the details of areas under different crops. The crops are classified in two main groups, *viz.*, foodcrops and non-foodcrops. Foodcrops are further grouped by "cereals, pulses and others". Non-foodcrops are similarly shown under "oilseeds and others".

The data on land utilisation and areas under crops are primarily prepared by the village officials of the Revenue Department. They are subsequently consolidated by the Agriculture Department.

Talukawise land utilisation and crop statistics are being presented for the first time in this volume. They have not been published so far anywhere else.

Table 4

This table presents gross and net irrigated areas and the distribution of net irrigated area by sources of irrigation. To facilitate comparison, the gross cropped area is also shown in column (3). The data are presented for three years, *viz.*, 1951-52, 1955-56 and 1959-60. Presentation is for the district as a whole and for each taluka separately.

Table 5

This table shows the acreages of various crops under irrigation for each year from 1950-51 to 1959-60. To facilitate comparison, the gross cropped area and the gross irrigated area are presented in the beginning. This is followed by acreages under irrigation for each crop.

The material is presented for the district as a whole and for each taluka separately.

Sources for the district and talukawise material are different and there may, therefore, be a few small discrepancies between the two sets of figures.

Table 6

This table presents the outturn and average yields per acre of principal crops in the district. The crops presented are foodcrops like rice, wheat, jowar, bajri, ragi, maize, tur, gram and sugarcane and non-foodcrops like groundnut, sesamum, cotton and tobacco. Crops which are locally important are only shown in this table.

The outturn figures are in hundred tons while average yields are shown in pounds per acre.

The estimates of average yields and production in respect of rice, bajri, kharif and rabi jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted annually by the Agriculture Department. The estimates of yields for other remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers. The figures relate to the years 1950-51 to 1959-60.

Table 7

This table presents wholesale prices of principal crops. The material is presented for previous years by monthly averages and for the last year separately for each month. The prices shown are for the places having regulated markets or for the District Headquarters.

Table 8

This table presents harvest prices of principal crops. The "harvest price" is the average wholesale price at which the commodity is disposed of by the producer to the trader at the village site during the specified harvest period. These prices are published in the Season and Crop Reports. The figures relate to the years 1950-51 to 1959-60.

Table 9

This table presents figures for livestock and agricultural implements for the district and each taluka separately for three years : 1951, 1956 and 1961. The material is obtained from the three Livestock Censuses conducted in those years. The reference date to which the data relate is the 15th April of the concerned year.

"Poultry" in section B of the table includes hens, cocks, chicken, ducks, drakes and ducklets.

Section C presents statistics for agricultural implements. The figures for carts shown in the table are in respect of carts used for agricultural purposes only.

The number of tractors is inclusive of those owned by the Government and those owned by private persons.

The material is presented for the district as a whole and for each taluka separately.

Table 10

This table presents the distribution of the number of land holdings and their areas by size of holdings. The material has been taken from the census of agricultural holdings conducted in the year 1952-53 in different parts of the State.

The figures presented here are for ownership holdings and the area figures are in terms of converted dry acres, *i.e.*, calculated after giving due weightage for irrigated lands.

Where the district has undergone major changes because of the reorganisation of States in 1956 or 1960, the material relates to the area of the district as it existed in the year 1952-53.

(3) INDUSTRIES

Table 11

This table presents, for each industry, the total number of working factories, the number of man-days for which they worked during the year and the average daily number of workers employed classified by adults (18 years and above), adolescents (15 to 17 years) and children (14 or less). Statistics presented in columns (3) to (11) relate only to the reporting factories. The number of non-reporting factories and their estimated average daily number of workers are shown in columns (12) and (13). These details of factories are further split up by the type of industry shown under column (1) both by industry code and a brief description. The industry codes shown here (as well as in Table 12) are those used for compilation of data by the Chief Inspector of Factories. They are different from the Standard Industrial Classification used in the Census Tables and reproduced in Appendix I to the Explanatory Note to Part II.

The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

The word " factories " here includes only the registered factories. They are of three types—

(i) Factories using no power but employing 20 or more workers;

(ii) Factories using power and employing 10 or more workers; and

(iii) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factories Act.

The material presented in this table is for all the three types combined.

Table 12

This table presents the distribution of factories for each type of industry by size of employment. For each size group, the number of factories and their total working strength are shown for each industry separately. The material is presented only for the district as a whole and only for one year, *viz.*, 1961.

Table 13

This table presents the distribution of factories for each type of industry by the number of days worked during the year. The material is shown for each industry and the number of factories and their total workers are shown for each group of working periods. This will show the seasonal or perennial pattern of employment in industries in the district. Material is presented only for the district as a whole and relates to the year 1961.

Table 14

This table presents a summary of data regarding the manufacturing industries as obtained through the annual Census of Manufacturing Industries conducted during the year 1958.

The 1958 Census had covered only 29 important industries. It moreover covered only the factories using power and employing 20 or more workers.

The figures for capital, etc., relate to 31st December 1958. "Value" added by manufacture denotes the increase in the total value of commodities as calculated by deducting the cost of materials, supplies, containers, fuel, electric energy and depreciation of fixed assets from the total value of the products.

The table presents only the combined figures for the 29 industries covered in the 1958 Census.

(4) EDUCATION

Table 15

This table shows the number of different types of educational institutions in the district and the total number of pupils (boys and girls) and teachers for each type for the years 1951, 1956 and 1961. The material is presented for the district as a whole and for each taluka separately.

The number of institutions relates to the academic year ending June and the number of pupils is as on 31st March of the respective years.

Table 16

This table presents a list of colleges and high schools in the district with their locations. The material relates to 31st March 1961, and does not include institutions started after that date.

Lists are presented talukawise.

(5) PUBLIC HEALTH

Table 17

This table shows medical facilities available in the district. The material is presented for three years 1950, 1956 and 1960 and shows the number of hospitals, maternity homes, dispensaries, rural health centres, doctors, nurses, beds available and indoor and outdoor patients treated.

Material is presented for each taluka separately.

The material presented here includes only civil hospitals and Government dispensaries, Local or Municipal Funds institutions, private-aided or Railway dispensaries. It does not cover private unaided institutions run by individuals or associations. Similarly, the number of doctors, nurses or patients shown in this table does not include that relating to unaided hospitals, dispensaries or private practitioners.

Table 18

This table shows data about births, deaths and infant deaths for the years 1951 to 1960. Wherever possible, figures for each taluka are also shown separately. For the districts of Aurangabad and Nagpur divisions, material is available and presented only for the years 1957 and onwards.

The figures of infant deaths relate to deaths of children below one year.

The coverage and reporting on births, deaths and epidemic diseases in the rural areas are incomplete in many respects. The material presented in Tables 18 and 19 should not, therefore, be treated as any accurate representation of actual conditions in the district and should be used only after allowing a margin for those limitations. The Department of Public Health is working on many schemes to improve the present position in respect of vital statistics.

Table 19

This table shows the number of deaths due to principal causes in the district for the 10 years 1951 to 1960. The causes of deaths shown are cholera, smallpox, plague, dysentery and diarrhoea, fever, respiratory diseases and other causes. The figures of fevers include deaths due to enteric fever, cerebro-spinal fever, malaria, influenza, typhus, etc. Respiratory diseases include pneumonia, pulmonary tuberculosis, whooping cough, etc. In the other causes are included diphtheria, chicken-pox, poliomyelitis, leprosy, cancer, deaths from child birth, etc.

(6) MISCELLANEOUS

Tables 20 to 31

Tables 20 to 31 are self-explanatory and need no further clarification.

Table 32

This table presents talukawise lists of weekly markets. The table also shows the day on which the weekly bazar is held. Places where cattle bazars are held are also indicated. The list is based on the information collected from the Mamlatdar's offices and the Census enumerators' reports, prepared in September-October 1960.

Table 33

This table gives a talukawise list of villages where different religious or cultural fairs are held. The list includes only those fairs which have a congregation of 1,000 or more. Information regarding—

(i) Location Code Number,
(ii) the name of the village in which the fair is held,
(iii) distance from Railway station and S. T. Bus stop,
(iv) name of the fair, and month and date of the fair, and
(v) average congregation

is furnished for each fair separately.

The list is prepared on the basis of information collected from the District Superintendents of Police, Municipalities and the Census enumerators' reports. The number of people gathering at the fair is based on eye estimates and should be treated as a broad approximation.
