ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements, made by Sri A. Dar, Superintendent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Sri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

Lucknow
Dated : October 3, 1972.

D. M. SINHA
Director of Census Operations
Uttar Pradesh.

INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901, Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics, was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and non-Census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise Primary Census Abstract

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, Drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and Scheduled Castes/Scheduled Tribes.

Part B presents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, Scheduled Caste and Scheduled Tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc., in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. **Town Directory**—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three under mentioned conditions :
   (i) Population exceeds 5,000.
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(i) Primary Activities—Categories I, II, III & IV
(ii) Industry—Categories V (a), V (b), and VI
(iii) Trade and Commerce—Category VII
(iv) Transport—Category VIII, and
(v) Services—Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60

or above, the town is designated as bifunctional. If the total does not yield 60% the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc., have been indicated. The altitudes of the towns given in column 3 have been supplied by the Surveyor General of India.

(c) **Statement III**—It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the towns have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :—

Col.3	PR	...	For Pucca Road
	KR	...	,, Kachcha Road
Col.4	PT	...	,, Pit Tank
	OSD	...	,, Open surface drain
Col.8	B	...	,, Basket
	HC	...	,, Hand Cart
	HL	...	,, Head Load
	MT	...	,, Mechanical Transport
Col.9	TW	...	,, Tube well
	OHT	...	,, Overhead Tank

(e) **Statement V**—The medical, educational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col.3	H	...	For Hospital
	D	...	,, Dispensary
	HC	...	,, Health Centre
	FC	...	,, Family Planning Centre
	TBC	...	,, T.B. Clinic
	MCW	...	,, Maternity and Child Welfare Centre
Col.5	AS	...	,, Arts and Science College
Col.17	PL	...	,, Public Library
	RR	...	,, Reading Room

(f) **Statement VI**—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those

having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) **Statement VII**—The Census Table CVII giving distribution of population by religion and scheduled castes/scheduled tribes has been reproduced in this statement. While sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others'.

(5) **Village Directory** reveals the general living conditions of peasantry and the over all development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, Post and Telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/hat and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations:

In Column 4

JBS for Junior Basic School
SBS „ Senior Basic School
HSS „ Higher Secondary School
C „ College
O „ Others

In Column 5

H for Hospital
D „ Dispensary
FC „ Family Planning Centre
HC „ Health Centre
MCW „ Maternity & Child Welfare Centre
O „ Others

In Column 6

E for Electricity

In Column 7

T for Tap
HP „ Hand Pipe
W „ Well
WE „ Well with Electricity
TK „ Tank
R „ River
F „ Fountain

C for Canal
WF „ Waterfall
L „ Lake
TWE „ Tube-well with Electricity
O „ Others

In Column 8

KR for Kachcha Road
PR „ Pucca Road
T „ Train
CR „ Canal Road
R „ River
C „ Canal

In Column 9

PO for Post Office
TO „ Telegraph Office
PTO „ Post and Telegraph Office
Phone „ Telephone

In Column 12

T for Total
C „ Canal
W „ Well
WE „ Well with Electricity
TW „ Tube-well
TWE „ Tube-well with Electricity
TK „ Tank
R „ River
WF „ Waterfall
L „ Lake
F „ Fountain
O „ Others

In Column 18

T for Temple
M „ Mosque
C „ Church
G „ Gurudwara
HP „ Historical Place
RP „ Religious Place
A „ Archaeological monument
EA „ Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil wise break up.

THE DISTRICT

A—Town Directory

(a) **Statement I—Jalaun** district has four towns, namely, Jalaun, Konch, Orai & Kalpi (all Municipal Boards). There is no change in the total number of Towns as compared to 1961. The functional distribution of towns of the district is as follows :—

Table 1

Functional Category	Name of Towns
(i) Services *cum* Commercial	Orai
(ii) Services *cum* Commercial *cum* Primary activities	Konch
(iii) Services *cum* Industry	Kalpi
(iv) Primary activities *cum* Services *cum* Industry	Jalaun

Orai Municipal Board, headquarter of the district, is a bi-functional town comprising 37·4% services and 24·6% commercial class.

Other three towns namely Konch, Kalpi and Jalaun are multifunctional towns. The predominant functional characteristics is services (32·7% and 23·0%) in Konch and Kalpi whereas 27·5% of the total working papulation of Jalaun belongs to primary activity group.

(b) **Statement II**—The physical and locational aspects have been covered in this statement. The figures of annual rainfall and the maximum and minimum temperature for Jalaun, Konch & Kalpi were not available with the Director of Meteorological Centre, Delhi and the information given in col. 4—6 relates to the nearest observatory in the adjoining town Orai

(c) **Statement III**—The Per Capita receipt and expenditure in the local bodies in the town is as below :—

Table 2

		Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
Class of Town	No. of Town	Total receipt	Receipt through taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health & convenience	Expenditure on public institutions	Expenditrue on all other aspects
1	2	3	4	5	6	7	8	9
Class III 20,000 to 49,999 Kalpi, Konch & Orai	3	19·1	8·2	10·9	15·7	4·7	3·6	7·4
Class IV 10,000 to 19,999 Jalaun	1	19·2	1·8	17·4	18·3	2·4	5·8	10·1

The per capita receipt of Class III and IV towns is Rs. 19·1 and 19·2 respectively. Against this the per capita expenditure is Rs. 15·7 and 18·3 respectively.

(d) **Statement IV**—All the towns have protected water supply. Road lighting arrangements also exist in all the four towns. Fire Fighting service is not available in any of the towns. There is no arrangement of mechanical transport for removing night soil and handcarts and baskets are used for the purpose.

(e) **Statement V**—Jalaun has 2 hospitals, 1 family planning centre and 1 maternity & childwelfare Centre. Kalpi has 2 hospitals, 1 family planning centre and health centre. Konch has 2 hospitls, 1 dispensary and family planning centre. Orai is the only town having 1 T. B. Clinic. In addition, it has 4 hospitals and 1 family planning centre. The number of beds per 1,000 persons has been shown in the following table: —

Table 3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
206	2 (1·84)

The number of beds in the hospitals of the district has increased from 146 in 1960 to 206 in 1969.

1 Degree College having Arts, and Science faculties and 1 Degre College with Arts Faculty are located in Orai town. This town has also two Shorthand and Typewriting institutions. The following table shows the number of Higher Secondary, Senior basic and Junior basic schools (1969) per 1,000 population.

Table 4

Name of Town	Number per 1,000 population		
	H. S. School	Middle School	Primary School
Jalaun	0·10	0·20	0·66
Kalpi	0·19	0·09	0·60
Konch	0·14	0·10	0·74
Orai	0·16	0·07	0·54

Kalpi and Orai towns have 1 and 2 cinema halls respectively while other towns have'nt this recreational facility. The facilities of public libraries in Kalpi, 3 in Konch and 1 in Orai are available to the residents of these towns.

(f) **Statement VI**—The articles manufactured in Jalaun town are shoes, carpets and furniture. In Kalpi hand made paper pull-overs and shoes are the main articles of manufacture and in Konch, D*ari*, mustard oil and shoes are manufactured. In Orai town handmade yarn, pulse and mustard oil are manufactured. The important commodities imported in Kalpi are oil-seeds and raw wool, while sugar is imported in the remaining towns.

(g) **Statement VII.** The population of all the towns is largely shared by Hindus and Muslims, the latter comprising 25·07% of the population as against 74·14% Hindus. The percentage growth of Hindu Population of these town during the last decade is 3·28% as against the growth rate of 28·98% of Muslim population.

The percentage of scheduled caste persons is higher in comparison to those of scheduled tribes in all the towns. There are only 2 persons belonging to scheduled tribes in Orai town.

B—Village Directory

(a) According to their area in acres, the villages have been stratified in the following table:—

Table 5

Area (in acres)	No. of Villages	Percentage
50 acres or less	6	0·5
51-100	14	1·2
101-200	67	5·8
201-500	320	27·7
501-1,000	363	31·4
1,001-2,000	258	23·3
2,001-5,000	116	10·1
5,001 acres and above	11	1·0

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 59·1. Thereafter, the number of villages goes on decreasing as the size of villages increases or decreases. There are 11 villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 6 having an area of less than 50 acres. Area of the village with Code No. 73 is merged in the area of village with Code No. 33. Information of the village with Code No. 442 is not available for tables 6 to 11, so the total No. of villages listed in the tables is 1,155·

(b) The distribution of villages having different types of educational institutions is given in the following table :—

Table 6

Distance from the nearest town(in Kms.)	Total No. of villages	No. of villages having				
		Primary School	Middle School	Higher Secondary School	Colleges	Others
1	2	3	4	5	6	7
0-5	89	34	4	1	—	1
6-10	203	111	10	5	—	—
11-15	184	93	16	2	—	—
16-25	352	189	30	4	1	—
26-50	327	168	26	10	—	2
51-100	—	—	—	—	—	—
101-200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—

The above table shows that the largest number of educational institutions exist in the villages situate between 16 to 25 kilometres from the nearest town. As regards Higher Secondary Schools, one lies within a redius of 5 kms. of the nearest town. There is one college within the radius of 25 kms. and three other institutions within the radius of 50 kms.

(c) 32 villages in district Jalaun have hospitals. If all kinds of medical institutions including dispensaries, health centre etc. are taken into account, 73 villages out of 1,155 have medical institutions.

The following table presents the number of medical institutions per 100 Sq. Kms.

Table 7

Name of Tahsil	Total Area (in Sq. Kms.)	No. of medical institutions of any kind per 100 Sq. Kms.
1	2	3
Jalaun	1,335·96	2
Kalpi	1,253·59	1
Konch	1,042·67	1
Orai	927·07	1

It transpires that tahsils Kalpi, Konch and Orai each have one medical institution per 100 Sq. Kms. Jalaun is slightly better off having 2 institutions per 100 sq. Kms.

(d) 74 villages are electrified in the district against the total number of 1,156 villages. Their percentage comes to 6·84.

The largest number of electrified villages (35) lie in Tahsil Jalaun and minimum in Tahsil Kalpi (7). The power supply in villages with reference to their distance from the nearest town is given in the following table :—

Table 8

Distance from the nearest town	Total No. of villages	No. of villages with electric power supply	
		Total	Percentage of electrified villages to total villages
1	2	3	4
0-5	89	16	17·98
6-10	203	15	7·38
11-15	184	7	3 80
16-25	352	18	5·11
26-50	327	18	5·50
51-100	—	—	—
101-200	—	—	—
201 and above	—	—	—
Total	**1,155**	**74**	**6·41**

The percentage of electrified villages to the total villages is highest i. e. 17·98 for those situated within radius of 5 kilometres and the minimum percentage of 3·80 is for those situate at a distance 11 to 15 kms. from the nearest town. It is evident from the table that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town. This is because of the fact that have power connection are extended from the towns which have aiready been electrified and as such villages close to the town are taken up first for electrification.

The means of communications within a radius of 1 mile from the villages have been shown in column 8. As many as 6 villages of the district are connected by rail out of the total number of 1,155 villages. 14·63% are connected by pucca road and 3·54% by kachcha and pucca roads. The percentage of villages having only kachcha roads is 33·93%. The nature of communications have been shown in the following table where, the villages have been classified according to their distance from the nearest town.

Table 9

Distance from the nearest town	Total No. of villages	No. of villages connected by							
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road& River	Kachcha Road & River	Pacca Road & Train	Kachcha Road Train	Others
0-5	89	19	22	3	—	—	—	—	1
6-10	203	47	73	6	—	—	1	—	3
11-15	184	28	58	7	—	—	3	2	4
16-25	352	41	122	7	—	—	—	—	7
26-50	327	34	117	18	—	—	—	—	3
51-100	—	—	—	—	—	—	—	—	—
101-200	—	—	—	—	—	—	—	—	—
201 and above		—	—	—	—	—	—	—	—
Total	**1,155**	**169**	**392**	**41**	—	—	**4**	**2**	**18**

It is evident from the above table that the villages nearest to the town have better facilities of communications and Percontra the villages situated at a distance of more than 50 kms. from the nearest town have no means of communications.

(f) There are in all 134 post offices in rural areas of the district. On an average, 1 post office caters to the need of about 9 villages. The number of Post Offices per 100 Sq. kms. in the various tahsils have been shown in the following table :—

Table 10

Name of Tahsil	Total Area (in Sq. Kms.)	No. of Post Offices per 100 Sq. Kms.
Jalaun	1,335·96	4
Kalpi	1,253·59	2
Konch	1,042·67	3
Orai	927·07	2

Tahsils Kalpi and Orai have the lowest number of post offices the average being 2 per 100 Sq. Kms. In the remaining tahsils, the corresponding average are 3 and 4.

(g) Wheat and gram are the staple food in the district. The cultivated area is 79·72 percent of the total rural area of the district, of which 33·8 percent is irrigated area.

The following table shows the average cultivated land, average, cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table 11

Distance from the nearest town	Numer of villages	Total culi-vated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average culti-vated land per village
1	2	3	4	5	6	7
0-5	89	65,065	731	4,436	50	6·8
6-10	203	173,010	852	11,187	55	6·5
11-15	184	163,855	891	11,806	64	7·2
16-25	352	283,602	806	24,694	70	8·7
26-50	327	212,587	650	25,229	77	11·8
51-100	—	—	—	—	—	—
101-200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—
@ **Total**	**1,155**	**898,119**	**778**	**77,346**	**67**	**8·6**

The average cultivated area and average cultivable waste per village shows an increasing trend as the distance from the nearest town increases upto 50 kms. The percentage of culvivable waste to cultivated area shows an increasing trend is the villages situate at a distance of six kms. or above from the nearest town.

TOWN & VILLAGE DIRECTORY

Town Directory

TOWN

STATEMENT

STATUS, GROWTH HISTORY AND

Sl. No.	Name of Town	Location Code No.	Name of Tahsil	Civic administration status in 1970	Population of the		
					1901	1911	1921
