PREFACE

The District Census Handbook is a collection of the following data:—

1. Introduction which deals with the following items:—

(*a*) Physical Aspects.
(*b*) Geology.
(*c*) Archaeology.
(*d*) Climate.
(*e*) Rain Fall.
(*f*) History.
(*g*) Population.
(*h*) Administration.
(*i*) Medical and Public Health.
(*j*) Education and Literacy.
(*k*) Agriculture and Co-operation.
(*l*) Industries.
(*m*) Local Bodies.
(*n*) Rehabilitation of Displaced Persons.
(*o*) Places of Interest.

2. District Census Tables (furnishing district data with break up for Census tracts, within the district). In case of Hoshiarpur District there are 4 tahsil rural tracts (Hoshiarpur, Dasuya, Una and Garhshankar tehsils) and one District Hoshiarpur non city urban tract. There are the following tables for the Hoshiarpur District:—

A-I Area, houses and population.
A-II Variation in population during fifty years.
A-III Towns and villages classified by population.
A-IV Towns classified by population with variation since 1901.
A-V Towns arranged territorially with population by livelihood classes.

B-I Livelihood classes and sub-classes.

B-II Secondary means of livelihood.

B-III Employers, employees and Independent workers.

C-II Livelihood Classes by age group.

C-III Age and Civil Condition.

C-IV Age and literacy.

C-V Single year age return.

D-II Religion.

D-III Scheduled Castes and Scheduled Tribes.

D-IV Migrants and Subsidiary.

D-V Displaced persons by district of origin, and date of arrival in India.

D-VI Non-Indian Nationals.

D-VII Livelihood classes by educational standards.

E. Summary figures by districts.

District Index.

Sorter's Ticket 2.

3. Census Abstracts:—

(*i*) Primary Census Abstracts.

(*ii*) Census Abstracts of Small Scale Industries.

LAKSHMI CHANDRA VASHISHTA.

INTRODUCTION.

HOSHIARPUR DISTRICT.

PHYSICAL ASPECTS.

Name and derivation.

The foundation of Hoshiarpur town, from which the district derives its name, is assigned to two traditions, one is that Hoshiar Khan, a resident of Bajwara, lived here about 600 years ago, and the town was named after him and the other is that Hargobind and Ram Chand, Diwans of the Emperor Mohammad Tughlak, who reigned about the same period (about 600 years ago) founded this town.

Situation and Boundaries.

The district is situated between latitude 30° 58′ 10″ and 32° 05′ 50″ and longitude 75° 28′ 15″ and 76° 38″ 50″ and is bounded on the east by Kangra, Simla and Bilaspur, on the west by Jullundur and Kapurthala districts, on the north and north-west beyond the River Beas by Gurdaspur district and on the south beyond the River Sutlej by Ambala district. It resembles in shape, a man standing at ease.

Configuration.

The district is divided into four tahsils viz. Hoshiarpur, Dasuya, Una and Garhshankar. The valley of the Sowan Nadi forms the Una Tahsil. The tahsils of Hoshiarpur, Dasuya and Garhshankar comprise of the alluvial plain and the western slopes of the Siwaliks upto the watershed.

Area.

As a result of the Absorption of Enclaves Order, 1950 the district has gained a block of 24 villages of Bhunga tahsil of Kapurthala district, having an area of 14.3 square miles. The area of the district, according to the Survey of India Department, is 2226.5 square miles.

The mountain system.

The Siwaliks. The Siwalik Range, forming as it were its backbone, is situated between the River Sutlej and Beas. The breadth of the Siwaliks varies from 5 to 8 miles.

The Sub Himalayan Hills.

The Chintpurni Sola Singhi or Jaswan Dhar Range which shuts in the Dun to the east, commences near Talwara on the

Beas where the river first enters the district. It runs south-eastwards and separating the district from Kangra as it advances further southward, it increases in width as well as in height until its highest point is reached at Bharwain. At this point the width is 20 miles and the elevation 3896 feet from sea level. From this point onward towards the Sutlej its north goes sinking gradually into the Beas valley but on the south it has an abrupt fall of from 200' to 300' and between the main range and plain is the Jaswan Dun-some 15 miles in length and 8 miles in breadth-which is thickly forested.

RIVERS.

There are two rivers of permanent flow in the district i.e. The Beas and the Sutlej. A brief account of each is given below :—

The Beas.

The Beas, which forms the northern boundary of the district enters the district near Talwara and meeting the Siwaliks curves north wards. At Motla it runs south-west and thence forms the boundary between Hoshiarpur and the Gurdaspur district. It is said that once it flowed much nearer to the Siwaliks and it is probable that the line of Chhambs in Dasuya tahsil formed its old course.

The Sutlej.

It enters the district near Bhabaur in the Jaswan Dun and turns southward till near Kiratpur, when it curves to the west and cuts through the Siwaliks opposite Rupar. It drains the southern parts of the district.

Swan Nadi.

Swan is a broad torrent the waters of which spread about two miles in the rainy season. The Jaswan Dun is traversed throughout by this Nadi which is the main drain into which the ravines of the hills empty their waters and during the rainy season the whole of the valley is filled with flood water but during the other seasons it becomes a petty stream. It abounds in quick-sands but the water is not more than 2/3 feet deep.

Beins.

Besides the above, there are two Beins in the district, which take their rise in the district, i.e. Black Bein and White Bein. The former commences in the Terkiana Chhamb and passes on to the Kapurthala district and is of a permanent flow while the latter takes its rise from hillocks near

Garhshankar and after a winding course it turns sharp to the north with a almost a permant flow and runs parallel with the district boundary. now in Hoshiarpur, now in ullundur district. These Beins are not more than a few feet in width, but are very troublesome to cross on account of their depth and soft bottom.

Canals

There is only one canal worth the name in the district called Shah Nahr taken out from the Beas in the north-west of the District in Dasuya tahsil at village Changarwan. It was originally constructed during the decline of the Mughul Empire but its working started satisfactorily with the first revised settlement of the District. It is now under the charge of the Canal Department and irrigates more than 6000 acres of land.

Chhambs.

Chhambs or big water pools in the marshy land of Dasuya tahsil are believed to be the old bed of the River Beas and from Mukerian to the territory of Kapurthala they make a chain parallel to the river. Tne most important of these are Kalabagh Chhamb to the west of Mukerian, Terkiana, Naraingarh, Chanaite or Munakwala and Zahura Chhambs which all lie in a chain. Around these chhambs, rice is grown abundantly.

Chos.

The hill torrents or the chos pour into the plains in the rainy season almost every mile and they have affected the soil of the district very badly by depositing sand when they are in flood. Steps are now being taken by the Forest Department to close their passages and thus protect the lands from damage.

Geology.

Regarding the geology of the district, the following account is reproduced from the Gazetteer of the Hoshiarpur district Part-A, 1904:—

"The geology of the outer Siwaliks is described in Baden Powell's report above referred to and in the Sketch of the geology of the province published by Mr. Medlicott. The range consists entirely of vast beds of sand alternating with loams and clays in such smaller proportion with extensive beds of loose conglomerate or gravel. The pebbles of these are neither very small, nor are very large boulders found, they very from the size of a pigeon's egg to twice the size of a large osatrich egg but not as a rule bigger, they consist of metamorphic and

quartzitic gneiss and granite rocks derived from the older Himalayan formation. These beds are the result of aqueous-action, but the starts so deposited have been upheaved.

Most of the strata of sand are soft and illcompacted, but there are extensive strata of stone varying from a soft and britlle grey-stone as at Chhohal to a real hard building stone found beyond Pamrah which occurs in Masses of a grey colour much resembling the sandstone found below Murree and Dharamsala. The beds of this hard sandstone often enclose small rounded pebbles of older rocks and their structure seems to be sand with some mica in it agglomerated by lime. On the north side of the range, and notably towards Mchidpur Manswal, there are large beds of calcareous tufa alternating with gravel and clay. This is so nearly a pure limestone that it is burnt for lime. Fossil remains are fairly common a good many large fossilized extinct species have been found".

Archaeology.

From the coins and the remains of the old temples and buildings still to be found in the district, it can safely be presumed that the district has a direct connection with the dawn of the Indian History where the Hindu faith flourished. Local legens associate several places in the district with the Pandavas and Sri Pandain, eight miles north of Hajipur, which contains a well and a temple derives its name from them. Dasuya is mentioned in the Mahabhharta as the seat of Raja Virata in whose services the Pandavas remained for 13 years during their exile and even at present day, it is called Virat Ki Nagri before breakfast by the people of this district. There is an old fort as well as a tank to be seen in Dasuya. Panjgatra at Bhabaur on the bank of the Sutlej derives its name from the five stones said to have been used by the Pandavas with which they played the game of *Pancha Stara.* There is also a Shiwala at Bham, seven miles west of Mahilpur, where the Pandavas said to have passed their exile. Another place Lasara contains a stone temple, which is said to be dating back to time of Pandavas.

The shrines of Mohammadans at Shah Nur Jamal, 8 miles east of Hoshiarpur, as well as a mosque and tomb at Garhshankar, date back to 1250 A. D. respectively. Anandpur Sahib is another place which may be mentioned here.

CLIMATE

Owing to the submontane situation of the district, it never suffers from excessive heat during the hot weather, though

occasionally hot winds also blow. The climate is generally healthy as the water does not stagnate except in the Dasuya Chhambs where it affects the health of the people and malaria is not uncommon during the rainy season. There is scarcity of drinking water in Bit area and Government has recently introduced tap system in about 2 dozen villages.

Bharwin is a cool station and is considered to be a sanitorium in the district.

RAINFALL.

Owing to its situation near the foot of the mountains (Una tahsil is all hilly), the monsoons cause heavy rains. Heavy rains are received during the months of June to August while comparatively less rains are received during the winter. The tahsil wise average annual rainfall of the district for the last 20 years (from 1930-31 to 1950-51) is given below:—

Hoshiarpur.	...	34.59"
Dasuya.	....	33.94"
Garhshankar.	...	34.62"
Una.	...	41.79"

HISTORY.

Although the historical places found in the district have a direct bearing on the history of the district, yet the details are not available as to who were the early rulers in the district. From the Raja Tarangini, the hints gained from the inscription as well as the information available from the record of the Chinese pilgrim Hwen Thsang, it is proved beyond doubt that the Jullundur Doab was dominated by a tribe of Chandrabansi Rajputs who maintained their independent existence for centuries before the Mohammadan conquest This kingdom was know as Traigarths then.

The Mohammadan period started in the 11th century when according to the poet Lalman, Ibraham of the Ghorian dynasty, who rules from 1059-99 A.D. penetrated to Jullundur. The lot of the district remained in the hands of Mohammadans and the sikhs till the district was annexed by the British with the rest of the Doab at the close of the first Sikh war. After the annexation of the district, the main event which took place during the British period was the mutiny of 1857. Since the mutiny no major event took place which effected the district physically. The district as first constituted consisted of five tahsils i.e. Mukerian, Hariana, Hoshiarpur, Una and Garhshankar. In 1861 the Hariana tahsil was abolished and its western portion, comprising

the Tanda Police Station, was made over to Mukerian tahsil the headquarters of which were transferred to Dasuya. The hill portions of Hariana and Hoshiarpur were transferred to Una and the rest of the Hariana tahsil joined the Hoshiarpur and thana Mahilpur of Hoshiarpur was transferred to Garhshankar. Thus the district was reduced to four tahsils of Dasuya, Hoshiarpur, Una and Garhshankar.

In 1947, there was commotion followed by partition of the Province and migration of wholesale Muslim population from the district and influx of displaced persons from the districts West Punjab.

The main event of today, which adds to the history of the district is the merger of Bhunga tahsil of Kapurthala district which was transferred to the district on account of the Absorption of Enclaves order 1950. There are now the following tahsils and sub-tahsils in the district :-

Tahsils.	**Sub-Tahsils.**
Dasuya.	Mukerian.
Hoshiarpur.	Bhunga.
Una.	Balachaur.
Garhshankar.	

Population.

The population of the district as revealed by the 1951 Census comes to 10,91,986 souls, 5,80,632 males and 5,11354females. It enjoys fourth position, in order of population, among the 13 districts of the Punjab (India). The density comes to 490 souls per square mile.

The livelihood pattern of the population is as below :-

	Name of Class.	*Population.*
I.	Cultivators of land wholly or mainly owned and their dependants.	4,41,375
II.	Cultivators of land wholly or mainly un-owned and their dependants.	1,35,533
III.	Cultivating labourers and their dependants	72,285
IV.	Non-Cultivating owners of land; Agricultural rent receivers and their dependants	28,335

	Person including their dependants who derive their Principal means of livelihood from :—	
V.	Production other than Cultivation	78211
VI.	Commerce	69770
VII.	Transport	2864
VIII.	Other services and miscellaneous sources	160109
	Total	9,88,482
	Slips burnt through fire	1,03,504
	Grant Total	10,91,986

Administration;

The Deputy Commissioner with his headquarters at Hoshiarpur is the head of administration in the district. He is assisted by 8 Extra Assistant Commissioners (including one R. A. R. and 2 Revenue Assistants) who are all stationed at the district headquarters. In each tahsil there is a tahsildar assisted by Naib Tahsildars, Field Kanungos and a number of Patwaris.

The District and Sessions Judge is the head of the Judicial work (civil, in the district with his headquarters at Hoshiarpur. He is assisted by 5 Sub-Judges, three of whom are stationed at Hoshiarpur while the other two are stationed at Una and Garhshankar.

The Superintendent of Police, assisted by two Deputy Superintendents of Police, 3 Inspectors, 29 Sub-Inspectors, 41 Assistant Sub-Inspectors, 103 Head Constables and 661 Foot Constables provide assistance to the Deputy Commissioner in the maintenance of law and order in the district. Besides there is mounted police to help the administration in extra-ordinary cases and patrol.

The other officers who function at the district headquarters are the Commander Volunteer Corps, the District Inspector of Schools, the Civil Surgeon, the District Medical Officer of Health, the District Agricultural Officer (E.A.D.A), 3 Extra Assistant Conservators of Forests, the Deputy Superintendent Civil Veterinary department, 2 Assistant Registrar Co-operative Societies, Income Tax Officer, the Official Receiver, the Public Prosecutor, the District Food Controller and the District Organizer of Civil Supplies and Rationing.

As already mentioned, the district has been divided into 4 tahsils and 3 sub-tahsils and these have further been sub-divided into 15 Police Stations in order to have an effective control over the district.

Medical And Public Health.

There are 38 hospitals, civil dispensaries etc. in the district, with 250 beds for males and 84 for females, which are all under the charge of the Civil Surgeon.

The Public Health work is under the control of the District Medical Officer of Health. The district remains free from the major epidemic diseases like plague and cholera but in the riverain areas there is high incidence of malaria during the rainy season. There are 3 subsidised dispensaries, 4 health bureaux and 14 sub Health Bureaux besides 7 Maternity and Welfare Centres in the district: The District Red Cross Society has recently opened a Maternity Hospital at the District Headquarters.

In every tahsil vaccinators have also been appointed whose duty is to try to nip in the bud the contagious and other diseases like small-pox, plague, malaria etc. to keep the officers at the headquarters informed about the progress of the measures taken.

Education And Literacy

The local head of the department is the District Inspector of schools with his headquarters at Hoshiarpur. There are the following educational institutions in the district:—

Colleges.	...	6	(three at Hoshiarpur, one at Hariana, one at Urmar-Tanda and one at Mahilpur)
High Schools	....	63	
Middle Schools	...	27	
Lower Middle.	...	21	
Primary Schools.	...	411	
	TOTAL.	528	

In the year 1941, there were only two colleges, 25 High Schools, 44 Middle Schools, 91 Lower Middle Schools and 323 Primary Schools in the district. The number of institutions has thus gone up from 485 to 528. The number of scholars on roll is 85668 which includes 13539 Harijan Scholars.

There are 4 model schools-one in each tahsil-2 basic education schools and 8 Social Education Centres (six for boys and 2 for girls).

Agriculture And Co-operation

Out of a population of 1091986 in the district, 677528 persons earn their livelihood through agriculture which comes to more than 62% of the total population. Out of a total area of 1424118 acres in the district, the net area available for cultivation comes to 673668 acres.

Except the Una tashil, the rest of the district comprises the alluvial plain, but the soil is subject to *cho* action. The soil of the Una valley is very fertile. Leaving aside Una tashil the district can be divided into five circles viz. Bet, Sirwal, Rakkar, Maira and Kandi out of which the Sirwal is the most fertile left of land and the water level in this tract is not far from the surface.

Two crops are reaped in a year viz. Rabi and Kharif. The Rabi crops are wheat, gram, barley, tobacco, safflower, poppy, *Masar*, potatoes while the Kharif crops are maize, rice, cotton, pulses, sugarcane etc.

Co-operation.

There are 2416 Co-operative Societies in the district with a total membership of 155854 and total working capital amounting to Rs. 2,14,35,877/-. Out of 2416 co-operative societies there are, 1352 Thrift and Credit, 18 are Central Institutions having a working capital of 100.3 lacs, 323 soil conservation, 258 Consolidation of Holdings, 118 Thrift and Savings, 161 Miscellaneous and the rest are better Farming, Multipurpose societies etc.

Industries

The chief industry of the district is the manufacture of cotton fabrics, the chief emporiums being Khanpur aud Bassis around Hoshiarpur but with the partition of the Punjab and migration of Muslims to Pakistan, this industry has received a great set-back. Jaijon and Tanda are big markets for locally made cloth. Another important industry is the manufacture of rosin and the turpentine oil. Many rosin factories have sprung up in the city of Hoshiarpur and a considerable trade is going on in this commodity. Another occupation which has won name for Hoshiarpur is the inlaying of ivory on wood and the manufacture of furniture and wooden toys. The trade in shoes, is carried on, on a large scale although with the going away of Muslims it has suffered considerably. The Ice Factories, Cloth Finishing factories, leather manufacture and the manufacture of brass vessels have provided work for several employees.

The Government Industrial School at Hoshiarpur and the Vocational Work Centre at Oel are the two big centres in the district where the training is imparted to the students in weaving, manufacture of furniture, soap, munj matting etc.

Rice husking factories are to be seen in the Dasuya tahsil. Lime is burnt at Birampur in Garhshankar tahsil. Munj Ban, Bagar Ban and San Ban are manufactured at Bahadarpur Bahian, Naru Nangal, Bassi Panch Bhaiyan, Chak Harnoli and in the Chohal area.

Other minor cottage industries are carried on in almost every village.

Local Bodies And Panchayats

The following local bodies are functioning in the district :—

Name of local Body.	*Population.*
1. Shamchaurasi Small Town Committee.	2988
2. Hoshiarpur Municipal Committee.	45291
3. Urmar Tanda Municipal Committee.	9857
4. Dasuya Small Town Committee.	7895
5. Mukerian S. T. C.	7493
6. Miani S. T. C.	4519
7. Garhdiwala S. T. C.	3018
8. Hariana S. T. C.	4725
9. Khanpur N.A.C.	2034
10. Garhshankar N. A. C.	5495
11. Jaijon S. T. C.	2036
12. Una N. A. C.	5407
13. Anandpur N.A.C.	4266

The total urban population of the district comes to 105024 persons—57751 males and 47273 females.

There is also one District Board working under a non-official Chairman. The District Board maintains 331 boys and 84 girls Schools besides 17 civil, 9 rural, 14 veterinary and 5 out lined veterinary dispensaries, 41 cattle ponds, 15 Rest Houses and 17 Sarais.

Panchayats.

There are 580 Panchayats in the district covering 823 villages; 23 buildings such as Panchayat Ghars, Dharamsalas etc. were constructed by the Panchayats and 86 drinking wells were claimed and repaired besides the payment of 18922 feet of public drains and construction of 9745 feet of public drains.

Rehabilitation of Displaced Persons.

The district of Hoshiarpur has accommodated 146935 displaced persons out of which 78758 are males and 68177 females. Mostly the displaced persons are either the colonists of the Hoshiarpur district or displaced persons from the Sialkot district. 109564 have settled in the rural areas while 37371 have been accommodated in the urban areas.

The Muslim Evacuees have left 254730 acres of cultivated land in the district, the details of which are as under:—

Nahri (acres)	Chahi and abi (acres)	Barani and Sailab (acres)	Total (acres)
18730	20053	215947	254730

According to the scheme of quasi-permanent allotment, these lands have been allotted to 37564 displaced persons who had left lands in the Pakistan.

In order to enable the new allottees as well as other displaced persons to start their career afresh, various kinds of loans and grants amounting to Rs. 4642046/- have been issued from time to time. Besides they have been allotted evacuee houses and plots in the rural areas.

In the city of Hoshiarpur, a Model town has been built for providing accommodation to the displaced persons and it has been provided with modern amenities. Construction of mud-huts, near it, is another achievement towards the rehabilitation of the displaced persons.

Ram Colony Camp, situated at a distance of about 2½ miles from Hoshiarpur on the Hoshiarpur-Garhshankar pacca road once accommodated thousands of displaced persons but now all the land-owning displaced persons having been shifted to the places where they have been allotted lands, leaving behind some persons who either belong to Jammu and Kashmir or are infirm. A portion of it is known as Widow's Home. Cottage industries like spinning, sewing and knitting work etc. are being carried on at this place. A school and a dispensary are located here in addition to a police post.

Places Of Interest

Hoshiarpur.

Hoshiarpur is the headquarters of the district situated in its centre at a distance of about 5 miles from the foot of the Siwaliks. It is connected with the pacca roads with all the outlying tahsils and its distance from Jullundur is 25 miles with which it is connected by road as well as by rail. Besides Bahadarpur, Premgarh and Bassi Khawaju which fall within the boundaries of the Municipal Committee, it has practically covered the revenue estates of Kamalpur and Sutehri. The extensions towards the east and west are notable. It is expected that in the near future it will join Khawaspur on the west and so with Bajwara towards the east. Its extension towards the north is checked by a cho, from which it is protected by a *pacca band* constructed in 1853 at a cost of Rs. 8857/-. Again in 1901-02, the Municipality spent Rs. 30,000/- in protective works.

In olden days, the town was of not much importance and in the time of Akbar, no mention of it has been made in the historic records. It is believed that it was included in the *Mahal* of Bajwara in those days. But now the town finds its mention among the notable cities of the Punjab though for purposes of census it is not a city.

There are a staying bungalow, a P.W.D Rest House, District Courts and Offices, Civil Hospital, Police Station, 3 colleges and 6 High Schools, a Railway Station, Electric Power House, Municipal and District Board Halls, Company Gardens, Clubs and *Shish Mahal* which add to the beauty of the town. It is also a market for the export of the produce of the district as well as the produce of the Siwaliks and the sub-Himalayan Hills.

Bajwara.

It is a small town situated at a distance of two miles from Hoshiarpur towards the south-east. In the ancient days it was a big city and was celebrated for its "cloth weavers and pious brahmans". It is said to have been founded in ancient times by three immigrants from Ghazni, one of whom, Baju Baora, famous as a singer, gave his name to the town. Bajwara is a corrupted name of it. It once occupied a much more extended area than it does now, and the tradition says it was about 18 miles in circumference. Raja Todar Mal, Akber's Minister, is said have broken the town into small divisions as a punishment for the inhabitants not receiving him with proper respect. During the reign of Akbar, BAJWARA was one of the *Mahals* and Hoshiarpur was probably included in it. We also find during the Mohammadan period that "in 1420 an imposter, calling

himself Sarang Khan, appeared at Bajwara, a dependency of Jullundur, and assembled a strong following. He advanced to the Sutlej and was joined by the people of Rupar, but Malik Sultan Shah, feudatory of Sirhind, defeated him".

In later times the town was held by Sardar Bhup Singh, Faizullapuria, who was ousted in 1801 by Raja Sansar Chand. The latter built a fort here which was taken by Maharaja Ranjit Singh in 1825. During the mutiny of 1857, it is recorded that Bajwara Fort was used by the British to keep the prisoners, but was afterwards dismentled and at present only two of its ruined bastions are in existence.

There is a High School, known as S. B. A. C. High School, in the town. Besides, two girls schools and one D. B. Primary School are also functioning in the town. Lala Chuni Lal free Hospital opened by L. Mulkh Raj, is a very decent medical institution, where medicine is administered to the patients free of charge. Annual fairs are held at Sain Sahib also known as Sarwang Sahib temple on the occasion of Basant, at Ravidas Mandir in the month of Magh, and at Sadhu Ashram in the month of Baisakh. The Ashram has picturesque surroundings. *Katha* is recited in it and discourses delivered by the Sadhus and other learned Pandits. The Vishveshwarnand Vedic Research Institute of Lahore has been located in the Ashram since the partition. There is also an ice factory at Bajwara.

Amb.

Amb was once the seat of the Rajas of Jaswal. The palaces of the Raja are on a hill above this place. There is also a garden which is very old. There is a Police Station.

Anandpur Sahib

It is situated at a distance of 48 miles from Hoshiarpur and 8 miles from Naina Devi towards south-east of Hoshiarpur in the Una tahsil. The town is said to have been founded by Guru Tegh Bahadur when he came over to this place leaving Bakala in the Amritsar District. The story goes that on the site of Anandpur Sahib, there lived a cruel demon called Makho who had occupied the place for the last 700 years before Guru Tegh Bahadar came there. The latter determined to expel the demon, but the demon promised to depart only asking as a favour that his name might be associated with the name of the place where he had lived for such a longtime. The Guru replied that the Sodhis would call it as Makhowal. Anandpur Sahib is held in a very high esteem by the Sikhs and there are the following historical places:—

Guru Ka Mahal.

It was built by Guru Tegh Bahadur about the year 1665 when the town of Anandpur was founded. There is an underground cell called the *Bhora Sahib* where the Guru used to worship alone. Here the sons of Guru Gobind Singh, the 10th Guru, were born and brought up. At present this house is kept in good repairs by the *Sodhis*.

Gurdwara Tegh Bahadur.

This shrine is also sacred to the memory of the 9th Guru, who was executed at Delhi in 1675. His head was brought to Anandpur and was cremated here. On the actual site of the cremation of the body of Guru Tegh Bahadur is a raised plateform called the Akalbunga. This building is in possession of the Nihangs.

Gurdwara Kesgarh.

This Gurdwara is remarkable as one of the four 'Takhats of the Khalsa religion. It is famous at the spot where Guru Gobind Singh administered 'Amrit' to his first five disciples in Sambat 1756 making them Singhs and declaring the Khalsa.

Gurdwara Anandgarh.

This Gurdwara is said to be the stronghold of Guru Gobind Singh and is in possession of Nihangs. This shrine contains a well called the *Baoli Sahib* and the structure around it can accommodate a thousand people.

Manji Sahib Kesgarh.

It is situated near Gurdwara Kesgarh Sahib on a small hill. A long flight of steps leads up to a raised dais where Ajit Singh and Jhujar Singh, the sons of Guru Gobind Singh, used to play.

Damdama Sahib.

The ceremonies of installation to Gaddi of Guru Gobind Singh were performed at this place and he used to sit and receive offerings at the Holi Fair at this place.

Manji Sahib Tika.

It marks the spot where the head of the Sodhi family of Anandpur Sahib receives offerings from his disciples at the grand fair of Hola.

Holgarh.

This place is in a village called Agampur near Anandpur and Guru Gobind Singh used to celebrate Hola at this place.

Mai Jito's Gurdwara.

This Gurdwara too is situated in village Agampur and is famous on account of the Samadh of Mai Jito, the wife of Guru Gobind Singh.

Lohgarh.

In the past time it was a strong fort of Guru Gobind Singh in his battles with the hill Rajas. It has now fallen into ruins.

Kiratpur.

It is situated at a distance of about 6 miles from Anandpur towards the south and like Anandpur Sahib is considered to be very sacred by the Sikhs. There are several shrines at Kiratpur but the most celebrated are the Gurdwara Baba Gurditta, the Harmandar Sahib, the Sis Mahal, the Takhat Sahib, the Manji Sahib, Patalpuri and Khangah Baba Budhan Shah.

Nangal.

It is situated on the road leading from Una to Anandpur Sahib and its distance from Anandpur is only 12 miles by rail. What was recently a village, has become a township, beautifully planned with pacca roads on the bank of River Sutlej over which a long wanted bridge has been constructed. The scenery is very pleasing. At Bhakra (in Bilaspur State) a dam has been constructed and at Nangal the headworks of a canal, which will irrigate the districts of Ambala, Karnal, Rohtak, Hissar and Gurgaon. Electricity through water falls, will also be generated at Bhakra, Nangal and Ganguwal which will be available for supply to all the districts of the Punjab and Delhi. There are 3 Canal Rest-Houses as well as a civil rest house and a police post. Besides a school and a dispensary there are workshops also located here.

Jandberi.

It is said that it is corrupted from Jindpari meaning life has ente red. Baba Gurditta is believed to have restored a dead cow to life here by means of his miraculous stick. Historically the *taluka* is connected with Bilaspur or Kahlur State.

Santokhgarh.

It is situated at a distance of 7 miles from Una to the south and consists of one big bazar. It is a famous *ghee* market which is exported to places all over the Punjab. There are a high school, a dispensary and a rest house at Santokhgarh.

Una.

Una is situated in the Jaswan Dun at a distance of 23 miles to the east of Hoshiarpur and is connected by a *pacca* road with Hoshiarpur. Roads to Anandpur and Gagret also lead from

this place It is a historical place and was once the seat of Bedis and was founded by Baba Kala Dhari. The temple of Baba Kala Dhari, mausoleum of Bedi Sahib Singh are still held in esteem by the Sikhs. The Tahsil buildings, Police Station, Rest house, Dispensary, Veterinary Hospital, and the High School buildings form the public places in the town. A Notified Area Committee is functioning in the town. The Swan Nadi which passes by, becomes impassable during the rainy season and moves a source of considerable difficulties to the litigant public as well as the traders and others who have to travel between Hoshiarpur and. Una.

Gagret.

It is situated at a distance of 16 miles from Hoshiarpur on the Hoshiarpur Bharwain road. It is a very lovely place and since the opening of a vocational Centre at Oel, a place situated at a distance of about 2 miles from here, on the Gagret-Una road, it has become very important. The Rest House at Gagret is used by the officers who come to visit this centre. There is also a dispensary as well as a police post here.

Bharwain.

Bharwain is situated at a distance of 28 miles from Hoshiarpur on the Hoshiarpur-Dharamsala road in the Chintpurni Sola Singi or Jaswan Dhar Range and is the highest point in the distirct. Its elevation is 3896 feet from sea level. There are a dispensary, civil and P.W.D. rest houses, E.P.R. out agency, post office and a school. The scenery is very pleasing.

Chintpurni.

At a distance of 2½ miles to the north west of Bharwain is situated the temple of Chintpurni Devi. The shrine is very celebrated and three fairs are held here during the year but the fairs of Navratras, attract a gathering of about 30 to 40 thousand.

Mairi.

Mairi is situated near Amb and is also known as Dehra *Guru Barbhag Singh.* The Holi and Baisakhi fairs are attended by the Sikhs from all parts of the Punjab and especially from Majha and Malwa.

Garhdiwala.

It is situated on the Hoshiarpur-Dasuya road at a distance of 18 miles from Hoshiarpur. There is a Small Town Committee functioning in the town and population of the town according to 1951 Census comes to 3018 souls. The tradition is that the town was built in 1443 by Garhia; a Jat who named the town after him and that the addition of Diwala was made in

1812 on account of the incarnation of the goddess Devi, in honour of which S. Jodh Singh, Ramgarhia, built a temple and that this *Diwala* was said to be a contraction of Deviwala. The said Sardar also built a fort here in 1829. There are a policepost, a post office a, dispensary and a High School. Around the town, there are some gardens of good variety of mangoes and fruit preservation is carried on here which has won a name for it. Starting from here, a belt of mango gardens can be seen upto Mahilpur.

Hariana.

Hariana was the headquarters of a tehsil which was abolished in 1861. It lies at a distance of 9 miles from Hoshiarpur to the north on the Hoshiarpur-Dasuya Road. It is celebrated for its fine mango groves and the surrounding scenery is very fine. There are two old mosques in Hariana. The mosque of Mufti was built by Haji Sambal Khan in 1597-98. The other one is of somewhat later date and bears no inscription on it. The dispensary, rest house, police station, buildings of high schools and girls school form the public places in the town. A Small Town Committee is functioning in the town.

Khanpur.

It is situated at a distance of 1½ miles form Hoshiarpur, to the north-west on the Hoshiarpur-Tanda Road and its population according to 1951 Census comes to 2034. It was included in the Municipality of Hoshiarpur but in 1893 it was separated and was declared a Notified Area Committee. It was, before the partition of Punjab known for its best *Lungis* and *Susis* and a considerable trade was carried out bringing heavy sums but with the going of Muslim evacuees to Pakistan in whose hands, egneraly, the trade was, it has lost its former importance.

Shamchaurasi.

It is situated at a distance of 13 miles from Hoshiarpur to the west and is connected with the Hoshiarpur-Jullundur Road by an approach road. Its population, according to 1951 Census, comes to 2988 souls. A Small Town Committee is functioning here. Rauza Hazrat Shami Sahib, Well, Tank, Baradari and *Sarai* are worth seeing places. There is a High School as well as a dispensary in the town.

Dasuya.

Dasuya situated at a distance of 25 miles from Hoshiapur to the north-west on the Hoshiarpur-Mukerian road, is the headquarters of a tehsil and a *thana*. It is said that about 5000 years ago it was founded by Raja Virat mentioned in the Mahanbharta. It is still called Virat-ki-Nagri instead of Dasuya before taking breakfast, by the Hindus. The Pandavas spent the 13th years of their

exile in this town. There is an old fort to its north, a great part of which was demolished in 1884, but one of the towers still remains. It is mentioned in the 'Ain-i-Akbari' and later became a stronghold of the Ramgarhias. There is also an old tank in the town. A Small Town Committee functions in the town. The tahsil buildings, police station, Civil and Veterinary Hospitals, Sub-Judge's court, *sarai*, Resthouse and buildings of High Schools form some of the public places in the town. It being a rice producing centre, rice husking factories are to be seen in the town. Sugarcane is also exported to Hamira and Phagwara in large quantities.

Bhangala.

It is situated at a distance of 5 miles from Mukerian and is chiefly known for its best *basmati*. During the rainy season, the climate gets malarial.

Miani.

Miani is situated at a distance of 25 miles from Hoshiarpur and 4 miles from Tanda, near the Beas .Its population according to 1951 Census comes to 4519 A Small Town Committee functions here. In the rainy season, when the Beas is in flood, it causes damage to the *illaqa* around. There is a dispensary as well as a Lower Middle School in the town.

Mukerian.

It is situated at a distance of 10 miles from Dasuya to the north and is the headquarters of a sub- tahsil. Till 1861 it was the headquarters of Mukerian tahsil when the headquarters were shifted to Dasuya. Tradition says that it was built by Chaudhri Dara Khan in 1754 It was afterwards enlarged and improved by S. Jai Singh Kanhya. Mai Sada Kaur was his daughter-in-law whose husband was killed in battle by Maharaja Ranjit Singh who married her daughter Mehtab Kaur. Ranjit Singh is said to have captured the neighbouring fort of Atalgarh in 1819 and a fine tank near this fort is called Mai Sada Kaur Tank. Mahtab Kaur gave birth to a son at Mukerian, Sher Singh, who after Ranjit Singh became the Maharaja.

The town contains sub-tahsil building, police station, post office, Arya high school, D.B. middle school, girls school, resthouse and dispensary. Mango groves are also to be seen around the town A Small Town Committee is functioning in the town and its population is 7493 souls. It is a big rice producing centre and rice husking factories are to be seen in a considerable number. During rainy season its climate gets malarial.

It is connected with Jullundur by rail and has been connected with Pathankot also by rail by constructing a bridge over the Beas. It is likely to become a very big city and an important place in years to come.

Urmar-Tanda.

These are two different towns situated one mile from each other The Municipality of Urmar Tanda also includes Ayahpur and Dala and is situated at a distance of 21 miles from Hoshiarpur. As it is situated near the marshy ground, the climate gets malarial during the rainy season. There is a shrine of Sakhi Sarwar as well as a *Sarai.*

Government College, Govt: High School, Police Station, Dispensary and Rest House form the public places. There are also a railway Station and a grain market.

Garhshankar.

Garhshankar is a historical place situated at a distance of 25 miles from Hoshiarpur on the Hoshiarpur-Rupar road is the headquarters of the tahsil. The tradition goes that before the first Mohammadan invasion, Raja Shankar Dass is said to have built a fort on the site of the present town, this town was taken by Sultan Mahmud Ghaznavi and subsequently given by Emperor Shahab-ud-Din Ghauri to the sons of Raja Man Singh. The Mahtons, who appear to have been the original inhabitants, were overpowered and driven out by the Rajputs in 1174. Rai Rup Chand was one of the most notable chiefs of the town who converted to Islam during the reign of Akbar. The Kali Mosque and the adjacent well are the architectural remains of the ancient Mohammadan time.

There is a Notified area Committee functioning in the town and the population of the town is 5495 souls. Government High School, Tahsil buildings, Police Station, Dispensary, Veterinary Hospital, Rest House, Sub-Judge's court and Zailghar comprise the public places.

Jaijon.

Jaijon is situated 10 miles north of Garhshankar on the outer edge of the Siwaliks, the population being 2030. Though at present it is a small town but once it was the seat of Jaswal Rajas. Raja Ram Singh built a fort here in 1701. It was taken by Ranjit Singh in 1815. The ruins of palaces of the Jaswal Rajas are still to be seen above the town. It is connected with Jullundur by rail which terminates here. It is a big *Khaddar* market. A small Town Committee is functioning here. The buildings of High School, Dispensary and the Railway Station form the public places.

Mahilpur.

It is situated at a distance of 10 miles from Hoshiarpur on the Hoshiarpur-Garhshankar road. There are a College, a High School, a Rest House, a Dispensary and a police station. Mango groves are found in abundance around the town.

Balachaur.

Balachaur is the headquarters of the sub-tahsil and is connected with Hoshiarpur, Nawanshahr, Rupar and Nurpur by road. There are a High School, Police Station, Rest House and a dispensary in the town. Ghee is exported from this town to all places in the Punjab.

Note explaining the tables given in a District Census Hand Book

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. **Substitution of Economic Classification for classification based on Religion :—**

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operations; and thus certain Census characteristics were cross tabulated by religion. During the persent census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

AGRICLTURAL CLASSES.

I. Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-culivating owners of land; agricultural rent receivers and their dependants.

NON-AGRICULTURAL CLASSES

Persons (including dependants) who derive their principal means of livelihood from :—

V. Production other than cultivation.

VI. Commerce.

VII. Transport.

VIII. Other services and miscellaneous sources.

The resulting figures have been given in the Primary Census Abstracts which serves as the basis for village statistics.

2. The Concurrents 10% Sample :—

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. Preservation of Census Recerds and Registers.

In the past, the abstract, (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative record by same States and printed and published by others. At the present Census, the following data are included in the District Census Handbook and printed and published as such :—

i Introduction to the District Census Handbook.

ii. District Census Tables (furnishing district data with break up for Census tracts, within the district).

iii. Census Ahstracts: (a) Primary Census Abstracts (b) Occupational Abstracts and (c) Census Abstracts of Small Scale Industries

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES.

I. Area, House and Population.

(The area figures given in this table have been supplied by the Deputy Commissioners of the districts ana hance do not tally with the area figures maintained by the Survey Deptt: No. of houses are which were found to be occupied at the time of house numbering by the revenue staff; un-occupied houses do not figure in the table).

II. Variation in Population during fifty years.

(The population figures given in this table for the previous

censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of areas transferred to and/or from each tahsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941).

III. **Towns and Villages classified by Population.**

IV. **Towns classified by population with variation since 1901.**

V. **Towns arranged territorially with population by livelihood classes.**

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together).

B. ECONOMIC TABLES

I. **Livelihood Classes and Sub-classes.**

(Non-earning dependants in this table mean economically passive persons i. e. who do not earn anything; and earning dependant implies a person who is semi-active, i. e. whose earnings do not suffice his living and who has, therefore, to depend upon others; self-supporting persons mean oconomically active persons i. e. who do not depend upon othere, and are at least able to maintain themselves.

II. **Secondary means of livelihood.**

(Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the the income of some other person and partly by his own; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases; the second best source of income has been given in this table as his secondary means of livelihood).

III. **Employers, Employees and Independant workers.**

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant Workers and are distributed in the various divisions and sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive e. g. persons living principally on pensions, remittances, scholarships and fund, inmates of jails, asylums, almshouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for

those divisions and sub-divisions in which no self-supporting person falls).

C. HOUSEHOLD AND AGE (SAMPLE) TABLES

I. Household (size and composition).

This table has not been published in the handbook.

II. Livelihood Classes by Age Grops.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year Age-returns.

(Infants below 1 year of age have been shown under the age '0'),

D. SOCIAL AND CULTURAL TABLES.

I. Language.

This table has not been published in the handbook.

II. Religion.

III. Scheduled Castes and Tribes.

(The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. Migrants.

(The fly-leaf of this table gives the number of people born in countries out side India but enumerated in this District).

V Displaced Persons.

(For Census purposes, a displaced person was taken to mean "any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Domininions of India and Pakistan." But some persons, who had migrated to India from Western Pakistan even before 1st March, 1947, returned themselves as displaced pcrsons at the time of Census taking for the simple reason that they had left their immovable property in Pakistan: such persons have also been included in the definition of 'Displaced Persons').

VI. **Non-Indian Nationals,**

(This table was not prepared in the previous censuses; it has been based on a suggestion made by the U.N. Population Commission).

VII. **Livelihood Classes,by Educational Standards.**

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes).

E. SUMMARY FIGURES BY DISTRICTS.

(This table furnishes selected data by Tahsil/tracts in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves).

NOTE :—The total of columns 11, 13, 15, 17, 19, 21, 23, and 25, does not tally with column 4 and the total of columns 12, 14, 16, 18, 20, 22, 24, and 26 does not tally with column 5 for (Rural) population of Dasuya Tahsil. The reason is that Sorter's Tickets O for 296 Villages Comprising a population of 54817 males and 48687 females were destroyed on account of fire and hence Livelihood Class details for these villages could not be given. Similerly discrepancy of 54817 males and 48687 females will be found in columns 4 and for Total Rural Population and Total District Population also.
