DCH-10	..	Jullundur			

PREFACE

The reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks, the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks were compiled by the Superintendent of Census Operations, Punjab, but the State Government has undertaken their publishing.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers, working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections, as also by students of social sciences interested in local problems. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some other useful information has been included in it, thus making it a self-contained book of reference for the District.

The book is divided into four parts. Part I consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry, co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. At the end appears a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing which among them have educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply; area; number of occupied residential houses and households living therein; population; persons belonging to Scheduled Castes and Scheduled Tribes; number of literate and educated persons; number of workers in nine broad industrial categories; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population; the population of towns is shown by proportionate circles, and of rural areas by dots. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared by Sarvshri Gurmit Singh Gill, Economic Investigator, and Malkiat Singh, Draftsman.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant, and Sarvshri Vishwa Mittar and Jaswant Lal Asstt. Compilers, for preparing the Tables appearing in Part II, under the supervision of Shri T.P.Garg, P.C.S., Deputy Superintendent of Census Operations; and of Shri G.D. Singla, Statistical Assistant (now Tabulation Officer) and Sarvshri Joginder Nath Suri, Computor (now Statistical Assistant), Dharam Paul Jain, Computor, and Ajab Lal Kakkar, Assistant Compiler, for preparing the Tables appearing in Parts III and IV, under the supervision of Shri Pawan Kumar, the then Tabulation Officer.

Shri Janak Raj Vashistha, Tabulation Officer, produced a comprehensive and commendable draft of this Handbook after paying a number of visits to the District, and after collecting a lot of information by personal observations and discussions with a large number of Officers in the District.

Shri Janak Raj Vashistha, Tabulation Officer, and Sarvshri Joginder Nath Suri, Statistical Assistant, and Ajab Lal Kakkar, Assistant Compiler rendered valuable assistance in seeing the report through the press.

The organisation is deeply indebted to Shri R.L. Anand, Ex-Superintendent of Census Operations, Punjab, Haryana and Union Territory of Chandigarh, for his overall direction, guidance and editing of this Report.

Our thanks are due also to Shri K.C. Kuriyan, Controller of Printing and Stationery, and Assistant Controller Shri P. Ommen, for their personal attention in the printing of the book.

H. S. KWATRA, P.C.S.,
Deputy Superintendent of Census Operations,
Punjab, Chandigarh.

J. L. ARORA, H.C.S.,
Deputy Superintendent of Census Operations,
Haryana, Chandigarh.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—There are two versions about the foundation of Hoshiarpur town, from which the District derives its name. One Hoshiar Khan, a resident of Bajwara (now a village near Hoshiarpur town) lived here about 600 years ago, and the town was named after him. The other version is that Hargobind and Ram Chand, Diwans of the Emperor Mohammad Tughlak, who reigned some six hundred years ago, founded this town.

Location and Boundaries.—Hoshiarpur is one of the nine Districts in the Jullundur Administrative Division. The District comprises that much portion of the Shiwalik Range as lies between the Sutlej and the Beas, together with a broad strip of the country at the foot of the range, and the greater portion of the valley of the Swan Nadi. The District is situated between 30° 58′ 10″ and 32° 05′ 50″ north latitude and 75° 28′ 15″ and 76° 38′ 50″ east longitude, it is bounded by Kangra, Simla and Bilaspur on the east, Jullundur and Kapurthala on the west, Gurdaspur (across the river Beas) on north and north-west and Ambala (beyond river Sutlej) on the South. The maximum length from north-west to south-east is 94 miles but the breadth varies from 20 to 32 miles.

Area (Table A-1)*.—The District covers 2,210 square miles according to the Surveyor General, India, and 2,221·8 square miles according to the Director of Land Records, Punjab. It is divided into the following four Tahsils:-

Tahsil	Area (Sq. miles)		
	Total	Rural	Urban
Dasuya	501.5	494·9	6·6
Hoshiarpur	523·7	519·3	4.4
Una	690·2	682·2	8·0
Garhshankar	506.4	505·9	0.5
Total	2,221 8	2,202·3	19·5

A notable feature of the District is the large number of *chos* (hill streams) which bring down water at high speed during the monsoon months but remain dry for the rest of the year. They are thus of little use for irrigation ; on the other hand they deposit sand on their shifting beds, laying waste the otherwise fertile land. Where these *chos* run across the roads, it is a common sight seeing vehicles waiting for water to subside before they can be crossed. They are too many to be bridged.

During 1951-61 one village Kosar about two square miles in area was transferred from Hamirpur Tahsil of Kangra District to Una Tahsil of this District (*vide* Punjab Government Notification No. 786-R-57/1712, dated 11th June, 1957).

PHYSICAL FEATURES

The District can be divided into three tracts :

(i) the valley of the Swan Nadi which forms the Una Tahsil ;

(ii) the western slopes of Shiwaliks forming a back line of the District ; and

(iii) the alluvial plain comprising Hoshiarpur, Dasuya and Garhshankar Tahsils.

THE MOUNTAIN SYSTEM

(1) *The Outer Shiwaliks.*—Down the centre of the District, though somewhat to the east, runs a continuation of the Shiwalik Range or Katar Dhar which geologically belongs to the tertiary system of the outer Himalayas. The breadth of the Shiwaliks is about 10 miles, and the elevation at Mahdwani, above Garhshankar, is 2,018 feet above sea level. To the east, a broad fertile valley, the Jaswan or Una Dun intervenes between them and the outer Himalayas. The breadth of the Dun varies from 4 to 8 miles, and the town of Una, near the middle of the Dun is 1,404 feet above the sea level. The valley is watered by the Swan stream which rises in its northern extremity and flows south-east until it falls into the Sutlej near Anandpur.

*Page 187.

(2) *The Sub-Himalayan Hills.*—The hills run south-eastwards, separating the District from Kangra and they increase in width as well as in height towards the south, so that at Bharwain the width is 20 miles and the elevation 3,896 feet from sea level. Thereafter the hills sink gradually into the Beas valley, but in the south, merge in the thickly wooded Jaswan Dun, some 15 miles in length and 8 miles in breadth.

Rivers.—There are two rivers of permanent flow in the District, namely, the Beas and the Sutlej, and they flow along the northern and southern boundaries of the District.

The Beas.—The Beas, which forms the northern boundary of the District enters the District near Talwara soon after debouching from the Himalayas, and on meeting Shiwaliks, curves northwards. At Motla, it runs south-west and thence forms the boundary between Hoshiarpur and Gurdaspur Districts. It is said that it once flowed much nearer to the Shiwaliks and it is probable that the line of *Chhambs* in Dasuya Tahsil formed its old course. For regulating the flow of water in the Beas and to harness it for irrigation and production of electricity, the Beas Dam is under construction at Pong near Talwara.

The Sutlej.—The Sutlej river enters the District near Bhabaur and flows south-east until at Rupar it cuts through the Shiwaliks and thence flows west. It drains the southern parts of the District. The Bhakra Dam, situated 7 miles up-stream of Nangal, is one of the highest dams of the world.

Swan Nadi.—This stream traverses the Jaswan Dun. During the monsoon it collects water from many drains and swells to a breadth of some two miles. It abounds in quick sand, and is very risky to cross when in spate.

Beins.—Besides the above there are two Beins in the District, which take their rise in the District, namely, the Black Bein and the White Bein. The Black Bein takes off from the Terkiana Chhamb and flows for the most part in Kapurthala District ; it is perennial. The White Bein takes its rise from hillocks near Garhshankar and after a very winding course, it turns sharp to the north and runs parallel with the District at places in Hoshiarpur and at places in Jullundur. Both these streams have a small width but are troublesome to cross on account of their depth and soft bed.

Canals.—Shah Nahar canal in the Dasuya Tahsil, Bist-Doab Canal in Garhshankar, and the Bhakra Canal are the important canals in the District.

(a) Shah Nahar Canal takes off from the Beas near Mukerian in the Hoshiarpur District. It was controlled by the District Board, Hoshiarpur until 1949, and irrigated at best 15,000 acres. As a programme under the Grow-More-Food Campaign, this canal was taken over by the Irrigation Department in 1949. The canal has been remodelled and now irrigates more than 50,440 acres.

(b) *Bist-Doab Canal.*—This canal takes off from the right bank of the river Sutlej from the Rupar Headworks and irrigates the area of Hoshiarpur and Jullundur Districts. The canal now serves 634,532 acres gross, out of which 501,732 acres are culturable.

(c) *Bhakra Main Line and allied Branches.*—The Bhakra Main Line, 108 miles in length, is in continuation of the Nangal Hydel channel, is designed to carry 124,555 cusecs of water. This canal and its allied branches irrigate the areas of Hoshiarpur, Ambala, Karnal and Kapurthala Districts in Punjab and serves also Rajasthan.

Chhambs.—The District has a chain of *Chhambs* or big water pools around which rice is cultivated extensively.

Chos.—The hill torrents or the *chos* flow down in the plains in the rainy season at short distances and they have affected the soil of the District very badly by depositing sand when they are in spate. Steps are now being taken by the Forest Department to close their passages and thus protect the lands from damage.

Geology.—The outer Shiwalik range consists entirely of vast beds of sand alternating with loams and clays in much smaller proportion with extensive beds of loose conglomerate or gravel. Most of the strata of sand are soft and ill-compacted, but there are extensive strata of stone.

Archaeology.—The coins and the remains of the old temples and buildings still to be found in the District point to the District having a direct connection with the dawn of the Indian History. Local legends associate several places in the District with the Pandavas and Sri Pandain, eight miles north of Hajipur, which contains a well and a temple derives its name from them. Dasuya is mentioned in the Mahabharata as the seat of Raja Virata in whose services the Pandavas remained for thirteen years during their exile and even to-day, it is called *Virat Ki Nagri.* Panjgatra at Babhaur on the Sutlej derives its name from the five stones said to have been used by the sons of Pandavas in the game of *Panch Satara.* Bham, seven miles west of Mahilpur, is said to be the place where the Pandavas passed their exile. Lasara, 12 miles north of Jaijon, also contains a stone temple, stated to be from the time of Pandavas.

Some muslim shrines at Shah Nur Jamal, 8 miles east of Hoshiarpur, and a mosque and a tomb at Garhshankar date back to 1250 A.D. and 1195 A.D., respectively. There are two mosques at Hariana, one dated 1597-98 A.D. and the other a little later. Anandpur Sahib is another place which may be mentioned here.

CLIMATE

Because of the sub-montane situation of the District, it does not suffer from excessive heat during summer. The climate is generally healthy as the water does not stagnate except in the Dasuya *Chhambs* though Malaria is not uncommon during the rainy season. There is scarcity of drinking water in the *bet* areas and Government has arranged safe water supply in several villages. Bharwain is a cool spot and is considered to be a sanitorium in the District.

On the average, the temperature at Nangal Township varies between 26.7 C and 7.20 C during winter and between 43.3 C and 36.0 C during summer.

Rainfall.—Table 1* shows monthly figures of number of rainy days and the amount of rainfall during 1951 through 1960 for the four Tahsil headquarter towns. The decennial average figures are as follows :—

Town	*Average Annual Rainfall (Cms.)*
Dasuya	93·7
Hoshiarpur	105·9
Una	126·0
Garhshankar	96·0

The heaviest occurs during July to September, and winter is comparatively dry.

Flora.—Kikar (Acacia arabica), *phulah* (Acacia modesta), *tahli* or *shisham* (Dalbergia sissoo), *Siris* (Albizzia lebek), *bakain* or *dhrek* (Melia sempervireus), *ber* (Zizyphus jujuba), mulberry or *tut* (Morus alba), *jaman* (Sizygium cumini) and mango or *amb* (Mangifera indica) are among the more common trees.

Some trees planted along the *cho* help in keeping it within the banks. Shisham is better than many other trees in this respect ; besides it has fast growth and yields valuable timber. *Phulah* or *phulai* has established itself profusely in the badly eroded Shiwaliks. In the better protected Shiwaliks of Garhshankar Tahsil, *dhao* or *chhal* (Anogiessus latifolia) is also found in abundance. In the hill forests of Hoshiarpur and Una Tahsils, *chil* (Pinus longifolia) and *sal* (Shorea robusta) predominate. Bamboo is found in the Bindraban and Karanpur Reserves.

Other trees found in the District are :

(1) *Aisan* (Pentaptera tomentosa); a good sized tree yielding wood of fair quality, and its leaves are used for fodder ;

(2) *Amaltas* (Cathartocarpus fistula) ; the bark is used for tanning and the fruit as a purgative ;

(3) *Amla* (Emblica officinalis) ; its fruit is used for pickles ;

(4) *Bahera* (Terminalia bellerica) ; the fruit is used for medicine, and leaves as fodder for milch cattle ;

(5) *Banna* (Vitex negundo); a good shrub to plant on the banks of streams ; branches are used for making baskets ;

(6) *Bar* or *bor* (Ficus indica) ; a shady tree near habitation ;

(7) *Bed* or willow (Salix babylonica) ; common both in hills and plains on banks of streams ;

(8) *Ber* (Zizyphus jujuba) ; a profitable tree, as its wood is hard, its fruit is eaten and its roots and shade do not damage crops growing close to it ; lac also is propagated on this tree ;

(9) *Bihul* or *beul* (Grewia oppositifolia) ;

(10) *Dhaman* (Grewia elastica) ; the bark of which is used for making ropes ;

*Page 66.

(11) *Bil* (Aegle marmelos); a thorny tree with a large fruit, which is used as a drug and its leaves are offered at the shrine of Shiva ;

(12) *Chil* (Pinus longifolia); found in various parts of the Shiwaliks, but is more common in the Sola Singhi, notably in the Lohara and Panjal forests ; its wood is used in construction and for making charcoal ; resin is extracted from the tree ;

(13) *Dheu* or jack-fruit (Artocarpus integrifolia); the leaves of which are used for fodder, and the fruit makes a good pickle ;

(14) *Gular* (Ficus amia), *pilkhan* (Ficus venosa); *trimbul* (Ficus roxburghii), and the *phaguri* (Ficus carioides) are various species of the fig, the fruit is eaten, but the wood is not of much use ;

(15) *Harar* or myrobalan (Terminalia chebula); which gives a fruit used for dyeing and as a drug ; it grows principally in the north of Shiwaliks and in parts of the Panjal and Dharui talukas ;

(16) *Jablota* (Jatropha curcus); the fruit of which is a powerful purgative ;

(17) *jaman* (Sizygium jambolanum) ;

(18) *Kakkar* (Pistacia integerrima); provides a fine-grained yellowish wood, useful for cabinets ;

(19) *Kamal* or *Kyamal* or *jhingan* (Odina wodier); the wood of which is used for door frames ;

(20) *Kamila* (Rottlera tinctoria); the red-powder from the fruit of this tree is used as a dye ;

(21) *Kangu* (Flacourtia sapida); prized for its wood, used for making combs ;

(22) *Karal* or *Kachnar* (Bauhinia variegata); has pretty blossoms and its leaves are used for fodder and its buds taken as a vegetable ;

(23) *Khair* (Acacia catechu); its wood is chopped and boiled in water for extracting *katha* and catechu ;

(24) *Khirni* (Mimusops kauki); prized for its delicious fruit;

(25) *Kinnu* (Diospyros tomentosa); prized for its ebony heart;

(26) *Lasura* (Cordia myxa); the leaves of which are used for fodder and the fruit is eaten;

(27) *Maulsari* (Mimusops elengi); the extract of which is used in hair-oils;

(28) *Mowa* (Bassia latifolia); which yields wood for house building, and the oil from its seed is used for making a spirituous liquor ;

(29) *Nagdaun* (Staphylea emodi); found near Chintpurni, is supposed to be snake-repellent;

(30) *Nim* (Azadirachta indica); the extract from which is used in medicines;

(31) *Palah, chhachra* or *dhak* (Butea frondosa); the leaves are a good fodder for cattle and also made into plates on which food is served;

(32) *Patanjan* (Putranjiwag roxburghii); the timber of which is used in buildings and agricultural implements and leaves for fodder;

(33) *Pipal* (Ficus religiosa) ; grown principally for shade;

(34) *Rajain* (Ulmas integrifolia);

(35) *Sal* (Shorea robusta); found in Lohara and Dharui, its straight trunk is prized for timber;

(36) *Simbal* (Bombax heptaphyllum); leaves of which are useful for fodder and the cotton for stuffing pillows ;

(37) *Sohanjna* (Moringa pterygosperma); its fruit is used for pickles;

(38) *Tamarisk* or *farash* (Tamarix orientalis);

(39) *Pilchi or jhau* (Tamarix gallica); common in alluvial river lands, its twigs are used for making good baskets;

(40) *Tun* (Cedrela toona); grows best in the hills and provides wood for building and furniture.

The common shrubs are *garna* (Carissa diffusa) common in the hills; its fruit is eaten and the bush cut and largely used for hedging: *mendar* (Dodonea burmanni), and very common in the Shiwaliks, used as fuel but the plant injures other vegetation; *basuti* (Adhatoda vasica), common both in hills and plains, the leaves are used as manure ; *ak* (Calotropis procera), a useless plant; *gandhla* or *gandhila* (Murraya koenegi), its leaves are used for flavouring the curry; and *mallah* (zizyphus nummularia), its fruit is edible and leaves are used as fodder for milch cattle and for making hedge.

Principal grasses.—There are three types of bamboo (Bambusa stricta and arundinacea): (i) *magar*, a very thick variety, (ii) *bans* and (iii) *nal*, a thinner variety. *Bans* grows in the Government forests of Karnpur and Bindraban but the two other varieties are more commonly seen in other areas *Kharkana* (Saccharum sara) is a very useful plant, its leaves (*khar*) are used for thatching, the sheath of its stalk(*munj*) is made into ropes, the stalk (*kana*) for making screens and chairs. *Kahi* (Saccharum spontaneum): its leaves are also used for thatching, and its stem is mended to provide pens for writing. *Khabal* (Cynodon dactylon), is a very nourshing fodder. *Bagar* (Andropagon ammulatus) is used for making rough type of ropes, but mostly it is used as packing material in baskets containing mangoes. It is propagated in the Shiwaliks, and is sent out in large quantities to the paper mill at Yamunanagar. *Bui* is a fine grass but not of any value. *Baru* (Sorghum halepens) is good for fodder. *Dib* or bulrush (Typha augustifolia) is used for making mats. *Nara* (Arundo donax) provides the tube in the huqqa (hubble-bubble). This grass is sometimes sown along the *cho* banks to prevent them from shifting their beds.

Fauna.- Plentiful ravines and ample water throughout the year encourage wild life in the District. *Sambhar*, once almost extinct, is now again found in the Shiwalik range and *chakor* (partridge) has infiltered from the Kangra District. Blue bull is on the increase, and spoils the fields. The wild birds and animals found in the District are listed below:—

I. Protected birds	*Un-protected birds*
1. Common peafowl	1. Himalayan jungle crow
2. Common red jungle fowl	2. Common house crow
3. White crested kalij-kulsa	3. Coot
4. Bush quails	4. Parrot
5. Hill partridge	5. Indian kite and hawk
6. *Chakor* (partridge)	6. Night jar (chapaki)
7. Black partridge	
8. Grey partridge	
9. Indian button quail	
10. Common quail	
11. Black breasted quail	
12. Duck and goose	
II. Protected animals	*Un-protected animals*
1. Indian antelope or black buck	1. Leopard, panther
2. Barking deer	2. Jungal cat
3. Spotted deer	3. Mongoose

II. Protected animals—contd.

4. Sambhar
5. Hare

Un-protected animals—contd.

4. Jackal
5. Pig
6. *Nilgai* (Blue bull)
7. Monkey and langoor
8. Hyena
9. Indian fruit bat
10. Indian porcupine
11. Squirrel, rat and mouse

The game sanctuary at Lohara, three miles south of Bharwain, is a hilly tract at an elevation of 3,200 ft. It was established in 1937, and is about 2 square miles in area. The main wild life species here are spotted deer, hog deer, barking deer, leopard or panther.

The Beas and the Sutlej abound in fish of which the *mahasir* and *rohu* are considered the best. Good fishing is to be had where these rivers first debouch from the hills. The smaller streams, the *chhambs*, and some of the larger tanks also abound in fish.

Snakes are found all over the District. The most common of these are the dreaded *kharapa* (Cobra), *sankhchor* (Ophiophagus elaps) and *karait* (Bungarus coeruleus).

HISTORY

Early History.—Archaeological remains in the District are few and unimportant. From scattered notes of Raja Tarangini, the hints gained from inscriptions, and above all from the information left on record by the Chinese pilgrim, Hwen Thsang, it is surmised that the area now called Hoshiarpur was dominated by a tribe of Chandrabansi Rajputs who maintained independent existence for centuries before the Mohammedan conquest. Jullundur was its capital and Kangra was an important stronghold. In the seventh century, the kingdom is described by Hwen Thsang as being 167 miles from east to west, and 133 miles from north to south. If these dimensions be correct, the kingdom, as General Cunningham points out, probably included, in addition to the plains portion of the Jullundur Doab and the Kangra Hill States, Chamba, Mandi and Suket in the hills and Satadru or Sirhind in the plains. The country is referred to as Katoch, and Trajgartha in the Puranas when at an unknown date that kingdom broke up into numerous petty principalities, and the Jaswan Rajas, a branch of the Katoch dynasty, established themselves in the Jaswan Dun.

The Mohammedan Period.—The plains probably came under Mohammedan rule on the fall of Jullundur in 1088, to Ibrahim of *Ghor* dynasty but the hills remained under the Hindu chieftains. In 1399, Taimur ravaged the Jaswan Dun on his way to capture the Kangra fort. In 1420, an impostor, calling himself Sarang Khan, appeared at Bajwara, a dependency of Jullundur, and assembled a strong following. He advanced to the Sutlej and was joined by the people of Rupar, but Malik Sultan Shah, a feudatory of Sirhind, defeated him and put to death. In 1421, Jasrath, a Khokhar, raised a serious revolt and made a grim bid for the empire of Delhi, but in 1428, he was defeated near Kangra. After that event several Pathan military colonies were founded in the plains along the base of the Shiwaliks, and Bajwara became the headquarters. The fort of Malot founded in the reign of Sultan Behlol, by a Pathan grantee of the surrounding country, was Daulat Khan's stronghold. It played an important part in Babar's invasion, and after its surrender, Babar crossed the Shiwaliks into the Jaswan Dun and marched on to Rupar, and defeated Sultan Ibrahim at Rupar. A Governor of Malot under Sher Shah ruled all the hills as far as Kangra and Jammu and organised some kind of revenue system. By this time, Dadwals, another Katoch family, had established themselves at Datarpur in the Shiwaliks. The Jaswans were disposed of without actual fighting. After this, by the close of the sixteenth century, the District settled down under the Moghul rule and was included in Todar Mal's great revenue survey.

Sikh Period.—Under the Sikhs the history of the plains portion of the District is intimately connected with Jullundur. It was over-run by Sikh adventurers. The Jullundur District Gazetteer gives a fairly distasteful account of the Sikh misls, one overthrowing the other in turn, in the general disorderly conditions.

British Period.—The District was annexed by the British with the rest of the Jullundur Doab at the close of the first Sikh war. Mr. J. (afterwards Lord) Lawrence became the first commissioner of the trans-Sutlej States in March, 1846. In 1849, when the rest of the Punjab was annexed to the Board of Administration, the hill chiefs were disappointed as they did not get back the possessions which they had held before Ranjit Singh laid

hands on them. When in 1848, the Second Sikh War began, the Rajas of Jaswan, Datarpur, and Kangra rose in revolt. Lord Lawrence who happened to be at Pathankot, swept down the Dun with 500 men and 4 guns. The Raja of Datarpur was made prisoner without a blow, but the Jaswan Raja resisted and his two positions at Amb and Akhrot were attacked and carried. The Rajas were deported, their palaces razed and their possessions confiscated. The Mutiny did not affect the District.

First constitution of the District, and subsequent changes.—The District as first constituted consisted of five tahsils; Mukerian, including the northern end of the Shiwalik range; Hariana and Hoshiarpur from the Chintpurni range to the Jullundur boundry; Una and Garhshankar in the southern portion of the District, the water sheds of the Shiwaliks forming the boundry between them. Taluka Jandbari was transferred from the Ambala District in 1850. In 1861, the Hariana Tahsil was abolished, and its western portion, comprising the Tanda police jurisdiction, was made over to Mukerian Tahsil, the headquarters of which were transferred to Dasuya. The hill portions, i.e., those to the east of the Shiwaliks, of Tahsils Hariana and Hoshiarpur, were transferred to Una, and the rest of the Hariana Tahsil joined to Hoshiarpur which on the other hand parted with the Mahilpur thana, to Garhshankar. Thus, the District was reduced to four tahsils of Dasuya, Hoshiarpur, Una and Garhshankar.

In 1947, came Partition followed by wholesale migration of Muslim population from the District and influx of displaced persons from the West Punjab. Under the Province and States (Absorption of Enclaves) Order, 1950, Bhunga Sub-Tahsil of Kapurthala District including 24 villages was transferred to this District. Tahsil Una gained the village of Kosar (2 sq. miles) from Tahsil Hamipur of Kangra District in 1957.

TOWNS AND PLACES OF INTEREST

Hoshiarpur (Area 3.91 sq. miles: Population (1961) 50,739).—Hoshiarpur is the headquarters of the District and Tahsil of Hoshiarpur, situated in 31°—32′—00′N. and 75°—54′—30″E., at the foot of the Shiwaliks.

In olden days the town was of not much importance and in the time of Akbar, no mention of it has been made in the historic records. It is believed that it was then included in the Mahal of Bajwara. It was seized in 1809 by Ranjit Singh, and made the headquarters of the Governor of the Jullundur Doab. At present, it is connected with metalled road with all the outlying Tahsils and towns. Its distance from Jullundur is 25 miles with which it is connected by road as well as by rail. The town has made notable extension after Partition towards the east and west. Its extension towards the north is checked by a *cho*.

There are a number of rosin and turpentine factories. A pine oil factory was established here in 1960, the only one of its kind in India. Hoshiarpur also is a market for shoes, brass-wares, ivory-inlay goods and furniture etc. It is also a leading market for maize.

Hoshiarpur is now a Class I Municipality, which was constituted in 1864. Its revenue during 1960-61 was Rs. 928,662 derived chiefly from Octroi, and its expenditure was Rs. 947,379. The town has a Regulated Market since 1841. Besides, there are a P.W.D. Rest House, a Civil Rest House, Municipal and Zila Parishad Halls, two Police Stations, a sub-jail, a finely built bus stand in the Model Town, a Railway Station, a Telegraph Office and a Telephone Exchange, a public garden, Clubs and *Shish Mahal*. The District and Sessions Judges Courts, Deputy Commissioner's office, and District/Divisional Offices of various Government Departments are located here. There are four cinema houses in the town.

Among educational institutions in the town are: the Government College; D.A.V. College; S.D. College (closed in 1964); J.R. Govt. Polytechnic (taken over by Government in 1962); Vishveshvaranand Vedic Research Institute which besides Oriental Research runs classes in M.A. Sanskrit; a Govt. Industrial School for boys and another for girls. An Industrial Training Institute was established in 1963, and the D.A.V. Institute has opened a Post-Graduate Training College in 1966. There are at present four High /Higher Secondary Schools for boys, namely , the D.A.V. Higher Secondary School, S.D. Higher Secondary School, Govt. High School, and S.A. Jain High School, and three schools for girls, namely, the Govt. Higher Secondary and Basic Training School, Shrimati Parvati Devi Arya Mahila Higher Secondary School and G.N. High School.

The medical institutions in the town include a Civil Hospital, a Maternity Hospital, a Police Hospital, a Mahila Ashram, a Municipal Dispensary and a T.B. Clinic, and a Veterinary Hospital.

Hariana (Area 0.25 sq. mile: Population (1961) 4,468).—This town is 9 miles north of Hoshiarpur on the Hoshiarpur-Dasuya road. It was the headquarters of a Tahsil from 1846 to 1860, which was abolished in 1861. It is known for fine mango-groves. A small perennial stream runs to the south of the town, and the surrounding landscape is very picturesque. There are two old mosques in Hariana. The mosque of Mufti was built by Haji Sambal Khan in the reign of Akbar. The Qazi's mosque is a little larger and of a somewhat later date.

The town is served by a Class III Municipal Committee with an income of Rs. 40,968 and expenditure of Rs. 50,753 (1960-61).

A Zila Parishad Rest House, a Civil Dispensary, a Veterinary Hospital, Hindu National College, D. A. V. High School and H. D. N. High School for boys and Chak Jhumra S. D. and Arya Higher Secondary School for girls and a police station are the public institutions in the town.

Garhdiwala (Area 0.13sq. mile : Population (1961) 3,153).—This town is 18 miles from Hoshiarpur on the Hoshiarpur-Dasuya road. The town was built in 1443 by one Garhia, a Jat who named it after himself, and the addition of Diwala is said to have been made in 1812, on the incarnation of the goddess (Devi) in the town ; in honour of this event S. Jodh Singh, Ramgarhia, built a temple. The word Diwala is contraction of Devialaya. The said Sardar also built a fort here in 1829. Around the town, there are some groves of mangoes. Starting from here, a belt of mango gardens can be seen up to Mahilpur. An industry of the place is canning of mangoes.

A municipal committee was constituted here in 1955, and its income during 1960-61 was Rs. 21,150 and expenditure, Rs. 17,823. There are a police post, a post office, a civil dispensary, a verterinary hospital, the Khalsa Higher Secondary School and K. R. D. A. V. High School for boys and Onkar Putri Pathshala and S. H. High Schools for girls.

Shamchaurasi (Area 0.07 sq. mile: Population (1961) 2,470).—It is situated at 13 miles from Hoshiarpur and is connected with the Hoshiarpur-Jullundur road by an approach road. It is also a railway station on Jullundur-Hoshiarpur branch line. A municipal committee functions in the town. In 1960-61, it had an income of Rs. 10,817, chiefly derived from octroi, and an expenditure of Rs. 11,476.

Rauza Hazrat Shami Sahib, an old well, a tank, a *baradari* and a *sarai* are places of local repute.

A civil dispensary, Layalpur Khalsa Collegiate Higher Secondary and S. D. Higher Secondary Schools for boys and Khalsa Collegiate Middle School for girls function in the town.

Bajwara (Area 3.59 sq. miles : Population (1961) 3,843).—Bajwara, now a suburban village of Hoshiarpur was once a thriving habitation. It was founded by three immigrants from Ghazni, one of whom, Baju Baora, renowned as a singer, gave his name to the town. The town is mentioned in the *Ain-i-Akbari* as famous for horses. Todar Mal, one of Akbar's ministers, is said to have broken up the town into small divisions as punishment to the inhabitants for not showing him due respect.

In later times, it was held by Sardar Bhup Singh, Faizullapuria, who was ousted in 1801 by Raja Sansar Chand. The latter built a fort here, which was taken by Ranjit Singh in 1825. Since then the town has declined and its ruins have been largely used for road mettle. The fort was utilized as a military prison in the earlier years of the British administration, but was afterward dismantled, and at present only two of its ruined bastions are to be seen.

Lala Chuni Lal free Hospital administers free treatment to the patients. The S. B. A. C. High School and a post office are its other public institutions. An annual fair is held at Sain Sahib also known as Sarwang Sahib Temple on the Basant day. Similar fairs are held at the Ravidas Mandir in the month of *Magh*, and at the Sadhu Ashram in the month of *Baisakh*. There is an ice factory at Bajwara. A Community Development Block was opened here in 1963.

Dasuya (Area 0.65 sq. mile : Population (1961) 8,721).—This town is 25 miles to the north-east on the Hoshiarpur-Mukerian road, and is the headquarters of a Tahsil of the same name. It is also a railway station on the Jullundur-Pathankot line. Dasuya is said to be the capital of Raja Virata of the Mahabharata. There is an old fort to its north, a great part of which was demolished in 1884, but one of the towers still remains. It is mentioned in the *Ain-i-Akbari* and later it became a stronghold of the Ramgarhias, and was annexed in 1817 by Ranjit Singh. There is an old tank in the town having lotus plants. A municipal committee functions in the town, which in 1960-61 had an income of Rs. 70,370 and expenditure of Rs. 63,536.

The S.D.O's (Civil) office, the Judicial and Civil Courts, a Sanatan Dharma Sabha, a *sarai*, and a temple, a police station, a Primary Health Centre, a Veterinary Hospital, a Civil Rest House, a Municipal Hall are among important places of the town. On the educational side may be mentioned the D. A. V. Higher Secondary School and S. H. Khalsa Higher Secondary School for boys and the Government High School for girls. There is also a sub-jail at Dasuya and a Community Development Block, the latter opened in 1958.

Dasuya lies in rice producing area. In the town are a few rice husking factories. Sugarcane is sent from here to Hamira and Phagwara in large quantities.

Mukerian (Area 1.00 sq. mile : Population (1961) 8,676).—This town is 10 miles to the north of Dasuya and is the headquarters of a sub-tahsil. It is also a railway station on the Jullundur-Pathankot line . Till 1861, it was the headquarters of Mukerian Tahsil when the headquarters were shifted to Dasuya. The town is said to have been built by Chaudhri Dara Khan in 1754. Ranjit Singh's reputed son, Sher Singh, who afterwards became the Maharaja, was born here.

The town is served by a Class III municipal committee, created in 1955 ; its income and expenditure in 1960-61 were Rs. 121,597 and Rs. 169,070, respectively.

The town has the sub-tahsil office, a police station, a post and telegraph office, a civil hospital, a veterinary hospital, a civil rest house, the A. S. Higher Secondary School, Bakwal S. P. S. Khalsa Higher Secondary School for boys and the Arya Higher Secondary School for girls, and a Cinema House. A C.D. Block was established here in 1963.

Urmar Tanda (Area 5.00 sq. miles: Population (1961) 10,383).—There consists of two localities, about a mile apart : Urmar and Tanda. The municipality of Urmar Tanda also includes Ayahpur and Darapur. The town is 10 miles from Dasuya Tahsil headquarters and 21 miles from Hoshiarpur, and is also a railway station on the Jullundur-Pathankot line. There is a shrine of Sakhi Sarwar and a *sarai* here.

A Government College, Government Higher Secondary School, D. A. V. High School for boys and Government High School for girls, a Primary Health Centre, a Veterinary Hospital, a Zila Parishad, a Rest House, a Police Station and a Post and Telegraph Office are among the public places in the town. A Class II municipal committee was instituted here in 1884. In 1960-61, it had an income of Rs. 130,416 and an expenditure of Rs. 122,528. The town has a regulated grain market. A Community Development Block is functioning here since October, 1959.

Garhshankar (Area 0.50 sq. mile : Population (1961) 5,976).—Garhshankar is a historical town, situated 25 miles from Hoshiarpur on the Hoshiarpur-Rupar road, and is the headquarters of a Tahsil. It is said that before the first Muslim invasion, Raja Shankar Das built a fort on the site of the present town but it was taken by Mahmood Ghaznvi and subsequently given by Emperor Shahab-ud-Din Ghauri to the sons of Raja Man Singh. The Mahtons, who appear to have been the original inhabitants of the place were over-powered and driven out by the Rajputs in 1174. The Kali mosque and the adjacent well are the architectural remains of the olden times.

A Municipal Committee was constituted here in 1944. Its income was Rs. 41,722 and expenditure Rs. 39,047 in 1960-61.

The S. D. O's (Civil) office, the Tahsil office, the Civil Court, a railway station, a police station, the Government Higher Secondary School and Hans Raj Arya Higher Secondary School, a Primary Health Centre, a Veterinary Hospital, a Post and Telegraph office, an Inspection Bungalow are the public places in the town. There is also a regulated grain market. A Community Development Block is functioning here since October, 1954.

Balachaur (Area 5.05 sq. miles : Population (1961) 4,422).—Balachaur is the headquarters of the Sub-Tahsil and is connected with Hoshiarpur, Nawashahr, Rupar and Nurpur by road. There are a Primary Health Centre, a veterinary hospital, a police station, a Post and Telegraph Office, a Civil Rest House and D. A. V. Higher Secondary School here. Among the articles sent out of the town, *ghi* is important. A Community Development Block is functioning here since April, 1956.

Mahilpur (Area 2.61 sq. miles : Population (1961) 4,118).—It is situated ten miles from Hoshiarpur on the road leading to Garhshankar. There are in the town a S. G. G. S. Khalsa College, two Government Higher Secondary Schools, one each for boys and girls, a Zila Parishad Rest House, a Civil Dispensary, a Post and Telegraph Office , and a Police Station. A Community Development Block is functioning here since April, 1957.

Jaijon (Area 0.22 sq. mile: Population (1961) 1,206).—This town lies on the fringe of the Shiwaliks and is ten miles north of Garhshankar. It is connected with Garhshankar both by rail and road. A small section of railway line from Jullundur terminates here ; it was perhaps built because of the stone found in the bed of a stream here, which was used in the manufacture of glass. The municipal committee of the town stands abolished. It was once the seat of Jaswal Rajas, and Raja Ram Singh built a fort here in 1701. It was taken by Ranjit Singh in 1815 and dismantled on annexation by the British Government. The ruins of the fort are still to be seen. The town is an important centre for weaving *khadi*. Among the public institutions here are a Primary Health Centre, the Hindu Higher Secondary School and a Post and Telegraph Office.

Una (Area 0.63 sq. mile : Population (1961) 5,166).—It is the headquarters of a Tahsil of the same name and lies in the Jaswan Dun. The town is 23 miles east of Hoshiarpur and is connected by pucca roads with Hoshiarpur, Anandpur and Gagret. The town was founded by Baba Kala Dhari and a temple and a mausoleum associated with his name are held in esteem by the Sikhs.

The S. D. O's (Civil) office, the Judicial and Civil Courts, Tahsil Office, a Police Station, P. W. D. Rest House, Civil Hospital, Veterinary Hospital, Community Development Block Building, D. A. V. Higher Secondary School and S. D. High School for boys and Government High School for girls are among the public places in the town. A C. D. Block is functioning here since 1953.

The town is served by a municipality which was instituted in 1955. Its income and expenditure in 1960-61 were Rs. 34,915 and Rs. 35,838, respectively.

Nangal (Area 7.07 sq. miles : Population (1961) 42,359).— Nangal is situated on the road leading from Una to Anandpur Sahib and its distance from Anandpur is 12 miles by rail. Nangal is now divided into two towns, Nangal Township and Naya Nangal, each served by a Notified Area Committee. Until very recently, Nangal was a village, but now it is a flourishing township, beautifully planned, with pacca roads on the bank of river Sutlej over which a long-wanted bridge has been constructed. At Nangal, there is the subsidiary dam, 1,000 feet long and 95 feet high, which is meant for diverting water into the Nangal Hydel Channel. In this way, the Nangal Dam heads up the water of the river Sutlej coming from Bhakra Dam, and forms an artificial lake four miles long. The Nangal Fertilizer and Heavy Water Factory, the biggest single consumer of electricity of Bhakra Power House, is also located here. It went in production in 1961, and produces 1,200 tons of Calcium Amonium Nitrate per day and 14.5 tons of heavy water in a year.

There are three shopping centres at Nangal, namely, the Main Market, the Gol Market and the Adda Market, and three parks, viz., the Nangal Dam Park, the Jawahar Park (under development) and the Children's corner. The clubs include the Officer's Club, the Staff Club and the Naya Nangal Club, in which temporary membership is allowed to visitors and here is also the Shiwalik Talkie. The educational institutions in the town are the Government High School, Government Girls High School, Naya Nangal Higher Secondary School, a Model School, a Public School, an Industrial Training Institute and a Government Industrial School for girls. The Canal Hospital and Maternity and the Child Welfare Centre provide medical facilities. The Punjab National Bank and the State Bank of India have their branch offices here and two Post and Telegraph offices.

Nangal is visited by a large number of visitors for whose stay there are three Rest Houses, two Guest Houses, the Naya Nangal Hostel, a Tourist Bungalow, a Visitors' Lodge and two dharamshalas.

Bhakra Dam.—The Bhakra Dam is seven miles up-stream of Nangal, is one of the highest dams in the world. It is 740 feet high and can hold 8 million acre feet of water, forming a sixty miles long lake, called Gobind Sagar. On the down-stream base it is flanked by two big power houses on either side of the river, each fitted with ten generators, capable of producing 1,050,000 Kws. of electricity.

Ganguwal and Kotla Power Houses.—These two power houses are situated on the Nangal Hydel Channel. Ganguwal is 12 miles and Kotla is 18 miles from Nangal and are connected with the main Chandigarh-Nangal road. At both the places, there is a beautiful waterfall. Accommodation is available in Government Rest Houses at these places.

Anandpur Sahib (Area 0.33 sq. mile : Population (1961) 4,189).—It is situated at 48 miles from Hoshiarpur and 8 miles from Naina Devi, in Una Tahsil. It is 13 miles by road from Nangal on the Nangal-Chandigarh road. The town was founded by Guru Tegh Bahadur when he shifted here from Bakala in the Amritsar District. Anandpur Sahib is a railway station. It has a Post and Telegraph office, a Primary Health Centre, the S. D. High School, the S.G.G.S. Higher Secondary School for boys and the Government High School for girls. A Community Development Block was opened here on 1st April, 1962. The Municipal Committee was instituted in 1955 and its income and expenditure in 1960-61 were Rs. 28,934 and Rs. 25,517, respectively.

At Anandpur Sahib, Guru Gobind Singh established a retreat, where he resorted during the war simultaneously with the hill chiefs and the Moghuls. After his contest with the Raja of Nahan when he slew the young warrior, Hari Chand of Nalagarh, with his own hand, the Guru moved back on the Sutlej, and strengthened Anandpur Sahib. He formed an alliance with Bhim Chand of Bilaspur, whom he assisted in defeating the imperial troops. Aurangzeb then directed the Governors of Lahore and Sirhind to march against Guru Gobind Singh and he was encircled at Anandpur Sahib. His followers, in this emergency, deserted him, and at last he was left with only 40 devoted comrades. He then escaped to Chamkaur Sahib where he was again attacked, and losing his two eldest sons and almost all his remaining followers, he again took to flight. The principal shrines at Anandpur are described below.

(i) *Gurdwara Takhat Sri Keshgarh Sahib.*—It is one of the four sikh seats of Sikh religion where Guru Gobind Singh instituted the ritual of baptism and founded the Order of the Khalsa (the pure ones). The gurdwara is three storeys high built on a hillock. The main entrance gate (Darshini Deorhi) faces east. There is a spacious compound in front of the building where religious congregations are held. The holy book is placed on the first floor in the central hall ; there is also a small show room where weapons used by Guru Gobind Singh are exhibited. On the second floor, there is a spacious hall where the ceremony of baptism (*amrit chhakna*) is performed. There is an imposing dome on the hall with a golden *kalas* on the top. Smaller domes decorate the parapet. On the ground floor are located the offices of the gurdwara management, the stores and a number of rest rooms for the pilgrims.

(*ii*) *Gurdwara Sis Ganj.*—It lies two furlongs to the south of Gurdwara Keshgarh. At this place, the slain head of Guru Tegh Bahadur Sahib, the 9th Guru of the Sikhs, brought by Baba Jiwan Singh from Delhi was cremated by his son, Guru Gobind Singh. It contains a building, known as Akalbunga and Guru Tegh Bahadur's *smadh.* It is a dome-shaped building with the Sikh banner hoisted atop. The Gazetteer of Hoshiarpur District (1904) refers to it as Gurdwara Tegh Bahadur.

(*iii*) *Gurdwara Anandgarh Sahib.*—Located about four furlongs to the north-east of Gurdwara Keshgarh, on another hillock, this was the first and the main fort built by Guru Gobind Singh in 1686 A.D. It is also a dome-shaped building having a *baoli.* Guru Gobind Singh fought a number of battles at this spot.

(*iv*) *Gurdwara Manji Sahib.*—At this place, the two younger sons of Guru Gobind Singh, Ajit Singh and Jhujar Singh, used to play in their childhood. Guru Gobind Singh would also sometimes sit here. It is close to the Gurdwara Keshgarh.

(*v*) *Gurdwara Damdama Sahib.*—It is said to be the place where the ceremony of the coronation of Guru Gobind Singh took place and where he used to sit at the time of Hola, administer sermons and receive offerings.

(*vi*) *Gurdwara Bhora Sahib.*—This Gurdwara lies very close to Gurdwara Damdama Sahib. It contains a *bhora* (an underground cell) where Guru Tegh Bahadur Sahib used to sit in meditation.

Hola Mohalla.—A big fair called the Hola Mohalla is held at Anandpur Sahib, synchronising with the Holi festival which comes off on the full moon day of *Chaitra* falling in March-April. It starts one day earlier than Holi and lasts for three days. Some two lac visitors attend the fair.

Bharwain.—This salubrious spot is 28 miles from Hoshiarpur on the Hoshiarpur-Dharamsala road and is the highest point, 3,896 feet above sea level in the District. It has a nice Civil Rest House on the hill-top, a Post Office and Government High School.

Chintpurni (Area 0.22 sq. mile : Population (1961) 534).—At a distance of 2½ miles to the north-west of Bharwain is the temple of the goddess Chintpurni. Three fairs are held here annually, the first fair is in *Chet,* the second in *Sawan* and the third in *Asoj.* The temple is a single storeyed building made of stones. The deity, an egg shaped stone idol (*pindi*) of the Goddess rests on a palanquin of white marble in the room inside. The offerings are taken by the *pujaris* who attend on the deity by turn. Pilgrims from all over northern India visit the temple during the Navratras, and some times the attendance touches one lac. . There is a Civil Dispensary. S. D. High School and Post Office at Chintpurni.

Mairi (Area 5.82 sq. miles : Population (1961) 1,526).—This place is two miles north-east of the village Nehri which is at a distance of 24 miles from Hoshiarpur on the Hoshiarpur-Amb-Hamirpur road. The place is known for the shrine of Gurbarbhag Singh and the Hola Mohalla fair which is held here on the full moon day in the month of Phalgun (February-March). The fair lasts for 10 days, i.e., a week before the full moon day and two days after it; and attracts about 75,000 persons from different parts of Punjab, U.P. and Delhi. The Sikhs of Doaba. Majha and Malwa tracts of Punjab especially are the votaries of Gurbarbhag Singh. Persons supposed to be possessed by evil spirits and other malign influences are treated by exorcism during the fair days. Another fair is held on the Baisakhi day which is attended mostly by the residents of Kangra District and Una Tahsil of Hoshiarpur District. A Primary School and a Post Office are also located here.

Kiratpur (Area 2.44 sq. miles : Population (1961) 426).—This place is situated 6 miles from Anandpur Sahib towards the south, on the Nangal-Rupar-Chandigarh road. The place is considered to be sacred by the Sikhs. There are several shrines at Kiratpur, such as Gurdwara Baba Gurditta, the Harmandar Sahib, the Sis Mahal, the Takhat Sahib, the Manji Sahib, Patalpuri and Khangah Baba Budha Shah. Besides, there is a post office and S. D. High School.

Beas Dam.—The Beas Dam at Pong (Unit II) is an irrigation project. It is approached from Mukerian, travelling via Hajipur and Talwara. The Dam is located 24 miles from Mukerian which is the nearest rail-head. The project will have cost Rs. 123 crores on completion. It will be an earth-cum-gravel dam rising about 330 feet above the head of river Beas. The reservoir will have a surface area of 98 square miles, a gross storage of 6.60 million-acre feet and live storage of 5.60 million acre feet. Five diversion tunnels giving a total length of 15,900 feet will be ultimately used as outlet tunnels and pen-stock tunnels. A power house on the left bank of the river will be constructed having an installed capacity of 144 Mws. The construction of the dam is in an advanced stage. When the dam is yoked in service, the Rajasthan Canal and the Sirhind Feeder will get perennial supplies of water.

14

ADMINISTRATIVE MACHINERY

Deputy Commissioner.—The General administration of the District is vested in the Deputy Commissioner who is under the administrative control of the Commissioner, Jullundur Division. The Deputy Commissioner has a triple role to play. As Deputy Commissioner, he is the executive head of the District with responsibilities in the sphere of development activities, Panchayats, Local Bodies, Civil Administration, etc. As District Magistrate, he is responsible for maintaining law and order and is the head of police, executive magistracy and prosecuting agency in the District. As Collector, he is the Chief Officer of the Revenue Administration and is responsible for the collection of revenue, and is the highest revenue judicial authority in the District. He is also responsible for execution of the Plan Schemes in the District and as Chairman of the standing committee, he co-ordinates the working of all national building departments in the District. He executes and administers the rule and regulations framed by the Government from time to time, and represents the grievances of the district people to the Government and tries to redress them. He has under him the Sub-Divisional Officers, the General Assistant, the Revenue Assistant, and the District Development and Panchayat Officer.

S.D.O. (Civil).—The Sub-Divisional Officers (Civil) exercise direct control over Tahsildars and the staff in their respective areas. Their powers are analogous to those of the Deputy Commissioner without undermining the latter's position and effectiveness as the executive head of the District. This decentralization has been made in order to give relief to the Deputy Commissioner and to leave him with more time for other work. The duties of the Sub-Divisional Officer thus fall in three broad categories :—

(i) Duties pertaining to development, Local Bodies, Market Committees, Motor Taxation, Passports and renewal of Arm Licences ;

(ii) Executive and Judicial work in connection with revenue (original and appellate duties) ;

(iii) Law and Order.

Tahsildar.—Tahsildars and Naib-Tahsildars are invested with class II and class III criminal powers, respectively, while on revenue side both are Assistant Collectors, Class II. Their main task being revenue collection, they have to tour intensively in the Tahsil but they also play an important role in the execution of development plans, construction of roads, drains, embankments, etc. They also help the Block Development and Panchayat Officer in enlisting the co-operation of the people in rural areas to achieve establishment of Panchayati Raj.

They are assisted by Office *Kanungos*, Field *Kanungos* and *Patwaris*. A *Patwar* Circle comprises a number of villages which are the smallest units of revenue administration. The *Lambardar* collects the land revenue according to a list prepared by the *Patwari*, showing the amount due from each land-owner. For this service he gets 5 per cent of the revenue demand. The *Lambardar* is assisted by the village Chaukidar who also keeps a watch over the village at night.

The District of Hoshiarpur as constituted at present consists of four Tahsils, namely, Dasuya, Hoshiarpur, Una and Garhshankar. By 1961, Dasuya and Una had been turned into Sub-Divisions. At present (September, 1966) all the four Tahsils have been converted into Sub-Divisions. In order to meet growing needs of public administration, the Government have introduced the system of decentralization of authority in the Sub-Divisions for ensuring better supervision over public affairs.

In his multifareous duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra Assistant Commissioners at the District Headquarters, and at the Sub-Division level variously for maintenance of the land records and land revenue collection.. They are also entrusted with the rehabilitation work and control of the revenue establishment of their respective sub-divisions. One of the Extra Assistant Commissioners at headquarters is designated as Officer Incharge of the Sadar Kanungo Branch, who assists the Deputy Commissioner, in exercising control over the aforesaid revenue work relating to the whole of the District.

The Deputy Commissioner at present (September, 1966) has under him four Sub-Divisional Officers/ Magistrates and two permanent Executive Magistrates (General Assistant and District Development and Panchayat Officer) 1st Class, in addition to a number of Assistant Commissioners and Extra Assistant Commissioners.

The General Assistant to the Deputy Commissioner controls the office of the Deputy Commissioner especially the establishment, licencing and copying branches, English and Vernacular record rooms.

The District Development and Panchayat Officer controls the development activities and the housing schemes in the District. He co-ordinates the activities of the Block Development and Panchayat Officers.

The Settlement Officer of Consolidation of Holdings works under the dual control of the Deputy Commissioner and the Director of Consolidation of Holdings. With the major completion of the consolidation work in the District, this post was abolished in 1965.

The Deputy Commissioner is also the Registrar of the District for the registration of documents and wills pertaining to the transfer of immovable property. The post of Honorary Sub-Registrar has now been abolished and the Tahsildars and Naib-Tahsildars act as *ex-offico* Sub-Registrars within their respective jurisdiction.

Civil Justice.—The administration of civil justice in the District, is handled by the District and Sessions Judge, Hoshiarpur, who is assisted by the Senior Subordinate Judge, Hoshiarpur and the Subordinate Judges Ist Class (one posted at Hoshiarpur and the other two at Garhshankar and Una). Besides, the Subordinate Judge posted at Dasuya also assists in this respect.

Nature of cases tried by Civil Courts.—The civil courts try cases of all sorts of civil nature up to the powers with which each Subordinate Judge and Senior Subordinate Judge have been invested. The Subordinate Judges Ist Class have been invested with the powers of unlimited jurisdiction of civil nature including rent cases, succession certificates and others ; while the Senior Subordinate Judge handles all such cases in addition to insolvency cases, guardianship cases and land acquisition cases. Moreover, the Senior Subordinate Judge, Hoshiarpur, has been invested personally with enhanced appellate powers in respect of decrees and orders passed by any Subordinate Judge to the following extent :

(i) In a small case of value not exceeding Rs. 1,000 ;

(ii) In a land-suit of a value not exceeding Rs. 250 ; and

(iii) In an unclassed suit of a value not exceeding Rs. 500.

Criminal Justice.—As regards criminal Justice, the Judiciary is separate from the Executive in this District, since March, 1955. The criminal justice, is also controlled by the District and Sessions Judge, Hoshiarpur who is assisted by four Judicial Magistrates including the Additional District Magistrate, Hoshiarpur. Petty cases of criminal nature are entrusted to Panchayats under the Punjab Gram Panchayat Act, 1952, and appeals against their decisions are heard by the Magistrates Ist Class.

Bar Association.—There are separate Bar Associations in every Sub-Division and Tahsil of this District. These are directly under the control of the District and Sessions Judge and function under the rules contained in High Court rules and orders. Every legal practitioner entitled to practise as a pleader or advocate duly authorised by the High Court is required to become a member of the Bar Association. The functions of the Bar Association is to promote the administration of law and justice and to give facilities to its members in pursuance of their professional activities. The Bar Association is also to watch the conduct and interest of its members.

Government cases are presented in the courts by the District Attorney, who is controlled by the Legal Rememberancer, Punjab. He is assisted by an Assistant District Attorney and one or two Public Prosecutors appointed by Government from among the members of the Bar. The Prosecuting Inspectors and Sub-Inspectors conduct the cases for the State in the courts of the Judicial Magistrates.

Police.—The Superintendent of Police, Hoshiarpur is incharge of the District Police. The police stations are distributed among the Assistant Superintendent of Police, Deputy Superintendent of Police and District Inspectors. They are the supervisory officers of the police stations given to them in their charge. There are fourteen police stations in the District at Hoshiarpur Sadar, Hoshiarpur City, Mahilpur, Garhshankar, Balachaur, Nurpur Bedi, Anandpur, Una, Amb, Hajipur, Dasuya, Mukerian, Tanda and Hariana. Besides, there are five Police Posts at Garhdiwala, Bhunga, Gagret, Nangal Township and Talwara.

The sanctioned strength of the police staff in the District as on 31st December, 1960, was : one Superintendent, one Assistant Superintendent, one Deputy Superintendent, three Inspectors, 31 Sub-Inspectors, 41 Assistant Sub-Inspectors, 93 Head Constables and 677 Foot Constables (Table 43*). The Police Recruits Training Centre (RTC) at Jahan Kalan near Hoshiarpur was established in 1947 originally for training recruits of Hoshiarpur District only. Gradually such Centres in other places were closed, and now the Institute trains police recruits for the entire State.

Jails.—There is a sub-jail at Hoshiarpur and another at Dasuya and a sub-jail under construction at Una. Besides, there is a lock-up attached to each of the 14 police stations in the District.

Other Departments.—Practically all State Government Departments have offices in the District. The Executive Engineer, Hoshiarpur, Construction Division, looks after the construction and maintenance of roads, bridges and buildings and functions under the Superintending Engineer, Public Works Department (B & R), Jullundur Circle, Jullundur. He is assisted in his work by four S.D.Os:two at the headquarters and one each at

*Page 108.

Tanda and Una. The Shah Nahar Canal Sub-Division which is a unit of Jullundur Drainage Division of Drainage Circle, Amritsar, is supervised by a Sub-Divisional Officer, in order to maintain Shah Nahar Canal system and to provide irrigation facilities to the zamindars in Hoshiarpur and Kangra Districts. The Electricity Works are headed by the Executive Engineer, Hoshiarpur Division. Part of the Hoshiarpur District is under the jurisdiction of Resident Engineer, Ganguwal and Executive Engineer, Ganguwal and Executive Engineer, Phagwara Division of the Punjab State Electricity Board. Similarly the Public Works Department (Public Health) in the District is under the charge of an S.D.O. (Public Health Sub-Division), Hoshiarpur.

Co-operative Department.—For co-operation work, the Hoshiarpur District is divided into two circles : Hoshiarpur East and Hoshiarpur West. The former comprises Una and Garhshankar Tahsils and the latter Hoshiarpur and Dasuya Tahsils. Each circle is under the charge of an Assistant Registrar. They are assisted by Inspectors and Sub-Inspectors.

Agriculture Department.—The work of the Agriculture Department in the District is under the District Agriculture Officer. He is assisted by Subject Matter Specialist (Plant Protection) and a Subject Matter Specialist (Horticulture) at the headquarters, Inspectors and Sub-Inspectors (Plant Protection) at Hoshiarpur and Dasuya, and Horticulture Inspector at Bhunga, and Agriculture Inspectors and Sub-Inspectors in the N. E. S. Blocks.

Forest Divisions.—The Hoshiarpur Forest Division is under the charge of a Divisional Forest Officer. The Division has seven ranges, 23 blocks and 132 beats which are, respectively, under the charge of Forest Range Officers, Range Assistants (Foresters or Deputy Rangers) and Forest Guards. The Divisional Forest Officer, Beas Forest Division, Nangal Township is concerned only with a portion of the Anandpur area. One Divisional Soil Conservation Officer is posted at Hoshiarpur for the soil conservation work. He is assisted by two Soil Conservation Officers. A Training Institute for soil conservation work at Hoshiarpur is run under his charge.

Industries Department.—The District Industries Officer is assisted by a Senior Inspector, Junior Inspectors and Sub-Inspectors. For rural industrialisation, Block Level Extension Officers are posted in various blocks. Technical education in various crafts is imparted by the Government Industrial School for boys, Hoshiarpur ; Government Industrial School for girls, Hoshiarpur; Government Industrial School for Girls, Nangal Township; Industrial Training Institute, Nangal ; Industrial Training Institute, Talwara ; and Industrial Training Institute, Hoshiarpur.

Medical and Public Health Department.—The District Medical Officer of Health (DMOH) has under him, an Assistant Health Officer. Each Tahsil is under the charge of one Sanitary Inspector assisted by a Sanitary Supervisor, Sanitary Naib-Daroghas, Swasthya Sahayaks and Sanitary Mates. For vaccination work there are two Superintendents of Vaccination and rural sanitation and 29 vaccinators. The Malaria Eradication Programme is carried out by the Malaria Officer, assisted by an Assistant Unit Officer, a Senior Malaria Inspector and Malaria Inspectors, Supervisors, Surveillance Workers as well as a number of Swasthya Sahayaks, regular and seasonal.

After the introduction of the scheme of amalgamation of curative and preventive services with effect from the 15th July, 1964, the Chief Medical Officer has become the overall incharge of all the medical and public health activities in the District.

Animal Husbandry Department.—The District Animal Husbandry Officer looks after the veterinary institutions in the District and is assisted by a number of Veterinary Assistants, Animal Husbandry Assistants, Livestock Assistants, etc.

Education Department.—An Inspector and an Inspectress of Schools looked after the Primary and Middle schools for boys and girls, respectively in the District. The supervision of High and Higher Secondary Schools was done by the Divisional Inspector of Schools, Jullundur. At present (September, 1966) the District Education Officer assisted by Deputy Education Officers and Block Education Officers looks after the schools in the District.

Food and Supplies Department.—The District Food and Supplies Controller, Hoshiarpur engaged himself in the procurement, movement and distribution of food articles and other controlled commodities.

Public Relations Department.—This Department, headed by District Public Relations Officer, is concerned with publicising Government policies, plans and achievements, and with conveying to the Government the reactions of the public. The means used are cinema shows and dramas, meetings, distribution of literature, newsitems issued to the press, radio broadcasting, community listening sets distributed to panchayats and schools. The Department runs an information centre and several reading rooms in the District.

Sports Department.—The District Sports Officer, Hoshiarpur has as his duty the promotion of sports in the District through sports clubs at the Block headquarters.

Statistical Department.—The District Statistical Officer, Hoshiarpur assisted by a small staff maintains the statistical data of the District ready for the use of Government and public.

Excise and Taxation Department.—The Excise and Taxation Officer, Hoshiarpur and his staff are responsible for the assessment and collection of excise duties and various taxes in the District.

The District Welfare Officer looks after the welfare programmes for Scheduled Castes and Backward Classes. Besides, there are the offices of the Wage Inspector, Shop Inspector, Labour Welfare Officer, Wild Life Inspector and Assistant Warden of Fisheries, District Employment Officer and District Commander, Punjab Home Guards.

Community Development.—With the opening of Una Block, the Community Development work in the District came to be started in October, 1955. There are now (1961) 11 development blocks in the District, with headquarters at Mahilpur, Garhshankar, Balachaur, Nurpur Bedi, Una, Amb, Hajipur, Dasuya, Tanda, Saroya and Hoshiarpur I. Five pre-extension blocks, viz., Mukerian, Gagret, Anandpur Sahib, Bhunga and Hoshiarpur II have also been opened. After the conversion of these five shadow blocks into full-fledged blocks in due course, there will be 16 blocks covering entire rural areas of the District.

The N.E.S. Block has a Block Development and Panchayat Officer (B.D. & P.O.) but a shadow block has only a Social Education and Panchayat Officer. The B.D. & P.Os. are under the immediate administrative control of the S.D.Os (Civil) and where there is no S.D.O. (Civil), under the Deputy Commissioner, through the District Development and Panchayat Officer. They have no administrative function and are mainly concerned with the promotion and execution of development schemes, besides being Panchayat Officers, in their respective blocks.

A B.D. & P.O. has a number of Extension Officers belonging to various departments to assist and advise him in their respective spheres, like the Panchayats, Agriculture, Co-operation, Industries, etc. At the lowest rung of the extension service are the Village Level Workers and Lady Social Workers who attend to development and social education plans aiming at improving the social, economic and health conditions of the rural population.

At present (September, 1966) all the 16 blocks are full-fledged blocks. Among them, Garhshankar is in Stage III, 9 Blocks including Balachaur, Mahilpur, Saroya, Una, Nurpur Bedi, Amb, Dasuya, Talwara (Hajipur) and Tanda are in Stage II and the remaining 6 blocks including Hoshiarpur, Bajwara (Hoshiarpur II), Bhunga, Gagret, Anandpur Sahib and Mukerian are in Stage I.

Zila Parishad, Panchayat Samiti and Panchayat.—Panchayat Samitis have been formed in all the 16 blocks and in their functions, they are advised and assisted by the B.D. & P.Os. The members of the *Samiti*, numbering from 24 to 30, are elected from amongst the members of the Village Panchayats constituting the Blocks. Each Panchayat Samiti elects its Chairman and two more delegates for the Zila Parishad. All these delegates (3 from each Samiti) co-opt some women and Harijan members. These elected and co-opted members (about 60 in number) elect the Chairman of Zila Parishad. It is intended that the Zila Parishad takes over the entire work which was formerly done by the District Board.

At the village level, there are the *Gram Panchayats*, each constituted for one or more villages under the Gram Panchayat Act, 1952. Elected on the basis of adult franchise, the *Gram Panchayats* are intended to work finally as village republics. They have been given some specific administrative, executive and judicial powers, under the Panchayat Act. These powers at the moment are limited, but will be extended in due course, as this experiment in decentralization of authority proves successful. They have been empowered to levy certain taxes and are allowed a specified percentage of the land revenue of the village to provide them the necessary expenses for discharging their functions.

In 1960-61 there were 1,105 *panchayats* in the District with 6,076 *panches*, as against 715 *panchayats* functioning in 1950-51. In 1964-65 the number of *panchayats* increased to 1,110 and of *panches* to 7,095.

Local Bodies.—At present there are ten Municipal Committees functioning in the District, in the towns of Hoshiarpur, Mukerian, Dasuya, Urmar Tanda, Garhdiwala, Hariana, Shamchaurasi, Una, Anandpur Sahib and Garhshankar. Out of them the one at Hoshiarpur is a Class I Municipality, Urmar Tanda is Class II and the remaining Municipal Committees are Class III. Nangal Township and Naya Nangal are served by Notified Area Committees.

CHAPTER II

ECONOMY

The Chapter is divided in four sections dealing with : A—Agriculture, Irrigation and Livestock ; B—Industries ; C—Banking, Trade and Commerce ; and D—Communications.

A—AGRICULTURE, IRRIGATION AND LIVESTOCK

Peasantry.—The economy of Hoshiarpur District is basically agrarian. In 1951, 62 per cent of the population was agricultural, and at the 1961-census, 60.7 per cent of the total working force functioned as cultivators and agricultural labourers. Thus the peasantry forms the bulwark of the rural economy of the District.

Broadly speaking, there are three types of farmers : peasant proprietors, tenants and labourers. The figures given below show the class of cultivators and area in standard acres cultivated by each class during the years, 1910, 1947 and 1961.

Year	*Area in Standard Acres cultivated by*					Total cultivated area (Acres)
	Owners	Tenants with rights of occupancy	Tenants at will	Government Tenants	Government lessees	
1910	342,937	152,021	219,154	..	..	714,112
1947	333,178	145,407	271,665	..	..	750,150
1961	523,131	..	231,478	..	..	754,609

With the introduction of the Punjab Occupancy Tenants (vesting of Proprietory Rights) Act, 1952, the class of tenants with rights of occupancy became proprietors. The Punjab Abolition of Ala Malkiat and Talukdari Rights Act, 1952, has resulted in the abolition of intermediaries. The Punjab Security of Land Tenures Act, 1953 ensures legislative protection to the tenants. This Act, however, has also had an adverse effect. The owners now lease out land only for one year in most cases. The tenants having no interest in land in subsequent years, the cultivation is not done by them keeping in view the long range interest. Green manuring and composting is seldom done in such fields, and the eradication of weeds is neglected with the result that the fertility of the soil suffers.

According to the revenue records 30.7 per cent of the cultivated area in 1960-61 was sown by tenants and 69.3 per cent by peasant proprietors. The former figures may be an under-statement since many of the tenant-cultivated fields, are got recorded as cultivated by the owners through agricultural labourers.

Consolidation Operations.—The work of consolidation of holdings was started in this District in 1954 under the Consolidation of Holdings and Prevention of Fragmentation Act, 1948. Consolidation has been completed in Garhshankar Tahsil, and is nearing completion in Hoshiarpur and Dasuya Tahsils. As a result of consolidation fields are now better attended and the standard of cultivation has also improved. The following table shows the work done in this respect up to September, 1961 :

Tahsil	Villages and Area to be consolidated		Villages and area consolidated		Percentage of Villages consolidated
	Villages	Area	Villages	Area	
Garhshankar	324	188,782	324	183,782	100
Hoshiarpur	342	178,625	334	164,611	91
Dasuya	461	195,704	426	174,427	90
Una	218	147,300	68	22,615	14
Total	1,345	705,411	1,152	545,435	77

Soil Erosion.—The soil in a major portion of the District consists of loams, fairly rich in phosphoric acid, potash and nitrogen, but that in the low-lying Shiwalik ranges is stony. The baneful effect of erosion due to heavy rains and the innumerable *chos* is writ large on the District. Various explanations are offered for this erosion such as ruthless cutting of forests towards the end of the last century for supply of timber to the resurgent towns of Hoshiarpur and Jullundur, and for providing hard routes as fuels for railway engines in the early stages of locomotive development, and ruthless grazing of goats. To prevent further erosion and to reclaim the fertility of the land, the Forest Department, the Irrigation and Power Research Institute, and the Soil Conservation wing of the Agriculture Department are taking steps described below.

Cho Canalising.—The schemes to canalise the *chos* include (i) training of Nasrala *cho*, (ii) canalising of Tanuli, Mehlanwali, Chagran and Chabbewal *chos* into one, (iii) training of *chos* near Daffer and Randawa villages, (iv) training of the Gambhowal *cho*, (v) desilting and excavation of the old bed of Mehngarwal group of *chos* at their crossing near the Jullundur-Mukerian road, (vi) canalising *chos* beyond Balachaur to Rupar with a view to draining out their water into the Sutlej river by digging channels and (vii) raising of protection bunds against the wayward flow of many other *chos*.

The work regarding training of Nasrala *cho* has been completed at a cost of Rs. 36 lacs. Preliminary work of canalising the *chos* of Tanuli, Mehlanwali, Chagran and Chabbewal into one channel is now in hand, and this will drain the water of these *chos* into the east Bein. Work regarding canalising of *chos* between Balachaur and Rupar has also been completed. To prevent the standing danger of serious flooding of the area from Passi Bet to Dasuya by the Beas river, a 12 miles long bund has been strengthened and stone spurs constructed at vulnerable points. At village Tahli, a link bund has also been constructed, as the old main bund was threatened by a straight dig caused at it by the river. *Cho* training including check damming and gully putting was done on 6,928 acres by the Forest Department during the Second Plan. Treatment of *chos* with the help of tree protection belts was undertaken on seven miles during the Third Plan.

The following figures give an idea of the extent of soil conservation work done in the District :—

	First Plan	*Second Plan*
Cho training	62 miles	6,928 acres
Contour trenching	1,205 acres	...
Terracing and watbandi	..	780 acres
Demonstration through afforestation	32·25 acres	500 acres
Check damming	194 acres	542 acres
Terracing and watbandi	70 acres	372 acres
Cho training	10 acres	13 acres
Contour trenching	..	200 acres

Besides the above, a soil conservation pilot project covering 8 villages of the Meendhwan *cho* catchment area near Kotla was also completed with useful results.. In the Third Plan, the following soil conservation works are proposed to be undertaken:—

Contour Bunding	95 acres
Terracing	80 acres
Afforestation	280 acres
Pasture development	130 acres

Compost pits and Green manuring.—Cattle dung and urine have been taken little care of in the past. The Department of Agriculture since its inception has been laying out great stress in the proper composting of cattle dung and urine. The panchayats have been empowered to impose fine on those who do not agree to dig pits by persuation. Compost Inspectors have been appointed in Block areas to attend to this work. The progress achieved so for has however not been satisfactory because an alternative fuel is not to be had free of cost.

Ploughing the plants of *san*, *guara* and *dhaucha* during the *kharif* have been recently introduced in the District for green manuring. This green manuring enriches the fields to be sown with rice crop.

Chemical Fertilisers.—The application of fertilisers was almost unknown before Partition. The Department of Agriculture took up their distribution in 1953, and *taccavis* were given to the needy cultivators for their purchase. Superphosphate has gained in popularity in the District in preference to Calcium Amonium Nitrate.

Improved seeds.—The Agriculture Department has purchased 14 units of seed farms, each 25 acres in area. Certified seeds are multiplied on these farms and are distributed among cultivators through seeds depots which are established by the Co-operative Department.

Plant Protection.—To save the crops from pests and diseases, a Plant Protection Centre has been established at Hoshiarpur, and another at Dasuya, for the supply of different insecticides and fungicides. There is a scheme for supplying plant protection equipments to the Panchayats, Co-operative Societies and progressive farmers, at half the cost.

Cropping pattern and rotation.—In the plains portion of the District two harvests are taken from the lands near the village *abadi* year after year and the most common crops on *do fasli* lands are maize followed by wheat. On the more distant lands or less fertile lands only one crop is sown in a year, and this is generally wheat or *berrar* (wheat and gram mixed) for two or three years running, followed by a *kharif* crop. The *kharif* crop grown on *ek fasli* lands is generally *chari* (*jowar* grown for fodder) generally mixed with pulses such as *moth* and *mash*. On the sandy soils gram is sown during the *rabi* season. The sugarcane crop occupies the land for two harvests, and from this criterion the fields under it may also be termed as *do fasli* lands.

In the more level portions of the *kandi* tract in Dasuya Tahsil, the cropping is *ek fasli* sown with wheat year after year. In the sandy *ek fasli* lands in the plains the usual *rabi* crop is *berrar* (wheat and gram mixed). Some exhausting crops are sown mixed with pulses in poorer lands, viz. maize-*mash*, *til-mash* and barely-*massar*. Rice crop is rotated with *barseem* or *massar*.

In the hilly tracts, the cropping on the double-cropped lands is followed by wheat. The cultivation of the *ekfasli* lands is mainly confined to the *kharif*, as the sloping, stony fields generally dry too quickly to allow sufficient moisture being retained for *rabi* sowings. The better class of *ekfasli* fields found chiefly in the Bharwain hills and on the less sandy portions of the Shiwaliks are sown with maize and the inferior ones with *moth* or *kulth* (dolichos uniflorus) both of which are legumes. When the summer rains are plentiful, gram or wheat may also be sown.

The cropping pattern is now changing in favour of two crops a year, due to the construction of some minor irrigation works and introduction of fertilisers. There has been a tremendous increase in the cultivation of potatoes from 320 acres in 1950-51 to 3,850 acres in 1960-61. The introduction of *barseem*, which fixes atmospheric nitrogen into the soil in preference to turnips, etc., has also been a factor for building up the soil fertility. The area under *barseem* now forms a major portion of the area under *rabi* fodders.

The more common rotations followed in the District are listed below:—

(a) *Irrigated Land*—		
Maize	Sainji	Maize
Maize	Wheat	Kharif pulses
Kharif fodders	Gram	Kharif fodders
Green manuring	Potato	Potato
Maize	Sainji	Sugarcane (followed by a routine crop)
Bajra	Gram	Cotton
Paddy	Barseem or Massar	Paddy
Maize	Barseem	Maize
Green manuring	Wheat	Cotton
Vegetables	Barseem	Maize
(b) *Unirrigated Land*—		
Bajra	Massar	Fallow
Moth	Fallow	Bajra
Fallow	Wheat	Fallow
Moong	Massar	Kharif fodders
Bajra	Massar	Fallow

Mechanised Cultivation (Table 10*).—Improved agricultural machinery and implements are being pressed into use increasingly since recent years on account of the knowledge about them being disseminated by the Department of Agriculture and the high prices of agricultural produce bringing them within their means.

*Page 75.

In 1961, 164 tractors were being operated in the District as against 87 in 1956. Their number increased further to 455 in 1966. The number of iron ploughs has increased from 19,596 in 1956 to 24,044 in 1961 and 42,669 in 1966. There were only 43 sugarcane crushers worked by power in 1956, but their number rose to 520 in 1961. In 1966 their number, however, declined to 111, attributable to the establishment of a co-operative sugar mill at Bhogpur (Jullundur District) where cane may now be sold.

To improve irrigation, the farmers had installed 454 oil engines with pumping sets in 1961 and their number has increased to 2,029 in 1966. Similarly, the number of electric pumps for tube-wells rose from 22 in 1956 to 1,056 in 1961 and further to 1,822 in 1966.

LAND UTILISATION

Total geographical area.—There is a slight discrepancy in the area figures as supplied by the Surveyor General, India, and the Director of Land Records, Punjab, due to different methods of measurement adopted by the two agencies. For showing land utilisation and density of population, the figures as supplied by the Director of Land Records, Punjab, have been utilised in this report.

Table 2* shows the classification according to use, in terms of quinquennial average figures from 1901 to 1961 and for the single year 1964-65. The difference in total area figures over a period of time may be due to the inter-District transfers, alluvium and diluvium, and remeasurement of land. The area of the District increased from 1,416,781 acres in 1941 to 1,422,590 acres in 1951. This was *inter alia* due to the transfer of the following 24 villages with a combined area of 14 ·4 square miles of the Sub-Tahsil Bhunga of Kapurthala District to Hoshiarpur District in 1950 :—Abbowal, Badala, Baich, Bhatonlian, Bhunga, Chak Khela, Daulatpur, Dhoot, Dhanlowal, Goraya, Hajipur, Hussainpur, Kabirpur, Koont, Kotli, Lalowal, Nadali, Noorpur, Pandori Phunbra, Sandhar, Sotla, Shababdin, and Taggar.

The minor decrease in the area figures in 1961 may be explained to the remeasurement of land during the consolidation of holdings operations, and alluvium and diluvium. This decrease resulted despite the addition of 1,085 acres with the transfer of village Kosar from Hamirpur Tahsil of Kangra District to Una Tahsil in 1957.

In 1964-65, the total area of the District according to village papers stands at 1,421,444 acres : Una Tahsil (441,716 acres), Hoshiarpur Tahsil (335,166 acres), Dasuya Tahsil (321,003 acres) and Garhshankar Tahsil (323,559 acres).

Forests.—The area under forests underwent a constant decrease during the five decades 1901-51, owing to felling of trees by the proprietors to bring more land under the plough. A very big portion of the forest area lies in the Una Tahsil.

Land not available for cultivation.—This includes absolutely barren lands and the land under buildings, roads and railways,and water. Such lands measured 584,975 acres, and accounted for 41 ·1 per cent of the District. There was a marked increase from 382,810 acres in 1951 to 584,975 acres in 1961, resulting chiefly from the construction of roads and canals.

The Tahsilwise actual figures for the years 1964-65 are as under :

Name of Tahsil	Barren and unculturable land (acres)	Land put to non-agricultural uses (acres)
Una	122,948	117,825
Hoshiarpur	104,890	18,802
Dasuya	61,487	34,422
Garhshankar	92,690	22,065
Total	382,015	193,114

Other uncultivated land excluding fallow lands.—This category covers land available for cultivation, whether not taken up for cultivation or abandoned later, and includes culturable wastes other than fallows, permanent pastures and other grazing lands, and lands under tree groves not included under the sown area. This category covered 3 ·4 per cent of the District in 1961. There has been a marked decrease in the area under this category

*Page 70.

during 1951-61, a portion of which was brought under the plough or else used in making new roads, canals and buildings or laid waste by the *chos* and water-logging. The figures for 1964-65 are shown below Tahsil-wise.

Name of Tahsil	Culturable wastes (acres)	Permanent pastures and other grazing lands (acres)	Land under misc. tree crops and groves included in the net sown area (acres)
Una	1,890	10,050	2,781
Hoshiarpur	3,560	7,393	9,304
Dasuya	2,803	1,592	8,313
Garhshankar	8,708	846	235
Total	16,951	19,881	20,633

Cultivated area. —In revenue terminology, a land is called cultivated even if it received one sowing during the previous four harvests. The cultivated area thus consists of (i) current fallows and (ii) net area sown. The position of the cultivated area in the District may be studied with the help of the following figures :—

	1948-53	1958-63
Current fallow land (Acres)	63,404	45,953
Percentage to total area	4·5	3·2
Net sown area (Acres)	729,986	707,550
Percentage to total area	51·3	49·8
Cultivated area (Acres)	793,390	753,503
Percentage to total area	55·8	53·0

Both the net sown area and the current fallows have decreased during the years 1958-63 to the increase of the land not available for cultivation due to increased constructional activities in buildings, roads and canals. This decrease is offset by double cropping in this District. In the State as a whole, the cultivated area (current fallows plus not sown area) forms 65 per cent of the total area. The corresponding figure for Hoshiarpur is 53 per cent. Area sown more than once increased from 134,083 acres in 1951 to 247,477 acres in 1961, and to 270,607 acres in 1964-65. The Tahsilwise position in 1964-65 is shown below :—

Name of Tahsil	Current fallows	Other fallow lands	Net area sown	Area sown more than once	Total cropped area
Una	3,422	..	153,597	59,533	213,130
Hoshiarpur	9,117	..	182,100	29,440	211,540
Dasuya	11,686	..	194,090	111,591	305,681
Garhshankar	11,425	..	187,590	70,043	257,633
Total	35,650	..	717,377	270.607	987,984

IRRIGATION (Table 4*)

More than two-thirds of the annual rainfall in the District and for that in the State occurs in July to September and the remaining months are fairly dry : hence the need for irrigation. The scope for irrigation in the District is limited. During 1958-63, the irrigation was applied to only 12·7 per cent of the net sown area in the District. The corresponding figure for 1948-53 was 11.9.

There is only one major canal, namely, the Shah Nahar Canal in the District. With a view to developing canal irrigation in the District, the management of this canal was taken over by the Irrigation Department in 1949. Since then irrigation from this system has greatly increased. At present the Bist-Doab Canal and Bhakra Canal also irrigate some lands of Garhshankar and Una Tahsils, respectively. During 1958-63, the Government canals irrigated 25,480 acres of land which formed 28·3 per cent of the total irrigated area of the District. During the year 1964-65, canals irrigated 31,100 acres of land.

Tanks.—Tanks are a very minor source of irrigation in the District. From 1901 to 1931 they provided irrigation to 19 to 313 acres. During 1958 63, this figure improved to 2,060 acres representing 2·3 per cent of the total irrigated land.

*Page 71.

Tube-wells and Pumping sets.—Tube-wells and pumping sets are of recent introduction. During 1958-63, they irrigated 5,220 acres representing 5·8 per cent of the total irrigated area of the District. During the year 1964-65, there were 853 tube-wells in the District (3 Government and 850 private) which irrigated 21,300 acres of land.

Wells.—Wells are still the most important means of irrigation. During 1958-63 they served 52,280 acres or 58·1 per cent of the total irrigated area in the District, though the area irrigated by wells has greatly declined during the last two decades. During the year 1964-65, they irrigated 49,900 acres of land which shows further decrease in irrigation from this source.

Under the minor irrigation programme, as many as 902 percolation wells, 159 tube-wells and 72 pumping sets were installed during the First Plan Period. In the Second Plan, another 557 wells were sunk and 257 tube-wells and 238 pumping sets installed.

Other sources.—During 1958-63, 4,980 acres of land was irrigated by other sources. This formed 5·5 per cent of the total irrigated area. The position regarding irrigation from different sources during 1964-65 in each Tahsil of the District is shown below:—

(a) Net Area Irrigated (in 100 acres): 1964-65

Name of Tahsil	Govt. canals	Private canals	Tube-wells	Wells	Other sources	Total
Una	..	..	2	18	14	34
Hoshiarpur	..	..	71	82	11	164
Dasuya	305	..	60	68	11	444
Garhshankar	6	..	80	331	..	417
Total	311	..	213	499	36	1,059

(b) Sources of Water Supply: 1964-65

Name of Tahsil	*Government canals*	*No. of tube-wells*			*Other wells used for irrigation*			*No. of oil engine*
	Mileage	Government	Private	Total	Masonary	Non Masonary	Total

Total	97	3	850	853	13,642	1,619	15,261	96

Crops irrigated (Table 5*).—There has been a steady increase in the area of irrigated crops during the last sixty years except for the years near about 1911 and the years immediately following Partition. The total irrigated area was 109,000, 98,000 and 114,000, acres in 1941, 1951 and 1961, respectively.

Both food crops and non-food crops have a share in irrigation. In 1958-63, out of the total irrigated cropped area of 113,608 acres, 89,165 acres were under food crops and 24,443 acres were under non-food crops. Among the food crops, foodgrains have a big acreage (67,615 acres), chiefly rice (40,349 acres) and wheat (21,153 acres),. Among the non-food crops, fodder features prominently in irrigation.

MAIN CROPS (Table 6†)

As throughout the State, there are two main harvests: the *rabi* (*hari*) and the *kharif* (*sawani*). The *rabi* or spring harvest consists of wheat, gram, barley, oilseeds, fodder crops and potatoes. They are sown in October-November and harvested from mid-March to mid-May. The *kharif* autumn harvest consists of rice, maize, *jowar*, *bajra*, most pulses, sugar-cane, cotton and groundnut. They are sown in June-August and reaped from early September to late December. Sugar-cane and cotton are sown a little earlier. Some crops come in between the two principal harvests. For example, *toria*, matures in late December and is classed as *zaid* (extra) *kharif* crop. Similarly tobacco and melons are harvested in late June and are styled as *zaid* (extra) *rabi* crops. The sown area in the District is fairly evenly distributed between the *rabi* and *kharif* harvest.

*Page 72. †Page 72.

Wheat.—Wheat the "Golden grain," is the most important among food crops and is the staple diet of the people. In this District it is sown largely on *barani* lands. The area under this crop after a dip during 1938-43 and 1948-53 improved during the five-year 1958-63 but still lags behind the levels it touched in 1911, 1921 and 1931. During the quinquennium 1958-63, the area devoted to wheat averaged 300,746 acres, out of the total cropped area of 955,027 acres.

In 1964-65, the acreage under wheat was 312,758 of which 21,183 acres were irrigated and 291,575 acres depended entirely on rainfall.

The yield of wheat crop increased from 677 lbs. per acre in 1950-51 to 741 lbs. in 1960-61 and further to 856 lbs. in 1964-65.

The number of ploughings given to wheat land varies according to the crop that precedes it. If it follows maize, the time for ploughing is short and not more than three or four can be given. If the two-year course is followed, ploughings are given periodically during ten months, 8 or 10 times. The best time for sowing is from the middle to the end of October, but it can be sown to the end of December. In the riverain villages, the land becomes fit for sowing in the latter half of November. The subsequent operations are simple. The field should be occasionally weeded in November and December. The first of *Baisakh* (about the middle of April) is the proper day to begin the reaping of wheat. The plants, cut close to the roots, are tied into sheaves and left in the field for a few days when they are carried to the threshing floor. The threshing is done by making the bullocks to tread on them, often yoked to a wooden frame-work (*phala*) loaded with thorns and stones. The winnowing is done by lifting the wheat and chaff at arm's length above the head in baskets, and letting it fall gradually to the ground, so that the wind separates the chaff from the grain.

The usual seed-rate is 24 seers per acre, though 32 seers per acre is recommended by the Agricultural Department. The improved varieties of wheat seeds used are C273 which is resistant to both yellow and black rust, and C518 sown on heavy soils as it is resistant to water logging. The C218 variety is a late sowing variety but it is now being replaced by C256.

Maize.—Next to wheat, maize occupies the largest area among the cereals. Its acreage increased from 147,000 in 1950-51 to 173,000 in 1960-61. In 1964-65 it rose to 202,683 acres, out of which 6,479 acres were irrigated.

The yield of maize improved from 412 lbs. per acre in 1950-51 to 859 lbs. in 1960-61 and further to 1507 lbs. in 1964-65.

The seed is sown after the first fall of rain in June or July; but in the hills it is sometimes sown in the end of May. The crop requires constant weeding and hoeing; when a couple of feet high, the ground between the plants is ploughed once again. Moderate and frequent rain with alternating sunshine, is best for maize. If the first sowings are damaged by drought or too wet conditions it is resown upto the middle of August; but the end of June or beginning of July is the best sowing time. Near towns, where irrigation is available it is often sown in March or April, and cut in June or July. In a few fields in the vicinity of Hoshiarpur, two maize crops are raised in the same season. The crop ripens in September and October. After being cut the plants are left in sheaves in the fields to dry. The cobs are then taken off the plants and are beaten with sticks to separate the grains. The grains are again exposed to sun for drying.

The usual seed rate is 8 seers per acre for the grain crop, and 16 seers for fodder. Maize of yellow colour is preferred to the one with white colour.

Gram.—The acreage under gram increased from 118,000 acres in 1950-51 to 150,000 acres in 1960-61. It is a barani crop. In 1964-65 out of a total acreage of 134,519, only 3,768 acres received irrigation. Because gram is not given irrigation, its yield varies heavily according to rains. The yield worked out to 635 lbs. per acre in 1950-51, 946 lbs. in 1952-53, 642 lbs. in 1960-61 and 558 lbs. in 1964-65. Gram is both sown and reaped a week or ten days earlier than wheat and does best on light sandy soils. Sometimes a row of linseed (*alsi*) is sown around the gram field which incidentally serves as a hedge. Gram is generally sown mixed with wheat, especially on the lighter *ekfasli* lands. Of the two crops, gram requires less water so that even in lean years when wheat may fail gram will give some yield. The mixture is sown in October at the same time as unmixed wheat, and about half a maund of seed is used per acre.

The C235 variety of gram recently introduced by the Agriculture Department is prized by the farmers because of its resistance to blight.

Paddy.—The cultivation of paddy has received great impetus during the recent years due to the interest taken by the Labana settlers from West Pakistan. Its cultivation is confined mainly to the water logged area

of Dasuya Tahsil. The acreage under the crop rose from 30,647 during 1898-1903 to 75,192 during 1958-63. In 1964-65, 76,161 acres were devoted to this crop, of which 44,075 acres were irrigated.

The yield per acre of paddy worked out to 1,179 lbs. in 1950-51, 1,223 lbs. in 1960-61, and 1,005 lbs. in 1964-65.

Basmati, *chahora*, and *begami* are the superior varieties of rice, and *Jhona*, *ratru*, *sukhchain*, *munji*, *sathi*, *kalona*, and *kharsu* are the ordinary varieties. The superior varieties generally give less yield.

Paddy is cultivated on marshy lands or on lands which receive irrigation. The land is prepared by three or four ploughings. *Munji* (the commonest rice) is sown in March or April, the other kinds in June or beginning of July. Rice may be sown either broadcast or after raising seedlings in small beds. The broadcast sowings are of two kinds (1) *Vatran*, when the moisture has sufficiently subsided to allow of ploughing and sowning; (2) *Kadwan* or *lung*, when the seed is steeped in water for two or three days, and then scattered broadcast in the mud. When sown by raising seedlings the process is called *lab* or *paniri*, and this process though more laborious, is more profitable. The best kinds are always sown by the *paniri* method (transplantation). Weeding is required for rice sown broadcast; transplanted plants do not require weeding. The earliest sowings ripen in September, the later ones in October-November. The *sathi* variety ripens in about sixty days. *Kharsu* is a very coarse rice grown in alluvial soils, when the river has deposited some silt, but not yet sufficient for the better crops. Grass-hoppers (*toka*) are fond of the young shoots, and pigs which abound in the high grass of the *chhambs* also damage the rice fields. High winds are also considered bad when the plant is nearly ripe. The crop should be cut before the grains are quite ripe, otherwise much of the grain is lost. Threshing is done by the treading of oxen or by beating the plants against a ridge made of stones or mud. The grains are husked by pounding them in a large wooden morter (*ukhal*) with a long pestle (*musal*). A major portion of the crop is husked in the hullers and shellers at Dasuya, Tanda and Mukerian.

Barley.—Barley is not an important crop of the District. In 1950-51, only 2,900 acres were devoted to this crop which increased to 3,100 acres in 1960-61. In 1964-65, the acreage decreased to 2,297 acres. Like gram, barley is sown under *barani* condition and its yield varies from year to year. It worked out to 747 lbs. in 1950-51, 642 lbs. in 1960-61 and 892 lbs. in 1964-65.

Barley is sown from October to early January and harvested in early April. The seed rate is 30 seers per acre.

Bajra.—The cultivation of *bajra* has greatly decreased during the last 15 years due to its low yield. From 28,700 acres in 1950-51, it fell to 11,300 acres in 1960-61 and to 5,584 acres in 1964-65. It is sown entirely on *barani* land, and in 1964-65 only 6 acres had artificial irrigation. Sowings are done from early June to the beginning of August, depending upon the on set of the monsoon. Harvesting lasts from about the middle of September to early November. The seed rate is 2 to 3 seers per acre.

Pulses.—The most important pulses are *mash* (phaseolus mungo), *massar* (ervum lens). *Mung* (Phaseolus aureus) is less popular in this District, and is sown as a subordinate crop with maize, *jowar* and *bajra*.

The acreage under total pulses including gram has increased during the last sixty years. In 1964-65, 156,763 acres were devoted to pulses. They are sown under *barani* conditions and only 4,164 acres under them were irrigated.

Fruits and Vegetables.—The acreaege under fruits and vegetables decreased from 17, 611 in 1901 to 16,645 in 1961. In 1964-65 it recovered to 24,423 acres.

Sugarcane.—The area under sugarcane has gradually increased. The acreage under it was 25,726 in the neighbouring years of 1901 and 44,065 in the years around 1961. In 1964-65, however, the acreage fell to 26,704 acres of which 5,533 acres were receiving artificial irrigation.

Planting of cane is done in February-March after some ten ploughings. The crop requires heavy manuring and irrigation. Harvesting starts from the middle of November and continues till February or even later.

Oilseeds.—The area under oilseeds has constantly decreased from 15,703 acres during 1898-1903 to 8,597 acres during 1958-63. In 1964-65, the acreage, however, improved to 12,276.

Cotton.—The cultivation of cotton in the District has been on the decline during the last two decades. In 1964-65, 7,828 acres were devoted to *desi* cotton and 1,113 acres to American cotton. It is sown to a large extent under *barani* conditions (unirrigated). On *barani* lands cotton is sown in June after the first showers.

On irrigated lands, sowing starts in the middle of April and continues upto the end of May. The seed rate is 4-5 seers for *desi* cotton, and some 8 seers for the long staple varieties. The pickings start from the end of August in the case of *desi* varieties, and from about the middle of November in the case of improved varieties. The yield per acre of *desi* cotton was 128 lbs. in 1960-61 and 144 lbs. in 1964-65, and of American cotton it was 168 lbs. in 1960-61 and 151 lbs. in 1964-65.

Jowar.—Jowar is generally sown for fodder and then it is sown on irrigated lands in early April. For grain, the crop is sown mostly in unirrigated tracts with the break of monsoon, any time from the middle of June to the middle of August. It takes ten to thirteen weeks for ripening. For grain the seed rate is generally 8 seers per acre, and for fodder 24 seers.

Fodder crops have gained in importance with the reduction in grazing facilities. In 1964-65, 152,382 acres were devoted to fodder crops.

LIVESTOCK (Table 9*)

The quality of local animals is fairly poor, due to lack of pastures, small holdings and scarcity of fodder. Among bullocks there is a substantial number brought from the southern Districts. The District Board, now Zila Parishad, has given to some villages free of charge bulls bred in the Government livestock farm. Artificial insemination centres function at Hoshiarpur and Urmar Tanda.

Annual fairs are held every month at Anandpur Sahib, Urmar Tanda and Mukerian, and at Mahilpur and Bhunga once in a year. There are four *gaushalas* in the District at Hoshiarpur, Jaijon, Santokhgarh and Tatewal, which exist only on sentimental grounds.

Cattle.—The cows seem to be fighting a losing battle against the buffaloes which yield more or richer milk, and can stand stall-feeding much better than the cows. The advantage to the farmers from the cows is that their male progeny provides animals for draft but the local bullocks are of fairly ordinary quality. With the extension of farm lands, grazing grounds are gradually becoming scarce, and to feed the cows on cultivated fodders is expensive considering the low yield of milk from the local cows. The number of bullocks in the District has increased during 1961-66 due to greater demand for them for breaking *banjar* lands and splitting up of the large holdings.

Horses, mules and donkeys.—The number of horses has shown a rapid decline with the cheaper and speedier modes of conveyance coming in the field. The donkeys are used as pack-animals chiefly for transporting agricultural produce from villages to towns. With the improvement in communications their number has also declined. The mules are also used as pack animals in hilly areas.

Sheep and goats.—These two animals compete for meat and whereas the goats give also milk, the sheep are prized for the wool. The sheep have increased substantially during 1960-61 because of the high price of wool. During these years goats have also increased consequent upon the high price of mutton.

Poultry.—The interest in keeping poultry is on the increase, and many persons breed it on scientific lines in the recent years. Government advances loans to poultry farms. Poultry birds in the District consequently increased from 33,643 in 1940 to 72,531 in 1961 and to 153,684 in 1966.

Veterinary Hospitals and Dispensaries.—The number of veterinary institutions in the District in different years is shown below.

	1901	1911	1921	1931	1941	1951	1961
1. Hospitals, under the charge of Veterinary Assistant Surgeons	1	3	6	10	13	16	18
2. P.O.L.D's under the charge of Veterinary Compounders	..	..	..	..	..	..	16
3. Outlying dispensaries visited by veterinary Doctors on regular dates	..	..	24	27	40	46	49
4. First aid centres	..	..	17	17	17	17	15

During 1960-61, 87,845 animals were treated in these institutions against 57,200 in 1950-51. In 1961, there were 17 doctors, 34 compounders, and 68 other staff.

*Page 75.

B—INDUSTRIES

The District has long been well known for wooden articles coated with lacquer or having ivory inlay. Propagation of lac, and manufacturing from it button-lac or shellac was an old established industry of Hoshiarpur which suddenly disappeared with the migration of muslim *lakhcras* on Partition. Turnery goods are also not produced now. On the other hand some new industries have sprung up in recent years, such as manufacture of electrical goods, wire netting and machine parts. The chief industries are described below.

I—LARGE SCALE AND MEDIUM SIZED INDUSTRIES

Nangal Fertilizers Factory.—The biggest single consumer of electricity of the Bhakra-Power house is the Nangal Fertilizers and Heavy Water Factory. It went into production in February 1961, with an investment of Rs. 13.04 crores and employment of some three thousand persons. The factory at present (Sept. 1966) is producing 1,200 tons of calcium amonium nitrate per day and 14.5 tons of heavy water per annum.

II—SMALL SCALE INDUSTRIES

1. *Rosin and Turpentine.*—This industry dates back to 1930 and is centred at Hoshiarpur. Prior to Partition, there were four rosin and turpentine factories as compared with sixteen in 1961. The supply of resin is from the pine forests of Hoshiarpur and Kangra Districts. The industry in the District received a spurt with the stoppage of these supplies to the big factory at Jallo near Lahore on Partition. The production of rosin and turpentine in 1961 was 8,000 tons valued at Rs. 12,500,000. This is a capital intensive industry, since with an investment of of Rs. 6,566,279, it provides employment to 19 administrative, 50 skilled, 115 semi-skilled and unskilled workers.

Rosin and turpentine are consumed in the manufacture of soap, paper, paints and varnishes, and find market within the country and abroad chiefly in the United Kingdom, Australia and the Middle East.

2. *Pine Oil.*—Turpentine is the main raw-material for deriving pine. There is only one concern in India engaged in the manufacture of pine oil and it is located at Hoshiarpur. In 1964-65, investment in this industry was Rs. 1,233,429 and its production was evaluated at Rs. 3,517,726. It provided employment to 20 administrative, 10 skilled, 10 semi-skilled and 59 unskilled workers.

3. *Ivory Carving and Inlaying.*—The ivory carving and inlay work of Hoshiarpur has been known for a long time, and its products featured in the exports from India. There are now five units at Hoshiarpur engaged in the manufacture of chairs, teapoys, small boxes, trays, etc. Besides the sales in important cities in the country, goods worth Rs. 150,000 are exported. The work is executed by craftsmen working in about eighty homes in the surrounding villages of Hoshiarpur.

The industry is mostly carried on by hand tools. The raw materials are *shisham* wood, ivory and iron goods such as screws, hinges. Wood is available in abundance within the District. The industry utilises two types of ivory, pure and waste. The pure ivory is obtained from the suppliers at Bombay, Ahmedabad, Rajputana, Assam and Burma while the waste ivory is imported from England, Holland and Belgium. There is an emporium for the finished goods at Hoshiarpur run by the District Co-operative Union and another by the Khadi Gram Udyog Sangh.

4. *Rice husking.*—In 1961, there were 18 husking units located in Mukerian, Urmar-Tanda and Dasuya, which are the main paddy producing areas of the District. Formerly husking was done in the rice-hullers but of late some of the factories have installed shellers.

5. *Machine Tools and Agricultural Implements.*—In 1961, fifteen units in the District were engaged in the manufacture of machine tools and agricultural implements and their annual output was estimated at Rs. 3 lacs. This is a very attractive line, and by 1964-65, the number of units increased to 47 (42 agricultural implements and 5 machine tools), and the annual production rose to about Rs. 12 lacs. In all they employed about 200 workers.

6. *Bicycle free wheels.*—A factory for the manufacture of cycle-free-wheels has been set up at Hoshiarpur recently with an annual capacity of 125 gross of free-wheels which may be worth Rs. 90,000.

7. *Utensil making.*—Some fifty family units at Hoshiarpur make utensils producing goods worth about Rs. 400,000. They belong mostly to displaced craftsmen, mostly from Gujranwala District.

8. *Electrical goods.*—Two plants set up at Hoshiarpur in 1959-60 manufacture electrical goods such as switches, cut-outs, ceiling rose and shoes, etc. Their number increased to four in 1964-65. Their annual production was estimated at Rs. 132,000.

9. *Surgical dressing cotton.*—One unit came into existence at Hoshiarpur only recently for the manufacture of the above commodity, and it produces with the help of six workers goods worth about Rs. 34,000 a year.

10. *Sewing machine parts.*—There is one small unit in Una Tahsil manufacturing sewing machine parts worth about Rs. 15,000 in a year.

11. *Conduit pipes.*—A small scale unit was set up after Partition, which produced pipes worth Rs. 48,000 in 1964-65. It employs eight workers.

12. *Radio amplifiers.* —There are seven units in the District engaged in the manufacture of radio-sets. They started manufacture three or four years ago. Their output in 1964-65 was worth Rs. 109,000 and they employed 19 workers in all.

13. *Silk-making.* —There are 15 units engaged in this industry in Una Tahsil which were established recently.

14. *Soap-making.* —There are 15 units in the District manufacturing soap on a small scale and their output is Rs. 4 lacs a year. By 1964-65, their number increased to 27 and the annual production to Rs. 594,000. Together, they employed 54 workers.

15. *Handloom-weaving.*—Handloom weaving is the principal industry of Hoshiarpur District despite a diminution in its size and importance since the migration of Muslim labour on Partition. There were about 5,000 handlooms in the District in 1961 and their annual production of handloom cloth was about 40 lakh yards. By 1964-65, were installed two small cotton textile units and 3 Calico-printing units in the District, and their combined annual output was worth about Rs. 3 lacs, with the help of some fifty workers.

16. *G.I. Wire Netting.*—Eight wire netting units were set up in this District in 1959-60 for the manufacture of galvanised wire netting used for sanitation in buildings and copper stainer cloth used in tube-wells. The demand of these two products has risen on account of the new installation of tube-wells and increased building activities in the District. In 1964-65, they employed in all 17 workers and produced goods worth about Rs. one lakh.

17. *Button making.*—One factory set up in 1959 manufactures buttons out of domenut which is imported from Sudan. Its capacity of annual production is Rs. 100,000.

18. *Furniture making.*—There are thirteen units engaged in furniture making and in 1964-65 they produced articles worth Rs. 171,000 and offered employment to 58 workers.

19. *Wood sawing.*—The 43 saw mills in the District gave employment to 177 workers in 1964-65.

20. *Rubber industry.*—One factory at Mukerian manufactures rice polishers from rubber. Another factory of this type sprung up in 1964. Together they employ 12 persons and the value of their annual production is about Rs. 112,000.

III—VILLAGE INDUSTRIES

1. *Leather Tanning.*—During a survey, 688 households were counted as doing tanning work in villages. The estimated output of these units was evaluated at Rs. 330,000.

2. *Shoe-making.*—Some 2,000 households in villages work in leather including those making country-shoes. Only a few among them make shoes of the western style.

3. *Oil Ghanis.*—Some 58 units in villages extract oil in *ghanis* worked by bullocks or mechanical power.

4. *Ban and rope-making.*—Making of ban or ropes therefrom is stated to be the activity of 500 units in villages. Some of them use a simple machine while other do it by hand.

5. *Poultry farming.* —There are about fifteen units of poultry farming in the District, which are doing well. Loans for the development of this industry are given by the Industry Department to persons in the line who have received training from the Government Poultry Farm, Gurdaspur.

6. *Bamboo goods.*- -About one hundred units in the District are engaged in producing from bamboo such articles of utility, as tables, chairs, tripods of the latest designs taught in centres organised by the industries department.

7. *Hand-pounding.*—Rice is pounded by hand as a domestic work by women in areas where rice is grown. Some twenty units pound the rice in this way for wages. They are in addition to rice hullers.

8. *Pottery.*—About 150 units at different places in the District make earthen pots of the ordinary type.

9. *Paper-making.*—A co-operative society manufactures handmade paper at Oel in Amb block. It was established five years back, and in 1960-61, it produced paper worth Rs. 10,000.

State aid to industries.—Government helps industries in various ways. It provides financial aid of loans, subsidies and grants-in-aid under the Punjab State Aid to Industries Act, 1935. Secondly, the Industries Department issues essentiality certificates for granting import licences for raw materials, machinery and their components. It also arranges procurement and distribution of coal, coke, cement, iron and steel. Thirdly, the Industries Department provides technical guidance for starting new industries, and imparts training in the following schools (Table 16)* :—

1. Government Industrial School for boys, Hoshiarpur.
2. Government Industrial School for girls, Hoshiarpur (started during 1960-61).
3. Government Industrial School for girls, Nangal Township (started during 1963).
4. Industrial Training Institute, Nangal (started during 1962).
5. Industrial Training Institute Talwara (started during 1963).
6. Industrial Training Institute, Hoshiarpur (started during 1963).

Industrial Estates.—At present (September, 1966), there are three Industrial Estates, one each at Hariana (1961), Dasuya and Una (1966), and each having 7 sheds for housing small industrial units. Besides, an Industrial Development Colony has been set up at Hoshiarpur in 1966 having 54 plots and 20 sheds. These sheds and plots are let out on rent. The occupiers are given all facilities in making available to them machinery, raw materials and disposal of finished goods.

There are two training-cum-production centres : one at Hoshiarpur for imparting training in lacquer work, and the other at Palian Prohitan in Una Tahsil for bamboo wood work which were established in 1962. Besides, there are three Rural Industrial Development Centres for imparting training in important industries, viz., engineering and wood work at Hariana (1963), Una (1964) and Dasuya (1963).

Electric Power.—The only Electric Supply Company established in 1930 at Hoshiarpur was taken over by Government in 1955. At present (September, 1966), the main source of power in the District of Hoshiarpur is the hydro-electric power which is being supplied from Nangal Township through the grid sub-stations at Hoshiarpur, Tanda, Dasuya, and Bhogpur.

The number of industrial consumers of electric power has since been on the increase as is clear from the following figures :—

Year	No. of connections	Electricity Units consumed
1956	110	652,709
1957	166	1,583,215
1958	202	2,265,274
1959	240	2,584,830
1960	265	2,982,610

Electricity.—There has been a vast expansion in electrification, particularly in rural areas. The number of electrified towns and villages rose to 139 in 1961 as against only one town in 1951.

The total number of connections in 1961 in the District is 25,019, which includes 507 connections for tube-wells, and 374 for industrial purposes.

Labour Organisations.—There are five Labour Organisations in the District, out of which four are at Hoshiarpur proper. The names of these organisations are as under :

1. Labour Rosin Union, Hoshiarpur.
2. Labour Weavers Union, Hoshiarpur.
3. Flour and Oil Mills Union, Hoshiarpur.
4. Commercial and Trade Employees Union, Hoshiarpur.
5. The Bhakra-Nangal Employees Union, Nangal.

*Page 84.

All the above unions are set up for the welfare of labour. There is no Employers Union in the District.

There is a Labour Welfare Centre at Hoshiarpur, functioning under the charge of the Inspector of Shops and Commercial Establishments. In this centre, entertainments are provided for the workers. Besides, it runs an education class for the adults and a sewing class.

C- -BANKING, TRADE AND COMMERCE

Banking (Table 39*). The Hoshiarpur Central Co-operative Bank was established at Hoshiarpur in 1910, and now it has branches at Garhshankar, Dasuya, Mukerian, Hariana, Garhdiwala and Nangal.

Among the Joint Stock Banks, the Bari Doab Bank functions at Hoshiarpur. The Punjab National Bank has six branches in the District, at Hoshiarpur (two), Nangal Township, Tanda, Mukerian and Garhshankar.

The State Bank of India has branch offices at Hoshiarpur, Dasuya and Nangal Township, and a sub-pay office at Mukerian.

The Central Bank of India has a branch office at Hoshiarpur and out-station pay offices at Nangal, Mukerian and Tanda.

The Punjab and Sind Bank has a branch at Hoshiarpur and the State Bank of Patiala at Garhshankar.

Besides these commercial banks, there are money lenders who extend credit. This class has gradually dwindled because of strict watch by Government over their activities. The number of registered money-lenders in the District was as follows in different years from 1940 to 1959 :-

1940	853
1942	743
1948	117
1950	66
1952	54
1954	48
1957	40
1959	41

The rise in the prices of agricultural produce has resulted in savings with the bigger land-owners who extend credit facilities to the persons whom they know.

The prevailing rates of interest are noted below for general interest.

Sl. No.	*Agency*	*Secured Loans*	*Unsecured Loans*	REMARKS
1.	Money-lenders	7½ per cent	12 per cent	Figures obtained from the Deputy Commissioner's report under the Registration of Money-lenders Act.
2.	Commercial Banks	5½ per cent to 9 per cent		Information supplied by the Central Bank of India
3.	Central Co-operative Banks	6¼ per cent		
4.	Primary Co-operative Societies	6 to 9⅜ per cent		
5.	*Taccavis*	4¼ to 5½ per cent		4¼ per cent for fertilizers and 5½ per cent for other purposes
6.	Rehabilitation Loans	3 to 4¼ per cent		3 per cent for rural artisans and 4¼ per cent for others
7.	Development Loans from N.E.S. Blocks	5½ per cent		
8.	Punjab Financial Corporation	5½ per cent		
9.	Industrial Loans	2½ to 3 per cent		For Co-operative Societies 2½ per cent and for individuals 3 per cent

*Page 106.

Insurance. (Table 40*).—The people of Hoshiarpur District are rather backward in taking insurance policies. During 1960, 3,896 policies were issued by the Life Insurance Corporation of India for a sum of Rs. 14,502,000 and during the year 1965, 3,919 policies for Rs. 17,951,600.

Trade and Commerce.—There are four important grain markets in the District regulated under the Punjab Agricultural Produce and Marketing Act. They are at Hoshiarpur (1941), Mukerian (1941), Garhshankar (1951), and Urmar Tanda (1961). There are also unregulated markets at Dasuya, Hariana, Shamchaurasi, Bassi Kalan and Nangal Township. Commodities brought for sale to the *mandi* are heaped and sold by open bids by the buyers after visual inspection. The functionaries in the *mandi* are *Artias* (Commission Agents), *Dalals* (Brokers), *Tolas* (Weighmen) and *Palledars* (labourers). All goods are weighed by the *tolas* on hand-scales parcels of 5 kilograms. The statement given below shows the arrivals in the four markets during 1964-65 :—

Commodities	Arrivals In Quintals (1964-65)			
	Hoshiarpur	Garhshankar	Urmar Tanda	Mukerian
Wheat	54,068	8,902	12,012	9,957

The following table will give an idea about the charges borne by the buyers and sellers for transaction worth Rs. 100 during the year 1960-61, and in 1965. It will be seen that the sellers are now exempted from the payment of *arhat* :-

(*a*) *Borne by the seller*—

Market	Kacha Arhat Rs.	Dallali Rs.	Tolai Rs.	Rolai Rs.	Palledari Rs.	Jhari R.	Changar Rs.	Total Rs.
Hoshiarpur	1·00	0·16	0·22	..	0·22	..	..	1·60
Mukerian	1·00	..	0·22	0·16	..	0·50	0·12	2·00
Garhshankar	1·00	0·10	0·22	..	0·22	0·16	0.16	1·86

(*b*) *Borne by the buyer*—

Market	Pacca Arhati Rs.	Market Fee Rs.	Total Rs.
Hoshiarpur	0·50	0 ·31	0·81
Mukerian	1·00	0·31	1·31
Garhshankar	N.A.	N.A.	N.A.

CHARGES PREVALENT AT PRESENT (SEPTEMBER, 1966)

(*a*) *Borne by the seller*—

Arhat	Tolai Rs.	Chhanai Rs.	Palledari Rs.	Unloading Rs.
Nil	0·10 per quintal. 0·9 per quintal for vegetable	0·8 per quintal	0·10 per bag	0·25 per cart 0·35 per trolley 0·50 per truck

(*b*) *Borne by the buyer*—

Arhat	Market Fee	Bharai and Salai
Rs.	Rs.	Rs.
1·50 for goods worth Rs. 100 transaction	0·40 for Rs. 100 transaction	0·6 per bag
Rs. 4.00 for vegetable worth Rs. 100 transaction		
Rs. 3.00 for green fodder worth Rs.100 transaction		

(*Note.*—These rates are prevalent at Garhshankar Market. It is presumed that the same rates are charged in other markets).

At the end of 1961, there was one District Wholesale Society functioning at Hoshiarpur and five Marketing Co-operative Societies, one each at Mukerian, Urmar Tanda, Garhshankar, Nangal and Dasuya.

The trade is regularised by the State by licencing the dealers in different commodities under the relevant State Licencing Order. Prices are regularised by the State in two ways. Firstly, by controlling the prices of certain commodities and secondly, by-entering the market whenever the prices fall below a certain minimum level or shoot beyond a certain maximum limit. The District Food and Supplies Office was amalgamated with that of Jullundur District in 1953, but was reorganised in 1958. The Market Committees keep a watch with a view to ensuring observance of marketing practices, the use of standard weights, and licence the various market functionaries.

Foodgrains are stored in bags piled one above the others in rooms. The godowns are generally not moisture proof and admit mice resulting in substantial losses. There are, however, three cold stores at Hoshiarpur used mainly for potatoes.

The most important item of export from the District is chemical fertiliser produced by Fertilizer Corporation of India at Nangal. Other commodities sent out are rosin, turpentine, pine oil, ivory inlay goods, rice, gur and shakkar, edible oil and oil cake, and green vegetables and mangoes. The bagar grass is sent to the paper mills at Jagadhri and fire-wood for domestic consumption.

The imports are mostly of foodgrains, cotton, kerosene oil, salt, coal, machinery, cloth, sugar, metals, spices and medicines.

D—COMMUNICATIONS

The District is fairly well served with roads most of which converge to Hoshiarpur. The most important road in the District is the one connecting Jullundur with Dharamsala through Hoshiarpur, Gagret and Bharwain. Then there are two strips of long roads running from north-west to south-east : the one comes from Batala through Dasuya, Hoshiarpur, Garhshankar, Balachaur to Rupar ; the other leads from Gurdaspur through Mukerian, Talwara, Gagret, Una, Anandpur Sahib to Rupar. Una is connected also with Jaijon and Garhshankar. One road connects Hoshiarpur with Phagwara and another with Tanda.

Since Independence, there has been a considerable improvement in roads both in length and their up-keep. The following figures give an idea of extension of roads in the District :—

Year	*Road mileage*		
	Total	Metalled	Un-metalled
1950-51	662*	132	530
1955-56	666*	205	461
1960-61	749*	332	417

*The figures exclude Municipal roads.

The road mileage per 1,000 population was 0.61 in 1960-61 as against the corresponding figure of 0.67 for the entire State of Punjab. The road mileage per 100 square miles, in the District was 33.71 in 1960-61, as against 29.6 for Punjab.

Bridges.—The state of communications in this District is not satisfactory in the rainy season, because of a large number of hill torrents and *chos* running across the roads which are not bridged. The more important bridges constructed in recent years are listed below :—

1. The bridge on river Sutlej near Nangal, completed in 1951.
2. The bridge on the Sutlej at Rupar, completed in 1955.
3. The bridge on the Swan stream, completed in 1962.
4. The bridge on Kala Singi *cho* near Una, completed in 1964.
5. The bridge on the Nasrala *cho* between Hoshiarpur and Jullundur, completed in 1966.
6. A high level bridge over Swan Nadi near Gagret is under construction.
7. The bridge on the Bhangi *cho* near Hoshiarpur, completed in 1966.

Table 35* shows the major bridges (having a span of 300' or above) in Hoshiarpur District.

Rest Houses.—Rest Houses are meant primarily for Government servants when on tour. When vacant they might be occupied also by the members of the public. A list is given below of the Rest Houses in the District :—

1. P.W.D. Rest House, Hoshiarpur ;
2. Civil Rest House , Hoshiarpur ;
3. Civil Rest House, Bankhandi ;
4. P.W.D. Rest House, Una ;
5. Civil Rest House, Dasuya ;
6. Civil Rest House, Mukerian ;
7. Civil Rest House, Gagret ;
8. Civil Rest House, Bharwain ;
9. Inspection Bungalow at Garhshankar ;
10. District Board Rest House, Mahilpur ;
11. District Board Rest House, Amb ;
12. District Board Rest House, Hariana ;
13. District Board Rest House, Tanda ;
14. District Board Rest House, Nurpur Bedi ;
15. District Board Rest House, Talwara ;
16. District Board Rest House, Hajipur ; and
17. Civil Rest House, Balachaur.

Table 34† shows polymetric distances in the District.

Road Transport. Though motor vehicles are becoming increasingly popular, the bullock-carts still hold the sway in the countryside both for conveyance and carriage of goods. They are eminently suited to the rugged countryside where sophistical modern vehicles dare not tread. A recent improvement has been to fit the carts with penumatic tyres in place of the traditional wooden wheels. This innovation is restricted mostly to towns. According to the census held in 1961, there were 24,698 carts in the District. Their number has risen to 29,727 in 1966.

With the improvement and extension of roads and the indigenous cycle industry, bicycles are being used as extensively in villages as in towns. The cycle rickshaws are seen everywhere in towns. With the introduction of cheap wheeled traffic, the number of beasts of burden, viz., donkeys, mules, horses and ponnies and camels has greatly declined during the last few decades. The tongas and yekkas have become scarce.

In 1960-61, there were 1,472 motor vehicles on road in the District which included 102 motor cycles, 1 auto-rickshaw, 104 jeeps, 245 private motor cars, 13 motor cabs, 211 other public service vehicles, 652 goods vehicles and 144 miscellaneous vehicles.

*Page 98. †Page 98.

Railways.—Four sections of railway line serve the District. Hoshiarpur is a rail-terminus on the Jullundur-Hoshiarpur branch line, connecting Hoshiarpur with Nasrala and Shamchaurasi in the Hoshiarpur Tahsil, and with Khurdpur (Adampur) and Jullundur in the Jullundur District, the latter being an important junction. This branch line was constructed in 1913-14 and has a length of 9.13 miles falling within the District.

The Jullundur-Pathankot Section of railway line serves the Dasuya Tahsil. The railway stations falling in this District are Tanda, Kudhha-Korala, Garna Sahib, Dasuya, Unchi Bassi, Gaunspur, Mukerian, Masahibpur, Bhangala and Chack-Kalan. The railway line upto Mukerian was constructed after the Second World War and Pathankot railway line ahead of Mukerian is a development of post-independence period. This railway line has a length of 22 miles from Chulong to Mukerian.

The Jullundur-Jaijon Section is in the Garhshankar Tahsil. This line was also constructed after the Second World War and has a length of 16.09 miles from Phagwara to Jaijon. The railway stations in the District lying on this line are Garhshankar, Satnaur, Saila Khurd, Mehangarwal and Jaijon.

The fourth railway line is a part of the Ambala-Nangal Section. This railway line connects Nangal Township, Anandpur Sahib, Kiratpur and Bhanoopli of this District with Rupar, Sirhind, and thereonward with Ambala and Delhi. The Nangal railway line was constructed after Independence.

Radios.—The number of broadcast receiving licences has increased from 11,223 in 1961 to 21,296 in 1964 (Table 21*)

Post and Telegraph(Table 32†).—The District has a net-work of post offices, telegraph offices and telephone connections. The number of post offices on 31st March, 1961 in the District was 429: 81 in Dasuya Tahsil, 119 in Hoshiarpur Tahsil, 124 in Una Tahsil and 105 in Garhshankar Tahsil. On an average, there is a post office for every four to five villages, serving on average some 5 sq. miles.

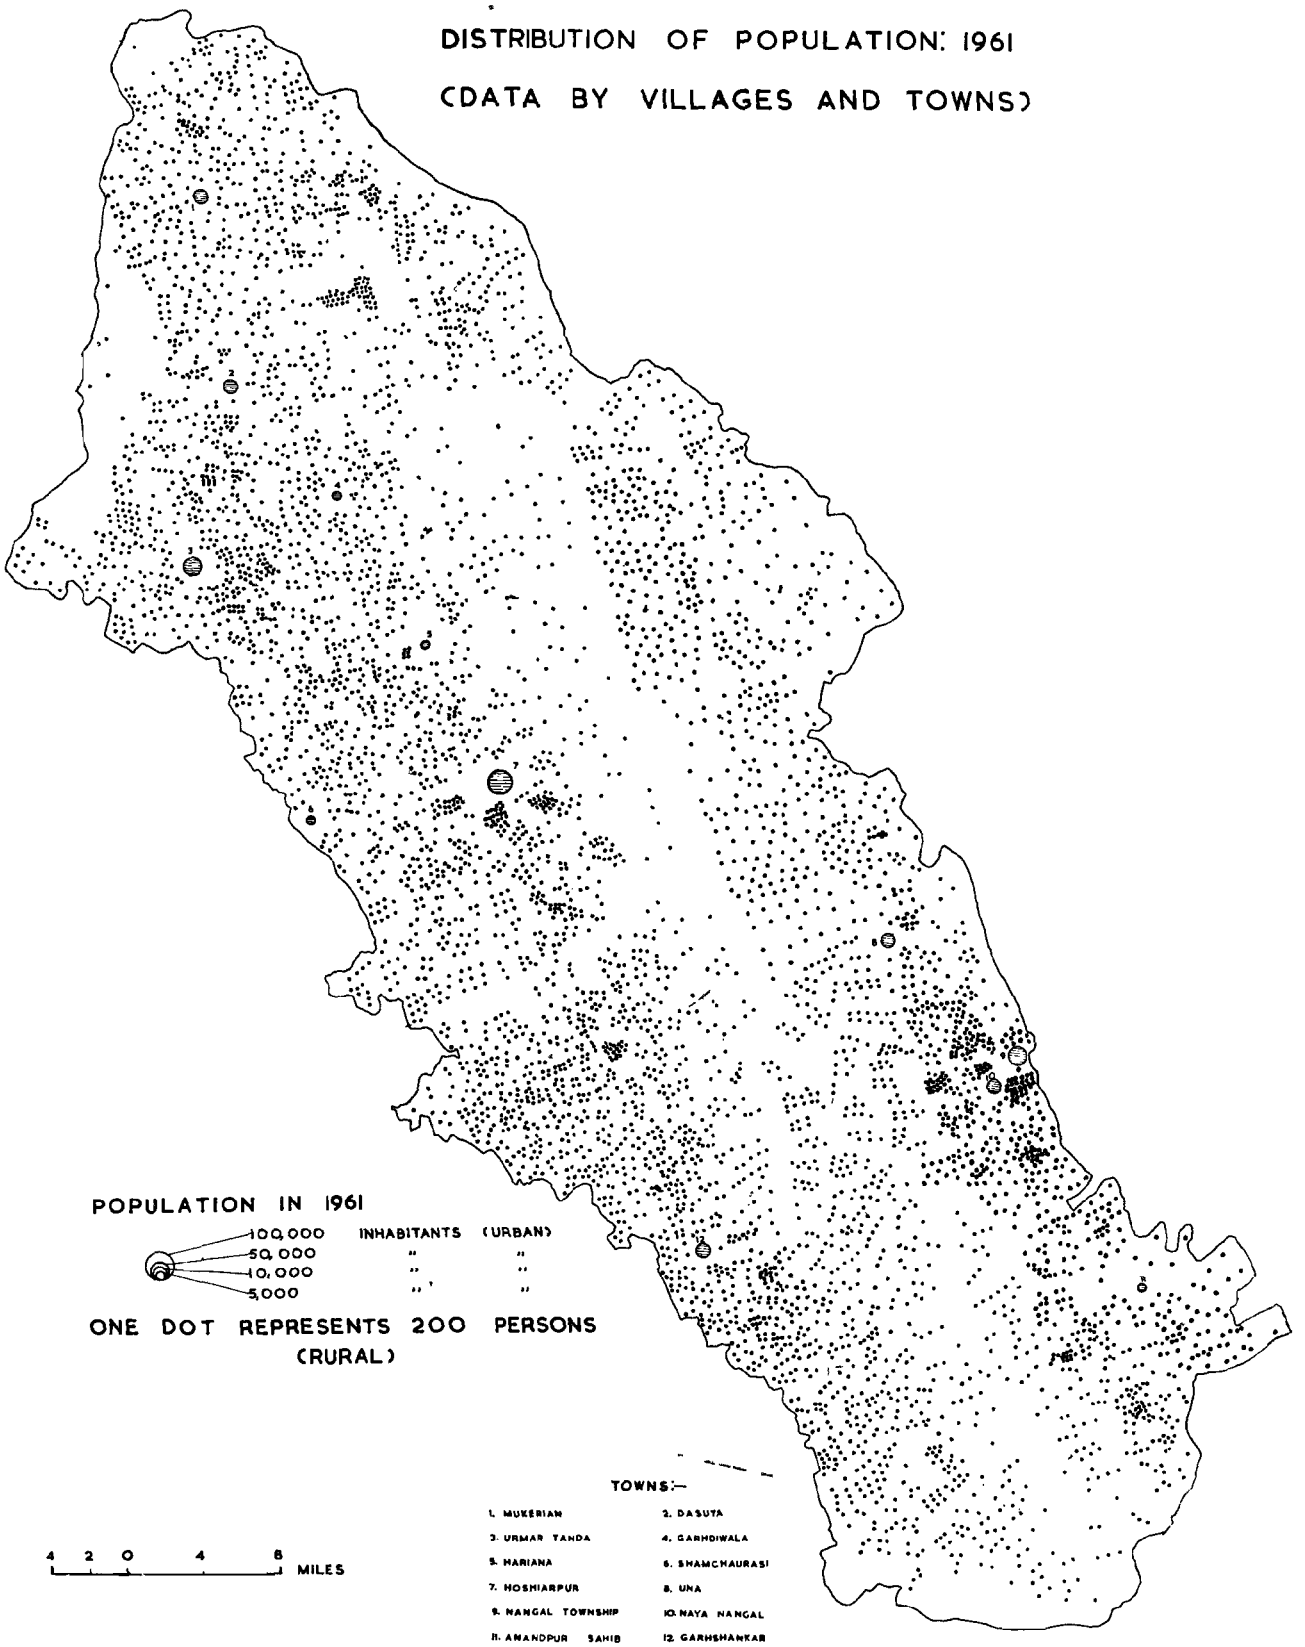

There are nine telephone exchanges at Dasuya, Garhshankar, Hoshiarpur, Mukerian, Nangal, Talwara, Urmar Tanda, Una and Anandpur Sahib.

CHAPTER III

POPULATION

Part III of this book contains Tables relating to the 1961-census. These Tables are preceded by an exhaustive note explaining their arrangement and the terms used. The broad facts thrown up by these statistics are stated below.

Area (Table A-I*).—The Hoshiarpur District covering 2,221.8 sq. miles is composed of four Tahsils. Una Tahsil has the largest area (690.2 sq. miles). The other three Tahsils are more or less equal in size: Hoshiarpur Tahsil (523.7 sq. miles), Dasuya Tahsil (501.5 sq. miles) and Garhshankar Tahsil (506.4 sq. miles). Among the 19 Districts constituting Punjab, Hoshiarpur occupies the 11th position in area, Kangra being the largest (6,292.3 sq. miles) and Simla being the smallest (222.1 sq. miles) in size. Una Tahsil is mostly hilly, while the Hoshiarpur, Dasuya and Garhshankar Tahsils are largely plain areas.

Under the Province and States (Absorption of Enclaves) Order, 1950, Hoshiapur gained 24 villages from Kapurthala District, measuring 14.4 sq. miles. During 1951-61, the District gained one village, Kosar of 2 sq. miles from the Hamirpur Tahsil of Kangra District and was attached to Una Tahsil.

Population.—On the sunrise of the 1st March, 1961, the District had 1,233,493 persons: 649,343 males and 584,150 females, giving it nineth position amongst the Districts of Punjab ; Ferozepur District occupied the first position (1,619,116) and Lahaul & Spiti District the last (20,453).

Growth of Population (Table A-II†).—The population of Hoshiarpur District as now constituted was 999,158 persons in 1901. During the last sixty years (1901-61), the District added 23.5 per cent to its population. The population of Punjab as at present constituted similarly increased by 53.1 per cent from 13,265,860 in 1901 to 20,306,812 in 1961. The low increase in the District population can be attributed partly to the low industrial growth and the largely barani soils beset with numerous hill-torrents and ravines giving poor yields, and partly to the outmigration to other parts of the country and even to outside India for which the District figures prominently.

The rates of decennial increase since 1901 are placed side by side for Hoshiarpur and Punjab. It will be noticed that in four out of six decades, the increase was lower in Hoshiarpur than in the State as a whole.

Decade	*Percentage decade variations*	
	Hoshiarpur	Punjab
1901-11	(—) 7·2	(—)10·0
1911-21	(+) 1.0	(+) 4·4
1921-31	(+)11·3	(+) 9·6
1931-41	(+) 13·5	(+)17·8
1941-51	(—) 7.5	(+) 0·2
1951-61	(+)12·7	(+)25·9
1901-61	(+)23·5	(+)53·1

The decade 1901-11 was marked by severe ravages of plague and malaria which took a heavy toll. The loss was, however, not severe in the District. The decade 1911-21 experienced a severe outbreak of plague in 1915 followed by three unhealthy years ending in a severe outbreak of influenza in 1918, but the comparative death rate from influenza in Hoshiarpur District was 26 as compared with Eastern Districts of Gurgaon (123.1), Rohtak (96·2), Hissar (67.2), Karnal (60.8) and in Ludhiana (77.4). The low rate of increase in the District was perhaps more due to out-migrations: the emigrants constituted 20 per cent of the population in 1921 census as compared with the immigrants proportion of 7 per cent.

*Page 187. †Page 189.

Population expanded at a fast rate during 1921-31 and it was faster in Hoshiarpur than in the State as a whole. The decennial birth rate was 41 per thousand as against the death rate of 28 per thousand. The decade was on the whole healthy with the exception of the great epidemic of plague in 1925 and 1926 and severe cholera in Lahore and Ferozepur Districts in 1926 and in Kulu valley in 1928. Malaria in an epidemic form occurred in 1928. Hoshiarpur District seems to have escaped from these epidemics and the excess of births over deaths calculated at 127 per thousand in Hoshiarpur District placed it among the few Districts which enjoyed high rate of natural increase.

During 1931-41, population increased by 17.8 per cent in Punjab despite the malaria epidemic caused by floods in Karnal, Gurgaon and Rohtak Districts in 1933 and famines in Hissar District in 1932-33, 1938, 1939 and 1940, Rohtak and Gurgaon in 1938 and 1939. The rate of growth in Hoshiarpur District (13.5 per cent) though the highest as compared to other decades was lower than in Punjab. The decennial birth rate had increased to 42 per thousand and death rate fallen to 27 per thousand in Hoshiarpur District. The lower increase can be attributed mainly to high rate of emigration.

The decade 1941 51 bore the holocaust of unprecedented communal trouble and mass migration in the wake of Partition. Most of the non-muslim immigrants did not choose to settle in Hoshiarpur District because of its low industrial and agricultural potentials. The decade registered 7.5 per cent decrease in population as compared to 0.2 per cent increase in Punjab. The fall in growth rate in Hoshiarpur District was largely due to the short replacement of Muslims by the displaced persons. The displaced persons in the District were enumerated as 146,935 as against the Muslims declining from 380,759 in 1941 to 1,359 in 1951. Besides, in 1950, due to heavy rains and floods, the deaths per thousand from fevers were recorded as the highest (19.3) in Hoshiarpur District. The decennial birth rate also declined in the District during the decade.

The years 1951-61 were free from disease and the health measures taken by the Government considerably reduced the death rate while the birth rate remained almost unchanged, resulting in 25.9 per cent increase in population in the Punjab State. However, the rate of growth in Hoshiarpur District was, half (12.7 per cent) of what it was in the State. The completion of work at Bhakra Dam and the consequent dispersal of the big labour on the project was one factor for the low increase in the District, and of course out-migration continued to drain out a portion of the District population.

Density of Population.—Punjab has 429 persons to a square mile, and Jullundur is the most thickly populated District (914). The number of persons per square mile in Hoshiarpur works out to 555, and in this respect it ranks seventh among the 19 Districts in the State ; the other Districts with denser population are Amritsar (782), Ludhiana (773), Gurdaspur (740), Rohtak (609) and Ambala (597).

The density of population in the District has constantly increased during the last 40 years. (1921-61) except in 1951, as shown below.

Tahsil	*Human Density per sq. mile*				
	1921	1931	1941	1951	1961
Hoshiarpur	486	548	636	479	574
Dasuya	430	476	545	496	567
Garhshankar	456	508	567	537	568
Una	336	370	411	433	523

A feature to note is the almost uniform density among the various Tahsils of Hoshiarpur.

Villages (Table A-III*).—The District has 2,192 villages of which 122 are uninhabited (*be-charag*). 569 villages have less than 200 persons each. On the other hand, 46 villages in the District have population of 2,000 or more.

The number of persons per inhabited village works out to 525 in Hoshiarpur District as compared with 763 for Punjab as a whole. In Garhshankar and Una Tahsils, the villages are of bigger size (610 and 597 persons per village) than in Hoshiarpur and Dasuya Tahsils (475 and 439 persons per village).

Towns.—Villages haye 88.1 per cent of the District population and towns have 11.9 per cent, the corresponding figures for the State being 79.9 and 20.1, respectively. Except Hoshiarpur, none of the towns seems to be doing well. In Table A-IV** particulars are given of the 12 towns of the District. The biggest town in the District is Hoshiarpur. Its population increased from 35,345 in 1941 to 45,291 in 1951 and 50,739 in 1961.

*Page 190. **Page 191.

Nangal Township comes next to Hoshiarpur with 34,372 persons. The town came into being during the decade in connection with the Bhakra-Nangal Dam project. It is served by a Notified Area Committee.

The third town is Urmar Tanda. Its population decreased from 12,734 in 1941 to 9,857 in 1951 due to the effects of Partition, but showed a mild increase in 1961 to 10,383 persons. It is a leading market for paddy and rice in the District.

Among class V towns (population ranging from 5,000 to 9,999), there are five in the District: Dasuya, Mukerian, Naya Nangal, Garhshankar and Una. Dasuya lost its population from 9,206 in 1941 to 7,895 in 1951, mainly due to the effects of Partition but improved to 8,721 in 1961. The population of Mukerian has increased from 7,493 in 1951 to 8,676 in 1961. A Municipal Committee was created here in 1955 in place of a small Town Committee. It is also an agricultural produce market, especially for paddy. Naya Nangal, famous for Nangal Fertilizers and Heavy Water Factory, is a newly built town and appeared in the list of towns for the first time in 1961 census when its population was 7,987. The population of Garhshankar fell from 6,885 in 1941 to 5,495 in 1951, mainly due to the effects of Partition, but remained static with 5,976 persons in 1961. Una has showed a small increase from 5,394 persons in 1941 to 5,407 in 1951 but declined to 5,166 persons in 1961.

Four towns fall in class VI (population below 5,000): Hariana, Anandpur Sahib, Garhdiwala and Shamchaurasi. Hariana lost Population from 4,725 in 1951 to 4,468 in 1961 and Anandpur Sahib from 4,266 in 1951 to 4,189 in 1961. The population of Garhdiwala has remained almost static during the decade, and has only slightly increased from 3,018 in 1951 to 3,153 in 1961. The population of Shamchaurasi fell from 2,988 in 1951 to 2,470 in 1961.

The towns in Hoshiarpur District are less congested as those in Punjab, the urban density of the District being 7,487 as against 9,476 of Punjab; Shamchaurasi has the highest density of 35,286. Other towns with high densities are: Nangal Township (26,238), Garhdiwala (24,254) and Hariana (17,872). Four towns, viz. Dasuya, Hoshiarpur, Anandpur Sahib and Garhshankar have densities between 11,500 and 13,500. The towns with low densities are Naya Nangal (1,387) and Urmar Tanda (2,077).

Sex Ratio.—In 1961-census, 584,150 females and 649,343 males were recorded in the District, a ratio of 47 : 53.

The number of females per thousand males works out to 900 for the District as against 864 for Punjab and 941 for the Indian Union. This gives it third position among the Punjab Districts; the first and second Districts being Kangra (987) and Mahendragarh(929). Simla has the lowest number of 731 females per thousand males. During the last fifty years there has been a substantial improvement in favour of women both in this District and in the State, as the following figures shows:—

Year	*Females per thousand Males*	
	Hoshiarpur	Punjab
1911	832	807
1921	860	821
1931	871	830
1941	883	850
1951	881	858
1961	900	864

Among the four Tahsils, Dasuya leads with 928 females per thousand males, followed by Garhshankar (901), Una (891) and Hoshiarpur (882).

The sex ratio in the rural areas of the District works out to 919, and for urban areas 766. The high figure for villages and the low figure for towns is the result of the males moving from villages to towns for better employment opportunities and for higher education.

Age Composition.—In Table C-II* the 1961 population of the District is distributed into various age groups. With a view to comprehending the comparative strength of these groups a Table is placed below in which totals have uniformly been taken as 1,000 :—

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS IN HOSHIARPUR DISTRICT

Age group	*Total*			*Rural*		*Urban*	
	Persons	Males	Females	Males	Females	Males	Feamles
All Ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	288·0	290.0	285·8	295·5	285·2	252.2	290.8
10—14	127·7	128.5	126·7	131·4	127·0	109·0	124·3
15—19	89·8	87.7	92.1	87·1	91·3	91·6	98·7
20—24	73·6	69·5	78.1	63·3	75·0	111.7	103·4
25—29	69·0	64·1	74·5	59·1	72·8	98·7	88·2
30—34	58·8	55·1	62·9	52·2	62.6	74·8	65.6
35—39	52·1	49·3	55·2	48.1	55·6	57·5	51·2
40—44	48·0	47 4	48·7	46·9	49·3	50·7	43·9
45—49	40.2	40·6	39·7	40·7	40·4	40·2	33.9
50—54	40.2	42.9	37.2	43·9	37·8	36·0	32·6
55—59	25·7	28·0	23·2	28·9	23.9	21·6	17.6
60—64	32.4	36·2	28·0	38·1	29·1	23·5	19.7
65—69	16.9	19.9	13·7	21·2	14·2	10·6	9·3
70+	36·8	39.8	33·5	42·5	35. 1	21·6	20·2
Age not stated	0.8	1.0	0·7	1·1	0.7	0·3	0·6

Much reliance cannot be placed on the inferences drawn from the figures given in the above table since a District is a small geographical area and the inflow and outflow of population may camouflage the true position.

With this reservation, it may be stated that the age-pyramid has a broad base and tapers rather obliquely : 288 persons per thousand of the population are below the age of 10, and only 113 of age 55 years and above. Roughly speaking, out of one hundred persons in the District 41 are below the age of 15, 23 between 15 and 29 years, 16 between 30 and 44 years, 11 between 45 and 59 years, and 9 persons past the age of 60 years.

Males below the age of 15 years are 418 per thousand males : corresponding figures for females are 413. In ages between 15 and below 55 years, the males count 457 per thousand and the women are 488. In age 55 years and above the males are 124 but females are only 98. The girls in rural areas unfortunately still do not receive the same care as the boys and after the marriage they have the extra handicap of maternity troubles and stress of domestic life.

Quite a large number of persons shift from villages to towns for study and livelihood. The low-paid among them leave their families in their village homes and live in the towns by themselves. When past the age of useful work some among them return to their villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to below 55, and 55 and above, the distribution among males is 427, 441 and 131 per thousand males in the rural areas and 361, 561 and 78 in urban areas. The corresponding figures for females in rural areas are 412, 485 and 102 and for urban areas 415, 517 and 67.

Marital Status.—In Table C-II *persons in different age groups are classified according to their marital status. To comprehend the significance of these figures one thousand males and one thousand females for the District as a whole and for rural and urban are distributed according to their marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	*Total*		*Rural*		*Urban*	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never Married	587·2	465·4	590.4	459.9	565·1	511·1
Married	354·8	445.9	348.3	448.6	399·0	423·9
Widowed	56·4	87.4	59·6	90·3	34·8	63·9
Divorced or Separated	1·1	0·8	1·2	0.8	0·6	0.6
Unspecified Status	0·5	0·5	0·5	0·4	0·5	0·5

*Page 268.

It will be noticed that in the District as a whole some 59 per cent of males and 47 per cent of females are unmarried. The higher number of the unmarried males is due to shortage of females, which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females than among males.

The proportion of married males is higher in towns than in villages. The proportion of married females is slightly lower in urban areas than in rural areas. This might be due to better financial position among town people so that fewer persons have to defer marriage because of lack of means.

Marriage in this country is universal and there is always an explanation for an old bachelor or spinster. In the Table given below the unmarried males and females, numbering 381, 284 and 271,876 are classified according to age in terms of 1,000 males and females.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	*Rural*		*Urban*	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0—9	500.5	620·1	446.3	568·9
10—14	219.9	261·0	192·4	239·9
15—19	131·5	103·1	154·6	134.3
20—24	56·3	11·9	128.8	50·4
25—29	22·5	1·1	40.2	3·0
30—34	13.9	0.4	11.2	0·7
35—39	8·8	0·2	5.6	0.6
40—44	8·4	0·2	5·1	0 4
45—49	7·3	0.1	3·9	0·4
50—54	7·9	N	3·3	0·1
55—59	5·0	0·6	2.4	0·1
60—64	6·7	0·1	2·5	0·1
65—69	3·5	N	1·2	0·1
70+	6 2	N	2.2	0·1
Age not stated	1.6	1·2	0.3	0.9

It will be seen that there are only 54 never married males per thousand males in villages who are past the age of 34 years, and there are only three spinsters per thousand females who are past the age of 24 years. The corresponding figures for urban areas are 26 and 6, respectively.

Literacy.—Literacy in the District stands at 28·8 per cent in contrast with 24·2 per cent in the State and 24 0 in the Indian Union. Among the Districts of the State, Hoshiarpur District occupies seventh position in regard to literacy, the first position being occupied by Simla District (43·6).

Table C-III* gives information on literacy by age groups and sex, both in respect of rural and urban areas. The position is summarised below :—

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

Educational level	*Hoshiarpur*		*Punjab*	
	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000
Illiterate	542	801	611	831
Literate	458	199	389	169
Literate (without educational level)	161	98	167	85
Primary or Junior Basic	229	90	166	70
Matriculation and above	68	11	56	14

*Page 274. N=Negligible.

It will be noticed that in the District as a whole 458 per thousand males and 199 per thousand females above the age of five years are literates (able to read and write), the corresponding figures for Punjab being 389 and 169, respectively, showing that despite comparative poverty, the people in the District appreciate education. Among the literates 161 per thousand males and 98 per thousand females in the District had their schooling, 229 per thousand males and 90 per thousand females had acquired Primary or Junior Basic Standard and another 68 per thousand males and 11 per thousand females had crossed the Matriculation level.

The ruralities have a considerable leeway to make up in order to come in line with the urbanities. In the towns of Hoshiarpur District, there are 690 per thousand males and 490 per thousand females who are literate, but in villages they are as few as 423 and 164, respectively. This feature is common throughout the State where the literacy per thousand is 654 for males and 431 for females in towns and 319 and 104, respectively, in villages.

Mother Tongue (Table C-V*).—The people of the District reported as many as 46 languages as their mother tongue at the 1961-census. Hindi was declared to be the mother tongue by 53 per cent of the people and Punjabi by 47 per cent. Among the remaining languages Pahari-Unspecified and Urdu alone deserve notice.

DISTRIBUTION OF 1,000 PERSONS BY MOTHER TONGUE

Mother Tongue	*No. of persons by mother tongue*	*Proportion per thousand*
Total Population	1,233,493	1,000
Hindi	649,222	526
Punjabi	579,740	470
Pahari-Unspecified	1,809	2
Urdu	1,328	1
Others	1,394	1

Religion (Table C-VII**).—Distribution per thousand persons in the District, according to religions is shown below :—

Religion	*No. of persons*	*Proportion per thousand*
Total Population	1,233,493	1,000
Hindus	835,436	677
Sikhs	381,965	310
Christians	7,207	6
Muslims	7,050	6
Jains	1,794	1
Buddhists	31	N
Zoroastrians	1	N
Religion not stated	9	N

Hoshiarpur is predominently a Hindu District. The Hindus form 68 per cent of the total population and the Sikhs 31 per cent. The Hindus are in a majority in all the four Tahsils but they are in overwhelming majority in the Una Tahsil. Christians rank third in the list. 5,586 out of 7,207 Christians in the District were counted in Dasuya Tahsil. They are closely followed by the Muslims with 7,050 persons chiefly in Una and Dasuya Tahsils. At the time of the 1941-census, the Muslims in the District counted 380,759, but in the wake of Partition they migrated *en bloc* to Pakistan. There were 1,794 Jains and 31 Buddhists who live mostly in towns.

Place of birth.—Table D-II †throws light on migration based on place of birth. The Table deals only with immigration and does not take into account the persons who had gone out of the District. A threefold classification has been made in this Table in regard to the place of birth : (i) of males and females, (ii) their place of enumeration being an urban or rural area, and (iii) their place of birth being an urban or rural area. To bring out the detailed features presented in the Table will cover a big space and will interest only a few readers. Hence only some broad features are mentioned below.

Out of 1,233,493 persons enumerated in the District, as many as 754,681 persons or 61.2 per cent were born in the same towns or villages where they were enumerated. Among the rural population, this percentage works out to 64.8 and in urban areas to 34.6, denoting a higher degree of mobility among townsmen.

*Page 276. **Page 278. †Page 280. N=Negligible.

Another interesting feature is the difference between the two sexes in this respect. Among males as many as 75.3 per cent were born at the place they were enumerated as against 45.5 per cent in the case of females. The low figure for females springs from the extra factor of their leaving the ancestoral place on marriage.

282,616 persons or 22.9 per cent of the population were born at another place within the District. This percentage is 10.8 in the case of males but as high as 36.4 in the case of females, due to the factor of marriage. Persons born in the Punjab Districts other than Hoshiarpur numbered 80,356 or 6.5 per cent of the population. Even in this group the percentage for females is higher than for males.

The Punjab-born persons formed 90.6 per cent of the District population. The remaining 9.4 per cent hailed from areas shown below :—

Place of birth	*Number*	*Percentage to total population*
Other States of India	17,563	1·4
Pakistan	95,022	7·7
Other Countries	1,760	0.2
Information not available	1,495	0.1

Persons born in other Indian States were mostly from Uttar Pradesh (5,186), Jammu and Kashmir (3,094), Himachal Pradesh (3,092), Delhi (1,904) and Rajasthan (1,165). With the exception of immigrants from Delhi, most of these persons were counted in rural areas.

The Pakistan-born persons (95,022) were mostly those who migrated to the District in the wake of Partition. Immigrants from other countries in Asia (1,025) were mostly from Nepal (447) and Burma (231). There were 570 immigrants from countries in Africa and 118 from countries in Europe.

Scheduled Castes (S.C. Tables)*.—The Scheduled Castes numbering 299,314 formed 24.3 per cent of the District population. Among them, 161,020 were males and 138,294 were females. Six per cent of them lived in towns and the remaining ninety four per cent in villages. Per thousand males, there were 859 females among the Scheduled Castes as against 913 among the non-Scheduled Castes. The literacy percentage of the Scheduled Castes works out to 16.7 (27.2 among males and 4.5 among females) as against 28.8 literacy percentage in the District population (39.4 among males and 17.1 among females).

Out of the 37 Scheduled Castes in Punjab, 22 castes are found in the District. The most numerous amongst them are Ad Dharmis (190,507) ; Chamars, Jatia Chamars, Rehgars, Raigars, Ramdasis or Ravidasis (52,145) ; Balmikis, Churas or Bhangis (25,964) ; Kabirpanthis or Julahas (10,270) ; Dumnas, Mahashas or Dooms (6,766) ; Sareras (4,924) ; Bazigars (2,589) ; Mazhabis (1,669) ; and Bhanjras (1,418).

Households (Tables B-X to B-XVII, C-I and SCT-V)**. -Out of 1,233, 493 persons in the District 2,100 were houseless such as members of wandering tribes, tramps, *sadhus*, and pavement dwellers. The remaining 1,231,393 persons lived in households. A household has been defined as a person or a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so.

For studying the size and other characteristics of households, a 20 per cent sample was drawn and analysed. In this sample, the persons living in institutions, such as jails, orphanages, hostels, defence and police personnel living in barracks or under canvas were excluded since such households do not function as normal economic entities. The sample thus drawn was 47,090 households consisting of 241,645 persons. The Tables relating to these households are B-X to B-XVII, C-I and SCT-V.

Size of Households.—The average household in the District consists of 5.2 persons. Households and persons are distributed below according to the number of their members. The largest number of households were those with four to six members.

DISTRIBUTION OF SAMPLE HOUSEHOLDS AND SAMPLE POPULATION ACCORDING TO SIZE OF HOUSEHOLDS

Size of Household	*Households*		*Persons*	
	Number	Percentage to total	Number	Percentage to total
Total	47,090	100	241,645	100
1 Member	4,862	10·3	4,862	2·0
2—3 Members	10,123	21·5	25,447	10.5
4 -6 Members	18,552	39.4	92,564	38·3
7—9 Members	10,139	21·5	78,326	32·4
10 or more Members	3,414	7·3	40,446	16·8

*Page 294 to 309. **Pages 246 to 266 and 308.

Size of Operational Holdings.—As many as 49.8 per cent of the households in villages were engaged in cultivation in the capacity of peasant proprietors and tenants, but excluding such households as had let out their lands in entirety or were dependent on agricultural labour. These households are distributed below according to the size of their operational holdings.

DISTRIBUTION OF 1,000 SAMPLED HOUSEHOLDS ENGAGED IN CULTIVATION BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY

Size of Operational Holdings	*Per thousand distribution of households*	
	Hoshiarpur	Punjab
Less than 1 acre	54·1	23·2
1.0 to 2.4 acres	190·2	95·5
2.5 to 4.9 acres	203·8	125·2
5.0 to 7.4 acres	192·9	154·6
7.5 to 9.9 acres	101·0	101·6
10.0 to 12.4 acres	102·3	130·1
12.5 to 14.9 acres	31·0	60·2
15.0 to 29.9 acres	96·2	217·5
30.0 to 49.9 acres	17·5	64·1
50 + acres	7·2	22·9
Unspecified	3·8	5·1

Smaller sized operational holdings are more common in the District than in the State as a whole : 64 per cent of households in the District operate on holdings below 7.5 acres in area as against the State figure of 40 per cent; households operating on 7.5 to 9.9 acres form the same proportion in the District as in the State (10 per cent). Households operating on 10 acres and above account for 26 per cent in the District as against 49 per cent in the State.

Workers and Non-Workers.—In Table B-I*, the population is distributed in broad industrial categories of workers, and non-workers. The terms are explained in the note appearing before Census Tables (Part III of this book). Figures in terms of 1,000 population are given below :—

DISTRIBUTION PER 1,000 PERSONS ACCORDING TO INDUSTRIAL CATEGORIES

Industrial Category	*Hoshiarpur*			*Punjab*		
	Persons	Males	Females	Persons	Males	Females
Total Population	1,000	1,000	1,000	1,000	1,000	1,000
Non-Workers	678	490	888	650	471	858
Workers	322	510	112	350	529	142
As Cultivator	183	278	78	197	274	107
As Agricultural Labourer	12	22	1	27	44	6
In Mining and Quarrying	2	3	1	3	6	1
At Household Industry	40	55	22	27	39	13
In Manufacturing	12	23	1	17	31	2
In Construction	13	24	N	7	12	1
In Trade and Commerce	13	25	N	19	35	N
In Transport	4	8	N	7	13	N
In Other Services	43	72	9	46	75	12

In Hoshiarpur District for every 1,000 persons, there are 322 workers and the remaining 678 persons are non-workers. The corresponding figures for Punjab are 350 and 650, respectively. The foregoing statement also reveals some very important facts about the economy of the District. The workers are comparatively less in the District than in the State as a whole, and the participation of women in economic life is as low as 112 per thousand; their work mostly confined to cultivation and household industry.

In the preceding section, we had noticed that operational holdings in agriculture are of smaller size in the District in comparison with the State as a whole which is the main reason for the employment of smaller number of agricultural labourers. Among poorer sections doing agricultural labour, the proportion of workers among females is only 1 per thousand as against the corresponding figure of 6 in the State. This peculiarity is the outcome of the people here considering it derogatory to let their women folk work in other's fields, whereas 78 out of 112 women workers assist their male counter-parts doing agriculture independently.

*Page 192. N=Negligible.

Agriculture (peasant proprietors, tenants and agricultural labourers) absorbs 195 persons per thousand in Hoshiarpur as against 224 in Punjab as a whole.

The proportion of workers working in mining and quarrying is only 2 per thousand as against the State figure of 3 per thousand.

Household industry, on the other hand, employs a much higher proportion of workers in this District than in the State. There are 40 per thousand workers at household industry in Hoshiarpur as against the corresponding figure of 27 in Punjab. The participation of women is also comparatively higher because the work relating to household industry is carried on mostly within the four walls of the house, and is considered honourable avenue of activity for women.

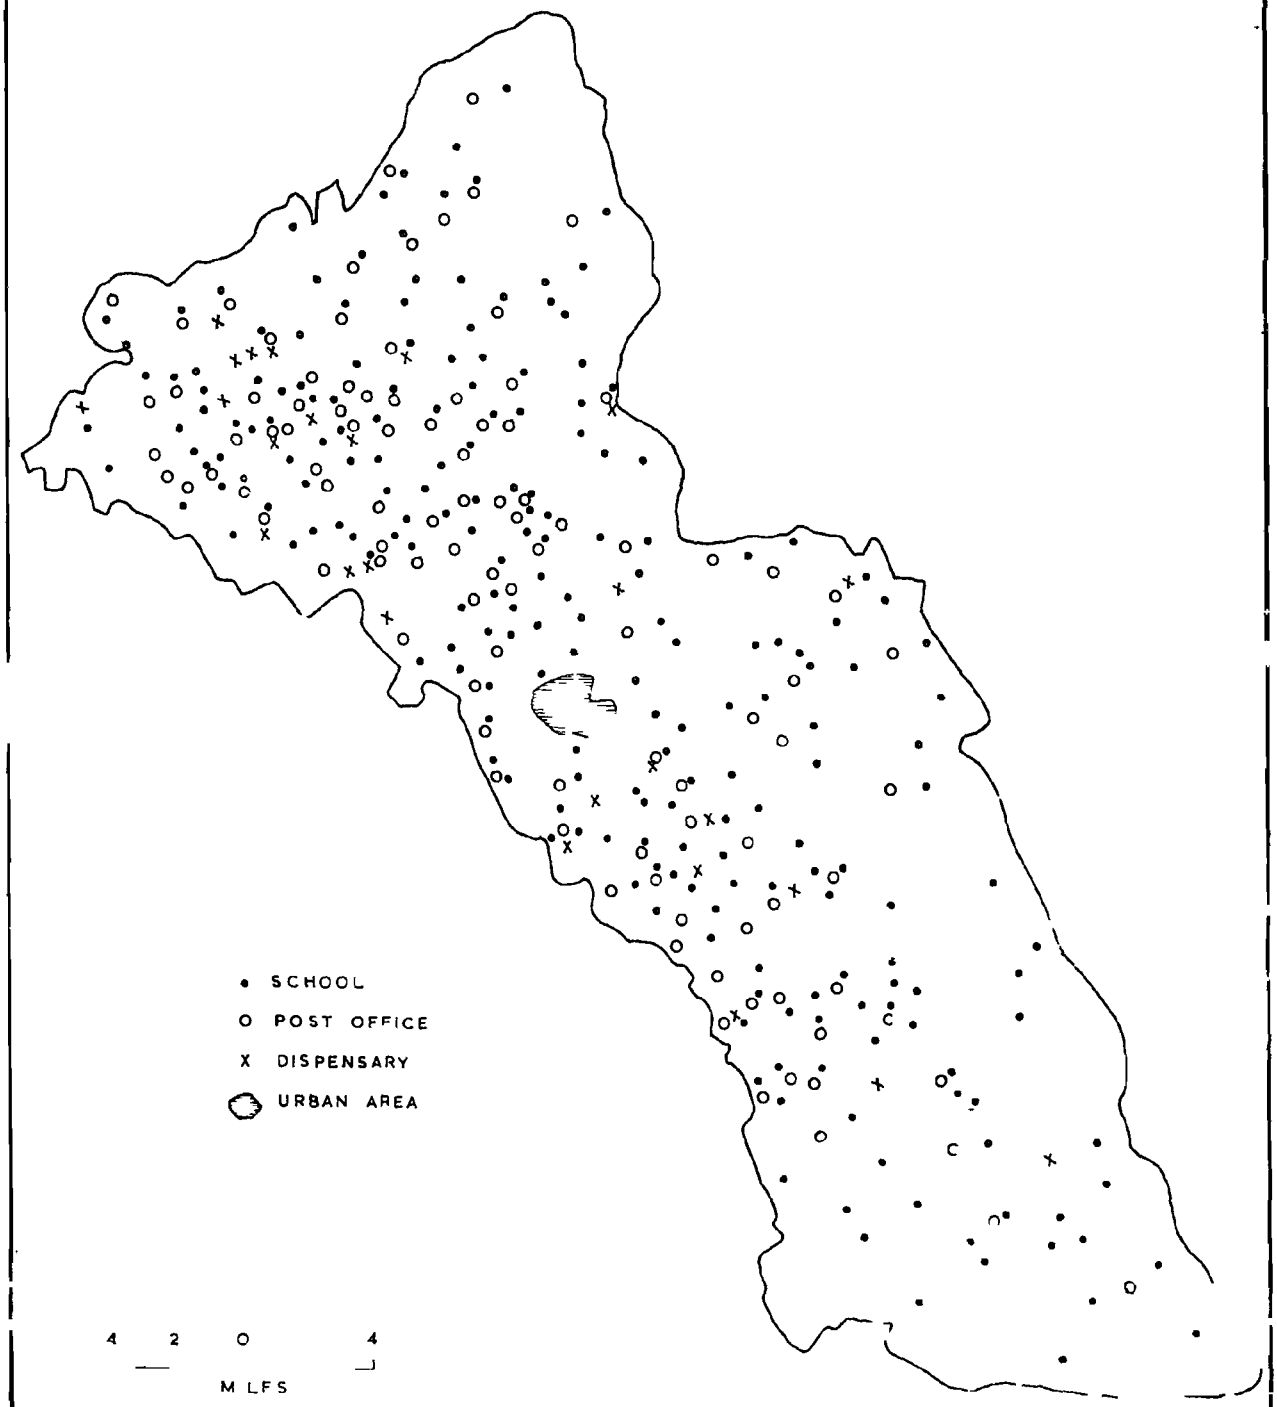

Hoshiarpur lags much behind in factory-industry than Districts like Amritsar, Ludhiana, Jullundur and Ambala ; consequently the proportion of workers in manufacturing is as low as 12 per thousand in Hoshiarpur as against 17 in Punjab.

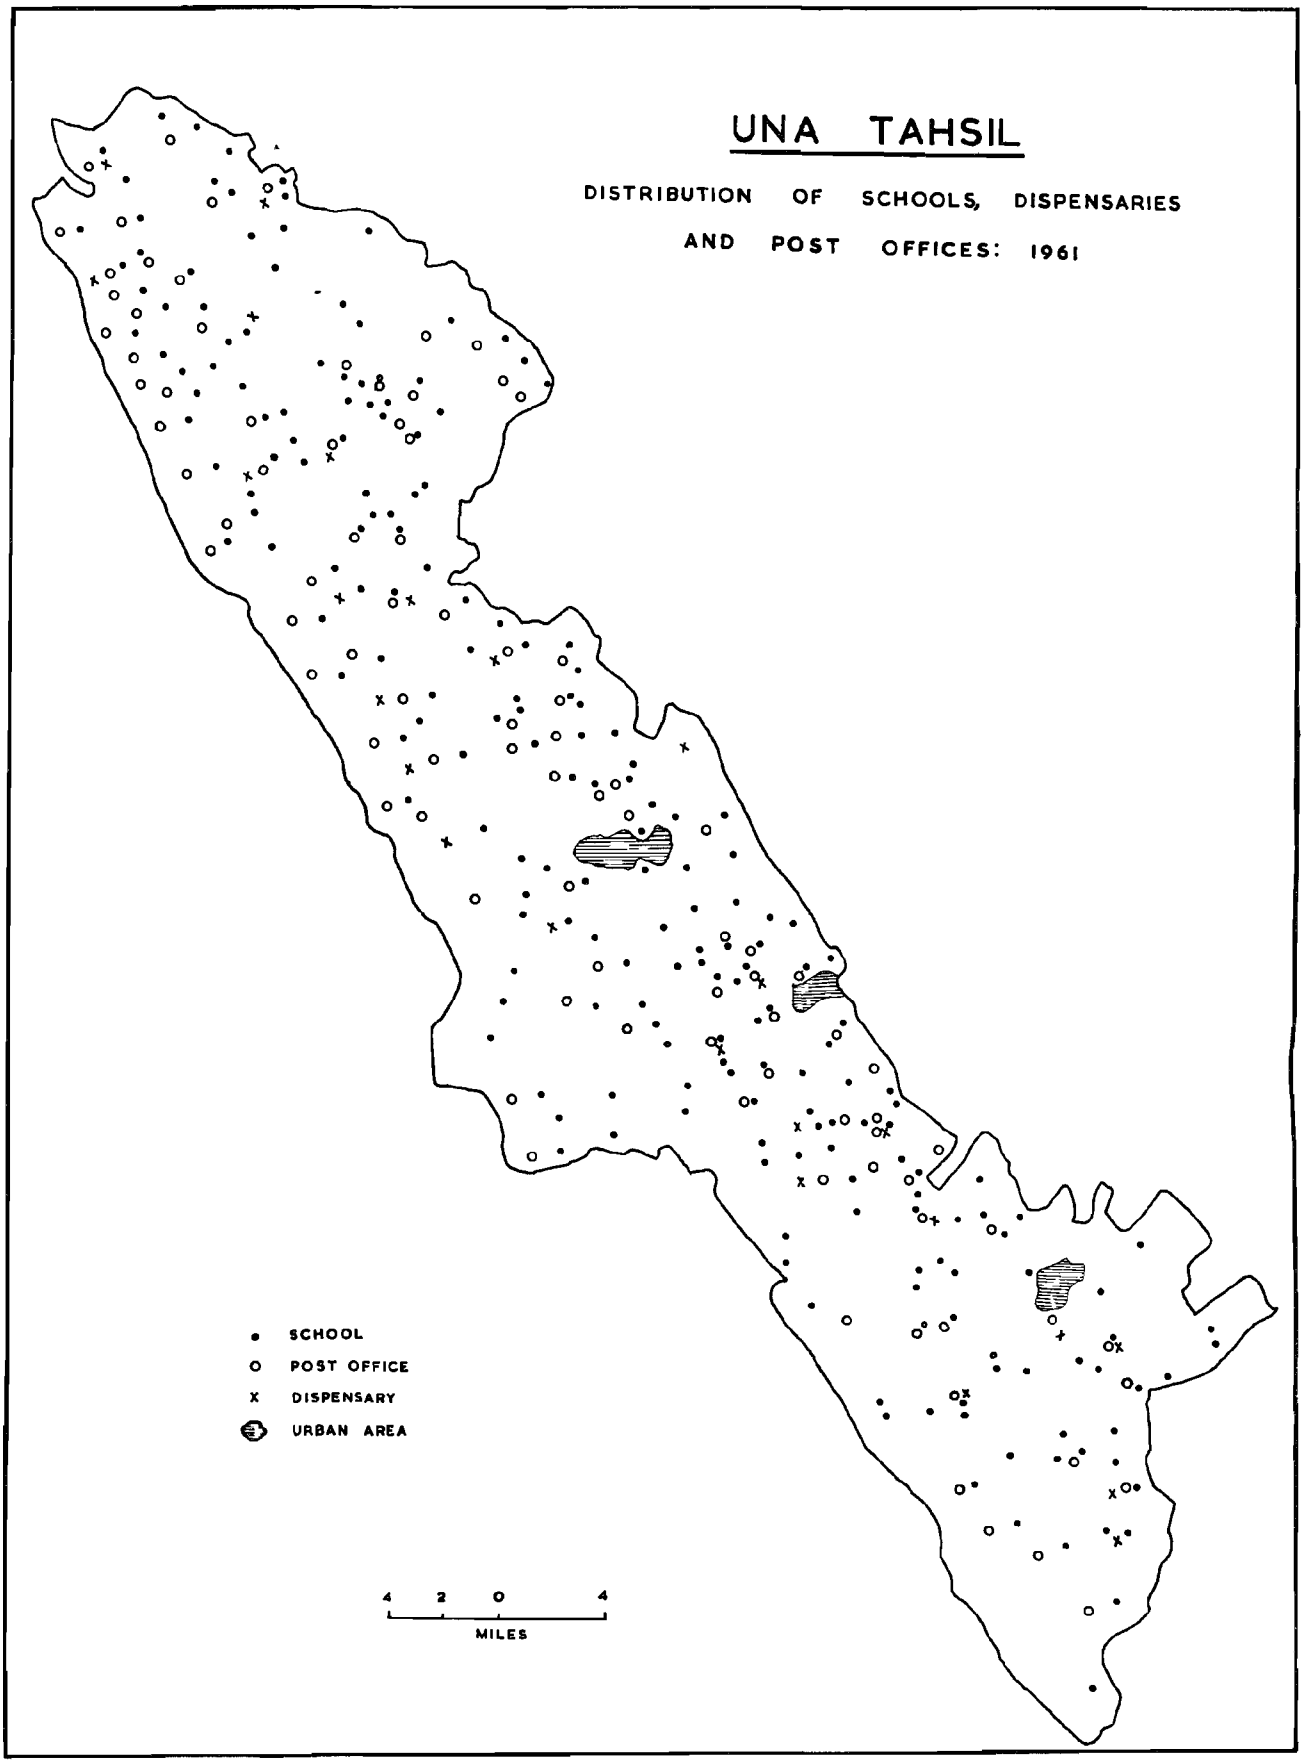

Due to the rapid construction of roads and buildings under the Five-Year Plans, and particularly the mighty Bhakra Dam, the proportion of workers in construction is 13 per thousand in Hoshiarpur as compared with the low figure of 7 in the State as a whole.

The proportion of workers in trade and commerce, transport and other services, is lower in Hoshiarpur than in the State owing to smaller quantity of surplus agricultural produce with the farmers, and lack of employment opportunities in 'other services'.

CHAPTER IV

SOCIAL AND DEVELOPMENT ACTIVITIES

Education—(Tables 16 to 18)*.—It was noticed in the previous chapter that Hoshiarpur District has a higher literacy percentage (28.8) than Punjab as a whole (24.2). The school going boys are 68 per cent of the male population past 5 years but below 15 years in age, and the girl students are 21 per cent of females in this age group. The schools are fairly well spread in the District.

In 1901, there were only four High Schools and eight Middle Schools in the District.

After 1901, the local bodies became more and more interested in providing educational facilities, and at the same time the Arya Samaj, the Chief Khalsa Diwan and the Sanatan Dharam entered in the field of education. The number of educational institutions thus increased gradually. After Partition, the National Government gave top priority to education by avowing to make education up to middle standard free and compulsory. The Punjab Government took a bold step in 1957 by provincialising the Local Bodies Schools. Besides, by implementing the recommendations of the Higher Secondary Education Commission, the High Schools are gradually switching over to the Higher Secondary system. Similarly to disperse higher education, even small towns like Tanda, Hariana and Mahilpur have been given the privilege of having Degree Colleges. After Partition most of the Post-Graduate Departments of the Panjab University were temporarily established at Hoshiarpur town and during ten years, 1948 to 1958 Hoshiarpur became the centre of highest learning in the State. These Departments gradually shifted to Chandigarh, the newly built capital of the State, between 1958 and 1960. The Government College, Hoshiarpur has, however, started Post-Graduate classes of Economics, History, Political Science, English and Hindi.

Schools.—Hoshiarpur District has made a striking progress in the sphere of education during the Five-Year Plan periods as the following figures will show :—

		Schools		*Scholars*	
	1951-52—	Boys	Girls	Boys	Girls
1	Primary Schools	319	97	35,852	13,493
2	Middle Schools	41	7	8,558	3,393
3	High Schools	66	3	34,691	4,345
4	Higher Secondary Schools	..	..	..	..
	Total	**426**	**107**	**79,101**	**21,231**
	1960-61—				
1	Primary Schools	564	171	63,992	19,325
2	Middle Schools	43	25	10,781	3,706
3	High Schools	84	15	29,455	7,595
4	Higher Secondary Schools	21	4	18,634	2,064
	Total	**712**	**215**	**122,862**	**32,690**
	1964-65—				
1	Primary Schools	759†	23	83,245	57,383
2	Middle Schools	57	27	16,161	10,560
3	High Schools	79	18	31,531	12,803
4	Higher Secondary Schools	38	5	25,255	6,185
	Total	**933**	**73**	**156,192**	**86,931**

There are four *Balwaris* under the Child Welfare Scheme at Hoshiarpur, Urmar Tanda, Bharwain and Ganguwal. At Hoshiarpur proper, the Guru Nanak Model School and Mary Chatterjee Girls Middle School also have pre-primary classes attached to them. All these institutions admit children below 5 years of age and they impart education through play-way activities of the Kindergarten and Montessorie methods. There is also a Model School at Nangal Township and a Public School at Naya Nangal.

The Scheduled Castes and Backward Classes, particularly those in the rural areas are still not enthusiastic about education. The introduction of compulsory primary education which is at the same time free, has had a salutory effect on them, and they have also been given various other inducements and encouragements. Education is free up to the highest class in all Government and Provincialised Schools for the Scheduled Caste boys and girls and they are also given free books, stipends and scholarships.

*Pages 84 to 88. †Includes Co-educational schools.

Technical Education :—

(a) *Polytechnic.*—There was a privately managed technical institute at Hoshiarpur established in 1948, which provided courses in Overseering, Draftsmanship, Radio and Electrical Engineering. The institute was taken over by Government in 1962 and has been raised to the stature of a polytechnic and named as Jagat Ram Government polytechnic. The institution imparts training in Civil, Mechanical and Electrical Engineering with sanctioned intake capacity of 30, 45 and 45 students, respectively, and issues diplomas to the successful candidates. The duration of the courses is three years at the institution followed by two years practical training. The minimum qualification for admission to it is matriculation with science and mathematics.

(b) *Government Industrial Schools.*—There are three Government Industrial Schools in the District : two in Hoshiarpur town, one each for boys and girls and the third is at Nangal. Information relating to each of them is given below :—

Name of the Institution	Courses/Crafts in which training is imparted	Admission capacity	Duration of training (years)	Minimum qualification	Diploma/ Certificate awarded
1. Government Industrial School for Boys, Hoshiarpur	(i) Weaving	16	3	Middle	Certificate
	(ii) Carpentry	16	2	-do-	-do-
	(iii) Lacquer turning	15	1	-do-	-do-
	(iv) Ivory inlay	15	1	-do-	-do-
	(v) Dyeing and painting	16	1	-do-	-do-
	(vi) Hosiery	16	1	-do-	-do-
2. Government Industrial School for Girls, Hoshiarpur	(i) Tailoring and cutting (ii) Hand embroidery, machine embroidery or silma tilla (elective)	60	2	Primary	Diploma
3. Government Industrial School for Girls, Nangal (started in 1963)	(i) Tailoring and cutting (ii) Hand emboridery, machine embroidary, or silma tilla (elective)	60	2	-do-	-do-

(c) *Government Industrial Training Institute* (Craftsmen Training Scheme).—The below mentioned four Industrial Training Institutes were started in the District during the year 1963-64 :—

Name of the Institution/ Courses/Crafts in which training is imparted	Admission capacity	Duration of training (years)	Minimum qualification	Certificate/ Diploma awarded
1. **Industrial Training Institute, Hoshiarpur**				
(i) Electrician, Mechanic work on instruments	48	1½	Matric	National Trade Certificate
(ii) Blacksmith, carpenter, turner, welder, fitter, grinder, machinist and plumber	308	1½	Middle	-do-
2. **Industrial Training Institute, Mahilpur**				
(i) Electrician and Radio-mechanic	48	1½	Matric	-do-
(ii) Blacksmith, carpenter, fitter, turner, welder, machinist, and motor mechanic	132	1½	Middle	-do-

3. **Industrial Training Institute, Nangal**				
(i) Electrician, and refrigerator mechanic ..	48	1½	Matric	National Certificate
(ii) Blacksmith, carpenter, fitter, turner, grinder, welder, machinist, plumber, motor mechanic, moulder, pattern-maker and sheet metal worker	416	1½	Middle	-do-
4. **Industrial Training Institute, Talwara**				
(i) Electrician	48	1½	Middle	-do-
(ii) Blacksmith, carpenter, fitter, grinder, machinist, motor mechanic, turner and tractor mechanic	280	1½	-do-	-do-

The age limit is 16—25 years, no tuition fee is charged, and a stipend of Rs. 25 per mensem is given to 33 per cent of the trainees on poverty-cum-merit ground.

(d) *Industrial Training Centre run for Scheduled Castes and Backward Classes.*

Name of the Institution	Course/Craft in which training is imparted	Admission capacity	Duration of training (year)	Minimum qualification	Certificate/ Diploma awarded
Industrial Training Centre, Una	Tailoring	24		Literate	Certificate

Colleges (Table 17*).—There were 5 Arts and Science Colleges in 1950-51. During the decade, two new colleges were established. The number of college students in the District was 2,476 (2,335 boys and 141 girls) in 1951, and 3,323 (2,902 boys and 421 girls) in 1960. The enrolment decreased in the year 1960 because of shifting the post-graduate classes to Chandigarh. In 1959 there were as many as 4,034 students (3,473 boys and 561 girls). The S. D. College, Hoshiarpur closed in 1963.

Vishveshvaranand Vedic Research Institute, Hoshiarpur.—The Vishveshvaranand Vedic Research Institute, Hoshiarpur, was established in 1903 at Simla from where it was shifted to Mysore, Indore, Lahore, and after Partition from Lahore to Hoshiarpur. The Institute has all along been engaged on its 36-Volume Vedic Lexicographical Project consisting of a 15-Volume Concordance, 15-Volume Dictionary and 6-Volume Grammatical Studies. By 1966, all volumes of Concordance and Grammatical Indices have been published. The Institute has published 448 books and papers in different serials on Indological Research and Cultural subjects in Sanskrit, Hindi, Punjabi and English.

On the educational side, the Institute has been conducting the M.A., the Acharya and the Shastri classes in Sanskrit and the Ratan, the Bhushan and the Prabhakar classes in Hindi in affiliation with the Panjab University which also recognises it as a centre for the preparation of Doctoral dissertations.

Oriental Colleges and Schools.— Besides the V.V.R.I., the Sanatan Dharam Sanskrit College, Hoshiarpur and Baba Rudranand Sanskrit Pathshala in the village Nari in Una Tahsil are the other institutions for the study of Sanskrit.

Training Colleges.—A Training College has been started in 1966 by the D. A. V. Management at Hoshiarpur. It has 110 students on roll : 58 boys and 52 girls.

CULTURAL ACTIVITIES

Clubs.—There are a number of clubs at Hoshiarpur and Nangal Township. The Young Farmers' Clubs in the Block Areas are doing yeoman's services in villages for the education and recreation of people through meetings, cultural programmes, development of hobbies, picnicing programmes, and goodwill missions.

*Page 86.

Cinemas. (Table 20*).—The number of cinema houses in the District increased from 2 in 1951-52 to 3 in 1960-61 and to 6 in 1965-66. Out of the six cinemas in the District, four are located at Hoshiarpur and one each at Mukerian and Nangal Township. In addition to these permanent cinema houses are the moving talkies, theatrical societies and circuses which visit the District off and on. Besides providing entertainment to the public, they bring a handsome income to the State Exchequer The proceeds from the Entertainment Tax amounted to Rs. 80,250 in 1951-52, Rs. 194,115 in 1960-61 and Rs. 466,541 in 1965-66 (Table 45†).

The District Public Relations Office has one mobile cinema unit, one drama party and two *dhadi-jathas* (singing parties) which present cultural programmes in the rural areas.

Libraries.—The following libraries are worth mention:—

(1) Vishveshvaranand Vedic Research Institute Library, Hoshiarpur, contains 50,000 printed books and papers and about 10,000 ancient manuscripts, and it receives 208 journals and periodicals.

(2) Government College Library, Hoshiarpur—contains 25,995 books, receives 75 journals and periodicals in addition to 7 dailies.

(3) Lachhman Dass Municipal Library, Hoshiarpur.

(4) Dr. Harbhajan Singh Library, Garhdiwala.

Libraries and reading rooms have also been established at Block levels and in educational institutions.

Newspapers and Journals.—Table 19‡ contains a list of newspapers and magazines published in the District. During the year 1961, 11 magazines, journals and periodicals were published in the District. Two of them dealt with literary and cultural topics, one miscellaneous community topics and the remaining eight were college and school magazines. It is significant that with the exception of one, all of them were started after Independence. The figure rose to 16 in 1964-65.

Printing Presses.—Table 18** contains particulars of ten printing presses in the District in the year 1960. Of them, seven were located at Hoshiarpur, two at Nangal and one at Urmar Tanda. This figure rose to 18 in 1965.

Radios (Table 21)*†.—Radio is gaining popularity and there is now hardly a village without a receiving set, owned individually or by the Panchayat. In 1961, 11,223 were licensed and in 1964, 21,296.

Fairs and Festivals.—Particulars of the Fairs and Festivals, held in the District, are shown in Table 51*‡. The most important among them are the following :—

(i) Holla Mohalla fair at Anandpur Sahib, Tahsil Una.

(ii) Holla Mohalla and Baisakhi fairs at Dera Gurbarbhag Singh, Village Mairi, Tahsil Una.

(iii) Chintpurni fair at village Chhaproh, Tahsil Una.

Social Welfare Activities.—The State Social Welfare Office looks after the interest of the Scheduled Castes and Backward Classes, by way of loans and grants for building houses, acquiring land for them for cultivation, and providing encouragement to their children in education.

A number of non-official agencies are also working for the betterment of these classes, such as the Scheduled Castes Federation, the Harijan Welfare Sabha, the Depressed Class League, the Ravidas Sabha, the Balmik Sabha, the Kaishap Rajput Sabha and the Labana Baradri Sabha. These organisations have got their branches in almost whole of the District.

There are other social, moral and cultural and scientific organisations in the District which render assistance and guidance to the poor and the needy in their respective spheres. The important among them include Bharat Sewak Samaj, the Congress Sewa Dal, the Bhartiya Grameen Mahila Samiti, Hoshiarpur, Cultural and Dramatic Organisation at Nangal, Istri Sudhar Sabha at Hoshiarpur, the Mahila Ashram at Hoshiarpur, the Association for Moral and Social Hygiene, the Punjab Youth Council for Child Welfare, the Home for the aged and infirm at Hoshiarpur, the School Children's League of Health at Hoshiarpur, the Indian National Trade Union Congress, the Red Cross Society, the Soldiers', Sailors' and Airmen's Board, the Family Planning Committee, the Bharat Scouts and Guides, the Medical Association, the District Olympic Association, the District Library Committee, the Gandhi Smarak Nidhi and Sarvodya Mandal, the Study Circle at Hoshiarpur, the Punjabi Likhari Sabha, the Anti-T.B. Association, the Crime Prevention Society, the Hospital Welfare Committee, the Lok Karya Kshetra at Amb, the Gram Sewa Kendra at Chambal Kalan, the Welfare Extension Project at Dasuya, the Nai Taleem Shala at Harsemansar, and the District Relief Fund Advisory Committee.

*Page 90. †Page 109. ‡Page 89. **Page 88. *†Page 90. *‡Page 114.

Political Activities.—The various political parties of the country have branches working in the District and the people participate in elections enthusiastically. In 1962-General elections, nine out of ten seats for the Legislative Assembly were won by the Congress and one by an independent candidate. Of the two seats for the Parliament, one was captured by the Congress and one by an independent candidate.

Medical and Public Health (Tables 22 to 28)*.—With the education and scientific treatment of human ills coming nearer the reach of the people, the methods of faith cure and quackery are taken resort to by fewer people now. Homoeopathy is being practised by a few practitioners in towns. The Ayurvedic and Unani systems are, however, liked by the people because of the familiar medicines. Government is giving better recognition to these systems and the number of Ayurvedic and Unani dispensaries in the District increased from one in 1953-54 to twenty one in 1960-61 and to twenty nine in 1965-66, each under the charge of a qualified *vaid* or *hakim*. An Ayurvedic Hospital has also been established at Datarpur in 1965-66.

Since 1964, the curative and preventive services in the District have been amalgamated, and the Chief Medical Officer has become the overall incharge of the medical and public health activities in the District. He is assisted by two Deputies one each for medical and public health.

In 1961, there were 49 hospitals and dispensaries run variously by the State Government, Local Bodies, and Charitable Trusts and Endowments in the District, equipped with 507 beds. In 1965, these numbers rose to 55 and to 532, respectively. According to the type of management, 27 were State Public, 9 State Special, 9 Local Bodies, 2 Private aided, 1 Private unaided, and 7 subsidized. Besides these, there are 6 Maternity and Child Welfare Centres in the District.

SOME SPECIFIC DISEASES AND THEIR TREATMENT

(i) *Malaria.*—To control and eradicate malaria, a Malaria Officer with an adequate staff treated 3,139 villages and towns with D.D.T. at an expense of Rs. 246,771.

(ii) *Small-pox.*—Preventive vaccination is being carried out by 23 vaccinators posted in different parts of the District under the guidance of Superintendent of vaccination. Since June, 1963, the small-pox eradication scheme has been started in the District.

(iii) *Tuberculosis.*—Lala Jodha Mal Kuthiala Tuberculosis Clinic at Hoshiarpur provides facilities for treating T.B. patients. Apart from this, all government hospitals and private practitioners treat T. B. cases. The BCG vaccination is being carried out by three teams in the District to decrease the incidence of this disease.

(iv) *Hookworm.*—To control hookworm, there is an Anti-hookworm Unit working under the charge of a Medical Officer.

(v) *Leprosy.*—Leprosy is not a problem of magnitude in this District and the few cases found in the District consist mostly of imported patients from Kangra or the neighbouring States. There is a Leapers' Colony at Hoshiarpur where the patients are given regular treatment. Government hospitals are also equipped to treat any stray case coming to them.

(vi) *Venereal diseases.*—The incidence of venereal diseases is low in the District. No regular campaign is being carried out to fight the same, although efficient treatment is given to patients who seek medical advice.

General Sanitation.—Sanitation in towns is the function of Municipal Committees. In rural areas, the work is performed by the Block staff and the Primary Health Units and Centres.

A number of schemes were executed during the Second Five Year Plan. These include : (i) Hoshiarpur Sewerage Scheme, (ii) Durehra Water Supply Scheme, (iii) Lajpat Rai Water Works which serves 31 villages in Bet area of Garhshankar and Una Tahsils, and (iv) Chintpurni Water Supply Scheme.

Standard of Health and Medical facilities.—The health of the people is fairly good. Milk, butter-milk, butter and ghee is consumed to the extent within the means of the families. The number of hospitals and dispensaries in the District increased from 39 in 1950 to 49 in 1961 and 55 in 1965. They are now being equipped with the more modern appliances. The number of medical attendants of all types expanded from 307 in 1958 to 383 in 1960. With the spread of education, there is better awareness towards treatment of ailments in earlier stages. The number of persons seeking cure from the hospitals and dispensaries accordingly increased from 371,133 in 1950 to 602,566 in 1960 and to 574,101 in 1964. The total expenditure in the District on medical and health measures amounted to Rs. 555,019 in 1960 and Rs. 321,421 in 1963.

The area covered per medical institution in the District works out to 44.4 sq. miles, and the population served per medical institution comes to 24, 319. As regards the area per institution, the District occupies the eighth position amongst the Punjab Districts, the first three positions being held by Simla, Jullundur, and Amritsar Districts with the corresponding figures of 13.1, 26.3 and 28.8. In respect of population served per institution, Hoshiarpur District occupies the tenth position.

*Pages 90 and 91.

Crime.—Table 42* shows the results of trials in the criminal courts. For studying the nature of crimes and their trend, the number of cases instituted in 1950 and 1960 were looked into in some details. It was found that there has been a decline in offences against persons and property. This decrease was, however, matched by an increase in cases under Excise Act, Opium Act and Gambling Act. Thus the number of murders in the District declined from 39 in 1950 to 19 in 1960. There were ten cases of dacoity in 1950 while no case was instituted in 1955, 1957, 1959 and 1960 and only one case each in 1953, 1954, 1956 and 1958. The number of burglaries was 602 in 1950 and 187 in 1960. The cases under robberies declined from 31 in 1950 to 1 in 1960. There was also considerable fall in thefts from 348 in 1950 to 201 in 1960. The cases of rioting and kidnapping numbered, respectively, 16 and 21 in 1950, and 25 and 21 in 1960. The crimes under Arms Act decreased from 199 in 1950 to 75 in 1960.

Under the Excise Act the cases, however, increased from 234 in 1950 to 565 in 1960. Not only is illicit distillation on the increase, but the consumption of excise liquor is also on the increase. The cases under Opium Act in the District increased from 39 in 1956 to 216 in 1960 and 412 in 1965. There were 42 crimes under Gambling Act in 1956 against 73 in 1960 and 120 in 1965.

DEVELOPMENT ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehkari Samaj* and *Panchayat Raj i.e.*, Community Development, Co-operatives, and Panchayats.

Community Development (Table 38**).—The administrative set up of the Community Development work has been described in Chapter I. By April, 1963 the entire rural area of the District was covered by sixteen N.E.S. Blocks: the first Block in the District was started on the 2nd October, 1953 at Una.

The object of the Community Development is to improve the whole texture of rural life by organising a self-generating process of change and growth. People's participation and contribution in it is of prime importance. It is not easy to assess this contribution because mostly it takes the shape of manual labour which is difficult to evaluate. However, it cannot be gainsaid that the Community Development Programme on the whole has met with popular support and is slowly changing the face of villages. The achievements of these Blocks cannot be set out in exact terms but a broad outline of their activities is given below.

The cultivators are supplied with improved seeds, fertilisers, improved implements and fruit plants at subsidised rates. New strains of crops with higher yields and resistance to diseases and pests are evolved at the research centres. Improved seeds are then multiplied on the various seed multiplication farms and distributed among farmers through the agency of co-operatives. The farmers are encouraged to dig compost pits. The Community Development authorities help the farmers in reclaiming land and laying out model farms. Financial help is given for constructing percolation wells, and installing pumping sets and tube-wells.

Pedigree bulls are supplied to the villages. Artificial insemination centres have been set up at Hoshiarpur and Urmar Tanda. Improved varieties of feeds are also supplied to encourage poultry farming.

Health and sanitation activities cover opening of new hospitals, primary health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and *smokeless chullas*, pavement of streets, installation of hand pumps and construction of wells for drinking water.

Educational activities cover starting of new schools, up-grading of old schools, conversion of schools into 'basic' type, and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the three Rs. Libraries and reading rooms are established and the young villagers are encouraged to organise themselves into youth clubs. *Mahila Samitis* are organised for the welfare of the women-folk. Children's parks and *balwadis* (nurseries) are started for the benefit of children. *Panchayatghars* and community centres and community listening radiosets are provided for the benefit of the community at large.

People are encouraged to construct *kacha* roads, to repair old paths and to macadamise *kacha* roads. Encouragement is provided for organising into Credit Societies, Industrial Societies, Farming Societies and Service Societies of various kinds.

Village and small scale industries are encouraged by setting up demonstration-cum-training centres where villagers are trained in various arts and crafts. The Block Development authorities have tried to set up model villages to serve an example for other villages.

Co-operation (Table 13†).—The first co-operative society in Hoshiarpur was started in 1891 at Panjawar in Una Tahsil for controlling the common land of the village. This was the first society to be started in the Punjab, and possibly in India, and it was done long before the first Co-operative Societies Act was passed. However, in 1922, when the common land in the village was partitioned, this society was wound up. After the enactment of Co-operative Societies Act, of 1904, the movement made quick progress. Partition damaged these societies badly.

*Page 108. **Page 103. †Page 80.

The apex institutions like the Provincial Co-operative Bank and the Punjab Co-operative Union were left in West Pakistan. Deposits accumulated in long years were lost overnight. The mass migration of the Muslim members depleted the ranks of Societies and the loans against them became bad debts. The co-operative movement, however, recovered from this rude shock within a few years and dashed for still better achievements as is indicated by the following account:—

PROGRESS OF CO-OPERATION

Year ending 30th June	*Societies*	*Members (in thousand)*
1951	2,399	152
1956	2,372	149
1960	2,806	205
1964	3,146	268

By 30th June, 1964, all villages of the District had been brought within the fold of co-operation. Hoshiarpur occupies the second position in respect of number of societies, Ambala being the first (3,327), and first in respect of membership. On 30th June, 1964 the business turnover and working capital of these societies in the District amounted to Rs. 33·90 and Rs. 7·61 crores, respectively.

At the end of June, 1951 there were 15 Co-operative Banks and Banking Unions in the District with membership of 2,436 and working capital of 11,033 thousand rupees. They issued loans to the tune of 1,440 thousand rupees. In 1959-60, their number reduced to 6 as a result of merger of some Banking Unions with the Central Co-operative Banks of the District. Their membership was 2,588 and their working capital was 13,336 thousand rupees, and the loans issued stood at 7,563 thousand rupees.

In 1950-51, there were 1,296 Co-operative Societies, with a membership of 80,637 and a working capital of Rs. 83 lacs and issued loans of Rs. 26 lacs. By 1959-60, their number went upto 1,585 with a membership of 152,308, and a working capital of Rs. 226 lacs; in that year they issued loans to the tune of Rs. 125 lacs.

According to the latest policy of the Government, the Agricultural Credit Societies are being converted into Service Co-operatives whose object besides advancing credit is to undertake the distribution of production requirements like fertilizers, improved seeds, improved agricultural implements. They would also market produce of the members through the nearest Marketing Societies and maintain light machinery, spray pumps, etc., for the use of the members.

There was one Sugarcane Supply Society with 46 members in 1950-51. In 1959-60, the number increased to 2 and membership to 2,437.

There was one Milk Supply Society with 15 members in 1950-51. In 1959-60, there were five such societies with 76 members.

There was no Irrigation Society in 1950-51, but in 1959-60, there were 8 such societies with membership of 104. The number of Farming Societies increased from 17 with membership of 363 in 1950-51 to 45 with membership of 701 in 1959-60.

There were 81 Weavers' Societies with membership of 1,633 and 155 other Industrial Societies with membership of 2,662 in 1959-60.

The Consumers' Societies increased from 6 with membership of 508 in 1950-51 to 11 with membership of 1,746 in 1959-60.

There was only one Housing Society with 11 members in 1950-51 as against 4 with 112 members in 1959-60.

Panchayat Raj (Table 37*).—The British regime did a great harm to this country by substituting the *panchayats* with a centralised bureaucratic system of administration. If India was to regain her lost glory, it was strongly felt that the *panchayats* must be revived. Mahatma Gandhi drew attention to this basic necessity. He wrote, "India's Independence must begin at the bottom. Thus every village will be republic or a *Panchayat* having full powers. In this structure composed of innumerable villages, there will be ever widening, never ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle, whose centre will be the individual, always ready to perish for the village." Other leaders shared fully this view, and accordingly the organisation of village *panchayats* was made one of the directive principles of the State Policy in the Constitution of India.

*Page 102.

The Punjab Gram Panchayat Act, 1952, as amended up-to-date and the Punjab Panchayat Samitis and Zila Parishad Act, 1961, form the corner stones of the Panchayat Raj in the State. The structure consists of three tiers, namely, a *Panchayat* at the village level, a *Panchayat Samiti* at the Block or Tahsil level, and a *Zila Parishad* at the District level. These three institutions are organically linked with each other by means of indirect elections. They have clearly defined spheres of activities and have independent sources of revenue. This enables them to function without losing initiative and self-reliance.

Gram Panchayats (Table 37)*.—A village *Panchayat* consists of 5 to 9 members including a *Sarpanch*, elected by adult franchise. There is adequate representation for women and for the Scheduled Caste persons. In case no woman is elected as a *Panch*, one is co-opted as additional *Panch*. The election to the Panchayat is held by secret ballot and its term is three years. The first general elections for Gram Panchayats were held in 1953, and for a second time in 1961.

In 1950-51, the number of the Gram Panchayats in the District was 715. In 1960-61, the number of the Gram Panchayats rose to 1,105 with membership of 6,076. In 1964-65, the number stood at 1,110 with membership at 7,095.

The Panchayats are expected to provide cheap and ready justice. On the criminal side, they have powers to try minor offences like petty thefts, hurt, affray, and committing public nuisance. They are under the control of the District Development and Panchayat Officer, who can hear appeals against their orders, and can transfer cases from one Panchayat to another. On the civil and revenue side, the Panchayats have powers to try cases up to certain pecuniary limits, and in respect of these cases they are under the control of the District Judge and the Collector, respectively.

Most of the villages are faction-ridden and the system of elections appears to have added to the factional spirit. The Panchayat proceedings are often marred by rivalries and group feelings. These may perhaps be pangs of birth, and with the spread of education, proper guidance and maturity of public opinion, the things will improve.

In 1960-61, 1,568 criminal cases were instituted in the Gram Panchayats in the District, 1,017 cases were pending from the last year and 80 cases were received by transfers. Out of these 2,665 cases, 1,293 were decided, 140 were transferred and 1,232 remained pending at the end of the year. Similar was the position in regard to the civil and revenue suits. 1,568 cases were instituted during the year 1960-61, 56 were received by transfers and 681 were pending from the last year. Of these 2,305 cases, 1,464 were decided, 80 were transferred or returned, and 761 cases remained pending at the end of the year.

Besides, the Panchayats look to the requirements of their respective areas in regard to agriculture, education, animal husbandry, public health and sanitation including water supply, works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department, in cash, kind or labour. With the help of the concerned Departments, they have been responsible for starting a number of single-teacher primary schools, construction of new school buildings, and repairing and remodelling of old ones, providing drinking water in schools, raising libraries, providing community listening sets, building of dispensaries, planting trees, arranging playgrounds and children parks, construction of village approach roads, repairing and levelling of public paths, construction of drains, culverts and pavement of streets, construction, repair and remodelling of wells for drinking water, and remodelling and repairing of ponds.

The village common lands vest with the Panchayats, and they also receive a percentage of land revenue collection and grants from Government and sometimes from local bodies. They levy House-Tax, and Professions Tax and raise voluntary contributions. The fines and penalities which they impose are also transferred to their funds. In 1960-61, the total income of the *Panchayats* in the District was 1,854 thousand rupees and their expenditure amounted to 1,461 thousand rupees.

Panchayat Samitis.—There is one Panchayat Samiti for each Block. It consists of (i) 16 members elected by the *Panches* and *Sarpanches* from among themselves ; (ii) two members elected by the co-operative societies ; and (iii) one member elected by the Market Committees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the Samitis as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The S. D. O. (Civil) and the Block Development and Panchayat Officer of the Block, work as *ex-officio* members, without the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members.

The Panchayat Samitis provide and make arrangements for the requirements of the area under their jurisdiction, in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communications, social eduction, co-operation, and such other miscellaneous work as development of cottage and small scale

*Page 102.

industries and other local development activities. The *samiti* is also the agent of the Government for the formulation and execution of Community Development Programme.

The sources of income with the samiti would be the Local Rate as charged by the defunct District Board, fees derived from schools and markets, fee from fairs and shows, rents and profits accruing from properties vested in it, and such moneys and grants which Government may place at its disposal. The samiti can, with the permission of the Zila Parishad, impose any tax which the State Legislature has power to impose under the Constitution

Zila Parishad.—The Zila Parishad consists of the Chairman of every Panchayat Samiti, two members elected by each Panchayat Samiti, every M. P., M.L.A., and M.L.C., representing the District or any part thereof, and the Deputy Commissioner. Two women and five members belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The M. Ps, M.L.As, M.L.C. and the Deputy Commissioner do not have the right to vote. The Parishad has a Chairman and a Vice-Chairman elected by the elected and co-opted members for three years.

The Parishad consolidates and co-ordinates the plans prepared by the Panchayat Samitis, examines and approves the budgets of the Panchayat Samitis and advises the Government in regard to Panchayats and Panchayat samitis and keeps a watch over agricultural and production programmes and construction works.

The income of the Parishad accrues from Central or State Government funds allotted to it, grants from all-India bodies and institutions for the development of cottage and small scale Industries, share of the land cess, State tax or fees, income from endowments and such contributions as the Zila Parishad may levy on the Panchayat Samitis.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot note under each Table.

There are in all 51 Tables in this part grouped under the following heads :—

Rainfall	Table 1
Agriculture	Tables 2 to 8
Livestock and Implements	Tables 9 and 10
Industry	Tables 11 and 12
Co-operation	Tables 13 and 14
Education	Tables 15 to 17
Printing and Publishing	Tables 18 and 19
Entertainments	Tables 20 and 21
Medical and Public Health	Tables 22 to 28
Vital Statistics	Tables 29 and 30
Transport and Communications	Tables 31 to 35
Local Administration	Tables 36 to 38
Banks, Insurance and Savings	Tables 39 to 41
Justice and Administration	Tables 42 to 48
Miscellaneous	Tables 49 and 50
Fairs and Festivals	Table 51

RAINFALL

Table 1 presents monthly and annual rainfall and the number of rainy days separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimetres. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 2 shows the utilisation of land in the District for the period 1901-1961. Information has been worked out for the quinquenniums centring around the census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following scheme:—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.

(iv) *Other uncultivable land* includes, (a) culturable wastes and other fallows; (b) permanent pastures and other grazing lands ; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types : First lands which have remained out of cultivation for a period not less than one year but not more than 4 years, second lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volume I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 3 presents net area irrigated from (1) Government canals, (2) private canals, (3) tanks, (4) tube-wells, (5) other wells and (6) other sources. The information is presented for the same quinquenniums as selected for Table 2.

Table 4 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901-61.

Table 5 shows area under principal crops in the District for selected quinquenniums during 1901-61. The principal crops have been classified into three categories : (1) Basic food crops, (II) Other food crops and (III) Non-food crops.

Table 6 presents the average yield per acre of principal crops in the District: rice, wheat, *jowar*, *bajra*, maize, barley, gram, potatoes, sugar-cane, linseed, sesamum, rape, mustard and cotton. Information is given for 12 years ending 1960-61 , and the yield figures are in terms of lbs., per acre.

Table 7 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 8 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 9 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 10 provides information on agricultural implements and machinery for the District and each Tahsil for 1956 and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 11 relates to the working of registered factories during the years 1951, 1956 and 1960.

Table 12 gives particulars about registered factories in Hoshiarpur District as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 13 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 14 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 15 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary Schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 16 presents for each industrial school in the District, scholars studying during the years 1951 to 1960.

Table 17 gives the number of Arts and Science colleges in the District during the year ending 1960.

PRINTING AND PUBLISHING

Table 18 relates to printing presses in the District, working in 1960: the year of declaration; the language languages in which the matter can be printed, the number of printing machines and the power used.

Table 19 lists the newspapers, magazines and periodicals published in the District during 1961 : the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 20 shows the number of Cinema Houses in the District during the years 1951-52 to 1959-60.

Table 21 shows the number of Broadcast Receiving Licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND PUBLIC HEALTH

Table 22 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 23 shows the number of hospitals and dispensaries providing ayurvedic treatment in the District during the years 1951-52 to 1960-61 and the number of 'Vaids' and 'Hakims', working there.

Table 24 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 25 presents the work done and expenses incurred by the Malaria Control Unit from 1954-55 to 1960-61 in the District.

Table 26 informs about the number of persons sterilized and other steps undertaken by the Family Planning Centres in the District during 1960-61.

Table 27 shows the location of the Primary Health Units and Centres and Rural Health Centres as on 1st October, 1961.

Table 28 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 29 shows the number of births, deaths sex-wise, as recorded in the District during the years 1951 to 1960.

Table 30 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 31 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees ; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads; and according to metalled and unmetalled roads.

Table 32 gives a list of Post Offices in the District as on 31st March, 1961.

Table 33 is a list of railway stations located in the District.

Table 34 is a polymetrical Table showing distances as between different places in the District.

Table 35 gives information about major bridges in the District.

Table 36 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, area served, population, the number of members and income and expenditure during 1960-61.

Table 37 shows the working of *panchayats* in the District during 1960-61 : number of *panchayats*, their membership, beneficial and judicial activities, and income and expenditure.

Table 38 shows the community development activities in the District as on 31st March, 1961 : for each Block, its stage, area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 39 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 40 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 41 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 42 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 43 shows the sanctioned strength of Police and the number of Police Stations and Police Posts in the District as on 31st December, 1960.

Table 44 gives information about jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 45 shows the receipts from State Excise duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1959-60.

Table 46 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 47 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 48 presents the number of instruments registered and value of property transferred in the District annually from 1951 to 1960.

MISCELLANEOUS

Table 49 presents important events occurred in each Tahsil of the District during the period 1952-61.

Table 50 shows the monuments and better known places of worship or tourist interest in rural areas of the District arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 51 relates to fairs and festivals. The material for this Table was collected from a number of agencies: Headmasters of schools, *Patwaris*, Police Stations, District Officers of Health and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the H.B. numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally; and the commodities sold.

Table SC-I	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes	309

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information up to Tahsil and Town level, and have been prepared exclusively for this volume. Tables A-IV, B-III (PartA), B-VI, B-VIII (Part A), C-III (Part B), and SCT-III (Part A) give information only for urban areas; Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non-city urban area of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometre; number of villages, inhabited and uninhabited; number of towns; number of occupied houses; and population for the District, each Tahsil and Town, with sex break-up. The figures for Towns have been given below the Tahsil in which they were located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab, and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area or town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *Urban population and the rest as rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*Mauza*' under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*Mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati*'. In Lahaul & Spiti District, the revenue estate is referred to as '*kothi*' and its components as '*gaon*'.

Appendix I shows the territorial changes which took place dur ng the decade 1951-61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the Appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under columns 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February, and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses, from 1901 to 1961, and variations in population— in absolute figure and percentage in each decade. The population figures for the previous censuses have been adjusted according to 1961 territory of the District.

In **Table A-III** the villages have been graded according to the size of population as shown below, and for each group the number of villages and population have been shown.

Villages with population—

(a) less than 200;

(b) 200 to 499 ;

(c) 500 to 999;

(d) 1,000 to 1,999;

(e) 2,000 to 4,999 ; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities: thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified into (a) nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" (Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Anneure B).

In earlier censuses, income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931,' partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961-census, a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages,domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work, were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or service.

A public or social service worker actively engaged in public service or furthering the cause of a political party recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-1 gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories:—

(1) as cultivators;

(2) as agricultural labourers;

(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities;

(4) at household industry ;

(5) in manufacturing other than household industry ;

(6) in construction;

(7) in trade and commerce ;

(8) in transport, storage and communications ; and

(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e. an owner-cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc.

The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level 'Technical Degree or Diploma equal to Degree or Post-Graduate Degree' is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation and above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the Industrial Divisions. Major Groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in Industrial categories, III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An *employer* is a person who employs other persons in order to perform economic activity in which he is engaged.

An *employee* is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employers have also been taken as employees.

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of "Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts: **Part A** for urban areas, and **Part B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part A,** unemployed persons have been further divided into two groups : (i) seeking employment for the first time; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part B** gives Tahsil-wise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups:—

(i) whole time students doing no other work;

(ii) persons engaged in unpaid home duties;

(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age ;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work;

(v) beggars, vagrants or independent women without an indication of their source of income;

(vi) convicts in jail or inmates of a penal, mental or charitable institutions;

(vii) persons seeking employment for the first time; or

(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household schedule consists of two parts. In **Part-I,** after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household:—

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories:—

(i) engaged neither in cultivation nor household industry;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only; and

(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types:—

(i) owned or held from Government;

(ii) held from private persons or institutions for payment in money, kind or share; and

(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross-tabulated by different sizes of land holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated , and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification" (Annexure A).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part A** the households have been distributed by nature of household industry and number of persons engaged into the following five size groups:—

(i) 1 person;

(ii) 2 persons;

(iii) 3 to 5 persons;

(iv) 6 to 10 persons; and

(v) more than 10 persons.

This part gives data up to Major Groups, while **Part B** gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sample households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the household according to the number of their members. For rural areas the following additional information has been given:—

(i) households engaged neither in cultivation nor household industry ;
(ii) those in household industry only;
(iii) those engaged in cultivation; and
(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households, according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in **Table B-XVII.**

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into : (i) never married; (ii) married ; (iii) widowed; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0—4 and 5—9 have been combined since all the persons up to the age of 9 have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed, in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forcasting the future births. In 1951-census this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : **Part-A** for all areas; **Part B** for urban areas; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this volume and may be found in Part II-C(i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others". Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Castes population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO 2477-A, dated the 29th October, 1956). These castes, in Punjab are :—

1. Throughout the State :—

   (1) Ad Dharmi; (2) Bangali ; (3) Barar, Burar or Berar ; (4) Batwal ; (5) Bauria or Bawaria ; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra ; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi; (10) Chanal; (11) Dagi; (12) Dhanak; (13) Dumna, Mahasha or Doom ; (14) Gagra ; (15) Gandhila or Gandil Gondola ; (16) Kabirpanthi or Julaha ; (17) Khatik ; (18) Kori or Koli ; (19) Marija or Marecha ; (20) Mazhabi ; (21) Megh ; (22) Nat ; (23) Od ; (24) Pasi ; (25) Perna ; (26) Pherera ; (27) Sanhai ; (28) Sanhal ; (29) Sansi, Bhedkut or Manesh ; (30) Sapela ; (31) Sarera ; (32) Sikligar ; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

   (1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C(ii) of Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other Countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa*.

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the frame work for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishment such as the names of the establishments and the products produced, number of persons working,and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent sample out of the dwelling. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been

shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the *"census house"* was defined as a dwelling with a separate main entrance. In the 1961-census, the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling, or a place of business, workshop, school, etc., with a separate entrance".

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented".

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominant material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of the different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multistoreyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and the President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential Order referred to above the Scheduled Tribes are found in this State only in Lahaul & Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the members of each Scheduled Caste, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and currying of hides and skins" and "scavanging" number of persons following these occupations have also been given under columns 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44 and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in cols. 11 and 12.

ANNEXURE 'A'

Indian Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, livestock, forestry, fishing and hunting—		
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugar-cane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 1—Mining and Quarrying—		
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Division 2 & 3—Manufacturing—		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugar-cane in mills	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
23	*Textile-Cotton*—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mills	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group Code)
Division 2 & 3—Manufacturing—contd.		
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planning of wood	280
	Manufacture of wooden furnituer and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper , paper board and pulp	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
33	*Chemicals and Chemical Products*—concld.	
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic resin, and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stoneware, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—concld.	
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction—		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells	403
Division 5—Electricity, Gas, Water and Sanitary Services—		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services— concld.		
51	*Water Supply and Sanitary Services* —	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6—Trade and Commerce—		
60-63	*Wholesale Trade*—	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquor	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal , kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil, and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building material	620
	Wholesale trading in wood, bamboo,cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade* —	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil , fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce concld.		
64-68	*Retail Trade*—concld.	
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipments	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaws, etc.	699
Division 7—Transport, Storage and Communications—		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand-cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communications—concld.		
71	*Services incidental to transport such as packing, carting travel agency*	710
72	*Storage and Warehousing*—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communications*—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services—		
80	*Public Services* (This does not include Government, Quasi-Government or Local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)—	
	Public services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Government	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools, and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homoeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities (this includes missions ashrams and other allied organisations)	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841

Indian Standard Industrial Classification—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—**Services**—concld.		
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisation of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals (this includes all types of cleaning, dyeing, bleaching, dry cleaning, services)	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shop	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—**Activities not adequately described**—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

ANNEXURE 'B'

National Classification of Occupations

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0 —Professional, Technical and Related Workers—		
00	*Architects, Engineers, and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurgical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers, and Surveyors, n.e.c.	009
01	*Chemists, Physicists, Geologists and other Physical Scientists—*	
	Chemists except Pharmaceutical Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and Related Scientists—*	
	Biologists and Animal Scientist	020
	Veterinarian	021
	Silviculturist	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homoeopathic	032
	Physicians, Others	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and Related Workers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technician	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—concld.		
06	*Jurists*—	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069
07	*Social Scientists and Related Workers*—	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Psychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropo'ogists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and Related Workers*—	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Painters, Decorators and Commercial Artists	083
	Sculptors and Modellers	084
	Actors and Related Workers	085
	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen and Science and Engineering Technicians, n.e.c.*—	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n.e.c.	099
0X	*Other Professional, Technical and Related Workers*—	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials, Government*—	
	Administrators and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—concld.		
12	*Directors, Managers and Working Proprietors, Financial Institutions*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Others*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors, Transport and Communication	134
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, Other Services	136
	Directors, Managers and Working Proprietors, n.e.c.	139
Division 2—Clerical and Related Workers—		
20	*Book-Keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)	202
21	*Stenographers and Typists*—	
	Stenographers	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers, Miscellaneous*—	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office Workers including Record Keepers, Muharrers, Despatchers, Packers and Binders of office papers	289
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc., n.e.c.	290
Division 3 - Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors, Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers*—	
	Agents and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3 – Sales Workers—concld.		
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers*—concld.	
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers	320
	Manufacturers' Agents	321
	Commercial Travellers and Manufactures' Agents, n.e.c.	329
33	*Salesmen, Shop Assistants and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-lenders and Pawn-brokers*—	
	Money-lenders (including Indigenous Bankers)	340
	Pawn-brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural Labourers	414
	Plantation Labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers, n.e.c.	439

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—concld.		
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers—		
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511
52	*Mineral Treaters*—	
	Mineral Treaters	520
59	*Miners, Quarrymen and Related Workers, n.e.c.*—	
	Miners, Quarrymen and Related Workers, n.e.c.	590
Division 6—Workers in Transport and Communication Occupations—		
60	*Deck Officers, Engineer Officers and Pilots, Ship*—	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen*—	
	Deck Ratings (Ship), Barge, Crews and Boatmen	610
	Engine-room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers*—	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine*—	
	Drivers	630
	Firemen	631
64	*Drivers, Road Transport*—	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including, Palki and Doli Bearers)	649

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 6—Workers in Transport and Communication Occupations—concld.		
65	*Conductors, Guards and Brakesmen, Railways*—	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport*—	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Telecommunication Operators*—	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printer Operators	673
	Telephone, Telegraph and Related Telecommunication operators, n.e.c.	679
68	*Postmen and Messengers*—	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations, n.e.c.*—	
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communications	693
	Workers in Communication Occupations, n.e.c.	694
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.–		
70	*Spinners, Weavers, Knitters, Dyers, and Related Workers*—	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers*—	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
72	*Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers*—	
	Shoe Makers and Shoe Repairers	720
	Cutters, Lasters, Sewers, Footwear and Related Workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers*—	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers, n.e.c.	739
74	*Precision Instrument Makers, Watch Makers, Jewellers and Related Workers*—	
	Precision Instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742
75	*Tool-makers, Machinists, Plumbers, Welders, Platers and Related Workers*—	
	Fitter-machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-assemblers and Machine Erectors (except Electrical and Precision Instrument Fitter-assemblers)	752
	Mechanics-repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and Structural Metal Workers	757
	Electro-platers, Dip Platers and Related Workers	758
	Tool-makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than printing)	759
76	*Electricians and Related Electrical and Electronics Workers*—	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics Workers, n.e.c.	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers*—	
	Carpenters, Joiners, and Pattern Makers (Wood)	770
	Shipwrights and Body Builders (Wood)	771
	Sawyers and Wood Working Machinists	772
	Coach and Body Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet Makers	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c.	779

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
78	*Painters and Paper Hangers*—	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.*—	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers and Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-binders and Related Workers*—	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-readers and Copy Holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-litho Operators, Photo-lithographers	805
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-binders	808
	Compositors, Printers, Engravers, Book-binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers*—	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers*—	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers*—	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—concld.		
84	*Tobacco Preparers and Products Makers*—	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Products Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.*—	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastics Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen and Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers*—	
	Checkers, Testers, Sorters, Weighers and Counters	860
	Packers, Labellers and Related Workers	861
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers*—	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Riggers and Cable Splicers	873
	Operators of Earth-moving and other Construction Machinery, n.e.c.	874
	Materials-handling Equipment Operators	875
	Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment	876
	Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.	879
89	*Labourers, n.e.c.*—	
	Loaders and Unloaders	890
	Labourers, n.e.c.	899
Division 9—Service, Sport and Recreation Workers—		
90	*Fire Fighters, Policemen, Guards and Related Workers*—	
	Fire Fighters and Related Workers	900
	Police Constables, Investigators and Related Workers	901
	Customs Examiners, Patrollers and Related Workers	902
	Watchmen and Chowkidars	903
	Fire Fighters, Policemen, Guards and Related Workers, n.e.c.	909
91	*House Keepers, Cooks, Maids and Related Workers*—	
	House Keepers, Matrons, Stewards (Domestic and Institutional)	910
	Cooks, Cook-bearers (Domestic and Institutional)	911
	Butlers, Bearers, Waiters, Maids and other Servants (Domestic)	912
	Ayas, Nurse-maids	913
	House Keepers, Cooks, Maids and Related Workers, n.e.c.	919

National Classification of Occupations –concld.

Occupational Group (Code)	Description	Occupational Family (Code)
Divisions 9—Service, Sport and Recreation Workers—concld.		
92	*Waiters, Bartenders and Related Workers*—	
	Waiters, Bartenders and Related Workers (Institutional)	920
93	*Building Care Takers, Cleaners and Related Workers*—	
	Building Care Takers	930
	Cleaners, Sweepers and Watermen	931
94	*Barbers, Hair dressers, Beauticians and Related Workers*—	
	Barbers, Hair dressers, Beauticians and Related Workers	940
95	*Launderers, Dry cleaners and Pressers*—	
	Laundrymen, Washermen and Dhobies	950
	Dry cleaners and Pressers	951
96	*Athletes, Sportsmen and Related Workers*—	
	Athletes, Sportsmen and Related Workers	960
97	*Photographers and Related Camera Operators*—	
	Movie Camera Operators	970
	Other Photographers	979
99	*Service, Sport and Recreation Workers, n.e.c.*—	
	Embalmers and Undertakers	990
	Service, Sport and Recreation Workers, n.e.c.	999
Division X—Workers not Classifiable by Occupations—		
X0	*Workers without Occupations*—	
	Workers without Occupations, Matriculates and above	X00
	Workers without Occupations, Literates	X08
	Workers without Occupations, Others	X09
X8	*Workers reporting Occupations unidentifiable or unclassifiable*—	
	Workers reporting Occupations unidentifiable or unclassifiable	X80
X9	*Workers not reporting Occupations*—	
	Workers not reporting Occupations	X90

Notes.— 1. †The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Town treated as such for the first time in 1951-census which continues as Town in 1961-census is shown with an asterisk (*) on its left.

3. Towns treated as such for the first time in 1961-census are printed in italics.

4. The following abbreviations have been used for the status of a Town :—
M. C. = Municipal Committee.
N. A. C. = Notified Area Committee.

APPENDIX I TO TABLE A-I

Statement showing the 1951 territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area
1	2	3
Hoshiarpur District	**Hoshiarpur District**	2,265.0
	Plus : one village Kosar (H. B. No. 532) transferred from Hamirpur Tahsil of Kangra District.	(+)2.0
Dasuya Tahsil	Dasuya Tahsil	500.0
Hoshiarpur Tahsil	Hoshiarpur Tahsil	572.0
Una Tahsil	Una Tahsil	684.0
	Plus: - one village Kosar (H. B. No. 532) transferred from Hamirpur Tahsil of Kangra District.	(+)2.0
Garhshankar Tahsil	Garhshankar Tahsil	509.0

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1 per cent of Workers of the respective Division (less than 0.5 per cent in case of Minor Groups of Division 2 & 3), have been shown in this Appendix. The following abbreviations have been used:—

HI = Household Industry; NHI = Non-Household Industry; M=Males nd F=Females.

Hoshiarpur District

005: Total HI (F 3), NHI (M 3), Urban HI (F3), NHI(M1); 009: Total HI (M 3, F 2), NHI (M 14), Urban HI (M 3, F 2), NHI (M 1); 015: Total NHI (M 3); 022: Total NHI (M 2), Urban NHI (M 1); 023: Total HI (M 7), NHI (M 53), Urban NHI (M 47); 024: Total HI (M 29), NHI (M 7, F 3); 025: Total HI (M 21, F 2), NHI (M 19, F1), Urban NHI (M 7, F 1); 026: Total HI (M 6), NHI (M 6); 031: Total NHI (M 13), Urban NHI (M 3); 041: Total HI (M21, F1), NHI (M 15), Urban HI (M 17, F 1); 042: Total NHI (M 5), Urban NHI (M 3); 043: Total HI (M 11, F 1), NHI (M 12), Urban HI (M 6, F 1), NHI (M5); 044: Total HI (M1), NHI (M1); 045: Total NHI (M5), Urban NHI (M2); 046: Total NHI (M8); 047: Total NHI (M2), Urban NHI (M1); 048: Total HI (M7), NHI (M11), Urban NHI (M6); 109: Total NHI (M1); 201: Total NHI (M105), Urban NHI (M13); 202: Total HI (M44, F2), NHI (M37), Urban NHI (M10); 203: Total HI (M10), NHI (M10), Urban HI (M8), NHI (M9); APPENDIX TO TABLE B V

Families having less than 1 per cent of Workers of the respective Division (less than 0 5 per cent in case of Families of Division 7-8), have been shown in this Appendix. The following abbreviations have been used :—

III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantation, Orchards and Allied Activities
IV. At Household Industry
V. In Manufacturing other than Household Industry
VI. In Construction
VII. In Trade and Commerce
VIII. In Transport, Storage and Communications
IX. In Other Services

M = Males

F = Females

APPENDIX TO TABLE B-VII PART A

Major Groups of Household Industry, where Persons having Secondary Work as Cultivation or Agricultural Labour, are less than 5 per cent of the Persons having the Major Group as Principal Work, have been shown in this Appendix.

The following abbreviations have been used :—

I=Cultivator ;
II=Agricultural Labourer ;
M=Males ; and
F=Females.

Hoshiarpur District

02 : Total I (MI), Rural I (MI) ; 23 : Total I (M 231, F48), II (M141, F 2), Rural I (M 218, F 48), II (M 138, F 2), Urban I (M13), II (M3) ; 24 : Total I (M 34, F12), II (M 14), Rural I (M 34, F 12), II (M 14) ; 27 : Total I (M 77, F 7), II (M 28), Rural I (M 77, F 7), II (M 28); 31 : Total I (M 155, F 15), II (M84), Rural I (M 155, F 15), II (M 84) ; 34-35 : Total I (M 9), II (M 46, F 1), Rural I (M 8), II (M 45, F I), Urban I (M I), II (MI) ; 39 : Total I (M 20), II (M 2), Rural I (M 20), II (M I), Urban II (M 1).

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of respective Division, have been shown in this Appendix. The following abbreviations have been used :—

With Cultivation	Without Cultivation
A means 1—3 Months	E means 1—3 Months
B means 4—6 Months	F means 4—6 Months
C means 7—9 Months	G means 7—9 Months
D means 10 Months to 1 Year	H means 10 Months to 1 Year
X means Months not stated	Y means Months not stated

Hoshiarpur District

Notes.—(i) Mother Tongues printed in italics belong to Countries outside the Indian Sub-continent.
(ii) Name occuring after hyphen (-) has been introduced by the Linguist to indicate grouping.
(iii) Asterisk (*) means that the Mother Tongue is unclassified in Linguistic Survey of India.
(iv) Dagger (†) denotes that the Mother Tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.
(v) Asterisk and dagger (*†) denote that the Mother Tongue is unclassified by Grierson but is tentatively classified by the Linguist.

PART IV

DIRECTORY

Information is presented separately for each tahsil of the District as under:

A. Village Directory (Rural Areas), and

B. Town Directory (Urban Areas).

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District its area and 1961 population, classified by sex and main industrial categories. The term 'Village', in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an *'estate'*. This definition of village is identical with that of *'mauza'* under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as *'mauza'*, but the smaller units are called *'tikkas'* in Kangra District, except in Kulu where the revenue estate is termed as *'kothi* and the smaller unit as *'phati'*. In Lahaul and Spiti District, the revenue estate is referred to as *'kothi'* and its smaller component as *'gaon'*.

2. Village having no population have been shown as *'Uninhabited'*. They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsilwise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961 Census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **column 2.** The Tahsil map shows the location of each village identified by its Hadbast number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having:

(a) a population of over 5,000; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on *'amenities'* based on the *'Village Notes'* prepared by the Patwaris at the time of the 1961 Census. These *'Village Notes'* contain several useful items of information which it has not been possible to present in this Directory for want of space. The *'amenities'* mentioned, relate to education medical facilities, Post and Telegraph, safe water-supply and electrification, and are indicated by the following abbreviations: —

P—Primary School.

M—Middle School.

H—High School.

C—College, including higher institutions.

T—Technical Institution.

D—Dispensary.

Rhc—Rural Health Centre.

Hos—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post Office.

P&T—Post and Telegraph Office.

S—Safe or protected supply of drinking water.

E(A)—Electricity for agricultural use.

E(D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self-Government.

7. **Column 5** relates to *'occupied houses'* i.e., houses used as dwellings, or conjointly as dwellings and for some other purpose e.g., shop-cum-dwellings. **Column 6** shows the number of *'households'*. A *'household'* means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Column 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956 and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A *'literate'* person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as *'educated'*.

10. **Columns 16 to 37** present figures for *'Workers'* and *'Non-workers'*. For the definition of the term *'Worker'* and a *'Non-workers'* and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by Roman numerals:

I—Working as cultivator (owner cultivator or tenants).

II—Working as agricultural labourer.

III—Working in mining, quarrying, livestock, forestry, fishing, hunting & plantations, orchards and allied activities.

IV—Working on household industry.

V—Working in manufacturing other than household industry.

VI—Working in construction.

VII—Working in trade and commerce.

VIII—Working in transport, storage and communications.

IX—Working in other services.
