PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No. definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931 The reason could be transfer from 1921 of certain charges on Census previously met from the provincia. revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics up to the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces & Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office. Separation of administrative statistics as Part C of the District Census Handbook and the kind Co-operation of the State Government, permitting Collectors of the 1961-71 decade to write the chapter on "Introducing the District," is likely to go a long way in early publication of all the parts of the District Census Handbooks. Another favourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in hindi and 2 in english. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District Census Handbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL :
15 *th August*, 1972.

VILLAGE AND TOWN DIRECTORY

PART X(A)

EXPLANATORY NOTE

History

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

Scope

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilites, trade, industry, commerce and banking facilities, population by religion and scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, Scheduled Caste and Scheduled Tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

Village Directory

This is in the form of one statement. Important statistics for each village have been given under the main-head—Amenities and Land Use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water,communications and post and telegraph. Under "Land use", the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 1,558 villages in the four tahsils of the district and the number of villages tahsil-wise in 1961 and 1971 is as under:-

S.No.	Tahsil	1961	1971	Difference
1	2	3	4	5
1.	Harda	568	571	+3
2.	Seoni-Malwa	199	203	+4
3.	Hoshangabad	338	338	..
4.	Sohagpur	441	446	+5
		1,546	1,558	+12

It may be seen that in all there is an increase

of 12 villages in in 1971. The reasons for the increase are:-

1. Harda Tahsil : (i) The revenue area of Timarni (Municipal town) has been treated as a separate village (Location Code 28/1/170).

(ii) The revenue area of Harda Khas has been treated as a separate village (Location Code No. 28/1/214).

(iii) The revenue area of village Kolharda which is included in Harda municipality, has been treated as a separate village (Location Code No. 28/1/215).

2. Seoni-Malwa Tahsil (i) The revenue area of village Barhanpura which has been included in Seoni-Malwa municipality, has been treated as a separate village (Location Code No. 28/2/108).

(ii) The revenue area of village Chouki Harwansh which has been included in Seoni-Malwa municipality has been treated as a separate village (Location Code No. 28/2/165)

(iii) The village Khudamba (Location Code No 28/2/191) is a new forest village.

(iv) The village Budimai (L. C. No. 28/2/195) does not appear in the list of villages of 1961 but has been treated as a village in 1971.

3. Sohagpur Tahsil (i) The revenue area of Sohagpur (Municipal town) has been treated as a separate village (L. C. No. 28/4/66).

(ii) The revenue area of Piparia Deogaon (Municipal town) has been treated as a separate village (L. C. No. 28/4/322).

(iii) Mallupura (Location Code No. 28/4/420), Birjikhapa (Location Code No. 28/4/443), and Naya Kheda (Location code No. 28/4/445) are 3 new forest villages.

The area of forest village Ranipur (Location Code No. 28/3/324) was not furnished by the Tahsildar, Hoshangabad, and therefore, this village has not been considered while discussing the data regarding area in this note

The distribution of the villages with reference to their area in acres is as shown in the inset table below .-

Area (in acres)		No. of villagse
1		2
50 acres or less	—	1
51— 100	—	7
101— 200	—	26
201— 500	—	195
501— 1,000	—	569
1,001— 2,000	—	538
2,001— 5,000	—	210
5,001 acres and above	—	11
Area not given	—	1
Total		1,558

Village Haripura Dama. (L.C.No. 28/1/300) in Harda tahsil has the smallest area of 9.05 acres and is located at a distance of 8 kms from the nearest town, Khirkiya, while village Wariam (L. C. No. 28/4/397) in Sohagpur tahsil has the largest area of 12,298.43 acres in the district and is located at a distance of 4 kms from the nearest town, Pachmarhi. In all 1,107 out of 1,557 villages, for which area figures are available, are in the range of 501-2,000 acres. Eleven villages are in the range of 5,001 acres and above. Maximun villages in each tahsil also come within the range of 501–2,000 acres as will be seen from the following table containing tahsilwise data of villages for which area figures are available :-

Area in acres	Harda	Seoni-Malwa	Hoshangabad	Sohagpur	Total
1	2	3	4	5	6
50 acres or less	1	..	..	..	1
51 — 100	5	..	2	..	7
101 — 200	9	3	5	9	26
201 — 500	91	21	35	48	195
501 — 1,000	191	64	114	200	569
1,001 — 2,000	191	82	125	140	538
2,000 — 5,000	82	33	50	45	210
5,001 and above	...	...	6	4	11
Area not available	1	..	1	..	1
Total	571	203	338	446	1,558

(b) Educational Amenities : The total number of villages having various educational facilities within different distance ranges from the nearest town are as indicated in the inset table below:-

Distance from nearest town	Total No. of villages	Number of villages having				
		Primary School	Middle School	High or Higher Secondary School	College	Others
1	2	3	4	5	6	7
5 kms. or less	149	77	10	5	2	1
6 — 10 kms.	242	121	21	5	..	..
11 — 15 kms.	320	149	20	6	..	1
16 — 25 kms.	475	189	22	4	..	..
26 — 50 kms.	338	82	8	5	..	..
51 — 100 kms.	34	7	1	..	..	..
101 — 200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
	1,558	625	82	25	2	1

Maximum number of villages (475) lie, within the distance range of 16-25 km. and maximum number of villages having primary and middle schools also lie within this range, while maximum number of villages having High/Higher Secondary school lie within the range of 11-15 kms. The number of educational institutions in the villagas of different tahsils is given below :-

Tahsil	Number of educational institutions			
	Higher Secondary/ High School	Middle School	Primary School	Other
1	2	3	4	5
Harda	3	12	199	..
Seoni-Malwa	2	15	106	..
Hoshangabad	13	33	166	1
Sohagpur	7	24	166	..
Total	25	84	637	1

Ten villages have two primary schools each, while one village has three primary Schools. Two villages have two middle schools each. The area of these villages with distance from the nearest town

are indicated below:-

S.No.	Name of village	Tahsil	L.C.No.	Area of the village in acres	Distance from the nearest town in Kms. with name		Educational institution & number (if more than one)	
							Primary School	Middle School
1	2	3	4	5	6		7	8
1	Sirali	Harda	28/1/432	1,442,32	Harda	27.2	2	..
2	Dolaria	Hoshangabad	28/3/14	5,334.00	Itarsi	12.8	2	..
3	Baikhedi	Hoshangabad	28/3/36	1,748.00	Itarsi	9.6	2	..
4	Raipur	Hoshangabad	28/3/99	5,097 00	Hoshangabad	6.4	..	2
5	Nimsadia	Hoshangabad	28/3/109	4,404.00	Hoshangabad	9.6	2	..
6	Sanga Kheda Kalan	Hoshangabad	28/3/125	3,718.00	Hoshangabad	11.2	2	..
7	Rampur	Hoshangabad	28/3/232	1,084.00	Babai	9.6	2	..
8	Ranipur (F.V.)	Hoshangabad	28/3/324	N. A.	Itarsi	3.2	3	..
9	Semri Harchand	Sohagpur	28/4/25	2,345.92	Sohagpur	9.6	2	..
10	Seoni	Sohagpur	28/4/139	1,209.07	Piparia	20.8	2	..
11	Umardha	Sohagpur	28/4/149	4,205.63	Piparia	28.8	2	..

13	Ban Khedi	Sohagpur	28/4/234	1,694.02	Piparia	20.8	..	2
						Total	23	4

(c) Medical Facilities : The availability of medical facilities, per 100 sq. kms., tahsil-wise is as given in the following inset table:-

Tahsil	Total area (in sq. kms.)	No. of medical institution of any kind per 100 sq.kms.
1	2	3
Harda	2,661.90	0.8
Seoni-Malwa	1,054.67	0.6
Hoshangabad	1,796.86	1.2
Sohagpur	2,100.98	1.0

The above table will show that the villages of Hoshangabad tahsil have comparatively greater medical facilities per 100 sq. km. The number of medical institutions tahsil-wise is as indicated below :-

Name of Tahsil	No. of Medical Institution
1	2
Harda	21
Seoni-Malwa	7
Hoshangabad	21
Sohagpur	21
TOTAL	70

(d) Power Supply : The number of villages with electric power supply within various ranges of distance from the nearest town is as indicated in the inset table below:-

Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3
5 kms. or less	149	41
6 — 10 kms.	242	55
11 — 15 kms.	320	31
16 — 25 kms.	475	36
26 — 50 kms.	338	12
51 — 100 kms.	34	..
100 — 200 kms.		..
201 and above	..	..
Total	1,558	175

It would be seen from the above that about 11 percent of the total number of villages have electricity and about 91 percent of them are in the distance range up to 25 km. The number of

villages having electric power supply, tahsil-wise, is as below:—

Tahsil	Total No. of villages	Villages having electric power supply	Percentage of villages having electric power supply
1	2	3	4
Harda	571	15	2.62
Seoni-Malwa	203	18	8.86
Hoshangabad	338	79	23.37
Sohagpur	446	63	14.12
Total	1,558	175	

The percentage (about 11) of villages having electric power supply is more than the State percentage (about 7). Within the district, villages of Harda tahsil have comparatively less of this facility

(e) Communications : The total number of villages and the number of villages connected by different types of communications, falling in different distance ranges from the nearest town,are indicated in the inset table below:-

Distance from the nearest town	Total No. of villages	Number af villages connected by				
		Pucca road	Kutcha road	Pucca road & rail	Kutcha road & rail	Others
1	2	3	4	5	6	7
5 kms. or less	149	41	64	8	2	..
6 — 10 kms.	242	44	134	9	1	..
11 — 15 kms.	320	34	196	8	8	..
16 — 25 kms.	475	44	305	2	6	..
26 — 50 kms.	338	24	233	3	2	..
51 — 100 kms.	34	2	32	..	..	..
101 — 200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
	1,558	189	964	30	19	..

Few villages are served by "pucca" road. Out of 1,558 villages in the district, 1,202 villages are served by "pucca" or "kutcha" roads. The number of villages served by "pucca" roads, tahsil-wise and the total number of villages with percentage covered are as under:-

Tahsil	Total No. of villages	No. of villages having "pucca" road	Percentage
1	2	3	
1. Harda	571	87	15.23
2. Seoni-Malwa	203	16	7.88
3. Hoshangabad	338	76	22.48
4. Sohagpur	446	40	8.96
Total	1,558	219	

Comparatively, Hoshangabad and Harda tahsils have better communication facilities, while Seoni-Malwa and Sohagpur tahsils are poor in this facility.

(f) Post & Telegraphs : The total number of villages in the tahsils of the district having post offices and telegraph offices are given below:-

Name of tahsil	Total No. of villages	No. of villages having post office	No. of villages having telegraph office	No. of villages having telephone
1	2	3	4	5
Harda	571	31	1	3
Seoni-Malwa	203	21	1	1
Hoshangabad	338	46	3	5
Sohagpur	446	26	5	4
Total	1,558	124	10	13

The number of post offices per 100 sq. km. area in each tahsil is as indicated in the following inset table:-

Name of Tahsil	Total area in sq. kms.	No. of post offices per 100 sq. kms.
1	2	3
Harda	2,661.90	1.1
Seoni-Malwa	1,054.67	1.9
Hoshangabad	1,796.86	2.5
Sohagpur	2,100.98	1.2

Comparatively, Hoshangabad tashil has better postal facility.

(g) *Staple food* : "Jowar" and wheat constitute staple food in the villages of all the tahsils of the district except that in some villages of Hoshangabad and Sohagpur tahsils, "Kodo" and rice also constitute staple food.

(h) Land use pattern :

(i) According to the village papers, about 17 percent of the area in the district is under forest. The percentage of the forest area, tahsil-wise, is as indicated below :-

Tahsil	Percentage
1	2
Harda	13.46
Seoni-Malwa	9.67
Hoshangabad	15.33
Sohagpur	27.86

It may be noticed that there is very little forest area in the villages of Seoni-Malwa tahsil while the villages of Sohagpur tahsil have substantial forest area.

(ii) The net cropped area in the year 1969 increased by 17.2 percent as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the year 1960-61 and 1968-69 comes to 1.3 and 1.8, respectively. The area under irrigation during this period increased by 62.9 percent.

(iii) The following inset table shows the average percentage of cultivable waste per village in different distance ranges from the nearest town:-

Distance	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7
5 kms. or less	149	135,291.52	908.00	29,172.60	195.79	21.56
6 — 10 kms.	242	207,758.72	858.55	46,300.14	191.32	22.29
11 — 15 kms.	320	268,304.33	838 45	62,279.15	194.62	23.21
16 — 25 kms.	475	347,826.91	732.27	85,843.60	180.72	24.68
26 — 50 kms.	338	167,803.13	496.46	46,577.69	137.80	27.76
51 — 100 kms.	34	10,121.98	297.71	3,597.26	105.80	35.54
101 — 200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Total	1,558	1,137,106.59	..	273,770.44	..	..

It may be noticed from the above table that the nearer a village to an urban area, the lesser is the proportion of cultivable waste. In the whole district 273,770 acres (in round figure) of land has been classified as cultivable waste which constitutes about 15 percent of the total area of the villages in the district. The percentage of cultivable waste in each tahsil is as indicated below. :-

Name of tahsil	Percentage of cultivable waste
1. Harda	18.10
2. Seoni-Malwa	15.79
3. Hoshangabad	9.81
4. Sohagpur	13.49

This table would show that comparatively more cultivable waste is located in Harda tahsil and it comes to slightly less than one-fifth of the total area of the villages in this tahsil.-

Town Directory :

This is in the form of Seven Statements. But before discussing the information collected in the Seven Statements, It would be better to first understand certain concepts which determines urban areas.

(a) Definition of town:—A 'town' in the 1961 Census was either (i) a Municipality, Cantonment or Corporation; or (ii) a habitation with a population of at least 5,000, with atleast three-fourths of the adult male population engaged in non-a ricultural pursuits. Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criteria or the one relating to ratio of non- ricultural adult males being 75% or more. But the list already finalised was not changed subsequently, the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisly one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criteria to qualify a place as urban, and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(b) Urban Agglomeration :

The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of urban areas in such a manner that *'de-facto* urban agglomeration' is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure* (within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the act al growth of the urban area.

(c) Standard Urban Area :

This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are:--

(i) It should have a core town of a minimum population size of 50,000.

(ii) The contiguous areas made up of other urban as well as rural administrative units should have close socio-economic links with the core town and.

(iii) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

The Seven Statements :

Very useful data regarding the towns have been given in the statements and they heve been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(i) Statement No. I:-This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board a Gram Panchayat, a Notified Area Committee, etc.

(ii) Statement No. II:-This statement contains information regarding location (latitude and longitude), annual rainfall, temperature, distance from the nearest city with population of 1 lac or more and State, District and Tahsil headquarters. Distances from Railway Station and Bus route have also been indicated.

(iii) Statement No. III: This statement contains information regarding receipt and exdenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(iv) Statement No. IV:-This statement contains information regarding amenities, *i. e.*, road length, sewerage system, types of latrines, water supply, fire-fighting service, etc. in the different towns.

(v) Statement No. V:- This statement contains information regarding various important facilities available in the town viz., medical, educational, recreational and cultural.

(vi) Statement No. VI:-This statement throws light on the business and credit facilities commanded by the towns and contains information regarding trade, commerce, industry and banking.

(vii) Statement No. VII:- This statement contains data regarding population by religion and Scheduled Castes / Scheduled Tribes with male / female break-up for the year 1971. This is the only statement based on 1971 Census figures.

Towns

There are four tahsils and eleven towns in Hoshangabad district as indicated below :-

	Tahsil		Town
	1		2
1	Harda	1	Khirkiya
		2	Timarni
		3	Harda
2	Seoni-Malwa	4	Seoni-Malwa
3	Hoshangabad	5	Itarsi
		6	Babai
		7	Hoshangabad
4	Sohagpur	8	Pachmarhi (Cantonment)
		9	Pachmarhi (Notified Area)
		10	Piparia
		11	Sohagpur

All the tahsil headquarters are towns. Hoshangabad is also the headquarter of the district.

All these towns continue to be recognised as a town since 1901, except the following :-

	Town	Year of recognition
	1	2
1	Khirkiya	1971
2	Timarni	1941
3	Pachmarhi (Cantonment)	1931
4	Piparia	1931
5	Babai	1971

None of these towns have ever been derecognised.

Urban Agglomerations and Standard Urban Area

The following are the Urban agglomerations and Standard Urban Area in the district and their details are as below:—

Urban Agglomeration

Tahsil	Name of Town forming agglomeration	Name of village treated as Urban outgrowth	L.C. No.	Wholly/ Partly
1	2	3	4	5
Hosanga-bad	(1) Hosanga-bad	(i) Rasulia	28/3/96	Partly
		(ii) Phephartal	28/3/92	Partly
	(2) Itarsi	(i) Pathrauta	28/3/254	Partly
		(ii) Sonsaonri	28/3/245	Partly
		(iii) Mahragaon	28/3/247	Partly
		(iv) Itarsi Kasba	28/3/247	Partly

Standard Urban Area

Name of S.U.A.	Component Units	L.C. No.
	Urban Components	
Itarsi	(i) Itarsi	28/1V
	(ii) Itarsi Kasba	28/3/246
	(iii) Mahragaon	28/3/247
	(iv) Sonsaonri	28/3/245
	(v) Pathraura	28/3/254
	Rural Components	
	(i) Begania	28/3/43
	(ii) Gonchi Toronda	28/3/72
	(iii) Ghugwasa	28/3/78
	(iv) Bortalai	28/3/79
	(v) Sonasaonri	28/3/245
	(vi) Mahragaon	28/3/247
	(vii) Dehri	28/3/253

Statement I.

(i) The category of town administration in 1970 is as indicated below :--

S. No.	Name of town	Category of town adminsitration
1	2	3
1	Itarsi	Municipality
2	Khirkiya	Gram Panchayat
3	Timarni	Municipality
4	Pachmarhi (Cantonment)	Cantonment Board
5	Pahmarhi (Notified)	Notified Area Committee
6	Piparia	Municipality
7	Babai	Gram Panchayat
8	Seoni-Malwa	Municipality
9	Sohagpur	Municipality
10	Harda	Municipality
11	Hoshangabad	Municipality

(ii) The population of all the towns, except khirkiya, Timarni, Piparia and Babai, fell during the decades as mentioned below :--

S.No.	Name of town	Decade Population		Reduction in Population
		Year	Population	
1	2	3	4	5
1	Itarsi	1901	5,769	
		1911	4,430	1,339
2	Pachmarhi	1941	6,194	
	(Cantonment)	1951	4,900	1,294
3	Pachmarhi	1921	4,568	
	(Notified)	1931	1,437	3,131
		1941	502	935
		1951	342	160
4	Seoni-Malwa	1901	7,531	
		1911	6,568	963
		1921	6,004	564
5	Sohagpur	1901	7,420	
		1911	7,239	181
		1921	7,053	186
6	Harda	1901	16,300	
		1911	8,341	7,959
		1931	16,031	
		1941	15 120	911
7	Hoshangabad	1901	14,940	
		1911	5,503	9,437

(i) The population of the towns have, by and large, shown constant increase in every decade after their recongnition as towns except during the periods mentioned above.

(ii) During the decade 1901-1911, all the then existing towns, except Pachmarhi (Notified) lostpupulation and the loss in the case of Itarsi, Harda and Hoshangabad was quite high. This was mainly due to migration and deaths from plague, epidemic fever, cholera and small pox.* During the decade 1911-21, only Seoni-Malwa and Sohagpur showed a fall in population while there was no reduction in population of the then existing other towns despite the very severe wide spread fatal influenza epidemic which caused heavy mortality**. This is perhaps due to the fact that rural population came to urban areas in the hope of medical facilities. During the decade 1931--1941 the population of Harda slightly reduced but the district and its urban area gained in population and this slight reduction might be due to migration within the district. During the decade 1921--1931, the population of Pachmarhi (Notified) reduced by 3,131 because Pachmarhi (Cantonment) was recognised as town for the first time in 1931 and the population had to be bifurcated. The population of Pachmarhi (Notified) further reduced during the decade 1931--1941 and 1941--1951 because it is a hill station of the State and there might have been migration during the Census period. Change in population of Pachmarhi (Cantoment) can be attributed mainly to the strength of the forces stationed during different periods.

(iii) Column 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table :--

Functional category	Total No. of towns
1	2
Services	2
Services *cum* Primary Activities *cum* Commerce.	1
Services *cum* Industry *cum* Primary Activities.	1
Services *cum* Industry.	1
Services *cum* Primary Activities *cum* Industry.	1
Services *cum* Industry *cum* Trade and Commerce.	1
Commerce *cum* Services *cum* Industry.	1
Transport *cum* Service *cum* Industry	1
Total	9

* District Census Handbook - Census of India, 1961--Hoshangabad district-Page xiiv.

** District Census Handbook-Census of India, 1961--Hoshangabad district-page xiv.

The method adopted for the functional classification is elucidated below:-

The nine industrial categories were grouped into the following five functional characteristics:-

(i) Primary Activities (Comprising Category I-Cultivation, II- Agricultural Labourer and III- Mining and Quarrying, Fishing, Live-Stock, Hunting, etc).

(ii) Industrial (Comprising Category IV- Household Industry, V- Manufacturing other than Household Industry and VI-Construction)

(iii) Commercial (Comprising Category VII-Trade and Commerce)

(iv) Transport (Comprising Category VIII-Transport, Storage and Communications)

(v) Services (Comprising Category IX- other services)

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more then 40 percent of the total workers, the town was designated by that fuction. In case no single characteristic claimed 40 percent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 percent of the total workers, the first three characteristics were taken to represent the town.

Statement II.—The physical and locational aspects as in 1969 have been covered. The district is situated to the south of the Narmada river between the Satpura and Vindhyan mountain ranges with part of Satpura within its borders. The towns get annual rainfall of about 1,124 m.m. to 1,362 m.m. except hill station town of Pachmarhi (Cantonment) and Pachmarhi (Notified),which get about 2,244mm. The range of maximum and minimum temperature of the towns is indicated as 32 °C and 20 °C except in the hill station towns, where the range is about 27 °C and 16 °C. All the towns are on bus route. All the towns, except four towns (Pachmarhi Cantonment, Pachmarhi Notified, Babai and Seoni-Malwa) have railway facility. The district headquarter, Hoshangabad, is at a distance of 74 km. by road from the State headquarter, Bhopal. Bhopal is the nearest city from the towns of the district, except Khirkiya and Harda for which Indore is the nearest city.

Statement III.—On the basis of population of 1971, the eleven towns of the district have been categarised as under :—

S.No.	Name of town	Population in 1971	Class
1	2	3	4
1.	Itarsi	44,199	III
2.	Khirkiya	5,745	V
3.	Timarni	7,896	V
4.	Pachmarhi (Cantonment)	8,012	V
5.	Pachmarhi (Notified)	1,212	VI
6.	Piparia	18,281	IV
7.	Babai	5,317	V
8.	Seoni-Malwa	12,064	IV
9.	Sohagpur	12,097	IV
10.	Harda	28,504	III
11.	Hoshangabad	27,011	III

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases:-

S.No.	Local body in the town of	Year of excess expenditure	Amount by which the expenditure more than receipts	Percentage of excess expenditure to total receipts
1	2	3	4	5
1	Itarsi	1968—69	295,200	21.83
		1970—71	432,900	29.89
2	Khirkiya	1970—71	3,500	16.91
3	Timarni	1968—69	3,800	4.13
		1969—70	500	0.53
4	Pachmarhi(Cantt.)	1969—70	300	0.12
5	Pachmarhi (N.A.)	1968—69	9,100	24.66
6	Piparia	1970—71	4,800	0.86
7	Babai	1969—70	300	1.15
		1970—71	1,300	5.65
8	Seoni-Malwa	1969—70	13,700	4.70
9	Sohagpur	1968—69	5,800	4.00
		1970—71	64,300	17.97
10	Harda	1969—70	132,100	11.60
11	Hoshangabad	1968—69	42,300	8.06

Column 5 of the above table would show that the percentage of excess expenditure to total receipt of the local bodies of Itarsi, Khirkiya, Pachmarhi (Notified), Sohagpur and Harda is more than ten for the years indicated in the table. The total receipts of the local bodies have, by and large, shown an upward trend except in the following cases:-

S.No.	Local body in the town of	Year
1	2	3
1.	Itarsi	1970—71
2.	Khirkiya	1969—70
		1970—71
2.	Pachmarhi (Canttt.)	1969—70
4.	Babai	1970—71
5.	Seoni-Malwa	1969—70
6.	Harda	1970—71

This is mainly due to shortfall in government grant and /or loan. Receipt through taxes have also shown, by and large, an upward trend during these years except in the following cases:-

S. No.	Local body in the town of	Year	Extent of shortfall
1	2	3	4
1.	Itarsi	1970—71	42,700
2.	Khirkiya	1969—70	700
3.	Pachmarhi (N.A.)	1969—70	3,000
4.	Sohagpur	1970—71	12,600
5.	Harda	1970—71	99,600

The above table would show that the shortfall of the local bodies of Itarsi and Harda in the receipts through taxes is quite substantial. Government grants have been received by all the local bodies but loan has been taken only by the local bodies of Itarsi, Pachmarhi (Cantonment), Piparia, Babai, Sohagpur and Harda. The per capita receipt and expenditure under broad heads is indicated in the inset table below :—

			Per capita (in Rupees)						
			Receipt			Expenditure			
Class of town	No. of town	Year	Total Receipt	Receipt through taxes etc.	Receipt from all other sources	Total Expenditure	Expediture on public health conveniences	Expenditure on public institutions	Expenditure on all other aspects
1	2	2 (A)	3	4	5	6	7	8	9
Class I (100,000 & over)		..	..	..	..	..	..	..	..
Class II (50,000 — 99,999)		..	..	..	..	..	..	..	..
Class III	3	1968-69	27.07	19.28	7.79	29.15	7.85	2.21	19.09
(20.000 — 49.999)		1969-70	33.45	21.14	12.31	32.58	12.86	0.84	18.88
		1970-71	31.30	20.73	10.57	34.49	17.44	0.66	16.39
Class IV	3	1968-69	20.94	11.97	8.97	20.24	7.04	3.64	9.56
(10,000 — 19,999)		1969-70	23.66	13.31	10.35	22.04	7.22	2.80	12.02
		1970-71	28.54	13.45	15.09	29.93	13.19	1.11	15.63
Class V	4	1968-69	17.94	6.71	11.23	16.41	5.53	1.30	9.58
(5,000 —9,999)		1969-70	14.99	8.02	6.97	15.01	6.51	1.53	6.97

		1970-71	48.27	9.16	39.11	32.51	13.37	..	19.14

The above inset table would show that on the whole the total per capita receipt matches fairly well with the total per capita expenditure. The per capita expenditure on public health and conveniences as against the per capita receipt through taxes etc. is encouraging. The expenditure of quite a good number of local bodies, shown in column 15 of the Statement No. III under head others, constitutes a high percentage of the total expenditure.

Statement IV:— All the towns have electricity and street lights. Water tap facility is available in all the towns except Timarni, Pachmarhi (Cantonment), Seoni-Malwa, and Sohagpur. Fire brigade is available only in Itarsi, Timarni, Piparia, Harda and Hoshangabad.

Statement V:—*(i) Medical facilities.*—Hospital facility is available at Itarsi, Pachmarhi (Notified), Harda and Hoshangabad. There is Family Planning Clinic at Itarsi and Hoshangabad. Khirkiya, Timarni, Pachmarhi Cantonment), Piparia, Babai, Seoni-Malwa and Sohagpur have only Health Centers. In addition to the above, Hoshangabad has dispensary also the number of beds per 1000 population has been indicated in the inset table below:—

Total No. of beds in medical institutions	No. of beds per thousand population
1	2
245	1.4

(ii) Educational facilities.—Hoshangabad has one combined and one home science college, while Piparia has one combined and one arts and commerce college. Harda has only one arts and commerce college while Itarsi has a combined college. College facility is not available in other towns of the district. Every town, except Pachmarhi (Notified) has Higher Secondary/High School facility. The number of Higher Secondary/High Schools and Middle Schools per thousand population is shown in the following inset table. For a more realistic appreciation the population in the age-group 0-14 has been considered for Primary and Middle Schools while population in the age-group 15-19 has been considered for Higher Secondary/High Schools:—

Name of town	Number per 1000 population		
	Higher Secondary or Secondary	Middle School	Junior Secondary/primary School
1	2	3	4
Itarsi	1.04	0.1	1.1
Khirkiya	1.8	0.4	0.8
Timarni	2.5	0.6	0.9
Pachmarhi (Cantt.)	4.05	..	1.4
Pachmarhi (Notified)	..	..	..
Piparia	2.2	0.01	1.01
Babai	2.04	0.8	0.42
Sohagpur	3.3	0.2	1.1
Harda	1.3	0.2	0.7
Hoshangabad	1.07	0.08	1.1
Seoni-Malwa	0.7	0.4	0.6

(iii) Recreational and cultural facilities:—Very few towns have playgrounds while cinema houses are available in all the towns except Khirkiya, Pachmarhi (Notified) and Babai. Libraries and reading rooms are also available in all the towns except Timarni, Pachmarhi (Notified) and Babai.

Statement VI:— Every town has banking facility. Khirkiya, Pachmarhi (Cantonment) and Pachmarhi (Notified) have one bank, while the rest of the towns have more then one bank. Maximum number of banks (4) are located at the district headquarter, Hoshangabad. Agricultural credit societies are available in all the towns except Timarni, Pachmarhi (Cantonment), Pachmarhi (Notified) Seoni-Malwa, Harda and Hoshangabad, while non-agricultural credit societies are available only in Itarsi, Timarni, Babai, Seoni-Malwa, Sohagpur, Harda and Hoshangabad. Cement, iron, medicines, Sugar and cloth are the main items of import in the 9 towns of the district, while in the two hill station towns, the important import items are grain, wheat, cloth, vegetable and kerosene oil. Wood, pulse, grain, cotton, wheat are the main items of export from the 9 towns, while 'harra' and honey are the important items of export from the two hill station towns of Pachmarhi. The important items of local

manufacture are soap, cement pipes, bricks, agricultural implements, bamboo articles and brass utensils.

Statement VII:— About 26 percent of the town population of the district is in Itarsi town and it is followed by Harda and Hoshangabad where the percentage of the town population is about 17 and 16, respectively. Substantial percentage of the town population follow Hindu religion and the next highest percentage is of the population following Islam religion. Town-wise percentage of the population following these two religions is as indicated below:—

S.No.	Town	Percentage in round figures	
		Hindu	Islam
1	2	3	4
1	Itarsi	84	9
2	Khirkiya	80	11
3	Timarni	90	7
4	Pachmarhi (Cantonment)	75	11
5	Pachmarhi (Notified)	83	6
6	Piparia	88	9
7	Babai	83	14
8	Seoni Malwa	84	12
9	Sohagpur	81	16
10	Harda	79	18
11	Hoshangabad	86	11

The percentage of people following other religions is not very significant except that about 11 percent people of Pachmarhi (Notified) follow Christian religion. There is no population following Boudh religion in the towns of Khirkiya, Timarni, Babai and Sohagpur. Similarly there is no population following sikh religion in Babai town. Scheduled Caste population in Pachmarhi (Cantonment), Babai and Khirkiya is about 12, 10 and 10 percent, respectively, while in other towns, it is less than ten percent. Regarding Scheduled Tribes, only two tahsils, Hoshangabad and Sohagpur, have been brought within the ambit of the Scheduled Castes and Sheduled Tribes lists (Modification) Order, 1956. In the towns of these two tahsils, the percentage of Scheduled Tribes is insignificant except that in Pachmarhi (Notified), their percentage is about fourteen.

PRIMARY CENSUS ABSTRACT

PART X(B)

EXPLANATORY NOTE

I. General :

In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade would be dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes tha thave come about in the matter of total population, its growth rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households has been discussed.

II. Population :

The populatian of Hoshangabad district is 805,870 while the populatian of Madhya Pradesh is 41,654,119. The population of Hoshangabad district thus comes to 1.93 percent of the State population. The rural population is about 78.23 percent of the district population whereas the urban population is 21.77 percent as against the State percentage of 16.29 only. In other words, the district is urban in character. Highest percentage of the district population is found in Hoshangabad tahsil (about 33 percent) and one of the reasons for this is that the population of bigger towns, Hoshangabad and Itarsi is included in Hoshangabad tahsil. Hoshangabad district ranks 24th among the 43 districts of the State in population. During the decade1961-71, the district population growth-rate has been 30.34 against the State growth-rate of 28.67. The area of the district is 10,016 Sq. Km. In other words, it has 2.26 percent of the State area and ranks 19th in area among the districts of the State. The density of population per Sq. Km. of the district is 80 against the State density of 94 and the district ranks 31st in density in the State. The sex-ratio, number of females per 1,000 males, of the district and the State is 913 and 941, respectively. Tahsils Hoshangabad and Sohagpur have got sex-ratio lower than the district sex-ratio, while the other tahsils, Harda and Seoni-Malwa, have higher sex-ratio.

III. Literacy :

1. The percentage of literacy in the district comes to about 30 as aganist the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (22.90) was higher than the State percentage of 17.13. The district has made some progress to increase the rate at literacy during the decade 1961-71.

2. The literacy percentage among the males in the district (41.81) is higher than the State percentage of about 33. Among females also, the literacy percentage in the district (16.15) is higher than the State percentage of about 11.

3. Among the tahsils, Hoshangabad tahsil has the highest literacy percentage of about 33, while Sohagpur tahsil has the lowest percentage of about 27.

4. The same pattern is seen in male literacy in the tahsils. Among males, Hoshangabad tahsil is at the top (about 46 percent), while Sohagpur tahsil with about 39 percent comes last. Among females, Hoshangabad tahsil leads in literacy (about 20 percent), while Seoni-Malwa tahsil with 13.33 percent comes last.

IV. Workers :

In the district, about 35 percent of the population comes under the category of workers (main activity) against the State percentage of about 37. The percentage of female workers (about 15) is less than the State percentage (about 19). Within the disrict, comparatively greater percentage of workers (males and females) have been returned from Seoni-Malwa tahsil. Hoshangabad tahsil has

returned the lowest percentage of workers (31.89). Among female workers, Seoni-Malwa tahsil with 21.47 percent leads other tahsils of the district, while Hoshangabad tahsil with 12.11 percent comes last. Among the workers in the district, about 35 and 34 percent are cultivators and agricultural labourers, respectively, against the State percentage of about 53 and 27. Under the category "Other workers" the district percentage (about 31) is higher than the State percentage of 20.58. Among females the district percentage of agricultural labourers (about 68) and other workers (about 17) is higher than the State percentage of about 49 and 10, respectively, while for cultivators the district percentage (about 16) is significantly lower than the State percentage (about 41).

V. Scheduled Castes and Scheduled Tribes :

The percentage of Scheduled Castes to total population of the district (about 11) is less than the State percentage (about 13). The percentage of Scheduled Tribes in the district (about 7) is significantly lower than the State percentage (about 20) and the reason for this contrast is that only two tahsils (Hoshangabad and Sohagpur) of the district come within the ambit of the Scheduled Castes and Scheduled Tribes list (Modification) Order, 1956. In the tahsils of the district quite a high percentage of Scheduled Castes population (about 33) is found in Harda tahsil, while in Sohagpur tahsil the percentage (about 8) is lowest. The Scheduled Tribes population in Sohagpur tahsil is 14.64, percent while in Hoshangabad tahsil it is only 10.61 percent.

VI. Occupied Residential Census Houses :

The district has 138,045 occupied residential Census houses against the State figure of 6,822,767 which comes to 2.023 percent. During 1961, there were 125,776 occupied residential Census houses in the district against the State figure of 6,230,854 which came to 2.019 percent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census honse in 1961 and 1971 are indicated below:—

State/ Distt.	Year	No. of Residential Cens s Houses	No. of Households	No. of households per occupied residential Census House	No. of persons per residential Census House
1	2	3	4	5	6
State	1961	6,230,854	6,615,580	1.06	5.2
District	1961	125,776	132,194	1.05	4.9
State	1971	6,822,767	7,740,289	1.13	6.1
District	1971	138,045	154,073	1.12	5.8

It would thus be seen that the pressure on occupied residential Census house increased during the decade in the district as well as in the State. Comparatively, Hoshangabad tahsil (with about 33 percent) claims the highest percentage of occupied residential census houses in the district.

VII. Villages and Towns :

There are 1,558 villages in Hoshangabad district which comes to 2.02 percent of total villages in the State. The percentage of inhabited villages to total villages in the district is 90.24 against the State percentage of about 92. There are 250 towns in the State out of which the district claims eleven

NOTE :— (1) M = Municipality
N.M. = Non-Muncipality
U.A. = Urban Agglomeration
O.G. = Urban Outgrowth
N.A. = Notified Area
Cantt. = Cantonment

(2) Urban Outgrowth—
1 Village Rasulia, L.C. 96
2 Village Phephartal, L.C. 92
3 Village Pathrauta, L.C. 254
4 Village Sonsaonri, L.C. 245
5 Village Mahragaon, L.C. 247
} of Tahsil Hoshangabad are partly included.
6 Village Itarsi Kasba, L.C. 246 of Tahsil Hoshangabad is wholly inculded.

(3) Towns treated as such for the first time in 1971 are printed in italics.

(4) The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General of India.

(5) The urban area figures are those supplied by the local bodies.

(6) The rural area of the district has been derived by subtracting the urban area figure supplied by local bodies from the total area figure of the district.

(7) Total area figures of tahsils are according to Village Papers as supplied by the Director of land Records, Madhya Pradesh. Tahsilwise area figures exclude 2,534.3 Km². of forest area in the district since tahsil-wise break-up is not available.
