PREFACE

The District Census Handbooks of the 1971 series are being published in three parts divided into two volumes. The first volume consisting of parts 'A' (Village & Town Directory) and 'B' (Primary Census Abstract) has already been brought out. The second volume is part 'C' which presents the census tables of 1971 and the administrative and developmental statistics. It has been divided into three sections. The first section gives a brief resume of the demographic changes that have taken place in the district during the past decades. The second section presents the census tables and also some data based on the Village & Town Directories obtained from the computer. The third section is a compilation of various administrative and developmental statistics.

The :scheme of the present series of the District Census Handbooks followed broadly the pattern of its predecessors of 1961 and 1951. For various reasons, however, the original plan of 1971 could not be adhered to in full and some departures had to be made especially with regard to the first and third sections of this volume. It has not been possible to collect all the administrative statistics as originally planned inspite of our best efforts and we have to prune the list and publish whatever is available. We sincerely regret that the section is incomplete to this extent. In the first section also we had to confine ourselves to a brief review of the demographic changes only in the district, based almost solely on census data and left out the developments in the economic, social and cultural spheres.

It is regretted that the volume could not be brought out earlier. For various reasons printing has been generally slow and halting and some other census publications of the 1971 series have also been held up. But for the sincere efforts made by the printers, M/s. Samaj Sevak Sangha Press, this volume also would have been delayed further. The present volume completes the District Census Handbook of Hooghly.

I am immensely grateful to Shri Bhaskar Ghose, Director of Census Operations, West Bengal, who had very ably conducted the 1971 census in the state, for allowing me the opportunity of compiling the present series of the District Census Handbook. I gratefully recall the advice and guidance which I had from him all through.

I am indebted to Dr. B. K. Roy Barman, formerly Deputy Registrar General and Shri N. G. Nag, Assistant Registrar General, in the Social Studies Division of the Office of the Registrar General India, for the help and co-operation extended to me in compiling the Handbooks. I also extend my respectful thanks to shri R. B. Chari, formerly Registrar General, India and Shri P. Padmanabha, the present Registrar General for the kind advice and encouragement all through the work. My thanks are also due to Shri K. K. Chakravarti, Assistant Registrar General (Census) for the help extended to me all along for completion of the Census tables presented in this volume. My colleague in the West Bengal Directorate, Shri Sukumar Sinha, Deputy Director helped me with valuable suggestions. I am thankful to him.

I owe much to Shri T. K. Ghosal, Tabulation Officer for helping me with a competent first draft of the 'demographic profile' of Hooghly. Shri M. N. Sarkar, Investigator and his devoted assistants in the Central Tabulation Unit completed with commendable speed the census tables and checked and rechecked the data presented in the volume. The Printing Section and the District Census Handbook Unit of the Directorate, under the able guidance of Shri D. Sen, Investigator worked tirelessly to bring out the volume. I must acknowledge, in particular, the services renderd by Shri Himangshu Saha Chowdhury, Proof Reader of the Printing Section who looked after the publication and read proofs with meticulous care all through. Shri M. L. Chandra, Computor and the Assistant Computors of the District Census Handbook Unit worked wholeheartedly to compile and arrange the administrative and developmental statistics. The publication would not have been possible but for their devoted efforts. Many other colleagues in the Directorate have worked hard for months on to see through the publication. I shall remain ever grateful to them all.

My thanks are also due to the management and staff of Samaj Sevak Sangha Press, Printing Project & Trainning-*cum*-Production for the excellent Printing of the volume.

March, 1979

M. C. Datta

HOOGHLY AT A GLANCE

Population	Total	Persons	2,872,116

SECTION-A

A DEMOGRAPHIC PROFILE

HOOGHLY : A DEMOGRAPHIC PROFILE

Located party in the Greater Calcutta industrial belt, Hooghly is one of the few advanced districts of West Bengal with a well-balanced economy. It has a long history of industrialisation. Agriculture has also flourished here alongside industries. In fact, the district draws its income almost evenly from the three sectors of the economy. There have been perceptible changes in the economy of the district in recent decades. The demographic changes are not as profound ; but they are linked closely with the changes in the economy.

The census of 1971 found the district with a larger population and higher density. The sex ratio was also a little higher but the age composition was almost the same as a decade back. The degree of urbanisation was marginally higher. The rate of growth of population was, however, much lower than in the preceding decade. The demographic changes observed in the district are narrated briefly in the following sections.

Growth of population

In 1971 the population of Hooghly stood at 2,872,116 which was 640,828 more than the population of 2,231,288 a decade back. The rate of decennial growth came to 28.72 per cent which was substantially lower than the rate of 39.02% recorded in the preceding decade. The following statement traces the growth of population in the district since the turn of the century.

STATEMENT I

Year	Population	Decade variation	Percentage decade variation
(1)	(2)	(3)	(4)
1901	1,075,872	..	..
1911	1,115,390	+ 39,518	+ 3.67
1921	1,105,565	− 9,825	− 0.88
1931	1,141,517	+ 35,952	+ 3.25
1941	1,416,013	+274,496	+24.05
1951	1,604,229	+188,216	+13.29
1961	2,231,418	+627,189	+39.10
1971	2,872,116	+640,698	+28.72

The population had just crossed the *1 million* mark in 1901. Till 1931 it grew at a slow pace. The turning point came with the year 1941. During the thirties the growth of population was unprecedented (24.05%) following the high economic growth. The second world war and the consequent spurt in industrial activity attracted in-migrants to this and other districts of the Calcutta industrial belt from the neighbouring provinces and also from within Bengal. The composition of the population consequently underwent a sudden and profound change. In the following decade 1941-51 the rate of growth was relatively low (13.29%), due partly to the scourges of the infamous Bengal famine of 1943 and its aftermath. In 1961 again the rate reached the all time high of 39.10%. The phenomenal growth was brought about by a high rate of natural increase as also the net effect of migration. The rate of natural growth was high during the fifties because of a fall in the death rate. But more important was the role of migration. In-migrants poured into the district in two streams—one from beyond the Indo-Pakistan borders and the other from the neighbouring Indian states. The second stream was as important as the first because of the industrial expansion following the launching of the five year plans. During the sixties, however, the rate of growth slided downward to 28.72% which was a little above the state average

of 26.87%. The rate of natural increase had hardly declined during the decade. There was, however, a definite slowing down of the inflow of migrants especially from the neighbouring states because of the general industrial recession of the late sixties. It is even suggested that there was a return flow of migrants during the period from the industrial belt especially due to the recession in jute which happens to be the main industrial activity in Hooghly. The fall in the growth rate during the decade in the district has followed the trend in the state in general and in the Calcutta metropolitan area in particular.

The rate of growth has always been of a higher order in the urban areas than in the rural areas of the district. The reasons are obvious. The growth of rural population has nevertheless been quite high. We may revert to this again in the section on urbanisation.

Sex ratio

The sex ratio or the number of females per 1,000 males in the district has always followed the trend in the state as a whole. It has however been at a slightly higher level in Hooghly than in the state in all the census years except 1931. The following statement will be illustrative.

STATEMENT II

Sex Ratio, 1901 to 1971

	Hooghly			West Bengal		
Census Year	Total	Rural	Urban	Total	Rural	Urban
(1)	2	3	4	5	6	7
1901	982	1,027	760	945	994	652
1911	959	1,014	707	925	984	614
1921	921	998	642	905	971	591
1931	879	956	627	890	961	578
1941	864	944	633	852	945	559
1951	883	955	690	865	939	660
1961	892	948	749	878	943	701
1971	896	940	784	891	942	751

The statement reveals further that the sex ratio declined continuously in the district as well as in the state till 1941. It is moving upward from decade to decade since 1951, though at a slow pace. The movement has been quite fast and somewhat irregular in the urban areas of the district as compared to the rural areas. From 760 in 1901 the ratio came down to 633 only in 1941 in the urban areas—a drop of 127 points in four decades. The movement was reversed thereafter. The urban ratio climbed upward very fast, gained as much as 150 points in a span of three decades and reached 784 in 1971 exceeding the level of 1901. A similar movement is observed in the state ratio also. The state ratio for urban areas has, in fact, moved even faster to gain about 200 points during the same three decades. The change in the nature of urban growth since independence, development of residential settlements in and around old urban centres and growth of commercial and service sectors in the urban areas are among the factors that raised the urban sex ratio in the district as also in the state as a whole.

The ratio in the rural areas of the district on the other hand has been on the decline continuously ever since 1901 except for a small rise in 1941-51. The substantial gains in the ratio in the urban areas have, however, more than offset the fall in the rural : ratio and the total ratio is moving upward gently since 1951. This is in keeping with the trend observed in the state as a whole.

Density of Population

Situated as it is in the heart of the central Gangetic plains, Hooghly is a very densely populated tract. Density is high not only in its urban areas but in the rural areas as well. In 1971 the district had 913 persons to the square kilometre as against the state average of 504. It is highly urbanised, the proportion of urban to total population being 31.24%. A large part of the urbanised areas lies within the Calcutta metropolitan belt. Proximity to the metropolitan core again has made for high density in the rural areas too. Rural density was in fact as high as 698 which was about one and a half times the state density. In the towns the density was 6,278 persons per square kilometre on an average. The statement below which shows the density at the police station level in 1971 is illuminating.

STATEMENT III

Density of population in Police Stations of Hooghly, 1971

District/Subdivision/ Police Station	Density	District/Subdivision/ Police Station	Density
HOOGHLY	913	*Chandernagore Subdivision*	
Sadar Subdivision	*733*	Haripal	770
Chinsurah	3,647	Tarakeswar	939
Polba	491		
Dhaniakhali	628	*Serampore Subdivision*	*1,749*
Panduah	553	Serampore	4,240
Balagarh	576	Uttarpara	4,973
Mogra	1,851	Chanditala	1,313
Dadpur	514	Jangipara	732
		Arambagh Subdivision	*628*
Chandernagore Subdivision	*1,249*	Goghat	442
Chandernagore	7,789	Arambag	583
Bhadreswar	3,308	Khanakul	799
Singur	1,115	Pursurah	963

Both Chandernagore and Serampore lie close to the Calcutta Metropolitan core and are highly industrialised. Density is naturally high in both Subdivisions, Large tracts of the Sadar Subdivision are rural and density is relatively low in most of the police stations comprised in it. Polba (491) is the only police station, besides Goghat (in Arambag Subdivision), where density does not exceed the 500 mark. The entire Subdivision of Arambag is rural except for Arambag town and thinly poputated as compared to the three other Subdivisions. Goghat in this region has the lowest density (442) for any police station in the district.

Urbanisation

It is well known that Hooghly is quite highly urbanised with 31.24% of its population living in the towns. The degree of urbanisation or the proportion of urban to total population is increasing from decade to decade, though at a slow pace. In the last decade the proportion of the urban to total population in the district increased much faster than in the state as a whole. In 1961 the proportion was 25.96% in Hooghly as against the state average of 24.45. In 1971 the respective figures were 31.24% and 24.75%.

Hooghly has a long history of urbanisation. The spurt in industrial activity witnessed in the fifties and the early sixties gave a further fillip to urban growth. A new dimension was added to the process as new urban residential settlements came up in the Uttarpara-Kotrung-Bhadreswar-Baidyabati belt. This is in the wake of improvement in transport and commutation facilities and also to accommodate the waves of new settlers from beyond the international borders.

There were 17 cities and towns in all in Hooghly in 1971, of which six were non-municipal towns and 11 had municipalities. Two of these units, namely, Chinsurah and Serampore had attained the status of cities with a population of over a lakh each. The following statement traces the growth of the urban areas of the district since 1901.

STATEMENT IV

* Uttarpara and Kotrung were treated as separate towns in 1901-61 censuses. In 1971 these two towns were merged together to form a single town Uttarpara-Kotrung.

The statement reveals that most of the towns of the district grew at a very fast pace during 1931-41 in the wake of the unprecedented industrial expansion during World War II. The towns grew fast during the fifties also. They have continued to grow during the sixties but the rate of growth came down considerably everywhere except in Rishra and Arambag. Rishra is an industrial town in the periphery of the Calcutta-Howrah core and has recorded a higher rate of growth in 1971 than in 1961, the respective figures being 64.75% and 40.31%. Arambag, on the other hand, is located in a rural setting and is a service-*cum*-residential town. It has nevertheless registered a high growth of 52.63% in 1961-71 as against 44.42% in the preceding decade. Arambag is in fact the only town in the district in which the rate of growth is moving upward continuously since 1941. The population of the town has grown almost threefold in three decades since 1941.

There is another important point about the urban scene in the district. Although all the towns have grown pretty fast during the last intercensal decade no new urban centres of importance have come up. Makhla, with a small population of 11,439 only and Haripal (8,445) are the only additions to the list of towns. Both are in the nature of over-grown villages and have hardly any potential for further growth. The urbanising influence of the metropolitan area may, however, be observed in the slow, but perceptible, changes in the occupational pattern of the rural inhabitants of Serampore and Chandernagore Subdivisions, in the changes in physical environment, in the changed look of the settled areas and in the preceptible changes in the way of life in the peripheral villages.

Age structure and sex ratio

For a meaningful picture of the demographic situation of a given area one has to relate the sex ratio to the age distribution of the population. It is interesting to note that the age-structure of an industrialised and urbanised district like Hooghly is almost the same as that of the State as a whole.

STATEMENT V

Distribution of population by age-groups, 1971

Age group	Percentage of total population	
	West Bengal	Hooghly
0—14	42.89	43.15
15—19	9.23	9.61
20—24	7.64	7.98
25—29	7.58	7.41
30—39	12.59	12.24
40—49	0.05	8.26
50—59	5.57	5.44
60+	5.30	5.38
Age not stated	0.15	0.03

As in the case of West Bengal, the high proportion of infants and children (age-group 0 – 14) in Hooghly indicates a heavy burden of dependency for the people in the working age-group 15 – 59 who constitute 51·66% only of the totat population. In the context of the very low participation rate among females and the low level of per capita income the burden becomes all the heavier. It is also important to note that the high proportion of the the young is a natural corollary of the steady and steep rise in population which the state and the district have witnessed. The rise in population, in its turn, is again making for a further increase in the proportion of the young population.

We may now have a look at the sex ratio by age-groups which will also confirm the above observations. The sex ratios by age-groups for the state and the district are shown below.

STATEMENT VI

Sex ratio by age-groups, 1971

Age-group	Sex ratio	
	West Bengal	Hooghly
1	2	3
0— 4	1,019	978
5—14	944	947
15—19	848	831
20—24	915	894
25—29	883	888
30—39	820	827
40 – 49	696	740
50—59	786	894
60+	992	1,054

At the state level the ratio is adverse to females for all the age-groups except 0—4. It exceeds unity (1019) in age-group 0—4 and climes down rapidly to 848 in 15—19 indicating high mortality among the young women of the child-bearing age. Age-group 20—24 shows a short recovery and then the ratio again comes down steeply to 696 in the late child-bearing age of 40—49. In the old age 60+ the sex ratio comes close to unity (992). The district follows the state pattern closely except at two points, 0—4 and 60+. The ratio is close to, but does not exceed, unity in age-group 0—4 in Hooghly. Again, unlike in the state, females outnumber males in the old age of 60+. The gain in sex ratio among the aged people of 60+ is almost universal, but the highly favourable ratio in Hooghly may be the consequence of, amongst others, the return flow of in-migrant labour from its industrial belt.

As already observed, the overall ratio for the total population in the district is moving upward, though at a slow pace. With the high sex ratio among infants and not-too-low ratio in the fertile age groups of 15—19, 20—24 and 25—29 the overall sex ratio is likely to improve further and at a faster pace in the coming decades. This along with the present age-structure will surely make for continued natural growth of the population in the district.

We may now turn our attention to the qualitative aspects of the population and also to the socio-economic situation in the district.

Literacy

Inspite of the high degree of urbanisation Hooghly cannot claim to be an advanced district in terms of percentage of literacy. Literacy rate (38.82%) in the district is no doubt higher than the state average (33.20%) in 1971 ; but in absolute terms, the rate is quite low especially in the rural areas (28.92%). Education had started early in Hooghly but has progressed only slowly as will be evident from the following statement.

STATEMENT VII

Percentage of literates (1901—71)

Year	Persons	Males	Females
1901	10.68	19.72	1.49
1911	11.15	19.89	2.05
1921	13.03	22.40	2.90
1931	13.98	22.78	4.00
1941	17.96	24.89	10.62
1951	25.16	35.96	12 76
1961	34.65	46.11	21.81
1971	38.82	48.33	28.21

Evidently, the year 1941 is a turning point specially for female education. Literacy among females has gone up spectacularly since then and is catching up with the rate attained by the males. The statement in the next pages will show that literacy moved upward relatively faster among females in the rural areas of the district as well as the state during the last intercensal decade. In the urban areas, on the other hand, literacy has progressed at a slow pace only for both the sexes.

STATEMENT VIII

Literacy rate in rural and urban areas, 1961 & 1971

State/District	Rural/Urban	1961			1971		
		Persons	Males	Females	Persons	Males	Females
West Bengal	R	21.64	32.86	9.93	25.72	35.80	15.02
	U	52.89	59.59	43.33	55.93	62.01	47.84
Hooghly	R	28.92	41.49	15.66	33.29	43.61	22.32
	U	51.01	57.95	41.75	54.20	64.40	46.27

It is interesting to observe that about 0.90% of the total population of the district are graduates. This works out to about 2.76% of graduates among the literates. In the urban areas the figure goes up to 4.16%.

Language, Religion, Society

Bengali is the predominant language of the district with 2,561,746 speakers. Those who returned Hindi as the mother tongue are also sizeable in number (171,390). Speakers of Santhali are the third largest linguistic group (70,802). Other linguistic groups like Urdu, Oriya and Telegu etc. are also fairly numerous in the district as are shown below :

Urdu	42,790
Oriya	12,327
Telegu	5,069
Punjabi	1,171

As expected, the speakers of languages other than Bengali are concentrated mostly in the urban and industrialised areas of Serampore, Chandernagore, Bhadreswar, Mogra, Uttarpara etc. which form part of the Calcutta Metropolitan District. The language returns in the different census years are not, strictly speaking, comparable because of grouping and re-grouping of dialects and major languages and other reasons. It may nevertheless be worthwhile to have a look at the figures for the three major languages of the district in the last three censuses.

STATEMENT IX

Three major languages of Hooghly 1951-1971

Languages	1971		1961		1951		Percentage decade Variation	
	Number of Speakers	Pereentage of total Population	Number of Speakers	Percentage of total Population	Number of Speakers	Percentage of total Population	1961-71	1951-61
Bengali	2,561,746	89.19	1,965,504	88.08	1,416,341	88.29	30.34	38.77
Hindi	171,390	5.97	129,557	5.81	107,070	6.67	32.29	18.89
Santhali	70,802	2.47	69,100	3.10	39,702	2.45	2.46	76.13

Economic activity :

Hooghly is one of the few districts of the State which have a fairly balanced economy. As already observed, it has a long history of industrialisation and organised large-scale industries occupy an important place in the economy of the district. The secondary sector is quite big and employs as much as 21·97% of the workers. The tertiary sector is no less important as it accounts for 22·05% of the employment. Agriculture is also prosperous over large areas and, as expected, remains the mainstay of more than half of the population of the district, employing 55.98% of the workers.

Labour Participation :

The rate of labour participation or the proportion of workers to total population is, however, relatively low. It was 26.98% only in 1971 as against the state figure of 27.91%. Like in the State as a whole, the rate has come down considerably in the district during the last decade. For West Bengal the rate of participation was 33.2% and for Hooghly, it was 30.5% in 1961. The downward movement is in keeping with the general pattern observed throughout the country. Low rate of growth of employment opportunities relative to the growth of population during the decade has obviously brought down the rate of participation. In this connection one has also to take into account the change in the concept of a "Worker" as adopted in 1971 from the one adopted in the preceeding census of 1961. It is generally believed that this change in definition has played a more important part in pulling down the participation rate.

It is significant that inspite of the high degree of urbanisation and industrial development labour participation in the urban areas of the district (29.31%) is at a lower level than in the State as a whole (30.12%). It was so in the preceeding census also, the State and district figures being 34.7% and 32.9% respectively. In the rural areas, too, the participation rate was lower in the district than in the State in the two census years.

The following statement shows the rate of participation in West Bengal and the district of Hooghly in 1961 and 1971.

STATEMENT X

Percentage of workers to total population : West Bengal and Hooghly

State/District	Total Rural Urban	1961			1971		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
West Bengal	Total	33·16	53·98	9·43	27·91	48·82	4·43
	Rural	32·67	53·47	10·62	27·18	48·47	5·57
	Urban	34·66	55·38	5·12	30·12	49·80	3·92
Hooghly	Total	30·52	51·09	7·46	26·98	46·98	4·77
	Rural	29·69	50·27	7·99	26·15	45·89	5·14
	Urban	32·88	53·20	5·75	29·30	49·42	3·63

The work participation rate is very low among women which is a well known fact and is universal in the country in general. If the socio-economic conditions and age-old social inhibitions have made for the low participation of females the statement also reveals that female participation is a little higher in the rural areas than in the urban areas. Here, again, it is the socio-economic conditions and the peculiar social attitudes of the urban middle classes which inhibit employment of women in economic activities.

Sectoral distribution of workers :

As already stated, agriculture is the mainstay of the people of Hooghly as of all other districts except the metropolitan city of Calcutta. The primary sector of the economy accounts for 55·98% of the total workers, the secondary sector 21·97% and the tertiary sector 22·05%. The following is the distribution of the workers by industrial categories.

STATEMENT XI

Workers in Hooghly : 1961 & 1971

	Industrial category	1971 Number of Workers	1971 Percentage to total Workers	1961 Number of Workers	1961 Percentage to total Workers
	1	2	3	4	5
	All Workers	775,132	100	681,060	100
I	Cultivators	192,476	24·83	206,138	30·3
II	Agricultural Labourers	233,682	30·15	134,188	19·8
III	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities	7,372	0·95	12,015	1·8
IV	Mining and Quarrying	413	0·05

The total number of workers in the district increased by about 94,000 or by 14% during the intercensal decade as it moved up from 681,060 in 1961 to 775,132 in 1971. There has also been a significant change in the distribution of workers between the three sectors of the economy. Agriculture, that is, cultivators and agricultural labourers taken together, accounted for 426,158 workers in 1971 as against 340,326 in 1961. In terms of percentage to total workers the share of agriculture has significantly gone up from 50.1% to 54.98% during the decade. In the agricultural sector, again, agricultural labour has come to occupy a more important position than owner-cultivators, their numbers having increased by about a lakh. Cultivators are, on the other hand, lesser in number now totalling 192,476 against 206,138 a decade back. The reversal in position is, like the decline in labour participation rate, a common finding everywhere in the country which has drawn the attention of all. The change in the definition of worker along with the categorisation of workers by labour-time disposition is believed to be an important factor behind the phenomenon. Alienation of land by small and marginal cultivators because of adversity, swelling of the ranks of agricultural labourers by the new entrants in the labour market due to lack of opportunities elsewhere, an increase in the demand for agricultural labourer due to multiple cropping and other changes in agricultural methods and practices etc. are said to be among the other reasons.

While the primary sector thrived the secondary and tertiary suffered. The share of the secondary sector came down from 25·3% in 1961 to 21·97% in 1971 and the tertiary sector slided down from 22·08% to 22·05% during the period. In terms of absolute numbers category V(b)—Household Industry which has for long been an important element in the economy of Hooghly suffered a setback, the number of workers engaged in it being 24,018 in 1971 against 28,,832 in 1961. However, manufacturing other than household industry, inspite of the industrial recession of the late sixties, employed about 7,,000 more workers in 1971 than in 1961. All the constituents of the tertiary sector, of course, added substantially to the numbers employed, though the share of the sector in terms of percentage of total employment remained close to the 1961 level.

Being endowed with a fertile soil and an extensive irrigation system (through the Damodar Valley canals) and being situated in a good rainfall zone Hooghly has an immense agricultural potential. It has made rapid

strides in the agricultural sector already with extensive and intensive production of paddy, jute, potato, and vegetables. A large part of the district is again within the Calcutta metropolitan area. With the existing industrial base and infrastructure it has further possibilities for industrial expansion. Development in the agricultural and industrial sectors will inevitably bring in changes in the demographic situation. Already the district has a sizeable population fo immigrants in its industrial belt and will attract more from the other parts of the State and also from outside as the anticipated industrial expansion materialises. Some of the future projected areas of population growth of the metropolitan district are placed in Hooghly extending from Kalyani (Nadia) to Bansberia across the Ganga and to Bandel. And metropolitan growth has to spill over to this and other districts. Hooghly is therefore poised for significant demographic changes in the coming decades especially in the last two of the century.

TABLE A-II—DECADAL VARIATION IN POPULATION SINCE 1901
APPENDIX

District showing 1961 Population according to their territorial jurisdiction in 1961, changes in area and Population of 1961 adjusted to jurisdiction of 1971

District	Area in 1971 (Sq. Km.)	1971 Population	Area in 1961 (Sq. Km.)	1961 Population according to jurisdiction prevailing in 1961	Population in 1961 adjusted to jurisdiction of 1971	Net increase or decrease between cols. 5 and 6
1	2	3	4	5	6	7
HOOGHLY DISTRICT	3,145.0	2,872,116	3,149.0	2,231,418	2,231,288	—130

Notes : The differences in area figures between 1961 and 1971 are due to revised computation.

(i) Part of the *Mauza* with J. L. No 116 of Balagarh P. S. of Hooghly District with an area of 0.80. Sq. Km. has been tranferred to Ranaghat P. S. of Nadia District.

(ii) Parts of the *Mauzas* with J. L. Nos. 113—116 and whole of the *Mauzas* with J. L. Nos. 132—134 of Balagarh P. S. of Hooghly District with an area of 5.02 Sq. Km. have been transferred to Chakdah P. S. of Nadia District.

(iii) Part of the *Mauza* with J. L. No. 135 of Balagarh P. S. of Hooghly District with an area of 0.38 Sq. Km. has been transferred to Kalyani P. S. of Nadia District.

(iv) Parts of the *Mauzas* with J. L. Nos. 28,30 and whole of the *Mauza* with J. L. No. 27 of Mogra P. S. of Hooghly District with an area of 2.29 Sq. Km. have been transferred to Kalyani P. S. of Nadia District.

(v) Parts of the *Mauzas* with J. L. Nos. 50,51,54 and whole of the with J. L. No 53 of Santipur P. S. of Nadia District with an area of 0.47 Sq. Km. have been added to Balagarh P. S. of Hooghly District.

(vi) Parts of the *Mauzas* with J. L. Nos. 187, 189, 190 and 193 of Ranaghat P. S. of Nadia District with an area of 2.70 Sq. Km. have been added to Balagarh P. S. of Hooghly District.

(vii) Parts of the *Mauzas* with J. L. Nos. 1,2,25,26,45,47, and whole of the *Mauza* with J. L. No 46 of Chakdah P. S. of Nadia District with an area of 4.85 Sq. Km. have been added to Balagarh P. S. of Hooghly District. (All the changes noted against (a) (i)-(vii) and (b) (i)-(vii) are affectedly the Notification No. 8346 L. Ref. dt. 1. 6. 61.)

(viii) Whole of the *Mauza* with J. L. No 147 of Raina P. S. of Burdwan District with an area of 6.00 Sq. Km. has been added to Arambagh P. S. of Hooghly District, Vide Notification No. 3920 P. L., dt. 26. 7. 66.

Notes: ** Uttarpara (M) and Kotrung (M) where treated as separte towns in 1901-1961 Censuses having Papulation of Persons 7,036 (Males 4,203 and Females 2,833), Persons 7,373 (Males 4,412 and Females 2,961). Persons 8,657 (Males 5,149 and Females 3,508). Persons 9,350 (Males 5,480 and Females 3,870). Persons 13,610 (Males 7,938 and Females 5,672). Persons 17,126 (Males 9,041 and Females 8,085), Persons 21,132 (Males 11,567 and Females 9,565) and Persons 5,944 (Males 3,500 and Females 2,444), Persons 6,574 (Males 4,103 and Females 2,471), Persons 6,846 (Males 4,330 and Females 2,516). Persons 7,160 (Males 4,158 and Females 3,002), Persons 9,401 (Males 5,590 and Females 3,811) Persons 14,177 (Males 8,436 and Females 5,741) Persons 31,031 (Males) 17,115 and Females 13,916) respectively. In 1971 Census these towns are merged together to form a single town Uttarpara-Kotrung (M). Combined Population of these towns have been shown against Uttarpara-Kotrung (M) for the years 1901-1961.

‡ Rishra and Konnagar was a single town 'Rishra-Konnagar' in the years 1921, 1931 and 1941 with a Popoulation of Persons 23,259 (Males 15,030 and Females 8,229), Persons 26,868 (Males 17,528 and Females 9,340) and Persons 37,432 (Males 24,837 and Females 12,595) respectively. Seperate figures of Rishra and Konnagar Towns are not available for these years.

(i) List A of Appendix-I to Table A-IV —"List of places with population under 5,000 as towns for the first time in 1971', has not been produced as no such place has been treated as town in 1971 in this district.

(ii) Appendix-II to Table A-IV "Change in area and population of towns between 1961 and 1971 reason for the change in area" has not been produced as there has been no change in area of any town in this district between 1961 and 1971.

		Age not stated	M	15	5	10	..	..	..	..	..
			F	5	5	..	..	..	..	..	..

Notes :

1. Figures of unclassified marital Status are included in "Total".
2. All duration include figures for "Period not stated" and as such will not tally with the "Total" of figures under "less than one year", "1—9 years" and "10 years and above".
3. Figures for unclassifiable last place of residence are included in "Total" for rural and whereas for urban these figures are included in Section B—"Out-side India".
4. N. M. Stands for Never married.
   M. Stands for Married.
   W. & D. Stands for Widowed and dirorced.

SECTION-C

NON-CENSUS TABLES

LIST OF TABLES ON ADMINISTRATIVE, WELFARE AND DEVELOPMENTAL STATISTICS

Sl. No.	Table reference number	Title	
		HOOGHLY DISTRICT	
1	1. 01	Minimum and maximum temperature by month during 1961-71 at various stations (for which data are available from the Director General of Meterological Survey of India/Director General of Observatories)	
2	1. 02	Rainfall statistics – district and taluk average in mm. by months and years	
3	2. 01	Major events of the decade (1961-70)	N.A.
4	3.102	Length of roads (by nature of materials) as maintained by Public Authorities (a) P.W.D. and other Govt. Deptts. and (b) Local Bodies	
5	3.103	Major roads, 1970	N.A.
6	3.104	Village roads 1970 (for Hilly district and districts under developed from the point of view of transport and communication)	N.A.
7	3.106	Polymetric table of distances (in km.) of towns, markets and other important places on the national highway	N.A.
8	3.107	Polymetric table of distances (in km.) of towns, markets and other important places on the district road	N.A.
9	3.108	Bus routes, 1970	
10	3.110	Circuit Houses/Inspection Bunglow/Travellers Bunglow/Tourist Home/Youth Hostel maintained by P.W.D., Ministry of Tourism and Civil Aviation, Local Bodies etc.	
11	3.111	Railway Stations in the District, amenities provided and distance from district and State headquarters (New Railway Stations opened during the decade may be shown by asterisk mark)	
12	3.201	Sources of irrigation	N.A.
13	3.202	Irrigation projects with particulars of capacity and water spread areas 1970	
14	3.203	Gross area (by crops) irrigated (in acres)	N.A.
15	3.206	Towns and Villages connected by electricity	
16	3.401	Banks and their branches, 1970	
17	3.501	Medical and Public Health Institutions	
18	3.501 (a)	Hospitals/Dispensaries & related statistics, 1970	
19	3.502	Medical and para-medical personnel	N.A.
20	3.504	Public Health Activities (Vaccination, malaria control, B.C.G.)	
21	3.506	Drinking Water	
22	3.506 (a)	Towns/villages by sources of drinking water as in 1969-70	
23	3.506 (b)	Details of Implementation of protected water supply schemes during the decade (1961-70)	N.A.
24	3.601	Primary, Secondary, Higher Secondary and other Non-collegiate Educational Institutions together with the strength of pupils	
25	3.601 (a)	Primary, Secondary, Higher Secondary and other Non-collegiate Educational Institutions together with the strength of teachers	

LIST OF TABLES ON ADMINISTRATIVE, WELFARE AND DEVELOPMENTAL STATISTICS—*contd.*

Sl. No.	Table reference number	Title	
		HOOGHLY DISTRICT	
26	3.602	Collegiate and Technical Institutions (including Arts, Science, Commerce, Industrial Schools, Fine Arts, Architecture, Agriculture, Music & Dance etc) together with the strength of teachers and students	N.A.
27	3.603	Students appeared and passed in High/Higher School Leaving/ Matric Examination	N.A.
28	3.604	Library and Reading Room facilities in the district	N.A.
29	3.706	Newspapers, magazines and periodicals published in the district	N.A.
30	3.707	Printing presses	N.A.
31	4.101	Land use pattern as in 1969	N.A.
32	4.102	Single and Double cropped area	N.A.
33	4,103	Area and out-turn of principal crops	
34	4.104	Crop and irrigation	N.A.
35	4.108	Total, Rural and Urban population per 100 acres of area under foodgrains and net area shown during last five decades	N.A.
36	4.109	Density of cultivators and agricultural labourers per 100 acres of net area shown in 1951, 1961 and 1971	N.A.
37	4.110	Rainfall area shown and irrigated, density in 1970	N.A.
38	4.114	Agricultural tools and implements (Give local names by the side of English equivalent in each case)	
39	4.201	Livestock and poultry	N.A.
40	4.202	Animal husbandary and poultry farms managed by Govt. Deptts., co-operatives, public institutions (*e.g.* agricultural university)	N.A.
41	4.204	Veterinary Institutions	
42	4.207	Livestock morbidity/mortality by diseases	
43	4.302	Fishing centres, landing places and number of fishing boats according to size as on 31. 3. 1970	N.A.
44	4.401	Forest area by category of control	N.A.
45	4.404	General progress of afforestation (000 Sq. Km.)	N.A.
46	4.405	Forest Coupes	N.A.
47	4.406	Major and minor forest products	N.A.
48	4.501	Mines	
49	4.503	Plantation, Plant-Tea/Coffee/Rubber/others (specify)	N.A.
50	4.702	Joint stock companies as on 31. 3. 70	
51	4.703	Ware-house and cold storage	N.A.
52	4.704	Hats and markets	
53	4.705	Number of shop-*cum* residence, business and commercial houses in 1970 (on basis of houselist)	N.A.
54	5.101	Land revenue/Rent Demand and collections	
55	5.102	Land tenure system and reform, 1950—70	N.A.
56	5.103	Consolidation of holdings	N.A.

LIST OF TABLES ON ADMINISTRATIVE, WELFARE AND DEVELOPMENTAL STATISTICS—*concld.*

Sl. No.	Table reference number	Title	
		HOOGHLY DISTRICT	
57	5.104	Survey and settlement operations during the decade (1961-70)	N.A.
58	5.105	Ceiling on holdings	N.A.
59	5.108	Distribution of holdings by size group as on (latest available figures)	N.A.
60	5.303	Number of co-operative societies, numbership, share capital, working capital, loans advanced and loans recovered by co-operative societies	N.A.
61	5.401	Family Planning Centres	
62	5.502	Convicts by nature of crime, age-group and education in 1970	
63	5.601	Civil Justice	
64	5.701	Machinary for maintenance of law and order—Police Stations/Out Posts in the district	
65	5.702	Strength of Police force in the district during 1961-70	
66	5.703	Jails	
67	5.901	Excise and Motor spirit tax	N.A.
68	5.902	Receipt of Sales Tax, Fntertainment Tax and Stamps	N.A.
69	6.101	Local bodies and organs of democratic decentralisation	
70	6.102	Composition of Zilla Parishads/District Board/Panchayat Samity/ Gram Panchayat/Municipality/Municipal Corporation	
71	6.103	Receipt and expenditure of Zilla Parishad/District Board	
72	6.104	Receipt and expenditure of Panchayat Samities yearwise 1961-1970	N.A.
73	6.106	Receipt and expenditure of Gram Panchayats	
74	6.202	Income & expenditure of Municipalities yearwise
