LAKSHMI CHANDRA VASHISHTA

PREFACE.

The District Census Handbooks have been compiled in pursuance of Govt. of India letter No. 51/2/51-RG, dated 16-3-51 and para 5 of the Memorandum No. 693/50-RG, dated 2-7-50 at pages 1—3 of the Tabulation Plan.

The District Census Handbook is a collection of the following data :—

1. Introduction which deals with the following items :—
   - (a) Physical Aspects.
   - (b) Geology.
   - (c) Archaeology.
   - (d) Climate.
   - (e) Rainfall.
   - (f) History.
   - (g) Population.
   - (h) Administration.
   - (i) Medical and Public Health.
   - (j) Education and Literacy.
   - (k) Agriculture and Co-operation.
   - (l) Industries.
   - (m) Local Bodies.
   - (n) Rehabilitation of Displaced Persons.
   - (o) Places of Interest.

2. District Census Tables (furnishing with break-up for census tracts, within the district). In case of Hissar District, there are five Tahsils Rural Tracts (Hissar Tahsil Rural Tract, Hansi Tahsil Rural Tract, Bhiwani Tahsil Rural Tract, Fatehabad Tahsil Rural Tract, and Sirsa Tahsil Rural Tract) and one District Hissar Non-City Urban Tract. There are the following tables for the Hissar District :—

A-I	...	Area, Houses and Population.
A-II	...	Variation in population during fifty years.
A-III	...	Towns and villages classified by population.
A-IV	...	Towns classified by population with variation since 1901.
A-V	...	Towns arranged territorially with population by livelihood classes.
B-I	...	Livelihood Classes and Sub-Classes.
B-II	...	Secondary means of livelihood.
B-III	...	Employers, Employees and Independent Workers.
C-II	...	Livelihood Classes by age group.
C-III	...	Age and Civil Condition.
C-IV	...	Age and Literacy.
C-V	...	Single year age return.

D-II	...	Religion.
D-III	...	Scheduled Castes and Scheduled Tribes.
D-IV	...	Migrants and Subsidiary
D-V	...	Displaced persons by district of origin, and date of arrival in India.
D-VI	...	Non-Indian Nationals.
D-VII	...	Livelihood classes by educational standards.
E	...	Summary figures by districts.
		District Index.
		Sorter's Ticket 2.

3. Census Abstracts :--

(1) Primary Census Abstracts.

(2) Census Abstracts of Small Scale Industries.

Most of the sections dealt with in the introduction are based on the relevant accounts given in the District Gazetteer concerned, but have been carefully brought upto recent date, utilizing the information supplied by the District authorities in their Introductory Note for which I offer them my warmest thanks.

LAKSHMI CHANDRA VASHISHTA

HISSAR DISTRICT.

PHYSICAL ASPECTS.

The old District of Hissar covered an area of 5220.47 square miles. Under the (Absorption of Enclaves) Order, 1950 it has lost 15 villages with an area of 53.87 square miles to District Bhatinda (PEPSU) and has gained the Loharu state with an area of 222 square miles. The present day Hissar District, therefore, has a total area of 5388.6 square miles. It lies between north latitude 28° 23′ and 29° 59′ 30″ and east longitude 74° 28′ 25″ and 76° 19′ 20″.

It is bounded on the south by the territory of PEPSU, on the east by the District of Rohtak and territory of Jind and Patiala of PEPSU, on the north by the Ferozepur District and on the west by the prairies of Bikaner (Rajasthan).

It is thus completely surrounded by the PEPSU and Rajasthan territory except where it touches the District sof Rohtak and Ferozepur. The district is divided into five tahsils Hissar, Hansi, Bhiwani, Fatehabad and Sirsa and three sub-tahsils, Tohana, Dabwali and Loharu.

The general aspect of the district may be described as a level plain or prairie, stretching from the north-west to the south-east, and unbroken by any natural irregularity, except in the south-western corner, where some of the detached peaks of the Aravalli range stand out against the horizon. The soil of the district changes gradually from light sand on the western border to a firm loam on the confines of Rohtak, Jind and Patiala.

In accordance with local usage and phraseology the whole area of the district may be divided into four parts. At the northern extremity of the district we have the Rohi of Sirsa; south and south-west of this the Bagar of Sirsa, Fatehabad, Hissar and Bhiwani, west of this again comes the tract known as Hariana, which extends over all the four southern tahsils of the district. Stretching to a short distance on either side of the Ghaggar stream which flows in an easterly direction across the northern part of the Hariana of Fatehabad and the Sirsa Bagar, lies the tract known as the Nali.

---

1. Reproduced from the Hissar District Gazetteer, 1904, Page 2.

GEOLOGY.

The District being level and sandy, has no feature of outstanding importance.

ARCHAEOLOGY.

The district abounds in Musalman tombs and mosques. There are also numerous architectural remains of undoubted Hindu origin which show that long prior to the Musalman conquest the tract was the scene of a vigorous Hindu civilization.

CLIMATE.

Hissar is situated in that part of India which is know to the Meteorological Department as the North-west Dry Area. The temperature varies from a mean minimum of 43. 1. F. in January to a mean minimum of 83. 1 in June, while the mean maximum varies from 71. 0 in January to 107. 2 in May. Taken as a whole, the climate is healthy and supportable, and from the beginning of November to the end of February it is probably the most perfect climate in the world. During these months fires are very acceptable at night, but the days are neither too hot nor too cold.

RAINFALL.

Rainfall in this district is scanty and uncertain. The yearly average rainfall for the decade ending 1910-19 is shown below for the five tahsil towns of the district.

		Inches.
Hansi	...	17.66
Hissar	...	16.77
Bhiwani	...	16.20
Fatehabad	...	14.30
Sirsa	...	11.14

The rain fall varies from year to year and from place to place in the district.

HISTORY.

Hissar district takes its name from the town of Hissar which is the head quarters of the local administration. It was founded by the Emperor Feroz Shah Tughlak, in the fourteenth century, and named after him 'Hissar Feroza' the fort of Feroz. The name was consequently contracted to Hissar.

---

1. Reproduced from the Hissar District Gazettee, 1904. Page 16.

In the reign of Akbar it was a place of considerable importance, it was the head quarters of the revenue division or "Sirkar" of Hissar Feroza, itself a sub-division of the metropolitan Subahor province of Delhi The latter embraced the whole of the present district, inclusive of the Sirsa tahsil, and parts of the modern Rohtak district, and of territory now included in Bikaner and PEPSU.

With the accession of Ahmad Shah in 1748 the present Hissar district became the scene of a sort of triangular duel between the sturdy Sikhs of the north-east, the marauding Bhattis of the north and north-east and Musalmans of the south, which reduced the district to an uninhabited waste. The district fell to the British by the treaty of Sarji Anjangaon in 1803.

Although the territory included in the present district had been formally ceded by treaty in 1803, yet the hold of the Mahrattas in the country had been, to say the least, of a very slight and doubtful character, and for many years the authority of the British was little more than nominal, and no steps were taken to define its boundaries. Steps were ultimately taken to consolidate British rule in the territory and to form the district of Hissar with boundaries which lasted till the passing of (Absorption of Enclaves) Order, 1950, by which the State of Loharu has been merged in the district and 15 villages taken away from it.

POPULATION.

The population of the district as censused in 1951 is 1,045,645. The datail of the population, tahsilwise, is given below:—

Hissar	232,568
Hansi.	236,792
Bhiwani.	209,369
Fatehabad.	145,634
Sirsa.	221,282
TOTAL.	1,045,645

The following table shows the variations in population of the district during the past 60 years:—

Year	Persons	Variation	Net Variation
1891	775,896	...	...
1901	781,589	+5,693	...
1911	804,889	+23,300	...
1921	816,810	+11,921	...
1931	899,479	+82,669	...
1941	1,006,709	+107,230	....
1951	1,045,645	+38,936	+269,749

1. This account has been taken from the Hissar District Gazetteer, 1904.

Among the 13 districts of the Punjab, this district stands 7th in order of population.

The density per square mile of the district is 194. The following table shows the density per square mile in the district since 1901.

Year.	Density.	Year	Density.
1901	150	1931	172
1911	154	1941	193
1921	157	1951	194

The following table gives the pattern of livelihood of the population of this district:—

	Livelihood class.	Persons.
I.	Cultivators of land wholly or mainly owned and their dependants.	463,544
II.	Cultivators of land wholly or mainly unowned and their depnedants.	274,510
III.	Cultivating labourers and their dependants.	45,160
IV.	Non cultivating owners of land, agricultural rent receivers and their dependants.	01,486
V.	Production other than cultivation.	56,107
VI	Commerce.	84,892
VII	Transport.	8,437
VIII.	Other services and miscellaneous sources	102,509
	TOTAL	1,045,645

ADMINISTRATION.

The Deptuy Commissioner is the executive head of the district He is assisted by an Additional District Magistrate, a Treasury officer and a Revenue Assistant. The district is divided into five tahsils for administrative purposes. Each tahsil is under the general executive control of a Tahsildar, assisted by a Naib tahsildar.

The District and Sessions Judge is the administrative head of the Judicial work in the district. For civil work there is a senior Sub-Judge and 1 Sub-Judge. For Criminal work there are 5 Magistrates Class I. The Tahsildars and Naib Tahsildars also exercise magisterial powers of second and third class respectively.

The Superintendent of Police is incharge of the Police strength. He is assisted by Deputy Superintendent of Police and Police Inspectors.

MEDICAL AND PUBLIC HEALTH.

The Civil Surgeon supervises the hospitals and dispensaries throughout the district. A dispensary has been opened in each of the important towns in the district, viz., Hissar, Sirsa, Bhiwani, Fatehabad etc. There are 3 Health Centres, one each in Hissar, Bhiwani and Sirsa, where *dais* are traind. There is also an Infant Welfare Centre at Hissar.

EDUCATION AND LITERACY.

The total number of Schools in the district is 444. Out of these, there are 21 High, 84 Middle and 339 Primary Schools. 384 Schools in the district are run by the District Board, 5 by Government, 23 by the Local Bodies and 13 by Privately managed bodies. There are only 19 un-recognised Schools in the district. Besides there are 4 Colleges in the district.

According to 1951 Census the percentage of literates in this district is 15.8 (males) and 6.2 (females).

AGRICULTURE AND COOPERATION.

Greater part of the district is desert and rain fed. Famines are of frequent occurrence due to uncertain rains. Part of the district is irrigated by Western Jumna canal. Sub-soil water being saline and unfit for irrigation purposes, well-irrigation is done on a very limited scale. Considerable area is flooded by the Ghaggar river, which produces good rabi crop. However, the floods in the Ghaggar are diminishing year by year on account of the gradual deepening of its bed. Floods now come only in years of abnormally heavy rains. The soil in the Ghaggar tract is very hard and does not permit of cultivation unless flooded. Diminution in floods has, therefore, resulted into this tract having come to bear a very unattractive look. A portion is also irrigated by Ghaggar and Sirhind Canals.

All types of soils ranging from sandy to heavy clay are found in the district. The total area available for cultivation in the district is 2,484,521 acres.

Major crops of the district are juar, guara, bajra, wheat, cotton, sugarcane, barley, and grams. In years of good rainfall, bajra and gram are sown over large areas and bumper crops are obtained. Wheat, cotton and sugarcane are grown under irrigated condition.

COOPERATION.

There are 659 co-operative societies of all types in this disirict having 18,199 members. Average membership comes to 28 per society which is fairly high in a backward district like Hissar.

Various types of co-operative societies are given below:—

Type of Society.	*Number.*
Central Credit Societies.	
Banks. ...	3
Jat Madhosinghana Union. ...	1
Agricultural Societies.	
Credit Societies. ...	405
Multipurpose Societies. ...	43
Commission shops ...	2
Agricultural store. ...	1
Cattle breeding. ...	45
Veterinary First Aid. ...	32
Sheep breeding ...	1
Better farming. ...	11
Cane crushing. ...	7
Non-Agricultural Societies.	
Credit. ...	20
Multipurpose. ...	13
Purchase and Sale. ...	11
House building. ...	1
Transport. ...	1
Press. ...	1
Thrift. ...	40
Education. ...	3
Medical aid. ...	3
Better living. ...	15
TOTAL.	659

INDUSTRIES.

There are 36 factories in the district which are registered under the Indian Factories Act, as below:—

Cotton ginning.	29
Cotton spinning and weaving.	2
Engineering.	1
Bobbin.	2
Locomotive workshop (B. B. & C. I. Railway).	1
Government Cattle Farm.	1

The department of Industries is runing Vocational Training Central Government Industrial School, work centre, and a Demonstration Party in the trade of cotton weaving in the district.

Cotton Handloom weaving, Hand spinning, Tanning saltpetre industry, Ink-making, and Glue making are the important cottage industries of the district.

LOCAL BODIES AND PANCHAYATS.

There is District Board, 4 Municipal, 3 Notified Area and 3 Small Town Committees in the district.

The district is divided into two centres, each under a Panchayat Officer with head quarters at Hissar and Sirsa. The Panchayat Officer Hissar controls the Panchayats in Hissar, Hansi and Bhiwani tahsils, while the Panchayat Officer Sirsa controls those in Fatehabad tahsil. There are 515 Panchayats is the district (Hissar-99, Hansi-100, Bhiwani-99, Sirsa-117 and Fatehabad-100).

REHABILITATION OF DISPLACED PERSONS.

According to 1951 Census, 127,657 displaced persons have settled in this district, 62% in rural areas and 38% in urban areas.

The area abandoned by the evacuees (646,533 acres) has been allotted to the displaced persons on quasi-permanent basis.

A large number of the land allottees of this district are non-self-cultivators. After the migration of the Muslims a very large percentage of whom belonged to the cultivating class-there has been a decrease in the number of ploughs in the district. Even those of the displaced land holders who are accustomed to self-cultivation, have not so far been able to acquaint themselves with the mode of cultivation used in a rain-fed district, as Hissar is.

The displaced population are, however, very enterprising intelligent and enlghted. The out-standing characteristics of them and those of the local populace, are also active in the process of inter-action. It is confidently hoped that, with the lapse of time, a very healthy social standard will come out as a result of the combination of the simple-mindedness and conservative bent of mind of the local and the drive and energy of the displaced population. It is gratifying to note that the relations between these two sections of the people here have been far from unsatisfactory.

A sum of Rs. 919,146/- has been advanced as loans for the rehabilitation of displaced traders. A new township has been located at Hissar on mile 2 Hissar Delhi Road, where 390 sites of various sizes have been laid out. A sum of Rs 310,000/- has been advanced as loans to the displaced persons to construct houses on these plots. 30 Model houses are under construction in the colony

at State expense, which on completion, will be put to auction to displaced persons. Nearly 3600 displaced persons have been accommodated in 684 mud huts. Cheap housing colonies consisting of 400 houses each at Hissar and Bhiwani are under construction. There are work centres for weaving, where 49 displaced persons are employed. There is a vocational centre at Hissar, where training in Khadi work is given to a dozen displaced persons. 160 shops constructed in 1950 by Government have been allotted to the displaced shop-keepers.

PLACES OF INTEREST.

Hissar Town. The town is completely surrounded by an old wall with four gates. The chief objects of antiquarian interest are the Jama Masjid, the remains of Feroze Shah's Palace, and the Baradari in the Gojri Mahal outside the Fort. It is the headquarters of the District.

Hissar Cattle Farm. It is the biggest Government Cattle Farm in the Punjab or perhaps in Northern India. The area with in its limits is 40,663 acres. Horses, sheep, goats, mules, cows, and bulls are bred here. The bulls produced here are of the finest quality.

Hansi. It lies on the Western Jumna Canal on the Delhi Sirsa Road, 16 miles to the east of Hissar. The town is surrounded by a big wall with several gates. To the north of the town lies the fort on a huge mound, which is now in ruins.

Bhiwani. It is a prosperous town with two big cloth mills, various hospitals and colleges for boys and girls. It is the head quarters of the Bhiwani tahsil. It is the wealthiest town in the division and next to Ambala in population.

Roads here are second only to those in Ambala Cantonment in the whole of the Ambala Division. Lately, Seth Kirori Mal has built a very good temple with a cost of over 10 lakhs. This is really worth seeing. Bhiwani has a very good library just across the road and apposite the Voish College building, and good Municipal Park and two good clubs. Seth Kirori Mal is doing a lot to increase the social amenities of the town.

Tosham. The Tosham rock is situated 16 miles to the north of Hissar in Bhiwani tahsil. The summit is surrounded by an ancient fort. Two interesting antiquities are to be seen in the neighbourhood of Tosham, one is a *baradari* on a small hill near the town which is popularly called Prithvi Raj's Kachery. The other

is a Sanskrit inscription on a rock on the face of the hill to the west of the town. There are *kunds* or water reservoirs on the rock which are regarded as holy by the Hindus.

Fatehabad. It is the headquarters of the tahsil Fatehabad. The fort here contains a lat or pillar erected by Feroze Shah and bears an inscription in Persian giving an account of the Tughlak family. The pillar appears to be of Hindu origin as there is on it part of an inscription in Sanskrit.

Agroha. It lies about 12 miles to the north west of Hissar on the Delhi-Sirsa Road. Near it is a large mound surmounted by a brick built fort with four bastions connected by curtains said to have been built by Agar Sain, the founder of the Aggarwal Clan. Excavation made in the mound in 1889 and there after brought to light fragments of sculpture and immages. Bricks of all sizes and coins have also been found here.

Sirsa. It is the headquarters of the Sirsa tahsil. A little away from the town is an old Fort in ruins.

Ottu Lake. This lake is a sort of 'bend' on Ghaggar river at a distance of 9 miles from Sirsa. It commands a beautiful view and is a famous hunting place. Two streamlets take off from this place and irrigate the surrounding area when water in the Ghaggar river ebbs.

——:o:——

STATEMENT EXPLAINING THE TABLES

Appearing in a District Census Handbook.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :-

1. *Substitution of Economic Classification for clasification based on Religion* :—In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operations ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population .—

AGRICULTURAL CLASSES

I. Cultivators of land wholly or mainly owned and their dependants

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land ; agricultural rent receivers and their dependants.

NON-AGRICULTURAL CLASSES

Persons (including dependants) who derive their principal means of livelhood from : —

V. Production other than cultivation.

VI. Commerce.

VII. Transport.

VIII. Other services and miscellaneous sources.

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. *The Concurrent 10% Sample :*—The Age (Sample) Tables have been prepard from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. *Preservation of CensusRecords and Registers :*—In the past, the abstract, (first prepared in the process of sorting and compilation) was used for compilng village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following data are included in the District Census Handbook and printed as such :—

I. Introduction to the Distract Census Handbook.

II. District Census Tables (furnishing district data with break up for Census tracts, within the district).

III. Census Abstracts, (a) Primary Census Abstracts (b) Occupational Abstracts and (c) Census Abstracts of Small scale industries.

The following tables have been included in the Handbook.

A.—GENERAL POPULATION TABLES

I. *Area, Houses and Population.* The area figures given in this table have been supplied by the Dupty Commissioner of the district and hence do not tally with the area figures maintained by the Survey Deptt: No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table).

II. *Variation and Population during fifty years* (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of areas transferred to and or from each tahsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941).

III. *Towns and Villages Classified by Population.*

1V. *Towns Classified by Population with Variation since 1901*

V. *Towns Arranged Territorially with Population by Livelihood Classes.* (In this table figures for livelihood classes I to 111.. have not been given separately but have been clubbed together)

B—ECNOMIC TABLES.

I. *Livelihood Classes and Sub-Classes* (Non-earning dependants in this table mean economically passive persons i.e. who do not earn anything ; and earning dependant implies a person who is semi-active, i.e. whose earnings do not suffice his living and who has, therefore, to depend upon others ; self-supporting persons means economically active persons i.e. who do not depend upon others; and are at least able to maintain themselves.

II. *Secondary means of Livelihood.* (Non earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases the second best source of income has been given in this table as his secondary means of livelihood.)

III. *Employers, Employees and Independant Workers* (The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant Workers and are distributed in the various divisions and sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive e.g. persons living principally on pensions, remittances, scholarship and funds, inmates of jails, asylums, almshouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self-supporting person falls).

C—HOUSEHOLD AND AGE (SAMPLE) TABLES.

I. *Household (size and composition)* This table has not been pubsished in the handbook.

II. *Livelihood classes by age Groups.*

III. *Age and Civil Condition.*

IV. *Age and Literacy.*

V. *Single year Age returns.* (Infants below 1 year of age have been shown under the age '0')

D—SOCIAL AND CULTURAL TABLES.

I. *Language.* This table has not been published in the handbook.

II. *Religion.*

III. *Scheduled Castes and Tribes.* (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. *Migrants.* (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district).

V. *Displaced Persons.* (For Census purposes, a displaced person was taken to mean "any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan." But some persons, who had migrated to India from Western Pakistan even before 1st March, 1947, returned themselves as displaced persons at the time of Census taking for the simple reason that they had left their immovable property in Pakistan: such persons have also been included in the definition of 'Displaced Persons'.)

VI. *Non-Indian Nationals.*. (This table was not prepared in the previous censuses; it has been based on a suggestion made by the U. N. Population Commission.)

VII. Livelihood Classes, by Educational Standards. (This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes).

E—SUMMARY FIGURES BY DISTRICTS.

(This table furnishes selected data by Tahsils/tracts in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves).

TABLES

OF THE

HISSAR DISTRICT CENSUS

1951

DISTRICT HISSAR
