TERRA-COTTA MEDALLIAN

The motif depicts a Terra-Cotta Medallian, which on one side reveals a lion with Bharat counting its teeth and on the reverse side, the ancient 'Triratna' and 'Srivatsa' motifs are displayed. The Medallian belongs to a period preceding the Kushana age. It may be even placed in Sunga period and thus it may be about two thousand years old. In any case it belongs to pre-Gupta age and was discovered in tahsil Shahabad of District Hardoi. It is at present maintained in the private collections of Dr. Jagdish Gupta, Reader, Hindi Department, University of Allahabad.

Tahsilwise Abstract of Educational, Medical and other Amenities given in Village Directory	204–205

ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the Village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises non-Census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitute to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this state. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Census Officers for their whole hearted co-opration in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements, made by Sri A. Dar, Superintendent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, In-charge New Government Press Aishbagh, Lucknow, has also been extremely helpful in bringing out the maps.

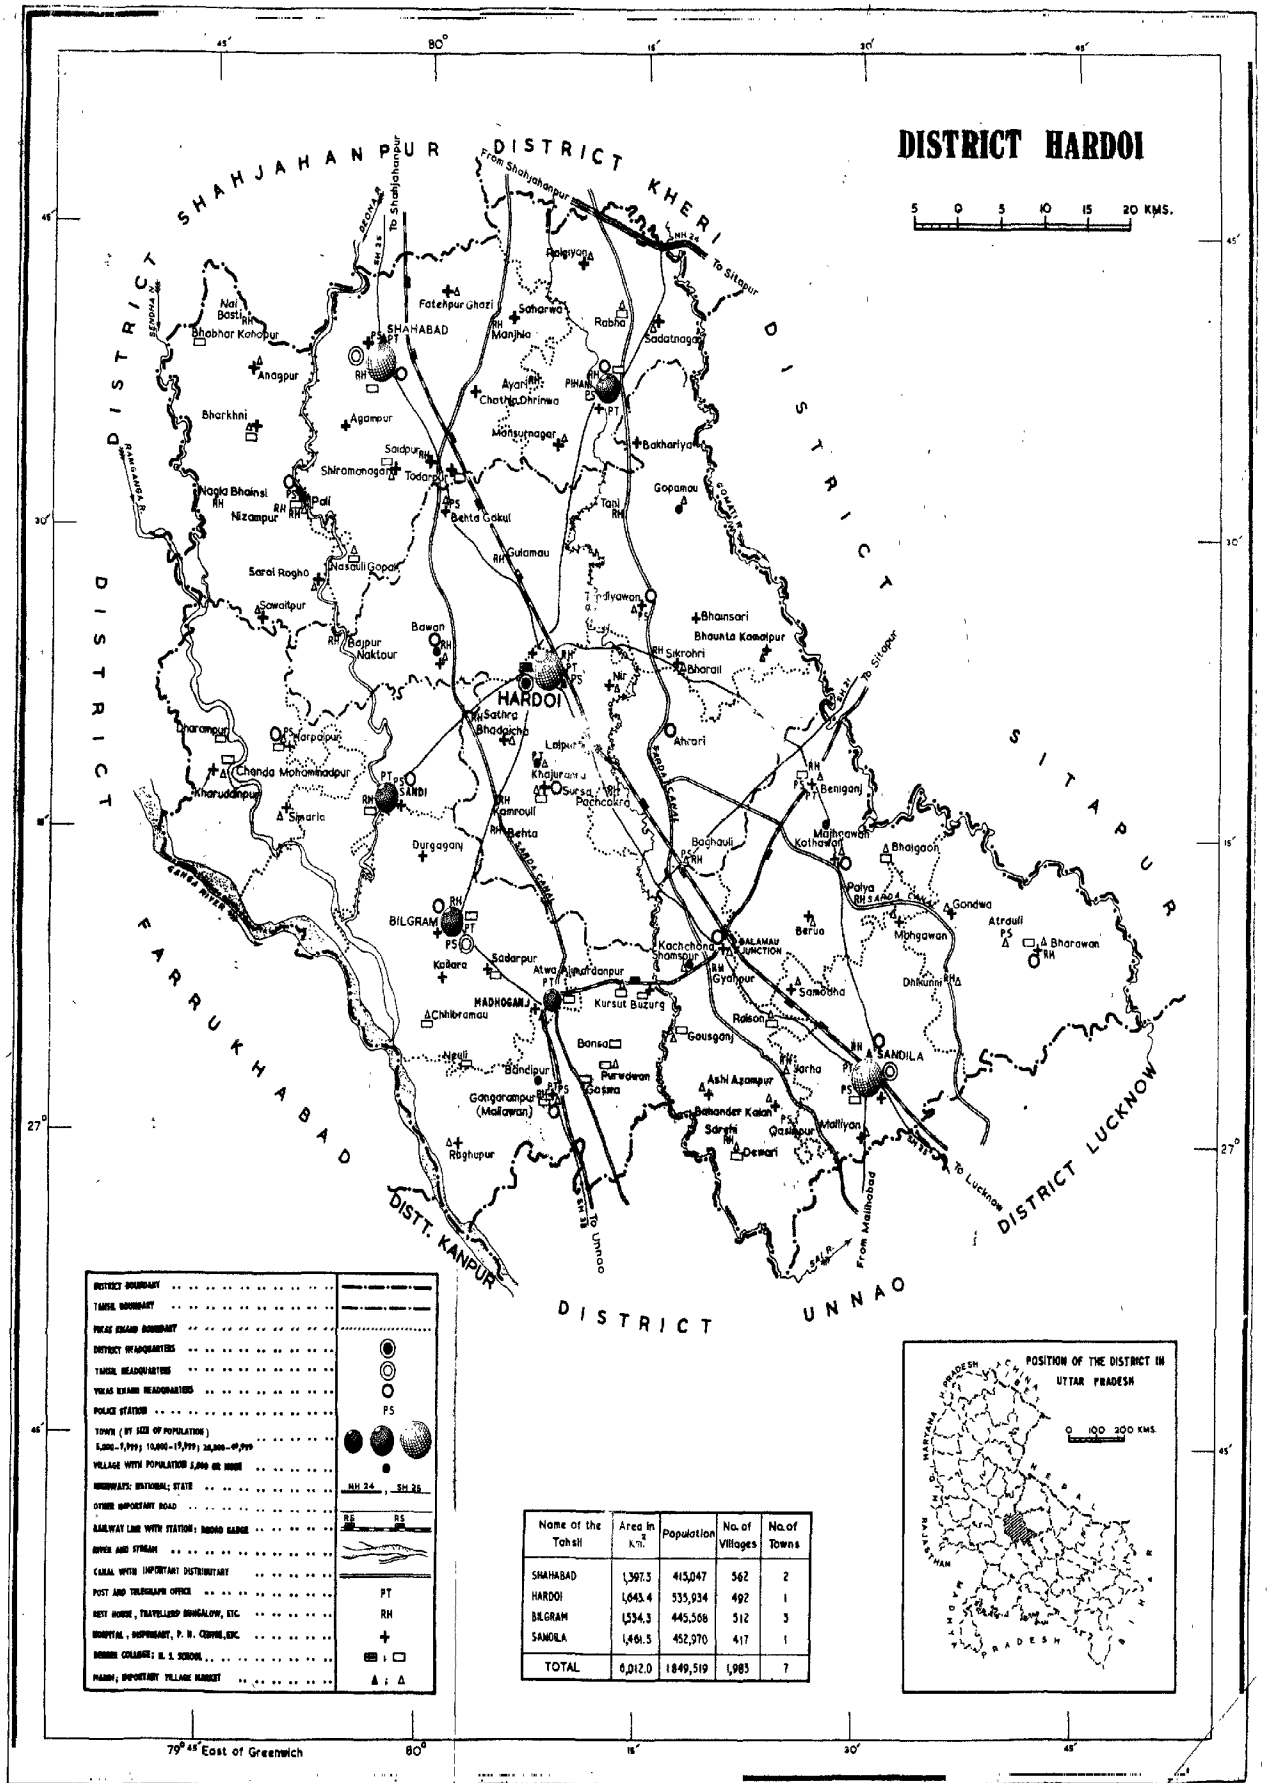

In the Census Office everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Shri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations
Uttar Pradesh.

Lucknow
Dated : October 3, 1972.

PSUP-60 Census 26.3.73. 3,000 (Offset)

INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and non-Census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being Published separately into three Parts.

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Education facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and livestock etc., in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. **Town Directory**—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three under mentioned conditions :
   (i) Population exceeds 5,000.
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons per sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) **Statement I**—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications :

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry-Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII, and
(x) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60%

or above, the town is designated as bifunctional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The altitudes of the towns given in col. 3 have been supplied by the Surveyor General of India.

(c) **Statement III**—It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col. 3	PR	.....	For	Pucca Road
	KR	.....	,,	Kachcha Road
Col. 4	PT	... ..	,,	Pit Tank
	OSD	... ..	,,	Open surface drain
Col. 8	B	.. ...	,,	Basket
	HC	... ..	,,	Hand Cart
	HL	.....	,,	Head Load
	MT	.....	,,	Mechanical Transport
Col. 9	TW	.....	,,	Tube well
	OHT	.....	,,	Overhead Tank

(e) **Statement V**—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col. 3	H	.....	For	Hospital
	D	...	,,	Dispensary
	HC	.....	,,	Health Centre
	FC	.....	,,	Family Planning Centre
	TBC	... .	,,	T. B. Clinic
	MCW	.....	,,	Maternity and Child welfare Centre
Col. 5	AS	.....	,,	Arts and Science College
Col. 17	PL	.....	,,	Public Library
	RR	.....	,,	Reading Room

(f) **Statement VI**—This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit socities are given in the statement. The commodities mentioned

therein are those having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) **Statement VII**—The census table C–VII given distribution of population by religion and scheduled castes/schedule tribes has been reproduced in this statement. While sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others'.

(5) **Village Directory**—reveals the general living conditions of peasantry and the overall development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water, communications, Post and telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/hat and places of religious, historical or archaeological interest is also given in the statement. If the village is un-inhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations :

In Column 4

JBS	for	Junior Basic School
SBS	,,	Senior Basic School
HSS	,,	Higher Secondary School
C	,,	College
O	,,	Others

In Column 5

H	for	Hospital
D	,,	Dispensary
FC	,,	Family planning Centre
HC	,,	Health Centre
MCW	,,	Maternity & Child welfare Centre
O	,,	Others

In Column 6

E	for	Electricity

In Column 7

T	for	Tap
HP	,,	Hand Pipe
W	,,	Well
WB	,,	Well with Electricity
TK	,,	Tank
R	,,	River
F	,,	Fountain

C for Canal
WF ,, Waterfall
L ,, Lake
TWE ,, Tube-well with Electricity
O ,, Others

In Column 8

KR for Kachcha Road
PR ,, Pucca Road
T ,, Train
CR ,, Canal Road
R ,, River
C ,, Canal

In Column 9

PO for Post Office
TO ,, Telegraph Office
PTO ,, Post and Telegraph Office
Phone ,, Telephone

In Column 12

T for Total
C ,, Canal
W ,, Well
WE ,, Well with Electricity
TW ,, Tube-well
TWE ,, Tube-well with Electricity
TK ,, Tank
R ,, River
WF ,, Waterfall
L ,, Lake
F ,, Fountain
O ,, Others

In Column 18

T for Temple
M ,, Mosque
C ,, Church
G ,, Gurudwara
HP ,, Historical Place
RP ,, Religious Place
A ,, Archaeological monument
EA ,, Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil wise break up.

THE DISTRICT

A–Town Directory

(a) Statement I

Hardoi district has 7 towns, namely Bilgram, Pihani, Hardoi, Shahabad, Sandila, Sandi and Madhoganj. In 1961, there were six towns in the district and Madhoganj has now been added to the list. The functional distribution of the towns is as below :

Table I

Functional Category	Name of Towns
Primary Activities	Bilgram Pihani
Services-*cum*-Commercial-*cum*-Industry	Hardoi
Primary Activities-*cum*-Services-*cum*-Commercial	Shahabad
Industry-*cum*-Services-*cum*-Commercial	Sandila
Primary Activities-*cum*-Commercial-*cum*-Industry	Sandi
Commercial-*cum*-Services-*cum*-Industry	Madhoganj

It can be seen from the above table that two towns viz. Bilgram and Pihani are mono-functional (Primary activities) with percentages 51·2 and 47·6 respectively. Hardoi, Madhoganj Sandi, Sandila and Shahabad are multi-functional towns. Among these towns, Primary Activities predominates in Shahabad and Sandi with precentages 39·95 and 35·02 respectively. Service class (34·86%) predominates in Hardoi while Industry (28·97%) and Commerce (28·05%) respectively in Sandila and Madhoganj.

(b) Statement II

The physical and locational aspects have been covered in this statement. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi so the information given in Col. 4-6 relates to the nearest observatory in the adjoining town Hardoi.

(c) **Statement III**

The per capita receipt and expenditure by the local bodies in the seven towns is as below :

Table 2

(*Figures in '00 Rs.*)

Class of towns	No. of towns	Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total receipt	Receipt through taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health & conveniences	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class III 20,000 to 49,999 Hardoi, Sandila and Shahabad	3	17.61	8.65	9.16	18.30	3.89	4.03	10.38
Class IV 10,000 to 19,999 Bilgram, Pihani and Sandi	3	11.56	4.57	6.99	13.96	1.95	3.16	8.85
Class V 5,000 to 9,999 Madhoganj	1	9.78	0.14	9.64	7.84	3.32	—	4.52

The per capita receipt of Class III, IV and V towns is Rs. 17.61, 11.56 and 9.78 respectively. Against this the per capita expenditure is Rs. 18.30, 13.96 and 7.84 respectively.

(d) **Stetement IV**

All the towns have protected water supply, road lighting arrangements but fire fighting service is not available. There are arrangements of mechanical transport for removing night-soil in Hardoi and Sandila while baskets and Hand carts are used in rest of the towns.

(e) **Statement V**

Bilgram, Pihani and Shahabad have 2 hospitals and 1 family planning centre. In addition, there are 2 dispensaries in Bilgram and 1 health Centre in Shahabad. Madhoganj and Sandi each of dispensary and 1 family planning centre. Sandila has 3 hospitals and 1 family planning centre whereas in Hardoi there are 5 hospitals, 1 dispensary, 1 family planning centre and 1 T. B. Clinic. The number of beds per 1,000 persons has been shown in the following table.

Table 3

Total No. of beds in Medical Institutions	No. of beds per 1000 population
299	2(2.05)

The number of beds in the hospitals of the district has increased from 137 in 1960 to 276 in 1969.

One Degree College having Arts faculty only is located in Hardoi, while other towns are devoid of such a facility. There is no Medical College, Engineering College or Polytechnic in any of the seven towns. The number of Higher Secondary, Senior basic and Junior basic schools (1969) per 1,000 population are given in the following table.

Table 4

Name of Towns	No. per 1,000 populatin		
	Higher Secondary	Middle	Primary
Bilgram	0.07	0.23	0.46
Hardoi	0.15	0.06	0.41
Madhoganj	0.18	0.36	0.36
Pihani	0.07	0.22	0.52
Sandi	0.09	0.35	0.52
Sandila	0.26	0.17	1.04
Shahabad	0.06	0.09	0.45

Hardoi and Sandila possess 1 Cinema Hall while other towns have'nt this recreational facility. The facilities of 4 reading rooms and 4 public libraries in Hardoi, 2 public libraries and 2 reading rooms in Sandila and Shahabad and 1 public library and reading room in Bilgram and Sandi are available to the residents of these towns.

(f) Statement VI

The articles manufactured in Bilgram town are shoes, handloom cloth and *bidi* Groundnut oil is manufactured in Madhoganj and Sandi. Handloom cloth is manufactured in Pihani and Sandila whereas sugar is manufactured in Hardoi. The most important commodity imported in Hardoi is Kerosene oil while cloth is imported in Bilgram, Pihani and Shahabad. Grain is exported from Bilgram and Sandi. Groundnut oil is exported from Sandila and Madhoganj respectively. Sugar and Sugarcane are exported from Hardoi and Pihani respectively, whereas Rice is exported from Shahabad.

(g) Statement VII

The population of all the towns is largely shared by Hindus (62.5%) and Muslims (37.18%). The percentage growth rate of Muslim population of these thowns during the last decade is 21.71 which is far short of the growth rate of 31.93 of Hindu population. The percentage of scheduled caste persons is higher (9.65%) in comparison to scheduled tribes (0.03%)

B–Village Directory

(a) According to their area in acres the villages have been stratified in the following table.

Table 5

Area (in acres)	No. of villages	Percentage
50 acres or less	10	0.50
52-100	43	2.17
101-200	193	9.73
201-500	686	34.59
501-1000	598	30.16
1001-2000	343	17.29
2001-5000	107	5.40
5000 acres and above	3	0.15
Total	1983	

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 64.75. Thereafter, the number of villages goes on decreasing as the size of villages increases. There are 3 villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 10 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table.

Table 6

Distance from the nearest town (in kms.)	Total No. of villages	No. of villages having				
		Primary School	Middle School	Higher Secondary School	Colleges	Others
0-5	228	84	5	3	—	—
6-10	352	165	14	2	—	—
11-15	297	135	16	4	—	—
16-25	762	342	35	8	—	—
26-50	343	167	14	3	—	—
51-100	—	—	—	—	—	—
101-200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—
@ Total	1,982	893	84	20	—	—

@ Total is exclusive of one village whose information is not available.

The above table shows that the largest number of institutions (53.64%) including Higher Secondary Schools exist in the villages situate between 26 to 50 kilometres from the nearest town. The villages which lie within a radius of 5 kms. have the least number of institutions (40·35%).

(c) 23 villages in district Hardoi have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 71 villages out of 1,982 have medical institutions.

The following table presents the number of medical institutions per 100 sq. kms.

Table 7

Name of Tahsil	Total area in (sq. km.)	No. of medical institutions of any kind per 100 sq. km.
Shahabad	1,376.6	2
Hardoi	1,636.9	1
Bilgram	1,525.8	1
Sandila	1,458.8	1

It transpires that the Tahsils Hardoi, Bilgram and Sandila each have one medical institution per 100 sq. kms. Shahabad is slightly better off having 2 institutions per 100 sq. kms.

(d) 258 villages are electrified in the district out of 1,982 villages. Their percentage comes to 13·02.

The largest number of electrified villages (96) lie in tahsil Bilgram and minimum in tahsil Shahabad (54). The power supply in villages with reference to their distance from the nearest town is given in the following table :

Table 8

Distance from the nearest town	Number of villages with Electric Power Supply		
	Total No. of villages	Total	Percentage of elctified villages to tatal villages
0-5	228	85	37.28
6-10	352	70	19·89
11-15	297	34	11.45
16-25	762	49	6.43
26-50	343	20	5.83
51-100	—	—	—
101-200	—	—	—
201 and above	—	—	—
@ Total	1,982	258	13.02

@ Total is exclusive of one village whose information is not available.

The percentage of electrified villages to the total villages is highest (37.28) for those, situate within a radius of 5 kilometres and the minimum percentage of 5.83 is for those situate at a distance 26 to 50 kms. from the nearest town. It is evident from the above table that the percentage of electrified villages to total villages decreases with the increase of distance from the nearest town.

The means of communications within a radius of 1 mile from the villages have been shown in table 9. As many as 2.12% villages of the district are connected by rail, out of the total number of 1,982 villages. 19.42% are connected by pucca road and 1.11% by kachcha and pucca roads. The percentage of villages having only kachcha roads is 56.04%. The nature of communications have been shown in the following table, where the villages have been classified according to their distance from the nearest town.

Table 9

Distance from the nearest	Total No. of village	Number of villages connected by							
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road & Train	Kachcha Road & Train	Pucca Road & River	Kachcha Road & River	Others
0-5	228	71	78	4	—	—	10	—	—
6-10	352	77	202	9	—	—	4	—	5
11-15	297	68	177	4	—	—	5	—	1
16-25	762	136	451	3	—	—	8	5	14
26-50	343	33	203	2	—	—	9	1	9
51-100	—	—	—	—	—	—	—	—	—
101-200	—	—	—	—	—	—	—	—	—
201 & above	—	—	—	—	—	—	—	—	—
@ Total	1,982	385	1,111	22	—	—	36	6	29

@ Total is exclusive of one village whose information is not avilable.

It is evident from the above table that the villages nearest to the town have better facilities of communications.

(f) There are in all 209 post offices in the rural areas of the district. On an average, 1 post office caters to the need of about 9 villages. The number of Post Offices per 100 sq. kms. in the various tahsils have been shown in the following table :

Table 10

Name of Tahsil	Total area (in sq. km.)	No. of Post Offices per 100 sq. kms.
Shahabad	1,376.6	4
Hardoi	1,636.9	3
Bilgram	1,525.8	3
Sandila	1,458.8	4

Tahsils Hardoi and Bilgram have the lowest number of post offices, the average being 3 per 100 sq. kms. In the remaining tahsils, the corresponding average is 4.

(g) Wheat, rice and gram are the staple food in the district.

The cultivated area is 73.52 percent of the total rural area of the district, of which 27.68 percent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

Table 11

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivated waste per village to average cultivated land per village
0-5	228	102,462	449	16,813	74	16.48
6-10	352	187,957	534	35,130	100	18.73
