PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists' brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931. The reason could be transfer from 1921 of certain charges on Census previously met from the provincial revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics upto the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces and Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office, Separation of administrative statistics and the decision to write the Introductory and the kind Co-operation of the State Government permitting Collectors of the 1961—71 decade to write the chapter on "Introducing the District", likely to go a long way in early publication of all the parts of the District Census Handbooks. Anotherfavourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in Hindi and 2 in English. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District CensusHandbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL:
15th August, 1972.

VILLAGE AND TOWN DIRECTORY
PART X (A)

EXPLANATORY NOTE

History:

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health etc. An introductory note was also added to highlight the more striking features Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

Scope:

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilities, trade, industry, commerce and banking facilities Population by religion and scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, scheduled caste and scheduled tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion migration etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

Village Directory:

This is in the form of one statement. Important statistics for each village have been given under the mainhead--Amenities and Land use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water, communications and post and telegraph. Under "Land use" the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(a) There are 855 villages in the three tahsils of the district and the number of villages, tahsilwise,

in 1961 and 1971 are as under:—

Sl. No.	Name of Tahsil	1961	1971	Difference
1	2	3	4	5
1	Gird	351	363	+12
2	Pichhore	335	335	..
3	Bhander	157	157	..
	Total	**843**	**855**	**+12**

It may be seen that there has been an increase of 12 villages in the district. The reason for the increase is as below:—

Gird Tahsil:—Non-municipal urban area of Gwalior city of 1961 Census has been treated as 12 separate villages in the 1971 Census as below:—

S. No.	Name of Village	1971 L.C. No.
1	2	3
1	Kishanbag	3/1/150
2	Kalyanpur	3/1/152
3	Sewaje Farm	3/1/154
4	Kalyanbag	3/1/155
5	Jagnapura	3/1/357
6	Rajman	3/1/358
7	Mohammadpur	3/1/359
8	Mahalgaon	3/1/360
9	Morar	3/1/361
10	Morar	3/1/362
11	Mudia Pahad	3/1/363
12	Manpur Gird	3/1/153

The distribution of the villages with reference to their area in acres is as shown in the inset table below:—

Area (in acres)	No. of villages
1	2
50 acres or less	6
51- 100	6
101- 200	18
201- 500	147
501-1,000	281
1,001-2,000	221
2,001-5,000	135
5,001 acres and above	34
Area not available	7
Total	**855**

Area of 7 villages is not available, and, therefore, they have not been considered in this note, while discussing data regarding area. Such villages are located in Gird tahsil and all of them are unsurveyed villages.

Village Kalyanpur (L.C. No. 3/1/152) in Gird tahsil has the smallest area of 6.0 acres and is located at a distance of 1.0 Km. from the nearest town, Gwalior, while village Jarkoda (L.C. No. 3/1/11) also in Gird tahsil has the largest area of 19,571.0 acres in the district and is located at a distance of 27.0 Kms. from the nearest town, Gwalior.

Out of 848 villages for which area figures are available, 147 and 221 villages are in the area range of 201-500 acres and 1,001-2,000 acres, respectively, while 281 villages are in the range of 501-1,000 acres. Only 34 villages are in the area range of 5001 acres and above.

Maximum villages in all the tahsils are within the area range of 501-1,000 acres as will be seen from the following table containing tahsilwise data.

Area (in acres)	Gird	Pichhore	Bhander	Total
1	2	3	4	5
50 acres or below	2	1	3	6
51 100	2	2	2	6
101- 200	13	4	1	18
201- 500	75	51	21	147
501-1,000	91	121	69	281
1,001-2,000	78	94	49	221
2,001-5 000	70	53	12	135
5,001 and above	25	9	..	34
Area not available	7	..	..	7
Total	**363**	**335**	**157**	**855**

(b) *Educational amenities:*—The total number of villages having various educational facilities within various distance ranges from the nearest town, are

as indicated in the inset table below:—

Distance from nearest town	Total No. of villages	Number of villages having				
		Primary School	Middle School	High or Higher Secondary School	College	Others
1	2	3	4	5	6	7
5 kms. or less	136	57	2	1	..	..
6- 10 kms.	149	74	8	..	..	..
11- 15 kms.	117	58	7	2	...	...
16- 25 kms.	197	98	24	5	..	...
26- 50 kms.	227	90	11	2	..	1
51-100 kms.	29	14	1	1	..	...
101 200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Total	**855**	**391**	**53**	**11**	..	**1**

Maximum number of villages (227) lie within the distance range 26-50 Kms, while maximum number of villages having primary schools, middle schools and high/higher secondary schools lie within the distance range of 16-25 Kms. The number of educational institutions in villages of different tahsils is given below:—

Sl. No.	Tahsil	Number of Educational Institutions				
		Higher Secondary / High School	Middle School	Primary School	Others	College
1	2	3	4	5	6	7
1	Gird	6	17	153	..	...
2	Pichhore	3	22	172	1	—
3	Bhander	2	14	71	..	..
Total		**11**	**53**	**396**	**1**	...

Five villages have two primary schools each. The area of these villages with distance from the nearest town, are indicated below:—

Sl. No.	Name of village	Tahsil	L.C. No.	Area of the village in acres	Distance from the nearest town in kms. with name		Educational institutions (if more than one)		
							Primary School	Middle School	High /Higher Secondary School
1	2	3	4	5	6		7	8	9
1	Mohna	Gird	3/1/23	10,275.00	Gwalior	57.0	2	..	..
2	Bagwai	Pichhore	3/2/158	3,390.00	Dabra	25.0	2	..	..
3	Porsa	Bhander	3/3/5	1,574.00	Bhander	38.4	2	..	...
4	Badera Sopar	Bhander	3/3/80	1,454 00	Bhander	12.8	2	..	..
5	Talgaon	Bhander	3/3/23	2,366.00	Bhander	28.8	2	..	..
					Total		**10**	..	..

(c) *Medical facilities*:—The availability of medical facilities, per 100 sq. Km. and tahsilwise is as given in the following inset table:—

Sl. No.	Tahsil	Total area (in sq. Kms.)	No. of medical institutions of any kind per 100 sq. Kms.
1	2	3	4
1	Gird	2,572.80	0.5
2	Pichhore	1,854.02	0.6
3	Bhander	654.08	1.1

The above table will show that the villages of Bhander tahsil, have, comparatively, greater medical facilities per 100 sq. Km. The number of medical institutions, tahsilwise, is as indicated below:—

Sl. No.	Tahsil	No. of Medical Institutions
1	2	3
1	Gird	12
2	Pichhore	11
3	Bhander	7
	Total	30

About 40 per cent of the medical institutions in the rural areas of the district are in the villages of Gird tahsil followed by Pichhore tahsil where the percentage is about 37.

(*d*) *Power Supply*:—The number of villages having electric power supply within various distance ranges from the nearest town are as indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3
5 kms. or less	136	11
6- 10 kms.	149	11
11- 15 kms	117	6
16- 25 kms.	197	20
26- 50 kms.	227	5
51-100 kms.	29	2
101-200 kms.	..	..
201 kms. and above	..	..
Total	**855**	**55**

It would be seen that only about 6 per cent of the total number of villages have electricity and all of them are in the distance range up to 100 Km. from the nearest town. The number of villages having electric power supply, tahsilwise, is as below:—

Sl. No.	Name of Tahsil	Total No. of villages	Villages having electric power supply	Percentage of villages covered by electricity
1	2	3	4	5
1	Gird	363	26	7.16
2	Pichhore	335	27	8.06
3	Bhander	157	2	1.27
	Total	**855**	**55**	**6.43**

The percentage of villages (about 6) having electric power supply in the district is lower than the state average (about 7). Within the district, villages of Pichhore tahsil have, comperatively, more of this facility, while villages of Bhander tahsil are very poor in this facility in the district.

(*e*) *Communications*:—The total number of villages and the number of villages connected by different types of communications, falling in different distance ranges from the nearest town, are indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	Number of villages connected by				
		Pucca road	Kutcha road	Pucca road & rail	Kutcha road & rail	Others (Rail)
1	2	3	4	5	6	7
5 kms. or less	136	63	4	1	..	..
6- 10 kms.	149	49	1	1	..	2
11- 15 kms.	117	35	..	2	..	1
16- 25 kms.	197	40	10	3	..	..
26- 50 kms.	227	29	7	1	..	..
51-100 kms.	29	4	6	1	..	..
101-200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
Total	**855**	**220**	**28**	**9**	..	**3**

About 27 per cent of villages are served by "pucca" road. Out of 855 villages in the district, 257 villages are served by either 'pucca' or 'kutcha' roads. The number of villages served by 'pucca' road, tahsilwise, and the total number of villages

with percentage covered are as below:—

Sl. No.	Name of Tahsil	Total No. of villages	No. of villages having "pucca" road	Percentage
1	2	3	4	5
1	Gird	363	131	36.09
2	Pichhore	335	66	19.70
3	Bhander	157	32	20.38
	Total	**855**	**229**	**26.78**

Comparatively Gird tahsil has better communication facility. Very few villages are connected by rail.

(*f*) *Post and Telegraph:*—The total number of villages in the tahsils of the district having post offices, telegraph offices and telephone facility are given below:—

Sl. No.	Name of Tahsil	Total No. of villages	No. of villages having post office	No. of villages having telegraph office	No. of villages having telephone
1	2	3	4	5	6
1	Gird	363	20	1	..
2	Pichhore	335	27	1	..
3	Bhander	157	13	..	..
	Total	**855**	**60**	**2**	..

The number of post offices per 100 sq. km. area in each tahsil is indicated in the following inset table:—

Sl. No.	Name of Tahsil	Total area in sq, km.	No. of post offices per 100 sq. km.
1	2	3	4
1	Gird	2,572.80	0.8
2	Pichhore	1,854.02	1,4
3	Bhander	654.08	2.0

Comperatively, rural areas of Bhander tahsil have better postal facility per 100 sq. km. Only two villages have telegraph facility in the district. The names and particulars of these villages are as under:—

Sl. No.	Name of Tahsil	Name of village having telegraph office	
		Name	L.C. No.
1	2	3	4
1	Gird	Mohna	3/1/23
2	Pichhore	Antari	3/2/16

(*g*) *Staple Food:*—Wheat and 'Jowar' constitutes staple food in bulk of the villages of the district. Rice and Gram are also additional staple food in few villages of the district.

(*h*) *Land use pattern*:—(i) According to the village papers about 21 per cent of the area in the district is under forest. The percentage of forest area, tahsilwise is given below;—

Sl. No.	Name of Tahsil	Percentage of forest area
1	2	3
1	Gird	36.93
2	Pichhore	5.82
3	Bhander	..
	Total	**20.83**

It may be noticed that, there is no forest area in Bhander tahsil, while about 37 per cent of the area of Gird tahsil is under forest.

(ii) The net cropped area in the year 1969 increased by 14.31 per cent, as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 23.62 and 26.26 per cent, respectively. The area under irrigation during this period increased by 27.0 percent.

(iii) The following inset table shows the percentage of average cultivable waste per village in

different distance ranges from the nearest town:—

Distance from the nearest town	Number of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7
5 kms. or less	129	72,626.00	562.99	11,812.00	91.56	16.26
6- 10 kms.	149	107,197.00	719.44	18,241.00	122.42	17.02
11- 15 kms.	117	90,322.00	771.98	18,783.00	160.54	20.79
16- 25 kms.	197	168,616.00	855.92	34,498.00	175.12	20.46
26- 50 kms.	227	139,967.00	616.59	46,872.00	206.48	33.49
51-100 kms.	29	15,218.00	524.76	14,930.00	514.83	98.11
101-200 kms.	..	..	..	..	..	..
201 kms. and above	..	..	..	..	..	..
Area not available	7	..	..	..	..	..
Total	**855**	**59 ,946.00**		**145,136.00**		

Comperatively, the nearer a village to an urban area, the lesser is the proportion of cultivable waste which is evident from the figures in col. 7 of the above table but for a slight deviation in the distance range 16-25 km.

In the whole district 145, 136 acres (in round figures) of land has been classified as cultivable waste which constitutes about 12 per cent of the total area of the villages in the district. The table below indicates the percentage of cultivable waste in each tahsil:—

Sl. No.	Name of Tahsil	Percentage of cultivable waste
1	2	3
1	Gird	10.61
2	Pichhore	13.44
3	Bhander	9.99
	Total	**11.56**

It would be seen that comparatively, the percentage of cultivable waste in Pichhore tahsil is maximum (about 13 percent), while it is less in Bhander tahsil (about 10).

Town Directory:

(a) This is in the form of Seven Statements. But before discussing the information collected in the Seven Statements, it would be better to first understand certain concepts which detetmines urban areas.

(*i*) *Definition of town:*—A 'town' in the 1961 Census was either (1) a Municipality.; Cantonment or Corporation; or (2) a habitation with a population of at least 5,000, with atleast three-fourths of the adult male population engaged in non-agricultural pursuits.

Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently; the reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal

and the third fulfilled the necessary creterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(*ii*) *Urban Agglomeration:*—The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the district Census Handbook in respect of urban areas in such a manner that "*de-fecto* urban agglomeration" is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure* (within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(*iii*) *Standard Urban Area*:—This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are:—

(1) It should have a core town of a minimum population size of 50,000.

(2) The contiguous areas made up of other Urban as well as rural administrative units should have close socio-economic links with the core town and

(3) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which give a meaningful picture.

(*b*) *The Seven Statements:*—Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(*i*) *StatementNo. I.*—This statement pressents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(*ii*) *Statement No. II.*—This statement contains information regarding location (latitude/longitude), annual rainfall, temperature, distance from the nearest city with population of 1 lac or more and State, District and Tahsil headquarters. Distances from Railway Station and Bus route have also been indicated.

(*iii*) *Statement No. III*:—This statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69, 1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(*iv*) *Statement No. IV:*—This statement contains information regarding amenities, e.g. road length, sewarage system, types of latrines, water supply, fire-fighting service etc. in the different towns.

(*v*) *Statement No. V:*—This statement contains information regarding various important facilities available in the town *viz.*, medical, educational, recreational and cultural.

(*vi*) *Statement No. IV.*—This statement throws light on the business and credit facilities

commanded by the towns and contains information regarding trade, commerce, industry and banking

(vii) *Statement No. VII:*—This Statement contains data regarding population by religion and Scheduled Castes/Scheduled Tribes with male/female break-up for the year 1971. This is the only statement based on 1971 Census figures.

Towns:—There are three tahsils and four towns in Gwalior district as indicated below:—

Sl. No.	Name of Tahsil	Name of Town	L.C. No.	Class of Town
1	2	3	4	5
1	Gird	Gwalior	3/I	I
2	Pichhore	(i) Dabra	3/III	IV
		(ii) Pichhore	3/II	V
3	Bhander	Bhander	3/IV	V

All the tahsil headquarters are town Gwalior is the headquarters of the district as well as of the commissioner's division and continues to be recognised as town since 1901. Bhander also continues to be a town since 1901 except that it was declassified in 1951 but regained its status in 1961. Pichhore and Dabra were recognised as towns for the first time in 1941 and 1951, respectively. Pichhore was declassified in 1951 and regained its status of town in 1961. The following are Urban Agglomeration and Standard Urban Area in the district.

Sl. No.	Name of city/town forming urban agglomeration	Names of village/localities treated as urban outgrowth	Whether included wholly/partly	L.C. No.
1	2	3	4	5
1	Gwalior City	(i) Kalyanbag	Wholly	3/1/155
		(ii) Kishanbag	Wholly	3/1/150
		(iii) Rajman	Wholly	3/1/358
		(iv) Sewage Farm	Wholly	3/1/154
		(v) Jaderua Khurd	Wholly	3/1/206
		(vi) Jaderua Kalan	Wholly	3/1/205
		(vii) Mehara	Wholly	3/1/156
		(viii) Girwai	Wholly	3/1/106
		(ix) Mudia Pahad	Wholly	3/1/363
		(x) Birpur	Wholly	3/1/107
		(xi) Ajaipur	Wholly	3/1/104
		(xii) Morar	Partly	3/1/361
		(xiii) Bhonderi	Partly	3/1/224
2	Dabra	(i) Ramgarh	Wholly	3/2/246
		(ii) Badera Buzurg	Partly	3/2/247
		(iii) Dabra Doda	Partly	3/2/245

STANDARD URBAN AREA

Gwalior City

S. No.	Components	L.C. No.
1	2	3

Statement I:—The category of town adminstration in 1970 has been indicated in column 5 of the statement. Gwalior has municipal corporation, while other towns have municipalities. The population of towns have, by and large, shown constaat increase in every decade since their continued recognition as towns except as indicated below:—

Sl. No.	Name of town	Decade population		Reduction in population
		Year	Population	
1	2	3	4	5
1	Bhander	1901	5,133	816
		1911	4,317	
		1911	4,317	405
		1921	3,912	
2	Gwalior	1901	138,612	54,154
		1911	84,458	

During the decade 1901-11 the fall in population in Bhander and Gwalior towns may be due to plague of 1911.*

During the decade 1911-21 the fall in population in Bhander town may be due to great influenza epidemic of 1918.**

(ii) Column 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table—

Functional Category	No. of towns
Primary Activities	1
Primary Activities cum-Industry	1
Industry	2
Total	**4**

The method adopted for the functional classification is elucidated below:—

(b) The nine industrial categories were grouped into the following five functional characteristics:—

(i) Primary Activities (Comprising Category I-Cultivation, II Agricultural Labourer and III-Mining and Quarrying, Fishing, Live Stock, Hunting, etc).

(ii) Industrial (Comprising Category IV-Household Industry, V-Manufacturing other than household Industry and VI-Construction.)

(iii) Commercial (Comprising Category VII-Trade and Commerce)

(iv) Transport (Comprising Category VIII-Transport Storage and Communications)

(v) Services (Comprising Category IX-other services)

The percentage of total workers under the above five functional characteristics were calculated for each town and the predominant function (s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 percent of the total workers the town was designated by that function. In case no single characteristic claimed 40 per cent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent of the total workers, the first three characteristics were taken to represent the town.

Statement II:—The physical and locational aspects as in 1969 have been covered. The western portion of the district is mostly a plateau which brings the Malwa plateau to an end. The highest hill feature

* Census of India, 1921 Volume XX Gwalior State. Report and Tables Page 14.
** Ibid.

being 1454', in Sirkoli forest. This area is mostly hilly and has some good forests The east-west tract is also some what hilly but otherwise fairly clearly marked from the plateau and like the western portion has some forest. The south-eastern portion is the area of plains of river Sindh in Dabra tahsil and Pahuj in Bhander. The Sind river forms the south-eastern boundry of the district and is a perennial river. The area is good for cultivation for the plains have fine deep soil. The soil being porous has caused the streams to erode their banks and thus all along the banks big and small ravines have appeared. In the north-eastern portion we again have plains consisting of rivers, valleys of rivers Sankh, Sonrekha, Morar and Vanshali. Soil erosion is considerable here. These four regions described above mark out prominently the distinguishing physical features.†

The climate on the whole is of the dry type. In the month of May hot wind called *loo* blow and even at night there is little respite. The area near town being rocky and of sparse vegetation appears to rediate heat particularly during the night. The district receives rains from the westerly winds.

Temperature data of Gwalior city has been indicated for all the towns. Subsrituted data for these towns as indicated above have been mentioned because separate data for these towns is not available and the temperature is more or less similar to that of Gwalior city.

The towns get annual rainfall of about 693 m.m to about 900 m m. The range of maximum and minimum temperature of the town is 32.5°C. to 18.8°C. The temperature data is based on daily average temperature.

All the towns are on bus route. Dabra and Chirgaon are the nearest railway stations for Pichhore and Bhander, respectively. The district headquarter, Gwalior is at a distance of 427 kms. by road from the State heabquarter, Bhopal. Jhansi (U.P.) is the nearest city by road for Gwalior and Bhander towns, while Gwalior is the nearest city by road for Dabra and Pichhore towns.

Statement III:—On the basis of population in 1971 Census the towns of the district have been categorised as below:—

Sl. No.	Name of town	Population	Class
1	2	3	4
1	Bhander	9,072	V
2	Dabra	18,623	IV
3	Gwalior	384,772	I
4	Pichhore	6,355	V

The statement would show that the total expenditure is within total receipt of the local bodies except in the following tables:—

Sl. No.	Local body in the town of	Year or excess expenditure	Total receipt	Total expenditure	Amount by which the total expenditure is more than total receipt	Percentage of excess expenditure to total receipt.
1	2	3	4	5	6	7
1	Pichhore	1969-70	8,600	9,100	500	5.81

Column 7 of the above table would show that the percentage of excess expenditure to total receipt of the local body of Pichhore for the year 1969-70 is 5.81 per cent. This is mainly due to substantial expenditure under the head connected with public utility works and general administration. Receipt through taxes etc., have also shown, by and large, an upward trend during these years except in the

† Census of India, 1961 District Census Hand Book, Gwalior District p. XI.

following cases:—

Sl. No.	Local body in the town of	Year	Extent of short fall in receipt through taxes etc.
1	2	3	4
1	Bhander	1969-70	7,500
2	Dabra	1970-71	26,100
3	Pichhore	1969-70	1,100

The total receipt of the local bodies have, by and large, shown an upward trend except in the following cases:—

Sl. No.	Local body in the town of	Year
1	2	3
1	Bhander	6,000
2	Dabra	415,500
3	Pichhore	2,500

Government grants have substantially supplemented the receipts of the local bodies. Loans have been obtained by the local bodies of Dabra, Gwalior and Pichhore towns. The per capita receipt and expenditure under broad heads is as indicated in the inset table below:—

Class of town	No. of towns	Year	Per Capita						
			Receipt			Expenditure			
			Total receipt	Receipt through taxes etc.	Receipt from all other soures	Total Expenditure	Expenditure on Public Health Conveniences	Expenditure on Public Institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9	10
Class I (100,000 & over)	1	1968-69	18.19	13.34	4.85	13.98	5.66	..	8.32
		1969-70	22.05	16.74	5.31	18.04	6.78	..	11.26
		1970-71	23.11	18.51	4 60	20.75	7.57	..	13.18
Class II (50,000—99,999)	..	..	..	..	..	..	..	..	..
Class III (20,000—49,999)	..	..	..	..	..	..	..	..	..
Class IV (10,000—19,999)	1	1968-69	22.46	16.84	5.62	19.08	4.42	..	14.66
		1969-70	54.01	26.91	27.10	27.19	6.08	..	21.11
		1970-71	31.70	25.51	6.19	31.09	5.91	..	25.18
Class V (5,000—9,999)	2	1968-69	8.85	4.77	4.08	8.70	1.31	0.01	7.38
		1969 70	8.30	4.21	4.09	7.56	0.91	0.01	6.64
		1970-71	9.39	5.07	4.32	7.47	1.07	0.01	6.39
Class VI (Below 5,000)	..	..	..	..	..	..	..	..	..

The above table would show that the total per capita receipt matches fairly well with the total per capita expenditure. The per capita expenditure on public health and conveniences as against per capita receipt through taxes etc, is encouraging. In quite a good number of cases the expenniture of the local bodies shown in column 15 of statement No. III under head others, constitutes quite a high percentage of the total expenditure.

Statement IV:—All the towns have electricity. Electric connections have also given for industrial and commercial purposes. Street lights have also been provided in all the towns. Water supply through taps is available in all the towns except Pichhore. Fire brigade is available in Gwalior town only.

Statement V:—(*i*) *Medical facilities*:—Hospital facility is available in Gwalior town, Pichhore town

has a Government dispensary, while Bhander and Dabra have, primary health centres. Besides, hospital, Gwalior has dispensary, T.B. Clinic and family planning clinic. The number of beds per thousand population is indicated in the inset table below:—

Total No. of beds in Medical institutions	No. of beds per 1,000 population
1	2
1,077	2.6

(ii) Educational facilities:—Bhander and Dabra have one Arts College, while Pichhore has Arts and Science college. Gwalior has maximum number of educational institutions in the district and the following deserve particular mention.—

1	Arts College	2
2	Science College	2
3	Arts and Commerce College	1
4	Arts, Commerce and Science College	2
5	University	1
6	Medical College	1
7	Ayurvedic College	1
8	Engineering College	1
9	Polytechnic	1
10	Higher Secondary Schools	39

Higher secondary/high schools are located in all the towns, The number of higher secondary/high schools, middle schools and primary schools per thousand population is as shown in the following inset table. For a more realistic appreciation, the population in the age group 0-14 has been considerd for primary and middle schools, while population in the age-group 15-19 has been considered for higher secondary/high schools.

Sl. No.	Name of Town	Number per 1,000 population		
		Higher Secondary or High School	Middle School	Junior Secondary / Primary School
1	2	3	4	5
1	Bhander	1.3	0.7	0.7
2	Dabra	2.1	0.7	1.1
3	Gwalior	1.0	0.6	2.1
4	Pichhore	1.9	0 7	0.7

(iii) Recreational and Cultural facilities:—Cinema house facility is available in Gwalior and Dabra towns. Public library and reading room facility is available in all the towns except Pichhore town.

Statement VI:—All the towns have bank facility. All the towns except Bhander have agricultural credit societies. Non-agricultural credit society facility is available in Gwalior and Dabra towns only. Cloth, sugar, salt, kirana, kerosene, medicines are the main items of import in the towns. Sugar, cloth, potteries and leather goods are the main items of export from the towns. Sugar, potteries, cloth and leather goods are the important items of manufacture, in the towns.

Statement VII.—About 92 percent of the urban population is in Gwalior city followed by Dabra where the percentage is about 4.

Majority of the urban population follow hindu religion; next come followers of islam religion. Townwise percentage of population following hindu and islam religion is as indicated below.—

Sl. No.	Name of town	Percentage in round figures	
		Hindu	Islam
1	2	3	4
1	Bhander	83	16
2	Dabra	89	6
3	Gwalior	89	9
4	Pichhore	74	25

Townwise percentage of population following different religions and percentage of Scheduled Castes and Scheduled Tribes is as indicated below.—

Sl. No.	Name of Town	Percentage								Percentage of Scheduled Castes	Peroentage of Scheduled Tribes
		Budhist	Christians	Hindu	Jain	Islam	Sikh	Others	Religion not stated		
1	2	3	4	5	6	7	8	9	10	11	12
1	Bhander	..	0.07	83.43	..	16.45	0.05	..	..	19.81	..
2	Dabra	..	0.08	88.85	3.10	6.01	1.95	..	..	14.60	0.97
3	Gwalior	0.05	0.32	88.56	1.86	8.51	0.70	..	..	15.63	0.18
4	Pichhore	..	..	74.29	0.20	24.85	0.66	..	..	17.43	..

The percentage of Schdeuled Castes population is comparatively, high in Bhander (about 20 per cent), while in other towns the percentage of Scheduled Castes varies from about 15 to 17 percent. There is no Scheduled Tribes population in Bhander and Pichhore towns, while its percentage in Gwalior and Dabra towns are 0.18 and 0.97 percent, respectively.

PRIMARY CENSUS ABSTRACT

PART X (B)

EXPLANATORY NOTE

I. General :

In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade would be dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, Scheduled Castes and Scheduled Tribes, working population, occupied residential houses and number of households have been discussed.

II. Population :

The population of Gwalior district is 858,005, while the population of Madhya Pradesh is 41,654,119. The population of Gwalior district, thus comes to 2.06 percent of the State population. The rural population is about 48 percent of the district population whereas the urban population is 51.63 per cent as against the State percentage of 16.29. In other words, the district is Urban in character. Highest percentage of the district population is found in Gird tahsil (about 65 per cent) and the reason for this is that the population of Gwalior City is included in Gird tahsil.

Gwalior district ranks 22nd among the 43 districts of the State in population. During the decade 1961-71, the district population growth rate has been 30.42 against the State growth rate of 28.67. The area of the district is 5,213 sq. km. In other words, it has 1.18 per cent of the State area and ranks 37th in area among the district of the State. The density of population per sq. km. of the district is 165 against the State density of 94 and the district ranks 4th in density in the State. The sex ratio, number of females per 1000 males, of the district and the State is 839 and 941, respectively. Tahsil Bhander has got sex ratio higher than the district sex ratio, while the remaining two tahsils have lower sex rato.

III. Literacy :

1. The percentage of literacy in the district comes to about 34 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (27.87) was higher than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71.

2, The literacy percentage among the males in the district (45.21) is higher than the State percentage of about 33. Among females also, the literacy percentage in the district (20.39) is higher than the State percentage of about 11.

3. Among the tahsils, Gird tahsil has the highest literacy percentage of about 40, while Pichhore tahsil has the lowest percentage of about 22.

4. The same pattern is seen in male literacy in the tahsils. Among males, Gird tahsil is at the top (about 51 per cent), while Pichhore tahsil with about 34 per cent comes last. Among females Gird tahsil leads in literacy (about 27 per cent), while Bhander tahsil with 7.65 per cent comes last.

IV. Workers :

In the district, about 29 per cent of the population comes under the category of workers (main activity) against the State percentage of about 37. The percentage of female workers to total female population (about 6) is lower than the State percentage (about 19). Within the district, comparatively greater percentage (31.89) of workers (males and females) have been returned from Pichhore ahsil. Gird tahsil has returned the lowest percentage of workers (27.64). Among female workers, Bhander ahsil with 9.08 per cent leads other tahsils of the district, while Gird tahsil with4.11 per cent comeslast. Among the workers in the district, about 39 and 12

per cent are cultivators and agricultural labourers, respectively as against the State percentage of about 53 and 27. Under the category "Other workers", the district percentage (about 49) is higher than the State percentage of 20.58.Among females the district percentage of agricultural labourers (about 45),and cultivators (about 20) is lower than the State percentage of about 49 and 41 respectively, while for other workers the district percentage (about 34) is higher than the State percentage (about 10). Comparatively, highest percentage of cultivators (about 66) and agricultural labourers (about 22) have been returned from Bahnder tahsil. Lowest percentage of cultivators (about 25) and agricultural labourers (abont 6) have been returned form Gird tahsil.

V. Scheduled Caste and Scheduled Tribe :

The percentage of Scheduled Castes to total population of the district (about 19) is higher than the State percentatge (about 13). The percentage of Scheduled Tribes to total population of the district (about 2) is much lower than the state percentage (about 20). Highest percentage 23.94 of Scheduled Castes is in Bhander tahsil, while lowest percentage (17.04) is in Gird tahsil. As regards Scheduled Tribes population highest percentage (2.81) has been returned from Gird tahsil, while lowest percentage (0.94) is in Bhander tahsil.

VI. Occupied Residential Census Houses :

The district has 107,776 occupied residential Census Houses against the State figure of 6,822,767 which comes to 1.58 percent. During 1961, there were 95,868 occupied residential Census houses in the district against the State figure of 6,230,854 which comes to 1.54 per cent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census house in 1961 and 1971 are indicated below:—

State/ District	Year	No. of Residential Census Houses	No. of House-holds	No. of house-holds per occupied residential Census House	No. of persons per residential Census House
1	2	3	4	5	6
State	1961	6,230,854	6,615,580	1.06	5.2
Distt.	1961	95,868	124,830	1.30	6.9
State	1971	6,822,767	7,740,289	1.13	6.1
Distt.	1971	107,776	145,879	1.35	7.9

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Gird tahsil (with about 60 percent) claims the highest percentage of occupied residential Census houses in the district.

VIII. Villages and Towns:

There are 855 villages in Gwalior district which comes to 1.11 per cent of total villages in the State. The percentage of inhabited villages to total villages in the district is 89.47 against the State percentage of about 92. There are 250 towns in the State out of which the district claims four:—Bhander, Dabra Gwalior and Pichhore.
