STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

District Census Hand-books for each of the 43 Districts in Madhya Pradesh

PREFACE

The publication of District Census Hand-books, which was begun in the 1951 Census, represents a significant step in the process of making census statistics available for the smaller territorial units basic to executive and developmental administration. Apart from the fact that the proper implementation of policy depends on the ability of the administrative authorities concerned to quantify accurately the variables involved, it is at these levels that policies get really thoroughly tested; also, policies can fail—and probably have failed—because their statistical basis was weak. It is undoubtedly necessary that gaps in statistics at lower levels be filled as rapidly as possible. It was not possible at this Census to base all census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.

2. What we have tried to do in the 1961 Census Hand-books is to make them more informative by the inclusion of as many categories of non-census statistics as possible; some of these are climate, agriculture, co-operation, industry, banking, education, health etc. There is also an introductory note to each Hand-book high-lighting the more striking features. It has not been possible for the Census Organisation to check the accuracy of the figures supplied by various authorities; it is to be hoped that some other organisation, better equipped for the purpose, will take up this task.

3. For the seventeen districts of Mahakoshal (Part of erstwhile Madhya Pradesh) and for Panna and Tikamgarh districts of erstwhile Vindhya Pradesh, which are part of the present State of Madhya Pradesh, the area figures for districts and tahsils furnished by the Director of Land Records and presented in Table A-I are internally inconsistent in the sense that the tahsil areas do not add up to the district area. This inconsistency arose from the fact that, in the case of these districts, the district area includes, but the tahsil areas exclude, 'forest' area for which the tahsilwise breakup was not then available. Later on, while this Hand-book was in the press, the Director of Land Records brought out revised area figures for the year 1962-63 for tahsils and districts, which among other improvements, do not suffer from the defect of internal

inconsistency even in case of these nineteen districts. Revision of Table A-I on the basis of these area figures was not feasible at this late stage; the only alternative was to print these revised area figures also in this Hand-book.

4. One unfortunate fact about these Hand-books is that they became available to the users rather late in the decade. This is partly due to the considerable time required for the collection of information from various authorities and partly to difficulties in printing. Owing to the fact that State presses, with a heavy backlog of printing weighing down on them, would find it impossible to print all the District Census Hand-books themselves, arrangements have been made for printing them in private presses. If these Hand-books are to have a useful life of more than four or five years of inter-censal decennium, more expeditious methods for the collection of non-census statistics, for the preparation and checking of the manuscripts and for printing will have to be devised.

5. The Census Organisation is grateful to the Government of Madhya Pradesh for having been so kind as to undertake the publication of these Hand-books and to the Superintendent, Government Printing and his organisation—particularly the Assistant Superintendent, Printing, Government Regional Press, Indore and his staff—for the printing arrangements made. The inspiration behind this ambitious venture is that of our indefatigable Registrar General, Shri Asok Mitra, to whom we are all deeply grateful. Our thanks are also due to the various authorities who supplied us with all the necessary statistics.

NOTES AND EXPLANATIONS

This note gives the meanings and explanations of terms and concepts used in this Handbook. This is necessary because, without a proper grasp of the meanings of such simple concepts as building, house, household, worker, etc., it is not possible to appreciate the data presented in the Handbook. Thus, one who does not know that an unpretentious hut in the thick of Bastar forests with unplastered bamboo walls and a thatch roof and with space hardly enough for two cots is not a whit less of a building than the Indian versions of the skyscrapers in one of the metropolitan cities, or that a central jail housing all manner of criminals and shady characters is as much a household as the household of the most pious and god-fearing citizen in the State, may not be able to appreciate what exactly the figures represent. Besides explaining the terms and concepts, the note also contains brief notes on the salient and peculiar features of some of the Census tables presented in this Handbook.

Census.—The Census in India is a decennial operation taking place in February-March of the first year of every decade. It ensures coverage of *all* members of the population irrespective of age. The operations constituting a *Census* involve, besides counting of heads, the counting of numerous attributes of the person counted. These are demographic, social, economic and cultural in nature. The number of these attributes regarding which information is recorded has been increasing from census to census and is limited only by considerations of cost, time and organisation.

Population.—The important thing about a population is that it is dynamic. It is a constantly changing entity. These changes take place by the natural processes of birth and death as well as by migration. A statement of population has therefore little sense unless the point of time to which it relates is also stated. A population figure is correct only for a particular point of time; and, even though in practice one may omit to indicate this point of time, one should none the less be clear about it. The population figures presented herein refer to the sunrise of 1st March, 1961, unless otherwise stated.

Rural-Urban Classification:—Data collected at a Census is usually presented separately for the rural and urban areas. A 'town' or a 'town-group' constitutes an urban area. A 'town' in the 1961 Census was either (i) a municipality, cantonment or corporation; or (ii) a habitation with a population at least of 5,000 with atleast three-fourths of the adult male population being engaged in non-agricultural pursuits. The rural-urban classification, being operationally cardinal and prior in point of time to the census count, had to be tackled earlier and a list of 219 towns in the State was therefore, prepared much earlier than the census proper. This included 28 habitations which were tentatively treated as towns, the intention being that, after the 1961 Census data became available, their cases would be re-examined. Later on, however, no modification was made in the list, even though 7 towns did not satisfy either the minimum population criterion or the one based on the ratio of non-agricultural adult males being 75% or greater. These are Gogaon in West Nimar, Datla Bandhi in Chhindwara (both under 5,000 in population); and, Icchawar, Patan, Pendra, Akaltara, Arang respectively in Sehore, Jabalpur, Bilaspur, Bilaspur, and Raipur Districts (not satisfying the economic criterion). The reason for not disturbing the original list of towns was that as many as 14 habitations which did not satisfy one or the other of the criteria laid down earlier managed to sneak into the list of towns as municipalities, and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than was already present. The cases of Chachaura-Binaganj town in Guna District and Sardarpur-Rajgarh in Dhar District are peculiar in that each of these two municipal towns consists of two distinct habitations separated by 2 miles in the first and 3 miles in the second case.

All areas, which were not urban were rural. They consisted of 'villages'. A very large majority of the census villages were 'revenue villages', which had well demarcated or recognised boundaries, and which included not only the inhabited portion (or portions) but also agricultural land and uninhabited waste (or other) lands. The census village was thus not synonymous with a habitation or a dwelling; in fact, a village could contain two or more distinct habitations separated by considerable distances known variously as 'tola' or 'mazra' or 'para'. Besides, in many districts there were forest villages, situated inside Reserved forests and without clearly demarcated boundaries. The areas entered against these villages in the Village Directory are thus only approximate. It is to be noted that being, as observed by Martin [Census Superintendent (old) Madhya Pradesh, 1911 and Census Commissioner for India, 1921] arbitrary and irregular units of

area, carved out chiefly for revenue and administrative purposes, there are many revenue villages which do not have any habitation. They are not, therefore, of much demographic interest, and their inclusion in the Village Directory is only for a proper tally of area aggregates.

A—General Population Tables:

There are four main tables and three appendices in this series.

Table A-1.—This table presents the basic figures relating to area, houses and population separately for the rural and urban areas of each district, each tahsil, and for each city, towngroup or town. The area figures used in the table for the district and the tahsils are those furnished by the State Director of Land Records. In case of the district, the area figures furnished in 1962 by the Surveyor-General, India are also given. The Surveyor-General does not furnish area figures for tahsils. In case of cities and towns the area figures are furnished by the local urban authority (if any) in charge of the municipal administration, or by the local revenue authorities. Except in case of Raipur and Sagar districts, there is no agreement between the area figures for the district furnished by the Director of Land Records and the Surveyor-General, India. These differences arise principally from the differences in the methods adopted by the two agencies in measuring and computing the area.

In the case of eighteen districts (Bastar, Raipur, Durg, Raigarh, Bilaspur, Surguja, Balaghat, Seoni, Chhindwara, Mandla, Narsimhapur, Jabalpur, Sagar, Hoshangabad, Betul, East Nimar, Tikamgarh and Panna), only the district 'total' and 'rural' figures for area include the forest area; the figures for forest area were not available for individual tahsils in these districts, and hence the tahsilwise area figures for these districts do not include forest area. This fact is important particularly for appreciating the district and tahsil population density figures of these districts. The population density (*i.e.*, persons per square mile) given in column 4 of the table is calculated on the basis of the figures of area supplied by the State Directorate of Land Records.

Occupied Residential House.—This is a Census house which was actually occupied at the time of enumeration for residential purposes either partly or fully. The concept of 'Census house' together with the allied concepts of 'building' and 'household' are dealt with later in this note.

Town Group.—The introduction of the concept of "towngroup" is a new feature of the 1961 Census. One kind of 'towngroup' has its basis in what may be called demographic prognosis, this being that a particular group of towns is situated in such a way, and exhibits some interconnecting features of such a kind, that they can be considered a single demographic entity whose organic nature is likely to become more and more evident in the future. Examples are: Bhopal City with Bairagarh in the West and Heavy Electricals Township in the East; and Durg Town and Bhilai Industrial Township. The other type of towngroup is a group only in name in the sense that it represents a group of localities which geography unites but definition separates. Examples are Sagar Towngroup consisting of Sagar Municipality and Sagar Cantt., and Jabalpur Towngroup (consisting of Jabalpur Corporation, Jabalpur Cantt. and Khamaria). In both these instances, the urban complex is single and continuous, but as each corporation or cantonment is a separate town by definition, it gets split up in the Census into more than one town. In Madhya Pradesh there are six towngroups in all; three of them belong to the first type: Bhopal in Sehore District: Murwara in Jabalpur District and Durg in Durg District; the other three belong to the second type, Pachmarhi in Hoshangabad District, Sagar in Sagar District and Jabalpur in Jabalpur District.

Houseless & Institutional Population:—"Houseless population" means those who did not live and were not enumerated, in Census-houses at the last Census. Obviously these swell the ranks of the social destitutes who, to speak in every day parlance do not have even a roof over their heads, but live under the shade of trees or bridges or on pavements. "Institutional population" means the population that was enumerated in institutions at the last census *i.e.*, in hostels, jails, boarding houses, hospitals etc.

Class of Towns.—Towns are classified into six classes as below according to their population sizes:—

Class	*Population range*
I	100,000 and above
II	50,000—99,999
III	20,000—49,999
IV	10,000—19,999
V	5,000—9,999
VI	Below 5,000

Towns of Class I are also known as Cities.

"Status" of a town means the authority in charge of its local urban administration. Thus a town could have a Municipal Corporation; a Municipality, a Cantonment Board, a Gram Panchayat, a Town or Notified Area Committee, etc.

B—(*i*) *General Economic Tables.*—This series includes 22 tables containing information on certain economic aspects of the population. The concepts involved have undergone significant changes as compared with the 1951 and earlier Censuses. In the 1951 and earlier censuses or at any rate in the last few censuses income or economic independence (and dependence) were treated as the criteria for denoting the economic status of a person. Separate account used to be taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semi-independence was also introduced in the 1931 Census. This consisted of the 'earning dependents' of the 1951 Census and even there the element of income was present. This income-based classification seems to have not infrequently resulted in a suppression of information relating to those who worked in household economic activities but did not actually earn any income like men other than the head of the household and women of the family or children working at the family cultivation or cottage industry but not earning any incomes. The 1961 Census introduced the concept of work and totally abandoned the 'income' approach. Thus all people who worked (*i.e.*, were "economically active") including family workers who were not in receipt of any income, & working children who did not earn enough for their maintenance were treated as workers. On the other hand such persons as a receiver of rents on immovable property, or of interest on securities deposited in a bank, and doing no other work, were treated as non-workers. Persons professionally engaged in anti-social activities (*i.e.*, thieves, robbers, prostitutes, beggars, etc.) were, however, not treated as workers. The approach to the concept of "work" was pragmatic and numerous illustrations were given to clarify the concept. The basis of work was held to be satisfied in the case of seasonal work *i.e.*, work at cultivation, livestock, dairying or household industry if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which he was visited by the Census enumerator. A person who was working but was absent from his work during those fifteen days or for a longer period owing to illness or other causes was treated as worker. Work included not only actual physical work but also effective supervision and direction of work.

The Working Categories:—The primary classification of the population is by means of a simple dichotomy into workers and non-workers. The former is further sub-divided into nine sub-classes or working categories of the Census. These are listed below; the correspondence with the Standard National Industrial Classification is also indicated.

	CENSUS WORKING CATEGORY	CORRESPONDING DIVISION OR MAJOR GROUP OR MINOR GROUP OF NIC
I	Workers in cultivation	Minor Groups 000, 001, 002, 003, 004,
II	Agricultural Labourers	The same as in I above
III	Workers in mining, quarrying, live-stock, forestry, fishing, hunting and plantations, orchards and allied activities	Major Groups 01, 02, 03 and 04 and Division 1; Minor Groups 005, 006, 007, 008, 009 (if not classifiable as household industry)
IV	Workers in household industry ...	Minor Groups 005 to 009, 013, 014, 015, 020 to 026, 031, 032, 040 to 048, 107, Divisions 2 & 3 (excepting Minor Groups 201, 217, 218, 232, 252, 260, 290, 324, 325, 338 and 380) if on a household scale
V	Workers in manufacturing other than household industry ...	Divisions 2 & 3
VI	Workers in construction ...	Division 4
VII	Workers in Trade and Commerce ...	Division 6
VIII	Workers in Transport Storage and Communications ...	Division 7
IX	Workers in other services ..	Divisions 5, 8 & 9

The only term requiring explanation is household industry, the others being self-explanatory. As regards household industry, a three-fold test was laid down, *viz*:—

(a) "Household Industry" should consist of manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) "Household Industry" should be on the household scale where the workers mainly will be the Head of the household himself and/or members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a *registered factory* but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such free movement is not possible, and therefore, for household industry in urban areas we should consider only those industries which are located or at least the major part of whose work is located at home.

Class of Worker:—A worker, other than a cultivator, agricultural labourer or a worker at household industry could be: (i) an Employer, that is, who hires one or more persons in his work; (ii) an Employee, that is, who does his work under others for wages or salary in cash or kind; (iii) a Single Worker, that is, who is doing his work without employing others, except casually, and without the help of other members of the family, except casually (this includes workers working as members of a co-operative); and (iv) a Family Worker, that is, who is doing his work in his own family without wages or salary in cash or kind. A person could be an employee in a household industry also.

PRINCIPAL AND SECONDARY WORKER:

Table B-VII Part A and Part B involve the concepts of principal and secondary work. For every worker the principal work had to be indicated in the case of a person who was engaged in more than one work, and also the secondary work if he was engaged in two or more than two productive activities. The concepts of primary and secondary work had nothing to do with the income accruing to a person from his work. The principal work of a person was that activity which took up most of his time; similarly the secondary work (in case a person was engaged in two or more than two kinds of work) was that which took up less time than the principal work but greater than the other kinds of work. Unless specifically stated to the contrary in the table heading itself the tables in the Handbook are based on the principal work of a person.

Non-workers:—The non-working section of the population also was divided into eight classes according to the nature of their activities. Thus a non-worker could be (i) a full time student or child attending school, (ii) a person engaged in home duties (like a housewife or other adult female who does no other work) (iii) dependent including an infant or child not attending school, a person permanently disabled from work because of illness or old-age; (iv) a retired person who is not employed again, rentier, a person living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work and who does no other work; (v) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence; (vi) a convict (not an undertrial who was to be recorded for the work he did before being admitted to Jail); (vii) persons who were seeking employment for the first time; and (viii) persons who previously had worked, but were out of employment, and were again seeking work.

Education Levels:—A person was treated as illiterate if he did not satisfy the test of literacy, this meaning the ability both of reading and writing. The test of reading was held to be satisfied if a person could read printed matter or easily legible manuscripts. The test of writing was the ability to write a simple letter. The minimum educational level is primary or junior basic, and this includes all persons who have passed this examination but have not passed the next higher level examination *i.e.*, matriculation or higher secondary. Persons who had formal schooling but had not passed the primary or junior basic level examination were literates without any educational levels. A person belonging to any particular educational level means a person who has passed the examination denoting that level.

INDUSTRIAL AND OCCUPATIONAL CLASSIFICATION OF WORKERS:

Workers have also been classified according to their occupation and industry. The concepts of 'industry' and 'occupation' are of fundamental importance in connection with all economic activity and it is necessary that they should not be confused with each other. By "industry" is meant the sector of economic activity in which a worker is engaged *e.g.*, the textile industry, mining industry, etc., whereas by 'occupation' is meant the exact function that a worker performs in that sector *e.g.*, fitter, carpenter, typist, etc. Occupation thus is "a trade, profession or type of work performed by an individual independent of the worker's industry, status or years of experience".

THE INDIAN STANDARD INDUSTRIAL CLASSIFICATION (I. S. I. C.):

The industrial classification used in some of the economic tables of this hand-book is the 'Standard Industrial Classification' prepared by the Ministry of Labour and Employment, Government of India. Under this scheme of classification, the whole range of economic activity is divided into nine 'divisions', and a code number is given to each. The first digit of the code number of any specific economic activity stands for the 'Division' under which that activity is classified. Each division is then divided into a number of major groups not exceeding ten. The first and second digits of the code number represent the division and the major group into which an economic activity is classified. Each major group is again sub-divided into a number of minor-groups not exceeding ten, and the first, second and third digits in the code number of any economic activity represent the division, the major group and the minor group into which it is classified. To illustrate, the industrial 'code', '261', represents an economic activity corresponding to minor group 261 in major-group 26 of Division 2. A reference to the Standard Industrial Classification will show that the minor group code stands for the economic activity 'Dying and bleaching of silk' in the major group 'Textiles Silk' of the Division: 'Manufacturing'. The 'Divisions', 'Major Groups' and 'Minor Groups' of the Standard Industrial Classification are printed immediately after this note as Appendix I.

NATIONAL CLASSIFICATION OF OCCUPATIONS (NCO):

Table B-V gives the occupational classification by sex of persons at work other than cultivation. This classification is based on the 'National Classification of Occupations' prepared by the Ministry of Labour and Employment, Government of India. Each *occupation* is represented by a code number containing a number of digits (extending in the NCO upto 5). We have used only the three digit Code number for classifying occupation. All occupations are divided into ten divisons to each of which a digit is allotted. The first digit of the code number of an occupation stands for the 'Division' into which it is classified. Each division is then sub-divided into a number of groups not exceeding ten. The first and second digits of the code number represent the 'Division' and 'Group' into which an occupation is classified. Each group again is divided into a number of families not exceeding ten and the first three digits of the code number stand for the division, group and family into which an occupation is classified. To illustrate, the code number 911 stands for the family 911 (Cooks, cook-bearers, domestic and institutional) included in the Group 91 (Housekeepers, Cooks, Maid and related workers) included in the 'Division' 9 (Service, Sport and Recreation workers). The Divisions, Groups, and Families of the National Classification of Occupations are printed after this note as Appendix II.

It may be mentioned that the three digit industrial code can easily be extended into a four-digit code on the principles illustrated earlier to secure greater precision in the classification of the economic activitity of a worker. This has in fact been done in case of workers at household industry, and these four-digit code numbers have been used in Table B XIV Part B.

B—(ii) Household Economic Tables:—Tables belonging to this series differ from others in two respects: (i) they have been prepared from information recorded on the household schedules, while the other tables are prepared from information recorded on the individual slips; (ii) whereas the other tables are based on the total population, the tables in this series are prepared from the data contained in a 20% sample of all households. The instructions for selecting the sample are reproduced below:—

"Every fifth household from the starting random household will be selected to make a 20% sample. The sample household will be marked continuously for rural areas of a tahsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.

"Before making the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a Taluka or Tahsil in the case of a rural area and in the order of location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tahsil and for

the urban area of the district. From the first random household every fifth household should be continuously stamped as selected..... The sample should be continuously marked for all the pads of villages in a tahsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after marking of the sample household, the housedolds left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household".

C.—Social and Cultural Tables:

This series contains 8 tables of which Table C-1 is prepared from data abstracted from the 20% sample of households.

Marital Status:—As regards marital status a person could be (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated. The figures given do not necessarily indicate the legal position. Thus, persons who lived together as man and wife and who were regarded as such by society were treated as 'married' even though there might not be any legally valid marriage between them.

Age.—The age of a person was recorded in completed years as on the last birth day at the time of enumeration, so that a child who had not completed a year of its existence was recorded as of age '0' Inspite of the best efforts, distortion of ages is common phenomenon in Indian Census. This distortion is ascribable to the combined effect of a variety of causes like, for example, digit-preference, age-bias and estimation error and its most obvious manifestation is the heaping of the ages at digits ending in 0 or 5 and in even rather than in odd numbers.

Mother Tongue:—Mother tongue is the language spoken in childhood by a person's mother to the person, or mainly spoken in the household.

Religion:—Separate figures are given only for the six main religions: Hindu, Muslim, Jain, Sikh, Christian and Buddhist. Figures for persons professing other religions have been clubbed together under the head: Other Religions and persuasions'

Scheduled Castes and Scheduled Tribes:—In view of the constitutional safeguards guaranteed to persons belonging to scheduled castes and scheduled tribes with a view to ameliorate their social and economic condition, basic census figures are for the first time being published separately for each scheduled caste and scheduled tribe. A scheduled caste or a scheduled tribe means a caste or a tribe included in the Order issued by the President of India under Articles 341 (1) and 342 (1) of the Constitution, amended, if necessary in accordance with Articles 341 (2) and 342 (2) thereof. It should be remembered that the population of a particular scheduled caste or tribe as given in the tables does not necessarily mean the entire population of that caste or tribe in the district. This is so because scheduling of a caste or tribe under the Constitution is *territorial* so that a caste or a tribe scheduled in a district, (or a tahsil or tahsils of a district) is not necessarily a scheduled caste in other districts (or other tahsils of the same district). Thus Gond is a scheduled tribe in all tahsils of Jabalpur District except Jabalpur Tahsil so that the figures for Gond population in Jabalpur District exclude the Gonds of Jabalpur Tahsil. Secondly, some of the scheduled tribes have not been given independent status in some parts of the State by the Order but have been clubbed together with some major tribe, while, in other parts of the State, they have not been so clubbed but have been included as distinct scheduled tribes. Thus, in the districts of the Mahakoshal region of the State, the tribe Agaria has been clubbed, along with many another, with Gond as the latter's sub-tribe. In these districts, therefore, figures relating to Agaria tribe, whose ethnic identity with Gond is controversial, do not appear independently in the tables of these districts, but are included in the figures for Gond. In the Vindhya Pradesh region, however, Agaria is Scheduled tribe in its own right and in the districts belonging to that region Agaria population appears separately in the relevant tables.

Religion of Scheduled Castes and Tribes:—A scheduled caste can exist only in Hindu and Sikh religions and in no other religion. A scheduled tribe, however, may be found in any religion.

E—Housing Tables:—The Handbook includes five tables on housing. In using these tables, it should be remembered that they are prepared from the data on households abstracted from the 'Houselists'. Tables E-I and E-III are based on the full count while table E-II, E-IV and E-V are prepared from a 20% sample of households entered in the Houselists. Houselisting was non-synchronous with census proper, having taken place in the month of September-October, 1960, about five month before the reference date of the Census. Also, the population of households entered in the houselists is not necessarily identical with the population of households in respect of which household schedules were filled at the time of the Census. Thus the samples of households drawn from the household schedule, and from the house lists are different samples.

The instruction for drawing the 20% sample of households from the houselists are reproduced below:—

"Before marking the sample households the Houselists should be arranged in order of location code numbers in the case of rural areas for tahsil etc., and in the case of urban areas other than towns with population of 50,000 and over. In the case of towns with population of 50,000 and over the Houselists should be arranged in order of blocks. The first sample household should be chosen randomly among the first five households in the first Houselist. From that every fifth household from the first random household should be continuously marked..... The sample should be marked continuously for all the Houselists. If in a particular Houselist at the end two households are left after the marking of the sample households then these households should be carried over to the next Houselist and the third household in that list should be marked as sample households".

Census House and Census Households:—The concepts of "building" "house" and "household" are important and differ somewhat from their connotations in common speech. A building refers to the entire structure on the ground. A census house is a structure or part of structure inhabited or vacant or a dwelling, a shop, a shop-*cum*-dwelling or place of business, workshop, school etc., with a separate entrance. A census house was thus a building, or part of a building with a separate entrance. A census house could have a variety of uses, residential as well as non-residential; or it might be vacant (at the time of houselisting).

A household was defined as "a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so." A household necessarily lived in a census house or part of a census house. The definition of a household was broad enough to include all persons living together in a census-house and dining from the same kitchen, even if they were not related to one another. Such were the institutional households, like jails, hostels, hospitals etc. The house in which a household lived could either be owned or rented. All census-houses which were not owned by the households living in them were treated as 'rented' even though no rent was being actually paid.

"Factory" and "Workshop":—As is clear from its definition, a Census house could be a workshop. A workshop is a place where some kind of production, repair or servicing goes on, or where goods or articles are made and sold. A bigger workshop which was either registered under the Indian Factories Act or was of the scale of a registered factory was returned as a factory. For a manufacturing, repairing or servicing establishment to be registered under the Indian Factories Act, it should have ten or more workers if using power and twenty or more workers if not using power.

VILLAGE DIRECTORY AND ITS APPENDICES:

Village Directory:—The Village Directory corresponds to the Primary Census Abstract of the 1951 Census. It gives for each village of the district: (a) information relating to area, census houses, households, scheduled castes and scheduled tribes and literacy; and (b) the classification of the population into workers and non-workers, and again 'workers' into their 'Industrial Categories' separately for both the sexes. For facilitating comparison with the Census Handbook of 1951 the serial number at which the village is to be found in 1951 Handbook is also given. A new feature introduced in this Census is the presentation of additional information about each village relating to schools, hospitals, child and maternity welfare centres, medical practitioners, electricity, post and telegraph offices etc. This has been done by entering symbols against the name of each village. Another novel feature is the presentation in eleven appendices of useful information relating to villages and towns *i.e.*, industrial establishments, places situated on bus routes, or within five miles of a railway station, places having pucca wells, markets, public reading rooms, drains etc.

To enable the reader to locate the village in the Village Directory without much difficulty, an alphabetical index of village names is given. This gives for each village the 1961 location code number of the village (in the Village Directory, villages are arranged according to their Location Code Numbers); and its location code number in the 1951 Hand-book.

APPENDIX—I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions, major groups and minor groups with their Code numbers are listed below.

Major Group (Code)	Description	Minor Group (Code)
	Division 0—Agriculture, Livestock, Forestry, Fishing and Hunting.	
00	Field Produce and Plantation Crops:—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines & orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 & flowers) not covered above	009
01	Plantation Crops:—	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	Forestry and Logging:—	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	Fishing:—	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	Livestock and Hunting:—	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax, and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047

Major Group (Code)	Description	Minor Group (Code)
	Production of other animal husbandry products such as skin, bone, ivory & teeth	048
	Division 1—Mining and Quarrying:—	
10	Mining and Quarrying:—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Division 2 & 3—Manufacturing:—	
20	Foodstuffs:—	
	Production of rice, atta, flour, etc. by milling, Dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur, from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	Beverages:—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice-cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products:—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacoo	225
	Manufacture of other tobacco products	226
23	Textile—Cotton:—	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239

Major Group (Code)	Description	Minor Group (Code)
24	Textile—Jute:—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool:—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk:—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	Textile—Miscellaneous:—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of water-proof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding, and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products:—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture & fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	Paper and paper Products:—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	Printing and Publishing:—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301

Major Group (Code)	Description	Minor Group (Code)
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stiching, sizing and other allied work connected with binding industry	303
31	Leather and Leather Products:—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather foot-wear	314
	Repair of all other leather products except footwear	315
32	Rubber, Petroleum and Coal Products:—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	Chemicals and Chemical Products:—	
	Manufacture of basic industrial chemicals such as acids, alkalis & their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals & chemical products not covered above (including inedible oils and fats)	339
34	Non-metallic Mineral Products other than Petroleum and Coal:—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	Manufacture of earthenware and earthen pottery:—	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357

Major Group (Code)	Description	Minor Group (Code)
35	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	Basic Metals and their products except Machinery and Transport Equipment:—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating. (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	Machinery (All kinds other than transport) and Electrical Equipment:—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	Transport Equipment:—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats, and manufacture of marine engines	386
	Manufacture & repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39	Miscellaneous manufacturing Industries:	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of Musical Instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
	Division 4—Construction	
40	Construction:—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	Electricity and Gas:—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of Gas in gas works and distribution to domestic and industrial consumers	502
51	Water Supply and Sanitary Services:—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
	Division 6—Trade and Commerce	
60	Wholesale Trade:—	
	Wholesale trading in cereals and Pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish dairy products eggs, poultry and other foodstuff (not covered else where)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
61	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
62	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
63	Wholesale trading in paper and other stationery goods	630

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64	Retail Trade:—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeats, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrellas, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
66	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and papers	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
67	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	Trade and Commerce Miscellaneous:—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7.—Transport, Storage and Communication:		
70	Transport:—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	Storage and Ware Housing:—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold-storage	721
	Operation of storage of other type	722
73	Communication:—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8.—Services:		
80	Public Services (This does not include Govt., Quasi-Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing & operation of financial institution each of which is classified in the appropriate industry groups):—	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc.	805
	Public service in administrative departments and offices of State Governments	809
81	Educational and Scientific Services:—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	Medical and Health Services:—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic particulars	820
	Veterinary services rendered by organisations and individuals	821

Major Group (Code)	Description	Minor Group (Code)
83	Religious and Welfare Services:—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for promotion of welfare of the community such as relief societies red-cross organisation for the collection and allocation of contribution for charity	832
84	Legal Services:—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organizations and individuals	841
85	Business Services:—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as of those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news agency, news paper correspondent, columnist, journalists, editors, authors	853
86	Community Services and Trade and Labour Associations:—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political, and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	Recreation Services:—	
	Production of motion picture and allied services such as processing editing etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor etc. racing.	873
88	Personal Services:—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hair-dressing saloon and beauty shops	884
	Services rendered by portrait and commericial photographic studios	885
89	Services (not elsewhere classified):—	
	Services rendered by organisations or individuals not elsewhere classified	890
	Division 9—Activities not adequately descirbed:	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900
	Fresh entrants to the Labour Market	999

APPENDIX—II

NATIONAL CLASSIFICATION OF OCCUPATIONS

(Code Structure)

Which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Note I.—The Classification does not provide separate code numbers for Apprentices, Foremen and Instructors (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C" respectively before the code number of the occupation which is being learned, supervised or instructed.

Note II.—n. e. c.—not elsewhere classified.

DIVISIONS, GROUPS AND FAMILIES

0 *Professional, Technical and Related Workers*:

00 Architects, Engineers and Surveyors:—

- 000 Architects
- 001 Civil Engineers (including overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 Chemists, Physicists, Geologists and other Physical Scientists:—

- 010 Chemists, except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicist
- 015 Mathematicians
- 019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.

02 Biologists, Veterinarians, Agronomists & Related Scientists:—

- 020 Biologists and Animal Scientists
- 021 Veterinarians
- 022 Sliviculturists
- 023 Agronomists and Agricultural Scientists
- 029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.

03 Physicians, Surgeons and Dentists

- 030 Physicians and Surgeons, Allopathic
- 031 Physicians, Ayurvedic
- 032 Physicians, Homeopathic
- 033 Physicians, others
- 034 Physiologists
- 035 Dentists
- 039 Physicians, Surgeons and Dentists, n.e.c.

04 Nurses, Pharmacists and other Medical & Health Technicians:—

- 040 Nurses
- 041 Midwives and Health Visitors
- 042 Nursing Attendants and Related Workers
- 043 Pharmacists and Pharmaceutical Technicians
- 044 Vaccinators
- 045 Physiotherapists, Masseurs and Related Technicians
- 046 Sanitation Technicians
- 047 Optometrists and Opticians
- 049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091).

05 Teachers:—

- 050 Teachers, University
- 051 Teachers, Secondary Schools
- 052 Teachers, Middle and Primary Schools
- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.

06 *Jurists*:—

- 060 Judges and Magistrates
- 061 Legal Practitioners and Advisers
- 062 Law Assistants.
- 069 Jurists, and Legal Technicians (including Petition Writers)

07 Social Scientists and Related Workers:—
- 070 Economists
- 071 Accountants and Auditors
- 072 Statisticians and Actuaries
- 073 Geographers
- 074 Psychologists
- 075 Personnel Specialists
- 076 Labour and Social Welfare Workers
- 077 Sociologists and Anthropologists
- 078 Historians, Archeologists, Political Scientists and Related Workers
- 079 Social Scientists and Related Workers, n.e.c.

08 Artists, Writers and Related Workers:—
- 080 Authors
- 081 Editors, Journalists and Related Workers
- 082 Translators, Interpreters and Language Specialists
- 083 Painters, Decorators and Commercial Artists
- 084 Sculptors and Modellers
- 085 Actors and Related Workers
- 086 Musicians and Related Workers
- 087 Dancers and Related Workers
- 089 Artists, Writers and Related Workers n.e.c.

09 Draughtsmen, and Science and Engineering Technicians, n.e.c.
- 090 Draughtsmen
- 091 Laboratory Assistants
- 099 Science and Engineering Technicians, n.e.c.

0X Other Professional, Technical and Related Workers:—
- 0X0 Ordained Religious Workers
- 0X1 Non-ordained Religious Workers
- 0X2 Astrologers, Palmists and Related Workers
- 0X9 Other Professional, Technical and Related Workers, n.e.c.
- 0X4 Geographers

1 *Administrative, Executive and Managerial* Workers
- 0X3 Librarians, Archivists and Related

Workers:

10 Administrators and Executive Officials, Government:—
- 100 Administrators and Executive Officials, Central Government (All Defence Services Personnel to be included in this family)
- 101 Administrators and Executive Officials, State Government
- 102 Administrators and Executive Officials, Local Bodies.
- 103 Administrators and Executive Officials, Quasi-Government
- 104 Village Officials
- 109 Administrators and Executive Officials, Government, n.e.c.

11 Directors and Managers, Whosesale and Retail Trade:—
- 110 Directors and Managers, Wholesale Trade
- 111 Directors and Managers, Retail Trade

12 Directors, Managers and Working Proprietors, Financial Institutions:—
- 120 Directors, Managers and Working Proprietors, Banks
- 121 Directors, Managers and Working Proprietors, Insurance
- 129 Directors, Managers and Working Proprietors, Financial Institutions,

13 Directors, Managers and Working Proprietors, other:—
- 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
- 131 Directors, Managers and Working Proprietors, Construction
- 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary.
- 133 Directors, Managers and Working Proprietors, Manufacturing
- 134 Directors, Managers and Working Proprietors, Transport and Communication
- 135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services
- 136 Directors, Managers and Working Proprietors, Other Services
- 139 Directors, Managers and Working Proprietors, n.e.c.

2 *Clerical and Related Workers*:

20 Book-keepers and Cashiers:—
- 200 Book-keepers, Book-keeping and Accounts Clerks
- 201 Cashiers
- 202 Ticket Sellers and Ticket Inspectors including ushers and Ticket Collectors (excluding those on moving transport)

21 Stenographers and Typists:—
- 210 Stenographers
- 211 Typists

22 Office Machine Operators:
- 220 Computing Clerks and Calculating Machine Operators
- 221 Punch Card Machine Operators
- 229 Office Machine Operators, n.e.c.

28 Clerical Workers, Miscellaneous:—
- 280 General and other Ministerial Assistants and Clerks
- 289 Miscellaneous Office Workers including Record keepers, Moharrers, Diaphers, Packers and Binders of office papers.

29 Unskilled Office Workers:—
- 290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

3 *Sales Workers*:

30 Working Proprietors, Wholesale and Retail Trade:—
- 300 Working Proprietors, Wholesale Trade
- 301 Working Proprietors, Retail Trade

31 Insurance and real estate salemen, salesmen of securities and services, and auctioneers:—
- 310 Agents and Salesmen, Insurance
- 311 Agents, Brokers and Salesmen, Real Estate
- 312 Brokers and Agents, Securities and Shares
- 313 Auctioneers
- 314 Valuers and Appraisers
- 319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

32 Commercial Travellers and Manufacturers' Agents:—
- 320 Commercial Travellers
- 321 Manufacturers' Agents
- 329 Commercial Travellers and Manufacturers' Agents, n.e.c.

33 Salesmen, Shop Assistants and Related Workers:—
- 330 Salesmen and Shop Assistants, Wholesale and Retail Trade
- 331 Hawkers, Pedlars and Street Vendors
- 339 Salesmen, Shop Assistants and Related Workers, n.e.c.

34 Money-Lenders and Pawn-Brokers:—
- 340 Money-Lenders (including Indigenous Bankers)
- 341 Pawn-Brokers

4 *Farmers, Fishermen, Hunters, Loggers and Related Workers*:

40 Farmers and Farm Managers:—
- 400 Cultivators (Owners)
- 401 Cultivators (Tenants)
- 402 Farm Managers, Inspectors and Overseers
- 403 Planters and Plantation Managers
- 404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
- 409 Farmers and Farm Managers, n.e.c.

41 Farm Workers:—
- 410 Farm Machinery Operators
- 411 Farm Workers, Animals, Birds and Insects Rearing
- 412 Gardeners (malis)
- 413 Tappers (Palm, Rubber trees, etc.)
- 414 Agricultural Labourers
- 415 Plantation Labourers
- 419 Farm Workers, n.e.c.

42 Hunters and Related Workers:—
- 420 Hunters
- 421 Trappers
- 429 Hunters and Related Workers, n.e.c.

43 Fishermen and Related Workers:—
- 430 Fishermen, Deep Sea
- 431 Fishermen, Inland and Coastal Waters
- 432 Conch and Shell gatherers, Sponge and Pearl Divers
- 439 Fishermen and Related Workers, n.e.c.

44 Loggers and other Forestry Workers:—
- 440 Forest Rangers and Related Workers
- 441 Harvesters and Gatherers of Forest Products including lac (except logs)
- 442 Log Fellers and Wood Cutters
- 443 Charcoal Burners and Forest Product Processors
- 449 Loggers and other Forestry Workers, n.e.c.

5 *Mines, Quarrymen and Related Workers*:

50 Miners and Quarrymen:—
- 500 Miners
- 501 Quarrymen

502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.

51 Well Drillers and Related Workers:—
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas

52 Mineral Treaters:—
520 Mineral Treaters

59 Miners, Quarrymen and Related Workers, n.e.c.:—
590 Miners, Quarrymen and Related Workers, n.e.c.

6 *Workers in Transport and Communication Occupations*:

60 Deck Officers, Engineer Officers and Pilots, Ship:—
600 Deck Officers and Pilots, Ship
601 Ship Engineers

61 Deck and Engine-room Ratings (Ship), Barge Crews and Boatmen:—
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship

62 Aircraft Pilots, Navigators and Flight Engineers:—
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators

63 Drivers and Firemen, Railway Engine:—
630 Drivers
631 Firemen

64 Drivers, Road Transport:—
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

65 Conductors, Guards and Brakesmen (Railway):—
650 Conductors
651 Guards
652 Brakesmen

66 Inspectors, Supervisors, Traffic Controllers, Despatchers, Transport:—
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen

67 Telephone, Telegraph and Related Telecommunication Operators:—
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.

68 Postmen and Messengers:—
680 Postmen
681 Messengers (including Dak Peons)

69 Workers in Transport and Communication Occupations, n.e.c.
690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupation, n.e.c.

7-8 *Craftsmen, Production Process Workers, and Labourers not elsewhere classified*:

70 Spinners, Weavers, Knitters, Dyers and Related Workers:—
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers (excluding Printers)
706 Bleachers, Dyers and Finishers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.

71 Tailors, Cutters, Furriers and Related Workers:—
- 710 Tailors, Dress Makers and Garment Makers
- 711 Hat and Head-gear Makers
- 712 Furriers
- 713 Upholsterers and Related Workers
- 714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
- 715 Sewers, Embrioderers and Darners, Textile and Fur Products
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.

72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers:—
- 720 Shoe Makes and Shoes Repairers
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers
- 722 Harness and Saddle Makers
- 729 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers, n.e.c.

73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers:—
- 730 Furnacemen, Metal
- 731 Annealers, Temperers and Related Heat Treaters
- 732 Rolling Mill Operators, Metal
- 733 Blacksmiths, Hammersmiths and Forgemen
- 734 Moulders and Coremakers
- 735 Metal Drawers and Extruders
- 739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers n.e.c.

74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers:—
- 740 Precision Instrument Makers, Watch and Clock Makers and Repairmen
- 741 Jewellers, Goldsmiths and Silversmiths
- 742 Jewellery Engravers

75 Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers:—
- 750 Fitter-Machinists, Tool-makers and Machine Tool Setters
- 751 Machine Tool Operators
- 752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
- 753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
- 754 Sheet Metal Workers
- 755 Plumbers and Pipe Fitters
- 756 Welders and Flame Cutters
- 757 Metal Plate and Structural Metal Workers
- 758 Electro-Platers, Dip-Platers and Related Workers
- 759 Tool-Makers, Machinists, Plumbers, Welders, Platers and Delated Workers, n.e.c. (including Metal-engravers other than printing)

76 Electricians and Related Electrical and Electronics Workers:—
- 760 Electricians, Electrical Repairmen and Related Electrical Workers
- 761 Electrical and Electronics Fitters
- 762 Mechanics-Repairmen, Radio and Television
- 763 Installers and Repairmen, Telephone and Telegraph
- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.

77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers:—
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Coopers. and Related Workers, n.e.c.

78 Painters and Paper Hangers:—
- 780 Painters and Paper Hangers

79 Bricklayers, Plasterers and Construction Workers n.e.c.:—
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers

793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n.e.c.

80 Compositors, Printers, Engravers, Book-Binders and Related Workers:—
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-lithographers
806 Engravers, Etchers & Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.

81 Potters, Kilnmen, Glass and Clay Formers and Related Workers:—
810 Furnacemen, Kilnmen and Ovenmen
811 Potters, and Related Clay Formers
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.

82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers:—
820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
821 Crushers and Pressers, Oil Seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
824 Bakers, Confectioners, Candy and Sweetmeat Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.

83 Chemical and Related Process Workers:—
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.

84 Tobacco Preparers and Products Makers:
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.

85 Craftsmen and Production Process Workers n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

86 Testers, Packers, Sorters and Related Workers:—
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers

87 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers:—
870 Operators, Stationary Engines and Related Equipment

871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine, and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.

89 Labourers, n.e.c.:—
890 Loaders and Unloaders
899 Labourers, n.e.c.

9 *Service, Sports and Recreation Workers.*

90 Fire Fighters, Policemen, Guards and Related Workers:—
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards, and Related Workers, n.e.c.

91 House Keepers, Cooks, Maids and Related Workers:—
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and other Servants (Domestic)
913 Ayas, Nurse-maids
919 House-Keepers, Cooks, Maids, and Related Workers, n.e.c.

92 Waiters, Bartenders and Related Workers
920 Waiters, Bartenders and Related Workers (Institutional)

93 Building Care-Takers, Cleaners and Related Workers:—
930 Building Care-Takers
931 Cleaners, Sweepers and Watermen

94 Barbers, Hairdressers, Beauticians and Related Workers:—
940 Barbers, Hairdressers, Beauticians and Related Workers

95 Launderers, Dry Cleaners and Pressers:—
950 Laundrymen, Washermen and Dhobies
951 Dry-cleaners and Pressers

96 Athletes Sportsmen and Related Workers:
960 Athletes, Sportsmen and Related Workers

97 Photographers and Related Camera Operators:—
970 Movie Camera Operators
979 Other Photographers

99 Service, Sports and Recreation Workers, n.e.c.:—
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n.e.c.

X *Workers not Classifiable by occupation*

X0 Workers without occupations:—
X00 Workers without occupations: Matriculates and above
X08 Workers without occupations: Literates
X09 Workers without occupations: Others

X8 Workers Reporting Occupation Unidentifiable or Unclassifiable:—
X80 Workers reporting occupations unidentifiable or unclassifiable

X9 Workers not Reporting Occupation:—
X90 Workers not Reporting occupation.

INTRODUCING THE DISTRICT

by

K. S. Bhatnagar

Deputy Superintendent of Census Operations,
Madhya Pradesh.

The District:

The district (area 2,015 sq. miles) is named after its headquarters Gwalior, (also the divisional headquarters) the principal city in North Madhya Pradesh. The old name of the district was Gird which in Urdu means near about or roundabout or in the vicinity. This perhaps indicated nearness to the Durbar, nearness to the seat of the ruler, which in the erstwhile States was quite an enviable distinction. The name Gird fell into disuse round about 1954-56. Gwalior, also was part time Capital of the erstwhile State of Madhya Bharat upto 31-10-1956, before its merger into present Madhya Pradesh. Gwalior is now the third biggest city of the State, its population being 300,587 and that of the district 657,876.

Gwalior District is situated between latitudes 25° 34' N and 26° 21'N and longitudes 77° 40' E and 78° 54' E. It comprises of three tahsils viz., Gwalior (Gird), Dabra (Pichhore) and Bhander. The district is not compact in as much as Bhander tahsil lies separated by some enclaves of Datia. The other two tahsils viz. Dabra and Gwalior however form a compact area. They are bounded by Morena District in the North and North-West, Bhind in North-East, Datia in the East and Shivpuri District in the West. To the north of Bhander lies Bhind, to the south-east lies Jhansi in Uttar Pradesh and in the west Datia.

The Name 'Gwalior' *

Gwalior gets its name from its famous rock-fortress on a flat hill, soaring 300' above the plains. The hill in the ancient times has been called by various names like 'Gopa Parvata', 'Gopagiri' or 'Gopadri' meaning a cowherd's hill. Gwalior was however founded by Suraj Sen, a Kachhwaha Prince, who came to the foot of the hill, where a hermit lived. Suraj Sen was a leper and asked the sage Gwalipa for water to drink. No sooner did he drink from this, he was cured. He asked the hermit, if he could do anything in return and was told to construct a Fort at the site. The fortress was soon built and named in the honour of the sage as 'Gwalidwar'. During the period that followed it was spelt differently as 'Gawaliar' 'Gwalher' till finally the spelling steadied itself to 'Gwalior'. The Kachhwaha dynasty came to an end in 1129 when Suraj Sen's eighty-fourth descendant Tej Karan was defeated by the Parihars. The construction of the fort is attributed to the Kachhwahas. What is now known as Greater Gwalior includes Lashkar, Gwalior and Morar (including the Cantonment).

Gwalior:-This represents the township around 26° 13' N and 78° 12' E situated at the foot of the hill, over which stands the majestic Fort. Here are also located the famous Gujri Mahal and the tombs of Mohammad Ghaus and Tansen.

Lashkar:-Two miles south of Gwalior referred to above and situated around 26° 12' N 78° 15' E lies Lashkar, a township which grew with the Marathas specially during the days of Scindia rulers of Gwalior. Maharaja Daulat Rao Scindia founded this as a camp for his troops in 1810. In 1818 according to one description it gave the impression of a big

* Based on:- (1) Archaeological Survey of India, Vol. III, Cunningham;
(2) 'Gwalior To Day' by michael Brown, 1940 Edition.

village.* This site slowly grew into a township and became the capital city of Scindias.

Morar:-Situated on river Morar around 26° 14' N and 78° 18' E it was a British Cantonment for keeping an eye on the growing power of the Scindia. It was founded in 1844 for Gwalior Contingent Force maintained by the British. The British returned Morar and the Fort to Scindia in exchange for Jhansi in 1885. Thereafter it remained a State Cantonment. Nowadays Indian Army Contingents are posted at Morar. The Cantonment has a separate local authority of its own (*i.e.* a Cantonment Board).

The Historical Background :

The earliest rulers£ of Gwalior region were the Nagas in the first century A. D. They were displaced by Kushans who were powerful upto the 3rd & 4th Century A.D. being defeated by the Nagas again in 4th Century A. D. This was followed by Gupta domination which towards the close of 5th Century began to crumble and gave way to Hunas. Mihirkula, a Hun was in possession of Gwalior in the early sixth Century. Thereafter followed a period of general confusion and only the advent of Harsha of Kanauj brought some clarity. Harsha died in 647 A.D. The next important ruler was Bhoja Deva who left two inscriptions dating to 875–76 A. D. Upto the middle of 10th Century the dynasty of Bhoja *i. e.* the Pratiharas continued to rule and then began disintegrating. Gwalior then slipped out of their hands. The Kachhwahas, a Rajput clan now appeared on the scene. Vajradaman captured the Fort. This must have been a little before 977 A.D. The Kachhwahas ruled Gwalior upto 1128 when Tej Karan also known as 'Dulha Rai' or the 'bridegroom prince' for he prolonged his honeymoon for a full year, and tempted Parihar Rajputs to usurp his throne, was ousted. Some say that Dulha Rai left to marry a daughter of chief of Daosa who offered him chieftainship of his principality. While Tej Karan failed to retain the throne, his *alter ego* Dulha Rai, succeeded in giving the folks, themes for quite a few romantic songs hummed in this side@.

In 1195 the Muslims arrived; Mohammad Ghori attacked Gwalior and was accepted as a suzerain: yet he had the Fort destroyed by Qutub-ud-din Aibak, who appointed Iltumish as the Commander. After 15 years the Hindus regained control, retaining it upto 1230 A. D. In 1231 Iltumish laid siege to the Fort and after some bitter fighting captured it. The Rajput women committed suicide according to the custom of *jauhar*. The spot is still known as *Jauhar kund*. The prisoners were executed: seven hundred were put to sword. Iltumish died in 1236 and with him weakened the hold of slave kings.

It was in 1258 that Balban captured the Fort placing Malik Nusarat-ud-din in-charge. Ibn Batuta visited the Fortress in 1342 and called it an 'impregnable fortress.' From 1398 the Fort passed into the hands of Birsingh a Tomar Rajput. With fluctuating fortunes the Tomars held the Fort and this period is known for some memorable Jain sculpture. The greatest among the Tomar rulers was Mansingh (1486-1517). Mansingh was a very versatile ruler. A great builder, he was passionately fond of music. It is said that out of the famous thirty-six musicians in Akbar's Court, sixteen including the incomparable Tansen belonged to Gwalior, where music flourished because of Mansingh's patronage. For his favourite queen 'Mrignayani' (*i.e.* the fawn eyed) a Gujar by caste, he built the Gujri Mahal, a marvellous palace which today houses some archaeological finds. Politically too, he was shrewd enough to maintain good relations with the Muslim rulers and yet be friendly with some rebels. In March 1501 however, Sikandar Lodi attacked Gwalior for the good relations had deteriorated. Although there were some initial reverses, Mansingh remained in control of Gwalior, till the end of his life. His successor Vikramjit however was defeated by Azam Humayun an Afghan and accepted the suzerainty of Sultan of Delhi. Thus the end came for the

@ Based on Imperial Gazetteer of India, Vol.XIII and Archaeological Survey Report, Cunningham, Vol. II.

Tomars.

In 1526 Babar defeated Ibrahim Lodi in the battle of Panipat: Gwalior was held by a general of Ibrahim Lodi, who professed allegiance to Babur but refused to hand over the Fort, which was occupied by Rahim Dad sent by Babar. Babar visited the Fort on 26 September 1528 and left a good account,* being particularly impressed by the lofty constructions during Mansingh's period. Five years later Humayun also visited Gwalior. In 1542 it passed on to Sher Shah who had by then ousted Humayun. Gwalior remained with the Surs till 1559 when it went back to the Mughals under Akbar's regime. For almost two hundred years it remained under the Mughals as a part of the *Subah*£ of Agra, Gwalior remaining a *Sarkar*·|· with thirteen *Mahals*×. The fort was used as a prison. Prince Khusru and Murad were imprisoned here. Prince Muhammad son of Aurangzeb was put to death here. After Aurangzeb's death the foundation of Mughal Empire began to totter and Deccan began to get out of Imperial control. By 1741 the Mughal Empire had become so feeble that Malwa finally went over to Balaji Rao Peshwa. The Fort was still in Mughal hands till the Mughal Commander surrendered it to Rana Bhimsingh of Gohad. (Gohad now is a tahsil place about 26 miles north east of Gwalior in Bhind district).

Among the Maratha generals of the day Ranoji Scindia was rising fast. He along with Holkar had been given the administration of Malwa. Ranoji Scindia is the founder of the House of Scindias, the family that ruled Gwalior, for a little over 200 years. He died in 1745 at Shujalpur (Shajapur district, M. P.) where his cenotaph stands.

In 1761 the battle at Panipat sealed the fate of Maratha expansionism, Mahadji Scindia a descendant of Ranoji survived the bloody battle and set about to re-group his forces and re-administer the State. By 1765 he took possession of the Fort and brought Scindias into dominance in Gwalior. The British in the meanwhile had started their excursions in Central India and it became plain to them that Marathas were a force to be contended with. Things moved fast and in 1780 the British fought the Marathas. A small desperate force under Maj. Popham succeeded in capturing the fort in August 1780 and Mahadji came to an understanding with the English by the treaty of Salbye. The Fort remained with Rana of Gohad, a British ally but it rankled Mahadji who in 1783 captured it back from the Rana. Mahadji recruited a French soldier of fortune Benoint de Boigne who trained the Scindia armies. Mahadji then built up his power and finally became a very powerful monarch dying in 1794. Mahadji died without an heir but had decided upon his successor *viz.* Daulat Rao.

Daulat Rao (1794–1827) laid the foundation of the modern Gwalior town. Prior to this the Scindia Capital was at Ujjain in Malwa. His reign marked wars against the Holkar, Nizam and the British. At Laswari in 1802 he was defeated and lost much of his territories. In 1810 he pitched his capital at the spot called Lashkar and this grew into the capital city. Daulat Rao died in 1827 and was succeeded by Jankoji (1827–43) (who left no heir) and was in turn succeeded by Jayaji Rao (1843–86). The widow of Jankoji, Tarabai acted as regent for some time. This was a period of palace intrigue, a rebellion and British intervention, who set up a Council of Regency to act upon the advice of the Resident. It was in 1853 that powers of administration were restored.

From 1853 onwards it was a period of able administration under Dewan Sir Dinkar Rao. The State was divided under three divi-

---

* Memoirs of Babar—Leyden and Erskin.

£ Suba or Subah:- Under the Mughal system of administration a Suba was equivalent to a province or State of to-day.

·|· Sarkar:- A Sub-division of Suba-like a district.

× Mahal:- A Sub-division of Sarkar.

sions each under a Sar Subah*. Administration was stream-lined and brought on to a rational plane. It was during his time that the Indian War of Independence (also described as Indian Mutiny of 1857) broke out. The pressure to join the rebel leaders like Rani of Jhansi or Tantya Tope must have been very great but despite all that Scindia remained loyal to the British. As the pressure for joining rebels mounted in June 1858 Scindia's loyal troops were over-run by rebels. Gwalior was captured but was soon relieved by Sir Hugh Rose and Brigadier Smith. In the engagement that followed the Rani of Jhansi, bravely leading her troops was mortally wounded. Even her enemies were full of admiration and Sir Hugh Rose said:- "The Rani of Jhansi was the bravest and best military leader of the rebels."£ Gwalior was delivered from the rebels and some reprisals followed. Gwalior Fort passed into British hands upto 1885 when it was restored to Scindia in exchange for Jhansi. Jayaji Rao died in 1886 and was succeeded by Madhao Rao (1886–1925) whose reign was ushered in many changes. The first municipality was formed in 1887. A Settlement and Survey of all lands was carried out. Panchayats were organised in 1912. Roads and Irrigation projects were constructed. Harsi Dam on river Parbati was completed in 1936. He was widely travelled and during his reign there was all round progress; a number of industries grew up. He died in 1925 and was succeeded by Maharaja Jiwaji Rao Scindia who reigned upto 28th May 1948 and then became the Rajpramukh of Madhya Bharat. During his reign momentous events took place. The Nationalist movement gathered momentum and the demand for representative government grew. A bi-cameral legislature was formed in 1939. It was known as Praja Sabha and Raj Sabha. The house had power to ask questions, discuss the budget and also to initiate legislation, however it was not till end of 1940 that the first non-official was appointed a minister. With the advent of Independence on 15 August 1947, the ruler signed the Instrument of Accession and on 28th May 1948 along with 24 States and Estates, Gwalior was merged to form the State of Madhya Bharat.

Gwalior and Indore claimed to be the Capital of the new State. A compromise was evolved and for seven months including winter the Capital was in Gwalior and for the remaining five months at Indore. This compromise formula came to an end with the formation of Madhya Pradesh on 1 November 1956, and all records were shifted to Bhopal. Since then Gwalior has been a district and Commissioner's divisional headquarters.

The Physical Features :

The western portion of the district is mostly a plateau which brings the Malwa plateau to an end. The highest hill feature being 1454' in Sirkoli forest. This area is mostly hilly and has some good forests. The east-west tract is also somewhat hilly but otherwise fairly clearly marked from the plateau and like the western portion has some forest. The south-eastern portion is the area of plains of river Sindh in Dabra Tahsil and Pahuj in Bhander. The Sind river forms the south-eastern boundary of the district and is a perennial river. The area is good for cultivation for the plains have fine deep soil. The soil being porous has caused the streams to erode their banks and thus all along the banks big and small ravines have appeared. In the north-eastern portion we again have plains consisting of rivers, valleys of rivers Sankh, Sonrekha, Morar and Vaisali. Soil erosion is considerable here. These four regions described above mark out prominently the distinguishing physical features.

The Geology:

The hill ranges are sandstone type and have withstood the erosion. In the western part the hill ranges are the Vindhyan type comprising of Kaimur sandstones. The rocks belonging to Gwalior system are found to the

*Sar Subah:-In Gwalior State 'Subah' stood for Collector or the Deputy Commissioner. Sar Subah was equivalent to a Commissioner. The area assigned to Sar Subah then roughly corresponds to about 3/4 districts of today.

£ J. Sylvester:-Recollection of the Campaign in Malwa and Central India.

east and south of the city. Areas in the southern parts towards Shivpuri and Guna Districts are covered by Deccan traps and in the northern area some patches laterite also appear. Commercially sandstone is used for building. Limestone is quarried locally along with some varieties of clay.

Flora and Fauna:

The nature of soil and climate of the district do not encourage thick vegetation. Nearly 500 sq. miles of the area is covered by forests. Much of this is commercially not important being mostly covered with grass. The following trees are found:—

(*i*)	*Tendu*	*Diospyros melanoxylon*
(*ii*)	*Salai*	*Boswellia serrata*
(*iii*)	*Ber*	*Zizyphus jujuba*
(*iv*)	*Chhola*	*Butea frondosa*
(*v*)	*Reonjha*	*Acacia lencopholea*
(*vi*)	*Dhow*	*Anogeissus latifolia*
(*vii*)	*Ghont*	*Zizyhus zylepyrus*
(*viii*)	*Kardhai*	*Anogeissus pendula*
(*ix*)	*Khair*	*Acacia catechu*

Fauna:

A fairly wide variety of wild life is met with because of the forests. Tigers (*Felix tigris*); Panthers (*Felix pardus*); spotted deer; black buck (*Antilope cervicapra*) blue bull *chinkara* (*Gozella benetii*); sloth bear; *sambhar* jackal; foxes; monkeys are frequently found. Shooting blocks have been specially preserved. Apart from the common varieties of the birds the following game birds are also met with:—

Grey partridges (*Froncolinus pondicarianus*); Snipes (*Capella gallinage*); *Pea-fowl* (Pair cristatus); Fishes that are commonly found are *mahseer*, *labeo* including *rohu*, *kalbans*, *mirghals* and *naraina*, *mural*, *tangara*, mullet, fresh water shark and the Indian trout. The wild life once plentiful has now become meagre. This is partly due to indiscriminate shooting and also to more area having been brought under cultivation.

The Rivers, Tanks and Lakes:

All the rivers of the district join the Yamuna, the northern ones through the Chambal and the southern ones through the Sind. The important rivers of the district are the Sankh, the Sonrekha, the Morar, the Vaisali the Nun, the Asan, the Chachhond, the Parbati and the Pahuj. Except the Sind which retains a fair amount of water, the others in summer dwindle into a small trickle.

The Sankh:– flows in north eastern direction. It is dammed at Tighra from where the drinking water is supplied to the city of Gwalior.

The Sonrekha:– is a tributary of Sankh, and flows across the heart of the city.

The Vaisali:– Vaisali is one of the largest rivers of the district, being a tributary of the Sind. Its banks are heavily eroded and Morar river is its tributary.

The Morar:– The river flows in the north western direction, to the north of Morar Cantt. and has been dammed at three places.

The Sind:– This is the biggest river of the district rising in Vidisha, flowing for about 200 miles before meeting the Yamuna. It also serves as the boundary of the district.

The Parbati:– In Gwalior district she is dammed at Kaketo and Harsi, the latter being the biggest dam in the district. It joins river Sind.

The Nun:– A tributary of Sind. It has been dammed for irrigation.

The Asan:– It flows across Gwalior and Morena districts. Pagara dam on it in Morena district irri-

gates lands in Bhind and Morena districts.

The Pahuj:- It flows in the plains of Bhander tahsil and forms the boundary with Uttar Pradesh.

None of these rivers are suitable for navigation.

The important tanks and lakes of the district are:- (1) Harsi (6,400 acres) in Dabra-Pichhore tahsil; (2) Tigra (4,805 acres) in Gird tahsil; (3) Kaketo (1,935 acres) in Dabra (4) Ramna (865 acres) in Gwalior and (5) Tekanpur (842 acres) in Pichhore (Figures in brackets indicate the area irrigated by each tank.

Climate and Rainfall:

The seasons are well marked. The district receives rains from the westerly winds. The monsoons set in from early July or round about the last week of June and continue till about early October. As the monsoons recede the month of October becomes hot. The average of rainfall is 732 mm. or [28.83"] per annum. From November the weather gets pleasant and cool. December January, are the coolest months when winter becomes severe and dry causing the skin to chafe; the lowest temperature reached is 0° C or 32° F. February is again pleasant but towards the middle of March it begins to get warm and by the end of April and May the summer is at its worst. The mercury shoots up to 118°F or 48.3 ° C. The climate on the whole is of the dry type. In the month of May hot winds called *loo* blowand even at night there is little respite. The area near town being rocky and of sparse vegetation appears to radiate heat particularly during the night.

II

THE ADMINISTRATIVE INSTITUTIONS

The Administrative set-up:

Administration on the existing lines was first established in some form in 1853. The State was divided into *Prants* (divisions) *Zilas* (districts) and *Parganas* (tahsils) with Sar Subahs, Subhas and Kamavisdars in over all charge respectively. The passage of time brought changes in the duties and today a Collector who is also the District Magistrate is responsible for administration. The Collector is assisted by five Deputy Collectors one of whom is designated as the Additional District Magistrate. Each tahsil is a sub-division under the M. P. Land Revenue Code 1959 and is held by a Deputy Collector who is designated as the Sub-Divisional Officer. He is also the Sub Divisional Magistrate of the area. Thus three Deputy Collectors take on the work as the Sub Divisional Officers and also assist the Collector in matters of routine administration. Work pertaining to department and other sections is entrusted to one of the assistants. The Sub Divisional Officers and other Deputy Collectors are all resident at Gwalior.

At the tahsil headquarters the executive functions are discharged by a Tahsildar who is a member of the Subordinate Civil Service [executive] and is assisted by Naib Tahsildar. The Tahsildar is also a Second Class Magistrate invested with special powers so as to be effective in maintaining law and order.

At the village, the maintenance of all land records is the duty of a Patwari who is appointed for one or a group of villages. His work is supervised and checked by a Revenue Inspector. The break up is as follows:-

Tahsil	No. of R. I. Circles	No. of Patwari Circles
Gird	4	92
Pichhore	4	110
Bhander	2	63

The duties of the Collector are multifarious. He is the Chief Revenue Authority of the district and as such he is responsible for collection and deposit of land revenue, maintenance of all land records and is also a court of appeal and original jurisdiction in revenue matters. He is responsible for the maintenance of law and order and in this capacity the district police force assists him.

His magisterial powers are however restricted by the executive instructions of the Government for there is complete separation of the executive from the judiciary. With the pressure of Five Year Plans the Collector also becomes the main agency for execution of these works. As a Chairman of the District Advisory Committee his functions are considerably enlarged. There are five Development Blocks in the district located at (1) Dabra, (2) Bhitarwar, (3) Bhander, (4) Morar and (5) Ghatigaon (Gwalior). Apart from these there are scores of non-statutory duties. The Collector is subject to supervisory control of the Commissioner.

The police force at Gwalior is under the administrative charge of a Senior Superintendent Police who looks after the city, assisted by a City Superintendent of the rank of a Deputy Superintendent of Police. In addition to him there is an Additional S.P. [Rural] who looks after the rest of the district. Gwalior is also the headquarters of the D.I.G. for the Northern Range. Since Northern districts have been subjected to dacoity menace, Special Armed Force(S.A.F.) Battalions are also stationed here. All other State Government Departments have their offices in Gwalior.

Apart from offices at district or divisional level, there are few heads of the departments whose offices are located here. Consequent to the change of capital in 1956 coupled with acute shortage of accommodation in Bhopal, the Government of M. P. decided to utilise the accommodation in retaining some offices in Gwalior. Thus the offices of the Accountant General, M.P., The Board of Revenue, M. P., The Settelement Commissioner and Director of Land Records, The Excise Commissioner; Bench of The High Court of Judicature, M. P.; the Transport Commissioner continue to function at Gwalior. Besides these a few Central Government offices are also located here.

Local Bodies:

The Madhya Bharat Municipal Corporation Act 1956 brought Gwalior Corporation into existence on 30 October 1956, a couple of days before the merger into new Madhya Pradesh. A local body was established in Gwalior for the first time on 6 June 1887 when the first municipality at Lashkar was formed. It appears that civic bodies for Morar and old Gwalior were also formed at about the same period.* However in 1894 Maharaja Madhao Rao Scindia merged these municipalities into Lashkar Municipality. In 1898 according to the administration report the control of municipality was passed on to the public in accordance with the wishes of the ruler£ and from 1899 to 1903 the police supervised the arrangements for sanitation. In 1904 this work was entrusted to the municipalities. A new Municipal Act was passed in 1912. In 1925 a municipality was founded at Bhander followed by another at Pichhore in 1926. Both are class II@ municipalities.

Reverting to the Gwalior Municipality it was superseded in 1931 and the Suba took over as administrator. The Municipal Legislation of 1912 was revised in 1936 and brought into force from 1-6-37 Hitherto the President

* Area of Lashkar Municipality 1 Sq. mile and 6 Sq. furlongs
Area of Gwalior Municipality 6 Sq. furlongs
Area of Morar Municipality 6 Sq. furlongs

£ The Municipality has been re-organised by the appointment of a General Committee cons st ng of leading citizens and officials. It is expeated that this change in the former arrangement will bring an improvement and create zeal and interest in the minds of the people. (Administration Report of the Gwalior State 1898-99).

@ In the erstwhile Madhya Bharat, Municipalities with an income of Rs. 75,000/- or above or with a population of 15,000 persons or above were treated as of category I. The rest were treated as of category II.

Source:- Municipal Commissioner, Gwalior Corporation, Gwalior.

was always nominated but now the members were given the power to elect him. During this period Dabra was fast growing as an agricultural market and so on 21-2-41 a municipality was established. It also coincided with the wedding celebrations of the Maharaja. This was the position on the formation of Madhya Bharat.

During the Madhya Bharat period the Government passed a new Act *viz.* the Madhya Bharat Municipalities Act 1954 which came into effect from 1-1-1954 brought some uniformity in the municipal administration. For the first time direct elections to the municipalities on adult franchise basis were introduced; although one fourth of the elected members still continue to be nominated. Special representation for Scheduled Castes and Tribes was provided. The position of councillors in the municipalities is as below:-

Name of Municipality	Elected	Nominated	Reservation for SC/ST.
Dabra	8	2	0
Pichhore	5	1	1
Bhander	8	2	1

(*Source*:-I. G. Municipalities)

For the Municipal Corporation of Gwalior forty members are elected from 34 wards and 10 are nominated. The term of the councillors is for four years. They elect their Mayor and Deputy Mayor whose tenure is for one year only. The Corporation is assisted in its administrative functions by a Municipal Commissioner who is the chief executive officer and is appointed by the Government. Statements of Income and Expenditure of Corporation and other municipalities have been given in the Tables.

From District Boards to Panchayats :

District Boards were formed in 1919 at district and pargana level with the Suba and Tahsildar as their Chairman. Leading citizens were nominated to it. In October 1940 the scheme was revised and a Rural Uplift Board was formed and the first popular Minister Shri Takhatmal Jain was put in charge. The Board was again dissolved in 1948. By now the new State of Madhya Bharat had come into existence, and it introduced the Madhya Bharat Panchayat Act and implemented it. On 26th January 1952 with its introduction the Local Boards were dissolved.

The Madhya Bharat Panchayat Act envisaged a three tier structure of Panchayats. For every village or a group of villages a Gram Panchayat was constituted as its base. The area of a Panchayat generally was coterminous with a patwari halka. The Panchas are elected on adult franchise basis with secret ballot and from among themselves they elect a 'Sarpanch'. and an 'Up-Sarpanch'. Their term is for three years. Over a group of Gram Panchayats, a Kendra Panchayat is established. Usually its jurisdiction coincides with that of an NES Block. At the apex a Mandal Panchayat has been constituted. The Kendra and Mandal Panchas are indirectly elected. Every Gram Panchayat sends one member to the Kendra Panchayat and all the Sarpanchas of the Kendra Panchayats in a district are members of the Mandal Panchayats, which in addition has two more elected Kendra Panchas, from each Kendra panchayat. Their duties are laid down in the Act. The duties of Gram Panchayats are mostly of an executive nature. For the work of a judicial nature 'Nyaya Panchayats' have been constituted.

The Nyaya Panchayats :

For providing speedier, cheaper justice in minor disputes Nyaya Panchayats were constituted. A group of villages (25-30) are usually clubbed together under a Nyaya Panchayat. In the district there are 33 such Panchayats. They function as Criminal and Civil Courts and decide minor disputes. On the civil side their jurisdiction is limited to cases involving property upto Rs. 100/- only. Nyaya Panchayat cannot pass an order confining a person to a prison and can impose a fine upto Rs. 100/- only. A salient feature of Nyaya Panchayat set up is that the Sarpanch along with two Panchas should form a Conciliation Board and try to settle the dispute peacefully. Only when such efforts fail, can cognisance be taken for the normal procedure to be followed.

This is a statutory provision.

The Finances of Panchayats:

The Government Grants-in-aid continue to be major source of their finances: others being (a) proceeds of various taxes, (b) fines and forfeitures (if collected by them) and (c) sale proceeds of various items like dirt, dung, dead cattle etc. Among the taxes, taxes on land revenue and buildings are the most important ones. On land revenue the cess is half an anna per rupee.* Besides this all able bodied males are required to work for five days in a year for eight hours a day or pay in cash the amount of wages, to be determined by the panchayats.

Grant in aid:

The Government pays grant at the rate of an anna per rupee of land revenue. This is divisible among the Grampanchayat, Kendra Panchayat and the Mandal Panchayat equally. In addition 50 % contribution for all development works, 75% for water supply schemes is received by the Panchayats.

In the progressive decentralisation of the administration the Panchayats play an important role. In the local development schemes the role of Panchayats cannot be underestimated. The Panchayats evoke the people's participation and hence form a very effective link in the chain of development activities.

The Town Improvement Trust:

The need for the town planning began to be felt as early as 1917-18 and Madhao Rao Scindia introduced the Town Improvement Act in Lashkar. It was subsequently amended in 1920 to enable acquisition of land. It prepared schemes of town extension, improvement, water supply, drainage, roads and housing. In 1956 Madnya Bharat Town Improvement Trust Act was passed and Gwalior Improvement Trust with a senior I.A.S. official as its chairman was formed.

Medical and Health Services:

In the erstwhile Gwalior State a Chief Medical officer was responsible for the administration of the department and was assisted by a few Superintendents. On formation of Madhya Bharat the department was organised and a district or a group of districts were placed under a District Medical Officer or Civil Surgeon.

In Gwalior City the hospitals are under a Superintendent responsible to the Director of Medical Services. These hospitals are called the J.A. (Jaya Arogya) Group of Hospitals. The J.A. Hospital is the premier hospital in Gwalior fully equipped. For women and children there is another hospital Kamala Raje Hospital, under the same group of hospitals.

Besides this there is a Mental Hospital under a qualified psychatrist. Other medical institutions in Gwalior include: The Gajra Raje Medical College, Ayurvedic College, Maternity and Child Welfare Centres. In urban areas the duty of maintaining standards of hygiene and health also devolves upon the municipal authorities. The Municipal Committee now has a full time Medical Officer.

Vital Statistics:

In 1953 the Madhya Bharat State Government promulgated the Madhya Bharat Births, Deaths, Marriages Registration Act 1953 basing it on a similar Act of 1886 of the Government of India, making the registration of births and deaths compulsory, but it was never enforced. The position regarding the maintenance of vital statistics therefore has been far from satisfactory. During the decade, under the existing laws the municipalities and the panchayats were required to maintain statitics of births and deaths. Both these local bodies have not been able to keep any accurate statistics and the position remained practically the same as was discribed by Ranglal in 1955. In the Report of Operations Connected with the Improvement of Population Data M.B. 1952, he wrote@ :—

"The arrangements for the registration

* The c ss is recovered by the Government agencies but repaid to the Panchayats.

@ Census of India, Paper No. 2-1955, Sample Census of Births & Deaths- 1952-53.

of births and deaths are unsatisfactory even in large municipal towns. The Director's Report as to the agency responsible for the reporting of the deaths in urban areas is silent. All that is known is that generally the responsibility has been laid either on members of the family of the deceased or on sweepers or on both".

Whereas the position was bad enough in the Municipalities, it was much worse in the case of Panchayats, Kendra Panchayats were made responsible to arrange for the registration of births, deaths and marriages in their jurisdiction provided it could find funds for the purpose. The Gram Panchayats were supposed to record births and deaths and send the figures monthly to the Mandal Panchayats through the Kendra Panchayats which submitted returns to the Deputy Director of Health Services. The municipalities also sent these returns to the Deputy Director concerned who after consolidation sent it to the Director, Health Services. The Panchayats obviously failed to grasp the importance of this duty and no regular records were maintained. In fact a few Panchayats were not even aware of their statutary duty and the result was that no statistics worth the name were ever compiled.

The births and deaths statistics of the Corporations are generally those that are made available to them by the Government or municipal hospitals and such others as may have been collected by their Health Department. The coverage is by no means full as many births and deaths are never reported. There being no supervising agency, it is impossible to verify the accuracy. In 1952 when an experimental Census of births and deaths was conducted in Madhya Bharat the results were as follows:–

1.	Period covered by Census	30-10-51 to 18-10-52
2.	Period for which figures were supplied by the Health Department	1-11-51 to 31-10-52

Births and Deaths rates per 1000 of population calculated on basis of:–

	Result of experimental Census		Figures supplied by Health Deptt.	
	Births	Deaths	Births	Deaths
State of M.B.	33.0	18.8	10.4	6.5
Low land Division which includes (Gwalior, Bhind, Morena)	28.3	13.5	7.9	3.1

The absence of accurate statistics causes great difficulty in estimating the annual rate of natural increase. No wonder it was then estimated at between 1.4 to 1.6 percent annually.

The District in Parliament & State Legislature :

The district returns six members to the State Legislature from the following constituencies.

(1) Bhander (Scheduled Caste), (2) Dabra, (3) Gwalior, (4) Lashkar, (5) Morar, (6) Gird. Thus only Bhander constituency is a reserved one and three constituencies *viz.* Gwalior, Lashkar and Morar pertain to greater Gwalior. The rural areas of Gwalior (Gird) tahsil come under Gird constituency.

The above six constituencies along with Ron add Lahar constituencies of Bhind district form a Parliamentary Constituency from Gwalior.

The N.E.S. Blocks:

The entire district has been covered by N. E. S. Blocks. The table below gives at a glance the position.

Location and Tahsil	Date of Establishment	Villages covered	Area	Remarks
Dabra (Pichhore)	2-10-52	167	368	Started as community project reverted to Post Intensive on 2-10-58, converted to stage II on 1-4-63
Bhitarwar "	2-10-52	172	342	As Above
Morar (Gwalior)	2-10-52	188	400	As above
Ghatigaon "	2-10-62	158	....	Pre-extension
Bdander (Bhander)	2-10-60	158	252.6	Stage I Block

The first Block to be started in the district was at Dabra as Community Project. On 2-10-58 it was split up into three blocks- Dabra, Bhitarwar, Morar in the Post Intensive stage.

III

THE PEOPLE

The Growth of Population

The growth of the population in the last sixty years in Gwalior district is indicated below:

Year	Gwalior District		Parcentage variation		
	Persons	Decade variation	Gwalior District	Gwalior Division	Madhya Pradesh
1901	393,783	..	..	..	..
1911	321,025	- 72,758	- 18.48	+ 0.48	+ 15.30
1921	334,139	+ 13,114	+ 4.09	+ 4.83	- 1.38
1931	372,303	+ 38,164	+ 11.42	+ 9.51	+ 11.39
1941	449,949	+ 77,616	+ 20.85	+14.03	+ 12.34
1951	530,299	+ 80,380	+ 17.87	+ 7.51	+ 8.67
1961	657,876	+127,577	+ 24.06	+22.12	+ 24.17

Population variation in 60 years (1901-61) 264,093 or 67.07 %.

During 1911-01 northern district of Gwalior State lost in population owing to plague regarding which H. M. Bull, Census Commissioner, Gwalior State wrote:-

"After the final house-numbering had been made, Plague broke out in Lashkar, Lashkar Brigade, Gwalior and Morar, which seriously interfered with the Preliminary and Final Enumeration. It was absolutely impossible to number camps with the same numbers as those of the houses vacated, as the camps were very scattered. They were constituted into separate Blocks and Circles, the Enumeration Books being added to those of the Charge in which the camps were situated much trouble also arose owing to the absence of the trained staff and many new Enumerators and Supervisors had to be trained, specially for the Final Census. His Highness the Maharaja very kindly placed the services of the Non-Commissioned Officers and men of the State forces at the disposal of the Ceusus authorities, and this saved the situation."

The Northern district again suffered

* The Central India State Census Series, Vol. I-Gwalior State, Census Report for 1911. Text and Tables Part I and II H.M. Bull, Census Commissioner, Gwalior State, page 6.

due to the famine in 1905–6 for the monsoons failed and in 1904–5 there was a severe frost which destroyed the crops. As against this the plateau districts of the State *viz.* Vidisha, Ujjain, Shajapur, Mandsaur and Amjhera (now in Dhar district) showed an increase nearly comparable with the State figures. Due to these famine conditions there was an appreciable movement from the Northern districts to Isagarh (Guna) and Vidisha districts.

The decade 1911–21 saw the first World War and the Great Influenza Epidemic. Yet the district returned an increase of +4.09. This is mostly because the city of Lashkar which was deserted in 1911 returned to normalcy and Gwalior city showed an increase of 34.60%. This factor despite the epidemic caused a 4.09% increase. During the next decade the pattern of growth accords well with State average but in 1931–41 the 43.75% growth of Gwalior city causes a 20.85% variation. In 1941–51 the pace of growth is somewhat well maintained and in the present decade it accords well with the State averages.

The entire population of the district (657,876 persons) live in 760 inhabited villages and 4 towns, spread over an area of 2015 sq. miles or in every sqare mile there are 326 persons. As compared to the State (192 persons per sq. mile) and Gwalior division (200 persons per sq. mile): this represents a higher concentration of population. Only district Bhind has still greater concentration of population in the division being 373 persons to a sq. mile. The comparable figures for other districts of the division are:–Morena (174), Datia (255), Shivpuri (142) and Guna (141).

In the district itself the heavier concentration of population is in the urban area. This is mainly due to the city of Gwalior in which a little less than half of the population of the district lives.

The Towns and Villages:

There are four towns Gwalior, Dabra Bhander, Pichhore and 843 villages in the district. The area under Gwalior Municipal Corporation which also include Morar Cantonment consists of a total of thirty-one villages. These villages are in addition to the 843 referred to above. Gwalior is the biggest town (population 300, 587) followed by Dabra (population 12,661) Bhander (population 6,638) and Pichhore (population 4,562). Bhander and Pichhore were declassified in 1951. During 1961 Census however they were treated as towns. During the decade Gwalior has returned an increase of 24. 43% which is well below the corresponding figure of 47.70% for the growth of towns and (town groups) in the State. This figure is also below the Gwalior division figure of 36.52% for the decade. The previous decade 1941–51 proved more fruitful for the growth of the city, for the period coincided with the second half of the second world war–a period during which the princely States prosperred and the transition from the State to Madhya Bharat of which it became the Capital. Thus a steady growth was more or less ensured. The population variation since 1901 is given below:–

Statement showing population variations from 1901 to 1961 of Gwalior Town.

District	Name of town	Status	Year	Persons	Decade variation	Percentag Variation (Urban)		
						Gwalior Town	Gwalior Division	M.P. State
Gwalior	Gwalior	M.C.	1901	138,612	..	..	..	..
			1911	84,458	–54,154	–39.07	–27.33	–10.91
			1921	113,684	+29,226	+34.60	+17.53	+10.87
			1931	126,949	+13,265	+11.67	+24.66	+23.03
			1941	182,492	+55,543	+43.75	+36.39	+32.78
			1951	241,577	+59,085	+32.38	+24.42	+33.16
			1961	300,587	+59,010	+24.43	+36.52	+47.70

M.C.—Municipal Corporation.

In case of Dabra the decade variation is 98.42% or we may say that population nearly doubled itself during this period. The growth of Dabra is mainly due to its being an important marketting centre. The Sugar Factory and Rice Mill at Dabra has attracted cultivators from nearby villages. During the decade the tahsil headquarters were also shifted from Pichhore and being on the main road to Gwalior, Shivpuri, as well as on the main railway line, Dabra attracted traders and cultivators alike. These perhaps account for its growth.

Re: Villages:

There are 760 populated and 83 depopulated villages in the district. During the decade the number of depopulated villages fell to 83 from 89. The area of a village is roughly 2.36 sq. miles or 1510.4 acres. The comparable figures for area for the division and State are 2.31 sq. miles or 1378.4 acres and 2.19 sq. miles or 1401.6 acres respectively. Thus the villages are somewhat bigger in area than those in other parts of the division or the State. An inhabited village on an average has a population of 439 persons, although the district average for a village (which includes depopulated villages also) is 396. It would therefore be apparent that generally the villages are of small size. Nearly three fourth of them *i.e.* 73.02% have a population of less than 500. This is followed by villages having a population between 500-999 accounting for 18.29% of the total. There are 7.11% villages of population between 1000–1999 and only 1.45% where the population is above 2000 persons. Some of the important big villages are Bilowa (5253), Antri (4875) in Pichhore tahsil and Barai (3884), Mohana (3499) in Gwalior tahsil. When we compare the population of the villages in the district with those of the villages in Gwalior division or the State we find that the villages in the district are more populous for there are 433 and 394 persons per inhabited village in the division and State respectively.

The Villages and Tahsils:

Gwalior district consists of three tahsils viz. (1) Gwalior, (Gird) (2) Dabra-Pichhore, (3) Bhander. In the inter-censal period one tahsil *viz.* Ghatigaon was abolished on 1-4-54. In 1951 the total number of villages was as follows:–

District	Name of tahsil	No. of villages
Gwalior	1. Gwalior (Gird)	238 (including 26 villages in Gwalior urban area)
	2. Ghatigaon	196
	3. Pichhore (Dabra)	280 (including Pichhore)
	4. Bhander	159 (including Bhander)
	Four Tahsils	873 villages

In 1961 the re-cast tahsils are as follows:—

Gwalior (Gird) Tahsil 351 (excluding 30 villages in the Corporation area).

Dabra (Pichhore) 335 (excluding Pichhore now urban Dabra)

Bhander Tahsil 157 (excluding Bhander) now urban

Total	843 villages and 4 towns as above

Comparing these with 1951 figures the total number of villages (including those in the urban) would be 843 (+30 from Gwalior city +2 Pichhore and Dabra and +1 Bhander—876 showing an excess of 3 villages over the 1951 figures. However there are 843 villages and 4 towns one of which includes 30 villages). This is accounted for in the following manner. Five villages *viz.* Baraipura, Domtor-Muafi of Ghatigaon tahsil, and Bahadurpur, Gangapur, Jahanpur of Pichhore, though villages were treated as hamlets or Majras. The details are given below:—

S.No.	Name of the village	Name & L C.No. of the village which was treated as hamlet	Tahsil of village 1951	L.C.No. as per 1961	Tahsil 1961
1.	Baraipura	Badagaon 2/3/12	Ghatigaon	3/1/323	Gwalior
2.	Domtor (Muafi)	Domtor 2/3/22	,,	3/1/330	,,
3	Bahadurpur	Kitora 2/2/72	Pichhore	3/2/36	Pichhore
4.	Gangapur	Bilaua 22/2/221	,,	3/2/45	,,
5.	Jahanpur	Bilaua 22/2/221	,,	3/3/44	,,

Thus with the addition of these villages the number has increased. This however has been subjected to a decrease of two villages *viz.* (i) Naganpura, L.C.N. 2/4/6 (1951) village has been transferred to Lahar (Bhind district) and (ii) village Charai L.C.N. 2/1/238 of tahsil Gwalior does not exist although shown in 1951 Census Hand Book. With this the total number of villages of the rural district stays at 843 and thirty-three villages have been absorbed in the four towns *viz.* Gwalior (30) Dabra (1), Pichhore (1) and Bhander (1); the last two have been treated as urban for the first time in 1961 Census.

The Proportion of Sexes :

There has always been a preponderance of males over females in this region. This has been so for a long time. There are 859 females per thousand males, this figure is much below the State figure of 953, although fairly close to the divisional figure of 866. In the surrounding districts of Gwalior the position is very much the same, with Morena (839), Bhind (849), Datia (898), and Shivpuri (888). During the decade the proportion of females has gone down from 891 to 859. This is all the more noticeable in the case of urban area where it came down from 893 to 852. During the last sixty years it was only in 1951 that the proportion of females was the highest and even that falls much below the figure of equal distribution of sexes. In this respect the position of Gwalior division is somewhat unique in the State, for nowhere is the proportion of sexes so low, the comparable figures for other divisions are:— Rewa (950), Indore (935), Bhopal (919), Jabalpur (965), Bilaspur (1003), Raipur (1013).

The Age Table:

The age data given below are based on ungraduated ages and though the quinquennial groupings adopted below suppress to some extent the distorting effects of age-heapings at multiples of 5, still the data is not fit enough to permit analysis by quinquennial age-groups unless corrected or smoothed. It would therefore be safer to confine the scrutiny of the age-data to the age-intervals 0–14, 15–34, 35–59 and 60+ which may be described as corresponding to children, young persons, middle aged persons and old persons.

Table showing distribution of 100 persons of all ages into certain age-groups by sex, and sex-ratio.

Age group	Percentage of population in the age group						Sex Ratio	
	Gwalior			State				
	P	M	F	P	M	F	Gwalior	State
1	2	3	4	5	6	7	8	9
0—4	16.0	15.6	16.6	16.4	8.2	8.2	919	996
5—9	14.3	14.2	14.4	14.3	7.3	7.0	866	966
10—14	10.7	11.3	10.0	10.1	5.5	4.6	755	847
0—14	**41.0**	**41.1**	**41.0**	**40.8**	**21.0**	**19.8**	**855**	**976**
15—19	8.8	8.7	9.1	7.9	4.1	3.8	899	929
20—24	9.3	9.1	9.6	8.6	4.2	4.4	912	1,069
25—29	8.6	8.5	8 6	8 8	4.5	2.3	857	939
30—34	6.9	7.1	6.7	7.3	3.9	3.4	815	897
15—34	**33.6**	**33.4**	**34.0**	**32.6**	**16.7**	**13.9**	**874**	**959**
35—39	5.4	5.6	5.2	5.8	3.1	2.7	806	878
40—44	5.3	5.4	5.1	5.3	2.7	2.6	818	950
45—49	3.9	4.I	3.6	4.2	2.2	2.0	762	886
50—54	3.9	3.9	3.8	4.0	2.1	1.9	822	908
55—59	1.9	1.9	1.7	2.1	1.1	1.0	772	903
35—59	**20.4**	**20.9**	**19,4**	**21.4**	**11.2**	**10.2**	**800**	**905**
60—64	2.4	2.3	2.6	2.4	1.2	1.2	973	1,080
65—69	0.8	0.8	0.9	0.9	0.4	0.5	993	1,157
70+	1.7	1.4	2.0	1.8	0.8	1.0	1,264	1,373
60+	**4.9**	**4.5**	**5.5**	**5.1**	**2.4**	**2.7**	**1,067**	**1,190**
Age not stated	0.1	0.1	0.1	0.1	N	N	904	898

From the age table given above 41% of the population is within 0–14 age-group or nearly 2/5 is in this group and another 33.6% comes within 15–34 age-group. Thus we have over 74.6% population or nearly 3/4 of the population coming in the younger age-group. This is only slightly more than the comparable State figure of 73.4%, we may therefore say that Gwalior has a greater percentage of population in this age-group, where in the State there are 21.4% persons in 35–59 age-group in Gwalior the percentage is 20.4%. The Gwalior thus has fewer persons in this-age group.

The Sex ratio in the 0-4 age group appears better balanced than in other groups excepting the 20-24 group. In 10-14 age-group the females are badly out numbered.

In a region where there are lesser females than males this ratio is to be expected. Only in 70+ age group there are more females.

The table inset below gives the percentage distribution of 100 persons in the district in 1951, by broad age-groups, the relevant proportions for 1961, are also given in order to focus attention on the changes that have occurred. The 1951 data is based on 10% sample of the population, and in making the comparison with 1961 Census data (based on total population) we are making the assumption that the age-composition in the sample (1951) represented the universe.

TABLE

Percentage distribution of population in 1951 and 1961 into broad age groups

Age group	1951			1961		
	P	M	F	P	M	F
0—14	35.4	17.4	18.0	41.1	22.2	18.9
15—34	36.1	19.5	16.6	33.6	17.9	15.7
35—64	26.0	14.3	11.7	22.7	12.5	10.2
65+	2.5	1.2	1.3	2.5	1.2	1.3
Age not stated	0.0	0.0	0.0	0.1	0.1	0.0

Religion :

Hindu religion is professed by most of the population. Comparable figures for 1951 are indicated.

Religion	1951		1961	
	Actual	Percentage	Actual	Percentage
Hindu	489,563	92.32	604,749	91.92
Muslim	34,879	6.58	39,663	6.03
Christian	519	0.09	1,023	0.16
Jain	3,863	0.73	6,475	0.99
Buddhist	1	N	98	N
Jew	2	N	2	N
Zoroastrian	47	N	37	N
Sikh	1,425	0.27	5,828	0.89
Kabirpanthi	..	..	1	N

'*N*' : *Negligible*

The religious composition of the district has remained more or less the same during the decade: although there is a slight increase in the number of Sikhs.

Languages :

Gwalior district has returned as many as 56 languages as mother tongues. Hindu continues to be the main language spoken by 587,321 persons (1951 figure 475,749). The other languages having over 1,000 speakers are:—

Languages	Persons speaking	
	1961	1951
Marathi	19,603	19,315
Punjabi	12,113	7,889
Sindhi	16,131	15,623
Urdu	16,194	9,653

The Hindi spoken in the district is mostly the Western Hindi, dialectically approximating to Bundelkhandi and Brij Bhasha.

There has been a conspicuous rise in the number of Urdu speaking. As far as the other Indian languages are concerned, the growth appears fairly steady. Among Western languages 90 persons have returned English as their mother tongue.

Literacy :

The number of literates in Gwalior district according to 1961 Census is:-

Literate	Persons	Males	Females	Percentage		
				Persons	Males	Females
Total	183,336	137,989	45,347	27.09	39.00	14.09
Rural	47,699	433,390	4,309	14.31	24.29	2.78
Urban	135,637	94,598	41,038	41.81	54.01	27.49

During the decade the literacy figures have shown some progress. In 1951 the percentage of literates was 15.52: there being only 82,416 literates out of a total population of 530,229. It would also be noticed that in urban areas the progress has been particularly good. Even in the sphere of women's education there has been considerable progress.

When we compare literacy in Gwalior with other important city districts the position is as follows:-

District	Literates percentage		
	Total	Rural	Urban
Indore	38.23	19.63	50.64
Jabalpur	28.55	16.87	48.35
Sehore	21.43	10.09	41.70
Ujjain	23.44	13.50	44.14
Sagar	20.52	14.35	41.52
Durg	17.85	14.09	44.20
Raipur	18.49	15.14	44.59
Gwalior	27.87	14.31	41.81
Gwalior Division	17.11	12.45	39.97
Madhya Pradesh	17.13	12.73	43.52

It would be apparent that as for as literacy in rural areas is concerned the figure compare favourably with those of other districts but it is in urban area that the literacy figures fall below even the State average. Even in urban Gwalor the percentage of literacy 42.43% is a little below the State figure of literates in urban area.

The Scheduled Castes and Tribes :

The Scheduled Castes and Scheduled Tribes were enumerated in accordance with the Scheduled Castes and Scdeduled Tribes Lists (Modification Order 1956). In the districts of the division there is a heavier concentration of Scheduled Casets than the Scheduled Tribes. The districts of Bhind and Morena with 20 % population of Scheduled Castes represent the heaviest concentration in the division. In the district however the position is indicated below:—

TABLE- showing Scheduled Castes and Scheduled Tribes in Gwalior District

SC./ST.	Persons	Percentage to total population
Scheduled Castes	124,781	18.97
Scheduled Tribes	13,534	2.06
Scheduled Castes and Scheduled Tribes	138,315	21.03

It would not be very accurate to compare the Scheduled Caste population of the two decades, since there have been changes in the composi- of these. The population of Scheduled Tribes can however be compared since the number of

tribes has not changed. The decade variation is as follows:–

TABLE– Showing decade variation of Scheduled Tribes

	1951	1961	Increase (+)	Percentage increase
Scheduled Tribes	10,981	13,534	2,553	23.25

Figures for the decade variation corresponds with general increase of district population.

The concentration of Scheduled Castes and Tribes is only slightly less than that found for the division. This is indicated below:–

	Percentage of	
	SC.	ST.
Gwalior Division	19.04	4.05
Gwalior District	18.97	2.06

The concentration of Scheduled Tribes is mostly in Shivpuri and Guna districts. Another feature of the SC/ST population is a comparative higher proportion of females which is 887 and 969 females per thousand males respectively. This is considerably higher than the district figures.

Among the Scheduled Tribes the Sahariyas outnumber the rest. The position is:—

Scheduled Tribes	Persons	Males	Females
Gond	80	50	30
Korku	67	35	32
Saheriya	12,324	6,274	6,050
Unclassifiable	1,063	516	547
Total	13,534	6,875	6,659

The occupational pattern of the district :

Workers and Non-workers :

The district has returned 370 persons per 1000 as workers. This is well below the State and divisional figures of 523 and 437 respectively. The details regarding workers are as follows:—

State/ Division/ District	Total Rural Urban	Total population			Total Workers		
		Persons	Males	Females	Persons	Males	Females
Gwalior District	T	1000	1000	1000	370	540	173
	R	1000	1000	1000	447	588	284
	U	1000	1000	1000	291	491	57
Gwalior Division	T	1000	1000	1000	437	589	262
	R	1000	1000	1000	464	607	298
	U	1000	1000	1000	309	502	83
Madhya Pradesh	T	1000	1000	1000	523	602	440
	R	1000	1000	1000	552	616	486
	U	1000	1000	1000	349	524	145

From the above it is obvious that there are less number of workers in the district. One of the reasons is that more than half of the population lives in rural area the proportion being 507:493. In the urban area the number of workers is found to be less. The urban area in the district incidently has returned the lowest number of female workers. Among the cities of the State the female workers in Gwalior are again the least being only 56 per thousand.

Cultivation is the main occupation followed by the services and workers engaged in manufacturing processes other than household industry. If cultivation along with agricultural labourers is taken together than we find that more than half of the working population is engaged in these. The following table indicates the occupational pattern.:—

Distribution of Workers

Category	Total persons Total workers	1000 370	Percentage to total workers	Ranking
I.	Workers in cultivation	168	45.41	1
II.	Workers as Agricultural Labourers	25	6.76	5
III.	Workers in Mining, Quarrying, Livestock Forestry, Fishing, Hunting, Plantations, Orchards etc.	16	4.32	6
IV.	Workers at Household Industry	15	4.05	7
V.	Workers in Manufacturing other than Household Industry	43	11.62	3
VI.	Workers in Constructions	10	2.70	8
VII.	Workers in Trade and Commerce	27	7.30	4
VIII.	Workers in Transport, Storage and Communications	10	2.70	9
IX.	Other services	56	15.14	2

Cultivation :

Agriculture then occupies the most important place among all occupations. This is followed by other services and industrial professions. Tables pertaining to area under cultivation and land utilisation have been separately appended. Total area under cultivation of crops for 1960-61 was 546,047 acres. This represents the highest area ever sown and includes 26,464 acres double cropped.

Crops:— Wheat is a major crop of the district. It is both of the irrigated and unirrigated variety. Its yield rose to 1080 lbs. per acre in the year 1960-61. Its cropped area is little less than one third of the total cropped area for the district being 191,324 acres.

Jowar: is a Kharif crop sown in about 87,857 acres in the district. It is unirrigated and its yield is approximately 692* lbs. per acre.

Rice: is sown in 38,272 acres and is both of the irrigated and non-irrigated type. Good quality of rice is produced in Dabra and the yield is upto 1508 lbs.

Gram : is a winter crop and is sown mixed with wheat and linseed.

Pulses include the following:— Tur, Masoor, Urad, Moong, are sown mostly

The yield rates figures are based on the records made available from the Director of Land Records.

mixed with other crops excepting jowar and masoor which is generally sown separately. The total area covered by these crops varies between 25 to 30%.

Sugarcane : Sugarcane is mostly grown around Dabra circle. It received a tremendous impetus from the construction of Harsi Canals. Gwalior district used to be major producer of sugarcane till about 1950–51. The yield is 2,159 lbs. per acre.

Potata : Potato is produced mostly in Gwalior tahsil.

Horticulture : The cultivation of fruits and trees is mostly around the city and in some cases round about the tahsil headquarters. Guava, Lemon, Mangoes and other vegetables cover an area of 6,151 acres.

Manures: The commonest manure is cow dung and village sweeping; the use of fertilisers is at present rather scanty.

The best cultivated area is in Pichhore (Dabra) tahsil in Revenue Inspector Dabra and Bhitarwar circles irrigatad by Harsi.

Irrigation:

The main sources of irrigation are canals, tanks, wells and others. There are three important dams whose canals irrigate a big area. They are (1) Harsi. (2) Tigra, (3) Kaketo.

Harsi:– is the biggest dam impounding river parbati and has 13 miles of main canals in Pichhore (Dabra) tahsil.

Tigra:– impounds river Sankh and provides water supply to Gwalior apart irrigating in Gwalior tahsil.

Kaketo:– also utilises the Parbati waters 25 miles upstream of Harsi. Between these three dams the total area irrigated comes to 98,074 acres in 1959–60.*

The following inset table gives the details regarding iraigation in the district.

Source of Irrigation (1960–61)

Government Canals	Tanks	Wells	Other sources	Total
98074	8055	14794	1816	122,739 acres.

The total area of the district receiving benefit of irrigation is 23.62% of the total cultivated area. The area near Dabra is biggest beneficiary of irrigation receiving water from Harsi Dam. The area under irrigation is nearly the highest in the the decade, only in 1959–60 it was exceeded when 123642 acres were irrigated.::

Agricultural labourers :

Agricultural labourers are generally of two types (1) casual (2) permanent, who are known as 'Halis'. Casual labourers are engaged on ad-hoc basis depending on the nature of operations like sowing, or cutting of the crops. They are paid in cash or in kind. The daily wages payable during 1960 for all are indicated below:-

Daily wages, 1960

For reapers and harvesters	Males	From	Rs.	1.25	to Rs.	2.00
	Females	From	Rs.	1.25	to Rs.	2.00
	Non-Adults	From	Re.	1.00	to Rs.	1.75
For Weeders	Males	From	Re.	1.00	to Rs.	1.25
	Females	From	Re.	1.00	to Rs.	1.25
	Non-Adults	From	Re.	0.75	to Re.	1.00
For other Agricultural Labourers	Males	From	Re.	1.00	to Rs.	1.50
	Females	From	Re.	1.00	to Rs.	1.50
	Non-Adults	From	Re.	0.75	to Re.	1.00

Centres— Parsen and Pichhore. Source— Director, Land Records.

*Source:- Executive Engineer, Irrigation, Gwalior Division.
::Source:- Director, Land Records.

The wages in kind are payable as in accordance with mutual agreement but a tendency to pay in cash has been noticeable in the past.

The 'Halis' usually stay with their employer and are paid in cash or kind. They receive about Rs. 300.00 in cash per annum, besides one meal a day and some clothes and shoes. The agricultural labourers are available although they are becoming scarcer each year.

Workers in Mining, Quarrying, Livestock, Forestry etc.:—

There are 20,384 persons–14921 males and 5463 females or 4.32% of the total workers who are engaged in mining and quarrying raising and rearing livestocks, forestry, fishing hunting, plantations, or raising orchards and allied activities. In these occupations it would be noticed that the number of females exceed the males. This is particularly the case in rural areas where the position is:

Category	Persons	Males	Females
working in Mining Quarrying etc.	8,337	3,051	5,286

The above occupations are mostly rural in nature and the main one among them is: rearing of live-stock mainly for milk and animal power which alone accounts for not less than 6875 persons — 2396 males and 4479 females. In the rural areas women generally look after the cattles, feeding and milking them. They were accordingly returned as workers, hence they appear to outnumber the males whose main occupation in many cases was cultivation. This is followed by workers engaged in production of field agricultural produce. In quarrying of stone and clay sand, gravel and lime-stone 813 persons, 656 males, 157 females are engaged. In the urban areas only 2051 persons, 1870 males and 181 females have been returned as workers.

Workers In Household Industry :

There are 10,047 workers, 6,998 males and 3,049 females or 4.05 % of the total workers in the household industry. Nearly 60 % of these (6,048) live in the rural area. Their main work pertains to raising of the livestock for milk and animal power. This economic activity claim as many as 2335 persons, 1838 males and 497 females. Out of which only 323 persons, 243 males and 80 famales are from urban area. The manufacture of wood and wooden products claims as many as 2016 persons–1235 males and 781 females mostly from urban area are engaged in the above and they manufacture wooden beams, posts, doors, windows, and products from cane, bamboos, cork and leaves. In the manufacture of miscellaneous textile garments 1091 persons, 723 males and 368 females are engaged. The calling is both urban and rural in its character, although its main activity in urban area is confined to the manufacture of taxtile garments including rain-coats and headgear. Manufacture of food-stuffs with 802 workers–523 males and 279 females is next. It is rural in character and as many as 499 persons, are engaged in production of edible oils excluding hydrogenated ones. Manufacture of textile cotton mostly cotton spinning with 674 workers 345 males and 329 females is the next important household industry. This is mostly urban in character for 385 out of 674 workers are to be found in urban area. Other important household industry is manufacture of tobacco products with 258 persons– 26 males, 232 females, mostly in urban area.

Manufacture Other Than Household Industries:

There are 28,438 persons-27,467 males and 971 females or 11.62 % of the total workers who have been returned as workers non-household industries. Out of thsee 28,138 persons nearly 90 % are working in urban areas. Their work relates mostly to the following industries :—

(1) Cotton spinning and weaving in mills : (10,817 workers – 10,506 males and 311 females).

(2) Manufacture of textile garment including headgear and raincoats :— (1,847 persons–1,794 males & 53 females)

(4) Manufacture of textile machinery and accessaries : (1,368 persons–all males)

(4) Manufacture of sundry hardwares :— (such as G. I. pipe, wire net, nuts, bolts, screws) (1,057 persons–1,062 males and 13 females)

(5) Production of sugar and syrup from sugarcane in mill :—
(1,060 persons–1,024 males and 36 females)

(6) Repairs of bicycles and tricycles :—
(1013 persons–1012 males & 1 female)

(7) Spinning and weaving of silk textile in mills :—
(932 persons–927 males & 5 females)

The above mentioned indusries account for 18,112 workers or 63.69% of the workers under of this classification and also represent 63.7% of the industries in Gwalior.

Workers in Construction :

This category accounts for 6,679 persons-6,392 males and 287 females. or 2.70% of total number of workers. Out of these as many as 5,753 persons-5,474 males, 279 females, work in urban areas. Thus it will be noticed that in rural areas there are hardly any females engaged in this category. The greatest number 4,826 persons–4,677 males, 149 females-workers under this category are engaged in construction and maintenance of buildings including erection and flooring and decortive construction. Another 1275 persons–1218 males and 57 females are engaged in construction of railways and bridges etc.

Workers in Trade & Commerce :

There are 17,874 persons–16,704 males, 1,170 females engaged in trade and commerce. Out of these 15,709 persons–14,862 males, 847 famales or 87.89 % are from urban area. They are mostly from the following trades :—

(1) Retail trading in cereals, pulses, vegetabales, fruits, sugar, spices, oil, fish, dairy products :—
(6,031 persons–5,479 males 6,50 females)

(2) Retail trading in unspecified goods:—
(1,846 persons–1,707 males, 139 females)

(3) Retail trading in fabrics, yarns, ready made garments of cotton, wool, silk etc. (1,825 persons–1,815 males,10 females) and

(4) Wholesale trade in cereals and pulses :-
(965 persons–934 males, 31 females)

Retail trade thus engages the highest number of workers.

Workers In Tansport, Storage and Communications :—

There are 6,279 persons–6,209 males and 69 females or 2.70% workers under the above category. They are mostly in urban areas 5,802 persons-5,733 males and 69 females of the total. They mostly pertain to transportation by railways–2,099 persons and transporting by road, by hackney carriage, bullock carts etc. which account for 1,201 persons-1,195 males and 6 females. Transportation by motor vehicles engage another 900 persons-889 males and 11 females.

Other Services :

This category iucludes persons in Public Services of Union and State Governments and other miscellaneous services viz. Educational and Scientific Services, Medical and Health Services, Religious and Welfare Services, Legal, Business, Community, Recreational and Personal Services. There are 36,864 persons-31,004 males and 5,860 females or 15.14% of the total workers, constituting the highest number of workers apart from those engaged in cultivation. The spread out of workers is mostly towards urban areas for 27,877 out of 36,864 or 75.62 % live in urban area. Among the females the percentage of those in urban area is 68.19%.

The details regarding the workers are :—

(1) Education and Scientific Services there are 5,495 persons-4,359 males and 1,136 females. The comparable figure for 1951 stood at 2,229 persons-1,901 males, 328 females showing an increase of 3,266 persons or 146.52 % in the decade.

(2) The Police Force has 3,638 persons–3,630 males and 3 females, and this is followed by public services with the State Government 3,560 persons–3,507 males and 53 females. The Central Government Employees account for 2,589 persons–2,584 males, 5 females. It would be noticed that a greater number of workers in this category are employed under the Government Departments.

Trade, and Commerce :

Gwalior was a flourishing trading centre during the Mughal period*, when in

* Ain-e-Akabari.

1810 it became the capital of the State trade expanded, The institution of money lenders has been in existence since a long time and held the cultivators in their clutches. Besides this, the commission agent locally called 'Ahratia' is yet another financier of the agriculturists. He advances money in anticipation of crops. No survey regarding the rural or urban indebtedness has been made.

Banks :

In the beginning of the twentieth century the banking enterprise was mostly in the hands of local 'Sahukars' or money-lenders. Luard mentions a few of them in the State Gazetteer*. At that time two Banks were also functioning; these were The Amritsar Bank Ltd. and a branch of Bengal Bank. It is interesting to note that private banking started under the name of "Dookan Pichhadi' or the "shop at the back side". In 1917 Krishnaram Baldeo Bank was founded which in 1958 was converted into a private and a limited concern. It is now one of the Scheduled Banks in the town. Prior to this Alliance Bank of Simla was functioning. The Imperial Bank of India, now the State Bank of India, was established in 1927 and thereafter other banks also opened business. A list of banks in the district is given in the table.

Life Insurance :

Life Insurance has now been taken over by the Life Insurance Corporation of India, a branch of which has been opened at Lashkar since 1-9-1956. In the erstwhile State of Madhya Bharat a compulsory insurance scheme for all persons holding permanent pensionable posts was introduced under Madhya Bharat Government Life Insurance Scheme. The Life Insurance Corporation Branch now covers Datia and Morena districts, besides Gwalior district.

Trade :

Gwalior has been importing grains oil, drugs, wood, fuel, lubricants and other machinery products. The exports are mainly cattle, leather goods, hides, sugar, cloth, light machinery, pulses, textile, tiles, forest produce. Figures for total exports and imports of the district are however not available.

There are four regulated markets or Mandies at Lashkar, Morar, Gwalior and Dabra. The cultivators bring their produce mostly on bullock carts and the cart loads are auctioned. The cultivators mostly sell the produce through the *Ahratia* or the commission agents. Mandies usually are the wholesale markets for agricultural produce. The city market at Gwalior does business in cotton and other goods. As regards the retail market it is spread over the whole town with Lashkar occupying the biggest space. *Bada* which is in the heart of the city has numerous shops and is the most important retail shopping centre. In addition to Lashkar, Bhander and Dabra are the other important marketting centres.

Industries :

In the earlier period Gwalior was famous for its exquisite stone carvings. We have some fine specimens in such buildings as the tomb of Ghaus Mohamniad. In recent times it was mostly during the reign of Madhao Rao Scindia that a definite policy was formed to organise and courage industrialisation. For the first time, concessions were offered with a view to attract industrialists: inducement like free grant of lands, custom free import of machinery were granted and in 1905 a thermal plant was set up.

The details regarding some of the important industries are given below :—

Textile Mills :

(1) Jayajirao Cotton Mills (J. C. Mills) established in 1900 today has 6631 workers. Output: long, coarse and middle cloth. This is the oldest mill in Gwalior.

(2) Gwalior Rayon and silk Manufacturing Factory :- was established in 1947, employs 1002 workers and produces rayons and artificial silks. Its products are greatly prized.

---

* Central India State Gazetteer Series, Gwalior State Vol. I. C. E. Luard (Hindi Translation), p. 106

(3) Motilal Textile Industries : was established in 1932, employs 345 workers.

(4) Adarsh Mills : has a interrupted existence for it was closed during 1954–55 to 1958–59. Apart from these there are six other units producing carpets, tents and leather products blankets, umbrellas.

Non-Textile Industries :

The important ones among these are :—

(1) The Central India Machinery Manufacturing Company Ltd. :- This was known as 'TEXMACO' being primarily a textile manufacturing concern. It was established during the last war but re-organised and made into public limited company. It is now known as 'CIMMCO', a Birla concern employing 1959* persons

(2) The J. B. Mangharam and Company :

Formerly at Sukkur in Sind Pakistan, this factory was established in 1951 when Madhya Bharat Government offered them concessions and inducements. It manufactures biscuits and other confectioneries and its products are reported to be very popular both at home and abroad. It employs 588 persons.

(3) The Gwalior Potteries :

With foreign technical collaboration the potteries were started in 1915. In 1919 the Gwalior State, through a Trust took over the management. In the earlier stages the competition from other countries being great the potteries did not seem to have prospered. From 1941 onwards however with the advent of war and elimination of competition the progress was fairly rapid. They are now producing-crockery, s. w. pipe, decorative goods, stationery and hospital ware, glazed tile, etc. employs 460 labourers.

(4) The Gwalior Sugar Company Ltd. Dabra.

It was formed in 1940 has a crushing capacity of 1100 tons per day, employs 1300 workers during the season and one third its number in the off season. Sugarcane is supplied by the surrounding area receiving the benefit of irrigation water from Harsi. Its production figures are given separately.

(5) Government Printing Press :-

It was established in 1901 and known as 'Alijah Durbar Press'. It did all the printing for Gwalior State and most of the printing in Madhya Bharat days. Now it is a regional press. An imposing building in Bada Chowk houses the press.

(6) Gwalior Engineering Works : (G.E.W.)

Originally it was a palace *Mistri Khana* and dates back to 1851–52. In its modern form it was enlarged in 1905 when it was meant to serve as a wagon workshop for narrow gauge railway of the State. Later on it began to manufacture all types of machinery *viz.* Agricultural implements, iron tools, steel furniture, almirahs, hospital equipments, wooden furniture, trailers, carts, trolleys and wheel barrows, bus bodies etc. although it was wagon work-shop it was not handed over to railways when the Scindia Railway was taken over by the Central Railway. It is now a completely State owned workshop.

(7) Gwalior Leather Factory :

Tannery and Tent Factory, Morar :—

It was founded in 1906–07 and is now a State ownedindustry employing 60 labourers. Tent section was added in 1940. It produces boots, foot wear for the police, saddles, holdalls, leather port-folios, harness etc. The second war gave a good impetus to the production.

(8) The Imperial Match Factory :

it was established in 1933 and employs 50 persons. The raw material is sewal or salai plentiful in the district. It is in the private sector.

(9) The Small Scale Industries :

Among the small scale industries the following may be mentioned: foundry works, hosiery, umbrella factory, chalk sticks, fire works, soaps, ghee and small printing presses. Handloom weaving, wood, furniture making, oil pressing, making of leather goods and toys,dyeing,printing,

* The reference year for the number of employees is 1960.

bamboo work, clay and papier machie toy making are the other industries now small and cottage scale.

(10) Welfare Schemes for Industrial Labour :

The Employment State Insurance Scheme was applied to Gwalior in 1955. All employees earning less than Rs. 400 are insured under it. It was extended to the employees family family in 1958–59. Besides this Provident Fund Scheme, 1952 introduced equal contribution by the employer to the above fund. The Industrial Housing Scheme was also introduced and 950 quarters were constructed. The J. C. Mills have built 2000 quarter for their employees and have also given other educational, hospital and maternity benefits to its employees.

IV

SOCIAL AND CULTURAL

Education :

The first school established in Lashkar in 1846 was at Janakganj and called "Lashkar Madarssa". English, as a subject was introduced in 1854 and in 1863 department of education was for the first time created under Sir Michael Filose, the then Chief Secretary. By 1873 there were five schools in the district. In 1888 the Lashkar Madarssa was upgraded and became a High School. In 1890 it was converted into an Intermediate College. In the meanwhile in 1887 foundation stone for a college was laid and it was named after Queen Victoria. It was formally declared open by Lord Curzon in 1899. Thus what started as a Madarssa in 1846 grew up in stature into a full college within half a century.*

The Victoria College grew from strength till finally in 1961 it was bifurcated into Maharani Laxmibai Arts and Commerce College and the Government Science College because of the great increase in the number of students.

In 1898 a 'Sardar School' was opened for the education of the sons of the aristocracy. A military school was also started a little later but then som afterwards in 1909–10 both were amalgamated to form what is now known as 'Scindia School' which is housed in the Fort. It is now one of the leading public schools in the country. Much of the credit for encourating educational institutions goes to J W D Johnstone who was also the Census Commissioner for 1901, he retired in 1911.

All Colleges in Gwalior are now affiliated to the Vikram University and the town affords excellent educational facilities in all branches of knowledge, both technical and non-technical. There are five arts and science colleges; two of them providing instruction in Post Graduate Classes as well. Besides this there are Medical, Engineering, Ayurvedic, Physical Education, Agriculture, P.G B.T', and women's Basic Training Colleges. A complete list of schools and colleges is to be fond in the tables.

Women's Education :

The progress in this direction was slow. It has in 1898 that the first Girl's School was established. By 1947 a degree college known as the Kamala Raje Girl's College and meant exclusively for girls, along with 27 primary schools, four middle schools, 2 high Schools had been founded. By 1956, the number primary schools increased to 71.

The National Cadet Corps : (N. C. C.)

The N.C.C. Scheme began in M. L. B. College in 1949 and has now made very steady progress.

Music in Gwalior :

The Gwalior School of Music occupies an important place in the musical institutions of the country. Its characteristic music styles are 'dhrupad', 'khayal' 'tappa', 'thumries' 'dadras,' 'ghazals,''taranas' and 'chaturang'.Raja Mansingh was a great lover and patron of music. The celebrated musician, Tansen from 'Behat'** a place 20 miles from Gwalior. It is said that he was born in a Brahmin family and received his early training in music at the

---

* Based on Gazetteer of Gwailor by Capt. C. E. Luard.

** Behat 26° 11' N, 78° 35' E (Tahsil Gwalior) is situated 20 miles east of Gwalior, is connected by a metalled road in which bus ply. 1961 population (1744). A police station is also located here.

hands of Swami Haridas Dayan of Vrindavan. He died in 1589 at Gwalior, where his tomb still stands. Each year a festival of music, know as 'Tansen Urs' is held and almost all the leading artists from the country assemble. In the past few years it has become a music lovers-treat. Even to-day musicians of the eminence of Krishna Rao Pandit and Raja Bhaiya Poonchwale bring credit to the Gwalior tradition.

Libraries :

There are 84 libraries in the district : out of these the Central Library at Lashkar is the biggest and has over 65,000 volumes. It is a State managed library under the Education Department. For the rural areas an Integrated Library Service has been set up at Dabra and it covers 50 villages. A library science course is being run by the Central Library to train school libraries.

Archaeology :

Gwalior and its vicinity is fairly rich in archaeological finds, Maharaj Madhavrao in 1913 set to organise and preserve the rich heritage; so under his directions an archaeological museum was founded and housed in the magnificent Gujri Mahal at the foot of the majestic Fort. There could hardly have been a better home for these finds. The museum has now been handed over to the Archaeological Department of India. Besides this there is another museum in the Motimahal garden which houses armour, coins, ivory and brass.

Zoological Garden :

In the Phoolbagh garden, there is a small zoo and a park which is looked after by the corporation. It is an excellent spot with a beautifully laid out garden and shady retreats. A life size statue of Mahatma Gandhi has been installed recently.

V

COMMUNICATIONS :

It would be of some interest to note that Gwalior was also well connected in Mughal days time being an important point on Mughal Highways one of them was Agra-Gwalior–Narwar–Sironj Highway. Between Gwalior and Dholpur, on the bank of river Sankh stood Nurabad a halting place. The bridge at Nurabad still reminds one of the marvellous Mughal constructions.

The Present Roads :

The National Highway 3 :

Gwalior is on the National Highway 3 known as Agra-Bombay Road which was started in 1840, for Col. Sleeman in 1835 found that there were no *pacca* roads in Gwalior State. Forty-three miles* of the above road pass through the district and connects Morena, Shrivpuri, Guna, Rajgarh, Shajapur, Dewas, Indore districts. Thus it is an important artery not only for the State but also for Maharashtra, U. P. and Delhi. This is an all weather ashphalted road. The recent construction of a maginficent all-weather bridge across the Chambal has greatly helped the flow of the traffic to Delhi and beyond all the year round. Prior to this construction a pontoon bridge was constructed each winter and dismantled before rains. During the rains ferry boats were used. The Railway Bridge was made available for Army Conveys and other important traffic. This however caused a great bottleneck and when the river was in high floods, all traffic was completely dislocated, hence the importance of all-weather bridge can well be imagined. The bridge also forms the boundary of the State with Rajasthan.

The Other National Highways :

The other important National Highways are :- (1) Gwalior – Etawah Road, (2) Jhansi–Gwalior Road, over both these roads bridges across river Sind, Chambal have to be built. The total mileage of the National Highways is 124 miles.

State Highways :

The total length is 56 miles and these are all-weather roads.

---

* Source:- Superintending Engineer, P. W. D., Gwalior.

District Roads :

They mainly connect villages with main roads or rail roads. Total mileage is 107 miles.

The village roads mileage is 31 miles. For rural areas the principal means of conveyance is the bullock cart. In the towns however cars, buses, trucks, tempoos, cart rickshaws, tongas, cycles, scooters ply. In the rural areas cycles have become popular. Traffic to Jhansi and in particular to Datia is considerably hampered because only a temporary bridge is put up each year from December to June over the river Sind. An all-weather bridge is under construction and when complete will greatly facilitate the traffic to Datia, Jhansi and other districts in Bundelkhand region of the State. Similarly traffic to Etawah is also hampered the for want of bridge over Chambal. There are no waterways in the district, rivers not being navigable.

Transport Services :

Road transport services are operated both by Government and private agencies. The Madhya Pradesh State Road Transport Corporation has the biggest fleet of buses. Once in pre-Madhya Bharat days it had an exclusive monopoly for all passenger routes. In Gwalior city the Roadways have organised the City Bus Service.

Postal Telephone & Telegraph Services :

Gwalior falls within the Central Circle of the Posts and Telegraph Department under the Post Master General, Nagpur. A list of post and Telegraph offices is appended. There is no automatic telephone exchange in Gwalior but a metering system of calls has been introduced.

Rail Link :

Gwalior is a junction on the main broad gauge (5' 6") line of the Central Railway. All trains stop here and one can get direct trains for Delhi, Pathankot, Bombay, Nagpur, Madras and intermediate stations. The important trains being (1) The Grand Trunk, Deluxe Expresses, (2) The Punjab Mail, (3) The Pathankot Express and the Janata Express on the main line. Besides these, passenger trains to Agra and Jhansi are also available.

Gwalior is also the terminus for the narrow gauge line (2' or 24"). The Narrow Gauge line was constructed entirely from the funds of Gwalior State. It was looked after by a State Engineer : only the running was entrusted to the GIP (Great Indian Peninsula) Railway now the Central Railway. The line traversed only through the State territories. Narrow gauge trains are available from here to (1) Bhind, (2) Shivpuri, (3) Sheopur-Kalan. The number of stations in the district, falling on both these lines is shown in the table.

Air Service :

Gwalior was once on the air map of India, the Indian Air Lines Corporation Flights 414, 415 plane touched Gwalior from Delhi on Mondays, Wednesdays, Fridays and from Bombay on Tuesdays, Thursdays and Saturdays. The air-port is located at Maharajpur about 6 miles north-east of Gwalior. The air service has been discontinued.

SUMMING UP

As hilly slopes of Shivpuri decline into smaller scattered hills around Gwalior, one comes across plains and scrub jungles towards the north of the district. In the northern region Gwalior is the biggest city and is only third in the State. Soaked in a rich historical tradition, built round the massive Fort visible from distance and once the proud capital of Scindias and part-time capital of Madhya Bharat, the city continues to grow fast and occupies an eminent place in the State being near the country's capital and a good centre for education. Gwalior district though not one of the biggest districts in area, is from administrative, educational, commercial and cultural point of view an important one in the State.

During the last sixty years 1901-61 the total growth of population has been to the tune of 67.07% which is somewhat less than the State average of 92.00% growth. The decade 1901-11 was particularly a difficult one. There was a severe famine in 1900 followed by famines in 1904-05, 1905-06 and lean years upto 1909. Due to the loss of population in 1901-11 the district fell below

the State average increase of population. The tremendous loss of population could not be made good even in two decades, for in 1931 the population was well below the 1901 population. During 1911 21 the increase was slight despite the influenza epidemic. This was probably due to migration to the city of Gwalior which registered an increase by 34.60%. From then onwards the progress is somewhat steady upto 1961. The city however, had a spectacular rise in 1941 having registered 43.75% increase. If the figures of growth in the last sixty years are compared to other industrial districts then the percentage increase appears somewhat less as Indore, Ujjain, Jabalpur have returned an increase of 149.49%, 124.07% and 87.37% respectively. This is chiefly due to the loss of population during 1901–11 decade.

The sex-ratio of the district has changed a little. In 1951 there were 891 females per thousand males as against 859 in 1961. The change seems to have been all the greater in urban areas where the proportion fell down from 893 to 852 in 1961. Although the proportion has been reduced to 953 in 1961 from 967 in 1951 for the State but the change in the district is much greater. This seems to lend some support to the fact that with urbanisation and industrialisation, the number of females goes down in such areas. This is also apparent from the fact that in rural parts of Gwalior the sex–ratio did not undergo such a great change as in the urban area, although it fell from 889 in 1951 to 866 in 1961.

The education facilities in the district are of a very high order. Even for technical education the district provides a fair amount of facilities. The percentage of literacy however is not particularly high being 27.87% as compared to 17.13% for the State. During the decade, however, there has been some progress, but as compared to other districts with important cities this figure is low. Indore and Jabalpur districts have returned 39.23% and 28.56% respectively. The literacy among females is low despite all efforts during the decade.

Among the workers 51.2% are employed in agriculture the balance 48.8% belong to non agricultural occupations. This is almost in accordance with rural; urban population which is in the proportion of 507 Rural: 493 Urban. The importance of Gwalior city becomes obvious with these figures, for barring Dabra, where there is a sugar mill, almost all the textile and non-textile industries are at Gwalior. The city which has grown considerably in area (24.11 sq. miles) during the decade, has still enough space for further growth. With the expansion the population density is 12,467 persons per sq. mile. In 1951 the density was 7,549 persons per sq. mile. This however was due to an area of 32 sq. miles being shown as that of Gwalior city and this included areas of some nearby villages. There has been no reduction in the area of the Corporation, on the contrary in 1954 the area was extended.

In 1951 there were 6.27 persons per occupied house in the district (6.40 for Gwalior city) as against 8.9 for the city in 1961 and 6.86 for the district. This underlines some over-crowding in Gwalior city. The figures for other important cities are: Indore 9.2, Ujjain 7.8, Jabalpur 5.0, Bhopal (town group) 5.2, Raipur 5.4, Durg 3.5, Sagar 5.7. Vast open space in the municipal limits do not however indicate the nature of congestion in the town which is considerable in and around Bada Chowk area.

Finally, situated on the main broad gauge line, with good roads passing through it and a capacious airport to support air traffic, in the vicinity of Agra and Delhi and itself offering many archaeological and historical places for sight seeing and affording excellent educational facilities with a good scope for the expansion of industries, the prospects of a continued steady growth of the city and district appear fairly bright.

References:—

For compiling the note the following publications were referred to:—

1 Census of India 1901, Gwalior Part I Report by JWD Johnstone, Census Commissioner, Gwalior State.

2 The Central India State Census Series

Vol. I, Census Report for 1911, Text and Tables Part I & II, By H. M. Bull M. A. (Cantab), Census Commissioner, Gwalior State.

3 Census of India, 1921, Vol. XX Gwalior Report & Tables By Jankinath Datta, B. A., Sabhabhushan, Census Commissioner, Gwalior State.

4 Census of India, 1931, Vol. XXII Gwalior, Part I Report, By Ranglal, Census Commissioner.

5 Census of India, 1951, Vol. XV, Part I-A Report. Madhya Bharat and Bhopal, By Ranglal Census Commissioner.

These reports helped to appreciate the demographical changes in the district during the last sixty years and without them any attempt to study the growth of population would be incomplete.

The Gazetteer of Gwalior State by Capt. C. E. Luard remains one of the most authentic and well written books and has been freqently made use of : 'Gwalior Today' by Michael Brown describes the manifold activities of the State upto 1932–33 and thus helps to trace the progress from the beginning of the twentieth century to 1932–33. Brief references have also been made to Archaeological Survey of India Vol. II & III by Cuningham and Memoirs of Babar translated by Leyden and Erskine. Besides these the Annual Administration Reports of Gwalior State were consulted. The Census Organisation is further grateful to the Director, Land Records; Collector, Municipal Commissioner Gwalior and Editor, State Gazeteer, Bhopal for the help and co-operation extended in the compilation of this note.

IMPORTANT PLACES IN GWALIOR DISTRICT

Antri: 26°3' N 78° E Tahsil Pichhore

(*Area* : 5,619 acres, *Pop.* : 3,384)

A station on Central Railway, is also reached by the Gwalior–Jhansi road from Makoda. The town was originally called Antkapuri and is said to have been established about 1500 years ago. There is a Dargah tomb of Abul Fazal the noted historian, of Akbar's reign who was murdered by Bir Singh Deo Bundela of Orchha.

Barai: 26°7' N 78°3' E

(*Area* : 13,104 acres, *Pop.* : 3,884)

It is known for two ruined Jain temples. These are reported to be over six hundred years old.

Behat: 36°11' N 78°35' E Tahsil Gwalior,

(*Area* : 3,956 acres, *Pop* : 1,744)

Believed to be the birth place of Tansen "the Orpheus of India", the legend goes that Tansen did penance before Shiva and prayed for the removal of some defect in his speech and it is here that God bestowed on him the gift of music.

The village had remained headquarters of Jat Ranas of Gohad in the 17th-18th Century A. D. A well preserved building stands on a hill near the village known as Rana's Baithak.

Bhander: 25°44' N 78°45' E *Pop.* : 6,638)

Situated on Bhander–Chirgaon road, it is connected with the Chirgaon Railway Station on Central Railway, Jhansi–Kanpur section. It is a municipal town and headquarters of Bhander tahsil. It is believed that the former name of the town was Bhandaka-pura. The town belonged in the 15th century to the Malwa Sultans and was a mahal of Subha Agra, during Akbar's reign. In the 17th century it was included in Orchha. It was conquered by the Scindia in 1748 and finally included in 1818 in the territory assigned for the upkeep of the Gwalior contingent. There is a big tank called 'Son Taliya' Raja Bhojnath and Udhisthira are said to have performed the horse sacrifice here.

Bhitarwar: 25°48' N 78°9' E Tahsil Pichhore,

(*Area* : 3,072 acres, *Pop.* : 2,450)

Situated on the river Parbati, 19 miles west of Dabra station. It was founded by Kirars about 250 years ago who still live in the locality. There is a fort, said to have been built by Bhairaj Shah, a Jat chief in 17th–18th century, on its other side stands another fort called Lachhamangarh believed to be erected by the same Jat chief.

Dabra: 25°54' N 78°23' E, Tahsil Pichhore,

(*Area* : 640 acres, *Pop.* : 12,661)

A station on Central Railway and is also reached by the Gwalior-Jhansi road. It is a big grain mandi and particularly noted for the Gwalior Sugar Factory. Besides this, there is one leather tanning centre, an oil pressing centre and a sheet metal and mechanised cottage industries centre. It is a tahsil and development block headquarters.

Gwalior:

It is culturally, industrially and politically an important centre in Madhya Pradesh. The city consists of three different localities

of old Gwalior, Lashkar and Morar. It was the metropolis of Gwalior State and the winter capital of Madhya Bharat till the re-organisation of Madhya Pradesh in 1956. Places of interest in Gwalior include the ancient town of Gwalior at the foot of the famous fort, tombs of Mohammad Ghaus and Tansen, Gujri mahal, Teli-ki-Lat and Sahastra bahu (सहस्त्र बाहू) popularly known as Badi aur Chhoti Sas Bahu ka Mandir (बड़ी और छोटी सास बहू का मंदिर)

The ancient part of the city is crowded with monuments such as Jama Masjid and palaces. Jama Masjid was built by Motamid Khan Governor of Gwalior 1665. The mausoleum of Mohammad Ghaus is a fine example of Mughal architecture stands to the east of the town. In the vicinity of the tomb stands the tomb of the celebrated musician Tansen. The whole structure is surmounted by a carved domes.

The famous fortress of Gwalior stands on a rocky hill of sandstone which rises abruptly to 300 feet.

Monuments in the Fort :

There are six palaces in the fort, four Hindu and two Muslim, and important among these is Mansingh's palace. According to Fergusson 'it is a most remarkable and interesting example of Hindu palaces of an early age in India.' All the sides of the palace are richly decorated. The ceilings and rooms have various designs enhancing its beauty. The other palace is Gujri Mahal, which Mansingh constructed for of his beloved handsome Mrignayani, a Gujar village belle. The palace is two storeyed and is famous for stone cutwork.

In front of this palace are Karan Mandir, Vikram Mandir and a few other Mahals *i. e.* Jahangir Mahal, Shahjahani Mahal which are of some interest. There are a few important temples in the fort. The most important of them is 'Sahastra bahu' meaning a thousand arms, but appears to be corrupted to 'Badi aur Chhoti Sas Bahu ka Mandir' meaning bigger and smaller temples of mother-in-law and daughter-in-law. The Sas Bahu temple was erected in 1093 A. D. and is famous for its inscription and sculptural work.

The smaller Sas-Bahu temple depicts the architecture of medieval India. The Teli-ki-Lat is mainly a Vishnu temple of 9th century, marked for its plan and design. It is an interesting example of Dravidian and Indo-Aryan architecture and culture. There are also a few smaller shrines like Suryadev temple, Jayanti, Gwalipa, Jhora, Matadevi Dhondadev and Mahadev. Besides these there are a few specimens of Jain sculpture mostly hewn in rocks in the fort. They are supposed to have been constructed between 1440–73. Most of these were destroyed by the Muslims.

Two miles south of the hill-fortress lies Lashkar the former capital of the Gwalior State. It was founded by Daulat Rao Scindia in 1810. It was established first as the Maratha Army Camps and then it grew up. Also in the fort is located Scindia School an important public school in this part. Another important building is the Jaivilas Palace, built in 1872–74; it is noted for its architecture, painting and a gignatic Darbar Hall 97' 8" in length, 50' in width 41', in height. Other noteworthy buildings are the Motimahal Palace, Kampoo kothi, MadhyaPradesh High Court Building, Chamber of Commerce, Sanatan Dharma Mandal and Dufferin Serai. Phool Bagh a garden located in the town contains a zoo, museum, marble cenotaphs of members of Gwalior ruling family, a Hindu temple, mosque, a gurdwara and an imposing statue of Mahatma Gandhi has recently been added.

Harsi: 25° 46' N 78° 1' E Tahsil Pichhore;

(*Area* : 5,230 acres, *Pop.* : 792)

It is reached from Gwalior and is the important for its reservoir for irrigation and is the biggest reservior in the district.

Mastura: 25° 49' N 78° 4' E Tahsil Pichhore

(*Area* 2,967 acres, *Pop.*: 1,335)

It is situated 25 miles west of Dabra station and had remained the head-quarters of the pargana Mastura,Zila Gwalior(Gird) during State times. There is a small fort built by a Jat chief Bhairaj Shah in 18th century.

Pannihar: 26° 6' N 78° 4' E Tahsil Gird

(*Area*: 6,214 acres, *Pop.*: 2,230)

A small railway station on Central Railway - narrow gauge Shivpuri-Gwalior section. It is 15 miles from Lashkar on the Agra Bombay road. It was scene of battle on 29th December 1843 when Colonel Grey routed the Marathas. A memorial pillar marks the site.

Pawaya: 25° 46' N 78° 17' E Tahsil Pichhore)

(*Area*: 2,341 acres, *Pop.*: 675)

It is situated 42 miles to the south west of Gwalior and is reached by a cart track from Dabra. The village yielded several ancient relics during excavations carried out in the years 1925, 1934, 1940 and 1941. The life size statue of Yaksha Manibhadra with a Brahmi inscription of about 1st century is the most noteworthy. Other important relics are an image of four armed Vishnu, and the statue of a Naga King. A large number of coins have also been collected and are now kept in the Gwalior archaeological musuem.

Pichhore: (25° 57' N 78° 29' E.)

(*Area*: 640 acres, *Pop.*: 4,562)

It is situated 23 miles south of Lashkar and was originally known as Kawalpur. The place contains six mosques and several temples. The most famous among them is the temple of a Goddess, locally called 'Harsidhi-Mata-ka-Mandir.' The tahsil headquarters were shifted from here to Dabra during this decade.

Salbai: 25° 51' N 78° 18' E Tahsil Pichhore)

(*Area*: 3,364 acres, *Pop.*: 1,548)

It is 10 miles west of Pichhore on the Dabra-Bhitarwar road and is historically an important place on account of a treaty concluded between East India Company and Mahadji Scindia in 1782. Originally, the village belonged to the Bhadoria Rajputs but later on fell into the hands of Scindia in 1751. There is a small Garhi also, said to have been built by a Jat chief in 16th–17th century A. D.

Sujawaya: (26° 12' N 78° 4' E Tahsil Gird)

(*Area*: 2,452 acres, *Pop.*: 297)

This place is about 2 miles southwest of Tighra and 11 miles to the west of Lashkar. It is famous because of a large number of temples dated 11th century. A temple dedicated to Shiva and Parwati seated on Nandi is noteworthy.

Tekanpur:25° 59' N 78° 21' E Tahsil Pichhore;

(*Area*: 1,517 acres, *Pop.*: 698)

It is situated 19 miles from Lashkar on Gwalior-Dabra road. The place is known for an irrigation dam and Kothi or Palace of Maharaja Scindia called Jahaj Mahal.

Tighra: 26° 13' N 78° 5' E Tahsil Gird

(*Area*: 1,824 acres, *Pop.*: 333)

It is 11 miles south-west of Gwalior and occupies an important place in the Sankh-Asan irrigation scheme. A big reservoir supplies drinking water to Gwalior city.

Appendix	XI—Towns and Villages having co-operative societies together with the description of the society	...	257—258

APPENDIX I

INDUSTRIAL ESTABLISHMENTS

Note:—This appendix has been prepared from information abstracted from the houselists. It is arranged first districtwise, that is, under the name of the district have been arranged the industries in ascending order of minor groups, showing the total number of establishments within brackets next to each minor group. The information has been shown by total, rural and urban separately. The figures for the tahsil follow the figures for the district as a whole. The total, rural and urban figures for each tahsil for each minor group of industry showing the number of establishments in each in brackets have been presented first. Then follows the list of the villages in the order of their location code numbers with the location code number appearing first, followed by the name of the village. Against each village is shown the minor group or minor groups of industry found in the village with the number of establishments in that minor group shown within brackets against each minor group. For towns, figures have been presented separately for each ward, the number of ward being given first, followed by the industrial code numbers etc. as in the case of villages.

For example, Gwalior District total 200 (323) signifies that there are 323 establishments in Gwalior District pertaining to Minor Group 200, which stands for "Production of rice, atta, flour etc. by milling dehusking and processing of crops and foodgrains", Gird Tahsil 205 (22) signifies that there are 22 establishments in Gird Tahsil pertaining to Minor Group 205, which stands for 'Production of bread, biscuits, cake and other bakery products," Village Barauwanoorabad 207 (2) signifies that in the village Barauwanoorabad which has 4 as its Location Code number there are 2 establishments pertaining to minor group 207, which stands for "Production of edible fats and oils (other than hydrogenated oil)", and Gwalior City Ward No. I–209 (7) signifies that there are 7 establishments located in Ward No. I of Gwalior City, pertaining to minor group 209, which stands for "Production of other food products such as sweetmeat, condiments, muri, murki, chira, khoi, cocoa, chocklate, toffee, lozenge."

GWALIOR DISTRICT

PART II

OTHER DISTRICT STATISTICS

This part contains some useful official statistics pertaining to the district collected and compiled from various agencies (the agency or Source is indicated below each Table or Statement) and from official publications. These are presented under the following heads:—

1 Rainfall and Temperature

2 Economic Statistics:—
- (a) Agricultural
- (b) Prices and Wages
- (c) Live-stock and Taccavi
- (d) Co-operation, Banking and Insurance
- (e) Consumer's price index for working class

3 Administrative Statistics

4 Progress of Community Development Programme

5 Educational Statistics

6 Health, Medical and Vital Statistics:—
- (a) Health and medical
- (b) Vital Statistics

7 Communications Statistics

8 Miscellaneous

TABLE 2 A. 5

MAJOR AND MEDIUM IRRIGATION PROJECTS

GWALIOR DISTRICT

S. No.	Name of Project	Tahsil and Village	Year of commencement or when likely to start	Stage of progress	Estimate of Costs involved by stages	Gross area irrigated upto the latest year (in acres)	Future irrigation Potential (in acres)	Area under principal commercial crops (the area affected by the project) (in acres)
1	2	3	4	5	6	7	8	9
1	Simaria Tank Project	Gwalior, near Jakha Village	Started in 1960	Puddle filling Buldertoe has been completed in same reaches. Earth Work has been started in same reaches	Likely to cost 19.97 Lakhs		2,400 acres	No cultivated area is affected due to this Project.
2	Chait Tank Project	Dabra near Chait Village	1963		Likely to cost 35 Lakhs		To feed Harsi canal to an extent of 3,260 acres	No cultivated area comes under submergence

Note.—Major projects cost more than Rs. 5 crores.

Medium projects are those which cost between Rs. 10 lakhs and 5 crores.
