A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Punjab bear Volume No. XIII, and are bound separatly as follows :—

Part I-A	..	General Report
Part I-B	..	Report on Vital Statistics
Part I-C(i)	..	Subsidiary Tables
Part I-C(ii)	..	Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B(i)	..	General Economic Tables (Tables B-I to B-IV, B-VIII and B-IX)
Part II-B (ii)	..	General Economic Tables (Tables B-V to B-VII)
Part II-C (i)	..	Social and Cultural Tables
Part II-C (ii)	..	Migration Tables
Part III	..	Household Economic Tables
Part IV-A	..	Report on Housing and Establishments
Part IV-B	..	Tables on Housing and Establishments
Part V-A	..	Special Tables on Scheduled Castes and Scheduled Tribes
Part V-B	..	Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI	..	Village Survey Monographs: 44 in number, each relating to an individual village
Part VII-A	..	Report on Selected Handicrafts
Part VII-B	..	Report and Tables on Fairs and Festivals
Part VIII-A	..	Administrative Report: Enumeration (Not for sale)
Part VIII-B	..	Administrative Report: Tabulation (Not for sale)
Part IX	..	Socio-Economic Atlas

B—PUNJAB GOVERNMENT PUBLICATIONS

19 Volumes of District Census Handbooks :—

DCH-9	..	Hoshiarpur	DCH-19	..	Mahendragarh
DCH-10	..	Jullundur			

PREFACE

Taking into consideration territorial coverage, the 1961-census reports are of three types. The reports compiled in the office of the Registrar General, India, encompass the entire country, treating States and Centrally Administered Territories as the constituents. The reports compiled by the State Superintendents of Census Operations are confined to individual States and Centrally Administered Territories, giving details for Districts, and in some cases Tahsils and Towns. The third series constitutes the District Census Handbooks the scope of which is limited to individual Districts and they give information also for each Tahsil, town (ward-wise) and village within the District. The Handbooks have a narrower compass but go deeper down to the smallest territorial units.

The District Census Handbooks were published for the first time at the 1951-census. They proved very popular and valuable, their chief users being the officers working at Development Block, Tahsil and District levels, and students of social sciences interested in local problems. At the 1961-census, it was, therefore, decided to continue with this series and to make it still more informative. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government. In their present form they are self-contained books of reference.

The Handbook has four parts. Part I which is mostly descriptive, further comprises four chapters. Chapter I introduces the District, describing any legend connected with its name, location and boundaries, physical features, climate, fauna and flora, towns and places of interest, its history and present administrative machinery. Chapter II contains description of its agriculture, industries, trade and commerce and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities portraying the achievments during the First and Second-Five Year Plans.

Part II contains the statistics procured from various Government Departments, on rainfall and temperature, agriculture, livestock, industry, co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, local administration, banks and insurance, justice and community development. At the end of this Part appears a Table on fairs and festivals held in the District.

The Tables prepared from the 1961-census are presented in Part III, and they are of the same pattern as those appearing in the State reports.

Part IV contains a Directory of Villages and Towns, showing for each village and town, its name, social amenities (educational institutions, hospitals and dispensaries, medical practitioners, Post and Telegraph Offices, electrification and protected water-supply) ; area ; number of occupied residential houses and households living therein ; total population ; persons belonging to Scheduled Castes and Scheduled Tribes ; number of literate and educated persons ; number of workers distributed under nine industrial categories ; and non-workers.

The Handbook contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population by dots, each dot representing 200 persons in case of rural areas. Then there are maps for each Tahsil showing (i) the location of social amenities, and (ii) boundaries of villages and towns.

This publication is the outcome of the joint efforts of a large number of workers and Government departments. Grateful mention needs to be made here of the thousands of enumerators, supervisors, charge officers and District officers who collected the data on census; hundreds of persons who worked in the Tabulation offices compiling and processing this data ; and the various Departments of Government which supplied information on the activities with which they are concerned.

Shri T. P. Garg, P.C.S., a Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the various parts of Gurgaon District, collected information on diverse subjects and produced the draft of the Handbook. In this work he was assisted by Shri Jaswant Singh Dillawary, a Statistical Assistant and Shri Vishwa Mittar, a Supervisor.

The maps were prepared in the Cartographic Section in the Census Office jointly by Kumaris Satwinder H. Singh, M.A., Nirmal Bajaj, M.A., and Ranbir Sokhi, M.A.

My thanks are due to Shri K. C. Kuriyan, Controller of Printing and Stationery, Punjab, and his Deputy Shri Tara Chand, for the personal attention they paid to this book while it was in print.

R. L. ANAND,
Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—The District derives its name from its headquarters town 'Gurgaon' which is a corrupted form of '*Guru Gram*' or '*Guru Gaon*', meaning the village of the preceptor. It is said that Yudhistar, eader of the Pandvas, gave this village to his Guru Daronacharya, and a tank named after him still exists to the west of the road leading from Gurgaon town to the railway station. Another version is that Daronacharya used to teach the Kaurvas and Pandvas at this place and afterwards this place came to be known as '*Guru Gram*'.

Location and Boundaries.—Gurgaon is the southern most of the six Districts of the Ambala Division, and lies between 27°-39'-20" and 28°-32'-25" north latitude and 76°-18'-30" and 77°-32'-50" east longitude, forming the extreme south-east corner of the State. It is very irregular in shape. Its northern boundary lies along the Jhajjar Tahsil of Rohtak District towards the west, and the union territory of Delhi towards the east ; the Jumna flows along its eastern edge separating it from Bulandshahr and Aligarh Districts of Uttar Pradesh ; Mathura District of Uttar Pradesh and Bharatpur District of Rajasthan touch it in its south and the Alwar District of Rajasthan and Mahendragarh District of Punjab lie to its west. The Mahendragarh District covers a portion of its western border. The District headquarters is 19 miles south-west of Delhi.

*Area**.—The area of the District, according to Surveyor General, is 2,367.6 sq. miles but the Director of Land Records, Punjab puts it at 2,349.6 sq. miles. The District ranks eighth in area among the 19 Districts of the State, and is distributed among six Tahsils as shown below :—

	AREA (SQ. MILES)		
Tahsil	Total	Rural	Urban
Rewari	554.6	549.1	5.5
Gurgaon	412.1	409.8	2.3
Ballabgarh	287.8	277.8	10.0
Palwal	381.7	378.7	3.0
Nuh	401.2	398.6	2.6
Ferozepur Jhirka	312.2	310.9	1.3

PHYSICAL FEATURES

The land in the District slopes from west to east. The Gurgaon and Rewari Tahsils are generally sandy but towards Gurgaon the low lying lands are of a better type which are benefitted by natural irrigation. On the northern border of Gurgaon is the low basis of Najafgarh lake. The banks of the Jumna are generally high but the north-east corner of the Palwal Sub-Division is a low lying tract liable to inundation. The eastern portion of the District is a stretch of good alluvial loam. Nuh Tahsil generally has light clay, but near the hills which are to the north-east of Nuh and north-west of Palwal, the country is very sandy. Ferozepur Jhirka is, for the most part, a valley between the two ranges of hills and the land is generally good, though at places damaged by sand deposits.

The hills in the District, rising 500 to 700 feet above the plains, are part of the great Arvali chain and form a marked feature in its physical characteristics. They provide natural meadows for animals and lend beauty to the District, breaking the monotony of the plains.

River System.—There is no perennial river in the District, except the Jumna, which runs along its eastern boundary. The flow of water in the river is, however, very little except during the rainy season when some forty villages are exposed to floods. The tract along the Jumna river is called *Khaddar*, and a portion of it is an island formed by a stream called the *Jahar nullah* which shoots off from the river somewhere in Ballabgarh Tahsil and rejoins it lower down in the Palwal Tahsil. It runs in a deep, narrow and dangerous channel and does a great deal of damage in years of heavy floods. The State Government is attempting to dam this *nullah* at its source.

The Sahibi *nadi* is another powerful stream which rises about 90 miles away in Jaipur and flows northward passing through Rewari Tahsil. It has been notorious for its vagaries. When rains are heavy the *nadi* comes down with great force flooding many villages. Heavy floods were recorded in 1917, 1930, 1933 and 1960. It has a broad sandy bed in Rewari Tahsil. Recently, owing to the construction of a bund at Buchara in Jaipur, heavy floods have ceased.

*Part III Table A-I (Page 164)

Mention may also be made of Indori and Kasawati *nadis*. The former stream rises in Alwar, flows into the area of Taoru and ultimately falls in the Sahibi *nadi*. The latter torrent rises somewhere in Jaipur and enters the District from the south-west corner of Rewari Tahsil. It flows only during heavy rainfall when after crossing the District, it flows into the Sahibi in Rohtak District, and thereafter into the Najafgarh lake.

Lakes.—There are a number of *jhils* (lakes) in various parts of the District. The Khalilpur *jhil* is situated in the north-east of Nuh Tahsil in the deep part of a low piece of country. Its area is about 1,500 acres and the depth of the water during the rainy season is from 4-5 feet. The Chaindaini *jhil* lies about 10 miles west of the Khalilpur *jhil* and is situated to the north-west of Nuh. Its permanent basin is about a thousand acres. The Ujina *jhil* is situated in the south of Nuh Tahsil, and during rainy season its water inundates numerous villages. The Kotla *jhil* is the largest in the District being some three miles long and 2½ miles broad, and lies partly in Nuh and partly in Ferozepur Jhirka Tahsil, at the foot of the Alwar hills. The Najafgarh *jhil* is located mainly in the Delhi territory, but a part of it lies in the Gurgaon Tahsil. During the years of heavy rainfall a number of border villages of Gurgaon Tahsil are flooded with its overflow. This is on account of the faulty alignment of the Najafgarh drain in Delhi territory in 1960-61. Deepening and desilting of the drain is under active consideration of Government and when this has been done the District will be spared from the floods.

Drainage.—The District has varied topography of valleys and uneven land. The drainage problem is of considerable importance but is difficult to solve because of the drains tending to flow towards inland depressions instead of flowing out into some river. The most important drain in the District is Gaunchi drain which has been causing considerable havoc by flooding a large number of villages when it overflows. A scheme of constructing this drain and its various link drains was taken up in 1959-60 and on its completion it will serve 257 sq. miles catchment area in Nuh and Palwal Sub-Divisions. The approximate length of the main drain and its feeder drains would be 46 and 94 miles, respectively. The work on the Dighout, Ranika, Palwal, Janauli, Dhatir and Pirthla link drains is in progress. The construction of the Nuh and Ujina drains is also under active consideration of the Government. When the Gaunchi Drainage Scheme is completed the problem of floods in the south-eastern parts of the District will be solved, and when the schemes mentioned above are completed the south-western parts of the District, comprising Gurgaon, Nuh and Ferozepur Jhirka Tahsils would become immune from floods.

Bunds.—The soil of Gurgaon District is heterogeneous and consists partly of uneven land. Only 5.7 per cent of the total area is irrigated by the Agra Canal. The soil at most places is rocky and water brackish. The only easily available means of irrigation are the bunds. A system of bunds was laid out in the District in 1868. At present there are 84 bunds, big and small in the District, and they include 17 flood protection bunds, constructed in Ballabgarh and Palwal Tahsils during 1956 for the purpose of saving the village *abadis* from the vagaries of the Jumna floods. The others are irrigation bunds built down the course of the *nullahs*. Some of these bunds store water which is served by channels to lower lands for cultivation. Other bunds flood the upstream lands which are sown later when the water dries. Each year the fields above the bunds get more flat and more fertile with the silt brought with the water.

Under the Third Five-Year Plan a sum of Rs. 2.3 lakh per year has been allotted for the construction of new bunds. In 1956-57 the bunds in the District irrigated 12,095 acres of land as against 1,417 acres during 1951-52. There is a full-fledged Bunds Sub-Division for the construction and maintenance of bunds in Gurgaon and Mahendragarh Districts with headquarters at Gurgaon, under the charge of a Sub Divisional Officer.

The bunds in the District serve as multipurpose small individual projects. They intercept, divert, distribute and disperse drainage water for basin and outside irrigation. They silt up ravines located in the basin of bunds and help in soil and water conservation by raising the water table in the area. They act as flood control works by saving the low lying lands from submersion and are also protective embankments to village *abadis* in the *Khaddar* area. Lastly, they supply drinking water. The bunds have thus proved very useful in improving drainage, agriculture and health of the District.

Geology.—The District does not have large mineral resources. Near the Sohna town deposits of plumbago were found out in 1862 and some pencils were manufactured from it, but the substance was of poor quality and the venture did not succeed. There are 37 quarries in the District—big and small. The most important among them are near Khol and Majra Bhalki, 12 miles west of Rewari taking out slate, which are used largely in roofing and flooring. China clay, *kankar* (Calcarious nodules) and *bajri* are also extracted from the quarries. The State Government earned a revenue of Rs. 6,885 from these quarries during 1960-61. A few concerns at Palwal and Hodal are engaged in refining the un-refined salt-peter.

CLIMATE

Gurgaon is more temperate than many other Districts. Near the hill ranges and in Ferozepur Jhirka valley it, however, gets very hot in summer. The higher lands particularly around Taoru are very healthy.

During winter the climate is very enjoyable and the atmosphere is free from dust. March ownwards the day temperature starts rising and in May and June it becomes hot. About mid-July the monsoon clouds appear on the horizon and the rainy season starts. On the whole the climate is dry and healthy. The District is visited by a number of dust storms during summer because of proximity to Rajasthan. For hours before the dust storm, there is a lull and it becomes very close. Dust particles remain suspended in the air. After some time the storm breaks suddenly and the dust is spread all over. Sometimes it is followed by a light shower which lowers the temperature. But soon after the mercury begins to rise and the atmosphere is worked up for another storm. Thus storm follows storm at frequent intervals all through the hot months. Fortunately the storms are not disasterous ; they would blow down a few trees or blow up the roofs of some thatched huts.

Rainfall.—The District gets uniformly light rainfall. In Table I of Part II* are shown monthly figures of number of rainy days and amount of fall during 1951 to 1960 for the six Tahsil headquarters towns. The decennial average figures are given below :—

Town	Average annual rainfall (Cms.)
Rewari	65.8
Gurgaon	66.5
Ballabgarh	63.2
Palwal	61.4
Nuh	60.4
Ferozepur Jhirka	58.9

There is practically no rainfall from April to June as also between December and February. The little rainfall in winter is most welcome since it benefits the rabi crops : they are, however, scanty and uncertain. Consequently the *kharif* is the more important harvest and the *rabi* on unirrigated land is precarious. The few tracts in the District which sow rabi crops extensively, such as the *Dahar* and *Chiknot* circles of Nuh and Ferozepur Jhirka, the *khaddar* circle of Palwal and the Sahibi circle of Rewari, are notoriously unprosperous.

In an ideal year from agricultural point of view the monsoon commences by or before the middle of June as the yield of cotton crop depends largely on early rains. The first showers must not be too heavy for the seed in sandy lands is washed out and has to be resown. Good showers alternating with sunshine are required in July and August. Continuous cl uds and rains during these months cause the crops to mildew, and prevent weeding. On the other hand, if there is too little rain or a strong west wind, the crops dry up. The first half of September is the critical period as on the rainfall during this period, the ripening of the kharif and the sowing of the rabi depends. The success of the rabi crops depends on adequate showers between mid-December and mid-February.

Statistics regarding temperature are not available as Meteorological Department does not record temperature at any place in the District.

Fauna.—The days when the tiger used to abound along the Jumna banks are long since over. The panther (*taindwa*) is now the largest animal of the feline family to be found in the hills. Other common wild animals which may be mentioned are the wild cat, the wolf, the fox, the jackal and the mangoose (*niola*). The hare is plentiful in all parts of the District. Ruminants are represented by the black buck and the ravine deer. The *neelgai* (wild cow) is seen in some parts. Birds of diverse variety are found every where. The lakes attract water fowl and ducks also appear during the cold months. The wild or blue pigeon is common but the green pigeon is rare. Partridges are also found but they are vanishing on account of shooting and felling of trees accompanying the consolidation operations. The lakes and bunds provide scope for rearing fish and a farm for the supply of fish-seed is being established by Government at Badkhal Bund, a picnic and recreational spot near Faridabad Township.

Flora.—The District is not well-wooded and some portions in Nuh are bare of trees. The Palwal Sub Division is by far the best wooded. In Rewari the *frash* (Tamarix orientalix) is very common. The *kikar* (Acacia arabica) is found all over the District and *kabli kikar* (Acacia farnesiana) is also common. *Neem* (Melia azadirachta) is found generally in and around the village sites where the *pipal* (Ficus religiosa) is also a frequent occurrence. *Aam* (Mangifera indica) is extremely rare. *Shisham* (Dalbergia sissoo) is planted along the roads and on the bunds. *Pala* or *Jhar beri* (Zizyphus nummularia) abounds all over the District except in low lying inundated tracts. It is a multipurpose tree ; its leaves are fed to cattle, its fruit is eaten, its thorny branches are used for fencing and as fuel, and its root used for tanning. Equally hardy but less useful is *Munj* (Saccharum sara) which flourishes both in high sandy lands and in low flooded tracts. *Aak* is a widely distributed weed, as also *pohli* which defies eradication. *Bui* (Fraucoeuria Crispa) is also common in dry tracts.

*Pages 48 to 51

HISTORY

Gurgaon District belongs to the area known as Mewat—the land of the Meos. The Mewatis were very turbulent and used to plunder the country far and wide. They played important roles in the time of Taimur under Bahadur Nahar, the reputed founder of Khan Zada and in the time of Babar by Hassan Khan Mewati. After their death there has never been an independent ruler of Mewat, which was subsequently partitioned between Alwar, Bharatpur and Gurgaon.

During the reign of Akbar, the present Gurgaon District was contained in the Division of Delhi and Agra. With the decay of the Moghul empire, Rao Bahadur Singh in the centre, the Biloch Chiefs of Bahadurgarh and Farrukh Nagar in the north and the great Jat ruler, Suraj Mal of Bharatpur in the south, came into prominence. After Suraj Mal's death, the Jat power declined and for a short period the then Moghul Emperor recovered most of the District with the help of Najaf Kuli Khan, who in 1788 fell away from the Emperor but was besieged by him at Gokalgarh near Rewari.

Then followed the period of Mahratha domination, the rule of the *Ghore walas* or horsemen as they are still called in the District. During their domination, the District was usually entrusted to Scindia and French Officers, the best known of whom are 'Peru Sahib' and 'Louis Sahib' (General Perron and Bourquin) while another French General was Sombre, the husband of the well-known Begam Samru, who ruled over the Pargna of Jharsa.

During all this period the history of Rewari has been somewhat different. Aurangzeb made Ahir Nand Ram of village Bolni the Governor of the *Pargna* of Rewari. Nand Ram's son Rao Balkrishan fell fighting in the royal cause at Karnal. His second son Rao Gujjar Mal was granted the title of Rao Bahadur, the 'commander of 5,000' and the Governor of the *Pargnas* of Narnaul and Hissar. He built forts at Guraora and Gokalgarh and also minted *Gokal Sicca* coins. His successors were his son Rao Bhiwani Singh and grand son Rao Dalel Singh. Later on the *Pargna* was seized by Zauki Ram, a Bakal of Rewari. It was at this time that Tej Singh came into prominence. In alliance with the Mahrathas he put to death Zauki Ram and established his own power. Later he joined the British and obtained a grant of 58 villages in Istamrar.

The *Pargna* of Shahjahanpur was mainly held by Chauhan Rajputs but later on the Haldias took it into their possession. Subsequently the *Pargna* was ceded to the English by Dault Rao Scindia in 1803. With this the history of Gurgaon as District commences. The District at that time consisted of 11 *Pargnas*. After this cessation, the District remained unchanged in extent until the mutiny. It was divided in six Tahsils. At first the District headquarters were at Bharawas and Gurgaon was then a cavalry station. But after the cessation of Ajmer territory, the civil offices were removed to Gurgaon. The District had been in the charge of the Delhi Resident by that time. In 1819 a Principal Assistant Commissioner was given the independent charge of it while in 1832 his title was changed to that of Collector.

At the time of the First War of Independence (Mutiny) in May, 1857, Mr. Ford was the Collector of Gurgaon. He at first suppressed the revolutionaries but eventually was compelled to leave the station. He took refuge at various places and could join the British Camp at Delhi on 1st July, 1857. By the end of the year order was completely restored, and the result of the struggle was that the District was transferred from the North-West Frontier Province to the Punjab in the beginning of 1858. Kot Kasam was made over to Jaipur in 1860. In 1911 a bulk of Ballabgarh was transferred to Gurgaon from Delhi. After Independence Pataudi State and Bawal *Pargna* of PEPSU were merged in the District in 1950. At present the District is administratively arranged into three Sub Divisions, six Tahsils and two Sub-Tahsils.

TOWNS AND PLACES OF INTEREST

Rewari (Area 2.34 sq. miles : Pop. (1961) 36,994).—Rewari is a town of great antiquity and is a junction of five railway lines. It is 34 miles from Gurgaon by rail and is also connected by road. The original site lies at some distance to the east of the present town and is called *Bur* or *Budhi* Rewari. A second class municipality caters for the water-supply and other civic needs of the inhabitants.

Rewari is a flourishing town, with good well maintained roads which are flanked with surface drains. Its main market, constructed in 1854, is quite beautiful. The brass and pewter vessels of Rewari have made a name throughout the country. There are two colleges : the Ahir College and the Teachers' Training College, a Government Industrial School ; two Government Higher Secondary Schools, one for boys and the other for girls. Yet another five High Schools for boys and the one High School for girls are run by private bodies.

The town has a civil hospital and a veterinary hospital. There are about 100 industrial units in the town, mostly manufacturing brass and *kansi* utensils and *huqqa* (hubble bubble).

Pataudi (Area 2.00 sq. miles : Pop. (1961) 4,243).—The town is 18 miles to the west of Gurgaon and is connected by rail and road. Till 1950 it was a small princely State when it was merged with the District. It is a municipality of the 3rd Class. The attraction of the town is the palace of the late *Nawab* of Pataudi, with a

nice cricket ground. It may be of interest to mention that the late *Nawab* of Pataudi was a renowned cricketer and so is his son, the present *Nawab*. A big cattle fair is held at Pataudi every year which fetches about a lakh of rupees in revenue. A Government High School for boys, a dispensary and the court of the Naib Tahsildar are among other institutions.

Farrukh Nagar (Area 0.19 sq. mile : Pop. (1961) 4,948).—This town, situated in the midst of a sandy sterile tract, is 14 miles from Gurgaon by road and 1½ miles from the terminus of a branch of Delhi-Rewari railway line which was constructed for the export of salt formerly made in large quantities. The town is octagonal in shape and is surrounded by a wall having four gates. It is said to have been founded by Faujdar Khan, a Biloch ruler. There are two wide bazars running at right angles to one another. Most of the old houses, made of stone and bricks, are now in a state of complete dilapidation and the town is in decay, because of large scale migration of local business community to bigger towns. Among the old buildings deserving mention are the *Shish Mahal*, or the Nawab's palace and a large *bauli*. The town is served by a Government High School for boys, a civil dispensary and a municipality.

Gurgaon Town (Area 2.00 square miles: Pop. (1961) 37,868).—The town of Gurgaon, the administrative headquarters of the District, is 19 miles from Delhi both by rail and by road. In 1911 its population was 5,461 showing a seven fold increase in 50 years. It has a railway station. There are two colleges : D.S.D. College and Government College for Women ; two Industrial Training Institutions and two Government Higher Secondary Schools, one each for boys and the other for girls. Yet another 3 High Schools for boys and one High School for girls are run by private bodies. There is a Government Industrial School for girls giving training in tailoring, embroidery and knitting. The Industrial Training Institutions impart training in welding, draftsmanship, electrical fittings and radio mechanism, etc. The town has a civil hospital, a veterinary hospital and a T.B. Clinic. Mention might be made of the Nehru Stadium, Kamla Nehru Park and John Hall. There is only one market in the town in the Saddar Bazar.

The importance of the town is increasing gradually, mainly because of its nearness to Delhi. More than a hundred industrial units of different types have been set up in recent years and several more are coming up. Among them are 12 concerns manufacturing optical lenses, 6 units producing rubber goods, 25 units engaged in the production of general engineering goods like chaff-cutter blades, ammunition boxes, pressure cookers and one unit producing plastic sheets. The Industrial Estate at Gurgaon is in the course of completion. Government has recently established an Improvement Trust in the town.

Gurgaon Village (Area 6.59 square miles : Pop. (1961) 8,127).—A mile away from the town is the Gurgaon village, also known as Gurgaon Masani. The village is worthy of mention only for its temple dedicated to *Sitla*, the goddess of small-pox, which is held in high esteem, and is the site of an annual fair. A curious feature of the temple is that the offerings to the goddess, which were formerly appropriated by Begum Samru, are now auctioned annually and the auction money is apportioned among the land owners of the village. The auction money was Rs 114,100 for the year, 1962-63.

Sohna (Area 0.14 square mile : Pop. (1961) 6,889). –It is a rather picturesque town in a wooded country at the foot of the hills and lies on the main Gurgaon-Jaipur Road, 15 miles from the District headquarters.

The town derives its name from the gold (*sona*) dust formerly collected from the bed of the neighbouring torrents. There is a deposit of plumbago in the hills near the town but not sufficiently pure to have any commercial value. The ruins of an old fort at the brow of the hills over hanging the town are still visible. The streets of the town are mostly narrow and paved with flag-stones. A Government High School for boys, a rest house, dispensary and Block Development and Panchayat Office are among the institutions of the town.

The chief feature of Sohna is its hot spring. Its water is strongly impregnated with sulphur, and its temperature varies between 115° and 125° F. The spring is covered with a domed building and is surrounded by a reservoir. People from long distances flock to this place for bath since the water is considered to cure rheumatics, gout and skin diseases. Hindus consider it a holy place and a fair is held here on *Somavati Amavas*. A few monuments of archaeological interest are also found in the town.

Faridabad Township (Area 4.94 square miles: Pop. (1961) 39,852).—The Industrial Township of Faridabad lies on the broad gauge station of the Central Railway, some 30 miles from the District headquarters and 18 miles from Delhi. It is bounded on the east by the Grand Trunk Road and in the west by a flank of Arvali ranges and a beautiful bund named Badkhal. A notified area committee caters for the water-supply, sanitation and other civic needs of the inhabitants. The town originated with a settlement of displaced persons mostly from the North-West Frontier Province and Dera Ghazi Khan (now in West Pakistan) and later developed into an industrial area.

The town has five residential sectors known as 'neighbourhoods' located around a Central Green with a separate industrial area. Each neighbourhood measures about 1/4th square mile and contains more than one thousand two-roomed houses except the neighbourhood No. 4 which has not yet been developed. The industrial area, in the south of the township is separated from the residential area by a traverse road, and has 116 industrial plots. The industrial area is about 240 acres and is divided into plots of various sizes. Electric power and piped water-supply serve all industrial units. A railway siding has been laid throughout the length of the industrial area.

Among the industrial concerns which number more than 100, there is a big shoe factory of the Batas and a few big concerns producing agricultural implements and engineering goods. A Government of India Press is also located here. The industrial units give employment to about 8,000 skilled and unskilled workers. The banking facilities are provided by the branches of various banks. Other facilities provided to the inhabitants include the post offices, telephone exchange, fire brigade and the police station, etc. It has two Higher Secondary Schools, one each for boys and girls, and a big civil hospital. The National Productivity Council has its branch in the Township for giving expert guidance on various processes of production. Recently a very nice hotel "Holiday Inn" has been started by a private firm with all modern amenities. Government have an ambitious scheme to further develop the area. The Industrial Township is one of the biggest 'Industrial Areas' in the country and the State and Central Governments are providing all facilities to the industrialists.

Faridabad (Old Town) (Area 4.00 square miles : Pop. (1961) 10,857).—It is very near the Township, located on the right of the Delhi-Mathura Road, 23 miles from the District headquarters. The town is said to have been founded by Sheikh Farid in 1659. It is a second class municipality and has a temple, a mosque and a tank which are worth the visit. The town is known for henna (*mehndi*) grown in orchards and it is sent throughout the country and even outside.

There are three High Schools, two for boys and one for girls. The headquarters of the Gram Sahyog Samaj, a social service organisation established in 1959, are also located here.

Ballabgarh (Area 1.00 square mile : Pop. (1961) 8,330).—This town is 28 miles from the District headquarters and 22 miles from Delhi on the Grand Trunk Road. The original name was Balramgarh after the founder Raja Balram Singh. It is a second class municipality and is the headquarters of the Tahsil of the same name. The town is well laid and has a big grain market, and straight bazars crossing each other at right angles. A market committee to administer the working of the market is located here.

Because of proximity to Delhi and location on the Grand Trunk Road and broad gauge railway line, the town is making rapid progress particularly in industrial field. Recently a big tyre manufacturing factory has started production and some other important industrial units are also coming up. It has two High Schools for boys and one High School for girls.

Palwal (Area 2.00 square miles : Pop. (1961) 27,863).—The town is 42 miles from Gurgaon, and 30 miles to the south of Delhi on the G.T. Road. It is a second class municipality and headquarters of a Sub Division. The town has a grain market with adequate facilities for storage. There is a Degree College, two High Schools for boys and one High School for girls. Two *Masjids* of archaeological interest bear inscriptions of early 13th century. A *sarai* in the heart of the town also bears traces of former importance.

Hodal (Area 1.00 square mile : Pop. (1961) 10,558).—This small town on the G.T. Road near the southern strip of the District lies at a distance of 62 miles from Gurgaon. The Municipal Committee caters for the civil needs of the inhabitants. Besides, there are two High Schools for boys, a grain market and a few small cotton ginning units.

A beautiful square tank hemmed in on all sides by stone and some temples on its banks, an old *sarai*, a *bauli* and a masonary tank, now in ruins indicate the past glory of the town. About half a mile from the town is a tank and a place called *pandoban* with the shrine of Radha Krishan, which is held in respect by the Hindus of the area.

Nuh (Area 2.59 square miles : Pop. (1961) 3,772).—The town is the headquarters of the Sub Division of the same name and is 28 miles from Gurgaon on the road leading to Jaipur. In olden times the town was the centre of trade in common salt which was obtained from brackish water of wells. This trade died with the development of salt production at the Sambhar lake. The town is not connected by rail. It has a small market for agricultural produce, adequate for the requirements of the area. The building of the Brayne Meo High School is remarkably good. It was constructed entirely from donations by the Meo community through the efforts of Mr. F.L. Brayne, a former Deputy Commissioner. To the west of the town is a tank with a *chhatri* adorned with beautiful designs built long ago by a local merchant.

Ferozepur Jhirka (Area 1.32 square miles : Pop. (1961) 5,775).—The town is the headquarters of a southern tahsil of the same name. The word Jhirka means a spring and there is one in the rock near the town. The town is 51 miles from Gurgaon on the main road leading to Alwar. It is said to have been founded by emperor Ferozeshah as a military post. The remains of an old town called *Dhund* still exist to the north of the present site with many ruined tombs and shrines. Its main bazars run at right angles to one another and are neatly paved. A Government High School for boys, the tahsil office, the police station, a civil dispensary and a municipal office are among the institutions of the town. A Jama Masjid, said to have been built in 1824, is of archaeological interest.

Mustard seed being the principal product of the area, oil crushing industry is slowly developing after the electrification of the town. However, most of the mustard seed is sent out uncrushed.

ADMINISTRATIVE MACHINERY

For general administration, Punjab is divided into three Commissioner's Divisions, and further into 19 Districts. Gurgaon is one of the six Districts in the Ambala Division. The District is in the overall charge of a Deputy Commissioner.

Deputy Commissionerand his Assistants.—The administration of the District is vested in the Deputy Commissioner who has multifarious duties. As District Magistrate he is responsible for maintaining law and order and is the head of the District police and prosecuting agency. As Collector, he is incharge of the revenue administration and is responsible for the collection of land revenue and other Government dues. He is the Registrar of all transactions of immovable property. As Deputy Commissioner, he is the executive head of the District, co-ordinating the activities of the various departments, executing the developmental schemes and looking after emergent situations such as floods and locust attacks. He supervises the functioning of Municipal Committees, Market Committees, Community Development Blocks, *Panchayat Samitis* and the *Zila Parishads.* He guides and helps these agencies of local-self government in the discharge of their functions and explains to them the Government policies. He is responsible for the execution of development and planning schemes in the District, and as Chairman of the Standing Committee of General Administration and Development, he co-ordinates the activities of the various development departments. He has to keep his fingers on the pulse of the people and to refer such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra Assistant Commissioners at the District headquarters and at the Sub Division and Tahsil level. As there is no post of Revenue Assistant in the District, the General Assistant assists him in the revenue work. The latter officer attends to the revenue work not so far transferred to the Sub Divisions and supervises the maintenance of the land records and land revenue accounts at the District level. He controls the revenue establishment and is incharge of the flood relief work, anti-locust measures, famine relief, red cross, and elections. He also assists the Deputy Commissioner in execution of administrative functions. He controls the office of the Deputy Commissioner and is also incharge of the Licensing and Passport, Nazarat, Complaints, Miscellaneous and Establishment Branches, and also functions as the Superintendent of the local Sub-Jail.

The District Development and Panchayat Officer (D.D. & P.O.) looks after the work relating to community development, municipal and market committees and the panchayats.

Two revenue trained Extra Assistant Commissioners work as Settlement Officers for the consolidation of holdings, one with headquarters at Gurgaon and the other at Rewari (1962). For consolidation work they are responsible to the Director of Consolidation of Holdings, but the Deputy Commissioner exercises general administrative control over them.

Sub Division and Tahsils.—There are six Tahsils in the District: Gurgaon, Rewari, Nuh, Ferozepur Jhirka, Palwal and Ballabgarh. Two Sub-Tahsils of Bawal and Pataudi are attached with the Rewari Tahsil. In pursuance of the Government policy of decentralising authority and converting Tahsils into Sub Divisions, Sub Divisional Officers (Civil) have been posted at Rewari, Nuh and Palwal and similar officers will be posted shortly at Gurgaon, Ferozepur Jhirka and Ballabgarh. The Sub Divisional Officer is either an Assistant or an Extra-Assistant Commissioner and exercises control over the Tahsildar and Naib-Tahsildar. He has been vested with first class magisterial powers. His powers vis-a-vis the Sub Division are analogous to those of the Deputy Commissioner vis-a-vis the District, though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner. This decentralisation has been effected in order to enable the Deputy Commissioner to devote more time for development work.

The Tahsildars and Naib-Tahsildars are vested with class II and class III magisterial powers respectively, and on the revenue side they are Assistant Collectors, II grade. Their main task being the collection of revenue, they have to tour extensively, but at the same time they play an important part in accelerating the execution of various development schemes, and are utilised to the maximum during times of emergency. They are assisted in revenue work by an Office *Kanungo* and a number of Field *Kanungoes* and *Patwaris.*

For the purposes of assisting the various revenue agencies, a number of *Kanungos* have been provided. The preparation of annual village records and revenue statistics rests with the *Patwaris* and for this purpose the District is divided into 374 *Patwar* circles, each circle being looked after by a *Patwari.*

The *Lambardar* collects the land revenue and deposits it in the Tahsil Sub-Treasury. He is an important link in the administration, since he promotes law and order in his village and sends information regarding breach of law and births and deaths to the nearest police station. A *Chaukidar* is appointed to assist him. The *Patwari and Chaukidar* receive monthly salaries while the office of the *Lambardar* is hereditary, and carries an emolument of 5 per cent of the land revenue collections.

Judiciary.—Separation of the judiciary from the executive has been effected in the District. The administration of justice, on both the civil and criminal sides, is headed by the District and Sessions Judge, Rohtak, who is assisted by a whole-time Additional Sessions Judge at Gurgaon. The magisterial work is controlled through the Additional District Magistrate who exercises summary powers and also has some police stations udner his direct control like other magistrates. There are two First Class Masgistrates at District headquarters and one at Palwal: also one Senior Sub-Judge and one Sub-Judge at the District headquarters and one Sub-Judge each at Rewari and Palwal for civil cases under the District and Sessions Judge.

Government cases for the Civil and Sessions' courts are presented by an Assistant District Attorney who is under the control of the Legal Remembrancer, Punjab. He is assisted by one Public Prosecutor appointed by the Government from amongst the members of the Bar. The Prosecuting Inspector, assisted by some Prosecuting Sub-Inspectors, conducts the cases for the State in the courts of the magistrates.

Police.—The police administration in the District is controlled by a Superintendent of Police who is responsible for assisting the District Magistrate in the maintenance of law and order. He functions under the administrative control of the Deputy Inspector General of Police, Ambala Range, and is assisted by one Assistant Superintendent and one Deputy Superintendent. The police organisation consists of one Superintendent, 2 Assistant/Deputy Superintendents, one Prosecuting Inspector, ten Prosecuting Sub-Inspectors, two Inspectors, twenty three Sub-Inspectors, forty five Assistant Sub-Inspectors, 101 Head Constables, 717 Constables, and nine Mounted Constables.

The lowest unit of police administration is the police station each in the charge of a Sub-Inspector and serving a number of villages or a town. There are 19 such police stations and two police out-posts in the District.

Jails.—There are two Sub-Jails in the District, one at Gurgaon and the other at Palwal. The Sub-Jail at Gurgaon is under the charge of a part-time Superintendent (General Assistant) who is assisted by full-time staff of an Assistant Superintendent, one Head Warder and a number of Warders. The authorised accommodation in the jail is for 119 inmat s, including a separate women's ward under a Matron. The jail hospital has a part-time medical officer and a whole-time dispenser. This jail has a small library in the office and a radio set. A farm of about 5 acres ia attached to the Jail. The Sub-Jail at Palwal is under the local S.D.O. (Civil) who is assisted by suitable staff.

Community Development.—The District stands divided into the following 14 Community Project and National Extension Service Blocks (early 1963)—

Tahsil	Block
Gurgaon	1. Gurgaon
	2. Sohna
Rewari	3. Rewari
	4. Bawal
	5. Pataudi
	6. Khol with headquarters at Rewari
Nuh	7. Nuh
	8. Hathin
Ferozepur Jhirka	9. Ferozepur Jhirka
	10. Punahana
Palwal	11. Palwal
	12. Hodal
Ballabgarh	13. Ballabgarh
	14. Faridabad

A Block covers some 100 villages and is under the charge of a Block Development and Panchayat Officer who is also the ex-officio Executive Officer of the Block *Samiti.* The B.D. & P.Os. are under the administrative control of the S.D.Os (Civil). They have no administrative functions and are mainly concerned with the promotion and execution of development schemes.

A B.D. & P.O. has a number of Extension Officers, belonging to various departments, to assist and advise him in their respective spheres like the Agriculture, Industries, Co-operation and Education. At the lowest rung of the Extension Service scheme are the Village Level Workers and Lady Social Workers who work for the development and social education plans, aiming at improving the social, economic and health conditions of the rural population.

The first two Community Development Blocks in the District were instituted in 1952. By the close of 1956 their number rose to 8 and to 14 by 1961.

Zila Parishad, Panchayat Samitis and Panchayats.—The fourteen *Panchayat Samitis*, one for each Development Block, elected under the *Panchayat Samitis* and *Zila Parishads* Act, 1961 are supposed to make arrangements for meeting the requirements of the area under their jurisdiction in respect of agriculture, health and rural sanitation, social education, co-operation and other allied matters. Their members are elected from amongst the members of the Village *Panchayats* in the Block. At the District level, a *Zila Parishad* consisting of representatives from village *Panchayats*, *Panchayat Samitis*, and some co-opted and nominated members, have taken over the entire Community Development Work replacing the District Boards of the British regime. The *Zila Parishad* is responsible for framing the District Development Plans. It guides and supervises the *Panchayat Samitis*, scrutinises their budgets and undertakes a good bit of special development works. The new pattern of administration, which has started functioning, is thus responsible for local works, measures likely to promote the health, comfort, convenience and interest of the rural folks, the social and cultural advancement, village self-sufficiency and economic prosperity in rural areas.

The Punjab *Gram Panchayat* Act, 1952 provides for a *Panchayat* in every village with a population of not less than 500 persons and a joint *Panchayat* for a smaller village population by grouping it with contiguous village or villages so that the population to be served is not less than 500. Accordingly 854 *Gram Panchayats* with a total membership of 4,730 have been established in the District. Elected on the basis of adult franchise, the *Gram Panchayats* are the statutory bodies with certain functions to perform. Their functions include criminal (judicial), civil and revenue (judicial) work, besides administrative and executive duties. These powers at the moment are limited, but will be extended in due course, as and when this experiment in decentralisation of authority proves successful. They have been empowered to levy certain taxes and are allowed a specified percentage of the land revenue of the village to provide them the expenditure necessary for discharging their functions. The setting up of these small village republics is, in fact, a bold step forward in the process of democratic decentralisation as they assume an important and potentially paramount role.

Co-operative Department.—For the purpose of administration the Co-operative Department in the District is divided into two circles, Gurgaon Circle and Palwal Circle, each under an Assistant Registrar. The Gurgaon Circle covers Gurgaon, Rewari and Ballabgarh Tahsils and the Palwal Circle covers Palwal, Ferozepur Jhirka and Nuh Tahsils. The working of the industrial co-operatives is looked after by the Assistant Registrar, Industrial Societies, Hissar.

Agriculture Department.—The work of the Agriculture Department in the District is under the District Agriculture Officer. He is assisted by specialists in horticulture, plant protection and soil science, etc., at the District headquarters, and by Agriculture Inspectors and Sub-Inspectors in the N.E.S. Blocks.

Industries Department.—There is a District Industries Officer, who is assisted by suitable number of Inspectors and Sub-Inspectors. For rural industrialisation and development work, Block Level Extension Officers are posted in various Blocks. Technical Education in various crafts is imparted by the Government Industrial Training Institute, Gurgaon and the Government Industrial School for girls, one each at Gurgaon, Rewari and Faridabad. Besides, there are instructors and administrators working in the various Industrial centres.

Medical and Public Health Department.—The Civil Surgeon is incharge of the hospitals and civil dispensaries in the District, and the District Medical Officer of Health looks after the rural dispensaries and the Primary Health Centres and general sanitation in rural areas. Besides, each municipality has health staff of its own.

Veterinary Department.—The District Animal Husbandry Officer has a staff of 21 Doctors, 35 Compounders and 17 Livestock Assistants spread over the entire District, in 22 veterinary hospitals and 12 dispensaries.

Irrigation Department.—There are two main canal irrigation systems operating in the District each having its separate staff : (1) The Agra Canal system, and (2) the Gurgaon Canal system.

The Agra Canal system was introduced in 1875, and serves in the *Bangar* plains in the east of the District, mostly in Palwal and Nuh Sub Divisions. It is under the control of the State of Uttar Pradesh. The supply of water from the Agra Canal does not meet adequately the requirements to provide stable irrigation, a canal, named 'Gurgaon Canal' was started in 1961. The Gurgaon Canal is administered by an Executive Engineer at Ajraunda, a village near Ballabgarh.

Drainage Department.—The District has a varied topography consisting of valleys, hillocks and uneven land. The drainage problem here is not only of considerable importance but is also complex. The only drainage circle in the District is at Palwal under the charge of an Executive Engineer who looks after the construction of Gaunchi Main Drain with its link drains. The work was started in 1959-60. The Gaunchi Drainage system with 46 miles length of the main drain, 94 miles of its link drains aims at serving 257 sq. miles of catchment area located in Ballabgarh, Nuh, Palwal and Ferozepur Jhirka Tahsils.

Judiciary.—Separation of the judiciary from the executive has been effected in the District. The administration of justice, on both the civil and criminal sides, is headed by the District and Sessions Judge, Rohtak, who is assisted by a whole-time Additional Sessions Judge at Gurgaon. The magisterial work is controlled through the Additional District Magistrate who exercises summary powers and also has some police stations udner his direct control like other magistrates. There are two First Class Masgistrates at District headquarters and one at Palwal: also one Senior Sub-Judge and one Sub-Judge at the District headquarters and one Sub-Judge each at Rewari and Palwal for civil cases under the District and Sessions Judge.

Government cases for the Civil and Sessions' courts are presented by an Assistant District Attorney who is under the control of the Legal Remembrancer, Punjab. He is assisted by one Public Prosecutor appointed by the Government from amongst the members of the Bar. The Prosecuting Inspector, assisted by some Prosecuting Sub-Inspectors, conducts the cases for the State in the courts of the magistrates.

Police.—The police administration in the District is controlled by a Superintendent of Police who is responsible for assisting the District Magistrate in the maintenance of law and order. He functions under the administrative control of the Deputy Inspector General of Police, Ambala Range, and is assisted by one Assistant Superintendent and one Deputy Superintendent. The police organisation consists of one Superintendent, 2 Assistant/Deputy Superintendents, one Prosecuting Inspector, ten Prosecuting Sub-Inspectors, two Inspectors, twenty three Sub-Inspectors, forty five Assistant Sub-Inspectors, 101 Head Constables, 717 Constables, and nine Mounted Constables.

The lowest unit of police administration is the police station each in the charge of a Sub-Inspector and serving a number of villages or a town. There are 19 such police stations and two police out-posts in the District.

Jails.—There are two Sub-Jails in the District, one at Gurgaon and the other at Palwal. The Sub-Jail at Gurgaon is under the charge of a part-time Superintendent (General Assistant) who is assisted by full-time staff of an Assistant Superintendent, one Head Warder and a number of Warders. The authorised accommodation in the jail is for 119 inmat s, including a separate women's ward under a Matron. The jail hospital has a part-time medical officer and a whole-time dispenser. This jail has a small library in the office and a radio set. A farm of about 5 acres ia attached to the Jail. The Sub-Jail at Palwal is under the local S.D.O. (Civil) who is assisted by suitable staff.

Community Development.—The District stands divided into the following 14 Community Project and National Extension Service Blocks (early 1963)—

Tahsil	Block
Gurgaon	1. Gurgaon 2. Sohna
Rewari	3. Rewari 4. Bawal 5. Pataudi 6. Khol with headquarters at Rewari
Nuh	7. Nuh 8. Hathin
Ferozepur Jhirka	9. Ferozepur Jhirka 10. Punahana
Palwal	11. Palwal 12. Hodal
Ballabgarh	13. Ballabgarh 14. Faridabad

A Block covers some 100 villages and is under the charge of a Block Development and Panchayat Officer who is also the ex-officio Executive Officer of the Block *Samiti*. The B.D. & P.Os. are under the administrative control of the S.D.Os (Civil). They have no administrative functions and are mainly concerned with the promotion and execution of development schemes.

A B.D. & P.O. has a number of Extension Officers, belonging to various departments, to assist and advise him in their respective spheres like the Agriculture, Industries, Co-operation and Education. At the lowest rung of the Extension Service scheme are the Village Level Workers and Lady Social Workers who work for the development and social education plans, aiming at improving the social, economic and health conditions of the rural population.

The first two Community Development Blocks in the District were instituted in 1952. By the close of 1956 their number rose to 8 and to 14 by 1961.

Zila Parishad, Panchayat Samitis and Panchayats.—The fourteen *Panchayat Samitis*, one for each Development Block, elected under the *Panchayat Samitis* and *Zila Parishads* Act, 1961 are supposed to make arrangements for meeting the requirements of the area under their jurisdiction in respect of agriculture, health and rural sanitation, social education, co-operation and other allied matters. Their members are elected from amongst the members of the Village *Panchayats* in the Block. At the District level, a *Zila Parishad* consisting of representatives from village *Panchayats*, *Panchayat Samitis*, and some co-opted and nominated members, have taken over the entire Community Development Work replacing the District Boards of the British regime. The *Zila Parishad* is responsible for framing the District Development Plans. It guides and supervises the *Panchayat Samitis*, scrutinises their budgets and undertakes a good bit of special development works. The new pattern of administration, which has started functioning, is thus responsible for local works, measures likely to promote the health, comfort, convenience and interest of the rural folks, the social and cultural advancement, village self-sufficiency and economic prosperity in rural areas.

The Punjab *Gram Panchayat* Act, 1952 provides for a *Panchayat* in every village with a population of not less than 500 persons and a joint *Panchayat* for a smaller village population by grouping it with contiguous village or villages so that the population to be served is not less than 500. Accordingly 854 *Gram Panchayats* with a total membership of 4,730 have been established in the District. Elected on the basis of adult franchise, the *Gram Panchayats* are the statutory bodies with certain functions to perform. Their functions include criminal (judicial), civil and revenue (judicial) work, besides administrative and executive duties. These powers at the moment are limited, but will be extended in due course, as and when this experiment in decentralisation of authority proves successful. They have been empowered to levy certain taxes and are allowed a specified percentage of the land revenue of the village to provide them the expenditure necessary for discharging their functions. The setting up of these small village republics is, in fact, a bold step forward in the process of democratic decentralisation as they assume an important and potentially paramount role.

Co-operative Department.—For the purpose of administration the Co-operative Department in the District is divided into two circles, Gurgaon Circle and Palwal Circle, each under an Assistant Registrar. The Gurgaon Circle covers Gurgaon, Rewari and Ballabgarh Tahsils and the Palwal Circle covers Palwal, Ferozepur Jhirka and Nuh Tahsils. The working of the industrial co-operatives is looked after by the Assistant Registrar, Industrial Societies, Hissar.

Agriculture Department.—The work of the Agriculture Department in the District is under the District Agriculture Officer. He is assisted by specialists in horticulture, plant protection and soil science, etc., at the District headquarters, and by Agriculture Inspectors and Sub-Inspectors in the N.E.S. Blocks.

Industries Department.—There is a District Industries Officer, who is assisted by suitable number of Inspectors and Sub-Inspectors. For rural industrialisation and development work, Block Level Extension Officers are posted in various Blocks. Technical Education in various crafts is imparted by the Government Industrial Training Institute, Gurgaon and the Government Industrial School for girls, one each at Gurgaon, Rewari and Faridabad. Besides, there are instructors and administrators working in the various Industrial centres.

Medical and Public Health Department.—The Civil Surgeon is incharge of the hospitals and civil dispensaries in the District, and the District Medical Officer of Health looks after the rural dispensaries and the Primary Health Centres and general sanitation in rural areas. Besides, each municipality has health staff of its own.

Veterinary Department.—The District Animal Husbandry Officer has a staff of 21 Doctors, 35 Compounders and 17 Livestock Assistants spread over the entire District, in 22 veterinary hospitals and 12 dispensaries.

Irrigation Department.—There are two main canal irrigation systems operating in the District each having its separate staff : (1) The Agra Canal system, and (2) the Gurgaon Canal system.

The Agra Canal system was introduced in 1875, and serves in the *Bangar* plains in the east of the District, mostly in Palwal and Nuh Sub Divisions. It is under the control of the State of Uttar Pradesh. The supply of water from the Agra Canal does not meet adequately the requirements to provide stable irrigation, a canal, named 'Gurgaon Canal' was started in 1961. The Gurgaon Canal is administered by an Executive Engineer at Ajraunda, a village near Ballabgarh.

Drainage Department.—The District has a varied topography consisting of valleys, hillocks and uneven land. The drainage problem here is not only of considerable importance but is also complex. The only drainage circle in the District is at Palwal under the charge of an Executive Engineer who looks after the construction of Gaunchi Main Drain with its link drains. The work was started in 1959-60. The Gaunchi Drainage system with 46 miles length of the main drain, 94 miles of its link drains aims at serving 257 sq. miles of catchment area located in Ballabgarh, Nuh, Palwal and Ferozepur Jhirka Tahsils.

Other Departments.—The District Excise and Taxation Officer looks after the excise administration in the District and the collection of Entertainment Duty, Sales Tax, Immovable Property Tax and the State Excise Duties.

The District Food and Supplies Officer looks after the procurement, movement and distribution of food-grains and other controlled commodities.

The District Inspector and Inspectress of Schools are responsible for the inspection of Middle and Primary Schools of boys and girls, respectively. The supervision of High and Higher Secondary Schools is done by the Divisional Inspector of Schools, Ambala.

The construction and maintenance of Government buildings and roads in the District are in the charge of the Executive Engineer, Gurgaon Provincial Division. Similarly, there are Executive Engineers for Electricity and Public Health works.

The District Welfare Officer looks after the welfare programmes for Scheduled Castes and Backward Classes. The District Public Relations Officer does publicity and propaganda work.

Local Bodies.—Municipal Committees function under the Municipal Committee Act, 1911 at Gurgaon, Sohna, Farrukh Nagar, Rewari, Pataudi, Bawal, Hailey Mandi, Ballabgarh, Faridabad, Faridabad Township, Hodal, Palwal, Nuh and Ferozepur Jhirka. None of the these municipal committees is of the first class.

THE GURGAON EXPERIMENT

The idea of Community Development, to which the Government started giving practical shape only after Independence was first thought out and tried by Mr. F. L. Brayne, I.C.S., forty years before in Gurgaon. He took over as Deputy Commissioner in 1920 and was so struck by the miserable conditions in the District, its poverty and lack of health, sanitation and cleanliness, primitive farming and wasteful customs, etc., that he decided that something must be done on a large scale to improve these conditions. With these views in mind, he organised a campaign covering the whole District and its seven lakh inhabitants and to this campaign has been given the name of 'The Gurgaon Experiment'.

The objects of the Experiment, to quote Brayne, were "to jerk the villager out of his old groove, convince him that improvement is possible, and kill his fatalism by demonstrating that both climate, disease and pest can be successfully fought" ; "to laugh him out of his uneconomic and unhealthy customs" ; and "to teach him better ways of living and farming"*. The objects of the experiment were firstly, to increase the produce from the soil ; secondly, to stop waste ; thirdly, to secure good health ; and finally to raise the standard of living.

As regards the measures, to quote Brayne again, "Agriculture was easy—better seed, better implements and more manure". All these things were already worked out and ready to hand. They only required bringing home to people on a large scale. "The reduction of waste was equally simple ; better finance—that is to say co-operative credit, arbitration in preference to litigation, limitation of expenditure on social ceremonies, discarding and reduction in the number of ornaments worn by women. The health of the village fortunately combines easily with better farming. What now poisons the village will, if conserved for use in the fields, give bigger crops. Every farmer must have a six-foot-deep pit in which to collect everything that will help his crops. And to raise his standard of living since the key to this is the condition of women, in as much as she brings up the children and runs the home, "the little girl must be sent to school, at first with her brother and as she gets better to a separate school, and she must be taught everything which a village housewife should know to enable her to keep her family healthy, happy and comfortable and to regain the position and respect which her ignorance has partially forfeited". For this purpose, a school was established in Gurgaon to train village women so that they might return to teach the little girls at school and the grown-ups in thier houses. In this sphere of work Mrs. Brayne was the moving spirit.

Thus it will be seen that both objects and measures were so designed as to cover the whole field of rural reconstruction. But how was effect to be given to them over an area of the size of a District and amongst a population that was almost entirely illiterate ? How, too , was this to be done in the short span of a Deputy Commissioner's tenure of office ? Here again, to quote Brayne, the method was ' to take the whole District as the field of operation and to deluge the area with every form of propaganda and publicity that we could devise or adopt or afford'. The great ally was the magic lantern and after that parties of strolling minstrels and glee songsters 'roped in and bribed to sing our "dope". They cost very little and hundreds of villagers were still enthralled for hours while they told them in song how to wash the baby or what sort of wheat to sow. Finally, "we plaster the walls with cartoons and posters, distribute leaflets, handbills and poems, organise shows, demonstrations and competitions.....and prizes are even given for poems and essays". Briefly stated, the method was propaganda, more propaganda and still more propaganda.

*F. L. Brayne.—Rural Reconstruction in India.

Brayne was of the opinion that propaganda would move, mountains, yet he did not trust to it alone, and joined with it, to the full, the use of his Deputy Commissioner's authority. "I always worked hand in glove with the rural leaders", he explains, "but once I had them with me in any new departure, I did not hesitate to use the whole of my official influence to obtain acceptance for it and to get it carried out in the villages....." "we forced the pace deliberately"..... "We were told inside and outside the District that the squalor of the village was incurable and even if there were a remedy, its application was impossible"..... "In the short time at our disposal, we had to disprove both statements and establish a *fait accompli* to the satisfaction both of the District and of the world at large".

Such was the novel "Gurgaon Experiment". Never before in India had propaganda for the improvement of the rural side been used so intensively and effectively as in Gurgaon two generations ago. The experiment has two lessons to teach. First, it is possible to make people conscious of the defects in their mode of life and to enthuse them to remove these defects within a short period, provided the men at the helm are imbued with a spirit of service and deploy all efforts in this direction. Second, and this is more important, it is necessary to sustain these efforts for a long period to stablise improved conditions and to prevent recession. The Gurgaon Experiment flopped and all its good effects vanished soon after Mr. Brayne was transferred to another District.

CHAPTER II

ECONOMY

This chapter is divided into four Sections dealing with A—Agriculture, Irrigation and Livestock ; B—Industries ; C—Trade and Commerce ; and D—Communications.

A—AGRICULTURE

Peasantry.—Like any other District of Punjab, Gurgaon is mainly dependent upon agriculture, and its entire economy is agriculture-oriented. At the time of 1951 Census, 68.5 per cent of its population was dependent on agriculture. The 1961 Census revealed that 70 per cent of the workers in the District were cultivators and agricultural labourers. These figures should not be taken to imply necessarily that there is a greater dependence on agriculture now than a decade ago, since there is a higher percentage of workers among the agricultural classes. Whereas the figure for 1951 relates to the whole population the figure for 1961 takes into account only the workers. They, however, indicate the extent to which the District's population depends on agriculture as a means of its livelihood. The District is fortunate in having sturdy and hard-working Ahirs, Jats and Meos as the farmers who fight their way against insufficient rainfall and irrigation facilities : farming in the District still continues to be a big gamble in weather conditions.

There are three broad types of workers in agriculture : proprietors, tenants and labourers. A large majority of the cultivators are peasant proprietors owning and at the same time cultivating their lands. Accretions to their numbers have accrued from the various land reforms introduced in the post- Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. The occupancy tenants have come to acquire proprietorship. Similarly many tenants-at-will, who purchase the land they tilled have availed of the opportunity afforded by law to become proprietors. Some landlords were able to circumvent the law by entering into *benami* transactions and mutate their lands in favour of their relatives and confidants, so as to retain ownership under a different guise. But now ceilings have been prescribed and law is becoming more helpful to tenants to purchase the lands they till.

One sequel of these land reforms has been that such former landlords, whose only interest in land was to realise rent, have taken to cultivation with their own hands from tenants to avoid their lands passing to the latter. This change has given a drive to mechanised farming. Many tenants were evicted and in the absence of alternative vocations of their choice, they have had to accept to work as agricultural labourers. In most cases, the resources at their disposal are meagre and they cannot afford to purchase land even when the law affords them opportunity. The result is that the number of agricultural labourers is swelling as the discussion in the next chapter would show.

LAND UTILISATION

Total Area.—The total area of the District (1961),according to the Surveyor General of India is 2,367.6 sq. miles (1,515,309 acres). However, according to village papers maintained by the Director of Land Records, Punjab, the area of the District is shown as 2,349.6 sq. miles (1,503,754 acres). The discrepancy in the two sets of figures may be due to the fact that the Surveyor General calculated area in big blocks while the area in village papers is obtained by adding the area figures of fields and villages. Secondly, the areas not available for cultivation are dealt with differently by the two agencies. For showing land utilisation and density of population the figures, as supplied by the Director of Land Records, Punjab and referred to also as the figures according to village papers, have been utilised in this Report.

The District enjoys eighth position in area among the 19 districts of the State. Table 2 shows the geographical area of the District and its classification according to use, in terms of quinquennial average figures from 1901 to 1961. The difference in the total area figures over the period of time is attributable to inter-District transfers, alluvium and diluvium and re-measurement of land. During the decade 1941—51, the Bawal *Pargna* of PEPSU and the Pataudi State were merged with Gurgaon District. The total area during the quinquennium 1958—63 works out to 1,503,604 acres.

Forests.—Mention has already been made about the District not having any regular forests. In 1960-61, however, 30,269 acres in the form of lands along the road sides, canal banks and railway lines were transferred to the Forests Department.

There are, at present, three reserve forests under the control of the Forests Department in the District ; one at Jhabua in Rewari Tahsil (Bawal Sub-Tahsil) with an area of 748 acres ; the second at Farrukh Nagar comprising of 358 acres and the third at Alipur (*Shikargah*) in Ballabgarh comprising an area of 436 acres. There are no major industries dependent upon forests in the District except a few minor cottage industries such as *murah* (round easy chair made from *sarkanda* reeds) and rope making. *Murahs* are made at Farrukh Nagar, where *munj* grass (Saccharum sara) grows plentifully.

Area not available for Cultivation.—This class comprises of absolutely barren and uncultivated lands (70,397 acres) and lands put to non-agricultural uses, such as lands under buildings, roads and canals or otherwise appropriated for non-agricultural purposes (178,443 acres). The area of such lands is (248,840 acres) or 16.5 per cent of the total area of the District (1960-61). There has been some increase in this type of land during the decade, due to the vast construction of buildings and roads and afforestation, etc.

Other Uncultivated Lands excluding Fallow Lands.—This category denotes lands available for cultivation, whether taken up for cultivation at some stage and abandoned later, and culturable wastes, grazing lands, and lands under tree groves not included under the sown area. The area in this category was 28,655 acres or 1.9 per cent of the total area of the District in 1960-61.

There are some patches of permanent pastures and regular grazing lands in the District, and area under them was 25,074 acres in 1960-61. Area under culturable wastes (other than fallow) was 3,324 acres.

The area under this category of land was 91,973 acres in 1950-51, and this shows that more than 60,000 acres of land has been brought under cultivation during the last decade. The uncultivated area is thus decreasing and this process is expected to gain momentum in the years to come.

Cultivated Area.—In revenue terminology, land is styled as 'cultivated' if it has been sown once during the previous four harvests. As such the cultivated area comprises (i) fallow lands, and (ii) net area sown. The extent of change during the decade is brought out in the following figures :—

Type	Year	
	1950-51	1960-61
Fallow lands (acres)	77,474	59,892
Percentage to total area	5.1	3.9
Net area sown (acres)	1,089,381	1,136,098
Percentage to total area	72.4	75.5
Cultivated area (acres)	1,166,855	1,195,990
Percentage to total area	77.5	79.4

In the State as a whole cultivated area forms 65 per cent of the toal area. The high figure of 79 in Gurgaon is due to nature being generous in giving the District a larger share of land which can be ploughed. At the same time it is a tribute to the diligence of the farmers who have exploited this advantage.

Another point brought out by the above figures is the reduction in the proportion of fallow lands. In 1950-51 they formed 5 per cent of the total area and during 1960-61 only 3.9 per cent. With the growing trend for intensive cultivation the practice of taking crops from the same plots successively for a number of years is coming in vogue. And there is nothing wrong in it, for agricultural research has proved that with good manuring and judi ious rotation of crops, it is seldom necessary to allow land to lie fallow. The figures also show that the reduction in fallow lands is not fully accounted for by the increase in sown area. The explanation of this gap is area put under new roads, drains and other non-agricultural uses.

Irrigation (Table 4)* The handicap of inadequate and uncertain rainfall in the District has not completely been offset by ample and extensive canal irrigation. Amritsar and Ferozepur are, perhaps, the best irrigated Districts in India, with 90 and 63 per cent of the net sown area receiving irrigation. But it is not so in case of Gurgaon.

Canal irrigation in the District is entirely from the Agra Canal which in 1960-61 served 50,700 acres representing only 4.4 per cent of the net area sown. The canal irrigated area lies only in the Palwal and Nuh Sub Divisions.

*Page 54

In view of the scanty existing facilities, the extension of the canal irrigation has been engaging the attention of the Government in the past two decades. Inherent difficulties due to the distance and non-availability of perennial supplies have stood in the way of adequate solution of problem. To provide stable irrigation facilities, a canal named as 'Gurgaon Canal' has been proposed. The construction of the canal was started in June, 1961. The requirements of this canal will be met from the surplus water available in Jumna at Okhla during the monsoon. Such non-perennial supplies are available for about 90 days on an average annually. During winter the canal will be fed from the surplus supplies available from the river Beas, and it will be utilised through a system of link and carrier channels so as to ensure perennial supply to the Gurgaon area. The cost of the project is estimated at Rs. 685 lakhs, out of which Rs. 146 lakhs would be contributed by the Rajasthan Government. The total capacity of the canal at the head will be 19,600 cusecs, out of which 500 cusecs will be reserved for Western Feeder to be utilised by Rajasthan. This quantity of discharge will irrigate cultivable commanded area of 608,605 acres. The scope of the project is to spread irrigation throughout the District, with provision for further extension to a portion of the Mahendragarh District. To serve the Sohna Plateau some water will have to be lifted to a height of about 300 feet. The entire project is expected to be completed within six years.

The proposed Gurgaon Canal is an aligned channel some 48 miles in length. Direct distributaries and minors off taking from the Agra Canal and those from the Gurgaon Canal will be about 280 miles long. The canal starts from village Sihi, situated between the industrialised areas of Faridabad and Ballabgarh, right in the south of Delhi. After crossing the Grand Trunk Road, Sohna-Ballabgarh Road and Sohna-Nagina-Hodal Road and passing nearby the villages Mandkaula, Kalinjar, Alawalpur, Nuh, Gulalta and Tushani, etc., the canal ends at the border of Rajasthan and out-falls into Bharatpur and Hathin Escape at a distance of about 2 miles from village Jarora.

With the completion of Gurgaon Canal project, the cropping pattern of the District should change enabling it to produce wheat in large quantities.

Tubewells and other Wells.— Next in importance to canals are tubewells and percolation wells as a source of irrigation. The net area thus irrigated increased from 62,035 acres during 1908-1913 to 99,420 acres during 1958-63.

Irrigation from tanks is done chiefly in Gurgaon, Nuh and Ballabgarh Tahsils. During 1958-63, 3,700 acres of net area was irrigated from this source.

Crops Irrigated.—There has been a steady increase in irrigation during the last 60 years. There was some recession in the years following Partition but it soon looked up again. The irrigated cropped area was 105,691 acres in 1948-49, 153,211 acres in 1950-51 and 167,995 acres in 1960-61.

Crops share in I rigation in varying extent.—A little less than half the area under wheat and sugarcane receives irrigation, but gram and *jowar* are preponderately *barani.* About 92 per cent of the cropped area was devoted to foodgrains in 1960-61, a major portion of which was under wheat and sugarcane. Among non-food crops, cotton is the most important.

Main Crops.—There are two main harvests in a year: the *rabi* (*Hari*) and the *kharif* (*Sawani*). The *rabi* or spring harvest consists mainly of wheat, gram, barley and some fodder crops. It is sown in October-November and harvested from mid-March to mid-May. The *kharif* or autumn harvest consists chiefly of rice, maize, *jowar*, *bajra*, pulses, sugarcane and cotton. These crops are sown in June-August and reaped from September to December. Sugarcane and cotton are taken as *kharif* though sown before this period. There are some other crops which do not fall in any one of these categories. Among such crops, *toria* matures late in December and is styled as *zaid* (extra) *kharif.* Tobacco is harvested late in June and designated as *zaid* (extra) *rabi.*

Wheat.—Wheat, the golden grain, is the most important among food crops of Punjab and is the staple diet of its people. It occupied 175,740 acres in 1960-61 producing 79,700 tons of grain as compared with 120,013 acres producing 34,200 tons during 1951. The production of wheat in the District has more than doubled during the last decade. The yield per acre at 1,016 lbs during 1960-61 is modest as compared with some other Districts, and much below what some other countries produce.

Rice.—Rice is a very minor crop in Gurgaon sown on 103 acres in 1950-51 and 91 acres in 1960-61. Production of rice was about 100 tons in 1960-61.

Barley.—Barley is sown in the same period as wheat. It is a much harder than wheat; its water requirements are lower and period to maturity shorter. It is consumed in various forms. Mixed with wheat and gram its flour is made into *chapatis*, parched and powdered, it is taken as *sattu.* Barley of this District is purchased by breweries because of its excellent malting qualities. The crop occupied 111,457 acres producing 29,700 tons of grain in 1960-61.

Bajra.—*Bajra* is grown extensively in the District, chiefly in Rewari Tahsil. *Bajra* is a *barani* crop and does well even on poor sandy soils. In 1960-61 *bajra* was sown n 361,017 acres and its production was 32,100 tons.

Jowar.—Like *bajra, jowar* is also a kharif and barani crop. A part of the crop is eaten locally and a part is sent to the central Districts of the State where it is sown for green fodder. In 1960-61 it occupied 146,100 acres and the production of grain was estimated at 7,400 tons.

Maize.—Maize is a *kharif* cereal of minor importance in this District grown on 4,186 acres, mostly in Palwal and Ballabgarh Tahsils. The product was estimated at 1,700 tons.

Gram.—Gram is a rabi crop and is sown *barani* extensively. For human consumption it is used in the form of *chapatis* made from mixed flour of wheat, gram and barley or fried as *pikoras* and parched grains. Gram is, however, used largely for feeding livestock. Its green shoots and pods are cooked as a vegetable.

The area under gram was 400,243 acres in 1960-61 and its production was estimated at 106,700 tons. The cultivation of gram varies widely from year to year depending on timeliness of rains, the more so because it is grown in Rewari Tahsil which partakes of the desert characteristics of the adjoining Rajasthan.

Moong.—*Moong* is largely a *barani* crop sown in the fields devoted to maize, *jowar* and *bajra*, chiefly on medium loamy soils. It occupied 4,391 acres in 1960-61 producing 600 tons of pulse.

Mash.—The pulse is grown in the same way as *moong*, mostly on stiff loamy soils receiving adequate water supply. An area of 2,121 acres was under *mash* in 1960-61 when the production was estimated to be 300 tons.

Moth.—*Moth* is another pulse grown, for human food or for fodder, in the *jowar* or *bajra* fields. It does well on light sandy soils under *barani* conditions and is the most drought resistant among pulses. *Moth* was sown on 2,423 acres in 1959-60.

Masar.—It is a *rabi* pulse used for human consumption and as well fodder. It is mostly grown on *sailaba* lands and is generally sown alone. It covered an area of 2,127 acres in 1960-61 when production was 300 tons. Palwal is the largest *masar* growing Tahsil in the District.

In 1960-61 30,422 acres bore other pulses including *arhar* (Pigeon pea), Soya bean, and Ragi.

Rape and Mustard.—These two *rabi* oilseeds (*sarson* and *tara mira*) are important as cash crops in the District. They are suited to this dry region and are grown mostly in *barani* fields. An area of 77,716 acres was under these crops in 1960-61, producing about 18,800 tons of oilseed.

Sesamum.—Sesamum or *til* is sown restrictedly in the District on a little over one thousand acres either exclusively or mixed with other *kharif* crops.

Groundnuts.—The cultivation of this oilseed has been taken up in the District recently, and was sown on 67 acres in 1960-61. If found acceptable to local conditions, it has great prospects because of the vast demand by the concerns manufacturing *vanaspati.*

Linseed.—The area under linseed in 1960-61 was only 80 acres. It does not do well in this District despite considerable demand for it in the manufacture of soap, paints and varnishes.

Sugarcane.—The area under sugarcane increased from 12,781 acres in 1950-51 to 34,453 acres in 1960-61. In 1960-61 the production of sugarcane was claimed to be 44,800 tons in terms of *gur* as against 16,300 tons in 1950-51. Palwal is the largest cane-growing Tahsil in the District where soil is moist and irrigation facilities are available. Sugarcane is a very paying crop, but requires a lot of labour and water. It stands in fields for almost a complete year. There being no sugar mill in or near the District the entire produce of sugarcane is converted into *gur*. The general practice is to make *gur* in lumps or *bhelies* of 4 to 5 seers each.

Cotton (*American and Desi*).—Cotton is generally grown where irrigation is available and the land is heavy, but it is not rare in this District to see cotton grown in *barani* fields. Long staple cottons, commonly known as American varieties have displaced considerably the indigenous varieties, called *desi* cotton. Gurgaon had 215 acres under American cotton and 3,591 acres under *desi* cotton in 1950-51. In 1960-61 American cotton occupied 2,061 acres and *desi* cotton had only 1,829 acres. The yields in Gurgaon are low as compared to canal irrigated areas of Hissar and Ferozepur. The District produced some 1,600 bales in 1960-61 as against about 1,400 bales in 1950-51.

Potatoes.—Potatoe is one of the most important vegetable crops grown in the District and its cultivation is on increase. In 1960-61 it covered 544 acres as against 221 acres in 1950-51. Sandy or fine sandy loam lands are put under potatoes and they are very heavily manured. The produce was estimated at 2,800 tons in 1960-61 as against 1,100 tons in 1950-51.

Chillies.—Chillies are grown more or less all over the District but pronouncedly in Rewari and Gurgaon Tahsils. In 1960-61 they were grown on 797 acres producing about 200 tons.

Tobacco.—Tobacco occupied 221 acres in 1960-61 and the production was 100 tons.

Agricultural Machinery and Implements.—(Part II Table 12)*.—The big farmers are taking to mechanical cultivation increasingly. There were 52 tractors, 94 oil engines with pumping sets and 106 electric pumps for tubewells in 1956, and their respective numbers increased to 185, 157 and 437 in 1961. Mechanical contrivances for securing irrigation is a welcome move, but whether mechanical cultivation will lead to larger production is yet to be seen. Tractor cultivation is better suited for large holdings ; and even there its advantage arises generally from production at a lower cost than from higher yield per acre.

Livestock (Part II Table 11)†.—Gurgaon because of its calcarious soil and dry climate, and besides raising them for local needs, export them in large numbers. Cattle raising is, however, done primarily to meet the requirements of the family and as a side-line of agriculture. Table 11 shows the number of animals in the District counted on 8 occasions between 1920 and 1961.

Cattle.—There was a mild decline in the number of cattle between 1923 and 1940 and thereafter there has been an increase. There appears to be a more constancy among bullocks, which are needed for cultivation. The cow cannot compete with the buffalo in butter-fat production but excels in yielding milk at a lower cost and has the advantage of both its male and female off-springs being of equal use while male buffaloes are not favoured for plough work. The District is a part of the *Haryana* tract known for its bullocks capable of doing quick draft : smart, good looking and intelligent. Besides local bulls, a fairly large number of them are secured from the Hissar Cattle Farm. The number of breeding bulls increased from 569 in 1951 to 589 in 1961.

Buffaloes.—The buffalo finds favour with the farmer because of its richer milk and incidentally ample *lassi.* Besides, the buffalo stands stall-feeding better than the cow. The number of buffaloes in the District has, therefore, shown a steady increase, and almost doubled between 1920 (114,669) and 1961 (230,202). The male buffalo is a poor worker because of its being sluggish and sensitive to sun, and most of them perish within the first year of their life.

Horses, Ponies and Mules.—With the introduction of speedier modes of travel, the equine population has been dwindling, the more so between 1956 and 1961 from 7,102 to 4,388.

Donkeys.—Donkey is also becoming an unwanted animal. Their number was 13,261 in 1961 as compared to 15,537 in 1923.

Sheep and Goats.—These small animals are kept all over the District but more commonly in the villages near the hills. In 1961 there were 80,517 goats and 44,344 sheep in the District.

Camels.—Camel play an important role in rural economy of dry and sandy areas and are used both for transport and ploughing. Camel is a rough forager and can subsist on any shrubs and can stand any amount of heat and drought. In 1961 there were, 8,557 camels in the District mostly in Rewari Tahsil as against 5,958 in 1951.

Bullock-carts.—The bullock-cart is still of great utility to the agriculturists. It can ply even on *kachcha* roads and stubbles, and without any cost to the farmer who has his plough to yoke in. He makes full use of it for carting the produce from the fields to his house and to the *mandi.* In 1940 there were 18,457 carts in the District and their number rose to 31,164 in 1951 and to 39,039 in 1961.

Animal Fairs.—The *Zila Parishad* and a few Block *Samitis* arrange animal fairs at various places in the District. Apart from providing marketing facilities to the farmers and encouragement to the breeders, these fairs bring handsome income to the authorities concerned. The more important fairs are held at Pataudi, Rewari, Dharuhera, Badshahpur, Jatusana, Guraora and Manehti.

Livestock Diseases.—The District is healthy and livestock diseases are not common except in the *bet* area where seasonal inundation brings *gal ghotu* (Halmorhagic Septicaemia) and *than sujan* (Black Quarter). Foot and mouth disease occurs at times as an epidemic. Goiter and liver-rot are common among sheep and goats and surra among equines and camels.

The District appears to be fairly well served by the present 22 veterinary hospitals and 12 out-lying dispensaries and other centres. The minor disorders are treated by the farmers themselves.

*Page 62 †Page 61

B—INDUSTRIES

Utensil making has been a traditional industry in Rewari. Since independence the District has made rapid progress and various modern industries have been established in the Faridabad Township, Rewari and Gurgaon.

At the time of 1961-census, 52,999 persons were employed in household industry and large scale manufacture (Part III Table B-I)*.—The number of registered factories in 1951 was estimated at 27; which rose to 71 by the end of the First Plan and to 137 during the Second Plan. These units are mostly of large and small scale industries which submit returns to the Labour Commissioner, Punjab. Faridabad and Gurgaon have found favour for capital investment. A glance at Tables 13 and 14 will show that industry in the District is expanding and becoming more diversified, and the more important among them are described below.

Cotton Weaving and Spinning.—Of the few units in this line, one is the East India Cotton Textile Manufacturing Company at Faridabad. Its total investment, including working capital, is Rs. 16 lakhs. It has 112 power looms besides a bleaching and calendaring plant which produce mostly *Dhoties* and other cotton fabrics, and its daily output is 400 yards of cloth.

Diesel Oil Engines.—One unit, established in Faridabad in 1953, manufactures diesel oil engines, and with 200 workers it now puts out 200 diesel oil engines annually.

Hardware Goods and Tools Making.—A number of units at Faridabad in Gurgaon are engaged in the manufacture of hinges, tower bolts, staples, brass handles and various tools of daily use.

Aluminium Capsules Manufacturing.—The India Glass Agency went in production at Faridabad in 1952. It has an automatic plant with a manufacturing capacity of capsules and caps worth Rs. 2,000 per shift. The concern has, however, been producing pilfer-proof caps, seals, etc. Another concern under the title "Metal Box" manufactures tin boxes and caps, etc.

Rubber Sole Canvas Shoes.—M/s. Bata Shoe Company have established a factory at Faridabad with an investment of Rs. 40 lakhs and manufacture some 20 lakh pairs of rubber shoes, chapples annually.

Card Board Manufacturing.—M/s Delhi Board Mills installed a plant for making card boards and water-proof paper at Faridabad in 1955, with a capital investment of Rs. 7 lakhs. This concern provides employment to about 100 workers.

Manufacturing of Cycle Parts.—M/s Wearwell Cycle Industry established in 1953 at Faridabad, with an investment of about 25 lakhs, are manufacturing some 300 cycles monthly.

Electrical Goods.—A number of industrial units are engaged in manufacturing electrical goods such as electric motors, conductors, cooking stoves, electric wire, radio parts. Two radio assembling units at Faridabad work on quite a large scale, with an assembling capacity of 1,500 and 1,200 radio sets respectively, per month.

Glass Industry.—M/s Bhargwa Glass Factory is engaged in the manufacture of glass bottles and phials with an automatic plant, while M/s Atul Glass Works are engaged in the manufacture of mirrors, window panes, etc. Both these factories are located at Faridabad.

Optical Lenses and Frames.—There are 12 units engaged in the manufacture of optical lenses at Gurgaon.

Slate Making.—One dozen concerns, two of them functioning on a large scale dig out slates at Kund (Tahsil Rewari).

Rubber Industries.—There are seven concerns at Faridabad and six at Gurgaon, engaged in the manufacture of metalled rubber goods, like hot water bottles, sanitary fittings, rubber rings and canvas bolting tubes.

Automobile Parts.—A number of units in the District manufacture automobile parts like king pins and bushes, headlight lamps, tail lamps, search batteries and various other motor parts. The raw material required by the industry is mostly imported.

Hume Pipes.—M/s Spun Pipe at Faridabad manufacture reinforced concrete cement pipes from cement, mild steel bars, grit and coal.

Carbon and Ribbon Manufacturing.—M/s Bharat Carbon and Ribbon Manufacturing Industries are engaged in the manufacture of carbon papers and duplicating inks.

*Pages 170 and 171

Utensil Making.—Utensil making from aluminium, copper, brass scrap, ingot and stainless steel is the leading industry at Rewari with some one hundred units in the line. Messrs Aggarwal Metal Works, Rewari, is the biggest among them, and it was established in 1935. It is equipped with automatic machinery and is capable of producing 1,200 tons of brass utensils per annum. Some concerns work furnaces for smelting old and broken utensils of brass and copper and making them into sheets. Two concerns specialise in making *huqqa* (hubble bubble).

Oil Mills.—Though the District produces large quantities of *sarson* and *tara mira* most of the oilseed is sent out as such rather than in the form of oil, depriving the District of the profits of oil milling, and adding unnecessarily to the cost of transport up to the consuming centres. Various explanations are given for this state of affairs, chief among them being shortage of tank wagons with the railways. M/s Vohra Oil Mills at Ballabgarh is the largest in the District. Besides, oil expellers, power and bullock driven *kohlus* in the urban as well as rural areas of the District are also engaged in extracting oil.

Recently one big oil mill has been set up at Nuh. A co-operative society would manage the affairs of the mill.

Salt Peter Refining.—There are two salt peter refineries, one each at Palwal and Hodal. The industry provides employment to about 150 workers. The product is used as a manure and preservative and in manufacture of fireworks.

Mehndi (Henna) Leaves Grinding.—The cultivation of *mehndi* and its processing is carried on at Faridabad (old town) for more than a century and has acquired a name for itself both in India and outside. A portion of the crop is ground and is despatched to various places in the country and to Turkey, Syria, Iraq and Afghanistan where it is used as a hair dye and for colouring the hands and feet. A portion of the crop in the form of dry leaves, is exported to France and U.S.A. for extraction of scent and manufacture of dyes. There are 12 units in the trade in the town.

Agricultural Implements and Tractors.—A number of concerns in the District manufacture agricultural implements, persian wheels, buckets, cart wheels, chaff-cutter blades, etc. Recently M/s Escorts Limited have established a big unit for the manufacture of tractors, agricultural implements and a few other things.

Besides, there are industrial units engaged in making sheet brush, crushing stone and chips, pottery, flexiblewire, etc.

State Aid to Industries.—Government is taking effective measures for the development of industry in the District. Facilities for the grant of loans and subsidies exist and are availed by a large number of factory owners. Controlled commodities and imported raw materials are allotted to the concerns. Industrial training institutes and schools, both for boys and girls, at Gurgaon, Rewari and Faridabad, impart training to students in sheet metal work, smithy, welding, machining, fitter's work, carpentry, surveying, draftsmanship, tailoring, embroidery and needle work.

Industrial Estates.—The only urban "Industrial Area" in the District is at Faridabad Township. The important features of this industrial area have already been described in Chapter I.

Rural Industrial Estate exists at Sohna where there are four sheds. A Common Facility Workshop, a Rural Artisans Training Centre and a Rural Industrial Development Centre function in this estate. Training in various trades is imparted to about 30 persons. The Ministry of Industries, Government of India, have also started small Industries Service Institute at Rewari where training in shoe making and electro-plating is imparted to some twenty trainees who also receive a stipend of Rs. 45 per month.

During the last year of the Third Five Year Plan, Rural Industrial Estates in the District are proposed to be set up in Hodal, Ferozepur Jhirka and Palwal Community Development Blocks. Common Facility Workshops are also proposed to be started at Bawal, Palwal, Hathin and Khol.

C—TRADE AND COMMERCE

Transport facilities have developed to an extent that perishable commodities from far-flung places in the District are marketed at Delhi after covering long distances. The District has the following regulated markets:—

Market	Main commodities sent out
Rewari	*Sarson*, gram, wheat and *gur*.
Sohna	*Sarson*, gram and barley.
Ballabgarh	*Sarson*, wheat and barley.
Palwal	*Sarson*, *gur*, gram, wheat and barley.
Hodal	*Sarson*, *gur*, wheat, barley and gram.
Nuh	*Sarson* and gram.

Sarson, barley, wheat, gram and other foodgrains, bones, hides and skins are the main exports of the District. Among the articles imported are salt, sugar, coal, gunny bags, kerosene oil, cloth, iron and machinery.

D—COMMUNICATIONS

The District is fairly well served with roads, and railway lines traverse Tahsils other than Nuh and Ferozepur Jhirka. The District has nothing to complain in matters relating to transport and postal and telegraph facilities.

Railways.—A close network of railway lines connect all towns with Delhi, except Sohna, Nuh and Ferozepur Jhirka. Metre-gauge lines have their centre at Rewari from where they take off variously towards Delhi, Hissar, Pillani, Ringus and Bandikui. A broad-gauge line running between Delhi and Agra serves the eastern portion of the District.

There are 28 railway stations in the District as listed in Part II Table 35†. The railway track between Delhi and Rewari is being made a double-track so as to cope with the heavy pressure of traffic on this line. The work on this section has already made quite good progress.

Roads (Table 33).*—The decade has seen remarkable expansion in road construction as the following figures show :—

Year	Road Mileage		
	Total	Metalled	Unmetalled
1950-51	770.52	183.23	587.29
1960-61	1,127.61	586.57	541.04

Gurgaon has the distinction of having road mileage next only to Kangra (1,483.36) and Hissar Districts (1,415.61) and the only District with longer metalled roads is Hissar (730.39). The last two Districts are more than twice in area as Gurgaon.

Most of the roads in the District are maintained by the Public Works Department and they include the National Highways, the State Highways and the District Major and Minor Roads. The Delhi-Alwar National Highway has a strip of 64.96 miles in the District, on which falls Gurgaon town. The Delhi-Mathura National Highway has a strip of 46.13 miles on which fall Faridabad Township, Ballabgarh, Palwal and Hodal. The two State Highways pass through Palwal, Sohna and Rewari.

The more important District Major and Minor Roads are : Nuh-Palwal Road, Delhi-Qutab Road, Hodal-Nuh Road, Hodal-Nagina Road, Ballabgarh-Sohna Road, Gurgaon-Farrukh Nagar Road, Pinangwan-Palwal-Solhra Road, Rewari-Bawal Road and Gurgaon-Najafgarh Road.

Road Transport.—The number of new motor transport vehicles registered in the District increased from 125 in 1950 to 176 in 1961.

Waterways and Airways.—Ferries are maintained by the *Zila Parishad* on the Jumna at 17 places connecting with Uttar Pradesh. The auction of the *ghats* is made annually. A sum of Rs. 64,105 accrued to the *Zila Parishad* in 1961 as contract money. The ferries carry out chiefly cattle, wood, gram, millets and carry in sugar and *gur*. The rates charged on various shipments have been fixed by the *Zila Parishad*.

The only major bridge in the District is on the Sahibi *Nadi*, at mile 40 on the Palwal-Sohna-Rewari Road. Before the construction of this bridge, the road used to get blocked for nearly two months during the rainy season. This bridge, 1,067 feet in length, was completed in 1960 at a cost of Rs. 6.50 lakhs. A toll tax is char ed from mechanical vehicles using the bridge. Small bridges and culverts on various roads are not worth mention.

There is no aerodrome in the District and the nearest aerodrome is at Palam (Delhi).

*Page 76 to 78 †Page 80

Post and Telegraph (Table 34).*—The District has a net work of post and telegraph offices. The number of post offices as on 31st March, 1961 is given below. On an average, there is a post office for every eight villages serving some 12.8 square miles.

Tahsil	Post Offices
Rewari	72
Gurgaon	27
Ballabgarh	19
Palwal	27
Nuh	24
Ferozepur Jhirka	15
Total	184

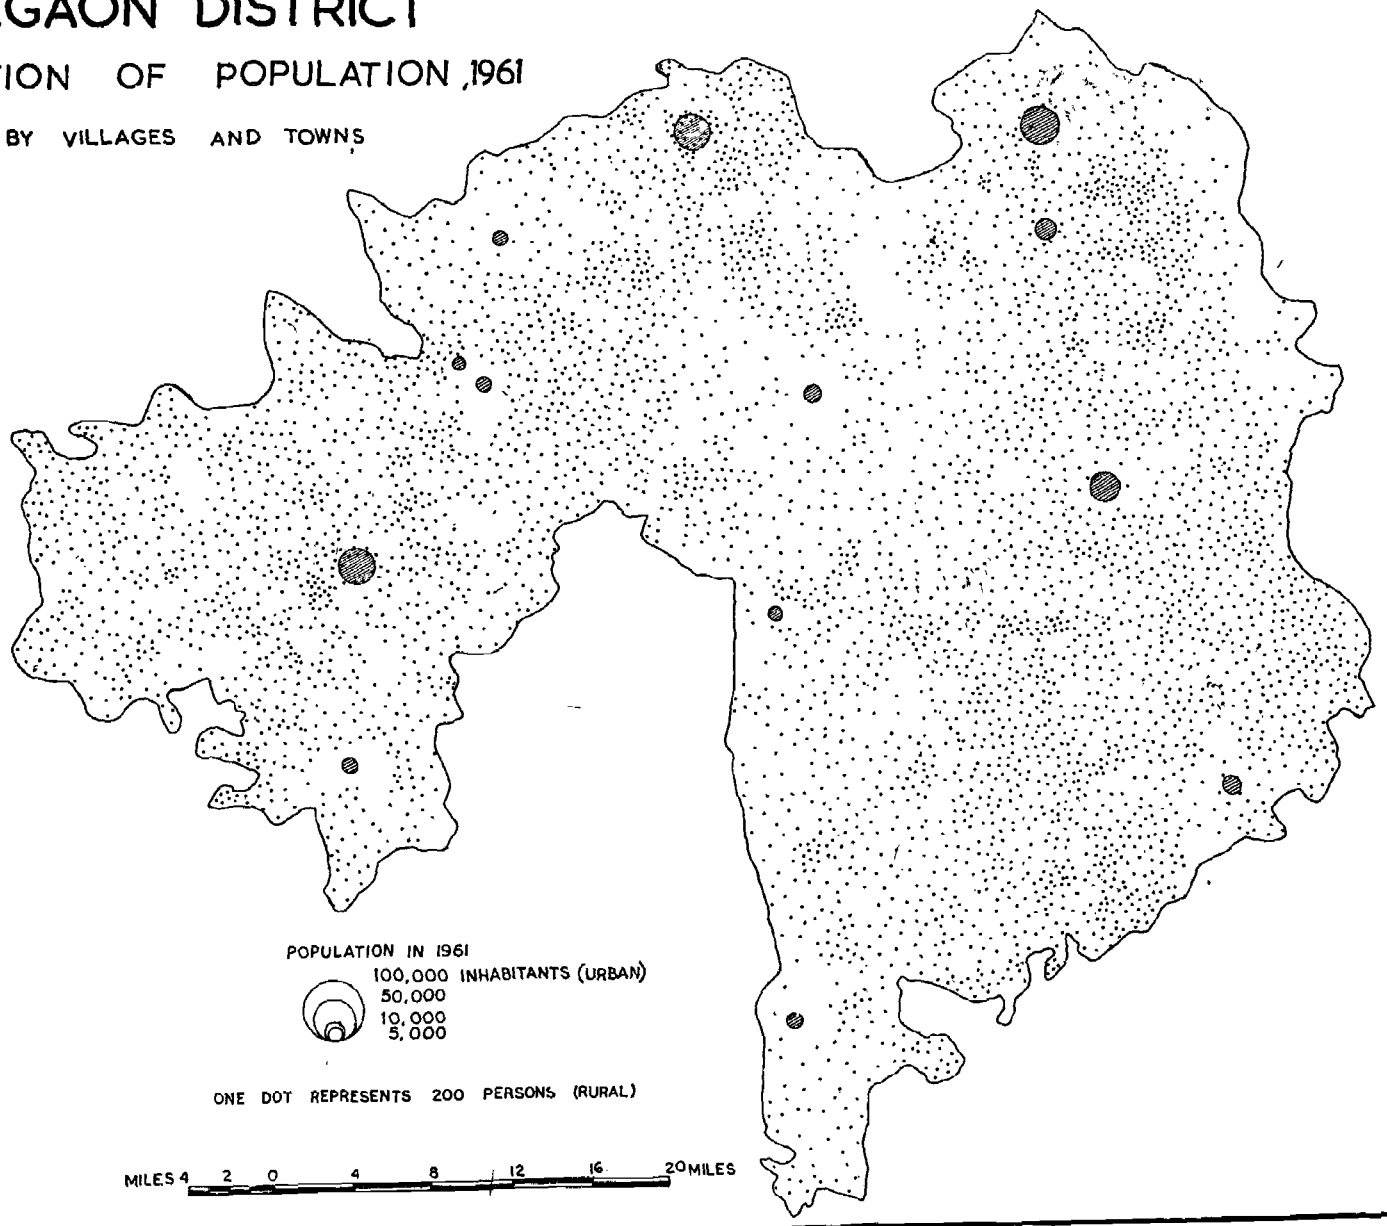

There was no telephone exchange in the District in 1910. In 1960, 21 telephone exchanges, including public call offices, functioned and telegraph facilities were available in 20 of these post offices. The Telephone Department proposes to extend the capacity of Gurgaon-Rewari Exchanges from 200 to 300 lines. It is also proposed to install a 50-line telephone exchange at Nuh where at present there is only a public call office.

*Page 79

GURGAON DISTRICT

DISTRIBUTION OF POPULATION ,1961

– DATA BY VILLAGES AND TOWNS

CHAPTER III

POPULATION

Part III of this book contains tables relating to the 1961-census. These tables are preceded by an exhaustive note explaining their arrangement and the terms used. Hence only the broad facts thrown up by these statistics are stated below.

Area.—The Gurgaon District, an area of 2,350 square miles is composed of six Tahsils : Rewari (555 square miles), Gurgaon (412), Nuh (401), Palwal (382), Ferozepur Jhirka (312) and Ballabgarh (288).

Population.—On the sun-rise of the 1st March, 1961, the District had 1,240,706 persons (659,432 males and 581,274 females). It ranks 8th among Punjab Districts. The Ferozepur District leads in this respect with 1,619,116 persons.

Growth of Population.—The District had 877,728 persons in 1901. During sixty years, 1901-1961 the population increased by 41.4 per cent. The population of Punjab, as at present constituted, similarly increased from 13,265,860 in 1901 to 20,306,812 in 1961, denoting an increase of 53.1 per cent. It is only during the last two decades that population in Gurgaon District increased faster than Punjab as a whole, as a result of immigration and development of industry.

Decennial growth figures for the District and the State are given below side by side:—

Decade	Gurgaon	Punjab
1901—11	—12.80	—9.96
1911—21	—6.85	+4.35
1921—31	+9.31	+9.64
1931—41	+14.96	+17.81
1941—51	+8.01	+0.21
1951—61	+28.22	+25.86

The decrease in the first 20 years of the present century was due to the large number of deaths by epidemics. The influenza of 1918 took a very heavy toll. From 1921 onwards the population increased at an accelerated speed arrested by the mass migration in the wake of Partition : the outgoing Muslims were more numerous than the immigrating non-Muslims. The years 1951 to 1961 were free from major diseases and the health measures taken by the Government considerably reduced the death rate while the birth rate remained almost unchanged. That is why the year 1961 witnessed an increase of 28.22 per cent over 1951 figures. The high rate of population growth is a matter of great concern and should this rate persist it will lead the country to difficult problems.

Density of Population.—Punjab has, on an average, 429 persons to a square mile with Jullundur District as the most thickly populated (914) and Lahaul and Spiti as the sparsest (6). The number of persons per square mile in Gurgaon works out to 528 and in this respect it ranks 10th among the 19 Districts in the State. Out of six Tahsils constituting the Gurgaon District, the highest density of population was in Ballabgarh Tahsil, supporting 625 persons on a square mile. This is mainly because of Faridabad Township in the Tahsil. The sparsest Tahsil is Nuh with 436 persons per square mile and next above it comes Ferozepur Jhirka Tahsil with 455 persons. Both these Tahsils are subject to serious inundation from the streams and lakes during the monsoon season.

Because of the small size of its towns the gap in the density of human population as between rural and urban areas in the District is narrow as compared with other parts of the State. The mean density in Punjab is 346 for rural areas and 9,476 for urban areas. The corresponding figures for Gurgaon are 445 and 8,331, respectively.

Villages.—The District has in all 1,580 villages of which 128 are uninhabited (*be-charag*). In Ballabgarh and Palwal Tahsils there are 42 uninhabited villages mostly in the *bet* area affected by the river. In Nuh and Ferozepur Jhirka there are 47 uninhabited villages. These two Tahsils have the lowest density of population in the District. For the same reason, 116 out of 251 villages in the District with population less than 200 are located in these two Tahsils. Rewari and Gurgaon Tahsils have only 39 uninhabited villages.

The number of persons per inhabited village works out to 713 in Gurgaon District as compared to 763 for the villages in the Punjab as a whole. The villages in Palwal Tahsil are big units with 950 persons per village and the corresponding figures for Gurgaon, Ballabgarh, Nuh and Rewari are 811, 706, 671 and 647 respectively. The villages in Ferozepur Jhirka are smaller, with an average population of 595 persons.

There are six big villages in the District with population ranging between 5,000 and 9,999. The village Gurgaon has the highest population (8,127 persons) among these villages. It has started showing signs of urbanisation because of its contiguity to the Gurgaon town.

Towns—In Table A-IV* particulars are given of the fourteen towns in the Gurgaon District.

There is no Class I town (population 100,000 and above) in the District. There is no individual town in Class II either (population ranging between 50,000 and 99,999). The combined population of Faridabad Township and Faridabad, however, comes to 50,709. During 1951—61 this town group has shown a remarkable growth ; 61.15 per cent primarily due to the growth of industry.

Gurgaon, Rewari and Palwal have population ranging between 20,000 and 49,999. The population of Gurgaon has risen fast from 18,613 persons in 1951 to 37,868 in 1961. This increase is mainly due to the growth of industry in and around Gurgaon and its nearness to Delhi. Its importance is also due to administrative offices and the Military area. The population of Palwal shot up from 13,915 in 1951 to 27,863 in 1961.

There is only one town, Hodal, in Class IV (10,000 to 19,999) which has made fast progress from 8,303 to10,558. It is located on the border of U.P. and is a progressive business centre.

Among Class V towns (5,000 to 9,999) there are four : Bawal, Ballabgarh, Sohna and Ferozepur Jhirka. Except Bawal, this class of towns has shown a remarkable growth of population during 1951—61.

Four towns in Class VI (below 5,000) are : Farrukh Nagar, Pataudi, Nuh and Hailey Mandi. They are more or less stagnant towns.

The towns in Gurgaon District are generally not much congested: there being 8,331 persons per square mile as against 9,476, the average for all the Punjab towns.

In the District, 83.4 per cent of the total population lives in villages and 16.6 per cent in towns as against 79.9 per cent and 20.1 per cent, respectively, for the State as a whole.

Sex Ratio.—Out of a total population of 1,240,706 of the District, 581,274 are females and 659,432 males, *i.e.* a proportion of 46.9 : 53.1.

In Punjab there are 864 females per 1,000 males which is the lowest figure among the States in India : the corresponding figure for the Indian Union is 941. Conspicuously, in the area comprising Gurgaon, Mahendragarh and Rohtak Districts, the sex ratio is higher than the State average and the number of women per 1,000 men is 881,929 and 891, respectively. This feature may be attributed to the men going out for work, mostly to Delhi. The sex ratio in the District has been fluctuating during the past fifty years, as against a continuous rise in the State as a whole, but the pull from Delhi for employment has remained in force all the time as the following figures show :—

Year	Gurgaon	Punjab
1911	878	807
1921	858	821
1931	859	830
1941	880	850
1951	887	858
1961	881	864

It is interesting to note that the sex ratio varies within a wide margin in different parts of the District according to local opportunities for employment. The two southern Tahsils of Rewari and Ferozepur Jhirka, which are dry and sandy and consequently have little scope for employment in industry, have the highest sex ratio (922 and 912) even though removed from Delhi, than the nearer Tahsils of Nuh (877), Gurgaon (877), Palwal (854) and Ballabgarh (835).

*Page 169

The sex ratio for rural areas of the District works out to 884 and for urban areas 870 : the corresponding figures in 1951 were 886 and 893.

Age Composition.—In Table C-II*, the 1961 population of the District is distributed in the various age groups. With a view to comprehend the comparative numerical strength of these groups, a Table is given below in which totals have uniformly been taken as 1,000.

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age group	TOTAL POPULATION			RURAL		URBAN	
	Persons	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	331.47	326.95	336.60	332.59	340.68	298.76	315.88
10—14	115.14	117.58	112.36	118.56	111.78	112.71	115.31
15—19	83.66	85.72	81.33	83.68	79.82	95.92	88.96
20—24	81.10	75.22	87.77	72.83	86.70	87.19	93.20
25—29	76.67	73.29	80.51	71.86	80.43	80.40	80.92
30—34	61.51	59.22	64.11	58.23	64.34	64.13	62.91
35—39	49.99	49.63	50.40	48.75	50.75	54.02	48.60
40—44	48.92	48.58	49.30	48.50	49.96	49.00	45.98
45—49	36.75	37.87	35.50	37.76	34.98	38.41	38.12
50—54	38.36	40.35	36.10	40.61	36.03	39.08	36.46
55—59	19.51	21.37	17.39	21.58	17.11	20.33	18.83
60—64	26.96	29.63	23.93	30.19	23.67	26.84	25.27
65—69	10.63	12.39	8.62	12.45	8.37	12.09	9.93
70+	18.57	21.41	15.36	21.59	14.66	20.51	18.89
Age not stated	0.76	0.79	0.72	0.82	0.72	0.61	0.74

A District is too small an area to comment with confidence on the age structure of its people, since the inflow and outflow of population at different stages of life is considerable; and this is more so for Gurgaon which is contiguous to Delhi.

The age-pyramid of the District, as built from the above figures, has a broad base and tapers rather obliquely : 331 persons per 1,000 of the population are below the age of 10 and only 76 of age 55 years and above. Roughly speaking 4 out of every 10 persons are below the age of 15, 5 in the groups 15 years to below 55 and only one past the age of 55.

Secondly, the agespan of females is lower than of the males. For ages 45 years and above there are 137 per thousand among females and 163 per thousand among males.

It is a daily observation that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their native homes and live in the towns by themselves. When past the age of useful work, most of them return to villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to below 55 and 55 and above, the distribution among males in rural areas is 451, 462 and 86 and in urban areas 411, 508 and 80, respectively. The corresponding figures for females in rural areas are 452, 483 and 64 and for urban areas 431, 495 and 73.

*Pages 252 to 257.

In Table C-II* persons in different age groups are further classified according to their marital status. To comprehend the significance of these figures, 1,000 males and 1,000 females for the District as a whole and for urban and rural areas are distributed according to their marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	TOTAL		RURAL		URBAN	
	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7
All ages	1,000	1,000	1,000	1,000	1,000	1,000
Never married	548.24	453.71	546.41	449.25	557.35	476.35
Married	398.26	471.71	397.60	478.29	401.55	438.28
Widowed	52.79	73.91	55.31	71.78	40.23	84.69
Divorced or separated	0.34	0.19	0.29	0.12	0.58	0.54
Unspecified Status	0.37	0.48	0.39	0.56	0.29	0.14

It will be noticed that in the District as a whole some 55 per ce t of males and 45 per cent of females are unmarried. The higher proportion of unmarried males is due to shortage of females which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females (47 per cent) than among males (40 per cent).

The proportion of married males is higher in towns than in villages, but the proportion of married females is higher in villages (48 per cent) than in towns (44 per cent).

Marriage in this country is universal and there is always an explanation for almost every old bachelor and spinster. In the table given below the unmarried males and females are classified according to age in terms of 1,000 males and females.

AGE COMPOSITION PER 1,000 NEVER MARRIED MALES AND FEMALES

Age groups	RURAL		URBAN	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0—9 years	608.68	758.33	536.04	663.13
10—14 years	205.03	204.13	199.85	230.91
15—19 years	100.17	34.00	151.19	90.11
20—24 years	34.24	1.26	72.73	11.15
25—29 years	16.99	0.25	18.46	1.67
30—34 years	7.85	0.29	5.81	0.53
35—39 years	5.66	0.08	3.97	0.28
40—44 years	5.33	0.05	3.07	0.31
45—49 years	4.05	0.05	2.37	0.18
50—54 years	3.92	0.04	2.02	0.09
55—59 years	2.02	0.03	1.03	0.11
60—64 years	2.48	0.04	1.11	0.09
65—69 years	0.98	0.01	0.44	0.02
70 +	1.38	0.03	0.90	0.02
Age not stated	1.22	1.41	1.01	1.40

*Pages 252 to 257

It will be seen that there are only 26 males per 1,000 males who are past the age of 34 years, and only 2 spinsters per 1,000 females who are past the age of 19 years in rural areas. The corresponding figures for urban areas are 15 and 14, respectively.

Literacy.—Three Tables labelled as C-III *give information on literacy by age groups, sex and educational levels in rural and urban areas of the District. The position is summarised below :—

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FOUR YEARS

Educational Level	GURGAON						PUNJAB					
	Total		Rural		Urban		Total		Rural		Urban	
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
1	2	3	4	5	6	7	8	9	10	11	12	13
Total	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000	1,000
Illiterate	625	898	683	950	342	638	611	831	681	896	346	568
Literate	375	102	317	50	658	362	389	109	319	104	654	432
Literate without educational level	164	51	155	32	204	151	167	85	155	63	211	176
Educational level below Matric	170	44	140	17	316	177	166	70	137	38	276	200
Educational level Matric and above	41	7	22	1	138	34	56	14	27	3	167	56

Roughly speaking only one male out of 3 and one female out of 10 can read and write according to the test adopted for literacy. About half this number have had schooling and only one male in 24 and one female in 143 had crossed the Matriculation level.

The ruralites have a considerable leeway to make up in order to come in line with the urbanites. In the towns of Gurgaon District, there are 658 per 1,000 males and 362 per 1,000 females who are literate, but in villages they are as few as 317 and 50, respectively. This feature is common throughout the State where the literacy per 1,000 is 654 for males and 431 for females in towns and 319 and 104, respectively, in rural areas.

Mother tongue (Table C-V)†.—82.7 per cent of the inhabitants in the District gave Hindi as their mother tongue, and 13.8 per cent Urdu, Mewati and Punjabi languages had 1.6 per cent each. Hariani, Gujarati, Marwari, Nepali and Peshawari were also returned by some persons but their number is negligible. The figures are given below.

Mother tongue	Number
Hindi	827
Urdu	138
Mewati	16
Punjabi	16
Pahari—unspecified	1
Other languages	2
Total	1,000

*Pages 258 and 259 †Pages 260 and 261.

Religion (Table C-VII)*.—Distribution per 1,000 persons in the District according to the religion is shown below :—

	Number	Per 1,000
Total population	1,240,706	1,000
Hindus	1,011,862	815
Muslims	216,767	175
Sikhs	8,362	7
Jains	2,930	2
Christians	730	1
Buddhists	41	N
Other religions	9	N
Religion not stated	5	N

The Hindus form 81.5 per cent of the District population. In the Nuh and Ferozepur Jhirka Tehsils the Muslims are in majority. The Sikhs ranking third in the list, live mostly in towns.

Place of Birth.—Table D-II† throws light on migration, based on place of birth. The Table deals only with immigration. The persons who had gone out of the District cannot be easily known. The Table shows that as many as 68 per cent of the persons enumerated in the District were born at the very place where they were enumerated. For the rural population this percentage is 72.5 and in urban areas it is 44.7 denoting a higher degree of mobility in towns.

Another interesting feature is the difference between the two sexes in this respect. Among the males as many as 84.5 per cent were born at the place they were enumerated as against 49.1 per cent in the case of females. The low figure among females is the result of their getting married in towns and villages other than their birth place.

Another 14.4 per cent of persons were born at another place within the District. This percentage is 4.8 in the case of males and as high as 25.4 in the case of females due to the factor of marriage. Persons born in Punjab Districts other than Gurgaon numbered 36,361 or 2.9 per cent of the population. Even in this group the percentage for females is higher than males.

The Punjab born persons formed 85.3 per cent of the District population. The remaining 14.7 per cent hailed from outside the State, including 70,467 persons (5.7 per cent of the population) came from Pakistan in the wake of Partition.

Persons coming in from other Indian States were mostly born in Uttar Pradesh (50,770), Rajasthan (45,746) and Delhi (11,936). The persons reported to have born in countries other than Pakistan were mostly from Nepal (334) and Burma (33).

Scheduled Castes.—Members of the Scheduled Castes numbered 196,181 forming 15.8 per cent of the total population of the District. The nine Scheduled Castes not found in the District were *Batwal, Gagra, Marija, Pherera, Sanhai, Sanhal, Sarera, Sansoi* and *Deha.*

Among the Scheduled Castes persons *Chamars* were the most numerous (123,732). Next in order were the *Balmikis* (35,699), *Kori* or *Koli* (9,625), *Dhanak* (9,599), *Kabirpanthi* (9,280), *Khatik* (3,481) and *Bawarias* (2,676).

The 1951-census recorded 166,274 persons belonging to the Scheduled Castes in the District. There has, thus, been an increase of about 18 per cent in their number over the decade 1951—61.

The Scheduled Caste persons lag in education. Only 10.5 per cent among them could read and write, as compared with 20.5 per cent of the general population.

Households (Tables B-X‡ to B-XVII, C-I§ and SCT-V)||.—Out of 1,240,706 persons in the District, 2,119 were 'houseless' not having any regular place for living (Table A-I Appendix III**). They were members of wandering tribes, tramps, *sadhus* and pavement dwellers. The remaining 1,238,587 persons lived in households (210,557). A 'household' has been defined as a person or a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so.

A 20 per cent systematic sample was drawn from among the schedules relating to households other than institutions such as boarding houses, defence and police personnel living in barracks or under canvas. The result of analysis of these schedules are contained in Table B-X to B-XVII, C-I and SCT-V. Some points of interest emanating from these figures are presented on the next page.

*Pages 262 and 263. †Pages 264 and 265. ‡Pages 228 to 251. §Pages 250 and 251. ||Page 291. **Page 168. 'N' means negligible

The average size of the household in the District works out to 5.9 persons. As many as 41 per cent of the households consist of four to six persons. One out of every sixteen households consists of a lone man, while one out of nine has ten persons or more.

SIZE OF HOUSEHOLDS

Households composed of	HOUSEHOLDS		PERSONS	
	Number	Per cent to total	Number	Per cent to total
1 person	2,587	6.1	2,587	1.0
2-3 persons	7,100	16.9	18,242	7.4
4—6 persons	17,250	41.1	86,857	35.2
7—9 persons	10,326	24.6	80,054	32.4
10 or more	4,739	11.3	59,309	24.0
Total	42,002	100	247,049	100

Size of Cultivating Holdings.—As many as 56 per cent of the households in villages are engaged in cultivation in the capacity of peasant-proprietors and tenants. Such households as have let out their lands in entirety or work as agricultural labourers do not come in this group. The households of peasant proprietors and tenants are distributed below according to size of their operational holdings.

DISTRIBUTION OF 1,000 CULTIVATING HOUSEHOLDS ACCORDING TO SIZE OF LAND CULTIVATED

Size of Operational Holding	Gurgaon	Punjab
Less than 1 acre	7.01	23.16
1.0 to 2.4 acres	84.22	95.49
2.5 to 4.9 acres	134.27	125.25
5.0 to 7.4 acres	188.91	154.63
7.5 to 9.9 acres	117.75	101.63
10.0 to 12.4 acres	146.89	130.11
12.5 to 14.9 acres	69.33	60.25
15.0 to 29.9 acres	190.36	217.47
30.0 to 49.9 acres	43.56	64.09
50.0+	13.45	22.86
Unspecified	4.25	5.06

It is interesting that tiny holdings below 2½ acres each and holdings of 15 acres and above are comparatively few in the District as compared with the State. This may be due to the light sandy soils dependent on scanty rainfall discouraging cultivation on tiny plots, as also making big holdings unmanagable.

Industrial Classification of Population (Table B-I*).—In the following Table the population of the District, in terms of persons, males and females separately are distributed into non-workers and workers, and the workers have further been distributed according to industrial categories. The reader is advised to read the note appearing before the Census Tables in Part III of this book where the terms have been explained.

*Pages 170 and 171.

DISTRIBUTION PER THOUSAND PERSONS BY IND USTRIAL CATEGORIES OF WORKERS AND NON-WORKERS

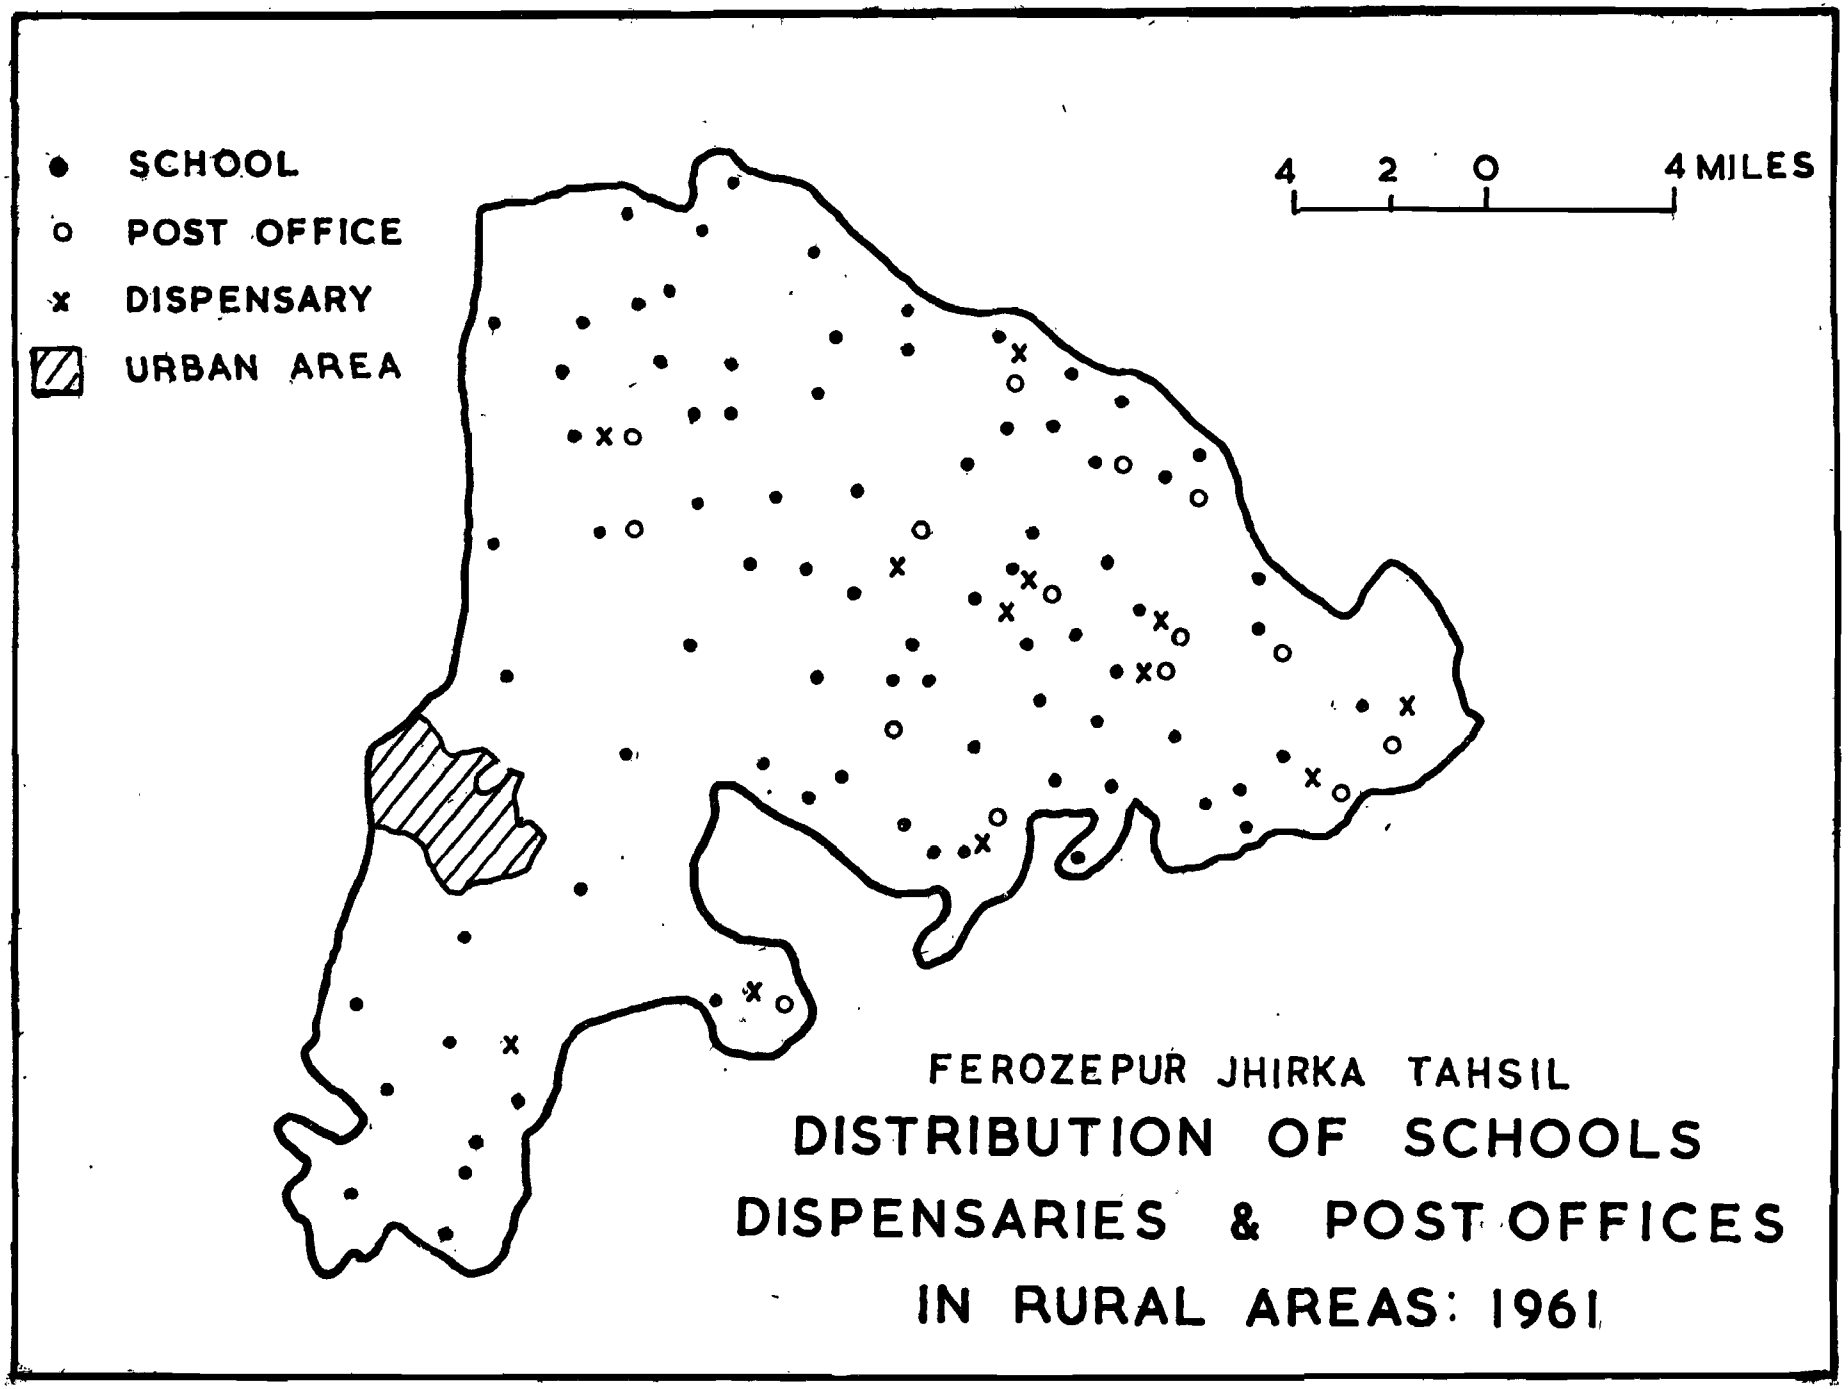

Industrial Category	Gurgaon			Punjab		
	P.	M.	F.	P.	M.	F.
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-workers	607	486	744	650	471	858
Workers	393	514	256	350	529	142
As cultivators	258	306	204	197	274	107
As agr. labourers	18	24	12	27	44	6
In mining, quarrying, etc.	2	3	1	3	6	1
In household industry	27	37	15	27	39	13
In manufacturing	16	28	2	17	31	2
In construction	6	10	1	7	12	1
In trade and commerce	15	28	1	19	35	N
In transport	7	14	N	7	13	N
In other services	44	64	20	46	75	12

In Gurgaon District for every 1,000 persons the workers count 393 and the remaining 607 persons are non-workers. Among males the workers are about half the total number (51.4 per cent) and among females they are one in four (25.6 per cent).

Gurgaon has a higher proportion of workers in its population than Punjab as a whole. This position has been brought about by women in very large numbers working in the fields. As noted earlier the percentage of men working outside the District appears to be substantially high necessitating higher participation by women in agriculture. Agriculture (peasant proprietors, tenants and agricultural labourers) absorbs 276 persons per 1,000 in this District compared to 224 in Punjab as a whole.

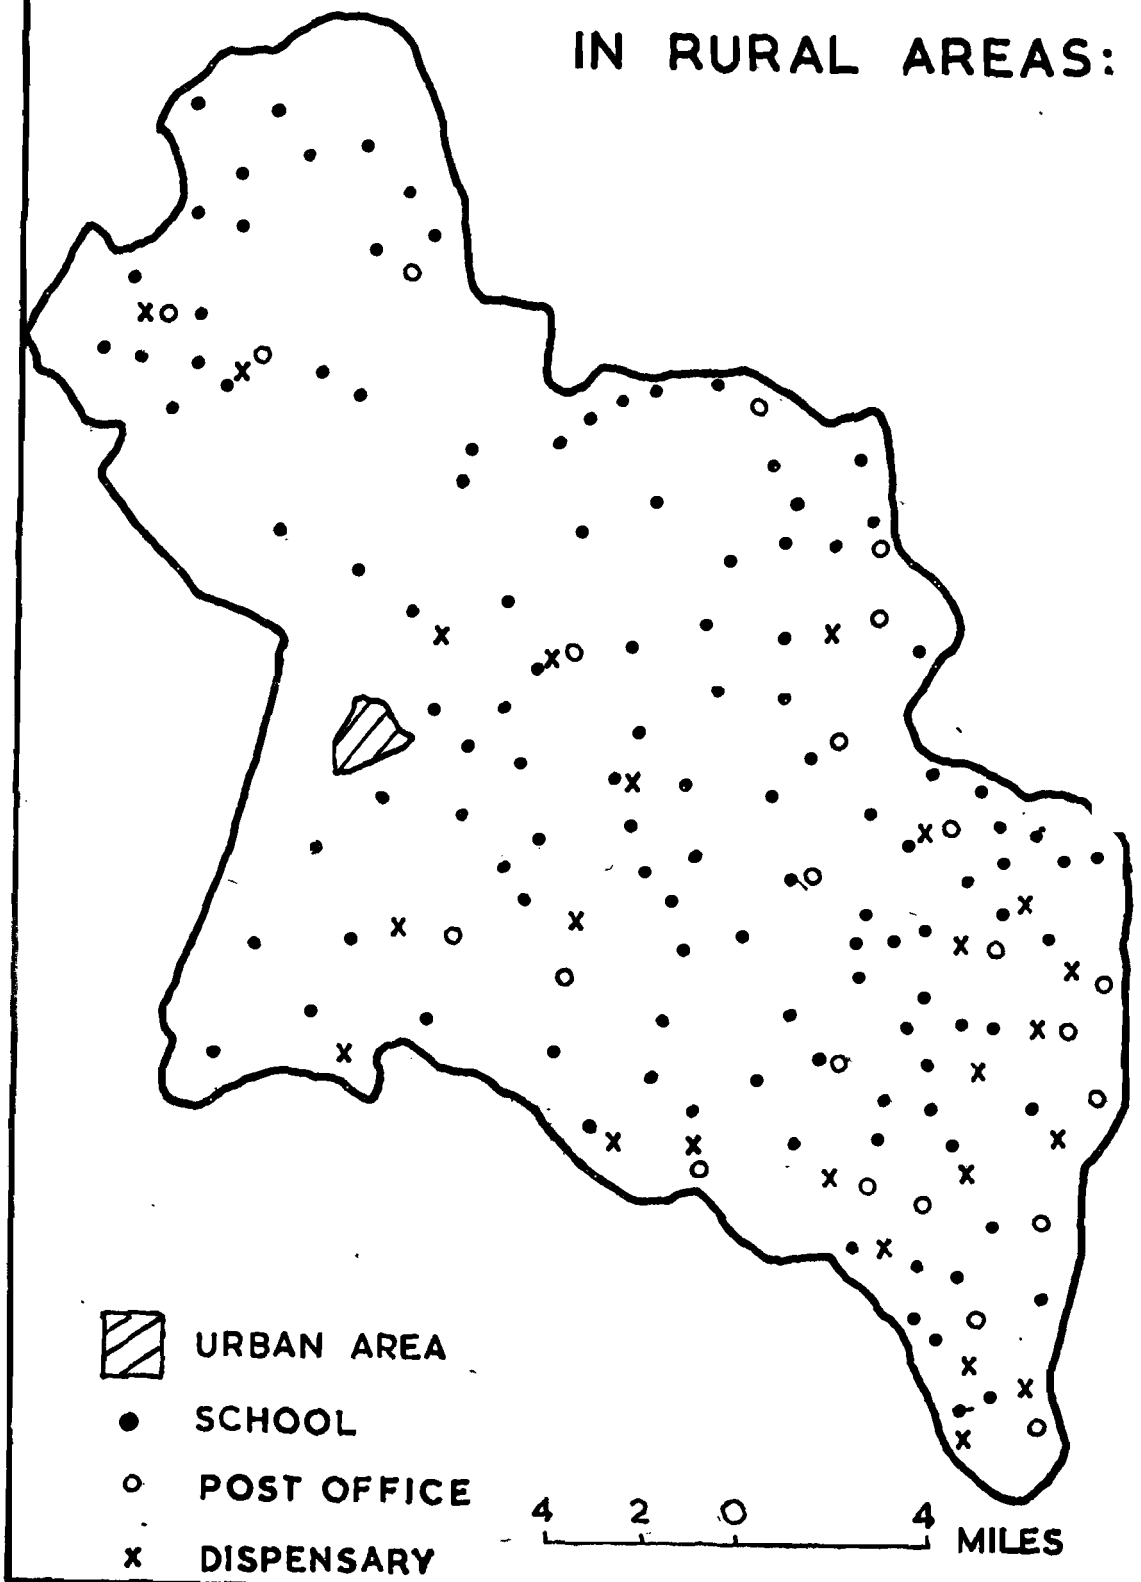

The proportion of population working in industry (household and other type) is almost equal to that of Punjab but construction and trade and commerce absorb comparatively small proportion.

'N' means negligible.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Part II Table 17 to 19*).—Literacy in Gurgaon District stood at a low level of 9 per cent in 1951. This figure improved to 20.5 in 1961. Despite this progress it lags behind the State figure of 24.2 per cent. Among Punjab Districts Simla leads in literacy (43.6 per cent of persons) and Sangrur (16.5 per cent) comes at the tail-end. The following figures relate to the number of schools and scholars in the District.

EDUCATION

Type	SCHOOLS		SCHOLARS	
	Boys	Girls	Boys	Girls
1951-52				
Primary Schools	299	72	22,614	5,726
Middle Schools	99	7	18,415	1,594
High Schools	31	1	12,137	22
Total	429	80	53,166	7,342
1960-61				
Primary Schools	732	146	52,275	11,482
Middle Schools	84	16	7,930	2,741
High Schools	64	10	23,446	4,097
Higher Secondary Schools	5	1	3,167	511
Total	885	173	86,818	18,831

The above figures are really heartening but the efforts at spreading education require to be intensified still further. In 1961, the school going boys formed 47.7 per cent of the male population in the age-group 5 to 14 years but the corresponding figure for girls was only 12.

The rapid expansion in education in the District during the decade has been possible because of a number of factors. Primary education has been made compulsory. More and more schools, particularly in rural areas, have been opened. There is a growing awareness among parents towards education of children, particularly of girls. Lastly, special incentives have been provided for children belonging to the Scheduled Castes and Backward Classes. Education is free for them up to the middle standard in all Government and provincialised schools. Free books, freeships, stipends and scholarships are awarded to them in all institutions including colleges under the various schemes sponsored by the State and the Union Governments.

Mention should be made of the useful role being performed by the Sanatan Dharam Sabha, the Ahir Education Trust, the Christian Mission and the managements of a few other private schools and colleges at various places in the District.

*Pages 70 and 71.

Technical Education (Table 18*).—Besides general education, there are arrangements in the District for imparting training in various crafts. An industrial training institution for boys at Gurgaon gives training in smithy, wood work, radio-mechanism, etc. Similarly there are two Government Industrial Schools for Girls, each located at Gurgaon, and Faridabad. In all, 236 boys and 91 girls were on the rolls of these institutions during 1960.

Colleges (Table 19*).—During the decade 1951—61, two colleges were established raising their number to four. The number of college students in the District was 674 (662 boys and 12 girls) in 1951 and 2,580 (2,448 boys and 132 girls) in 1960. It is heartening that girls are going in for college education in larger number. Besides, there is a Teachers' Training College at Rewari which had 88 men and 11 women on its rolls during 1960.

Cultural activities.—The Government College for Women, Gurgaon provides instructions in music and fine arts. It also has a dramatic club. Various other educational institutions have their own dramatic and fine arts clubs. There are clubs at Gurgaon, Rewari and Palwal, and a separate Women's Club at Rewari. The Faridabad Township has two very good clubs ; one is the Bata Club and the other is run by the local Industrialists Association. A number of Youth Clubs, *Mahila Samitis*, *Kisan Sewak Sanghs*, *Balwaris* and Community Centres have been organised in various Community Development Blocks for the enjoyment and recreation of the rural folk.

Cinemas (Table 22‡).—The number of cinema houses in the District increased from 3 in 1950-51 to 5 in 1960-61. Gurgaon and Rewari each have two cinemas. In addition to these cinema houses, the moving 'talkies', theatrical societies and circuses visit the District off and on. The proceeds from the Entertainment Tax amounted to Rs. 43,390 in 1951-52 and Rs. 169,585 in 1960-61 (Part II Table 47§).

Libraries.—There are three public libraries in the District and in recent years they have added to their usefulness :

(i) Public Library, Gurgaon.
(ii) Jain Sarvjanik Pustakalaya, Rewari.
(iii) Municipal Library, Ballabgarh.

Besides, a number of libraries have been opened in rural areas under the Community Development programme during 1951-61.

Newspapers and Journals.—Table 21 (Part II||) contains a list of newspapers and magazines published in the District. Most of them were started after Independence. They cover diverse topics but most of them have limited circulation and are of indifferent standard.

Printing Presses.—Particulars of 17 printing presses in the District are given in Table 20 (Part II**). Six of them are located at Gurgaon, 5 at Rewari and 3 each at Palwal and Faridabad. They are generally small units but are fairly adequate for the local needs. The Government Printing Press at Faridabad is the biggest press in the State.

Radios (Part II Table 23‡).—Radios are gaining in popularity. In 1961, 6,007 broadcast receiving licences were issued in the District as against 4,129 in 1959. In villages, radios have been installed in the *panchayatghars*, where ruralites come and listen to various programmes, particularly the *Dehati* programme broad cast for them by the All India Radio, Delhi.

Social Welfare Activities.—The State Government has set up a branch of the Social Welfare Department in the District under the charge of a Welfare Officer. He looks after the welfare and uplift of Scheduled Castes and Backward Classes, providing financial assistance in the form of loans and subsidies for building houses, starting small scale and cottage industries and education of the children, and giving assistance in acquiring agricultural land for them.

The Indian Red Cross Society has a branch in the District. A branch of the All India Women's Society looks after the social and moral hygiene of the forsaken women and helps the administration in checking of immoral traffic in women and children. Branches of the Central Social Welfare Board, Child Welfare Society and St. John Ambulance also exist in the District.

*Pages 70 and 71 ‡Page 73 §Page 99 **Page 72 ||Page 72.

Political Parties.—Among the various political parties in the District the Congress holds the sway as the results of the last three General Elections show.

Year	Political party	M.L.A.s elected from District	M.P.s elected from District	Total votes in District	Votes polled	Percentage of polled to total votes	Remarks
1	2	3	4	5	6	7	8
1952	Congress	9	1				
	Jan Sangh	..	..				
	Parja Socialist Party	..	..				
	Communist	..	..				
	Independent	..	..				
	Total	9	1	501,594	330,919	66	
1957	Congress	9	1				After the death of Maulana Abul Kalam Azad, Congress, M.P., Shri Parkash Vir Shastri was elected as an Independent M. P. in the bye-election of 1958.
	Jan Sangh	..	..				
	Parja Socialist Party	..	..				
	Communist	..	..				
	Republican	..	..				
	Independent	..	..				
	Total	9	1	695,771	392,551	56

	Jan Sangh	..	..				
	Parja Socialist Party	..	..				
	Communist	..	..				
	Akali Dal	..	..				
	Independent	2	..				
	Total	9	1	648,958	397,405	61	

Medical and Public Health (Tables 24, 25 and 26*).—Homoeopathy is practised by a few practitioners in towns. The *Ayurvedic* and *Unani* systems are liked by the people because of the simpler and familiar medicines. Government has given better recognition to these systems and the number of *Ayurvedic* dispensaries in the District has increased from 2 in 1953-54 to 24 in 1960-61 (Table 25), each under the charge of a *Vaid* or *Hakim* and under the direct administrative control of the Director of Ayurveda, Punjab.

*Page 73.

In 1961, there were 47 hospitals and dispensaries in the District equipped with 621 beds run mostly by the State Government and also by local bodies and charitable trusts. The Civil Surgeon looks after the civil hospitals and civil dispensaries run by the District Board (now *Zila Parishad*). In addition there are the T. B. Clinics at Gurgaon and Rewari, the Christian Hospital at Palwal and the Railway Hospital at Rewari.

The District Medical Officer of Health has under him (1960) 11 Primary Health Centres, 2 Primary Health Units, 4 Maternity and Child Welfare Centres and 3 Family Planning Centres (Tables 29, 26 and 28).*

Specialised Institutions ; (i) *Tuberculosis*—.Arrangements exist in all major institutions for the treatment of this disease and there are two T. B. Clinics, one each at Gurgaon and Rewari, where specialised treatment is given.

(ii) *Small Pox*.—Small Pox eradication programme was launched and completed in the District in 1961 when more than 91 per cent of population was vaccinated by a team of doctors, supervisors and vaccinators. The District was the first to be covered under this programme ; facilities exist for vaccination and re-vaccination in other hospitals and dispensaries.

(iii) *Malaria*.—A Malaria Control Unit was established in the District in 1953, under the National Malaria Control Programme to undertake the malaria eradication operations. The Unit now carries malaria surveillance operations side by side with the spraying operations. It covered 512 villages in 1953-54 involving 428,774 persons and an expenditure of Rs. 52,866 (Table 27).** By 1960-61, the number of villages and towns so covered had gone up to 1,437 involving 942,454 persons at an expenditure of Rs. 236,781.

General Sanitation.—Sanitation in towns is the function of the Municipal Committees. In rural areas, which are now covered by the National Extension Service Blocks, the work is being looked after by the Block Staff and the Primary Health Units.

The P. W. D., Public Health Division have so far executed fourteen rural water-supply schemes, thus supplying tap-water to 14 villages having a combined population of 26,368. Schemes for extending this facility to other villages are under way. The Block Development authorities provide grants for installing hand-pumps.

The P. W. D., Public Health Division also executed schemes for piped water-supply in the towns of Rewari, Palwal, Hodal, Faridabad, Nuh, Ferozepur Jhirka, though a few of them are yet far from being self-sufficient in this respect. Urban drainage schemes are in progress under this Division at Gurgaon, Sohna and Palwal.

Standard of Health and Medical Facilities.—Because of the dry climate the standard of health of the people is generally good. At the same time the public health and medical facilities have improved during the decade. There were 47 hospitals and dispensaries in the District in 1961. The number of beds in these hospitals/dispensaries increased from 500 in 1956 to 621 in 1961 and the number of patients treated increased from 428,679 in 1954 to 444,287 in 1961. In 1955, the total number of medical personnel (doctors, nurses, mid-wives, *dais*, dispensers and Class IV staff) was 155. By 1961 the total number of these persons was 195. The total expenditure on hospitals and dispensaries was Rs. 337,074 in 1953-54 and it rose to Rs. 871,304 in 1960-61.

Despite the improvements described above, the Gurgaon is among the poorly served Districts. The area covered per medical institution in 1961 worked out to 50 square miles, placing Gurgaon in the 10th position among the Punjab Districts, the lowest figures being for Simla District (13) and Jullundur District (26) and the highest figures being for Lahaul and Spiti (740) and Kangra District (91). Similarly the average population served per medical institution in the District was 26,398 which gave Gurgaon the 6th position, the lowest figures being for Lahaul and Spiti District (4,091) and Simla District (6,627) and the highest for Sangrur District (33,921) and Rohtak District (33,819).

Crimes.—The incidence of crime in the District, judging from Punjab standards is not high, despite its location on the borders of Uttar Pradesh and Rajasthan.

Table 44 (Part II) †shows the results of trials in the criminal courts. For studying the nature of crimes in the District and their trend the number of cases instituted in 1951 and 1961 were looked into some detail. It was found that there was a decline in offences against person and property. This was matched by an increase in excise cases. Thus, whereas in 1951, 28 murders took place in the District, their number was 15 in 1961. Three dacoities occurred in 1951 but only one in 1961. The number of burglaries was 370 in 1951 and 284 in 1961. The number of robberies declined from 26 in 1951 to 2 in 1961, and of thefts from 448 to 327. 47 cases of rioting occurred in 1951 but in 1961 there were only 34. 221 cases were detected under the Arms Act in 1951 but only 41 in 1961.

*Pages 76, 76 and 74. *‡Page 74 †Page 91

The cases instituted under the Excise Act, however, increased from 105 in 1951 to 201 in 1961.

DEVELOPMENTAL ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehakari Samaj and Panchayati Raj* i.e., Community Development, Co-operation and Panchayats.

Community Development (Table 40)*.—The administrative set up of the Community Development work has been given in the first Chapter. The first Block in the District was started on the 2nd October, 1952. By early 1963 the entire rural area had been covered by 14 Development Blocks.

The programme of Community Development and National Extension Service has come to occupy an important place for taking the technological improvements, particularly in the field of agriculture, to the door of the farmer. The object is to improve the whole texture of rural life by a self-generating process of change and growth. People's participation and contribution in this programme is of prime importance. It is not easy to assess this contribution because it is mostly in the shape of manual labour and voluntary participation which is difficult to evaluate. The achievements of these Blocks cannot be set out in exact terms. Hence, only a general description of their activities is given below.

Improved seeds, implements, green manure and fertilizers are supplied to the cultivators at subsidized rates. They are encouraged to preserve dung in pits and helped in reclaiming lands and in laying out model farms. Financial assistance is given for constructing percolation wells and installing pumping sets and tubewells.

Cow and buffalo bulls of good breed are supplied to villagers. Artificial insemination centres have been opened at three places. Each centre has a few key villages attached to it and has pedigree bulls.

Health and sanitation activities cover opening of new Hospitals, Rural Health Centres, Rural Dispensaries, Child Welfare and Maternity Centres, construction of drains, dry latrines and smokeless *chullahs*, pavement of streets, installation of hand-pumps and construction of wells for drinking water.

Educational activities cover opening of new schools, upgrading of old schools, conversion of schools into basic type and construction and repairing of school buildings.

In adult literacy centres, men and women are encouraged to learn the 3 Rs'. The experiment has, however, yet to prove its efficacy. Libraries and reading rooms are started and young villagers are encouraged to organise youth clubs. *Mahila Samitis* are organised for the welfare of women folk. Childrens' parks and *balwaris* (nurseries) are started for the benefit of the children. *Panchayatghars* and Community Centres and Community Listening radio sets are provided for the benefit of the community at large.

People are encouraged to construct *kacha* roads, to repair old paths and to macadamise *kacha* roads, The villagers are also encouraged to organise themselves into co-operative credit societies, industrial societies, farming societies and service societies of various kinds.

Village and small scale industries are encouraged by setting up demonstration-cum-training centres where villagers are trained in various arts and crafts. The Block Development authorities have also tried to set up model villages to serve as examples for other villages.

Co-operation (Tables 15 and 16)**.—The first co-operative credit society in the District was registered on 19th November, 1917. The movement made steady progress and the number of societies went on increasing till Partition which affected its growth considerably. The apex institutions like the Provincial Co-operative Bank and the Punjab Co-operative Union was left behind in West Pakistan. Deposits accumulated in long years were lost overnight. The mass migration of the Muslim members suddenly depleted the ranks of societies and the loans advanced to them became bad debts. With courage, patience and hard work, the co-operative movement, however, recovered from that rude shock within a few years and dashed for still better achievements as is indicated by the following increase:—

Year	Societies	Members
1950-51	2,294	73,164
1955-56	2,644	81,719
1959-60	3,957	159,662

By 1960-61, 12.9 per cent of the entire population of the District had been brought within the fold of co-operation. Co-operative Banks and banking unions finance the societies affiliated to them. There were four such banks in the District in 1950-51 with membership of 974 and working capital of 3,101 thousand rupees. They issued loans to the tune of 3,101 thousand rupees. In 1959-60 the number of these banks remained the same but their membership increased to 2,013 and their working capital increased to 11,614 thousand rupees and the loans issued stood at 8,110 thousand rupees.

*Pages 84 to 90 **Pages 68 and 69

There are credit societies whose membership and loan operations are confined exclusively to the *Harijans*. In 1950-51, there were 668 Agricultural Credit Societies with a membership of 17,474 and a working capital of 1,308 thousand rupees and these societies issued loans of 1,335 thousand rupees. By 1959-60 their number increased to 1,371 with a membership of 58,328 and a working capital of 9,179 thousand rupees; in that year they issued loans to the tune of 7,945 thousand rupees.

In 1956-57 there were six societies for co-operative marketing and processing of agricultural products, with a membership of 2,072. By 1959-60 their number went up to 10 although the number of members came down to 1,442. Besides functioning as commission agents in the markets, these societies purchased wheat and other commodities for Government whenever required. There is a big co-operative oil mill at Nuh.

Irrigation Societies encourage installation of tubewells and pumping sets on co-operative basis. In 1959-60 there were two such societies with 22 members. The number of Farming Societies increased from 7 with 157 members in 1950-51 to 34 with 610 members in 1959-60.

To eliminate the exploitation of the artisans by the middlemen and to help the members in the purchase of raw material and disposal of finished products, efforts are being made to organise small-scale and cottage industries on co-operative lines. There were eight Weavers' Societies in the District in 1959-60 with 159 members, 36 Milk-Supply Societies with 681 members and 12 Consumers' Societies with 870 members. In 1959-60 there were four Housing Societies with 405 members.

Panchayati Raj (Part II Table 38)*.—According to Mahatama Gandhi, "India's independence must begin at the bottom. Thus every village will be a republic or a *Panchayat* having full powers. In this structure composed of innumerable villages, there will be ever-widening, never-ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle whose centre will be the individual, always ready to perish for the village". Other leaders shared fully this view and accordingly the organisation of village *Panchayats* was made one of the directive principles of the State policy in the Constitution of India.

The Punjab Gram Panchayat Act, 1952, as amended up to date, and the Punjab Panchayat Samitis and Zila Parishads Act, 1961, form the corner-stone of the *Panchayati Raj*. This structure consists of three tiers: a *Panchayat* at the village level, a *Panchayat Samiti* at the Block or Tahsil level and a *Zila Parishad* at the District level. These three institutions are organically linked with each other by means of indirect elections. They do not constitute a hierarchy where one is subordinate to another. They have clearly defined spheres of activities and have independent sources of revenue. This enables them to function without losing initiative and selfreliance.

Gram Panchayat.—The village *Panchayat* has 5 to 9 members including a *Sarpanch*, all elected by adult franchise. There is adequate representation on them for women and for the Scheduled Caste persons. In case no woman is elected as a *Panch* one is co-opted as additional *Panch*. The election to the *Panchayat* is held by secret ballot and its term is three years. The first general election, for *gram panchayats* was held in 1953 and for a second time in 1961.

In 1952-53 the number of *Gram Panchayats* in the District, with very restricted functions under the Punjab Village Panchayats Act was 808 with a total membership of 4,326. In 1960-61, the number of *gram panchayats* rose to 854 with a membership of 4,730.

The *Panchayats* are expected to provide cheap and ready justice. On the criminal side they have been given powers to try minor offences like petty thefts, hurt, affray and committing public nuisance. They are under the control of the District Magistrate who can hear appeals against their orders and can transfer cases from one *Panchayat* to another. On the civil and revenue side, the *Panchayats* have been given powers to try civil and revenue cases up to a certain pecuniary limit, and in respect of these cases they are under the control of the District judge and the Collector, respectively.

Most of the villages are, however, faction-ridden and the system of elections appears to have added to their factional spirit and the general experience that the proceedings of the *Panchayat* are in many cases marred by group rivalries and group feelings. These are, however, pangs of birth and with the spread of education, proper guidance and maturity of public opinion, it is hoped that things will improve.

In 1952-53, 2,072 criminal cases were instituted with the *Gram Panchayats* in the District while 308 cases were pending in the beginning of the year. Of this 1,092 cases were compounded, 493 cases were dismissed and 527 cases ended in conviction. In that year the *Panchayats* also tried 1,228 civil and revenue cases, out of which 186 cases were dismissed and 260 cases were decreed while 528 cases were compounded. In 1960-61 the number of fresh criminal cases instituted before the *Panchayats* was 635 while 960 were pending in the beginning of the year. The number of cases compounded was 324; 148 cases ended in conviction and 191 were dismissed. On the civil and revenue side in 1960-61, 610 new cases were instituted while the cases compounded, dismissed and decreed were 249, 129 and 172, respectively.

*Page 81.

The figures quoted above call for two observations. First, there has been a substantial reduction in the number of cases coming before the *Panchayats*. This reduction has been attributed to the villagers having preference for regular courts to adjudicate their disputes, where they expect more impartiality. Second, a majority of cases coming to the *Panchayats* are compromised. This, however, is a pleasing feature, making for harmony among the village community.

Besides, the *Panchayats* look to the requirements in their respective areas in regard to agriculture, education, animal husbandry, health and sanitation, including water-supply works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department in cash, kind or labour. With the help of the departments concerned, the *Panchayats* have done some really good work. Tables 39 and 40 throw light on the progress made by *Panchayats* in various spheres through their own efforts and through the assistance of Community Development Department and other departments.

The village common lands now vest with the *Panchayats*. They receive a percentage of land revenue collected in the villages under their charge and grants from Government and sometimes also from local bodies. They levy House Tax and Professions Tax and raise voluntary contributions. The fines and penalties they impose are also transferred to their funds. In 1960—61, the total income of the *Panchayats* in the District was Rs. 2,113,000 and their total expenditure on education and libraries, public works, public health, agriculture and veterinary services and administration amounted to Rs. 1,597,000.

Panchayat Samitis.—There is a *Panchayat Samiti* for each block. It consists of: (i) 16 members elected by the *Panches* and *Sarpanches;* (ii) two members, elected by Co-operative Societies; and (iii) one member elected by the Market Committees. Besides, every M. L. A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the *Samiti* as associate members. Two women interested in social work and four persons belonging to the Scheduled Castes, if not elected otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block work as *ex-officio* members. The associate and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years. The Block Development and Panchayat officer is, however, the *ex-officio* Executive officer of the *Samiti.*

The *Panchayat Samiti* provides and makes arrangements for meeting the requirements of the area under its jurisdiction in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communications, social education, co-operation and other such miscellaneous duties as development of cottage and small scale industries, and other local development works . The *Samiti* is also the agent of the government for the formulation and execution of Community Development programmes.

The sources of income with the *Samiti* are the Local Rate, as charged by the *Zila Parishad,* the fees derived from public institutions like schools, fees from fairs and shows, rents and profits accruing from property vested in it and such moneys and grants as Government may place at its disposal from time to time. With the permission of the *Zila Parishad,* the *Samiti* can impose any tax which the State Legislature has powers to impose under the Constitution.

Zila Parishad—The *Zila Parishad* consists of the Chairman of every *Panchayat Samiti,* two members elected by each *Panchayat Samiti,* every M. P., M. L. A., M. L.C. representing the District or any part thereof and the Deputy Commissioner. Two women and five members belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The M.Ps., M.L.As., M. L. Cs. and the Deputy Commissioner do not have the right to vote. The *Parishad* has a Chairman and a Vice-Chairman elected for three years by the members.

The *Parishad* consolidates and co-ordinates the plans prepared by the *Panchayat Samitis,* examines and approves the budgets of the *Panchayat Samitis* and advises the Government concerning *Panchayats* and *Panchayat Samitis,* and keeps watch over agricultural and production programmes and construction works.

The income of the *Parishad* accrues from the Central or State Government funds allotted to it, grants from All-India bodies and institutions for the development of cottage, village and small scale industries, a share in the land cess, income from endowments and such contributions as the *Zila Parishad* may levy on the *Panchayat Samitis.* The *Zila Parishad* has already started functioning in the District replacing the District Board.

Local Bodies in Towns (Part II-Table 39)*.—As mentioned in Chapter I, there are Municipal Committees, functioning in all the fourteen towns in the District. Rewari, Farrukh Nagar, Ballabgarh, Palwal, Hodal and Ferozepur Jhirka Municipal Committees are of long standing, instituted earlier than the present century. Among the present Municipal Committees, seven belong to Class II and the remaining seven to Class III. As many as three Municipal Committees have less than one square mile area to administer. The Faridabad Township Committee serves the largest area which is 4.94 sq. miles. The number of members of the various Municipal Committees in the District varies between 8 to 12.

*Pages 82 & 83.

The combined revenue of the local duties and other sources of income of all the Municipal Committees in the District during the year 1960-61, amounted to Rs. 2,212,410. Rewari and Gurgaon have revenue of over 5 lakh and 4 lakh rupees, respectively. Palwal and Hodal make between 2 and 3 lakh rupees and Sohna, Faridabad Township, Faridabad and Ballabgarh make between 1 and 2 lakh rupees, while the income of other municipalities is less than one lakh rupees. The income *per capita* was the highest for Hodal (Rs. 28.03) and the lowest for Bawal (Rs. 2.97). Octroi is the major source of revenue of all the local bodies, contributing 60 per cent of the revenue. The combined expenditure of the fourteen local bodies during 1960-61 amounted to Rs. 2,297,119. The largest amount was spent on public health (24.1 per cent) followed by water-supply (20.9 per cent), municipal property (11.5 per cent) and public safety (4.8 per cent). The expenditure *per capita* was highest for Hodal (27.42) and the lowest for Bawal (Rs. 2.88).

Rural Electrification.—Electrification has changed the face of Gurgaon towns and villages. By 31st March, 1964, all the fourteen towns and 114 villages in the District had been electrified. The target, for the Third Five Year Plan, is to electrify 460 villages in the District. At present the supply is only hydro-electricity; but schemes are being formulated for the construction of a thermal power station at Faridabad in order to reduce to the minimum the loss in production from power breakdowns.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a footnote under each Table.

There are in all 53 Tables in this part grouped under the following heads :—

Rainfall	Table 1
Agriculture	Tables 2 to 10
Livestock and Implements	Tables 11 and 12
Industry	Tables 13 and 14
Co-operation	Tables 15 and 16
Education	Tables 17 to 19
Printing and Publishing	Tables 20 and 21
Entertainments	Tables 22 and 23
Medical and Health	Tables 24 to 30
Births and Deaths	Tables 31 and 32
Transport and Communications	Tables 33 to 37
Local Administration	Tables 38 to 40
Banks, Insurance and Savings	Tables 41 to 43
Justice and Administration	Tables 44 to 50
Miscellaneous	Tables 51 and 52
Fairs and Festivals	Table 53

RAINFALL AND TEMPRATURE

Table 1 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimeters. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 2 shows the utilisation of land in the District for the period 1901-1961. Information has been worked out for the quinquenniums centring around the Census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year, ending with the 30th June.

The classification of area has been made according to the following scheme:—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and village papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.,

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallow; (b) permanent pastures and other grazing lands; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises of land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types: First, lands which have remained out of cultivation for a period not less than one year but not more than four years, second, lands which are left fallow up to one year only (current fallows)

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volumes I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 3 shows assessment circle-wise classification of land in the District for 1960-61 : Total area according to village papers; area under forests; area not available for cultivation; area available for cultivation and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 4 presents net area irrigated from (1) government canals, (2) private canals, (3) tanks, (4) tube-wells, (5) other wells and (6) other sources. The information is presented for the same quinquenniums as selected for Table 2.

Table 5 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901-61.

Table 6 shows area under principal crops in the District for selected quinquenniums during 1901—61. The principal crops have been classified into three categories: (I) Basic food crops, (II) Other food crops and (III) Non-food crops.

Table 7 presents the average yield per acre of principal crops in the District : Rice, wheat, *jowar*, *bajra*, maize, barley, gram, potatoes, sugarcane, sesamum, rape mustard and cotton. Information is given for 11 years ending 1960-61, and the yield figures are in terms of lbs., per acre.

Table 8 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 9 presents wholesale prices of various agricultural products like the rice (unhusked), wheat, barley, *jowar*, *bajra*, maize, gram, rape-seed, til, gur, unginned cotton, etc., as obtaining in the market at Palwal. Prices are in terms of rupees and maunds, and are for each month, 1951 to 1960.

Table 10 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 11 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 12 provides information on agricultural implements and machinery for the District and each Tahsil for 1956 and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 13 relates to the working of registered factories during the years 1951, 1956 and 1960.

Table 14 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 15 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 16 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 17 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 18 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 19 gives the number of Arts and Science and Professional colleges in the District during the years 1951—60.

PUBLISHING

Table 20 relates to printing presses in the District working in 1960, the year of declaration, language in which the matter can be printed, the number of printing machines, and the power used.

Table 21 lists the newspapers, magazines and periodicals published in the District during 1961, the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 22 shows the number of Cinema Houses in the District during the years 1950-51 to 1960-61.

Table 23 shows the number of Broadcast Receiving Licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND HEALTH

Table 24 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 25 shows the number of hospitals and dispensaries providing Ayurvedic treatment in the District during the years 1950-51 to 1960-61 and the number of "Vaids" and "Hakims" working there.

Table 26 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 27 presents the work done and expenses incurred by the Malaria Control Unit from 1953 to 1961 in the District.

Table 28 informs about the number of persons sterilized and other steps undertaken by the Family Planning Centres in the District during 1960-61.

Table 29 shows the location of the Primary Health Units and Centres and Rural Health Centres as on 1st October, 1961.

Table 30 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 31 shows the number of births, deaths sexwise as recorded in the District during the years 1951 to 1960.

Table 32 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATION

Table 33 gives road mileage in the District as on 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committee ; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads ; and according to metalled and unmetalled roads.

Post Offices.—Table 34 gives a list of Post Offices in the District as on 31st March, 1961.

Railway Stations.—Table 35 is a list of railway stations located in the District.

Table 36 is a polymetrical Table showing distances as between different places in the District.

Bridges.—Table 37 gives information about major bridges in the District.

Panchayats.—Table 38 shows the working of *Panchayats* in the District during 1960-61, number of *Panchayats*, their members, beneficial and judicial activities, and income and expenditure.

Local Bodies.—Table 39 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, its class and area served, year in which constituted, population, the number of members, and income and expenditure during 1960-61.

Community Development.—Table 40 shows the community development activities in the District as on 31st March, 1961 : for each Block, its stage, area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 41 shows the various banks operating in different towns of the District as on 31st March, 1961.

Table 42 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 43 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 44 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 45 shows the sanctioned strength of Police and the number of Police Stations in the District as on 31st December, 1960.

Table 46 gives information about jails and their inmates classified according to the period of sentence in the District as on the 31st December, 1960.

Table 47 shows the receipts from State Excise Duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1960-61.

Table 48 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 49 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 50 presents the number of instruments registered and value of property transferred in the District annually from 1951 to 1960.

MISCELLANEOUS

Table 51 presents important events occurred in each Tahsil of the District during the period 1951—60.

Table 52 shows the monuments and better known places of worship or tourist interest in rural areas of the District, arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 53 relates to fairs and festivals. The material for this Table was collected from a number of agencies : Headmasters of schools, *Patwaris*, Police Stations, District Officers of Health, and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the Hadbast numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

Bhagwan Dass became his disciple. Meanwhile Bhagwan Dass's brother passed away, but when his sister-in-law broke the news to who put Bhagwan Dass in prison. The Nawab fell ill and dreamt that he could get well only if he released the Sadhu. The Nawab called brought fame to Bhagwan Das and he began to live in village Tekla. The fair is held in his memory.

demon Pralambasur where upon he founded Palwal town. The legend goes that nearabout 1857 Maharaja Bhartpur was bringing a to the chariot. The Maharaja then declared that if it be the will of the Lord that the statue should remain there, then let it be so and drove away the chariot. So a temple was erected at the place and the statue was installed therein.

of Shiva, the Vankhandeshwar, lord of jungles and seek his protection. Later the Muslims destroyed the statue and converted the a trader of this place got huge profits and constructed the temple and the tank.

Table E—III	Number of Factories and Workshops classified according to Industries	269
Table E—IV	Distribution of Sample Households living in Census Houses used Wholly or Partly as Dwelling by predominant Material of Wall and predominant Material of Roof (Based on 20 per cent Sample)	272
Table E—V	Sample Households classified by Number of Members and by Number of Rooms Occupied (Based on 20 per cent Sample)	274
Table SCT—I Part A	Industrial classification of persons at work and non-workers by sex for Scheduled Castes	276
Table SCT—II Part A	Age and Marital Status for Scheduled Castes	282
Table SCT—III Part A (i)	Education in *Urban areas only* for Scheduled Castes	288
Table SCT—III Part B (i)	Education in *Rural areas only* for Scheduled Castes	289
Table SCT—IV Part A	Religion for Scheduled Castes	290
Table SCT—V Part A	Sample Households engaged in cultivation classified by interest in land and size of land cultivated in *Rural areas only* for members of Scheduled Castes (Households of members of Scheduled Castes in a 20 per cent Sample of all Households)	291
Table SC—I	Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes of the District and for Rural areas of selected Tahsils	292

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information up to Tahsil and Town level, and have been prepared exclusively for this volume. Tables A—IV, B—III (Part A), B—VI, B—VIII (Part A), C—III (Part B), and SCT—III (Part A) give information only for urban areas : Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non-city urban areas of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres ; number of villages, inhabited and uninhabited; number of towns; number of occupied houses; and population for the District, each Tahsil and town, with sex break-up. The figures for towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called *tikkas* in Kangra District except in Kulu where the revenue estate is termed as *kothi* and the smaller unit is *phati.* In Lahaul and Spiti District the revenue estate is referred to as *kothi* and its components as *gaon.*

Appendix I shows the territorial changes which took place during the decade 1951—61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under columns 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses, from 1901 to 1961, and variations in population—in absolute figures and percentage—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

In **Table A-III** the villages have been graded according to the size of population as shown below, and for each group the number of villages and their population have been shown.

Villages with population—

(a) less than 200;

(b) 200 to 499;

(c) 500 to 999;

(d) 1,000 to 1,999;

(e) 2,000 to 4,999; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities: thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified (a) into nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" (Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961-census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories:—

(1) as cultivators;

(2) as agricultural labourers;

(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities;

(4) at household industry;

(5) in manufacturing other than household industry;

(6) in construction;

(7) in trade and commerce;

(8) in transport, storage and communications;
and

(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e. an owner-cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc.

The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level 'Technical Degree or Diploma equal to Degree or post-Graduate Degree' is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junoir Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An *employer* is a person who employs other persons in order to perform economic activity in which he is engaged.

An *employee* is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employers have also been taken as *employees.*

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of 'Indian Standard Industrial Classification' (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part -A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part -B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts: **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups: (i) seeking employment for the first time; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsilwise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups:—

(i) whole-time students doing no other work;

(ii) persons engaged in unpaid home duties;

(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work;

(v) beggars, vagrants or independent women without an indication of their source of income ;

(vi) convicts in jail or inmates of a penal, mental or charitable institutions;

(vii) Persons seeking employment for the first time; or

(viii) Persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household.

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories:

(i) engaged neither in cultivation nor in household industry ;

(ii) engaged in cultivation only :

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;

(ii) held from private persons or institutions for payment in money, kind or share ; and

(iii) partly owned or held from Government , and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross-tabulated by different sizes of land-holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification"(Annexure A).

Table-B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A** the households have been distributed by nature of household industry and number of persons engaged into the following five size-groups:—

(i) 1 person;
(ii) 2 persons;
(iii) 3 to 5 persons;
(iv) 6 to 10 persons ; and
(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given :—

(i) households engaged neither in cultivation nor in household industry;
(ii) those in household industry only ;
(iii) those engaged in cultivation ; and
(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in **Table B-XVII.**

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into (i) never married; (ii) married; (iii) widowed; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0—4 and 5—9 have been combined since all the persons up to the age of 9, have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forcasting the future births. In 1951-census, this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts ; **Part-A** for all areas; **Part-B** for urban areas; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this Volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others". Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affair Notification No. SRO/2477-A, dated the 29th October, 1956). These castes, in Punjab are :—

1. Throughout the State :—

   (1) Adharmi ; (2) Bangali ; (3) Barar, Burar or Berar ; (4) Batwal ; (5) Bauria or Bawaria ; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra ; (9) Chamar Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi ; (10) Chanal ; (11) Dagi ; (12) Dhanak ; (13) Dumna, Mahasha or Doom ; (14) Gagra ; (15) Gandhila or Gandhil Gondola ; (16) Kabirpanthi or Julaha ; (17) Khatik ; (18) Kori or Koli ; (19) Marija or Marecha ; (20) Mazhabi ; (21) Megh ; (22) Nat ; (23) Od ; (24) Pasi ; (25) Perna ; (26) Pherera ; (27) Sanhai ; (28) Sanhal ; (29) Sansi, Bhedkut or Manesh ; (30) Sapela ; (31) Sarera ; (32) Sikligar ; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur :—

   (1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kaupurthala and Sangrur :—

   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa*.

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, ne uniform pattern for houselist has been adopted. In the houselist data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data re ating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent samples out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dwelling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented".

Table E-IV has been prepared from a 20 per cent sample and distributs the houses according to the predominant material going into the construction of walls and the roof.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multistoreyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential order referred to above the Scheduled Tribes are found in this State only in Lahaul and Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul and Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and curing of hides and skins" and "scavanging", number of persons following these occupations have also been given under cols. 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44 and 45 and above.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of actitviy according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in cols. 11 and 12.

ANNEXURE 'A'

Indian Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
Division 0	**—Agriculture, livestock, forestry, fishing and hunting.—**	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize ..	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops ..	002
	Production of raw cotton and kindred fibre crops ..	003
	Production of oilseeds, sugarcane and other cash crops ..	004
	Production of other crops (including vegetables) not covered above ..	005
	Production of fruits and nuts in plantation, vines and orchards ..	006
	Production of wood, bamboo, cane reeds, thatching grass, etc. ..	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above ..	009
01	*Plantation Crops—*	
	Production of tea in plantation ..	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above ..	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests ..	020
	Felling and cutting of trees and transportation of logs ..	021
	Preparation of timber ..	022
	Production of fuel including charcoal by exploitation of forest ..	023
	Production of fodder by exploitation of forests ..	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests ..	025
	Production and gathering of other forest products not covered above ..	026
03	*Fishing—*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries ..	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
	Rearing of silk worms and production of cocoons and raw silk ..	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 1—Mining and Quarrying—		
10	*Mining and Quarrying—*	
	Mining of coal ..	100
	Mining of iron ores ..	101
	Mining of gold and silver ores ..	102
	Mining of manganese ..	103
	Mining of mica ..	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone ..	107
	Mining of chemical earth such as soda ash ..	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt ..	109
Divisions 2 & 3—Manufacturing—		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains ..	200
	Production of sugar and syrup from sugarcane in mills ..	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits ..	203
	Slaughtering, preservation of meat and fish and canning of fish ..	204
	Production of bread, biscuits, cake and other bakery products ..	205
	Production of butter, ghee, cheese and other dairy products ..	206
	Production of edible fats and oils (other than hydrogenated oil) ..	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge ..	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery ..	210
	Production of country liquor ..	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not covered above ..	213
	Production of aerated and mineral water ..	214
	Production of ice ..	215
	Production of ice cream ..	216
	Processing of tea in factories ..	217
	Processing of coffee in curing works ..	218
	Production of other beverages ..	219
22	*Tobacco Products—*	
	Manufacture of bidi ..	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco ..	222
	Manufacture of hookah tobacco ..	223
	Manufacture of snuff ..	224
	Manufacture of jerda and other chewing tobacco ..	225
	Manufacture of other tabacco products ..	226

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
23	*Textile-Cotton*—	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching ..	233
	Cotton weaving in power looms ..	234
	Cotton weaving in handlooms ..	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile ..	237
	Manufacturing of cotton nets ..	238
	Manufacturing of cotton, cordage, rope and twine ..	239
24	*Textile-Jute*—	
	Jute pressing and baling ..	240
	Jute spinning and weaving ..	241
	Dyeing and bleaching of jute ..	242
	Printing of jute textile ..	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta ..	244
25	*Textile-Wool*—	
	Wool baling and pressing ..	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill ..	252
	Wool spinning other than in mills ..	253
	Wool weaving in power loom ..	254
	Wool weaving in handloom ..	255
	Embroidery and art work in woollen textile ..	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk ..	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by power loom ..	263
	Weaving of silk textile by handloom ..	264
	Printing of silk textile ..	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products ..	270
	Manufacture of hosiery and other knitted fabrics and garments ..	271
	Embroidery and making of crepe lace and fringes ..	272
	Making of textile garments including raincoats and headgear ..	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow-cases, bedding materials, mattress, textile bags ..	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin ..	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling ..	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas ..	278
	Processing and manufacture of textile products not covered above ..	279

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Divisions 2 & 3—Manufacturing—contd.		
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography engraving, etching, block-making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Divisions 2 & 3—Manufacturing *contd.*		
33	*Chemicals and Chemical Products*—contd.	
	Manufacture of dyes, paints, colours and varnishes ..	331
	Manufacture of fertilizers ..	332
	Manufacture of ammunition, explosives and fire works ..	333
	Manufacture of matches ..	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap ..	335
	Manufacture of soap and other washing and cleaning compounds ..	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber) ..	337
	Manufacture of common salt ..	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ..	339
34-35	*Non-metallic Mineral Products othe than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles ..	340
	Manufacture of cement and cement products ..	341
	Manufacture of lime ..	342
	Manufacture of structural stone goods, stone dressing and stone crushing ..	343
	Manufacture of stoneware, other than images ..	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products ..	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products ..	348
	Manufacture of earthenware and earthen pottery ..	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus ..	354
	Manufacture of earthen image, busts and statues ..	355
	Manufacture of earthen toys and artwares except those covered by code No. 355 ..	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above ..	357
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods ..	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ..	361
	Manufacture of armaments ..	362
	Manufacture of structural steel products such as joist, rail, sheet, plate ..	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell metal products ..	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can ..	367
	Enamelling, galvanising, plating (including electroplating). polishing and welding of metal products ..	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery (his will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39) ..	369
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery ..	370

Indian Standard Industrial Classification—contd.

Major Group-(Code)	Description	Minor Group (Code)
Divisions 2 & 3—Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical Equipment—concld*	
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors ..	371
	Manufacture of machine tools ..	372
	Manufacture of textile machinery and accessories ..	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers ..	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment such as radio, microphone ..	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives ..	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363 ..	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories ..	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and reparing of water transport equipment such as ships, boats and manufacture of marine engines ..	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles ..	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles ..	389
39	*Miscellaneous Manufacturing Industries—*	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies ..	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies ..	391
	Assembling and repairing of watches and clocks ..	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments ..	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen ..	395
	Manufacture of sports goods ..	396
	Manufacture and repair work of goods not assignable to any other group ..	399
Division 4—Construction		
40	*Construction—*	
	Construction and maintenance of buildings including erection, flooring, decorative, constructions, electrical and sanitary installations ..	400
	Construction and maintenance of roads, railways, bridges, tunnels ..	401
	Construction and maintenance of telegraph and telephone lines ..	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells ..	403
Division 5—Electricity, Gas, Water and Sanitary Services—		
50	*Electricity and Gas—*	
	Generation and transmission of electric energy ..	500
	Distribution of electric energy ..	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers ..	502

Indian Standard Industrial Classification—contd

Major Group (Code)	Description	Minor Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services—concld.		
51	*Water Supply and Sanitary Services*—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6—Trade and Commerce		
60—63	*Wholesale Trade*—	
	Wholesale trading in cereals and pulses	600
	Whol sale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade*—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (Seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce—concld.		
64-68	*Retail Trade—concld.*	
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece-goods of cotton wool, silk and other textiles) ..	650
	Retail trading in toilet goods, perfumes and cosmetics ..	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals ..	653
	Retail trading in tyres, tubes and allied rubber products ..	654
	Retail trading in petrol, mobil oil and allied prod .cts ..	655
	Retail trading in wooden, steel and other metallic furniture and fittings ..	660
	Retail trading in stationery goods and paper ..	661
	Retail trading in metal, porcelain and glass utensils ..	662
	Retail trading in earthenware and earthen toys ..	663
	Retail trading in other household equipment not covered above ..	664
	Retail trading in bricks, tiles and other building materials ..	670
	Retail trading in hardware and sanitary equipment ..	671
	Retail trading in wood, bamboo cane, bark and thatches ..	672
	Retail trading in other building materials ..	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments ..	681
	Retail trading in electrical goods like electric fan, bulb, etc. ..	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear ..	683
	Retail trading in clock and watch, eye glass, frame ..	684
	Retail trading in scientific, medical and surgical instruments ..	685
	Retail trading in precious stones and jewellery ..	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing ..	687
	Book-selling ..	688
	Retail trading in goods unspecified ..	689
69	*Trade and Commerce Miscellaneous—*	
	Importing and exporting of goods and commodities ..	690
	Real estate and properties ..	691
	Stocks, shares and futures ..	692
	Providents and insurances ..	693
	Money lending (indigenous) ..	694
	Banking and similar type of financial operation ..	695
	Auctioneering ..	696
	Distribution of motion pictures ..	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaw, etc. ..	699
Division 7—Transport, Storage and Communication		
70	*Transport—*	
	Transporting by railways ..	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus) ..	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka ..	703
	Animal transporting by animals such as horses, elephant, mule, camel ..	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving ..	705
	Transporting by boat, steamer, ferry, etc. by river, canal ..	706
	Transporting by boat, steamer ship, cargo boat by sea or ocean ..	707
	Transporting by air ..	708
	Transporting by other means not covered above ..	709

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communication—concld		
71	Services incidental to transport such as packing, carting, travel agency ..	710
72	*Storage and Ware-housing*—	
	Operation of storage such as ware-houses ..	720
	Operation of storage such as cold storage ..	721
	Operation of storage of other type ..	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications ..	730
	Telephone communication ..	731
	Information and broadcasting ..	732
Division 8—Services—		
80	*Public Services* (this does not include Government Quasi-Government or local body activities, other than Administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)—	
	Public Services in Union and State army including territorial corps and volunteer corps ..	800
	Public service in Navy ..	801
	Public service in Air Force ..	802
	Public service in Police ..	803
	Public service in administrative departments and offices of Central Government ..	804
	Public service in administrative departments and offices of Quasi-Government organisation, municipalities, local boards, etc. ..	805
	Public services in administrative departments and offices of State Government ..	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions ..	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type ..	811
	Scientific services and research institution not capable of classification under any individual group ..	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners ..	820
	Veterinary services rendered by organisations and individuals ..	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations ..	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk ..	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity ..	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi ..	840
	Matrimonial services rendered by organisations and individuals ..	841

Indian Standard Industrial Classification—concld

Major Group (Code)	Description	Minor Group (Code)
Division 8—**Services**—concld		
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals ..	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals ..	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies ..	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors ..	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations ..	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library ..	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc. ..	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc. ..	870
	Recreation services rendered by cinema houses by exhibition of motion pictures ..	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals ..	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc. racing ..	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks ..	880
	Services rendered to households such as those by governess, tutor, private secretary ..	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities ..	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services ..	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops ..	884
	Services rendered by portrait and commercial photographic studios ..	885
89	*Services (not eleswhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified ..	890
Division 9—**Activities not adequately described**—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified ..	900

National Classification of Occupations

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—		
00	*Architects, Engineers and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurigical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers and Surveyors, n.e.c.	009
01	*Chemists, Physicits, Geologists and other Physical Scientists—*	
	Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and related Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homeopathic	032
	Physicians, Others	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and RelatedWorkers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059
06	*Jurists—*	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069

National Classification of Occupantions– contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—concld.		
07	*Social Scientists and Related Workers*—	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Phychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Worters, n.e.c.	079
08	*Artists, Writers and related Workers*—	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Printers, Decorators and Commercial Artists	083

	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n.e.c.	099
0X	*Other Professional, Technical and Related Workers*—	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials. Government*—	
	Administrative and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111
12	*Directors. Managers and Working Proprietors, Financial Institutions*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, others*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors Transport and Communication	134

National Classification of Occupations—concld.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—concld.		
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services ..	135
	Directors, Managers and Working Proprietors, other Services ..	136
	Directors, Managers and Working Proprietors, n.e.c. ..	139
Division 2 – Clerical and Related Workers—		
20	*Book-keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks ..	200
	Cashiers ..	201
	Ticket Sellers Ticket Inspectors including Ushers and Ticket Collectors, (excluding those on moving transport) ..	202
21	*Stenographers and Typists*—	
	Stenographers ..	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators ..	220
	Punch Card Machine Operators ..	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers—Miscellaneous*—	
	General and other Ministerial Assistants and Clerks ..	280
	Miscellaneous Office Workers including Record keepers, Muharrers, Despatchers, Packers and Binders of office papers ..	289
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc, n.e.c. ..	290
Division 3—Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade ..	300
	Working Proprietors, Retail Trade ..	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and services, and Auctioneers*—	
	Agents and Salesmen, Insurance ..	310
	Agents, Brokers and Salesmen, Real Estate ..	311
	Brokers and Agents, Securities and Shares ..	312
	Auctioneers ..	313
	Valuers and Appraisers ..	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c. ..	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers ..	320
	Manufacturers' Agents ..	321
	Commercial Travellers and Manufacturers' Agents, n.e.c. ..	329
33	*Salesmen, Shop Assistants and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade ..	330
	Hawkers, Pedlars and Street Vendors ..	331
	Salesmen, Shop Assistants and Related Workers, n.e.c. ..	339

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3—Sales Workers—concld.		
34	*Money-Lenders and Pawn-Brokers*—	
	Money-Lenders (including Indigenous Bankers)	340
	Pawn-Brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural labourers	414
	Plantation labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters add Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers, n.e.c.	439
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers—		
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Wokrers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 5—Miners, Quarrymen and Related Workers—concld.		
52	*Mineral Treaters—*	
	Mineral Treaters ..	520
59	*Miners, Quarrymen and Related Workers, n.e.c.—*	
	Miners, Quarrymen and Related Workers, n.e.c. ..	590
Division 6—Workers in Transport and Communication Occupations—		
60	*Deck Officers, Engineer Officers and Pilots, Ship—*	
	Deck Officers and Pilots, Ship ..	600
	Ship Engineers ..	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen—*	
	Deck Ratings (Ship), Barge Crews and Boatmen ..	610
	Engine-Room Ratings, Firemen and Oilers, Ship ..	611
62	*Aircraft Pilots, Navigators and Flight Engineers—*	
	Aircraft Pilots ..	620
	Flight Engineers ..	621
	Flight Navigators ..	622
63	*Drivers and Firemen, Railway Engine—*	
	Drivers ..	630
	Firemen ..	631
64	*Drivers, Road Transport—*	
	Tramcar Drivers ..	640
	Motor Vehicle and Motor Cycle Drivers ..	641
	Cycle Rickshaw Drivers and Rickshaw Pullers ..	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers) ..	649
65	*Conductors, Guards and Brakesmen (Railways)—*	
	Conductors ..	650
	Guards ..	651
	Brakesmen ..	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport—*	
	Inspectors, Supervisors and Station Masters ..	660
	Traffic Controllers ..	661
	Signalmen and Pointsmen ..	662
67	*Telephone, Telegraph and Related Tele-communication Operators—*	
	Telephone Operators ..	670
	Telegraphists and Signallers ..	671
	Radio Communication and Wireless Operators ..	672
	Tele-printers Operators	673
	Telephone, Telegraph and Related Tele-Communication operators, n.e.c. ..	679
68	*Postmen and Messengers—*	
	Postmen ..	680
	Messengers (including Dak Peons) ..	681

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 6—Workers in Transport and Communication Occupations—concld.		
69	*Workers in Transport and Communication Occupations, n.e.c.*—	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communication	693
	Workers in Communication Occupations, n.e.c.	694
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—		
70	*Spinners, Weavers, Knitters, Dyers, and Related Workers*—	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers*—	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head-gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719
72	*Leather, Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers*—	
	Shoe makers and Shoe repairers	720
	Cutters, Lasters, Sewers, Footwear and Related workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related workers, n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers*	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal-	732
	Blacksmiths, Hammersmiths and Forgeman	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.	739
74	*Precision Insrtument Makers, Watch Makers, Jewellers and Related Workers*—	
	Precision instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
75	*Tool-Makers, Machinists, Plumbers, Welders, Platers and related Workers—*	
	Fitter-Machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-Assemblers and Machine Erectors (except Electrical and Precision Instrument Fitter-Assemblers)	752
	Mechanics-Repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and structural Metal Workers	757
	Electro-Platers, Dip Platers and Related Workers	758
	Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than Printing)	759
76	*Electricians and Related Electrical and Electronics Workers—*	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-Repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics Workers, n.e.c.	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers—*	
	Carpenters, Joiners and Pattern Makers (Wood)	770
	Shipwrights and Body Builders (Wood)	771
	Sawyers and Wood Working Machinists	772
	Coach and Body Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet Makers	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c.	779
78	*Painters and Paper Hangers—*	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.—*	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers, Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-Binders and Related Workers—*	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-Readers and Copy Holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-Litho Operators, Photo-Lithographers	805
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-Binders	808
	Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.	809

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.		
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers*—	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulvérisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers*—	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-Farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers*—	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes—	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tobacco Preparers and Products Makers*—	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Product Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.*—	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastics Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen and Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers*—	
	Checkers, Testers, Sorters, Weighers and Counters	860
	Packers, Labellers and Related Workers	861
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers*—	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Riggers and Cable Splicers	873
	Operators of Earth-moving and Other Construction Machinery, n.e.c.	874
	Materials handling Equipment Operators	875
	Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment	876
	Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.	879

Notes:—1. †The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Towns treated as such for the first time in 1951—census which continue as Towns in 1961—census are shown with asterisk (*) on their left.

3. The following abbreviations have been used for the status of a Town:-
M.C.=Municipal Committee.
N.A.C.=Notified Area Committee.

APPENDIX TO TABLE B-V

Families having less than 1% of workers of the respective Division (less than 0.5% in case of Families of Division 7-8) have been shown in this Appendix. The following abbreviations have been used :—

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

M=Males

F=Females

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of the Repsective Division have been shown in this Appendix. The following abbreviations have been used :—

IN ADDITION TO CULTIVATION		WITHOUT CULTIVATION	
A	means 1—3 Months	E	means 1—3 Months
B	means 4—6 Months	F	means 4—6 Months
C	means 7—9 Months	G	means 7—9 Months
D	means 10 Months to 1 Year	H	means 10 Months to 1 Year
X	means Months not stated	Y	means Months not stated

Gurgaon District

00 Total (H-1), Rural (H-1) ; **21** Total (G-1), Urban (G-1) ; **23** Total (A-6, B-7, D-12, X-4, E-17, F-52, G-22, H-188, Y-20), Rural (A-6, B-7, D-12 X-4, E-17, F-44, G-16, H-129, Y-14), Urban (F-8, G-6, H-59, Y-6); **24** Total (B-1, C-1, G-1, H-1). 	: Towns	xc

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified by sex and main industrial categories. The term *village,* in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an *estate.* This definition of village is identical with that of *mauza* under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as *mauza,* but the smaller units are called *tikkas* in Kangra District, except in Kulu where the revenue estate is termed as *kothi* and the smaller unit as *phati.* In Lahaul and Spiti District, the revenue estate is referred to as *kothi* and its smaller component as *gaon.*

2. Villages having no population have been shown as *Uninhabited.* They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsilwise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961 Census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **Column 2.** The Tahsil map shows the location of each village identified by its Hadbast number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having:

(a) a population of over 5,000; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on *amenities* based on the *Village Notes* prepared by the Patwaris at the time of the 1961 Census. These *Village Notes* contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* relate to education, medical facilities, Post and Telegraph, safe water-supply and electrification, and are indicated by the following abbreviations:—

P—Primary School.

M—Middle School.

H—High School.

C—College, including higher institutions.

T—Technical Institution.

D—Dispensary.

Rhc—Rural Health Centre.

Hos—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post Office.

P&T—Post and Telegraph Office.

S—Safe or protected supply of drinking water.

E(A)—Electricity for agricultural use.

E(D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self-Government.

7. **Column 5** relates to *occupied houses,* i.e., houses used as dwellings, or conjointly as dwellings and for some other purpose, e.g., shop-cum-dwellings. **Column 6** shows the number of *households.* A *household* means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956 and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A *literate* person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as *educated.*

10. **Columns 16 to 37** present figures for *Workers* and *Non-workers.* For the definition of the term *Workers* and a *Non-worker* and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by Roman numerals:

I—Working as cultivator (owner cultivator or tenant).

II—Working as agricultural labourer.

III—Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

IV—Working on household industry.

V—Working in manufacturing other than household industry.

VI—Working in construction.

VII—Working in trade and commerce.

VIII—Working in transport, storage and communications.

IX—Working in other services.
