AMRAVATHI STUPA

The motif presented on the cover page represents a model of the world famous Buddhist Stupa at Amravathi, 35 Kms. away from Guntur Town.

In the hoary past, next to the vedic religion, Buddhism commanded a large following. In Buddhist pilgrim centres the trisarana mantra viz. "Budham saranam gachchami, Dharmam saranam gachchami, Sangham saranam gachchami" will resound everywhere.

A Stupa is a tomb erected by Buddhists over the relics of Buddha or Buddhist sages. After the Niryana (death) of Lord Budha, his remains were buried in eight places of which Amravathi is supposed to be one. History says that, this was the act of Emperor Ashoka who wanted to have Stupas throughout the length and breadth of India and abroad. Thus the original Stupa of Amravathi can be dated to the 3rd century B.C. Important stupas in Andhra are on the banks of great rivers and of them Amravathi leads as it claims the addition of a University in those days with international fame, where students from China, Japan, Tibet, Siam (Thailand) and Ceylone (Sri Lanka) were given education for social and spiritual enligtenment.

The original stupa no longer exists. Only its relics can be seen behind the archaeological museum in Amravathi .A model of the stupa, however, has been reconstructed and this gives us a clear idea of what the original must have been like. There were simhadwaras on all four sides of the stupa, each with a sculpture of a sitting lion on the entrance pillars of the doorway. The outer railings had urdhvapatas (vertical pillars) and suchis (horizontal bars), a copy of the wooden railings which must have existed in India prior to marble structures.

Around the dome, there was a stone-paved pradakshina patha (processional path). Just before the dome were five ayaka pillars which rerpesented the five important episodes in Buddha's life-his birth, renunciation and enlightenment, his first sermon at Sarnath and finally his mahaparinivana. Tall slabs measuring about 2-3 metres and carved with triratna and poornakumbhas covered the lower part of the dome. The dome was also covered with exquisitely carved sculptures, most of which are now in the museums of London. Madras and Calcutta and the on-site museum in Amravathi. The upper portion, too, was carved though not so elaborately. At the top of the dome was a square, box like structure called harmika, which was covered by chatras (Umbrellas).

According to the recent study, the base of the stupa was in circular shape with 35 metres in diameter. Above the circular base was built the dome which rose to a height of six meters with a diameter of 27 metres.

The Amravathi Buddhist sculptures are both secular and religious. There are Voluptuous male and female figures showing different head-dresses and hair-styles, while the religious figures depict the Jataka tales, the adoration of the Buddha in symbolic form and show the life of Buddha.

The original unembellished stupa existed in the time of Ashoka (there is a fragment of a pillar rock edict at Amravathi and the Andhras are mentioned in the 13th rock edict of Ashoka), the rich sculptures and additions in the inner railing can be attributed to the 2nd century B.C. Satavahana dynasty who made Amravathi their capital.

At the closing of 17th century, Sri Raja Vasireddy Venkatadri Naidu who ruled a part of Andhra, shifted his capital from Chintapalle to Amravathi to avoid the annoyance of the presence of the East India Company's regiment. It was Naidu who in search for building materials to his newly formed capital, first laid open the famous Buddist carvings at Amravathi. But it was colonel Mackenzie who saw the sculpture on stones and slabs in 1797, recognised the value of the art and brought it to the notice of the cultured world through articles in periodicals.

Thus the stupa at Amravathi reflects the glory of the Buddhism and its concept of kindness, humanity and equality. "Nations are to be judged by the dreams in their hearts. India is true to her soul because she still dreams of the message of the Buddha, of Co-existence, of peace on earth and good-will among men. During the ages, every prayer of ours has always ended with the benediction (serve Janaha Sukhino Bhavanthu) may all the people be happy. This, in brief, is also the message of Buddhism."

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to district administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating of the provision of goods and services as well so as to minimising the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns bas been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Section I & II of the volume contains village and town directory and Section-III, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto taluk/town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the state under the direction of Shri S. S. Jaya Rao, I. A. S. Director of Census Operations, Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
the 26th April, 1982,

P. PADMANABHA
Registrar General, India

PREFACE

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on **History of District Census Handbook** details its history and growth right from the inception of Census in 1872, while the foreword of the Registrar General and Census Commissioner, India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981, in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers, etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and landuse pattern to meet the needs of micro-level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs programme, by adding statements on civic and other amenities in slums in Class I and Class II towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels, etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind Co-operation. The District Census Handbook comprises two parts-Part A-detailed analytical note supported by a number of inset tables based on Census and non-Census data in relation to infrastructure and Part B - Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In the joint venture of the State and Central Governments, while the collection, processing including compilation, tabulation and finalisation of the write up have been done by the Directorate of Census Operations, Andhra Pradesh under the Ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri S. R. Rama Murthy, I. A. S. (Retd.), former Chief Secretary of the Government of Andhra Pradesh and Sri M. Appa Rao, Joint Secretary (Retd.), General Administration (Elections) Department for the kind Co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I. A. S., the present Chief Secretary, Sri B. N. Jaya Simha, I. A. S., Special Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P. V. Gopala Rao, I. A. S., Deputy Secretary, General Administration Department, for extending their kind Co-operation. The Director of Printing and Stationery has been helpful in selecting good private printing presses for printing the Handbooks.

My grateful thanks are due to Sri S. S. Jaya Rao, I. A. S., Director of Census Operations, Andhra Pradesh, under whose direction the entire Census Operations Programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I. A. S. former Registrar General and Census Commissioner of India. whose constant guidance and advice were a source of strength and to Dr. N. G. Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr B. K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M. M. Dua, senior Researeh Officer (now Deputy Director), who has scrutinised the data presented here with very minute care. I feel it

a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V. S. Verma, I. A. S., Registrar General and Census Commissioner, India and to Sri V. P. Pandey, Joint Registrar General, India for their constant guidance and advice in both administrative and technical matters.

In the finalisation of the write up, compilation and processing of data for volume, I have been ably assisted by Sri B. Satyanarayana, as Deputy Director and as Assistant Director of Census Operations, with the assistance of an efficient team led by Smt. P. Lalitha, Investigator who has gained rich experience and specialised this subject. Sri A. C. Reddy, Assistant Director of Census Operations has also involved himself in the processing of this publication. Sri Shyam Deo, Research officer, ably guided the map Section in the preparation of various maps included in this publication. I am thankful to all those officials who have contributed in bringing out this voluminous publication.

The following officials who have worked on the present volume of Guntur District Census Handbook deserve my thanks for their contribution.

PART-A

ANALYTICAL NOTE

HISTORY

Guntur district in its present form was constituted only in 1904 out of the areas to the south of Krishna river of Krishna district and Ongole taluk of Nellore district. Prior to 1859 there was 'Guntur district' with head-quarters at Guntur but with a different jurisdiction. In 1859 this district was abolished and was divided up between Masulipatam and Rajahmundry districts which were renamed as Krishna and Godavari. In 1904 Krishna district was bifurcated and Guntur district including the areas (part of Bapatla and entire Ongole taluk) transferred to Prakasam (Ongole) district was constituted into a separate independent district. The early history of the district is briefly given below.

Political History : The earliest known rulers of the district were the Ikshvakus and Satavahanas of the Andhras. They adopted Buddhism and built the stupa at Amaravathi and whose curious old leaden coins are still occasionally found. The Buddhist remains at Amaravathi on the right bank of the Krishna, nearly 70 miles (110 kms.) from its mouth, bear inscriptions in the Gupta character which refer to the second century after Christ and may possibly be older than that. "The tradition that Asoka built 84,000 stupas all over his empire suggests that the stupa at Amaravathi was also one of the stupas originally set up by him. This world-famous Buddhist stupa depicts scenes from the life of .Buddha and contains various Buddhist emblems and symbols." The Buddhist stupa, discovered on the north bank of the river near Jaggayyapet, is said to be of date as remote as B. C. 200, or only half a century later than the Asoka edicts. It may therefore be inferred that for some time before and after the Christian Era, Buddhism was firmly established on the banks of the Krishna.

Buddhism seems to have given way to Jainism which was mainly formed by a sect of Buddhist dissenters and Brahmins. The Brahmans are said to be invited by the King of Dharanikota, Mukkanti Pallava, in the third century A. D. or by a King named Sudakshana about the same date to srikakulam (in Krishna district), a shrine lower down the Krishna river. Both legends are current, but the history of this period is very obscure. As evidenced by two copper plates, the Pallava line of kings seem to have reigned in the fourth century A. D. over "Vengidesa" but this Kingdom is not mentioned by Ptolemy or in the Periplus of the Red Sea.

In 640 A.D. there is an account written by the Chinese pilgrim, Hiuen Tsang, who travelled through India to see the Buddhist monasteries. He speaks of the Kingdom of Anta-lo (Andhra) with its capital ping-kilo (Vengi) and in Dhanakacheka, (Dhanyakataka or Dharani Kota) describes two very extensive Buddhist monasteries, the eastern and the western. The Chinese traveller describes the monasteries as surrounded by trees and gushing fountains, which may indicate a great clearance of forest and lessening of rainfall in the last twelve centuries. He mourns over the decay of Buddhism, decay caused perhaps as much by the opposition of the Jains as by the advent of the Brahmans, for the Jains did not disappear from the Krishna district until six centuries after Hiuen Tsang's visit.

By A.D. 640 the Pallava dynasty of Vengi had been conquered by the Chalukya Kings of Kalyanpur. Some would place this conquest as far back as the time of Vishnuvardhana, great grand father of Satyasraya Vallabhendra in the fourth century, but at all events, the territory was divided about A D. 605 and Vengi was given to Kubja Vishnuvardhana, the younger brother of Satyasraya Vallabhendra, King of Kalyanpur. Kubja Vishnuvardhana founded a dynasty, known as the Eastern Chalukya Kings, who reigned for four centuries, and who excavated the cave temple at Undavalli and other rock cut shrines. About A. D. 999 they in their turn were supplanted by the Cholas. The latter after some two centuries gave place to Kakatiya Ganapathi Deva of Warangal. Ganapathi Deva, who reigned at Warangal (A. D. 1190-1258), and built around Warangal the single stone wall, which is given the name of Ekasilanagaram, or, in its Tamil form, 'Orukkal', whence Warangal, was an active persecutor of the Jains and throughout his wide dominions which included the seacoast from Divi to Nellore, erected Brahmanical temples. Possibly he might have married his only

daughter to the Jain king of Dharanikota for political reasons, to absorb in this Kingdom the territory of this petty ruler, and Pratap Rudra, the son born of this mixed marriage, would naturally follow his mother's faith.

After the death of Ganapathi Deva, the grandfather of Pratapa Rudra,in A. D. 1258, the Government was assumed by his daughter, Rudramma, one of the most illustrious and famous women in Indian history who left behind a reputation as the most skilful ruler. It was during the regency of this queen that the Venetian traveller, Marco Polo, visited this country, about the year A. D. 1290. He seems to have landed at Motupalle, now an obscure fishing village near Chirala (now in Prakasam district).

This queen Rudrama Devi transferred the royal authority to her daughter's son, Pratapa Rudra, in the year A. D. 1295. There are numerous grants of Pratapa Rudra in Krishna district and in the Palnad taluk. In A. D. 1323 he was taken captive by the Muslims and carried away to Delhi and this was an irretrievable disaster, for although his son Virabhadra asserted his independence in A.D. 1344, he failed to regain the lost dominions of his father and the Muslim kingdom of Gulbarga steadily advanced until A.D. 1425, when Warangal was included within its limits.

After the captivity of Pratapa Rudra in A. D. 1323 his kingdom was left without a ruler. This district then came under a dual sway, the king of Orissa ruling the northern part while the south fell into the hands of a line of cultivators who rose to considerable power and are known as the Reddi Kings of Kondaveedu as given below :

The founder of the family of Reddi Kings of Kondaveedu was Donti Aliya Reddi, a cultivator of Hanumakonda, who amassed enormous wealth, tradition says by discovering the alchemists' secret of the process of transmuting metals into gold, and migrated to Kondaveedu. On the downfall of Pratapa Rudra, the eldest son, Pulayya Vema Reddi declared himself as an independent ruler of the hill fort of Kondaveedu. He also possessed himself of the fortresses of Bellam konda, Vinukonda and Nagarjunakonda in Palnad taluk. His brother Anavema Reddi extended his dominions as far as Rajahmundry in the north, Kanchi in the south and Srisailam in the west. Kondapalle hill fort is said to have been built in his reign. An inscription at Amaresvaram dated A. D. 1361 states that Anavema Reddi was in possession of Kondaveedu, Addanki and Raichur, that he repaired the temple at Amaravati and the causeway at Srisailam and that he defeated various Rajas including the kings of Warangal. This last boast probably relates to the unsuccessful efforts of Virabhadraya in A. D. 1344 and later to regain his father's territories from the Muslims on the one hand and the Orissa Rajas and Kondaveedu Reddis on the other. Anavema Reddi was succeeded by his brother, Aliya Vema Reddi who was succeeded by the fourth brother, Komaragiri Reddi, a ruler of bad reputation, who was followed by his sons Komati Venka Reddi and Racha Vema Reddi, the last of the line, who after an evil reign of four years was assassinated by a person named Choudari Yellappa in A. D. 1428. The dates of these six Reddi kings are as follows:

Pulayya Vema Reddi	..	A.D. 1328
Anavema Reddi	...	A.D. 1340
Aliya Vema Reddi	...	A.D. 1370
Komaragiri Reddi	...	A.D. 1382
Komati Venka Reddi	...	A.D. 1396
Racha Vema Reddi	...	A.D. 1424

These Kondaveedu Reddis were great patrons of Telugu literature. The poet Srinadha with his brother-in-law, Bammera Pothana flourished at their court and sang their praise. The ruins of their fortresses at Kondaveedu, Bellamkonda and Kondapalle are still to be seen.

On the extinction of the Reddy dynasty, the Gajapathi King of Orissa extended his power. In A. D. 1515, Krishna Deva Raya of Vijayanagar conquered the whole of the country and left many inscriptions to perpetuate the memory of his victories. He restored Kondapalle to the Orissa Raja but retained Kondaveedu. On the fall of Vijayanagar Empire in A. D. 1565 this region was conquered by the Muslims and the Hindu rule came to an end in

A.D. 1579 in this district. On the fall of the Vijayanagar Empire in A.D. 1565 it passed on to the Kutub Shahi line of Golkonda, and was eventually absorbed (on the destruction of that dynasty in 1687) in the empire of Emperor Aurangazeb.

In A.D. 1611, the English founded their second settlement in India at Masulipatam, which continued to be their headquarters until it was finally moved to Madras in A. D. 1641. Three years after the founding of the English settlement came the Dutch and in A.D. 1669 the French followed. It was not, however, till the year A. D. 1750 that any of the European powers exerted any political influence in this district. Two years after that date, the Subedar of the Deccan granted the whole of the Northern Circars to the French, and it was from them that this tract finally passed to the English. On the outbreak of hostillities in A.D. 1758 Colonel Forde, who was sent by Clive from Bengal to attack the French in the Northern Circars, defeated them at Condore in Godavari District, and following them to Masulipatam beseiged them there. Faced by a strong garrison in front and hemmed in behind by the Subedar of the Deccan, the ally of the French, his ranks rapidly thinned with disease. Forde, as a counsel of despair, at length made an almost desperate night attack upon the Masulipatnam fort and captured it. As a consequence of this victory, first the divisions of Masulipatnam, Nizampatam and part of Kondaveedu, and later the whole of the Circars, passed by a grant from the Subedar of the Deccan (conformed by the emperor Shah Alam in 1765), to the Company. With the cession of Palnad in 1801 by the Nawab of Arcot, the entire district finally became a British territory. At first it was administered by a Chief and Council at Masulipatam, but in A.D. 1794 Collectors directly responsible to the Board of Revenue were appointed at Guntur and Masulipatam. In A.D. 1859 these two Collectorates (except two taluks of the latter) were amalgamated into one district.

This amalgamation did not continue for long. With the construction of the anicuts across Godavari and Krishna rivers, the irrigation facilities increased. This resulted in the increase in work of all kinds in the methods of administration and rendered the task of efficiently controling these two wealthy areas more difficult for one Collector to compass. Hence readjustment of these two districts was necessitated and in 1904 a separate district was constituted with Guntur as headquarters. Ongole taluk of Nellore district, Tenali, Guntur; Sattenapalle, Palnad, Bapatla, Narasaraopet and Vinukonda taluks of Krishna district were included in the newly formed Guntur district. In 1909 Tenali Taluk was split up into Tenali and Repalle taluks. The jurisdiction of the district did not undergo any major change from that time and continued as part of the Madras State till 1953.

In 1953 when the Andhra State was formed, this was also transferred to Andhra State along with the other Telugu speaking districts of the composite Madras State. After the Reorganisation of States in 1956, this district along with the other districts of Andhra State became part of Andhra Pradesh in which it now continues. It may be worth mentioning in this connection that Guntur city, the headquarters of this district was the seat of the Andhra High Court for a period of over 3 years from 1st October 1953, i.e. from the inception of the Andhra State till the formation of Andhra Pradesh on 1-11-1956.

This district has played a very important role in the National struggle for independence. It produced patriots like Desabhakta Konda Venkatappaiah, Parvathaneni Veeraiah chowdary, leader of the great Pedanandipadu 'No-Tax-Campaign' of 1923, Vunnava Lakshminarayana Panthulu, 'Andhra Ratna' Duggirala Gopala krishnaiah's, 'Andhra Kesari' Tanguturi Prakasam Panthulu (the latter two belong to Chirala and (Ongole) respectively, which now belong to Prakasam (Ongole district), whose services to the Nation are unforgettable. 'Rythu Bandhava' prof. N. G. Ranga, popularly known as 'Acharya Ranga' rendered yeomen services during the freedom struggle in arousing the rural masses throughout the country. The district also had the fortune of being the venue of the All India Congress Committee Sessions twice.

Revenue History: Very little is knowna bout the system of administration followed by the Hindu rulers of this country prior to the Muslim invasion. The numerous allusions in ancient inscriptions to

royal grants of entire villages or a group of villages show that in former centuries as now, all revenue administration was based upon the village as a unit.

When the Muslims took this part of the country, in the sixteenth century, they appear to have made but little change in the existing Hindu system. They occupied certain posts with military garrisons under Muslim Officers and sometimes a tract of country might be granted to a Muslim Officer as a Jagir, but for the most part the revenues were collected and accounted for to the central authority by the Hindu officials. As is usual in India these offices became heriditary and when the Muslim power became lax, the Hindu hereditary officials began to call themselves Zamindars and acted as if they were independent princes, but through all these changes the villages remained unaltered.

In addition to the land revenue, the sovereign's share of the produce of the fields, there were other sources of revenue. The Imperial Firmans granted in 1689 and 1712 to the Dutch at Masulipatam show that import and export duties at the seaport were a considerable item in the Hyderabad receipts and there were various other inland customs lines also.

In the neighbourhood of each military post or headquarter station were certain lands, intended for the maintenance of the troops or Muslim officers, which were under the direct management of the Faujdar or the Khilladar These Haveli lands, as they were termed, were not supposed to be under the Desmukhs and Deshpandes who were responsible for the collections of the rest of the country.

At first the Hindu Desmukhs and Deshpandes were paid by a percentage upon collections, by certain fees and by a limited portion of land in each village, these modes of payment being supposed to ensure their attention to the amount of collections, their procuring the good will of the populace who paid fees and their actual residence among the villages where their plots of land were situated. In course of time, however, we find that these Desmukhs and Deshpandes themselves rented villages and even districts, or, as it may better be expressd, formed the revenues of certain districts or compounded the revenue demand against them or a fixed sum.

The French Commandant, M. De Bussi, had a survey made of these Northern circars and evidently contemplated the institution of a better revenue system, but he fell from power before he had an opportunity of carrying out these plans and when the English Company took possession of the Kondapalle Circar in 1766 and the Kondaveedu Circar in 1788 the Hindu hereditary officials, calling themselves Zamindars, were still in possession of the country.

The English Officials at Masulipatam did not quite understand the legal position of these Zamindars. The first Chief in Council after the English took Kondapalle was in favour of settling every year, according to the harvest, the amount to be paid by each Zamindar to the Company, but in 1771 the Chief in Council wrote that Zamindars were the proprietors, paying a tribute to Government and furnishing troops in times of war. This idea gained ground, the payment made by the Zamindars was constantly termed tribute, he territory they held was called their hereditary estate and the inhabitants were entirely subject to their authority.

When the Company took the Kondapalle Circar in A.D. 1766 it was given along with the Ellore and Rajahmundry Circars on a three year's rental to the Nizam's Faujdar, Hasan Ali Khan. This arrangement came to an end in 1769 and after that an attempt was made to make a separate arrangement with each Zamindar, while the Haveli lands were for some time given on a ten years' lease to Condregula Jaggappa, son of the Dubash.

The Guntur or Kondaveedu Circar was also under the control of the Masulipatam Council, but when that Council was abolished in 1794, Guntur formed a separate Zilla under a Collector who reported direct to the Board as did the Collector of Masulipatam.

In pursuance of the orders issued by the Bengal Government the Permanent Settlement was introduced in Masulipatam and Guntur districts in 1802. The amount to be paid by each Zamindar was calculated at two-thirds of half the gross produce of the lands, this half being supposed to be the share paid to them by the cultivators. Thus the Zamindars were to retain for their own maintenance one-sixth of the gross produce of their territories. The amounts were obtained from an inspection of the accounts of the last thirteen years or of what papers the village karnams produced as accounts. In some cases, especially that of Charmahal, the Zamindar's Peshkush was fixed too high, but in some instances,

especially that of Vasireddi Venkatadri Naidu, the Peshkush was not only fixed too low, being based on fictitious accounts, but was actually still further reduced by the Board of Revenue at Madras, which was anxious that the Permanent Settlement should be made moderate.

The Haveli lands, with the exception of Divi, were divided into mutahs, each calculated to bear an assessment of one thousand to ten thousand Pagodas as the Government demand, and these were sold and brought under the Permanent Settlement. Care was taken that all lands under one irrigation source should be included in one mutah and the purchasing proprietors were to be held responsible for the upkeep of these irrigation works, but might be assisted by loans from the treasury at 12 percent. This sale of the Haveli mutahs took place in December, 1802 and thus the whole of the present Krishna and Guntur districts passed under the Permanent Settlement, except Divi, which in 1807 was given on Zamindari tenure to Condregula Gopala Rao, grandson of the Dubash. Palnad was acquired from the Nawab of Arcot, like the Nellore district, which passed under triennial and decennial village rents, but did not become a Zamindari.

This experiment of creating a class of territorial landlords and trusting to the magic of private property to make them improve the vast extents of the country thus placed in their hands was not successful. Many of the Zamindars assumed the position of petty princes and instead of contending themselves with moderate establishments, they kept up a number of elephants and horses at cost wholly disproportionate to their means. The Collector of Guntur reported that the Zamindars in Guntur Districts spent on "Savari" a sum which would maintain eleven battalions of company's sepoys. Moreover, their system of management was sometimes very bad. An energetic Zamindar like Vasireddi Venkatadri Naidu could personally keep order throughout his extensive villages and amass wealth, but his next neighbour, Malrazu Venkata Gunda Rao, was utterly unable to manage his estates, and when Venkatadri Naidu died, his riches were speedily dissipated by his heirs. Another cause of the failure of the Zamindari system in this District was the constant disputed successions and tedious litigation in almost every family.

The Zamindars were constantly attached for arrears and taken under the Court of wards and the Collectors managed them by means of cutcherry retainers in such a way that arrears sometimes accumulated rapidly while the estates were under management as they had done under the Zamindar. Some Collectors remained long enough to acquire local knowledge. Messrs. Oakes and Whish each held Guntur for ten years, but changes of Collectors were frequent and a newly arrived Collector could only appoint his Sheristadar's nominees to manage these attached estates. The terrible famine of 1832-33 rendered the Zamindars less able than before to pay the Government demand and in the Guntur Collectorate the mismanagement of the attached estates was increased by a bitter feud among the Revenue servants.

The experiment has been tried of placing the Zamindars in charge of their own Zamindaris as Managers, but this also was a failure, the Zamindars fraudulently leasing villages on low rentals in consideration of sums paid down as "Nuzzerana". Under the provisions of the despatch of the Court of Directors dated 21st June, 1842, the Guntur Zamindars surrendered their estates to Government on the understanding that they should receive a sufficient maintenance with the hope that estates may be eventually restored. Afterwards, it was decided by Government to place beyond all doubt their power to deal with the estates by bringing them to sale and buying them. This was done in 1846. There were no purchasers and Government bought in the Guntur Zamindari estates by a bid of Rs. 5,000 for each. After perusal of Mr. W. Elliott's report, the Directors wrote a despatch on 31st January, 1849 declaring the resumption of these estates to be final.

The year 1849 is to be noticed as the date of the appointment of a Commissioner of the Northern Circars. The Court of Directors, upon perusal of Mr. Walter Elliott's report on Guntur affairs, sent out orders that all the Northern Circars should be placed under the immediate charge of one of the members of the Board of Revenue, with full powers of the Board. In accordance with this order, Mr. Walter Elliott himself was appointed Commissioner of the Northern Circars in 1849 and soon afterwards came to Masulipatam.

In 1854, the post of Commissioner of the Northern Circars was abolished and the Districts came again under the direct authority of the Board of Revenue. In December, 1859, the whole of the Guntur District and the entire Masulipatam District except two taluks was made into one district, the Krishna District. In 1862, the District was divided into eleven taluks with two Zamindari subdivisions.

Little seems to have been done, however, to introduce any improved system of land revenue at these opportunities and the faulty Zamindari system continued, with the 'Kailas' or actual measurements of the crop which lay heaped for weeks awaiting the measurer, with the "anchana" or estimate, made by a venal estimator, with the joint village rents giving rise to factions and oppression of the poorer villagers by their stronger neighbours.

The first Collector who made an attempt to grapple with the subject was Mr. G. E. Russell, Collector of Masulipatam, 1812-21. He selected the village of Telaprolu in the Nuzvidu Zamindari and made a minute survey of the village fixing the amount to be paid by each individual cultivator according to the quality of the lands, he held Mr. Russell's report on Telaprolu is dated 20th September, 1818. Under the rental value thus fixed by the Collector, the total amount paid by Telaprolu village was Rs 3,180 in Fasli 1228 and rose gradually to Rs. 4,161 in Fasli 1241. While the ryots were prosperous and contented under the Collector's management, the young Zamindar who got possession of his estates in A. D. 1831, exacted no less than Rs. 8,900 from Telaprolu in Fasli 1242 and Rs. 5,895 in Fasli 1243. Then came the famine and in Fasli 1246, after the famine, the village paid only Rs. 675; so all trace of the former prosperity had vanished. Mr. Russell's report on Telaprolu contains a deeply interesting account of the rack rents and extra collections by the Zamindar's retainers which left to the poor cultivators barely enough for the support of life. Another Collector, Mr. P. Grant, made a similar survey of the village of Caitupalle, but no general action was taken upon the data furnished by these two isolated surveys.

Mr. H. Stokes in 1844 attempted to introduce an improved Revenue system in the resumed Zamindari estates of the Guntur District but was restrained by the conservative ideas of his Sheristadar, Nyapati Seshagiri Rao, who was supported in his cautious views by the then Board of Revenue. Mr W. Elliott supported Mr. Stokes in his advanced policy and by 1850, the Guntur District had been brought under the system which in the old records is termed 'makta', and is sometimes called 'Ryotwari', but in truth differed very little from the joint village rents of the Masulipatam District. There was a fixed total demand on each village and the individual cultivators were left to apportion this demand. If remissions were necessary they were given in lumpsums to villages. The influential ryots secured their own interests at the expense of their weaker neighbours and all sorts of curiously old fashioned ideas of Revenue Administration, such as takids permitting cultivators to reap their crops and the notion that no English-speaking native could be an efficient Sheristadar and none survived in the Guntur Collectorate.

The old system of Revenue practice passed away with the introduction of Survey and Settlement rates of assessment. The work in the Guntur District was undertaken after that in Masulipatam. It was laid before the Board towards the close of the year 1868, only after the completion of the survey operations in Palnad, the last taluk of the District by the survey Department. The report of Mr. W. Wilson on the Guntur portion of the district is printed in the Board's Proceedings No. 1628, dated 9th March, 1870. In Mr. Wilson's classification of the Guntur Part of the district, as much as 90 percent of the whole area was placed under varieties of the 'Regar' or black cotton soil and red soils were only 2 per cent. The highest class is the alluvial along the margin of the river. 60 villages with lands amounting to 6.6 percent of the whole area were placed in the first or alluvial group. 200 villages with lands amounting to 21.3 percent of the whole area, comprising the sand of the coast and the stony uplands of the interior, were placed in the third or the poorest class and the second or the principal group numbered 465 villages with lands amounting to 72.1 percent of the whole area. This second group comprised the land in Repalle and Bapatla taluks, irrigated by the anicut, and the heavy loams near Prathipadu which bear good crops when the rainfall is timely. The rates on irrigated land varied from Rs. 1.75p. to 7.50p. and on unirrigated lands from 0.25p. to Rs. 4.50p. per acre.

One point upon which the Board of Revenue did not agree with Mr. Willson was his proposal to regard as unirrigated, about 2,000 acres of land irrigated through the perennial springs in the great sand ridge running from Bapatla to Chinna Ganjam and these lands accordingly paid irrigated rates of assessment. Another point under discussion was the levy of three-fourths water rate on the lands irrgated from wells on the banks of the Gundlakamma and Naguleru streams in Vinukonda and the Palnad taluks. These wells are expensive stone structures and the water had to be lifted from the stream. The Board decided that no water rate should be levied.

The Survey and Settlement so introduced is in vogue in this district. Under the Madras Estates Land (Abolition and Conversion into Ryotwari) Act, 1949, the Zamindari Estates and Inams were abolished and taken over by Government paying due compensation to the Zamindars, Estate holders and Inamdars concerned. Survey and Settlement was also made in the taken over estates wherever found necessary and ryotwari settlement was made in all parts of the district.

PHYSICAL ASPECTS

The district derived its name from Guntur, its headquarters town. Various etymological explanations are given for the name of the district. The explanation is that, the village was on a 'Kunta' (a local unit for measuring land) and it came to be called 'Kunta-uru or Gunturu'. Yet another version associates the place with the practice of the local kings or chiefs firing a gun (gundu) to mark midday after which it came to be known as Gunduru or Guntur.

It is bounded on the north by the districts of Nalgonda and on the east by the Bay of Bengal and the district of Krishna, on the south by the district of Prakasam and on the west by the districts of Prakasam and Mahbubnagar.

Physical Features : The district of Guntur is located between the north latitudes of 15° 18' and 16° 50' and the east longitudes of 79° 10' and 80° 55'. It occupies an area of 11,391 Sq. Kms. and a population of 3,434,724 as per the 1981 Census count.

Rivers: The important rivers that traverse the district are the Krishna, the Gundlakamma, the Musi, the Chandravanka and the Naguleru. The Krishna river which rises in Mahabaleshwar in Maharashtra State after flowing through Maharashtra and Mysore states and forming the border between Mahbubnagar and Kurnool districts, reaches Guntur district near Ganikoñda hills at the south-western portion of Palnad taluk and skirts the district along the entire northern and greater part of the eastern boundary and after a course of nearly 80miles, finally falls into the Bay of Bengal. The river forms the dividing line between Guntur and Nalgonda district on one side and Krishna and Mahbubnagar districts on the other side. The Gundlakamma river rises in Cumbum of Prakasam district and traverses the Vinukonda taluk in the district. The Naguleru river rises in the hills near Nayakurali Kanuma in the Vinukonda taluk and flows northwards across Palnad taluk and joins river Krishna. A stone dam constructed across it, at Dachepalle irrigates about 350 acres of land. Chandravanka river also flows north across Palnad taluk and joins the river Krishna. There are other streams of minor importance in this district.

Climate : The district suffers from hot climate, the summer being extremely trying. The year may be divided into four seasons. The summer season starts by about the middle of February and continues till the first week of June. The heat in April and May is oppressive. The north-east monsoon breaks the hot spell and makes the weather bearable. The south-west monsoon season follows thereafter and extends upto the end of September. October and November constitute the post-monsoon or retreating monsoon season. The period from December to the middle of February is generally marked by fine weather.

Rainfall: The rainfall in the district generally decreases from the east to the west. Both, the south west monsoon and the retreating monsoon bring rains to the district. While the rainfall in the monsoon season accounts for 57 percent of the annual rainfall, the rains in the retreating monsoon season amount to about a third of the annual total. October is the rainiest month of the year. The average annual rainfall in the district is *815.7 mm.

Soils: The soils of the district are broadly divided into alluvial regar, red and arenaceous and are further subdivided into clayey, loamy and sandy. Of these, alluvial soils occupy 7 percent, while 53 percent fall under regar series, 38 percent under red and the remaining 2 percent is covered by the arenaceous series.

* Statistical supplement to Part II of Andhra Pradesh Gazette, Hyderabad, dated 15-1-1981 Monthly and Annual Rainfall table for the year 1978 P.33.

Flora : Botanically, the flora of the district may be classified as (i) Inland flora (ii) Coastal flora (iii) Estuarine flora.

The inland flora are characterised by xerophytic adaptations such as mallow coriaceous leaf with glistening surface, thorns and deciduous habit endowed by nature, so that they may survive the intense drought conditions produced by the very low and ill-distributed rainfall and the shallow skeletal soils. The indigenous natural species that are commonly met with are (1) Acacia arabica (Nalla Tumma) (2) Acacia Latromum (Paki Tumma) (3) Gymnosporia montana (Danthi) (4) Albizzia amara (Nallaregu or Chikireni) (5) Albizzia Lebbeck (Dirisiam) (6) Albizzia Odoratissima (Chinduga) (7) Acacia leucophloea (Tella Tumma) etc. Apart from these, inland flora includes Casuarina equisetifolia prosopis Juliflora and Eucalyptus trees whose leaves contain medicinal oil.

The coastal flora are characteristically dominated by the evergreen species which also exhibit xerophytic adaptations so as to enable them to survive the hot weather accompanied by the desiccative winds. The common indigenous species are Mimusops hexandra (Pala), Memecylon edule (Alli), Strychnos Nux-Vomica (Mushti) and Sapindus emarginatus (Kunkudu). The coastal flora is rich in medicinal plants like strychnos Nux-vomica, root tubers of Gloriosa Superba & Hemidesmus indicus (Sugandha Pala).

The estuarine flora is also evergreen and they may be subdivided into mangroves and halophytes. The mangroves develop special adaptations such as the pneumatophores, stilt roots and Viviparous germination in order to survive the swampy and anaerobic conditions of the soils.

Fauna: The unfavourable natural factors, aggravated by the advent of modern weapons and other means of hunting, have made wild life very scarce in this district. Carnivor like the tiger (Panthera tigris) and the panther (Panthera pardus) are very rare. Members of the deer family like the Sambur (Cervus Unicolor), the barking deer (Muntiacus Muntjakaurens), the black buck and the Chinkara (Gazella gazelle bennetti) occur in small numbers. The wild pig (sus serofa cristatus) and porcupine (Hystrix Indica) are extant and are known to cause damage to agricultural crops in the upland taluks. The hare is commonly found.

Of the birds, the peafowl, the partridge (Francolinus species), the quail (coturnix species) and the jungle fowl (Gallus species) are common in the upland forests, while in the estuarine tract, aquatic birds such as the duck and teal, the heron, the egret, the migratory flamingo and the pelican relieve the monotony of the lifeless mangrove forests.

Changes in administrative unit and its component parts : The district was not a homogeneous administrative unit in the past and its various tracts were ruled by different dynasties at different periods of time. It continued to be an independent unit till A.D. 1859 when it was divided between the districts of Rajahmundry and Machilipatnam (Masulipatam) which were renamed Godavari and Krishna respectively. But various factors contributed to the formation of the new Guntur distsict in 1904. The construction and extension of the great irrigation systems of Godavari and Krishna rivers, and the increase in work of all kinds which is necessarily the result of improvement in the methods of administration, rendered the task of efficiently controlling these two wealthy areas more than one Collector could compass. The Godavari district was accordingly lightened by the transfer of Yernagudem, Ellore (Eluru), Tanuku, Bhimavaram and Narsapur taluks (excluding Nagaram island) to Kistna, while Kistna was relieved of the taluks of Tenali, Guntur, Sattenapalle, Palnad, Bapatla, Narasaraopet and Vinukonda, which, with the Ongole taluk of Nellore district was formed into the new Guntur district. The Revenue Divisions constituting the newly formed district were Ongole (Ongole and Bapatla), Narasaraopet (Narasaraopet, Vinukonda and Palnad), Tenali and Guntur (Guntur and Sattenapalle).

No administrative changes took place till 1909 when the taluk of Tenali was bifurcated leading to the formation of Repalle taluk which was attached to the Tenali Revenue Division. Again in 1933, eleven villages of Repalle taluk were transferred to Bapatla taluk and seven villages belonging to Bapatla were transferred to Tenali. In 1940, Bapatla taluk lost nine villages to Guntur.

The changes that took place subsequently included the transfer of Kotikalapudi village of Darsi taluk in Nellore district to Ongole taluk in 1955, the addition of three villages of Sattenapalle taluk to Guntur taluk in 1958, the addition of Potharlanka and

Gazullanka villages along with their hamlets to the taluks of Repalle and Tenali respectively from Divi taluk of Krishna district in 1959, the transfer of three villages from Ongole taluk to Darsi taluk of Nellore district in 1959, the transfer of a small extent of five square kilometres to Miryalguda of Nalgonda district from Palnad taluk in 1959 and the transfer of two villages of Velavarthipadu (Velavartipadu) and Lingamguntla of Sattenapalle taluk to Guntur taluk in 1961.

Thus in 1961, the district consisted of nine taluks grouped under four revenue divisions. At the 1971 census, the district consisted of 8 taluks grouped under three revenue divisions. The most important territorial change occuring after 1961 Census was the transfer of the entire Ongole taluk, 41 villages of Narasaraopet taluk and 44 villages of Bapatla taluk to the newly formed Ongole district, later renamed as Prakasam district. Formation of this district was notified under "the Gajapathinagaram taluk and Ongole district (Formation) Act, 1970 (Act, 2 of 1970)." The revenue divisions and taluks under each division as existed at the 1961 and 1971 censuses are given in the following statement.

THE STATEMENT SHOWING THE REVENUE DIVISIONS AND TALUKS IN 1961 AND 1971 CENSUSES

1961 Census		1971 Census	
Name of the revenue division	Names of taluks included in revenue division	Name of the revenue division	Names of taluks included in revenue division
1	2	3	4
1. Ongole	1. Ongole 2. Bapatla	1. Tenali	1. Bapatla 2. Repalle 3. Tenali
2. Tenali	1. Tenali 2. Repalle	2. Narasaraopet	1. Narasaraopet 2. Palnad 3. Vinukonda
3. Guntur	1. Guntur 2. Sattenapalle	3. Guntur	1. Sattenapalle 2. Guntur
4, Narasaraopet	1. Narasaraopet 2. Vinukonda 3. Palnad		

The district, at the 1981 Census has 21 taluks viz., Tenali, Repalle, Bapatla, Ponnur, Emani, Amruthalur, Pallapatla, Guntur, Mangalagiri, Sattenapalle, Rajupalem, Talluru, Tadikonda, Prathipadu, Narasaraopet, Macherla, Palnad, Chilakaluripet, Vinukonda, Piduguralla and Ipur. These 21 taluks have been divided into 3 Revenue Divisions as shown below :

STATEMENT SHOWING THE REVENUE DIVISIONS IN GUNTUR DISTRICT, 1981

Sl. No.	Name of Sub-division/ Revenue Division	Name of taluk	Name of Town (M)/(P)
1	2	3	4
1.	Tenali	1. Tenali	1. Tenali (M)
		2. Repalle	2. Repalle (M)
		3. Bapatla	3. Bhattiprolu (P)
		4. Ponnur	4. Bapatla (M)
		5. Emani	5. Ponnur (M)
		6. Amruthalur	
		7. Pallapatla	
2.	Guntur	1. Guntur	1. Guntur (M)
		2. Mangalagiri	2. Mangalagiri (M)
		3. Sattenapalle	3. Tadepalle (P)
		4. Rajupalem	4. Sattenapalle (P)
		5. Talluru	5. Phirangipuram (P)
		6. Tadikonda	
		7. Prathipadu	
3.	Narasaraopet	1. Narasaraopet	1. Narasaraopet (M)
		2. Macherla	2. Macherla (P)
			3. Vijayapuri South †
		3. Palnad	
		4. Chilakaluripet	4. Chilakaluripet (M)
		5. Vinukonda	5. Vinukonda (P)
		6. Piduguralla	
		7. Ipur	

~~† Civic status not yet determined~~

The taluks in the district have undergone many jurisdictional changes between 1971 and 1981. There has been variation in the total number of villages during the decade. For convenience, the jurisdictional changes in the district during the decade have been presented in the following statement.

† Civic status not yet determined

1 The district "Geographical Area" figures are as supplied by surveyor General, India·

2 The total of the area figures of taluks will not tally with the district area figures because the former represents landuse area and are derived from the figures supplied by the State Survey Department·

3 Villages shown under column 5 do not include the villages under column 8.

MAJOR CHARACTERISTICS

Forestry: The Guntur forest division extends over the entire revenue limits of the district. The total forest area in the district is 1,617 sq.kms. coming 14.2% of the total land area of the district. It is far less than the national mininmum fixed by the Government of India. About 93% of the forest area in the district is spread over in the upland taluks of Macherla, Vinukonda, Sattenapalle and Narasaraopet while the remaining 7% is above the coast in Repalle and Bapatla taluks. No timber is available in the forest of this district.

In order to meet the demand of the people for fuel-wood and small timber and to increase the area under forests, the following social forestry schemes have been taken up for implementation under 6th Five Year Plan in this district :-

(i) Shelter belt of casuarina along the sea coast.
(ii) Rural fuel wood plantations scheme

Action is being taken under the following drives

(i) Make India green
(ii) Tree for every child
(iii) National Rural Employment Programme i.e. "Tree for Every House"

Minerals & Mining: Guntur district forms part of the Indian peninsular shield which is considered to be technically stable and is endowed with rich mineral wealth. The world famous Kohinoor diamond was produced from the Kolluru mines in Sattenapalle taluk.

Lime Stone: Vast resources of lime stone are found in the Palnad area in the vicinities of Dachepalle, Piduguralla, Gurajala, Rentachintala and Macherla. At present Guntur district possesses of the major cement factories such as 'Associated Cement Company' and Ramakrishna Cement (K. C. P. Ltd.) and two more units viz., Durga and Pardhasaradhi Cements are under erection. The lime Kiln units present at Piduguralla and Pillutla area are producing burnt and Hydraulic lime which has manifold application in paper, sugar and textile industries. There are about 20 pulverising and chips units established in Guntur and Piduguralla. The flaggy lime stone deposits locally called as 'Napa Slabs' availbale at Macherla, Rentachintala and Gurajala are being used in flooring, roofing and channel lining (Nagarjuna Sagar) works. 14 slab polishing factories in Macherla are depending on these slabs. Recent investigations have revealed that part of the Palnad lime stone can be utilised as flux.

Base metalic ore deposits : Copper, lead and zinc occur in Vinukonda taluk. The Geological Survey of India have prospected the deposits at Bollapalli and Agnigundala and estimated copper of the order of about 6.38 million tonnes. Previously Hindustan Copper Limited a public sector undertakig started exploiting copper deposits. Subsequently Hindustan Zinc Limited is making ahead in extracting the lead concentration. It is being used in zincsmelter situated at Vishakhapatnam.

Electricity and Power: It was in March, 1932 Guntur town was electrified. The installed capacity of the electrical supply corporation at Narasaraopet was 2 x 150 K.W. and 1 x 50 K.W. sets. During the 1950's a number of important changes took place in the development of power in the district. In 1956, the Guntur electrical under taking was acquired by the Government and supply of power extended to Ramakrishna Cement and Nagarjuna Sagar through the construction of Macherla substation in 1957. Another substation was established on the right bank of the Krishna river to feed entirely the Nagarjuna Sagar dam loads. At the same time, another substation was constructed at Piduguralla to feed the Associated Cement Company at Nadikudi (Nadikude) and limestone quarries at Sitaramapuram. The Piduguralla and Macherla substations contributed substantially to the extension of power to a number of villages.

The most outstanding land mark however, in the history of electricity in the district was the establishment of the A. P. S. E. B. on the 1st April, 1959 at the State level for the construction, operation and maintenance of works, the distribution of power supply and the establishment of new diesel stations.

The year 1965-66 saw the next major land mark in the development of power when the 30 M. W. Nellore Thermal Plant was put into commercial use with its supply paralleled at the Tadepalle substation with that from Machkund, thus providing an alternate arrangement for feeding the loads when other sources failed. With the commissioning of the 60 M. W. set at Kothagudem in July, 1966, its supplies were also parallelled at Tadepalle. Along with this achievement, there were 340 towns and villages were supplied with electricity and the district was really placed in a takeoff position for industrial development through the liberal supply of power. 306 villages out of total 688 inhabited villages in the district were electrified by 1971. By 1981, 591 of the 692 inhabited villages were electrified constituting 85.40% of the villages.

Agriculture : Guntur district occupies the foremost place in the State for the cultivation of both food and commercial crops especially paddy, cotton, chillies, tobacco, groundnut besides pulses like greengram, blackgram and redgram. The district is the second in entire India next to Coimbatore in consumption of chemical fertilisers due to the cultivation of large extents both under food and commercial crops.

i) The Agricultural income of the district is Rs. 200 crores contributing 1/16th of the agricultural income of the state.

ii) Nearly 15 lakh acres out of the total geographical area of 27.9 lakh acres is the net area sown under various crops accounting for 53.9% of the total area.

iii) The advent of Nagarjuna Sagar Project has added to the prosperity of the district by providing irrigation facilities for 2.5 lakh acres of food crops and 3 lakh acres of commercial crops. Consequently the area under paddy which was 2.74 lakh hectares in 1970 has gone upto 2.87 lakh hectares in 1980. The production of rice, which was 4.81 lakh million tonnes in 1970 has gone upto 5.79 lakh million tonnes in 1980. The yield per acre increased from 1,555 Kgs. in 1970-71 to 1,803 Kgs. in 1980-81. The advent of high yielding varieties, the incerased use of fertilisers, pesticides and management practices have resulted in increased yield per acre. There has been increased in the yields of pulses also. The present yield is about 500 Kgs. per hectare. Virginia tobacco has been very famous in Guntur district for very long time. However, with the release of Nagarjuna Sagar Project waters and with the change in the crop pattern as also change in the preference of the smokers in the countries the area has gone down in the district. However, the trade of the tobacco is still largely in the hands of the traders of Guntur district, creating large potentiality of employment in the district. The reputation of Guntur chillies is well known. Cotton and that too sophisticated cotton of extra long staple has become popular in this district which is cultivated in one lakh hectares in the district. Groundnut crop which was only a rain fed crop previously is now being cultivated in the Nagarjuna Sagar Project Ayakut land also. During the last decade 1971-80, the district has made great strides in agricultural production due to increased irrigation facilities, use of high yielding varieties, greater use of fertilisers and pesticides in the hands of enterprising forming community.

Animal Husbandry : The district is considerably rich in livestock population and it takes the seventh place in the state.

Guntur district is one of the three districts in Andhra Pradesh selected for implementation of Piggery Development Schemes. The following are the various categories of veterinary institutions functioning in the district.

a)	Veterinary hospitals	17
b)	Clinical laboratories	2
c)	Livestock supervisory	61
d)	Rural livestock units	150
e)	Extension centres	5

Due to the opening of more number of veterinary institution, veterinary aid was extended to remote corners and it is noticed that mortality due to noncontagious diseases has been reduced to a large extent. Mortality due to contagious diseases has been controlled to major extent by timely preventive vaccinations. Calf mortality also has been controlled to a large extent by organising 'Animal Health Compaigns' to educate the public regarding deworming.

To up grade the local non-descriptive cattle and to improve genetic level A. 1. with liquid semen and frozen semen has been introduced in 177 veterniary institutions.

The following piggery units were granted to benefit the farmers and agricultural labourers.

a)	Scheduled Castes	86
b)	Scheduled tribes	148
c)	Backward classes	136
d)	Other castes	15

Public have donated 140 buildings and 26.89 acres of land for locating veterinary institutions in the district.

Dairy Forming : The district ranks first in the state in the production of milk and also milk products like butter and ghee. According to live stock Census of 1961, the annual production of milk was 1.79 lakh metric tonnes, while the yield of ghee was 7,996 metric tonnes besides 203.2 tonnes of butter.

Fisheries : Guntur district is rich both in inland and marine fisheries with a coastline of 42 Kms.

The fishermen population of this district is 86,200 (marine 56,500 and inland 29,700) of which 17,000 (marine 9,000 and inland 8,000) are active fishermen. The River Krisahna flows up to a total length of 220 Kms. There are several drains such as Tungabhadra, Nallamada, Perali drains and black water creeks. The district is served with a net work of canals from Nagarjuna Sagar Project and Krishna Western Delta. There are 862 tanks with a water spread area of 21,683 acres suitable for pisciculture. The estimated marinefish landings are 12,400 million tonnes and inland fish production is 5,000 million tonnes per year.

High lights of the fisheries development during the decade (1970-80). The following fisheries schemes have been implemented during the decade :-

1 Special Development Schemes
2 Grant of subsidy to Fishermen
3 Ameliorative measures
4 Supply of input on subsidy to fishermen
5 Applied nutrition programme
6 Implementation of 6 point formula
7 Supply of nylon yarn to fishermen at subsidised rates.
8 Encouraging S. C. Fishermen Co-operative Societies for the Welfare of Scheduled Castes.

Industries : There are 21 large and medium scale industries functioning in the district with a capital investment of Rs. 2,282.29 lakhs by providing employment to 7,145 persons. Apart from the above M/s. Sathavahana Cotton Growers Co-Operative Spinning Mills at Sattenapalle has been commissioned on 27-10-82 with a capital investment of Rs. 540 lakhs with employment potential of 850 persons of whom 600 were cyclone repatriates.

There are 8 units under different stages of construction with a total investment of about 900 lakhs and can provide employment to more than 8,000 people. The different industries covered under the 8 units are as given below :-

1 Tyres and tubes
2 Electronic complex
3 Drug formulation
4 Modern tanning unit
5 Mini Paper Mill
6 Cigarette Factory
7 Manufacture of tool cutters for milling machines, drilling, shaping machines etc.
8 Toilet Soaps
9 Edible oil complex with cotton seed
10 Liquid Detergents
11 Yeast
   a) Bakery
   b) Distillery
   c) Food Grade
12 Steel castings and forging unit
13 Electrodes
14 Oxygen and acetylene gases
15 Textile dyes
16 Marine fishing
17 Fruit canning
18 Scientific & Engineering Instruments
19 Spinning Mill (25,000 spindles)
20 Manufacture of tools for carpentary, blacksmithy and shoe making
21 Salt based industries
22 Anodized aluminium builders hardware
23 Soft drinks
24 Straw boards

25 LT & HT Insulators
26 Electrical switch-gear for LT & HT supply
27 Hatchery
28 Solar pumps
29 Pesticides complexes
30 Leaf springs for automobiles

Small Scale Industries: There are 2,975 small scale industries and tiny units functioning in the district with an investment of Rs. 1,600 lakhs providing employment to 15,500 persons. The products manufacturing were pesticides and insecticides, engineering workshops, automobile units and repairs, chemical industries, utensils manufacturing, wooden furniture, electrical items, cotton ginning and edible oils etc.

Trade and Commerce: From very early times trade played and important part in the economic life of the people of the district. The maritime trade of the Guntur reached its zenith during the Reddi rule. The chief exports from this district at that time consisted chiefly of printed and plain cloth. According to the second settlement report (1933) of the district, the exports consisted of raw cotton, grains and pulses, oil seeds, tobacco, dyes and tans, and turmeric, while the imports constituted mostly of luxury and other articles, not produced locally. Guntur has become a pioneer in tobacco trade in the entire country with the establishment of Indian Leaf Tobacco Development Company Ltd., with headquarters at Chirala. Cement is exported from the Tadepalle and Macherla factories. The EID Parry Limited manufactures and exports fertilisers. Rice, Turmeric, fountain pens are the chief exports from Tenali taluk.

The Guntur Market Committee has 17 regulated market yards. All these centres transact business in groundnut, chillies and turmeric, tobacco and cotton. Sales and purchases of these items are not restricted to market yards alone. A large number of private businessmen also are engaged in these commodities.

The following amounts show the revenue collections in the district through trade and commerce during the period 1977-78 to 1981-82.

Year	Revenue achieved under APGST & CST Acts.	Revenue achieved under APET Act.
1977-78	1,239·32 lakhs	154·92 lakhs
1978-79	1,241.98 lakhs	168.20 lakhs
1979-80	1,271·37 lakhs	170·74 lakhs
1980-81	1,672·09 lakhs	198·36 lakhs
1981-82	2,069·59 lakhs	221.60 lakhs

Transport: Bus transport in the district has been nationalised in 1961 and the A. P. S. R. T. C. buses are plying on all routes except a few fair weather routes.

The post of the Regional Transport Officer has been upgraded as Assistant Transport Commissioner and Secretary, Regional Transport Authority.

The following are the targets and achievements of M. V. T. for the years noted:

	Target in lakhs	Achievement in lakhs
1974-75	150	147
1975-76	163	151
1976-77	110	177
1977-78	263	253
1978-79	278	291
1979-80	360	341

There are 692 villages in the district and all these villages have since been provided with mechanised, Transport facilities except 79 villages because there are no motorable roads to connect the 79 villages.

There are 65 private buses being operated on town service routes in the district and 47 private buses are being operated on contract carriages permits.

PLACES OF INTEREST

Places of Religious, Historical or Archaeological Importance : Places of religious institutions (temples) and mutts and charitable institutions and institutions of historical or archaeological importance in the district are presnted in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS, TEMPLES AND MUTTS IN GUNTUR DISTRICT

Sl. No.	Taluk	Name of the Town/Village	Name of the Monuments/Temples/Mutts
1	2	3	4
1	Macherla	1 Macherla	Veerabhadra Swamy Temple
2	Tenali	1 Mallepadu H/o Pinapadu (R)	Archaeological Site (Sathavahana Period)

Places of Tourist Interest

Bapatla (Bapatla Taluk) : Bapatla town is said to have been named after Bhavanarayanaswamy, the presiding deity as Bavapatla or Bavapuri and came to be called Bapatla gradually. Lying on the Madras-Calcutta line, it is at a distance of 49 Kms. from Guntur. It is well connected by buses. Of all the temples in the town, the Bhavanarayanaswamy temple is the ancient and famous. The temple is of interest both, historically and architecturally.

Nidubrole (Ponnur Taluk) : It is situated 21 Kms. to the north of Bapatla town and is adjacent to Ponnur on the road from Guntur to China Ganjam. This village is included in Ponnur Municipality. It is a railway station on the Vijayawada-Madras broad gauge line. There are three old temples dedicated to Chodeswaraswamy, Chennakesavaswamy and Vinayaka. There are several rice mills, timber depots, printing presses and Mechanical workshops in the town. Handloom weaving and spinning Khadi yarn are also in existence here. Brick-making and furniture-making are some other industries. Betel leaves and rice, form the important commodities of export. It is the birth place of prof. N.G. Ranga, hailed as the 'Father of the Indian Kisan (Peasent) Movement', senior most and Veteran Member of Parliament. During the Freedom Struggle and later, several leaders took their lessons here in 'GOBHUMI'- the political school set up by prof. Ranga. It was visited by several national leaders like Mahatma Gandhi, Netaji Subhash Chandra Bose, Pandit Jawaharlal Nehru, Dr. Rajendra Prasad, Sardar Vallabhai Patel, Acharya J.B. Kripalani, Smt. Indira Gandhi, etc. etc.

Amaravathi (Tadikonda Taluk) : This village is the most important spot in Tadikonda taluk along with the neighbouring village of Dharanikota. It is situated at a distance of 35 Kms. to the northwest of Guntur. There is a world famous Buddhist Stupa depicting scenes from the life of Buddha, embodying various Buddhistic emblems, symbols and also inscriptions in Pali character. It has many tourist facilities and commands a vast stream of pilgrims all through the year. Among the famous shrines that are dedicated to Lord Siva is the one at Amaravathi. A large congregation assembles on the Mahasivaratri day. (Feb-March)

Guntur (Guntur Taluk) : Guntur is a class I city with a population of more than 1,00,000 and lies on the Vijayawada-Madras trunk road, about 9 Kms. to the east of the picturesque Kondaveedu range of hills. It is the headquarters of the district of its name, Revenue division and taluk. It is one of the oldest municipalities having been constituted in A.D. 1866. It is an important railway junction and it is connected by rail with Macherla, Vijayawada, Machilipatnam, Hubli, Tenali and Repalle. Buses ply from this place to all the important places within and outside the district including the State headquarters. This city is an important commercial centre with tobacco curing barns, rice mills, cotton and oil mills.

Lam (Guntur Taluk) : It is a village situated on the Guntur - Amaravathi road at a distance of over 8 Kms. to the north of Guntur. Lam is well-known for the Agricultural Research Station, the Government livestock Farm and the Chillies Research Station. It is also known by a tank called 'Bhairavakunta' with a small stone by its side containing nine idols, an image of Vinayaka and a brass image of Anjaneya besides and an inscription in Sanskrit in archaic characters engraved on a boulder. Within about 91 metres are the images of Kalabhairava and Durga carved on two other boulders mentioning 'Lamu' and recording the tolls payable by certain classes.

Mangalagiri (*Mangalagiri* Taluk) : Situated on the Vijayawada-Madras trunk road, about 13 Kms. from Vijayawada and 19 Kms. from Guntur, Mangalagiri has carved out for itself a great name almost from prehistoric times. Its name indicates its situation on the hillock after which the town itself is known and is said to denote the "hill of bliss". The unique feature about the famous temple of Lakshminarasimhaswamy on the hill is that the deity into whose mouth *Panakam* (spiced jaggery water) is poured, throws back half the quantity as 'prasada' to the devotees indicating thereby the satisfaction of the Lord. Another interesting feature is, not an ant is found either in the Sanctum Sanctorum or even nearby, inspite of the incessant preperation of 'Panakam' with jaggery. The Lord is popularly referred to 'Panakala Narasimhaswamy' by virtue of this offering. The hill at which the temple is situated resembles a reclining elephant and looks majestic from a distance.

Nallapadu (Guntur Taluk) : It is situated at a distance of 5Kms. South-West of Guntur and is referred to as Narasingapuram after the temple of Narasimhaswamy on a hillock about 1.6 Kms. away.

Source : Andhra Pradesh District Gazetteers, Guntur, PP 331-368

Nallapadu is a place known for some ancient temples. The Agastheswaraswamy temple, with its decorated Dhvajastambham and carvings of five hooded 'nagas' (Serpents), enshrining Siva and Bramaramba and with the temple of Sankaracharya situated in the same compound is known for its antiquity. This temple is situated on an elevated platform with a big gateway at the entrance and a huge rectangular slab on which two pairs of feet are carved.

Tadepalle (Mangalagiri Taluk) : This village is situated 1.6 Kms. to the south of the Krishna river and is a railway station on the Vijayawada-Guntur line. In the temple of Mallesvara at Penumaka, an annual *utsavam* is held when the deity of Mangalagiri is brought here for worship. The headworks of the Krishna Barrage named after Tanguturu Prakasam, a spring bridge constructed recently over the Nizampatnam canal, the wharf on the Buckingham canal are some of the interesting spots which attract the attention of the visitors.

Undavalli (Mangalagiri Taluk): The Undavalli village lies on the southern bank of the river Krishna, on the way to Penumaka, about four kilometres from Vijayawada and two kilometres from Krishna Barrage and a little higer up are the famous Undavalli caves which have lent themselves to considerable historical research. These caves are associated with the Vishnukundin kings and are dedicated to Ananta Padmanabhaswamy, their tutelary deity. In point of sculptural superiority and architectural excellence, the Undavalli caves compare well with those of the Ajanta.

Vangipuram (Prathipadu Taluk): Situated 21 Kms. Southwest of Guntur and over 7 Kms. to the east of the Guntur-Parchur road, this village is originally called Achichchatrapuram. The most important temples at the place are those of Agastheswaraswamy and Vallabharajaswamy. The deity Vallabharajaswamy is believed to have been installed by Anantadandapale, the commander of Narasimhadeva of Cuttack. The compound wall and Mantapam were constructed by Kakatiya Prataparudra and later it was rebuilt by Vangipuram Ramakrishnayya. The sixteen-pillared Antaralayam sculptured in the Kakatiya style is the most imposing aspect of the temple.

Chejerla (Narasaraopet Taluk): This village is situated 22 Kms. north-east of Narasaraopet. It is reputed for its temple of Kapoteswara, one of the very earliest Hindu temples in the Andhra area, the origin of which dates back to the third or fourth century A.D.

Kondakavuru (Kotappakonda) (Narasaraopet Taluk): This village is situated 13 Kms. south-west of Narasaraopet town. As this village is on the western side of Kotappakonda, it is called as such to distinguish it from Kavuru, another village in this taluk. There is a hill with three peaks near this vallage known as Trikuta Parvatam, popularly called Kotappakonda and the deity on this hill is named Trikoteswara. Kotappakonda is a very important place of pilgrimage. The shrine upon the hill is somewhat modern. It is at a height of about 182 meters above the plain. The fair celebrated for *Sivaratri festival* is known as "Kotappa Konda Thirunala" which is visited by 2-4 lakhs of pilgrims.

Dachepalle (Piduguralla Taluk) : This village on the Guntur-Macherla highway lies 11 Kms. to the north-east of Gurazala town, the headquarters of Palnad taluk and 90 Kms. to the west of Guntur. The remains of the old fort can be seen in the neighbouring villages especially at Ubbepalle near Gamalapadu where there is a small 'Sambhunigudi', containing a great deal of carved stone and four of five inscriptions ranging from A.D. 1300 to A.D. 1537. The temple of Ranganayakaswamy, which is an ancient one at the place, is noted for its architectural beauty.

Durgi (Macherla Taluk): This village derived its name from the existence of a temple of Goddess Durga on the eastern side of the village. It is at a distance of 19 Kms. to the South-west of Gurazala town. It is connected by a metal road from Gurazala, Macherla and Veldurthi (Veludurthi). On the southern side of the village there are hill ranges with reserved forests, while on the western side is the Buggavagu reservoir. The ruins of fortifications in the heart of the village bear testimony to the existence of a fort in the bygone days. The village is full of interesting remains, among which nine inscriptions throw light on the Kakatiya dynasty. This village is

famous for the carving of stone idols and hence the Government of India has started a stone carving industry at this place for imparting training in this art.

Guttikonda (Piduguralla Taluk) : Guttikonda, an ancient village is situated 23 Kms. south-east of Gurazala on the Narasaraopet-Gurazala highway and is eight kilometres away from Piduguralla railway station. About three kilometres south of the village, there is a famous historic cave called the 'Guttikonda Bilam'.

Macherla (Macherla Taluk) : Located about 29 Kms. to the west of Gurazala, the headquarters of Palnad taluk, Macherla is an important and ancient place in the taluk. White and red stone quarries are present in and around Macherla. Macherla contains numerous remains of antiquity dating back to A.D. 1249.

Piduguralla (Piduguralla Taluk) : It is situated 34 Kms. east of Gurazala on the Guntur-Pondugala higway and is a railway station on the Guntur-Macherla metre gauge line. It is known as the Gateway of Palnad'. There is an old fort nearby the village and it contains two ruined temples. There is a stone slab between the village and the old fort with an old inscription not yet deciphered. Many broken carvings and other remnants of old temples are also seen.

Pondugala (Piduguralla Taluk) : Pondugala is situated north of Gurazala on the bank of the Krishna river and is 11 kilometres from Guntur on the Guntur-Macherla highway. Of the temples at the place, the one dedicated to Gantala Ramalingesvara Swamy is considered important and it contains some inscriptions on its pillars in pali. The temple of Bobbanagi in Iyyagaripalem, a hamlet of Pondagala, on the bank of the Dandivagu, which is declared a protected monument, contains two inscriptions in Sanskrit.

Rentachintala (Palnad Taluk) : Rentachintala lies 108 Kms. west of Guntur town and ten Kms. west of Gurazala. It is connected with Guntur by road and is a railway station on the Guntur-Macherla metre gauge line. Rentachintala is noted for its marble stone industry and also for its unberable heat during summer.

Thallapalle (Macherla Taluk) ; The upland village of Thallapalle is located 6 kilometres to the north west of Macherla and buses ply to this place from Macherla. The rivulet Chandravanka falls from a height of about 21 metres within the limits of this village and the resultant waterfall is known as 'Ethipothala'. It is a tourist spot.

Bhattiprolu (Repalle Taluk) : Bhattiprolu, a major panchayat and headquarters of the block of the same name, is situated at a distance of about 10 Kms. to the north of Repalle town, It is conneceted by road and is a railway station on the Repalle-Guntur broad gauge line of the South Central Railway. The town contains a damagedi Buddhist Stupa and marble pillars. The Stupa according to the Archaeological department yielded three votive caskets.

Gudavalli (Pallapatla Taluk) : This village is situated at a distance of 15Kms. to the north-west of Repalle town and about 9 Kms. away from the Bhattiprolu Railway Station. To the north of the village, there exists a mound known as 'Jathivadi Dibba' or foreigner's mound. This place is also important in the district for cattle breeding and cattle trade.

Pedapulivarru (Repalle Taluk) : This ancient village lies 8 kilomtres to the north of Repalle town on the right bank of the Krishna river and is connected by a road from Vellatur and Bhattiprolu. The temples of Narendreswara swamy and Varadaraja swamy existing here are ancient and held in great veneration. The temple of Narendreswara Swamy is situated in the centre of the village and a white marble Sivalingam is installed in the main shrine and it is said that sun rays fall directly on it at sunrise on every Sankranthi day. There is also a huge bronze image of Nataraja called 'Tandaveswara' in this shrine. Facing the Narendreswaraswamy temple is the Varadaraja temple. The temple has a closed Mukhamantapam in front of the three Garbhalayams which are provided with huge brass covering bearing highly decorative carvings. The brass covering on the doorway of the Central Garbhalaya contains all the ten images of the 'Dasavatara'.

Aminabad (Sattenapalle Taluk) ; It is an upland village situated 18 Kms. south-east of

Sattenapalle and about a kilometre from the Guntur-Narasaraopet highway. There are several temples around Aminabad, two of which are conspicuously placed on rocky eminences and from a distance look like Grecian fanes. These may be of Jain Origin. Of the many inscriptions found in this village, a large number are not yet deciphered. It was the headquarters of Amin-ul-Mulk, a Governor, who changed the name of the village after his name as Aminabad.

Bellamkonda (Rajupalem Taluk) : The village is situated 19 Kms. west of Sattenapalle by the side of the Guntur-Pondugala road near Bellamkonda railway station. There is a hill fortress here. It consists of a single stone wall connecting the principal elevated points of the hill and having tower bastions at the South-west and north-west angles, which terminate the principal front. The entrance which is in this front, is gained by a winding pathway from the foot of the hill near the village. In shape, the fort is roughly an equilateral triangle. It is believed to have been constructed by the Reddi kings of Kondavidu.

Chebrolu (Tenali Taluk) : Chebrolu, a very ancient village with many historical remains, is situated on the Guntur-Bapatla road within a distance of 10 kms. from Guntur. The high mound on which the village is situated has yielded some terra-cotta figurines as well as some old coins which reveal the existence of ancient civilisation at this place. Two gold coins pertaining to the period of the Roman Emperor Constantine, were unearthed at this place. A number of lead coins containing the figures of ships, animals and mosques were also unearthed.

Sangam Jagrlamudi (Tenali Taluk) ; Sangam Jagarlamudi is a village situated 10 Kms. from Tenali, on the Tenali-Narakodur road and about 3.2 Kms. south-east of the railway station bearing the same name. To the north of the village within a distance of about two-and-a-half kilometres is the "Sangama Sthala", the place of confluence of the Krishna river and the Tungabhadra drain.

Agnigundala (Ipur Taluk) : This upland village, situated 16 Kms. to the north of Vinukonda which is its nearest Railway station, is 5 kilometres away from the Vinukonda-Gurazala road. The village seems to have derived its name from the Agnigundam into which the widows of the copper mine workers of the village plunged after the disasterous death of their husbands due to the collapse of a tunnel over them in the course of excavation. On the south-western side of the village, the ruins of a fort can be seen. About 3 kilometres to the west of the village, there exists a big rock with nine wells known as Thommidi Donalu with perennial water supply. There are some old temples here, one of which is said to be beautifully sculptured.

Ipur (Ipur Taluk) : Ipur is situated 22 Kms. to the north of Vinukonda, its nearest railway station, on the Vinukonda-Gurazala line. This village is of much antiquarian interest. There are seven deserted temples with numerous inscriptions one of which has a date equivalent to A. D. 1278. There are nine inscriptions relating to the Kakatiya period at the place recording the gifts of lands, money and goats as offerings to the temple. Half a mile to the east of the village is a pillar of 2.42 metres height with Nagendrudu, popularly known as 'Nagulamma', carved on it and is declared a protected monument. The villagers pay their homage to this pillar on the Nagulachaviti day.

CENSUS CONCEPTS

Rural and Urban areas : It is customary to classify the population of every country at each census as rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the begining of each census, the criteria for treating a place as a town i,e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census operations, however was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census,

i) A minimum population of 5,000

ii) Atleast 75% of the Male working population is in non-agricultural pursuit

iii) A density of population of atleast 400 persons per Sq. Km.

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging, etc., were treated as engaged in non-agricultural and therefore contributed to the 75% criterion in 1961 and 1971 Censuses, whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below :

Classification of towns	Population size
Class I	1,00,000 and above
Class II	50,000-99,999
Class III	20,000-49,999
Class IV	10,000-19,999
Class V	5,000- 9,999
Class VI	below 5,000

The class I towns are termed as cities.

Standard Urban Area : Besides classification of all places into rural and urban areas, two more concepts viz., Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of A Standard Urban Area are : (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-econmic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continously for three decades which would give a meaningful picture. This replaced the concept of town-group which was introduced in the 1961 census. The town-group was made up of independent urban units not necessarily contiguous to

one another but were to some extent inter-dependent. The data for such town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripherial units.

Urban Agglomeration : Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes.

a) A city with continuous out growth (the part of out growth being out of the statutory limits but falling within the boundaries of adjoining village or villages);

b) One town with similar outgrowth or two or more adjoining towns with their out growths as in (a);

c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House : A Census house is a building or part of a building having a separate main entrance from the road or common court yard or stair case etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes / Scheduled Tribes : Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governer thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act. 1976, notified under the Government of India, Ministry of Home affairs, Notification No. BC 12016/34/76-SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates : A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker : The definition of work adopted in 1981 Census is as follows :

> "Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work."

In the concept of work a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired

according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic aproach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work;
2. Students i.e., all full-time students or children attending school;
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent;
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers – all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brougt out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The Village Statement : Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks: Sri R A Gopala Swamy, I.C.S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrate statistics and Part II the census tables where as in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz.,General population tables, economic tables on Scheduled castes and Scheduled Tribes. The fourth part consisted of

village and town directory which was the most vital part of the Handbook, giving the village-wise and town-wise primary census abstract i.e., particulars of area, household, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communieation facilities available were also indicated against each village and town. Nine such tables containing village-wise particulars such as irrigation sources, important crops raised, value of land, cooperative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census : At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons—1 inadequate printing facilities and 2, delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz.. Part A, part B and part C as shown below.

Part - A : Village and Town Directory

Part - B : Village and Town Primary Census Abstract

Part - C : Administrative Statistics and Report.

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However the printing of Part C was given up.

Pattern at 1981 Census : At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely inter-related.

Part - A : Analytical note

Part - B : Village and Town Directory and Village and Town-wise Primary Census Abstratct

It has been decided not to go in for administrative statistics that is Part - C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory : As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These

include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Col. 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or under water etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Column 15)

These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. **Cultivated area with Break-up irrigated and un-irrigated (Columns 16 & 17)**

This includes the land under the following three categories.

(i) Net area sown :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) Other fallows :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming, etc.

(iii) Current fallows

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. **Culturable waste (Column 18)**

This includes the land under the following three categories.

(i) Permanent pastutes & other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) Miscellaneous tree crops, groves not included in the area sown :

Under this class is included all cultivable land which is not included under net area sown but is put to some agritural use Land under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) Culturable waste :

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. **Area not available for cultivation (Column 19)**

This includes the land under the following two categories.

(i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or underwaters, e.g., rivers and canals and other lands put to uses other than agricultural.

(ii) Barren and uncultivable land :

This covers all barren and un-cultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest, and for information on the number of copies of newspapers circulated in the village, and the numer of motor cycles/scooters, cars/jeeps and tractors available in the village

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population, number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back ground that the item on aproach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and pirmary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory : There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted at 1971 census except for a few additional columns. The titles of the statements are as follws :

Statement	I	: Status and growth history
Statement	II	: Physical aspects and location of towns, 1979.
Statement	III	: Municipal Finance, 1978–79.
Statement	IV	: Civic and other amenities, 1979.
Statement	IV A	: Civic and other amenities in notified slums, 1979.
Statement	V	: Medical, educational, recreational and cultural facilities, 1979.
Statement	VI	: Trade, commerce, industry and Banking, 1979.

With a view to facilitate analysis of data, a few new columns have been introduced. The columns-class of town, in every statement, is a significant addition. By taking the class of town into consideration, the infrasturcture of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in statements III and IV and population in statements IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission, As a sequel to this programme, the columns, scheduled castes and scheduled tribes population in statement IV and adult literacy classes/centres in statement V are identical.

In case such of the amenity as fire fighting service in statement IV, the educational facility in in statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same State or other State where available along with its distance from the referrent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i.e., population by religion and scheduled castes/scheduled tribes in towns of 1971 census was discontinued at the 1981 census and a new Statement IV A has been introduced to explore the possibility of civic and other amenities available in notified slums in class I and II towns only.

The following 15 places have been treated as towns in Guntur District at the 1981 Census.

1. Bapatla
2. Bhattiprolu
3. Chilakaluripet
4. Guntur
5. Macherla
6. Mangalagiri
7. Narasaraopet
8. Phirangipuram
9. Ponnur
10. Repalle
11. Sattenapalle
12. Tadepalle
13. Tenali
14. Vijayapuri South
15. Vinukonda

Of these Bapatla, Chilakaluripet, Guntur, Mangalagiri, Narasaraopet, Ponnur, Repalle and Tenali are municipalities. All others except Vijayapuri South are panchayats.

Of these 15 towns, Bapatla, Guntur, Mangalagiri, Narasaraopet, Tenali and Vinukonda have been treated as towns as early as 1901. Ponnur has been classified as a town from 1911. Bhattiprolu, Chilakaluripet, Repalle and Sattenapalle are classified as towns from 1921. Phirangipuram is classified as a town from 1941. Macherla and Tadepalle have been classified as towns from 1951. Vijayapuri South is classified as a town in 1971. Piduguralla in Piduguralla Taluk which was a town at the 1971 Census has been declassified as rural in 1981 as it did not fully satisfy the criteria laid down for treating it as town. No town in this district has been treated as Urban Agglomeration. Guntur and Tenali, with the neighbouring villages as detailed below are treated as Standard Urban Areas.

Standard Urban Area	Component Units	
	Urban	Rural
1	2	3
1. Guntur	1. Guntur (M)	1. Takkellapadu 2. Agathavarappadu 3. Gorantla 4. Peda Palakalur 5. Nallapadu (R) 6. Ankireddipalem (R) 7. Guntur (R) 8. Budampadu 9. Etukur
2. Tenali	1. Tenali (M)	1. Kathevaram 2. China Ravuru (R) 3. Tenali (R) 4. Angalakuduru 5. Pinapadu (R) 6. Peda Ravuru

Among the 15 towns, Guntur and Tenali are cities with a population of one lakh and more and have therefore been categorised as class I towns. Bapatla, Chilakaluripet, Narasaraopet and Ponnur towns with a population ranging between 50,000 and 99,999 are taking class II classification. Macherla, Mangalagiri, Repalle, Sattenapalle, Tadepalle and Vinukonda are class III towns with a population ranging from 20,000 to 49,999. Bhattiprolu and Phirangipuram are the two class IV towns with a population ranging from 10,000 to 19,999. Vijayapuri South with a population between 5,000 to 9,999 is the only class V town. There are no class VI towns in

the district at the 1981 Census. The urban population of the district is 945,702 persons, out of a total district population of 3,434,724 persons constituting 27.53% of the total population of the district as against 25.0% urban at 1971.

Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 census and sex ratio from 1961 to 1981 densuses of each town in columns 2 to 19.

In this as well as in all other Town Direetory statements, columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the state and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000 — 99,999	II
20,000 — 49,999	III
10,000 — 19,999	IV
5,000 — 9,999	V
below 5,000	VI

The civic administrative status of the town is indicated in brackets by abbreviated letters like M for Municipality and P for Panchayat. The location code number under column 3 for each town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at State and all India levels. Area in sq. kms. and number of households including houseless households for each town is included in the Town Directory for the first time at 1981 Census. The population of the town with decadal growth rate from 1901 to 1981 Censuses is given in cols. 7 to 15. The percentage growth rate is indicated below the population in brackets Density for 1981 is a new column (col. 16) introduced to facilitate analysis of Town Directory data It has been calculated taking into account the area and the population of 1981 Census of the town and presented per sq. km. Sex ratio from 1961 to 1981 Censuses has been given in cols, 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1,000 males.

Guntur, Macherla, Mangalagiri, Narasaraopet, Phirangipuram, Ponnur, Sattenapalle, Tadepalle, Tenali and Vijayapuri South have kept up steady growth in their population while Bapatla had recorded a decline in its population growth during the decade ending 1921 Chilakaluirpet, Repalle and Vinukonda during the decade ending 1931 and Bhattiprolu during 1961 to 1971. However, these towns recouped in the successive decades by maintaining an upward trend in their population growth. It is also seen that Chilakaluripet, Macherla, Mangalagiri, Narasaraopet, Ponnur and Vinukonda have registered compartively high growth rate and the rise is particularly high during the decade 1971-81.

Of the 15 towns, in the district, Guntur town has the largest area of 30.01 sq. kms. Next to it comes Ponnur with an area of 26.16 sq. kms. The third important town as far as area is concerned is Bhattiproln with an area of 25.15 sq. kms.

Tenali with an area of 7.90 sq. kms. records the highest density of 15,096 persons per sq, km. as against the district average density of 302 persons per sq. km. Guntur, the district headquarters town, has recorded a density of 12,253 persons per sq. km.

Statement II : Physical aspects and location of towns, 1979

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under cols. 3 to 5 in the statement data relating to the rainfall as recorded in 1978, the maximum and minimum temperatures recorded in 1971 Census have been given. If this information was not available for any town, then the particulars available for the nearest town have been given against such town.

The towns of Chilakaluripet and Vijayapuri South are not having direct rail communication facility. The remaining towns have rail communication facility All the fifteen towns in the district are linked by bus

services. Ponnur, Repalle. Sattenapalle and Tadepalle have also navigation facilities by river canals.

Statement III : Municipal Finance, 1978-79

The data for inclusion in this statement were obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The total receipts and expenditure given under cols. 10 and 17 against the respective towns would reveal the financial position of the local body. The towns of Bhattiprolu, Chilakaluripet, Macherla, Mangalagiri, Narasaraopet, Repalle and Tenali were able to meet their requirements completely from their receipts while Bapatla, Guntur, Phirangipuram, Ponnur, Sattenapalle and Tadepalle have more expenditure than receipts. Vijayapuri South has no civic body and hence the particulars are not shown. In Bhattiprolu, Macherla and Sattenapalle towns, more than 25% of the total receipts is utilised for purposes of public health and conveniences. Only 8 towns have incurred expenditure on public institutions like schools and libraries, while the rest have not spent anything on these items.

Statement IV-Civic and other amenities, 1979

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

Fourteen towns in this district have open surface drains and in addition to this system, Guntur and Tenali have sewer system also. Vijayapuri south has sewer system only. All the towns have protected water supply through taps, wells, tubewells and tanks. In respect of Repalle and Tadepalle, the particulars of protected water supply are not available. All the 15 towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh, Domestic Service includes supply of energy for lighting, fans and domestic purposes in domestic premises and supply in poultry farming units upto 100 birds. Industrial Service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government Departments or cooperative house building societies and pumpsets of railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, through fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of electricity to places of worship like churches, temples, Mosques, gurudwaras, educational institutions, student hostels, municipal guest houses, Travellers'bungalows, circuit houses of the Government, charitable institutions and recognised service/institutions are included in "others".

Tenali has the highest number of industrial connections followed by Guntur. Guntur town has the largest number of road lighting points and the next largest is Tenali town.

Statement IV A-Civic and other amenities in notified slums, 1979

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in class I and II towns. Since the magnitude of slum is greater in respect of class I and II towns, presentation of data on slums is limited to class I and II towns only. Guntur and Tenali are class I towns and Bapatla, Chilakaluripet, Narasaraopet and Ponnur are class II towns in Guntur district.

Statement V - Medical, Educational, Recreational and Cultural facilities in towns, 1979

In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district.

All the towns in the district have hospitals. There are 311 medical institutions which include Government hospitals, dispensaries, nursing homes, Maternity and child welfare centres, T. B. clinics together with a total bed strength of 4,155 catering to the medical needs of the total urban population of 945,702 persons. Institutions covering all systems of medicine have been included in the statement.

Guntur, Sattenapalle and Narasaraopet towns possess medical facilities with 1,693, 540 and 400 beds respectively and this is comparatively better than the other towns in the district. There are 61 persons per bed in Sattenapalle, 168 persons in Narasaraopet and 179 persons in Mangalagiri.

There are 19 degree colleges including one law college in Guntur, 17 Junior Colleges, 72 High Schools 106 Junior Secondary and middle Schools and 361 Primary Schools in all the towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite school like middle schools with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For Example, if in a town there are two primary schools upto say class IV and one high school from class I to class X, the number of primary schools in the town is given as 3 and that of middle school as one and secondary school as one even though there are physically only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below:

Class	I	to IV	:	Primary
Class	V	to VIII	:	Middle
Class	IX	to X	:	Secondary
Class	XI	to XII	:	Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institutions and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as higher secondary i. e., class XI and XII may physically belong to a college but for the purpose of Town Directory these two classes put together constitute one unit of a higher secondary school and the rest of the college has been treated as a college.

There are 73 cinema halls, 58 public libraries including reading rooms in the district besides a stadium at Guntur. Except Bhattiprolu, Macherla, Narasaraopet and Tenali, all other towns have auditorium/community halls.

Statement VI - Trade, Commerce, Industry and Banking, 1979

Guntur district is industrially well developing. The Bajrang Jute Mills at Guntur produces jute gunnies and jute twine. The Krishna Cement works, a unit of Associated Cement Company located between Tadepalle and Mangalagiri and the Ramakrishna Cement Works at Macherla are engaged in the production of cement. There are 34 tobacco redrying factories in the district, of which 26 are in Guntur taluk, four in Narasaraopet, three in Bapatla and one in Sattenapalle. Among them, The Indian Leaf Tobacco Development Company Limited, M/s. National Tobacco Company of India Limited, Golden Tobacco Company Private Limited, East India Tobacco Company and Navabharat Enterprises Private Limited are important. Two fertiliser units, one at the Krishna Canal Railway station by E.I.D. Parry Limited and the other at Tadepalle by Messrs. Andhra Fertilisers Private Limited, manufacture mixed fertilisers, sulphuric acid and super phosphate.

The district is served by a net work of 98 banks of which 39 are located in Guntur, 15 in Tenali 6, each in Bapatla, Chilakaluripet and Narasaraopet, 5 in Repalle, 4 each in Ponnur and Vinukonda, 3 each in Mangalagiri and Sattenapalle, 2 each in Bhattiprolu and Macherla, one each in Phirangipuram, Tadepalle and Vijayapuri South. Twelve agricultural credit societies and 277 non-agricultural credit Societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each Ward/locality/block of a town in urban areas.

1. Location Code number and name of village/ town and area.
2. Total number of occupied residential houses and total number of households.
3. Total population and its sex breakup.
4. Population of Scheduled Castes and Scheduled Tribes by sex breakup.
5. Literate persons by sex.
6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories viz :

Category	I	: Cultivators
Category	II	: Agricultural Labourers
Category	V (a)	: Household Industry
Category III, IV, V(b) & VI to IX		: Other Workers and also the marginal workers and non-workers by sex.

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns are arranged in the ascending order of their L.C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L.C. Numbers is given at the begining of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc., or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Guntur district is as follows :

	Persons	Males	Females
Total	3,434,724	1,741,102	1,693,622
Rural	2,489,022	1,261,352	1,227,670
Urban	945,702	479,750	465,952

Column No. 1 & 2 indicate L.C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Guntur district was alloted L.C. No. 7. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L.C. Nos. of villages were given in Arabic numerals while those of towns in Roman numerals.

Column 3 ; This column shows the area of villages in hectares while the area of town is given in Sq. Kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers, and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the towns from the total area of the district. The are a figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a

district put together may not tally with the district area figures.

Column 4 : Number of occupied residential houses in a village/town includes partly residential houses also.

Column 5 : This column includes houseless households and institutional households as well.

Columns 6 to 8 : Total population includes houseless and institutional population with sex break up.

Columns 9 to 12 : Under these columns the population of S. Cs. and S. Ts. by sex is given. A copy of the list of S.Cs. and S.Ts. in Andhra Predesh as notified in Presidential Order No. BC 12016/34/76-SCT V dated 27-7-1977 is given below.

LIST OF SCHEDULED CASTES AND SCHEDULED TRIBES IN ANDHRA PRADESH

SCHEDULED CASTES

24. Pardhan
25. Porja, Parangiperja
26. Reddy Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti (in Adilabad, Karimnagar, Khammam Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)
32. Yanadis
33. Yerukulas

Columns 13 & 14 : Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Columns 15 to 28 : At the 1981 Census, population has been broadly divided into three Sections based on main activity viz., workers, marginal workers and non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work ; Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked for 6 months or more are classified under cultivator, agricultural labourer, household industry and other workes according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator : For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural labourer : A person who works in another persons land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all goverement servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 723,458 occupied residential houses and 764,739 households in Guntur district compared to 547,216 residential houses and 615,139 households in 1971 registering an increase of 32.21% in number of residential houses and 24.32% in number of households.

The total number of persons returned at the 1981 census in Guntur district was 3,434,724 as against 2,844,488 in 1971 census recording an increase of 20.75% over the population of 1971. The proportions of rural and urban population to the total population in the district works out to 72.47% and 27.53% respectively in 1981 census compared to 75% and 25% in 1971. There were 973 females per every 1,000 males at the 1981 census as against 974 females per 1,000 males in 1971 census.

Guntur District returned 1,238,404 literates in 1981 census forming 36.06% of the total population of the district compared with 874,047 literates constituting 30.73% at 1971 census. The sex break up of literacy rates during 1981 census is 45.25% among males and 26.60% among females. Rural-urban break up of literacy rates indicate 30.83% are literates in rural areas while this is 49.81% among the urban population. The corresponding rural and urban rates of literacy at 1971 were 25.64% and 46.01% respectively.

There are 1,500,725 workers constituting 43.69% of the total population at the 1981 census as of against 1,143,964 workers forming 40.22% in 1971 Census. As of 1981 census 57.91% of the males and 29.07% of the females constituted the workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 714 villages in the district at the 1981 Census as against 716* at 1971. Out of the 714 villages, 692 are inhabited while 22 villages are uninhabited. 16 inhabited villages are reported as partly included in different towns of the district.

14 villages which are fully included in urban areas are not taken into account in computing the total number of villages in the district. The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Guntur taluk has more urban population than other taluks, while Vinukonda taluk has the least urban population as per 1981 Census. Ten taluks are returned as exclusively rural taluks.

Table 1

POPULATION, NUMBER OF VILLAGES AND TOWNS 1981

Sl. No.	Name of Taluk	Population									No. of Villages		No. of Towns

* Variation is due to the convertion of one main revenue village into a hamlet and marger of one revenue village with the other village. One village has lost its rural characteristics by virtue of its inclusion fully in the urban area. Similarly, one town i.e., Piduguralla has lost its urban character as it has been degraded into a revenue village during the decade.

Table 2 compares the taluk-wise population of 1971 and 1981 Censuses for total, rural and urban areas. Piduguralla taluk has recorded the highest growth rate of 37.65% during the decade 1971-81, while Amruthalur taluk has recorded the lowest growth rate of 3.35%.

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either eompletely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 2000-4,999 population and form 49.13% of total villages in this district.

Table 3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of population	No· of Villages in each range	Percentage of Villages in each range
1	2	3
— 199	7	1·01
200— 499	23	3·32
500—1,999	169	24·42

5,000—9,999	136	19·66
10,000+	17	2·46
Total	**692**	**100.00**

The following table presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per Sq. Km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 201-300. More than 69% of villages come under density group 201 and above. This district has returned a density of 302 persons per square kilometre as against 195 persons for the State.

Table 4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq· km·)	Total No· of villages in each density range	Percentage of villages in each density range
1	2	3
— 10	1	0·14
11— 20	2	0.29

301— 500	190	27·46
501+	95	13·73
Total	**692**	**100.00**

According to 1981 Census the population of Scheduled Castes in Guntur district is 316,764 accounting for 9.22% of the total population of the district. Scheduled Caste population in this district forms 3.98% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 70% of the villages have Scheduled Caste population in a percentage range below 15 and only 4.77% of villages are without Scheduled Caste population.

Table 5

PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN THE VILLAGES

Total	**692**	**100.00**

Table 7 provides the total population, scheduled caste and scheduled tribe population in the towns of the district and the respectve percenatges.

Total Scheduled castes population in all the urban areas of the district at 1981 Census was 63,466 persons representing 6.71% of the total urban population. Among the towns, proportions of Scheduled castes population vareis from 2.61% in Narasaraopet town to 15.79% in Vijayapuri South town.

The Scheduled tribes population in urban areas of the district according to 1981 Census is 31,778 persons constituting 33.6% of the total urban population. The proportions of scheduled tribes population varies from 2.18% in Guntur town to 6.61% in Chilakaluripet town.

Table 7

PROPORTION OF SCHEDULED CASTES/SCHEDULED TRIBES POPULATION IN TOWNS

The following Table 8 gives the literacy rates by population ranges of villages in the district. Guntur district occupies 4th rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 7.72% of the total Andhra Pradesh literates.

Highest literacy rate of 35.88% is found in villages with 10,000+ population.

Table 8

LITERACY RATES BY POPULATION RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
— 199	7	17.48
200 — 499	23	19.48
500 —1,999	169	28.10
2,000 —4,999	340	29.07
5,000 —9,999	136	32.47
10,000 +	17	35.88
Total	**692**	**30.83**

Table 9 shows the literacy rates for the towns in the district as per 1981 Census.

The literates in all the 15 urban areas in the district together constitute 471,080 persons forming 49.81% of the urban population. Among the towns the literacy rate varies from 39.23% in Chilakaluripet to 58.30% in Repalle town. The literacy rate in Guntur, the district headquarters town, is 49.96%.

Table 9

LITERACY RATES FOR TOWNS

All Towns	**49.81**

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. Guntur district has returned 36.06% of the total population of the district as literates. Tenali taluk has returned 47.67% of literates and this is the highest in the district. Guntur taluk has returned the largest number of workers 84,027 in its rural areas accounting for 6.44% of the total rural workers of the district and 52.53% of the total rural population of the taluk. Prathipadu taluk stands first among the taluks in the district in the proprotion of workers to total population. Amruthalur taluk has returned 16.70% of scheduled caste population while the least is in Piduguralla taluk with 5.36 %. In rural areas of taluks, Amruthalur with 16.70% stands the highest while Macherla recorded the last position with 5.13%. The percentage of scheduled caste population in urban areas range between 11.62% to 2.61% among the taluks.

Macherla taluk has recorded highest proportion of scheduled tribe population with 8.42% while Guntur has the least proportion of scheduled tribe population with only 2.33%.

Distribution of villages according to the availability of different amenities by taluks is presented in this table. As seen from the table, drinking water facility is available in all the villages, while amenities of Education, P & T. approach by pucca Road power supply and communications are available in respect of 98.70%, 88.87%, 87.28%, 85.40% and 81.21% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 45.81% of villages have medical facility and 1.16% of villages have market facilities.

The table clearly sets out the talukwise position of various amenities.

Tabel 11

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Table No. 12 gives the taluk-wise proportion of rural population served by the different amenities.

Only 61 percent of the rural population has medical facilities while about 2% of the rural population has access to market facilities. More than 90% of the rural population has P & T, approach by pucca road and power supply and communication, while 100% of the rural population has access to education and drinking water facilities.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. All the villages in this district have drinking water facility. Only 9 villages do not have education facility within the village, but these are available at different distance ranges. Large number of villages do not have market, medical and communication facilities within the village, but these facilities are available at different distance ranges outside the village. Only 77 villages do not have P & T facility.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING *CERTAIN AMENITIES, ARRANGED BY* DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE.

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+kms.	Total (cols. 2-4)
1	2	3	4	5

3 P & T	64	12	1	77
4 Market	82	152	450	684
5 Communications	99	29	2	130

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

15.02% of the villages have town within the range of 5 kms. About 45.95 per cent of the villages have towns within a range of 6-15 kms., while among the balance all except one have nearest town located within 16-50 kms. and village is beyond 50 kms. distance. As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST *TOWN AND AVAILABILITY OF DIFFERENT AMENITIES*

Distance range from the nearest town (in kms.)	No. of inhabited villages in each range	Number (with percentage, of villages having the amenity of: Education	Medical	Drinking Water	Post & Telegraph	Market	Communications	Approach by Pucca Road	Power Supply

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999 and 5,000+ are considered and the villages are distributed in these ranges. About 49.13% of the villages are in the range of 2,000-4,999, while the villages less than 500 and those in the range of 500-1,999 form 4.34% and 24.42% respectively. 22.11% of the villages are in the category of 5,000+. It is interesting to note as the population range increases, the amenities available in the villages are also on the increase. As has been observed earlier, only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 63.87% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 614, 063.90 hectares 313,996.68 hectares forming 51.13% is only tenable. Ponnur taluk has the largest percentage of cultivable area of 86.58% while the irrigated area is about 74.84% of cultivable area. Macherla taluk has the least proportion of cultivable area of 34.93%. Among the taluks in the district Amruthalur taluk has the highest percentage of 95.98% irrigated area to total cultivable area of the taluk.

	(i) Piduguralla	17,420

Table 20 deals with the finances indicating the receipts and expenditure in towns in the district in 1979.

Of the 15 urban areas in the district, the highest per capita receipt is noticed in Repalle Municipality (Rs. 112.83) followed by Chilakaluripet Municipality (Rs. 108.03) and Narasaraopet Municipality with (Rs. 102.31) takes the third rank. The lowest per capita receipt is recorded in Phirangipuram Panchayat (Rs. 7.01). Receipts through taxes is highest in Guntur Municipality (Rs. 26.99) while this is lowest in Macherla Panchayat (Rs. 4.58). From all other sources together, the highest per capita receipt is seen in Repalle Municipality (Rs. 97. 52) followed by Chilakaluripet Municipality (Rs. 94.60) and Narasaraopet Municipality (Rs. 84.01) while the lowest per capita receipt is recorded by Sattenapalle Panchayat (Rs. 4.42).

Bapatla Municipality stands first among the urban areas of the district with its per capita expenditure of (Rs. 91. 80) followed by Repalle Municipality (Rs. 87.75) and Guntur Municipality (Rs. 87.37). Phirangipuram Panchayat ranks last in per capita expenditure (Rs. 8.06). The per capita expenditure of Rs. 12.10 on public health and conveniences in Bapatla town is the highest among the towns while Phirangipuram and Tenali towns have the minimum of Rs. 0.87 each. The highest per capita expenditure of Rs. 21.62 on public institutions like schools and libraries is recorded by Bapatla town. No expenditure is incurred by Bhattiprolu, Guntur, Macherla, Phirangipuram, Tadepalle and Vinukonda towns for this purpose.

Of the 15 towns in the district, 6 towns viz., Bapatla, Guntur, Phirangipuram, Ponnur, Sattenapalle and Tadepalle are functioning with deficit budget while Vijayapuri South has no civic body. Chilakaluripet, Narasaraopet, Repalle and Tenali are having considerably more per capita receipts than per capita expenditure.

*The information is not available for Vijayapuri South as its Civic status is not yet determined. The population of this town is not considered in arriving at per capita receipts and expenditure.

Table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following table refers generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appearing at the different grades of examination conducted by the concerned examination boards periodically.

There are 361 primary schools, 106 upper primary schools, 72 high schools and 17 junior colleges in all the urban areas of the district.

Table 21

From the table 22 it can be seen that the number of beds available in urban areas of this district is very low being 4.39 beds per every 1,000 population. More than one-third of the total bed strength in the urban areas of the district is concentrated in Guntur City, the district head quarters. The bed-population ratio is highest in Sattenapalle town where there are 16.36 beds per 1,000 pepulatlon. Guntur, Mangalagiri, Narasaraopet, Ponnur and Repalle have recorded the bed-population ratio more than the district average. All other towns have this ratio less than the district index.

Table 22

NO. OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Class, Name and Civic status of the town	No· of beds in medical institutions per 1,000
1	2
II Bapatla (M)	2·80
IV Bhattiprolu (P)	—
II Chilakaluripet (M)	4·35
I Guntur (M)	4·60
III Macherla (P)	1·53
III Mangalagiri (M)	5·59
II Narasaraopet (M)	5·97
IV Phirangipuram (P)	3·00
II Ponnur (M)	5·26
III Repalle (M)	5·42
III *Sattenapalle* (P)	16·36
III Tadepalle (P)	0·41
I Tenali (M)	1·68
V Vijayapuri South (—)	3·23
III Vinukonda (P)	3·30
Total	**4·39**

The table 23 which provides information on proportion of slum population to total population in towns is limited to class I and II towns as the magnitude of slum problem is greater in these categories of towns.

Guntur and Tenali are class I towns and Bapatla, Chilakaluripet, Narasaraopet and Ponnur are class II towns in this district.

Table 23

PROPORTION OF SLUMS POPULATION IN TOWNS

Class, name and civic status of the town	Proportion of slums population to total population of the town	Density in slums (per sq. km.)
(1)	(2)	(3)
II Bapatla (M)	N, A.	N. A.
II Chilakaluripet (M)	N. A.	N. A.
I Guntur (M)	8·77	67,188

Table 23 *(Concld.)*

PROPORTION OF SLUMS POPULATION IN TOWNS

Class, name and civic status of the town	Proportion of slums population to total population of the town	Density in slums (per sq. km.)
(1)	(2)	(3)
II Narasaraopet (M)	28·56	13,676
II Ponnur (M)	7·06	59,067
I Tenali (M)	17·86	17,750
Total	**12.62***	**24,280***

* While calculating the total Proportion of slum population and density, Bapatla and Chilakaluripet towns are not considered as the information is not available.

Table 24 gives the details of most important commodities manufactured, exported and imported in all the towns of the district. This table is self explanatory.

Table 24

MOST IMPORTANT COMMODITY MANUFACTURED, IMPORTED AND EXPORTED IN TOWNS

Class, name and civic status of the Town	Most important commodity		
	Manufactured	Exported	Imported
(1)	(2)	(3)	(4)
II Bapatla (M)	Rice	Rice	Dall
IV Bhattiprolu (P)	Straw Boards	Fruits	Yarn
II Chilakaluripet (M)	Iron Furniture	Cotton	Paddy
I Guntur (M)	Gunny Bags	Tobacco	Metal
III Macherla (P)	Cement	Cement	Coal
III Mangalagiri (M)	Handloom Cloth	Handloom Cloth	Yarn
II Narasaraopet (M)	Groundnut Oil	Rice	Jaggery
IV Phirangipuram (P)	Handloom Cloth	Paddy	Sugar

I Tenali (M)	Zink Buckets and pots	Rice	Wheat
V Vijayapuri South (—)	..	Fish	Rice
III Vinukonda (P)	Redgram	Rice	Cloth

Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After the independence the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows ;

"The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present."

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities he was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Guntur district is given below.

Physically handicapped form 0.18% of the total population in the district, comprising of 0.21% of rural and 0.11% of urban population. Out of the total 6,392 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district, as many as 5,361 persons forming 83.87% are from rural areas only. Among the total physically handicapped in the district 32.98% are totally blind. 31.59% are totally crippled and 35.43% are totally dumb. The survey revealed that Guntur taluk has recorded the highest number of physically handicapped persons accounting for 857 persons, the lowest being Tadikonda taluk with 158 persons.

PART - B

VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT

SECTION I - Village Directory
SECTION II - Town Directory
SECTION III - Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

EDUCATIONAL : (COLUMN NO. 5)

P	:	Primary or Elementary School (Upto Class IV)
M	:	Middle School or Junior Secondary (Class V to VIII)
H	:	Matriculation or Secondary School (Class IX and X)
JC	:	Higher Secondary/PUC/Intermediate/ Junior College
C	:	College
I	:	Industrial School
Tr	:	Training School
AC	:	Adult literacy class/centre
O	:	Other educational institutions which include Sanskrit Pathasala, Senior Basic School

MEDICAL: (COLUMN NO. 6)

H	:	Hospital
MCW	:	Maternity and child welfare centre or Maternity and child Health Centre
MH	:	Maternity Home
CWC	:	Child Welfare Centre
HC	:	Health Centre
PHC	:	Primary Health Centre
PHS	:	Primary Health Sub-Centre
D	:	Dispensary
FPC	:	Family Planning Centre
TB	:	T.B. Clinic
NH	:	Nursing Home
RP	:	Registered Private Practitioner
SMP	:	Subsidised Medical Practitioner
CHW	:	Community Health Worker
O	:	Others

DRINKING WATER : (COLUMN NO. 7)

T	:	Tap
W	:	Well
TK	:	Tank
TW	:	Tube Well
HP	:	Hand Pump
R	:	River
F	:	Fountain
C	:	Canal
L	:	Lake
S	:	Spring
N	:	Nallah
O	:	Others
NA	:	Information not available

POST AND TELEGRAPH : (COLUMN NO. 8)

PO	:	Post Office
TO	:	Telegraph Office
PTO	:	Post and Telegraph office
Phone	:	Telephone Connection

COMMUNICATIONS: (COLUMN NO. 10)

BS	:	Bus Stop
RS	:	Railway Station
NW	:	Navigable Waterway

APPROACH TO VILLAGE : (COLUMN NO. 11)

PR	:	Pucca Road
KR	:	Kuccha Road
NR	:	Navigable River
NC	:	Navigable Canal
NW	:	Navigable Waterway
FP	:	Foot Path

POWER SUPPLY : (COLUMN NO. 13)

ED	:	Electricity for domestic purpose
EAG	:	Electricity for Agriculture
EO	:	Electricity for other purposes like industrial, commercial, etc.
EA	:	Electricity for all purposes listed above

IRRIGATED BY SOURCE: (COLUMN NO. 16)

GC : Government Canal

PC : Private Canal

W : Well (without electricity)

WE : Well (with electricity)

TW : Tube Well (without electricity)

TWE : Tube Well (with electricity)

TK : Tank

R : River

L : Lake

WF : Water Fall

O : Others

T : Total

REMARKS, ETC. (COLUMN NO. 20)

N : Copies of the News Papers (Coming in the village)

M : Motor Cycles/Scooters

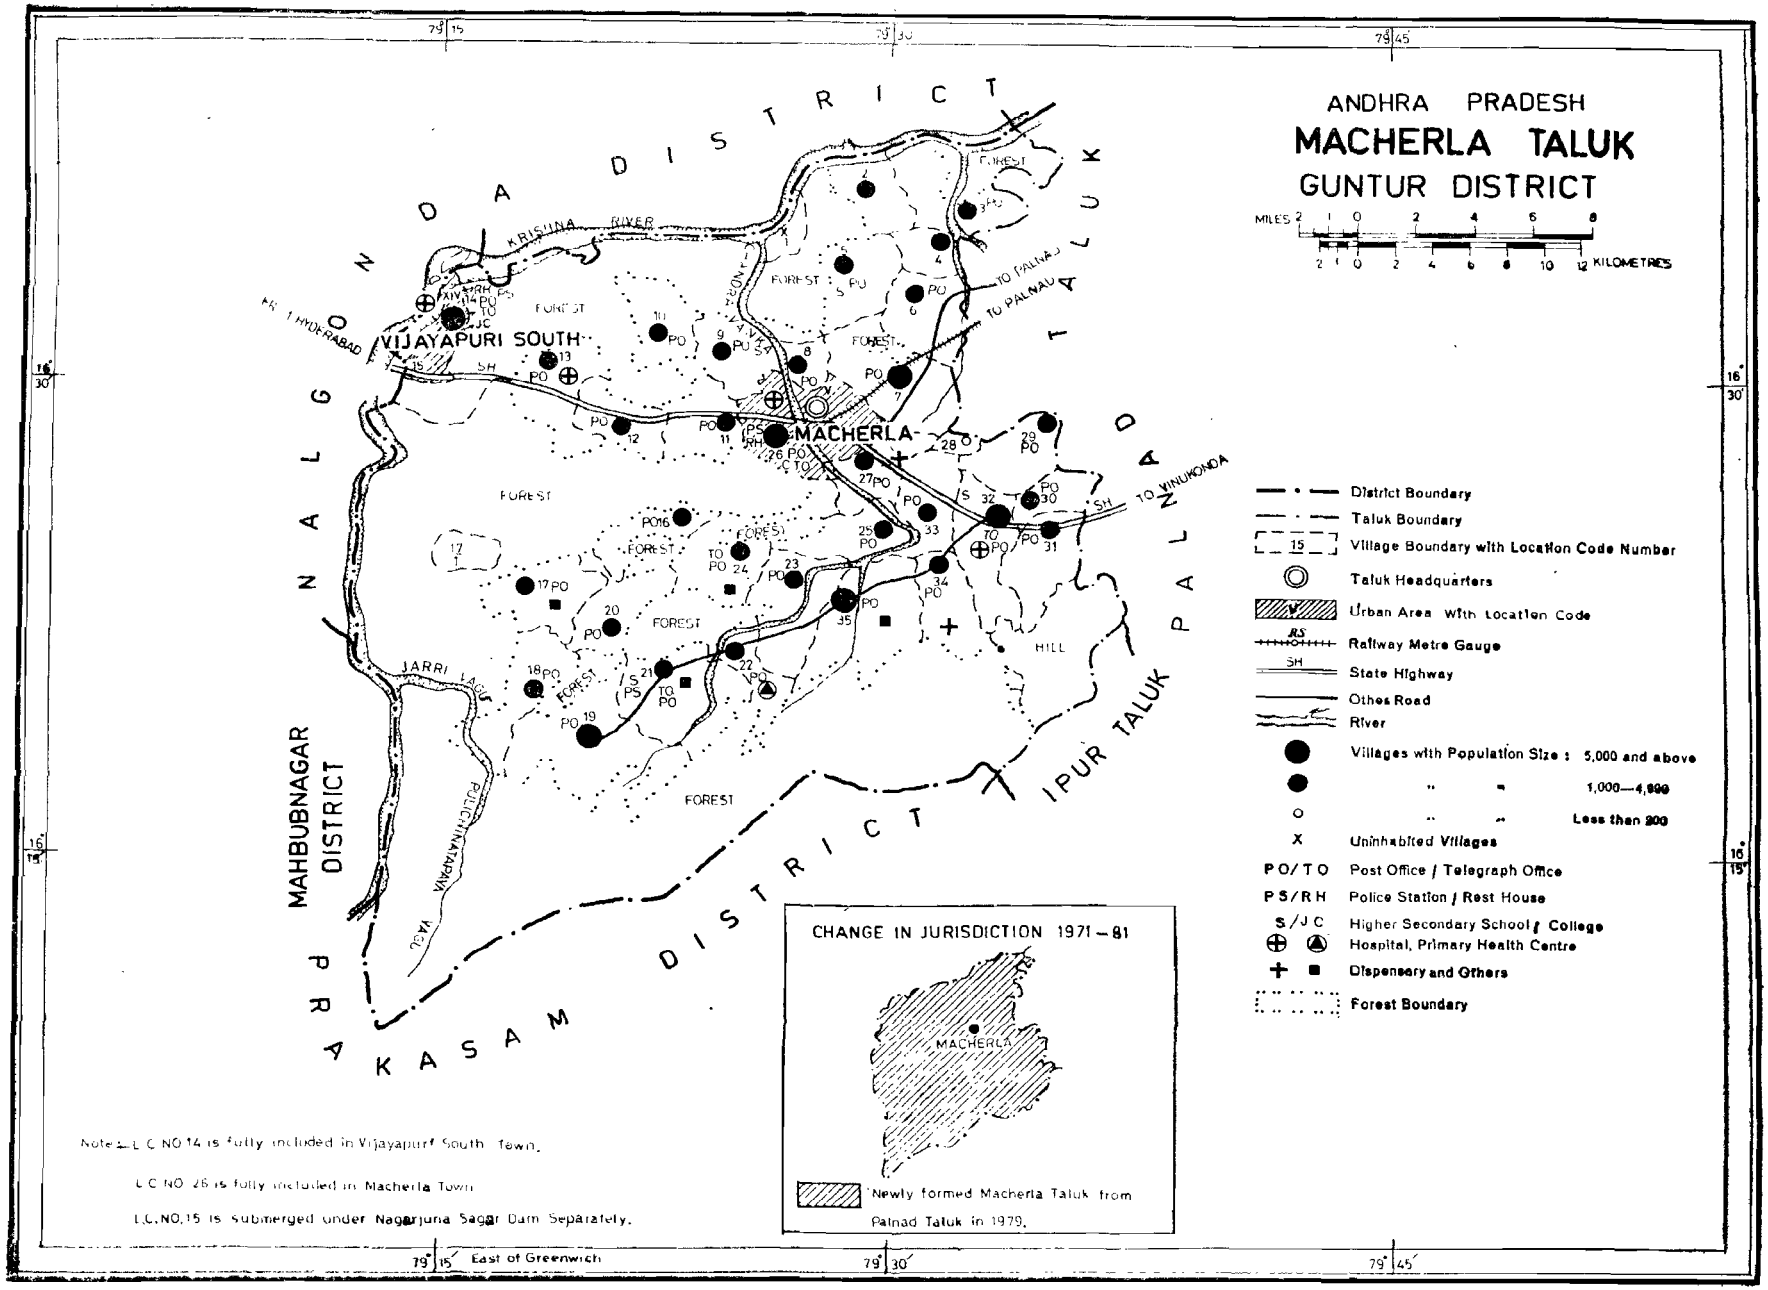

C : Cars/Jeeps

T : Tractors

As an example an entry showing figures like P(2), or D(2), or T(35.21), (TK 35.21) would indicate that the village has two primary schools, two dispensaries, extent of total irrigated land in the village is 35.21 hectares and extent of land irrigated by water from tanks is 35.21 hectares.

Where a facility is not available in the village the distance at which the facility available is shown in broad ranges viz., -5 kms; : 5-10 kms. and 10+kms. of the nearest place.

MACHERLA TALUK

Note:- L C NO 14 is fully included in Vijayapuri South Town.

L C NO 26 is fully included in Macherla Town

L.C. NO. 15 is Submerged under Nagarjuna Sagar Dam Separately.

REPALLE TALUK

ANDHRA PRADESH
REPALLE TALUK
GUNTUR DISTRICT

CHANGE IN JURISDICTION
1971—81

Area transferred to newly formed Pallapatla Taluk from Repalle Taluk in 1979.

Note, L.C.No.3 is fully and 4 is partly included in Bhattiprolu Town.
L.C.No. 23 is fully and 24 is partly included in Repalle Town.

Based upon Survey of India map with the permission of the Surveyor General of India.

The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

© Government of India Copyright, 1986.

SECTION–II
Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town the codes used are :

Municipal Corporation/ *Corporation :*	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca Road	PR
Kuccha Road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel Barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows :

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In Statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used :

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T. B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D(2) ; NH (7) etc.

To distinguish the medical institutions as Allopathic, or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H(A-1,2), D (Hom.-2, U-1)

Here H(A-1,2), represents one Ayurvedic and 2 Allopathic hospitals and D (Hom.-2, U-1) represents 2 Homoeopathic and 1 Unani Dispensaries.

The Codes used for the Col. 6 are as follows :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type
Shorthand & Typewriting	Sh. Type
Others	O

The vocational institutions like Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training institutes, Music/ Dancing School, Nursing School, etc. are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary Schools. Schools upto Class VIII are treated as Junior Secondary or Middle schools. Schools upto Class X are treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/ Intermediate/Pre-University/Junior College etc.

Under Col. 20 the abbreviations given are as follows :

Public library	PL
Reading Room	RR
