STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

A District Census Hand Book for each of the 20 Districts in Andhra Pradesh

PRINTED BY THE HYDERABAD BULLETIN PRESS, SECUNDERABAD FOR THE DIRECTOR OF PRINTING, HYDERABAD.

PREFACE

The District Census Handbook is an innovation introduced at the 1951 Census. The Handbooks are compiled by the Census Office but published by the State Government. They proved to be very popular and valuable publications in considerable demand by the public as well as the offical users of the Census data. At the 1961 Census, therefore, it was decided not only to continue the publication of the District Census Handbook but to greatly improve upon its precursor of 1951.

The present District Census Handbook may be conveniently divided into four parts. The first part consists of a narrative description of the physical features and history of the district, the social and economic characteristics of the people and the progress made by the district in each field of administration over the past decades. This is supplemented by a gazetteer of places. The second part consists of administrative statistics of various departments. The third part is based mainly on the present Census returns and consists of statistical tables giving the particulars of population, sex ratio, the economic composition, literacy, language and migration data, etc. The fourth part consists of Village and Town Directory which is perhaps the vital part of the Handbook giving villagewise and townwise particulars of area, households, population, Scheduled Castes and Scheduled Tribes, literacy, broad categorisation of working population, etc. Against each village and town the educational, medical, public health, and transport facilities, etc., if available, have also been indicated. At the end of the fourth part a tabular statement of fairs and festivals, information about which had been collected through the Census enumerators will also be found. The pages of each part are numbered separately. The Handbook is enriched with two district maps one showing the administrative divisions and important communications, rivers, etc., and the names of all important places of above 5,000 population and the other showing the talukwise density of population. In the Village Directory portion of the Handbook, before the statistics of each taluk are presented, a taluk map showing the village and town boundaries with the location code number of each village and town marked will also be found. Thus the District Census Handbook is a self-contained and convenient book of reference about almost all matters pertaining to the district.

The Handbooks are no doubt coming rather late, a few years after completion of the Census count. This delay, if at all it can be called delay, could not be helped. The very detailed sorting of Census slips and compilation of the elaborate 1961 Census tables were time consuming; the adminstrative particulars for incorporation in the Handbooks had to be collected from different departments and other sources on proformae that were finalised and circulated from this office; the preparation of the excellent maps of the district and the taluks, attempted this time, also required considerable time; and lastly the printing of these voluminous reports which had to be done very carefully was a laborious process. All the same it is hoped that these Handbooks will serve as valuable sources of reference about all matters pertaining to the district and help one to assess the impact of the Five Year Plans and the progress each district had made in its social and economic well being over the decades and also serve as a guide in planning for the future. The credit for the compilation of the Handbook goes chiefly to Shri K.M. Ahmad, I.A.S. and Shri P.S.R. Avadhany Deputy Superintendents of Census Operations. Shri Ahmad took great pains to tour the district, contact the various officers of the district and dig out information from various sources. A compilation of this type and magnitude could have taken a much longer time but for the diligent efforts of Shri Ahmad and Shri Avadhany. The Handbook section of the Census Office under the Tabulation Officer Shri K. Narasimha Murthy, did a commendable work in the speedy and accurate compilation of the Village Directory and the other Statistical and Administrative tables. Shri M. J. Sadiq and Shri G. Pandurangam of the Cartographic Section in my office did a magnificent work as will be evident from the quality of maps that have been produced.

A. CHANDRA SEKHAR

Superintendent of Census Operations
Andhra Pradesh

ADMINISTRATIVE STATISTICS

SERIES 1–VITAL STATISTICS

Table No.		
1.1	Births and Deaths and Deaths due to the various causes for the decennium 1951-60	(1)
1.2	Registered Birth & Death rates, Infantile and Maternal Mortality Rates	(2)

SERIES 2–AGRICULTURE

2.1	Rainfall	(3)-(5)
2.2	Temperature	(6)
2.3	Land Utilisation Statistics	(7)
2.4	Area under Principal Crops	(8)
2.5	Gross Area Irrigated	(9)
2.6	Sources of Irrigation	(9)
2.7	Irrigation Projects with their particulars of capacity and water spread area	(10)
2.8	Yield rates of the Principal Crops per acre	(10)
2.9	Monthly wholesale price quotations in respect of staple foodgrains	(11)

Table No.		*Pages*
	SERIES 2-AGRICULTURE—*Concld.*	
2.10	Statistics of wages (Average daily wages paid to skilled and Agricultural Labour)	(12)-(14)
2.11	Government Experimental Farms	(15)
2.12	Grow More Food Campaign	(16)
	SERIES 3-ANIMAL HUSBANDRY	
3.1	Livestock and Poultry	(17)
3.2	Livestock Mortality due to contagious and other diseases	(18)
3.3	Government Veterinary facilities	(19)
	SERIES 4—INDUSTRIES	
4.1	List of Small Industries together with the number of establishments and persons employed in each of them in the various taluks of the district	(20)-(21)
4.2	Total number of Artisans of each category working in the district together with their daily average earnings	(22)
4.3	List of Factories (Large Industrial Establishments) under the operation of the Factories Act, 1948 for the year, 1962	(23)-(40)
	SERIES 5—ADMINISTRATION	
5.1	Criminal Justice—Number of Criminal cases disposed off	(41)
5.2	Criminal Justice—Persons convicted or bound over in	(42)
5.3	Civil Justice	(42)
5.4	Number of Judicial Officers	(43)
5.5	Strength of Police	(43)
5.6	Major Crimes reported	(44)
5.7	Property stolen and recovered	(44)
5.8	Number of Jails with their capacity and number of prisoners lodged	(45)
5.9	Registered Motor Vehicles	(45)
5.10	Receipts realised under Motor Vehicles Act	(46)
5.11	Land Revenue Demand and Collections	(46)
5.12	Number of Registered documents and value of properties transferred	(47)
5.13	List of Collectors that worked in Guntur District from 1925	(47)
5.14	List of Judges who presided over the Civil or District and Sessions Court of Guntur District from 1924	(48)

PART I

INTRODUCING THE DISTRICT

GUNTUR DISTRICT

ANDHRA PRADESH

GUNTUR DISTRICT

Prepared in the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

CHAPTER I

GENERAL DESCRIPTION

Situation and Physical characteristics :

Guntur district lies between 15° 18' and 16° 50' of the northern latitude and 70° 10' and 80° 55' of the eastern longitude. The shape of the district is roughly the picture of an umbrella spreadout with the handle pointing out southwards. It is bounded on the north by Nalgonda and Krishna districts, on the east by Krishna district and Bay of Bengal, on the south by Nellore district and on the west by Kurnool and Mahbubnagar districts.

The district may broadly be divided into three regions namely, the delta, the stony upland and hills and the black cotton plains.

The Eastern ghats and its outliers stretch along the western frontiers of the district. Bare hillocks lie here and there in Guntur, Vinukonda and Sattenapalle taluks relieving the monotony of the scene and finally Palnad taluk forms an amphitheatre surrounded by hills. The general character of the rest of the district is a flat open plain of black cotton soil broken by a few low hills, the chief of which are the Kondaveedu range (1,700 ft.) in the Narasaraopet taluk and in the Chimakurthi firka in the Ongole taluk (2,000 ft.). This plain is fringed along the sea coast by ridges of blown sand which extend inland for several miles. There are no forests worth the name in the district and most of the reserved forests in the district contain nothing but scrub jungles. In the sandy tract of Bapatla taluk there is a large track of soapnut jungle, and there are dense mangrove swamps in the Repalle taluk adjoining the Bay of Bengal. Casuarina plantations are extensively carried on in the coastal belt of Ongole, Bapatla and Repalle taluks. There is also a luminant growth of cashewnut in this region.

The taluks of Tenali, Repalle, a major portion of Bapatla and a small area in the Guntur taluk form the deltaic portion of the district which is commanded by the Krishna Delta System. When Nagarjunasagar Project is completed more area of this district will come under the delta system.

This district was constituted on the 1st of October, 1904 comprising the taluks of Tenali, Bapatla, Guntur, Sattenapalle, Narasaraopet, Palnad and Vinukonda of the old Krishna district and the Ongole taluk from the Nellore district. Tenali taluk was split up into Tenali and Repalle taluks on the 1st of July, 1909. The district remained almost unaffected except for some minor territorial changes of villages. During the decade 1951-61 Potharlanka and Gajullanka villages of Divi taluk of Krishna district and Kotikalapudi village of Darsi taluk of Nellore district were transferred to this district. Krishnapuram, Pedda Uyyalawada and Chinna Uyyalawada villages of Ongole taluk and a small forest area of Palnad taluk were transferred from this district to Nellore and Nalgonda districts respectively. The district at the 1961 Census occupies an area of 5,780·0 sq. miles and has a population of 3,009,900 (1,522,865 Males and 1,487,035 Females). The district has altogether 932 inhabited villages, 38 uninhabited villages, 20 towns and 605,701 occupied residential houses. This district has recorded the highest population of all the districts in the State. The density of population works out to 521 persons per sq. mile. The district is at present divided into four Revenue divisions and nine taluks for purpose of Revenue administration as shown below. Each Revenue divison is incharge of a Revenue Divisional Officer or a Sub-Collector and each taluk under a Tahsildar.

STATEMENT I-1

Name of the Revenue Division (1)	Names of the taluks included in the Revenue division (2)	Area in Sq.miles (3)	No. of Villages (4)	No. of Towns (5)	Population as per 1961 Census (6)	Density per sq. mile (7)
Ongole	Ongole	820.2	174	2	388,150	474

Narasaraopet	Narasaraopet	716.0	114	2	321,337	449
	Vinukonda	644.0	78	1	124,572	193
	Palnad	1,039.0	93	2	227,744	219
District Total		5,780.0	970	20	3,009,900	521

Rivers :

The principal rivers flowing in this district are Krishna, Gundlakamma, Musi, Naguleru and Chandravanka. The river Krishna which rises in Mahabaleshwar in Maharashtra State, after flowing through Maharashtra and Mysore States and forming the border between Mahbubnagar and Kurnool districts reaches Guntur district near Ganikonda hills at the south western portion of Palnad taluk and skirts the district along the entire northern and greater part of the eastern boundary and after a course of nealy 80 miles finally falls into the Bay of Bengal. The river forms the dividing line between Guntur district on one side and Krishna and Mahbubnagar districts on the other side. The Gundlakamma river rises in Cumbum taluk and traverses the Vinukonda and Ongole taluks in the district. The Musi river from Nellore district also flows across the southern portion of Ongole taluk. The Naguleru river rises in the hills near Nayakurali Kanuma in the Vinukonda taluk and flows northwards across Palnad taluk and joins river Krishna. A stone dam constructed across it at Dachepalle irrigates about 350 acres of land. Chandravanka river also flows north across Palnad taluk and joins the river Krishna. There are other streams of minor importance in this district.

Climate :

The climate is generally very warm in summer. The heat in the summer is severe in the uplands, especially in the tracts adjoining the hills. The climate is comparatively cooler in the villages bordering on the sea like Chirala, Vetapalem and Vodarevu in Bapatla taluk and Kothapatnam in Ongole taluk. Rentachintala records the highest temperature both in the district as well as in the State.

Rainfall :

The normal rainfall of the district is 32.4 inches (821.9 mm). From December to April the rainfall will be nominal. Slight showers fall at the end of May and the monsoon sets in June. July to November may be regarded as the heavier monsoon period. In Ongole taluk, however, the monsoon begins somewhat late than in other parts of the district. The average number of rainy days is about 47. The following statement shows the seasonal rainfall from 1951–52 to 1960–61 with the percentage of variation from the normal rainfall.

STATEMENT I–2

Year	South-West monsoon period (June–December)	North-East monsoon period (October–December)	Winter period (January–February)	Hot weather period (April–June)	Total annual rain fall	Percentage of variation from normal
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Normal Rainfall	18.5 Inches (469.1 mm)	10.7 Inches (271.1 mm)	0.7 Inches (17.1 mm)	2 5 Inches (63.8 mm)	32.4 Inches (821.9 mm)	
1951–52	16.3 Inches	3.3 Inches	0.2 Inches	7.0 Inches	26.8 Inches	—17.3
1952–53	9.3 ,,	10.3 ,,	0.1 ,,	0.9 ,,	20.6 ,,	—36.4
1953–54	18.9 ,,	10.6 ,,	...	1.6 ,,	31 1 ,,	— 4.0

1960–61	893.9 ,,	237.6 ,,	10.7 ,,	21.5 ,,	1,163.7 ,,	+38.1

Soils :

In over 85% of the area of the district black soil is found. It is considered the most fertile. Red soils are found in the neighbourhood of Guntur-Guntakal Railway line and arenacious or sandy soils border on the coast. A small extent along the banks of the Krishna river is alluvial.

Land utilisation :

Guntur district like other parts of the State is predominantly agricultural. Out of a total working

population of 1,506,673 persons in the district 959,027 persons are working as Cultivators and Agricultural labourers and account for 63·65% of the total working population. Paddy is the chief crop cultivated in the deltaic region. Ragi, Korra, Arika are some of the other important food crops. Tobacco, chillies, groundnut, turmeric, coriander, castor, cotton are the commercial crops extensively grown. The land utilisation statistics of the district from 1951-52 to 1960-61 are given below.

STATEMENT 1-3

TRENDS IN LAND UTILISATION

(Area in acres)

Classification (1)	1951-52 (2)	1952-53 (3)	1953-54 (4)	1954-55 (5)	1955-56 (6)	Percentage to total area in 1955-56 (7)
Total Geographical area	36,93,743	36,93,743	36,93,743	36,93,743	36,93,743	100.0
Forests	4,68,862	4,68,862	4,68,862	4,68,862	4,68,862	12.7
Barren and uncultivable land	3,75,095	3,75,095	3,75,095	3,75,095	3,75,095	10.1
Land put to non-agricultural uses	43,020	43,020	43,020	43,020	43,020	1.2
Cultivable waste	92,652	1,10,030	1,10,030	1,10,029	1,10,029	3.0
Permanent pastures	94,737	94,737	94,736	94,737	94,737	2.6
Miscellaneous Tree Crops & Groves	1,35,634	1,05,283	1,18,758	1,18,758	75,099	2.0
Current fallows	3,44,697	3,44,697	3,09,148	3,09,148	3,09,148	8.4
Other fallows	63,855	63,855	63,855	57,042	57,041	1.5
Net area sown	20,75,191	20,88,164	21,10,239	21,17,052	21,60,712	58.5
Area sown more than once	2,75,888	3,24,652	3,12,944	2,69,761	3,16,944	8.6
Total cropped area	23,51,079	24,12,816	24,23,183	23,86,813	24,77,656	67.1

TRENDS IN LAND UTILISATION

(Area in acres)

Classification (1)	1956-57 (8)	1957-58 (9)	1958-59 (10)	1959-60 (11)	1960-61 (12)	Percentage to total area in 1960-61 (13)
Total Geographical area	36,93,743	37,72,415	37,72,415	37,70,280	37,70,280	100.0
Forests	4,68,521	4,68,521	4,51,691	4,57,271	4,57,270	12.1
Barren and uncultivable land	3,35,501	3,43,798	2,63,222	2,53,320	2,32,685	6.3
Land put to non-agricultural uses	30,705	57,006	1,80,605	2,07,078	2,38,730	6.3
Cultivable waste	2,34,035	1,83,526	1,32,066	1,50,081	1,45,910	3.9
Permanent pastures	1,37,683	1,51,814	1,64,807	1,68,198	1,63,422	4.3
Miscellaneous Tree Crops & Groves	9,846	88,927	1,12,934	91,296	91,669	2.4
Current fallows	2,03,175	2,24,323	1,66,660	1,82,895	1,61,436	4.3
Other fallows	1,67,406	1,31,700	1,43,934	1,18,555	1,55,801	4.1
Net area sown	21,06,870	21,22,800	21,56,496	21,41,586	21,23,357	56.3
Area sown more than once	2,67,476	2,63,925	2,07,745	2,69,248	3,24,822	8.6
Total cropped area	23,74,346	23,86,725	23,64,241	24,10,834	24,48,179	64.9

The above statement gives the distribution of geographical area under different categories of utilisation in the district for the decade from 1951–52 to 1960-61 and it gives an idea of the extent of impact of the Five Year Plans on land utilisation trends. The net area sown under all crops during 1960-61 forms 56·3% of the district area. Forests cover 12·1% of the district area while uncultivable land covers only 6·3% of the district area. The area put to non-agricultural purposes such as roads, buildings etc., also constitutes 6·3% of the district area. The total fallow land during 1960-61 accounts for 8·4% out of which current fallows (i.e. land left fallow in the current year only) constitute 4·3% and the other fallow land (i.e. land left fallow for more than one year but less than five years) accounts for 4·1%. Cultivable waste land (i.e. land left fallow for more than five years) accounts for 3.9% of the district area. Permanent pastures during 1960–61 cover 4·3%, while the land under miscellaneous tree crops and groves accounts for 2·4% of the district area. Thus it may be seen that more than half the area of the district is under cultivation. The net area sown has increased from 20,75,191 acres in 1951–52 to 21,23,357 acres in 1960–61.

Livestock :

The Livestock population in the district which is one of the important contributing factors of agricultural economy is given below as per the quinquennial census taken in 1961.

Livestock	Cattle	384,783
	Buffaloes	881,970
	Sheep	361,814
	Goats	161,106
	Horses and Ponies	2,717
	Donkeys and Mules	1,001
	Pigs	63,090
	Total Livestock	1,856,481
Poultry	Fowls	1,012,198
	Ducks	30,960
	Total Poultry	1,054,529

Industries :

Guntur district is well advanced industrially compared to other districts in the State. The district is famous for tobacco industry and handloom industry. India Leaf Tobacco Co., Ltd., has its main office in Guntur and in this district it is the biggest buyer of Virginia tobacco used for superior cigarettes and for export. Mangalagiri, Chirala, Vetapalem, Jandrapeta and Bapatla are famous for handloom weaving. There is a co-operative spinning mill at Chirala and a textile mill in Guntur taluk. Tadepalle, Mangalagiri and Macherla have cement factories one each. Tadepalle has also two vegetable oil factories. The cashewnut industry is also an important one in Bapatla taluk.

Communications :

Roads from this district lead to Vijayawada in Krishna district and to places in Nellore, Kurnool and Nalgonda districts. Madras-Calcutta National Highway passes through Ongole, Narasaraopet and Guntur taluks of this district. A State Highway runs north-west wards from Guntur town to Sattenapalle and Dachepalle. Though the eastern half of the district is well served by road communications the western half has not yet developed adequate road communications. The Madras-Delhi Broad Gauge line, the Masulipatam-Hubli Metre Gauge line, Guntur-Repalle Broad Gauge line and Guntur-Macherla Metre Gauge line, all of the Southern Railway, pass through this district. The Buckingham canal also starting from this district at the Krishna Barrage and passing through the taluks of Guntur Bapatla and Ongole, serves as a useful water way communication and country crafts ply along this canal at all times carrying passengers and goods.

Places of interest :

Amaravathi, Kotappakonda and Mangalagiri are some of the places of interest in this district. A detailed account of all places of interest and importance in the district is given at the end of this part under the Chapter "Gazetteer" and may be referred to.

CHAPTER II

HISTORY

General:

Guntur district in its present form was constituted only in 1904 out of the Ongole taluk of Nellore district and portions of the Krishna district. Prior to 1859 there was 'Guntur district' with headquarters at Guntur but with a different jurisdiction. In 1859 this district was abolished and was divided up between Masulipatam and Rajahmundry districts which were renamed as Krishna and Godavari. In 1904 Krishna district was bifurcated and Guntur district with its present jurisdiction was constituted into a separate independent district. The early history of the district is briefly given below.

Political History:

The earliest known rulers of the district were the Buddhist dynasty of the Andhras who built the stupa at Amaravathi and whose curious old leaden coins are still occasionally found. The Buddhist remains at Amaravathi on the right bank of the Krishna nearly seventy miles from its mouth, bear inscriptions in the Gupta character which refer to the second century after Christ and may possibly be older than that. The Buddhist stupa, discovered on the north bank of the river near Jaggayyapet, is said to be of date as remote as B. C. 200, or only half a century later than the Asoka edicts. It may therefore be inferred that for some time before and after the Christian Era, Buddhism had been firmly established on the banks of the Krishna.

This religion seems to have given way before the Brahmans and a sect of Buddhist dissenters known as the Jains. The Brahmans are said to have been invited by the King of Dharanikota, Mukkanti Pallava, in the third century A. D. or by a King named Sudakshana about the same date to Srikakulam, a shrine lower down the Krishna. Both legends are current, but the history of this period is very obscure. The Pallava dynasty may be the line of Kings which is shown, by two copper plates, to have reigned in the fourth century A. D. over "Vengi desha" but this kingdom is not mentioned by Ptolemy or in the Periplus of the Red Sea.

In 640 A. D. there is an account written by the Chinese pilgrim, Hiuen Tsang, who travelled through India to see the Buddhist monasteries. He speaks of the Kingdom of Anta-lo (Andhra) with its capital ping-kilo (Vengi) and in Dhanakacheka (Dharani Kota) describes two very extensive Buddhist monasteries, the eastern and western. The Chinese traveller describes the monasteries as surrounded by trees and gushing fountains, which may indicate a great clearance of forest and lessening of rainfall in the last twelve centuries. He mourns over the decay of Buddhism, decay caused perhaps as much by the opposition of the Jains as by the advent of the Brahmans, for the Jains did not disappear from the Krishna district until six centuries after Hiuen Tsang's visit.

By A. D. 640, the Pallava dynasty of Vengi had been conquered by the Chalukya Kings of Kalyanpur. Some would place this conquest as far back as the time of Vishnu Vardhana, great grand father of Satyasraya Vallabhendra in the fourth century, but at all events, the territory was divided about A. D. 605 and Vengi was given to Kubja Vishnuvardhana, the younger brother of Satyasraya Vallabhendra, King of Kalyanpur. The Kubja Vishnuvardhana founded a dynasty, known as the Eastern Chalukya Kings, who reigned for four centuries, and who excavated the cave temple at Undavalli and other rock cut shrines. About A. D. 999 they in their turn were supplanted by the Cholas. The latter after some two centuries gave place to the Ganapathis of Warangal. Ganapati Deva, who reigned at Warangal (A. D. 1190-1258), and built around Warangal the single stone wall, which is given the name of Ekasilanagaram, or, in its Tamil form, 'Orukkal', whence Warangal, was an active persecutor of the Jains and throughout his wide dominions which included the seacoast from Divi to Nellore, erected Brahmanical temples. Possibly he might have married his only daughter to the Jain king of Dharanikota for political reasons, to absorb in his Kingdom the territory of this petty ruler, and Pratapa Rudra, the son born of this mixed marriage, would naturally follow his mother's faith.

After the death of Ganapati Deva, the grandfather of Pratapa Rudra, in A. D. 1248 or 1258, the Government was assumed by his widow, Rudramma, one of the many women in Indian history who have

left a reputation as skilful rulers. It was during the regency of this widowed queen that the Venetian traveller, Marco Polo, visited this country, about the year A.D. 1290. He seems to have landed at Motupalle, now an obscure fishing village in the Bapatla taluk.

This queen Rudramma transferred the royal authority to her daughter's son, Pratapa Rudra, in the year A.D 1292 or 1295. There are numerous grants of Pratapa Rudra in Krishna district and in the Palnad taluk. In A.D. 1323 he was taken captive by the Muslims and carried away to Delhi and this was an irretrievable disaster, for although his son Virabadraya asserted his independence in A.D. 1344 he failed to regain the lost dominions of his father and the Muslim kingdom of Gulbarga steadily advanced until in A.D. 1425 Warangal was included within its limits.

After the captivity of Pratapa Rudra in A.D. 1323 his kingdom was left without a ruler. This district then came under a dual sway, the king of Orissa ruling the northern part while the south fell into the hands of a line of cultivators who rose to considerable power and are known as the Reddi Kings of Kondaveedu. A brief account of the Reddi Kings of Kondaveedu is given below:

The founder of the family of Reddi Kings of Kondaveedu was Donti Aliya Reddi, a cultivator of Hanumakonda, who amassed enormous wealth, tradition says by discovering the alchemists' secret of the process of transmuting metals into gold, and migrated to Kondaveedu. On the downfall of Pratapa Rudra, the eldest son, Pulayya Vema Reddi declared himself independent and established himself in the hill fort of Kondaveedu, which had doubtless been a stronghold for some centuries previous to this date. He also possessed himself of the fortresses of Bellamkonda, Vinukonda, and Nagarjunakonda in the Palnad taluk. His brother Anuvema Reddi extended his dominions as far as Rajahmundry in the north, Kanchi in the south and Srisailam in the west. Kondapalle hill fort is said to have been built in his reign. An inscription at Amaresvaram dated A.D. 1361 states that Anuvema Reddi was in possession of Kondaveedu, Addanki and Raichur, that he repaired the temple at Amaravati and the causeway at Srisailam and that he defeated various Rajas including the kings of Warangal. This last boast probably relates to the unsuccessful efforts of Virabhadraya in A.D. 1344 and later to regain his father's territories from the Muslims on the one hand and the Orissa Rajas and Kondaveedu Reddies on the other. Anuvema Reddi was succeeded by his brother, Aliya Vema Reddi who was succeeded by the fourth brother, Komaragiri Reddi, a ruler of bad reputation, who was followed by his sons Komati Venka Reddi, and Racha Vema Reddi, the last of the line, who after an evil reign of four years was assassinated by a person named Choudari Yellappa in A.D. 1428. The dates of these six Reddi kings are as follows:

Pulayya Vema Reddy	...	A.D. 1328
Anuvema Reddi	...	1340
Aliya Vema Reddi	...	1370
Komaragiri Reddi	...	1382
Komati Venka Reddi	...	1396
Racha Vema Reddi	...	1424

These Kondaveedu Reddis were great patrons of Telugu literature. The poet Srinadha with his brother-in-law, Bammera Pothana flourished, at their court and sang their praises. The ruins of their fortresses at Kondaveedu, Bellamkonda and Kondapalle are still to be seen.

On the extinction of the Reddi dynasty the Ganapathi Kings of Orissa extended their power. In A. D. 1515 King Krishna Deva Raya of Vijayanagar conquered the whole of the country and left many inscriptions to perpetuate the memory of his victories. He restored Kondapalle to the Orissa Raja but retained Kondaveedu. On the fall of Vijayanagar Empire in A.D. 1565 this country was conquered by the Muslims and the Hindu rule came to an end in A.D. 1579 in this district. On the fall of the Vijayanagar Empire in A.D. 1565 it passed on to the Kutub Shahi line of Golconda, and was eventually absorbed (on the destruction of that dynasty in 1687) in the empire of Emperor Aurangazeb.

In A.D. 1611 the English founded their second settlement in India at Masulipatam, which continued to be their headquarters untill was finally removed it to Madras in A.D. 1641. Three years after the founding of the English settlement came the Dutch and in A.D. 1669 the French followed. It was not, however, till the year A.D. 1750 that any of the European powers exerted any political influence in this district. Two years after that date the Subedar of the Deccan granted the whole of the Northern Circars to the French, and it was from them that this tract finally passed to the English. On the outbreak of hostili-

ties in A.D. 1758 Colonel Forde, who was sent by Clive from Bengal to attack the French in the Northern Circars, defeated them at Condore in Godavari District, and following them to Masulipatam beseiged them there. Faced by a strong garrison in front and hemmed in behind by the Subedar of the Deccan, the ally of the French, his ranks rapidly thinning with disease, Forde, as a counsel of despair, at length made an almost desperate night attack upon the Masulipatam fort and captured it. As a consequence of this victory, first the divisions of Masulipatam, Nizampatam and part of Kondaveedu, and later the whole of the Circars, passed by a grant from the Subedar of the Deccan (confirmed by the emperor Shah Alam in 1765), to the Company. With the cession of the Palnad in 1801 by the Nawab of Arcot, the entire district finally became a British territory. At first it was administered by a Chief and Council at Masulipatam, but in A.D. 1794 Collectors directly responsible to the Board of Revenue were appointed at Guntur and Masulipatam. In A.D. 1859 these two Collectorates (except two taluks of the latter) were amalgamated into one district.

This amalgamation did not continue for long. With the construction of the anicuts across Godavari and Krishna rivers the irrigation facilities increased. This resulted in the increase in work of all kinds in the methods of administration and renderd the task of efficiently controlling these two wealthy areas more difficult than one Collector could compass. Hence readjustment of these two districts was necessitated and in 1904 a separate district was constituted with Guntur as headquarters. Ongole taluk of Nellore district, Tenali, Guntur, Sattenapalle, Palnad, Bapatla, Narasaraopet and Vinukonda taluks of Krishna district were included in the newly formed Guntur District. In 1909 Tenali Taluk was split up into Tenali and Repalle taluks. The jurisdiction of the district did not undergo any major change from that time and continued as part of the Madras State till 1953.

In 1953 when the Andhra State was formed, this was also transferred to Andhra State along with the other Telugu speaking districts of the composite Madras State. After the Reorganisation of States in 1956, this district along with the other districts of Andhra State became part of Andhra Pradesh in which it now continues. It may be worth mentioning in this connection that Guntur city, the headquarters of this district was the seat of the Andhra High Court for a period of over 3 years from 1st October 1953, *i.e.* from the inception of the Andhra State till the formation of Andhra Pradesh on 1-11-1956.

India attained independence on August 15, 1947 as the largest democracy in the world. The British rulers handed over the reins of the Government to the various State Governments and to the Government of India. In 1950 the constitution was promulgated and India became a Democratic Republic. The first General Elections to the House of the People and to the Legislative Assembly were conducted in January, 1952 in the constituencies delimited in 1951 by an order of the President under Sections 6 and 9 of the Representation of the Peoples Act 1950. The tenure of office of both the House of the People and the Legislative Assembly was to be for five years. But due to the collapse of the State Government, mid-term elections were conducted in 1955 for only the State Legislature. The country again went to polls during 1957. Due to mid-term elections for the State Legislative Assembly conducted during 1955, the Government extended the term of office of the M. L. As., of the State Legislature for a further period of five years from 1957 and hence the members elected for the State Legislative Assembly during 1955 continued as M. L. As., upto 1962. Therefore, the elections conducted during 1957 were confined only to Parliamentary constituencies in Andhra region of Andhra Pradesh. The third General Elections to the House of the people and the State Legislative Assembly were simultaneously conducted in February, 1962 under the marking system of vote.

This district has played a very important role in the National struggle for independence. It produced patriots like Tanguturu Prakasam Pantulu, the first Chief Minister of Andhra State and Desabhakta Konda Venkatappaiah whose services to the Nation are unforgettable. The district also had the fortune of being the venue of the All India Congress Committee Sessions twice.

Revenue History :

Very little is known about the system of administration followed by the Hindu rulers of this country prior to the Muslim invasion. The numerous allusions in ancient inscriptions to royal grants of entire villages or a group of villages show that in former centuries as now, all revenue administration was based upon the village as unit.

When the Muslims took this part of the country, in the sixteenth century, they appear to have made but little change in the existing Hindu system. They occupied certain posts with military garrisons under Muslim officers, and sometimes a tract of country might be granted to a Muslim Officer as a Jagir, but for the most part the revenues were collected and accounted for to the central authority by the Hindu officials. As is usual in India these offices became hereditary and when the Muslim power became lax the Hindu hereditary officials began to call themselves Zamindars and to act as if they were independent princes, but through all these changes the villages remained unaltered.

In addition to the land revenue, the Sovereign's share of the produce of the fields, there were other sources of revenue. The Imperial Firmans granted in 1689 and 1712 to the Dutch at Masulipatam show that import and export duties at the seaport were a considerable item in the Hyderabad receipts and there were various other inland customs lines also.

In the neighbourhood of each military post or headquarter station were certain lands, intended for the maintenance of the troops or Muslim officers, which were under the direct management of the Faujdar or the Khilladar. These Haveli lands, as they were termed, were not supposed to be under the Desmukhs and Despondis who were responsible for the collections of the rest of the country.

At first the Hindu Desmukhs and Despondis were paid by a percentage upon collections, by certain fees and by a limited portion of land in each village, these three modes of payment being supposed to ensure their attention to the amount of collections, their procuring the goodwill of the populace who paid fees and their actual residence among the villages where their plots of land were situated. In course of time, however, we find that these Desmukhs and Despondis themselves rented villages and even districts, or, as it may better be expressed, formed the revenues of certain districts or compounded the revenue demand against them or a fixed sum.

The French Commandant, M. De Bussi, had a survey made of these Northern Circars and evidently contemplated the institution of a better revenue system, but he fell from power before he had an opportunity of carrying out these plans and when the English Company took possession of the Kondapalle Circar in 1766 and the Kondaveedu Circar in 1788 the Hindu hereditary officials, calling themselves Zamindars, were still in possession of the country.

The English Officials at Masulipatam did not quite understand the legal position of these Zamindars. The first Chief in Council after the English took Kondapalle was in favour of settling every year, according to the harvest, the amount to be paid by each Zamindar to the Company, but in 1771 the Chief in Council wrote that Zamindaris were feudal estates, of which the Zamindars were the proprietors, paying a tribute to Government and furnishing troops in times of war. This idea gained ground, the payment made by the Zamindars was constantly termed tribute, the territory they held was called their hereditary estate and the inhabitants were entirely subject to their oppressions.

When the Company took the Kondapalle Circar in A.D. 1766 it was given along with the Ellore and Rajahmundry Circars on a three years' rental to the Nizam's Faujdar, Hasan Ali Khan. This arrangement came to an end in 1769, and after that an attempt was made to make a separate arrangement with each Zamindar, while the Haveli lands were for some time given on a ten years' lease to Condregula Jaggappa, son of the Dubash.

The Guntur or Kondaveedu Circar was also under the control of the Masulipatam Council, but when that Council was abolished in 1794 Guntur formed a separate Zilla under a Collector who reported direct to the Board as did the Collector of Masulipatam.

In pursuance of the orders issued by the Bengal Government the Permanent Settlement was introduced in Masulipatam and Guntur Districts in 1802. The amount to be paid by each Zamindar was calculated at two-thirds of half the gross produce of the lands, this half being supposed to be the share paid to them by the cultivators. Thus the Zamindars were to retain for their own maintenance one-sixth of the gross produce of their territories. The amounts were obtained from an inspection of the accounts of the last thirteen years or of what papers the village karnams produced as accounts. In some cases, especially that of Charmahal, the Zamindar's *Peshkush* was fixed too high, but in some instances, especially that of Vasireddi Venkatadri Naidu, the *Peshkush* was not

only fixed too low, being based on fictitious accounts, but was actually still further reduced by the Board of Revenue at Madras, anxious that the Permanent Settlement should be moderate.

The Haveli lands, with the exception of Divi, were divided into mutahs, each calculated to bear an assessment of one thousand to ten thousand Pagodas as the Government demand, and these were sold and brought under the Permanent Settlement. Care was taken that all lands under one irrigation source should be included in one mutah and the purchasing proprietors were to be held responsible for the upkeep of these irrigation works, but might be assisted by loans from the treasury at 12 per cent. This sale of the Haveli mutahs took place in December, 1802 and thus the whole of the present Krishna and Guntur Districts passed under the Permanent Settlement, except Divi, which in 1807 was given on Zamindari tenure to Condregula Gopala Rao, grandson of the Dubash, and the Palnad which had been acquired from the Nawab of Arcot and which, like the Nellore District, passed under triennial and decennial village rents, but did not become a Zamindari.

This experiment of creating a class of territorial landlords and trusting to the magic of private property to make them improve the vast extents of country thus placed in their hands was not successful. Many of the Zamindars assumed the position of petty princes and instead of contending themselves with moderate establishments, they kept up a number of elephants and horses at a cost wholly disproportionate to their means. The Collector of Guntur reported that the Zamindars in Guntur District spent on "Savari" a sum which would maintain eleven battalions of Company's sepoys. Moreover, their system of management was sometimes very bad. An energetic Zamindar like Vasireddi Venkatadri Naidu could personally keep order throughout his extensive villages and amass wealth, but his next neighbour, Malrazu Venkata Gunda Rao, was utterly unable to manage his estates, and when Venkatadri Naidu died his riches were speedily dissipated by his heirs. Another cause of the failure of the Zamindari system in this District was the constant disputed successions and tedious litigation in almost every family.

The Zamindaris were constantly attached for arrears and taken under the Court of wards and the Collectors managed them by means of cutcherry retainers in such a way that arrears sometimes accumulated as rapidly while the estates were under management as they had done under the Zamindar. Some Collectors remained long enough to acquire local knowledge. Messrs. Oakes and Whish each held Guntur for ten years, but changes of Collectors were frequent and a newly arrived Collector could only appoint his Sheristadar's nominees to manage these attached estates. The terrible famine of 1832–33 rendered the Zamindars less able than before to pay the Government demand and in the Guntur Collectorate the mismanagement of the attached estates was increased by a bitter feud among the Revenue servants.

The experiment had been tried of placing the Zamindars in charge of their own Zamindaris as Managers, but this also was a failure, the Zamindars fraudulently leasing villages on low rentals in consideration of sums paid down as "Nuzzerana". Under the provisions of the despatch of the Court of Directors dated 21st June, 1842 the Guntur Zamindars surrendered their estates to Government on the understanding that they should receive a sufficient maintenance with the hope that estates may be eventually restored. Afterwards it was decided by Government to place beyond all doubt their power to deal with the estates by bringing them to sale and buying them. This was done in 1846. There were no purchasers and Government bought in the Guntur Zamindari estates by a bid of Rs. 5,000 for each. After perusal of Mr. W. Elliott's report the Directors wrote a despatch on 31st January, 1849 declaring the resumption of these estates to be final.

The year 1849 is to be noticed as the date of the appointment of a Commissioner of the Northern Circars. The Court of Directors, upon perusal of Mr. Walter Elliott's report on Guntur affairs, sent out orders that all the Northern Circars should be placed under the immediate charge of one of the members of the Board of Revenue, with full powers of the Board. In accordance with this order Mr. Walter Elliott himself was appointed Commissioner of the Northern Circars in 1849 and soon afterwards came to Masulipatam.

In 1854 the appointment of Commissioner of the Northern Circars was abolished and the Districts came again under the direct authority of the Board of Revenue. In December, 1859 the whole of the Guntur District and all the Masulipatam District except two Taluks was made into one district, the

Krishna District. In 1862 the District was divided into eleven taluks with two Zamindari sub-divisions.

Little seems to have been done, however, to introduce any improved system of land revenue at these opportunities and the faulty Zamindari system continued, with the 'Kailas' or actual measurements of the crop which lay heaped for weeks awaiting the measurer, with the "anchana" or estimate, made by a venal estimator, with the joint village rents giving rise to factions and oppression of the poorer villagers by their stronger neighbours.

The first Collector, who made any attempt to grapple with the subject, was Mr. G. E. Russell, Collector of Masulipatam, 1812-21. He selected the village of Telaprolu in the Nuzvidu Zamindari and made a minute survey of the village fixing the amount to be paid by each individual cultivator according to the quality of the lands he held. Mr. Russell's report on Telaprolu is dated 20th September, 1818. Under the rental value thus fixed by the Collector the total amount paid by Telaprolu village was Rs. 3,180 in Fasli 1228 and rose gradually to Rs. 4,161 in Fasli 1241. While the ryots were prosperous and contented under the Collector's management, the young Zamindar who got possession of his estates in A. D. 1831, exacted no less than Rs. 8,900 from Telaprolu in Fasli 1242 and Rs. 5,895 in Fasli 1243. Then came the famine and in Fasli 1246, after the famine, the village paid only Rs. 675; so all trace of the former prosperity had vanished. Mr. Russell's report on Telaprolu contains a deeply interesting account of the rack rents and extra collections by the Zamindar's retainers which left to the wretched cultivators barely enough for the support of life. Another Collector, Mr. P. Grant, made a similar survey of the village of Caitupalle, but no general action was taken upon the data furnished by these two isolated surveys.

Mr. H. Stokes in 1844 attempted to introduce an improved Revenue system in the resumed Zamindari estates of the Guntur District but was restrained by the conservative ideas of his Sheristadar, Nyapati Seshagiri Rao, who was supported in his cautious views by the then Board of Revenue. Mr. W. Elliott supported Mr. Stokes in his advanced policy and by 1850 the Guntur District had been brought under the system which in the old records is termed makta, and is sometimes called Ryotwari, but in truth differed very little from the joint village rents of the Masulipatam District. There was a fixed total demand on each village and the individual cultivators were left to apportion this demand. If remissions were necessary they were given in lump-sums to villages. The influential ryots secured their own interests at the expense of their weaker neighbours and all sorts of curiously old fashioned ideas of Revenue Administration, such as takids permitting cultivators to reap their crops and the notion that no English-speaking native could be an efficient Sheristadar, survived in the Guntur Collectorate.

The old system of Revenue practice passed away with the introduction of Survey and Settlement rates of assessment. The work in the Guntur District was undertaken after that in Masulipatam and was not laid before the Board until the close of the year 1868, being delayed until the Survey Department had completed their operations in the Palnad, the last taluk of the District. The report of Mr. W. Wilson on the Guntur portion of the district is printed in Board's Proceedings No. 1628, dated 9th March, 1870. In Mr. Wilson's classification of the Guntur part of the district as much as 90 per cent of the whole is placed under varieties of the 'Regar' or black cotton soil and red soils were only 2 per cent. The highest class is the alluvial along the margin of the river. 60 villages with lands amounting to 6.6 per cent of the whole area were placed in the first or alluvial group. 200 villages with lands amounting to 21.3 per cent of the whole area, comprising the sand of the coast and the stony uplands of the interior, were placed in the third or the poorest class and the second or the principal group numbered 465 villages with lands amounting to 72.1 per cent of the whole area. This second group comprised the land in Repalle and Bapatla taluks, irrigated by the anicut, and the heavy loams near Prattipadu which bear good crops when the rainfall is timely. The rates on irrigated land varied from Rs. 1-75 p. to Rs. 7-50 p. and on unirrigated lands from 25 p. to Rs. 4-50 p. per acre.

One point upon which the Board of Revenue did not agree with Mr. Willson was his proposal to regard as unirrigated, about 2,000 acres of irrigated land from the perennial springs in the great sand ridge running from Bapatla to Chinna Ganjam and these lands accordingly pay irrigated rates of assessment. Another point under discussion was the levy of three-fourths water rate on the lands irrigated from wells on the banks of the Gundlakamma and Nagileru streams in Vinukonda and the Palnad taluks. These wells are expensive stone structures and the water

had to be lifted from the stream. The Board decided that no water rate should be levied.

The Survey and Settlement so introduced is in vogue in this district. Under the Madras Estates Land (Abolition and Conversion into Ryotwari) Act, 1949 the Zamindari Estates and Inams were abolished and taken over by Government paying due compensation to the Zamindars, Estate holders and Inamdars concerned. Survey and Settlement was also made in the taken over estates wherever found necessary and ryotwari settlement has been made in all parts of the district.

Revenue Administration of the district is now controlled by the Collector with headquarters at Guntur and he is assisted by four Revenue Divisional Officers stationed at Ongole, Tenali, Guntur and Narasaraopet. A Sub-Collector who is generally a junior member of the Indian Administrative Service is in charge of the Ongole Division.

The headquarters division comprises Guntur and Sattenapalle taluks while Ongole Division comprises Ongole and Bapata taluks ; Tenali and Repalle taluks are included in the Tenali Revenue Division. Narasaraopet division comprises Narasaraopet, Vinukonda and Palnad taluks.

With the separation of Judiciary from Executive in this district the functions relating to the trial of criminal cases *etc.*, have been transferred to the Judicial Department. The Revenue Officers now exercise functions under the Criminal Procedure Code with reference to matters relating to the maintenance of Law and Order and keeping of peace *etc.*

CHAPTER III

POPULATION AND HOUSING

In this chapter a brief review is made of the demographic, economic and social characteristics of population, and also about the housing conditions that prevail in Guntur district as revealed by the 1961 Census count. The detailed Tables in the third part of this Handbook will give the fuller statistical data. The following statement gives an idea of where this district stands in comparison with the other districts of the State in respect of some basic demographic data.

STATEMENT III-1

State/District	Area	Population	Density of population per sq. mile	Percentage of growth of population 1951-61	Percentage of urban population

Population:

On the 1st of March, 1961, the reference date of the Census 1961, 3,009,900 persons were found in Guntur District recording an increase of 17·57% over the 1951 Census population, as against the average rate of increase of 15.65% for the State as a whole. There are 521 persons per square mile in the district which is well above the State average density of 339. The density of population in the district was only 440 in the decade ending in 1951. The density of urban population in the district is 3,811 per square mile as against the corresponding State average of 4,340. The urban density figures stood at 2,163 for the district and 4,074 for the whole State in 1951. Amongst the districts of the State, Guntur district with an area of 5,780 square miles occupies only 9th rank in regard to area and first rank as regards population.

Distribution and Density of Population:

There are nine taluks and 20 towns in this district. Guntur taluk recorded the largest number of people living in it (579,401) closely followed by Bapatla (487,030), Tenali (401,559), Ongole (388,450), Narasaraopet (321,337), Sattenapalle (244,562), Repalle (235,245), Palnad (227,744) and Vinukonda (124,572). Tenali is the most densely populated taluk with 1,230 persons per square mile followed by the taluks of Guntur (1,025), Repalle (771), Bapatla (727), Ongole (474), Narasaraopet (449), Sattenapalle (352), Palnad (219) and Vinukonda (193). Vinukonda takes last rank both in density as well as in population.

Growth of Population:

During the past six decades (1901–1961) Guntur district has recorded 101.04% in the growth of population as against 88.73% for the State as a whole. In the rate of growth of population Guntur district takes 10th rank among the districts of the State. The rate of increase of population in this district during the decade 1911 to 1921 was very low when compared to the other decades. This low percentage of growth is presumably due to the great Influenza epidemic that spread throughout the country. This district recovered from this set back and had exhibited a rate of growth of 12.47% in the next decade ending 1931. In the decades 1931 to 1941 and 1941 to 1951 this district showed a normal growth of population recording 11.84% and 11.99% respectively. During the decade 1951–1961 the rate of growth of population has shot up to 17.57% which is higher than even the State average growth of 15.65%, the growing industrialisation, the advent of Nagarjunasagar canal works *etc.*, having induced considerable immigration of population into the district.

The statement below gives the percentage of variation of population from 1901 to 1961 for the district as a whole as well as for each of the taluks.

STATEMENT III-2

SHOWING VARIATION IN POPULATION DURING SIXTY YEARS FROM 1901 TO 1961

	1941	228,777	+ 20,725	+ 9.96	117,224	111,553
	1951	237,148	+ 8,371	+ 3.66	120,954	116,194
	1961	244,562	+ 7,414	+ 3.13	123,753	120,809

Rural and Urban Population:

There are 19 towns, one city (i. e. with population exceeding 100,000) and 970 (932 inhabited and 38 uninhabited) villages in the district. 79.17% of the total population lives in villages and 20.83 % lives in towns. Guntur city, which is also the headquarters of the district accounts for 6.22% of the total population and 29.85% of the urban population.

Sex-Ratio:

There are 976 females for every 1,000 males in the district. In the 1951 Census their number was slightly less i.e., 974 females for every 1,000 males. In the urban areas of the district there are 978 females for every 1,000 males which is less than at the 1951 Census (991) and in the Rural areas 976 females for every 1,000 males and this figure is slightly higher than at the previous Census (970).

Age Structure :

Able bodied persons of above 15 years and below 55 years constitute 52.19% of the total population, the remaining being accounted for by children and young persons of age below 15 years (38.33 %) and old persons of age (55 years and above (9.48%). The age distribution of the population is shown below:

STATEMENT III—3

Age-group	Persons	Percentage
0–4	403,607	13.41
5–9	402,000	13.36
10–14	348,000	11.56
15–24	497,646	16.53
25–34	467,803	15.54
35–44	339,919	11.29
45–54	265,680	8.83
55–64	166,143	5.52
65–69	33,676	1.12
70 and above	85,174	2.83
Age not stated	252	0.01
Total	3,009,900	100.00

From this table it may be seen that not many survive to old age.

Marital status:

Out of the total number of 2,204,293 persons (males 1,118,688 ; females 1,085,605) aged above 10 years 1,639,245 have been found to be married and this number includes 257,816 (males 54,273; females 203,543) widowed and 25,244 divorced or separated persons (males 10,413; females 14,831). The marital status of 72 persons (72 females) is unspecified and 564,976 persons comprising 25.63% of the age-group 10+ were found to be unmarried. 80.72% of males and 67.82 % of females comprise the married persons in this age group. Out of the total number 805,607 persons below 10 years of age no one, either female or male, was found to be married. In the age group 10-14 out of a total number of 348,000 persons 897 males and 18,866 females were found to be married. Amongst these married persons 6 males and 86 females were found to be widowed, 5 males and 96 females were found to be divorced or separated. As per the 1961 Census there is a shortage of 35,830 women as compared to the total number of men in the district. Inspite of this shortage of women it is seen that the total number of women married (903,015) is more than the total number of married men (736,230). The percentage of unmarried men to the total population of above 15 years is 21.84% and of above 10 years is 34.19%. This imbalance may be either due to the females usually getting married in the early ages or men going to other places to seek their livelihood leaving their wives at home or women coming to their parents for confinement and temporary stay on some similar reasons. This problem is therefore likely to be an interesting subject for sociological study.

Literacy and Education :

The development of a country largely depends upon the education of its people and hence great stress has been laid on education in our Five Year Plans. Education is the systematic instruction, schooling or training given to young persons in preparation for the work of life, while literacy is the ability of a person to read and write in order that he may communicate with the outside world. During the Census Enumeration information regarding literacy and educational levels of each person was collected and the particulars so tabulated as to facilitate proper planning for the improvement of educational facilities with reference to the needs of the country in various fields.

At the present Census a person who can both read and write any language is taken as a literate. A person who can merely read but cannot write has not been treated as a literate. The test for reading is the ability to read any simple letter. Children aged 4 years and below have been automatically treated as illiterates. If a person has been sucessful in a recognised examination or examinations, the highest qualification so obtained has been taken as the level of education of the individual. Columns 18 and 19 of the Village and Town Directory given in Part IV of this book indicate the number of literates among males and females in each village and in each ward/locality of the town. The following statement gives at a glance the total number of literates as well as their percentage to the population in the district and in each of the taluks of the district sex-wise for the total, rural and urban population :

STATEMENT III—4

	R	218,892	110,882	108,010	44,558	33,484	11,074	20.36	30.20	10.25
	U	25,670	12,871	12,799	8,863	5,834	3,029	34.53	45.33	23.67

The above statement reveals that 27.66% of the population of the district is literate against the corresponding figure of 21.19% for the State as a whole. Though the district percentage of literacy exceeds that of the State, the percentage of literacy in Vinukonda (14.69%) and Palnad (19.47%) taluks of the district is low. The incidence of illiteracy among females is very heavy. Only 17.74% of the female population is literate and the remaining 82.26% of females are illiterates. 37.34% of males, however, claim literacy.

The following table illustrates the literacy percentages in the district according to the different age-groups.

STATEMENT III-5

PERCENTAGE OF LITERATES BY AGE GROUPS

The number of educational institutions and scholars reading therein in the year 1960-1961 are given in a separate table under Administrative Statistics.

Working Population :

Persons engaged in productive work irrespective of whether they derive income or not have been treated as 'workers' in the 1961 Census. In respect of seasonal work like cultivation, livestock keeping, Household Industry, *etc.*, if the person had some regular work for more than one hour a day throughout the greater part of the working season, he has been recorded as a worker. Persons temporarily incapacitated, undertrial prisoners if they had been working before, have also been treated as workers. Those that were treated as 'non-workers' were whole time students, house-wives, dependants, persons permanently disabled from work, retired persons, people of independent means for which they need not work, beggars, convicts in jail, unemployed persons *etc.*

From the above classification of 'workers' and 'non-workers' it may be seen that the definition of a worker has been liberally conceived. Any one who generally spends more than an hour per day on any particular productive occupation has been considered

as a worker. 50.06% of the total population is found to be economically active.

There are 1,153,607 persons in the age-group 0-14 years, representing 38.33% of the total population. With the introduction of compulsory education this age-group will henceforth be automatically eliminated from the working population. In the 1961 Census 113,876 persons of this age-group belonged to the working population. That is 9.87% of the non-adults constituted the earning members of the population.

Persons engaged in Agriculture (Cultivation and Agricultural Labour) as their main work constitute 63.65% of the total working population. The following table based, on a 20% sample of Household Schedules, gives the figures of sample Households engaged in cultivation classified by interest in land and size of land cultivated in total, rural and urban areas separately.

STATEMENT III–7

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED

Non agricultural occupations provide employment to 36.35% of the total working population. The following table illustrates the broad categories of workers other than in cultivation and agricultural labour and number of persons in each with their percentage to the total working population.

	Total persons	*Percentage*
Other services (Category IX)	151,298	10.04
Household Industries (Category IV)	148,243	9.84
Trade and Commerce (Category VII)	72,944	4.84
Mining, Quarrying etc. (Category III)	70,254	4.66
Manufacturing other than Household Industry (Category V)	58,972	3.92
Construction (Category VI)	23,406	1.55
Transport (Category VIII)	22,529	1.50

Medical Facilities

Though there is a Government Medical College Hospital in addition to two Mission Hospitals at the district headquarters the medical facilities in the district in general are still inadequate for the population of the district. As seen from the Census occupational returns there are 363 practitioners of modern medicine of whom only 62 are women. This means there is one doctor for 8,291 people and one lady doctor for 23,984 women. Further there are only 13 Dentists 721 Nurses and 663 Midwives and Health Visitors. The following table illustrates the average number of beds, doctors, dentists, nurses, midwives and health visitors per 100,000 of total population.

	Number	*Per 100,000 population*
Beds	2,330	77
Doctors	363	12
Dentists	13	0.43
Nurses, Midwives and Health Visitors	1,384	46

There are about 862 persons who practise Ayurvedic and Homeopathic systems of medicine. In addition there are 1,478 persons who profess to be physicians and have been classified under 'others'.

Other Professions:

There are 720 Architects, Engineers and Surveyors in the district. This figure includes 460 Civil Engineers including Overseers, 36 Mechanical Engineers, 62 Electrical Engineers, 14 Chemical Engineers, 1 Metallurgical Engineer, 90 Surveyors and 57 others who have not been classified elsewhere.

On the educational side there are 634 University Teachers, 2,612 Secondary School Teachers, 7,377 Middle and Primary School Teachers, 271 Nursery and Kindergarten School Teachers and 3,512 Teachers who have not been elsewhere classified.

On the juristic side there are 44 Judges and Magistrates, 629 Legal Practitioners and Advisers, 14 Law Assistants and 172 Jurists and Legal Technicians (including petition writers) who have not elsewhere been classified.

On the communications side there are 98 Railway Engine Drivers and Firemen, 3,114 Motor Vehicles and Motor Cycle Drivers, 4,870 Cycle Rickshaw Drivers and Rickshaw pullers and 2,802 animal drawn Vehicle Drivers.

The fifth Table in the B-series gives full details regarding the people of various occupations among the working population available in the district of each sex. All these occupations have been classified according to the National Classification of Occupations. It provides an interesting field of study to the discriminating reader and will help to assess the requirements and the availability of resources and talent.

Scheduled Castes:

The total Scheduled Castes population in the district is 157,850 (males 81,442; females 76,408) persons representing 5.24% of the total population. The proportion of Scheduled Castes population is very low in the district as compared to the State average. The concentration of Scheduled Castes is found in Ongole taluk representing 12.54% of the general population of the taluk followed by Repalle taluk (5.75%), Guntur taluk (4.72%), Tenali taluk (4.33%), Sattenapalle taluk (4.26%), Narasaraopet taluk (3.83%), Bapatla taluk (3.50%), Palnad taluk (3.34%) and Vinukonda taluk (2.83%).

Of the total population of Scheduled Castes 81,442 are males and 76,408 are females and this shortage of females is not different from the characteristics of the general population of the district. There is a shortage of about 62 females for every 1,000 males in the Scheduled Castes population of the district. The extent of literacy among the Scheduled Castes population is very low and more so among the females. Only 5,527 (7.23%) females and 21,594 (26.51%) males are literate.

94,506 persons are workers representing 59.87% of the total Scheduled Castes population. 51,393 men and 43,113 women come under this category. Their major occupation is working as Agricultural labour and as usual women outnumber the men in this field. Very few have taken to manufacture, construction, trade and commerce and transport and communications. This seems to be due to lack of appropriate training and orientation. There are very few persons, who have reached even the Matriculation or the Higher Secondary stage. The actual figure for this stage is 1,015 males and 110 females representing 1.25% and 0.14% of their respective number. These figures by themselves aptly illustrate the need for the upliftment of this community through more advanced education and technical training.

The following table shows the population particulars of various Scheduled Castes enumerated in Guntur district at the 1961 Census.

STATEMENT III-8

Name of the Caste (1)	Rural (2)	Urban (3)	Total (4)
All Scheduled Castes	137,213	20,637	157,850
Adi Andhra	4,633	1,104	5,737
Adi Dravida	12	...	12
Arundhatiya	...	1	1
Chamar, Mochi or Muchi	1	11	12
Chachati	...	11	11
Dom, Dombara, Paidi or Pano	9	299	308
Madiga	34,799	4,164	38,963
Madiga Dasu or Mashteen	614	299	913
Mala	91,329	12,867	104,196
Mala Dasu	4,849	735	5,584
Matangi	10	...	10
Paky or Moti	34	45	79
Pambada or Pambanda	20	13	33
Panchama or Pariah	11	1	12
Relli	3	1,026	1,029
Sapru	2	...	2
Thoti	31	13	44
Scheduled Castes not specified	856	48	904

Scheduled Tribes :

The total Scheduled Tribes population of the district is 95,457 (48,704 males, 46,753 females) representing 3.17% of the total population of the district and is lower than the State average of 3.68%. Their economic and social conditions are no better than those of Scheduled Castes. Their educational achievements are hardly worth mentioning. 2,231 females and 7,103 males only are found to be literates. Out of them very few *i.e.*, 26 females and 204 males have come up to the level of Matriculation or Higher Secondary. Their main occupation is Agriculture and Agricultural Labour and a few of them work in Manufacturing other than Household Industry, Mining and Quarrying etc.

The following table illustrates the population particulars of the various Scheduled Tribes enumerated in Guntur district at the 1961 Census.

STATEMENT III-9

Name of the Tribe (1)	Rural (2)	Urban (3)	Total (4)
All Scheduled Tribes	78,317	17,140	95,457
Chenchu	2,968	245	3,213
Koya	203	9	212
Kattunayakan	46	...	46
Konda Kapus	6	33	39
Kondareddis	8	16	24
Reddi Dhoras	16	2	18
Savaras	111	19	130
Sugalis (Lambadis)	15,243	2,028	17,271
Yenadis	26,963	8,307	35,270
Yerukulas	32,006	6,400	38,406
Scheduled Tribes not specified	747	81	828

Social and Religious Groups :

Hindus form the bulk of the population constituting 77.98%. This is therefore the only major religion in this district. This religion is followed by Christians (13.40%), Muslims (8.61%) and Jains (0.01%). In addition to the above religions there are 40 persons belonging to Sikh religion, 6 belonging to Buddist religion and 2 persons whose religion is not specified and hence classified under the category 'Others'.

Migration :

Migration of persons from one part of the country to another is generally motivated by economic, social and cultural reasons and it is not an uncommon feature. This trend has increased of late due to better economic conditions prevailing in urban areas and the availability of good transport facilities. Migration involves both immigration and emigration and this largely depends upon the prosperity and economic wealth of the country. Guntur district is one of the most prosperous districts both agriculturally and industrially in the State. The Nagarjunasagar Project when completed will further increase the prosperity of this district considerably. This district is surrounded by Nellore, Kurnool, Nalgonda, Krishna and Mahbubnagar districts. Among the immigrants to this district from the other districts in the State, Nellore, Krishna, Kurnool and Nalgonda have contributed the major proportion. Among the outside States, Madras, Kerala and Mysore have contributed a considerable number of immigrants. Foreign nationals are not many in this district. As regards emigration from this district, most of the emigration is to Krishna, Nellore, Nalgonda, Khammam, West Godavari, Kurnool and Hyderabad districts.

Immigrants from other districts in the State : The total number of immigrants from other districts in the State into Guntur district as per 1961 Census findings are 1,61,219 persons (72,794 males and 88,425 females). Nellore district has contributed the largest number *i. e.*, 58,628 persons (27,052 males and 31,576 females). The districts following this in a decending order of contribution of immigrants are Krishna 48,764 (19,039 males, 29,725 females); Kurnool 13,408 (6,339 males, 7,069 females) ; Nalgonda 10,049 (4,554 males, 5,495 females) ; East Godavari 6,972 (3,514 males, 3,458 females) ; West Godavari 6,310 (3,039 males, 3,271 females) ; Chittoor 3,716 (2,036 males, 1,680 females) ; Visakhapatnam 2,693 (1,431 males, 1,262 females) ; Cuddapah 2,675 (1,677 males, 998 females) ; Mahbubnagar 2,293 (1,197 males, 1,096 females); Hyderabad 1,624 (842 males, 782 females); Warangal 1,338 (638 males, 700 females); Khammam 1,036 (442 males, 594 females); Anantapur 845 (522 males, 323 females); Nizamabad 365 (212 males, 153 females); Karimnagar317 (177 males,

140 females); Medak 137(69 males, 68 females) and Adilabad 49 (14 males, 35 females).

Immigrants from other States in the Country: The immigrants from the other States are 13,291 (7,471 males, 5,820 females). Madras State has contributed the largest number *viz.*, 8,206 persons (4,262 males, 3,944 females), Kerala and Mysore have taken the second and the third places by contributing 1,833 persons (1,281 males, 552 females) and 1,353 persons (687 males and 666 females). The contribution from the other States is quite negligible.

Immigrants from other Countries : 465 persons from other countries have come to this district as immigrants of whom the largest number are from Nepal and Burma.

Emigration : As regards emigration from Guntur district to other districts in the State, Krishna district has taken the largest number of emigrants *i.e.*, 92,266 persons (40,106 males, 52,160 females). This large number of emigrants to Krishna district may be due to the proximity of Vijayawada city, an important trade centre of Krishna district. The districts coming next in order are Nellore 30,814, (10,892 males,19,922 females); Nalgonda 19,075 (8,775 males, 10,300 females); Khammam 15,461 (7,674 males, 7,787females); West Godavari 14,658 (7,351 males 7,307 females); Kurnool 10,746 (4,243 males, 6,503 females); Hyderabad 10,677 (6,447 males, 4,230 females); East Godavari 9,723 (5,344 males, 4,379 females); Nizamabad 8,298 (5,684 males 2,614 females); Warangal 7,494 (4,109 males, 3,385 females); Visakhapatnam 3,926 (2,560 males, 1,366 females); Karimnagar 2,537 (988 males, 1,549 females); Mahbubnagar 2,511 (1,239 males, 1,272 females); Chittoor 2,000 (1,160 males, 840 females); Anantapur 1,677 (956 males, 721 females); Medak 1,223 (665 males, 558 females); Srikakulam 1,027 (569 males, 458 females); Cuddapah 990 (511 males, 479 females) and Adilabad 868 (550 males, 318 females). Among the Telangana districts Nalgonda has taken the largest number of emigrants obviously due to the construction of mighty Nagarjunasagar Project which is very near the border of Guntur district. Hyderabad, on account of its being the capital of the State, has also taken a large number of emigrants.

Housing:

With a view to improve the situation and for future planning of the Housing Programme, the Government of India suggested to the National Buildings Organisation working under the Ministry of Works, Housing and Supply to collect in collaboration with the Registrar General, India, New Delhi during the 1961 Census Operations, the basic data on housing required by the Planning Commission. A common questionnaire was, therefore, evolved for the entire country and an attempt was made during the 1961 Census Operations to collect the required comprehensive data on housing to meet the needs of the National Buildings Organisation. These data on housing do not merely relate to residential housing but also cover places of business, workshops, schools, restaurants, places of entertainment, hospitals *etc.* From the information so gathered it has now become possible to assess not only residential housing requirements but also the adequacy or otherwise of the requirments of Industry, Commerce, Education, Public Health Institutions etc.

In Guntur district as anywhere else, houses used wholly or partly for dwelling purposes form the largest proportion of the Census Houses. 609,276 houses out of a total number of 771,701 are used wholly as dwellings, 2,515 houses as shop-cum-dwellings and 2,002 houses as workshop-cum-dwellings. Some of the part dwellings like laundry-cum-dwellings barber's saloon-cum-dwellings have been included under the category of 'Others'. If these houses are also taken into account the proportion of the houses used wholly or partly as dwellings will be slightly higher.

It is seen that the proportion of dwellings to population in the rural areas is more than in the urban areas. Thus for a rural population of 2,382,973 persons there are 501,322 dwellings, while for an urban population of 626,927 there are 107,954 dwellings. This means in urban areas there are 172 houses for every 1,000 population and in the rural areas 210 houses accommodate every 1,000 persons. It is obvious from these figures that there is over crowding in residential housing. Thus residential accommodation has not kept pace with the growing needs of a fast developing population.

The proportion of Census Houses used as shop-cum-dwellings is very minute and is only 3 per 1,000 houses in the district. Workshop-cum-dwellings are less than the shop-cum-dwellings and their proportion among the total Census Houses is very low being only about 3 per 1,000 houses in the district. This seems to indicate that there are some separate workshop facilities in this area but due to

lack of demand there are not many such houses. Out of 2,002 workshop-cum-dwellings 725 are located in the rural areas as against 1,277 in the urban areas in the district.

Hotels, hostels, dharmaṣalas *etc.*, account for nearly 0.15% of the total number of Census Houses in the district and this percentage is a bit higher than the State percentage of 0.14% for this country. The proportion is higher in urban areas than in the rural areas and it may be due to a large number of hotels.

Shops excluding eating houses are more than 13 per 1,000 in the district and this figure is equal to the State average of 1.3%. The urban proportion, as everywhere in the State, is considerably higher than the rural proportion. The number of shops in the district shows that it is not commercially backward when compared to the other districts in the State.

The proportion of business houses and offices to the total Census Houses is very small in the district *i.e.*, 2,054 out of a total number of 771,701 houses. The number of houses of this category in the urban areas is higher than in the rural areas.

There are 9,440 Census Houses in the district which are used as factories, workshops and worksheds—6,960 in the rural areas and 2,480 in the urban areas. There are about 12 houses used as factories, workshops and worksheds out of every 1,000 houses in the district. The proportion is higher in the urban areas in the district than in the rural areas.

There are 3,204 houses in the district which are used as schools and other educational institutions. 2,509 are in the rural areas and the rest are in urban areas. Four houses in every 1,000 Census Houses are being used as schools. In the urban areas the proportion is higher than the corresponding figure in the rural areas. There is a school for every 950 persons in the rural areas while it is one for every 902 in the urban areas of the district.

There are 1,276 restaurants, sweetmeat shops and eating places out of a total number of 771,701 Census Houses. Out of this number 518 are in rural areas and the remaining 758 in the urban areas. In the rural areas there is only one house in this category for every 1,000 houses while there are 5 houses for every 1,000 houses in the urban areas. Places of entertainment, recreation etc., including temples, mosques and churches constitute 7,034 houses—5,957 in rural areas and 1,077 in urban areas. The higher proportion in the rural areas is naturally due to the larger number of places of worship as well as the existence of village chavadis in almost all the villages.

There are 774 Census Houses used as hospitals, public health institutions, dispensaries, clinics etc., in the district. Of these 317 are in rural areas and the rest 457 are in urban areas. Their proportion to the population, therefore, in the urban areas is much higher. From the above data it may be seen that medical and public health facilities are grossly inadequate in the district especially in the rural areas.

As explained earlier, the category of 'Others' includes houses put to miscellaneous uses like cattlesheds, garages, etc. Consequently no distinct pattern is discernible in this category of houses in the rural and urban areas of the district. The proportion of houses in this category is higher in the urban areas than in the rural areas.

Wall and Roof material of the houses in the district:

Types of Houses :—There appears to be no distinct change in the pattern of Housing from that observed in the neighbouring districts of Krishna and West Godavari. Most of the houses as in Krishna district are with mud walls and thatched roofs. In the delta region paddy hay is mainly used as roof material. The paddy hay is neatly arranged to form the roof and is secured well by running across ropes which are also made by turning paddy straw. In front of the houses is generally found the peculiar paddy storage bin which is cleverly constructed by running and piling up rings of paddy straw rope to form a cylindrical wall which is secured firmly and rendered damp proof by plastering with cow dung. The roof of the bin is covered by paddy hay.

In the western portion of the district which is rocky and dry, the walls are made of stones and the roof is put up with dry stalks of corn or redgram or conforms to the flat mud roof type. The tiled roof houses are more common in Ongole taluk.

House construction largely depends on the local material available, the climatic conditions and tradition. These also generally reflect the economic condition of the people of the area. Majority of the population whose income is very limited cannot think of having a substantial structure for their family. The villagers have to depend on their own meagre resources

i.e., the material they can get for nothing or at a nominal cost and on the efforts they can muster in the form of labour etc. The wall material that they can procure readily is mud from their own fields. The roof material may be thatch made up of the dry stalks of corn or redgram or the reeds and grass which can be collected from the jungle.

Wall materia:—Mud is predominantly used for walls in this district. 52.6% of the total houses in this district have mud walls. In rural areas such walls constitute 54.8% while in urban areas they account for 42.7%. The next important wall material in this district is stone. Houses having stone walls account for 23.6% of the total Census Houses. Such house in rural areas account for 25.8% and 14.2% in urban areas. Houses having bricks as main wall material next come in order and account for 15.3% of the total houses in the district. In the urban areas such houses account for 30.3% while in the rural areas they form 11.8% only. Houses having walls with grass, leaves, reeds or bamboo as the main wall material next come in order and account for 8.2% of the total houses in the district. Such houses are large in urban areas accounting for 12.1% while in rural areas they account for 7.4%. Among the taluks Vinukonda has the largest proportion of houses 80.4% in rural areas and 84.5% in urban areas having mud as the main wall material. In other taluks also such types of houses form a good proportion. The proportion of houses having stone as the main wall material is very high in Palnad taluk (64.3% in rural areas and 90.7% in urban areas). Guntur taluk comes next followed by Ongole taluk. Houses having brick walls are in great proportion in Tenali taluk and in the urban areas of Guntur, Repalle, Ongole, Narasaraopet and Sattenapalle taluks. Houses having grass, leaves, reeds or bamboo as wall material are in great proportion in the urban areas of Tenali and Bapatla taluks. In Tenali town such houses form the largest proportion *i.e.*, 42.1 % exceeding all other types. The proportion of houses having timber, cement, concrete, C.I. sheets or other metal sheets as the main wall material is small.

Roof material:-The predominant roof material used in this district is grass, leaves, reeds, thatch, wood or bamboo. Such houses constitute 53.5% of the total houses in the district while they constitute 54·4% in rural areas and 49.4% in urban areas of the district. The next important type of houses are those having tiles, slate, shingle as the main roof material. Such houses account for 21.6% of the total houses in the district. In the rural areas they form 20.4% and 27.0% in the urban areas. Houses with brick and lime as roof material account for 5.7% in the district. In the urban areas they form as large as 12.9% while in rural areas they account for 4.1% only. Houses having asbestos cement sheets, C.I. Iron sheets or other metal sheets, cement and concrete stone slabs form a negligible proportion in the district.

Among taluks, houses having grass, leaves, reeds, thatch, wood, or bamboo as the main roof material form the largest proportion in Repalle taluk. 88.9% of the rural houses and 69.8% of the urban houses come under this category. Tenali and Bapatla taluks have also such types of houses in major proportion. Houses with tiles, slate or shingle as main roof material are largely found in Ongole and Guntur taluks and in the urban areas of Bapatla, Narasaraopet and Sattenapalle taluks. Ongole taluk in fact has 42.4% of such houses in rural areas and 55.4% in urban areas. Houses having brick and lime as main roof material are in considerable number only in urban areas of all taluks. In the urban areas of Palnad taluk houses having concrete and stone slabs account for 19.7% of the urban houses and form the largest proportion in the district. Houses with other types of roof material are only of negligible proportions.

CHAPTER IV

HEALTH

Public Health :

The Public Health Department had its origin as early as in 1864 when a Sanitary Commission was formed in the Presidencies of Madras, Bombay and Bengal. In 1869 the Sanitary Commissioner took over the functions of the Commission. Vaccination was the earliest public health work undertaken by this new organisation. Later this work was entrusted to the Revenue and Medical Departments by turns and in 1922 after several experiments it was handed over to the Public Health Department. Registration of births and deaths became compulsory in the erstwhile Madras Presidency under the Births and Deaths Registration Act of 1899 and the Madras District Municipalities Act. From 1895 to 1914 various courses were organised and several batches of Sanitary Inspectors were trained. In 1915 a "Pilgrim Committee" on fairs and festivals was formed and this committee submitted proposals on the sanitary arrangements needed in future. The health education drive was also organised in the State in the same year with a great deal of success. In 1911 a Malaria Board was started and towards the close of 1920 it was amalgamated with the Sanitary Board forming the "Public Health Board" with the Minister for Health as President and the Sanitary Commissioner, the Sanitary Engineer and the Secretary to Government in the Public Health Department as members. The Sanitary Commissioner later on became the Director of Public Health assisted by a few Assistant Directors of Public Health each in charge of subjects like vaccination, epidemiology, vital statistics *etc.* In 1919 "Public Health" became a transferred subject with the main responsibility relating to public health administration resting with the local bodies under the Local Boards Act and the District Municipalities Act.

In 1912 an epidemic of Cholera caused great anxiety. Anti-Cholera measures both preventive and curative proved ineffective in controlling and combating this epidemic. This unsatisfactory state of sanitary administration prompted the Government to constitute the "District Health Scheme" in 1922. Under this scheme Assistant Health Officers were employed by the Local Bodies to work as District Health Officers in the urban areas. Health Officers were also attached to Municipalities. The Director of Public Health was to supervise the working of the "District Health Schemes" assisted by the Assistant Directors of Public Health each in-charge of subjects like vaccination, epidemics, fairs and festivals, vital statistics, maternity and child health, malaria *etc.* In April, 1924 the Government provincialised and gazetted the posts of Health Officers. The District Health Officer was charged with the duties prescribed in Health Code Volume I of M. P. H. Code and he was made responsible to the Director of Public Health and to the President of the District Board. The Municipal Health Officer performed duties prescribed in the Public Health Code and was made responsible to the Director of Public Health and also to the Executive Authorities of the Municipality. In 1939 the Public Health Act came into force and revolutionised the health set up. Under sections 7 and 8 of this Act the Government vested the Director of Public Health with the control of the Public Health Administration under the Local Bodies, and as per sections 8 and 9, the Government was to appoint Health Officers who were to work under the Local Bodies. These officers were vested with various responsibilities with statutory powers under the Public Health Act. The Director of Public Health was to exercise his powers through the Health Officers. The various other special schemes such as the control of malaria and filaria, tuberculosis through B. C. G. vaccination compaigns, leprosy, malnutrition, health education *etc.*, further strengthened the hands of the Health Administration.

In the erstwhile Hyderabad State there was an integrated department of health and medicine. After the formation of Andhra Pradesh this integrated department was bifurcated into the Public Health Department and the Medical Department. Since 1956 the Public Health Department in Andhra Pradesh has embarked upon implementation of various national programmes such as the National Malaria Eradication Programme, the National Small-Pox Eradication Programme, the Extended Nutrition Programme, the Milk Feeding Programme, the Anti Yaws Campaign, Family Planning Campaign, School Health Services *etc.*

The Government of Andhra Pradesh in the year 1960 ordered the establishment of District Demonstration

Projects with a view to studying and evaluating the health needs and the problems of the district. The idea was to integrate and co-ordinate health services embracing curative and preventive activities and for improving the existing health services and also for providing additional services. Four districts were chosen for this experiment out of which Guntur is one and this project is being implemented in a phased manner.

The plan of action under this project is to establish effective integration of health services and to have a unified health office at the district headquarters for administering these integrated and co-ordinated health schemes in which towns are included but teaching hospitals, medical colleges and regional laboratories are excluded.

Nutrition :

Guntur district is the headquarters of a Regional Nutrition Health Unit whose jurisdiction covers 7 districts in the State extending upto Srikakulam in the north. A Health Officer is in-charge of this Regional Nutrition Health Unit and is assisted by two Health Inspectors and a small clerical staff. This unit from 1958 to 1962 conducted diet surveys of 1,811 persons constituting 109 families and nutrition survey on 1,064 school children. A number of people and school children examined were found to be suffering from malnutrition. This deficiency was attributed to the lack of calcium, iron, vitamins A and D *etc.*

Skim Milk Powder obtained from the UNICEF authorities is being supplied to the needy, expectant and lactating mothers, school children, etc., through long range feeding programmes of the maternity and child health welfare centres, schools and the primary health centres. Besides the supply of milk, drugs and diet supplements like Multi vitamin tablets are also being supplied. Lectures are delivered and demonstrations conducted on the principles and practices of nutrition and dietetics to school teachers, school children, social workers, Gram Sevaks and Sevikas, by the Regional Nutrition Health Officer during his tours.

The State Government have also sanctioned the scheme for the implementation of the Expanded Nutrition Programme in a few Panchayat Samithis in the district.

Maternity and Child Health Services :

Maternity and Child Health Services continued to be implemented in all the 87 centres of this district. These centres are manned by Health Visitors, Maternity Assistants and Ayahs with equipment supplied by the UNICEF and by the State Government. At the district level the District Health Officer is assisted by a Woman Medical Officer and a Public Health Nurse to undertake effective supervision. The following statement gives particulars of ante-natal cases attended to and deliveries conducted :

Year	Ante-natal cases	Deliveries conducted
(1)	(2)	(3)
1955	6,400	5,403
1956	6,542	5,804
1957	7,204	6,482
1958	8,405	6,806
1959	8,946	6,948
1960	9,397	7,645
1961	10,244	9,406

During the period 1951 to 1961, 265 Dais were trained under the Government of India assisted plan schemes in this district at the following centres :

1 Korisapadu
2 Maddipadu
3 Daggupadu
4 Ipur
5 Nuthakki
6 Pittalavaripalem
7 Chandrajupalem
8 Tadikonda

Primary Health Centres :

There are 26 Primary Health Centres in the district. The Primary Health Centre is a multipurpose institution providing integrated preventive and curative health services contributing to the build up of positive health practices in the community. The main services that are provided at these centres are medical care, maternity and child health services, control of communicable diseases, collection of vital statistics, health education, family planning, disinfection of wells, supervision of domestic sanitary conveniences, soak pits, smokeless chullas, septic tank latrines, drainage *etc.* The Medical Officer in-charge of the centre is placed in-charge of both public health activities and medical services within the Block area. He visits the various sub-centres and also supervises and guides the work of maternity assistants. In short the Medical Officer is responsible for promotion of all measures designed to prevent and combat communicable diseases in the Block area and render the requisite medical aid to the general population. He also maintains a liaison with the nearest hospital for the transfer of more serious cases which cannot be dealt with in the

Primary Health Centres. The equipment and the transport for these Primary Health Centres have been provided by the UNICEF authorities and the medicines have to be paid for by the Panchayat Samithis.

The following is the list of Local Fund Dispensaries:

Zilla Parishad Dispensary	Ponnur
do	Mutlur
Panchayat Samithi Dispensary	Addanki
do	Parchur
do	Edlapalle
do	Kollur
do	Inlur
do	Pothavaram
do	Dachepalle
do	Atchampet
do	Durgi

The following statement furnishes the list of Rural Subsidiary Dispensaries and Maternity and Child Health Centres:

Rural Subsidiary Dispensary	Phirangipuram
do	Cherukupalle
do	Pedanandipadu
do	Santharavur
do	Appikatla
Social Welfare Rural Subsidised Dispensary	Stuartpuram
Maternity and Child Health Centre (under Zilla Parishad)	Bodipalem
do	Moparru
Maternity and Child Health Centre (Under Blocks)	Revendrapadu
do	Adigoppula
do	Krosur
do	Bhattiprolu
do	Chebrolu
do	Katrapadu
do	Kollagunta
do	Pedapalem
Maternity and Child Health Centre (under Village Panchayats)	Tadepalle
do	Nambur
do	Pedaravur
Maternity and Child Health Centre (under Municipalities)	Chirala
do	Narasaraopet
do	Bapatla
do	Repalle

Communicable Diseases Control:

The outbreak of Cholera in the district is associated with the large scale immigration of agricultural labour during the transplantation and harvest seasons. The seasonal occurrence of this epidemic is from June to August and from November to January coinciding with the influx of the agricultural labour from the neighbouring districts. This incidence is also observed during the months of January and February when labour again come in large numbers in connection with the tobacco cultivation. As this labour migrates from one village to another the chances of spread of infection are also very high and rapid. A study of the incidence of Cholera in this district from 1951 to 1961 reveals that the incidence was heavy in 1953; this coincides with the unprecedented floods in the river Godavari. The following statement gives particulars of the incidence of Cholera and Small-pox from 1951 to 1961:

	Incidence			
	Cholera		Smallpox	
Year	Attacks	Deaths	Attacks	Deaths
(1)	(2)	(3)	(4)	(5)
1951	662	284	7,557	1,446
1952	455	244	890	163
1953	554	275	236	46
1954	330	193	471	96
1955	14	5	711	134
1956	343	106	1,698	346
1957	939	418	2,518	406
1958	579	278	2,389	427
1959	146	68	1,132	189
1960	10	5	912	146
1961	37	9	985	160

Vaccination has been made compulsory under the existing Acts and Rules. Although every effort should be made to combat this dreaded disease revaccination is not being done systematically on account of the inadequacy of the vaccinating staff. Another factor responsible is the delay in the receipt of the first information by the Public Health Authorities from the villages. The big incidence of small-pox in this district was in the years 1950–51 and 1957–58.

In order to control and check communicable diseases, all fairs and festivals which attract pilgrims from various places are being effectively

supervised by the Public Health and Sanitary staff with the help of funds obtained from the Local Bodies concerned.

Diphtheria, typhoid, whooping cough *etc.*, sometimes break out in epidemic form amongst the children in the bigger Municipalities. The school health services of the district are adopting necessary preventive measures by the use of triple antigen vaccine. An epidemic van has been provided for this district for transferring serious ineffective cases from the rural areas to isolation hospitals for treatment. This van is also intended to rush the staff and drugs to the affected areas. Isolation sheds and wards have been provided in Guntur, Tenali Ongole, Bapatla, Narasaraopet and Chirala towns.

National Malaria Eradication Programme:

This district is covered with National Malaria Eradication Programme units situated at Guntur Tenali and Ongole. The loss in productivity through illness and sapped energy caused by Malaria has been estimated as very high. After the implementation of this scheme the incidence of Malaria has come down drastically.

B. C. G. Vaccination :

The B.C.G. Vaccination campaign for the control of tuberculosis was implemented in this district during the year 1960 with the help of four teams. The first round of mass vaccination has been completed all over the district. The second round of mass vaccination is now being undertaken to cover those who were missed in the previous campaign and those who were born subsequently. The following statement gives particulars of this campaign for the years 1960 and 61:

Year	Tested	Read	Positive	Negatives vaccinated	Direct vaccinated
(1)	(2)	(3)	(4)	(5)	(6)
1960	5,08,610	4,09,663	2,33,762	1,67,006	...
1961	5,59,170	4,57,947	2,77,575	1,68,823	...

Family Planning :

Family Planning Clinics are located in the following places in the district :

Ammanabrole	Emani
Attalur	Ethamukkala
Chandrajupalem	Ipur
Daggupadu	Kerisapadu
Maddipadu	Vemulapadu
Machavaram	Vetapalem
Nuthakki	Pittalavaripalem
Nizampatnam	Ongole
Nadendla	Tenali
Santhamagulur	Guntur
Uppalapadu	Narasaraopet

One Health Visitor and one Ayah are attached to each of these clinics. People are being educated into the benefits of family planning, stress being laid upon the spacing of children, the health of the mothers and finally the improvement in the standards of living which it leads to.

School Health Services:

This has been enforced in the district since 1959 with headquarters at Guntur to cater to the needs of the entire district. The Health Officer and the staff have been provided with transport facilities to undertake extensive tours.

Complete medical examination is being undertaken of all school children upto Higher Secondary class, and minor ailments when detected are being referred to the nearest hospital or dispensary for treatment and to specialists, if major treatment is necessitated. Mass immunization against cholera, small-pox and typhoid amongst school children has also been undertaken. School feeding programmes consisting of UNICEF milk is being carried on both in the urban and the rural areas through the agency of the District Health Officer and with the advice of the Regional Nutrition Health Officer.

Medical Services :

Guntur which is the headquarters of the district has a big General Hospital to which a medical college is also attached. This hospital has facilities in all the specialised branches of medicine and surgery and is staffed with highly competent and experienced personnel.

Apart from the facilities available in the General Hospital at Guntur there are 50 hospitals and dispensaries including Local Fund Dispensaries under the control of the District Medical Officer in the whole district. Under his control there is one Tuberculosis clinic in the Government Hospital at Tenali and the other in the Government Hospital at

Narasaraopet. There is also one Dental Clinic in the Government Hospital at Tenali. To provide medical relief in the rural areas, there are 53 rural dispensaries under the charge of the District Medical Officer. The Primary Health Centres in the district also function under his control. Apart from the above there are two Employees State Insurance Dispensaries and also 53 institutions administering Indian Medicine.

There is one hospital exclusively for the treatment of tuberculosis situated in a picturesque and an elevated spot, a few miles from Mangalagiri, in Guntur District. This Government Tuberculosis Hospital has an accommodation of 180 beds. It has one blood bank also attached to it. This institution is attached to the Government Medical College for the purpose of imparting practical training to medical students attending both Graduate and the Post-graduate courses.

CHAPTER V

INDUSTRIES

Guntur district is one of the most advanced industrial districts of the State. Guntur, Tenali, Tadepalle, Macherla, Chilakaluripet, Chirala, Mangalagiri, Vetapalem and Peddakakani are important industrial centres, where a large number of the industries are concentrated. This district has large scale industries of various categories, namely, cement, vegetable-oil, tobacco redrying units and jute mills etc. A list of registered factories working in Guntur district is given in Part II of this book under Administrative Statistics and may be referred to.

The Department of Industries conducted a survey in the year 1959 and it was found that there were 30 units of large and medium scale industries existing in the district. The following statement gives particulars of these industries:

Name of the Industry	No. of Units	Capital invested (in Rs.)	Labour employed No.	Value of products manufactured in the year 1958 (in Rs.)
(1)	(2)	(3)	(4)	(5)
Tobacco	20	1,98,85,367	15,683	9,55,50,765
General Engineering	1	5,00,000	60	3,17,500
Jute Industry	1	23,23,620	1,558	47,37,058
Oil Industry	4	24,95,000	206	58,90,833
Cement	2	2,50,63,599	919	9,18,02,946
Cotton Spinning	1	31,93,385	920	44,84,800

Tobacco grading represents the chief industry of the district which has almost a monopoly of Virginia Tobacco cultivation in the country. There is a large concentration of tobacco factories in and around Guntur city. The well known tobacco companies such as the I. L. T. D. and British India Tobacco Company and a score of other tobacco firms have large establishments here. Chilakaluripet is yet another important centre of tobacco industry. In Chirala is located the largest tobacco factory of the I. L. T. D. employing well over 5,000 workers—men and women—during the working season. Cement Industry is located at Tadepalle and Macherla. There is a large jute mill *viz.*, Bhajrang Jute Mills at Guntur. There is considerable cotton processing industry at Vetapalem. General engineering works are spread over at various places particularly in Guntur and Tenali towns. There is also a Public Works Department Workshop at Sitanagaram. Oil industry is also very important in Guntur City. There is a fairly large textile mill *viz.*, Hemalatha Textiles at Peddakakani. Added to all these, rice milling is an important industry particularly in Tenali. The district has several important centres of handloom weaving at Mangalagiri, Chirala etc. There are several other handicrafts such as basket weaving and stone carving practised in this district, which will be discussed below.

Small Scale Industries: As per the survey conducted by the Industries Department in 1959 there are about 580 units coming under 46 categories of industries in existence in this district. Cashew processing, rice and oil milling, general engineering and foundry works, paints and spectacles manufacture etc., are amongst the foremost in this field. A major portion of the general engineering workshops and foundries are situated in Guntur, Tenali, Bapatla and Ongole taluks. These workshops manufacture expellers, filter points, castor oil presses tobacco boiling presses, tobacco curing furnaces, seed crushing presses etc. Some of them even build bus and lorry bodies and manufacture minor spare parts and castings. Tenali is famous for the manufacture of pipe stainers and filters.

The bulk of cashew-nuts are exported to foreign countries also. Financial assistance under the State Aid to Industries Act is rendered to some of the small scale industries to increase their working capital and productive capacity.

Village Industries: Carpentry, blacksmithy, leather tanning, goldsmithy and brassware are the leading village industries in the district. Coir and rope manufacture and basket making are some of the other important village industries. Handloom weaving and leather tanning are the prominent occupations for the artisans in Chirala, Vetapalem and Bapatla. Paints, soap, ink, thread balls and hand-bag industries are well developed in Tenali and Guntur taluks. Agricultural implements of a very fine quality are manufactured in Obulnaidupalem. Furniture works are found in Narasaraopet. Stoneware industry has a flourishing trade in Vinukonda of Vinukonda taluk and also Koppudonda and Durgi of Palnad taluk.

Lead, silver, limestone and marble are found in Palnad taluk and also at Piduguralla, Dachepalle etc. Copper is available at Agnigundla of Vinukonda taluk and Kollur of Tenali taluk. Iron ore is found in Thummarakodu, Marnikeswaram, Addanki, Singarajukonda and Vemparalla. Limestone and Dolomite are available in Guntur and Narasaraopet taluks. Mineral pigments are available at Macherla and Basireddipalle. Silica is available at Nakaripalle and Chirala. Details regarding the various village industries are furnished below:

Carpentry: There is a large concentration of these artisans in the four taluks of Bapatla, Tenali, Guntur and Ongole. The general employment position of this industry is that there are 1,281 skilled workers and 829 unskilled workers. Traditional tools are still being used though efforts to popularise improved tools are being made by the Industries Department. Some of these artisans have also received the benefit of training in the production-cum-training centre and in the rural artisans training centres and also the rural community workshops. Loans have been furnished by the Government to some of the skilled workers for the purchase of raw materials and tools. The latter are also being supplied at 50% subsidy in the Block areas. The more important tools being used by these artisans are adgos, smithy plane, hand saws, clamps, chisels and other handtools of carpentry. Most of the production is on specific orders. Sometimes goods are also produced for sale in the market. The present position of this industry is quite satisfactory. Government agencies and other organisations are also encouraging this industry by placing orders to suit their requirements.

Blacksmithy: There are 842 skilled and 477 unskilled artisans working in the district and are mainly concentrated in the taluks of Bapatla, Guntur, Sattenapalle and Tenali. The goods manufactured are agricultural implements and a few other consumer goods. The main raw material which is the iron scrap is purchased from Guntur, Ongole, Tenali, Bapatla towns and at times from Vijayawada and Madras. The tools and equipment used are of the traditional type and made locally. The scrap is heated in the forge to the required temperature and then the articles are made out of it. Manufactured articles are usually sold at the place of manufacture itself. The ryots usually supply the raw material except in the case of a few units in Vinukonda, Narasaraopet, Tenali, Guntur and Ongole where he merchants dealing in hardware stores get the goods manufactured at their own workshops.

A scheme for the distribution of improved tools is in operation in the district and it is expected that the improved tools supplied to the traditional artisans will give them a fillip in increasing their earning capacity.

Goldsmithy: There are 1,536 skilled and 332 unskilled artisans working in about 950 units spread over in this district. These artisans are mainly concentrated in the towns. In Guntur city itself there are 320 units engaging 500 workers. These workers belong to the hereditary artisan class but however the trade in the urban areas is in the hands of the well-to-do merchants. The workers are only being paid rates on piecemeal basis.

Raw materials required are silver, gold, pearls, chemical stones and precious stones obtained mostly from Madras and Ceylon. The tools and equipment used are fly press, wire drawing and sheet rolling equipment, various dies *etc.* The earning of a skilled worker varies from Rs. 3 to Rs. 5 per day and that of an unskilled worker ranges from Re. 1 to Rs. 2 a day. The condition of these workers is rather sad and unenviable on account of the restrictions laid by the Government on the manufacture of gold articles.

Village Leather Industry: There are 10,110 skilled and 1,590 unskilled artisans working in 9,729 units in the district. This industry is spread over almost all the taluks of the district. These hereditary artisans belong to the Chamar community. Their primary occupation is agricultural labour and they attend to tanning work and leather goods manufacture on a part time basis. The raw materials required are hides and skins, vegetable tanning material like avaram bark, babul bark, myrobolan, tangedu bark, lime etc.

The present position of this cottage industry is not very statisfactory. The tanned leather and goods produced by the village cobblers are far inferior in quality to those made by the large scale units and also on account of the rural population switching over to the use of urban type footwear. The Khadi and Village Industries Board has sanctioned funds for the establishment of a model tannery. On account of this 6 model tanning units and 7 flaying centres have been sanctioned and established.

Basket making Industry: This industry is spread over in most of the areas in the district. There are 5,270 persons employed in 2,611 units,

4,277 are skilled and 993 are unskilled workers. People belonging to Yerukula community are engaged in this industry. Bamboo is the raw material used and this is procured easily. The tools used are specially made knives, the cost of which is approximately Rs. 4 each and are available locally. The finished products are sold by the artisans themselves except in the case of artisans working in the urban areas who sell their goods either to their customers directly or to a local merchant engaged in this trade.

Brass and Aluminium Goods: This industry is mainly concentrated in Guntur, Tenali, Aravapalle of Repalle taluk, and Addanki of Ongole taluk. Brass and aluminium which form the raw materials are procured mostly from Madras and Vijayawada. Two Co-operative Societies have been organised in the district for procurement of raw materials and for co-ordinating the marketing activities. On account of the scarcity of the raw materials and the high price to be paid for obtaining it from various sources this industry is on the decline.

Cumbli Weaving: This industry is concentrated in Patchalatadiparru, Ammanabrole, Tsundur and Bhattiprolu Blocks of this district. Weaving is done on pit looms in the houses of the workers in the traditional manner. There are about 122 units which engage 215 artisans.

Mat Weaving: This industry is concentrated at Ainavolu of Vinukonda taluk, Piduguralla, Addanki, Maddipadu and Bapatla. Mats are being woven with Tunga fibre and date-palm leaves. There are about 501 artisans working in 386 units out of which 110 units are in Ainavolu of Vinukonda taluk and 147 in the Piduguralla Block.

The Tunga fibre required in this process is being procured from the tanks within the district and from Kurnool and Nellore districts. This fibre is obtained in the months of January and February each year. The tools and equipment used are made locally. The capital requirement of each worker in this industry is about Rs. 600 per annum. Goods valued at Rs. 50,000 are being sold annually at Nagpur, Jabbalpur, Agra and other North Indian towns. During the non-working season the workers themselves take these goods to far away markets and sell them at Rs. 250 for 100 pieces of mats.

Rope making: This industry is concentrated in the Maddipad Block and it engages 1,471 persons. The raw material used is fibre which is procured locally. Jute fibre is the most commonly used raw material.

The agriculturists get their requirements manufactured at their own houses with the assistance of labourers. The urban demands, however, are met by the professional rope makers, who sell their goods to the merchants dealing in ropes, mats etc. In view of the increasing demand for ropes this industry is fast developing.

Brick making: This industry is mainly concentrated in the taluks of Tenali, Guntur, Bapatla and Repalle. There are 1,216 artisans of whom 594 are skilled and 622 unskilled.

Clay and fire wood are the chief raw materials. Coal is also used. Except coal the rest of the raw materials are procured locally. Clay is procured generally from the nearby fields and canal beds. The tools used are wooden moulds which are also made locally. Clay is freed from stones and other foreign matter and then forged with animal or human labour and moulded to shape. Burnt ash and coal are added to the clay depending on the plasticity of the clay. The bricks are then dried and burnt. *Batties* or continuous kilns are in use in this district for burning bricks. The bricks are piled to a height of 10 to 11 feet leaving air holes at the bottom. Fire-wood or coal is used as fuel and arranged in such a manner that uniform heat is provided to the bricks. On occount of the increased house building activity this industry is also progressing fast.

Dyeing and Printing: This industry is concentrated in the taluks of Ongole, Guntur and Bapatla. There are altogether 165 units employing 379 workers. The tools used are moulds, tubs and planks made locally. Chirala is the principal marketing place in this district.

Village Oil Industry: This industry is concentrated in the taluks of Guntur, Ongole and Repalle. There are altogether 66 units engaging 187 artisans generally the artisans work on the Ghani with the seeds purchased from the local market and then sell the oil to the people directly.

The principle oil seeds crushed are groundnut and gingelly. They are procured from the local markets. The oil is being sold to the consumers directly by the manufacturers themselves. Some oil-mongers, however, peddle their oil from door to door twice or thrice a week leaving the crushing of oil seeds to their family members.

Khadi Yarn : There are 1,982 traditional spinners and 1,929 Ambar spinners in the district. They are concentrated mostly in the taluks of Ongole and Palnad. Cotton which is the raw material for this industry is mainly grown in the taluks of Palnad, Vinukonda and Ongole. Usually the agricultural families employ themselves in this industry during certain months for enabling themselves to supplement their earnings. The yarn spun is being consumed within the district itself for weaving cloth.

Button making: There is one unit with two skilled workers and one unskilled worker at Patchalathadiparru B lock of the district.

Bee Keeping: This industry is concentrated in the taluks of Bapatla and Tenali. There are altoge ther 150 units in this district of which 34 are in Bapatla taluk and 66 in Tenali taluk.

Three Bee-Keepers' Co-operative Societies have been organised with the local Bee-Keepers as members at Yazali, Repalle and Mallampudi.

Tape Weaving : There are 140 tape weavers in the district and many more are under training at the peripatetic tape weaving demonstration centres started under the Community Development Programme in the various Blocks. Products manufactured are being sold locally.

This industry is coming in handy as a subsidiary occupation and for earning some extra money in the family. On account of the establishment of a number of demonstration centres in the Community Development Blocks more and more women are able to learn this craft. Steps are being taken to supply them with tape weaving looms on a subsidised basis so that they can have a gainful subsidiary occupation.

Hand-pounded Rice : Hand-pounding of paddy industry is the main occupation of the labour class during the non-agricultural season in the deltaic and other important paddy growing areas of the district consisting of the taluks of Tenali, Repalle, Bapatla and parts of Guntur. There is a considerable demand in the urban area for the hand pounded rice.

Co-operative Societies are being organised to develop this industry and to provide employment to hundreds of under-employed and unemployed labourers. So far 22 such societies have been organised with a membership of 793.

Industrial Co-operatives: The administrative control over the Industrial Co-operatives was tranferred to the Industries Department since 15-11-1958 for more intensive development of cottage industries. Since then special attention is being paid to the growth of the Industrial Co-operatives in order that more artisans get employment. By January 1964 there were 116 Industrial Co-operative Societies in this district. The following statement gives particulars of the various Industrial Co-operative Societies in the district.

STATEMENT V-I

Sl. No.	Type of Society	Number of		Authorised capital	Subscribed capital	Grants received from

Financial assistance in the shape of working capital loans, loans for stocking of paddy and oil seeds, loans and grants for the construction of model tanneries, flaying centres, common work-sheds (brick industry), marketing depots (Leather Industry) have been granted to the Industrial Co-operative Societies in this district mainly by the Khadi and Village Industries Board and the Government.

Industrial Estates:

There are no Industrial Estates in this district. However, the Government have sanctioned an Assisted Private Industrial Estate for Guntur at a cost of Rs. 2.07 lakhs in G.O. Ms. No. 1871, Industries Department dated 29-11-1960. 20 acres of land have been acquired and divided into 34 plots comprising 'A' to 'F' types. Facilities like power supply, roads, machinery on hire purchase, loans for the construction of buildings, are being provided by the State Government and these have attracted a number of Industrialists to this Industrial Estate. Several plots have already been allotted on which construction work is in progress.

Handicrafts:

Village and Cottage Industries and Handicrafts which are declining for want of patronage are being revived by organising Handicrafts Industrial Co-operatives. There are two such Handicrafts Societies in this district, one at Chirala for the weaving of Asia Rumals and the other at Durgi for developing stone carving industry.

(*a*) *Chirala Asia Rumal Weavers Co-operative Society*: The Society was registered on 27-3-1957 and started functioning from 28-3-1957. There are 74 members with a paid up share capital of Rs. 1,847. The society produces Asia Rumals with tie and dye designs of traditional colours and these have a fair market in the Middle East and African countries. The Government of Andhra Pradesh sanctioned financial assistance to the extent of Rs. 18,030 as loan besides non-recurring and recurring grants towards equipment, furniture and managerial assistance. This society's annual sale amounts to Rs.15,000 on the average.

(*b*) *The Durgi Stone Carving Workers Co-operative Society:* This society was registered on 6-3-1962 and started functioning from 15-3-1962. There are 12 members in the society with a paid up share capital of Rs. 250. The Government of Andhra Pradesh have sanctioned financial assistance to the extent of Rs. 2,000 and have also provided managerial assistance to the society. The declining craft of carving images on soft stone at Durgi is sought to be revived through this society.

Training of Artisans:

Training facilities are provided in the Industries Departmental units at Guntur, in the trades of blacksmithy and carpentry. These centres were started in the year 1956 under the Second Five Year Plan schemes. On the completion of training which is for a period of 11 months, the trainees are being absorbed in the local workshops and also in the centres started in the Block areas under developmental schemes. Financial assistance is also being given to self employed artisans under the Cottage Industries Schemes.

CHAPTER VI

FORESTS

The following extracts have been taken from "Forest types of Andhra Pradesh" compiled by Sri T. V. Subba Rao, Assistant Conservator of Forests, Andhra Pradesh. These extracts relate to the forest types obtained in Guntur Division.

Geology, Rock and Soil:

The formation of rocks is of the sedimentary type, consisting of shale, slate and limestone. The Cuddapah and Kurnool formations of limestones are also largely met with in the Palnad taluk. Small pieces of pure white crystalline quartzites are found near the town of Vinukonda.

The soil resulting from the decomposition of these rocks is the red loam, which is the principal soil in these forests. The sub-soil is one of kankar pan over most of the Palnad taluk especially near Mutukuru and Srigiripadu, which accounts for the very poor height growth of trees. At the foot of the hills and valleys, there is some alluvium but it is generally not deep. Where shales of a fissile variety predominate on the surface, yepi is found invariably.

The Forests:

The chief trees are *Hardwickia, Chloroxylon, Anogessus, Albizzia amara* and *Grewia. Chloroxylon* and *Anogessus* are most abundant on the upper slopes, *Hardwickia* on the lower slopes and in plains, while *Albizzia amara* and *Grewia* prefer mostly the plains.

Hardwickia is the predominant species, occurring scattered or pure. As a result of protection in recent years, there is a fair amount of young growth in the south and along the road from Bollapalle to Remidicherla; there are promising young trees for the future. Big sized trees fit for timber are found south of Srigiripadu village. Some big sized *Terminalia arjuna* trees fit for timber are found in the bed of the Jarrivagu, forming the northern boundary of Gangalakunta Reserve.

In the southern extremity of Gangalakunta Reserve in the Palnad range, a fair extent of *Bambusa arundinacea* is found along the Pulichintapayavagu, fit for working.

The forests may roughly be classified into the following three types, though they generally occur mixed up.

(i) *Open scrub jungle of the plains adjoining cultivation*: These are subjected to heavy grazing and frequent thefts of fuel. The forests are open, the ground is hard and the tree growth is stunted consisting mostly of thorny species such as *Acacia latronum, Acawa arabica, Acawa leucophloea, Dichrostachys cinerea* and *Randia dumetorum. Hardwickia* also occurs but in a thoroughly mutilated and unsound condition; besides other species like *Maba buxifolia, Manilkara, Hexandra, Ixora parviflora, Canthium didymum, Feronia elephantum* and *Gymonosporia montana* occur sparingly. The height growth of trees is generally about 20 feet. Regeneration of any kind is absent and these areas are suitable only for grazing.

(ii) *Fuel forests of the lower slopes and outer valleys*: The density of stocking and height growth are better here. The species found are *Albizzia amara, Acacia sundra, Chloroxylon swietenia, Erythroxylon monogynum, Premna tomentosa, Anogeissus, Bauhinia, Grewia* and *Diospyros*. The ground is covered with a fairly dense growth of grass. The height growth is upto 30 feet.

(iii) *Immature timber areas of higher slopes and interior valleys*: These consist of fairly promising poles of *Hardwickia, Anogeissus, Chloroxylon, soymida Albizzia lebbek, Lannea* and *Syzygium cumini.* Trees of 30 to 40 feet height are found. But most of the older trees are in an unsound condition owing to heavy pollarding in the past. Regeneration is fair but is smothered by the heavy grass growth. Soil of some depth is found in the interior valleys of Bollapalle and Venkatayapalem Reserves.

Casuarina and Cashew Plantations:

One of the interesting features, in Guntur Forest Division, is the existence of a vast stretch of forest area along the coast, where raising of casuarina plantations has been a regular work for some decades. This is a very productive venture, as we get a sizable revenue from these plantations. There are about 4,600 acres under casuarina plantations raised by the

Forest Department in this Forest Division. The average revenue realised at the end of nine years rotation is about Rs. 830 per acre. The yield from these plantations varies from 25 to 50 tons per acre at the end of this rotation. These plantations are raised at a cost of about Rs. 150 per acre.

The coastal sands are also suitable for raising plantations of the important dollar earner, *viz. Anacardium occidentale* (Cashew). It is also one of the species favoured by private land owners, and trading in cashewnuts is a flourishing industry along the coast in this district. The Forest Department has about 800 acres of productive cashew plantations and a revenue of about Rs. 23,000 per annum is being realised from these plantations.

CHAPTER VII

AGRICULTURE

Guntur district like the rest of the State is predominantly agricultural. The net cultivated area in the district during 1961–62 was 21,11,433* acres accounting for 57.1% of the total area of the district. 63.65% of the total working population have been recorded as engaged in agricultural occupations at the 1961 Census. The climate of the district is genarally healthy. Summer is hot in the uplands and comparatively cooler in the villages bordering the sea. Rentachintala in Palnad taluk genarally records the highest temperature in the State during summer. April to June can be said to be the hottest part of the year. The highest temperature recorded in the district i.e., at Rentachintala station during 1961 was 41.1°*C. The average annual rainfall of the district during 1961–62 was 929.1*mm. against the normal annual rainfall of 821.9* mm. The monthwise maximum and minimum temperatures as recorded at Ongole and Rentachintala stations and the monthly rainfall together with the number of rainy days as recorded at different Raingauge Stations in the district are given in Part II of this book under Administrative Statistics and may be referred to.

For the purpose of statistics of rainfall the district is divided into three zones *viz.*, delta, the upland, and the Ongole taluk; the monsoon commencing later in Ongole taluk than in other parts of the district. From December to April the rainfall is nominal, slight showers occurring at the end of May and the monsoon actually setting in June. The months from July to November may be regarded as the period during which heavy monsoon occurs. The showers in May and June generally augment the supply of drinking water and enable the ryots to raise the punasa or the early crops. Unless the rains in the succeeding months are frequent and good there is likely to be a failure of all early crops such as cholam, cumbu, korra etc., which form the staple food grains. The southwest monsoon from June to October is the most important and its failure affects the food production although the north-east monsoon, occurring from October onwards, if favourable, would mitigate the scarcity to a considerable extent. The drought is always felt in the upland portion of the district—especially in the taluks of Vinukonda, Palnad and Narasaraopet and in the western portion of the Sattenapalle taluk especially in the firkas of Bellamkonda and Achampet where the soil is red and rocky and where the crops do not yield normal out turn unless there is good rainfall at short intervals.

The soils of this district are primarily of the black variety forming 85% of the land. This is considered to be very fertile. The formation of rocks is of the sedimentary type consisting of shale, slate and limestone. The Cuddapah and Kurnool formations of limestones are also largely met with in the Palnad taluk. Small pieces of white pure crystalline quartzites are found near Vinukonda. The soil resulting in decomposition of these rocks is the red loam which is found principally in the neighbourhood of Guntur-Guntakal railway line. Arenaceous or sandy soils border on the sea coast. A small extent along the banks of the Krishna river is alluvial. The percentage distribution of soils in the taluks of the district is furnished below:

STATEMENT VII-1

Name of Taluk	Percentage of area in each taluk		
	Black	Red	Arenaceous
(1)	(2)	(3)	(4)
Palnad	86.26	12.10	1.64
Sattenapalle	92.89	6.95	0.16
Guntur	95.59	3.12	1.29
Tenali	100.00	...	...
Vinukonda	33.40	66.60	...
Narasaraopet	50.40	46.41	3.19
Bapatla	82.83	0.56	16.61
Repalle	60.32	0.55	39.13
Ongole	72.12	24.98	2.90

As regards agricultural practices the district can be broadly divided into three distinct zones each having characteristic practices of its own. Paddy is the chief crop cultivated in the deltaic areas of Repalle and Tenali taluks and also in a large portion of Bapatla taluk, seven villages of Guntur taluk and one village of Ongole taluk, being commanded by the Krishna western delta system. Its cultivation is almost similar to that obtained in the other deltaic taluks of the Northern Circars. The second zone consists of the narrow coastal belt in Bapatla and Ongole taluks which is mostly sandy in nature and the entire cultivation is carried on by doruvu wells. Ragi is the principal crop grown in this area. Vegetables of the indigenous type are also extensively grown. The physical condition of the soils in this area is such that they are ideally suited for raising nurseries of paddy and other transplanted crops like tobacco and chillies for supply to ryots in the other areas. The third zone is more extensive consisting of the upland areas of Palnad, Sattenapalle, Narasaraopet, Vinukonda, Ongole

* Statistical Abstracts of Andhra Pradesh, 1961 and 1962

and Guntur taluks where cultivation is entirely dependent on timely and sufficient rains. The soils in this zone are mostly of the black cotton variety though red, gravelly and loamy soils are also met with in parts of Vinukonda, Sattenapalle and Palnad taluks. Jonna, sajja and variga are the principal food crops that are grown in this area. Korra, arika and other minor millets are also grown to some extent.

Tobacco, chillies, groundnut, turmeric, coriander, castor and cotton are the cash crops extensively grown in this district. Pulses, greengram, blackgram, horsegram, bengalgram and redgram are the other crops grown in this district. Fodder crops like sunnhemp, pillipesara, jonna and maize are also grown. Great care is taken to dry and preserve these fodder crops for the dry season.

Sunnhemp is sown as a mixture crop in sajja and jonna for seed purposes extensively in the taluks of Vinukonda, Palnad, and Narasaraopet. Guntur district is also considered to be one of the important centres for production of sunnhemp seed and supply to other districts in Andhra Pradesh and also to the other Southern States to some extent.

Agricultural practices in this district vary with the soil and the nature of crops grown. A short duration second crop paddy following a long duration crop has been introduced and grown in suitable areas in the delta taluks of Bapatla, Tenali and Repalle. The ryots have realised the importance of increased crop production by way of systematic manuring, the use of high yielding strains of crops *etc.*, Fertilisers and organic manures are being used to a great extent. In the case of lift irrigation, oil engines, filter points, petrol pumpsets, electric motors and other power driven pumps are replacing the ancient wheels *etc.*

The groundnut in rabi season in rice follows under irrigation, chillies and tobacco (Virginia and Country tobacco) have enormously increased in area in the district.

Cropping pattern and calender of sowing and harvesting seasons in the district: In normal years 76.5% of the total sown area in the district is covered by food crops and non-food crops cover the balance of 23.5%. Paddy is the major food crop grown in the district and it accounts for 21.3% of the total sown area of the district. It is closely followed by jowar which also accounts for 20.3%. Bajra accounts for 6.1%. The other food crops individually form a small proportion. Among non-food crops tobacco occupies the highest place and accounts for 9.0%. Groundnut accounts for 5.0% and chillies accounts for 3.0% while the other non-food crops individually form a low proportion. The sowing and harvesting seasons of important crops in Guntur district are given below :

STATEMENT VII-2

Name of crop (1)	Sowing months (2)	Harvesting months (3)
Food crops		
Paddy Irrigated †		
Winter	June to September	November to January
Summer	January	April–May
Dry paddy	June–July	September–October
† Autumn paddy is not cultivated in this district		
Jowar (Kharif or Punasa)	June–July	September–October
Rabi or Pyru	October–November	January–February
Bajra (short duration)	October–November	January–February
Korra	July–August	October–November
Varagu*	July	October–November
Samai‡	July–August	October–November
Panivargu (Variga)	October	January
Pulses		
Bengalgram	October–November	February–March
Redgram	June–August	January–February
Blackgram	November–December	February–March
Greengram (Khariff)	June	August–September
Greengram (Rabi)	November–December	February–March
Others		
Chillies (Drill sown)	August–September	January to March
Chillies (Transplanted)	September–October	January to March
Onions	September	February–March
Coriander	October–November	February
Turmeric	July–August	March–April
Groundnut (Rainfed, Irrigated in Rice follows)	December–January	March–April
Tobacco (Virginia)	October–November	December–February
Tobacco (Country)	October–November	February–March

*The area under this crop is very negligible and decreasing year after year.

‡ The area under this crop is very negligible

The following table shows the talukwise timetable of Agricultural Operations in the district in the normal years. The figures, shown against each crop or variety of it, represent the percentages of the area of the crop sown and harvested in the month to the total area of the crop sown and harvested in any year, in each taluk separetely:

The following are the effects of departures from normal seasonal conditions upon the time-table of Agricultural Operations:

Month	Normal weather	Effects of the unseasonal or abnormal weather on the various crops
(1)	(2)	(3)
January	First dry month after the monsoon; fine weather, moderately warm days and cold nights; season commences with dew falling in nights; no rains generally.	There is generally no rainfall in this month and the dry weather facilitates the harvest of paddy crops which are kept in sheaves for drying and also dry crops such as jonna, maize, variga, etc. If heavy rains occur, the paddy harvest and other dry crops for harvest will be greatly damaged. Moderate rainfall will postpone the harvest but will not cause any damage. It is however beneficial to standing crops like cotton, paddy, jonna, etc. From the point of view of paddy harvest, the absence of rainfall is beneficial. Paddy is the chief staple food grain of Tenali and Repalle taluks and a major portion of Bapatla taluk and any adverse result on the paddy harvest will seriously affect the condition of the delta ryot. Excessive rains are injurious for all the crops generally.
February	Fine weather; no rains generally; dew continues; days are warm and nights are cool.	February is rainless and the dry weather facilitates the harvesting of paddy. The dew falling on the standing crops will facilitate their growth. If there are heavy showers or if there is continuous rainfall the harvest of paddy and other dry crops and threshing and drying of grain will be interfered with and the standing crops like cotton etc., which are nearing harvest will be spoiled.

Month	Normal weather	Effects of the unseasonal or abnormal weather on the various crops
(1)	(2)	(3)
February—*Concld.*		Moderate rainfall in the month delays the paddy harvest under tanks in upland area and the harvest of dry crops outstanding but it is beneficial to standing crops like turmeric. Absence of rainfall is favourable to paddy harvest and the harvest of dry crops.
March	Fine weather generally; dew abating; no rains; days warm; Nights continue to be cool.	March is rainless. Dry weather facilitates the harvest of variga, turmeric, late jonna, cotton, castor, chillies, tobacco and grams. If there are heavy or continuous showers, the harvest of dry crops like variga, coriander, turmeric, grams and tobacco will be seriously affected and threshing and drying of grain will be interfered with. Continuous rain at this stage hinders the harvest of the above crops and the threshing and drying of grains. Moderate rainfall in this month delays the harvest slightly, but it is beneficial to standing crops on garden land and under wells and other sources of water supply. Absence of rainfall is favourable for harvesting and threshing and drying of grain.
April	Dry weather with occasional showers; commencement of summer warm winds; both days and nights get very warm.	This is also a rainless month. Most of the crops get harvested already. If rains should occur, the harvest of cotton, sugarcane, indigo, late jonna, etc., and carting and storing of fodder will be much affected, but they will facilitate the summer ploughing of fields. The drinking water tanks and wells in the upland taluks will receive some quantity of water which will be useful for men and cattle. Moderate rainfall in this month makes the days and nights pleasant and helps the growth of garden crops and other crops under wells. Absence of rainfall facilitates the harvest of crops outstanding, and carting and storing of fodder.
May	The warmest month of the year with very uncomfortable days and nights; warm winds continue.	This is usually a rainless month. No standing crops generally except garden crops like oranges, plantains, limes, etc. No excessive or continuous rains. Paddy seedlings are raised in some places under wells and doruvus. Moderate and slight showers facilitate summer ploughing of fields. One or two soaking showers are generally welcome, as otherwise the land cannot be ploughed for weathering. Absence of rainfall facilitates the carting of manures and preparing of lands for raising early crops for the next fasli year.

Month	Normal weather	Effects of the unseasonal or abnormal weather on the various crops
(1)	(2)	(3)
June	This is also a very warm month; setting in of the south-west monsoon. The head sluice of the Krishna canal will be opened on the 1st of June and as usual advantage is taken of the supply in the channels, connected with the Krishna Western Delta System, by the delta ryots to prepare nurseries for the wet paddy seedlings. Warm winds continue.	This is also partly a rainless month. Rainfall commences in the later part of the month. Continuous or excessive rainfall enables the ryots to commence sowing of early crops and raise seedling of wet paddy. Moderate rainfall will also be advantageous to commence sowing. Absence of rainfall postpones the ploughing of dry lands and sowing of punasa or early crops.
July	South-west monsoon in progress; warm winds continue.	Excessive or continuous rainfall is favourable to the supply of water in the major and minor irrigation tanks and the drinking water tanks in the upland areas. It is however prejudicial to the crops already raised. This is the best month for sowing dry crops and transplanting wet paddy. Moderate rainfall augments the supply of water in canals under the Public Works Department System and in the major and minor irrigation tanks. The transplantation of wet paddy is also facilitated. Moderate and light showers at intervals of a week or so are useful for the ploughing of dry lands and sowing of dry crops. Absence of rainfall retards the progress of transplantation of wet paddy and raising of dry crops such as jonna, korra, sajja, ragi and groundnut.
August	South-west monsoon active; days very warm.	Heavy or continuous rainfall is prejudicial to the crop already sown and those sown in this month but fills up the major and minor irrigation tanks. Paddy nurseries sown may be affected if rains are very heavy. Moderate rainfall is useful for the crops sown. Absence of rainfall will naturally retard the progress of transplantation of wet paddy and also affect the crops sown in June and July.
September	South-west monsoon active; heavy rains.	Heavy or continuous rainfall retards the progress of late dry crops, damages the Crops raised in June, July and August. It also affects the harvest of short crop jonna and the sowing of horsegram and cotton in some parts, but it will be useful to the rainfed tanks in the upland areas. Moderate rainfall is useful for the tender and standing crops for raising late crops. Absence of rainfall may be useful for the harvest of jonna, but the yields

Month	Normal weather	Effects of the unseasonal or abnormal weather on the various crops
(1)	(2)	(3)
September—*Concld.*		of groundnut and other standing crops will be greatly affected and it will also postpone the sowing of late crops like cotton.
October	Setting in of north-east monsoon about the middle of the month; days and nights comfortable.	Excessive or continuous rainfall affects much of the harvest of jonna, sajja, korra and groundnut. It spoils tender crops and wet paddy. Moderate rains are necessary for tender and standing crops. They are also useful for raising late crops such as variga, chillies, tobacco and jonna. They do not affect much, the crops ripe for harvest.
November	North-east monsoon in progress; days comfortable; nights cool; occasional showers.	Excessive or moderate rains will affect the harvest of dry crops such as jonna, groundnut, indigo, *etc.* Moderate rainfall is beneficial to tender crops and other standing dry crops and also wet paddy not ripe for harvest.
December	Bright weather; north-east monsoon ends; dew begins to fall; days cold; nights chill.	Heavy and continuous rainfall will greatly affect the wet paddy. It will also affect the tender and standing crops and the harvest of greengram, indigo, groundnut and paddy (wet and dry). Moderate or occasional rainfall is beneficial to the standing dry crops.

CHAPTER VIII

IRRIGATION

The main sources of irrigation in this district are the waters of Krishna, irrigation tanks, spring channels, doruvus and wells. This is one of the districts under the fold of Krishna delta system. The eastern portion of the district is benefitted by the Krishna Barrage constructed at Vijayawada. The western portion of the district which is mainly dry now will have the benefit of coming under canal irrigation soon after the mighty Nagarjunasagar dam now under construction is completed. The canals that take off from Vijayawada at the Krishna Barrage form the main source of irrigation in Tenali, Repalle, Bapatla taluks and a portion of Guntur taluk and irrigate about four lakh acres in Guntur district. The other worth mentioning rivers flowing in this district are Gundlakamma, Chandravanka, Naguleru and Musi rivers but they do not afford any large scale irrigation facilities in the district. Naguleru stream irrigates only a small extent in Palnad taluk. There are a few spring channels mostly near the coast. In the non-deltaic taluks of Palnad, Sattenapalle, Vinukonda, Narasaraopet and Ongole, the chief sources of irrigation are the rain fed tanks and a few tanks fed by hill streams. Macherla tank and Atmakur tank in Palnad taluk are fed by hill streams while all the others are wholly rain fed. The total ayacut under minor irrigation tanks is estimated at about 46,000 acres. In Bapatla and Ongole taluks there are spring channels excavated in the sand ridge. In view of the copious supply of water in the spring channels the land is as valuable as in the delta region. Wells also supplement the sources of irrigation in this district. The wells are mostly brick lined and contain sufficient supply to irrigate ragi, jowar, onions and vegetables. Garden crops are generally raised under wells when there is a prospect of failure of dry crops for want of sufficient rainfall. In the year of good rainfall the ryots do not take the trouble of lifting water from wells as it involves some expense. The season and crop report for the year 1960-61 reveals that the net irrigated area in the district was 6,30,341 acres forming 27.7% of the total sown area. 29,861 acres have been irrigated more than once. The important irrigation projects existing and proposed under the Five Year Plans are briefly described below.

The river Krishna starting from the Maharashtra State and flowing through the Districts of Mahbubnagar and Kurnool enters Guntur district near Ganikonda hills in Palnad taluk and flows along the northern border of the district for a length of about 80 miles and finally falls into Bay of Bengal.

Krishna Delta System:

An anicut was constructed across the Krishna river between two hills at Vijayawada and Sithanagaram in the year 1855. From the head sluice at Sithanagaram the main channel for Guntur district commences and lower down it branches off into a net work of channels irrigating the taluks of Tenali, Repalle, Bapatla and Guntur. The three irrigation canals *viz.*, Commanur, the West Bank and the Nizampatnam canals are also used for navigation purposes facilitating the transport of foodgrains from places bordering on the canals but not connected with the Railway. The Commamur canal joins the Buckingham canal as a means of navigation near Pedaganjam in the Bapatla taluk, thus establishing through communication between Vijayawada and Madras by waterways. A brief account of the construction of Krishna anicut is given below. This has been taken from an article "Irrigation from the Krishna" published by the Institution of Engineers (India), Andhra Pradesh, Hyderabad in 1959 in its souvenir "A Century of Irrigation-Godavari and Krishna Deltas 1859-1959."

"For many years prior to the damming of the Godavari, proposals had been made for supplying irrigation to the delta of its neighbour the Krishna. About the year 1792, Major Alexander Beatson, of the Madras Infantry, the "Surveyor General" who planned the successful attack of General Harri's army on Seringapatam in 1799, advised the Government to build an anicut on the Krishna at Bezwada 60 miles from its mouth, and the Government referred the matter to its astronomer, Mr. Michael Topping who spent nearly three years in surveying the river in company with Capt. J. L. Caldwell, M.E.

Topping's reports and surveys, however languished for almost half a century in the pigeon-holes of Leadenhall Street until the great famine of 1832-33 stirred the complacent Directors into action. Human beings were then dying by hundreds of thousands while the gaint Krishna rolled its mighty volume unhindered to the sea. Some irrigation works were begun, but not till 1839 were the recommendations of

Beatson and Topping brought to notice in two reports from Captain Edward Buckle, M.E. Yet the Madras Board of Revenue remained sceptical. The members remarked in 1840 that "very large and costly works like an anicut at Bezwada are clearly inexpedient and impracticable," and had it not been for Arthur Cotton, it is probable that the Krishna scheme would have been shelved for many a year. But Cotton's enthusiastic report about the Godavari in 1844 drew attention once more to the Krishna, and Lieutenant H.A. Lake, M.E. was sent there to prepare a scheme for an anicut.

In his report on the scheme which Capt. Lake had prepared in consultation with Major. Cotton, then Civil Engineer, First Division, Rajahmundry, while Lake himself was Civil Engineer, Second Division, he (Lake) had acknowledged Arthur Cotton's deep knowledge, and his confidence in damming the Krishna to provide water for irrigating the Northern Circars. Not only this but that the Godavari and the Krishna were to be connected by a channel at Ellore, in order to provide a big route for inland water transport.

"It is proposed by Major Cotton and myself to connect the two rivers, the Godavari and Kistna, by a channel meeting at or near Ellore; one half of the expense to be carried to the account of the Godavari project, and the other to the one now submitted. In the Rajahmundary district a channel will be excavated from the Godavari in an East-North-Easterly direction as Pentecottan on the coast, 70 miles from Rajahmundry and as the proposed channel south of the Kistna, to which I have before alluded, will extend as far, we will say, as the Goondlacummah river; there will thus be a direct water communication for a distance of 230 miles; and it will be seen hereafter how far it may be feasible to continue the canal still further both North to which I, at present, as regards my own division, see no obstacle whatever, and I do not believe that any exists on the Rajahmundary side of the Godavari. Thus with such facilities for transporting the produce of these large districts by means of a canal, the uncertain and at all times precarious transport of goods by sea will be altogether avoided, and the increase of inland commerce will be almost incalculable. At all events, every part of the irrigated tract will have constant water communication with the different ports on the coast."

Opinion being sharply divided on the practicability of constructing the special type of Anicut on the Krishna at Bezwada (distinct from the type adopted at Dhowleshwaram), the Government had referred the proposal for Major A. Cottton's opinion. Arthur Cotton's conviction on the practicablity of sand as a foundation material for Hydraulic structures may be regarded as the precursor of the principles and practice which long afterwards came to hold the field in regard to permeable foundations. He observed:

"There is so deep an impression in people's minds respecting a sand foundation generally, that *it is most difficult to investigate the subject properly*. There is certainly one defect in sand as a foundation, *viz.*, that if running waters come in contact with it, it will be swept away, but this is the only one, in other respects it is the finest foundation possible; it is indestructible and incompressible. Of the thousands of works which I have seen or executed on a foundation of pure sand I never saw the slightest sign of a settlement in any one of them. We must, therefore, take care to remember that there is only one thing to be guarded against in building in sand, and that so long as it is protected from the action of running water, no work resting in it can possibly fail; and the remedy for this one defect is as plain and easily applied in situations such as this, as could be desired; it is simply to cover the sand, where it could otherwise be exposed to the action of the current, with loose stone. In rivers like these having a velocity of four miles an hour at the utmost, the largest stone to be found in their beds does not exceed two or three ounces, and these often remain for years in the same place."

Major Cotton wound up his report with the following remarks:

"After every consideration, I feel entirely satisfied that the objections to it are entirely imaginary, so far as the stability of the work is concerned, and nearly so as respects its cost."

Subsequent to Major Cotton's report on the Krishna Anicut Project, Government appointed an Expert Committee consisting among others of Captain A. Orr. This Committee after detailed examination, summed up their recommendations in words which have a historic ring about them, delineating a picture of the state of the Northern Circars in those days:

"In conclusion, the Committee desire to record *their conviction of the very great importance of the* proposed work, and of its early sanction. That it would, in all human probability, avert the possibility

of destructive famine in this region, seems an argument of the greatest possible weight, independent and profitable expectations, which are themselves most promising. In addition to which the sooner the valuable experience acquired by the Godavari is brought to bear upon the Kistna project, the more effective it will be.

The loss of revenue by the famine of 1832-33 estimated at least at one crore, the loss of property at a far greater amount, of life at 200 or 300,000 and of cattle at 200,000 (at the lowest) in Guntur alone, besides the ruin of 70,000 houses. These facts will the committee believe, bespeak more effectively than the most laboured arguments, the favourable attention of the Honourable Court of Directors, to the project now submitted, as one of indispensable and urgent necessity. The famine of the Northern Circars in 1833 and that of the North-West Provinces of India at a later period, prove with irressistable force that irrigation in this country is properly a question, not of profit, but of existence."

The Krishna anicut project was sanctioned in 1851 and the work was started in 1852 under Charles A. Orr (then a Captain) Civil Engineer, Krishna Division. No better selection could have been made, as Orr had just completed the great weir across the Godavari under the guidance of Arthur Cotton. At Bezwada, the site chosen for the Kistna Weir, the river flowed between rocky hills 3,900 feet apart; but although this width was much less than at Dhowleshwaram on the Godavari, it was no child's play to build, on pure sand, a masonry dam 15 feet high across a gorge in which the river rose 40 feet when in floods. There was an unprecedented flood in 1853 such that it was 'never before seen by any man then living.' By 1855, however, Charles Orr had completed the work successfully, rapidly and without any serious mistakes, and so, by a system of canals on either bank, brought the blessings of irrigation to the Krishna Delta. This however, was only the first part of the project that had been sanctioned to give partial effect to the scheme.

In submitting the estimate for the second part of the project. Captain Orr made out a strong case, in keeping with Sir Arthur Cotton's style, for a fuller and richer utilization of the waters of the Krishna. He wrote:-

"The cost of the anicut and of the portion of the works already sanctioned to give partial effect to it, amounts to nearly fifteen lakhs of Rupees. Fifteen lakhs more will probably be required for the completion of the undertaking, and the faster it can be laid out the sooner will the country be benefitted, and the treasury reimbursed; while on the other hand, as the improvement of the country is essentially dependent on the spread of irrigation by channels, and on the opening out of cheap communications by their means any hesitations in sanctioning their extension, through out every portion of the Delta can only have effect of withholding from the people the prosperity that is all but within their reach, and of depriving the State, first of the immediate returns it might obtain on the past outlay, and secondly of the permanent increase of revenue that would result from the speedy and thorough development of the projected irrigation schemes."

The Chief Engineer, Lieut, Col. C.E. Faber, paid a handsome compliment to Capt. Orr's talent in his report to Government on the completion of the Krishna Anicut Scheme—

"I shall conclude with an expression of the gratification I feel in placing Captain Orr's report before the Government, showing so satisfactorily the completion and stability of his work proving his zeal, and confirming the correctness of his judgement".

The following extract from the minutes of consultation of the Governor in Council recording the recognition by the Govt. of the valuable services of Capt. Orr is an indirect tribute to Arthur Cotton's genius in as much as the Anicut across the formidable Krishna river rested for its stability on Cotton's skill and judgement of the behaviour of a stone anicut founded entirely on sand (with out a proto-type). Carried out faithfully by his able Lieutenant Orr, it had stood the test of time to the lasting fame of the selfless band of British Engineers:

"The work has stood the test of two seasons freshes of 30 feet having on two occasions passed over it, with no damage beyond the displacement of a few stones in the apron. The satisfactory completion of the Krishna anicut, as now reported, is highly gratifying to the Government and they consider that much credit is due to Captain Orr. He has evinced great professional skill and judgement in conducting this vast and difficult work, and has set an example to the officers under him by his forethought, his constant attention to his duty, the systematic and judicious arrangements he has made, and the zeal and energy which have on all occasions characterized his proceedings; and the Government have much pleasure in recording their recognition of his valuable services."

Projects taken up under Five Year Plans :

The following are the impartant irrigation Projects taken up under the Five Year Plans in Guntur district :—

Krishna Barrage: Under the First Five Year Plan the construction of Krishna Regulator-*cum*-Road Bridge otherwise known as Prakasam barrage was taken up in 1954 at an estimated cost of Rs. 284 lakhs. The barrage is chiefly intended to replace the anicut which suffered serious damages during heavy floods of 1952. The barrage brought an additional ayacut of 54,000 acres of land in Guntur district under Krishna delta system. A road bridge was also combined with the regulator to provide an all weather river crossing. The work has been completed.

Nagarjunasagar Project: The Nagarjunasagar project marks a new chapter in the irrigation history of Andhra Pradesh. It is the first of the River Valley Projects contemplated in the integrated plan drawn up for the utilisation of Krishna waters. The work was started in 1955 as a joint venture of the erstwhile Hyderabad State and Andhra State. The scheme as sponsored envisages the construction of a masonary dam of height 370' above the river bed at Nandikonda village in Miryalaguda taluk of Nalgonda district impounding 9.18 million acre feet of water. When completed it will be the largest man-made dam in India. The right bank canal will carry 21,000 cusecs, flows 276 miles and falls into river Pennar. It provides for irrigation in Guntur, Kurnool, and Nellore districts for an ultimate area of 21 lakhs of acres. The Left Bank Canal which takes off on the Telangana side has an ultimate capacity of 15,000 cusecs. Its length is 205 miles and is proposed to irrigate about 13.50 lakh acres in Nalgonda, Khammam, Krishna and West Godavari districts. In addition to irrigation benefits, the power to be developed at the dam site is nearly 75,000 KW. The total area that will be brought under the plough is about 3.5 million acres. The total estimated cost is Rs. 125 crores. The Project is planned to be executed in two phases in order that benefits may be realised earlier without having to wait for the completion and also to match with the resources. In the first phase the masonary dam will be raised to F. R. L.+525' (ultimate height being F. R. L.+590') and the two canals 135 and 108 miles long on the right and left sides of the river will irrigate 2.06 million acres including 1.50 lakh acres in the first crop and 0.50 lakh acres in the second crop in the Krishna delta. The estimate of the first phase plan is Rs. 91 crores. The Right Canal will benefit Palnad, Sattenapalle, Vinukonda, Narasaraopet, Guntur, Bapatla and Ongole taluks in Guntur district; and Markapur taluk in Kurnool district. Under the left canal Miryalaguda, Huzurnagar taluks of Nalgonda district, Khammam taluk of Khammam district and Nandigama taluk of Krishna district will be benefitted.

Romperu Drainage Project: This scheme, taken up in 1950 at an estimated cost of Rs. 126.55 lakhs, is intended to reclaim and bring under cultivation the existing ayacut which is inundated by floods, besides bringing an additional ayacut of about 10,000 acres of reclaimed land in Guntur district.

Pulichintala Project: This envisages the construction of a dam at Pulichintala across river Krishna and to excavate two canals—right bank canal of 187 miles long to irrigate 3.91 lakhs acres and left bank canal to irrigate the areas in Tiruvur, Nuzvid and Gannavaram taluks which are otherwise uncommandable by the Nagarjunasagar and Ramapadasagar canals.

Bhavanasi Project: This is a small project constructed across the Bhavanasi river a tributary to Gundlakamma and is intended to irrigate lands in five villages of Addanki, Manikeswaram, Chakrayapalem, Gopalapuram and Narasimhapuram of Ongole taluk. The area commanded by the Project will be 2,500 acres.

Guntur Channel Scheme which is a part of Pedanandipadu scheme at an estimate cost of Rs. 95.00 lakhs is contemplated in the fourth plan. It will bring into irrigation 23,600 acres.

Vaikunthapuram pumping scheme is also contemplated and proposed to be executed in 4 stages to serve in all about 16,500 acres at a total cost of Rs. 49.64 lakhs. The first stage will bring in 3,000 acres under irrigation at a cost of Rs. 9.42 lakhs ; second stage 3,300 acres at a cost of Rs. 9.27 lakhs ; third stage 6,000 acres at a cost of Rs. 16.45 lakhs ; and fourth stage 4,200 acres at a cost of Rs. 14.50 lakhs. Stage I is taken up for execution.

CHAPTER IX

PANCHAYATI RAJ

Historical Retrospect :

Local Boards were non-existent till the middle of the 19th century when Road Funds were created by an executive order for the upkeep of roads, other than trunk roads and important district roads. The Collector and the District Engineer were placed in charge of these works. This arrangement was put on a statutory basis by the District Road Cess Act, 1866, which authorized the levy of a cess of half an anna in the rupee on the rent value of occupied land for the construction and maintenance of local roads.

The origin of the District Boards may be traced to the Local Fund Act of 1871, which was the outcome of the desire on the part of the Government to provide sound elementary education to the masses. The Act made specific provisions for declaring a district or part of a district as a circle and for constituting a Local Fund Board for every such circle consisting of three or more non-official members, nominated by the Government and an equal number of official members appointed by the Government. The term of office of members was for three years. The non-official members were chosen from among owners or occupiers of lands or persons carrying on business and residing in the circle. The Collector of the district was the Ex-Officio President of the Board situated within his jurisdiction. Some of the important functions of the Board were as follows :

(1) the maintenance of public roads or streets;

(2) management of hospitals, schools, choultries and markets; and

(3) the employment and training of health staff, the inspection of sanitation in towns and villages and the upkeep of other local works of public utility calculated to promote health and comfort of the people.

The Act authorized the levy and collection of land cess (at the rate not exceeding one anna in the rupee on the annual rental value of all occupied land), house tax in villages or groups of villages or townships in which a school supported by Government grants-in-aid existed and tolls on carriages, carts or animals making use of the roads within the circle.

Local Self Government as a conscious process of administrative devolution and political education dates back to the final reforms of Lord Mayo's Government. By a resolution No. 3334, dated 14th December, 1871, the Government of India made over to the provincial Governments certain departments of which education, medical services and roads deserve particular mention, as they still constitute the principal activities of Local Bodies. The beginings of a system of local finances were to be found in the new scheme of provincial finances and many of the present day problems of Local finance vis-a-vis. Provincial finance are similar to those which provinces had to face in their dealings with the Government of India. Lord Ripon's Government desired that provincial Governments should apply to their financial relations with Local Bodies, the principle of financial decentralization which had worked so satisfactorily between the Government of India and the Provinces. The more important services that were entrusted to the rural bodies were communications, education and sanitation.

The Madras Local Boards Act, 1884, conferred additional responsibilities on the Local Boards which for the first time came to be known as the 'District Boards' instead of the 'Local Fund Boards'. Under this Act, three classes of Local Boards, came into existence *viz.*, District Boards, Taluk Boards and Unions. The Unions were of two classes— "Major" and "Minor". The administration of local affairs was vested in the District Boards constituted for each of the Revenue districts consisting of not less than 24 members who might all be appointed by Government or might be partly so appointed and partly elected by the members of the newly created Taluk Boards from among their members or by the Union Boards and by the tax-payers of the rural parts of the district. The Collector continued to be the Ex-Officio President. The Act also

provided for the election of the Presidents of the District Boards, from among the members of the District Boards, if the Government so directed. The members were to hold office for three years. All the Revenue Divisional Officers were made Ex-Officio members. The Local Boards were empowered to levy with the approval of the Government any of the taxes authorised under the Act.

A Taluk Board consisting of a President and not less than 12 members was constituted for each taluk or group of taluks. The term of office of the members was for three years. The Revenue Divisional Officer was made an Ex-Officio member and President of the Board. The Taluk Board funds consisted of one-half of the proceeds of the tax levied by the District Board in the area and transferred to the Taluk Boards by the District Board and other fees such as licence for markets etc., collected within the area of the Taluk Board. The revenues of the District Boards and the Taluk Boards were derived from land cess, from fees for the use of cart-stands, markets, slaughter-houses, etc., and from tolls in the case of the maintenance of roads, bridges and other means of communications. The chief functions of these institutions as has been stated earlier were the construction and maintenance of hospitals and dispensaries, the diffussion of education, the enforcement of measures relating to sanitation and public health and the establishment and maintenance of relief works in times of famine and scarcity conditions.

An Union Board was constituted for a single village or for a group of villages. They consisted of not less than five persons, the headmen of the villages, constituting the Union, being Ex-Officio members. The Board levied house tax varying from 4 annas to 4 rupees according to the classification of the house. The duties and responsibilities of this Board were the lighting and cleaning of public roads, the maintenance of drains, wells and other public places, the establishment and maintenance of dispensaries and schools etc.

In 1907 the entire subject of Local Self-Government was taken up for consideration by the Royal Commission on Decentralization. The Commission brought to light that the resources of the Local Bodies were not sufficient for the proper discharge of the duties assigned to them. In order, therefore, to make Local Self-Government really effective and responsible, the Montagu–Chelmsford Report suggested that there should be as far as possible complete popular control in the affairs of the Local Bodies and the largest possible independence from outside control. In regard to rural boards the report stated that they should have full liberty to improve and alter taxation within the limits laid down by law. It further stated that whenever a board paid for a service, it should also control that service. If it was considered that control should be largely in the hands of the Government, then in such a case the service should be provincialised.

In the Government of India Resolution of the 16th May, 1918, the Government reviewed the question of Local Self-Government and expressed the view that in order to give effect to the new policy, Local Bodies should be as representative as possible of the people whose affairs they were called upon to administer, the authority in the matter entrusted to them should be real and not nominal and that they should not be subject to unnecessary control but should learn, if necessary, by making mistakes and profiting by them.

With the coming into force of the Government of India Act, 1919, Local Self-Government became a transferred subject and the implementation of the policy and the principles formulated in the resolution of May, 1918, thereupon devolved on the elected members.

Several amending Acts were passed by the State Legislature from time to time with a view to rectifying defects which were brought to light in the working of the Madras Local Boards Act, 1884. In 1920, the State Government thought that it was necessary to have a comprehensive legislation to give effect to the new policy of the Government and to consolidate and amend the law relating to the District Boards and this resulted in the passing of the Madras Local Boards Act (Act XIV of 1920). The Act gave an independent status to each class of Local Boards and increased not only their strength but also the proportion of elected members, their resources and their powers. The taxation powers of all the three categories of Local Boards were enlarged. The Boards were authorised to levy the pilgrim tax and also the profession tax on companies and firms. They were given a free hand in framing their budgets. Provision was also made for the appointment of a District Board Engineer and a District Health Officer. The Local Boards thus became more or less autonomous

and the Collector and the Government were empowered to interfere only in cases of emergency and maladministration. In the same year, the Madras Village Panchayat Act was also passed with the object of developing the system of Self-Government in rural areas. This Panchayat Act was, however, repealed in 1930 with the passing of the Madras Act XI of 1930, which amended the Madras Local Boards Act, 1920, and was also comprehensive enough to include even the panchayats constituted before the *repeal of the Madras Village Panchayats* Act, 1920. The Madras Local Boards Act, 1920, has been amended since then several times ; the Taluk Boards having been abolished in 1934 and the panchayats having been taken away from the ambit of the Act by the Madras Village Panchayats Act, 1950.

The following paragraphs illustrate in brief the trend in the amendments to the Act of 1920.

Provision was made for taking of oath by members of Local Boards. All roads and Public markets were thrown open to all persons of whatever caste or creed. The main changes introduced by the amendment Act of 1930 were :

(i) inclusion of Village Panchayats within the scope of the Act, conversion of Union Boards into Panchayats and the repeal of the Madras Village Panchayats Act, 1920 ;

(ii) abolition of the system of nomination to Local Boards ;

(iii) direct elections to District Boards ;

(iv) general triennial elections to Local Boards;

(v) provision for a vote of no-confidence in Presidents and Vice-Presidents and for the removal of Presidents and Vice-Presidents by Government ;

(vi) election of Presidents of District Boards ;

(vii) empowering the Government to provincialise the services of officers and servants of Local Boards.

(viii) alteration in the provisions relating to taxes and tolls with special emphasis on the levy of any tax suitable to the village with the sanction of the Panchayat ; and

(ix) more effective supervision over the adjudication of disputes between local authorities *inter-se*, including, in particular, the vesting of power in the Local Government to constitute joint committees of local authorities for the purpose.

The levy of tolls and tax on motor vehicles by Local Boards was abolished in 1931. Specific provision was made for the constitution of District Boards for altering their jurisdiction and for their abolition. The majority required for the passing of motion of no-confidence in Presidents and Vice-Presidents was reduced from 2/3 to 3/5. Provision was made for the reservation of seats for Muslims and Indian Christians besides members of the Scheduled Castes. The Government took power to appoint District Engineers, Health Officers and Panchayat Officers. The amendment Act of 1934 abolished the Taluk Boards, the Village Development Fund, and made a provision for the splitting up of District Boards. The jurisdiction of courts to grant injunctions in election proceedings of Local Boards was taken away by the amending Act of 1936. The amalgation of bifurcated District Boards was made possible by the amending act of 1937. The Act of 1938 provided for the inclusion of the names of persons found in the electoral rolls of the Madras Legislative Assembly constituencies in the rolls prepared for Local Boards. Failure to pay arrears of any kind due to the Local Boards was made a disqualification for candidates standing for elections or for members continuing in office.

Certain safeguards were provided by the amending Act of 1942 in regard to the removal or the dismissal of Government servants employed by Local Boards. Act X of 1945 increased the rate of land cess leviable by Local Boards from 1 1/2 annas to 2 annas in the rupee. In the same year, provision was made in the Act for the levy of duty on transfers of property in the form of surcharge on stamp duty in respect of immovable property situated in the area under the jurisdiction of Local Boards. The formation of the Highways Department in 1946 resulted in certain amendments to the Act in that year. In 1947 provision was made for the inclusion in the electoral rolls of Local Boards of persons who were qualified to be included but were omitted to be included in the Assembly electoral rolls. The levy of duty on transfers of property in respect of leases in perpetuity of immovable property and exchange of immovable property was made possible by the Madras Act VII

of 1950. The Madras Village Panchayats Act, 1950 removed Village Panchayats from the ambit of the Madras Local Boards Act, 1920, after which the provisions of the latter Act, which formerly related to Panchayats were restricted to Non-Panchayat areas. The name of the Madras Local Boards Act was altered into the Madras District Boards Act, 1920. The provision for the reservation of seats for Muslims, Indian Christians and Europeans in the Act was omitted by the amending Act of 1951. The Act also limited the total number of reserved seats for the members of the Scheduled Castes, Anglo-Indians and women to one-fourth of the strength fixed for the District Board. By another Act of 1951, the adoption of Madras Legislative Assembly electoral rolls and the alteration thereto for purposes of elections to District Boards was provided for. Certain provisions of the Representation of the People's Act, 1950, regarding the conduct of elections were embodied in the Madras District Boards Act by an Act of 1954.

The First Five Year Plan for the country was introduced in 1951. Planning led to an enormous increase in the activities of the Government. Large sums of money had to be spent on various schemes in short periods. It was, therefore, found essential that those who were to be benefited by these schemes should also have a say in their formulation. They must learn to express their felt needs and get them translated into programmes that can be implemented. Thus, the idea of the "Panchayati Raj" slowly began to take shape.

Panchayati Raj in Andhra Pradesh can, however be said to have had its roots nearly one and a half decades ago. It is based on the Gandhian principle of rural rejuvenation to usher in a balanced development of the countryside. This idea was given effect to by late Sri T. Prakasam, the then Chief Minister of the Composite Madras State by his promulgation of the "Firka Development Scheme" in 1946. This was subsequently converted to "the Rural Welfare Scheme" in 1950. Besides the rural reconstruction work this scheme also covered Harijan Uplift Programmes as well as the Khadi Schemes. The three-pronged drive that this scheme gave to the economic and social reconstruction of rural life was in the direction of self-help, co-operative approach and State aid. As in all nascent institutions, the issues at the beginning were not so clearly defined and so well crystalised as in the case of the Panchayati Raj institutions, but however, they formed the forerunners of a movement which has now got itself fully entrenched in the institution of the Panchayati Raj.

Community Development Programmes :

The pattern of Community Development inaugurated on the 2nd of October, 1952 has been gradually modified to suit the needs of our rural communities. The central object of the Community Development Programme was to secure the fullest development of material and human resources of the local areas based on the fact that all aspects of rural life are inter-related and that no lasting results can be achieved if individual aspects of it are to be dealt in isolation. The approach was to step up the co-operative principle in its infinitely ranging forms for solving all problems of rural life. The experiment, therefore, in Community Development was started with the introduction of the Community Projects in the wake of the Rural Development Schemes. These Projects in a very short period achieved great popularity and people everywhere in other areas started to clamour for similar benefits in their respective villages. On account of these public demands and also considering the limited resources at the disposal of the Government the pattern of Community Projects had to be gradually changed over to cover similar and lesser expensive Projects. These were known as the National Extension Service Blocks each covering an area of about 150 to 170 square miles and involving an outlay of about Rs. 4.50 lakhs. The normal operational period of each of the N.E.S. Blocks was to be for three years. Any time within that period depending on the performance in the realm of people's participation, physical attainment and expenditure, the N.E.S. Block got converted into a Community Development Block with a bigger outlay of Rs. 15 lakhs which also included the expenditure incurred during its N.E.S. stage. In June, 1957 the National Development Council decided that the Block should be treated as a unit for the purpose of planning and development and that it should be made the agency through which the resources of the Government should flow to the people.

The study team for Community Development and National Extension Service headed by Sri Balwant Rai G. Mehta recommended certain changes in the pattern of Community Development. The Ministry of Community Development accepted

these proposals and accordingly removed the distinction between the different types of Blocks and introduced the two stage system. Stage I was to be the intensive development phase with a provision of Rs. 12 lakhs and Stage II was to be the post intensive phase with a provision of Rs. 5 lakhs. Both stages were to be of a duration of 5 years each. Great emphasis was laid on agriculture, and therefore, each Block had to pass through a Pre-Extension Stage of one year devoted exclusively to agricultural development. On completion of this Pre-Extension Stage of one year the Block automatically entered the Stage I period.

Decentralisation: Decentralisation of authority and the participation of people in administration have always been considered by great thinkers from the time of Socrates, as the chief embodiments of any democracy. In order that these two essential requisites find place in the fabric of the Indian democracy, on the recommendations of Sri Balwant Rai G. Mehta Committee, 'Panchayat Samithis' were constituted for each Community Development Block wherein the people are provided opportunities for participating in the process of administration. All developmental works beneficial to the community and coming within the ambit of Community Development were entrusted to the people's own elected representatives.

The idea of democratic decentralisation was thus conceived and the nucleus for this revolutionary movement was the age old Village Panchayat. The three tier system in which the Panchayati Raj institutions are linked one with the other consisting of the Gram Panchayat with its directly elected Sarpanch and members, the Panchayat Samithi at the Block level with the Sarpanches of Gram Panchayats as its members, and the Zilla Parishad at the district level consisting of the Presidents of all the Panchayat Samithis within the district and the Legislators of the State and the Centre, was evolved as the institutions in which the people's representatives will have their say in the formulation and execution of policies and programmes will be beneficial to the Community. The constitution of Gram Panchayats was, therefore, speeded up in order that the entire rural area came under one or the other of the Gram Panchayats.

The Andhra Pradesh Panchayat Samithis and Zilla Parishads Act was enacted in 1959 and except the Agency areas in the Andhra region and the areas within the jurisdiction of Municipalities in Andhra and City Municipalities and the Corporation in Telangana region, the rest of the area constituting Andhra Pradesh was brought under the ambit of this Act.

Panchayat Samithis: The Presidents of all the Gram Panchayats in a Block constitute the members of the Panchayat Samithi. Besides two women members, one representative from the Scheduled Castes, one representative from the Scheduled Tribes where the population of the Tribes in the Block area is not less than 5% of the local population of the Block and if not, one more representative from the Scheduled Castes and 2 persons interested in rural development. The members of the Legislative Assembly are also members of one Panchayat Samithi which is situated within the constituencies which they represent. They may also take part in the proceedings of the remaining Panchayat Samithis in their constituencies without the right to vote at such meetings. The members of the Legislative Council become members of one of the Panchayat Samithis in such district in the Zilla Parishad of which they are members. Similarly the Revenue Divisional Officer, the District Collector and such other officers as the Government may, by order specify can take part in the proceedings of any meeting of a Panchayat Samithi or any Standing Committee thereof functioning within the local limits of their respective jurisdictions without any right of vote.

The Panchayat Samithi has been placed in complete charge of the implementation of the Community Development Programmes and in addition, the Government have also entrusted to it the extension activities of the various development departments of the Government such as Agriculture, Animal Husbandry, Fisheries, Industries, Education, Co-operations, Social Welfare, Women's Welfare etc.

Every Panchayat Samithi has seven Standing Committees each of which has been placed in charge of a few specified subjects. The Panchayat Samithi with the approval of the State Government is empowered to constitute more Standing Committees, if it so desires, for attending to any specific items of work. All the Standing Committees have independent powers of sanction within specified financial limits and may also execute works and schemes within those limits.

The Block Development Officer is the Chief Executive Officer of the Panchayat Samithi and he is assisted by the extension staff. The President of the Panchayat Samithi exercises supervision and control over the work of the Block Development Officer and his staff in order that the resolutions of the Panchayat Samithi and its Standing Committees get due attention from them in their implementation.

Zilla Parishad: At the District level there is the Zilla Parishad comprising the Presidents of all the Panchayat Samithis in the district, the District Collector, the members of the Legislative Assembly of the State elected from the district, such members of the Legislative Council of the State as the Government may by order specify, the Members of the House of the People elected from the constituency which forms part of the District, and such Members of the Council of States as the Government may by order specify, two women, one representative of the Scheduled Castes, and one representative of the Scheduled Tribes according to the population and if the population of the Scheduled Tribes is less than 5% another representative of the Scheduled Castes, two persons interested in rural development have to be elected by the above categories of members.

The Chairman and the Vice-Chairman are to be elected by the members from among the non-officials who are not Legislators. The President of any Panchayat Samithi, if elected as the chairman of the Zilla Parishad, will automatically cease to be the President of that Panchayat Samithi but his right of membership of the Panchayat Samithi will not be affected. A Secretary, appointed by the Government functions as the executive head of this organisation. He is entitled to attend the meetings of the Zilla Parishad or any of its Standing Committee meetings, and can take part in discussions, but is not entitled to vote. Like the Panchayat Samithis, the Zilla Parishad also functions through its seven Standing Committees. In addition to these seven Standing Committees the Zilla Parishad may with the approval of the Government also constitute any other Standing Committee for specified purposes. The Chairman of the Zilla Parishad and the District Collector are ex-officio members of all the Standing Committees while the remaining members are to be elected by the members of the Zilla Parishad from among themselves. The District Collector is the Chairman of all the Standing Committees. The District Officers of various development departments, regional and State officers in charge of development activities who are specified by the Government by an order have the right to speak or to take part in the proceedings of any meeting of the Zilla Parishad or any Standing Committees thereof but they, however, have no right to vote.

The Zilla Parishad consolidates plans prepared in respect of all the Blocks in the District and also co-ordinates the activities of the various Panchayat Samithis. It also examines and approves the budgets of the Panchayat Samithis in the district.

The chief sources of finance for the Zilla Parishad are the Central and the State Government funds allotted to it; grant from All India bodies and institutions for the development of Cottage, Village and Small Scale Industries; such share of the land cess, taxes or fees as may be prescribed; proceeds from taxes or fees which the Zilla Parishad may under any law levy; income from Endowments for trusts administered by the Zilla Parishad; such income of the District Board as the Government may by order allot to it; donations and contributions from Panchyat Samithis or from the Public in any form; and such contributions as the Zilla Parishad may levy from the Panchayat Samithis with the previous approval of the State Government.

Growth of Community Development in the district: The Community Development Programme in this district was inaugurated only in 1954 with the constitution of the two National Extension Service Blocks of Ammanabrole and Maddipadu on 3-3-1954 and 4-4-1954 respectively. In 1955 Ammanabrole N.E.S. Block was upgraded into that of a Community Development Block on 1-4-1955 and a new N.E.S. Block of Macherla was created on 2-10-1955. Maddipadu N.E.S. Block was upgraded into a Community Development Block on 1-4-1956. During 1956 four more N.E.S. Blocks were inaugurated. Ipur and Karlapalem Blocks were inaugurated on 1-4-1956 and Mangalagiri and Amaravathi on 2-10-1956. Thus at the end of the First Five Year Plan period there were two Community Development Blocks and five National Extension Service Blocks covering 295 villages and 6,43,502 persons. During 1957 five more N.E.S. Blocks were constituted in this district. Rajupalem, Emani and Pallapatla N.E.S. Blocks were consitituted on 1-4-1957 and Nadendla and Vetapalem on 2-10 1957. Karlapalem Block was renamed as Bapatla Block during 1957-58. Based on the recommendation of Shri Balwanta Rai G. Mehta's Committee, the pattern of the Community Development Programme was changed in 1958. The

distinction between N.E.S. Blocks, intensive development and post-intensive development was abolished and in its place the revised phasing of two stages of 5 years duration each, namely, Stage I and Stage II Blocks were introduced on 1st July 1958. The other significant changes effected in 1958 were the taking up of Block as the unit for purpose of Planning. In pursuance of this revised pattern the Blocks in the district were classified as Stage I and Stage II and Pre-Extension Blocks. Maddipadu Community Development Project was continued as such during 1958-59 also. Ammanabrole Community Development Block was split up into Ammanabrole and Ongole which were classified as Stage II Blocks. The other N.E.S. Blocks were classified as Stage I Blocks. Santhamagulur and Piduguralla Pre-Extension Blocks were newly created on 1-4-1958 and 2-10-1958 respectively. Thus when the revised pattern was introduced there were one Community Development Block, two Stage II Blocks, eleven Stage I Blocks, and two Pre-Extension Blocks. During 1959-60 Maddipadu Community Development Block was also classified as Stage-II Block; Santhanuthalapadu Stage II Block and Korisipadu and Medikondur Pre-Extension Blocks were newly created. During 1960-61 four Pre-Extension Blocks namely, Vinukonda, Repalle, Kuchipudi and Gurazala were constituted and Macherla stage I Block was upgraded into Stage II Block. Korisipadu and Medikondur Pre-Extension Blocks were upgraded as Stage I Blocks. Thus at the end of the Second Five Year plan period there were 23 Blocks in the district comprising 14 Stage I, 5 Stage II and 4 Pre-Extension Blocks covering 689 villages and 1,467,031 persons. The Community Development programme gained further impetus during the Third Five Year Plan period and by 1-4-1964 the Blocks had grown to 35 (21 Stage I, 10 Stage II and 4 Pre-Extension). The name of each Block, area, number of villages and population covered have been furnished for all the 35 Blocks in the following statement.

STATEMENT IX—I

Name of Block (1)	Date of inception (2)	No. of Villages (3)	Area in sq. miles (4)	Population (5)
	STAGE II—BLOCKS			
Tadikonda	1-4-1958	31	144.18	69,413
Santhamagulur	1-4-1958	31	190.59	54,619
Piduguralla	2-10-1958	31	267.29	66,298
Korisipadu	1-4-1959	39	180.61	69,583
Phirangipuram (Medikonda)	4-4-1959	30	109.05	59,269

STATEMENT IX-I—*Concld.*

Name of Block (1)	Date of inception (2)	No. of Villages (3)	Area in sq. miles (4)	Population (5)
	STAGE II—BLOCKS—*Concld.*			
Vinukonda	1-4-1960	44	259.67	61,107
Repalle	2-10-1960	24	88.99	59,032
Tenali (Kuchipudi)	2-10-1960	19	60.87	67,711
Gurazala	2-10-1960	29	222.49	63,875
Sattenapalle	1-4-1961	26	125.94	69,870
Kollipara	1-4-1961	17	51.54	73,997
Narasaraopet	1-4-1961	27	175.87	51,718
Martur	1-4-1961	28	162.17	58,689
Nallapadu	2-10-1961	19	95.39	49,971
Amarthalur	2-10-1961	19	70.62	60,363
Parachur	2-10-1961	30	204.79	84,845
Bhattiprole	1-4-1962	18	79.05	61,476
Peddakakani	1-4-1962	20	96.08	55,573
Tsundur	2-10-1962	16	43.76	91,483
Prathipadu	2-10-1962	28	111.16	62,569
Patchalatadiparru	2-10-1962	31	136.84	95,804
Macherla	2-10-1955	28	197.11	62,010
Ipur	1-4-1956	33	226.38	65,258
Bapatla	1-4-1956	28	161.14	75,199
Mangalagiri	2-10-1956	25	77.19	79,273
Rajupalem	1-4-1957	51	218 08	75,032
Nadendla	2-10-1957	28	134.08	78,223
Thallur	2-10-1956	26	94.85	44,254
Pallapatla	1-4-1957	18	102.66	61,234
Emani	1-4-1957	18	58.79	61,800
Vetapalem	1-4-1957	21	213.96	85,559
	POST STAGE II BLOCKS			
Ammanabrole	3-3-1954	27	155.15	64,394
Ongole	1-4-1958	36	153.83	64,294
Maddipadu	4-4-1954	41	140.14	61,810
Santhanuthalapadu	1-4-1959	35	138.34	48,585

During the recent redelimitation of the Blocks made in 1964 all the above 35 Blocks were redelimited into 25 Blocks *viz.*, Tadikonda, Mangalagiri, Prathipadu, Rajupalem, Phirangipuram, Thallur, Tenali, Amantalur, Emani, Repalle, Pallapatla, Ongole, Maddipadu, Korisipadu, Bapatla, Vetapalem, Ponnur, Narasaraopet, Nadendla, Santhamagulur, Gurazala, Macherla, Piduguralla, Ipur and Vinukonda.

The Panchayat Samithis were constituted for the first time in this district on 1-11-59 and the Zilla

Parishads on 1-12-1959 on a statutory basis. After the introduction of the democratic decentralization and the establishment of the democratic institutions at the District, Block and Village levels the responsibility and initiative in economic and social development in rural areas rested more with these popular institutions namely the Zilla Parishads, the Panchayat Samithis and the Village Panchayats. In view of the important role that the Village Panchayats have to play in the decentralised set up, the need for the constitution of Village Panchayats for all the villages has increased considerably. 1,022 Village Panchayats have so far been constituted in this district. During the recent Panchayat Elections held in June, 1964, 252 Panchayats have elected both their members and Sarpanches unanimously and 860 Panchayats have elected their Sarpanches only uncontested. Two of the Panchayat Samithis *viz.*, Nadendla and Amartalur have also elected their co-opted members and Presidents unanimously. The Village Panchayats are now in a formative stage and if they are given proper guidance in the matter of administration and the vital role that they have to play, it is hoped that in course of time these Village Panchayats will rise up to the occasion and share their responsibilities squarely.

CHAPTER X

GAZETTEER

The Taluk of Guntur has river Krishna for its northern boundary and extends south as far as the Kondaveedu range of hills. To the south of the tract adjoining Bapatla taluk is a fertile expanse of black soil, a veritable garden when rainfall is propitious; but extremely desolate in dry weather. The taluk is covered by hills on the west separated by Sattenapalle and Narasaraopet taluks while the east is served by rich arable lands on account of the close proximity to the Krishna valley region and separated by the Tenali Taluk. This Taluk recorded a population of 579, 401 persons as per the 1961 Census count. The total area of the taluk is 565.2 Sq. miles. There are altogether 120 inhabited, and four uninhabited villages and three urban areas *viz.*, Guntur, Tadepalle and Mangalagiri in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes:

Less than 200	3
200—499	1
500—999	12
1,000—1,999	26
2,000—4,999	61
5,000—9,999	15
10,000 and above	2
Total inhabited villages	120

The 17 villages having a population of 5,000 or more are Amaravathi (5,000); Thullur (6,760); Nuthakki (5,929); Pedavadlapudi (6,893); Nowlur (6,935); Pedaparimi (6,290); Ponnekallu (6,737); Pedakakani (8,338); Sekur (7,474); Thakkellapadu (5,156); Ankireddipalem (*Rural*) (7,446); Kornepadu (5,684); Vejendla (5,544); Mutlur (7,227); Prathipadu (6,781); Tadikonda (14,570) and Nambur (10,421). The places of interest among these villages are described in the succeeding pages.

The Taluk contains neither rivers other than Krishna nor forests worth a mention, and its climatic condition is of extreme kind. During summer, some times the taluk experiences severe heat with temperature reachingup to 116° F, and it can get quite cool during the winter season. The soil in this taluk is made up of black-cotton and red-gravelly series. A part of this taluk forms the deltaic portion of the district and irrigation is facilitated by the Krishna Delta Anicut system.

As regards transport and communication facilities Guntur is an important station on the Repalle-Guntur (Broad gauge) line, the Guntur-Masulipatam (Broad gauge) line and the Macherla-Guntur (Metre gauge) line of the Southern Railway. The G. N. T. road passes through this taluk close on the Hubli-Masulipatam Railway line. In addition this taluk is well served by major district roads on which buses ply regularly.

As regards medical facilities there is a general hospital in Guntur town apart from several private Nursing Homes and Medical Institutions maintained by the Municipality and other non-Governmental bodies.

The educational establishments of this taluk consist of a Medical College, the Andhra Christian College, the Hindu College, the Government College for women, a Training College for teachers etc., besides a number of High Schools and Higher Secondary Schools. Almost all the villages in this Taluk are served by Elementary Schools.

Tobacco Industry is one of the most important Industries of this taluk with several important Tobacco companies having their main offices here. The chief cottage and small scale industries capable of providing both part-time and whole-time occupations are carpentry, blacksmithy, pottery, mat weaving, rope-making, weaving, etc. Cement blocks and pipes are also being made on a small scale here. As regards large scale industries, this taluk can boast of the Hemalata Textiles at Peddakakani and the Krishna Cement factory at Tadepalle.

Guntur - a Municipality and the district headquarters, has a population of 187,122 persons as per the 1961 Census count. It lies about 6 miles to the east of the picturesque Kondavidu range of hills. The town extends over an area of 11.59 Sq. miles and in all it comprises 33,256 occupied residential houses.

The town is not of very ancient date but came into prominence only during the French occupation of the country in the 17th century. The village of Ramachandrapuram Agraharam, which has been absorbed by Guntur, is probably much older, for, on a Pillar of the *Mantapam* in the temple of Lakshmi-Narasimhaswami there is an inscription recording a private grant in A.D. 1218.

The word Guntur means the tank village. It is also opined that this tank village first came into existence under the Red Tank near by. The French held the Kondavidu from A.D. 1752 and it was they who built a fort to the east of the old Guntur. The French Commander erected his and other houses towards the north of the black tank and this area was called New Guntur. The place increased in importance and in 1766 when the English Company took Kondapalle and the northern provinces, Guntur was retained by Basalat Jung, who maintained a French force here. In 1799 the French troops were removed to Hyderabad and Captain Harper for some months occupied Guntur with the Company's troops. For seven years after this, Guntur was held by the Indian levies under Saif Jung, the Nizam's Fouzdar and in September 1788 it was given up to the English. At the other side of the town is the tomb of Muslim priest Mohadin Padasha Saheb, who died about A.D. 1810. Malrazu Venkata Gunda Rao, Zamindar of Narasaraopet, although a Hindu, was an admirer of this Muslim teacher, and gave an Inam of 180 acres of land for the performance of his yearly funeral ceremonies.

The town is growing up to be an important commercial centre being the headquarters of the district and on account of the transport and communication facilities it affords. It is an important railway junction and railways connect this place with Macherla, Vijayawada, Masulipatam, Hubli, Tenali and Repalle. Rich variety of Tobacco and Paddy command a regular trade and as such is a prosperous town.

Guntur is also rapidly assuming importance as a centre of education with three colleges *viz.*, Government College for women, the Hindu College and the A C. College besides a number of High Schools supporting the colleges. There is also a Medical College here. The town contains a good number of medical establishments. There is a Government General Hospital, and an Unani Dispensary besides a number of Municipal Ayurvedic Dispensaries and Mission Hospitals, *viz.*, the Kugler Hospital, St. Joseph's Cancer Institute and St. Joseph's Convent for women and children. A number of private medical practitioners are also doing very well in this town. There is also a Government Veterinary Hospital at Kothapet. The town is having protected water supply scheme. Tobacco curing factories, Rice mills, Cotton and oil mills provide employment to a large number of people in the town.

Tadepalle — a Panchayat, is a fairly big town with a population of 12,994 persons as per the 1961 Census count and it extends over an area of 6.25 sq. miles. There are altogether 2,814 occupied residential houses in this town.

The town owes its importance to its Railway Station on the Guntur-Masulipatam line (Broad guage) of the Southern Railway. It is also well connected by the G.N.T. road on which buses ply regularly. There is a Sub-Registrar's Office, a Police Station, a Local Fund Dispensary, a Maternity and a Child Welfare Centre, a Veterinary Key Centre and a Zilla Parishad High School in this town. The Post Office in this town is provided with Telephone and Telegraph facilities. The town contains the A.C.C. Cement factory functioning on a large scale basis.

Mangalagiri — (Hill of happiness) is a Panchayat and according to the 1961 Census count supports a popu lation of 22,182 persons and covers an area of 3.0 sq.miles. There are altogether 4,502 occupied residential houses in the town.

On the hill, near by at some distance up is a rock-cut platform with a temple of Narasimhaswami. It is said that when visitors offer a draught to Narasimhaswami the deity in the temple, the image refuses to drink more than half of it. Behind the temple there is a cave and near the foot of the stone flight of steps is a stone pillar, with Telugu inscription on all sides recording grants of villages. It is dated A.D. 1520 and mentions the capture of Kondavidu by Thimmarusu, General of Krishnadevaraya in 1515. Another stone near the temple of Garudalvar has inscriptions on four sides recording grants in the reign of Sadasivaraya of Vijayanagar A. D. 1558. The lofty *gopuram* in the temple at the foot of the hill is said to have been erected by one of Krishnadevaraya's courtiers.

Mangalagiri is a Railway Station on the Guntur-Masulipatam (Broad gauge) line of the Southern Railway. The town is also connected by the G.N.T. road and major district roads on which buses ply. There is a Sub-Registrar's Office, a Judicial Second Class Magistrate's Office, a Deputy Tahsildar's Office, a Sub-Post Office and a Police Station. In addition to these, there is also a Government Hospital, a Veterinary Hospital, a Traveller's Bungalow and a High School. It is a centre of handloom industry. There is a big T.B. Sanatorium very close to this place in a picturesque spot.

Amaravathi—is the most interesting spot in Guntur taluk with the neighbouring village of Dharanikota. These two villages along with Narukullapadu village were in Sattenapalle taluk previously and transferred to Guntur taluk only in 1958. They lie towards the north-west of Guntur on the bank of the river Krishna.

Dharanikota is supposed to be the ancient city DHANAKACHAKA, the capital of the monarch, Mukkanti or Trilochana Pallava. Many coins have been found here of date about the first century of the Christian era and the massive wall or embankment, which still marks the square out line of the ancient city, has in course of time hardened into a mass that might be quarried. Antique bricks are to be seen in this old fort wall. Legends say that this was the scene of a great dispute between the Jains and the Brahmins and when the Jains were overcome by means of magic they were ruthlessly destroyed and crushed in oil mills. There is a small edifice near the river bank midway between Dharanikota and Amaravathi which looks very like a Jain temple and there are several inscriptions in various localities of this district which refer to the local dynasty of Jain Kings in this place which was finally absorbed by marriage with the Warangal dynasty. One of these inscriptions is to be seen on a pillar to the west of the *gopuram* of the Amareswara temple. It is of date equivalent to A.D. 1182 and is by Kota Keta Raja. Some Jain images are to be seen lying to the east of the *gopuram* having evidently been cast out of the Hindu temple.

It is said that this temple of Amareswara is 4,000 years old and a rock in a field about a mile and a half west of Dharanikota is cut an inscription in antique Telugu beginning with *Svasti Sarva Lokasraya Vishnuvardhana* and so this may indicate that Brahmins may have had a temple here a thousand years ago and that the dynasty of the Jain Kings must have come later. The temple is said to have been repaired by the Kondavidu Reddis in the 14th century. There is an inscription by Anavema Reddi dated A.D. 1361. Another inscription dated A.D. 1515 records the grant of two villages by Krishnadevaraya and another dated A.D. 1626 records the reconsecration of the temple by Pedda Appayya Garu.

Additions were made to the temple at the close of the 18th century by Raja Vasireddi Venkatadri Naidu who moved his residence from Chintapalle to Amaravathi, because a battalion of Company's sepoys had been stationed at Chintapalle to keep him in order. The Raja invited merchants from elsewhere to take up their abode in Amaravathi, laid out broad streets at right angles, planted gardens and erected a palace, the roof of which contained burnished copper-sheets, which was the admiration of the whole district. After the Raja's death a disputed succession ruined the family.

It was Raja Vasireddi Venkatadri Naidu, who in searching for building materials, first laid open the famous Buddhist carvings at Amaravathi, so well known to savants all over the world. These carvings were hidden under a large mound of earth at the south-west corner of the village. The mound was called by the people *Deepala Dinne* or "the mound of lanterns". The Raja's men first sunk a shaft down the centre of the mound, expecting to find a treasure there and found the usual soapstone casket with a pearl and some relics The Raja's masons played havoc with the carved marble slabs, which they found. Some are to be seen built into the walls of the *Mantapams*, east of the temple and one with a clear cut inscription has been fixed in it as the sill of the doorway. Others have been placed as steps at the temple. Perhaps some of these slabs formed part of the dagaba in the centre of the mound, but of that dagaba there is now no trace. Some slabs were built into the sides of wells and tanks. It is interesting to note that in 1797 Colonel Mackenzie paid a visit to Amaravathi and he wrote down a description of the Buddhist marbles. In 1816 Colonel Mackenzie paid a second visit to Amaravathi.

A Buddhist monastery should have been here before the Christian era. Some authors suggest that this must be the famous shrine near "the diamond sands" whence the relics of Buddha were conveyed to Ceylon in A.D. 157. Others are of opinion that

here were the eastern and western monasteries "adorned with all the art of the places of Bactria" visited by the Chinese pilgrim Hiouen Tsang in A.D. 640, and General Cunningham suggests that it is the Rahmi of the Arab Geographers. On a pillar which lay near the eastern entrance is portion of a Sanskrit inscription in antique Telugu characters giving the names of nine kings of the Pallava dynasty.

On the hill above Pedda Maddur, two miles to the east, are ruins with ancient bricks. A mound called *Dipaladinne* is near Panidem about sixteen miles to the south and across the river lie Jaggayyapet and Jonnalagadda hills awaiting exploration.

It is opined that the *Stupa* at Amaravathi has been destroyed, perhaps by flood, roughly reconstructed and again destroyed, before the friendly covering of earth protected it until Raja Vasireddi Venkatadri Naidu's excavations.

Amaravathi according to the 1961 Census count supports a population of 5,000 persons. It extends over an area of 6.84 sq. miles and there are altogether 960 occupied residential houses in this village.

Pedakakani—is situated on the G.N.T. road at a distance of about 6 miles towards the north-west of Guntur. The village recorded a population of 8,338 persons as per the 1961 Census count. It extends over an area of 6.41sq. miles and there are altogether 1,513 occupied residential houses in this village.

Pedakakani assumes religious importance owing to the location of a temple of Sri Malleswara Swami. It is an important place of pilgrimage for the people of this taluk and taluks close by. Besides this there is also a Muslim shrine in the tank of this village. The village contains an A. I. R. Transmission Office, a Government Dispensary, a Police Station, a Panchayat Office, and three Elementary Schools.

Sekur—situated on the bank of Appapuram channel and supports a population of 7,474 persons as per the 1961 Census count. The village occupies an area of 8.72 sq. miles and there are altogether 1,468 occupied residential houses.

Sekur is an important paddy growing village and irrigation is facilitated by K.L.H. Channel. The village also grows dry paddy, cholam and a rich variety of tobacco which is a cash crop. It contains a Local Fund Hospital, a Veterinary Hospital, a Post Office, a Panchayat Office besides two Elementary Schools and two Reading Rooms. The Guntur water Supply Scheme Office is also located in this village. There is a temple of Sri Sangameswara Swamy.

Mutlur—*is said to have been in existence* since Puranic times. It contains a Siva temple which is said to have been constructed by Sri Parasurama. A legend states that Lord Sri Rama and Sita Devi halted in this village during their exile for some time. This village was known as Nagapuri during the Chalukya rule and later during the time of Sree Krishna devaraya's rule and ever since then it is called as Mutlur. According to the 1961 Census count it supports a population of 7,227 persons. The village extends over an area of 5.35 sq. miles and there are altogether 1,313 occupied residential houses in this village. Agriculture is the major means of livelihood for the people of this village. The total number of agricultural workers is 3,258 persons out of which 1,591 persons are cultivators while the rest, 1,667 persons are agricultural labourers. Irrigation is facilitated by Appapuram channel. Paddy, tobacco, cholam are the crops cultivated in this village. The village contains a Higher Elementary School and a Panchayat Office.

Prathipadu—situated at a distance of about 10 miles south-west of Guntur-Parachuru road has a population of 6,781 persons according to 1961 Census count. Prathipadu contains two temples one a Siva temple built by the Chola Kings and the other a Vishnu temple built by the Reddys of Kondavidu. The former has some inscriptions ranging from A. D. 1222 to 1638 and the latter has one inscription not yet read. The village is well connected by a major district road on which buses ply regularly. Paddy, cholam, tobacco and chillies are the crops usually raised in this village and irrigation is facilitated by Appapuram main channel. There is a Rural Dispensary, a private Hospital, a Veterinary Hospital, a Zilla Parishad High School, a Police Station, a Panchayat Office and an Office of the Deputy Inspector of Schools, besides several important public offices.

TENALI TALUK

This is the richest taluk of the district and can be called the granary of the district. It lies on the right bank of the river Krishna to the north of Repalle Taluk. According to the 1961 Census count the taluk supports a population of 401,559 persons comprising an area of 326.5 sq. miles. There are altogether 89 inhabited villages, two uninhabited villages, and two urban areas *viz.*, Tenali and Chebrolu in the taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	...
200—499	3
500—999	5
1,000—1,999	22
2,000—4,999	37
5,000—9,999	21
10,000 and above	1
Total inhabited villages:	89

The 22 villages having more than 5,000 population are Chiluvur (5,406), Vallabhapuram (6,487), Munugotipuram (5,495), Emani (6,572), Duggirala (6,567), Nandivelugu (5,394), Kollipara (9,508), Kathavaram (7,668), Angalakuduru (6,574), Edlapalle (6,875), Kuchipudi (6,186), Pedaravuru (5,083), Jampani (6,652), Davuluru (5,462), Kollur (9,551), Ravikampad (5,031), Vemur (6,493), Modukur (5,812), Intur (6,291), Amartalur (5,917), Chavali (5,852) and Kolakalur (10,895). The places of interest among these villages are described in the succeeding paragrahps. The density of population of the taluk is 1,230 persons per sq. mile.

A major portion of this taluk forms the delta area of the district and on account of the flat surface and soft alluvial bed the taluk is ideally suited for irrigation and is, therefore, a very rich paddy growing area. From the head sluice at Vijayawada (Sitanagaram) the main canal takes its origin and lower down it branches off into a net work of canals *viz.*, the Kommanur canal, the Nizampatnam canal and the Bank canal, all irrigating this taluk. These canals are also used for navigation particularly facilitating the transport of food grains.

There are no forests in this taluk and the climatic condition of this taluk is of extreme kind. During the summer the heat is severe but comparatively cooler than the upland taluks of the district and in the winter it is chilly. The average annual rainfall of the taluk during the decennium ending 1961 is 34.51 inches or 876.43 mm. The rainfall is nominal from December to April. Slight showers fall at the end of May and the monsoon actually sets in June. July to November may be regarded as the heaviest monsoon period.

As regards the transport and communication facilities, Tenali is an important railway junction on the Madrs-Waltair broad gauge line and the Guntur-Tenali-Repalle broad gauge line of the Southern Railway. The three irrigation canals arising from the Krishna barrage at Vijayawada are also used for navigation purposes. The Kommanur canal joins the Buckingham canal near Pedaganjam in the Bapatla taluk, establishing through communication between Vijayawada and Madras. In addition to these, quite a number of villages in this taluk are served by the major district roads on which buses ply. As regards the medical facilities the taluk contains Primary Health Centres one each at Mulpur, Amarthalur, Kollipara, Sangamjagarlamudi and Chebrolu and Local Fund Dispensaries at Kolakalur, Duggirala, Perakalapudi, Pedapalem, Kuchipudi, Chavali, Jampani, Thurumella, Moparru, Modukur, Intur, Munnangi, Edlapalle and Kollur.

The taluk is well served by educational institutions. There is a first grade Arts College at Tenali, besides one Higher Secondary School, one Municipal Girls High School, two High Schools and a Training School for women. There are also High Schools maintained by the Zilla Parishad or by private committees at Duggirala, Emani, Pedapalem, Revendrapad, Kolakalur, Vemur, Peravali, Kuchipudi, Modukur, Turumella, Intur, Govada, Vallabhapuram, Kollipara, Edlapalle, Sangamjagarlamudi, Chebrolu, Kollur, Donepudi, Anantavaram villages of this taluk. Almost all villages of this taluk have elementary schools. There are a number of rice mills both huller and sheller in the entire taluk since the area is a large rice producing centre. There are turmeric factories also at Duggirala. Handloom weaving, spinning and mat weaving are some of the industries in several villages of this taluk.

The taluk looks very advanced in all aspects. It is a rich taluk with fertile soil. Transport and communication facilities are comparatively better.

Tenali— is a Municipality and is the headquarters of the taluk and a Revenue Division by the same name and has 78,525 persons as per the 1961 Census count. The town occupies an area of 2.68 sq. miles. It is an important Railway junction on the Madras-Waltair Railway line (broad gauge) and the Repalle-Guntur Railway line (broad gauge) of the Southern Railway. Being situated in the Krishna delta area with transport and communication facilities it is a thriving trade centre for a rich variety of paddy. There is neither protected water supply scheme in the town nor an

underground drainage system. The main sources of drinking water are the tube wells and draw wells. There is a Public Call Office besides also six Post Offices of which two major Post Offices have Telegraph facilities. The town contains a Government Hospital, five Municipal Ayurvedic Dispensaries a Municipal Unani Dispensary and a Veterinary Hospital, besides the usual offices of a Tahsil. The place is well connected also by the major district roads on which buses regularly ply.

Tenali can take pride as being the birth place of Garlapati Ramalingam (later known as Tenali Ramakrishna) one of the eight poets who adorned the Court of Sri Krishnadevaraya of Vijayanagar and distinguished himself as Vikatakavi. Tenali is reported to be a cultural centre which has contributed considerable talent to Andhra stage and the screen. This town enjoys a dubious reputation as "Paris of Andhra". Tenali on the whole is a prosperous town showing a rapid growth of population.

Chebrolu — according to the 1961 Census count supports a population of 14,291 persons. The town extends over an area of 8.20 sq. miles and there are altogether 2,820 occupied residential houses. It is a Railway Station on the Madras-Waltair broad gauge line of the Southern Railway and is accessible by major district road. There is a Panchayat Office, a Sub-Registrar's Office, a Maternity Child Welfare Centre, a Health Centre, a Travellers' Bungalow and a Post Office with Telegraph Exchange. Handloom weaving is the chief cottage industry of this place. There is an Ambar Charka centre in the town. It contains a privately managed High School called the S.N. High School besides several elementary schools.

Vemur —a Railway Station on Repalle—Guntur broad gauge line of the Southern Railway is connected by the Tenali-Kollur road. It supports a population of 6,493 persons as per the 1961 Census count and extends over an area of 8.82 sq. miles. In all it comprises 1,335 occupied residential houses in this village. Vemur is also a canal irrigated village under the Krishna delta system. The Krishna Right Bank canal provides irrigation facilities to this village and as such wet paddy is the chief foodcrop raised. There is a Panchayat Office, a P.W.D. Section Office, a Zilla Parishad High School and a Post Office with Telephone exchange. The village contains a Key Village Centre for the development of cattle.

Duggirala —is a Railway Station on Madras-Waltair (broad gauge) line of the Southern Railway. It is also well connected by roads on which buses ply regularly. The total population returned at the 1961 Census is 6,567 persons. People in this village live by cultivation as their main occupation and the Bank canal provides regular supplies of water for irrigation. Rich variety of wet paddy is raised extensively. It contains a Primary Health Centre, a Maternity Hospital, a First Aid Veterinary Centre, a Post Office and a Panchayat Office.

Kolakalur — a fairly big village with a population of 10,895 persons as per the 1961 Census count. It is connected by a major district road with Tenali and buses ply regularly to this place. The village occupies an area of 8.00 sq. miles and there are altogether 2,082 occupied residential houses. On account of the fertility of the soil which is amenable for paddy cultivation and fed by the secure source of Bank canal under the Krishna delta system, agriculture is a successful occupation here. Rich variety of paddy is chiefly raised. A very large section of people in this village are engaged in agriculture and its allied pursuits. In fact the number of agricultural workers in this place is 3,435 persons of whom 1,632 persons are cultivators while the rest 1,803 persons are agricultural labourers. There is a Local Fund Dispensary, a Primary Health Centre, a Post Office, an Out Post Police Station, a Zilla Parishad High School and a Panchayat Office in this village.

Nandivelugu —is connected by Guntur-Tenali bus route. This village supports a population of 5,394 persons as per 1961 Census count and extends over an area of 1.81 sq. miles. There are altogether 1,115 occupied residential houses in this village. Agriculture is the major means of livelihood for the people of the village. The Krishna-Nizampatnam canal provides assured supplies of water for irrigation and wet paddy is grown in large areas extensively. The number of agricultural workers in this place is 1,762 persons out of which 501 persons are cultivators and 1,261 persons are agricultural labourers. There is a Panchayat Office and a Branch Post Office. It contains three Elementary Schools.

Kollipara—is well connected by Tenali-Kollipara bus route. According to the 1961 Census count the total population of this place is 9,508 persons. The village covers an area of 6.72 sq. miles and in all it contains 1,635 occupied residential houses. Here the Bank canal which takes off from the splendid net work of the Krishna delta system forms a secure source of irrigation. Majority of the people in this village

therefore are engaged in agriculture and its allied pursuits. The number of agricultural workers in this place is 3,591 persons out of which 2,566 persons are cultivators and the rest 1,025 persons are agricultural labourers. Paddy and turmeric are the chief crops cultivated in this village. Handloom weaving is the chief cottage industry of this locality. There is a Panchayat Office, a Branch Post Office, a Reading Room, a Zilla Parishad High School and a Local Fund Dispensary in this village. There is also a Rest House maintained by the Public Works Department.

REPALLE TALUK

The taluk lies on the eastern tip of the district extending over an area of 305.3 sq. miles. It is bounded on the north by the Tenali taluk, on the south by the Bay of Bengal, on the east by the river Krishna and on the west by Bapatla taluk. The Repalle region is called 'Velnad' or the outer country. According to the 1961 Census count Repalle taluk supports a population of 235,245 persons. There are altogether 57 inhabited villages, 2 uninhabited villages besides two urban areas *viz.* Repalle and Bhattiprolu in this taluk. The following statement shows the number of inhabited villages arranged according to the various population sizes:

Less than 200	1
200—499	...
500—999	2
1,000—1,999	13
2,000—4,999	31
5,000—9,999	10
10,000 and above	...
Total inhabited Villages:	57

The ten villages having more than 5,000 population are Arumbaka (9,232), Kanagala (6,527), Potharlanka (7,313), Peteru (5,619), Dhulipudi (8,535), Nizampatnam (9,229), Kuchinapudi (5,785), Allaparru (8,663), Advuladeevi (5,719), and Dindi (5,432). The places of interest among these are described in the succeeding paragraphs. The taluk formed part of Tenali taluk till 1909 and was split up on the 1st July, 1909. In 1959 the village Potharlanka was transferred to this taluk from the Divi taluk of Krishna district.

The river Krishna flows all along its eastern boundary. Over a large portion of this taluk is under the irrigation facilities provided by the splendid network of canals, namely, the Bank canal and the Nizampatnam canal which take off from the Krishna delta system. The soil in this taluk is made up of delta alluvial or black cotton, red and arenaceous series; but the alluvial soil is found in considerable extents which is amenable for a rich variety of wet paddy cultivation. Casuarina plantations are very extensive in this taluk.

As regards the transport and communication facilities, Repalle is the terminus for Repalle–Guntur branch line (broad gauge) of the Southern Railway which takes off from the Tenali junction and the taluk has Repalle, Pallikona and Bhattiprolu as its stations. The taluk is also served by major district roads which are interspersed connecting almost all villages in the taluk. The Bank canal is also useful for navigation and it provides cheaper transportation facilities which are popular.

As regards medical facilities all the Firka headquarters of this taluk are provided with rural medical dispensaries. In the Block areas the taluk contains medical dispensaries which are manned by Assistant Civil Surgeons. There is a Local Fund Hospital at the taluk headquarters.

The educational establishments of this taluk consist of two High Schools at Repalle besides High Schools at Bhattiprolu, Surepalli, Kavur, Gudavalli, Vellatur, Dhulipudi, Kuchinapudi, Nizampatnam, Chattragadda and Ullipalem villages of this taluk. There is also a Basic Training School at Vinayasramam, hamlet of Rambhotlapalem village. On account of the introduction of compulsory elementary education almost all villages have been covered by Elementary Schools.

Repalle—a Municipality and the headquarters of the taluk by the same name supports a population of 21,941 persons as per the 1961 Census count. The town covers an area of 5.50 square miles and there are altogether 4,211 occupied residential houses in the town. It contains a ruined fort which was built in 1705 by the Zamindars of this locality.

The town owes its importance to its Railway Station and as a terminus on the Guntur–Repalle line (broad gauge) of the Southern Railway. It is also served by a number of major district roads on which buses ply regularly connecting it with almost all the big villages of the taluk. A Taluk Office, a Judicial Second Class Magistrate's Court, a Sub-Registrar's Office and a District Munsiff's Court are located here. Besides these, there is a Government Hospital,

a Veterinary Hospital, a Higher Secondary School, a Municipal High School, a Mission High School and a Travellers' Bungalow maintained by the Zilla Parishad. Handloom, weaving and pounding of rice are the chief cottage industries of this place.

Bhattiprolu—a Panchayat is situated at a distance of about 6 miles to the north of Repalle connected by road. It is a Railway Station on Repalle-Guntur line (broad gauge) of the Southern Railway. The town contains a demolished Buddhist Stupa, marble pillars, central casket *etc.* Some of the sculptured marbles can be seen in the flooring of a sluice in the channel two miles east of Bhattiprolu over which the road passes near Vellatur. According to the 1961 Census count Bhattiprolu supports a population of 16,617 persons. The town extends over an area of 9.71 sq. miles and there are altogether 3,200 occupied residential houses. There is a Sub-Registrar's Office, a Panchayat Office, a Police Station, a Local Fund Dispensary and a Key Village Centre for the cattle development. There is also a High School maintained by the Zilla Parishad. The Post Office in this town is provided with Telephone and Telegraph facilities.

Nizampatnam — village was in existence many years before the dynasty of the Nizams of Hyderabad and was known for extensive salt manufacture. It was also a sea port. According to the 1961 Census count it supports a population of 9,229 persons. The village extends over an area of 8.79 sq. miles and there are altogether 2,106 occupied residential houses.

BAPATLA TALUK

This taluk lies along the coast south of Guntur comprising an area of 670.0 sq. miles. It is bounded on the North by Tenali taluk, on the South by Ongole taluk, on the east by Bay of Bengal and on the west by Narasaraopet taluk. The taluk has a population of 487,030 persons as per the 1961 Census count. There are altogether 106 inhabited villages, three uninhabited villages besides four urban areas *viz.*, Bapatla, Chirala, Vetapalem and Ponnur & Nidubrole in this taluk. The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	1
200 — 499	...
500 — 999	12
1,000 — 1,999	16
2,000 — 4,999	55
5,000 — 9,999	20
10,000 and above	2
Total inhabited Villages :	106

The 22 villages having more than 5,000 population are Chintalapudi (5,088), Chandole (7,659), Pittalavaripalem (8,055), Yazali (5,607), Mulukuduru (5,391), Vallur (6,112), Kommur (6,198), Kakumanu (5,130), Parchur (8,985), Ganapavaram (5,374), Karlapalem (8,233), Perali (5,368), Bapatla (*Rural*), (7,535), Murukondapadu (5,653), Upputur (5,382), Swarna (5,990), Karamchedu (9,163), Inkollu (6,523), Pandillapalle (5,042), Chinaganjam (9,345), Ipurupalem (14,297), and Chirala (*Rural*) (12,609). The places of interest among these are described in the succeeding paragraphs

None of the big rivers flow through this taluk nor does it contain any rivers worth mention. Irrigation is facilitated largely by the Kommanur canal which branches off from the Krishna Delta system. The taluk contains several drainage facilities *viz.*, the Tungabhadra drain, the Kollimarla drain, the Nallamada drain, the Konderu drain, the Romperu drain *etc.*

As regards the transport and communication facilities the Madras-Waltair line passes through this taluk with its stations at China Ganjam, Kadavakuduru, Vetapalem, Chirala, Stuartpuram, Bapatla, Appikatla, Machavaram and Nidubrole. The taluk is also connected by major district roads on which buses ply regularly to all important places in the taluk.

The taluk contains Government Hospitals at Bapatla, Chirala, and Ponnur and Primary Health Centres at Vetapalem, Daggubadu and Pittalavaripalem villages of this taluk. In addition to the above, several private practitioners maintain Nursing Homes and Clinics at Nidubrole, Bapatla, and Chirala towns. There is a Leprosy Hospital maintained by the Salvation Army near Bapatla.

The taluk has good educational facilities. There is a Government Agricultural College at Bapatla town, V. R. S. and Y. R. N. College at Chirala and P. B. N. College at Nidubrole. The Bhavanarayanaswami Sanskrit College is located at Ponnur. Besides these colleges the taluk contains quite a number of High Schools in all the bigger villages and almost all villages have elementary schools.

On the industrial side the taluk is well advanced. It contains a Spinning Mill called "The Chirala Co-operative Spinning Mills", located between Jandrapeta and Vetapalem near Chirala. Handloom weaving is the chief cottage industry of this taluk and in fact

the cloth woven at Jandrapet commands a big market in foreign countries, and quite a large number of people in this industry are profitably engaged. The Panchayat Samithi maintains honey and cane work industries. A glass factory is also in the course of construction between Chirala and Jandrapet in the private sector.

Bapatla—is the headquarters of the taluk by the same name and a Municipality with 33,668 persons as per the 1961 Census count. The town extends over an area of 5.00 sq. miles and there are altogether 7,068 occupied residential houses.

Bapatla is an important Railway Station on Madras-Waltair broad gauge line of the Southern Railway. There is a temple of Bhavanarayanaswami which contains sixteen old inscriptions. It appears that most of them date back to the time of the Chola Kings—A. D. 1154. There are two inscriptions recording the grants by Salva Timmarusu, Minister of Sri Krishnadevaraya in A.D. 1518. The town contains the usual offices of a Tahsil. A Police Station, a Travellers' Bungalow, a Telephone Office, and Post Office with Telegraph exchange are located at Bapatla. The town is also growing up to be an important centre of education. There is a Government Agricultural College besides several High Schools in the town.

Chirala—a Municipality, is an important commercial centre in the district. It is a Railway Station on the Madras-Waltair broad gauge line of the Southern Railway and supports a population of 45,410 persons which is more than the population of Bapatla. The town extends over an area of 2.33 sq. miles and in all it comprises 9,748 occupied residential houses. It is also well connected by major district roads on which buses ply regularly connecting this place to Guntur and Narasaraopet. The town contains a Police Station, a Sub-Registrar's Office, a Deputy Tahsildar's Office, a Malaria Sub-Unit Office, a Municipal Office, a Municipal Travellers' Bungalow, a Government Hospital, and a Sub-Post Office with Telephone and Telegraph facilities. In addition to these there is a College, two Municipal Secondary Schools for Boys and one Municipal Secondary School for Girls. The town is making headway on the industrial side too. Handloom weaving is the chief cottage industry and there are colour dyeing factories. A large establishment of the Indian Leaf Tobacco Development Company, an oil mill and a bone meal manure mill are located here. One more spinning mill is also under construction.

Within four miles of Chirala is a very fine beach at a place called Vodarevu which is a popular picnic spot. I. L. T. D. maintains five guest houses of their own here.

Vetapalem—another important trade centre in the district is a fairly big town with a population of 15,803 persons and it occupies an area of 4.82 sq. miles. There are altogether 3,437 occupied residential houses in the town. The climate of Vetapalem is pleasant owing to its proximity to the Bay of Bengal. It is a Railway Station on the Madras-Waltair broad gauge line the of the Southern Railway and the place is well connected by major district roads. There are luxuriant cashew gardens on the coastal belt and as such a cashewnut factory is located here. A Beedi factory in this town also provides employment to a large number of people. There is a Police Station, a Rural Dispensary, a Veterinary Hospital, a Health Office, a High School and a Post Office with Telephone and Telegraph exchanges.

Ponnur and Nidubrole—The twin towns of Ponnur and Nidubrole support a population of 22,872 persons according to 1961 Census count. This may appropriately be classified as a town-group. The town extends over an area of 11.80 sq. miles and comprises 4,697 occupied residential houses. It is an important Railway Station on the Madras-Waltair broad gauge line of the Southern Railway. The place is also well connected by major district roads. At Ponnur there is an old temple dedicated to Lord Vishnu under the title of Bhavanarayanaswami. The temple has inscriptions going back as far as a record of a grant by Kulothunga Chola in A.D. 1119. The Sanskrit name of Ponnur is Swarna or Golden, Ponnur being a Tamil form of the name given probably by the Chola Kings. The legend about the place states that once upon a time there lived a childless Brahmin named Kasibhatlu, whose sister's son, Nanduri Gunugovindulu was a deformed hunch-back so uncouth that no parents would give him their daughter in marriage. The two Brahmins went on a pilgrimage to Kasi (Banaras) and at that holy place Kasibhatlu moved with compassion towards his nephew, promised him that if ever a daughter should be born to him, she would be given in marriage to Govindulu. Instantly Govindulu called upon Bhavanarayanaswami, the sacred river and certain trees growing on the bank to be witness of the promise. They returned to Ponnur and afterwards

the wife of Kasibhatlu gave birth to a daughter. When she was of an age to be betrothed, Govindulu claimed the fulfilment of the promise; but Kasibhatlu looked upon his fair daughter and upon Govindulu's crooked form and was reluctant to keep his word. In this strait Govindulu called upon the witness of the vow to come to his aid. Thereupon one night when Kasibhatlu slept Bhavanarayanaswami appeared to him and chided him with his slothfulness in fulfilling a promise made at the shrine. In the morning, when Kasibhatlu awoke, the Ganges itself was flowing past his door and before long, trees such as they had seen at Kasi, grew on its bank. Warned in time by these witnesses he kept his word and gave his daughter to Govindulu and afterwards a stately temple was erected by the Chola Kings upon the spot to commemorate the event.

There is a Zilla Parishad Dispensary, besides a High School, a Government Basic Training School and two Post Offices in this town. The Malaria Health Office unit is located in this place. Handloom Weaving is the chief cottage industry of this locality.

Machavaram — a hamlet of Mulukuduru village owes its importance to its busy Railway Station on Howrah-Madras broad gauge line of Southern Railway.

There is a Branch Post Office, and a Panchayat Office besides two Elementary Schools maintained by the Panchayat Samithi. Paddy is the main food crop cultivated besides sugarcane and betel leaves. There are also rich lime gardens in this village. Betel leaves and limes are exported to important markets in northern India.

Kommur — according to the 1961 Census count supports a population of 6,198 persons and the village extends over an area of 9.64 sq. miles. In all it comprises 1,011 occupied residential houses. The village grows jowar, tobacco, groundnut, and chillies chiefly and the Appapuram canal provides irrigation facilities. It contains a Panchayat Office and a Post Office. There are about five Elementary Schools in this village. Garlapadu is the hamlet of Kommur.

Parchur—well connected by a major district road on which buses ply from Chilakaluripet in Narasaraopet taluk, Guntur and Chirala, supports a population of 8,985 persons as per the 1961 Census count and it extends over an area of 10.14 sq. miles. There are altogether 1,572 occupied residential houses in this village. Rich variety of tobacco is cultivated here and irrigation is facilitated by Appapuram channel. The tobacco is intended for export and commands a good market both in and out of India. The village contains a few tobacco companies. There is a Local Fund Hospital, a Police Station, a Panchayat Office, an Endowment Office, a Travellers' Bungalow and a Post Office with Telephone and Telegraph exchanges.

Swarna—situated at a distance of about 8 miles towards the west of Chirala town supports a population of 5,990 persons as per the 1961 Census count. The village occupies an area of 14.53 sq. miles and there are altogether 1,250 occupied residential houses in this village. The Kommanur canal fed by the river Krishna serves this village. Wet paddy is the chief food crop cultivated here. There are three Elementary Schools in this village. Vegetables, milk, curd and butter are supplied from this village to the Chirala town.

Karamchedu — situated at a distance of about five miles to the north-west of Chirala town has according to the 1961 Census count a total population of 9,163 persons and it extends over an area of 14.93 sq. miles. There are altogether 1,588 occupied residential houses in this village.

Agriculture is the mainstay for the people of this village and the agricultural workers account for 3,225 persons of whom 1,743 persons are cultivators, while the rest 1,482 persons are agricultural labourers. Here irrigation is facilitated by Kommanur canal. Paddy is the chief food crop cultivated and tobacco is the commercial crop raised which provides occupation for a large number of people while curing it. The village contains a Post Office, a Rural Dispensary and an Oriental High School which is maintained by private management. Milk, curd and butter are supplied to the markets of Chirala town from this place.

Pandillapalli — situated at a distance of about seven miles towards the south of Chirala town on the Bapatla - Chinaganjam road has a population of 5,042 persons as per the 1961 Census count.

The village extends over an area of 2.73 sq. miles and there are altogether 1,096 occupied residential houses. Handloom weaving is the chief cottage industry of this place. The cloth woven

in this village commands a good market in South Africa, Malaya, Singapore, Burma, and Ceylon. Paddy is the chief food crop cultivated. Casuarina and cashew are also grown. Irrigation is facilitated by Kommanur canal besides springs that occur here. It contains a Rural Dispensary and four Elementary Schools. The place is well connected by a major district road on which buses ply regularly.

Chinaganjam—a fairly big village with a population of 9,345 persons as per the 1961 Census count occupies an area of 16.19 sq. miles and there are altogether 1,988 occupied residential houses in this village. It is a Railway Station on the Howrah-Madras broad gauge line of the Southern Railway and an important watering station for up and down trains. The place is only about three miles away from the sea shore. Salt is exported from here. Wet paddy, cholam, ragi, tobacco and chillies are the chief crops grown here and irrigation is facilitated by Kommanur canal. The village contains a Rural Dispensary, a Panchayat Office, a Police Station, a Zilla Parishad High School and a Post Office with Telephone and Telegraph exchanges. It contains a temple of Lord Siva.

Ipurupalem—is situated at a distance of about two miles to the north of Chirala town and recorded a population of 14,297 persons as per the 1961 Census count. The village is extended over an area of 10.59 sq. miles and there are altogether 2,944 occupied residential houses in this village. Ipurupalem is connected by the Guntur-Chirala bus route. Wet paddy and ragi are the chief food crops cultivated in this village and irrigation is facilitated by Kommanur canal. Handloom weaving is the chief cottage industry of this locality. There is a Higher Elementary School in this village.

Jandrapet—hamlet of Chirala town is situated at a distance of about two miles to the south of the town. Handloom weaving is the main cottage industry of this locality. The cloth woven in this place commands good market in foreign countries such as Africa, Malaya, Singapore, Burma and Ceylon.

ONGOLE TALUK

This is a dry taluk situated on the coastal area of the Bay of Bengal comprising an area of 820.2 sq. miles. This taluk prior to its transfer to Guntur district in 1904, formed part of Nellore district. The taluk is bounded on the east by the Bay of Bengal, on the west by Podili taluk of Nellore district, on the south by the river Musi and on the north by Narasaraopet and Bapatla taluks. It has a population of 388,450 persons as per the 1961 Census count. There are altogether 166 inhabited villages, 8 uninhabited villages and two towns *viz.*, Ongole and Addanki in this taluk. The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	1
200 — 499	13
500 — 999	32
1,000 — 1,999	50
2,000 — 4,999	59
5,000 — 9,999	11
10,000 and above	...
Total inhabited Villages :	166

The 11 villages having more than 5,000 population are Pamidipadu (5,124), Bodduvanipalem (6,369), Chimakurthi (7,657), Gangavaram (6,851), Nidamanur (5,114), Ammanabrole (5,538), Trovagunta (5,261), Karavadi (5,193), Kothapatnam (7,171), Tangutur (7,797), and Ravinuthala (5,654). The places of interest among these are described in the succeeding paragraphs :

As it adjoins the Bay of Bengal the soil in this taluk is mostly sandy in nature, but none the less it contains black cotton and sandy loamy series. The black cotton series are rich in fertility in which rich variety of virginia tobacco is cultivated. The taluk is drained by the river Gundlakamma which flows from west to east and finally falls into the Bay of Bengal. The river water is used for drinking purpose and is brought to Ongole town through pipes but it is not very useful for irrigation. Hence cultivation is largely under rainfed conditions facilitated by minor irrigation tanks, P. W. D. tanks and doruvu wells.

As regards the transport and communication facilities, the Madras-Waltair line of the Southern Railway passes through this taluk with Railway Stations at Tangutur, Surareddipalem, Pelluru, Ongole, Karavadi and Ammanabrole. The G. N. T. road passes through this taluk from north to south straight touching quite a number of villages and almost all the big villages of this taluk are connected by the major district roads on which buses ply.

As regards medical facilities the taluk contains a Government General Hospital and a Primary Health Centre in Ongole town. Besides these there are Primary Health Centres at Maddipadu, Ammanabrole, Santhanuthalapadu and Korisapadu villages of this taluk.

Handloom weaving is the chief cottage industry of this taluk besides pottery, carpentry etc. There are in this taluk quite a number of branches of the Indian Leaf Tobacco Company where Virginia Tobacco is cured and exported to foreign countries.

Ongole—a Municipality situated eleven miles to the west of the Bay of Bengal is the headquarters of the taluk and a Revenue Division by the same name and consists of 35,804 persons as per the 1961Census count. The town extends over an area of 2.04 sq. miles and there are altogether 7,186 occupied residential houses. It is a Railway Station on the Madras-Waltair broad gauge line of the Southern Railway and all the trains stop here. The town contains an old fort, of some bygone Rajahs, in a dilapidated condition but its antiquity is not known. The place is known for tobacco and for its famous breed of Ongole bulls which are well known in the country. A cattle fair is held once every year where the best bulls and cows are exhibited. There is a hill close by the town which contains a temple of Lord Rama.

The town contains the usual offices of a Tahsil and a Revenue Division. There is a Government Hospital, a Mission Hospital, a Travellers' Bungalow and a High School besides two parks and four Reading Rooms. The Inspection Bungalow is quite comfortable.

Addanki—a town, according to the 1961 Census count supports a population of 7,438 persons and extends over an area of 26.42 sq. miles. The town is accessible by Ongole-Narasaraopet bus route. There is a Sub-Registrar's Office, a Deputy Tahsildar's Office, a Local Fund Hospital, a Panchayat Hospital, a Government Travellers' Bungalow and a Sub-Post Office in this town.

Pamidipadu—once an estate village belonging to the Venkatagiri Zamindari, supports a population of 5,124 persons, according to the 1961 Census count. The village extends over an area of 9.91 sq. miles and there are altogether 1,049 occupied residential houses. People in this village live by cultivation as their main occupation. The number of agricultural workers in this place is 2,603 persons out of which 1,294 persons are cultivators while the rest 1,309 persons are agricultural labourers. Jonna, varagu and sajja are the food crops raised in this village. There is a Panchayat Office and a Branch Post Office besides several Primary Schools maintained by the Panchayat Samithi.

Nidamanur—supports a population of 5,114 persons as per the 1961 Census count and the village extends over an area of 5.52 sq. miles. It comprises of 951 occupied residential houses. Nidamanur is a tobacco growing village. A large number of people in this village are engaged in agriculture and its allied pursuits. The agricultural workers constituted 2,120 persons comprising both cultivators and agricultural labourers. The village contains a Rural Dispensary, a Veterinary Hospital, a Panchayat Office and a Branch Post Office. Handloom weaving is the chief cottage industry of this locality. There are six Elementary Schools in this village.

Ammanabrole—is a Railway Station on Madras-Waltair broad guage line of the Southern Railway. According to the 1961 Census count it supports a population of 5,538 persons. The village is extended over an area of 12.07 sq. miles and there are altogether 1,133 occupied residential houses. Cultivation is the main occupation for the majority of the people. The number of agricultural workers in this place is 1,678 persons which includes both cultivators and agricultural labourers. Cholam, varagu, and chillies are chiefly raised besides tobacco which is an important commercial crop. The village contains a Local Fund Dispensary, a Panchayat Office, a Sub-Post Office a Travellers' Bungalow and a Zilla Parishad High School. There is a Key Village Centre for the development of the cattle.

Kothapatnam—is a coastal village. According to the 1961 Census count this village supports a population of 7,171 persons. There are altogether 1,613 occupied residential houses in this village. A large number of people are fishermen in this village. A van is provided by the Fisheries Department for the transport of the fish to Ongole Market. The village contains a minor irrigation tank which irrigates about 50 acres of wet land. Here irrigation is also facilitated by the springs that occur besides doruvu wells. The village also grows betel leaves. People are also profitably engaged in the Salt Industry of this place.

Tangutur:—is a Railway Station on the Madras-Waltair broad gauge line of the Southern Railway. According to the 1961 Census count the total population of this place is 7,797 persons. The village covers an area of 14.52 sq. miles and in all it comprises 1,609 occupied residential houses. This place is associated with the surname of late Sri Tangutur Prakasam Pantulu, the veteran leader and the first Chief Minister of Andhra State who won a reputation as the 'Lion of Andhra' on account of the bravery he exhibited during the struggle for the Independence of India.

Tangutur is a small scale tobacco marketing centre and it contains an I. L. T. D. Company branch office. The village contains a Key Village Centre for the cattle development.

Chedalavada—has a population of 1,718 persons as per the 1961 Census count. The village extends over an area of 6.33 sq. miles and there are altogether 267 occupied residential houses. Though a small village it assumes importance owing to the construction of a big Rama temple. The car festival observed in this village attracts a large number of people.

NARASARAOPET TALUK

This taluk lies to the west of Guntur comprising an area of 716.0 sq. miles. It is bounded on the north by Sattenapalle taluk, on the south by Ongole and Bapatla taluks, on the east by Guntur and a portion of Bapatla taluks and on the west by Vinukonda taluk. The taluk has a population of 321,337 persons as per the 1961 Census count. There are altogether 107 inhabited Villages, 7 uninhabited villages, and 2 urban areas namely Narasaraopet and Chilakaluripet in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes:

Less than 200	1
200— 499	1
500— 999	12
1,000—1,999	30
2,000—4,999	59
5,000—9,999	4
10,000 and above	...
Total inhabited villages	107

The four villages having more than 5,000 population are Nadendla (6,214), Ellamanda (7,071), Konidena (5,445) and Pasumarru (*Rural*) (7,392). The places of interest among these are described in the succeeding paragraphs.

The taluk is drained and watered by Vagaru Vagu, Nalla Vagu, and Vedimangala Vagu. The watershed runs from the Kondavidu hills all along the north of the taluk near its boundary with Sattenapalle and from this ridge the country slopes down towards the sea. The general aspect of the taluk is characterized by dry crops and occasional patches of irrigation under rainfed tanks. There are several bold hills, such as Kotappakonda and the country is intersected by a water course, dry for the greater part of the year and getting freshes during the monsoon period.

The first thing that meets the eye on entering this taluk is the conspicuous hill fortress of Kondavidu. This range of hills occupies the north-east corner of the taluk overlooking the town of Guntur and all the country upto the sea. The elevation of this range is about 1,701 feet above the sea level and about 1,520 feet above the plain. The outline of the ridge is very uneven having many projecting conical peaks. At the western foot of the central ridge lies the village of Kondavidu.

Eight miles south-west of Narasaraopet is the lofty hill of Kotappakonda where a festival is held. The shrine upon the hill Kotappakonda is comparatively modern. The temple, some 600 feet above the plain, is approached by a winding flight of stone steps which at the festival on Sivarathri are densely thronged with pilgrims ascending and descending, the light coloured *Prabhas* or ensigns making the scene very gay and picturesque. The hill top is 1,587 feet above the sea level.

Narasaraopet—a Municipality previously known as Atluru took its present name from Narasa Rao, a Zamindar who enlarged the fine tank to the west of the fort near the town. It has a population of 29,744 persons as per the 1961 Census count and extends over an area of 2.63 sq. miles. In all it comprises 5,890 occupied residential houses.

The town owes its importance to its Railway Station on the Hubli — Guntur metre gauge line of the Southern Railway besides

being the headquarters of the taluk by the same name. The place is also well connected by major district roads with the neighbouring taluks and also with almost all the big villages in the taluk. On account of its transport and communication facilities the town assumes a growing commercial importance. The taluk grows a rich variety of Virginia tobacco and in fact it is a place of thriving trade. Groundnut and cotton mills of this place are making headway. It contains the usual offices of a Tahsil besides the Office of the Revenue Divisional Officer, a District Munsiff's Court etc. There is a Government Hospital, a Municipal Ayurvedic Dispensary and a Government Veterinary Dispensary. The town is also growing up to be a centre of education with one College, two High Schools and a Training School maintained by the Luthern Mission. There is a Travellers' Bungalow maintained by the Municipality and there is protected water supply scheme.

Chilakaluripet—is a fairly big town with a population of 22,666 persons as per the 1961 Census count. The town occupies an area of 4.0 sq. miles and there are altogether 4,520 occupied residential houses. The place is accessable by the G.N.T. Road and the major district roads on which buses ply. There is a Sub-Registrar's Office, a Police Station, a Panchayat Office and a Post Office with Telephone and Telegraph exchanges. The town contains groundnut oil mills, large tobacco redrying factories, flour and saw mills. There is a Higher Secondary School, a High School and a Training School in the town.

Ellamanda—a village, contains the temple of Ramalingaswamy, which seems to be ancient, as it contains eight inscriptions, with dates ranging from A.D. 1131 when the Chola Kings held this country, down to 1555, when it owned the sway of Sadasiva of Vijayanagar. According to the 1961 Census count it supports a population of 7,071 persons. The village covers an area of 10.77 sq. miles. There are altogether 1,127 occupied residential houses in this village. Agriculture is the major means of livelihood.

Chejerla—is said to be the scene of the legend told in Mahabharata of the King Sibi who sacrificed his own flesh to redeem the life of a dove hunted by a hawk. A temple is erected here to this pious monarch nnder the title of Kapoteswar. There are three caves in the rock, which perhaps date from very early times and the whole locality is covered with the remains of old Hindu shrines. Chejerla has a population of 1,999 persons as per the 1961 Census count.

VINUKONDA TALUK

This taluk comprising an area of 644.0 square miles is mostly covered by hills and forests. It is bounded on the north by Palnad taluk and on the east by Narasaraopet taluk. On the south and west it borders the Nellore and Kurnool districts respectively. According to the 1961 Census count the taluk supports a population of 124,572 persons. There are altogether 73 inhabited and 5 uninhabited villages in the taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	4
200— 499	7
500— 999	15
1,000—1,999	22
2,000—4,999	25
5,000—9,999	...
10,000 and above	...
Total inhabited villages	73

Vinukonda is the only urban area of this taluk. The density of population of the taluk is 193 persons per sq. mile.

Vinukonda taluk is drained and watered by three rivers *viz.*, the Gundlakamma, the Kandleru and the Konkeru. The river Konkeru and the river Kandleru are partly useful for irrigation because of the anicuts across them apart from doruvu wells under the rivers, while the river Gundlakamma only provides a few doruvu wells which are useful for irrigation but much of its water is wasted into the sea. There are four major irrigation tanks and about 54 minor irrigation tanks maintained by the Government.

The taluk contains large extents of forest area in which the growth is mostly shrub more useful for fuel but not of timber value. However, there is a reserve forest area which is preserved and protected. The climatic condition of this taluk is of extreme kind *i.e.*, hot summers and chilly winters with scanty rains. As regards the transport and communication facilities the Guntur-Hubli metre gauge Railway line of the Southern Railway passes through this taluk with its stations at Gundlakamma, Vinukonda, Savalyapuram and Velpuru Road. The State Highway passes through this taluk ouching some of the important places in the taluk. The major district roads connect the big villages with the taluk headquarters.

As regards medical facilities the taluk contins a Government Medical Dispensary at Vinukonda and a Primary Health Centre at Ipur. There are adequate drinking water wells in the taluk which are constructed under the Rural Welfare Scheme. People in Inabrolu and Enugupalem firka villages fetch water from the river Gundlakamma.

The educational establishments of this taluk consist of two Zilla Parishad High Schools, one at Vinukonda and the other at Karumanchi. The taluk contains Basic Higher Elementary Schools at Vinukonda and Muppala.

Handloom weaving, mat weaving, pottery and carpentry are the chief cottage industries of this taluk. Mat industry is popular at Inabrolu. In the Bollapalle Reserve forest of this taluk there is a State stone quarry in an extensive area.

Vinukonda—is a Panchayat and taluk headquarters. Vinukonda, the hill of hearing, is said to be the spot where Rama heard the news of the kidnapping of his wife Sita. The locality abounds with Hindu remains of very great antiquity. The town is situated below the cleft hill of Vinukonda. The two peaks it contains are not easily climbed, but climbers can pass without difficulty through the split between them. This rupture is said to have been caused by earthquakes but not of volcanic action. There is an old fortress near to the town. At about one third of the height of the hill is a large reservoir of water. Near it are the remains of some Hindu temples. On the top is a small pagoda dedicated to Lord Siva and an old Hindu *mantapam*, at one time used by the Muslims as a mosque. Reservoirs of water have been cut out of the rock, two of which afford a good supply throughout the year. The fortifications at the foot of this hill have been thoroughly demolished. The town is the headquarters of the taluk. It contains a taluk Office, a Block Development Offiice, a Magistrate's Office, a Panchayat Office, a Sub-Post office, a Forest Range Office etc. In addition to these there is a Government Hospital, a Government Ayurvedic Dispensary, a Government Veterinary Hospital and a Zilla Parishad High School. Handloom weaving is the chief cottage industry of this locality. There are seven factories in the town out of which the prominent are the Sri Satyanarayana Oil Factory, Sri Venkateswara Ginning and Oil Factory and a bone factory. The castor oil mills also provide employment to a few workers.

PALNAD TALUK

Palnad taluk forms an amphitheatre surrounded by hills and lies in the extreme west of the Guntur district comprising an area of 1,039.0 sq. miles. It is bounded on the north and west by the river Krishna which flows between high rocky banks and seperates this taluk from Nalgonda district. On the south and east hills and jungles divide the taluk from the more open plains of Vinukonda, Narasaraopet and Sattenapalle. The hills consist of the southern and the western parts of Palnad taluk over which the Eastern Ghats and its outliers lie. The name Palnad is said to be derived from 'Pallenadu' meaning the country of hamlets. According to the 1961 Census count, the total population of this taluk is 227,744 persons. There are altogether 88 inhabited villages, 5 uninhabited villages and two towns *viz.*, Gurazala and Macherla in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	...
200— 499	4
500— 999	10
1,000 —1,999	26
2,000—4,999	44
5,000—9,999	4
10,000 and above	...
Total inhabited villages	88

The four villages having more than 5,000 population are Rentachintala (6,763); Karempudi (6,055); Dachepalle (5,667) and Piduguralla (7,477). The places of interest among these villages are described in the succeeding paragraphs. The density of population of the taluk is 219 persons per sq. mile.

The river Krishna enters the district near Ganikonda hills in the Palnad taluk but the taluk is not at present benefited by this river as it forms only a boundary in the north. After the completion of the Nagarjunasagar Dam this taluk will have good irrigation facilities from the water of the river Krishna. The taluk is drained and watered by the river Naguleru and the river Chandravanka. The river Naguleru rises in the hills near Nayakurali Kanuma (pass) in the Vinukonda taluk. Stone dams were constructed across it at Dachepalle. As such under it there is a wet ayacut with considerable expansion of cultivation.

The Naguleru then joins the river Krishna. The river Chandravanka also flows northwards across Palnad taluk and falls into the river Krishna. In addition to these, certain other hill streams and minor irrigation tanks provide irrigation facilities to this taluk but the taluk is liable to famine conditions if rains fail. The soil in this taluk is made up of black, red and arenaceous series, and it consists of large extents of Reserve forests *viz.*, the Mandadi Reserve forest, the Mutukur Reserve forest and the Kandlaguata Reserve forest. The climate of this taluk is of extremes *i.e.*, severe summers and chilly winters.

As regards the transport and communication facilities the Guntur-Macherla metre gauge line of the Southern Railway (also known as the Guntur-Gurazala-Macherla line) passes through this taluk with its stations at Macherla, Paluvayi, Rentachintala and Gurazala. Almost all the big villages in this taluk like Ambapuram, Nadikudi, Tummalacheruvu and Piduguralla are connected by major district roads on which buses ply regularly.

As regards medical aid, there is a Government Hospital, a Primary Health Centre and a Child Welfare Centre at Macherla and a Government General Hospital at Gurazala. Dachepalle, Piduguralla, Veldurthi and Pulipad each have Local Fund Dispensaries. Rural Dispensaries are located at Adigoppula, Durgi and Karempudi villages. Further the big villages of Sankaram, Machavaram and Uppalapadu have Primary Health Centres. At Rentachintala there is a private Hospital maintained by the U. L. C. Mission. A Maternity Ward is provided at Morjampadu village of this taluk.

The educational establishments of this taluk consist of about seven High Schools and three Middle Schools besides quite a number of Elementary Schools in almost all villages covering the entire taluk. The chief cottage and small scale industries of this taluk are handloom weaving, carpentry, pottery, tanning etc. The Panchayat Samithi at Macherla maintains a leather tanning centre. It may be added that there are no large scale industries in this taluk except the Sree Ramakrishna Cements Ltd., working at Macherla.

Gurazala—a Panchayat and a town, was once the capital of the local chieftains, known in verse as the "Palnativirulu". According to the 1961 Census count Gurazala supports a population of 8,009 persons. The town extends over an area of 16.83 sq. miles and there are altogether 1,662 occupied residential houses. It is well connected by a major district road besides being a Railway Station on the Guntur-Macherla metre gauge line of the Southern Railway. There are two Portuguese epitaphs dated 1767 and 1769 on the graves of two children of officers in the service of the Nawab of Arcot. In Gurazala are to be seen many old temples but the inscriptions they bear have not yet been properly deciphered. The town contains the usual offices of a Tahsil. There is a District Munsif's Court, a Judicial Second Class Magistrate's Court, a Sub-Registrar's Office, a Police Station and a Post Office with Telephone and Telegraph Exchanges besides a Government Dispensary, a Government Veterinary Hospital and a High School.

Macherla—a Panchayat is the ancient capital of the Palnad heroes and it contains numerous remains of antiquity with dates going as far back as A. D. 1249. According to the 1961 Census count it supports at population of 14,797 persons. The town extends over an area of 14.10 sq. miles and there are altogether 3,278 occupied residential houses. It is a Railway Station on the Guntur-Macherla metre gauge line of the Southern Railway. It is also connected by major district roads with the neighbouring taluks such as Guntur, Narasaraopet, Palnad and Miryalaguda. The town contains quite a number of public offices. There is a Dy. Tahsildar's Office, a Sub-Registrar's Office, a Police Station, a Sub-Treasury Office and a Sub-Post Office with Telephone and Telegraph Exchanges besides a Government Dispensary, a Luthern Mission Hospital, a Veterinary Dispensary, a Zilla Parishad High School and an Industrial School maintained by the Zilla Parishad. There is a temple of Sri Lakshmi Chennakesava and a Luthern Church. The Nagarjunasagar Dam now under consrtuction across the river Krishna is about fifteen miles from Macherla. Here the Sree Ramakrishna Cements Ltd., is located and is making headway owing to the construction of the Nagarjunasagar Project near by. The tanning and cotton pressing industries provide employment to a good few.

Dachepalle—the name of this village has a fanciful derivation in Telugu, meaning "the hiding place" or the village of concealment, but this derivation is doubtful. The oldest inscription on a stone in the Nageswaraswami temple dates back to A D. 1213 but the temple itself does not appear to be of great antiquity. The village occupies the site of an old fort which is said to have been built by the Kondavidu Reddis and there are remains of old forts in the neighbourhood, chiefly at Ubbepalle near Gamala

padu and there is also a small temple with a great deal of carved stone and four or five inscriptions, three of which have dates equivalent to A. D. 1222, 1290 and 1459. The State Highways passes near this village on which buses ply regularly. According to the 1961 Census count it supports a population of 5,667 persons and the village extends over an area of 12.98 sq. miles.

Karempudi— among the few inscriptions found this place is often mentioned in the legends of the Palnad heroes and was the scene of the great cock fight. The village contains various temples and ruins; one relates to the reign of Kulothunga Chola, A.D. 1154 and others to that of the reigns of the Regent Rudramma and Pratapa Rudra II. The village has a population of 6,055 persons as per the 1961 Census count. It occupies an area of 1.60 sq. miles.

Piduguralla — a fairly big village with a population of 7,477 persons as per the 1961 Census count extends over an area of 12.20 sq. miles. There is an old fort near by the village and it contains two ruined temples. There is a stone slab between the village and the old fort with an old inscription not yet deciphered. Many broken carvings and other remnants of old temples are to be seen.

Rentachintala— the hottest place in the State, lies four miles to the south west of Gurazala with a population of 6,763 persons as per the 1961 Census count. The village extends over an area of 8.37 sq miles and there are altogether 1,094 occupied residential houses. Rentachintala is a Railway Station on the Macherla--Guntur (metre gauge) line of the Southern Railway. The village contains a Luthern Mission Hospital and two Luthern Mission High Schools out of which one is a Boys High School and the other a Girls High School. There is a Panchayat Office and a Post Office with Telegraph Exchange.

SATTENAPALLE TALUK

This taluk lies to the west of Guntur taluk and to the north of Narasaraopet taluk comprising an area of 693.8 sq. miles. It has a circuitous course of the river Krishna as its northern boundary and on the west it adjoins the Palnad taluk. The taluk supports a population of 244,562 persons as per the 1961 Census count. There are 126 inhabited villages, 4 uninhabited villages and two urban areas *viz.*, Sattenapalle and Phirangipuram in this taluk. The following statement shows the number of inhabited villages arranged according to the various population sizes:

Less than 200	3
200—499	13
500—999	21
1,000—1,999	41
2,000—4,999	47
5,000—9,999	1
10,000 and above	...
Total inhabited villages	126

Pedda Kurapadu (5,859) is the only village in this taluk having more than 5,000 population. The density of population of the taluk is 352 persons per sq. mile.

The river Krishna flows all along the northern boundary of this taluk from west to east. It is drained by the Ganapavaram river and the Edduvagu. The taluk contains a Reserve forest area called the Venkatayapalem Reserve forest stretching from Nemalipuri to the west of Sattenapalle. There is a great extent of black soil in the taluk, producing heavy crops of cotton and in this black soil the gneissic rock protrudes here and there. The black soil in this taluk is also slightly reddish. The climate is generally warm in summer and cool in winter. During the rainy season the average rainfall is 176.15 mm. There are about four major irrigation sources and 34 minor irrigation sources in the taluk.

The most conspicuous object in this taluk is the hill fortress of Bellamkonda whose castle like cliffs stand out prominently to the west of Krosur. Within the sight are the neighbouring fortresses of Kondapalle and Kondavidu, so that the taluk must have been a debatable ground in the sixteenth century when Kondapalle was the frontier fort of the Golconda Kings and Kondavidu the frontier fort of Vijayanagar while Bellamkonda was held at one time by the Muslims and at another by the Hindus.

As regards the transport and communication facilities, the Macherla-Gurazala-Guntur metre gauge line of the Southern Railway passes through this taluk with its stations at Anupalem, Bellamkonda, Reddigudem, Dhulipalla, Sattenapalle, Gudipudi, Peda Kurapadu and Siripuram in this taluk. Again the Hubli-Guntur metre gauge line of the Southern Railway passes through this taluk with its stations at Nudurupadu, Phirangipuram, Vemuluripadu and Perecherla. The taluk is also served by both the State Highway and the major district roads on which buses ply connecting it with the neighbouring taluks and certain big villages of this taluk. There is a bus route from Nagarjunasagar to Guntur *via.* Sattenapalle.

As regards the medical facilities there is a Government Hospital at Sattenapalle manned by a Civil Assistant Surgeon besides one R.C.M. Hospital maintained by the J.M.J. Society, Guntur. The taluk contains Rural Dispensaries at Phirangipuram, Atchampeta and Muppalla and Primary Health centres attached to each of the four Community Development Blocks *viz.*, Phirangipuram, Sattenapalle, Rajupalem and Thallur.

The distincitive feature of this taluk is that it contains large extents of rich tobacco growing fields and absorbs a number of workers in its processing and curing plants. Sattenapalle was once the seat of one of the Zamindars of Manur family. Their Fort was of mud but was a strong erection, with bastions at angles and a rampart to the eastern face with an entrance. The Fort was built by Pedda Venkata Krishnamah, Zamindar of Chilakalurpad during the time of the Basalat Jung.

Sattenapalle—is a Railway Station on the Macherla-Guntur metre gauge line of the Southern Railway. It is also well connected by a State Highways and other major district roads on which buses ply connecting it with the neighbouring taluks. The town contains the usual offices of a Tahsil, besides a Sub-Registrar's Office, a Judicial Second Class Magistrate's Court, a Deputy Panchayat Officer's Office, a Police Station, a Travellers' Bungalow and a Sub-Post Office with Telephone and Telegraph Exchanges. There are two High Schools in this town. According to the 1961 Census count the town supports a population of 17,495 persons and it extends over an area of 8.45 sq. miles.

Phirangipuram— is at the northern end of the detached hill and may be a village of some antiquity, for on a pillar in the temple of Virabhadra Swamy are three inscriptions, one of which dated A.D. 1409 records the construction of a tank by the wife of Veera Narayana Vema Vibhu in the days of the Reddis. The name of the village may either denote "City of the Cannon" for which there is an old legend about the firing of cannon from this hill or the name may refer to the presence of foreigners (Feringhis), for French troops were quartered at Kondavidu from 1751 to 1778. It was probably during this period that the French Jesuit Missionaries established a Mission station here.

The town has a population of 8,175 persons as per the 1961 Census count and it occupies an area of 5.16 sq. miles. It is a Railway Station on the Hubli-Guntur metre gauge line of the Southern Railway. The town contains a Sub-Registrar's Office, a Police Station, a Travellers' Bungalow and a Rural Dispensary. In addition to these, there are two High Schools and two Secondary Training Schools. There is one weavers' society for the development of Handloom Weaving Industry.

Peda Kurapadu — according to the 1961 Census count has a population of 5,859 persons. It extends over an area of 13.96 sq. miles and there are altogteher 1,271 occupied residential houses in this village. Agriculture is the major means of livelihood for the people of this village. Tobacco and chillies are the chief crops grown here. The village owes its importance to its Railway Station on Macherla-Guntur metre gauge line of the Southern Railway. It is also well connected by a major district road with Amaravathi and by State Highways with Sattenapalle. There is a Local Fund Dispensary, a Police Station and a Sub-Post Office with Telegraph facilities.

Kethavaram — according to the 1961 Census count supports a population of 262 persons. The village extends over an area of 0.62 sq. miles and there are altogether 63 occupied residential houses in this village. There is an old Fort within which there is a slab bearing an inscription dated A.D. 1552 recording that some local potentate in the reign of Sadasiva of Vijayanagar established the tax on animals and goods crossing the ferry here. On the hills is a Pagoda with steps to reach it

ANNEXURE

GEOLOGY AND MINERAL RESOURCES OF GUNTUR DISTRICT

(By Officers of the Geological Survey of India)

Geology :

The Guntur district is constituted by rocks of various types which range in age from Archaean to Recent. But it is the rocks of the Archaean and Algonkian (or Purana or Upper Pre-Cambrian) ages which preponderate over others. The Archaeans comprise different varieties of granites and charnockites which had been intruded into the highly folded and metamorphosed sedimentary rocks represented by Khondalites, mica-schists etc. Amongst the Algonkians there are less metamorphosed sedimentary rocks represented by slates, shales, limestones and quartzites, belonging to the Cuddapah System and the Palnad Series. These two divisions are also grouped under the Proterozoic, signifying the existence of very primitive life at the time of their deposition. But no fossils have so far been reported from the Cuddapah and Palnad rocks of the district. The district forms a part of the stable shield of the Peninsula where the intense oraganic activity and igneous intrusions were confined to the Archaean era. A prolonged period of denudation followed these activities, which is referred to as the Eparchaean interval. At the end of this period the sedimentary rocks of the Cuddapah System were deposited over the denuded surfaces of the granitic, gneissic and schistose rocks in a vast basin which is known as the Cuddapah Basin that extends into the neighbouring districts. The rocks of the Cuddapah system were subjected to folding movements in restricted belts. The Palnad formations which were deposited over the Cuddapahs, were very little disturbed by such movements. After the deposition of the Palnads and their uplift into land, there was a great hiatus in the stratigraphic history of the district, as the area remained a land surface during the Palaeozoic Era. The next younger rocks are a group of sandstones and shales of the Upper Gondwana period which outcrop at places in the Guntur-Ongole area. The youngest rocks of the district are alluvial deposits, lateritic rocks and a coarse conglomerate bed which has been doubtfully assigned a Mio-Pliocene age. The lateritic rocks and the alluvial deposits are of Recent to Sub-Recent age.

From the point of distribution of various rock types the district could broadly be divided into three parts from west to east. In the western part are found the rock formations of the upper Cuddapah System and the Palnad Series. The slates, phyllites and quartzites of the former form a series of parallel hill ranges trending roughly in a north-east south-west direction. The Palnad formations constitute a gently undulating terrain without any significant relief. The most ancient rocks, the gneisses, schists and granites are exposed in the central part. The general strike of the gneisses and schists is north-east south-west. These rock types form essentially a monotonous plain country relieved here and there by hills made up of more resistant rocks like charnockite, granite, quartzite and khondalite. The thick alluvial deposits in the eastern part form a plain, sloping gently eastward.

The following table shows the different geological formations, exposed in the district, arranged according to age, the oldest at the bottom and the youngest at the top.

Age (1)	Description (2)
Recent and Sub-Recent	Soils, tufa, kankar, beach sands, alluvium and lateritic gravels
Mio-Pliocene (?)	Ippatam conglomerate.
Upper Gondwana	Pavalur Sandstones Vemavaram Shales Budavada Sandstones
	——————Unconformity——————
Algonkian	Palnad Series: Shales, limestones and quartzites
	——————Unconformity——————
	Upper Cuddapah System: Srisailam Quartzite; Cumbum Slates
	——————Unconformity——————
Archaean	Basic dykes, quartz veins, pegmatites, pink granites and gneisses, charnockites and leptynites; grey granites and gneisses Hornblende-schists and amphibolites, Quartz-felspar-schists; Quartzites and magnetite-quartzites, mica-schists, Khondalites

The various rock formations are described briefly in the succeeding pages.

Archaeans :

The schistose rocks comprising hornblende-schists, quartz-felspar schists and mica-schists and amphibolites are exposed around Vinukonda, Narasaraopet, Sattenapalle and Amaravati. Where these rocks were injected into by the granites, they have given a rise to lit-par-lit gneisses and composite-gneisses. The strike of foliation of these schists swings from north-east south-west to east-north-east west-south-west.

The khondalites which are gneisses characterised by the presence of garnet and sillimanite are the products of high grade metamorphism of impure argillaceous sediments. Their outcrops are invariably weathered. These form hills in the area around Mangalagiri.

Quartzites and magnetite-quartzites are exposed in the Ongole area.

The mica-schists, khondalite, quartzite etc., referred to above, which are the oldest rocks amongst the Archaeans, had been intruded into by granites and charnockites. Among the granites there are different types which constitute a complex, and the relative ages of the various types have so far not been established. Each granite has its own assemblage of pegmatites and quartz veins, but these two are very much intermingled. These granites are massive or gneissic and contain chiefly felspars, quartz and biotite. They constitute a major portion of the central part of the district. The pink granites and gneisses are considered to be younger than the grey granites and gneisses.

Acid and intermediate charnockites characterised by the presence of hypersthene, bluish felspar and quartz constitute hills in parts of Guntur, Narasaraopet and Ongole taluks. The basic and ultra-basic varieties of charnockite are restricted to a few small outcrops. The charnockites have been intruded into the khondalites and leptynites were formed as a result by reconstitution and recrystallisation of the khondalites near the contacts.

Basic dykes of doleritic composition in various stages of metamorphism, traverse the granitic rocks.

Cuddapahs :

In the district only the younger rocks of the Cuddapah System *viz.*, the Cumbum Slates of Nallamalai Series and the Srisailam Quartzite of the Krishna Series are exposed. The Cumbum slates are largely metamorphosed to phyllites. Quartzites, limestones and dolomites occur as intercalations in the slates and phyllites of the Cumbum Stage. As a result of folding in the Cumbums the beds are frequently repeated. Locally the folding is intense and the beds have been overturned. The eastern margin of the Cumbum strata at their junction with the gneissic rocks is believed to be a fault with the upthrown block on the east. In the Vellaturu Dome (also known as the Vinukonda Dome) west of Vinukonda town, the erosion of the Nallamalai beds has exposed the underlying granite. The granite was considered to be the basement rock on which the Nallamalai sediments were deposited. Recent work showed that this granite is intrusive into the Nallamalai beds and as such younger than the Nallamalais. This granite is now considered responsible for the copper and lead mineralisation in the neighbouring Agnigundala area.

In the Macherla-Nagarjunasagar area the Srisailam quartzite with intercalated shales forms the plateau in which the Krishna River has cut deep gorges. Recent work suggests the possibility of the Srisailam quartzite being equivalent of the Banganapalle quartzite, a formation at the base of the Kurnool System.

Palnad Series :

The rock formations of the Palnad Series are correlated with those of the Kurnool system. The various formations of the Palnad Series are arranged below in their order of superposition :

Nandyal Shale
Koilkuntla Limestone
Paniam Quartzite
Owk Shale
Narjee Limestone
Banganapalle Quartzite

Of the above formations the Narjee limestone is the most important both from the point of thickness and areal extent. It is generally referred to as the Palnad Limestone. It has an extensive development in the Piduguralla–Dachepalle–Guruzala area. The Owk Shales and the younger formations are exposed only in the Veldurti-Durgi area. The Palnads in general are undisturbed. They are, however, involved in a fault by which the older Nallamalai strata were thrust over them. The Palnads like the older Cuddapahs are unfossiliferous.

Upper Gondwans :

As already stated the district remained an elevated land exposed to denudation by several natural agencies during the Palaeozoic era, for over 300 million years and as such there are no sedimentary rocks of this period in the district. The next younger group of rocks is the Upper Gondwanas which are exposed in isolated areas in the eastern part of the district in the Ongole-Guntur region. The Gondwana rocks are of fluviatile or lacustrine nature and were deposited in river or lake basins. But in this district as in the other districts along the coast, where they are found these Upper Gondwanas contain intercalated marine sediments, suggesting the transgression of the sea on to the land during the Upper Gondwana times. It is likely that these isolated exposures of the Upper Gondwanas are connected beneath the thick alluvial cover. The Upper Gondwanas in the district comprise three divisions, *viz.*, the Budavada Sandstones at the base, the Vemavaram Shales in the middle and the Pavalur Sandstones at the top. The Budavada Sandstones are buff in colour and are of marine origin. These contain fossils of plants like Ptilophyllum, Taeniopteris etc., and of the animals like Ammonites. The Vemavaram Shales are thin-bedded, fissile, purplish or variegated, and contain a fairly rich assemblage of plant fossils. These fossils are of plants like Cladophlebis, Taeniopteris, Ptilophyllum etc. The Pavalur Sandstones which are brown and red have so far not yielded any fossils. The Upper Gondwana beds are very little disturbed.

Mio Pliocene (?) formations :

Near the village of Ippattam there are exposures of a very coarse conglomerate bed with a lateritic matrix. This has been doubtfully correlated with the Cuddalore Sandstones of Mio-Pliocene age.

Recent and Sub-Recent formations:

Lateritic shingle and gravel occur in numerous patches in the Guntur – Ongole area as superficial deposits over the gneisses etc. Palaeolithic stone implements were found in these deposits.

In the vast alluvial tracts of the eastern part there are sands and silts brought by the Krishna and Gundlakamma rivers, beach sands and the mixed deposits of the estuaries. Loams, clays and cotton soils are also found here, Recent marine shells belonging to the Genera Murex, Eburna Olivia, Voluta, Natica, Turritella, Arca etc., are abundantly present along the coast. Kankar or calcareous nodules occur in the soils at several places in the district.

Mineral Resources :

The district has immense reserves of cement-grade limestone in the Palnad region. It is well endowed in construction materials. The iron ores of the district are of low grade and may not be of any commercial importance in the near future. The Agnigundala belt of copper and lead minerals in the Vinukonda taluk is under investigation and it is too early to say if this belt contains any commercially exploitable deposits of copper and lead ores. The various occurrences and deposits of economic minerals are briefly described below :—

Clays :

White clay was reported from near the railway station at Macherla and a nearby well, but the details of this occurrence are not known.

Construction materials :

Granites, gneisses, charnockites, khondalites and limestones in the central and western parts of the district offer good materials for building, road metal etc. The Gondwana sandstones have been used as building stone.

Copper and Lead Ores :

Ancient workings for copper and lead exist in the vicinity of Agnigundala (56P/12; 16°11′:79°44′30″) in the Vinukonda taluk and near Karempudi (56P/11; 16° 26′ : 79°43′) in the Palnad taluk. Though the precise time of the ancient mining activity is not known, it is generally believed that the ores were exploited during the Moghul period. The remains of washing tanks, furnaces and crucibles testify to the concentration and smelting of the ores of copper and lead by the ancients.

The Geological Survey of India is conducting an intensive investigation in the areas around the ancient workings with a view to assessing the quality and reserves of the ores. The ores of copper and lead *viz.*, chalcopyrite (sulphide of copper and iron) and galena (sulphide of lead) are found as disseminations and stringers in the sheared dolomite and quartzite which occur as intercalated beds within the phyllites of the Nallamalai Series. In the Agnigundala area lodes have been located in the Dhukonda (16°14′ : 79°43′30″), Nallakonda (56P/12; 16°12′30″ : 79°42′), Bandalamottu (16°13′ : 79°40°) and Peddagavalakonda (56P/11; 16°16′30″ : 79°36′30″) areas. The results obtained during the current investigation are encouraging.

Diamond:

Extensive mining was carried out in the past in the vicinity of the Kollur village in Sattenapalle taluk on the banks of the Krishna River and according to Tavernier who visited this area in 1645 some 60,000 persons were engaged in the mining operations. It is belived that the famous 'Kohinoor' diamond which passed several hands before it reached the British Crown was found at Kollur. The other old mines for diamond in the district are situated near Madagula, Mallavaram and in the Sarangapalli hill. In recent years there has been no mining activity in these areas.

Gypsum :

In the marine silts near Santhravur (15°48':80°16') gypsum occurs as sparsely distributed plates at a depth of 1 to 3 metres. Similar occurrences were noted near Allur (15°26'30" : 80° 8'30"). These occurrences do not appear to be of commercial importance.

Iron Ore:

The magnetite-quartzites in the Ongole taluk are estimated to contain 295 million tons of low grade iron ore with 32 to 37 percent iron. In the Timmerkota area of Macherla Sub–Taluk it is estimated that 75 million tonnes of low grade iron ore analysing 22.75 to 35.43 per cent iron occur upto a depth of 30 feet. These deposits are not of any commercial importance at present.

Kankar:

Kankar or calcareous nodules have a wide distribution in the district. It is locally used as a building stone and also burnt for manufacturing lime. It is reported that fairly good quantities of kankar are available near Chebrolu in Bapatla taluk, Lalpuram, Mangalagiri, Nekallu, Peddakakani, Venkayyapalem and Nagandla in Guntur taluk, Kotappakonda and Ellamanda in Narasaraopet taluk, Budavada in Ongole taluk and Pedda Kurapadu in Sattenapalle taluk. The Krishna Cement Works of the Associated Cement Companies Ltd., near Tadepalli is using the kankar occurring near Mangalagiri for blending with the lower grade limestones for the manufacture of cement.

Limestone:

Narjee Limestone (Palnad Limestone) is very extensively developed in the Palnad region of the district. There are immense reserves of cement grade limestone in this formation. The Associated Cement Companies Ltd., are obtaining their supplies of limestone from their quarries at Sitaramapuram. The Andhra Cement Company Ltd., is obtaining its requirements from the limestone quarries at Nadikude and Kesanapalle. The entire limestone area has not been investigated in detail. It is estimated that about 124 million tons of cement grade limestone is available in the Gangulakunta-Gottipalle area in the Macherla Sub-Taluk.

Very fine marbles of chacolate, pink, sea-green, white, grey and black colours have been quarried near Rentachintala for building and ornamental purposes. Good lithographic limestone is known to occur in Dachepalle.

Ochre:

Yellow ochre derived from the alteration of Owk Shales occurs as a band near Durgi and is finding a local use.

Quartz:

There are several reefs of quartz in the Palnad, Sattenapalle, Narasaraopet and Vinukonda taluks which might find use in the manufacture of glass. Quartz sands suitable for glass manufacture occur in the Chirala area of Bapatla taluk. Information on reserves is lacking.

Earthquakes :

The Ongole area experienced minor earthquake shocks in the present and previous centuries. The earthquake shock of 12th–13th October, 1959 caused considerable panic amongst the inhabitants of the area. As this area is well beyond the active seismic zone of India, and as there was no earthquake in the seismic zone at the time, which could have caused a tremor in this area, it is thought some local movement of rocks near some weak zone at the surface could have been responsible for this shock.

			GUNTUR DISTRICT				
1 Peda Kondaleru Project	Gutlapalle Vinukonda Taluk	Completed	N.A.	N.A.	4'	4'	650
2 Chilakaleru Project	Ramadupalem Village Vinukonda Taluk	Completed	N.A.	N.A.	4'	4'	Direct Ayacut-200; under Tank-180

Source : Collector, Guntur

Note : A part of the district comes under Krishna Anicut. When Nagarjunasagar Project is completed a major portion of this district will be benifited by the Project. As the headworks of both these major irrigation projects are outside this district boundary the details are not given in the above table.

TABLE 2.11—GOVERNMENT EXPERIMENTAL FARMS

Sl. No.	Name of Farm	Location and distance from Railway Station	Year of Establishment	Whether Research, Multiplication or Demonstration farm	Management *i. e.*, State, University or Private	Annual Rainfall	Type of soil	Programme of Research
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
			GUNTUR DISTRICT					
1	Agricultural Research Station, Lam	Lam, Guntur taluk ; 6 miles from Guntur Railway Station	1922	Research	State	81.8 cms.	Black cotton Soil	Improvement work on Millets, Chillies, Cotton, Pulses and Coriander
2	Turmeric Research Station, Pedapalem	Pedapalem, Tenali taluk ; 5 miles from Duggirala Railway Station	1955–56	Research	Partly by State and partly by Centre	82.3 cms.	Clayey	Improvement of Turmeric crop in the State Programme of work includes field trials on the varietal, cultural, and manurial problems of irrigated Turmeric crop
3	Government Cotton Farm, Narasaraopet	Narasaraopet, 1/2 mile from Narasaraopet Railway Station	1940	Research	State	76.2 cms.	Light shallow and black loam	Breeding of improved Cotton varieties from rainfed conditions of Cocanada Cotton tract comprising the coastal districts of Andhra Pradesh
4	Agricultural College Farm, Bapatla	Bapatla, 1 1/2 miles from Bapatla Railway Station	1915	Demonstration	State	86.4 cms.	Sandy black soil	This farm is intended for giving training in practical agriculture to the students of Agricultural College ; Bapatla
5	Cashew-nut Research Station, Bapatla	do	1955	Research	Partly financed by State Govt. & partly by Indian Council of Agricultural Research	86.4 cms.	Pure sandy soil	Research on items like blossom biological studies ; methods of vegetative propogation of cashew, study of clones *vs.* seedling, clones alone, hybridization work are the chief items ; collection and study of exotic types and also types from important cashew areas of the district. A study of the pests and diseases affecting cashew and preliminary study of manures are also under taken
6	Government Millet Farm, Ongole	Ongole; one mile from Ongole Railway Station	1949	Research and seed multiplication	State	86.4 cms.	Block cotton soil	Evolution of high yielding strains Jonna (Sorghum species) and Variga (paricum miliaccun liun) and Hybrid Sajja seed suitable to the region comprising Krishna, Guntur and Nellore districts

Source : Director, Industries and Commerce, Hyderabad

Note : 1. 'S' indicates the number of workers employed seasonally
2. The talukwise and villagewise distribution of Industries and Rural Crafts have been giv en in Village and Town Directory portion of this Hand Book.
3. The above data are based on the survey conducted by the Industries Department of the Government of Andhra Pradesh, in 1958.

TABLE 4.2—TOTAL NUMBER OF ARTISANS OF EACH CATEGORY WORKING IN THE DISTRICT TOGETHER WITH THEIR DAILY AVERAGE EARNINGS

Class of workers	No. of workers	Average daily earnings per worker In Rupees and Paise	
		Skilled	Unskilled
(1)	(2)	(3)	(4)
GUNTUR DISTRICT			
Agarbathi makers	75	2.00 to 4.00	1.00 to 2.00
Bamboo workers	346	2.00	...
Basket, Mat and rattan workers	5,270	2.00 to 3.00	...
Beedi makers	722	2.00 to 3.00	...
Bee keepers	153	Self (No wages)	
Blacksmiths	1,319	2.00 to 4.00	1.50 to 2.00
Bone crushing workers	26	1.25 to 3.00	...
Brick makers	1,216	2.00 to 4.00	1.00 to 2.50
Broomstick makers	15	2.00	...
Button making	3	2.00 to 3.00	...
Carpenters	2,110	3.00 to 5.00	1.50 to 2.00
Carpenters-cum-Blacksmiths	6,662	2.00 to 4.00	1.50 to 2.00
Cashewnut workers	235	1.50 to 2.50	...
Cement workers	68	2.50 to 3.00	1.50
Ceramic workers	12	2.00 to 5.00	1.00 to 2.00
Chalkpiece workers	8	2.00	...
Charkha spinners	1,929	1.50 to 2.50	...
Cobblers	4,350	2.00 to 3.00	1.00 to 2.00
Coffee powder workers	3	2.00 to 3.00	...
Cotton pressing workers	151	2.00	...
Cumbly weavers	215	1.50 to 2.00	...
Cycle workers	60	2.00 to 4.00	1.00 to 2.00
Dyers and Printers	379	2.00 to 3.00	...
Engineering workers	193	1.50 to 3.00	...
Fish net workers	409	Self (No wages)	
Ginning workers	652	2.00	...
Gunny weavers	553	1.50 to 2.50	...
Gold and Silversmiths	1,900	3.00 to 5.00	1.00 to 2.00
Gur and Khandsari workers	201	2.00 to 4.00	...
Hand pounding workers	236	2.00	1.00 to 2.00
GUNTUR DISTRICT—*Concld.*			
Khadi workers	102	1.50 to 2.50	...
Lime workers	13	2.00 to 4.00	...
Masons	437	2.00 to 3.00	...
Mat weavers	501	0.25 to 1.00	...
Match workers	57	2.00 to 3.00	1.00 to 2.00
Metal workers	343	3.00 to 5.00	1.50 to 2.00
Mill workers	1,277	1.50 to 2.50	...
Oil mongers	187	1.50 to 2.50	...
Plate leaf workers	192	1.00 to 2.00	...
Potters	7,150	1.00 to 3.00	...
Rope makers	2,188	1.50 to 2.50	...
Rubber stamp makers	6	2.00	...
Salt producers	150	1.50 to 2.50	...
Saw Millers	5	2.00 to 4.00	...
Sculptors	226	2.00 to 5.00	1.00 to 2.00
Slate makers	10	2.00 to 3.00	...
Soda manufacturers	145	2.00 to 3.00	...
Spinners	1,982	2.00 to 3.00	...
Soap makers	5	1.50 to 3.00	...
Stone workers	501	1.50 to 2.50	...
Tailors	8,704	3.00 to 4.00	1.00 to 2.00
Tanners	32	2.00 to 3.00	1.50 to 2.00
Tanners-cum-Cobblers	11,700	2.00 to 4.00	1.00 to 2.00
Tape weavers	140	1.50 to 2.00	...
Tinsmiths	108	3.00 to 5.00	...
Tobacco graders	1,500	3.00 to 5.00	2.00
Tooth powder manufacturers	4	2.00	...
Toy makers	11	3.00 to 4.00	...
Weavers	67,360	2.00 to 4.00	1.50 to 2.00
Woollen tuft makers	1	2.00 to 3.00	...

* Due to the introduction of one year P. U. C. and 3 year degree courses in place of two years Intermediate and two years degree courses from 1957–58 the strength under columns 7 to 10 under P. U. C. has gone down and that under columns 11 to 14 udner degree course has gone up from 1958–59 compared to the previous years of the decennium, in respect of Hindu College, Guntur, A. C. College, Guntur, Government College for Women, Guntur, V. S. R. College, Tenali, P. B. N. College, Nidubrole, V. R. S. & Y. R. N. College, Chirala and S. S. N. College, Narasaraopet. The figures shown upto 1956–57 in respect of the Colleges mentioned above under columns 7 to 10 represent the strength of students studying Intermediate course. The figures shown against 1957–58 under columns 7 to 10 represent that of P. U. C. and Second year Intermediate. The figures shown from 1958–59 onwards represent that of P. U. C. only

‡ The particulars for the years 1952–53 to 1956–1957 in respect of C. S. R. Sarma College, Ongole are not ascertainable

EXPLANATORY NOTE

A–SERIES

GENERAL POPULATION TABLES

General Population Tables prepared at the 1961 Census are the basic demographic tables and give information about the total population as recorded at the present census in the district/taluk/town, the territorial changes that have occured during the last decades from 1951-61, variation of population during the past six decades, distribution of villages or towns by population sizes and trends of urbanisation in the district. The data are presented under the following four tables.

A–I	Area, Houses and Population
A–II	Variation in population during sixty years (1901-61)
A–III	Villages classified by population
A–IV	Towns (and Town-Groups) Classified by population in 1961 with variation since 1941

All the above Tables pertaining to Guntur district are reproduced in this Hand Book.

TABLE A-I—AREA, HOUSES AND POPULATION

This Table, the basic population Table, gives for each taluk as well as for the district and for each town in the taluk, area in square miles as well as in square kilometres, persons per square mile, number of villages inhabited and uninhabited, number of towns, number of Occupied Residential Houses and population by persons, males and females. The figures have been given separately one below the other under Total, Rural and Urban. In this Table as in all other tables, the taluks have been arranged in the order of the Location Code Numbers adopted in the 1961 Census and not in an alphabetical order. The district of Guntur has been allotted District Location Code Number 6 and all the nine taluks in the district have been numbered continuously in a clock-wise order starting from the headquarters taluk where the district headquarters is situated, i.e., from Guntur taluk as indicated below:—

Name of Taluk	*Location Code No.*
Guntur ..	1
Tenali ..	2
Repalle ..	3
Bapatla ..	4
Ongole ..	5
Narasaraopet ..	6
Vinukonda ..	7
Palnad ..	8
Sattenapalle ..	9

One of the main changes in the presentation of this Table since the last Census is that the particulars relating to each of the towns in the taluk are also given underneath the concerned taluk besides giving the number of inhabited and uninhabited villages in each taluk.

The district area shown against (x) under column 3(a) in brackets is that supplied by the Surveyor General, India. The difference noticed between the area figures furnished by the Surveyor General, India and the figures given by the State Survey Department shown against (y) is on account of the different methods of computation of areas adopted by the two authorities. The area figures adopted generally for the district and the taluks are as furnished by the State Survey Department and the area figures of each of the towns are as furnished by the Local Authorities concerned and these are exhibited under column 3(a). The urban area of each taluk has been worked out by adding the areas of all the urban units in the taluk and the rural area of the taluk is obtained by deducting the urban area of the taluk from its total area.

The area in sq. kilometres under column 3(b) is obtained by converting the area in sq. miles corrected upto 2 places of decimal. The area figures for district Total/Rural/Urban, taluk Total/Rural and for each town have been first converted separately. In order to tally the totals of all the taluks with the district total, the converted Total/Rural/Urban area figures of the taluks have been suitably adjusted on *prorata* basis according to area ratios of the taluks. The area of each town both in sq. miles under column 3(a) and in sq. kilometres under column 3(b) have been given upto second decimal place while the Total/Rural/Urban areas of the taluks as well as of the district have been given only upto first decimal place.

The density of persons per sq. mile for the district and for each of the taluks and towns has been worked out according to the area figures exhibited under column 3(a).

"Village" referred to in this Table and in all other Tables in this book is the Revenue administrative unit with well defined boundaries. A village having one or more groups of habitations is treated as an inhabited village and a village with no habitations at all is treated as an uninhabited village. The number of inhabited and uninhabited villages in each taluk and in the district are shown under columns 5 and 6 of this Table. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit (town) or hamlets to a main Revenue village, are not taken into account. All the Revenue villages within the taluk are demarcated and numbered continuously from North-West to South-East. The number so assigned to each village is the 1961 Census Location Code Number, distinct from Revenue Survey Number and will be referred to hereafter as the Location Code Number.

"Town" is a place usually having not less than 5,000 inhabitants possessing distinct urban characteristics and also satisfying certain criteria prescribed. For recognition of any place as a town at the present Census it was laid down that should be either covered by a City Corporation, Municipality or Cantonment Board or that it should generally satisfy the following criteria:—

(i) It should have a minimum population of 5,000

(ii) The density of population should not be less than 1,000 per sq. mile; and

(iii) At least 3/4ths of the adult male population should be non-agricultural

The total number of towns in each taluk and in the district is exhibited under column 7 of this Table.

A Census "House" is defined (for the purpose of 1961 Census) as a structure or part of a structure inhabited or vacant, a dwelling, a shop, workshop, or a factory, place of business, a shop-cum-dwelling giving on the road or a common staircase or a common courtyard, leading to a main gate or enjoying a separate entrance. Only houses used wholly or partly for the purpose of residence by one or more households are considered as residential houses and the number of such houses in the town/taluk/district have been given in column 8. Houses utilised wholly for purposes other than residential have not been taken into account in this Table.

The total population figures by persons, males and females, for the district as well as for each taluk and town have been exhibited separately under columns 9, 10 and 11 in this Table.

Besides the main Table, there are also three appendices to this Table.

Appendix I: In this Appendix the growth of the district and the taluks to the present area since the last Census have been traced by giving the territorial changes that have taken place during the last decade together with the names and areas involved in the changes. The net area gained or lost by each unit is also given in this Appendix.

Appendix II: One of the criteria for a place to be declared as a town is that it should normally have a population of 5,000 and over. However, several places with a population of 5,000 and over did not qualify to be treated as towns. This Appendix gives the number of such places with their population. There are no towns with population under 5,000 persons at the 1961 Census in this district.

Appendix III: This Appendix shows the talukwise figures for the Houseless Population and the Institutional Population separately. Houseless Population consists of all those people who have no fixed place of residence and no regular home to live in. Institutional population represents groups of unrelated persons living and messing together as in the case of boarding houses, messes, *etc.*, under the management of a head of the household appointed either by rules governing the Institution or by common consent of its members. For the purpose of studying different characteristics, institutional population is also considered as Household Population.

TABLE A-II—VARIATION IN POPULATION DURING SIXTY YEARS (1901-1961)

This Table compares the population of the district as ascertained at the 1961 Census with the corresponding figures for the six previous Censuses. The figures revealed at the previous Censuses have been adjusted for subsequent territorial changes in order to afford a correct basis for comparison.

As this Table gives the growth of population from decade to decade, these data form the

main source for the estimation of population in the absence of reliable Vital Statistics. One of the main changes in the presentation of this Table since the last Census is that the percentage of variation is also given from decade to decade. The variation of males and females from decade to decade has been omitted at the present Census.

During the last decade some minor changes in the jurisdiction of this district have taken place. Potharlanka and Gajullanka villages of Divi taluk of Krishna district and Kotikalapudi village of Darsi taluk of Nellore district have been transferred to Repalle, Tenali and Ongole taluks respectively of this district. Krishnapuram, Peddauyyalawada and Chinnauyyalawada villages of Ongole taluk of this district have been transferred to Darsi taluk of Nellore district. A small forest area of 1.985 square miles of Palnad taluk of this district was transferred to Miryalguda taluk of Nalgonda district. Besides the above inter district changes three villages, viz., Dharanikota, Amaravathi and Narakullapadu villages were transferred from Sattenapalle taluk to Guntur taluk.

Appendix: The Appendix to this Table shows the 1951 population according to the territorial jurisdiction in 1951, changes in area and the population involved in the changes that have taken place during the last decade. The details of transfers of areas in each case together with the names and areas in square miles and the number and the date of Notification of each transfer to the extent available are also given in the foot note.

TABLE A-III—VILLAGES CLASSIFIED BY POPULATION

This Table shows the total number of inhabited villages in the district, arranged on population basis under the following groups:—

1 Less than 200 population
2 200 — 499
3 500 — 999
4 1,000 — 1,999
5 2,000 — 4,999
6 5,000 — 9,999
7 10,000 and above

The villages which are either uninhabited or wholly included in urban units are not taken into account in this Table. The following statement gives at a glance the break-up of all the inhabited villages of Guntur district classified by population in four broad groups, viz.,

Class	*No. of Inhabited villages*
Villages with population less than 499 ..	56
500 — 1,999 ..	367
2,000 — 4,999 ..	418
5,000 and above ..	91
Total inhabited villages ..	932

For the definition of "village" and "inhabited" village see fly leaf to Table A-I.

TABLE A-IV—TOWNS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This Table shows the growth of each town since 1941. The civic status, area both in square miles and square kilometres, population with sex break-up, decade variation in total population and percentage of decade variation have been given for every town in the district.

For the definition of 'Town' see fly leaf to Table A-I.

The Towns have been classified into six classes according to their population in the latest Census as detailed below:—

Class	*Limits of Population*
I ..	100,000 and above
II ..	50,000 — 99,999
III ..	20,000 — 49,999
IV ..	10,000 — 19,999
V ..	5,000 — 9,999
VI ..	Less than 5,000

Class I towns with a population 100,000 and above have been treated as cities. The total number of towns under each class in the district at the 1961 Census are given below.

Class	*No. of Towns*
I ..	1
II ..	1
III ..	8
IV ..	7
V ..	3
VI ..	Nil
Total Towns ..	20

Five towns, viz., Allurukottapatnam, Kolluru, Kollipara, Rentachintala and Duggirala towns of 1951 Census have been deleted from the list of towns in the present Census in this district. No new place has been treated as a town for the first time at 1961 Census in this district.

Since the prime purpose of the Table is to show the growth of towns as towns and not how certain places have grown into towns from villages, the population of a place which, at any particular Census year, was not treated as a town is not given in this Table. The population of towns at each of the last seven Census years, i.e., since 1901 is, however, given in Table A-IV in Part II-A General Population Tables of Andhra Pradesh (State Volume). The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

The civic status of the town, i.e., whether the town is a Municipality, a Panchayat, etc., is indicated after the name of the town in abbreviated letters M or P, etc.

One of the main changes in the presentation of this Table from the last Census is that the areas of towns and the percentage of decade variation of the total population of the towns have also been given.

The Appendix to this Table gives the names of towns recognised at the present Census together with the names of villages either fully or partly included in them.

TABLE A-I

AREA, HOUSES AND POPULATION

District/Taluk/Town	Total Rural Urban	Area in Sq. miles	Area in Sq. Km.	Population per Sq. mile	No. of Villages Inhabited	No. of Villages Uninhabited	No. of Towns	No. of Occupied Residential Houses	Population Persons	Population Males	Population Females

TABLE A-I—*Concld.*

AREA, HOUSES AND POPULATION

District/Taluk/Town	Total Rural Urban	Area in		Population per Sq. mile	No. of Villages		No. of Towns	No. of Occupied Residential Houses	Population		
		Sq. miles	Sq. Km.		Inhabited	Uninhabited			Persons	Males	Females
(1)	(2)	(3a)	(3b)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)
9 Sattenapalle Taluk	T	693.8	1,796.9	352	126	4	2	51,203	244,562	123,753	120,809
	R	680.2	1,761.7	322	126	4	...	46,209	218,892	110,882	108,010
	U	13.6	35.2	1,886	...	...	2	4,994	25,670	12,871	12,799
Sattenapalle (P)	U	8.45	21.89	2,070	...	...	1	3,519	17,495	8,865	8,630
Phirangipuram (P)	U	5.16	13.36	1,584	...	...	1	1,475	8,175	4,006	4,169

Note :—1. Towns treated as such for the first time in 1951 Census and which continue as towns in 1961 Census are printed with an asterisk (*) on the left side.

2. Under columns (3a) and (3b), (x) represents the area figures furnished by Surveyor General of India, and (y) represents the area figures furnished by the State Survey Department. The urban areas are based on the area of individual towns furnished by the local authorities. The rural area for a district/taluk is obtained by subtracting the urban area from the total district/taluk areas according to the State Survey Department.

3. The Sq. Km. and density figures of urban areas of taluk/district are worked out using the area figures corrected upto 2 places of decimal obtained by adding the areas of the towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the taluk/district totals tally.

4. The following abbreviations have been used for the status of a Town :—
M: Municipality, P: Panchayat

APPENDIX 1 TO TABLE A-1

Statement showing the 1951 Territorial Units constituting the present set-up of Guntur District and Taluks therein and details of net area gain or loss in the changed Territories during the decade 1951–1961

[Only those names/areas which have undergone changes since 1951 have been shown in this Appendix.]

District/Taluk	1951 Territorial Units	DETAILS OF GAIN IN TERRITORIES			DETAILS OF LOSS IN TERRITORIES			NET AREA (Gain '+' Loss '—')	
		Brief description	Area		Brief description	Area			
			Sq. miles	Sq. Km.		Sq. miles	Sq. Km.	Sq. miles	Sq. Km.

5 Ongole Taluk (e) .	820.2	2,124.3	388,450	820.0 (+0.2)	2,123.8 (+0.5)	333,995 (+1,080)	335,075	+1,080
6 Narasaraopet Taluk .	716.0	1,854.5	321,337	716.0	1,854.5	266,400	266,400	...
7 Vinukonda Taluk .	644.0	1,668.0	124,572	644.0	1,668.0	116,365	116,365	...
8 Palnad Taluk (f) .	1,039.0	2,691.0	227,744	1,041.0 (—2.0)	2,696.2 (—5.2)	192,776	192,776	...
9 Sattenapalle Taluk (g) .	693.8	1,796.9	244,562	718.0 (—24.2)	1,859.6 (—62.7)	246,029 (—8,881)	237,148	—8,881

(a) (i) Gajullanka village with an area 2.5 square miles and Potharlanka village with an area 8.3 square miles of Divi taluk of Krishna district were transferred to Tenali and Repalle taluks of Guntur district respectively *vide* G.O.Ms. No. 1407, Revenue, dated 14-7-1959 and G.O.Ms. No. 2010, Revenue, dated 29-9-1959.

(ii) Kotikalapudi village with an area 3.3 square miles of Darsi taluk of Nellore district transferred to Ongole taluk of this district *vide* G.O.Ms. No. 2388, Revenue, dated 31-10-1955.

(iii) 3 villages *viz.*, Krishnapuram, Peddauyyalawada and Chinnauyyalawada with an area 3.2 square miles of Ongole taluk were transferred to Darsi taluk of Nellore district *vide* G.O.Ms. No. 751, Revenue, dated 22-4-1959.

(iv) A small forest area of 1.985 square miles of Palnad taluk was transferred to Miryalguda taluk of Nalgonda district *vide* G.O.Ms. No. 606, Revenue, dated 2-4-1959.

(b) 3 villages *viz.*, Dharanikota, Amaravathi and Narakullapadu with an area 24.2 square miles of Sattenapalle taluk were transferred to Guntur taluk *vide* Government Memorandum No. 1035, Revenue, dated 6-5-1958.

(c) Gajullanka village with an area 2.5 square miles of Divi taluk of Krishna district was transferred to Tenali taluk *vide* G.O.Ms. No. 1407, Revenue, dated 14-7-1959.

(d) Potharlanka village with an area 8.3 square miles of Divi taluk of Krishna district was transferred to Repalle taluk *vide* G.O.Ms. No. 2010, Revenue, dated 29-9-1959.

(f) Changes are as enumerated symbol against (a) (iv).

(g) Changes are as enumerated against symbol (b).

Note :—

1. Area figures given in columns 2 and 5 are as furnished by the State Survey Department and they represent the jurisdictions prevailing in 1961 and 1951 respectively.
2. The figures given in brackets in columns 5 and 6 represent the difference in area between 1951 and 1961 and the figures in brackets in column 7 show the difference in population between the areas as per the jurisdiction in 1951 and the present jurisdiction.
3. The actual change in area as given against symbol in the footnotes in the district/taluks boundaries due to jurisdictional change does not agree with the net increase or decrease in the area figures given under columns 5 and 6 in brackets against the district/taluks. The difference is perhaps due to computational error in the area figures of villages.
4. The difference of area in 1951-61 given under columns 5 and 6 of this Appendix does not agree exactly with the area given in columns 9 and 10 of Appendix I to Table A-I on account of revised computation.

EXPLANATORY NOTE

B-SERIES

ECONOMIC TABLES

The Economic Tables for the 1961 Census are based on the principal work of a person and the concept of dependency has been abandoned altogether for economic classification. The entire population has been divided into the following nine categories of Workers, for broad economic classification based on the National Classification of Industries adopted by the Government and the Non-Workers being shown as a separate category.

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Working at Household Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services

X Non-Workers

The following seventeen Economic Tables, nine of which relate to the General Population and the remaining eight relating to a 20% sample of Households, have been prepared at the present Census.

(*i*) *General Economic Tables*

B-I Workers and Non-Workers classified by sex and broad Age-groups

B-II Workers and Non-Workers in Cities, Town-groups and Towns arranged territorially classified by sex and broad Age-groups

B-III *Part A*– Industrial Classification of Workers and Non-Workers by educational levels in *Urban areas only*

Part B– Industrial Classification of Workers and Non-Workers by educational levels in ***Rural areas only***

B-IV *Part A*– Industrial Classification by sex and class of Worker of persons at work at Household Industry

Part B– Industrial Classification by sex and class of Worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service

Part C– Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation

B-V Occupational Classification by sex of persons at work other than Cultivation

B-VI Occupational Divisions of persons at work other than Cultivation classified by sex, broad Age-groups and educational levels in ***Urban areas only***

B-VII *Part A*– Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural labourer

Part B– Industrial Classification by sex of persons working in Non-Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry

B-VIII *Part A*– Persons unemployed aged 15 and above by sex, broad Age-groups and educational levels in ***Urban areas only***

Part B– Persons unemployed aged 15 and above by sex, and educational levels in *Rural areas only*

B-IX Persons not at work classified by sex, broad Age-groups and type of activity

(*ii*) *Household Economic Tables*

B-X Sample Households (i) engaged neither in Cultivation nor in Household Industry, (ii) engaged either in Cultivation or in Household In-

dustry but not in both and (iii) engaged both in Cultivation and Household Industry

B-XI Sample Households engaged in Cultivation classified by interest in land and size of land cultivated

B-XII Sample Households engaged in Cultivation only classified by size of land cultivated, and number of family workers and hired workers

B-XIII Sample Households engaged both in Cultivation and Household Industry, showing size of land cultivated classified by principal Household Industry

B-XIV *Part A*— Households classified by Major Groups of principal Household Industry and number of persons engaged

Part B— Households classified by Minor Groups of principal Household Industry

B-XV Sample Households engaged both in Cultivation and Household Industry classified by size of land

B-XVI Sample principal Household Industry classified by period of working and total number of workers engaged in Household Industry.

B-XVII Sample Households classified by (i) number of male and female members by size of Households and (ii) engagement (a) neither in Cultivation nor in Household Industry, (b) in Household Industry only and (c) in Cultivation sub-classified by size of land cultivated.

Out of the above seventeen Tables only Table B-I, B-III, B-IV Part-C, B-V, B-VII, B-VIII and B-IX pertaining to the Guntur district are reproduced in this Hand Book.

The Household Economic Tables are a special feature of this Census and are prepared on the basis of a 20% sample of the returns in the Household Schedules filled up at the time of enumeration and are given in a separate volume entitled "Census of India, 1961, Vol. II, Andhra Pradesh — Part III Household Economic Tables" and may be referred to.

The working population in each of the nine categories of workers and the non-working population is divided by broad Age-groups, *viz.*, 0-14, 15-34, 35-59, 60+ and Age not stated in some of these Economic Tables.

TABLE B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This Table is prepared separately for Total, Rural and Urban population and is a summary Economic Table for the entire district. It gives the distribution of the population by sex among the nine Industrial Categories of Workers and also Non-Workers by the four broad Age-groups 0-14, 15-34, 35-59 and 60+ years. This is the basic Economic Table and the Age-groups correspond to the different stages of life which have special significance with reference to capacity to work, *viz.*, children, young persons, middle aged persons and elderly persons. The classification of non-working population is made in other succeeding Tables.

This Table is prepared on the basis of the principal work of a person irrespective of the fact that the person may not be self-supporting from the income derived by that work. In the case of persons who are engaged in more than one work, which are also productive activities, the principal work is taken as that one which has been declared by the person himself as the work on which he spends the longest time and not necessarily the work from which he derives the largest income. Thus the stress is on the concept of work and not income or dependency. The following explanation makes it clear as to who is treated as a Worker.

Workers

All persons who were engaged in some productive work during any of the 15 days preceding the day on which enumerated, irrespective of the fact, whether they derived any income or not, are treated as Workers. In respect of seasonal work like Cultivation, Livestock, Household Industry, etc., if the person had some regular work for more than one hour a day throughout the greater part of the working season, he is recorded as a Worker. Persons temporarily incapacitated from work at the time of Census enumeration due to illness or other cause are also treated as Workers. An undertrial prisoner in prison during the Census enumeration is also treated as worker if he did some productive work before he was apprehended. Convicts in a prison or long term inmates of hospitals or mental institutions, are not however treated as Workers. Persons under training

as apprentices with or without wages are recorded as Workers. Family workers, *i.e.*, who do not directly derive any income but attend to work along with other members of the family are treated as Workers. An adult woman who is engaged mainly in Household duties and in no other economically productive work, *i.e.*, a housewife, is not, however, treated as a Worker. Work includes not only actual work but also effective supervision. A public or social service Worker who is actually engaged in public service activity or political activity is taken as a Worker. Thus all workers in any branch of productive work are netted as Workers.

Non-Workers

All persons who are not Workers, *i.e.*, those falling under the following categories are treated as Non-Workers:

(i) Fulltime students or children attending schools and who do no other work;

(ii) Persons engaged in unpaid home duties such as housewife;

(iii) Any dependant including an infant or child not attending school or a person permanently disabled from work because of illness or old age;

(iv) A retired person who is not employed again, a rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;

(v) Beggars, vagrants or independent women without indication of source of income and others with unspecified source of existence;

(vi) A convict in jail or an inmate of a penal, mental or charitable institution;

(vii) Unemployed persons seeking employment for the first time;

(viii) Persons employed before but now out of employment.

TABLE B-III—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This Table is divided into two parts. Part A relates to Urban areas and Part B relates to Rural areas. The distribution according to different educational levels of each of the nine categories of Workers and also the Non-Workers is given in this Table.

In ***Part-A*** which relates to Urban areas only, the data are given for all the Urban areas of the district put together and also for Guntur city separately by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation or Higher Secondary

Technical diploma not equal to degree

Non-technical diploma not equal to degree

University degree or Post-graduate degree other than technical degree

Technical degree or diploma equal to degree or Post-graduate degree

Engineering

Medicine

Agriculture

Veterinary and Dairying

Technology

Teaching

Others

In ***Part-B*** the data which relate to Rural areas only are given for the district, followed by taluks by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation and above

A "Literate" is a person who can, with understanding both read and write. He should be able to read any matter in print or manuscript and also be able to write a simple letter. A person who can neither read nor write or can merely read and cannot write is considered as illiterate. All children aged 4 years and below are treated as illiterates. The test for education is that the person should have passed a recognised written examination or examinations as proof of the educational level attained. The highest examination passed is taken as the level of education.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX, AND CLASS OF WORKER OR PERSONS AT WORK OTHER THAN CULTIVATION

This Table is divided into three parts.

Part-A shows Industrial Classification by sex and class of worker of persons at work at

Household Industry for Total, Rural and Urban population. The data are shown first for the division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification under that division.

Part-B shows the Industrial Classification by sex and class of worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service for the Total and Urban population. In this part also the data are presented first for the Division followed by the Major Groups in the order laid down in the Indian Standard Industrial Classification.

Part-C shows the Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than cultivation for Total and Urban population of the district. The data are presented first for the Divisions followed by Major Groups in the order laid down in the Indian Standard Industrial Classification. Under each Major Group the corresponding Minor Groups are shown.

Only *Part-C* is reproduced in this Book upto district level. Minor Groups having less than 1% of workers of the respective Division (0.5% in the case of 2 & 3 Division) are not shown in this Table but are given in the Appendix to this Table.

"*Household Industry*" is an industry conducted by the head of the household himself and/or mainly by members of the household at home or within the village in the Rural areas and only at home in Urban areas. The industry should not be run on the scale of a registered factory and should relate to production, processing, servicing, repairing or making and selling of goods.

An "*Employer*" is a person who has to employ other persons in order to perform the work. Such a person is not only responsible for his own personal work but also for giving work to others. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An "*Employee*" is a person who usually works under some other person for salary or wages in cash or kind. Persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers are not regarded as employers.

A "*Single Worker*" is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. Single workers also include persons who work in joint partnership with one or several persons hiring no employees and also a member of a Producers' Co-operative. Each one of the partners or members of such Producers' Co-operatives is recorded as a "Single Worker".

A "*Family Worker*" is a member who works, without receiving wages in cash or kind, in an Industry, Business or Trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. Such an Industry, whether run at home or away from home in town or village and even away from village in the Rural areas should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. Members of a family include those drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative. Members of the household who help solely in household duties are not treated as family workers.

Note :—In respect of Household Industry, by the very nature of the participation of the workers in a Household Industry all the four categories of workers are not recognised. Only the "employees" if any, in a Household Industry are categorised as such. The rest are clubbed together as "others"

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table shows, for the Total and Urban population, the Occupational Classification of persons working in Non-Agricultural Occupations. The data are presented first for the Division followed by the Occupational Groups in the order of the National Classification of Occupations. Under each Group the detailed Occupational Families are shown. Occupational Families, accounting for less than 1% of the Workers of the respective Division (less than 0.5% in case of Families under Division 7-8) are not given in this Table but shown in the Appendix to this Table. The particulars for the district are given down to the Occupational Family, while the taluk-wise and city particulars are given upto Division level only.

The Occupational Classification given in this Table is quite distinct from the Industrial Classification presented in Table B-IV Part-C. Occupational Classification relates to the actual work a person does irrespective of the Industry in which he is engaged, e.g., a person who is a clerical worker for Occupational Classification may be connected with Industry, Trade or Service. Conversely in the same Industrial Category there may be persons following different Occupations as, technicians, managerial workers, clerical workers, watch and ward, etc. Therefore, in this Table under each Occupational Division, Group and Family the broad Industrial Category of the worker is also given.

TABLE B-VII-*PART - A* PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

PART-B INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

This Table is divided into two parts:

Part-A shows the persons working principally as Cultivator or as Agricultural labourer or at Household Industry and who have secondary work in the other two alternatives from among Household Industry or Cultivation or Agricultural Labour. The data for the district are given for Total, Rural and Urban population and separately for Guntur city by Industrial Divisions and Major Groups. For the taluks, however, the particulars are given for Rural population and by Divisions only.

Part-B shows the persons working principally in Non-Household Industry, Trade, Business, Profession or Service and also engaged at Household Industry as secondary work by Industrial Divisions and Major Groups. The data for the district are presented for the Total, Rural and Urban population by Divisions followed by the Major Groups of that Division. The taluk-wise data for Rural population and city data for Urban population are also presented by Industrial Divisions only.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS

This Table shows the distribution of persons unemployed aged 15 and above by sex and educational levels for Urban and Rural areas separately in two parts.

In *Part-A* which gives data relating to all the Urban areas of the district taken together and separately for Guntur city, the unemployed have been sub-divided into two classes, viz., (i) Persons seeking employment for the first time and (ii) Persons employed before but now out of employment and seeking employment and the data have been given by broad Age-groups and by educational levels. The first class of unemployed are divided into the Age-groups 15-19, 20-24, 25-29, 30-34, 35+ and Age not stated and the second class into the Age-groups 15-19, 20-24, 25-34, 35-44, 45-59, 60+ and Age not stated.

Part-B relates to Rural areas. The data in this part are given taluk-wise by educational levels. The data in this Table are not, however, given by Age-groups.

TABLE B-IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This Table shows for the Total, Rural and Urban population, the persons not at work classified by sex, broad Age-groups and type of activity. The Non-Workers are divided into eight categories according to their activities, viz., (i) Fulltime students; (ii) those attending only to Household duties; (iii) Dependants, infants and disabled; (iv) Retired persons, Rentiers or persons of independent means; (v) Beggars, vagrants, etc.; (vi) Inmates of penal, mental and charitable institutions; (vii) Persons seeking employment for the first time; and (viii) Persons employed before but now out of employment and seeking work according to their activities. These eight categories are based on the recommendations of the United Nations. This Table provides information about those who have an income without working, about housewives, about school going children, besides other types of non-working population. The data for the district are presented for Total, Rural and Urban populations. The taluk-wise data are, however, presented for the Rural population only. Particulars relating to Guntur city are presented separately.

TABLE

INDUSTRIAL CLASSIFICATION BY SEX AND OF PERSONS AT WORK

[Note: Minor Groups having less than 1% of Workers of the respective Division (Less than 0.5% in case of Minor Groups of Division 2 & 3)

Branch of Industry Division, Major Group and Minor Group of Indian Standard Industrial Classification (1)	Total		
	Persons (2)	Males (3)	Females (4)
			GUNTUR
ALL DIVISIONS	547,646	370,241	177,405
**DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING*	82,500	53,060	29,440
Major Group 00—Field Produce and Plantation crops	5,845	4,001	1,844
Minor Group 005—Production of other crops (including vegetables) not covered above	2,537	1,331	1,206
Minor Group 006—Production of fruits and nuts in plantation, vines and orchards	1,838	1,696	142
Minor Group 009—Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers)not covered above	1,388	892	496
Major Group 01—Plantation Crops	25,937	11,928	14,009
Minor Group 013—Production of tobacco in plantation	25,276	11,269	14,007
Major Group 02—Forestry and Logging	944	619	325
Major Group 03—Fishing	6,782	5,579	1,203
Minor Group 031—Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	6,715	5,512	1,203
Major Group 04—Livestock and Hunting	42,992	30,933	12,059
Minor Group 040—Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	31,800	21,960	9,840
Minor Group 041—Rearing of sheep and production of wool	7,612	6,875	737
Minor Group 042—Rearing and production of other animals (mainly for slaughter) such as pig	3,106	1,909	1,197
**DIVISION 1—MINING AND QUARRYING*	8,993	5,597	3,396
Major Group 10—Mining and Quarrying	8,993	5,597	3,396
Minor Group 107—Quarrying of stone (including slate), clay, sand, gravel, limestone	8,986	5,590	3,396
**DIVISION 2 & 3—MANUFACTURING*	185,976	107,692	78,284
Major Group 20—Foodstuffs	20,043	7,079	12,964
Minor Group 200—Production of rice, atta, flour etc., by milling dehusking and processing of crops and foodgrains	4,922	3,762	1,160
Minor Group 206—Production of butter, ghee, cheese and other dairy products	11,732	812	10,920
Minor Group 209—Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	2,013	1,307	706
Major Group 21—Beverages	1,421	1,332	98
Minor Group 214—Production of aerated and mineral water	1,330	1,243	87
Major Group 22—Tobacco Products	25,691	6,631	19,060
Minor Group 220—Manufacture of bidi	1,052	896	156
Minor Group 226—Manufacture of other tobacco products	23,671	5,176	18,495
Major Group 23—Textile – Cotton	59,184	25,528	33,656
Minor Group 231—Cotton spinning (other than in mills)	16,647	703	15,944
Minor Group 235—Cotton weaving in handlooms	39,761	23,226	16,535
Major Group 24—Textile – Jute	4,366	3,237	1,129

TABLE

INDUSTRIAL CLASSIFICATION BY SEX AND OF PERSONS AT WORK

[Note: Minor Groups having less than 1% of Workers of the respective Division (Less than 0.5% in case of Minor Groups of Division 2 & 3)

Branch of Industry Division, Major Group and Minor Group of Indian Standard Industrial Classification (1)	Total		
	Persons (2)	Males (3)	Females (4)
			GUNTUR
Minor Group 241—Jute spinning and weaving	1,880	1,416	464
Minor Group 244—Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	2,243	1,580	663
Major Group 25—Textile – Wool	73	61	12
Major Group 26—Textile – Silk	22	10	12
Major Group 27—Textile – Miscellaneous	11,807	11,089	718
Minor Group 273—Making of textile garments including raincoats and headgear	11,323	10,753	570
Major Group 28—Manufacture of Wood and Wooden Products	24,031	17,441	6,590
Minor Group 281—Manufacture of wooden furniture and fixtures	1,259	1,256	3
Minor Group 282—Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	1,595	1,595	...
Minor Group 283—Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	3,008	3,008	...
Minor Group 288—Manufacture of materials from cork, bamboo, cane, leaves and other allied products	13,435	6,941	6,494
Minor Group 289—Manufacture of other wood and allied products not covered above	4,279	4,241	38
Major Group 29—Paper and Paper Products	39	30	9
Major Group 30—Printing and Publishing	904	898	6
Major Group 31—Leather and Leather Products	12,080	11,829	251
Minor Group 311—Manufacture of shoes and other leather footwear	11,849	11,613	236
Major Group 32—Rubber, Petroleum and Coal Products	151	151	...
Major Group 33—Chemicals and Chemical Products	1,525	824	701
Major Group 34—35—Non-metallic Mineral Products other than Petroleum and Coal	11,243	9,168	2,075
Minor Group 340—Manufacture of structural clay products such as bricks tiles	1,971	1,471	500
Minor Group 341—Manufacture of cement and cement products	1,859	1,695	164
Minor Group 350—Manufacture of earthenware and earthen pottery	6,276	4,980	1,296
Major Group 36—Basic Metals and their Products except Machinery and Transport Equipment	3,475	3,393	82
Minor Group 369—Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36,37, 38 and 39)	1,678	1,616	62
Major Group 37—Machinery (All kinds other than Transport) and Electrical equipment	130	130	...
Major Group 38—Transport Equipment	2,436	2,427	9
Minor Group 384—Repairing and servicing of motor vehicles	1,086	1,081	5
Minor Group 388—Repairing of bicycles and tricycles	1,194	1,191	3
Major Group 39—Miscellaneous Manufacturing Industries	7,355	6,434	921
Minor Group 393—Manufacture of jewellery, silverware and wares using gold and other precious metals	4,859	4,763	96
Minor Group 399—Manufacture and repair work of goods not assignable to any other group	2,078	1,332	746

043	Production of ducks, hens and other small birds eggs by rearing and poultry farming	51	172	6	12	27	30	8	1
044	Rearing of bees for the production of honey, wax and collection of honey	18	...	1	...	2	...	2	...
046	Rearing of other small animals and insects	...	...	...	...	10	...	1	...
047	Trapping of animals or games propagation.	...	...	...	...	20	4	15	3
048	Production of other animal husbandry products such as skin, bone ivory, and teeth	23	12	16	12	38	67	38	67
100	Mining of coal	...	...	...	...	2	...	1	...
104	Mining of mica	...	...	...	...	1	...	1	...
105	Mining of other non-ferrous metallic ores	...	...	...	...	1	...	1	...
109	Mining and Quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	...	...	...	...	3	...	3	...
201	Production of sugar and syrup from sugarcane in mills	...	...	...	...	90	2	9	...
202	Production of indigeneous sugar, gur from sugarcane or palm juice and production of candy	18	3	5	...	41	14	6	...
203	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	3	...	3	...	2	...	...	...
204	Slaughtering, preservation of meat and fish and canning of fish	3	...	3	...	79	9	56	9
205	Production of bread, biscuits, cake and other bakery products	77	8	69	7	69	2	47	2
207	Production of edible fats and oils (other than hydrogenated oil)	131	30	109	25	627	108	458	102
208	Production of hydrogenated oils (Vanaspati)	...	...	...	...	58	2	44	2
211	Production of country liquor	...	1	...	1	...	...	...	...
212	Production of indigeneous liquor such as toddy, liquor from mahua, palm juice	3	...	3	...	5	...	2	...
213	Production of other liquors not covered above	2	...	...	...	...	...	...	...
215	Production of ice	2	...	1	...	15	...	15	...
216	Production of ice cream	2	...	2	...	...	...	...	...
217	Processing of tea in factories	...	...	...	...	2	...	2	...
218	Processing of coffee in curing works	4	...	4	...	54	1	54	1
221	Manufacture of cigars and cheroots	19	4	19	4	145	9	65	9
222	Manufacture of cigarette and cigarette tobacco	3	1	3	1	287	395	249	394
223	Manufacture of hookah tobacco	1	...	1	...	4	...	4	...
224	Manufacture of snuff	1	...	...	...	95	...	10	...
225	Manufacture of jerda and other chewing tobacco	1	...	1	...	3	...	3	...
230	Cotton ginning, cleaning, pressing and baling	50	251	18	221	19	10	18	10
232	Cotton spinning and weaving in mills	...	...	...	...	711	10	70	10
233	Cotton dyeing, bleaching	481	232	167	21	91	3	85	1
234	Cotton weaving in power looms	4	2	4	...	17	...	16	...
236	Manufacturing of khadi textile in handlooms	2	22	...	20	19	...	10	...
237	Printing of cotton textile	48	5	41	3	17	1	17	1
238	Manufacturing of cotton nets	5	6	5	...	3	...	2	...
239	Manufacturing of cotton, cordage, rope and twine	121	628	5	1	11	7	11	5
240	Jute pressing and baling	1	1	1	...	114	...	2	...
242	Dyeing and bleaching of jute	...	...	...	...	126	...	...	...
243	Printing of jute textile	...	...	...	...	...	1	...	...
250	Wool baling and pressing	...	...	...	...	1	...	1	...
253	Wool spinning other than in mills	53	12	...	...	1	...	...	...
255	Wool weaving in handloom	5	...	...	...	1	...	1	...

APPENDIX TO TABLE B-IV Part C—*Contd.*

Statement showing particulars of Workers under Minor Groups accounting for less than 1% of the Workers in the concerned Divisions (less than 0.5% in the case of the Minor Groups under Division 2 & 3) who have not been included in the main Table)

Minor Group of Indian Standard Industrial Classification		Workers at Household Industry				Workers in Non-Household Industry etc.			
		Total		Urban		Total		Urban	
		Males	Females	Males	Females	Males	Females	Males	Females
(1)		(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

260	Spinning and weaving of silk textile in mill	...	...	...	...	...	1	...	1
262	Spinning of silk other than in mills	...	...	...	...	1	...	1	...
263	Wearing of silk textile by power loom	...	10	...	10	...	...	...	...
264	Wearing of silk textile by handloom	...	...	...	...	2	1	2	1
266	Manufacture of silk cordage, rope and twine	...	...	...	...	7	...	7	.
270	Manufacture of carpet and all other similar type of textile products	4	54	...	...	4	...	3	...
271	Manufacture of hosiery and other knitted fabrics and garments	1	1	1	...	...	1	...	...
272	Embroidery and making of crepe lace and fringes	...	30	...	8	2	3	1	2
274	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding material, mattress, textile bags	84	38	21	13	149	9	123	2
275	Manufacture of water proof textile products such as oil cloth, tarpaulin	1	...	...	...	45	...	45	...
276	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	...	...	...	...	4	...	4	...
277	Manufacture of coir and coir products	...	12	...	...	2	...	2	...
278	Manufacture of umbrellas	3	...	3	...	28	...	24	...
279	Processing and manufacture of textile products not covered above	...	...	...	...	9	...	9	...
280	Sawing and planing of wood	8	13	2	...	360	26	206	3
284	Manufacture of other wooden products such as utensils, toys artwares	9	16	3	8	4	...	3	...
286	Manufacture of plywood products such as tea chest	2	...	...	...	1	...	1	...
287	Manufacture of boxes and packing cases other than plywood	5	...	5	...	11	...	10	...
290	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	...	...	...	...	3	...	2	...
291	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board hand made	...	1	...	...	4	...	...	...
292	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	9	8	7	8	14	...	12	...
300	Printing and publishing of news-papers and periodicals	...	...	...	...	48	...	46	...
301	Printing and publishing of books	...	...	...	...	406	1	383	1
302	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	13	...	13	...	228	1	204	1
303	All types of binding, stitching, sizing and other allied work connected with binding industry	...	2	...	2	203	2	190	2
310	Currying, tanning and finishing of hides and skins and preparation of finished leather	79	13	18	12	25	...	22	...
313	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather, upholstery, suit cases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	1	...	1	...	10	...	10	...
314	Repair of shoes and other leather foot wear	19	2	3	1	81	...	74	...
315	Repair of all other leather products except foot wear	...	...	...	...	1	...	1	...
320	Manufacture of tyres and tubes	6	...	6	...	133	...	123	...
322	Manufacture of rubber goods used for industrial purpose	...	...	...	...	3	...	2	...
323	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber rain coat	1	...	1	...	4	...	4	...
324	Productions of petroleum, kerosene and other petroleum products in petroleum refineries	...	...	...	...	3	...	3	...
326	Manufacture of other coal and coaltar products not covered elsewhere	...	...	...	...	1	...	1	...
330	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	1	...	...	...	3	...	3	...
331	Manufacture of dyes, paints, colours and varnishes	3	...	3	...	15	...	11	...
332	Manufacture of fertilizers	25	73	5	4	334	128	243	41
333	Manufacture of ammunition explosives and fire works	.	...	...	...	10	...	9	...
334	Manufacture of matches	1	...	1	...	7	3	4	3
335	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	153	41	62	18	55	43	47	42
336	Manufacture of soap and other washing and cleaning compounds	7	11	7	11	21	...	17	...
337	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	...	...	...	...	1	...	1	...
338	Manufacture of common salt	78	370	...	...	82	15	...	...

EXPLANATORY NOTE

C-SERIES

SOCIAL AND CULTURAL TABLES

Social and Cultural Tables prepared at the 1961 Census give information relating to composition of sample Households, Age, Sex, Marital Status, Education, Mother-Tongue, Bilingualism and Religion of general population and also about Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers. The data are presented in eight Tables as indicated below:

C-I	Composition of Sample Households by relationship to head of family classified by size of land cultivated
C-II	Age and Marital Status
C-III	Age, Sex and Education
	Part A—All areas
	Part B—Urban areas
	Part C—Rural areas
C-IV	Single Year Age Returns
C-V	Mother-Tongue (in alphabetical order)
C-VI	Bilingualism
C-VII	Religion
C-VIII	Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers
	Part A—Classification by literacy and Industrial Category of Workers and Non-Workers among Scheduled Castes
	Part B—Classification by literacy and Industrial Category of Workers and Non-Workers among Scheduled Tribes

All the above Tables pertaining to Guntur district except Tables C-IV Single Year Age Returns and C-VI Bilingualism are reproduced in this book.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

This Table, prepared on a 20% sample basis from the Household Schedules filled in at the time of enumeration, gives the composition of Households, separately for Total, Rural and Urban areas in the district. The Households in the Rural areas are further classified into 3 Economic Categories, viz., (i) Households engaged neither in cultivation nor in Household Industry, (ii) Households engaged in Household Industry only and (iii) Households engaged in Cultivation. In respect of the third category of Households the data are furnished separately for each of the eleven classes of Households according to the size of land cultivated, viz., (i) Less than one acre, (ii) 1.0-2.4 acres, (iii) 2.5-4.9 acres, (iv) 5.0-7.4 acres, (v) 7.5-9.9 acres, (vi) 10.0-12.4 acres, (vii) 12.5-14.9 acres, (viii) 15.0-29.9 acres, (ix) 30.0-49.9 acres, (x) 50.0+ acres and (xi) Size of holding unspecified. The composition of the Households is given in terms of the heads of Households, spouses of heads of Households, married sons and other married relations, other relations and unrelated persons. This Table will thus indicate the strength of the joint family system and will, therefore, be of sociological interest.

TABLE C-II—AGE AND MARITAL STATUS

This Table prepared on full count gives the distribution of population both by Age-groups and Marital Status separately for Total, Rural and Urban population in the district, and for the Rural population in each of the taluks and for Guntur city. This is a very important demographic Table. A comparison of the data in this Table with corresponding data pertaining to the last Census will give an indication of mortality in different Marital Status and also in different Age-groups. The Age-groups, viz., 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70+ and Age not stated adopted in this Table conform to international requirements. Age-group 0-9 is automatically treated as 'Never Married' for the purpose of this Table. The proportion of increase or decrease in the various Marital Status since the last Census and the trends in the age at marriage can be studied from this Table. From the data on married females by Age-groups given under column 9 of this Table, the future birth rates can also be forecast.

TABLE C-III—AGE, SEX AND EDUCATION

This Table gives the distribution of Total population by broad Educational levels, Sex and

by broad Age-groups. The Table is divided into three parts.

Part A relates to all areas while Part B and Part C relate only to Urban and Rural areas respectively. The educational levels given for all areas and Rural areas in Part A and Part C are the same while in respect of Urban areas in Part B more detailed educational levels have been adopted. These educational levels are the same as those adopted in Table B-III for the Industrial Classification of Workers and Non-Workers by educational levels. This Table is useful in ascertaining the growth of literacy in the total population as well as in the different Age-groups since the last Census.

TABLE C-V—MOTHER-TONGUE

This Table exhibits separately for the Total, Rural and Urban population of the district and only for the Rural population of each taluk and for Guntur city the number of persons, males and females speaking a particular language as Mother-Tongue. The languages returned at this Census are given in this Table in an alphabetical order.

'Mother-Tongue' is the language spoken in childhood by the person's mother to the person or mainly spoken in the Household. If the mother died in infancy then the language mostly spoken in the Household is the Mother-Tongue. In the case of infants and deaf mutes the Mother-Tongue is the language usually spoken by the mother.

This Table is very important in view of the large number of languages and dialects spoken in the country and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the Constitution.

TABLE C-VII—RELIGION

This Table gives separately the distribution of Total, Rural and Urban population of the district and Rural population only of taluks and of the population of Guntur city according to Religion. In Censuses earlier to 1941 the practice was to show the distribution of population Religion-wise down to the village level. Since the 1951 Census this practice has been discontinued.

TABLE C-VIII—SCHEDULED CASTES AND SCHEDULED TRIBES

Part A Classification by Literacy and Industrial Category of Workers and Non-Workers among Scheduled Castes

Part B Classification by Literacy and Industrial Category of Workers and Non-Workers among Scheduled Tribes

This is a general Table prepared for Scheduled Castes and Scheduled Tribes only and gives separately, the total population of Scheduled Castes and Scheduled Tribes and their distribution by literacy and by classification of workers, into different Industrial Categories and the total number of Non-Workers. This Table is divided into two parts. Part A relates to Scheduled Castes and Part B relates to Scheduled Tribes. This is the first time that the number of literates amongst the Scheduled Castes and Scheduled Tribes are given separately. In addition to this Table some more Special Tables for Scheduled Castes and Scheduled Tribes pertaining to Guntur district have also been prepared and incorporated in this book under the series "SCT Tables."

EXPLANATORY NOTE

D-SERIES

MIGRATION TABLES

The Tables in this series show the migration trends analysed on the basis of the results of the 1961 Census. The data are presented in the following seven Tables, which are reproduced upto district level and for all Cities and Town-Groups in the publication "Census of India, 1961-Volume II-Andhra Pradesh-Part II-C Cultural and Migration Tables" and these may be referred to for details.

D-I	Non-Indian Nationals
D-II	Place of Birth
D-III	Migrants classified by place of birth and duration of residence in place of enumeration
D-IIIA	Migrants from other States and outside India (less than 5 years duration) classified by Age-groups
D-IV	Migrants to Cities classified by Sex, broad Age-groups, educational levels and in case of Workers also by Occupational Divisions and Groups
D-V	Cities showing population born locally, migrants from Rural areas and migrants from other Towns and Cities
D-VI	Distribution of Industrial categories of Workers and Non-Workers by place of birth

In this Hand Book only Tables D-I and D-II showing the Non-Indian Nationals and other migrants in Guntur district are reproduced.

TABLE D-I—NON-INDIAN NATIONALS

This Table shows the number of Non-Indian Nationals sex-wise in the district. The Non-Indian Nationals for the purpose of presentation of the data have been broadly classified into five groups, viz.,

(i) Nationals of Countries in Asia beyond India (including U.S.S.R.)

(ii) Nationals of Countries in Europe (excluding U.S.S.R.)

(iii) Nationals of Countries in Africa

(iv) Nationals of Countries in two Americas

(v) Nationals of Countries in Oceania

The name of the country of which the person is a National is given separately under each group. The persons who have not recorded any Nationality have been shown separately. Nationals of Goa, Diu, Daman and Pondicherry have been treated as 'born in India'.

TABLE D-II—PLACE OF BIRTH

This Table prepared as in all previous Censuses gives the distribution of population by birth place. The data are presented both by the place of enumeration and by the place of birth classified separately into Rural and Urban areas. An important change in the presentation of the data at the present Census is that the place of birth has been classified separately as Rural and Urban. This two fold presentation of the data enables one to study the migration trends not only within the district and from outside the district but also from Rural to Urban areas and vice-versa.

EXPLANATORY NOTE

E-SERIES

HOUSING TABLES

The Tables in this series give information on Housing. At the present Census when House numbering was done a few months before the general Census enumeration, the various particulars relating to each Census House were collected on a standardised All India Schedule called 'House List' which is reproduced below:

CENSUS OF INDIA 1961

HOUSE LIST

Name of District.....(Code No.....)

Name of Island/Taluk/Tehsil/Thana/Anchal/Town.....(Code No.....)

Name of Village/Ward/Mohalla/ Enumerator's Block.....(Code No.....)

Line No.	Building number (Municipal or local authority or Census number, if any)	Building number (Col. 2) with sub number for each Census House	Purpose for which Census House used, *e.g.*, dwelling shop, shop-cum-dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel, etc.	If the Census House is used as an establishment, workshop or factory			
				Name of establishment or proprietor	Name of product (s), repair or servicing undertaken	Average No. of persons employed daily last week (including proprietor, or Households members, if working)	Kind of fuel or power if machinery is used
1	2	3	4	5	6	7	8

Description of Census House		Sub-number of each Census Household with Census House number (Column 3)	Name of head of Household	No. of rooms in Census Household	Does the Household live in own or rented house, (a) Own (O), (b) Rented (R)	No. of persons residing in Census Household on day of visit			Remarks
Material of wall	Material of roof					Males	Females	Total	
9	10	11	12	13	14	15	16	17	18

The data have been collected uniformly for the first time at the present Census in the above form and are presented in the following five Tables.

E-I Census Houses and the uses to which they are put

E-II Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwellings

E-III Census Houses used as factories and workshops classified by Industry, *Power* and *no power* used and size of employment

E-IV Distribution of Sample Households living in Census Houses used wholly and partly as dwellings by predominant material of wall and predominant material of roof

E-V Sample Households classified by number of members and by number of rooms occupied

All the above Tables give information upto taluk level, except Table E-III which contains figures upto the district level only, and also in respect of towns having a population of 50,000 and more and are reproduced in the publication "Census of India, Vol. II, Andhra Pradesh, Part IV-B—Housing and Establishment Tables" and it may be referred to for full details. In this Hand Book only "Table E-I—Census Houses and the uses to which they are put" pertaining to the Guntur district is reproduced.

TABLE E-I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

This Table shows the number of Census Houses and the different uses to which they are put. The data are given down to taluk level and also for towns having a population of 50,000 and more; the data are presented separately for Total, Rural and Urban areas.

A "Census House" is defined in the present Census as a structure, or a part of a structure inhabited or vacant, or a dwelling, or a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance. If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common staircase, or a common courtyard, leading to a main gate, they are considered as separate Census Houses. If within an enclosed or open compound there are separate buildings then each such building is treated as a separate Census House. If all the structures within an enclosed compound are together treated as one building then each structure with separate entrance is treated as a separate Census House.

TABLE E-I

CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

District/Taluk/ Town with Population of 50,000 or more	Total Rural Urban	Total No. of Census Houses	Census Houses vacant at the time of House-listing	Occupied Census Houses used as: Dwellings	Shop-cum-dwellings	Workshop-cum-dwellings	Hostels, sarais, dharmshalas, tourist homes and inspection houses	Shops excluding eating houses	Business houses and offices	Factories, workshops and worksheds	Schools and other Educational Institutions including training classes, coaching and shop classes	Restaurants, sweetmeat shops and eating places	Places of entertainment and Community gathering (Panchayat Ghar)	Public Health and Medical institutions, Hospitals, Health Centres, Doctors, Clinics, Dispensaries etc.	Others

EXPLANATORY NOTE

SCT-SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This series of special Tables for Scheduled Castes and Scheduled Tribes gives the population of each Scheduled Caste and Scheduled Tribe classified by Religion, Age, Marital Status, Education and distributed by Industrial Categories adopted in Table B-I. After the 1931 Census, the population figures of individual Scheduled Castes and Scheduled Tribes are being given only at the present Census. The data are presented in the following five Tables:

SCT-I Industrial classification of persons at work and Non-Workers by sex for Scheduled Castes and Scheduled Tribes

SCT-II Age and Marital status for Scheduled Castes and Scheduled Tribes

SCT-III Education in Urban and Rural areas, for Scheduled Castes and Scheduled Tribes

SCT-IV Religion for Scheduled Castes and Scheduled Tribes

SCT-V Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in ***Rural areas only*** for Scheduled Castes and Scheduled Tribes

All the above Tables except Table SCT-IV are reproduced upto district level in this book.

Besides the above five Tables, the following three Special Tables, relating to either Scheduled Castes or Scheduled Tribes exclusively are reproduced.

SC-I Persons not at work classified by sex, type of activity and educational levels for ***Scheduled Castes only***

ST-I Mother-Tongue and Bilingualism for ***Scheduled Tribes***

ST-II Persons not at work classified by sex and type of activity for ***Scheduled Tribes***

These three Special Tables are also reproduced upto district level. The figures in respect of Scheduled Castes are not given for the taluks as their number in any taluk is not considerable and their proportion to the total population is less than the State average in all taluks. In the case of Scheduled Tribes figures are given for Bapatla and Vinukonda taluks, where the proportion of Scheduled Tribes to Total population, is higher than the State average.

In view of the safeguards provided in the Constitution for these communities, the Tables in this series will be of much use and guidance, especially when the Government are taking measures for the improvement of the condition of these communities by suitable welfare schemes under the Five Year Plans. The total Scheduled Castes and Scheduled Tribes population is given taluk-wise separately for Total, Rural and Urban areas and for each Town under the State Primary Census Abstract. The village-wise particulars are given under Village Directory.

The Scheduled Castes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Castes in Andhra Pradesh is given below:

Note: Scheduled Castes are recognised only amongst Hindus and Sikhs. Converts to other religions such as Christianity or Islam or Buddhism cease to belong to these castes

(1) Throughout the State:

1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts:

1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano

10 Ghasi, Haddi or Relli Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda:

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulvandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Mala Jangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

The Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule (III) of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the same Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Tribes in Andhra Pradesh is given below:

Note: Members of Scheduled Tribes may belong to any Religion

(1) Throughout the state:

1 Chenchu or Chenchwar

2 Koya or Goud with its sub-sects Rajah or Rasha Koyas, Lingadhari Koyas (Ordinary), Kottu Koyas, Bhine Koya and Rajkoya

(2) Throughout the State except Hyderabad, Mahbubnagar Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts:

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia-Bentho Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya, Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora

18 Savaras-Kapu Savaras, Maliya Savaras or Khutto Saravas
19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda:

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

(4) In the Agency tracts:

1 Goudu (Goud)
2 Nayaks
3 Valmiki

As would be clear from the Tables, not all the above Castes and Tribes, will be found in all the taluks of the district.

An abstract of the total Scheduled Castes and Scheduled Tribes population in Guntur district and its percentage to the total general population is given taluk-wise in the statement below:

Name of the District/Taluk	Total Rural Urban	General Population	Scheduled Castes Population together with percentage to General population	Scheduled Tribes Population together with percentage to General population
(1)	(2)	(3)	(4)	(5)
Guntur District	T	3,009,900	157,850 (5.24)	95,457 (3.17)
	R	2,382,973	137,213 (5.76)	78,317 (3.29)

TABLE SCT-I—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for the Rural and Urban areas of the district, the population of each Scheduled Caste and Scheduled Tribe classified by Industrial Category of persons at work and Non-Workers by sex. The Table is divided into two parts. Part A relates to Scheduled Castes while Part B relates to Scheduled Tribes. This Table is important as it gives the strength of each of the Scheduled Castes and Scheduled Tribes, the working population among them and the sector of Industry in which the working population is engaged. The data are presented for the Rural and Urban areas separately.

TABLE SCT-II—AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for each Scheduled Caste and Scheduled Tribe the total population by Age and Marital status. This Table is divided into two parts. Part A relates to Scheduled Castes and Part B relates to Scheduled Tribes. This Table corresponds to Table C-II for the total population; however the Age-groups are restricted to 0-14, 15-44, 45+ and Age not stated only in both the parts of this Table. This Table enables us to know the percentage of each of the Scheduled Castes and Scheduled Tribes to the total population in the corresponding Age-group. Such community-wise data by Age and Marital Status for Scheduled Castes and Sche-

duled Tribes are being given for the first time at the present Census. The Age distribution and Marital Status data will give an indication as to whether the population of a Caste/Tribe is growing or declining.

TABLE SCT-III—EDUCATION IN RURAL AND URBAN AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows the literacy and educational levels for each Scheduled Caste and Scheduled Tribe separately for Rural and Urban areas. This Table is divided into Part A (i) and Part A (ii) relating to the Scheduled Castes and Scheduled Tribes respectively in Urban areas and Part B (i) and Part B (ii) relating to the Scheduled Castes and Scheduled Tribes respectively in Rural areas. In the case of Urban areas the educational levels adopted for giving the data are the same as those adopted in Table B-III Part A and in the case of Rural areas the data are given as in Table B-III Part B. This Table, therefore, enables us to know the proportion of each of the Scheduled Castes and Scheduled Tribes among the total population in different literacy and educational levels.

TABLE SCT-V—SAMPLE HOUSEHOLDS OF SCHEDULED CASTES AND SCHEDULED TRIBES ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY

This Table shows the sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only, separately for Scheduled Castes and Scheduled Tribes. The Table is divided into two parts. Part A relates to Scheduled Castes and Part B relates to Scheduled Tribes. The sizes of landholdings and types of interest in land cultivated adopted in this Table are the same as those adopted in Table B-XI.

TABLE SC-I—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR SCHEDULED CASTES

This Table shows persons belonging to the Scheduled Castes not at work classified by sex, type of activity, viz., full-time students, persons seeking employment for the first time, persons employed before but now out of employment and seeking work and others, by educational levels. The broad educational levels adopted are illiterate, literate (without educational level), Primary or Junior Basic Matriculation or Higher Secondary, and above Matriculation or Higher Secondary. This Table is prepared for total Scheduled Castes as a whole and not separately for each individual caste and the figures are exhibited for Total, Rural and Urban population of the district. This Table will be very useful as it clearly illustrates the extent to which the Scheduled Caste children have taken to education and it also helps to plan employment for the unemployed members of the Scheduled Castes.

TABLE ST-I—MOTHER-TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES

This Table shows exclusively the Scheduled Tribes classified by Mother-Tongue and subsidiary languages spoken by them. The data are given for the Total, Rural and Urban areas in the district and for the Rural areas of Bapatla and Vinukonda taluks as the percentage of Scheduled Tribe population to total population in Rural areas of those taluks exceeds the State average of 4.27%. The Scheduled Tribes have their own peculiar languages and dialects and this Table gives the language or dialect of each Tribe. In respect of the members of the Scheduled Tribes who have moved out of their homes and as a result of contact with the local population speak some other languages also, those subsidiary languages are also shown in this Table. The number of male and female speakers of the subsidiary language is indicated in brackets after the subsidiary language under column 7 of the Table.

TABLE ST-II—PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY FOR SCHEDULED TRIBES

This Table shows for the district the persons not at work classified by sex and type of activity for each individual Scheduled Tribe. The types of activity under which the persons not at work are classified are the same as those adopted in Table SC-I, viz., full-time students, persons seeking employment for the first time, persons employed before but now out of employment and seeking work and others. In this Table the particulars are given according to the individual Tribe while in Table SC-I similar particulars in respect of Scheduled Castes are given for total Scheduled Castes as a whole by educational levels. The present Table, however, shows the number of unemployed persons in each individual Tribe without reference to the literacy levels.

The data in this Table are presented for the Total, Rural and Urban areas of the district and also for the Rural areas of Bapaṭla and Vinukonda taluks as the percentage of the Scheduled Tribe population to total population exceeds the State average of 4.27% in the Rural areas of these two taluks only as may be observed from the statement at the end of the general fly leaf to the SCT Tables.

PART IV

VILLAGE AND TOWN DIRECTORY

EXPLANATORY NOTE
VILLAGE AND TOWN DIRECTORY

This Directory renders an account of each village, as also each ward and each Enumerator's Block of a town. It gives the Location Code Number and name of each village/town, area of the village/town, and where inhabited, the number of Occupied Residential Houses, Census Households, Total Population, Population of Scheduled Castes and Scheduled Tribes, Literate Population and Workers classified into the following nine Industrial categories of Workers and Non-Workers:—

I Cultivator

II Agricultural Labourer

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Household Industry

V Manufacturing other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services; and

X Non-Workers

The data are presented taluk-wise, first for the rural portion in the "Village Directory" and next for the urban portion in the "Town Directory". In the Village Directory the villages have been arranged in the ascending order of the Location Code Numbers assigned to the villages within the taluk and in the Town Directory, in the ascending order of Location Code Numbers assigned to the towns in the taluk and also by each ward and Enumerator's Block in the ascending order. The taluk map given at the beginning of the Village Directory of each taluk showing the Location Code Numbers of each village and town and other particulars will help the easy location of the villages.

In the Village Directory, villages uninhabited and villages that have been completely merged in towns have been indicated accordingly. In respect of villages which are partly included within the town limits and partly fall outside the town limits the particulars for that portion included in the town limits, i.e., 'Urban Portion' are clubbed with the particulars of the town and given in the Town Directory and for that portion outside the town limits, i.e., 'Rural Portion' the data are given in the Village Directory along with other villages. The term "Rural" is indicated immediately after the name of such villages to make the position clear. In the presentation of data for the towns the particulars have been exhibited in ascending order of Municipal wards or Blocks and also by Enumerators' Blocks and not according to the villages constituting the town. In order that each Enumerator's Block may be located, the jurisdiction of each Block, i.e., the houses covered by each Enumerator's Block in towns is indicated at the beginning of the Town Directory.

Under column 8 the area is given for the villages and towns in square miles based on the information furnished by the State Central Survey Office, the Tahsildars and by the Municipal authorities concerned. In respect of certain villages for which the area particulars are not available the abbreviation "N.A." has been recorded in this column. As the area of a taluk comprises not only the area of the villages but also the area of Reserved Forests, etc., within the taluk, the areas of all the villages put together may not be equal to the area of the taluk.

Under columns 9 to 41 the Total Population, Scheduled Castes and Scheduled Tribes population, Literate population, total number of Workers under each of the nine categories and Non-Workers is given by sex for each village/town.

The taluk map found at the beginning of the Village Directory of each taluk shows the boundaries of each village and town, the important roads and railway lines, the rivers, if any, in the taluk. In this map the Location Code Number of each village is shown and the names of tourist centres and places of great religious importance, etc., if any, are given. Urban areas have been shown by shading the area covered. Uninhabited villages and villages of different sizes of population, i.e., below 2,000, 2,000-4,999, 5,000 and above are distinguished by distinct designs. An alphabetical list of villages with the Census Location Code Numbers indicated against them is given after the taluk map and before the Village Directory. This list enables one to find out the Location Code Number of any village and thereafter to

get the required particulars of the village from the Village Directory.

The information relating to Educational facilities, Medical and Public Health facilities, drinking water facilities, Communication and Transport facilities and Electrification is also given village-wise in this section for the first time besides the population data. These facilities are shown by symbols as explained below immediately after the names of the villages under columns 3 to 7.

(*i*) *Educational facilities are shown by the following symbols under column 3* :—

P	:	Primary School
M	:	Middle School
H	:	High School
C	:	Institutions of higher education including Colleges
T	:	Technical Institutions

(*ii*) *Medical and Public Health facilities are shown by the following symbols under column 4* :—

D	:	Dispensaries
Rhc	:	Rural Health Centres (Primary Health Centres)
Hos	:	Hospitals
Mcw	:	Maternity Child Welfare Centres

(*iii*) *Drinking Water facilities are shown by the following symbols under column 5* :—

S	:	Safe or protected water supply including Tube Wells, etc.
W	:	Well
Tk	:	Tank
Riv	:	River

(*iv*) *Communication and Transport facilities are shown by the following symbols under column 6* :—

Po	:	Post Office
To	:	Telegraph Office and Public Call Office
Rh	:	Rest Houses and Choultries
R	:	Road
Rly	:	Railway

(*v*) *Electrification facilities are shown by the following symbols under column 7* :—

E	:	Electricity
E(I)	:	Electricity in Industrial use
E(A)	:	Electricity in Agricultural use
E(D)	:	Electricity in Domestic use

Where figures like 5P, 2H, etc., occur they denote that the village or town has 5 Primary Schools, 2 High Schools, etc.

Besides presenting the information relating to the above facilities in the Village and Town Directory, certain other important particulars, viz., sources of irrigation, crops raised, value of lands, Co-operative Societies, Police Stations, Veterinary Hospitals, Reading Rooms, Places of Public Entertainments (Cinemas), Industrial Establishments and Rural Handicrafts are also given taluk-wise in separate Sub-Tables immediately after the Village and Town Directory. The Sub-Tables are numbered as follows.

Sub-Table-1	:	Sources of Irrigation, crops raised and value of land
Sub-Table-2	:	Co-operative Societies
Sub-Table-3	:	Police Stations
Sub-Table-4	:	Veterinary Hospitals
Sub-Table-5	:	Reading Rooms
Sub-Table-6	:	Public Entertainments (Cinemas)
Sub-Table-7	:	Industrial Establishments
Sub-Tables-8, 9 & 10	:	Rural Handicrafts

In the Sub-Table 1 relating to the sources of Irrigation, crops raised and value of land, the particulars relating to the high and low prices of dry and wet land, the various important crops raised and the sources of irrigation are given village-wise. Only the Location Code Numbers have been given in the Sub-Table without giving the names of the villages. Villages having land of same value are grouped together. The following abbreviations are used in this Sub-Table.

Cereals

J	:	Jonna or Cholam or Jowar
K	:	Korra
M	:	Maize
P	:	Paddy
R	:	Ragi
S	:	Sajja or Cumbu
V	:	Variga

Pulses

Blg	:	Blackgram
Gg	:	Greengram
Hg	:	Horsegram
Rg	:	Redgram

Other Crops

Bl	:	Betel Vines
C	:	Cotton
Ch	:	Chillies
G	:	Groundnut
O	:	Onions
Su	:	Sugarcane
T	:	Tobacco
Tu	:	Turmeric

Irrigation Sources

C	:	Canal or Nala
Riv	:	River
Sc	:	Spring Channel
Sw	:	Spring well
Tk	:	Tank or kunta
W	:	Well

In the Sub-Table 2 relating to Co-operative Societies, the various types of Co-operative Societies functioning in each village have been presented taluk-wise. The data for the district are given in the beginning followed by the particulars relating to taluk. The abbreviations used for the different types of Co-operative Societies are given below. If a village is served by a Co-operative Society of another village it has been indicated accordingly.

AICS	Agricultural Improvement Co-operative Society
CBCS	Cattle Breeding Co-operative Society
CS	Credit Society
FICS	Fishermen Co-operative Society
HBCS	House Building Co-operative Society
JFCS	Joint Farming Co-operative Society
LCS	Land Colonisation Co-operative Society
LCCS	Labour Contract Co-operative Society
LSCS	Large Sized Co-operative Society
L & SCS	Loan & Sales Co-operative Society
MCS	Marketing Co-operative Society
MSCS	Milk Supply Co-operative Society
PJCS	Palm Jaggery Co-operative Society
SSCS	Students' Stores Co-operative Society
TCS	Tenants' Co-operative Society
TGCS	Tobacco Growers' Co-operative Society
WCS	Weavers' Co-operative Society

In the other Sub-Tables 3 to 6 relating to Police Stations, Veterinary Hospitals, Reading Rooms and places of Public Entertainments (Cinemas) also, the data are presented in the same form as explained above, i.e., first for the district and then for each taluk. Only the names of places where such facilities exist are given.

In the Sub-Table 7 relating to Industrial Establishments, the number of units under various industries existing in villages and towns are given. These particulars were mainly those collected through a schedule of industries and crafts issued to the village school teachers in connection with the Rural Crafts Survey. In this schedule the data were to be given by the numbers of families; and as such, the families which had members engaged in any of the industries had been taken as units for that industry. In respect of some villages where the schedules had not been answered, the information was compiled from the Houselists. Certain data were taken from other sources as well such as the Village Directory furnished by the Tahsildars, and the Survey of Industries conducted in the cities. It is, however, quite possible that there may be some villages for which the information could not be presented. Such omissions are, however, likely to be very few. The particulars are given separately for the rural and urban areas. Under the name of the district, the industries are arranged in the ascending order of Minor Groups of the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban areas separately. Then, the figures for the various taluks are presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village Directory. Against each Village/Town are shown the Minor Group Code Numbers of the Industries or Crafts found in that village/town with the number of units engaged in that Minor Group in brackets against each of the groups.

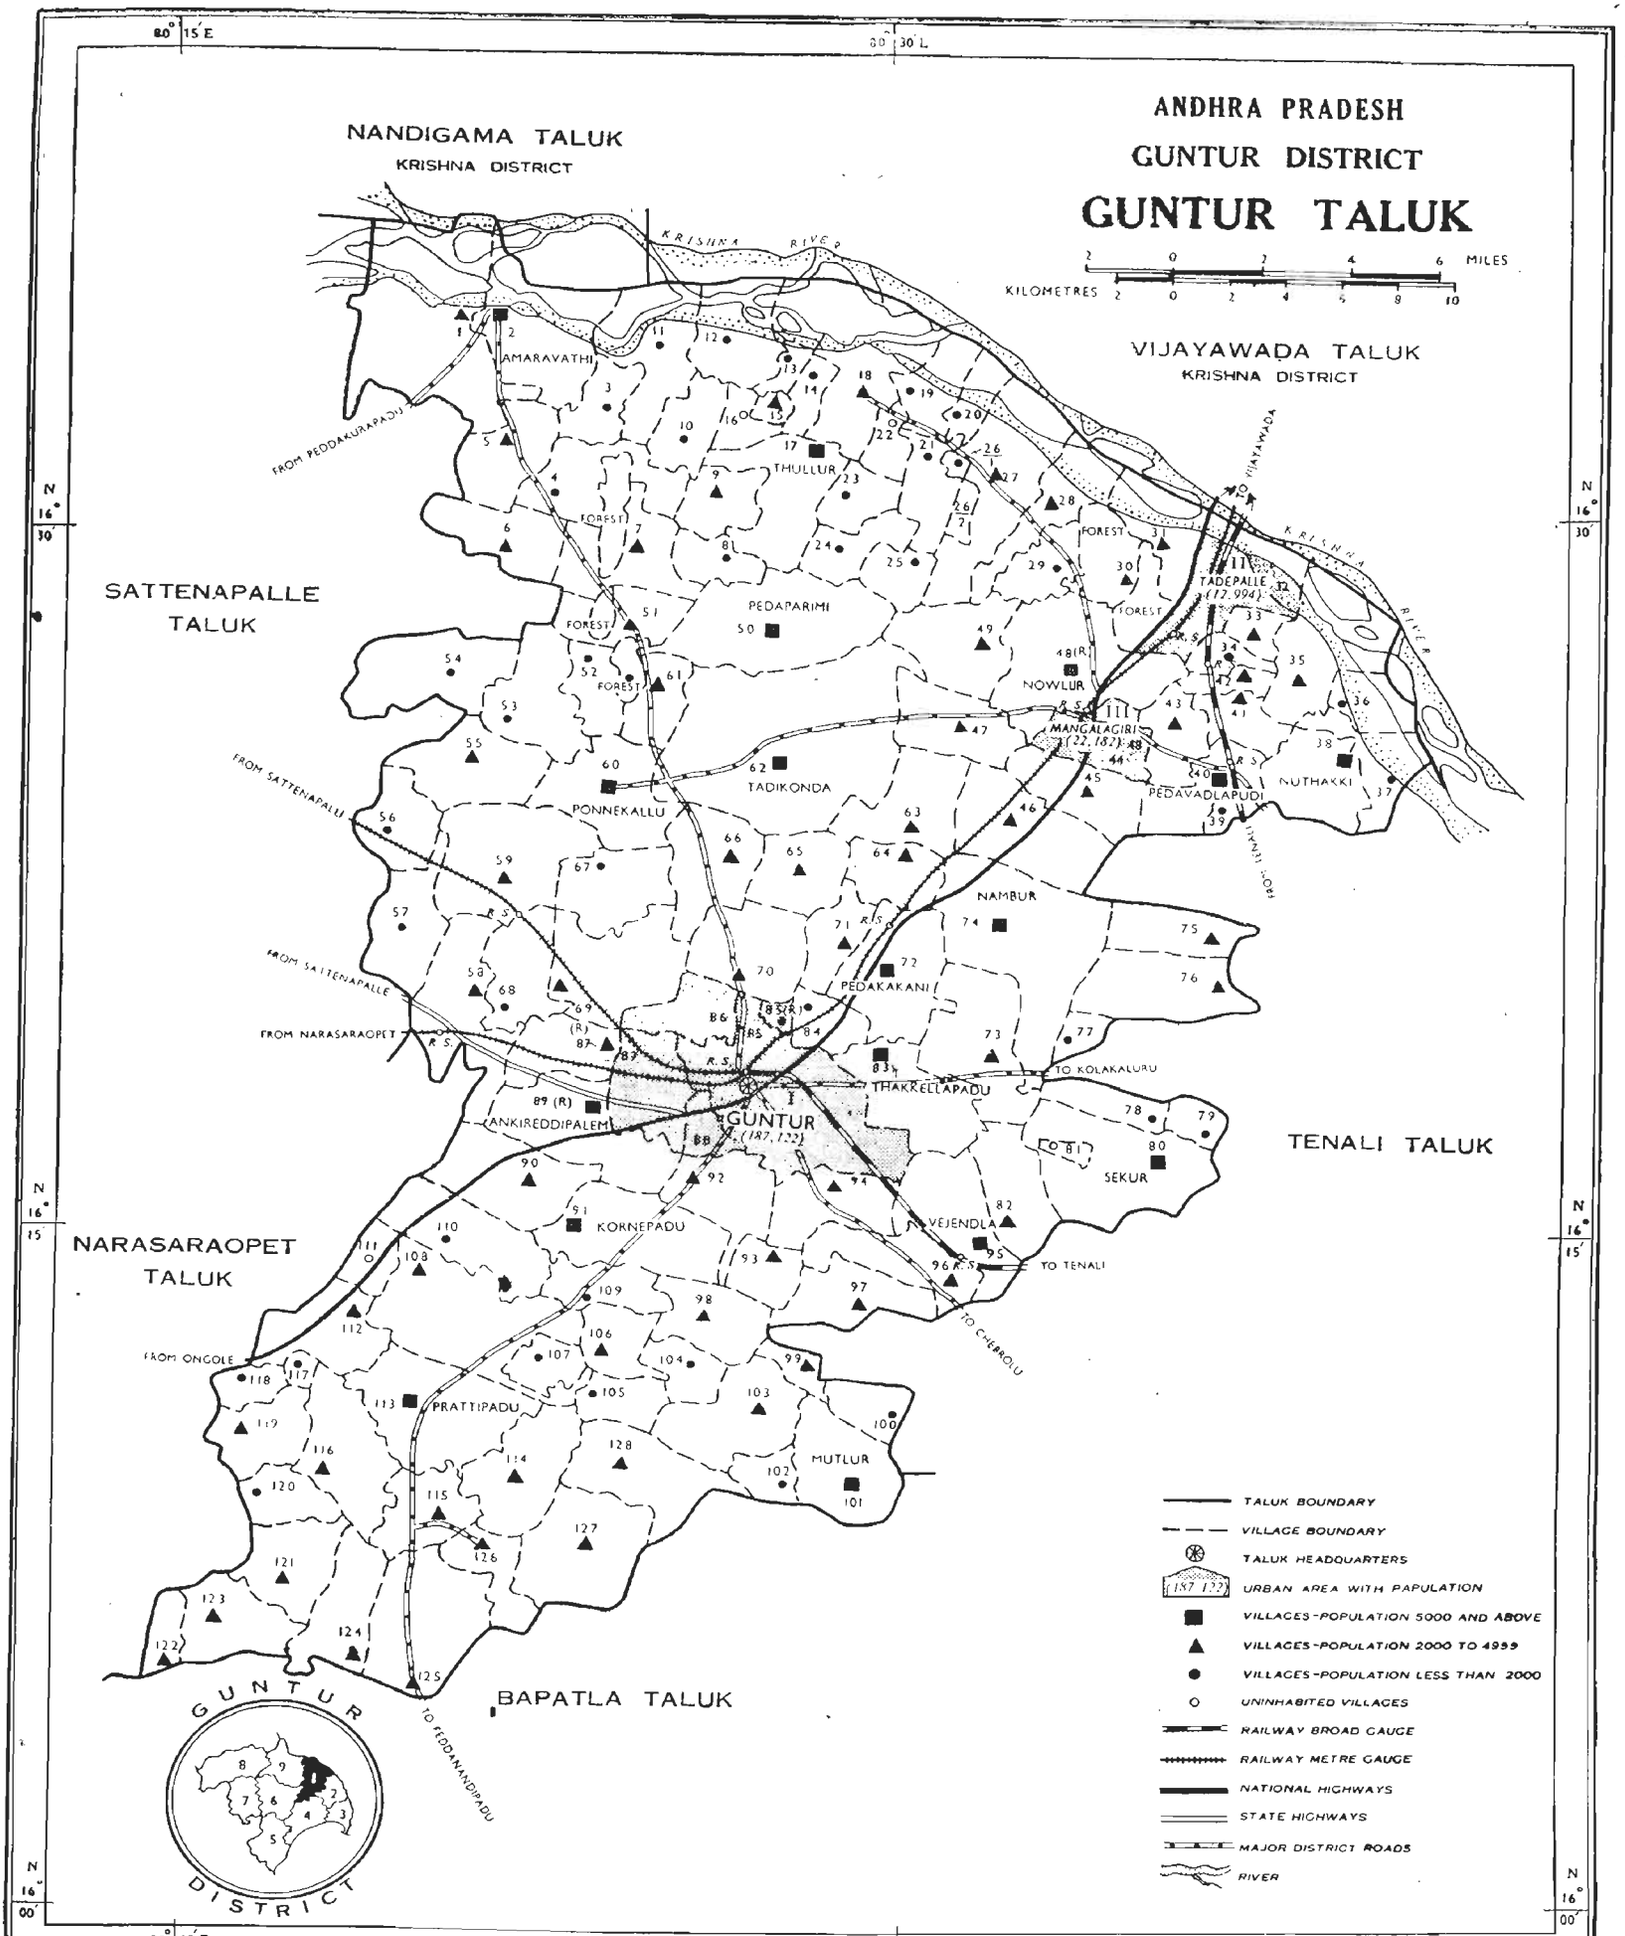

In the three Sub-Tables 8, 9 and 10 relating to Handicrafts information is given about the various Crafts practised, the number of persons engaged, the distribution of Artisan Communities, the number of families engaged in the Handicrafts, and the names of highly skilled craftsmen of each community, and the distribution of articles of crafts by main material used, source of design, manufacture, marketing and

earnings. These particulars were mainly collected through a schedule of Industries and Crafts issued to the village school teachers in rural areas and to the Municipal authorities in the Municipal areas. In respect of cities the information was collected through the staff of the Census Tabulation Offices specially appointed for the purpose. In respect of some villages where the schedules have not been answered the information was taken from the Houselists prepared at the time of House-numbering in 1960. A detailed report on the Handicrafts Survey is given in "Census of India, 1961 - Volume II - Andhra Pradesh - Part VII-A" and may be referred to.

In the Sub-Table relating to Fairs and Festivals given at the end of this section, the important fairs and festivals that take place in the village, the month in which they take place, etc., are given for each village having such importance. A detailed report on the Fairs and Festivals is, however, given in "Census of India, 1961 - Volume II - Andhra Pradesh - Part VII-B" and may be referred to.

All the information given in the various Sub-Tables in this section are based on the information furnished by the Heads of Departments, the District Officers, the Tahsildars and the Municipal authorities concerned.

GUNTUR TALUK

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

TENALI TALUK

M. J. SADIQ

Prepared in the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

TENALI TALUK

1961 Location Code No. (1)	Name of Village (2)
65	Abbanagudavalli
71	Alapadu
86	Amartalur
57	Ananthavaram
31	Angalakuduru
56	Annavaram
21	Athota
66	Balijepalle
80	Bodapadu
64	Boddulurpad
25	Bommuvanipalem
27	Burripalem
52	Chadalavada
89	Chavali
35	Chebrolu
53	Chemudupad
58	Chilumuru
1	Chiluvur
6	Chinapalem
44	Chinaparimi
92	Chinapulivarru
48	Chinaravuru
19	Chintalapudi
23	Chivalur
74	Chunduru
11	Dantalur
54	Davuluru
16	Devarapalle Agraharam
15	Devarapalle Savaram
93	Donepudi
13	Duggirala
42	Edlapalle
83	Elavarru
12	Emani
60	Gazullanka
8	Godavarru
84	Govada
17	Gudivada
91	Guruvindapalle
82	Intur
59	Ipur
49	Jampani
29	Kathavaram
76	Koditadiparru
14	Kolakalur
26	Kollipara
62	Kollur
81	Kondamudi
38	Kothapalle Narikelapalle
51	Kuchellapadu
45	Kuchipudi
20	Kunchavaram
37	Manchala
72	Manduru
75	Modukur
78	Moparru
3	Morampudi
69	Mulpur
10	Munugotipuram
18	Nandivelugu
28	Nelapad
85	Panchalavaram
36	Pathareddipalem
73	Pedagadelavarru
7	Pedakondur

ONGOLE TALUK

M. J. SADIQ

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

ONGOLE TALUK

1961 Location Code No.	Name of Village
(1)	(2)
22	Addanki North
17A	Addanki South
157B	Alakurupadu
19	Alavalapadu
133A	Alluru
132	Aloor
115	Ammanabrole
48	Anamanamur
169	Ananthavaram
94	Annangi
138	Annavarappadu
62	Bandiamudi
149	Bhatlamachavaram
34	Bhimavaram
74	Bhusurapalle
47	Bodduvanipalem
5	Bollapalle
23	Bommanampadu
27	Budavada
70	Budavada
7	Bytamanjulur
11	Chakrayapalem
91	Chandrapadu
106	Chedalavada
128	Chejerla
118	Chekurapadu
31	Chandalur
141	Cheruvukommupalem
147	Chilakapadu
66	Chimakurthi
10	Chinakothapalle
73	Chinaravipadu
36	Chintagumpalle
116	Chirvanuppalapadu
130	Devarampadu
68	Devarapalem
9	Dharmavaram
52	Dhenuvakonda
56	Doddavaram
121	Doddavarappadu
38	Duddukur
45	Dyvalaravuru
120	Edugundlapadu
39	Edumudi
84	Endloor
143	Errajerla
32	Gangavaram
83	Gangavaram
53	Garlapadu
54	Ghadiyapudi
80	Gonugunta
12	Gopalapuram
161	Gosuvandla Kattubadi
126	Gudimellapadu
79	Gummalampadu
95	Gundlapalle
77	Gunduvari Lakshmipuram
87	Guravareddipalem
59	Ilapavulur
103	Inamanamellur
166	Ithamukkala
2	Jangamaheswarapuram
157C	Jamulapadu
156	Jayavaram
157D	Kaguturiraipalem
8	Kalavakuru
109	Kandlagunta
153	Kandulur
65	Kandurivari Agraharam
114	Kanuparthi
127	Karavadi
155	Karumanchi
21	Kasyapuram
98	Kirthipadu
96	Kolachanakota
81	Konagarivaripalem
6	Kondamanjulur
25	Kondamur
146	Konijedu
33	Koniki
30	Kopperapadu
134	Koppolu
44	Korisapadu
26	Kotapadu
99	Kothakota
139	Kothamamidipalem
133B	Kothapatnam
16	Kotikalapudi
15	Kunkupadu
89	Lakshmipuram
122	Lingamgunta
112	Machavaram
168	Madanur
101	Maddipadu
37	Maddiralla Muppalla
117	Maddirallapadu
160	Mallavarappadu
93	Mallavaram
135	Malleswarapuram
64	Manchikalapadu
142	Mangaladripuram
145	Mangamur
49	Manikeswaram
152	Marlapadu
150	Mattipadu
51	Modepalle
125	Mukthinuthalapadu
24	Muppavaram
71	Mylavaram
85	Mynampadu
111	Naguluppalapadu
104	Nandipadu
50	Nannurupadu
136	Narasapuram
13	Narasimhapuram
57	Nekunambada
92	Nelatur
154	Nidamalur
105	Nidamanur
69	Nippatlapadu
42	Nuzellapalle
124	Ongole
61	Padamatinaidupalem
148	Padamatitakkellapadu
131	Padarthi
60	Pallamalli
41	Pamidipadu
28	Pangulur
167	Payakari Khandrika
86	Peda Kothapalle
137	Pellur
123	Pernamitta
82	Pidathalagudipadu
76	Pidathalapudi
18	Pitchikalagudipadu
151	Pondur
107	Pothavaram
108	Prasangulapadu
72	Pulikonda
40	Rachapudi
100	Rachavaripalem
165	Rajupalem
67	Rajupalem Lakshmipuram
75	Ramachandrapuram
4	Ramakur
14	Ramayapalem
58	Rangasayipuram
113	Raparla
43	Ravinuthala
20	Reningavaram
88	Rudravaram
144	Sarvereddipalem
102	Seetharampuram
46	Somavarappadu
164	Somavarappadu
157A	Tangutur
35	Thimmasamudram
63	Thorragudipadu
159	Thurupunaidupalem
29	Thuruputakkellapadu
119	Trovagunta
129	Ulchi
110	Uppugundur
3	Valaparla
1	Vallapalle
158	Vallur Kavalimanyam
162	Valluru
163	Vasepallipadu
170	Velagapudi
97	Vellampalle
140	Vengamukkalapalem
17B	Venkatapuram
55	Venkateswarapuram
78	Yenikapadu
90	Yerragudipadu

NARASARAOPET TALUK

Note :- L. C. No. 26 is included in L. C. No. 27 and not shown separately.

Mr. J. BADIQ

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

NARASARAOPET TALUK

1961 Location Code No.	Name of Village
(1)	(2)
67	Alavala
102	Ananthavaram
57	Annavaram
69	Annavarappadu
62	Arepalle
114	Babbepalle
88	Ballikurava
93	Boppudi
4	Chagallu
10	Chandavaram
3	Cheemalamarri
61	Chejerla
80	Chennupalle
26	Chilakaluripet
94	Chinapasumarru
14	Chirumamilla
108	Darsi
63	Dasaripalem
8	Dondapadu
113	Dronadula
36	Edavalli
100	Eddanapudi
19	Edlapadu
74	Etchur
41	Ellamanda
101	Enamadala
28	Ganapavaram
115	Gannavaram
66	Gogulapadu
73	Gopapuram
11	Gorijavolu
84	Gorrepadu
96	Gottipadu
33	Govindapuram
47	Guntagarlapadu
87	Guntupalle
37	Gurijepalle
51	Ikkurru
32	Irlapadu
22	Jaladi
45	Jonnalagadda
109	Jonnathali
54	Kakani
71	Kamepalle
97	Kantetivari Khandrika
43	Kanuparru
21	Karuchola
34	Kavur
42	Kesanapalle
112	Kolalapudi
77	Kommalapadu
110	Konanki
39	Kondakavur
16	Kondaveedu
89	Konidena
78	Kopparam
79	Kopparapalem
85	Kopperapadu
23	Kukkapallivaripalem
83	Kukutlapalle
76	Kundurru (East)
75	Kundurru (West)
60	Kunkalagunta
111	Lakkavaram
52	Lingamguntla
58	Machavaram
25	Manukondavaripalem
106	Martur
81	Mukteswaram
7	Mulakalur
104	Murikipudi
55	Muttanapalle
18	Mydavole
30	Nadendla
107	Nagarajupalle
1	Nakarikal
49	Nallagarlapadu
46	Narasaraopet
31	Nujendlapalle
50	Palapadu
6	Pamidipadu
95	Pasumarru
40	Petlurivaripalem
99	Poluru
116	Poonuru
35	Pothavaram
44	Pothavarappadu
27	Purushottapatnam
92	Rajapeta
105	Rajupalem
48	Ravipadu
65	Rompicherla
5	Rupenaguntla
82	Sankaralingamgudipadu
12	Sankuratripadu
64	Santhagudipadu
70	Santhamagulur
9	Satulur
15	Solasa
38	Tangedumalli
103	Thathapudi
29	Thimmapuram
68	Thurumella
2	Tsallagundla
13	Tubadu
53	Uppalapadu
91	Uppumagulur
86	Vaidena
17	Vankayalapadu
72	Vellalacheruvu
24	Veluru
90	Vemavaram
98	Vinjanampadu
59	Vipparla
56	Vipparlapalle
20	Viswanadhuni Khandrika

The following abbreviations have been used in the above Village and Town Directories :—

N.A. : Not Ascertainable

(*i*) *Educational facilities are shown by the following symbols under col. 3* :—

P : Primary School, M : Middle School, H : High School, C : Higher Institutions including Colleges, T : Technical Institutions

(*ii*) *Medical and Public Health facilities are shown by the following symbols under col. 4* :—

D : Dispensaries, Rhc : Rural Health Centres or Primary Health Centres, Hos : Hospitals, Mcw : Maternity Child Welfare Centres

(*iii*) *Drinking water facilities are shown by the following symbols under col. 5* :—

S : Safe or Protected Water Supply including Tube Wells *etc.*, W : Well, Tk : Tank, Riv : River, C : Canal

(*iv*) *Communication and Transport facilities are shown by the following symbols under col. 6* :—

Po : Post Office, To : Telegraph Office or Public Call Office, Rh : Rest Houses and Choultries, R : Road, Rly : Railway

(*v*) *Electrification facilities are shown by the following symbols under col. 7* :—

E : Electricity, E (I) : Electricity in Industrial use, E (A) : Electricity in Agricultural use, E (D): Electricity in Domestic use

The following abbreviations have been used in the above Sub-Table.

N.A : Not available

Cereals

J : Jonna or Cholam or Jawar
K : Korra
M : Maize
P : Paddy
R : Ragi
S : Sajja or Cumbu
V : Variga

Pulses

Blg : Blackgram
Gg : Greengram
Hg : Horsegram
Rg : Redgram

Other Crops

Bl : Betal Vines
C : Cotton
Ch : Chillies
G : Groundnut
O : Onions
Su : Sugarcane
T : Tobacco
Tu : Turmeric

Irrigation Sources

C : Canal or Nala
Riv : River
Sc : Spring Channel
Sw : Spring Well
Tk : Tank
W : Well

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY

INDUSTRIAL ESTABLISHMENTS

GUNTUR DISTRICT

[*NOTE*:—In the Sub-Table below relating to Industrial Establishments, the units of various industries existing in villages and towns are given. The particulars are given separately for the Rural and Urban areas. The industries are arranged, first for the district total in the ascending order of Minor Groups of Industries under the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban separately. The figures for the various taluks are also presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village/Town Directory. Against each Village/Town are shown the Minor Group Code Numbers of the Industries or Crafts found in that Village/Town with the number of units engaged in the Minor Group in brackets against each of the Groups.]

Phirangipuram 200(1), 235(1), 388(1)

Detailed description of Industrial Code (Minor Group) numbers under which the Industrial Establishments are arranged in the above Sub-Table is given below:

Minor Group No. (1)	Description as per the Indian Standard Industrial Classification (2)
200	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and food grains
202	Production of indigenous sugar, gur from sugar cane or palm juice and production of candy
203	Production of fruit products such as Jam, Jelly, Sauce and Canning and Preservation of fruits
205	Production of bread, biscuits, cake and other bakery products
207	Production of edible fats and oils (other than hydrogenated oil)
209	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge
214	Production of aerated and mineral water
215	Production of ice
216	Production of ice cream
218	Processing of coffee in curing works
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
222	Manufacture of cigarette and cigarette tobacco
230	Cotton ginning, cleaning, pressing and baling
231	Cotton spinning (other than in mills)
233	Cotton dyeing, bleaching
235	Cotton weaving in handlooms

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Contd.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No. (1)	Description as per the Indian Standard Industrial Classification (2)
236	Manufacturing of Khadi Textile in Handlooms
237	Printing of cotton textile
238	Manufacturing of cotton nets
239	Manufacturing of cotton cordage, rope and twine
241	Jute spinning and weaving
244	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta
255	Wool weaving in handloom
272	Embroidery and making of crepe lace and fringes
273	Making of textile garments including rain coats and head-gear
274	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags
275	Manufacture of waterproof textile products such as oil cloth, tarpaulin
278	Manufacture of umbrellas
280	Sawing and planing of wood
281	Manufacture of wooden furniture and fixtures
284	Manufacture of other wooden products such as untensils' toys artwares
288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products
289	Manufacture of other wood and allied products not covered above
292	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp
301	Printing and publishing of books
302	All other types of printing including lithography, engraving' etching, block making and other work connected with printing industry
303	All types of binding, stitching, sizing and other allied work connected with binding industry
310	Currying, tanning and finishing of hides and skins and preparation of finished leather
311	Manufacture of shoes and other leather foot wear
315	Repair of all other leather products except foot wear
320	Manufacture of tyres and tubes
331	Manufacture of dyes, paints, colours and varnishes
332	Manufacture of fertilizers
334	Manufacture of matches
335	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap
336	Manufacture of soap and other washing and cleaning compounds
337	Manufacture of turpentine, synthetic resin, and plastic products and materials (including Synthetic rubber)
339	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)
340	Manufacture of structural clay products such as bricks, tiles
341	Manufacture of cement and cement products
342	Manufacture of lime
343	Manufacture of structural stone goods, stone dressing and stone crushing
345	Manufacture of stone images
346	Manufacture of Plaster of Paris and its products
350	Manufacture of earthen ware and earthen pottery
354	Manufacture of glass apparatus
355	Manufacture of earthen images, busts and statues
363	Manufacture of structural steel products such as joist, rail, sheet, plate
364	Manufacture of iron and steel furniture
365	Manufacture of brass and bell metal products
366	Manufacture of aluminium products
367	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can
368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products
369	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also includes the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Concld.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No. (1)	Description as per the Indian Standard Industrial Classification (2)
370	Manufacture and assembling of machinery (other than electrical) except textile machinery
375	Manufacture of electric lamps and fans
377	Manufacture of all kinds of battery
378	Manufacture of electronic equipment such as radio, microphone
384	Repairing and servicing of Motor vehicles
388	Repairing of bicycles and tricycles
389	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles
390	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies
392	Assembling and repairing of watches and clocks
393	Manufacture of jewellery, silverware and wares using gold and other precious metals
394	Manufacture and tuning of musical instruments
395	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen
396	Manufacture of sports goods
399	Manufacture and repair work of goods not assignable to any other group
