VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

KUTCH DISTRICT

C. C. DOCTOR
Of the Indian Administrative Service
Director of Census Operations
Gujarat

Originating in the 19th century perhaps as an occupational craft, the embroidery work of the Kutch and Saurashtra regions was in its heyday one of the loveliest of the folk arts of Gujarat. Over a period of time the craft had acquired sufficient sophistication and regional and caste associations to facilitate its classification into as many as 22 schools, five major and three minor ones and fourteen other obtaining in the Kutch and Saurashtra regions respectively.

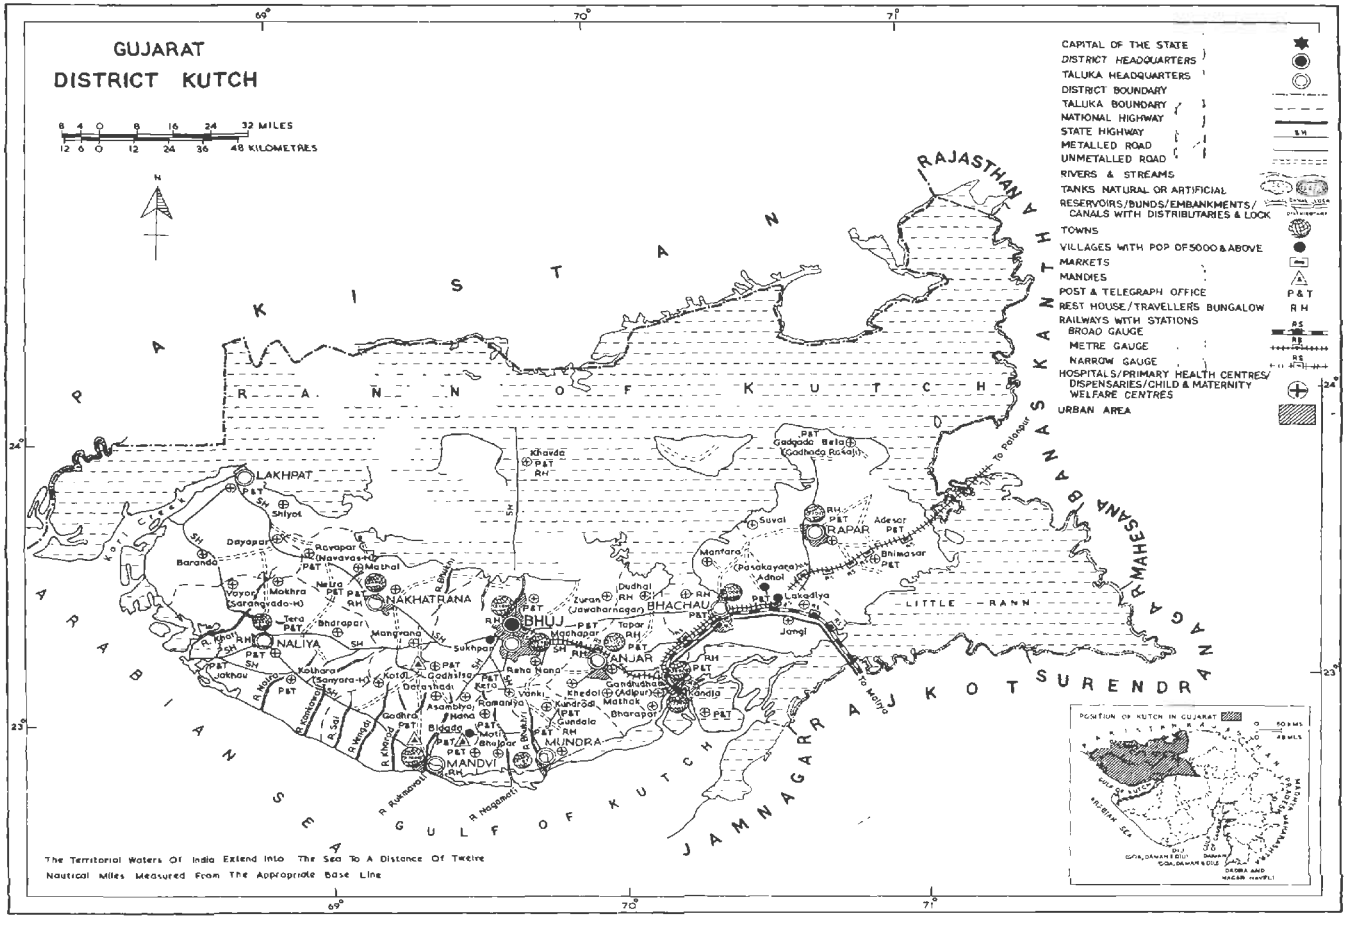

The work has been known to have been done mostly for personal use, till it was exploited for commercial purposes in later years. It is commonly done in free hand, but the use of wooden blocks for printing the basic design of motifs to be embroidered is not unknown. The printed design, however, supplied at most the barest outline and within it the craftsman had ample freedom as regards minuteness of detail and choice of colour. The motifs were chosen largely from local or regional stocks, except in the case of more classical examples where they fell back on Persian or Mughal forebears.

*The stylised peacock is the most favourite **single motif** in all Kutch embroidery and the one displayed on the cover page of this **volume shows** the elegance and vitality par excellence achieved by the Kutch embroiderer **even** within the framework of a simple structure. The other form commonly used in **Kutch embroidery** may be found elsewhere in this volume.*

(Block from an ink tracing by K. D. Vaishnav, Geographer, from a photograph).

PREFACE

The District Census Handbooks are being published regularly since 1951. Earlier they were brought out under the name of "Village Handbooks" and contained only the population totals. They are prepared by the Census Organisation on behalf of the State Government and published by the latter. They are the first to be published in the series of 1971 Census publications, which are now to follow. The need for making available to the State Government, the Census data as early as possible after the taking of the count, has been recognised since long. It is a matter of deep satisfaction that the present volume is being published within a year of the taking of the Census.

The data collected during 1971 Census was tabulated initially at three Regional Tabulation Offices at Surat, Rajkot and Bhavnagar for rural areas and one more Tabulation Office at Ahmedabad which dealt with the slips of urban areas only. The data abstracted at the Regional offices was brought to Ahmedabad where it was compiled for the State as a whole and is now being published.

The District Census Handbook contains primary data upto the village level for rural areas and enumerator's block level for urban areas. It is for the first time that in 1971 Census we are giving information about urban areas of the State in a separate part called the "Town Directory". We are also giving comprehensive information about rural areas in the "Village Directory". This is further supplemented by the Alphabetical List of Villages for facility of reference.

It has been decided to bring out the District Census Handbooks of 1971 in three parts as under :—

Part A

(1) Town Directory

(2) Village Directory

Part B

(1) Urban Block and Villagewise Primary Census Abstract

Part C

(1) Analytical Report

(2) Administrative Statistics

(3) Census Tables

It was originally decided that each part would be brought out separately. But since the data for parts A and B has been prepared almost at the same time, it is decided to combine these parts into one volume. Part C which has to await the collection of official statistics from various Departments of the State Government and preparation of Census Tables, would be published separately.

The Town Directory consists of information about the status, growth history and functional category of towns and their physical aspects, location, Municipal finances, civic and other amenities like sewerage, protected water supply, fire fighting service, electrification etc. It also contains information about medical, educational, recreational and cultural facilities available at the towns. Detailed information about trade, commerce, industry and banking is also provided here. The population of the towns according to 1971 Census by religion and Scheduled Caste and Scheduled Tribe is furnished here. The Town Directory is a new feature of 1971 Census and the above information has been compiled in it for the first time.

The Village Directory contains comprehensive information about the amenities available at the village such as educational and medical, supply of electric power, drinking water facility, communication through road, rail, kutcha road, pucca road and bus route, existence of post, telegraph and telephone facilities, etc. Further information about staple food, area under various

uses like forest, cultivable land, source and extent of irrigation, cultivable waste and name of the nearest town and its distance, day on which 'bazar' is being held, if any, and its importance from religious, historical and archaeological point of view is recorded here.

The Primary Census Abstract contains information about the number of occupied residential houses and households, total population including houseless and institutional population, literacy, Scheduled Caste and Scheduled Tribe population and the distribution of working population into nine industrial categories of workers and non-workers.

The Analytical Report in Part C takes note of the social, economic and demographic changes which have occurred in the District during the last ten years. The administrative statistics are obtained from various Departments of the State Government and presented in this part which also incorporates a few of the tables generated from the data derived during 1971 Census.

There are 217 towns in Gujarat and 18,709 villages. Compilation of data for such a large number of units within such a short time was indeed a formidable task. The terms and definitions used in the schedules of the Directories were carefully studied and detailed instructions with explanatory notes, about the manner in which they were to be filled, and the source from which data was to be collected were issued by this Directorate to the Taluka Development Officers. The collection of land use data and tallying of area figures for each administrative unit presented an uphill task. The Settlement Commissioner and Director of Land Records was requested in August 1969 to confirm some of the presumptions and furnish necessary guidelines to this Organisation as to how the various figures required could be culled out from the revenue forms maintained at village level.

The printed forms of Village Directories were sent to the Taluka Development Officers with a request that they should be filled by the village officials and scrutinised at taluka level by the Statistical Assistant before returning to this office. The Development Commissioner and the Director, Bureau of Economics and Statistics, issued firm instructions to the field staff to ensure that the information was filled and scrutinised with the utmost care. After this information was received in the Census Directorate, it was subjected to a very close and rigorous checking by a cell which was specially created for the purpose. There were a number of points on which further probe became necessary, where the information was found to be incomplete or inconsistent. Our greatest hurdle was the reconciliation of area figures as reported by the village officials and those reported by the District Inspector of Land Records. A series of meetings had to be held at each District Headquarter, where the Deputy Director in charge of the District Census Handbook Unit had to remain present and point out the glaring inconsistencies reported to the Taluka Development Officers and District Inspectors of Land Records. Thanks to the dedicated efforts of all concerned, we were ultimately able to reconcile completely the area figures for each Village, Taluka and District.

It was noticed that there were minor differences in the spellings of village names reported by the Mamlatdar, Taluka Development Officer and District Inspector of Land Records. Similar differences were also noticed in the total number of villages reported by each agency. These discrepancies were reconciled on the basis of the list of villages published by Revenue Department, information obtained from taluka offices and other published sources. Location code number was given to each administrative unit at the time of taking of the Census in order to avoid repetition of their names.

The Census Directorate had obtained village-wise data relating to drinking water facility, primary and secondary school, post, telegraph and telephone, electrification etc., from the concerned Departments. The data reported in the Village Directory was cross-checked with the

official data to make it accurate and upto date. The data so processed was ultimately posted in the Village and Town Directory statements and typed in four copies. The typed data was again compared with the original manuscripts by a special cell handpicked for the purpose. The taluka totals for the area and amenities have been struck for each column. A number of inset tables have been prepared and included in the note to the District Census Handbook, as desired by the Registrar General, India.

The Town Directory statements were likewise scrutinised by a special cell in the Directorate, and the local authorities were asked to reconcile incomplete or inconsistent information wherever necessary. On account of the instructions issued by the Director of Municipalities, these references received immediate attention. The figures reported by the Municipalities have been cross checked with available statistical data.

Maps

No District Census Handbook can be complete unless it is accompanied by District and Taluka maps. We have, therefore, included at the beginning of each volume a District map showing the taluka boundaries, location of towns and large villages with population size 5000 +, communications, water features etc., and an inset map showing the position of the District in the State in hatching. A Taluka map is inserted before the Primary Census Abstract of each taluka, indicating the boundaries of each village and town within the taluka and the location code number of each village. The villages have been shown by dots of various sizes. One key map showing the location of the taluka within the District in hatching, and another key map showing the position of the District in the State have been inserted here. The urban area is hatched in both the District and Taluka maps, and is further represented by a sphere of varying size according to population.

The District and Taluka maps show several particulars by use of an appropriate symbol.

The preparation of District and Taluka maps, containing such varied information was a task of no small magnitude. The District Inspectors of Land Records had considerable difficulty even in preparing the basic maps and authenticating them. The problem was solved by requesting the Settlement Commissioner and Director of Land Records to call the District Inspectors of Land Records personally to the Office of Director of Census Operations and reconcile all the discrepancies pointed out to them and asking them to authenticate the same on the spot as far as possible, after due verification.

ACKNOWLEDGEMENTS

Compilation of such a large mass of data is impossible without the active help and co-operation of State Government. I am deeply indebted to Shri L. R. Dalal, ICS, Chief Secretary to Government of Gujarat, for agreeing to extend whatever help was sought for. I would like to make a special mention of the warm and wholehearted co-operation which was throughout extended by Shri K. V. Bhatt, Deputy Secretary in the General Administration Department, who was looking after the subject of Census. Whether it was a matter of sanction of staff or for supply of typewriters, or for additional funds for printing of the District Census Handbook volumes, it always received his most immediate attention and sanction was never denied or delayed. He showed a deep understanding of the problems of an organisation like ours, which could function in the State effectively only with the full backing of the State Government.

Shri P. B. Buch, Director of the Bureau of Economics and Statistics, Government of Gujarat, placed at my disposal the entire resources at his command for any work connected with Census. Not only he spared me a few of his best officers and men but his valuable guidance in the matter of presentation of data at several places has served us in good stead. He issued instructions to the District Statistical Officers to attend to

the collection and scrutiny of any Census data and its timely submission, as if it wa Bureau's own work. We were always assured that we could fall back upon the resources of the Bureau unreservedly in time of need. But for the wholehearted and most willing cooperation of the Bureau at all levels, the District Census Handbook volumes would not have been what they are today.

I also owe a deep debt of gratitude to Shri U. M. Bhatt, IAS, the then Settlement Commissioner and Director of Land Records for his help in finalising the meanings of terms and definitions used in the Village Directory. It is a matter of deep regret that he is no more with us today. His successor, Shri B. R. Mane Patil, IAS, was equally enthusiastic and helpful and but for the keen interest he took in the finalisation of District and Taluka maps, we would have been placed in serious difficulty.

My sincere and heartfelt thanks are due to the Collectors of the Districts for the wholehearted response I have received from them towards the efficient conduct of Census Operations. The interest and energy evinced by them in organising this vast operation is indeed praiseworthy. Their active participation and involvement in the programme had a far reaching effect on the countless enumerators and supervisors working under them. Their direct interest in the training programme has vastly improved the quality of our returns. The Assistant / Deputy Collectors working under them were made responsible for the urban areas of their jurisdiction. The Mamlatdars and Chief Officers of Municipalities who were appointed as Charge Officers of rural and urban areas respectively bore the real brunt of the work, and displayed great zeal and enthusiasm in shouldering these additional responsibilities. To the Commissioners of Ahmedabad and Surat Corporations I am particularly indebted for providing excellent accommodation for housing the Regional Tabulation Offices. To the Special Charge Officers of Railways, Police, S.R.P., Irrigation Colonies and Forest Department and others I express my gratitude for the readiness with which they stood by us. Last but not the least, my grateful thanks are due to a large number of young boys and girls, coming from schools and colleges, to work as Sorters, Compiler Checkers and Supervisors, for the hard work they put in under difficult conditions of work. They displayed a very high sense of discipline and duty and enabled us to complete our work, at every stage, according to the deadlines set. I have no doubt the traditions of hard and systematic work they have imbibed will serve them in good stead and they will advance in life. They carry our best wishes with them wherever they go.

The District Development Officers who helped us so much in collection of data at the village level through the Taluka Development Officers and the District Statistical Officers working under them, who arranged for the scrutiny of the Town and Village Directory schedules at the taluka level through the Statistical Assistants, deserve a special mention. Had the basic work not been done by them accurately we would have been faced with a serious problem at the time of compilation. To the Heads of various other Departments, who always responded readily to any request made to them for help, I am also indebted. Limitation of space prevents me from making a separate mention of each one of them.

Shri G. J. Gonsalves, Director of Government Printing and Stationery, Government of Gujarat, who very kindly undertook to arrange the printing of some of the District Census Handbooks at Government presses and others through private presses had always been helpful in solving our difficult problems of printing. I hereby acknowledge the valuable help, guidance and assistance rendered by him in the matter of printing. Thanks are also due to the Manager, Government Photo Litho Press, Ahmedabad, at which all the District and Taluka maps as also the cover page have been printed. The care and patience with which they have attended to this work, has beautified our volumes to no small extent and increased their utility to the reader greatly.

Shri Hashim Ali Sayed, Printing Inspector, whose services were obtained on deputation from the Director, Government Printing and Stationery, rendered exemplary service by looking after the entire printing arrangement. His initiative, drive, and readiness to assume responsibility were a source of great strength to us. Everything he handled, he did perfectly well, and knew his job inside out.

I wish to place on record the valuable contribution made by my colleagues in bringing out this volume. Shri K. F. Patel, Deputy Director of Census Operations (HQ) was looking after this section before a separate staff was sanctioned by the State Government, headed by Shri S. C. Merh, Deputy Director from the Bureau of Economics and Statistics. Even after the creation of this separate cell, there were many occasions on which I had to look to him for help on account of the experience gained by him during 1961 Census. He never objected to the encroachments made on his time and energy, in spite of the fact that they were sometimes substantial. Shri S. C. Merh, Deputy Director of Census Operations (DCHB) put in hard and gruelling hours of work in spite of indifferent health to catch up with the time schedule which was once upset. Shri S. M. Shelke, Research Assistant, from the Bureau working under him, undertook almost the entire burden of Town Directories in addition to other work. Shri S. M. Nayak, Assistant Director of Census Operations, put in an indefatigable effort to ensure accuracy of the data at every stage and successfully coordinated the work throughout. The enthusiasm and energy displayed by Shri C. P. Vyas, Assistant Director of Census Operations, in the matter of preparation of inset tables for District Census Handbook volumes and several other matters connected with it deserve a special mention. The interpretation of the data of the Town and Village Directory is his personal contribution. Shri R.M. Pancholi, Statistical Assistant, prepared the inset tables to be included in the Town and Village Directory. Shri K. M. Patel, Tabulation Officer put in a very strenuous effort for the reconciliation of area figures and final checking of maps. Kr. Fateh Singh Jasol, IAS, Deputy Director of Census Operations, Urban Tabulation Unit, took upon himself, as a labour of love, the scrutiny of work with regard to the preparation of District and Taluka maps and the selection of different motifs which now decorate different volumes of the District Census Handbook. He involved himself in this work with the ardency and fervour so characteristic of him and greatly relieved me of the anxiety on this account. Shri K. D. Vaishnav, Geographer, and his team of draftsmen have produced excellent District and Taluka maps by working on them again and again to incorporate details which were pointed out or received after the maps were once prepared. Shri N. S. Bhatt, Statistical Assistant, has checked them thoroughly. Shri B. I. Patel, Tabulation Officer, in charge of the Central Tabulation Unit took upon himself the entire responsibility for the scrutiny of Primary Census Abstracts and their typing in record time. He discharged his duties with diligence and a high sense of duty. I had in him a pillar of strength on which I could lean for work demanding precision and exactitude. His capacity to turn out work at optimum efficiency in the face of time schedules rigidly set merits avowal. Shri V. A. Dhagia, Tabulation Officer, proved himself a stalwart by shouldering the burden not only of work entrusted to him, but part of the burden of every section, including the Map Section, and rendere yeoman's service. Both the Central Tabulation Units benefited greatly by the care and attention bestowed on them by Shri K. F. Patel, Deputy Director of Census Operations (HQ), whose trained eye could detect the slightest inaccuracy or inconsistency in compilation or presentation. It was due to this team work that we were able to compile such faultless data with admirable speed, and were the first to send the Primary Census Abstracts of all the Districts of the State in one bunch to the Registrar General's Office at New Delhi. Shri Patel's patience and thorough handling of work has yielded rich dividends to us. I have relied heavily on the expertise, acumen and experience of my colleagues and they have undoubtedly

given their best to the Organisation, for which I am deeply indebted to them.

Limitations of space prevent me from making an individual mention of all those who have contributed to the making of this volume so complete and faultless to all of whom I wish to express my sincere thanks.

Finally, I would like to express my very deep gratitude to Shri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) for the valuable guidance received from them from time to time. The amount of advance thinking and planning done by them on the subject has now resulted in the production of volumes which will be of lasting value and interest to the general reader, research worker, scholar, administrator and academician.

AHMEDABAD
1st March, 1972.

C. C. DOCTOR,
Director of Census Operations,
Gujarat.

PART X-A

TOWN AND VILLAGE DIRECTORY

TOWN AND VILLAGE DIRECTORY

The Town and Village Directory of the District Census Handbook 1971 differs widely in content and presentation from the corresponding volume of 1961. The earlier volumes mainly contained the Primary Census Abstract for each village for rural area and town/ward/enumerator's block for urban area and was supplemented by some additional information which was collected from (a) village notes specially devised for the purpose and (b) information supplied by Heads of Departments on certain amenities. It was presented in Col. 2 in run on fashion for each village and town followed by the Primary Census Abstract in the remaining columns.

The Town and Village Directory of 1971 Census is presented in Part A of the District Census Handbook. An attempt has been made to interpret the data thrown up in the Town and Village Directories at the beginning under the heading "Introductory Note on Town and Village Directory".

Part B of the District Census Handbook contains purely the Primary Census Abstract.

A number of abbreviations have been used in both the Directories to facilitate presentation. The abbreviations used in each statement of the Town Directory are given below in Statement A. Statement B gives a list of abbreviations used in Village Directory.

STATEMENT A
List of Abbreviations used in the Town Directory

INTRODUCTORY NOTE ON TOWN AND VILLAGE DIRECTORY

1. History of District Census Handbook

In 1941, the population figures were exhibited according to communities in the "Village Handbooks" published by the erstwhile Government of Bombay. In 1951, the basis of classification of the Census was changed from a social to an economic one and the figures were given in the Primary Census Abstract according to eight Livelihood Classes, The Primary Census Abstract contained the basic information in respect of every village and town. A decision to bring out the District Census Handbooks giving the Primary Census Abstract and important Census tables for every district of the State was taken for the first time in 1951. Census statistics given in the Primary Census Abstract related to the area of the village, number of houses and households, total population, houseless and institutional population, literates and agricultural and non-agricultural classes distributed under eight main Livelihood Classes. These census statistics were further supplemented by the addition of useful administrative information on the availability of amenities in villages and towns on items like post offices, railway stations, the distance of a bazar from the village, primary schools, village panchayats, co-operative societies, etc. This was a unique achievement of the Indian Census. The 1951 series of District Census Handbooks, however, varied in content and size from State to State depending upon the resources offered by the State Governments. It was, therefore, decided during the Census of 1961 that the District Census Handbooks of 1961 Census should contain a certain minimum of statistical data, maps and other useful information to be adopted uniformly throughout the country. Thus the District Census Handbook of 1961 Census differed widely in the matter of content and coverage from that published in the 1951 Census. The District Census Handbooks of 1961 were sub-divided into the following three parts :-

PART I - THE DISTRICT

(i) Introductory Essay

(ii) Brief Gazetteer of place names

PART II - STATISTICS

(i) Census Tables

(ii) Villagewise list of Industrial Establishments

(iii) Handicraft Tables

(iv) Departmental or Official Statistics

PART III - VILLAGE DIRECTORY

(i) Explanatory Note

(ii) Village Directory

(iii) Taluka Maps

Besides Census data, the 1961 District Census Handbooks covered villagewise and townwise information on the availability of different types of amenities such as educational facilities, public health and medical facilities, supply of drinking water, electricity and its uses etc., shown by means of abbreviations placed against the name of each village. Thus, in the 1961 Census an attempt was made to make the District Census Handbooks more informative.

During the 1971 Census, efforts have been made to compile both census and non-census statistics in a uniform manner under an enlarged perspective. The District Census Handbook of 1971 Census has been divided into three sub-parts with a view to making the census and non-census information available to the data users as quickly as possible. Part A of the District Census Handbook contains the Town Directory and Village Directory. Part B contains the Primary Census Abstracts and Part C contains the Introductory Essay, Official Statistics, Census tables, etc. The details of the contents in each of the parts are described in the following paragraphs.

2. Scope of District Census Handbook 1971

The District Census Handbooks are the only publications which incorporate the data down to the village and block level of a town, which are urgently and frequently required by the data users. They are constantly referred to for several purposes by the administrator, planner, policy-maker and academician, The delay in the publication of

the District Census Handbooks would reduce the value of these very useful publications. In order to avoid delay in the publication the District Census Handbooks of 1971 are sub-divided into three parts, two of which are combined in one volume, and the third published separately. The details of the contents of each of the parts are as follows.

Part A: Town and Village Directory

Part A contains the non-census statistics of each village and town. The Town Directory portion furnishes the data for each town in the district in seven statements covering (1) the status of the civic administration and the functional category of towns and the growth of population since 1901; (2) physical aspects and location; (3) civic finances; (4) civic and other amenities; (5) medical, educational, recreational and cultural facilities; (6) trade, industry, commerce and banking facilities and (7) population by religion.

The Village Directory Section of Part A gives particulars of amenities available for each village in the matter of educational and medical institutions, power supply, drinking water facilities, post and telegraph facilities, communications, particulars of land use, weekly markets and places of religious, historical and archaeological interest in the village.

Part B: Primary Census Abstract

Part B gives for each village and for each block and ward of a town the primary census data incorporating area of the town in square kilometres and of village in acres and gunthas, the number of occupied residential houses, the number of households, total population and its break up by sex, scheduled caste and scheduled tribe population, literate population, and working population by nine broad industrial categories namely (1) cultivators, (2) agricultural labourers, (3) those working in livestock, forestry, fishing, plantations, etc., (4) mining and quarrying, (5) manufacturing, processing, servicing and repairing, (6) in constructions, (7) in trade and commerce, (8) transport, storage, and communications, and (9) in other services and the non-working population.

Part C: Administrative Statistics and Report

Part C would incorporate the administrative statistics, pertaining to the district in various fields of development. The census tables pertaining to the district regarding mother tongue, religion, migration, etc., will also be reproduced here. A write up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade would also be given.

The non-census data of the village directory and town directory were collected from the local bodies. The villagewise details regarding different types of amenities available at the village, land use data and other information were collected in the village directory form through the Taluka Panchayat offices. These forms were filled by the village officials and were scrutinised by the Statistical Assistants at the Taluka level. The District Statistical Officers supervised the work and carried out percentage scrutiny. The details regarding the number of villages having post and telegraph facilities in the State, those connected with electric power supply, those having all weather and fair weather bus facilities and those without drinking water facilities etc., were obtained from the concerned departments by the Office of the Director of Census Operations. The information recorded in the village directory forms was cross checked with the data obtained from concerned departments, confirmed and made up-to-date.

The non-census data for each of the towns were obtained from the municipal authorities in the case of municipal towns and for other towns the data were obtained from the concerned Nagar and Gram Panchayats. The information received from the concerned municipalities and panchayats was scrutinised and cross checked with other published official statistics for a few items wherever it was possible.

3. Note on Town Directory

A. The list of urban areas, for the purpose of 1971 Census, was finalised in consultation with the State Government. The following criteria were applied for the purpose of determining any area as an urban area:-

(1) All places where there is a Municipal Corporation, or a Municipality or a Town Committee or a Notified Area or a Cannotment Board have been treated as urban areas.

(2) The remaining places were recognised as enjoying urban characteristics and declared urban areas only if the following conditions were fulfilled.

(a) The estimated population at 1971 Census should be at least 5000.

(b) The density of population per sq. kilometre should not be below 400.

(c) 75 per cent of the male working population should follow non-agricultural pursuits, and,.

(d) In the opinion of the Director of Census Operations any other place where predominant urban characteristics are noticed.

B. The town directory has been compiled in the following seven statements for all the urban areas of a district. For presentation of the data all the towns of a district are arranged in alphabetical order. In Appendix I to the Town Directory all the towns of a district are arranged according to their location code numbers. The details of the data covered in these statements are given below:-

Statement I

Statement I gives the details relating to the status of the towns, growth history of towns since 1901 and their functional categories of towns in 1961 Census and 1971 Census.

Statement II

This statement gives details of physical aspects and location of the towns. Under physical aspects are given details relating to altitude of the towns (in metres) annual rainfall (in m.ms.) and minimum and maximum temperature (in centigrade). The statement also gives the details of distance of the towns from the nearest city with population of 1 lakh and above, from State Headquarters, District Headquarters, sub-divisional and Taluka Headquarters from the nearest railway station and bus route. It also gives details as to whether or not the town has a navigable river or canal within 10 km. and the name of sea ports within 50 km.

Statement III

This statement gives details of Civic finance for the year 1968-69. It covers the receipts under different heads like receipt through taxes, receipt derived from Municipal property and powers, Government grant, loans, advances and other sources. It also covers the items of expenditure on different heads like general administration, public safety, public health and convenience, public works, public institutions and others.

Statement IV

This statement gives details about civic and other amenities. It covers information on the type of road with length, system of sewerage/drainage, number of latrines by types, method of disposal of night soil, source and capacity of protected water supply and availability of fire fighting services. The statement also gives details of the number of electric connections by types.

Statement V

This statement gives details relating to medical, educational, recreational and cultural facilities in the town. Details relating to medical institutions by types and the number of beds in each type of institutions are also covered. Details regarding different types of educational institutions are given. It also covers details relating to facilities of stadia, cinemas, auditoria or drama halls and libraries.

Statement VI

This statement covers the details relating to trade, commerce, industry and banking. The statement gives details of three most important commodities imported in the towns, three important commodities exported from the towns and three important commodities manufactured in the towns. It also gives details of the number of banks and cooperative credit societies.

Statement VII

This statement gives the population of the town by religion. Data for this table is extracted from 1971 Census data.

C. Six areas of the District enjoyed urban status during the 1961 Census. None of these have

since been declassified whereas Bhachau, Madhapur, Nalia, Nakhatrana and Rapar have been recognised in the 1971 Census as enjoying urban characteristics, thus bringing the tally of the urban areas in Kutch District during the 1971 Census to eleven.

D. There are no town agglomerations in the District but Bhuj and Gandhidham towns have outgrowths in their respective non-municipal areas. A list of such outgrowths is given in Appendix II to the Town Directory.

Details of Standard Urban Areas in the district are as under :

District	Standard Area and Component Units	Civic Status	Area in km.^{2}
1	2	3	4
Kutch	Total Bhuj (S.U.A)		N.A
	Urban Components		
	Bhuj Town		N.A
	Bhuj	M	9.48
	Bhuj	O.G	N.A
	Total Urban Group		N.A
	Rural Component		
	Mirzapur		11.17
	Total Rural Group		11.17

Note on Statement I

Townwise details relating to status, growth history and functional categories are given by arranging the towns in alphabetical order. The civic administration status of each town has been recorded in column 5 of the statement by using the following abbreviations.

	Status	Abbreviation
1.	Corporation	C
2.	Municipality	M
3.	Town Committee/Town Area Committee/Board	TC
4.	Notified Area Committee/Council	NAC
5.	Cantonment Board	CB
6.	Nagar Panchayat/Panchayat	P
7.	Non-municipal/Non-Town Committee/Non-Panchayat Committee	NM

Four towns in the district have municipalities and six towns have gram panchayats. With the implementation of the Panchayat Act in Gujarat from 1-4-1963 places having a population of more than 10,000 but less than 20,000 have been given the status of Nagar Panchayats and those having a population of less than 10,000 persons have been notified as Gram Panchayats. Kandla a port town has no municipality or panchayat. But it is managed by Kandla Port Trust. It can be seen from the Statement that there is no town in the district having a population of more than one lakh. Those having a population of more than 50 000 but less than one lakh number 1 as against none in 1961, those having a population of more than 20,000 but less than 50,000 number 3 as against 4 in 1961; those having a population of more than 10,000 but less than 20,000 number 2 as against none in 1961 and those having a population of more than 5,000 but less than 10,000 are 5 as against 2 in 1961.

Columns 14 and 15 of the Statement give the functional category of the towns according to 1961 Census and 1971 Census. The method adopted for determining the functional category is uniform for 1961 (Atlas Volume) and 1971 Census. The functional categories are worked out on the basis of the following formula.

The nine Industrial Categories of workers adopted in 1971 Census are grouped into five sectors as follows :-

		Categories
1.	Agricultural and its allied activities	I, II, III and IV
2.	Industrial including construction	V, VI
3.	Trade & Commerce	VII
4.	Transport, Storage & Communications	VIII
5.	Other Services	IX

The percentage of workers under each of the above five groups to total working population is worked out for each town. These towns are then classified according to their percentage values which will determine the characteristics of the town as Primary activity, industrial, commercial, transport and service, etc., on the following basis.

(i) If one sector of the economy absorbs more than two-fifths of the total working popu-

lation (i.e. more than 40 per cent) then the town would be designated by that particular industrial category which is found predominant, e.g. industrial, commercial, transport, service or primary.

(ii) If the percentage falling under any one industrial category is less than 40, then the next predominant industrial category is taken into account, so that their total reaches three fifths of the working population i.e. 60 per-cent. Such a town would then be designated as industry-*cum*-service town or commerce-*cum*-transport town, etc. as the figures may indicate.

(iii) If the total of any two categories does not come upto 60 per cent, then the third predominant industrial category in order of merit is taken into account and after 60 per cent of the working population is accounted for the town is designated as industry-*cum*-service -*cum*-transport town and so on

On the above basis each of the town has been assigned functional categories. Table No. 1 below gives the distribution of towns by different functional categories. It can be seen that 5 towns have one functional characteristic, three towns have two and three towns have three characteristics.

TABLE No. 1

Distribution of towns by functional categories

Functional Category-1971	No. of towns
1	2
1. One Characteristic :	
(a) Primary activities	3
(b) Transport	1
(c) Services	1
	5
2. Two Characteristics :	
(a) Primary activities-*cum*-Services	2
(b) Transport-*cum*-Commerce	1
	3
3. Three Characteristics :	
(a) Industry-*cum*-Commerce-*cum*-Services	1
(b) Industry-*cum*-Services-*cum*-Commerce	1
(c) Services-*cum*-Commerce-*cum*-Industry	1
	3
Total	11

Note on Statement II

This statement gives the physical aspects and the location particulars of towns. Particulars regarding data on the altitude of the towns have been obtained from the Director, Survey of India, Western Circle, Abu. Details regarding temperature and rainfall have been obtained from the Director General of Observatories, Meteorological Department Government of India and the Regional Meteorological Centre, Colaba, Bombay. However, the data on rainfall and temperature were not available from the above offices for many towns. In such cases data have been collected from local sources, and remarks to that effect are given at the footnote of the statement.

Of the towns of Kutch District Nakhatrana enjoys the highest altitudinal location at 124.66 metres above mean sea level. This is followed by Madhapar (99.0 metres), Bhuj (80.0 metres), Anjar (62.48 metres) and Rapar (60.0 metres). As regards the altitude of the remaining towns, it varies from a minimum of 3.96 metres in the case of the port town of Kandla and Mandvi to 42.37 metres in the case of Bhachau. The annual rainfall likewise varies considerably from town to town. Rainfall and temperature data as regards Bhuj, Kandla and Mandvi, obtained from the Meteorological Department, is an average of available data from 1931 to 1960. Therefore, excluding the rainfall figures for these three towns, in the other towns the rainfall recorded in 1969 varied from a minimum of 19.12 m.m. at Gandhidham to 181.0 m.m. at Bhachau. The District is generally regarded as warm climatically. The summer normally lasts from the middle of March to the middle of June during which temperatures can be as high as 46.0°C. The winter lasts from October to February. The lowest temperature was recorded at Nalia at 3.5°C. None of the towns in the district has a population of one lakh or more. The City nearest to all the towns of the district is Rajkot. It lies at a distance of 205 km. from Rapar whereas it is farthest away at a distance of 390 km. from Naliya. The distance of Gandhinagar, the State Headquarters, from the towns of Kutch District varies from a minimum

of 365.0 km. from Gandhidham to a maximum 615.0 km. from Naliya. Bhuj, the District headquarter, is 471.4 Km. from Gandhinagar. As regards the distances of the towns of the District from the district headquarter itself, Rapar is the farthest away from Bhuj being located at a distance of 154.0 km. Anjar, Bhachau, Bhuj, Gandhidham, Kandla and Madhapar towns are served by railway Stations. The distance of the nearest railway stations from Naliya, Mandvi, Nakhatrana, Mundra and Rapar towns which are not served by railway stations is 100.0 km., 58.0 km., 50.0 km., 48.0 km., and 19.0 km. respectively. All the towns are, however, interconnected by bus routes. No town has navigable river or canal within the range of 10 km. from the town. All towns except Bhuj, Madhapar, Nakhatrana and Rapar have one or other sea port within the range of 50 km. Kandla, Mandvi, Mundra and Jakhau are the sea ports in the district.

Note on Statement III

This statement gives details of town finance. In Kutch district four towns have municipalities. No town has Nagar Panchayat and six towns have Gram Panchayats, while Kandla town is managed by Kandla Port Trust. The following table shows the per capita receipt and expenditure by size class of town.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of Town	Number of Towns	Per capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
I 100,000 and over	..	..	..	..	..	..	..	..
II 50,000 to 99,999	1	22.20	9.37	12.83	22.12	5.37	8.56	8.19
III 20,000 to 49,999	3	19.20	10.04	9.16	18.94	7.30	1.40	10.24
IV 10,000 to 19,999	1*	5.22	2.40	2.82	3.55	1.24	0.34	1.77
V 5,000 to 9,999	5	5.43	2.46	2.97	6.31	0.74	0.05	5.52
VI Below 5,000	..	..	..	..	..	..	..	..

* The values are worked out by excluding Kandla town for which information is not available.

It would be seen from the above figures that per capita receipt in the towns having population between 50,000 and 99,999 and those having population between 20,000 and 49,999 are Rs. 22.20 and Rs. 19.20 respectively. *Per contra*, it would seen that per capita receipt in the towns having population between 10,000 and 19,999 and 5,000 and 9,999 is only Rs. 5.22 and Rs. 5.43 respectively. It will be similarly seen that per capita receipt through taxes show the same trend as total per capita receipts. The total per capita receipts through taxes diminishes sharply in Class IV and Class V towns as compared to Class II and Class III towns. Likewise, per capita receipts from all other sources also diminishes with the decrease in population size of the towns.

The per capita total expenditure is highest in the towns in the population range 50,000 to 99,999 in the case of which it stands at Rs. 22.12. This is followed by those towns in the population range of

20,000 to 49,999 at Rs. 18 94. It is considerably lower at Rs. 6.31 in the case of towns in the population range of 5,000 to 9,999. It is the least (3.55) in the case of towns in population range 10,000 to 19,999. It normally diminishes with the decrease in size of population class. The highest per capita expenditure on public health and conveniences is to be found in towns in the population range of 20,000 to 49,999 where it is Rs. 7.30. This is followed by towns in the population range of 50,000 to 99,999 at Rs. 5.37. It is very low in the remaining towns in the other population ranges. The per capita expenditure on public institutions is highest in towns in the population range of 50,000 to 99,999 at Rs. 8.56. This falls sharply to the minimum value of Rs. 0.05 in the case of towns in the population range of 5,000 to 9,999. The per capita expenditure on all other aspects is highest (Rs. 10.24) in towns having population of 20,000 to 49,999, followed by those in population size 50,000 to 99,999 (Rs. 8.19) and Rs. 5.52 in towns having population 5,000 to 9,999.

Note on Statement 1V

Statement 1V shows the civic and other amenities available in the town. The following abbreviations are used in the statement.

Column 3

Road Length	**Abbreviation**
1. Pucca Road	PR
2. Kutcha Road	KR

Column 4

System of sewerage/drainage

1. Sewer	S
2. Open Surface Drainage	OSD
3. Kutcha Drainage	KD
4. Cess Pool	CS
5. Pit System (or soak pits)	PT

Column 8

Method of disposal of night soil

1. Head Load	HL
2. Baskets	B
3. Wheel Barrows	WB
4. Septic Tank latrines	ST
5. Sewerage	S
6. Soak Pits or Leaching Pits	PT
7. Tractor, Trailor, Trolleys or Night Soil Tankers	T

Column 9

Source of protected water supply

1. Tap Water	T
2. Tube Well	TW
3. Well Water	W
4. Tank Water	Tk
5. River	R
6. Fountain	F
7. Canal	C
8. Others	O

Only Gandhidham and Kandla have sewerage. Bhachau town has open surface drainage. The rest of the towns have pits for disposal of waste water. Except Madhapar all towns have water borne latrines but service latrines are also found in all towns except Kandla and Madhapar. Only in Gandhidham and Kandla are sewerage and tractor trailors or trolleys or night soil tankers used for transport of night soil. The head load method of disposal of night soil is still in vague in Bhachau, Nakhatrana and Rapar. In the rest of the five towns viz., Anjar, Bhuj, Mandvi, Mundra and Naliya wheel barrows are provided for disposal of night soil. All towns have protected water supply. Four towns viz., Bhuj, Gandhidham, Kandla and Mandvi have facility of fire fighting services. All towns in the district are electrified.

Details regarding domestic, commercial, industrial and other connections are given in the statement. The following definitions have been applied for each of the terms used.

1. Domestic

(i) Heat and Power

Service to a household: supply to cooking ranges, refrigerators, air conditioners, etc., used in the household.

(ii) Lights and Fans

Service to a house which needs only lighting and fan connections.

2. Commercial

(a) Heat and Power

The same as 1(i) except that the use is for commercial purpose i. e. shops, restaurants, etc,

(b) Lights and Fans

Same as 1(ii) above except that the use is for commercial purposes i. e. shops, restaurants, etc.

3. Industrial

Power service to any installation at

(i) Low and medium voltage

Upto 100 HP load for use in establishments such as flour mills, oil mills, ice factories, etc.

(ii) High voltage

Connections given for industrial purpose at a voltage of 11 KV and above.

4. Street lighting

Power service given for providing light in the streets of village or town.

5. Others

(i) Irrigation and Agricultural dewatering

Power given to farmers for pumping water for agricultural purpose.

(ii) Public water supply and sewerage pumping

Power service given for pumping and/or preparation of potable water supply in villages/ towns and for pumping sewerage in the villages or towns.

Note on Statement V

The statement gives details relating to medical, educational, recreational and other cultural facilities in the town. In the case of medical institutions only Government, Semi-Government and charitable institutions have been covered. The abbreviations used in the statement to denote the various types of medical and educational institutions are explained below :-

Column 3

Type of medical institutions	Abbreviation
1. Hospital	H
2. Dispensary	D
3. T. B. Clinic	TBC
4. Health Centre	HC
5. Nursing Home	NH
6. Maternity Centre	M
7. Child Welfare Centre	CW
8. Family Planning Centre	FC
9. Other Medical Institutions	O

Column 5

Type of College	Abbreviation
1. Arts College only	A
2. Science College only	S
3. Commerce College only	C
4. Arts & Science College only	AS
5. Combined Arts Science and Commerce College	ASC
6. Arts & Commerce College only	AC
7. Law College	L
8. Law & Education College	LE

There is no town without one or the other type of medical facility. Hospital facilities are available in nine towns. Three towns have maternity centres, one town has tuberculosis clinic and eight towns have family planning centres. The following table gives particulars of the numbar of beds available in each town.

TABLE No. 3

Medical Facilities

Sl. No	Name of Town	Number of beds in medical institutions	Number of beds per 1000 population
1	Anjar	44	1.61
2	Bhachau	18	1.30
3	Bhuj	223	4.22
4	Gandhidham	30	0.77
5	Kandla	17	0.94
6	Madhapar	6	0.60
7	Mandvi	67	2.41
8	Mundra	14	1.52
9	Nakhatrana	8	1.19
10	Naliya	12	1.87
11	Rapar	4	0.55
	Total	443	2.07

The total number of beds in the medical institutions of the towns of the district number 443. The highest number of beds (223) is to be found in Bhuj, followed by Mandvi (67), Anjar (44) and Gandhidham (30). The rest of the towns have beds varying from a minimum of 4 in Rapar to a maximum of 18 in Bhachau. It can be seen that Nakhatrana (8), Madhapar (6) and Rapar (4) stand lowest in the ladder. The District average for all the towns show that there are 2.07 beds per 1000 population. Bhuj and Mandvi towns are above the district average whereas the rest of the towns are below the district average.

No town of the district has a medical or an Engineering College. Only Gandhidham town has a Polytechnic. Only three towns viz., Bhuj, Gandhidham and Mandvi have non-technical college/ colleges. Eight towns viz., Anjar, Bhachau, Kandla, Madhapar, Mundra, Nakhatrana, Naliya and Rapar are devoid of any college facilities. Three towns have other recognised shorthand, typewriting or other such vocational institutions.

Primary and Secondary school facilities are available in all towns of the district. The following table gives details of the number of primary and secondary schools per 1,000 population.

TABLE No. 4

Secondary and Primary schools per 1,000 population

Sl. No.	Name of the town	Number per 1,000 population	
		Secondary school	Primary school
1	Anjar	0.110	0.293
2	Bhachau	0.200	0.299
3	Bhuj	0.076	0.208
4	Gandhidham	0.154	0.360
5	Kandla	0.056	0.278
6	Madhapar	0.100	0.500
7	Mandvi	0.144	0.503
8	Mundra	0.218	0.871
9	Nakhatrana	0.149	0.298
10	Naliya	0.155	0.310
11	Rapar	0.139	0.278
	Average	0.121	0.345

The average number of secondary schools per 1000 population for all the towns is 0.121. It can be seen that the following towns viz. Mundra, Bhachau, Naliya, Gandhidham, Nakhatrana, Mandvi and Rapar are above this average wheras the remaining are below the average.

The average number of primary schools per 1000 population for all the towns comes to 0.345. The towns above the average are Mundra, Mandvi Madhapar and Gandhidham. The rest of the towns fall below the average.

Only one town viz., Bhuj has a stadium. Cinema/Cinemas are found in five towns viz., Anjar, Bhuj, Gandhidham, Mandvi and Mundra. Auditoria or drama halls are found in seven towns. Public libraries are available in all the towns except Nakhatrana.

Note on Statement VI

Statement VI gives details relating to trade, commerce, industry and banking in the towns. All the towns of the district have banking facilities. Agricultural cooperative credit societies are found in all towns except Anjar, Gandhidham, Kandla and Mandvi. Non-agricultural credit societies are available in all towns except Bhachau, Madhapar, Nakhatrana and Rapar. The important commodities manufactured in the towns of the district are groundnut oil, salt, cement pipes, acetone, formaldihyde, sized timber, soap, cotton bales, nut crackers and knives, shoes, handloom cloth and minerals. Anjar is well known for manufacturing and exporting nut-crackers and knives. Vegetables and cotton bales are also exported from Anjar town. Gandhidham, Kandla and Mundra manufacture and export salt. Foodgrains like Bajri, Jowar, Wheat and green gram are exported from most of the towns. Other impotant commodities exported are Bones, Iron ore, Fertilizers, Sesamum and Naphtha. The district is industrially backward. Most of the units process agricultural commodities or manufacture traditional items. Kandla, a port town, and Gandhidham are new townships of the district which have some Modern manufacturing units.

Notes and explanations on village directory

A brief outline on each of the statement of the Town Directory has been given in the earlier pages. The Handbook also incorporates, besides the town directory, villagewise particulars regarding different types of amenities and land use data for 1969 for each of the villages in the district in the village Directory section of the Handbook.

In Kutch district there are 966 villages distributed in 9 talukas. The number of villages in each of the taluka are as under.

Sl. No.	Name of Taluka	Number of villages
1	Bhuj	138
2	Mundra	62
3	Mandvi	95
4	Abdasa	162
5	Lakhpat	103
6	Nakhatrana	141
7	Rapar	110
8	Bhachau	80
9	Anjar	75
	Total	966*

* Excluding 74 Hamlets.

Five talukas cover more than 100 villages, whereas the remaining talukas have less than 100 villages each. Abdasa taluka has the largest number of villages with 162 whereas Mundra has the least number of villages with only 62.

The following abbreviations have been used in the Village Directory section of the Handbook for the terms listed in Col. 2 of the Statement below.

Column Number	Item	Abbreviation
4	Primary School	Pr.S
	Secondary School	Sec.S
	College	C
	Industrial School	IS
	Training School	Tr.S
	Other Educational Institutions	OS
5	Hospital	H
	Maternity Home/Centre	M
	Child Welfare Centre	CW
	Health Centre	HC
	Dispensary	D
	Family Planning Centre	FC
6	Electricity for any purpose	E
	Electricity for agricultural purpose only	E(Ag)
7	Tap Water	T
	Well	W
	Tank	Tk
	Tube Well	TW
	River	R
	Fountain	F
	Canal	C
	Other	O
	Not Available	N.A.
8	Pucca Road	PR
	Kutcha Road	KR
	Railway Station	T

	Bus facility	
	Whole Year	WY
	Fair Season	FS
9	Post Office	PO
	Telegraph Office	TO
	Post & Telegraph Office	PTO
	Telephone	Phone
12	Government Canal	C
	Private Canal	C
	Tube Well	TW
	Other Wells	W
	Tank	Tk
	River	R
	Waterfall	WF
	Other Sources	O

(a) Taluka Abstract of Amenities

A talukawise Abstract of the educational, medical and other amenities available at the villages is given in an Appendix to the Village Directory. It can be seen from the Abstract that 629 villages have primary school facilities. There are thus only 337 villages without primary schools of which, 67 are deserted villages. The details of villages without a primary school are as follows:-

Sl. No.	Name of Taluka	Number of villages without primary school	Number of deserted villages
1	Bhuj	43	8
2	Mundra	9	5
3	Mandvi	13	2
4	Abdasa	75	14
5	Lakhpat	75	19
6	Nakhatrana	61	12
7	Rapar	27	1
8	Bhachau	23	4
9	Anjar	11	2
	Total	337	67

The number of villages without primary schools varies from a minimum of 9 (in Mundra taluka) to 75 (in Abdasa taluka). In Abdasa, Lakhpat, Nakhatrana, Bhuj and Rapar talukas a significant number of villages are devoid of this basic amenity.

Only 19 villages or 1.95 per cent* of the total villages of the district have secondary schools and 69 or 7.09 per cent of the total have other educational institutions.

* In Kutch district there are in all 74 hamlets considerd as separate villages and hence precentages are worked out on the basis of a total of 973 habited villages (966-67+74= 973).

It can be seen that only 112 villages or 11.51 per cent have dispensaries. Only 10 villages have the facility of hospitals and 17 villages have maternity homes. Only 16 villages have child welfare centres. 22 villages have primary health centres (including sub-centres) and 44 villages have family planning centres. Thus only a limited number of villages in the district have medical facilities.

Only 148 or 15.21 per cent of the total villages of the district are electrified. In Lakhpat taluka no village is electrified.

Ordinary surface wells are the main source of drinking water facility. Only 106 villages or 10.89 per cent of the total have tap water supply. Other sources of water supply include tube wells (23 villages), tanks (779 villages) and rivers (177 villages).

Only 210 villages or 21.58 per cent of the total are connected with Pucca road. 386 villages or 39.67 per cent have post offices, and only 19 villages have both post and telegraph office. 14 villages in the district have telephones.

(b) Bus Facilities

The details of villages connected by bus services have been incorporated in the village directory. Bus facility is considered to be available at the village if a bus stop is available within one mile from the village.

It would be seen from the following figures that only 256 or 28.48 per cent of the villages in the district are connected by bus services throughout the year. There are 327 or 36.37 per cent of the total villages which enjoy this amenity only during the fair season. A little over one third or 35.15 per cent of the villages are devoid of this amenity throughout the year. A talukawise break up showing the villages connected by bus services is given hereunder.

Villages connected by Bus Services

Name of Taluka/ Mahal	Total number of inhabited villages	Number of villages having bus facilities for the whole year	Number of villages having bus facilities during fair season only	Number of villages without bus facilities
1	2	3	4	5
Bhuj	130	59(45.39)	64(49.23)	7(5.38)
Mundra	57	32(56.14)	18(31.58)	7(12.28)
Mandvi	93	18(19.35)	46(49.46)	29(31.19)
Abdasa	148	49(33.11)	26(17.57)	73(49.32)
Lakhpat	84	7(8.33)	19(22.62)	58(69.05)
Nakhatrana	129	34(26.36)	35(27.13)	60(46.51)
Rapar	109	14(12.84)	50(45.87)	45(41.29)
Bhachau	76	20(26.32)	36(47.37)	20(26.31)
Anjar	73	23(31.51)	33(45.21)	17(23.29)
Total @	899	256(28.48)	327(36.37)	316(35.15)

@ 67 uninhabited villages are not included in the total.

(Figures in brackets indicate percentage of total villages in each taluka)

The percentage of villages connected by bus services throughout the year varies considerably from taluka to taluka. While it is as low as 8.33 per cent in Lakhpat taluka whereas it goes up to 56.14 per cent in Mundra taluka. Four talukas viz., Bhuj (45.39 per cent), Mundra (56.14 per cent) Abdasa (33.11 per cent) and Anjar (31.51 per cent) are above the district average while the rest of the talukas fall below it.

There is considerable variation in the proportion of villages connected by bus services only during the fair season in different talukas. It varies from a minimum of 17.57 per cent in Abdasa taluka to a maximum of 49.23 per cent in Bhuj taluka.

There are yet 317 villages in the district which do not enjoy this amenity even during the fair season. The maximum number of such villages (73) are noticed in Abdasa taluka followed by Nakhatrana (60) Lakhpat (58) and Rapar (45). In the rest of the talukas it varies from 7 in Bhuj and Mundra to 30 villages in Mandvi.

(c) Distribution of villages by area

The distribution of villages by their areas is given in the following table in 8 size groups.

TABLE No. 5

Distribution of the villages by their areas in acres

Sl. No.	Area in Acres	Number of villages
1	50 acres or less	..
2	51 .. 100	..
3	101 .. 200	7 (0.77)
4	201 .. 500	17 (1.87)
5	501 .. 1000	52 (5.73)
6	1001 .. 2000	137 (15.10)
7	2001 .. 5000	376 (41.47)
9	5001 acres and above	318 (35.06)
	Total @	907 (100.00)

@ Total number of villages in the district are 1040 together with 74 Hamlets. 133 villages whose area is amalgamated with other villages are not included.

(Figures in brackets indicate percentage.)

It would be seen from the above table that 41.47 per cent of the District's 907 villages have an area ranging from 2001 to 5000 acres and 35.06 per cent have an area above 5000 acres. Thus, more than 75 per cent of the total villages of the district have above 2000 acres area. No. village in the district has an area less than or equal to 100 acres.

(d) Distribution of villages by Educational Amenities

Table No. 6 below shows the distribution of villages having educational amenities by distance from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Number of villages having				
			Primary school	Middle school	Higher secondry school	College	Others
1	5 km. or less	29	26 (89.66)	..	..	..	4(13.79)
2	6 .. 10 km.	71	47 (66.20)	..	..	..	9(12.68)
3	11 .. 15 km.	70	53 (75.71)	..	3 (4.29)	..	7(10.00)
4	16 .. 25 km.	163	125 (76.69)	..	5 (3.07)	..	16(9.82)
5	26 .. 50 km.	305	216 (70.82)	..	4 (1.31)	..	21(6.89)
6	51 .. 100 km.	230	139 (60.43)	..	7 (3.04)	..	10(4.35)
7	101 .. 200 km.	105	23 (21.90)	..	..	..	2(1.90)
8	201 Km. and above	..	..	..	..	..	..
	Total	973@	629 (64.65)	..	19 (1.95)	..	69(7.09)

@ (67 uninhabited villages are not included and 74 Hamlets which are treated as separate villages have been included).

Figures in brackets indicate percentage to total number of villages in each distance group.

Table 6 shows that out of the 973 villages 64.65 per cent can offer primary education. It also shows that generally the proportion of villages in the distance groups having primary school facilities decreases with the increase in the distance from the nearest town. Only 1.95 per cent of the total villages offer secondary education and 7.09 per cent have other educational facilities. The proportion of villages having other educational facilities decreases with the increase in distance from the nearest town.

(e) Medical Facilities

Distribution of medical institutions per 100 sq. km. is given in the following table.

TABLE No. 7

Medical facility per 100 sq. km.

Sl. No.	Name of Taluka	Total area (in sq. km.)	Number of medical institutions of any kind per 100 sq. km.
1	Bhuj	4528	0.77
2	Mundra	888	4.39
3	Mandvi	1425	2.81
4	Abdasa	2400	0.96
5	Lakhpat	1942	0.62
6	Nakhatrana	1984	1.01
7	Rapar	2998	0.40
8	Bhachau	2000	1.30
9	Anjar	1312	1.07

Table 7 shows that the highest proportion of medical facility per 100 sq. km. is in Mundra taluka (4.39). It is followed by Mandvi taluka (2.81). In the rest of the talukas it varies from a minimum of 0.62 (in Lakhpat taluka) to 1.30 (in Bhachau taluka).

(f) Electricity

Only 148 villages have electricity. The distribution of these villages by their distance from the nearest town is as under:-

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Sl. No.	Distance from the nearest town	Total number of villages	Number of villages with electric power supply
1	2	3	4
1	5 km. or less	29	13(44.83)
2	6 — 10 km.	71	21(29.58)
3	11 — 15 km.	70	21(30.00)
4	16 — 25 km.	163	25(15.34)
5	26 — 50 km.	305	47(15.41)
6	51 — 100 km.	230	20 (8.70)
7	101 — 200 km.	105	1 (0.95)
8	201 km. and above	..	..
	Total @	973	148(15.21)

@ 67 uninhabited villages are not included and 74 Hamlets are included as they are treated as separate villages.

(Figures in brackets indicate percentage to total number of villages in each distance groups).

It would be seen from the above table that only 15.21 per cent of the total villages of the District are electrified. It is also seen that the proportion of the villages with electricity declines with the increase in distance from the nearest town.

(g) Communications

The following table gives the distribution of villages having different type of communication facilities by distance from the nearest town.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Sl. No.	Distance from the nearest town	Total number of villages	Number of villages connected by					
			Pucca Road	Kutcha Road	Pucca road and river	Pucca road and rail	Kutcha road and rail	Others
1	2	3	4	5	6	7	8	9
1	5 km. or less	29	11(37.93)	18(62.07)	..	..	..	..
2	6 — 10 km.	71	15(21.13)	53(74.65)	..	3(4.22)	..	..
3	11 — 15 km.	70	18(25.71)	48(68.58)	..	4(5.71)	..	..
4	16 — 25 km.	163	41(25.15)	114(69.94)	..	5(3.07)	3(1.84)	..
5	26 — 50 km.	305	67(21.97)	230(75.41)	..	4(1.31)	3(0.98)	..
6	51 — 100 km.	230	31(13.48)	192(83.48)	..	3(1.30)	2(0.87)	..
7	101 — 200 km.	105	8(7.62)	96(91.43)	..	..	..	..
8	201 km. and above	..	..	..	..	..	..	..
	Total	973@	191(19.63)	751(77.18)	..	19(1.95)	8(0.82)	..

@ 67 Uninhabited villages are not included and 74 Hamlets are included as they are treated as separate villages.
(Figures in brackets indicate percentage of total number of villages in each distance group.)

The Table shows that only 19.63 per cent of the total villages of the District have the facility of pucca roads. 77.18 per cent have kutcha roads, while only 1.95 per cent have both pucca road and rail and only 0.82 per cent have both kutcha road and rail. The proportion of pucca roads in distance group varies from a maximum of 37.93 (in 5 km. or less) to a minimum of 7.62 (in 101 to 200 km.). The proportion of villages having pucca roads in each of the distance groups reveals that this proportion more or less declines with the increase in the distance from the nearest town. The trend is almost reversed in the case of kutcha roads.

(h) Number of Post Offices

The following table gives the distribution of post offices per 100 sq. km.

TABLE No. 10

Number of post offices per 100 sq. km.

Sl. No.	Name of Taluka	Total area in sq. km.	No. of Post offices per 100 sq. km.
1	Bhuj	4,528	0.91
2	Mundra	888	3.94
3	Mandvi	1,425	4.07
4	Abdasa	2,400	2.75
5	Lakhpat	1,942	0.88
6	Nakhatrana	1,984	2.72
7	Rapar	2,998	1.50
8	Bhachau	2,000	1.60
9	Anjar	1,312	2.90

It would be seen that Mandvi taluka has the largest number of post offices per 100 sq. km. (4.07). Mandvi is followed by Mundra (3.94), Anjar (2.90), Abdasa (2.75) and Nakhatrana (2.72). In the rest of the talukas it varies from 1.60 (in Bhachau) to 0.88 (in Lakhpat).

(i) Staple Food

Bajri, Jowar and Wheat constitute the staple food of the District.

Distribution of villages by staple food

Sl. No.	Name of Taluka	No. of villages reporting staple food				
		Bajri	Jowar	Wheat	Rice	Maize
1	2	3	4	5	6	7
1	Bhuj	163	122	164	10	9
2	Mundra	33	32	57	4	--
3	Mandvi	94	56	87	29	5
4	Abdasa	154	138	67	1	--
5	Lakhpat	82	19	26	49	--
6	Nakhatrana	128	61	110	22	2
7	Rapar	109	106	107	3	--
8	Bhachau	79	77	77	..	..
9	Anjar	73	63	44	22	2

(j) Land Use

The following table gives the percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town. The cultivable waste land includes pastures and grazing land and area under miscellaneous trees and groves but does not include orchards.

TABLE No. 11

Percentage of average cultivable waste per village to average cultivated land per village by distance group from the nearest town

Sl. No.	Distance from the nearest town	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7	8
1	5 km. or less	29	51,875	1,788.8	8,667	298.9	16.71
2	6 - 10 km.	71	122,138	1,720.3	30,990	436.5	25.37
3	11 - 15 km.	70	190,249	2,717.8	44,395	634.2	23.34
4	16 - 25 km.	163	367,234	2,253.0	64,450	395.4	17.55
5	26 - 50 km.	305	614,392	2,014.4	416,038	1,364.1	6.77
6	51 - 100 km.	230	416,907	1,812.6	370,776	1,612.1	8.89
7	101 - 200 km.	105	79,684	758.9	12,123	115.5	1.52
8	201 km. and above	..	..	..	..	..	..
	Total	973	1,842,479	1,893.6	947,439	973.7	51.42
	Uninhabited villages :	67	16,712		10,110		
	Grand Total	1040	1,859,191		957,549		

(74 Hamlets villages are totals as separate villages)

The average area of cultivated land per village thus works out at 1893.6 acres for the district as a whole. The highest average of 2717.8 acres per village obtains for villages in the distance group of 11 to 15 km. from the nearest town. The minimum per village at 758.9 acres is to be found in the 101 to 200 km. distance from the nearest town group of villages. The average cultivable waste land per village in respect of the whole District works out at 973.7 acres. The highest average cultivable waste per village at 1612.1 acres obtains in the 51 to 100 km. distance from the nearest town group of villages. The lowest average under this head on the other hand obtains in the 101 to 200 km. from the nearest town group of villages where the average cultivable waste works out at 115.5 acres per village. It may be noted that the percentage of average cultivable waste per village to the average cultivated land per village decreases proportionately with the increase in the distance from the nearest town barring the first distance group of villages situated within 5 km. from the nearest town.

* Area of Tharavada Nana village is included in that of the village Tharavada Mota (L. C. No. 137).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Uninhabited

† Area of Kuvay village is included in that of the village Hatdi. (L. C. No. 59).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Col. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Col. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Uninhabited.

† Area of Khari Vandh village is included in that of the village Pipar (L. C. No. 77).

‡ Includes area of the village Ekliun.

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

* Area of Fulpara village is included in that of the village Bhimdevka (L. C. No. 109).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

† Area of Surbari village is included in that of the village Shikarpar (L. C. No. 79).

Note :—

The figures in the last line indicate Taluka totals. The figures in brackets in this line under Col. 4 indicate the number of Primary, Secondary and other schools. The figures in brackets under Cols. 5 to 9 indicate the number of villages having those particular amenities.

The area figures shown in Col. 3 may not tally with the total of Cols. 11 to 15 in some cases due to rounding.

PART X-B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

PRIMARY CENSUS ABSTRACT

Primary Census Abstract of 1971 Census provides information in respect of each village in rural area and town/ward/enumerator's block in urban area. It gives information about the area of the village in acres and towns in square kilometres, number of occupied residential houses and households, total population with sex break-up (including Houseless and Institutional Population) and population of Scheduled Castes and Scheduled Tribes, literate and educated persons. The entire population of each village/urban enumerator's block is divided into nine industrial categories of workers and non-workers as under :—

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied Activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs
(a) Household Industry
(b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

X Non-workers

The sexwise break-up of total workers (industrial category I to IX) have been presented, in addition to similar break-up for each industrial category of Worker and Non-worker.

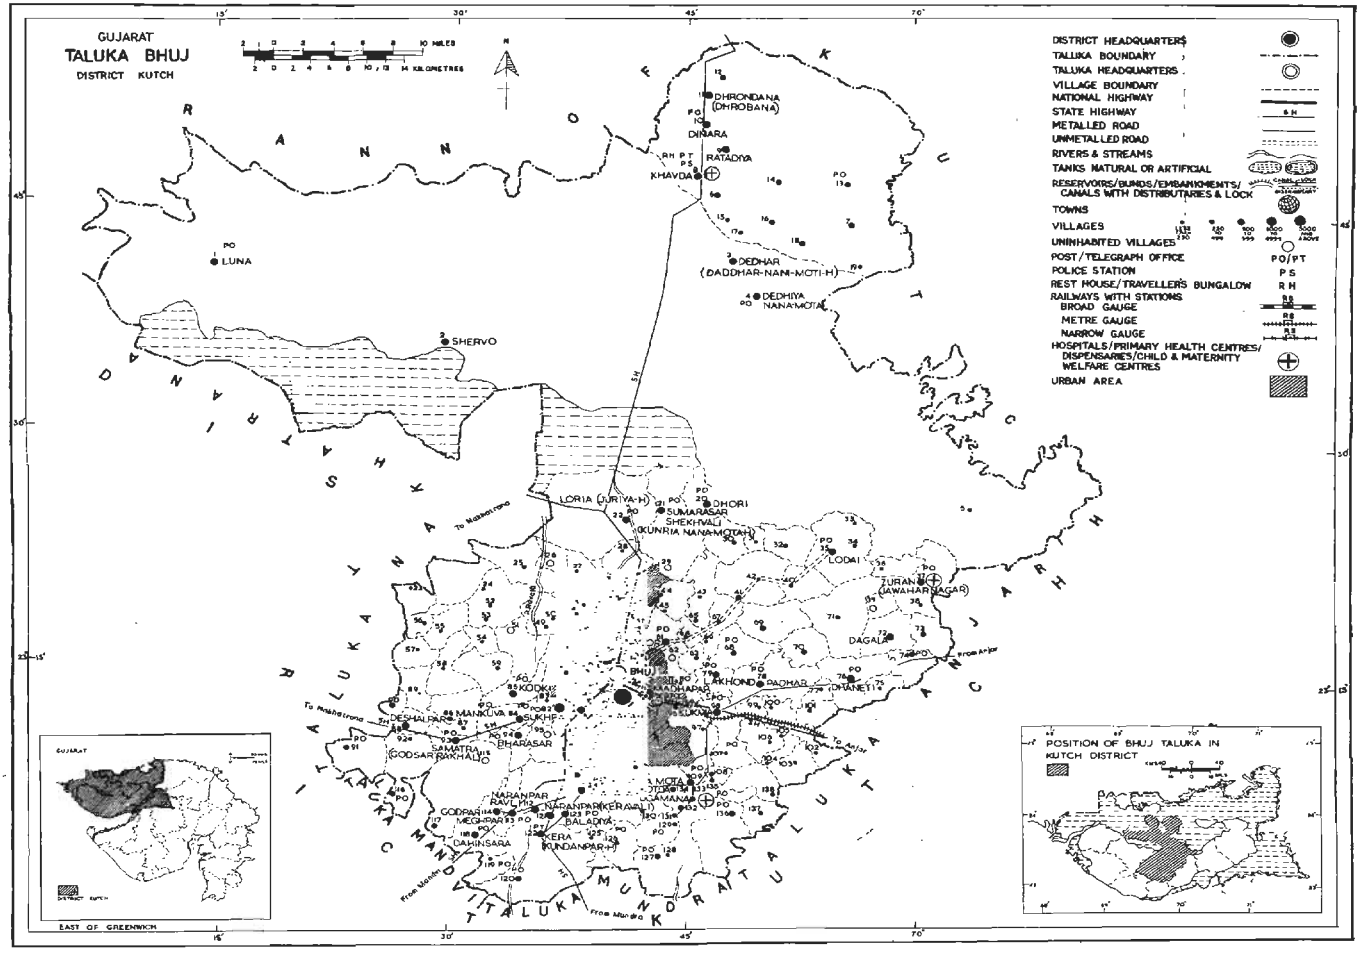

The following abbreviations have been used in the Primary Census Abstract for facility of presentation :-

1	Municipal Corporation	MC
2	Municipality	M
3	Non-Municipal Area	NM
4	Nagar Panchayat	NP
5	Village Panchayat	VP
6	*Cantonment*	Cantt.
7	Not Available	N A

The following conversion factor has been used for converting acres into Km.^{2}

Acres x 0.004047 = Km.^{2}

* These represent provisional 'geographical area' figures supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the District. The total of the area figures of the Talukas/Mahals will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

† Included in the area of Luna Village.

‡ Included in the area of Bhitara Mota (H).
