VILLAGE & TOWN PRIMARY CENSUS ABSTRACT

T. VEDANTAM
OF THE INDIAN ADMINISTRATIVE SERVICE
DIRECTOR OF CENSUS OPERATIONS
ANDHRA PRADESH

UBLISHED BY THE GOVERNMENT OF ANDHRA PRADESH
1973

THE GANDHI HILL, VIJAYAWADA

The motif given for the Krishna District Census Handbook represents the Gandhi Memorial Column raised in honour of Mahatma Gandhi. The Memorial Column constructed in Vijayawada, which is the Political Headquarters of Andhra, on a hillock which too is named after Gandhiji is one among the six such memorials erected in different parts of India by the Gandhi National Memorial Trust. The places so chosen are closely associated with Gandhiji's life and work in India. Vijayawada (Population : 317,258), a prosperous city on the northern bank of the mighty Krishna River in the Andhra Region has the unique distinction of being the first place where the column was constructed. The city has historical association with Mahatma Gandhi and it was the venue for the meeting of the All India Congress Committee which met on March 31—April 1, 1921. It was here that it adopted the famous 'Triple Programme' of the Congress as well as its tri-colour flag designed by an Andhra Political Worker, Sri Pingali Venkayya. Because of such memorable role of the Vijayawada session, the Gandhi National Memorial Trust in its plan and programme of setting up permanent memorials to Bapu selected Vijayawada for raising an appropriate monument.

The Gandhi Memorial Column is visible for miles around and is close to the Vijayawada Railway Junction on South Central Railway. The foundation stone for this monument was laid by Sri Lal Bahadur Sastri as Prime Minister of India on 9th November, 1964 while it was unveiled by Dr. Zakir Hussain as President of India on 6th October, 1968. The Memorial Column was designed by Sri Nandalal Bose. Built in red marble, procured from Rentachintala, a village panchayat in the adjoining Guntur District, the sculptures on the Column moulded by the well-known traditional sculptors of Durgi village of the same district, the massive tower rises to a height of 52' from its base constructed at the crest of the hill which is about 500' high from the ground. The Column was constructed by Sri Mukkamala Nagabhushanam, a local worker of Vijayawada City.

With a view to perpetuating the memory of Mahatma Gandhi and propogating his ideals and message, a number of distinctive structures and amenities were planned and initiated around the central structure—the Gandhi Memorial Column on the Gandhi Hill. The first of the series is the Gandhi Memorial Library and the Gandhi Memorial Hall. It is a Research Library for scholars on Gandhism as also on contemporary religious and political philosophies of different countries of the world.

The Gandhi Hill which has become a pilgrim centre drawing numerous visitors was developed with trees and gardens into a place of scenic beauty. The children's train on the Gandhi Hill which is a unique feature in this region attracts a lot of children who enjoy their joy rides. The track laid around the Hill at a height of 200' provides an opportunity for the visitors to catch a glimpse of the sprawling city's splendour, a good view of the sacred River Krishna and the magnificent Prakasam Barrage over it, and its neighbourhood dotted with plantations and other vegetation. More important than this is the Gandhi Study Centre for children, the citizens of tomorrow. The Centre is intended to spread the Gandhian message among the children who come mostly from the city's primary and upper primary schools and occasionally from the neighbouring villages. There are also the other projects which would enhance the interest and importance of the Gandhi Hill like the setting up of the Jamnalal Bajaj Observatory, a planetarium, a museum, a tower clock, a swimming pool, a guest house and a canteen.

The setting up of the 'Son-Et-Lumiere' spectacle on the life and message of Mahatma Gandhi on the Gandhi Hill which brings to life Gandhiji's legend, work and message through the medium of sound and light (Gandhi Dhwani Prakash Pradarsan) is one of the important features of the place. The instruments used on the Gandhi Hill were got specially manufactured for this purpose. A distinctive feature of this Pradarsan is that the life story of Mahatma Gandhi who was considered by the historians as the greatest figure of the twentieth century is depicted here while such programmes elsewhere generally relate to the history of ancient monuments.

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of the Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts *viz.*, Part A—Village and Town Directory, Part B—Village and Town Primary Census Abstract and Part C—Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities etc., available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of the 1971 Census Handbooks of all the 21 Districts in the State have been finalised already and I expect that before the end of 1973 Parts A and B for all the 21 Districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing etc., required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Shri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part-A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Shri A. Chandra Sekhar, IAS., Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of Krishna District Census Handbook under the guidance and supervision of Shri P. S. R. Avadhany, Deputy Director of Census Operations and Sri K. Narasimha Murthy, Assistant Director of Census Operations of my Office.

Sri P. B. Sunder Raj, Tabulation Officer Sri T. Brahmiah, Statistical Assistant Sri K. V. Sarma, Statistical Assistant	Drafting Scrutiny and Supervision
Smt. P. Lalitha, Tabulation Officer Sri A. V. Krishna Reddy, Computor	Supervision of Printing
Sri N. Gangaraju, Computor Sri S. Rama Krishna, Assistant Compiler Sri P. V. Prabhaker, Assistant Compiler Sri K. Devadass, Asst. Compiler Sri B. L. Ram Gopal, Asst. Compiler	Collection and Compilation

Sri M. B. Vittalacharya, Proof Reader Sri Abid Yarkhan, Proof Reader	Proof Reading
Sri A. Venkateswara Rao, Assistant Compiler	Scrutiny of Maps
Sri M. N. Ram Mohan, Artist	Supervision of Mapping work
Sri Syed Ahmed, Senior Draughtsman Sri M. J. Sadiq, Draughtsman Sri N. G. Swamy, Draughtsman Sri Mohiuddin Hassan, Draughtsman Sri M. Shankaraiah, Draughtsman Sri Md. Yaqub Ali, Draughtsman Sri B. Raghuram, Draughtsman Smt. Daya Saxena, Draughtsman Sri D. Koteswara Rao, Computor	Preparation of Maps

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

T. VEDANTAM
Director of Census Operations

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published District Manual for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two Volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. They decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume 'B' was also stopped after 1931 Census. Due to the II World War, they were not published after the 1941 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from these District Manual and Gazetteer, the Census data upto village level used to be published in a brochure called "Village Statement" for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census, Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbooks for each district in place of Village Statements was first entertained and put forward at the 1951 Census by Sri R.A. Gopalaswamy, I.C.S., the then Registrar General, India and *ex-officio* Census Commissioner of India as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the village statistics of the past Censuses. This suggestion was accepted by most of the State Governments. Both the Composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing Administrative Statistics and Part II, the Census Tables. In the composite Madras State, the Handbooks were brought out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was significantly enlarged by Sri Ashok Mitra, I. C. S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief Gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961

Census Tables *viz.*, General Population Tables, Economic Tables, Cultural and Migration Tables, Special Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of Village and Town Directory which was the most vital part of the Handbook, giving villagewise and townwise Primary Census Abstract *i.e.*, particulars of area, households, population, scheduled castes, scheduled tribes, literates, broad categorisation of working population etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine sub-tables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen etc., were given after Village and Town Directory. A tabular statement on Fairs and Festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful and valuable publications and had considerable demand by public as well as the official users of the census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the last Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important census data to the planners, administrators and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts *viz.*, Part A, Part B and Part C. Part A contains Village and Town Directory. Part B contains Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later.

A brief outline on the scope of each of these three parts is given below.

Part A : Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory : It is arranged talukwise and gives for each village, particulars of amenities available in the matter of educational and medical institutions, power and drinking water supply, post and telegraph facilities, communications, particulars of land use, markets, places of religious, historical or archaeological interest in the village.

Town Directory : The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the scheduled castes/tribes population inhabiting are presented in seven statements. They are given for each town in the district arranged in alphabetical order.

Part B : Village & Town Primary Census Abstract

This part gives for each revenue village and also for each enumerator's block and ward of a town the Primary Census data *i.e,* area, occupied residential houses, number of households, total population and its break up by sex, scheduled castes, scheduled tribes population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry, fishing, plantations etc., mining and quarrying, in manufacturing, in construction, in trade and commerce, transport, storage and communications and in other services and the non-working population as per 1971 Census.

Part C : Administrative Statistics and Report

This part comprises the various Administrative statistics pertaining to the district with special reference to the development taken place during 1961–70 in different spheres and also the 1971 Census Tables relating to the general population, economic characteristics, cultural and migration features, housing and establishment tables and data pertaining to the district regarding language and religion. A write up indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries, Trade and Commerce, Education, Medical and Public

Health, Community Development etc., is given at the beginning of this part. In view of the elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban classification of areas

It is customary to classify the population of every country at a census as Rural and Urban. Such a classification has considerable significance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence at the beginning of each census the criteria for treating a place as town (*i.e.*, urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decided them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an Urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census.

1. All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and

2. All other places which satisfied the following criteria

   (a) a minimum population of 5,000

   (b) a density of population of at least 1,000 persons per sq. mile (400 persons per sq. km.) and

   (c) at least three fourths (75%) of the male working population is non-agricultural.

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to decide a place as town or village.

The towns are distributed into six classes as detailed below :—

Classification	*Population Size*
Class I Towns	100,000 and above
Class II Towns	50,000 - 99,999
Class III Towns	20,000 - 49,999
Class IV Towns	10,000 - 19,999
Class V Towns	5,000 - 9,999
Class VI Towns	Below - 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.*, Urban Agglomeration and Standard Urban Area were newly evolved at the 1971 Census. They are briefly explained below.

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port Areas, Military Camps etc. Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowth would deserve to be treated as an integrated urban area. At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomeration replaced the concept of Town group followed in the 1961 Census. The following criteria have been laid down broadly to treat an urban unit as an urban agglomeration :

(a) A city with continous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of the adjoining village or villages).

(b) One town with similar out growth or two or more adjoining towns with their out growths as in (a) and

(c) A city and one or more adjoining towns with their out growths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh, the following four places are treated as Urban Agglomerations.

Name of the Urban Agglomeration (1)	*Constituent units in the Urban Agglomeration* (2)
1 Visakhapatanam Urban Agglomeration	(a) Visakhapatnam City (i) Visakhapatnam Municipality (ii) Gajuvaka (Out-growth) (b) Gopalapatnam
2 Rajahmundry Urban Agglomeration	(a) Rajahmundry Municipality (b) Rajahmundry Non-Municipal Area
3 Vijayawada Urban Agglomeration	(a) Vijayawada Municipality (b) Patamata Town (c) GunadalaTown
4 Hyderabad Urban Agglomeration	(a) Hyderabad Municipal Corporation (i) Hyderabad Division (ii) Secunderabad Division (b) Secunderabad Cantonment (c) Malkajgiri (d) Alwal (e) Uppal Khalsa (f) Balanagar (g) Fatehnagar (h) Macha Bolarum (i) Osmania University (j) Lalaguda (k) Kukatpalle (l) Moosapet (m) Bowenpalle (n) Zamistanpur

The Standard Urban Area (S. U. A.)

The concept of the Standard Urban Area has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at 1961 Census did not effectively tackle the problems involved in reporting urban statistics apart from lacking a uniform application throughout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constitutent units whose jurisdictions were subjected to frequent changes and thus lacked in stability. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over time but also lost spatial comparability with similar data processed both within the country and outside. These short-comings reduced considerably the utility of the town-group concept which was also found somewhat inadequate for the purpose it was developed. To enable the presentation of urban statistics on a uniform basis and also to ensure comparability of the census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban out growth such as the suburbs (industrial and residential), Railway Colonies, Civil Lines, Cantonments and also such of those villages that are likely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, and the village. The boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed :

(i) The core town should have a minimum population of 50,000,

(ii) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town, and

(iii) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In Krishna District, Vijayawada, Machilipatnam and Gudivada Towns with their surrounding villages are treated as Standard Urban Areas.

PART - A

VILLAGE AND TOWN DIRECTORY

SECTION I – Village Directory

SECTION II – Town Directory

SECTION I

VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electric supply facilities in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides presenting the data on basic amenities like, educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The villagewise Primary Census Abstract is presented separately in Part B of this Volume.

In the Village Directory, the revenue village is taken as the lowest unit for presentation of data. The villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory, the Village Directory contains only one statement. An alphabetical list of villages with the Location Code Numbers against them is given at the beginning of the Village Directory of each taluk. This facilitates the reader to select the required village from the alphabetical list and after knowing its location code number to obtain the necessary particulars from the Village Directory. The Village Directory is broadly divided into four broad sections *viz.*, location particulars, basic amenities like educational, medical etc., land utilisation and distance from urban area and the importance of the village as a religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the village. The area given under Col. 3 is as per the data furnished by the Tahsildar and the State Survey Department. Columns 4 to 9 give the basic amenities available in the village such as the educational, medical, electricity, drinking water, communications and postal facilities.

The educational facilities are shown by the following symbols under column 4.

P : Primary or Elementary School
M: Middle School
H : High School or Higher Secondary School
C : College
T : Technical Institution

If there are more institutions than one of a type in the village the number of institutions precedes the abbreviations *e.g.*, 3P, 2M, 3H etc.,

Medical and Public Health facilities existing in the village are shown by the following symbols under column 5.

H : Hospital
D : Dispensary
Mcw : Maternity and Child Welfare Centre
Fpc : Family Planning Clinic
Phc : Primary Health Centre

If the village is electrified then it is indicated by the letter E under column 6.

The types of drinking water supply sources available within the village are indicated as below :

T : Tap
W : Well
Tk: Tank
Tw: Tube well
R : River
C : Canal

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, then the communication facilities of the village, under column 8 have been indicated as below :

PR : Pucca Road
KR : Katcha Road
T : Train
R : River
C : Canal

The postal facilities, if any, existing in the village are indicated under column 9 by the following symbols:

PO : Post Office
TO : Telegraph Office
PTO : Post & Telegraph Office
Phone: Telephone

If a village does not have any of the above facilities then "..." is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 as given below. If there is variety of grains mainly used in a village then they have been indicated, accordingly.

Ri : Rice
W : Wheat
J : Jowar
B : Bajra
Ra : Ragi
M : Maize

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells etc., are given, wherever available under column 12 while under column 13 the extent of land unirrigated is given. Column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells etc., is given under column 15.

The various types of land use given under each of the 11 to 15 columns are listed out and the concepts explained below

1 Forests (Column 11) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with breakup irrigated & unirrigated (Columns 12 & 13) : This includes the land under the following three categories.

(*i*) *Net Area sown :*

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(*ii*) *Current fallows :*

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(*iii*) *Other fallows :*

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3 Culturable waste (Column 14) This includes the land under the following three categories-

(*i*) *Miscellaneous tree crops, groves not included in the area sown:*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under " Orchards " are classed under this category.

3 Culturable waste (Column 14)—*Concld.*

(*ii*) *Culturable waste :*

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

(*iii*) *Permanent pastures and other grazing lands :*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

4 Area not available for cultivation (Column 15) : This includes the land under the following two categories.

(*i*) *Barren and uncultivable land :*

This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(*ii*) *Land put to non-agricultural uses:*

All lands occupied by buildings, roads and railways or underwaters, *e.g.*, rivers and canals and other lands put to uses other than agricultural.

Under column 16 the name of the nearest town and the distance of the village from it in Kms. are given. The days on which weekly markets/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeological and tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and Local Bodies concerned and also from the concerned departments like Postal, Medical, Education, Electricity.

INHABITED AND UNINHABITED VILLAGES

There are 982 villages in this district at the 1971 Census out of which 43 are uninhabited villages and 939 are inhabited villages. Nine of these inhabited villages are partly included in different urban areas in the district. The following statement gives the distribution of the 939 inhabited villages according to broad population sizes.

STATEMENT 1

VILLAGES CLASSIFIED BY POPULATION SIZE

Population Size	No. of Inhabited Villages
Less than 200	32
200–499	81
500–999	209
1,000–1,999	278
2,000–4,999	278
5,000–9,999	59
10,000 and above	2
Total ...	**939**

It may be seen from the above statement that 339 villages or 36.1% of the inhabited villages are having a population of 2,000 or more each, while 322 villages or 34.3% of the inhabited villages are having a population of less than 1,000 each. The following statement gives the distribution of villages (inhabited and uninhabited) according to broad categories of geographical areas.

STATEMENT 2

VILLAGES CLASSIFIED BY GEOGRAPHICAL AREA

Area (in acres)	No. of villages
50 or less	2
51–100	2
101–200	14
201–500	105
501–1,000	222
1,001–2,000	291
2,001–5,000	273
5,000 and above	71
Unspecified	2
Total ...	**982**

Among the 982 villages including the uninhabited, 344 villages or 35.0% of the total villages have an area of more than 2,000 acres each. The number of villages with area less than 500 acres each account for only about 13% of the total number of villages. About 30% of the villages are found in the size class of 1,001-2,000 acres in this district. Area figures of two villages are not available.

Educational Facilities

Education plays an important role in the evolution of society and is one of the basic facilities that has to be provided to the people. An idea of the extent and the level to which education has been provided in the rural areas of the district can be had from the table below. The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links.

STATEMENT 3

EDUCATIONAL FACILITIES

Distance from nearest town in Kms.	Total No. of inhabited villages	No. of villages having: Primary Schools	Middle Schools or Upper Primary Schools	High or Higher Secondary Schools	Colleges
(1)	(2)	(3)	(4)	(5)	(6)
5 or less ...	100	82	27	4	2
6–10 ...	232	190	58	37	1
11–15 ...	186	174	40	31	...
16–25 ...	252	223	50	47	...
26–50 ...	154	145	30	17	...
51–100 ...	9	9	2	...	...
Unspecified...	6	1	...	1	1
Total	**939**	**824**	**207**	**137**	**4**

115 villages or 12.2% of the total inhabited villages do not have even the minimum educational facilities. However, many of these villages seem to be quite close to towns where adequate educational facilities are available. 207 villages are having middle schools while 137 villages have high/higher secondary schools. There are four colleges also in the rural areas of Krishna district including the Sanskrit College at Chittigudem in Bandar taluk.

Medical Facilities

There are, in all, 124 medical institutions of various categories in the rural areas of Krishna district. There are 2 hospitals, 99 dispensaries, 23 other medical institutions like Primary Health Centres, Family Planning Clinics and Maternity Child Welfare Centres in this district. Dispensaries, and one or more of the Primary Health Centres or Family Planning Clinics or Maternity Child Welfare Centres exist in every taluk, while hospitals are reported only in the rural areas of Vijayawada and Tiruvur taluks. There is on an average one medical institution for every 100 Sq. Kms. of area in the rural parts of this district. Vijayawada and Divi taluks have more medical facilities compared to other taluks in the district.

The following statement gives the number of medical institutions in each taluk.

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Name of the Taluk	No. of Medical Institutions: Hospitals	Dispensaries	(Others (Fpc, Phc, & Mcw)
(1)	(2)	(3)	(4)
Bandar ...	...	9	2
Divi ...	...	12	2
Gannavaram	...	21	7
Vijayawada	1	15	1
Nandigama	...	9	2
Jaggayyapet I.S.T.	...	1	1
Tiruvur ...	1	8	2
Nuzvid ...	...	9	1
Gudivada ...	...	9	3
Kaikalur ...	...	6	2
Total ...	**2**	**99**	**23**

Electrification

The following statement shows the distribution of electrified villages in Krishna district.

STATEMENT 5

NUMBER OF VILLAGES HAVING ELECTRICITY

Distance from the nearest town in Kms.	Total No. of inhabited and uninhabited villages	No. of villages with electric power supply
(1)	(2)	(3)
5 or less	105	68
6–10	241	134
11–15	194	96
16–25	261	147
26–50	165	83
51–100	10	1
Unspecified	6	1
Total	**982**	**530**

It may be seen from the above that 530 villages or 54.0% of the total number of villages are electrified

in this district. The breakup of these 530 electrified villages by taluks is shown below :

STATEMENT 6

DISTRIBUTION OF ELECTRIFIED VILLAGES BY TALUKS

Taluk	Total No. of villages	No. of electrified villages	Percentage of electrified villages to total No. of villages
(1)	(2)	(3)	(4)
Bandar	115	19	16.5
Divi	96	64	66.7
Gannavaram ...	118	76	64.4
Vijayawada ...	123	80	65.6
Nandigama ...	108	63	58.3
Jaggayyapet I.S.T. ...	44	31	70.5
Tiruvur	81	38	46.9
Nuzvid	80	57	71.3
Gudivada	118	81	68.6
Kaikalur	99	21	21.2
Total ...	**982**	**530**	**54.0**

STATEMENT 6—*Concld.*

In Bandar and Kaikalur taluks the proportion of electrified villages is very low compared to that in other taluks in the district.

COMMUNICATION FACILITIES

The following statement shows the communication facilities available with reference to proximity to urban areas.

STATEMENT 7

COMMUNICATION FACILITIES

Distance from the nearest town (In Kms.)	Total No. of Villages	No. of villages connected by				
		Pucca road	Katcha road	Pucca road & train	Katcha road & train	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	105	42	58	1	...	5
5–10	241	74	150	9	3	17
11–15	194	47	135	3	2	12
16–25	261	65	178	2	2	18
26–50	165	40	104	...	1	21
51–100	10	1	6	...	...	3
Unspecified	6	1	...	1	...	5
Total ...	**982**	**270**	**631**	**16**	**8**	**81**

Many of the villages in this district are having Katcha road facilities. 631 villages or 64.3% of total villages are connected by katcha roads while 270 villages or 27.5% of the total villages only are connected by pucca roads which may perhaps be due to the deltaic nature of land. 24 villages are reported as having rail transport facilities and 81 villages are not having any road communications; some of these villages have navigation facilities.

POSTAL FACILITIES

Statement 8 given on page 10 shows the total number of Post and Telegraphic Offices, and phone facilities available in each taluk of Krishna district

STATEMENT 8

POSTAL AND TELEGRAPHIC FACILITIES

Name of the Taluk	Total No. of Villages	No. of Villages having				No. of Post Offices per 100 sq. kms.
		Post Offices	Telegraphic Offices	Others		
				Post & Telegraph Offices	Phone	
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Bandar	113	61	...	3	3	7.2
Divi	93	69	...	7	8	6.6
Gannavaram	109	78	...	12	3	12.1
Vijayawada	114	71	...	6	22	6.4
Nandigama	100	75	...	2	8	7.9
Jaggayyapet I.S.T.... ...	39	26	...	2	2	6.9
Tiruvur	81	57	...	2	1	5.5
Nuzvid	78	47	...	2	6	5.5
Gudivada	114	73	...	10	3	12.6
Kaikalur	98	61	...	...	...	9.0
Total ...	**939**	**618**	**...**	**46**	**56**	**7.6**

618 villages out of the total 939 inhabited villages are having post offices. 46 villages are having post and telegraphic offices and 56 villages are having trunk phone facilities also. The rural areas of all the taluks are having post, telegraph and trunk phone facilities except Kaikalur taluk where only post office facilities are available. There are 8 post offices per every 100 sq. kms. rural area in Krishna district. Gannavaram taluk has post offices in a large number of villages (78) though the proportion of villages having post offices is higher in Nandigama taluk.

STAPLE FOOD

The main staple food of the rural population in this district are rice and in few cases jowar.

CULTIVATED LAND

In the context of the land reforms which are under active consideration, the data on the extent of land which could be brought under the plough but is lying uncultivated, and the extent of land cultivated in each village has assumed importance. A statement showing the average cultivated land and the average cultivable waste per village classified by the distance to the nearest town is given below :

STATEMENT 9

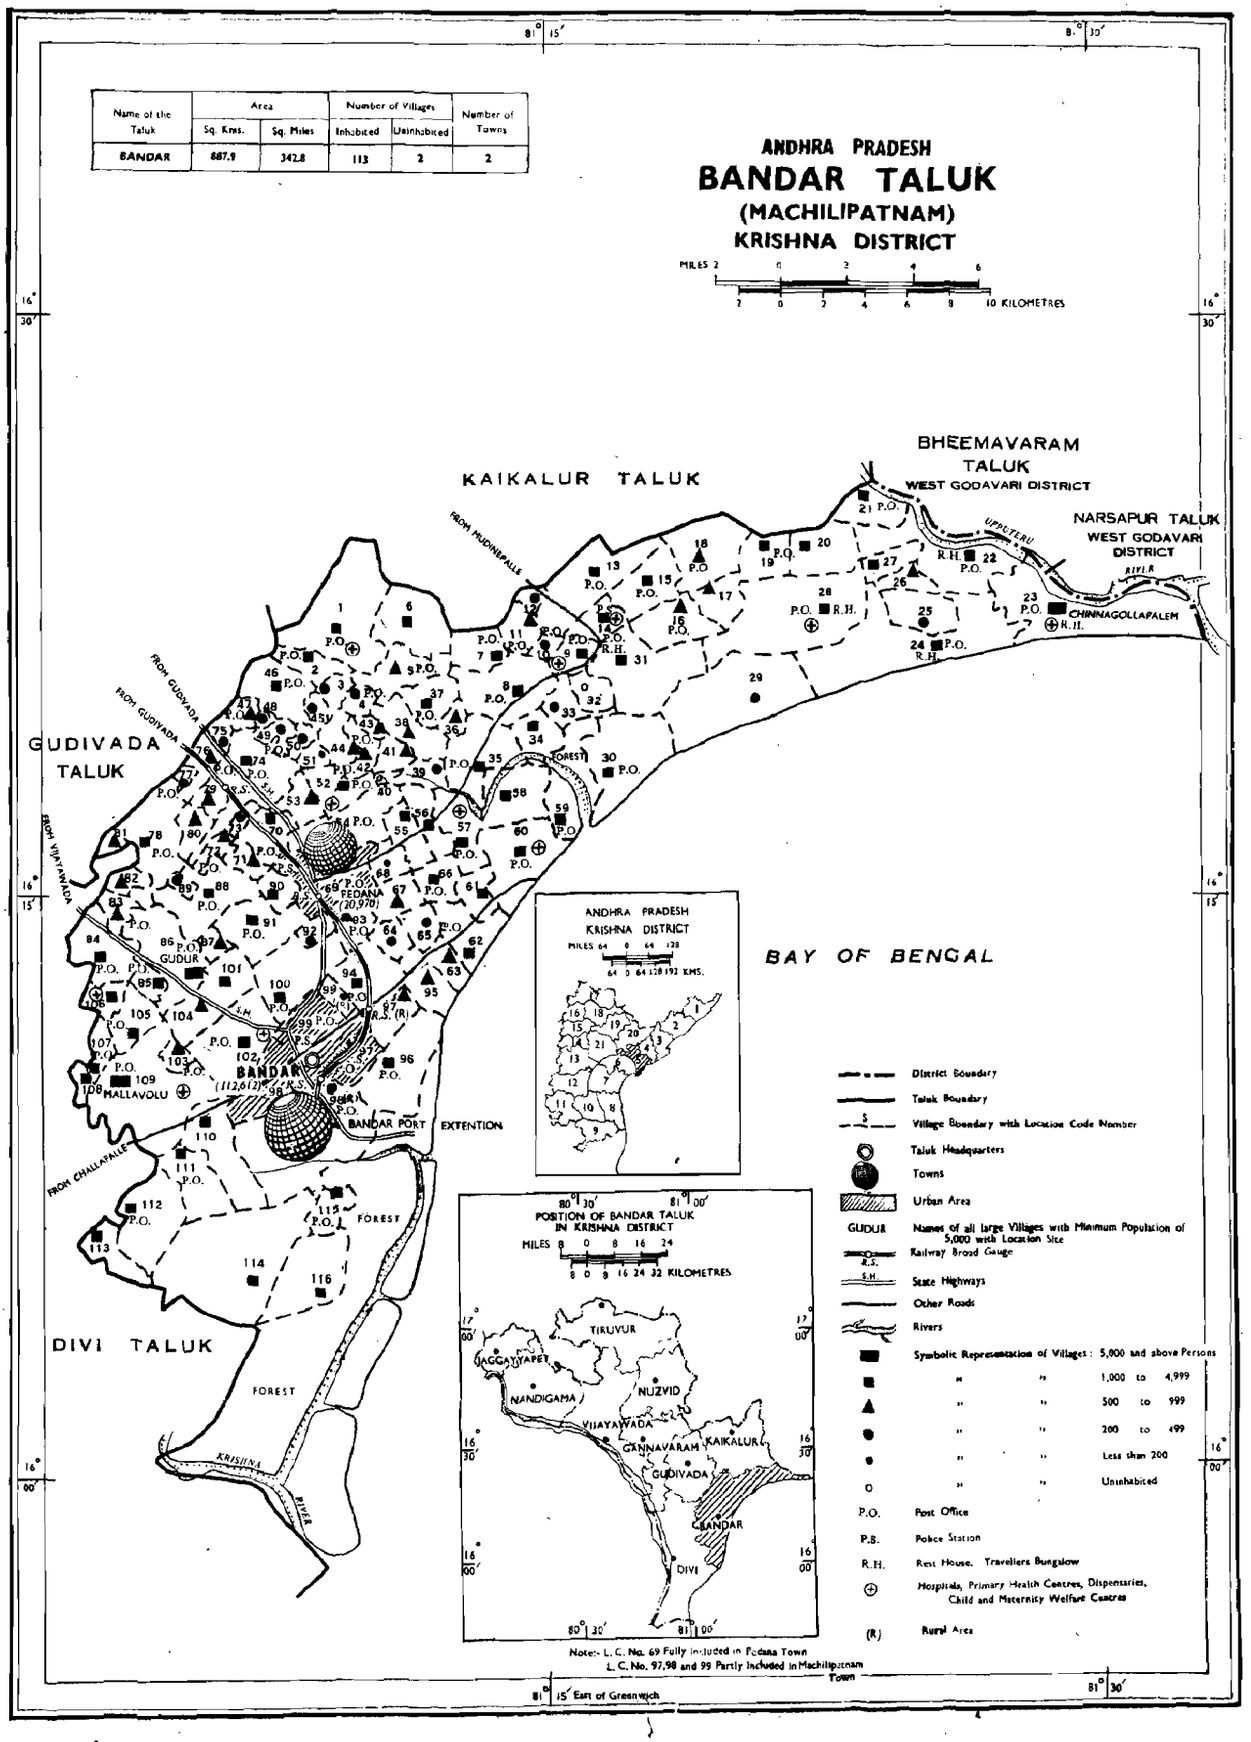

STATEMENT SHOWING AVERAGE CULTIVATED LAND PER VILLAGE

Distance from the nearest town in Kms.	Number of villages	Total cultivated land (acres)	Average cultivated land per village (acres)	Total cultivable waste (acres)	Average cultivable waste per village (acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	105	105,470	1,004	14,845	141	14.0
5–10	241	318,604	1,322	44,952	186	14.1
11–15	194	253,701	1,308	31,302	161	12.3
16–25	261	428,211	1,641	64,312	246	15.0
26–50	165	226,925	1,375	38,835	235	17.1
51–100	10	20,128	2,013	3,316	332	16.4
Unspecified	6	6,226	1,038	...	...	...
Total ...	**982**	**1,359,265**	**1,384**	**197,562**	**201**	**14.5**

On an average the area under cultivation in each village is 1,384 acres while the extent of cultivable waste is 201 acres. In other words waste land is about 14.5% of the cultivated land which could be cultivated, perhaps, with some efforts.

The several particulars furnished in the village directory reveal that in the rural areas of this district, adequate educational facilities are not available in about 115 villages which are in the vicinity of towns ; only one medical institution is available for every 100 sq. kms. rural area ; 54% of the total villages (including uninhabited) have power supply. About 28% of the villages only are reported as connected by pucca roads, and a cultivable waste land forms 14.5% of the cultivated land on an average in each of the villages in the district.

SECTION II

TOWN DIRECTORY

Town Directory

In the Town Directory, the towns in the district are arranged alphabetically and the several particulars relating to them are given in the following seven statements :

Statement I Status, Growth History and Functional Category of Towns

Statement II Physical Aspects and Location of Towns

Statement III Civic Finances

Statement IV Civic and other Amenities in Towns

Statement V Medical, Educational, Recreational and Cultural Facilities in Towns

Statement VI Trade, Commerce, Industry and Banking Facilities

Statement VII Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The following sixteen places have been treated as towns in Krishna district at the 1971 Census.

1	Machilipatnam (Bandar)	9	Gunadala
2	Pedana	10	Kankipadu
3	Avanigadda	11	Nandigama
4	Challapalle	12	Jaggayyapet
5	Gannavaram	13	Tiruvur
6	Vuyyur	14	Nuzvid
7	Vijayawada	15	Gudivada
8	Patamata	16	Kaikalur

Of the above 16 places, Challapalle, Patamata, Gunadala and Kankipadu are classified as towns for the first time in the 1971 Census, Pedana and Vuyyur are classified as towns from 1921, Avanigadda from 1951 while Gannavaram, Nandigama, Tiruvur and Kaikalur are treated as towns from 1961 only. The rest of towns *viz.*, Machilipatnam, Vijayawada, Jaggayyapet, Nuzvid and Gudivada have been enjoying this status since 1901 onwards. Mokhasa Mutyalampadu lying on the outskirts of Vijayawada was an independent town at the 1961 Census but was merged in Vijayawada Municipality after the 1961 Census. Three towns in the district *viz.*, Vijayawada, Machilipatnam and Gudivada with some of their surrounding villages as detailed below are treated as Standard Urban Areas. Vijayawada with Gunadala and Patamata as constituent parts, forms Vijayawada Urban Agglomeration.

Standard Urban Area (1)	*Component Units*	
	Urban (2)	*Rural* (3)
1. Vijayawada	(1) Vijayawada	(1) Gollapudi
	(2) Patamata	(2) Bhavanipuram
	(3) Gunadala	(3) Ramavarappadu
	(4) Tadepalle	(4) Prasadampadu
		(5) Kanuru
		(6) Enikapadu
		(7) Yenamalakuduru
		(8) Undavalli
2. Machilipatnam	(1) Machilipatnam (Bandar)	(1) Kara Agraharam
		(2) Chilakalapudi
		(3) Bandar
		(4) Machavaram
		(5) Arisepalle
		(6) Sultanagaram (Gollapalem)
3. Gudivada	(1) Gudivada	(1) Nagavarappadu
		(2) Valivartipadu
		(3) Gudivada
		(4) Gangadharapuram
		(5) Billapadu
		(6) Mandapadu
		(7) Pedayerukapadu
		(8) Bethavolu

Among the 16 towns, Vijayawada and Machilipatnam are cities with a population of one lakh and more and have therefore been categorised as Class I towns. From the population point of view, Vijayawada with a population of 317,258 persons is the third largest city in the State next to Hyderabad and Visakhapatnam. Vijayawada had occupied the second place among the towns in Andhra Pradesh in 1961 Census. Machilipatnam the district headquarters is the second big city in the district. Gudivada town with a population ranging between 50,000 to 99,999 is the only town taking Class II classification. Pedana and Nuzvid are the two Class III towns with a population ranging from 20,000-49,999. Seven towns *viz.*, Avanigadda, Vuyyur, Patamata, Gunadala, Nandigama, Jaggayyapet and Tiruvur have to be classified as Class IV towns with a population of 10,000 to 19,999. The remaining four *viz.*, Challapalle, Gannavaram, Kankipadu and Kaikalur are Class V towns with a population between 5,000 to 9,999. There are no Class VI towns in this district at the 1971 Census.

No place treated as a town in the 1961 Census has lost its urban status in 1971. On the other hand 4 new towns are added to the list. The urban population of the district is 679,552 out of the total population of 2,493,574 constituting 27.8% of the total population compared to 23.5% in 1961 Census.

The details given in each of the seven statements of the Town Directory are explained below.

Statement I—Status, Growth History and Functional Category of Towns

In this statement the civic status, the population recorded at each of the Censuses from 1901 or from the Census in which it was treated as urban for the first time, till the 1971 Census and the functional category of each town are given.

The civic status of the town *i.e.*, whether the town is a Municipality or a Panchayat is indicated under column 5 by abbreviated letters like M,P. etc. The population of the towns recorded at each of the Censuses from 1901 to 1971 is given in the columns 6–13. If a place is treated as a town from a census later than 1901, the particulars of population are given from that census only from which it was treated as urban. In columns 14 and 15 the functional characteristics of each town *i.e.*, whether the town is an industrial town or a service town or a trade and commerce town etc., is given at 1961 and 1971 Censuses.

Except Jaggayyapet all the other 15 towns are recording a steady increase of population since 1901. The increase in 1971 over 1961 is generally high compared to that in the past decades. Jaggayyapet, however, recorded a slight decline in the 1931 Census. The increase in population of Gudivada and Vijayawada is spectacularly high from 1941 and 1931 onwards respectively. Due to its commercial, industrial and transport importance Vijayawada city has fast surpassed Machilipatnam, the district headquarters in population from 1921 onwards.

Functional category

The towns are bound to serve a variety of purposes by the very nature of urban development. A scheme of statistical classification was evolved at the 1961 Census in order to know to what extent the functions are diversified or the predominant characteristic is accentuated. Accordingly each town can be classified broadly under the following categories.

(*i*) *Primary Activity* : Agriculture, Mining and Fishing (Census Industrial Categories, I, II and III of 1961 Census and Categories I, II, III and IV of 1971 Census);

(*ii*) *Industrial*: Industry including Construction (Census Industrial Categories IV, V and VI of 1961 Census and Categories V (*a*), V (*b*) and VI of 1971 Census);

(*iii*) *Commercial*: Trade and Commerce (Census Industrial Category VII of 1961 and 1971 Censuses);

(*iv*) *Transport*: Transport (Census Industrial Category VIII of 1961 and 1971 Censuses) and

(*v*) *Services*: Other Services (Census Industrial Category IX of 1961 and 1971 Censuses).

The predominant functional character of a city/town is determined on the basis of the following principles:

(a) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above five characteristics then the city/town was designated by that characteristic.

(b) If the proportion is not more than 40% in any one of the characteristics, then the next predominant characteristic was taken into account and if the first two predominant characteristics combined together have a proportion of over 60% then the town was designated as having the two characteristics and was termed as Industrial-*cum*-Services or Industrial-*cum*-Commercial etc.

(c) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial-*cum* - Commercial - *cum* - Services or Industrial-*cum*-Services-*cum*-Primary Activity etc.

Examined against this background the sixteen towns of this district fall under the following classification during 1961 and 1971 Censuses.

	Functional Categories	*Name of Town*	
		1961	1971
	(1)	(2)	(3)
1	Primary Activities	Avanigadda, Gannavaram, Tiruvur, Kaikalur and Vuyyur	Avanigadda, Gannavaram, Tiruvur, Kaikalur, Nandigama, Kankipadu and Nuzvid
2	Industry	Pedana	Pedana

	Functional Categories	Name of Town	
		1961	1971
	(1)	(2)	(3)
3	Primary Activities -*cum*-Industry	..	Challapalle, Vuyyur
4	Primary Activities -*cum*-Services	Nuzvid	..
5	Services-*cum*-Industry -*cum*-Trade and Commerce	Machilipatnam, Vijayawada and Jaggayyapet	Machilipatnam
6	Services-*cum*-Industry-*cum*-Primary Activities	..	Patamata and Gunadala
7	Industry-*cum*-Trade and Commerce-*cum*-Primary Activities	..	Gudivada and Jaggayyapet
8	Industry-*cum*-Trade and Commerce-*cum*-Transport	..	Vijayawada

Challapalle, Patamata, Gunadala and Kankipadu were not treated as towns in the 1961 Census.

Statement II—Physical Aspects and Location of Towns

This statement deals with physical aspects and location of towns in the district. There are 13 columns in the statement. Under columns 3 to 5 in the statement, data relating to the average annual rainfall and the maximum and minimum temperatures recorded in 1969 are given. If this information was not available for any town, then the particulars available for the nearest town have been given against such town.

Under column 6 the name of the nearest city with a population of a lakh or more is given. Under columns 7 to 9 the name of the State Headquarters, the District Headquarters, Revenue Divisional Headquarters and the Taluk Headquarters together with the distance therefrom are given. Under columns 10 and 11 the nearest railway station and bus stand and the distance therefrom are given. If navigation and sea port facilities are available to the town they are also given under columns 12 and 13.

Among the towns of this district Gunadala and Patamata have recorded the highest average rainfall and Gudivada and Kankipadu seem to be cooler places compared to other towns in the district. Of the 16 towns, 10 towns are taluk headquarters and the remaining 6 towns are located within 25 Kms. to their taluk headquarters. Five towns are located at a distance of 50 Kms. or less, 7 at a distance of 100 Kms. or less but more than 50 Kms. and 4 towns at a distance of 150 Kms. or less but more than 100 Kms. from the District Headquarters.

The district is well served by road and rail communications. All the 16 towns are linked up by roads and the buses ply very frequently on these roads. Nine towns out of 16 towns in the district are directly connected by railways of which the most important rail is the east coast line connecting Madras and Howrah. Of all the stations in the district, Vijayawada is unique by being the biggest junction connecting all the traffic that moves from Delhi, Calcutta, Madras, Hyderabad, Hubli and Machilipatnam and ranking among the major stations of the country with all the voluminous inward and outward passenger and goods traffic. Besides these rail and road facilities Machilipatnam is also minor sea port from where iron ore is exported to Japan. The river Krishna down the barrage and its canals are navigable. Avanigadda, Challapalle, Gannavaram, Gunadala, Kankipadu, Machilipatnam, Vijayawada and Vuyyur towns are within the easy reach of these navigable canals. The development of communications in the district provided good impetus to the trading activity of the district which has led to its prosperity.

Statement III—Civic Finances

The set up of the democratic decentralisation has cast more responsibilities on local bodies in shaping the society particularly in the fields of communication, education and sanitation. The revenue receipts of these popular institutions under various sources are shown under columns 3 to 9 while the various community development schemes on which the expenditure is incurred are shown under columns 10 to 16. The gap that exists between the receipts and expenditure is indicative of the financial soundness or otherwise of these popular Local Self Government Institutions. Among the 16 towns only 9 towns have surplus budget while the remaining 7 towns have deficit budget.

Statement IV—Civic and other Amenities in Towns

The various amenities being provided to the citizens by the Civic Administration in the towns are given in this statement under 16 columns. The amenities include the internal road facility, the existence and nature of drainage system, protected water supply, the availability of fire fighting service and electrification particulars relating to the domestic, industrial and commercial spheres and the street lighting service and 'Others'.

The different abbreviations used in columns 4, 8 and 9 are expanded in the footnote to the statement.

All the towns have open surface drains while Vijayawada city has sewerage facility also. The facility of either the water borne or service latrines is reported to be available in all the towns except Patamata (for which the required information cannot be had). The bucket system seems to be the chief practice of the disposal of night soil. The wheel bucket system prevails in two towns while the septic tank system is available only in Vijayawada city and Gannavaram, a rising urban centre. The protected water supply scheme which is the primary responsibility of the civic bodies is reported to be available in all the towns except Kankipadu, Nuzvid, Pedana and Tiruvur. Fire fighting service is available in Gudivada, Jaggayyapet, Machilipatnam, Nuzvid and Vijayawada while power supply is available in all the 16 towns.

Statement V—Medical, Educational, Recreational and Cultural facilities in Towns

Medical, Educational, Recreational and Cultural acilities available in the towns are given in this statement under 17 columns.

Medical Facilities:

The following abbreviations are used under column 3 to show the type of medical facilities available in the town.

H	: Hospital
D	: Dispensary
MCW	: Maternity and Child Welfare Centre
NH	: Nursing Home
FPC	: Family Planning Centre
PHC	: Primary Health Centre
TBC	: T. B. Clinic

There are 250 medical institutions in this district which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, etc., with a total bed strength of 4,234 in all the towns for an urban population of 679,552 persons in all the 16 towns of the district. It works out to be 6 beds for every 1,000 urban population. Even though the medical facilities in the district are better than those in other districts, it cannot be said that the needs of the district are adequately met by the existing facilities.

Vijayawada city ranks first in the district with a total bed strength of 2,530 in 129 medical institutions followed by Gudivada and Machilipatnam with 417 and 262 beds in 30 and 21 institutions respectively.

Educational Facilities:

The following abbreviations are used to indicate the type of educational facility available in the town.

A	: Arts College
AS	: Arts and Science College
AC	: Arts and Commerce College
ASC	: Arts, Science and Commerce College
SH	: Shorthand Institution
TW	: Typewriting Institution

Krishna district is forward in the field of education and literacy standards. It ranks second in the State, the first being Hyderabad district and has 35.17% of its total population returned as literates in 1971. In urban areas of this district 52.12% of the total population are reported as literates. There are 12 colleges in this district located in 9 out of the 16 towns in the district. Of these, eight are combined colleges imparting instruction in Arts, Science and Commerce, two colleges imparting instruction in Arts and Commerce and one college respectively in Arts and Science and Arts only. There are no Medical and Engineering Colleges in the entire district but there are 2 Polytechnic institutions in Vijayawada city. There are 28 Shorthand and 69 Typewriting institutions. These are found in all towns except Challapalle and Nuzvid.

The number of Secondary, Middle and Primary Educational Institutions that serve the needs of the urban areas in the district are 63, 60 and 227 respectively. The table below shows the number of Educational institutions available for 10,000 population in the urban areas of the district.

Name of Town	No. of schools per 10,000 urban population		
	Secondary or Higher Secondary	*Middle, Upper Primary*	*Primary or Junior Secondary*
(1)	(2)	(3)	(4)
Avanigadda ..	1.30	2.61	1.95
Challapalle ..	1.03	...	6.22
Gannavaram ..	2.22	...	4.45
Gudivada ..	0.81	1.47	2.94
Gunadala ..	*Included in Vijayawada Agglomeration*		
Jaggayyapet ..	1.06	2.12	3.71
Kankipadu ..	2.41	1.20	2.41
Kaikalur ..	3.11	1.03	8.31
Machilipatnam ..	1.33	0.44	4.88
Nandigama ..	1.29	1.94	3.88
Nuzvid ..	0.87	1.31	5.26
Patamata ..	*Included in Vijayawada Agglomeration*		
Pedana ..	0.47	0.47	5.24
Tiruvur ..	1.44	0.72	5.77
Vijayawada Urban Agglomeration ..	0.70	0.81	1.94
(a) Vijayawada	0.63	0.85	1.99
(b) Patamata ..	1.28	0 64	1.28
(c) Gunadala ..	1.71	..	3.43
Vuyyur ..	0.57	1.14	10.30

The picture regarding the recreational and cultural side, is also fairly good compared to that in other districts in the State. There are 3 stadia, 49 cinemas, 8 Auditoria and 54 reading rooms in all the towns together.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement, data on trade, commerce, industry and banking facilities available in each town are given under fourteen columns. Under columns 3 to 5 the three most important commodities imported into the town are given while under columns 6 to 8 the three most important commodities exported from the town are given. Under columns 9 to 11 the three most important articles manufactured in the town are given. Columns 12 to 14 are devoted to present the banking and co-operative credit facilities available in the town.

The three most important commodities under imports, exports and manufacture were decided in terms of the estimated volume of the commodities transacted and in terms of the volume of total output of the commodities concerned respectively in each of the towns and not on the basis of the value. However, the uniqueness of a town which exhibited special characteristics in the spheres of either industry or manufacture or mining etc., has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the other commodities in sheer terms of their estimated volume of transaction.

Krishna district is predominantly an agricultural tract because of irrigation facilities. The hinter land of Vijayawada is known as the gift of river Krishna and is also called the Blue Nile of Deccan. Paddy is the main food crop produced in the district. Besides, jowar, bajra, maize, ragi, pulses like blackgram, redgram, and greengram are also some of the principal crops of this region. The most important commercial crops are sugarcane, tobacco, chillies and cotton.

Deposits of certain granites and lime stone useful for building material and of chromite, iron ore, mica and Sulphur occur in the district.

IMPORTS

The chief items of imports into the district are mill cloth of various types, medical products, pesticides, fertilisers, plastic products, aluminium and steelware and pertoleum products and occupy sizable proportion of the inward commerce.

EXPORTS

The principal items of export from the district are agricultural products like rice, chillies, turmeric, tobacco, groundnut, cotton seeds, fruits, hides and skins, handloom cloth, electrical goods, scientific instruments. To promote export trade of agricultural commodities 'agmark' centres are located in various places of the district and commercial grading is done in the commodities like groundnut, jaggery, tobacco, pulses, coconuts, etc.

MANUFACTURE

The district is rich in natural resources which not only provide large supplies of food but also offer variety of materials upon which industries are based. The district is industrially advanced and large concentration of these industries are located in Vijayawada, Gudivada and Machilipatnam taluks. The Andhra Scientific Company Limited, Machilipatnam, the Sugar Factory at Vuyyur, the Andhra Pharmaceutical Works Limited and the Vasant Soap Works at Vijayawada are some of the important industries. Fruit canning and Biscuit making are also important in the district. Rice and oil mills, workshops and foundries are important small scale industries of the district. Weaving, "Kalam Kari" printing of cloth, wooden toy making, etc., are some of the principal cottage industries of the district.

Generally the towns are noted for their importance as trading centres dealing in agricultural produce that flows from the neighbouring rural areas. A substantial portion of produce finds its way into these trading centres. The most important wholesale centres in the district are Vijayawada, Machilipatnam, and Gudivada. To promote the trading activity warehousing corporations are created in the district, where storage facilities are extended. These are located at Gudivada, Jaggayyapet, Machilipatnam and Vijayawada.

The Banks which play a prominent role in Industry, Trade and Commerce particularly in mopping up the savings of the community and making them available for investment in productive activities. Krishna district presents good picture in the banking field as there are 55 banks, 18 agricultural credit societies and 17 non-agricultural societies in all the 16 towns together. A concentration of these banks is observed in Vijayawada with 10, 6 and 4 respectively in view of its being the largest centre for industry and trade.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The details of the population as per 1971 Census count, by Religion, Scheduled Castes and Scheduled Tribes with sex breakup are shown for each of the towns in the district under columns 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement while other religions for which the persons returned are less than 10% of the total population of a town are grouped together and shown under the category *viz.*, "Others" in columns 15 and 16. The Scheduled Castes and Scheduled Tribes population in a town are shown under columns 19 to 22.

33,199 persons are reported as belonging to Scheduled Castes in urban areas of this district accounting for 13.2% of the total Scheduled Castes population in the district while only 7,381 persons are returned as Scheduled Tribes in urban areas constituting 14.5% of the total Scheduled Tribes population in the district.

The particulars presented in the statement II to VI are based on the data obtained from the Tahsildars and Local Bodies concerned and also from the concerned departments like Medical, Educational, Electricity Departments, etc., while the particulars furnished in statement I and VII are based on the Census data.

PART B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census on the following aspects is presented for each revenue village in respect of rural areas and for each Ward and for each Enumerator's Block of a town in urban areas.

1 Location Code Number and Name of the village/ town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex breakup

4 Population of Scheduled Castes and Scheduled Tribes by sex breakup

5 Literate and educated persons by sex

6 Total workers and the breakup of the workers into nine categories and also the total non-workers by sex as below:

Category I	Cultivators
Category II	Agricultural Labourers
Category III	Livestock, Forestry, Fishing and Hunting and Plantations, Orchards and allied Activities
Category IV	Mining and Quarrying
Category V	Manufacturing, Processing, Servicing and Repairs
	(*a*) Household Industry
	(*b*) Other than Household Industry
Category VI	Construction
Category VII	Trade and Commerce
Category VIII	Transport, Storage and Communications
Category IX	Other Services
Category X	Non-Workers

A District Abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluks are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the ward number. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word " Rural " has been added in italics and in brackets after the name of the village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an alphabetical list of villages together with their Location Code Numbers and a taluk map showing all the villages and towns with their boundaries are given. This alphabetical list of villages facilitates the reader in locating the required village and its Location Code Number and thereafter know the Primary Census Abstract particulars. The taluk map facilitates the location of the required village/town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in 38 columns of the Primary Census Abstract relate to all persons alive at Sunrise on 1st April 1971 and were present within the territory of Krishna district whether they lived in normal residential houses or in institutions such as hospitals, hostels, asylums, boarding houses, hotels etc., or whether they were merely houseless persons like the wondering tribes, tramps, pavement dwellers, or those living in boats etc. They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of Krishna District as on 1st April 1971 recorded at the Census enumeration is as follows:

	Total	*Rural*	*Urban*
Persons ..	2,493,574	1,814,022	679,552
Males ..	1,269,399	921,083	348,316
Females..	1,224,175	892,939	331,236

The criteria adopted for classifying a place as Rural or Urban and the concepts of Urban Agglomeration and Standard Urban Area have already been explained in the beginning of this volume.

Columns 1 and 2 of the Primary Census Abstract indicate the Location Code Number and name of the Village or Town concerned. In respect of towns the Ward/Block/Locality Numbers and the Enumerator's Block Numbers are indicated under column 2.

Location Code is the method by which every village and town in a taluk in every district of a State is identified. Each district in this State has been given a separate code number by serially numbering the districts in a clock-wise order starting from Srikakulam District and ending with Nalgonda District. Krishna District, in this process, is assigned Location Code Number 5. Within each district the taluks had similarly been allotted Location Code Numbers, the taluk in which the district headquarters lies being allotted Location Code Number 1 and the other taluks are numbered in a clock-wise order. The revenue villages within each taluk are assigned separate serial numbers starting from the north-west corner of the taluk and ending with the south-east corner in a serpentine order. All the towns within a district were assigned Location Code Numbers in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk Location Code Numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located is assigned Location Code Number first and then the other towns in the taluk in a clock-wise order. The Location Code Numbers of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under column 3 the area of each village and town is given in square miles based on the information furnished by the State Central Survey Office, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "NA". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills etc., within the taluk, the area of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under column 4 the total number of occupied residential houses in each village and in each ward and Enumerator's Block of a town are given. These figures include those of partly residential houses also but not of the completely non-residential houses. The total number of households including houseless households and institutional households is given under column 5.

The total population including houseless and institutional population with sex breakup is given under columns 6 to 8.

Under columns 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I and Schedule II respectively of the Scheduled Castes and Scheduled Tribes Lists (Modification Order 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given below.

Bhil
Gond (including Naikpod and Rajgond)
Hill Reddis
Kolam (including Mannervarlu)
Pardhan
Thoti

IV. In the Agency Tracts

Goudu (Goud)
Nayaks
Valmiki

The number of literate and educated persons is given under columns 13 and 14. A person who could both read and write any language with understanding was treated as a literate at the 1971 Census. A person who could merely read but could not write or *vice versa* was not treated as a literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterate. The test for education was that the person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

The details of workers and non-workers are given under columns 15 to 38. At the 1971 Census the population has been broadly divided into two sections based on the main activity *viz.*, (i) Workers and (ii) Non-Workers.

The definitions and concepts adopted in the economic classification of the population at the 1971 Census are explained below:

Worker

A 'worker' was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A man or woman who was engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker was not treated as a worker for the main activity on the other hand, if a person was primarily engaged in some economic activity but at the same time attended to some household chores or attended a night school etc., he or she was treated basically as a worker for the main activity and categorised accordingly.

A person who was working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference Period

The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days

during this reference period and this had been returned as his main activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike etc., was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recored as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *eg.*, cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by *him in the course of the year.*

Cultivator

For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner of lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crops, cotton, etc., and other crops such as sugar-cane, groundnuts, tapioca, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer

A person who worked in another person's land for wages in money, kind or share was regarded as an agricultural labourer. He had no risk in the cultivation but he merely worked in another person's land for wages. The labourer had no right of lease or contract on land on which he worked.

Household Industry

For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, dairying, cycle repairing, blacksmithy, tailoring etc., it was ascertained if it was a household industry.

A Household Industry was defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry. It should have been located within the precincts of the house where the members lived.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor,or barber,musician, dancer, waterman, dhobi, astrologer, etc., or merely *trade or business, even if such profession, trade of* services were run at home by members of household.

Some times it is likely that the person who may not be working in his own household industry may be working as a petty employee in another household industry. It was, therefore, enquired whether the person who was not working in his own household industry was working in any other household industry as an employee.

Other Workers

A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of 'Other Workers'. The type of workers that may come under the'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers etc. In effect, all types of economic activity not covered by cultivation, agricultural labourer or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as 'Other Workers'.

According to the 1971 Census there were 432,969 residential houses and 531,776 households in Krishna District compared to 395,057 residential houses and 446,492 households in 1961. Thus there were 1.23% households per residential house at 1971 Census compared to 1.13% households per residential house in 1961 Census.

The total number of persons returned at the 1971 Census enumeration in Krishna District was 2,493,574 as against 2,076,956 in 1961 Census recording an increase of 20.1% over the population of 1961. The proportion of rural and urban population to the total population in the district works out to 73.0% and 27.0% respectively in 1971 Census compared to 76.0% and 24.0% in 1961. There were 964 females for every 1,000 males at the 1971 Census as against 962 females per 1,000 males in 1961 Census. 877,051 persons were reported as literates and educated in 1971 Census compared to 647,056 literate and educated persons in 1961 accounting for 35.17% of total population in 1971 as against 31.15% in 1961. The proportion of literates and educated among males was 41.72% while among females it was 28.38% . In the rural areas the percentage of literates and educated among the total population was 28.82% while in urban areas, the literates accounted for 52.12% of the total urban population. 956,142 workers were returned in 1971 as against 973,216 workers in 1961 Census, thus constituting 38.34% of the total population were workers in 1971 and 46.86% in 1961. Among males, the workers constituted 56.60% while among females only 19.42% were workers. The decrease in the proportion of working population in 1971 compared to 1961 Census proportion was mainly due to the change in the definition adopted at the present Census.

Detailed analysis of demographic data at the 1971 Census is given in the write up in Part-C of District Census Handbook.

ALPHABETICAL LIST OF VILLAGES

BANDAR TALUK

1971 Location Code No.	Name of Village
(1)	(2)
91	Akulamannadu
103	Akumarru
11	Amudalapalle
100	Arisepalle
8	Arthamur
40	Bahussainpalem
55	Balliparru
98	Bandar
14	Bantumilli
36	Barripadu
93	Borrapothupalem
67	Buddalapalem
26	Chandala
1	Chennuru
16	Cherukumilli
46	Chevendra
97	Chilakalapudi
31	Chinapandraka
23	*Chinnagollapalem*
112	Chinnapuram
85	Chittiguduru
38	Chodavaram
39	Devarapalle
51	Dirisepalle
17	Endapalle
73	Gadepudi
80	Gandram
27	Garisepudi
61	Gokavaram

ALPHABETICAL LIST OF VILLAGES

TIRUVUR TALUK

1971 Location Code No.	Name of Village
(1)	(2)
21	Akkapalem
26	Anjeneyapuram
35	Anumullanka
14	Arlapadu
73	Arugolanupeta
39	Atlapragada
75	Burugagudem
67	Chandrupatla
65	Chanubanda
74	Chatrayi
10	Chennavaram
77	Chinnampeta
32	Chintalapadu
71	Chittapuru
27	Chittela
5	Dundiralapadu
17	Erramadu
33	Gampalagudem (East & West)
44	Ganugapadu
50	Gollamandala
9	Gosaveedu
16	Gullapudi
72	Janardhanavaram
63	Kalagara
41	Kambhampadu
34	Kanumuru
40	Koduru
24	Kokilampadu
70	Kondaparva
38	Konduru
3	Konijerla
64	Korlamanda
78	Kotapadu
84	Kothagudem
12	Kothapalle
55	Kudapa
52	Kummarakuntla
59	Kunaparajaparva
25	Lakshmipuram
15	Lingala
60	Maddulaparva
54	Madhavaram (East)
53	Madhavaram (West)
47	Mallela
80	Mankollu
43	Marepalle
13	Medur
61	Muchinapalle
20	Munukulla
30	Mustikuntla
23	Nadimi Tiruvur
66	Narasapuram
37	Narikampadu
56	Narukullapadu
2	Nemali
76	Parvatapuram
28	Patha Tiruvur
11	Peda Komira
18	Peddavaram
8	Penugolanu
81	Polavaram
42	Polisettipadu
79	Pothanapalle
49	Putrela
7	Rajavaram
22	Rajupeta
45	Ramannapalem
57	Rangapuram
58	Reddigudem
51	Repudi
31	Rolupade
83	Somavaram
