STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

A District Census Hand Book, for each of the 20 Districts in Andhra Pradesh

PRINTED BY THE SUJATA PRINTING PRESS, HYDERABAD, FOR THE DIRECTOR OF PRINTING, HYDERABAD

PREFACE

The District Census Handbook is an innovation introduced at the 1951 Census. The Handbooks are compiled by the Census Office but published by the State Government. They proved to be very popular and valuable publications in considerable demand by the public as well as the official users of the Census data. At the 1961 Census, therefore, it was decided not only to continue the publication of the District Census Handbook but to greatly improve upon its precursor of 1951.

The present District Census Handbook may be conveniently divided into four parts. The first part consists of a narrative description of the physical features and history of the district, the social and economic characteristics of the people and the progress made by the district in each field of administration over the past decades. This is supplemented by a gazetteer of places. The second part consists of administrative statistics of various departments. The third part is based mainly on the present Census returns and consists of statistical tables giving the particulars of population, sex ratio, the economic composition, literacy, language and migration data, etc. The fourth part consists of Village and Town Directory which is perhaps the vital part of the Handbook giving villagewise and townwise particulars of area, households, population, Scheduled Castes and Scheduled Tribes, literacy, broad categorisation of working population, etc. Against each village and town the educational, medical, public health and transport facilities, etc., if available, have also been indicated. At the end of the fourth part a tabular statement of fairs and festivals, information about which had been collected through the census enumerators will also be found. The pages of each part are numbered separately. The Handbook is enriched with two district maps, one showing the administrative divisions and important communications, rivers, etc., and the names of all important places of above 5,000 population and the other showing the talukwise density of population. In the Village Directory portion of the Handbook, before the statistics of each taluk are presented, a taluk map showing the village and town boundaries with the location code number of each village and town marked will also be found. Thus the District Census Handbook is a self-contained and convenient book of reference about almost all matters pertaining to the district.

The Handbooks are no doubt coming rather late, a few years after completion of the Census count. This delay, if at all it can be called delay, could not be helped. The very detailed sorting of Census slips and compilation of the elaborate 1961 Census tables were time consuming; the administrative particulars for incorporation in the Handbooks had to be collected from different departments and other sources on proformae that were finalised and circulated from this office; the preparation of the excellent maps of the district and the taluks, attempted this time, also required considerable time; and lastly the printing of these voluminous reports which had to be done very carefully was a laborious process. All the same it is hoped that these Handbooks will serve as valuable sources of reference about all matters pertaining to the district and help one to assess the impact of the Five Year Plans and the progress each district had made in its social and economic well being over the decades and also serve as a guide in planning for the future. The credit for the compilation of this Handbook goes chiefly to Shri K. M. Ahmad, I. A. S. and Shri P. S. R. Avadhany Deputy Superintendents of Census Operations. Shri Ahmad took great pains to tour the district, contact the various officers of the district and dig out information from various sources. A compilation of this type and magnitude could have taken a much longer time but for the diligent efforts of Shri Ahmad and Shri Avadhany. The Handbook section of the Census Office under the Tabulation Officer Shri K. Narasimha Murthy, did a commendable work in the speedy and accurate compilation of the Village Directory and the other Statistical and Administrative Tables. Sarvashri G. Pandurangam, M. Hassan, M. J. Sadiq, N. G. Swamy, and Y. Ali, of the Cartographic Section in my office did a magnificent work as will be evident from the quality of maps that have been produced.

A. CHANDRA SEKHAR

PART I

INTRODUCING THE DISTRICT

KRISHNA DISTRICT

G. P. RANGAM

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

CHAPTER I

GENERAL FEATURES

General

Krishna District was one of the oldest British administered areas of Andhra Pradesh. It was formerly called Masulipatnam district and in 1859 when the then Guntur District was abolished, certain taluks thereof were added to this district which was renamed as Krishna district, after the mighty river Krishna. In 1904 this enlarged Krishna district was bifurcated into Krishna and Guntur districts. Again in 1925 the Krishna district was further divided into Krishna and West Godavari districts. The residuary Krishna district did not undergo any major jurisdictional change since 1925 except for some minor border adjustments. In 1950 the district had undergone some minor changes in its territorial limits on account of the exchange of certain enclave villages between the former Hyderabad State and the composite Madras State. Again in 1959 the Munagala Paragana which was an enclave was transferred from this district to Nalgonda district for administrative convenience and Potharlanka and Gajullanka villages of Divi taluk were transferred to Guntur district. Further details of the changes in the jurisdiction of Krishna district during 1951–1961 are given in the Explanatory Note and Appendix I to Table A-I under Part III-Statistical Tables of this book.

Situation and area

Krishna district lies between 15°43′ and 17°10′ of the northern latitude and 80° and 81°33′of the eastern longitude and extends over an area of 3,366·5 square miles. At the 1961 Census it recorded a population of 2,076,956 persons (1,058,323 males and 1,018,633 females) and comprised 946 inhabited villages, 43 uninhabited villages and 13 towns of which two are cities having a population of more than one lakh persons each. For Revenue administration the district is divided into four Revenue Divisions and ten taluks. The following statement gives the names of each of the four Revenue Divisions and the constituent taluks.

STATEMENT I-1

	Name of the Revenue Division	Names of taluks included in the Revenue Division	No. of Villages		No. of Towns	Area in sq. miles	Total population
			Inhabited	Uninhabited			
	(1)	(2)	(3)	(4)	(5)	(6)	(7)
1	Bandar	Bandar (Masulipatnam)	112	3	2	342·8	267,451
		Divi	95	2	1	464·9	240,524
2	Vijayawada	Vijayawada	114	11	2	485·7	460,954
		Nandigama	100	8	1	393·4	168,151
		Jaggayyapet I. S. T.	87	7	1	149·0	64,987
3	Gudivada	Gudivada	114	3	1	229·7	224,613
		Kaikalur	98	1	1	282·1	152,955
4	Nuzvid	Nuzvid	79	1	1	335·2	127,616
		Tiruvur	81	..	1	438·5	150,185
		Gannavaram	116	7	3	295.2	219,520
		Total	946	43	13	3,366·5	2,076,956

Physical characteristics

The district is elongated roughly from north-west to south-east and is surrounded on the east by the Bay of Bengal and West Godavari district, on the south by the Bay of Bengal, on the west by Guntur and Nalgonda districts and on north by Khammam district. The district may be broadly divided into two natural zones viz., the delta and the uplamds.

The taluks of Bandar, Divi, Gudivada and Kaikalur and portions of Vijayawada and Gannavaram taluks comprise the delta area forming part of the Krishna delta. The remaining taluks viz., Nandigama, Jaggayyapet, Tiruvur and Nuzvid taluks and the northern portions of Vijayawada and Gannavaram constitute the uplands and form part of the Deccan Plateau. The uplands consist of an undulating plain broken by low ranges of hills which are the outlying spurs of the Eastern Ghats. The Kondapalle hill between Nandigama and Vijayawada taluks and the Jammalavoidurgam hill in the southern part of the Tiruvur taluk are important. There are some low ridges in Nuzvid, Nandigama and Gannavaram taluks. The uplands will be benefited by the Nagarjunasagar Project when it is completed.

The Kollair lake, an extensive shallow depression about 150 square miles in area, lies in the northern part of Kaikalur taluk. It acts as a reservoir for drainage water of the surrounding delta areas during the monsoon and almost dries up in summer.

The delta is generally flat and in some places near the coast there are uncultivable swamps.

Rivers

Krishna, Muniyeru, Tammileru, Budameru are the chief rivers of this district.

River Krishna : The district is drained and watered by the river Krishna, so called, as its waters are said to be black in colour. It is a great river of South India, which like the Godavari and the Cauvery, flows almost across the peninsula from west to east. It is regarded as a very sacred river along with the other two major rivers of South India. Though in actual length the Godavari is longer than the Krishna, the area of drainage basin of the latter including its two great tributaries, the Bhima and the Tungabhadra, is the largest of the three. Its total length is nearly 800 miles and the total area of its catchment basin is about 97,600 square miles. The river rises about 40 miles from the Arabian sea in the Western Ghats just north of the hill station of Mahabaleshwar in Maharashtra State and flows southwards, skirting the eastern spurs of the hills, past Karad (Satara district of Maharashtra State) where it receives on the right bank the Koyna from the western side of the Mahabaleshwar hills,and Sangli, where it receives the waters of Varna,also from the west, until it reaches Kurundavad, where the Panchaganga joins it, again on the right bank. The river then turns eastward and flows through Belgaum and Bijapur districts of Mysore State after a long course of about 300 miles. In Bijapur district it is joined on the right bank by the Ghatprabha and the Malprabha from the Western Ghats. Near the hills the channel is too rocky and the stream too swift for navigation but its waters are largely used for irrigation in Satara district and in the more open country to the south-east.

On entering Raichur district of Mysore State the Krishna drops from the table land of the Deccan proper, down to the alluvial doabs of Shorapur and Raichur. The fall is as much as 408 feet in about 3 miles. In times of flood, a mighty volume of water rushes with a great roar over a succession of broken ledges of granite, dashing up a lofty column of spray. The first of the doabs mentioned above is formed by the confluence of the Bhima, which brings down the drainage of Ahmadnagar, Poona and Sholapur; the second formed by the confluence of the Tungabhadra which drains the north of the Mysore State, constitutes the southern boundary of Gadwal and Alampur taluks of Mahbubnagar district and joins the Krishna which forms the northern boundary of the said taluks. At the point of junction with the Tungabhadra it flanks on the northern boundary of Kurnool district and separates the entire Guntur district from Nalgonda district. The Nagarjunasagar project under construction across this river, about 1½ miles from Nandikonda village in Miryalaguda taluk of Nalgonda district, envisages the construction of a masonry dam about 110 miles up stream of Vijayawada Anicut. At Wazirabad in Nalgonda district,the river Krishna receives the tributary Musi.

On reaching the chain of the Eastern Ghats the river turns sharply south-east wards and flows for about 100 miles between the Krishna and Guntur districts direct to the sea, where it enters by two principal mouths. It is in this last part of its course that the Krishna is largely utilized now for irrigation. From the point where it turns southwards, the rate of fall of its channel drops rapidly from an average of 3½′ a mile to 1½′ and eventually, as it nears the sea, to as little as from 7 to 9 inches. The enormous mass of silt it carries which has been estimated to be sufficient in floodtime to cover daily an area of 5 square miles to a depth of one foot has consequently in the course of ages been deposited in the form of a wide alluvial delta which runs far out into the sea and slopes

gradually away from either bank of the river, with the average fall of 18 inches to the mile. At Vijayawada at the head of this delta, the Kirshna runs through a gap of about 1,300 yards in width in a low range gneissic hills, and here the historic Prakasam barrage has been thrown across the river. The flood velocity of the Krishna at this point is about 6½ miles an hour and the flood discharge has been estimated to reach the enormous figure of 761,000 cubic feet a second.

The river Krishna is too rapid for navigation above the dam, but between Vijayawada and its mouth the sea going native craft ply upon it for about 6 months in the year. The canal system of the Krishna delta depends upon the masonry dam at Vijayawada, which was begun in 1853 subsequent to that across the Godavari. It is indeed an extra-ordinary feat designed by that same famous Engineer Sir Arthur Cotton and executed by Capt. Orr, who with great enthusiasm and engineering skill finished it successfully in 1854 to the sacred cause of humanity. Its length from wing to wing is 3,714 feet and it rises 20 feet above the bed of the river. The dam built on the masonry wells, is vertical on the downstream side and slopes gradually upwards on the other.

River Muniyeru : The river Muniyeru is the chief tributary of the river Krishna in this district and it flows from north to south across Jaggayyapet and Nandigama taluks. It has an anicut at Polampalli and irrigates considerable area through a network of channels and forms an additional irrigation source to the district. *River Tammileru ;* The Tammileru, a hill stream, flows along the eastern boundary of Tiruvur and Nuzvid taluks and enters the West Godavari District separating it from the Krishna.

River Budameru : The Budameru is another small hill stream. But it flows through several taluks of the district *viz.*, Vijayawada, Gannavaram, Gudivada and Kaikalur and finally falls into the Kollair lake. These rivers are of some consequence agriculturally as they not only fill minor irrigation tanks but also provide for some direct irrigation by baling.

Besides these, the district contains small hill streams, namely, Jayanti, Kattaleru, Ippalavagu, Upputeru, Telleru, Ballaleru, Nadimiyeru etc. The floods in these hill streams, however, are not serious except once in four or five years. The last occurrence of the flood was in 1961 and prior to that in 1956 during this decade.

Flora

The flora of the district presents no special characteristics, the plants being mainly the usual cultivation weeds of the Coromandel coast. The district has no worth mentioning forests. However, it contains Reserved Forest areas in several taluks like Nandigama, Vijayawada, Tiruvur, Nuzvid, Gannavaram, Bandar and Divi. The district is traversed by the out-lying spurs of Eastern Ghats. On the Kondapalle hills is found a light wood known as 'ponuku' (*gyrocarpus jacquini*) which is used for the manufacture of the well-known Kondapalle toys. Casuarina has been planted by private enterprise on considerable areas of the sandy tract along the coast. Along the sandy shore are found the usual sand-binders, *Spinifex squarrosus* and *Ipomaea* and cashewnut trees occur in scattered nooks. The most noticeable trees are *Pterocarpus, Terminalia Anogeissus*, and *Lagustroeinia.*

Fauna

Wild animals are far from plentiful. At one time tiger and sambhur were found on the Kondapalle hills but they are very rare now. Bird life is very prominent. Almost every species of South Indian birds is to be found in the district. Snipe, duck and teal abound in the season and Kollair lake is the home of all the known inland aquatic birds. It is fairly stocked with fish also. The district contains some bulls and cows of the famous Ongole breed. In Nandigama taluk there are good breeds of cattle almost resembling the breeds of Nellore. The district possesses a large number of Murrah buffaloes and cows with Murrah strain.

Climate and rainfall

The climatic condition of the district is of extreme kind with hot summers and cold winters and may be classified as tropical. April to June are the hottest months. In certain parts of the district, particularly in the uplands it is very hot. At Vijayawada the heat is excessive and unbearable owing to radiation that develops in the crest of Indrakeela mountains nearby. The temparature runs extremely high in the month of May. In the taluks of Bandar and Divi adjoining the Bay of Bengal, the climate is tolerable to some extent as the sea breeze renders it moderate. Masulipatnam, the district headquarters possesses the most equitable climate. In the uplands, because of their distance from the sea it is extremely chilly during winter, while in the delta adjoining the coast, the sea renders it more tolerable.

The rainfall of the district is unevenly spread and it is determined by the two monsoons it receives i. e., the south-west and the north-east. As elsewhere in Coastal Andhra, the district is largely benefited by the south-west monsoon, which records nearly two-third of the total annual rainfall. The monsoon breaks usually in the m ddle of June and brings good rain upto the middle of October. The north-east monsoon prevails during November and December. Though the wind blows during this period from the Bay of Bengal, the district does not receive as much rain as it gets from the south-west monsoon. The average normal rainfall of the district is about 960 mm. with about 52 rainy days per year. About 80% of the annual rainfall is received during the months June to October. Along the coast the rainfall in Masulipatnam and Divi taluks is comparatively heavier than in the uplands.

Soil

The soils in the district consist of three main varieties namely, the alluvial, the black-regar and the red-ferruginous types. The black-regar soil is the most extensive and occurs in all the taluks, but it is found in considerable extents predominantly in the taluks of Kaikalur, Vijayawada and Nandigama. The next in extent, but fertile and valuable of all, is that of the alluvial type which with the exception of Kaikalur occurs in all taluks of the district. The red soils are found in the uplands, while a small belt of arenaceous or sandy soil fringes on the sea coast.

Land utilisation

The total geographical area of the district is 2,068,995 acres according to both the professional survey and the village papers. The following statement shows the distribution of the total geographical area of the district among the different categories of land use together with the corresponding percentage to the total area, for the agricultural year 1960-61.

STATEMENT I-2

Classification of area	Extent in acres	Percentage to the total geographical area
(1)	(2)	(3)
Total geographical area	2,068,995	100.0
Forests	232,771	11.3
Barren and uncultivable land	164,519	7.9
Land put to non-agricultural uses	141,857	6.9
Cultivable waste	95,726	4.6
Permanent pastures and other grazing lands	47,315	2.3

STATEMENT I-2 *Concld.*

Classification of area	Extent in acres	Percentage to the total geographical area
(1)	(2)	(3)
Land under miscellaneous tree crops and groves not included in the area sown	28,749	1.4
Current fallows	86,690	4.2
Other fallow land	50,950	2.5
Net area sown	1,220,418	58.9
Area sown more than once	261,121	12.5
Total cropped area	1,481,539	71.4

The net area sown under all crops forms 58.9% of the district area. Forests cover 11.3% of the district area, while uncultivable land covers 7.9% of the district area. The area put to non-agricultural purposes such as roads, buildings etc., constitute 6.9% of the district area. The total fallow land accounts for 6.7% of the total geographical area out of which current fallows (i.e., land left fallow in the current year only) constitute 4.2% and the other fallow land (i.e., land left fallow for more than one year but less than five years) accounts for 2.5%, cultivable waste land (i.e., land left fallow for more than five years) accounts for 4.6% of the district area. Permanent pastures cover 2.3% while the land under miscellaneous tree crops and groves accounts for 1.4%. Considering the area sown more than once, the gross cropped area during the period forms 71.4% of the district area. It may also be noted in this connection that after the construction of the Nagarjunasagar Project and the canals is completed, considerable areas in Nandigama, Tiruvur, Nuzvid, Gannavaram taluks under the left canal besides additional area in the delta portion will be brought under irrigation.

Agriculture

Agriculture is the most important occupation of the people of the district and paddy is the main food crop produced in the district. According to the 1961 Census count, the entire district has 973,216 workers of whom 635,953 i.e., 65.35% of total working population, are engaged in agriculture. Endowed with a rich variety of soils, the delta area in Krishna district occupies an important place in agriculture. The Krishna irrigation system is led from the Prakasam Barrage thrown across the river at Vijayawada. Enormous mass of silt, which the river carries has in

course of ages, been deposited in the form of a wide alluvial delta and every bit of the alluvial soil has been put to agricultural use. The greater part of the delta lies extended from Vijayawada to Avanigadda in the south and its population is concentrated mostly in the southern half because of the larger extent of fertile paddy fields, intersected by well developed roads, railways and the existence of a minor sea-port. The surface of the delta in many respects, resembles the Godavari delta and more or less the same chief crops are also grown. The alluvial soil of the Krishna delta is an unbroken expanse of dark loam intensively cultivated with paddy fields, fruit and vegetable gardens dotted with prosperous villages.

Crops

The staple food crops of the district are paddy, jowar, bajra, maize, ragi and variga. The other crops generally sown are cotton, chillies, tobacco, groundnut, redgram, horsegram and castor. Groundnut is successfully grown both in the uplands and in the delta taluks of Masulipatnam, Gudivada and Kaikalur as a second crop after the harvest of paddy. Of late sugarcane is also raised particularly in Gannavaram, Vijayawada and Divi taluks in view of the location of the sugar factories in the district. The wet cultivation of the district is entirely dependent on canal irrigation and the dry cultivation usually on minor irrigation sources such as surface tanks, wells, kuntas, smaller streams and the seasonal rains.

The dry cultivation of the district is carried on mostly in the taluks of Nandigama, Tiruvur, Nuzvid, Vijayawada, Divi etc. Pulses predominate in Gannavaram taluk. The extent of garden crops is the largest in Nuzvid and Vijayawada taluks. Chillies and other condiments are extensively grown in Nandigama, Tiruvur, Gannavaram and Vijayawada taluks. In Nandigama, Nuzvid, Vijayawada taluks the ryots sometimes choose between groundnut and the Virginia variety of tobacco, but both are raised successfully. Jaggayyapet has a large area under groundnut. Cotton, tobacco, turmeric and chillies are among the commercial crops grown to some extent in the upland areas of the district.

Lanka lands on the river banks are profitable agriculturally and tobacco and jowar are grown chiefly in them. They are formed in the course of the river Krishna by the heavy accumulation of sand and alluvium brought down by it. These lanka lands are liable for submersion during freshes. In some years the soil in the lankas is fertilized by deposits of the silt the river carries, while in some other years the lanka lands are either completely covered with sand or washed off.

Transport and Communications

The district is well served by roads and railways. It has also an aerodrome at Gannavaram and a seaport at Masulipatnam. Besides these, the river Krishna down the barrage and its canals are navigable. The canals are connected with the Godavari delta in the east and the Buckingham canal, which runs as far south as Madras. Vijayawada City situated at the head of the Krishna delta, is the chief commercial centre of the district and also an important Railway Junction, being connected to Delhi, Calcutta, Madras Hubli, Gudivada and Masulipatnam. The development of communications provided good impetus to trade which ultimately led to the prosperity of the district.

Educational facilities

The district is much advanced in the field of education compared to the other districts in the State. There are 5 Arts and Science Colleges, 3 Oriental Colleges, a Polytechnic, one College of Music and Dance, an Industrial Training Centre, 99 Higher Secondary Schools, and High Schools for boys and 8 for girls, 15 Middle Schools for boys and one for girls, 4 Basic and 5 non-Basic Training Schools besides other kinds of educational institutions like Adult Schools etc. Almost all the villages in the district have Primary Schools.

Medical and Health facilities

There is a Government headquarters hospital at Bandar (Masulipatnam) and nine Government hospitals at the headquarters of each of the nine taluks. The Government Headquarters Hospital at Muslipatnam has a dental clinic, an eye clinic and other special clinics for Family Planning, venereal diseases, tuberculosis etc., attached to it. The Government Hospital at Vijayawada has also a Family Planning Clinic and a T.B. Clinic attached to it. There is a Local Fund Hospital at Mylavaram. Besides the above Medical institutions there are also 8 private hospitals, 11 dispensaries and 9 Primary Health Centres in the district. However, the medical needs of the district cannot be said to have been met adequately by the existing facilities.

Industries

The district is well advanced industrially also as compared to the other districts of the State. Vijayawada, Muslipatnam and Gudivada taluks dominate in this field as a majority of the industries in this district are located in these taluks. The Andhra Scientific Company Ltd., Masulipatnam, the K.C.P. Sugar Factory, Vuyyuru. The Andhra Pharmaceutical Works Ltd., and the Vasant Soap Works Ltd., Vijayawada are some of the important industries worth mentioning. There is a Fruit Canning Company and a Biscuit Factory in the district. Among Small Scale Industries Rice and Oil Mills, General Engineering Workshops and foundries etc., are important. An important cottage industry in this district is the "Kalamkari" printing industry in Masulipatnam. Kalamkari printed cloth goods find market even in foreign countries. *Cumbly* weaving is also another important cottage industry. Kondapalle in Vijayawada taluk is famous for wooden toy making.

Places of interest

This Electric Thermal Station, the Broadcasting Station of the All India Radio, the Prakasam Barrage on the Krishna and the Kanakadurga Temple at Vijayawada are important places to visit. The Krishna Pushkaram festival which is celebrated once in twelve years at Vijayawada, is one of the important festivals in the district.

The ancient and the most interesting Buddhist archaeological relics found in Ghantasala, Gudivada, Jaggayyapet and Vijayawada indicate the popularity of the Buddhist monks in the past. The most satisfactory account comes from the marble stupa located at Amaravati in Guntur district and bears testimony to the spread of Buddhistic lore among the people in this area.

Kondapalle is another place having commercial and historical importance in the district and is famous for its chromite mines. It manufactures wooden toys popularly known as Kondapalle toys which are in considerable demand and command a big market both in and outside the State. The hill fortress of Kondapalle was one of the strongholds of the Reddi Kings and the ruins of this fortress can be seen even now.

Geology

A note prepred by the officers of the Geologicial Survey of India, Andhra Pradesh Circle, Hyderabad on Geology and Mineral Resources of Krishna district is reproduced below. The geological formations of this district are as follows:

Recent	..	*Alluvium*
Cuddalore Sandstone	..	Rajahmundry Sandstone
Upper Gondwana	..	Gollapilli Sandstone
Lower Gondwana	..	Chintalapudi Sandstone

Kurnool (Algonkion)	Brown quartzite Greenish shale Pure massive limestone & argillaceous massive limestone Pure flaggy limestone Pure shales and slaty phyllite Gritty quartzite	
Archaeans	Quartz & pegmatite veins & aplitic veinlets Trap dykes Dolerite dykes Coarse gneissose granite (closepet granite?) Charnockite series, Pyroxene granulite	
	Massive biotite gneiss, muscovite gneiss, banded pink granitic gneiss and quartzo felspathic schist associated with hornblende-garnet granulite, hornblende gneiss and metadolerite	Penisular gneiss?
	Mica-chlorite-phyllitic schist and, associated quartzite, Quartz-muscovite-schist, sericite-schist, talc-chlorite-schist talc-chlorite-actinolite-schist, epidote-chlorite schist and hornblende-schist associated with essexite	Dharwars
	Garnet-sillimanite-graphite schist (Khondalite) garnetiferous granulites (leptynites)	Khondalite series

Khondalite Series

Garnetiferous granulite:— This rock is made up of quartz, orthoclase and garnet in many places. It is abundant in sillimanite and garnet. The rock shows a good deal of diversity in mineral composition a character quiet distinctive of Khondalite Series. In general the rock is composed of quartz, orthoclase (rarely microcline) and plagioclase with apalite zircon and megnetite as accesseries. The rocks are situated between the Bezwada range of true khondalites and Kondapalle range of charnockite series and tend to indicate that the recrystallising agency might be the adjoining massifs of charnockites.

Garnetiferous-silimanite-graphite-schists :— The Khondalite series is one of the oldest and highly metamorphosed group of rocks encountered in this district. The series is represented by its typical member

khondalite and its various garnetiferous granulite. Garnetiferous granulite and garnet sillimanite-graphite schist appear to be crystallized under conditions of high grade metamorphism. They are seen in Kondapalle range and also in Koduru-Kannuru villages.

Dharwars

The rock types included under Dharwars comprise a group of schists characterstic of green schist facies developed under conditions of medium grade metamorphism. The important rock types comprising Dharwars are hornblende-schist epidote-chlorite schist, sericite-schist and quartz-muscovite schist. Besides mica-chlorite-phyllitic schists with their associted quartzites, crushed conglomerates are also included under this group. The commonest rock type among the schists is hornblende schist consisting largely of blue green hornblende, felspar and some magnetite. The rock is generally highly friable. This is due to lack of adequate interlocking arrangements among the constituent minerals. In certain places the out crops of hornblende schist are traversed by narrow quartz stringers with no content effect. Next important mineral is chlorite schist composed of chlorite and various other minerals. Those containing talc and actinolite are also seen. Among others epidote schist with chlorite is also fairly common.

Peninsular Gneiss

Among the gneissess included under this division is a pink banded rock which can be termed granitic gneiss. As the term is self explanatory the rock is composed of quartz abundant pink felspar and a little biotite. Associated with the granitic gneiss, a somewhat massive biotite gneisses and quartzo felspathic schist in a decomposed state are also found. The hornblende-garnet granulite is coarse grained and is composed of quartz, felspar, hornblende and garnet. Hornblende gneiss has a patchy appearance with a greenish tinge. It is very coarse grained, hard and is composed of quartz, felspar, hornblende with abundant biotite.

Charnockite Series

The range Kondapalle to Duggirallapadu over a distance of 16 kms is entirely made up of charnockite series in places intermixed with garnetiferous granulites. They occur as large massifs and bands running parallel to the direction of strike. The charnockites also occur as streaks, lenses, pockets and drawn out bodies of varying shapes and sizes.

Gneissose Granite

The rocks occur as distinguished boulders or sheets spread over the general level of the ground. Due to differential weathering, the inclusions of charnockite stand out with those of softer rocks giving rise to depressions. Gensissose granite is a coarse grained rich quartzo felspathic rock. Besides intrusions of dolerite dykes, the granite is on a small scale traversed by trap dykes and quartz and pegmatite as well as aplitic veinlets. The granite does not appear to have undergone any severe metamorphism. The only evidence of apparent metamorphic change is faint gneissic banding which might even flow banding.

Dolerite Dykes

The dolerite dykes are of extensive occurrance in the region occupied by granites. In the field two groups of dolerites can be distinguished, one set which is larger in dimension and numerous in number, the other set is sporadic and of small size. The dykes of both sets show little variation in mineralogical composition, and as such, they probably belong to the same intrusive activity. The dolerite dykes are holo-crystalline, medium to fine-grained with a few coarse grained varieties. The principal components are plagioclase and augite with ophitic texture. The age of the dyke is provisionally asumed to be Pre-Kurnool as the latter rest over the denuded surface of the dykes.

Trap Dykes

Basaltic dykes referable to the Deccan trap are seen traversing the dolerites and the granites.

Quartz and pegmatite veins and apalitic veins :— The occurrence of pegmatites and the related acid intrusives is of less significance. Most of the veins are distributed in the country occupied by the gneissose granite. The pegmatite veins carry abundant flesh-red felspar and carry thin stringers of epidote in them. Some of the veins of pegmatite are seen traversing the dolerites.

Kurnools

The granites and dolerites described above are overlain by a set of quartzites, shales and limestones of Kurnool age. They are very feebly metamorphosed, unfossiliferous and tilted strata lying conformable to one another.

Gritty Quartzites:— The quartzites overlie the rugged surface of granite as it is evident from the undulating nature of the beds. The quartzite is

gritty, hard and compact and breaks up into irregularly shaped blocks with the development of wide fissures. It is mainly composed of rounded quartz grains cemented by a fine ferruginous matrix.

Purple shales and slaty phyllites:— The quartzites are succeeded by variegated beds of shales which become slaty in the lower horizons. The bottom beds are purple in colour and at times greenish. The upper beds are greyish and micaceous. Shales carry numerous veinlets of calcite and quartz which is occasionally crystallised.

Pure and Argillaceous flaggy limestone:— The shales described above become gradually calcareous at the top and merge into flaggy limestones below.

Pure and Argillaceous massive limestone:— In addition to the lateral variation in composition vertical variation in texture is also noticed. The pure flaggy varieties give rise to more compact and massive limestone. The pure limestone is generally grey but occasionally pure white and at times, fawn coloured and pinkish. It breaks up with conchoidal fracture and is easily acted upon by water with the formation of solution holes attaining the dimensions of man-holes also occur as smoothly cured slabs with a black coating.

Greenish shales:— The limestones are overlaid by a younger set of shales of some what greenish colour with a greasy feel. They are less compact and highly weathered.

Brownish quartzite:— The shales described above sometimes alternate with brownish quartzite. The rock is highly jointed and is traversed by numerous thin veins of secondary quartz giving rise to a net work pattern.

Gondwana system

Lower and Upper Gondwanas are represented by Chintalapudi sandstones and Gollapilli sandstones respectively.

Chintalapudi Sandstones :— The Chintalapudi beds constitute a set of gritty and pebbly sandstones. The rock carries some felspathic material in a kaolinised form. The sandstone is loose and the sand grain coarse, the pebbels being smooth and rounded. The beds near Somavaram have yielded some plant remains which resemble glossopteris.

Gollapilli Sandstones:— The middle division of the Upper Gondwana takes its name after the village of Gollapilli which stands on their beds. This group is made up of the varied assemblage of sandstones and sandy shales, grit and conglomerate. They are yellowish brown and buff in colour, sometime grey and purple. They are also micaceous, ferruginous and slightly felspathic.

Tertiary

Rajahmundry Sandstones:—These are the youngest beds in the region seen, overlying the Gollapillis. The group is made up of coarse and reddish brown loose sandstone. Also includes white and purple clays which are soft and soapy. The strata dip gently and are found unfossiliferous.

Soils

Lateritic soil found in many places has been produced by the Khondalites. There lateritic soil is found in patches and extends to a shallow depth. Apart from this, sandy soil is equally wide spread some of which is again red stained, when it is derived from the Gollapilli and Rajahmundry group of strata. A few patches of kankary soil are also come across which are derived from Khondalite.

Mineral Resources

Building stones :— The gneissose granite and dolerite serve as a good material for building construction and road making. They are quarried in places, like, Paritala, Kotta Ibrahimpatanam, Peddavaram, Chillakallu and Vijayawada. In addition, the different varieties of limestone, also find use in building construction. Specially the argillaceous varieties which yield perfect slabs of larger dimensions useful for paving floors. The charnockite is best suited for use as road metal and is being actively quarried near Kotta Ibrahimpatnam.

Chromite :— The occurrence of chromite deposits in the Kondapalle range is known for the past several years. The entire Kondapalle range is composed of acid to intermediate charnockite with sporadic distribution of basic and ultrabasic rock. It is with these ultrabasic rocks, the chromite is found associated. The deposit occurs over an area of 12 x 8 sq. kms in extent in the eastern part of the hills. There are two types of ore, hard and soft corresponding to the hard and soft varieties of pyroxenite. Chromic oxide content varies between

45-50 percent. The chief chromite lode runs through the centre of the mass of ultrabasic rocks which is parallel to the major set of joints. The reserves estimate is about 2,000–3,000 tons of chromite.

Diamond :— Old workings for diamonds are noticed two miles west and south-west of Mirzapuram (16°42′ :80° 50′). The diamond bearing mines belong to Gollapilli strata and are partly included in the Rajahmandries. Old workings are situated near Paritala (16°40′ : 80°23′) on the Krishna alluvium but the debris is made up of conglomerate only. The conglomerate contains pebbles of quartz, blue corundum, epidote agate and jasper. From the debris near Chandrapadu (16°41′ 15″ : 80° 12′ 00″) it appears that this area was intensively worked for diamonds.

Iron ore :— The total iron-ore available is 13·25 lakh tons and half of it has been mined. The available iron ore is too meagre to sustain an independent iron smelting, on even a moderate basis. The total area covered by iron ore bed in Shermahammadpeta (16°55′00″ : 80°06′00″) (near Jaggayyapet) is about two square miles with varying width.

Limestone :— The limestone deposit near Jaggayyapet-Mukteswarapuram region is fairly extensive. A portion of the deposit sufficiently pure for cement manufacture is estimated to yield about 200 million tons, and the other portions if suitably beneficiated can also find use for the same purpose. The limestone is being locally used for burning lime and as building stone. Some of the limestones can be used for lithography. The total reserves are estimated to be of the order of 269 million tons approximately. Investigation is under progress to demarcate, determine and prove the suitability of limestone for the use of flux in the manufacture of steel.

Mica :— Old workings for mica are found in Tiruvur taluk near Gosavidu and Lakshmipuram. Some of the veins opened up during the last war or earlier to it have stopped working owing to insufficient quantity of mica available from the veins. The quantity of muscovite available from the old workings near Gosavidu and Lakshmipuram is fairly high but mica sheets are cracked and contain carbonaceous impurities. A detailed examination of the other veins not yet opened is necessary before any final opinion could be given on their economic possibilities.

Sulphur :— The detailed investigation of the sulphur occurences near Kona by means of shallow pits and the recovery of the bulk samples have proved the scattered, patchy and discontinuous nature of the sulphur occurences with a concentration varying between 1 and 30 per cent. Each pocket rarely exceeds four feet in length, in most cases they are less than a couple of feet wide in any direction. Sulphur which is present in the clayey soils occurs as clots, stringers, films and disseminations and when associated with whitish sticky, clay, it shows maximum concentrations. Sulphur in sandy soil is usually very poor. It appears that this source of sulphur is unimportant economically because of its small quantity.

CHAPTER II

HISTORY

The earliest rulers of the district known to History were the Andhra Kings or the Satavahanas styled as Buddhist Kings. Simuka was the first king reputed as the founder of the great Satavahana dynasty. With the conquest of the Deccan (Kalinga) in 260 B.C. by the great Asoka Maurya, he claims to have subdued the Andhra Kings. However, his conquest of the Andhra Kings by no means terminated their existence as Simuka was contented with semi-independent status. Even Kanha the successor of Simuka continued to rule as his predecessor had done. But at this time the Magadha Empire was tottering to its fall owing to its vastness and for want of an able ruler after Asoka. As such internal dissentions cropped up besides the external invansions. In such a political confusion and chaos Gautamiputra Satakarni ascended to the throne and was considered as the greatest of the Satavahanas and champion of Andhras as he protected their interests by destroying the Sakas, Yavanas and the Pallavas of Malwa, Gujarath and Kathiawar respectively. He soon proposed an alliance with the powerful Amgiya family in the west and married Naganika in order to make his empire safe from further incursions in the west and thereby restored glory to the Satavahana family. The Satavahanas subsequently ruled over a wide empire gradually extending their political sway from the Krishna delta towards Nasik. Even the inscriptions at Amaravati and Dharanikota, besides the coins which have been found in the Andhra regions, indicate their greatness. But the last rulers of the Satavahana dynasty were weaklings and their rule was of little significance.

The rise of the Chutus in the western and southern districts of the Abhiras in the Nasik area, and of the Ikshavakus in the east and the relentless pressure of the Sakas of Ujjain sounded the knell of the Satavahana Empire. This too went the way of all empires through valour, greatness, discord, degeneracy and decay. But while it lasted for more than four centuries and a half, it imparted more stability and security to the life of the people, the inhabitants of regions of the Deccan, than any other Indian power had ever done. Many empires had come and gone, the Mauryas, Sungas and Kanvas in Magadha, the Chetis in Kalinga and the Bactrians, Sakas and Pallavas in north and North-Western India. Yet the Satavahanas ruled on, strong in will and stronger in action and before they fell, made weak by time and fate, they had already saved the Deccan from the aliens for more than three centuries.

The next rulers to appear on the scene were the earliest Pallavas and we read about Mukkanti Pallava as the king of Dharanikota which immediately adjoins Amaravati. The Pallavas (250-340-A.D.) consequent on the decline of Satavahana rulers, were the direct inheritors of parts of the Andhra Empire which stretched from the Krishna to the Tungabhadra and included Amaravati in the east, Bellary in the west and Kanchipuram (Conjeevaram) in the south. They were orginally officers and governors of the south-eastern portion of the Satavahana Empire, who later became independent and extended their power southwards. The Pallavas were also known as the Andhra feudatories who rose into prominence and conquered Kanchi region. The copper plate grants at Mydavolu (Guntur-District) represent Sivaskandavarman as the maker of the Pallava greatness and as a great conqueror. Indeed he ought to have been the ablest of the early Pallavas and assumed the title of Dharmamaharaja and performed the Asvamedha sacrifice. The Pallava chieftains had two of their capitals at Venginagar near Ellore and at Pithapuram, both in "Vengi desha".

The next dynasty of importance is that of Eastern Chalukyas of Vengi who were a branch of the western Chalukyas of Badami (or Vatapi) in Bijapur district. Pulakesin II of the Western Chalukyas was a great conqueror as his very name which means either tiger-haired or the great lion also indicates. His conquest of Pithapuram, the old capital of Pallavas and Vengi desha proper then in the hands of Vishnukundies brought the entire Andhra country under his control in about 615 A.D. As such he appointed his younger brother, Vishnuvardhana surnamed "Kubja" (or "the hunch-back") as the Viceroy of the newly conqured possessions. Kubja Vishhu Vardhana remained loyal but on the death of Pulakesin II he automatically declared himself as an independent sovereign of the Kingdom of Vengi and thereby founded the Eastern Chalukya dynasty which subsequently became great and popular.

The kingdom lasted upto 1070 A.D. when it was absorbed into the Chola dynasty through the inter-marriage between Vimaladitya, the brother of Saktivarma one of the Eastern Chalukya Kings and Kundavai, the daughter of Rajaraja the great, of Chola dynasty. Thus an union was brought about between the Chola and the Eastern Chalukya Kings though they were at war with each other quite naturally in the early stages. In the early part of the 8th century, Udayachandra, the General of Pallava King Narasimhavarman, claims to have subdued Vishnuvardhana III of the Eastern Chalukya dynasty but this reconquest by the ancient owners of the country seems to have been short lived. The Eastern Chalukyas were credited with the excavations of the cave temple at Undavalli and other rock-cut shrines.

At the end of the 10 th century the mighty Rajaraja I, who had laid the foundations of the great Chola Empire with its capital at Tanjore, conquered the Eastern Chalukya country and appointed the defeated Sakthivarman (999–1011) as king or perhaps a feudatory in Vengi. His brother and successor, Vimaladitya (1011-22), though he had married a Chola princess apparently attempted to throw off his allegiance, for Rajaraja's son Rajendra Chola (1011–44) again invaded the Vengi country and advanced as far as the hill called Mahendragiri in Ganjam where he planted a pillar of victory. Vimaladitya was not deposed, however, and was suceeeded by his son, Rajaraja (1022–62), who also married a princess of the Chola royal house. This king fixed his capital at Rajahmundry and it was during his reign that the Mahabharata was translated into Telugu. He is well known to local tradition to this day under the name Rajaraja Narendra who is generally regarded as a National hero of the Andhras and was a patron of the great Telugu poet, Nannaya Bhattu who began the translation of Mahabharata into Telugu. When the Chola power began to decline Vengi fell first under a number of petty chiefs.

The district then at the end of the 13th century came under the political sway of the Ganapathi dynasty of Telangana, popular as Kakatiya Kings. This fell before the Muslims who obtained a brief foothold in the country in 1324 ; but the invaders were soon driven back.

The first appearance of the Muslims in the Deccan was in 1296 when Alla-ud-din assasinated his own uncle Jalal-ud-din and seized the throne and then made a singularly bold incursion against the Hindu Raja of Deogiri. He had also long been jealous of the growing power of the Kakatiyas. In 1303 he had unsuccessfully attempted to crush their kingdom. But in 1310 an army was despatched from Delhi against Warangal. Pratapa Rudra summoned the neighbouring Rajas to the assistance of their suzerain but in vain. The Muslim General, Malik Kafir, took the city by assault and Pratapa Rudra was besieged in the citadel, purchased peace by a payment of 300 elephants and 7,000 horses and a promise of an annual tribute. This tribute was paid regularly until 1312 but the confusions in the following year at Delhi emboldened Pratapa Rudra to withhold it which was the reason why the Emperor Ghiyas-ud-din Tughluk on his accession in 1321 lost no time in sending to Warangal an army under the command of his eldest son, Prince Alaf or Jorah Khan. The Hindus fought with desperate valour and drove the Muslims as far back as Deogiri but reinforcements were obtained from Delhi and in 1323 Warangal was taken with great slaughter and the ill–fated Pratapa Rudra was carried as captive to Delhi.

In 1344 the capricious cruelty of Prince Alaf Khan, later on Muhammad I, had so disgusted his subjects that Virabhadraya, son of Pratapa Rudra, seized the opportunity to assert his independence at Warangal and, aided by the Raja of Vijayanagar, made a successful stand against the Muslims. This was followed by the revolt in 1347 of the Muslim officers in the Deccan and Virabhadraya made common cause with them against Delhi and sent 15,000 infantry who took part in the great battle near Bidar but failed to regain the lost dominions of his father. However, it enabled Hasan Shah Gangu, to assume the regal style and to found the dynasty at Gulbarga known as the Bahmani Kings of the Deccan. The kings of this dynasty were so called in memory of the Brahmin Gangu in whose service Hasan, the founder of the race, had discovered the hidden treasure and who was afterwards the trusted minister at Delhi Sultan's court. The Bahmani Kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to the Telangana tract in the east. The Muslim Kingdom of Gulbarga steadily advanced until in 1425 Warangal was included within its limits.

The captivity of Pratapa Rudra in 1323 left his Kingdom without a ruler. The northern provinces

probably fell under the sway of the Orissa Rajas. Along side it, in the south the district acknowledged the authority of a line of cultivators who rose to considerable power and are known to history as the "Reddi Kings". The founder of this family was Donti Aliya Reddi, a cultivator of Hanamkonda who amassed enormous wealth,tradition says by discovering the alchemists' secret of the process of transmuting metals into gold,and migrated to Kondavidu. On the downfall of Pratapa Rudra, the eldest son Pulaya Vema Reddi found himself independent and established himself in the hill fort of Kondavidu, which had doubtless been a stronghold for some centuries previous to this date. He also possessed himself of the fortress of Bellamkonda, Vinukonda and Nagarjunakonda in the Palnad. His brother, Anuvema Reddi, extended his dominions to Rajahmundry on the north, Kanchi on the south and Srisailam on the west. Kondapalli hill fort is said to have been built in his reign. The Kondavidu Reddis were great patrons of Telugu literature. The poet Srinadha and his brother-in-law Bammera Pothana flourished at this court. The ruins of their fortresses at Kondavidu, Bellamkonda and Kondapalli are still to be seen.

On the extinction of the Reddi dynasty the Gajapathi Kings of Orissa extended their power over the district. The name of Kapileswara Gajapathi is preserved by the village Kapileswarapuram (now in Gannavaram taluk). He was succeeded by Vidyadhara Gajapati who built Vidyadharapuram and constructed a reservoir at Kondapalli. His wife Bhavanamma and his two daughters Muthyalamma and Paidamma gave their names to Bhavanipuram, Muthyalammapadu and Paidurupadu in Vijayawada taluk. About 1516, Krishna Deva Raya the great King of Vijayanagar conquered the whole of this country and left inscriptions to announce his victories. The farthest north is the one at Simhachalam, near Vizagapatnam which is given in Telugu. He restored Kondapalli to the Orissa Raja but retained Kondavidu. The famous company of eight poets popularly known as 'Ashta Diggajas' who adorned the court of the conqueror Krishna Deva Raya were Allasani Peddana, Mukku Timmanna, Tenali Ramalingam, Bhattu Murti, Kavi Dhurjati, Pingali Surana, Madayyagari Mallana and Ramabhadrakavi.

About the end of the 15th century the Bahamini Kingdom split up into several smaller states such as Bijapur in A.D.1489, Ahammadnagar in 1490 and Bidar in 1498. In 1512 the Kingdom of Golconda or Hyderabad was founded by one Sultan Quli Qutub Shah, a Turk of noble family, who was governor of the Golconda province under the Bahamanis.He took advantage of the distracted state of Kingdom under Mahmud Shah and declared his independence, establishing the Qutub Shahi dynasty which reigned from 1512 to 1687. The Kingdom of Golconda included this district within its limits.

The life story of this adventurer Sultan Quli is marvellous. In 1490 he was an officer of the guard at the palace when an attempt was made on the king's life by some Abyssinians and Deccanis and it was his desperate defence that enabled the young Mohammad Shah to escape with his life. For this service, he was rewarded with the title of Qutb-ul-Mulk and in 1495 we find him appointed as Governor of Telangana with the personal Jagirs of Warangal and Golconda. To the credit of Sultan Quli it must be recorded that he steadfastly remained loyal to Mahamud Shah, his early patron. The province was governed in the king's name and during his various inter-changing conflicts which occupied the following twenty years Sultan Quli,as far as possible gave his support to the King. It was not until his four rivals had all assumed the regal style, and homage to Mahamud Shah had become nothing but a sentimental survival bereft of all real significance, that Sultan Quli Qutb Shah, in 1512, proclaimed himself king and fixed his capital at Golconda but even after this he continued to send presents and money every year to the descendant of the Bahmani Kings. Bellamkonda was, at this time, held by a Raja named Sitapati who also held Warangal and Khammamet and who seems to have been a vassal of Orissa. It was a dispute with this Raja that first brought Sultan Quli into the Krishna district.

This Sitapati Raja not only possessed these three strongholds, but had in his service a trained body of twelve thousand infantry noted as good marksmen. Confident in the security thus afforded him he laid hands on some of the Qutub Shah's districts which adjoined his territory. This roused the king who marched from Golconda and, leaving aside Warangal and Khammamet, crossed the Krishna river and laid close siege to Bellamkonda. The fortress held out much longer than the King expected ; so losing patience, he ordered a general escalade on all sides simultaneously and thus took the place but with heavy loss.

Bellamkonda had hitherto been considered impregnable and Sitapati Raja, who had been well

content to see the king waste his time below its walls, no sooner heard of its fall than he marched with his army to cut off the king's retreat. A desperate battle ensued. The Hindu infantry with a well directed fire inflicted severe loss upon their enemies and firmly withstood several charges of the Mahammadan cavalry but at last gave way, leaving the baggages and treasure to Sultan Quli who returned with his booty to Golconda.

Sitapati Raja had fled from the field to his fortress of Khammamet but defeat only incited him to further efforts. He sent messengers to all the neighbouring Rajas, writing to them to form a league against this Sultan Quli Qutub Shah who had already reduced greater part of Telangana and was every day gaining ground so that soon no Hindu chiefs would remain to oppose his overwhelming ambition. The Rajas responded to his call and their united forces assembled at Khammamet. Sultan Quli at once marched to oppose them and as usual gained a victory.

The defeated but not despairing Sitapati fled to Kondapalli where he found Raja Ramachandra, the son of Gajapati Vijayananda Deo, Raja of Orissa. To this prince he represented that Sultan Quli had at length suceeded in expelling him from his country, that all Telangana lay at the mercy of this Muslim and that unless he was checked, the Orissa dominions would be the next to suffer. Gajapati Ramachandra, impressed by the gravity of the crisis, issued orders to all his tributaries to retire to Kondapalli with their forces and soon collected at Kondapalli an enormous army, said to have numbered three hundred thousand infantry, thirty thousand horses and seven hundred elephants. The various Hindu Rajas took an oath to stand by each other, and then they marched to crush Sultan Quli. He prepared to oppose them with only five thousand horses and met them at the river near "Palanchennur" (perhaps the present Penuganchiprolu near Jaggayyapet). Sultan Quli notwithstanding the disparity of numbers determined on delivering the attack and won the battle. Thus the king reduced the fortress of Kondapalli but in 1530 he was obliged to take the field against the Raja of Vijayanagar. Under the command of Siva Raja in which Sultan Quli scored a victory. Sultan Quli Qutub Shah was advanced in years and resolved to spend the remainder of his life in peaceful pursuits. On 4th September, 1543 when he was kneeling at prayer in the mosque at Golconda he was assasinated by order of his third son Prince Jamshid who ascended the throne in his stead. On his death, Prince Ibrahim was crowned. The rise of the Vijayanagar Empire was dramatically rapid. The empire reached the height of its power under Sri Krishna Deva Raya (1509–1530), the greatest of its monarchs. In 1515 King Sri Krishna Deva Raya of Vijayanagar wrested the north of the district from the Gajapati Kings of Orissa. He was a great patron of Sanskrit and Telugu literatures and won the title as 'Andhra Bhoja' and in fact his court was adorned by the famous 'Ashtadiggajas',

The Hindu minister Jagadeva Row was too powerful for a subject and when Ibrahim Qutub Shah took steps against him fled to the Vijayanagar Court and employed all his energies in fomenting intrigues to the detriment of his late master. Thus in 1557 the Kings of Bidar and Bijapur attacked on him on the west and Rama Raja of Vijayanagar on the south, while two Orissa generals named Sitapati and Vijayaditya moved from Rajahmundry against Ellore and Siddhiraja Rimmappa, Governor of Kondavidu with fifty thousand horses attacked Masulipatam and Kondapalli fighting several actions near the gardens of Ibrahim Shah and Vijayawada.

The King confined by this coalition of his enemies to the neighbourhood of his capital had recourse to negotiations and induced Rama Raja to be satisfied with the forts of Pangul and Ghunapur. The confederacy then broke up and Ibrahim Qutub Shah so laboured to impress upon the other Muslim Kings the need for union against the Vijayanagar power that seven years later in 1565 they leagued together and crushed the Hindu Raja at the famous battle of Tallikot by razing the city of Vijayanagar to the ground. The empire never recovered from the blow.

Abu-l-Hasan Shah was the last of Qutub Shahi dynasty known as Tanesha. The Muslim and Hindu people tell many stories about his reign. He had two ministers, both Brahmins, named Akkanna and Madanna, who managed his affairs with much ability and left an enduring reputation.

For some reason, they fixed their office at Vijayawada. Popular tradition attributed this preference of Vijayawada to the devotion of the two ministers to the goddess Kanaka Durga and certain it is that the impetus then given to her cult still exists, for as late as 1878 a serai at Vijayawada for the accommodation of pilgrims to her shrine, was erected by

some merchants of Cocanada. The mendicant *laudator temporis acti* still fondly points out the spot, at the foot of the telegraph hill, where the beneficient ministers distributed food every day to a crowd of applicants of all castes and such was the impression made on the public mind by their rapid transaction of business, that the legend is still current that from the caves on that hill runs a subterranean passage to Hyderabad by which the ministers could go to court, obtain the king's orders and return to Vijayawada in one day.

The Emperor Aurangazeb included this district in the province of Golconda, one of the twenty two provinces that formed his enormous Empire, but he was too busily engaged in distant warfare to pay much attention to this part of the country, which remained under Asaf Jah who was appointed as Subedar or Viceroy of the Deccan in 1713 with the title of Nizam-ul-Mulk. The Moghal Empire at this period was on the verge of decline owing to internal dessensions. Asaf Jah took opportunity fairly well so much so that he had little difficulty in asserting his independence against the weak occupants of the Delhi throne although a battle was fought at Shakarkhelda (Fathkhelda) in the Buldana district of Berar in 1724 with Mubariz Khan, the Governor of Khandesh, which established him as independent sovereign of the Kingdom. Mubariz Khan was killed in the battle and so he reigned without rival as Subedar of the Deccan. The province of Golconda comprised five Nawabs'charges viz., Arcot, Cuddapah, Kurnool, Rajahmundry and Chicacole (Srikakulam). The Nawab of Rajahmundry ruled the country included in the Krishna district.

The representatives of the different European Nations had been appearing hitherto as traders on the coast, under the patronage of some local potentiate or influential courtier. In 1611 the English founded their settlement at Masulipatnam which continued to be their headquarters until they were finally removed to Madras in 1641. Three years after the founding of the English settlement came the Dutch and in 1669 the French followed. The scene now changed and the Europeans played a bolder part exercising a voice in the political changes of the Deccan. The first who rose superior to the caution of the counting house and took a statesman like view of the possibility of building an European Empire upon the crumbling monarchy of the Moghuls, were the French officials at Pondicherry and pre-eminent among them stands M. Dupleix. He was a simple merchant, who by 1741 had risen to be the Governor of Pondicherry.

Upon the death of the old Nizam-ul-Mulk in June 1748, his second son Nasir Jung, and Muzaffar Jung, his grandson by one of his daughters, strove for the succession. At this time the English and the French were contending for supremacy in the east and each of the claimants secured the support of these powers; Nasir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nasir Jung, Muzaffar Jung was proclaimed the sovereign. Dupleix the French Governor, became the controller of the Nizam's authority. Muzafar Jung was killed by some Pathan chiefs and the French then selected Salabath Jung, a brother of Nasir Jung as ruler. Ghazi-ud-din, the eldest son of Asaf Jah, who it was alleged, had relinquished his claim at first, now appeared as a claimant, supported by the Marathas but his sudden death put a stop for further struggles. The English and the French were now contesting for power and influence in the Deccan,but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah, at this juncture obtained the support of the English on the promise of dismissing the French from his service. Salabat Jung was dethroned in 1761, and Nizam Ali Khan was proclaimed ruler. The British secured at first the divisions of Masulipatnam, Nizampatnam and part of Kondavidu and later the entire Circars. At first the district was administered by a Chief and a Council at Masulipatnam but in 1794 Collectors directly responsible to the Board of Revenue were appointed as Masulipatnam.

In 1859 the then Guntur district was abolished and its territory was partly added to Masulipatnam and partly to Rajahmundry districts and they were renamed as Krishna and Godavari districts. This reorganised set up continued till 1904. Subsequent to the above reorganisation in 1859 the construction of Godavari and Krishna anicuts and extension of the great irrigation systems increased the work load of all the departments. In order to improve the method of administration and efficiently control these two wealthy areas it was considered that the jurisdictions of the Collectors should be reduced and therefore the reorganisation of Krishna and Godavari districts and constitution of new Guntur district was effected in 1904. The Godavari district was lightened by the transfer of Yernagudem, Eluru, Tanuku, Bhimavaram and Narsapur taluks (excluding

Nagaram Island) to Krishna district while Krishna district was relieved of the taluks of Tenali, Guntur, Sattenapalle, Palnad. Bapatla, Narsaraopet and Vinukonda which with Ongole taluk of Nellore district had been formed into the new Guntur district in 1904. The Krishna district so reorganised in 1904 maintained that jurisdiction till 1925 when it was again bifurcated into Krishna and West Godavari districts. The residuary Krishna district so carved out in 1925 had undergone only certain minor territorial changes once in 1950 and again in 1959. In 1950 exchange of a few enclave villages with the former Hyderabad State took place. In 1959 Munagala Paragana of Jaggayyapet Independent sub Taluk was transferred to Nalgonda district and Potharlanka and Gajullanka villages to Guntur district. The district at present extends over an area of 3366.5 square miles covering a population of 2,076,956 persons. The district is now administered by a Collector, an officer of the Indian Administrative service with necessary ancillary staff.

After independence the first General Elections were conducted in January, 1952 for both the House of people and the Legislative Assembly. The tenure of office members of both the Houses was five years. But due to the failure of the State Government, mid-term elections were conducted during February, 1955 for the State Legislative Assembly. The district was divided into 17 Assembly Constituencies and 3 Parliamentary Constituencies to elect 17 members of the Legislative Assembly and three members of Parliament as shown below according to the Delimitation Commission Order of 1954.

STATEMENT II—1

Name of Constituency	Extent of Constituency	Total No. of seats	Seats reserved for	
			Scheduled Castes	Scheduled Tribes
(1)	(2)	(3)	(4)	(5)
	Parliamentary Constituencies

Bandar	Bandar firka in Bandar taluk	1	..	..
Divi	Divi taluk	2	1	..

The names of the successful candidates for the Assembly Constituencies in the mid-term elections in 1955 are furnished below:

STATEMENT II-2

Name of the Constituency	Name of the successful candidate
(1)	(2)
Kaikalur	Sri Kammili Appa Rao
Gudivada	Sri Adusumilli Venkata Subrahmanyam
Gannavaram	Sri Vemula Kurmayya Sri Puchalapalli Sundarayya
Kankipadu	Sri Chagarlamudi Ramakotaiah
Vijayawada South	Sri Ayyadevara Kaleswara Rao
Vijayawada North	Sri Marupilla Chitti *alias* Appalaswami
Mylavaram	Sri Vellanki Visweswara Rao
Nandigama	Sri Pillalamarri Venkateswarlu
Kanchikacherla	Sri Maganti Ramaiah
Tiruvur	Sri Peta Bapayya
Nuzvid	Sri Meka Rangayyapparao Bahaduru
Vuyyur	Sri Kakani Venkataratnam
Malleswaram	Sri Pennenti Pamideswara Rao
Bandar	Sri Kollipara Venkata Ramanayya
Divi	Sri Mallepudi Rajeswara Rao Sri Yarlagadda Sivarama Prasad Bahadur Garu Sirmanth Raja

The country again went to polls during 1957. But as mid-term elections for Andhra State Legislative Assembly were conducted during 1955 the Government extended the term of office of the Members of the Legislative Assembly of the Andhra region of the State for a further period of 5 years from 1957 and hence the members elected for the Legislative Assembly continued as Members of the Legislative Assembly upto 1962. So the elections conducted in 1957 were confined to Assembly Constituencies of Telangana region and Parliament Constituencies in both Andhra and Telangana regions. During these elections the Parliamentary and Assembly Constituencies remained unchanged. The successful candidates for the Krishna District Parliamentary Constituencies were.....

1. Sri Duggirala Balarama Krishnaiah
2. Srimathi Komarraju Achamamba
3. Sri Mandali Venkata Krishna Rao

Due to the abolition of the two member constituencies the district was again divided into three Parliamentary and 17 Assembly Constituencies under the Delimitation Commission Order. The extent of each of the Parliamentary and Assembly Constituencies and the names of successful candidates in the 1962 Elections are given below :

STATEMENT II-1

Name of Constituency (1)	Extent of Constituency (2)	Name of the successful candidate (3)
	Parliamentary Constituencies	
Gudivada	Undi, Bheemavaram, Kaikalur, Mudinepalle, Gudivada, Gannavaram, Kankipadu Assembly Constituencies	Sri Maganti Ankineedu
Vijayawada	Vijayawada South, Vijayawada North, Mylavaram, Nandigama, Jaggayyapet, Tiruvur, Nuzvid Assembly Constituencies	Dr. K. L. Rao
Masulipatam	Vuyyur, Malleswaram, Bandar, Avanigadda, Nidumolu, Kuchipudi, Repalle Assembly Constituencies	Sri Mandali Venkata Swamy
	Assembly Constituencies	
Kaikalur	Kaikalur taluk (excluding Kanukollu firka)	Sri Kammili Apparao
Mudinepalle	Mudinepalle, Nandivada and Gudlavalleru firkas in Gudivada taluk and Kanukollu firka in Kaikalur taluk	Sri Boppana Hanumantha Rao
Gudivada (Reserved)	Gudivada, Pammarru and Ventrapragada firkas in Gudivada taluk	Sri Gangi Rama Rao
Gannavaram	Gannavaram, Vedurupavulur, Veeravalle and Telaprolu firkas in Gannavaram taluk	Sri Puchalapalli Sundaraiah
Kankipadu	Kankipadu, Poranki and Vallur firkas in Vijayawada taluk	Sri Myneni Lakshmana Swamy
Vijayawada South	Localities 7, 11 to 15, 25 to 30, 33 to 35, 38 and 41 and certain streets and houses in other localities specified in Vijayawada Municipality	Dr. T.V.S.Chalapathi Rao
Vijayawada North	Vijayawada firka (excluding localities 7, 11 to 15, 25 to 30, 33 to 35, 38 and 41 and the streets and houses in the localities specified in Vijayawada Municipality)	Sri Tammina Potharaju
Mylavaram	Mylavaram, Velvadam, Kondapalle and Kodur firkas in Vijayawada taluk and Kondur firka in Tiruvur taluk	Sri Vellanki Viswesvara Rao
Nandigama	Kanchikacherla and Chandarlapad firkas and Nandigama firka (excluding certain villages specified) in Nandigama taluk	Sri Pillalamarri Venkateswarlu
Jaggayyapet (Reserved)	Jaggayyapet taluk and Penuganchiprolu firka and certain specified villages in Nandigama firka of Nandigama taluk	Sri Galate Venkateswarlu
Tiruvur	Tiruvur taluk (excluding Kondur firka)	Sri Peta Bapayya
Nuzvid	Nuzvid taluk	Sri M.R.Appa Rao
Vuyyur	Vuyyur, Katur, Kapileswarapuram and Medur firkas in Gannavaram taluk	Sri Kakani Venkataratnam
Malleswaram	Bandar taluk (excluding Bandar firka)	Sri Pinneti Pamideswara Rao
Bandar	Bandar firka in Bandar taluk	Sri Pendasingu Lakshmana Rao
Avanigadda	Avanigadda, Nagayalanka, Kodur and Challapalle firkas in Divi taluk	Sri Yarlagadda Sivarama Prasad
Nidumolu (Reserved)	Nidumolu, Lankapalle and Kodali firkas in Divi taluk and Gazullanka village in Tenali taluk and Potharlanka village in Repalle taluk of Guntur District	Sri Gunturu Bapanayya

This district has also played an important role in the freedom struggle and can be justly proud of many eminent personalities. A brief account of some of the important individuals is given below :

Sri Kasinathuni Nageswara Rao (1862–1938 A.D.) Born in 1862 and a native of Yelakurru village of Krishna district, Sri Nageswara Rao had his High School education in Masulipatnam and

collegiate education at Guntur and Madras. After completing his studies Sri Nageswara Rao went to Bombay and secured employment in an European firm called William & Co. He won the admiration of the Company Manager by his hard work, efficiency and skill in business. Therefore, the whole business was handed over to Nageswara Rao when the Company's Manager left India. He improved the business further by his skill and determined efforts. An ointment for headache etc., and some other medicines which he was preparing and selling already got good popularity and so yielded good profits. He, therfore, in 1898 renamed the business company as Amrutanjanam Depot. While he was in Bombay, the National Independence Movement, specially the Surat National Congress of 1907 attracted and influenced him greatly. As a result he started the Telugu Journal 'Andhra Patrika,' as a weekly Journal in 1908 to serve the Andhras. In those days it was very difficult and expensive to start a Telugu paper in Bombay where there were no Telugu printing presses. He brought all the necessary staff–from compositors to sub–editors from Madras and Vijayawada by paying them heavily He visualised the need for a separate Andhra State without which Andhra people could not progress. He spent all the money that he earned in Amurtanjanam business on publishing the 'Andhra Patrika weekly'. In 1914 he shifted himself from Bombay to Madras and changed his journal Andhra Patrika into a daily paper. During the First World War, the paper acquired large circulation. From then onwards the service rendered by him to the Andhras and the Nation through that daily is very valuable. He used to bring out the annual issue on every Telugu New Year's Day containing special features on Andhra culture, National Movement etc. During the Non–Co–operation Movement he followed the foot steps of Mahatma Gandhi and sacrificed everything for the National Movement. He served the country not only as a writer and editor but also as a social worker. He toured throughout Andhra and woke up the people for the national cause. He was the President of the 'Andhra Mahasabha'. He was a member of the All India Congress Committee for 12 years and actively participated in several other organisations also. In view of the great service rendered by him and the generosity displayed by him he was awarded the tittle 'Desodharaka' at the Andhra Mahasabha held in 1924 in Madras and 'Viswadata' at the meeting held at Vijayawada in 1929. He was imprisoned during the Salt Satyagraha. He started the monthly magazine 'Bharati' in 1924, to propogate ancient culture etc. He was elected as a member of the Indian Constituent Assembly. He was a dramatist too and encouraged the 'Andhra Nataka Samajam'. He established the theatre 'Durga Kala Mandiram' at Vijayawada. Thus he served actively the country in several ways.

Raghupathi Venkataratnam Naidu (*1862–1939 A. D.*) born in Masulipatnam in 1862 he had to move from place to place with his father who was then a Subedar in the army. He, therefore, spent his childhood in Northern India and had his early education under Deenanadha Bannerji at Bandha for some time and under Prof. Aghoranadha Chatopadhaya at Hyderabad and passed his Matriculation examination. He acquired great proficiency in Urdu also. In 1885 he studied in Madras Christian College under Dr. Miller. He passed his M.A. degree examination in 1891 and L. T. examination in 1897 and studied Law for some time. He was bereaved at the early age of 27 by the death of his wife and thereafter he did not marry and observed celibacy for the rest of his life. In 1886 he was editor of some English Journals and during the period from 1886 to 1898 he worked as a teacher in various educational institutions at Eluru, Rajahmundry, Secunderabad, Madras Bandar and protested vehemently against conversions into Christianity. He left the College at Bandar due to some difference of opinion with the college authorities ; and joined the Mahboob College, Secunderabad in 1889 and worked as its Principal from 1889–1904. From 1905–1919 he worked as Principal of Pithapuram Rajah's College, Kakinada. He was the first elected Vice–Chancellor of the Madras University which post he held from 1925 to 1928 with great ability. He introduced many reforms in University education. Dravidian languages got the due recognition and research facilities were also provided. He had a very noble, lofty and sublime character.

He was the President of All India Theosophical Society in 1906. He played an important role in several organisations. The titles' 'Rao Bahadur', 'Dewan Bahadur' and 'Sir' were conferred on him in recognition of his meritorious services in different fields. He was also conferred the Honorary degrees of D. Lit., and LL. D. In addition to this the members of Brahma Samaj out of their utmost respect and affection for him, called him 'Brahmarshi'. He established the 'Brahma Mandir', home for the destitutes and a few educational institutions at Kakinada and rendered great

service for the uplift of women. He was an ardent social reformer and can be called the 'Socrates' of Andhra. He donated lavishly to the educational institutions for giving scholarships to the deserving poor. He is one of the great sons of Andhra.

Mutnuri Krishna Rao (1879–1945 A. D.) born in 1879, had his early education in the Hindu High School, Masulipatnam. He studied F. A. in 1896 in Noble College when Raghupathi Venkataratnam Naidu was working as a lecturer. Attracted by Venkataratnam Naidu he became one of his principal disciples. He was a great lover of English language and used to give impressive speeches and read 'sermons' during the Brahma Samaj prayers. During his stay at Madras he regularly read Bipin Chandra Pal's 'New India'. He returned to Masulipatam with a great determination to serve his motherland. He became the sub-editor and later editor of Krishna Patrika started by the Krishna District Committee. During the struggle against the partition of Bengal he toured Bengal with Bipin Chandra Pal and participated in the discussions with Aravinda Ghosh. During those days of freedom struggle, his writings in the jonrnal were very intensely and even violently revolutionary and left a deep impression on the readers. Therefore the editorial of the journal was stopped for some days due to Government pressure. Later the management of the journal came entirely under his control. He rendered yeoman service through his editorials. During the Civil Disobedience Movement he underwent imprisonment. He was known to everybody only through his paper 'Krishna Patrika' but known personally to a selected few.

Dr. Bhograju Pattabhi Sitharamaiah familiarly known as Dr. Pattabhi was one of the great freedom fighters of Andhra in the 20th century. Born in 1880 he studied medicine and after passing M. B. C. M. examination set up practice in Masulipatnam in 1906. He did not remain in this profession for long. He joined the Congress Party in 1916 leaving his medical profession and became an important worker in the party. He was a member of the All India Congress Working Committee for a long time. He was also elected as President of the All India Congress Committee in 1948 during the Jaipur Session and held the post for two years *i.e.*, till 1950. He also worked as Governor of Madhya Pradesh. He was a talented speaker and a good writer too. He wrote several works among which the 'History of Congress' is an important contribution. He is the founder of the Andhra Bank and the Andhra Insurance Company. He was one of the three members of the Committee constituted by the All India National Congress to report on the formation of Andhra State on linguistic basis, the other two being Jawaharlal Nehru and Sardar Vallabhai Patel. Their report is familiarly known as the J. V. P. Report.

This district has produced many more important personalities like Bhandaru Achamamba, Veturi Prabhakara Sastri, Gudavalli Ramabrahmam and Ayyadevara Kaleswara Rao who all will always remain in the memories of Andhras.

CHAPTER III

POPULATION AND HOUSING

This chapter deals with some of the demographic,economic and social characteristics of the district and is based on 1961 Census data. The related Census Tables are printed in Part III of this Hand Book. The following statement gives an idea of where this district stands in comparison with other districts of the State in respect of certain basic demographic data.

STATEMENT III—1

State/District	Area in sq. miles	Population	Density of Population (per sq. mile)	*Percentage* of growth of Population 1951-61	Percentage of Urban Population	Sex Ratio (Females per 1000 Males)

Krishna district supports a population of 2,076,956 persons consisting of 1,058,323 males and 1,018,633 females according to the 1961 Census. The major part of the population lives in the rural areas alone as is the case with all the other districts in the State. 1,588,732 persons or nearly 76·49% of the population of the district belong to the rural areas, while 488,224 persons or nearly 23.51% of the population live in the urban areas. This district comprising 10 taluks has an area of 3,366·5 sq. miles. The urban area of the district is only 98·7 sq. miles. There are altogether 989 villages in the rural area and 13 towns in the urban area of the district.

Urban areas

Among the 13 towns in the district, two are Cities with a population of over one lakh each and the remaining 11 towns are Non-Cities with less than a lakh population. Vijayawada is the largest City in the district with a population of 230,397 persons and the second biggest City in the State, next to Hyderabad. Bandar (Masulipatnam) City is the second largest city in the district with a population of 101,417 persons and is the headquarters of the district. Among the remaining 11 towns in the district one is a class III town with a population between 20,000 and 49,999 persons, six are class IV towns with a population between 10,000 and 19,999 persons, three are class V towns with a population between 5,000 and 9,999 persons and one is a class VI town with less than 5,000 population. Mokhasa Mutyalampadu a new colony of urban population, established on the outskirts of Vijayawada City, constituting the only Class VI town in the State, is the smallest urban unit with only 3,963 persons from the population point of view. As this place is adjoining Vijayawada City it is likely to be merged in Vijayawada Municipality by the next Census. Nandigama with an area of 14.91 sq. miles is the largest town in the district in respect of area closely followed by Jaggayyapet town (14·06 sq. miles). Mokhasa Mutyalampadu is the smallest town even in area though its area figure is not separately available. Gudivada with an area of only 2·69 sq. miles stands as the second smallest town in the district.

Rural areas

Among the 989 villages in the district 946 are inhabited and 43 are uninhabited. Vijayawada taluk contains 125 villages, the largest number in any taluk of the district. The smallest number of villages is only 44 in Jaggayyapet Independent Sub-Taluk. Out of the total number of 946 inhabited villages in the district there are 137 villages or about 14·48% of the total inhabited villages which have population less than 500. 245 villages or about 25·90% of the total inhabited villages belong to the population size of 500-999 persons. 282 villages or 29·8% fall in the population size of 1,000–1,999 persons. 241 villages or 25·48% of the total inhabited villages in the district belong to the population size of 2,000–4,999 persons. There are 40 villages or 4·23% with a population lying between 5,000–9,999 persons distributed among 9 taluks excluding Jaggayyapet Independent Sub-Taluk. There is only one village in Gudivada taluk with a population of 10,000 and above.

Household Population

The total population of 2,076,956 persons in the district constituting 446,492 households occupied 395,057 residential houses. Thus on an average the household has 4.65 persons in Krishna district. The average number of persons in a household in each of the taluks in Krishna district is given below:

STATEMENT III-2

District/Taluk (1)	Average No. of persons per household (2)
KRISHNA DISTRICT	4.65
Bandar (Masulipatnam) Taluk	4·72
Divi Taluk	4 48
Gannavaram Taluk	4·48
Vijayawada Taluk	4·60
Nandigama Taluk	4·90
Jaggayyapet Ind. Sub-Taluk	4·94
Tiruvur Taluk	5·18
Nuzvid Taluk	4·94
Gudivada Taluk	4 51
Kaikalur Taluk	4 41

Thus in general, every household consists of about four to five persons in the entire district except in Tiruvur taluk where the household size slightly exceeds five persons.

Density of Population

The density of population of the entire district is 617 persons per sq. miles as per the 1961 Census count, the rural and urban figures being 486 and 4,948 persons respectively as against 428 and 3,738 persons respectively according to the 1951 Census. Among other districts in the State Hyderabad, Srikakulam, East Godavari, and West Godavari districts only have recorded a density of more than 600 persons per sq. mile as against the average density of 339 persons per sq. mile for the State. Thus Krishna district stands among the most thickly populated districts in the State. Amongst taluks in

the district Vijayawada taluk has recorded a density of population of 1,057 persons per sq. mile presumably due to Vijayawada City and it is followed by Gudivada (978) Bandar (780) Gannavaram (744) Kaikalur (542) Divi (517) Jaggayyapet I. S. T (436), Nandigama (427) Nuzvid (381) and Tiruvur as low as (342) persons per sq. mile. As regards Cities, Vijayawada and Bandar have recorded densities of 25,146 and 10,564 persons per sq. mile respectively. Among other towns Pedana town has recorded a high density of more than 3,000 persons per sq. mile. Avanigadda and Vuyyur towns have grown populous registering a density of more than 2,000 persons per sq. mile in each. The other towns with the exception of Gudivada have recorded densities ranging from 687 persons per sq.mile in Nandigama to 1,667 per sq. mile in Kaikalur. The highest population density in the non-city urban areas of the district is recorded by Gudivada town which has 16,655 persons per sq. mile. However too much reliance cannot be placed on the urban density figures as it is not known definitely whether the area figures of all the urban units furnished by the respective local authorities have been worked out in a uniform way and whether the areas in all cases relate to the built up areas or include the cultivated fields etc.

Sex Ratio

According to the 1961 Census there are 963 females for every 1,000 males in the district and this figure usually referred to as the sex ratio ranges between 946 in Nandigama taluk and 988 in Jaggayyapet I. S. T. There are 966 females for every 1,000 males in the rural areas while the corresponding figure for urban areas of this district is only 951 females. It is only in the urban areas of Jaggayyapet I S. T. that there is a slight excess of females—1,001 females for every 1,000 males. The following table illustrates the sex ratios in the total, rural and urban areas of the district and each taluk.

STATEMENT III-3

District/Taluk	No. of females per 1,000 males		
	Total	Rural	Urban
(1)	(2)	(3)	(4)
KRISHNA DISTRICT	**963**	**966**	**951**
Bandar (Masulipatnam) Taluk	965	974	953
Divi Taluk	977	978	970
Gannavaram Taluk	973	977	938
Vijayawada Taluk	949	950	948
Nandigama Taluk	946	950	884
Jaggayyapet I. S. T.	988	984	1,001
Tiruvur Taluk	946	947	936
Nuzvid Taluk	950	945	978
Gudivada Taluk	978	981	967
Kaikalur Taluk	973	977	900

Age-Groups

The following statement indicates the percentage of the persons, males and females in the different Age-groups to the total population in Krishna district:

STATEMENT III-4

Age-Group	Percentage of Population (Persons, males & females) in different Age-groups		
	Persons	Males	Females
(1)	(2)	(3)	(4)
0-9	27·45	26·98	27·94
10-14	11·88	11·97	11·77
15-19	9·01	9·25	8·77
20-24	8·28	7·67	8·91
25-29	8·41	8·15	8·68
30-34	7·13	7·31	6·94
35-39	5·60	5·70	5·49
40-44	5·70	6·05	5·33
45-49	3·78	3·89	3·66
50-54	4·47	4·60	4·35
55-59	1·99	2·08	1·90
60-64	3·03	3·09	2·97
65-69	0·95	0·99	0·91
70+	2·31	2·26	2·37
Age not stated	0·01	0·01	0·01
All Ages	100·00	100·00	100·00

Infants and children in the Age-group 0–14 years form 39·33% of the total population while old people aged 55 years or more account for 8·28% of the total population. The population in the working Age-group of 15–54 years constitutes the majority of 52·38% of the total population. The remaining 0·01% of the total population comes under the category of age not stated.

The proportions of females aged 0–14 and 55 and above are slightly higher than the corresponding proportions among the males. In the working Age-group of 15–54 years the proportion of females is higher than that of males. It is also observed that in the Age-group 15–54 the proportion of females in the sub-groups 20–24 and 25–29 is higher than the corresponding proportion of males. But in the subsequent Age-groups the proportion of females in every sub-group is correspondingly lower than the corresponding proportion of males though the difference is not considerable.

Further the proportion of urban population in this district in the Age-group between 15–54 years is significantly higher 54·75% than the rural proportion of 51·65%. This may be due to the existence of two cities *viz.*, Vijayawada and Bandar and development of the urban areas such as Mokhasa Mutyalampadu, Kaikalur, Gannavaram, Nandigama and Tiruvur towns which provide employment opportunities to the people in the working age-group. The proportion of persons in the different broad age-groups in the rural and urban areas is exhibited in the following statement.

STATEMENT III-5

PERCENTAGE OF POPULATION IN DIFFERENT AGE-GROUPS IN KRISHNA DISTRICT

Age-Group	Rural	Urban
(1)	(2)	(3)
0–14	39·57	38·52
15–54	51·65	54·75
55+	8.77	6.73
Age not stated	0.01	N
All age Groups	100.00	100.00

N: Negligible

Marital Status

Taking the entire population of 2,076,956 persons in the district, 975,347 persons were never married and 1,101,609 were married including those who are widowed, divorced or separated. The number of widowed, divorced or separated persons is 170,135 persons. Thus 53·04% of the population were married sometime or other of whom 15.44% are either widowed, divorced or separated.

Child marriages also seem to be prevalent in this district. About 7·43% of females in the age-group 10–14 are married. The corresponding proportion in the case of males is naturally much smaller being 0·7%. Among 1,000 married males there are 2 in the age-group 0–14 while among females 15 out of 1,000 married females belong to this Age-group. It may be noted in this connection that children below 9 years are automatically treated as never married for Census purposes.

In the higher Age-groups naturally fewer women remain unmarried. The following statement shows the talukwise proportion of never married persons in the total population and in the population aged 10 to 14 years in Krishna district.

STATEMENT III-6

District/Taluk	Percentage of persons never married to total population (All ages)	Percentage of never married in the Age-group 10–14 to the total population in the Age-group 10–14 years
(1)	(2)	(3)
KRISHNA DISTRICT	46·96	97·27
Bandar (Masulipatnam) Taluk	45·93	96.97
Divi Taluk	44·95	96·06
Gannavaram Taluk	45·87	97·07
Vijayawada Taluk	47·64	96·69
Nandigama Taluk	47.16	93·67
Jaggayyapet I.S.T.	47·45	92·41
Tiruvur Taluk	48·88	94·07
Nuzvid Taluk	47·96	96·71
Gudivada Taluk	45·56	96·75
Kaikalur Taluk	44.72	97 38

The above statement will reveal that the proportion of never married persons is nearly the same in all the taluks.

Literacy and Education

One of the distinctive features of Krishna district is that, in the field of education and literacy standards it ranks second only to Hyderabad. 31·15% of its total population is literate as against the State average of 21·19%. All the same, a considerable proportion of the literate population do not have any educational attainment. 43·89% of the literates have the primary or junior basic qualification while only 7·6% possess educational qualifications of the Matriculation or higher standard. Among males 38·80% are literates while among females only 23·21% are literates.

Among the urban population the district records a fairly high percentage of literacy. 47·04% of the population in the urban area is literate and educated. The percentage of literate and educated among males in the urban area is 56·54% while it works out to 37·06% among females. Among the literates in the urban area 43·16% have primary or junior basic education, 10·58% are matriculates, 0·24% possess technical diplomas not equivalent to degrees, and 0·25% have non technical diplomas not equal to degrees. Only 1·90% of the urban literates hold university degree or post graduate degree other than a technical degree while 0·36% have returned themselves as having a technical

degree or diploma equal to degree or post graduate degree ; however most of these technical degree or diploma holders possess only teaching qualifications. In Vijayawada and Bandar (Masulipatnam) Cities more than 50% of the population is literate.

Krishna district recorded a high percentage of 26 27% literacy among the rural population also ranking second in the State, the first being West Godavari district with a percentage of 27·77%. 33·31% of the males in the rural areas are literate while the corresponding figure for females is 18·98%. Among the literates in the rural areas about 51·31% are without any educational levels, 44·28% possess primary or junior basic qualifications while only 4·41% of the literates are matriculates or have higher educational qualifications.

The following statement shows the percentage of literates in different age-groups for persons, males and females in the total, rural and urban areas of Krishna district.

STATEMENT III-7

PERCENTAGE OF LITERATES BY AGE-GROUPS

Age Groups	Percentage of literates among								
	Persons			Males			Females		
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
All ages									
5- 9	25·35	20·67	40·89	28·14	23·37	44·05	22·55	17·96	37·75
10-14	50 04	44·38	71·10	56·86	50·51	77·48	44·06	37·93	64·28
15-19	49·16	42·84	67·83	56·49	49·82	76 80	41·12	35·08	58·44
20-24	43·49	37·54	60 36	55·91	49·68	73·08	32·39	26 85	48·52
25-29	38·34	32·23	56·42	49·41	42·28	69·53	27 53	22·67	42·66
30-34	36·72	30·92	54 09	47·09	40·23	66 29	25·38	21·09	39 24
35-44	34.01	28 25	51·90	45·55	38·42	66 43	20·99	17·11	33·88
45-59	27·13	22·57	43·72	38·09	32·84	58·00	14·98	10·97	28·93
60+	18·39	15·19	32·71	28·86	24·57	49 43	7·36	5·06	16·97
Age not stated	29·35	26·90	43·33	36·04	32·61	52·63	21·11	20·25	27 27

Note :—Persons in the Age-group 0-4 are automatically treated as illiterates.

It is seen from the above statement that in the higher Age-groups from 15–19 onwards the proportion of literates begins to decline. This would indicate that children have started attending schools in recent years while those in the higher Age-groups did not get themselves educated in their younger age either due to lack of educational facilities or out of disinclination to attend schools. It is also observed that the proportion of literates in the Age-group 10–14 is higher than the corresponding proportion in the age-group 5–9 among persons, males and females both in the rural, and urban areas. In the urban areas the percentage of literates is the highest in the Age-group 10–14, for males and females perhaps indicating that a good number of children in the school going age are regularly attending schools. In the Age-group 15–19 the percentage of literates in the urban areas is comparatively higher than in the rural areas for obvious reasons. The high proportion (49·68%) of literates among males in the rural areas recorded in the Age-group 20–24 years may largely be attributed to various adult education programmes implemented in the community development blocks.

Workers and Non-Workers

The entire population was divided broadly into two categories *viz.*, Workers and Non-Workers at the 1961 Census count. A person who was actually engaged in some productive work or in supervising or directing the operations thereof was treated as a Worker irrespective of the fact, whether he earned any income thereby or not. The concept of dependency adopted at the earlier Censuses was given up. Thus in the classification of the population into Workers and Non-Workers the emphasis is on the concept of work but not either on income

or on dependency. In the case of regular employment in any trade, profession, service, business or commerce a person was treated as a worker if he was employed during any of the fifteen days preceding the day on which he was enumerated. A person who had regular employment but was temporarily absent from work due to illness or other causes was also treated as a worker. Persons under training as apprentices with or without stipend or wages were regarded as workers. Under trial prisoners, temporary inmates of hospitals or other similar institutions were treated as workers if they had regular work before they were apprehended or joined the institutions. Convicts in jails or long term inmates of penal, charitable, or mental institutions, however, were not treated as workers. In the case of seasonal work like cultivation, livestock rearing, dairying and household industry a person was treated as a worker, if he had some regular work of more than one hour a day throughout the greater part of the working season. Family workers *i.e.*, those who do not directly receive any income but attend to work along with other members of the family are treated as workers. All the persons, who did not satisfy these criteria laid down for workers, like beggars, prisoners, agricultural or non-agricultural royalty, rent or dividend receivers, full time students, infants who did not participate in any productive work were considered Non-Workers, even if they were earning some income otherwise. An adult woman who was engaged only in the household duties and did no other productive work was treated as a Non-Worker. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale, or wages or rearing cattle or selling firewood or making and selling cowdung cakes or grass or in domestic services for wages for others or any such productive work, she was treated as a Worker.

On the basis of this criteria 46·9% of the population of Krishna district constitute Workers, while the remaining 53·1% formed the Non-Working population. The following statement shows the distribution of 1000 persons according to the nine Industrial Categories of Workers and Non-Workers in total, rural and urban areas of Andhra Pradesh and Krishna district.

STATEMENT III-8

State/District		Total Population	Total Workers	Workers in Industrial Category									Non-workers
				I	II	III	IV	V	VI	VII	VIII	IX	
ANDHRA PRADESH	T	1,000	519	208	148	16	51	13	6	22	7	46	481
	R	1,000	552	246	173	17	52	7	4	15	2	36	448
	U	1,000	360	29	31	10	43	45	14	53	28	107	640
KRISHNA DISTRICT	T	1,000	469	127	179	15	39	15	8	26	12	48	531
	R	1,000	508	161	225	18	41	5	7	15	2	34	492
	U	1,000	342	18	29	6	31	48	12	62	42	94	658

(I — Cultivation; II—Agricultural Labourer; III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities; IV—Household Industry; V—Manufacturing other than Household Industry; VI—Construction; VII—Trade and Commerce; VIII—Transport, Storage and Communications; IX—Other Services)

It is seen that Agricultural workers (both Cultivators and Agricultural Labourers) constitute 30·6 of the total population in Krishna district 38·6% in the rural areas and about 4·7% in the urban areas as against the corresponding proportions of 35·6%, 41·9% and 6% respectively for the State. Agricultural Workers form more than 65·35% of the total Workers in Krishna district and 69% in the State. In the rural areas this proportion is as high as 76% as against the corresponding figure of 75·8% for the State. Household Industry is an important sector which provides employment to about 4% of the population in Krishna district while for the entire State the proportion is slightly more than 5%. The proportion of Workers in Household Industry is higher in the rural areas being 4·1% compared to 3·1% in the urban areas. The artisans in the rural areas of Krishna district seem to supplement their incomes from agriculture by engaging themselves in Household and Cottage Industries particularly during the off season. This tendency is observed to some extent in the case of the delta districts in the State while in many other districts the proportion of workers engaged in household

Industry in the rural areas is lower than the corresponding proportion in the urban areas probably indicating that the majority of artisans and craftsmen generally move from the rural areas to the urban areas mostly because of the inadequate returns accruing from Household and Cottage Industries in the rural areas and to some extent due to lack of development of Large Scale Industries even in the urban areas of those districts. In fact the same phenomenon is reflected in the figures for the State also. Workers in 'Other Services' Category IX which includes Public Services under the State and Central Governments, educational and scientific services, medical and health services, religious and welfare services, local and business services, personal services etc., form 4·8% of the total population in Krishna district and their proportion is naturally higher in the urban areas' the figure being 9·4% as against the corresponding figure of 3·4% for the rural areas. Workers in the remaining industrial categories such as mining and quarrying, manufacturing other than household industry, trade and commerce, and transport, storage and communications claim 1·5%, 1·5%, 2·6%, and 1·2% respectively. Workers engaged in construction constitute less than one.

The following statement shows the distribution of 1,000 males and 1,000 females among the nine Industrial Categories of Workers and Non-Workers for the total rural and urban areas of the State and Krishna district and for the rural areas of each taluk in Krishna district.

STATEMENT III—9

Kaikalur Taluk	R	4	N	11	7	17	10	3	N	34	15	336	597

Male Agricultural Workers constitute about 45.9% of the male population in the rural areas of the district and in almost all the taluks this proportion is more or less the same except in Kaikalur taluk where it is as high as 53.9%. The proportion of agricultural labourers among females is higher than the corresponding proportion for males, as is the case generally in the other districts of the State. In Jaggayyapet I.S.T. the proportion of male Agricultural Workers is the lowest in the district being 37.2%. Incidentally it may be noted that the highest proportion of Non-Workers among males is recorded in Vijayawada, Jaggayyapet and Gudivada taluks, each recording a proportion of 39% male Non-Workers. The proportion of male and female workers in Household Industry in Jaggayyapet I.S.T. is the highest in the district perhaps indicating that this taluk is not agriculturally so developed as the remaining taluks in the district. The proportion of male workers in Household Industry varies from 3% in Gudivada and Kaikalur taluks to 10.5% in Jaggayyapet I.S.T. while the proportion of female workers in this category ranges from 1% in Kaikalur taluk to 5.8% in Jaggayyapet I.S.T. for females. Handloom weaving, tanning, manufacture of tobacco products, manufacture of musical instruments, manufacture of bricks, hand pounding of rice, dairying, poultry rearing, and carpentry are the chief cottage and small scale industries of Jaggayyapet taluk. The industrial taluks of the this district namely Vijayawada, Gudivada and Bandar have recorded a proportion of 1.7%, 1.3% and 0.9% population engaged in manufacturing other than Household Industry. Gannavaram and Divi taluks have also recorded each 1.1% of the population in manufacturing and this may largely be due to the increasing number of rice mills. About 2% of the male population of Vijayawada taluk are engaged in costruction while in Divi taluk the corresponding figure is abuot 0.5%. Trade & Commerce provide work to 4% of the males and 1% of the females in the district. The proportion of workers engaged in trade & commerce, both among males and females is naturally higher in the

urban areas of the district compared to the rural areas. In fact about 11% of the males in the urban areas in this district are engaged in trade and commerce as against a figure of about 9% for the urban areas of the State. The high proportion in the urban areas of Krishna district is largely due to the overwhelming commercial importance of Vijayawada city because of its convenient location and the suitable transport and communication facilities available. The category Transport, Storage and Communications accounts for slightly more than 2% of the male population of the district while the proportion of females in this category is quite negligible. The urban proportion in this category also is obviously much higher (8% for males) than the corresponding rural proportion (0·5%). About 7% of the males and roughly 3% of the females are engaged in 'Other Services'. The proportion of female workers is less than the proportion of male workers in all the industrial categories, except under category II in almost all the taluks. In category II-Agricultural Labour, the proportion of female workers is considerably higher in all the taluks. This is generally true of all the districts in the State, clearly because quite a number of female workers normally participate in agricultural operations such as sowing, transplanting, weeding and harvesting.

Apart from the industrial classification discused above particulars relating to Occupational Classification of persons at work other than cultivation were also collected. The Occupational Classification is quite distinct from the Industrial classification. Occupational Classification relates to the actual work a person does irrespective of the Industry in which he is engaged *e.g.*, a person who is a clerical worker in Occupational Classification may be connected with industry, trade, or service; conversely in the same industrial category there may be persons following different occupations such as technicians, managerial workers, clerical workers etc. The occupational particulars are given in Table B-V printed in Part III-Statistical Tables of this book. It may however be mentioned here that according to this Table there are only 268 Allopathic Physicians or Surgeons of whom only 34 are females. The number of Ayurvedic Physicians is 610 persons while Physicians other than Allopathic and Ayurvedic, account for 844 persons. There are 424 Nurses and 443 Midwives and Health Visitors in the district. Civil Engineers (including Overseers), Mechanical Engineers and Electrical Engineers are 472, 44 and 66 in number respectively.

The following statement shows the broad-age distribution of 1,000 Workers of each sex under the different Industrial categories in the total, rural and urban areas of the Krishna district.

It is observed that 49·2% of the total Workers in Krishna district are concentrated in the Age-group 15–34 years. The proportion of female workers in this Age-group 51·6% is higher than the corresponding proportion for male workers which stands at 48·0%. The higher proportion of female workers is mainly due to preponderance of female workers among Cultivators (Category–I), Agricultural Labourers (Category II), in Household Industry (Category IV) and in Construction (Category VI). The Age-group 35–59 years accounts for 35% of the total workers. Workers in the Age-group 0–14 form 8·9% of the total Workers and are found mostly in livestock, forestry, fishing and hunting (Category III), in Household Industry and among Agricultural Labourers. However, the proportion of workers in this Age-group is relatively low in the urban areas the figure being 5·1%. In the rural areas it works out to 9·7%. In the urban areas the Age-groups 15–34 and 35–59 years together account for 89·6% among workers as against 83·1% in the rural areas. However there is no significant variation in the proportions of workers in these two Age-groups between rural and urban areas in the different industrial categories. The same phenomenon is observed also in the case of the Age-group 60 years or more though for all the categories taken together, the proportion of workers in this Age-group is higher in the rural areas (7·2%) compared to that in the urban areas (5·3%). This is due to the fact that in the rural areas a considerable number of old people also attend to or supervise the work pertaining to household agriculture, or Industry.

The non-working population of Krishna district is 1,103,740 persons consisting 417,275 males and 686,465 females. The Non-Workers constitute 53·1% of the total population; 39·4% of the males and 67·4% among females in the district are Non-Workers. The proportion of Non-Workers in the urban areas is naturally higher than in the rural areas. The Non-Workers constitute 65·8%, 46·2% and 86·4% among total persons, males, females respectively in the urban areas of Krishna district as compared with the corresponding figures of 49.2% 37.3% and 61·6% respectively in the rural areas of the district. The following statement shows the distribution of 1,000 males and 1,000 females among the non-working population according to the eight categories of Non-Workers based on the type of activity.

STATEMENT III—11

State/District	T R U	Total Non-Workers		Fulltime students		Household duties		Dependants Infants and disabled		Retired Rentier or Independent means		Beggars vagrants etc.		Inmates of penal, mental or charitable institutions		Persons seeking employment for the first time		Persons employed before but now out of employment and seeking work

The category of dependants, infants and disabled constitutes the largest proportion of male and female Non-Workers, both in rural and urban areas, except in the case of females in the urban areas where female Non-Workers engaged in household duties form the largest proportion. Those engaged only in household duties represent the next higher proportion of female Non-Workers in the rural areas, while among males the category of fulltime students, both in the rural and urban areas occupies the second place. The last two categories *i e.*, persons seeking employment for the first time and persons employed before but now out of employment and seeking work together represent total unemployed in the district and account for 1% of the male Non-Workers, the proportion being naturally higher (2%) in the urban areas compared to the rural areas. Among female Non-Workers the proportion of unemployed is negligible both in the rural and urban areas mainly because they do not generally seek any work apart from household duties.

Household Schedules

A special feature of the 1961 Census was the introduction of the Household Schedule in addition to the Individual Enumeration Slip. This Schedule is primarily intended to collect data on Cultivation and Household Industry of the household *i.e.*, as one identifiable socio-economic unit distinct from the individual on whom the population Census is generally based. It is a well known fact that cultivation or household industry involves more of household effort than individual labour or supervision and, therefore, the data based on the household as a unit of measurement are very useful. The Household Economic Tables prepared on the basis of 20% sample of the Household Schedules are published in a separate volume "Census of India 1961-Volum II-Andhra Pradesh-Part III Household Economic Tables". However one of these tables namely, "Sample Households Engaged in cultivation classified by interest in land and size of land cultivated in total, rural and urban areas" of Krishna district is given below, because this Table contains very useful information about the size of holdings and will also give a rough idea about the extent of tenancy that is still prevalent.

Migration

Of the 20·76 lakhs persons that constitute the total population of the district, 12·28 lakhs or nearly 59% are born in the place of enumeration. 5·71 lakhs of persons or about 27·5% of the district's population are born in the district itself but not at the place of enumeration. Only 262,861 persons or about 12·7% of the total population are born in other districts of the State. Thus about 86·5% of the population represents those born within the district. Persons born in other States of India and enumerated in this district number only 12,651 persons forming 0·61% of the population of the district. It is significant to note that in all categories of immigrants with the exception of persons born in other States of India beyond the State of enumeration, the females outnumber the males; among persons born in this district but outside the place of enumeration and persons born in other districts of the State, females constitute 62·3% and 53·41% respectively. This indicates that a large number of females from outside the place of enumeration and from other districts have moved into Krishna district through marriage alliances. Among the other districts of the State, Guntur, East Godavari, West Godavari and Khammam districts have sent considerable number of females into Krishna district. There are 52,160 females born in Guntur district and 30,463 females from West Godavari enumerated in Krishna district as against 40,106 and 22,002 males respectively. The number of females who have migrated to Krishna district from Khammam district (14,924) and from East Godavari (9,882 persons) is also considerable. In respect of Visakha-

patnam, Nellore and Nalgonda districts male immigrants out number the female immigrants, the figures being 9,066, 9,397 and 11,404 males respectively as against 6,806, 5,850 and 10,197 females respectively. Because these districts are relatively backward compared to Krishna district, the male immigrants from these districts seem to have immigrated for economic reasons. People who have moved into this district from other States of India are mostly from Madras State. Out of a total number of 12,651 persons born in other States and enumerated in Krishna district as many as 2,573 females and 4,216 males are from Madras State alone. These figures indicate that the rich delta tract attracts a good number of immigrant workers who throng to eke out their livelihood. The majority of the workers among migrants have taken to Cultivation and Agricultural Labour. The number of persons born outside India is only 968 forming a very insignificant proportion of the total population of the district. 336 of these foreign immigrants are from Burma, 314 from Pakistan, 192 from Nepal, 48 from China, 10 from Malaya, 9 from Ceylon and one from Iran. The pattern of distribution of persons according to birth place is more or less similar in the case of the rural and urban areas of the district except that those born outside the State of enumeration and in other districts of the State constitute a higher proportion of the urban population compared to the corresponding proportion in the rural areas, though in terms of absolute numbers such migrants are more numerous in the rural areas. The following two statements show the number of persons born in other districts of the State and enumerated in Krishna district and those born in Krishna district and enumerated in other districts of the State.

It is seen from these two tables that the number of immigrants into this district from other districts (262,861 persons) is larger than the number of emigrants (195,331 persons) from Krishna district to other districts of the State. Immigrants from other districts are drawn mostly from the neighbouring districts like Guntur, West Godavari, Khammam and Nalgonda districts. So is the case with emigrants from Krishna district into other districts of the State. Thus there seems to be considerable social and cultural affinity between Krishna, Guntur, West Godavari, Khammam and Nalgonda districts which is only natural as they are all adjoining districts.

Religion

Hindus form 84.2% of the total population of the district, 84.7% in the rural areas and 82.8% in the urban areas. The next numerous religious group is represented by Christians who form 10.2% of the population of the district, 11.2% in the rural areas and 6.8% in the urban areas. The remaining population is largely accounted by Muslims, who form about 5.6% of the total population 4.1% in the rural areas and 10.3% in the urban areas. Followers of other religions in the district comprise 515 Jains, 133 Sikhs and 44 Buddhists.

Scheduled Castes and Scheduled Tribes

SCHEDULED CASTES: The total Scheduled Castes population is 223,332 persons, representing 10.75% of the total population of the district. This proportion is higher in the rural areas (12.44%) compared to only 5.25% in the urban areas of the district. Among the taluks the proportion of Scheduled Castes varies from 6.99% in Bandar taluk to 15.30% in Divi taluk. Among the Scheduled Castes 'Mala' with a population of 102,357 persons is the most numerous caste accounting for about 45.83% of the total Scheduled Castes population in the district. The next numerous Caste is 'Madiga' which has recorded a population of 83,654 persons constituting about 37% of the total Scheduled Castes population in the district. Three other castes *viz.*, Adi Andhra, Relli and Mala Dasu have a population of 28,047, 2,231 and 3,211 persons respectively. The percentage of literacy among Scheduled Castes in Krishna district is 3.5%. A large majority of the workers among the Scheduled Castes are found among Agricultural Labourers.

SCHEDULED TRIBES:- There are no Agency or Scheduled areas in this district and hence the Scheduled Tribes population in the district is only 37,473 persons forming 1.8% of the population of the district. Most of them are found in the rural areas. Concentration of Scheduled Tribes is observed only in Vijayawada taluk which accounts for 17% of the total Scheduled Tribes in this district ; the remaining population of Scheduled Tribes is scattered thinly among the other taluks. The smallest number of Scheduled Tribes is only 822 persons, found in Kaikalur taluk and their percentage works out to only 0.54% of the

population of the taluk. The majority of the Scheduled Tribes population is accounted by the Sugali Tribe with a population of 15,536 persons. Apart from Sugali Tribe there are 14,479 Yerukulas, 6,022, Yenadis, 479 Konda Dhoras and 493 Chenchus. The total percentage of literacy among the Scheduled Tribes is 6·23% only. Among males the literates account for 9·60% while amongst females they are 2·74% only. The largest number of Scheduled Tribes is found among Agricultural Labourers.

Further details about Scheduled Castes and Scheduled Tribes in the district are given in the special Tables for Scheduled Castes and Scheduled Tribes under SCT Series in Part III-Statistical Tables in this book.

Variation in Population during Sixty years from 1901-61

The following statement shows the absolute change and the percentage variation from decade to decade in the population of each taluk in Krishna district during 1901-61.

	1961	152,955	+33,359	+27.89	77,524	75,431

The percentage of decade variation of the population for the district as a whole is 19.61% during the decennium ending 1961. It is seen that only six taluks in the district *viz.*, Bandar (Masulipatnam), Vijayawada, Jaggayyapet, Tiruvur, Nuzvid and Kaikalur have recorded population growth rates higher than the State's average of 15.65% during the decade 1951-61; the highest growth rate 29.27% in the district is observed in Vijayawada taluk. The rate of population growth is high in Bandar and Vijayawada taluks on account of the increase in the urban population which is largely

the result of the development of the district headquarters and the strategic position of Vijayawada, being situated at the head of the Krishna delta. Kaikalur which is almost a rural taluk has recorded a relatively high growth rate of population 27.89% which may be attributed to the reclamation of the tail end lands of the delta and the increase in the double cropped area. Among the delta taluks, Bandar and Kaikalur taluks only have shown a fairly high rate of growth during the last two decades. In the case of the upland taluks, Vijayawada taluk which has recorded the highest growth rate of 29.27% in the district during 1951-61, has been showing a very rapid growth of population since 1921, mainly due to the very high rate of increase in population observed in the case of Vijayawada City. This city recorded an increase of 87.04% and 42.93% during the decades 1941-51 and 1951-61 respectively. The iron-ore quarrying at Gandrayi in Jaggayyapet Independent Sub-Taluk and the increased developmental activities in Tiruvur and Nuzvid taluks are perhaps responsible for the relatively higher growth rates in these backward tracts. Tiruvur and Nuzvid taluks recorded an increase of 19.84% and 19.01% respectively. In the remaining taluks the variation during 1951-61 ranges between 10.55% in Gannavaram taluk (the lowest in the district) to 15.18% in Nandigama taluk. Thus the district as a whole can be considered as generally prosperous and developing due to good irrigation and transport and communication facilities.

Housing

During the 1961 Census count an attempt was made for the first time in the History of Indian Census to collect Housing Statistics, the lack of which has been keenly felt, on an uniform basis throughout the country. Not only residential houses but also houses used for non-residential purposes such as workshops, schools, hospitals, hostels, restaurants were covered under the scheme providing a complete inventory of all types of houses. Data on the different uses to which occupied houses were put to, tenure status, wall and roof material, number of rooms and average daily employment along with particulars of products made or serviced in the case of workshops and factories, were collected. These data are analysed and discussed in detail the publication entitled "Census of India, 1961—Volume II Andhra Pradesh in Part IV-A Report on Housing and Establishments of the State." Some of the important features are briefly discussed here.

There are 530,235 Census Houses in Krishna district of which 423,836 are in rural areas and 106,399 are in urban areas. Out of the above 530,235 Census Houses, 18,316 houses were reported as vacant at the time of Houselisting. Thus 96.5% of the houses only were occupied. The proportion of vacant houses is relatively higher in Vijayawada. Nandigama and Jaggayapet taluks which recorded proportion of 4.8%, 4.7% and 4.8% vacant houses respectively as against the district average of 3.5%.

Dwellings

Houses used wholly or partly for dwelling purposes constitute about 74.6% of the total number of houses in the district. Of these houses used purely for dwelling purposes account for 73.6% of the total houses while the shop-*cum*-dwellings and workshop-*cum*-dwellings form only 1% of the total houses. Shop-*cum*-dwellings and workshop-*cum*-dwellings are naturally more common in the rural areas because petty traders and artisans and craftsmen engaged in traditional household industries like carpentry, weaving, pottery, goldsmithy and cobbling cannot afford to maintain separate and distinct establishments for their trade or industry, away from the dwelling houses, nor do the scale and size of the trade or industry warrant such maintenance. The proportion of shop-*cum* dwellings varies from 0.3% in Bandar, Gannavaram Nuzvid and Kaikalur taluks to 0.7% in Vijayawada and Gudivada taluks. In case of cities it varies from 0.6% in Bandar to 0.9% in Vijayawada. As regards workshop-*cum*-dwellings the variation among the taluks is more pronouced; the proportion ranging from 0.1% in Bandar, Divi and Vijayawada taluks to more than 2.7% in Tiruvur taluk. Jaggayyapet Independent Sub-Taluk recorded a high proportion of 2.0% of workshop-*cum*-dwellings. These two taluks have a considerable number of Small Scale and Cottage Industrial establishments engaged in handloom-weaving, carpentry, blacksmithy, pottery, basket making, handpounding of rice and shoe-making etc.

Hotels, choultries, dharmasalas, tourist homes etc.

Houses belonging to this category are very few in number in the entire district forming only 0.1% of the total number of houses. The proportion is higher in the urban areas of the district which have 0.3% in Bandar city and 0.5% in Vijayawada city. Thus the proportion of houses used as such is more in Bandar and Vijayawada taluks.

Shops excluding eating houses

Shops constitute 1.5% of the total number of houses in the district. However, Vijayawada, Jaggayyapet, Gudivada and Bandar taluks have recorded a higher proportion of houses 2.7%, 2.6%, 1.8% and 1.7% respectively indicating their commercial importance in the district. Nuzvid taluk recorded a proportion of one percent of such houses while all the remaining taluks *viz.*, Divi, Gannavaram, Nandigama, Tiruvur and Kaikalur have recorded less than one per cent indicating that these taluks are not commercially so important.

Business houses and offices

Houses belonging to this category represent only 0.3% of the total houses in the district But in Bandar city, which is an inland port besides being the headquarters of the district and in Vijayawada city which is one of the important meeting places of railways, such houses constitute 1% and 1.1% respectively indicating their commerical and administrative status. All the taluks in the district have recorded less than one per cent of the houses occupied as such.

Factories, workshops and worksheds

One per cent of the total number of houses in the district are used as factories, workshops or worksheds. The proportion of these houses varies from 1.7% in Nandigama taluk to 2% in Vijayawada taluk. Bandar taluk has recorded one per cent of such houses while the rest of the taluks have less than one per cent. Bandar and Vijayawada cities which have a relatively larger concentration of industries,have naturally recorded higher proportions of houses in this category-2.2% and 2.5% respectively.

Schools and other educational institutions

The proportion of houses under this category works out to 0.4% of the total number of houses in the district. As pointed out earlier the percentage of literacy in Krishna district is encouraging both in the rural and the urban areas, and in this respect the district ranks second only to Hyderabad in the State. In fact as many as 2,334 houses are used as educational establishments while Bandar and Vijayawada cities consist of 94 and 159 such houses respectively. In the rural areas of this district there are altogether 1,889 houses used as educational institutions as against 445 in the urban areas. Thus taking the entire rural population each institution in the district caters to the educational requirements of about 841 scholars in the rural areas as against 1,097 scholars in the urban areas. In the taluks of Jaggayyapet, Nandigama and Tiruvur the number of houses used for educational purposes is not significant perhaps indicating that educational facilities have to be extended.

Restaurants, sweetmeat shops and eating places

Houses belonging to this category are naturally more numerous in the urban areas than in the rural areas. The proportion of houses under this category in the entire district is only 0.2% of the total number of houses. Bandar and Vijayawada cities have 0.4% and 0.2% of such houses respectively. At the taluk level the proportion of houses in respect of restaurants, sweetmeat shops and eating places varies from 0.1% in Divi, Nandigama and Tiruvur to 0.2% in the rest of the taluks in the district.

Places of entertainment, community gatherings etc.

There are 4,715 Census Houses in all belonging to this category constituting 0.9% of the total number of houses in the entire district. In the rural areas there are altogether 3,883 such houses as against only 832 in the urban areas, Temples and other places of worship which are included in this category seen to be responsible for the larger number in the rural areas compared to the urban areas. Vijayawada, Bandar, Divi, Gannavaram, Gudivada and Kaikalur have a higher proportion of houses in this category compared to other taluks.

Public Health and Medical Institutions etc.

The proportion of houses under this category is almost insignificant in all the taluks. In the entire district they constitute only 0.1% out of the total number of houses occupied as such. Bandar and Vijayawada cities have only 0.3% and 0.4% of such houses respectively; the proportion varies from 0.1% in Bandar, Divi, Gannavaram, Nandigama, Jaggayyapet, Tiruvur, Nuzvid and Kaikalur taluks to 0.2% in Vijayawada and Gudivada taluks. There are altogether 642 houses under this category out of which 230 houses are in the rural areas and 412 in the urban areas. Considering the rural and urban population separately each Medical or Health Institution serves 6,908 persons in the rural areas as against the corresponding figure of 1,185 persons in the urban areas of this district.

Others

The proportion of houses under this category, which includes cattle sheds, garages, engine rooms etc., is 17% of the total number of houses in the entire district. This proportion is naturally higher in the rural areas in view of the large number of cattle sheds that are common. The proportion of houses under this category is as high as 25% in Nuzvid taluk, the lowest being 7·6% in Nandigama taluk. Gannavaram, Vijayawada, Jaggayyapet, Tiruvur and Kaikalur taluks have a higher proportion of more than 20% of houses under this category.

Proportion of owned and rented houses

Generally most of the dwellings and other types of the houses in the rural areas are owned. 94% of the houses used purely as dwellings in the rural areas of the district are owned, while 81% of the shop-*cum*-dwellings and 93% of the workshop-*cum*-dwellings are also owned. In the urban areas, however, the proportion of owned houses under these three categories is naturally lower than that in the rural areas, the percentages being 54%, 36% and 20% respectively. Taking the entire district into consideration 85% of the total number of dwellings are owned while the remaining 15% of the dwellings are rented. In the urban areas of the district, Vijayawada city, for obvious reasons, has recorded the highest proportion of 62% rented dwellings.

Wall and Roof material of houses

The distribution of 1,000 households living in Census Houses used wholly or partly as dwelling houses according to the predominant wall material in the rural and urban areas of the district is given below for the district.

STATEMENT III-16

Krishna District	Number of houses using wall material					
	All materials	Mud	Stone	Grass, leaves etc.	Bricks	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Rural	1,000	698	128	86	86	2
Urban	1,000	392	274	102	217	15

The types of houses generally are conditioned by factors like climate, customs and tradition besides the local material available, and economic levels of the population. The great majority in our country generally depend on the material they get free of cost or at a very nominal price and on their own family physical efforts to put up a dwelling. The wall material that they get easiest is the earth, which they dig out from their fields; the roof material may generally be dry stalks of the crop that they grow or mostly the reeds and grass which they collect from the jungles nearby. Thus mud is the most common and predominant wall material used both in the rural and urban areas of Krishna district, particularly in the delta. Stone is the next important material used mostly in the rural and urban areas of the rocky and dry uplands of the Krishna district which lie towards the western portion.

The proportion of houses with mud as wall material in the rural areas of this district is 69.8% of the total number of houses while in the urban areas it works out to 39.2% only. Nandigama taluk has recorded the highest proportion of 86·1% of houses with mud walls, closely followed by Jaggayyapet with 85.8%, while the rural areas of Gudivada and Vijayawada taluks recorded the lowest proportion each with 56·4%. In the rural areas of Bandar, Tiruvur and Kaikalur taluks houses with mud walls constitute 81.1%, 81·2% and 84·3% of the total number of houses. As regards the urban areas, Nandigama taluk again leads with the highest proportion of 81.8% of houses with mud walls while the lowest proportion of 27·7% is recorded in the urban areas of Vijayawada taluk.

As pointed earlier stone constitutes the next important material for the construction of walls and their proportion is relatively high in the urban areas of the district, the figure for all the urban areas taken together being 27.4% only. In the rural areas of the taluks, the proportion of houses with stone walls is considerable in Vijayawada, Gannavaram, Divi, Gudivada, Nuzvid and Jaggayapet. The highest proportion of houses with stone as wall material is 44.7% recorded in the urban areas of Vijayawada taluk obviously due to the

easy availability of the stone in the hills near Vijayawada city. In the urban areas of Nuzvid and Gannavaram the proportion of houses with stone walls constitutes 28.1% and 12.4% respectively while the proportion is as low as 9.3% in Bandar city.

The use of brick and lime as the wall material has been common in the urban areas of this district during recent years. In the urban areas of the district, 21.7% of the houses have brick walls as against 8.6% in the rural areas and their proportion in the urban areas varies from 42.9% in Bandar taluk to 11.4% in Nandigama taluk. Bandar city has 45.4% of such houses as compared to 13.1% in Vijayawada City where house with stone walls are predominant as stated earlier. The urban areas of Gannavaram, Tiruvur, Gudivada and Kaikalur have recorded between 20% and 30% of houses with brick walls. The proportion of such houses in the rural areas is comparatively low, the maximum proportion being only 15% in Gudivada taluk while the lowest is just 2.3% in the rural areas of Nuzvid taluk.

In the rural areas of Gannavaram, Vijayawada Tiruvur and Gudivada taluks the proportion of houses with walls made up of grass, leaves, reeds or bamboo is larger than in the other taluks of the district.

The distribution of 1,000 Households living in Census houses used wholly or partly as dwellings according to the predominant roof material in the rural and urban areas of the district is given below :

STATEMENT III-17

	No. of Houses using roof material						
	All materials	Grass, leaves thatch etc.	Tiles	Brick and lime	Concrete and stone slabs	Corrugated Iron or Zinc or other metal sheets	Other* materials
	(1)	(2)	(3)	(4)	(5)	(6)	(7)
Rural	1,000	846	124	22	3	2	3
Urban	1,000	543	265	160	24	7	1

*Mostly mud

In the rural areas of all the taluks the proportion of houses having grass, leaves, reeds, thatch, wood or bamboo as roof material is more than 70% of the total number of houses. Kaikalur, Nuzvid and Tiruvur taluks accounted for very large proportions of 94.2%, 94.1% and 94.0% respectively. It is generally seen that tiles are more commonly used in the urban areas than in the rural areas of the district. In Gudivada taluk, however, the rural proportion of tile roofed houses is 17.5% which is slightly higher than the urban proportion which is 17.4%, perhaps due to the prosperous living conditions of people in the rural areas of the delta taluk. The proportion of tiled roof houses in the urban areas of this district varies from 11.4% in Divi taluk to 48.2% in Jaggayyapet Independent Sub-Taluk. In Vijayawada and Bandar cities the proportions of mud houses are 23.2% and 42.4% respectively.

The next important type of roof in the district is that made of brick and lime. The proportion of houses having these roofs is only 2.2% in the rural areas as against 16% in the urban areas of this district. The urban areas of Vijayawada taluk have recorded 21.4% of such houses as against 14.2% and 11.5% in the urban areas of Bandar and Gudivada taluks respectively while in the urban and rural areas of other taluks represented the proportion of such houses is not significant.

Distribution of Households according to the number of rooms occupied

The following statement shows the distribution of 1,000 households according to the number of rooms occupied in each taluk of Krishna district.

STATEMENT III-18

District/Taluk	Number of Households occupying				
	1 Room	2 Rooms	3 Rooms	4 Rooms	5 Rooms & more
(1)	(2)	(3)	(4)	(5)	(6)
KRISHNA DISTRICT	**600**	**242**	**81**	**44**	**33**
Bandar (Masulipatnam) Taluk	493	253	129	62	63
Divi Taluk	676	211	55	37	21
Gannavaram Taluk	619	251	71	37	22
Vijayawada Taluk	587	241	97	43	32
Nandigama Taluk	517	291	96	53	43
Jaggayyapet Independent Sub-Taluk	605	183	104	62	46
Tiruvur Taluk	736	179	35	24	26
Nuzvid Taluk	693	195	57	33	22
Gudivada Taluk	558	275	79	53	35
Kaikalur Taluk	616	289	46	33	16

It is seen that more than 50% of the households in all the taluks with the exception of Bandar taluk occupy one room. The proportion of such households varies from 51.7% in Nandigama taluk to 73.6% in Tiruvur taluk excluding Bandar taluk where the proportion is 49.3%. The proportion of households occupying two rooms varies from 17.9% in Tiruvur taluk to 29.1% in Nandigama taluk. As regards the households occupying three rooms the proportion is significant only in Bandar and Jaggayyapet taluks representing 12.9% and 10.4% of the total number of households respectively. The proportions of households occupying four and five rooms in the district are 4.4% and 3.3% respectively. Bandar taluk has recorded the highest proportion of more than 6% in both these categories while in Jaggayyapet Independent Sub-taluk also the proportion of households occupying 4 rooms is more than 6%.

The number of persons per room in Households occupying 1 room, 2 rooms, 3 rooms, 4 rooms, and 5 rooms or more respectively in total, rural and urban areas of Krishna district is given in the following statement :

STATEMENT III-19

District/City		All households	Households occupying				
			1 Room	2 Rooms	3 Rooms	4 Rooms	5 Rooms & more
		No. of persons per room	No. of persons per room	No. of persons per room	No. of persons per room	No. of persons per room	No. of persons per room
(1)		(2)	(3)	(4)	(5)	(6)	(7)
Krishna District	Total	**2.75**	**4.26**	**2.50**	**1.84**	**1.50**	**1.09**
	Rural	**2.89**	**4.30**	**2.51**	**1.86**	**1.47**	**1.07**
	Urban	**2.38**	**4.08**	**2.47**	**1.80**	**1.56**	**1.13**
Bandar (Masulipatnam) City	Urban	**2.03**	**3.95**	**2.41**	**1.88**	**1.56**	**1.13**
Vijayawada City	Urban	**2.62**	**4.07**	**2.49**	**1.82**	**1.54**	**1.21**

Considering more than two persons per room is representing overcrowding, it will be observed that in households occupying 4 rooms or more both in the rural and urban areas of the district, the housing condition seems to be satisfactory while there is overcrowding in all other categories of households both in rural and urban areas and particularly in the case of households occupying two rooms or less.

CHAPTER IV

AGRICULTURE

Agriculture is the most important factor affecting the economic life of this district as in the case of many other districts in the State. The majority of the working population are employed in agriculture. At the 1961 Census out of a total population of 2,076,956 persons in the district 635,953 persons are recorded as Cultivators and Agricultural Labourers and together account for 65.35% of the Total Workers. As the southern half of the district is served by a network of canals under the Krishna Anicut system (Prakasam Barrage) built across River Krishna from hill to hill between Sitanagaram and Vijayawada, paddy is extensively cultivated. Apart from paddy, the other principal food crops raised in the district are jowar, bajra, maize, ragi, korra, varagu etc., and pulses like bengalgram, redgram, greengram, blackgram, horsegram etc. The agriculturists, of late, are diverting their resources towards the raising of commercial crops also, however, keeping in view the importance of food crops as stressed by the Grow More Food Campaign. The commercial crops of the district are sugarcane, groundnut, tobacco, cotton and chillies which are extensively raised in the southern half of the district covering the taluks of Kaikalur, Bandar, Divi, Gudivada and parts of Gannavaram and Vijayawada. The arable land in the district also extends to the uplands in the northern half of the district comprising the taluks of Jaggayyapet, Nandigama, Tiruvur and Nuzvid.

The cultivation of the crops depends upon the climatic conditions, rainfall, or irrigation facilities and by the type of the soil. The soil in this district is made up of alluvial, red-ferruginous and arenaceous. The alluvial soil is dark coloured loam; while it fringes the course of the Krishna river normally, it also occurs in all taluks of the district. But the coverage of the soil is next only to that of black regar which is the largest in extent. The black regar occurs in all taluks, but it is predominant in Kaikalur, Vijayawada and Nandigama taluks. In the valley of the Krishna the black soil is often 20 feet in depth. Owing to its dense consistence it becomes unworkable during heavy rain. In the hot weather the shrinkage due to evaporation causes the formation of numerous cracks, which are often several feet deep. This feature has given origin to the common saying that black soil ploughs itself. The uplands in the district are markedly characterised by the red ferruginous, while the arenaceous (sandy) soil fringes all along the coastal line.

The great bulk of the agricultural population still follow the traditional methods of agriculture in this district and the standard of cultivation is yet to be improved. The time honoured country wooden plough is the *sine qua non* of agriculture and the bullock cart is still the facile and popular means of conveyance. The guntaka, seed-drill (*gorru*), papadam, bullock hoe, wooden yoke (in which bullocks are yoked for handling the plough) and the spade are the usual agricultural implements. Broadcasting of the seed and transplantation are the popular methods of raising the crops besides sowing the seeds through seed drill (*gorru*). Weeding and tillage are done by hand chiefly with hoe or fork. Modern implements such as bladeharrows, junior hoes, iron ploughs, ball-bearing mhote wheels are being taken up by some of the ryots. Tractors and bull-dozers are also increasingly at work now and they are in constant demand from the well-to do ryots.

The total geographical area of the district is 20,68,995 acres out of which the net area sown during 1960-61 is 12,20,418 acres accounting 58·9 percent to the total area. The total cropped area is 14,81,539 acres and this includes an area of 2,61,121 acres *i.e* , 12.5 percent of the district area, which is sown more than once. The cultivable waste during 1961 is 95,726 acres *i.e.*, 4·6 percent of the district area. This is mainly due to the unoccupied wastes in Divi taluk for want of irrigation and drainage facilities, submersion by the Colair lake in Kaikalur taluk, general defective drainage and lack of irrigation facilities besides the saline nature of the soil, particularly in the uplands of the northern part of the district. Steps are being taken under the Plan Schemes to provide irrigation and drainage facilities besides technical advice.

The average annual rainfall of the district is about 36·42 inches. With a fair break from the south-west monsoon which usually sets in the months of June-July, sowing of early crops (the Punasa) such as dry paddy, jowar, bajra, korra, redgram and castor are taken up. Early rains in the month of June normally encourage and enable the ryots to plough and prepare the lands for transplantation. It is only with the help of these rains, nurseries of paddy are sown in the uplands under semi-dry and semi-wet conditions. Freshes arrive in the Krishna river about June and the river is in spate during August–October which is the heaviest monsoon period. The rains in July facilitate the quick planting of paddy in the delta and early plantings are undertaken in uplands during this period. If the rains are received towards the end of September or in the beginning of October paddy, dry crops and the sowings of Rabi crops are affected. The chief crops popularly known as *peddapanta* such as paddy, jowar, cotton are taken up between July and September and the ryots take all necessary precaution to guard the crops against possible calamities by proper planning. The floods however are not serious except once in four or five years. The last occurrence of the flood was in 1961 and prior to that in 1956 and 1949. The south-west monsoon prevails upto September and failure of this monsoon in any year results in drought in the uplands. However, a favourable north-east monsoon, which sets in October-November mitigates the severity and the scarcity conditions. The late crops or the pairu like variga, chillies, tobacco, horsegram etc., are raised, between November and December.

There are two main harvesting seasons *viz.*, kharif (autumn) and rabi (spring). The kharif crops are usually sown with the first rains of the south-west monsoon between June–July and they are harvested between September and October. The rabi crops are sown in October and November and harvested in March and April. The kharif crop in the district is known as early crop while the Rabi crop as late crop (pairu). As the fertility of the soil cannot be maintained, if the same crop is raised consecutively, rotation of crops is generally resorted to by ryots. Soon after the harvest of wet paddy, groundnut is generally raised in the wet lands of Bandar, Gudivada and Kaikalur taluks. Sunn-hemp and pulses like blackgram, greengram are sown close of just before paddy crop is ripened and ready for harvesting. Such crops are raised not merely with a profit motive but also to maintain the fertility of the soil. Mixed cropping is also in vogue in the uplands of the district and it serves in many respects the purpose of rotation. Cultivation of crops through this method is profitable as it ensures a reasonable produce of either of the crops if the monsoon is unfavourable and there by the risk of total failure is avoided or minimised. Therefore cereals like jowar and bajra are grown mixed with pulses, oilseeds and fibre plants. If the cereals fail the pulses may survive and *vice–versa.* The common practice of growing these pulses is a testimony to the fundamental soundness of the traditional agricultural practice. Manuring of the crops in the district is mostly through the application of urban compost, vegetable refuse, waste matter, cattle manure, sheep manure and *'patimannu'* besides the green leaf manuring which is in considerable use. Chemical fertilizers like ammonium-sulphate and superphosphate have been in great demand by the ryots of this district in recent years. Wet crops in the district are entirely dependent on canal irrigation. M. T. U. 19 variety is the popular paddy strain. In the taluks of Kaikalur, Bandar, Gudivada and Gannavaram wet paddy is extensively raised. The area under this crop in these taluks is comparatively larger than that in the remaining taluks on account of the assured water supply. Obviously the canals have facilitated the extension of irrigation. A trough aqueduct was constructed over the Krishna river at Puligadda by means of which the Krishna East Bank Canal is taken to the island portion of Divi Taluk and this has replaced the pumping system Jowar, bajra, maize and ragi and other dry crops are mostly raised in the taluks of Nandigama, Jaggayyapet, Tiruvur, Nuzvid, Vijayawada and Divi. Horsegram thrives well in Vijayawada, Nandigama, Tiruvur and Nuzvid taluks. Pulses are predominantly raised in Gannavaram taluk and Nandigama taluk ranks next in the extent under pulses. Greengram is grown extensively in several taluks such as Gannavaram, Gudivada, Nandigama, Nuzvid, Tiruvur and Vijayawada.

Turmeric, onions and chillies are raised to a significant extent in Nandigama, Divi, Gannavaram, and Vijayawada taluks. Groundnut is grown on a large scale in Nandigama and Vijayawada taluks and to a smaller extent in Nuzvid, Gudivada, Kaikalur and Bandar taluks. T.M.V. 2 variety of groundnut is gradually spreading. Castor occupies the largest area in Nandigama taluk. Fruits and vegetables occupy a prominent place in Nuzvid and Vijayawada taluks. Tobacco, turmeric, cotton and chillies are the important commercial crops.

Cropping pattern and calendar of sowing and harvesting seasons in the district

In normal years 86·8% of the total sown area in the district is covered by food crops and the balance of 13·2% by non-food crops. Paddy is the major food crop grown in the district and it accounts for 53·5% of the total sown area of the district. It is followed by jowar which covers 16.1% of the total sown area. Among the non-food crops pulses occupy the first place accounting for 11·1% of the sown area. The next important non-food crop is groundnut representing 6·6% of the total sown area in the district. The sowing and harvesting seasons of important crops in Krishna district are given below :

STATEMENT IV-1

Name of crop (1)	Sowing months (2)	Harvesting months (3)
	Food Crops	
Paddy (Autum)	February–June	August–October
Paddy (Winter)	July-August	November–December
Jowar (Kharif)	September-October	January–February
Bajra	July	September–October
Maize (Khar.f)	June–July	September–October
	Pulses	
Redgram	July-August	February–March
Greengram (Kharif)	June	September
Greengram (Rabi)	December	March
Horsegram (Kharif)	October–November	February–March
	Others	
Chillies	September	March
Turmeric	June–July	February–March
Coriander	November	February
Sugarcane	March–April	February–April

The following are the effects of departures from normal seasonal conditions upon the time-table of agricultural operations.

STATEMENT IV-2

Month (1)	Normal weather (2)	Effects of unseasonable or abnormal weather on the various crops (3)
January	The first dry month after the monsoon rains; fine weather; no rain ; cold nights; dewy season.	There is generally no rainfall in this month and the dry weather facilitates the harvest of paddy crop. If heavy showers occur, the harvest of paddy crop will be delayed and the crops also are damaged. The second crop sunn-hemp usually grows as a fodder crop and jowar will also be damaged.

STATEMENT IV-2—*Contd*

Month (1)	Normal weather (2)	Effects of unseasonable or abnormal weather on the various crops (3)
		Either moderate or heavy showers will be beneficial to ragi which is grown to a small extent in Bandar taluk. Rains at this part of the year are harmful to the winter main crops, such as tobacco and cotton. They also postpone the transplantation of dalwa paddy (short term paddy) in the Collair region.
		Even moderate rainfall is not beneficial to the pulses *viz.*, blackgram and redgram etc.
February	Fine weather and no rain; dew continues; nights are cold.	February is rainless and the dry weather facilitates the threshing of paddy which is chief staple food grain in the district.
		If there are heavy or continuous rains the growth of dalwa paddy will be affected and also the harvest of pulses.
		Absence of rainfall is beneficial to all standing dry crops.
March	Fine weather generally; dew abates; no rains; hot weather begins by the middle of this month; nights are generally cold.	Canals will be closed consequent on the low supply of water in the Krishna river. March is rainless and the dry weather facilitates the storing of hay, jawar, stalks etc., and the harvest of pulses and industrial crops. If there are heavy or continuous showers, dry crops ripening for harvest in April and dalwa wet paddy will be affected considerably.
		Moderate rainfall in the month is beneficial to the standing dalwa paddy, if the water in Collair is not within the reach of the irrigated fields.
		Absence of rain or light showers are beneficial to the pulses and industrial crops.
April	Hot weather begins; no rains; weather is dry during nights.	There will be no rains in this month. Moderate rains facilitate the growth and yield of the dalwa paddy in the Collair bed. Excessive rain fall affects the progress of dalwa wet paddy. Heavy rains may also cause damage to standing crop of cotton.
		Moderate and slight showers facilitate the summer ploughing of the fields.
May	Hottest month in the year with occasional showers ; western winds blow in this month and also during nights. The severity of the summer	No agricultural operations except manuring of wet paddy fields. Excessive or moderate rainfall will generally help the ploughing of dry lands and is useful for paddy seedlings. If there are heavy rains in the Collair area, the harvest of dalwa paddy will be affected. The canals will be open by

STATEMENT IV-2—*Contd.*

Month (1)	Normal weather (2)	Effects of unseasonable or abnormal weather on the various crops (3)
	will be keenly felt in the upland area of the district.	the 15th of the month and water will be let down into the channels for growing paddy seed beds.
June	Setting in of the south-west monsoon; only light showers are received; hot weather continues during days and nights during the first half of the month.	Absence of rains facilitates the threshing of dalwa paddy in the Collair area. Excessive or continuous rainfall greatly helps the raising of seed beds in these parts where there is no other irrigation facility and transplantation of wet paddy. Absence of rainfall postpones the ploughing of dry lands and raising of seed beds
July	South-west monsoon in progress; winds continue.	Transplantation of wet paddy will be in progress. Excesive rain fall affects wet paddy in the low lying areas owing to submersion and helps transplantation of wet paddy in high level lands. Moderate or heavy rainfall will help the growth of the seed beds in the upland areas. Moderate and heavy showers are useful for the ploughing of dry lands and sowing of the early (punasa) dry crops in the upland tracts of Nandigama taluk. Absence of rainfall retards the sowing of dry crops.
August	South-west monsoon continues; moderate and heavy rains; winds continue.	Heavy or continuous rainfall is prejudicial to wet paddy and to the crops sown in this month as well as to the young crops that are sown in the later part of the previous month. It is beneficial however to the rainfed tanks as they receive a fair supply of water. Heavy rains in the upland taluks result in flooding the Collair region and the area bordering the big drains and sweep away or affect the transplanted crop in those areas. Moderate rainfall is useful for the tender and standing crops and for the transplantation of wet paddy and helps the growth of dry crops such as groundnut and gingelly. Absence of rainfall impedes the sowing of the dry crops and the growth of dry crops already sown.

STATEMENT IV-2—*Concld.*

Month (1)	Normal weather (2)	Effects of unseasonable or abnormal weather on the various crops (3)
September	South-west monsoon active; heavy rains.	Heavy or continuous rainfall is prejudicial to wet standing crops as well as to the crops sown in the month. It is beneficial however to the tanks in the non-deltaic taluks as they receive a fair supply of water. Moderate rainfall is beneficial to the tender and standing crops. Absence of rainfall postpones the sowing of dry crops and impedes the growth of some of the dry crops already sown
October	South-west monsoon continues with moderate or heavy rainfall; north-east monsoon sets in about the middle of the month.	Heavy or continuous rainfall is prejudicial to the standing crops and retards the harvest of gingelly and maize and groundnut in Divi taluk, bajra in Vijayawada taluk. It interferes with the sowing of pulses in Vijayawada taluk and of cotton and horsegram in Nandigama taluk. Moderate rainfall is beneficial to the wet paddy crop. Absence of rain diminishes the yield of the wet paddy crop and affects the growth of the standing crops.
November	North-east monsoon continues with occasional showers; cold weather commences.	Heavy rainfall spoils the dry crops such as chillies and redgram in the Divi taluk and spoils the standing crops elsewhere. It also affects the wet paddy by submersion and also interferes with its harvest. Moderate rainfall is beneficial to all dry crops except groundnut and gingelly ready for harvest in the month. Absence of rainfall facilitates the harvest of dry crops.
December	Weather fine; slight showers now and then; days and nights are cool; dew begins to fall.	Heavy and continuous rainfall retards the harvest of wet paddy and is also prejudicial to the other crops. Even moderate rainfall is prejudicial to all the crops which are more or less ready for harvest in the month, but beneficial to the standing dry crops such as tobacco, cotton and pulses. Absence of rainfall or light rainfall facilitates the harvest of wet paddy.

The following table shows the taluk-wise time-table of agricultural operations in the district in normal years. The figures shown against each crop or variety represent the percentages of the area of the crop sown and harvested in the month to the total area of the crop sown and harvested in any year in each taluk separately.

Impact of the Five Year Plans

The most outstanding feature of the district since the inception of the Five Year Plans is the significant development that has taken place in agriculture and ancillary fields by implementing a number of schemes. The agricultural activities in the district are attended to mostly by a large band of Village Level Workers, Fieldmen and Demonstration Maistries besides Extension Officers who look after both the regular and modified Package Schemes. The targets and achievements under the different schemes are furnished in the statement at the end of this chapter.

State Seed Farms

The yield rates depend essentially on the quality of seed employed in the field. At times the ryots are forced to hold up the agricultural operations owing to want of wholesome seed. Therefore, with a view to providing the ryots in right time with right seed, State Seed Farms have been opened in the district. These seed farms produce nucleus seed on a large scale for distribution to the registered growers for running primary seed farms. The seeds obtained from these farms are stored in various seed stores for distribution to the ryots. The seed is also

called the foundation seed which naturally gives better yield compared to the local seed. The district contains three wet land seed farms at Ghantasala, Vaivaka and Chevutur and two dry seed farms located at Vattigudipadu and Nandigama. All these farms are established in Government waste lands for producing mainly foundation seed required for the district to organise registered seed farms in Samithi areas. The scheme was first initiated in 1957–58 in the district.

The following is the list of seed farms together with their areas for each of the years 1957–58 to 1960–61.

STATEMENT IV-4

Year (1)	Places where located (2)	Extent in acres

	Mandavalli	114·15	..	114·15
	Gudur	28·31	..	28·31

Seed Stores are located at the following places in the district:

Nuzvid
Gannavaram
Tiruvur
Motur
Mylavaram
Gudur
Bantumilli
Avanigadda
Kaikalur
Kanchikacherla
Nandigama
Musunur
Gudivada
Challapalli
Kuchipudi
Vuyyur
Mandavalli
Jaggayyapet
Vissannapeta
Gollapudi
Pamarru
Thotlavallur
Veeravalli
Penuganchiprolu

The above places are also Block headquarters in the district during the decade ending 1961.

Japanese method of cultivation

The Japanese method of cultivation is popular in the district as it is possible to have higher yield rates under this method compared to those usually obtained under the traditional method of cultivation. This system envisages the adoption of improved methods of cultivation such as the sowing, line planting, use of fertilizers, etc. In order to bring home to the ryots the benefits of Japanese method of cultivation, experimental demonstrations are held in this district also. All the targetted area could not be brought under this method in the district due to the short span of planting period and inadequate labour. The targets and achievements in respect of this scheme as well as other schemes during the Second and Third Five Year Plan periods are given in the table at the end of this chapter. All the intensive agricultural practices except line planting are adopted for the crop

on a large scale as a package deal including plant protection, measures for increasing production.

Kharif and Rabi Campaigns

With a view to stepping up agricultural production by intensified efforts these campaigns in the district were launched in 1959-60 in the respective seasons. All the available resources of the department are mobilised to popularise the improved methods of agricultural practices. During these campaigns special credit facilities have been made available to the ryots from the Non-Plan provision.

Crop Competition

Crop competitions were organised in respect of paddy to induce a healthy competitive spirit among the cultivators for increasing production of food grains. Competitions were conducted at village, firka, taluk and district levels before the formation of Samithis and later at village, block and district level.

Manure Schemes

The delta is naturally fertilized by the silt and coastal alluvium, but even then the soil is liable to get exhausted owing to constant use. Hence the application of fertilizers cannot be under estimated. One of the important means of raising the agricultural production is to increase the input of fertilizers and to make them available to the cultivators at reasonable prices. The most popular chemical fertilizers in the district are Ammonium Sulphate, Ammonium Nitrate, Calcium Nitrate, Urea, Super Phosphate and mixed fertilizers. In recent years the use of Potassium fertilizers such as Potassium Sulphate, Potassium Nitrate for paddy, chillies and tobacco crops is on the increase. In order to facilitate the supply of these chemical fertilizers to the ryots, the Department of Agriculture is providing loans through Panchayat Samithis under Intensive Manuring Scheme. These loans are recoverable in one instalment soon after the crop is harvested for which the fertilizers are supplied in advance. The average increase of yield is 2·0 tons per ton in terms of Ammonium Sulphate and 1·1 tons of rice per ton of Super Phosphate.

Compost

The object of the scheme is to raise the present level of manurial production in villages by exploiting all locally available manurial resources. The preparation or the conversion of the compost on scientific lines has been explained to the ryots in the district by the Department of Agriculture. The scheme aims at the increase of normal production from one ton per adult animal to 1½ tons while at the same time increasing Nitrogenous content from 0.5% to 1%. As regards the urban compost it is normally prepared by the Municipalities or Major Panchayats wherever scavenging facilities exist and 0.015 tons of yeild is expected per 1 ton use of compost.

Land Development

The district contains one Agricutural Engineering Office at Vijayawada having tractors and buildozers for supplying them to cultivators who engage themselves in the reclamation of waste lands. The Assistant Agricultural Engineer supplies all the machinery to the ryots recommended by the Zilla Parishad. In order to induce the ryots to adopt the mechanical cultivation, the Agricultural Department supplies tractors to ryots under hire purchase system which is popular in the district. 24 tractors have been supplied to the ryots on hire-purchase system at an expenditure of Rs. 3,67,080·76 during the Second Five Year Plan period.

Distribution of improved implements under hire-purchase system

The object of the scheme is to acquaint the cultivators with the use of improved agricultural implements and the consequent benefits. Under this scheme improved implements are made available to a major section of ryots who cannot otherwise purchase them on out right cash payments. The scheme was first initiated in 1957-58 and an amount of Rs. 24,414.81 was distributed to the ryots as loan for the purchase of improved agricultural implements.

Distribution of Oil Engines and Electric Motors on hire purchase system

Under this scheme, oil engines and electric motor pumpsets for lifting water for irrigation purposes, are supplied to the cultivators. A maximum loan of Rs. 4,000 in the case of oil engines and Rs. 2,000 in the case of electric motor pumpsets is admissible to each individual cultivator. The loans are recovered in five to seven instalments as the case may be together with the interest fixed by the Government from time to time with a centage charges of 3%. During the Second Five Year Plan period, loans to the extent of Rs. 4,68,548·19 were sanctioned for the supply of oil engines and electric

motor pumpsets. The scheme is popular in all the taluks of the district, especially in the dry areas.

Scheme for the subsidised distribution of hand operated Sprayers and Dusters

The object of the scheme is to induce cultivators, Co-operatives, Panchayats, etc., to own the required number of sprayers and dusters for carrying out plant protection measures. The equipment was supplied at subsidised rates of 50% of the cost price while the balance of 50% of the cost was met by the Central and the State Governments equally. During the Second Five Year Plan period, 1956-61, an expenditure of Rs. 35,662.49 was incurred.

Scheme for the subsidised distribution of Rotary Push Hoes for Japanese Method of Paddy Cultivation

Rotary Push Hoe is an improved implement which is very important for the adoption of Japanese Method of Paddy Cultivation. According to the scheme Rotary Push Hoes are purchased and distributed at subsidised rates (50% of the cost price) to the cultivators with a view to popularising the Japanese Method of Paddy Cultivation, The remaing 50% of the cost is shared by the State and Central Governments equally.During the Second Five Year Plan period 845 Push Hoes were made available to the ryots and an expenditure of Rs. 26,420·87 was incurred.

Sinking of Filter Point Tube Wells

To extend irrigation facilities to the ryots a scheme for granting loans for sinking filter point tube wells was implemented during the Second Five Year Plan period. Under this scheme, a maximum loan of Rs. 2,500/- is granted to each cultivator, which is to be recovered with interest fixed by Government from time to time. During the Second Five Year Plan, loans to an extent of Rs. 1,35,248.63 were granted to the ryots. Power Drills are made available by the Assistant Agricultural Engineer, Vijayawada, besides manually operated units. These are to be supplied to the ryots on hire system. Some of the private persons in the district possess manually operated drills. Each well is capable of irrigating three to five acres depending upon the supply of water.

Plant Protection Schemes

This scheme is replete with many advantages and envisages the purchase of sprayers, dusters and pesticides for carrying out remedial measures against the pests and diseases which infest the crops. The ryots are well aware of the benefits of plant protection measures. Year after year they are taking advantages of the incentives under the scheme to protect their crops as far as possible and to increase production. All pesticides and fungicides were made available in the departmental depots and in the seed stores. Local dealers in important towns and villages are also able to supply them to the ryots. There is a mobile van at Vijayawada which is particulary useful during epidemics. The pesticides, sprayers and dusting appliances are transported and made available to the ryots on the spot. For this purpose there is one Plant Protection Assistant in each of the divisions. Under this scheme an expenditure of Rs. 4,86,325·90 was incurred in the district. Particulars of area treated and estimated additional production on account of the implementation of this scheme are shown in the following table.

STATEMENT IV—5

Year	Quantity of pesticides and insecticides distributed (in Metric Tons)	Area applied (in acres)	Estimated higher yields (in Mertic Tons)
(1)	(2)	(3)	(4)
1956-57	120	1,08,629	36,207
1957-58	150	2,41,000	6,025
1958-59	176	2,15,000	5,037
1959-60	188	28,984	724
1960-61	215	31,745	820
1961-62	235	42,940	1,073
1962-63	495	1,97,500	4,925
1963-64	792	3,00,000	7,500
1964-65	812	3,80,000	9,500

Horticulture Development

The object of the scheme is to increase fruit production by increasing the existing area and also by bringing new area under fruit cultivation. Under this scheme, short term loans are granted to the ryots for rejuvenating the old orchards at the rate of Rs. 15/- per acre and long term loans for bringing up new area proposed to be brought under fruit trees at rates ranging from Rs. 150/- to Rs. 300/- per acre. The scheme was started in

the year 1957–58 and continued in the subsequent years of the Plan period, under the supervision of the Horticulture Assistant. The short term loans are recovered within an year from the cultivators. An expenditure of Rs. 1,20,980/- was incurred during the Second Five Year Plan period. The long term loans are recovered from the sixth year in 20 equal instalments. An expenditure of Rs. 2,09,360/- and Rs. 95,730/- under long and short term loans respectively has been incurred during the Plan period.

Scheme for Development of Cashewnut

This scheme aims at increasing the area under cashewnut plantation and to survey the available areas suitable for extending cashewnut cultivation. As this is one of the dollar earning crops in India there is need to explore all possible ways to increase the area under this crop. Under this scheme loans are sanctioned at Rs. 100/- per acre to the cultivators who raise new orchards. The scheme was implemented in 1958–59 with a Horticulture Assistant and two Fruit Development Demonstration Maistries supported by technical staff, etc. An amount of Rs. 20,650·00 was spent under this scheme during the Second Five Year Plan Period.

Tobacco

To make Indian tobacco more competitive in the world market and to supply standard quality of tobacco to the manufacturers, the growers should aim at quality. Therefore, the tobacco growers were supplied pure seed of recognised varieties. The tobacco growers are constantly reminded to adopt the best cultural operations suitable to weather, and occular demonstrations are conducted by the field staff, in the proper selection of seedlings, correct spacing in planting, control of pests and diseases, timely topping, removal of suckers, proper reaping, curing, bulking, grading and presentation for the market. The following statement gives the quantity of pure seed supplied during each of the years from 1956–57 to 1960–61 and the area covered by these seeds.

STATEMENT IV—6

Year	Quantity of seed supplied (in lbs)	Area covered (in acres)
(1)	(2)	(3)
1956–57	11·5	275
1957–58	100·0	2,500
1958–59	266·0	6,650
1959–60	583 0	14,575
1960–61	475·0	11,875

The Tobacco Assistants have been advising the ryots to adopt scientific methods in handling this crop at all stages to improve the quality and increase the yield, duly reducing the unit costs of production.

Flue Cured Virginia Tobacco Scheme

One of the distinctive features of Agriculture in this district is the raising of Virginia variety of tobacco. The flue cured Virginia Tobacco scheme was started from October 1956 ; the figures of area cultivated under flue cured Virginia Tobacco during the Second Five Year Plan period are given bleow.

STATEMENT IV—7

Year	Area cultivated (in acres)
(1)	(2)
1956–57	18,500
1957–58	18,000
1958–59	15,832
1959–60	20,135
1960–61	18,120

During the Second Plan period, 2,190 soil samples were collected by the field staff and sent for analysis to the Chemists at Bapatla and Rajahmundry. The ryots in the district were promptly advised as per findings of the Chemists on accurate fertilisation of the soils to maintain and improve the productive capacity of the soil.

Sugarcane

The cultivation of sugarcane is on the increase of late in view of the growth of the sugar industry in the district. The ryots have adopted the methods of trench planting, tash twisting and cultivation of crop with junior plant hoe in raising the crop.

Package Programme

In the agricultural sector for the development of food production, a commendable programme has been experimented popularly known as the Package Programme during the kharif season in 1960–61.

The Standing Committee No. II of Zilla Parishad selected an extent of Ac. 500.00 of wet area having assured water supply in Veeravalli village of Veeravalli Block for the implementation of the programme. The following are the important features of the Package Programme.

(i) Every holding in the selected village should grow only improved seed.

(ii) Pre-treatment of the seed is essential. The paddy nurseries should be sprayed with endrin or the seedlings dipped in endrin solution before transplantation.

(iii) It should be ensured that each acre in the selected area is manured with 30 lbs. 'N' and 30 lbs. P205 or to the extent necessary.

(iv) All the area should be under Japanese *Method of Paddy Cultivation.*

(v) Inter-cultivating implements like push-hoes and plant protection equipment like sprayers and dusters will be supplied to the cultivators on a preferential basis.

(vi) Pesticides will also be supplied to the cultivators on a preferential basis at 50% subsidy.

(vii) Better method of compost and adopting of green manure will be intensified.

(viii) The credit required by the farmers of the selected area will be supplied under the existing Taccavi and Special Loans.

(ix) Any other improvement warranted by the circumstances.

The ryots have adopted Japanese Method of Paddy Cultivation in an extent of Acs. 432.00. Out of the Acs. 500.00 selected. The Government provided credit facilities, improved seeds of paddy, manures and plant protection equipment. The Block Development Officer, Veeravalli who made a detailed enquiry into the matter, reported that there was an additional yield of 550 bags in the extent of Acs. 500.00 selected, when compared with the previous year's yield.

The Package Programme was also launched during the Rabi Campaign 1960-61. The Standing Committee No. II of the Zilla Parishad selected an extent of Acs. 500.00 of wet area having assured water supply in Peyyeru village of Motur Block for the implementation of Package Programme. The Block Development Officer, Motur, reported that there was an additional yield of 875 lbs (5 bags), per acre in the area covered by the Package Programme over the yield in Non-Package area (control area) and an additional yield of 552 lbs. (3 bags 57 lbs) per acre over the yield of the previous year's rabi crop. The District Statistical Officer, Krishna, has collected base-line statistics of the previous rabi crop and the present crop. According to his evaluation report also, the additional yield per acre came to 565 lbs. over the previous rabi crop.

Food Production Pilot Scheme

In order to increase agricultural production, the Government of India have formulated a scheme for the provision of adequate and full financial assistance to small agriculturists or tenants, so as to enable them to produce more on the basis of a productive plan drawn for each family at the village level. Accordingly the State Government decided to implement the scheme in a unit of 10 villages in one Block in each district. During the kharif season of 1960-61, the following ten villages were selected in Motur Block for the implementation of the scheme:

1. Motur	6. Guraza
2. Pedapalaparru	7. Seri Dintakurru
3. Chowtapalle	8. Janardhanapuram
4. Mudinepalle	9. Tamirsa
5. Peyyeru	10. Kudaravalli

The ryots under this scheme were provided with improved paddy seed, loans by Panchayat Samithi, manures and plant protection implements. The essential features of the Pilot Project Scheme are—

1. The village prepares the agricultural production programme on the basis of —

(i) Full utilisation of irrigation facilities including maintenance of field channels in good condition by the beneficiaries ;

(ii) Multiplication in the village of the approved seeds and the supply in kind to those who are not in a position to pay in advance ;

(iii) Adequate supply of fertilizers ;

(iv) Adequate provision of compost and green manures in the village ; and

(v) Contour bunding.

2. The Community Development movement assists in the preparation and implementation of the production programme.

3. Staff may be found by readjustment of the existing staff or by employment of additional staff, where readjustment is not possible.

4. The village agricultural production programmes are to be linked with Co-operative Marketing.

5. Central Banks are to advance adequate short term and medium term credit to the village Co-operative Societies on the basis of the production programme and other relevant factors, more especially, advance for approved seeds and fertilizers.

6. If, after making all these arrangements, it is found that the Village Co-operative Societies cannot advance loans to certain cultivators, reasons for this should be investigated and remedial measures found in consultation with the Central Banks.

7. There should be closer co-operation at every stage between the Central Banks and the authorities of the Community Development in all these projects.

The District Statistical Officer, Krishna, has conducted crop cutting experiments in selected plots and according to the data collected, there was an increase of 211 lbs. of paddy per acre in the pilot project as compared to the control area.

Expanded Nutrition Programme

This scheme is implemented in Nuzvid Samithi area under which vegetable gardens are raised in elementary schools besides maintaining fish ponds in important villages to provide nutritive food to school going children. The Extension Officer (Agricultural) and the Mukhya Sevika of the Samithi are trained in Nutrition Programme for which funds are transferred to Samithi to operate this scheme.

Credit facilities to Agriculturists

Credit channelization is an important phase in the development of agriculture. To meet the credit requirements of the ryots the district contains two District Central Co-operative Banks, 7 Land Mortgage Banks and 761 Agricultural Credit Societies as against two district Central Co-operative Banks, 4 Land Mortgage Banks and 725 Agricultural Credit Societies at the beginning of the Second Five Year Plan (1955–56). The membership of these Co-operative Institutions has increased considerably during the five years of the Second Plan as shown below :

	No. of Members as on	
	30-6-1955	30-6-1960
1. Land Mortgage Banks	5,860	18,545
2. Agricultural Credit Societies	93,544	115,295

During the Second Five Year Plan period loans to the extent of Rs. 7.65 lakhs were issued through the Co-operative Institutions to meet the increasing tempo of productive loaning. In addition to this, loans to the extent of Rs. 2.93 lakhs have been sanctioned to the ryots through the Agriculture Department under the schemes in Kharif and Rabi campaigns. Special credit facilities were provided to the farmers during the campaign period and met from Non-Plan provision. These campaigns were launched for increasing food production by laying stress on the adoption of various improved agricultural practices as advocated by the Agriculture Department.

Integrated Scheme for the Improvement of Market Intelligence

Another distinctive feature of the agriculture in the district is that its production is largely market oriented and paddy is by far the most important item of large scale production. The primary producer lacks education and is naturally at a disadvantage while dealing with middle men. Therefore, the dissemination of the comprehensive and upto date market information regarding the total production, supply and demand, imports and exports, quality, price, consumption of goods, transport and other related information is essential to the ryot. Marketing methods and price incentives may go a long way to help the agriculturists. Therefore, daily bulletins of 14 agricultural commodities from 23 centres and weekly reviews for the week ending Fridays are codified noting the prices in quintal units and a report is sent to the All India Radio, Vijayawada, for broadcasting in the Rural Programme for the benefit of the listening public. The same is supplied to the price reporting agencies, associations and institutions for publicity. After an intensive study of the prices reported and in order to make the bulletins more useful and purposeful, modifications were made in the report where the commercial name of each agricultural commodity is mentioned in each centre on account of the wide range of price fluctuation from

variety to variety under the same sort of commodity. Thus the ryot in the district is kept informed of the market news.

It is further interesting to note that some progress has been made in respect of the expansion *of marketing organisation.* Weekly prices of hides and skins, rice bran, green grass, and fibres are collected from three different centres and submitted to the Director, Bureau of Economics and Statistics, Hyderabad. Mostly wholesale prices of various agricultural commodities, exports, imports arrivals and disposals of various agricultural commodities are collected from eight different centres and submitted to the Director of Agriculture, Andhra Pradesh, Hyderabad. The Divisional Operating Superintendent and Divisional Superintendent, Railways are contacted regularly and arrangements are made for the adequate supply of wagons for the movement of agricultural produce like rice, jaggery, mangoes, and fertilizers, besides facilitating the quick transport of perishable goods like, eggs, limes, vegetables and betel leaves from various centres. Crop and market surveys are conducted and reports are submitted to the Director of Agriculture, Andhra Pradesh, Hyderabad. Agmark ghee grading stations are inspected and check samples are sent to Rajkot for analysis. The depots of rice, ghee and potato merchants are inspected and their applications, if found satisfactory, are recommended for the issue of packer's licence. Temple authorities are also contacted and generally propaganda is carried on for the use of Agmark graded ghee. Adhoc surveys are conducted on the marketing of agricultural commodities and reports are submitted to the Director of Agriculture, Andhra Pradesh, Hyderabad. Arrangements are also made for marketing exhibitions during which period the importance of marketing and grading is explained to the primary producer. The district reached a point of self-sufficiency even by 1955-56. By the end of the Second Five Year Plan the estimated exportable surplus has increased by about 80 lakh tons.*

Use of Electricity in Agriculture

During the Second Five Year Plan period about 245 villages were electrified raising the total number of villages electrified to 353 from 108 at the end of the First Five Year Plan. About 146 electric motors were supplied on hire purchase system to cultivators during the Second Plan period and an extent of nearly 800 acres has been brought newly under irrigation by the use of electricity.

The district is a surplus area in respect of food production. The following table shows the estimated production of rice, food requirments of the district and the exportable surplus as at the end of First Five Year Plan and Second Five Year Plan periods.

STATEMENT IV—8

Year	Estimated production (in '000 tons)	Estimated requirements of the district @ 14 oz. per individual per day (in '000 tons)	Seed requirements @ 25 lbs. per acre (in '000 tons)	Estimated surplus (in '000 tons)
(1)	(2)	(3)	(4)	(5)
1955-56	425	269	8·83	147
1960-61	533	297	9·81	226

Festivals and Exhibitions

In the Blocks every year melas and exhibitions are organised by the Samithis besides compost week, freedom from hunger week, Glyricidia week, etc., with a view to educating the ryots in agricultural activities. Hoardings and exhibits are arranged at important places. The publicity van visits the Blocks once or twice a year to educate the ryots in improved practices. Demonstration plots are arranged in every village. Subsidies are issued to the ryots for the purchase of pesticides and in recent years aerial spraying is organised in the district.

Conclusion

Agricultural Development in the district has been planned to ensure high levels of production. During the Second Plan period an amount of Rs.31.59 lakhs was spent on agricultural programmes. The schemes implemented in the Plan include multiplication of improved seeds, use of fertilizers, establishment of seed farms and seed stores, greater irrigation facilities, reclamation and

*Note: 1) The food requirements are calculated at 14 oz. per head per diem for 365 days for 1,870,418 population for 1955-56 and 2,076,956 population for 1960-61.

2) The seed requirements are calculated at 25 lbs. per acre for rice area of 7,01,240 acres for 1955-56 and 8,85,860 acres for 1960-61.

better land use by adopting new and better methods of cultivation. Due to implementation of Package Programme in the Blocks the peasantry is enlightend in modern agricultural practices and is utilising the services of the department to the maximum extent. Pesticides, manures, improved seeds, vegetable seeds etc., are suppled to the ryots as and when required.

The following two statements show the targets and achievements of the various schemes implemented during the Second Five Year Plan and Third Five Year Plan periods in Krishna district.

STATEMENT IV—9

SCHEMES IMPLEMENTED DURING SECOND FIVE YEAR PLAN

CHAPTER V

IRRIGATION

'Egypt is the gift of Nile' wrote Herodotus. It will be equally appropriate to consider the hinterland of Vijayawada in Andhra Pradesh as the gift of the river Krishna which is figuratively known as the Blue Nile of the Deccan.

Krishna district now ranks first in the matter of irrigation in the State, the net area irrigated during 1960-61 being 8,21,255 acres. The main source of irrigation in this district is the mighty river Krishna which has profound bearing in the economic and political life of the people. The other irrigation sources are the Muniyeru, Budameru, Tammileru, hill streams, spring channels, tanks and wells. The irrigation is mainly from the delta canals of the Krishna river. Among the other irrigation works it may be mentioned that a dam built across Muniyeru at Polampalle in Jaggayyapet Independent Sub-Taluk and an aqueduct constructed across the Krishna river near Avanigadda which takes the canal water direct into the island portion of Divi taluk are of some consequence. The southern half of the district. *i.e.,* Bandar (Masulipatnam), Divi, Kaikalur, Gudivada and parts of Vijayawada and Gannavaram taluks are benefited by the Krishna delta system. The uplands in the northern part of the district covering the taluks of Nuzvid. Tiruvur, Nandigama, Jaggayyapet and parts of Gannavaram and Vijayawada are irrigated with the aid of minor irrigation sources such as tanks, wells and *doruvus*. In the years of scanty rainfall there will be no irrigation under them. A few tanks in the uplands are fed by the hill streams like Budameru and Tammileru. In certain parts there is direct irrigation to a small extent from the hill streams. When the mighty Nagarjunasagar Project and its canals now under construction are completed this upland portion of Krishna district is also likely to get the benefits of irrigation over a considerable area. The district, as it is now constituted may be regarded as famine proof, although slight distress may be caused locally in the upland portions by the occasional failure of the monsoons. In the delta area some parts of Vijayawada, Bandar and Divi taluks are liable for submersions when freshes come down the river Krishna but these risks are being minimised by the construction of flood banks. A brief account of the Krishna anicut system as described, in an article "Irrigation from the Krishna", published by the Institution of Engineers (India), Andhra Pradesh, Hyderabad in 1959 in its Souvenir "A Century of Irrigation–Godavari and Krishna Deltas 1859-1959" is reproduced below.

"Prior to the construction of the anicut across the Krishna river at Vijayawada in 1853-54 this district, like other districts of the State was liable to severe famines. In fact between November 1790 and November 1792 there was a serious dearth of food grains in this district and numerous deaths occurred from starvation. In the year 1823-24 the district again suffered severely from the famine known as Guntur famine which lasted for 20 months, caused by deficient rainfall. In order to make the district free from famine Major Alexander Beatson of the Madras Infantry advised the Madras Government as early as 1792, *i.e.,* after the 1790-92 famine to build an anicut on the Krishna at Vijayawada, 60 miles from its mouth. The Madras Government referred the matter to its Astronomer, Mr. Micheal Topping, who spent nearly three years in surveying the river in company with Capt. J .L. Caldwell, M.E.

Topping's reports and surveys, however, languished for almost half a century in the pigeon holes of Leadenhall Street until the great famine of 1832-33 stirred the complacent Directors into action. Human beings were then dying by hundreds of thousands while the giant Krishna rolled its mighty volume unhindered to the sea. Some irrigation works were begun, but not till 1839, when the recommendations of Beatson and Topping were brought to notice in two reports from Captain Edward Buckle, M.E. Yet the Madras Board of Revenue remained sceptical. The Members remarked in 1840 that "very large and costly works like an anicut at Vijayawada are clearly inexpedient and impracticable" and had it not been for Arthur Cotton it is probable that the Krishna scheme would have been shelved for many a year. But Cotton's enthusiastic report about the Godavari in 1844 drew attention once more to the Krishna, and Lieutenant H.A. Lake, M.E., was sent there to prepare a scheme for an anicut.

In his report on the scheme which Capt. Lake had prepared in consultation with Major Cotton, then Civil Engineer, First Division, Rajahmundr

while Lake himself was Civil Engineer, Second Division, he (Capt. Lake) had acknowledged Arthur Cotton's deep knowledge and his confidence in damming the Krishna to provide water for irrigating the Northern Circars. Not only this but that the Godavari and the Krishna were to be connected by a channel at Ellore in order to provide a big route for inland water transport.

"I must now take the opportunity of noticing the very great and valuable assistance I have received from Major Cotton, the Civil Engineer of the First Division, in communication with whom my plans and estimates have been made out. He (Cotton) has, for the last three years paid almost undivided attention to the improvement of irrigation in the Rajahmundry district, by means of an anicut, and has naturally turned his thoughts, from time to time towards a similar work across the river Krishna, as forming in a great measure, part of one grand project for the improvement of the Northern Circars and it is, therefore, most gratifying to me to be enabled to state, with his permission, that he perfectly concurs with me in the view I have taken of the subject."

It is opined that "No scheme for utilizing the waters of the Krishna can be thought of without at the same time recalling the memory of Sir Arthur Cotton, who has been rightly styled "Father of the Irrigation" in Southern India. Therefore, before proceeding to take up the study of the Krishna delta system an attempt has been made to give in some detail about the execution of the historic dam taken by the Engineers of Cotton's team."

"It is proposed by Major Cotton and myself (Capt. Lake) to connect the two rivers, the Godavari and Krishna, by a channel meeting at or near Ellore; one half of the expense to be carried to the account of the Godavari Project, and the other to the one now submitted. In the East Godavari District a channel will be excavated from the Godavari in an East North-Easterly direction as Pentecottan on the coast, 70 miles from Rajahmundry and as the proposed channel south of the Krishna, to which I (Capt. Lake) have before alluded, will extend as far, we will say, as the Gundlakamma river. There will thus be a direct water communication for a distance of 230 miles and it will be seen hereafter how far it may be to continue the canal still further both North to which I (Capt. Lake) at present, as regards my own division, see no obstacle whatever and I (Capt. Lake) do not believe that any exists in on Rajahmundry side of the Godavari. Thus with such facilities for transporting the produce of these large districts by means of a canal, the uncertain and at all times precarious transport of goods by sea will be altogether avoided and the increase of inland commerce will be almost incalculable. At all events every part of the irrigated tract will have constant water communication with different ports on the coast."

Opinion being sharply divided on the practicability of constructing the special type of anicut on the Krishna at Vijayawada (distinct from the type adopted at Dhowleshwaram), the Government had referred the proposal for Major A. Cotton's opinion. Arthur Cotton's conviction on the practicability of sand as a foundation material for Hydraulic structures may be regarded as the precursor of the principles and practice which long afterwards came to hold the field in regard to permeable foundations. He observed:

"There is so deep an impression in peoples' mind respecting a sand foundation generally, that it is most difficult to investigate the subject properly. There is certainly one defect in sand as a foundation, *viz.*, that if running waters come in contact with it, it will be swept away; but this is the only one; in other respects it is the finest foundation possible; it is indestructible and incompressible. Of the thousands of works which I have seen or executed on a foundation of pure sand I never saw the slightest sign of a settlement in any one of them. We must, therefore, take care to remember that there is only one thing to be guarded against in building in sand, and that so long as it is protected from the action of running water, no work resting on it can possibly fail and the remedy for this one defect is as plain and easily applied in situations such as this, as could be directed; it is simply to cover the sand, where it could otherwise be exposed to the action of the current, with loose stone. In rivers like these having a velocity of four miles an hour at the most, the largest stone to be found in their beds does not exceed two or three ounces and these often remain for years in the same place."

Major Cotton wound up his report with the following remarks. "After every consideration, I feel entirely satisfied that the objections to it are entirely imaginary, so far as the stability of the work is concerned, and nearly so as respects its cost".

Subsequent to Major Cotton's report on the Krishna Anicut Project, Government appointed an expert Committee consisting among others of Captain A. Orr. This Committee, after detailed examination, summed up their recommendations in words which have a historic ring about them, delineating a picture of the state of the Northern Circars in those days:

"In conclusion, the Committee desire to record their conviction of the very great importance of the proposed work and of its early sanction. That it would, in all human probability, avert the possibility of destructive famine in this region, seems an argument of the greatest possible weight, independent and profitable expectations,which are themselves most promising. In addition to which the sooner the valuable experience acquired by the Godavari is brought to bear upon the Krishna Project, the more effective it will be."

The loss of revenue by the famine of 1832-33 estimated at least at one crore, the loss of property at a far greater amount, of life at 200 or 300,000 and of cattle at 200,000 (at the lowest) in Guntur alone, besides the ruin of 70,000 houses. These facts, will the Committee believe bespeak more effectively than the most laboured arguments, the favourable attention of the Honourable Court of Directors, to the project now submitted, as one of indispensable and urgent necessity. The famine of the Northern Circars in 1833 and that of the North-West Provinces of India at a later period, prove with irresistible force "that irrigation in this country is properly a question, not of profit, but of existence."

The Krishna Anicut project was sanctioned in 1851 and the work was started in 1852 under Charles A. Orr (then a Captain), Civil Engineer, Krishna Division. No better selection could have been made as Orr had, just completed the great weir across the Godavari under the guidance of Arthur Cotton. At Vijayawada, the site chosen for the Krishna weir, the river flowed between rocky hills 3,900 feet apart; but although this width was much less than at Dowlaishwaram on the Godavari, it was no child's play to build, on pure sand a masonary dam 15 feet high across a gorge in which the river rose 40 feet when in flood. There was an unprecedented flood in 1853 such that it was 'never before seen by any man then living'. By 1855, however, Charles Orr had completed the work sucessfully, rapidly and without any serious mistakes and so, by a system of canals on either bank, brought the blessings of irrigation to the Krishna delta. This, however was only the first part of the project that had been sanctioned to give partial effect to the scheme.

In submitting the estimate for the second part of the project, Captain Orr made out a strong case, in keeping with Sir Arthur Cotton's style for a fuller and richer utilization of the waters of the Krishna. He wrote—"The cost of the anicut and of the portion of the works already sanctioned to give partial effect to it, amounts to nearly fifteen lakhs of rupees. Fifteen lakhs more will probably be required for the completion of the undertaking, and the faster it can be laid out the sooner will the country be benefited, and the treasury reimbursed; while on the hand, as the improvement of the country is essentially dependent on the spread of irrigation by channels, and on the opening out of cheap communications by their means, any hesitations in sanctioning their extension, throughout every portion of the delta, can only have the effect of withholding from the people the prosperity that is all but within their reach, and of depriving the State, first of the immediate returns it might obtain on the past outlay, and secondly of the permanent increase of revenue that would result from the speedy and thorough development of the projected irrigation scheme."

(a) The Chief Engineer Lieut. Col. C. E. Faber, paid a handsome compliment to Capt. Orr's talent in his report to Government on the completion of the Krishna Anicut Scheme.

"I shall conclude with an expression of the gratification I feel in placing Captain Orr's report before the Government, showing so satisfactorily the completion and stability of his work, proving his zeal and confirming the correctness of his judgment."

(b) The following extract from the minutes of consultation of the Governor in Council recording the recognition by the Government of the 'Valuable Services' of Capt. Orr is an indirect tribute to Arthur Cotton's genius in as much as the Anicut across the formidable Krishna river rested for its stability on Cotton's skill and judgment of the behaviour of a stone anicut founded entirely on sand (without a proto-type). Carried out faithfully by his able Lieutenant Orr, it had stood the test of time to the lasting fame of the selfless band of British Engineers.

"The work has stood the test of two seasons, freshes of 30 feet having on two occasions passed over it, with no damage beyond the displacement of a few stones in the apron. The satisfactory completion of the Krishna anicut, as now reported, is highly gratifying to the Government and they consider that much credit is due to Captain Orr. He has evinced great professional skill and judgment in conducting this vast and difficult work, and has set an example to the officers under him by his forethought, his constant attention to his duty, the systematic and judicious arrangements he has made, and the zeal and energy which have on all occasions characterized his proceedings; and the Government have much pleasure in recording their recognition of his valuable services".

The successful completion of the anicut has resulted in offering a boon to the district in the field of agriculture and no wonder the district ranks first in Andhra Pradesh from the point of view of irrigation. The area irrigated by the Krishna anicut system forms over 93·4% of the total irrigated area in the district. Apart from providing irrigational facilities the splendid network of canals are also navigable.

Prakasam (Krishna) Barrage Project—Construction of Regulator-cum-Road Bridge: The increase in ayacut from about 6 lakhs acres to 11 lakhs necessitated the maintenance of a high water level at the anicut, for which the Krishna anicut was not designed. The need, therefore, arose for a regulator. When once the need for a regulator was established, it was found desirable to combine it with a road bridge, as the existing causeway over the anicut was closed to traffic for 7 to 8 months during floods in the river. The project consists of a road bridge-*cum*-regulator across river Krishna at Vijayawada, just up-stream of the existing anicut. It is designed to ensure safety to the anicut and the entire Krishna delta besides supply of water to an additional area of about one lakh acres through the existing system of canal irrigation. The over all length of the structure of the barrage is 4,014 feet and the width of the roadway is 24 feet between the curbs. The road bridge was completed and thrown open to public in December, 1957. On account of this barrage, high water levels have been maintained even during the drought period and the ayacut under it is on the increase.

Nagarjunasagar Project: This project may be said to mark the beginning of what may prove to be a new chapter in history of irrigation in the State. This is a multipurpose project on account of manifold benefits it yields, such as control of floods, supply of water for irrigation, generation of electricity etc. It envisages the construction of a dam at Nandikonda in Miryalaguda taluk of Nalgonda district with two canals one on each side to irrigate the areas in Guntur, Kurnool and Nellore districts on the right side, and Nalgonda, Warangal and Krishna districts on the left side and as such large tracts are being steadily brought under this project. As far as Krishna district is concerned, it is expected in future, to gain considerable irrigation facilities under this project in Nandigama, Tiruvur, Nuzvid and Gannavaram taluks leading to more extensive and intensive agricultural development. The work on the project was taken up at the fag end of the First Five Year Plan period and is nearing completion. The upland areas of the district will not exhibit the present bleak appearance in the near future, under the influence of this mighty project.

The following statement gives the particulars of area irrigated under different irrigation sources in the district:

STATEMENT V-1

S. No.	Source of Irrigation	Area irrigated
(1)	(2)	(3)
		Acres.
I. Government Canals		
1.	Muniyeru system (Nandigama taluk)	11,300
2.	Krishna East Bank Canal system—Vijayawada, Gannavaram and Divi taluks	1,11,073
3.	Kachavaram Supply Channel (Nandigama taluk)	2,540
4.	Sangapadu channel (Nandigama taluk)	1,042
II. Tanks		
1.	Vijayawada taluk	8,720
2.	Gannavaram taluk	7,340
3.	Nuzvid taluk	10,878
4.	Tiruvur taluk	11,051
5.	Nandigama taluk	5,199
III. Other Irrigation Sources		
1.	Munnalur Pumping Scheme (Nandigama taluk)	250
2.	Patamata Pumping Scheme (Vijayawada taluk)	4,800
IV. Private Agencies		
1.	Guntupalle Pumping Scheme (Vijayawada taluk maintained by ryots on Co-operative basis)	5,000

During the Second Five Year Plan period several minor irrigation schemes were also taken up in order to supplement the existing irrigation sources in the district. The following is the list of minor irrigation schemes completed as a result of which irrigation potential is created.

STATEMENT V-2

S. No.	Minor Irrigation Schemes	Irrigation potential created (in acres)
1.	Improvements to Mulaparru channel	200
2.	Amudalapalle channel	375
3.	Pedalanka channel	4,000
4.	Kaldindi channel	95
5.	Kothakodu channel	484
6.	Pedapatnam channel	110
7.	C. B. Canal	5,500
8.	Kaikalur Block	300
9.	Vaivaka Scheme	3,380
10.	Improvements to Kammenanadu Block	295
11.	Improvements to Bhavadevarapalle Block	820
12.	Sangameswaram Block	1,000
13.	Improvements to Nali Block	900
14.	Improvements to Gollapalem Block	2,100
15.	Improvements to Mandapakala	1,530
16.	Parrachivara Block	2,200
17.	Patamata Pumping Scheme	2,000
18.	Munnalur Pumping Scheme	2,000
19.	Remodelling and extending Mangallutalu-pulabanda channel	171
20.	Budameru diversion scheme	20,000
21.	Budameru flood banks	28,560
	Total	74,621

CHAPTER VI

INDUSTRIES

Krishna district is rich in natural resources which not only provide large supplies of food grains but also offer variety of raw materials upon which industries are based. The district is industrially advanced and the location of industries is largely concentrated in the taluks of Vijayawada, Gudivada and Bandar. This is chiefly because of the availability of adequate transport and communication facilities for the quick movement of raw materials and finished goods. The existing general economy of the district is primarily agricultural on account of the deltaic nature of the district. Hence agro-based industries predominate but non-agro industries are also significant in the district. The development of agro-based and non-agro industries is likely to evolve a balanced economic growth in the district.

The following are the large and medium scale industries in the district.

(*1*) *The Andhra Cement Company Ltd., Vijayawada :* It manufactures Port Land Cement, popularly known as ' Durga Brand'. The Company was established in the year 1939 with an initial production capacity of 100 tonnes per day. The factory gradually developed and the existing capacity is 700 tonnes per day providing employment to nearly 800 workers. The workers of the Company are provided with 101 tenements under Subsidised Industrial Housing Scheme besides cost free supply of electricity and water.

(*2*) *The K. C. P. Ltd., Vuyyuru :* This is a sugar factory with a crushing capacity of 2,500 tonnes a day. It produces sugar, molasses and filter press cake. It was established with a called up capital of Rs. 1,01,84,360/- and other borrowings and provides employment to about 1,000 workers. The company has constructed a labour colony with 100 tenements under Subsidised Industrial Honsing Scheme besides a school for children and a dispensary. The factory further expanded with the addition of a distillery and confectionery unit.

(*3*) *The Challapalle Sugars Ltd., Challapalle:* This factory is located at Lakshmipuram of Divi taluk and has gone into production since 22nd January, 1958 with a crushing capacity of 1,100 tonnes per day providing employment to 600 workers.

(*4*) *The Andhra Scientific Co., Masulipatnam :* It manufacturers scientific instruments, optical instruments etc., and has a spacious workshop with suitable equipment and machinery for its own foundry, smithy, carpentry, electroplating and optical sections. The company provides employment to about 700 workers and is engaged in an expansion programme to double its production capacity to an extent of nearly Rs. 68 lakhs.

(*5*) *Koutha Steel Products, Vijayawada :* This factory is situated at Ramavarappadu. It is the leading structural fabricating factory in Andhra Pradesh. The capital outlay is about Rs. 11 lakhs and nearly 110 workers are employed. Steel structurals, tanks, transmission line materials, grills and gears, machinery and agricultural implements are manufactured in this cstablishment. The production capacity of these articles is given below :

Article	*Production capacity*
Structurals	1500 tonnes per annum
Steel castings	240 tonnes per annum
Agricultural implements	300 tonnes per annum
Tanks	300 tonnes per annum
Pipes & tools	300 tonnes per annum

(*6*) *Manufacture of Acrylic Sheets, Vijayawada,* Messrs Progressive Plastics are manufacturers of acrylic plastic sheets which are widely used in automobile, achromatical, scientific, defence and decorative works. The thickness of the sheets varies from 1/16" to 1". In view of the large scale demand for these products steps are being taken for further expansion of the unit.

Besides the above industries which are well established several new industries are being set up by entrepreneurs in this district. The following important industries deserve mention in this regard.

(*1*) *Spinning Mill at Vijayawada :* The factory known as Messrs Vijaya Spinning Mills Ltd., Vijayawada is under construction. Licence was given to

install 12,000 spindles. The construction of the factory buildings located at Gangur about 7 miles away from Vijayawada is in progress.

(2) *Paper Plant at Nuzvid :* A paper plant with a capacity of 3 tonnes per day was given licence. It is to be located at Nuzvid Railway Station with an investment of Rs.10 lakhs. It is expected to provide employment to nearly 200 workers.

(3) *Sponge Iron Plant, Vijayawada* : Licence was granted to set up a sponge iron plant at Vijayawada with a production capacity of one lakh tonnes per annum. The investment on this plant would be about Rs. 8 crores and the employment potential would be about 6,000 workers.

(4) Integrated Milk Project, Vijayawada : A milk project with a production capacity of 1,25,000 litres of milk per day with the aid of UNICEF and the Government of India is under construction.

Small Scale Industries

Small Scale Industries in the district also occupy a prominent place in the industrial sector and provide employment opportunities to a large number of workers. Their production is intended to supplement that of large scale industries in several cases and to meet a adequately the consumer demand which is ever increasing. The preponderently agricultural character of the district has to some extent retarted the growth of Small Scale Industries in the district. There are about 61 types of Small Scale Industries in Krishna district. The following statement gives the number of units and employment capacity of these industries.

STATEMENT VI-1

Sl. No.	Name of the Industry	No. of Units	No. of Workers
(1)	(2)	(3)	(4)
1	Light Engineering & Mill Parts	72	856
2	Rice Mills	607	5,521
3	Leather Works	4	20
4	Flour Mills	9	26
5	Aerated Waters	1	12
6	Printing Presses & Litho Printers	23	378
7	Oil Crushing	7	40
8	Wood works and Saw Mills	14	130
9	Match Industry	4	300
10	Cane Works	8	37
11	Cement works	19	240
12	Rice Mill-*cum*-Oil Mills	22	904
13	Rice Mill-*cum*-Flour Mills	78	680

STATEMENT VI-1—*Concld.*

Sl. No.	Name of the Industry	No. of Units	No. of Workers
(1)	(2)	(3)	(4)
14	Musical instruments	2	26
15	Rice Mill, Ginning & Groundnut Oil Pressing	2	36
16	Ginning & Oil Pressing	1	70
17	Rice, Flour & Oil Mills	4	48
18	Rolledgold Covering	6	114
19	Pen Industry	6	40
20	Stationery & Paper bags	7	69
21	Pharmaceuticals	3	103
22	Brass & Aluminium Works	21	269
23	Tyre Retreading	10	12
24	Electrical Goods		6
25	Soap	1	30
26	Sheet metal works		10
27	Perfumery & Camphor	12	34
28	Consumer goods	25	50
29	Steel Furniture	15	190
30	Radios Assembling	3	8
31	Watches, and Clocks assembling	1	6
32	Stainless Steel	5	118
33	Fruit Canning	1	10
34	Copper wire drawing & P.V.C. Cables	2	16
35	Plastic Industry	2	14
36	Steel structurals & castings	1	38
37	Agricultural implements	6	80
38	Builders hardware	3	86
39	Scientific Glass Ware	4	39
40	Automobile Parts	9	70
41	Enamelled Work	1	3
42	Cosmetics	1	6
43	Battery manufacturing & charging	50	55
44	Steel Halls & Grinding Mills	2	105
45	Chemicals	7	143
46	Art Silk Twisting	1	8
47	Rerolling Mills	1	25
48	Dall Mills	2	26
49	Paints & Varnishes	2	18
50	Bicycle parts	1	9
51	Coffee grinding	8	26
52	Papier-Mache dolls	1	25
53	G.I. Buckets & washers	1	7
54	Ink Manufacturing	5	18
55	Carbon dioxide	1	36
56	Graphite & Ceramic Industries	2	13
57	A.P.S.R.T.C. Regional Workshop	1	33
58	Minor Industry	1	22
59	Decoiled Bran & Bran Oil	1	26
60	Cream Butter Manufacturing	1	1
61	Trailor Manufacturing	5	45

Among the factory establishments, rice milling accounts for the largest number of units and they are chiefly concentrated in Vijayawada for obvious reasons. The agro-based factory establishments

such as rice mills, oil mills, sugar *etc.*, are on the increase and account for the largest number of units in the entire district and there is considerable scope even for further expansion of these industries. A bacon factory at Gannavaram and a milk project at Vijayawada are under installation in the Public Sector. Next in importance among the factory establishments are the metal based-industries in the district. It may incidentally be mentioned here that iron ore is mined at Gandrayi near Jaggayyapet.

Impact of the Five Year Plans

Small Scale Industries have an important role in the industrial development of a planned economy. They have to keep pace with the development of major and medium sized industries as the chief function of Small Scale Industry is to serve in an ancillary capacity the large and medium scale industries.

During the Second Five Year Plan period programmes for the development of Village and Small Scale Industries were given a definite place with all round assistance including loans, as they also provide considerable employment and help to improve and preserve the traditional skills and equipment. They are also aimed at the building up of a suitable and efficient decentralised sector of industry. With the above objectives, schemes for the development of Small Scale Industries through production-*cum*-training centres, Industrial Estates, grant of loans to private concerns under State Aid to Industries Act *etc.*, were taken up and in all an amount of Rs. 38·82 lakhs was spent during the Second Plan period. There are two Small Scale Industrial units in the Industrial Estate at Vijayawada under the control of the Industries Department for leather goods manufacture-*cum*-training and the second for moulding including a training programme.

1. Training-cum-Production Centre for moulders at Vijayawada.— The object of the scheme is to provide training facilities in moulding and casting to 12 candidates a year for a period of 11 months during which the trainees are paid a stipend of Rs. 30/- each per month. The total cost of the machinery and equipment is about Rs. 53,000. In the year 1956 the centre commenced work in a rented building at Ramavarappadu. But soon a building was constructed at a cost of about Rs. 50,000. By 1960 four batches of 46 trainees were trained. The centre normally manufactures on orders the following items :

1. Sewage blocks
2. Cooling water troughs
3. Fitter or carpenter vices
4. Cupolas with blowers
5. Pipe vices
6. Electrical & Sanitary equipment
7. Sugarcane crushers
8. Improved Potter wheels
9. Metric weights
10. Flat runners
11. Fire barns

A sum of Rs. 2,67,150 was spent during the Second Five Year Plan period against a Plan provision of Rs. 2.76 lakhs. Particulars of production and sales during the Second Plan period are given below.

STATEMENT VI-2

Year	Production	Sales
(1)	(2)	(3)
	Rs. P.	Rs. P.
1956—57	Nil	Nil
1957—58	23,069·23	19,874·66
1958—59	30,023·95	25,654·38
1959—60	25,363.68	21,153·94
1960—61	11,789.26	5,273·77
Total	90,246.12	71,956·75

2. Model Leather Goods Manufacturing Unit at Vijayawada.— The scheme is designed to impart training in the manufacture of improved types of foot wear and leather goods to the artisans of Charmakars community. 12 candidates are trained very year. The training is of 12 months duration and the trainees are paid a stipend of Rs. 30/-each per month. In the year 1956 the unit commenced work in a rented building and in the permanent building constructed at a cost of about Rs.32,270 in the Industrial Estate since 1959. The unit is equipped with the required items of machinery worth about Rs. 40,000 and by 1961 it trained five batches of artisans. An amount of Rs. 3,38,484.75 was spent during the Second Five Year Plan period as against the plan provision of Rs. 4.48 lakhs. The particulars of

production and sales during the Second Five Year Plan period are furnished below :

STATEMENT VI-3

Year	Production	Sales
(1)	(2)	(3)
	Rs. P.	Rs. P.
1956—57	10,671.00	5,033·00
1957—58	38,363.00	8,698·11
1958—59	77,188·95	68,896·50
1959—60	18,083·67	18,253.85
1960—61	12,630·00	15,734.00
Total	1,56,936·62	1,16,615·46

3. Raw Material Servicing Centre at Vijayawada.— The object of the scheme is to meet the increased demand for raw materials for Small Scale Industries and to effect an equitable distribution of available iron and steel. The centre is located in one of the units in the Industrial Estate constructed at a cost of Rs. 93,489. The centre works on 'no profit and no loss' basis and aims at helping Small Scale Industrialists. Material worth Rs. 43,313.59 has been received up to the end of March 1961. An expenditure of Rs. 1,38,442.60 was incurred during the Second Five Year Plan period as against the Plan Provision of Rs. 6.82 lakhs.

4. Bicycle Parts and Accessories Manufacturing Unit at Vijayawada.— The object of the scheme is to manufacture bicycle spare parts and accessories and to train 6 persons every year on a stipend of Rs. 30/- each per month. Hence a factory was established in one of the training units in the Industrial Estate and it commenced work during 1959-60. It is equipped with necessary machines such as lathes, power presses, shape machines and other tools. The parts manufactured at this unit are of a good quality and compare favourably with those made in Ludhiana and Delhi. The total expenditure on this scheme worked out to Rs. 3,55,295.72 as against the II Plan provision of Rs. 3.98 lakhs. The first batch of six trainees completed their training by the end of January 1961. The following parts and accessories are manufactured at this unit.

1. Single Rod Carrier (enamelled)
2. Double Rod Carrier (enamelled)
3. Single tube carrier (enamelled)
4. B. B. — Axles
5. Pedal Axles
6. Hub Axles (front and back)
7. Single rod carrier (plated)
8. Cotter-pins
9. Stands (Hyderabad Model)

The following are the particulars of production and sales in 1959–60 and 1960–61

STATEMENT VI-4

Year	Production	Sales
(1)	(2)	(3)
	Rs. P.	Rs. P.
1959—60	12,419·99	10,752 63
1960—61	27,208 90	1,720 37

Cottage and Small Scale Industries Research Institute at Vijayawada

This is a Servicing Scheme for the development of Small Scale and Cottage Industries in the district aimed at designing new machines and appliances by evolving new processes wherever possible. Research is conducted on improved techniques of production in several industries like carpentry and blacksmithy, sheet metal work, bell metal work, fibre extraction and rope making, rice pounding, flour grinding, oil pressing, gur making, toy making, handloom weaving, distillation of essential oils etc. The institute comprises a small mechanical workshop and a chemical laboratory. The entire machinery in this institute costs about Rs.50,000. The building was constructed at a cost of Rs. 79,559. A total expenditure of Rs. 1,37,211.84 was incurred during the Second Five Year Plan period as against the plan provision of Rs. 2.05 lakhs.

Khadi and Village Industries

The Khadi and Village industries are capable of providing part-time or subsidiary occupations. The office of the Assistant Director of Industries and Commerce, Vijayawada is sanctioning loans to the individual artisans under the Cottage and Village Industries Loans and Subsidy Rules 1948 for the development of cottage industries. The loans so granted are to be recovered in about five annual instalments. The Director of Industries and Commerce sanctions loans under the State Aid to Industries Act at the State level to Small Scale Industrialists.

There are 68 Co-operative Societies dealing with Khadi & Village Industries in the district. Out of these societies 38 Co-operatives were financed by

Khadi and Village Industries Board to the tune of Rs. 3,69,795 as loans and Rs. 1,43,085 as grants. The following are the particulars of societies industrywise :

STATEMENT VI-5

Sl. No.	Industry	No. of societies	No. of Members	Loan	Grant	Production	Sales
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
				Rs.	Rs.	Rs.	Rs.
1.	Oil Industry	7	117	1,27,987	16,600	89,459	99,678
2.	Hand Pounding of Paddy	21	745	1,09,663	9,595	2,23,079	240,946
3.	Khadi	2	463	15,000	17,500	34,518	40,525
4.	Handmade paper	1	17	20,500	17,500	..	..

	Total	68	2,282	3,69,795	1,43,035	3,79,038	4,23,997

The following are the particulars of loans sanctioned and recovered during the Second Plan period under Cottage Industries Loans and Subsidy Rules 1948.

STATEMENT VI-6

Year	No. of artisans	Amount sanctioned	Amount recovered
(1)	(2)	(3)	(4)
		Rs. P.	Rs. P.
1956—57	124	13,645.00	2,534·17
1957—58	94	9,000·00	1,501.86
1958—59	734	72,580.00	3,548.78
1959—60	227	30,000·00	864.74
1960—61	..	..	5,331.12
	1,179	1,25,225.00	13,881.57

The work in the department has been rapidly increasing on account of the implementation of various schemes envisaged in the Second Five Year Plan. In order to cope with the increased work it is proposed to strengthen the staff of both in the Directorate and the district level. In pursuance of the said proposals, a post of a Superintendent has been sanctioned in each of the offices of the Assistant Directors since 1958-59. An expenditure of Rs. 6,280.74 was incurred on this account during the Second Five year Plan period.

Industrial Estates

"An Industrial Estate is a developed and planned area with properly designed and readily built factories of different sizes conforming to municipal and factory laws, available on modest rent or rent purchase basis, to Small Scale Industries with roads and other communication facilities, water and electricity connections."

With the advent of Five Year Plans the development of Small Scale Industries formed an integral part of the economy particularly because of the need for the expansion of major and medium industries. All the same Small Scale Industries cannot be neglected as they serve as ancillaries to larger industries. Generally the handicaps of the Small Scale Industries are many and varied. The resources of the Small Scale Industrialists are meagre as a result of which they find it difficult to maintain some flexibility to suit the varying requirements at different times. The Industrial Estate organised by the Government of Andhra Pradesh at Vijayawada is intended to provide ideal conditions for starting and developing Small Scale Industries. It is located at a distance of about a mile from the Municipal limits abutting the Highway connecting Vijayawada and Masulipatnam. A site of 54 acres was selected for this purpose wherein twenty two factory buildings were constructed

in four sizes and made available to private industrialists to start their industries. It is interesting to note that 19 out of 22 buildings were occupied by various private industrialists of Small Scale Industries. Agricultural implements, wood screws and wire nails, wood structurals and furniture, copper conductors and electrical wire drawings, stainless steel, hospital-ware, alloy steel castings, paints and varnishes etc., are some among the various industries undertaken in the units of the Industrial Estate.

The Industrial Estate contains a Sub-Post Office, a branch of the State Bank of India, a First Aid Post besides provision for a canteen.To facilitate the transport of raw materials and finished products of the tenant industrialists, the Estate administration maintains a lorry. A Railway Out Agency is also contemplated by the Estate. As Small Scale Industry cannot have all servicing facilities of its own, the Government of India have set up a servicing centre in the Estate. It provides servicing facilities in Tool Room, Heat Treatment & Foundry and Testing. During the Second Plan period the total expenditure worked out to Rs. 22,86,602 as against the Plan provision of Rs. 22.33 lakhs.

The following are the Departmental Units :

(1) Raw Material Servicing Centre

(2) Moulders Training Centre

(3) Leather Goods Training-*cum*-Production Centre

(4) Cycle Spare Parts production units; and

(5) Small Scale and Cottage Industries Research Institute.

The advantages of an Industrial Estate are many. The small entrepreneur need not freeze his scarce capital in brick and mortar. He can avoid the usual hurdles of getting building plans approved and securing licence. Electricity and water flow in abundance at the flick of a switch or the turn of a tap. Ready built work space in a well-laid out area with roads is available to him as also common services like the Bank, Post Office, Telephone, First Aid, Creches, Playground etc. He can utilise the servicing centre on the Estate for processes such as heat treatment, electroplating, enamelling and other branches of specialised production. He can use the technical advice and technical library available to advantage. Raw materials, especially steel and pig iron are easily procured. He can take advantage of the inter-trading and inter-servicing facilities among the units on the Estate, which result in reduction of the cost of production and make products available at competitive prices.

Assisted Private Industrial Estates

Owing, to the limited resources of the Government to establish the conventional type of Industrial Estates at every place of demand, the Industries Department evolved a modified scheme known as the " Assisted Private Industrial Estate" in order to promote these estates at as many places as there is scope and demand. Under the modified scheme, the estate may be set up as a joint venture between the Government and prospective occupant industrialists. Government would finance the cost of common items like land, roads, provision of water supply, drainage and electricity mains. The fully developed factory sites will be made available on long term lease to prospective occupant industrialists. The occupant industrialists will have to construct the factory buildings on the alloted sites according to approved type designs and procure and install machinery and equipment required for their enterprises. They can avail themselves of liberalised loan assistance for this purpose upto 60% towards cost of building and 75% towards cost of machinery offered by the Industries Department or Andhra Pradesh Finance Corporation. The loan granted by the Andhra Pradesh Finance Carporation is repayable in 15 years in convenient and gradual instalments.The associated Estates will, in other respects, enjoy all the privileges of tenants of conventional estates and will have common facilities also such as tool room, raw material depot etc.

Krishna district contains an Assisted Private Industrial Estate at Masulipatnam as a joint venture between Government and prospective occupant industrialists. It was organised in 1961 with twenty applicants. A site of about twenty acres was acquired for the purpose and the buildings for administrative offices and watch & ward were completed. All the applicants applied for loans from the State Government and other financing agencies and were waiting for their sanction. These occupant industrialists propose to construct their own buildings on their allotted sites in the Industrial Estate according to the approved designs and procure and install machinery and equipment from their own resources. The Estate has yet to take shape. The Director of Industries and Commerce is

assisting the industrialists in matters like processing their applications for financial assistance and other technical matters for the speedy completion of the project aimed at.

Handicrafts

The importance of handicrafts in an agrarian economy need hardly be over emphasized. They help to diversify the economy and thereby add to the per capita income. The very seasonal character of agriculture itself affords much scope for the rehabilitation of the village economy through traditional crafts and industries, and to exploit all the available raw materials in the country-side.

The existing prominent handicrafts in the district are the manufacture of Kondapalli toys, the Masulipatnam Kalamkari fabrics, making of musical instruments at Jaggayyapet, bamboo and rattan work and printing & dyeing. To provide a sound base, the artisans in these crafts have been organised into Co-opertive Societies. The following are the particulars of these co-operatives :

STATEMENT VI-7

Sl. No.	Industry	No. of societies	No. of Members	Loans	Grant	Production	Sales
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
				Rs.	Rs.	Rs.	Rs.
1.	Kalamkari Printing	1	336	15,009	4,549	21,484	27,521
2.	Kondapalli Toys	1	65	7,000	5,100	22,454	26,895
3.	Musical instruments	1	19	3,000	5,750	(Defunct)	..
4.	Bamboo & Rattan	5	280	..	..	510	510
5.	Printing & Dyeing	1	16	..	..	..	..
	Total	9	716	25,000	15,399	44,448	54,926

Kalamkari Printing Industry at Masulipatnam : The object of the scheme is to improve the quality of Kalamkari printing and thus help to revive and develop this traditional craft. The speciality of the industry consists of dyeing through vegetable dyes. The programme also envisages training facilities in particular aspects of Kalamkari Printing like preparing the indigo and wax application. Four candidates were trained in this centre on stipendiary basis. All the persons trained joined the Balayalagudem Cottage Industries Co-operative Society as members. The articles produced in this industry consist of bed-sheets, door curtains, table covers skirts, dress materials and saris in several attractive traditional designs. Door curtains of Pesian designs are the most popular.

Scheme for common facility centre for Kalamkari Printing Industry at Masulipatnam : A common facility centre at a cost of Rs. 9,125 was set up at Masulipatnam during the year 1960-61 for the benefit of the artisans engaged in the Kalamkari industry at Masulipatnam.

Scheme for imparting training in the manufacture of Kondapalli Toys : The main aim of the scheme is to impart training in the manufacture of Kondapalli toys which is a flourishing craft of the district with six centuries standing. There is good demand for the toys of Kondapalli which have attained international reputation. The traing centre started in July 1958 was intended to provide more artisans for the craft and enable it to meet the steadily growing demand for the products within and outside the country. 12 candidates were trained every year. The toys of Kodapalli mainly depict the Indian village life. Besides these, birds, like cock, pea-cock, parrot, swan *etc.*, are manufactured. Mythological figures like Dasavathar sets, Lakshmi, Saraswathi, Krishna are also popular. The elephant with howdah with a king and his council is a speciality. Models of Indian houses and temples can also be seen among these toys. Sets depicting village school dance party, Gopi dance *etc* , are popular and the demand for them is on the increase. The training centre started in July 1958 trained two batches of trainees (19 in number) and

the third batch of 11 candidates is undergoing trainining in this centre. The following are the particulars of production and sales during 1958–59 to 1960–61 in the training centre.

STATEMENT VI-8

Year (1)	Production (2)	Sales (3)
	Rs. P.	Rs. P.
1958—59	1,100 00	628.00
1959—60	2,500.00	1,278.99
1960—61	2,239.17	2,406.51
Total	5,839.17	4,313.50

During the Second Five Year Plan period the total expenditure on this scheme worked out to Rs. 28,366·40 as against the Plan provision of Rs. 0.28 lakhs.

Musical Instruments at Jaggayyapet: The object of the scheme was to impart training in the manufacture of musical instruments such as *veena* and *sannai* as a step in aid of improving the production in the craft. Six candidates are trained in each batch. The course of the training is for a period of six months during which the trainees are paid a stipend of Rs. 25 each. As a follow-up measure a co-operative society is started at Jaggayyapet. During the Second Five Year Plan period an amount of Rs. 8,000 was spent as against the Plan provision of Rs.0.11 lakhs.

Scheme for Inetr-State Marketing in the Central Sales Emporium at Vijayawada: The Inter-State Marketing Scheme aims at creating newer avenues for the marketing of handicraft products of Andhra Pradesh in other States on reciprocal basis. This was started in the Central Sales Emporium, Vijayawada in August 1958 with a non-recurring cost of about Rs. 2,000 and a recurring cost of Rs. 6,700. Rs. 15,000 and Rs. 10,000 were drawn during the years 1959–60 and 1960–61 respectively, as working capital loan for the purchase of handicraft products from other States. The purchase and sales are as follow:

STATEMENT VI-9

Year (1)	Purchase from other States (2)	Sales to other States (3)
	Rs. P.	Rs. P.
1958—59	15,395.00	7,027.00
1959—60	32,785.00	16,184.00
1960—61	34,149.00	31,811.00
Total	82,329.00	55,922.00

The total expenditure during the Second Five Year Plan worked out to Rs. 42,207 as against the plan provision of Rs. 38,000. A combined profit and loss account in respect of the Central Sales Emporium and Inter-State Marketing Scheme is prepared. The loss sustained by the emporium is as follows:

STATEMENT VI-10

Year (1)	Loss (2)
	Rs. P.
1958—59	12,038.00
1959—60	14,697.76
1960—61	11,100.00

Grants towards Reserve Funds of Industrial Co-operatives: The object of providing grants towards Reserve Fund is to enhance the maximum borrowing capacity of the Industrial Co-operative Societies and to enable them to raise funds effectively to develop their industries. A sum of Rs. 2,820 was sanctioned to three Industrial Co-operatives during the year 1960–61.

Grants towards the cost of Technical and Accounts staff: A sum of Rs. 3,960 was sanctioned during the year 1960–61 as grant towards the cost of technical and accounts staff of the Family Welfare Co-operative Industrial Society Ltd., Match Factory, Vijayawada. This grant was limited to 50% of the total cost of the staff and the other 50% was borne by the Society.

Grants by way of meeting the cost of managerial staff: A sum of Rs. 1,100 was sanctioned for meeting the cost of the managerial staff during the year 1959–60. The said grant was limited to 50% of the total cost and the remaining 50% was borne by the Societies concerned. Assistance was given to (1) Masulipatnam Ghani Oil Co-operative Production and Sales Society Limited, Masulipatnam (2) Balayalagudem Co-operative Cottage Industries Production and Sales Society Ltd., Masulipatnam.

Grants for the expansion of the existing equipment, plant and tools: A sum of Rs. 2,250 was sanctioned as grant for the expansion of the existing equipment, plant and tools. The grant is limited to 75% of the total cost of equipments purchased by the Societies, while the remain-

ing 25% is to be borne by the Societies. The Cottage Match Factory, Vijayawada was benefited by this grant.

Training of Artisans

Under Rural Arts & Crafts Programme in Block areas several model schemes for training artisans in traditional and improved techniques of village industries were implemented. With the creation of the post of Extension Officer (Industries) at Block level, the programme of Industries and Rural Development received an impetus, as a result of which schemes for training artisans in leather training, leather goods manufacture, *tunga* mat weaving, stationery manufacture and book binding, fruit preservation and canning *etc.*, were taken up. Thus there are 27 such training schemes under implementation in the district in various Blocks.

Besides these training centres in mofussil areas, there are two schemes under non-plan items under the control of the Assistant Director of Industries and Commerce, Vijayawada for training in and production of leather goods manufacture and moulding in the two departmental units located in the Industrial Estate at Vijayawada. In Block areas village artisans and craftsmen were trained to use improved tools and equipment which were supplied at 50% subsidised cost to artisans, with a view to propagating their utility.

Industrial Co-operative Societies

The main problem of the cottage Industrial workers is finance. The co-operative organisations are considered to be the most suitable agencies for tackling all their problems and to enable them to earn a living wage and to improve the techniques of production. The main objective of co-operatives is to ensure a consolidated. position to the existing village industries, improve their techniques of production and thereby increases sales.

There were 86 Industrial Co-operative Societies in Krishna as on 30th June 1964 out of which 68 come under the purview of Khadi & Village Industries Board, 9 under the Handicrafts Board and the other 9 under various types of industries.

These 86 Industrial Co-operative Societies had a membership of 3,674 with a paid up share capital of Rs. 1,52,664. Out of these societies 42 were financed by Andhra Pradesh Khadi & Village Industries Board, Hyderabad, the State Government and the Central Social Welfare Board and other agencies to a tune of Rs. 8,26,629 consisting of a loan of Rs. 5,65,295 and a grant of Rs. 2,61,334. The Societies produced finished goods valued at Rs. 7,16,005 and effected sales to a tune of Rs. 7,61,190 during the year 1963–64 providing employment to about 919 members

Amelioration of unemployment

In rural areas a follow-up action was taken to organise Industrial Co-operative Societies with the ex-trainees of various training-*cum*-demonstration and production schemes implemented by Blocks and the individuals were given Cottage Industries loans to enable them to be either self-employed or for forming themselves into Co-operative Societies by contributing necessary initial share capital.

Soon after their formation and registration, financial assistance would be secured from Andhra Pradesh Khadi & Village Industries Board, Handicrafts Board, Small Scale Industries Board, Social Welfare Board, State and Central Governments to strengthen the Societies and their activities. Almost all the 61 Industrial Co-operatives registered during the recent past were organised likewise and they were given all possible assistance in the shape of technical advice and financial assistance.

A survey was conducted in the year 1961 to assess the potentialities of the entire district, about the availability of raw materials, skilled artisans *etc.*, in respect of different crafts and action is being taken in a phased programme to ameliorate the conditions of the artisans and craftsmen by providing employment either by forming Industrial Co-operatives or by providing individual loans. By the end of the Third Five Year Plan period the scheme is contemplated to be implemented in full, subject to the availability of funds with the All India Boards for financing Cottage, Village and Small Scale Industries.

CHAPTER VII

HEALTH

Public Health

The Public Health Department had its origin as early as in 1864 when a Sanitary Commission was formed in the Presidencies of Madras, Bombay and Bengal. In 1869 the Sanitary Commissioner took over the functions of the Commission. Vaccination was the first public health work undertaken by this new organisation. Later this work was entrusted to the Revenue and Medical Departments by turns and in 1922 after several experiments it was handed over to the Public Health Department. Registration of births and deaths became compulsory in the erstwhile Madras Presidency under the Births and Deaths Registration Act of 1899 and the Madras Municipalities Act. From 1895 to 1914 various courses of training were organised and several batches of Santiary Inspectors were trained. In 1915 a "Pilgrims Committee" on fairs and festivals was formed and this committee submitted proposals on the santiary arrangements needed in future. The health education drive was also organised in the State in the same year with a great deal of success. In 1911 a Malaria Board was constituted and towards the close of 1920 it was amalgamated with the Sanitary Board forming the "Public Health Board" with the Minister for Health as President and the Sanitary Commissioner, the Sanitary Engineer and the Secretary to Government in the Public Health Department as members. The Sanitary Commissioner later on became the Director of Public Health assisted by a few Assistant Directors of Public Health, each in charge of subjects like vaccination, epidemiology, Vital Statistics etc. In 1919 Public Health became a transferred subject with the main responsibility relating to public health administration resting with the local bodies under the Local Boards Act and the District Municipalities Act.

In 1912 an epidemic of Cholera caused great anxiety. Anti-Cholera measures, both preventive and curative, proved ineffective in controlling and combating this epidemic. This unsatisfactory state of sanitary administration prompted the Government to constitute the "District Health Scheme" in 1922. Under this Scheme Assistant Health Officers were employed by the local bodies to work as District Health Officers in the urban areas. Health offices were also attached to Municipalities. The Director of Public Health was to supervise the working of district health schemes relating to vaccination, epidemics, fairs and festivals, vital Statistics, maternity and child health, malaria etc. with the assistance of the Assistant Directors of Public Health each in charge of subjects. In April 1924 the Government provincialized and gazetted the posts of Health Officers. The District Health Officer was charged with the duties prescribed in the Health Code Volume I of the Madras Public Health Code and he was made responsible to the Director of Public Health and to the President of the District Board. The Municipal Health Officer performed duties prescribed in the Public Health Code and was made responsible to the Director of Public Health and also to the Executive Authorities of the Municipality. In 1939 the Public Health Act came into force and revolutionised the health set up. Under sections 7 and 8 of this Act the Government vested the Director of Public Health with the control of the Public Health Administration under Local Bodies, and as per Sections 8 and 9, the Government was to appoint Health Officers who were to work under the local bodies. These officers were vested with various responsibilities with statutory powers under the Public Health Act. The Director of Public Health was to exercise his powers through the Health Officers. The various other special schemes such as the control of malaria and filaria, tuberculosis through B.C.G. vaccination campaigns, leprosy, malnutrition, health education *etc.*, further strengthened the hands of the Health administration. Since 1956 the Public Health Department has expanded further due to the implementation of various national programmes such as the National Small Pox Eradication Programme, the extended Nutrition Programme, the Milk feed programme, the Anti-Yaws campaign, Family Planning Campaign, School Health Services *etc.*, For efficient discharge of all these functions of Public Health administration Krishna District has been divided into eleven ranges. The work done under the various schemes is explained below :

Food and Nutrition

During the year 1962-63, the expanded nutrition programme was taken up in Nuzvid Block and implemented in about 10 selected villages in order to guide and improve the intake habits of food and nutrition. The UNICEF has been assisting this project. School gardens, poultry units, pisciculture programmes were undertaken and implemented for the distribution of nutritive foods to the beneficiaries selected in these villages. The Medical Officer of Primary Health Centre, Saggurru and his staff carried out Public Health activities including the assessment of the health conditions of these beneficiaries.

Food adulteration

The prevention of Food Adulteration Act is in force in four Major Panchayats at Jaggayyapet, Nuzvid, Tiruvur and Avanigadda, besides the three Municipalities *viz.*, Bandar (Masulipatnam), Vijayawada and Gudivada in the district. The Sanitary Inspectors working in these areas send a prescribed number of food samples to the Government Analyst for analysis and report. Many Panchayats are eager to send samples of food articles for analysis but the Institute is not having adequate laboratory facilities. The Sanitary Inspectors have been launching prosecutions under the provisions of Food Adulteration Act against eating houses and coffee hotels, for not maintaining the prescribed standards. Convictions have been imposed with heavy fines under the provisions of the Act.

All the Range Health Inspectors have been appointed as Food Inspectors for checking food adulteration and to exercise powers within their respective local areas where there are no Sanitary Inspectors. However, this arrangement cannot be effective until the Institute is able to cope up with the additional work of analysis by expanding the laboratory facilities.

Maternity & Child Welfare Centres

Maternity and Child Health Services are provided in the rural areas through the centres established under the administration of the Zilla Parishad. Each centre is manned by a qualified Maternity Assistant who in turn is also assisted by an experienced Ayah. It serves villages within a radius of five miles from the centre and covers a population of about five to ten thousands. The services provided are mainly domiciliary and where there are facilities institutional deliveries are also undertaken. Apart from these centres, the primary health centres and its sub-centres also provide maternity and child health services in their respective Panchayat Samithi areas. As skilled services could not be provided in all the rural areas, a programme for training *dais* who are in the profession was implemented. The *dais* were selected from different villages in the Samithi area and were given training for a period of about six months in the elementry principles and practice of midwifery. The training programme was supervised by the Medical Officer in charge of the Primary Health Centres besides the Health Visitors. During the training period they were given remuneration and at the end of training a *dais* kit was given free of cost to each trainee.

A woman Medical Officer is posted in the district under the administrative control of the District Health Officer for supervising the work in the Maternity and Child Health Centres. All the three Municipalities in the district are provided with Maternity and Child Health centres in the Municipal area with one woman Medical Officer posted in each for supervising the work. A list of maternity and child health centres in the district belonging to various agencies is given below :

(*i*) *Maternity and Child Health Centres in Rural Backward areas maintained by Samithis*

1 Angalur (Main Centre)

Primary Health Centres

During the First Five Year Plan period only two Primary Health Centres were opened at Tiruvur and Musunur in Tiruvur and Nuzvid taluks respectively. During the Second Five Year Plan period four more Primary Health Centres were opened at Talladevarapalli, Chandarlapadu, Pedavutapalle and Chinapandreka. Each Primary Health Centre contains three sub-centres besides the main centre. These centres get assistance from the UNICEF by way of equipment, drugs and diet suplements, milk powder and a vehicle for transport.

Local Fund and other Dispensaries

The district contains 112 Local Fund Dispensaries which have been functioning actively since a long time. No new dispensaries have been started in the First and Second Plan periods. The dispensaries in the district have been classified into various categories. In some of the Allopathic dispensaries, maternity assistants are also posted to provide maternity and child health services in their respective areas.

Environmental hygiene

The targets achieved during the First and Second Five Year Plan periods under various items of work in the district are given below :

STATEMENT VII-1

S. No.	Item of work	First Plan period	Second Plan period
(1)	(2)	(3)	(4)
1	Drinking water wells constructed (Nos.)	299	483
2	Wells repaired (Nos.)	106	548
3	Tanks constructed (Nos.)	Nil	2
4	No. of hand pumps installed	67	212
5	Total lanes paved	3,652 Yds.	1,07,094 Yds.
6	No. of soakage pits dug	175	53,236
7	No. of bath rooms constructed	212	329
8	No. latrines constructed	231	536

The general sanitation in many Panchayats is greatly improved and steps have been taken by the Panchayats to improve conditions in this direction. The sanitary type of latrine is to a large extent being accepted and with the advent of the Panchayat Samithis set up under the important administrative change popularly known as the democratic decentralization, health education has gained momentum and the needs of different areas are being assessed properly. The Panchayat Samithis provide seal slabs free of cost or at a nominal price as an incentive and villagers are made to realise the importance of having a Sanitary latrine. The open type latrine is still largely the choice, particularly for the public latrines and Panchayats are not readily coming forward to construct the sanitary type of community latrines. Whenever funds permit, the Panchayats have been appointing scavengers and sweepers for the general sanitary upkeep in their areas. Drinking water facilities in villages are greatly improved and people are anxious to have protected water supply system.

Communicable diseases control

Cholera and small-pox are the two main diseases which are endemic resulting the periodical outbreaks. Regular vaccination is undertaken by Public Health personnel to prevent epidemics of smallpox. In the year 1963 the National Small Pox Eradication Unit worked in the district vigorously and undertook mass vaccination campaign and completed the work successfully. Subsequently the normal public health staff have been carrying out the residual vaccination operations for all the population left out by the former, trying to reduce the unprotected children. During the First Plan period there were 4,572 attacks and 890 deaths due to small-pox. The public health staff in the district conducted 120,016 primary vaccinations and 4,75,632 revaccinations. Again during the Second Five Year Plan period there were 3,734 attacks and 595 deaths due to small-pox in spite of 1,31,104 primary vaccinations and 4,64,835 revaccination. After the NSEP was launched the incidence was greatly reduced and the occurrence of small-pox is reported in a sporadic form only.

Outbreaks of cholera usually come in this district in the wake of transplantation and harvest season, when there is a large scale movement of labour in the district and particularly from outside the district. Therefore advance precautionary measures are taken up for conducting anticipatory anti-cholera inoculations to the rapidly moving labour at vantage places besides taking precautions to protect drinking water sources by regular chlorination. During the Second Five Year Plan period there were 1,820 attacks and 961 deaths due to cholera and during this period a total number of 2,77,056 persons were protected against cholera by inoculation.

School Health Services

School Health Services are extended by the District Health Organisation in general and the Primary Health Centres in particular in their respective areas. School Health Clinics specially designed to extend expert services were not opened during the first two Plan periods. However in the year 1962 a School Health Clinic was opned in Krishna district with its headquarters at Masulipatnam, in charge of a Health Officer. This serves the entire district in co-operation with the various Primary Health Centres under the Panchayat Samithis.

Health Education and Propaganda

The Public Health staff in the Ranges, Panchayats and in Panchayat Samithis impart health education during their normal tours in their respective areas. Exhibitions are conducted in *melas* organised by Panchayat Samithis and festival centres. The Health Education Bureau provides periodically posters, pamphlets and other propaganda material. Every year the World Health Day, the cleanliness day, the family planning week, small-pox eradication week, anti-fly week and leprosy week are observed in a suitable manner in all the Panchayat Samithis and range headquarters for high lighting the importance of these public health problems and to enlist public co-operation for the successful implementation of the relevant programmes. A statement showing particulars of propaganda work conducted in the entire district during First and Second Five year Plan periods is given below :

STATEMENT VII-1

STATEMENT SHOWING THE PROPAGANDA WORK CONDUCTED IN KRISHNA DISTRICT DURING THE FIRST AND SECOND FIVE YEAR PLAN PERIODS

Sl. No.	Year	No of villages visited by Health Staff for propaganda	No. of Lectures with magic lanterns	No. of Lectures without magic lanterns	No. of exhibitions	No. of talks	Total No. of audience	No. of Pamphlets distributed	No. of Leaflets distributed

10	1960	298	255	507	..	2,559	69,351	..	..

Family Planning

Family planning programme has come to stay as an important Public Health Programme. Rural Family Planning Clinics have been opened in every Primary Health Centre and they are under the control of the District Health Officer to start with and subsequently may be handed over to the respective Panchayat Samithis. Urban Clinics are attached to the headquarter's hospitals and the taluk hospitals under the control of the District Medical Officer. Two family planning clinics were opened during the First Five Year Plan period and four during the Second Five Year Plan period.

Every Rural Family Planning Clinic is manned by a Health Visitor assisted by an *Ayah*. In the reorganised set up as there are two Health Visitors attached to Primary Health Centres ; the territorial jurisdiction of the Panchayat Samithi is equally divided between the two Health Visitors so that both Maternity Child Health and Family Planning work can be carried out in these areas successfully. There is free supply of contraceptives and propaganda material to all the clinics, released through the District Health Officer. In many places vasectomy camps are also organised besides routine vasectomy operations at the Primary Health Centre level.

Water Supply Scheme

The district is having protected water supply system only in Vijayawada, Gudivada and Masulipatnam. The rest of the district is entirely dependent upon tanks, draw wells and tube wells for drinking water supply. A few Panchayats have undertaken the construction of overhead tanks for distribution of water through pipes. But no provision is made to protect the water by installing plants for purposes of chlorination. With the advent of Panchayat Samithis, Rural Water Supply programmes are given priority and wells are provided to meet the needs of the villagers. The particulars of wells constructed and pumps installed during the period from 1957 to 1960 are furnished below :

STATEMENT VII-2

Year	No. of wells constructed	No. of pumps installed
(1)	(2)	(3)
1957	95	..
1958	56	14
1959	43	10
1960	184	69

National Malaria Eradication Programme

As the district adjoins the Bay of Bengal with a long coastal belt the prevalence of Malaria is common. Hence in this district two Malaria Units were opened one at Masulipatnam and the other at Vijayawada.

Medical Services

The following is the list of medical institutions maintained by the Government and the Zilla Parishad in the district and the bed strength at the end of the Second Five Year Plan period is noted against each institution.

STATEMENT VII-3

S.No.	Name of the Medical Institution	Bed strength
(1)	(2)	(3)
1	Government Headquarters Hospital, Masulipatnam	250
2	Government Hospital, Vijayawada	100
3	Government Hospital, Gudivada	30
4	Government Hospital, Nandigama	30
5	Government Hospital, Nuzvid	20
6	Government Hospital, Avanigadda	8
7	Government Hospital, Jaggayyapet	7
8	Government Hospital, Kaikalur	7
9	Primary Health Centre, Tiruvur	24
10	Zilla Parishad Hospital, Myalavaram	4
11	Zilla Parishad Dispensary, Pamarru	..
12	Government Dispensary, Gannavaram	..

Special facilities which are available for the treatment of diseases like leprosy, tuberculosis, venereal diseases are described below :

Leprosy : During the First Five Year Plan period only out-patient treatment was provided. To provide relief to the leprosy patients and in order to segregate all the leprosy patients of the district in one particular place, Kesarapalle village in Gannavaram taluk was selected as an ideal place. During the Second Five year Plan period the Leprosy Subsidiary Centre at Kesarapalle under the management of Hindu Kusht Nivaran Sangh was taken over by the Government in the year 1957 with the existing buildings and it provides in-patient accommodation for about 30 patients. The full complement of the staff is actively serving in the centre. The centre also aims at conducting surveys periodically according to the need using the ancillary staff

viz., Medico-Social Workers and Non-Medical Assistants under the supervision of the Medical Officer. A jeep is also available at the Centre. There are proposals for the construction of suitable quarters for the Medical Officer so that he could effectively supervise all the activities of the centre.

Tuberculosis : During the First Five Year Plan period a T.B. ward with about 20 beds was constructed with the aid of the Krishna District T. B. Association Fund in the compound of the Government Headquarters Hospital, Masulipatnam. Out-patient treatment is rendered possible in almost all the medical institutions wherever facilities exist.

The Government during the Second Five Year Plan period sanctioned two clinics one at the Government Headquarters Hospital, Masulipatnam and the other at the Government Hospital, Vijayawada. The in-patient accommodation available for the treatment of T. B. cases at the Government Headquarters Hospital is adequate for 27 patients. The Clinic at the Government Headquarters Hospital, Masulipatnam is located in a separate building, away from the hospital, purchased by the Government ; the Clinic at the Government Hospital, Vijayawada provides only out-patient treatment. The full complement of the staff sanctioned for both the clinics exists. As regards the supply of X-Ray and laboratory equipment to the Clinic at Masulipatnam an expenditure of Rs. 80,000 has been incurred.

The following are the proposals for the improvement of the T. B. Clinic at Masulipatnam :

1. Acquisition of a site in front of the T. B. Chest Clinic and construction of a compound wall attached to the Government Headquarters Hospital, Masulipatnam.

2. Construction of a separate ward of 20 beds with the aid of the Andhra Pradesh Tuberculosis Association, Hyderabad, at the Government Headquarters Hospital, Masulipatnam.

3. Construction of an Isolation T. B. Ward with 20 beds from the State funds in the compound of the Government Headquarters Hospital, Masulipatnam.

The district also claims about 40 beds reserved for the treatment of T. B. cases, in T. B. Hospital, Mangalagiri, Guntur District. The Clinics both at the Government Headquarters Hospital, Masulipatnam and the Government Hospital, Vijayawada are equipped with minimum requirements but they are gaining popularity as the supply position of drugs is satisfactory.

Venereal Diseases : There is nothing worth mentioning as regards achievements during the First Five Year Plan period, except for the out-patient treatment in all medical institutions wherever facilities exist for the treatment of venereal diseases. During the Second Five Year Plan period a Venereal Diseases Clinic was opend at the Government Headqarters Hospital, Masulipatnam and the full complement of the staff sanctioned exists. The Clinic is fairly equipped with all requirements and is gaining popularity. The supply position of the drugs is also satisfactory.

Ear, Nose and Throat Clinics : During the First Five Year Plan period out-patient treatment was provided in all the medical institutions wherever facilities exist for the treatment of E. N. T. diseases. The Government during the Second Five Year Plan period ordered the establishment of an E.N.T. Clinic at the Government Headquarters Hospital, Masulipatnam and the full complement of the staff sanctioned also exists. The clinic is well equipped with all requirements and is growing up to be an important centre in the district.

Eye Clinics : During the First Five Year Plan period only out-patient treatment was made available in all the medical institutions in the entire district wherever facilities exist for the treatment of eye diseases. The Government during the Second Five Year Plan ordered the establishment of an Eye Clinic at the Government Headquarters Hospital, Masulipatnam, and the full complement of the staff sanctioned exists. The Clinic also provides in-patient accommodation of 8 beds. The supply position of the drugs is satisfactory and the department is fairly equipped with all necessary requirements.

Dental Clinics : There is nothing worth mentioning as regards the achievement made during the First Five Year Plan period except for the out-patient treatment provided in all medical institutions wherever facilities existed for the treatment of dental diseases. During the Second Five Year Plan the Government sanctioned the establishment of a Dental Clinic at the Government Headquarters Hospital, Masulipatnam and the full complement of the staff sanctioned exists. The unit is functioning satisfactorily.

Mental Health : There is no separate Psychiatric Clinic functioning in any one of the medical institutions in Krishna district. As such, all mental cases referred to any Hospital are kept under observation and finally referred for further treatment either to the Government General Hospital, Guntur or to the Mental Hospital, Waltair.

Blood Bank : A Blood Bank was opened at the Government Headquarters Hospital, Masulipatnam. It caters to the needs of both the headquarters hospital as well as moffussil medical institutions in the supply of saline *etc.*, in emergencies. The Department is equipped with the minimum requirements and the functioning of this unit is satisfactory.

Rural Medical Relief: At the end of the First Five Year Plan period, the district had 37 Rural Dispensaries out of which 9 dispensaries provided modern medical facilities while the remaining 28 related to indigenous medicine. By the end of the Second Five Year Plan period there were altogether 99 Rural Dispensaries out of which 17 Dispensaries provided Allopathic treatment while the remaining 82 were mostly Ayurvedic dispensaries. Among these Rural Dispensaries 9 are Subsidised Rural Dispensaries maintained either by the Zilla Parishad or by the Panchayat Samithis concerned.

Family Planning Clinics: Three Family Planning Clinics are functioning under the Medical Department. They are located at the Government Headquarters Hospital, Masulipatnam, the Government Hospital, Vijayawada and the Government Hospital, Gudivada. The full complement of the staff exists in all these three clinics which are gaining popularity. Vasectomy and sterilization operations are conducted in all these institutions. The supply position of drugs, contraceptives *etc.*, is satisfactory.

Primary Health Centres

During the First Five Year Plan period a Primary Health Centre was opened at Tiruvur in the former Local Fund Hospital building with the full complement of the staff. The UNICEF supplies in the form of drugs and diet supplements are received regularly by this centre. Again during the Second Five Year Plan period the following Primary Health Centres were opened.

1.	Primary Health Centre,	Talladevarapalle, Vissannapet Block
2.	do	Musunur, Musunur Block
3.	do	Motur, Motur Block
4.	do	Malleswaram, Bantumilli Block
5.	Primary Health Centre,	Pedavutapalle, Gannavaram Block
6.	do	Velagaleru, Mylavaram Block
7.	do	Chandarlapadu, Nandigama Block
8.	do	Saggur, Nuzvid Block

In all these Centres the supply position of drugs is satisfactory.

Accommodation

During the First and the Second Five Year Plans several building construction programmes were under taken and at present sufficient accommodation exists in all the medical institutions according to the bed strength sanctioned. A fresh Master Plan is, however, being prepared for the construction of new buildings in some of the above medical institutions with a view to increasing the present bed strength. The vacant site opposite to the Government Hospital, Masulipatnam belonging to a Christian Mission Authorities is proposed to be acquired for further extension programme. A new building at Vijayawada to accommadate 100 additional beds is under construction.

Medical Education and Training Programme

The Government Headquarters Hospital, Masulipatnam is imparting training for compounders in addition to functioning as a training centre for maternity assistants. During the Second Five Year Plan period it was utilised also as a training centre both for Auxiliary Nurse Midwives and Nurse pupils. But during the course of the Second Five Year plan period the Nurse pupils were transferred to the other training centres but the training of Auxiliary Nurse Midwives is continued.

Employees State Insurance Scheme

The district contains two Employees' State Insurance Dispensaries located at Vijayawada which were opened during the Second Five Year Plan period.

Indian Medicine

G. C. I. M. candidates who are to be employed in the Local Fund Institutions under the control of Zilla Parishad are being trained in surgery at the Government Headquarters Hospital, Masulipatnam.

Source: 1. District Health Officer, Krishna Masulipatnam
2. District Medical Officer, Krishna, Masulipatnam

CHAPTER VIII

EDUCATION

The development of education is an important aspect of the Five Year Plans of the country, which aims at the socialistic pattern of society. The salient feature of the district in this regard is that, it has recorded a distinctly higher percentage of literates compared to other districts in the State. The district ranks second in the State in literacy next to Hyderabad. The percentages of literates in the two cities in the district *viz.*, Bandar (Masulipatnam) and Vijayawada according to the 1961 Census are 50.30% and 50.46% respectively.

The following statement gives at a glance talukwise particulars of literates as well as their percentage to the concerned total population.

STATEMENT VIII—1

STATEMENT SHOWING THE PERCENTAGES OF LITERATES TALUKWISE AMONG PERSONS, MALES & FEMALES IN THE DISTRICT

District/Taluk	Total Rural Urban	Total Population			Literates			Percentage of literates to total Population		
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

The programme of education taken up under the Second Five Year Plan envisages the expansion of the educational facilities by establishing new Primary, Middle and High Schools and by opening additional sections in the existing schools. In this district, an amount of Rs. 19.67 lakhs was spent during Second Plan period towards the promotion of elementary education and secondary education and other educational schemes. The number of elementary schools in this district increased from 2,004 at the beginning of Second Plan to 2,169 by the end of the Plan. The enrolment in the elementary schools during this period increased from 1,89,558 to 2,24,079. The enrolment in the schools for secondary education also increased significantly from 42,496 at the beginning of the Second Plan to 50,414 by the end of the Second Five Year Plan period. The details of the growth of institutions under elementary and secondary education as also the increase in the enrolment are indicated in the statement given below :

STATEMENT VIII-2

PARTICULARS OF NUMBER OF SCHOOLS AND ENROLMENT AT THE BEGINNING AND END OF THE SECOND FIVE YEAR PLAN

Collegiate Education

Collegiate education in this district is making good progress. The Hindu College, Masulipatnam, the Andhra Jateeya Kalasala, Masulipatnam, the S.R.R. & C. V. R. Government College,Vijayawada, the Andhra Layola College,Vijayawada,the Akkineni Nageswara Rao College, Gudivada, the Narasimha Sanskrit College, Masulipatnam besides the Oriental College *viz.*, Sri Markandeya Oriental College, Akiripalle, Oriental College, Vijayawada are important institutions of higher education in the district. Apart from the Government Polytechnic there is an Industrial Training Institute at Vijayawada. The other particulars regarding schools and colleges are given in Series 7 of Administration Statistics in Part II of this Hand Book.

CHAPTER IX

SOCIAL WELFARE

Social Welfare is of paramount importance in any welfare State especially in the programme of planned development. Hence due share has been given in the Five Year Plans for the Social Welfare programme. The aim in the Social Welfare programme is to improve the economic and social conditions and establish an equilibrium in the structure of society. The programme, therefore, consists of promoting educational and economic interests of backward communities, particularly the Scheduled Castes, Scheduled Tribes and Vimuktha Jathis, ex-criminal tribes and other backward classes and in protecting them from social injustice. The Scheduled Castes have been suffering from the stigma of untouchability and are victims of extreme social and economic backwardness. The Scheduled Tribes living in their traditional life mostly in the forest and hilly areas are economically very backward and are leading a primitive type of life. The Social Welfare Department has, therefore, been specially constituted to implement the Social Welfare programmes of the Government and there is a District Social Welfare Officer in each district with the necessary ancillary staff for this purpose. Consequent upon the creation of Zilla Parishads in 1959 all schemes concerning Scheduled Castes, Scheduled Tribes and other Backward classes have been transferred to the Panchayat Samithis and Zilla Parishads but the overall responsibility continues to be vested with the Director of Social Welfare.

The various ameliorative measures for the welfare of the Scheduled Castes, Scheduled Tribes, ex-criminal tribes (Vimuktha Jathis) undertaken in this district during the second and Third Five Year Plans are detailed below :

Education

In order to improve education among these Backward Classes the Government is maintaining two High Schools at Masulipatnam and Dokiparru for the Backward Classes, five hostels at Dokiparru, Khambhampadu, Bandar, Vijayawada and Gudivada in the district. The two hostels at Dokiparru and Khambhampadu are being maintained under plan schemes while the remaining three at Vijayawada, Bandar and Gudivada are under normal scheme. The Government are supplying midday meals to the students in the elementary schools. Clothing and books are given free of cost and scholarships also are given in deserving cases. The Government are also subsidising some of the hostels. The allotment made, the expenditure incurred and the number of persons benefited under the various schemes are explained below :

During the Second Five Year Plan period an amount of Rs. 56,627 was allotted, out of which Rs. 44,056 was spent and about 220 boarders were benefited. The scheme was continued even in the Third Five Year Plan period. During the first three years of the Third Five Year Plan *i. e.*, 1961–64 an amount of Rs. 2,54,660 was allotted and Rs. 2,71,168 spent in the maintence of these hostels.

Construction and repairs to schools and hostel buildings

Under the Grant-in-Aid scheme a sum of Rs. 96,628 was allotted for the construction and repairs to the school and hostel buildings during the Second Five year Plan period out of which an amount of Rs.88,327 was expended. 18 schools were constructed by the Social Welfare Department in the district under this scheme during the Second Five Year Plan.

Monetary aid to students for books and stationery for Scheduled Castes and Backward Class children

This scheme envisages monetary aid to the children of Scheduled Castes and Backward Classes for purchasing books *etc.*, An amount of Rs. 12,700 was allotted for the supply of books and stationery for the children of ex-criminal tribes at school during the Second Five Year Plan period. The entire amount was spent on about 3,700 students. This scheme was continued in the Third Five Year Plan period also. During the year 1961-62 an amount of Rs. 16,500 was sanctioned towards monetary aid to the students for purchasing books *etc.*, but a sum of Rs. 5,839 only was spent. The remaining amount was not spent but utilised on the spill over works of Social Welfare Elementary School buildings and for printing charges of question papers relating to

Government High Schools, Masulipatnam and Dokiparru. During 1962-63 the entire sum of Rs. 13,200 sanctioned, was spent and about 2,640 pupils were benefited. The scheme was continued during the year 1963-64. A sum of Rs. 16,220 was allotted for the purchase of books and stationery for the students and 3,224 pupils were benefited.

Non-Residential Scholarships for Scheduled Castes, Converts and Backward Classes

The Scheme envisages the grant of scholarships to non-residential students of Scheduled Castes, Converts and Backward Classes. A sum of Rs.64,200 was allotted during the year 1961-62 out of which an amount of Rs. 40,188 was spent towards sanction of scholarships. During 1962-63 and 1963-64 Rs. 76,200 and Rs. 80,000 were sanctioned and 7,095 students were benefited.

Midday Meals

The Scheme aims at providing midday meals to the students of Scheduled Castes, Scheduled Tribes and Backward Classes. During the Second Five Year Plan the scheme was confined to the students of the Backward Classes only. An amount of Rs. 24,923 was allotted during the Second Five Year Plan period for midday meals to Backward Class children at schools out of which a sum of Rs. 18,428 was spent and about 418 Children were served midday meals.During the Third Five Year Plan the scheme was extended to the children of Scheduled Castes and Scheduled Tribes also. In the year 1961-62, the first year of the Third Five Year Plan Rs. 4,000 were allotted for midday meals to the children of the Backward Classes and Scheduled Castes. The entire amount was spent and 25,000 pupils were served midday meals. During 1962-63 Rs. 66,110 were sanctioned for this scheme and 40,014 pupils were served with the midday meals. In the year 1963-64 Rs. 30,000 were allotted out of which Rs. 27,211 were spent and 1,70,069 Scheduled Castes pupils were served midday meals.

Subsidised Hostels

There were 82 Hostels in the district during 1961-62 and an amount of Rs. 3,64,064 was allotted to this district for payment of boarding grants to the boarders. The entire amount was spent towards payment of grants to boarders consisting of 2,606 belonging to Scheduled Castes and 150 belonging to Backward Classes.The number of Subsidised Hostels increased to 98 during the year 1962-63 and an amount of Rs. 3,64,139 was spent on boarders comprising 2,273 Scheduled Caste students and 290 Backward Classes students towards payment of boarding fees. During the year 1963-64 the number of the Subsidised Hostels increased considerably to 143 and an amount of Rs. 5,66,179 was allotted. The number of boarders shot up to 3,216 Scheduled Caste students and 310 Backward Classes students.

Dress Making Centre, Vijayawada

The centre was set up during the Second Five Year Plan period at Vijayawada in order to provide training in dress making and an amount of Rs.16,000 was allotted under the Second Five Year Plan. An amount of Rs. 12,569 was spent and 19 persons were trained in the centre. The scheme was found successful and hence continued even in the Third Five Year Plan period. An amount of Rs. 46,860 was sanctioned for the period 1961-64 which was spent on 60 pupils who were trained in three batches of twenty during each of the years.

Vocational Aid

During the Second Five Year Plan period an allotment of Rs. 4,000 was made available under the centrally sponsored scheme to Backward Class people as an aid to run their normal professional occupations. The entire amount was spent and about 30 families were benefited.

Training in Stenography

A sum of Rs. 3,378 was allotted under the centrally sponsored scheme for giving training in stenography to the Scheduled Caste people during the Second Five Year Plan period. 42 students were benefited on account of this scheme.

Health and Housing

Public Health measures are also taken up to improve the health conditions of the Scheduled Castes, Scheduled Tribes and Backward Classes. For this purpose several programmes like construction of new houses, acquisition of land for house sites, grant of loans and subsidies for constructing new houses and repairs to the existing ones, sinking of new drinking water wells, chlorination, laying of wards *etc.*, are also being done. The progress made under these schemes during the Second Five Year Plan and the first three years of the Third Plan is detailed below :

Housing Schemes : The object of the scheme is to provide houses to the needy Scheduled Castes and

to encourage better ways of living. Hence during the Second Five Year Plan period a sum of Rs. 2,25,350 was allotted under grants-in-aid scheme for the construction of houses and two hundered and fifty houses were constructed for Scheduled Castes people. Another sum of Rs. 30,000 was allotted under the centrally sponsored scheme during the Second Five Year Plan for the construction of houses to Scheduled Castes. The entire amount was spent and 30 houses were constructed an amount of Rs. 46,325 was allotted for the construction and repairs to the houses of ex-criminal tribes and the entire amount was spent on the repairs and construction of 735 houses for the said purpose. A sum of Rs. 97,360 was allotted under grants-in-aid scheme and Rs. 2,08,000 under the centrally sponsored scheme during the Second Five Year Plan period for the construction of houses for Scheduled Tribes. An amount of Rs. 3,02,800 out of the above allotment was spent and 593 houses were constructed. During 1961-62, the first year of the Third Five year Plan period, Rs. 15,000 were allotted under grants-in-aid scheme for the construction of 30 houses for the Scheduled Tribes and Rs. 12,500 under centrally sponsored scheme for the construction of 25 houses for the benefit of Denotified Tribes. A sum of Rs. 10,000 was allotted during the year 1962-63 for the construction of 20 houses to benefit Scheduled Tribes people. An amount of Rs. 20,000 was sanctioned in 1963-64 to construct 40 houses for the Scheduled Tribes. The entire amount was utilised accordingly.

Sanitary Amenities

With a view to providing better sanitary amenities in the district Rs. 1,19,096 were allotted under grants-in-aid scheme during the Second Five Year Plan period for the construction of wells and a sum of Rs. 1,10,431 was expended for the excavation of 61 wells. Another amount of Rs. 55,662 was allotted under centrally sponsored scheme during the Second Five Year Plan for sinking wells for the use of Scheduled Castes, out of which Rs. 43,770 was spent to sink 21 wells. Again during the first two years of the Third Five Year Plan *i.e.*, 1961-63 an amount of Rs. 43,295 was sanctioned for the construction of drinking water wells and the entire amount was expended for the construction of 29 wells in the district. During the year 1963-64 an amount of Rs. 18,000 was sanctioned out of which a sum of Rs. 2,850 was distributed to Panchayat Samithis for the execution of the scheme and the remaining amount was spent by the department as a result of which three new wells were taken up during the year.

Besides the provision for sinking 16 wells at a cost of Rs. 37,000 for Scheduled Tribes people during the year 1961-62, the scheme was enlarged by taking under its fold the construction of and repairs to wells, pathways, burial grounds and latrines for Scheduled Castes. An amount of Rs. 28,200 was allotted, which was spent for the construction of four wells, one tank, two platforms and formation of 7 pathways and 3 latrines. During 1962-63 an allotment of Rs. 28,200 was made available for these purposes. The entire amount was spent for the construction of four platforms, one tank, two latrines and formation of 3 pathways. During the year 1963-64 also an amount of Rs. 25,200 was allotted and spent for the construction of and repairs to wells. Out of this amount, Rs. 15,271 were distributed to Panchayat Samithis for execution of works and the remaining amount of Rs.9,729 was kept with the District Social Welfare Department, Krishna. But the entire amount was spent on four well works, two tank works and four platform works. Likewise an amount of Rs. 3,200 was sanctioned for sanitary amenities out of which Rs. 2,500 were distributed to Panchayat Samithis for the execution of work and the remaining to the District Social Welfare Department. The construction of one latrine was taken up during the year 1963-64. To benefit ex-criminal tribes also an amount of Rs. 15,375 was allotted for sinking wells and 6 wells were sunk. During the year 1963-64, as regards drinking water wells to Scheduled Tribes a sum of Rs. 4,859 was sanctioned towards the payment of two spill over works. The entire amount was thus spent.

Supply of clothing

During the Second Five Year Plan period an amount of Rs. 7,000 was allotted under grants-in-aid scheme to supply clothing to the people of ex-criminal tribes and on account of this scheme about 700 people were benefited. A sum of Rs. 3,500 was made available under the centrally sponsored scheme for the supply of clothes to the Scheduled Tribes people and the entire amount was spent on about 350 people as an aid. During the year 1961-62 a sum of Rs. 1,900 was sanctioned and clothes were purchased for the entire amount which were distributed to the Vimuktha Jathi families as sponsored by the central schemes. During the year 1963-64 an amount of

Rs. 800 was allotted for which clothes were purchased and distributed to Vimuktha Jathi families.

Economic uplift

To uplift the economic condition of these Backward Classes, grant of agricultural loans, supply of bulls, seeds and other agricultural implements free of cost, organising cottage industries and co-operative societies are being done. The following are the activities in this regard during the recent past.

Agricultural Aid

During the Second Five Year Plan an amount of Rs. 8,100 was allotted under grants-in-aid scheme for giving aid to the agriculturists belonging to excriminal tribes which was entirely expended to benefit 27 families. An amount of Rs. 15,000 was allotted under the centrally sponsored scheme to agriculturists belonging to Backward Classes and Rs. 33,420 to the Scheduled Tribes which was completely spent on 111 families.

Land Acquisition

During the year 1961–62 a new scheme for the acquisition of land for Scheduled Castes was introduced. A sum of Rs. 51,311 was sanctioned which was spent entirely for acquisition of Acs.28.67 cents and allotting 384 plots out of it, to Scheduled Castes, besides aid for the supply of bullocks, ploughs, carts, *etc.*, at a cost of Rs. 13,200 which was spent on 44 families. Under the centrally sponsored schemes an amount of Rs. 6,000 was sanctioned on account of which 15 families were benefited. Again an extent of about Ac. 20.11 cents land was made available to Scheduled Castes people at a cost of Rs. 52,159 during the year 1962–63; the land was distributed by dividing it into 292 plots. An amount of Rs. 2,02,358 was sanctioned for the year 1963–64, out of which Rs. 1,65,000 were distributed to the Land Acquisition Officers concerned who are Revenue Divisional Officers. The remaining amount was earmarked for the land acquisition case of Bommulur village of Nuzvid taluk.

Supply of Ploughs, Bullocks, Carts, etc.

This scheme, introduced in the Third Five Year Plan, envisages the supply of ploughs, bullocks and carts to the Scheduled Castes, Scheduled Tribes and other Backward Classes. During 1961–62 a sum of Rs. 13,200 was allotted under grants-in-aid scheme and was spent on 44 families. During 1962–63 an amount of Rs. 3,600 was similarly sanctioned for the Scheduled Castes and Rs. 3,200 were allotted under the Central sponsored scheme for the Denotified Tribes, which was spent on 20 families.

Medical Aid

In order to provide medical aid to the people of ex-criminal tribes during the Second Five Year Plan a sum of Rs. 2,015/– was made available. The entire amount was spent and about 50 people were benefited.

Cottage Industries and Industrial Aid

Cottage industries are subsidiary sources of earnings and capable of providing part-time occupations. These industries on account of their ancilliary advantages are of vital importance in any programme of development. Hence during the Second Five Year Plan period a sum of Rs. 7,135 was allotted under grants-in-aid scheme to provide aid to the families of ex-criminal tribes for their cottage industries and 142 families were benefited. Another sum of Rs. 30,800 was also allotted to Scheduled Tribes under the centrally sponsored Scheme for the development of cottage industries. The entire amount was spent and 616 families were benefited. This scheme was continued even in the Third Five Year Plan. Rs. 10,000 sanctioned for the year 1961–62 were spent and about 200 families were benefited. Besides, an amount of Rs. 6,000 was allotted for the year 1961–62 as industrial aid to Backward Classes which amount was spent on 120 families. In 1962–63, an amount of Rs. 1,700 was sactioned to Backward Class people, as industrial aid on account of which about 34 families were benefited.

Co-operative Societies

An amount of Rs. 7,150 was allotted under the centrally sponsored schemes as an aid to Scheduled Tribes to pursue their professions. The entire amount was spent on 143 families.

Propaganda and Publicity

A scheme was envisaged popularly known as propaganda and publicity for Harijan Day celebrations being intended for removal of untouchability, inter-caste dinners *etc.*, in the entire district and was executed through the Tahsildars and Block Development Officers. An amount of Rs. 15,300 was allotted during the Second Five Year Plan period and the entire amount was expended for the specified purpose.

Aid to Voluntary Organisations

An amount of Rs. 1,25,200 was allotted towards aid to voluntary agencies and the entire amount was spent through Harijan Sevak Sangh, Vijayawada.

Women's Welfare

The programmes for the improvement of economic, social and cultural status of women are being implemented by the Women's Welfare Department headed by the Director of Women's Welfare. The programmes include varied activities like adult literacy campaign, cottage industries, rehabilitation of destitute women, child welfare, welfare of tribal women etc. At the district level there is an Assistant Women's Welfare Officer with suitable ancillary staff to implement the programmes. The activities are briefly explained below.

The Office of the Assistant Women's Welfare Officer was first created during the First Five Year Plan period. The Assistant Women's Welfare Officer was in charge of two districts., *i. e.*, Krishna and West Godavari and she was to supervise and check only the Women's Welfare Centres situated in both the districts.

The Department of Women's Welfare assumed greater and new responbilities from 1958 onwards. All the Mukhya Sevikas working in the various Blocks were brought under the control of this department. Consequently the Assistant Women's Welfare Officer became the head of the district and controlling authority in charge of all the Women's Welfare Schemes implemented through the Block agency in the district and ceased to be the controlling officer of two districts as before. The Assistant Women's Welfare Officer is responsible for fixing targets for various Blocks every year and directs and helps the Mukhya Sevikas to achieve the targets. She tours the entire district to effectively supervise the women's welfare activities implemented by the respective Mukhya Sevikas.

Liaison Officer

The Deparment of Women's Welfare was further expanded by posting one Liaison Officer for each district in the State in the year 1961. The Liaison Officer is intended to assist the Women's Welfare Officer both in the office work as well as in the executive work. Therefore, she (Liaison Officer) has to visit different places in the district for about 15 days in every month in order to exercise close supervision over the implementation of the women's welfare schemes in the various Panchayat Samithis in the district.

There were four Women's Welfare Centres started by the Women's Welfare Department during the First Five Year Plan in this district, out of which three were mofussil centres and the fourth was a town branch attached to the Office of the Assistant Women's Welfare Officer and located at Vijayawada. Each centre consisted of one Women's Welfare Organiser, one Maternity Assistant, and a Conductress. But Maternity Assistants are not posted at the centres located in Vissannapet and Vijayawada as adequate medical facilities are available at these two places. The Organiser is in over all charge of the Women's Welfare Centre. She usually conducts basic classes in the morning and then visits houses during which period she takes the opportunity particularly of meeting the mothers of pre-basic class children and also other women who are in distress and need help from this department. She conducts classes for women in the centre again in the afternoons and teaches various kinds of handicrafts, tailoring, fret work, etc. Besides this routine work she conducts monthly meetings and weekly discussions over topics carefully selected for educating women folk in cultural, social, economic and moral aspects.

The main profitable craft adopted by women in all the above centres is tailoring. Every woman is capable of earning on an average a sum of Rs. 15 by stitching clothes for wages on the machines, installed in the centre, for free use of women. A good number of women who have picked up the technique and art of cutting and tailoring were sent as part-time instructresses to the Mahila Mandals of the Panchayat Samithis either in the district or outside the district.

Improvement of the existing schemes

Audio-visual-aids and equipment for conducting practical demonstrations in the Women's Welfare Centres, such as cinema projectors, magic lantern, musical instruments, necessary utensils for conducting cooking demonstrations in dietetics, fret work, machinery and leather work, etc., were purchased. The illiterate women are taught about the various developmental schemes through audio-visual-aids periodically. The correct way of cooking food without depriving the nutritive value and the method

of preserving food stuffs and fruit juices are demonstrated. In addition, different kinds of handicrafts are taught to them with the aid of the equipment and material purchased. The amount sanctioned for this purpose is given below against each year during the period 1959–60 to 1962–63:

	Rs.
1959–60 . .	1,700.00
1960–61 . .	900.00
1961–62 . .	1,000.00
1962–63 . .	810.00

Grant-in-Aid Schemes

This programme was first started during the year 1960–61 according to which, poor and helpless women are rehabilitated by providing them with sewing machines and she-buffaloes on subsidy basis. The amounts sanctioned to this district are shown below year-wise.

STATEMENT IX-1

Year	Amount sanctioned in Rs.	No. of candidates helped
1960–61	900	Six women were helped. Each candidate was granted a subsidy of Rs.150 towards the purchase of sewing machine.
1961–62	1,420	Five candidates received the aid. Sewing machines were sanctioned to three women each at Rs.210 and two women were supplied with she-buffaloes, each at Rs.395.
1962–63	1,000	Five candidates were given a subsidy of Rs.200 each to purchase sewing machines.

Assistance given to candidates in seeking employment

The Women's Welfare Office renders all possible assistance to women candidates who are in need of employment either by way of recommending their cases to other offices within or outside the district or by corresponding with suitable institutions of this department as well as of the Department of Social Welfare for admission and appointment. The cases of about 29 women were recommended during the year 1960, 18 cases during 1961, 30 cases during 1962 and 6 cases during 1963. Some of them were employed as part-time sewing instructresses, Balwadi teachers in various Panchayat Samithis, Gramasevikas, Women Welfare Organisers and some were admitted in to the Service Homes. The following is the statement showing the number of women who secured employment under each category.

STATEMENT IX-2

STATEMENT SHOWING THE NUMBER OF WOMEN EMPLOYED UNDER EACH CATEGORY

	(1)	1960 (2)	1961 (3)	1962 (4)	1963 (5)

Social and Moral Hygiene

District Shelter for Girls, Vijayawada: The district shelter for women was first started at Vijayawada with effect from 6th April 1958. Problematic women having no sheter happen to approach this department for admission. They are temporarily allowed to stay for about six months and during this period their cases are studied by the Superintendent of the Shelter Home and necessary departmental help is rendered to all the deserving cases. There is Provision to accommodate about 25 women but as the duration of their stay is limited, the strength of the home varies from time to time. The sanctioned strength of the establishment is as follows.

1.	Superintendent . .	1
2.	Craft Teacher . .	1
3.	Matron . .	1
4.	Peon . . .	1
5.	Watchman . .	1

The cases recommended by the Superintendent are generally deputed to suitable institutions like Service Homes and State After Care Homes, besides admission to training courses like midwifery, nursery, etc. The number of inmates rehabilitated is as follows.

Year	No. of Women rehabilitated
1958-59	34
1959-60	32
1960-61	39
1961-62	22
1962-63	29

The year-wise allotment and expenditure of the District Shelter Home for girls, Vijayawada is as follows:

STATEMENT IX-3

Year	Allotment	Expenditure
(1)	(2)	(3)
	Rs.	Rs. P.
1957-58	5,000	5,000.00
1958-59	17,650	15,690.97
1959-60	16,650	12,746.31
1960-61	18,470	15,738.19
1961-62	18,875	13,349.10
1962-63	13,675	13,216 37

In addition to all these schemes, the welfare extension project was shared by the District Project Implementation Committee nominated by the Social Welfare Board. The scheme is intended to provide preliminary services for women and children in the rural areas. One project consists of five centres, covering about 25 villages. Balwadi, social education, house-keeping, child care, maternity services and craft training are the programmes conducted by these centres. For each centre, one Grama Sevika, one Midwife and a Craft Instructor are employed while the Mukhya Sevika exercises supervision and guides the activities of the centre.

National Employment Scheme

The Regional Employment Exchange was first started in Vijayawada in May 1945. The primary duty of the Employment Exchange is to supply the man power requirement, within its limits. The names of the persons, who are on the look out for jobs are registered along with all the relevant particulars in the Employment Exchange, so as to assist them to seek some suitable employment. The table given below indicates the number of people registered and employed with the assistance of the Employment Exchange and those waiting for employment assistance at the end of the each year from 1957 to 1961.

STATEMENT IX-4

S. No.	Year	No. registered	No. of people employed with the assistance of the Employment Exchange	No. of people waiting for employment assistance
(1)	(2)	(3)	(4)	(5)
1	1957	8,849	635	5,834
2	1958	9,736	647	6,888
3	1959	8,863	706	7,269
4	1960	9,281	713	7,343
5	1961	10,134	927	8,217

Employment Market Information

In order to assess the employment potential in the country, a scheme known as Employment Market Information came into operation. The object of the scheme is to find out the details of employment like quantity of employment and the surpluses and shortages in the man power requirements. As such the scheme was introduced in the Employment Exchange, Vijayawada from 1st June 1958 with the limited object of finding the employment trends in the Public Sector Establishments and later on from 30-6-1960 extended to the private sector establishments. Once in every quarter information regarding the strength of the establishments, the surplus and shortage of man power requirements, experienced by the respective establishments, is collected from all the establishments in the public sector and from those private establishments employing ten workers and more. The information thus collected from each district is passed on to the State Employment Market information unit located in the Directorate of Employment at Hyderabad which in turn consolidates the report for the State.

All the States send their reports to the Director General of Employment and Training, who finally prepares the report at the All India level. The reports at the district, State and All-India level reflect the man power requirements in the areas related to them. The reports are useful to the planners as well as the public to find out the steps to be taken in future to meet the shortages of particular types in different areas etc. Every establishment is addressed quarterly. The information so

collected from the establishments is tabulated and the quarterly reports are prepared. Following is the number of establishments in the public sector and such of those establishments employing ten persons and more in private sector which are covered by this scheme every year from 1958 to 1961.

STATEMENT IX-5

Year	No. of Establishments	
	Public Sector	Private Sector
(1)	(2)	(3)
1958	84	..
1959	96	456
1960	135	721
1961	143	757

Vocational Guidance

Vocational Guidance means, assistance or help rendered to an individual in the process of choosing a job in harmony with his intrinsic abilities and developed interests. It is not merely sufficient to assist the person to find employment and to know the man power requirements in different parts of the country. It is also necessary to appraise the person in pursuit of the job. Equally important is it to bring about the realisation in the employment aspirant and the school leaving candidate to know his own potentialities and to seek the employment most suitable to him. In other words man power is to be diverted to the right channels. It is with this aim, the vocational guidance unit was introduced in the Employment Exchange, Vijayawada on 15-3-1960.

The functions of the vocational guidance unit in the Employment Exchange are to impart information to the individuals like the job opportunities and training facilities available. The Officer incharge of the vocational guidance unit explains to them the aptitudes and the abilities required for any job. He, in other words, tries to help them in terms of their potentialities on their economic background with relevant occupational information, while answering their queries. If there are any, who wish to discuss more intimately their problems, such cases are dealt with personally by the Vocational Guidance Officer himself in order to solve and provide solution to their problems. This is known as individual guidance. There are three important items of vocational guidance work in the Employment Exchange. The first one is to provide individual information and the second one is guidance to the people in the group at large, while the third is what is known as individual guidance, *i.e.*, to counsel the person individually. The table given below indicates the number of people, who received individual information, group guidance and the individual guidance from 1-3-1960 to 31-12-1961.

STATEMENT IX-6

Period	No. of Persons who received individual information	No. of Persons who received group guidance	No. of Persons who received individual guidance
(1)	(2)	(3)	(4)
1-3-60 to 31-12-60	1,933	4,844	131
1-1-61 to 31-12-61	1,424	3,265	353

Employment Information Bureau, Gannavaram

In order to make it convenient to more people to avail the employment assistance, by registering their names and renewing their registrations and to conduct surveys to assess the additional employment opportunities created on account of the pilot project schemes under Panchayat Samithis, the Employment Information Bureau was opened in Gannavaram Panchayat Samithi on 23-3-1962.

CHAPTER X

PANCHAYAT RAJ

Historical Retrospect

Local Boards were non-existent till the middle of the 19th century when Road Funds were created by an executive order for the up keep of roads, other than trunk roads and important district roads. The Collector and the District Engineer were placed in charge of these works. This arrangement was put on a statutory basis by the District Road Cess Act, 1866, which authorized the levy of a cess of half an anna in the rupee on the rent value of occupied land for the construction and maintenance of local roads.

The origin of the District Boards may be traced to the Local Fund Act of 1871, which was the outcome of the desire on the part of the Government to provide sound elementary education to the masses. The Act made specific provisions for declaring a district or part of a district as a circle and for constituting a Local Fund Board for every such circle, consisting of three or more non-official members, nominated by the Government and an equal number of official members appointed by the Government. The term of office of members was for three years. The non-official members were chosen from among owners or occupiers of lands or persons carrying on business and residing in the circle. The Collector of the district was the Ex-Officio President of the Board situated within his jurisdiction. Some of the important functions of the Board were as follows:

(1) the maintenance of public roads or streets;

(2) management of hospitals, schools, choultries and markets; and

(3) the employment and training of health staff, the inspection of sanitaton in towns and villages and the up-keep of other local works of public utility calculated to promote health and comfort of the people.

The Act authorized the levy and collection of land cess (at the rate not exceeding one anna in the rupee on the annual rental value of all occupied land), house tax (in villages or groups of villages or town-ships in which a school supported by Government grants-in-aid existed) and tolls on carriages, carts or animals making use of the roads within the circle.

Local Self Government as a conscious process of administrative devolution and political education dates back from the final reforms of Lord Mayo's Government. By a Resolution No. 3334, dated 14th December, 1871, the Government of India made over to the Provincial Governments certain Departments of which, education, medical services and roads, deserve particular mention, as they still constitute the principal activities of Local Bodies. The beginnings of a system of Local finances were to be found in the new scheme of provincial finances and many of the present day problems of Local finance *vis-a-vis* provincial finance are similar to those which provinces had to face in their dealings with the Government of India. Lord Ripon's Government desired that provincial Governments should apply to their financial relations with Local Bodies, the principle of financial decentralization which had worked so satisfactorily between the Government of India and the Provinces. The more important services that were entrusted to the Rural Bodies were communications, education and sanitation.

The Madras Local Boards Act, 1884, conferred additional responsibilities on the Local Boards which for the first time came to be known as the 'District Boards' instead of the 'Local Fund Boards'. Under this Act, three classes of Local Boards, came into existence, *viz.*, District Boards, Taluk Boards and Unions. The Unions were of two classes—"Major" and "Minor". The administration of local affairs was vested in the District Boards constituted for each of the revenue districts consisting of and not less than 24 members who might all be appointed by the Government or might be partly so appointed and partly elected by the members of the newly created Taluk Boards from among their members or by the Union Boards and by the taxpayers of the rural parts of the district. The Collector cotinued to be the Ex-Officio President. The Act also provided for the election of the President of the District Boards, from among the members of the District Boards, if the Government so directed. The members were to hold office for

three years. All the Revenue Divisional Officers were made Ex-Officio members. The Local Boards were empowered to levy with the approval of the Government any of the taxes authorised under the Act.

A Taluk Board consisting of a President and not less than 12 members was constituted for each taluk or group of taluks. The term of office of the members was for three years. The Revenue Divisional Officer was made an Ex-Officio member and President of the Board. The Taluk Board funds consisted of one-half of the proceeds of the tax levied by the District Board in the area and transferred to the Taluk Boards by the District Board and other fees such as licence for markets etc., collected within the area of the Taluk Board. The revenues of the District Boards and the Taluk Boards were derived from land cess, from fees for the use of cart-stands, markets, slaughter-houses, etc., and from tolls in the case of the maintenance of roads, bridges and other means of communications. The chief functions of these institutions as has been stated earlier were the construction and maintenance of hospitals and dispensaries, the diffusion of education, the enforcement of measures relating to sanitation and public health and the establishment and maintenance of relief works in times of famine and scarcity conditions.

An Union Board was constituted for a single village or for a group of villages. It consisted of not less than five persons, the headmen of the villages, constituting the Union, being Ex-Officio members. The Board levied house-tax varying from 4 annas to 4 rupees according to the classification of the house. The duties and responsibilities of this Board were the lighting and cleaning of public roads, the maintenance of drains, wells and other public places, the establishment and maintenance of dispensaries and schools etc.

In 1907 the entire subject of Local Self-Government was taken up for consideration by the Royal Commission on Decentralization. The Commission brought to light that the resources of the Local Bodies were not sufficient for the proper discharge of the duties assigned to them. In order, therefore, to make Local Self-Government really effective and responsible, the Montagu-Chelmsford Report suggested that there should be as far as possible complete popular control in the affairs of the Local Bodies and the largest possible independence from outside control. In regard to Rural Boards the report stated that they should have full liberty to improve and alter taxation within the limits laid down by law. It further stated that whenever a board paid for a service, it should also control that service. If it was considered that control should be largely in the hands of the Government, then in such a case the service should be provincialized.

In the Government of India Resolution of the 16th May, 1918, the Government reviewed the question of local self-Government and expressed the view that in order to give effect to the new policy, Local Bodies should be as representative as possible of the people whose affairs they were called upon to administer, the authority in the matter entrusted to them should be real and not nominal and that they should not be subject to unnecessary control but should learn, if necessary, by making mistakes and profiting by them.

With the coming into force of the Government of India Act, 1919, Local Self-Government became a transferred subject and the implementation of the policy and the principles formulated in the resolution of May, 1918, thereupon devolved on the elected members.

Several amending Acts were passed by the State Legislature from time to time with a view to rectifying defects which were brought to light in the working of the Madras Local Boards Act, 1884. In 1920, the State Government thought that it was necessary to have a comprehensive legislation to give effect to the new policy of the Governmet and to consolidate and amend the law relating to the District Boards and this resulted in the passing of the Madras Local Boards Act (Act XIV of 1920). The Act gave an independent status to each class of Local Boards and increased not only their strength but also the proportion of elected members, their resources and their powers. The taxation powers of all the three categories of Local Boards were enlarged. The Boards were authorized to levy the pilgrim tax and also the profession tax on companies and firms. They were given a free hand in framing their budgets. Provision was also made for the appointment of a District Board Engineer and a District Health Officer. The Local Boards thus became more or less autonomous and the Collector and the Government were empowered to interfere only in cases of emergency and maladministation. In the same year, the Madras Village Panchayat Act was also passed with the object of developing the system of Self-Government in rural areas. This Panchayat Act was, however, repealed

in 1930 with the passing of the Madras Act XI of 1930, which amended the Madras Local Boards Act, 1920, and was also comprehensive enough to include even the Panchayats constituted before the repeal of the Madras Village Panchayats Act, 1920. The Madras Local Boards Act, 1920, has been amended since then several times; the Taluk Boards having been abolished in 1934 and the Panchayats having been taken away from the ambit of the Act by the Madras Village Panchayats Act, 1950.

The following paragraphs illustrate in brief the trend in the amendments to the Act of 1920.

Provision was made for taking of oath by members of Local Boards. All roads and public markets were thrown open to all persons of whatever caste or creed. The main changes introduced by the amendment Act of 1930 were:

(i) inclusion of Village Panchayats within the scope of the Act ; conversion of Union Boards into panchayats and the repeal of the Madras Village Panchayats Act, 1920 ;

(ii) abolition of the system of nomination to Local Boards ;

(iii) direct elections to District Boards ;

(iv) general triennial elections to Local Boards;

(v) provision for a vote of no-confidence in Presidents and Vice-Presidents and for the removal of Presidents and Vice-Presidents by Government;

(vi) election of Presidents of District Boards;

(vii) empowering the Government to provincialize the services of officers and servants of Local Boards.

(viii) alteration in the provisions relating to taxes and tolls with special emphasis on the levy of any tax suitable to the village with the sanction of the Panchayat; and

(ix) more effective supervision over the adjudication of disputes between local authorities *interse*, including, in particular, the vesting of power in the Local Government to constitute joint committees of local authorities for the purpose.

The levy of tolls and tax on motor vehicles by Local Boards was abolished in 1931. Specific provision was made for the constitution of District Boards, for altering their jurisdiction and for their abolition. The majority required for the passing of motion of no-confidence in Presidents and Vice-Presidents was reduced from 2/3 to 3/5. Provision was made for the reservation of seats for Muslims and Indian Christians besides members of the Scheduled Castes. The Government took power to appoint District Engineers; Health Officers and Panchayat Officers. The amendment Act of 1934 abolished the Taluk Boards, the Village Development Fund, and made a provision for the splitting up of District Boards. The jurisdiction of Courts to grant injunctions in election proceedings of Local Boards was taken away by the amending Act of 1936. The amalgamation of bifurcated District Boards was made possible by the amending Act of 1937. The Act of 1938 provided for the inclusion of the names of persons found in the electoral rolls of the Madras Legislative Assembly constituencies in the rolls prepared for Local Boards. Failure to pay arrears of any kind due to the Local Boards was made a disqualification for candidates standing for elections or for members continuing in office.

Certain safeguards were provided by the amending Act of 1942 in regard to the removal or the dismissal of Government servants employed by Local Boards. Act X of 1945 increased the rate of land cess leviable by Local Boards from 1½ annas to 2 annas in the rupee. In the same year, provision was made in the Act for the levy of duty on transfers of property in the form of surcharge on stamp duty in respect of immovable property situated in the area under the jurisdiction of Local Boards. The formation of the Highways Department in 1946 resulted in certain amendments to the Act in that year. In 1947 provision was made for the inclusion in the electoral rolls of Local Boards of persons who were qualified to be included but were omitted to be included in the Assembly electoral rolls. The levy of duty on transfers of property in respect of leases in perpetuity of immovable property and exchange of immovable property was made possible by the Madras Act VII of 1950. The Madras Village Panchayats Act, 1950 removed Village Panchayats, from the ambit of the Madras Local Boards Act, 1920, after which the provisions of the latter Act, which formerly related to Panchayats were restricted to non-Panchayat areas. The name of the Madras Local Boards Act was altered into the Madras District Boards Act, 1920. The provision for the, reservation of seats for Muslims, Indian Christians and Europeans in the Act was omitted by the

amending Act of 1951. The Act also limited the total number of reserved seats for the members of the Scheduled Castes, Anglo-Indians and women to one-fourth of the strength fixed for the District Board. By another Act of 1951, the adoption of Madras Legislative Assembly electoral rolls and the alterations thereto for purposes of elections to District Boards was provided for. Certain provisions of the Representation of the Peoples Act, 1950, regarding the conduct of elections were embodied in the Madras District Boards Act by an Act of 1954.

The First Five Year Plan for the country was introduced in 1951. Planning led to an enormous increase in the activities of the Government. Large sums of money had to be spent on various schemes in short periods. It was, therefore, found essential that those who were to be benefited by these schemes should also have a say in their formulation. They must learn to express their felt needs and get them translated into programmes that can be implemented. Thus, the idea of the "Panchayati Raj" slowly began to take shape.

Panchayati Raj in Andhra Pradesh can, however, be said to have had its roots nearly one and a half decades ago. It is based on the Gandhian principle of rural rejuvenation to usher in a balanced development of the countryside. This idea was given effect to by late Sri T. Prakasam, the then Chief Minister of the Composite Madras State by his promulgation of the "Firka Development Scheme" in 1946. This was subsequently converted to "the Rural Welfare Scheme" in 1950. Besides the rural reconstruction work this Scheme also covered Harijan Uplift Programmes as well as the Khadi Schemes. The three-pronged drive that this scheme gave to the economic and social reconstruction of rural life was in the direction of self-help, co-operative approach and State aid. As in all nascent institutions, the issues at the beginning were not so clearly defined and so well crystallised as in the case of the Panchayati Raj institutions, but however, they formed the forerunners of a movement which has now got itself fully entrenched in the institution of the Panchayati Raj.

Community Development Programme

The pattern of Community Development inaugurated on the 2nd of October, 1952 has been gradually modified to suit the needs of our rural communities. The central object of the Community Development Programme was to secure the fullest development of material and human resources of the local areas based on the fact that all aspects of rural life are inter related and that no lasting results can be achieved if individual aspects of it are to be dealt in isolation. The approach was to step up the co-operative principle in its infinitely ranging forms for solving all problems of rural life. The experiment, therefore, in Community Development was started with the introduction of the Community Projects in the wake of the Rural Development Schemes. These projects in a very short period achieved great popularity and people everywhere in other areas started to clamour for similar benefits in their respective villages. On account of these public demands and also considering the limited resources at the disposal of the Government the pattern of Community Projects had to be gradually changed over, to cover similar and lesser expensive projects. These were known as the National Extension Service Blocks each covering an area of about 150–170 square miles and involving an outlay of about Rs. 4.50 lakhs. The normal operational period of each of the N. E. S. Blocks was to be for three years. Any time within that period depending on the performance in the realm of people's participation physical achievement and expenditure, the N.E.S. Block got converted into a Community Development Block with a bigger outlay of Rs. 15 lakhs which also included the expenditure incurred during its N.E.S. stage. In June, 1957 the National Development Council decided that the Block should be treated as an unit for the purpose of planning and development and it should be made the agency through which the resources of the Government should flow to the people.

The study team for Community Development and National Extension Service headed by Sri Balwant Rai G. Mehta recommended certain changes in the pattern of Community Development. The Ministry of Community Development accepted these proposals and accordingly removed the distinction between the different types of Blocks and introduced the two stage system. Stage I was to be the intensive development phase with a provision of Rs. 12 lakhs and Stage II was to be the post intensive phase with a provision of Rs. 5 lakhs. Both stages were to be of a duration of 5 years each. Great emphasis was laid on agriculture, and therefore each Block had to pass through a Pre-Extension stage of one year devoted exclusively to agricultural development. On completion of this Pre-Extension Stage of one year the Block automatically entered the Stage I period.

With a view to achieve economy in expenditure consistent with efficiency in administration, without adversely affecting the tempo of developmental activities, a High Power Committee was appointed in October, 1963 to go into the question of reorganisation of Panchayat Samithi Blocks and Allied matters. Pursuant to the recommendations of the High Power Committee, the then existing 447 Blocks in the State have been reduced to 321. With the reorganisation of Blocks on the lines recommended by the High Power Committee, the distinction between Stage I, Stage II and Post Stage II of the Blocks has disappeared with effect from 1st July 1964.

With the disappearance of schematic budgets of Blocks of various stages, a new and more rational method of distribution of funds has been envisaged. As per the recommendations of the Committee, the Blocks have been categorised as 'Advanced' 'Ordinary' 'Backward' and 'Tribal' Blocks, on the basis of the following criteria with the weightages indicated against each :

		Weightage
(a)	Per capita land revenue assessed within the Block	15
(b)	Percentage of irrigated area to cultivated area	25
(c)	Percentage of children of the Age-group of 6–11 attending Schools	10
(d)	Districtwise-Literacy	10
(e)	District wise National Income	15
(f)	Road mileage for 100 sq. miles within the Block	25

The Community Development and other funds, after excluding establishment charges, are being released to Blocks on a varying per capita basis in inverse proportion to level of development of each Block, so that Blocks which are less developed will get larger funds compared to others which are better off, as shown below :

		Rs. per head of population in the Block.
(a)	Advanced Blocks	3/4
(b)	Ordinary Blocks	1
(c)	Backward Blocks	1 1/4
(d)	Tribal Blocks	2

Decentralisation : Decentralisation of authority and the participation of people in administration have always been considered by great thinkers from the time of Socrates, as the chief embodiments of any democracy. In order that these two essential requisites find place in the fabric of the Indian democracy, on the recommendations of Sri Balwant Rai G. Mehta Committee Team, "Panchayat Samithis" were constituted for each of the Community Development Blocks, wherein the people are provided opportunities for participating in the process of administration. All developmental works beneficial to the community and coming within the ambit of Community Development were entrusted to the people's own elected representatives.

The idea of democratic decentralisation was thus conceived and the nucleus for this revolutionary movement was the age old Village Pancayat. The three tier system in which the Panchayati Raj institutions are linked one with other consisting of the Gram Panchayat with its directly elected Sarpanch and members, the Panchayat Samithi at the Block level with the Sarpanches of Gram Panchayats, the Legislators of the State and six others to be elected in the prescribed manner as its members, and the Zilla Parishad at the district level consisting of the Presidents of all the Panchayat Samithis within the district, the District Collector and the Legislators of the State and the Centre, and six others to be elected in the prescribed manner, was evolved as the institutions in which the people's representatives will have their say in the formulation and execution of policies and programmes would be beneficial to the community. The constitution of Gram Panchayats was, therefore, speeded up in order that the entire rural area comes under one or the other of the Gram Panchayats.

The Andhra Pradesh Panchayat Samithis and Zilla Parishads Act was enacted in 1959 and except the areas within the jurisdiction of the Municipalities in the Andhra area, the areas within the jurisdiction of the City Municipalities in the Telangana area, the areas within the jurisdiction of the Municipal Corporation of Hyderabad and the areas within the jurisdiction of Secunderabad Cantonment Board, the rest of the area constituting the State of Andhra Pradesh was brought under the ambit of this Act.

Panchayat Samithis : The Sarpanches of all the Gram Panchayats in a Block constitute the members of the Panchayat Samithi. Besides, two women members, one representative of the Scheduled Castes, one representative of the Scheduled Tribes, if their population in the Block is not less than 5% of the

total population of that Block and if not, one more representative of the Scheduled Castes, two persons interested in rural development will also be elected as members in the prescribed manner. Apart from these members, the Members of the Legislative Assembly of the State reprsenting a constituency which comprises the Block are also members of the Panchayat Samithi of that Block. A Member of the Legislative Assembly representing a constituency which comprises more than one Block including a portion of any Block will be a member of the Panchayat Samithi of only one such Block which he chooses; and he will have the right to speak in, and otherwise to take part in the proceedings of a meeting of any Standing Committee of such Panchayat Samithi, but he is not entitled to vote at a meeting of such Standing Committee unless he is also a member of that Committee. He will also have the right to speak in and otherwise to take part in the proceedings of a meeting of any Panchayat Samithi or any Standing Committee thereof constituted for the other Blocks comprised within the constituency, but he is not entitled to vote at any such meeting. The Members of the Legislative Council of the State specified by Government as member of the Zilla Parishads will become members of one of the Panchayat Samithis in the District. Such Member of the Legislative Council will be a member of only one Panchayat Samithi in such district; and where he is a registered voter in any Block in such district, he will be a member of the Panchayat Samithi of only that Block; but if he is not a registered voter in any Block in the district, he will be a member of only one Panchayat Samithi of his choice in such district. Similarly the Revenue Divisional Officer, the District Collector and such other officers as the Government may, by order, specify, have got the right to speak in and otherwise to take part in the proceedings of any meeting of a Panchayat Samithi or any Standing Committee thereof functioning within the local limits of their respective jurisdictions but they are not entitled to vote at any such meeting.

The Panchayat Samithi has been placed in complete charge of the implementation of the Community Development Programmes and in addition the Government have also entrusted to it the extension activities of the various development departments of the Government such as Agriculture, Animal Husbandry, Fisheries, Industries, Education, Co-operation, Social Welfare, Women's Welfare etc.

Every Panchayat Samithi has seven Standing Committees each of which has been placed in charge of a few specified subjects. The Panchayat Samithi with the approval of the State Government is empowered to costitute one or more Standing Committees, if necessary, for attending to any specific items of work. All the Standing Committees have independent powers of sanction within specified financial limits and may also execute works and schemes within those limits.

The Block Development Officer is the Chief Executive Officer of the Panchayat Samithi and he is assisted by the Extension Staff. The President of the Panchayat Samithi exercises administrative control over the Block Development Officer for the purpose of implementation of the resolutions of the Panchayat Samithi and its Standing Committees.

Zilla Parishad:-At the district level, there is the Zilla Parishad comprising the Presidents of all the Panchayat Samithis in the district, the District Collector, the Members of the Legislative Assembly of the State elected from the district, such members of the Legislative Council of the State as the Government may by order specify, the Members of the House of the People elected from the constituency which forms part of the district, and such Members of the Council of States as the Government may by order specify. Two women, one representative of the Scheduled Castes, and one representative of the Scheduled Tribes if their population in the district is not less than 5% of the total population of the district and if the population of the Scheduled Tribes is less than such percentage, another representative of the Scheduled Castes, two persons interesetd in Rural Development have to be elected by the above categories of members in the prescribed manner.

The Chairman and the Vice-Chairman are to be elected by the members from among the non-officials who are not Legislators. The President of any Panchayat Samithi, if elected as the Chairman of the Zilla Parishad, will automatically cease to be the President of that Panchayat Samithi but his right of membership on the Panchayat Samithi, will not be affected. A Secretary, appointed by the Government, functions as the executive head of this organisation. He is entitled to attend the meetings of the Zilla Parishad or any of its Standing Committee meetings, and can take part in discussions, but is not entitled to vote. Like the Panchayat Samithis the Zilla Parishad also functions through its

seven Standing Committees. In addition to these seven Standing Committees, the Zilla Parishad may, with the approval of the Government, constitute one or more Standing Committees, if necessary, for specified purposes. The Chairman of the Zilla Parishad and the District Collector are ex-Officio members of all Standing Committees while the remaining members are to be elected in the prescribed manner by the members of the Zilla Parishad from among themselves. The District Collector is the Chairman of all the Standing Committees. The President or Chairman of the District Co-operative Bank or the Central Bank and the President of the District Marketing Society in the district have the right to speak in and otherwise to take part in the proceedings of any meeting of the Zilla Parishad but are not entitled to vote at any such meeting. The District Officers of various development departments, Regional and State Officers in charge of development activities who are specified by the Government by an order, have the right to speak in and otherwise to take part in the proceedings of any meeting of the Zilla Parishad or any Standing Committees thereof functioning within the local limits of their respective jurisdictions but they, however, have no right to vote.

The Zilla Parishad co-ordinates and consolidates plans prepared in respect of all the Blocks in the district and prepares plans in respect of the entire district and supervises generally the activities of the Panchayat Samithis in the district. It also examines and approves the budgets of the Panchayat Samithis in the district.

The chief sources of finance for the Zilla Parishad are the Central and the State Government funds allotted to it; grant from All India Bodies and Institutions for the development of Cottage, Village and Small Scale Industries; such share of the land cess or local cess, State taxes or fees as may be prescribed; proceeds from taxes or fees which the Zilla Parishad may, under any law, levy; income from endowments or trusts administered by the Zilla Parishad; such income of the District Board as the Government may, by order, allot to it; donations and contributions from Panchayat Samithis or from the public in any form; and such contributions as the Zilla Parishad may levy from the Panchayat Samithis with the previous approval of the State Government.

Growth of Community Development Programme in the District:

The Community Development Programme was first started in Krishna district in the year 1954 Nuzvid and Tiruvur National Extension Service Blocks were the first to be started in this district on 4th April, 1954. Nuzvid N.E.S. Block was converted into a Community Development Block on 1st April, 1956. During 1956–57 four more N. E. S. Blocks *viz.*, Veeravalli, Mylavaram, Gannavaram and Kanchikacherla were inaugurated (two on 1st April, 1956 and another two on 2nd October, 1956) and Tiruvur N.E.S. Block was converted into a Community Development Block on 1st April, 1956. These six Blocks that were functioning on 31st March, 1957 by the end of First Five Year Plan covered 371 villages having a population of 4,81,474 persons and an area of 1,363.64 sq. miles. The programme was intensified during the Second Five Year Plan Period. Four N.E.S. Blocks *viz.*, Kalidindi (later known as Kaikalur), Gudur, Nagayalanka (later known as Avanigadda) and Bantumilli were constituted during 1957–58 (one on 1st April, 1957 and three on 2nd October, 1957). As the pattern of Community Development Programme was changed from April, 1958 in the State based on the recommendations of Sri Balwant Rai G. Mehta's Committee the new classification of Pre-Extension, Stage I and Stage II Blocks emerged and the existing Blocks referred to above were reclassified under new pattern. The eight N.E.S. Blocks were classified as Stage I Blocks while Nuzvid Community Development Block was classified as Stage II Block. Tiruvur Community Development Block was continued in the same status. Nuzvid Block was bifurcated into Nuzvid and Musunur Blocks. Motur Stage I and Nandigama Pre-Extension Blocks were inaugurated on 1st April, 1958. During 1959–60 Tiruvur Community Development Block and Nandigama Pre-Extension Block were classified as Stage II and Stage I Blocks respectively. Vissannapeta Stage II Block and Mandavalli and Penuganchiprolu Pre-Extension Blocks were inaugrated on 1st April, 1959 During 1960–61 two more Pre-Extension Blocks *viz.*, Jaggayyapet and Challapalle Pre-Extension Blocks were inaugurated. The former was inaugurated on 1st April, 1960 and the latter on 2nd October, 1960. Mandavalli and Penuganchiprolu Pre-Extension Blocks were upgraded into Stage I Blocks in the same year. Thus by the end of March, 1961 *i.e.*, by the end of the Second Five Year Plan there were in all 18 Blocks in Krishna district covering 880 villages with a population of 10,60,665 persons and an area of 2,663.91 sq. miles. During the Third Five Year Plan period the Community Development Programme further gained momentum. The following statement gives the particulars regarding the date of

inception, stage on 1st April, 1961, number of villages covered and the area of each Block in the district.

STATEMENT X

Sl. No.	Name of the Block	Date of inaugration of the Block	Stage (as on 1-4-61)	No. of Villages in the Bolck	Area (in sq. miles)
(1)	(2)	(3)	(4)	(5)	(6)
1	Veeravalli	1- 4-56	Stage I	46	87.54
2	Gannavaram	2-10-56	do	46	131.70
3	Mylavaram	1- 4-56	do	53	275.72
4	Kanchikacherla	2-10-56	do	41	139.74
5	Kaikalur	1- 4-57	do	39	129.15
6	Gudur	1- 4-57	do	50	121.25
7	Avanigadda	2-10-57	do	27	182.96
8	Bantumilli	2-10-57	do	65	172 44
9	Moturu	1- 4-58	do	51	102.86

2 Community Development Programme Reports of Andhra Pradesh 1956-57 to 1960-61

During the reorganisation of the Community Development Blocks taken up in 1964 all the above 18 Blocks have been redistributed as per the orders issued in G.O.Ms. No. 532, Panchayati Raj (Samithi-I) Department dated 15-5-1964.

The Panchayat Samithis were first constituted in the district on 1st November, 1959 and the Zilla Parishad was constituted on 1st December, 1959 on a statutory basis. Therefore, with the introduction of democratic decentralisation set up at the District Block and Village levels, the responsibility and initiative in economic and social development in rural areas are vested with the popular institutions the Zilla Parishad at the district level and Panchayat Samithi at the Block level and the Village Panchayat at the Village level. The people are also getting themselves educated in the proper functioning of these institutions. Their interest is quite evident from the Panchayat elections held in the district in 1964.

CHAPTER XI

GAZETTEER

BANDAR (MASULIPATNAM) TALUK

Bandar (Masulipatnam) taluk which has recently been renamed as Machilipatnam taluk lies between 81° 5′ and 81° 35′ of the eastern longitude and 15° 55′ and 16° 20′ northern latitude and is surrounded on the north by Kaikalur taluk and Bheemavaram and Narsapur taluks of West Godavari district, on the east and south by Bay of Bengal and on the west by Divi and Gudivada taluks. The headquarters of this taluk *viz.*, Bandar (Masulipatnam) is also the headquarters of Krishna district and contains the usual district offices. The total area of the taluk is 342.8 square miles and the population is 267,451 persons (136,120 males and 131,331 females) according to the 1961 Census. There are 112 inhabited villages and 3 uninhabited villages in this taluk besides the two towns Bandar (Masulipatnam) and Pedana. The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	5
200 – 499	17
500— 999	37
1,000—1,999	29
2,000—4,999	21
5,000—9,999	3
10,000 and above	..
Total inhabited villages	112

The three villages having more than 5,000 population are Gudur (5,409), Mallavolu (5,333) and Chinagollapalem (5,366).

This taluk has a temperate climate and receives rainfall both in the south-west and north-east monsoon periods. The rain fall will generally be normal.

There is only a small Reserve Forest area in this taluk and it lies in Bandarkota, Pallethummalapalem and Pedapatnam. More than half of the taluk contains black soil; about one-fourth is sandy and the rest saline.

The entire taluk is served by Krishna Anicut system for irrigation purposes. East Bank canal, Bandar Canal, Pulleru Canal and Bantumilli Canal supply water for irrigation in the taluk from the Krishna Anicut. Gunderu drain, Lajjabanda drain, Pedalanka drain and Mangaleru which take their origin in the upper reaches of the district pass through this taluk before finally falling into the Bay of Bengal.

As regards communication facilities the taluk is served by rail, road and canals. The Guntur-Masulipatnam Broad Gauge Railway line of the Southern Railway runs through this taluk with its stations at Masulipatnam, Chilakalapudi, Pedana, Nadupur and Vadlamannadu. The Masulipatnam-Hyderabad Highway and Masulipatnam-Tiruvur Highway cover about 10 miles and 12 miles respectively in this taluk. Masulipatnam–Nagayalanka, Masulipatnam-Manginapudi, and Pedana-Bantumilli Roads are some of the important metal roads in this taluk. The existing communication facilities are not adequate as a number of villages are yet to be connected with the roads.

There is a district Headquarters Hospital at Bandar (Masulipatnam) besides a good number of private medical practitioners. There is a Local Fund Rural Dispensary at Pedana while Primary Health Centres exist at Bantumilli and Gudur. As regards drinking water facilities only Bandar City has protected water supply system. The rest of the taluk population has to depend upon wells and tanks. In the coastal area the people find it very difficult to get drinkable water and the people entirely depend on tank water for drinking purposes and potable water could not be tapped even when attempts were made to sink wells.

The taluk has good educational facilities. There are two Colleges *viz.*, the Hindu College and the Andhra Jatiya Kalasala besides a private Civil Engineering College at Masulipatnam and an Oriental Sanskrit College at Chittigudur. There are twelve High Schools including three High Schools for girls, three Middle Schools and one Government Secondary Training School for men in the taluk. Most of the villages have Elementary Schools.

In the industrial sector, the Andhra Scientific Company, Limited, Masulipatnam that manufactures scientific goods on a large scale is an important establishment in this taluk. The goods produced by this concern are largely used in the laboratories of educational and research institutions. Among the cottage and small-scale industries in the taluk, weaving is the major cottage industry. The sarees woven at Pedana have a good market even in distant places. The dyeing industry familiarly known as the Kalamkari industry in this taluk is another important cottage industry at Masulipatnam. Manufacture of salt is a major cottage industry in the coastal villages of this taluk. Weekly shandies are held at Pedana, Bantumilli and Chinagollapalem and sundry articles are generally sold in these shandies. At Pedana dried fish are sold in large quantities.

Sri Nageswaraswami Utsavam on Mahasivaratri in the month of Magham at Kruttivennu village, Sri Pandurangaswami Utsavam in Kartikam at Chilakalapudi, Sivagangammavari Utsavam in Chaitram at Bandar and Paidemma Utsavam in Margasiram at Pedana are some of the important festivals in this taluk.

A detailed account of the towns and some of the other important places in this taluk is given below :

Bandar (Masulipatnam) : which is recently renamed as Machilipatnam is situated on the coast of Bay of Bengal and is a first grade Municipality with a population of 101,417 persons. The city extends over an area of 9·60 square miles and has 15,899 occupied residential houses. The density of population at the 1961 Census is 10,564 persons per square mile. It is the head-quarters of Bandar taluk and of Krishna district. The city comprises Bandar, Chilakalapudi and Machavaram villages. Almost all the district offices are located here. It is the head-quarters of the Andhra Bank. The importance of Bandar has considerably, increased with the development of trade, commerce and transport facilities. The sea shore is connected by a Railway line and a metal road. Iron ore is the important item of export to Japan and other countries from this minor sea port. As regards industries the, Andhra Scientific Company Limited, is the major industrial establishment in this city. It manufactures goods largely used in labaratories of educational institutions and has over 35 years standing. Rice milling is also an important industry and the city contains a number of rice mills. The State Bank of India and Bharat Lakshmi Bank Limited are the important banks in this city. There is protected water supply in this city. There are two Arts Colleges namely, the Hindu College and the Andhra Jatiya Kalasala. Besides these, there is an Oriental (Sanskrit) College at Chittigudur village of this taluk and a private Civil Engineering College. There are eight High Schools of which three are solely for girls and a Government Training School for men. The Noble High School also provides Teachers' Secondary Training course for men. Lady Ampthil Government Higher Secondary School and Sharkey Memorial High School provide Teachers' Training Course for women. Sivagangammavari Utsavam on Chaitra Suddha Purnima at Bandar and Sri Pandurangaswamy Utsavam from Karthika Suddha Dasami to Karthik Purnima at Chilakalapudi are some of the important festivals of this place.

Pedana—is an old town which has been recognised as an urban unit since 1921. It is a major panchayat with a population of 15,033 Persons at the 1961 Census The town is situated at a distance of five miles from Masulipatnam and extends over an area of 4·97 sq. miles. The density of population in the town is 3,025 persons per sq. mile. It is a Railway Station on Masulipatnam-Guntur broad gauge line. The chief industry of this town is weaving and it is an important and famous place for handloom sarees which are popular and command a good market at several places in the country. The Paidamma Utsavam in Margasiram is an important festival which attracts large crowds. There is a Sub-Registrar's Office, a Panchayat Office, a Police Station and a Post Office with telephone and telegraph facilities in this place. The village is having a Local Fund Rural Dispensary and a First Aid Centre. A weekly market is held here on every Friday. There is a Zilla Parishad High School in this town.

Chinagollapalem—is the second largest village in the taluk with a population of 5,366 persons as per the 1961 Census. It is situated on the shore of the Bay of Bengal in the north-east corner of the taluk where the big drain Upputeru joins the Bay of Bengal. The people of this village live by sea fishing. Agriculture is not profitable as the soil is mostly suitable for dry crops and further irrigation is largely dependent on the whims and fancies of rain and

rain fed sources. Coconut and casuarina are grown along the seacoast. The village is not facilitated either with road or rail communications. It has a Middle School, a Local Fund Rural Dispensary, a Branch Post Office and a Choultry.

Gudur —is the largest village in the taluk with a population of 5,409 persons at the 1961 Census count. The Village is situated on Masulipatnam-Hyderabad Road at a distance of five miles from Masulipatnam city. It is the headquarters of both a firka and a Panchayat Samithi. The main occupation of the people in this village is agriculture. Canals form the main source of irrigation and so wet crops are normally raised here. There is a High School, a Block Development Officer's office, a Veterinary Hospital, Post Office and an office of Inspector of Schools. The Village contains a temple and an old mosque which are preserved under the Ancient Monuments Act.

2. DIVI TALUK

Divi taluk with headquarters at Avanigadda is bounded on the north by Gudivada and Gannavaram taluks, on south by Bay of Bengal, and on the east by Bandar and on the west by one branch of the Krishna river. The taluk is situated on the coast of Bay of Bengal. It can be divided into two portions *i. e.* island and main land. The island portion of the taluk lies in between the two branches of Krishna river. Upto 1936, the lands in the island portion were irrigated by the Divi pumping system, located at Puligedda and in the same year Puligedda aqueduct was constructed over the left branch of the Krishna river. The Krishna East Bank Canal water flows through the trough across the river into the island and is now irrigating the island portion. In the past the main land was entirely a proprietary area called the Devarakota Estate. But it was taken over in the year 1949 under the provisions of Madras Estates Abolition Act, 1948 and the settlement was introduced in the year 1958. The irrigation of the main land is carried out mainly under the Krishna East Bank and Bandar Canal systems.

The taluk extends over an area of 464.9 sq. miles with a density of 517 persons per sq. mile. The total population of the taluk as per 1961 Census count is 240,524 persons (121,638 males and 118,886 females). There are 95 inhabited and 2 uninhabited villages. The only town in this taluk is Avanigadda, the taluk headquarters.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	3
200—499	4
500—999	20
1,000—1,999	23
2,000—4,999	36
5,000—9,999	9
10,000 and above	..
Total inhabited villages	95

The 9 villages having more than 5,000 population are Challapalle (7,869), Lakshmipuram (6,764), Pedakallepalle (6,148), Koduru (8,054), Nagayalanka (6,310), Nidumolu (5,036), Kaza (7,018), Ghantasala (8,795) and Srikakulam (5,573).

There are seven Revenue Firkas in this taluk and the area is covered by two Panchayat Samithis (Avanigadda and Challapalle) and one Pre-Extension Block area (Kuchipudi). The River Krishna flowing on the western side separates the Krishna and Guntur Districts. The left and the right branches of Krishna river which are divided at Puligedda join the Bay of Bengal at Hamsaladivi and Elichintaladibba respectively.

The average rainfall in this taluk is 1168.4 m.m. and the climate can be said to be good. Mostly the soil of this taluk is black cotton soil. Recently many G. M. F. and Krishna Barrage Schemes were taken up and many of the waste lands have been brought under irrigation. The Gunderu drain flowing on the main land receives floods during the rainy season and it is responsible for submerging large areas in some villages of this taluk and in Bandar taluk, as it is not capable of emptying the drainage water into the sea. A tidal wave bund was put up in 1951 along the sea coast to prevent sea water which spoils the islands. Thus this taluk suffers inundation during the rainy season.

As regards the medical facilities, there is a Taluk Headquarters Government Hospital at Avanigadda, equipped with 14 beds. Avanigadda Panchayat Samithi opened a Primary Health Centre at Kodur. There is one Raja's Hospital at Challapalle. In addition to this there are 7 Rural Dispensaries at Koduru, Pedakallepalle, Nidumolu, Nadakuduru, Nagayalanka, Pittalanka and Ghantasala.

The taluk does not have any rail communications but is having good road communications. Avanigadda and Challapalle are equipped with telephone and telegraph facilities.

As regards educational facilities there are 14 Zilla Parishad High Schools besides two private managed High Schools at Pedakallepalle and at Challapalle respectively. Most of the villages have Primary Schools. There is also a Canadian Baptist Mission Higher Elementary School at Avanigadda.

There is a sugar factory called "Challapalle Sugars Ltd." at Lakshmipuram functioning on large scale basis. In respect of cottage industries, tape weaving at Machavaram and basket manufacturing with palmyra leaves at Mandapakala deserve mention.

Weekly shandies are held at Avanigadda, Nagayalanka, Koduru and Challapalle. Mahasivaratri at Pedakallepalle, Mukkoti Ekadasi (Vaishnava Ekadasi) and Vaisakha Purnima at Srikakulam, Sri Subrahmanyeswara Shashti at Mopidevi, Nancharamma Tirunala at Viswanadhapalle and Pedaprolu Magha Purnima at Hamsala Divi and Ganapeswaram, and Lankamma festival at Avanigadda are some of the important festivals in this taluk. A detailed account of some of the important places in this taluk are given below.

Avanigadda—a Panchayat, is the headquarters of Divi taluk. It has a total population of 11,949 and is extended over an area of 5·19 sq. miles. In all it has 2,162 occupied residential houses. The density of population is 2,302 persons per sq. mile.

Avanigadda is the only place declared as town in Divi taluk. It lies between two arms of the Krishna river. The construction of an aqueduct over the river has greatly facilitated the transport facilities to this place. It is well connected by a Highway Road to Bandar, Nagayalanka and Gudivada. It is also a junction for Nagayalanka and Koduru roads, Bandar is the nearest Railway Station in this taluk. Being the headquarters of a taluk, the town is having almost all the offices, that are essential to run the administration, like the Taluk Office, a Sub-Registrar's Office, a Second Class Magistrate's Court, a B.D.O's Office, a Panchayat Office and an Office of the Deputy Inspector of Schools. As regards the medical facilities there is one Government Hospital equipped with 14 beds besides several private hospitals. For the benefit and improvement of the livestock there is one Minor Veterinary Hospital. There is a Police Station and a Sub Post Office with telephone and telegraph facilities.

The bulk of the irrigated area in this town is served by the Krishna East Bank Canal which is taken by means of a trough aqueduct over the Krishna river at Puligedda. Wet paddy is the chief food crop raised here. Garden crops are also raised suiting the demand in the market. A weekly market is held here on every Wednesday. Plantains, plantain leaves, mangoes are the main commodities which are exported to other places. There is a Zilla Parishad High School and the town enjoys a Travellers' Bungalow, a Reading Room and a Panchayat Park. Besides these there is a cinema hall. Avanigadda is also the headquarters of a firka.

Nidumolu—is a fairly big village with a population of 5,036 persons according to 1961 Census. The village is situated on the Vijayawada–Masulipatnam road about eight miles from Bandar and is the headquarters of a firka. It extends over an area of 7.47 sq. miles. Nidumolu is best known as a paddy producing centre and irrigation is facilitated by canals under Krishna Anicut system, which provides assured supplies of water. Therefore, all the surplus rice produced is exported from this place. In this village there is a Rural Dispensary, a Sub-Post Office, a Choultry and a Zilla Parishad High School.

Challapalle—is the headquarters of both the Block and Firka. It is situated on the road running from Nagayalanka to Bandar and is 16 miles away from Bandar. The village was also the headquarters of the ex-Zamindar of Devarakota estate and there is a big Zamindari palace. The Zamindari family has established a sugar mill in Lakshmipuram two miles from Challapalle. Wet paddy is the main crop raised here and rich variety of sugar cane is also reaped. A weekly shandy is held on every Monday. There is a Post Office, a Telephone Office, a Police Station, a Health Office and a Sub-Registrar's Office. There is also Rajah's Hospital to provide medical aid and a Government Veterinary Hospital to protect and maintain livestock. Spinning and weaving is the chief small scale and subsidiary industry for the people in this village. The village enjoys a High School and a Public Reading Room. A well furnished Travellers' Bungalow maintained by the Highways Department is an asset to this village.

Kaza—is fairly a big village with a population of 7,018 persons as per the 1961 Census. The village extends over an area of 9.60 sq. miles and in all it has 1,373 occupied residential houses. The main stay of the people in this village is agriculture. The Krishna Anicut system provides irrigation facilities. In this village there are 994 cultivators and 1,720 agricultural labourers. Wet paddy is the chief crop grown in this area. The village is in the interior and as such it has no communications during rainy season. Therefore trade and transport are facilitated by boats plying in the Ainampudi drain. There is a Rural Dispensary, a Reading Room and a Sub Post Office with a Public Call Office. The village has also a High School.

Koduru—is the second largest village with a population of 8,054 persons as per the 1961 Census. The village is about eight miles away from Avanigadda, the taluk headquarters, and extends over an area of 8·60 sq. miles. In all it has 1,683 occupied residential houses. Koduru, to its credit is the headquarters of a Firka. The village is served by Krishna Anicut system which provides assured supplies of water and facilitates boat traffic and hence, agriculture is not a gamble on the monsoon. The main stay of the people in this village is agriculture. The village is connected by a metal road from Avanigadda which terminates at Koduru. There is a Police Station, a Sub Post Office, a P.W.D. Rest House and a Veterinary Dispensary. It is having a Rural Dispensary and a Maternity Child Welfare Centre. The Village enjoys a High School and a Reading Room. The sea is about 10 miles from this place. A weekly shandy is held here on every Friday.

Ghantasala—situated five miles from Kuchipudi, is the largest village in the Divi taluk with a population of 8,795 persons. The main stay of the people in this village is agriculture. The village is extended over an area of 4.67 sq. miles and has 1,691 occupied residential houses. During the period when Buddhism flourished, Ghantasala was an important religious centre. Even now there are ancient Buddhist relics to speak of its past glory. The village Ghantasala was earlier aport by name 'Kantakanala' and was a halting place to the Buddhist pilgrims and merchants going from Kalinga to Ceylon. In the 8th century also Ghantasala maintained relation with Far East both in trade and religion. Due to the diversion of the river Krishna, the glory of Ghantasala faded away and the areas were annexed to Kakathiya Empire.

There is a Rural Dispensary, a Veterinary Dispensary, a Sub Post Office, a Panchayat Reading Room,and a Zilla Parishad High School.Some of the people of this village are also profitably employed in handloom industry.

Srikakulam—is a big village with a population of 5,573 persons as per the 1961 Census and is situated about five miles from Kuchipudi. Srikakulam was once the capital of the Andhra empire. The Andhra King Gautamiputra Satakarni (A. D. 102–123) ruled over the whole country watered by the rivers Kirshna and Godavari and the Andhra rule lasted in the district till its close. Their capital on the east coast was first at Srikakulam on the Krishna, 19 miles west of Masulipatnam, but afterwards it was shifted to Dharanikota near Amaravathi. Thus Srikakulam had a hoary past.

The village extends over an area of 10.95 sq. miles and in all it has 959 occupied residential houses. The main stay of the people of this village is agriculture. The Krishna Anicut system supplies water for irrigation purposes. Paddy is the chief wet crop raised.

There is a Rural Dispensary and a Sub Post Office. The village has two Zilla Parishad High Schools.

Pedakallepalle—with a population of 6,148 persons at the 1961 Census occupies an area of 8.70 sq. miles and has 1,185 occupied residential houses. Pedakallepalle is situated 7 miles from Avanigadda. It is famous as an important pilgrimage centre. There is Sri Durga Nageswaraswamy temple which is famous and sacred. Thousands of people gather at this place and take bath in the river Krishna and offer prayers to the deity every year on Mahasivarathri day. The car festival is celebrated with much pomp and splendour and attracts large crowds of pilgrims.

The mainstay of the people in this village is cultivation. The Krishna Anicut system provides assured irrigation facilities. Paddy and Sugarcane are the two important crops raised here. There is a Rural Medical Dispensary and a Branch Post Office. The village has a High School.

Nagayalanka—with a population of 6,310 persons according to the 1961 Census count, extends over an area of 4.86 sq. miles. In all it has 1,081 occupied residential houses. The people in this village live not only by agriculture but also by fishing. This place is famous for the export of dry fish as

the village is situated adjoining the River Krishna and is at a distance of about five miles from Avanigadda, the taluk headquarters.

Nagayalanka is served by the Krishna Anicut system which affords never failing water supply for the purpose of irrigation. Here both wet and dry crops are raised. A weekly shandy is held on every Sunday. There is a Sub-Registrar's Office, a Sub-Post Office and a Zilla Parishad High School.

Lakshmipuram—is a fairly big village with a population of 6,764 persons according to the 1961 Census and extends over an area of 5.93 sq. miles. It has 1,459 occupied residential houses and is 2 miles away from Challapalle. Agriculture is the main occupation for the people of this village although hundreds of workers are engaged in the Sugar factory. Wet paddy and sugarcane are the two important crops raised. The village is served by Krishna Anicut system.

Hamsala Divi—situated about fourteen miles from Avanigadda, the taluk headquarters, is an important religious centre. There is the famous Sri Venugopalaswamy Temple located here. Thousands of pilgrims gather here on Magha Purnima day every year. It is here that river Krishna finally falls into the Bay of Bengal The pilgrims take their bath in the Bay of Bengal and offer prayers to the deity. It is considered as a sacred place of pilgrimage.

3. GANNAVARAM TALUK

The taluk is surrounded on the east by Gudivada taluk and West Godavari district, on the south by Divi taluk, on the west by Vijayawada taluk and Krishna river and on the north by Nuzvid taluk. The river Budameru cuts the taluk almost into two. The G. N. T. road separates the upland and delta portions of the taluk. The major part of the taluk is irrigated under the Krishna anicut system through the Eluru, Ryves, Pulleru, Bandar and East Bank Canals which are also fit for navigation for a period of ten months in a year. Tanks and wells are also helpful sources of irrigation in the uplands. About 95,239 acres are irrigated under Krishna delta system and 18,383 acres under tanks. The uplands will be covered by Nagarjunasagar Project when its second phase is completed. The river Budameru carries the drainage water into Kolleru lake. The main soils of this taluk are red loamy for all villages north of Eluru Canal, black regar to the south of Eluru Canal upto the river Krishna and rich alluvial in river side villages adjoining the river Krishna. Wet paddy is the main food crop raised in this taluk. As the delta area is served by the Krishna anicut system the taluk is not generally liable to famine. The forest area in this taluk is only about 6,226 acres in the northern part. The average rainfall of the taluk is about 35·25 inches. The maximum temperature of this taluk goes upto 120° F. and minimum to 50° F.

In respect of communications the taluk is advancing rapidly. There is a Civil Aerodrome at Gannavaram, and a regular bi-weekly air service by the Indian Air Lines Corporation is provided to Hyderabad and Visakhapatnam. The canals in this taluk provide inter water communications. Two railway lines *viz.*, Masulipatnam-Guntur line and Waltair–Madras line both Broad Gauge, run through this taluk. The G. N. T. Road passes through this taluk. It is well connected by roads leading to Vijayawada, Nuzvid, Masulipatnam and Tiruvur on which buses ply regularly. There are 116 inhabited and 7 uninhabited villages and two towns *viz.*, Gannavaram and Vuyyur in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	5
200–499	12
500–999	31
1,000–1,999	32
2,000–4,999	30
5,000–9,999	6
10,000 and above	..
Total inhabited villages	116

The 6 villages having more than 5,000 population are Manikonda (5,478), Katur (5,923), Kanumolu (5,269), Vedurupavulur (5,463), Telaprolu (6,555), and Kapileswarapuram (6,035).

As regards the medical facilities there is a Government Dispensary at Gannavaram, the taluk headquarters, and a Primary Health Centre at Peda Avutapalle. Besides these, there are several Rural Dispensaries and private Clinics. There are no Colleges in this taluk but it contains many High Schools besides a Training School for Women at Gannavaram. The taluk has a fairly big Sugar Factory K. C. P. Limited at Vuyyur which is functioning on large scale basis. In respect of small scale industries the leather industry

at Kesarapalle and carpentry and smithy workshops at Gannavaram are important. Every year Sivaratri festival at Ilur, Veeramma Tirunala at Vuyyur, Rangamma Perantalu festival at Telaprolu are celebrated.

Gannavaram—a Major Panchayat, is the headquarters of the taluk by the same name. It has a population of 6,702 persons according to the 1961 Census count. The town extends over an area of 5·70 sq. miles and the density is 1,176 persons per square mile. Being the headquarters of the taluk it is well connected by buses which ply to all important places such as Eluru, Vijayawada, Masulipatnam and Medur. It is also a Railway Station on Waltair–Madras line (Broad Gauge) of the Southern Railway. There is a Taluk Office, a Block Development Office, a Sub Registrar's Office, a Commercial Tax Office and an Agricultural Demonstrator's Office in this place. It contains a Government Hospital, a Veterinary Hospital, a High School, and a Training School. Further it contains a Civil Aerodrome in Kesarapalle village limits. Gannavaram is treated as town for the first time in 1961. There is a Leprosy Hospital at Kesarapalle.

Vuyyur—a Major Panchayat, with a population of 14,489 persons as per the 1961 Census count, covers over an area of 5·18 square miles. The density of population is 2,797 persons per square mile. The place is more densely populated than Gannavaram and has 2,668 occupied residential houses. This is the firka headquarters of Vuyyur and an industrial centre. There is a Sugar Factory called K.C.P. Ltd., with distillery and confectionary attached to it. Soda gas is also being manufactured here. Large number of workers are employed in these industries. Thus the town reveals an industrial character with bright prospects.

There is a deity popularly known as Veeramma in this place. Every year a festival is observed in honour of this deity. Large number of people gather during the festival which lasts for about a fortnight.

Vedurupavulur—is a fairly big village and supports a population of 5,463 persons as per the 1961 Census count. The village extends over an area of 10.95 square miles and in all it has 1,128 occupied residential houses. It is the headquarters of Vedurupavulur firka. The village is accessible by Kesarapalle–Mustabad road on which buses ply regularly. It is a Railway Station on Madras–Calcutta line (Broad Gauge) of the Southern Railway.

Cultivation is the main occupation for a very large section of people. Among the workers 565 are cultivators and 1,106 are agricultural labourers. Irrigation here is facilitated by Eluru Canal under the Krishna Anicut system but the chief crops grown are commercial crops like tobacco and chillies which are grown on large scale. There is a Panchayat Office, a Central Excise Office and a Sub Post Office with telephone facilities. The village has a Zilla Parishad High School.

Kanumolu—a big village, with a population of 5,269 according to 1961 Census count, extends over an area of 4·32 square miles. It has 1,050 occupied residential houses. People in this village live by cultivation as their main occupation and among workers 842 are cultivators and 1,301 are agricultural labourers. The Eluru Canal and two tanks provide irrigation facilities to this place. Paddy is the chief wet crop grown. The village is accessible by Bandar-Eluru and Bandar–Nuzvid bus routes. There is a Sub Post Office with telephone and telegraph facilities. It contains a Sub-Registrar's Office, a Local Fund Dispensary, a Veterinary Dispensary, a Zilla Parishad High School and a branch of the District Library.

Telaprolu—is the largest village in Gannavaram taluk with a population of 6,555 persons as per the 1961 Census count. It is the headquarters of Telaprolu firka and occupies an area of 9.81 square miles. It has 1,453 occupied residential houses and is a Railway Station on Madras–Waltair line (Broad Gauge) of the Southern Railway.

People in this village live by cultivation as their main occupation. Wet paddy is the staple food crop grown here. The Eluru Canal under Krishna Anicut system is the chief irrigation source. The village contains, a State Bank of India Branch Office, a Panchayat Office, and a Sub Post Office with telephone exchange. There is a Dispensary maintained by the Zilla Parishad. The village has a Local Fund Library-*cum*-Reading Room besides a Zilla Parishad High School.

Manikonda—has an area of 5.40 square miles, and supports a population of 5,478 persons as per the 1961 Census count. In all it has 1,207 occupied residential houses. The village is accessible by Vijayawada–Gudivada road on which buses ply regularly. Agriculture is the mainstay of the people in this village. Among the workers in this.

Village there are 411 cultivators and 1,867 agricultural labourers indicating the preponderant dependence on land for their living. It is known as a delta village rich in its soil. Hence rich crops of paddy and sugarcane are largely reaped. The Ryves and Bandar Canals under the Krishna Anicut system form important sources of irrigation which provide assured supplies of water besides facilitating in-land water ways for boat traffic. There is a Police Station and a Sub Post Office with Telephone facilities. There is also a High School in this village.

Kapileswarapuram—named after the King Kapileswara is the second largest village in Gannavaram taluk with a population of 6,035 persons according to 1961 Census count. It is the headquarters of a firka by the same name. The village occupies an area of 7·49 square miles and in all it has 1,170 occupied residential houses. Cultivation is the main occupation for a very large section of people in this village. There are 562 cultivators and 1,596 agricultural labourers. The Pulleru Canal and the Bandar Canal are the main sources of irrigation which also provide water transport facilities. Wet paddy is main food crop grown here. Out of the commercial crops sugarcane is raised extensively. The village is connected by buses which ply from Medur to Mantada, Vijayawada, Gannavaram and Gudivada. There is a Panchayat Office, Co-operative Bank and a Post Office with telegraph facilities. There is also a Local Fund Ayurvedic Dispensary in this village. The village has a Zilla Parishad High School, a Panchayat Reading Room and a Park.

Katur—with a population of 5,923 persons is the headquarters of a firka and extends over an area of 6·15 square miles. In all it has 1,153 occupied residential houses. It is connected by a road on which buses ply regularly. The village is largely inhabited by agricultural workers. Generally wet paddy and sugarcane are grown extensively. Irrigation is facilitated by Ryves Canal which branches off from the Krishna Anicut system.

There is a Sub Post Office, a Panchayat Office, a Co-operative Society, a Zilla Parishad High School and a Panchayat Reading Room.

4. VIJAYAWADA TALUK

Vijayawada, formerly called Bezwada is an important taluk in Andhra Pradesh. According to the 1961 Census the total population of the taluk is 460,954 and it is extended over an area of 435.7 square miles. There are 114 inhabited and 11 uninhabited villages and two towns *viz.*, Vijayawada and Mokhasa Mutyalampadu in this taluk. Vijayawada City is the second largest city in Andhra Pradesh.

The following statement shows the number of inhabited villages arranged according to the various population sizes:

Less than 200	7
200—499	16
500—999	18
1,000—1,999	27
2,000—4,999	37
5,000—9,999	9
10,000 and above	..
Total inhabited villages	114

The 9 villages having more than 5,000 population are Patamata (*Rural*) (7,299), Gunadala (5,971), Poranki (5,043), Penamaluru (5,632), Kankipadu (6,200) Kondapalle (7,244), Mylavaram (5,964) North Vallur (6,231) and South Vallur (5,613).

Being situated in the Krishna delta with large stretches of farm lands where rich harvests of rice are reaped, there are several important rice trading centres in this taluk. The taluk is very well served by Railway communications. The Guntur-Masulipatnam Railway line (Broad Gauge) of the Southern Railway passes through this taluk with its stations at Uppulur, Nidamanur, Ramavarappadu, Satyanarayanapuram and Vijayawada. The Madras-Delhi line (Broad Gauge) of the Central Railway with its stations at Rayanapad, Kondapalle and Gangineni also passes through this taluk. These railway lines run from Vijayawada to Madras, Calcutta, Delhi, Hyderabad, Masulipatnam and Guntur. Owing to its convenient situation, quick transport and communication facilities are available and provide stimulus to trade. The river Krishna is bridged both by rail and road. The Krishna Anicut system provides assured supplies of water for irrigation purposes but in the uplands irrigation is carried on through wells and tanks. Therefore, distress may be caused in the uplands if there are no rains. The Guntupalle Pumping installation is a helpful source of irrigation through which water is pumped from the Krishna river. The taluk contains the famous Kanaka Durga temple in Vijayawada City which is an important place of pilgrimage for Hindus. There are three Colleges in this taluk out of which one is meant exclusively for women.

Vijayawada—a Municipality, is the headquarters of a taluk and a Revenue Division. It is situated at the head of the Krishna delta on the Madras-Waltair (Broad Gauge) line. It is the second largest city in Andhra Pradesh and recorded a population of 230,397 persons according to the 1961 Census count and extends over an area of 9·32 square miles. In all it has 47,684 occupied residential houses. At Vijayawada a barrage has been constructed across the river Krishna and named after Sri T. Prakasam to commemorate his services to the Nation. It has four main channels *i e.*, Buckingham Canal, on the right side of the river and on the left the Bandar canal, Ryves canal and the Eluru canal. These canals supply water to the lands in the delta of the district and also provide inter-water communications.

Vijayawada is one of the big railway junctions in India. The railway bridge over the river Krishna extends to about a mile in length. The city is connected by important railway lines to Madras, Calcutta, Delhi, Hyderabad, Masulipatnam and Guntur. The State Road Transport Corporation is plying many buses through this place connecting many important towns Owing to its quick transport and communication facilities it has become one of the big business centres in Andhra Pradesh. The Andhra Cement Factory is located here. The Government have established an Industrial Estate where spare parts of cycles, machine tools, shoes, furniture, copper and brass vessels are being manufactured. Vijayawada is also a big film distribution centre in Andhra Pradesh. Many daily news papers *viz.*, Andhra Prabha, Andhra Jyothi, Visalandhra, Indian Express, *etc.*, are printed and published from this place. It is an ancient and sacred place of pilgrimage and contains the famous temple of Kanaka Durga on the Indrakeeladri hill which attracts several pilgrims. There are three colleges *viz.*,The Loyola College,the S.R.R. of C.V.R. Govt. College and the Women's College besides several other important educational institutions. A Broadcasting Station of the All India Radio is located in the city.

Patamata (*Rural*)— is the largest village in the taluk with a population of 7,299 persons.The village is situated three miles east of Vijayawada on Vijayawada-Bandar road. It covers an area of 3·08 sq. miles and a part of it is included in Vijayawada city and in the remaining portion is treated as rural there are 1,118 occupied residential houses. Agriculture is the major means of livelihood for the people of this village. The Patamata Pumping Scheme provides irrigation facilities to this place, which commands an ayacut of nearly 1,400 acres. Wet paddy is the main crop grown besides crops like tobacco, sugarcane, chillies and different kinds of vegetables. The village contains a Sub Post Office, a Zilla Parishad High School, a Polytechnic besides a Reading Room and a Park. Handloom weaving is the chief cottage and small scale industry in this village. It contains "Siris Laboratory" which manufactures allopathic medicines. The Vijayawada Industrial Estate is also located in the limits of this village. The village assumes commercial importance on account of its nearness to Vijayawada City.

Kondapalle—the second largest village with a population of 7,244 persons in Vijayawada taluk is famous for its wooden toys. It is the headquarters of a firka by the same name, and is situated about 12 miles north to Vijayawada on Vijayawada-Tiruvur road. It is a railway station on the Vijayawada-Hyderabad (Broad Gauge) line of the Central Railway. There are several Chromite mines in this area and hence it is a business centre for iron and chromite ores. Both wet and dry crops are raised here and irrigation is facilitated by the P.W.D. tanks and minor irrigation sources. The Budameru channel takes diversion at this village. There is a Police Station, a Rural Dispensary, a Sub-Post Office with telephone facilities. There is also a Zilla Parishad High School in this village.

Kondapalle is a place of historical importance, and there is an ancient fort almost in a ruined condition. It is believed that it was a part and parcel of the Vijayanagar empire after Krishna Deva Raya had annexed it during his invasion. The fort is often visited especially by students in large gatherings who go there on excursion.

Mylavaram—a fairly big village with a population of 5,964 persons covers an area of 5·33 square miles. It has 1,115 occupied residential houses. It is well connected by buses and it is situated near Bhimunipatnam-Tiruvur road. Kondapalle is its nearest railway station. It is both the headquarters of Mylavaram Panchayat Samithi and Mylavaram Revenue Firka. Its old constructions remind one that it was a Zamindari village previously. Weaving and brassware manufacture are the two chief small scale industries in this village. There is a Sub Post Office, a Police Station, a Sub Registrar's Office, a Block Development Officer's Office, Central Excise Office and the office of a Deputy Inspector of

Schools. In addition to these there is a Government Hospital, a Veterinary Hospital, a Zilla Parishad High School, a Children's Park and a District Library. There is also a Travellers' Bungalow here. The village contains a temple of Sri Venkateswaraswamy whose annual festival of Sri Venkateswaraswamy is observed. Only dry crops are raised in the neighbourhood of this village.

Gunadala—with a population of 5,971 persons is situated 3 miles from Vijayawada towards the east on Vijayawada-Eluru road, on which buses ply regularly. It extends over an area of 4·74 square miles. A big Thermal Electric Station is located here. It contains R.C.M. High School, a Training School, and the Andhra Loyola College, in its limits, besides an Industrial School. The Sardar Soda Gas Factory which manufactures aerated water is located in this place. Paddy and tobacco are raised extensively in the area. The village is accessible by G.N.T. road. There is a Sub Post Office. On account of the rapid increase of population in Vijayawada city the surrounding villages like Gunadala are developing and growing in importance.

Poranki—with a population of 5,043 persons is situated 6 miles away from Vijayawada on Vijayawada-Bandar road. It extends over an area of 4.50 square miles and in all it has 801 occupied residential houses. The majority of the people in this village live by cultivation as their main occupation. The agicultural workers of this village consist of 387 cultivators and 1,202 agricultural labourers. The village is served by the Patamata Pumping Scheme and the Bandar Canal which are important sources of irrigation. Paddy and sugarcane are the chief crops grown here. It contains a Branch Post Office, a Panchayat Library, a Reading Room, a Basic Junior Elementary School and a Girls' Elementary School. The Vasanta Soap Factory is also located here.

Penamaluru—situated 7 miles away from Vijayawada on Vijayawada-Bandar road has a total population of 5.632 persons. It extends over an area of 2·57 square miles. In all it has 1,007 occupied residential houses. People in this village live by cultivation as their main occupation and Bandar Canal extends irrigation facilities to this place besides being a navigable canal. Penamaluru is a paddy producing area primarily. Vegetables, and turmeric are also grown extensively. The village has a Zilla Parishad High School.

Mokhasa Mutyalampadu—is a small town about half a mile away to the north-east of Vijayawada city with a population of only 3,963 persons. This small township came into existence and was developed only in 1961 to settle the canal bank hutment dwellers and has been treated as an urban unit at the 1961 Census because of its urban characteristics. It is likely to be merged in Vijayawada city in due course.

Kankipadu—situated 12 miles away from Vijayawada on Vijayawada–Bandar road has a population of 6,200 persons and extends over an area of 1.29 square miles with 1,040 occupied residential houses. It is the firka headquarters of Kankipadu firka. The place is well connected by buses plying from Vijayawada, Masulipatnam and Gudivada and is a busy traffic centre. It is a very prosperous agricultural village. Rice is the chief crop which flourishes well in this place while sugarcane is also grown to a considerable extent. The Ryves and Bandar canals not only provide irrigation facilities to this village but are also used for boat traffic. There is a Sub Registrar's Office, a Police Station, and a Sub Post Office with telephone and telegraph exchanges. The village has good educational facilities. The village is having a Veterinary Hospital and two Cinema halls.

North Vallur—with a population of 6,231 persons is situated on the bank of river Krishna about 24 miles south-east of Vijayawada. It extends over an area of 7.65 square miles and in all it has 1,173 occupied residential houses. The village is connected by a metal road upto Vuyyur on which buses ply regularly. Cultivation is the main occupation for the people of this village. The Krishna East Bank Canal and the Bandar Canal provide irrigation facilities. Paddy is the chief food crop raised. A Zilla Parishad High School, a Veterinary Hospital, a Reading Room, a Post Office with telegraph exchange besides two parks exist in this village.

South Vallur—with a population of 5,613 persons is also about 24 miles south-east of Vijayawada, and lies on the bank of river Krishna. It extends over an area of 5·99 square miles, and in all it has 1,153 occupied residential houses. A large number of people in this village are engaged in agriculture and allied pursuits. The East Bank Canal and the Bandar Canal which take off from the Krishna anicut system provide irrigation facilities to this place. Paddy is the chief food crop raised.

5. NANDIGAMA TALUK

It is an upland taluk situated in the north-western part of the district. The total population of this taluk is 168,151 persons and there are altogether 100 inhabited, 8 uninhabited villlages and one town *viz.*, Nandigama. The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	4
200-499	9
500-999	30
1,000-1,999	28
2,000-4,999	26
5,000-9,999	3
10,000 and above	..
Total inhabited villages	100

The 3 villages having more than 5,000 population are Anigandlapadu (5,091), Penuganchiprolu (7,414) and Kanchikacherla (6,111).

There are small hillocks at Pallagiri, Ramireddipalle, Paritala *etc.* The ground level is not uniform throughout the taluk. The river Krishna flows on the western and southern boundaries of this taluk but there is no flood bank in this taluk limits. The river side villages are therefore likely to be submerged in times of heavy floods. The average rainfall is 32.89″. April to June are the hottest months and rains usually set in towards the end of June. The taluk receives rainfall both from the south-west and the north-east monsoons. An extent of 11,477 acres is covered by forests in this taluk. There is thick reserved forest in Pochampalle, Bandipalem, Peddavaram and Ramireddipalle villages.

Regar, red ferruginous and alluvial soils are generally found in this taluk. The taluk is not served with any potential or perennial sources of water and irrigation is therefore carried on mostly under tanks and wells. There is, however, a dam across Muniyeru at Polampalle village in Jaggayyapet Independent Sub-taluk and the waters of Muniyeru are diverted therefrom for irrigation through a network of channels. Wells are used for irrigating dry and garden crops. The taluk is not generally liable to famine though distress may be caused in the event of failure of the monsoons.

As regards communications, the National Highway from Masulipatnam to Hyderabad passes through this taluk. Vijayawada is 31 miles and Hyderabad 135 miles from Nandigama town. It is well connected by buses to Vijayawada, Jaggayyapet, Penuganchiprolu, Peddapuram and Chillakallu. There is no railway line in this taluk. The river Krishna is navigable from Vijayawada to Muktyala. There are Sub-Post Offices at Kanchikacherla and Penuganchiprolu with telegraph facilities and the Post Office at Nandigama is provided with telephone and telegraph exchanges. At Nandigama there is a Government Hospital. There are Rural Dispensaries at Penuganchiprolu, Kanchikacherla, Paritala, Chandarlapadu Anigandlapadu and Ramireddipalle. There is R. C. M. Hospital at Nawabpet. Nandigama town is having protected water supply system, though the existing supply is limited and may not be adequate in future years.

Weaving, shoe making, basket making and poultry farming are the chief cottage and small scale industries in this taluk. Besides these there are rice mills and groundnut oil mills at Nandigama, Penuganchiprolu, and Kanchikacherla. A large extent of this taluk is expected to be benefited by the Nagarjunasagar Project which is nearing completion. The economic conditions of the taluk will certainly improve to a great extent thereafter.

Nandigama—a Panchayat, is the headquarters of the taluk by the same name. According to the 1961 Census count the total population of this town is 10,244 persons. The town extends over an area of 14.91 square miles and the density of population is 687 persons per square mile.

The river Muniyeru forms an important source of irrigation. Paddy, cholam, groundnut, tobacco, cotton and chillies are the important crops raised under it. The Masulipatnam-Hyderabad road passes through this town. P.W.D. Offices of Nagarjunasagar Project and several other public offices such as a Sub-Registrar's Office, Commercial Tax Office, a Second Class Judicial Magistrates' Court, a Police Station and a Sub-Post Office with telephone and telegraph exchanges are located in this town apart from a Government Hospital, a High School, a Travellers' Bungalow and a Reading Room. It is understood that a committee consisting of the influential and well-to-do inhabitants of the taluk has been formed to start a college at Nandigama. The town has a few rice mills and is fairly important commercially.

Anigandlapadu—situated on the eastern side of Muniyeru river is a fairly big village with a population of 5,091 persons. It extends over an area of 7.91 square miles and has 966 occupied residential houses. The soil in this village is very fertile and agriculture is the major means of livelihood of a large number of people. The agricultural workers in this village consist of 762 cultivators and 1,387 Agricultural labourers. Both wet and dry paddy are cultivated here besides crops like cholam, redgram, greengram and groundnut. The place is also known for tobacco cultivation. The village is connected to Penuganchiprolu by a bus route. There is a Local Fund Dispensary, a Branch Post Office and a Higher Elementary School.

Penuganchiprolu—the headquarters of a firka by the same name, is the most populous village in Nandigama taluk with a population of 7,414 persons. The village covers an area of 14.90 square miles and has 1,476 occupied residential houses. The majority of the people live by cultivation as their main occupation. There are 2,384 agricultural workers in this village. There is a P. W. D. tank in this village and it is served by river Muniyeru. Paddy is the chief food crop raised. This village contains a Sub-Post Office, a Block Development Officer's Office, a Library and a High School. There is a temple for Tirupathamma. People in this village observe Tirupathamma festival which attracts large crowds of people from the surrounding villages.

Kanchikacherla—situated on the Hyderabad-Masulipatnam National Highway lies at a distance of about 20 miles from Vijayawada. It is the second largest village in Nandigama taluk. The total population of this village is 6,111 persons. The area of the village is 11.44 square miles. It has 1,070 occupied residential houses and is mostly an agricultural village. There are 365 cultivators and 1,206 agricultural labourers in this village. Paddy, cholam, groundnut. *etc*, are raised with the aid of tank waters. Virginia tobacco is also raised here. There is a Sub-Post Office, Health Inspector's Office and Block Development Officer's Office, a Local Fund D spensary, a Travellers' Bungalow, a Library and a High School maintained by the Zilla Parishad. It is also an important business centre for Virginia variety of tobacco.

6. JAGGAYYAPET IND. SUB-TALUK

This Independent Sub-Taluk is situated towards the north-western part of the district and is bounded by Guntur district on the south, Khammam district on the north, Nandigama taluk on the east and Nalgonda district on the west. The total population of this taluk is 64,987 persons as per the 1961 Census and the area is 149 square miles. There are 37 inhabited and 7 uninhabited villages and one town *i.e.*, Jaggayyapet town in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	1
200-499	4
500-999	10
1,000-1,999	13
2,000-4,999	9
5,000-9,999	..
1,0000 and above	..
Total inhabited villages	37

The north eastern portion, where the Muniyeru flows, is plain but the land is undulating towards south and west.

Paleru and Muniyeru rivers flow through this taluk in the south and in the north respectively. The waters of these rivers provide irrigation facilities to 14 villages of this taluk. There is an anicut across the river Muniyeru at Polampalle in this taluk. There are also ten minor irrigation tanks in this area. The total acreage of wet paddy under all these sources is about 8,500 acres. The lands depending on the tank waters for irrigation do not have a secure source of water supply as the tanks are entirely dependent on monsoons. Black cotton soil is found on either side of Muniyeru river.

The climate is generally dry. Hot summers and cold winters are normal features. There are reserved forest areas in this taluk at Budavada, Balusupadu and Jaggayyapet, in the south-western portion of the taluk. There are iron ore quarries at Gandrayi and in some neighbouring villages, which are being exploited by the Andhra Pradesh Mining Corporation and some private persons.

The Masulipatnam-Hyderabad Highway passes for about 15 miles through this taluk. A major portion of the road from Muktyala-Bonakal Railway Station passes through this taluk but the road is not continuous because of the gaps near the Paleru and Muniyeru rivers which do not have road

bridges. Most of the villages are connected by unmetalled roads. There is a Government Hospital at Jaggayyapet. There are rural medical practitioners in Gandrayi, Kannavedu, Bheemavaram and Muktyala villages. Jaggayyapet and Gandrayi have protected water supply. There are no fairs but festivals are held in Vedadri on Narasimhajayanti and in Mukteswarapuram on Mahasivarathri day. Leather tanning industry in Muktyala and the musical instruments manufacturing centre at Jaggayyapet are important.

Jaggayyapet—the headquarters of the Jaggayyapet Independent Sub-Taluk and a Major Panchayat, is situated close to the Hyderabad-Masulipatnam road. It has a population of 13,905 persons as per the 1961 Census count. The town extends over an area of 14.06 square miles and the density of population is 989 persons per square mile. The town is not connected by railway but is accessible by the Hyderabad-Masulipatnam Highway and the road from Muktyala to Bonakal Railway Station. Buses ply to and from all these places regularly. The main road and some other roads in the town proper are black topped while the others are metalled roads. In the past when Buddhism flourished in India, Jaggayyapet was an important religious centre. Even now there are ancient Buddhist relics in and near about Jaggayyapet. It is famous for the manufacture of musical instruments in Andhra Pradesh. There is a Taluk Office, a Sub-Registrar's Office, a Sub-Post Office, a Health Inspector's Office besides the offices of the Executive Engineer, Nagarjunasagar Project, Canals, Deputy Commercial Tax Officer, and the Special Deputy Collector, Nagarjunasagar Project in this town. The town is having a Government Hospital, a few Ayurvedic Hospitals and private clinics. There is one Maternity Hospital managed by R.C. Mission. There is also a Veterinary Dispensary providing medical aid to livestock. There is a Zilla Parishad High School in this town. The Sri Rangaraya Social Club is an important feature of the social life of the elite of this town. Among the small scale industries, Sri Kanakadurga Industries Ltd., which manufactures steel trunks and an Ambar Charka Training Centre are noteworthy. A Fire Service Station was opened at this place in 1962. There is one Archaeological monument called 'Dhanam Boddu'.

Mukteswarapuram—with a population of 939 persons as per 1961 Census, is situated on the left bank of Krishna river six miles away from Jaggayyapet. It extends over an area of 0.65 square miles and has 215 occupied residential houses. It is a famous place of religious importance. There are two temples dedicated to Bhavani Mukteswaraswamy and Chennakesavaswamy respectively. A big festival is celebrated here on Mahasivarathri day. The festival attracts a large number of pilgrims even from the surrounding taluks. It is also a place of tourist interest. The Ayurvedic Pharmacy "Arsha Rasayanasala" is located here. The village also contains a veterinary hospital, a poultry farm, a pig rearing centre and a sewing centre.

Vedadri—a small village on the left bank of Krishna river with a population of 649 persons is famous because of its religious and historical importance. It is situated at a distance of 6 miles from Jaggayyapet and extends over an area of 4.41 square miles. It has 152 occupied residential houses. There is a temple of Sri Ugranarasimhaswamy situated on the bank of Krishna river. Sri Narasimha Jayanti is celebrated on a grand scale on Vaisakha Suddha Purnima (April-May). The congregation at this festival consists of a large number of people from far and near. There is a Travellers' Bungalow near this place apart from choultries to accommodate pilgrims to the temple.

7. TIRUVUR TALUK

Tiruvur taluk lies in the upland area of Krishna district with its headquarters at Tiruvur town The taluk is bounded in the north and west by Madhira taluk of Khammam district, in the east by Chintalapudi taluk of West Godavari district and in the south by Nuzvid and Vijayawada taluks. The total population of the taluk according to 1961 Census is 150,185 persons and the taluk is extended over an area of 438·5 square miles. Tiruvur, the taluk headquarters, is the only place declared as a town and it is at a distance of 95 miles from Masulipatnam, the district headquarters. There are altogether 81 inhabited villages and one town *viz.*, Tiruvur in this taluk.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	1
200—499	5
500—999	16
1,000—1,999	35
2,000—4,999	22
5,000—9,999	2
10,000 and above	..
Total inhabited villages	81

The two villages having more than 5,000 population are Tsanubanda (5,898) and Vissannapeta (5,708).

The annual normal rainfall of the taluk is about 95 cm. The soil in most of the villages in this taluk is red sandy loam except in a few villages in the north-eastern corner of the taluk where the soil is black sandy loam. There are no rivers worth mentioning in this taluk and the taluk is not covered by the Krishna delta system as the entire taluk lies in the upland area. The rain waters drain away into Krishna river through jungle streams. Tanks are the only sources of irrigation. There are two Lift Irrigation Societies in this taluk,one at Vamukuntla and the other at Vinagadapa. An extent of about 500 acres is being irrigated with wet paddy by these two Societies. Failure of monsoon causes distress in this taluk. As regards the medical facilities, there are two Primary Health Centres in this taluk, at Tiruvur and Telladevarapalle besides eleven Rural Dispensaries at Tsanubanda, Reddigudem, Konduru, Putrela,Polisettipadu, Mustiguntla, Gampalagudem, Pengolanu, Nemali, Tunikipadu and Vissannapeta. There are several Maternity and Child Welfare Centres attached to Primary Health Centres. There is one Family Planning Centre attached to the Primary Health Centre at Tiruvur.

In respect of communications there are two main metalled roads in the taluk, one from Vijayawada and the other from Nuzvid. There are also metalled roads from Tiruvur to Madhira, Vissannapeta, Krishnaraopalem and Lakshmipuram. Besides these, there is another road from Tiruvur connecting Hyderabad. The State Transport Buses ply on all these roads. There are three Zilla Parishad High Schools in this taluk out of which one is a Girls' High School. The entire taluk is covered by two Community Development Blocks, namely, Tiruvur and Vissannapeta.

Tiruvur—a Panchayat, is the only town in Tiruvur taluk. The total population of this place is 9,299 persons and it is extended over an area of 10·69 sqare miles. The town is rapidly assuming importance consequent on the implementation of different schemes under Community Development Programme. Paddy is the main food crop grown under the irrigation of tanks but trade is the major profession of the people. The town is connected by road with Vijayawada City (52 miles) on the south and with Nuzvid town (36 miles) on the south-east. There is also another metalled road about 25 miles long which connects with Madhira Railway Station. A metal road from Tiruvur connects Kothagudem and Bhadrachalam through Khammam district. The town has a Post Office with telephone and telegraph facilities. There is a Taluk Office, a Health Office, a Block Development Officer's Office, a Sub-Registrar's Office, a Police Station and an Inspection Bungalow in this town. There are no fairs in this town. There is a temple of Sri Venkateswaraswamy and the Kalyanamahothsavam of this deity is celebrated annually for three days from Magha Purnima on a grand scale. The people of the neighbouring villages also attend the festival. The town has a High School, a Middle School for Girls and a Senior Basic Training School.

Vissannapeta—with a population of 5,708 persons is situated 26 miles to the south-east of Tiruvur town and 10 miles to the north-west of Nuzvid town. Nuzvid Railway Station is 26 miles from this village on the south. The road from Nuzvid to Tiruvur passes through this village. The village is extended over an area of 4·84 square miles and has 974 occupied residential houses. The main occupation of the people is cultivation and trade. Paddy is the chief food crop grown under minor irrigation tanks. Weaving industry also provides employment to a small section of the population. There is a Police Station, a Central Excise Office, a Sub-Post Office and a Block Development Officer's Office. It is the headquarters of the Firka Revenue Inspector. The village has a Zilla Parishad High School and a Reading Room.

Tsanubanda—is the largest village in the taluk with a population of 5,898 persons as per the 1961 Census. The village extends over an area of 11·98 square miles and has 1,180 occupied residential houses. It is situated 32 miles to the east of Tiruvur town. The metal road from Krishnaraopalem to Eluru passes through this village. It is best known for its *cumbli* weaving which is an important handicraft. Tanks are the main source of irrigation but dry crops are raised mostly. Wet paddy is grown only when irrigation is possible by timely rains. The village is accessible to Vijayawada-Krishnaraopalem bus route. It contains a Samithi Hospital and a Veterinary Hospital. There is a Branch Post Office. The Kalyanam of the deity "Sri Rama" is celebrated on a lofty scale every year on Sri Ramanavami day (March-April).

8. NUZVID TALUK

Nuzvid is an upland taluk of Krishna district. The taluk is surrounded on the east by West Godavari district, on the south by Gannavaram taluk on the west by Vijayawada taluk and on the north by Tiruvur taluk. According to the 1961 Census the total population of the taluk is 127,616 persons and the taluk is extended over an area of 335·2 square miles. It comprises 79 inhabited villages, one uninhabited village and one town *viz.*, Nuzvid town.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	8
200—499	2
500—999	23
1,000—1,999	26
2,000—4,999	19
5,000—9,999	1
10,000 and above	..
Total inhabited villages	79

Agiripalle (6,067) is the only village in this taluk having more than 5,000 population.

There are no rivers worth mentioning in this taluk. As the entire taluk is an upland area, dry crops like cholam, groundnut, horsegram and gingelly are raised. Garden crops like tobacco, chillies, batavia and mangoes are grown on an extensive scale. Hence the taluk is famous for horticulture. Tanks and wells are the main sources of irrigation in this taluk. The river Tammileru feeds a few tanks and only limited extents are irrigated by lift irrigation from Eluru Canal waters. The climate in this taluk is generally dry but during the summer the sun is very severe. The rainfall during 1961 was 1066·42 mm. Most of the soil in this taluk is red sandy loamy and partly rocky.

The taluk is having only road communications and is not benefited by railway communications. The Madras-Calcutta railway line touches only the fringes of the taluk and passes through certain village limits of the taluk. At the headquarters Nuzvid, there is one Government Hospital. The taluk has Primary Health Centres at Saggurru and Musunur villages. There are Rural Dispensaries at Gollapalle, Adivinekkalam, Agiripalle and Veleru villages. Besides these, there are Local Fund Ayurvedic Dispensaries at Ramanakkapeta and Gopavaram villages. There are Zilla Parishad High Schools at Nuzvid town and Agiripalle, Gollapalle and Musunur villages. There is a Sanskrit School at Agiripalle. The entire irrigation of wet paddy is now under tanks and is easily affected by fluctuations in monsoons. The taluk is likely to be benefited in due course by the Nagarjunasagar Project when completed and the economic conditions may improve thereafter.

Nuzvid—a Panchayat, with a population of 18,974 persons according to 1961 Census, extends over an area of 12·14 square miles and is the only town in this taluk. The density of population is 1,563 persons per square mile and the town has 3,423 occupied residential houses. Nuzvid is famous for mangoes. Nuzvid Railway Station on the Madras-Calcutta Broad Gauge line is situated about 14 miles away from the town proper. The town is well connected by buses which ply from this place to Tiruvur, Gudivada, Vijayawada and Mylavaram. It is both the headquarters of a taluk and of a Revenue Divisional Officer. It contains several Government offices to manage the administration of Revenue Division. There is a Police Station, a Post Office with telephone and telegraph arrangements and a Travellers' Bungalow. The town is having a Government General Hospital and the Giffard Memorial Hospital. Besides these there are several private hospitals. There is also a Veterinary Hospital. Tanks are the main source of irrigation and wet paddy is chiefly grown under them. Extensive mango gardens are found in and near about the town. Nuzvid was formerly the headquarters of a Zamindari Estate. Sri Raja Rangayyapparaya Zilla Parishad Multi-purpose High School and a separate High School for girls cater to the educational needs of the town.

Agiripalle—is the largest village in the taluk with a population of 6,067 persons. The village extends over an area of 6·01 sq. miles and has 1,156 occupied residential houses. It is situated on the Nuzvid-Vijayawada bus route. The place is well known for scholars proficient in oriental learning. There is a first grade Sanskrit College. The village contains a famous temple dedicated to Sobhanachalaswamy, which attracts thousands of pilgrims on every 'Ratha Sapthami' day (January)

9. GUDIVADA TALUK

Gudivada taluk, a very fertile taluk, is centrally located in Krishna district. The taluk is surrounded on the east by Kaikalur and Bandar taluks, on the south by Divi taluk, on the west by Gannavaram

taluk and on the north by Eluru taluk. The total population of the taluk is 224,613 persons and the area is 229·7 square miles. It consists of 114 inhabited villages and 3 uninhabited villages and a town *viz.*, Gudivada.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	4
200–499	18
500–999	29
1,000–1,999	36
2,000–4,999	22
5,000–9,999	4
10 000 and above	1
Total inhabited villages	114

The five villages having more than 5,000 population are Pamarru (11,841), Ventrapragada (5,624), Gudlavalleru (6,942), Kavutaram (5,891) and Dokiparru (5,317).

The taluk is divided into six firkas. Gudivada is purely a delta tract in Krishna delta and one of the most intensely cultivated parts of Andhra Pradesh. The Krishna anicut system provides assured supplies of water for irrigation purposes. Paddy is the main crop grown in this area. Redgram, blackgram, sugarcane and turmeric are the other important crops of this taluk.

There are neither rivers nor forests worth mentioning in this taluk. The climate and rainfall are normal. Being a delta taluk, the soil is fertile consisting of alluvial and black cotton series. The taluk is best known for the cattle fair at Gudlavalleru which is conducted on a fairly large scale. There is a big Ramalayam at Motur village, where the festival of Sri Rama Navami is celebrated annually on a large scale. Gudivada is an important Railway junction in the taluk. The Gudivada-Bheemavaram (Broad Gauge) line passes through this taluk with stations at Motur and Guntakoduru. The Guntur-Masulipatnam (Broad Gauge) line also passes through this taluk with stations at Kavutaram Gate, Kavutaram, Gudlavalleru, Nujella, Gudivada, Dosapadu and Ventrapragada in this taluk.

As regards medical facilities there is one Government Hospital at Gudivada, the taluk headquarters, and a Primary Health Centre at Motur. There is one recognised Homeo-Medical College at Gudivada. The taluk contains a College at Gudivada and a Sanskrit High School (Nalanda High School) besides several Secondary, Middle and Primary Schools. There is also a Basic Training School at Komaravolu.

Gudivada—a Municipality with a population of 44,801 persons is the third largest town in Krishna district. The density of population per square mile is 16,655, a figure next to that recorded by Vijayawada City in the district. The town extends over an area of 2·69 square miles.

This is a Railway junction where the Guntur-Masulipatnam and Bheemavaram-Gudivada lines meet. By virtue of the communication facilities the town gained importance in the Krishna delta area. It is also an important rice trading centre. The surplus paddy and boiled rice are exported in large quantities from this place to all the deficit areas.

As regards the medical facilities, the town is having a Government Hospital, Andhra Provincial Homeopathic Hospital, Seva Hospital and a Roman Catholic Hospital. There is also a Veterinary Hospital for the benefit of livestock. The usual offices of a taluk headquarters are located here. There are three Police Stations in the town *viz.*, the Town Police Station, the Taluk Police Station and the Railway Police Station. There is a Sub-Post Office with telephone and telegraph facilities. The important educational institutions in this place are an Arts College and three High Schools including the Andhra Nalanda High School which has Sanskrit as the medium of instruction. The town contains a Travellers' Bungalow, an Inspection Bungalow and several choultries. The Azad Charaka Works and the Ambar Charaka Works are important Handicrafts centres. There are three parks in this town *viz.*, the Sitharamabrahmam Park, the Children's Park and the Boyina Agrayya Park. There is an ancient monument by name 'Lanja Dibba'.

Gudlavalleru—is the second largest village in this taluk with a population of 6,942 persons. The village extends over an area of 3·00 square miles and has 1,284 occupied residential houses in all. The village is connected by Gudivada-Masulipatnam road and it is also a Railway Station on Guntur-Masulipatnam, (Broad Gauge), line of the Southern Railway. Gudlavalleru is benefited by Krishna anicut system and paddy is the chief crop. Agriculture is the main occupation of the people. A few in this village are also engaged in weaving

industry. A weekly cattle market is held on every Friday by a private committee on a fairly big scale. There is a Police Station and a Post Office with telephone and telegraph facilities. The village has a High School and a Reading Room.

Kavutaram—with a population of 5,891 persons is a big village situated on Gudivada-Masulipatnam road. It extends over an area of 5.14 square miles and has 1,004 occupied residential houses. Agriculture is the main occupation of the people in this village which lies in Krishna East Delta area. The canals not only facilitate irrigation but also provide navigation facilities. Wet paddy is the main crop grown here. Kavutaram is a Railway Station on Guntur-Masulipatnam (Broad Gauge) line of the Southern Railway, There is a Sub Post Office with telephone and telegraph exchanges. The village has a High School, a Reading Room and a Choultry. There is a high Pagoda (Gopuram) in front of Sri Gowthameswaraswamy temple.

Dokiparru—is a big village with a population of 5,317 persons. It extends over an area of 6·14 square miles and has 1,022 occupied residential houses. The village is connected to Gudivada-Masulipatnam road. It lies in Krishna East Delta and is famous for paddy cultivation. Agriculture is the main occupation of the people. There are 734 cultivators and 1,234 agricultural laboures in this village. It contains a Branch Post Office and a High School.

Pamarru—is the largest village in Gudivada taluk with a population of 11,841 persons. The village extends over an area of 6·91 square miles and in all it has 1,958 occupied residential houses. The village lies on the Masulipatnam-Vijayawada road. A majority of the people in this village are engaged in Agriculture and its allied pursuits. There are 1,112 cultivators and 1,696 agricultural labourers. It lies in Krishna East Delta area. The village has one hospital, one Sub-Post Office with telephone and telegraph facilities besides a Travellers' Bungalow. The village occupies an important place in Gudivada taluk. There is one 'Vidyavanam' where hand-pounded rice, honey etc., are being produced on a large scale basis and sold to the public. The village has a High School, a Reading Room and two parks.

Moturu—with a population of 3,291 persons is a famous place of religious importance. It extends over an area of 5·05 square miles and has 621 occupied residential houses. It also forms a part of Krishna delta area and the main occupation of the people is cultivation. Moturu is a Railway Station on Gudivada-Bheemavaram (Broad Gauge) line of the Southern Railway. There is a big 'Ramalayam' in this village where Sri Rama Navami festival is celebrated annually on a large scale. About ten thousand pilgrims attend the temple on the festival day. The village is having a Branch Post Office, a Primary Health Centre, a Health Office and a Veterinary Hospital. There is one High School in this village.

Komaravolu—is a small village with a population of 2,013 persons. The village extends over an area of 2.22 square miles and has 340 occupied residential houses. The Krishna anicut system provides irrigation facilities to this place and wet paddy is the main food crop grown. There is a Basic Training School, a Reading Room and a Branch Post Office in this village. The village is connected to Gudivada-Pamarru Road.

10. KAIKALUR TALUK

Kaikalur taluk is situated to the north of Bandar taluk. It is bounded by Eluru taluk in the north, by Bheemavaram taluk of West Godavari district in the east, by Bandar taluk in the south and by Gudivada taluk in the west. There are 98 inhabited villages and one uninhabited village besides one town, *viz.*, Kaikalur town. The total population of the taluk at 1961 Census is 152,955 persons and it extends over an area of 282·1 square miles.

The following statement shows the number of inhabited villages arranged according to the various population sizes :

Less than 200	4
200—499	8
500—999	31
1,000—1,999	33
2,000—4,999	19
5,000—9,999	3
10,000 and above	..
Total inhabited villages	98

The three villages having more than 5,000 population are Kalidindi (8,835), Pedalanka (5,246) and Mandavalli (5,386).

Kaikalur is a very fertile taluk of the Krishna delta and the main sources of irrigation are Polaraju

Campbell and Bantumilli Canals of the Krishna anicut system. The taluk lies at the tail end of the delta system and as such it serves as a convenient let out through which surplus water from all its canals collects into the Kollair lake and Upputeru before finally falling into the Bay of Bengal. During the second crop season in the Kollair zone irrigation is generally facilitated by canal waters and by lifting of Kollair water through pump sets and the second crop covers a fairly large area. However, due to the location at the tail end of the delta there is the risk of submersion during the floods in the river. A major portion of the soil of this taluk is of the black cotton variety. The area cultivated with dry crops consists of sandy loam.

In respect of communications, Bheemavaram–Gudivada (Broad Gauge) line of the Southern Railway passes through this taluk with its stations at Putlacheruvu, Mokhasa Kalvapudi, Mandavalli, Kaikalur, Pallevada and Alapadu. In addition to this there is a metalled road running from Gudivada to Bheemavaram on which buses ply regularly connecting the neighbouring taluk headquarters. The taluk is well connected by buses which ply to all important places like Kalidindi, Korukollu, Mudinepalle, Pedatummidi and Vadali. There is steam launch service in the Upputeru from Alapadu limits to Pedalanka covering a distance of about 20 miles. There is cargo boat service in Campbell Canal, Bantumilli Canal and Polaraju Canal. There is a Post Office with telegraph and telephone facilities at Kaikalur. As regards the medical facilities, there are two Government Hospitals, one at Kaikalur and the other at Sitanapalle. In addition to these there are Rural Dispensaries in this taluk.

There are two notable festivals celebrated in this taluk. One is the Mahasivarathri festival at the Bhogeswarapuram temple lying within Kalidindi village limits. People of all communities are fed on this occasion. The festival concludes with the Kalyanamahothsavam of Sri Bhogeswaraswamy. The other festival relates to Peddintammavaru, the famous goddess of Kollair lake. The temple is situated on a high level earth mound amidst Kollair lake, where the Kolletikota village adjoins the temple site. The uthsavam takes place on Phalguna Suddha Ekadasi in every year (in March).

Kaikalur – headquarters of the taluk is treated as a town for the first time in the 1961 Census. It is situated on the north-eastern side of the district headquarters, Masulipatnam and has a population of 7,051 persons. The town is extended over an area of 4·23 square miles and in all it has 1,295 occupied residential houses. The density of population is 1,667 persons per square mile.

Kaikalur is an important paddy growing centre and presents the picture of an agricultural town. There are two big drains *viz.*, Upputeru and Kollair. Most of the agriculturists of this place raise two wet crops and the village is served by Kaikalur channel, Rallakodu channel, Rudriah channel, Side channel and Narasayapalem channel. The town is having a Government Hospital, a Veterinary Dispensary, a Travellers' Bungalow, a Police Station and a Sub Post Office. It also contains a Taluk Office, a Sub-Registrar's Office, a Judicial Second Class Magistrate's Court and a High School.

Kaikalur is a Railway Station on Gudivada-Bheemavaram (Broard Gauge) line on the Southern Railway. Kaikalur is also connected by road to Gudivada on which buses ply. There are two more roads running to Kalidindi and Korukollu from this town.

Mandavalli—situated one mile from Gudivada-Upputeru Main Road is the second largest village in Kaikalur taluk with a population of 5,386 persons. The village extends over an area of 7·51 square miles and has 917 occupied residential houses. It is the headquarters of a firka and also of a Panchayat Samithi. Mandavalli is a Railway Station on Gudivada-Bheemavaram (Broad Gauge) line on the Southern Railway. Agriculture is the main stay for the people. The village is served by Polaraju channel. Wet paddy is the main food crop grown. There is a Branch Post Office and a Zilla Parishad High School in the village. A weekly fair is held here on every Friday and vegetables and other foodstuffs are sold.

Kalidindi—is the largest village with a population of 8,835 persons in Kaikalur taluk. The village extends over an area of 13·83 square miles and has 1,859 occupied residential houses. Kalidindi is connected by a metalled road from Kaikalur, the taluk headquarters. It is the biggest Revenue village with several hamlets. There is a Travellers' Bungalow, a Sub-Post Office and a Rural Dispensary in this village. Agriculture is the main occupation of the people and the village is served by Campbell Canal and its branches. There are 1,779 cultivators and 2,353 agricultural labourers. A weekly market is held on every Friday where all vegetables and

foodstuffs are sold. On Mahasivarathri day (February-March) a festival is celebrated at Bhogeswaraswamy temple. The festival lasts for five days during this period. People from surrounding places congregate here to take part in the festival. People of all communities are fed on this occasion. The festival concludes with the Kalyanamahothsavam of Sri-Bhogeswaraswamy an important and attractive celebration for people in these parts.

Pedalanka—is fairly a big village with a population of 5,246 persons. The village extends over an area of 15·01 square miles and has 1,019 occupied residential houses. Pedalanka is not facilitated even by a proper road. It is 8 miles from Kalidindi and 14 miles from Upputeru bridge. Agriculture is the main stay for the people in this village and the Campbell Canal is the main source of irrigation. Pedalanka is at the tail end of the Campbell Canal abutting Upputeru and Pedalanka drains. Wet paddy is the chief crop raised in this village. There is one Branch Post Office and a Rural Dispensary in the village. The village contains an Agricultural Land Colonisation Society established about twenty years ago in the village.

Kolletikota—with a population of 4,167 persons is an important religious place. The village extends over an area of 1·39 square miles and has 531 occupied residential houses. Kolletikota is noted for a festival celebrated in honour of Peddintammavaru the famous Goddess of Kollair lake. The temple is situated on a high level earth mound amidst the Kollair lake. The festival takes place on Phalguna Suddha Ekadasi (in March) of every year. People from far and near congregate here and pay their offerings to the Goddess. During the festival a shopping centre with stalls dealing in different kinds of goods and articles is also opened. The festival is generally celebrated on a grand scale. Kolletikota is a famous local pilgrim centre.

Note : 1. 'S' indicates the number of workers employed seasonally

2. The talukwise and villagewise distribution of Industries and Rural Crafts are given in the Village and Town Directory portion of this Hand Book

TABLE 4.2—TOTAL NUMBER OF ARTISANS OF EACH CATEGORY WORKING IN THE DISTRICT TOGETHER WITH THEIR DAILY AVERAGE EARNINGS

Class of workers	No. of Workers	Average daily earnings Per Worker
(1)	(2)	(3)
KRISHNA DISTRICT		
		Rs. P.
Agarbathi makers	14	4 00
Ambar Charka spinners	90	1 50
Bakery makers	4	6.00
Bamboo workers	100	1.25
Basket, Mat and Rattan workers	2,881	2.50
Bee keepers	1	0.50
Blacksmiths	1,160	2.50
Brick makers	377	2.00
Carpenters	2,614	2.00
Carpenters-*cum*-Blacksmiths	3,588	2.50
Carpet and drugget makers	100	3.00
Cement workers	178	2.00
Cobblers	3,682	1.50
Coir fibre workers	1,840	1.75
Cumbly weavers	168	2.00
Dyers and printers	229	4.00
Fibre extractioners	1,019	1.00
Gold and silversmiths	2,293	5.00
Gunny weavers	269	1.50
Gur and khandasari workers	811	2.50
Jewellery stone workers	47	5.00

Class of workers	No. of Workers	Average daily earnings Per Worker
(1)	(2)	(3)
KRISHNA DISTRICT—*Concld.*		
		Rs. P.
Khadi workers	609	2.50
Mat weavers	293	1.25
Metal workers	276	3 00
Neera workers	15	1 50
Oil Mongers	262	2.25
Paper pulp doll makers	4	2.00
Plate leaf workers	105	1.50
Potters	4,223	1.50
Printers and litho workers	500	4.00
Rope makers	205	1.50
Savaram makers	10	5.00
Soap makers	22	2.50
Spinners	3,529	0.75
Stone workers	35	1.50
Tailors	2,096	4.00
Tanners	927	1.50
Tanners-*cum*-Cobblers	8,588	1.50
Tape weavers	5	2.50
Toy makers	117	2.00
Weavers	20,384	3.00
Wool weavers	153	3.50

Note: *1. This College was under private management untill 1957-58 and thereafter come under the State Government control,

2. Due to the introduction of one year P.U C. course and 3 year degree course in place of two year Intermediate course and two year degree course from 1957-58 the strength under cols, 7-10 under P U.C. course has gone down and that under columns 11-14 under degree course has gone up from 1958-59. The figures shown upto 1956-57 under columns 7-10 represent the strength of students studying Intermediate course. The figures shown against 1957-58 represent those studying P.U.C. and Second Year Intermediate. The figures shown from 1958-59 onwards relate P.U.C. only.

PART III

STATISTICAL TABLES

KRISHNA DISTRICT

[TALUKWISE DENSITY OF POPULATION]

G. P. RANGAM

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad

EXPLANATORY NOTE

A-SERIES

GENERAL POPULATION TABLES

General Population Tables prepared at the 1961 Census are the basic demographic tables and give information about the total population as recorded at the present Census in the district/taluk/town, the territorial changes that have occurred during the last decade *i.e.*, from 1951 to 61, variation of population during the past six decades, distribution of villages and towns by population sizes and trends of urbanisation in the district. The data are presented under the following four Tables.

A-I Area, Houses and Population

A-II Variation in Population during sixty years (1901-61)

A-III Villages classified by population

A-IV Towns (and Town-groups) classified by population in 1961 with variation since 1941

All the above Tables pertaining to Krishna district are reproduced in this Hand Book.

TABLE A-I AREA, HOUSES AND POPULATION

This Table, the basic population table, gives for each taluk as well as for the district and for each town in the taluk, area in sq. miles as well as in sq. kilometres, persons per sq. mile, number of villages inhabited and uninhabited, number of towns, number of occupied residential houses and population by persons, males and females. The figures have been given separately one below the other under Total, Rural and Urban. In this Table as in all other Tables, the taluks have been arranged in the order of the Location Code Numbers adopted in the 1961 Census and not in an alphabetical order. The ten taluks in the district have been numbered off continuously in a clock-wise order starting from the headquarters taluk where the district headquarters is situated *i.e.*, from Bandar taluk as indicated below :—

Name of taluk	*Location Code Number*
Bandar (Masulipatnam)	1
Divi	2
Gannavaram	3
Vijayawada	4
Nandigama	5
Jaggayyapet (Independent Sub-Taluk)	6
Tiruvur	7
Nuzvid	8
Gudivada	9
Kaikalur	10

The urban units (towns) in each taluk have been allotted Code Numbers in Roman figures in a separate series. The taluk headquarters, if it is recognised as a town for the purpose of 1961 Census, has been allotted Location Code Number 1 and the remaining towns if any, in the taluk have been numbered in a clock-wise order.

One of the main changes in the presentation of this Table since the last Census is that the particulars of each of the towns in the taluk are also given underneath the concerned taluk besides giving the number of inhabited and uninhabited villages against each taluk.

Area figures furnished for the district and the taluks by the State Survey Department and the area of towns furnished by the local authorities concerned have been shown under Column (3a) against the respective units. The urban area of each taluk has been worked out by adding the areas of all the urban units in the taluk and the rural area of the taluk is obtained by deducting the urban area of the taluk from the total area of the taluk.

The area in sq. kilometres under column (3b) is obtained by converting the area in sq. miles corrected upto two places of decimals. The area figures for district Total/Rural/Urban, taluk Total/Rural and for each town have been first converted separately. In order to tally the totals of all the taluks with the district total the converted Total/Rural/Urban area figures of the taluks have been either increased or chopped of, on *prorata* basis according to area ratios of the taluks. The area of each town both in sq. miles under column (3a) and in sq. kilometres under column (3b) has been given upto second decimal place while the Total/Rural/Urban area of the taluks as well as of district has been given only upto first decimal place.

The area of the district as furnished by the State Survey Department shown against (y) under column (3a) differs from the area of the district furnished by the Surveyor General of India, shown against (x) in the column, due to the difference in the methods of computation.

The density of persons per sq. mile for the district and for each of the taluks and towns has been worked out by using the area figures corrected upto two places of decimals and not using the area figures given under column (3a).

"Village" referred to in this Table and in all other Tables in this book is the Revenue Administrative unit with definite boundaries. Village having one or more groups of habitations is treated as an inhabited village and village with no habitations is treated as an uninhabited village. The number of inhabited and uninhabited villages, in each taluk and in the district is shown under columns 5 and 6 of this Table. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit (town) or hamlets to a main Revenue village, are not taken into account. All the Revenue villages within the taluk are demarcated and numbered off continuously from North–West to South–East. The number so assigned to each village is the 1961 Census Location Code Number, distinct from the Revenue Survey Number and will be referred to hereafter as the Location Code Number.

A "Town" is a place usually having not less than 5,000 inhabitants possessing distinct urban characteristics and also satisfying certain criteria prescribed. For recognition of any place as a town at the present Census it should be either covered by a City Corporation, Municipality or Cantonment Board or it should generally satisfy the following criteria:-

(i) It should have a minimum population of 5,000 ;

(ii) The density of population should not be less than 1,000 per sq. mile ; and

(iii) At least 3/4ths of the adult male population should be non-Agricultural.

The total number of towns in each of the taluks and in the district is exhibited under Column 7 of this Table.

A "Census House" is defined, for the purpose of 1961 Census, as a structure or part of a structure, a dwelling, a shop, workshop, or a factory, place of business, a shop–*cum*–dwelling giving on the road or a common staircase or a common courtyard, leading to a main gate or enjoying a separate entrance. Only houses used wholly or partly for the purpose of residence by one or more households are considered as residential houses and the number of such residential houses in the town/taluk/district has been given in Column 8. Houses utilised wholly for purposes other than for residence have not been taken into account in this Table.

The total population, by persons, males and females for the district as well as for each taluk and town has been exhibited separately under Columns 9, 10 and 11 in this Table.

Besides the main Table, there are also three Appendices to this Table.

Appendix I : In this Appendix the diminution of the district and the alterations in taluks to the present area since the last Census are traced by giving the territorial changes that have taken place during the last decade together with the names and areas involved in the changes. The net area gained or lost by each unit is also given in the Appendix. The list of villages transferred from one taluk to another after 1951 Census together with their Location Code Numbers assigned at the 1951 Census, Revenue Number and area in sq. miles wherever available is given in the annexure to this Appendix. 23 villages of Munagala paraganah were transferred from Nandigama taluk to Huzurnagar taluk of Nalgonda district. Potharlanka and Gajullanka villages of Divi taluk

were transferred to Repalle and Tenali taluks of Guntur district. 45 villages were also transferred from Nandigama taluk to the newly constituted Jaggayyapeta Independent Sub-Taluk.

Appendix II: One of the criteria for a place to be declared as a town is that it should normally have a population of 5,000 and over. However, several places with a population of 5,000 and over did not qualify to be treated as towns while a few places with less than 5,000 population might have been treated as towns for good reasons at the present Census. This Appendix will give the number of such places with their population. There are no old towns under 5,000 population which have been declassified into rural at 1961 Census in this district.

Appendix III: This Appendix shows the taluk-wise figures for the Houseless Population and the Institutional Population separately. Houseless Population consists of those people who have no fixed place of residence and no regular home to live in. Institutional Population is a group of unrelated persons living and messing together under the management of a head of the Household appointed either by rules governing the institution or by common consent of its members. For the purpose of studying different characteristics this population is also included along with the Household Population.

TABLE A-II VARIATION IN POPULATION DURING SIXTY YEARS (1901-1961)

This Table compares the population of the district as ascertained at the 1961 Census with the corresponding figures for the six previous Censuses. The figures revealed at the previous Census have been adjusted for subsequent territorial changes in order to afford a correct basis for comparison.

As this Table gives the growth of population from decade to decade, these data form the main source for the estimation of population in the absence of reliable Vital Statistics. One of the main changes in the presentation of this Table since the last Census is that the percentage of variation is also given from decade to decade. The variation of males and females from decade to decade has been omitted at the present Census.

During the last decade 23 villages of Munagala Paraganah have been transferred from Nandigama taluk to Huzurnagar taluk of Nalgonda district. Potharlanka and Gajullanka villages of Divi taluk were transferred to Repalle and Tenali taluks of Guntur district respectively. There have been no other inter-district territorial changes affecting this district during the decade 1951 to 1961. However, these were the following inter-taluk transfers during the decade. Nandigama taluk has been bifurcated and constituted into Nandigama taluk and Jaggayyapet Independent Sub-Taluk. Three villages have also been transferred from Nandigama taluk to Tiruvur taluk. For details of the villages involved in the transfers Appendix I to Table A-I may be referred to.

Appendix: The Appendix to this Table shows the 1951 population according to the territorial jurisdiction in 1951, changes in area and the population involved in the changes, that have taken place during the last decade. The details of transfers of areas in each case together with the names and area in sq. miles and the number and the date of notification of each transfer to the extent available are also given in the foot note.

TABLE A-III VILLAGES CLASSIFIED BY POPULATION

This Table shows the total number of inhabited villages in the district, arranged on population basis under the following groups:—

Less than 200 population
200-499
500-999
1,000-1,999
2,000-4,999
5,000-9,999
10,000 and above

The villages which are either uninhabited or wholly included in urban units are not taken into account in this Table. The following statement gives at a glance the break-up of all the inhabited villages of Krishna district classified by population in four broad groups *viz*.,

Class (Population Size)	*Number of inhabited villages*
Less than 499	137
500-1,999	527
2,000-4,999	241
5,000 and above	41
Total inhabited villages	946

For the definition of "village" and "inhabited village" see Explanatory Note to Table A–I.

TABLE A–IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATON IN 1961 WITH VARIATION SINCE 1941

This Table shows the growth of each town since 1941. The civic status, area both in sq. miles and sq. kilometres, population with sex break-up, decade variation in total population and percentage of decade variation have been given for every town in the district.

For the definition of " Town " see explanatory note to Table A–I.

The towns have been classified into six classes according to their population in the latest Census as detailed below.

Class	*Limits of Population*
I	100,000 and above
II	50,000–99,999
III	20,000–49,999
IV	10,000–19,999
V	5,000–9,999
VI	Less than 5,000

Class I towns with a population 100,000 and above have been treated as cities. The total number of towns under each class in the district at the 1961 Census are given below.

Class	*Number of Towns*
I	2
II	Nil
III	1
IV	6
V	3
VI	1
Total	13

Pamarru, Challapalle, Kondapalle and Vallur towns of 1951 Census have been deleted in the present Census from the list of towns in this district. Gannavaram, Mokhasa Mutyalampada, Nandigama, Tiruvur and Kaikalur have been treated as new towns at the 1961 Census in this district.

Since the prime purpose of this Table is to show the growth of towns as towns and not how certain places have grown into towns from villages, the population of a place which at any particular Census year was not treated as a town is not given in this Table. The population of towns at each of the last seven Census years *i. e.*, since 1901 is, however, given in Table A–IV in part II–A General Population Tables of Andhra Pradesh (State Volume). The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

The civic status of the towns *i. e.*, whether the town is a Municipality, or a Panchayat *etc.*, is indicated after the name of the town in the abbreviated letters M or P according to the status of the town.

One of the main changes in the presentation this Table since the last Census is that the areas of towns and the percentage of decade variation of the total population of the towns have also been given.

Appendix : The Appendix to this Table gives the names of towns treated as such at the present Census together with the names of villages either fully or partly included in them.

10 Kaikalur Taluk . .	T	282·1	730·7	542	93	1	1	28,392	152,955	77,524	75,431
	R	277·9	719·7	525	93	1	..	27,097	145,904	73,813	72,091
	U	4·2	11·0	1,667	..	..	1	1,295	7,051	3,711	3,340
I *Kaikalur (P)* . .	U	4·23	10·96	1,667	..	..	1	1,295	7,051	3,711	3,340

Note :—1. Names of Towns treated as such for the first time in 1961 are printed in italics.

2. Towns treated as such for the first time in 1951 Census and which continue as towns in 1961 Census are printed with an asterisk (*) on the left side.

3. † Civic status of Mokhasa Mutyalampadu not yet determined.

4. @ The area of Mokhasa Mutylampadu is included in rural area of Vijayawada taluk and is not separately available.

5. Under columns (3a) and (3b), (x) represents the area figures furnished by Surveyor-General of India and (y) represents the area figures furnished by the State Survey Department. The urban areas are based on the area of individual towns furnished by the Local Authorities. The rural area for the district/taluk is obtained by subtracting the urban area from the total area of the district/taluk furnished by the State Survey Department.

6. The Sq. Km. and density figures of urban areas of taluk/district are worked out using the area figures corrected upto two places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the Table. In addition to this the area figures relating to Sq. Km. are further adjusted to make taluk/district totals tally.

7. The following abbreviations have been used for the status of a town :-

M : Municipality, P : Panchayat

8. ‡ After the 1961 Census enumeration the State Government have changed the name of the City "Masulipatnam" into "Machilipatnam".

APPENDIX I TO TABLE A-I

Statement showing the 1951 Territorial Units constituting the present set-up of each taluk of Krishna District and details of net area gain or loss in the changed Territories during the decade 1951-1961

(Only those names/areas which have undergone changes since 1951 have been shown in this Appendix.)

3 Gannavaram Taluk	295.2	764.6	219,520	295.0 (+ 0.2)	764.0 (+ 0.6)	198,579	198,579	..
4 Vijayawada Taluk	435.7	1,128.4	460,954	436.0 (— 0.3)	1,129.2 (— 0.8)	356,572	356,572	..
5 Nandigama Taluk (c)	393.4	1,018.9	168,151	679.0 (—285.6)	1,758.6 (— 739.7)	239,639 (—93,648)	145,991	(—93,648)
6 Jaggayyapet Independent Sub-Taluk (d)	149.0	385.9	64,987	.. (+149.0)	.. (+ 385.9)	.. (+56,118)	56,118	(+56,118)
7 Tiruvur Taluk (e)	438.5	1,135.7	150,185	430.0 (+ 8.5)	1,113.7 (+ 22.0)	121,860 (+ 3,463)	125,323	(+3,463)
8 Nuzvid Taluk	335.2	868.1	127,616	335.0 (+ 0.2)	867.7 (+ 0.4)	107,227	107,227	..
9 Gudivada Taluk	229.7	594.9	224,613	230.0 (— 0.3)	595.7 (— 0.8)	198,940	198,940	..
10 Kaikalur Taluk	282.1	730.7	152,955	286.0 (— 3.9)	740.7 (— 10 0)	119,596	119,596	..

(a) (i) 23 villages with an area 107.8 Sq. miles of Munagala Paraganah of Nandigama Taluk have been transferred to Huzurnagar Taluk of Nalgonda District *vide*. G. O. Ms. No. 907, Revenue, dated 11-5-1959.

(ii) Gajullanka village with an area 2.5 Sq. miles and Potharlanka village with an area 8.3 Sq. miles of Divi Taluk were transferred to Tenali and Repalle Taluks of Guntur District respectively *vide*. G. O. Ms. No. 1407, Revenue, dated 14-7-1959 and G. O. Ms. No. 2010, Revenue, dated 29-9-1959.

(b) Changes are as enumerated against symbol (a) (ii).

(c) In addition to changes enumerated against symbol (a) (i) above, the following changes also took place :—

(i) Jaggayyapeta Independent Sub-Taluk was newly constituted on 1-7-1959 by 45 villages transferred from Nandigama Taluk.

(ii) 3 Villages with an area 8.7 Sq. miles have been transferred from Nandigama Taluk to Tiruvur Taluk *vide*. G. O. Ms. No. 473, Revenue, dated 22-2-1951.

(d) Changes are as enumerated against symbol (c) (i).

(e) Changes are as enumerated against symbol (c) (ii).

Note:—1. Area figures furnished in Columns 2 and 5 are according to State Survey Department and they are according to jurisdiction prevailing in 1961 and 1951 respectively.

2. The figures given in brackets in Columns 5 and 6 represent the difference in area between 1951 and 1961 and the figures in brackets in Column 7 show the difference in population between the areas as per the jurisdiction in 1951 and the present jurisdiction.

3. The difference of area in 1951-61 given under Columns 5 and 6 of this Appendix does not agree with the area given in Columns 9 and 10 of Appendix I to Table A-I on account of revised computation of area.

4. Though certain taluks have not shown any change in population since 1951 Census there is change in area due to revised computation.

TABLE A-III

VILLAGES CLASSIFIED BY POPULATION

Note :— 1. † Tiruvur Town comprises the Census villages Rajupet (L.C. No. 22), Nadim Tiruvur (L.C. No. 23) and Patha Tiruvur (L.C. No. 28) and these three villages were included at 1951 Census in one Census village Tiruvur.

2. N. A: Not ascertainable

EXPLANATORY NOTE

B–SERIES

ECONOMIC TABLES

The Economic Tables for the 1961 Census are based on the principal work of a person and the concept of dependency has been abandoned altogether for economic classification. The entire population has been divided into the following nine categories of Workers, for broad economic classification based on the National Classification of Industries adopted by the Government and the Non-Workers being shown as a separate category.

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Working at Household Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services

X Non-Workers

The following seventeen Economic Tables, the first nine of which relate to the General Population and the remaining eight relating to a 20% sample of Households, have been prepared at the present Census.

(*i*) *General Economic Tables*

B–I Workers and Non-Workers classified by sex and broad Age-groups

B–II Workers and Non-Workers in Cities, Town-groups and Towns arranged territorially classified by sex and broad Age-groups

B–III *Part–A* Industrial Classification of Workers and Non–Workers by educational levels in *Urban areas only*

Part–B Industrial Classification of Workers and Non–Workers by educational levels in *Rural areas only*

B–IV *Part–A* Industrial Classification by sex and class of Worker of persons at work at Household Industry

Part–B Industrial Classification by sex and class of Worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service

Part–C Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation

B–V Occupational Classification by sex of persons at work other than Cultivation

B–VI Occupational Divisions of persons at work other than Cultivation classified by sex, broad Age-groups and educational levels in *Urban areas only*

B–VII *Part–A* Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer

Part–B Industrial Classification by sex of persons working in Non–Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry

B-VIII *Part–A* Persons unemployed aged 15 and above by sex, broad Age-groups and educational levels in *Urban areas only*

Part–B Persons unemployed aged 15 and above by sex, and educational levels in *Rural areas only*

B-IX Persons not at work classified by sex, broad Age-groups and type of activity

(ii) Household Economic Tables

B-X Sample Households (i) engaged neither in Cultivation nor in Household Industry, (ii) engaged either in Cultivation or in Household Industry but not in both and (iii) engaged both in Cultivation and Household Industry

B-XI Sample Households engaged in Cultivation classified by interest in land and size of land cultivated

B-XII Sample Households engaged in Cultivation only classified by size of land cultivated, and number of family workers and hired workers

B-XIII Sample Households engaged both in Cultivation and Household Industry, showing size of land cultivated classified by principal Household Industry

B-XIV *Part–A* Households classified by Major Groups of principal Household Industry and number of persons engaged

Part–B Households classified by Minor Groups of principal Household Industry

B-XV Sample Households engaged both in Cultivation and Household Industry classified by size of land

B-XVI Sample principal Household Industry classified by period of working and total number of workers engaged in Household Industry

B-XVII Sample Households classified by (i) number of male and female members by size of Households and (ii) engagement (a) neither in Cultivation nor in Household Industry (b) in Household Industry only and (c) in Cultivation sub-classified by size of land cultivated

Out of the above seventeen Tables only Tables B-I, B-III, B-IVPart–C, B-V, B-VII, B-VIII and B-IX pertaining to Krishna district are reproduced in this Hand Book.

The Household Economic Tables are a special feature of this Census and are which prepared on the basis of a 20% sample of the returns in the Household Schedules filled up at the time of enumeration are given in a separate Volume entitled "Census of India 1961, Vol. II-Andhra Pradesh Part–III Household Economic Tables" and may be referred to.

The working population in each of the nine categories of workers and the non-working population is divided by broad Age-groups *viz.*, 0–14, 15–34, 35–59, 60 + and Age not stated in some of these Economic Tables.

TABLE B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This Table is prepared separately for Total, Rural and Urban population and is a summary Economic Table for the entire district. It gives the distribution of the population by sex among the nine Industrial Categories of Workers and also Non-Workers by the four broad Age-groups 0–14, 15–34, 35–59 and 60 + years. This is the basic Economic Table and the Age-groups correspond to the different stages of life which have special significance with reference to capacity to work *viz.*, children, young persons, middle aged persons and elderly persons. The classification of non-working population is made in other succeeding Tables.

This Table is prepared on the basis of the principal work of a person irrespective of the fact that the person may not be self-supporting from the income derived by that work. In the case of persons who are engaged in more than one work, which are also productive activities, the principal work is taken as that one which has been declared by the person himself as the work on which he

spends the longest time and not necessarily the work from which he derives the largest income. Thus the stress is on the concept of work and not income or dependency. The following explanation makes it clear as to who is treated as a Worker.

Workers

All persons who were engaged in some productive work during any of the 15 days preceding the day on which enumerated, irrespective of the fact whether they derived any income or not, are treated as Workers. In respect of seasonal work like Cultivation, Livestock, Household Industry, *etc.*, if the person had some regular work for more than one hour a day throughout the greater part of the working season, he is recorded as a Worker. Persons temporarily incapacitated from work at the time of Census enumeration due to illness or other cause are also treated as Workers. An undertrial prisoner in prison during the Census enumeration is also treated as Worker if he did some productive work before he was apprehended. Convicts in a prison or long-term inmates of hospitals or mental institutions, are not, however, treated as Workers. Persons under training as apprentices with or without wages are recorded as Workers. Family workers *i.e.*, who do not directly derive any income but attend to work along with other members of the family are treated as Workers. An adult woman who is engaged mainly in household duties and in no other economically productive work *i.e.*, a housewife, is not, however, treated as a Worker. Work includes not only actual work but also effective supervision. A public or social service worker who is actually engaged in public service activity or political activity is taken as a Worker. Thus all Workers in any branch of productive work are netted as Workers.

Non-Workers

All persons who are not Workers *i. e.*, those falling under the following categories are treated as Non-Workers:

(i) Fulltime students or children attending schools and who do no other work;

(ii) Persons engaged in unpaid home duties such as housewife;

(iii) Any dependant including an infant or child not attending school or a person permanently disabled from work because of illness or old age;

(iv) A retired person who is not employed again, a rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;

(v) Beggars, vagrants or independent women without indication of source of income and others with unspecified source of existence;

(vi) A convict in jail or an inmate of a penal, mental or charitable institution;

(vii) Unemployed persons seeking employment for the first time;

(viii) Persons employed before but now out of employment and seeking work.

TABLE B-III-INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This Table is divided into two parts. *Part A* relates to Urban areas and *Part B* relates to Rural areas. The distribution according to different educational levels of each of the nine categories of Workers and also the Non-Workers is given in this Table.

In *Part-A* which relates to Urban areas only, the data are given for all the Urban areas of the district put together and separately for Bandar (Masulipatnam) and Vijayawada Cities by the following educational levels :

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation or Higher Secondary

Technical diploma not equal to degree

Non-technical diploma not equal to degree

University degree or Post-graduate degree other than technical degree

Technical degree or diploma equal to degree or Post-graduate degree

Engineering

Medicine

Agriculture

Veterinary and Dairying

Technology

Teaching

Others

In *Part-B* the data which relate to Rural areas only are given for the district, followed by taluks by the following educational levels.

Illiterate

Literate (without eductional level)

Primary or Junior Basic

Matriculation and above

A "Literate" is a person who can, with understanding both read and write. He should be able to read any matter in print or manuscript and also be able to write a simple letter. A person who can neither read nor write or can merely read and cannot write is considered as illiterate. All children aged 4 years and below are treated as illiterates. The test for education is that the person should have passed a recognised written examination or examinations as proof of the educational level attained. The highest examination passed is taken as the level of education.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX, AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table is divided into three parts.

Part-A shows Industrial Classification by sex and class of worker of persons at work at Household Industry for Total, Rural and Urban population. The data are shown first for the Division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification under that Division.

Part-B shows the Industrial Classification by sex and class of worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service for the Total and Urban population. In this part also the data are presented first for the Division followed by the Major Groups in the order laid down in the Indian Standard Industrial Classification.

Part-C shows the Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than cultivation for Total and Urban population. The data are presented first for the Division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification. Under each Major Group the corresponding Minor Groups are shown.

Only *Part-C* is reproduced in this book upto district level. Minor Groups having less than 1% of Workers of the respective Division (0.5% in the case of Division 2 & 3) are not given in this Table but given in the Appendix to this Table.

" *Household Industry* " is an industry conducted by the head of the Household himself and/or mainly by members of the Household at home or within the village in the Rural areas and only at home in Urban areas. The industry should not be run on the scale of a registered factory and should relate to production, processing, servicing, repairing or making and selling of goods.

An *"Employer"* is a person who has to employ other persons in order to perform the work. Such a person is not only responsible for his own personal work but also for giving work to others. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An *"Employee"* is a person who usually works under some other person for salary or wages in cash or kind. Persons who are employed as managers, superintendents, agents, *etc.*, and in that capacity employ or control other workers on behalf of their own employers are not regarded as employers.

A *"Single Worker"* is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. Single workers also include persons who work in joint partnership with one or several persons hiring no employees, and also a member of a Producers' Co-operative. Each one of the partners or members of such Producers' Co-operatives is recorded as a *"Single Worker"*.

A *"Family Worker"* is a member who works, without receiving wages in cash or kind, in an Industry, Business or Trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. Such an Industry, whether run at home or away from home in town or village and even away from village in the Rural areas should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory Members of a family include those drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work or the business carried on either by the person or Head of the Household or other relative. Members of the Household who help solely in Household duties are not treated as family workers.

Note:—In respect of Household Industry, by the very nature of the participation of the workers in a household Industry all the four categories of workers are not recognised. Only the "employees" if any, in a Household Industry are categorised as such. The rest are clubbed together as "others".

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table shows, for the Total and Urban population, the Occupational Classification of persons working in Non-Agricultural occupations. The data are presented first for the Division followed by the Occupational Groups in the order of the National Classification of Occupations. Under each Group the detailed Occupational Families are shown. Occupational Families, accounting for less than 1% of the Workers of the respective Division (less than 0·5% in case of Families under Division 7–8) are not given in this Table but shown in the Appendix to this Table. The particulars for the district are given down to the Occupational Family while the talukwise and cities particulars are given upto Division level only.

The Occupational Classification given in this Table is quite distinct from the Industrial Classification presented in Table B–IV Part-C. Occupational Classification relates to the actual work a person does irrespective of the industry in which he is engaged, *e.g.*, a person who is a clerical worker for Occupational Classification may be connected with Industry, Trade or Service. Conversely in the same Industrial Category there may be persons following different Occupations such as, technicians, managerial workers, clerical workers, watch and ward, *etc.* Therefore in this Table under each Occupational Division, Group and Family the broad Industrial Category of the worker is also given.

TABLE B-VII—*PART-A* PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY, (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

PART-B INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

This Table is divided into two parts:

Part-A shows the persons working principally as Cultivator or as Agricultural Labourer or at Household Industry and who have secondary work in the other two alternatives from among Household Industry or Cultivation or Agricultural Labour. The data for the district are given for Total, Rural and Urban population by Industrial Divisions and Major Groups. For the taluk, however, the particulars are given for Rural population and by Divisions only. Particulars for Bandar (Masulipatnam) and Vijayawada cities are also presented upto Division level.

Part-B shows the persons working principally in Non-Household Industry, Trade, Business, Profession or Service and also engaged at Household Industry as secondary work by Industrial Divisions and Major Groups. The data for the district are presented for the Total, Rural and Urban population by Divisions followed by the Major Groups of that Division. The talukwise data are presented for Rural population by Industrial Divisions only. Praticulars for Bandar (Masulipatnam) and Vijayawada cities are also presented upto Division level.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS

This Table shows the distribution of persons unemployed aged 15 and above by sex and educational levels for Urban and Rural areas separately in two parts.

In *Part-A* which gives data relating to all the urban areas of the district taken together and separately for Bandar (Masulipatnam) and Vijayawada cities, the unemployed have been subdivided into two classes, *viz.*, (i) Persons seeking employment for the first time,and (ii) Persons employed before but now out of employment and seeking employment, and the data have been given by broad Age-groups and by educational levels. The first class of unemployed are divided into the Age-groups 15–19, 20–24, 25–29, 30–34, 35 + and Age not stated and the second class into the Age-groups 15–19, 20–24, 25–34, 35–44, 45–59, 60 + and Age not stated.

Part-B relates to Rural areas. The data in this part are given talukwise by educational levels. The data in this Table are not, however, given by Age-groups.

TABLE B–IX—PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This Table shows for the Total, Rural and Urban population, the persons not at work classified by sex, broad Age-groups and type of activity. The Non-Workers are divided into eight categories according to their activities, *viz.*, (i) Fulltime students ; (ii) those attending only to household duties ; (iii) Dependants, infants and disabled ; (iv) Retired persons, Rentiers or persons of independent means; (v) Beggars, vagrants, *etc.* ; (vi) Inmates of penal, mental and charitable institutions ; (vii) Persons seeking employment for the first time ; and (viii) Persons employed before but now out of employment and seeking work according to their activities. These eight categories are based on the recommendations of the United Nations. This Table provides information about those who have an income without working, about housewives, about school going children, besides other types of non-working population. The data for the district are presented for Total, Rural and Urban populations. The talukwise data are, however, presented for the Rural population only. particulars relating to Bandar (Masulipatnam) and Vijayawada cities are presented separately.

A total number of 162 males and 7 females have been returned as fulltime students in the Age-group 35-59 in this district. These elderly persons might be pursuing advanced studies in religion such as Christian Missionary Trainees, or in Vedas, Music or other Fine Arts, *etc.*, and hence classified as fulltime students.

A complete classification list giving the description of the Divisions, Major Groups and Minor Groups is given below for guidance In the Table B-IV Part-C and B-VII Part-B only the number of the Division, Major Group or Minor Group is shown. The description of the Industry, Business, or Service concerned can be found from the list below.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The Divisions and Major Groups with their Code Numbers are listed below.

Divisions

0	*AGRICULTURE, LIVESTOCK, FORESTRY FISHING AND HUNTING*
1	*MINING AND QUARRYING*
2 & 3	*MANUFACTURING*
4	*CONSTRUCTION*
5	*ELECTRICITY, GAS, WATER AND SANITARY SERVICES*
6	*TRADE AND COMMERCE*
7	*TRANSPORT, STORAGE AND COMMUNICATIONS*
8	*SERVICES*
9	*ACTIVITIES NOT ADEQUATELY DESCRIBED*

Major Groups

DIVISION 0–AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

00	*Field Produce and Plantation Crops*
01	*Plantation Crops*

02 *Forestry and Logging*

03 *Fishing*

04 *Livestock and Hunting*

DIVISION 1—MINING AND QUARRYING

10 *Mining and Quarrying*

DIVISION 2 & 3—MANUFACTURING

20 *Foodstuffs*

21 *Beverages*

73 *Communications*

DIVISION 8—SERVICES

80 *Public Services*

81 *Educational and Scientific Services*

82 *Medical and Health Services*

83 *Religious and Welfare Services*

84 *Legal Services*

85 *Business Services*

86 *Community Services and Trade and Labour Associations*

87 *Recreation Services*

88 *Personal Services*

89 *Services (not elsewhere classified)*

DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED

90 *Activities unspecified and not adequately described*

Classification and Code Numbers at the 3 digit level in respect of Minor Groups are shown in the subsequent pages :

Standard Industrial Classification showing the Divisions, Major Groups and Minor Groups

Major Group (Code)	Description	Minor Group (Code)
	DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING	
	00 Field Produce and Plantation Crops	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, *etc.*	007
	Production of Juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by Code Number 006 and flowers) not covered above	009
	01 Plantation Crops	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
	02 Forestry and Logging	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
	03 Fishing	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
	04 Livestock and Hunting	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043

Major Group (Code)	Description	Minor Group (Code)
	04 Livestock and Hunting—Concld.	
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk-worms and production of cocoons and raw-silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	DIVISION I—MINING AND QUARRYING	
	10 Mining and Quarrying	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	DIVISION 2 & 3—MANUFACTURING	
	20 Foodstuffs	
	Production of rice, atta, flour, *etc.* by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	20 Foodstuffs—Concld.	
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki chira, khoi, cocoa, chocolate, toffee, lozenge	209
	21 Beverages	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of Coffee in curing works	218
	Production of other beverages	219

Major Group (Code)	Description	Minor Group (Code)
22 Tobacco Products		
	Manufacture of bidi	220
	Manufacture of cigars and cheroots.	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23 Textile-Cotton		
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton cordage, rope and twine	239
24 Textile-Jute		
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of Jute	242
	Printing of Jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25 Textile-Wool		
	Wool baling and pressing	250

Major Group (Code)	Description	Minor Group (Code)
25 Textile-Wool—Concld.		
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textiles	256
26 Textile- Silk		
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27 Textile-Miscellaneous		
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277

Major Group (Code)	Description	Minor Group (Code)
27 Textile-Miscellaneous—Concld.		
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28 Manufacture of Wood and Wooden Products		
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29 Paper and Paper Products		
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
29 Paper and Paper Products—Concld.		
	Manufacture of products, such as paper bags, boxes, cards, envelops and moulded pulp goods from paper, paper board and pulp	292
30 Printing and Publishing		
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including, lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing, and other allied work connected with binding industry	303
31 Leather and Leather Products		
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by Code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32 Rubber, Petroleum and Coal Products		
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321

Major Group (Code)	Description	Minor Group (Code)
32 Rubber, Petroleum and Coal Products—Concld.		
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33 Chemicals and Chemical Products		
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35 Non-Metallic Mineral Products other than Petroleum and Coal		
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by Code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359

Major Group (Code)	Description	Minor Group (Code)
36	*Basic Metals and their products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardware such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39)	369
37	*Machinery (all kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
37	*Machinery (all kinds other than Transport) and Electrical Equipment—Concld.*	
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*	
	Manufacture, assembling and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386

Major Group (Code)	Description	Minor Group (Code)
38 Transport Equipment—Concld.		
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand drawn vehicles	389
39 Miscellaneous Manufacturing Industries		
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
DIVISION 4—CONSTRUCTION		
40 Construction		
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
40 Construction—Concld.		
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES		
50 Electricity and Gas		
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51 Water Supply and Sanitary Services		
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
DIVISION 6—TRADE AND COMMERCE		
60–63 Wholesale Trade		
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textile products such as garments, hessian, gunny bag, silk and woolen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603

Major Group (Code)	Description	Minor Group (Code)
60-63 Wholesale Trade—Contd.		
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, *etc.*	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil-oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
60-63 Wholesale Trade—Concld.		
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68 Retail Trade		
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, *etc.*	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645

Major Group (Code)	Description	Minor Group (Code)
64-68 Retail Trade—Contd.		
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, *etc.*	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piecegoods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobiloil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, *etc.*	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye-glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone records, pictures and paintings including curio-dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69 Trade and Commerce Miscellaneous		
	Importing and Exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696

Major Group (Code)	Description	Minor Group (Code)
69 Trade and Commerce Miscellaneous—Concld.		
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS		
70–71 Transport		
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, *etc.* by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
	Services incidental to transport such as packing, carting travel agency	710
72 Storage and Ware Housing		
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other types	722
73 Communication		
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
DIVISION 8—SERVICES		
80 Public Services (This does not include Government Quasi-Government or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)		
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments.	809
81 Educational and Scientific Services		
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810

Major Group (Code)	Description	Minor Group (Code)
81 Educational and Scientific Services—Concld.		
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82 Medical and Health Services		
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83 Religious and Welfare Services		
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, Red-Cross organisation for the collection and allocation of contributions for charity	832
84 Legal Services		
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85 Business Services		
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86 Community Services and Trade and Labour Associations		
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, *etc.*	862
87 Recreation Services		
	Production of motion picture and allied services such as processing editing, *etc.*	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871

Major Group (Code)	Description	Minor Group (Code)
87 Recreation Services—Concld.		
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing .	873
88 Personal Services		
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other orgainsations to provide lodging and boarding facilities . .	882
88 Personal Services—Concld.		
	Laundry services rendered by organisations and individuals ; this includes all types of cleaning, dyeing, bleaching, dry cleaning services	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89 Services (not elswhere classified)		
	Services rendered by organisations or individuals not elsewhere classified	890
DIVISION 9—ACTIVITIES NOT ADEQUATELY DESCRIBED		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

EXPLANATORY NOTE

C-SERIES

SOCIAL AND CULTURAL TABLES

Social and Cultural Tables prepared at the 1961 Census give information relating to composition of Sample Households, Age, Sex, Marital Status, Education, Mother-Tongue, Bilingualism and Religion of general population and also about Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers. The data are presented in eight Tables as indicated below :

C-I Composition of Sample Households by relationship to head of family Classified by size of land cultivated.

C-II Age and Marital Status

C-III Age, Sex and Education

Part A–All areas

Part B–Urban areas

Part C–Rural areas

C-IV Single Year Age Returns

C-V Mother-Tongue (in alphabetical order)

C-VI Bilingualism

C-VII Religion

C-VIII Scheduled Castes and Scheduled Tribes classified by Literacy and Industrial Category of Workers

Part A–Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes*

Part B–Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes*

All the above Tables pertaining to Krishna district except Tables C-IV Single Year Age Returns and C-VI Bilingualism are reproduced in this book.

TABLE C-I-COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

This Table, prepared on a 20% sample basis from the Household Schedules filled in at the time of enumeration, gives the composition of Households, separately for total, rural and urban areas in the district. The Households in the rural areas are further classified into three economic categories *viz.*, (i) Households engaged neither in Cultivation nor in Household Industry (ii) Households engaged in Household Industry only and (iii) Households engaged in Cultivation. In respect of the third category of Households the data are furnished separately for each of the eleven classes of Households according to the size of land cultivated *viz.*, (i) Less than one acre, (ii) 1·0–2·4 acres, (iii) 2·5–4·9 acres, (iv) 5·0–7·4 acres, (v) 7·5–9·9 acres, (vi) 10·0–12·4 acres, (vii) 12·5–14·9 acres, (viii) 15·0–29·9 acres, (ix) 30·0–49·9 acres, (x) 50·0 + acres and (xi) Size of holding unspecified. The composition of the Households is given in terms of the heads of Households, spouses of heads of Households, married sons and other married relations, other relations and unrelated persons. This Table will thus indicate the strength of the joint family system and will therefore be of sociological interest.

TABLE C-II—AGE AND MARITAL STATUS

This Table prepared on full count, gives the distribution of population both by age-groups and marital status separately for total, rural and urban population in the district, and for the rural population in each of the taluks and for Bandar (Masulipatnam) and Vijayawada Cities. This is a very important demographic table. A comparison of the data in this Table with corresponding data pertaining to the last Census will give an indication of mortality in different marital status and also in different age-groups. The Age-groups *viz.*, 0–9, 10–14, 15–19, 20–24, 25–29, 30–34, 35–39, 40–44, 45–49, 50–54, 55–59, 60–64, 65–69, 70 + and Age not stated adopted in this Table conform to international requirements. Age-group 0–9 is automatically treated as 'Never Married' for the purpose of this Table. The proportion of increase or decrease in the various Marital Status since the last Census and the trends in the age at marriage can be studied from this Table. From the data of married females by Age-groups given under column 9 of this Table the future birth rates can also be forecast.

TABLE C-III—AGE, SEX AND EDUCATION

This Table gives the distribution of total population by broad educational levels, sex and by broad age-groups. This Table is divided into three parts.

Part A relates to all areas while *Part B and Part C* relate only to urban and rural areas respectively. The educational levels given for all areas and rural areas in *Part A and Part C* are the same while in respect of urban areas *in Part B* more detailed educational levels have been adopted. These educational levels are the same as those adopted in Table B-III for the Industrial Classification of Workers and Non-Workers by educational levels. This Table is useful in ascertaining the growth of literacy in the total population as well as in the different age-groups since the last Census.

TABLE C-V—MOTHER-TONGUE

This Table exhibits separately for the total, rural and urban population of the district and only for the rural population of each taluk and for Bandar (Masulipatnam) and Vijayawada cities the number of persons, males and females speaking a particular language as Mother-Tongue. The languages returned at this Census are given in an alphabetical order.

'Mother-Tongue' is the language spoken in childhood by the person's mother to the person or mainly spoken in the Household. If the mother died in infancy then the language mostly spoken in the Household is the Mother-Tongue. In the case of infants and deaf mutes the Mother-Tongue is the language usually spoken by the mother.

This Table is very important in view of the large number of languages and dialects spoken in the country and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the Constitution.

TABLE C-VII—RELIGION

This Table gives separately the distribution of total, and rural, urban population of the district and rural population only of taluks and of the population of Bandar (Masulipatnam) and Vijayawada Cities according to religion. In Censuses earlier to 1941 the practice was to show the distribution of population religion-wise down to the village level. Since the 1951 Census this practice has been discontinued.

TABLE C-VIII-SCHEDULED CASTES AND SCHEDULED TRIBES

Part A–Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes*

Part B–Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes*

This is a general Table prepared for Scheduled Castes and Scheduled Tribes only and gives separately the total population of Scheduled Castes and Scheduled Tribes and their distribution by literacy and by classification of Workers into different Industrial Categories and the total number of Non-Workers. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This is the first time that the number of literates amongst the Scheduled Castes and Scheduled Tribes are given separately. In addition to this Table some more Special Tables for Scheduled Castes and Scheduled Tribes pertaining to Krishna district have also been prepared and incorporated in this book under the series "SCT Tables".

TABLE C–I

COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

EXPLANATORY NOTE

D-SERIES

MIGRATION TABLES

The Tables in this series show the migration trends analysed on the basis of the results of the 1961 Census. The data are presented in the following seven Tables, which are reproduced upto district level and for all Cities and Town-Groups in the Publication "Census of India 1961-Volume II-Andhra Pradesh-Part II-C Cultural and Migration Tables" and these may be referred to for details.

D–I Non-Indian Nationals

D–II Place of Birth

D–III Migrants classified by place of birth and duration of residence in place of enumeration

D–III A Migrants from other States and outside India (less than 5 years duration) classified by Age- groups

D–IV Migrants to Cities classified by Sex, broad Age-groups, Educational levels and in case of Workers also by Occupational Divisions and Groups

D–V Cities showing population born locally, migrants from Rural areas and migrants from other Towns and Cities

D–VI Distribution of Industrial categories of Workers and Non-Workers by place of birth

In this Handbook only Tables D–I and D–II showing the Non-Indian Nationals and other migrants in Krishna district are reproduced.

TABLE D–I–NON-INDIAN NATIONALS

This Table shows the number of Non-Indian Nationals sex-wise in the district. The Non-Indian Nationals for the purpose of presentation of the data have been broadly classified into five groups *viz.*,

(i) Nationals of Countries in Asia beyond India (including U.S.S.R.)

(ii) Nationals of Countries in Europe (excluding U.S.S.R.)

(iii) Nationals of Countries in Africa

(iv) Nationals of Countries in two Americas

(v) Nationals of Countries in Oceania

The name of the country of which the person is a National is given separately under each group. The persons who have not recorded any Nationality have been shown separately. Nationals of Goa, Diu, Daman and Pondicherry have been treated as "Born in India"

TABLE D–II–PLACE OF BIRTH

This Table prepared as in all previous Censuses gives the distribution of population by birth place. The data are presented both by the place of enumeration and by the place of birth classified separately into Rural and Urban areas. An important change in the presentation of the data at the present Census is that the place of birth has been classified separately as Rural and Urban. This two-fold representation of the data enables one to study the migration trends not only within the district and from outside the district but also from Rural to Urban areas and *vice-versa*.

EXPLANATORY NOTE

E–SERIES

HOUSING TABLES

The Tables in this series give information on Housing. At the present Census when House numbering was done a few months before the general Census enumeration, the various particulars relating to each Census House were collected on a standardised All India Schedule called 'House List' which is reproduced below.

CENSUS OF INDIA 1961

HOUSE LIST

Name of District.....(Code No.....)

Name of Island/Taluk/Tehsil/Thana/Anchal/Town.....(Code No.....)

Name of Village/Ward/Mohalla/Enumerator's Block.....(Code No.....)

Line No.	Building number (Municipal or local authority or Census number, if any,	Building number (Col. 2) with sub-numbers for each Census House.	Purpose for which Census House used, *e.g.*, dwelling, shop, shop-cum-dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel etc.,	If the Census House is used as an Establishment, Workshop or Factory			
				Name of establishment or proprietor	Name of product (s), repair or servicing undertaken	Average No. of persons employed daily last week (including proprietor, or household members, if working)	Kind of fuel or power if machinery is used
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

Description of Census House		Sub-numbers of each Census Household with Census House number (Column 3)	Name of head of Household	No. of rooms in Census Household	Does the Household live in own or rented house? (a) Own (O), (b) Rented (R)	No. of Persons residing in Census Household on day of visit			Remarks
Material of wall	Material of roof					Males	Females	Total	
(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)	(18)

The data have been collected uniformly for the first time at the present Census in the above form and are presented in the following five Tables.

E–I Census Houses and the uses to which they are put

E–II Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwellings

E–III Census Houses used as factories and workshops classified by Industry, power and no power used and size of employment

E–IV Distribution of Sample Households living in Census Houses used wholly or partly as dwellings by predominant material of wall and predominant material of roof

E–V Sample Households classified by number of members and by number of rooms occupied

All the above Tables give information upto taluk level, (except Table E–III which contains figures upto the district level only) and also in respect of towns having a population of 50,000 and more and are reproduced in the publication "Census of India, 1961, Vol. II– Andhra Pradesh–Part IV–B–

Housing and Establishment Tables" and it may be referred to for full details. In this Hand book only "Table E-I Census Houses and the uses to which they are put" pertaining to Krishna district is reproduced.

TABLE E—I—CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

This Table shows the number of Census Houses and the different uses to which they are put. The data are given down to taluk level and also for towns having a population of 50,000 and more; the data are presented separately for Total, Rural and Urban areas.

"Census House" is defined in the present Census as a structure, or a part of a structure, inhabited or vacant, or a dwelling, or a shop-cum-dwelling or a place of business, workshop, school *etc.*, with a separate entrance. If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common stair case, or a common courtyard, leading to a main gate, then each such block or flat is considered as a separate Census House. If within an enclosed or open compound there are separate buildings then each such building is treated as a separate Census House. If all the structures within an enclosed compound are together treated as one building then each structure with separate entrance is treated as a separate Census House.

EXPLANATORY NOTE

SCT-SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This series of Special Tables for Scheduled Castes and Scheduled Tribes gives the population of each Scheduled Caste and Scheduled Tribe classified by Religion, Age, Marital Status, Education and distributed by Industrial Categories adopted in Table B-I. After the 1931 Census, the population figures of individual Scheduled Castes and Scheduled Tribes are being given only at the present Census. The data are presented in the following five Tables:

SCT-I Industrial classification of persons at work and Non-Workers by sex for Scheduled Castes and Scheduled Tribes

SCT-II Age and Marital status for Scheduled Castes and Scheduled Tribes

SCT-III Education in Urban and Rural areas for Scheduled Castes and Scheduled Tribes

SCT-IV Religion for Scheduled Castes and Scheduled Tribes

SCT-V Sample Households engaged in Cultivation classified by interest in land and size of land clutivated *in Rural areas only* for Scheduled Castes and Scheduled Tribes

All the above Tables except Table SCT-IV are reproduced upto district level in this book.

Besides the above five Tables, the following three Special Tables, relating to either Scheduled Castes or Scheduled Tribes exclusively are reproduced.

SC-1 Persons not at work classified by sex, type of activity and educational levels for *Scheduled Castes only*

ST-I Mother-Tongue and Bilingualism for *Scheduled Tribes*

ST-II Persons not at work classified by sex and type of activity for *Scheduled Tribes*

These three Special Tables are also reproduced upto district level. The figures for Divi and Gudivada taluks are also given in this book in respect of Scheduled Castes and figures for Jaggayyapet Independent Sub-Taluk in respect of Scheduled Tribes as the Scheduled Castes/Scheduled tribes Constitute a larger proportion than the State average in these taluks.

In view of the safeguards provided in the Constitution for these communities, the Tables in this series will be of much use and guidance, especially when the Government are taking measures for the improvement of the condition of these communities by suitable welfare schemes under the Five Year Plans. The total Scheduled Castes and Scheduled Tribes population is given talukwise separately for Total, Rural and Urban areas and for each Town under the State Primary Census Abstract. The villagewise particulars are given under Village Directory.

The Scheduled Castes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October 1956. The list of Scheduled Castes in Andhra Pradesh is given below.

Note: Scheduled castes are recognised only amongst Hindus and Sikhs. Converts to other religions such as Christianity or Islam or Buddhism cease to belong to these castes

(1) Throughout the State :

1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano
10 Ghasi, Haddi or Relli Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva

17 Mala Dasu
18 Madiga Dasu and Mashteen
19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda :

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulvandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Malajangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

The Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule III of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the same Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Tribes in Andhra Pradesh is given below :

Note: Members of Scheduled Tribes may belong to any Religion.

(1) Throughout the State :

1 Chenchu or Chenchwar
2 Koya or Goud with its sub-sects Rajah or Rasha Koyas, Lingadhari Koyas (ordinary), Kottu Koyas, Bhine Koya and Rajkoya

(2) Throughout the State except Hyderabad, Mahbubnagar Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia Bentho-Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora
15 Porja (Parangiperja)
16 Reddi Dhoras
17 Rona, Rena
18 Savaras-Kapu Savaras, Maliya Savaras or Khutto Savaras
19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

(3) In the Districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam, and Nalgonda:

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

(4) In the Agency tracts :

1 Goudu (Goud)
2 Nayaks
3 Valmiki

As would be clear from the Tables, not all the above Castes and Tribes, will be found in all the Taluks of the district.

An abstract of the total Scheduled Castes and Scheduled Tribes population in Krishna district and its percentage to the total general population is given talukwise in the statement below.

Name of the District/Taluk	Total Rural Urban	General Population	Scheduled Castes Population together with percentage to general population	Scheduled Tribes Population together with percentage to general population
(1)	(2)	(3)	(4)	(5)
KRISHNA DISTRICT	T	2,076,956	223,332 (10·75)	37,473 (1·80)

TABLE SCT-I—INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for the Rural and Urban areas of district, the population of each Scheduled Caste and Scheduled Tribe classified by Industrial Category of persons at Work and Non-Workers by sex. The Table is divided into two parts. *Part A* relates to Scheduled Castes while *Part B* relates to Scheduled Tribes. This Table is important as it gives the strength of each of the Scheduled Castes and Scheduled Tribes, the working population among them and the sector of Industry in which the working population is engaged. The data are presented for the Rural and Urban areas separately.

TABLE SCT-II—AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for each Scheduled Caste and Scheduled Tribe the total population by Age and Marital status. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This Table corresponds to Table C-II for the total population; however, the Age-groups are restricted to 0-14, 15-44, 45 + and Age not stated only in both the parts of this Table. This Table enables us to know the percentage of each of the Scheduled Castes and Scheduled Tribes to the total population in the corresponding Age-group. Such communitywise data by Age and Marital Status for Scheduled Castes and Scheduled Tribes are being given for the first time at the present Census. The Age distribution and Marital Status data will give an indication as to whether the population of a Caste/Tribe is growing or declining.

TABLE SCT-III—EDUCATION IN RURAL AND URBAN AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows the literacy and educational levels for each Scheduled Caste and Scheduled Tribe separately for Rural and Urban areas. This Table is divided into *Part A* (*i*) and *Part A* (*ii*) relating to the Scheduled Castes and Scheduled Tribes respectively in Urban areas and *Part B* (*i*) and *Part B* (*ii*) relating to the Scheduled Castes and Scheduled Tribes respectively in Rural areas. In the case of Urban areas the educational levels adopted for giving the data are the same as those adopted in Table B-III *Part A* and in the case of Rural areas the data are given as in Table B-III *Part B*. This Table, therefore, enables us to know the proportion of each of the Scheduled Castes and Scheduled Tribes among the total population in different literacy and educational levels.

TABLE SCT-V—SAMPLE HOUSEHOLDS OF SCHEDULED CASTES AND SCHEDULED TRIBES ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED *IN RURAL AREAS ONLY*

This Table shows the sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only, separately for Scheduled Castes and Scheduled Tribes. The Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. The sizes of landholdings and types of interest in land cultivated adopted in this Table are the same as those adopted in Table B-XI.

TABLE SC-I—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR *SCHEDULED CASTES*

This Table shows persons belonging to the Scheduled Castes not at work classified by sex, type of activity *viz.*, fulltime students, persons seeking employment for the first time, unemployed but seeking work and others, by educational levels. The broad educational levels adopted are, illiterate, literate (without educational level), Primary or Junior Basic, Matriculation or Higher Secondary,and above Matriculation or Higher Secondary. This Table is prepared for total Scheduled Castes as a whole and not separately for each individual caste and the figures are exhibited for Total, Rural and Urban population. This Table will be very useful as it clearly illustrates the extent to which the Scheduled Caste children have taken to education and it also helps to plan employment for the unemployed members of the Scheduled Castes. This Table has been prepared for the Rural areas of Divi and Gudivada Taluks also as the percentage of Scheduled Caste population in the Rural areas of the above Two taluks exceeds the State average proportion of 14.88%.

TABLE ST-I—MOTHER-TONGUE AND BILINGUALISM *FOR SCHEDULED TRIBES*

This Table shows exclusively the Scheduled Tribes classified by Mother-Tongue and subsidiary languages spoken by them. The data are given for the Total, Rural and Urban areas in the district and for the Rural Population of Jaggayyapet Independent Sub-Taluk as the percentage of tribal population to total population in that Taluk exceeds the State average of 4·27%. The Scheduled Tribes have their own peculiar languages and dialects and this Table gives the language or dialect of each Tribe. In respect of the members of the Scheduled Tribes who have moved out of their homes and as a result of contact with the local population speak some other languages also, those subsidiary languages are also shown in this Table. The number of male and female speakers of the subsidiary languages is indicated in brackets after the subsidiary language under column 7 of the Table.

TABLE ST-II—PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY *FOR SCHEDULED TRIBES*

This Table shows for the district the persons not at work classified by sex and type of activity for each individual Scheduled Tribe. The types of activity under which the persons not at work are classified are the same as those adopted in Table SC-I *viz.*, fulltime students, persons seeking employment for the first time, persons unemployed but seeking work and others. In this Table the particulars are given according to the individual Tribe while in Table SC-I similar particulars in respect of Scheduled Castes are given for all Scheduled Castes taken together by educational levels. The present Table, however, shows the number of unemployed persons in each individual Tribe without reference to the literacy levels.

The data in this Table are presented for the Total, Rural and Urban areas of the district and also for the Rural areas of Jaggayyapet Independent Sub-Taluk as the percentage of the Scheduled Tribe population to total population exceeds the State average of 4·27% in the Rural areas of this Taluk as may be observed from the statement at the end of the General fly leaf to the "SCT-Tables."

PART IV

VILLAGE AND TOWN DIRECTORY

EXPLANATORY NOTE

VILLAGE AND TOWN DIRECTORY

This Directory renders an account of each village, as also each ward and each Enumerator's Block of a town. It gives the Location Code Number and name of each village/town, area of the village/town, and where inhabited, the number of Occupied Residential Houses, Census Households, Total Population, population of Scheduled Castes and Scheduled Tribes, Literate Population and Workers classified into the following nine Industrial Categories of Workers and the Non-Workers :-

I Cultivator

II Agricultural Labourer

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Household Industry

V Manufacturing other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services ; and

X Non-Workers

The data are presented talukwise, first for the rural portion in the "Village Directory" and next for the urban portion in the "Town Directory". In the Village Directory the villages have been arranged in the ascending order of the Location Code Numbers assigned to the villages within the taluk and in the Town Directory, in the ascending order of Location Code Numbers assigned to the towns in the taluk and also by each ward and Enumerator's Block in the ascending order. The taluk map given at the beginning of the Village Directory of each taluk showing the Location Code Numbers of each village and town and other particulars will help the easy location of the villages.

In the Village Directory, villages uninhabited and villages that have been completely merged in towns have been indicated accordingly. In respect of villages which are partly included within the town limits and partly fall outside the town limits the particulars for that portion included in the town limits *i. e.*, 'Urban Portion' are clubbed with the particulars of the town and given in the Town Directory and for that portion outside the town limits *i. e.*, 'Rural Portion' the data are given in the Village Directory along with other villages. The term "Rural" is indicated immediately after the name of such villages to make the position clear. In the presentation of data for the towns the particulars have been exhibited in ascending order of Municipal Wards or Blocks and also by Enumerators' Blocks and not according to the villages constituting the town. In order that each Enumerator's Block may be located, the jurisdiction of each Block *i.e.*, the houses covered by each Enumerator's Block in towns is indicated at the beginning of the Town Directory.

Under column 8 the area is given for the villages and towns in square miles based on the information furnished by the State Central Survey Office, the Tahsildars and by the Municipal authorities concerned. In respect of certain villages for which the area particulars are not available the abbreviation "N. A." has been recorded in this column. As the area of a taluk comprises not only the area of the villages but also the area of Reserved Forests etc., within the taluk, the areas of all the villages put together may not be equal to the area of the taluk.

Under columns 9 to 41 the Total population, Scheduled Castes and Scheduled Tribes population, Literate population, total number of Workers under each of the nine categories and Non-Workers are given by sex for each village/town.

The Taluk map found at the beginning of the Village Directory of each taluk shows the boundaries of each village and town, the important roads and railway lines, the rivers, if any, in the taluk. In this map the Location Code Number of each village is shown and the names of the towns and villages having more than 5,000 population, important tourist centres and places of great religious importance, etc., if any, are given. Urban areas have been shown by shading the area covered. Uninhabited villages and villages of different sizes of population, *i.e.*, below 2,000, 2,000-4,999, 5,000 and above are distinguished by distinct designs. An alphabetical

list of villages with the Census Location Code Numbers indicated against them is given after the taluk map and before the Village Directory. This list enables one to find out the Location Code Number of any village and thereafter to get the required particulars of the village from the Village Directory.

The information relating to Educational facilities, Medical and Public Health facilities, Drinking water facilities, Communication and Transport facilities and Electrification is also given villagewise in this section, for the first time besides the population data. These facilities are shown by symbols as explained below immediately after the names of the villages under columns 3 to 7.

(*i*) *Educational facilities are shown by the following symbols under column 3 :–*

P: Primary School

M: Middle School

H: High School

C: Institutions of higher education including Colleges

T: Technical Institutions

(*ii*) *Medical and Public Health facilities are shown by the following symbols under column 4 :–*

D: Dispensaries

Rhc: Rural Health Centres (Primary Health Centres)

Hos: Hospitals

Mcw: Maternity Child Welfare Centres

(*iii*) *Drinking Water facilities are shown by the following symbols under column 5: –*

S: Safe or Protected water supply including Tube wells, etc.

W: Well

Tk: Tank

Riv: River

C: Canal

(*iv*) *Communication and Transport facilities are shown by the following symbols under column 6:–*

Po: Post Office

To: Telegraph Office and Public Call Office

Rh: Rest Houses and Choultries

R: Road

Rly: Railway

(*v*) *Electrification facilities are shown by the following symbols under column 7:–*

E: Electricity

E(I): Electricity in Industrial use

E(A): Electricity in Agricultural use

E(D): Electricity in Domestic use

Where figures like 5P, 2H, etc., occur they denote that the village or town has 5 Primary Schools, 2 High Schools, etc.

Besides presenting the information relating to the above facilities in the Village/Town Directory, certain other important particulars, *viz.*, sources of irrigation, crops raised, value of land, Co-operative Societies, Police Stations, Veterinary Hospitals, Reading Rooms, Places of Public Entertainments (Cinemas), Industrial Establishments and Rural Handicrafts are also given talukwise in separate Sub-Tables immediately after the Village and Town Directory. The Sub-Tables are numbered as follows :–

Sub–Table 1 :	Sources of Irrigation, crops raised and value of land
Sub–Table 2 :	Co–operative Societies
Sub–Table 3 :	Police Stations
Sub–Table 4 :	Veterinary Hospitals
Sub–Table 5 :	Reading Rooms
Sub–Table 6 :	Public Entertainments (Cinemas)
Sub–Table 7 :	Industrial Establishments
Sub–Table 8, 9 & 10	Rural Handicrafts

In the Sub-Table 1 relating to the sources of Irrigation, crops raised and value of land, the particulars relating to the high and low prices of dry and wet land, the various important crops raised and the sources of irrigation are given village-wise.

Only the Location Code Numbers have been given in the Sub-Table without giving the names of the villlages. Villages having land of same value are grouped together. The following abbreviations are used in this Sub-Table.

Cereals	*Pulses*
J : Jonna or Cholam or Jawar	Blg : Blackgram
M : Maize	Gg : Greengram
P : Paddy	Hg : Horsegram
R : Ragi	Rg : Redgram
S : Sajja or Cumbu	
V : Variga	
W : Wheat	

Other Crops	*Irrigation Sources*
C : Cotton	C : Canal
Ch: Chillies	Riv : River
Cs: Castor Seeds	Tk : Tank or Kunta or Lake
G : Groundnut	Tw : Tube Well
Gi: Gingelly	W : Well
O : Onions	
Po: Potatoes	
Su: Sugar Cane	
T : Tobacco	
Tu: Turmeric	

In the Sub-Table 2 relating to Co-operative Societies, the various types of Co-op erative Societies functioning in each village have been presented talukwise. The data for the district are given in the beginning followed by the particulars relating to taluk. The abbreviations used for the different types of Co-operative Societies are given below. If a village is served by a Co-operative Society of another village it has been indicated accordingly.

B & GSCS :	Butter and Ghee Supply Co-operative Society
CFCS :	Collective Farming Co-operative Society
CICS :	Cottage Industrial Co-operative Society
CS :	Co-operative Society
ECS :	Employee's Co-operative Society
FICS :	Field Labourers' Co-operative Society
FICS :	Fishermen's Co-operative Society
HBCS :	House Building Co-operative Society
L & TWCS :	Leather and Tannery Worker's Co-operative Society
LSCS :	Large Sized Co-operative Society
MPCS :	Multipurpose Co-operative Society
MSCs :	Milk Supply Co-operative Society
PJCS :	Palm Jaggery Co-operative Society
SSCS :	Students' Stores Co-operative Stores
WCS :	Weavers' Co-operative Society

In the other Sub-Tables 3 to 6 relating to Police Stations, Veterinary Hospitals,Reading Rooms and Places of Public Entertainments (Cinemas) also, the data are presented in the same form as explained above i.e., first for the district and then for each taluk. Only the names of places where such facilities exist are given.

In the Sub-Table 7 relating to Industrial Establishments, the number of units under various industries existing in villages and towns are given. These particulars were mainly those collected through a schedule of industries and crafts issued to the village school teachers in connection with the Rural Craft Survey. In this schedule the data were to be given by the numbers of families; and as such, the families which had members engaged in any of the industries had been taken as units for that industry. In respect of some villages where the schedules had not been answered, the information was compiled from the houselists. Certain data were taken from other sources as well, such as the Village Directory furnished by the Tahsildars and the Survey of Industries conducted in the cities. It is, however, quite possible that there may be some villages for which the information could not be presented. Such omissions are, however, likely to be very few. The particulars are given separately for the rural and urban areas. Under the name of the district, the

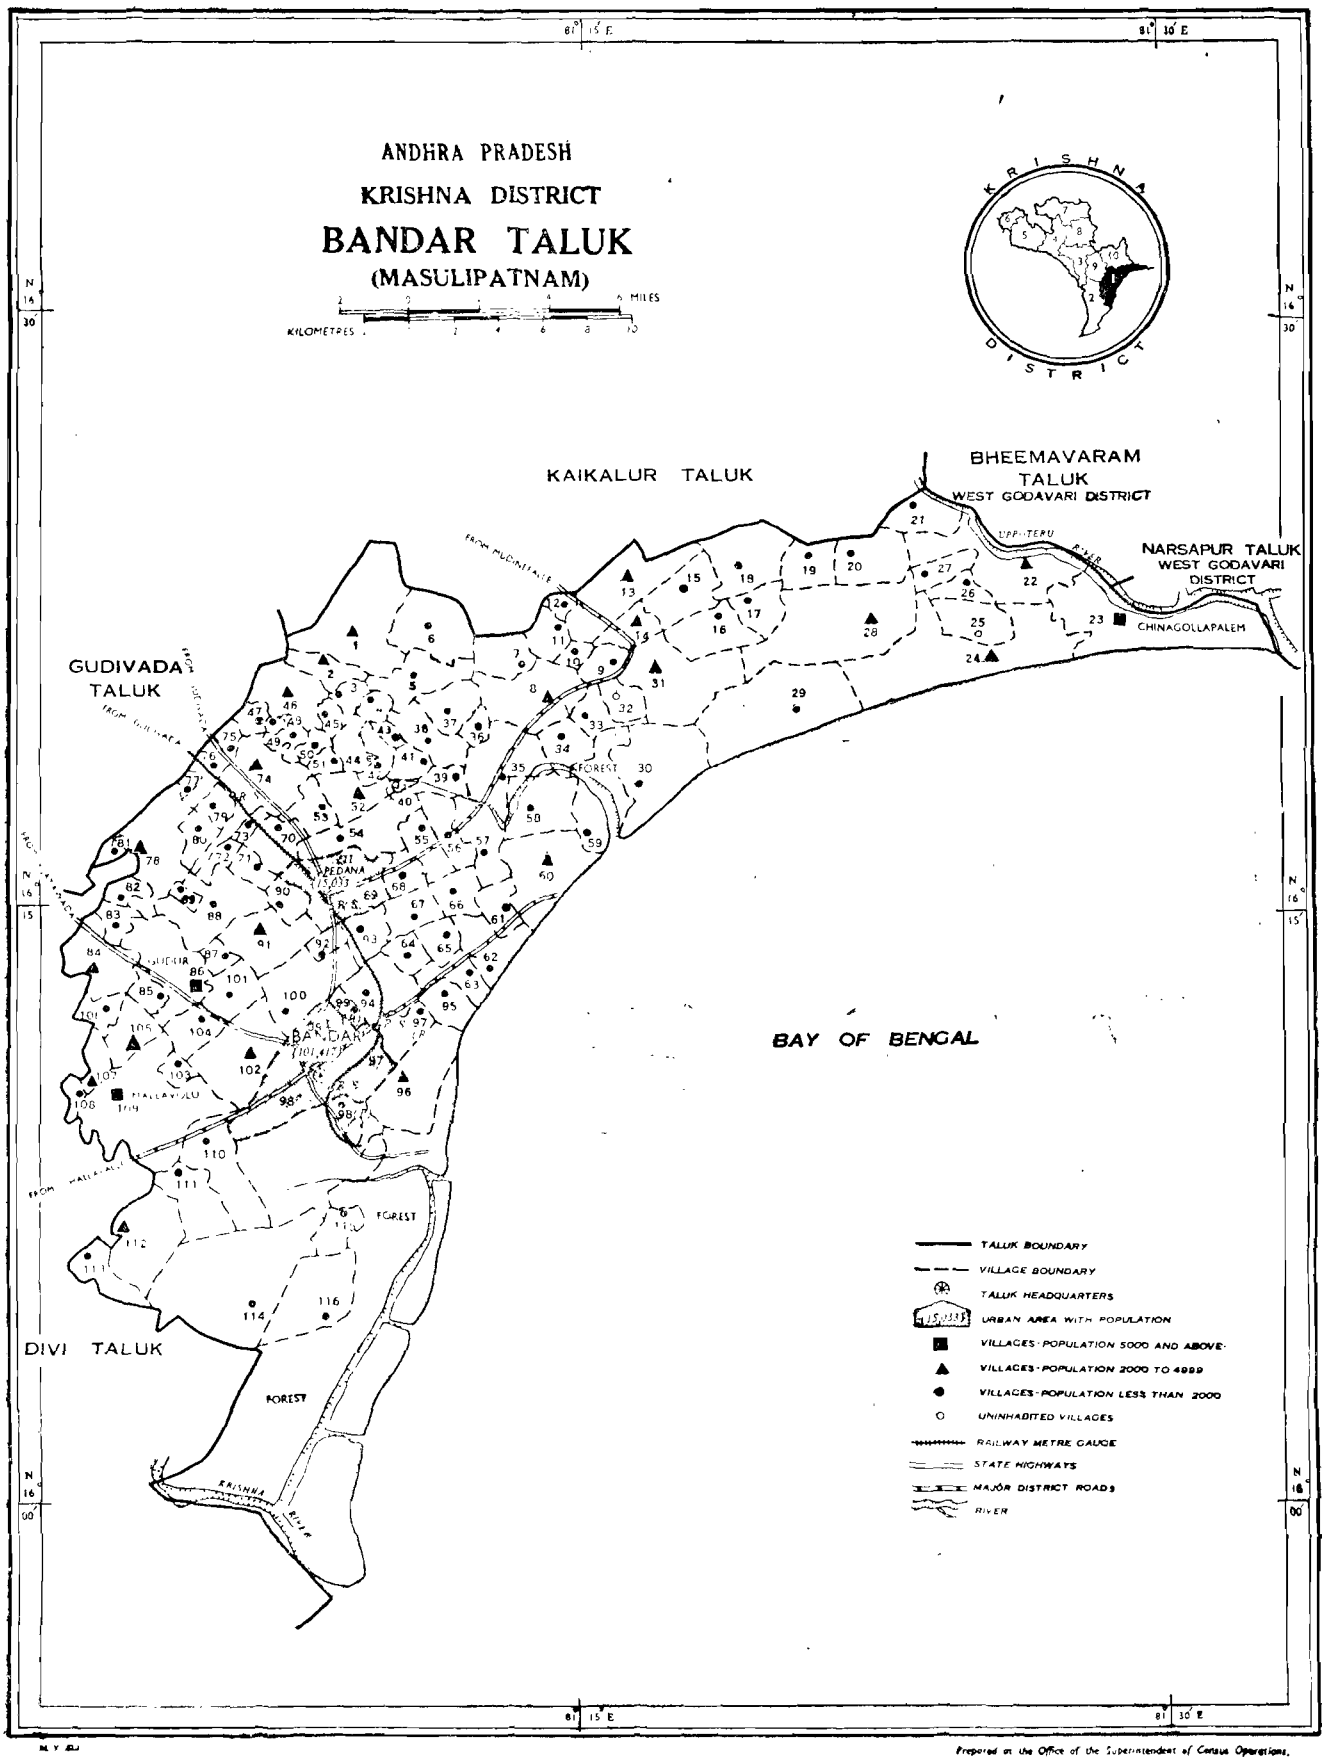

industries are arranged in the ascending order of Minor Groups of the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban areas separately. Then, the figures for the various taluks are presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village Directory. Against each Village/Town are shown the Minor Group Code Numbers of the industries or crafts found in that Village/Town with the number of units engaged in that Minor Group in brackets against each of the groups.

In the three Sub-Tables 8, 9 & 10 relating to Handicrafts information is given about the various Crafts practised, the number of persons engaged, the distribution of Artisan Communities, the number of families engaged in the Handicrafts, and the names of highly skilled craftsmen of each community, and the distribution of articles of crafts by main material used, source of design, manufacture, marketing and earnings. These particulars were mainly collected through a schedule of Industries and Crafts issued to the village school teachers in rural areas and to the Municipal authorities in the Municipal areas. In respect of cities the information was collected through the staff of the Census Tabulation Offices specially appointed for the purpose. In respect of some villages where the schedules have not been answered the information was taken from the Houselists prepared at the time of Housenumbering in 1960. A detailed report on the Handicrafts Survey is given in "Census of India,1961-Volume II–Andhra Pradesh- Part VII-A" and may be referred to.

In the Sub-Table relating to Fairs and Festivals given at the end of this section, the important fairs and festivals that take place in the village, the month in which they take place, etc., are given for each village having such importance. A detailed report on the Fairs and Festivals is, however, given in "Census of India 1961-Volume II-Andhra Pradesh-Part VII-B" and may be referred to.

All the information given in the various Sub-Tables in this section are based on the information furnished by the Heads of Departments, the District Officers, the Tahsildars and the Municipal authorities concerned.

BANDAR (MASULIPATNAM) TALUK

The following abbreviations have been used in this Village Directory and in the Village and Town Directories to follow :—

N A. : Not ascertainable

(*i*) *Educational facilities are shown by the following symbols under Col. 3*:—
P: Primary School, M: Middle School, H: High School, C: Institutions of higher education including Colleges, T: Technical Institutions

(*ii*) *Medical and Public Health facilities are shown by the following symbols under Col. 4*:—
D: Dispensaries, Rhc: Rural Health Centres, Hos: Hospitals, Mcw: Maternity Child Welfare Centres

(*iii*) *Drinking Water facilities are shown by the following symbols under Col. 5*:—
S: Safe or Protected water supply including Tube Wells etc., W: Well, Tk: Tank, Riv: River

(*iv*) *Communication and Transport facilities are shown by the following symbols under Col. 6*:—
Po: Post office, To: Telegraph office or Public call office, Rh: Rest House and Choultry, R: Road, Rly: Railway

(*v*) *Electrification facilities are shown by the following symbols under Col. 7*:—
E: Electricity, E(I): Electricity in Industrial use, E (A): Electricity in Agricultural use, E (D): Electricity in Domestic use

ALPHABETICAL LIST OF VILLAGES

DIVI TALUK

1961 Location Code No.	Name of Village
1	Ainampudi
62	Annaveram
91	Aswaraopalem
77	Avanigadda
13	Avurupudi
70	Ayodhya
9	Ayyanki
5	Barlapudi
2	Bhatlapenumarru
87	Bhavadevarapalle
65	Bhogireddipalle
23	Birudugadda
51	Bobbarlanka
25	Bollapadu
58	Challapalle
40	Chedepudi
28	Chilakalapudi
38	Chinakallepalle
10	Chinamuthevi
74	Chiruvolu
76	Chiruvolulanka
46	Chitturpu
21	Chitturu
88	Chodavaram
22	Daliparru
47	Devarakota
78	Edlanka
81	Edurumondi
24	Elikalakuduru
18	Endakuduru
82	Etimoga
84	Ganapeswaram
32	Ghantasala
97	Gollapalem
35	Gudapadu
86	Kammanamolu
57	Kaptanpalem
16	Kaza
54	Kodali
96	Koduru
50	Kokkiligadda
27	Kosuru
31	Kothapalle
4	Kuchipudi
59	Lakshmipuram
60	Lankapalle
94	Lingareddipalem
93	Machavaram
15	Maddipatla
19	Majeru
26	Mallampalle
95	Mandapakala
61	Mangalapuram
75	Melamarthilanka
71	Mellamarru
78	Merakanapalle
92	Modumudi
55	Mopidevi
54	Mopidevilanka
6	Movva
42	Nadakuduru
79	Nagayalanka
53	Nagayatippa
89	Nangegadda
14	Nidumolu
41	Nimmagadda
49	Pagolu
12	Palankipadu
83	Parrachivara
64	Pedakallepalle
11	Pedamuthevi
56	Pedaprolu
7	Pedapudi
3	Pedasanagallu
66	Pedayadara
67	Pittallanka
52	Puligadda
43	Puritigadda
20	Pushadam
17	Ramannapeta
68	Salempalem
36	Srikakulam
33	Tadepalle
85	Talagadadivi
72	Tekupalle
37	Teluguraopalem
80	T. Kothapalem
98	Ullipalem
48	Vakkalagadda
90	Vekanuru
39	Velivolu
29	Vellimalli Rudravaram
30	Vemulamada
45	Vemulapalle
63	Venkatapuram
69	Viswanadhapalle
44	Yarlagadda
8	Yeddanapudi

TIRUVUR TALUK

H. HASSAN

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

ALPHABETICAL LIST OF VILLAGES

TIRUVUR TALUK

1961 Location Code No.	Name of Village
21	Akkapalem
26	Anjaneyapuram
35	Anumullanka
14	Arlapadu
73	Arugolanupeta
39	Atlapragada
75	Burugagudem
67	Chandrupatla
74	Chatrayi
10	Chennavaram
12	Chinakomira
77	Chinnampeta
32	Chintalapadu
71	Chittapuru
27	Chittela
5	Dundiralapadu
17	Erramadu
33	Gampalagudem (East and West)
44	Ganugapadu
50	Gollamandala
9	Gosavidu
16	Gullapudi
72	Janardhanavaram
63	Kalagara
41	Kambhampadu
34	Kanumur
40	Koduru
24	Kokilampadu
70	Kondaparva
38	Konduru
3	Konijerla
64	Korlamanda
78	Kotapadu
84	Kothagudem
55	Kudapa
52	Kummarakuntla
59	Kunaparajuparva
25	Lakshmipuram
15	Lingala
60	Maddulaparva
54	Madhavaram (East)
53	Madhavaram (West)
47	Mallela
80	Mankollu
43	Marepalle
13	Medur
61	Muchinapalle
20	Munukulla
30	Mustiguntla
23	Nadimi Tiruvur
66	Narasapuram
37	Narikampadu
56	Narukullapadu
2	Nemali
76	Parvatapuram
28	Patha Tiruvur
11	Peda Komira
18	Peddavaram
8	Pengolanu
81	Polavaram
42	Poiisettipadu
79	Pothanapalle
49	Putrela
7	Rajavaram
22	Rajupeta
45	Ramannapalem
57	Rangapuram
58	Reddigudem
51	Repudi
31	Rolupade
83	Somavaram
68	Tatakuntla
62	Telladevarapalle
65	Tsanubanda
82	Tummagudem
6	Tunikipadu
1	Ummadidevupalle
46	Vallampatla
29	Vamakuntla
19	Vavilala
48	Vemireddipalle
36	Vinagadapa
69	Vissannapeta
4	Vutukur

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY

INDUSTRIAL ESTABLISHMENTS

KRISHNA DISTRICT

[note :-In the Sub-Table below relating to Industrial Establishments, the units of various industries existing in Villages and Towns are given. The particulars are given separately for the Rural and Urban areas. The industries are arranged, first for the district total in the ascending order of Minor Groups of industries under the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group code number, for Total, Rural and Urban areas separately. The figures for the various taluks are also presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village/Town Directory. Against each Village/Town are shown the Minor Group code numbers of the Industries or Crafts found in that Village/Town with the number of units engaged in the Minor Group in brackets against each of the Groups.]

Note :—Detailed description of Industrial Code (Minor Group) Numbers under which the Industrial Establishments are arranged in the above Sub-Table is given in the succeeding pages.

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Contd.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No. (1)	Description as per the Indian Standard Industrial Classification (2)
044	Rearing of bees for the production of honey, wax and collection of honey
200	Production of rice, atta, flour etc., by milling, dehusking and processing of crops and food grains
201	Production of sugar and syrup from sugarcane in mills
202	Production of indigenous sugar, gur, from sugar cane or palm-juice and production of candy
205	Production of bread, biscuits, cake and other bakery products
206	Production of butter, ghee, cheese and other dairy products
207	Production of edible fats and oils (other than hydrogenated oil)
209	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge.
210	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery
212	Production of indigenous liquor such as toddy, liquor from mahua, palm juice
214	Production of aerated and mineral water
215	Production of ice
216	Production of ice cream
218	Processing of coffee in curing works
220	Manufacture of bidi
221	Manufacture of cigars and cheroots
222	Manufacture of cigarette and cigarette tobacco
224	Manufacture of snuff
231	Cotton spinning (other than in mills)
233	Cotton dyeing, bleaching
235	Cotton weaving in handlooms
237	Printing of cotton textile
238	Manufacturing of cotton nets
239	Manufacturing of cotton, cordage, rope and twine
241	Jute spinning and weaving
244	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta
255	Wool weaving in handloom
265	Printing of silk textile
272	Embroidery and making of crepe lace and fringes
273	Making of textile garments including rain coats and head gear
274	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags
275	Manufacture of water proof textile products such as oil cloth, tarpaulin
277	Manufacture of coir and coir products
280	Sawing and planing of wood
281	Manufacture of wooden furniture and fixtures
282	Manufacture of structural wooden goods (including Treated-timber) such as beams, posts, doors, windows
283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures
284	Manufacture of other wooden products such as utensils, toys, artwares
287	Manufacture of boxes and packing cases other than plywood
288	Manufacture of materials from cork, bamboo, cane leaves and other allied products
289	Manufacture of other wood and allied products not covered above
292	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulpgoods from paper, paper board and pulp
300	Printing and publishing of news papers and periodicals
301	Printing and publishing of books
302	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry
303	All types of binding, stitching, sizing and other allied work connected with binding industry
310	Currying, tanning and finishing of hides and skins and preparation of finished leather
311	Manufacture of shoes and other leather foot-wear
320	Manufacture of tyres and tubes
331	Manufacture of dyes, paints, colours and varnishes
332	Manufacture of fertilizers
334	Manufacture of matches
335	Manufacture of medicines, pharmaceutical preparations perfumes, cosmetics and other toilet preparations except soap
336	Manufacture of soap and other washing and cleaning compounds
337	Manufacture of turpentine, synthetic resin and plastic products and materials (including synthetic rubber)
338	Manufacture of common salt
339	Manufacture of other chemicals and chemical products not covered above (including in edible oils and fats)
340	Manufacture of structural clay products such as bricks, tiles
342	Manufacture of lime
343	Manufacture of structural stonegoods, stone dressing and stone crushing
345	Manufacture of stone images
350	Manufacture of earthenware and earthen pottery
353	Manufacture of glass bangles and beads
355	Manufacture of earthen image, busts and statues
356	Manufacture of earthen toys and artwares except those covered by code No. 355
363	Manufacture of structural steel products such as joist, rail, sheet, plate

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Concld.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No.	Description as per the *Indian Standard Industrial Classification*
(1)	(2)
364	Manufacture of iron and steel furniture
365	Manufacture of brass and bell metal products
366	Manufacture of aluminium products
367	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can
368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products
369	Manufacture of sundry hardwares such as G. I. pipe; wire net, bolt, screw, bucket, cutlery. (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38 and 39)
370	Manufacture and assembling of machinery (other than electrical) except textile machinery
371	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors
374	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers
375	Manufacture of electric lamps and fans
377	Manufacture of all kinds of battery
378	Manufacture of electronic equipment such as radio, microphone
379	Manufacture of electric machinery and apparatus, appliances not specified above
380	Manufacture, assembling and repairing of locomotives
382	Manufacture and assembling of motor vehicles of all types (excepting motor engines)
383	Manufacture of motor vehicles, engines parts and accessories
384	Repairing and servicing of motor vehicles
388	Repairing of bicycles and tricycles
389	Manufacture of other transport equipment not covered above such as animal drown and handdrawan vehicles
390	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies
391	Manufacture of scientific, medical and surgical instruments and equipment and supplies
392	Assembling and repairing of watches and clocks
393	Manufacture of jewellery, silver ware, and wares using gold and other precious metals
394	Manufacture and tuning of musical instruments
395	Manufacture of stationery articles not covered elsewhere such as pencil, pen-holder fountain pen
399	Manufacture and repair work of goods not assignable to any other group

SUB-TABLE 8 TO VILLAGE & TOWN DIRECTORY

DISTRIBUTION OF ARTICLES OF CRAFTS BY MAIN MATERIAL USED, NUMBER OF PERSONS EMPLOYED IN PRODUCTION, SOURCE OF DESIGN, MANUFACTURE, MARKETING AND EARNINGS

(RURAL)

Branch of Industry Major Group of Indian Standard Industrial Classification	Name of Article produced	Name of main material used	No. of Villages engaged in manufacture	No. of Persons employed in production			No. of Villages engaged in manufacture of articles of		No. of Villages which produce for sale in open market	No. of Villages where there are Co-operative sales societies	Average earnings per worker per day (in Rupees and Paise)
				Persons	Males	Females	Traditional designs	All other designs			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)
KRISHNA DISTRICT
