FOREWORD

THE State of Orissa represents 4·9 per cent of the area and 4·02 per cent of the population of India. Nature has been generous in providing the State with untold wealth in minerals, water, fertile land and forests. The rich alluvial soil in the deltaic areas as well as along the river basins, as also most of the uplands, are capable of producing a large variety of crops. The water-shed areas of the major rivers and hill tracts are covered with vast forests of great economic value. The State has roughly half the mineral wealth of India hidden underground awaiting exploitation. Vast quantities of water flow down the rivers which, fortunately for Orissa, are strategically dispersed over the entire State, and, if harnessed properly, will banish the twin spectre of floods and droughts haunting vast areas of culturable lands, and at the same time provide water for irrigating millions of acres in the coastal areas and upland and for generating large quantities of hydroelectric power for use in industry, and also make available hundreds of miles of irrigation-*cum*-navigation waterways for inland transport and large areas for fish culture, recreation and tourism. These bounties of nature, the variety of picturesque landscapes and the long seacoast have attracted people from different parts of the country so that through the centuries a fine blend of human material and culture has developed. The ancient maritime achievements and the artistic stone edifices of great archaeological value stand out as symbols of the glorious past heritage.

The Census Operations during the past two decades have revealed many interesting statistical details. The Census Report of 1961 embodied in a number of Handbooks, each devoted to one of the 13 districts of the State, contains descriptive and statistical accounts intended to facilitate comprehensive study of conditions obtaining in a district as well as in the smallest village unit within it. I am happy to note that the plan and the scope of the Handbooks have been so designed as to make them useful books of reference.

The narrative account of each district covering geography, political history, population, education, economic activities, industries, agriculture and many other subjects, present a graphic picture of the district. This, along with the latest Census tables, giving the social, economic, cultural and demographic data of the district, give an extensive array of statistical record.

A notable feature is the detailed statistics given in the Village Directory in the Handbook for each district, containing various items of information relating to each one of the 46,466 inhabited villages. They furnish very valuable information, which would provide indispensable material required by research scholars, anthropologists, social workers and people engaged in rural and regional planning.

Another feature of the District Handbooks is that they have been further enriched by inclusion of maps of the districts as well as maps of all the police stations in the district, giving location, boundary and survey and alignment of each village within a police station. Combination of the maps with the informative data will indeed be very useful and is commended as a utility publication of a high order.

I congratulate the Superintendent, Census Operations, Orissa, Shri M. Ahmed, I.A.S., and his colleagues, staff and others who have helped him in producing the Census Reports in the form of Handbooks through remarkable perseverance and zeal. These Census Reports will rank as outstanding works of public utility.

A. N. KHOSLA
Governor of Orissa

PREFACE

AMONG the many gifts of the Census of India, one is the scheme of preparation and publication of the District Census Handbook which was first introduced in 1951. The Registrar General, India recommended to State Governments that the publication of the District Census Handbooks containing the Census data of 1951 for each district of the State be undertaken by them. In response, a number of States in India undertook the printing of the Handbooks relating to their respective districts at their own cost. In Orissa, however, the printing was not undertaken for reasons possibly of financial nature, but the Census Organization completed its task of preparing manuscript volumes of all the 13 districts of the State. Apprehending that the vast amount of labour and energy spent in the preparation of the complete set of Handbooks for the State would go to waste if printing was not undertaken, the Superintendent of Census Operations took resort to the alternative of cyclostyling about 100 copies of the Handbooks of each district, a measure which ultimately turned out to be no less burdensome than printing, in view of the great bulk of the volumes. These sets were distributed to the State Government, the Central Government and to important institutions and organizations. But it was found shortly afterwards that the demand from various sources was too large to be satisfied with the available number of cyclostyled sets. It was a mistake indeed not to have printed the books.

At the commencement of the Census of 1961, the Registrar General, India, recommended to all the Chief Secretaries of State Governments in India in his letter No. 27/1/60-RG., dated the 21st November 1960 that the State Governments take into consideration the great importance of the series of detailed statistics available up to the level of village for purpose of rural and regional planning, and agree to print at their own cost the District Census Handbooks of all the districts. The matter was given full consideration and ultimately the Revenue Department in their memo. No. VC—9/61-13593-R., dated the 13th March 1962 requested the Superintendent of Census Operations, Orissa, to arrange for preparation of the Handbooks and to send the manuscripts to the Orissa Government Press for printing in due course. The compilation of the present Handbook was undertaken by the Census Organization under the circumstances.

The Handbook as now presented is more elaborate than its counterpart in 1951. The main items of its contents were laid down in the scheme of the Registrar General with a view to ensure as far as possible uniformity of subject matters to be embodied in the Handbooks of all the States in India. According to the scheme, the Handbook is divided into 3 parts. Part I contains a Chapter, namely, Introducing the District, which is a descriptive account of the district relating to various aspects which a reader might feel inclined to look for before he enters into the vast array of statistics that follow. Subjects, such as, history, physical features, natural calamities, communication, public health, calendar of events and a multitude of others have been dealt within a brief but comprehensive scale, relevant for a publication of this nature. Part II of the Handbook contains a series of statistical Tables relating to 1961 Census in their great variety and details. Part III contains many official statistics obtained from various Departments of Government. Names of the Departments furnishing the informations are mentioned at the bottom of the text.

A considerable portion of this Handbook could not have been compiled but for the co-operation and assistance of the State Government and the respective Departments. The Departments concerned extended their unfailing co-operation in furnishing whatever notes or informations were required from time to time. I wish to record my appreciation and thanks for all the co-operation thus received from the Departments of the State Government, particularly from the State Gazetteer Section and the Statistical Units of the Directorates of Health, Public Instruction, Agriculture and Food Production as well as from the offices of the Chief Conservator of Forests, the Registrar of Co-operative Societies, the Director of Community Development and Panchayati Raj and the Regional Director of National Savings, Orissa. I am grateful to the Ministry of Defence, Government of India for having permitted the publication of the maps contained in this volume, and to the Registrar General, India, for giving an outline of the scheme according to which the Handbook has been prepared and for giving general guidance from time to time.

I am glad to place on record my unstinted appreciation of the zeal and perseverance with which the officers of this organization contributed to the preparation of the Handbook. Many of the facts and figures embodied herein had to be built up with a great amount of diligence from raw materials, some of which were recovered by contact with the lower administrative units and some picked up and

screened from a mass of reports and annual returns lying unchecked with the topmost departmental authorities. This was entrusted to Shri Shivakinkar Das, Tabulation Officer, who completed the task with admirable resourcefulness. The compilation of the Tables in Part II entailed strenuous work on the Central Tabulation Branch of my office, headed by Shri V. Rajeshwar Rao, Deputy Superintendent, who took pains for their systematic collation and presentation. Shri Binoy Charan Mohanty, another Tabulation Officer of the Organization, was useful in examining economic, industrial and some similar aspects of the district. The text of the political history of the district has been contributed by Dr. N.K. Sahu, M.A., Ph.D., a reputed scholar on the history of Orissa. I am thankful to him for taking trouble to provide an authoritative and illuminating account of the district. Finally, I can visualize the amount of strain which will have to be undergone by the officer who may eventually remain in charge of proof reading and printing, when the stage comes. Without the sincere co-operation of all these officers and the staff under them, it would have been hardly possible to present the formidable array of statistics and many other materials of non-census and census origin which fill the pages of this volume within the scheduled time.

PART I

INTRODUCING THE DISTRICT

Contains

Notes on Location, Physical features, History, Area and Population, Housing, Administration, Natural calamities, Communications, Education, Literacy, Economic activities, Industries, Agriculture, Irrigation, Animal husbandry, Public Health, Community Development, Panchayati Raj, Co-operation, National Savings, Places of interest and Calendar of important events.

INTRODUCING THE DISTRICT—KORAPUT

ORIGIN OF NAME AND LOCATION

Koraput was formed into a district under the Province of Orissa on 1st April 1936 when Orissa became a separate province. Prior to its inclusion in Orissa, it was a part of Vizagapatam district under the Madras Presidency, comprising mainly the agency tracts. The area was inhabited mostly by Scheduled Tribes population.

No authoritative version about the origin of the name of the district is available. The original centre of administration was Nandapur and it shifted to Jeypore during the time of Shri Vira Bikram Dev (1637—69 A.D.). Jeypore continued to be the seat of administration till 1870 A.D. when it was shifted to Koraput by the British officers, because Jeypore was highly infected with malaria and it was fondly believed that Koraput would be a healthier place on account of its still higher elevation and open situation. Thus Koraput came to be the headquarters of the district and the district adopted as its name the name of its headquarters. There are two surmises about the origin of the name Koraput. According to Mr. R.C.S. Bell, the name of the town is properly " Kora-putti " or the hamlet of *Nux Vomica*, and it is derived presumably from a tree or a grove of trees of this variety that at one time might have been prominent near the site. But according to local saying the word " Kora " is derived from the word " Khora " which is the surname of a certain Rona family who at one time served as warriors under Nandapur kings and settled in 'Purna Koraput,' a small village adjoining the present-day Koraput. The village where the Rona family settled is said to have been named " Khoraput " after the name of one Khora Nayak, who was the head of the village. In course of time the name " Khoraput " changed to Koraput.

Location

Koraput is the southernmost district of Orissa and it lies between 17° 48'N and 20° 7'N latitudes and between 81° 24'E and 84° 2'E longitudes. Its boundaries extend in the north to Raipur district of Madhya Pradesh and Kalahandi district of Orissa, in the south to Vishakhapatnam and E. Godavari districts of Andhra Pradesh, in the west to Bastar district of Madhya Pradesh and in the east to Srikakulum district of Andhra Pradesh and Ganjam district of Orissa. The district has an area of 9,918·95 square miles (according to the Surveyor General, India, the area is 9,864 square miles) and it occupies the first place among the 13 districts of the State in order of size.

PHYSICAL FEATURES

The district has an irregular shape roughly resembling the letter 'Y,' the uppermost two points being north-east and north-west of the district and the lowermost point is south-west. The north-east and north-west projections are separated from each other, as by a wedge, by Kalahandi district. The south-western portion of the district has projected into the adjoining State of Andhra Pradesh.

Natural divisions

It contains four widely dissimilar tracts each of which is separated by natural barriers. The easternmost tract which covers Rayagada subdivision consists of two broad, almost parallel valleys of the rivers Vamsadhara and Nagavali running over levels varying from 300 ft to 1,200 ft and with high and rugged hill ranges hedging them in. It contains rich cultivated lands and good forests. The second tract which is a 3,000 ft plateau extends from the north to the southernmost limit and is 110 miles long with an average width of 40 miles. The eastern end of the plateau passes through a chain of hills which are the highest in the district. The plateau drains westward into the basin of the Godavari through the tributaries, Indravati, Kolab and Machkund. The third natural tract is another plateau containing the

Jeypore and Nowrangapur Taluks having an elevation of 2,000 ft. It extends to the west and the north-west into the neighbouring State of Madhya Pradesh, draining westward through the Kolab and the Indravati. But in the north, it slopes the opposite way, dropping down into the valley of the river Tel, a tributary of the Mahanadi, which receives higher rainfall than the rivers running to the west. This tract forms the principal granary of the district. The fourth natural tract is Malkangiri taluk which contains the valley of the Machkund river, and is a flat plain declining from north to south with heights varying from 800 to 400 ft. The entire country is covered with jungle, inhabited by primitive tribes. The soil is poor in quality.

Hills, rivers, forests and soil

The hill system of the district makes an interesting study, being a section of the great line of the Eastern Ghats. The highest peak, Deomali (5,486 ft) occurs in the 3,000 ft plateau and is the highest in Orissa. There are many outstanding peaks in this plateau and in other table-lands, the most notable ones being Turia Konda (5,244 ft), Polamakani Parbat (5,201 ft), Meyamali Parbat (4,921 ft), Karnapadi Konda (4,879 ft), etc. The district has five large rivers. Two of them flow in the eastern part of the district and the remaining three, of which the Machkund is famous now on account of location of the Duduma Hydroelectric Project, flows westward and then southward before reaching the basin of the river Godavari. Forests cover an area of 5,521 square miles and are of the northern tropical semi-evergreen type. Teak and sal are predominantly found in these forests. Forests of bamboos and coarse grass rising up to a height of 10 ft are commonly seen in Malkangiri area. The district has mostly red soil except for a small patch in the north-east which has laterite soil and another patch in the north-west having laterite and black cotton soil. The rocks contain large deposits of manganese, mica and graphite and some of these minerals are now being worked out.

***Wild animals and birds**

The forests in the district are inhabited by wild animals, such as, deer, black sloth bear, tiger, panther, leopard, buffalo, bison, etc. Elephants are appearing in larger herds every year in Bissamcuttak taluk during rains and in winter, coming across from Baliguda subdivision of Baudh-Khondmals district. Wild dog, hyena and jackal are commonly found everywhere. Much damage in the district is caused by tigers. Loss of human lives due to tiger attacks are frequently reported. In the year 1961 there were as many as 111 casualties in Malkangiri police station alone and tiger havocs in Ambodala police station in Rayagada subdivision were reported almost daily.

The varieties of birds which are commonly found in the district in different seasons are as follows :

Jungle fowl	Throughout the year
Green Pigeon, Doves, Peacocks, Parrots, Hornbill (Kochila Khai), Wood pecker, Vulture, Skylark, Swallow	Particularly during winter and summer
Bhrungaraj, Kangalday	During rains and summer

Bhrungaraj bird is just of the same size as an owl but is black in colour. The first six named birds are edible.

****Climate and rainfall**

The climate of the major portion of the district which lies in the plateau region to the west of the Eastern Ghats is more like that of the Deccan Plateau than that of the eastern region. But

---

* Notes on wild animals and birds based on the report of the Collector, Koraput

** Adapted from notes of the Deputy Director General of Observatories (Climatology and Geophysics), India Meteorological Department, Poona

due to elevation and its situation in the north-east corner of the Deccan plateau, the climate is milder.

The year has four seasons. December is the coldest month of the year with a mean daily minimum temperature of 11·2°C (52·2°F). After January, both day and night temperatures progressively increase till May which is the hottest month, the temperature sometimes reaching 38°C (100·4°F). Thereafter, the temperature decreases with the onset of monsoons. During the monsoon, the weather is cool and pleasant with day temperature being nearly the same as during early cold season.

The average annual rainfall is 1,552 mm (59·92″). The spatial distribution of rainfall is largely influenced by the position occupied by the Eastern Ghats which run roughly from south-west to north-east. Areas to the eastern side of the Ghats get lesser rain than those on the Ghats and on the west, the latter being on the wind-ward side during the monsoon season. During other seasons, there is not much difference in the rainfall in the two areas. The annual rainfall over the areas on the Ghats and to the west is 1,703 mm (67·05″) and that over the eastern side of the Ghats is 1,226 mm (48·27″). During the monsoon season, 79 per cent of the annual rainfall is received, July and August being the wettest months. The variation in the annual rainfall in the district from year to year is not large. On an average there are 82 rainy days in a year.

Humidity of the air is generally high especially in the monsoon and post-monsoon months. In other months afternoons are comparatively drier. During summer, winds are generally light and blow from directions mainly between the south and the west. During the monsoon season winds strengthen and blow from south-westerly directions. The district is affected by depressions from the Bay of Bengal, particularly in September and October causing high winds and widespread rain. A few thunderstorms occur in the pre-monsoon months. Fogs occur occasionally in the months of November and December.

Mines

There has been no sustained prospecting in this district but it is known to be rich in mineral deposits. Among the minerals, fairly good deposits of iron, limestone and manganese are found at different places. Graphite in small quantity is found near Rayagada. Large and small-sized deposits of china-clay occur at several places of Koraput plateau. Kaolin in Nowrangapur, Rayagada and Gunupur subdivisions, and pottery clay deposits in the vicinity of Jeypore are the other minerals found. The minerals under quarrying in this district at present are graphite, mica and manganese, their production during 1961 being 29 tons 10 maunds, 19 tons 15 maunds and 17,978 tons 20 maunds respectively. The total number of workers engaged in mining and quarrying operations in the district according to 1961 Census was 339, composed of 305 males and 34 females.

HISTORY

The present district of Koraput formed, in ancient time, a part of Atavika territory. The Maurya Emperor Asoka conquered Kalinga in 261 B.C., but the land lying to the west of Kalinga could not be conquered by him. During the reign of Kharavela in the 1st century B.C. this territory was a great source of strength for Kalinga as it was the recruiting ground for her fighting forces.

During the 2nd century A.D. Koraput region formed a part of the extensive empire of Gautamiputra Satakarni, the Satavahana Emperor who ruled from 106 to 130 A.D. The Satavahana empire which extended from the Arabian sea to the Bay of Bengal maintained its integrity for several generations. In the 3rd century A.D. the kings of the Ikshvāku dynasty became the lord of the Eastern Deccan eventually ousting the Satavahanas. But by the middle of that century the Bastar-Koraput region came under the rule of the Vakataka king Pravarasena I. By the time Samudragupta invaded Kalinga in about 350 A.D., Koraput region was a part of the Mahakantara kingdom which was then under the rule of one, Vyaghraraja. Although this king was defeated

by Samudragupta, Koraput area did not constitute a part of the Gupta Empire and soon after the retreat of the Gupta invader the Nalas founded a kingdom with their headquarters at Puskari located near Umarkot. The Nala kings Bhavadatta Varman, Arthapati Raja and Skanda Varman, who flourished in 5th century A.D. were great enemies of the Vakatakas and protracted wars took place between the two dynasties. By the end of the 5th century A.D. the Eastern Gangas founded a new kingdom in Kalinga and extended their supremacy over Koraput area which was then known as Trikalinga. Early in the 7th century A.D. the Chalukyas of Badami spread their political supremacy over the Deccan. The most powerful ruler of this dynasty was Pulakesin II who occupied Kalinga and Trikalinga and defeated his rival Harsavardhan of Kanauj. After Pulakesin, Koraput area sank into obscurity up to the 9th century A.D. when it was conquered by the Somavamsis of South Kosala. The Bastar-Koraput region later on came to be known as Chakrakota and was occupied by Rajendra Chola in 1022 A.D. The Eastern Gangas under Vajrahasta V occupied this region after the death of Rajendra Chola. Since about that time the Gangas of Kalinga and the Kalachuris of Ratnapur claimed sovereignty over Koraput area and rulers of both the houses assumed the title of Trikalingadhipati. By the time the Gangas and Kalachuris contested for supremacy over Bastar-Koraput area, a new ruling dynasty named Chindakanaga ruled over that region enjoying semi-independent status. Someswara Deva, who ruled in the later part of the 11th century A.D., was the most important ruler of the dynasty. His Telugu-Choda feudatory Yasoraja conquered Sambalpur-Bolangir region where he laid the foundation of the rule of his own dynasty. In the middle of the 13th century the Chindakanagas were supplanted by the Matsya ruling dynasty in south-eastern part of Chakrakota and the new territory was known as Vaddadi. About that time the Silavamsis founded a kingdom in Koraput region with Nandapur as their capital. Biswanadha Raju, the Silavamsi prince of Nandapur, married Singama, the only daughter of the Matsya prince Jayanta Raju, some time before 1427 A.D. and this led to the amalgamation of the two kingdoms under Biswanadha Raju. Pratap Ganga Raju, the last Silavamsi king being useless, adopted a son named Binayak Deo from the Suryavamsi ruling family of Orissa and after the death of Pratap Ganga Raju the rule of the Suryavamsis was founded by Binayak Deo in Koraput. During the rule of Balaram Dev, the 4th in descent from Binayak Deo, Nandapur kingdom came under the Muslim occupation in 1571 A.D. Bikram Dev I, the 7th king of the dynasty, transferred the capital of the kingdom from Nandapur to Jeypore in the middle of the 17th century A.D. Raja Krishna Dev, who ruled from 1676 to 1681 A.D., occupied the Malkangiri area but during the time of Biswambhar Dev II (1712—1752 A. D.) Kashipur together with Chandragiri, Bissamgiri and Mahulpatna formed a part of Kalahandi.

The British got possession of the Northern Sircars in 1765 A.D. but actual British occupation of the Jeypore kingddm took place in 1775 A.D. In 1839, according to Act XXVI, most part of the district of Vizagapatam formed an agency and was directly administered by the Agent to Governor with extraordinary powers. This Act operated in the whole of Koraput district till it was abolished in 1952.

The district of Koraput formed a part of the province of Orissa in 1936. Shri Bikram Dev Varma, who ruled over Jeypore from 1931 to 1951, was an enlightened ruler and undertook various development works. In 1958-59 the Dandakaranya Development Project came into being to rehabilitate the displaced persons from East Pakistan and many areas in the district of Koraput, which form the important part of the project, have since been reclaimed for the purpose.

AREA AND POPULATION

Area

Koraput is the largest of the districts in the State and has remained so since its creation on the eve of the constitution of Orissa as a separate province in 1936. The area of the district has also remained constant during the last three Censuses of 1941, 1951 and 1961. Although the boundaries of the district have not undergone any change during the decade, the figures relating to the area of the district have varied according to official reports received from time to time. These figures are received from two different sources, namely, the Surveyor General, India and the local Revenue authorities. Both these sources reported the area of the district to be 9,875 square miles in 1951, but during 1961 Census, the figure was changed to 9,864 square miles by the Surveyor General, India and to 9,919 square miles in the reports of the local Revenue authorities. Agreement between the area figures of the district in 1951 was presumably due to their having been drawn from a common source at a time when the district was for the most part unsurveyed. The entire district, excepting a small area comprising the hilly portions locally known as Bonda Hill tract in Mathili and Malkangiri police stations, was covered by cadastral survey during the decade 1951-61 which forms the basis of estimate of area by the local authorities in 1961. It is difficult to reconcile the difference of 55 square miles between the two sets of figures in 1961 as the Surveyor General does not maintain the record of areas of administrative units below the district level. The area of smaller administrative units is available with the local authorities which are added up for getting the total area of the district and this figure has been adopted for calculation of density of population.

Area of lower units

The district was divided into three subdivisions at the time of 1961 Census, namely, Koraput, Nowrangapur and Rayagada. Each of the subdivisions is subdivided into taluks and police stations. Table A-I of the General Population Tables in this volume gives the particulars of area, density, villages, towns, houses, households and sexwise population of each of the above administrative units. However, the area of each subdivision together with the number of taluks and police stations is given below :

District/ Subdivision	Area in		No. of taluks	No. of police stations
	Sq. miles	Sq. Kms		
Koraput district	9,919·0	25,690·1	10	34
Koraput subdivision	2,060·0	5,335·4	2	9
Nowrangapur „	5,512·0	14,276·0	5	17
Rayagada „	2,347·0	6,078·7	3	8

Urban and Rural areas

There are altogether seven towns in the district covering a small area of 31 square miles, which signifies the restricted urban growth compared with the vast area of 9,888 square miles of rural area spread over 6,856 villages. The urban and rural areas in each subdivision are indicated below :

District/ Subdivision	Urban		Rural	
	Area in square miles	No. of towns	Area in square miles	No. of villages
Koraput district	31·0	7	9,888·0	6,856
Koraput subdivision	5·4	2	2,054·6	2,184
Nowrangapur "	16·1	3	5,495·9	2,361
Rayagada "	9·5	2	2,337·5	2,311

Territorial changes

No changes were made in subdivisional boundaries during the present decade. But the taluks were constituted or reorganized extensively. Koraput and Nandapur taluks in Koraput Sadar subdivision, Borigumma and Umarkot taluks in Nowrangapur subdivision and Bissamcuttack taluk in Rayagada subdivision were newly constituted to deal with land revenue administration due to the vesting of Jeypore estate in the State Government. The formation of

The transfer of Kashipur police station from Sadar subdivision of Kalahandi district to Rayagada subdivision in Koraput district and the formation of two new subdivisions with headquarters at Malkangiri and Gunupur are not included in the territorial changes as these events occurred after the Census reference day, the 1st March 1961.

these new taluks necessitated changes in the jurisdiction of old taluks, namely, Jeypore, Nowrangapur and Rayagada as indicated below :

Name of new taluk	Present jurisdiction	Remarks
Koraput ..	Koraput PS	
	Dasamantapur PS

	Padmapur PS
	Puttasingi PS

The construction of Machkund Hydroelectric Project and the development of Machkund town led to the creation of a new police station, Machkund by separating the required portion from Padwa police station. As the area of Venkatapalam PS was too unwieldy, Motu PS was newly carved out of it. Muniguda out post was abolished by merging it with Bissamcuttack PS. Similarly, Chandrapur OP was merged with Gudari PS. Maidalpur and Dheppiguda PSs of 1951 Census were reconstituted into two new police stations, namely, Pappadahandi and Padmapur respectively.

Comparison with other districts

This district with 16·49 per cent of the State's area and 8·54 per cent of the State's population occupies the first and fifth places respectively among all the districts. The following diagram gives a comprehensive picture of the size and population of the district compared with others :

PERCENTAGE OF POPULATION AND AREA OF DISTRICTS

Towns

A town is a continuous group of houses inhabited by usually not less than 5,000 persons which, having regard to the character of the population, the relative density of dwelling, the importance of the place as centre of trade, administration and human

associations, the Census authorities decide to treat it as a town for Census purposes. One important test with regard to the character of the population is that there must be considerable preponderance of inhabitants dependent on non-agricultural professions as means of livelihood.

Koraput and Kotpad qualified as towns in accordance with the liberal interpretation of the above definition during 1961 Census. The inclusion of these two new localities brought the total number of towns to seven. None of the old towns were declassified. The classification of the towns by population in 1961 Census with variation since 1941 are given in Table A-IV of the General Population Tables. The towns with their class sizes are given below :

Class of the town	Name of town	Population		
		Persons	Males	Females
Class III	Jeypore	25,291	12,789	12,502
Class IV	Rayagada	14,537	7,485	7,052
	Nowrangapur	10,380	5,402	4,978
Class V	Gunupur	10,180	5,148	5,032
	Koraput	7,461	4,290	3,171
	Kotpad	6,368	3,052	3,316
Class VI	Machkund	2,754	1,594	1,160

Villages

A village means a revenue village or a mauza other than that which is absorbed within the area of a town or a city. It may contain one or many groups of houses or hamlets, or on the other hand, contain no houses at all. The number of inhabited villages have declined from 5,746 in 1951 to 5,579 in 1961 Census while the number of uninhabited villages has increased from 216 in 1951 to 1,277 in 1961 Census. The percentage of villages and the percentage of population living in them by various population sizes in 1951 and 1961 are given below along with the respective figures for the State for comparative study :

Villages according to size of population		Koraput		Orissa	
		Percentage of No. of villages to total No. of villages	Percentage of population to total population	Percentage of No. of villages to total No. of villages	Percentage of population to total population
Less than 500	1951	91·40	67·49	84·00	51·70
	1961	86·79	55·38	77·80	41·66
500—999	1951	6·91	21·42	12·09	28·69
	1961	10·07	26·65	15·78	30·30
1,000—1,999	1951	1·53	9·12	3·41	15·24
	1961	2·78	14·30	5·41	20·24
2,000—4,999	1951	0·16	1·97	0·49	4·25
	1961	0·36	3·67	0·97	7·25

The decline in the percentage of small villages and the population living in them and the gradual increase in the percentage of villages with population of 500 and above and the population residing in them during the last decade are disclosed in the above statement. This trend is comparable with that of the State and no inconsistencies are noticed. However, large villages with population of 5,000 and above are absent in this district. The details of the villages classified by population sizes may be seen in Table-A III of the General Population Tables.

Density of Population

Although Koraput is the largest district so far as area is concerned, it is sparsely populated with a total of 1,498,271 persons. The density of 151 persons per square mile is much below the State average of 292 persons. The density in 1951 Census was 129 persons per square mile, which was equally low compared with the then State figure of 244 persons. The small increase is commensurate with the growth of population during the decade. The rural density works out at 144 persons and the urban density at 2,485 persons per square mile. Column 4 of Table A-I gives the density of each administrative unit in this district. Although the difference in the area of the district between 1951 and 1961 is only 44 square miles, the area of police stations has been affected considerably. While 18 police stations have decreased in area, 12 police stations have gained and only four police stations have maintained consistency during the decade. These changes reflected in the calculation of density of the concerned police stations in 1961 are not strictly comparable with the density of 1951 due to territorial changes. However, the peculiarities exhibited by the police stations when compared with 1951 Census are set forth below :

Police stations with increased area during 1951—61			Police stations with decreased afea during 1951—61			Police stations with no change in area during 1951—61		
Name of police station	Density in		Name of police station	Density in		Name of police station	Density in	
	1951	1961		1951	1961		1951	1961
Sadar	168	140	Semiliguda	153	208	Malkangiri	49	76
Padwa	284	161	Nandapur	120	192	Venkatapalam	27	35
Machkund	..	208	Dasamantapur	119	116	Motu	..	33
Lakshmipur	138	155	Narayanapatna	87	133	Mathili	87	98
Pottangi	143	108	Nowrangapur	135	515			
Umarkot	132	128	Tentulikhunti	190	299			
Boipariguda	197	110	Pappadahandi	176	225			
Bhairavasingpur	273	305	Kodinga	227	297			
Rayagada	221	200	Jorigam	109	145			
Bissamcuttack	164	148	Dabugam	112	162			
Gunupur	190	179	Jeypore	320	438			
Gudari	103	76	Kundra	116	236			
			Kotpad	210	328			
			Borigumma	320	352			
			Kalyansingpur	109	152			
			Padmapur	75	143			
			Puttasingi	86	114			
			Ambodala	56	130			

Of the twelve police stations in the first group, the growth of density of Lakshmipur PS above that of the district and of Bhairavasingpur PS above that of the State indicates that the increase in the area has been compensated by adequate increase in population. Although the density of Padwa, Rayagada and Gunupur PSs declined during the decade, it is above the district average. The remaining seven police stations have recorded density below that of the district. The low habitation is due to the vast areas being covered by hills and forests and non-availability of large tracts for cultivation.

Of the eighteen police stations in the second group, Dasamantapur is the only police station which has registered a density lower than that of 1951. All the remaining police stations have shown considerable rise in density during the decade. Six police stations, namely, Nowrangapur, Tentulikhunti, Kodinga, Jeypore, Kotpad and Borigumma have exceeded the density of the State, possibly because these areas constitute the granary of the district where food production is high as compared with the rest of the district. The five police stations, namely, Semiliguda, Nandapur, Dabugam, Kundra and Kalyansingpur have crossed the district density. The remaining six police stations which have shown increase in the density during the decade continue to be below the district level. Although most of these police stations are thinly populated, the decrease in the area after survey contributed to the rise in density.

Of the four police stations in the third group, Motu and Venkatapalam have the lowest density in the whole State in spite of the negligible increase because of their location on the top of hills. Malkangiri and Mathili PSs have recorded higher density during the decade, but they are much below the district average as the major portion of the area is covered by forests and is not suitable for habitation.

Growth of Population

The statement below shows variation of population of the district from decade to decade:

Year	Population	Percentage of variation
1891	690,303	—
1901	693,187	+ 0·4
1911	833,328	+ 20·2
1921	805,583	— 3·3
1931	949,652	+ 17·9
1941	1,127,862	+ 18·8
1951	1,269,534	+ 12·6
1961	1,498,271	+ 18·0

Reliable figures of population are not available for the first two Censuses held in the years 1872 and 1881. But it appears that population could not have grown remarkably during this period because of the great famine of 1876–78, the prolonged distress of which adversely affected the growth of population. Relief work was extensively opened. The material condition of the district was likely to have improved with the opening of the Ghat Road from Salur to Koraput and from Koraput to Jeypore in the year 1887. The inhabitants of the interior hilly areas who were not able to contact the outside world were now benefited by movement of goods and agricultural products by this road. In 1891, the population of the areas now constituting the district stood at 690,303. During this decade the road communications in the district were improved. The Ghat Road from Koraput to Jeypore was metalled in the year 1892. But another great famine came in the year 1896-97 which raised the death rate so high as to wipe out practically all the additions to the population which the decade was likely to have made. In 1901, when the Census was taken, there was a negligible growth of population amounting to 0·4 per cent. The decade 1901-11 was a period of peace and prosperity for the district except for the solitary occurrence of a localized famine in Bissamcuttack in the year 1910. The harvests were plentiful and the general public health was satisfactory. The result was seen in high percentage of increase of population in the Census of 1911 when the district gained by 20·2 per cent. Between 1911 and 1921, the district was very severely affected not only by stray incidents, such as, the high flood in the Vamsadhara river in 1913 but also by the widespread and destructive influenza calamity of 1918-19 which carried away a large number of population of the district. There was reduction of population by 3·3 per cent when the Census was taken in 1921.

From 1921 onwards, the district has been gaining in population consistently. There was extension of the Parlakhemundi light railway to Gunupur in the year 1929 which was a cause of additional prosperity of the land. Public health was good and so also the harvests. In 1931, the population rose to 949,652 after making a gain of 17·9 per cent in 10 years. The increase was specially rapid in Jeypore, Nowrangapur and Malkangiri taluks not only on account of good natural growth but also on account of rapid extension of cultivation in these areas, as well as of the return of emigrants to Rangoon in the last year of the decade, as a result of anti-Indian riots in 1930 in that city. Between 1931 and 1941 the rate of growth almost kept the same pace as in the previous decade. The

prosperity of the district was due once again to the opening of another railway line through the district, namely, Raipur—Vizianagram line in 1932. Road communications were developed to a considerable extent. The roads from Kolab to Padwa and Kolab to Malkangiri were opened in 1933-34 and the road between Koraput and Rayagada was opened in 1938. In 1938, there was, however, a very high flood in Gunupur taluk due to heavy rainfall in October. The Vamsadhara river damaged the cultivated lands by sand deposit. The Jeypore estate had to remit rent to the extent of Rs. 65,000 on account of the damage by this flood. The remarkable increase of population during this decade as well as in the decade 1921-31 was due partly to the gains from immigration from neighbouring districts by the influx of cultivators who were attracted by easy availability of land in this district. It was during this decade that the district was taken from Madras Presidency and annexed to the newly formed province of Orissa.

There was partial failure of crop in 1945 and 1950, but the harvest was good, ranging from 10 annas to 14 annas in other years of the decade. Although the rainfall is usually high, the annual normal being 59·58", the district is generally free from floods and famines. In 1949, however, there was a flood in the Indravati and the Kolab rivers causing fairly heavy damage to crops. In the year 1950, scarcity of foodgrains was felt in some localities particularly in Gunupur taluk on account of partial failure of crop but foodgrains were imported and the situation was saved. There was a severe outbreak of cholera in 1945 and again in 1949 and 1950. Smallpox usually prevailed in one part of the district or the other almost every year, but this did not cause severe loss of life except in the year 1942 when the attack was severe. There was extension of cultivation during the decade on account of the Intensive Cultivation Scheme and the Grow More Food Campaign. The decade on the whole was prosperous and was comparatively free from bad health and failure of crops. The population increased during the decade by 12·6 per cent so that the population of the district in 1951 was 1,269,534.

The last decade 1951-61 was a period of multifarious development and economic reconstruction. The completion of Machkund Hydro-electric project is the noteworthy scheme under power development. Koraput town is the headquarters of the Dandakaranya Development Authority under whose auspices large-scale development works for the rehabilitation of refugees have been taken up. Besides the major development schemes, major portion of the district was covered by the Community Development Blocks. All the police stations and important places are now connected by all-weather roads. This is a surplus district so far as food production is concerned. Industrialisation is also slowly gaining ground. Public health has improved considerably reducing the rate of mortality and the hazards of epidemics. Loss of life on account of natural calamities was negligible compared with previous decades. The percentage increase or decrease of population in each of the policestations during this decade is indicated in the statement below :

Increase (+)						Decrease (—)	
(Up to 9·9 per cent)		(10—19·9 per cent)		(Above 20 per cent)			
Name of PS	Per cent	Name of PS	Per cent	Name of PS	Per cent	Name of PS	Per cent
Borigumma	9·49	Koraput	13·83	Kotpad	21·08	Nandapur	0·03
Pad napur	8·10	Lakshmipur	15·41	Bhairavasingpur	24·07	Pottangi	2·21
Gudari	2·04	Narayanapatna	14·43	Jorigam	24·72	Machkund	4·52
		Semiliguda	13·55	Venkatapalam	20·03	Dasamantapur	5·23
		Pappadahandi	11·61	Rayagada	24·91	Padwa	13·04
		Tentulikhunti	16·36	Bissamcuttack	24·28		
		Jeypore	16·47	Nowrangapur	29·89		
		Boipariguda	14·22	Kundra	26·15		
		Kodinga	15·56	Dabugam	35·07		
		Mathili	12·98	Ambodala	37·26		
		Kalyansingpur	11·17	Umarkot	49·48		
		Gunupur	14·78	Motu	48·32		
		Puttasingi	16·84	Malkangiri	55·36		

The reduction in the population of the five police stations might have been the result of migration of tribal people practising shifting cultivation to the neighbouring police stations for participating in the developmental activities and earning better means of livelihood. The completion of the Machkund Hydroelectric Project has induced the labourers to move out to other areas where the construction activities are in progress. The tremendous growth of population in some of the police stations bears testimony to this type of mobility within the district. Although these few police stations have sustained loss of population during the decade, the district, as a whole, has registered 18·02 per cent growth of population which is a proof of good public health and of economic prosperity. The phenomenal growth in 13 police stations, above 20 per cent each exceeding the district average of 18·02 per cent and the moderate growth in the other 13 police stations with increase up to 20 per cent have adequately compensated the loss in the five police stations and the population at the end of the decade 1951-61 stood at 1,498,271.

Growth of Urban Population

The following statement shows the growth of urban population from decade to decade :

Year	Total	Decade variation	Percentage of decade variation	Male	Female
1921	9,669	..	..	4,652	5,017
1931	10,525	+ 856	+ 8·85	5,264	5,261
1941	19,920	+ 9,395	+ 89·26	9,902	10,018
1951	54,658	+ 34,738	+ 174·39	29,197	25,461
1961	76,971	+ 22,313	+ 40·82	39,760	37,211

Jeypore, which was declared as a town for the first time in 1921 Census, continued to be the only town in 1931 Census. Gunupur qualified to be a town in 1941 when the decade variation went up to 89·26 per cent. The addition of three towns, Rayagada, Nowrangapur and Machkund in 1951 Census and the two towns, Koraput and Kotpad in 1961 Census has substantially contributed to the urban growth. The urban population constitutes 5·1 per cent of the total population of the district. The decline in the sex ratio is perceptible for the last two decades, 1951 and 1961.

Age

In 1951 Census the age tables were tabulated on 10 per cent sample basis. But a departure has been made in the present Census by compiling the Tables on full count basis. The sexwise population in the broad age-groups according to 1961 Census are given below.

Children below 14 years constitute 36·9 per cent of the total population while persons in the working age-groups of 15—34 and 35—59 are 58·5 per cent. 4·6 per cent are old persons while the percentage of ' age not stated ' is negligible. Further division of the above age-groups are given in Table C-III of the Cultural Tables.

Age-group	Persons	Percentage of district population	Males	Percentage of district population	Females	Percentage of district population
All ages	1,498,271	100	753,398	50·3	744,873	49·7
0—14	551,908	36·9	275,035	18·4	276,873	18·5
15—34	544,390	36·3	264,135	17·6	280,255	18·7
35—59	332,729	22·2	178,655	11·9	154,074	10·3
60+	68,727	4·6	35,296	2·4	33,431	2·2
Age not stated	517	Negligible	277	Negligible	240	Negligible

Sex

The sex ratio of the district from 1901 is given below along with the ratio for the State.

The ratio indicates that females are always in deficit except for the decade 1931. The rise in the sex ratio of the district from 1901 is maintained till 1931 after which it assumed a gradual downward trend. The sex ratio in the rural areas is almost on par with the district ratio except for the small increase in 1951 and 1961. But the sex ratio of urban area has shown abrupt rise in 1961 consequent to the addition of two new towns.

Census year	Koraput			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
1901 ...	965	965	...	1,037	1,039	967
1911 ..	997	997	..	1,056	1,058	947
1921 ..	998	997	1,078	1,086	1,089	963
1931 ..	1,002	1,002	999	1,067	1,071	924
1941 ...	994	994	1,012	1,053	1,058	914
1951 ..	990	996	872	1,022	1,029	881
1961 ..	989	992	936	1,001	1,015	807

Marital Status

The marital status of all persons in the district in broad age-groups is furnished in Table C-II of the Cultural Tables. The marital status of 1,000 persons of each sex in general population compared with previous Censuses of 1951 and 1941 is given below :

Marital status	Males			Females		
	1961	1951	1941	1961	1951	1941
Never married	455	529	494	410	430	421
Married	507	439	468	503	440	473
Widowed	32	32	38	81	130	106
Divorced/Separated	6	..	..	6	..	..
Unspecified	N	..	..	N	..	..

The above figures indicate that the increase in the proportion of unmarried persons of both the sexes manifested in the decade 1941-51 with corresponding decrease in the proportion of married persons has been reversed in the decade 1951-61. The decline in the proportion of unmarried persons is a conspicuous feature of 1961. The distribution of 1,000 married persons by age-groups in each sex compared with the previous Censuses of 1951 and 1941 is given below :

Age-group	Males			Females		
	1961	1951	1941	1961	1951	1941
0—14	20	38	11	21	75	30
15—34	486	409	445	629	549	637
35—54	385	429	462	293	308	304
55 and above	109	123	82	57	66	29
Age not stated	N	1	..	N	2	..

The proportion of child marriages has considerably declined, as less than 2 per cent are found in this category. The age-group 15—34 has recorded the highest proportion in both the sexes, as it is the normal age-group for marriages. The proportion has declined in the age-groups 35—54 and 55 and above. No abnormal features are noticed in the civil condition of the people of this district.

N means Negligible

Language

Out of 58 languages returned as mother-tongue in the State, 28 languages only are spoken in the district. The number of speakers of each language, sexwise are given in Table C-V of the Cultural Tables. The distribution of 1,000 persons by mother-tongue compared with the proportion for the State in respect of the languages spoken in this district is given below :

Language	Koraput			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
Bengali	4	4	3	7	5	44
English	N	N	N	N	N	1
Gadaba	21	22	2	2	2	N
Gondi	12	13	1	1	1	N
Gujarati	N	N	5	1	N	7
Halbi	1	1	N	N	N	N
Hindi	8	8	17	10	5	87
Jharia	1	1	N	N	N	N
Kanada	N	N	N	N	N	N
Khond	53	55	10	8	9	2
Konda	7	8	N	1	1	N
Koya	21	22	2	2	2	N
Kui	109	114	3	29	31	1
Laria	N	N	...	3	3	1
Malayalam	N	N	..	N	N	4
Marathi	N	N	N	N	N	1
Marwari	N	N	N	N	N	1
Nepali	N	N	N	N	N	1
Oriya	607	610	538	823	835	644
Pengu	1	1	N	N	N	N
Parenga	1	1	N	N	N	N
Parji	56	59	8	5	5	1
Punjabi	N	N	2	1	N	5
Santali	N	N	...	21	22	N
Savara	37	39	9	12	13	3
Tamil	1	N	7	N	N	4
Telugu	57	41	363	23	17	99
Urdu	3	1	30	12	9	66

N means Negligible

The predominant languages of the district are Oriya, Kui, Telugu, Parji, Khond and Savara. While the proportion of speakers of Tribal languages and of Telugu is much higher than the State figures, the proportion of Oriya speakers is comparatively less.

Religion

The distribution of population by religion is given in Table C-VII of the Cultural Tables. The distribution of 1,000 persons in all the principal religions of this district from 1941 to 1961 is given below:

	1961	1951	1941
Hindus ...	977	979	975
Muslims ...	2	2	2
Christians ...	21	19	23

The above figures do not indicate any noticeable fluctuations in the proportion of different religions from decade to decade and the negligible differences can be ignored. Consistency is maintained in the growth of all principal religions of this district from decade to decade.

Migration

The movement of population within the district or from one district to another within the State or beyond the State, is generally necessitated by economic conditions and social ties. The record of place of birth determines if there has been any

migration. The following table gives the necessary information in terms of absolute figures and percentages :

	Persons	Males	Females
Persons born at place of enumeration	1,066,038 (71·1%)	633,156 (84·0%)	432,882 (58·1%)
Persons born elsewhere in the district of enumeration	356,399 (23·8%)	85,432 (11·3%)	270,967 (36·4%)
Persons born in other districts of the State	39,358 (2·6%)	18,347 (2·4%)	21,011 (2·8%)
Born in other States of India	30,861 (2·1%)	13,402 (1·8%)	17,459 (2·3%)
Born in countries outside India	4,766 (0·3%)	2,486 (0·3%)	2,280 (0·3%)
Unclassifiable ...	849 (0·1%)	575 (0·2%)	274 (0·1%)
Total ..	1,498,271	753,398	744,873

As it may appear, 71·1 per cent of the population of the district are enumerated at their birth places. 84·0 per cent of the males and 58·1 per cent of the females are born at the places of enumeration. Thus female migrants constitute 41·9 per cent and outnumber their male counterparts who are only 16 per cent. The above figures also show that 11·3 per cent of the males and 36·4 per cent of the females are born in the district of enumeration, 2·4 per cent of the males and 2·8 per cent of the females in other districts of the State and 1·8 per cent of the males and 2·3 per cent of the females outside the State. Although the predominance of the female sex is conspicuous in all the categories of migrants except those born outside the State and outside the country, the vast majority of them are within the district. It indicates that a large number of females have moved from one village to another or from one police station to another, mostly on account of marriage, while their participation in economic pursuits may be the secondary aspect. A majority of the males appear to have gone out of their birth places for economic reasons.

Migration has perceptible influence on the growth of population during the decade. Some of the police stations have recorded high percentage of growth of population as previously stated. If the percentage of growth in these police stations is analysed, the extent of migration can be easily ascertained. In working out the analysis of the following seven police stations, the migrants living for more than ten years are excluded in order to arrive at the percentage of population movement during the decade 1951-61.

Name of police station	Percentage increase of population 1951—61	Per centage of migrants to total population of police stations who are born			Percentage of rural immigrants to rural population
		(*a*) Within the same district	(*b*) Outside the district but within the State	(*c*) Outside the State	
Malkangiri ...	55·36	24·63	0·73	0·40	25·76
Umarkot ...	49·48	9·41	1·55	10·95	21·91
Motu ...	48·32	7·72	0·29	2·81	10·81
Ambodala ..	37·26	9·10	3·93	1·35	14·38
Dabugam ...	35·07	13·36	4·47	0·04	17·87
Nowrangapur ..	29·89	9·76	0·53	0·07	12·79
Kundra ..	26·15	15·72	0·20	0·06	15·99

The above figures indicate that the largest percentage is from within the district in all the police stations except Umarkot where the percentage of immigrants from outside the State is the highest on account of the concentration of developmental activities of Dandakaranya Development Authority.

Duration of residence usually determines the purpose of migration and the following statement shows the period of residence of the migrants in this district:

Duration of residence	Born elsewhere in the district of enumeration		Born outside the district but within the State		Born outside the State but within the country		Born outside the country	
	Males	Females	Males	Females	Males	Females	Males	Females
Less than 1 year	9,100	23,039	2,801	2,080	3,042	2,437	1,919	1,156
1— 5 years	23,220	71,914	4,617	6,271	3,577	4,708	301	1,021
6—10 years	13,736	43,943	3,061	3,826	2,567	2,894	178	25
11—15 years	12,263	40,547	3,510	3,267	1,941	2,413	29	21
16 years and over	25,107	85,764	4,134	5,296	2,145	4,641	44	12
Period not stated	2,006	5,760	224	271	130	366	15	45

The 'Unclassifiables' are omitted from the above statement due to their insignificant number. 49,173 males and 141,961 females have lived for more than a decade and may have to be regarded as semi-permanent or permanent migrants to this district. 19,542 males and 50,688 females have stayed for periods varying between 6 to 10 years. While majority of the males are to be deemed as job migrants, majority of the females have moved consequent to their marriage besides some economic activities. The males with short periods of residence, less than 1 year and 1—5 years, include birth migrants (that is, those born in the parental residence of their mothers), students for educational purposes, while a small number might be job migrants. Majority of the females with short periods of residence have the common reason of marriage though a small number might be participating in economic activities. Marriage, no doubt, is the chief motive of female migration, yet their participation in the economic pursuits cannot be ignored as will be evident from the vocational classification of sexes.

The industrial classification of the migrants is given below :

Industrial category	Born elsewhere in the district of enumeration		Born in other districts of the State		Born outside the State	
	Males	Females	Males	Females	Males	Females
I As Cultivator	33,454	82,108	4,086	4,043	2,144	3,706
II As Agricultural labourer	10,751	35,532	1,409	1,231	771	1,016
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards and Allied activities	1,415	1,518	200	83	277	35
IV At Household Industry	3,249	5,995	512	549	541	481
V In Manufacturing other than Household Industry	771	897	218	207	171	72
VI In Construction	253	61	240	13	352	73
VII In Trade and Commerce	1,524	1,505	669	314	633	246
VIII In Transport, Storage and Communications	708	2	312	8	301	7
IX In Other Services	12,025	21,520	5,273	2,212	3,807	1,155
X Non-workers	21,234	121,743	5,418	12,349	4,379	10,624

Migrants from outside the country are not included in the above statement as they constitute a small fraction. Although the non-working females are more than the males, the female participation in the economic activities of all the industrial categories is considerable.

The statement below shows the extent of in-migration and out-migration from the selected States and countries in order of their numerical importance :

State	Immigration		Emigration	
	Males	Females	Males	Females
Andhra Pradesh	6,519	9,288	1,528	2,452
Madhya Pradesh	2,992	6,729	Not available	
West Bengal	1,343	494	Not available	
Madras	738	287	Not available	
Kerala	913	21	Not available	
Assam	360	255	946	775
Outside India (Pakistan)	2,436	2,252	Not available	

The largest number of migrants are from the neighbouring States of Andhra Pradesh and Madhya Pradesh. The large number of female immigrants and emigrants to the adjoining States signifies the continuance of social relationship across the borders while immigration and emigration to distant States are necessitated by economic reasons.

Scheduled Tribes

A person is said to belong to a Scheduled Tribe, if he belongs to any one of the tribes specified in the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. There is no clear indication of the criterion for specifying the Scheduled Tribe, but it appears that the following aspects were taken into consideration, viz, (*i*) tribal origin, (*ii*) primitive way of life and habitation in remote and less accessible areas, and (*iii*) general backwardness. The number of tribes notified as scheduled for Orissa in the said order is 62 out of which 51 are found in this district. As the list of tribes has changed from Census to Census, the variation in their population from decade to decade is not a true index of the growth of tribal population. In 1951 Census, there were only fortytwo tribes in this State. But according to the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956, one tribe, namely, Gorait was omitted from the 1951 list and twentyone new tribes were added. These new tribes are Bhottada or Dhotada, Bhumia, Bhunjia, Bhumij, Desua Bhumij, Dharua, Didayi, Gandia, Holva, Kandhagauda, Kol, Kotia, Lodha, Madia, Matya, Omanatya, Parenga, Pantia, Rajuar, Shabar or Lodha and Sounti. The inclusion of these new tribes has contributed to the sharp rise of the tribal population during the decade 1951-61.

The tribal population of the district increased from 522,841 in 1951 Census to 912,343 in the present Census. The sex composition and the percentage to total population of the district in both the Censuses are given below :

	Tribal population of the district	Percentage to total population	Males	Females
1951	522,841	41·2	261,176	261,665
1961	912,343	60·9	455,972	456,371

The addition of the new tribes contributed to the proportionate increase during the 1961 Census. Another noticeable feature is the excess of females over males when this district is confronted with deficit female population.

There are twelve tribes which are numerically important in this district and their particulars are given below :

Name of the Tribe	Persons	Males	Females
Bhottada or Dhotada ..	157,768	79,617	78,151
Bhumia ..	49,584	24,477	25,107
Gadaba ..	42,560	21,430	21,130
Gond, Gondo ..	55,272	27,815	27,457
Jatapu ..	10,583	5,263	5,320
Khond, Kond or Kandha including Nanguli Kandha and Sitha Kandha ..	271,698	135,672	136,026
Kondadora ..	15,808	7,929	7,879
Koya ...	53,590	26,428	27,162
Omanatya ..	14,145	6,952	7,193
Paroja ...	141,694	70,681	71,013
Saora, Savar, Soura or Sabara ..	36,329	18,235	18,094
Shabar or Lodha ..	17,583	8,838	8,745
Total ...	866,614	433,337	433,277

The above twelve tribes constitute 94·98 per cent of the tribal population and the tribes at serials 1,2, 9 and 12 are the new additions in 1961. A complete list of the tribes may be seen in Table SCT-I Part B.

The industrial classification of all the tribes in this district is given below :

Industrial category	Males	Females
I As Cultivator ..	210,705	128,646
II As Agricultural labourer ..	55,627	50,160
III In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	3,733	2,023
IV At Household Industry ..	4,721	3,986
V In Manufacturing other than Household Industry ..	282	1,051
VI In Construction ..	132	42
VII In Trade and Commerce ..	534	931
VIII In Transport, Storage and Communications ..	291	10
IX In Other Services ..	29,312	30,142
X Non-workers ..	150,635	239,380

Majority of the tribes in both sexes are engaged in agricultural operations and 'other services.' The industrial classification for each of the tribes is given separately for Rural and Urban in Table SCT-I Part B.

The non-workers are divided into the following categories :

Classification	Males	Females
Total Non-workers ..	150,635	239,380
Full-time Students ..	16,639	7,298
Persons seeking employment for the first time ..	61	10
Persons employed before but now out of employment and seeking work ..	22	..
Others ..	133,913	232,072

While the number of persons seeking employment is negligible, that of full-time students is exceedingly low. Large number of non-workers in both the sexes appear to be occupied in household duties.

The civil condition of the tribal population in the broad age-groups is given below. Separate information for each of the tribes is given in Table SCT-II Part B. The number of married persons in both sexes is highest in the age-group 15—44 while maximum number of widowed persons are found in age-group 45+. The small number of married persons in the age-group 0—14 indicates the prevalence of child marriages.

Marital status	Age-groups							
	0—14		15—44		45+		Age not stated	
	Males	Females	Males	Females	Males	Females	Males	Females
Never married	161,438	159,327	37,611	22,266	350	322	54	10
Married	2,540	3,742	179,537	190,703	58,581	43,113	16	4
Widowed	14	3	4,384	10,642	9,522	23,962	2	1
Divorced/Separated	9	..	1,226	1,617	590	600	...	..
Unspecified status	45	..	32	31	21	28	...	...

Scheduled Castes

A person is said to belong to a Scheduled Caste if he belongs to any one of the castes specified in the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. 93 castes are notified as scheduled for this State in the

said order of whom 73 castes are found in this district. As in the case of Scheduled Tribes, no definite test has been prescribed for the specification of Scheduled Castes. But it appears that originally the prevailing notion of untouchability, though now abolished and forbidden under Article 17 of the Constitution, was the guiding factor in drawing up the list of untouchables or depressed classes which is more or less equivalent to the present day Scheduled Castes. The castes having professions which involve the physical handling of dirty and putrefying matter and other so called unclean jobs, such as ,skinning and tanning of hides, sweeping of streets, scavenging, etc., were grouped under this class of backward population. The objective was to confine the list to the section of population which on account of its traditional position in the society suffered from various religious and social disabilities, such as, prohibition from entry into temples, or drawing water from the village wells or admission of their children into the village schools. It was recognized that the criterion of classification of such backward population should gradually change from religious or social considerations to the degree of backwardness in economic and educational spheres.

As the lists of Scheduled Castes changed from Census to Census, the growth of Scheduled Caste population from decade to decade cannot be strictly compared. There were 92 Scheduled Castes at the time of 1951 Census. By the time 1961 Census took place, the list had been revised by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. Nine castes, namely, Bhumij, Desua-Bhumij, Dharua, Gunju, Kumbhar, Mochi, Padhan, Satnami and Sukuli from the 1951 list were omitted and ten castes, namely, Bhoi, Chakali, Chandhaimaru, Gorait, Kumaria, Musahar, Namasudra, Sauntia, Tanla and Vijia were added to the list. Their periodical alterations have affected the growth of population.

The Scheduled Caste population of this district has declined from 209,955 in 1951 to 186,438 in the present Census. The sex composition and the percentage of the Scheduled Caste population to total population of the district in both the Censuses are as follows :

	Scheduled Caste population of the district	Percentage to total population	Males	Females
1951 ..	209,955	16·5	112,514	97,441
1961 ..	186,438	12·4	93,123	93,315

The decrease in the Scheduled Caste population during the decade is perceptible. In the absence of the castewise population for 1951 Census it is difficult to estimate the decline in each individual caste during the decade.

There are seventeen castes in this district having more than 1,000 persons in each of them. Their particulars in the alphabetical order are given below :

Name of the Caste	Persons	Males	Females
Adi Andhra ..	1,817	955	862
Amanat or Amat ..	2,083	1,015	1,068
Bauri ..	2,017	971	1,046
Chandala ..	3,798	1,910	1,888
Dhoba or Dhobi ..	5,033	2,523	2,510
Dom, Dombo or Duria Dom ..	125,476	62,699	62,777
Ganda ..	4,030	1,936	2,094
Ghasi or Ghasia ..	5,167	2,525	2,642
Haddi, Hadi or Hari ..	5,604	2,806	2,798
Jaggali ..	1,053	487	566
Kandra or Kandara ..	1,067	484	583
Mala, Jhala, Molo or Zala ..	1,303	648	655
Mehra or Mahar ..	1,187	607	580
Namasudra ..	4,060	2,039	2,021
Pan or Pano ..	5,407	2,624	2,783
Panik ..	3,559	1,808	1,751
Relli ..	2,478	1,229	1,249
Unclassifiable ..	1,157	800	357
Total ..	176,296	88,066	88,230

The above castes constitute 94·6 per cent of the total Scheduled Caste population. Namasudra caste is a new addition during the present Census.

The industrial classification of the Scheduled Caste population is given below :

Industrial category	Males	Females
I As Cultivator	27,235	14,410
II As Agricultural labourer ..	10,244	8,869
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ..	2,161	632
IV At Household Industry ...	5,173	3,280
V In Manufacturing other than Household Industry ..	285	250
VI In Construction ..	210	75
VII In Trade and Commerce ..	1,210	1,471
VIII In Transport, Storage and Communications ..	225	9
IX In Other Services ..	11,917	8,760
X Non-workers	34,463	55,559
Tanning and Currying of hides and skins ..	97	56
Scavenging	113	12

Majority of the Scheduled Castes in both the sexes are engaged in agricultural occupations and other services. The industrial classification for each caste is given in Table SCT-I Part A separately for rural and urban. The persons engaged in unwholesome activities are shown in the foregoing statement.

The non-workers constitute more than 37·0 per cent of the males and 59·5 per cent of the females. Their classification is given below :

	Males	Females
Total Non-workers	34,463	55,559
Full-time Students	6,267	3,942
Persons seeking employment for the first time	67	15
Persons employed before but now out of employment and seeking work	20	...
Others	28,109	51,602

The above figures indicate that majority of the non-workers appear to be devoted to household duties. The number of full-time students is quite low and the number of persons seeking employment is negligible.

The marital status of the Scheduled Caste population is given below by their broad age-groups :

Marital status	Age-groups 0—14		15—44		45+	
	Males	Females	Males	Females	Males	Females
Never married	36,124	35,531	6,939	4,082	75	48
Married	359	914	33,004	35,151	12,936	9,383
Widowed	19	...	995	2,405	2,148	5,254
Divorced/Separated	10	...	362	417	152	126
Unspecified	...	...	...	3	...	1

It appears that child marriage has declined considerably as is evident from the number of married persons in the age-group 0—14. The highest number of married persons is in the age-group 15—44 and the highest number of widowed persons is in the age-group 45+. These details for each caste are given in Table SCT-II Part A.

HOUSING

According to 1961 Census this district has a total of 306,913 dwelling houses, 292,060 and 14,853 of which are in rural and urban areas respectively. This gives a density of 3,094 dwelling houses per 100 square miles of area in the district as a whole and 2,954 and 47,913 dwelling houses in rural and urban areas respectively. The majority of houses have mud walls. The next largest group of houses in rural areas have walls of grass, leaves, reeds or bamboos and only about 2·4 per cent of houses have walls made of bricks, corrugated iron or metal sheets, cement concrete, etc. In urban areas houses with brick walls form the second largest group.

Similarly, roofs made of corrugated iron, zinc or other metal sheets, bricks and lime, concrete, asbestos sheets, etc. are rarely seen in the rural areas ; but they are used on nearly 26 per cent of houses in towns. Among other varieties of roofings tiles, slate and shingle are used in about 3 per cent of houses in rural areas and in 9 per cent of houses in the towns. But houses with thatched roofs or with roofs of grass, leaves, reeds, wood or bamboo form the majority in towns as well as in villages being about 66 per cent and 96 per cent of total houses in these areas respectively.

About 46 per cent of houses have two rooms. One-roomed dwelling houses constitute nearly 43 per cent of total houses in the district. The rest have 3 rooms and more. The number of persons inhabiting per room is generally 2·53 in the rural areas and 2·29 in urban areas. In the district as a whole, 2·51 persons live per room whereas persons residing per room in the State as a whole are 2·08.

ADMINISTRATION

General Administration

The district is in charge of a District Magistrate and Collector who is assisted in his work by two Additional District Magistrates. The District Magistrate is an officer from the I.A.S. cadre and the Additional District Magistrates belong to Class I of the State Administrative Service. Officers belonging to Orissa Administrative Service and Subordinate Administrative Service are in subordinate charge of various subjects in the collectorate and the number of such officers in 1964 was nine. 5 Deputy Collectors and Deputy Magistrates and 4 Sub-Deputy Collectors and Sub-Deputy Magistrates. There were only three subdivisions at the time of 1961 Census, but their number increased to five subsequently. The subdivisions are administered by Subdivisional Officers belonging to the State Administrative Service. As separation of judiciary from executive has not been given effect to in this district, the Subdivisional Officers combine the functions of the Subdivisional Revenue Officer and the Subdivisional Magistrate. They are assisted by the required number of Deputy and Sub-Deputy Magistrates in their revenue and magistracy work. The sanctioned strength of these officers in 1964 in the present five subdivisions was as follows :

Subdivisions	No. of Deputy Collectors and Deputy Magistrates	No. of Sub-Deputy Collectors and Sub-Deputy Magistrates
Koraput Sadar ..	2	3
Nowrangapur ..	6	5
Rayagada ..	2	3
Malkangiri ..	2	2
Gunupur ..	2	3

Police

There is a Superintendent of Police belonging to the Indian Police Service in over-all charge of police administration of the district. He is assisted by Deputy Superintendents and Additional Superintendents and the number of such officers in 1960 was 3 and 1 respectively. There is an armed Police reserve at Koraput. A police station works under the charge of a senior Sub-Inspector of

Sanctioned strength of Administrative officers quoted from the Government of Orissa, Revenue and Excise Departments Resolution No. 29459-IIIER-75/64-R., dated 8th May, 1964.

Police and has the required number of Assistant Sub-Inspectors and Constables. The work of a number of police stations is supervised by a Circle Inspector. The total strength of police in this district in 1960 was 1,183 and the persons and area served per policeman on the basis of 1961 Census work out to 1,267 and 8·39 square miles respectively. The per-capita expenditure on police during 1960 in this district is calculated at Rs. 0·95 P. The strength of police under various categories during the years 1951, 1956 and 1960 are given in a Table in Part III.

***Crimes and Criminal Justice**

The total number of criminal offences reported to the courts in the district during the decade 1951-60 was 73,316. On an average 7,331 cases are filed each year. The details of cases reported and tried each year, the number of persons acquitted, discharged or committed have been given in a Table in Part III. The majority of the crimes in the district during this decade was theft, followed by burglary. Among dacoity, robbery and murder, the highest number of crimes was on account of murder.

****Judiciary**

There are a District and Sessions Judge, a Subordinate Judge who also functions as the Assistant Sessions Judge and a Munsif for this district and all of them are stationed at Jeypore. Their jurisdiction covers the entire district. The District Judge and the Subordinate Judge try civil suits up to any pecuniary limit whereas the powers of the Munsif do not exceed Rs. 4,000.

Parliamentary and Assembly Constituencies

The district has been delimited into 2 parliamentary constituencies and 12 assembly constituencies by the Delimitation of Parliamentary and Assembly Constituencies Order, 1961. Out of the two parliamentary constituencies one is reserved for Scheduled Tribes. Similarly, out of the assembly constituencies, five are reserved for Scheduled Tribes and two for Scheduled Castes. The last general elections for the Loksabha were held in the year 1962 and those for the State Assembly in 1961.

*****Treasury**

The District Treasury at Koraput has six sub-treasuries under it, at Gunupur, Jeypore, Nowrangapur, Rayagada, Malkangiri and Umarkot. All the subdivisional headquarters have sub-treasuries except Koraput Sadar which is served by the District treasury. The banking business at the District treasury and the sub-treasuries at Jeypore and Rayagada are carried on by the State Bank of India. At other places, there are currency chests. The District Treasury is under the charge of a Treasury Officer who belongs to Orissa Finance Service.

Jails

There is a District jail at Koraput. It has five sub-jails out of which 4 are located at the subdivisional headquarters and the fifth at Jeypore. The capacity of these jails is as follows :

DISTRICT JAIL	324
SUB-JAILS	
Nowrangapur	42
Malkangiri	25
Rayagada	35
Gunupur	36
Jeypore	25

Commercial Taxes

By March 1961 the district had 2 Commercial Tax Circles, one for Rayagada subdivision and Kashipur Taluk of Kalahandi district and the other for the rest of Koraput district. Each Circle is under the charge of a Commercial Tax Officer who belongs to Orissa Finance Service. The

* Notes on Crimes based on Table 6·2 of Quarterly Bulletin of Statistics, June 1961, issued by the Bureau of Statistics and Economics, Orissa

** Letter No. 8200-XXIX-1/63, dated 24th December 1963, from the High Court, Orissa

*** Based on the Government of Orissa, Finance Department Notification No. Tr.A-80/62-21466-F. dated 16th May, 1962

collections on account of Sales Tax have been greater during the recent years. In 1950-51 the total amount collected was Rs. 3,62,382 only. The figure rose by 1960-61 to Rs. 9,46,759. The yearwise collections are shown in a Table in Part III.

Stamps, documents registered and properties transferred

The sale proceeds from stamps have also been increasing from year to year and during the period from 1950-51 to 1960-61 a total sum of Rs.19,77,227 was realised from such sale proceeds. The highest sale during this period was in the year 1960-61.

There are 13 sub-registration offices in the district, but only in the two sub-registration offices at Jeypore and Nowrangapur regular officers are posted. The work in the other 11 offices are carried on by part-time officers. The Additional District Magistrate functions as the District Registrar for the district. During the decade 1951-60 a total number of 45,506 documents was registered and the value of properties transferred was Rs. 4,36,46,316. The number of registration is also increasing from year to year. The number of documents registered and the value of properties transferred each year have been given in a Table in Part III.

Entertainment Tax

There has been a progressive increase in the income on account of entertainment tax during the decade. The revenue has gone up from Rs. 17,923 in the year 1951-52 to Rs. 64,176 in the year 1960-61. There are now 7 cinema houses in the district, 4 of which were started recently in 1958 and 1960.

Motor spirit Tax

There is decrease in the revenue under this head. The collections during 1960-61 were only Rs.. 94,769 as against Rs. 1,40,557 collected during 1956-57.

Excise revenue

The Excise administration of the district is in charge of a Superintendent of Excise whose headquarters is at Koraput. The excise revenue which stood at Rs. 23,89,520 in 1950-51 went down to Rs. 63,044 by the year 1960-61. The main reason for the decrease in revenue is the introduction of prohibition in the district in the year 1956. Even prior to introduction of prohibition, sale of opium was gradually being restricted since 1950-51.

The details of annual income on account of land revenue, excise revenue, sales tax, entertainment tax, motor spirit tax and sale proceeds of stamps have been given in a Table in Part III.

Land tenure and land revenue

Koraput district inherited the system of land tenure obtaining in the Madras Presidency. The Madras Estates Land Act, 1908 was the first enactment to define the substantive rights and liabilities of landholders and ryots in this district. The ryot derived his title to the land by occupation under this Act and the zamindar was entitled only to share of produce and not to the possession of cultivated land. The district comprised 4 permanently settled estates, namely, Jeypore, Kotpad Pargana, Salimi Mutha and Pachipenta all of which were held by the Maharaja of Jeypore until the enactment of the Orissa Estates Abolition Act in 1952 which gave authority to the State Government to take over management of all privately managed estates. Under the cover of this Act, the 4 estates under the control of Maharaja of Jeypore which extended over Koraput district were vested with the State Government with effect from 29th December 1952. On taking over the management the entire area was constituted into one Anchal and placed under the charge of an Anchal Adhikari. This single Anchal was subsequently delimited into 10 Anchals substituting the old 5 taluks, each of which was placed in charge of an Anchal Adhikari. With effect from 15th November 1957 the Anchal began to be managed as Government estates or roytwari tracts and the responsibility for administration of the estates devolved on all departments of Government. The various institutions and

schemes were taken over by the respective Departments of Government, the revenue and general administration alone being left to the charge of the Anchal Adhikaris who were thereafter redesignated as Tahsildars. The Anchals took the name of Tahsils. A reconstitution of the Tahsils in the district with a view to make them coterminus with the boundaries of police stations took effect from 1st July 1960. There are now 10 Tahsils in the district each under the charge of a Tahsildar who belongs to the State Administrative Service or Subordinate Administrative Service and collection of revenue is his responsibility now.

The position with regard to survey and settlement was unsatisfactory during the time of the Maharaja of Jeypore. The estate was not surveyed and there was no record of rights. The ryot was completely at the mercy of the estate employees in all matters of tenancy administration. The first regular survey and record-of-rights operation in the district was started in the year 1938, but the operation was suspended due to the emergency arising from Second World War. It has again been started from 1947 and the operation is nearing completion.

The amount of land revenue realised during the year 1936-37 was Rs. 1,06,221. The land revenue of the district has gone up subsequently consequent upon the abolition of Zamindaries with effect from the year 1952 and collections during the year 1960-61 in this district were Rs. 19,56,433 as against Rs. 4,31,619 in the year 1950-51.

*** Municipality and Notified Area Council**

There are 7 towns in this district. Six out of them have either a Municipality or a Notified Area Council. The town which is without a Municipality or N.A.C. is Machkund, a place declared as a town in 1951 Census. There is a Municipality at Jeypore and there are Notified Area Councils at Koraput, Rayagada, Gunupur, Kotpad and Nowrangapur. These local bodies have been constituted under Orissa Municipal Act, 1950. The dates of their inauguration and the number of councillors are as follows :

Name of local body	Date of inauguration	No. of councillors elected		No. of councillors nominated	
		Reserved	Unreserved	Official	Non-official
Jeypore ..	1951	2	14	..	..
Koraput ..	1953	2	10	..	..
Rayagada ..	1955	...	...	6	5
Gunupur ..	1955	..	..	6	5
Kotpad ..	1960	..	..	6	5
Nowrangapur	1953	..	..	6	5

The population residing in municipal and N. A. C. areas in this district constitutes 4·95 per cent of total population or 96·4 per cent of urban population of the district. At the head of the local body is a Chairman. The executive functions of the municipality or N. A. C. are carried on by an Executive Officer. Among the obligatory functions of these local bodies are public health including vaccination, maintenance of public tanks, wells, roads, libraries, street light and scavenging. The income is on account of taxes on holdings, carriages, etc., lighting and latrine, licence fees, receipts from pounds and municipal properties, government grants, etc. The income and expenditure of these local bodies except Kotpad, which did not have an N. A. C. till 1960 during the year 1957-58, are given below :

Name of the local body	Total income during 1957-58	Total expenditure during 1957-58
	Rs.	Rs.
Jeypore ..	3,16,024	2,31,333
Koraput ..	1,43,361	64,573
Rayagada ..	1,14,290	43,224
Gunupur ..	87,639	72,539
Nowrangapur ..	1,67,393	73,177

*Based on the Report of the Orissa Local Body (Urban) Administration Enquiry Committee and Annual Report of the Health (L.S.G.) Department for 1957-58

NATURAL CALAMITIES

Koraput district falls within the region of cyclonic disturbances of Bay of Bengal. Storms accompanied by heavy rains frequently occur during monsoons. After rains, floods come in the rivers which cause overflowing of the banks and damage the crops in the valleys. The district also suffers from severe droughts caused by failure of rains in some years and other types of natural calamities, a list of which is given below :

1876—78 Prolonged distress resulted from the great famine causing heavy loss of life in spite of relief operations.

1896—97 A great famine devastated the territories now constituting the district. The loss of life was considerably high.

1910 There was localised famine in Bissamcuttack.

1913 There was high flood in the Vamsadhara river causing distress on either side of the banks.

1918 The influenza epidemic was widespread and destructive and carried away a large number of population.

1938 There was high flood in Gunupur Taluk due to heavy rainfall in October. The Vamsadhara river damaged the cultivated lands by sand deposit. The Zamindar remitted rent to the extent of Rs. 65,000 on account of damage by this flood.

1942 Smallpox came in great intensity causing considerable loss of life.

1945 There was partial failure of crop due to unfavourable weather. There was also a severe outbreak of cholera.

1949 Floods in Indravati and Kolab caused heavy damages to crops. The cholera epidemic was also extensive.

1950 Crops suffered considerably due to bad weather. Gunupur Taluk particularly suffered from scarcity of foodgrains in spite of import.

1956 Heavy flood in Vamsadhara, Indravati, Nagavalli and Kolab caused widespread loss of crop, damage to standing houses, sand-casting of cultivated lands with some loss of life, particularly in Nowrangapur and Gunupur.

1957 Failure of rains created conditions of food scarcity.

COMMUNICATIONS

Railways

Vizianagram—Raipur Branch line of S. E. Rly. passes through Rayagada subdivision of this district for nearly 110 kms. There are in all 10 stations on this line in this district one of which has not so far been opened to traffic. The line runs from north to south. It is a broad gauge line which was opened to traffic in 1932. Besides this, there is also a metre gauge railway line which runs from Naupada (Andhra Pradesh) to Gunupur in this district. This line traverses only about 3 to 4 kms in this district and was opened to traffic in 1931. Among the railway stations the busiest is Rayagada which handled as many as 119,920 passengers during 1960-61. All the railway stations are provided with waiting halls. There is a waiting room and refreshment room at Rayagada and a tea stall at Muniguda. The area and population served by the railways in this district are 233·5 sq.kms and 13,621 persons per one km of railway line against the State averages of 104·3 sq. kms and 11,746 persons. The administration of these railway lines is under the charge of the Divisional Superintendent, S. E. Railway, Waltair.

Besides, a new Railway line, called the D. B. K. Railway, is now under construction in this district. It originates from Bailladila in Madhya Pradesh (District Bastar) and terminates at Kottavalsa

Railway junction on the main Howrah-Madras Railway line. The length of this new line within Koraput district is approximately 100 miles. It contains 17 railway stations within the district. It is likely to open to traffic in 1965 when the district headquarters will be connected by railway with the outside world.

Roads

Out of the present five subdivisions of the district three are away from the easy reach of the railway communications. The headquarters of the district, namely, Koraput town is served by Vizianagram Railway Station which falls in Andhra Pradesh from where road communication through regular bus service is maintained with this town. The district has a total road mileage of 2,555 miles comprising 99 miles of National Highways, 240 miles of State Highways, 211 miles of major district roads, 1,928 miles of important village roads maintained by the Revenue Department and 77 miles of roads maintained by local bodies. For every 100 sq. miles of area, this district has 26 miles of road against the State average of 36 miles. Except revenue roads and the roads maintained by the local bodies all other roads are looked after by the State P. W. D. There is an Executive Engineer in charge of these roads with headquarters at Koraput. The principal road in this district is the one which connects Jeypore with Vizianagram. The entire length is black topped and has on it the famous Salur Ghat. This road is a part of the National Highway No. 43 and it extends to Madhya Pradesh border passing *via* Jeypore and Borigumma. There are in all 3 State Highways running through this district, two of which are fair-weather roads and one, namely, State Highway No. 4 is the only all-weather road and this connects Ganjam district. The majority of the revenue roads are of fair-weather type. All the subdivisional headquarters except Gunupur are on all-weather roads. Ambodala, Gunupur and Narayanapatna areas are cut off from regular communication during the rains. There is, however, a ferry service over the river Vamsadhara near Gunupur which is made use of in the rainy season. One can also reach Ambodala and Gunupur *via* Parlakhemundi in Ganjam district by railway.

The common mode of conveyance in the towns is rickshaw, truck and bullock cart. In rural areas mostly the bullock carts serve the purpose.

Transport Services

Nationalization of the Transport Services in the district began from 1955-56 when the routes started to be taken over by State Transport Organization. State Transport buses now ply on 24 routes through the district, 6 of which connect the neighbouring districts, including two running into the adjoining State of Andhra Pradesh. The zonal headquarters of the State Transport Organization is located at Jeypore and is under the charge of a District Transport Manager. There are two classes of accommodation in the Transport buses in this part, the fare charged being Rs.0·06 P. and Rs. 0·05 P. per mile respectively for upper and lower classes. By the end of 1961 as many as 769 motor vehicles were registered in the district out of which 300 were cars. There is a Regional Transport Authority under the chairmanship of the Collector who authorizes plying of public vehicles within the district and for limited periods outside the district. The number of workers engaged in transport and communication occupations according to 1961 Census is 2,466 (2,430 males and 36 females) and they constitute 0·3 per cent of the total working population of the district.

Water-ways and Ferries

Floods in the rivers of the district appear and subside quickly. No regular ferry service is, therefore, maintained all the year round. During the rainy season, however, a ferry service near Gunupur on the river Vamsadhara is maintained. Another such service at Mottu in Malkangiri area functions during the rains. A launch service from Rajahmundry to Bhadrachellam in the State of Andhra Pradesh on Godavari river touches Mottu.

Air-strip

There is one air-strip near Jeypore, but it is not capable of handling commercial air-planes. On account of the coming up of an aircraft factory near Koraput considerable improvement in the

matter of travel by air to this part is likely to be caused in near future.

***Posts and Telegraphs**

In April 1951 there were 43 post offices and 7 telegraph offices in the district. They increased to 190 post offices and 17 telegraph offices by the end of the Second Plan period. 49 of these post offices have facilities for savings bank transactions. The head post office is located at Jeypore and there are 15 sub-post offices. The subdivisional headquarters have a sub-post office each. The postal facilities in this district were liberally expanded with the initiation of the Five-Year Plans by increasing the number of posts and telegraph offices by lowering down the population limit and the department bearing an enhanced financial loss. The posts and telegraph offices in this district except those in Gunupur are under the charge of the Superintendent of Post Offices, Bolangir Division. Those in Gunupur Taluk are under the control of the Superintendent of Post Offices, Berhampur Division.

Wireless Stations

For official use by the State Government and particularly in matters of law and order problems, 3 wireless stations are maintained at Mottu, Malkangiri and Koraput by the State Police Department. Two temporary installations have also been set up at Rayagada and Gunupur.

Telephone

The district has 5 telephone exchanges at Jeypore, Koraput, Kotpad, Nowrangapur and Rayagada. Jeypore Exchange has the highest number of telephone connections.

EDUCATION AND LITERACY

Literacy

The total number of literates returned for the district in the Census of 1961 is 124,440 of whom 102,325 are males and 22,115 are females. The percentage of literacy comes to 8·3 comprising 6·8 males and 1·5 females, as against the State averages of 17·3 per cent and 4·3 per cent respectively. The percentage of literacy in the district has gone up from 5·3 in 1951 to 8·3 in 1961. Taking the male population as a whole the percentage of literates is 13·6. But among the females the percentage is only 3·0. The corresponding figures of 1951 for males and females are 9·2 and 1·5. Of the total literates, 107,377 do not have any educational level, 12,927 have read up to primary or junior basic standard and the remaining 4,136 are either matriculates or have higher qualification.

Taking into consideration the fact that persons of the age of 4 years or less have no chance of acquiring literacy, if such persons (of the age-group of 0—4 years) are excluded from the total population, the percentage of literacy for the district becomes slightly higher. The following Table compares the percentage worked on this basis for the two Censuses of 1961 and 1951 :

Censuses	Percentage of literacy		
	Persons	Males	Females
1961 ..	9·5	7·8	1·7
1951 ..	6·3	5·5	0·8

Thus an improvement is noticeable in 1961 to the extent of 3·2 per cent in the total population above the age-group of 0—4 years. Since children in the age-group of 0—4 years do not generally attend any school, it may be more rational to assume the percentage of literacy for the district to be 9·5 comprising 7·8 males and 1·7 females.

Apart from facilities offered for imparting literacy and education in the usual manner, an intensive adult education programme was undertaken in recent years. The scheme ran under the aegis of the Community Development Blocks, each of which are provided with Social Education Organizers to look after adult literacy and allied programmes. The adult literacy centres are mainly run at nights by the primary school teachers

*Letter No. Est.-Plg-Misc-1/Ch II, dated 15-7-1963 from the Director, Posts and Telegraphs, Orissa

or volunteers who get as remuneration a sum of Rs. 5 per adult made literate during a period of six months. There has been a progressive increase in the number of adult literacy centres from year to year and the total number of such centres existing in 1960-61 was 1,103 out of which 277 were run by Education Department and 826 by the Community Development Blocks.

The percentage of literacy in this district is far below the State average. It is a comparatively undeveloped area comprising mostly hilly tracts and has a large population of scheduled tribes. This accounts for the low percentage of literacy in the district. Percentage of literacy in the urban and rural areas are 39·6 and 6·6 respectively against the State averages of 44·2 and 20·1.

The Table below gives the number of literates and the percentage of literacy in different subdivisions and police stations of the district:

District/Subdivisions/ Police stations		No. of literates	Percentage of literacy
Koraput District	..	124,440	8·3
Koraput Subdivision	..	18,119	5·9
Nowrangapur Subdivision	..	70,957	8·3
Rayagada Subdivision	...	35,354	10·4
Police Stations			
1 Koraput	..	4,972	11·8
2 Dasamantapur	..	1,027	3·7
3 Lakshmipur	..	1,991	7·3
4 Narayanapatna	..	2,157	4·4
5 Nandapur	..	1,837	4·4
6 Semiliguda	..	1,262	4·7
7 Pottangi	..	743	2·1
8 Padwa	..	1,788	6·3
9 Machkund	..	2,342	8·6
10 Nowrangapur	..	8,023	14·6
11 Pappadahandi	...	3,481	8·2
12 Tentulikhunti	...	3,939	8·1
13 Jeypore	...	13,372	21·1
14 Boipariguda	...	2,762	5·6
15 Kundra	...	1,475	5·5
16 Borigumma	...	3,541	7·1
17 Kotpad	...	7,496	9·1
18 Kodinga	...	3,309	4·7
19 Bhairavasingpur	..	4,922	12·1
20 Umarkot	...	6,307	7·5
21 Dabugam	..	2,745	5·8
22 Jorigam	..	3,646	7·2
23 Malkangiri	...	2,620	4·2
24 Motu	..	519	3·9
25 Venkatapalam	..	359	1·7
26 Mathili	..	2,451	5·5
27 Rayagada	..	9,440	9·8
28 Kalyansingpur	..	1,790	5·5
29 Bissamcuttack	..	4,573	7·4
30 Ambodala	..	1,470	6·3
31 Gunupur	..	9,639	16·8
32 Gudari	..	5,149	14·2
33 Padmapur	..	2,595	14·6
34 Puttasingi	..	698	4·6

The rate of literacy is the lowest in Koraput subdivision and it is highest in Rayagada subdivision. Among the police stations the highest standard of literacy is recorded in Jeypore PS (21·1%) and the lowest in Venkatapalam PS (1·7%).

Literacy among Scheduled Castes and Scheduled Tribes

The Scheduled Castes and Scheduled Tribes cover 12·4 per cent and 60·9 per cent respectively of the total population of the district. The statement below shows the total number of literates found amongst them and the percentage of literacy :

	Total population	Total literates	Percentage of literacy
Scheduled Castes ...	186,438	12,215	6·6
Scheduled Tribes ...	912,343	28,959	3·2

Between the Scheduled Castes and the Scheduled Tribes, the former has a higher rate of literacy. The standard of literacy among the latter is far below the district average.

Special facilities have been provided to improve the educational standard of the tribal people by establishing Sevashrams and Ashram schools. The number of such institutions stood at 310 in the year 1961, and they provide free education including supply of reading and writing materials. For education outside their locality, stipends and lump grants are given to them in high schools, middle schools and upper primary schools. Materials necessary for reading and writing, such as, books, slates, pencils, etc. are also supplied free of cost at primary education stage. A list of Sevashrams and Ashram schools is furnished in Part III.

Primary Education

In the year 1950-51, the district had only 429 primary schools. The number of these schools increased from year to year during the decade and by 1960-61 there were 1,351 primary schools, 5 of which were specially meant for girls. All these primary schools are recognized by Government. The population and area served by a primary school during 1960-61 work out to 7·3 sq. miles and 1,109 persons respectively against the State averages of 2·9 square miles and 850 persons. Compared with the State averages, primay education appears to have received little attention in this district. During the first and the second Five-Year Plan periods effective steps were taken to spread primary education. Enrolment drives were conducted and special measures were introduced to attract pupils in greater number to the schools, namely, by supply of free mid-day meals, grant of various scholarships for merit, merit-*cum*-poverty, proficiency in arithmetic (to those who secure more than 90 per cent of marks in arithmetic) and for maintenance of students in hostels. Additional facilities to girl students were allowed in order to encourage girls' education, some of which were appointment of school mothers to look after the girl students in schools, attendance scholarship or free supply of dress for regular attendance in schools and encouraging appointment of lady teachers through simpler selection methods.

With the establishment of Zilla Parishad and Panchayat Samitis, the management of primary education in the rural areas has been taken over by them. In the Community Development Block areas, the Panchayat Samitis maintain the primary schools, but in other places the Zilla Parishad manages them directly. The Government grants for primary education are made over to the Zilla Parishad. The urban local bodies maintain these institutions in their area.

The scales of pay of primary school teachers both under Government and under non-Government management were revised during 1961. Depending upon their qualifications, primary school teachers now get pay in different scales varying from Rs. 65—85 for upper primary, lower elementary trained or middle English trained teacher to Rs. 100—155 for matric trained. In addition they also get the dearness allowance.

Secondary Education

In the field of secondary education also rapid progress has been made in the district during the past decade. As against 5 high schools and 13

Notes on Education based on Government of Orissa Education Department Brochure " Education in Orissa 1962 "

middle schools existing during 1950-51, the district had by 1960-61 as many as 9 high schools and 42 middle schools. Only one of these 42 middle schools is un-recognized, the remaining 41 being duly recognized by Government. Two of these schools are exclusively for girls.

Out of the 9 high schools, one admits only girls. Four of these high schools are Government-managed, the remaining five being aided by Government. Agriculture as optional subject is taught in two high schools. There being only 9 high schools in the district, a high school serves on an average 166,475 persons and an area of 1102.10 sq. miles. A list of high schools existing in the district is given in a Table in Part III.

The Board of Secondary Education, Orissa, now conducts the examination at the high school stage. Up to 1956 annual examination, Utkal University conducted these examinations, and the Board of Secondary Education took it over from the stage of supplementary examination of 1956. The middle school examination was also conducted till recently by the Inspector of Schools of the district. During 1960, seven of these 9 high schools sent up students for the high school certificate examinations. The number of students appearing in these examinations and those passing therefrom between 1956 (supplementary) and 1960 (supplementary) are given in a Table in Part III.

To encourage secondary education, a number of merit and merit-*cum*-poverty scholarships at middle and high school stages are now given to both boys and girls. The girl students are not required to pay any school fee up to Class VII. At the high school stage half fees are charged only from those girl students whose guardians pay income tax or agricultural income tax. Others continue to enjoy the free studentship. Award of attendance scholarship and maintenance stipends are also continued.

The scales of pay of secondary school teachers underwent a revision in 1961. These teachers now draw pay in six different scales depending upon their qualification. An untrained matriculate gets now a scale of Rs. 80—135 in Government schools and Rs. 80—125 in non-Government schools, whereas a trained graduate teacher draws pay in the scales of Rs. 185—325 and Rs. 175—300 respectively in Government and non-Government schools.

College Education

There is only one college in the district, namely, Bikram Dev College located at Jeypore. It is a Government college which provides education both in science and arts up to the degree stage.

Professional and Special Schools

The district is predominantly inhabited by Scheduled Tribes and Scheduled Castes. Special facilities are given for upliftment of this class of population. Among facilities available to such students are provision of free education including supply of books and other reading materials, stipends and lump sum grants, etc. As many as 310 Sevashrams and Ashram schools have also been established throughout the district for their education. A list of such schools will be found in a Table in Part III. On an average an Ashram school or a Sevashram now serves 3,544 persons belonging to Scheduled Castes and Scheduled Tribes in this district. Other special schools are, 6 elementary training schools, 1 basic training school, 23 basic schools, 1 school of arts and crafts, 1 sanskrit tol and 2 dai training centres. All these institutions are managed by the State Government except the sanskrit tol at Jeypore which is, however, aided by Government.

Libraries, Printing presses, Journals and Newspapers

The total number of libraries receiving aid from the Education Department in the district are 54, out of which 8 possess more than 400 books each. There are also 3 reading rooms. 10 newspapers and journals issue from this district. A list of the newspapers and journals published in the district has been given in a Table in Part III. These are all either weekly, fortnightly, monthly or quarterly publications. There are 7 printing presses in the district, 3 of which are in Jeypore.

ECONOMIC ACTIVITIES

The economic concepts of 1951 Census have undergone substantial modification to facilitate collection of more comprehensive data in the Census of 1961. The concept of economic dependence and income adopted in 1951 was given up in favour of the new concept of ' work ', which is the chief criterion of the 1961 Census. The broad division of the population into 'workers' and ' non-workers ' is the essential feature of the 1961 economic classification scheme. By implication, ' work ' included all persons working as well as the working children irrespective of their earning incomes.

Workers

The working population, according to the above concept, is grouped into nine broad industrial categories, namely, (I) As Cultivator ; (II) As Agricultural labourer ; (III) In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, and Plantations, Orchards and Allied activities ; (IV) At Household Industry ; (V) In Manufacturing other than Household Industry ; (VI) In Construction ; (VII) In Trade and Commerce ; (VIII) In Transport, Storage and Communications ; and (IX) In Other Services.

The working population constitutes 54·1 per cent of the total population of the district, comprising 491,123 males and 318,764 females. Their number in each industrial category and for each sex and broad age-groups is given in Table B-I of the General Economic Tables. The proportionate distribution of 1,000 persons, males and females of rural and urban areas severally for each category in the district and the State is given below for comparison :

Category of workers	Male/ Female	Koraput			Orissa		
		Total	*Rural*	*Urban*	*Total*	*Rural*	*Urban*
Total Population ..	M	1,000	1,000	1,000	1,000	1,000	1,000

	F	65	63	97	38	36	68
Non-workers ...	M	348	343	445	392	390	428
	F	572	558	839	734	726	869

The predominance of both sexes in categories I and II in rural areas and their correspondingly low figures in urban areas indicate the great dependence of the rural sector on agricultural occupations. The proportion in this district is higher than the State average. Also above the State average is Category IX, 'Other Services' which has absorbed workers of both sexes in large proportion, being next to agriculture. The rate of participation in Categories IV to VIII being below that of the State, it indicates that industrialization and development of trade and transport are lagging behind in the district.

Primary, Secondary and Tertiary Sectors

The nine industrial categories of workers are grouped into three sectors. Categories I and II representing the agricultural classes together with Category III excluding those working in mines and quarries constitute the Primary Sector. As industrial development is next in importance, the Categories IV to VI together with those working in mines and quarries of Category III and gas and electricity supply of Category IX form the Secondary Sector. All the remaining categories namely, VII, VIII and IX excluding the workers in gas and electricity supply are grouped together as Tertiary Sector. The distribution of 1,000 persons in each of these sectors for rural and urban areas of this district and the State are given below.

The concentration of large proportion of workers in the rural areas in Primary Sector and that of the urban areas in Tertiary Sector much above the respective proportions for the State is indicative of the agricultural character of rural areas and diversified economic activities of urban areas. The low proportion of workers in the Secondary Sector signifies the stagnancy of industrial economy.

	Koraput			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
Total population ..	1,000	1,000	1,000	1,000	1,000	1,000
Primary Sector ...	435	456	35	328	348	43
Secondary Sector ..	24	22	68	39	34	102
Tertiary Sector ..	82	72	261	70	59	230
Non-workers ...	459	450	636	563	559	625

Sex ratio of workers

The sex ratio (females per 1,000 males) among total workers and in each industrial category of workers is given below for the district and the State :

Industrial Category	Koraput			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
Total Workers ...	649	667	272	438	456	185
I As Cultivator ...	569	571	263	367	368	179
II As Agricultural labourer ...	891	894	264	619	622	296

Industrial category	Koraput			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	411	431	137	375	391	242
IV At Household Industry	722	735	555	858	890	444
V In Manufacturing other than Household Industry	826	2,828	176	181	469	79
VI In Construction	175	259	33	60	61	59
VII In Trade and Commerce	637	962	270	321	436	130
VIII In Transport, Storage and Communications	15	..	22	53	27	69
IX In Other Services	772	876	313	479	545	232

The sex ratio for total workers and the ratio in rural areas in all the categories excepting IV and VIII exceed the respective ratios for the State, which highlights the large scale female participation in economic activities of this district. The urban ratio in Categories II, III, VI and VIII below that of the State is quite normal as the female participation in agricultural labour, in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards, etc., in construction activities and in transport is usually restricted in urban areas. Other categories of urban areas have recorded higher proportions than the State.

Classification according to I.S.I.C and N.C.O.

The Indian Census Economic Classification adopted at the 1951 Census was neither a purely industrial nor occupational classification but was a combination of both. There were only 10 divisions and 88 subdivisions of industries and services. This scheme was given up in 1961 Census and separate tabulation of industries and occupations based on Indian Standard Industrial Classification and National Classification of Occupations was attempted for the first time. As this is the first occasion when a work of great magnitude, such as, this classification is undertaken, marginal errors in classification, if any, may have to be ignored as they do not impair the general trend presented by the Tables. This two-fold classification, though primarily intended to secure more detailed classification of the sectors of production and services and of personal talents and skills, will also serve well to maintain comparability of the present with the past.

Indian Standard Industrial Classification

The nine industrial categories of workers described previously more or less correspond to the nine broad divisions of the Indian Standard Industrial Classification. The divisions, major groups and minor groups of Categories III to IX are given in Tables B-IV Parts A, B and C of the General Economic Tables. Comparative figures

of their distribution per 10,000 males and 10,000 females in each division for the district and the State are given below separately for total and urban areas :

Divisions of I.S.I.C.	Total Urban	Koraput (per 10,000)		Orissa (per 10,000)	
		Male	Female	Male	Female
All divisions ..	T	10,000	10,000	10,000	10,000
	U	10,000	10,000	10,000	10,000
Division 0					
Agriculture, livestock, forestry, fishing and hunting	T	1,111	552	1,005	657
	U	285	294	248	249

Division 7					
Transport, storage and communications ..	T	244	5	367	39
	U	821	65	969	366
Division 8					
Services ..	T	6,114	6,874	5,106	4,970
	U	5,401	6,523	4,421	5,795
Division 9					
Activities not adequately described ..	T	65	1	27	12
	U	1	..	1	1

The proportion of male workers in divisions 0, 5 and 8 for urban areas and those in divisions 0, 5, 6, 8 and 9 have exceeded the State figures. In the remaining divisions they are too low to be compared with the State. The proportion of female workers is generally below that of the State excepting the urban areas of division 0, total of division 4, and divisions 5, 6 and 8.

National Classification of Occupations

The classification of workers according to divisions, groups and families of the National Classification of Occupations is given in Table B-V

of the General Economic Tables. Their proportionate distribution in each division for 10,000 males and 10,000 females is given below together with the figures for the State :

Divisions of N. C. O.	Total Urban	Koraput (per 10,000)		Orissa (per 10,000)	
		Male	Female	Male	Female
All divisions ...	T	10,000	10,000	10,000	10,000
	U	10,000	10,000	10,000	10,000
Division 0

	U	631	405	770	461
Division 1					
Administrative, Executive and Managerial Workers	T	283	20	210	13
	U	337	38	353	62
Division 2					
Clerical and Related Workers ...	T	395	8	451	36
	U	1,168	52	1,161	354
Division 3					
Sales Workers ...	T	565	535	838	527
	U	1,117	900	1,327	810
Division 4					
Farmers, Fishermen, Hunters, Loggers and Related Workers ..	T	1,081	578	1,025	668
	U	1,021	577	386	250
Division 5					
Miners, Quarrymen and Related Workers ...	T	31	5	109	107
	U	30	...	49	3
Division 6					
Workers in Transport and Communication Occupations ...	T	150	1	308	19
	U	364	11	729	219
Divisions 7-8					
Craftsmen, Production Process Workers and Labourers, N. E. C. ...	T	6,135	8,378	5,008	7,595
	U	3,353	5,317	3,842	6,349
Division 9					
Service, Sports and Recreation Workers ...	T	758	389	833	615
	U	1,832	2,639	1,190	1,439
Division X					
Workers not classifiable by occupation ...	T	38	6	501	314
	U	147	61	193	53

The highest proportion of workers exceeding the State figures are concentrated in divisions 7-8, although the urban proportions are slightly lower than that of the State. Division 4 and divisions 2 and 9 in the urban areas have also good proportion of workers comparable with State figures. The proportion of workers in rest of the divisions is below that of the State.

Craftsmen and Production Process Workers

As the divisions 7-8 have recorded the highest proportion of workers, it may be interesting to analyse the number of artisans engaged in various crafts. The number of workers in ten selected crafts is given below in order of their numerical importance. Their proportion to 10,000 persons of the respective divisions severally for total, males and females is also worked out.

Of these workers 21,541 are engaged in household industry (Industrial Category IV) and 1,358 in manufacturing other than household industry (Industrial Category V).

	Description	Total	Male	Female	Proportion per 10,000 of population		
					Total	Male	Female
1	Spinners, Weavers, Knitters, Dyers and related workers	9,328	5,664	3,664	549	567	524
2	Blacksmiths, Hammersmiths and Forgemen	4,157	2,836	1,321	245	284	189
3	Potters and related clay formers	3,297	2,236	1,061	194	224	152
4	Basketry weavers and related workers	3,042	1,653	1,389	179	166	199
5	Jewellers, Goldsmiths and related workers	734	664	70	43	66	10
6	Tailors, Cutters, Furriers and related workers	587	450	137	35	45	20
7	Carpenters, Joiners, Cabinet makers, Coopers and related workers	573	573	..	34	57	..
8	Cheroot, Cigar and Bidi makers	525	506	19	31	51	3
9	Sheet metal workers	348	309	39	20	31	6
10	Snuff and Zarda makers	308	283	25	18	28	4

Non-workers

All those who do not come under the nine industrial categories of workers are treated as non-workers. There are 688,384 non-workers constituting 45·9 per cent of the total population of this district. The sex composition shows 262,275 males and 426,109 females. Their activities were investigated into and were classified into the following eight categories:

Classification of non-workers	Persons	Males	Females
Total non-working population	688,384	262,275	426,109
1. Full-time students	77,826	53,337	24,489
2. Household duties	203,648	12,399	191,249
3. Dependents, infants and disabled	399,698	191,733	207,965
4. Retired, rentier or independent means	935	670	265
5. Beggars, vagrants, etc.	4,848	2,801	2,047
6. Inmates of penal, mental and charitable institutions ..	348	294	54
7. Persons seeking employment for the first time ..	719	683	36
8. Persons employed before but now out of employment and seeking work	362	358	4

The dependents, infants and disabled persons constitute the highest number in both sexes. The females attending to household duties and the male full-time students come next in the respective sexes of non-workers. 4·7 per cent of the non-workers attending to household duties may not be deemed as an abnormal feature as there are cases of several households where male members look after the upkeep of the house, tend the cattle and take care of children, when the women folk are busy in the market or in economic pursuits, such as, hawking of garden fruits and vegetables or eatables made at home, such as, *chura*, *murhi*, etc. or plucking of kendu leaves from forest areas for sale to contractors. In such households male members are not engaged in any job with the object of adding income to the family. In large families the activities of some members are unremunerative. They are not interested in finding out jobs due to their preoccupation at home which are mostly in the form of assisting elderly family members. Such members are classed as persons doing household duties.

The details of non-workers by their broad age-groups are given in Table B-IX.

Industrial Establishments

A comprehensive housing Census was undertaken for the first time in 1960 to collect information about the types of houses and their use together with various other details about their construction, accommodation, etc. The most valuable among these details pertains to the list of different kinds of industrial establishments including factories and workshops in the State, beginning from a large factory to a small industry carried on in a household in a very meagre scale. These industries are classified according to the power used, viz., factories and workshops run by (*i*) electricity, (*ii*) liquid fuel, (*iii*) coal, wood and bagasse, (*iv*) other power and (*v*) no power. Statistics were also collected to further classify them according to size of employment, viz., factories employing one person, 2—5 persons, 6—9 persons, 10—19 persons, 20—49 persons, 50—99 persons and 100 persons or more. The data so compiled may be found in Table E-III furnished in Part II.

A study of this Table discloses that there are 14,017 houses which are used as workshops, factories or workshop-*cum*-dwellings of which 669 are in the urban area, and the rest in the rural area. Classification of these workshops and factories according to power used and size of employment are indicated below :

1. *Factories classified by power used*	*Number*
Run by electricity ..	31
Run by liquid fuel ..	30
Run by coal, wood and bagasse	5,225
Run by other power ..	322
Run by no power ..	8,409
2. *Factories classified by size of employment*	
Employing one person ..	5,772
Employing 2—5 persons ..	7,927
Employing 6—9 persons ..	259
Employing 10—19 persons ..	45
Employing 20—49 persons ..	9
Employing 50—99 persons ..	3
Employing 100 persons and above	2

The industries grouped according to the list in the I.S.I.C. scheme are of 64 different kinds in this district. Some of the major industries which are extensively found in the district are listed below :

Names of industries	Total number of establishments
1. Cotton weaving in handlooms ..	4,271
2. Manufacture of sundry hardwares ..	2,433
3. Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	2,310
4. Manufacture of earthenware and earthen pottery ..	1,600
5. Manufacture of jewellery, silverware and wares using gold and other precious metals	651
6. Manufacture of wooden industrial goods ..	566
7. Cotton spinning (other than in mills) ..	343
8. Production of edible fats and oils ..	322

Workers employed in Household Industries

The Census of 1961 records the number of people employed in household industries at 29,154 composed of 16,929 males and 12,225 females. They constitute 1·9 per cent of total population and 3·6 per cent of total workers as against the State averages of 3·0 per cent and 6·9 per cent respectively. Of the total persons employed in household industries 27,310 belong to the rural areas and the rest to the urban areas.

Household industries like weaving, blacksmithy, basketry making and pottery have absorbed majority of the workers.

Small scale Industries

The survey of small scale industries conducted by the Director of Industries in 1961 discloses that there are 104 such industries in the district. 19 of them have a capital investment of Rs. 50,000 or more each.

The break-up of industries according to the line of production is shown below :

Line of production	*Number*
Industry relating to production of consumer goods like rice, atta, bakery, ice-cream and agricultural implements ..	60
Wood and engineering works ..	16
Servicing industries ..	13
Non-ferrous industries ..	6
Chemical industries ..	3
Printing industries ..	6

Factories

Section 2(m) of the Factories Act, 1948 defines a factory as follows :

'Factory' means any premises including the precints thereof—

(*i*) whereon ten or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or

(*ii*) whereon twenty or more workers are working, or were working on any day of the preceding twelve months and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily as carried on but does not include a mine subject to the operation of the Mines Act, 1952 (XXXV of 1952), or a railway running shed.

Section 85 of the said Act, however, authorizes the State Government to declare by notification any place wherein a manufacturing process is carried on, to be factory within the meaning of the Factories Act, although it does not fulfil the above requirement of law.

A list of such factories existing in the district in 1951 and in 1961 has been given separately. Out of 30 registered factories existing in 1951, 3 units were subsequently closed down and 35 new units started functioning during the decade bringing their total to 62 in 1961. Most of these factories are either rice mills or saw mills.

Supply of Electricity

Electricity supplied to different areas of this district is generated from the Machkund Hydroelectric Project. All the towns of this district along with one village have been electrified so far. These are Koraput, Jeypore, Rayagada, Norwangapur, Machkund, Kotpad, Gunupur and Borigumma. Seven more villages are proposed to be electrified during the Third Plan period.

Trade and Commerce

10,412 persons of the district or 0·7 per cent of the total population are engaged in trade and commerce of whom 6,359 are males and 4,053 females. Out of the total traders, 441 and 9,715 persons are respectively engaged in wholesale and retail trade whereas 256 persons are engaged in miscellaneous trade. 92 of the wholesale traders and 3,549 of the retail traders belong to the urban

area and the balance are left to serve the rural population. Out of the total retail traders, 5,127 or 52·8 per cent of them deal in cereals and pulses.

The trade in this district centres round agricultural produces. The chief exports from the district are its surplus grain, viz., paddy, rice, ragi, red gram, green gram, black gram including oilseeds, turmeric, arrowroots, tamarind, etc. Nowrangapur and Kotpad are the two big rice markets of this district. The imports include salt and salted fish, chillies, jaggery, cocoanuts, kerosene, piece goods, metal utensils, jewellery, etc. Nearly all the external trade of this district is with the adjoining districts of Visakhapatnam and Srikakulum. The principal commodity imported through the railway on the Raipur—Vizianagram line lying within Rayagada subdivision is sugar-cane for the mill at Rayagada.

The district has a total number of 1,894 shops including shop-*cum*-dwellings, restaurants, etc., out of which 1,014 are situated in the rural and the remaining 880 are in the urban area. The shops in the villages deal mostly with the daily requirements of rural folks, such as, gram, salt, sugar, oil, spices, etc., whereas in the urban areas comparatively better equipped shops are found not only to meet the demand of the urban population but also to cater to the needs of the villagers.

Fairs

The main fairs and festivals of this district are Shivaratri, Pousa Parba, Chaitra Parba, Bali Jatra, Thakurani Jatra, Dola Jatra, etc. Details about these fairs are furnished in Part II. The gathering in some of these fairs sometimes reaches 5,000. The main attractions in these fairs are local Adibasi music and dances, *ramlila*, *daskathia* and *pala*. Ornaments made mostly of silver, brass and bell-metal utensils, agricultural implements and bamboo products are the important items of sale and purchase in these fairs.

AGRICULTURE AND IRRIGATION

According to 1961 Census nearly 79·0 per cent of the total working population are enumerated as cultivators and agricultural labourers. The former constitutes 60·1 per cent and the latter 19·0 per cent of the total workers. There is a District Agricultural Officer with headquarters at Jeypore in charge of agricultural development programmes of the district. He is subordinate to the Director of Agriculture and Food Production, Orissa. In the various Community Development Blocks there are Agricultural Extension Officers to look after the agricultural programme in those areas.

Land utilization

The distribution of land area under 9 categories existing during 1959-60 is compared in the following Table with that of the State. One of the Tables in Part III of the publication contains these statistics for each year during the period 1952—60. Koraput is one of the older districts of the State and it came into being when Orissa formed a separate province in 1936. Agricultural statistics are available for all years from 1936 onwards, save a few years for which the records are not traceable. But the heads of statistics of earlier years do not correspond to those under which the figures are now available and this limits the scope of comparative study.

	Koraput		Orissa	
	Area in acres	Percentage to total area	Area in acres	Percentage to total area
Total geographical area ..	6,348,160	100	38,509,952	100
(1) Forests ..	779,120	12·3	8,908,558	23·1
(2) Barren and unculturable land	1,217,983	19·2	3,819,723	9·9
(3) Land put to non-agricultural uses ..	1,088,920	17·2	3,382,753	8·8
(4) Culturable wastes ..	205,568	3·2	2,128,127	5·5
(5) Permanent pasture and grazing land ..	168,060	2·7	1,556,709	4·1
(6) Miscellaneous tree crops and groves ..	979,315	15·4	1,695,687	4·4
(7) Current fallows	44,360	0.7	1,465,615	3·8
(8) Other fallow lands ..	9,210	0·1	509,924	1·3
(9) Net area sown	1,732,172	27·3	14,695,526	38·2
(10) Non-reporting areas ..	123,452	1·9	347,330	0·9

In the Forest Department reports, forests are shown to cover 55·7 per cent of total land area of this district whereas in the above distribution in the agricultural statistics only 12·3 per cent of the area is covered by forests. The Agriculture Department and the Forest Department apparently do not follow the same classification of forests.

Under barren and unculturable land, land put to non-agricultural uses, land under miscellaneous tree crops and groves, the district has higher percentage of area than the State average, whereas the net area sown constitutes a much lesser percentage in the district.

Cropping pattern

Cereal crops are grown extensively. Area under important crops from 1952-53 to 1959-60 has been given in a Table in Part III. According to the statistics available for the year 1959-60, the land given to cultivation of cereal crops comprised 50·1 per cent of the total cropped area of the district. Pulses were grown only in 3·5 per cent of the gross cropped area. Among the cereal crops rice is grown extensively and it covers 44·8 per cent of the total cropped area of the district. This is, however, a much lower percentage than the State average which is 62·6. But the percentage of area given to ragi, wheat, maize, gram including red gram, sugar-cane, ground-nut, rape and mustard are much greater here than the State average. Though cultivation of rice is less extensive as compared with the State average, the percentage of rice growing area in this district is greater than that in the two adjoining districts of Baudh- Khondmals and Ganjam. Area given to cultivation of sugar-cane, ground-nut, rape and mustard in this district is much greater than that in any other district in the State. The following Table makes a comparison of the area under some of the important crops with the State averages based on the statistics for 1959-60 :

Crops	Koraput		Orissa	
	Area in acres	Percentage to gross cropped area	Area in acres	Percentage to gross cropped area
Gross cropped area	1,749,840	100·00	15,829,316	100·00
Rice	784,700	44·8	9,907,301	62·6
Ragi	41,840	2·4	188,721	1·2
Wheat	6,760	0·4	20,640	0·1
Maize	19,120	1·1	86,210	0·5
Gram	23,220	1·3	70,558	0·4
Red gram	37,580	2·1	114,803	0·7
Sugar-cane	16,330	0·9	66,318	0·4
Ground-nut	72,230	4·1	130,536	0·8
Sesamum	16,765	1·0	252,325	1·6
Rape	177,480	10·1	213,611	1·3
Mustard	177,480	10·1	242,742	1·5

Black gram, green gram, kulthi, kodo and millets which are cultivated in other parts of the State are not grown in this district.

Area sown more than once in this district was only 17,668 acres during 1959-60 out of the gross cropped area of 1,749,840 acres. The former thus constitutes only 1·0 per cent of the latter. This is a much lower percentage than the State average which is 7·2 per cent.

The density of population, proportion of workers on land to total workers, gross area sown per worker on land and the proportion of irrigated area to gross cropped area in this district is compared in the following Table with the State averages as also with those in the adjoining 3 districts of Kalahandi, Baudh-Khondmals and Ganjam.

State/ District	Density of population per sq. mile	Total workers	Workers on land (cultivator and agricultural labourer)	Percentage of workers working on land to total workers	Gross cropped area (acres)	Gross cropped area per worker on land	Area under irrigation (acres)	Percentage of irrigated area to gross cropped area
Orissa	292	7,661,529	5,656,523	73·8	15,829,316	2·8	2,409,667	15·2
Koraput	151	809,887	640,082	79·0	1,749,840	2·7	78,408	4·5
Kalahandi	200	458,968	366,629	79·9	1,327,731	3·6	128,000	9·6
Baudh-Khondmals	120	290,151	224,995	77·5	827,287	3·7	1,598	0·2
Ganjam	396	921,549	626,757	68·0	1,588,072	2·5	394,009	24·8

Cultivators and agricultural labourers constitute 79 per cent of total working population of the district. This is greater than the State average and also than the figures of the two adjoining districts of Baudh-Khondmals and Ganjam. On the other hand, gross cropped area available per worker is low. Column 9 of the above Table also brings out how inadequate are the irrigation facilities in this district.

Agricultural practices

The general agricultural practice in this district is primitive. The soil is tilled at elevations ranging from 200 to 4,000 feet above sea level. Methods of cultivation, therefore, differ greatly from place to place depending on the height of the land cultivated. Artificial irrigation is difficult on account of the physical features of the country. Very little or no manure is used on the fields. The implements continue to be as crude as they used to be centuries ago. The livestock is also poor. The rainfall is, no doubt, plentiful, but the natural conditions of the country stand in the way of good harvests. The best cultivated lands in the district are those found in Vamsadhara valley above Gunupur and in Nagavalli valley near Kalyansingpur in Rayagada subdivision and the valley of Indravati in Jeypore and Nowrangapur Taluks. The latter may be called the principal granary of the district. In the south, in Malkangiri Taluk, the cultivation is poor. In these parts, it is usual to come across 'Podo' cultivation practised by the local Adibasis. In the process of this cultivation, the hill tops and slopes are cleared by hill tribes in March-April and the branches, twigs, etc. are left on the fields to dry up. After a few days, they are set on fire, the land is cultivated and seeds of crops sown. Cultivation of different crops is carried on in these fields for a period of 3 years in rotation and thereafter the land is left fallow.

Agricultural Farms

In order to popularise better methods of agriculture and provide work to hill tribes, a few agricultural farms have been set up by the Government. One of these farms is the Model Agricultural Agency Farm at Dabugam in Nowrangapur subdivision started since 1948. The farm extends over an area of 69·44 acres, 60 acres out of which are given to cultivation of paddy. Wheat, pulses, mango, sopeta, citrus, guava, pineapple and banana are also grown in a part of the area. This farm provides work to hill tribes and also trains them in improved methods of agriculture.

The farm at Borigumma in Nowrangapur subdivision is another such farm, but it is mainly a seed producing farm. It covers an area of 13 acres out of which 12·40 acres are given to paddy cultivation.

The oldest agricultural farm in this district is the one at Pottangi which was started in 1938 for culturing tropical and subtropical fruit trees, English and Indian vegetables and to produce improved seeds, seedlings and grafts. The farm

has an area of 35·41 acres out of which paddy and wheat are grown on 22·01 acres, and an orchard covers 8·33 acres. Water supply to this farm is from a perennial stream nearby. Potato, paddy, maize, etc. are also grown in this farm.

A Rice Research Sub-station has been functioning at Jeypore since long and its main activity is to evolve better strains of paddy suitable for various types of lands. A Sugar-cane Research Substation is also functioning at Rayagada since 1954.

Irrigation

Artificial methods of irrigation are almost non-existent in this district. Two regular irrigation works built by the erstwhile Jeypore estate, one of which is at Sokota nala in Bissamcuttack Taluk and other at Champikotagedda in Rayagada Taluk provide irrigation mostly during the summer for a second rice crop and to sugar-cane. There is no major or medium irrigation project in this district. There are only a number of small minor irrigation projects which are mostly tanks or diversion weirs. The total area under irrigation during 1959-60 was 78,408 acres out of which tanks and wells irrigated only 3,108 acres. There is no irrigation through any canal system. Out of the minor irrigation projects, only 181 had each an ayacut area of 100 acres and more. A list of such projects has been given in a Table in Part III. The majority of these projects are diversion weirs.

In the recent years a Lift Irrigation Co-operative Society has been formed at Rayagada which intends to put up 4 pumping stations at a cost of Rs. 8,00,000 to provide irrigation facilities to nearly 3,000 acres of land mostly growing sugar-cane near about Rayagada. Two of these pumping stations are functioning at Chekagudda and Tumbrigudda.

Agricultural implements

There were 3 livestock censuses since Orissa formed a separate province in 1936 and during each of these occasions a Census of agricultural implements and machineries was also taken. The earliest Census was in the year 1945 and the latest during 1961. According to these records, the number of ploughs increased from 135,960 in 1945 to 205,914 in 1961. The greatest increase was under iron plough whose number went up from 126 to 1,283. The number of sugar-cane crushers recorded a small increase, but those worked by power increased considerably. There was only one such machine in 1945, but the number increased to 71 in 1961. Similarly, the number of pumps for irrigation purposes increased from 2 in 1945 to 66 in 1961 out of which electrically operated pumps were 29. The details of the agricultural implements available in the district during these census years are given in a Table in Part III.

* ANIMAL HUSBANDRY AND VETERINARY

The Animal Husbandry and Veterinary administration of the district is in charge of a District Animal Husbandry and Veterinary Officer whose headquarters is at Koraput. There were, in 1963, 24 veterinary dispensaries and 60 stockman centres in the district. Under the poultry development scheme a Regional Poultry Farm has been set up at Koraput since 1957 which has a strength of 500 birds and 7,000 rearing stock. Poultry requirements of Government farms, etc. in Koraput and Kalahandi districts are met by supply from this regional farm. With this regional farm runs also a demonstration farm with a strength of 100 birds. Expanded nutrition programme for supply of eggs to feed expectant and nursing mothers was in operation in 4 Community Development Block areas in this district. Artificial insemination scheme is not taken up here. No dairy farm has yet been set up. The common cattle diseases in the district are rinderpest, haemorrhagic septicemia, black-quarter, anthrax, foot and mouth disease and foulpox. No serious cattle epidemic was reported during the last decade.

During the last 20 years, three livestock censuses were conducted in this district in 1945,

*Letter No. XI-114-62, 13796-Vet., dated the 7th August 1963 from Director of Animal Husbandry and Veterinary Services, Orissa.

1957 and in 1961. The total livestock recorded at 962,100 in 1957 increased to 1,287,134 in 1961. There has been increase in number of all categories of livestock between these two censuses except horses (including ponnies) and camels whose number went down from 9,013 to 6,266 and 4 to nil respectively. There has been an appreciable increase in the number of pigs which went up to 67,594 in 1961 from 37,532 recorded in 1957. This district occupies the first place in the State in possessing buffaloes and pigs whose numbers in 1961 were 162,673 and 67,594 respectively.

PUBLIC HEALTH

Administration

The public health activities and medical administration of the district are under the charge of a District Health Officer and a Civil Surgeon respectively and both of them are stationed at Koraput. Their jurisdiction covers the entire district of Koraput. In April 1961 the district had 15 hospitals, 19 dispensaries and 11 primary health centres. 364 beds in all for indoor patients were available in these hospitals and primary health centres and there were altogether 26 doctors and 7 kavirajas in position. Treatment at the Government institutions is given free. Six family planning centres functioned during 1961 in the district, the earliest of them being the one at Jeypore town started in 1957.

Vital Statistics—Registration System

It being one of the older districts of the State, had the benefit of the registration system for collection of vital statistics from an earlier period. The Madras Registration of Births and Deaths Act, 1899 (Act III of 1899) is applicable to this district on account of the area being formerly under the Madras Presidency. Among all the districts of the State, coverage by registration system is the least in this district. Vital occurrences were collected only for a total area of 30·79 square miles in 5 Notified Area Councils of Koraput, Kotpad, Nowrangapur, Rayagada and Gunupur, in Jeypore Municipality and in Gudari Gram Panchayat. The population covered is 78,161 out of the total population of 1,498,271 in the district. People not served by registration system thus constitute the preponderating majority, being 94·78 per cent of total population. It is reported that dearth of suitable reporting agencies was the principal reason why the registration area was so restricted. Except in Jeypore Municipality, the reports are collected by the village headmen and they report them to the sanitary inspector who sends a monthly return of vital statistics direct to the Director of Health Services, Orissa. The health staff in Jeypore Municipality collect the information for Jeypore town and forward them to the Director of Health Services, Orissa, through monthly returns. The system has not, however, worked properly and attempts are now being made to entrust this work to the Gram Panchayats. Due to the small coverage by the registration system, the statistics available for the past decade may not be truly representative of the position obtaining in the district.

The Census demarcations of urban and rural areas are not followed for collection of vital statistics. Jeypore Municipality forms the only urban unit in the district, while the five Notified Area Councils named above are included in the rural areas.

Birth and Death Rates

The registration records show that during the decade 1951-60 only 5,463 persons died and 7,758 persons were born in the registration areas of the district. Accordingly only 2,295 souls were added to the population of the registration area during this decade out of which 1,279 were males and 1,016 females. Against this increase seen in vital statistics returns, the increase in population between 1961 and 1951 according to Census calculations for the registration area comes to 17,899. There is thus a large discrepancy between these two figures of increase of population. The increase shown by the vital statistics falls far short of the growth noticed in 1961 Census. The excess in Census figures cannot be explained only on the ground of migration gain so as to justify the

lower figures in vital statistics records. From all considerations, the registration of vital events may be taken to be not complete.

The decennial birth and death rates according to these registration statistics for 1951-60 were 11·3 and 7·9 respectively against similar rates of 14·9 and 11·1 recorded for the earlier decade of 1941-50. Although the various developmental activities could have brought down the incidence of deaths and controlled births to some extent during this decade, these rates cannot be real on any account. They also fall far short of the State rates which are 25·8 for births and 16·2 for deaths.

The annual birth and death rates for this decade were as follows :

	Birth rate per 1,000 population			Death rate per 1,000 population		
Years	Total	Rural	Urban	Total	Rural	Urban
1951	14·6	14·6	..	7·6	7·6	..
1952	12·6	12·6	..	7·3	7·3	..
1953	11·9	11·9	..	10·2	10·2	..
1954	9·5	10·3	8·0	6·6	7·0	6·0
1955	8·8	9·8	6·8	5·4	5·7	4·8
1956	10·4	10·2	10·8	6·3	5·6	7·8
1957	9·5	10·2	8·1	8·5	8·1	9·2
1958	12·3	14·1	8·7	12·4	12·0	13·3
1959	12·4	14·6	7·8	7·3	7·6	6·9
1960	11·0	11·9	9·1	7·3	6·6	8·8
1951-60 (Decennium)	11·3	12·1	8·5	7·9	7·8	8·2

The fact that the above rates are unrealistic is apparent. The birth rates of urban area are lower than those of the rural area, but the position is reversed in the case of deaths. Death rate has been lowest in 1955. This year was free from attacks of cholera and smallpox and there were comparatively lesser deaths from fever.

According to recorded causes of mortality deaths from different diseases and their proportion to total deaths during this decade were as follows :

	Deaths	Percentage of deaths
From cholera ..	122	2·23
From smallpox ..	367	6·72
From fever ..	2,694	49·31
From dysentery and diarrhoea ..	438	8·02
From respiratory diseases	671	12·28
From wound and accidents ..	44	0·81
From other causes ..	1,127	20·63
Total ..	5,463	100

Among all these causes, fever has taken the largest toll and the second largest casualties were due to "other causes." Respiratory diseases, and dysentery and diarrhoea were the two other causes of great mortality.

Fever

In common with other parts of the State, people in this district suffer heavily from fever. The mortality on account of fever constituted 49·31 per cent of total deaths during the decade 1951-60. It is, however, very likely that a number of deaths from other causes may have been misclassified under fever by the ignorant primary collectors of vital events, who with their limited knowledge to diagnose true causes of death often misclassify deaths from doubtful causes indiscriminately under fever. But such misclassification could not have been too great to alter the trend very much. About 56 per cent of the total area of the district is hilly which possesses an unhealthy and malarial climate. Malaria, the principal disease in the group of diseases included under

fever, is hyperendemic throughout the district. A survey conducted before launching of the National Malaria Control Programme during the past decade showed endemicity in spleen rate to be 63 per cent in this district. The district has a long history of endemicity of malaria and it is no wonder that majority of deaths from fever could be due to malaria. Deaths from fever occur all the year round, but the greater number of mortality generally occurs in the rainy season and till the end of November. A total number of 394,575 malaria cases were reported to have been treated in the hospitals and other medical institutions of the district during the past decade. The attendance of such patients at hospitals has, however, fallen down from 1958 onwards.

Next to fever, the largest mortality has been on account of " other causes." The group " other causes " combine various diseases other than cholera, smallpox, fever, dysentery and diarrhoea, respiratory diseases and wound and accidents. All these causes except cholera and smallpox are heterogeneous and combine diseases which differ from each other in their characteristics.

Cholera

Among the specific causes of mortality two are cholera and smallpox. Cholera visited the district in some years during the past decade. It was absent in the years 1954, 1955 and 1959. In all other years it has taken tolls. Except in 1953 deaths from cholera were sporadic and negligible. The greatest mortality of the decade from this cause was in the year 1953, being 112. Cases of cholera deaths this year began to be reported from August and in October the number of casualties rose to 96. The disease was, however, completely checked during November and no case of death was reported for the following two years and a half.

Smallpox

Unlike cholera, smallpox took a large toll of human lives during this decade and visited the district in all years except 1955 and 1956. Deaths during 1952, 1954 and 1957 were negligible and were occasional. Though mortality in the year 1951, 1953, 1959 and 1960 was not very great, the disease was prevalent almost throughout the year. The highest mortality was reported in 1958 in which year 267 persons died from this cause. Deaths during this year were reported in all the months and the highest number of casualties was in the month of July, being 69.

Infant Deaths

The total number of infant mortality in the district during the decade 1951-60 was 505 and it constituted 9·24 per cent of total deaths. The highest number of infant deaths was recorded in the year 1958, being 119. 20·09 per cent of total deaths of the decade were of children of pre-school going age. The decennial infant death rate for the decade is 65·1 per mille of live births, and this rate is much lower than the State average of 145·6. The highest infant mortality rate was recorded in the year 1958 being 131·6 and the lowest rate was 28·5 in the year 1955. The decennial rates of mortality for rural areas were much less than those for urban areas, the rate being 51·2 and 115·6 respectively. This is an unusual feature.

COMMUNITY DEVELOPMENT AND PANCHAYATI RAJ

Community Development Blocks

The Community Development Programme aims at all-round development of rural areas and it was inaugurated in this State in October 1952. The original pattern was to have Community Projects and Community Development Blocks with a total budgetary allotment of Rs. 65,00,000, and Rs. 15,00,000, respectively with a period of operation of 3 years each. This pattern changed quickly and from 1954 it was replaced by 3 stages of Development Blocks, namely, National Extension Service Blocks, Community Development Blocks and Post-Intensive Blocks, which were to run *seriatim*. The period of operation of an N.E.S. Block was ordinarily 3 years and after the progress of development reached a certain standard and the Block had done a minimum of about 2 or $2\frac{1}{2}$ years under the N.E.S., it was converted into a Community Development Block. After completion of the Community Development term the

Block was to enter Post-Intensive phase for which a provision of Rs. 30,000 was available annually for expenditure on local works and social education for a period of 3 years. The N.E.S. and Community Development Blocks had an allotment of Rs. 4,00,000 and Rs. 12,00,000 respectively. This pattern also did not last long and the 3 stages of development were concised into 2 stages, namely, intensive development called Stage I and post-intensive development named as Stage II. Each of these phases was for a period of 5 years with a financial allotment of Rs. 12,00,000 and Rs. 5,00,000 respectively for Stage I and Stage II periods. The Stage I period is preceded by a pre-extension period of one year with an allotment of Rs. 18,800 for activities exclusively in the field of agriculture, the expenditure thus incurred being ultimately adjusted against Stage I budget. This revised programme came into operation with effect from the 1st April 1958 and is still in force. All the N. E. S. Blocks existing then were taken under Stage I and the Post Intensive Blocks under Stage II. The Community Development Blocks were allowed to complete their full term and then revert to Stage II. With the revision in programme, the original programme of covering the entire State with the Blocks by the end of the Second Plan period was staggered, the number of Blocks increased and the full coverage by Blocks deferred till October 1963.

The normal population coverage of a Block is 66,000 for plain areas and 25,000 to 30,000 for tribal areas. On this basis this district has been delimited into 35 Blocks. The first allotment to this district was a National Extension Service Block in the 1st April 1954. At the end of the Second Plan period, i.e., by the 31st March 1961, this district had, through different series of allotments, a total number of 22 Blocks covering an area of 5,059 sq. miles. Out of these Blocks, fourteen were in Stage I including one Special Multipurpose Block, one in Stage II and seven in Pre-extension stage. Narayanapatna Block started on the 1st April 1957 is the Special Multipurpose Block, a Block which in addition to the Community Development budget got an allotment of Rs. 15,00,000 from the Ministry of Home Affairs for intensive development of its area which is predominantly inhabited by the Scheduled Tribes.

The Block programme is executed through the agency of Gram Panchayats. With the Panchayati Raj scheme coming into action, Panchayat Samitis are now solely responsible for planning and execution of the Block programme according to the basic needs of the community. The Block funds are placed at the disposal of the Panchayat Samitis as grants-in-aid and loans for implementation of the developmental schemes. Although the emphasis is on agriculture and industry, priority is given in executing the programmes relating to provision of supply of water for irrigation and drinking purposes, education, medical and communication facilities. A total expenditure of Rs. 78,75,783 was incurred in this district on the Community Development programme up to the end of 1960-61, the break-up of which under broad heads of development is as follows :

	Rs.
Staff and contingencies, and Block buildings ..	24,74,404
Animal husbandry and agricultural extension..	5,72,549
Irrigation	11,99,087
Health and rural sanitation	9,46,217
Education	5,12,549
Social education	6,05,258
Communication	6,19,183
Rural arts, crafts and industries	1,60,023
Housing	7,86,513

Among the achievements under this programme up to the end of 1960-61, the important ones are the undertaking or completion of 83 minor irrigation projects, functioning of 269 co-operative societies, and opening of 8 primary health centres. As a part of social education programme 102 Mahila samitis were started with a total membership of 2,343. The number of adults acquiring literate standard is 13,471. The achievements

under communications programme include the laying of 428 miles of roads and construction of 301 bridges and culverts.

Gram Panchayats

In the earlier stage, Gram Panchayats used to discharge mostly municipal functions in rural areas. In course of time, their activities extended to execution of development schemes. Under the Community Development programme which was initiated during the First Five Year Plan period they began to play a more active role in the execution of developmental activities. In the beginning, they had only a status as agencies for execution of Government programmes, but towards the later part of the Second Plan period they began to be entrusted with the duties of planning and executing their own programmes of development. The present Panchayati Raj system thus came into being. This is a 3-tier system with the Gram Panchayat at the village level and the Zilla Parishad at the district level, the intermediate level being given to the Panchayat Samiti.

Gram Panchayats are generally formed for a group of 5,000 population, though in special cases the limit may be lowered. The activities of the Gram Panchayats are regulated by the Orissa Gram Panchayat Act, 1948. At the head of the Gram Panchayat is a Sarpanch who is assisted by a Naib Sarpanch. The Gram Panchayat members are elected by the villagers on adult franchise basis and from amongst them are elected a Sarpanch and a Naib Sarpanch. All these members including the Sarpanch and Naib Sarpanch hold their office for a period of 3 years. There is a paid Secretary for each Gram Panchayat to maintain its accounts and records. Each Gram Panchayat has a Fund which is composed of grants and loans received from Government as also taxes and other internal incomes arising out of various schemes, such as, pisciculture, co-operative societies, poultry development, markets, ferries, etc. The Fund is usually lodged in a Savings Bank account at the nearest post office. Village sanitation, maintenance of public roads, public tanks, public health, lighting, scavenging and registration of births and deaths are some of the important functions of Gram Panchayats.

The district had only 12 Gram Panchayats during 1951-52 and their number increased to 199 by the end of 1959-60. The entire district excluding areas noted for backwardness and of the Municipality and Notified Area Councils is now covered by the Gram Panchayats. The income and expenditure of the Gram Panchayats have also increased considerably during the decade. From an income of Rs. 12,052 and an expenditure of Rs. 9,096 recorded for the year 1953-54, the expansion has gone up to Rs. 5,84,368 and Rs. 2,68,982 respectively by the end of 1959-60. Taxes during this year yielded a total revenue of Rs. 92,617, the highest income accruing from Panchayat tax, being Rs. 65,743. Among the Government grants which amounted to Rs. 1,49,388 in all during the year, the highest amount was on account of Kendu leaf grant, being Rs. 83,224. The expenditure that year broadly covered Rs. 1,55,880 under staff and contingencies and Rs. 1,13,102 on various works including developmental schemes.

Panchayat Samitis

The Orissa Panchayat Samitis and Zilla Parishad Act, 1959 provided for establishment of Panchayat Samitis all over the State. By an order of the State Government in December 1960 this district was delimited into 35 Panchayat Samitis. Out of them, 22 were areas which had Community Development Blocks already and the remaining 13 were Shadow Blocks or areas demarcated to have Community Development Blocks in course of time. All the Panchayat Samitis started functioning with effect from 26th January 1961.

The Panchayat Samitis are largely elected bodies and consist of both official and non-official members, the official members being the Block Development Officer and the representatives of various departments of the State Government. The non-official members are Sarpanchs of Gram Panchayats within the Panchayat Samiti area and an additional member chosen from each Gram Panchayat not being a member of the Gram Panchayat. Due representation of women and Scheduled Castes and Scheduled Tribes population is secured in membership of the Samiti. Both official and non-official members take part in the discussions of the Panchayat Samiti meetings, but

the official members are not entitled to vote. Non-official members of the Panchayat Samitis hold their office for a period of 4 years. From among the non-official members a Chairman and a Vice-Chairman are elected for each Samiti. The Chairman generally presides over the Panchayat Samiti meetings, and in his absence the Vice-Chairman takes the chair. The Chairman gets an honorarium of Rs. 100 per mensem and is provided with rent-free accommodation or Rs. 50 as house rent allowance in lieu thereof. The Panchayat Samiti meets once every alternate month.

The Samiti is responsible for planning, execution and supervision of all developmental programmes in its area. Some of its responsibilities are control and spread of primary education, management of trusts and endowments which Government may entrust, vaccination, registration of births and deaths and supervision over the work of the Gram Panchayats within its jurisdiction. Keeping in view the needs of the community and the broad outlines of the schemes indicated by Government, the Panchayat Samitis prepare their annual budgets and proposals and submit them to the Zilla Parishad for approval. After Zilla Parishad sanctions, the approved schemes are executed. There is a Panchayat Samiti Fund which is lodged at the nearest Treasury and fed by grants and loans from Government as also aids from all-India bodies, and institutions, donations and contributions, etc. The Block Development Officer who functions as the Executive Officer of the Panchayat Samiti draws on this Fund as and when necessary by issue of cheques. The main sources of income of the Panchayat Samiti are the loans and grants from Government which are generally routed through the Zilla Parishad accounts except the Community Development funds which are directly placed with the Panchayat Samiti. The work and accounts of the Panchayat Samiti are open to audit and inspection by the Government officials.

Zilla Parishad

The Zilla Parishad is the highest institution immediately below the State level in the Panchayati Raj system. The Chairmen of all the Panchayat Samitis in the district, the M. Ps, M. L. As. and Members of Rajya Sabha elected from the district are the non-official members of the Zilla Parishad. The official members are the Collector, the Subdivisional Officers and the District Heads of different Departments of the State Government. One of the non-official members is required to be a female. The Chairman and the Vice-Chairman of the Parishad are elected from amongst the non-official members. The tenure of office of all the non-official members including the Chairman and the Vice-Chairman is 4 years. The Parishad is required to meet once every 3 months and the meeting is generally presided over by the Chairman and in his absence by the Vice-Chairman. Official members take part in the discussions in the meetings of the Parishad but have no right of voting. The Chairman of Zilla Parishad gets an honorarium of Rs. 200 and house rent allowance of Rs. 50 per mensem.

The Zilla Parishad mainly approves of the schemes and budgets of the Panchayat Samitis, distributes funds among them and supervises over the execution of different schemes. The day to day work of the Parishad is discharged by an Executive Officer who belongs to Orissa Administrative Service, Class I. The Zilla Parishad has also a Fund which is transacted at the Government Treasury. The Fund comprises grants and loans from Government, aids from all-India bodies and internal incomes. The Executive Officer of the Zilla Parishad functions as the drawing and disbursing officer in respect of this Fund.

A Zilla Parishad for Koraput district was formed with effect from the 6th February 1961 and has its headquarters at Koraput.

CO-OPERATION

The co-operative movement plays an important part in providing credit on reasonable terms and conditions to the local people, mostly to those belonging to the agricultural class. The reorganization of credit co-operative societies at all levels and strengthening of credit structure with State participation in the share capital are the most important features of the co-operative movement during the past decade. The weaker units were provided with share capital contribution

and given subsidy for maintaining trained and efficient managerial staff. Several new schemes were put into operation and old societies were revitalized.

The agricultural co-operative societies advance loans both in cash and kind. Most of them give loans on short-term basis, whereas there are others to advance medium-term credits. There is provision for grant of long-term loans also. Short-term loans generally include cash, nucleus paddy seeds, green manure seeds, chemical fertilizers and other production pre-requisites including insecticides, purchase of agricultural implements, marketing of crops, etc. Funds required for sinking or repair of wells, purchase of cattle and agricultural machineries, such as, pump set, and cost of minor improvement to lands are some of the items classified under medium-term loan. The non-agricultural co-operative societies do not, however, advance any loan.

The co-operative movement in this district has been making steady progress from year to year during the past few years. The total number of co-operative societies during 1961-62 in the district was 418, the majority of them being grain-golla societies, which numbered 147. Next to grain-golla societies greater in numerical strength are the small-sized credit societies. Though the number of small-sized credit societies remained constant for the last 5 years, the number of grain-golla societies increased from 100 during 1957-58 to 147 by 1961-62. Simultaneous with this increase in the number of societies, the membership and working capital of grain-golla societies also increased considerably during this period. The details of the number of co-operative societies in various categories, their membership and working capital during the years between 1957-58 and 1961-62 are given in a Table in Part III. Another category of societies which has made rapid progress during this period next to grain-golla societies is the marketing societies. The working capital of these societies increased to Rs. 8,81,752 in 1961-62 from Rs. 3,18,610 in 1957-58. A similar expansion of activities is also noticed in respect of housing societies whose membership and working capital increased to 761 and Rs. 6,73,844 respectively by 1961-62 from 399 and Rs. 1,20,329 during 1957-58. The total number of members in co-operative societies in this district during 1960-61 was 60,588 which gives one member per 24 persons in the district.

The central financing agency for all these co-operative societies is the Nowrangapur Central Co-operative Bank. Its membership and working capital are also on increase. During 1961-62 it had 287 members on roll with a working capital of Rs. 12,15,254.

The activities of the Co-operative Department in this district are managed in 2 circles, each under the charge of an Assistant Registrar of Co-operative Societies. One of them functions from Rayagada and the other from Jeypore.

NATIONAL SAVINGS

The National Savings movement was at first started during the earlier years of the Second World War and was then called the Defence Savings scheme. Its objectives were to collect money for defence purposes and to fight inflation. During the post-war period the activities of this movement were directed towards inculcating the habit of thrift among the people so as to obtain savings for augmentation of the resources for financing the Five Year Plans. In recent years it is also helping in collecting funds to strengthen the defence in the National Emergency. The scheme was more or less on an experimental basis till 1948. In 1949 it was spread over to all the districts in the State including Koraput.

The various National Savings securities which are available now, are the 12-Year National Defence Certificate, the 10-Year Defence Deposit Certificate, the 15-Year Annuity Certificate, the Premium Prize Bond, the Cumulative Time Deposit Scheme and the Post Office Savings Bank Account. The securities are available in different denominations and carry varying rates of interest. The gross and net sale-proceeds from all the

National Savings securities in Koraput district during the past 3 years are given below :

Years	Gross sale (In thousands of rupees)	Net sale
1960-61	22,31	3,26
1961-62	24,67	5,39
1962-63	27,96	7,50

The targets, achievements and percentage of achievement in the sale of National Savings securities in the district during these 3 years were as follows :

Years	Target	Achievement	Percentage of achievement
	Rs.	Rs.	
1960-61 ..	8,00,000	3,26,000	40·8
1961-62 ..	7,00,000	5,39,000	770.
1962-63 ...	7,00,000	7,50,000	107·1

PLACES OF INTEREST

Koraput

It is the headquarters of the district, situated at 2,900 ft above sea level and is on the Vizianagram—Jeypore main road at a distance of about 90 miles from Vizianagram, the railhead of district. The town will have its own railway station when the Dandakaranya-Bolangir-Kiriburu railway line is opened to traffic in near future. It is a small town surrounded by a cluster of hills from which flow small and perennial streamlets. There is a Notified Area Council for this town since July 1953. Its population in 1961 Census was 7,461. It has a small bazar which is growing rapidly. The town is connected by daily bus service with Jeypore, the main business centre of the district. Koraput has been the headquarters of local administration since 1870. Though malaria is endemic in the town, the climate is remarkably healthy. The temperature does not run to extremes and there is an excellent supply of drinking water from wells and springs. The Collector, the Superintendent of Police and most of the District Officers hold their offices here.

Nowrangapur

A small town with a population of 10,380 (1961 Census), it is the headquarters of Nowrangapur subdivision and is situated at a height of about 1,918 ft above sea level. It is reached by road from Jeypore through regular daily bus service. The town has a Notified Area Council since 1953. It was formerly a chief centre of reeling and weaving of tassar fabrics and was also the headquarters of a Special Assistant Agent since 1936 when Koraput formed a district of Orissa. The town is noted for lacquer work industry. A few families of Sankhari caste prepare various fancy articles, such as, chains, bangles and fly-whisks from lac and by coating nests of boxes with lacquer patterns. The town continues to be a great exporting centre for foodgrains. Its weekly market is one of the largest in the district and handles large quantities of paddy and rice.

Rayagada

It is the headquarters of Rayagada subdivision and stands at a height of 687 ft above sea level on the bank of Kumbhikotagedda near its junction with the river Nagavalli. Its population in 1961 Census was counted at 14,537 and it has a Notified Area Council since 1955. It is the most important industrial centre of the district. Among various industrial establishments, there are a few rice mills, a sugar factory, and a ferromanganese plant here. The old mud fort within the town is supposed to have been built by one of the Rajas of Jeypore. The town is served by railways and has a railway station on the Vizianagram—Raipur Branch of the S. E. Rlys. The town is also connected by all- weather road with Jeypore and Koraput.

Jeypore

Jeypore, which means the city of victory, was the headquarters of Jeypore estate till 1870. The headquarters was then shifted to Koraput. It is the busiest town in the district and is picturesquely situated close under the western slopes of the 3,000 ft plateau. It has a population of 25,291 according to 1961 Census and has a Municipality. As the chief centre of trade of the district, its main business is export of paddy, rice, wood and

bamboo. There is a daily market which is attended by tribals in large numbers. The town is connected with the district headquarters as also with the adjoining districts through regular bus services. It lies on the route to Machkund Hydroelectric Project which is nearly 49 miles south of this place. The town has an ancient history which begins with the removal of the capital of the kingdom from Nandapur during the rule of Vira Bikram Dev (1637—69 A.D.). The ruins of Maharaja's old fort and a great tank called Jagannath Sagar about a mile long and half a mile wide, which never dries up, can now be seen inside the town. The main festival of the town is Dasahara which lasts for 16 days and includes several ceremonies in honour of the goddess Kanak Durga whose temple is within the palace.

Borigumma

A village in Jeypore Taluk under Nowrangapur subdivision with a population of 2,504 (1961 Census) situated approximately midway between Jeypore and Nowrangapur on the main road connecting both these places. There is a temple of Vairab at the foot of a hill to the south of this village where a great festival is held every year in the month of Phalguna. This place had the first allotment of National Extension Service Block of the district in April 1954.

Gunupur

It is now the headquarters of the newly formed subdivision Gunupur. This new subdivision was formed with effect from 1st August 1962. The town is situated on the bank of the river Vamsadhara at a height of 260 ft above sea level. It is one of the important market towns of the district and is a centre of trade and commerce. It has a Notified Area Council since 1955 and its population in 1961 Census was 10,180. It is also the terminus of the Naupada-Parlakhemundi light railways.

Boipariguda

It is a small village, its name being probably corrupted form of Bepariguda, meaning traders' settlement, with a population of only 651 according to 1961 Census, situated within Jeypore Taluk nearly 14 miles from Jeypore on the road to Malkangiri. It was famous as a trade centre and is now the headquarters of a police station bearing the same name. A manufacturing centre of bamboo matting has been opened in the village to develop cottage industry in the area. There is also a Community Development Block here and the area is a place of activity of Bharat Sevak Samaj.

About 2 miles from this place, is a small village named Kendupoda which is known for the shrine of a forest deity called Birukhomb, held in great reverence by the local people. It is said that the deity, when invoked, can kill or save any human being.

Nandapur

A village in Pottangi Taluk 14 miles from Semiliguda on the road leading to Padwa, it is the headquarters of a police station and of a Community Development Block each bearing the same name. It has a population of 1,420 according to 1961 Census. The place was the capital of Jeypore estate in ancient times and continued to be so till the reign of Vira Bikram Dev (1637—69 A.D.) when it was removed to Jeypore. It still contains relics of its former importance and remains of a mud fort. The ruins of a famous throne of 32 steps on which the early ruling chiefs of Jeypore were believed to be installed are also found in the village.

Malkangiri

It is the headquarters of the recently formed subdivision Malkangiri which came into being with effect from 1st January 1962. It is a small village situated at a height of 641 ft above sea level with a population of 2,510 according to 1961 counts. The place is reached by road from Jeypore. This place was a hot bed of *meriah* sacrifice in ancient days.

Pappadahandi

A village in Nowrangapur Taluk about 8 miles north of Nowrangapur with a population of 2,387 according to 1961 Census, it is the headquarters

of a police station and is located at a height of 1,922 ft above sea level. It falls on the main road from Jeypore to Bhawanipatna at the point where a road branches off towards Raipur *via* Umarkot. It has a temple with decorative designs which is a rare specimen in the entire district and is a place of pilgrimage on Sivaratri day. The inscriptions found at Podogoda, the remains of an old fort and some weather-beaten Sati stones prove the high antiquity of this village.

Gupteswar cave

Situated on the bank of the river Kolab in Jeypore Taluk about 26 miles from Jeypore in south-west direction, the cave is near the top of a limestone hill which is about 500 ft higher than the surrounding country. The place is reached by a forest track which leads westwards from Ramagiri for 9 miles. It contains one of the most important shrines of the district. The deity is said to have been first discovered in the time of Vira Bikram Dev, ruler of Jeypore estate (1637—69). The place is popularly believed to have been the scene of several episodes in Ramayana. There is a large congregation during Sivaratri festival, attended by pilgrims even from Madhya Pradesh and by people suffering from incurable diseases like leprosy.

Duduma

It is famous as the site of the Machkund Hydro-electric Project. About 49 miles to the south of Jeypore near Badiguda, the river Machkund has a fall of 540 feet from a mountain top. The Hydroelectric scheme worked out at these falls is a joint venture of the Governments of Orissa and of Andhra Pradesh, the cost being shared between them on 30 : 70 basis. The electrical energy supplied to the districts of Ganjam and Koraput comes from this project. Machkund town has a population of 2,754 (1961 Census). The place is reached by road from Jeypore. It is also a place of pilgrimage and is associated with the name of Shri Chaitanya who is believed to have visited this place in the early part of 16th century.

Umarkot

A small village with a population of 2,533 (1961 Census), it is the headquarters of a police station in Nowrangapur Taluk. It falls on the main road running north-west from Jeypore to the borders of Raipur district and is about 40 miles to the north of Nowrangapur. An additional District Magistrate of Koraput district has his headquarters here. The place gained its importance during the recent years on account of its being covered by one of the major projects under the Dandakaranya Rehabilitation scheme. This is a vast scheme for rehabilitation of displaced persons from East Pakistan. The work on this project was started in October 1959. An area formerly full of forests has now grown to be a modern township. While resettling the displaced persons, some portion of the reclaimed land is also made available to the landless local Adivasis for their settlement. 24 villages holding nearly 1,300 displaced families of East Pakistan were set up by 1961 in this area.

Bagara

It is famous for waterfalls. The place is reached on kutcha road for 3 miles from Khondaguda which is 10 miles from Koraput and 6 miles from Jeypore. There are three small waterfalls from a height of about 30 ft on the river Kolab. The place is surrounded by beautiful natural sceneries. It has a rest house at the site of the falls for use of the visitors.

Chatikona

Situated among a cluster of hills the village is famous for waterfalls. It is located in Rayagada subdivision and is easily reached from Rayagada Railway Station. Another attraction of the village is the temple of Pataleswar where a large congregation occurs during Sivaratri festival every year.

CALENDAR OF IMPORTANT EVENTS

1860 .. Raja of Jeypore, Bikram Dev died.

1863 .. Assistant Agents appointed for the first time at Jeypore and Parvatipur for administration of civil and criminal justice of Jeypore estate.

1864 .. The Savara uprising of Gunupur started in July and took a serious turn in November.

1865 .. Separate police district of Jeypore formed.

1866 .. Work on Jeypore-Salur Ghat road commenced.

1869 .. A hospital, the first one in the district, established at Gunupur.

1870 .. Koraput chosen as the headquarters of the Assistant Agent and most offices transferred to Koraput from Jeypore.

1879-80 .. Rampa rebellion spread into the district.

1882 .. The Schleswig-Holstein Evangelical Lutheran Mission started work in Koraput.

1887 .. Jeypore hospital established.

1889 .. Maharaja Ramchandra Dev of Jeypore died. As his son Bikram Dev was a minor, Jeypore estate was placed under Court of Wards.

1895 .. Maharaja Bikram Dev III of Jeypore having come of age took over charge from Court of Wards.

1905 .. Koraput Local Board, the first local self governing body in Koraput district constituted.

1906 .. A part of Panchipenta estate bought in auction by the Raja of Jeypore.

1910 .. A portion of Madgole estate purchased by the Raja of Jeypore.

1914 .. Devastating floods

1920 .. Maharaja Bikram Dev III of Jeypore died.

Agency tracts of Ganjam, Vizagapatam and East Godavari districts formed into one agency division and placed under the charge of a Commissioner stationed at Waltair. The present Koraput was a part of the division.

1923 .. Agency Division (formed in 1920) was abolished. Koraput district again formed part of Vizagapatam Agency.

1928 .. Remaining portions of Madgole estate acquired by the Raja of Jeypore.

1931 .. Maharaja Ramachandra Dev IV of Jeypore died.

Extension to Gunupur of Parlakhemundi Light Railway completed.

1932 .. Raipur—Vizianagram Railway line opened to traffic.

1936 .. Ghosha hospital, Jeypore established.

(April) Orissa Province formed, with Koraput district as a part of it. The district of Koraput comprised its present area and the Parlakhemundi subdivision of present day Ganjam district.

(November) Parlakhemundi was transferred from Koraput to Ganjam district.

1937 .. Sugar factory at Rayagada started production.

1941 .. Nowrangapur subdivision created.

1942 .. Police opened fire on a mob 2,000 strong which gathered near Mathili PS under the leadership of Lakshman Naik. Six died and several others were injured.

1942 (contd.) Police also opened fire on a large crowd near Pappadahandi resulting in 19 deaths and about one hundred injured.

1943 .. Lakshman Naik, being sentenced to death, was hanged in Berhampur Jail (Ganjam district).

1946 .. Construction work on Machkund Hydroelectric Project started.

1947 .. The Bikram Dev College, Jeypore, was established.

1948 .. The Orissa Debt Bondage Abolition Regulation, declaring Gothi agreements void, was passed.

1949 .. Taluk Boards abolished.

1951 .. Maharaja Shri Bikram Dev Varma of Jeypore died. His estate was placed under Court of Wards as the heir apparent was a minor.

1952 .. Estates covering the entire district were abolished.

1953 .. Normal administration of civil and criminal justice introduced in Koraput. A District and Sessions Judge was stationed at Jeypore.

Union Board, Jeypore, was constituted into a Municipality.

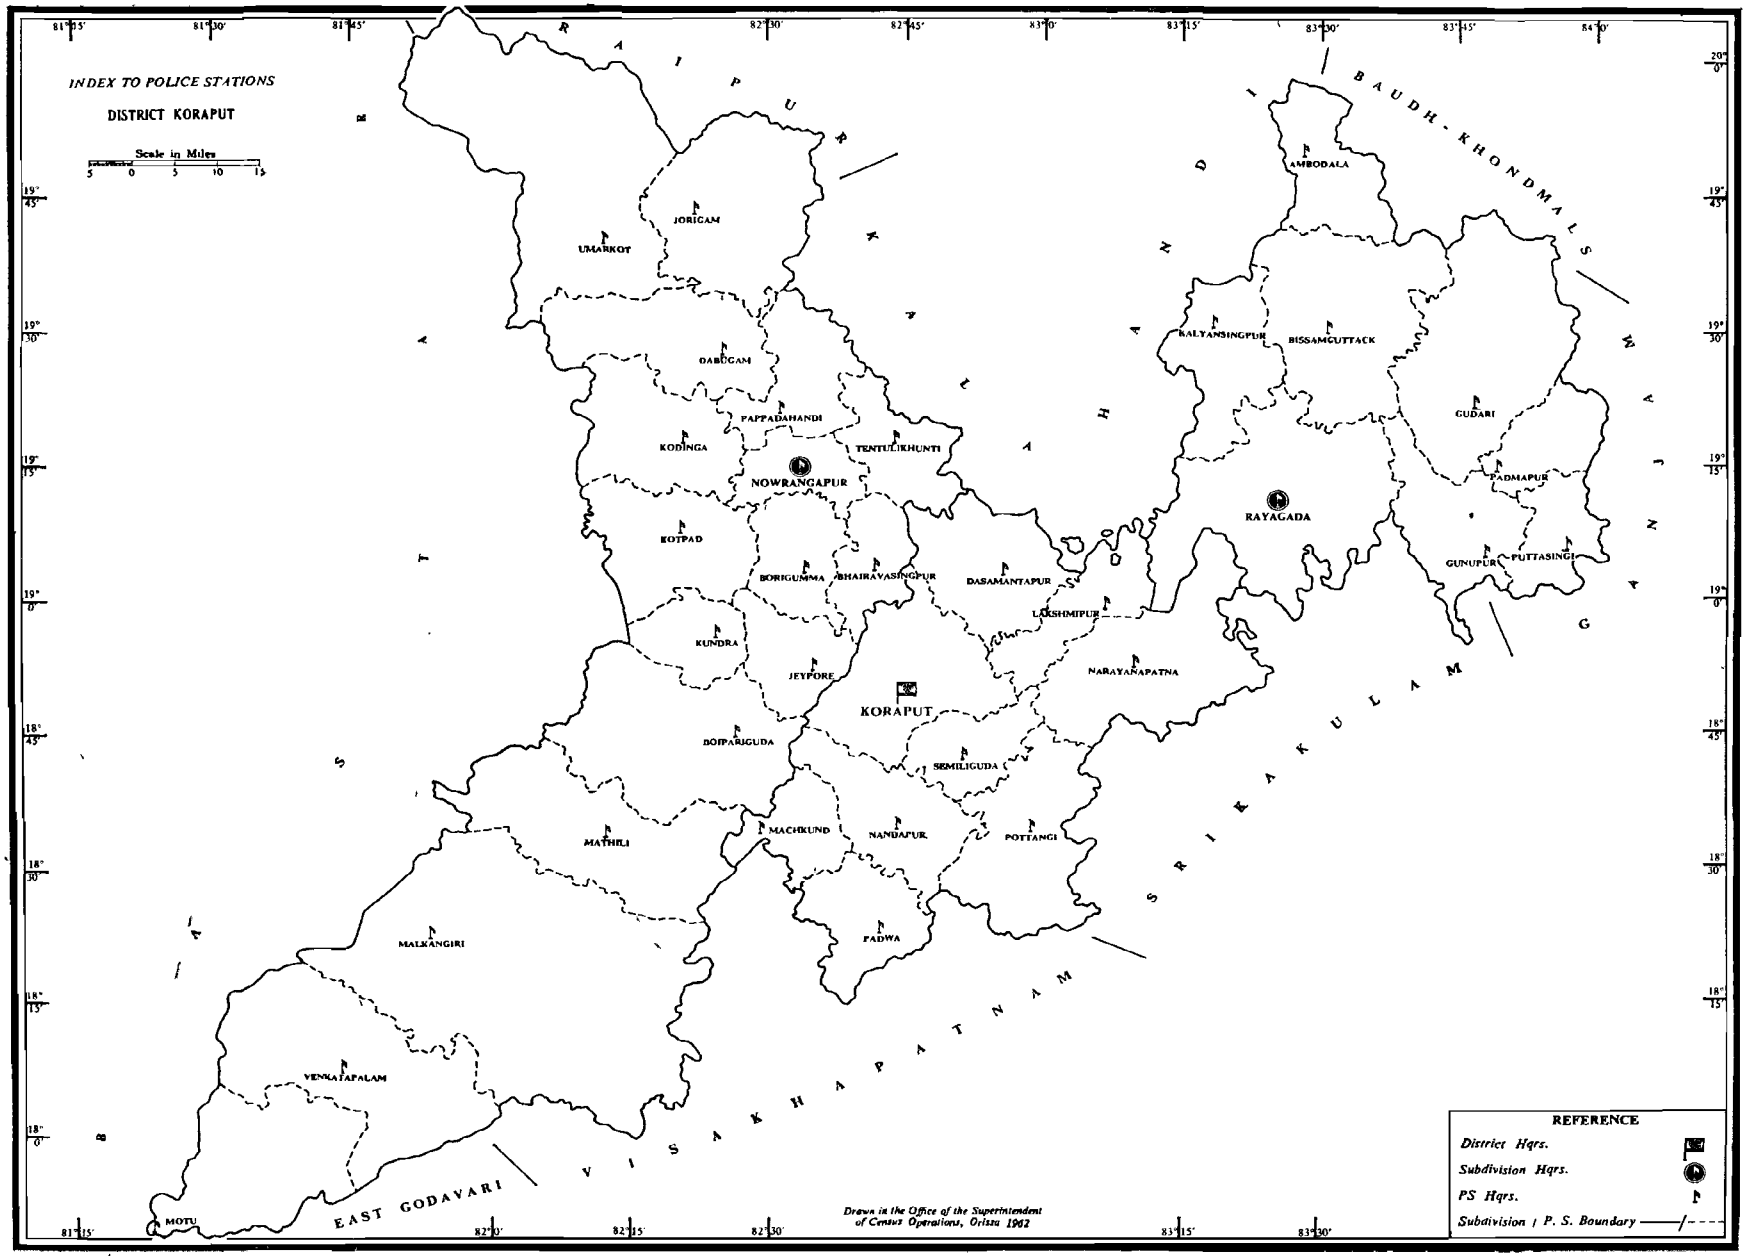

1954 .. Koraput District Board taken over by Government.

1955 .. Mustajari system abolished in most of the areas of the district.

The Machkund Hydroelectric Project power house started generation.

1956 .. The entire district came under prohibition. Floods caused widespread devastations.

1958 .. Ferro-manganese plant, Rayagada was established.

PART II

CENSUS TABLES

Contains

General Population Tables—A-I to A-IV with Appendices, General Economic Tables—B-I and B-III to B-IX, Household Economic Tables B-X to B-XVII, Cultural Tables—C-I, C-II, C-III, C-V, C-VII and C-VIII, Housing Tables—E-I to E-V, Special Tables for Scheduled Castes and Scheduled Tribes—SCT-I to SCT-V, SC-I, ST-I and ST-II, Village Directory, Village-wise list of Industries and list of Fairs and Festivals.

TABLE-A SERIES

GENERAL POPULATION TABLES

General Population Tables comprise four Tables, A-I to A-IV which are briefly described below :

2. Table A-I—Area, Houses and Population—This Table supplies information regarding area, number of inhabited and uninhabited villages, number of towns and sexwise population for each police station and subdivision in the district.

3. The area shown in Col. 3(*a*) is based on the figures received from the local revenue authorities who also maintain the area figures relating to smaller units, such as, police stations. The Surveyor General, India, has not got area figures for units below the district and so the area of the district as received from him has not been adopted. The area in sq. km. shown in Col. 3(*b*) has been calculated at the rate of 1 square mile to 2·590 square Kms.

4. *Definitions*—The definitions of the terms village, town, house, occupied residential house, houseless persons and institutional population are given in the fly-leaf to Table A-I in the Census Report of 1961, Vol. XII, (Orissa) Part II-A.

5. There are three appendices to this Table which are as follows :

(*i*) Appendix I shows the changes in the jurisdiction of the police stations and subdivisions since 1951. The annexure to this Appendix gives the names of all villages which are transferred from the jurisdiction of one police station to another.

(*ii*) Appendix II gives the number of villages with population of 5,000 and over and towns with population of under 5,000.

(*iii*) Appendix III gives the houseless and institutional population in each police station and subdivision.

6. **Table A-II—Variation in population during sixty years**—This Table furnishes data on the variation of population for seven Censuses from 1901 to 1961. Its importance lies in the fact that it gives the growth of population from decade to decade. In the absence of reliable vital statistics or any other source of information it forms the main source of estimation of population. The percentage variation from decade to decade is also shown in this Table.

7. **Table A-III—Villages classified by population**—This Table gives the number and population of groups of villages in the various population sizes, namely, less than 200, 200 to 499, 500 to 999, 1,000 to 1,999, 2,000 to 4,999, 5,000 to 9,999 and 10,000 and above.

8. The information is furnished for each subdivision and police station in the district.

9. **Table A-IV—Towns classified by population with variation since 1941**—This Table shows the growth of each town in this district since the Census of 1941. The area of the town at the 1961 Census, both in square miles and square kilometres is also given. The term 'Town' has already been defined in the fly-leaf to Table A-I published in Part II-A of the Census Report of Orissa.

Foot Notes--(1) †The Sq. Kilometres and density figures of Urban areas of Police Station /Taluk/Subdivision/District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of the towns in the respective Units and not using the area figures given in the Table. In addition to this, the figures relating to Sq. Kms are further adjusted to make the Police Station/Taluk/Subdivision/District totals tally.

(2) Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left.

(3) Towns treated as such for the first time in 1961 are printed in italics.

The following abbreviations have been used :—

T for Total	PS for Police Station
R for Rural	M for Municipality
U for Urban	NAC for Notified Area Council

APPENDIX I TO TABLE A-I

SUB-APPENDIX TO APPENDIX I

Statement showing area for 1951 and 1961 for those Municipal Towns which have undergone changes in area since 1951 Census.

Name of Municipal Town	Area in square miles		Remarks
	1951	1961	
1	2	3	4
Jeypore	6·00	9·00	Revised Computation

APPENDIX II TO TABLE A-I

Number of villages with a population of 5,000 and over and towns with a population under 5,000
(Units of territory which have nothing to show for this statement have been excluded)

District/Subdivision/Taluk/Police Station	Villages with a population of 5,000 and over			Towns with a population under 5,000		
	Number	Population	Percentage to total rural population of the district	Number	Population	Percentage to total urban population of the district
1	2	3	4	5	6	7
KORAPUT DISTRICT				1	2,754	0·25
Koraput Subdivision				1	2,754	0.25
NANDAPUR TALUK				1	2,754	0·25
Machkund PS (Machkund Town)				1	2,754	0·25

Foot Notes :—(1) Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left.

(2) Towns treated as such for the first time in 1961 have been shown in Italic.

(3) The following abbreviations have been used :
M for Municipality
NAC for Notified Area Council

TABLE A-IV—TOWNS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

APPENDIX

New towns added in 1961 and towns in 1951 declassified in 1961

		New town added in 1961			
		Area		Population	
Subdivision	Name of Town	Sq. miles	Sq. Km	1961	1951

TABLE-B SERIES

GENERAL ECONOMIC TABLES

The contents of the General Economic Tables which are presented in this volume are briefly explained below :

2. Table B-I—Workers and Non-workers classified by sex and broad age-groups —This is a summary Table prepared from the Primary Census Abstract giving the total population, the nine industrial categories of workers and also the number of non-workers. Sex split-up is shown in each case. Each category is divided into four broad age-groups, viz., 0—14, 15—34, 35—59 and 60+. The classification of workers and non-workers by age-groups is a special feature of 1961 Census. These age-groups correspond to different stages of life which have special significance with reference to capacity to work, viz., children, young persons, middle-aged persons and elderly persons. Classification of non-working population has not been provided in this Table to avoid unwieldiness, but is given in another Table.

3. Table B-III—Industrial Classification of Workers and Non-workers by Educational Levels— This Table is presented in two parts. Part A relates to Urban areas and Part B to Rural areas. The educational levels which are given in both the parts are shown below :

Part A

Illiterate

Literate (without educational level)
Primary or Junior Basic
Matriculation or Higher Secondary
Technical diploma not equal to degree
Non-technical diploma not equal to degree
University degree or Post-graduate degree other than technical degree
Technical degree or diploma equal to degree or Post-graduate degree in the following branches :
- Medicine
- Agriculture
- Veterinary and Dairying
- Technology
- Teaching and Others

Part B

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation and above

4. The nine industrial categories of workers and also the non-workers are cross-tabulated by literacy and educational standards mentioned above.

5. Table B-IV Part A—Industrial Classification by sex and class of worker of persons at work at Household Industry —The distinction between household industry and non-household industry is drawn for the first time during the current Census. This part deals with workers engaged in household industry only. The data upto Divisions and Major Groups are shown separately for Total, Rural and Urban for this district.

6. Table B-IV Part B—Industrial Classification by sex and class of worker of persons at work in Non-household Industry, Trade, Business, Profession or Service —This part deals with categories III, V, VI, VII, VIII and IX. All these categories are sorted into 'Divisions' and 'Major Groups' according to the nature of the industry. They are further cross-tabulated according to the class of worker, namely, employer, employee, single worker and family worker. The data up to Divisions and Major Groups are shown separately for Total and Urban for the district.

7. Table B-IV Part C—Industrial Classification by sex, divisions, major groups and minor groups of persons at work other than cultivation — As the Minor Groups are not shown in the Tables A and B, this Table combines both in order to give the Minor Groups in addition to the Division and

Major Groups. Separate columns are provided for the workers at household industry and non-household industry.

8. Minor Groups having less than 1 per cent of workers of the respective Divisions (less than 0·5 per cent in case of Minor Groups of Division 2 & 3), have not been shown in this Table. Divisions thus affected are marked with an asterisk (*). They are given separately in the Appendix.

9. Complete Code description of Divisions, Major Groups and Minor Groups according to I.S.I.C. are given below for reference as they are used in many Tables :

Major Group (Code)	Description	Miuor Group (Code)
	Division 0—Agriculture, Livestock, Forestry, Fishing and Hunting	
00	*Field Produce and Plantation Crops*	
	Production of cereal crops (including Bengal gram), such as, rice, wheat, jowar, bajra, maize ..	000
	Production of pulses, such as, arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops ..	002
	Production of raw cotton and kindred fibre crops ..	003
	Production of oil-seeds, sugar-cane and other cash crops ..	004
	Production of other crops (including vegetables) not covered above ..	005
	Production of fruits and nuts in plantations, vines and orchards	006
	Production of wood, bamboo, cane, reeds, thatching grass, etc. ..	007
	Production of juice by tapping palms ..	008
	Production of other agricultural produce (including fruits and nuts not covered by code No. 006 and flowers) not covered above ..	009
01	*Plantation Crops*	
	Production of tea in plantation	010
	Production of coffee in plantation ..	011
	Production of rubber in plantation ..	012
	Production of tobacco in plantation ..	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above ..	015
02	*Forestry and Logging*	
	Planting, replanting and conservation of forests ..	020
	Felling and cutting of trees and transportation of logs ..	021
	Preparation of timber ..	022
	Production of fuel including charcoal by exploitation of forests ..	023
	Production of fodder by exploitation of forests ..	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests ..	025
	Production and gathering of other forest products not covered above ..	026
03	*Fishing*	
	Production of fish by fishing in sea ..	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries ..	031

Major Group (Code)	Description	Minor Group (Code)
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only)mainly for milk and animal power, such as, cow, buffalo, goat ..	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter), such as, pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
	Rearing of silk worms and production of cocoons and raw silk ..	045
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry products, such as, skin, bone, ivory and teeth ..	048
Division 1—Mining and Quarrying		
10	*Mining and Quarrying*	
	Mining of coal ..	100
	Mining of iron-ores ..	101
	Mining of gold and silver-ores	102
	Mining of manganese ..	103
	Mining of mica ..	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone ..	107
	Mining of chemical earth, such as, soda ash ..	108
	Mining and quarrying of non-metallic products not classified above, such as, precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt ..	109
Division 2 & 3—Manufacturing		
20	*Food-stuffs*	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and food grains ..	200
	Production of sugar and syrup from sugar-cane in mills ..	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products, such as, jam, jelly, sauce and canning and preservation of fruits ..	203
	Slaughtering, preservation of meat and fish and canning of fish ..	204
	Production of bread, biscuits, cake and other bakery products ..	205
	Production of butter, ghee, cheese and other dairy products ..	206
	Production of edible fats and oil (other than hydrogenated oil) ..	207
	Production of hydrogenated oils (Vanaspati) ..	208
	Production of other food products, such as, sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge ..	209

Major Group (Code)	Description	Minor Group (Code)
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery ..	210
	Production of country liquor ..	211
	Production of indigenous liquor, such as, toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not covered above ..	213
	Production of aerated and mineral water ..	214
	Production of ice ..	215
	Production of ice-cream ..	216
	Processing of tea in factories ..	217
	Processing of coffee in curing works ..	218
	Production of other beverages..	219
22	*Tobacco Products*	
	Manufacture of bidi ..	220
	Manufacture of cigars and cheroots ..	221
	Manufacture of cigarette and cigarette tobacco ..	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff ..	224
	Manufacture of jerda and other chewing tobacco ..	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching ..	233
	Cotton weaving in power-looms	234
	Cotton weaving in handlooms..	235
	Manufacturing of khadi textile in handlooms ..	236
	Printing of cotton textile ..	237
	Manufacturing of cotton nets..	238
	Manufacturing of cotton cordage, rope and twine ..	239
24	*Textile—Jute*	
	Jute pressing and baling ..	240
	Jute spinning and weaving ..	241
	Dyeing and bleaching of jute ..	242
	Printing of jute textile ..	243
	Manufacture of other products like rope, cordage from jute and similar fibre, such as, hemp, mesta ..	244
25	*Textile—Wool*	
	Wool baling and pressing ..	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mills ..	252
	Wool spinning other than in mills ..	253
	Wool weaving in power-looms..	254
	Wool weaving in handlooms..	255
	Embroidery and art work in woollen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mills ..	260
	Dyeing and bleaching of silk ..	261
	Spinning of silk other than in mills ..	262
	Weaving of silk textile by power-looms ..	263
	Weaving of silk textile by handlooms ..	264
	Printing of silk textile ..	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products ..	270

Major Grou p (Code)	Description	Minor Group (Code)
	Manufacture of hosiery and other knitted fabrics and garments ..	271
	Embroidery and making of crepe lace and fringes ..	272
	Making of textile garments including raincoats and head-gear ..	273
	Manufacture of made up textile goods except wearing apparel, such as, curtains, pillow cases, bedding materials, mattress, textile bags ..	274
	Manufacture of waterproof textile products, such as, oil cloth, tarpaulin ..	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and up-holstery filling ..	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas ..	278
	Processing and manufacture of textile products not covered above ..	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood ..	280
	Manufacture of wooden furniture and fixtures ..	281
	Manufacture of structural wooden goods (including treated timber), such as, beams, posts, doors, windows ..	282
	Manufacture of wooden industrial goods other than transport equipment, such as, bobbin and similar equipment and fixtures ..	283
	Manufacture of other wooden products, such as, utensils, toys, artwares ..	284
	Manufacture of veneer and ply-wood ..	285
	Manufacture of ply-wood products, such as, tea chest ..	286
	Manufacture of boxes and packing cases other than ply-wood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	288
	Manufacture of other wood and allied products not covered above ..	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill ..	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board, handmade ..	291
	Manufacture of products, such as, paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp ..	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals ..	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry ..	302
	All types of binding, stitching, sizing and other allied work connected with binding industry ..	303

Major Group (Code)	Description	Minor Group (Code)
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather ..	310
	Manufacture of shoes and other leather footwear ..	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as, leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles ..	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear ..	315
32	*Rubber, Petroleum and Coal Procducts*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose..	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat ..	323
	Productions of petroleum, kerosene and other petroleum products in petroleum refineries ..	324
	Production of coal-tar and coke in coke oven ..	325
	Manufacture of other coal and coal-tar products not covered elsewhere ..	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals, such as, acids, alkalis and their salts not elsewhere specified ..	330
	Manufacture of dyes, paints, colours and varnishes ..	331
	Manufacture of fertilizers ..	332
	Manufacture of ammunition, explosives and fire works ..	333
	Manufacture of matches ..	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap ..	335
	Manufacture of soap and other washing and cleaning compounds ..	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber) ..	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ..	339
34-35	*Non-metallic Mineral Products than Other Petroleum and Coal*	
	Manufacture of structural clay products, such as, bricks, tiles	340
	Manufacture of cement and cement products ..	341
	Manufacture of lime ..	342
	Manufacture of structural stone goods, stone dressing and stone crushing ..	343
	Manufacture of stonewares, other than images ..	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products ..	346
	Manufacture of asbestos products ..	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery ..	350

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus	354
	Manufacture of earthen images, busts and statues ..	355
	Manufacture of earthen toys and artwares except those covered by code No. 355 ..	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above ..	357
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms, such as, billets, blooms, tubes, rods ..	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ..	361
	Manufacture of armaments ..	362
	Manufacture of structural steel products, such as, joist, rail, sheet, plate ..	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell-metal products ..	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron, brass, bell-metal and aluminium), such as, tin can ..	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products ..	368
	Manufacture of sundry hardwares, such as, G. I. pipe, wirenet, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39) ..	369
37	*Machinery (All kinds other than Transport and Electrical Equipment)*	
	Manufacture and assembling of machinery (other than electrical) except extile machinery	370
	Manufacture and assembling of prime mover and boilers other than electrical equipment, such as, diesel engines, road rollers, tractors ..	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories ..	373
	Manufacture of heavy electrical machinery and equipment, such as, motors, generators, transformers ..	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment, such as, radio, microphone ..	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Transport Equipment*	
	Manufacture, assembling and repairing of locomotives ..	380

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of wagons, coaches, tramways and other railroad equipment other than that covered by code No. 363 ..	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines) ..	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories, such as, saddle, seat frame, gear..	385
	Building and repairing of water transport equipment, such as, ships, boats and manufacture of marine engines ..	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines ..	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above, such as, animal-drawn and hand-drawn vehicles ..	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies ..	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks ..	392
	Manufacture of jewellery, silver ware and wares using gold and other precious metals ..	393
	Manufacture and tuning of musical instruments ..	394
	Manufacture of stationery articles not covered elsewhere, such as, pencil, penholder, fountain pen ..	395
	Manufacture of sports goods ..	396
	Manufacture and repair work of goods not assignable to any other group ..	399
Division 4—Construction		
40	*Construction*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations ..	400
	Construction and maintenance of roads, railways bridges, tunnels ..	401
	Construction and maintenance of telegraph and telephone lines ..	402
	Construction and maintenance of waterways and water-reservoirs such as, bund, embankments, dam, canal, tank, tube-wells, wells ..	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*	
	Generation and transmission of electric energy ..	500
	Distribution of electric energy..	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers ..	502
51	*Water-supply and Sanitary Services*	
	Collection, purification and distribution of water to domestic and industrial consumers ..	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation ..	511
Division 6—Trade and Commerce		
60—63	*Wholesale Trade*	
	Wholesale trading in cereals and pulses ..	600

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food-stuff (not covered elsewhere) ..	601
	Wholesale trading in all kinds of fabrics and textiles products, such as, garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products ..	602
	Wholesale trading in beverages, such as, tea (leaf), coffee (seed and powder), aerated water..	603
	Wholesale trading in intoxicants, such as, wines, liquors ..	604
	Wholesale trading in other intoxicants, such as, opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products ..	606
	Wholesale trading in animals ..	607
	Wholesale trading in straw and fodder ..	608
	Wholesale trading in medicine and chemicals ..	610
	Wholesale trading in fuel and lighting products, such as, coke, coal, kerosene, candle..	611
	Wholesale trading in toilets, perfumery and cosmetics ..	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware ..	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings ..	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products ..	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above ..	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products ..	621
	Wholesale trading in paper and other stationery goods ..	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical ..	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb ..	632
	Wholesale trading in all kinds of transport and storage equipment ..	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eye glasses, frames ..	635
	Wholesale trading in hardware and sanitary equipment ..	636
	Wholesale trading in scientific, medical and surgical instruments ..	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery ..	638
	Wholesale trading in all goods not covered above ..	639
64—68	*Retail Trade*	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry ..	640
	Retail trading in beverages, such as, tea (leaf), coffee (seed and powder), aerated water ..	641
	Retail trading in intoxicants, such as, wines, liquors ..	642
	Retail trading in other intoxicants, such as, opium, ganja, etc.	643

Major Group (Code)	Description	Minor Group (Code)
	Retail trading in tobacco, bidi, cigarettes and other tobacco products ..	644
	Retail trading in fuel, such as, coke, coal, firewood and kerosene ..	645
	Retail trading in food-stuffs,like sweetmeat, condiments, cakes, biscuits, etc. ..	646
	Retail trading in animals ..	647
	Retail trading in straw and fodder ..	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles) ..	650
	Retail trading in toilet goods, perfumes and cosmetics ..	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, headgear, such as, hat, umbrella, shoes and chappals ..	653
	Retail trading in tyres, tubes and allied rubber products ..	654
	Retail trading in petrol, mobil oil and allied products ..	655
	Retail trading in wooden, steel and other metallic furniture and fittings ..	660
	Retail trading in stationery goods and paper ..	661
	Retail trading in metal, porcelain and glass utensils ..	662
	Retail trading in earthenware and earthen toys ..	663
	Retail trading in other household equipment not covered above ..	664
	Retail trading in bricks, tiles and other building materials ..	670
	Retail trading in hardware and sanitary equipment ..	671
	Retail trading in wood, bamboo, cane, bark and thatches ..	672
	Retail trading in other building materials ..	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances ..	680
	Retail trading in transport and storage equipments ..	681
	Retail trading in electrical goods like electric fan, bulb, etc. ..	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear ..	683
	Retail trading in clock and watch, eye glass, frame ..	684
	Retail trading in scientific, medical and surgical instruments..	685
	Retail trading in precious stones and jewellery ..	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing ..	687
	Book selling ..	688
	Retail trading in goods unspecified ..	689
69	*Trade and Commerce—Miscellaneous*	
	Importing and exporting of goods and commodities ..	690
	Real estate and properties ..	691
	Stocks, shares and futures ..	692
	Providents and insurances ..	693
	Money-lending (indigenous) ..	694
	Banking and similar type of financial operation ..	695
	Auctioneering ..	696
	Distribution of motion pictures	697

Major Group (Code)	Description	Minor Group (Code)
	All other activities connected with trade and commerce not covered above including hiring out of durable goods, such as, electric fan, microphone, rickshaw, etc. ..	699
Division 7—Transport, Storage and Communication		
70-71	*Transport*	
	Transporting by railways ..	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than Omnibus) ..	702
	Transporting by road through other means of transport, such as, hackney carriage, bullock cart, ekka ..	703
	Animal transporting by animals, such as, horse, elephant, mule, camel ..	704
	Transporting by man, such as, carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving ..	705
	Transporting by boat, steamer, ferry, etc., by river, canal ..	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean ..	707
	Transporting by air ..	708
	Transporting by other means not covered above ..	709
	Services incidental to transport, such as, packing, carting travel agency ..	710
72	*Storage and Warehousing*	
	Operation of storage, such as, warehouses ..	720
	Operation of storage, such as, cold storage ..	721
	Operation of storage of other type ..	722
73	*Communication*	
	Postal, telegraphic, wireless and signal communications ..	730
	Telephone communication ..	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services*	
	(This does not include Government, Quasi-Government or local body activities other than administrative in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public services in Union and State army including territorial corps and volunteer corps	800
	Public service in navy ..	801
	Public service in air force ..	802
	Public service in police ..	803
	Public service in administrative departments and offices of Central Government ..	804
	Public service in administrative departments and offices of Quasi-Government organization, municipalities, local boards, etc. ..	805
	Public services in administrative departments and offices of State Governments ..	809
81	*Educational and Scientific Services*	
	Educational services, such as, those rendered by technical colleges, technical schools and similar technical and vocational institutions ..	810
	Educational services, such as, those rendered by colleges, schools and similar other institutions of non-technical type	811

Major Group (Code)	Description	Minor Group (Code)
	Scientific services and research institutions not capable of classification under any individual group ..	812
82	*Medical and Health Services*	
	Public health and medical services rendered by organizations and individuals, such as, by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners ..	820
	Veterinary services rendered by organizations and individuals	821
83	*Religious and Welfare Services*	
	Religious services rendered by religious organizations and their establishments maintained for worship or promotion of religious activities. This includes missions, ashrams and other allied organizations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk ..	831
	Welfare services rendered by organizations operating on a non-profit basis for the promotion of welfare of the community, such as, relief societies, redcross organization for the collection and allocation of contributions for charity ..	832
84	*Legal Services*	
	Legal services rendered by barrister, advocate, solicitor, muktear, pleader, mukurie, munshi ..	840
	Matrimonial services rendered by organizations and individuals ..	841
85	*Business Services*	
	Engineering services rendered by professional organizations or individuals ..	850
	Business services rendered by organizations of accountants, auditors, book-keepers or like individuals ..	851
	Business services rendered by professional organizations or individuals, such as, those of advertising and publicity agencies ..	852
	Business services rendered by professional organizations or individuals, such as, of those rendered by news-agency, newspaper correspondents, columnists, journalists, editors, authors ..	853
86	*Community Services and Trade and Labour Associations*	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organizations	860
	Services rendered by civic, social, cultural, political, and fraternal organizations such as, ratepayers' association, club, library ..	861
	Community services, such as, those rendered by public libraries, museums, botanical and zoological gardens, etc...	862
87	*Recreation Services*	
	Production of motion picture and allied services such as, processing, editing, etc. ..	870
	Recreation services rendered by cinema houses by exhibition of motion pictures ..	871

Major Group (Code)	Description	Minor Group (Code)
	Recreation services rendered by organizations and individuals, such as, those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organizations and individuals including horse, motor, etc., racing ..	873
88	*Personal Services*	
	Services rendered to households, such as, those by domestic servants, cooks ..	880
	Services rendered to households, such as, those by governess, tutor, private secretary ..	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organizations to provide lodging and boarding facilities ..	882
	Laundry services rendered by organizations and individuals. This includes all types of cleaning, dyeing, bleaching, dry cleaning services ..	883
	Hairdressing, other services rendered by organizations and individuals, such as, those by barber, hairdressing saloon and beauty shops ..	884
	Services rendered by portrait and commercial photographic studios ..	885
89	*Services not elsewhere classified*	
	Services rendered by organizations or individuals not elsewhere classified ..	890

Major Group (Code)	Description	Minor Group (Code)
	Division 9—Activities not adequately described	
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified..	900
	Fresh entrants to the labour market ..	999

10. **Table B-V—Occupational Classification by sex of persons at work other than cultivation—** This Table gives the occupational classification of persons who are working in non-agricultural occupation, separately for Total and Urban. Divisions, Groups and Families, according to National Classification of Occupations, are shown in it. Information regarding persons working in household industry and non-household industry is also supplied.

11. Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of families of Division 7-8), have not been shown in this Table, but are given in the Appendix. Divisions thus affected are marked with an asterisk(*).

12. Code description of families not appearing in this Table are given below :

000 Architects
002 Mechanical Engineers
003 Electrical Engineers
004 Chemical Engineers
005 Metallurgical Engineers
006 Mining Engineers
007 Surveyors
009 Architects, Engineers and Surveyors, n.e.c.
010 Chemists except pharmaceutical Chemists
011 Pharmaceutical Chemists
012 Physicists
013 Meteorologists
014 Geologists and Geophysists
015 Mathematicians
019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.
020 Biologists and Animal Scientists

022 Silviculturists
023 Agronomists and Agricultural Scientists
029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.
033 Physicians, other
034 Physiologists
035 Dentists
039 Physicians, Surgeons and Dentists, n.e.c.
040 Nurses
041 Midwives and Health Visitors
044 Vaccinators
045 Physiotherapists, Masseurs and Related Technicians
047 Optometrists and Opticians
049 Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants see 091)
050 Teachers, University
053 Teachers, Nursery and Kindergarten Schools
059 Teachers, n.e.c.
060 Judges and Magistrates
061 Legal Practitioners and Advisers
062 Law Assistants
069 Jurists and Legal Technicians, n. e. c. (including Petition Writers)
070 Economists
071 Accountants and Auditors
072 Statisticians
073 Geographers
074 Psychologists and Actuaries
075 Personnel Specialists
077 Sociologists and Anthropologists
078 Historians, Archeologists, Political Scientists and Related Workers.
079 Social Scientists and Related Workers, n. e. c.
080 Authors
081 Editors, Journalists and Related Workers
082 Translators, Interpreters and Language Specialists
083 Painters, Decorators and Commercial Artists
084 Sculptors and Modellers
085 Actors and Related Workers
086 Musicians and Related Workers
087 Dancers and Related Workers
089 Artists, Writers and Related Workers, n.e.c.
090 Draughtsmen
091 Laboratory Assistants
099 Science and Engineering Technicians, n.e.c.
0X2 Astrologers, Palmists and Related Workers
0X3 Librarians, Archivists and Related Workers
0X8 Political Workers (who are not elected officials)
0X9 Other Professional, Technical and Related Workers, n.e.c.
109 Administrators and Executive Officials, Government, n. e. c.
110 Directors and Managers, Wholesale Trade
111 Directors and Managers, Retail Trade
120 Directors, Managers and Working Proprietors, Banks
121 Directors, Managers and Working Proprietors, Insurance
129 Directors, Managers and Working Proprietors, Financial Institutions, n. e. c.
130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary
133 Directors, Managers and Working Proprietors, Manufacturing
134 Directors, Managers and Working Proprietors, Transport and Communication
136 Directors, Managers and Working Proprietors, Other Services
139 Directors, Managers and Working Proprietors, n. e. c.
200 Book-keepers, Book-keeping and Accounts Clerks
201 Cashiers
202 Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)
210 Stenographers
211 Typists
220 Computing Clerks and Calculating Machine Operators
221 Punch Card Machine Operators
229 Office Machine Operators, n. e. c.
310 Agents and Salesmen, Insurance
311 Agents, Brokers and Salesmen, Real Estate
312 Brokers and Agents, Securities and Shares
313 Auctioneers
314 Valuers and Appraisers
319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers, n.e.c.

320 Commercial Travellers
321 Manufacturers' Agents
329 Commercial Travellers and Manufacturers' Agents, n.e.c.
339 Salesmen, Shop Assistants and Related Workers, n. e. c.
341 Pawn-Brokers
400 Cultivators (Owners)
401 Cultivators (Tenants)
410 Farm Machinery Operators
413 Tappers (Palm, Rubber trees, etc.)
414 Agricultural labourers
415 Plantation labourers
419 Farm Workers, n. e. c.
420 Hunters
421 Trappers
429 Hunters and Related Workers, n. e. c.
430 Fishermen, Deep Sea
431 Fishermen, Inland and Coastal Waters
432 Conch and Shell gatherers, Sponge and Pearl Divers
439 Fishermen and Related Workers, n. e. c.
442 Log Fellers and Wood Cutters
443 Charcoal Burners, Kattha Makers and Forest Product Processers
510 Well Drillers, Petroleum and Gas
511 Well Drillers, Other than Petroleum and Gas
590 Miners, Quarrymen and Related Workers, n.e.c.
600 Deck Officers and Pilots, Ship
601 Ship Engineers
611 Engine-Room Ratings, Firemen and Oilers, Ship
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators
630 Drivers
640 Tramcar Drivers
649 Drivers, Road Transport, n. e. c. (including Palki and Doli Bearers)
650 Conductors
651 Guards
652 Brakesmen
661 Traffic Controllers
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n. e. c.
694 Workers in Communication Occupations, n.e.c.
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
703 Warpers and Sizers
705 Pattern Card Preparers
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers, Makers of rope and Related Workers, n. e. c.
710 Tailors, Dress Makers and Garment Makers
711 Hat and Head-gear Makers
712 Furriers
713 Upholsterers and Related Workers
714 Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
715 Sewers, Embroiderers and Darners, Textile and Fur Products
719 Tailors, Cutters, Furriers and Related Workers, n. e. c.
720 Shoe Makers and Shoe Repairers
721 Cutters, Lasters, Sewers, Footwear and Related Workers
722 Harness and Saddle Makers
729 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers, n. e. c.
730 Furnacemen, Metal
731 Annealers, Temperers and Related Heat Treaters
732 Rolling Mill Operators, Metal
734 Moulders and Coremakers
735 Metal Drawers and Extruders
739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n. e. c.
740 Precision instrument Makers, Watch and Clock Makers and Repairmen
742 Jewellery Engravers
750 Fitter-Machinists, Tool-makers and Machine Tool Setters
751 Machine Tool Operators, Knife Makers
752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
754 Sheet Metal Workers

755 Plumbers and Pipe Fitters
756 Welders and Flame Cutters
757 Metal Plate and Structural Metal Workers
758 Electro-Platers, Dip Platers and Related Workers
759 Tool-Makers, Machinists, Plumbers, Welders, Platters and Related Workers, n. e. c. (including Metal-Engravers other than Printing)
760 Electricians, Electrical Repairmen and Related Electrical Workers
761 Electrical and Electronics Fitters
762 Machanics-Repairmen, Radio and Television
763 Installers and Repairmen, Telephone and Telegraph
764 Linemen and Cable Jointers
769 Electricians and Related Electrical and Electronics Workers, n. e. c.
770 Carpenters, Joiners, Pattern Makers (Wood)
771 Shipwrights and Boat Builders (Wood)
772 Sawyers and Wood working Machinists
773 Coach and Body Builders
774 Cart Builders and Wheel Wrights
775 Cabinet Makers
779 Carpenters, Joiners, Cabinet Makers, Cooper and Related Workers, n. e. c.
780 Painters and Paper Hangers
790 Stone Cutters, Stone Carvers and Stone Dressers
791 Bricklayers, Plasterers, Masons
792 Glaziers
793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
799 Bricklayers, Plasterers and Construction Workers, n. e. c.
800 Type-setting Machine Operators
801 Compositors
802 Proof Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photolitho Operators, Photolithographers
806 Engravers, Etchers and Block Makers (Printing)
807 Stereotypers
808 Book-Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.
810 Furnacemen, Kilnmen and Ovenmen
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and Other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n. e. c.
821 Crushers and Pressers, Oil-seeds
822 Dairy Workers (Non-Farm)
823 Khandsari, Sugar and Gur Makers
825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, Makers of Ice, n. e. c.
830 Batch and Continuous Still Operators
831 Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calendrers, Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n. e. c.
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n. e. c.
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
860 Checkers, Testers, Sorters, Weighers and Counters, Weighmen
861 Packers, Labellers and Related Workers
870 Operators, Stationary Engines and Related Equipment
871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers

874 Operators of Earth-moving and Other Construction Machinery, n. e. c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n. e. c.
900 Fire Fighters and Related Workers
902 Customs Examiners, Patrollers and Related Workers
909 Fire Fighters, Policemen, Guards and Related Workers, n. e. c.
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
919 House Keepers, Cooks, Maids and Related Workers, n. e. c.
920 Waiters, Bartenders and Related Workers (Institutional)
951 Dry-cleaners and Pressers
960 Athletes, Sportsmen and Related Workers
970 Movie Camera Operators
979 Other Photographers
990 Embalmers and Undertakers
999 Service, Sport and Recreation Workers, n. e. c.
X00 Workers without Occupations : Matriculates and above
X08 Workers without Occupations, Literates
X09 Workers without Occupations, Other

13. **Table B-VI—Occupational Divisions of persons at work other than at cultivation, classified by sex, broad age-groups and educational levels in Urban Areas only**—This Table gives the data up to Divisions of the National Classification of Occupations for all the urban areas in the district. It deals with literate workers other than those who work as cultivators and as agricultural labourers. The population under each division is classified by four broad age-groups 0—14, 15—34, 35—59, 60+ and Age not stated, which are further cross-tabulated according to the educational levels.

14. **Table B-VII Part A—Persons working principally (i) as Cultivators (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural Labourer**—This Table is a cross-tabulation in the case of persons whose principal and secondary work are any two of (i) cultivation (ii) agricultural labour or (iii) household industry. This is an important Table as it shows the extent to which cultivation is supplemented by household industry and vice versa. The type of Household Industries for the district are shown in Divisions and Major Groups of I. S. I. C. separately for Total, Rural and Urban. Major Groups having secondary workers less than 5 per cent of the principal workers are omitted from this Table and shown in Appendix. The affected Major Groups are marked with an asterisk(*).

15. **Table B-VII Part B—Industrial Classification by sex of persons working in Non-household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry**—This Table gives the data on the basis of cross-tabulation in the case of persons who are principally engaged in non-household industry etc. It shows the principal workers in each Division and Major Group followed by additional workers in each Division and Major Group. It is presented separately for Total, Rural and Urban.

16. **Table B-VIII Parts A and B—Persons unemployed aged 15 and above by sex, broad age-groups and educational levels**—This Table which deals with the classification of unemployed persons by their educational standards and age-groups is presented in two parts : Part A for the Urban areas and Part B for the Rural areas in this district. Both these parts give separate data in respect of those who are seeking employment for the first time and for those persons who were employed before but are now out of employment and are seeking work. In the first case the broad age-groups are 15—19, 20—24, 25—29, 30—34, 35+ and in the latter case 15—19, 20—24, 25—34, 35—44, 45—59 and 60+. The educational levels as given in Table B-III Parts A and B are followed in these Tables respectively for finding out the educational qualifications of the unemployed persons in the respective age-groups.

17. **Table B-IX—Persons not at work classified by sex, broad age-groups and type of activity**—This Table deals with the categorization of non-workers according to their eight-fold activities. The data for the broad age-groups is given separately for Total, Rural and Urban in respect of the district ; but for each subdivision and police-station it is supplied for Rural only. The study of age-groups with reference to age tables will throw light on the children of school going age who are not attending school and persons in working age-groups who are not working.

Table B-I

TABLE B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

Table B-I

Total Rural/ Urban	Age-group		Total Population			Total Workers		Workers I: As Cultivator		Workers II: As Agricultural Labourer		Workers III: In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, and Plantations, Orchards and Allied activities

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1 per cent of the workers of the respective divisions, (less than 0·5% in case of minor groups of Division 2 & 3) which have been omitted in the Table B-IV Part C are shown in this Appendix. The figures of these minor groups giving the number of minor group and the number of male and female workers separately for household industry and non-household industry are shown in run on lines.

2. The following abbreviations are used :

HI—Household Industry

NHI—Non-household Industry

T—Total

U—Urban

M—Males

F—Females

3. The three digit code number which represents the minor group is followed by household industry or non-household industry with the respective male and female workers within brackets.

APPENDIX TO TABLE B-V

Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of families of Divisions 7-8), which are omitted in Table B-V have been shown in this Appendix.

2. **Abbreviations** —The following symbols and abbreviations are used:

III—In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV—At Household Industry

V—In manufacturing other than Household Industry

VI—In Construction

VII—In Trade and Commerce

VIII—In Transport, Storage and Communications

IX—In Other Services

M—Males F—Females

3. The three digit code number which represents the occupational family is followed by the industrial category in roman figures with their respective number of male and female workers inside the brackets.

APPENDIX TO TABLE B-VII PART A

Major Groups of household industry where persons having secondary work as cultivatior or agricultural labourer, are less than 5 per cent of the persons having that major group as principal work have been shown in this Appendix. The following symbols and abbreviations have been used :—

T—Total

R—Rural

U—Urban

II—Cultivator M=Males

III—Agricultural Labourer F=Females

01 T II (M-8, F-0), III (M-12, F-0), R II (M-8, F-0),III (M-12, F-0).

TABLE B-VII PART-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION ON SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

TABLE-B SERIES

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables are compiled for the first time in 1961 Census. The contents of each Table appearing in this volume are briefly explained below.

2. Table B-X—Sample Households—(i) engaged neither in Cultivation nor Household Industry (ii) engaged in Cultivation or Household Industry, but not in both and (iii) engaged both in Cultivation and Household Industry for All areas

This Table is prepared on a 20 per cent sample of households and for Total, Rural and Urban households. All the households are divided into four categories :

(*i*) Households engaged neither in Cultivation nor in Household Industry

(*ii*) Households engaged in Cultivation only

(*iii*) Households engaged in Household Industry only

(*iv*) Households engaged both in Cultivation and Household Industry

This Table is important as it divides all the households into three main sectors of economic activity. The information is supplied for the district and each police station in the district.

3. Table B-XI—Sample Households engaged in cultivation classified by interest in Land and Size of Land Cultivated in Rural and Urban areas separately—This Table, which is prepared on a 20 per cent sample households for Rural and Urban areas separately, presents a more detailed examination of the Cultivating Households which have been separated in the previous Table. Households engaged in cultivation are classified according to the size of land cultivated. The holding sizes in acres are less than 1 acre, 1·0—2·4, 2·5—4·9, 5·0—7·4, 7·5—9·9, 10·0—12·4, 12·5—14·9, 15·0—29·9, 30·0—49·9, and 50+. It is further cross-tabulated by the interest in land, namely, (*i*) land owned or held from Government, (*ii*) held from private persons or institutions for payment in money, kind or share and (*iii*) partly held from Government and partly from private persons for payment in money, kind or share. This Table gives useful information on the size of the holdings in this district and also in each police station.

4. Table B-XII—Sample Households engaged in cultivation only classified by Size of Land Cultivated and number of Family Workers and Hired Workers in Rural and Urban areas separately—This Table, which is compiled on a 20 per cent sample of households, has made further study of households engaged in cultivation. Each household having a particular size of holding mentioned in Table B-XI has been cross-tabulated with reference to number of persons working in cultivation. Cultivating households according to number of persons of either sex engaged in cultivation are classified into five groups, namely, 1 person, 2 persons, 3—5 persons, 6—10 persons and more than 10 persons. The hired workers are separated from family workers whose sex-composition is also given. This is an important Table as the size and scale of agricultural enterprise in the Rural and Urban areas of this district and in the Rural areas of each police station can be deduced from it.

5. Table B-XIII—Sample Households engaged both in Cultivation and Household Industry showing size of land cultivated classified by Principal Household Industry in Rural and Urban areas separately—This Table, which is prepared on a 20 per cent sample of households for Rural and Urban areas, deals with households engaged both in Cultivation and Household Industry. The nature of Household Industry in which cultivating households with a particular size of holding are engaged, are presented in this Table. The nature of the Household Industry is indicated by Divisions and Major Groups of I. S. I. C. This Table throws light on Household Industries which are carried on as ancillary to cultivation. It endeavours to establish correlation between size and scale of cultivation with Household Industry.

6. Table B-XIV—Sample Households engaged only in Household Industry Classified by Principal Household Industry in all areas—

Part A—Households classified by major groups of Principal Household Industry and number of persons engaged

Part B—Households classified by minor groups of principal Household Industry—This Table which relates to households engaged in Household Industry only is prepared on a 20 per cent sample of households. It is presented in two parts. Part A deals with Households classified by Major Groups of Principal Household Industry and number of persons engaged. The number of persons engaged in each industry are grouped under 1, 2, 3—5, 6—10 and more than 10 persons. This information is supplied for Divisions and Major Groups of I. S. I. C. separately for Total, Rural and Urban. Part B deals with Households classified by Minor Groups of Household Industry. Number of households engaged in Household Industry under each Minor Group are shown in it for all areas.

7. Table B-XV—Sample Households engaged both in Cultivation and Household Industry classified by Size of Land in Rural and Urban areas separately—This Table which is prepared on 20 per cent sample of Households shows the households engaged both in Cultivation and Household Industry by size of holdings in Rural as well as Urban areas. An analysis has been made of persons working in these households with reference to the size of the holdings. In cases where more than 1 person are employed, the number of family workers and hired workers are separated. This Table establishes correlationship between the scale of Household Industries and the scale of Cultivation.

8. Table B-XVI—Sample Principal Household Industry classified by period of working and total number of workers engaged in Household Industry in All areas—This Table which is confined to Principal Household Industry only, is prepared separately for Total, Rural and Urban areas of this district on the basis of 20 per cent sample of Households. It gives data in respect of Households engaged both in Household Industry and Cultivation or in Household Industry without Cultivation. Household Industries dealt in this Table are shown by Divisions and Major groups. As many of the Household Industries are seasonal, this Table indicates the number of Households engaged in industrial occupations for different periods in the year ranging from 1—3 months, 4—6 months, 7—9 months and 10 months to 1 year.

9. Table B-XVII—Sample Households classified by (i) number of male and female members by size of Households and (ii) engaged (a) neither in Cultivation nor in Industry, (b) in Household Industry only and (c) in Cultivation sub-classified by size of land cultivated—This Table which is compiled on a 20 per cent sample of Households gives data for Total, Rural and Urban areas of this district. It is intended to show family sizes distributed according to one member, 2—3 members, 4—6 members, 7—9 members and 10 members and over. This is cross-tabulated by households of rural areas engaged (*i*) neither in Cultivation nor in Household Industry, (*ii*) in Household Industry only and (*iii*) in Cultivation. Households of Rural areas engaged in Cultivation are further classified according to the size of the holding, i.e., less than 1 acre, 1·0—2·4, 2·5—4·9, 5·0—7·4, 7·5—9·9, 10·0—12·4, 12·5—14·9, 15·0—29·9, 30·0—49·9 and 50+. This Table is important as it endeavours to correlate the size of the Household with the economic activity of the Household, particularly in the Rural areas.

10. The total number of Households and its sexwise population of this district is given below :

Total Rural Urban	Total No. of House-holds	Total Household Population		
		Persons	Males	Females
1	2	3	4	5
Total	330,294	1,497,329	752,808	744,521
Rural	313,490	1,420,759	713,323	707,436
Urban	16,804	76,570	39,485	37,085

TABLE B-XIV—SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20 per cent sample)

PART B—HOUSEHOLDS CLASSIFIED BY MINOR GROUPS OF PRINCIPAL HOUSEHOLD INDUSTRY

Code No. of I.S.I.C.	Household Industry Minor Group (Description)	Number of households		
		Total	Rural	Urban
1	2	3	4	5
	All Industries	**2,091**	**1,953**	**138**
0051	Production of Vegetables	7	7	...
0061	Production of Fruits and nuts in plantation, vines and orchards	1	1	..
0260	Production and gathering of other forest products not covered above	1	1	..
0401	Rearing of goat for milk and animal power	8	7	1
0402	Rearing of buffalo for milk and animal power	1	1	..
0403	Rearing of cows for milk and animal power	96	95	1
0405	Production and rearing of livestock mainly for milk and animal power, n.e.c.	76	73	3
0431	Poultry keeping and production of eggs	7	7	..
2001	Production of flour by village chakkies of flour mill by grinding wheat, maize, gram, etc.	2	..	2
2002	Hand pounding of rice by Dhekhi or Ukhal	32	32	..
2006	Parching of grains	39	36	3
2060	Production of butter, cream, ghee, cheese, chhana, khowa and other dairy products	1	1	...
2070	Oil pressing ghani, kolhu or by small machines	27	27	...
2092	Making of sweetmeats, laddu, peda, barphi, batasa, etc.	38	30	8
2097	Making of other food products for residuary snacks	97	91	6
2110	Production of country liquor from material obtained from sources other than trees and shrubs	1	1	...
2122	Production of other indigenous liquors from other materials, from trees and shrubs	1	..	1
2200	Manufacture of bidi	5	5	..
2210	Manufacture of cigars and cheroots	15	11	4
2310	Cotton spinning (by charakha and takali)	22	22	..
2331	Dyeing of cloth (cotton) and yarn	1	1	..
2350	Cotton cloth weaving in handlooms	495	478	17
2370	Printing of cloth (cotton)	1	..	1
2381	Making of fishing net	6	6	...
2442	Making of rope and cordage, out of jute	14	10	4
2711	Making of hosiery goods, such as, banyans, socks, sweaters, mufflers, etc.	6	6	..
2712	Making of nalas and azarbands	2	1	1
2731	Making of cap, hat and other head-gear	3	3	..
2732	Traditional garments	35	14	21
2741	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags, etc.	2	2	...
2743	Manufacture of other made-up textile goods like mattress, quilts, rezai, etc, n.e.c.	1	1	...
2773	Coir spinning	1	1	..
2774	Coconut curing	6	6	..
2810	Manufacture of wooden furniture and fixtures	5	2	3
2820	Manufacture of structural wooden goods (including treated timber). such as, beams, posts, doors, windows	11	11	..
2831	Carpentry works concerned with repairs of agricultural implements (wood)	48	41	7
2848	Manufacture of photo frames and framing of photo printings, etc.	1	1	..
2883	Making of mats, hand fans and umbrellas from palm leaves	40	37	3
2885	Making of baskets and broomsticks	127	121	6
2888	Making of chicks, cuscus-tatti and fans, sticks and poles from bamboo	99	95	4
2927	Making of paper flowers, etc.	1	...	1
3111	Making of leather boots, shoes or chappals (slippers, sandals)	10	10	..
3357	Manufacture of medicines (ayurvedic, unani, etc.) and pharmaceutical preparations	1	..	1
3401	Making of bricks	9	9	..

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of their respective Divisions which are omitted from the main Table are shown in this Appendix. These Major Groups followed by number of Households together with the period of working within brackets, are given in run on lines. It is prepared separately for Total, Rural and Urban areas.

The following symbols are used :—

With Cultivation

1 to 3 months	..	**A**
4 to 6 months	..	**B**
7 to 9 months	..	**C**
10 to 12 months	..	**D**
Months not stated	..	**X**

Without Cultivation

1 to 3 months	..	E
4 to 6 months	..	**F**
7 to 9 months	..	**G**
10 to 12 months	..	H
Months not stated	..	**Y**

Total—02 (B-2, D-1, F-1) ; 21 (A-1 H-2) ; 22 (B-1, C-1, D-1, F-1. G ?, H-17) ; 24 (A-1, B-5, C-2, D-3, F-4, G-1, H-8, Y-1) ; 27 (A-1, B-2, C-5, D-12, X-1, F-5 G-3, H-46, Y-2) ; 29 (H 1) , 30 (A 1) ; 31 (B-1, C-1, D-4, F-1, G-1, H-7, Y-1) ; 33 (B-1, C-1, D-1, H-1); 38 (X-1) ; 39 (B-8, C-8, D-59, X-2, E-1, F-4, G-4, H-105, Y-2)

Rural—02 (B-2, D-1, F-1) ; 21 (H-1) ; 22 (B-1, C-1, D-1, F-1, G-1, H-14) ; 24 (A-1, B-5, C-2, D-2, F-3, G-1, H-5, Y-1) ; 27 (A-1, B-1, C-3, D-12, X-1, F-2, G-2, H-29, Y-1) ; 30 (A-1) ; 31 (B-1, C-1, D-4, F-1, G-1, H-7, Y-1) ; 33 (C-1, D-1) ; 38 (X-1) ; 39 (B-8, C-8, D-54, X-2, E-1, F-3, G-4, H-82, Y-2).

Urban—21 (A-1, H-1) ; 22 (G-1, H-3) ; 24 (D-1, F-1, H-3) ; 27 (B-1, C-2, F-3, G-1, H-17, Y-1) ; 29 (H-I) ; 33 (B-1, H-1) ; 39 (D-5, F-1, H 23)

TABLE-C SERIES

SOCIAL AND CULTURAL TABLES

The contents of the Social and Cultural Tables appearing in this volume are briefly explained below.

2. Table C-I Composition of Sample Households by relationship to Head of Family classified by size of land cultivated (Based on 20 per cent sample)—This Table shows the family composition of households engaged in different occupations, namely, (*i*) households engaged neither in cultivation nor in household industry, (*ii*) households engaged in household industry and (*iii*) households engaged in cultivation. The last category of households are further split up according to the size of the land cultivated by them. It is presented separately for Total, Rural and Urban.

3. This Table gives the sex composition of the members in a household. Heads of households and their spouses, family members and unrelated persons are shown separately. Heads of households can be males or females. Married relations are separated from unmarried family members and among the former the married sons are shown distinct from other married relations. This Table may be of sociological interest indicating the strength of the joint family system.

4. Table C-II—Age and Marital Status—This Table shows the marital status of all enumerated persons by their age-groups and sexwise, separately for Total, Rural and Urban. The age-groups conform to international requirements. This is an important demographic Table from which it can be ascertained whether proportions in various marital status conditions have increased or decreased since the last census and whether any trend is observed in the age of marriage. The data on married females by age-groups can be utilized for forecasting the future births from age specific birth rates.

5. Table C-III—Age, Sex and Education—This Table is presented in three parts :

Part A—Age, Sex and Education in All areas

Part B—Age, Sex and Education in Urban areas only

Part C—Age, Sex and Education in Rural areas only

The information which is supplied for broad educational levels is given for five yearly age-groups up to 34, one age-group 35—44, another for 45—59 and still another for 60+. The educational levels are different for Urban and Rural areas. They are the same as given in Table B-III Parts A and B. This Table is important as it measures the growth of literacy in the total population as well as in different age-groups since last census.

6. Table C-V—Mother-tongue—(Alphabetical order)—This Table shows the large number of languages and dialects spoken in the district.

7. Table C-VII—Religion—This Table shows the distribution of population according to Religion. It is prepared for Total and Rural areas only.

8. Table C-VIII—Scheduled Castes and Scheduled Tribes :

Part A—Classification by literacy and industrial category of Workers and Non-workers among Scheduled Castes

Part B—Classification by literacy and industrial category of Workers and Non-workers among Scheduled Tribes

This Table which gives separate data for Total, Rural and Urban is presented in two parts. Part A relates to the Scheduled Castes and Part B to the Scheduled Tribes. Both the parts show the distribution of population of Scheduled Castes and Scheduled Tribes respectively by literacy and classification of workers into nine industrial categories and the total number of non-workers. This is a general Table prepared for the first time.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20 per cent sample)

TABLE-E SERIES

HOUSING AND ESTABLISHMENT TABLES

Table E-I—Census Houses and the uses to which they are put—This Table gives details of Census Houses according to their use. It is based on full count figures and furnishes data in respect of the district as a whole. Figures relating to smaller administrative units, viz., subdivisions and police stations with rural and urban break-up will be available in the Report on Housing and Establishments (Census of India, 1961, Vol. XII-Orissa, Part IV-B)

2. Census Houses which did not contain any household during house-listing operation have been shown as vacant in this Table. Occupied Census Houses have been classified into various categories as furnished in the Table, such as, dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, etc.

3. To facilitate study of the Table, definitions of terms used are furnished below:

Census House—A Census House means a structure or a part of a structure inhabited or vacant or a dwelling, a shop-*cum*-dwelling or a place of business, workshop, school, etc., with a separate main entrance.

Shop and shop-cum-*dwelling*—A shop is a place where articles are sold for cash or for credit.

When a part of the Census House is used as shop and the other part as dwelling it is termed as shop-*cum*-dwelling.

Workshop, factory and workshop-cum-*dwelling*—A Census House is considered to be a factory or a workshop if some kind of production, processing, repair or servicing is undertaken therein or if goods or articles are made and sold. The definition is broad enough to cover all kinds of work premises beginning from a big factory to a petty workshed where activities connected with production, processing, etc., are undertaken, however meagre the scale might be.

When a part of the workshop is used as residence, the Census House is treated as workshop-*cum*-dwelling.

Business Houses—Business Houses are those that are meant for transactions in money or commercial commodities, e.g., bank, exchange, etc.

4. Table E-II—Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwelling—This Table furnishes details in respect of tenure status of households living in Census Houses used wholly or partly as dwelling. It has been prepared on the basis of 20 per cent sample. It gives figures for the district as a whole. Statistics in respect of smaller units, such as, subdivisions and police stations with rural and urban break-up are given in the Report on Housing and Establishments. The total, rural and urban break-up have been further sub-classified according to the tenure status of Census Households.

The term " Census Household "occurring in this Table means a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

" Shop-*cum*-dwelling " and " Workshop-*cum*-dwelling " have been explained in the fly-leaf to Table E-I.

5. Table E-III—Census Houses used as Factories and Workshops classified by industry, power and no power used and size of employment—This Table gives the distribution of workshops and factories in the district with rural and urban break-up by different kinds of fuels used. Factories and workshops are divided into five categories according to the fuel used, viz., factories and workshops run by—

(*i*) Electricity
(*ii*) Liquid fuel
(*iii*) Coal, wood and bagasse
(*iv*) Other power and
(*v*) No power

Factories and workshops classified by different kinds of fuels as above, have further been subdivided by size of employment, viz., factories employing—

1 Person
2—5 Persons
6—9 Persons
10—19 Persons

20—49 Persons

50—99 Persons and

100 Persons and above

6. Size of employment has been determined on the basis of average number of persons employed per day in a factory or workshop. The average number of persons working per day has been worked out from the total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop including the owner or proprietor and any of his family members (if working) who were employed during the week preceding the date of enumerator's visit.

7. Figures furnished in Col. 1 of this Table relate to broad group of industries coded under the Indian Standard Industrial Classification Scheme. Further break-up of these industries is available in the Report on Housing and Establishments. The system of notation adopted in the scheme of classification of industries has been explained elsewhere in this volume for convenience of reference.

8. **Table E-IV—Distribution of Sample households living in Census Houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof**—Like Table E-II, this Table has also been prepared on 20 per cent sample. The number of sample households living in Census Houses used wholly or partly as dwelling has been furnished in this Table separately for each type of predominant materials of wall and of roof. The figures shown are for the district as a whole. Statistics in respect of smaller territorial units, such as, subdivisions and police stations will be available in the Report on Housing and Establishments. This Table classifies various types of predominantly used wall materials into nine categories, viz.,

(1) Grass, leaves, reeds or bamboo

(2) Timber

(3) Mud

(4) Unburnt bricks

(5) Burnt bricks

(6) C. I. sheets or other metal sheets

(7) Stone

(8) Cement concrete

(9) Other materials

9. Likewise, the materials which predominantly compose the roof have been shown under seven different classes, viz.,

(1) Grass, leaves, reeds, thatch, wood or bamboo

(2) Tiles, slate or shingle

(3) Corrugated iron, zinc or other metal sheets.

(4) Asbestos cement sheets

(5) Brick and lime

(6) Concrete and stone

(7) Other materials

'Roof' means the outer surface of the roof exposed to weather but not the ceiling. In case of multistoreyed building, the intermediate floors have been treated as the roofs of the corresponding lower floors.

10. Table E-V—Sample Households classified by number of members and by number of rooms occupied—This Table, which has been prepared on 20 per cent sample relates to households classified by number of members by males and females separately and by number of rooms occupied. It gives the break-up of the total sampled households into households either having no regular room or each having one room, two rooms, three rooms, four rooms and five rooms or more. The figures furnished in the Table are in respect of the district as a whole. Statistics in respect of smaller territorial units, such as, subdivisions and police stations have been furnished in the Report on Housing and Establishments.

11. A room is defined as a structure which usually has four walls with one door way at least and with roof overhead and is wide and long enough for a person to sleep in, i.e., it should be at least 6 ft long. Unenclosed verandah, kitchen, store, garage, cattleshed and latrine are not treated as rooms.

TABLE-SCT SERIES

TABLES ON SCHEDULED CASTES AND SCHEDULED TRIBES

Special Tables have been devised during the Census of 1961 to give the population figures for each Scheduled Caste and Scheduled Tribe by their religion, age, marital status,education, etc. The contents of each Table appearing in this volume are briefly described below :

2. Table SCT-I—Industrial Classification of Persons at work and of Non-workers by sex— This Table is presented in two parts :

Part A—Industrial Classification of Persons at work and of Non-workers by sex for Scheduled Castes only

Part B—Industrial Classification of Persons at work and of Non-workers by sex for Scheduled Tribes only

This Table gives the population of each Scheduled Caste and Scheduled Tribe separately for Rural and Urban. It also shows in which section of industry, members of each Scheduled Caste and Scheduled Tribe are working. Information regarding each caste and tribe which are often required for drawing up various welfare schemes are given in this Table.

3. The total population of the Scheduled Castes and Scheduled Tribes in the district, each subdivision and police station is given in the statement below :

District/Subdivision/Taluk/Police Station	Scheduled Castes			Scheduled Tribes		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
KORAPUT DISTRICT ..	**186,438**	**93,123**	**93,315**	**912,343**	**455,972**	**456,371**

4. Puttasingi PS	..	650	326	324	12,956	6,231	6,725

4. Table SCT-II—Age and Marital Status—This Table is presented in two parts :

Part A—Age and Marital Status for Scheduled Castes

Part B—Age and Marital Status for Scheduled Tribes—This Table which corresponds to Table C-II supplies information regarding the marital status of the individual Scheduled Caste and Scheduled Tribe in the broad age-groups of 0—14, 15—44, 45+ and age not stated.

5. Table SCT-III Part A—(i) Education in Urban Areas only for Scheduled Castes ; (ii) Education in Urban Areas only for Scheduled Tribes; Part B—(i) Education in Rural Areas only for Scheduled Castes ; (ii) Education in Rural Areas only for Scheduled Tribes—The literacy and educational levels for each Scheduled Caste and Scheduled Tribe are shown in this Table. The different educational levels for Urban areas and Rural areas are given below :

Urban areas	Rural areas
Illiterate	Illiterate
Literate (without educational level)	Literate (without educational level)

Primary or Junior Basic	.. Primary or Junior Basic
Matriculation or Higher Secondary	Matriculation and above
Technical diploma not equal to degree	
University degree or Post-graduate degree other than technical degree	
Technical degree or diploma equal to degree or Post-graduate degree	

6. Table SCT-IV—Religion—This Table is given in two parts : Part A relating to the Scheduled Castes and Part B to the Scheduled Tribes. Scheduled Castes may belong to either Hindu or Sikh religion only. None of the members of Scheduled Castes in this State have returned themselves as Sikh. As all the Scheduled Castes are Hindus and as their population is already available in SCT-I Part A, the corresponding portion of this Table is omitted.

7. Part B shows the Scheduled Tribes who may belong to any religion. The religions returned in this State are Christian, Hindu and Sarna.

8. Table SCT-V Part A—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for members of Scheduled Castes (Based on 20 per cent sample) and Part B—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for members of Scheduled Tribes (Based on 20 per cent sample)—This Table which corresponds to Household Economic Table B-XI gives useful information regarding the size of holding of Scheduled Castes and Scheduled Tribes separately for rural areas only. The interest in land is classified into three categories mentioned below :

I. Owned or held from Government

II. Held from private persons or institutions for payment in money, kind or share

III. Partly held from Government and partly from private persons for payment in money, kind or share

Each of the above categories are cross-tabulated according to the size of the land cultivated by each household.

9. Table SC-I—Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes—This is a special Table prepared for total Scheduled Castes and not for individual caste. Three categories of non-working population, namely, full-time students, persons seeking employment for the first time and persons employed before but now out of employment and seeking work are shown in this Table along with the total non-workers in this district. It gives useful information regarding students and unemployed persons among the Scheduled Castes. The above categories of non-workers are further classified according to their broad educational levels indicated below :

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation or Higher Secondary

Above Matriculation or Higher Secondary

10. Table ST-I—Mother-tongue and Bilingualism for Scheduled Tribes—This is one of the Special Tables meant for Scheduled Tribes only. This Table displays the peculiar languages and dialects of the Tribal population. The dialect of each of the Tribes is given. Those members of the Tribes who have moved out of their homes and speak some other language in addition to the mother-tongue as a result of their contact with local population are also shown in this Table. This Table is very useful for the linguistic study of Tribal population. It also helps to find out as to how many of the tribes have forgotten their original language after comming in contact with the local language or the language of the majority. Secondary languages having speakers less than 0·1 per cent of the population are omitted.

11. Table ST-II—Persons not at work classified by sex and type of activity for Scheduled Tribes—This is the second special Table for the Scheduled Tribes corresponding to SC-I for the Scheduled Castes. It differs from the latter Table in as much as it gives the data for each Scheduled Tribe but does not show the broad educational levels. Besides the total non-working population of each Tribe, three categories of non-workers, namely, full-time students, persons seeking employment for the first time and persons employed before but now out of employment and seeking work are presented in it for this district.

VILLAGE DIRECTORY

Please see Volume II

LIST OF INDUSTRIES IN THE DISTRICT OF KORAPUT

The Table furnished hereafter gives a list of industries conducted in the urban and rural areas of district Koraput. The list has been prepared in the following manner :—

Various industries existing in a particular village were enlisted at first. The villages were then arranged in the order in which they appear in the Village Directory. In this manner the list of villages within one particular Police Station was completed. This was followed by similar lists of other Police Stations, one after the other.

Indication of the existence of a particular industry is given against the village concerned, not by mentioning the descriptive name of the industry, but by recording the code number of the industry, as prescribed under the Indian Standard Industrial Classification Scheme. This code number is followed by another figure enclosed in brackets which represents the total number of establishments relating to that particular industry existing within the village concerned.

In presenting the consolidated list of a Police Station, first of all the aggregate list of industries for the Police Station as a unit has been given. This aggregate list is then broken up into a consolidated list for rural areas and a similar list for urban areas, if the Police Station has got both rural and urban areas. Similar procedure has been adopted in presenting the consolidated list for the District. Lastly comes the individual village list, indicating all such villages as may have one or more industries. Names of villages which have no industry of any approved type, have been omitted from the list.

The industrial code numbers have been exhibited against a village (or Police Station or District as the case may be) in ascending order. For example, Division " 0 " of the I. S. I. C. Scheme appears first, followed by Division " 2 " and thereafter Division " 3 ".

A list of code numbers showing against each the name of the industry to which it relates is furnished in the note to Table B-IV Part C of the General Economic Tables for convenience of reference.

TABLE ON FAIRS AND FESTIVALS IN THE DISTRICT OF KORAPUT

This Table gives a list of villages where important fairs or festivals of the district are held. The names of the villages have been arranged police stationwise according to their serial numbers in the Primary Census Abstract. The list includes only those fairs which attract a large number of people of the village or outside.

Column 1 of the Table gives the name of the village together with its serial number. The name of the fair or festival held in the village is furnished in Column 2 while Columns 3 and 4 respectively furnish the name of the month in which such fair is held and the approximate number of persons attending the fair.

The list is prepared on the basis of information furnished by the primary school teacher of the locality concerned to whom a list of questionnaire was circulated by post with request to furnish the replies. The number of people gathering at the fair is based on eye estimation and may therefore be treated as approximate. Name of the month in Column 3 is in terms of English calendar month which does not exactly coincide with the Oriya month. The name of the English month, when the festival usually falls, has, therefore, been furnished in this column.

Besides the above information, a few more details were collected through the agency of the primary school teachers. Such details will be available in another volume where the Fairs and Festivals of Orissa are proposed to be published in an elaborate manner.

FAIRS AND FESTIVALS (IN RURAL AREAS ONLY)

PART III

OFFICIAL STATISTICS

Contains

Statistics relating to Rainfall, Agriculture, Public Health, Vital Events, Administration, Police, Jails, Co-operative Societies, Revenues, Community Development, Grama Panchayat, Education, Animal Husbandry, Mines, etc.

OFFICIAL STATISTICS

This part contains statistics relating to different Departments of the State Government, such as, agriculture, public health and vital statistics, administration including police and jails, co-operative societies, revenues from different sources, educational institutions, community development, grama panchayats, mines and minerals, etc., which are embodied in 40 Tables. The statistics were collected from different offices mostly by deputing staff from this organization. Except only in a few cases where it was possible to take out the figures from published reports of the Departments concerned, most of these had to be gathered from the various official registers and manuscript reports. The names of the Departments from which the statistics were obtained are indicated below the Tables. The Tables pertaining to different subjects may be broadly classified as follows :—

Subjects	Table Nos.
Rainfall and temperature ..	1—3
Agriculture ..	4—10
Public health including vital statistics ..	11—15
Administrative statistics ..	16—20
Education ..	21—29
Community Development ..	30—32
Grama panchayat and Panchayat Samitis ..	33—34
Animal Husbandry ..	35
Co-operation ..	36
Miscellaneous ..	37—40

As one of the older districts of the State, Koraput was expected to keep the required data relating to various branches of administration for many years in the past, but in fact the data of earlier years have not been maintained. Thus, the collection and production of various official statistics in this Part are limited to the past decade only.

Table 1—3 : Rainfall and Temperature—Two—Tables concerning rainfall are presented. Tables 1(a) to 1(e) give the monthly rainfall and number of rainy days for only 5 rain recording stations for the decade 1951-60. The district has 9 rain recording stations out of which only five stations, namely, Nowrangapur, Malkangiri, Koraput, Gunupur, and Bissamcuttack were found to be having a more complete record. These are reproduced in five separate statements, one for each station. The records for these five stations may represent the position for the five present subdivisions of this district. The figures reproduced in this Table (Table 1) have been taken from the rainfall statistics maintained by the Director of Agriculture and Food Production, Orissa some of which were published in the Orissa Gazette.

Table 2—It gives the normals of monthly rainfalls and rainy days based on the records of all the 9 rain recording stations of the district during the period from 1901 to 1950. These have been taken from the Memoirs of the India Meteorological Department, Volume XXXI Part III. This Table also shows the rainfall and number of rainy days for the district for each of the years during the past decade, based on the records maintained by the Director of Agriculture and Food Production, Orissa.

The rain recording stations work under the responsibility of local officials of various departments who might be conveniently available at the same station, namely, Thana Officers, Medical Officers, School Teachers, or subordinate Revenue Officers. They are expected to record daily rainfall, if any, and submit monthly reports direct to the Director of Agriculture and Food Production. According to the approved arrangements, this report should reach the Office of the Director by the 21st of the following month but in actual practice many stations default or delay inordinately in despatching the report. Such default or delay results either due to the post of the Officer-in-charge of the Station lying vacant for a considerable length of time, or due to the rain-recording instruments remaining unattended or unreplaced after damage or loss in some way. For these reasons the rainfall records of this district though maintained more frequently than in other parts of the State, cannot be said to be faultless. In 1960, three out of the 9 existing stations did not send their reports. The rainfall records of the district do not thus present true values.

Table 3—The district has only one observatory at Koraput. Table 3 shows the normals of mean maximum and mean minimum temperature recorded in this

observatory based on the observations during 1901-—50, as also the monthly records for 1961. These have been obtained from the India Meteorological Department.

Tables 4—10 : Agriculture—In the undermentioned seven Tables agricultural statistics relating to the district are given.

Table No.	Particulars
4	.. Land utilization and area under crops
5	.. Classification of area by sources of irrigation
6	.. List of minor irrigation projects with ayacut area of 100 acres or more
7	.. Estimated yield rates of principal crops
8	.. Average wholesale price quotations in respect of staple food grains and other important crops
9	.. Statistics of wages and working hours
10	.. Agricultural implements and machineries

The compilation of primary agricultural statistics of a district is done by the District Collector. He furnishes annual statements in prescribed proforma called the Season and Crop Reports to the Director of Agriculture and Food Production, Orissa who is responsible for compilation and presentation of these statistics at the State level. It was noticed that submission of these annual returns during the past decade was delayed or neglected by the Collectors. Further, most of these returns lacked accuracy. An attempt was made to collect these statistics through a second source i.e. from the Community Development Blocks. By the end of 1959-60, only 57·8 per cent of area of the State was covered by the Blocks and so complete data for any district through this source was not available.

Out of the above 7 Tables, Tables 4 and 5 contain the agricultural statistics which are taken from the Season and Crop Reports for the concerned years. None of these reports except the one for 1952-53 has been published so far. The reports for 1950-51 and 1951-52 could not be traced and hence the Tables 4 and 5 contain statistics for only 8 years from 1952-53 onwards.

Table 4—Area under the nine categories of land utilization, namely, forests, land put to non-agricultural uses, barren and unculturable land, pastures and grazing land, land under miscellaneous tree crops and groves not included in net area sown, culturable wastes, fallow other than current and net area sown are shown in Table 4. This Table also gives the area under some of the important crops, and the total area given to cultivation of food crops, cereals, pulses, non-food crops, etc. The heads of classification under land utilization adopted in this Table are defined as follows :

(1) *Forests*—These include all the actually forested areas on the land classed or administered as forests under any legal enactment dealing with forests whether State-owned or private.

(2) *Land put to non-agricultural uses*—This includes all land occupied by buildings, roads and railways or under water e.g., rivers and canals and other lands put to uses other than agricultural.

(3) *Barren and unculturable land*—All barren and unculturable lands like mountains etc., are shown under this head. The land which cannot be brought under cultivation except at an exorbitant cost is classed as unculturable, whether such land is in compact blocks or within cultivated holdings.

(4) *Culturable wastes*—These include lands available for cultivation, whether not taken up for cultivation or abandoned after a few years for one reason or the other. Such lands may be either fallow or covered with scrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for 5 years in succession is also included under this category.

(5) *Fallow other than current*—All lands which were taken up for cultivation but are temporarily out of cultivation for a period not less than one year and not more than 5 years are included under this heading. These lands may have been kept fallow for one or more reasons, namely, poverty of the cultivators, inadequate supply of water, malarial climate, silting of canals and rivers, and unremunerative nature of farming.

(6) *Pasture and grazing land*—This includes all grazing lands whether they are permanent pastures and meadows or not. Village commons and grazing lands within forest areas are also included under this head.

(7) *Miscellaneous tree crops and groves not included in net area sown*—This includes all cultivable land which is not included in " net area sown " but is put to some agricultural use.

(8) *Net area sown*—This represents net area sown with crops and orchards, the area sown more than once during a year being counted once only.

(9) *Current fallow*—This represents cropped areas which are kept fallow during the current year. For

example, if any seedling area is not cropped again in the same year it may be treated as current fallow.

(10) *Total cropped area*—This represents the total area covered with crops, i.e. the sum total of areas covered by all the individual crops, areas sown with crops more than once during the year being counted as separate areas for each crop.

(11) *Area sown more than once*—This represents the area on which crops are cultivated more than once during the agricultural year. The acreage is generally obtained by deducting those under "net area sown," from those under "total cropped area."

Table 5—This Table shows the area under different sources of irrigation, namely, canals, tanks, wells and other sources for 8 years from 1952-53 to 1959-60.

Table 6—A list of minor irrigation projects together with their irrigation potentiality for those with ayacut area of over 100 acres is given in this Table. There are many more smaller projects in this district, but only the bigger ones have been included in the list. The list was obtained from the Rural Engineering Organization which is responsible for execution of various minor irrigation works all over the State. Besides executing their own projects, the Rural Engineering Organization is meant to help the panchayati Raj institutions in the execution of minor irrigation projects costing not more than Rs. 10 lakhs or having an ayacut of 4,000 acres.

Table 7—This Table gives the rates of production of 17 principal crops per acre of land in the district for each year from 1951-52 to 1959-60. The rates have been based on estimated area and production of different crops. The basic data were obtained from the Directorate of Agriculture and Food Production on which the estimated yield rates were worked out. The estimated yield rates may not be equal to the actual yield rates in all cases.

Table 8—It relates to price quotations in respect of some of the important crops grown in the district and has been compiled from the published reports of the Directorate of Marketing. Rates per standard maund or 37·25 Kgs are given in this Table. The 3 marketing centres for which information is given are Jeypore, Nowrangapur and Rayagada, the first two centres being in Nowrangapur subdivision and the third in Rayagada subdivision. The subdivision not represented is Koraput sadar but the information given for Jeypore may hold good for this subdivision. Annual figures for the period from 1957 to 1959 and both annual and monthly price quotations for the year 1960 have been reproduced. Figures for earlier years are not available and those for the year subsequent to 1960 had not also been compiled.

Table 9—It shows the average rates of wages and hours of employment of skilled and unskilled workers during the period from 1957 to 1960. The terms "agricultural labourer" and "subsidiary agricultural labourer" used in this Table are explained at the bottom of the Table.

Table 10—Number of agricultural machineries and implements recorded in 1945, 1957 and 1961 livestock censuses are given in this Table. These were collected from the Live-stock Census Reports of the Director of Animal Husbandry and Veterinary Services. After formation of the separate Province of Orissa in 1936 only these 3 live stock censuses have been conducted.

Table 11—15 : Public health and vital statistics—The following five Tables on this subject are given :

Table No.		Particulars
11	..	Number of live births, still births and deaths in each year during 1951-60 according to sex for rural and urban areas
12	..	Deaths according to causes for rural and urban areas in each year during 1951-60
13	..	Deaths of males and females according to age in each year during 1951-60
14	..	Number of births and deaths in each month during 1951-60
15	..	List of hospitals, dispensaries, and primary health centres as on 31-3-1961

Table 11—14—They present the vital statistics for all the years of the past decade but the records are incomplete on account of the registration system applying to only 5.22 per cent of population of the district. These statistics relate to only 6 towns and one Grama Panchayat covering 30·79 sq. miles out of 9918·95 sq. miles of its area.

The birth and death statistics were collected from the registers maintained in the Statistical unit of the Health Directorate by the staff deputed from this organization. The first three Tables, *viz.*, Tables Nos. 11, 12 and 13 present only annual figures, whereas the fourth Table contains monthly records. Table 11 gives the number of live and still births and deaths by sex separately for rural and urban areas. Deaths

under the seven broad heads under which they are classified in vital statistics records, namely, cholera smallpox, fever, dysentery and diarrhoea, respiratory diseases, wounds and accidents and other causes are shown in Table 12 for rural and urban areas. Table 13 contains number of daths of females and males in the different age-group . Live and still births and deaths due to the seven causes noted above in each month during 1951-60 are given in Table 14. The terms " live birth " and " still birth " used in these Tables are defined as follows :—

Live birth—Live birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such separation, breathes or shows any other evidence of life such as beating of heart etc.

Still birth—Birth of the already dead or very nearly dead child is considered still birth.

Table 15—A list of hospitals, dispensaries and primary health centres as on 31st March 1961 showing their location, years of start and number of beds is given in Table 14. These details were supplied by the Health Directorate (Statistical Unit), Orissa.

Table 16—20 : Administrative statistics—Five Tables have been given on this subject. They are as follows :

Table No.	Particulars
16	.. Number of criminal cases reported to different courts, tried and disposed of during 1951-60
17	.. Strength of district police during the year 1951, 1956 and 1960
18	.. Statistics of Jails
19	.. Receipts relating to land revenue, excise revenue, sales tax, entertainment tax, motor spirit tax and stamps during 1951—61
20	.. Number of documents registered and value of property transferred during 1951—60

It was possible to obtain the relevant statistics for all years of the decade. The statistics in Table 16 have been partly collected from the published annual reports on criminal justice of the High Court, Orissa and partly from the statements supplied by them in absence of any printed annual reports for the concerned years.

The Inspector General of Police, Orissa supplied the strength of police in various ranks in the district for each year during 1951-60. The Table 17, however, shows their number only for 3 years, *viz.*, 1951, 1956 and 1960. Per capita expenditure on police, and area and persons served by a police were worked out on the basis of 1961 Census population.

The statistics pertaining to jails supplied by the Inspector General of Prisons, Orissa which are given in Table 18 show the number of jails and sub-jails, the capacity of district jail and its strength of staff.

Table 19 shows the amounts of revenue collected in each year in the district during the past decade under some of the important heads of receipt, namely, land revenue, excise revenue, sales tax, entertainment tax, motor spirit tax and sale proceeds of stamps. These statistics were obtained from various Departments of the State Government and the names of the Departments and offices supplying the figures are shown at the bottom of this Table.

Similarly, the figures relating to registration of documents and value of property transferred given in Table 20 were collected from the office of the Board of Revenue.

Tables 21—29 : Education—Eight Tables are given-

Table No.	Particulars
21	.. List of colleges and high schools
22	.. Number of students appearing at and passing the high school certificate examinations during 1956—60
23	.. Number of primary schools existing during 1955-56 and 1960-61
24	.. Number of M. E. schools existing during 1955-56 and 1960-61
25	.. List of professional and special schools
26	.. List of sevashrams and ashram schools
27	.. List of basic schools
28	.. List of newspapers and journals
29	.. List of important libraries and reading rooms

The statistics given in these Tables were collected mostly from the office of the Board of Secondary Education, Orissa and the Statistical unit in the office of the Director of Public Instruction, Orissa. Except a published list of high schools and Annual Report of Registrar of Newspapers for India from which a list of newspapers and journals was taken, the statistics for none of the other items were available from any published

report. The information given had, therefore, to be collected from the concerned offices.

Table 21 gives a list of colleges and high schools in the district. The number of students appearing at the high school certificate examinations together with the number of successful students and the percentage of success at the various examinations conducted during 1956—60 are given in Table 22. Table 23 shows the number of primary schools existing in the district during 1955-56 and 1960-61, the last years of the past two Five Year Plans. Similar information concerning middle schools is given in Table 24. A list of professional and special schools, *viz.*, Elementary Training Schools, Basic Training Schools, School of Arts and Crafts, Dai Training Centre and Sanskrit tols will be found in Table 25. Table 26 gives a list of sevashrams and ashram schools together with their postal addresses and the names of the police stations under whose jurisdiction they lie. These details were supplied by the District Welfare Officer, Koraput. Table 27 gives a list of Basic schools in the district showing their addresses and dates of start.

Tables 28 and 29 give lists of newspapers and journals, and libraries and reading rooms respectively. Table 28 contains a complete list of newspapers and journals issuing from the district. But only the bigger libraries which are in the approved list of the D.P.I. Orissa are shown in the Table 29. The location, dates of establishment, the number of books held and the Government grant received are given in this Table.

Table 30—32 : Community Development—The following 3 Tables present the achievements of the Community Development Blocks in this district during the past decade.

Table No.	Particulars
30	.. List of Blocks with their coverage of villages Grama panchayats and area
31	.. Achievements in the C. D. Block programme, to the end of 1960 61
32	.. Expenditure incurred under broad heads of development in the Community Development Blocks in each year during 1954—61

The first allotment of a Block to this district was in October, 1954 and so the statistics given relate to the period from 1954-55 onwards. The expenditure figures have been compiled from the registers maintained in the office of the Financial Adviser of the Community Development and Panchayati Raj Department and the statistics relating to physical achievements are taken from the reports of the Administrative Intelligence unit of the same Department. Table 30 gives a list of Community Development Blocks in existence on 31st March 1961 together with their dates of start, their headquarters, number of villages and Grama panchayats and area covered by each. Table 31 shows the physical achievements under some of the important items of the Block programme to the end of 1960-61. The achievements against a few of these items do not relate to all the Blocks as complete information in respect of all of them was not available and tabulated in the Department. Such items have been distinguished from the rest.

Details of expenditure under broad heads of the programme, such as, Block headquarters staff and contingencies, animal husbandry and agriculture extension, irrigation, health and rural sanitation, education, social education, communication, rural arts, crafts and industries and housing for all the Blocks together for each year between 1954-55 and 1960-61 are given in Table 30. The Blocks submit their monthly expenditure returns to the Financial Adviser's section of the Community Development Department where these are compiled and verified with the Accountant General's actuals before adoption of final figures. The statistics given in this Table have been taken from the expenditure registers thus maintained in the Financial Adviser's office.

Table 33—34 : Grama Panchayats and Panchayat Samitis—Table 33 gives a list of Panchayat Samitis and Grama panchayats existing in December, 1960 and Table 34 which shows the number of Grama panchayats with their income and expenditure during the past decade are the only two Tables given on this subject. The information given in Table 33 were collected from a published Notification of the Grama Panchayat Department and the statistics in Table 34 have been taken from the Annual reports of the same Department.

Table 35 : Animal Husbandry—Table 35 gives the number of different categories of main live stock recorded in the three live stock censuses of 1945, 1957 and 1961. The number for 1961 counts show the live stock belonging to Government, semi-Government and other institutions actually found living on 15th April 1961 at sunrise. The census was conducted by the Director of Animal Husbandry and Veterinary Services, Orissa. After formation of Orissa province only three such censuses took place in the years 1945, 1957 and 1961.

Table 36 : Co-operation—The number of co-operative societies in different categories, namely, Central Bank, Small-sized, Large-sized, Multipurpose, Grain-golla, Marketing, Non-agricultural credit, Housing

Weavers and other Industrial and non-Industrial co-operative societies together with their membership and working capital between 1957-58 to 1961-62 are given in Table 36. These statistics were supplied by the office of the Registrar of Co-operative Societies, Orissa.

Tables 37—40: Miscellaneous—These Tables contain statistics on the following items :

Table No.	Particulars
37	.. List of cinema houses and printing presses
38	.. List of railway stations
39	.. List of mines with their location, dates of start and production during 1957-61
40	.. List of registered factories in 1951 and 1961

The headings of Tables 37—39 are self-explanatory. The terms 'workers' and 'factory' used in Table 40 are defined as follows :

'*Factory*' means any premises including the precints thereof—

(*i*) whereon ten or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or

(*ii*) whereon twenty or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on,

but does not include a mine subject to the operation of the Mines Act 1952 (XXXV of 1952), or a railway running shed. Section 85 of the said Act, however authorises the State Government to declare by notification any place wherein a manufacturing process is carried on, to be a factory within the meaning of the Factories Act, 1948 although it does not fulfill the above requirement of law provided that the manufacturing process is not being carried on by the owner only with the aid of his family.

Worker' is defined to mean a person employed directly or through any agency, whether for wages or not, in any manufacturing process, or in cleaning any part of the machinery or premises used for a manufacturing process, or in any other kind of work incidental the connected with, the manufacturing process, or to, or subject of the manufacturing process.
