MOTIF

The picture depicts the '**Chappal**' and the cobbler. Manufacturing of Kolhapuri 'chappal' has also become one of the important household industry for many people in the district. The 'chappals' produced in the district are rare pieces of novelty fancied by both sexes within and outside the country. It is made from pure leather and the dexterous cobblers design it according to changing fashions. Besides 'chappals', shoes, suitcases and purses are also manufactured. Yet, a 'chappal' is a rare gift a visitor carries with him from the district headquarter town of Kolhapur.

Kolhapur town of today had been the capital of former Kolhapur State. Besides, being a premier State in Deccan, it was also the seat of Residency for Deccan States. It has all through been a great religious, educational and commercial centre. By virtue of Mahalakshmi temple, the place is also called the **Kashi** of the south.

FOREWORD

The District Census Handbook (DCH), compiled by the Census organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulating local level and regional plans and as an aid to District administration. The District Census Handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the corelation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of SC & ST population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement

of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Tahsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value.

This publication is joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri P. P. Mahana, the Director of Census Operations, Maharashtra on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA,
Registrar General, India.

New Delhi,
the 26th April 1982

ACKNOWLEDGEMENTS

The preceding foreword of the Registrar General and Census Commissioner, India, is quite exhaustive and gives the reader a complete account of the District Census Handbook project. As has been mentioned therein, the publication of District Census Handbooks of Maharashtra is a joint venture of the Government of Maharashtra and the Census Organisation of the Government of India. The design for the 1981 District Census Handbooks was evolved centrally by the Census Commissioner, India. The contribution of the Government of Maharashtra comes by way of bearing the cost of printing. We are thankful to the Census Commissioner and to his band of devoted officers in the Social Studies Division for the valuable guidance they have given us, and to the Government of Maharashtra for the readiness they have shown to print and publish these handbooks. Our grateful thanks are also due to the District Inspectors of Land Records for helping us in marking village boundaries on the tahsil maps we have prepared and presented in these handbooks, and for recording a certificate of authenticity on each such map we referred to them.

Shri P. P. Mahana, who held the office of Director of Census Operations, Maharashtra, and guided the operations of the 1981 Census, left this organisation on 14th December 1982. The data presented in these handbooks were collected and compiled under the direction and guidance of Shri Mahana. We would deem it our duty, therefore, to offer him our sincere and grateful thanks for all that he did for this project.

In this directorate, the undersigned exercised overall supervision over the work of the project, while the main brunt of day-to-day supervision was borne by Shri A. S. Dange, Deputy Director. He was only assisted in this work by Shri Madhav Shyam, Research Officer (Map) and Smt. V. Y. Joshi, Shri G. M. D. Lone and Shri V. S. Nagle, Assistant Directors. The list of their colleagues in the District Census Handbook Unit who put in untiring efforts to bring the project to fruition is fairly long and is not being given here for want of space. However, all these unnamed assistants in various grades who attended to the voluminous work of compilation, typing, comparing, checking and mapping etc., deserve our heart-felt thanks.

A. W. MAHATME,
Joint Director of Census Operations.

Census Directorate, Maharashtra, Bombay.
Dated 26th January 1984 (Republic Day)

Note.— The source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the tahsils is the State Land Records Department. The total areas, as also the rural areas, for the tahsils in district. may not, therefore, strictly add upto the corresponding figures shown against the district.

Names of towns treated as such for the first time in 1981 have been printed in italics.

APPENDIX 1 TO SUMMARY TABLE 1

Tahsilwise number of Villages with population of 5000 or over and of Towns with population under 5,000

(Tahsils which have nothing to show for this statement have been omitted from presentation)

District /Tahsil	Villages with populations of 5,000 or over			Towns with populations under 5,000

ANALYTICAL NOTE

HISTORY AND SCOPE OF DISTRICT CENSUS HANDBOOK

The District Census Handbook compiled by the State Directorate of Census Operations is, in effect, a joint venture of the State Government and the Census Organisation of the Govt. of India. Its publication was started from 1951 Census. Not only has it become a regular feature of every census but even its coverage has been enlarged and rationalized. Naturally, this document is constantly being consulted by the planners, administrators, academicians and researchers alike. The 1981 district census handbook is the fourth in the unbroken series.

In 1951, district census handbook contained important census tables and the primary census abstract for each village and town in the district. The scope of district census handbook was enlarged at the 1961 census by including descriptive account of the district and administrative statistics in addition to the census tables and the primary census abstract of every village and town. The 1971 district census handbook series was organised in three different parts, Part A related to the village and town directory, Part B to village and townwise Primary Census Abstract (PCA) and Part C to analytical report, administrative statistics, census tables, analytical tables based on the PCA and amenity data for every village. However, for Maharashtra State (as also for many other States in India), only Part A and Part B of the district census handbook were published. Part C had to be given up mainly because of the problems relating to printing.

1981 district census handbook is comprised of two parts-Part A and Part B. Part A includes village and town directory and Part B village and townwise primary census abstract. While designing the format of 1981 district census handbook, data on some new items, such as adult literacy centres, primary health sub–centres and community health workers, has also been included.

Village and Town Directory as well as primary census abstract included in the district census handbook are expected to meet the requirements of the planners for micro level planning. Similarly, the additional data for town directory in respect of civic and other amenities in Class I and II towns are oriented to minimum needs programme especially in respect of slum dwellers. The data on amenities by size of town would be of great interest to the scholars and planners alike.

Brief History of the District

Kolhapur history can be broadly divided into three periods, early Hindu period, partly mythic and partly historic reaching to about A. D. 1347, Muslim period lasting from A. D. 1347 to about A. D. 1700, and Maratha period since A. D. 1700. Kolhapur is one of the oldest cities in the country. In the history of Kolhapur, spread over the last few millenniums, the single countinuing factor which has moulted and influenced the social and economic life of the residents of Kolhapur city is the famous temple of "Mahalaxmi", which made it a place of pilgrimage for the Hindus from all over India. It also indicates that the city was the centre of learning art and culture. The massive temple of "Mahalaxmi" have been built over a thousand years ago during the Chalukyas rule represents the best Hindu architectural model of its kind.

The heroic conquests by Shivaji of various forts held by Adilshah of Bijapur in the neighbourhood of Kolhapur, like Panhala and Vishalgad in 1659, increased the commercial and also political importance of Kolhapur. Vishalgad and Panhala however, continued as theatres of war for a number of years between Shivaji and Adilshah of Bijapur, and yet the sacredness of the Mahalaxmi temple remained unviolated and continued to provide a centre for trade and commerce. After the death of Shivaji Aurangazeb captured Panhala and Vishalgad at the beginning of 18th century but he could not hold them for a long time because the second son of Shivaji the great and who had succeeded his father after the death of his elder brother Sambhaji, took up Panhala fort which was, for many years, the virtual capital of Kolhapur State. But at the turn of the last century, to be precise in A. D. 1884, the Kolhapur throne was received by Rajarshi Shahu Chhatrapati when he was only ten years old. That laid the foundation of a new modern era. His authority extended, to higher levels of socio-economic activities. During his rule, he touched every aspect of social and economic life of his subjects.

In 1884, Kolhapur as a state had six sub-divi sions namely Karvir, Panhala, Shirol, Ajra, Gadhinglaj and Bhudargad. In addition, it had two petas Raybag under Shirol and Katkol under Gadhinglaj.

The state was merged in the year 1948. In 1949, 956 villages together with five villages from the former state of Kurundwad, one village from the State of Miraj and seven villages from Belgaum district, were formed into the new district of Kolhapur. Raybag and Katkol were transferred to Belgaum district, now in Karnataka State. The new district consisted of the following talukas and mahals, Shahuwadi, Hatkanangale, Shirol, Karvir, Radhanagari, Kagal, Bhudargad and Gadhinglaj talukas and Panhala, Bavda and Ajra mahals.

Taluka Chandgad was transferred from Belgaum district in 1956. With the re-organisation of states, the district was included in the Bombay State in 1956. Since 1960, it forms a part of Maharashtra State.

At the time of 1961 Census, the district comprised of 9 talukas and 3 mahals which in themselves included 1,086 inhabited villages and 11 towns. During the decade 1961–71, the mahals were up graded as talukas, thus raising the number of talukas to 14. At the time of 1971 census, the district had 12 tahsils comprised of 1093 villages (including 10 uninhabited) and 11 towns (Tahsil and Taluka are synonymous terms and prior to 1971

tahsil was referred to as taluka). Since then the number of tahsils in the district has remained unchanged till the reference date of 1 March, 1981. However, there have been certain changes as to the number of villages and towns within the tahsils during the decade 1971-81. With the upgrading of Hamlets/wadies in the district, the number of villages has gone upto 1,208 (including 8 uninhabited). Likewise, one place *i.e.* 'Kabnur' qualified the specific criteria to be declared as town, raising the number of town in the district to 12.

Location, Relief and Drainage

The Kolhapur District lies between 15° and 17° north latitude and 73° and 74° East longitude. It is bounded on the north by Sangli District, on the west by the Ratnagiri district and on the south and east by the Belgaum district of Karnataka State. The district lies in the Krishna-Panchaganga basin and is fed by a large number of tributaries which originate in the western hill tops and flow over the slope of Sahyadri towards the eastern part of the district, except two minor streams in Bavda tahsil, like Sukh river and the Tillari which drain into Arabian Sea in the west.

District Kolhapur covers an area of 8,047.0 Km.^{2} and has a population of 2,506,330 as per 1981 census. It ranks 23 in area and 9 in population among the 26 districts of Maharashtra State. Kolhapur is one of the smallest districts in the State in respect of area and fairly on the high side in respect of population.

The physical setting of the Kolhapur district can be best appreciated in the background of its relief and drainage. The district is a part of the Deccan table-land with an average height of 1800 ft. above sea level, with the Sahyadrian Scrap forming the most prominent feature along its western administrative boundary. Kolhapur district is at the tail end of the Maharashtra State.

There is only one main system of hills and that is the Sahyadri range and its off-shoots. The main Sahyadrian range forms the western boundary of the district. The off-shoots which extend to the east are eastern ranges, central ranges and southern ranges. The summit levels of the eastern range are remarkably flat upto Panhala and Jyotiba. The central ranges have a south-west and north-east trend and extend only for about 15 miles. These hill ranges separate the basins of various rivers, e.g. Kumbhi river from Dhamni and Tulsi from the Bhogavati. Minor hill ranges in the South separate small valleys.

The drainage pattern of the Kolhapur district has three important aspects. The Sahyadris form the main water divide separating the eastern drainage from that flowing in the west to the Arabian Sea. Secondly, the western flowing streams are upgraded and run down the Sahyadrian Scarp face with a tremendous velocity, with the result that the scarp face presents a highly eroded appearance when seen from the Konkan side. At the base of the scarp that is in the Konkan proper, these, parallel flowing streams lose their force, deposite the debris brought from the main range, and develop a sluggish and meandering course to the Arabian Sea. The drainage pattern of the plateau differs a good deal in several respects from that of the Konkan streams. It is first of all, well developed and geared to the base level of the Krishna which has mastered all the river courses of the district.

Climate

The climate of Kolhapur district is generally temperate and the seasons show considerable uniformity. They are not subject to abrupt changes or extreme heat or cold. Within the district, the seasons show local variations also. In the western part near the Sahyadris, it is always cooler than in the eastern part which is liable to hot winds during April and May. The nights are generally cool over the whole district due to the influence of the sea breezes which get in during the afternoons and continue till late in the evening.

The rainfall is not uniform in all parts of the district. A major portion of the district lies in the rain shadow of the Sahyadri ranges. The average annual rainfall in the district varies widely from about 600 mm. in Shirol tahsil to 6,000 mm. in Bavda tahsil near Sahyadri in the west. The district gets rain from the south-west as well as from the north-east monsoons. Throughout the district the rain falls from May to November. However, the rainy season starts from June and lasts upto the end of October. It is followed by cold weather from November to February and by hot weather from March to May. The statement II of Town Directory indicates the maximum and minimum temperature and normal annual rainfall in towns of Kolhapur district.

Soil

The district can be divided into three broad soil zones :

(1) the western part covered with laterite soils,

(2) the fertile central part, with brownish well-drained soils, and

(3) the dry eastern zone covered with medium to deep black soil of varying depth.

Laterite soils occur mainly in the western parts of Karvir, Bhudargad and Ajra tahsils and the whole of Shahuwadi, Radhanagari, Panhala and Bavda tahsils. They are not retentive of moisture and are fit for raising hill millets alone. Paddy however, is grown on them in the valleys. Soil is red to brownish red in colour.

Brown soils are found in the tahsils of Hatkanangale, Karvir and Radhanagari and in parts of Bhudargad and Ajra tahsils in the transition tract. This soil is rich and fertile. Rice, Jowar and Groundnuts are grown on them in the kharif season. Sugarcane and vegetables are grown where irrigation facilities are available.

Deep black soils are found in the tahsils of Shirol, Hatkanangale, Karvir, Kagal and Gadhinglaj. This soil is quite fertile and yield good crops of kharif jowar and groundnuts. They are fairly rich in phosphorus contents and the crops respond well to the application of nitrogen. Sugarcane, vegetable and tobacco are grown on them successfully.

Census Houses and Households

Columns 4 and 5 of the primary census abstract give total number of occupied residential census houses and the number of households. According to Indian Census, 'Census House' is a building or a part thereof having a main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant, residential, non-residential or both. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented them from doing so. A household may be of persons related by blood or of unrelated persons or having a mix of both. There may be single member or more than one member households. Households of unrelated persons termed as 'institutional households' include boarding houses, messess, residential hotels, rescue homes, jails, ashrams etc.

Houseless population or houseless households include persons who do not have any fixed place of residence but go on moving from place to place, camp at night, or just live on the streets, in gardens or in open places.

Distribution of population in Rural and Urban Areas

As per 1981 Census, the population of Kolhapur district stands at 2,506,330 including 1,273,881 males and 1,232,449 females. This makes 3.99 per cent of State's population over 2.62 per cent of its areas. Among the 12 tahsils in the district, Karvir tahsil (605,931) is the most populous (Table 1).

TABLE 1

Population, number of villages and towns, 1981

Serial No.	Name of tahsil	Population									No. of villages		No. of towns
		Total			Rural			Urban			Total	Inhabited	
		P	M	F	P	M	F	P	M	F			
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Karvir ..	605,931	317,764	288,167	254,539	132,890	121,649	351,392	184,874	166,518	114	114	2

3	Hatkanangale	427,648	225,488	202,160	249,192	129,537	119,655	178,456	95,951	82,505	59	59	3
4	Shirol ..	246,277	127,995	118,282	205,181	106,926	98,255	41,096	21,069	20,027	51	51	2
5	Kagal ..	183,028	92,583	90,445	157,870	79,614	78,256	25,158	12,969	12,189	84	84	2
6	Gadhinglaj ..	174,760	85,771	88,989	156,225	76,216	80,009	18,535	9,555	8,980	93	90	1
7	Chandgad ..	134,936	66,125	68,811	134,936	66,125	68,811	..	..	..	147	146	..
8	Ajra ..	94,499	43,518	50,981	94,499	43,518	50,981	..	..	..	91	89	..
9	Bhudargad ..	108,061	53,016	55,045	108,061	53,016	55,045	..	..	..	103	102	..
10	Radhanagari	150,915	76,184	74,731	150,915	76,184	74,731	..	..	..	113	113	..
11	Bavda ..	70,962	32,711	38,251	70,962	32,711	38,251	..	..	..	92	92	..
12	Shahuwadi ..	138,490	65,826	72,664	133,645	63,357	70,288	4,845	2,469	2,376	140	139	1
District Total ..		2,506,330	1,273,881	1,232,449	1,884,308	945,621	938,687	622,022	328,260	293,762	1,208	1,200	12

Other tahsils in order of their size of population are Hatkanangale (427,648), Shirol (246,277), Kagal (183,028), Gadhinglaj (174,960), Panhala (170,823), Radhanagri (150,915), Shahuwadi (138,490), Chandgad (134,936), Bhudargad (108,061), Ajra (94,499) and Bavda (70,962). It follows that within the district the most populous tahsil has more than eight times the population of the least populous tahsil.

The basic unit for rural area is a revenue village. A 'village' may be defined as a statutory recognised unit having definite boundary and separate land records. Urban areas on the other hand are specially defined for census purposes. The criteria adopted for 1981 census is :

(*a*) All places with a municipality, corporation or cantonment board or notified town areas.

(*b*) All other places which satisfy the following criteria :

(*i*) A minimum population of 5,000;

(*ii*) At least 75% of male working population engaged in non-agricultural (and allied) activities;

(*iii*) A population of atleast 400 persons per Km^2.

Out of 2,506,330 persons in the district 1,884,308 (75.18%) live in the countryside and the remaining 622,022 (24.82%) in the towns. Thus, in Maharashtra State (where 35.03 per cent of the total population is urban), Kolhapur is one of the fairly urbanised districts.

Size class and Status of Towns

For the purposes of comprehensive analysis of varied demographic characteristics, towns have been divided into the following classes by population size :

Class I	..	100,000 and above
Class II	..	50,000 — 99,999
Class III	..	20,000 — 49,999
Class IV	..	10,000 — 19,999
Class V	..	5,000 — 9,999
Class VI	..	Below 5,000.

In 1981, there has been addition of one new town *i.e.* Kabnur as it qualified the specific criteria to be declared as census town (Table 2).

TABLE 2

New Town/Towns declassified in 1981 Census

Name of the towns 1			Population 1981-census 2
(*a*) Added			
(i) Kabnur (C. T.)	..	..	30,275
(*b*) Declassified –Nil	..	..	Nil

Of the 12 towns in the district, two (Kolhapur and Ichalkaranji) are class I, two (Jaysingpur and Kabnur) are class III, five (Gadhinglaj, Gandhinagar, Kagal, Kurundvad and Vadgaon Kasba) are class IV, one (Murgud) is class V and remaining two (Malkapur and Panhala) are class VI towns (Statement I). Two out of these 12 towns are non-municipal towns *i.e.* census towns. There are two big sized towns in this district namely, Kolhapur and Ichalkaranji. The remaining towns are either medium sized or small sized.

Urban Agglomeration

As in 1971 the concept of urban agglomeration has been adopted for 1981 census too. An urban agglomeration may constitute ;

(*a*) A city with contiguous outgrowth (the part of outgrowth being outside the statutory limits but falling within the boundaries of adjoining village or villages) ;

(*b*) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) ; or

(*c*) A city and one or more adjoining towns with their outgrowths all of which form a contiguous spread.

In Kolhapur district, there is only one urban agglomeration (U.A.) *i.e.* Kolhapur U. A. and its constituent units are ;

(*a*) Kolhapur City (M. Corp.)

(*b*) Gandhinagar.

Standard Urban Area

Standard Urban Area (S.U.A.) concept introduced in 1971, has been followed in 1981 as well. The essential requirements for the constitution of S.U.A. are ;

(*i*) It should have a core town of a minimum population of 50,000 ;

(*ii*) The contiguous areas made up of other urban as well as rural administrative units should have mutual socio-economic links with the core town, and

(*iii*) In all probability this entire area should get fully urbanised within a span of two or three decades.

The constituent units of Ichalkaranji and Kolhapur standard urban areas in Kolhapur district are as follows :—

Ichalkaranji SUA : Urban Components :

1. Ichalkaranji City (M).
(2) Kabnur.

Rural Components :

1. Shahapur.

Kolhapur SUA : Urban Compohents :

1. Kolhapur City (M. Corp.)
2. Gandhinagar.

Rural Components :

1. Shiye 2. Kasarwadi 3. Top 4. Sambhapur 5. Nagaon 6. Wadi Ujalai 7. Shiroli 8. Sarnobatwadi 9. Unchagaon 10. Mudashingi.

Table (3) below provides villages by population ranges and their percentages to total inhabited villages in the district.

TABLE 3

Distribution of inhabited villages by population ranges

Range of population 1			No. of villages in each range 2	Percentages of villages in each range 3
—200	..	..	35	2.92
00—499	..	..	201	16.75
500–1,999	..	..	689	57.41
2,000–4,999	..	..	222	18.50
5,000–9,999	..	..	44	3.67
10,000+	..	..	9	0.75
	All ranges	..	1,200	100.00

A village on an average has a population of 1,570 persons and 6.5 Km^2 of area. Of the 1,200 inhabited village, 35 (2.92%) are small sized with a population of below 200, 201 (16.75%) in the size class 200–499, 689 (57.41%) in the size class 500–1,999, 222 (18.50 %) in the size class 2,000–4,999, 44 (3.67%) in the size class 5,000–9,999 and the remaining 9(0.75%) in the size class 10,000+. For a broader generalisation the villages have been further grouped as : small sized (population below 500) medium sized (500–1,999), large sized (2,000–4,999) and exceptionally large sized (5,000+). Within the district small sized village share 19.67 per cent of the total inhabited villages and 4.13 per cent of the rural population in the district, medium sized 57.41 per cent of villages and 39.30 per cent of the rural population, large sized 18.50 per cent of villages and 35.02 per cent of the rural population and exceptionally large sized 4.42 per cent of villages and 21.55 per cent of the rural population.

Population, Growth, Density and Sex Ratio

Kolhapur district registered the growth rate of 22.38 per cent during the decade 1971–81. The decade added 458,281 persons to the 1971 population of the district. However, the growth rate of population in Kolhapur district was slightly lower than that of Maharashtra State (24.54%). During the earlier decade of 1961–71 the growth rate of the district was 28.28 per cent but probably due to draught and scarecity conditions the district population decreased by 5.90 per cent in the decade 1971–81. Within the district there are significant differences in the rates of growth of population in various tahsils. Hatkanangale records the highest growth rate of 35.05 per cent while Bavda has the lowest growth rate 10.71 per cent. The rates of variation in Hatkanangale, Karvir and Shirol tahsils are above the district average and the remaining tahsils are below district average. The high growth rate in Karvir tahsil is mainly due to the growth of Kolhapur city. The highest percentage growth in Hatkanangale tahsil may be due to the rapid expansion of industries at Ichalkaranji and nearby places. The tahsils Chandgad, Ajra, Bhudargad, Radhanagari and Bavda do not have urban areas. It is also observed that during 1971–81 the urban growth rate was less than the rural in Panhala (15.21% rural and 14.47% urban) and in Shahuwadi (15.92% rural and 6.88% urban) tahsils (Table 4).

TABLE 4

Decadal change in Distribution of population

Name of tahsil	Population						Percentage decadal (1971-81) variation		
	1971			1981					
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10
1 Karvir	472,132	204,619	267,513	605,931	254,539	351,392	+28.34	+24.40	+31.36

10 Radhanagari	125,053	125,053	..	150,915	150,915	....	+20.68	+20.68	....
11 Bavda	64,100	64,100	..	70,962	70,962	....	+10.71	+10.71	....
12 Shahuwadi	119,819	115,286	4,533	138,490	133,645	4,845	+15.58	+15.92	+6.88
District total ..	2,048,049	1,607,804	440,245	2,506,330	1,884,308	622,022	+22.38	+17.20	+41.29

Due to liberal use of urban criteria at the time of 1951 census. substantial urban growth rates were recorded both in the district (58.23%) and the state (62.42%) (Table 5).

TABLE 5

Growth, Density and Sex-ratio of urban population in the district in relation to the state

N. A. — Not Available

In 1961, it came down to 10.93 per cent in the district and to 21.32 per cent in the state. During 1961–71, urban growth rate in the district and the state 43.04 per cent and 40.75 per cent respectively. At the latest census of 1981, the district recorded an urban growth rate 41.29 per cent against the state average of 39.99 per cent. Among the various towns in the district, Ichalkaranji recorded the highest (52.46%) growth rate (Statement I). Except Ichalkaranji town, remaining towns in the district are below the district average in growth rate. Malkapur in Shahuwadi tahsil recorded the lowest growth rate (6.88%) during 1971–81.

Kolhapur district has an average density of 311 persons per Km². This is sharply higher than the state average density of 204 persons per Km². Within the district the density varies from 903 persons per Km² in Karvir tahsil to 102 persons per Km² in Bavda tahsil. Karvir, Hatkanangale and Shirol tahsils situated in the very fertile, Krishna-Panchaganga basin, are the most density populated areas in the State. Their high density is also due to big urban centres like Kolhapur, Ichalkaranji and Hatkanangale. The western tahsils are mostly hilly areas without any big urban centre and hence their densities are lower. The density of population decreases as we go from east to west.

Table 6 shows distribution of villages according to density ranges.

TABLE 6

Distribution of villages by density

Range of density (per km.²)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
—10 ..	7	0.58
11—20 ..	11	0.92
21—50 ..	74	6.17
51—100 ..	133	11.08
101—200 ..	238	19.84
201—300 ..	225	18.75
301—500 ..	271	22.58
501+ ..	150	12.50
Not known ..	91	7.58
All density ranges ..	1,200	100.00

For convenient understanding of patterns, villages have been grouped under eight different density ranges. Table reveals that about more than one-third (463) of the inhabited villages recorded a density of upto 200 persons per Km². In about more than one-third (496) villages it varied between 201 and 500, and 150 villages recorded a very high density of more than 500 persons per Km². For the remaining 91 villages, density of population could not be worked out for want of their area figures. In conformity with the state pattern there has been consistent rise in the urban density of population in the district since 1961. It has increased from 1,334 persons per Km² in 1961 to 3,245 persons per Km² in 1981 (Table 5). Among the various towns in the district, Gandhinagar recorded the highest density (25,636) and Kagal recorded the lowest density (567) as per 1981 census (Statement I).

The following table shows the sex ratios for the district and the state (Number of females per 1,000 males) since 1901.

TABLE 6 (i)

Sex Ratio 1901–1981

Year	District	State
1901	975	978
1911	967	966
1921	946	950
1931	952	947
1941	968	949
1951	970	941
1961	967	936
1971	959	930
1981	967	937

1981 Census recorded a sex ratio of 967 females per 1,000 males in the district. This is slightly higher than that of the state average (937).

The sex ratio in Kolhapur district has remained higher than that of the State since 1931 to 1981, From 1901 to 1981, the sex ratio in Kolhapur district fluctuated between 975 and 967 while the state average varied between 978 and 937. Sex ratio in the district decreased gradually till 1921 when it reached the lowest value of 946. Since then it increased to 970 in the year 1951 but has fallen upto 959 in 1971 and increased to 967 in the year 1981. There is a deficiency of females in the district but comparatively it is less than the state average.

The following table shows the sex ratio for each tahsil in the district for total areas.

TABLE 6 (ii)

Sex Ratio by Tahsils, 1981

District/Tahsil	Females per 1,000 males
Kolhapur District	967
Karvir tahsil	907
Panhala tahsil	966
Hatkanangale tahsil	897
Shirol tahsil	924
Kagal tahsil	977
Gadhinglaj tahsil	1,038
Chandgad tahsil	1,041
Ajra tahsil	1,171
Bhudargad tahsil	1,038
Radhanagari tahsil	981
Bavda tahsil	1,169
Shahuwadi tahsil	1,104

Within the district, the sex ratio varies from 1,171 in Ajra tahsil to 897 in Hatkanangale tahsil. Higher sex ratios are generally obtained in rural tahsils of Gadhinglaj (1,038) Chandgad (1,041), Ajra (1,171), Bhudargad (1,038), Bavda (1,169) and Shahuwadi (1,104). Western tahsils have comparatively higher sex ratios than eastern tahsils.

The urban sex ratio (895) in the district is higher than that of the state (850). Trend over the past few decades (Table 5) reflects gradual rise in the urban sex ratio of the district and the state since 1961.

Scheduled Castes and Scheduled Tribes

For evolving any suitable plan for socio-economic uplift of the scheduled castes and scheduled tribes, the Government need to have the necessary data about them and for this, census is the main source. One of the highlights of 1981 census as that of 1971 and 1961 censuses was the collection of detailed information on the socio-economic characteristics of scheduled caste and scheduled tribe population. There is no standard, definition of scheduled castes or scheduled tribes. Scheduled castes include castes, races of tribes as are declared to be scheduled castes by the President of India by public notification under article 341 (i) of the Indian Constitution. Similarly, scheduled tribes mean all such tribes of tribal community or part or group within such tribe or tribal community as are declared by the President of India, to be treated as Scheduled tribes under article 342 (i) of the Indian Constitution. For Maharashtra State, 59 castes and 47 tribes have been declared to be recognised as scheduled castes and scheduled tribes respectively and the list of scheduled castes and scheduled tribes in the State is given below.

Scheduled Castes and Scheduled Tribes in Maharashtra State

I. LIST OF SCHEDULED CASTES

1. Ager.
2. Anamuk.
3. Aray Mala.
4. Arwa Mala.
5. Bahna, Bahana.
6. Bakad, Bant.
7. Balahi, Balai.
8. Basor, Burud, Bansor, Bansodi.
9. Beda Jangam, Budga Jangam.
10. Bedar.
11. Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chamari, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Telegu, Mochi, Kamati, Mochi, Ranigar, Rohidas, Nona, Ramnami, Rohit, Samgar, Samagara, Satnami, Surjyabanshi, Surjyaramnami.
12. Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar, Zadmalli.
13. Bindla.
14. Byagara.
15. Chalvadi, Channayya.
16. Chenna Dasar, Holaya Dasar, Holeya Dasari.
17. Dakkal, Dokkalwar.
18. Dhor, Kakkayya, Kankayya, Dohor.
19. Dom, Dumar.
20. Ellamalvar, Yellammalawandlu.
21. Ganda, Gandi.
22. Garoda, Garo.
23. Ghasi, Ghasia.
24. Halleer.
25. Halsar, Haslar, Hulasvar, Halasvar.
26. Holar, Valhar.
27. Holaya, Holer, Holeya, Holiya.
28. Kaikadi (in Akola, Amravati, Bhandara, Buldana, Nagpur, Wardha and Yavatmal districts and Chandrapur district other than Rajura tahsil).
29. Katia, Patharia.
30. Khangar, Kanera, Mirdha.
31. Khatik, Chikwa, Chikvi.
32. Kolupulvandlu.
33. Kori.

8. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave.
9. Bhunjia.
10. Binjhwar.
11. Birhul, Birhor.
12. Chodhara (excluding Akola, Amravati, Bhandara, Buldana, Chandrapur, Nagpur, Wardha, Yavatmal, Aurangabad, Bid, Nanded, Osmanabad and Parbhani districts).
13. Dhanka, Tadvi, Tetaria, Valvi.
14. Dhanwar.
15. Dhodia.
16. Dubla, Talavia, Halpati.
17. Gamit, Gamta, Gavit, Mavchi, Padvi.
18. Gond, Rajgond, Arakh, Arrakh Agaria, Asur, Badi Maria, Bada Maria, Bhatola, Bhimmi, Bhuta, Koilabhuta, Koilabhuti, Bhar, Bisonhorn Maria, Chota Maria, Dandami Maria, Dhuru, Dhurwa, Dhoba, Dhulia, Dorla, Gaiki, Gatia, Gatti, Gaita, Gond Gawari, Hill Maria, Kandra, Kalanga, Khatola, Koitar, Koya, Khirwar, Khirwara, Kucha Maria, Kuchaki Maria, Madia, Maria, Mana, Mannewar, Moghya, Mogia, Monghya, Mudia, Muria, Nagarchi, Naikpod, Nagwanshi, Ojha, Raj, Sonjhari Jhareka, Thatia, Thotya, Wade Maria, Vade Maria.
19. Halba, Halbi.
20. Kamar.
21. Kathodi, Katkari, Dhor Kathodi, Dhor Kathkari, Son Kathodi, Son Katkari.
22. Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar, Chattri.
23. Khairwar.
24. Kharia.
25. Kokna, Kokni, Kukna.
26. Kol.
27. Kolam, Mannervarlu.
28. Koli Dhor, Tokre Koli, Kolcha, Kolgha.
29. Koli Mahadev, Dongar Koli.
30. Koli Malhar.
31. Kondh, Khond, Kandh.
32. Korku, Bopchi, Moussi, Nihal, Nahul, Bondhi, Bondeya.
33. Koya, Bhine Koya, Rajkoya.
34. Nageshia, Nagasia.
35. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka.
36. Oraon, Dhangad.
37. Pardhan, Pathari, Saroti.
38. Pardhi, Advichincher, Phans Pardhi, Phanse Pardhi, Langoli Pardhi, Behelia, Bahellia, Chita Pardhi, Shikari, Takankar, Takia.
39. Parja.
40. Patelia.
41. Pomla.
42. Rathawa.
43. Sawar, Sawara.
44. Thakur, Thakar, Ka Thakur, Ka Thakur, Ma Thakur, Ma Thakar.
45. Thoti (in Aurangabad, Bid, Nanded, Osmanabad and Parbhani districts and Rajura tahsil of Chandrapur district).
46. Varli.
47. Vitolia, Kotwalia, Barodia.

At the time of 1981 Census scheduled caste population in Kolhapur district was 302,649 including 155,060 males and 147,589 females. They constitute 12.08 per cent of the total district population as against 11.35 per cent in 1971. Out of the total scheduled castes population in the district, 237,328 (78.42%) live in rural and the remaining 65,321 (21.58%) in the urban areas. In the district, 178 villages have no scheduled caste population. (Table 7)

TABLE 7

Proportion of scheduled caste population to total population in the villages

Percentage range of scheduled caste population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
No S. C. Population ..	178	14.83
— 5 ..	244	20.33
6—10 ..	238	19.84
11—15 ..	256	21.33
16—20 ..	156	13.00
21—30 ..	99	8.25
31+ ..	29	2.42
All ranges ..	1,200	100.00

Among the remaining 1,022 villages the share of scheduled caste population is less than 5 per cent in 244 villages, 6 to 10 per cent in 238 villages, 11 to 15 per cent in 256 villages, 16 to 20 per cent in 156 villages, 21 to 30 per cent in 99 villages and more than 30 per cent in 29 villages in the district.

Table 7 (i) shows tahsilwise proportion of scheduled caste and scheduled tribe population to the total population in the district for 1971 and 1981.

TABLE 7 (i)

Scheduled Caste and Scheduled Tribe Population 1971 and 1981

District/Tahsil	Percentage of scheduled caste population to total population		Percentage of scheduled tribe population to total population	
	1971	1981	1971	1981
1	2	3	4	5
Kolhapur District	11.35	12.08	0.19	1.09
Karvir tahsil ..	11.82	13.11	0.13	0.42
Panhala tahsil ..	12.16	12.70	0.10	0.28
Hatkanangale tahsil	14.53	14.15	0.15	1.09

Radhanagari tahsil	10.23	10.33	0.06	0.26
Bavda tahsil ..	6.15	6.02	0.06	2.39
Shahuwadi tahsil ..	7.31	8.22	..	0.25

N—Negligible

As per 1981 Census, the scheduled tribes population in Kolhapur district stands at 27,311 (13,964 males and 13,347 females) and they comprise 1.09 per cent as against 0.19 per cent in 1971. Spurt in the proportion of scheduled tribe population in the district as in other parts of the state is primarily the result of the removal of area restrictions for recognising the tribal population as scheduled tribe in the state. In the district 89.79 per cent of the scheduled tribe population is rural by residence and 10.21 per cent resides in the urban areas.

Out of 1,200 inhabited villages in the district, 942 villages have no scheduled tribe population (Table 8).

TABLE 8

Proportion of scheduled tribe population to total population in the villages

Percentage range of scheduled tribe population to total population	No. of Villages in each range	Percentage of villages in each range
1	2	3
No S. T. Population ..	942	78.50
— 5 ..	214	17.84
6—15 ..	30	2.50
16—25 ..	7	0.58
26—35 ..	3	0.25
36—50 ..	1	0.08
51+ ..	3	0.25
All ranges ..	1,200	100.00

Among the remaining 258 villages, the proportion of scheduled tribe population is less than 5 per cent in 214 villages, 6 to 15 per cent in 30 villages, 16 to 25 per cent in 7 villages, 26 to 35 per cent in 3 villages, 36 to 50 per cent in 1 village and above 50 per cent in 3 villages of the district.

In urban areas the scheduled castes and scheduled tribes constitute 10.50 per cent and 0.45 per cent of the total population respectively (Table 9).

TABLE 9

Proportion of Scheduled Castes/Scheduled Tribes population in towns

Name and civic status of the town	Total population	Total scheduled caste population	Total scheduled tribe population	Percentage of scheduled caste population to total population	Percentage of scheduled tribe population to total population
1	2	3	4	5	6
Gadhinglaj (M. Cl.)	18,535	2,201	70	11.87	0.38
Gandhinagar (C. T.)	10,767	737	17	6.84	0.16
Ichalkaranji City (M. Cl.)	133,751	11,694	753	8.74	0.56
Jaysingpur (M. Cl.)	24,012	1,897	354	7.90	1.47
Kabnur (C. T.)	30,275	3,206	340	10.59	1.12
Kagal (M. Cl.)	16,545	2,353	176	14.22	1.06
Kolhapur City (M. Corp.)	340,625	37,692	788	11.07	0.23
Kurundvad (M. Cl.)	17,084	1,543	104	9.03	0.61
Malkapur (M. Cl.)	4,845	850	7	17.54	0.14
Murgud (M. Cl.)	8,613	1,011	74	11.74	0.86
Panhala (M. Cl.)	2,540	305	10	12 01	0 39
Vadgaon Kasba (M. Cl.)	14,430	1,832	95	12.70	0.66
All towns	622,022	65,321	2,788	10.50	0.45

Concentration of scheduled castes is more than the district average in the towns of Gadhinglaj Kabnur, Kagal, Kolhapur, Malkapur, Murgud, Panhala, and Vadgaon Kasba and scheduled tribes in the towns of Ichalkaranji, Jaysingpur, Kabnur, Kagal, Kurundvad, Murgud and Vadgaon Kasba.

Literacy

Any person who is able to both read and write with understanding in any language is recorded as a literate by the Indian Census. The latest 1981 census revealed that 45.36 per cent of the total population in the district is literate against the state average literacy rate of 47.18 per cent. Among the various district in the state, Kolhapur district ranks *13th* terms of literacy rate. Literacy rates by population ranges of villages are also indicate in Table 10.

TABLE 10

Literacy rates by population ranges of villages

Range of population	No. of villages in each range	Literacy rate
1	2	3
—200 ..	35	29.49
200—499 ..	201	26.88
500—1,999 ..	689	33.42
2,000—4,999 ..	222	41.10
5,000—9,999 ..	44	48.83
10,000+ ..	9	53.03
All ranges ..	1,200	39.78

Within the district the literacy rate is maximum (56.24%) in Karvir tahsil and the minimum, (30.55%) in Shahuwadi tahsil (Table 12). It is also observed that size of the village and literacy rate are positively co-related (Table 10). Among the various towns in the district Panhala recorded the highest literacy rate 73.78 per cent in 1981 (Table 11).

TABLE 11

Literacy rates for towns

Name and civic status of the town	Literacy rate
1	2
Gadhinglaj (M. Cl) ..	60.25
Gandhinagar (C. T.) ..	60.63
Ichalkaranji City (M. Cl) ..	56.47
Jaysingpur (M. Cl) ..	57.08
Kabnur (C. T.) ..	51.58
Kagal (M. Cl) ..	54.63
Kolhapur City (M. Corp) ..	66.85
Kurundvad (M. Cl) ..	58.24
Malkapur (M. Cl) ..	68.54
Murgud (M. Cl) ..	54.03
Panhala (M. Cl) ..	73.78
Vadgaon Kasba (M. Cl) ..	56.62
All towns ..	62.26

By contrast the literacy rate was the lowest (51.58%) in Kabnur town.

During the span of 80 years (1901–81) the literacy rate in the district increased from 4.06 per cent in 1901 to 45.36 per cent in 1981 [Table 11 (i)]

TABLE 11 (i)

Progress of Literacy 1901–81

Year	Total	Males	Females
1901	4.06	7.75	0.27
1911	4.12	7.63	0.48
1921	8.58	15.08	1.70
1931	6.59	11.80	1.13
1941	N.A.	N.A.	N.A.
1951	12.50	20.80	4.00
1961	26.30	40.09	12.04
1971	35.37	49.78	20.34
1981	45.36	59.45	30.79

N.A.—Not Available

The progress in literacy was slow till 1931 when hardly 6.59 per cent of the district population was literate. The post 1931 period experienced a comparatively faster growth. Literacy rose from 12.50 per cent in 1951 to 45.36 per cent in 1981. In 1951, one in every eight persons (12.50%) was literate. The ratio narrowed to one in four (26.30%) in 1961, one in three (35.37%) in 1971 and nearly one in two (45.36%) in 1981. This rapid improvement may be due to the expansion of educational facilities during the first two plans. The improvement in female literacy from 4.00 per cent in 1951 to 30.79 per cent in 1981 is noteworthy achievement. The scheme of compulsory primary education introduced in 1954 may be another contributing factor. Literacy rates of two sexes differ sharply. The literacy rate of males (59.45%) was almost double than that of females (30.79%) in 1981. This rate for males (49.78%) was nearly two and half times than that for females (20.34%) in 1971. Sexwise literacy has thus been narrowing, although it continues to be wide in itself.

Like male-female differentials there exists disparity in the literacy rates of rural and urban areas. As against 39.78 per cent of literates in rural areas and there were 62.26 per cent of literates in urban areas of the district as per 1981 census. Between the two sexes, the differential is larger for females (24.31% rural, 51.51% urban) than for the males (55.14% rural, 71.88% urban).

Working population

'Work' may be defined as participation in economically productive activity. The participation may be physical or mental in nature work involves not only actual work but also effective supervision and direction.

There has been some conceptual change for defining the worker at the 1981 census. A trichotomy of main workers, marginal workers and non-workers has been adopted instead of the dichotomy of workers and non-workers in 1971 and 1961. However, while accepting this conceptual change the feasibility of making the data comparable with the previous censuses was duly considered, conceptually, the main workers *plus* the marginal workers of 1981 are almost comparable with the workers plus non-workers with secondary work of 1971 and 'workers' of 1961. Further, for 1981 census on the recommendation of Planning Commission and Central Statistical Organisation, only four industrial categories of main workers i.e. cultivators, agricultural labourers, workers engaged in household industries and other workers have been, adopted against the nine industrial categories of workers in 1971 and 1961.

For main workers major part of the preceding year (at least 6 months or 183 days) was adopted while those who worked for sometime during the preceding year but not for the major part, have been treated as marginal workers. All those who had not worked at all during the last year, were recorded as non-workers. Persons engaged in household duties, students, dependants, retired persons, rentiers, beggars are some of the categories grouped as non-workers.

1981 census recorded 36.76 per cent of the district population as main workers, 4.69 per cent as marginal workers and the remaining 58.55 per cent as non-workers (Table 12).

TABLE

Literates, Workers, Non-Workers, Scheduled

Name of tahsil	Total Rural Urban	Total Population			Percentage of

The Corresponding figures for the state as such are 38.71 per cent, 3.85 per cent and 57.44 per cent. Thus nearly two-fifth of the population of the district and the state is engaged in economically productive activity. Compared to 1971, there has been little rise in the work participation rate both in the district (34.00% in 1971 and 36.76% in 1981) and in the state (36.48% in 1971 and 38.71% in 1981). Within the district, work participation rate recorded at 1981 census was the highest (46.05%) in Chandgad tahsil and the lowest (32.07%) in the Karvir tahsil. Male participation rate (52.50%) is more than double than that of female (20.48%) as per 1981 census. The female participation rate in the district increased from 15.77 per cent in 1971 to 20.48 per cent in 1981 and in the state 19.70 per cent to 23.98 per cent. By contrast, there was a marginal rise in district male participation rate 51.48 per cent in 1971 to 52.50 per cent in 1981. In the state also there is a marginal rise i. e. 52.09 per cent in 1971 to 52.51 per cent in 1981.

1981 work participation rate is more in the rural (39.15%) than the urban (29.51%). Between the two sexes the differential is larger among the females in rural areas (24.76%) than the urban areas (6.82%). The participation rate of the males in rural areas (53.44%) is more than urban area (49.82%).

1981 census results revealed that among the main workers in the district, 52.63 per cent are cultivators, 14.96 per cent are agricultural labourers, 2.82 per cent engaged in household industry and the remaining 29.59 per cent engaged in other services. The corresponding percentages for the state are 35.12 per cent, 26.63 per cent, 2.55 per cent and 35.70 per cent. Evidently, two-third of the workers in the district are directly engaged in agriculture as cultivators or agricultural labourers. Male and female participation as cultivators in the district is substantially higher than that of the state. Where as the position is reverse for the participation as agricultural labourers. This aspect is more significant for females than males.

In the district, marginal workers were recorded 4.69 per cent of the total population. The participation of males is 1.15 per cent and females is 8.35 per cent. The high incidence of marginal workers among females as compared to males is understandable as the former besides, looking after their household duties tend to engage themselves in some economically productive activity to lend support to their male counterparts.

Availability of Amenities–Education

Educational amenity is available 1,192 (99.33%) villages in the district and these villages contain 99.76 per cent of the rural population of the district (Table 13 & 14).

TABLE 13

	Total of all tahsils ..	1,884,308	1,879,764 (99.76)	1,042,908 (55.35)	1,884,308 (100.00)	1,366,229 (72.51)	459,411 (24.38)	1,443,029 (76.58)	1,183,644 (62.82)	1,649,269 (87.53)

The situation regarding schools is the best in the seven tahsils out of the twelve tahsils. In these tahsils hundred percent villages have educational facilities namely, Karvir, Hatkanangale, Shirol, Chandgad, Bhudargad, Bavda and Shahuwadi. In the remaining tahsils, situation regarding schools is good i. e. Panhala (98.35%), Kagal (98.81%), Gadhinglaj (98.89%), Ajra (96.63%) and Radhanagari (99.12%). Only 8 villages have not got educational facilities and these are distributed according to population ranges as follows :—

5 are in the population range of less than 500, 3 are in the size class 500-1,999. In the remaining two population ranges there is not a single village without educational facilities (Table 15).

TABLE 15

Distribution of villages according to population range and amenities available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Educational	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communications	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
—500	236	231 (97.88)	48 (20.34)	236 (100.00)	35 (14.83)	7 (2.97)	87 (36.86)	63 (26.69)	126 (53.39)
500—1,999	689	686 (99.56)	211 (30.62)	689 (100.00)	268 (38.90)	39 (5.66)	401 (58.20)	281 (40.78)	571 (82.87)
2,000—4,999	222	222 (100.00)	135 (60.81)	222 (100.00)	200 (90.09)	52 (23.42)	196 (88.29)	155 (69.82)	219 (98.65)
5,000+	53	53 (100.00)	47 (88.68)	53 (100.00)	53 (100.00)	29 (54.72)	52 (98.11)	44 (83.02)	53 (100.00)
All ranges ..	1,200	1,192 (99.33)	441 (36.75)	1,200 (100.00)	556 (46.33)	127 (10.58)	736 (61.33)	543 (45.25)	969 (80.75)

Among the 8 villages without educational amenity the same is available within the distance of 5 Km. in respect of 5 villages, at a distance of 5–10 Kms. for 2 villages and at a distance of beyond 10 Kms. for 1 village in the district (Table 16).

TABLE 16

Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available

Villages not having the amenity of	Number of villages where the amenity is not available and available at a distance of				
	—5 Kms.	5–10 Kms.	10 Kms. +	Distance unspecified region	Total (Cols. 2–5)

Above situation shows that Kolhapur is one of the best districts in Maharashtra State in respect of education and educational facilities.

Distribution of villages according to the distance from the nearest town and availability of different amenities is indicated in Table 17.

TABLE 17

Distribution of villages according to the distance from the nearest town and availability of different amenities

Distance range from the nearest town (in kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of

All towns ..	2.04	1.24	1.03	4.45

On an average, the population to institution ratio in urban areas in the district is, 10,000 : 2.04 higher secondary/Int/PUC/Junior Colleges, 10,000 : 1.24 Secondary/Matriculation Schools, 10,000 : 1.03 middle schools and 10,000 : 4.45 primary schools. In other words, among urbanities, there is a higher secondary/Int/PUC/Junior College for every 4,898 persons, secondary/Matriculation school for every 8,078 persons, middle schools for every 9,719 persons and primary schools for every 2,246 persons in the district.

Medical

Medical institution of any type specified in the village directory exist only in three out of every ten (36.75%) villages in the district and these villages in themselves contain 55.35 per cent of the rural population of the district. This situation is not very satisfactory in respect of medical facilities. It is true, that in rural areas of Maharashtra State, unwillingness on the part of medical personnel to work in the rural sector is one of the main causes. However, the establishment of primary health centres, opening of rural dispensaries and cottage hospitals are bound to steadily change the medical situation in future.

Within the district, the position is best in Bavda tahsil where 93.48 per cent of the villages are equipped with some kind of medical facility (Table 13) and 90.56 per cent of its population gets the benefit (Table 14). On the other hand, in Ajra tahsil, just 8.99 per cent of the villages covering 28.17 per cent of its population enjoy the facility in the villages itself. The position of medical facility is fair in the tahsils of Karvir, Hatkanangale, Shirol, Kagal, Bhudargad and Radhanagri. In these tahsils more than 40 per cent villages have medical facilities.

Among the 759 villages which do not have any medical facility, the same is available at a distance of upto 5 Kms. for 427 villages, at a distance of 5–10 Kms. in respect of 248 villages and, beyond 10 Kms. for the remaining 84 villages in the district (Table 16). It is also observed that all the big sized 47 villages (5000+) are equipped with some kind of medical facility within the village, while 48 villages are in the population range below 500 (Table 15).

Table 19 gives the number of beds per 1,000 of population in the towns. On an average there are 1.81 beds per thousand of population in the urban areas of the district. Out of 12 towns only four towns : namely Ichalkaranji (0.56 %), Kagal (0.36%), Murgud (0.93 %) and Vadgaon Kasba (1.73%) are below the district average for urban areas.

All Towns		..	1.81

Drinking Water

It is heartening to note that all the villages in the district have drinking water amenity.

Post and Telegraph

More than two-fifth (46.33%) of the inhabited villages in the district have post and telegraph facility and these villages cover 72.51 per cent of the rural population of the district. Within the district, Shirol tahsil is having the highest post and telegraph facility nearly one post office after every village (96.08%) and these villages are serving about 98.73 per cent its rural population A part from Shirol tahsil, six other tahsils are above the district average namely Karvir (75.44%), Hatkanangale (72.88%), Kagal (63.10), Gadhinglaj (51.11%), Ajra (65.17%) and Bavda (46.74%). The remaining tahsils are below the district average. The lowest percentage of villages having post and telegraph facility is in Shahuwadi tahsil (25.18%). The above situation shows the position of Kolhapur district in respect of post and telegraph facility is generally fair and in some of the tahsils it is best.

644 villages in the district do not have facility of post offices. Among them, it is available within a distance of 5 Kms. for 422 villages, at a distance of 5–10 Kms. for 163 villages, and beyond 10 Kms. for the remaining 59 villages in the district. Among the 556 villages 35 villages are in the size class less than 500, 268 villages are in the size class 500-1,999, 200 villages in size class 2,000-4,999 and remaining 53 villages with a population 5,000+ have the availability of post and telegraph facility within their respective villages.

Market/Hat

Market/hat is held in 127 (10.58%) villages in the district and these villages account 24.38 per cent of the district's rural population. Within the district Hatkanangale tahsil has the highest markets 12 (20.34%) and the Ajra tahsil has the lowest markets 5 (5.62%).

Among the 1,073 villages where market/hat is not held, the same is available at a distance of upto 5 Kms. for 439 villages, 5–10 Kms. for 430 villages and beyond 10 Kms. in respect of 204 villages in the district. Of the 127 villages where market/hat are held, 7 are in population range of less than 500, 39 in population range of 500–1,999, 52 in population range of 2,000–4,999 and 29 in the population range of 5000+.

Communications

In the district, 736 (61.33%) villages have the availability of bus stop/railway station/water way within the village and they serve more than three-fourth (76.58%) of the rural population of the district. Among the remaining 464 villages it is available within a distance of 5 Kms. in respect of 312 village at a distance of 5–10 Kms. in respect of 108 villages and beyond 10 Kms. for 44 villages. Among 736 villages 87 villages, with this amenity are in the population range below 500, 401 villages with this amenity are in the range of 500–1,999, 196 villages are in the range of 2,000–4,999 and remaining 52 are in the range of 5,000+.

Approach By Pucca Road

In the district, 543 (45.25%) villages are approachable by pucca road and they serve 62.82 per cent of the rural population of the district. The position is very poor in Shahuwadi tahsil where only 16.55 per cent of the villages are linked with pucca roads. Among the 543 villages linked with pucca road 63 villages are in the population range below 500, 281 villages are in the range of 500–1,999, 155 villages are in the range of 2,000–4,999 and the remaining 44 villages are in the range of 5,000+.

Power Supply

The rural electrification programme assigned importance from the third five year plan and this as resulted in accelerating the supply of power in the rural areas. 969 (80.75%) villages in the district now get the power supply which cover more than three fourth (87.53%) of its rural population. It is also observed that in Hatkanangale and Shirol tahsils cent per cent of the villages get power supply. In Shahuwadi tahsil only three-fifth (60.43%) of the villages get power supply. Among the 969 villages with availability of power supply 126 are in the size class below 500, 571 in the range of 500–1,999, 219 in the range of 2000–4,999 and the remaining 53 in the range of 5,000+ and their proportion to total villages under various categories is 53.39, 82.87, 98.65 and 100.00 per cent respectively.

Villages which do not have any amenity (except drinking water) are 3 in number (Appendix III) and they account for 0.12 per cent of the district rural population. Tahsilwise break-up of these villages is, Gadhinglaj (1), Ajra (1) and Radhanagari (1). Further 1 of these villages is in the population range of below 200. One in the range of 200–499 and 1 in the range of 1,000–1,999. The non-availability of any kind of amenity (except for drinking water) in 3 villages, 8 villages without any schools, 759 villages devoid of medical facility, 644 villages not having postal facility, no market/hat in 1,073 villages, 464 villages without the facility of bus stop/railway station/water way, 657 villages not approachable through pucca road and 231 villages not having power supply is certainly not a happy situation except education and power supply.

Land Utilisation

Columns 15 to 17 of the village directory give land use pattern of each village in the district. Classification of land use adopted here corresponds to the classification recommended by the Ministry of Food and Agriculture.

Forest

The forest area in the district is divided into eight main ranges, namely Ajra, Bavda, Bhudargad, Chandgad, Karvir, Panhala, Radhnagari and, Shahuwadi. The forest area in the district is 1332.03 Km^2. Almost all the forest areas lie in Shahuwadi, Radhanagari, Bhudargad and Chandgad tahsils. Radhanagari tahsil has the largest area under forest (283.51 Km^2). Timber, fuel wood and Hirda were sold by the Forest Department. The minor forest produce like Karvi, Honey, Wax, Shikekai etc. were also sold.

Irrigated, Un-irrigated and Culturable Waste Areas

Data pertaining to irrigated area (by source) un-irrigated area and culturable waste is given under columns 16, 17 and 18 respectively of the Village Directory.

TABLE 20

Distribution of villages according to the land use (in hectares)

Serial No.	Name of tahsil	No. of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to the total cultivable area
1	2	3	4	5	6
1	Karvir	114	60,163.30	85.96	25.18
2	Panhala	121	56,867.98	70.39	10.14
3	Hatkanangale	59	56,301.00	87.26	19.74
4	Shirol	51	46,397.00	84.21	32.44
5	Kagal	84	51,429.00	86.94	7.04
6	Gadhinglaj	90	44,625.00	39.99	17.39
7	Chandgad	146	83,380.00	48.24	7.49
8	Ajra	89	55,184.00	63.85	2.36
9	Bhudargad	102	63,628.00	58.72	6.42
10	Radhanagari	113	88,173.00	53.35	8.99
11	Bavda	92	69,708.24	64.21	2.61
12	Shahuwadi	139	103,811.00	61.74	2.52
	Total of all tahsils ..	1,200	779 667.52	65.57	11.53

Within the district, total cultivated area is 65.57 per cent. It is more than three-fifth of the total area. (Table 20). The five tahsils are above the district average in respect of cultivated area in Karvir (85.96%), Panhala (70.39%), Hatkanangale (87.26%), Shirol (84.21%) and Kagal (86.94%). The remaining tahsils are below the district average *i.e.* Gadhinglaj (39.99%), Chandgad (48.24%) Ajra (63.85%), Bhudargad(58.72%), Radhanagari (53.35%), Bavda (64.21%) and Shahuwadi (61.74%). In the district only 11.53 per cent of the cultivated area is irrigated. Karvir (25.18%), Hatkanangale (19.74%), Shirol (32.44%) and Gadhinglaj (17.39%) are the only exceptions having fair proportion of the cultivated area under irrigation.

Staple Food

Kharif and Rabbi are the two main cultivating seasons in the district. The crops which are taken in the early South-West monsoon are called *Kharif* crops while those harvested in the winter are known as *rabbi* crops.

In the western zone of the District, constituting of Shahuwadi, Bavda, Panhala, Radhanagari, Ajra and Chandgad tahsils grow Kharif crops *viz.* (1) Paddy (2) Ragi (3) Jowar (4) Nachani and perennial sugarcane and groundnut. The central zone consists Karvir, Panhala east, Kagal, Radhanagari and Gadhinglaj tahsils grow Jowar, Maize, Wheat, Sugarcane, Groundnut and Tobacco. The eatsern zone consists of Hatkanangale, Shirol and Kagal east grow Jowar, Maize and Wheat. All the above three zones also grow rabbi crops of Jowar (Jondhala or Javari) and gram.

Amongst the food cereal crops in the district, paddy is the most important crop. The second in order of importance is nachani and third is jowar. Millets like Rice, Nachani and Jowar constitute the main staple food for the villages in Kolhapur district. Table 21 indicates that Rice is the staple food in ten tahsils of the district, Nachani is also consumed in Chandgad, Ajra, Bhudargad, Radhanagari and Bavda tahsils. Jowar is consumed in Karvir, Hatkanangale, Shirol, Kagal, and Gadhinglaj tahsils. Wheat in Panhala tahsil and Ragi in Shahuwadi tahsil, also constitute a part of staple food (Table 21).

TABLE 21

Main staple food in the majority of villages in each tahsil

Serial No.	Name of tahsil	Main staple food
1	2	3
1	Karvir	Rice, Jowar
2	Panhala	Rice, Wheat
3	Hatkanangale	Wheat, Jowar
4	Shirol	Jowar
5	Kagal	Rice, Jowar
6	Gadhinglaj	Rice, Jowar
7	Chandgad	Rice, Nachani
8	Ajra	Rice, Nachani
9	Bhudargad	Rice, Nachani
10	Radhanagari	Rice, Nachani
11	Bavda	Rice, Nachani
12	Shahuwadi	Rice, Ragi

The following table shows the harvesting period for reference—

Crop	Month	Harvesting period
1	2	3
(*i*) *Kharif*		
Paddy	May, June	October, November
Jowar	June	December, January
Groundnut	June	November to January
Tobacco	August	January
(*ii*) *Rabbi*		
Wheat	October	March
Jowar	September	February
(*iii*) *Perennial*		
Sugarcane	November to January	November to February

Municipal Finance

Table 22 gives per capita receipts and expenditure (in rupees) for every town in the district.

TABLE 22

IV Vadgaon Kasba (M. Cl.) ..	70.64	34.53	36.11	61.21	5.41	24.26	15.58	2.05	13.91
*Total ..	149.18	91.80	57.38	135.48	16.08	20.26	13.31	20.89	64.94

* *Note* :— Total excludes Gandhinagar Town.

On an average the per capita receipt is Rs. 149.18, out of which Rs. 91.80 is received through local taxes and the remaining Rs. 57.38 from all other sources. The total expenditure incurred per head is Rs. 135.48, of which Rs. 16.08 is on general administration, Rs. 20.26 on public health and conveniences, Rs. 13.31 on public works, Rs. 20.89 on public institutions and Rs. 64.94 on all other aspects. Among all the towns, both the receipts received and the expenditure incurred per head are the highest in Ichalkaranji town.

Minerals

The major portion of the district is covered with deccan trap. The prominent mineral found in the district is bauxite There are very large deposits of high grade bauxite in sufficient quantities at several villages, such as Radhanagari and Waki of Radhanagari tahsil, Dhangarwadi and Udgiri in Shahuwadi tahsil. The quality of bauxite is fairly good and suitable for the manufacture of alluminium The bauxite is mostly transported from Kolhapur district to Belgaum in Karnataka State. Apart from bauxite the minerals which have less economic importance like building stone of good quality are found in sufficient quantities in the district. Ochre, gypsum and iron-ore occure at certain places in the district but they are not important economically.

Fisheries

Fisheries development activities are being undertaken in 195 tanks in the form of small ponds, irrigation and percolation tanks and reservoirs. These resources comprise of the Gram Panchayat tanks, Zilla Parishad tanks, Irrigation tanks, Municipal tanks and Private tanks.

Fishing operations are seasonal and do not contain any fishery of commercial importance. Generally important varieties of fish which are found in Kolhapur district are Chana Murulius, Chana Striatus, Rohtee Species, Barbus, Labee Kolus, Labee Calbasu, Mystus Shoonghale, Labee fimbriatns and Chela Species.

It is estimated that there are about 3,000 fisherman population in the district, however, only 1,000 of them are actively engaged in fishing (1980–81). They are scattered all over the district. The fishing community mainly comprise of the Bhoi Caste.

Industries

Industries have rapidly developed in the district during the last decade. As per new industrial policy of Government of India, rapid development of small and village industries provide new job opportunities to millions of unemployed. Kolhapur was known for manufacture of oil engines and Kolhapuri Chappals. At present various industries existing in the district are engaged in various production such as CI Castings, Steel Castings, Agricultural implements, Pumps, leather working machines, Oil engines spare parts, non-ferrous castings, Bearings, Printing machinery, Electrical motors etc. At the end of 1981 there were about 4,500 small scale industries enganged in various products and approximately 45,000 workers directly employed in such industries.

The textile (large scale) industries are mainly concentrated at Ichalkaranji, which is known to be the Manchester of Maharashtra, the other centres are at Kolhapur, Vadgaon, Kagal, Bahirewadi and atleast 12,000 workers are engaged in 2,325 Textile Units. There are 4 major Industrial Estates set up with the help of State Govt. They are at Kolhapur, Ichalkaranji, Jaysingpur and Hupari.

Kolhapur city is famous for Kolhapuri chappals, immitation jewellary, Gold/Silver jewellary and silver artware, leather toy animals, poultry, Hand Embroidery, etc. There are 10 sugar factories in the district, *viz.* Shirol, Ichalkaranji, Kolhapur, Parite, Warana Nagar, Karvir, Kagal, Bidri, Halkarni and Gadhinglaj.

In addition to these, the sugar factories are engaged in production of spirit and Acetic acid. Kolhapur is known for manufacturing of jaggery by open pan method and there are thousands of such small units existing in rural areas of the district.

Trade and Commerce

The chief export of the district are Rice, Gur, Groundnut oil, Chillies, Sugar, Sugarcane, Tobacco, Dhoties, sarees and shoes. Gur from Malkapur is exported (Table 23) regularly to Gujarat, Karnataka, Konkan and Bombay City. Tobacco from Jaysingpur is exported to Bombay, Culcutta etc

TABLE 23

Most important commodities manufactured, imported and exported in towns

Class, name and civic status of the town	Most important commodities		
1	Manufactured 2	Exported 3	Imported 4
IV Gandhiglaj (M. Cl.) ..	Plastic bags	Chilli powder	Groundnut
IV Gandhinagar (C. T.) ..	Biscuits and Leman drops	Biscuits	Cloth
I Ichalkaranji City (M. Cl.) ..	Dhoti and Sarees	Dhoti and Sarees	Cotton yarn
III Jaysingpur (M. Cl.) ..	Processed tobacco	Processed tobacco	Tobacco
III Kabnur (C. T.)	Sugar	Sugar	..
IV Kagal (M. Cl.)	Gur	Sugarcane	Cloth
I Kolhapur City (M. Corp.) ..	Oil engines	Oil engines and spares	Machinery spare parts
IV Kurundvad (M. Cl.) ..	Shoes	Shoes	Sugar
VI Malkapur (M. Cl.) ..	..	Gur	Cloth
V Murgud (M. Cl.) ..	Rice	Rice	Medicines
VI Panhala (M. Cl.) ..	..	..	Wheat, Gur
IV Vadgaon Kasba (M. Cl.) ..	Groundnut oil	Groundnut oil	Groundnut

The distribution of goods beyond the wholesale trade centres is done at market places and weekly bazars held at different places and on different days of the week. Cloth, Cotton yarn, Groundnut, Machinery spare parts, medicines and wheat are the main articles of import.

Table 24 indicates the proportion of slum population to total population in towns and density of slum per Km^2.

TABLE 24

Proportion of slums population in towns

Class, name and civic status of the town	Proportion of the slums population to total population of the town	Density in slums (per Km^2.)
1	2	3
I Ichalkaranji City (M. Cl.)	There are no notified slums within the Municipal limits .	
I Kolhapur City (M. Corp.)	6.85	41,648
	6.85	41,648

Places of tourists importance

Kolhapur being a pilgrimage place because of Mahalaxmi Temple. The large number of visitors are visiting this temple. In addition to the Mahalaxmi temple, there are large number of pilgrimage places like Jyotiba, Narsinhwadi, Bahubali, Kedarling, Devalwadi and Trimboli. Panhala is one of the important historical places of Maharashtra. It is also a hill station. Large number of visitors visit this place when they come to Kolhapur. All these places give to trading and allied activities like hotels, handicrafts and fancy articles etc.

PART A—VILLAGE AND TOWN DIRECTORY

SECTION I

VILLAGE DIRECTORY

SECTION I—VILLAGE DIRECTORY

Note Explaining the Abbreviations used in the Village Directory

The 'Village Directory' gives the list of villages, their area, population, amenities such as educational, medical, communications, drinking water facilities etc. available to them and also the land use of each village. For this purpose, villages have been arranged tahsilwise in order of their location code number. The inclusion of alphabetical list of villages and the map of every tahsil depicting location of villages by population size, urban-spread and important infrastructural facilities available therein will further help the readers in identifying any village in the tahsil.

'Village' is a statutory recognised unit having a definite boundary and separate land records. In case, a village is treated as an outgrowth of urban agglomeration, data on amenities and land use for that village have not been given in the Village Directory but shown along with the urban component. For those villages which have partly merged in an outgrowth, data pertaining to remaining part of the village is shown in the Village Directory and for the part merged or treated as an outgrowth, the details have been given under the concerned urban agglomeration. If a village, has fully merged in the town, the same has been specified as such in the Village Directory. However, all such villages do appear in the Village Primary Census Abstract for any cross reference. Similarly, villages treated as Census Towns (urban) for the first time in 1981 Census are shown both in the Village Directory and the Village Primary Census Abstract for making any cross reference and no data relating to the amenities available have been indicated in the Village Directory. However, land use data for all such villages can be seen in the Appendix-II of the Village Directory.

If a village has fully merged into another village, the location code number and name of the merged village are given both in the Village Primary Census Abstract and the Village Directory at the appropriate place. Data in respect of these two villages put together appear against the village with which the other village has merged.

The "un-inhabited" villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 *i.e.* the location code number, name and area of the village. In addition to all the above details, following four appendices to Village Directory have also been included :—

Appendix (i) Tahsilwise abstract of educational, medical and other amenities ;

Appendix(ii) Land utilisation data for census towns;

Appendix (iii) Tahsilwise list of villages with no amenities available ; and

Appendix (iv) Tahsilwise list of villages according to proportion of Scheduled Castes/Scheduled Tribes population.

The first two appendices were also prepared for 1971 District Census Handbook. Appendices (iii) and (iv), added in 1981, are expected to help the planners for planning inputs in areas/villages where basic infrastructure is lacking and also for evolving suitable plans for the welfare of Scheduled Castes and Scheduled Tribes.

The Village Directory form has 20 columns and the details given under each column are as under :-

Column 1 gives the location code number of each village as the same is essential for identification of the village.

Column 2 indicates name of the village. For filling up of this column, 1971 District Census Handbook has been used as the basis.

Column 3 shows area figures (in hectares) as supplied by the State Revenue Department. For towns, however, the area figures are in Km^2.

Column 4 which gives population and the number of households in each village has been introduced for 1981 census to examine the corelation between the amenities available to the population and the number of households. Figures given within brackets against total population in this column refer to the number of households in the village.

Data on amenities such as educational, medical, communications, availability of drinking water, days of market/hat etc. are shown under column 5 to 11 of the Village Directory. Additional feature for 1981 District Census Handbook is that in case if amenity is not available within the referrent village, a dash (—) is shown in the column and next to it, in brackets the distance from the village in broad ranges *viz.*, upto 5 kms., 5–10 kms. and 10+ kms. to the nearest place where the facility is available has been given. This will help not only for local area planning but in regulating the provision of goods and services as well, so as to minimise the regional imbalances in the process of development.

Column 5 exhibits the availability of educationa facilities *viz.* primary or elementary school, junior secondary or middle school, matriculation or secondary school, higher secondary/intermediate/pre-university/junior college, college, industrial school, training school, adult literacy school/centre and other educational institutions (Sanskrit pathshala, senior basic school, makhtab etc.).

If in a village, secondary school has middle and primary classes also the same has been counted as three schools *i.e.* secondary, middle and primary school. In case, there are more than one institutions of any type in a village their number is indicated within brackets against the prescribed abbreviation. Following abbreviations have been used for presenting data on educational amenities :-

Primary or Secondary School ..	P
Junior Secondary or Middle School..	M
Matriculation or Secondary School ..	H
Higher Secondary/Intermediate/Pre-university/Junior College (PUC) ..	PUC
College, any college (graduate level and above) like Arts, Science, Commerce etc. ..	C
Industrial School	I
Training School	Tr.
Adult Literacy Class/Centre ..	AC
Other Educational Institutions ..	O

Column 6 provides data on medical facilities available in the village. If in a village no medical facility is available 'dash' (—) has been placed and within the brackets the distance in broad ranges (upto 5 kms, 5–10 kms. and above 10 kms. of the nearest place where the most modest medical amenity such as dispensary/community health worker is available) has been indicated. Various types of medical institutions included and codes used for them are as follows :—

Hospital	H
Maternity and Child Welfare Centre	MCW
Maternity Home	MH
Child Welfare Centre	CWC
Health Centre	HC
Primary Health Centre	PHC
Primary Health Sub-centre	PHS
Dispensary	D
Family Planning Centre	FPC
T. B. Clinic	TB
Nursing Home	NH
Registered Private Practitioner	RP
Subsidised Medical Practitioner	SMP
Community Health Worker	CHW
Others	O

Column 7 gives information regarding availability of drinking water within the village. In case more than one source is available for drinking water, the same has been mentioned. Following abbreviations have been used for indicating the source of drinking water in the village :—

Tap water	T
Well water	W
Tank water	Tk
Tube-well water	TW
Hand pump	Hp
River water	R
Fountain	F
Canal	C
Lake	L
Spring	S
Nallah	N
Others	O
Information Not Available	NA

Column 8 shows postal facilities such as post office, telegraph office, post and telegraph office and telephone connections available in the village. Various abbreviations adopted for indicating this information are :—

Post Office	PO
Telegraph Office	TO
Post and Telegraph Office	PTO
Telephone Connection	Phone

Column 9 gives information on day or days of the market/hat held in the village. This information is based on local enquiry and generally relates to weekly or bi-weekly market. If in any case, the market is held monthly or fortnightly it has been recorded accordingly in this column. In case weekly or bi-weekly or monthly market/hat is not being held, the column has been left blank.

Column 10 represents information as to whether the village is served by any mode of public transport like, bus, rail, and water-way and the same has been indicated as follows :—

Bus Stop	BS
Railway Station	RS
Navigable Water-way (including river, canal and back-water etc.)	NW

Column 11 refers to the state of roads etc. in the village. This will help us in determining as to whether the village is approachable both in fair and foul weather. Following abbreviations have been used for stating this information.

Pucca Road	PR
Kaccha Road	KR
Navigable River	NR
Navigable Canal	NC
Navigable Water-way (Other than river or canal)	NW
Foot Path	FP

Column 12 gives the distance in kilometres within brackets from the nearest town. In case, the nearest town is located in another State the name of the State has also been indicated.

Column 13 relates to the availability of power supply to the village. The various sources of power supply have been indicated through the following codes :—

Electricity for Domestic purpose	ED
Electricity for Agriculture	EAg
Electricity for Other purpose like Industrial, Commercial etc.	EO
Electricity for All purposes listed above	EA

In case the power supply is released only for specific purpose, say agriculture or other, it has been stated accordingly.

Column 14 gives staple food (only in terms of grains) of the majority people of the village during the major part of the year. This may be rice, wheat, jowar, maize, ragi, etc. or a combination of grains where it is difficult to determine a particular grain.

Column 15 to 19 give the details about land utilization. The land use pattern given in the Village Directory conforms to the classification recommended by the Ministry of Food and Agriculture, Government of India, which maintains the land records under the following five categories :—

(1) Forests

(2) Not available for cultivation—

(*a*) lands put to non-agricultural uses

(*b*) barren and unculturable land

(3) Other uncultivated lands excluding fallow lands.
   (*a*) permanent pastures and other grazing lands.
   (*b*) lands under miscellaneous tree crops and groves not included in the net area sown.
   (*c*) culturable wastes

(4) Fallow lands
   (*a*) Fallow lands other than current fallows
   (*b*) current fallows

(5) Net area sown.

Column 15 shows all the lands classed as forest under any legal enactment dealing with forest or administered as forests, whether state owned or private. In case any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

Column 16 and 17 cover all agricultural lands including the net area sown with crops and orchard and also the current and other fallow lands. Net area sown represents the area sown under various crops and orchards. Areas sown more than once in the same year have been counted only once. Column 16 indicates extent of irrigated lands under various types of irrigation *e.g.* canal, tank, wells, tubewells etc. and codes adopted for indicating various sources of irrigation are as under :—

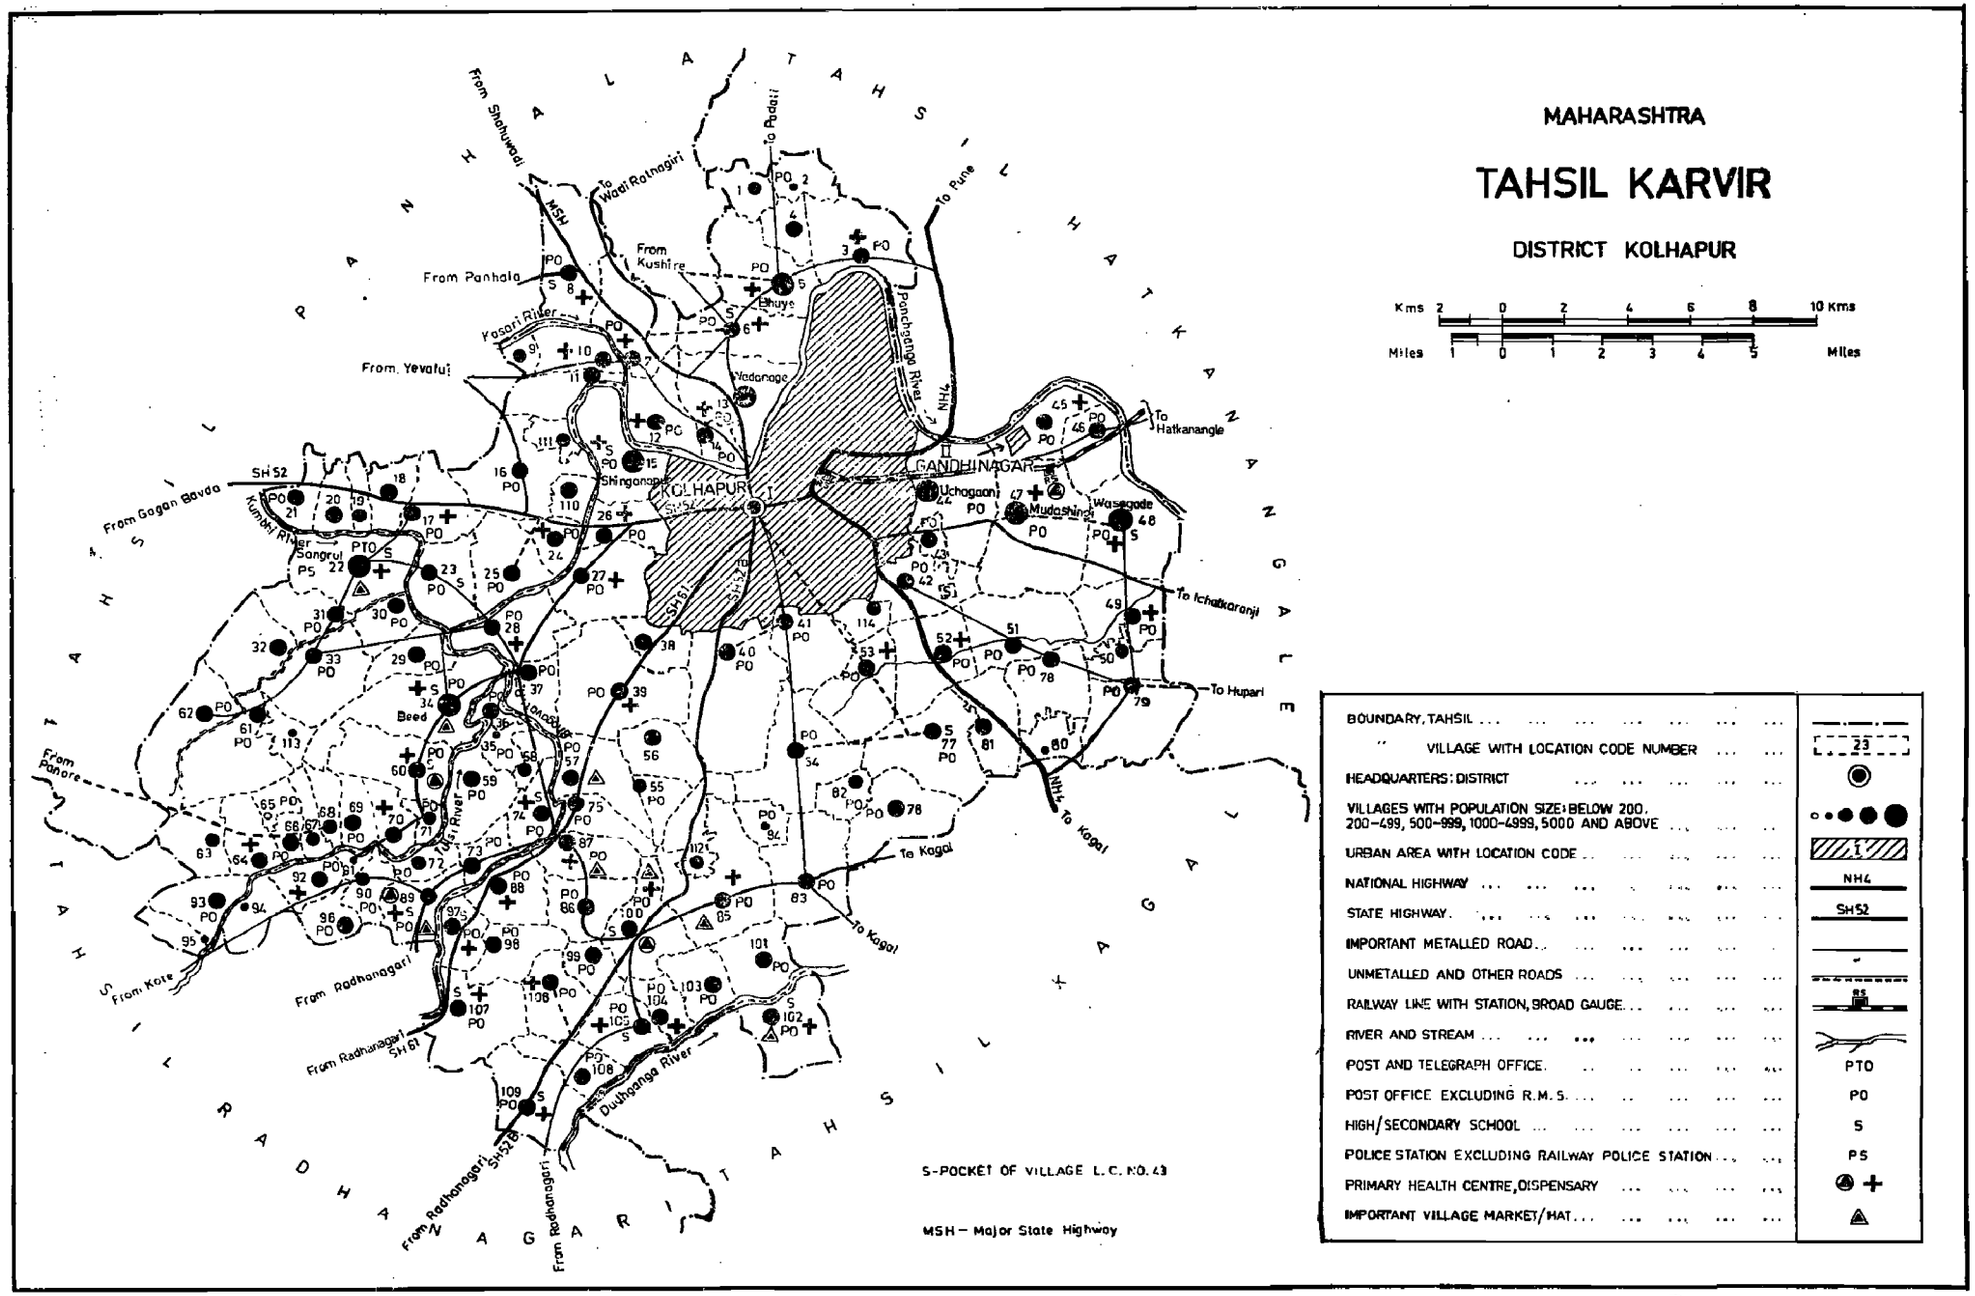

Government Canal	GC
Private Canal	PC
Well (without Electricity)	W
Well (with Electricity)	WE
Tube Well (without Electricity) ..	TW
Tube Well (with Electricity) ..	TWE
Tank	Tk
River	R
Lake	L
Water Fall	WF
Others	O
Total	T

Column 18 gives information on culturable wastes lands and includes land available for cultivation whether or not taken up for cultivation once. Area taken up for cultivation once but not cultivated during the preceding five years or more in succession is also covered under this column. Such lands may either be fallow or covered with shrubs and jungles which are not put to any use. These lands may be assessed or unassessed and found in isolated blocks or within the cultivating holdings. Lands under thatching grasses, bamboo, bushes and other groves for fuels etc., which are not included under orchards or forests, are included in this category. All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest areas, are also included in this column.

Column 19 shows land not available for cultivation such as barren, unculturable land and land put to non-agricultural uses. All lands covered under buildings, roads, railways, rivers, canals etc. form part of the land under non-agricultural uses. Barren and unculturable lands include mountains, rocks, deserts etc. which cannot be brought under cultivation, except at a very high cost.

Column 20 has been filled up on the basis of local enquiry. Besides, recording the particulars of places of importance, it gives information on number of newspapers coming in the village, motor cycles/scooters, cars/jeeps and tractors available in the villages. Appropriate codes listed below have been used for presenting this information and number of items available is mentioned against the code used :—

N	..	Copies of Newspapers coming in the village.
M	..	Motor cycles/scooters available in the village.
C	..	Cars/jeeps available in the village.
T	..	Tractors available in the village.
PS	..	Police Station.

(N. B. Ranges with 'nil' entries have been omitted).

SECTION II

TOWN DIRECTORY

Note explaining the abbreviations used in town directory

The 'Town Directory' gives for each town the area, population in 1981 and past censuses, growth rates, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities, and trade, commerce, industry, and banking facilities. It covers all the towns in the district statutorily notified as well as non-municipal towns. Seven statements (I to VI and IV-A) have been included for presentation of this data. All the towns in the district are arranged in alphabetical order. In case of all urban agglomerations the particulars for each constituent town of agglomeration have been furnished separately, also. Obviously separate information could not be furnished in respect of outgrowths which did not qualify to be treated as independent towns. However, in all such cases asterisk mark has been placed against their names to indicate that they have outgrowths and details of their particulars have been merged with the referrent towns.

Data presented in the seven statements have largely been procured from the municipal bodies and for non-municipal towns the respective tahsildars supplied the information.

Statement I shows status and growth history of the towns in the district. Column 2 in this statement indicates class, name and civic administration status of a town (as in 1980). Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the state and the national level. Census towns have no urban civic status. Following abbreviations have been used to indicate the civic status of the town :—.

Municipal Corporation/Corporation	M. Corp.
Municipality	M.
Municipal Council	M. Cl.
Non-Municipal	N.M.
Cantonment Board/Cantonment ..	C.B.
Notified Area/Notified Area Committee/Notified Committee.	N.A.C.
Census Town	C.T.

Columns 7 to 15 give population and growth rate of towns since 1901 and would help in drawing the trends in their growth rate. Columns 5, 6, 16 and 17 to 19 showing area in Km^2, number of households including houseless households, density and sex ratio respectively are new additions and are expected to facilitate in analysing the town directory data both at the state and the national level.

Statement II shows physical aspects and location of each town. In physical aspects only the rainfall and temperature data as obtained from the Director-General of Meteorological Survey of India have been shown. Towns for which information could not be obtained from Meteorological Survey of India, the same has been collected locally or calculated in relation to the nearest town, to the extent possible. Columns 6 to 12 have been filled up on the basis of local enquiry. Distances respectively from the state, district and tahsil headquarters and the nearest city (Urban area with a population of 100,000+) would help in determining the location of a town. Communication facilities available are shown by railway station, bus route and navigable river/canal.

Statement III deals with municipal finances for the statutory and also non-statutory town bodies managing civic administration of the town provided they have separate budgets and accounts of their own.

Statement IV provides information on the civic and other amenities available in the town. Total population given under column 4 and Scheduled Castes/Scheduled Tribes population given in column 5 have been added to help in measuring amenities in respect of population size of the weaker sections of the community in the town. The information on the road length within the town shown under column 6 has been obtained from municipality (except for the highways). Codes used are :—

Pucca road	PR
Kuccha road	KR

Columns 7 to 11 reflect the information on system of sewerage, number of latrines and method of disposal of night soil.

Codes used are :—

Sewer/Sewerage	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit system	Pt
Head Loads	HL
Baskets	B
Wheel Barrows	WB
Septic Tank Latrines	ST

Columns 12 and 13 indicate sources of protected water supply to the inhabitants of the towns. The information of major source of water supply is given in the column 12 and on major source of storage and capacity under column 13. For stating this information following codes have been used :—

Overhead Tank	OHT
Service Reservoir	SR
River Infiltration Gallery ..	IG
Borewell pumping system ..	BWP
Pressure Tank	PT
Tubewell water/Hand pump ..	TW
Tap Water	T
Well Water	W
Tank Water	TK

Column 14 gives information regarding availability of fire fighting services. In case, it is not available in the referrent town, the name of the nearest place where it is available has been mentioned and the distance from the town has also been indicated within brackets. Columns 15 to 19 pertain to the number of electricity supply connections available for domestic, industrial, commercial and road lighting points etc.

The newly added Statement IV-A provides data on civic and other amenities in the notified or recognised slums of towns with a population of above 50,000 (*i.e.* class I and II towns).

Statement V gives information regarding availability of medical, educational, recreational and cultural facilities available in the town. 1981 population figures for each town have also been indicated and this will facilitate in analysing data on facilities available on the people.

Data on medical facilities have been obtained from the district and sub-divisional medical officers and shown under columns 4 and 5. All types of medical institutions whether allopathic, ayurvedic or homoeopathic have been covered and indicated by way of following codes :—

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T. B. Clinic	TB
Nursing Home	NH
Ayurvedic	A
Unani	U
Homoeopathic	Hom
Others	O

In case, more than one institution of any type is available, the exact number is shown within the brackets.

The information on educational amenities (Cols. 6 to 9) is exhibited as :

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only ..	AC
Combined for all categories Arts, Science and Commerce ..	ASC
Law	L

Column 10 pertains to the number of recognised shorthand, typewriting and vocational training institutes (grouped as others) which include applied art/painting college, pharmacy college, B.Ed. college, teacher's training school, music / dancing institute, nursing school, etc. Various codes used for indicating this data are :—

Shorthand	SH
Typewriting	Type
Shorthand and Typewriting ..	Sh. Type
Others	O

Keeping in view the 'Minimum Needs Programme' of the Planning Commission, the information regarding adult literacy classes/centres etc. has also been collected and presented under column 15. Similarly, in view of the spurt in the employment of women in towns, information on number of working women's hostels and seats available therein has been given under column 16. This information would help in formulating plans for opening new hostels in order to meet the housing needs of the single working woman.

Columns 17 to 20 show recreational and cultural facilities available in the town. These include stadia, cinema, auditoria/drama, community halls, public libraries indicated as 'PL' and the reading rooms indicated as 'RR'.

Statement VI presents information regarding trade, commerce, industry and banking services in the town. Columns 3 to 11 indicate three most important commodities imported, exported and manufactured in the town. Information on number of banks available in the town appears under column No. 12. Columns 13 and 14 show number of agricultural and non-agricultural credit societies respectively in each town.

STATEMENT I

Status and Growth History

Serial No.	Class, name and civic administration status of Town	Location Code No.	Name of Tahsil	Area (in km²)	Number of households including Houseless households (in 1981 Census)	Population and growth rate of the town at the censuses of									Density (1981 Census)	Sex Ratio

Note : (1) The Source for the total area figures in respect of the districts is the Surveyor General of India, while that for the total area figures in respect of the tahsil is the State Land Records Department. The total areas, as also the rural areas, for the tahsils in district may not, therefore, strictly add up to the corresponding figures shown against the district.

(2) Name of towns treated as such for the first time in 1981 have been printed in italics.
