DRILLING OPERATIONS IN COAL MINES

The motif presented on the outer title of the Khammam District Census Handbook depicts a scene of "Drilling Operations in Coal Mines" near Kothagudem town (75,542 population) by a team of workers clad in the prescribed mining suits and protective shoes.

Khammam district is endowed with the most varied types of rocks and mineral deposits such as igneous, sedimentary and metamorphic rocks and a rare type of alkaline rock known as nehpeline-syenite found only in the district. As regards mineral wealth, the district abounds in rich coal deposits besides considerable reserves of iron ore, copper ore, lime stone, marble etc. Due to this favourable geological setting Khammam district has been referred to aptly as the "Nature's Geological Museum" of Andhra Pradesh.

Dr. King of the Geological Survey of India discovered coal in the year 1871 near Yellandu and the chief coal seam with superior quality in this area bears his name. The origin to Dr. King's discovery of coal in this part of country is attributed by the villagers to a pilgrim party bound for Bhadrachalam (40 Km. from Kothagudem) the well-known pilgrim centre situated on the banks of the river Godavari, around 1870. The pilgrims are said to have used some 'black rock pieces' strewn nearby at the place of their halt for making 'Chullas' (fire oven) for cooking their food. They were amazed to see the rock pieces burning along with the fire wood and reported the matter to a christian Missionary in Yellandu who found the 'rock pieces' to be coal and passed the information to the Geological Survey of India, which ultimately led to Dr. King's discovery.

The Singareni Collieries Company Limited, deriving its name from a village Singareni (population 3,032) started the mining operations at Yellandu (a taluk Headquarters now) in 1889. Due to depletion of the 'King Seam' reserves at Yellandu, the scene of the mining activities was shifted to Kothagudem in 1937. The mining operation which stood completely suspended at Yellandu between the years 1942 and 1947 were resumed in 1948 to exploit coal reserves of inferior quality at the 'Queen Seam' in the area. Since then, both Kothagudem and Yellandu (population 16,767) are established as the chief coal mining centres of Andhra Pradesh.

There are in all nine leaseholds in Khammam district either under exploitation or under exploration. The area of the coal belt covering seven leasesholds at Yellandu, Kothagudem, Palwancha, Allapalle, Sarvaram, Madhavaram and Singaram villages of the district spreads over 600 sq. miles roughly, with a potential reserve of nearly 400 million tonnes excluding the leasehold at Sarvaram.

The trend of production during the decade 1961 to 71 reveals a gradual increase in the coal out-put of the district. The production rose from 14.5 lakh tonnes in 1960 to nearly 16 lakh tonnes in 1971-72 and then to 18 lakh tonnes in the next year which formed 36% of the total production of the Singareni group of coal mines. At present seven mines – 3 at Kothagudem and 4 at Yellandu are under production.

The Singareni Collieries Company Limited, established in Yellandu gradually improved its working from dim beginnings in 1889 with a production of about 60,000 tonnes to 2,500,000 tonnes by 1960. Today, it is the second largest coal company in the country operating four coal fields situated in Yellandu and Kothagudem of Khammam district, Bellampalle in Adilabad district and Ramagundam in Karimnagar district with an aggregate planned out-put of 6 million tonnes per annum. It is the largest employer in the State employing nearly 38,000 persons. About 12,000 persons are employed in the coal mines of Khammam district.

In tune with the spirit of the times, the Singareni Collieries has been modernising its techniques in collaboration with foreign countries like Hungary and France, especially in deep mining and rescue operations.

It is a happy augury that this famous company will be sustaining an important coal based fertilizer industry proposed to be set up at Kothagudem besides the Kothagudem Thermal Power Station at Palwancha which is the biggest consumer of coal produced in Khammam district. A coal-based fertilizer factory is already in the offing at Ramagundam in Karimnagar district.

Andhra Pradesh which is a predominantly agricultural State will draw fresh blood from these fertilizer factories to enrich its agricultural base. Thus, coal, dearly labelled as the 'Black Diamond' would be benefiting not only the industrial sector but also the agricultural sphere which is still the main stay of the majority of the people of the State.

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of these Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts viz., Part A–Village and Town Directory, Part B–Village and Town Primary Census Abstract and Part C–Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities *etc.*, available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of he 1971 Census Handbooks of all the 21 districts in the State have been finalised already and I expect that before the end of 1974 Parts A and B for all the 21 districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing, *etc.*, required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Sri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part–A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Sri A. Chandra Sekhar, IAS, Registrar General, India and Dr. B. K. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of Khammam District Census Handbook under the guidance and supervision of Sri P. S. R. Avadhany, Deputy Director of Census Operations and Sri K. Narasimha Murthy, Assistant Director of Census Operations of my Office.

Sri P. B. Sunder Raj, Tabulation Officer Smt. P. Lalitha, Tabulation Officer Sri T. Brahmiah, Statistical Assistant	Drafting, Scrutiny and Supervision of Printing.
Kumari B. Tarakeswari Rao, Computor Sri V. Babu Rao, Assistant Compiler Sri S. Ramakrishna, Assistant Compiler Sri P. V. Prabhaker, Assistant Compiler	Compilation
Sri Laxmiah, Junior Reader, GCP. Sri K. Ram Reddy, Junior Reader, GCP.	Proof Reading
Sri A. Venkateswara Rao, Assistant Compiler	Scrutiny and Supervision of Maps Printing
Sri M. N. Ram Mohan, Artist	Supervision of Mapping work

Sri	Syed Ahmad, Senior Draughtsman	Preparation of Maps
"	M. J. Sadiq, Draughtsman	
"	N. G. Swamy, Draughtsman	
"	Moinuddin Hassan, Draughtsman	
"	M. Shankariah, Draughtsman	
"	Md. Yakub Ali, Draughtsman	
"	B. Raghuram, Draughtsman	
Smt.	Daya Saxena, Draughtsman	
Sri	D. Koteshwara Rao, Computor	

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

T. VEDANTAM
Director of Census Operations

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published a District Manual for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. They decided that Volume B should be brought out periodically after each decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after the 1931 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from these District Manuals and Gazetteers, the census data upto village level used to be published in a brochure called "Village Statement" for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbooks for each district in place of Village Statements was first entertained and put forward at the 1951 Census by Sri R. A. Gopalaswamy, I.C.S., the then Registrar General, India and ex-officio Census Commissioner of India as part of a plan intended to secure an effective method of preserving the Census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the Village Statistics of the past Censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, part I containing Administrative Statistics and Part II the Census Tables. In the composite Madras State, the Handbooks were borught out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was significantly enlarged by Sri Ashok Mitra, I.C.S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the Physical features, History, Social, Economic and Demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961 Census Tables viz., General Population Tables, Economic Tables, Cultural and Migration Tables, Special Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of Village and Town Directory which was the most vital part of the Handbook,

giving villagewise and townwise Primary Census Abstract *i.e.* particulars of area, households, population, Scheduled Castes, Scheduled Tribes, literacy, broad categorisation of working population etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine subtables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen etc., were given after Village and Town Directory. A tabular statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful and valuable publications in considerable demand by public as well as the official users of the Census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the last Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important Census data to the planners, administrators and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts viz., Part A, Part B and Part C. Part A contains Village and Town Directory. Part B contains Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later.

A brief outline on the scope of each of these three parts is given below.

Part A : Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory : It is arranged talukwise and gives for each village particulars of amenities available in the matter of educational and medical institutions, power and drinking water supply, post and telegraph facilities, communications, particulars of land use, markets, places of religious, historical or archaeological interest in the village.

Town Directory : The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the Scheduled Castes/Tribes population inhabiting are presented in seven statements. They are given for each town in the district arranged in alphabetical order.

Part B : Village and Town Primary Census Abstract

This part gives for each revenue village and also for each enumerator's block and ward of a town, the Primary Census data *i.e.*, area, occupied residential houses, number of households, total population and its break up by sex, scheduled caste's and scheduled tribe's population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry, fishing, plantations etc., in mining and quarrying, in manufacturing, in construction, in trade and commerce, in transport, storage and communications and in other services and the non-working population as per 1971 Census.

Part C : Administrative Statistics and Report

This part comprises the various administrative statistics pertaining to the district with special reference to the development taken place during 1961-70 in different spheres and also the 1971 Census Tables relating to the General Population, Economic characteristic, Cultural and Migration features, Housing and Establishment tables and data pertaining to the district regarding language and religion. A write up, indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries, Trade and Commerce, Education, Medical and Public Health, Community Development etc., is given at the beginning of this part. In view of the elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban classification of areas

It is customary to classify the population of every country at a Census as Rural and Urban. Such a classification has considerable significance and is neces-

sary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence at the begining of each Census, the criteria for treating a place as a town (*i.e.* Urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the Census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decided them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an Urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census.

1. All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and
2. All other places which satisfied the following criteria:
   - (*a*) a minimum population of 5,000
   - (*b*) a density of population of at least 1,000 persons per sq. mile (400 persons per Sq. Km) and
   - (*c*) at least three fourths (75%) of the male working population is non-agricultural.

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to decide a place as town or village.

The Towns are distributed into six classes as detailed below :—

Classification of Towns	*Population size*
Class I ..	1,00,000 and above
Class II ..	50,000–99,999
Class III ..	20,000–49,999
Class IV ..	10,000–19,999
Class V ..	5,000–9,999
Class VI ..	Below 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.* Urban Agglomeration and Standard Urban Area were newly evolved at the 1971 Census. They are briefly explained below.

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port areas, Military Camps etc. Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowth would deserve to be treated as an integrated urban area. At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomerations replaced the concept of Town-group followed in the 1961 Census. Urban Agglomeration can be constituted in the following situations :

- (*a*) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of the adjoining village or villages,)
- (*b*) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a) and
- (*c*) A city and one or more adjoining towns with their outgrowths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh, the following four places are treated as Urban Agglomerations.

Name of the Urban Agglomeration	*Constituent units in the Urban Agglomeration*
1. Visakhapatnam Urban Agglomeration	(a) Visakhapatnam City (i) Visakhapatnam Municipality. (ii) Gajuvaka (b) Gopalapatnam
2. Rajahmundry Urban Agglomeration	(a) Rajahmundry Municipality (b) Rajahmundry Non-Municipal area

Name of the Urban Agglomeration (1)	*Constituent units in the Urban Agglomeration* (2)
3. Vijayawada Urban Agglomeration	(a) Vijayawada Municipality
	(b) Patamata Town
	(c) Gunadala Town
4. Hyderabad Urban Agglomeration	(*a*) Hyderabad Muncipal Corpration
	(i) Hyderabad Division
	(ii) Secunderabad Division
	(*b*) Secunderabad Cantonment
	(*c*) Malkajgiri
	(*d*) Alwal
	(*e*) Uppal Khalsa
	(*f*) Balanagar
	(*g*) Fatehnagar
	(*h*) Macha Bolaram
	(*i*) Osmania University
	(*j*) Lalaguda
	(*k*) Kukatpally
	(*l*) Moosapet
	(*m*) Bowenpalle
	(*n*) Zamistanpur

The Standard Urban Area (S.U.A.)

The concept of the Standard Urban Areas has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at 1961 Census did not effectively tackle the problems involved in reporting Urban statistic apart from lacking a uniform application throughout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constitutent units whose jurisdictions were subjected to frequent changes and thus lacked in stabilty. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over a time but also lost spatial comparability with similar data processed both within the country and outside. These shortcomings reduced considerably the utility of the town-group concept which was also found somewhat inadequate for the purpose it was developed. To enable the presentation of urban statistics on a uniform basis and also to ensure comparability of the Census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban outgrowth such as the suburbs (industrial and residential), Railway Colonies, civil lines, Cantonments and also such of those villages that are likely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive Censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, the village, the boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed :

(*i*) The core town should have a minimum population of 50,000

(*ii*) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town and

(*iii*) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In Khammam district, Kothagudem town with its surrounding villages is treated as Standard Urban Area. The constitutent limits of this Standard Urban Area given in Section II of the fly leaf.

PART—A

VILLAGE AND TOWN DIRECTORY

SECTION I - Village Directory

SECTION II - Town Directory

SECTION I

VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electricity supply in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides, presenting the data on basic amenities like, educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The Villagewise Primary Census Abstract is presented separately in Part B of this Volume.

In the Village Directory, the revenue village is taken as the lowest unit for presentation of data. The villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory the Village Directory contains only one statement. An alphabetical list of villages with the Location Code Numbers against them is given at the beginning of the Village Directory of each taluk. This facilitates the reader to select the required village from the alphabetical list and after knowing its Location Code Number to obtain the necessary particulars from the Village Directory. The Village Directory is broadly divided in to four broad sections *viz.*, location particulars, basic amenities like education, medical etc., land utilisation and distance from urban area and the importance of the village as a religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the village. The area given under col. 3 is as per the data furnished by the Tahsildar and the State Survey Department. Columns 4 to 9 give the basic amenities available in the village such as the educational, medical, electricity, drinking water, communications, postal facilities.

The educational facilities are shown by the following symbols under column 4.

P : Primary or Elementary School.

M : Middle School.

H : High School or Higher Secondary School.

C : College.

T : Technical Institutions

If there are more institutions than one of a type in the village the number of institutions precedes the abbreviations *e.g.* 3P, 2M, 3H etc.

Medical and Public Health facilities existing in the village are shown by the following symbols under Col. 5.

H : Hospital.

D : Dispensary.

Mcw : Maternity and Child Welfare Centre.

Fpc : Family Planing Centre.

Phc : Primary Health Centre.

If the village is electrified then it is indicated by the letter E under column 6.

The types of drinking water supply sources available within the village are indicated as below :—

T : Tap

W : Well

Tk : Tank

Tw : Tube well

R : River

C : Canal

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, then the communication

facilities of the village under column 8 have been indicated as below :—

PR : Pucca Road
KR : Katcha Road
T : Train
R : River
C : Canal

The postal facilities, if any, existing in the village are indicated under column 9 by the following symbols :

PO : Post Office
TO : Telegraph Office
PTO : Post & Telegraph Office
Phone : Telephone

If a village does not have any of the above facilities then " ... "is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 as given below. If there is variety of grains mainly used in a village then they have been indicated, accordingly.

Ri : Rice
W : Wheat
J : Jowar
B : Bajra (Cumbu, Sajja)
Ra : Ragi
M : Maize

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 the extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells etc., are given wherever available under column 12 while under column 13 the extent of land unirrigated is given. Column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells etc., is given under column 15.

The various types of land use given under each of the 11 to 15 columns are listed out below and the concepts explained subsequently.

1. Forests (Col. 11)

These include all atcually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2. Cultivated area with breakup irrigated & unirrigated. (Cols. 12, and 13).

This includes the land under the following three categories.

(i) *Net Area sown :*

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) *Current fallows :*

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(iii) *Other fallows :*

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3. Culturable waste (Col. 14)

This includes the land under the following three categories.

(i) *Miscellaneous tree crops, groves not included in the area sown.*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under orchards are classed under this category.

(ii) *Culturable waste :*

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shurbs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or *within cultivated holdings.* Land once cultivated but not cultivated for five years in succession is also included in this category.

(iii) *Permanent pastures and other grazing lands :*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

4. Area not available for cultivation (Col. 15).

This includes the land under the following two Categories.

(i) *Barren and uncultivable land:*

This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(ii) *Land put to non-agricultural uses :*

All lands occupied by buildings, roads and railways or under waters, *eg.* rivers and canals and other lands put to uses other than agricultural.

Under column 16 the distance of the village from the nearest town in Kms. is given. The days on which weekly market/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeological tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and Local Bodies concerned and also from the concerned departments like Postal, Medical, Education, Electricity.

Villages classified by population size

Khammam district comprises both Agency tract and plains. Nugur and Bhadrachalam are the two Agency taluks while among the remaining 5 taluks only. Yellandu, Bhoorgampadu, and Kothagudem have notified villages. There are, in all, 1,226 villages in this district. Among these, 1,100 villages are inhabited and 126 villages are uninhabited. The Agency tract contains 563 villages (468 inhabited and 95 uninhabited) and one urban unit *viz.*, Bhadrachalam town, while the remaining villages *viz.*, 663 (632 inhabited and 31 uninhabited) constitute the rural portion of plains of the district.

705 villages or about 62% of the total inhabited villages have a population of less than 1,000 persons each. 210 villages or about 19% of the total inhabited villages belong to the population size of 1,000-1,999 persons each while 162 villages or about 15% of the total inhabited villages fall under the population range of 2,000–4,999 persons each. There are only 20 villages with a population of 5,000–9,999 and 3 villages with 10,000 persons or more each. Villages with a population of less than 500 persons each constituted nearly 46% of the total inhabited villages in this district. A large number of these are concentrated in the two Agency taluks of Bhadrachalam and Nugur. In Khammam, Yellandu, Kothagudem and Madhira taluks nearly 50% or more of the villages lie in population range of 1,000–4,999 persons each.

The talukwise distribution of villages by size class of population is given below :—

STATEMENT 1

VILLAGES CLASSIFIED BY POPULATION SIZE

Sl. No.	Name of the Taluk	Total	Number of villages by population size						
			Less than 200	200–499	500–999	1000–1,999	2,000–4,999	5,000–9,999	1,0000 and above.

	Total.	**1,100**	**252**	**258**	**195**	**210**	**162**	**20**	**3**

VILLAGES CLASSIFIED BY AREA

152 villages or 12% of the total villages including the uninhabited villages in the district have an area of less than 200 acres each. 180 or 15% of the total villages have an area ranging from 201 to 500 acres each. 207 or 17% of the total villages have an area between 501-1,000 acres each. 244 villages or about 20% and 289 villages or about 23.6% of the total villages including the uninhabited villages in the district belong to area ranges of 1,001 to 2,000 acres and 2,001 to 5,000 acres each respectively. Only 150 villages have an area of more than 5,000 acres each. A relatively higher proportion of villages are in the area range of 2,001 to 5,000 acres each in the district and it is generally so in the taluks except in the two Agency taluks of Nugur, Bhadrachalam and Bhoorgampadu taluk. The area particulars in respect of 4 villages in Bhadrachalam are not available. The talukwise distribution of villages by size class of area is shown in the following statement.

STATEMENT 2

VILLAGES CLASSIFIED BY GEOGRAPHICAL AREA

EDUCATIONAL FACILITIES

An idea of the extent and the level to which educational facilities have been provided in the rural areas of the district can be had from the table given below The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links.

STATEMENT 3

EDUCATIONAL FACILITIES

Sl. No.	Distance from nearest town in Kms.	Total No. of inhabited villages.	NUMBER OF MEDICAL INSTITUTIONS				
			Primary schools	Middle schools	High/Higher Secondary schools	Colleges	Othres
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1.	5 or less	31	27	5	4	..	..
2.	6-10	52	43	4	9	..	..
3.	11-15	73	65	4	7	..	..
4.	16-25	206	163	22	28	..	..
5.	26-50	381	288	31	39	..	..
6.	51-100	286	141	7	5	..	..
7.	101-200	70	26	..	..	..	..
8.	U. S.	1	..	..	..	..	..
	Total	**1,100**	**753**	**73**	**92**	..	..

Out of 1,100 inhabited villages in the district Primary Schools exist in 753 or 68.5% of the total inhabited villages. 347 villages constituting 31.5% of the total inhabited villages do not have even primary school facilities. 73 villages or 6.6% of the total inhabited villages have Middle or Upper Primary Schools while 92 villages or 8.11% of the total inhabited villages have High or Higher Secondary Schools. There are no Colleges in the rural areas of this district.

MEDICAL AND PUBLIC HEALTH FACILITIES

Expansion in the medical facilities particularly in rural areas has been emphasised from time to time by providing additional facilities in the development plans. An idea of the extent to which these facilities are now available in rural parts of the district, can be had from the following table.

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Sl. No.	Name of the taluk	Number of Medical Institutions		
		Hospitals	Dispensaries	Others (Phc. Fpc., Mcw.)
(1)	(2)	(3)	(4)	(5)
1.	Khammam	1	20	9
2.	Yellandu	1	8	2
3.	Bhoorgampadu	1	8	6
4.	Nugur I.S.T.	2	1	5
5.	Bhadrachalam	2	10	5
6.	Kothagudem	..	3	3
7.	Madhira	2	2	5
	Total	**9**	**52**	**35**

There are 96 medical institutions of various type in the rural parts of the district. These institutions include 9 hospitals distributed over all the taluks except Kothagudem taluk, 52 dispensaries and 35 other medical institutions such as Primary Health Centres, Family Planning Clinics and Maternity Child Welfare Centres. The rural parts of Khammam taluk have good medical facilities compared to other taluks in the district. On an average there is not even one medical institution for every 100 Sq. Kms. rural area in the district.

ELECTRIFICATION

The distribution of electrified villages including the uninhabited, by the distance to the nearest town is given in the table below, so as to have an idea as to how far the rural areas remote to the urban centres are provided with electricity.

STATEMENT – 5.

NUMBER OF VILLAGES HAVING ELECTRICITY

Sl. No.	Distance from the nearest town in Km.	Total No. of Villages.	No. of villages when electricity supply is available
(1)	(2)	(3)	(4)
1.	5 or less	31	16
2.	6-10	57	22
3.	11-15	75	21
4.	16-25	217	47
5.	26-50	408	54
6.	51-100	329	7
7.	101-200	105	..
8.	Unspecified	4	..
	Total	**1226**	**167**

Out of 1,226 villages in the district only 167 villages constituting 13.6% are electrified. This proportion is rather very low compared to that in other districts of the State particularly when good power potentialities are available in the district. It may be noticed also that a higher proportion of villages near about urban areas are electrified. The talukwise distribution of these 167 electrified villages and the percentage of electrified villages to the total villages in each taluk are given in the table below :

STATEMENT 6

DISTRIBUTION OF ELECTRIFIED VILLAGES BY TALUKS

Sl. No.	Name of the Taluk	No. of villages		Percentage of villages electrified to total No. of villages
		Total	Electrified	
(1)	(2)	(3)	(4)	(5)
1.	Khammam	162	69	42.6
2.	Yellandu	102	14	13.7
3.	Bhoorgampadu	107	13	12.1
4.	Nugur IST	207	13	6.3
5.	Bhadrachalam	356	8	2.2
6.	Kothagudem	118	8	6.8
7.	Madhira	174	42	24.1
	Total	**1,226**	**167**	**13.6**

Khammam Taluk has a relatively higher proportion of electrified villages which constitute 43% of the total villages in the taluk. Madhira taluk comes next in the order with 24.1% of the villages electrified. In Bhadrachalam taluk only 2% of the villages are electrified. The proportion of villages electrified in Nugur I.S.T. and Kothagudem taluk is also low.

COMMUNICATION FACILITIES

Good road transport and communication facilities are essential for the economic development of a district. 360 villages or 29.4% of the total villges, including the uninhabited, are connected by Pucca roads while 586 or 47.8% villages are connected by Katcha road only. Rail transport facilities are available in 18 villages or about 1.5% of the total villages. 280 villages or nearly 24% of the total villages in the district are not connected either by Pucca road or Katcha road.

A table showing the distribution of villages by the type of Communication facility available is given below.

STATEMENT 7

COMMUNICATION FACILITIES

Sl. No.	Distance from the nearest town in Kms.	Total No. of villages	Number of villages connected by						
			Pucca road	Katcha road	Pucca road & River	Katcha road & River	Pucca road & train	Katcha road & train	Others
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
1.	5 or less.	31	13	10	..	..	2	..	8
2.	6–10	57	31	18	..	..	2	1	8
3.	11–15	75	28	31	..	..	2	..	16
4.	16–25	217	76	101	2	..	4	..	40
5.	26–50	408	120	191	3	4	6	1	97
6.	51–100	329	62	180	..	30	..	..	87
7.	101–200	105	30	54	..	5	..	..	21
8.	Unspecified	4	..	1	..	..	..	..	3
	Total	**1,226**	**360**	**586**	**5**	**39**	**16**	**2**	**280**

Postal Facilities

The following statement indicates the total number of villages having post offices, telegraph offices and telephone facilities available in the rural parts of the different taluks in the district.

STATEMENT 8

Postal and Telegraphic Facilities

Sl. No.	Name of the taluk	Total inhabited villages	Number of Villages having				
			Post Offices	Telegraph Offices	Others		No. of Post Offices per 100 Sq.Km.
					Post & Telegraph Offices	Phones	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1.	Khammam	158	105	..	1	1	6.0
2.	Yellandu	98	38	1	..	..	1.1
3.	Bhoorgampadu	98	32	1	..	1	1.6
4.	Nugur I.S.T.	147	13	2	..	2	0.8
5.	Bhadrachalam	321	28	2	..	..	1.2
6.	Kothagudem	109	22	..	..	..	0.8
7.	Madhira	169	75	1	..	..	4.0
	Total	**1,100**	**313**	**7**	**1**	**4**	**2.0**

Among the 1,100 inhabited villages in this district 313 villages have post offices, 8 villages have telegraph facility and 4 villages have telephones in the rural areas of the district. For every 100 Sq. Km. rural area in the district there are about 2 post offices the proportion of villages having post offices is higher in Khammam and Madhira taluks while it is low in all the remaining 5 taluks and more particularly so in the Agency tracts of Nugur and Bhadrachalam taluks where both the proportion and the number of post offices per 100 Sq. Kms. area are very low.

Cultivated Land

A statement showing the average cultivated land and the average cultivable waste per village classified by the distance to the nearest town is given below.

STATEMENT 9

Percentage of Average Cultivable Waste to Average Cultivated Land Per Village

Sl. No.	Distance from the nearest town in Kms.	No. of villages	Total cultivated land (acres)	Average cultivated land per village (acres)	Total cultivable waste (acres)	Average cultivable waste per village (acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1.	5 or less	31	51,334	1,656	14,594	471	28.4
2.	6–10	57	87,529	1,536	21,523	378	24.6
3.	11–15	75	117,803	1,571	33,811	451	28.7
4.	16–25	217	290,570	1,339	96,202	443	33.1
5.	26–50	408	426,987	1,049	144,897	356	33.9
6.	51–100	329	116,440	355	73,270	223	62.8
7.	101–200	105	17,978	175	9,816	95	54.3
8.	Unspecified	4*	..	..	..	..	..
	Total	**1,226**	**1,108,641**	**907**	**394.113**	**323**	**35.6**

N. B. * :— The area particulars for four villages are not available. Hence these four villages are not included among the total villages in arriving the averages in the Statement.

On an average the area under cultivation is 907 acres per village while the extent of cultivable waste is 323 acres. In other words there is cultivable waste in each village equivalent to 35.5% of the cultivated land which could be brought under the plough, perhaps, with some efforts. The talukwise particulars are given below to have a comparative idea of the different taluks in the district.

STATEMENT – 10

PERCENTAGE OF AVERAGE CULTIVABLE WASTE TO AVERAGE CULTIVATED LAND PER VILLAGE BY TALUKS

Sl. No.	Name of the taluk	Total Number of Villages	Total cultivated land (Acs.)	Average cultivated land per village (Acs.)	Total cultivable waste (Acs.)	Average cultivable waste per village (Acs.)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1.	Khammam	162	264,255	1,631	63,065	389	23.9
2.	Yellandu	102	225,530	2,211	31,968	313	14.2
3.	Bhoorgampadu	107	98,954	925	41,028	383	41.4
4.	Nugur I.S.T.	207	34,453	167	15,393	75	44.9
5.	Bhadrachalam	356	71,269	201	88,010	249	123.9
6.	Kothagudem	118	131,655	1,116	76,650	650	58.2
7.	Madhira	174	282,525	1,624	77,999	448	27.6
	Total	**1,226**	**1,108,641**	**907**	**394,113**	**323**	**35.6**

N. B :— The area particulars for four villages (one village in Nugur taluk and 3 villages in Bhadrachalam taluk) are not available. Hence these four villages are not taken into account in calculating the averages.

The average cultivated land per village is more in Yellandu and Khammam taluks while it is less in the Agency tracts of Nugur and Bhadrachalam taluks. The proportion of average cultivable waste to the cultivated land in each village is more in Bhadrachalam and Kothagudem taluks with 123.9% and 58.2% respectively while it is less in Yellandu and Khammam taluks the respective percentages being 14.2% and 23.9%.

The several particulars furnished in the Village Directory reveal that:

(*i*) Minimum education facilities are not available in 31.5% of the inhabited villages in the district:

(*ii*) there is not even one medical institution for every 100 Sq. Kms in rural area;

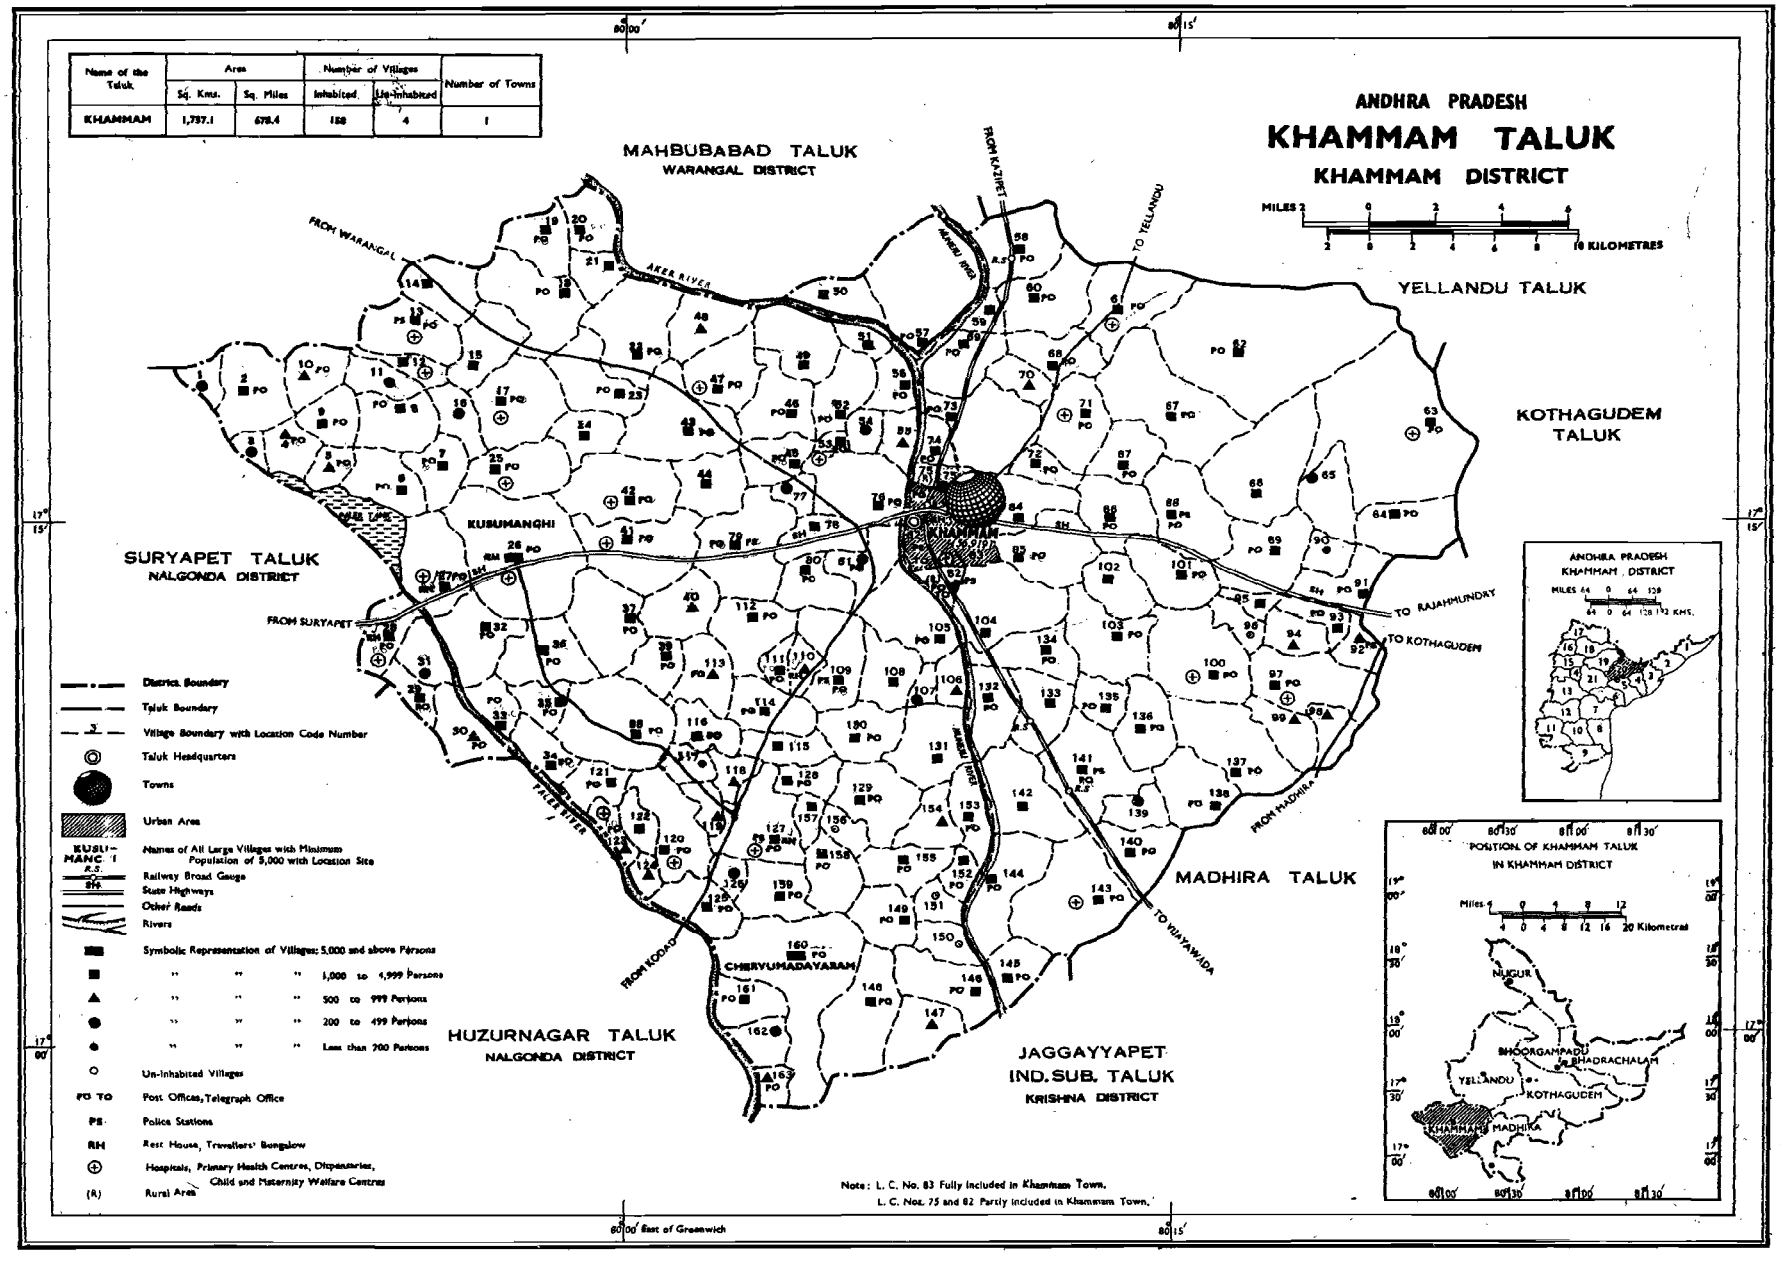

(*iii*) electricity is available in only 13.6% of the total villages in the district, inspite of the fact that there are good power potentialities in the district;

(*iv*) Pucca road facility is available in 29.4% of the total villages only and

(*v*) an extent equivalent to about 35.6% of the cultivated land is left uncultivated in each village.

These factors indicate that further development in these fields is necessary in the rural parts of the Khammam district.

SECTION II

TOWN DIRECTORY

In the Town Directory the towns in the district are arranged alphabetically and the several particulars reating to them are given in the following seven statements.

Statement I	Status, Growth History and Functional Category of Towns
Statement II	Physical Aspects and Location of Towns
Statement III	Civic Finance
Statement IV	Civic and other Amenities in Towns
Statement V	Medical, Educational, Recreational and Cultural Facilities in Towns
Statement VI	Trade, Commerce, Industry and Banking Facilities
Statement VII	Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The following six places have been treated as towns in Khammam district at the 1971 Census.

1. Khammam
2. Yellandu
3. Bhadrachalam
4. Kothagudem
5. Palwancha
6. Madhira

Of these 6 towns, Palwancha is the only place which is classified as a town for the first time in the 1971 Census. Yellandu which is the taluk headquarters of Yellandu taluk was classified as a town as early as 1901. The other towns *viz.*, Khammam, Kothagudem, Madhira and Bhadrachalam have been classified as towns from 1911, 1941, 1951 and 1961 respectively. None of the towns of 1961 Census has been declassified at the 1971 Census. The number of urban units in the district from Census to Census corresponding to the present jurisdictions of the district is given below :

Census Year	*No. of Towns*
1901	1
1911	2
1921	2
1931	4
1941	8
1951	8
1961	5
1971	6

The decrease in the number of urban units in the decade 1951–61 is mainly due to the application of a more rigid definition of a town in 1961. None of the towns in this district has been treated as Urban Agglomeration while Kothagudem town with some of its surrounding villages as detailed below is treated as a Standard Urban Area in the district.

Standard Urban Area	*Component Units*	
	Urban	*Rural*
(1)	(2)	(3)
1. Kothagudem	1. Kothagudem	1. Chatakonda
	2. Palwancha	2. Chunchupalle
		3. Sripuram (Sujathanagar)

The total urban area in the district is only 157.47 Sq. Kms. constituting 0.99% of the total geographical area of the district. The urban population of the district living in the 6 towns is 186,108 persons constituting 13.6% of the total population of the district. The corresponding proportion of urban population in 1961 was 12.1%. Khammam town, the district headquarters has a population of 56,919 persons and is the second largest town from the point of population, while Kothagudem, the coal mining and industrial town is the largest town with a population of 75,542 persons. Kothagudem and Khammam are the two towns in the district falling under Class II towns with a population ranging between 50,000 and 99,999 persons each. Palwancha which is newly classified as a town during the 1971 Census is a Class III town with a population ranging from

20,000 to 49,999 persons. Yellandu, a taluk headquarters and Bhadrachalam town, a taluk headquarters and a reputed pilgrim centre come next in the order and are Class IV towns with a population ranging between 10,000 and 19,999 persons. The remaining one town *viz.*, Madhira is the next in order and is a class V town with a population ranging between 5,000 to 9,999. The smallest urban unit in this district is Madhira with a population of 7,936 persons only. There are no class I towns in this district. The largest town in the district according to area is Kothagudem with 127.60 Sq. Kms. while Madhira is the smallest unit with an area of 2.59 Sq. Kms. only.

Statement I—Status, Growth History and Functional Category of Towns

In this statement the civic status of each of the towns determined at 1971 Census with their population since 1901 or from the Census in which it was treated as urban for the first time are presented, thereby indicating the pace at which the population is increasing from Census to Census. The functional characteristics of these towns determined on the proportion of working population returned in 1961 and 1971 Censuses under each industrial category are also shown in the statement. This could give an idea of how the economic pattern of the town has changed from 1961 to 1971. The civic status of the town *i.e.*, whether the town is a Municipality or Panchayat is indicated under column 5, by an abbreviated letter like 'M' for Municipality and 'P' for Panchayat. Out of the 6 urban units in the district, Khammam is the only Municipality, while four towns *i.e.*, Bhadrachalam, Madhira, Palwancha and Yellandu are Panchayats. Kothagudem being a colliery town had no civic administration of its own. The Singareni Coal Mining Company Limited is looking after the civic needs of the mining township. Only recently after the 1971 Census, it was declared as a notified area. The population of the towns recorded at each Census from 1901 or from the Census at which it was treated as town or urban unit is given under cols. 6–13. In cols. 14 and 15 the functional characteristics of each town *i.e.*, whether the town is an industrial town or a service town or a trade and commerce town, etc., as decided at 1961 and 1971 are given. Excepting Yellandu all the towns in this district have a steady growth in their population. There has been an unusual growth in the population of Kothagudem town from 9,669 persons in 1941 to 50,195 persons in 1951. This is due to the fact that several new parts of coal works opened near the town with a consequent expansion of existing offices and establishment of new administrative offices besides expansion of the limits of the town. Several administrative, Government offices are also located there. Apart from increased mining activity near the town, the prospects of quick industrialisation of the town have attracted workers from surrounding villages and towns particularly from Yellandu where the population is declining. As a contrast to Kothagudem, Yellandu town, as already pointed out, has been showing signs of decadence due to closing of coal pits and opening of new pits elsewhere. Its population has been continuously decreasing from 1921 but slightly recovered at 1971 Census.

FUNCTIONAL CATEGORY

By the very nature of urban development the towns are bound to serve a variety of purposes. In order to see to what extent the functions are diversified or the predominant characteristic is accentuated, a scheme of statistical classification was evolved at the 1961 Census. Accordingly each town was classified broadly under the following categories *viz.*,

(i) *Primary Activity* — Agriculture, Mining and Fishing (Census Industrial Categories I, II, and III of 1961 Census and Categories I, II, III and IV of 1971 Census)

(ii) *Industrial* — Industry including Construction (Census Industrial Categories V and VI of 1961 Census and Categories V (a), V (b) and VI of 1971 Census)

(iii) *Commercial* :—Trade and Commerce (Census Industrial Category VII of 1961 and 1971 Censuses)

(iv) *Transport* — Transport (Census Industrial Category VIII of 1961 and 1971 Censuses), and

(v) *Services* — Other Services (Census Industrial Category IX of 1961 and 1971 Censuses).

The predominant functional character of a city/town is determined on the basis of the following principles.

(*a*) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above five characteristics then the city/town was designated by that characteristic.

(*b*) If the proportion is not more than 40% in any one of the characteristics, then the next predominant characteristic was taken into account and if the first two predominant characteristics combined together have a proportion of over 60%, then the town was designated as having the two characteristics and was termed as Industrial-*cum*-Services or Industrial-*cum*-Commercial, etc.

(*c*) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial-*cum*-Commercial-*cum*-Services or Industrial-*cum*-Services-*cum*-Primary Activity, etc.

Based on the above criteria the six towns in this district fall under the following classification.

Name of Town	Functional Category	
	1961	1971
(1)	(2)	(3)
1. Bhadrachalam	Services	Services-*cum*-Industry-*cum*-Trade & Commerce
2. Khmmam	Services	Services-*cum*-Trade & Commerce-*cum*-Industry
3. Kothagudem	Primary Activities	Primary Activities
4. Madhira	Services-*cum*-Primary Activities	Primary Activities-*cum*-Services-*cum*-Trade & Commerce
5. Palwancha	..	Primary Activities-*cum*-Services
6. Yellandu	Primary Activities-*cum*-Services	Primary Activities-*cum*-Trade & Commerce-*cum*-Services

The functional classification of Palwancha town is not given in 1961 as it was not a town in 1961.

Statement II—Physical Aspects and Location of Towns

This statement deals with physical aspects and location of towns in the district. There are 13 columns in the statement. Under columns 3 to 5 in the statement, data relating to average annual rainfall and the maximum and minimum temperatures recorded in 1969 are given. If this information was not available for any town then the particulars available for the nearest town have been given against such town.

Under column 6 the name of the nearest city with population of a lakh or more and the distance therefrom are given. Under columns 7 to 9 the name of the State Headquarters, the District Headquarters, Revenue Divisional Headquarters and the Taluk Headquarters together with the distance therefrom are given. Under columns 10 and 11 the nearest railway station and the bus stand and the distance therefrom are given. If navigation and sea port facilities are available within easy reach of the town they are also given under columns 12 and 13.

This district being a hilly area the climate in the district is very hot during summers and cold during winters. Comparatively the summers at Yellandu town are not so severe as in other towns. Bhadrachalam is one of the hottest places in the State. In general, the maximum temperature in the district ranges from 44.4°C to 49.8°C while the minimum temperature ranges from 10°C to 23.7°C. The lowest minimum temperature was recorded in Bhadrachalam in 1969 and the highest maximum temperature in Madhira town. The average rainfall in the towns ranges from 491.7 mm in Madhira town to 1,147.7 mm in Bhadrachalam town. Most of the rainfall is from the South-West Monsoon. The high rainfall in Bhadrachalam may be due to the large forest areas around Bhadrachalam. The average rainfall in Madhira and Yellandu is inadequate to meet the needs of agriculture.

All the towns are taluk headquarters except Palwancha which is at a distance of 10 Kms. from its taluk headquarters, Kothagudem. Three towns are locaetd at a distance of less than 50 Kms., one town is at a distance of less than 100 Kms., but more than 50 Kms. and the remaining two towns are at a distance of more than 100 Kms. from the district headquarters. Among the 6 towns in the district one town is located at a distance of less than 200 Kms, three towns at a distance of less than 300 Kms., but more than 200Kms. and two at a distance of more than 300 Kms. from the State headquarters. Khammam town which is the district headquarters is located at a distance of 191 Kms. from the State headquarters, Hyderabad.

Two of the taluks of the district *viz.*, Nugur and Bhadrachalam are entirely Agency tracts. Road transport in these tracts needs special attention. However, all the towns are connected with roads and the buses ply frequently on these roads. The road bridge on the river Godavari built recently at Bhadrachalam has provided the facility of road traffic to the pilgrim centre Bhadrachalam. Besides, the district is also served by the South Central Railway. The Madras-Delhi line passes through the district connecting Madhira and Khammam and two branch lines are radiating from Dornakal to Yellandu and Kothagudem. The other two towns Bhadrachalam and Palwancha are at a distance of 29 Kms. and 10 Kms. distance from the nearest railway station.

None of the six towns in this district is in the vicinity of any sea port or navigable rivers except

Bhadrachalam where the river Godavari provides navigation facilities for cargo and passenger movement.

Statement III—Civic Finance

Since the introduction of the democratic decentralisation the popular institutions like Panchayats have an important role in the various developmental programmes. The effective run of these institutions would depend naturally on the financial soundness or otherwise of these institutions. The receipts from various sources of these Municipalities and Panchayats are presented under cols. 3 to 8 and their total under col. 9. The broad items of expenditure are given under cols. 10–15 with their total under column 16. In respect of all the towns in the district the total receipts exceed the total expenditure which is an encouraging feature of these popular bodies. The civic administration of Kothagudem town was being looked after by the Singareni Collieries Company Limited till recently. It was declared a notified area after 1971 Census.

Statement IV—Civic and Other Amenities in Towns

The various amenities available to the citizens in towns are given in this statement under 16 columns. The amenities include internal road facilities, nature of drainage system existing, protected water supply, availability of fire fighting services, and electrification particulars relating to domestic, industrial and commercial spheres and road lighting services.

The particulars furnished under column 8 indicate the extent to which human labour is engaged still in the removal of night soil by means of head load and it will be helpful to the Government in taking effective steps to replace human labour by mechanical contrivances.

The facility of either the water borne or service latrines are reported to be available in all the towns except Palwancha town. The bucket system seems to be the chief practice of removing the night soil but in Yellandu the wheel barrow system prevails.

The civic administration in all the towns of the district maintains roads. Kothagudem stands first in this respect with 101.37 Kms. of internal roads. Among the 6 towns in this district Bhadrachalam, Khammam and Kothagudem have open surface drains besides sewerage system. Madhira and Yellandu have only open surface drains. Palwancha has neither of these two types of drains. Protected water supply which is the primary responsibility of the civic administration of the town is available only in Bhadrachalam, Khammam and Yellandu towns. Fire fighting service facility is available in Khammam and Kothagudem only. Power supply is available in all the six towns.

Statement V—Medical, Educational, Recreational and Cultural Facilities in towns

Medical, Educational, Recreational and Cultural facilities available in the towns are given in this statement under 17 columns.

Medical Facilities

The types of medical institutions available and their number in brackets for each category are shown under col. 3 and the number of beds available in each category is given under col. 4.

The following abbreviations are used under column 3 to show the type of medical facilities available in the town.

H	: Hospital
D	: Dispensary
MCW	: Maternity and Child Welfare Centre
FPC	: Family Planning Centre
NH	: Nursing Home
TBC	: T.B. Clinic

All the 6 towns in the district together have 58 medical institutions which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, Family Planning Centres, Nursing Homes, and T.B Clinics etc. The total bed strength available in all the 58 institutions is 561 to cater to the needs of the entire urban population of 186,108 persons in the district. Thus, there are about 3 beds for every 100 urban population in the district. Kothagudem and Khammam towns have better medical facilities compared to other towns with a bed strength of 278 and 180 respectively.

Educational Facilities

Particulars of various academic and professional institutions available in the towns are presented under cols. 5 to 13. The following abbreviations are used to indicate the type of educational facility available in the town.

A	: Arts College
AS	: Arts and Science College
AC	: Arts and Commerce College
ASC	: Arts, Science and Commerce College
SH	: Shorthand Institution
TW	: Typewriting Institution

There are only three colleges in all the 6 towns of which one is a combined college imparting instruction in Arts, Science and Commerce and is located at

Khammam. The other two colleges located at Khammam and Kothagudem are imparting instructions in Arts and Science. No Medical and Engineering colleges are located in the district. There is one Government Polytechnic located at Kothagudem. There are 11 type writing and 2 Shorthand institutions in all the 6 towns together.

There are 25 Higher Secondary or Secondary Schools, 19 Junior Secondary or Middle Schools and 45 Primary Schools in the Urban areas of this district. There is one basic training school located at Bhadrachalam and one forest school at Yellandu. The following table shows the number of these institutions per 10,000 urban population in each town.

Name of the town	Number of Schools per 10,000 Population		
	Higher Secondary or Secondary	Middle	Junior Secondary or Primary
(1)	(2)	(3)	(4)
Bhadrachalam .	2.8	..	3.7
Khammam .	1.4	1.4	1.2
Kothagudem .	1.2	1.2	2.9
Madhira .	2.5	1.3	2.5
Palwancha .	0.5	..	3.3
Yellandu .	1.2	0.6	2.4
Total	1.3	1.0	2.4

Regarding the recreational and cultural aspects the position in the urban areas of the district is not quite encouraging as there are only 1 Stadium, 14 Cinema halls, 1 Auditorium and 18 Reading Rooms including Libraries in all the 6 towns together.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement data on trade, commerce, industries and banking facilities available in each town are given under 14 columns. Under columns 3 to 5 the three most important commodities imported into the town are given while under columns 6 to 8 the three most important commodities exported from the town are given. Under columns 9 to 11 the three most important commodities manufactured in the town are given and columns 12 to 14 are devoted to present the banking and co-operative credit facilities available in the town.

The three most important commodities under imports, exports and manufacture were decided in terms of the estimated volume of the commodities transacted and in terms of the value of total output of the commodities concerned respectively in each of the towns and not on the basis of the value. However, the uniqueness of a town which exhibited special characteristics in the spheres of either industry or manufacture or mining, etc., has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the other commodities in sheer terms of the estimated volume of transaction.

Khammam district, in spite of its high industrial potentialities has not developed industrially. It is predominantly an agricultural district. The river Godavari, the biggest of the rivers of the State flows through the district but its waters could not be harnessed for irrigation in the district. Kinnersani, a medium irrigation project in Kothagudem taluk is the only important irrigation project and irrigates about 1,000 acres of land in Kothagudem and Bhoorgampadu taluks. The irrigation facilities in this district are limited and tanks and reservoirs form the chief irrigation sources in this district. Hence, the agriculture in this district is mainly dependent on the monsoon and parts of the district are exposed to famine during the drought years. The chief crops of the district are, paddy, bajra, green gram, groundnut and chillies. Tobacco also is grown in the surroundings of Bhadrachalam, Khammam and Kothagudem towns. As there is a large forest area in this district, forest products like tamarind, honey and other such commodities are available in good quantity and are exported outside the district.

IMPORTS

The principal imports into the district are rice, wheat, sugar, general merchandise, cloth, cement, electrical goods and other machinery tools.

EXPORTS

Khammam district is rich in mineral and forest wealth. The mineral products like coal, the forest products like timber, fire-wood, charcoal, wooden furniture are the important commodities being exported from this district. The chemical products of the Barium Chemicals Ltd., the brass utensils, the agricultural commodities like tobacco, chillies and groundnut oil are also some of the commodities exported from this district.

Khammam district with all its rich reserves of mines and minerals, power potentialities is industrially a backward district. There are only two large scale industries, (1) coal mining operations done by M/s. Singareni Collieries and (2) the Barium Chemicals Ltd., first of its kind in India put up with foreign collaboration. The

rice and oil mills and saw mills mainly located at Kothagudem, Khammam and Yellandu, the engineering and sheet metal industries at Khammam and Kothagudem, bone meal unit and brass metal works in Khammam taluk, aerated water unit at Kothagudem and stone crushing unit at Yellandu are important among the small industries.

A model blacksmithy centre and an industrial centre are also provided at Khammam and Kothagudem respectively to promote the industrial activities in this district.

Banks play an important role in industry, trade and commerce particularly in mobilising the savings of the community and making them available for investment for productive activities. In all, there are 15 banks, 14 agricultural societies, 4 non-agricultural credit societies in all the six towns. In Palwancha there is one bank and an agricultural credit society.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The details of the population as per 1971 Census count by Religion, Scheduled Castes and Scheduled Tribes with sex breakup are given for each of the towns in the district under columns 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement, while other religions for which the persons returned are less than 10% of the total population of a town are grouped together and shown under the category *viz.*, 'Others' in columns 15 and 16. The Scheduled Castes and Scheduled Tribes population in a town are shown under columns 19 to 22. 23,264 persons are reported under Scheduled Castes in urban areas of this district and account for 13.9% of the total Scheduled Castes population in the district while only 3,863 persons are reported under Scheduled Tribes in urban areas constituting 1.9% of the total Scheduled Tribes population in the district.

The particulars presented in the Statements II to VI are based on the data obtained from the Tahsildars and local bodies concerned and also from the concerned departments like Medical, Educational, Electricity etc., while the particulars furnished in the Statements I and VII are based on Census data.

PART - B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census is presented on the following aspects for each Revenue Village in respect of rural areas and for each Ward and each Enumerator's Block of a town in urban areas.

1. Location Code No. and Name of the village/ town and area
2. Total number of Occupied Residential Houses and total number of Households.
3. Total Population and its sex breakup
4. Population of Scheduled Castes and Scheduled Tribes by sex breakup
5. Literate and Educated Persons by sex
6. Total Workers and he breakup of the Workers into nine categories and also the total Non-Workers by sex as shown below

Category	I	Cultivators
Category	II	Agricultural Labourers
Category	III	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied Activities
Category	IV	Mining and Quarrying
Category	V	Manufacturing, Processing, Servicing and Repairs a) Household Industry b) Other than Household Industry
Category	VI	Construction.
Category	VII	Trade and Commerce.
Category	VIII	Transport, Storage and Communications.
Category	IX	Other Services.
Category	X	Non-Workers.

A District Abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluks are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the Ward Number. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word " Rural " has been added in italics and in brackets after the name of he village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an Alphabetical List of Villages together with their Location Code Numbers and a taluk map showing all the villages and towns with their boundaries are given. This Alphabetical List of Villages facilitates the reader in locating the required Village and its Location Code Number and thereafter know the Primary Census Abstract particulars. The taluk map facilitates the location of the required village/ town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in 38 cols. of the Primary Census Abstract relate to all the persons alive at sunrise on 1st April, 1971 and were present within the territory of Khammam district whether they lived in normal residential houses or in institutions such as hospitals, hostels, asylums, boarding houses, hotels etc., or whether they were merely houseless persons like the wondering tribes, tramps, pavement dwellers, or those living in boats etc. They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of Khammam district as on 1st April, 1971, recorded at the Census enumeration is as follows :

	Total	*Rural*	*Urban*
Persons	1,369,892	1,183,784	186,108
Males	700,103	603,590	96,513
Females	669,789	580,194	89,595

The criteria adopted for classifying a place as rural or urban and the concepts of urban Agglomeration and Standard Urban Area have already been explained in the beginning of this volume.

Columns 1 and 2 of the Primary Census Abstract indicate the Location Code Number and Name of the village or town concerned. In respect of towns the Ward/Block/Locality Numbers and the Enumerator's B ck Numbers are indicated under col. 2.

Location code is the method by which every village and town in a taluk in every district of a State is identified. Each district in this state has been given a separate code number, serially numbering the districts in a clock-wise order starting from Srikakulam district and ending with Nalgonda district. Khammam district, in this process, was assigned Location Code No. 20. Within each district the taluks had similarly been allotted location code numbers, the taluk in which the district headquarters lies being allotted Location Code No. 1 and the other taluks are numbered in a clock-wise order. The revenue villages within each taluk were assigned separate serial numbers starting from the north-western corner of the taluk and ending with the south-eastern corner in a serpentine order. All the towns within a district were assigned Location Code Nos. in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk location code numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located was assigned Location Code No. first and then the other towns in the taluk in a clock-wise order. The Location Code Nos. of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under col. 3 the area of each village and town is given in square miles based on the information furnished by the State Central Survey Office, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "NA". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills etc., within the taluk, the are a of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under col. 4 the total number of occupied residential houses in each village and in each ward and enumerator's block of a town are given. These figures include those of partly residential houses also but not of the completely non-residential houses. The total number of households including houseless households and institutional households is given under col. 5.

The total population including houseless and institutional population with sex break up is given under cols. 6 to 8.

Under cols. 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule-I and Schedule-II respectively of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given below.

LIST OF SCHEDULED CASTES AND SCHEDULED TRIBES IN ANDHRA PRADESH

SCHEDULED CASTES

I. Throughout the State

1. Chalavadi
2. Chamar, Mochi or Muchi
3. Madiga
4. Mala

II. Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1. Adi Andhra
2. Adi Dravida
3. Arundhatiya
4. Bariki
5. Bavuri
6. Chachati
7. Chandala
8. Dandasi
9. Dom, Dombara, Paidi or Pano
10. Ghasi, Haddi or Relli Chachandi
11. Godagali

12. Godari
13. Gosangi
14. Jaggali
15. Jambuvulu
16. Madasi Kuruva or Madari Kuruva
17. Mala Dasu
18. Madiga Dasu and Mashteen
19. Matangi
20. Mundala
21. Paky or Moti
22. Pambada or Pambanda
23. Pamidi
24. Panchama or Pariah
25. Relli
26. Samban
27. Sapru
28. Thoti

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1. Anamuk
2. Arya (Mala)
3. Arwa Mala
4. Beda (Budga) Jangam
5. Bindla
6. Byagara
7. Chambhar
8. Dakkal (Dokkalwar)
9. Dhor
10. Ellamalwar (Yellammalawandlu)
11. Holeya
12. Holeya Dasari
13. Kolupulvandlu
14. Mahar
15. Mala Dasari
16. Mala Hannai
17. Mala Jangam
18. Mala Masti
19. Mala Sale (Netakani)
20. Mala Sanyasi
21. Mang
22. Mang Garodi
23. Manne
24. Mashti
25. Mehtar
26. Mitha Ayyalvar
27. Samagara
28. Sindhollu (Chindollu)

SCHEDULED TRIBES

I. Throughout the State

1. Chenchu or Chenchwar
2. Koya or Goud with its sub-sects Rajah or Rasha Koyas, Lingadhari Koyas (ordinary), Kottu Koyas, Bhine Koya and Rajkoya.

II. Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts.

1. Bagata
2. Gadabas
3. Jatapus
4. Kammara
5. Kattunayakan
6. Konda Dhoras
7. Konda Kapus
8. Konda reddis
9. Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tirkiria Kondhs and Yenity Kondhs.
10. Kotia-Bentho Oriya, Bartika, Dhulia or Dulia, Holva, Paiko, Putiya, Sanrona and Sidhopaiko.
11. Kulia
12. Malis
13. Manna Dhora
14. Mukha Dhora or Nooka Dhora
15. Porja (Parangiperja)
16. Reddi Dhoras
17. Rona, Rena
18. Savaras Kapu, Savaras, Maliya Savaras or Khutto Savaras
19. Sugalis (Lambadis)
20. Yenadis
21. Yerukulas

III. In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda.

1. Andh
2. Bhil
3. Gond (including Naikpod and Rajgond)
4. Hill Reddis
5. Kolam (including Mannervarlu)
6. Pardhan
7. Thoti

IV. In the Agency tracts

1. Goudu (Goud)
2. Nayaks
3. Valmiki

The number of literate and educated persons is given under cols. 13 and 14. A person who could both read and write any language with understanding was treated as a literate at the 1971 Census. A person who could merely read but could not write or *vice versa* was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterate. The test for education was that the person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

The details of Workers and Non-Workers are given under cols. 15 to 38. At the 1971 Census the population has been broadly divided into two sections based on the main activity viz., (I) Workers and (II) Non-Workers.

The definitions and concepts adopted in the economic classification of the population at the 1971 Census are explained below :

Worker : A ' Worker ' was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A man or woman who was engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker was not treated as a worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time attended to some household chores or attended a night school etc., he or she was treated basically as a worker for the main activity and categorised accordingly.

A person who was working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference period : The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service, or business. If a person had participated in any such regular work on any one of the days during this reference period and this had been returned as his main activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike etc., was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *e.g.* cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

Cultivator : For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crops, cotton, etc., and other crops such as sugarcane, groundnut, tapioca, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agriculturnl Labourer : A person who worked in another person's land for wages in money, kind or share was regarded as an ' Agricultural Labourer '. He had no risk in the cultivation but he merly worked in another person's land for wages. The labourer had no right of lease or contract on land on which he worked.

Household Industry : For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, dairying, cycle repairing, blacksmithy, tailoring etc., it was ascertained if it was a household industry.

A Household Industry was defined as an industry conducted by the Head of the household himself/herself and/ or mainly by the members of the household at home or within the village in rural areas and only at

home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry. It should have been located within the precincts of the house where the members lived.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor, or barber, musician, dancer, waterman, dhobi, astrologer, etc., or merely trade or business, even if such profession, trade of services were run at home by members of household.

Some times it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. It was, therefore, enquired whether the person who was not working in his own household industry was working in any other Household Industry as an employee.

Other Workers: A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of ' Other Worker's. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all Government servants, municipal employees, teachers, mining workers, political or social workers, building labourers etc. In effect, all types of economic activity not covered by cultivation, agricultural labourer or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as ' Other Worker's.

According to the 1971 Census there were 248,765 residential houses and 266, 749 households in Khammam district compared to 200,165 residential houses and 214,003 households in 1961. Thus there were 1.07 households per residential house at 1971 and 1961.

The total number of persons returned at the 1971 Census enumeration in Khammam District was 1,369,892 as against 1,057,542 in 1961 Census recording an increase of 29.5% over the population of 1961. The proportion of rural and urban population to the total population in the district works out to 86.4% and 13.6% respectively in 1971 Census compared to 87.9% and 12.1% in 1961. There were 957 females for every 1,000 males at the 1971 Census as against 958 females per 1,000 males in 1961 Census.

253,500 persons were reported as literate and educated in 1971 Census compared to 161,074 literate and educated persons in 1961 accounting for 18.5% of total population in 1971 as against 15.2% in 1961. The proportion of literate and educated persons among males was 25.1% while among females it was 11.6%. In the rural areas the percentage of literate and educated persons among the total population was 14.6% while in urban areas, the literates accounted for 43.3%. 562,567 workers were returned in 1971 as against 551,290 workers in 1961 Census, thus showing 41.1% of the total population as workers in 1971 as against 52.1% in 1961. Among males, the workers constituted 58.2% while among females only 23.1% were workers. The decrease in the proportion of working population in 1971 compared to 1961 Census proportion was mainly due to the change in the definition adopted at the present Census.

The number of literates and educated persons and the number of illiterates as per the 1961 and 1971 Censuses are given below.

	Number of literates and educated persons	Number of illiterates	Percentage of literates to total population of district
	(1)	(2)	(3)
1961	161,074	896,468	15.23
1971	253,500	1,116,392	18.50

It is observed that though there has been an increase in the proportion of literate persons to total population in 1971 compared to the population in 1961, the actual number of illiterates increased in 1971 inspite of the increased educational facilities.

The percentage of literates by sex for total, rural and urban areas in 1961 and 1971 in the district are given below:

Percentage of Literates to Total Population in

	1961			1971		
	T	R	U	T	R	U
Persons	15.23	12.21	37.12	18.51	14.60	43.33
Males	22.04	18.13	49.53	25.14	20.54	53.95
Females	8.13	6.07	23.49	11.57	8.43	31.88

The higher proportion of literates in the urban areas is mainly due to the fact that urban areas have more educational facilities and several urban occupations require a minimum level of education so that a larger number of parents try to get their children educated, whereas the rural areas have relatively lesser educational facilities and the predominant rural occupation of Agriculture or Household Industry generally do not require the workers in these fields to be educated. Even boys and girls of school going age are required to work in the fields in the rural areas.

The increase in the proportion of literates during the decade 1961–71 is not significant either for males or females. But the increase in the proportion of female literates in the urban areas during 1961–71 is noteworthy. However, more than 90% of the rural females are still illiterate.

562,567 workers were returned in 1971 as against 551,290 workers in 1961 Census. Thus 41.1% of the total population were workers in 1971 as against 52.1% 1961. The decrease in the number and proportion of working population in 1971 compared to that of 1961 is mainly due to the change in the definition of worker adopted at the 1971 Census. In 1961 even marginal workers who spent most of their time basically as non-workers were treated as workers while in 1971 only those who were engaged for most of the time in productive work were treated as workers. A detailed analysis and comparison with 1961 of work participation rates is given in the chapter on Population in Part C of the District Census Hand Books printed as a separate volume.

The following table gives the percentage distribution of the working population by industrial categories in rural and urban areas and for males and females in Khammam district.

PERCENTAGE OF WORKERS BY CATEGORY TO TOTAL WORKERS

Category		Persons			Males	Females
		Total	*Rural*	*Urban*		
(1)		(2)	(3)	(4)	(5)	(6)
I. Cultivators	..	32.30	35.21	5.17	40.21	11.49
II. Agricultural Labourers	..	41.31	45.06	6.37	28.95	73.83
III. Livestock Forestry, Fishing, Hunting and Plantations Orchards and allied Activities	..	3.43	3.49	2.80	4.33	1.04
IV. Mining and Quarrying	..	2.47	0.87	17.38	3.12	0.76
V (*a*) Household Industry	..	3.72	3.87	2.35	4.61	1.42
(*b*) Other than Household Industry	..	1.81	1.10	8.42	2.36	0.34
VI. Construction	..	2.75	2.19	7.98	3.00	2.08
VII. Trade and Commerce	..	4.08	2.50	18.79	4.57	2.80
VIII. Transport, Storage and Communications	..	1.28	0.58	7.81	1.70	0.16
IX. Other services	..	6.85	5.13	22.93	7.15	6.08
	Total	100.00	100.00	100.00	100.00	100.00

Cultivators and Agricultural labourers in the district constitute more than two thirds of the total workers n the district. Their proportion is as high as 80.27% of the total workers in the rural areas while it is only 11.54% in the urban areas.

Workers in Other Services which includes State and Central Government service, educational services, religious and welfare services, local and business services, personal services etc., constitute the second largest sector in which 6.85% of the total workers are engaged. The proportion of these workers is higher naturally in the urban areas, the proportion being 22.93% as against 5.13% in the rural areas. Trade and commerce take the third place providing employment to 4.08% of the total workers.

Male agricultural workers account for 69.16% of the total male workers in the district while the corresponding proportion for females is 85.32%. Generally a larger number of females than males work as agricultural labourers because several agricultural operations like sowing, weeding, harvesting etc., do not involve heavy manual labour. The female participation rates in other industrial categories are low compared to the corresponding male participation rates.

Scheduled Castes and Scheduled Tribes

167,896 persons returned themselves as Scheduled Castes at the 1971 Census compared to 142,954 persons at the 1961 Census recording an increase of 17.45% over the Scheduled Castes population recorded at the 1961 Census. The Scheduled Castes population of the district in 1971 forms 2.9% of the total Scheduled Castes population of the State or 12.3% of the total population of the district. The proportion of Scheduled Castes population to total population in the district is slightly lower than its corresponding proportion for the State *viz.*, 13.3%. About 86% of the Scheduled Castes population in the district reside in rural parts of the district as they generally are unable to find suitable employment in the urban areas because many of them are illiterate.

201,670 persons returned themselves as Scheduled Tribes at the 1971 Census as against 171,284 persons at the 1961 Census, recording an increase of 17.74% over the Scheduled Tribes population in 1961. The Scheduled Tribes population of the district in 1971 forms 12.17% of the total Scheduled Tribes population of the State or 14.72 of the total population of the district. The proportion of Scheduled Tribes population to the total population of the district is much higher than the corresponding proportion of 3.8% for the State. As in the case of Scheduled Castes population, a large section of Scheduled Tribes population *viz.*, about 98.08% of the total Scheduled Tribes population in the district reside in the rural parts of the district.

Detailed analysis of demographic data at the 1971 Census is given in the write up in Part-C of District Census Hand Book.
