FOREWORD

THE State of Orissa represents 4·9 per cent of the area and 4·02 per cent of the population of India. Nature has been generous in providing the State with untold wealth in minerals, water, fertile land and forests. The rich alluvial soil in the deltaic areas as well as along the river basins, as also most of the uplands, are capable of producing a large variety of crops. The water-shed areas of the major rivers and hill tracts are covered with vast forests of great economic value. The State has roughly half the mineral wealth of India hidden underground awaiting exploitation. Vast quantities of water flow down the rivers which, fortunately for Orissa, are strategically dispersed over the entire State, and, if harnessed properly, will banish the twin spectre of floods and droughts haunting vast areas of culturable lands, and at the same time provide water for irrigating millions of acres in the coastal areas and upland and for generating large quantities of hydro-electric power for use in industry, and also make available hundreds of miles of irrigation-*cum*-navigation waterways for inland transport, and large areas for fish culture, recreation and tourism. These bounties of nature, the variety of picturesque landscapes and the long seacoast have attracted people from different parts of the country so that through the centuries a fine blend of human material and culture has developed. The ancient maritime achievements and the artistic stone edifices of great archaeological value stand out as symbols of the glorious past heritage.

The Census Operations during the past two decades have revealed many interesting statistical details. The Census Report of 1961 embodied in a number of Handbooks, each devoted to one of the 13 districts of the State, contains descriptive and statistical accounts intended to facilitate comprehensive study of conditions obtaining in a district as well as in the smallest village unit within it. I am happy to note that the plan and the scope of the Handbooks have been so designed as to make them useful books of reference.

The narrative account of each district covering geography, political history, population, education, economic activities, industries, agriculture and many other subjects, present a graphic picture of the district. This, along with the latest Census tables, giving the social, economic, cultural and demographic data of the district, give an extensive array of statistical record.

A notable feature is the detailed statistics given in the Village Directory in the Handbook for each district, containing various items of information relating to each one of the 46,466 inhabited villages. They furnish very valuable information, which would provide indispensable material required by research scholars, anthropologists, social workers and people engaged in rural and regional planning.

Another feature of the District Handbooks is that they have been further enriched by inclusion of maps of the districts as well as maps of all the police stations in the district, giving location, boundary and survey and alignment of each village within a police station. Combination of the maps with the informative data will indeed be very useful and is commended as a utility publication of a high order.

I congratulate the Superintendent, Census Operations, Orissa, Shri M. Ahmed, I.A.S., and his colleagues, staff and others who have helped him in producing the Census Reports in the form of Handbooks through remarkable perseverance and zeal. These Census Reports will rank as outstanding works of public utility.

A. N. KHOSLA

Governor of Orissa

PREFACE

AMONG the many gifts of the Census of India, one is the scheme of preparation and publication of the District Census Handbook which was first introduced in 1951. The Registrar General, India recommended to State Governments that the publication of the District Census Handbooks containing the Census data of 1951 for each district of the State be undertaken by them. In response, a number of States in India undertook the printing of the Handbooks relating to their respective districts at their own cost. In Orissa, however, the printing was not undertaken for reasons possibly of financial nature, but the Census Organization completed its task of preparing manuscript volumes of all the 13 districts of the State. Apprehending that the vast amount of labour and energy spent in the preparation of the complete set of Handbooks for the State would go to waste if printing was not undertaken, the Superintendent of Census Operations took resort to the alternative of cyclostyling about 100 copies of the Handbooks of each district, a measure which ultimately turned out to be no less burdensome than printing, in view of the great bulk of the volumes. These sets were distributed to the State Government, the Central Government and to important institutions and organizations. But it was found shortly afterwards that the demand from various sources was too large to be satisfied with the available number of cyclostyled sets. It was a mistake indeed not to have printed the books.

At the commencement of the Census of 1961, the Registrar General, India recommended to all the Chief Secretaries of State Governments in India in his letter No. 27/1/60-R. G., dated the 21st November 1960 that the State Governments take into consideration the great importance of the series of detailed statistics available up to the level of village for purpose of rural and regional planning, and agree to print at their own cost the District Census Handbooks of all the districts. The matter was given full consideration and ultimately the Revenue Department in their memo. No. VC—19/61-13593-R., dated the 13th March 1962 requested the Superintendent of Census Operations, Orissa, to arrange for preparation of the Handbooks and to send the manuscripts to the Orissa Government Press for printing in due course. The compilation of the present Handbook was undertaken by the Census Organization under the circumstances.

The Handbook as now presented is more elaborate than its counterpart in 1951. The main items of its contents were laid down in the scheme of the Registrar General with a view to ensure as far as possible uniformity of subject matter to be embodied in the Handbooks of all the States in India. According to the scheme, the Handbook is divided into 3 parts. Part I contains a Chapter, namely, 'Introducing the District', which is a descriptive account of the district relating to various aspects which a reader might feel inclined to look for before he enters into the vast array of statistics that follow. Subjects, such as, history, physical features, natural calamities, communication, public health, calendar of events and a multitude of others have been dealt with in a brief but comprehensive scale, relevant for a publication of this nature. Part II of the Handbook contains a series of statistical Tables relating to 1961 Census in their great variety and details. Part III contains many official statistics obtained from various Departments of Government. Names of the Departments furnishing the informations are mentioned at the bottom of the text.

A considerable portion of this Handbook could not have been compiled but for the co-operation and assistance of the State Government and the respective Departments. The Departments concerned extended their unfailing co-operation in furnishing whatever notes or informations were required from time to time. I wish to record my appreciation and thanks for all the co-operation thus received from the Departments of the State Government, particularly from the State Gazetteer Section and the Statistical Units of the Directorates of Health, Public Instruction, Agriculture and Food Production as well as from the offices of the Chief Conservator of Forests, the Registrar of Co-operative Societies, the Director of Community Development and Panchayati Raj and the Regional Director of National Savings, Orissa. I am grateful to the Ministry of Defence, Government of India for having permitted the publication of the maps contained in this volume, and to the Registrar General, India for giving an outline of the scheme according to which the Handbook has been prepared and for giving general guidance from time to time.

I am glad to place on record my unstinted appreciation of the zeal and perseverance with which the officers of this organization contributed to the preparation of the Handbook. Many of the facts and figures embodied herein had to be built up with a great amount of diligence from raw materials, some of which were recovered by contact with the lower administrative units and some picked up and

screened from a mass of reports and annual returns lying unchecked with the top-most departmental authorities. This was entrusted to Shri Shivakinkar Das, Tabulation Officer, who completed the task with admirable resourcefulness. The compilation of the Tables in Part II entailed strenuous work on the Central Tabulation Branch of my office, headed by Shri V. Rajeshwar Rao, Deputy Superintendent, who took pains for their systematic collation and presentation. Shri Binoy Charan Mohanti, another Tabulation Officer of the Organization, was useful in examining economic, industrial and some similar aspects of the district. The text of the political history of the district has been contributed by Dr. N. K. Sahu, M. A., Ph. D., a reputed scholar on the history of Orissa. I am thankful to him for taking trouble to provide an authoritative and illuminating account of the district. Finally, I can visualize the amount of strain which will have to be undergone by the officer who may eventually remain in charge of proof reading and printing, when the stage comes. Without the sincere co-operation of all these officers and the staff under them, it would have been hardly possible to present the formidable array of statistics and many other materials of non-census and census origin which fill the pages of this volume within the scheduled time.

INTRODUCING THE DISTRICT

Contains

Notes on Location, Boundaries, Physical Features, History, Area and Population, Housing, Administration, Natural Calamities, Communications, Education, Literacy, Economic Activities, Industries, Agriculture, Irrigation, Animal Husbandry, Public Health, Community Development, Panchayati Raj, Co-operation, National Savings, Places of Interest and Calendar of Important Events from 1857 to 1960.

INTRODUCING THE DISTRICT—KEONJHAR

LOCATION

Keonjhar district located in the northern part of Orissa lies between 21° 1'N and 22° 10'N latitudes and between 85° 11'E and 86° 22'E longitudes. Its boundaries extend in the north to Singhbhum district in Bihar, in the south to Cuttack district, in the west to Dhenkanal and Sundargarh districts and in the east to Mayurbhanj and Balasore districts.

PHYSICAL FEATURES

Plains and table-land

The district has two dissimilar natural regions, approximately bisected by the State Highway from Chaibasa to Jajpur Road passing through the headquarters, Keonjhargarh. To the east of this Highway is a gentle slope from the belt of hills spreading out into the open plain country of Anandapur and a portion of the Sadar subdivision. The river Baitarani flows through this plain country having a number of confluences with its tributaries. It has little jungle and is dotted with a few low isolated hills. It has good cultivation and thick population. To the west of the State Highway is a range of lofty hills stretching extensively from the southern extremity to the northern and extending to Singhbhum district on the one hand and to the adjoining frontiers of Bonai, Pallahara and Dhenkanal on the other. It contains some of the highest peaks of Orissa, namely, Gandhamardhan (3,477 ft), Mankarnacha (3,639 ft), Thakurani (3,003 ft) and Gonasika (3,219 ft). This range of hills serves as the water-shed of the river Baitarani on the north and Brahmani on the south. The water-shed is in the shape of a crescent with tips far apart in the north and the south, and is the home of interesting tribes, namely, Bhuiyas and Juangs. There are some table-lands on the summit of these hills which are fit for pasture and tillage but the slopes have loose stones and boulders with a net work of hill streams running in all directions.

The total forest area of this district is 1,702 square miles and the forests are of the northern tropical moist deciduous type. The important species grown in these forests are sal, asan, bija, canes, kurum, kongra etc. and other forests products, viz. tusser, cocoons, lac etc. The soil for the most part is red soil though in the south there is a small patch of black cotton soil. Among minerals, iron, chromite and manganese are worked in huge quantities.

* Climate and rainfall

The climate of the district is characterized by an oppressive hot summer, high humidities and well distributed rainfall during monsoon months. The year is divided into four seasons. The hot season commences by about the beginning of March when temperatures begin to rise rapidly. May is the hottest month when the mean daily maximum temperature is 41°C (105·8°F) and the mean daily minimum temperature is 26°C (78·8°F) and the heat is oppressive. With the onset of the monsoon early in June, day temperatures drop appreciably and throughout the south-west monsoon season the weather is more pleasant. After the withdrawal of monsoon by the first week of October, both day and night temperatures decrease progressively. December is usually the coldest month of the year when the mean daily minimum temperature is 13°C (55·4°F). In the cold season short spells of cold weather occur sometimes in

* Adapted from the notes of Deputy Director General of Observatories (Climatology and Geophysics), India Meteorological Department, Poona

association with the passage of western disturbances across northern India and the minimum temperature may drop to 7°C (44·6°F).

There are 12 rain recording stations at various places in the district and a meteorological observatory has been recently started. The climatic conditions described herein are mostly based on the records of the meteorological observatories in the adjoining districts as the data available in Keonjhar observatory are meagre.

The average annual rainfall in the district is 1,534·5 mm (60·41″). The northern part of the district gets more rain than the southern part. About 76 per cent of the annual rainfall in the district is received during the south-west monsoon season, July being the rainiest month. Some rain in the form of thunder showers occur during the summer season and in October. The variation in the annual rainfall in the district from year to year is not large. On an average there are 79 rainy days in a year.

Relative humidities are generally high during the south-west monsoon and post-monsoon months. In other months afternoons are comparatively drier. Winds are generally light to moderate with some increase in force in the summer and rainy months. The district is affected by storms and depressions originating from the Bay of Bengal in the monsoon months, when winds increase in force and widespread rain is caused. Thunder storms, mostly in the afternoons, occur in summer and in October.

***Economic minerals**

Among the economic minerals found in the district the important are the iron, manganese, chromite and kaolin. The most important group of deposits of iron ore in India occurs in Singhbhum-Keonjhar-Bonai belt. Out of the 48 Kms strike length of this belt, 14·5 Kms fall in Keonjhar. The deposits form a series of ridges with NNE-SSW strike with a general westerly dip. The proved and probable reserves of iron ore in Keonjhar area is 1,004 million tonnes. Some of the important occurrences of iron ore in the district are at Thakurani ore body, Joda East, Banspani Pahar, Sasangda, east of Mitihurda and south end of Kotamati Buru. Large deposits of high grade iron ore are reported at places in Gandhamardhan hills.

Manganese Ore

The manganese deposits occur in highly folded shales of the iron ore series and in the gently folded sandstones and shales of Kolhan series which over-lie unconformably in the rocks of the iron ore series. Important deposits of manganese in the district are at Nalda, Barbil, Bhadrasahi, Bonai Kora, Joda, Kalimati, Dhubna and Roida. The grade of ore even in individual deposits has a wide range. Only about 30 per cent of the ores of the area contain more than 40 per cent manganese. Some deposits yield small amount of chemical and battery grade ore containing upto 97 per cent of manganese dioxide. Iron oxides are the chief adulterants of the ores.

Chromite

The chromite deposits of Keonjhar occur at Nausahi in an area of about 2·5 Kms long, north to south, covering about 700 acres of land. Preliminary examination shows that the minimum reserves are of the order of 203,000 tonnes.

Kaolin

Fairly good deposits of kaolin are found at several places in Keonjhar. The mineral has been formed due to intense kaolinization of granites. Kaolin is found at several places in a zone extending over 1·5 Km along Keonjhar-Pallahara road at the eastern foot of Chhatrabandha Pahar. The locality is within 3 Kms from Keonjhar town. Reserves are expected to be large. Deposits also occur at other places.

Minor occurrences of white clay, pyrite, talc and steatite are also reported at different areas of the district.

* Adapted from the notes of the Superintending Geologist (Technical Administration), Geological Survey of India, Calcutta.

5

HISTORY

Early history of the territory comprising the present Keonjhar district is not clearly known. This tract must have formed a part of Kalinga under Asoka in the 3rd century B. C. and when Kharavela was ruling over Kalinga it constituted a part of his empire. During the early Christian centuries this region was ruled by the Murundas as known from large number of Kushan coins found in this land. The Kushan coins and imitation Kushan coins have been attributed to the rulers of the Murunda family. The Bhanja ruling family appeared in this region about the 5th century A. D. A small inscription found at Sitabinjhi reveals that a king named Disabhanja was ruling over this tract in the 5th century A. D. The rock painting at Sitabinjhi probably depicts the portrait of king Disabhanja. The history of the Bhanjas of this region remained obscure for a long time and about the 10th century A. D. they appeared in history as rulers of that territory which was then known as Khijjinga Mandala. It comprised the modern district of Mayurbhanj and parts of Keonjhar and Singhbhum districts. The kingdom was divided into two parts, named 'Uttar Khanda' and 'Dakhina Khanda' and very probably Keonjhar region constituted 'Dakhina Khanda'. The Bhanjas ruled over this kingdom from their capital at Khijjinga Kotta. In 1361 A. D. Sultan Firoz Shah of Delhi invaded Orissa through this territory and very probably the township of Khijjinga Kotta was destroyed by him. This led to the shifting of the Bhanja capital to Haripur and it was probably by that time that Keonjhar became a separate dominion under a chief, named Jyoti Bhanja who was the scion of the Bhanjas of Khijjinga Mandala. According to tradition the Bhuyans of Keonjhar stole away the boy Jyoti Bhanja from the ruling family of Mayurbhanj and installed him as their king. It appears that the Bhuyans played an important role in the early history of the Bhanja family of Keonjhar. Jyoti Bhanja had his headquarters at the village named after him as Jyotipur, located on the right bank of the river Baitarani. Later on, he shifted the headquarters to the place which came to be known as Keonjhar. But the successors of Jyoti Bhanja up to the time of Govinda Bhanja who ruled during early part of the 17th century are known to us only by their names. The genealogy of these kings is recorded in the well known drama 'Bhanja Mahodayam' written by Nilakantha. Govinda Bhanja is wrongly associated with the Suryavamsi Gajapati king Purusottam Deva (1467-1497 A. D.). Raja Purusottam, the contemporary of Govinda Bhanja was actually ruling over the Khurda kingdom during the early part of the 17th century. It was Govinda Bhanja who occupied the territory that comprises the present Anandapur subdivision of the district. He was a devotee of Rama and constructed the temple for Rama, Lakshmana and Sita in a village named after him as Bira Govindapur. He was succeeded by his son Sivanarayan Bhanja who ruled up to 1654 and after him his son Laxminarayan Bhanja came to the Gadi. It was during the rule of this king that the source of river Baitarani was discovered and the temple of Baladeva was built in the town of Keonjhar. After Laxminarayan Bhanja, his son Jagannath Bhanja ruled for a short time and after him Raghunath Bhanja ascended the Gadi in 1700 A. D. During his rule a large number of Atharva Vedi Brahmins settled in different parts of Keonjhar. He was succeeded by his son Gopinath Bhanja, during whose time there was a serious family quarrel and the kingdom was divided between two factions one supporting the King and the other supporting the prince Nrushimha Narayan Bhanja his younger son. After his death in 1727 a fratricidal war took place between the elder Dhaneswar Bhanja and his younger brother Nrushimha Narayan. Nrushimha Narayan Bhanja came out successful and ruled till 1764 when he was succeeded by his son Balabhadra Narayan Bhanja. During the rule of Nrusimha Narayan Bhanja, Keonjhar region came under the occupation of the Marhattas, but Balabhadra Narayan joined hands with the ruler of Bamra and challenged the Marhatta authorities. The Marhattas were defeated and repulsed

for sometime, but later on serious quarrel took place between Balabhadra Narayan Bhanja and the ruler of Bamra. In the battle, that took place between these two chiefs the Keonjhar forces occupied the fort of Barakote the then headquarters of Bamra. Balabhadra Narayan interfered in the administration of Pallahara and placed that kingdom under his political influence. He also took possession of a part of Dhenkanal known as Kaliahata. He was succeeded by Janardana Bhanja in 1792. This ruler married the daughter of Munipal, the Raja of Pallahara and after the death of the latter claimed that kingdom as a piece of dowry for his Rani and on the death of the Rani in 1825 he brought Pallahara under his rule. He died in 1831 and was succeeded by Bisweswar Bhanja who ruled up to 1838. The next king was Gadadhar Bhanja during whose rule the Sepoy mutiny, otherwise called the war of independence against the British took place in 1857. Gadadhar Bhanja helped the British Government to suppress the rebellion of the Raja of Podahat. After his death in 1861 the chief Rani Bisnupriya who was a barren tried to set aside the claim of Dhanurjaya Bhanja the son of the younger Rani and supported the claim of Brundaban Bhanja the grandson of the then ruler of Mayurbhanj. When T. E. Ravenshaw, the then Superintendent of Tributary Mahals recognized the claim of Dhanurjaya Bhanja, Bisnupriya took resort to Court of Law but failed to establish the claim of Brundaban. In 1868, the Bhuyans were instigated by the Rani to revolt aginst the Durbar. The revolution was, however, suppressed and the rebel leaders were severely punished. Rani Bisnupriya was allowed to remain at Puri till her death. The second Bhuyan rising took place in 1891 under the veteran leadership of Dharanidhar. It was during this rising that the famous writer Fakir Mohan Senapati who was then the Assistant Dewan of Keonjhar played important role in bringing the rebels to submission. The Bhuyan rebels were, however, leniently treated. The British Government accused the Raja of Keonjhar and made him responsible for the Bhuyan rising. He was deprived of his powers and Keonjhar was placed under the administration of H. Willy, the then Manager of Mayurbhanj. Mr. Madhusudan Das pleaded on behalf of the Raja who was subsequently reinstated on the Gadi. Raja Dhanurjaya Bhanja died in 1905 and was succeeded by his son Gopinath Narayan Bhanja. But he, having a religious bent of mind, abdicated the Gadi after ruling for about a year in order to devote full time to spiritual works. The administration of Keonjhar during 1907—1928 was managed by the Government of Orissa and subsequently in January, 1929 Balabhadra Narayan Bhanja, son of Gopinath Narayan Bhanja came to the Gadi. It was during the rule of this Raja that Keonjhar merged with Orissa on 1st January, 1948 and constituted a district of the State.

AREA AND POPULATION

Area

Keonjhar district extends over an area of 3,216·5 square miles according to the estimate of the local revenue authority. The jurisdiction of the district as well as the district boundaries did not undergo any change during the decade 1951—61. The area of the district according to the Surveyor General of India stands at 3,206 square miles. The difference of 10·5 square miles cannot be reconciled as the Surveyor General does not maintain the records of the administrative units below the district level. The area of the smaller administrative units as obtained from the local revenue authorities have been added and the total area of the district mentioned above has been arrived at. This figure is also adopted for the calculation of density and similar purposes. The divergent methods of survey followed by the Surveyor General, India and the local authorities may account for the difference in the two figures.

Area of the lower units

For administrative convenience the district is divided into three subdivisions and fourteen police stations. The Table A-I of the General Popula-

tion Tables gives the particulars of area, density, villages, towns, houses, households and sexwise population of each of these administrative units. However, the area of the subdivision with the number of police stations contained in each of them is furnished below ;

District/Subdivision	Area in Sq. Miles	Area in Sq. Kms	No. of Police stations
Keonjhar District ...	3,216·5	8,330·7	14
Sadar Subdivision ...	2,065·7	5,350·2	7
Anandapur Subdivision ...	538·7	1,395·2	3
Champua Subdivision ...	612·1	1,585·3	4

Urban and Rural areas

The district had an urban area of 4 square miles in 1951 which has increased to 21·3 square miles in 1961. The increase is due to addition of a new town during the decade. The rural area has correspondingly declined from 3,212 square miles in 1951 to 3,195·2 square miles in 1961 comprised of 2,068 villages. The urban and rural area of each subdivision together with the number of towns and villages are given below :

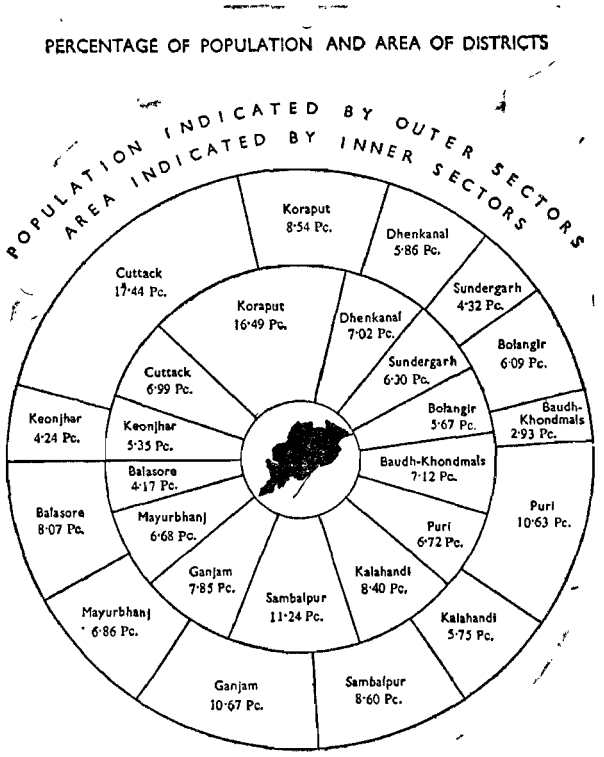

District/Subdivision	Urban Area in Sq. miles	Urban No. of towns	Rural Area in Sq. miles	Rural No. of villages
Keonjhar District	21·3	2	3,195·2	2,068
Sadar Subdivision	4·0	1	2,061·7	1,154
Anandapur Subdivision	...	...	538·7	507
Champua Subdivision ...	17·3	1	594·8	407

Territorial changes

No territorial changes took place in this district during the decade 1951—61. The headquarters of Kuanr police station was shifted to Kanjipani during the decade and it is now called as Kanjipani police station. The headquarters of Jhargaon police station was also shifted to Barbil and has been named as Barbil police station.

Comparison with other districts

Keonjhar district with 5·35 per cent of the State's area and 4·24 per cent of the State's population occupies the 12th place both in respect of population and area among all the districts. The following diagram illustrates the size and population of the district in comparison with other districts.

Town

A town is a continuous group of houses inhabited usually by not less than 5,000 persons which having regard to the character of the population, the relative density of the dwelling, the importance of the place as a centre of trade, administration and human associations, the Census authorities decide to treat as a town for Census purposes. One important test with regard to the character of the population is that there must be a considerable preponderance of inhabitants dependent on non-agricultural professions as means of livelihood.

Barbil has been declared as a town in 1961 Census in accordance with the liberal interpretation of the above definition during 1961 Census bringing the total number of towns in the district to two. The classification of the towns by population in 1961 Census with variation from 1941 is given in Table A-IV of the General Population Tables. However, the two towns with their class sizes are given below :

Class of town	Name of town	Population		
		Persons	Males	Females
Class IV	Barbil	19,340	11,061	8,279
Class IV	Keonjhar	12,624	6,896	5,728

Village

A village means a revenue village or a Mouza other than that which is absorbed within the area of a town or city. It may contain one or many groups of houses or hamlets or on the other hand contain no houses at all. The number of inhabited villages in the district was 1,993 in 1941, which declined to 1982 in 1951 and further declined to 1,973 in 1961. The number of uninhabited villages has increased from 88 in 1951 to 95 in 1961. The percentage of villages classified by the size of population and the percentage of population living in them are furnished in the following statement along with the respective State figures for comparative study:

Villages with population of	Census year	Keonjhar		Orissa	
		Percentage of No. of villages to total No. of villages	Percentage of population to total population	Percentage of No. of villages to total No. of villages	Percentage of population to total population
Less than 500 ...	1951	86·33	62·50	84·00	51·70
	1961	77·80	49·16	77·80	41·66
500—999 ...	1951	11·96	28·15	12·09	28·69
	1961	17·79	32·89	15·78	30·30
1,000—1,999 ...	1951	1·46	6·76	3·41	15·24
	1961	3·80	13·26	5·41	20·24
2,000—4,999 ...	1951	0·25	2·59	0·49	4·25
	1961	0·61	4·69	0·97	7·25
5,000—9,999 ...	1951	...	...	0·01	0·12
	1961	...	...	0·04	0·55

The decline in the percentage of small villages with less than 500 population and the number of persons living therein and the corresponding increase in the medium and big sized villages with population of 500 to 4,999 compares favourably with the respective State figures. The growth of medium and big sized villages with corresponding increase in the percentage of population living in them is an indication of rural development during the decade 1951-61.

Density of Population

The district has a density of 231 persons per square mile which is much below the State density of 292 persons per square mile. In 1951 the district had a density of 183 persons per square mile as against the State figure of 244 persons per square mile. The increase in the density of the district during the decade is commensurate with the growth of population. The rural and urban densities are 223 and 1,501 persons per square mile respectively. Column 4 of Table A-I gives the density of each police station in the district. The density of each police station above or below that of the district as well as that of the State is given below along with the density of 1951 :

Police stations with density below that of the district			Police stations with density above that of the district but below that of the State			Police stations with density above that of the State		
Name of PS	1951	1961	Name of PS	1951	1961	Name of PS	1951	1961

						Baria ...	301	360
						Barbil ...	170	378

Five police stations in the first group have recorded higher density compared with 1951 although they are below the district average of 231 persons per square mile. The density of only one police station viz. Pandapara police station has exceeded the district average but is below that of the State. The remaining eight police stations have high densities during 1961 and exceed that of the State.

Growth of Population

The statement below shows the growth of population of the district from decade to decade :

Year		Population	Percentage of variation
1901	...	285,758	...
1911	...	364,702	+27·6
1921	...	379,496	+4·1
1931	...	460,609	+21·4
1941	...	529,786	+15·0
1951	...	588,441	+11·1
1961	...	743,315	+26·3

The population of Keonjhar in 1901 was 285,758 which grew by 78,944 in 1911. The growth between the years 1911 and 1921 was very small, namely, 14,794, primarily on account of the influenza and other epidemics. Agricultural condition was on the whole prosperous, partly due to rise in price of agricultural produce. The northern-most subdivision, Champua started developing mining and timber industries attracting a considerable number of immigrants. The prosperity of this area was also partly due to the construction of the Amda-Jamda section of the railway line. But in spite of all these improvements, epidemics and other diseases restricted the growth of population to the small figure of 14,794 bringing the total population of the district to 379,496 in 1921.

In the decade 1921—31, the district quickly recovered from the effects of the influenza epidemic and made steady progress in the growth of population. There was a great improvement in the health of the people and the outturn of principal crops was satisfactory throughout the decade. There was, however, a heavy flood in the river Baitarani in 1927 and the health and agriculture of the riparian areas was affected. Cholera and other epidemics were present but were much less severe. There was increase of population particularly in Champua and Sadar subdivisions where the pressure on soil is lighter than in Anandapur subdivision.

During ten years from 1931, there was insufficient rain in the years 1934, 1935 and 1938 when the outturn of crops was poor. In other years the rainfall was quite sufficient and the harvest was plentiful. In 1940 excessive rainfall amounting to 81·46″ as compared with the annual normal of 62·13″ caused heavy flood and damage to crops. In the years 1936 and 1937, there were bumper crops but in 1939 the harvest was exceedingly poor. In other years the condition of crop was satisfactory. Occasional outbreak of cholera and smallpox, particularly in 1936 and 1937 were stamped out by suitable medical measures. Barbil and Champua were faced with scarcity of rice probably due to smuggling of foodgrains to Bihar. In 1938 and 1939, there was draught at the time

when crops needed water and was later followed by high floods due to excessive rains. In the Census of 1941, the district showed a growth of population by 69,177 bringing the total population to 529,786.

During the decade 1941—51, harvest was moderate to the extent of about eight annas in each of the years 1942, 1946, 1947 and 1949. In other years, crop condition was satisfactory and the outturn was better though really a very rich harvest never came any time during the decade. There was deficient rainfall in 1942 and from 1947 to 1950. In other years, it was above normal. Insects damaged the paddy crop considerably in the year 1945. Unequal distribution of rain in 1947 caused high floods in the rivers affecting crops to some extent. Cholera and smallpox broke out in 89 villages in 1947 when the death rate was high.

The Census of 1951, however, showed a moderate increase of 58,655 bringing the total population to 588,441 which is an increase of 11·1 per cent and is considered as satisfactory.

The last decade 1951—61 is a prosperous period when agriculture and industry have advanced considerably. Major part of the district is covered by Community Development Blocks through whose agency multisided development activities have taken place. Number of minor irrigation works were executed. Improved techniques in agriculture were adopted. The mining industry of Barbil was developed. A mining school for training technical personnel was established besides a college at Keonjhar for higher education. Large number of educational institutions were opened for spread of literacy. The road communications were developed extensively for the transport of manganese ores. All these developments have contributed to the material prosperity of the people and the population in 1961 stood at 743,315 with an increase of 26·3 per cent. The increase in the percentage of population of each police station is indicated below ;

10—19·9 per cent			Above 20 per cent		
Name of police station		Percentage	Name of police station		Percentage
Patna	...	14·47	Sadar	...	24·40
Pandapara	...	19·55	Anandapur	...	22·88
Kanjipani	...	16·60	Ramchandrapur		21·00
Soso	...	19·81	Harichandanpur		28·65
Champua	...	17·90	Ghatgaon	...	38·26
Baria	...	19·75	Telkoi	...	36·75
			Chamakpur	...	35·13
			Barbil	...	122·14

None of the police stations in the district has recorded less than 10 per cent growth, the minimum being 14·47 per cent in Patna police station. The rise in the percentage of remaining five police stations in group 1 is above 16 per cent. The high percentage of increase in eight police stations in the second group has contributed to the abnormal growth of population from 588,441 in 1951 to 743,315 in 1961, an increase of 26·3 per cent.

Growth of Urban Population

The statement below shows the growth of urban population from decade to decade :

Year	Persons	Decade variation	Percentage decade variation	Males	Females
1941 ...	9,004	...	...	4,771	4,233
1951 ...	9,343	+339	+3·76	4,853	4,490
1961 ...	31,964	+22,621	+242·12	17,957	14,007

Keonjhar was the only town of this district till 1951. In the present Census Barbil has been taken as a town of the district. The addition of this new town has brought about the phenomenal growth of 242·12 per cent in urban population. The decline in the sex ratio is noticed during the last two decades, ending 1951 and 1961.

Age

In 1951 Census the age Tables were tabulated on 10 per cent sample basis. But a departure has

been made in the present Census by compiling the Tables on full count basis. The sexwise population in the broad age-groups according to 1961 Census is given below :

Age-group		Persons	Percentage of district population	Males	Percentage of district population	Females	Percentage of district population
All ages	...	743,315	100	375,090	50·5	368,225	49·5
0—14	...	312,866	42·1	157,382	21·2	155,484	20·9
15—34	...	244,778	32·9	122,956	16·5	121,822	16·4
35—59	...	151,994	20·5	79,726	10·8	72,268	9·7
60+	...	32,835	4·4	14,559	1·9	18,276	2·5
Age not stated	...	842	0·1	467	0·1	375	N

N=Negligible

Children in the age-group 0—14 constitute 42·1 per cent of the total population while persons in the age-group 15—34 and 35—59 are 53·4 per cent. 4·4 per cent are old persons of above 60 years and a very negligible per cent could not state their age.

Sex

The sex ratio (females per 1,000 males) for the district from decade to decade is given below along with the ratio of the State for comparison :

Year		Keonjhar			Orissa		
		Total	Rural	Urban	Total	Rural	Urban
1901	...	983	983	...	1,037	1,039	967
1911	...	1,004	1,004	...	1,056	1,058	947
1921	...	1,032	1,032	...	1,086	1,089	963
1931	...	1,028	1,028	...	1,067	1,071	924
1941	...	1,011	1,013	887	1,053	1,058	914
1951	...	995	997	925	1,022	1,029	881
1961	...	982	992	780	1,001	1,015	807

From 1901 the sex ratio began growing till 1921 after which the sex ratio showed a downward trend which continued from decade to decade till 1961. The sex ratio for the district and the rural areas is below that of the State in all decades. In the urban area the sex ratio is also below that of the State average except the decade 1941—51 where the urban sex ratio is higher than the corresponding State average.

Marital status

The marital status of all persons in the district according to the broad age-group is furnished in Table C-II of the Cultural Tables. The marital status of 1,000 persons of each sex in General Population compared with previous Censuses of 1951 and 1941 is given below :

Marital status		Males			Females		
		1961	1951	1941	1961	1951	1941
Never married	...	552	533	522	471	439	428
Married	...	418	429	446	418	436	436
Widowed	...	26	38	32	106	125	136
Divorced/ Separated	...	3	NA	NA	3	NA	NA
Unspecified	...	1	NA	NA	2	NA	NA

NA=Not Available

The above figures indicate the rise in the proportion of unmarried persons of both sexes in the decade 1941—51. In the last decade the proportion of unmarried males has negligibly declined whereas in respect of females it has increased. The proportion of married males gradually declined from 1941 to 1961, whereas in case of females the proportion remained constant in 1941 and 1951 after which the proportion has declined in the 1961 Census. The ratio of male widowed persons has increased in 1951 with subsequent fall in the following Census. In case of females the ratio has manifested downward trend compared with the figures of 1941. In the 1961 Census both unmarried males and females constitute the highest proportion. As it is desirable to make a similar comparison of married persons in different age-groups, the distribution of 1,000 persons by age-groups in each sex compared with the previous Censuses of 1951 and 1941 is given below :

	Males			Females		
Age-groups	1961	1951	1941	1961	1951	1941
0—14 ...	5	20	18	14	32	49
15—34 ...	459	422	445	636	609	621
35—54 ...	416	453	432	301	304	290
55 and above ...	119	105	105	48	49	40
Age not stated ...	1	...	...	1	6	...

The decline in the proportion of married persons in the age-group 0—14 indicates gradual disappearance of child marriage. The proportion of females is the highest in the age-group 15—34 in all the decades, whereas, the males constitute the majority in the two decades of 1941 and 1961. In 1951 the largest proportion of males is in the age-group 35—54. The proportion of males in the age-group 55 and above remained constant in 1941 and 1951 after which it increased. The female proportion is found to fluctuate from decade to decade.

Religion

The distribution of population by religion is given in Table C-VII of the Cultural Tables. The distribution of 1,000 persons in all the principal religions of the district from 1941 to 1961 is given below :

	1961	1951	1941
Hindus ...	994	996	997
Muslims ...	4	3	3
Christians ...	1	1	N
Sikhs ...	1	N	N

N=Negligible

The proportion of Hindus is found to decline slightly from decade to decade whereas the proportion of Muslims, Christians and Sikhs has increased to a little extent.

Migration

The movement of population within the district or from one district to another within the State or beyond the State is generally necessitated by economic conditions and social ties. The record of place of birth determines if there has been any migration. The following statement gives the necessary information in terms of absolute figures and percentages :

Birth Place	Persons	Males	Females
Persons born at place of enumeration ...	525,215 (70·7%)	319,972 (85·3%)	205,243 (55·7%)
Persons born elsewhere in the district of enumeration ...	163,657 (22·0%)	32,454 (8·6%)	131,203 (35·6%)
Persons born in other districts of the State ...	34,679 (4·7%)	13,073 (3·5%)	21,606 (5·9%)
Born in other States in India ...	18,741 (2·5%)	8,943 (2·4%)	9,798 (2·7%)
Born in countries outside India ...	637 (0·1%)	427 (0·1%)	210 (0·1%)
Unclassifiable ...	386 (N%)	221 (0·1%)	165 (N%)
Total	743,315	375,090	368,225

N=Negligible

It appears from the above statement that 70·7 per cent of the total population of the district are enumerated at their birth places. 85·3 per cent of the males and 55·7 per cent of the females are born at the place of enumeration which suggests that the female migrants constituting 44·3 per cent out-number their male counter-parts who are only 14·7 per cent. 8·6 per cent of the males and 35·6 per cent of the females are born elsewhere in the district of enumeration, while 3·5 per cent of the males and 5·9 per cent of the females are born in other districts of the State. 2·6 per cent of the males and 2·8 per cent of the females have migrated from outside the State. The predominance of females in majority of categories of migrants indicates that they have moved from one village to another or from one police station to another consequent to their marriage while participation in economic activities may be the secondary aspect. Majority of males appear to have moved out of their birth places for economic reasons.

The influence of migration has considerable effect on the growth of population during the decade. Some of the police stations which have recorded high percentages of growth above 25 per cent are already mentioned earlier. If the percentage of growth is analysed, the extent of migration in each police station could be detected. The analysis for five police stations in the district is given below after excluding the migrants living for more than ten years in order to estimate the percentage of population movement during the decade 1951—61 :

Name of police station	Percentage increase of population 1951—61	Percentage of migrants to total population of police stations who are born			Percentage of rural immigrants to rural population
		Within the same district	Outside the district but within the same State	Outside the State	
Barbil ...	122·14	15·81	2·35	4·04	40·75
Ghatgaon ...	38·26	6·03	0·86	0·55	7·43
Telkoi ...	36·75	9·69	4·68	0·64	15·01
Chamakpur ...	35·13	15·66	1·70	2·61	19·97
Harichandanpur ...	28·65	12·15	0·95	1·91	15·01

The above figures indicate that migrants within the district constitute the highest percentage in all the police stations. Migrants from outside the district are the lowest in Ghatgaon and Harichandanpur police station whereas migrants from outside the State are the lowest in Ghatgaon and Telkoi police stations. Barbil and Chamakpur police stations have high percentage of migrants from outside the State which is due to influx of migrants from Bihar.

Duration of residence usually determines the purpose of migration. The following statement shows the periods of residence of all migrants in the district :

Duration of residence	Born elsewhere in the district of enumeration		Born outside the district but within the State of enumeration		Born outside the State but within the country		Born outside the country	
	Males	Females	Males	Females	Males	Females	Males	Females
Less than 1 year ...	4,974	6,853	2,214	1,381	1,818	1,164	60	18
1—5 years ...	10,526	24,970	4,294	3,853	3,057	2,909	149	76
6—10 years ...	4,404	19,302	1,956	3,583	1,110	1,495	95	44
11—15 years ...	2,882	18,024	1,128	2,740	893	1,231	34	28
16 years and over ...	6,520	56,334	2,911	9,261	1,331	2,611	54	39
Period not stated ...	3,148	5,720	570	788	734	388	35	5

The unclassifiables are omitted from the above figures due to their insignificant number. 15,753 males and 90,268 females have lived for more than a decade and may have to be regarded as semi-permanent or permanent migrants. Out of them 9,402 males and 74,358 females are within the district. 7,565 males and 24,424 females have stayed for periods varying between 6—10 years, of whom the majority in both sexes are within the district. Majority of the males might have migrated for jobs, but the females appear to have moved out consequent to their marriages besides some economic activities. 18,026 males and 31,808 females have resided for periods varying between 1—5 years of whom the majority in both sexes are within the district. It can be reasonably inferred that marriage is the sole reason for female migration. Some of the males might have been born at the parental residence of their mother while the rest might have gone out in search of jobs. Persons who have stayed for less than a year can be deemed as casual migrants.

The classification of migrants into nine industrial categories of workers and non-workers is given below :

	Industrial category	Born elsewhere in the district of enumeration		Born in other districts of the State		Born outside the State	
		Males	Females	Males	Females	Males	Females
I	As Cultivator ...	8,702	42,413	4,196	4,766	1,291	1,233
II	As Agricultural Labourer ...	4,167	9,713	1,323	1,453	253	454
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ...	4,325	3,500	801	555	1,362	1,324
IV	At Household Industry ...	1,434	3,522	488	652	301	124
V	In Manufacturing other than Household Industry ...	123	21	153	5	729	86
VI	In Construction ...	123	84	150	27	147	21
VII	In Trade and Commerce ...	228	140	275	38	528	14
VIII	In Transport, Storage and Communications ...	328	325	192	137	894	375
IX	In Other Services ...	3,917	3,068	2,735	716	2,486	1,174
	NON-WORKERS ...	9,107	68,417	2,760	13,257	952	4,993

Migrants from outside the country are not included as their number is negligible. The participation of the largest number of females is noticed in categories I, II, III, IV, VIII and IX. Female workers in small numbers are found in other categories. The non-working females are the highest among all categories.

The in and out migration figures from some of the selected States are given below along with the figures of emigration from this district wherever they are available :

State/Country	Immigration		Emigration	
	Males	Females	Males	Females
Andhra Pradesh	83	12	...	...
Assam ...	59	173	...	...
Bihar ...	6,590	8,745	926	2,630
Madhya Pradesh	98	42	Not available	
Punjab ...	321	165	...	1
Rajasthan ...	68	67	...	...
Uttar Pradesh ...	969	132	Not available	
West Bengal ...	514	300	Not available	
Outside India :				
Pakistan ...	221	117	Not available	
Nepal ...	184	87	Not available	

This district adjoins Bihar and as such largest number of immigrants in both the sexes have come from this State. The predominance of females may be on account of marriage. A small number of persons in both sexes have also gone out to Bihar while the figures of emigration to other States are not available. As this information is not available from all the States, it is not possible to calculate the net migration of the district.

Scheduled Tribes

A person is said to belong to Scheduled Tribe, if he belongs to any one of the tribes specified in the Scheduled Castes and Scheduled Tribes List (Modification) Order 1956. There is no clear indication of the criterion for specifying Scheduled Tribes, but it appears that the following aspects were taken into consideration, namely, (i) tribal origin, (ii) primitive way of life and habitation in remote and less accessible areas and (iii) general backwardness. 62 tribes are notified as scheduled for this State of whom 37 are found in this district. As the list of tribes changed from Census to Census, the variation of their population from decade to decade is not a pure index of the growth of tribal population. In 1951 Census, there were only 42 tribes in the State. According to the Scheduled Castes and Scheduled Tribes List (Modification) Order 1956, one tribe, namely, Gorait was omitted from the 1951 list and 21 new tribes were added. These new tribes are Bhottada or Dhotada, Bhumia, Bhunjia, Bhumij, Desua-Bhumij, Dharua, Didayi, Gandia, Holva, Kandha Gauda, Kol, Kotia, Lodha, Madia, Matya, Omanatya, Parenga, Pentia, Rajuar, Shabar or Lodha and Sounti. The inclusion of these new tribes has contributed to the increase of the tribal population during the decade 1951—61.

The Scheduled Tribe population of the district has increased from 228,090 in 1951 to 350,389 in 1961. The sex composition and percentage to the total population of the district in both the Censuses are given below :

Census years	Tribal population of the district	Percentage to total population	Males	Females
1951	228,090	38·8	114,907	113,183
1961	350,389	47·1	174,156	176,233

The growth of 53·6 per cent of Scheduled Tribes can be partly attributed to the addition of new tribes in 1961 Census. The sex ratio has increased from 985 females per 1,000 males in 1951 to 1,012 females in 1961.

Sixteen tribes which are numerically important in the district are listed below together with their sexwise population :

Name of Tribe		Persons	Males	Females
Bathudi	...	37,465	19,092	18,373
Bhuiya or Bhuyan	...	52,686	26,478	26,208
Bhumij	...	8,122	3,971	4,151
Gond, Gondo	...	39,232	19,042	20,190
Ho	...	9,044	4,394	4,650
Juang	...	9,768	5,028	4,740
Khond, Kond or Kandha, (including Nanguli Kandha and Sitha Kandha)	...	4,048	2,065	1,983
Kisan	...	2,241	1,088	1,153
Kol	...	46,180	22,970	23,210
Kolha	...	31,715	15,516	16,199
Munda, Munda-Lohara or Munda-Mahalis	...	27,492	14,014	13,478
Mundari	...	6,110	3,081	3,029
Santal	...	27,159	13,601	13,558
Saora, Savar, Saura or Sahara	...	8,410	4,226	4,184
Shabar or Lodha	...	4,281	1,922	2,359
Sounti	...	30,891	14,924	15,967
Total	...	344,844	171,412	173,432

The above sixteen tribes constitute 98 per cent of the total tribal population of the district. Eight tribes namely Bhumij, Kol, Madia, Matya, Parenga, Pentia, Shabar or Lodha and Sounti are the new additions in 1961. A complete list of tribes may be seen in Table SCT-I Part B.

The industrial classification of the tribal population in the district is given below :

	Industrial category.	Males	Females
	WORKERS		
I	As Cultivator ...	68,885	43,158
II	As Agricultufal Labourer ...	18,800	15,993
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities ...	3,770	3,833
IV	At Household Industry ...	2,321	2,579
V	In Manufacturing other than Household Industry ...	320	82
VI	In Construction ...	127	101
VII	In Trade and Commerce ...	137	72
VIII	In Transport, Storage and Communications ...	759	670
IX	In Other Services ...	5,788	4,281
	NON-WORKERS ...	73,249	105,464

Majority of the working population of the tribes are engaged in agricultural occupations, mining, quarrying, etc., household industries and in other services. The industrial classification for each of the tribes is given separately for rural and urban areas in Table SCT-I Part B.

The non-workers constitute 42·0 per cent of the males and 59·8 per cent of the females. Their classification is given below :

	Males	Females
Total non-workers ...	73,249	105,464
Full-time students ...	7,750	3 468
Persons seeking employment for the first time ...	147	4
Persons employed before but now out of employment and seeking work ...	36	...
Others ...	65,316	101,992

Persons seeking employment are negligible while the number of full-time students is very low compared to the total number of non-workers. Majority of non-workers in both sexes appear to be devoted to household duties.

The marital status of the tribal population is furnished below :

Marital Status	Age-groups							
	0—14		15—44		45+		Age not stated	
	Males	Females	Males	Females	Males	Females	Males	Females
Never married ...	75,406	78,917	13,978	10,296	85	62	104	94
Married ...	215	970	62,538	58,111	17,882	14,754	30	19
Widowed ...	1	16	1,118	3,667	2,265	8,652	3	5
Divorced/Separated ...	2	5	275	343	112	86	...	...
Unspecified ...	22	13	58	179	19	40	7	4

Separate information for each of the tribes is given in Table SCT-II Part B. The number of married persons in both the sexes is the highest in age-group 15—44 while the maximum number of widowed persons are found in the age-group 45+. The small number of married persons in the age-group, 0—14 indicates the existence of child marriage in spite of the social reforms to eradicate it completely.

Scheduled Castes

A person is said to belong to a Scheduled Caste, if he belongs to any one of the castes specified in the Scheduled Castes and Scheduled Tribes List (Modification) Order, 1956. 93 castes are notified as scheduled for this State in the said order of whom 34 castes are found in this district. As in the case of Scheduled Tribes, no definite test has been prescribed for the specification of Scheduled Castes. But it appears that originally the prevailing notion of untouchability, though now abolished and forbidden under article 17 of the Constitution was the guiding factor in drawing of the list of untouchables or depressed classes which is more or less equivalent to the present day Scheduled Castes. The castes having professions which

involve the physical handling of dirty and putrefying matter and other so called unclean jobs, such as, skinning and tanning of hides, sweeping of streets, scavenging etc., were grouped under this class of backward population. The objective was to confine the list to the section of population which on account of its traditional position in the society suffered from various religious and social disabilities, such as, prohibition from entry into temples, or drawing water from the village wells or admission of their children into the village schools. It was recognized that the criterion of classification of such backward population should gradually change from religious or social considerations to the degree of backwardness in economic and educational spheres.

As the lists of Scheduled Castes changed from Census to Census, the growth of Scheduled Caste population cannot be strictly compared. There were 92 Scheduled Castes at the time of 1951 Census. By the time 1961 Census took place, the list had been revised by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956. Seven castes, namely, Bhumij, Desua Bhumij, Dharua, Gunju or Ganju, Kumbhar, Pradhan and Sukuli from the 1951 list were omitted, two castes, namely, Mochi or Muchi and Satnami were merged with Chamar and ten castes, namely, Bhoi, Chakali, Chandhaimaru, Gorait or Korait, Kummari, Musahar, Namasudra, Sauntia (Santia), Tanla and Ujia were added to the list. The periodical alteration of the list has rendered difficult the calculation of the growth of population.

The Scheduled Caste population of the district has increased from 90,244 in 1951 to 102,942 in 1961. The sex composition and the percentage to total population of the district in 1951 and 1961 are given below :

Census years	Scheduled Caste population of the district	Percentage to total population	Males	Females
1951	90,244	15·3	41,296	48,948
1961	102,942	13·8	51,163	51,779

Although there is a decline in the percentage of Scheduled Castes to total population in 1961, the Scheduled Caste population has grown by 14·1 per cent during the decade. But the sex ratio has declined from 1,185 females per 1,000 males in 1951 to 1,012 females in 1961.

Twelve castes are numerically important in the district and their names with sexwise population are given below :

Name of Caste	Persons	Males	Females
Bariki ...	839	425	414
Chamar, Mochi, Muchi or Satnami ...	711	419	292
Dhoba or Dhobi ...	13,129	6,357	6,772
Dom, Dombo or Duria Dom ...	3,626	1,829	1,797
Ghasi or Ghasia ...	2,928	1,378	1,550
Gokha ...	869	415	454
Haddi, Hadi or Hari ...	1,725	824	901
Pan or Pano ...	62,913	30,950	31,963
Pantanti ...	3,587	1,731	1,856
Patial, Patikar, Patratanti or Patua ...	6,865	3,868	2,997
Sidhria ...	893	451	442
Tamadia ...	904	494	410
Total	98,989	49,141	49,848

The above twelve castes constitute 96·2 per cent of the total Scheduled Caste population. As the castewise population of the previous Censuses are not available, it is not possible to indicate the increase or decrease of a particular caste during this decade.

The classification of the Scheduled Castes into nine industrial categories of workers and non-workers is given below :

		Males	Females
WORKERS			
I	As Cultivator ...	16,953	6,156
II	As Agricultural Labourer ...	5,045	1,910
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	1,879	1,464
IV	At Household Industry ...	2,410	2,059
V	In Manufacturing other than Household Industry ...	103	8
VI	In Construction ...	92	13
VII	In Trade and Commerce ...	108	91
VIII	In Transport, Storage and Communications ...	214	75
IX	In Other Services ...	2,181	1,428

		Males	Females
UNWHOLESOME ACTIVITIES			
(*i*) Tanning, Currying of hides and skins	...	76	69
(*ii*) Scavenging	...	155	88
NON-WORKERS	...	22,178	38,575

Majority of the Scheduled Castes in both the sexes are engaged in agricultural occupations, mining, quarrying etc. household industries and in other services. The industrial classification of each caste is given in Table SCT-I Part A separately for Rural and Urban areas. Number of persons engaged in unwholesome activities are also shown above.

The non-workers constitute 43·3 per cent of the males and 74·5 per cent of the females. Their classification is given below :

		Males	Females
Total non-workers	...	22,178	38,575
Full-time students	...	4,611	2,235
Persons seeking employment for the first time	...	69	1
Persons employed before but now out of employment and seeking work	...	41	...
Others	...	17,457	36,339

Persons seeking employment are very few while the number of full time students is low compared to the total number of non-workers. Majority of non-workers appear to be engaged in household duties.

The marital status of the Scheduled Castes population by their broad age-groups are shown below :

Marital status		Age-groups							
		0—14		15—44		45+		Age not stated	
		Males	Females	Males	Females	Males	Females	Males	Females
Never Married	...	20,071	17,584	3,696	2,057	59	34	...	...
Married	...	405	746	19,061	23,132	5,851	4,426	...	12
Widowed	...	1	...	1,179	1,783	667	1,865	...	...
Divorced/Separated	...	...	...	124	104	39	26	...	...
Unspecified	...	...	...	4	6	6	4	...	...

The small number of married persons in the age-group 0—14 indicates the existence of child marriage inspite of all efforts to root out the evil. The highest number of married persons is found in the age-group 15—44. Highest number of widowed persons are also seen in this age-group. Details for each individual caste are given in Table SCT-II Part A.

Language

Out of 58 languages spoken in the State as mother-tongue, 29 languages are spoken in the district. The number of speakers of each language, with sexwise break-up is given in the Table C-V of the Cultural Tables. However, the distribution of 1,000 persons by their mother-tongue compared with the population for the State as regards the respective languages is given below :

Language	Keonjhar			Orissa		
	Total	Rural	Urban	Total	Rural	Urban
Bengali ...	11	11	19	7	5	44
Bhuiya/Bhuyan—Oriya ...	5	5	15	N	N	N

Tamil ...	N	N	...	N	N	4
Telugu ...	1	N	7	23	17	99
Urdu ...	5	4	26	12	9	66

N=Negligible

Oriya is the principal language of the district, while the two tribal languages namely Ho and Kol are next in importance according to the proportion of speakers. The number of speakers of Kui and Santali in the district is also quite high. Among the non-tribal languages, Hindi speakers are the largest next to Oriya. The proportion of speakers of other languages is negligible.

HOUSING

Housing Census

For the first time in India, a housing census was conducted during 1960 to take stock of all existing structures, residential and non-residential houses. Various useful informations, such as, roof and wall materials, tenure status, number of rooms per household, number of persons per room, and in case of factories and workshops, some essential data like line of production, number of employees, and kind of fuel or power used were collected during this count. The total number of houses recorded in the housing census in the district is 142,165 of which 3,150 were vacant at the time of house-listing. The following Table indicates the distribution of various types of houses :

Type of Census house	Census houses	
	Number	Percentage to total No. of Census houses
Total number of Census houses ...	142,165	100·00
Census houses vacant at the time of house-listing ...	3,150	2·22
Dwelling ...	124,739	87·74
Shop-*cum*-dwelling ...	692	0·49
Workshop-*cum*-dwelling ...	8,266	5·81
Hotels, sarais, tourist homes and inspection houses ...	402	0·28
Shops excluding eating houses ...	771	0·54
Business houses and offices ...	343	0·24
Factories, workshops and worksheds	179	0·13
Schools, and other educational institutions including training classes, coaching and shop classes ...	746	0·53
Restaurants, sweetmeat shops and eating places ...	52	0·04
Places of entertainment and community gathering (Panchayat Ghar) ...	233	0·16
Public health and medical institutions, hospitals, health centres, doctors' clinics, dispensaries etc. ...	104	0·07
Others ...	2,488	1·75

By far, the majority of houses, as in other parts of the State, is the dwelling house. Workshop-cum-dwellings constitute the second largest group, and the least number is that of restaurants, sweetmeat shops and eating places.

It is recorded that only 52·0 per cent of houses in urban areas are hired out on rent whereas only 48·0 per cent are occupied by their owners. The ratio is reversed in the rural areas, where the percentage of rented houses is as less as only 3·4 per cent, the balance being under occupation of their owners.

Density of dwellings

Out of 124, 739 dwellings in the district, 118,247 are in rural areas and 6,492 in towns. In every 100 square miles of area in the district, we thus come across 3,878 dwellings. The density of dwellings per 100 square miles, for rural and urban areas of the district, are 3,701 and 30,479 respectively.

Materials of walls and roofs

Majority of houses have mud walls and thatched roofs both in rural and urban areas. Walls of mud are found in 75·9 per cent of houses in the rural areas. Such houses also form the highest number in the urban areas. Only 2·8 per cent of total houses in the rural areas have brick walls. In urban areas, the percentage of such houses is higher, being 30·5.

Similarly, roofs made of corrugated iron, zinc or other metal sheets, asbestos sheets, bricks and lime and concrete are rarely seen in rural areas though they are found on about 41·4 per cent of houses in the urban areas. Thatched roofs or those with grass leaves, reeds, wood or bamboo

cover nearly 78·9 per cent of houses in the rural areas. In urban areas, the percentage of houses with such roofs is less being 27·0 per cent of total houses. Among other varieties of roofings, tiles and slate are used in about 16·7 per cent of houses in rural areas. Percentage of such houses is, however, greater in towns, being 31·6.

Number of rooms and persons residing per room

One-roomed houses form the majority in the district and they constitute 39·1 per cent of total houses. The next largest number are two-roomed houses which constitute 32·3 per cent of total houses. The remaining are houses with 3 rooms and more. The number of persons inhabiting a room works out to 2·35 in the rural areas and 2·50 in urban areas. In rural and urban areas, generally 2·35 and 2·50 persons reside per room against the district and State averages of 2·36 and 2·08 persons respectively.

ADMINISTRATION

General administration

A District Magistrate and Collector, usually an officer belonging to the cadre of I. A. S., remains in charge of the general administration of the district. He also looks after civil supplies management, treasury and developmental schemes within the district. He is assisted in his work by an Additional District Magistrate who belongs to Class I of Orissa Administrative Service. Officers from Orissa Administrative Service Class II and Subordinate Administrative Service are in immediate charge of various subjects in the office of the Collector. The sanctioned strength of such officers is 6 and 2 respectively. The district has three subdivisions each of which is in charge of a Subdivisional Officer who belongs to State's Administrative Service. The administrative officers are vested with the powers of a Magistrate of the first, second or third class according to their experience. The subdivisions are divided into a number of police stations which are the lowest administrative units. Separation of judiciary from the executive having been given effect to in this district, trial of criminal cases is now conducted by Judicial Magistrates who are under the administrative control of the District and Sessions Judge, Mayurbhanj-Keonjhar Judgeship. An Additional District Magistrate (Judicial) posted at Baripada in Mayurbhanj district helps the District and Sessions Judge in his work. The Judicial Magistrates are under the control of the High Court of Orissa. The * sanctioned strength of these Executive and Judicial Magistrates in the three subdivisions of the district is as follows :

Subdivisions	Number of Judicial Magistrates	Number of Deputy Collectors and Deputy Magistrates (O. A. S.)	Number of Sub-Deputy Collectors and Sub-Deputy Magistrates (O. S. A. S.)
Keonjhar ...	1	1	3
Champua ...	1	2	2
Anandapur ...	1	2	1

The Revenue Divisional Commissioner, Northern Division at Sambalpur has his jurisdiction over the district.

Police

The police administration of the district is run by a Superintendent of Police, which post is generally held by a member of the Indian Police Service. He is assisted by two Deputy Superintendents. There is an armed police reserve at Keonjhar, the headquarters town, under a Sergeant-Major. There are 14 police stations each of which is under the charge of a senior Sub-Inspector of police who is assisted by other Sub-Inspectors, Assistant Sub-Inspectors and constables. The working of a number of police stations is supervised by a Circle Inspector. The total strength of the police-force in the district in 1960 was 440. On an average, there is one police man for an area of approximately 7·31 square miles and for 1,689 persons. The expenditure incurred on District Police establishment during 1960 was Rs. 5,57,229 which gives a per-

* Government of Orissa, Revenue Department Resolution No. 29459-III ER-75/64 R dated 8-5-64 and letter No. 8200 XXIX-1/63 dated 24-12-1963 from the High Court, Orissa

capita expenditure of Rs. 0.75 paisa. The strength of police-force under various categories during the years 1951, 1956 and 1960 are given in a Table in Part III.

The Deputy Inspector General of Police, stationed at Sambalpur has jurisdiction over this district.

***Crimes and criminal justice**

During the decade 1951—60, the criminal offences reported to the courts in the district were 25,164. On an average 2,516 cases were filed each year. The number of cases reported each year, cases tried, persons acquitted, discharged or committed are given in a Table in Part III. Majority of the crimes committed in the district during this decade was theft, the second highest number being burglary. Of such crimes as dacoity, robbery and murder, the highest number was that of murder and dacoity was rarely reported.

****Judiciary**

The district of Keonjhar forms a part of Mayurbhanj-Keonjhar Judgeship and the District and Sessions Judge statióned at Baripada has his jurisdiction over the district. One Subordinate Judge at Keonjhar and a Munsif at Anandapur are the only two Judicial Officers stationed in the district. The District Judge and the Sub-judge try civil suits of any monetary limit but the powers of a Munsif are limited to Rs. 4,000/-.

Parliamentary and Assembly constituencies

The district has been delimited into one Parliamentary constituency and six Assembly constituencies under the Delimitation of Parliamentary and Assembly Constituencies Order, 1961. The Parliamentary constituency has a general seat but out of the Assembly constituencies, two are reserved for Scheduled Tribes, and one for Scheduled Castes. The last general election for the Parliament were held in the year 1962 and that for the State Assembly in 1961.

*****Treasury**

The District Treasury at Keonjhar has two sub-treasuries under it at Anandapur and Champua. The banking business at the District Treasury are transacted by the State Bank of India. The District Treasury is under the charge of a Treasury Officer who belongs to Orissa Finance Service (Senior Branch) and he functions under the administrative control of the Collector.

Jails

There is a District Jail at Keonjhar. It has two sub-jails at Anandapur and Champua. The capacity of these jails as in December 1962 were as follows :

District Jail	..	211
Champua Sub-jail	..	23
Anandapur Sub-jail	..	18

Sales Tax

Yearwise collections of Sales Tax are shown in a Table in Part III. For assessment and collection of Sales Tax, the District along with Jajpur subdivision of Cuttack District was formed into a circle, in July, 1951. There is a Commercial Tax Officer who belongs to Orissa Finance Service, (Senior Branch) and there are six Assistant Commercial Tax Officers who belong to Orissa Finance Service, (Junior Branch).

Stamps, documents registered and properties transferred

The sale-proceeds from stamps has gone down in the recent years of the decade under report. The income in the various years between 1950-51 and 1960-61 is given in a Table in Part III. The

* Notes on crimes based on Table 6·2 of Quarterly Bulletin of Statistics of Bureau of Economics and Statistics, Orissa for June, 1961

** Letter No. 8200/XXIX—1/36 dated 24-12-1963 from the High Court, Orissa

*** Government of Orissa, Finance Department Notification No. Tr. A-80/62-21466-F., dated 16-5-1962

ghest annual sale of stamps in the decade was Rs. 4,67,119 in the year 1952-53 against the lowest sale of Rs. 89,977 in the year 1955-56.

There are 3 sub-registration offices in the district at Keonjhar, Champua and Anandapur. There are full-time Sub-Registrars in the offices at Keonjhar and Anandapur whereas the work of Champua office is looked after by an officer of the Revenue Department. The Additional District Magistrate, Keonjhar functions as the District Registrar for the district. During the period 1951—60, a total number of 81,889 documents were registered, the value of properties thereby transferred being Rs. 3,18,76,484. The number of registration is generally increasing. The number of documents registered and the value of properties transferred in each of the years during 1951—60 are given in a Table in Part III.

Entertainment Tax

A Table in Part III of this Handbook shows the collections on account of Entertainment tax during 1952-53 to 1960-61. The income upto the end of 1955-56 was negligible. It has gone up subsequently due to the opening of a cinema house at Barbil in 1957.

Motor-spirit Tax

Statistics about income from Motor-spirit Tax are available from 1951-52 onwards and these are given in a Table in Part III. From 1951-52, the income was on increase till 1953-54 but there was a sharp decline during 1954-55. Thereafter the income increased from year to year and the last year of the decade recorded highest collections being Rs. 2,91,040.

Excise Revenue

The Excise administration of the district is under the charge of a Superintendent of Excise, whose headquarters is at Keonjhar. Collection of excise revenue except for the last two years of the decade was between four to five lakhs of rupees. In the year 1960-61 it, however, went up to Rs. 8,24,572. The annual collections given in a Table in Part III will show the details of this revenue during the past decade.

Municipality

There are two towns in the district, namely, Keonjhar and Barbil. Out of them, Keonjhar has a Municipality since 1951. There are 14 councillors for the municipality. There is a chairman at the head of the Municipality. There is also an Executive Officer to discharge the executive functions. The obligatory functions of the Municipality are public health including vaccination, maintenance of public tanks and wells, roads, libraries, street lighting and scavenging. The income of the Municipality mainly accrues from taxes on holdings, carriages etc., lighting and latrine taxes, licence fees, from pounds and municipal properties, Government grants etc.

Land Revenue

The yearwise collections of land revenue are given in a Table in Part-III. The collections up to the end of 1952-53 almost stood at the same level but during the years 1954-55 to 1956-57 the collections fell down considerably. Improvement is, however, noticed in the subsequent years.

***Land Revenue Administration**

The Sub-Divisional Officers are primarily responsible for the revenue administration of their respective subdivisions subject to the general control of the Collector. The Subdivisional Officers are assisted by revenue field staff consisting of Tahasildars and Naib-Tahasildars for realisation of land revenue and cesses. Besides them, the Garnaiks, Daleis and Paiks assist in Supervision of collection of rents and cesses made by their respective village Padhans. They also render co-operation and service in the work of assignment of waste lands in favour of landless persons, mutation of rayati holdings and in other miscella-

* Annual report on Land Revenue Administration for 1959-60 of Collector, Keonjhar

neous work in connection with minor irrigation, local development work, intensive cultivation, grow more food and other developmental activities undertaken by the Gramapanchayats for rural development.

The applicability of the Orissa Tenancy Act has not been extended to this district. The Act, however, is in force in the former Ambo estate area of Balasore district, now integrated with Anandapur subdivision. The present revenue administration, therefore, is based on the rules and circulars, issued during the Keonjhar Durbar Administration which have been extended and enforced under the provisions of Administration of Orissa States Order, 1948.

System of Land Revenue Collection

The system of collection of land revenue and cesses is devoid of uniformity. In Upper Keonjhar comprising Sadar and Champua subdivisions, the system of collection of revenue by Padhans is in force. In the Anandapur subdivision, known as Lower Keonjhar, the collection is made through the Naib-Tahasildars except in the tribal areas of Santospur and Padhiaripalli where the collection is made through Padhans. Besides, in the vast unsurveyed areas of Bhuyan and Juangpirhs, land revenue is collected on the basis of ploughs, houses and families. The Padhani system of collections can be briefly described as follows :

The lowest unit of revenue administration is the village or "Mouza" and its headman, appointed since the last Settlement or his heir as subsequently recognized by the Government is called as Padhan. A group of contiguous villages constitutes what is locally known as "Dandapat". Each Dandapat has a 'Garnaik' whose responsibility is to supervise collection of revenue and its payment to the State Treasury. A Garnaik enjoys rent free service Jagir lands in lieu of the service rendered by him. The village Padhans in conformity with the terms and conditions envisaged in the last Settlement, realise rent and cesses from the tenants of the villages and credit the same into the State Treasury after appropriating for themselves 20 per cent of the collected amount. This Padhani system is in vogue in Upper Keonjhar and in Santospur and Padhiaripalli areas of Lower Keonjhar.

In Bhuyan and Juangpirh area of Sadar subdivision, the headmen of the villages realise rent and cesses, and after deducting three paise per rupee as remuneration, remit the balance through their respective Sardars (counter-part of Garnaik) who in their turn appropriate for themselves 6 paise per rupee and credit the balance as land revenue into the State Treasury.

Estates Abolition

There were three Zamindaries, namely, Kaliahata, Ambo and Dhenka in the district. They have been vested in the State Government since 27-11-52 under the Orissa Estates Abolition Act, 1951. The ex-zamindary areas of Ambo and Dhenka were integrated with Anandapur subdivision, and Kaliahata with the Sadar subdivision.

Survey and Settlement

Survey and Settlement operations in the ex-state area portion of the district were conducted last, during 1914-15.

NATURAL CALAMITIES

1918	The influenza epidemic appeared in this district though it was not so severe as in the coastal districts.
1927	There was heavy flood in the river Baitarani resulting in loss of crops in the riparian areas.
1940	Excessive rainfall to the extent of 81·46″ against the annual normal rainfall of 62·13″ caused heavy flood and damage to crops.
1945	Paddy crops were considerably damaged by insects.
1947	Cholera and smallpox broke out in 89 villages and high death rate occurred.
1954	Severe drought which reduced the yield of crops by one fourth.
1960	High flood in river Baitarani.

COMMUNICATION

Roads

Except for a few Kms of railways in the north-western part of the district which is mainly used for lifting iron ore and other minerals and which is not utilized by passenger traffic, the entire district is without any railway communication. The total road mileage of the district is 1,754 miles and 3 furlongs comprising 58 miles and 2 furlongs of National Highways, 126 miles and 3 furlongs of State Highways, 51 miles and 4 furlongs of district roads, 50 miles of roads maintained by Keonjhar Municipality and 1,468 miles and 2 furlongs of important Revenue roads. The P. W. D. maintains the National Highway, State Highway and the District roads. The Executive Engineer, Mayurbhanj Division looks after the P. W. D. roads in this district also. The Revenue roads are maintained by the local Revenue staff. The density of road mileage in the district is 55 miles per 100 square miles of area against the State density of 36 miles to 100 sq. miles. Though the density is higher, yet the roads do not touch all parts of the district.

Conveyances

275 cars, 32 buses and 974, lorries had been registered in the district by the end of December, 1961. The common mode of conveyance in the rural areas is a bullock cart which is also used in the towns.

The rail-head for the district is Jajpur-Keonjhar road station on Howrah-Madras route of the South Eastern Railways which is at a distance of 71 miles from Keonjhargarh, the district headquarters town. Keonjhargarh is connected with Jajpur-Keonjhar road station by regular daily bus services run by State Transport Organization. The subdivisional headquarters, Champua and Anandpur are also connected by regular bus services with Keonjhargarh. Various other bus services run from Keonjhargarh to different parts of the district and also to places like Rourkela in Sundargarh district and Chakradharpur in Bihar State. A regular daily service connecting Jajpur-Keonjhar road station with Ranchi also passes *via* Anandapur, Keonjhargarh and Champua. During fair weather period, a daily bus service also runs up to Cuttack.

Waterways and ferries

River Baitarani which passes from north in a south-easterly direction is the main river flowing through the district. It is navigable during rainy season for a few miles in Anandapur subdivision. Ferry services are maintained at different places mostly for communication of people of villages on either side of the river, the important among them being the ferry near Anandapur.

*Posts and Telegraphs

The total number of Post offices existing at the end of 1960-61 was 205 and there were 16 Telegraph offices. Their numbers at the end of 1950-51 were only 16 and 2 respectively. The vast expansion could only be possible on account of execution of various Five Year Plan schemes by the Posts and Telegraphs Department during the past decade. Out of the existing Post Offices, 60 offer Savings Bank facilities. There are Telephone exchanges at Barbil and Keonjhar and Public Call offices with extension facilities at Anandapur, Champua and Joda. Barbil has a megnato exchange with 100 lines whereas the exchange at Keonjhar is Central battery operated having 100 lines.

2 police wireless stations are maintained by the State Government at Keonjhargarh and Barbil. These are mainly used for communication of matters relating to law and order problems.

* Based on Letter No. Est.-Plg.-Misc.-I/ch. II, dated 15-7-1963 from Director, Posts and Telegraphs, Orissa

EDUCATION AND LITERACY

Literacy

The total number of literates returned for the district in the Census of 1961 is 131,258 of whom 109,699 are males and 21,559 are females. The percentage of literacy comes to 17·7 comprising 14·8 males and 2·9 females, as against the State average of 17·4 per cent and 4·3 per cent respectively. The percentage of literacy in the district has gone up from 12·1 in 1951 to 17·7 in 1961. Taking the male population as a whole the percentage of literates is 29·2. Similarly among the females the percentage is 5·9. The corresponding figures of 1951 for males and females are 21·4 and 2·7. Of the total literates, 93,706 do not have any educational level, 33,644 have read upto primary or junior basic standard and the rest are either Matriculates or have higher qualifications.

Taking into consideration the fact that persons of the age of 4 years or less have no chance of acquiring literacy, if such persons (of the age-group of 0—4years)are excluded from the total population, the percentage of literacy for the district becomes slightly higher. The following Table compares the percentage worked on this basis for the two Censuses of 1961 and 1951 :

Censuses		Percentage of literacy		
		Persons	Males	Females
1961	...	20·9	17·5	3·4
1951	...	13·8	12·3	1·5

Thus an improvement is noticeable in 1961 to the extent of 7·1 per cent in literacy among the total population above the age-group of 0—4 years. Since children in the age-group 0—4 years do not generally attend any school, it may be more rational to assume the percentage of literacy for the district to be 20·9 comprising 17·5 males and 3·4 females.

Apart from facilities offered for imparting literacy and education in the usual manner, an intensive adult education programme was undertaken in recent years. The scheme ran under the aegis of the Education Department and Community Development Blocks, which are provided with Social Education Organizers to look after adult literacy and allied programmes. The adult literacy centres are mainly run at nights by the primary school teachers or volunteers who get as remuneration a sum of Rs. 5/- per adult made literate during a period of six months. There has been a progressive increase in the number of adult literacy centres from year to year and the total number of such centres existing in 1960-61 were 1,226 out of which 135 were run by Education Department and 1,091 by the Community Development Blocks.

The Table below gives the number of literates and the percentage of literacy in different subdivisions and police stations of the district :

District/Subdivision/Police station		Total number of literates	Percentage of literacy
Keonjhar District	...	131,258	17·7
Sadar Subdivision	...	50,510	14·2
Anandapur Subdivision	...	50,292	25·2
Champua Subdivision	...	30,456	16·3
Sadar PS	...	16,314	16·9
Patna PS	...	14,351	15·6
Ghatgaon PS	...	5,756	13·5
Harichandanpur PS	...	4,717	13·6
Pandapara PS	...	2,844	10·9
Telkoi PS	...	4,947	13·6
Kanjipani PS	...	1,581	5·6
Anandapur PS	...	26,827	24·2
Ramachandrapur PS	...	18,469	29·0
Soso PS	...	4,996	20·0
Champua PS	...	10,489	18·7
Baria PS	...	7,096	16·8
Chamakpur PS	...	4,433	9·5
Barbil PS	...	8,438	19·9

The rate of literacy is the lowest in Sadar subdivision and highest in Anandapur subdivision. Among the police stations the highest standard of literacy is recorded in Ramachandrapur PS (29·0 per cent) and the lowest in Kanjipani PS (5·6 per cent).

Literacy among Scheduled Castes and Scheduled Tribes

The population of Scheduled Castes and Scheduled Tribes covers 13·9 per cent and 47·1 per cent respectively of the total population of the district. The statement below shows the total number of literates found amongst them and the percentage of literacy :

Caste/Tribe	Total S. C./ S. T. Population	Total literates amongst the S. C./S. T.	Percentage of literacy
Scheduled Castes ...	102,942	15,948	15·5
Scheduled Tribes ...	350,389	20,949	6·0

Between the Scheduled Castes and the Scheduled Tribes, the former have a higher rate of literacy. The standard of literacy among the Tribes is far below the district average.

Special facilities have been provided to improve the educational standard of the tribal people by establishing Sevashrams and Ashram Schools. The number of such institutions stood at 59 in the year 1961, which provide free education including free supply of reading and writing materials. For education outside their locality, stipends and lump grants are given to them in High Schools, Middle English Schools and Upper Primary Schools. Materials necessary for reading and writing, such as books, slates, pencils etc., are also supplied free of cost at primary education stage. A list of Sevashrams and Ashram Schools is furnished in Part-III.

Educational Institutions

The district which is an ex-state area being under the ruling princes for a long time did not enjoy the benefits of education to the same extent as many of the other districts of the State had. Immediately before merger, there were only 2 High Schools, 10 M. E. Schools and 133 Primary Schools in the state of Keonjhar. There are now one College, 11 High Schools, 60 M. E. Schools and as many as 852 Primary Schools. Among the professional and special schools there are 3 Elementary Training schools, one school of Mining Engineering, one Sanskrit Tol, 52 Sevashrams and 7 Ashram schools. The details of these educational institutions have been given in different Tables in Part III of this Handbook. The activities under different spheres of education are broadly indicated below.

Primary Education

In the year 1950-51, there were only 178 primary schools. The number increased in the succeeding years to 852 in 1960-61, which included 3 schools specially meant for girls'education. 809 of these primary schools are recognized by the Government. This gives us a primary school in every 3·8 sq. miles of area and one to every 872 persons in the district. The State averages of such area and population being 2·9 square miles and 850 persons, the district is still below the normal standard of education at the primary stage. Though there has been remarkable improvement, the task at the beginning of the decade was so vast, that achievements during the past decade appear to be modest. During First and Second Five Year Plan periods, effective steps were taken through enrolment drive to attract pupils in still greater numbers to the schools by way of providing special facilities, such as, supply of free mid-day meals, grant of various scholarships for merit, merit-cum-poverty, for proficiency in arithmatic (to those who secure more than 90 per cent of marks in arithmetic) and for maintenance of students in hostels. Additional facilities were provided to encourage education of women and those were appointment of school mothers to look after the girl students in schools, introduction of attendance scholarships, free supply of dress for regular attendance in the school and appointment of lady teachers through sympathetic selection methods.

In the rural areas, the Zilla Parishad and Panchayat Samitis are now responsible for mangement of primary education in their respective

Notes on Education based on Government of Orissa, Education Department brochure "Education in Orissa, 1962"

areas. In the Community Development Block areas, the Panchayat Samitis maintain the primary schools, but those in other places are managed by the Zilla Parishad directly. In the towns, where there are Municipalities or Notified area Councils, these institutions are managed by them. The Government grants for primary education are made over to the Zilla parishad and the concerned Municipalities or Notified Area Councils.

The scales of pay of primary school teachers, both under the Government and under non-Government management, have also been revised during 1961. According to qualifications, primary school teachers now get pay in different scales. Upper primary, lower elementary trained or middle English trained teachers get pay in the scale of Rs. 65—85/- and matric trained teachers in the scale of Rs. 100—155/-. In addition they also get usual dearness allowance.

Secondary Education

In the field of secondary education, rapid progress has also been made in the district during the decade. Against only 2 high schools and 15 middle schools existing during 1950-51, the district had by 1960-61 as many as eleven High Schools and 60 Middle Schools.

Out of the 11 high schools, one is a girls' school. Only four of these 11 high schools are Government managed, 2 are aided by the Government and the remaining five are run under private enterprise. Agriculture, as optional subject, is taught in three and Drawing in two of these high schools. For every 292.4 square miles of area and 67, 574 population in the district, we have thus one high school against the State average of one high school to every 164.4 square miles and for 47,948 persons. There is thus scope for further exapansion of education in the field of secondary education. Utkal University conducted the final examinations of the high schools till the annual examination of 1956 and thereafter the Board of Secondary Education, Orissa took over with effect from 1956 supplementary examination. During 1960, 5 out of these 11 high schools sent up students for the High School Certificate Examinations. The number of the students appearing in these examinations and those passing therefrom, between 1956 (supplementary) and 1960 (supplementary) along with the percentages of success, are given in a Table in part III of this publication.

Out of the M. E. schools, three are exclusively meant for girls. Fifty-five M. E. schools out of 60 are recognized by the Government. The examination at the end of M. E. standard was till recently conducted by the concerned District Inspector of schools. It has now been taken over by the Board of Secondary Education, Orissa.

To encourage secondary education, a number of merit and merit-cum-poverty scholarships at Middle and High school stages are now given, both for boys and girls. There are also some special facilities for the girl students. They are not required to pay any school fee upto Class VII. At the high school stage, half fees are charged from those whose guardians pay income tax or agricultural income tax while others continue to enjoy free studentship. Award of attendance scholarship and maintenance stipends is also given.

The scales of pay of secondary school teachers underwent a revision in 1961. They now draw pay in six different scales according to their qualifications. An untrained Matriculate gets pay in the scale of Rs. 80—135/- in Covernment schools and Rs. 80—125/- in non-Government schools and a Trained Graduate teacher draws pay in scale of Rs. 185—325/- and Rs. 175—300/-, respectively in Government and non-Government schools.

College Education

There was no College in 1951. A Science College was opened at Keonjhargarh in the year 1957 which is managed by Government.

Professional and Special Schools

A list of professional and special schools existing in the district is given in a Table in Part III. A

list of Sevashrams and Ashram schools is given in another Table. Among the various categories of professional and special schools, the important institution is the School of Mining Engineering at Keonjhargarh. The school admits Matriculates for a 3 year Diploma Course in Mining Engineering. It was started in the year 1957 and the admission capacity at the end of 1960 was 40. It is managed by the State Government. The Sevashrams and Ashram schools are established in areas predominantly inhabited by the scheduled castes and scheduled Tribes and are special types of institutions

Newspapers, Journals and Printing Presses

Except two magazines issuing from High Schools at Keonjhar and Anandapur, there are no other journals in this district. No newspaper is also published from the district. There are, however, two presses both of which are located at Keonjhargarh. Lists of journals and presses have been given in two different Tables in Part III.

Libraries and Reading rooms

A list of the important libraries and reading rooms existing in the district which receive aid from the Education Department has been given in a Table in Part III of this Handbook.

ECONOMIC ACTIVITIES

The economic classification adopted in 1951 Census has undergone substantial modification to facilitate collection of more comprehensive data in the Census of 1961. The concept of economic dependence and income adopted in 1951 was given up in favour of the new concept of 'work' which is the chief criterion of the 1961 Census. The broad division, of the population into 'workers' and 'non-workers' is the essential feature of the 1961 economic classification scheme. By implication, 'worker' included all persons working as well as the working children irrespective of their earning incomes.

Workers

The working population, according to the above classification has been broadly grouped into nine categories, namely, (I) As Cultivator; (II) As Agricultural Labourer; (III) In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities; (IV) At Household Industry; (V) In Manufacturing other than Household Industry; (VI) In Construction; (VII) In Trade and Commerce; (VIII) In Transport, Storage and Communications; and (IX) In Other Services.

The working population constitutes 45·1 per cent of the total population of the district, comprising 219,780 males and 115,131 females. Their number in each industrial category and for each sex and broad age-group is given in Table B-I of the General Economic Tables. The proportionate distribution of 1,000 persons, males and females for rural and urban areas severally for each category in the district and the State is given below for comparison :

			Keonjhar			Orissa		
			Total	Rural	Urban	Total	Rural	Urban
	Total population	M	1,000	1,000	1,000	1,000	1,000	1,000
		F	1,000	1,000	1,000	1,000	1,000	1,000
	Total workers	M	586	585	603	608	610	572
		F	313	314	268	266	274	131
I	As Cultivator	M	400	417	42	363	387	42
		F	194	201	23	133	140	9
II	As Agricultural Labourer	M	76	78	23	92	98	12
		F	59	60	9	57	60	4

			Keonjhar			Orissa		
			Total	Rural	Urban	Total	Rural	Urban
III	In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	M	24	23	34	11	11	16
		F	18	17	22	4	4	5
IV	At Household Industry	M	24	25	17	33	32	34
		F	18	19	9	28	29	19
V	In Manufacturing other than Household Industry	M	3	N	65	8	2	88
		F	N	N	9	2	1	9
VI	In Construction	M	2	1	9	3	2	25
		F	N	N	1	N	N	2
VII	In Trade and Commerce	M	5	4	33	13	9	68
		F	1	1	3	4	4	11
VIII	In Transport, Storage and Communications	M	5	2	82	6	2	50
		F	3	1	44	N	N	4
IX	In Other Services	M	47	35	298	79	67	237
		F	20	15	148	38	36	68
	Non-workers	M	414	415	397	392	390	428
		F	687	686	732	734	726	869

M=Male F=Female N=Negligible

The predominance of both sexes in categories I and II in rural areas and their correspondingly low figures in urban areas indicate that majority of rural population depends on agricultural occupations. The proportion of workers in category I of both the sexes is above the State average. Also above the State average is category III which has absorbed workers of both sexes in quite good proportion. The higher rate of participation in category III which is above that of the State is due to existence of mining areas in this district.

Primary, Secondary and Tertiary Sectors

The nine industrial categories of workers are grouped into three sectors. Categories I and II representing the agricultural classes together with category III excluding those working in mines and quarries constitute the Primary Sector. As industrial development is next in importance, the categories IV to VI together with those working in mines and quarries of category III and in gas and electricity supply of category IX form the Secondary Sector. All the remaining categories namely, VII, VIII and IX excluding the workers in gas and electricity supply are grouped together as Tertiary Sector. The distribution of 1,000 persons in each of these sectors for rural and urban areas of this district and the State are given below :

		Keonjhar			Orissa		
		Total	Rural	Urban	Total	Rural	Urban
Total population	...	1,000	1,000	1,000	1,000	1,000	1,000
Primary sector	...	375	390	54	328	348	43
Secondary Sector	...	35	32	85	39	34	102
Tertiary Sector	...	41	28	317	70	59	230
Non-workers	...	549	550	544	563	559	625

The concentration of large proportion of workers in the rural areas of Primary Sector and the urban areas of Tertiary Sector is indicative of the agricultural character of rural areas and diversified economic activities of urban areas. The low proportion of workers in the Secondary Sector below the State average signifies the stagnancy of industrial economy.

Sex ratio of workers

The sex ratio (No. of females per 1,000 males) among total workers and in each industrial category of workers is given below for the district and the State :

		Keonjhar			Orissa		
		Total	Rural	Urban	Total	Rural	Urban
	Total workers	524	533	346	438	456	185
I	As Cultivator	477	478	431	367	368	179
II	As Agricultural Labourer	761	768	308	619	622	296
III	In Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	727	745	486	375	391	242
IV	At Household Industry	734	744	428	858	890	444
V	In Manufacturing other than Household Industry	111	113	110	181	469	79
VI	In Construction	238	312	38	60	61	59
VII	In Trade and Commerce	149	184	68	321	436	130
VIII	In Transport, Storage and Communications	467	591	421	53	27	69
IX	In Other Services	412	422	388	479	545	232

Large-scale female participation is noticed in categories II, III and IV. The ratio of female workers in categories I, II, III, VI and VIII is above the corresponding State average. Total and rural ratios of category VI and urban ratio of Category IX also show large-scale female participation which are also above the State average. Other categories, in rural and urban areas have recorded lower proportion than the State averages.

Classification according ISIC and NCO

The Indian Census Economic Classification adopted at the 1951 Census was neither a purely industrial nor occupational classification but was a combination of both. There were only 10 divisions and 88 subdivisions of industries and services. This scheme was given up in 1961 Census and separate tabulation of industries and occupations based on Indian Standard Industrial Classification and National Classification of Occupations was adopted for the first time. As this is the first occasion when a work of great magnitude, such as this classification is undertaken, marginal errors in classification, if any, may have to be ignored as they do not impair the general trend presented by the Tables. This two-fold classification, though primarily intended to secure more detailed classification of the sectors of production and services and of personal talents and skills, will also serve well to maintain comparability of the present with the past.

Indian Standard Industrial Classification

The nine industrial categories of workers described previously more or less correspond to the nine broad divisions of the Indian Standard Industrial Classification. The divisions, major groups

and minor groups of categories III to IX are given in Tables B-IV Parts A, B and C of the General Economic Tables. Comparative figures of their distribution per 10,000 males and 10,000 females in each division for the district and the State are given below :

Division of I. S. I. C.		Keonjhar		Orissa	
		Males	Females	Males	Females
All Divisions		10,000	10,000	10,000	10,000
		10,000	10,000	10,000	10,000
0 Agriculture, Livestock, Forestry, Fishing and Hunting	T	1,657	1,375	1,005	657
	U	171	133	248	249
1 Mining and Quarrying	T	958	1,757	128	151
	U	523	833	103	266
2 & 3 Manufacturing	T	2,033	2,938	2,265	3,606
	U	1,470	733	2,316	2,227
4 Construction	T	143	64	218	26
	U	165	18	473	153
5 Electricity, Gas, Water and Sanitary	T	15	...	50	2
	U	56	...	156	13
6 Trade and Commerce	T	484	137	834	537
	U	621	124	1,313	930
7 Transport, Storage and Communications	T	482	425	367	39
	U	1,517	1,872	969	366
8 Services	T	4,201	3,265	5,106	4,970
	U	5,477	6,287	4,421	5,795
9 Activities not adequately described	T	27	39	27	12
	U	...	...	1	1

T=Total U=Urban

The proportion of both male and female workers in divisions 1 and 7 is above the State average. Higher proportion in both the sexes which is also above the corresponding State average is noticed in the urban area of category 8 and in the total area of division 0.

National Classification of Occupations

The classification of workers according to divisions, groups and families of the National Classification of Occupations is given in Table B-V of the General Economic Tables. Their proportionate distribution in each division for 10,000 males and 10,000 females is given below together with the figures for the State :

Division of N. C. O.		Keonjhar		Orissa	
		Males	Females	Males	Females
All Divisions	T	10,000	10,000	10,000	10,000
	U	10,000	10,000	10,000	10,000
0 Professional, Technical and related workers	T	875	279	717	106
	U	451	179	770	461
1 Administrative, Executive and Managerial workers	T	356	5	210	13
	U	302	24	353	62

Division of N. C. O.		Keonjhar		Orissa	
		Males	Females	Males	Females
2 Clerical and related workers	T	180	5	451	36
	U	776	33	1,161	354
3 Sales workers	T	506	140	838	527
	U	712	142	1,327	810
4 Farmers,Fishermen, Hunters, Loggers and Related workers	T	1,672	1,525	1,025	668
	U	216	103	386	250
5 Miners, Quarrymen and Related workers	T	854	1,633	109	107
	U	76	9	49	3
6 Workers in Transport and Communication occupations	T	308	15	308	19
	U	770	103	729	219
7-8 Craftsmen, Production Process workers and Labourers not elsewhere classified	T	3,095	4,218	5,008	7,595
	U	5,602	8,395	3,842	6,349
9 Service, Sports and Recreation workers	T	963	507	833	615
	U	1,045	1,006	1,190	1,439
X Workers not classifiable by occupation	T	1,191	1,673	501	314
	U	50	6	193	53

T=Total U=Urban

Larger proportion of workers in both the sexes, higher than the corresponding State average is noticed in the total of divisions 0, 4, 5 and X and in the urban area of divisions 5, 7 and 8. Divisions 7 and 8 are found to absorb the highest proportion of both male and female workers.

Craftsmen and Production Process Workers

As divisions 7-8 have recorded the highest proportion of workers both males and feamles, it may be interesting to analyse the number of artisans engaged in various crafts. The number of workers in ten selected crafts is given below in order of their numerical importance. Their proportion to 10,000 persons of all divisions severally for total, males and females has also been worked out :

Description	Number of Artisans			Proportion per 10,000 of		
	Total	Males	Females	Total	Males	Females
Millers, bakers, brew masters and related food and beverage workers ...	4,146	1,192	2,954	652	287	1,342
Spinners, weavers, knitters, dyers and related workers ...	2,622	1,294	1,328	412	311	603
Basketry weavers and related workers ...	1,537	275	1,262	242	66	573
Sheet metal workers ...	1,258	1,258	...	198	302	...
Jewellers, goldsmiths and silversmiths ...	827	790	37	130	190	17
Potters and related clay formers ...	826	660	166	130	159	75
Carpenters, joiners, cabinet makers, coopers and related workers ...	650	650	...	102	156	...
Tailors, cutters, furriers and related workers ...	539	385	154	85	93	70
Leather cutters, lasters and sewers (except gloves and garments) and related workers ...	207	205	2	33	49	1
Blacksmiths, hammersmiths and forgemen	146	138	8	23	33	2

Non-workers

All those who do not come under the nine industrial categories of workers are treated as non-workers. There are 408,404 non-workers constituting 54·9 per cent of the total population of the district. The sex composition shows 155,310 males and 253,094 females. Their activities were investigated and were classified into the following eight categories :

Classification of non-workers	Persons	Males	Females
Total non-working population ...	408,404	155,310	253,094
Full-time students ...	62,782	48,673	14,109
Household duties ...	118,265	4,134	114,131
Dependents, infants and disabled ...	223,901	100,339	123,562
Retired, rentier or independent means ...	689	236	453
Beggars, Vagrants, etc. ...	1,697	982	715
Inmates of penal, mental and charitable institutions ...	354	287	67
Persons seeking employment for the first time ...	493	456	37
Persons employed before but now out of employment and seeking work	223	203	20

The dependents, infants and disabled persons constitute the highest number in both the sexes. Females doing household duties come next in order. There are 4,134 male non-workers in this district who attend to household duties which may not be deemed as an abnormal feature as there are cases of several households where male members look after the up-keep of the house, tend the cattle and take care of children when the women folk are busy in the market or in economic pursuits, such as hawking of garden fruits and vegetables or eatables made at home, such as *Chura*, *Murhi*, etc. In such households male members are not engaged in any job with the object of adding income to the family. In large families the activities of some members are unremunerative. They are not interested in finding out jobs due to their pre-occupation at home which are mostly in the form of assisting elderly family members. Such members are classed as persons doing household duties. The details of non-workers by their broad age-groups are given in Table B-IX.

Industrial Establishments

A comprehensive housing Census was undertaken for the first time in 1960 to collect information about the types of houses and their use together with various other details about their construction, accommodation etc. The most valuable among these details relates to the list of different kinds of industrial establishments including factories and workshops in the State, beginning from a large factory to a small-scale household industry. These industries are classified according to the power used, viz. factories and workshops run by (i) electricity, (ii) liquid fuel, (iii) coal, wood and bagasse, (iv) other power and (v) no power. Statistics were also collected to further classify them according to the size of employment, viz. factories employing one person, 2-5 persons, 6-9 persons, 10-19 persons, 20-49 persons, 50-99 persons and 100 persons or more. The data so compiled may be found in Table E-III furnished in Part II.

A study of this Table discloses that there are 8,445 houses which are used as workshops, factories or workshop-cum-dwellings of which 160 are in the urban areas and the rest in the rural areas. Classification of these workshops and factories according to power used and size of employment are indicated below :

Factories classified by power used :

	No. of factories
Run by electricity ...	20
Run by liquid fuel ...	44
Run by coal, wood and bagasse ...	2,722
Run by other power ...	300
Run by no power ...	5,359

Factories classified by size of employment :

Employing one person ...	3,392
Employing 2—5 persons ...	4,741
Employing 6 –9 persons ...	281
Employing 10—19 persons ...	21
Employing 20—49 persons ...	7
Employing 50—99 persons ...	1
Employing 100 persons and above ...	2

The industries grouped according to the list in the I. S. I. C. scheme comprise 56 different kinds in this district. Some of the major industries which are extensively found in the district are listed below :

Name of industries	Total no. of establishments
Manufacture of materials from cork, bamboo, cane, leaves and other allied products ...	2,462
Cotton weaving in handlooms ...	1,735
Manufacture of earthen ware and earthen pottery ...	1,043
Manufacture of sundry hardwares ...	934
Manufacture of wooden furniture and fixtures ...	601
Production of edible fats and oils ...	300
Manufacture of jewellery, silverware and wares using gold and other precious metals ...	297
Manufacture of structural clay products, such as bricks, tiles ...	225

Workers Employed in Household Industries

The Census of 1961 records the number of people employed in household industries at 15,887 comprising 9,163 males and 6,724 females. They constitute 2·1 per cent of total population and 4·7 per cent of total workers as against the State averages of 3·0 per cent and 6·9 per cent respectively. Of the total persons employed in household industries, 15,450 belong to the rural areas and the rest to the urban areas. Household industries like basketry making, weaving and pottery have absorbed majority of the workers.

Small-scale Industries

The survey of small-scale industries conducted by the Director of Industries, Orissa in 1961 discloses that there were ten such industries in the district. Of them only three have a capital investment of Rs. 30,000 or more each. The break up of these industries according to their line of production is shown below :

Line of production	Number
Wood industries ...	7
Printing press ...	1
Leather industries ...	1
Consumer industries ...	1

Factories

Section 2 (m) of the Factories Act, 1948 defines a factory as follows :

'Factory' means any premises including the precincts thereof

(I) Whereon ten or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or

(II) Whereon twenty or more workers are working, or were working on any day of the preceding twelve months and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on but does not include a mine subject to the operation of the Mines Act, 1952 (XXXV of 1952), or a railway running shed.

Section 85 of the said Act, however, authorises the State Government to declare by notification any place wherein a manufacturing process is carried on, to be a factory within the meaning of the Factories Act, although it does not fulfill the above requirement of law.

A list of the important factories existing in the district in 1951 and in 1961 has been given in Part III. In the year 1951 this district had only one registered factory. During the decade 1951—61, five new units started functioning, thus bringing the total number to six in 1961.

Supply of electricity

Keonjhar, Anandapur and Joda have been electrified so far. It is proposed to electrify Bansapani in the third plan period.

Trade and Commerce

2,317 persons of the district are engaged in trade and commerce of whom 2,016 are males and 301 females. Out of the total traders, 433 and 1,838 persons are respectively engaged in wholesale and retail trade whereas 46 persons are engaged in miscellaneous trade. Out of the total

retail traders, 899 or 48·9 per cent of them deal in cereals and pulses.

The district has a total number of 1,515 shops including shop-cum-dwellings, restaurants, etc., out of which 1,093 are situated in the villages and the remaining 422 are in urban areas. The shops in the rural area deal mostly with the daily requirements of local people, such as gram, salt, sugar, oil, spices, etc., whereas in the urban areas comparatively better equipped shops are found not only to meet the demand of the urban population but also to cater to the needs of the villagers.

Fairs

The main fairs and festivals of this district are Shivaratri, Dola Jatra, Makar Sankranti Jatra and Ratha Jatra. Details about these fairs are furnished in Part II. The gathering in some of these fairs sometime reaches as high as 60,000. The main attractions in these fairs are local dance, ramlila, daskathia, pala etc. Ornaments made mostly of silver, brass and bell-metal utensils, bamboo and other cottage industry products are the important items of sale and purchase in these fairs.

AGRICULTURE AND IRRIGATION

Organization

The agricultural programmes of the district are looked after by a District Agricultural Officer who is stationed at Keonjhar. He is subordinate to the Director of Agriculture and Food Production, Orissa who holds his office at the State Capital at Bhubaneswar. In each of the Community Development Blocks, there is an Agricultural Extension Officer to look after the agricultural extension programmes.

Workers on land

Orissa is an agricultural State where majority of the people depend on agriculture for their livelihood. 1961 Census registered 73·8 per cent of the total workers of Orissa as cultivators and agricultural labourer. The percentage of such workers in Keonjhar district being 81 per cent is higher than the State average. The higher percentage of workers on land in the district is not due to plenty of agricultural facilities or larger cultivable area available but because there are no other profitable avenues of employment which may attract a substantial portion of the working population. The district has not, however, much of irrigation facilities for double or multiple cropping. The following Table compares the density of population, proportion of workers on land to total workers, gross area sown per worker on land in the district with those of the State and the neighbouring districts :

State/ District	Density of population per sq. mile	Total workers	Workers on land (cultivators and agricultural labourers)	Percentage of workers working on land to total workers	Gross cropped area in acres	Gross cropped area per worker on land
Orissa	292	7,661,529	5,656,523	73·8	15,829,316	2·8
Keonjhar	231	334,911	271,301	81·0	672,554	2·5
Sundargarh	209	383,029	259,145	67·7	734,544	2·8
Dhenkanal	243	425,260	311,329	73·2	834,959	2·7
Cuttack	727	1,007,267	649,410	64·5	1,973,297	3·0
Balasore	565	453,500	360,960	79·6	1,098,606	3·0
Mayurbhanj	299	623,718	520,959	83·5	887,758	1·7

Though the percentage of workers working on land is greater, gross cropped area available per worker is slightly lower in the district than that in the State as a whole. The percentage of area under double and multiple cropping in this district is also smaller than the State average and averages of many districts.

Distribution of land area

The total geographical area of the district is 2,058,560 acres. The following Table gives the details of their utilization for the year 1959-60 as compared with the statistics for the State :

	Keonjhar		Orissa	
	Area in acres	Percentage to total area	Area in acres	Percentage to total area
Total geographical area	2,058,560	100	38,509,952	100
(1) Forests	691,301	33·59	8,908,558	23·1
(2) Barren and unculturable lands	42,990	2·09	3,819,723	9·9
(3) Land put to non-agricultural uses	220,078	10·69	3,382,753	8·8
(4) Culturable wastes	178,332	8·66	2,128,127	5·5
(5) Permanent pastures and grazing lands	157,598	7·66	1,556,709	4·0
(6) Miscellaneous tree crops and groves	46,585	2·26	1,695,687	4·4
(7) Current fallow	42,708	2·07	1,465,615	3·8
(8) Other fallow lands	16,400	0·80	509,924	1·3
(9) Net area sown	662,459	32·18	14,695,526	38·2
(10) Non-reporting area	...	...	347,330	1·0

There are larger percentages of area under forests, land put to non-agricultural uses, culturable wastes, and permanent pasture and grazing lands. In other categories, the State averages lead. The percentage of area under crops is lower than that of the State as a whole.

The area under forests recorded by the Forest Department is, however, larger than that shown in the above Table, being 52·95 percent of the total land area. As the principles for the demarcation of area under forests adopted by the Forest Department are not followed in compilation of agricultural statistics the discrepancies in the two sets of figures have occurred.

Cropped area

The total cropped area (including area sown more than once) of the district was 672,554 acres during 1959-60. This constitutes 32·67 per cent of total geographical area of the district. The cropped area comprises 619,485 acres under food crops (92·11 per cent of the total cropped area). Area under double and multiple cropping was 10,095 acres during 1959-60 which gives us 14·98 acres of such area in every 100 acres of gross cropped area. The Table below makes a comparison of gross cropped area, area sown more than once and the percentage of the latter to the former for the year 1959-60 of the district with those of the State and the adjoining districts :

	1959-60		
	Gross cropped area (acres)	Area sown more than once (acres)	Percentage of area sown more than once to gross cropped area
Orissa ...	15,829,316	1,133,790	7·2
Keonjhar ...	672,554	10,095	1·5
Sundargarh ...	734,544	7,245	1·0
Dhenkanal ...	834,959	29,215	3·5
Cuttack ...	1,973,297	437,497	22·2
Balasore ...	1,098,606	22,600	2·1
Mayurbhanj ...	887,758	15,701	1·8

The district had got the lowest acreage and percentage of area sown more than once among the adjoining districts except Sundargarh district. The percentage is also much below the State average. This is, no doubt, so on account of lack of irrigation facilities in the district which is mainly a hilly tract where construction of irrigation works is difficult.

Irrigation

One of the Tables in Part III gives area under different sources of irrigation from 1952-53 to 1959-60. In 1959-60, tanks irrigated an area of 16,111 acres, 1,700 acres of land were irrigated by canals and 14,460 acres by means of wells and other sources. The following Table makes a comparison of irrigated area to net area sown during 1959-60 in the district with those for the State and neighbouring districts :

		1959-60		
		Net area sown	Area under irrigation	Percentage of irrigated area to net area sown
		(acres)	(acres)	
Orissa	...	14,695,526	2,409,667	16·4
Keonjhar	...	662,459	32,271	4·9
Sundargarh	...	727,299	27,226	3·7
Dhenkanal	...	805,744	214,059	26·6
Cuttack	...	1,535,800	349,000	22·7
Balasore	...	1,076,006	93,059	8·6
Mayurbhanj	...	872,057	89,021	10·2

The percentage of area under irrigation in the district is also less than the percentages of the adjoining districts except Sundargarh. The percentage is also much less than the State average. It also reveals that out of 32,271 acres of irrigated area only 10,095 acres are given to double or multiple cropping.

Cropping Pattern

The relative importance of crops in the district will be clear from the figures of area under cultivation recorded for the year 1959-60 as follows;

Crops	Keonjhar		Orissa	
	Gross cropped area in acres	Percentage to gross cropped area	Gross cropped area in acres	Percentage to gross cropped area
Paddy	544,249	80·9	9,907,301	62·6
Gram	6,965	1·0	70·558	0·5
Ragi	450	0·1	188,721	1·2
Maize	12,417	1·9	86,210	0·6
Kulthi	2,946	0·4	288,681	1·8
Green gram	2,668	0·4	432·518	2·7
Black gram	3,726	0·6	125,138	0·8
Red gram	2,318	0·3	114,803	0·7
Sugar-cane	1,500	0·2	66,318	0·4
Ground-nut	960	0·1	130,536	0·8
Rape	2,306	0·3	213,611	1·4
Sesamum	3,125	0·5	252,325	1·6
Mustard	3,070	0·5	242,742	1·5
Other crops	85,854	12·8	3,709,854	23·4
Total	672,554	100·0	15,829,316	100·0

The above Table also compares the area under different crops of the district with that of the State. Out of the total cropped area of 672,554 acres, cereals were grown on 561,772 acres and pulses only on 21,488 acres during 1959-60. The total area under food-grains were thus 583,260 acres. Among cereal crops, paddy occupies the highest position. In common with other parts of the State, cultivation of paddy receives greater attention in the district. The percentage of such area in the district is even greater than the State average. Next in importance is cultivation of maize in the district though this crop is not so much important in the cropping pattern of the State as a whole.

Production rates

A Table has been given in Part III to show the yield rates of various crops in different years from 1951-52 to 1959-60. Production of paddy per acre of land during 1959-60 was 765·96 lbs.

Sowing and Harvesting Season

The sowing and harvesting periods of paddy and a few other important crops are as follows :

Crops	Sowing	Harvesting
Paddy	May-June	September-October
Maize	May-June	August-September
Gram	November	March

Prices of food grains and other important crops

Whole-sale price in respect of staple food-grains and a few other crops for the years 1957 to 1960 and monthly rates for 1960 are given in a Table in Part III. The data relate to three of the important marketing centres in the district, namely, Keonjhar, Anandapur and Champua. The prices have varied from year to year.

Agricultural implements and machineries

A census of agricultural implements and machineries existing in the district was taken during each of the livestock censuses of 1957 and 1961. Though there was another such census in 1945 after formation of Orissa into a separate province, the district was not then in existence being under a ruler. Between 1957 and 1961, the numbers of wooden ploughs, carts, tractors and ghanis have gone up. There has been a decline in the strength of other categories of implements. There was no Persian wheel in 1957 but one is recorded in 1961 counts.

Agricultural farms

There are five agricultural farms in the distict. Their location and area are as follows :

Name of farms		Area in acres
Sangam	...	52·80
Keonjhar *	...	49·56
Gohira	...	30·65
Bhogamunda	...	54·20
Champua	...	9·98

Most of these farms are paddy seed multiplication farms but in some of them horticulture has also been taken up.

ANIMAL HUSBANDRY AND VETERINARY

The animal husbandry and veterinary services of the district are looked after by a District Animal Husbandry and Veterinary Officer whose headquarters is at Keonjhar. His jurisdiction also extends over Jajpur subdivision of Cuttack district. There were in 1963, 11 veterinary dispensaries and 41 stockman centres in the district. One demonstration poultry development farm had been set up at Keonjhar with a strength of 100 birds and expanded nutrition programme aimed at providing eggs for feeding expectant and nursing mothers was worked in two Community Development Blocks. 19 bull centres functioned and a District Livestock Breeding Farm existed at Keonjhargarh with a total strength of 132 animals comprising 35 buffaloes and 97 cattle including young stock. Average yield of milk per day in the farm was 227·5 lbs. The common cattle diseases in the district reported were Haemorrhagic Septicemia, Black-quarter, Foot and Mouth disease and worm infestation. There was no cattle epidemic during the last decade. Preventive measures are taken against Haemorrhagic Septicemia, and Black-quarter periodically. Besides, Rinderpest Eradication scheme was also in operation in the district for conducting mass vaccination with Goat Tissue Vaccine.

Since formation of the district, two live-stock censuses were conducted in the area in 1957 and 1961. The total livestock recorded at 614,352 in 1957 increased to 839,295 in 1961 counts. There has been an increase in the number of all categories of livestock except horses and ponnies, donkeys and pigs whose number went down from 13,769 to 7,145, 28 to 9, and 8,022 to 6,475 respectively. There has been an appreciable increase in the number of goats which rose to 194,506 in 1961 from 116,832 in 1957.

* Based on letter No. XI-114-62. 13796/vet dated 7-8-1963 from the Director of Animal Husbandry and Veterinary Services, Orissa

PUBLIC HEALTH

Organization

The public health activities and medical administration of the district are under the charge of a District Health Officer and a Civil Surgeon respectively and both of them have their head-quarters at Keonjhar. Their jurisdiction covers the entire district. The district had by the end of 1960-61, 9 hospitals, 13 dispensaries and 7 primary health centres. 212 beds in all for in-door patients were available in these hospitals and primary health centres and there were in all 15 doctors and 10 kavirajs in these institutions. Treatment is given free in Government institutions. 4 family planning centres have also been opened at different places in the district, the earliest of which is the one at Keonjhar town, started during 1958.

Vital Statistics-Registration system

Vital statistics were not being regularly collected in the district which formerly comprised a princely State. After merger of the states, an interim arrangement was initially made in ex-state areas with effect from July, 1948 to collect weekly figures of attacks and deaths from cholera and smallpox with a view to take preventive measures against those epidemics. Collection of vital occurrences commenced later with effect from 1-1-1952 when the district came under registration system. The entire district is now covered by the system and the Bengal Births and Deaths Registration Act (Act IV of 1873) is in force in the district. In the rural areas, the village Chowkidars collect these statistics and in the towns the health department staff under Municipality or Notified Area Council do the job. According to the defined procedure the Chowkidars collect informations about births and deaths in villages during their rounds and report them at the police stations on weekly or fortnightly parade days. The Thana Officers consolidate the reports so received and send monthly returns to the District Health Officers. In practice the Chowkidars did not mind their duty in this regard and neglected it. The Thana Officers, busy as they are in ever-increasing law and order problems, hardly had any tendency to check the reports received. Thus the entire structure of vital statistics for the decade 1951-60 is built up on what was reported by the Chowkidars, the result being far from real. The transfer of Chowkidars to the pay-roll of the gramapanchayats during the second half of the past decade caused a further set-back in the system. After their transfer, the Chowkidars avoided coming to parades at the Thanas and report events regularly. Consequently collection of vital statistics suffered to a greater extent in the later years of the past decade.

The urban area of the district for vital statistics purposes is limited to Keonjhar town, though there is another town, namely, Barbil in the district. As no arrangement was made for collection of vital events for Barbil town, its statistics for the years up to the end of 1960 are included in the reports of Barbil police station. Vital events in Keonjhar town which has a Municipality were collected separately, with effect from 1952 and the Municipality reported occurrences for the years 1952-1955. It ceased to send reports for the subsequent years 1956-58 but the reports again appeared for the years of 1959 and 1960. The vital occurrences were collected by the health staff in the Municipality and monthly returns were sent from the Municipal office to the District Health Officer, Keonjhar. On receipt of the monthly reports from the Thana Officers in respect of rural areas and from the Municipality, the District Health Officer compiled monthly reports of births and deaths and sent them it to the Director of Health Services, Orissa for compilation of State figures.

Births and deaths

During the 9 years from 1952 to 1960 a total death of 96,098 persons and birth of 168,927 persons were recorded in the district. Thus only 72,829 souls are assumed to have added to the population of the district during these 9 years of which

37,115 were males and 35,714 females. The increase in population between 1951 and 1961 Censuses has, however, been 154,874. The difference between the two sets of figures of increase in population can neither be explained to be due to any migration gain nor on account of the events for the year 1951 being out of records in vital statistics. On the other hand, the defects in the registration system causing good many ommissions the vital statistics records are responsible for recording the low increase in the population.

Registration rates

The birth and death rates for 1952-60 were 28·0 and 15·9 respectively. The annual birth and death rates for these 9 years were as follows :

Years	Birth-rate per 1,000 population			Death-rate per 1,000 population		
	Total	Rural	Urban	Total	Rural	Urban
1952	30·5	30·6	23·9	17·5	17·5	15·7
1953	26·2	26·3	17·4	17·5	17·7	9·5
1954	29·7	29·8	19·5	15·4	15·6	8·8
1955	31·8	32·2	7·6	14·3	14·4	4·1
1956	25·4	25·4	...	14·7	14·7	...
1957	25·1	25·1	...	17·8	17·8	...
1958	25·7	25·7	...	17·3	17·3	...
1959	29·3	29·5	21·1	13·7	13·8	5·5
1960	28·3	28·2	37·3	15·3	15·4	13·1
1952—60	28·0	28·0	21·6	15·9	16·0	9·4

The district rates compare favourably with State rates, the birth rates being greater and the death rates almost conforming to the State's standard. The urban rates for both births and deaths are, however, highly deficient. The annual rates have gone down to 7·6 in case of births and 4·1 for deaths which are unreal. The registration machinery did not work properly in Keonjhar town which was the only urban area for the district.

Causes of deaths

According to recorded causes of mortality, deaths from different diseases and their proportion to total deaths during this 9 year-period were as follows :

		Deaths	Percentage to total deaths
Cholera	...	416	0·43
Smallpox	...	1,403	1·46
Fever	...	77,664	80·81
Dysentery and diarrhoea	...	1,822	1·90
Respiratory diseases	...	575	0·60
Wound and accidents	...	1,235	1·29
Other causes	...	12,983	13·51
Total	...	96,098	100

Largest number of deaths has been on account of fever, the second highest mortality being under the diseases grouped under "other causes". Cholera has caused the least deaths during this decade.

Fever

In common with other parts of the State, people in the district suffered heavily from fever and it accounted for 80·81 per cent of total mortality. Next to Mayurbhanj, Keonjhar district recorded the highest percentage of deaths from fever in the State. There might have been some misclassification on account of deaths due to other diseases being booked under fever. This happens because the Chowkidar with his limited knowledge to diagnose the particular causes of death often puts all doubtful cases under fever, though such deaths may not have been caused by it.

This type of misclassification may not be great and does not affect the general trend very much. Keonjhar district has vast hilly tracts covering about 53 per cent of its total area which possess an unhealthy and malarial climate. Mala-

ria, the principal disease among fevers is thus endemic throughout the district and caused the maximum deaths. Deaths from fever are recorded all the year round, but the mortality generally swells up in the rainy season. A total number of 314,619 Malaria cases was reported for treatment at the hospitals and other medical institutions in the district during the past decade, but the attendance of such patients at hospitals has fallen down from 1958 onwards.

Cholera

Next to fever, the largest mortality has been on account of "other causes". The group "other causes" combine various diseases other than those classified under the groups cholera, smallpox, fever, dysentery and diarrhoea, respiratory diseases and wound and accidents. All these causes except cholera and smallpox are heterogenous and combine diseases which differ from each other in their characteristics. Cholera and smallpox were prevalent in the district during all the 9 years from 1952 to 1960. Though cholera visited in all the years the number of mortality caused were few in number each year. The highest mortality from cholera during the decade was in the year 1956 when 180 persons died. Deaths were larger in the months of September to December and the greatest casualties of the year were 129 in November. The whole of the succeeding year 1957 also recorded cholera deaths. From beginning of 1958, however, the disease disappeared and the last 3 years of the decade barring a few sporadic deaths were generally free from it.

Smallpox

Like cholera, smallpox also was prevalent in all these 9 years during the decade 1951-60 but deaths caused were few in number in each year except during 1957, 1958 and 1959. The highest mortality was recorded in the year 1958, being 861. January—August of this year was the peak period of deaths from smallpox and in July the mortality was greatest, being 141. In the previous year too, the highest mortality was recorded in July. The closing year of the decade has recorded the least number of deaths.

Infant deaths

The total infant mortality in the district during the years 1952-60 was 20,114 and it constituted 20·93 per cent of total deaths. The highest number of deaths is recorded in the year 1960. 38·94 per cent of deaths during the decade were of children of pre-school going age. The infant death rate for the period 1952-60 for the district is 119·1 per mille of live births, and this rate is lower than the State rate of 145·6. The highest death rate was recorded in the year 1952, being 132·1 and lowest rate of 100·1 was recorded in the year 1955.

COMMUNITY DEVELOPMENT AND PANCHAYATI RAJ

Community Development

The Community Development programme aims at all round development of rural areas. It was inaugurated in Orissa in October, 1952. The original pattern was to have Community Projects. Then came the Community Development Blocks. These had budgetary allotments of Rs. 65 lakhs and Rs. 15 lakhs respectively and their period of operation was for 3 years each. This pattern changed quickly and from 1954, 3 Stages of Development Blocks namely, National Extension Service Blocks, Community Development Blocks and Post-Intensive Blocks which were to run seriatim came into operation. The period of operation of an N. E. S. Block was ordinarily 3 years and after the Block had done a minimum of about 2-2½ years as N. E. S. and achieved a certain standard of development, it was converted into a Community Development Block. After completion of the Community Development term which was for three years the Block was to enter Post-Intensive phase under which a provision of Rs. 30,000 was available annually for expenditure on local works and social education for a period of 3 years. The

N. E. S. and Community Development Blocks had allotments of Rs. 4 lakhs and Rs. 12 lakhs respectively. The allotment for the latter was inclusive of expenditure under N. E. S. phase. This pattern also did not last long and the 3 categories of Blocks were concised into 2 stages, namely, Stage I and Stage II. Each of these phases was to run for a period of 5 years and the financial allotments were Rs. 12 lakhs and Rs. 5 lakhs respectively for Stage I and Stage II Blocks. The Stage I period is preceded by pre-extension work for one year exclusively in the field of agriculture. A sum of Rs. 18,800 is available for the pre-extension stage which is ultimately adjusted against Stage I budget when after one year the area gets a stage I Block. This revised programme came into operation with effect from 1-4-1958 and is still in force. All the N. E. S. Blocks existing then were taken under Stage I and the Post-Intensive Blocks under Stage II. The Community Development Blocks were allowed to complete their full term and then revert to Stage II. With the revision in programme, the number of Blocks increased and the full coverage by Blocks was deferred till October, 1963.

The normal population coverage of a Block is 66,000 for plain areas and 25,000 to 30,000 for tribal areas and on this basis the district has been delimited into 13 Blocks. The first allotment was an N. E. S. Block started at Ghatgaon on 1-5-1955. At the end of the Second Plan period i. e. on 31-3-1961, through different allotment series 9 Blocks in all covering a total area of 1,724 square miles were operating in the district. Out of these, 8 were Stage I Blocks and the other was a Pre-Extension Block. One of these Stage I Blocks, namely, Bhuiyanpirh Block started on 1-4-57 is a Special Multipurpose Block—a Block which is addition to C. D. budget got an allotment of Rs. 15 lakhs from the Ministry of Home Affairs for intensive development of the area which is predominantly inhabited by the scheduled castes and scheduled tribes. The entire allotment of Rs. 27 lakhs (Rs. 12 lakhs from C. D. budget and Rs. 15 lakhs from the Ministry of Home Affairs) was to be spent within a period of five years according to a common programme drawn up for the purpose.

The Block programme is executed through the agency of the Grama panchayats. After the Panchayati Raj scheme came into operation, Panchayat Samitis are now solely responsible for planning and execution of the Block programme according to the broad out-lines of the schemes indicated by Government and the basic needs of the Community. The Block funds are placed at the disposal of the Panchayat Samitis partly as grants-in-aid and partly as loans for implementation of the developmental schemes. Although emphasis is on agriculture and industry, priority is given in the Block programme for provision of supply of water for irrigation and drinking purposes, education, medical and communication facilities. A total expenditure of Rs. 61,08,187 was incurred in the district from the Community Development budget upto the end of 1960-61, the break-up of which under broad heads are as follows :

		Rs.
Staff and contigencies and Block buildings	...	17,22,336
Animal husbandry and agricultural extension	...	5,05,917
Irrigation	...	10,25,888
Health and rural sanitation	...	6,85,685
Education	...	4,11,452
Social education	...	4,36,155
Communication	...	6,66,861
Rural arts, crafts & industries	...	1,44,121
Housing	...	5,09,772

Among the achievements of the Blocks upto the end of 1960-61 the important ones relate to completion of 83 minor irrigation projects, the functioning of 344 co-operative societies and opening of 5 primary health centres. As a part of social education programme, 94 Mahila Samitis were organnized, and 22,508 adults were made literate. The achievements under communications programme relate to laying of 318 miles of roads and construction of 460 bridges and culverts.

Grama Panchayats

In the beginning, Grama Panchayats in Orissa were responsible mostly for municipal functions in the rural areas. In course of time their activities extended to execution of developmental schemes. Under the Community Development Programme, which was initiated during the First Five Year Plan period, the Grama Panchayats were given a more active role in the execution of developmental activities in their areas. To begin with, they functioned as agencies of the Government for execution of the developmental programmes, but towards the later part of the Second Plan period they began to plan and execute their own programmes of development. These changes of democratic decentralization of power subsequently brought in the present Panchayati Raj system, which is a three-tier system with the Grama Panchayat at the village level and the Zilla Parishad at the district level leaving the Panchayat Samiti at the middle.

A Grama Panchayat normally covers 5,000 persons but the limit is relaxed in special cases. The constitution of Grama Panchayats is regulated by the Orissa Grama Panchayat Act, 1948. A Sarpanch is at the head of a Grama Panchayat and he is assisted by a Naib Sarpanch. The Grama Panchayat members are elected by the villagers on the basis of adult franchise, and from amongst them are elected a Sarpanch and a Naib Sarpanch, all of whom hold their office for a period of 3 years. A paid Secretary maintains the accounts and records of the Grama Panchayat. The Grama Panchayat fund is made up of grants and loans received from the Government, taxes and other miscellaneous incomes accruing from various other sources such as, pisciculture, co-operative societies, poultry development, markets, ferries, etc. The fund is usually lodged in a Savings Bank account opened at the nearest Post Office. Village sanitation, maintenance of public roads, lighting and public tanks, scavenging, public health, registration of births and deaths are some of the important functions of a Grama Panchayat.

There were 49 Grama Panchayats in the district during 1951-52 and their number increased to 99 in 1954-55. Out of these Grama Panchayats 98 continued up to end of 1959-60. With the increase in number, the income and expenditure of the Grama Panchayats also went up. The total income of only Rs. 43,673 and expenditure of Rs. 25,626 during 1953-54, went up to Rs. 2,44,612 and Rs. 1,40,561 respectively in the year 1959-60. Taxes alone yielded a total revenue of Rs. 13,915 during the year 1959-60. Income from miscellaneous sources, namely, market sheds, fees from cattle pounds, irrigation, pisciculture, ferries and ghats, licence fees etc., was Rs. 1,42,370. Government grants during the year amounted to only Rs. 54,827 out of which Rs. 30,761 were from Kendu leaf grant. Loans to the tune of Rs. 33,500 including paddy loans of Rs. 10,000 were also received from the Government. The expenditure included pay and allowances of staff and contingencies which were Rs. 45,937 and the costs of developmental and other works were Rs. 94,624.

The Grama Panchayats in the district maintained village police, the total number of which was 241 by the end of 1955-56. The staff were disbanded in the following year, though one is maintained in a Panchayat.

Adalti Panchayats were functioning since 1952-53. Their number was 12 which remained static till the end of 1959-60. The cases handled and disposed of each year by these Panchayats are shown in a Table in Part III. The yearwise details of number of Grama Panchayats, villages covered number of Adalti Panchayats, number of village police maintained by Grama Panchayats, income and expenditure of Grama Panchayats are also given in another Table in Part III.

Panchayat Samitis

In accordance with the provisions of the Orissa Panchayat Samitis and Zilla Parishad Act, 1959, Panchayat Samitis were established in Orissa. The district has been delimited into 13 Panchayat Samitis, and all of them functioned simultaneously

with effect from 26th January, 1961. The jurisdiction of a Panchayat Samiti is co-terminus with a Development Block. Out of these Panchayat Samitis, 9 had Community Development Blocks already and the remaining 4 had Shadow Blocks or areas demarcated to have Community Development Blocks in due course.

The Panchayat Samitis are mostly elected bodies comprising both official and non-official members, the official members being the Block Development Officer and the representatives of various Departments of the State Government posted at the Block level. The non-official members are Sarpanchs of Grama Panchayats and an additional representative elected from each Grama Panchayat area who is not a member of the Grama Panchayat. Due representation of women and scheduled castes and scheduled tribes is also secured in the Samiti. Both official and non-official members take part in the discussions of the Panchayat Samiti meetings, but the official members are not entitled to vote. Non-official members of the Panchayat Samiti hold their office for a period of 4 years. At the head of the Panchayat Samiti is a Chairman who is assisted by a Vice-Chairman, and both of them are elected from among the non-official members. The Chairman generally presides over meetings of the Panchayat Samitis, and in his absence the Vice-Chairman takes the chair. The Panchayat Samiti sits once in every alternate month in the minimum. The Chairman gets an honorarium of Rs. 100 per mensem and is also provided with either rent-free residential accommodation or Rs. 50 as house rent allowance in lieu thereof.

A Samiti plans, executes and supervises over all developmental programmes in its area. It is also responsible for control and spread of primary education, management of trusts and endowments which the Government may entrust, vaccination, registration of births and deaths, and supervision over the work of the Grama Panchayats within its jurisdiction. Keeping in view the felt needs of the people and broad outlines of the schemes indicated by the Government, the Panchayat Samiti prepares its annual budgets and proposals, and submits them to the Zilla Parishad for approval. The Schemes are executed after Zilla Parishad has sanctioned them. There is a Panchayat Samiti Fund fed by grants and loans from the Government, aids from all-India bodies and institutions, donations and contributions, etc. and it is lodged at the nearest Government treasury. The Block Development Officer as the Executive Officer of the Panchayat Samiti operates on this fund. The main sources of income of the Panchayat Samiti are the loans and grants from the Government which are generally routed through the Zilla Parishad. The Community Development funds are, however, directly paid to the Samiti. The work and accounts of the Panchayat Samiti are open to audit inspection by the Government officials.

Zilla Parishad

A Zilla Parishad is the highest institution immediately below the State level in the Panchayati Raj system. The Parishad has both official and non-official members. The official members are the Collector, the Subdivisional Officers and the District Heads of different Departments of the State Government. The Chairman of all the Panchayat Samitis in the district, M. Ps., M. L. As and Members of Rajya Sabha elected from the district are the non-official members of the Zilla Parishad. One of the non-official members should be a female. The Parishad is headed by a Chairman, who is assisted by a Vice-Chairman and both of them are elected from amongst its non-official members. The tenure of office of all the non-official members including the Chairman and the Vice-Chairman is 4 years. The Parishad is required to meet at least once every 3 months and all such meetings are generally presided over by the Chairman and in his absence, by the Vice-Chairman. Official members take part in the discussions in the meetings of the Parishad but have no right to vote. The Chairman of Zilla Parishad gets a monthly honorarium Rs. 200 and a house rent allowance of Rs. 50 per mensem.

The Zilla Parishad mainly approves of the schemes and budgets of the Panchayat Samitis, distributes funds among them and supervises over the execution of the various schemes. The day to day work of the Parishad is managed by an Executive Officer who belongs to Orissa Administrative Service, Class I. The Zilla Parishad has also a fund to which the grants and loans from the Government, aids from all-India bodies and internal incomes are credited. The money is lodged in an account at the Government Treasury. The Executive Officer of the Zilla Parishad functions as drawing and disbursing officer in respect of this fund.

The Zilla Parishad for Keonjhar district functioned with effect from the 5th February 1961 and its headquarters is at Keonjhar.

CO-OPERATION

The co-operative movement plays an important part in providing credit on reasonable terms and conditions to the local people. The re-organization of credit co-operative societies at all levels and the strengthening of credit structure with State-participation in the share-capital was one of the most important features of the co-operative movement during the past decade. The weaker units were provided with share-capital contribution and were given subsidy for maintaining trained and efficient managerial staff. Several new schemes were put into operation and old societies were re-vitalized.

The agricultural co-operative societies advance loans, both in cash and in kind. Most of them give loans on short-term basis, whereas there are others to advance medium-term credits. There is provision for grant of long-term loans also. Short-term loans generally include cash, nucleus paddy seeds, green manure seeds, chemical fertilizers and other production pre-requisites including insecticides, agricultural implements etc. Funds required for sinking or repair of wells, purchase of cattle and agricultural machineries and cost of minor improvements to land are some of the items classified under medium-term loan. The non-agricultural co-operative societies do not, however, advance any loan.

The co-operative movement in the district made steady progress during the past decade. The total number of primary co-operative societies existing during 1960-61 was 419 and there was one Central Bank. The membership and working capital in the primary co-operative societies were 99,271 and Rs. 33,69,375 respectively. This works out to one member of primary society in every 7 persons in the district and Rs. 34 for each member of primary society. Graingolla societies form the bulk of the societies and the next highest number is the small-sized credit societies. Graingolla and weavers' societies have the highest number of members. In the matter of working capital also the Graingolla societies lead, the large sized credit societies occupying the second position. A Table in Part III shows the number, membership and working capital in respect of various categories of societies in the district during 1960-61.

The Central Bank is located at Keonjhar and it provides finance to the primary societies in the district. It had a membership of 380 and working capital amounting to Rs. 14,45,508 during 1960-61.

NATIONAL SAVINGS

The National Savings movement was first started during the earlier years of the Second World War and was then called the Defence Savings Scheme. Its objectives were to collect money for defence purposes and to fight inflation. During the post-war period, the activities of this movement were directed towards inculcating the habit of thrift among the people so as to obtain savings for

augmentation of the resources for financing the Five-Year Plans. In recent years, it is also helping in collecting funds to strengthen the defence in the National Emergency. The scheme was more or less on an experimental basis till 1948. In 1949 it was spread over to all the districts in the State including Keonjhar.

The various National Savings securities now available are the 12-Year National Defence Certificate, the 10-Year Defence Deposit Certificate, the 15-Year Annuity Certificate, the Premium Prize Bonds, the Cumulative Time Deposit Scheme and the Post Office Savings Bank Accounts. The securities are available in different denominations and carry varying rates of interest. The gross and net sale-proceeds from all the National Savings securities in the district during the past 3 years are given below :

Years	Gross sale	Net sale
	(Figures in thousands of rupees)	
1960-61	18,02	8,16
1961-62	22,32	9,14
1962-63	27,94	13,35

PLACES OF INTEREST

Keonjhargarh

It was formerly the capital of Keonjhar state, and is also the headquarters of the district at present. It is situated on the road connecting Jajpur-Keonjhar Road Railway station with Chaibasa in Bihar State. Apart from the district offices the town has got a College. School of Mining Engineering is also located here. The town is connected by regular bus services with the rail-head, subdivisional headquarters and other important places. There is electricity in the town which is covered by a Municipality. The population of the town is 12,624 according to Census of 1961.

Anandapur

It was the subdivisional headquarters of the subdivision of the same name in Keonjhar State during pre-merger time and also continues to be the headquarters station of the present Anandapur subdivision. Located on the left bank of the river Baitarani, the place is a trading centre of local importance where the trade centres round the forest produces. Anandapur is connected by road over which regular buses ply to Jajpur-Keonjhar road railway station and to Bhadrak Railway station on S. E. Railway. Its population according to 1961 Census is 4,744.

Champua

It was also a subdivisional headquarters under the Keonjhar state. Champua is now the headquarters of a subdivision bearing the same name. It is situated on the right bank of the river Baitarani on the road connecting Jajpur-Keonjhar road and Chaibasa. Its population is 1,809 according to 1961 Census.

Kushaleswar

The place is famous for the temple of Kushaleswar on the bank of river Kushavadra, six miles away from Anandapur. The temple is believed to have been constructed by Jajatikeshari in 9th Century A. D. The place is famous for the Shivaratri festival when people from far away places gather here.

Gonasika

It is the source of the river Baitarani, where a Siva temple has been built. The site presents a beautiful scenery and is nearly 16 miles from Keonjhar town.

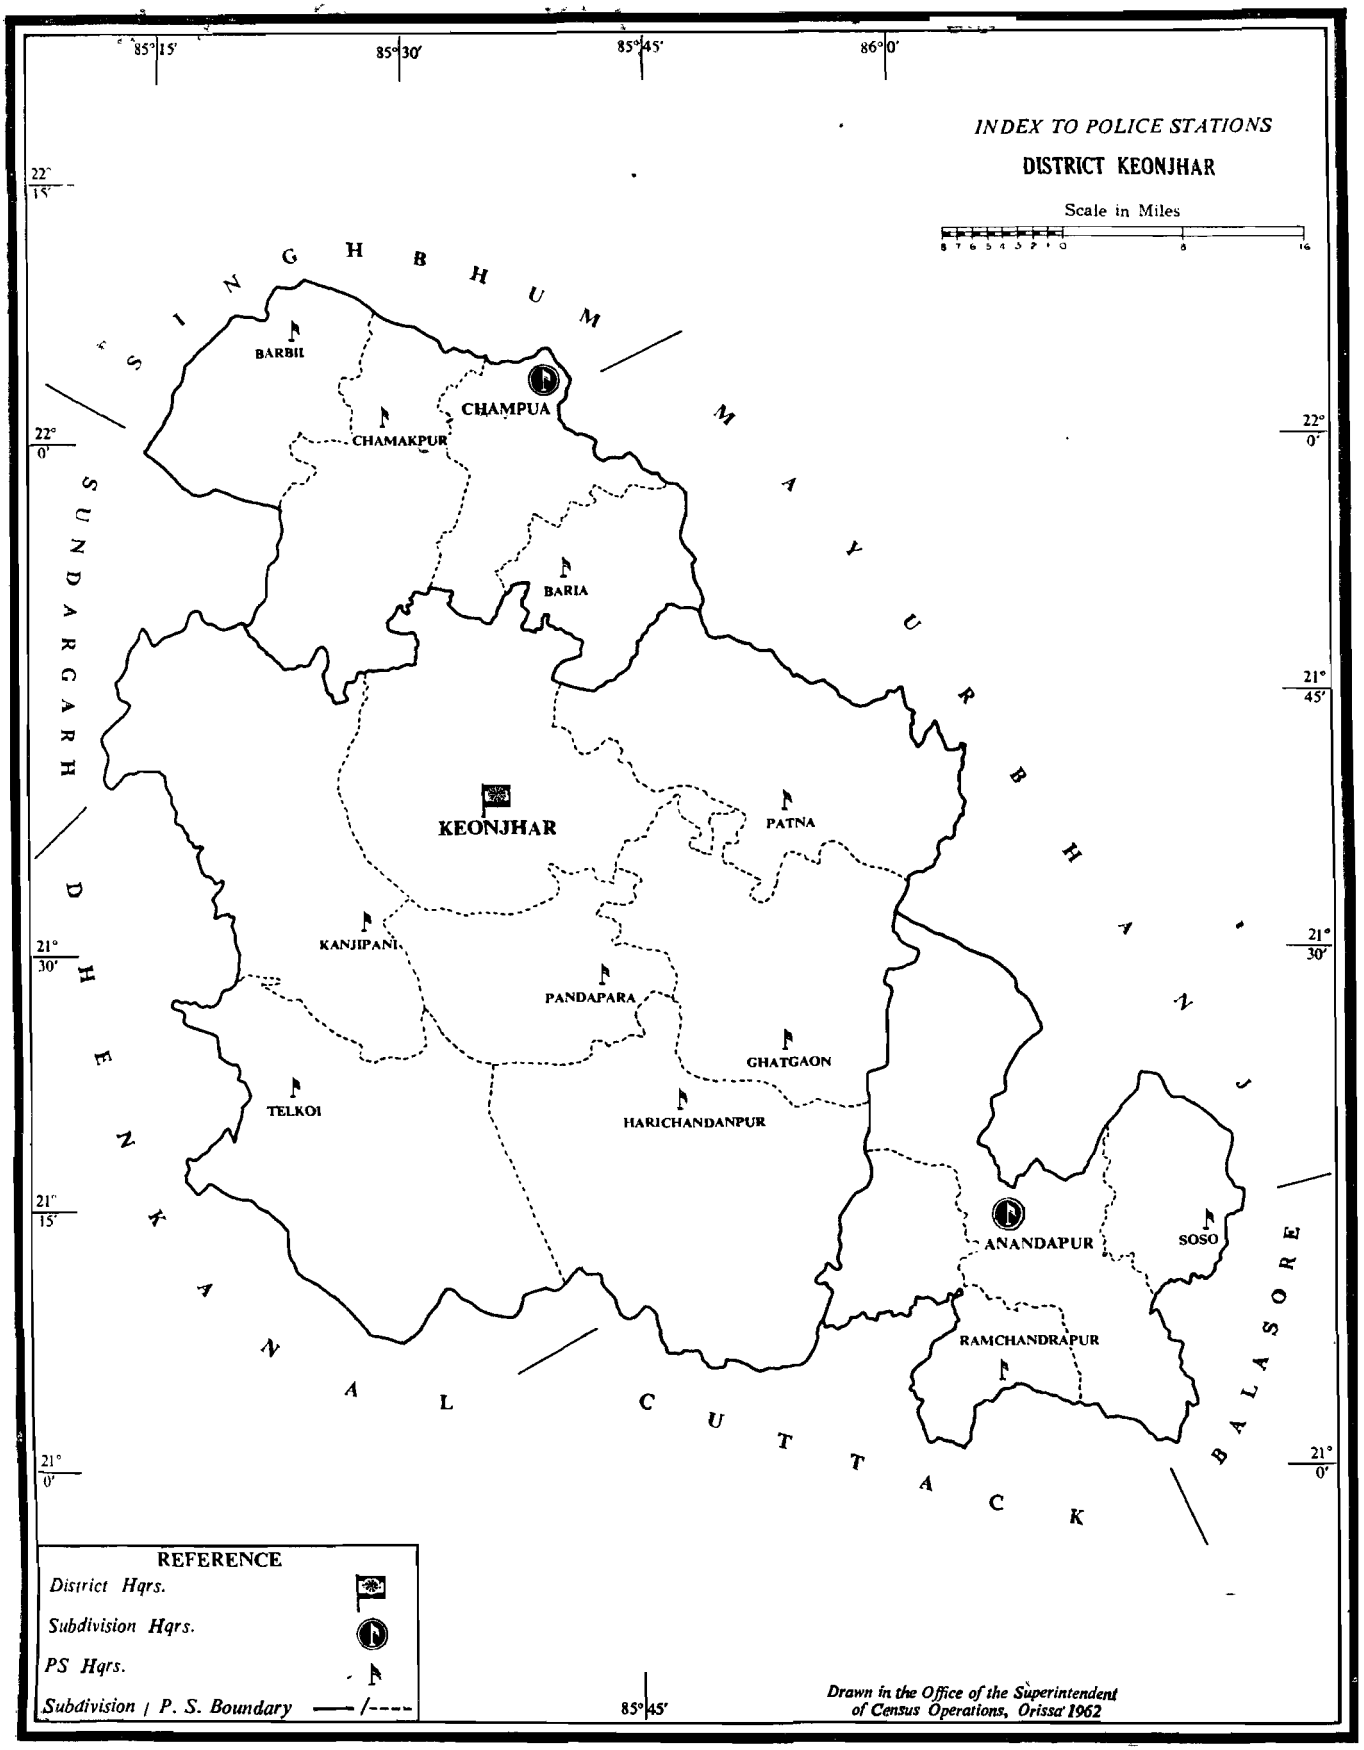

Joda

It is situated under Barbil police station area. It is famous for the location of the Feromanganese Plant. There are also iron and manganese mines nearby.

CALENDAR OF IMPORTANT EVENTS

1857	—	Arjun Singh's fighting at Ramala in Champua subdivision.
1866	—	Great famine, "Na-anka".
1868	—	Ratna revolution—A Sardar of hill tribes (Bhuyans and Juangas) who openly hostiled against the installation of Maharaja Shri Dhanurjay Narayan Bhanja Deo to the Gadi.
1888	—	Land revenue settlement.
1891	—	Dharani's revolution called Bhuyan Golmal.
1898	—	First settlement in Keonjhar district.
1908	—	Fall of devastating hail stones.
1913	—	First high flood in river Baitarani.
1915	—	Land revenue settlement.
1919	—	Scarcity of food grains.
1927	—	High flood in river Baitarani.
1934	—	Opening of the High School named D. N. High School, first High School in Keonjhar..
1948	—	Merger of Keonjhar state with Orissa.
1954-55	—	Wide-spread drought in Keonjhar district.
1957	—	Opening of Keonjhar Science College, first college of the district. Opening of Orissa School of Mining Engineering.
1960	—	High flood in river Baitarani.

CENSUS TABLES

Contains

General Population Tables—A-I to A-IV with appendices, General Economic Tables —B-I and B-III to B-IX, Household Economic Tables—B-X to B-XVII, Social and Cultural Tables—C-I, C-II, C-III, C-V, C-VII and C-VIII, Housing and Establishment Tables—E-I to E-V, Tables on Scheduled Castes and Scheduled Tribes—SCT-I to SCT-V, SC-I, ST-I and ST-II, Village Directory, Villagewise List of Industries and List of Fairs and Festivals.

TABLE-A SERIES

GENERAL POPULATION TABLES

General Population Tables comprise four Tables, A-I to A-IV which are briefly described below :

2. **Table A-I—Area, Houses and Population**—This Table supplies information regarding area, number of inhabited and uninhabited villages, number of towns and sexwise population for each police station and subdivision in the district.

3. The area shown in Col. 3 (a) is based on the figures received from the local revenue authorities who also maintain the area figures relating to smaller units, such as, police stations. The Surveyor General, India has not got area figures for units below the district and so the area of the district as received from him has not been adopted. The area in sq. km. shown in Col. 3 (b) has been calculated at the rate of 1 square mile=2·590 square kms.

4. **Definitions**—The definitions of the terms village, town, house, occupied residential house, houseless persons and institutional population are given in the fly-leaf to Table A-I in the Census Report of 1961, Vol. XII, (Orissa) Part II-A.

5. There are three appendices to this Table which are as follows :—

(*i*) Appendix I shows the changes in the Jurisdiction of the Police Stations and Subdivisions since 1951. The annexure to this Appendix gives the names of all villages which are transferred from the jurisdiction of one police station to another.

(*ii*) Appendix II gives the number of villages with population of 5,000 and over and towns with population of under 5,000.

(*iii*) Appendix III gives the houseless and institutional population in each police station and subdivision.

6. **Table A-II—Variation in population during sixty years**—This Table furnishes data on the variation of population for seven Censuses from 1901 to 1961. Its importance lies in the fact that it gives the growth of population from decade to decade. In the absence of reliable vital statistics or any other source of information it forms the main source of estimation of population. The percentage variation from decade to decade is also shown in this Table.

7. **Table A-III—Villages classified by population**—This table gives the number and population of groups of villages in the various population sizes, namely, less than 200, 200 to 499, 500 to 999, 1,000 to 1,999, 2,000 to 4,999, 5,000 to 9,999 and 10,000 and above.

8. The information is furnished for each subdivision and police station in the district.

9. **Table A-IV—Towns classified by population with variation since 1941** —This Table shows the growth of each town in this district since the Census of 1941. The area of the town at the 1961 Census, both in square miles and square kilometres is also given. The term 'Town' has already been defined in the fly-leaf to Table A-I published in Part II-A of the Census Report of Orissa.

Foot Notes :—(1) †The Square Kilometres and density figures of Urban areas of Police Station/Subdivision/District are worked out using the area figures corrected up to two places of decimals obtained by adding the areas of the Towns in the respective units and not using the area figures given in the table. In addition to this, the figures relating to Square Kilometres are further adjusted to make the Police Station/Subdivision/ District totals tally.

(2) Towns treated as such for the first time in 1961 are printed in italics.

The following abbreviations have been used :—

T for Total
R for Rural
U for Urban
PS for Police Station
M for Municipality
NAC for Notified Area Council

APPENDIX I TO TABLE A-I

TABLE-B SERIES

GENERAL ECONOMIC TABLES

The contents of the General Economic Tables which are presented in this volume are briefly explained below :

2. **Table B-I—Workers and Non-workers classified by sex and broad age-groups**—This is a summary table prepared from the Primary Census Abstract giving the total population, the nine industrial categories of workers and also the number of non-workers. Sex split-up is shown in each case. Each category is divided into four broad age-groups, viz., 0—14, 15—34, 35—59 and 60+. The classification of workers and non-workers by age-groups is a special feature of 1961 Census. These age-groups correspond to different stages of life which have special significance with reference to capacity to work, viz., children, young persons, middle-aged persons and elderly persons. Classification of non-working population has not been provided in this table to avoid unwieldiness, but is given in another table.

3. **Table B-III—Industrial Classification of Workers and Non-workers by Educational Levels**—This Table is presented in two parts. Part A relates to Urban areas and Part B to Rural areas. The educational levels which are given in both the parts are shown below :

Part A

- Illiterate
- Literate (without educational level)
- Primary or Junior Basic
- Matriculation or Higher Secondary
- Technical diploma not equal to degree
- Non-technical diploma not equal to degree
- University degree or Post-graduate degree other than technical degree
- Technical degree or diploma equal to degree or Post-graduate degree in the following branches
- Medicine
- Agriculture
- Veterinary and Dairying
- Technology
- Teaching and others

Part B

- Illiterate
- Literate (without educational level)
- Primary or Junior Basic
- Matriculation and above

4. The nine industrial categories of workers and also the non-workers are cross-tabulated by literacy and educational standards mentioned above.

5. **Table B-IV Part A—Industrial Classification by sex and class of worker of persons at work at Household Industry**—The distinction between household industry and non-household industry is drawn for the first time during the current Census. This part deals with workers engaged in household industry only. The data upto Divisions and Major Groups are shown separately for Total, Rural and Urban for this district.

6. **Table B-IV Part B—Industrial Classification by sex and class of workers of persons at work in Non-household Industry, Trade, Business, Profession or Service**—This part deals with categories III, V, VI, VII, VIII and IX. All these categories are sorted into 'Divisions' and 'Major Groups' according to the nature of the industry. They are further cross-tabulated according to the class of worker, namely, employer, employee, single worker and family worker. The data upto Divisions and Major Groups are shown separately for Total, Rural and Urban for the district.

7. **Table B-IV Part C—Industrial Classification by Sex, Divisions, Major Groups, and Minor Groups of Persons at work other than Cultivation**—As the Minor Groups are not shown in the Tables A and B, this Table combines both in order to give the Minor Groups in addition to the Division and Major Groups. Separate columns are provided for the workers at household industry and non-household industry.

8. Minor Groups having less than 1 per cent of workers of the respective Divisions (less than 0·5 per cent in case of Minor Groups of Division 2 & 3), have not been shown in this Table. Divisions thus affected are marked with an asterisk (*). They are given separately in the Appendix.

9. Complete Code description of Divisions, Major Groups and Minor Groups according to I. S. I. C. are given below for reference as they are used in many Tables:

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, Livestock, Forestry, Fishing and Hunting		
00	*Field Produce and Plantation Crops*	
	Production of cereal crops (including Bengal gram) such as, rice, wheat, jowar, bajra, maize ..	000
	Production of pulses, such as, arhar, moong, masur, urd, khesari, other gram ..	001
	Production of raw jute and kindred fibre crops ..	002
	Production of raw cotton and kinderd fibre crops ..	003
	Production of oil-seeds, sugar-cane and other cash crops ..	004
	Production of other crops (including vegetables) not covered above ..	005
	Production of fruits and nuts in plantations, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc...	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by Code No. 006 and flowers) not covered above ..	009
01	*Plantation Crops*	
	Production of tea in plantation ..	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium ..	014
	Production of other plantation crops not covered above ..	015
02	*Forestry and Logging*	
	Planting, replanting and conservation of forests ..	020
	Felling and cutting of trees and transportation of logs ..	021
	Preparation of timber .	022
	Production of fuel including charcoal by exploitation of forest ..	023
	Production of fodder by exploitation of forests ..	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests ..	025
	Production and gathering of other forest products not covered above	026
03	*Fishing*	
	Production of fish by fishing in sea..	030
	Production of fish by fishing in inland waters including the operation of fish firms and fish hatcheries ..	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond ..	032
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power, such as, cow, buffalo, goat ..	040
	Rearing of sheep and production of wool ..	041
	Rearing and production of other animals (mainly for slaughter) such as, pig ..	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming ..	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
	Rearing of silk worms and production of cocoons and raw silk ..	045

Major Group (Code)	Description	Minor Group (Code)
	Rearing of other small animals and insects ..	046
	Trapping of animals or games propagation ..	047
	Production of other animal husbandry, products, such as, skin, bone, ivory and teeth ..	048
Division 1—Mining and Quarrying		
10	*Mining and Quarrying*	
	Mining of coal ..	100
	Mining of iron ores ..	101
	Mining of gold and silver ores ..	102
	Mining of manganese ..	103
	Mining of mica ..	104
	Mining of other non-ferrous metallic ores ..	105
	Mining of crude petroleum and natural gas ..	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone ..	107
	Mining of chemical earth, such as, soda ash ..	108
	Mining and quarrying of non-metallic products not classified above, such as, precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt ..	109
Division 2 & 3—Manufacturing		
20	*Foodstuffs*	
	Production of rice, ata, flour, etc., by milling, dehusking and processing of crops and food grains	200
	Production of sugar and syrup from sugar-cane in mills ..	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy ..	202
	Production of fruit products, such as, jam, jelly, sauce and cannir g and preservation of fruits ..	203
	Slaughtering, preservation of meat and fish and canning of fish ..	204
	Production of bread, biscuits, cake and other bakery products ..	205
	Production of butter, ghee, cheese and other dairy products ..	206
	Production of edible fats and oil (other than hydrogenated oil) ..	207
	Production of hydrogenated oils (vanaspati) ..	208
	Production of other food products, such as, sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge..	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malts, fruits and malts in distillery and brewery ..	210
	Production of country liquor ..	211
	Production of indigenous liquor, such as, toddy, liquor from mahua, palm juice ..	212
	Production of other liquors not covered above ..	213
	Production of aerated and mineral water ..	214
	Production of ice ..	215
	Procuction of ice-cream ..	216
	Processing of tea in factories ..	217
	Processing of coffee in curing works	218
	Production of other beverages ..	219
22	*Tobacco Products*	
	Manufacture of bidi ..	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco ..	222
	Manufacture of hookah tobacco ..	223
	Manufacture of snuff ..	224

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of jerda and other chewing tobacco ..	225
	Manufacture of other tobacco products ..	226
23	*Textile—Cotton*	
	Cotton ginning, cleaning, pressing and baling ..	230
	Cotton spinning (other than in mills) ..	231
	Cotton spinning and weaving in mills ..	232
	Cotton dyeing, bleaching ..	233
	Cotton weaving in power-looms ..	234
	Cotton weaving in handlooms	235
	Manufacturing of Khadi textile in handlooms ..	236
	Printing of cotton textile ..	237
	Manufacturing of cotton nets ..	238
	Manufacturing of cotton, cordage, rope and twine ..	239
24	*Textile—Jute*	
	Jute pressing and baling ..	240
	Jute spinning and weaving ..	241
	Dyeing and bleaching of jute ..	242
	Printing of jute textile ..	243
	Manufacture of other products, like rope, cordage from jute and similar fibre, such as, hemp, mesta ..	244
25	*Textile—Wool*	
	Wool baling and pressing ..	250
	Wool cleaning and processing (scouring) ..	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mill ..	253
	Wool weaving in powerloom ..	254
	Wool weaving in handloom ..	255
	Embroidery and art work in woolen textile ..	256
26	*Textile—Silk*	
	Spinning and weaving of silk textile in mill ..	260
	Dyeing and bleaching of silk ..	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile ..	265
	Manufacture of silk cordage, rope and twine ..	266
27	*Textile—Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products ..	270
	Manufacture of hosiery and other knitted fabrics and garments ..	271
	Emboridery and making of crepe, lace and fringes	272
	Making of textile garments including raincoats and headgear ..	273
	Manufacture of made up textile goods except wearing apparel, such as, curtains, pillow cases, bedding materials, mattress and textile bags ..	274
	Manufacture of waterproof textile products, such as, oilcloth, tarpaulin ..	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling ..	276
	Manufacture of coir and coir products ..	277
	Manufacture of umbrellas ..	278
	Processing and manufacture of textile products not covered above ..	279

Major Group (Code)	Description	Minor Group (Code)
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood ..	280
	Manufacture of wooden furniture and fixtures ..	281
	Manufacture of structural wooden goods (including treated timber), such as, beams, posts, doors and windows ..	282
	Manufacture of wooden industrial goods other than transport equipment, such as, bobbin and similar equipment and fixtures ..	283
	Manufacture of other wooden products, such as, utensils, toys and artwares ..	284
	Manufacture of veneer and plywood	285
	Manufacture of ply-wood products, such as, tea chest ..	286
	Manufacture of boxes and packing cases other tban plywood ..	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products ..	288
	Manufacture of other wood and allied products not covered above ..	289
29	*Paper and Paper Products*	
	Manufacture of plup from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill ..	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board hand-made ..	291
	Manufacture of products, such as, paper bags, boxes, cards, envelops and moulded pulp goods from paper, paper board and pulp ..	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals ..	300
	Printing and publishing of books ..	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather ..	310
	Manufacture of shoes and other leather footwear ..	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ..	312
	Manufacture of leather products (except those covered by code Nos. 311,312), such as, leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles ..	313
	Repair of shoes and other leather footwear ..	314
	Repair of all other leather products except footwear ..	315

Major Group (Code)	Description	Minor Group (Code)
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes ..	320
	Manufacture of rubber footwear ..	321
	Manufacture of rubber goods used for industrial purpose ..	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat ..	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries ..	324
	Manufacture of other coal and coal-tar products not covered elsewhere ..	326
33	*Chemical and Chemical Products*	
	Manufacture of basic, industrial, chemicals, such as, acids, alkalis and their salts not elsewhere specified ..	330
	Manufacture of dyes, paints, colours and varnishes ..	331
	Manufacture of fertilizers ..	332
	Manufacture of amunition, explosives and fire-works ..	333
	Manufacture of matches ..	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap ..	335
	Manufacture of soap and other washing and cleaning compounds ..	336
	Manufacture of turpentine, synthetic, resin and plastic products and materials (including synthetic rubber) ..	337
	Manufacture of common salt ..	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ..	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products, such as, bricks, tiles ..	340
	Manufacture of cement and cement products ..	341
	Manufacture of lime ..	342
	Manufacture of structural stone goods, stone dressing and stone crushing ..	343
	Manufacture of stonewares, other than images ..	344
	Manufacture of stone images ..	345
	Manufacture of plaster of paris and its products ..	346
	Manufacture of asbestos products	347
	Manufacture of mica products ..	348
	Manufacture of earthenware and earthen pottery ..	350
	Manufacture of chinaware and crockery ..	351
	Manufacture of porcelain and its products ..	352
	Manufacture of glass bangles and beads ..	353
	Manufacture of glass apparatus ..	354
	Manufacture of earthen images, busts and statues ..	355
	Manufacture of earthen toys and artwares except those covered by code No. 355 ..	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above ..	357

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of other non-metallic mineral products not elsewhere specified ..	359
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms, such as, billets, blooms, tubes, rods ..	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ..	361
	Manufacture of armaments ..	362
	Manufacture of structural steel products, such as, joist, rail, sheet, plate ..	363
	Manufacture of iron and steel furniture ..	364
	Manufacture of brass and bell-metal products ..	365
	Manufacture of aluminium products ..	366
	Manufacture of metal products (other than of iron, brass, bell-metal and aluminium), such as, tin can ..	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares, such as, G.I. pipe, wire net, bolt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39) ..	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery ..	370
	Manufacture and assembling of prime mover and boilers other than electrical equipment, such as, diesel engines, road-rollers, tractors ..	371
	Manufacture of machine-tools ..	372
	Manufacture of textile machinery and accessories ..	373
	Manufacture of heavy electrical machinery and equipment, such as, motors, generators, transformers ..	374
	Manufacture of electric lamps and fans ..	375
	Manufacture of insulated wires and cables ..	376
	Manufacture of all kinds of battery ..	377
	Manufacture of electronic equipment, such as, radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above ..	379
38	*Transport Equipment*	
	Manufacture, assembling and repairing of locomotives ..	380
	Manufacture of wagons, coaches, tramways and other railroad equipment other than that covered by code No. 363 ..	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines) ..	382

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of motor vehicles engines parts and accessories ..	383
	Repairing and servicing of motor vehicles ..	384
	Manufacture of bicycles and tricycles and accessories, such as, saddle, seat-frame, gear ..	385
	Building and repairing of water transport equipment, such as, ships, boats and manufacture of marine engines ..	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines ..	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipments not covered above, such as, animal drawn and hand-drawn vehicles ..	389
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies ..	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies ..	391
	Assembling and repairing of watches and clocks ..	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals ..	393
	Manufacture and tuning of musical instruments ..	394
	Manufacture of stationery articles not covered elsewhere, such as, pencil, penholder, fountain pen ..	395
	Manufacture of sports goods ..	396
	Manufacture and repair work of goods not assignable to any other group ..	399
	Division 4—Construction	
40	*Construction*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations ..	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines ..	402
	Construction and maintenance of waterways and water-reservoirs, such as, bund, embankments, dam, canal, tank, tube-wells, wells ..	403
	Division 5—Electricity, Gas, Water and Sanitary Services	
50	*Electricity and Gas*	
	Generation and transmission of electric energy ..	500
	Distribution of electric energy ..	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers ..	502
51	*Water-Supply and Sanitary Services*	
	Collection, purification and distribution of water to domestic and industrial consumers ..	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation ..	511

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce		
60—63 *Wholesale Trade*		
	Wholesale trading in cereals and pulses ..	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other foodstuff (not covered elsewhere) ..	601
	Wholesale trading in all kinds of fabrics and textiles products, such as, garments, hessian, gunny bag, silk and woollen yarns, shirtings, suitings, hosiery products ..	602
	Wholesale trading in beverages, such as, tea (leaf), coffee (seed and powder), aerated water ..	603
	Wholesale trading in intoxicants, such as, wines, liquors ..	604
	Wholesale trading in other intoxicants, such as, opium, ganja, etc. ..	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products ..	606
	Wholesale trading in animals ..	607
	Wholesale trading in straw and fodder ..	608
	Wholesale trading in medicines and chemicals ..	610
	Wholesale trading in fuel and lighting products, such as, coke, coal, kerosene, candle ..	611
	Wholesale trading in toilets, perfumery and cosmetics ..	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware ..	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings ..	614
	Wholesale trading in footwear ..	615
	Wholesale trading in tyres, tubes and allied rubber products ..	616
	Wholesale trading in petrol, mobil oil and allied products ..	617
	Wholesale trading in other household equipment not covered above ..	618
	Wholesale trading in bricks, tiles and other building materials ..	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products ..	621
	Wholesale trading in paper and other stationery goods ..	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical ..	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb ..	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur ..	634
	Wholesale trading in clocks, eyeglasses, frames ..	635
	Wholesale trading in hardware and sanitary equipment ..	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery ..	638
	Wholesale trading in all goods not covered above ..	639

Major Group (Code)	Description	Minor Group (Code)
64—68 *Retail Trade*		
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry ..	640
	Retail trading in beverages, such as, tea (leaf), coffee (seed and powder), aerated water ..	641
	Retail trading in intoxicants, such as, wines, liquors ..	642
	Retail trading in other intoxicants, such as, opium, ganja, etc. ..	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products ..	644
	Retail trading in fuel, such as, coke, coal, firewood and kerosene ..	645
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc. ..	646
	Retail trading in animals ..	647
	Retail trading in straw and fodder..	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textile and hosiery products (this includes retail trading in piece-goods of cotton, wool, silk and other textiles) ..	650
	Retail trading in toilet goods, perfumes and cosmetics ..	651
	Retail trading in medicines and chemicals ..	652
	Retail trading in footwear, head-gear, such as, hats, umbrellas, shoes and chappals ..	653
	Retail trading in tyres, tubes and allied rubber products ..	654
	Retail trading in petrol, mobil oil and allied products ..	655
	Retail trading in wooden, steel and other metallic furniture and fittings ..	660
	Retail trading in stationery goods and paper ..	661
	Retail trading in metal, porcelain and glass utensils ..	662
	Retail trading in earthenware and earthen toys ..	663
	Retail trading in other household equipment not covered above ..	664
	Retail trading in bricks, tiles and other building materials ..	670
	Retail trading in hardware and sanitary equipment ..	671
	Retail trading in wood, bamboo, cane, bark and thatches ..	672
	Retail trading in other building materials ..	673
	Retail trading in agricultural and industrial machinery equipments, tools and appliances ..	680
	Retail trading in transport and storage equipments ..	681
	Retail trading in electrical goods like electric fan, bulb, etc. ..	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear ..	683
	Retail trading in clock and watch, eyeglass, frame ..	684
	Retail trading in scientific, medical and surgical instruments ..	685
	Retail trading in precious stones and jewellery ..	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing ..	687
	Book-selling ..	688
	Retail trading in goods unspecified	689

Major Group (Code)	Description	Minor Group (Code)
69	*Trade and Commerce—Miscellaneous*	
	Importing and exporting of goods and commodities ..	690
	Real estate and properties ..	691
	Stocks, shares and futures ..	692
	Providents and insurances ..	693
	Money lending (indigenous) ..	694
	Banking and similar type of financial operation	695
	Auctioneering ..	696
	Distribution of motion pictures ..	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods, such as, electric fan, microphone, rickshaw, etc. ..	699
Division 7—Transport, Storage and Communications		
70-71	*Transport*	
	Transporting by railways ..	700
	Transporting by tramway and bus service ..	701
	Transporting by motor vehicles (other than omnibus) ..	702
	Transporting by road through other means of transport, such as, hackney carriage, bullock cart, ekka ..	703
	Animal transporting by animals, such as, horse, elephant, mule, camel ..	704
	Transporting by man, such as, carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving ..	705
	Transporting by boat, steamer, ferry, etc., by river, canal ..	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean ..	707
	Transporting by air ..	708
	Transporting by other means not covered above ..	709
	Services incidental to transport, such as, packing, carting travel agency ..	710
72	*Storage and Warehousing*	
	Operation of storage, such as, warehouses ..	720
	Operation of storage, such as, cold storage ..	721
	Operation of storage of other type ..	722
73	*Communications*	
	Postal, telegraphic, wireless and signal communications ..	730
	Telephone communication ..	731
	Information and broadcasting ..	732
Division 8—Services		
80	*Public Services (This does not include Govt., Quasi-Govt. or local body activities other than administrative, in such fields as, transport, communications, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institutions each of which is classified in the appropriate industry groups)*	
	Public Services in Union and State army including territorial corps and volunteer corps ..	800
	Public Service in Navy ..	801
	Public Service in Air Force ..	802
	Public Service in Police ..	803

Major Group (Code)	Description	Minor Group (Code)
	Public Service in administrative departments and offices of Central Govt. ..	804
	Public Service in administrative departments and offices of Quasi-Government organization, municipalities, local boards, etc...	805
	Public Services in administrative departments and offices of State Governments ..	809
81	*Educational and Scientific Services*	
	Educational services, such as, those rendered by tenchnical colleges, technical schools and similar technical and vocational institutions ..	810
	Educational services, such as, those rendered by colleges, schools and similar other institutions of non-technical type ..	811
	Scientific services and research institutions not capable of classification under any individual group ..	812
82	*Medical and Health Services*	
	Public health and medical services rendered by organizations and individuals, such as, by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners ..	820
	Veterinary services rendered by organizations and individual ..	821
83	*Religious and Welfare Services*	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organizations ..	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk ..	831
	Welfare services rendered by organizations operating on a non-profit basis for the promotion of welfare of the community, such as, relief societies, red-cross organization for the collection and allocation of contributions for charity ..	832
84	*Legal Services*	
	Legal Services rendered by barrister, advocate, solicitor, mukhtar, pleader, mukurie, munshi ..	840
	Matrimonial services rendered by organisations and individuals ..	841
85	*Business Services*	
	Engineering services rendered by professional organizations or individuals ..	850
	Business services rendered by organizations of accountants, auditors, book-keepers or like individuals ..	851
	Business services rendered by professional organizations or individuals, such as, those of advertising and publicity agencies ..	852
	Business services rendered by professional organizations or individuals, such as, those rendered by news agency, newspaper correspondents, columnists, journalists, editors, authors ..	853

Major Group (Code)	Description	Minor Group (Code)
86	*Community Services and Trade and Labour Associations*	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organizations ..	860
	Services rendered by civic, social, cultural, political and fraternal organizations, such as, ratepayers' association, club, library	861
	Community services, such as, those rendered by public libraries, museums, botanical and zoological gardens, etc. ..	862
87	*Recreation Services*	
	Production of motion picture and allied services, such as, processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures ..	871
	Recreation services rendered by organizations and individuals, such as, those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals ..	872
	Recreation services rendered by indoor and outdoor sports by organizations and individuals including horse, motor, etc., racing	873
88	*Personal Services*	
	Services rendered to households, such as, those by domestic servants, cooks ..	880
	Services rendered to households, such as, those by governess, tutor, private secretary ..	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organizations to provide lodging and boarding facilities ..	882
	Laundry services rendered by organizations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning services ..	883
	Hairdressing, other services rendered by organizations and individuals, such as, those by barber, hairdressing saloon and beauty shops ..	884
	Services rendered by portrait and commercial photographic studios ..	885
89	*Services (not elsewhere classified)*	
	Services rendered by organizations or individuals not elsewhere classified ..	890
Division 9—Activities not adequately described		
90	*Activities unspecified and not adequately described. (This includes new entrants to the labour market)*	
	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified ..	900
	Fresh entrants to the Labour Market ..	999

10. **Table B-V—Occupational classification by sex of persons at work other than cultivation** :— This Table gives the occupational classification of persons who are working in non-agricultural occupation, separately for Total and Urban. Divisions, Groups and Families, according to National Classification of Occupations, are shown in it. Information regarding persons working in household industry and non-household industry is also supplied.

11. Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of families of Divisions 7-8), have not been shown in this Table, but are given in the Appendix. Divisions thus affected are marked with an asterisk (*).

12. Code description of families not appearing in this Table are given below :

000 Architects
001 Civil Engineers (including Overseers)
002 Mechanical Engineers
003 Electrical Engineers
004 Chemical Engineers
005 Metallurgical Engineers
006 Mining Engineers
007 Surveyors
009 Architects, Engineers, and Surveyors, n. e. c.
010 Chemists except Pharmaceutical Chemists
011 Pharmaceutical Chemists
012 Physicists
013 Meteorologists
014 Geologists and Geophysists
015 Mathematicians
019 Chemists, Physicists, Geologists and other Physical Scientists, n. e. c.
020 Biologists and Animal Scientists
021 Veterinarians
022 Silviculturists
023 Agronomists and Agricultural Scientists
029 Biologists, Veterinarians, Agronomists and Related Scientists, n. e. c.
031 Physicians, Ayurvedic
032 Physicians, Homeopathic
034 Physiologists
035 Dentists
039 Physicians, Surgeons and Dentists, n. e. c.
042 Nursing Attendants and Related Workers
043 Pharmacists and Pharmaceutical Technicians
044 Vaccinators
045 Physiotherapists, Masseurs and Related Technicians
046 Sanitation Technicians
047 Optometrists and Opticians
049 Medical and Health Technicians, n. e. c. (excluding Laboratory Assistants, see 091)
050 Teachers, University
051 Teachers, Secondary Schools
053 Teachers, Nursery and Kindergarten Schools
060 Judges and Magistrates
062 Law Assistants
069 Jurists and Legal Technicians, n. e. c. (including Petition Writers)
070 Economists
072 Statisticians
073 Geographers
074 Psychologists and actuaries
075 Personnel Specialists
077 Sociologists and Anthropologists
078 Historians, Archeologists, Political Scientists and Related Workers
079 Social Scientists and Related Workers, n. e. c.
080 Authors
081 Editors, Journalists and Related Workers
082 Translators, Interpreters and Language Specialists
083 Painters, Decorators and Commercial Artists
084 Sculptors and Modellers
085 Actors and Related Workers
086 Musicians and Related Workers
087 Dancers and Related Workers
089 Artists, Writers and Related Workers, n. e. c.
090 Draughtsmen
091 Laboratory Assistants

099 Science and Engineering Technicians, n. e.-c.
0X3 Librarians, Archivists and Related Workers
0X8 Political Workers (who are not elected officials)
0X9 Other Professional, Technical and Related Workers, n. e. c.
102 Administrators and Executive Officials, Local Bodies
104 Village Officials
109 Administrators and Executive Officials, Government, n. e. c.
110 Directors and Managers, Wholesale Trade
111 Directors and Managers, Retail Trade
120 Directors, Managers and Working Proprietors, Banks
121 Directors, Managers and Working Proprietors, Insurance
129 Directors, Managers and Working Proprietors, Financial Institutions, n. e. c.
132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary
136 Directors, Managers and Working Proprietors, Other Services
139 Directors, Managers and Working Proprietors, n. e. c.
202 Ticket Sellers, Ticket Inspectors including ushers and Ticket Collectors (Excluding those on moving Transport)
220 Computing Clerks and Calculating Machine Operators
221 Punch Card Machine Operators
229 Office Machine Operators, n. e. c.
310 Agents and Salesmen, Insurance
311 Agents, Brokers and Salesmen, Real Estate
312 Brokers and Agents, Securities and Shares
313 Auctioneers
314 Valuers and Appraisers
319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n. e. c.
329 Commercial Travellers and Manufacturers' Agents, n. e. c.
339 Salesmen, Shop Assistants and Related Workers, n. e. c.
340 Money-Lenders (including Indigenous Bankers)
341 Pawn-Brokers
400 Cultivators (Owners)
401 Cultivators (Tenants)
402 Farm Managers, Inspectors and Overseers
403 Planters and Plantation Managers
410 Farm Machinery Operators
412 Gardners (malis)
413 Tappers (Palm, Rubber trees, etc.)
414 Agricultural Labourers
415 Plantation Labourers
419 Farm Workers, n. e. c.
420 Hunters
421 Trappers
429 Hunters and Related Workers, n. e. c.
430 Fishermen, Deep Sea
431 Fishermen, Inland and Coastal Waters
432 Conch and Shell gatherers, Sponge and Pearl Divers
439 Fishermen and Related Workers, n. e. c.
440 Forest Rangers and Related Workers
442 Log Fellers and Wood Cutters
443 Charcoal Burners, Kattha makers and Forest Product Processers
449 Loggers and other Forestry Workers, n. e. c.
501 Quarrymen
502 Drillers, Mines and Quarries
503 Shot Firers
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas
520 Mineral Treaters
590 Miners, Quarrymen and Related Workers, n. e. c.
600 Deck Officers and Pilots, Ship
601 Ship Engineers
610 Deck Ratings (Ship), Barge Crews and Boatmen

611 Engine-Room Ratings, Firemen and Oilers, Ship
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators
630 Drivers
631 Firemen
640 Tramcar Drivers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n. e. c. (including Palki and Doli Bearers)
650 Conductors
651 Guards
652 Brakesmen
661 Traffic Controllers
662 Signalmen and Pointsmen
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
673 Teleprinter Operator
681 Messengers (including Dak Peons)
690 Ticket Sellers, Ticket Inspectors including ushers and Ticket Collectors on moving Transport
691 Conductors, Road Transport
693 Inspectors, Traffic Controllers and Despatchers, Communication
694 Workers in Communication Occupations, n. e. c.
700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.
701 Blow-room Workers and Carders
703 Warpers and Sizers
705 Pattern Card Preparers
706 Bleachers, Dyers and Finishers (excluding Printers)
707 Knitters and Lace Makers
711 Hat and Head-gear Makers
712 Furriers
713 Upholsterers and Related Workers
714 Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
715 Sewers, Embroiderers and Darners, Textile and Fur Products
719 Tailors, Cutters, Furriers and Related Workers, n. e. c.
721 Cutters, Lasters, Sewers, Footwear and Related Workers.
722 Harness and Saddle Makers
729 Leather, Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers, n. e. c.
730 Furnacemen, Metal
731 Annealers, Temperers and Related Heat Treaters
732 Rolling Mill Operators, Metal
734 Moulders and Coremakers
735 Metal Drawers and Extruders
740 Precision instrument Makers, Watch and Clock Makers and Repairmen
742 Jewellery Engravers
750 Fitter-Machinists, Tool-makers and Machine Tool Setters
751 Machine Tool Operators, Knife Makers
752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)
755 Plumbers and Pipe Fitters
756 Welders and Flame Cutters
757 Metal Plate and Structural Metal Workers
758 Electro-Platers, Dip Platers and Related Workers
759 Tool-Makers, Machinists, Plumbers, Welders, Platters and Related Workers n. e. c. (including Metal-engravers other than printing)
760 Electricians, Electrical Repairmen and Related Electrical Workers
761 Electrical and Electronics Fitters
762 Machanics-Repairmen, Radio and Television
763 Installers and Repairmen, Telephone and Telegraph
764 Linemen and Cable Jointers
769 Electricians and Related Electrical and Electronics Workers, n. e. c.
771 Shipwrights and Boat Builders (Wood)

772 Sawyers and Wood Working Machinists
773 Coach and Body Builders
774 Cart Builders and Wheel Wrights
780 Painters and Paper Hangers
791 Bricklayers, Plasterers, Masons
792 Glaziers
793 Cement Finishers and Terrazzo and Mosaic Workers
794 Hut Builders and Thatchers
795 Well Diggers
800 Type-setting Machine Operators
801 Compositors
802 Proof-Readers and Copy Holders
803 Printers (Paper)
804 Printers (Textile)
805 Photo-Litho Operators, Photo-Lithographers
806 Engravers, Etchers and Block Makers (Printing)
807 Stereotypers
808 Book Binders
809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n. e. c.
810 Furnacemen, Kilnmen and Ovenmen
812 Blowers and Benders, Glass
813 Moulders and Pressers, Glass
814 Grinders, Cutters, Decorators and Finishers
815 Pulverisors and Mixers, Cement, Clay and other Ceramics
819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n. e. c.
822 Dairy Workers (Non-Farm)
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, makers of Ice n. e. c.
830 Batch and Continuous Still Operators
831 Cookers, Roasters and other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers, Chemical and Related Processes
833 Paper Plup Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n. e. c..
840 Curers,-Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n. e. c.
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Plet Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
860 Checkers, Testers, Sorters, Weighers and Counters, Weighmen
861 Packers, Labellers and Related Workers
870 Operators, Stationary Engines and Related Equipment
871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and other Construction Machinery, n. e. c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n. e. c.
900 Fire Fighters and Related Workers
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
913 Ayas, Nurse-maids
919 House Keepers, Cooks, Maids and Related Workers, n. e. c.
930 Building Care-takers
951 Dry-cleaners and Pressers
960 Athletes, Sportsmen and Related Workers
970 Movie Camera Operators

979 Other Photographers

990 Embalmers and Undertakers

X00 Workers, without Occupations; Matriculates and above

X08 Workers without Occupations, Literates

X09 Workers without Occupations, Other

X90 Workers not reporting occupation

13. **Table B-VI—Occupational Divisions of persons at work other than at cultivation, classified by sex, broad age-groups and educational levels in Urban Areas only**—This Table gives the data up to Divisions of the National Classification of Occupations for all the urban areas in the district. It deals with literate workers other than those who work as cultivators and as agricultural labourers. The population under each division is classified by four broad age-groups 0—14, 15—34, 35—59, 60+ and Age not stated, which are further cross-tebulated according to the educational levels.

14. **Table B-VII Part A—Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural Labourer**—This Table is a cross-tabulation in the case of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labourer or (iii) household industry. This is an important Table as it shows the extent to which cultivation is supplemented by household industry and vice versa. The type of household industries for the district are shown in Divisions and Major Groups of I.S. I. C. separately for Total, Rural and Urban. Major Groups having secondary workers less than 5 per cent of the principal workers are omitted from this Table and shown in Appendix. The affected Divisions are marked with an asterisk (*).

15. **Table B-VII Part B—Industrial Classification by sex of persons working in Non-household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry**—This Table gives the data on the basis of cross-tabulation in the case of persons who are principally engaged in non-household industry, etc. It shows the principal workers in each Division and Major Group followed by additional workers in each Division and Major Group.I t is presented separately for Total, Rural and Urban.

16. **Table B-VIII Parts A and B—Persons unemployed aged 15 and above by sex, broad age-groups and educational levels**—This Table which deals with the classification of unemployed persons by their educational standards and age-groups is presented in two parts : Part A for the Urban areas and Part B for the Rural areas in this district. Both these parts give separate data in respect of those who are seeking employment for the first time and for those persons who were employed before but are now out of employment and are seeking work. In the first case the broad age-groups are 15—19, 20—24, 25—29, 30—34, 35+ and in the latter case 15—19, 20—24, 25—34, 35—44, 45—59 and 60+. The educational levels as given in Table B-III Part A and B are followed in these Tables respectively for finding out the educational qualifications of the unemployed persons in the respective age-groups.

17. **Table B-IX—Persons not at work classified by sex, broad age-groups and type of activity**—This Table deals with the categorization of non-workers according to their eight-fold activities. The data for the broad age-groups is given separately for Total, Rural and Urban in respect of the district; but for each subdivision and police station it is supplied for Rural only. The study of age-groups with reference to age-tables will throw light on the children of school going age who are not attending school and persons in working age-groups who are not working.

APPENDIX TO TABLE B-IV PART C

Minor groups having less than 1 per cent of the workers of the respective divisions, (less than 0·5 per cent in case of minor groups of Division 2 & 3) which have been omitted in the Table B-IV Part C are shown in this Appendix. The figures of these minor groups giving the number of minor group and the number of male and female workers separately for household industry and non-household industry are shown in run on lines.

2. The following abbreviations are used :—

H. I. — Household Industry
N. H. I. — Non-household Industry
T — Total U — Urban
M — Males F — Females

3. The three digit code number which represents the minor group is followed by household industry or non-household industry with the respective male and female workers within brackets.

006	T-NHI (M-2, F-0)	U-NHI (M-2, F-0)

	IX ...	8,637	4,955	3,682	50	48	2
Group	X8 ... *Workers Reporting Occupation Unidentifiable or Unclassifiable*						
	Total ...	**8,637**	**4,955**	**3,682**	**50**	**48**	**2**
	IX ...	8,637	4,955	3,682	50	48	2
Family	X80 ... Workers reporting occupation unidentifiable or unclassifiable						
	Total ...	**8,637**	**4,955**	**3,682**	**50**	**48**	**2**
	IX ...	8,637	4,955	3,682	50	48	2

APPENDIX TO TABLE B-V

Families having less than 1 per cent of the workers of the respective Division (less than 0·5 per cent in case of families of Divisions 7-8), which are omitted in Table B-V have been shown in this Appendix.

2. Abbreviations—The following symbols and abbreviations are used :

III—In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV—At Household Industry

V—In Manufacturing other than Household Industry

VI—In Construction

VII—In Trade and Commerce

VIII—In Transport, Storage and Communications

IX—In Other Services

M—Males F—Females

3. The three digit code number which represents the occupational family is followed by the industrial category in roman figures with its respective number of male and female workers inside the brackets.

APPENDIX TO TABLE B-VII PART A

This appendix shows the Major Groups of Household Industry where persons having Secondary work are less than 5 per cent of the persons at the Principal work. The two digit code numbers stand for the Major Groups of I. S. I. C. The figures in brackets represent the male and female workers under the Major Groups shown before the brackets.

The following abbreviations have been used in this appendix :—

T—Total
R—Rural
U—Urban
II—As Cultivator
III—As Agricultural Labourer
M—Male F—Female

NIL

TABLE-B SERIES

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables are compiled for the first time in 1961 Census. The contents of each Table appearing in this volume are briefly explained below :

2. **Table B-X—Sample Households (i) engaged neither in Cultivation nor Household Industry, (ii) engaged in Cultivation or Household Industry, but not in both and (iii) engaged both in Cultivation and Household Industry for All areas**—This Table is prepared on a 20 per cent sample of households and for Total, Rural and Urban households. All the households are divided into four categories :

(*i*) Households engaged neither in Cultivation nor in Household Industry

(*ii*) Households engaged in Cultivation only

(*iii*) Households engaged in Household Industry only

(*iv*) Households engaged both in Cultivation and Household Industry

This Table is important as it divides all the households into three main sectors of economic activity. The information is supplied for the district and each police station in the district.

3. **Table B-XI—Sample Households engaged in Cultivation classified by Interest in Land and Size of Land Cultivated in Rural and Urban areas separately**—This Table, which is prepared on 20 per cent sample households for Rural and Urban areas separately, presents a more detailed examination of the Cultivating Households which have been separated in the previous Table. Households engaged in Cultivation are classified according to the size of land cultivated. The holding sizes in acres are less than 1 acre, 1·0—2·4, 2·5—4·9, 5·0—7·4, 7·5—9·9, 10·0—12·4, 12·5—14·9, 15·0—29·9, 30·0—49·9 and 50+ acres. It is further cross-tabulated by interest in land, namely, (*i*) land owned or held from Government, (*ii*) held from private persons or institutions for payment in money, kind or share and (*iii*) partly held from Government and partly from private persons for payment in money, kind or share. This Table gives useful information on the size of the holdings in this district and also in each police station.

4. **Table B-XII—Sample Households engaged in Cultivation only classified by Size of Land Cultivated and number of Family Workers and Hired Workers in Rural and Urban areas separately**—This Table, which is compiled on a 20 per cent sample of households, has made further study of households engaged in cultivation. Each household having a particular size of holding mentioned in Table B-XI has been cross-tabulated with reference to number of persons working in cultivation. Cultivating households according to number of persons of either sex engaged in cultivation are classified into five groups, namely, 1 person, 2 persons, 3—5 persons, 6—10 persons and more than 10 persons. The hired workers are separated from family workers whose sex-composition is also given. This is an important Table as the size and scale of agricultural enterprise in the Rural and Urban areas of this district and in the Rural areas of each police station can be deduced from it.

5. **Table B-XIII—Sample Households engaged both in Cultivation and Household Industry showing size of land cultivated classified by Principal Household Industry in Rural and Urban areas separately**—This Table which is prepared on a 20 per cent sample of households for Rural and Urban areas, deals with Households engaged both in Cultivation and Household Industry. The nature of Household Industry in which cultivating households with a particular size of holding are engaged, are presented in this Table. The nature of the Household Industry is indicated by Divisions and Major Groups of I. S. I. C. This Table throws light on Household Industries which are carried on as ancillary to cultivation. It endeavours to establish correlation between size and scale of cultivation with that of Household Industry.

6. **Table B-XIV—Sample Households engaged only in Household Industry classified by Principal Household Industry in All areas**—PART A—**Households classified by Major Groups of Principal Household Industry and number of persons engaged,** PART B—**Households classified by Minor Groups of Principal Household Industry**—This Table which relates to households engaged in Household Industry only is prepared on a 20 per cent sample of households. It is presented in two parts. Part A deals with Households classified by Major Groups of Principal Household Industry and number of persons engaged. The number of persons engaged in each Industry are grouped under 1, 2, 3—5, 6—10 and more than 10 persons. This information is supplied for Divisions and Major Groups of I.S.I.C. separately for Total, Rural and Urban. Part B deals with Households classified by Minor Groups of Household Industry. Number of Households engaged in Household Industry under each Minor Group are shown in it for all areas.

7. **Table B-XV—Sample Households engaged both in Cultivation and Household Industry classified by Size of Land in Rural and Urban areas separately**—This Table which is prepared on 20 per-cent sample of Households shows the households engaged both in Cultivation and Household Industry by size of holdings in Rural as well as Urban areas. An analysis has been made of persons working in these households with reference to the size of the holdings. In cases where more than I person are employed, the number of family workers and hired workers are separated. This Table establishes correlationship between the scale of Household Industries and the scale of Cultivation.

8. **Table B-XVI—Sample Principal Household Industry classified by period of working and total number of workers engaged in Household Industry in All areas**—This Table which is confined to Principal Household Industry only, is prepared separately for Total, Rural and Urban areas for this district on the basis of 20 per cent sample of Households. It gives data in respect of Households engaged both in Household Industry and Cultivation or in Household Industry without Cultivation. Household Industries dealt in this Table are shown by Divisions and Major groups. As many of the Household Industries are seasonal, this Table indicates the number of Households engaged in industrial occupations for different periods in the year ranging from 1—3 months, 4—6 months, 7—9 months and 10 months to 1 year.

9. **Table B-XVII—Sample Households classified by (i) number of male and female members by size of Households and (ii) engaged (*a*) neither in Cultivation nor in Industry, (*b*) in Household Industry only and (*c*) in Cultivation sub-classified by size of land cultivated**—This Table which is compiled on a 20 per cent sample of Households gives data for Total, Rural and Urban areas of this district. It is intended to show family sizes distributed according to one member, 2—3 members, 4—6 members, 7—9 members and 10 members and over. This is cross-tabulated by households of rural areas engaged (*i*) neither in Cultivation nor in Household Industry, (*ii*) in Household Industry only and (*iii*) in Cultivation. Households of rural areas engaged in Cultivation are further classified according to the sizes of the holding, i. e., less than 1 acre, 1·0—2·4, 2·5—4·9, 5·0—7·4, 7·5—9·9, 10·0—12·4, 12·5—14·9, 15·0—29·9, 30·0—49·9 and 50+ acres. This Table is important as it endeavours to correlate the size of the Household with the economic activity of the Household, particularly in the Rural areas.

10. The total number of Households and its sexwise population of this district is given below :

Total Rural Urban	Total No. of Households	Total Household Population		
		Persons	Males	Females
1	2	3	4	5
Total	139,558	742,932	374,811	368,121
Rural	132,368	710,981	356,863	354,118
Urban	7,190	31,951	17,948	14,003

TABLE B-X—HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY *FOR ALL AREAS*

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of their respective Divisions which are omitted from the main Table are shown in this Appendix. These Major Groups followed by number of Households together with the period of working within brackets, are given in run on lines. It is prepared separately for Total, Rural and Urban areas.

The following symbols are used :—

With Cultivation

1 to 3 months	..	A
4 to 6 months	..	B
7 to 9 months	..	C
10 to 12 months	..	D
Months not stated	..	X

Without Cultivation

1 to 3 months	..	E
4 to 6 months	..	F
7 to 9 months	..	G
10 to 12 months	..	H
Months not stated	..	Y

Total— 00 (X-1); 01 (D-1); 02 (H-2); 21 (B-1, D-2, H-1); 22 (C-1, H-1); 25 (B-1, X-1); 27 (B-1, C-3, D-11, X-1, H-9); 31 (B-4, D-5, F-1, H-11); 32 (H-2); 33 (D-1, F-1); 38 (B-2, D-2); 39 (A-9, B-13, C-2, D-32, X-2, E-3, F-2, G-1, H-17, Y-2).

Rural— 00 (X-1); 01 (D-1); 02 (H-2); 21 (B-1, D-2, H-1); 22 (C-1, H-1); 25 (B-1, X-1); 27 (B-1, C-3, D-10, X-1, H-5); 31 (B-4, D-5, F-1, H-8); 32 (H-1); 33 (D-1, F-1); 38 (B-2, D-2); 39 (A-9, B-13, C-2, D-32, X-2, E-3, F-2, G-1, H-15, Y-2).

Urban— 27 (D-1, H-4); 31 (H-3); 32 (H-1); 39 (H-2).

TABLE-C SERIES

SOCIAL AND CULTURAL TABLES

The contents of the Social and Cultural Tables appearing in this volume are briefly explained below :

2. **Table C-I—Composition of Sample Households by Relationship to Head of Family classified by size of land cultivated (Based on 20 per cent sample)**—This Table shows the family composition of households engaged in different occupations, namely, (*i*) households engaged neither in cultivation nor in household industry, (*ii*) households engaged in household industry and (*iii*) households engaged in cultivation. The last category of households are further split up according to the size of the land cultivated by them. It is presented separately for Total, Rural and Urban.

3. This Table gives the sex composition of the members in a household. Heads of households and their spouses, family members and unrelated persons are shown separately. Heads of households can be males or females. Married relations are separated from unmarried family members and among the former the married sons are shown distinct from other married relations. This Table may be of sociological interest indicating the strength of the joint family system.

4. The heads of households are shown as less than the total number of households in some areas on account of the fact that some enumerators had apparently not indicated any person as the head of household in the 'Population Record' where the conventional head of household was absent from the household at the time of enumeration and had not been enumerated in that household.

5. **Table C-II—Age and Marital Status**—This Table shows the marital status of all enumerated persons by their age-groups and sexwise, separately for Total, Rural and Urban. The age-groups conform to international requirements. This is an important demographic Table from which it can be ascertained whether proportions in various marital status conditions have increased or decreased since the last Census and whether any trend is observed in the age of marriage. The data on married females by age-groups can be utilized for forecasting the future births from age specific birth rates.

6. **Table C-III—Age, Sex and Education**—This Table is presented in three parts :

Part A—Age, Sex and Education in All areas

Part B—Age, Sex and Education in Urban areas only

Part C— Age, Sex and Education in Rural areas only

The information which is supplied for broad educational levels is given for five-yearly age-groups up to 34, one age-group 35—44, another for 45—59 and still another for 60+. The educational levels are different for Urban and Rural areas. They are the same as given in Table B-III Parts A and B. This Table is important as it measures the growth of literacy in the total population as well as in different age-groups since last Census.

7. **Table C-V—Mother-tongue (Alphabetical order)**—This Table shows the large number of languages and dialects spoken in the district.

8. **Table C-VII—Religion**—This Table shows the distribution of population according to Religion. It is prepared for Total and Rural areas only.

9. **Table C-VIII—Scheduled Castes and Scheduled Tribes :**

Part A— Classification by literacy and industrial category of Workers and Non-workers among Scheduled Castes

Part B— Classification by literacy and industrial category of Workers and Non-workers among Scheduled Tribes

This Table which gives separate data for Total, Rural and Urban is presented in two parts. Part A relates to the Scheduled Castes and Part B to the Scheduled Tribes. Both the parts show the distribution of population of Scheduled Castes and Scheduled Tribes respectively by literacy and classification of workers into nine industrial categories and the total number of non-workers. This is a general Table prepared for the first time.

TABLE C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20 per cent sample)

TABLE-E SERIES

HOUSING AND ESTABLISHMENT TABLES

Table E-I—Census Houses and the uses to which they are put—This Table gives details of Census Houses according to their use. It is based on full count figures and furnishes data in respect of the district as a whole. Figures relating to smaller administrative units, viz., subdivisions and police stations with rural and urban break-up will be available in the Report on Housing and Establishments (Census of India, 1961, Vol. XII—Orissa Part IV-B).

2. Census Houses which did not contain any household during house-listing operation have been shown as vacant in this Table. Occupied Census Houses have been classified into various categories as furnished in the Table, such as, dwellings, shop-*cum*-dwellings, workshop-*cum*-dwellings, etc.

3. To facilitate study of the Table, definitions of terms used are furnished below :

Census House—A Census House means a structure or a part of a structure inhabited or vacant or a dwelling, a shop-*cum*-dwelling or a place of business, workshop, school, etc., with a separate main entrance.

Shop and shop-cum-*dwelling*—A shop is a place where articles are sold for cash or for credit.

When a part of the Census House is used as shop and the other part as dwelling it is termed as shop-*cum*-dwelling.

Workshop, factory and workshop-cum-*dwelling*—A Census House is considered to be a factory or a workshop if some kind of production, processing, repair or servicing is undertaken therein or if goods or articles are made and sold. The definition is broad enough to cover all kinds of work premises beginning from a big factory to a petty workshed where activities connected with production, processing, etc., are undertaken, however mearge the scale might be.

When a part of the workshop is used as residence, the Census House is treated as workshop-*cum*-dwelling.

Business Houses—Business Houses are those that are meant for transactions in money or commercial commodities, e. g., bank, exchange, etc.

4. **Table E-II—Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwelling**—This Table furnishes details in respect of tenure status of Households living in Census Houses used wholly or partly as dwelling. It has been prepared on the basis of 20 per cent sample. It gives figures for the district as a whole. Statistics in respect of smaller untis, such as, subdivisions and police stations with rural and urban break-up are given in the Report on Housing and Establishments. The total, rural and urban break-up have been further sub-classified according to the tenure status of Census Households.

The term "Census Household" occurring in this Table means a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

"Shop-*cum*-dwelling" and "Workshop-*cum*-dwelling" have been explained in the fly-leaf to Table E-I.

5. **Table E-III—Census Houses used as Factories and Workshops classified by industry, power and no power used and size of employment**—This Table gives the distribution of workshops and factories in the district with rural and urban break-up by different kinds of fuels used. Factories and workshops are divided into five categories according to the fuel, used, viz., factories and workshops run by—

(*i*) Electricity

(*ii*) Liquid fuel

(*iii*) Coal, wood and bagasse

(*iv*) Other power and

(*v*) No power

Factories and workshops classified by different kinds of fuels as above, have further been subdivided by size of employment, viz., factories employing—

1 Person

2—5 Persons

6— 9 Persons

10—19 Persons

20—49 Persons

50—99 Persons and

100 Persons and above

6. Size of employment has been determined on the basis of average number of persons employed per day in a factory or workshop. The average number of persons working per day has been worked out from the total number of workers including apprentices, either paid or unpaid employed in the factory or workshop including the owner or proprietor and any of his family members (if working) who were employed during the week 'preceding the date of enumerator's visit.

7. Figures furnished in Col. 1 of this Table relate to broad group of industries coded under the Indian Standard Industrial Classification Scheme. Further break-up of these industries is available in the Report on Housing and Establishments. The system of notation adopted in the scheme of classification of industries has been explained elsewhere in this volume for convenience of reference.

8. **Table E-IV—Distribution of Sample Households living in Census Houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof**—Like Table E-II, this Table has also been prepared on 20 per cent sample. The number of sample households living in Census Houses used wholly or partly as dwelling has been furnished in this Table separately for each type of predominant materials of wall and of roof. The figures shown are for the district as a whole. Statistics in respect of smaller territorial units, such as, subdivisions and police stations will be available in the Report on Housing and Establishments. This Table classified various types of predominantly used wall materials into nine categories, viz.,

(1) Grass, leaves, reeds or bamboo

(2) Timber

(3) Mud

(4) Unburnt bricks

(5) Burnt bricks

(6) C. I. sheets or other metal sheets

(7) Stone

(8) Cement Concrete

(9) Other materials

9. Likewise, the materials which predominantly compose the roof have been shown under seven different classes, viz.,

(1) Grass, leaves, reeds, thatch, wood or bamboo

(2) Tiles, slate or shingle

(3) Corrugated iron, zinc or other metal sheets

(4) Asbestos cement sheets

(5) Brick and lime

(6) Concrete and stone

(7) Other materials

'Roof' means the outer surface of the roof exposed to weather but not the ceiling. In case of multistoreyed building, the intermediate floors have been treated as the roofs of the corresponding lower floors.

10. **Table E-V—Sample Households classified by number of members and by number of rooms occupied**—This Table, which has been prepared on 20 per cent sample relates to households classified by number of members by males and females separately and by number of rooms occupied. It gives the break-up of the total sampled households into households either having no regular room or each having one room, two rooms, three rooms, four rooms and five rooms or more. The figures furnished in the Table are in respect of the district as a whole. Statistics in respect of smaller territorial units, such as, subdivisions and police stations have been furnished in the Report on Housing and Establishments.

11. A room is defined as a structure which usually has four walls with one door way at least and with roof overhead and is wide and long enough for a person to sleep in, i. e., it should be at least 6 ft. long. Unenclosed verandah, kitchen, store, garage, cattleshed and latrine are not treated as rooms.

TABLE-SCT SERIES

TABLES ON SCHEDULED CASTES AND SCHEDULED TRIBES

Special Tables have been devised during the Census of 1961 to give the population figures for each Scheduled Caste and Scheduled Tribe by their religion, age, marital status, education, etc. The contents of each Table appearing in this volume are briefly described below.

2. Table SCT-I—Industrial Classification of Persons at work and of Non-workers by sex—This Table is presented in two parts :

Part A— Industrial Classification of Persons at work and of Non-workers by sex for Scheduled Castes only

Part B— Industrial Classification of Persons at work and of Non-workers by sex for Scheduled Tribes only

This Table gives the population of each Scheduled Caste and Scheduled Tribe separately for Rural and Urban. It also shows in which section of industry, members of each Scheduled Caste and Scheduled Tribe are working. Information regarding each caste and tribe which are often required for drawing up various welfare schemes are given in this Table.

3. The total population of the Scheduled Castes and Scheduled Tribes in the district, each subdivision and police station is given in the statement below :

District/Subdivision/Police Station		Scheduled Castes			Scheduled Tribes		
		Persons	Males	Females	Persons	Males	Females
1		2	3	4	5	6	7
KEONJHAR DISTRICT	...	**102,942**	**51,163**	**51,779**	**350,389**	**174,156**	**176,233**

Chamakpur PS	...	5,169	2,568	2,601	29,726	14,900	14,826
Barbil PS	...	7,178	3,229	3,949	21,376	10,537	10,839

4. Table SCT-II—Age and Marital Status—This Table is presented in two parts :—

Part A— Age and Marital Status for Scheduled Castes

Part B— Age and Marital Status for Scheduled Tribes

This Table which corresponds to Table C-II supplies information regarding the marital status of the individual Scheduled Caste and Scheduled Tribe in the broad age-groups of 0—14, 15—44, 45+ and age not stated.

5. Table SCT-III Part A—(i) Education in Urban Areas only for Scheduled Castes, (ii) Education in Urban Areas only for Scheduled Tribes; Part B—(i) Education in Rural Areas only for Scheduled Castes, (ii) Education in Rural Areas only for Scheduled Tribes—The literacy and educational levels for each Scheduled Caste and Scheduled

Tribe are shown in this Table. The different educational levels for Urban areas and Rural areas are given below :—

Urban areas	Rural areas
Illiterate	Illiterate
Literate (without educational level)	Literate (without educational level)
Primary or Junior Basic	Primary or Junior Basic
Matriculation or Higher Secondary	Matriculation and above
Technical diploma not equal to degree	
University degree or Post-graduate degree other than technical degree	
Technical degree or diploma equal to degree or Post-graduate degree	

6. **Table SCT-IV—Religion**—This Table is given in two parts. Part A relates to the Scheduled Castes and Part B to the Scheduled Tribes. Scheduled Castes may belong to either Hindu or Sikh religion only. None of the members of Scheduled Castes in this State have returned themselves as Sikh. As all the Scheduled Castes are Hindus and as their population is already available in SCT-I Part A, the corresponding portions of this Table is omitted.

7. Part B shows the Scheduled Tribes who may belong to any religion. The religions returned in this State are Christian, Hindu and Sarna.

8. **Table SCT-V Part A—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for members of Scheduled Castes(Based on 20 per cent sample) and Part B—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only for members of Scheduled Tribes (Based on 20 per cent sample)**—This Table which corresponds to Household Economic Table B-XI gives useful information regarding the size of holding of Scheduled Castes and Scheduled Tribes separately for rural areas only. The interest in land is classified into three categories mentioned below :

I. Owned or held from Government
II. Held from private persons or institutions for payment in money, kind or share
III. Partly held from Government and partly from private persons for payment in money, kind or share

Each of the above categories are cross-tabulated according to the size of the land cultivated by each household.

9. **Table SC-I—Persons not at work Classified by Sex, Type of Activity and Educational Levels for Scheduled Castes**—This is a special Table prepared for total Scheduled Castes and not for individual caste. Three categories of non-working population, namely, full-time students, persons seeking employment for the first time and persons employed before but now out of employment and seeking work are shown in this Table along with the total non-workers in this district. It gives useful information regarding students and unemployed persons among the Scheduled Castes. The above categories of non-workers are further classified according to their broad educational levels indicated below :

Illiterate
Literate (without educational level)
Primary or Junior Basic
Matriculation or Higher Secondary
Above Matriculation or Higher Secondary

10. **Table ST-I—Mother-tongue and Bilingualism for Scheduled Tribes**—This is one of the Special Tables meant for Scheduled Tribes only. This Table displays the peculiar languages and dialects of the tribal population. The dialect of each of the tribes is given. Those members of the tribes who have moved out of their homes and speak some other language in addition to the mother-tongue as a result of their contact with local population are also shown in this Table. This Table is very useful for the linguistic study of tribal population. It also helps to find out as to how many of the tribes have forgotten their original language after coming in contact with the local language or the language of the majority. Secondary languages having speakers less than 0·1 per cent of the population are omitted.

11. **Table ST-II—Persons not at work Classified by Sex, and Type of Activity for Scheduled Tribes**—This is the second Special Table for the Scheduled Tribes corresponding to SC-I for the Scheduled Castes. It differs from the latter Table in as much as it gives the data for each Scheduled Tribe but does not show the broad educational levels. Besides the total non-working population of each tribe, three categories of non-workers, namely, full-time students, persons seeking employment for the first time and persons employed before but now out of employment and seeking work are presented in it for this district.

VILLAGE DIRECTORY

VILLAGE DIRECTORY

The Village Directory which gives the Primary Census data in respect of each inhabited village according to the Census of 1961, shows the area in acres, number of occupied residential houses and households, total number of persons enumerated including inmates of institutions and houseless persons, population of Scheduled Castes and of Scheduled Tribes, number of literate and educated persons and the total number of workers and non-workers. In addition to these Census data, information regarding some amenities available in each village like educational institutions, medical facilities, postal and telegraphic facilities, protected drinking water supply, rural electrification and road communications are indicated in abbreviations after the name of each village. This information was obtained from different Departments of the State Government and Director of Posts and Telegraphs, Orissa Circle.

2. The inhabited villages in each police station are serially arranged and numbered. The names of uninhabited villages are also listed separately with serial number and shown at the end of each police station.

3. Relevant extract from the Primary Census Abstract showing the summary figures for the district is given at the commencement of the Table. The summary figures for each subdivision are also furnished at the beginning of each subdivision and similar figures for each police station precede the village directory of the respective police station.

4. **Area**—The area figures supplied by the local revenue authorities are adopted in column 3. They are shown in acres for each inhabited village. For other units like town, police station, subidivision, and the district, they are shown in square miles.

5. **Definitions**—Terms appearing in the column headings are defined as follows :

(i) *House*—A house means a 'Census House', that is to say, a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-*cum*-dwelling or a place of business, workshop, school, etc., with a separate main entrance.

(ii) *Occupied Residential House*—An occupied residential house is a Census House which is partly or wholly used for purpose of residence at the time of Census enumeration.

(iii) *Household*—A household means the entire group of persons who commonly live together and take their meals from a common mess unless the exigencies of work prevented any of them from doing so.

(iv) *Scheduled Caste and Scheduled Tribe*—A person is said to belong to a Scheduled Caste, if he belongs to any one of the castes specified in the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956. A person is said to belong to a Scheduled Tribe, if he belongs to any one of the tribes specified in the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1956.

(v) *Literate and Educated Persons*—A person is said to be literate if he can read and write a simple letter. An educated person is one who has passed a written examination of a recognized educational standard.

(vi) *Worker*—A worker is one who is engaged in economic activity of the following nine categories. "Work" includes not only actual work but also effective supervision and direction of work. The nine categories of economic activities mentioned above comprise persons who are engaged—(I) as Cultivator, (II) as Agricultural Labourer, (III) in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities, (IV) at Household Industry, (V) in Manufacturing other than Household Industry, (VI) in Construction, (VII) in Trade and Commerce, (VIII) in Transport, Storage and Communications and (IX) in Other Services.

I. Cultivator—A cultivator is a person who is engaged either as employer, single worker or family worker in (*a*) cultivation of land, or supervision or direction of cultivation of land owned by himself or by a member of his household or held from Government; (*b*) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

II. Agricultural Labourer—An agricultural labourer is a person who works in another person's land in lieu of wages in cash, kind or share without exercising any right of supervision or direction in matters connected with cultivation,

III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities—This category is not defined as it is self-explanatory.

IV. Household Industry—A household industry is an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. It should relate to production, processing, servicing, repairing and making and selling of goods. It does not include professions, such as, pleader or doctor or barber or washerman or astrologer.

V. Manufacturing other than Household Industry,
VI. In Construction,
VII. In Trade and Commerce,
VIII. In Transport, Storage and Communications and
IX. In Other Services.

These categories of workers are not defined separately as they are self-explanatory.

(vii) *Non-worker*—A person is said to be not working if he or she does not come under any of the categories of "Worker" mentioned above. A person who has been offered work but has not actually joined it is treated as a non-worker. The activities of non-workers have been classified into the following eight categories :—

(*a*) a full-time student or child attending school who does no other work,

(*b*) a person engaged in unpaid house duties (like housewife or other adult female) who does no other work nor help regularly even part-time in family cultivation, industry, trade or profession,

(*c*) a dependent, including an infant or child not attending school or a person permanently disabled from work because of old age or illness,

(*d*) a retired person, a rentier, a person living on agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work,

(*e*) a beggar, a vagrant, or an independent woman without indication of source of income or a person of unspecified source of existence,

(*f*) a convict in jail or an inmate of a penal, mental or charitable institution,

(*g*) a person who has not been employed before but is seeking employment for the first time, and

(*h*) a person employed before but now out of employment and seeking employment.

6. **Abbreviations**—The following abbreviations have been used in the Table :

I. *Educational Institutions*—

P for Primary School

M for Middle School

H for High School

C for Higher Institutions including Colleges

T for Technical Institutions

II. *Medical and Public Health facilities*—

D for Dispensaries

RHC for Rural Health Centres

HOS for Hospital

MP for Medical Practitioners

MCW for Maternity and Child Welfare Centres

III. *Drinking Water facilities*—

S for Safe or protected water-supply including pipes, tube-wells, etc.

IV. *Communication and Transport facilities*—

Po for Post office without telegraph office

Pto for Post office combined with telegraph office

Pco for Public call office

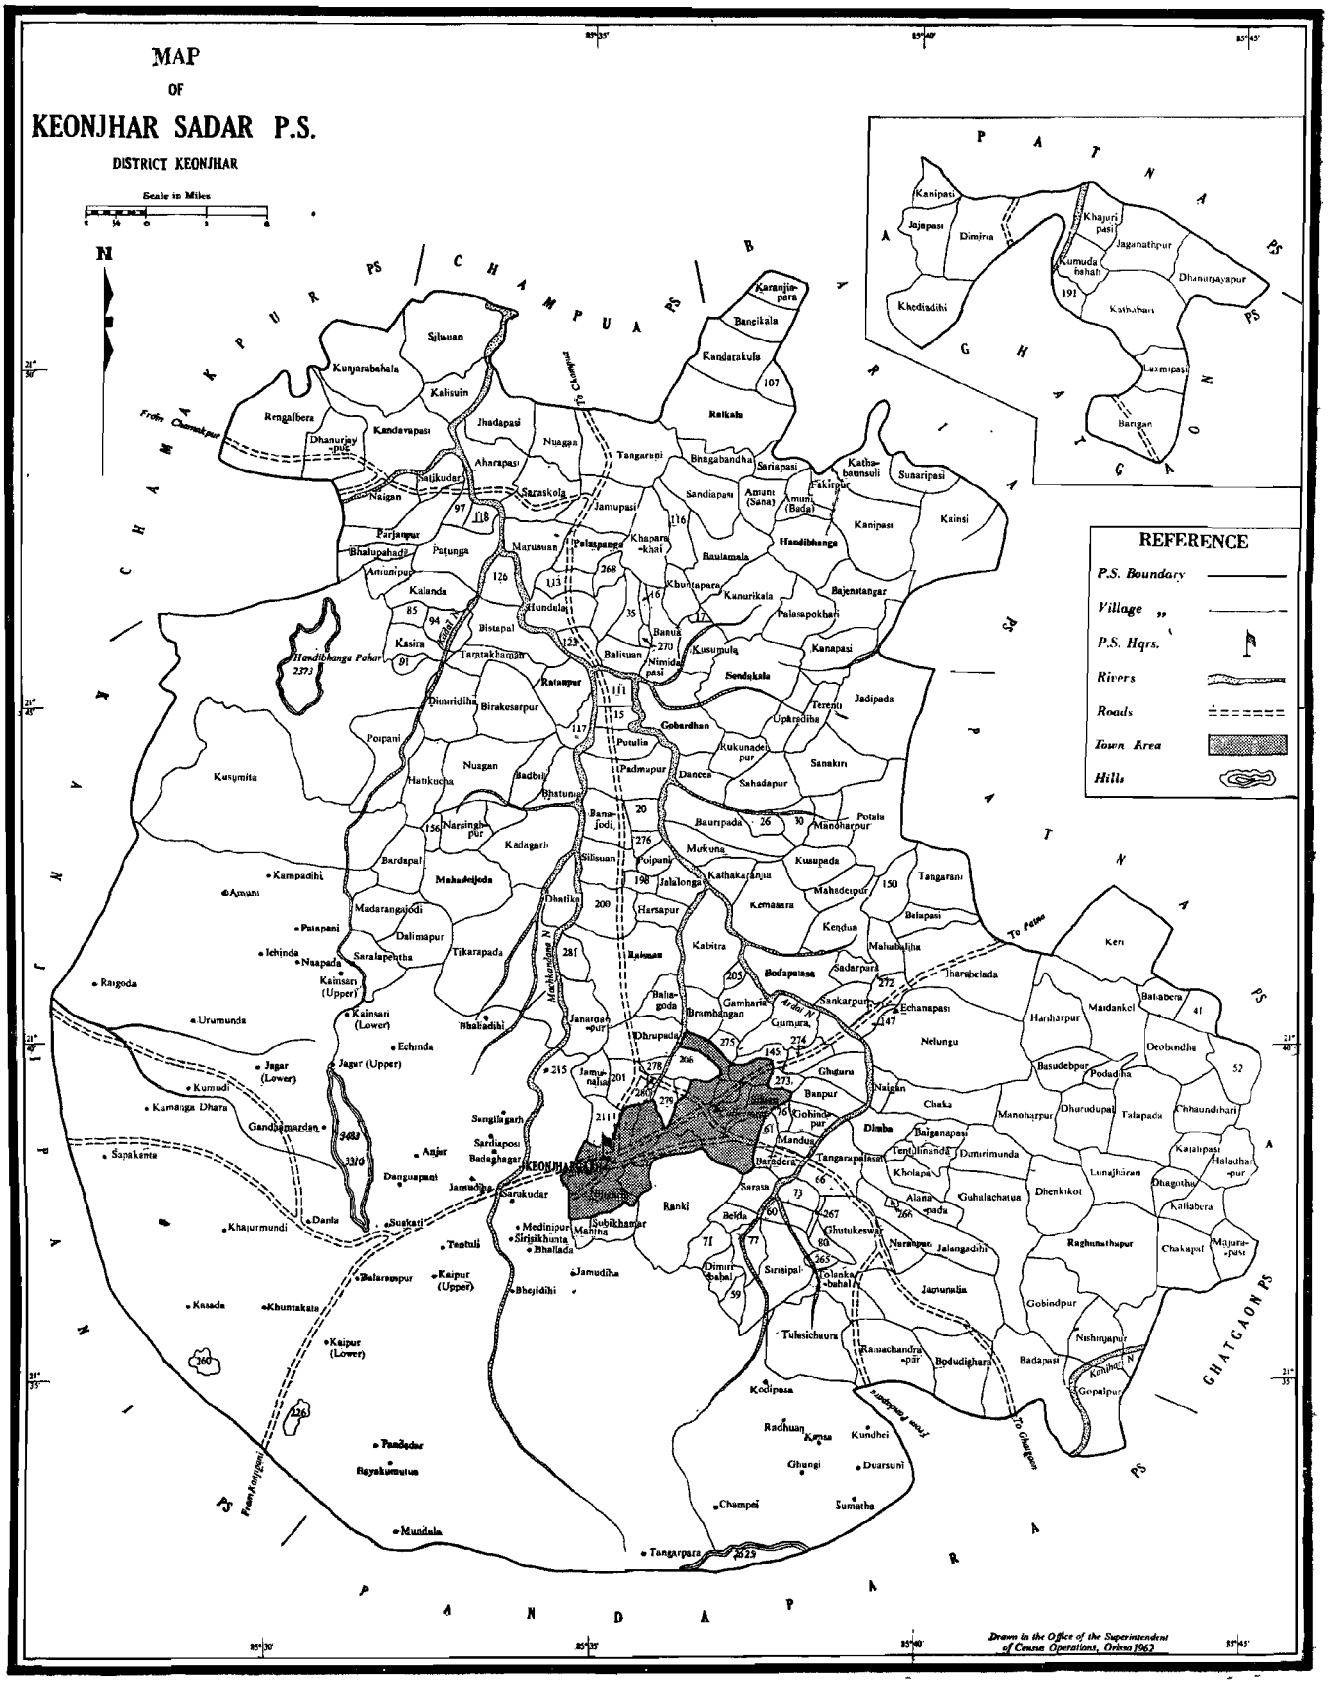

PoTo for Post office and telegraph office separately

R for Connected by road

V. *Rural Electrification*—

E for Electricity

7. The total number of persons enumerated as shown in columns 6 to 8 include the inmates of institutions and houseless persons.

LIST OF UNINHABITED VILLAGES—BARBIL PS

Sl. No.	Names of Villages
42	Matiaposi
43	Kadalibari

LIST OF INDUSTRIES IN THE DISTRICT OF KEONJHAR

The Table furnished hereafter gives a list of industries conducted in the urban and rural areas of district Keonjhar. The list has been prepared in the following manner :

Various industries existing in a particular village were enlisted at first. The villages were then arranged in the order in which they appear in the Village Directory. In this manner the list of villages within one particular police station was completed. This was followed by similar lists of other police stations, one after the other.

Indication of the existence of a particular industry is given against the village concerned, not by mentioning the descriptive name of the industry, but by recording the code number of the industry, as prescribed under the Indian Standard Industrial Classification Scheme. This code number is followed by another figure enclosed in brackets which represents the total number of establishments relating to that particular industry existing within the village concerned.

In presenting the consolidated list of a police station, first of all the aggregate list of industries for the police station as a unit has been given. This aggregate list is then broken up into a consolidated list for rural areas and a similar list for urban areas, if the police station has got both rural and urban areas. Similar procedure has been adopted in presenting the consolidated list for the district. Lastly comes the individual village list, indicating all such villages as may have one or more industries. Names of villages which have no industry of any approved type, have been omitted from the list.

The industrial code numbers have been exhibited against a village (or police station or district as the case may be) in ascending order. For example, Division "0" of the I. S. I. C. Scheme appears first, followed by Division "2 & 3".

A list of code numbers showing against each, the name of the industry to which it relates is furnished in the note to Table B-IV Part C of the General Economic Tables for convenience of reference.

TABLE ON FAIRS AND FESTIVALS IN THE DISTRICT OF KEONJHAR

This Table gives a list of villages where important fairs or festivals of the district are held. The names of the villages have been arranged police-stationwise according to their serial numbers in the Primary Census Abstract. The list includes only those fairs which attract a large number of people of the village or outside.

Column 1 of the Table gives the name of the village together with its serial number. The name of the fair or festival held in the village is furnished in Column 2 while Columns 3 and 4 respectively furnish the name of the month in which such fair is held and the approximate number of persons attending the fair.

The list is prepared on the basis of information furnished by the primary school teachers of the locality concerned to whom a list of questionnaire was circulated by post with request to furnish the replies. The number of people gathering at the fair is based on eye estimation and may, therefore, be treated as approximate. Name of the month in Column 3 is in terms of English calendar month which does not exactly coincide with the Oriya month. The name of the English month, when the festival usually falls, has therefore, been furnished in this column.

Besides the above information, a few more details were collected through the agency of the primary school teachers. Such details will be available in another volume where the Fairs and Festivals of Orissa are proposed to be published in an elaborate manner.

PART III

OFFICIAL STATISTICS

Contains

Statistics relating to Rainfall, Agriculture, Public Health, Vital Events, Administration, Police, Jails, Co-operative Societies, Revenues, Community Development, Grama Panchayat, Education, Animal Husbandry, Mines, etc.

OFFICIAL STATISTICS

This part contains statistics relating to different Departments of the State Government, such as, agriculture, public health, administration including police and jails, co-operative societies, education, community development, grama panchayats, and mines, etc., which are embodied in 39 Tables. The statistics were collected from the concerned offices by deputing staff from this organization. Except only in a few cases where it was possible to take out the figures from published Departmental reports most of them had to be gathered from the various official registers and manuscript reports. The names of the Departments from which the statistics were obtained are indicated below the concerned Tables. The Tables pertaining to different subjects given in this part may be broadly classified as follows :

Subjects		Table No.
Rainfall	...	1— 2
Agriculture	...	3— 9
Public health including vital statistics	...	10—14
Administration	...	15—19
Education	...	20—27
Community development	...	28—30
Grama Panchayats and Panchayat Samitis	...	31—32
Animal Husbandry	...	33
Co-operation	...	34
Miscellaneous	...	35—39

The district was formed in 1948 after merger of Keonjhar State with Orissa. The records for the pre-merger period indicating activities under different spheres are not available. Hence the collection and production of various official statistics in this Part are limited to the previous decade only. The various Tables presented are briefly explained as follows :

Tables 1-2—Rainfall—Two Tables concerning rainfall are presented. Tables 1 (a), 1 (b), 1 (c), and 1 (d), give the monthly rainfall and number of rainy days for four selected rain recording stations in the district for different years of the decade 1951—60. The district has 12 rain recording stations out of which only four stations, namely, Telkoi, Keonjhargarh, Anandapur and Ghatgaon were found to have comparatively more complete records than others. All these stations lie in two out of the three subdivisions of the district. The subdivision which is not represented is Champua but the records for Keonjhargarh may be taken to represent its rainfall condition. The figures reproduced in this Table (Table 1 series) have been taken from the rainfall statistics maintained by the Director of Agriculture and Food Production, Orissa, some of which were published in the Orissa Gazette.

Table 2 gives the normals of monthly rainfall and number of rainy days for the district as a whole based on the records of all the rain recording stations of the district during the period from 1901 to 1950. These have been taken from the Memoirs of the India Meteorological Department, Volume XXXI—Part III. This Table also shows the actual rainfall and number of rainy days recorded in various stations of the district for each of the years during the past decade which have been taken from the records maintained by the Director of Agriculture and Food Production, Orissa.

The rain recording stations work under the responsibility of local officials of various departments who might be conveniently available at the station, namely, Thana Officers, Medical Officers, School Teachers or subordinate Revenue Officers. They are expected to record daily rainfall, if any, and submit monthly reports direct to the Director of Agriculture and Food Production, Orissa. According to the approved arrangements, this report should reach the Directorate of Agriculture and Food Production, Orissa by the 21st of the following month, but in actual practice, many stations default or delay inordinately in despatching the report. Such default or delay results either due

to the post of the Officer-in-charge of the station lying vacant for a considerable length of time, or due to the rain-recording instruments remaining unattended to or unreplaced after damage or loss in some way. For these reasons, the rainfall records of most of the stations in the district were not maintained regularly or properly. In 1960, 5 out of the 12 stations did not send their reports. Even those 7 stations which sent the returns did not report records for all the months of the year. The rainfall records of the district are, therefore, incomplete and defective.

Tables 3-9—Agriculture—The undermentioned seven Tables present the agricultural statistics relating to the district:

Table Nos.		Particulars
3	...	Land utilization and area under crops
4	...	Classification of area by sources of irrigation
5	...	Minor irrigation projects with ayacut area of 100 acres or more each
6	...	Estimated yield rates of principal crops per acre
7	...	Average wholesale price quotations in respect of staple foodgrains and other important crops during years 1957—60
8	...	Statistics of wages and working hours
9	...	Agricultural implements and machineries during the livestock censuses of 1957 and 1961

The compilation of primary agricultural statistics of a district is done by the District Collector. He furnishes annual statements in prescribed proforma called the Season and Crop Reports to the Director of Agriculture and Food Production, Orissa, who is responsible for compilation and presentation of these statistics at the State level. It was noticed that submission of these annual returns during the past decade was delayed or neglected by the Collector. Further, most of these returns lacked accuracy. An attempt was made to collect the statistics through a second source i.e., the Community Development Blocks. By the end of 1959-60, only 57·8 per cent of area of the State was covered by the Blocks, and so complete data for any district through this source was not available.

Tables 3 and 4 contain the statistics taken from the Season and Crop Reports. None of these reports except the one for 1952-53 has been published so far. The statistics collected from the manuscript reports which were pending in the press for printing were further verified in the Directorate of Agriculture and Food Production, Orissa. The reports for 1950-51 and 1951-52 could not be traced, and hence the Tables 3 and 4 contain statistics for only 8 years from 1952-53 to 1959-60.

Areas under the nine categories of land utilization, namely, forests, land put to non-agricultural uses, barren and unculturable land, culturable wastes, fallow other than current, pastures and grazing land, land under miscellaneous tree crops and groves not included in net area sown, net area sown and current fallow are given in Table 3. This Table also gives the areas under cultivation of some of the important crops, as also total areas under such heads as cereals, pulses, fruits and vegetables, other food crops, non-food crops, etc. The heads of categorization under land utilization adopted in this Table may be described as follows :

(1) *Forests*—These include all actually forested areas on land, classed or administered as forests under any legal enactment dealing with forests, whether State-owned or private.

(2) *Land put to non-agricultural uses*—These include all land occupied by buildings, roads and railways, those under water, e. g., rivers and canals and other lands put to uses other than agricultural.

(3) *Barren and unculturable land*—All barren and unculturable land like mountains, etc., are shown under this category. The land which cannot be brought under cultivation except at an exorbitant cost, is also classed as unculturable, whether such land is in compact blocks or within cultivated holdings.

(4) *Culturable wastes*—These include land available for cultivation, whether not taken up for cultivation or abandoned after a few years for one reason or the other. Such land may be either fallow or covered with scrubs and jungles which

are not put to any use. They may be assessed or unassessed to revenue, and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for 5 years in succession is also included under this category.

(5) *Fallow other than current*—All land, which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years are included under this category. These land may have been kept fallow for one or more reasons, namely, poverty of the cultivator, inadequate supply of water, malarial climate, silting of canals and rivers and unremunerative nature of farming.

(6) *Pastures and grazing land*—These include all grazing land, whether they are permanent pastures and meadows or not. Village commons and grazing land within forest areas are also included under this category.

(7) *Area under miscellaneous tree crops and groves, not included in net area sown*—These include all cultivable land, which is not included in "net area sown", but is put to some agricultural use.

(8) *Net area sown*—These cover area sown with crops and orchards, the areas sown more than once during a year being counted once only.

(9) *Current fallow*—These cover normally cropped areas which are but kept fallow during the current year. For example, if any seedling area is not cropped again in the same year, it may be treated as current fallow.

(10) *Total cropped area*—These represent the total of areas covered with crops, i. e., the sum total of areas covered by various crops, areas sown more than once during the year being counted as separate areas for each crop.

(11) *Area sown more than once*—These represent the area on which crops are cultivated more than once during the agricultural year. The acreage is generally obtained by deducting those under "net are sown" from those under "total cropped area."

Table 4 shows the area with facilities of irrigation from different sources, namely, canals, tanks, wells and other sources, for each of the years from 1952-53 to 1959-60.

Table 5—There are a few minor irrigation projects in the district but the number of project with ayacut area over 100 acres is only one. Its details are given in Table 5. The details were obtained from the office of the Chief Engineer, Rural Engineering Organization, Orissa, This organization is responsible for execution of various minor irrigation works all over the State. Besides executing their own projects, the Rural Engineering Organization is meant to help the Panchayati Raj institutions in the execution of minor irrigation projects costing not more than Rs. 10 lakhs or having an ayacut up to 4,000 acres.

Table 6 gives the rates of yield per acre for 16 principal crops in the district for each year from 1951-52 to 1959-60. The rates have been based on estimated area and production of different crops. The basic data were obtained from the Directorate of Agriculture and Food Production, Orissa from which the estimated yield rates were worked out. The yield rates however, may not be equal to the actual yield rates as these are based on forecast figures of production and area as estimated before harvesting.

Table 7 relates to price quotations in respect of some of the important crops grown in the district. It has been compiled from the published reports of the Directorate of Marketing, Orissa. Rates per standard maund or 37·25 Kgs. are given in this Table. The marketing centres of the district for which information is given, are Keonjhargarh, Anandapur and Champua which are located in the three subdivisions. Annual figures of price quotations for the years 1957 to 1959, and both annual and monthly price quotations for the year 1960 have been reproduced in this Table. Figures for earlier years were not available, and those for the years subsequent to 1960 were not published by the time this Handbook was ready for the press.

Table 8 shows the average rates of wages and working hours for skilled and unskilled workers for the years 1956, 1958 and 1960. Similar statistics for 1957 and 1959 are not available. The terms "agricultural labourer" and "subsidiary agricultural labourer" used in this Table are explained at the bottom thereof.

Number of agricultural machineries and implements recorded in 1957 and 1961 livestock censuses are given in Table 9. These were collected from the livestock census reports of the Director of Animal Husbandry and Veterinary Services, Orissa. After formation of Orissa into a separate province, livestock censuses were conducted on three occasions during 1945, 1957 and 1961, but since the district did not exist during the first census, figures for two censuses are given in this Table.

Tables 10-14—Public health including vital statistics—The following five Tables on this subject are given

Table No.		Particulars
10	...	Number of live births, still births and deaths in each year during 1952—60 according to sex for rural and urban areas
11	...	Deaths according to causes for rural and urban areas in each year during 1952—60
12	...	Deaths by sex, according to age during 1952—60
13	...	Number of births and deaths in each month during 1952—60
14	...	List of hospitals, dispensaries and primary health centres as on 31st March, 1961

The birth and death statistics given in Tables 10—13 were collected from the registers maintained in the Statistical Unit of the Health Directorate, Orissa. The Tables Nos. 10, 11, and 12 present only annual figures of births and deaths whereas the other Table 13 contains monthly records. Table 10 gives the number of live and still births and deaths by sex separately for rural and urban areas. Deaths under the seven broad heads under which they are recorded, namely, cholera, smallpox, fever, dysentery and diarrhoea, respiratory diseases, wounds and accidents and other causes are shown in Table 11 for rural and urban areas. Deaths of males and females in different age-groups are shown in Table 12. Live and still births and deaths due to the seven causes noted above in each month during 1952—60 are given in Table 13.

The terms "live birth" and "still birth", used in these Tables are defined as follows :

Live birth—Live birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy which after such separation, breathes or shows any other evidence of life, such as, beating of heart etc.

Still birth—Birth of the already dead or very nearly dead child is considered still birth.

A list of hospitals, dispensaries and primary health centres as on 31-3-1961 showing their location, year of start and number of beds is given in Table 14. These details were supplied by the Health Directorate, (Statistical Unit,) Orissa after collecting the same from the concerned Civil Surgeons.

Tables 15-19—Administration—Five Tables have been given on this subject. They are as follows :

Table No.		Particulars
15	...	Number of criminal cases reported to different courts, tried and disposed of during 1951—60
16	...	Strength of district police during the years 1951, 1956 and 1960
17	...	Statistics of jails
18	...	Receipts relating to land revenue, excise revenue, sales tax, motor spirit tax, entertainment tax, and stamps during 1951—61
19	...	Number of documents registered and value of property transferred during 1951—60

The statistics in Table 15 were supplied by the High Court, Orissa. Some of them were available in their published annual reports on criminal justice and those for the later years were supplied in a statement.

The Inspector General of Police, Orissa supplied the details of the strength of police in various ranks in the district for each year during 1951—60. Table 16, however, shows their number only for 3 years, *viz.*, 1951, 1956 and 1960. Cost of police *per capita* and area and population served by a police shown in this Table are based on the 1961 Census population figures.

The statistics pertaining to jails supplied by the Inspector General of Prisons, Orissa, are given in Table 17 which shows the number of jails and subjails, the capacity of district jail and its strength of staff.

Table 18 contains the figures of various revenue collected in each year in the district from 1950-51 to 1960-61 under some of the important heads of receipts, namely, land revenue, excise revenue, sales tax, entertainment tax, motor spirit tax and sale proceeds of stamps. These statistics were obtained from the concerned Departments of the State Government and the names of the Departments and Offices supplying the data are shown at the bottom thereof.

Table 19 shows the number of documents registered and value of property transferred between the years 1951 and 1960. These were collected from the office of the Board of Revenue, Orissa.

Tables 20-27—Education—The following eight Tables pertaining to this subject are given in this part:

Table No.	Particulars
20	... List of colleges and high schools
21	... Number of students appearing at and passing the high school certificate examinations during 1956—60
22	... Number of primary schools existing during 1955-56 and 1960-61
23	... Number of M. E. schools existing during 1955-56 and 1960-61
24	... List of professional and special schools
25	... List of sevashrams and ashram schools
26	... List of newspapaers and journals
27	... List of important libraries and reading rooms

The statistics given in these Tables were collected mostly from the Office of the Board of Secondary Education, Orissa and the Statistical Unit in the office of the Director of Public Instruction, Orissa. Except a published list of high schools and Annual Report of Registrar of Newspapers for India, from which lists of high schools, newspapers and journals were taken, the statistics for no other item were available from any published report. The required information had, therefore, to be collected from the concerned offices.

Table 20 gives a list of colleges and high schools in the district. The number of students appearing at the High School Certificate examinations together with the number of successful students and the percentage of success at various examinations conducted during 1956—60 are given in Table 21. Tables 22 and 23 show respectively the number of primary schools and M. E. schools existing in the district during 1955-56 and 1960-61, the final years of the past two Five Year Plans. A list of professional and special schools, *viz.*, elementary schools, school of mining engineering, schools of dance and music, Sanskrit Tols, and Dai Training Centres will be found in Table 24. Table 25 gives a list of sevashrams and ashram schools together with the names of the post office and police stations under whose jurisdiction they lie.

Table 26 contains a list of journals issuing from the district. A list of the bigger libraries and reading rooms in the approved list of the D. P. I., Orissa, is given in Table 27. The location, date of establishment, Government grant received and the number of books held by some of these libraries are given in this Table. These informations in respect of reading rooms could not be available and have not, therefore, been given.

Tables 28-30—Community Development—The following 3 Tables present the achievements of the Community Development Programme during the past decade:

Table No.	Particulars
28	... List of Blocks with their coverage of villages, Grama Panchayats and area
29	... Achievements in the C. D. Block programme to the end of 1960-61
30	... Expenditure incurred under bread heads of development in the Community Development Blocks in each year during 1954-55 to 1960-61

The first allotment to the district of a Block was made in October, 1955. The statistics given in the above 3 Tables, therefore, relate to the period from 1954-55 onwards. The expenditure figures have been compiled from the registers maintained in the office of the Financial Adviser, Community Development and Panchayati Raj Department, and the statistics relating to physical achievements are taken from the reports of the Administrative Intelligence Unit of the same Department. Table 28 gives a list of Community Development Blocks in existence on 31-3-1961, together with their dates of start, their headquarters, number of villages and grama panchayats, and area covered by each. Table 29 shows the physical achievements under some of the important items of the Block programme to the end of 1960-61. The achievements against a few of these items do not relate to all the Blocks, as complete information in respect of all of them was not available. Such items have been distinguished from the rest.

Details of expenditure under broad heads of the programme such as, Block headquarters staff and contingencies, animal husbandry and agricultural extension, irrigation, health and rural sanitation, education, social education, communication, rural arts, crafts and industries and housing for all the Blocks together for each year between 1954-55 and 1960-61 are given in Table 30. The Blocks submit their monthly expenditure returns to the Financial Adviser of the Community Development and Panchayati Raj Department where these are compiled and verified with the Accountant General's actuals before adoption of final figures. The statistics given in this Table have been taken from the expenditure registers thus maintained in the Financial Adviser's Office.

Tables 31-32—Grama Panchayats and Panchayat Samitis— Table 31 gives a list of Panchayat Samitis and Grama Panchayats existing in December, 1960, and Table 32 shows the number of Grama Panchayats with their income and expenditure, and number of Adalti Panchayats in each year during the past decade. The information given in Table 31 were collected from a published Notification of the Grama Panchayat Department whereas the statistics in Table 32 have been taken from the Annual reports of the said Department.

Table 33—Animal Husbandry—Table 33 gives the number of different categories of main livestock, recorded in the livestock censuses of 1957 and 1961. The numbers for 1961 counts show the livestock belonging to Government, semi-Government and other institutions actually found living on 15-4-61 at sunrise. The cattle census was conducted by the Director of Animal Husbandry and Veterinary Services, Orissa.

Table 34—Co-operation—The number of co-operative societies in different categories, namely, Central Bank, Small-sized, Large-sized, Multipurpose, Grain-golla, Marketing, Non-agricultural credit, Housing, Weavers' and other Industrial and Non-industrial co-operative societies, together with their membership and working capital during 1960-61, are given in Table 34. These statistics were supplied by the Office of the Registrar of Co-operative Societies, Orissa.

Tables 35-39—Miscellaneous—The Tables as mentioned below contain statistics on the following items :

Table No.	Particulars
35	... List of cinema houses and printing presses
36	... List of railway stations
37	... List of Industries with capital investment of Rs. 5 lakhs and above
38	... Location of mines and production of minerals
39	... List of registered factories in 1951 and 1961

The headings of Tables 35—38 are self-explanatory. Table 39 contains a list of the more important registered factories in the district. This has been compiled from the lists obtained from Chief Inspector of Factories, Orissa. The terms 'factory' and 'worker' used in this Table are defined as follows;

'*Factory*' means any premises including the precincts thereof

(*i*) whereon ten or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or

(*ii*) whereon twenty or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on, but does not include a mine subject to the operation of the Mines Act, 1952 (XXXV of 1952), or a railway running shed.

Section 85 of the said Act, however, authorises the State Government to declare by notification any place, wherein a manufacturing process is carried on, to be a factory within the meaning of the Factories Act, 1948, although it does not fulfil the above requirements of law, provided that the manufacturing process is not being carried on by the owner only with the aid of his family.

'*Worker*' is defined to mean a person employed, directly or through any agency, whether for wages or not in any manufacturing process, or in cleaning any part of the machinery or premises used for a manufacturing process, or in any other kind of work incidental to, or connected with the manufacturing process, or the subject of the manufacturing process.
