	(ii) Alphabetical list of villages	37
	(iii) Village Directory	38—43

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA up to Tehsil/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and tehsil/Police Station/C. D. Block etc., level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. H. Khan, IAS, Director of Census Operations, Jammu and Kashmir, Srinagar on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA,

Registrar General, India.

New Delhi,
the 26th April, 1982.

PREFACE

The compilation and publication of District Census Handbooks has been a traditional feature of the Indian Census since 1951. However, in Jammu and Kashmir State where no census was conducted in 1951 due to the unsettled conditions prevailing then, this work was taken up as a regular feature of Census since 1961 with certain improvements and additions in the data content of the publication at the 1971 Census, further enhancing its utility for the Data Users.

The 1981 series of the District Census Handbook which we have begun with the district of Punch will contain two parts each. Part A deals with Town and Village Directory and Part B consists of Town and Village Primary Census Abstract. In 1971 census there was also third part of the Handbook, published as a separate volume, comprising administrative and census statistics. However, in view of the considerable delay experienced then in getting the relevant administrative statistics pertaining to various departments, compilation of this volume has been given up at the 1981 Census. It is expected that such statistics would be available to the data users in the usual publications of the State Directorate of Evaluation and Statistics.

The Town Directory of the Handbook consists of seven statements which are almost similar to those adopted for the 1971 Census except that a few new columns have been added to facilitate analysis of the data. A significant addition is of class of town in every statement which has been done on the consideration that the infrastructure of amenities and facilities found in urban India can best be analysed with reference to this specific parameter. The addition of the column on civic administration status in Statements III & IV and population in Statements IV and V also serves the same purpose vis-a-vis the respective statements. Due consideration has also been given to the Minimum Needs Programme of the Planning Commission. The columns on Scheduled Caste population in Statement IV and adult literacy classes/centres in Statement V are a sequal to this programme.

The Village Directory also follows the same pattern as in 1971 Census except again for a few additional columns. The column on total population and number of households has been added to facilitate analysis of the other data in the Directory. The column on approach to village is to identify the number of inaccessible villages in the district. The column on number of households living in owned houses or possessing house sites in the village is again intended to cater to the Minimum Needs Programme of the Planning Commission.

It is hoped that with its present content the Handbook would, more than ever, serve as a useful reference publication, particularly for such Administrators and Data Users as have to deal with planning, implementation and evaluation of development programme, including the Minimum Needs Programme, at the grass roots level.

The compilation of the Handbook would not have been possible but for the cooperation extended by the Revenue, Education, Medical, Public Health and other local authorities of the District in making relevant data available, for which we owe them our grateful thanks.

It must be stated here that the task of finalising and printing the present volume has fallen on me, since Shri A. H. Khan, IAS, Director of Census Operations, Jammu and Kashmir, under whose able stewardship the census operations of 1981 were carried out, retired from Government service by the time the volume could be taken up for compilation.

We are grateful to Shri P. Padmanabha, IAS, Registrar General and Census Commissioner of India and Shri N. G. Nag, Deputy Registrar General (Social Studies) whose detailed instructions, guidance and advice were available all through.

The credit for compiling this Handbook including analysis of data belongs to Shri Abdul Gani, Joint Director, besides Shri H. L. Kalla, Deputy Director and Shri Shamus-ud-Din, Tabulation Officer, who ably assisted the former in this task and deserve appreciation for their respective contributions.

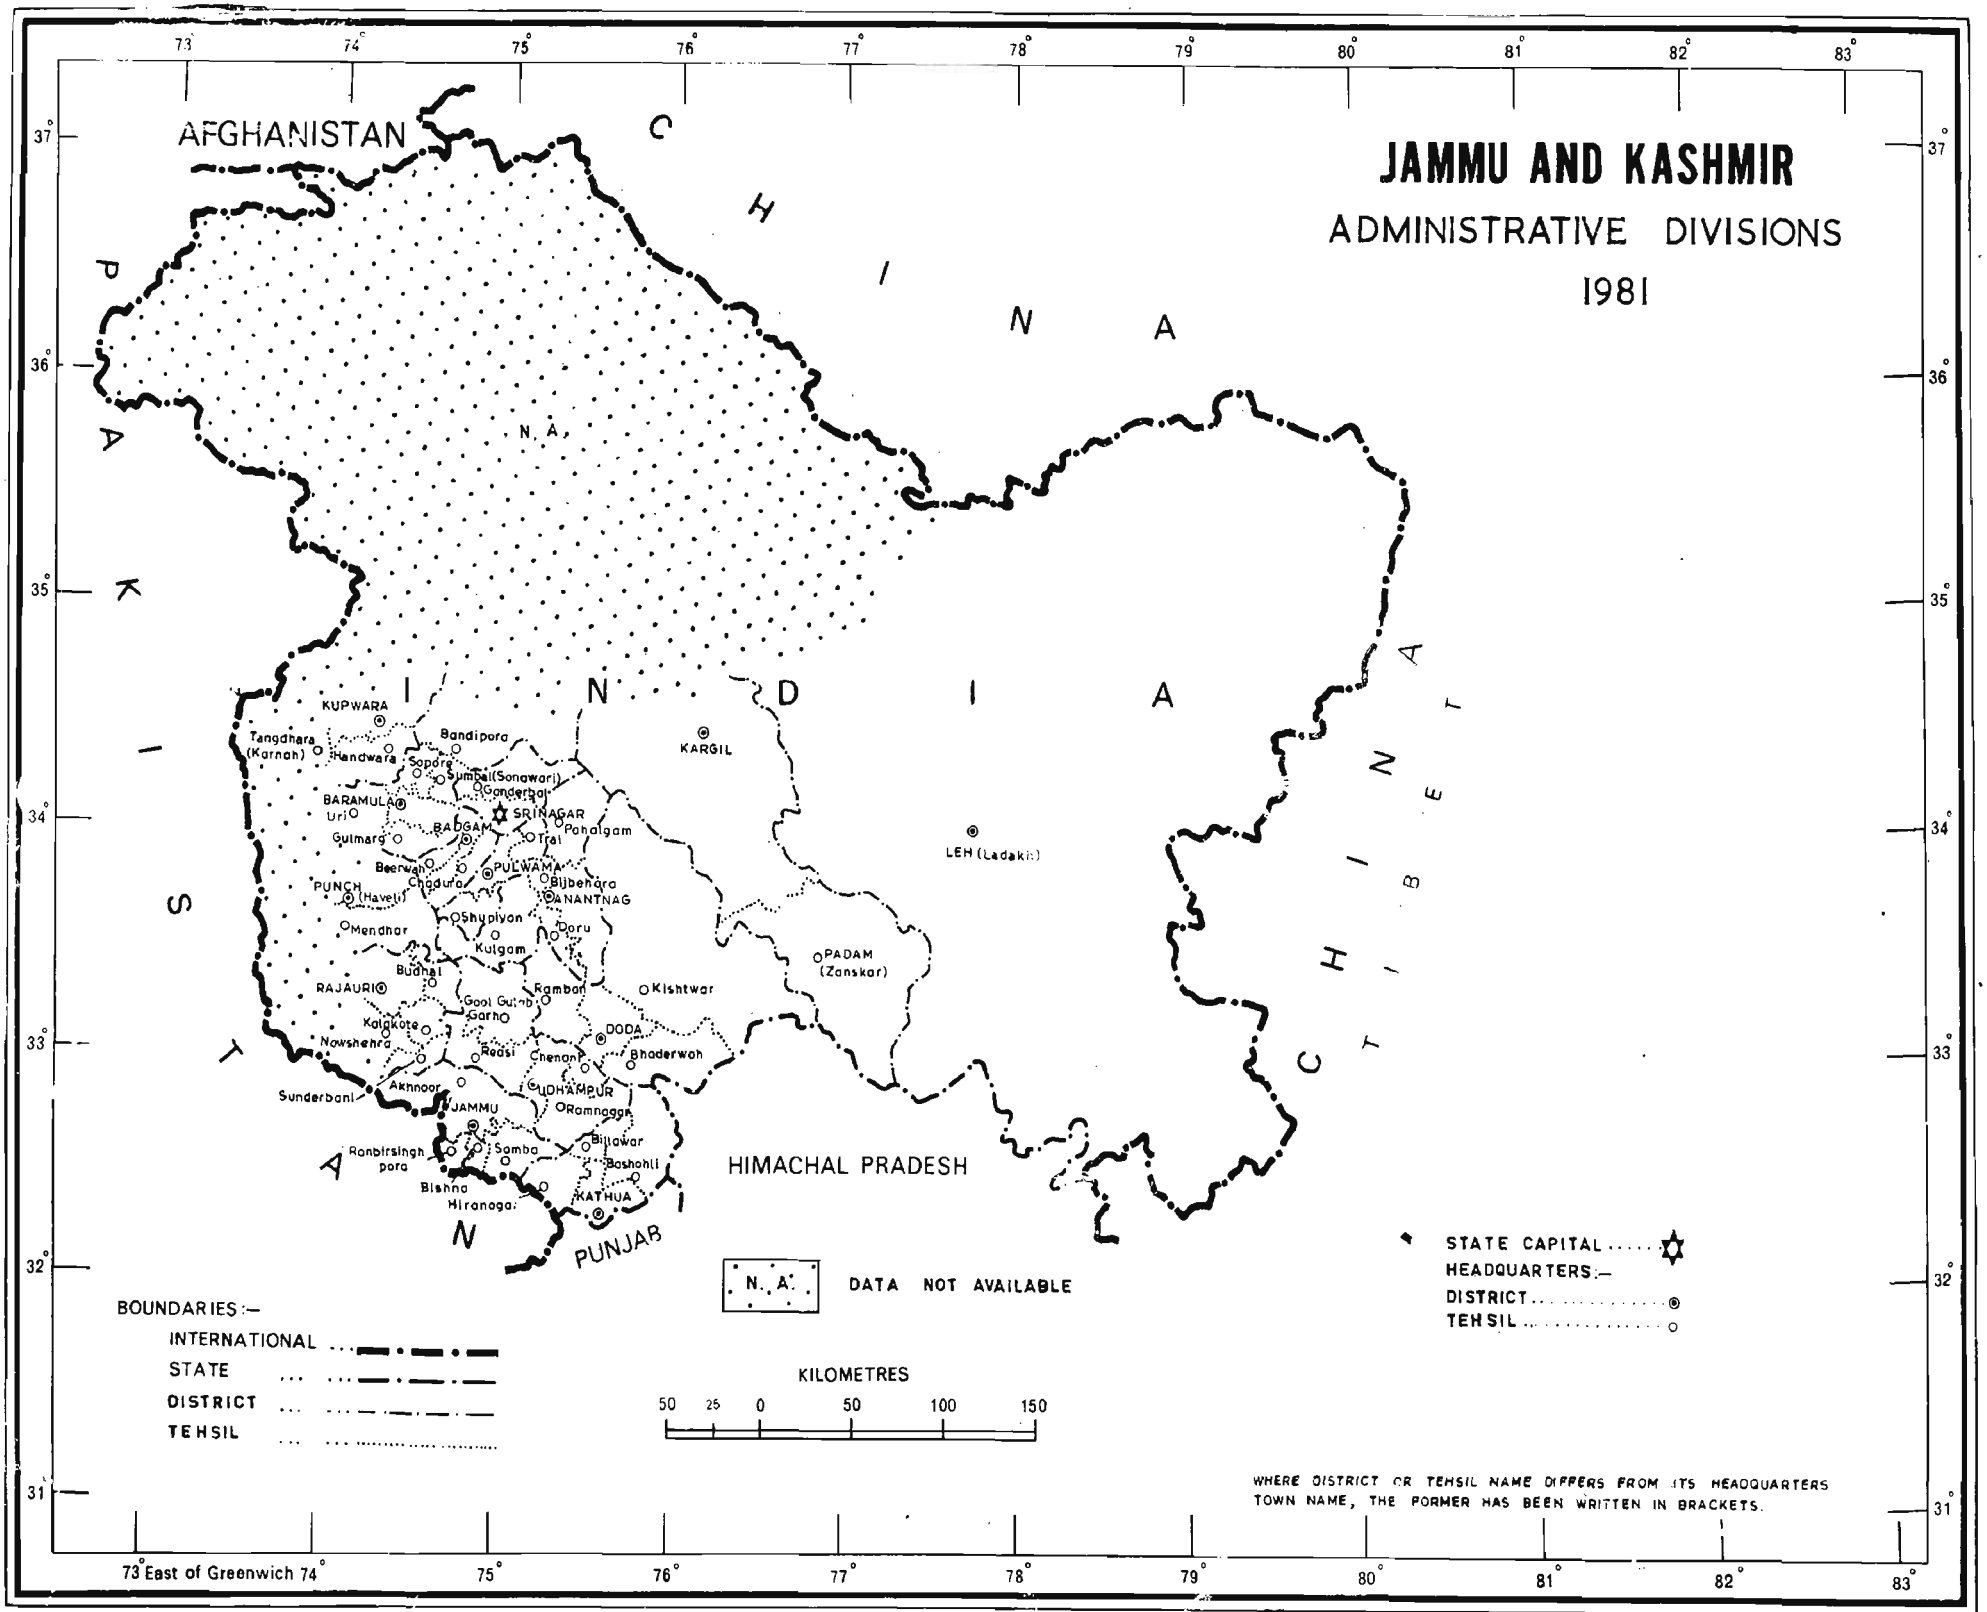

The Handbook has been provided with six maps, one showing the administrative divisions of Jammu and Kashmir State as in 1981, one pertaining to Kathua District and rest to its four constituent tehsils, These

were prepared by the staff of our Cartographic section under the close and valuable guidance of Dr. B. K. Roy, Deputy Registrar General (Map) of the office of the Registrar General, India. Their names along with those of other officials who rendered valuable assistance in bringing out the volume are mentioned separately in this Handbook.

N. A. KAMILI, IAS,

Director.

Srinagar,
the 10th June, 1987.

Note :— *The population figures exclude population of area under unlawful occupation of Pakistan and China where census could not be taken.

**Includes 78114 Sq. Km. under illegal occupation of Pakistan and 5180 Sq. Km. illegally handed over by Pakistan to China and 37555 Sq. Km. under illegal occupation of China in Leh (Ladakh) District.

†Provisional.

@Excludes 3, 1 & 4 villages of Srinagar, Chadura and Badgam Tehsils forming out-growths of Srinagar Urban Agglomeration, 6 villages of Jammu Tehsil forming out-growth of Jammu Urban Agglomeration respectively and 1 village of Udhampur Tehsil treated as Census Town.

ANALYTICAL NOTE

A description of the various concepts used at the 1981 Census and a broad appraisal of the administrative statistics vis-a-vis the history of the district, the social and cultural changes witnessed by the district during the last ten years particularly in relation to economic resources, social, cultural and developmental activities and a brief description of the places of historical and religious importance in the district is given in the following pages :—

Rural/Urban classification

For the 1981 Census the classification of urban areas have been based on the following criteria :—

(a) All places with a municipality, corporation or cantonment board or notified town area committee.

(b) All other places which satisfied the following tests :

(i) A minimum population of 5,000.

(ii) At least 75 per cent of male working population engaged in non-agricultural (and allied) activity.

(iii) A density of population of at least 400 per Sq. Kms. (1,000 per Sq. Mile).

The places which satisfied the criterion (a) above were treated as statutory towns while those as were not statutory towns but satisfied the tests laid down in criterion (b) above were treated as census towns. All other places which did not satisfy either of the above two criteria were classified as rural. Areas which qualified to be treated as towns under criterion (a) and (b) above were further classified by population ranges in the following order :—

Population Range	Class
1,00,000 & above	I
50,000—99,999	II
20,000—49,999	III
10,000—19,999	IV
5,000—9,999	V
Below 5,000	VI

Census House

A Census House was defined as a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purposes or both.

Census Household

A household for purposes of the 1981 Census has been defined as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by a blood or a household of unrelated persons or having a mix of both.

Scheduled Caste/Scheduled Tribe

In Jammu and Kashmir State there are no scheduled tribes. However, the following 13 castes stand notified as scheduled castes under the State Constitution :—

1. Barwala
2. Basith
3. Chamar or Ramdasia
4. Batwal
5. Chura
6. Dhyar
7. Doom or Mahasha
8. Gardi
9. Jolaha
10. Megh or Kabirpanthi
11. Ratal
12. Saryara
13. Watal

At the 1981 Census only those persons who returned themselves as belonging to any of the 13 castes specified above was treated as Scheduled Caste.

Literacy

For purposes of census a person was treated as literate if he/she could read and write in any language with understanding power. A person who could merely read but was not able to write was classified as illiterate. For a person to be treated as literate it was not necessary that he/she should have received any formal education or should have passed any minimum educational standard.

Workers/Non-Workers

For the 1981 Census a person was treated mainly as a worker if he/she had participated in any kind of economically productive work during the major part of the reference year i. e. at least 6 months or 183 days or more prior to the date of enumeration. A person who claimed to have participated in any kind of economically productive work for less than six months prior to the date of enumeration was treated as marginal worker. However, persons who did not participate in any kind of economically productive work during the whole period of the reference year were treated as non-workers.

Brief history of the district

The district is named after its headquarter town Kathua. According to the assessment report maintained by the State Revenue Department there are three villages namely; Taraf Tajwal, Taraf Manjli and Taraf Bhajwal, which were called so after the names of three sons of one Jodh Singh, a great Rajput who came here from Hastanapur about two thousand years ago. He is believed to have settled down here and the original inhabitants of Kathua are said to be his posterity. Jodh Singh had three sons named Teju, Kindal and Bhaju. It is after these names that three famous sub-castes of Rajputs, namely Tajwallias, Bhojwalias and Khanwalias are found particularly in Kathua town. The major portion of the town is situated in Taraf Tajwal village but the habitations of the other two villages viz. Taraf Manjli and Taraf Bhajwal are adjoining the Kathua Bazar. The three habitations have since been brought together and the whole conglomeration is called 'Kathhai'. With the passage of time and constant usage of word Kathhua got distorted into Kathua.

The district is situated in the south-east of Jammu and Kashmir State and is surrounded on the north by tehsils of Ramnagar and Bhaderwah of Udhampur and Doda Districts respectively. Samba Tehsil of Jammu District touches it in the north-west while Shakargarh tehsil in Pakistan and District Gurdaspur of Punjab (India) fall on its south and Chamba of Himachal Pradesh in the east. On the south-west lies the International Border with Pakistan. The northern part of the district is situated in the foot-hills of Himalayas which includes the Shivalik range. The southern part is alluvial plain. Ravi river which possesses rich power and irrigation potential flows in the east of the district.

The district is the gateway of Jammu and Kashmir State. The two National Highways, namely, Jammu—Pathankote road and Dhar—Udhampur, 56 Kms and 45 Kms. in length respectively run through the district. The important towns, tehsil headquarters and villages are connected with the district headquarter by various categories of roads totalling 681 Kms. Out of five blocks in the district only one block namely, Bani is not connected by a motorable road. While Bashohli Bhaderwah road is under construction a fair-weather road has been completed up to 45 Kms. from Basohli to Bhoond on which buses and trucks can ply freely while additional 9 Kms. are also under construction.

Brief history of District Census Handbooks

The District Census Handbooks were published for the first time in 1951 as a part of the census publication programme in almost all States of India except Jammu and Kashmir State where due to the disturbed conditions prevailing in the wake of tribal invasion of 1947-48, no census could be undertaken and as such no data was collected for the decade 1941-51. The publication of District Census Handbook series fulfilled a long-felt need. These gave out not only the data contained in Primary Census Abstract according to new classifications but included a sufficient account of the district and its people, and a vast magnitude of other data covering such topics as communication, education, public health etc. in respect of each town and village of the district. Consequently, these have been found to be of immense help to all the departments of the State Government for planning and development at the gross-root level. With the introduction of single line administration at the district level, the utility and importance of these publications for constant use and reference by District Development Commissioners has increased enormously. The

present handbook is proposed to contain even more comprehensive data than in the past so as to meet also the requirements of minimum needs programme set forth by the Planning Commission. The publication will besides the basic population data emanating from the 1981 Census, contain comprehensive information pertaining to amenities and land-use pattern and other infrastructural statistics in respect of each village and town of the district so as to serve as a ready reference material for planners and administrators for assessment of past achievements and formulation of new programmes of development at the gross root level.

Town Directory

The Town Directory covers information at town level and includes items such as status of administration, growth of population, growth pattern since 1901, physical aspects and location civic finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry and commerce, banking facilities etc.

In addition demographic data like sex-ratio number of households, density of population and position of civic and other amenities in notified or recognised slums of class I and II towns have also been introduced. Considering the increasing employment of women in urban areas and the consequent housing need of single working woman it has been felt necessary to indicate in the town directory also such information as the number of working women hostels with number of seats.

Abroad appraisal of the data incorporated in the seven statements of the town directory is attempted in the following paragraphs :—

Statement—I gives information on civic administration status as in 1980, growth history of towns from 1901 to 1981, sex ratio of towns from 1961 to 1981, density and area in Sq. Kms.

Statement—II gives the physical as well as locational aspects of towns of the district. Under the physical aspects data on annual rainfall (in cms.) and maximum and minimum temperature (in centigrade) have been highlighted. The statement also gives information on distance of the town from the nearest city with a population of one lakh and above, distance from the State, district and tehsil Hqrs., from the railway station and bus route. It also provides information on the existence of river/canal if any within 10 Kms.

Statement—III provides the budgetary statements pertaining to the financial year 1978-79. The statement has been apportioned into the receipt and expenditure heads. Under the receipt head information has been given on such items as "receipt through taxes, revenue derived from municipal properties and power apart from taxation, Government grants, loans, advances and other sources". Expenditure head shows expenditure on general administration, public safety, public health and conveniences, public works, public institutions and others.

Statement—IV depicts civic and other amenities available in Punch town and gives information on such items as length of the road in the town, system of sewerage, number and type of laterine, method and disposal of night soil, source and capacity of drinking water and fire fighting services. The statement also highlights the pattern of electricity consumed in the town and indicates the number of connections made under sub-head like domestic, industrial, commercial, road lighting and others.

Statement IV-A which is meant to depict civic and other amenities available in the notified slums of Class I and II towns has no relevance for Kathua District.

Statement—V gives medical, educational, recreational and cultural facilities as were available in town in 1979. Under medical facilities are indicated the type of medical institutions and the number of medical beds available. Likewise, different types of educational institutions available have been covered under educational facilities. Information regarding the number of cinema houses, stadia, auditoria/drama halls and public libraries have also been incorporated in the statement to bring out the extent of availability of recreational and cultural facilities. In addition, information about number of working women hostels has also been given in the statement. If a medical or an educational facility was not available in the town, the name of the nearest place where it is available has also been given in the statement.

Statement—VI gives the facilities of trade, commerce, industry and banking available in the town in 1979. Besides, the number of credit cooperative societies operating the details of three most important commodities imported, exported and manufactured in the town have also been indicated.

Village Directory

The village directory portion of the handbook depicts particulars of amenities available in each village of the district in the field of education, medical care, power supply, drinking water, post and telegraphs, communication, besides information about land use and places of religious, historical and archaeological importance in the village. In case where a particular amenity is not available within the village, distance at which such a facility is available even in the most modest form has been indicated in three broad range viz.—5 Kms., 5—10 Kms., and 10+ Kms. If there are composite schools, like middle schools with primary classes or secondary schools with middle classes, these have also been included in the number of primary and middle schools respectively. For example if in a village or a town there were two primary schools and one middle school with primary classes, in the village/town have been given as three and that of middle school as one even though there are only three educational institutions. So also in case of secondary schools.

The village directory also carries the following four appendices :—

Appendix—I — It gives the abstract of educational, medical and other amenities available in the tehsils of the district.

Appendix—II — It furnishes the land utilisation data in respect of census towns. This appendix, however, is not relevant to district.

Appendix—III — This is a list of villages where no amenities other than drinking water like education, medical, post and telegraph, communication, power supply are available.

Appendix—IV — It provides a list of villages according to the proportion of scheduled caste population by ranges.

All these appendices appears after the main village directory.

Primary Census Abstract

The Primary Census Abstract part of the publication is exclusively based on the 1981 census data. It provides information in respect of each village and ward/mohalla of a town at tehsil level in respect of its area, number of residential houses, number of households, total population, scheduled caste population, literate and educated persons and working population by sex in 4 broad industrial categories viz. (i) cultivators, (ii) agricultural labourers, (iii) household industry, manufacturing, processing, servicing and repairs and (iv) other workers besides non-workers as a separate category.

Special PCA on Scheduled Castes

It is for the first time that a Special Primary Census Abstract has been introduced in the DCHBs for the Scheduled Caste population. The special PCA provides information pertaining to scheduled castes in respect of number of residential houses and their population, literates, main workers classified by cultivators, agricultural labourers, workers in the household industry and other workers, marginal workers and non-workers classified by sex. This PCA is also presented for District, Tehsil and Town levels.

Physical Aspects

The district comprises four tehsils viz. Kathua, Hiranagar, Bashohli and Billawar. The geographical area of the district is 2651 Sq. Kms. which has remained unchanged since 1971 Census. There are 587 villages falling in the jurisdiction of this district, out of which 555 are inhabited and 32 are uninhabited. The district falls between 32°—17′ to 32°—55′ north latitude and 75°—17′ to 75°—55′ east longitude.

Major characteristics

Because of rail-head as also its proximity to the Punjab State which is relatively more advanced in industry and agriculture, Kathua District has an edge

over other districts in terms of its economy generated through industrial development with the exception of Srinagar and Jammu which have ever since remained the summer and winter capitals of the Government.

There are 236 industrial units registered by the Industrial Department in the district during 1981-82. Some of the local products of the district include Pashmina Shawls produced in Bashohli and woollen blankets produced especially in Bani and Lohai Malhar areas. The wooden furniture manufactured in the Work-cum-Production Centre Kathua (a Government Industrial Unit) is now known for its quality in the State.

The number of registered industrial units by major industrial grouping is however indicated in the sub-joined statement :—

	Industry	No. of Units
1.	Food products	42
2.	Hosiery and Garments	8
3.	Wood products	57
4.	Paper products and printing	2
5.	Leather products	19
6.	Chemical and Chemical products	5
7.	Non-metallic mineral products	10
8.	Metal products	28
9.	Repairing and Servicing	21
10.	Non SIDO units	44
		236

Kathua District has been major exporter of forest products. Among the important forest products resin, charcoal, timber, katha and furniture are commonly found with major concentration in Bashohli and Billawar tehsils. The area under plantation has undergone large scale erosion because of wreckless exploitation of forests. A vigorous effort is however being made to plant trees in order to ensure that the area does not get denuded. An area of 1.72 lakh acres is under forests in the district. With the construction of Bashohli-Bani and Billawar-Mechadi roads it is expected that the upper reaches of the forests will get a road link and help in the exploitation of major as well as minor forest products thereby increasing the State Revenue. The forests in the district contain very valuable trees which are immensely suited for the manufacture of furniture, sports goods, building material and charcoal. They also yield many valuable minor products and materials like resin, discoria, katha etc.

The district is not favourably placed with regard to minerals. However lime-stone is available in large quantities in Bani-Bashohli Belt. The district has also abundance of stones and pebbles which can be used for construction of roads and railway track. Detailed exploration work of Siara lime-stone is in progress for providing the cement grade lime-stone for the proposed cement plant of 750 TPD capacity at Bashohli. Lime stone of Banjal area has been investigated and is found to be of very marginal grade. Gypsum deposit at Sandhar is being investigated to find out its utility in cement industry and in other industries like manufacturnig of surgical Plaster of Paris, Gypsum board, Artwar etc. Quartzite deposits at Siara, Chalia ridge and Banjal area are also nuder study to find out its utility in glass making etc. Slates in Bani area require to be studied for finding out its quality and quantity for utilizing it for roofing purposes. Detailed study of clays of different types is required for arriving at their quality and quantity vis-a-vis their uses in various industries. Iron-ore deposits in Lohai Malhar also need further detailed investigation as at some places association of primary sulphides has also been reported.

There is no electricity generated within the district. It receives electricity from Punjab/Northern Grid via the Grid Station, Pathankote, through two receiving stations located at Kathua (Hatli Mode) and Hiranagar. The number of villages electrified by the end of 1980-81 stands at 408. The fact that this district is absolutely dependent on other areas for electricity comes in the way of Industrial Development, installation of tubewells for irrigation and economic growth in general. The State Government has recently entered into an agreement with the Punjab Government paving the way for construction of Thein Dam. It is expected that once this project comes up the district will have substantial power potential. The project will also provide 0.64 MAC water to parched land which is likely to convert a substantial portion of it into a beautiful green belt.

The main source of livelihood for a large majority of people is Agriculture. The Agro-climatic conditions provide good scope for horticulture development. There is a good scope for developing temperate fruit production in upper hilly regions of Bani and Billawar blocks. In lower portions of Bashohli, Kathua and Hiranagar, sub-tropical fruits namely; mango, guava, lichi, citrus, beer and grapes are cultivated. In horticulture sector alone an amount of Rs. 2.67 lakh was spent against during the period 1978-79 for encouraging fruit cultivation in kandi and upper hilly areas. Thus 110.40 hectares were brought under horticulture development programme and 212 hectares under horticulture development in Kandi areas. Also 35 hectares were brought under walnut plants and 33 hectares under other fruit trees in backward areas of Bani and Lohai Malhar. Development of nurseries is also receiving attention.

The live-stock holds a prominent position in the district. The availability of pastures and favourable climatic conditions have contributed in raisnig live-stock to a good extent. A comprehensive Cattle Development Project is in operation to provide essential inputs for increasing production of improved breeds, augmentation of feed and fodder resources, adequate health coverage and dairy extension. Milch cattle are mostly owned by Gujjars. During winter they move down with their cattle to the plains of Hiranagar and Kathua. In summer they go up and settle at various places in Bashohli and Billawar tehsils and beyond towards Bhaderwah in Doda District.

The district has a large population of live-stock estimated at about four lakhs. The most of live-stock, especially cattle, are predominantly local breeds of not very high productivity. The Government is making efforts to improve the breed and a number of steps have already been taken. During the year 1978-79, 76,900 cases were treated for various diseases, 47,700 were vaccinated and 6,900 cases were taken up for artificial insemination. 79 fodder demonstration plots were organised and 3 Kissan camps held for wide publicity. The large number of sheep and goats in Bashohli, Bani and Billawar area can give support to woollen industry in the district. During 1978-79, three new sheep development centres were established. 11 of the centres are migratory which move with the movement of flocks. The district has also a large number of poultry birds and with the introduction of improved breeds their population has increased to 71,152 as per 1977 live-stock census.

Fish culture possesses enough scope for its development in the district. There are many resources of fish culture with abundance of water in rivers. Common species of fish and certain aromatic varieties like sewa are available in snow waters which are comparable to Trout. However, according to Fisheries Department the annual catch of fish from the district is estimated at 50 metric tonnes. The entire quantity is used for domestic consumption and sale in adjoining district of Jammu. However, there is further scope for the development of fish in Boolies, Ponds, Nallahs and Rivers in this district.

The district is well connected with Punjab and other districts of Jammu Province with regard to transport facilities. There are 111 buses with frequency of ten minutes plying on Kathua—Jammu route. Three buses of State Road Transport Corporation, which run from Jammu to Amritsar, are passing through the district headquarters to carry the passengers. However, after every hour one bus from Kathua to Pathankote is plying to facilitate the passengers going to Punjab and *vice versa*. All the blocks are well connected with district headquarter through telephone and wireless communication.

Due to hilly terrain and torrential nature of the rivers they are not suited for navigational purposes. However, the rivers of the district especially Ravi and Ujh carry timber in Logs and sleepers from the upper reaches of the forest to places like Lakhenpur, Sahwpur Kandi (Punjab) and Mandi in Billawar tehsil where it is collected and transported by road.

The Broad Gauge Railway line up to the Jammu city is passing through the district. The total railway line length in the district is 46 Kms. having stations at Kathua (Gobindsar), Budhi, Dayalachak, Hiranagar and Ghagwal. There are six mail/express trains and one passenger train besides a number of goods trains passing through the district. More than 250 workers are earning their livelihood by loading/unloading of goods from trains.

Trade and Commerce has not developed much in this district. The areas near or on the National Highway viz. Kathua town, Lakhenpur, Chadwal, Dayalachak and Hiranagar are the centres where trade and commerce has improved to some extent.

Before 1947, the district had no potable drinking water facilities. The people, especially in Kandi areas of Kathua and Hiranagar blocks, had to depend for drinking water on ponds, wells, canals, springs etc. As a result of the development programmes executed in this behalf, out of a total number of villages 161 are now equipped with tap water etc.

The tourism industry has not yet developed in this district due to lack of adequate infrastructural facilities especially in various spots of tourist interest in three hilly blocks of the district. The snow-capped mountains, after hunting and fishing potential offer special attraction for tourists but the areas being inaccessible, the visitors do not visit these spots. The whole valley of Bani block and Lohai-Malhar and Mechadi areas of Billawar block, where fine golf courses are located are no less attractive than the valley of Kashmir and so also have the rich forests the potential to thrill a hunter. The weather and climate of these hilly areas resemble with that of Kashmir. There is enough scope for developing tourism in these areas. The Sukrala (Temple of Bhagwati) in Billawar block is very famous and during 'Navaratras' a large number of pilgrims visit the area.

Places of historical and archaeological importance

The district has in it many famous and fascinating forts, ancient buildings and towers which attract the attention of visitors of archaeological interest, especially in tehsil Bashohli and Billawar. Diversity of style and architecture of these ancient monuments portrays the era when these were built. The forts were built by the erstwhile Rajput rulers of these areas to defend themselves from enemy attacks. The famous monuments among them are the Thein fort, Basantpur fort and Lakhenpur fort situated in Kathua tehsil, Jasrota fort and Chak Suba fort in tehsil Hiranagar, towers and palaces at Billawar, Ramkote and Gori Sumanta, Bhaddu fort and Agli-Dhar fort in Tehsil Billawar and fort and places at Bashohli proper.

There are also a few places of pilgrimage/religious importance in this district. These are Airwan Shiv Temple at village Airwan, Bala Sundri temple at Parole in tehsil Kathua, Narsingh Dev Ji temple at village Ghagwal, Goddess (Matta) temple at village Bheya and Jasrota Devi temple in tehsil Hiranagar. Likewise, Sukrala Devi temple at village Sukrala, Billawar Shiv temple in Billawar tehsil, a very old temple Mahanpur, Shiv temple at Bashohli and Moha-dera Shiv temple at village Plahi in tehsil Bashohli, said to have been built-up some five hundred years ago are very famous temples in the district. These places attract large number of people on religious festivals and fairs every year.

Brief analysis of PCA data

Part-B of this publication contains data collected during the 1981 Census in respect of each village and ward/mohalla of a town in the district on such aspects as; area, number of residential houses, number of households, total population with sexwise break-up, scheduled caste population, literate and educated persons and sex-wise break-up of working population categorised into main workers, marginal workers and non-workers. The information based on the primary census abstract has been summarised in various inset tables giving an insight into the demographic structure of the population of the district at tehsil level. A brief analysis of the data incorporated in these tables has been attempted hereafter so as to highlight the various demographic changes that have taken place in the rural and urban areas of the district at tehsil level, particularly during the decade 1971-81. The sub-joined table No. 1 gives an account of the distribution of population at tehsil level.

TABLE NO. 1

Population, Number of Villages and Towns 1981.

Sl. No.	Name of Tehsil	Population									No. of villages		No. of Towns
		Total			Rural			Urban					
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	Total	Inhabited	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Billawar	77500	40017	37483	74361	38377	35984	3139	1640	1499	65	65	1
2	Bashohli	62582	32641	29941	58707	30569	28138	3875	2072	1803	73	72	1
3	Kathua	15184	61333	53851	85013	45331	39682	30171	16002	14169	183	174	3
4	Hiranagar	113857	58579	55278	109052	56129	52923	F4805	2450	2355	266	244	1
	Total District :	359123	172570	175553	327133	170406	155727	41990	22164	19826	587	555	6

The total population returned by the four tehsils of the district at the 1981 Census is 369,123 persons made up of 192,570 males and 176,553 females. Kathua tehsil tops all other tehsils in the size of population while Bashohli is the least populated tehsil. Tehsil Hiranagar has the highest number of villages in its jurisdiction while tehsil Billawar is comprised of the least number of villages amongst the four tehsils. All the tehsils of the district have an urban component, the largest being in the headquarter tehsil of Kathua and the smallest in tehsil Billawar.

Table No. 2 below depicts the decennial changes in the distribution of tehsil-wise population in the district :—

TABLE NO. 2

Decadal change in distribution of population

Tehsil	Population						Percentage decadal 1971-81 variation		
	1971			1981					
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10
Billawar	58716	58716	..	77500	74361	3139	+31.99	+26.65	—
Bashohli	49241	45932	3309	62582	58707	3875	+27.09	+27.81	+17.10
Kathua	85190	67158	18032	115184	85013	30171	+35.21	+26.59	+67.32
Hiranagar	84576	80832	3744	113857	109052	4805	+34.62	+34.91	+28.34
District	277723	252638	25085	369123	327133	41990	+32.91	+29.49	+67.39

The table reveals that in the decade 1971-81 the district has registered a growth of 32.91% in its population which is higher than for the State as a whole which stands at 29.69%. Down at the tehsil level also the growth is higher than for the State except for Bashohli which with a growth rate of 27.09% is the only tehsil falling below the average growth rate for the State as a whole. In Kathua tehsil the urban component of the population has registered a phenomenal growth of 67.32% during the decade 1971-81 partly due to the addition of Parole town.

Table No. 3 below deals with the distribution of villages by population ranges :—

TABLE NO. 3

Distribution of villages by population range

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3
—200	146	26.31
200—499	177	31.89
500—1999	215	38.74
2000—4999	17	3.06
5000—9999		—
10,000+	—	—
Total :	555	100.00

From the above table, it is evident that out of 555 inhabited villages in the district as many as 215 villages or 38.74% have population in the range of 5,000-19,999 while 177 villages or 31.89% have it in the range of 200-499 persons. Villages with population less than 200 constitute 26.31% while those with population of 2,000 or more persons but less than 5,000 form 3.06% of the total inhabited villages of the district. No village has, however, returned population of 5,000 or more.

Table No. 4 below deals with the distribution of villages by density range :—

TABLE NO. 4

Distribution of villages by density

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range
1	2	3
—10	3	0.54
11—20	15	2.70
21 - 50	49	8.83
51 —100	116	20.90
101—200	163	29.37
201— 300	74	13.33
301—500	79	14.24
501+	54	9.73
Un-specified	2	0.36
Total :	555	100.00

163 villages which make more than 29 per cent of the total villages in the district fall in density range of 101-200 persons per sq. km. followed by 116 villages or 20.90 per cent in the range of 51-100. A small number of villages fall in the density range of less than 10 and 11-20 persons per sq. km. The density of two villages which actually represent the forest blocks could not be computed and these have therefore been shown in the density range 'unspecified'.

Table No. 5 below shows the proportion of scheduled castes population to total population in the villages :-

TABLE NO. 5

Proportion of scheduled caste population to total population in the villages

Percentage of scheduled castes population to total population	No. of villages in each range	Percentage of villages in each range
1	2	3
Nil	100	18.02
5 or less	54	9.73
6—10	64	11.53
11—15	64	11.53
16—20	43	7.75
21—30	71	12.79
31 and above	159	28.65
Total :	555	100.00

It will be seen that of a total of 555 villages in the district there are 100 villages which have not reported any scheduled caste population at the 1981 Census, while another 54 constituting 9.73% of the total villages have also reported scheduled caste population in the percentage range of 0-5 only. However, 28.65% villages are such where scheduled castes constitute more than 30% of the population. In about 50% of the remaining villages scheduled castes constitute 6-15% of the population, while in another 50% they constitute 16-30% of the total population.

Table No. 6 below gives the proportion of scheduled caste population to total population in the towns of the district :—

TABLE NO. 6

Proportion of scheduled castes population in towns

Name of the town	Total population	Total scheduled caste population	Percentage of scheduled caste population to total population
1	2	3	4
Bashohli	3875	488	12.59
Billawar	3139	601	19.15
Hiranagar	4805	734	15.28
Lakhenpur	1162	11	0.95
Parole	5397	2153	39.89
Kathua	23612	5177	21.93
All towns	41990	9164	21.82

As will be seen from the table, all the six towns in the district have returned scheduled caste population at the 1981 Census. While Parole town has returned the highest number of scheduled castes, constituting about 40% of its population, Lakhenpur has returned a meagre one per cent of its population as belonging to scheduled castes. Three towns viz. Bashohli, Billawar and Hiranagar has 12 to 20% of their population belonging to scheduled castes while Kathua town has more than 20% of its total population belonging to scheduled castes.

Table No. 7 below indicates the literacy rate by population ranges of the villages :—

TABLE NO. 7

Literacy rates by population ranges of villages

Range of population	No. of villages in each range	Percentage
1	2	3
—200	146	27.93
200—499	177	29.68
500—1999	215	28.23
2000 - 4999	17	33.27
5000—9999	—	—
10,000+	—	—
Total :	555	29.12

It will be seen that villages in the population range 2,000-4,999 are better placed in the matter of literacy level than those in other ranges, the differential being slightly wider in case of villages with less than 200 population. The rural literacy rate returned in the villages of the district, whatever the population range, is higher than the corresponding average for the State which stands at 21.63%.

Table No. 8 below indicates the urban literacy rates in the district :—

TABLE NO. 8

Literacy rates for towns

Name of town	Literacy rate
1	2
Bashohli	64.88
Billawar	51.07
Hiranagar	62.54
Lakhanpur	50.09
Parole	37.13
Kathua	54.13
Total District	53.56

Considering the fact that the urban literacy level for the State as a whole is 45.56%, it is interesting to note that of the six towns in the district Parole alone falls below this level, the other five being high above the State average. Bashohli town particularly stands distinct with the literacy level of 64.88%.

The sub-joined Table No. 9 gives tehsil-wise distribution of literates, workers, non-workers and scheduled caste population in the district :—

TABLE NO. 9

Literates, Workers, Non-workers, Scheduled Caste/Tribe population in the district

Name of Tehsil	Total Rural Urban	Total Population			Percentage of							
					S. C. population to total population	S. T. population to total population	Literates to total population			Main workers to total population		
		P	M	F			P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13
Billawar	Total	77500	40017	37483	19.88	—	23.94	34.77	12.39	31.87	51.84	10.54
	Rural	74361	38377	35984	19.91	—	22.80	33.61	11.26	32.21	52.27	10.81
	Urban	3139	1640	1499	19.15	—	51.07	61.71	39.43	23.77	41.70	4.14
Bashohli	Total	62582	32641	29941	14.19	—	22.71	31.13	13.53	31.63	53.53	7.76
	Rural	58707	30569	28138	14.30	—	19.92	28.39	10.72	31.60	53.74	7.54
	Urban	3875	2072	1803	12.59	—	64.88	71.48	57.29	32.13	50.43	11.10
Kathua	Total	115184	61333	53851	29.65	—	38.07	47.00	27.90	28.87	51.49	3.12
	Rural	85013	45331	39682	31.54	—	33.51	42.54	23.18	29.05	52.05	2.78
	Urban	30171	16002	14169	24.33	—	50.93	59.64	41.10	28.38	49.90	4.09
Hiranagar	Total	113857	58579	55278	22.72	—	36.13	46.68	24.96	25.16	47.26	1.75
	Rural	109052	56129	52923	23.05	—	34.97	45.63	23.66	25.17	47.32	1.66
	Urban	4805	2450	2355	15.28	—	62.54	70.53	54.23	25.04	45.59	3.65
Total District	Total	369123	192570	176553	22.84	—	31.90	41.67	21.25	28.82	50.62	5.05
	Rural	327133	170406	156727	22.97	—	29.12	39.01	18.37	28.93	50.85	5.10
	Urban	41990	22164	19826	21.82	—	53.56	62.10	44.00	28.00	48.87	4.67

Name of Tehsil	Total Rural Urban	Marginal workers to total population			Total workers to total population			Non-workers to total population		
		P	M	F	P	M	F	P	M	F
1	2	14	15	16	17	18	19	20	21	22
Billawar	Total	22.15	5.57	39.85	54.02	57.41	50.39	45.98	42.59	49.61

Bashohli	Total	19.05	5.14	34.21	50.68	58.67	41.97	49.32	41.33	58.03
	Rural	20.21	5.48	36.22	51.81	59.22	43.76	48.19	40.78	56.24
	Urban	1.47	0.25	2.88	33.60	50.68	13.98	66.40	49.32	86.02
Kathua	Total	3.69	1.02	6.73	32.56	52.51	9.85	67.44	47.49	90.15
	Rural	4.74	1.27	8.70	33.79	53.32	11.48	66.21	46.68	88.52
	Urban	0.74	0.32	1.21	29.12	50.22	5.30	70.88	49.78	94.70
Hiranagar	Total	17.97	7.78	28.76	43.13	55.04	30.51	56.87	44.96	69.49
	Rural	18.63	8.02	29.89	43.80	55.34	31.55	56.20	44.66	68.45
	Urban	3.01	2.53	3.53	28.05	48.12	7.18	71.95	51.88	92.82
Total District	Total	14.58	4.72	25.32	43.40	55.34	30.37	56.60	44.66	69.63
	Rural	16.23	5.22	28.20	45.16	56.07	33.30	54.84	43.93	66.70
	Urban	1.70	0.88	2.60	29.70	49.75	7.27	70.30	50.25	92.73

We have already seen that both in the matter of rural as well as urban literacy the district is better placed than the average level for the State. Down at the tehsil level the literacy rate is higher in Kathua and Hiranagar than the average for the district as a whole while Billawar and Bashohli tehsils trail far behind. As between the two sexes, male literacy level outweighs the female literacy level in all the tehsils. The differential in rural areas is, however, almost at par with that of urban areas. Percentage of main workers to total population as reproduced in cols. 11-13 shows that in all the four tehsils the participation rate in urban areas in respect of males trails behind than that in rural areas while in the case of females the position is absolutely reverse barring Billawar tehsil where rural females are better placed than the urban females. The differential between the rural urban proportions is, however, not significant. Amongst the tehsils the highest rural participation rate for male sex has been returned by Bashohli at 53.74% as compared to 50.85% for the district as a whole. In case of female sex the highest proportion of 10.81% has been returned in Billawar tehsil. Marginal workers, as will be noticed from cols. 14-16 of the statement, constitute 14.58% of the population in the district. At the tehsil level this proportion varies from 3.69% in Kathua tehsil to 22.15% in Billawar tehsil. It is however significant to note that in all tehsils predominant proportion of marginal workers is claimed by the female population of the rural component. It is a traditional feature of the rural economy that the female folk though primarily engaged in household activities, do contribute their bit by marginal participation in seasonal economic activities like agriculture operations and household industries. It will thus be seen that the proportion of rural female marginal workers to total rural female population ranges from 8.70% in Kathua to as much as 40.93% in Billawar tehsil. Even in urban areas where marginal workers claim relatively

much smaller proportion in both sexes the proportion of females outweighs the male proportion in all tehsils of the district. Proportion of total workers made up of main workers and marginal workers put together is brought out in cols. 17-19 of the table. It will be seen that in the case of male population the proportion of workers outstrips the proportion of non-workers in all tehsils both in rural and urban parts, barring Billawar urban and Hiranagar urban where it stands at 46.46% and 48.12% only as against 53.54% and 51.88% of non-workers respectively. In the case of female population however, the ratio of non-workers is far too higher than that of workers except in Billawar tehsil where the female workers have a slight edge over non-workers, the differential being much larger in urban parts of all the tehsils.

Analysis of Village Directory Data

The data collected from the revenue and other Government agencies regarding availability of various amenities has been tabulated in the main village directory statements. The salient features of this data in broad aggregates are brought out below in the form of inset tables.

The position of availability of various amenities at district/tehsil level is indicated in the following table :—

TABLE NO. 10

Distribution of villages according to the availability of different amenities

Sl. No.	Name of tehsil	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communication	Approach by pacca road	Power supply
1	2	3	4	5	6	7	8	9	10	11
1	Billawar	65	64 (98.46)	23 (35.38)	65 (100.00)	20 (30.77)	—	20 (30.77)	34 (52.31)	47 (72.31)
2	Bashohli	72	69 (95.83)	22 (30.56)	72 (100.00)	21 (29.17)	—	4 (5.56)	12 (16.67)	21 (29.17)
3	Kathua	174	106 (60.92)	18 (10.34)	172 (98.85)	24 (13.79)	—	68 (39.08)	81 (46.55)	128 (73.56)
4	Hiranagar	244	141 (57.79)	18 (7.38)	239 (97.95)	26 (10.66)	—	28 (11.48)	66 (27.05)	212 (86.89)
	Total :	555	380 (68.47)	81 (14.59)	548 (98.74)	91 (16.40)	—	120 (21.62)	193 (34.77)	408 (73.51)

The table reveals that of the total 555 inhabited villages in the district, 380, accounting for more than 68% have one or the other type of educational institutions like middle, high, higher secondary schools located within the villages and the proportion of availability of this amenity is higher in Billawar and Bashohli tehsils. As regards medical facility, however, 81 villages have either a dispensary or primary health centre or a hospital which makes a meagre proportion of 15 per cent of the total villages. Inter-tehsil comparison shows that the proportion of villages covered under this basic amenity ranges between 7.38% to 10.34% in Kathua and Hiranagar tehsils which is by far lower even to the corresponding proportion of 35.38% and 30.56% in Billawar and Bashohli tehsils respectively. Drinking Water facility in the form of Tap, well, canal etc. is available to all the villages in Billawar and Bashohli tehsils, while in Kathua and Hiranagar tehsils hardly 2 to 5 villages lack this facility. However the protected water supply is available to 161 villages only which form just 29% of the total number of villages which makes a poor position indeed. In the matter of Post and Telegraph facilities, while the proportions of villages covered is 16.40% at the district level their proportions vary from 10.66% in Hiranagar to 30.77% in Billawar tehsil. In communications however Bashohli and Hiranagar have to make a large leaway even to reach the level of Billawar and Kathua tehsils in as much as the proportion of villages covered in the

former group of tehsils ranges from 5.56% to 11.48% as compared to 30.77% and 39.08% in case of Billawar and Kathua tehsils. As regards approach by pucca roads Bashohli tehsil alone lags far behind in comparison to other tehsils with a proportion of 16.67% only while the corresponding proportion ranges between 27.05% to 52.31% in Hiranagar, Kathua and Billawar tehsils. However in the matter of extension of rural electrification programme there is a significant progress discernible with 408 villages out of total 555 in the district having been covered under this amenity. Inter tehsil position is more or less even with more than 70% villages covered in each tehsil except for Bashohli where this proportion is as low as 29.17%.

Table No. 11 below highlights the availability of various amenities in terms of proportions of population served by each :—

TABLE NO. 11

Proportion of rural population served by different amenities

Sl. No.	Name of Tehsil	Total population of inhabited villages in the Tehsil	Proportion of rural population served by the amenity of							
			Education	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communication	Approach by pucca road	Pow sup
1	2	3	4	5	6	7	8	9	10	11
1	Billawar	77500	99.10	43.65	100.00	40.45	—	31.32	50.65	68.65
2	Bashohli	62582	99.03	36.62	100.00	34.33	—	6.90	19.64	34.68
3	Kathua	115184	92.68	20.69	99.33	24.31	—	43.55	46.18	92.72
4	Hiranagar	113857	83.61	19.80	99.29	27.07	—	18.72	34.77	96.62
	Total :	369123	92.30	27.94	99.57	30.25	—	27.11	39.10	79.03

It will be noticed from the above table that the position of population in terms of coverage by various amenities even in the fields of education, medical care, drinking water, post and telegraph offices and communication is quite encouraging than what came out in the earlier table in terms of the proportion of villages both for the district as a whole as also at tehsil level.

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available are indicated in table No. 12 below :—

TABLE NO. 12

Distribution of villages not having certain amenities arranged by distance ranges from the places where these are available

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	–5 kms.	5 –10 kms.	10+kms.	Total (cols. 2—4)
1	2	3	4	5
1. Education	168	6	1	175
2. Medical	247	216	11	474
3. Drinking water	2	5	—	7
4. P & T	314	107	43	464
5. Market/Hat	—	—	—	—
6. Communication	316	56	63	435

This table throws encouraging results. It will be noticed that 67 per cent of the villages where education, medical, drinking water, post and telegraph and communication facilities are not available within the village itself are situated within a distance of less than 5 Kms. from places where these facilities are available. Obviously all the basic amenities are available to most of the rural population of the district within a distance of less than 5 Kms. of their village of resource if not within the village itself and the proportion of population who have to travel a distance of more than 10 Kms. is only 8%. The remaining 25 per cent have to cover a distance of 5 to 10 Kms. to have these amenities available to them.

The table below gives the distribution of villages according to distance from the nearest town and the availability of different amenities :—

TABLE NO. 13

Distribution of villages according to the distance from the nearest town and availability of different amenities

Distance range from the nearest town (in kms.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Education	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
0 –5	122	73 (59.84)	10 (8.20)	121 (99.18)	15 (12.30)	—	34 (27.87)	53 (43.44)	106 (86.89)
6 –15	267	173 (64.79)	30 (11.24)	261 (97.75)	39 (14.61)	—	57 (21.35)	100 (37.45)	212 (79.40)
16 –50	148	117 (79.05)	34 (22.97)	148 (100.00)	30 (20.27)	—	29 (19.59)	40 (27.03)	90 (60.81)
51+	18	17 (94.44)	7 (38.89)	18 (100.00)	7 (38.89)	—	—	—	—
Unspecified	—	—	—	—	—	—	—	—	—
Total :	555	380 (68.47)	81 (14.59)	548 (98.74)	91 (16.40)	—	120 (21.62)	193 (34.77)	408 (73.51)

It will be seen that distance from the nearest town does not seem to have any major effect on the provision of various amenities in the villages except communication, approach by pucca road and power supply where the villages placed at a distance of less than 5 Kms. seem for good reasons to have received relatively better attention than those situated at longer distances.

The table below gives the distribution of villages according to population ranges and amenities available to them.

TABLE NO. 14

Distribution of villages according to population range and amenities available

Population range	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Education	Medical	Drinking water	Post & Telegraph	Market/ Hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
–499	323	151 (46.75)	12 (3.72)	316 (97.83)	14 (4.33)	—	51 (15.79)	91 (28.17)	226 (69.97)
500 –1999	215	212 (98.60)	55 (25.58)	215 (100.00)	62 (28.84)	—	59 (27.44)	91 (42.33)	169 (78.60)
2000 –4999	17	17 (100.00)	14 (82.35)	17 (100.00)	15 (88.24)	—	10 (58.82)	11 (64.71)	13 (76.47)
5000+	—	—	—	—	—	—	—	—	—
Total :	555	380 (68.47)	81 (14.59)	548 (98.74)	91 (16.40)	—	120 (21.62)	193 (34.77)	408 (73.51)

As will be readily observed the population size of the village has a direct bearing on determining the position of various amenities with more populated villages expectedly attracting more attention than less populated villages. As is noticeable the highest beneficiaries are the villages with a population of 500-1,999 and 2,000-4,999 in the field of practically each basic amenity and the least proportion is of those with a population of less than 500 particularly in the field of medical and post and telegraph where the coverage of such villages is only 4%.

The table below indicates the staple food in the majority of villages in each tehsil.

TABLE NO. 15

Main staple food in the majority of villages in each tehsil

S. No.	Name of tehsil	Main staple food
1	2	3
1.	Billawar	Wheat, Maize, Rice
2.	Bashohli	Wheat, Maize, Rice
3.	Kathua	Rice, Wheat
4.	Hiranagar	Rice, Wheat

It will be seen that the main staple food in all the tehsils of the district is Rice and Wheat.

Distribution of villages according to land use is given in table No. 16 below :—

TABLE NO. 16

Distribution of villages according to land use

Sl. No.	Name of Tehsil	No. of inhabited villages	Total Area	Percentage cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1.	Billawar	65	66877.44	35.92	6.39
2.	Bashohli	72	85892.61	26.32	5.05
3.	Kathua	174	56969.87	41.62	32.89
4.	Hiranagar	244	53617.16	52.32	19.06
	Total district :	555	263357.08	37.36	16.09

It will be seen that Hiranagar tehsil is better placed in terms of cultivable area to total area in comparison to other tehsils while in terms of percentage of irrigated area to total area. Kathua tehsil if far better in comparison to other tehsils of the district.

Brief analysis of Town Directoy Data

Separate data in respect of urban population structure, civic finance, the availability of various amenities has been compiled in the main town directory tables I to VI. For facilitating a brief commentary and assessment of the progress made by urban population some of the important statistics have further been sub-divided in table No. 17 to 22.

The sub-joined table No. 17 indicates the figures relating to urban population, its percentage, variation, density and sex ratio :—

TABLE NO. 17

Growth, density and sex-ratio of urban population in the district in relation to the State

Census year	District						State					
	Total population	Urban population	%Urban population	Decadal percentage variation in urban population	Density (population per sq. km.)	Sex ratio (No. of females per 1,000 males)	Total population	Urban population	%Urban population	Decadal percentage variation in urban population	Density (population per sq. km.)	Sex ratio (No. of females per 1,000 males)
1	2	3	4	5	6	7	8	9	10	11	12	13
1961	210806	15535	7.37	—	1852	871	3560976	593315	16.66	—	N.A.	844
1971	277723	25085	9.03	+61.47	3155	908	4616632	858221	18.59	+44.65	N.A.	860
1981	369123	41990	11.38	+67.39	2597	895	*5987389	1260403	21.05	+46.86	2146	875

*The population figures exclude population of area under unlawful occupation of Pakistan and China where Census could not be taken.

As is discernible from the above table Kathua District lags almost half way behind the State as a whole in its progress towards urbanisation, the position having been consistently so during the last three decades. The district thus continues to be predominantly rural in character, the proportion of urban population having increased to only 11.38% in 1981 as against 7.37% in 1961. The corresponding proportion for the State as a whole has increased to 21.05% in 1981 as against 16.66% in 1961. As regards density of population, in the absence of area figures for the State urban for 1961 and 1971 comparable picture is available only for 1981 indicating that urban density of population per sq. km. in Kathua District is 2,597 as against 2,146 for the State as a whole. In the matter of urban sex-ratio, however, the district compares favourably with the State ratios registered during 1961 and 1981 Censuses.

The table below is intended to identify the towns added or declassified during the 1971-81 decade :—

TABLE NO. 18

New towns added/towns declassified in 1981 Census

Name of towns	Population 1981 Census
1	2
(a) Added	
(i) Billawar	3139
(ii) Parole	5397
(iii)	
(b) Declassified	
(i)	—
(ii)	—
(iii)	—

The data in the above table indicate that over the last ten years Billawar and Parole have come to be recognised as the two new towns of the district while there has been no declassification of any town previously recognised as such. Accordingly, the number of towns in the district has gone up to 6 in 1981 as against 4 in 1971.

Table No. 19 below indicates the per capita receipt from various resources and expenditure on various amenities in respect of each town of the district :—

TABLE NO. 19

Per capita receipt and expenditure in towns

Class, name & civic status of the town		Per Capita								
		Receipt			Expenditure					
		Total	Receipt through taxes	Receipt from all other sources	Total expenditure	General administration	Expenditure on public health and conveniences	Public works	Expenditure on public institutions	Other aspects
1		2	3	4	5	6	7	8	9	10
VI Bashohli	N. A.	46.43	23.67	22.76	14.30	—	0.77	12.52	—	1.01
VI Billawar	N. A.	44.79	22.30	22.49	26.44	9.56	0.63	15.93	—	0.32
VI Hiranagar	N. A.	21.77	9.74	12.03	17.50	10.28	1.14	5.45	—	0.63
III Kathua	T. A.	33.26	25.91	7.35	48.16	12.00	2.10	33.79	—	0.27
VI Lakh npur	N. A.	106.97	80.46	26.51	96.73	41.91	1.55	26.85	10.93	15.49
V Parole	N. A.	9.88	7.05	2.83	2.50	1.37	0.63	..	—	0.50
	Total :	33.06	22.67	10.39	35.38	9.98	1.56	22.71	0.30	0.83

It will be seen that both in per capita receipt as well as expenditure, Lakhenpur is far ahead of other towns in the district. The other towns which are relatively better placed than others are Bashohli, Billawar and Kathua. However, in per capita expenditure the other towns which are relatively better are Kathua, Billawar and Hiranagar. The lowest receipt and expenditure per capita is observed in Parole town. Barring Hiranagar town, bulk of per capita receipts have been collected through taxes. Similarly, per capita expenditure in case of Bashohli, Billawar and Kathua towns is incurred on public works while in case of Hiranagar, Lakhenpur and Parole it is mostly claimed by general administration. Surprisingly the per capita expenditure on public institutions is nil except in Lakhanpur town which seems to have received more attention because of its holding the position of gateway to the State of Jammu and Kashmir.

The sub-joined table No. 20 gives the number of education institutions per ten thousand of population in each town of the district :—

TABLE NO. 20

Schools per ten thousand population in towns

Class, name and civic status of town			No. per ten thousand population			
			Higher Secondary/Inter/ PUC/Junior college	Secondary Matriculation	Junior secondary/ middle	Primary
1			2	3	4	5
VI	Bashohli	N.A.	2.58	2.58	7.74	—
VI	Billawar	N.A.	3.19	3.19	—	6.37
VI	Hiranagar	N.A.	2.08	2.08	6.24	4.16
III	Kathua	T.A.	0.85	0.42	3.39	2.96
VI	Lakhenpur	N.A.	—	8.61	8.61	—
V	Parole	N.A.	—	1.85	1.85	—
		Total :	1.19	1.43	3.81	2.62

It will be seen that in Lakhenpur and Parole towns there are no higher secondary schools or PUC/Junior Colleges. The towns with smaller population have been better provided in terms of higher secondary schools/Junior Colleges than those with larger population, the chief consideration probably having been to equip these towns with such facilities regardless of whether they deserve these at all in relation to their population. In case of Secondary/Matriculation Schools the higher number is reported in Lakhenpur followed by Billawar town. Similarly, in case of junior/middle schools, again Lakhenpur tops all other towns followed by Bashohli town. There are more primary schools in Billawar town than in other towns.

The inset table No. 21 below gives the number of medical institutions per one thousand population :—

TABLE NO. 21

No. of beds in medical institutions in towns

Class, name & civic status of the town			No. of beds in medical institutions per 1,000 population
1			2
VI	Bashohli	N.A.	3.87
VI	Billawar	N.A.	9.56
VI	Hiranagar	N.A.	5.20
III	Kathua	T.A.	4.24
VI	Lakhnepur	N.A.	—
V	Parole	N.A.	1.85
		Total :	4.29

The data in the above table indicates that Billawar town with 30 hospital beds for a population of 3,139 is placed better than any other town, the proportion working out to 9.56 beds per 1,000 population. Hiranagar and Kathua are the other two towns which though far below Billawar town with a strength of 5.20 and 4.24 beds per 1,000 of total population respectively, have still an edge over the other three towns where the corresponding proportions are far lower.

The below mentioned inset table highlights the extent of most important commodity manufactured, imported and exported in the towns of the district :—

TABLE NO. 22

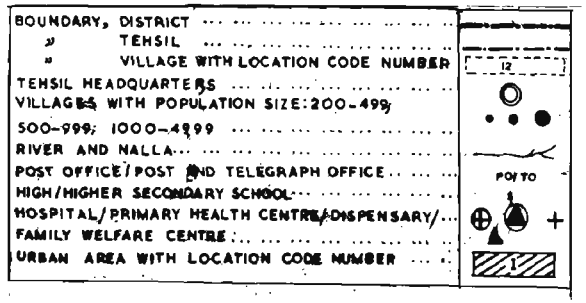

Most important commodity manufactured, imported and exported in the towns

Class, name and civic status of the town			Most important commodity		
			Manufactured	Exported	Imported
1			2	3	4
VI	Bashohli	N.A	Shawls	Shawls	Cloth
VI	Billawar	N.A	Doop	Blankets	Cloth
VI	Hiranagar	N.A	Bats	Eggs	Cloth
III	Kathua	T.A	Cotton thread	Rice	K. Oil
VI	Lakhenpur	N.A	Khadi Cloth	Grain Wheat	Sugar
V	Parole	N.A	Bricks	Paddy	Pulses

The table speaks for itself and hardly calls for a comment.

NOTE EXPLAINING THE CODES USED IN THE VILLAGE DIRECTORY.

A number of codes has been used in the village Directory. These are emplified below :—

Column Number	Item	Code
5. (Educational)* (Amenities)	Primary or elementary school	P
	Junior secondary or middle school	M
	Matriculation or secondary	H
	Higher Secondary/Intermediate/Pre-university/ Junior college	PUC
	College, any college (graduate level and above) like Arts, Science, Commerce, etc.	C
	Industrial school	I
	Training school	Tr
	Adult literacy class/centre	AC
	Other educational institutions. These includes Sanskrit Pathshala, Senior basic school, Makhtab, etc.	O
6. (Medical)£ (Amenities)	Hospital	H
	Maternity & child-welfare centre	MCW
	Maternity home	MH
	Child welfare centre	CWC
	Health centre	HC
	Primary health centre	PHC
	Primary health sub-centre	PHS
	Dispensary	D
	Family planning centre	FPC
	T. B. clinic	TB
	Nursing home	NH
	Registered private practitioner	RP
	Subsidised medical practitioner	SMP
	Community health worker	CHW
	Others	O

7. (Drinking water) (Amenities)	Tap water	T
	Well water	W
	Tank water	Tk
	Tube-well water	TW
	Handpump	Hp
	River water	R
	Fountain	F
	Canal	C
	Lake	L
	Spring	S
	Nallah	N
	Others	O
	Information not available	NA
8. (Post & telegraph) (Amenities)	Post office	PO
	Telegraph office	TO
	Post & Telegraph office	PTO
	Telephone connection	Phone
10. (Communications)	Bus	BS
	Railway station	RS
	Navigable water-way (including river, canal, backwaters, etc.)	NW
11. (Approach to village)	Pucca road	PR
	Kacha road	KR
	Navigable river	NR
	Navigable canal	NC
	Navigable water-way (other than river or canal)	NW
	Foot path	FP
13. (Power supply)	Electricity for domestic purpose	ED
	Electricity for agriculture	EAG
	Electricity for other purpose like industrial commercial, etc.	EO
	Electricity for all purposes	EA

16. (Irrigated by source)	Government canal	GC
	Private canal	PC
	Well (without electricity)	W
	Well (with electricity)	WE
	Tube-well (without electricity)	TW
	Tube-well (with electricity)	TWE
	Tank	Tk
	River	R
	Lake	L
	Waterfall	Wf
	Others	O
	Total	T
20. (Remarks including any place of religious, historical or archaeological interest)	Copies of the newspapers coming in the village	N
	Motorcycles/scooters available in the village	M
	Cars/Jeeps available in the village	C
	Tractors available in the village	T

Note:—*Where there are more than one institutions of the same type in the village, the same have been indicated in figures against the appropriate abbreviations, *e. g.* P (3), M (2) H(2)

£Where there are more than one institutions of the same type in the village, the same have been indicated in figures against the appropriate abbreviations *e. g.* H(2), D(3), etc.
