Ramagundam—Industrial City of Tomorrow

Ramagundam, a small town with a population of 8,875 persons as per the 1971 Census is located in Peddapalle Taluk of Karimnagar District. It is a railway station situated in the Kazipet – Nagpur Section on the Madras – Delhi Broad Gauge line. Ramagundam being very far from the sea coast experiences extreme climatic conditions. It is one of the hottest places like Rentachintala and Bhadrachalam in the State. The maximum temperature normally ranges between 45° C. and 47° C. but sometimes it may also rise upto 50° C. The minimum temperature during winter normally ranges between 8° C. and 11° C.

The Thermal Power Station at Ramagundam which is covered by this motif is one of the second biggest power producing stations in the Telangana Region of Andhra Pradesh. It was the second thermal power station taken up by the former Hyderabad Government and was intended to distribute large quantity of power generated for some of the industries expected to come up in the region. The power station is known as Godavari Thermal Power Station.

The Power Station at Ramagundam comprises two producing plants. The first plant known as "A" station was commissioned in June, 1957 with three generating sets of 12.5 MW each and six boilers with a capacity of 50,000 lbs. per hour each. As this boiler capacity was found inadequate to derive the benefits of full generation of 37.5 MW power, an additional boiler of higher capacity of 1,50,000 lbs. per hour was erected and commissioned in 1967.

An expansion of the existing station "A" was contemplated earlier, and as a result, Station "B" was inaugurated in June, 1972. It is located at about 1 Km. to the earlier station and about 3 Kms. on the eastern side of Ramagundam Railway Station. It consists of only one set with an installed generating capacity of 62.5 MW. Ramagundam 'B' station was the latest to be added to Andhra Pradesh Grid. The project was financed by a loan under the U. S. Agency for International Development (AID). Major equipment was imported from U.S.A., while minor equipment was procured from indigenous sources. The estimated cost of the project is Rs. 12.25 Crores.

In view of the assured coal reserves nearby and availability of adequate water in the Godavari river, Ramagundam is ideally suited for being developed into a Super Thermal Station. It is, therefore, proposed to gradually expand this station to a total capacity of 1,000 MW in course of time. The importance of this station will further increase when it is linked up with the Maharashtra Grid at Balharsha for exchange of power between the two State Grids.

The total generating capacity in the State at present stands at 668 MW as against 106 MW on November 1, 1956 indicating the spectacular improvement made in power generation essential for the development of industries, agriculture and for bringing all the benefits of modern living to the society.

Ramagundam is in the heart of the rich coal and mineral belt with every promise of development of a big industrial complex. With the establishment of this power station and the numerous natural resources of the tract, Ramagundam region is fast becoming one of the key industrial regions in Andhra Pradesh. Already a coal based Fertiliser Factory is being constructed at Godavari Khani (Population 23,053 persons) about 4 Kms. from Ramagundam under the auspices of the Fertiliser Corporation of India at a cost of Rs. 71.2 crores with a capacity of producing 11.83 lakh tonnes of Urea and Urea Nitro-Phosphates per annum. The State Government has also set up in the co-operative sector a spinning and weaving mill at Antargaon (Population 606 persons) at a distance of about 8 Kms. from Ramagundam with 12,000 spindles and 350 power looms. In addition to these and the coal mines of Singareni Collieries and Co., Ltd., at Godavari Khani, Kesoram Cement Factory with a production capacity of 1,500 tonnes a day is located at Palakurthi (Population 3,002 persons) at about 19 Kms. from Ramagundam. Some more industrial units are bound to come up in this region in due course.

PREFACE

The District Census Handbooks which were first published at the 1951 Census proved to be very useful to the State and Central Government Departments, private agencies and academic bodies like Universities and Research Institutions. The scope of these Handbooks was enlarged to make them more useful during the 1961 Census. Considering the delay in the publication of these Handbooks due to difficulties in finding suitable presses which could undertake huge printing work of this kind, it was considered desirable to split up the 1971 Census Handbooks into three parts viz., Part A — Village and Town Directory, Part B — Village and Town Primary Census Abstract and Part C — Analytical Report, Departmental Statistics and District Census Tables. This was done mainly with a view to publishing Parts A and B which contain not only the population data upto the village and town level but also the particulars about the basic amenities *etc.*, available in the towns and villages, as early as possible for public use. The scope and contents of these three parts are elaborated in the introduction of this volume. I am glad to record here that Parts A and B of the 1971 Census Handbooks of all the 21 Districts in the State have been finalised already and I expect that before the end of 1973 Parts A and B for all the 21 Districts would have been published.

The compilation of these Handbooks is being done from the 1951 Census in the Office of the Director of Census Operations while the cost of paper, printing, *etc.*, required for these volumes is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of printing and paper for the 1971 Census Handbooks. I am grateful to the Andhra Pradesh State Government and in particular to the Additional Chief Secretary to the Government of Andhra Pradesh, Shri S. A. Quader, IAS., for their co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for assisting me by selecting suitable presses for undertaking the printing of the Handbooks. The data presented in the Village and Town Directories are obtained from different State Government and Central Government Departments but for whose co-operation Part-A of the Handbooks could not have been compiled. I am thankful to all of them for furnishing me the required data.

I am extremely grateful to Shri A. Chandra Sekhar, IAS., Registrar General, India and Dr. Roy Burman, Deputy Registrar General, India who formulated the contents of these Handbooks in detail and rendered spontaneous help and encouragement to me at all stages.

The following staff of my Office worked on the present volume of Karimnagar District Census Handbook under the guidance and supervision of Shri P. S. R. Avadhany, Deputy Director of Census Operation and Sri K. Narasimha Murthy, Assistant Director of Census Operations of my Office.

Sri P. B. Sunder Raj, Tabulation Officer ,, T. Brahmiah, Statistical Assistant ,, T. Govardhana Rao, Statistical Assistant	Drafting Scrutiny, and Supervision of Printing
Smt. Ch. Shakuntala Devi, Computor Sri V. Babu Rao, Assistant Compiler ,, S. Ramakrishna, Assistant Compiler ,, P. V. Prabhaker, Assistant Compiler	Compilation
Sri K. S. Krishna Murthy, Proof Reader ,, P. Mahatma Chary, Assistant Compiler	Proof Reading

Sri A. Venkateswara Rao, Assistant Compiler	Scrutiny and Printing of maps
Sri M. N. Ram Mohan, Artist ,, Syed Ahmed, Senior Draughtsman ,, M. J. Sadiq, Draughtsman ,, N. G. Swamy, Draughtsman ,, M. Hassan, Draughtsman ,, M. Shankaraiah, Draughtsman ,, Md. Yakub Ali, Draughtsman ,, B. Raghu Ram, Draughtsman Smt. Daya Saxena, Draughtsman	Preparation of maps

I am grateful to their services.

I trust that this humble effort on the part of the Census Organisation would meet with the appreciation it deserves.

T. VEDANTAM
Director of Census Operations

INTRODUCTION

GENERAL BACKGROUND OF THE DISTRICT CENSUS HANDBOOK

District Manuals and District Gazetteers

Prior to 1905, the erstwhile composite Madras Government compiled and published District Manual for each district. It contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of their publication. The Madras Government, therefore, replaced these District Manuals by another publication known as the District Gazetteer consisting of two Volumes 'A' and 'B'. Volume A contained descriptive matter and such general tables as might be necessary to explain the text and Volume B contained detailed statistics. They decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of Volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of Volume B was also stopped after the 1931 Census.

In the erstwhile Hyderabad State also the Gazetteer Volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of some districts like Cuddapah and Anantapur have been published already.

The Village Statements

Apart from these District Manuals and Gazetteers, the census data upto village level used to be published in a brochure called "Village Statement" for each district immediately after every census from 1872 upto 1941.

The Village Statements merely showed the number of occupied houses and population by religion of each village and town and they did not contain any more details. From the 1951 Census, Village Statements were replaced by the District Census Handbooks.

District Census Handbooks

The idea of compiling the District Census Handbooks for each district in place of Village Statements was first entertained and put forward at the 1951 Census by Sri R. A. Gopalaswamy, I.C.S., the then Registrar General, India and *ex-officio* Census Commissioner of India as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the "District Census Handbook" and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the district should be printed and published at their own cost, in the same manner as the village statistics of the past censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for all districts at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing Administrative Statistics and Part II the Census Tables. In the composite Madras State, the Handbooks were brought out in one single volume only for each district.

Pattern at 1961 Census

At the 1961 Census, the scope of the District Census Handbooks was significantly enlarged by Sri Ashok Mitra, I.C.S., the then Registrar General, India. The District Census Handbooks of 1961 Census of Andhra Pradesh were divided into four parts. The first part contained narrative description of the Physical features, History, Social, Economic and Demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the Administrative Statistics of various departments. The third part contained the 1961 Census Tables *viz.*, General Population Tables, Economic Tables, Cultural and Migration Tables.

Special Tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of Village and Town Directory which was the most vital part of the Handbook, giving villagewise and townwise Primary Census Abstract *i.e.*, particulars of area, households, population, scheduled castes, scheduled tribes, literates, broad categorisation of working population etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine Sub-Tables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen etc., were given after Village and Town Directory. A tabular statement on Fairs and Festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census

The District Census Handbooks proved to be very useful and valuable publications and had considerable demand by public as well as the official users of the census data. At the 1971 Census, it was therefore, decided not only to continue the publication of the District Census Handbooks but also to enlarge its scope further.

At the last Census, there was some delay in the publication of the District Census Handbooks due to the inadequate printing facilities. In order to avoid delay in publication and also to make available the more important census data to the planners, administrators, and other users who may be not only eager but in dire necessity to use the information in their respective spheres, it has been decided to bring out the District Census Handbooks in three parts *viz.*, Part A, Part B and Part C. Part A contains Village and Town Directory. Part B contains Village and Town Primary Census Abstract. Part C contains Administrative Statistics and Analytical Report. Parts A and B of the District Census Handbooks of this State are being brought out in one volume and Part C will be brought out in a separate volume for each district a little later.

A brief outline on the scope of each of these three Parts is given below.

Part A : Village and Town Directory

In this part, the Village Directory is given first and then the Town Directory.

Village Directory : It is arranged talukwise and gives for each village, particulars of amenities available in respect of educational and medical institutions, power and drinking water supply, postal and telegraphic facilities, communications, particulars of land use, markets, places of religious, historical or archaeological interest in the village.

Town Directory : The Town Directory portion contains data in seven statements. Particulars like the civic administration status, its origin, the growth and decline of its population, functional category, physical aspects and location, municipal finances, civic and other amenities, medical, educational, recreational and cultural facilities, trade, industry, commerce and banking facilities and lastly the religious composition of the town and the scheduled castes/tribes population inhabiting are presented in seven statements. They are given for each town in the district arranged in alphabetical order.

Part B: Primary Census Abstract

This part gives for each revenue village and also for each enumerator's block and ward of a town, the Primary Census data *i.e.*, area, occupied residential houses, number of households, total population and its break up by sex, schduled castes, and scheduled tribes population, literate population, working population by nine broad categories of cultivators, agricultural labourers, those working in livestock, forestry, fishing, plantations, etc., in mining and quarrying, in manufacturing, in construction, in trade and commerce, in transport, storage and communications and in other services and the non-working population as per the 1971 Census.

Part C: Administrative Statistics and Report

This part comprises the various administrative statistics pertaining to the district with special reference to the development taken place during 1961-70 in different spheres and also the 1971 Census Tables relating to the General Population, Economic Characteristics, Cultural and Migration features, Housing and Establishment tables and data pertaining to the district regarding language and religion. A write up, indicating the changes in the socio-economic and demographic characteristics of the district and the developmental activities that have taken place in the decade in the various fields like Agriculture, Industries, Trade and Commerce, Education, Medical and Public Health, Community Development, etc., is given at the beginning of this part. In view of the

elaborate write up already given in the 1961 District Census Handbooks, the present write up will be brief and it will cover the present decade only.

Rural and Urban Classification of areas

It is customary to classify the population of every country at a census as Rural and Urban. Such a classification has considerable significance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence at the beginning of each census, the criteria for treating a place as town (*i.e.*, urban) or rural are evolved and the areas are then classified accordingly as per the definition so evolved.

From the year 1891, the census definition of a town in this country was more or less the same till 1941 and it was slightly modified in 1951. The towns broadly comprised all Municipalities of whatever population and every other continuous collection of houses, permanently inhabited by not less than 5,000 persons, which the provincial Directors of Census Operations having regard to the character and relative density of population, their importance as centres of trade decided them to be towns. In the application of this definition there was some variation from State to State according to the local conditions. It was only at the 1961 Census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 Census also. The following criteria are adopted for treating a place as a town at the 1971 Census.

1 All places with a Municipality, Corporation or Cantonment or Notified Town Areas, and

2 All other places which satisfied the following criteria:

(*a*) a minimum population of 5,000

(*b*) a density of population of at least 1,000 persons per Sq. mile (400 persons per Sq.Km.) and

(*c*) at least three fourths (75%) of the male working population is non-agricultural.

In respect of marginal cases, the Directors of Census Operations of the States were given discretion to decide a place as town or village.

The Towns are distributed into six classes as detailed below:–

Classification of Towns		*Population size*
Class I	..	1,00,000, and above
Class II	..	50,000—99,999
Class III	..	20,000—49,999
Class IV	..	10,000—19,999
Class V	..	5,000—9,999
Class VI	..	Below 5,000

The Class I Towns are termed as Cities.

Besides classification of all places into Rural and Urban areas, two new concepts *viz.*, Urban Agglomeration and Standard Urban Area were newly evolved at the 1971 Census. They are briefly explained below.

Urban Agglomeration

In several areas around a core city or statutory town have come up fairly large and well recognised Railway Colonies, University Campuses, Port areas, Military Camps, etc. Even though they are outside the statutory limits of a Corporation, Municipality or Cantonment, they fall within the revenue boundary of the place by which the town itself is known or in the revenue boundary of the neighbouring village. It may not be altogether realistic to treat such areas lying outside the statutory limits of a town as rural units and at the same time each such individual area by itself may not satisfy the minimum population limits to qualify to be treated as an independent town. Such areas deserve to be reckoned along with the main town and the continuous spread including such urban outgrowth would deserve to be treated as an integrated urban area. At the 1971 Census such continuous urban spreads have been treated as integrated urban areas and defined as Urban Agglomerations. This concept of Urban Agglomeration replaced the concept of Town-group followed in the 1961 Census. Urban Agglomerations can be constituted in the following situations:

(*a*) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of the adjoining village or villages).

(*b*) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (*a*) and

(*c*) A city and one or more adjoining towns with their outgrowths all of which forming a continuous spread.

Thus the Urban Agglomeration represents wholly the urban population only. In Andhra Pradesh. the following four places are treated as Urban Aggiomerations.

Name of the Urban Agglomeration (1)	*Constituent units in the Urban Agglomeration* (2)
1 Visakhapatnam Urban Agglomeration	(*a*) Visakhapatnam City
	(*i*) Visakhapatnam Municipality
	(*ii*) Gajuvaka (Outgrowth)
	(*b*) Gopalapatnam
2 Rajahmundry Urban Agglomeration	(*a*) Rajahmundry Municipality
	(*b*) Rajahmundry Non-Municipal Area
3 Vijayawada Urban Agglomeration	(*a*) Vijayawada Municipality
	(*b*) Patamata Town
	(*c*) Gunadala Town
4 Hyderabad Urban Agglomeration	(*a*) Hyderabad Municipa Corporation
	(*i*) Hyderabab Division
	(*ii*) Secunderabad Division
	(*b*) Secunderabad Cantonment
	(*c*) Malkajgiri
	(*d*) Alwal
	(*e*) Uppal Khalsa
	(*f*) Balanagar
	(*g*) Fatehnagar
	(*h*) Macha Bolaram
	(*i*) Osmania University
	(*j*) Lalaguda
	(*k*) Kukatpalle
	(*l*) Moosapet
	(*m*) Bowenpalle
	(*n*) Zamistanpur

The Standard Urban Area (S.U.A.)

The concept of the Standard Urban Area has been evolved for the first time at the 1971 Census to give out a more meaningful picture of the urban growth. The town-group concept adopted at the 1961 Census did not effectively tackle the prbolems involved in reporting urban statistics apart from lacking a uniform application throghout the country. It also did not bring out a spatially contiguous territory of urban-rural settlements but merely bound up loosely clustered population popularly known as the satellite towns or the constitutent units whose Jurisdictions were subjected to frequent changes and thus lacked in stability. The intervening rural areas were also left out of the account. Consequently the conclusions drawn became not only invalid over a time but also lost spatial comparability with similar data processed both within the country and outside. These short-comings reduced considerably the utility of the town-group concept which was also found somewhat inadequate for the purpose it was developed. To enable the presentation of urban statistics on a uniform basis and also to ensure comparability of the census data from one decade to another and with similar data available from other countries, the concept of Standard Urban Area has been envisaged and adopted at the 1971 Census.

The Standard Urban Area is defined as the projected growth area of a city or town as it would be in another three decades taking into account not only the towns and villages which will get merged into it but also the intervening areas which are potentially urban. The tract includes all extra Municipal urban outgrowth such as the suburbs (industrial and residential), Railway Colonies, Civil Lines, Cantonments and also such of those viliages that are likely to be urbanised during the next three decades. The Standard Urban Area is thus an area which extends well beyond the chief core city or town and contains all likely developments over the next 30 years. It will remain a statistical reporting unit for the next three successive censuses, irrespective of the jurisdictional changes of the local administrative units within the tract. The Standard Urban Area will be identified by the administrative units that it encompasses namely the city, the town, the village. The boundaries of the Standard Urban Area will be the administrative boundaries of the peripheral units.

In demarcating the Standard Urban Area the following criteria are followed:

(i) The core town should have a minimum population of 50,000.

(ii) The contiguous areas should be made up of other urban as well as rural administrative units having close and mutual socio-economic links with the core town and

(iii) The entire area included in the Standard Urban Area is likely to be urbanised in a span of two to three decades.

In Karimnagar District, none of the towns has been treated as Standard Urban Area.

PART-A

VILLAGE AND TOWN DIRECTORY

SECTION I - Village Directory

SECTION II - Town Directory

SECTION I

VILLAGE DIRECTORY

The main purpose of the Village Directory is to indicate the available important facilities like educational, medical, drinking water supply, communications and electric supply facilities in each village. The collection and presentation of such data was first attempted at the 1961 Census and the different facilities available were shown by abbreviated letters under five columns along with the Primary Census Abstract. But at the 1971 Census it was decided to present such particulars in greater detail in the Village Directory and to give the Primary Census Abstract separately. Besides presenting the data on basic amenities like, educational, medical, electricity, drinking water supply, communications, posts and telegraphs, the particulars about the staple food commonly used by the majority of the people, land utilisation, the name and distance of the nearest town, the market/shandy days, historical or religious or archaeological or tourist importance, if any, of the villages have also been collected and presented in the Village Directory. The Villagewise Primary Census Abstract is presented separately in Part B of this Volume.

In the Village Directory, the revenue village is taken as the lowest unit for presentation of data. The villages are arranged in the ascending order of Location Code Numbers assigned to the villages. Unlike the Town Directory the Village Directory contains only one statement. An alphabetical list of villages with the Location Code Numbers against them and a taluk map showing boundaries of each villages are given at the beginning of the village Directory of each taluk. This facilitates the reader to select the required village from the alphabetical list and after knowing its location code number to obtain the necessary particulars from the Village Directory. The Village Directory is broadly divided into four broad sections *viz.* location particulars, basic amenities like education, medical *etc.*, land utilisation and distance from the nearest urban area and the importance of the village as a religious or tourist centre.

Columns 1 to 3 deal with the location code number, name and the total area of the village. The area given under Col. 3 is as per the data furnished by the Tahsildar and the State Survey Department. Columns 4 to 9 give the basic amenities available in the village, such as the educational, medical, electricity, drinking water, communications, postal facilities.

The educational facilites are shown by the following symbols under column 4.

P : Primary or Elementary School
M : Middle School
H : High Schools or Higher Secondary School
C : College
T : Techincal Institution

If there are more institutions than one of a type in the village tha number of institutions precedes the abbreviations *e.g.*, 3P, 2M, 3H *etc.*

Medical and Public Health facilities existing in the village are shown by the following symbols under Col, 5.

H : Hospital
D : Dispensary
Mcw : Maternity and Child Welfare Centre
Fpc : Family Planning Centre
Phc : Primary Health Centre

If the village is electrified then it is indicated by the letter E under Colum 6.

The types of drinking water supply sources available within the village are indicated as below:—

T : Tap
W : Well
Tk : Tank
Tw : Tube well
R : River
C : Canal

If there are any other sources of drinking water other than the above, then such sources have been spelt out.

If the village is served by one or more of the following means of communications within a distance of one mile from the village, than the communication

facilities of the village under column 8 have been indicated as below:

PR : Pucca Road
KR : Kutcha Road
T : Train
R : River
C : Canal

The postal facilities if any, existing in the village are indicated under column 9 by the following symbols:

PO : Post Office
TO : Telegraph Office
PTO : Post & Telegraph Office
Phone : Telephone

If a village does not have any of the above facilities then "..." is indicated against such village under relevant column.

The staple food of the majority of the population of the village during the major portion of the year is indicated under column 10 *e.g.*, Rice, Jowar, Ragi *etc.* If there is variety of grains mainly used in a village then they have been indicated accordingly, *e.g.*, Rice and Jowar *etc.*

Ri : Rice
W : Wheat
J : Jowar
B : Bajra (Cumbu, Sajja)
Ra : Ragi
M : Maize

Columns 11 to 15 relate to the land utilisation statistics. Under column 11 the extent of the forest area is given. Under columns 12 and 13 the extent of the cultivated area in the village is given. The extent of area irrigated together with area irrigated under different irrigational sources such as canals, tanks, wells, tube wells *etc.*, are given, wherever available under column 12 while under column 13 the extent of land unirrigated is given, column 14 gives the extent of cultivable waste. The area not available for cultivation such as village site, rivers, canals, tanks, wells *etc.*, is given under column 15.

The various types of land use given under each of the columns 11 to 15 are listed out and the concepts explained below.

1 Forests (Col. 11) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with breakup irrigated & unirrigated (Cols. 12, and 13). This includes the land under the following three categories.

(*i*) *Net area sown* :

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(*ii*) *Current fallows* :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(*iii*) *Other fallows* :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerated nature of farming etc.

3 Culturable waste (Col. 14) This includes the land under the following three categories.

(*i*) *Miscellaneous tree crops. Groves not included in the area sown.*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel etc., which are not included under "Orchards" are classed under this category.

(*ii*) *Culturable waste :*

This includes lands available for cultivation but not taken up for cultivation or abandoned after few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

(*iii*) *Permanent pastures and other grazing lands :*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

4 Area not available for cultivation (Col. 15) — This includes the land under the following three categories.

(*i*) *Barren and uncultivable land :* This covers all barren and uncultivable land like mountains, etc., *i.e.*, which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

(*ii*) *Land put to non-agricultural uses:*

All lands occupied by buildings, roads and railways or under waters *e.g.*, rivers and canals and other lands put to uses other than agricultural.

Under column 16 the distance of the village from the nearest town in Kms. is given. The days on which weekly markets/shandies, if any, held in the village are given under column 17. If the village has any historical/religious/archaeological and tourist importance, it has been indicated under column 18.

All the above particulars are based on the data obtained from the Tahsildars and Local Bodies concerned and also from the concerned departments like Postal, Medical, Education, Electricity.

Inhabited and Uninhabited Villages

Karimnagar District consists of 7 taluks. There are in all, 1,087 villages in this district according to the 1971 Census. Among them 1,051 are inhabited and 36 are uninhabited. 5 villages of the total inhabited villages are partly included in different urban areas of the district.

There are 159 villages or about 15.1% of the total inhabited villages with a population of less than 500 persons each. 200 villages or about 19.0% of the total villages belong to the population size of 500-999 persons each. 375 villages or about 35.7% of the total inhabited villages have population ranging between 1,000 & 1,999 persons each. There are 290 or 27.6% of the total inhabited villages with a population ranging between 2,000 and 4,999 persons each. Only 27 villages in this district have a population of 5,000 persons or more each. The population range of 1,000 to 1,999 persons has a relatively larger number of villages which form more than one-third of the total number of inhabited villages. It is so among all the taluks except in Manthani and Huzurabad taluks which has a higher proportion of villages in the population range of 200 and 499 and 2,000-4,999 persons each respectively. The talukwise distribution of villages by size class of population is given below :

STATEMENT 1

Talukwise Distribution of Villages by Size of Population

Name of the Taluk	Total Villages (Inhabited)	No. of Villages by population						
		less than 200	200–499	500–999	1,000–1,999	2,000–4,999	5,000–9,999	10,000 and above
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
Karimnagar .	177	4	11	30	65	62	5	..
Sirsilla .	169	5	16	32	71	42	3	..
Metpalli .	93	2	8	14	37	30	2	..
Jagtial .	154	..	16	35	60	38	5	..
Peddapalle .	182	6	15	35	71	50	5	..
Manthani .	144	23	47	41	24	9	..	..
Huzurabad .	132	1	5	13	47	59	5	2
Total	**1,051**	**41**	**118**	**200**	**375**	**290**	**25**	**2**

VILLAGE CLASSIFIED BY GEOGRAPHICAL AREA

It may be seen from the statement given below that 30 villages or 2.8% of the total villages in the district have an area of 101 to 500 acres each. 122 villages or 11.2% and 322 villages or 29.6% of the total villages including the uninhabited villages in the district belong to the area ranges of 501-1,000 and 1,001-2,000 acres each respectively. 513 villages or 47.2% of villages belong to the area range of 2,001 to 5,000 acres each and 100 villages or about 9.2% total villages have an area of 5,001 acres or more each. Thus there are no very small villages *i.e.*, villages with area of 100 acres or less each in this district. About 50% of the villages in the district have an area of 2,001-5,000 acres each. The talukwise distribution of villages by size class of area is given below.

STATEMENT 2

TALUKWISE DISTRIBUTION OF VILLAGES BY SIZE CLASS OF GEOGRAPHICAL AREA

Name of the Taluk	Total No. of Villages	No. of Villages by area (in Acres)							
		50 or less	51–100	101–200	201–500	501–1,000	1,001–2,000	2,001–5,000	5,001 and above

Jagtial	155	..	..	..	2	18	44	82	9
Peddapalle	185	..	..	1	3	22	63	78	18
Manthani	168	..	..	2	7	19	48	60	32
Huzurabad	132	..	..	..	1	16	36	71	8
Total	**1,087**	..	..	**8**	**22**	**122**	**322**	**513**	**100**

EDUCATIONAL FACILITIES

An idea of the extent and the level to which educational facilities have been provided in the rural areas of the district can be had from the table given below. The villages are classified by the distance to the nearest town with which the villages have established commercial, social and other links.

STATEMENT 3

EDUCATIONAL FACILITIES

Distance from nearest town in Kms.	Total No. of villages (Inhabited)	No. of villages having			
		Primary Schools	Middle Schools	High or Higher Secondary Schools	Colleges
(1)	(2)	(3)	(4)	(5)	(6)
5 or less	63	51	9	6	...
6–10	147	122	25	8	...
11–15	143	113	27	12	...
16–25	329	268	53	36	...
26–50	310	246	45	28	2
51–100	59	38	8	4	...
Total	**1,051**	**838**	**167**	**94**	**2**

Out of the 1,051 inhabited villages in the district primary schools exist in 838 or about 80% of the total inhabited villages, 213 villages or 20% of the total inhabited villages do not have the minimum educational facilities. 167 villages or about 16% of total inhabited villages have Middle or Upper Primary Schools, 94 villages or 9% of the inhabited villages have High or Higher Secondary Schools and 2 villages have collages. These two villages lie in Huzurabad Taluk.

MEDICAL FACILITIES

Expansion of the medical facilities particularly in rural areas has been emphasised in the development plans. An idea of the extent to which these facilities are available in the rural areas of the district can be had from the following table.

STATEMENT 4

NUMBER OF MEDICAL INSTITUTIONS

Name of the Taluk	No. of Medical Institutions		
	Hospitals	Dispensaries	Others (Phc, Fpc & Mcw)
(1)	(2)	(3)	(4)
Karimnagar	1	...	8
Sirsilla	...	...	7
Metpalli	...	...	4
Jagtial	...	...	3
Peddapalle	1	...	4
Manthani	...	1	4
Huzurabad	1	1	6
Total	**3**	**2**	**36**

There are 41 medical institutions of various types in the rural parts of the district. Among these 3 are hospitals and are located in the rural parts of Karimnagar, Peddapalle and Huzurabad taluks. No. Hospital facilities are available in the rural parts of

the remaining four taluks *viz.*, Sirsilla, Metpalli, Jagtial and Manthani. Only 2 dispensaries exist in the rural parts of the district and they are located one each in Manthani and Huzurabad taluks. Besides hospitals and dispensaries there are 36 other medical institutions such as Primary Health Centres, Family Planning Clinics, and Maternity Child Welfare Centres, distributed among all the taluks. On an average there is not even one medical institution for every 100 Sq. Kms. rural area in the district which indicates the inadequacy of the medical facilities in the rural areas,

ELECTRIFICATION

The number of villages including the uninhabited villages where power supply is available for domestic and or for agricultural or industrial purposes is given in the table below. The villages are classified by the distance to the nearest town so as to have an idea as to how far the rural areas remote from the urban centres are provided with power supply.

STATEMENT 5

NUMBER OF VILLAGES HAVING ELECTRICITY

Distance from nearest town in Kms.	Total No. of villages	No. of villages where electric supply is avialable
(1)	(2)	(3)
5 or less .	65	34
6–10 .	150	50
11–15 .	145	43
16–25 .	336	82
26–50 .	322	82
51–100 .	68	13
Unspecified .	1	...
Total	**1,087**	**304**

It may be noticed that a higher proportion of villages near about the urban areas are electrified. Out of a total of 1,087 villages in the district 304 villages or 28% of the total villages are electrified. 209 out of the 304 elcetrified villages lie within 25 Kms. from urban areas. The talukwise breakup of the 304 electrified villages and the percentage of the electrified villages to the total villages in each taluk are given in the table below:

STATEMENT 6

TALUKWISE DISTRIBUTION OF ELECTRIFIED VILLAGES

Name of the Taluk	Total No. of villages	No. of electrified villages	Percentage of electrified villages to total number of villages
(1)	(2)	(3)	(4)
Karimnagar .	178	91	51.1
Sirsilla .	173	39	22.5
Metpalli .	96	8	8.3
Jagtial .	155	23	14.8
Peddapalle .	185	60	32.4
Manthani .	168	12	7.1
Huzurabad .	132	71	53.7
Total	**1,087**	**304**	**28.0**

Comparatively Huzurabad taluk has a higher proportion (53.7%) of villages electrified. Karimnagar taluk comes next in the order with 51.1% of the villages electrified. Manthani taluk has the lowest proportion of only 7.1% villages electrified. On the whole the proportion of villages electrified in the district is low compared to that in other districts of the State.

COMMUNICATION FACILITIES

Good road transport and communication facilities are essential for the economic development of a region or district. It may be observed from the table below that 233 villages or 21.4% of the total number of villages (including the uninhabited) are connected by pucca roads while 350 villages or 32.2% of the total villages are connected by katcha roads. Rail transport facilities are available only for 4 villages in the district. 504 villages or 46% of the total villages in the district are not connected either with pucca or katcha roads.

A table showing the distribution of villages by the type of transport facility available is given below :

STATEMENT 7

COMMUNICATION FACILITIES

Distance from the nearest town in Kms.	Total No. of villages	Number of villages connected by			
		Pucca road	Katcha road	Pucca road & train	Others
(1)	(2)	(3)	(4)	(5)	(6)
5 or less .	65	31	16	..	19

11–15 .	145	28	69	1	47
16–25 .	336	61	120	1	155
26–50 .	322	65	84	..	173
51–100 .	68	6	8	2	54
Unspecified .	1	..	..	..	1
Total	**1,087**	**233**	**350**	**4**	**504**

Postal Facilities

The following statement indicates the number of villages having post offices, telegraph offices and telephone facilities in the rural parts of each taluk.

Staple Food

The staple food of the people in the rural parts of this district are Rice, Jowar and Maize.

STATEMENT 8

Postal and Telegraphic Facilities

Name of the taluk	Inhabited Villages	Total Number of villages having: Post Offices	Telegraph Offices	Others: Post & Telegraph Offices	Others: Phones	No. of Post Offices per 100 Sq. Kms.
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Karimnagar	177	116	2	..	2	6.31
Sirsilla	169	113	2	..	..	6.18
Metpalli	93	59	..	..	..	6.61
Jagtial	154	91	1	..	1	5.21
Peddapalle	182	98	3	1	3	5.47
Manthani	144	33	1	..	..	1.25
Huzurabad	132	103	3	..	..	7.10
Total	**1,051**	**613**	**12**	**1**	**6**	**5.30**

Out of the 1,051 inhabited villages in this district 613 villages have post offices, 12 villages have telegraph facility, one village has both post office and telegraph office facility. Only 6 villages have telephone facility in this district. The proportion of villages having post offices is relatively higher in Huzurabad taluk while it is low in Manthani taluk.

Cultivited Area

A statement showing the average cultivated land and the average cultivable waste per village classified by the distance to the nearest town is given below. The villages are classified by the distance to the nearest urban centre so as to have an idea of how for the distance has a bearing on the land use pattern.

STATEMENT 9

Percentage of Average Cultivable Waste to Average Cultivated Land Per Village by Distance

Distance from the nearest town in Kms.	Number of villages	Total cultivated land (in Acres)	Average cultivated land per village (in Acres)	Total cultivable waste (in Acres)	Average cultivable waste per village (in Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
5 or less	65	95,202	1,465	12,435	191	13.0
6–10	150	201,346	1,342	43,797	292	21.8
11–15	145	220,019	1,517	41,904	288	19.0
16–25	336	547,634	1,630	90,899	271	16.6
26–50	322	424,386	1,318	154,897	481	36.5
51–100	68	119,525	1,758	114,188	1,679	95.5
Unspecified	1	..	..	..	..	..
Total	**1,087**	**1,608,112**	**1,479**	**458,120**	**421**	**28.5**

On an average the area under cultivation in each village is 1,479 acres, while the extent of cultivable waste is 421 acres. There is cultivable waste in each village equivalent to about 28.5% of the cultivated land which could be brought under the plough perhaps with some efforts. It may be observed that the proportion of cultivable waste to land cultivated is very high among the villages beyond 50 Kms. from the nearest town. The talukwise picture is also given below to have a comparative idea of the different taluks in the district.

STATEMENT 10

PERCENTAGE OF AVERAGE CULTIVABLE WASTE TO AVERAGE CULTIVATED LAND PER VILLAGE BY TALUKS

Name of the Taluk	Number of villages	Total cultivated land (in Acres)	Average cultivated land per village (in Acres)	Total cultivable waste (in Acres)	Average cultivable waste per village (in Acres)	Percentage of average cultivable waste per village to average cultivated land per village
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Karimnagar .	178	329,058	1,849	51,128	287	15.5
Sirsilla .	173	241,771	1,398	48,795	282	20.2
Metpalli .	96	148,659	1,549	8,190	85	5.5
Jagtial .	155	213,781	1,379	33,737	218	15.8
Peddapalle .	185	287,279	1,553	54,895	297	19.1
Manthani .	168	205,289	1,222	177,706	1,058	86.6
Huzurabad .	132	182,275	1,381	83,669	634	45.9
Total	**1,087**	**1,608,112**	**1,479**	**458,120**	**421**	**28.5**

The average cultivated land per village is more in Karimnagar taluk while it is less in Manthani taluk. The proportion of average cultivable waste to the cultivated land in each village is very high in Manthani taluk *i.e.*, 86.6% while it is very low in Metpalli taluk with 5.5%.

The several particulars furnished in the Village Directory reveal that

(i) Minimum education facilities are not available in 20% of the inhabited villages in the district.

(ii) There is not even one medical institution for every 100 Sq. Km. of rural area.

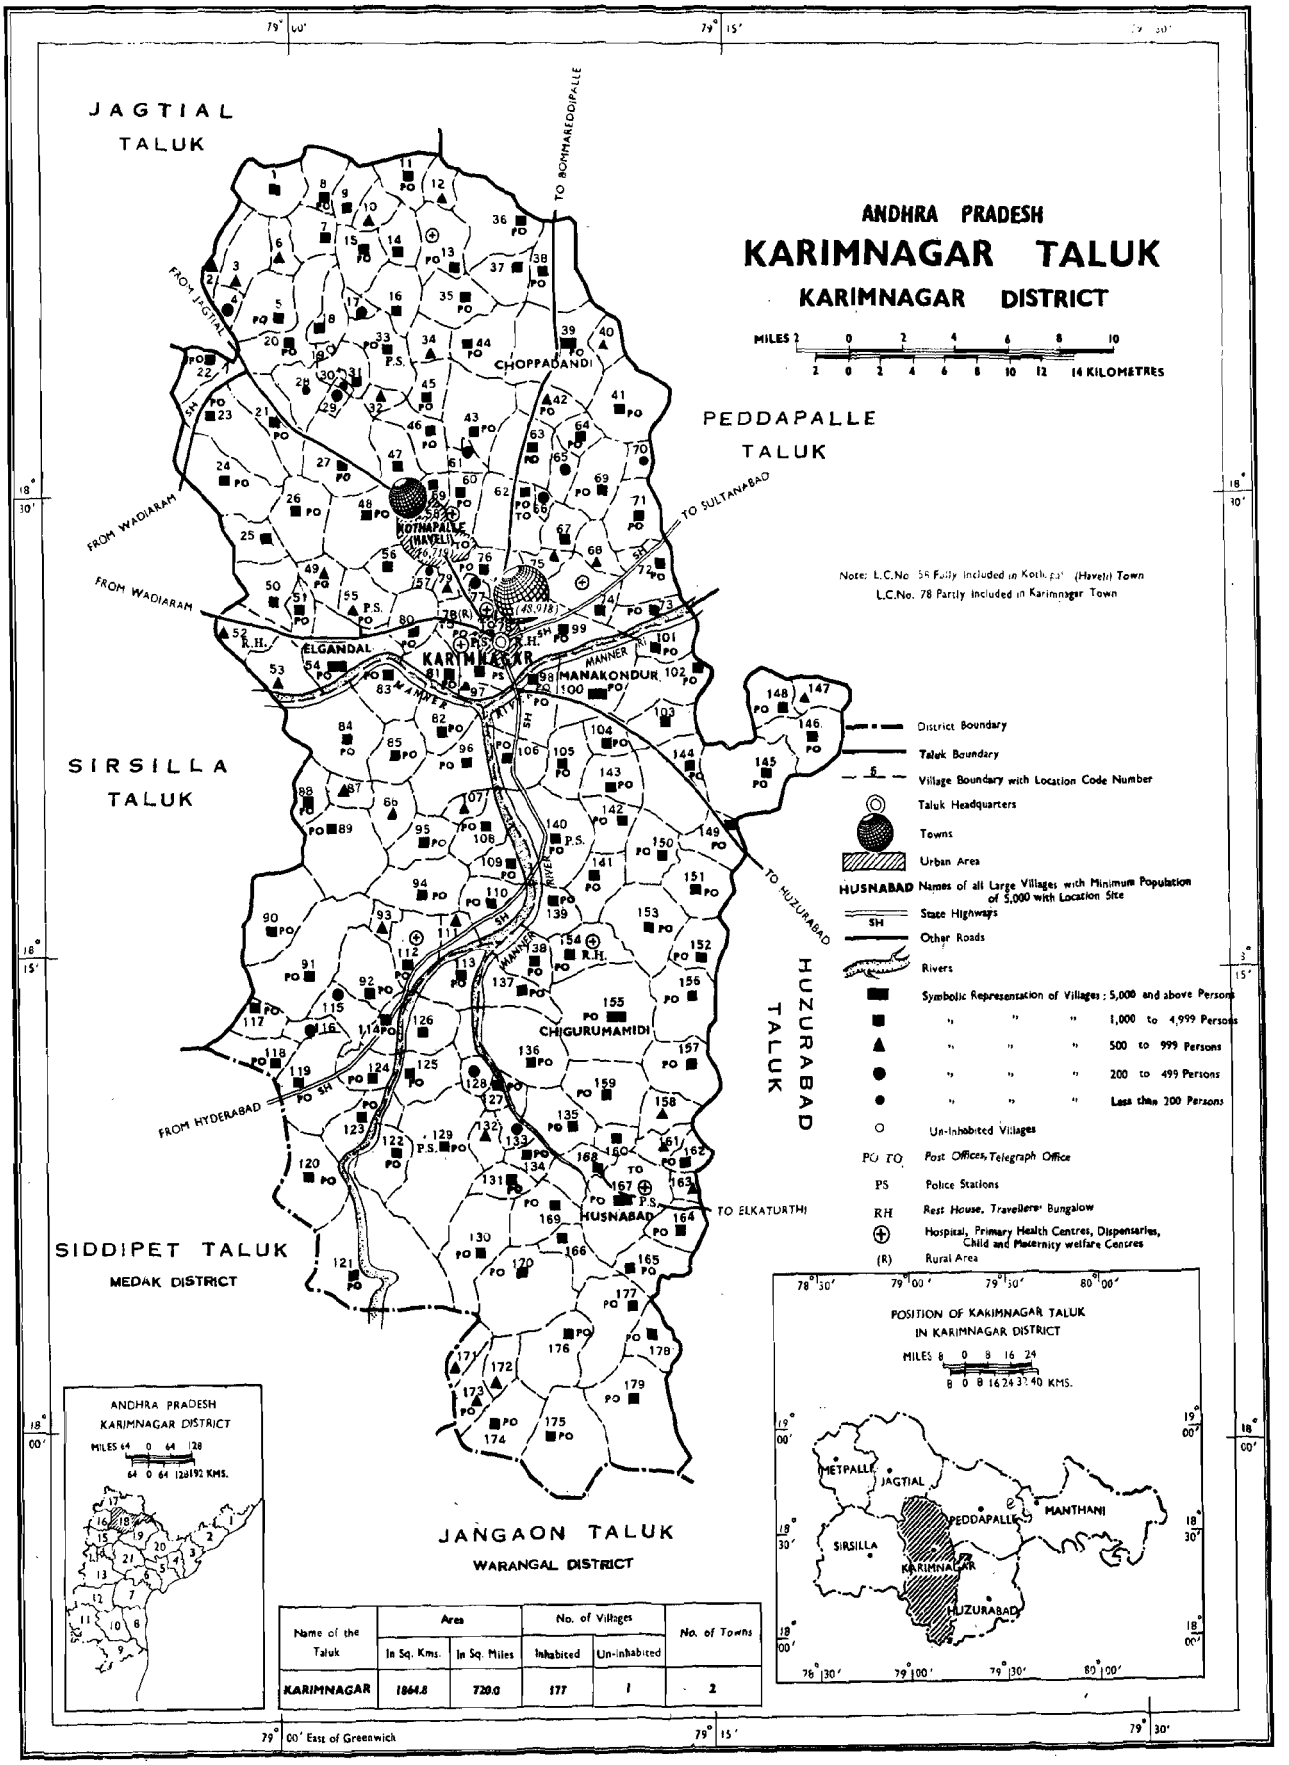

(iii) Electricity is available in only 28% of the total villages in the district.

(iv) Only 21.4% of the total villages are connected by pucca rods.

(v) An extent equivalent to about 28.5% of the cultivated land is left uncultivated in each village on the average.

These facts indicate clearly that further development in all these fields is necessary in the rural parts of Karimnagar District.

SECTION II

TOWN DIRECTORY

Town Directory

In the Town Directory, the towns in the district are arranged alphabetically and the several particulars relating to them are given in the following seven statements :

Statement	I	Status, Growth History and Functional Category of Towns
Statement	II	Physical Aspects and Location of Towns
Statement	III	Civic Finance
Statement	IV	Civic and other Amenities in Towns
Statement	V	Medical, Educational, Recreational and Cultural Facilities in Towns
Statement	VI	Trade, Commerce, Industry and Banking Facilities
Statement	VII	Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The following eleven places have been treated as Towns in Karimnagar district during the 1971 Census.

1 Karimnagar	7 Jagtial
2 Kothapalle Haveli	8 Peddapalle
3 Sirsilla	9 Jangaon (Godavari Khani)
4 Vemulawada	
5 Metpalli	10 Ramagundam
6 Koratla	11 Manthani

Of these 11 towns, Kothapalle Haveli, Jangaon, a coal mining town popularly known as Godavari Khani and Ramagundam are the three places which have developed unban characteristics recently and are classified as towns for the first time in the 1971 Census. Peddapalle, Sirsilla which are taluk headquarters were classified as towns from 1911 and 1931 respectively while Metpalli was treated as a town from 1941. All the remaining 5 towns *viz.*, Karimnagar, Vemulawada, Koratla, Jagtial and Manthani were classified as towns as early as 1901. None of the towns of 1961 Census has been declassified at the 1971 Census. The number of urban units in the district from Census to Census is given below.

Census Year	No. of urban units
1901	5
1911	7
1921	6
1931	11
1941	13
1951	14
1961	8
1971	11

Excepting the decade 1911-1921 during which the wide spread influenza epidemic had taken a heavy toll of lives in certain towns, the number of urban units in the district went on increasing from Census to Census upto 1951. The decrease in the number of urban units at the 1961 Census is due to the application of the stricter and more uniform definition of a Census town in 1961 Census. The increase in the number of towns at the 1971 Census is due to the three new towns coming up during the decade 1961–71.

The total urban area in the district is 203.55 Sq. Kms. constituting 1.7% of the total geographical area of the district. The urban population of the district is 210,467 persons constituting 10.7% of the total population and distributed among the 11 towns. The corresponding proportion of urban population in 1961 was 7.06%. Since the urban development is of recent origin in the region there are no big towns *viz.* Class I & II towns in the district. Karimnagar town, the district headquarters has a population of only 48,918 persons and is the largest town in this district from the point of view of population. Jagtial is the second largest town with a population of 30,900 persons. Karimnagar, Jagtial, Sirsilla and Jangaon towns come in order and are Class III towns whose population ranges from 20,000 to 49,999 persons each. Koratla, Peddapalle, Metpalli and Manthani are the four Class IV towns with a population ranging from 10,000 to 19,999 persons each. Vemulawada, Ramagundam and Kothapalle Haveli come next in order and are Class V towns with population ranging from 5,000 to 9,999 persons each. There are no class VI towns having a population of less than 5,000 in this district. The smallest urban unit from the population point is Kothapalle Haveli with a population of only 6,719 persons. The largest town in this district

according to area is Sirsilla with an area of 41.44 Sq. Kms. while Vemulawada is the smallest unit with an area of only 0.52 Sq. Km. Among the 11 towns in this district Vemulawada town, a pilgrimage centre, is thickly populated and has a density of 18,500 persons per Sq. Km. while Metpalli town takes the last place with a density of only 350 persons per Sq. Km.

Statement I–Status, Growth History and Functional Category of Towns

In this statement the civic status of each of the towns determined at the 1971 Census with their population since 1901 or from the Census in which it was classified as a town for the first time is given in columns 6 to 13. The functional characteristics of these towns are determined on the proportion of working population, in each industrial category returned in 1961 and 1971 Censuses and are given under columns 14 and 15 of this statement. These particulars indicate as to how the economic pattern of the town has changed from 1961 to 1971.

The civic status of the town *i.e.*, whether the town is a Municipality or Panchayat is indicated under column 5 by an abbreviated letter 'M' for Municipality and 'P' for Panchayat. Out of the 11 towns in this district Karimnagar and Jagtial are the only two towns which are graded as Municipalities and the remaining 9 towns are Panchayats.

All the towns in this district except Jagtial, Koratla, Manthani, Peddapalle and Vemulawada have shown an increasing trend in their population from 1901. Karimnagar town recorded relatively higher growth rate particularly from 1931 onwards, due to its growing importance as the district headquarters with increased educational, medical and other facilities. Expansion of industries like handloom, silver filigree and some minor industries in the town also contributed to its higher growth rate. The increase in population of Koratla and Matpalli is also significant during the recent decades, which may be due to the large number of beedi manufacturing units located in these towns. The importance of Vemulawada town as a pilgrimage centre has been increasing in the recent years. Jagtial town which was a Class IV town at the 1901 and the 1911 Censuses degenerated into a Class V town in 1921. All the towns in the district were Class V towns at the 1921 Census. Koratla, Manthani, Peddapalle and Vemulawada towns recorded a large fall in population in 1911–21 like many towns in the Deccan during this decade on account of the influenza epidemic.

Peddapalle staged a big recovery in 1921-31 when the population growth was as much as 67.5%. This was on account of the more prosperous conditions induced by the opening of the Kazipet - Ballarshah Railway line during the period. Vemulawada recorded a fall again in the decade 1931-41 while Manthani registered a decline in population in 1951-61. Manthani is located in a very backward and remote area of the district and the people being mostly dependent on labour are mobile and migrate to areas where work is available for the purpose of eking out their livelihood. Jagtial and Koratla towns both suffered a fall in population in 1911-21. Jagtial recorded a fall in population in 1951–61 as well. Koratla is noted for its beedi industry and its population did not fluctuate as that of Jagtial did after the 1911–21 decline in population.

FUNCTIONAL CATEGORY

By the very nature of urban development the towns are bound to serve a variety of purposes. In order to have an idea of the extent to which the functions are diversified or the predominant characteristic is accentuated a scheme of statistical classification was evolved at the 1961 Census. Accordingly each town can be classified broadly under the following categories *viz.*,

(i) **Primary Activity** :—Agriculture, Mining and Fishing (Census Industrial Categories I, II and III of 1961 Census and Categories I, II, III and IV of 1971 Census)

(ii) **Industrial** :—Industry including Construction (Census Industrial Categories IV, V and VI of 1961 Census and Categories V(a), V(b) and VI of 1971 Census)

(iii) **Commercial** :—Trade and Commerce (Census Industrial category VII of 1961 and 1971 Censuses)

(iv) **Transport** :—Transport (Census Industrial Category VIII of 1961 and 1971 Censuses) and

(v) **Services** :—Other Services (Census Industrial Category IX of 1961 and 1971 Censuses)

The predominant functional character of a city/town is determined on the basis of the following principles.

(a) If the proportion of working population is more than 40% of the total working population of the city/town in any one of the above five characteristics then the city / town was designated by that characteristic.

(b) If the proportion is not more than 40% in any one of the characteristics, then the next predominant characteristic was taken into account and if the first two predominant characteristics combined together have a proportion of over 60%, then the town was designated as having the two characteristics and was termed as Industrial-*cum*- Services or Industrial-*cum*-Commercial, *etc.*

(c) If the combined proportion of the first two predominant characteristics is less than 60% then the third predominant characteristic is also taken into consideration in designating the functional type of the city/town. Such cases are recorded as Industrial-*cum*-Commercial-*cum*-Services or Industrial - *cum*-Services - *cum* - Primary Activity, *etc.*

Based on the above criteria, the classification of the eleven towns in this district is as follows:

Functional Category	Name of Town	
	1961	1971
(1)	(2)	(3)
1 Services	Karimnagar	Ramagundam
2 Industry	Sirsilla, Koratla	Sirsilla, Metpalli, Koratla, Jangaon (Godavari Khani)
3 Primary Activities	..	Manthani, Peddapalle
4 Services-*cum*-Industry	Vemulawada	..
5 Primary Activities-*cum*-Industry	Metpalli	Kothapalle Haveli, Vemulawada, Jagtial
6 Services-*cum*-Primary Activities	Manthani	..
7 Primary Activities-*cum*-Industry-*cum*-Services	Jagtial	..
8 Services-*cum*-Primary Activities-*cum*-Industry	Peddapalle	..
9 Services-*cum*-Industry-*cum*-Trade and Commerce	..	Karimnagar

Statement II–Physical Aspects and Location of Towns

This statement deals with physical aspects and location of towns in this district. There are 13 columns in this statement. Under columns 3 to 5 in the statement data relating to average annual rainfall and the maximum and minimum temperatures recorded in 1969 are given. If this information was not available for any town then the particulars available for the nearest town have been given against such town.

Under column 6 the name of the nearest city with population of a lakh or more is given. Under columns 7 to 9 the names of the State Headquarters, the District Headquarters, Revenue Divisional Headquarters, and the Taluk Headquarters with their distance from the concerned town are given. Under column 10 and 11 the nearest railway station and the bus stand and their distance from the town are given. If navigation and sea port facilities are available within the easy reach of the town they are also given under columns 12 and 13. The climatic conditions of this district are moderate generally. However, Ramagundam of Peddapalle taluk situated on the banks of river Godavari, usually record the highest, and the lowest temperatures. March, April and May experience severe summer and monsoon sets in from June onwards. The weather is dry and cold from November to February. Summer in Sirsilla town is not so severe when compared to the other 10 towns in the district. In general the maximum temperature in this district ranges from 38.9° C to 46° C and the minimum temperature from 10° C to 27.2° C. The lowest minimum temperature is recorded in Ramagundam during the year 1969 while the highest maximum temperature is recorded in Ramagundam, Peddapalle, Manthani and Jangaon. The average annual rainfall among the towns ranges from 946.6 mm to 685.9 mm and is largely derived from the South West Monsoon. The maximum rainfall *viz.* 946.6 mm is recorded in Manthani and Peddapalle towns and the lowest of 685.9 mm in Ramagundam town. The extensive and thick forests in Manthani taluk may be responsible for more rains in Manthani town compare to other towns in the district. The rainfall particulars for Jangaon (Godavari Khani) which is a newly sprung up coal mining town are not available.

All the towns are Taluk Headquarters except Jangaon (Godavari Khani), Kothapalle Haveli, Koratla, Ramagundam and Vemulawada which are at a distance of 48, 8, 10, 44, of 11 Kms. respectively from their taluk headquarters. Among the 11 towns, 6 towns are located within 50 Kms and the remaining 5 towns are located at a distance of more than 50 Kms but less than 100 Kms. from the district headquarters. Four towns are located at a distance of more than 200 Kms. from the State Headquarters while the remaining seven towns are located within 200 Kms.

All the towns in this district are connected by roads and A. P. S. R. T. C.* buses ply on these roads. The district is very inadequately served by railway, the Broad Gauge line connecting Madras-Delhi passes through the district from South to North but Peddapalle and Ramagundam are the only two towns possesing rail facilities out of the 11 towns in the district. Karimnagar, the district headquarters is also not directly connected by railways but is at a distance of 34 Kms. from the nearest railway station *i.e.*, Peddapalle. The passenger transport and goods transport facilities seem to deserve better attention in the district.

None of the eleven towns in this district has navigation facilities.

Transport has a very vital role to play in the economic development and, therefore, lack of good communication facilities in the district, in general, is one of the reasons for the economic backwardness of the district.

Statement III—Civic Finance

Since the introduction of the democratic decentralisation, the popular institutions like Panchayats have an important role in the various developmental programmes. The effective run of these institutions would naturally depend on the financial soundness of the institutions. The receipts from various sources of these Municipalities or Panchayats are presented under columns 3 to 8 and their total under column 9. The broad items of expenditure are given under columns 10–15 with their total under column 16. In respect of all the towns in the district the total expenditure exceeds the total receipts exeept in Karimnagar town where the receipts exceed the expenditure. This indicates that the financial resources are inadequate to meet the expenditure for the developmental programmes of the civic bodies in all the towns in the district except in the district headquarters town Karimnagar.

Statement IV—Civic and other Amenities in Towns

The various amenities being provided to the people by the Civic Administration in the towns are given in this statement under 16 columns. The amenities include internal road facility, existence and nature of drainage system, protected water supply, availability of fire fighting services and electrification for domestic, industrial and commercial purposes and road lighting services.

The Government has a programme of stopping the practice of removal of night soil by means of head loads and to minimise the use of human labour in the process of removal of night soil at various stages. The particulars furnished under column 8 of the statement will be helpful therefore to assess the extent to which this objective of the Government has been achieved so far.

The Civic Administration in each of the towns of the district maintains roads. Karimnagar stands first in respect of internal road mileage with 38.77 Kms. of roads. All the towns except Jangaon in this district have open surface drains while sewerage system is also available in five of the 11 towns *viz.*, Vemulawada, Koratla, Ramagundam, Jangaon and Manthani. The facility of either water borne or service latrines is reported to be available in all the towns except Metpalli and Jangaon. Protected water supply which is the Primary responsibility of the Civic Administration of the towns is reported to be available in Karimnagar, Sirsilla, Jangaon and Ramagundam towns only. Fire Fighting Service which has become a dire necessity in urban areas in view of the highly inflamable fuels being used for domestic and industrial purposes is available only in Karimnagar town. Power supply is available in all the towns.

Statement V—Medical, Educational, Recreational and Cultural Facilities

The data on the medical facilities available in urban areas are furnished under columns 3 and 4 of this statement. The types of medical institutions with their number within brackets and the total bed strength of each category available in each town are given in column 3 and 4 respectively.

Medical facilities

The following abbreviations are used under column 3 to show the type of medical facilities available in the town.

H	...	Hospital
D	...	Dispensary
MCW	...	Maternity and Child Welfare Centre
FPC	...	Family Planning Clinic
NH	...	Nursing Home
TBC	...	T. B. Clinic
PHC	...	Public Health Centre

All the 11 towns in the district together have 36 medical institutions which include Hospitals, Dispensaries, Maternity and Child Welfare Centres, Family Planning Clinics, Nursing Homes, *etc.* The total bed strength available in all the 36 institutions is 313 to

* Andhra Pradesh State Road Transport Corporation,

cater to the needs of the entire urban population of 210,467 persons in the district. Thus there is about one bed for every 1000 urban population in the district. Karimnagar is the only town which has better medical facilities compared to other towns in the district with a bed strength of 219.

On the whole the medical facilities available in the urban areas of this district seem to be inadequate.

Particulers of various academic and professional institutions available in the towns are presented under columns 5 to 13. The number shown in brackets is the number of institutions available in the category.

Educational Facilities

The following abbreviations are used to indicate the type of educational facilities available in the town.

A : Arts College
AS : Arts and Science College
ASC : Arts, Science and Commerce College
SH : Shorthand Institution
TW : Typewriting Institution

There are only two colleges in all the 11 towns of which one is located at Karimnagar and the other at Jagtial. Both the colleges are combined colleges imparting instructions in Arts, Science and Commerce. Professional Colleges like Medical College, Engineering College or Technical Institutions, like Polytechnic do not exist in this district. There are only 1 shorthand and 7 typewriting institutions in all the towns together. Twenty two Higher Secondary or Secondary Schools, 22 Junior Secondary or Middle Schools and 59 Primary Schools are functioning in the urban areas of this district. The following statement shows the number of institutions per 10,000 urban population in each town.

Name of Town	No. of schools for 10,000 population		
	Higher Secondary or Secondary	Junior Secondary or Middle	Primary
(1)	(2)	(3)	(4)
Karimnagar	1.6	1.6	2.5
Kothapalle Haveli	1.5	...	3.0
Sirsilla	0.7	0.4	2.6
Vemulawada	1.0	...	4.2
Koratla	0.6	0.6	3.4
Metpalli	0.7	2.2	0.7
Jagtial	0.6	1.9	2.6
Jangaon (Godavari Khani)	0.4	...	0.9
Peddapalle	1.2	0.6	3.0
Ramagundam	1.1	1.1	1.1
Manthani	1.8	0.9	10.8
All Towns	**1.0**	**1.0**	**2.8**

Regarding recreational and cultural aspect of the district it is not encouraging as there are no Stadia and Auditoria in any of the urban areas. Only 15 Cinema Halls and 12 Reading Rooms including Libraries are reported in all the 11 towns together.

Statement VI—Trade, Commerce, Industry and Banking Facilities

In this statement data on trade, commerce, industry, and banking facilities available in each of the town are given under 14 columns. Under columns 3 to 5 the three most important commodities imported into the town are given while in columns 6 to 8 the most important commodities exported from the town are given. Under columns 9 to 11 the three most important articles manufactured in the town are given. Columns 12 to 14 furnish the banking and co-operative credit facilities available in the town.

The most important commodities under imports, exports and manufacture were decided in terms of the estimated volume of the commodities transacted and in terms of the value of total output of the commodities concerned respectively in each of the towns and not on the basis of the value. However, the uniqueness of a town which exhibited special characteristics in the spheres of either industry or manufacturing or mining *etc.*, has been retained by indicating those items of production or manufacture as the case may be in the concerned columns although such commodities did not stand a comparison with the other commodities in sheer terms of their estimated volume of transaction.

Karimnagar district is predominantly an agricultural tract and therefore a majority of the people are engaged in agriculture and its allied pursuits. The only large industry in the district is the Jangaon coal mine. Excavation of coal is being done here by Messrs. Singareni Collieries Co., Ltd. Among the medium sized Industries of the district the Thermal Power Station at Ramagundam occupies an important place. This is one of the big Thermal Power Stations in the State which is situated at a distance of 40 miles from the district headquarters. The installed capacity of the generating plant at Ramagundam station A and B is 100 MW (1971-72).

Among the small scale industries flourishing in the private sector in this district, beedi rolling is important. In the north western portion of the distrcit several beedi factories have been established. Besides beedi manufacturing, there are also Zarada (Scented Tobacco) factories. The B. B. Zarada factory functioning at Kothapalle Haveli about four miles from Karimnagar also produces perfumes and

these products have good market in the country. There are 2 soap units, 6 saw mills and 5 printing presses in this district. Rice and Flour Mills numbering nearly 200 are spread over the whole district. There are 23 Oil Mills and 5 Engineering workshops.

Karimnagar is noted for the silver filigree work of an exceedingly delicate nature being carried out by a section of goldsmiths. The articles manufactured are bangles, caskets, betel boxes and cigarette cases besides costume jewellery. Handloom is a major cottage industry. Metpalli and Sirsilla are important handloom centres. The skilled weavers produce sarees and cloth in pleasing colours and beautiful designs. Production of bed sheets and curtain cloth is a special feature of this district, in particular, Sirsilla taluk.

There are industrial co-operative work centres at Karimnagar and Jagtial, a cutlery centre at Padur and a village industries artisans training centre at Karimnagar started by the State Government Department of Industries. A Tassar silk seed station is opened at Mahadevpur to import training in the use of improved tools and methods of reeling and weaving of tassar cloth by modern methods. An industrial estate is located at Karimnagar with provision for 16 factory sheds.

IMPORTS

The principal imports into the district are rice, wheat, bengalgram, pulses, cotton yarn, edible oils, steel and mining machinery parts.

EXPORTS

The chief commodities exported from this district are handloom sarees, beedis, oil seeds, groundnut, greengram, and chillies. Coal and steel articles also are being exported from this district. Handloom cloth, blankets and beedis are the most important commodities manufactured in Jagtial, Vemulawada and Sirsilla towns.

Banks play an important role in industry, trade and commerce particularly in mobilising the savings of the community and making them available for investment for productive activities. In all, there are 14 Banks, 7 Agricultural Credit Societies and 8 Non-Agricultural Credit Societies in all the 11 towns together.

Statement VII—Population by Religion and Scheduled Castes/Scheduled Tribes in Towns

The details of population as per the 1971 Census count, by Religion, Scheduled Castes and Scheduled Tribes with sex breakup are given for each of the towns in the district under columns 3 to 22. Only important religions whose population is not less than 10% of the total population of the town are given in the statement, while other religions which account for less than 10% of the total population of a town are grouped together and shown under the category viz., "Others" in columns 15 and 16. The Scheduled Castes and Scheduled Tribes population in a town are shown under columns 19-22. According to the 1971 Census the population of Scheduled Castes in all the towns in the district is 23,141 persons constituting 6.25% of the total Scheduled Caste population of the district. The population of Scheduled Tribes in the 11 towns of the district is 735 persons constituting 4.58% of the total Scheduled Tribe population of the district.

The particulars presented in the statements II to VI are based on the data received from the Tahsildars and Local Bodies concerned and also from the concerned departments like Medical, Educational, Electricity etc., while the particulars furnished in statements I and VII are based on the census data.

TOWN DIRECTORY

STATEMENT I

STATUS, GROWTH HISTORY AND FUNCTIONAL CATEGORY OF TOWNS

Sl. No.	Name of Town.	Location Code No.	Name of Taluk	Civic Administration Status in 1970	Population at the Census of								Functional Category

PART B

PRIMARY CENSUS ABSTRACT

In this part of the District Census Handbook the Primary Census Abstract of 1971 Census on the following aspects is presented for each Revenue Village in respect of rural areas and for each Ward and each Enumerator's Block of a town in urban areas.

1 Location Code No. and Name of the village/town and area

2 Total number of occupied residential houses and total number of households

3 Total population and its sex breakup

4 Population of Scheduled Castes and Scheduled Tribes by sex breakup

5 Literate and educated persons by sex

6 Total workers and the breakup of the workers into nine categories and also the total non-workers by sex as shown below

Category I Cultivators

Category II Agricultural Labourers

Category III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied Activities

Category IV Mining and Quarrying

Category V Manufacturing, Processing, Servicing and Repairs

(a) Household Industry

(b) Other than Household Industry

Category VI Construction

Category VII Trade and Commerce

Category VIII Transport, Storage and Communications

Category IX Other Services

Category X Non-Workers

A District Abstract containing the Primary Census Abstract data for the district as a whole together with rural and urban breakup and also for each taluk and for each town is first presented. It is followed by the data for each of the villages and towns in the first taluk. The data for the second and subsequent taluks are presented consecutively thereafter. The villages under each taluk are arranged in the ascending order of Location Code Numbers. In the urban areas the data are arranged in the ascending order of Location Code Numbers of towns and also in the ascending order of the Ward Number. The uninhabited villages and villages which have been fully included in a town have been indicated accordingly. In respect of villages which are partly included in towns the word "Rural" has been added in italics and in brackets after the name of the village and the particulars relating to the rural portion only have been given against such villages. At the beginning of each taluk an Alphabetical List of Villages together with their Location Code Numbers is given. This Alphabetical List of Villages facilitates the reader in locating the required Village and its Location Code Number and thereafter to know the Primary Census Abstract particulars. The taluk map showing all the villages and towns with their boundaries given in the village directory facilitates the location of the required village/town. The jurisdiction of each Enumerator's Block is given before the urban/blockwise Primary Census Abstract.

The population data presented in the Primary Census Abstract relate to all persons alive at sunrise on 1st April, 1971 and were present within the territory of Karimnagar district whether they lived in normal residential houses or institutions, such as hospitals, hostels, asylums, boarding houses, hotels *etc.*, or whether they were merely houseless persons like the wandering tribes, tramps, pavement dwellers, or those living in boats *etc.* They were all enumerated at the 1971 Census and their basic characteristics have been presented in this Primary Census Abstract.

The total population of Karimnagar district as on 1st April, 1971 recorded at the Census enumeration is as follows:

	Total	Rural	Urban
Persons	1,963,928	1,753,461	210,467
Males	989,572	881,192	108,380
Females	974,356	872,269	102,087

The criteria adopted for classifying a place as rural or urban and the concepts of Urban Agglomeration and Standard Urban Area have already been explained in the beginning of this volume.

Columns 1 and 2 of the Primary Census Abstract indicate the Location Code Number and Name of the village or town concerned. In respect of towns the Ward/Block/Locality Numbers and the Enumerator's Block Numbers are indicated under col. 2.

Location Code is the method by which every village and town in a taluk in every district of a State is identified. Each district in this State has been given a separate code number by serially numbering the districts in a clock-wise order starting from Srikakulam district and ending with Nalgonda district. Karimnagar district, in this process, is assigned Location Code No. 18. Within each district the taluks had similarly been allotted Location Code Numbers, the taluk in which the district headquarters lies being allotted Location Code No. 1 and the other taluks are numbered in a clock-wise order. The revenue villages within each taluk are assigned separate serial numbers starting from the north-west corner of the taluk and ending with the south-east corner in a serpentine order. All the towns within a district were assigned Location Code Nos. in one serial order starting from the town in which the district headquarters is located and in the ascending order of taluk location code numbers. If any taluk has more than one town, then the town in which the taluk headquarters is located is assigned Location Code No. first and then the other towns in the taluk in a clock-wise order. The Location Code Nos. of villages are indicated in Arabic numerals while those of towns in Roman numerals.

Under Col. 3 the area of each village and town is given in square miles based on the information furnished by the State Central Survey Office, the Tahsildar and the Municipal authorities concerned. In respect of certain villages where the area particulars are not available, the fact is noted as "N.A.". As the area of the taluk comprises not only the area of villages but also the area of reserved forests, hills *etc.* within the taluk, the area of all the villages and towns in the taluk put together may not be equal to the area of the taluk. The rural area of the taluk is obtained by deducting the total urban area of all the towns in the taluk from the total area of the taluk furnished by the State Survey Department. Similarly the rural area of the district is obtained by deducting the total urban area of all the towns in the district from the total area of the district. It may be pointed out in this connection that the total district area adopted is that furnished by the Survey of India Department and is provisional. The area of the taluks is furnished by the State Survey Department. Hence the total area of all taluks put together may not tally with the district area.

Under Col. 4 the total number of occupied residential houses in each village and in each Ward and Enumerator's Block of a town are given. These figures include those of partly residential houses also but not of the completely non-residential houses. The total number of households including houseless households and institutional households is given under Col. 5.

The total population including houseless and institutional population with sex breakup is given under cols. 6 to 8.

Under Cols. 9 to 12 the population of Scheduled Castes and Scheduled Tribes by sex is given.

The Scheduled Castes and Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I and Schedule II respectively of the Scheduled Castes and Scheduled Tribes Lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi dated 29th October, 1956. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given bellow.

2 Nayaks
3 Valmiki

The number of literate and educated persons is given under cols. 13 and 14. A person who could both read and write any language with understanding was treated as a literate at the 1971 Census. A person who could merely read but could not write or *vice versa* was not treated as a literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterate. The test for education was that the person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

The details of Workers and Non-Workers are given under Cols. 15 to 38. At the 1971 Census the population has been broadly divided into two sections based on the main activity viz., (1) Workers and (2) Non-Workers.

The definitions and concepts adopted in the Economic Classification of the population at the 1971 Census are explained below :

Worker : A 'Worker' was a person whose main activity was participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A man or woman who was engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who was primarily a student attending institution, even if such a person helped in the family economic activity but not as a full time worker was treated as a non-worker but not as a worker for the main activity. On the other hand, if a full time worker primarily engaged in some economic activity but at the same time attended to some household chores or attended a night school ete. he or she was treated basically as a worker for the main activity and categorised accordingly.

A person who was working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference period : The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this

reference period and this had been returned as his main activity the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown or strike etc. was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as workers. A person who had merely been offered work but had not actually joined it was not treated as engaged in work. There are certain types of works which are not carried on throughout the year *e.g.* cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

Cultivator

For purposes of the Census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crops, cotton, etc., and other crops such as sugarcane, groundnut, tapioca, etc. and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owned land but had given out land to another person or persons for cultivation for money, kind or share of crop and who did not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer

A person who worked in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He had no risk in the cultivation but he merely worked in another person's land for wages. The labourer had no right of lease or contract on land on which he worked.

Household Industry

For a person who returned his main activity as engaged in some production or processing of goods such as, say, handloom weaving, dyeing, carpentry, beedi rolling, pottery manufacture, cycle repairing, blacksmithy, tailoring etc. it was ascertained if it was a household industry.

A Household Industry was defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not have been run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence the household industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves ran an industry but at a place away from the precincts of their home, it was not considered a household industry. It should have been located within the precincts of the house where the members lived.

A Household Industry related to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It did not include professions such as pleader or doctor, or barber, musician, dancer, waterman, dhobi, astrologer, etc. or merely trade or business, even if such profession, trade or service were run at home by members of household.

Some times it is likely that the person who may not be working in his own Household Industry may be working as a petty employee in another Household Industry. It was, therefore, enquired whether the person who was not working in his own household industry was working in any other Household Industry as an employee.

Other Workers

A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry was recorded under the category of 'Other Workers'. The type of workers that may come under the 'Other Workers' category are factory workers, those working in trade or transport, all government servants, municipal employees, teachers, mining workers, political or social workers, building labourers etc. In effect, all types of economic activity not covered by cultivation, agricultural labourer or household industry were recorded under this residual category. Workers engaged in plantation or forestry were not treated as cultivators or agricultural labourers but as 'Other Workers'.

According to the 1971 Census there were 379,179 residential houses and 418,321 households in Karimnagar district compared to 320,156 residential houses and 348,822 households in 1961. Thus there were 1.1 households per residential house both in 1971 and 1961.

The total number of persons returned at the 1971 Census enumeration in Karimnagar District was 1,963,928 as against 1,621,515 in 1961 Census recording an increase of 21.1% over the population of 1961. The proportion of rural and urban population to the total population in the district works out to 89.3% and 10.7% respectively in 1971 Census compared to 92.9% and 7.1% respectively in 1961. There were 985 females per 1,000 males at the 1971 Ceusus as against 996 females per 1,000 males in 1961 Census.

300,660 persons were reported as literates and educated in 1971 Census compared to 209,098 literate and educated persons in 1961 accounting for 15.3% of total population in 1971 as against 12.9% in 1961. The proportion of literates and educated among males was 23.8% while among females it was 6.6% in 1971. The corresponding figures for 1961 are 21.16% for males and 4.59% for females. The percentage of literates and educated in the rural areas of the district was 12.7% while in urban areas the literates accounted for 37.1% of the total urban population of the district. The corresponding figures for 1961 are 11.15% and 35.88%

905,880 workers were returned in 1971 as against 919,034 workers in 1961 thus 46.1% of the total population were workers in 1971 as against 56.7% in 1961. Among males, the workers constituted 60.6% while among females only 31.4% were workers in 1971. The decrease in the proportion of working population in 1971 compared to 1961 Census proportion was mainly due to the change in the definition adopted at the present Census.

Detailed analysis of demographic data at the 1971 Census is given in the write up in Part-C of District Census Hand Book.

* E.Bs. 245, 246, 247 and 258 of Metpalli town covered the labour camps erected in connection with the construction of Pochampad Project canals. Some of these camps are located within different wards of Metpalli town and some outside the ward limits but within Metpalli Panchayat limits. Some of the houses in the labour camps allotted to E.B. 245 fall in all the six wards and the remaining fall outside the limits of these six wards. The houses allotted to E.Bs. 246 and 258 fall in wards 1 and 3 only. The houses allotted to E.B. 247 fall in wards 2 to 6. Hence the population particulars covered by these four enumerators' Blocks have been included in the concerned wards. The exact jurisdictional details of these E.Bs. in each ward are not available and hence not given.

N. B.—In a few cases an enumerator was allotted parts of different wards/localities/blocks. In all such cases, the E. B. No. has been repeated in each of the concerned ward/locality/block and the particulars pertaining to that part only are shown against it.

ALPHABETICAL LIST OF VILLAGES

HUZURABAD TALUK

1971 Location Code No. (1)	Name of Village (2)
84	Aknoor
131	Ambal
50	Ambalpoor
28	Amdalapalle
103	Ammangurthi
19	Arkandla
123	Baopet
46	Bethgal
76	Bheemapalle
99	Bheemdevarapalle
42	Bijgir Shareef
102	Bommakal
10	Bonthupalle
80	Bornepalle *alias* Moinpur
16	Brahmanpalle
39	Bujnoor
9	Challoor
63	Chelpur
41	Chinnakomatipalle
87	Choutapalle
109	Damera
118	Dandepalle
117	Desharajpalle
2	Devampalle
115	Dharmarajpalle
26	Dharmaram (Near Molangur)
44	Dharmaram (Near Bijgir Shareef)
53	Duddenapalle
52	Eklaspur
58	Elabotharam
8	Elbak
110	Elkaturthi
96	Erraballe
18	Gaddapaka
94	Gatlanarsingapur
83	Ghanpur
11	Ghanumukkala
81	Godishal
111	Gopalpur
127	Gudoor
73	Gunded
130	Guniparthi
79	Huzurabad *alias* Edulapuram
65	Illanthakunta
45	Jammikunta
112	Jeelgul
70	Jujnoor
77	Jupak
29	Kachapoor
17	Kalvala
126	Kamalapur
74	Kanagarthi
114	Kandugal
125	Kaniparthi
25	Kannapur
90	Kannaram
75	Kannur
30	Kanparthi
78	Kanukulagidda
51	Kareempet
89	Katkur
104	Katrepalle
49	Keshavapatnam
93	Keshwapur (Near Kothakonda)
132	Keshwapur (Near Ambal)
13	Kondapak
107	Koppur (Near Palkalamalaya-palle)
32	Korapalle
12	Korkal
48	Kothaghat
92	Kothakonda
108	Kothapalle
120	Kothulnaduma
1	Lalithapoor
129	Mądannapet
64	Madipalle
88	Mallampalle
91	Mallaram
68	Mallial
7	Mamidalpalle
105	Manikyapur
69	Marripalligudem
47	Metpalle
86	Mirzapur
24	Molangur
98	Mulkanoor
95	Mustafapur
21	Mutharam (Near Molangur)
97	Mutharam
128	Nerella
4	Pachchunoor
113	Penchakalpet
33	Pothareddipalle
62	Pothareddipet
67	Potherlapalle
37	Rachapalle
101	Raikal
27	Rajapoor
57	Ramchandrapur
106	Ratnagiri
14	Reddipalle
43	Saidabad
82	Saidapur
71	Shanigaram
60	Singapur
61	Sirsapalle
66	Sirsed
55	Somaram
122	Suraram
40	Tekurthi
23	Thadkal
35	Thanugal
124	Timmapur
59	Tummanapalle
85	Ummapur
116	Uppal
6	Uttoor
31	Valbapoor (Near Bijgir Shareef)
121	Vallabhapur *alias* Husnabad
72	Vangapalle
100	Vangara
22	Vannaram
38	Vanthadupula
36	Vavilal
15	Veenavanka
119	Veeranarayanapur
5	Vegurpalle
3	Veldi
54	Venkepalle
56	Vennampalle
34	Vilasagar
20	Yeredpalle
