STATE PUBLICATIONS

DISTRICT CENSUS HAND BOOKS

A District Census Hand Book, for each of the 20 Districts in Andhra Pradesh

PRINTED BY THE INTEKHAB PRESS, HYDERABAD, FOR THE DIRECTOR OF PRINTING, HYDERABAD.

PREFACE

The District Census Handbook is an innovation introduced at the 1951 Census. The Handbooks are compiled by the Census Office but published by the State Government. They proved to be very popular and valuable publications in considerable demand by the public as well as the official users of the census data. At the 1961 Census, therefore, it was decided not only to continue the publication of the District Census Handbook but to greatly improve upon its precursor of 1951.

The present District Census Handbook may be conveniently divided into four parts. The first part consists of a narrative description of the physical features and history of the district, the social and economic characteristics of the people and the progress made by the district in each field of administration over the past decades. This is supplemented by a Gazetteer of places. The second part consists of administrative statistics of various departments. The third part is based mainly on the present Census returns and consists of statistical tables giving the particulars of population, sex ratio, the economic composition, literacy, language and migration data, etc. The fourth part consists of Village and Town Directory which is perhaps the vital part of the Handbook giving villagewise and townwise particulars of area, households, population, Scheduled Castes and Scheduled Tribes, literacy, broad categorisation of working population, etc. Against each village and town the educational, medical, public health, and transport facilities, etc., if available, have also been indicated. At the end of the fourth part a tabular statement of fairs and festivals, information about which had been collected through the Census enumerators will also be found. The pages of each part are numbered separately. The Handbook is enriched with two district maps, one showing the administrative divisions and important communications, rivers, etc., and the names of all important places of above 5,000 population and the other showing the talukwise density of population. In the Village Directory portion of the Handbook, before the statistics of each taluk are presented, a taluk map showing the village and town boundaries with the location code number of each village and town marked will also be found. Thus the District Census Handbook is a self-contained and convenient book of reference about almost all matters pertaining to the district.

The Handbooks are no doubt coming rather late, a few years after completion of the Census count. This delay, if at all it can be called delay, could not be helped. The very detailed sorting of Census slips and compilation of the elaborate 1961 Census tables were time consuming; the administrative particulars for incorporation in the Handbooks had to be collected from different departments and other sources on proformae that were finalised and circulated from this office; the preparation of the excellent maps of the district and the taluks, attempted this time, also required considerable time; and lastly the printing of these voluminous reports which had to be done very carefully was a laborious process. All the same it is hoped that these Handbooks will serve as valuable sources of reference about all matters pertaining to the district and help one to assess the impact of the Five Year Plans and the progress each district had made in its social and economic well being over the decades and also serve as a guide in planning for the future. The credit for the compilation of the Handbook goes chiefly to Shri K. M. Ahmad, I. A. S., and Shri P. S. R. Avadhany Deputy Superintendents of Census Operations. Shri Ahmad took great pains to tour the district, contact the various officers of the district and dig out information from various sources. A compilation of this type and magnitude could have taken a much longer time but for the diligent efforts of Shri Ahmad and Shri Avadhany. The Handbook section of the Census Office under the Tabulation Officer, Shri K. Narasimha Murthy, did a commendable work in the speedy and accurate compilation of the Village Directory and the other Statistical and Administrative tables. Sarvashri G. Pandurangam, Mohiuddin Hassan, and M. J. Sadiq of the Cartographic Section in my office did a magnificent work as will be evident from the quality of maps that have been produced.

A. CHANDRA SEKHAR

PART - I

INTRODUCING THE DISTRICT

KARIMNAGAR DISTRICT

G. P. RANGAM

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

CHAPTER I
GENERAL FEATURES

Karimnagar district till 1905 was known as Elgandal district with headquarters at Elgandal, a place about four miles from Karimnagar. At that time the district comprised of nine taluks. In 1905 the district headquarters was changed from Elgandal to Karimnagar and along with it the name of the district was also changed into Karimnagar district. During the reorganisation of the districts in the erstwhile Hyderabad State in 1905 three taluks *viz.*, Lakshettipet, Chinur and Siddipet were transferred from this district to the neighbouring districts of Adilabad and Medak. Parkal taluk was added to this district from Warangal district thereby constituting in all seven taluks. In 1950 when the Jagirs were integrated Metpalli Independent Sub-taluk was constituted raising the total number of taluks to eight. But again in October, 1953 at the time of the formation of Khammam district, Parkal taluk was transferred back to Warangal district. Karimnagar district at present, therefore, extends over an area of 4,582 square miles and comprises three Revenue Divisions, seven taluks including one Independent Sub-taluk, 8 towns and 1,093 villages (1,053 inhabited and 40 uninhabited villages). At the 1961 Census the district has recorded a population of 1,621,515 persons (812,491 males and 809,024 females) against 1,428,168 recorded at the 1951 Census thus showing an increase of 13.54% of population over the 1951 population. Out of the total popluation of 1,621,515 in the district, 1,507,001 persons (753,519 males, 753,482 females) live in the rural areas and 114,514 persons (58,972 males, 55,542 females) live in the urban areas. The density of population in the district at 1961 Census works out to 353 persons per sq. mile. The district occupies 12th rank in population and 13th in area among the districts in the State. There were 14 Community Development Blocks in operation on 31st March, 1961 in the district amongst which one was Stage II, ten were Stage I and three were Pre-extension Blocks.

Physical Features :

A range of hills, commencing at Gurrapalle, runs in a north-easterly direction as far as Jagtial, whence it proceeds to Vemalkurti near the Godavari. A second range, known as the Sanigram range, proceeds from Sanigram and Mallangur parallel to the former range, at a distance of about 32 miles. There are a couple of villages on this range which are between 2,200 and 2,300 feet above the sea. A third range starts in the south-west corner of the district from the valley of the Manair river, and runs in a north-easterly direction. Intersecting the Sanigram range, it passes beyond Ramgir, where it is about 1,600 feet above the sea. This range ends near the river Godavari.

The mighty river Godavari forms the northern and the eastern boundary of the district separating it from Adilabad district. The district is bordered in the south by Warangal and Medak districts and in the west by Nizamabad district. None of the big rivers flow through this district except the river Godavari which skirts the northern and the eastern boundary but, however, is not useful for irrigation in this district. The river Manair a tributary of the Godavari which traverses from west to east in the district is one of the most important irrigation sources. Only two taluks, namely, Metpalli and Jagtial do not receive its waters. Pedda Vagu and Chinna Vagu are the other minor rivers that flow in this district and join the river Godavari.

Climate and Rainfall :

The climatic conditions of this district are moderate except at Ramagundam, situated in the Sultanabad taluk, where the maximum and minimum temperatures are extreme and it is known to be one of the hottest places in the State. March, April and May experience severe summer heat and monsoon sets in from June onwards. The weather is cold and dry from November to February.

The monthwise maximum and minimum temperatures recorded at Ramagundam station during the year 1961 are given below :

STATEMENT I-1
(TEMPERATURE IN CENTIGRADE)

	January (1)	February (2)	March (3)	April (4)	May (5)	June (6)	July (7)	August (8)	September (9)	October (10)	November. (11)	December (12)
Maximum	32.0	33.0	39.3	N.A.	41.4	36.6	30.7	31.1	30.9	31.1	30.0	29.0
Minimum	18.0	18.0	24.3	N.A.	28.7	27.1	24.5	24.6	24.3	22.8	18.0	15.9

The average rainfall of the district in normal years is 35". The average annual rainfall of the district during 1950-51 to 1960-61 is given below:

STATEMENT I-2

Year	Average annual rainfall (in mm.)
(1)	(2)
1950—51	745.5
1951—52	814.1
1952—53	669.3
1953—54	1,150.4
1954—55	819.7
1955—56	1,348 5
1956—57	1,139.2
1957—58	916.7
1958—59	836.7
1959—60	1,029.3
1960—61	662.6

The seasonal rainfall during the five years 1955-56 to 1960-61 is given below:

STATEMENT I-3

(Rainfall in millimetres)

Year	South-West monsoon (June to September)	North-East monsoon (October to December)	Winter period (January to February)	Hot weather period (March to May)	Total annual rainfall	Normal annual rainfall
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1955-56	1,016.0	78.5	25.4	228.6	1,348.5	887
1956-57	893.1	157.5	6.3	82.3	1,139.2	887
1957-58	753.9	100.6	15.0	47.2	916.7	887
1958-59	775.3	54.3	...	7 1	836.7	887
1959-60	983.0	26.8	...	19.5	1,029.3	887
1960-61	572.5	43.4	17.1	29.6	662 6	887

Communications in the Manthani taluk become difficult during rainy season. In the taluk of Sirsilla the area close to Manair Project is unhealthy being epidemically filarial.

Soils:

Red sandy loamy soil, familiarly known as chalka soil, forms the main type although large patches of black clay loamy soil are found scattered in Jagtial, Sultanabad and Manthani taluks. In the river valley the soil is, however, alluvial. Therefore, the chief crops in the district are the same as those grown in Nizamabad district with the exception of sugarcane. Owing to shortage of major irrigation facilities sugarcane is not grown in this district but a rich variety of chillies takes its place.

Land Utilisation:

The district is predominantly agricultural in character. About 56.7% of the total working population in the district depends on agriculture for their livelihood. According to 1961 Census results 568,453 workers are engaged in agricultural occupations. The important food and non-food crops grown in this district are rice, jowar, maize, pulses, oil seeds and chillies. Cereals occupy a prominent part in the agricultural pattern in the district. Intensive campaigns have been launched during Abi and Tabi seasons for the propagation of Japanese method of cultivation to increase the paddy production. The land utilisation statistics of the district from 1950-51 to 1960-61 are given below:

STATEMENT I-4

LAND UTILISATION PATTERN IN THE DISTRICT

(Area in acres)

The above statement gives the classification of the geographical area under different categories of utilisation in the district for the years from 1950-51 to 1960-61. Percentage of area under each classification to the total area has also been shown for 1950-51, 1955-56 and 1960-61 *i.e.*, the year before the commencement of the five year plans, and at the end of the First and the Second Five Year Plans, for obtaining a comparative idea in the pattern of land utilisation before and after the implementation of the First and Second Five Year Plans. The net area sown under all crops during 1960-61 forms 35.89% of the district area. Forests account for 20.90% of the district area while uncultivable land covers 7.49% of the district total area. The area put to non-Agricultural uses such as for buildings, roads *etc.*, covers 7.05% of the district's total area. The total fallow land during 1960-61 accounts for 20.02% of the district area of which current fallows (*i.e.*, land left fallow in the current year only) covers 18.06%, other fallow land *i.e.*, land left fallow for more than one year but less than five years) covers 1.96% and culturable waste land *i.e.*, land left fallow for more than five years) accounts for 2.35%. During 1960-61 permanent pastures account for 5.41% while land under miscellaneous trees and crops and groves form 2.89% of the district. The net area under cultivation has decreased from 12,87,871 acres in 1955-56 to 10,54,093 in 1960-61. In the entire Telangana region, the percentage of net area irrigated to the net area sown recorded in this district is considerably high and this may largely be attributed to the benefits of several irrigation sources in the district.

Irrigation:

The sources of irrigation in this district are tanks, kuntas and wells. There are several hundreds of irrigation tanks both under the control of the Public works Department and also under the control of the Zilla Parishad. Apart from these there are also some bigger irrigation sources with large reservoirs with a few thousands of acres of ayacut under each. Amongst these the more important are the Manair Project, the Sanigram Project, the Chegaon Project, the Bandla Vagu Project, the Yakinpur Project and the Rolla Vagu Project. For a detailed description of these projects, the chapter on irrigation may be referred to.

Livestock:

The livestock play an important role in the agricultural economy. The livestock population according to the quinquennial livestock census of 1961 in this district is as follows :

Cattle	749,544
Buffaloes	248,465
Sheep	647,951
Goats	152,053
Horses & Ponies	369
Other Livestock	22,469
Total Livestock	1,820,851
Poultry	845,685

Flora:

A quarter of the district area is under forests. The main species that occur are teak, mango, ebony, custard apple, tamarind, blackwood, tarvar (Cassia auriculata), babul (Acacia arabica), eppa (Hardwickia binata) and nallamaddi (Terminalia tomentosa). In a district where agriculture is a way of life the importance of forests cannot be over emphasized. They provide opportunities for employment in the felling, logging, carting of timber and the collection of minor forest produce. The beedi leaves available in the forest regions of the district specially provide both part-time and whole-time occupations. Manthani, Jagtial and Sirsilla taluks contain large extents of

forests which contain valuable timber and teak. It is interesting to note that considerable part of Manthani taluk, nearly about 75% of the total area, is covered by large and thick reserved forests, so much so that it has of recent years become known as the forest taluk of the district.

Communications:

The district is served by a net work of roads. The State Highway from Hyderabad to Balharshah passes through Karimnagar and Sultanabad taluks and touches the district headquarters. Karimnagar town is well connected by major district roads with the neighbouring district headquarters of Nizamabad and Warangal. Kazipet-Wardha broad gauge line of the Central Railway runs from south to the north in the district passing through Huzurabad and Sultanabad taluks.

Geology and Mineral Resources:

A brief note on the Geology and Mineral Resources of Karimnagar district compiled by the officers of the Geological Survey of India is reproduced below :

Geology:

Geologically the Karimnagar district could be divided into two parts, the western part consisting of the Peninsular granite complex with minor bands of Dharwarian rocks while the eastern portion is composed of the Purana sedimentaries (Pakhals and Sullavais) occurring as strips running in a general north-west to south-east direction and the Gondwanas with coal bearing formations. A broad succession of the Geological formations with the oldest at the bottom and the youngest at the top is given below :

Sub-recent to Recent	...	Alluvium
Gondwanas		Chikialas Kotas Maleris Kamthis Barakars Talchirs
Puranas		Sullavais Pakhals
Archaeans		Peninsular granite complex Dharwarians

The detailed description of the rock types is as follows :

Dharwars :

They comprise both the sedimentary and the igneous members as given below which occur in shredded patches, lenticular masses or xenoliths of all sizes dotting the granite complex :

Igneous	...	Epidiorites
Metasedimentary group	...	Phyllites, talc-chlorite schists, talcose and argillaceous grits, green quartzites, banded haematite quartzites, ferruginous quartzites, crystalline limestones and conglomerates

The epidiorites form low hillocks and occur as sheets and dykes invariably covered by residual soils. The highly resistant members such as the banded haematite quartzites stand out boldly forming conical or linear hills. The trend of the Dharwar rocks in general varies from north-west south-east to north-north-west south-south-east. These rocks are exposed in a narrow belt 10 to 32 kilometres wide, in parts of Karimnagar, Sultanabad and Jagtial taluks.

Epidiorites: The epidiorites which are metamorphosed basic igneous rocks occur as sills and dykes in the metasedimentaries. They are generally massive and at places they gave rise to deposits of steatite on alteration.

Metasedimentary Group: The banded haematite-quartzites are the most conspicuous among this group of rocks. They consist of intricately folded alternate layers of haematite and quartz. Each layer varies from a tenth to an inch in thickness. The haematite layers in places form thick massive ore which had been worked in the past for iron.

Occurring in association with the banded haematite quartzites are bands of green quartzites and felspathic quartzites, crystalline limestones, phyllites, talc-chlorite schists, talcose and argillaceous grits and conglomerates. The crystalline limestones are grey in colour and medium to coarse-grained. They contain calcite, siderite and magnetite, shreds and veinlets of basic intrusives. Where the basic intrusives are considerable the rock has changed to a calc-schist. They occur mostly near Govindapalle and Namapur in Jagtial Taluk.

Peninsular Granite Complex:

By far the major portion of the district is composed of the Peninsular granite complex, comprising the pink and the grey granites, the colour of the granites depending upon the colour of the felspars contained in them. However, this distinction is not sharp as the one invariably and imperceptibly passes into the other. It is considered that the grey granites are older than the pink ones. Each group is characterised by its own set of pegmatites, aplites and quartz veins, which have intruded into the granites.

Granites are exposed in the form of sheets, domelike or bouldery masses lying scattered about in

the flat or undulating country. They are medium to coarse-grained or even porphyritic and are composed of quartz, grey or pink felspars, muscovite and varying amounts of ferromagnesian minerals such as biotite and hornblende. Sphene, zircon, magnetite, allanite and apatite are the common accessory minerals. With the increase in ferromagnesian minerals the rock becomes darker. The granites appear banded or streaky when the dark minerals are segregated into bands or streaks before the granites were fully consolidated. Where the granites were subjected to great pressure and other metamorphic agencies, they have been changed to gneissic granites. Biotite granites cover wide areas and contain garnet at places. They form typical dome-shaped hills. Hornblende granites are commonly associated with the epidiorites. Narrow veins of epidote traverse the granites. At places these veins contain babingtonite, fluorite and calcite in addition to epidote.

Some of the massive outcrops of dark coloured rocks in the district probably represent the charnockites showing variation in composition from acid to basic and invariably containing hypersthene with or without augite.

The granites are dissected by numerous dolerite dykes ranging in thickness from a few metres to over a hundred metres. Some of them are traceable for several kilometres. These dolerite dykes are not uniformly distributed but cluster in parts of Sultanabad, Jagtial, Sirsilla and Karimnagar taluks. Many of them have a general east-north-east trend while a few small ones have a north-south or north-west-south-east trend. Due to their greater resistance to weathering the dolerites protrude out as prominent liner ridges in an otherwise a flat granite country. They are dark in colour, fine to medium grained and consist of plagioclase, augite and iron-ore.

Puranas:

These are unfossiliferous rocks of sedimentary origin. They occur in a narrow strip, running roughly north-west–south-east in the east-central parts of the district, occupying portions of Sultanabad and Mahadevpur taluks. A narrow band crossing the Balharsha-Kazipet railway line near Ramagundam continues in discontinuous outcrops upto the confluence of Kaddam river with the Godavari. Towards north these rocks pass into Adilabad district and in the south into Warangal.

The Purana rocks in the district comprise the Sullavais and the Pakhals. As seen in Chelvai in Mulug taluk of Warangal district, the Sullavais rest on the Pakhals with a slight unconformity. In the Karimnagar district, however, the Sullavais show a conformable relationship with the Pakhals. In the area north-east of Ramagundam the Sullavais rest directly on the granites.

The Pakhals in this district are mainly composed of dolomites, glauconitic sandstones, limestones and shales and are confined to Ramagundam area. The Sullavais consist of ferruginous, medium to coarse grained sandstones, grits, pebble beds, shales and limestones. In places the Sullavai sandstones are quartzitic and white. Due to differential erosion the sandstones form castellated hill ranges.

Gondwanas:

These are fresh-water sedimentary rocks deposited in stream beds or in lakes and contain workable coal seams in them. They occupy a broad belt running north-west to south-east along the eastern parts of the district covering Mahadevpur and parts of Sultanabad taluks.

The Gondwana rocks consist of talchirs, barakars, kamthis, maleris, kotas and chikialas. The talchirs are the oldest beds of the Gondwanas and are composed of boulder beds consisting of unassorted boulders and fragments of older rocks embedded in a clayey matrix. The shales and sandstones overlying them in Warangal district are not exposed in this district. These boulder beds are supposed to have been deposited by glacial agency.

The talchirs are overlaid by massive, thick-bedded, coarse felspathic sandstones of barakar age. They are usually white in colour and contain white kaolinised felspar. All the coal seams found in this district occur in the Barakar sandstones.

The kamthis are dirty brown, soft, medium to coarse grained sandstones interbedded with grits, conglomerates and ferruginous shales. They are conspicuously devoid of coal seams. They occur in parts of Mahadevpur taluk.

In Mahadevpur taluk maleri beds consisting of red clays and calcareous sandstones overlie the kamthis and in turn are overlain by the kota beds of light to brown sandstones and grits intercalated with limestones and red clays. The Chikiala beds are the topmost of the Gondwana rocks, and comprise conglomerates and ferruginous sandstones of buff or brown colour.

Mineral Resources:

Coal: Coal is found in the barakar sandstones of the Gondwana formations in the area 11 kilometres to the north-east of Ramagundam Railway Station on the Kazipet-Balharshah line. There are four workable seams in this area known as No. 1, 2, 3 and 4 seams successively from the top having thicknesses of 6.36 metres, 3.33 metres, 7 metres and 4.24 metres respectively. The minimum thickness of overburden to No. 4 seam is 24 metres. The reserves proved in this area are 140 million tons to a depth of 300 metres and 200 million tons to a depth of 450 metres. Coal is being worked in this area by Singareni Collieries Co , Ltd. This coal-field is called as "South Godavari Coal-field" and the workings are known as "Godavari Khani Group" of inclines.

Iron Ore: Near Amberpet (18°48'E: 79°11'N) Jagtial taluk, a number of occurrences of magnetite-quartz rock are located. They are thin discontinuous sheets enclosed in granite. The iron content of the magnetite-quartz rock is 35 to 40 per cent. The reserves are of the order of 12 million tons. Minor deposits of low grade ore occur near Koratla, Kurnipeta, Venkatapuram, Tadpalle, Tumbaraopeta, Vaulagonda and Gorapalle in Jagtial taluk and Poligutta, Peeralabaru, Parkalamampeta and Peddagutta in Karimnagar taluk.

Iron ore in the form of banded magnetite haematite quartzite occurs in the Dharwar band at Yerabali, Huzurabad taluk. The longest magnetite haematite band, 10 kilometres long and 30 to 75 metres wide extends from Yerabali in the north into Warangal district in the south. The ore is mainly magnetite. The band contains two pockets of rich ore containing 60 per cent iron. One of the pockets occurs at Jonnalarase Gutta (56 N/8; 18°02'; 79°22'30"), 2107 ridge, with a reserve of 0.32 million tons to a depth of 30 metres. The other occurring on the ridge 1574 (56N/8; 18°01': 79°22'30") in Warangal district contains 0.35 million tons to a depth of 30 metres. The total reserves of iron ore having 60 per cent iron in these two pockets are 0.67 million tons.

The rest of the occurrences including those in adjacent parts of Warangal district in the area contain 30-40% iron. The reserve of the low grade ore is 2,402 million tons to a depth of 30 metres.

Limestone: About 237 million tons of limestone suitable for cement manufacture - 87 million tons in Putnur forest, Sultanabad taluk and 150 million tons in Narella forest, Jagtial taluk are available. The limestones are high in calcium carbonate and low in magnesium carbonate. In Ramagundam area there are dolomitic limestones containing about 40 per cent magnesium carbonate. These can be used for the production of magnesia used in the preparation of refractory linings in metallurgical furnaces.

Soapstone: Small workable pockets of soapstone occur in Turkal, Maddikunta, Paltam and Medpalle area in Jagtial Taluk.

Construction Material: The granites, dolerites, quartzites, sandstones occurring in the district can be used for constructional purposes.

Minerals of Copper, Lead and Molybdenum: Though there are several occurrences of minerals of copper, lead and molybdenum in the southern parts of Sirsilla, Karimnagar and Huzurabad taluks, these are very small in extent and no workable deposit of any of these minerals is so far reported. Chalcopyrite (copper-iron-sulphide) and galena (lead-sulphide) occur as disseminations, sparingly in vuggy quartz veins. Molybdenite (sulphide of molybdenum) occurs sporadically in pegmatites.

Archaeology:

Places of archaeological interest comprise a number of forts, temples, and mosques. The fort at Elgandal is an ancient structure, and contains a mosque built by Zafar-ud-daula about 1754, with a minaret which oscillates when shaken. In the Huzurabad taluk are the two forts of Bajgur and Malangur, said to have been built respectively 700 and 1,000 years ago; and the two temples of Gurshal and Katkur, the former built about 1229, during the reign of Raja Pratap Rudra of Warangal. Though now in ruins, its exquisite stone carving is still in a good state of preservation. A pillar outside the temple has an inscription in Oriya. The fort of Jagtial was built for Zafar-ud-daula, in 1747, by French engineers. In the same taluk is an old temple at Dharampuri on the right bank of the Godavari. The old fort of Anantagiri in the Sirsilla taluk now in ruins, is built on a hill. Two mosques in the Mahadevpur taluk, one at Kalesar and the other at Sonipet, were built by Aurangzeb, as was the mosque at Rajgopalpet in the Siddipet taluk. Pratapgiri fort, in the Mahadevpur taluk, is said to have been built by Raja Pratap Rudra.

CHAPTER II

HISTORY

This district forms part of the Telangana, a region which finds mention in the Hewitt's references in his "Ruling Races of Pre-historic Times", giving an indication that this part of South India was by no means unimportant in the ancient world. The whole district indeed has been under the rule of the Andhra, the Chalukya, the Yadava and the Kakatiya dynasties successively. Vemulavada, also called Lemulavada, a village in the Sirsilla taluk of Karimnagar district, was the capital of a dynasty of Chalukyas called "Chalukyas of Vemulavada" who ruled a considerable area as the feudatories of the Rashtrakutas.[1] It became the headquarters of this branch of the Chalukyas at an early stage, probably under Arikesari I.[2] The next great ruler of Vemulavada was Narasimha II. According to a Vemulavada inscription[3] he single handedly conquered the seven Malavas, a group of kings on the hill in Kalapriya. After the death of Narasimha II it is not very clear as to who ruled over the territory. However, the rock inscription of Vemulavada and Parbhani plates indicate the name of Arikesari III as the last ruler of this dynasty. The Jaina temple at Vemulavada is said to have been constructed by his father Baddega. The Chalukyan empire under the rule of Arikesari III, 966 A.D., was a loose federation of a number of States, each of which was anxious to throw off the yoke of the other, and wanted to do so at the earliest opportunity, and as a result the Chalukyan power began to decline from about A. D., 1150. Therefore, Arikesari III was supplanted by the Yadavas of Deogiri and the Kakatiyas of Warangal. Thus Vemulavada lost its status as the capital city of the Chalukyan dynasty. A greater part of the district was under the control of the Kakatiyas of Warangal during the twelfth and the thirteenth centuries. Sarkar Yeligandal originally known as Bhodaniapur, a village situated about three miles north of Karimnagar, the present seat of the district, was the outpost of the Kakatiyas. General Kingham[4] in his book "About Telangana" says that Yeligandal was the capital of Telangana. But in fact it was a part and parcel of the Kakatiya Kingdom[5]. Legend has it that near about this area there was a very thick forest, in which a Musilm saint was residing. One day when a few jewellers with their bags of jewels were passing through this forest, the saint asked them as to what it was that they were carrying. The jewellers thinking that he might be the chief of robbers did not reveal the fact and said all bags contained 'kandulu' (redgram). The saint was surprised to hear this false reply and therefore stated that all bags would contain tella-kandulu (white redgram). After reaching their destination the jewellers were astonished to see that their bags contained only tella-kandulu instead of jewels. They immediately returned to the saint and begged his pardon. The saint pardoned them saying, "keep your jewels carefully". When they reached their destination they were glad to see their bags once again filled with jewels. Since then the place was named as tella-kandulu but in course of time it became Elgandal.[6] The above story seems to be supported by an inscription near Chintamani tank in which "Tella-kandulu" is clearly written. The summit of the Elgandal Fort must have been the stronghold of the Kakatiyas at one time. Elgandal Fort was captured in 1195 A.D., by Jaitugi, a famous ruler of the Yadava dynasty. He was anxious to rehabilitate victories elsewhere, and decided to launch an offence against the rising power of the Kakatiyas in Telangana. Jaitugi felt that since they were the successors of the Chalukyans, all the former feudatories of the latter would at once automatically recognise his overlordship. Therefore, he suddenly launched a hurricane attack against Kakatiyas in 1195, A. D., by capturing the Elgandal Fort. The reigning Kakatiya Monarch Rudra was killed in the course of the campaign, and Jaitugi succeeded in taking prisoner Ganapati who was a nephew of the dead Kakatiya Monarch.[7] Consequently, Elgandal Fort remained for about a

hundred years under the direct control of the Yadavas of Deogiri. It was again annexed to the Kakatiyas of Warangal by Raja Prataparudra (1295 to 1323). At the beginning of the fourteenth century constant attacks were made by Malik Kafur, a General of Alauddin Khilji, on Deogiri and Warangal and ultimately in 1309, the Yadavas of Deogiri, and in 1310 the Kakatiyas of Warangal became the faithful allies of the Sultan. After the death of the Sultan and particularly during the reign of Gyasuddin Tugluq, Warangal including Elgandal Fort was captured finally in 1323 by Mohammed Bin Tugluq. It is worthwhile to mention here how and when this fort came into the hands of the Bahmani kings. We know that at the time of the rise of the Bahmani Kingdom, Warangal was an independent kingdom under the rule of Kapaya Nayaka. This ruler was on friendly terms with the Bahmani kings. In course of time, however, hostilities arose between the two Kingdoms and the expansion of the Bahmani Kingdom eastwards was regarded by the Warangal ruler to be an encroachment on his own territory. Therefore, Warangal began to act in concert with Vijayanagar and in the reign of Ahmed Shah Bahmani 1436 to 1445 A. D., war commenced, which ultimately ended in the submission of the Warangal Kingdom including the Elgandal Fort. The capital of the Bahmani Kingdom during the period of Alauddin Hasan Gangu Bahmani was Daulatabad which was later on shifted to Gulbarga and finally Bidar was made capital of the Bahmani Kingdom in the reign of Ahmed Shah Bahmani.

Qutub Shah's attack:

Qutub-ul-Mulk, the founder of the Qutub Shahi dynasty and Qoam-ul-Mulk who is also known as Qoam-ul-Mulk Sagir, were the Subedars of Golconda and Rajahmundry respectively under Ahmed Shah Bahmani. On the breakup of Bahmani Kingdom Qoam-ul-Mulk, the Subedar of Rajahmundry, attacked the forts of Elgandal and Mulagnoor in the absence of Qutub-ul-Mulk and plundered them completely. [1] Qutub-ul-Mulk knowing the hostilities of Qoam-ul-Mulk wrote a letter of co-operation and friendship reminding him of their old friendly relations. [2] No fruitful result came out from this letter except war. Therefore, Qutub-ul-Mulk marched towards Elgandal in 1523. A. D., and conquered the forts of Elgandal and Mulagnoor by defeating Qoam-ul-Mulk who managed to escape towards Berar. After a short period, Qoam-ul-Mulk with the help of Imad-ul-Mulk, Shah of Berar, again led an expedition against Qutub-ul-Mulk in which he was defeated by Qutub-ul-Mulk at the Ramgir Fort. [3] Thus these forts passed into the hands of the Qutub Shahis. In the reign of Sultan Quli Qutub Shah, the founder of Hyderabad city, Elgandal and its dependencies were given to his son-in-law (Ai-nul-Mulk) as jagir. The mosque in the fort is said to have been constructed by the Qutub Shahis. Thus Elgandal remained for about 175 years under the control of Qutub Shahis. The last ruler of this dynasty was Abul Hasan Tana Shah. It was during the period of Abul Hasan Tana Shah that Moghuls under Aurangzeb, besieged the Golconda Fort and finally captured it in 1687. Consequently, Elgandal was also annexed to the Delhi Empire. It is said that Emperor Aurangzeb used to visit Elgandal occasionally on a pilgrimage to the renowned Muslim Saints of the area and also constructed a mosque and a tank. Both these monuments known as Alamgiri Masjid and Bindraban tank are still found there which testify to the past glory of the district. [4]

Elgandal under the Nizam:

Elgandal remained under the Moghuls for about 39 years. Within this short period subedars appointed by the Moghuls were ruling at Golconda. The last subedar of the Deccan and Golconda was Mubariz Khan, and it was during his reign that Moghul power came to decline. Nizam-ul-Mulk Asifjah I, once the Governor of Deccan under Aurangzeb, taking advantage of the political disturbances in the country, came to the Deccan and declared war against Mubariz Khan at Shaker Khera in 1724 A. D., in which Mubariz Khan was killed. Thus on the breakup of the Moghul Empire, Elgandal came into the possession of the Asifjahi dynasty. Nawab Amin Khan was the Jagirdar of Elgandal. After his death his son Nawab Mukrab Khan became the hereditary successor of the Jagir. He died in 1759 A. D. His own brother after his death, claimed to be the hereditary successor of the Jagir by deceiving the widow of the late Nawab. The widow appealed in the court of Asifjah, as a result of which Asifjah himself marched towards Balconda

1, 2, 3, 4 : Syed Abdul Qudus - Saire Elgandal MSS, Urdu, p. 14

when he defeated the brother of the deceased and returned the Jagir to Fakir Munawar Khan, the son of the widow.[1] In order to consolidate the administration of Elgandal, Nawab Mubazr-ul-Mulk Zafarudowla Bahadur Mirza Ibrahim Khan Dhosa was appointed as Subedar by the Nizam Nawab Salabat Jung. He constructed the present fort of Elgandal in 1754. The author of "Waqiath Zilla Karimnagar" states[2], that he made certain improvements in the district by constructing tanks and forts and died in 1795 A.H. He was buried in Ibrahim Bagh situated at Nirmal in the present district of Adilabad. After his death his son, Mirza Ehtheshamjung ruled over the territory and later turned rebellious against Mir Nizam Ali Khan, Asifjah II. As a result, Mir Nizam Ali Khan declared war against Elgandal and defeated him. On the request of his mother, Ehtheshamjung was pardoned and appointed as Subedar of Ellchipur. It was, however, during the period of Nawab Sikanderjah that Khan Bahadur Khan was appointed as Qiladar. It is said that in the reign of the late Nizam, Syed Karimuddin, who was the Qiladar, founded a village near the fort at a distance of three miles and named it "Karimnagar" after him[3].

Amalgamation of Elgandal Fort into Civil Area:

Prior to the amalgamation of Elgandal fort into civil area, Nawab Munawar Khan, a Jagirdar, resident of Moghalpura, a locality in Hyderabad city, was the Qiladar. As the aforesaid Nawab had no son and as it was not possible for his wife, after his death, to manage the Jagir, an application was submitted to Salar Jung I, the then Prime Minister of the Nizam, for the amalgamation of the fort into civil area with compensation in the form of Mansab. The application was finally accepted by the Nizam and in return of Elgandal fort and its dependencies a monthly compensation in the form of Mansab was issued to the family members of the Nawab for their life time. Thus Sarkar Yeligandal once the capital of the Chalukyas underwent several changes and finally became a district and was renamed as Karimnagar in 1905 in the dominions of the Nizam. After the formation of Andhra Pradesh in 1956 the district it became a part and parcel of the Andhra Pradesh State.

CHAPTER III

POPULATION AND HOUSING

In this Chapter a brief review is made of demographic, economic and social characteristics of the population as revealed by the 1961 Census count. The detailed tables in the third part of this Handbook will give the fuller statistical data. The following statement gives an idea of where the district stands in comparison with the other districts of the State in respect of certain demographic data.

STATEMENT III-1

State District	Area in Sq. miles	Population	Density of population (per sq. mile)	Percentage of growth of population 1951-61	Percentage of urban population	Sex Ratio Females per 1000 males	Percentage of Scheduled Caste and Scheduled Tribe population	
							Scheduled Castes	Scheduled Tribes
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

Population:

On the 1st March, 1961, the reference date of the 1961 Census, 1,621,515 persons were found in Karimnagar district, recording an increase of 13.54% over the 1951 population. There are 353 persons per square mile in the district as against 339 in the state as a whole. The density of urban population in the district is 3,811 as against the corresponding State average of 4,340. The density of rural population is 331 which is more than the corresponding State average of 284. The urban density figures at the 1951 Census stood at 10,333 for the district and 4,074 for the whole State. Amongst the districts of the State, Karimnagar district, with an area of 4,588.8 square miles occupies 13th rank in regard to area and 12th rank as regards population.

Distribution and density of population:

The district comprises six taluks and one Independent Sub-Taluk. Karimnagar taluk, which contains the headquarters of the district, records the largest number of people (335,609) living in it. The next populous taluk is Sultanabad (278,051) followed by Huzurabad (268,512), Sirsilla (258,303), Jagtial (239,065), Metpalli Independent Sub-Taluk (143,625) and Manthani (98,350) records the least number of persons. Huzurabad taluk is the most densely populated one with 479 persons per sq. mile followed by Karimnagar (466), Sultanabad (394), Metpalli (390), Sirsilla (358), Jagtial (353) and Manthani (118).

Growth of population:

As the statement to follow indicates, except for the decade ending 1921, when the great Influenza epidemic affected the population growth adversely, there has been a rapid increase of population over decades from 1901 to 1961. The rate of growth of population was the highest during the first decade 1901-1911, the percentage being 35.33 and during the decade 1931-41 the rate of increase was low as compared to the previous and subsequent decades except of course the decade ending in 1921. It is, therefore, evident that there has not been a steady growth of population in the district. There was decrease in population during the decade 1911-21, the percentage of fall being 3.03% as against the State average decrease of 0.13%. The reduction in population was more pronounced in the urban areas (20.72%) than in the rural areas (20.4%) from which it can be inferred that the urban areas were more severely affected than the rural areas. During the sixty years *i. e.*, from the turn of the present century this district recorded a marked increase of 112.96% as against the State average of 88.73%.

Gradually the district recovered from the influenza epidemic and exhibited a moderate increase of 13.35% in the growth of population during the next decade of 1921-31. Except in the decade 1921-31, in which there was a sudden spurt in the growth of urban population, the increase was moderate in all the decades in the urban areas also as in the rural areas. This is one of the districts which has crossed the 100% mark increase during the sixty years from the dawn of the present century.

The following statement illustrates the growth of population and percentage decade variation in the district as well as in the taluks during the last sixty years.

STATEMENT III-2

VARIATION IN POPULATION FROM 1901 TO 1961

	1961	98,350	+11,504	+13.25	50,077	48,273
7 Huzurabad Taluk	1901	129,023	...	...	67,267	61,756
	1911	174,604	+45,581	+35.33	90,406	84,198
	1921	169,315	— 5,289	— 3.03	86,858	82,457
	1931	191,918	+22,603	+13.35	98,033	93,885
	1941	209,622	+17,704	+ 9.22	106,600	103,022
	1951	242,001	+32,379	+15.45	124,184	117,817
	1961	268,512	+26,511	+10.95	136,567	131,945

Rural and Urban population:

This district has 8 towns and 1,093 (1,053 inhabited and 40 uninhabited) villages. 92.94% of the total population lives in villages and only 7.06% lives in towns. Jagtial (20,941) and Sirsilla (15,466) towns occupy the second and third places in the district next to Karimnagar town (31,554) as regards urban population.

Sex Ratio:

For every 1000 males there are 996 females in the district. In the 1951 Census their number was lower as there were 981 females for every 1000 males, in the district. In the urban areas of the district there are 942 females for every 1000 males which is prominently less than at the 1951 Census figure of 1000 and in the rural areas there are equal number of females for every 1000 males and this figure is higher than the previous Census figure of 980. In general it may, therefore, be seen that there is slight shortage of females in the district and this shortage is more pronounced in urban areas only. There may be several reasons contributing to this disparity of sexes in the urban areas.

Age Structure:

Able bodied persons of 15 years and above but below 55 years constitute 50.10% of the total population, the remaining being accounted for by children and young persons of age below 15 years (40.78%) and old persons of 55 years and above (9.12%). The age distribution of every hundred persons in the population is shown below :

STATEMENT III-3
AGE STRUCTURE

Age-group (1)	Persons (2)	Percentage (3)
0- 4	233,386	14.39
5- 9	235,449	14.52
10-14	192,412	11.87
15-24	262,737	16.20
25-34	237,660	14.66
35-44	172,863	10.66
45-54	139,133	8.58
55-64	86,322	5.32
65-69	18,725	1.16
70 and above	42,503	2.62
Age not stated	325	0.02

From this table it is seen that only few people survive to old age.

Marital Status:

As elsewhere in the country, marriage is universal. Out of the total number of 1,152,680 persons (males 580,906 and females 571,774) aged above 10 years, 960,190 have been found to be married (83.30%) and this number includes 138,387 widowed (males 30,533 and females 107,854) and divorced or separated persons 14,993 (males 8,070 and females 6,923). The marital status of 3 males and 1 female is unspecified and 16.70% of the age group (10+) were found to be unmarried. 74.73% of males and 92.01% of females comprise the married persons in this age group. Out of the total number of 468,835 persons below 10 years of age no one either male or female was found married. In the age group 10-14, out of a total number of 192,412 persons, 13,831 males and 50,116 females were found to be married. Amongst these married persons 40 males and 703 females were found to be divorced or separated. It will be seen that few boys, as compared to girls, seem to get married in the age group 10-14. The more possible inference that can be drawn from this is that young girls are married off to older men, though such marriages are few compared to the total number of marriages. Another strange phenomenon is revealed from the study of the tables on matrimonial status of the population of Karimnagar district. As per the 1961 Census the total number of females fall short of the total number of males by 3,467. It is however seen that the total number of women married (411,288) is more than the total number of married men (395,518). The excess of married women may be either due to some men getting married to more than one woman or the females usually getting married in the early ages or men going to other places to seek their livelihood, leaving their wives at home or women coming to their parents for confinement and temporary stay.

Literacy and Education :

The development of a country largely depends upon the education of its people and hence great stress has been laid on education in our Five Year Plans. Education is the systematic instruction, schooling or training given to young persons in preparation for the work of life, while literacy is the ability of a person to read and write in order that he can communicate with the outside world. During the Census enumeration information regarding literacy and educational levels of each person was collected and the particulars were so tabulated as to facilitate proper planning for the improvement of educational facilities with reference to the needs of the country in various fields.

At the present Census a person who can both read and write any language is taken as a literate. A person who can merely read but cannot write has not been treated as a literate. The test for reading is the ability to read any simple letter. Children aged 4 years and below have been automatically treated as illiterates. If a person has been successful in a recognised examination or examinations, the highest qualification so obtained has been taken as the level of education of that individual. Columns 18 and 19 of the village and town directory given in Part-IV of this Handbook indicate the number of literates among males and females in each village and in each ward/locality of the town. The following statement gives at a glance the total number of literates as well as their percentage to the population in the district and in each of the taluks of the district, sex-wise for the total, rural and urban population.

STATEMENT III-4

District / Taluk		Population			Literates			Percentage of literates		
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

	U	...	...	...	...	...	...	...	...	...

It may be seen from the above statement that 12.90% of the population of the district are literate against corresponding figure of 21.19% for the state as a whole. The district percentage is very low as compared to the State percentage and this shows that the district is educationally backward. The incidence of illiteracy among females is very heavy. Only 4.59% of the female population are literates and the remaining 95.41% of females are illiterates. 21.16% of males, however, claim literacy.

The following table will illustrate the literacy in the district according to the different age groups:

STATEMENT III-5

		15-34	41,399	42,179	799	29

The above statement clearly illustrates the big gap that exists between the total children of school going age and those that actually attend schools.

The number of educational institutions and scholars reading therein in the year 1960-61 are given in a separate statement under Administrative Statistics in Part II of this Handbook.

There is a clear need to intensify measures of compulsory education of children below 14 years of age.

Working population:

Persons engaged in productive work, whether they derive income or not, have been treated as 'Workers' in the 1961 Census. In respect of seasonal work like cultivation, livestock, household industry *etc.*, if the person had some regular work for more than one hour a day throughout the greater part of the working season, he has been recorded as a Worker. Persons temporarily incapacitated, under-trial prisoners, if they had been working before, have also been treated as Workers. Those that were treated as 'Non-Workers' were wholetime students, housewives, dependants, persons permanently disabled from work, retired persons, people of independent means for which they need not work, beggars, convicts in jail, unemployed persons *etc.*

From the above classification of 'Workers' and 'Non-Workers', it may be seen that the definition of a worker has been liberally conceived. Any one who generally spends more than an hour per day on any particular productive occupation, has been considered as a worker. 56.68% of the population is found to be economically active.

There are 427,861 persons between ages of 5 to 14 years, representing 26.39% of the total population. The recent trend has been to regard this Age-group as representing the school going population. With the introduction of compulsory education this Age-group will henceforth be automatically eliminated from the working population. In 1961 Census, it is seen that 124,305 persons of the Age-group 0-14 belonged to the working population. That is 7.67% of the non-adults constituted the earning members of the population.

49.58% of the females come under the inference of workers.

Persons engaged in Agriculture (Cultivation and Agricultural Labour) as their main work constitute 61.85% of the total working population. Women outnumber men in the category of Agricultural Labourers. The following table based on 20% of sample of Household Schedules gives the figures of sample households engaged in cultivation classified by interest in land and size of land cultivated in total, rural and urban areas separately.

STATEMENT III-7

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

Interest in land cultivated	No. of cultivating Households	Households engaged in cultivation by size of land in acres

Non Agricultural occupations provide employment to 38.15% of the total working population. The following table illustrates the broad categories of Workers other than in Cultivation and Agricultural Labour, and the number of persons in each category with their percentage to the total working population:

	Total persons	Percentage
Household Industry (Category IV)	146,881	15.98
Other Services (Category IX)	113,317	12.33
Trade and Commerce (Category VII)	29,653	3.23
Manufacturing other than Household Industry (Category V)	27,500	2.99
Mining and Quarrying *etc.* (Category III)	25,326	2.76
Construction (Category VI)	5,558	0.60
Transport (Category VIII)	2,346	0.26

This district can boast of a few important Household Industries as Handloom weaving, cattle and sheep rearing, beedi making and the renowned filigree Work. Handloom weaving mainly accounts for a large participation of workers in household industry.

Medical facilities:

The following Government Hospitals and Dispensaries are functioning in Karimnagar District.

Name of the Hospital (1)	Bed strength (2)
Headquarters Hospital, Karimnagar	169 general beds and 19 T. B. beds
Civil Hospital, Jagtial	30
do. Huzurabad	8
do. Metpalli	8
do. Sultanabad	8
do. Manthani	8
do. Peddapalli	8
do. Sirsilla	8
do. Ramagundam	6
do. Jammikunta	...
do. Mahadevpur	...
Endowment Dispensary, Vemulavada	4

The headquarters hospital, at Karimnagar has T. B. Clinic, V. D. Clinic, Eye Clinic, Dental Clinic, Blood Bank and Family Planning Clinic attached to it. The Civil hospital at Jagtial and Peddapalli also have T.B. Clinic attached to them. Family Planning

clinics are attached to the Civil Hospitals at Sirsilla and Jagtial. Unani dispensaries are functioning at Karimnagar, Sirsilla, Koratla, Gambhirraopeta, Manakondur, Tadcherla, Dharmapuri, Mallial, and Manthani and Ayurvedic Dispensaries at Choppadandi, Kodimial, Damarkunta, Srirampur, Pothakapalle, Wadkapur, Mutharam and Peddalingapur. Primary Health Centres are functioning at Kothapalle, Vangara, Gundi, Mallial, Ibrahimpatam, Kolanoor, Husnabad, Chendurthi and Mutharam. In spite of the above medical institutions functioning in the district it cannot be said that medical facilities are adequate in the district. It is seen from the Census occupational returns that there are only 27 practitioners of modern medicine of whom only 2 are women. This means that there is one doctor for 32,499 males and one lady doctor for 404,512 women. Further there are only 2 Dentists, 69 Nurses, 269 Midwives and Health Visitors. The following table illustrates the average number of beds, Doctors, Dentists and Nurses, Midwives and Health Visitors per 100,000 of total, rural and urban population :

	Number	Per 100,000 population
Beds	275	17.00
Doctors	27	2.00
Dentists	2	N.
Nurses, Midwives and Health Visitors	338	21 00

N. Negligible

There are about 481 persons who practise the Ayurvedic and Homeopathic systems of medicine. There are about 51 persons who profess to be physicians and have been classified under 'Others'.

Other Professions :

There are 183 Architects, Engineers and Surveyors in the district. Of these 131 are Civil Engineers, 5 Mechanical Engineers, 5 Electrical Engineers, 25 Surveyors and 14 others who have not been classified elsewhere.

On the educational side there are 33 University Teachers, 588 Secondary School Teachers, 1,812 Middle School Teachers and 1,588 Teachers who have not been classified elsewhere.

On the juristic side there are 20 Judges and Magistrates, 69 Legal Practitioners and Advisers, 5 Law Assistants and 8 Jurists and Legal Technicians (including petition writers) who have not been classified elsewhere.

On the communications side there are 11 Railway Engine Drivers and Firemen. There are 455 Motor Vehicle and Motor Cycle Drivers, 197 Cycle Rickshaw Drivers and rickshaw pullers and 359 Animal drawn vehicle drivers.

The fifth Table in the 'B' series in Part III of this Handbook gives full details regarding the people of various occupations among the working population available in the district, classified by sex of persons. All these occupations have been classified according to the National Classification of Occupations. It provides an interesting field of study to the discriminating reader and will help to assess the requirements and the availability of resources and talent.

Scheduled Castes and Scheduled Tribes :

The total Scheduled Castes population of this district is 315,263 persons representing 19.44% of the total population. The Scheduled Tribes population stands at 13,116 persons representing 0.81% of the total population

The highest concentration of Scheduled Castes is found in Manthani taluk representing 23.17% of the total population of that taluk followed by Huzurabad taluk (20.54%), Sirsilla taluk (20.34%), Sultanabad taluk (20.17%), Karimnagar taluk (19.28%), Jagtial taluk (17.65%), and lastly Metpalli Independent Sub-Taluk (15.17%). The percentage of Scheduled Castes (19.44%) in the district is higher than the State average of 13.82%.

As regards Scheduled Tribes population, more number of persons (9,691) are found in Manthani taluk (9.85%). Jagtial taluk has 2,931 Scheduled Tribes persons, Sultanabad 2,712 and Metpalli Independent Sub-Taluk 136 while Karimnagar and Huzurabad taluks recorded as few as 37 and 31 persons respectively. Sirsilla taluk recorded even less *i.e.*, only 11 persons. On the whole the district average is 0.81% of the total population which is far below the State average of 3.68%.

Of the total population of Scheduled Castes, 158,287 are males and 156,976 are females and the shortage of males is not different from the characteristics of the general population of the district. There is a shortage of about 8 females for every thousand males in the Scheduled Castes population of the district. The extent of literacy among the Scheduled Castes population is low, more so among the females. Only 577 females (0.37%) and 8,559 males (5.41%) are literates.

197,308 persons representing 62.59% of the total Scheduled Castes population are workers. 105,577 men and 91,731 women come under this category. Their major occupation is agricultural labour and as usual women outnumber men in this field. Very few have taken to manufacturing, construction, trade and commerce and transport and communications. This seems to be due to lack of appropriate training and orientation and opportunities. There are very few persons who have reached even the Matriculation or the Higher Secondary stage. The actual figure for this stage is 59 males and 5 females representing 0.04% and 0.003% of their respective numbers. These figures by themselves aptly illustrate the need for the upliftment of these communities through more advanced education and technical training. It is also seen that though the percentage of workers among these communities, is higher than the district percentage yet the sort of work that is being done is only of the lowest category.

The following table shows the population particulars of the various Scheduled Castes enumerated in Karimnagar District at the 1961 Census.

STATEMENT III-7
SCHEDULED CASTES POPULATION

Name of Scheduled Caste (1)	Rural (2)	Urban (3)	Total (4)
All Scheduled Castes	**303,601**	**11,662**	**315,263**

Sindhollu (Chindollu)	626	...	626
Scheduled Castes not specified	577	9	586

The Scheduled Tribes population of the district is 13,116. More than 2/3 rds of the these persons live in Manthani taluk and about 1/5th live in Jagtial taluk, while the remaining persons live in the rest of the five taluks. Their economic and social conditions are no better than those of the Scheduled Castes. Their educational achievements are hardly worth mentioning. Their main occupation is agriculture and agricultural labour, and a few of them work in mining and quarrying *etc.*, and in houshold industry.

The following table illustrates the population particulars of the various Scheduled Tribes enumerated in Karimnagar district in the 1961 Census.

STATEMENT III-8
SCHEDULED TRIBES POPULATION

Scheduled Tribes not specified	18	...	18

Social and Religious groups:

Hindus form the bulk of the population constituting 94.70% and this major religion is followed by the Muslims (4.31%), the Christians (0.95%) and the Sikhs (0.03%). There are only 4 Buddhists, 2 Jains and 48 others also living in the district.

Migration :

Migration of persons from one part of the country to another part is not uncommon and more so in between districts in the State. Generally migration is prompted by factors like the outbreak of famines, employment opportunities, trade and commerce *etc.*, and the desire to improve the standard of living in new areas that provide greater opportunities, marital ties *etc.* Karimnagar district bounded by Adilabad on the north, Nizamabad on the west, Warangal and part of Medak on the south, and Madhya Pradesh and Maharashtra States on the east is economically better off compared to the neighbouring districts of Adilabad and Medak but is backward in comparison to the other two neighbouring districts of Nizamabad and Warangal and hence it has not attracted as many people as Nizamabad and Warangal districts. The district does not have the benefit of any major river which could be utilised for irrigation. Only the rivulet Manair, a tributary to river Godavari traverses from west to east. A dam has been constructed across this river and a reservoir for irrigation has been formed. The absence of any river of importance passing through this district led to the backwardness of the district to a considerable extent. This district

is also not rich industrially. A detailed study of the migration trends in this district reveals that only 72,445 persons have immigrated into this district out of which 68,421 persons (22,156 males and 46,265 females) have come from other districts in the State, 3,980 persons (1,725 males and 2,255 females) from other States in this country and 44 from foreign countries. Warangal district has contributed a good number of migrants to this district, the figure being 23,818 (5,624 males and 18,194 females). Adilabad district though separated by Godavari occupies the second place contributing 12,646 persons (3,123 males and 9,523 females), followed by Medak 10,404 (3,200 males and 7,204 females), Nizamabad 6,110 (2,253 males and 3,857 females), Hyderabad 5,310 (3,023 males and 2,287 females), Nalgonda 1,957 (909 males and 1,048 females), Mahbubnagar 1,901 (1,214 males and 687 females) and lastly Khammam 1,134 (545 males and 589 females) in the Telangana region.

The immigration of people from the Andhra districts into this district is not so much pronounced as to the other districts in Telangana region, obviously due to the fact that this district is not prosperous enough to attract outside people. Guntur and Krishna districts as usual, stand in the order of priority, as 2,537 (988 males and 1,549 females) and 779 persons (402 males and 377 females) have migrated into this district respectively. Next to these two districts, Kurnool district in the Rayalaseema region, contributes 387 migrants (220 males and 167 females) to this district. Migration of people from the remaining districts in the Andhra and Rayalaseema districts is of little significance. However, the above three districts are followed by East Godavari 332 (173 males and 159 females), Chittoor 298 (66 males and 232 females), Nellore 277 (144 males and 133 females), West Godavari 235 (149 males and 86 females), Visakhapatnam 112 (45 males and 67 females), Cuddapah 105 (37 males and 68 females), Srikakulam 47 (24 males and 23 females) and lastly Anantapur 32 (17 males and 15 females). It is evident from the above that except from Hyderabad and Mahbubnagar districts, more number of women than men have immigrated into this district from the other districts in Telangana region mainly on account of ties of marriage, while more male population than females have migrated from the coastal and Rayalaseema districts. But it is strange that from Guntur, Visakhapatnam, Chittoor and Cuddapah Districts more females than males have migrated. The majority of workers among the migrants have taken to cultivation, Agricultural Labour, Household Industry and other services. Less than half of the immigrants, constitute 'Non-Workers' most of whom are made up of female housewives drawn into this district by ties of marriage.

Persons immigrated into this district from the other States in the country are only 3,980 (1,725 males and 2,255 females). Amongst these immigrants more number of persons are from the neighbouring State of Maharashtra due to its contiguity prior to the Reorganisation of States and formation of Andhra Pradesh, as some people may still have their interests here. The immigration of population from the other States in India is of little consequence.

As regards emigration of population it is noticed that 162,196 persons (69,520 males and 92,676 females) have gone out of this district to the other parts of the State, mostly to the neighbouring districts of Adilabad 63,088 (28,484 males and 34,604 females), Warangal 36,936 (11,636 males and 25,300 females) and Nizamabad 34,254 (15,364 males and 18,890 females). The other districts to which there are out-migrants in the order are Hyderabad 17,403 (10,089 males and 7,314 females), Khammam 16,598 (9,760 males and 6,838 females), Medak 11,347 (2,548 males and 8,799 females), Nalgonda 1,646 (717 males and 929 females) and lastly Mahbubnagar 681 (295 males and 386 females). It is observed that amongst the emigrants also women outnumber men especially to the neighbouring districts of Adilabad, Nizamabad, Warangal and Medak, as women have to perforce migrate to join their spouses. Nalgonda and Mahbubnagar have received more number of women migrants than men. Immigration of population to the districts of Hyderabad and Khammam is more pronounced amongst males than females as the former might have provided employment opportunities consequent on the formation of Andhra Pradesh and the latter on account of the fast growing collieries town of Kothagudem.

Emigration of population to the coastal Andhra and Rayalaseema districts is quite negligent. Guntur and Krishna districts, which used to receive good number of persons, have received only 317 persons each. Amongst the emigrants to Guntur district 177 are males and 140 females and to Krishna district 191 are males and 126 females. These two districts are followed by Visakhapatnam 301 (271 males and 30 females), West Godavari 145 (116 males and 29

females), Kurnool 103 (42 males and 61 females), East Godavari 81 (74 males and 7 females), Nellore 63 (51 males and 12 females), Cuddapah 31 (5 males and 26 females), Anantapur 9 (5 males and 4 females), Srikakulam 4 (3 males and 1 female) and lastly Chittoor to which 1 male and 1 female have emigrated. Men outnumber women amongst the emigrants to all the districts, except Kurnool, Cuddapah and Chittoor. The negligible number of out-migrants from this district may be in connection with business or to meet their relatives.

In general it is observed that emigration of persons is more pronounced from the rural areas of this district to the rural areas of the other districts.

Housing:

Though next to food and clothing man requires shelter as his necessity, it is a known fact that many people specially in the urban areas, are deprived of even the barest shelter. It is an ordinary sight in urban areas to see many poor and hunger stricken people living on pavements with no shelter to protect them. The migration of the poeple from the rural areas to the urban areas for their livelihood has further accenuated the accommodation position. The pressure on land in urban areas has become so great and the land so dear that it has gone beyond the reach of a common man and consequently slums and unhealthy localities have grown up resulting in bad living conditions.

With a view to improving the situation and for future planning of the housing programmes, the Government of India suggested to the National Buildings Organisation working under the Ministry of Works, Housing and Supply to collect in collaboration with the Registrar General, India during the 1961 Census Operations basic data on housing required by the Planning Commission. A common questionnaire was, therefore, evolved for the entire country and an attempt was made during the 1961 Census Operations to collect the required, comprehensive data on housing to meet the needs of the National Buildings Organisation. These data on housing do not merely relate to residential housing but also cover places of business, workshops, schools, restaurants, places of entertainment, hospitals *etc.* From the information so gathered it has now become possible to assess not only residential housing requirements but also the adequacy or otherwise of the requirements of Industry, Commerce, Education, Public Health *etc.*

In Karimnagar district, as anywhere else, houses used wholly or partly for dwelling purposes form the largest proportion of the Census Houses. 317,567 houses out of a total number 416,018 houses are used wholly as dwellings, 1,530 houses as shop-*cum*-dwellings and 13,641 houses as workshop-*cum*-dwellings. Some of the part dwellings like laundry-*cum*-dwellings, barbar's saloon-*cum*-dwellings have been included under the category of 'others'. If these houses are also taken into account the proportion of the houses used wholly or partly as dwellings will be higher. It is seen that the proportion of dwellings to population in the rural areas is more than that in the urban areas. Thus for a rural population of 1,507,001 there are 297,317 dwellings, while far an urban population of 114,514 there are 20,250 dwellings. This means in the rural areas there are 197 houses for every thousand population and in the urban areas 177 houses accommodate every thousand persons. It is obvious from these figures that there is over-crowding in residential housing. Thus proportional increase in residential accommodation has not kept pace with the growing needs of a vastly increasing population.

The proportion of Census Houses used as shop-*cum*-dwellings is very small and is slightly more than two per every thousand houses in the district.

Workshop-cum-dwellings are more than the shop-*cum*-dwellings and their proportion among total Census Houses is about 33 per thousand houses in the district. This seems to indicate that separate workshop facilities are quite inadequate in this district. Out of 13,641 workshop-*cum*-dwellings 13,110 are located in the rural areas as against 531 in the urban areas of the district. This illustrates that rural areas of the district are also in the know of using machines and other mechanical implements.

Hotels, Hostels and Dharmasalas etc., account for about 0.08% of the total number of Census Houses in the district and their percentage is far below the State's average of 0.14% for this category. The proportion is higher in the urban areas than in the rural areas and it may be due to a large number of hotels.

Shops excluding eating Houses are about 7 per 1000 in the district and this figure is also far below the State average of 1.3%. The urban proportion as everywhere in the State is considerably higher than the rural proportion. The lesser number of shops in

the district gives an indication of its commercial backwardness when compared even to the other districts in the Telangana region.

The proportion of *business houses and offices* to the total Census Houses is very small in the district *i.e.*, 584 out of a total number 416,018 houses. In this category, though the number of houses in the rural areas is higher they are not in keeping with the proportion in the urban areas.

There are 2,116 Census Houses in the district which are used as *factories, workshops and worksheds*–1,671 in the rural areas and 445 in the urban areas. There are about five houses used as factories, workshops and worksheds out of every thousand houses in the district. The proportion is higher as can be expected in the urban areas than in the rural areas.

There are 895 Census Houses in the district which are used *as schools and other educational institutions.* Of these 785 are in the rural areas and 110 in the urban areas. For every thousand houses there are about two houses under this category in the district. The proportion is higher in the urban areas than the corresponding proportion in the rural areas. There is one school for every 1,920 persons in the rural areas, while it is one for 1,041 persons in the urban areas of the district.

There are 247 *restaurants, sweetmeat shops and eating places,* out of a total number of 416,018 Census Houses. Out of this number 169 are in the rural areas and the remaining 78 in the urban areas. In this category there are four houses for every 10,000 houses in the rural areas, while in the urban areas there are nearly three houses for every thousand houses.

Places of entertainment, recreation etc.: ncluding temples, mosques and churches constitute 3,185 houses, 2,941 in the rural areas and 244 in the urban areas. The proportion is higher in the urban areas than in the rural areas, which shows that the rural areas are lagging behind in recreational facilities.

There are 179 Census Houses used as *Hospitals, Public Health Institutions, Dispensaries, Clinics etc.,* in the district. Of these 102 are in the rural areas and remaining 77 in the urban areas. The proportion of houses in this category to the population in the urban areas is, therefore, much higher as compared to the rural areas. It is a very well known fact that medical and public health facilities are grossly inadequate in our country, especially in the rural areas and hence no further comment is considered necessary on the existing state of affairs.

As explained earlier, the category of 'others' includes houses put to miscellaneous uses like 'Cattle-sheds, garages *etc.*,' Consequently no distinct pattern is discernible in this category of houses in the rural and urban areas of the district. The proportion of houses in this category is higher in the rural areas than in the urban areas.

Wall and roof material of the houses in the district:

The type of housing in this district is generally similar to that which is obtaining in the neighbouring districts of Telangana and is distinct from that observed either in the coastal Andhra or in the Rayalaseema districts. This district exhibits a distinct bias towards the country tiled houses followed by thatched houses supported by walls made up of mud or bricks.

House construction largely depends on the availability of the local building material, climatic conditions, traditions and the economic condition of the people of the area. The great majority of people who exist on marginal subsistence can hardly think of providing a substantial structure for their families. The villager has to depend on his own limited resources *i.e.*, the material he can get free or at a nominal cost and the efforts he and his family can muster in the form of labour, know how *etc.* The wall material that he can readily and easily procure is mud from his own field. The roof material may be thatch made up of palmyra leaves which he can cut from the nearby trees or the dry stalks of the crop that he grows or the reeds and grass which he can collect from the jungle.

It is seen that the type of houses that predominates in good number in this district is the one with mud walls and thatched roof in the rural areas and mud walls and tile roofs in the urban areas.

Wall material :

Houses built with mud walls are quite common especially in the rural areas of this district, whereas mud and bricks are used for the construction of walls of houses in the urban areas to a very large extent. It can easily be observed that the proportion of houses with mud walls in the rural areas is higher than the corresponding proportion of houses in the urban areas. This is one of the districts in which

more than 80% of the rural houses are with mud walls as against the State average of 64.7%. In fact the taluks of Karimnagar, Sirsilla, Sultanabad and Huzurabad record more than 90% of the houses with mud walls. It is also common to find that a fairly high proportion, *i. e.*, 61.6% of the urban houses are made up of mud walls as against the State average of 39.8%. In this regard this district occupies the third place next to Medak and Srikakulam districts in order. It is observed that Sirsilla, Metpalli and Manthani taluks account for more than 70% of the houses raised with mud walls.

It is surprising to note that the proportion of houses put up with walls made up of grass, leaves, reeds or bamboo is comparatively higher in the urban areas than the respective rural proportion. The materials generally used are dried stalks of redgram and bamboo in the forest regions. More than 20% of the houses consist of walls raised with these materials, and they can be found in the rural areas of Manthani taluk.

Next to mud, brick is the important material that is used for construction of the walls in the urban areas. This type of walled houses account for 53.9% in the urban areas of Jagtial taluk. In general it is observed that in the rural areas bricks are used to a very negligible extent.

Stone is also used as wall material in some of the districts in Telangana but not in this district. It is notable that this district records the lowest proportion *i. e.*, 0.1% of the urban houses with stone walls while the State's percentage is 14.30. It can be said that this material is not used for construction of walls in the rural areas of this district.

Roof material :

In the rural areas of this district, houses roofed with tiles are more predominant and these are followed by thatched houses. In the urban areas also, in addition to the use of the above materials for roofing purposes in the same order, brick and lime are also used.

Tiles are more commonly used for roofing the houses both in the urban as well as in the rural areas of the district. The rural areas of all the taluks, except Manthani taluk, record more than 40% of the houses as tile roofed, while the State's average is 20.1%. All the taluks, except Sirsilla taluk, have a majority of houses roofed with tiles. It may be noted that the urban areas of the district have 61.0% of the houses tile roofed as against the State's average of 33.6% and in this regard this district stands next to Warangal district.

Apart from the above materials, bricks and lime and cement concrete are used for roofing purposes only in Sirsilla taluk accounting for 20% or more of the urban houses. It is also observed that quite a negligible number of houses are covered with corrugated iron, zinc or other metal sheets.

It is generally seen that the urban areas have a lower proportion of houses with thatched roofs than the rural areas. In the rural areas of Manthani and Sultanabad taluks thatch is predominantly used accounting for more than 50% of the houses as against the State's average of 62.7%. In the urban areas also thatch is used for roofing purposes to some extent.

CHAPTER IV

INDUSTRIES

The Industries Department first came into existence in the erstwhile Hyderabad State under the Reorganisation Scheme of April, 1945 (Khurdad 1356 F). The office of the Superintendent of the Commerce and Industries was established at Karimnagar and the department conducted a comprehensive survey of all the industrial units and factories, available in the district and collected the required data to formulate their future programmes of development. The activities of the department received further fillip with the introduction of Community Development Programmes as envisaged in the Five Year Plans. The designation of the Superintendent of Commerce and Industries was changed to Assistant Director of Industries and Commerce and the Directorate was made in-charge of the implementation of the policy and programme relating to Industries and Commerce.

Karimnagar is predominantly an agricultural district and, therefore, a majority of the people are engaged in agriculture and its allied pursuits.

Large Scale and Medium Sized Industries :

The only large scale industry in this district is the Jangaon Coal Mine which is now making rapid headway. The excavation of coal has been started in three pits. It is managed by the Singareni Collieries of Kothagudem which is under the public sector. This industry in future may occupy an important place in the district's economy. Among the medium sized industries of the district, the Thermal Power Station of Ramagundam in Sultanabad taluk occupies an important place. In fact this is one of the biggest Thermal power producing centres of the State. The village Ramagundam is situated at a distance of about 40 miles from the district headquarters. Coal and water are the important raw materials which are easily available from the Bellampalle Coal Mines and the River Godavari. The Power Station went into production from the 24th of February, 1952 and the power produced at the beginning was 37.5 Mega Watts. Thereafter it steadily rose to 100 Mega Watts by the end of the Second Five Year Plan period. The second unit came into existence during the Second Plan period. The power produced at this station is being supplied to the Mancherial Cement Factory, Karimnagar, Hyderabad, Warangal and Kagaznagar.

Small Scale Industries in Private Sector :

Among the Small Scale Industries flourishing in the private sector in this district beedi rolling is one of the chief industries. In north-western portion of the district several beedi factories have been established. In the 1961 Census as many as 7,523 persons (1,781 males, and 5,742 females) have returned as working in the manufacture of beedis in this district. Besides beedi manufacturing there are also Zarda (scented tobacco) factories. The B. B. Zarda factory functioning at Kothapalle village about four miles from Karimnagar also produces perfumes and the products have a good market in the country.

The following statement gives particulars of the small scale industries in Karimnagar district by the end of the Second Five Year Plan period under the private sector.

STATEMENT IV-1

SMALL SCALE INDUSTRIES

Category	No. of units	Capital investment Rupees in lakhs	Turnover per year Rupees in lakhs	Employment potential
(1)	(2)	(3)	(4)	(5)
Rice & Flour Mills	176	...	17.00	425
Rice & Oil Mills	23	19 47	76.49	437
Saw Mills	6	0.51	1·40	36
Printing Presses	5	0.43	0.61	22
Engineering workshops (Repairs and maintenance)	5	0.45	0.29	21
Cement Works	9	0.37	1.05	75
Zarda Factories	3	5.56	15.54	109
Soap Factories	2	0.26	0.65	11
Beedi Factories	21	...	...	1,255

Besides the above units under the private sector, certain departmental units were also established during the Second Five Year Plan period to encourage the growth of industries in the district. The details of various schemes are furnished below :

Co-operative Work Centres :

During Second Plan period two Industrial Co-operative Societies were converted into Work Centres. The following are the particulars of the two Industrial Co-operative Work Centres :

Carpenters' Industrial Co-operative Work Centre, Karimnagar: The scheme was implemented during March, 1958. The State Government provided a sum of Rs. 18,000/- towards working capital and machinery as loan and grant. Further a sum of Rs. 7,000/- was also given as loan under the State Aid to Industries Act for the purchase of land and for the construction of workshed. Managerial assistance was also provided by the Government to the Work Centre towards the salary of the Manager at the rate of Rs. 200/- per month since the inception of the Centre. The following table gives the production and sales particulars since its inception :

Year	Production (in Rupees)	Sales (in Rupees)
(1)	(2)	(3)
1958—59	53,464.27	55,533.82
1959—60	57,607 38	48,507.86
1960—61	60,114 96	60,556.96
Total	1,71,186.61	1,64,598.64

Workshop, Co-operative Work Centre, Jagtial: This scheme was started during March, 1958. The Government provided an amount of Rs. 18,350 towards working capital and machinery as loan and grant. Further an amount of Rs. 7,000/- was also given as loan under the State Aid to Industries Act for the purchase of land and construction of workshop. Managerial assistance in the form of salary of the Manager at the rate of Rs. 200/- per month was also provided by the Government though the manager is being paid only Rs. 100/- per month as instructed by the Director of Industries. The following table shows the production and sales of the Centre during the last three years :

Year	Production (in Rupees)	Sales (in Rupees)
(1)	(2)	(3)
1958—59	11,695.07	10,652 02
1959—60	16,604.67	16,149.25
1960—61	48,477.90	49,976.37
Total	76,777.64	76,777.64

Cutlery Centre, Podur :

This is an old industry carried on by a certain section of artisans especially in Maqdumpur, Yeldipura and Podur villages of the district. Due to the primitive methods followed by the artisans the industry suffered a decay. The department of Industries and Commerce has, therefore, come to their rescue by tying to pool and collect the existing workers together under one common process so as to acquaint them with the modern techniques in the field. A provision of Rs. 1.27 lakhs was made available under the Second Five Year Plan. A workshed has been constructed by the Government with sanitary amenities and equipped with modern machinery such as lathe machines, drilling machines, electro-plating unit, power driven grinders and polishing machines. A qualified technician is incharge of this workshed.

The achievements of the Centre are as follows :

Year	Production (in Rupees)	Sales (in Rupees)
(1)	(2)	(3)
1956—57	553.09	788.02
1957—58	4,707.47	1,899.97
1958—59	9,247.89	4,664.51
1959—60	9,717.50	4,491.31
1960—61	7,731.62	3,962.56
Total	31,957.57	15,806.37

Village Industries:

It was during the Second Five Year Plan period that the village industries were given an impetus by the provision of training facilities to the village artisans in the manufacture of products with the help of improved techniques and tools. Provision was also made for the issue of loans in order that those trained may be in a position to purchase the required raw material. Tools were made available to them at 50% subsidised rates. A Common Facility Centre was also started for the benefit of village artisans wherein servicing facilities and technical help was made available.

Handloom Industry is the major cottage industry of this district. It is very common especially in Sirsilla taluk. In the 1961 Census the largest number of workers recorded in this district are under this industry—Textile Cotton. As many as 55,400 persons have been recorded under this industry out of which 31,143 are under the category "Cotton Weaving in Handlooms" and 21,425 are under "Cotton Spinning (other than the mills)". The skilled weavers ply their deft fingers to produce the sarees and cloth in pleasing colours. Production of bed sheets and curtain cloths is a special feature of this district. In the villages round about Karimnagar and especially in Nagnoor village woollen Blankets or 'Cumblis' are also manufactured and exported to the various States.

The Village Industries Artisans Training Centre, Karimnagar which commenced functioning during 1953-54 is intended to impart training to the traditional village artisans and to get them acquainted

with improved tools and machines in modern methods of manufacture of leather goods, carpentry, blacksmithy, cotton-weaving and wool-weaving so that they may set up their own units on more scientific lines. The Centre has trained 235 artisans by the end of 1961-62 and it has also taken up the training of subsequent batches. The following is the value of articles produced and sold in the Centre since its inception:

Year	Production (in Rupees)	Sales (in Rupees)
(1)	(2)	(3)
1953—54	441.81	378 67
1954—55	7,801.49	6,884.12
1955—56	7,434.57	6,408 39
1956—57	8,671.45	7,830 00
1957—58	9,802.52	9,338.32
1958—59	10,015.41	8,819 46
1959—60	10,516.48	10,257.01
1960—61	9,953.17	8,556.28
Total	64,636.90	58,472.55

The following statement gives the list of training centres by trade in which training is imparted by each and the number of persons trained in each of the centres from the date of their inception at Karimnagar.

Name of the Centre	No. trained so far from inception
(1)	(2)
Carpentry & Blacksmithy	50
Cotton weaving	46
Wool weaving	39
Tanning	40
Leather goods	31

State Aid to Industries Act:

Loans have been advanced to the artisans under State Aid to Industries Act upto 1959-60 for developing their industries. Since 1961-62 it is also included under the Third Five Year Plan. The particulars of loans sanctioned upto 1959-60 are as follows:

Year	Amount	Amount advanced	No. of artisans to whom loans advanced
(1)	(2)	(3)	(4)
1956-57	2,500	2,500	3
1957-58	25,000	25,000	33
1958-59	45,000	45,000	85
1959-60	50,000	50,000	114
Total	1,22,500	1,22,500	235

Grants-in-aid:

Grants-in-aid were sanctioned by the department from the Industrial Trust Fund to the deserving artisans who have no movable or immovable property so that they may improve the standard of their industry. The following grants-in-aid were sanctioned during the period from 1955-56 to 1960-61.

Year	Amount sanctioned in Rupees	No. of persons to whom grant was sanctioned	Remaks
(1)	(2)	(3)	(4)
1955-56	6,550	7	Sanctioned to 2 Societies and five individuals
1956-57	3,675	7	Sanctioned to 2 Societies and five individuals
1957-58	Nil	Nil	
1958-59	3,632	16	Sanctioned to 16 individuals
1959-60	4,498	42	Sanctioned to 42 Individuals including 37 Godavari Flood victims
1960-61	2,565	5	Sanctioned to one Society and 4 individuals
Total	20,920	77	Sanctioned to 4 Societies and 73 individuals

Industrial Estates:

The Government of Andhra Pradesh have sanctioned the establishment of one Industrial Estate at Karimnagar during the Third Five Year Plan Period and the construction of factory buildings is in progress.

Handicrafts:

Scheme for the development of Silver Filigree Industry: Karimnagar owes its importance also to its filigree work of an exceedingly delicate nature. It is a very ancient and a traditional industry being carried on by a certain section of goldsmiths. This industry even to this day maintains an All India reputation. The types of articles manufactured are bangles, broaches, caskets, buttons, betel boxes and cigarette cases besides costume jewellery like pendants, chains, rings, ear-rings and bracelets. During 1956-57, the All India Handicrafts Board advanced an amount of Rs. 25,000/- as loan. Besides the above loan the State Government sanctioned Rs. 5,000/- for the purchase of machinery like the lathe machine, plate machine, wire drawing machine and dye machine. In addition to this it has also purchased a house from the loan sanctioned. An amount of Rs. 3,000/- per year has been sanctioned for meeting the staff requirements. A provision of Rs. 0.39 lakhs has been made available during the Plan period. The following is the value of articles produced and sold by the society.

Year	Production (in Rupees)	Sales (in Rupees)
(1)	(2)	(3)
1957-58	22,116.66	17,486.86
1958-59	24,250.56	14,733.69
1959-60	17,188.82	19,215.00
1960-61	13,701.99	16,970.43
Total	77,256.03	70,405.98

Sericulture:

Tassar Seed Station, Mahadevpur: The object of this scheme is to impart training in the use of improved tools and the methods of reeling and weaving of tassar cloth by modern methods. The duration of the training period is 6 months and 12 candidates are trained in two batches in a year. Each of the trainees during the course of the training is paid a stipend of Rs. 20/- per month. It also aims at the amelioration of the employment problem of the tribals as envisaged in the Five Year Plans. A provision of Rs. 0.77 lakhs has been made available during the plan period. The centre has trained about 42 candidates by the end of 1960-61. It went into production during 1957–58 and the following are the physical achievements during the Second Five Year Plan period :

Year	Financial achievements (in Rs.)	No. of Cocoons cultivated	No. of F.D. layings produced	Raw silk produced (in lbs.)	No. of Cocoons sold	Cloth woven (in yds.)	No. of artisans trained
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
1957-58	5,851	1,000	...	...	...	...	6
1958-59	22,527	51,585	...	...	28,858	...	12
1959-60	15,310	11,55,115	36,936	78	...	...	12
1960-61	22,769	...	36,948	111	...	916	12
Total	66,457	19,10,560	73,884	189	28,858	916	42

Source : Assistant Director of Industries and Commerce, Karimnagar

In a predominantly agricultural district like Karimnagar the role and importance of industries cannot be over emphasized especially when there is need for rapid industrialisation of the State. In fact, they are capable of providing both whole-time and part-time occupations to a large number and more particularly to the surplus on land and thereby reduce the pressure of population on land. Karimnagar district is not much industrially advanced when compared to some of its neighbouring districts as Nizamabad and Warangal. The important industries that are closely allied to farming such as cattle rearing, dairy farming and poultry farming are still in a state of infancy. The small scale industries, by and large, are under the private sector. The Government through their small scale industries and other industrial schemes are also creating not only industrial consciousness in the rural areas but also fresh avenues of full employment. The village industries aim at ameliorating the employment problems of not merely the rural folk but also of the tribals in the forest regions of the district.

CHAPTER V

IRRIGATION

There are 6,990 irrigation sources in this district with a total irrigated area of 2,83,137 acres. The following are the details of the irrigation sources:

Irrigation Sources according to ayacut.	Number	Total ayacuts (in acres)
(1)	(2)	(3)
500 + acres	33	46,172
50—500 acres	1,050	1,04,684
10—50 acres	2,826	1,16,860
Below 10 acres	3,081	17,933
Total	6,990	2,83,137

The following is a brief description of some of the more important irrigation sources in the district:

Irrigation Projects:

Manair Project: The River Manair rises in the Thirmalapur hills in Kamareddy taluk and joins the River Godavari in the Manthani taluk of Karimnagar district after flowing for 160 miles through the districts of Nizamabad and Karimnagar. The River Kudlair, an important tributary of the Manair, takes its course near Siddipet and after draining 635 square miles joins Manair near Nirmal, a village in Sirsilla taluk. The drainage area of Manair at this junction is 201 square miles. From this junction the river descends through a rapid slope of 176 feet in 4 miles and then it assumes a gentle fall. The project was constructed at a cost of Rs. 97.67 lakhs across Manair and Kudlair rivers at longitude 78° 33'N and latitude 18° 16'E.

The head sluice is constructed on the right flank in the composite dam. It has three vents of 4' x 6' with sill at 1451.50. A high level sluice is also provided in the left flank composite dam with sill at 1,461.50 for supply of water for irrigation.

The gross commanded area under this project is 36,176 acres and the cultivable area is 30,020 acres. The entire crop pattern was restricted for only paddy cultivation and it was finally decided and proposed as follows *viz.*, 11,000 acres Abi (single crop) and 3,000 acres dofasla (double crop).

Shanigaram Project: This project is situated at latitude 18° 12'N and longitude 79° 50' E and is about a mile south-west of Shanigaram village in Karimnagar taluk. This porject was constructed during the Kakatiya period. It was restored and brought to the P. W. D. standards in 1891 A. D., at a cost of Rs. 92,568/-. The ayacut under the project for paddy cultivation is 3,623 acres Abi, and 1,200 acres dofasla. This ayacut is spread over in 10 villages of Karimnagar taluk.

Bandal Vagu Project: This project is situated at the intersection of the latitude 18°45'N and longitude 79° 19'E near Kukkalagudur village of Sultanabad taluk. It was constructed in the year 1955 at a cost of Rs. 3.33 lakhs across Bandal Vagu a small tributary of the river Godavari. Its ayacut is 890 acres Abi and 280 acres Dofasla and is spread over in 3 villages of Sultanabad taluk.

Chegaon Project: This project was constructed in the year 1950 at a cost of Rs. 3.53 lakhs across Maidaram Vagu near Chegaon village of Sultanabad taluk at the intersection of latitude 18° 48' N and longitude 74° 15'E. The ayacut under the project is restricted for paddy cultivation and is 800 acres Abi and 200 acres Tabi. The entire ayacut is spread over only in Chegaon village limits of Sultanabad taluk.

Laxminarasimha Sagar Project: This project was originally known as the Rolla Vagu project and as it was constructed across the Rolla Vagu stream which is a small tributary of the River Godavari near Thungur village of Jagtial taluk. The location of the project is at latitude 18° 15'N and longitude 78° 58'E. This project was constructed in the year 1959 at a cost of Rs. 5.61 lakhs with an irrigation area of 2,065 acres. The entire ayacut is restricted only for paddy cultivation and is spread over in 4 villages of Jagtial taluk. The development of the ayacut is still in progress.

Yakinpur Project: This project was constructed in the year 1906 across Kondrikal Vagu for irrigating an area of 1,200 acres in Abi and 200 acres in Tabi near Yakinpur village of Metpalli Independent Sub-taluk. The total expenditure incurred on the project was Rs. O.S. 3.95 lakhs. The ayacut under the project is spread over in 2 villages of Metpalli Independent Sub-taluk.

Projects under Execution:

Jungle Nala Project: This project was sanctioned by the Government in the year 1963 at a cost of Rs. 9.98 lakhs for constructing an earthen dam across the Jungle Nala stream near Datnur village to irrigate an ayacut of 1,800 acres in the Jagdevpet village

limits of Jagtial taluk. The construction of this project is in progress.

Chitti Vagu Project: This project was sanctioned by the Government in 1963 at a cost of Rs. 3.19 lakhs for irrigating an area of 500 acres. The construction of the project is in progress near Dumala village of Sirsilla taluk.

Chandragiri Vagu Project: This project was sanctioned by the Chief Engineer, Public Works Department for Rs. 1.40 lakhs for constructing a reservoir across the Chandragiri Vagu near Chandragiri village in Sirsilla taluk. The proposed ayacut under the project is 217 acres. Construction is in progress.

Construction of a tank across Nakkala Vorrey : This project was sanctioned by the Chief Engineer, Public Works Department for Rs. 2.775 lakhs for the construction of a reservoir across Nakkala Vorrey near Tarpally village of Sultanabad taluk. The proposed ayacut under the project is 384 acres in the Tarpalle village limits. The construction work is in progress.

Restoration of Bommarapu Chervu: This scheme was sanctioned by the Chief Engineer, Public Works Department for Rs. 2.21 lakhs to improve the abandoned tank. This Bommaram tank is situated near Kodampet village of Manthani taluk. The proposed ayacut is 738 acres. The work is in progress.

The following statement gives particulars of the irrigation sources almost all of them being irrigation tanks having an ayacut of 100 acres to 200 acres for each taluk.

Minor Irrigation:

As per the orders of the Government the maintenance of tanks and canals having ayacuts of 100 acres and less are within the purview of the Panchayat Samithis and the Zilla Parishads since April, 1961. The following statement gives details of works taken up, completed and left over as spill over works from 1st April, '61 and the grants sanctioned and expenditure incurred till the end of October, 1964.

STATEMENT V-3

NORMAL AND ADDITIONAL MINOR IRRIGATION SCHEME

CHAPTER VI

AGRICULTURE

The total cropped area in the district during 1961-62 was 12,94,815 acres against the normal area of 12,32,600 acres. Area sown more than once accounted for 74,296 acres; the net sown area therefore works out to 12,20,519 acres. The important food crops of the district are paddy, jowar, maize which occupied an area of 8,34,843 acres against the total acreage of 10,93,678 acres under food crops during the year 1961-62. The non-food crops covered an area of 2,01,137 acres only during the above year. Among the non-food crops, the oil seeds *viz.*, gingelly, groundnut and castor are important crops and during 1961-62, these three crops covered an area of 1,90,801 acres. The soils of the district comprise mostly chalka, although large patches of black clay loamy soils are found scattered in the taluks of Jagtial, Sultanabad and Manthani. In the river valley the soil is however alluvial which is highly fertile. The existence of numerous irrigation tanks is a marked feature.

The yellow jowar, bajra, sesamum, cotton, castor seed, tur and other pulses are mainly grown in Kharif season while gram, cotton *etc.*, are grown in Rabi season. There are two crop seasons the Abi and Tabi for paddy and three seasons, namely, Kharif, Rabi and Maghi for dry crops, Maghi being the intermediate between Kharif and Rabi. The Kharif sowing proceeds as late as July closely followed by Maghi sowing. Certain kinds of rice are sown as late as the beginning of August, if the rains are late, and in the Tabi a hot season paddy crop is sown from December upto the end of February.

The Cultivator begins ploughing his land for the Kharif sowings in December or January and for the Rabi during the monsoon, whenever there is a break in the rains. The *regar* is ploughed with the large plough or 'nagar' drawn by eight bullocks only once in seven or eight years, the 'bakkhar' or harrow being considered sufficient in intermediate years. The land is ploughed first in one direction and the second ploughing is done at right-angles to the first and the ploughing is repeated till the soil is perfectly pulverised and clean. Where the soil is sandy and finely divided only slight ploughing and harrowing will be sufficient.

The land thus prepared is ready to receive the seed and the Kharif sowings are commenced immediately after one or two showers of the monsoon. After good showers have fallen the land for paddy cultivation is ploughed and left for a few days. The seed which has been soaked before hand and has sprouted is now sown broadcast in the fields and ploughed in. But in fields irrigated from large tanks, the preparation of wet lands begins even before the monsoon. For the Rabi sowings, the land which has been ploughed during the breaks in the rainy season is sown in September or October as at this time there are usually autumn showers which help the germination of the seed. For the Tabi hot season paddy crop, the land is first soakd with water from tanks and wells. The sowings proceed for two or even three months from the beginning of December to the end of February.

Harvesting of the yellow jowar, bajra and the rainy season paddy commences about December while that of white jowar, gram, hot season paddy *etc.*, is done before April and May.

The following table shows the calendar of sowing and harvesting of the important crops grown in this district :

STATEMENT VI-1

Name of the crop (1)		Sowing months (2)	Harvesting months (3)
Paddy	Autumn	February-June	July-October
	Winter	June-July	November-December
	Summer	December	March-April
Jowar		October	March-April
Bajra		June-July	October
Ragi		July	November

Groundnut		June-July	October-November
Gingelly		June-July	September-October
Castor		July-August	January-March

Soil Conservation:

Dry lands need soil Conservation measures for conservation of soil and moisture and for increasing the yields. Soil Conservation works were taken up in Karimnagar district under the jurisdiction of the Assistant Soil Conservation Officer, Hyderabad but subsequently a separate sub-division was created for the district. At present there is one sub-division covering 5,000 acres each year. In order to step up the tempo of work, it is proposed to have two sub-divisions in the district to cover 10,000 acres each year.

As regards the agricultural implements used in this district for cultivation, plough, bullock hoes, 'bakkhar' (harrow), 'tippan' (seed drill) are chiefly used. Light plough is generally employed for ploughing. The oridinary 'mot' or leather bucket is the most common water lift. On the banks of the rivers and streams 'yatam' or 'budki', a lever like contrivance is used.

State Seed Farms have been established at the rate of one seed farm for each Block. An aggregate area of 525 acres wet and 210 acres dry was cultivated mostly on leased lands. The produce of the 21 farms in the district amounted to 4,215 maunds of 'A' Class seed. Nucleus seed is multiplied in the State Seed Farms. The produce known as the foundation seed is sold to registered seed growers for further multiplication in their holdings. The produce of these holdings is then sold to ryots for general sowings in their fields. The following statement furnishes particulars of the use of improved seed in this district.

STATEMENT VI-2

Name of the crop	Spread in acres		
	First Five Year Plan	Second Five Year Plan	Total
(1)	(2)	(3)	(4)

Jowar	106	1,10,081	1,10,187
Maize	600	87,498	88,098
Wheat	300	23,840	24,140
Pulses	...	136	136
Oil Seeds	...	795	795

Source : District Agriculture Officer, Karimnagar

The introduction of the Japanese method of paddy cultivation has resulted in better yields. The average increased yield has been estimated as between 500-1000 lbs. per acre.

A Maize Research Station established in the year 1952 as a joint venture by the State Government and the Indian Council of Agricultural Research, New Delhi is functioning now at Karimnagar. The following research programme in hybridization is done at this station.

1. Top grossing the inbreds and testing them for combining ability of inbreds
2. Making single grosses of inbreds of better combining ability and testing them
3. Trials of foreign hybrids
4. Manurial and cultural experiments
5. Time of sowing experiments
6. Seed multiplication

The use of fertilisers has also become very popular in this district. These are being supplied by the Government on a phased programme depending on the crop area and the requirements through the Co-operative Marketing Societies. The district Co-operative Marketing Society is the wholesale dealer while the Primary Societies are the retail dealers. Fertilizers and manures can be obtained by the cultivators on cash payment, or under the intensive manuring loans, or the taccavi loans or under the special loans under kharif and rabi campaigns. Tractors are also being supplied to the ryots for the purpose of ploughing under taccavi.

To convince the cultivators about the benefits of improved seeds, fertilisers, better implements and other methods of agriculture, intensive propaganda was conducted by arranging exhibitions, film shows, by distributing leaflets, magazines *etc.* Exhibition stalls were also arranged at Jataras, Melas, Ursus *etc.*, as a means of publicity.

CHAPTER VII

ANIMAL HUSBANDRY

The work relating to Animal Health Services both of a preventive as well as a curative character is being attended to by the Government Veterinary Department headed by a District Veterinary Officer with his headquarters at Karimnagar. He has control over all the 46 Veterinary Institutions in the district. After the coming into existence of the Panchayati Raj, each of the Community Development Blocks in the district has an Extension Officer who looks after this aspect of work under the supervision of the District Veterinary Officer. The following is the list of Veterinary Institutions in the district:

1.	Stationary Veterinary Hospital	1
2.	Stationary Veterinary Dispensaries	3
3.	Minor Veterinary Dispensaries	6
4.	Touring Billets	9
5.	Rural Veterinary Dispensaries	2
6.	Veterinary First Aid Centres	4
7.	Extension Officers (Animal Husbandry)	18
8.	Sheep and Goat Development Centres	4

Disease Control:

Rinderpest which was a dreaded disease for a long time has been completely rooted out from this district. The main Anti Rinderpest Campaign was carried on for two years and this work was followed up for another two years by a complete coverage through vaccination. The whole district is now covered and there has been no epidemic of Rinderpest in this district for some years. As regards contagious diseases such as Haemorrhagic Septicaemia and Black Quarter, the veterinary staff attends whenever epidemics occur and simultaneous preventive measures, such as inoculation against these diseases, are also being carried out. Preventive measures are usually conducted before the commencement of rains each year. By this method, the out-break of epidemics is being controlled.

Livestock:

Malvi is the predominant breed in this district. They are useful animals for agricultural purposes. The cows are, however, of a medium size and are not very good milch cattle. The population of cattle in this district is 7,48,700

There is a Cattle Breeding Farm about 4 Kms. from Karimnagar on the Karimnagar-Kamareddy road. The Farm was started in the year 1950-51 with the object of improving the Malvi breed of cattle by selective breeding and by the multiplication of breeding bulls for distribution in the Telangana region to upgrade the local cattle. This Farm also makes available milk to institutions like hospitals and also to the general public in Karimnagar town 100,070.30 Kgs. of milk was obtained out of which 77,121.50 Kgs. was sold to the hospitals and to the general public during the year 1963-64.

The contribution of the Farm towards the development of cattle wealth is by sale of pedigree breeding bulls to the Panchayat Samithis of this region. Each bull covers 50 to 60 cows per year and the improvement of local stock has to be judged by way of improved calves born to the cows served by these bulls. By December, 1964, the farm has supplied 92 pedigree bulls, of which 82 are Malvi and 10 Murrah, which are expected to produce 4,600 improved calves each year.

Poultry Development:

This district is quite well off as regards poultry. Efforts are also being made to upgrade the quality of the poultry through the Community Development Blocks. The Veterinary Department has also undertaken the work of exchange of indigenous cocks with pedigree cocks for the purpose of upgrading. The yield of eggs also is on the increase. In most of the areas, it is quite common now to see White Leghorns, Rhode Islands, or even the New Hampshire breed. The Blocks also supply eggs to the villagers for the purpose of getting them hatched by country methods.

In the district headquarters there is a District Poultry Farm under the control of the Superintendent, Cattle Breeding Farm. This district Poultry Farm was started in the year 1959 and is located in the premises of the Cattle Breeding Farm, Karimnagar. The aim of this Farm is to supply exotic breeds of poultry and eggs for hatching to the public and to the Panchayat Samithi Blocks of the district. During the year 1964-65, 200 pedigree cockrels were supplied by

this farm on exchange basis for upgrading the local birds in two villages.

Sheep and Goat development :

Most of the sheep population of this district is of the black variety. In a few villages of Mahadevpur some red sheep can also be noticed. As the black variety yield enough wool several Blanket Weaving Societies have been established in this district. Four Sheep Centres are functioning in this district at Elgaid, Mulaknoor, Boinpalle and Rayalapalle under the control of this department. In these centres, white Bikaneeri rams which have heavy wool formation, about six inches in length on their hides, are maintained. These rams are supplied to the sheep owners during mating season for improving the quality of sheep for a better yield of wool as well as meat.

There is a Sheep and Wool Extension Centre in Karimnagar under the control of the Superintendent, Cattle Breeding Farm, Karimnagar. This centre was established in the year 1960-61 with 51 Bikaneeri Magra type rams. The aim of this centre is also to upgrade the local sheep for better wool production. 160 ewes were covered by six rams, the progeny born being 43 lambs and 53 ewes lambs during 1963-64.

Key Village Centres :

There are two Key Village Centres, one at Karimnagar and the other at Sreerampur. Semen for artifical insemination is obtained from Warangal.

Sources : 1 District Veterinary Officer, Karimnagar.
2 Superintendent, Cattle Breeding Farm, Karimnagar.

CHAPTER VIII

FISHERIES

Karimnagar district has a great potential for Fisheries Development on account of the large number of irrigation tanks and also because of the river Godavari flowing all along its eastern boundary. There are several thousand tanks in the district with a large water spread area. Work relating to the Fishery Development in these tanks was taken over by the Fisheries Department in the year 1951 from the Revenue Department. After this change over and on account of concentrated work, the fish production increased greatly thereby bringing large revenues to the department, which also included sale proceeds of fish from deep water catches. The following statement furnishes particulars of revenue obtained by the department since 1951.

STATEMENT VII-1

Year	Revenue obtained (in Rupees)	
(1)	(2)	
1951—52	17,309	Famine years
1952—53	12,545	
1953—54	43,577	
1954—55	49,021	
1955—56	52,830	
1956—57	63,199	
1957—58	59,600	
1958—59	56,000	
1959—60	60,889	
1960—61	41,597	
1961—62	78,180	

Apart from the above mentioned smaller tanks, there are seven medium size irrigation projects in the district which also account for a large water spread area. Major carps of Bengal were introduced at the Manair and the Sanigram reservoirs respectively and these have established themselves well and are breeding satisfactorily. Deep water netting operations were conducted by the department from February 1962 to May 1962 resulting in a catch of 34,000 lbs. of fish. This was disposed off at Hyderabad. Stocking of other projects is also being taken up for the purpose of deep water netting operations.

Collection of spawn and fry from their natural sources of breeding in the river Godavari was taken up in 1957 in this district which was the pioneer in this operation. The object of this is to stock the reared up fingerlings in the inland waters. Such work, however, requires fish nurseries and the lack of sufficient number of these in the district is proving to be a great handicap. However, there are three major seed collection centres. The seed is collected from the river Godavari from the eggs and fry stage. Most of these are distributed to various Blocks, and the remaining fry are reared in the nurseries, fish farms *etc.*

Exotic species like the Cyprinus Carpio of Bangkok strain is being reared in the Fish Farms at Sanigram and Manair. They are being induced to breed there. Two and a half lakhs of fry were produced during the months of July and August. The fry were again reared in the Farm Ponds.

The following statement gives particulars of the fish seed collections since 1951 :

STATEMENT VIII-1

Year	Fry and Spawn collected	Murrel seed collected
(1)	(2)	(3)
1951—52	...	60,000
1952—53	...	1,50,000
1953—54	...	2,94,938
1954—55	...	3,14,812
1955—56	...	4,34,781
1956—57	...	5,46,933
1957—58	...	7,16,917
1958—59	18,49,000	7,04,691
1959—60	50,50,000	8,73,865
1960—61	1,04,30,030	13,26,621
1961—62	20,98,300	2,88,406
1962—63	31,72,800	7,72,487

There is one Nursery Farm at Manthani and two fish farms at Sanigram and Manair in the district. The Nursery Farm at Manthani rears the fry collected from the river Godavari. A well is under construction which after completion will be a perennial source of water supply to the farm. At the Shanigram fish farm attempt is being made to induce breeding of Cyprinus carpio, an imported strain from Bangkok. Finally the Fish Farm at Manair is exclusively meant for induced breeding of major carps by pituatory injections. A series of experiments are under progress in collaboration with the Fisheries Extension Unit of the Government of India located at Hyderabad.

Prawns are available in plenty from the river Godavari. A research station was opened at Manthani with the aid of the Indian Council of Agricultural

Research and with the object of inducing the prawns to breed in ponds and in other confined waters. The Research Station succeeded in inducing the prawans to breed in cement cisterns, in hapas and in earthen pots. It has also succeeded in getting hatchlings by isolating the female and by keeping them in earthen pots. The problem of rearing these hatchlings in controlled waters and under ideal conditions is also being investigated.

Eight Fishermen Co-operative Societies were established out of which only six are functioning with a total membership of 458 and a working capital of Rs. 5,900.

Source : Assistant Director of Fisheries, Karimnagar.

CHAPTER IX

CO-OPERATION

The following statement gives particulars of the types of Co-operative Societies in the district prior to the commencement of the First Five Year Plan.

STATEMENT IX-1

Category	No. of Societies	No. of Members	Paid up share capital (in Rs)	Working Capital (in Rs.)
(1)	(2)	(3)	(4)	(5)
Co-operative Central Banks	2	432	80,293	6,80,228
Taluk Agricultural Co-operative Associations	9	16,233	3,91,477	7,82,266
Village Credit Societies	301	6,146	1,70,764	3,78,445
Industrial Societies	33	889	16,497	50,187
Urban Banks	9	1,383	17,687	74,890
Grain Banks	683	89.785	7,87,838	20,50,753
Departmental Societies	13	825	35,813	60,148
Handloom Societies	45	30,827	7,38,123	19,15,758

During the First Five Year Plan the activities of the Societies were confined only to the issue of credit requirements of the members. During this Plan period as per the instructions of the Registrar of Co-operative Societies issued from time to time one Large Sized Co-operative Society, one Rural Bank, one Co-operative Housing Society, three Toddy Tappers Co-operative Societies and six Fishermen Co-operative Societies were organised and registered.

The following statement illustrates the position of the Co-operative Societies together with their membership and paid up share capital as it stood at the end of the First Five Year Plan Period.

STATEMENT IX-2

Category	No. of Societies	No. of Members	Paid up share capital (in Rs)	Working capital (in Rs)
(1)	(2)	(3)	(4)	(5)
Co-operative Central Banks	2	589	1,41,092	7,60,123
Village Agricultural Credit Societies	378	9,343	1.56,203	6,71,098
Large Sized Co-operative Society and Rural Banks	2	456	4,145	14,535
Taluk Agricultural Co-operative Associations	7	15,951	22,859	4,06,252
Housing Societies	1	85	415	415
Industrial Societies	27	767	15,565	49,160
Toddy Tappers Societies	3	55	1,910	1,970
Fishermen Societies	6	522	4,771	5,243
Urban Banks	8	1,276	16,584	64,397
Grain Banks	564	59,658	6,76,341	17,30,849
Departmental Societies	12	775	32,609	54,949
Handloom Societies	42	29,505	6,33,258	17,18,496

On account of the transfer of Parkal taluk from Karimnagar district to Warangal district in the year 1955 there was a decrease in number and membership of the Co-operatives from the commencement up to the end of the First Plan Period.

Several schemes were formulated and implemented during the Second Plan Period. A brief review is made of the various schemes undertaken during this period.

Integrated Rural Credit and Marketing:

This scheme was envisaged to organise Village Agricultural Credit Societies including Large Sized Co-operative Societies and Rural Banks so as to ensure complete coverage of villages by the end of the Second Plan Period. During this period 476 village credit societies, 5 Large Sized Co-operative Societies, and three Rural Banks were organised and registered bringing their total to 863. Out of 1,063 villages in the district 976 villages were covered by Co-operatives constituting a coverage of 91 per cent.

The programme was also intended to cover 33% of the rural population by the end of this period. During the Second Plan Period 58,279 rural families were brought into the co-operative fold, bringing the total membership of the Village Credit Societies, Large Sized Co-operative Societies and Rural Banks to 67,622, which meant that 21% of the rural population was covered.

The following statement illustrates the targets and achievements as regards short-term loans for the years of 1958-59, 1959-60 and 1960-61.

STATEMENT IX-3

Year	Target (in Rs.)	Achievement (in Rs.)
(1)	(2)	(3)
1958—59	5,00,000	18,93,056
1959—60	57,00,000	57,11,965
1960—61	85,00,000	60,00,767

Under the revitalisation scheme 338 village Credit Societies were selected and were subsidised to an extent of Rs. 78,905.73 upto the end of the Second Plan Period. All the 338 selected societies under the scheme employed part time clerks.

Cottage Industries (Handlooms):

During the Second Plan Period, share capital loans to the tune of Rs. 10,387.50 were advanced to

the Wool Weavers' Co-operative Societies with a view to strengthening their share capital under the Cess Fund Scheme. Working capital loans to the tune of Rs. 2,40,800 were also advanced to the Wool Weavers' Co-operative Societies during the Second Plan Period to enable them to develop their financial condition under the Cess Fund Scheme. The Reserve Bank of India also sanctioned a loan of Rs. 3,95,000/- to the Weavers' Co-operative Societies under the Second Plan. A loan of Rs. 1,208.59 was sanctioned under the Cess Fund Scheme to the Handloom Weavers' Co-operative Societies for Pedallooms during the Second Plan Period.

A sum of Rs. 4,77,168.00 was reimbursed to the Handloom Co-operative Societies in the district towards the rebate allowed by them on the sales of Handloom cloth with a view to increasing production of finished goods and to augment sales.

Grant-in-aid amounting to Rs. 9,420 was advanced to the six Dyeing House Units of the Handloom Weavers' Co-operative Societies. A subsidy of Rs. 10,901.42 was paid to 4 Handloom Weavers' Co-operative Societies in the district towards the cost of the staff employed by them during the Plan Period. Six local centres were established in order to collect data regarding the production of finished goods by the weavers outside the co-operative fold to enable the members to compare the production of goods made by the Weavers' Co-operative Societies as against those made by the outside weavers. A subsidy of Rs. 4,003.44 was paid to the centres at the rate of 0.06 paise per loom during the Second Plan Period.

The Handloom Weavers' Co-operative Society, Karimnagar was sanctioned a loan of Rs. 2,75,500 and a subsidy of Rs. 1,20,00 during the Second Plan Period for construction of 100 houses at Karimnagar for the residence of its members. Out of the loan sanctioned a sum of Rs. 40,000 was released to the Society for starting construction work.

The following statement gives particulars of the Weavers' Co-operative Societies in the district:

STATEMENT IX-4

Number of Weavers' Co-operative Societies				No. of looms in the Co-operative pool	No. of Weavers in the Co-operative Societies
At the beginning of the First Five Year Plan (1)	At the end of the First Five year Plan (2)	At the end of the Second Five Year Plan (3)		(4)	(5)
45	42	H.W.C.S.	26	23,483	24,599
(All types)	(All types)	W.W.C.S	14	4,557	4,957
		Carpet Weavers	2	351	451
		Silk Weavers	5	442	522
		Total	47	28,833	30.529

Co-operative Farming:

During the Second Plan Period three Co-operative Collective Farming Societies were organised and registered at Namapur, Jillella and Vempalle Venkatraopet. After some time the Jillella Co-operative Collective Farming Society was deleted on account of its non-functioning on co-operative lines. The membership and the paid up share capital of the other two Collective Farming Societies stood at 87 and Rs. 1,555 respectively by the end of the Second Plan Period. The Namapur Society possessed lands to the extent of 118 acres and 5 guntas of which 25 acres is wet. The Vempalli Venkataraopet Collective Farming Society was assigned Government waste lands measuring 170 acres in 1958-59.

Housing:

Under the low income and the middle income group housing schemes 5 Co-operative Housing Societies were organised and registered at Karimnagar, Sirsilla, Huzurabad and Peddapalli in the district during the Second Five Year Plan Period. Loans amounting to Rs. 2,33,438 were advanced for construction of 62 houses to the above 5 Societies during the Second Plan Period.

Co-operative Marketing:

Co-operative Marketing aims at the development of the activities of the Co-operative Marketing Societies by marketing agricultural produce and by providing storage facilities to the agriculturists. There are seven Co-operative Marketing Societies which are located at the seven revenue taluk headquarters of this district *viz.*, Karimnagar, Jagtial, Sirsilla, Metpalli, Sultanabad, Huzurabad and Manthani.

With a view to strengthening the financial position of these societies and to increase their borrowing capacity the Government have contributed the following amounts towards their share capital on matching basis upto the end of the Second Plan period.

		Rs.
Co-operative Marketing Society	Karimnagar	65,000
do.	Jagtial	30,000
do.	Sirsilla	65,000
do.	Metpalli	45,000
do.	Huzurabad	30,000
do.	Sultanabad	13,000
do.	Manthani	18,000
	Total	2,66,000

The following statement gives particulars of the Government assistance in the form of loans and subsidy to the various Co-operative Marketing Societies in the district for the provision of godown facilities :

STATEMENT IX-5

Name of the Society	Type of godown sanctioned	Financial Assistance (in Rs.)			
		Sanctioned		Released	
		Loan	Subsidy	Loan	Subsidy
(1)	(2)	(3)	(4)	(5)	(6)
Co-operative Marketing Society, Karimnagar	Main	18,750	6,250	9,375	3,125
	Auxiliary	7,500	2,500	3,750	1,250
	do.	7,500	2,500	3,750	1,250
	do.	7,500	2,500	3,750	1,250

Co-operative Marketing Society, Manthani	Main	18,750	6,250	9,375	3,125
	Auxiliary	7,500	2,500	3,750	1,250

In addition to the above the Large Sized Co-operative Societies, the Rural Banks in the district were also sanctioned financial assistance for the construction of godowns and share capital contribution on matching basis was also made in view of the large areas of operation comprising 4 to 10 villages each. The following two statements furnish the details :

STATEMENT IX-6

Share Capital contribution

		Rs.
Large Sized Co-operative Society,	Manakondur	10,000
do.	Ghatduddnapalle	10,000
do.	Husnabad	10,000
do.	Metpalli	10,000
Rural Bank	Nagnoor	7,500
	Total	47,500

STATEMENT IX-7

Name of the Society	Type of godown sanctioned	Financial Assistance (in Rs.)			
		Sanctioned		Released	
		Loan	Subsidy	Loan	Subsidy
(1)	(2)	(3)	(4)	(5)	(6)
Rural Bank, Mulkanoor	Main	22,125	6,375	22,125	6,375
Large Sized Co-operative Society, Venkapalli, Saidapur	Main	15,000	5,000	7,500	2,500

Rural Bank, Elgaid	Rural	15,000	5,000	7,500	2,500
Large Sized Co-operative Society, Husnabad	Main	15,000	5,000	7,500	2,500
Large Sized Co-operative Society, Ghatduddnapalli	Main	15,000	5,000	7,500	2,500

Financial assistance was also given to the Co-operative Marketing Societies on a sliding scale of pay for three years towards salary of the Senior Inspector at the rate of one for each deputed to work as Secretaries during the Second Plan Period.

Processing Plants :

For enabling the Co-operative Marketing Societies to undertake processing work, these Societies at Karimnagar, Jagtial, and Huzurabad were given financial assistance by the Government for the installation of three processing plants. The following statement furnishes the particulars.

Name of the Society	Type of plant sanctioned	Financial assistance sanctioned (in Rs.)	Financial assistance released (in Rs.)
(1)	(2)	(3)	(4)
Co-operative Marketing Society, Karimnagar	Groundnut decorticator	1,25,000	62,500
Co-operative Marketing Society, Jagtial	Rice & Oil Mill and Groundnut decorticator	82.000	82,000
Co-operative Marketing Society, Huzurabad	Rice & Oil Mill	1,85,000	1,85,000

The Co-operative Marketing Society, Huzurabad has purchased a Rice and Oil Mill at Uppal and the activity of the mill is confined to the hulling of paddy. The Co-operative Marketing Society of Karimnagar has submitted proposals to the Regional Joint Registrar of Co-operative Societies, Secunderabad for the sanction of a Rice Mill in addition to the groundnut decorticator sanctioned and for the release of the balance financial assistance of Rs. 62,500. The plans and estimates for the construction of a Rice and Oil Mill of the Co-operative Marketing Society, Jagtial have not yet been approved.

Milk Supply Societies :

During the Second Plan Period 4 Co-operative Milk Supply Societies were organised and registered at Sirsilla, Nagulmalyal, Ranipur and Damera villages. The Co-operative Milk Supply Society of Sirsilla was sanctioned Government loans to the tune of Rs. 4,950 for the purchase of milch animals by its 33 members at the rate of Rs. 150 per member. The membership and the paid up share capital of the above 4 societies stood at Rs. 193 and 358 respectively by the end of the Second Five Year Plan Period.

The following statement gives particulars of the targets and achievements (Financial and Physical) during the first three years of the Third Five Year Plan Period.

STATE

CHAPTER X

F O R E S T S

"In the economy of nature, forests are of the utmost importance. But with the spread of industrial civilization and the rapid growth of population, unhappily forests tend to disappear. We are apt to forget that in so far as this happens, we are upsetting that economy of nature and doing injury to man. I am pained when I see a noble tree, which has taken long to grow and spread out in all its majesty, cut down by careless hands. There should be a strong feeling among our people to prevent this vandalism. If such cutting down becomes unavoidable, we should develop a convention that it should be replaced immediately by planting two trees.

I hope that the vital importance of forests will be fully realised." [1]

General History:

The forests of Karimnagar district are rich in composition and nature has endowed this district with one of the most valuable forests in Andhra Pradesh. This is more so due to the fact that the most predominant timber species found in this district is Teak, the universal wood. The forests of this district are not only valuable but they are rich in flora and fauna and both are richly represented in Manthani taluk.

The area of the forest division is 3,17,387 acres. This Division extends over parts of two Revenue districts of Karimnagar and Warangal. Till recently there was only one Forest Division in Karimnagar district but due to increased departmental works and vast jurisdiction, the composite Karimnagar Division is divided into Karimnagar East and West Divisions. The headquarters of Karimnagar East Division is at Warangal and that of Karimnagar West Division at Karimnagar itself. This Division is bounded in the north and the east by Godavari river, in the south by Warangal and Medak districts and in the west by Nizamabad district. The total area under forests forms about 25% of the total geographical area of the district.

Composition and condition of the Forests:

The forests of this Division consist of different species of which teak forms the most predominant species. The commercially valuable and economically important species commonly found are Tectona grandis (Teak), Pterocarpus marsupium (Bijasal), Terminalia tomentosa (Maddi), Xylia dolabriformis (Bojja), Anogeissus latifolia (Tirman), Lagaerstromia parviflora (Chennangi), Dalbergia latifolia (Rose wood), Chloroxylon sweitenia (Satin), Boswellia Serrata (Anduk), Diospyros melanoxylon (Abnus or Tunki), Hardwickia binata (Eppa).

In addition to the above, various other minor forest produce like beedi leaves, grasses, lac, honey, seeds *etc.*, are also found, out of which considerable revenue is realised. By far the most important revenue fetching products are timber and beedi leaves.

Forest types :

The following main forest types are met with in this Division :

1. Teak forests having teak trees from 10% to 30% and above in the area
   (a) Pure teak type having 30% and above of teak trees.
   (b) Mixed teak type having 10% to 30% of teak trees found in Jagtial and Manthani taluks.
2. Mixed forest having less than 10% of teak trees found in Manthani taluk
   (a) Nallamaddi type having 30% and above of Nallamaddi found in Manthani taluk
   (b) Eppa type having 30% and above of Eppa trees found in Manthani taluk
   (c) Sundra type having 30% and above Sundra trees found in Manthani taluk
3. Bamboo type found in Manthani, Sirsilla and Jagtial taluks
4. Scrub and understocked
5. Blanks

Fauna :

Some of the common wild animals found in this Division are mentioned below.

1 Pandit Jawaharlal Nehru

Bison : Not plentiful but few herds have been reported in Singaram and Tadcherla Blocks of Manthani taluk.

Tiger : Very common. It is common to hear of cattle lifters in every season almost all over the Division.

Sambur : It is very common in Manthani and Jagtial taluks.

Spotted deer : Very commonly found all over the Division.

Blue bull or Nilgai : Is found all over the Division.

Indian Sloth bear : Common all over the Division.

Wild boar : Is found everywhere.

Panther : Found all over the Division.

In addition to the above, various other animals like jungle sheep, barking deer, four horned antelope, hare, porcupine, langur, jungle fowl and peacock are very commonly seen.

How the forests meet the wants of the local population :

Lambadas who are professional cattle breeders graze their cattle in Government forests. It must be stated here that the forest exploitation operations in this district greatly help the local population by providing opportunities for employment in the felling logging, carting of timber and also the collection of minor forest produce. It is a common sight to see almost the entire village population young and old going to the forests for the collection of beedi leaves during the months of April and May. The villagers are poor and at present their wants are not many. The local people depend on the forests for the following requirements.

Timber : Mainly used for construction of huts, cattle sheds, fences, carts, and agricultural implements. Big timber is in great demand in the cities of Warangal and Hyderabad.

Fuel : There is a great demand for fuel in the towns of Karimnagar, Peddapalli, Jagtial, Ramagundam and Warangal.

Bamboos : There is a very great demand for bamboos for making different types of baskets and allied industries.

Grasses : Thatching grasses are in great demand by rural population and all their requirements are met from the forests. Fodder grasses are also in great demand but they are not cut for stall feeding but are only meant for grazing the cattle.

Teak leaves : In Jagtial and Sirsilla taluks tender leaves of teak are used as cattle fodder.

Grazing : There is a great demand for grazing of local and imported cattle in the Reserve Forests.

Minor Forest Produce : Flowers of Mohwa, fruits of Abnus Chiranji, Ber, Anwala, Kaweet and other edible fruits are eaten by the villagers.

There are no special industries within the Division which depend mainly on forest produce except beedi manufacture. The forest produce of this Division is sent to Hyderabad, Vijayawada, Warangal, Rajahmundry, Madras and Bombay by lorries, railway and by Godavari river.

Abnus leaves : This is an important minor forest produce and is a source of large revenue to the Forest Department. Large quantities of this produce are exported to Madras and other places in South India. A substantial quantity of the produce of Jagtial and Sirsilla taluks is consumed by the beedi factories of Nizamabad and Karimnagar districts.

Tassar silk : This is an old industry for which Nallamaddi leaves are required for cultivation of silk worms. At present there is one Tassar Silk Industrial unit in Mahadevpur of Manthani taluk under the control of the Industries Department.

Management :

The forests of this Division are managed under the following systems:

1. Coppice with reserve system
2. Improvement fellings
3. Conversion series
4. Eppa working system
5. Sundra felling series for manufacture of 'Katha'

Forest Staff:

Karimnagar district consists of two Forest Divisions, namely, Karimnagar West Division and Karimnagar East Division and each division is under the control of a Divisional Forest Officer. The following are the details of Executive and Ministerial staff in both the Divisions.

I. Administrative :

1. Divisional Forest Officer, Karimnagar West
2. *Divisional Forest Officer, Karimnagar East*

II. Executive staff :

1.	Range Officers	9
2.	Deputy Range Officers	12
3.	Foresters	24
4.	Forest Guards	170

III. Ministerial staff :

1.	Head clerks	2
2.	Upper Division Clerks	4
3.	Lower Division Clerks	19
4.	Draughtsman	2
5.	Peons	24
6.	Treasury Guards	4

Forest Buildings :

The following statement gives the various categories of buildings under the control of the Forest Department of this district.

1.	Range Officer, Quarters	2
2.	Forest Rest Houses	18
3.	Forest Guard, Quarters	24

Forest Roads :

The following are the Forest Roads in Karimnagar district :

	Name of Road	Length
1.	Tundla to Rampur	12 miles in Manthani taluk
2.	Kaleshwar to Mahadevpur	10 miles in Manthani taluk
3.	Eklaspur to Gopalpur	8 miles in Manthani taluk
4	Ellareddipet to Garjanapalle	12 miles in Sirsilla taluk

Development :

The Godavari forests of Karimnagar district have an inherent potentiality of yielding good timber. Constant fires, neglect of cultural operations, large scale exploitation due to great demand, have collectively proved to be the factors deterrent to the existence and further development of forests. Fortunately the forests of this Division are brought under scientific management in recent years and many works which had been hitherto neglected due to various reasons have been taken up earnestly and much progress has been made and this tempo is expected to be maintained in the future years.

All these years the area and quantity of forest produce that was exploited were not commensurate with the area that was brought under artificial regeneration. The normal conservancy grants were not adequate enough to carry out developmental works. Luckily the development schemes under the Second and the Third Five Year Plans have come to the rescue for taking up long felt and neglected operations. Under the Second and Third Five Year Plans the following artificial regeneration and other developmental works were carried out in this district and many works are in progress.

Second Five Year Plan :

		Physical achievements	Expenditure Rs. P.
1.	Artificial Regeneration of teak	250 acres	30,000.00
2.	Construction of Forest road	10 miles	33,000.00
3.	Purchase of Jeep with trailer	1	14,538.00

Third Five Year Plan (From 196.-62 to 1964-65) :

1.	Artificial Regeneration of Teak	1,000 acres
2.	Afforestation Schemes	148 acres
3.	Quick Growing Species (Bamboo Plantation)	200 acres
4.	Eucalyptus plantations	25 acres
5.	Cultural operations (Thinnings in old coupes)	40 coupes
6.	Construction of Forest Road	10 miles
7.	Strengthening of Territorial Staff-Reorganisation :	
	Range Officer ...	1
	Deputy Range Officer ...	4
	Foresters ...	5
	Forest Guards ...	20
	Upper Division Clerks ...	4

The following works are proposed to be carried out during 1965-66 *i.e.*, the last year of the Third Five Year Plan in both the Divisions.

1.	Artificial Regeneration of Teak	850 acres
2.	Afforestation Schemes	50 acres
3.	Quick Growing Species	100 acres
4.	Construction of Forest Roads	10 miles
5.	Construction of Forest Roads	5 miles

From the above it is evident that the tempo of works is being increased from year to year to keep up sustained yield in future years. It is also proposed to bring large areas under artificial regeneration especially under teak during the Fourth Five Year Plan Period.

Revenue and Expenditure :

The following statement gives the details of the Forest Revenue and Expenditure from 1959-60 to 1963-64 :

STATEMENT X–1

(1)	1959–60 (2)	1960–61 (3)	1961–62 (4)	1962–63 (5)	1963–64 (6)
	Rs. P.	Rs. P.	Rs. P.	Rs. P.	Rs. P.
	Receipts				
Timber ...	18,42,022.64	17,56,730.85	25,38,190.90	22,32,165.20	15,06,187.05
Bamboo ...	1,000.00	1,275.00	1,650.00	6,000.00	4,300.00
Beedi leaves ...	5,67,001.50	14,01,387.89	12,56,611.50	13,87,932.21	4,87,125.82
Grazing ...	74,487.00	73,647.25	78,798.25	70,986 00	60,879.50

Fines ...	...	16,095.27	6,887 50	4,111 95	5,073.68
Compensation ...	71,775.75	1,23,375.43	85,129.19	70,747 49	1,02,897.11
Other sources ...	16,639 82	6,929.58	25,304.94	6,929.58	12,355.71
Revenue through Revenue Department ...	17,173 83	1,017.42	...	...	...
Total Receipts	**26,11,337.16**	**34,20,389·94**	**40,30,972.61**	**38,45,714.30**	**22,05,744.17**
	Expenditure				
10. C. Establishment	1,63,285.92	2,19,809.46	2,03,341.45	2,39,002.75	1,71,117.35
10. B. Conservancy & Works	59,663.75	35,938.50	93,824.95	1,77,043.47	88,407.81
Plan	45,110 42	5,900.00	6,042.86	42,569 78	29,794.10
Total Expenditure	**2,68,060.09**	**2,61,647.96**	**3,03,209.26**	**4,58,616·00**	**2,89,319.26**

Note : The Revenue furnished for the year 1963–64 related to Karimnagar West Division only, to which Rs. 24 lakhs may be added pertaining to Karimnagar East Division. Thus the total revenue comes to Rs. 46,00,000/-. Similarly an amount of Rs. 3,00,000/- may be added to the expenditure relating to Karimnagar East Division. Thus the total expenditure for the year 1963–64 comes to Rs. 6,00,000/-.

CHAPTER XI

PANCHAYATI RAJ

Historical Retrospect:

Local Boards did not exist in the erstwhile Nizam's Dominions till the forties of this century. The Hyderabad Village Panchayats Act of 1940 was the first enactment relating to Village Self-Government and under this Act 442 Panchayats were established. The functions and scope of these Panchayats were very limited under the monarchical form of Government. They were nominated bodies and were not 'representative' as we understand its meaning to-day. The resources of these local bodies were also insufficient.

After the Police action and the merger of the Nizam's Dominions in the Indian Union the elected Government repealed the Act of 1940 and enacted the Hyderabad Village Panchayats Act, 1951. Under this Act, elections to Village Panchayats were held for the first time on the basis of adult franchise. The Government, however, retained the right to nominate some members including those of the Scheduled Castes. A village having a population of over 1,000 but below 5,000 was considered normally as suitable for the establishment of a Village Panchayat. There was, however, a provision to group together villages, if necessary, for this purpose. There was a provision in the Act for the delegation of Gram Panchayat powers to Rural Reconstruction or Co-operative Societies, though in actual practice, very few Rural Reconstruction Societies were so empowered. The functions of Village Panchayats were limited and were divided into obligatory and discretionary. As was the case during the Nizam's regime, even under the popular Ministry the resources of the Village Panchayats were grossly insufficient to meet even the limited power conferred on them. An enabling provision was made in the Act to provide for a Government grant upto 15 per cent of the land revenue of the village and also 1/3rd of the local cess as contribution from the District Board. The Act also authorised the Panchayats to levy certain taxes and collect fees. In actual practice, however, the Government did not pay 15 per cent of the land revenue to the Panchayats. In many cases this contribution did not exceed 7 per cent. The Act had provided for the constitution of Nyaya Panchayats but in actual practice none was constituted. In the very first year 1,224 Village Panchayats were constituted under the Act, but the process was stopped in the following year because of lack of finances. The sum total of all these efforts was that little was achieved. After a lapse of two years, the State Government once again undertook the constitution of Panchayats in 1955. In that year another 1,500 Panchayats were constituted bringing the total number of Panchayats to 2,724.

After the Local Self-Government Ministers Conference held at Simla in 1954, the State Government re-examined the entire issue. It was considered that the then existing enactment was defective and insufficient to fulfil the desired objectives. Sri Gopal Rao Ekbote, the then Minister for Local Self-Government and now a Justice of the Andhra Pradesh High Court, summarised the main features of this system as follows:

(i) It was not properly elective or representative

(ii) It was administrational and not self-governing

(iii) It was concerned with too narrow a range of the activities of the community

(iv) The boundaries were not drawn with reference to social requirements but purely on geographical grounds.

Another Act known as the Hyderabad Gram Panchayat Act was enacted in 1956 which was an improvement over the earlier enactment.

This Act considerably enlarged the powers and functions of the Gram Panchayats and added to their resources. Its main features are described below:

Panchayats are to be constituted for villages with a population of not less than 1,000 and not more than 5,000. The Government can group a number of villages for the purpose. In special cases, however, Panchayats can be constituted for villages with less than 1,000 population or with more than 5,000 population. All adult persons of a village, whose names are included in the list of voters, constitute the Gram Sabha. At least two meetings of the Gram Sabha must be held every year to consider the annual statement of accounts, a report on the work done by the Panchayat in the preceding financial year, and a programme of work for the next year.

A village is divided into constituencies for the purpose. The representation of each constituency on the Gram Panchayat is on the basis of one Panch for every 150 of the population, provided that the total number of Panches in the Gram Panchayat shall in no case be more than 12 or less than 6. Seats are reserved in the Gram Panchayat for Scheduled Castes and Scheduled Tribes on the basis of their population. The Panches, so elected, then elect a Sarpanch and an Upa-Sarpanch from amongst themselves in their first meeting. The term of office of the Panches is for three years, commencing from the date of the first meeting of the Gram Panchayat. The Government, however, has the power to extend the term of office by one year. The Gram Panchayat has the power to remove a Sarpanch by a 2/3rd majority and an Upa-Sarpanch by a bare majority.

The Sarpanch presides over Gram Panchayat meetings, as also Gram Sabha meetings and is responsible for the conduct of day-to-day administration of the Panchayat. The Gram Panchayat must meet at least once a month. The quorum must not be less than one-half of the Gram Panchayat membership.

Novel feature :

There is a provision for the appointment of a *Karobari* who will be incharge of preparing and maintaining assessment lists, essential statistics, accounts and records, and will be entitled to recover dues on behalf of the Gram Panchayat. He will be the main Executive Officer, responsible for implementing all decisions of the Gram Panchayat. He is appointed by the Collector, but the Gram Panchayat has the power to remove him for misconduct or negligence of duties by a two-third majority.

The duties, functions and powers assigned to the Gram Panchayat fall broadly into the following three classes :

(i) *Compulsory duties*
(ii) Discretionary functions
(iii) Transferred functions

These functions together cover a very wide field of activities. The Gram Panchayats can perform these functions subject to their resources and local requirements. In addition to the functions specified under the Act, the State Government has the power to delegate such functions as it may deem fit.

The statutory functions of the Panchayats can be considered under the following heads :

(i) Administrative
(ii) Civic
(iii) Social
(iv) Economic and Development
(v) Statistics
(vi) Judicial, and
(vii) Police

The Act provides for the vesting of the management of public property and other community buildings in the Panchayat. Gram Panchayats have not taken up the task of collection of land revenue, taxes and fees on behalf of the Government, though there is an enabling provision to that effect in the Act. This will enable the Government to gradually eliminate the system of *Vatandari*. Land revenue collection is at present done by *Patels* and *Patwaris*. The Panchayats may also maintain the land records which at present are being maintained by village officers.

Civic functions include village sanitation, public health, water supply, transport and communications and building bye-laws. The Panchayats have the powers to lay down rules and standards for sanitation and can impose penalties for their non-observance. There is provision for street drains and general drainage arrangements. Panchayats can construct public lavatories and bathing places. Other Civic functions of the Panchayats are the following; filling up of unused wells, insanitary ponds, pools, ditches, hollows or pits; maintenance of public wells and tanks; preventing pollution of drinking water; maternity and child welfare; control of epidemics and contagious diseases; other medical facilities; control over slaughter houses; setting up of hospitals and dispensaries; construction and maintenance of village roads, streets, cart stands, market-places and *Dharmasalas*.

The social functions of Panchayats, relate to the following; education, recreation, social welfare, development of libraries and reading rooms, organisation of fairs and public festivals, *Akhadas*, removal of untouchability, discouraging gambling and drinking, prevention of child marriage, steps for the reduction of wasteful expenditure on marriages, funerals *etc.*

The powers conferred on the Gram Panchayats under the Act touch various aspects of rural economy, *e.g.*, agriculture, animal husbandry, subsidiary and cottage industries, marketing and co-operative movement, *etc.* Under agriculture are included supply of better seeds and manure, improvement of livestock, arrangements for co-operative and collective farming, control of pests and diseases, construction and

supervision of minor irrigation works *etc.* The Panchayats can also arrange for the cultivation of common lands, lands under Government management, and lands which the owners are not able to cultivate. The object of the State Government is to make the Gram Panchayat the mainstone for the development of rural economy.

The Panchayats under the Act have been assigned the duty of collection and maintenance of vital statistics. They are required to help in population and livestock Census and in the compilation of data on crops and agriculture.

Judicial aspect:

According to the Act, every village shall elect five members to act as Nyaya Panches for a Nyaya Panchayat established for a village, and to form a panel of Nayaya Panches for Nyaya Panchayats established for a group of villages. A person elected to the Nyaya Panchayat has to be a permanent resident of the village, and should be able to read and write. Nyaya Panches cannot be members of the Gram Panchayat. The Nyaya Panches elect a Pradhan and an Upa-Pradhan. The term of office of Nyaya Panches is three years, but the Government can extend the term by one more year. The Nyaya Panches are required to take oath of office. Panches guilty of misconduct and irregularities can be removed.

The Nyaya Panchayats have been vested with civil, criminal and revenue powers. They can try offences of a minor nature. In addition, they can try offences entrusted to them by the Government. They can order a person to furnish security for the maintenance of peace. They can refer some intricate cases to the Munsif's Court.

Regarding civil suits, Nyaya Panchayats shall have jurisdiction to hear a suit for money due on contracts except in respect of moveable property or for the value thereof. They have further jurisdiction to hear cases regarding damages to moveable property and suits under the Cattle Trespass Act. The monetary jurisdiction of the Nyaya Panchayat has been fixed at Rs. 100/-. The Government, however, can raise the pecuniary jurisdiction of any Nyaya Panchayat to Rs. 500/-. The villagers are entitled, under the Act, to refer for award any of their disputes of whatever value, to the Nyaya Panchayats for arbitration. Some of the disputes under the Hyderabad Record of Rights and Regulations and the Hyderabad Tenancy and Agricultural Lands Acts can be tried by the Nyaya Panchayats.

Conciliation Boards, and Village Volunteer Force:

A novel feature of the Hyderabad Act is the constitution of Conciliation Boards in the Gram Panchayats. Each party to the dispute can select one Panch from among those who are elected members of the Gram Panchayats, and the third person on the Board is the Sarpanch or the Upa-Sarpanch. It has been specifically provided in the Act that no Nyaya Panchayat shall take congnizance of any dispute unless a certificate of failure of conciliation proceedings in respect thereof has been produced. It is expected that thus many disputes will be settled and there would be no need to go to Nyaya Panchayats.

The Act lays down detailed procedures for the conduct of Nyaya Panchayats. These are purposely kept very simple. No legal practitioner can appear before the Nyaya Panchayat. The parties, however, can be represented by agents. Fines imposed by Nyaya Panchayats, if not paid within the specified time, can be realised with the help of superior authorities. The Munsiff-Magistrate or the Deputy Collector, has been authorised to revise any decision of the Nyaya Panchayats. In spite of the above provisions no steps were taken to establish either Nyaya Panchayats or Conciliation Boards.

The Act authorises the Village Panchayats to constitute a Village Volunteer Force for Watch and Ward, and to assist the Gram and the Nyaya Panchayats in the discharge of their functions, the services of summons and notices. The Government can empower a Gram Panchayat to take measures for maintenance of law and order and prevention of crimes in the village. The Panchayat is authorised to appoint a *Chowkidar*, also called a *Kotwal* in the Act, and one or more as his assistants for this purpose. He is in-charge of the Watch and Ward section of the Gram Panchayat, and has the right to arrest without a warrant any person who is a proclaimed offender, or has been concerned in any cognizable offence, or is in possession of stolen property or is a deserter from the army. The *Kotwal* has also the obligation to inform the nearest police station of suspicious or sudden deaths or possible disputes.

Sources of Revenue:

The Act provides for the constitution of a Panchayat Fund. The Gram Panchayat Fund consists

of all the accumulated balances of the Gram Panchayat, all sums of taxes, tolls, fees authorised to be levied under the Act, and all interests and profits arising from any Gram Panchayat investment or transaction, and also all fees and fines payable under the Act. Compensation received by the Gram Panchayat under the provisions of the Act, gifts or deposits of private individuals or institutions and loans raised by the Gram Panchayat are also treated as parts of the Panchayat Fund.

The other sources of Revenue of Panchayats are aids and grants from the Government and Local Boards. The Government's contribution is 15 per cent of the land revenue of the village and also 50 per cent of the local cess collected in the village under the District Boards Act.

The obligatory taxes to be imposed by the Panchayats are: (i) Property tax, (ii) tax on professions, trades and callings, (iii) vehicle tax, (iv) a tax on transfer of immovable property. The discretionary taxes are: (i) pilgrim tax, (ii) general water tax, (iii) entertainment tax, (iv) animal tax, (v) toll tax and other fees.

Section 86 of the Act authorises the Gram Panchayat, after obtaining the sanction of the Gram Sabha, for a specific period and a specific purpose, to levy a cess at the rate of two annas on every rupee of land revenue. The Gram Panchayats can borrow after obtaining the sanction of the Government.

The Act provides for the preparation of annual budgets by the Gram Panchayats and lays down the procedure for its approval. The then District Boards were authorised to approve the budgets. The accounts have to be submitted to the Gram Sabha.

The Act empowers the Gram Panchayats to introduce compulsory manual labour for purposes of public utility. The approval of the Gram Sabha has to be obtained. The Gram Panchayat can specify the labour to be performed. A person is free to get labour assigned to him performed on his behalf by another person, or pay for its performance at such rates as may be determined by the Gram Panchayat. The Act prescribes penalty for non-performance of labour.

The former District Boards had general powers of supervision over the Gram Panchayats. The Collector, the President of the District Board, District Panchayat Officer, Deputy Collector, Tahsildar, or any other officer authorised by the Government can inspect any property or work undertaken by the Panchayats. The Collector has the power to stop a Panchayat from undertaking any work considered undesirable or improper. The Government has the power to dissolve a Panchayat for repeated dereliction of duty, but the grounds of dissolution have to be communicated to the Gram Panchayat which has to be given time to show cause against the proposal. In the period of dissolution, the District Board has the obligation to perform Panchayat functions in the village. Immediate steps have to be taken for the reconstruction of a Panchayat after its dissolution.

Thus the Hyderabad Gram Panchayats Act reveals that the erstwhile Government of Hyderabad have been very bold in conferring extensive rights on the Panchayats. In actual practice most of the provisions remained only on the Statute Book and not implemented.

The Village Panchayats have gained more importance with the introduction of the Panchayati Raj administration from 1959.

Growth of Community Development Programme in the district :

The central core of philosophy of Community Development is to create a strong desire on the part of the people for a better standard of living and to help to achieve their new goals largely on the principles of self-help and self-reliance. The Community Development Programme was introduced in this district for the first time at Metpalli on 2-10-1954 as a Community Project. Subsequently a Stage II Block was started at Gangadhara on 1-4-1955 and Stage I Block at Bheemadevarapalli on 1-4-1956. The movement gained momentum during the Second Five Year Plan Period and by the end of this plan period there were 14 Stage I, Stage II and Pre-Extension Blocks in the district covering an area of 2,888.77 sq. miles and benefiting a population of 913,241 persons spread over in 730 villages. During the Third Five Year Plan Period *i.e.*, by 1-4-1964 the movement gained further impetus in the district as this activity was extended to a population of 1,377,759 persons covering an area of 4,153.20 sq. miles in 1,059 villages. The following statement furnishes details of the number and names of the Blocks that were in existence in the district on 1-4-1964 and also their dates of inception, the number of villages covered by each *etc.*

STATEMENT XI-1

	Name of Block	Date of inception	Present stage	No. of Villages in the Block	Area in square miles
	(1)	(2)	(3)	(4)	(5)
1	Sultanabad	2-10-1957	I	48	69,519
2	Vemulawada	1-4-1958	I	57	76,420
3	Mallial	1-4-1958	I	47	67,692
4	Husnabad	2-10-1958	I	40	67,461
5	Narmal	1-4-1959	I	63	74,994
6	Koratla	2-10-1959	I	41	54,531
7	Kalleda	1-4-1960	I	61	69,168
8	Peddapalli	2-10-1960	I	35	62,452
9	Mahadevpur	2-10-1960	I	84	41,796
10	Kamanpur	1-4-1961	I	55	58,037
11	Huzurabad	1-4-1961	I	38	72,361
12	Sirsilla	1-4-1961	I	53	77,420
13	Jagtial	2-10-1961	I	46	45,069
14	Jammikunta	1-4-1962	I	49	80,597
15	Nustlapur	1-4-1962	I	38	67,081
16	Julapalle	2-10-1962	I	50	63,573
17	Metpalli	2-10-1954	II	57	66,104
18	Gangadhara	1-4-1955	II	52	70,334
19	Bheemadevarapalli	1-4-1956	II	45	76,557
20	Karimnagar	2-10-1956	II	48	70,410
21	Manthani	2-10-1957	II	52	46,183

During the recent delimitation of the Blocks the above number was reduced to 14 in this district with effect from 1-7-1964 *viz.*, Karimnagar, Husnabad, Gangadhara, Huzurabad, Bheemadevarapalli, Mahadevpur, Metpalli, Jagtial, Mallial, Vemulawada and Sirsilla.

In order to make the people feel more responsible in their developmental programmes and constructive activities the Government have introduced the three tier system of Panchayati Raj *viz.*, the Village Panchayat at the village level, the Panchayat Samithi at the Block level and the Zilla Parishad at the district level. The Panchayat Samithis were constituted in this district on 1-11-1959 and the Zilla Parishad on 1-12-1959 on a statutory basis. After the introduction of democratic decentralisation at the District, Block and Village levels respectively the responsibility and initiative in economic and social development in the rural areas rested with these popular institutions, the Zilla Parishad, the Panchayat Samithi and the Village Panchayat. As the Panchayats have to play an important role in the various developmental programmes the need not only to constitute the Panchayats for all the villages but also to strengthen their administration was keenly felt. For this purpose Divisional Officers were given the assistance of suitable ancillary staff. The Zilla Parishad is entrusted with the heavy responsibility of Community Development and Planning in addition to Secondary Education, maintenance and formation of roads *etc.*, in the district.

During the Second and Third Five Year Plans greater importance was given to the uplift of the Scheduled Castes and Scheduled Tribes and other Backward Classes, development of cottage industries, education, in addition to agricultural programmes as usual. In general, agricultural production is proposed to be increased to the optimum during the Third Five Year Plan Period in order that self-sufficiency is attained. It is hoped that the targets will be achieved by the end of the Third Five Year Plan Period as programmed.

In order to have a uniform legislation for the entire State instead of having two separate Acts *i.e.*, the Hyderabad Gram Panchayats Act in the Telangana area and the Village Panchayats Act in the Andhra area, the Government have brought forward an integrated Bill for Panchayats in the State *viz.*, the Andhra Pradesh Gram Panchayats Bill, 1963, which has been passed by both the Houses of Legislature. The good points from both the enactments have been incorporated in the integrated Bill.

CHAPTER XII

GAZETTEER

KARIMNAGAR TALUK

Karimnagar taluk is the largest populated taluk in this district. The total population recorded at the 1961 Census is 335,609 persons as against 302,172 persons in the previous Census count of 1951. The taluk is extended over an area of 720.0 sq. miles and altogether it has 179 villages out of which only one village is uninhabited.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	4
200—499	16
500—999	32
1000—1999	73
2000—4999	50
5000—9999	3
10000 and above	...
Total inhabited villages	178

The three villages having more than 5,000 population are Choppadandi (5,988), Kothapalle (Haveli) (5,545) and Manakondur (5,830). The places of interest among these villages are described in the succeeding pages.

The taluk is bounded on the north by Jagtial taluk, on the south by Medak district, on the east by Sultanabad and Huzurabad taluks and on the west by Sirsilla taluk. The river Manair, one of the chief tributaries of the Godavari flows through this taluk from west to east unharnessed. Therefore irrigation is facilitated by minor irrigation sources such as tanks, kuntas and wells and is precarious as rain water is stored in tanks and kuntas and then taken away through canals for the purpose of cultivation. Sometimes crops are not successfully raised as they are entirely dependent on the vagaries of monsoons. The taluk contains as many as 1,632 minor irrigation sources but ayacuts under these are mostly single crop fields. The taluk has a predominant agricultural population. The total number of Agricultural Workers in the rural portion of this taluk is109,004 persons out of which 67,553 persons are cultivators and 41,451persons are agricultural labourers. Majority of the workers thus live by cultivation as their main occupation. Paddy is the staple food crop raised. The taluk enjoys a moderate climate and the average rainfall is about 870 mm.

This taluk does not have Railway communications and has to entirely depend on road transport. Besides the Hyderabad-Balharshah road, a State Highway, some major district roads also pass through this taluk. The Road Transport Corporation and several private transport services ply to all the taluk headquarters in this district from Karimnagar and also to the neighbouring district headquarters, such as Nizamabad, Adilabad, Warangal and Medak. Being the headquarters of the district, Karimnagar has telephone and telegraph facilities besides a Head Post Office. There is a Civil Hospital, Unani Dispensary and an X-ray plant in Karimnagar. The taluk contains two Primary Health Centres, one at Kothapalle and the other at Husnabad. In the villages people have to depend on wells for drinking water. At Karimnagar town there is a well laid out protected water supply system. The Shanigaram irrigation project in the taluk is of some importance.

In the sphere of education, there is a Government College, one Multipurpose High School and two High Schools in Karimnagar town. Besides these, several big villages of the taluk such as Husnabad, Ramadgu, Nusthulapur, Bejjanki, Kothapalle and Manakondur contains High Schools and almost all villages in the taluk have Primary Schools.

The taluk is not very forward industrially. There is a B. B. Zarda (Scented tobacco) factory at Kothapalle, which manufactures Zarda on a large scale which finds a ready market in several important places in Andhra pradesh. The Handloom industry at Karimnagar is rapidly making headway despite stiff competition from mill made cloth. The taluk has a few popular cottage and small scale industries like the filigree, spinning, weaving, tanning and carpet weaving.

At Elgandal there is a mosque built in the fort which is of great historical importance. The mosque was built by Zafar-ud-doula about 1754 A.D., with minarets that oscillate when shaken. On the plain at the foot of the hill there is also an Idgah constructed with lofty minarets. There is a famous temple of Lord Siva at Nagnur village of this taluk.

Some of the more interesting places in this taluk are briefly described below:

Karimnagar—a City Municipality and the biggest town in the district is supporting a population of 31,544 persons as per the 1961 Census. It is the headquarters of the district and has the usual compliment of district and taluk offices and officers. The town is extended over an area of 4.10 sq. miles and the denstiy is 7,696 persons per sq. mile. It has 6,174 occupied residential houses as at the 1961 Census.

Karimnagar is not connected by the Railway. Peddapalli and Jammikunta Railway stations on the Kazipet-Wardha Broad Gauge line of the Central Railway passing through its adjoining taluks, namely Huzurabad and Sultanabad are the two nearest Railway Stations at a distance of about 20 miles and 25 miles respectively. Peddapalli Railway Station is connected by the Hyderabad-Balharshah State Highway and the Jammikunta Railway Station is connected by the Karimnagar-Warangal district road and both these are accessible by regular bus service. The Post Office in this town is provided with telegraph and telephone exchanges.

As regards medical facilities the town contains a Government Civil Hospital, a T. B. Clinic, a Unani Hospital, a Christian Mission Hospital besides a District Veterinary Hospital. The offices of the District Health Officer and the Malaria Health Officer are located here. It has protected water supply under the control of the City Municipality but it badly lacks underground drainage system. However, a scheme is under execution.

Karimnagar being the headquarters of the district has developed into an important centre of education. It has a Government College, one Multipurpose High School and two High Schools out of which one is intended for girls. In addition to these a Middle-*cum*-High School and several Primary Schools serve the educational requirements of the local children.

The town is provided with a Municipal Travellers' Bungalow and an Inspection Bungalow maintained by the Public Works Department.

Choppadandi—situated at a distance of about 10 miles to the north of Karimnagar on the Karimnagar-Lakshettipet road is the largest populated village in the taluk and has a population of 5,988 persons as per the 1961 Census count. It occupies an area of 10.04 sq. miles and has 1,140 occupied residential houses.

Choppadandi is primarily an agricultural village. The total number of Agricultural Workers of this place is 1,404 persons. Paddy is the staple food crop raised with tanks and wells as their irrigation sources. These sources being precarious, crops are not always successfully raised as a result of which quite a large number of farmers and labourers are not fully employed throughout the year. Owing to its convenient location on the district road a regular bus service connects this place with the district headquarters which provides direct urban contacts. There is an Ayurvedic Hospital, a Zilla Parishad Middle School, a Post Office and a Reading Room in this village. Handloom weaving is the major cottage industry of the people which provides subsidiary occupations to the agriculturists during off seasons.

Manakondur—situated at a distance of about six miles towards the south-east of Karimnagar is the second largest village in the taluk and has a population of 5,830 as per the 1961 Census count. The village extends over an area of 7.68 sq. miles and it has 1,186 occupied residential houses in all. It is also essentially an agricultural village. The majority of the population live by cultivation as their main occupation. The total number of Agricultural Workers of this place is 1,557 persons out of which 934 persons are Agricultural Labourers and 623 persons are cultivators. Irrigation is facilitated mostly by wells. The village is accessible by a regular bus service as it is situated on the Karimnagar-Warangal district road. There is a Government Hospital, a Veterinary Hospital and a Post Office in this village. Besides these, there is a Higher Secondary Basic Training School.

Kothapalle (Haveli)—situated at about four miles towards north-west of Karimnagar is a fairly big village with a population of 5,545 persons according to the 1961 Census count. The village extends over an area of 6.21 sq. miles and it comprises of 1,049 occupied residential houses altogether. People live by cultivation as their main occupation. Irrigation is facilitated by minor irrigation tanks and as such crops have no protection against the vagaries of monsoons. B.B. Zarda Factory is located in this village. Quite a large number of people in this village are engaged in Household Industry. Post and Telegraph facilities are available. It contains a Zilla Parishad High School.

Elgandal Fort—is situated about 3 miles north of Karimnagar, the headquater of the district, to which it is connected by a pucca road. The fort is built on a hill round the base of which a moat 18 ft. deep and 57 ft. wide has been cut. Beyond the moat is the scarp, rising to a height of 24 ft. from the bed of the moat and defended by massive bastions, some of which are 42 ft. high. The only entrance is through an arched gateway whence a circuitous passage leads into a Court. Within the enclosure steps are built which lead to the crest of the hill. The ascent is rather tiring, for, at certain points the hill is very steep. The summit of the hill must have been the original stronghold of the early period while the bastions and walls were built at a later period. The present defences of the fort are apparently of the Muslim period, and at the crest of the hill there are a Baradari and a mosque both built in the Qutub Shahi style. The Baradari has two floors, each comprising a square hall with three arched openings on each side. The mosque is built close to the Baradari. On account of the transfer of the seat of the district from this place Elgandal has dwindled into a village but the place is still strewn over with antiquities.

Bindraban Tank—on the outside of the eastern gateway of the Elgandal Fort, there is a tank known as the "Rajajiki-Bowli". This tank was built by Rai Bindraban during the period of Aurangzeb. Bindraban was a well known historian of Aurangazeb's time. The manuscript copies of "Lubul Tawarik" of which Bindraban is the author are available in India and are also preserved at the British Museum. It is a General History of India from the time of Shahabuddin Ghori to 1101 Hijri. Brindraban's father, Bhara Mal, received the title of Rai in the 20th year of Shahjehan's reign and was appointed as the personal Dewan of Prince Dara Shikoh son of Shahjehan. Bindraban says that he received the same title from Aurangzeb, which facts are corroborated in the Elgandal inscription. There is a small mosque near the tank built by Bindraban.

Mansoorkhan Masjid—inside the northern gate of the Elgandal Fort there is a mosque called "Mansoor Khan Masjid". It was constructed by Abdul Fateh (Mansoor Khan was a title given to him by Sultan Quli Qutub Shah) during the period of Sultan Quli Qutub Shah in 931 Hijri. Later in the reign of the late Nizam one Mr. Haji Syed Qasim, native of Elgandal completely reconstructed it. There is an inscription inside the mosque in which the name of the founder has been written in Arabic.

Tombs of Muslim Saints—the area near about Elgandal and Karimnagar is famous for the Nazars (Tombs) of Muslim saints. But unfortunately no detailed information is available. Therefore a few names of the saints are given below:

Syed Shah Munawar Qadri Saheb
Ali Moinuddin Saheb
Syed Masthan Shah Saheb
Doolah Shah Saheb
Syed Maroof Saheb
Syed Murthuza Saheb
Sahebaz Saheb
Shah Talib Bismilla Saheb
Wali Hyder Saheb

Every year on the 11th and the 12th of Moharrum an annual Urs of these saints is celebrated by the Hindus and the Muslims together with great respect. People from far and near villages participate in the celebration of Urs.

Nagnur Temples—Nagnur or Nignur as it is also locally known, is now a small village about six miles to the north-east of Karimnagar. It derives its name from the fact that there were 400 temples in it at one time. The telugu word "Nalgunoorlu" for four hundred was corrupted to "Nagnur". Even to-day there are two good temples—one of Vishnu and the other of Siva. From the numerous remains of temples now found there it would appear to have once been a place of some importance. The principal monument in Nagnur is a big Siva temple. It is triple-shrined, like the great Hanamkonda temple and is very much like those in the Chalukyan style of the Deccan, star-shaped in plan, having the entrance on the north. There are projections on the other three sides each enclosing an ante-chamber and a shrine. The extreme length, north to south, and width, east to west, of the temple is 100 ft. each way. It stands on a platform 4′-6″ high and 6′-6″ deep. All around red stone has been used freely for the exterior, which even in its present ruined condition offers a pleasing appearance. For the walls, beams and ceiling, in the interior and for the pillars, jamb and lintels, as well as for the floorings, ordinary grey granite has been used. The jambs and lintels of the doors of the ante-chambers and shrines are all finely sculptured with four handed male dwarapalakas and female chowri-bearers and other figures of various sizes. One of the female figures on the left jamb of the

ante-chamber of the western shrine carries a child on her left hip which is very realistic. Large lotuses with pendant buds are carved in the great ceiling stones in the mandap, ante-chambers and shrines. Slightly to the north-east of the big temple, and on the other side of the road running north to south is another ruined temple, with an open hall supported by a number of pillars, four of which, forming a square mandap in the middle, are of a close-grained black stone and highly polished.

SIRSILLA TALUK

Sirsilla taluk situated in the extreme west of the district is bounded on the north by Metpalli and Jagtial taluks, on the east by Karimnagar taluk, on the south by Medak district and on the west by Nizamabad district. It occupies an area of 721.9 sq. miles and has a population of 258,303 persons as per the 1961 Census count. The taluk is situated 1,000 feet above sea level. The climate is fair and the average rainfall is 800 mm. The taluk has a forest area of 75,683 acres and the soil is mostly chalka. In the thick forest belts of this taluk valuable teak is grown.

Sirsilla is the headquarters of the taluk. This taluk has 173 villages out of which four villages are uninhabited.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	...	7
200—499	...	19
500—999	...	42
1000—1999	...	68
2000—4999	...	32
5000—9999	...	1
10000 and above	...	...
Total inhabited villages	...	169

Gambhirraopeta (5,757) is the only village in this taluk having more than 5,000 population.

Majority of the people in this taluk live by cultition as their main occupation. The total number of Agricultural Workers in the rural portion of this taluk is 90,496 persons out of which 57,988 persons are Cultivators, while the rest 32,508 persons are Agricultural Labourers. As such agriculture is the major occupation of the taluk. The river Manair flows for 35 miles through this taluk. Irrigation is carried on mostly under the Manair and the Gorantial projects. Tanks, kuntas and wells are also useful as minor irrigation sources.

This taluk is not connected by railways and as such it has to depend on road transport only. Sirsilla, Vemulawada and Gambhirraopeta are some of the important places in this taluk and have one Sub-Post Office each. Gambhirraopeta Sub-Post Office is not connected by Telephone and Telegraph exchanges.

As regards medical facilities, there are two Civil Dispensaries one at Sirsilla and the other at Chandurthi. The Rajarajeswari Temple Committe maintains a private Dispensary at Vemulawada town. Besides these there are Health Centres, Unani Dispensaries and Ayurvedic Dispensaries at various places in the taluk. There is no protected water supply system in the entire taluk. People generally drink well water. The taluk contains a famous place of pilgrimage at Vemulawada which attracts a large number of devotees. There is an old fort at Anantagiri on a hill in a ruined condition. It is said to have been built by the Kakatiya Kings of Warangal. The important places of interest in the taluk are briefly described below :

Sirsilla—Town Municipality, is the headquarters of the taluk and has a population of 15,466 according to the 1961 Census count. It is situated at a distance of about 25 miles west of Karimnagar town on the bank of the river Manair which is one of the tributaries of the river Godavari. It is located on the Kamareddy-Karimnagar district road on which buses ply regularly. The town contains the usual offices of a Tehsil. There is a Munsiff-Magistrate's Court, a Sub-Registrar's Office, a Police Station, a Forest Range Office and a Post Office with telegraph exchange besides several Public Offices. A Government Hospital and a Government Unani Hospital are constructed here which provide medical relief not only to the people of this town but also to those of the entire taluk. There is a Government Veterinary Dispensary which looks after Animal Health Services. Handloom weaving is the major cottage industry which attracts and absorbs a considerable number of workers. A Municipal Park and a Government Reading Room are the other amenities available. There is no protected water supply system in the town. People observe the jatara of Sri Venkateswaraswamy with great interest and reverence.

Vemulawada—is situated at a distance of about seven miles to the north-east of Sirsilla. It is a Town Municipality and supports a population of 7,420 persons as per the 1961 Census count. The town

extends over an area of 0.74 sq. miles and in all it comprises 1,465 occupied residential houses. The density is 10,027 persons per sq. mile. The town is a sacred place of pilgrimage for Hindus and owes its importance to its famous temple of Lord Siva. Every year a festival is held in February to March on Shivarathri in which a large number of Hindu devotees participate. People believe that worship and fasting on such a holy day and night, without going to sleep leads to salvation after death. Vemulawada is a town of temples. There are famous temples of Sri Rajeshwaraswamy, Sri Bhimeswaraswamy, Sri Nageswaraswamy, Sri Kedareshwaraswamy *etc.* Out of these the Rajeshwar and the Bhimeshwara temples attract greater number of tourists. An Extract from the article "Rajarajeswara shrine at Vemulawada" by Sri P. Srinivasa Rao, published in "The Hindu" dated Sunday, the 24th January 1965 is reproduced below :

"It is said that once Narada during his sojourns on the earth, saw the untold sufferings of mankind due to their sins, and taking into his mind to uplift these people, approached Mahadeva in Kailas and expressed his desire. On the request of Narada, God Siva came down to Kasi and not satisfied at that place manifested himself at this abode of peace and tranquility in the form of Sri Rajarajeswara. According to Puranas, since God Siva chose this place as his abode, it has become a sacred place. There is a saying in Telugu that one going to Vemulawada will not go to Hell.

Indra, after killing Vrutrasura, went about visiting sacred temples to purify himself of the sin of killing and unable to see purity at any of these places, he asked the Devaguru to tell him the name of a sacred temple and on learning from him he visited this Rajarajeswara Temple, took a bath in the sacred waters of Dharma Kunda Lake and by his great devotion to Sri Rajarajeswara attained the purity he desired.

After God Siva incarnated himself in the form of Sri Rajarajeswara at this place, Parvathi also settled herself near her consort in the form of Sri Rajarajeswari Devi. God Vishnu also established himself here along with his consort Lakshmi in the form of Sri Ananthapadmanabhaswami. Several other gods also made this place their abode and made this temple most sacred. The sacred Ganga also manifested herself here in the form of Dharma Kunda.

The Dharma Kunda Temple is the most famous one here. The principal deity here is Sri Parvathi Rajarajeswara Swamy. Many curative properties are ascribed to the Dharma Kunda Lake. It is said that the steps to this famous lake were constructed by Sri Rajaraja Narendra.

The temple of Ananthapadmanabhaswami is located in front of this temple. In another, the Balarajeswara Temple, there is Balarajeswara lingam, which is said to have been worshipped by Arjuna.

It is said that a Muslim by name 'Rajabhose' came riding on a tiger and cut off the horns of Nandi and the nose of the Devi here in a bid to show his prowess to Sri Rajarajeswara Swamy, and in the process he lost his life and his body and the body of the tiger were buried in front of the eastern gate of the temple on the orders of Sri Rajarajeswara and a round stone was placed over the grave which is known as 'Vallu Banda' !

The main temple of Sri Rajarajeswara is divided into three portions. The first portion on the entrance from the eastern gate is used for worship. A little farther are situated a pair of Nandis. To the left of the deity Sri Rajarajeswara Swamy is the idol of Ganapati. Here Ganapati is not seen as a bachelor but along with his consort. This idol is very beautiful and a feast to the eyes. A little farther to this is an open place and touching this open place is a room in which the idol of Rajeswara used for utsavas is placed. A little further off is the Rajarajeswara lingam.

The shrine of Sri Rajarajeswari Devi is to the right side of the main temple. In this the idols of Ganapati and Rajarajeswara are found. There is another temple of Sri Ananthapadmanabhaswami. At the entrance to this is the idol of Nataraja. This temple is in three portions; in the innermost of which the idols of Ananthapadmanabhaswami and Lakshmi Devi are found.

The Kodandarama shrine is adjacent to that of Sri Ananthapadmanabhaswami. On the entrance to this temple is the idol of Gajalakshmi. The idols of Rama, Lakshmana, Bharata, Satrughna and Sita Devi are very beautiful. Facing this shrine is the idol of Anjaneya with beautiful sculptural work. The temple of Sri Kasi Visveswara is to the left side on the way from Rajarajeswara temple to Ananthapadmanabhaswami temple. In this temple, there is a Jyotirlinga known as Kasi Visveswara lingam and due to this, this place is known as Dakshina Kasi.

There is another shrine that of Bheemeswara. It is said that Sri Rama had visited it during his *vanavasa* and the Pandavas realised their desires by worshipping this Bheemeswara".

Besides these there is a tomb of a Muslim saint which is also regarded as sacred by the Hindus. The Temple Endowment Office maintains a private Dispensary. A Touring Veterinary Dispensary caters to the animal health services of this locality. Post and Telegraph facilities are available here. There is a Zilla Parishad High School in this town. It has no protected water supply system, therefore, people drink water drawn from wells.

Gambhirraopeta—the largest village in the taluk and is situated at about 15 miles to the south-west of Sirsilla and supports a population of 5,757 persons as per the 1961 Census count. The village covers an area of 5.05 sq. miles. It has 1,224 occupied residential houses. Cultivation is the main occupation for a large number of people in this village. All people, however, do not own land. The total number of Agricultural Workers of this place is 1,825 persons, out of which 1,156 persons are Cultivators and the rest 669 are Agricultural Labourers. The village is served by minor irrigation sources such as tanks and canals. Paddy is the main crop grown. There is a Police Station, a Sub-Post Office, an Inspection Bungalow and a Government Unani Hospital in the village. There is also a Zilla Parishad High School.

Malagnur Fort—is situated in a small village 36 miles from Kazipet on the road to Karimnagar. It lies at the foot of some hills at the top of one of which is an old fort. It was constructed many years ago by Raja Pratapa Rudra of Warangal. The hill is rather steep and it is a stiff climb to the fort. At a certain part of the ascent, across a sloping rock, the visitor has to take off his shoes and climb as there is no regular path. Everything is in ruins inside the fort. There are two roofless houses, two square magazines, and an old fashioned gun on a bastion to the east. There is an opening on a huge rock on the east, dark and forbidding, in which there is a small Dargah, reported to be that of Malang Shah Wali. This Dargah is held in esteem both by Muslims and Hindus, who light lamps on some stones close by in fulfilment of vows taken. At the foot of the hill fort there are a few tombs, one of them is said to be of an old Qiladar of the fort. The fort itself is now of little importance though in the olden days it would have been a hard task for the enemy to attack it with any chance of success, as access to it could be had only from one side, that is the east, which is well protected with defensive works, while on the other sides there are only the precipitious faces of the rocky hill, affording no foot-hold whatever for climbing.

METPALLI INDEPENDENT SUB-TALUK

This taluk covering an area of 368.0 sq. miles and supporting a population of 143,625 persons according to the 1961 Census is bounded by the river Godavari on the north, Jagtial taluk on the east, Sirsilla taluk on the south and the Nizamabad district on the west. There are altogether 96 villages out of which 3 villages are uninhabited.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less shan 200	
208–499	8
500–999	28
1000–1999	36
2000–4999	18
5000–9999	Nil
10000 and above	Nil
Total inhabited villages	93

All these villages have been placed under the three revenue circles *viz.*, Metpalli, Koratla and Sirkonda.

The river Godavari flows along the northern boundary of this taluk. Except this, none of the big rivers flow through this taluk. No other river of any consequence and useful for irrigation flows through this taluk. The Yakinpur project in this taluk is serving only Koratla and Yakinpur villages. After the completion of the Pochampadu project across the Godavari it my have considerable expansion of irrigation as the main canal will pass through about 17 villages of this taluk. At present irrigation is facilitated largely by minor irrigation sources such as tanks, kuntas which depend on the vagaries of monsoons. The soil is made up of three varieties *i.e.*, chalka, black cotton and marshy. The chalka soil is best suited for karif and commercial crops. Paddy, jowar and maize are the cheif food crops grown in this taluk.

Communication facilities are poor. It is not connected by Railways. Only one major district road passes through this taluk connecting it with Nizamabad and Karimnagar towns. There is a fair-weather road from Maidpalle to Varsakonda covering a distance of about seven miles. There are two Sub-Post Offices, one at Metpalli and the other at Koratla and both of them provide Telegraph and Telephone facilities.

The entire taluk comes under the two Panchayat Samithis *viz.*, Metpalli and Koratla. Metpalli Samithi maintains a Primary Health Centre at Ibrahimpatan village and is manned by one qualified doctor, two lady Health Visitors and a Compounder. Besides this, there is also a Civil Hospital at Metpalli the taluk headquarters. Under the Koratla Panchayat Samithi, there is a Government Unani Hospital at Koratla. People of this taluk drink water normally drawn from wells. Education facilities are also on the increase. Every village now has an Elementary School. Metpalli and Koratla have one Zilla Parishad High School each. The taluk is famous for the Khadi and Beedi industries out of which Khadi is rapidly making head-way despite stiff competition from Mill cloth and it is further interesting to note that Metpalli ranks as one of the largest Khadi production centres in India.

A few places of interest in the taluk have been briefly described below :

Metpalli—is a Town Municipality and also the taluk headquarters. It is situated at a distance of about 55 miles towards the north-west of Karimnagar. According to the 1961 Census the total population of this place is 7,862 persons. The town extends over an area of 6.03 sq. miles and in all it has 1,661 occupied residential houses. The density is 1,304 persons per sq. mile. Nizamabad to Karimnager road connects this place with the district headquarters and there is a regular bus service. It is not connected by Railways. The town contains a Civil Hospital, a Veterinary Centre, a Police Station and a Sub-Post Office. As regards industries Metpalli is known for Khadi production and beedi manufacture. A few thousand labourers are employed in Khadi industry alone. There is a Senior Basic Training School and a Girls' Primary School. A weekly Market is held on every Tuesday.

Koratla—is the second largest Town Municipality in the district and is situated at about 45 miles from Karimnagar on the Nizamabad - Karimnagar road towards east of Metpalli with a population of 11,780 persons according to the 1961 Census count. The town extends over an area of 8.85 sq. miles and in all it has 2,533 occupied residential houses. It lacks proper drainage facilities. People drink water drawn from wells. The town contains a Police Station, a Sub-Post Office and an Inspection Bungalow besides a Government Unani Hospital and a Veterinary Hospital. There is a Zilla Parishad Middle-*cum*-High School and a Girls' Primary School. The Government Library and the Municipal Park are the modern amenities available. Here, weaving and beedi manufacture are the popular Small Scale Industries which absorb quite a large number of workers.

JAGTIAL TALUK

Jagtial taluk with an area of 677.8 sq. miles and a population of 239,065 persons according to the 1961 Census is bounded on the east by Sultanabad taluk, on the south by Karimnagar and Sirsilla taluks on the west by Metpalli Independent Sub-Taluk and on the north by the river Godavari. The density is 353 persons per sq. mile. In all it has 155 villages out of which only one village is uninhabited.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	4
200-499	21
500-999	44
1000-1999	50
2000-4999	31
5000-9999	4
10000 and above	...
Total inhabited villages	154

The four villages having more than 5000 population are Kodmiala (5,730), Raikal (5,141), Dharmapuri (6,383) and Mallial (5,029). The places of interest among these villages are described in the succeeding pages.

These villages have been placed under the five revenue circles of Bhoopathipur, Buggaram, Jagtial, Gollapalli and Mallial. It is covered by the three Panchayat Samithi Blocks of Jagtial, Mallial and Kalleda.

This taluk is not drained by any worth mentioning river. The river Godavari flows on the northern boundary of the taluk all along which can

be noticed thick forests. These forests have a luxuriant growth of valuable teak. The climate of this taluk is moderate and the average rainfall is 900 mm. Towards the northern and eastern side of this taluk the soil is of black cotton variety and covers about 50 villages. The soil in the rest of villages of the taluk is mostly chalka. There is a project called the Laxminarasimhasagar but yet a major portion of this taluk is irrigated mostly by minor irrigation sources such as tanks, kuntas and wells. Hence crops are exclusively dependent on rainfall for its water supply. Paddy, maize and jowar are the chief food crops grown besides chillies which is an important condiment and commercial crop. Castor and green-gram are raised at times as mixed crop to suit the weather conditions and to avoid unforeseen losses, if any, owing to the uncertainty of monsoons.

As regards communication facilities, a major district road passes through this taluk on which the Andhra Pradesh Road Transport Corporation and other private buses ply regularly. Except this no other communication facilities are available in this taluk. A road from Jagtial to Dharmapuri is under construction. A famine road from Jagtial to Raikal is also under way.

As regards medical facilities, there is a Government Hospital at Jagtial. In addition to this a Primary Health Centre and an Unani Dispensary are located at Mallial. At Dharmapuri there is an Unani Dispensary. The Kodimial Panchayat Samithi contains an Ayurvedic Hospital. Further, there are a few private practitioners of modern medicine at Jagtial. People of this taluk drink water drawn from wells.

As regards educational facilities, this taluk contains 182 Primary Schools, 4 Higher Secondary Schools, one Multipurpose High School and 7 Middle Schools. There are also two Basic Training Schools, 6 Girls' Primary Schools and 12 Junior Basic Training Schools.

Handloom weaving is the major cottage industry of this taluk. It provides subsidiary occupation to the agriculturists during the off season. There is a Co-operative Society at Jagtial which not only supplies raw material but also provides an organised market and thereby avoids the middlemen's profits. The All India Khadi and Village Industries Board provides the necessary financial assistance which is of some consequence. Beedi manufacture is another important industry in Jagtial. There are three beedi factories at the taluk headquarters which provide employment to about 1,200 women. Besides these, several other small scale and cottage industries are rapidly making headway. At Kodimial there is a brass vessel industry. Poodur is popular for cutlery industry and Namalikonda for 'deshi' blankets. Jagtial manufactures bricks which often find ready market. The silver and gold work performed at Jagtial is a class by itself.

Some of the more interesting places in this taluk are described in brief below :

Jagtial—is the second largest City Municipality in the district and is the headquarters of the taluk. It supports a population of 20,941 persons according to the 1961 Census count. The town extends over an area of 3.54 sq. miles and the density is 5,916 persons per sq. mile. There are 4,130 occupied residential houses altogether. The Karimnagar-Nizamabad road connects this place with the district headquarters on which buses ply regularly and is at a distance of about 32 miles from Karimnagar in the north-westerly direction.

Jagtial was once famous for silk sarees and scarfs woven by the traditional weavers but the industry is not in a flourishing state now. The town contains quite a number of Handloom Centres known for Khadi, despite severe competition from the Mill made cloth. The All India Khadi and Village Industries Board is providing necessary financial assistance in order to place the industry on its feet. There is an old fort to the north of the town in a ruined state. The past glory of the fort dates back to 1747 A. D. This is said to have been constructed for Zafar-Ud-daula by French Engineers in the style of the Nirmal fortifications. Jagtial contains the usual offices of a Tahsil, a Munsiff's Court besides a Civil Hospital, a Veterinary Hospital and a Public Park but it lacks protected water supply and underground drainage systems. The Post Office in this town is connected by Telegraph Exchange. A Zilla Parishad Multipurpose High School serves the educational requirements of the local children. Here a weekly market is held on every Thursday. There is a Municipal Travellers' Bungalow and an Inspection Bungalow maintained by the Public Works Department.

Dharmapuri—is situated on the bank of the river Godavari at a distance of about 17 miles north of Jagtial and is the largest populated village in this taluk and has recorded a population of 6,383

persons according to the 1961 Census count. The village extends over an area of 7.78 sq. miles and it comprises 1,367 occupied residential houses. People in this village live by cultivation as their main occupation. There are 839 Cultivators and 812 Agricultural Labourers. Paddy, and Jowar, are the chief food crops raised with the aid of tanks and kuntas which are precarious sources as they are entirely dependent on monsoons. Dharmapuri is in the interior of the taluk and as such the place is not easily accessible. It is connected by a fair weather road on which private buses ply from Jagtial. There is a Post Office, a Police Station, an Unani Dispensary, a Veterinary Hospital, and a Zilla Parishad Middle-*cum*-High School in this village. It contains a temple of Sri Lakshminarasimhaswamy. Here a Weekly Market is held on every Saturday.

Kodimiala—is the second largest village with a population of 5,730 persons as per the 1961 Census count and is situated at a distance of about 13 miles south of Jagtial. The Nizamabad-Karimnagar District road passes by the side of the village which is connected by a Public Works Department approach road. Kodimiala extend over an area of 6.11 sq. miles and in all it contains 810 occupied residential houses. Here cultivation is the main occupation for a large section of people. The total number of Agricultural Workers of this place is 2,011 persons out of which 1,104 persons are Cultivators while the rest 907 persons are Agricultural Labourers, including both males and females. Paddy, Maize and jowar are the chief crops raised and irrigation is facilitated by tanks and kuntas which are minor irrigation sources. There is a Police Station, a Forest Range Office, an Unani Hospital and a Zilla Parishad Middle-*cum*-High School in this village. Here a Public Works Department's Inspection Bungalow is also located.

Mallial—this has a population of 5,029 persons according to the 1961 Census and is situated at a distance of about 8 miles south of Jagtial by the side of Nizamabad-Karimnagar Road. The village extends over an area of 7.55 sq. miles and it has 1,001 occupied residential houses. Here agriculture is the major means of livelihood for a large section of people. In fact the total number of Agricultural Workers is 1,438 persons which includes both Cultivators and Agricultural Labourers. Irrigation is facilitated by minor irrigation sources such as tanks, wells, and kuntas which are precarious. It contains a Block Development Office, a Post Office, a Health Office and a Primary School. Besides these there is a Government Hospital and a Veterinary Hospital. As regards Small Scale Industries Handloom Weaving is the only popular industry which is rapidly progressing. It provides employment not only for weavers' section but also to some of the people who cannot go out and withstand hard manual labour. During the off season it provides subsidiary occupation to agriculturists.

Raikal—is situated at a distance of about 10 miles towards the north-west of Jagtial and has a population of 5,141 persons according to the 1961 Census. The village occupies an area of 7.18 sq. miles and there are altogether 1,061 occupied residential houses. It is connected by the Jagtial-Nizamabad Public Works Department road. Agriculture is the major occupation in this village. The total number of Agricultural Workers of this place is 1,528 persons out of which 1,210 persons are Cultivators, and the rest are Agricultural Labourers. The village is served by tanks, and kuntas. Paddy is the chief food crop raised. There is a Post Office, a Panchayat Office and a Primary School in this village.

SULTANABAD TALUK

The taluk is bounded on the north by the river Godavari on the east by the Manthani taluk on the south by the river Manair and on the west by Karimnagar and Jagtial taluks. It covers an area of 706.6 sq. miles. According to the 1961 Census count the total population of this taluk is 278,051 persons and the density is 394 persons per sq. mile. There are altogether 188 villages in this taluk out of which 4 villages are uninhabited.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	10
200—499	19
500—999	42
1000—1999	77
2000—4999	35
5000—9999	1
10000 and above	...
Total inhabited villages	184

The only village, Ramagundam (5,581) in this taluk is having more than 5,000 population.

All these villages have been placed under the seven revenue circles of Sultanabad, Madaram, Chegaon, Ramagundam, Kamanpoor, Peddapalli and Konaram.

The river Godavari flows along the northern boundary and the river Manair along the southern boundary of the taluk yet both of them are not used for irrigation in this taluk. Irrigation is facilitated in this taluk only by small sized projects known as the Bandlavagu and Chegaon. The soil is made up of black cotton and chalka. Paddy, jowar and maize are the chief food crops grown, and agriculture is the major economy in the taluk. The total number of agricultural population in the rural portion of this taluk is 73,543 persons, out of which 52,468 persons are Cultivators while the rest (21,075) persons are Agricultural Labourers. The climate is of the extreme type. The average rainfall is 36". Major forest areas are lacking in this taluk but jungles almost stunted in growth are found scattered at various places.

As regards communication facilities, the Kazipet-Wardha Broad Gauge line of the Central Railway traverses through this taluk with railway stations at Polkapalle, Kolanur, Peddapalli and Ramagundam. The Hyderabad-Balharsha State Highway passes through this taluk which connects it with the district headquarters. The taluk contains Government Hospitals at Sultanabad-Kolanur, Ramagundam and Peddapalli. People drink water drawn from wells. At Ramagundam there is protected water supply system. The Godavari Mine of Singareni Collieries and Ramagundam Thermal Station provide employment a considerable number of persons. At Kamanpur there is an old Ramgir Fort built during the Kakatiya reign. Sultanabad was the taluk headquarters till recently and Peddapalli has now been made the taluk headquarters-vide orders issued in G. O. Ms. No. 1700 Revenue Department dated 31-12-64.

A few places in this taluk which are of interest and importance are described below:

Sultanabad—was the taluk headquarters till the beginning of 1965, it is situated to the south-east of Karimnagar at a distance of about 15 miles. The Hyderabad-Balharsha State Highway passing through this place connects it with the district headquarters. It covers an area of 6.00 square miles and altogether it comprises 879 occupied residential houses. The place is still rural in character and complex. According to the 1961 Census the total population of Sultanabad is only 4,458 persons. Agriculture is the major means of livelihood for a large section of people. There is a Police Station, a Munsif Magistrate Court, a Travellers' Bungalow, a Government Hospital and a Veterinary Hospital in this village. Post and Telegraph facilities are available in this place.

Peddapalli—the new taluk headquarters is the third largest Town Municipality in the district and supports a population of 11,712 persons as per the 1961 Census count. The town extends over an area of 4.00 square miles and in all it has 2,362 occupied residential houses. Peddapalli is a Railway Station on the Kazipet-Wardha Broad Gauge line of the Central Railway. The Hyderabad-Balharsha State Highway passes through this town and is at a distance of about 20 miles from Karimnagar. As it is the nearest railway station to the district headquarters and the only meeting place of Railway and the Highway, the importance of Peddapalli cannot be over emphasized. It gives stimulus to trade and commerce in so far as it provides better and quicker transport and communication facilities and expands in an urban complex as far as it sustains the population. The town contains a Government Hospital, a Police Station, a Public Works Department Bungalow and important Government Offices like those of the Revenue Divisional Officer, Sub-Registrar, Commercial Tax Officer, Postal Inspector, Excise Inspector and Labour Inspector.

Ramagundam—situated at a distance of about 40 miles north-east of Karimnagar on the banks of river Godavari is the largest populated village in this taluk, which recorded a population of 5,581 persons as per the 1961 Census count. The village extends over an area of 6.33 square miles and in all it comprises 1,248 occupied residential houses. Majority of people in this village are engaged in agriculture and its allied persuits. Wet paddy and jowar are the main food crops raised. Irrigation is facilitated by minor irrigation sources such as tanks, wells and kuntas which are precarious as they are not perennial in character.

Ramagundam, though only a village is important on account of its railway station on the Kazipet-Balharsha Broad Gauge line of the Central Railway and also on account of the location of the Electric Thermal Power Station here. This is the biggest thermal power producing station in the State. The power station went into production from the 24th of February, 1952. The power output has been increased from 37.5 MWs to 100 MWs by the end of the Second Plan Period. The power produced here is supplied to the Mancherial Cement factory and to

Karimnagar, Hyderabad, Warangal and Kagaznagar Towns.

There is a Civil Hospital, a Police Station, and a Post Office which is connected by Telegraph Exchange. A Zilla Parishad Middle School serves the educational requirements of local children. The town contains a famous temple of Hanuman. A weekly market is held on every Sunday and this is by far the busiest day of the week.

There is a very comfortable guest house for use by the visiting Government officers.

MANTHANI TALUK

Manthani is the least populated taluk in the district. According to the 1961 Census count, the total population of this taluk is 98,350 persons. The taluk lies towards the north-east of Karimnagar district. The headquarters of the taluk Manthani, is situated about 42 miles away from the district headquarters. The taluk is bounded on the north by the river Godavari, on the south by Mulug taluk of Warangal district, on the west by Sultanabad taluk and on the east by the Madhya Pradesh State. It occupies an area of 834.5 square miles and the density is 118 persons per square mile. The taluk comprises of 143 inhabited villages and 27 uninhabited villages.

The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	29
200-499	47
500-999	40
1000-1999	22
2000-4999	5
5000-9999	Nil
10000 and above	Nil
Total inhabited villages	143

Manthani is prominent as the forest taluk of Karimnagar district. A very large area of 3,82,065 acres is under forests giving cover to wild animals. The river Godavari flows along the northern boundary of the taluk. Manair and Bokkala Vagu are the two important Rivers of the taluk which pass through many villages. The soil in this taluk is made up of mostly clay loams. Majority of the people live by cultivation as their main occupation. The total number of Agricultural Workers in the rural portion of this taluk is 39,297 persons out of which 21,109 persons are Cultivators while the rest *i.e.*, 18,188 persons are Agricultural Labourers. Irrigation is facilitated by tanks and kuntas which are all minor irrigation sources. The major food crops of the taluk are paddy, jowar and maize. Due to floods and recurrent rains, crops get destroyed in most of the villages. The taluk requires a large number of safeguards such as Dams, Reservoirs and canals not only to avoid damage by the rains but also to provide perennial supply of water for irrigation. The development of communications in this taluk is also equally essential. It is not connected by railways. The River Manair is not yet bridged which flows in full swing during rainy season as a result of which some of the interior parts of the taluk are cut off without regular communications. The headquarters of the taluk is connected by a Public Works Department road on which buses ply regularly.

The climatic condition of this taluk is of an extreme kind. In winter the climate is very chill and in summer it is very hot and dry. Here the average rainfall ranges between 800 to 850 mms. There are two Government Hospitals in the taluk; one is located at Manthani and the other at Mahadevpur and both of them are manned by fully qualified Medical men. Kotaram and Tadcherla have Ayurvedic Hospitals. Besides these several villages are covered by dispensaries manned by Rural Medical Practitioners which are useful to the people in rural areas. In almost all villages people drink water normally drawn from wells. But in some villages of Mahadevpur Block difficulties are being experienced in getting water during summer season.

All villages in this taluk are served by Primary Schools. There are 106 Primary Schools, 2 Basic Primary Schools, 22 Experimental Primary Schools besides a Girls' Primary School. At Manthani there is a Girls' High School and a Boys' High School. There are also High Schools at Tadcherla and Mahadevpur. These two villages are also prominent for Sericulture. At Mahadevpur there is an old fort popularly known as the 'Pratapgiri' which is said to have been built by Raja Pratapa Rudra of Warangal during the 13th century. Further it is interesting to note that this place is considered to be a holy spot as here the sage Gautama is believed to have performed his meditation (*Tapas*). There are several temples out of which Saileswar temple is the largest of all. There is an inscribed pillar attached to this temple. The inscription is in old Nagari script and refers to the Kakatiya King, Ganapati Deva of Warangal.

Manthani—is the headquarters of the taluk by the same name and is a fairly big Town Municipality with a population of 7,779 persons as per the

1961 Census count. It is situated on the banks of the river Godavari at a distance of about 45 miles from Karimnagar towards north-eastern direction. Manthani is not connected by railways but a district road which passes adjacent to it provides transport and communication facilities. Peddapalli, at a distance of 24 miles due west on the Kazipet-Balharsha Railway line, is the nearest railway station to Manthani. It lacks protected water supply system and proper drainage facilities. The town contains the usual offices of a Tehsil. There is a Munsif Magistrate Court, a Block Development Office, a Police Station and a Forest Range Office besides a Civil Dispensary and a Veterinary Hospital. The Post Office in this place is facilitated by Telegraph Exchange. A Zilla Parishad High School and a Girls' Middle School are located here. A Weekly Market is held on every Sunday where brisk business takes place.

Manthani Temples—The original name of Manthani according to the Brahmins was Mantrapurani and it is said to have once been a seat of learning and culture from which Hindu calendars used to be issued by the learned mathematicians. All that glory has now vanished. Even to-day there are a considerable number of Brahmins in the village and a few are known to be well versed in the vedas and the shastras. There are numerous ruins of old temples in the village, besides some modern ones which are used for worship. Manthani is considered to be a very holy place, as according to tradition, the sage Gautama used to perform his *tapas* (holy meditation) here and it is therefore also known as Gautamitatam. The important remains are those of the temples dedicated to Gautamesvar on the banks of the Godavari. From what is now left of this temple, it can very easily be assumed that it must have been a great and magnificent one and carved with fine and elaborate sculptures. Some portions of the original walls of the temple, which still remain, have been carved with the various Avataras (incarnations) of Vishnu and other Hindu deities. There seems to have been a mandap in front, the pillars and stones of which have tumbled down in a confused heap. Some portions of the temple proper are kept in a good state of repair. One of these is called Ramula Mandiram, where worship is carried on. Another portion is dedicated to Saraswathi (the Goddess of learning). Both these are used for worship. In Manthani itself there are the remains of more temples, which are called the Sileswara Gudi, the Siva Gudi, the Mahalakshmi Gudi, the Omkareswara Gudi and the Lakshminarayana Gudi. The largest of these is the Sileswara Gudi which has a *Sikhara* some what resembling that of any South Indian temple.

Kaleshwar temple—is one of the sacred temple in this district is situated in Kaleshwar village of this taluk and is gracefully perched on the banks of the confluence of the two rivers Godavari and Penganga. Legend has it that milk poured in a certain place in the temple miraculously flow into the river and is distinctly seen on the surface of the confluence.

HUZURABAD TALUK

Huzurabad taluk is bounded on the north by the river Manair separated from the Sultanabad taluk, on the east and south it is bounded by the Warangal district and on the west by the Karimnagar taluk. The area of this taluk is 560.0 sq. miles with a population of 268,512 persons according to the 1961 Census count and the density is 479 persons per square mile which is the highest in the district.

Agriculture is the major means of livelihood for a large number of people in the taluk. The total number of agricultural workers of this taluk is 100,925 out of which 62,518 persons are Cultivators while the rest 38,407 persons are Agricultural Labourers. Paddy is the chief food crop raised and irrigation is facilitated mostly by minor irrigation sources such as tanks and kuntas. The Kazipet-Wardha Broad Gauge line of the Central Railways passes through this taluk with its stations at Uppal and Jammikunta from which P.W.D. roads lead on to the district headquarters.

There are 132 inhabited villages in this taluk. The following statement shows the number of inhabited villages arranged according to the various population sizes.

Less than 200	2
200—499	5
500—999	18
1000—1999	50
2000—4999	54
5000—9999	2
10000 and above	1
Total inhabited villages	132

The three villages having more than 5,000 population are Kamalapur (5,174), Jammikunta (7,670) and Huzurabad (11,166). The places of interest among these villages are described in the succeeding pages.

There is a Hill Fort at Malangur village which is said to have been built 800 years ago by one of the Warangal Rajahs covering the summit of a great isolated granite hill. The fortifications consist of a high wall formed out of huge blocks of rough hewn granite. The village also possesses a site of Megalithic tombs in the form of stone circles. They are scattered over a wide area at the slopes of the hills. The number of stones in the circle varies from 8 to 16 with many missing. The slabs of the cists in the circles are mostly broken. Further, the place contains a Dargah of Malang Shah Wali which is held in great esteem by the Muslims and Hindus alike. The following are some of the important places in the taluk.

Huzurabad—is the headquarters of the taluk by the same name with a population of 11,166 according to the 1961 Census count. It is the largest populated village in the taluk. The village extends over an area of 12.42 square miles and altogether there are 1,979 occupied residential houses. Agriculture is the main stay for a large section of people. There are 2,175 Cultivators and 1,124 Agricultural Labourers. Paddy is the chief food crop raised with the aid of tanks.

Huzurabad situated at a distance of about 25 miles south-east of Karimnagar is not connected by railways but Uppal towards the east Jammikunta in the north of Huzurabad are the two nearest railway stations, at a distance of about six miles and 8 miles respectively are connected by district roads on which buses ply regularly. There is a Government Civil Hospital, a Veterinary Hospital, a Post Office, an Inspection Bungalow and a Zilla Parishad High School. A Weekly Market is held on every Thursday and people throng at the market place even from outlying farms. The place is known for cattle fair which is quite interesting.

Jammikunta—is situated at a distance of about eight miles to the north-east of Huzurabad. According to the 1961 Census count Jammikunta is the second largest village in the taluk which supports a population of 7,670 persons. The village extends over an area of 11.96 square miles and it has 1,091 occupied residential houses altogether.

Jammikunta owes its importance to its Railway Station on the Kazipet-Wardha Broad Gauge line of the Central Railways. It is also well connected by the district roads on which buses ply regularly. It contains a Government Hospital, a Post Office, an Inspection Bungalow and a temple of Ramaswamy. Here people live by cultivation as their main occupation and there are 996 Cultivators and 1,041 Agricultural Labourers. Paddy is the chief food crop raised and irrigation is facilitated by a tank. Hence, crops are not often successfully raised. A Zilla Parishad Middle-*cum*-High School in this place serves the educational requirements of the local children. There is an old fort which is said to have been built by Kakatiya Rajah of Warangal.

Kamalapur—is a fairly big village with a population of 5,174 persons as per the 1961 Census count, and is situated at a distance of about 14 miles east of Huzurabad. The village extends over an area of 5.08 sq. miles and in all it has 1,001 occupied residential houses. It is also primarily an agricultural village wherein a large number of people are engaged in Agriculture. In fact the total number of Agricultural Workers of this place are 1,091 persons out of which 537 persons are Cultivators while 554 persons are Agricultural Labourers. Paddy is the chief food crop raised through a tank which is not adequate enough as it is entirely dependent on rains. There is a Zilla Parishad High School, an Inspection Bungalow and a Post Office in this village. A cattle fair is held on every Tuesday which is quite interesting as a large number of buyers and sellers throng at the market place.

Uparpalli temple—a saivite temple at Uparpalli is a famous one in this district. The temple consists of a square hall with shrines and ante-chambers at the northern, western and southern ends. The architecture of the temple is rather plain and the carvings also are simple. In the northern shrine Ganesha is represented dancing, apparently exultant at his victory over an evil spirit who is shown prostrated at Ganesha's feet. Adjoining the temple in the southern direction there is an open hall with a shrine at its western side. The hall seems to have been built at a comparatively later period and the walls of the shrine are incomplete.

TABLE SERIES 11-IMPORTANT HISTORICAL EVENTS

TABLE 11.1—CALENDAR OF OUTSTANDING OCCURRENCES

(Historical and Religious events)

Month & year (1)	Nature of occurrence (2)
	Section I—Commonly known throughout the district
1858	Appearence of Comet
1872	Establishment of Amaldari
1879	Great Famine
1893	Solar Eclipse (dark during day; stars were seen during the day)
1895	Red storm
1897	Solar Eclipse
1898	Great Famine
1899	Abolition of Sarbastagiri Land Lords
1908	Flood in Musi river
1911	Death of Nizam
1912	Coronation of Nizam
1914	Great World War I
1917	Plague Epidemic
1919	Influenza
1920	Great Famine
1936-37	Aryasamaj Satyagraha
1936-37	State Reforms
1939	Second World War
1947	Razakar and Communist disturbances
1948	Police Action
1949	Appearence of Comet
1950	Abolition of Jagirs and Makthas
1952	First General Elections
1954	Jangaon Train accident
1956	Inauguration of Andhra Pradesh State
1957	Second General Elections
1958	Floods in Godavari River
1959	Formation of Zilla Parishads and Panchayat Samithis
	Section II—Commonly known in particular Taluks
	KARIMNAGAR TALUK
1952	Inauguration of X-Ray Plant at Karimnagar
1955	Inauguration of Gangadhara Block
	HUZURABAD TALUK
1956	Inauguration of Bheemdevarapalle Block
	JAGTIAL TALUK
1926	Construction of Tahsil office building
	SIRSILLA TALUK
1906	Floods in Manair River
1907	Influenza epidemic
1937	Light Earth Quake
1939	Plague at Vemulavada
	METPALLI IND. SUB-TALUK
1954	Inauguration of N E.S. Block at Metpalli
	SULTANABAD TALUK
1958	Inaguration of N.E.S. Block at Sultanabad
1958	Godavari floods
	MANTHANI TALUK
1934	Construction of low level cause way at Bokkalavagu
1936	Construction of road from Parkal to Mahadevpur
1937	Cholera
1938	Construction of Tahsil office building
1939	Construction of road from Manthani to Venkatapur
1953	Floods in Godavari River
1958	Floods in Godavari River

PART - III

STATISTICAL TABLES

KARIMNAGAR DISTRICT

(TALUKWISE DENSITY OF POPULATION)

G. P. RANGAM

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad.

EXPLANATORY NOTE
A-SERIES
GENERAL POPULATION TABLES

General Population Tables prepared at the 1961 Census are the basic demographic tables and give information about the total population as recorded at the present census in the district/taluk/town, the territorial changes that have occurred during the last decade from 1951-61, variation of population during the past six decades, distribution of villages and towns by population sizes and trends of urbanisation in the district. The data are presented under the following four tables.

A-I Area, Houses and Population

A-II Variation in Population during sixty years (1901-61)

A-III Villages classified by population

A-IV Towns (And Town-Groups) Classified by population in 1961 with variation since 1941

All the above Tables pertaining to Karimnagar district are reproduced in this Hand Book.

TABLE A-I AREA, HOUSES AND POPULATION

This Table, the basic population table, gives for the district and for each taluk as well as for each town in the taluk, area in square miles and also in square kilometers, persons per square mile, number of villages inhabited and uninhabited, number of towns, number of occupied residential houses, and population by persons, males and females. The figures have been given separately one below the other under Total, Rural and Urban. In this Table as in all other tables, the taluks have been arranged in the order of the Location Code Numbers adopted in the 1961 Census and not in an alphabetical order. For this purpose all the seven taluks in the district have been numbered continuously in a clock-wise order starting from the taluk in which the district headquarters is situated *i.e.*, from Karimnagar taluk. The Location Code Numbers allotted to the taluks are shown below :—

Name of Taluk		*Location Code Number*
Karimnagar	...	1
Sirsilla	...	2
Metpalli (Independent Sub-Taluk)	...	3
Jagtial	...	4
Sultanabad	...	5
Manthani	...	6
Huzurabad	...	7

One of the main changes in the presentation of this Table since the last Census is that the particulars relating to each of the towns in the taluk are also given underneath the concerned taluk besides giving the number of inhabited and uninhabited villages in each taluk.

The district area shown against (x) in column (3a) is that supplied by the Surveyor-General, India. The difference noticed between the area figures furnished by the Surveyor-General, India and the figures given by the State Survey Department shown against (y) is on account of the different methods of computation of areas adopted by the two authorities. The area figures adopted generally for the district and the taluks are as furnished by the State Survey Department and the area figures of each of the towns are as furnished by the Local Authorities concerned and these are exhibited under Column (3a). The urban area of each taluk has been worked out by adding the areas of all the urban units in the taluk and the rural area of the taluk is obtained by deducting the urban area of the taluk from its total area.

The area in Sq. kilometres under Column (3b) is obtained by converting the area in Sq. miles corrected upto 2 places of decimals given under column (3a). The area figures for district Total/Rural/Urban, taluk Total/Rural and for each town

have been first converted separately. In order to tally the totals of all the taluks with the district total, the converted Total/Rural/Urban area figures of the taluks have been suitably adjusted on *prorata* basis according to area ratios of the taluks. The area of each town both in Sq. miles under column (3a) and in Sq. kilometres under Column (3b) has been given upto second decimal place while the Total/Rural/Urban area of the taluks as well as of the district has been given only upto first decimal place.

The density of persons per Sq. mile for the district and for each of the taluks and towns has been worked out according to the area figures exhibited under column (3a).

"Village" referred to in this Table and in all other Tables in this book is the Revenue administrative unit with well defined boundaries. A village having one or more groups of habitations is treated as an inhabited village and a village with no habitation at all is treated as an uninhabited village. The number of inhabited and uninhabited villages in each taluk and in the district are shown under columns 5 and 6 of this Table. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit (town) or hamlets to a main Revenue village, are not taken into account. All the Revenue villages within the taluk are demarcated and numbered off continuously from North-West to South-East. The number so assigned to each village is the 1961 Census Location Code Number, distinct from the Revenue Survey Number and will be referred to hereafter as the Location Code Number.

"Town" is a place usually having not less than 5,000 inhabitants possessing distinct urban characteristics and also satisfying certain criteria prescribed.

For recognition of any place as a town at the present Census it was laid down that it should be either covered by a City Corporation, Municipality or Cantonment Board or that it should generally satisfy the following criteria :—

(i) It should have a minimum population of 5,000

(ii) The density of population should not be less than 1,000 per Sq. mile; and

(iii) At least 3/4 ths of the adult male population should be non-agricultural

The total number of towns in each taluk and in the district is exhibited under column 7 of this Table.

A Census "House" is defined, for the purpose of 1961 Census as a structure or part of a structure inhabited or vacant, a dwelling, a shop, workshop or a factory, place of business, a shop-*cum*-dwelling giving on the road or a common staircase or a common court-yard, leading to a main gate or enjoying a separate entrance. Only houses used wholly or partly for the purpose of residence by one or more households are considered as residential houses and the number of such houses in the town/taluk/district have been given in column 8. Houses utilised wholly for purposes other than for residence are not therefore taken into account in this Table.

The Total population figures, by persons, males and females for the district as well as for each taluk and town has been exhibited separately under columns 9, 10 and 11 in this Table.

Besides the main Table, there are also three Appendices to this Table.

Appendix I: In this Appendix the growth of the district and the taluks to the present area since the last Census has been traced by giving the territorial changes that have taken place during the last decade together with the names of the units and the area involved in the changes. The net area gained or lost by each unit is also given in this Appendix.

Appendix II: One of the criteria for a place to be declared as a town is that it should normally have a population of 5,000 and over. However, several places with a population of 5,000 and over did not qualify to be treated as towns. This Appendix gives the number of such places with their population. There are no towns with population under 5,000 persons at the 1961 Census in this district.

Appendix III: This Appendix shows the talukwise figures for the Houseless Population and Institutional Population separately. Houseless Population comprises groups of people who have no fixed place of residence and no regular home to live in. Institutional Population represents groups of unrelated persons living and messing together, as in the case of boarding houses, messes *etc.*, under the management of a head of the household appointed

either by rules governing the Institution or by common consent of its members. For the purpose of studying different characteristics, Institutional Population is also considered as Household Population.

TABLE A-II VARIATION IN POPULATION DURING SIXTY YEARS (1901-1961)

This Table compares the population of the district as ascertained at the 1961 Census with the corresponding figures for the six previous Censuses *i. e.*, from 1901. The figures revealed at the previous Censuses have been adjusted for subsequent territorial changes in order to afford a correct basis for comparison.

As this Table gives the growth of population from decade to decade, these data form the main source for the estimation of population in the absence of reliable Vital Statistics. One of the main changes in the presentation of this Table since the last Census is that the percentage of variation is also given from decade to decade. The variation of males and females from decade to decade has been omitted at the present Census.

During the last decade Parkal taluk measuring an area of 556.2 Sq. miles has been transferred to Warangal district. Barring this no other inter-district and inter-taluk transfers took place in this district during the decade 1951-61.

Appendix : The appendix to this Table shows the 1951 population according to the territorial jurisdiction in 1951, changes in area and the population involved in the transfers that have taken place during the last decade. The details of transfers of areas in each case together with the names and areas in square miles and the number and the date of Notification of each transfer to the extent avilable are also given in the foot note.

TABLE A-III VILLAGES CLASSIFIED BY POPULATION

This Table shows the total number of inhabited villages in the district, arranged on population basis under the following groups :—

Less than 200 population
200 - 499
500 - 999
1,000 - 1,999
2,000 - 4,999
5,000 - 9,999
10,000 and above

The villages which are either uninhabited or wholly included in urban units are not taken into account in this Table. The following statement gives at a glance the break-up of all the inhabited villages of Karimnagar district classified by population in four broad groups *viz.*,

Class	*Number of inhabited villages*
Less than 499	194
500 - 1,999	622
2,000 - 4,999	225
5,000 and above	12
Total inhabited villages	1,053

For the definition of "village" and "inhabited village" see Explanatory Note to Table A-I.

TABLE A-IV TOWNS (AND TOWN-GROUPS) CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1941

This Table shows the growth of each town since 1941. The civic status, area both in Sq.miles and Sq.Kilometers, population with sex break-up, decade variation in total population and percentage of decade variation have been given for every town in the district.

For the definition of "Town" see Explanatory Note to Table A-I.

The towns have been classified into six classes according to their population in the latest Census as detailed below.

Class	*Limits of population*
I	100,000 and above
II	50,000 - 99,999
III	20,000 - 49,999
IV	10,000 - 19,999
V	5,000 - 9,999
VI	Less than 5,000

Class I towns with a population of 100,000 and above have been treated as cities. The total number of towns under each class in the district at the 1961 Census is given below.

Class	*Number of towns*
I	Nil
II	Nil
III	2
IV	3
V	3
VI	Nil
Total	8

Six towns *viz.*, Huzurabad, Jammikunta, Dharmapuri, Manakondur, Choppadandi and Ghambhiraopet of 1951 Census have been deleted from the list of towns in the present Census in this district. No new place has been treated as a town for the first time at 1961 Census in this district.

Since the prime purpose of this Table is to show the growth of towns as towns and not how certain places have grown into towns from villages, the population of a place which at any particular Census year was not treated as a town is not given in this Table. The population of towns at each of the last seven Census years *i. e.*, since 1901 is, however, given in Table A-IV in Part II-A General Population Tables of Andhra Pradesh(State Volume). The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

The civic status of every town *i. e.*, whether the town is a City Municipality or Town Municipality or a Panchayat *etc.*, is indicated after the name of the town in abbreviated letters C. M., T. M., *etc.*

One of the main changes in the presentation of this Table since the last Census is that the areas of towns and the percentage of decade variation of the total population of the towns have also been given.

The Appendix to this Table gives the names of towns recognised at the present Census together with the names of villages either fully or partly included in them.

TABLE A-I

	U	...	...	...	...	...	...	...	...	...	...

NOTE :— 1. Under columns (3a) and (3b), (x) represents the area figures furnished by the Surveyor-General of India and (y) represents the area figures furnished by the State Survey Department. The urban areas are based on the area of individual towns furnished by the local authorities. The rural area for the district/taluk is obtained by subtracting from the State Survey area, the urban area.

2. The Sq. Km. and density figures of urban areas of taluk/district are worked out using the area figures corrected upto two places of decimal obtained by adding the areas of the towns in the respective units and not using the area figures given in this Table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the taluk/district totals tally.

3. The following abbreviations have been used for the status of a town :- C. M : City Municipality, T. M : Town Municipality

APPENDIX I TO TABLE A-I

Statement showing the 1951 Territorial units constituting the present set-up of each taluk of Karimnagar district and details of net area gain or loss in the changed Territories during the decade 1951-61

(Only those names / areas which have undergone changes since 1951 have been shown in this Appendix.)

District/Taluk	1951 Territorial Units	Details of gain in territories			Details of loss in territories			Net Area (Gain '+' Loss '—')	
		Brief description	Area		Brief description	Area

EXPLANATORY NOTE
B-SERIES
ECONOMIC TABLES

The Economic Tables for the 1961 Census are based on the principal work of a person and the concept of dependancy has been abandoned altogether for economic classification. The entire population has been divided into the following nine categories of Workers, for broad economic classification based on the National Classification of Industries adopted by the Government and the Non-Workers being shown as a separate category.

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV Working at Household Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services

X Non-Workers

The following seventeen Economic Tables, nine of which relate to the General Population and the remaining eight relating to a 20% Sample of Households, have been prepared at the present Census.

(i) *General Economic Tables*

B-I Workers and Non-Workers classified by sex and broad Age-groups

B-II Workers and Non-Workers in Cities, Town-Groups and Towns arranged territorially classified by sex and broad Age-groups

B-III *Part A*-Industrial Classification of Workers and Non-Workers by educational levels in *Urban areas only*

Part B-Industrial Classification of Workers and Non-Workers by educational levels in *Rural areas only*

B-IV *Part A*-Industrial Classification by sex and class of Worker of persons at work at Household Industry

Part B-Industrial Classification by sex and class of Worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service

Part C-Industrial Classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation

B-V Occupational Classification by sex of persons at work other than Cultivation

B-VI Occupational Divisions of persons at work other than Cultivation classified by sex, broad Age-groups and educational levels in *Urban areas only*

B-VII *Part A*-Persons working principally (i) as Cultivators (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by secondary work (i) at Household Industry (ii) as Cultivator or (iii) as Agricultural labourer

Part B-Industrial Classification by sex of persons working in Non-Household Industry, Trade, Business, Profession or Service who are also engaged in Household Industry

B-VIII *Part A*-Persons unemployed aged 15 and above by sex, broad Age-groups and educational levels in *Urban areas only*

Part B-Persons unemployed aged 15 and above by sex and educational levels in *Rural areas only*

B--IX Persons not at work classified by sex, broad Age-groups and type of activity

(ii) Household Economic Tables

B-X Sample Households (i) engaged neither in Cultivation nor in Household Industry (ii) engaged either in Cultivation or in Household Industry but not in both and (iii) engaged both in Cultivation and Household Industry

B-XI Sample Households engaged in Cultivation classified by interest in land and size of land cultivated

B-XII Sample Households engaged in Cultivation only classified by size of land cultivated, and number of family workers and hired workers

B-XIII Sample Households engaged both in Cultivation and Household Industry, showing size of land cultivated classified by principal Household Industry

B-XIV *Part-A*—Households classified by Major Groups of principal Household Industry and number of persons engaged

Part-B—Households classified by Minor Groups of principal Household Industry

B-XV Sample Households engaged both in Cultivation and Household Industry classified by size of land

B-XVI Sample principal Household Industry classified by period of working and total number of workers engaged in Household Industry

B-XVII Sample Households classified by (i) number of male and female members by size of Households and (ii) engagement (a) neither in Cultivation nor in Household Industry (b) in Household Industry only and (c) in Cultivation Sub-Classified by size of land Cultivated

Out of the above seventeen Tables only Tables B-I, B-III, B-IV Part C, B-V, B-VII, B-VIII and B-IX pertaining to the Karimnagar District are reproduced in this Hand Book.

The Household Economic Tables which are a special feature of this Census and which are prepared on the basis of a 20% sample of the returns in the Household Schedules filled up at the time of enumeration are published in a separate volume entitled "Census of India 1961-Vol. II Andhra Pradesh-Part III-Household Economic Tables" and may be referred to.

The working population in each of the nine categories of workers and the non-working population is divided by broad Age-groups *viz.*, 0-14, 15-34, 35-59, 60 + and Age not stated in some of these Economic Tables.

TABLE B-I--WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This Table is prepared separately for Total, Rural and Urban population and is a summary Economic Table for the entire district. It gives the distribution of the population by sex among the nine Industrial Categories of Workers and also Non-Workers by the four broad Age-groups 0-14, 15-34, 35-59 and 60 + years. This is the basic Economic Table and the Age-groups correspond to the different stages of life which have special significance with reference to capacity to work *viz.*, children, young persons, middle aged persons and elderly persons. The classification of non-working population is made in other succeeding Tables.

This Table is prepared on the basis of the principal work of a person irrespective of the fact that the person may not be self supporting from the income derived by that work. In the case of persons who are engaged in more than one work, which are also productive activities, the principal work is taken as that one which has been declared by the person himself as the work on which he spends the longest time and not necessarily the work from which he derives the largest income. Thus the stress is on the concept of work and not income or dependancy. The following explanation makes it clear as to who is treated as a Worker.

Workers

All persons who were engaged in some productive work during any of the 15 days preceding the day on which enumerated, irrespective of the fact whether they derive income or not, are treated as Workers. In respect of seasonal work like Cultivation, Livestock, Household Industry *etc.*, if the person had some regular work for more than one hour a day throughout the greater part of the working season, he

is recorded as a Worker. Persons temporarily incapacitated from work at the time of Census enumeration due to illness or other cause are also treated as Workers. An undertrial prisoner in prison during the Census enumeration is also treated as worker if he did some productive work before he was apprehended. Convicts in a prison or long term inmates of hospitals or mental institutions, are not however treated as Workers. Persons under training as apprentices with or without wages are recorded as Workers. Family Workers *i. e.*, who do not directly derive any income but attend to work along with other members of the family are treated as Workers. An adult woman who is engaged mainly in household duties and in no other economically productive work *i.e.*, a housewife, is not, however, treated as a Worker. Work includes not only actual work but also effective supervision. A public or social service Worker who is actually engaged in public service activity or political activity is taken as a Worker. Thus all workers in any branch of productive work are netted as Workers.

Non-Workers

All persons who are not workers *i. e.*, those falling under the following categories are treated as Non-Workers:

(i) Full time students or children attending schools and who do no other work;

(ii) Persons engaged in unpaid home duties such as housewife;

(iii) Any dependant including an infant or child not attending school or a person permanently disabled from work because of illness or old age;

(iv) A retired person who is not employed again, a rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work;

(v) Beggars, vagrants or independent women without indication of source of income and others with unspecified source of existence;

(vi) A convict in jail or an inmate of a penal, mental or charitable institution;

(vii) Unemployed persons seeking employment for the first time;

(viii) Persons employed before but now out of employment.

TABLE B-III—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

This Table is divided into two parts. Part A relates to Urban areas and Part B relates to Rural areas. In this Table each of the nine categories of Workers and also the Non-Workers is classified by different educational levels.

In *Part*- A which relates to Urban areas only, the data are given for all the Urban areas of the district put together by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation or Higher Secondary

Technical diploma not equal to degree

Non-Technical diploma not equal to degree

University degree or Post-graduate degree other than Technical degree

Technical degree or diploma equal to degree or Post-graduate degree

Engineering

Medicine

Agriculture

Veterinary and Dairying

Technology

Teaching

Others

In *Part- B*, the data which relate to Rural areas only are given for the district, followed by taluks by the following educational levels.

Illiterate

Literate (without educational level)

Primary or Junior Basic

Matriculation and above

A "*Literate*" is a person who can, with understanding both read and write. He should be able to read any matter in print or manuscript and also be able to write a simple letter. A person who can neither read nor write or can merely read and cannot write is considered as illiterate. All children aged 4 years and below are treated as illiterates. The test for education is that the person should have passed a recognised written examination or examinations as proof of the educational level attained. The highest examination passed is taken as the level of education.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX, AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table is divided into three parts.

Part-A shows Industrial Classification by sex and class of worker of persons at work at Household Industry for Total, Rural and Urban population. The data are shown first for the division followed by Major Groups in the order laid down in the Indian Standard Industrial Classification under that Division.

Part-B shows the Industrial Classification by sex and class of Worker of persons at work in Non-Household Industry, Trade, Business, Profession or Service for the Total and Urban population. In this part also the data are persented first for the Division followed by the Major Groups in the order laid down in the Indian Standard Industrial Classification.

Part-C shows the Industrial Classification by sex and Division, Major Groups and Minor Groups of persons at work other than cultivation for Total and Urban population of the district. The data are presented first for the Divisions followed by Major Groups in the order laid down in the Indian Standard Industrial Classification. Under each Major Group the corresponding Minor Groups are shown.

Only *Part-C* is reproduced in this Hand Book. Minor Groups having less than 1% of workers of the respective Division (0.5% in the case of 2&3 Division) are not shown in this Table but shown in the Appendix to this Table.

"*Household Industry*" is an industry conducted by the head of the household himself and/or mainly by members of the household at home or within the village in the Rural areas and only at home in Urban areas. The industry should not be run on the scale of a registered factory and should relate to production, processing, servicing, repairing or making and selling of goods.

An "*Employer*" is a person who has to employ other person in order to perform the work. Such a person is not only responsible for his own personal work but also for giving work to others. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

An "*Employee*" is a person who usually works under some other person for salary or wages in cash or kind, persons who are employed as managers, superintendents, agents, *etc.*, and in that capacity employ or control other workers, on behalf of their own employers are not regarded as employers.

A "*Single Worker*" is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. Single workers also include persons who work in joint partnership with one or several persons hiring no employees, and also a member of a Producers' Co-operative. Each one of the partners or members of such Producers' Co-operatives is recorded as a "Single Worker".

A "*Family Worker*" is a member who works, without receiving wages in cash or kind, in an Industry, Business or Trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. Such an Industry, whether run at home or away from home in town or village and even away from village in the Rural area should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. Members of a family include those drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the Business carried on either by the person or Head of the Household or other relative.

Members of the household who help solely in household duties are not treated as family workers.

Note :—In respect of Household Industry, by the very nature of the participation of the workers in a Household Industry all the four categories of workers are not recognised. Only the "employees", if any, in a Household Industry are categorised as such. The rest are clubbed together as "others".

TABLE B-V—OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

This Table shows, for the Total and Urban Population, the Occupational Classification of persons working in Non-Agricultural occupations. The data are presented first for the Division followed by the Occupational Groups in the order of the National Classification of Occupations. Under each Group the detailed Occupational Families are shown. Occupational Families, accounting for less than 1% of the Workers of the respective Division (less than O. 5% in case of Families under Division 7-8)are not given in this Table, but shown in the Appendix to this Table. The particulars for the district are given down to the Occupational Family, while the talukwise particulars are given upto Division level only.

The Occupational Classification given in this Table is quite distinct from the Industrial Classification presented in Table B-IV part C. Occupational Classification relates to the actual work a person does irrespective of the Industry in which he is engaged. *eg.*, a person who is a clerical worker for Occupational Classification may be connected with Industry, Trade or Service. Conversely in the same Industrial Category there may be persons following different Occupations as, technicians, managerial workers, clerical workers, watch and ward *etc.* Therefore in this table under each Occupational Division, Group and Family the broad Industrial Category of the worker is also given.

TABLE B-VII *Part-A*—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

Part-B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

This Table is divided into two parts :

Part-A shows the persons working *principally* as Cultivator or as Agricultural Labourer or at Household Industry and who have secondary work in the other two alternatives from among Household Industry or Cultivation or Agricultural Labour. The data for the district are given for Total, Rural and Urban population by Industrial Divisions and Major Groups. For the taluk, however, the particulars are given for Rural Population and by Divisions only.

Part-B shows the persons working principally in Non-Household Industry, Trade, Business, Profession or Service and also engaged at Household Industry as secondary work by Industrial Divisions and Major Groups. The data for the district are presented for the Total, Rural and Urban population by Divisions followed by the Major Groups of that Division. The talukwise data are presented for Rural population by Industrial Divisions only.

TABLE B-VIII—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL LEVELS

This Table shows the distribution of persons unemployed aged 15 and above by sex and educational levels for Urban and Rural areas separately in two parts.

In *Part-A*, which relates to the Urban areas, the unemployed have been sub-divided into two classes, *viz.*, (i) Persons seeking employment for the first time (ii) Persons employed before but now out of employment and seeking employment. The data are given by broad Age-groups and by educational levels. The first class of unemployed are divided into the Age-groups 15-19, 20-24, 25-29, 30-34, 35 + and Age not stated and the second class into Age groups 15-19, 20-24, 25-34, 35-44, 45-59, 60 + and Age not stated.

Part-B relates to Rural areas. The data in this part are given talukwise by educational levels. The data in this Table are not, however, given by Age-groups.

TABLE B-IX--PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This Table shows for the Total, Rural and Urban population, the persons not at work classified by sex, broad Age-groups and type of activity. The Non-workers are divided into eight categories according to their activities *viz.*, (i) Fulltime students; (ii) those attending only to Household duties; (iii) Dependants, infants and disabled; (iv) Retired persons, Rentiers or persons of independent means; (v) Beggars, vagrants etc.; (vi) Inmates of penal, mental and charitable institutions; (vii) Persons seeking employment for the first time; and (viii) persons employed before but now out of employment and seeking work according to their activities. These eight categories are based on the recommendations of the United Nations. This Table provides information about those who have an income without working, about housewives, about school going children, besides other types of non-working population. The data for the district are presented for Total, Rural and Urban population. The talukwise data are, however, presented for the Rural population only.

A total number of 23 males and 2 females in the Age group of 35-59 and 3 males in the age-group 60+ have been returned as fulltime students in this district. These elderly persons might be pursuing advanced studies in religion such as Christian missionary trainees, or in Vedas, Music, or other Fine Arts *etc.*, and hence classified as fulltime students.

A complete classification list giving the description of the Divisions, Major Groups and Minor Groups is given below for guidance. In the Table B-IV Part-C and B-VII Part-B only the number of the Division, Major Group or Minor Group is shown. The description of the Industry, Business, or Service concerned can be found from the list below.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions
45 Major Groups
343 Minor Groups

The Divisions and Major Groups with their Code Numbers are listed below.

Divisions

0 AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING
1 MINING AND QUARRYING
2&3 MANUFACTURING
4 CONSTRUCTION
5 ELECTRICITY, GAS, WATER AND SANITARY SERVICES
6 TRADE AND COMMERCE
7 TRANSPORT, STORAGE AND COMMUNICATIONS
8 SERVICES
9 ACTIVITIES NOT ADEQUATELY DESCRIBED

Major Groups

DIVISION 0--AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

00 Field produce and Plantation crops
01 Plantation crops
02 Forestry and Logging
03 Fishing
04 Livestock and Hunting

DIVISION 1--MINING AND QUARRYING

10 Mining and Quarrying

DIVISION 2 & 3--MANUFACTURING

20 Foodstuffs
21 Beverages
22 Tobacco products
23 Textile-Cotton
24 Textile-Jute
25 Textile-Wool
26 Textile-Silk
27 Textile-Miscellaneous
28 Manufacture of Wood and Wooden products
29 Paper and Paper products
30 Printing and Publishing

STANDARD INDUSTRIAL CLASSIFICATION—*Contd.*

31 Leather and Leather products

32 Rubber, Petroleum and Coal Products

33 Chemicals and Chemical products

34-35 Non-Metallic Mineral products other than Petroleum and Coal

36 Basic Metals and their products except Machinery and Transport equipment

37 Machinery (all kinds other than Transport) and Electrical equipment

38 Transport Equipment

39 Miscellaneous Manufacturing Industries

DIVISION 4--CONSTRUCTION

40 Construction

DIVISION 5--ELECTRICITY, GAS, WATER AND SANITARY SERVICES

50 Electricity and Gas

51 Water supply and Sanitary services

DIVISION 6--TRADE AND COMMERCE

60-63 Wholesale Trade

64-68 Retail Trade

69 Trade and Commerce Miscellaneous

DIVISION 7--TRANSPORT, STORAGE AND COMMUNICATIONS

70-71 Transport

72 Storage and Warehousing

73 Communications

DIVISION 8--SERVICES

80 Public Services

81 Educational and Scientific Services

82 Medical and Health Services

83 Religious and Welfare Services

84 Legal Services

85 Business Services

86 Community Services and Trade and Labour Associations

87 Recreation Services

88 Personal Services

89 Services (not elsewhere classified)

DIVISION 9--ACTIVITIES NOT ADEQUATELY DESCRIBED

90 Activities unspecified and not adequately described.

Classification and Code numbers at the 3 digit level in respect of Minor Groups are given below

Standard Industrial Clssifications Showing the Divisions, Major Groups and Minor Groups

Major Group (Code)	Description	Minor Group (Code)
DIVISION 0--AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING		
00	*Field Produce and Plantation crops*	
	Production of cereal crops (including Bengal gram)such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other Gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation, vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012

Major Group (Code)	Description	Minor Group (Code)
01	*Plantation Crops*—Concld.	
	Production of tobacoo in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forest	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
04	*Livestock and Hunting*—Concld.	
	Rearing of silk worms and production cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	DIVISION 1—MINING AND QUARRYING	
10	*Mining and Quarrying*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (inculding slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semiprecious stones, asbestos, gypsum, sulphur, asphalt	109
	DIVISION 2 & 3—MANUFACTURING	
20	*Foodstuffs*	
	Production of rice, atta, flour etc., by milling dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palmjuice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203

Major Group (Code)	Description	Minor Group (Code)
20	*Foodstuffs*—Concld.	
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile-Cotton*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre as such hemp, mesta	244
25	*Textile-Wool*	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and Weaving in mill	252
	Wool spinning other than in mills	253
	Wool Weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in Woollen Textiles	256
26	*Textile-Silk*	
	Spinning and Weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265

Major Group (Code)	Description	Minor Group (Code)
26	*Textile–Silk*—Concld.	
	Manufacture of silk cordage, rope and twine	266
27	*Textile–Miscellaneous*	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286

Major Group (Code)	Description	Minor Group (Code)
28	*Manufacture of Wood and Wooden Products*-Concld.	
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods, from paper, paper board and pulp	292
30	*Printing and Publishing*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312

Major Group (Code)	Description	Minor Group (Code)
31	*Leather and Leather Products*—Concld.	
	Manufacture of leather products (except those covered by code Nos. 311, 312) such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336

Major Group (Code)	Description	Minor Group (Code)
33	*Chemicals and Chemical Products*—Concld.	
	Manufacture of turpentine, synthetic resin, and plastic products and materials (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34–35	*Non-metallic Mineral Products other than Petroleum and Coal*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by Code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359

Major Group (Code)	Description	Minor Group (Code)
36	*Basic Metals and their Products except Machinery and Transport Equipment*	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery. (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in Major Groups 36, 37, 38, and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical Equipment*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
37	*Machinery (All kinds other than Transport) and Electrical Equipment*—Concld.	
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus appliances not specified above	379
38	*Transport equipment*	
	Manufacture, assembling and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all typs (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture or bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aero-engines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and handdrawn vehicles	389

Major Group (Code)	Description	Minor Group (Code)
39	*Miscellaneous Manufacturing Industries*	
	Manufacture of optical instruments and lenses opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountainpen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
DIVISION 4—CONSTRUCTION		
40	*Construction*	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of water ways and water reservoirs such as bund embankments, dam, canal, tank, tubewells, wells	403
DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES		
50	*Electricity and Gas*	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
50	*Electricity and Gas*—Concld.	
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	*Water Supply and Sanitary Services*	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
DIVISION 6—TRADE AND COMMERCE		
60-63	*Wholesale Trade*	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.,	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612

Major Group (Code)	Description	Minor Group (Code)
60-63	*Wholesale Trade—Concld.*	
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618

	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662

Major Group (Code)	Description	Minor Group (Code)
64-68	*Retail Trade*—Concld.	
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
69	*Trade and Commerce Miscellaneous*—Concld.	
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699

DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS

70-71	*Transport*	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer, ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
	Services incidental to transport such as packing, carting, travel agency	710
72	*Storage and Ware Housing*	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722

Major Group (Code)	Description	Minor Group (Code)
73	*Communications*	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
	DIVISION 8—SERVICES	
80	*Public Services (This does not include Govt., Quasi Govt. or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)*	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Govenment	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Governments	809
81	*Educational and Scientific Services*	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
81	*Educational and Scientific Services*--Concld.	
	Scientific services and research institutions not capable of classification under any individual group	812
82	*Medical and Health Services*	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831

EXPLANATORY NOTE

C-SERIES

SOCIAL AND CULTURAL TABLES

Social and Cultural Tables prepared at the 1961 Census give information relating to composition of Sample Households, Age, Sex, Marital Status, Education, Mother-Tongue, Bilingualism and Religion of general population and also about Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of Workers. The data are presented in eight Tables as indicated below :

C-I Composition of Sample Households by relationship to head of family classified by size of land cultivated

C-II Age and Marital Status

C-III Age, Sex and Education

Part A-All areas

Part B-Urban areas

Part C-Rural areas

C-IV Single year Age Returns

C-V Mother-Tongue (in alphabetical order)

C-VI Bilingualism

C-VII Religion

C-VIII Scheduled Castes and Scheduled Tribes classified by literacy and Industrial Category of workers

Part A-Classification by Literacy and Industrial Category of Workers and Non-Workers among Scheduled Castes

Part B-Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Tribes*

All the above Tables pertaining to Karimnagar district except Tables C-IV-Single year Age Returns and C-VI-Bilingualism are reproduced in this book.

TABLE C-I-COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

This Table, prepared on a 20% sample basis from the Household Schedules filled in at the time of enumeration, gives the composition of Households, separately for Total, Rural and Urban areas in the district. The Households in the Rural areas are further classified into 3 Economic Categories *viz.*, (i) Households engaged neither in Cultivation nor in Household Industry (ii) Households engaged in Household Industry only (iii) Households engaged in Cultivation. In respect of the third category of Households the data are furnished separately for each of the eleven classes of Households according to the size of land cultivated *viz.*, (i) Less than one acre, (ii) 1.0-2.4 acres, (iii) 2.5-4.9 acres, (iv) 5.0-7.4 acres, (v) 7.5-9.9 acres, (vi) 10.0-12.4 acres, (vii) 12.5-14.9 acres, (viii) 15.0-29.9 acres, (ix) 30.0-49.9 acres, (x) 50.0+acres, and (xi) Size of holding unspecified. The compositionof the Households is given in terms of heads of Households, spouses of heads of Households, married sons and other married relations, other relations and unrelated persons. This Table will thus indicate the strength of the joint family system and will therefore be of sociological interest.

TABLE C-II-AGE AND MARITAL STATUS

This Table prepared on full count gives the distribution of population both by Age-groups and Marital Status separtely for Total, Rural and Urban population in the district, and for the Rural population in each of the taluks. This is a very important demographic Table. A comparison of the data in this Table with corresponding data pertaining to the last Census will give an indication of mortality in different Marital Status and also in different Age-groups. The Age-groups, *viz.*, 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70+ and Age not stated adopted in this Table conform to international requirements. Age-group 0-9 is automatically treated as 'Never Married' for the purpose of this Table. The proportion of increase or decrease in the various Marital Status since the last Census and the trends in the age at marriage can be studied from this Table. From the data of married females by Age-groups given under column 9 of this Table the future birth rates can also be forecast.

TABLE C-III-AGE, SEX AND EDUCATION

This Table gives the distribution of total population by broad Educational levels, Sex and by

broad Age-groups. This Table is divided into three parts.

Part A relates to all areas while *Part B* and *Part C* relate only to Urban and Rural areas respectively. The educational levels given for all areas and Rural areas in *Part A* and *Part C* are the same, while in respect of Urban areas in *Part B* more detailed educational levels have been adopted. These educational levels are the same as those adopted in Table B-III for the Industrial Classification of Workers and Non-Workers by educational levels. This Table is useful in ascertaining the growth of literacy in the total population as well as in the different Age-groups since the last Census.

TABLE C-V-MOTHER-TONGUE

This Table exhibits separately for the Total, Rural and Urban population of the district and only for the Rural population of each taluk the number of persons, males and females speaking a particular language as Mother-Tongue. The languages returned at this Census are given in an alphabetical order.

'Mother-Tongue' is the language spoken in childhood by the person's mother to the person or mainly spoken in the Household. If the mother died in infancy then the language mostly spoken in the Household is the Mother-Tongue. In the case of infants and deaf mutes the Mother-Tongue is the language usually spoken by the mother.

This Table is very important in view of the large number of languages and dialects spoken in the country and will be of great assistance for ensuring the implementation of the various safeguards granted to the linguistic minorities under the Constitution.

TABLE C-VII-RELIGION

This Table gives separately the distribution of Total, Rural and Urban population of the district and Rural population only of taluks according to Religion. In Census earlier to 1941 the practice was to show the distribution of population Religion-wise down to the village level. Since the 1951 Census this practice has been discontinued.

TABLE C-VIII SCHEDULED CASTES AND SCHEDULED TRIBES

Part A-Classification by Literacy and Industrial Category of Workers and Non-Workers *among Scheduled Castes*

Part B-Classification by Literacy and Industrial Category of workers and Non-Workers *among Scheduled Tribes*

This is a general Table prepared for Scheduled Castes and Scheduled Tribes only and gives separately the total population of Scheduled Castes and Scheduled Tribes and their distribution by literacy and by classification of Workers into different Industrial Categories and the total number of Non-Workers. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This is the first time that the number of literates amongst the Scheduled Castes and Scheduled Tribes are given separately. In addition to this Table some more Special Tables for Scheduled Castes and Scheduled Tribes pertaining to Karimnagar district have also been prepared and incorporated in this book under the series "SCT TABLES".

TABLE C-I

COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

EXPLANATORY NOTE

D-SERIES

MIGRATION TABLES

The Tables in this series show the migration trends analysed on the basis of the results of the 1961 Census. The data are presented in the following seven Tables, which are reproduced upto district level and for all Cities and Town-Groups in the Publication "Census of India 1961-Volume II-Andhra Pradesh-Part II-C-Cultural and Migration Tables" and these may be referred to for details.

D-I Non-Indian Nationals

D-II Place of Birth

D-III Migrants classified by place of birth and duration of residence in place of enumeration

D-III A Migrants from other States and outside India (less than 5 years duration) classified by Age-groups

D-IV Migrants to Cities classified by Sex, broad Age-groups, Educational levels and in case of Workers also by Occupational Divisions and Groups

D-V Cities showing population born locally, migrants from Rural areas and migrants from other Towns and Cities

D-VI Distribution of Industrial categories of Workers and Non-Workers by place of birth

In this Handbook only Tables D-I and D-II showing the Non-Indian Nationals and other migrants in Karimnager district are reproduced.

TABLE D-I-NON-INDIAN NATIONALS

This Table shows the number of Non-Indian Nationals sexwise in the district. The Non-Indian Nationals for the purpose of presentation of the data have been broadly classified into five groups *viz.*,

(i) Nationals of Countries in Asia beyond India (including U. S. S. R.)

(ii) Nationals of Countries in Europe (excluding U. S. S. R.)

(iii) Nationals of Countries in Africa

(iv) Nationals of Countries in two Americas

(v) Nationals of Countries in Oceania

The name of the country of which the person is a National is given separately under each group. The persons who have not recorded any Nationality have been shown separately. Nationals of Goa, Diu, Daman and Pondicherry have been treated as 'Born in India'.

TABLE D-II-PLACE OF BIRTH

This Table prepared as in all previous Censuses gives the distribution of population by birth place. The data are presented both by the place of enumeration and by the place of birth classified separately into Rural and Urban areas. An important change in the presentation of the data at the present Census is that the place of birth has been classified separately as Rural and Urban. This two-fold representation of the data enables one to study the migration trends not only within the district and from outside the district but also from Rural to Urban areas and vice-versa.

EXPLANATORY NOTE

E-SERIES

HOUSING TABLES

The Tables in this series give information on Housing. At the present Census when House numbering was done a few months before the general Census enumeration, the various particulars relating to each Census House were collected on a standardised All India Schedule Called the 'House List' which is reproduced below:

CENSUS OF INDIA 1961

HOUSE LIST

Name of district ..... (Code No.....)
Name of Island/Taluk/Tehsil/Thana/Anchal/Town.....(Code No.....)
Name of Village/Ward/Mohalla/(Enumerator's Block).....(Code No.....)

Line No.	Building number (Municipal or local authority or Census Number, if any)	Building Number (Col. 2) with sub-numbers for each Census House	Purpose for which Census House used, e.g. dwelling, shop, shop-cum-dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel, *etc.*	If the Census House is used as an establishment, workshop or factory			
				Name of establishment or proprietor	Name of product (s), repair or servicing undertaken	Average No. of persons employed daily last week (including proprietor or household members, if working)	Kind of fuel or power if machinery is used
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)

Description of Census House		Sub-numbers of each Census Household with Census House number (Column 3)	Name of head of Household	No. of rooms in Census Household	Does the Household live in own or rented house? (a) Own (O), (b) Rented (R)	No. of persons residing in Census Household on day of visit			Remarks
Material of wall	Material of roof					Males	Females	Total	
(9)	(10)	(11)	(12)	(13)	(14)	(15)	(16)	(17)	(18)

The data have been collected uniformly for the first time at the present Census in the above form and are presented in the following five Tables.

E-I Census Houses and the uses to which they are put

E-II Tenure Status of Sample Census Households living in Census Houses used wholly or partly as dwellings

E-III Census Houses used as factories and workshops classified by Industry, *power* and *no power* used and size of employment

E-IV Distribution of Sample Households living in Census Houses used wholly or partly as dwellings by predominant material of wall and predominant material of roof

E-V Sample Households classified by number of members and by number of rooms occupied

All the above Tables give information upto taluk level, (except Table E-III which contains figures upto the district level only) and also in respect of towns having a population of 50,000 and more and are reproduced in the publication "Census of India 1961, Vol.II-Andhra Pradesh-Part IV-B-Housing and Establishment Tables" and it may be referred to for full details. In this Hand Book only Table E-I "Census Houses and the uses to which they are put" pertaining to Karimnagar district is reproduced.

TABLE E-I-CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

This Table shows the number of Census Houses and the different uses to which they are put. The data are given down to taluk level and also for towns having a population of 50,000 and more; the data are presented separately for Total, Rural and Urban areas.

"Census House" is defined in the present Census as a structure, or a part of a structure inhabited or vacant, or a dwelling, or a shop-cum-dwelling or a place of business, workshop, school *etc.*, with a separate entrance. If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common stair case, or a common courtyard, leading to a main gate, then each such block or flat is considered as separate Census House. If within an enclosed or open compound there are separate buildings then each such building is treated as a separate Census House. If all the structures within an enclosed compound are together treated as one building then each structure with separate entrance is treated as a separate Census House.

TABLE E-I

CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

District/Taluk/Town with population of 50,000 or more	Total Rural Urban	Total No of Census Houses	Census houses vacant at the time of house-listing	Occupied Census Houses used as: Dwellings	Shop-*cum*-dwellings	Workshop *cum*-dwellings	Hotels, Sarais, Dharmashalas, Tourist homes and Inspection houses	Shops excluding eating houses	Business houses and offices	Factories workshops and workshops	Schools and other educational institutions including training classes, coaching and shop classes	Restaurants, sweet-meat shops and eating places	Places of entertainment and Community gathering (panchayat Ghar)	Public Health and Medical institutions, Hospitals, Health Centres, Doctor's Clinics, Dispensaries *etc.*	Others

EXPLANATORY NOTE

SCT-SERIES

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This series of Special Tables for Scheduled Castes and Scheduled Tribes gives the population of each Scheduled Caste and Scheduled Tribe classified by Religion, Age, Marital Status, Education and distributed by Industrial Categories adopted in Table B-I. After the 1931 Census, the population figures of individual Scheduled Castes and Scheduled Tribes are being given only at the present Census. The data are presented in the following five Tables :

SCT-I	Industrial classification of persons at work and Non-Workers by sex for Scheduled Castes and Scheduled Tribes
SCT-II	Age and Marital status for Scheduled Castes and Scheduled Tribes
SCT-III	Education in Urban and Rural areas for Scheduled Castes and Scheduled Tribes
SCT-IV	Religion for Scheduled Castes and Scheduled Tribes
SCT-V	Sample Households engaged in cultivation classified by interest in land and size of land cultivated *in Rural areas only* for Scheduled Castes and Scheduled Tribes

All the above Tables except Table SCT-IV are reproduced upto district level in this book.

Besides the above five Tables, the following three Special Tables, relating to either Scheduled Castes or Scheduled Tribes exclusively are reproduced.

SC-I	Persons not at work classified by sex, type of activity and educational levels for *Scheduled Castes only*
ST-I	Mother-Tongue and Bilingualism for *Scheduled Tribes*
ST-II	Persons not at work classified by sex and type of activity for *Scheduled Tribes*

These three Special Tables are also reproduced upto district level. The figures for all the Taluks are also given in this book in respect of Scheduled Castes and in case of Scheduled Tribes figures are given for Manthani and Jagtial Taluks in which their number is considerable.

In view of the safeguards provided in the Constitution for these communities, the Tables in this series will be of much use and guidance, especially when the Government are taking measures for the improvement of the condition of these communities by suitable welfare schemes under the Five Year Plans. The total Scheduled Castes and Scheduled Tribes population is given talukwise separately for Total, Rural and Urban areas and for each Town under the State Primary Census Abstract. The villagewise particulars are given under Village Directory.

The Scheduled Castes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October 1956. The list of Scheduled Castes in Andhra Pradesh is given below :

NOTE : Scheduled Castes are recognised only amongst Hindus and Sikhs. Converts to other religions such as Christianity or Islam or Buddhism cease to belong to these castes

(1) Throughout the State :
1 Chalavadi
2 Chamar, Mochi or Muchi
3 Madiga
4 Mala

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :
1 Adi Andhra
2 Adi Dravida
3 Arundhatiya
4 Bariki
5 Bavuri
6 Chachati
7 Chandala
8 Dandasi
9 Dom, Dombara, Paidi or Pano
10 Ghasi, Haddi or Relli Chachandi
11 Godagali
12 Godari
13 Gosangi
14 Jaggali
15 Jambuvulu
16 Madasi Kuruva or Madari Kuruva
17 Mala Dasu
18 Madiga Dasu and Mashteen

19 Matangi
20 Mundala
21 Paky or Moti
22 Pambada or Pambanda
23 Pamidi
24 Panchama or Pariah
25 Relli
26 Samban
27 Sapru
28 Thoti

(3) In the districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda :

1 Anamuk
2 Aray (Mala)
3 Arwa Mala
4 Beda (Budga) Jangam
5 Bindla
6 Byagara
7 Chambhar
8 Dakkal (Dokkalwar)
9 Dhor
10 Ellamalwar (Yellammalawandlu)
11 Holeya
12 Holeya Dasari
13 Kolupulvandlu
14 Mahar
15 Mala Dasari
16 Mala Hannai
17 Malajangam
18 Mala Masti
19 Mala Sale (Netkani)
20 Mala Sanyasi
21 Mang
22 Mang Garodi
23 Manne
24 Mashti
25 Mehtar
26 Mitha Ayyalvar
27 Samagara
28 Sindhollu (Chindollu)

The Scheduled Tribes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule III of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the same Notification of the Ministry of Home Affairs, New Delhi, dated 29th October 1956. The list of Scheduled Tribes in Andhra Pradesh is given below:-

NOTE : Members of Scheduled Tribes may belong to any Religion .

(1) Throughout the State :

1 Chenchu or Chenchwar
2 Koya or Goud with its sub-sects Rajah or Rasha Koyas, Lingadhari Koyas (Ordinary), Kottu Koyas, Bhine Koya or Rajkoya

(2) Throughout the State except Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda districts :

1 Bagata
2 Gadabas
3 Jatapus
4 Kammara
5 Kattunayakan
6 Konda Dhoras
7 Konda Kapus
8 Kondareddis
9 Kondhs (Kodi and Kodhu), Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs and Yenity Kondhs
10 Kotia-Bentho-Oriya, Bartika, Dhulla or Dulla, Holva, Paiko, Putiya Sanrona and Sidhopaiko
11 Kulia
12 Malis
13 Manna Dhora
14 Mukha Dhora or Nooka Dhora
15 Porja (Parangiperja)
16 Reddi Dhoras
17 Rona, Rena
18 Savaras-Kapu Savaras, Maliya Savaras or Khutto Savaras
19 Sugalis (Lambadis)
20 Yenadis
21 Yerukulas

(3) In the Districts of Hyderabad, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam, and Nalgonda:

1 Andh
2 Bhil
3 Gond (including Naikpod and Rajgond)
4 Hill Reddis
5 Kolam (including Mannervarlu)
6 Pardhan
7 Thoti

(4) In the Agency tracts:

1 Goudu (Goud)
2 Nayaks
3 Valmiki

As would be clear from the Tables, not all the above Castes and Tribes, will be found in all the Taluks of the district.

An abstract of the total Scheduled Castes and Scheduled Tribes population in Karimnagar district and its percentage to the total general population is given talukwise in the statement below :

Name of the District/Taluk	Total Rural Urban	General Population	Scheduled Castes population together with percentage to general population	Scheduled Tribes population together with percentage to general Population

TABLE SCT-I INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for the Rural and Urban areas of the district, the population of each Scheduled Caste and Scheduled Tribe classified by Industrial Category of persons at work and Non-Workers by sex. The Table is divided into two parts. *Part A* relates to Scheduled Castes while *Part B* relates to Scheduled Tribes. This Table is important as it gives the strength of each of the Scheduled Castes and Scheduled Tribes, the working population among them and the sector of Industry in which the working population is engaged. The data are presented for the Rural and Urban areas separately.

TABLE SCT-II AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows for each Scheduled Caste and Scheduled Tribe the total population by Age and Marital status. This Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. This Table corresponds to Table C-II for the total population; however, the Age-groups are restricted to 0-14, 15-44, 45+ and Age not stated only in both the parts of this Table. This Table enables us to know the percentage of each of the Scheduled Castes and Scheduled Tribes to the total population in the corresponding Age-group. Such communitywise data by Age and Marital Status for Scheduled Castes and Scheduled Tribes are being given for the first time at the present Census. The Age distribution and Marital Status data will give an indication as to whether the population of a Caste/Tribe is growing or declining.

TABLE SCT-III EDUCATION IN RURAL AND URBAN AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table shows the literacy and educational levels for each Scheduled Caste and Seheduled Tribe separately for Rural and Urban areas. This Table is divided into *Part A (i)* and *Part A (ii)* relating to the Scheduled Castes and Scheduled Tribes respectively in Urban areas and *Part B (i)* and *Part B (ii)* relating to the Scheduled Castes and Scheduled Tribes respectively in Rural areas. In the case of Urban areas the educational levels adopted for giving the data are the same as those adopted in Table B-III *Part A* and in the case of Rural areas the data are given as in Table B-III *Part B*. This Table, therefore, enables us to know the proportion of each of the Scheduled Castes and Scheduled Tribes among the total population in different literacy and educational levels.

TABLE SCT-V SAMPLE HOUSEHOLDS OF SCHEDULED CASTES AND SCHEDULED TRIBES ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED *IN RURAL AREAS ONLY*

This Table shows the sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only, separately for Scheduled Castes and Scheduled Tribes. The Table is divided into two parts. *Part A* relates to Scheduled Castes and *Part B* relates to Scheduled Tribes. The sizes of landholdings and types of interest in land cultivated adopted in this Table are the same as those adopted in Table B-XI.

TABLE SC-I PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS *FOR SCHEDULED CASTES*

This Table shows persons belonging to the Scheduled Castes not at work classified by sex, type of activity *viz.*, fulltime students, persons seeking employment for the first time, unemployed but seeking work and others, by educational levels. The broad educational levels adopted are, illiterate, literate (without educational level), Primary or Junior Basic, Matriculation or Higher Secondary, and above Matriculation or Higher Secondary. This Table is prepared for Scheduled Castes as a whole and not separately for each individual caste and the figures are exhibited for Total, Rural and Urban population. This Table will be very useful as it clearly illustrates the extent to which the Scheduled Caste children have taken to education and it also helps to plan employment for the unemployed members of the Scheduled Castes. This Table has been prepared for Rural areas of all the Taluks in the district as the percentage of Scheduled Castes population in the Rural areas of all the Taluks in the district exceeds the State's average proportion of 14.88%

TABLE ST-I MOTHER-TONGUE AND BILINGUALISM *FOR SCHEDULED TRIBES*

This Table shows exclusively the Scheduled Tribes classified by Mother-Tongue and subsidiary languages spoken by them. The data are given for the Total, Rural and Urban areas in the district and for the Rural areas of Manthani and Jagtial Taluks as the Scheduled Tribes Population in these two taluks only is considerable. The Scheduled Tribes have their own peculiar languages and dialects and this Table gives the language or dialect of each Tribe. In respect of the members of the Scheduled Tribes who have moved out of their homes and as a result of contact with the local population speak some other languages also, those subsidiary languages are also shown in the Table. The number of male and female speakers of the subsidiary language is indicated in brackets after the subsidiary language under column 7 of the Table.

TABLE ST-II PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY *FOR SCHEDULED TRIBES*

This Table shows for the district the persons not at work classified by sex and type of activity for each individual Scheduled Tribe. The types of activity under which the persons not at work are classified are the same as those adopted in Table SC-I *viz.*, fulltime students, persons seeking employment for the first time, persons unemployed but seeking work and others. In this Table the particulars are given according to the individual Tribe while in Table SC-I similar particulars in respect of Scheduled Castes are given for Total Scheduled Castes as a whole by educational levels. The present Table, however, shows the number of unemployed persons in each individual Tribe without reference to the literacy levels.

The data in this Table are presented for the Total, Rural and Urban areas of the district and also for the Rural areas of Manthani and Jagtial Taluks as the Scheduled Tribes population in these two taluks is considerable.

PART IV

VILLAGE AND TOWN DIRECTORY

EXPLANATORY NOTE

VILLAGE AND TOWN DIRECTORY

This Directory renders an account of each village, as also each ward and each Enumerator's Block of a town. It gives the Location Code Number and Name of each village/town, area of the village/town, and where inhabited, the number of Occupied Residential Houses, Census Households, Total population, Population of Scheduled Castes and Scheduled Tribes, Literate Population and Workers classified into the following nine Industrial categories and the Non-Workers:—

I Cultivator
II Agricultural Labourer
III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV Household Industry
V Manufacturing other than Household Industry
VI Construction
VII Trade and Commerce
VIII Transport, Storage and Communications
IX Other Services; and
X Non-Workers

The data are presented talukwise, first for the rural portion in the "Village Directory" and next for the urban portion in the "Town Directory". In the Village Directory the villages have been arranged in the ascending order of the Location Code Numbers assigned to the villages within the taluk and in the Town Directory, in the ascending order of Location Code Numbers assigned to the towns in the taluk and also by each ward and Enumerator's Block in the ascending order. The taluk map given at the beginning of the Village Directory of each taluk showing the location Code Numbers of each village and town and other particulars will help the easy location of the villages.

In the Village Directory, villages uninhabited and villages that have been completely merged in towns have been indicated accordingly. In respect of villages which are partly included within the town limits and partly falling outside the town limits, the particulars for that portion included in the town limits *i.e.*, 'Urban Portion' are clubbed with the particulars of the town and given in the Town Directory and for the portion outside the town limits *i. e.*, 'Rural Portion' the data are given in the Village Directory along with other villages. The term 'Rural' is indicated immediately after the name of such villages to make the position clear. In the presentation of data for the towns, the particulars have been exhibited in ascending order of Municipal Wards or Blocks and also by Enumerators' Blocks and not according to the villages constituting the town. In order that each Enumerator's Block may be located, the jurisdiction of each Block *i. e.* the houses covered by each Enumerator's Block in towns are indicated at the beginning of the Town Directory.

Under column 8 the area is given for the villages and towns in square miles based on the information furnished by the State Central Survey Office, the Tahsildars and by the Municipal authorities concerned. In respect of certain villages where the area particulars are not available the abbreviation "N. A." has been recorded in column 8. As the area of a taluk comprises not only the area of the villages but also the area of Reserved Forests *etc.*, within the taluk, the areas of all the villages put together may not be equal to the area of the taluk.

Under columns 9 to 41 the Total population, Scheduled Castes and Scheduled Tribes population, Literate population, total number of Workers under each of the nine categories and Non-Workers are given by sex for each village/town.

The taluk map found at the beginning of the Village Directory of each taluk shows the boundaries of each village and town, the important roads and railway lines, rivers, if any, running in the taluk. In this map the Location Code Number of each village is shown and the names of the towns and villages having more than 5,000 population, important tourist centres and places of great religious importance, *etc.*, if any, are given. Urban areas have been shown by shading the area covered. Uninhabited villages and Villages of different sizes of population *i.e.*, below 2,000, 2,000–4,999, 5000 and above, are differentiated by distinct designs. An alphabetical list of villages with the Census Location Code Numbers indicated against them is given after the taluk map and before the

Village Directory. This list enables one to find out the Location Code Number of any village and thereafter to get the required particulars of the village from the Village Directory.

The information relating to Educational facilities, Medical and Public Health facilities, Drinking water facilities, Communication and Transport facilities and Electrification is also given villagewise in this section, for the first time, besides the population data. These facilities are shown by symbols as explained below, immediately after the names of the villages under columns 3 to 7.

(i) Educational facilities are shown by the following symbols under column 3:—

P : Primary School
M : Middle School
H : High School
C : Higher Institutions including Colleges
T : Technical Institutions

(ii) Medical and Public Health facilities are shown by the following symbols under column 4:—

D : Dispensaries
Rhc: Rural Health Centres (Primary Health Centres)
Hos: Hospitals
Mcw: Maternity Child Welfare Centres

(iii) Drinking Water facilities are shown by the following symbols under column 5:—

S : Safe or Protected water supply including Tube wells *etc.*
W : Well
Tk : Tank
Riv: River

(iv) Communication and Transport facilities are shown by the following symbols under column 6:—

Po : Post Office
To : Telegraph Office and Public Call Office
Rh : Rest Houses and Choultries
R : Road
Rly: Railway

(v) Electrification facilities are shown by the following symbols under Column 7:—

E : Electricity
E(I): Electricity in Industrial use
E(A): Electricity in Agricultural use
E(D): Electricity in Domestic use

Where figures like 5P, 2H *etc.*, occur they denote that the village or town has 5 Primary Schools, 2 High Schools *etc.*

Besides presenting the information relating to the above facilities in the Village/Town Directory, certain other important particulars *viz.*, sources of irrigation, crops raised, value of land, Co-operative Societies, Police Stations, Veterinary Hospitals, Reading Rooms, Places of Public Entertainments (Cinemas), Industrial Establishments and Rural Handicrafts are also given talukwise in separate subtables immediately after the Town Directory. The Sub-Tables are numbered as follows:—

Sub-Table-1 :	Sources of Irrigation, crops raised and value of land
Sub-Table-2 :	Co-operative Societies
Sub-Table-3 :	Police Stations
Sub-Table-4 :	Veterinary Hospitals
Sub-Table-5 :	Reading Rooms
Sub-Table-6 :	Public Entertainments (Cinemas)
Sub-Table-7 :	Industrial Establishments
Sub-Tables 8, 9 & 10 :	Rural Handicrafts Tables

In the Sub-Table relating to the source of irrigation, crops raised and value of land, the particulars relating to the high and low prices of dry and wet land, the various important crops raised and the sources of irrigation are given villagewise. The Location Code Numbers have only been given in the Sub-Table without giving the names of the villages. Villages having land of same value are grouped together. The following abbreviations are used in this Sub-Table.

Cereals

J : Jonna or Cholam or Jowar
M : Maize
P : Paddy

Pulses

Blg: Blackgram
Gg : Greengram
Rg : Redgram

Other Crops

Ch : Chillies
Gi : Gingelly

Irrigation Sources

C : Canal or Nala
Riv: River
Tk : Tank
W : Well

In the Sub-Table relating to Co-operative Societies, the various types of Co-operative Societies functioning in each village have been presented talukwise. The data for the district are given in the beginning followed by the particulars relating to taluk. The abbreviations used for the different types of Co-operative Societies are given below. If a village is served by a Co-operative Society of another village it has been indicated accordingly.

ACS	Agricultural Co-operative Society
CCS	Co-operative Council Society
CS	Co-operative Society
FCS	Farming Co-operative Society
FICS	Fishermen's Co-operative Society
HBCS	House Building Co-operative Society
JCS	Jubilee Co-operative Society
LCCS	Labour Contract Co-operative Society
LCS	Labour Co-operative Society
LMCS	Land Mortgage Co-operative Society
LSCS	Large Sized Co-operative Society
MCS	Marketing Co-operative Society
MPCS	Multipurpose Co-operative Society
PLMCS	Primary Land Mortgage Co-operative Society
RUCS	Rural Uplift Co-operative Society
SCS	Silk Co-operative Society
SSCS	Social Service Co-operative Society
TTCS	Toddy Tappers' Co-operative Society
WCS	Weavers' Co-operative Society

In the other Sub-Tables relating to Police Stations, Veterinary Hospitals, Reading Rooms and places of Public Entertainments (Cinemas) also, the data are presented in the same form as explained above, *i.e.*, first for the district and then for each taluk. Only the names of places where such facilities exist are given.

In the Sub-Table relating to Industrial Establishments, the number of units under various industries existing in villages and towns are given. These particulars were mainly those collected through a schedule of industries and crafts issued to the village school teachers in connection with the Rural Crafts Survey. In this schedule the data were to be given by the numbers of families; and as such, the families which had members engaged in any of the industries had been taken as units for that industry. In respect of some villages where the schedules had not been answered, the information was compiled from the houselists. Certain data were taken from other sources as well such as the Village Directory furnished by the Tahsildar, and the Survey of Industries conducted in the cities. It is, however, quite possible that there may be some villages for which the information could not be presented. Such omissions are, however, likely to be very few. The particulars are given separately for the rural and urban areas. Under the name of the district, the industries are arranged in the ascending order of Minor Groups of the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban areas separately. Then, the figures for the various taluks are presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village Directory. Against each village/town are shown the Minor Group Code Numbers of the industries or crafts found in that village/town with the number of units engaged in that Minor Group in brackets against each of the groups.

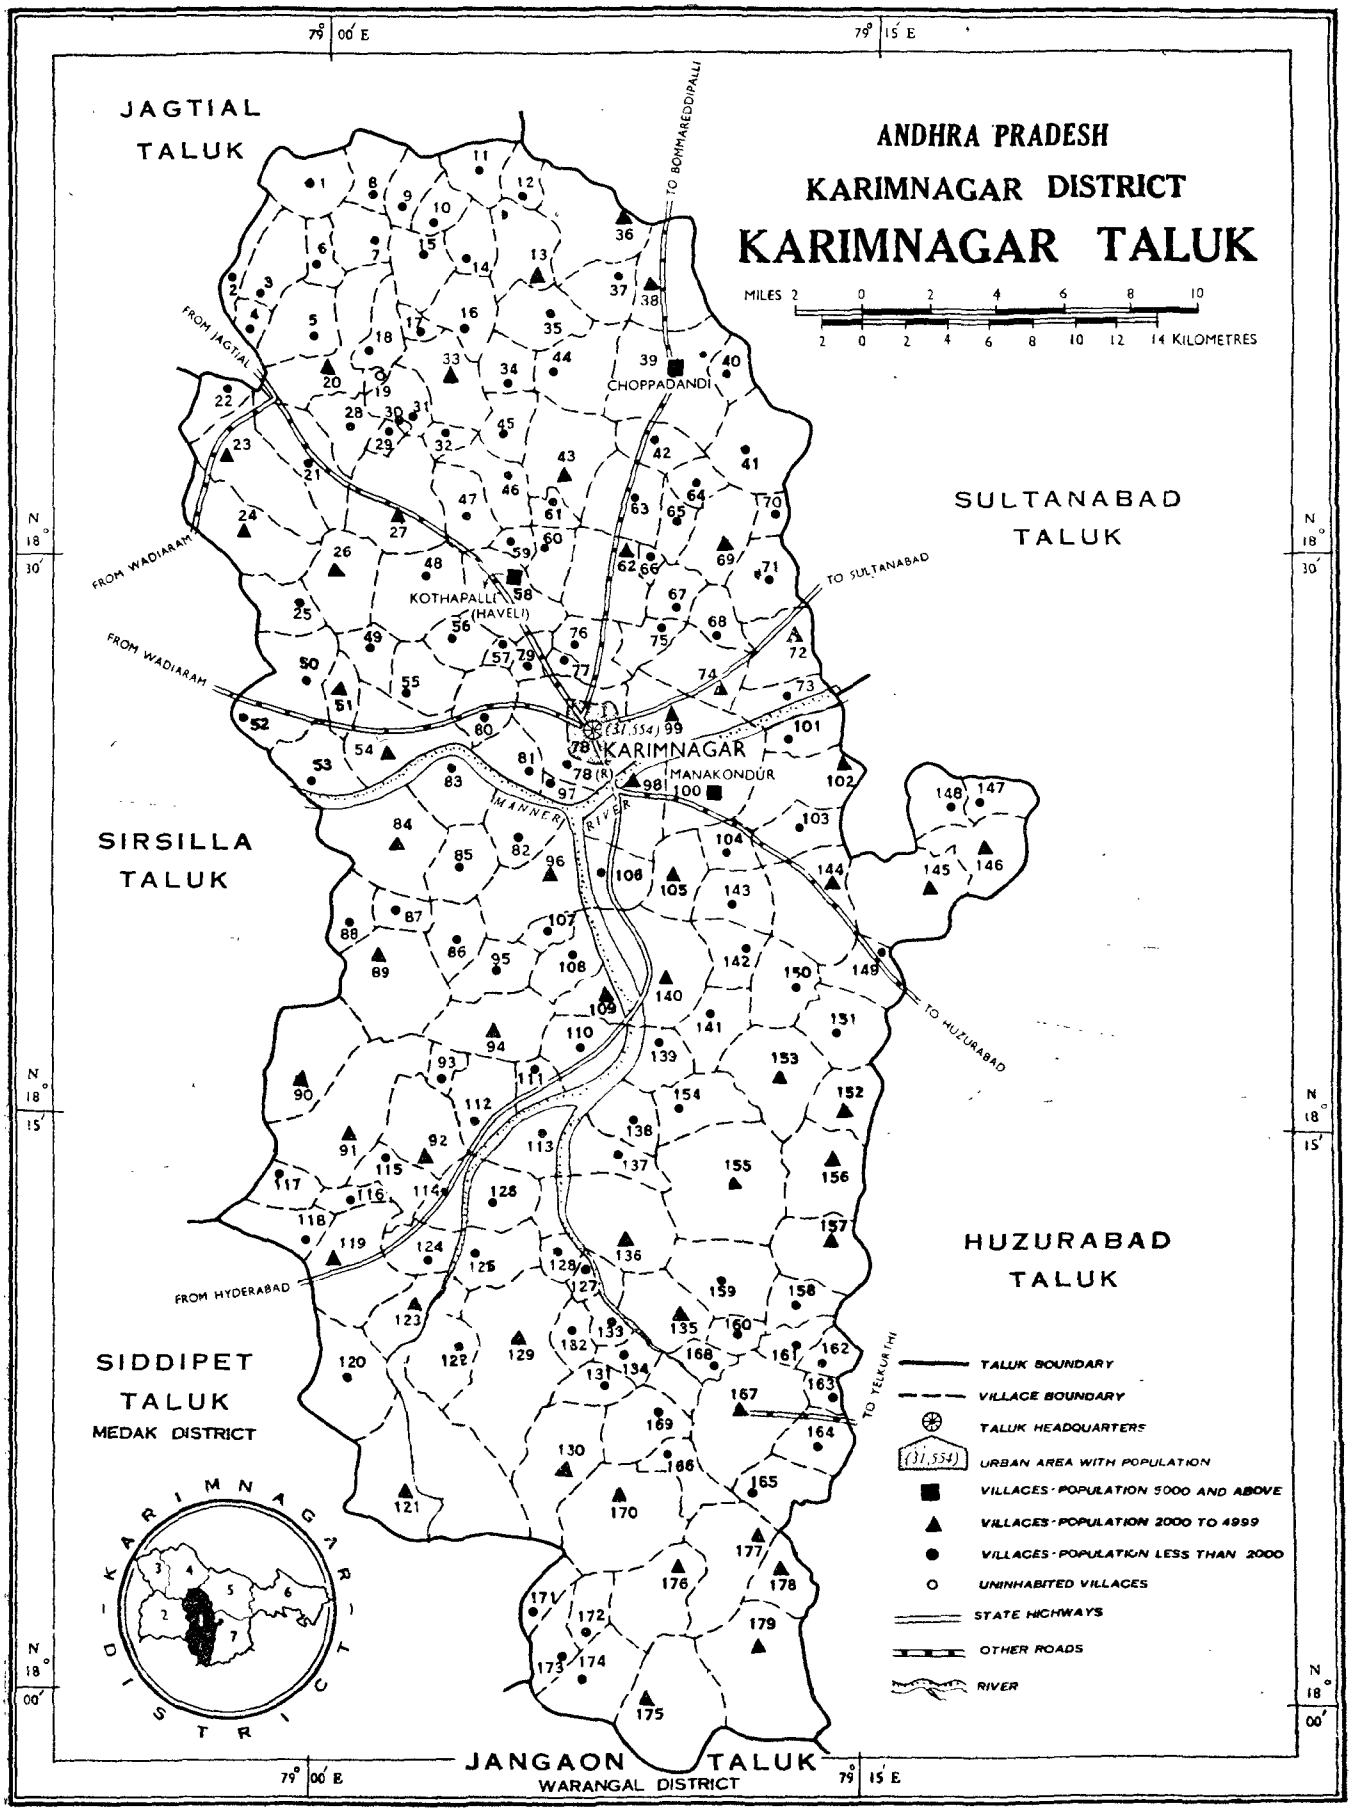

In the three Sub-Tables relating to Handicrafts information is given about the various Crafts practised, the number of persons engaged, the distribution of Artisan Communities, the number of families engaged in the Handicrafts, and the names of skilled craftsmen of each community. These particulars were mainly collected through a schedule of Industries and Crafts issued to the village school teachers in rural areas and to the Municipal authorities in the Municipal areas. In respect of cities the information was collected through the staff of the Census Tabulation offices specially appointed for the purpose. In respect of some villages where the schedules have not been answered the information was taken from the Houselists prepared at the time of

Housenumbering in 1960. A detailed report on the Handicrafts Survey is given in "Census of India, 1961–Volume II – Andhra Pradesh – Part VII A" and may be referred to.

In the Sub-Table relating to Fairs and Festivals given at the end of this section, the important fairs and festivals that take place in the village, the month in which they take place, *etc.*, are given for each village having such importance. A detailed report on the Fairs and Festivals is given in "Census of India 1961–Volume II–Andhra Pradesh–Part VII B" and may be referred to.

All the information given in the various Sub-Tables in this section are based on the information furnished by the Heads of Departments, the District Officers, the Tahsildars and the Municipal authorities concerned.

JAGTIAL TALUK

M. J. SADIQ

Prepared at the Office of the Superintendent of Census Operations, Andhra Pradesh, Hyderabad

ALPHABETICAL LIST OF VILLAGES

JAGTIAL TALUK

1961 Location Code No.	Name of Village
94	Abbapuram
132	Aggimalla
42	Allipur
40	Alur
79	Anantharam
75	Anthargama
12	Arepalle
137	Arevalli
50	Arpapalle
98	Athmakur
141	Balvanthapuram
134	Bathkepalle
23	Battapalle
19	Beerpur
87	Beersani
128	Bhattubhuttamrajpalle
103	Bheemrajpalle
38	Bhoopathipuram
85	Bonkur
1	Bornapalle
63	Buggaram
72	Chelgal
96	Chendoli
152	Cheppyala
5	Cherlapalle
104	Chilwakodur
64	Chinnapuram
29	Chintalur
95	Datnur
2	Devanpalle
99	Devikonda
27	Dharmajipet
54	Dharmapuri
111	Dharmaram
117	Dharur
13	Dontapuram
18	Donur
115	Eldurthi
81	Eswanthraopeta
21	Ganeshpalle
80	Gangapuram
106	Gollapalle
58	Gopulapuram
123	Gorregundam
154	Gourapuram
97	Gullakota
68	Gullapeta
105	Gunjapaduga
51	Habshipur
129	Ibrahimnagar
82	Israjpalle
34	Itkial
112	Jabithapur
92	Jagdevpeta
76	Jagtial
16	Jaina
66	Kalleda
60	Kamalapuram
8	Kammanur
6	Kandlapalle
71	Kandlapalle
44	Kannapuram
3	Katkapur
43	Kishtampeta
150	Kodimyala
11	Kolvai
69	Konapuram
146	Konapuram
91	Kondapuram
149	Kondapuram
36	Kummarpalle
45	Latchakkapeta
49	Lakshmidevipalle
102	Lakshmipuram
110	Lakshmipuram
30	Lingapuram
133	Lingapuram
93	Lothunoor
57	Madduour
124	Madutla
130	Maidampalle
126	Mallial
127	Manal
7	Mangala
31	Mootapalle
73	Morapalle
114	Motha
142	Muthampeta
151	Nachupalle
61	Nagaram
46	Nagunuru
155	Namilikonda
100	Nancherla
20	Narsimlapalle
146	Narsingapuram
52	Nerella
125	Nukapalle
136	Pegadapalle
48	Pembatla
78	Polas
70	Porendla
22	Potharam
119	Potharam
148	Potharam
153	Puduru
131	Raghavapatnam
25	Raichapalle
35	Raikal
56	Raipatnam
17	Rajaram
118	Rajaram
37	Ramajipet
120	Rampuram
143	Ramsagar
47	Rangapet
4	Rangasagar
107	Rapalle
33	Regunta
10	Rekulapalle
90	Sakhapuram
144	Sanivarampeta
24	Sarangapuram
140	Sarvapuram
83	Shakalla
86	Sirikonda
59	Sirvanchakota
65	Somanapalle
88	Sthambampalle
147	Surampeta
67	Takkallapalle
138	Takkallapalle
26	Tatlavai
74	Tatpalle
139	Tatpalle
15	Teegaladharmaram
9	Thadladharmaram
113	Thimmapuram
101	Thirmalapuram
53	Thumminala
14	Thunguru
55	Timmapuram
77	Tippannapeta
145	Tirmalapur
109	Tirmalapuram
41	Uppumadige
28	Vastapuram
39	Veerapuram
89	Velgatoor
62	Velgonda
32	Vempallivenkatraopeta
135	Vengalaipeta
108	Vengalapuram
84	Vengumatla
122	Voddad
121	Voglapuram

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY

INDUSTRIAL ESTABLISHMENTS

KARIMNAGAR DISTRICT

[Note :— In the Sub-Table below relating to Industrial Establishments, the units of various Industries existing in villages and towns are given. The particulars are given separately for the Rural and Urban areas. The Industries are arranged, first for the district in the ascending order of Minor Groups of Industries under the Indian Standard Industrial Classification showing the total number of establishments within brackets next to each Minor Group Code Number, for Total, Rural and Urban areas separately. The figures for the various taluks are also their presented showing first the total numbers on the pattern adopted for the district totals, followed by the particulars for the villages and towns in that taluk in the order of the Village/Town Directory. Against each Village/Town are shown the Minor Group Code Numbers of the Industries or Crafts found in that Village/Town with the number of units engaged in the Minor Group in brackets against each of the Groups.]

Detailed description of Industrial Code (Minor Group) Numbers under which the Industrial Establishments are arranged in the above Sub-Table

Minor Group No. (1)	Description as per the Indian Standard Industrial Classification (2)
200	Production of rice, atta, flour *etc.* by milling, debusking and processing of crops and foodgrains
205	Production of bread, biscuits, cake and other bakery products
207	Production of edible fats and oils (other than hydrogenated oil)
209	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge
212	Production of indigenous liquor such as toddy, liquor from mahua, palm juice
214	Production of aerated and mineral water
215	Production of ice
220	Manufacture of beedi
221	Manufacture of cigars and cheroots
222	Manufacture of cigarette and cigarette tobacco
225	Manufacture of jerda and other chewing tobacco
230	Cotton ginning, cleaning, pressing and baling
231	Cotton spinning (other than in mills)
233	Cotton dyeing, bleaching
235	Cotton weaving in handlooms
241	Jute spinning and weaving
244	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta
253	Wool spinning other than in mills
255	Wool weaving in handloom
273	Making of textile garments including raincoats and headgear
274	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags
280	Sawing and planing of wood
281	Manufacture of wooden furniture and fixtures
283	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures
284	Manufacture of other wooden products such as utensils, toys, art wares

SUB-TABLE 7 TO VILLAGE & TOWN DIRECTORY—*Concld.*

INDUSTRIAL ESTABLISHMENTS

Minor Group No.	Description as per the Indian Standard Industrial Classification
(1)	(2)
288	Manufacture of materials from cork, bamboo, cane, leaves and other allied products
289	Manufacture of other wood and allied products not covered above
292	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp
302	All other types of printing, including lithography, engraving, etching, block making and other work connected with printing industry
303	All types of binding, stitching, sizing and other allied work connected with binding industry
310	Currying, tanning and finishing of hides and skins and preparation of finished leather
311	Manufacture of shoes and other leather footwear
333	Manufacture of ammunition, explosives and fire works
335	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap
336	Manufacture of soap and other washing and cleaning compounds
340	Manufacture of structural clay products such as bricks, tiles
341	Manufacture of cement and cement products
342	Manufacture of lime
343	Manufacture of structural stone goods, stone dressing and stone crushing
345	Manufacture of stone images
350	Manufacture of earthenware and earthen pottery
355	Manufacture of earthen images, busts and statues
365	Manufacture of brass and bell metal products
367	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can
368	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products
369	Manufacture of sundry hardwares such as G. I. Pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)
384	Repairing and servicing of motor vehicles
388	Repairing of bicycles and tricycles
392	Assembling and repairing of watches and clocks
393	Manufacture of jewellery, silverware and wares using gold and other precious metals
399	Manufacture and repair work of goods not assignable to any other group
