INTRODUCTION.

District Kapurthala.

Physical Aspects.

Name and derivation.

The present day Kapurthala District comprises the former State of Kapurthala minus the Bhunga Sub-Tahsil consisting of 24 villages covering an area of 14·3 square miles (now part of Hoshiarpur District) and four Bastis *viz.* Basti Nau, Basti Sheikh, Kotla and Kot Sadiq covering an area of ·84 square miles (now part of Jullundur District). The district takes its name after its headquarters town bearing the name of Kapurthala. "It is said to have been founded in the early part of the eleventh century, in the time of Sultan Mahmud of Ghazni, by Rana Kapur a scion of the Royal Rajput House of Jessalmir." (Page 44 of District Gazetteer Part-A of Jullundur and Kapurthala State). The State was founded by Sardar Jassa Singh of Ahlu, a right hand man of Nawab Kapur Singh leader of Singhpuria Missal. Baba Jassa Singh became the head of the Missal called Ahluwalia and established Kapurthala State.

Boundaries and Situation.

The district is not a compact one The main part *i.e.* Kapurthala Tahsil wherein the headquarters of the district is situated, is bounded as below :—

1.	North	...	Hoshiarpur, Gurdasdur and Amritsar Districts.
2.	South	...	Jullundur and Ferozepore Districts.
3.	East	...	Hoshiarpur and Jullundur Districts.
4.	West	...	Amritsar and Ferozepore Districts.

The other part which is known as Phagwara Tahsil is surrounded as indicated below :—

1.	North	...	Hoshiarpur District.
2.	South, East and West	...	Jullundur District.

The district lies between 31° 07′ 05″ and 31° 39′ and 10″ North and 74° 57′ 45″ and 75° 54′ 40″ East.

Area.

The area of the district according to the figures supplied by the Survey of India Department, comes to 631·6 square miles. Its population, according to the Census of 1951, has been ascertained

to be 2,95,071 persons. In area it stands seventh among the eight districts of the Patiala and East Punjab States Union while according to population it comes sixth.

Rivers and Streams.

The main part of Kapurthala Tahsil which is bounded by the river Beas on the North-Western side and through which the West or the Black Bein meanders on its way to join the Beas falls, in the bet or riverain tract. Floods between the Beas and the Black Bein are frequent. The floods are useful for Kharif crops like sugar-cane and paddy and help Rabi crops like wheat. Homener high floods cause damage to maize, cotton, chillies and jowar all over the area and to paddy in low lying areas. People are increasingly depending upon well irrigation in the Bet area. The Dona area *i e.* tract South of Black Bein mainly depends upon well irrigation. Waste lands which are subject to frequent high floods in the Bet area and sandy and less fertile areas all over the Tahsil are used for grazing puposes.

The Phagwara Tahsil comprises portions of the Sirwal and Manjki tracts and is very fertile. The Dhak tract which comprised mostly of State land, has been brought under the plough. It is well irrigated and now it is almost as good as Manjki tract. Agriculture in the Tahil depends mainly on well irrigation which supplements rainfall.

Apart from the Sutlej and the Beas rivers which form the Southern and Western boundaries of the district, but do not actually traverse its territory, there are two streams, namely, white or the Eastern Bein, and Black or the Western Bein which has been referred to already. The former enters the Phagwara Tahsil from Garhshankar Tahsil of Hoshiarpur and passing on to the Jullundur District, joins the River Sutlej. The Black or the Western Bein enters the Kapurthala Tahsil from the Dasuya Tahsil of Hoshiarpur District and joins the Beas River near Jammiwala.

Geology.

The district lies in the alluvial plain and hence has got no importance from the geological point of view.

Archaeology.

Sultanpur, a town in Kapurthala Tahsil, is a place of historical interest. It is said to have been founded by Sultan Khan Lodhi, a General of Sultan Mahmud of Ghazni, in the eleventh century. A mention of it has been made in the Ain-i-Akbari. Nadir Shah sacked and burnt the town in 1739 A. D. Aurangzeb and Dara are said to have received their early education at this place and there are many places in Sultanpur and near about it of the Mohammadan period. " The ruins of a particularly fine massive old bridge over the Bein river, said to have been constructed in the time of Sher Shah, still remain, and a little lower down the river is a

second handsome bridge built in the time of the Emperor Aurangzeb, and is still in good repair. There is also a fine Sarai at Sultanpur, erected about the same period, which is now used as the Tahsil building. There is a beautiful Gurdwara named Ber Sahib at Sultanpur. It was built in memory of Guru Nanak the founder of the Sikh religion who spent a number of years at the place.

At Kapurthala proper there is a mosque built in the moorish style (Page 45 of the Kapurthala Gazetter, 1904, Part-A).

Climate.

" The climate of Kapurthala is good but in the season of heavy rainfall it becomes damp and malarial." The swamp lying in the vicinity of the town has been reclaimed by planting of a *Rakh.* The climate of Phagwara Tahsil is healthier than that of the Kapurthala Tahsil.

Rainfall.

The rainfall in the Phagwara Tahsil varies from 20″ to 25″ and that in the Kapurthala Tahsil from 15″ to 20″.

History.

The Ahluwalia family is said to have a remote connection with the ruling Rajput House of Jessalmir The real founder of the family was Sardar Jassa Singh, 25th in the line, and was admittedly the foremost Sikh leader in the North of the Sutlej in the middle of the 18th century.

S. Jassa Singh was the right hand man of Nawab Kapur Singh in the organisation of the Khalsa Dal, and he took a leading part of the Sikh struggle against the Mughal Governors of the Punjab. The most important event of his life was the battle of Sirhind, where the allied forces of Sikhs defeated the Governor Zain Khan and killed him at Manheru near Sirhind in 1762. It was under his guidance that the Sikhs laid the foundation of the Ram Rauni fortress at Amritsar on Baisakhi Day of 1805 B.-March 29, 1748. He died in 1783 and was succeeded by S. Bhag Singh and the latter was sacceeded by his son S Fateh Singh. He was a great friend of Maharaja Ranjit Singh and the two jointly signed their first treaty with the British on January 1, 1806 After him S. Nihal Singh succeeded to the Gaddi. The hereditary litle of " Raja " was conferred on him by the British in 1849 for the services to them during the 1848-49. affairs. He was succeeded by his son, Raja Randhir Singh in 1852. He was rewarded with the title of Raja-i-Rajgan and other privileges of succession and adoption and, in addition, the territories in Agra and Oudh. He died in 1870. His son Raja Kharak Singh, resigned for seven years and, on his death in 1877, was succeeded by his five year old son, Maharaja Jagatjit singh. He was a great scholar and traveller. He made Kapurthala S city of beautiful palaces and gardens.

On the 20th of August, 1948, during the time of Maharaja Jagatjit Singh, who ruled for sixty years and died on the 19th of June 1949, the State was integrated into the Patiala and East Punjab States Union and the district Kapurthala, along with seven other districts came into existence. Maharaja Jagatjit Singh was succeeded by Maharaja Paramjit Singh.

Bhunga Tahsil and four Bastis near Jullundur were transferred to Hoshiarpur and Jullundur districts respectively, in January, 1950.

Population.

With a population of 2,95,071, the district stands sixth in the order of population among the eight districts of the Patiala and East Punjab States Union. The density of the district comes to 467 persons per square mile. The Phagwara Tahsil has, however, a very high density of 736 persons per square mile. The density of the Kapurthala Tahsil is 397. The population of each tahsil is as below :—

Education and Literacy.

Out of the total population of 2,95,071 persons of the district, 45,190 persons including 30,810 males and 14,380 females have been found to be literate giving a percentage of 15·31. Their further division among the agricultural classes and non-agricultural classes comes to 16,033 persons (including 12,220 males and 3,813 females) and 29,157 persons (including 18,590 males and 10,567 females) respectively.

In addition to the above, there are 19 girls primary schools, 2 Industrial Schools, one for boys and one for girls, and 3 recognized Hindi Sanskrit Pathshalas in the district.

Agriculture.

The whole of the district lies in the alluvial plain and hence most of the area is available for cultivation. With the completion of the Bein Project which is under construction, an area of 40,000 acres of land in the vicinity of Kapurthala will be irrigated and thus the agricultural produce of the district is likely to be increased considerably. Generally two crops are sown *viz*. Rabi and Kharif. The Rabi crops are wheat, barley, gram, oilseeds, tobacco, *toria tara-mira* while the Kharif crops are rice, Bajra, Jowar, Maize, Moong, Moth, Til, cotton, Sugar-cane and Chari.

Co-operation.

The Assistant Registrar Co-operative Societies is the local head of the department. The Co operative movement in the Kapurthala District may be traced out from the year 1912 when the Government of India passed the Co-operative Societies Act II, 1912 applicable to the Co-operative Movement throughout India. This Act was adopted by the Kapurthala State Government in the same year and the first Co-operative Society was registered on 6th June 1912. From the very beginning, the movement grew up with fast and steady progress consisting of one Central Co-operative Bank two Unions and 292 Primery Societies upto the year 1947. With the migration of the Muslims, the movement received a great setback and it remained slack upto 1948, when the Pepsu Gove nment took over the charge of the Depa tment in December, 1948. The Assistant Registrar Co-operative Societies is incharge of the Kapurthala Circle comprising the districts of Kapurtrala and Fatehgarh Sahib. In Kapurthala Sub-Circle, there

is one Inspector, 3 Sub-Inspectors, 3 Clerks and 3 Peons. The separate figures for the Kapurthala District regarding the number of societies, membership and the working capital are not available. Industries.

Although there are no mines in the district (except some Kankar quarries and saltpetre found at places) yet the district has made a good progress in industries. The sugar mills at Hamira and Phagwara and the Cotton Textiles Mills at Phagwara have won a name for the district. All the three mills provide employment to several hundred workers. Besides the sugar mills at Hamira, there is a distillery called the "Jagatjit Distilling and Allied Industries Ltd.". At Kapurthala, the industries like oil pressing, glass, copper and brass, tanning, cycle bell industries, general engineering, cotton ginning, and rubber industries are also flourishing while at Phagwara Jagatjit Starch Mill, iron works, copper and brass, general engineering etc. are making steady progress. Sultanpur is famous for *Gabrun* and Bed Sheets. Other minor industries like coarse Khaddar and preparation of ag icultural implements are carried on in almost every big village.

Local Bodies and Panchayats.

The urban population of the district has been found to be 64,406 as against the total population of 2,95,071 in the district. The following local bodies are functioning in the district :—

1. Kapurthala Municipal Committee.
2. Phagwara Municipal Committee.
3. Sultanpur Municipal Committee.

4. Hadiabad Municipal Committee.
5. Dhilwan Small Town Committee.

32 Adalti Panchayats and 129 Nagar Panchayats are being constituted in the villages.

Rehabilitation of displaced persons.

The Muslim evacuees have left 1,01,315 standrad acres of land out of which 87,107 standard acres have been allotted on quasi permanent basis to the displaced persons while steps are being taken to have the balance allotted, though the displaced persons are reluctant to accept it. This district has accommodated the next largest number of displaced persons 84,696-among the eight districts of the Patiala and East Punjab States Union (the district of Patiala has accommodated the largest number of 1,19,518 displaced persons). In order to accelerate the rehabilitation of the displaced persons, taccavi loans to the amount of Rs. 14,80,883/4/- have been distributed to them

Out of 519 villages where 21,200 evacuee houses were available for allotment, allotment has been made in 445 villages with 10,621 habitable houses The remaining houses are unfit for allotment. Out of 7,947 vacant sites available for allotment 4,062 have been given to the displaced persons in allotment.

Places of interests.

Kapurthala.

Kapurthala is the headquarters of the district Previously, it was the capital of the earstwhile Kapurthala State. It is situated at a distance of 11 miles from Jullundur City towards the west. It is said to have been founded in the early part of the eleventh century, in the time of Sultan Mahmud of Ghazni by Nawab Kapur Singh The most striking building in the town is a fine Hindu Temple called the " Panch Mandir " built by Sardar Fateh Singh. The other buildings worth seeing are the Darbar Hall, the Courts, the Randhir College, the Palaces, the Kothi Villa, the Jumma Mosque, the Randhir Jagatjit Hospital the Jubilee Hall, the Clock Tower, and the Smadh of Maharaja Kharak Singh. There is a Municipal Committee functioning in the town. A brief mention of the industries being carried on here, has been made under the head " Industries ".

Phagwara.

It is situated at distance of 14 miles from Jullundur towards the East and the main railway line from Amritsar to Delhi as well as the Grand Trunk Road pass through the town. It is the Tahsil headquarters of the Tahsil of the same name. It was founded in the reign of the Emperor Shahjahan. It was held by Hindu Jats until Maharaja Ranjit Singh captured it in 1804 and made it over to Sardar Fateh Singh Ahluwalia. The Jagatjit Sugar Mills and the Jagatjit Cotton Textile Mills have brought great prosperity to

the town. It is also famous for its manufacture of hardware and metal goods and is now the centre of considerable trade. A Municipal Committee is also functioning here. Besides Ramgarhia College, Phagwara is also a big grain market.

Sultanpur.

It is situated 16 miles South of Kapurthala and is a Municipal Town A brief history of this town has been given under the head " Archaeology ". There are several places here connected with Guru Nanak Dev, the first Sikh Guru. The buildings of High School, Police Station, Civil Dispensary, Post Office, Veterinary Hospital form the public places. Due to the migration of the Muslims, the town has received a great set-back.

Hamira.

Hamira, formerly a village of no importance except being a railway station on the main railway line from Jullundur to Amritsar, has sprung up into a township on account of the location of the Mahalakshami Sugar Mills and the Jagatjit Distilling and Allied Industries, at this place which is now a busy centre of trade in sugar and country liquor etc.

Sheikhupura.

It is situated on the Sultanpur road towards the South of Kapurthala. Although, at present, it is of no importance, yet it was in the past one of considerable size, and mention of it has been made in the " Ain-i-Akbari ".

Dhilwan.

A small town committee is functioning at this place. It is a big timber market and there exists an E. P. R. Timber Depot and Creosoting Centre. The Grand Trunk Road passes nearby. The Railway Station, Police Station, Post Office, High School building, Dispensary and Office of the Forests Department form the public places. It is also famous for its Indian Shoes and Mangoes

The towns of Dalla and Hadiabad are also old ones but at present are of no importance.

STATEMENT EXPLAINING THE TABLES APPEARING IN A DISTRICT CENSUS HANDBOOK.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. SUBSTITUTION OF ECONOMIC CLASSIFICATION FOR CLASSIFICATION BASED ON RELIGION :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operation ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population :—

AGRICULTURAL CLASSES.

I. **Cultivators of land wholly or mainly owned and their dependants.**

II. **Cultivators of land wholly or mainly unowned and their dependants**

III. **Cultivating labourers and their dependants.**

IV. **Non-cultivating owners of land ; agricultural rent receivers and their dependants.**

NON-AGRICULTURAL CLASSES.

Persons (Including dependants) who derive their principal means of livelihood form :—

V. **Production other than cultivation.**

VI. **Commerce.**

VII. **Transport.**

VIII. **Other services and miscellaneous sources.**

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. THE CONCURRENT 10% SAMPLE.

The Age (Sample) Tables have been prepared from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. PRESERVATION OF CENSUS RECORDS OF REGISTERS.

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following *data* are included in the District Census Handbook and printed and published as such :—

i. **Introduction to the District Census Handbook.**

ii. **District Census Tables (furnishing district *data* with break up for Census tracts, within the district).**

iii. **Census Abstracts : (a) Primary Census Abstracts (b) Occupational Abstracts and (c) census abstracts of Small Scale Industries.**

The following tables have been included in the Handbook.

A. GENERAL POPULATION TABLES.

1. Area, Houses and Population.

(The area figures in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department : No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table.)

VARIATION IN POPULATION DURING FIFTY YEARS.

II. (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of area transferred to and/or from each tahsil have been added to or substracted from the population of that tahsil for the census 1901 to 1941.

III. **Towns and villages Classified by Population.**

IV. **Towns Classified by Population with Variation Since 1901.**

V. **Towns arranged territorially with Population by Livelihood Classes.**

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B. ECONOMIC TABLES.

I. Livelihood Classes and Sub-Classes.

(Non-earning dependants in this table mean economically passive persons *i. e.* who do not earn anything ; and earning dependants implies a person who is semi-active, *i. e.* whose earning do not suffice his living and who has, therefore, to depend upon others ; Self-supporting persons mean economically active persons *i. e.* who do not depend upon others, and are at least able to maintain themselves.)

II. SECONDARY MEANS OF LIVELIHOOD.

Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own ; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases ; the second best source of income has been given in this table as his secondary means of livelihood.)

III. EMPLOYERS, EMPLOYEES AND INDEPENDANT WORKERS.

(The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant workers and are distributed in the various Divisions and Sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive *e. g.* persons living principally on pensions, remittanee, scholarships and fund, inmates of jails, asylums, almhouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self-supporting persons fall.)

C. HOUSE-HOLD AND AGE (SAMPLE) TABLES.

I. Household (size and composition). This table has not been published in the handbook.

II. Livelihood Classes by age Groups.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year age-returns. (Infants below 1 year of age have been shown under the age " 0 ".)

D. SOCIAL AND CULTURAL TABLES.

I. **Language.** This table has not been published in the handbook.

II. **Religion.**

III. **Scheduled castes and tribes.** (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. **Migrants.** (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district.)
