PREFACE

The District Census Handbooks have been compiled in pnrsuance of Govt. of India letter No 5I/2/51-RG, dated 16-3-51 and para 5 of the Memoraudum No. 693/50-RG, dated 2-7-50 at pages 1—3 of the Tabulation Plan.

The District Census Handbook is a collection of the following data :—

1. Introduction which deals with the following items :—

(a) Physical Aspects.
(b) Geology.
(c) Archaeology.
(d) Climate.
(e) Rainfall.
(f) History.
(g) Population.
(h) Administration.
(j) Medical and Public Health.
(k) Education and Literacy.
(i) Agriculture and Co-operation.
(l) Industries.
(m) Local Bodies.
(n) Rehabilitation of Displaced Persons.
(o) Places of Interest.

2. District Census Tables (furnishing district data with break-up for census tracts, within the district). In case of Jullundur District, there are 4 Tahsils Rural Tracts (Jullundar, Nakodar, Phillaur and Nawansheher Tract) are District Jullundur Non-city Urban Tracts and one Jullundur City Urban Tract. There are the following tables for the Jullundur District :—

A-I	...	Area, Houses and Population.
A-II	...	Variation in population during fifty years.
A-III	...	Towns and villages classified by population.
A-IV	...	Towns classified by population with variation since 1901.
A-V	...	Towns arranged territorially with population by livelihood classes.
B-I	...	Livelihood Classes and Sub-Classes.

B-II ... Secondary means of livelihood.

B-III ... Employers, Employees and Independant Workers.

C-II ... Livèlihood Classes by age group.

C-III ... Age and Civil Condition.

C-IV .... Age and Literacy.

C-V ... Single year age return.

D-II ... Religion.

D-III ... Scheduled Castes and Schedued Tribes.

D-IV ... Migrants and Subsidiary.

D-V ... Displaced persons by district of origin, and date of arrival in India.

D-VI ... Non-Indian Nationals.

D-VII ... Livelihood classes by educational standards.

E ... Summary figures by districts.

District Index.

Sorter's Ticket 2.

3. Census Abstracts :—

(1) Primary Census Abstracts.

(2) Census Abstracts of Small Scale Industries.

INTRODUCTION

PHYSICAL ASPECTS.

The District of Jullundur is in the Jullundur Division lying between 30° 57′ 05″ and 31° 32′ 00″ North and 75° 04′ 10″ and 76° 15′ 50″ East. In the apex of the Bist Doab, or territory included between the Beas and Sutlej. Under the (Absorption of Enclaves) order, 1950, four *bastis* namely Basti Nau, Basti Sheikh, Kotla and Kot Saddiq with an area of ·84 square miles have been transferred from the Kapurthala District (PEPSU) to this district, which now has a total area of 1331·3 square miles.

The District is bounded on the North by the Hoshiarpur District ; on the south by the districts of Ferozepur and Ludhiana, on the East by the districts of Ludhiana and Hoshiarpur and on the west by the district of Kapurthala (PEPSU).

The District is divided into four tahsils, Jullundur comprises its northern portion and Nawanshahar, Phillaur and Nakodar the southern, lying in that order from east to west and all washed by the Sutlej. The Headquaters of the district are at the town of Jullundur, which is also the headquarters of the Division.

The submontane portion of the Bist Doab lies in Hoshiarpur, the rest is divided between Jullundur and Kapurthala. Below the hills the whole Doab is an expanse of alluvial soil considered to be the garden of the Punjab. Here and there an admixture of sand in the top soil causes a few acres to be left uncultivated, but with this exception the whole district is one large field richly cultivated from e .d to end[1].

The main natural sub-divisions of the district are:—

I. The Sutlej lowlands, which comprise the Nawanshahr and Nakodar Bet assessment circles and 17 villages of Phillaur, or 245 villages in all.

II. The uplands east of the Bein stream, which comprise the Dhaia Bet, Dhak and Retli circles of Nawanshahr, the whole of Phillaur, with the exception of its 17 Bet villages, and the Manjki and Dhaia Bet circles of Nakodar, or 566 villages in all.

1. Reproduced from the Jullundur District Gazatteer, 1904 page 1

III. The uplands west of the Bein, which comprise the Dona circle of Nakodar and the whole of the Jullundur tahsil (that is, the Dona and Sirwal circles)[1]

The greater part of the district belongs to the basin of the Sutlej; and only a small portion, in the north, to that of the Beas. The Sutlej enters this district near Rahon, and flowing close to Phillaur and Talwan, joins the Beas at Hari Ke Pattan. The Jullundur Doab received the drainage of the Siwalik Hills, the drainage channels of which eventually unite in two streams known as the East or White Bein and the West or Black Bein. Besides, there are a number of *chos* or hill torrents and small water courses.

GEOLOGY.

The economic geology of the district has no feature of outstanding importance.

ARCHAEOLGY:

Jullundur contains no monuments of the early Hindu period unless we count the tank of Gupha in Jullundur, said to be the bathing place of the demon Jalandhara, and the tank of Bhikamsar at Muhammadpur near Alawalpur, said to have been dug by Bhisham Pitama, grand fater of the Pandavas. There are mounds at Malsian and Nakodar supposed to be the ruins of ancient towns or villages. The earliest Muhammaden buildings are the shrine of Immam Nasir-ud-din (15th century) and the Jama Masjid and Hafiz Alamgir Masjid in Jullundur. The Mosque and tomb of Shaikh Darvesh in Basti Sheikh Darvesh are fair specimens of the Pathan style of architecture. The tombs of Nakodar, dated 1612 A.D. and 1657 A.D. and Barahdari at Nawashahr are also handsome buildings. The only Sikh buildings of religious importance are those at Kartarpur. The fort at Phillaur was got built by Maharaja Ranjit Singh. Tara Singh Ghaiba's fort at Nakodar and Diwan Mohkam Chand's tomb at Phillaur may also be mentioned. There are *Naugazas* at Rahon, Jullundur and between Alawalpur and Kartarpur[2].

CLIMATE:

The climate is, for the plains, temperate. With the exception of the latter half of June, and July if the rains have not come, the heat in ordinary years is not excessive, and hot nights are few. About the end of March the rise in temperature becomes perceptible and goes on till the rains, which usually break the first week in July and clear off about the middle of September. After that the mornings begin to get cool, and by the end of October the cold weather has regularly set it. Frosts are light, and occur mostly

2. Reproduced from the Jullundur District Gazetteer, 1904 pages 46-47.

in the second week of February, after which the cold weather proper ceeses, and the high winds announcing the advent of hot season, begin.

RAINFALL:—

The average rainfall for the decade ending 1940—49 is shown below for the four tahsil towns of the district:

			Inches
Nawashahr	...	...	30·88
Jullundur	...	...	26·16
Phillaur	...	...	24·44
Nakodar	...	...	22·47

HISTORY:

The following account regarding this district has been taken from the Jullundur District Gazetter 1904.

The district takes its name from its headquarters town, Julludur so called after the demigod Jalandhara. It was when visited by Hweng Thsang the capital of a considerable State ruled over by katoch chiefs, the town itself being more than two miles in circuit. Jullundur was taken by Ibrahim Shah of Ghor, 1179—80 A.D.[1], and was a place of considerable importance in the struggle between Jasrath Khokhar and the Muhammadan Governors in 1422—42.

Under the Mughal Emperors Jullundur was always the capitar of the northern and most important portion of the Jullundul Doab which then extended to the neighbourhood of Multan (Pakistan) in fact of the whole of the Dorb, as it is now constituted. The last Muhammadan Governor Adina Beg died in 1758, having in the previous year allowed Guru Badbhag Singh of Kartarpur to burn Jullundur in revenge for the destruction of Kartarpur by Ahmad Shah in 1756.

In A.D , 1766 Jullundur fell into the hands of the Sikh *misl* of Faizullapuria than under Khushhal Singh. His son Budh Singh, who succedded him as head of the *misl*, built a masonry fort in the city, the site of which is now occupied by the *Killa muhalla*, while several of the other leaders built forts of unburnt brick. In 1811 Diwan Muhkam Chand was sent by Ranjit Singh to annex the Faizullapuria possessions in the Jullundur Doab, and Sardar Budh Singh fled to his protected possessions across the Sutlej. His troops made some resistance, but gave up Jullundur in October. From this time it was the capital of the possessions of the Lahore State in the Jullundur Doab, until annexation to the British

1. Reproduced from the Jullundur District Gazetteer, 1904 pages 46-47.
2. Reproduced from the Jullundur District Gazetteer, 1904, page 18.

dominion after the Sikh War of 1845—46. It then became the headquarters of the Commissionership of the Trans-Sutlej States, now known as the Commissionership of Jullundur.

POPULATION.

The population of the district as censused in 1951 is 1,055,600 and the density per square mile of the district is 793.

The detail of the population, tahsilwise is given below:—

Jullundur	...	...	459,069
Nawanshahr	...	...	224,401
Phillaur	...	...	209,795
Nakodar	...	...	162,335
		Tatal	1,055,600

The following table shows the variations in population of the district during the past sixty years:—

Year	Persons	Variation	Net Variation
1891	907,583	...	...
1901	917,587	+10,004	...
1911	801.920	—115,667	...
1921	822,544	+20,624	...
1931	943,721	+121,177	...
1941	1,127,190	+183,469	...
1951	1,055,600	—71,590	+ 48,071

The following table shows the density per square mile in the district since 1901:—

Year.	Density.	Year.	Density.
1901	694	1931	713
1911	606	1941	845
1921	622	1951	793

The following table shows the the pattern of livelihood of the population of this district:—

Livelihood Class.	Persons.
I. Cultivators of land wholly or mainly owned and their dependants.	252,800
II. Cultivators of land wholly or mainly unowned and their depedants.	135,048

III.	Cultivating labourers and their dependants.	94,022
IV.	Non-cultivating owners of land, agricultural rent receivers and their dependants.	38,150
V.	Production other than cultivation.	114,960
VI.	Commerce.	122,358
VII.	Transport.	15,368
VIII.	Other services and Miscellaneous sources.	2,82,804
	Total	1,055,600

ADMINISTRATION

The District is in chage of a Deputy Commissioner under the control of the Commissioner of the Jullundur Division whose headquarters are at Jullundur. The district is divided in to four tahsils—Jullundur, Nakodar, Phillaur and Nawanshahr for administrative purposes. Each tahsil is in the charge of a Tahsildar who is assisted by a Naib Tahsildar.

In the performance of the revenue work of the district the Deputy Commissioner is assisted by a Revenue Assistant. Owing to the rehabilitation work connected with the allotment of land to displaced persons a separate Revenue Assistant has been attached to the District for rehabilitation work.

The District and Sessions Judge is the administrative head of Judicial work in the district. For civil work there is a Senior Sub-Judge and 5 Sub-Judges. For criminal work there are 8 Magisterates Class I. The Tahsildars and Naib Tahsildars also exercise magisterial powers of second and third class respectively.

The Superintendent of Police is incharge of the Police strength of the district. He is assisted by Deputy Superintendents of Police and Police Inspectors.

MEDICAL AND PUBLIC HEALTH:—

The Civil Surgeon is the incharge of Medical while the District Medical Officer of Health looks after the public health in the district.

There are 44 hospitals and dispensaries functioning in the Jullundur district, out of which 2 are State Public, 3 State Special, 13 run by local bodies, 8 rural, 11 subsidized, 4 Railway and 3

private non-aided dispensaries. The first aid dispensary Model Town, Jullundur was closed during the year 1950. The rural and subsidized dispensaries are under the control of District Medical Officer of Health where as with the exception of Railway and private non-aided dispensaries, all medical institutions are under the charge of Civil Surgeon, Jullundur. In all 509 beds (365 males and 144 females) have been provided in all classes of institutions.

The Civil Hospital, Jullundur is well equipped and modernized and a medical library has been started in the civil hospital for the use of the staff as well as the private Medical Practitioners.

PUBLIC HEALTH

As has been mentioned above, the public health work is under the charge of District Medical Officer of Health. The district is considerd healthy on the whole but malaria, however, prevails in the riverain tracts along the River Sutlej and the Bein during the rainy season. There are two health centres at Jullundur City maintained by District Red Cross Society and the other at Goraya run by the District Board, Jullundur. Each of the health centres has two sub-centres located in rural areas and these are under the charge of the Lady Health Visitor.

There are 13 vaccinators in the rural areas of Jullundur District, out of whom 9 vaccinators have their headquarters at Police Stations, and do vaccination and inoculation when needed. There is also one mobile corps consisting of 12 Sanitary Belders for anti-epidemic work in the district.

EDUCATION AND LITERACY

The District Inspector of Schools is the local head of Depertment in the District. There are 8 Colleges, including 2 colleges for Girls and one Law College, 40 High Schools for boys and one for girls, 25 Middle schools for boys and 12 for girls 417 Primary Schools for boys and girls in the district. In addition to this there is one Training School for boys, & 6 Educational Centres for boys and one for girls.

According to 1951 Census, the percentage of literates in the district is 10·5 (males) and 5·3 (females).

AGRICULTURE AND CO-OPERATION

There are six chief classes of soils—clay soils, ordinary loams, alluvial loams, sandy soils, miscellaneous soils and manure land found in the district. More than one fourth of the total area of

the district is irrigated. About half the district is protected by wells. The rainfall of the district is, as a rule, in sufficient abundance for its wants. Total area available for cultivation in the district is 590,640 acres.

The main *Rabi* crops of the district are wheat, gram, barley, tobacco. *masur* and *alsi*. The main *Kharif* crops are *Jowar*, *bajra*, maize, *chari*, cotton, *moong*, *moth' mash*. Besides, all sorts of vegetables like potatoes, *arbi*, cauliflowers, cabbages, tomatores, peas, ladie's fingers, *Karelas* etc. are grown in plenty,

There are 1738 primary co-operative societies in the district.

INDUSTRIES.

Jullundur District is an important industrial centre of the province. Some of the industries are well established here and contribute a major portion to the industrial out-put of the State. The most important of which are Engineering, Sports, Rubber Goods, Textile and Leather tanning. A brief account about these is summarized as follows:

ENGINEERING.

It is the major indutry of the district and can be studied under the following heads.

(*a*) AGRICULTURAL IMPLEMENTS.

There are 87 concerns engaged in the manufacture of various agricultural implements like chaff-cutting machines, Persian Wheels, Ploughs, and Crushers etc. Out of these 42 are registered factories. The industry gives employment to about 2,000 workers, and the investment amounts to about Rs. one crore. The quantity of various goods produced annually is estimted as below:—

Chaff cutters 5500 Tons worth Rs. 20,00,000/-

Others 3000 Tons worth Rs. 12,00,000/-

The annual installed capacity of the industry is 12,000 Tons, of which c.c.machines command a major portion. 90% of the goods produced are exported to places in other States. This industry is located at Jullundur, Goraya, Phillaur and Nawanshahar.

(*b*) CYCLE PARTS.

Cycle parts manufacturing is another achievement of the district. 41 concernes are engaged in it. The industry gives employment to nearly 600 persons, and comprises an investment of Rs. 5 lacs. Almost all the cycle parts except chains, Fly-Wheel

are manufactured here. The industry has mainly developed after partition. Approximate production amounts to worth Rs. 3 lacs per year.

(*c*) MACHINE TOOLS.

28 factories are engaged in the manufacture of machine tools. The principal centres of location of the industry are Goraya, Jullundur, Boparai. The industry has an investment of about Rs. 15 lacs with an employment of 500 workers. The annual production amounts to worth Rs. 10 lacs.

(*d*) FOUNDRIES.

There are 32 foundaries working in Jullundur District. Nearly 575 persons are employed in these concerns The approximate quantity of goods produced annually is 1500 Tons worth Rs. 12 lacs. The principal centres of location are Jullundur, Rurka Kalan, Nawanshahr and Phillaur.

(*e*) RE-ROLLING MILLL.

Two re-rolling mills are working in Jullundur, and a third big-rolling mill is under construction. The industry has an investment of Rs. 3 lacs. Nearly 1200 Tons of material is re-rolled every year.

(*f*) In addition to the above, there are 5 factories engaged in the manufacture of sewing machine parts, 12 factories manufacturing non-ferrous metal goods. 7 concerns do manufacture of Reflex Horns and Radio Assembling. The number of other miscellaneous engineering concerns are estimated at 150, with an investment of Rs. 2½ lacs.

SPORTS.

After the partition, the sports goods industry has been located at Jullundur, and has succeeded in recapturing its export markets. There are nearly 200 concerns engaged in the manufacture of sports goods like tennis balls, Hockey sticks etc. The industry gives employment to nearly 1500 persons and goods of all types are manufactured. Most of the goods manufactured are exported to other places in India and Foreign countries. The industry has an annual capacity worth Rs. 25 lacs, and the average annual production amounts to worth Rs. 15 lacs.

RUBBER GOODS.

The manufacturing of rubber toys and rubber belting has also sprung up after partition. Nine concerns are engaged in

these manufacture of rubber goods. The annual capacity of the industry is worth Rs. 5,00,000/- while goods worth Rs. 2,00,000/- are produced annually.

TANNING.

Tanning of raw hides and skins is an other important cottage industry carried on cottage basis in the district. Jullundur is the main tanning centre. The two big concerns located here are the Government Tanning Institute and Jullundur Tannery. The tanning by indigenous methods is also done here and there are many concerns doing tanning by bag methods The Governments Tanning Institute is not a commercial establishment, yet it produce leather worth Rs. 12,000/- annaully. Nearly 200 families are engaged in tanning work in the district. The partition of the country and consequently the exodus of Muslims has affected this industry adversly, by causing shortage of skilled labour. The industry is now well rehabilitated and has an annual capacity of worth Rs. 20 lacs, though leather worth Rs. 5 lacs is produced annually

HEAD LOOM WEAVING.

Hand Loom weaving, which is the largest of the cottage industries of the district, has an installed capacity of nearly 4,000 looms engaged in the production of cloth and art silk cloth. The fly-shuttle looms—an improved mechnism by hand—account for 50% of the industry. The principal centres of location are Jullundur, Banga and Nawanshahar.

The manufacture of Durries is centralised at Nakodar. About 20 concerns do this work, and durries of all types and designs are prepared there.

Hosiery industry has an installed capacity of producing goods worth Rs. 3 lacs, though actual production amounts to worth Rs. one lac annually.

WOOD WORKING.

Kartarpur is the biggest centre of the province for wood working. There are about 50 concerns engaged in the manufacturing of various kinds of furniture. Annual Production of goods falls worth Rs. 3 lacs approximately.

Utensils making, Soap making, Bamboo Chick-making are some of the other cottage industries carried on in the district.

Besides the above industries, the Department of industries is also running various institutions, schools, and Centre in the

District; where the training is imprated in different crafts. The following are the regular centres and Industrial Institutions existing in the District :—

GOVERNMENT TRAINING INSTITUTE :—

This institute is located at Nakodar Road at about a distance of about 1½ mile from the city and imparts training in the Tanning of leather with the help of machinery and with scientific methods. The course of study exists to 2 years and sanctioned strength of training is about 40 students in class A & B.

In class A the education is being given to only Matriculates while in B class, some of hereditory tanners are being given training.

WOOD WORKING INSTITUTION :—

This institution is located at Ladowali Road at about a distance of about 1½ mile from the city and imparts training in the manufacture of furniture of all types, along with training in Drawing and other crafts. The course exists to 3 years and the sanctioned strength of students is 40. Besides this a number of casual students is also admitted in this institution.

GOVERNMENT INDUSTRIAL SCHOOL FOR GIRLS :—

This school is located in Mohalla Charanjitpura and can provide training to 60 girls. The period of training exists to 2 years and the following crafts are taught therein :—

1. Tailoring.
2. Cutting.
3. Hand Embroidery.
4. Machine Embroidery.
5. Silma Tilla.
6. Knitting.

A commercial class has also been attached to this institution, where orders are booked for various articles manufactured.

LOCAL BODIES AND PANCHAYATS.

There is one District Board, 7 Municipal Committees, one Cantonment Board and 5 Small Town Committees in the district.

Total number of Panchayats in the district is 643 covering 720 Villages in the District.

REHABILITATION OF DISPLACED PERSONS.

Total number of displaced persons who have settled in this district is 273,625, out of whom 60% have settled in the rural areas and the rest in towns.

A new township (Model Town at Jullundur) wirth 500 houses and 710 plots and two mud hut colonies with 2500 Mud Huts have been built and 1000 cheap houses of 8 marlas each are under construction. The displaced persons accommodated so far in the Modal Town, Mud Hut colonies and eight marlas houses are 3500, 12131 and 120 respectively. There are two Special Homes, Gandhi Vanita Ashram, where in 1461 unattached women and children reside and Sewa Sadan Camp, where in 194 unattached women and children have been accommodated. There are four work centres started by the Industrial Department—Sports (now closed), Leather Works, wherein 15 persons are employed, Laundry, wherein 24 persons are employed and Tailoring, wherein 27 persons are employed. A Vocational Training Centre has been opened by the Industrial Department in the Gandhi Vanita Ashram, where sewing, embroidery and toy making are taught to 146 displaced women. An Industrial Colony is under construction near Gandhi Nagar Camp.

The displaced persons who have settled in the urban area of the district are mostly shop-keepers, who are running their shops. Two shopping centres have been constructed for them. The sports manufacturers coming from Sialkot (Pakistan) have settled in this district and their business is flourshing. The leather industry is also in progress in this district. The factories manufacturing iron and steel goods belonging to the Muslim Evacuee have been leased out to the displaced persons. 282,453 acres of evacuee agricultural land in this district has been distributed to the displaced persons on quasi-permanent allotment basis.

PLACES OF INTEREST.

Jullundur City. It is the headquarters of the district. The places of interest in this city are Devi Talab, Civil Hospital, Company Gardens, Railway Station, District Courts, Colleges for Boys and Girls, and number of other official buildings and objects of religious and antiquarian interest.

Jullundur Cantt. Jullundur Cantonment, established in 1846, lie 4 miles to the south-east of the city. There are a Post and Telegraph Office, Dak Bungalow, two High Schools and one Military School here.

Kartarpur. It is situated 9 miles from Jullundur on the Grand Trunk Road. It is a sacred place of the Sikhs, where a grand fair is held every year on the Baisakhi Day. It is a famous market for furniture and all kinds of wooden articles.

Daruli. It is a big Mahton village about 12 miles north-east of Jullundur City. It possesses a large fort.

Nakodar. It is the headquarters of the Nakodor Tehsil. It is a wealthy municipal town, situated 15 miles from Jullundur on a metalled road. It possesses two fine Muhammaden tombs.

Malsian. This is an old town, situated 8 miles west of Nakodar. Adjoining it is a great mound in which Indo-Bectrian coins have been found. It makes buttons from shells got in the Bein river, and dyeing of wool is carried on to a great extent.

Mahatpur. It is a village in the Nakodar tahsil, situated about 5 miles south of Nakodar, over looking the lowlands. It is of considerable entiquity. and is mentioned in the *Ain-i-Akbari* under the name of Muhammadpur.

Phillaur. It is the headquarters of the Phillaur Tahsil, situated on the right bank of the Sutlej, 27 miles south-east of Jullundur, on the Grand Trunk Road. There is an old fort here, which is occupied by the Police Training School at present. Near the Railway Station as a *Baradari* and *Thakurdwara.* Its chief commercial importance is as a timber *depot.*

Nur Mahal. It is situated 13 miles from Phillaur and 8 miles from Nakodar. There is an old imperial *sarai,* which Nur Jahan the consort of the Emperor Jahangir, got constructed here between 1028 and 1030 A.H. (1619-21 A.D.) and is a remarkable specimen of oriental architecture. On the other side of the town from the *Serai* is the tomb of Fateh Ali Shah built in 1071 A.H. (1660-01 A.D.).

Talwan. It is avillage in Phillaur tahsil built on the uplands of the Sutlej. The pilgrimage to the shrine of Pir Banohi starts here. It is a very ancient place.

Nawanshahr. It is the headquarters of the Nawanshahr Tahsil, situated on the metalled road joining Jullundur to it via Phagwara (35 miles from Jullundur). There are an ancient fort and *Barahdari.* The latter is used as a District Board Rest House.

Banga. It is situated 1/82 miles from Nawanshahar and 27 miles from Jullundur and is a town of recent origin. There are 2 mosques and 8 temples in the town. The chief trade of the town is in grain; *gur* and *khaddar* cloth.

Rahon. It is situated in Nawanshahar tahsil 5 milies from Nawanshahar. It is said to have been founded 2,000 years ago by Raja Raghab, who called it Raghupur. Many ruins in this place show that it was at some time a town of considerable importance.

LAKSHMI CHANDRA VASHISHTA.

STATEMENT EXPLAINING THE TABLES

Appearing in a District Census Handbook.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :-

1. *Substitution of Economic Classification for clasification based on Religion :*—In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operations ; and thus certain Census characteristics were cross tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population .—

AGRICULTURAL CLASSES

I. Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land ; agricultural rent receivers and their dependants.

NON-AGRICULTURAL CLASSES

Persons (including dependants) who derive their principal means of livelhood from :—

V. Production other than cultivation.

VI. Commerce.

VI. Transport.

VIII. Other services and miscellaneous sources.

The resulting figures have been given in the Primary Census Abstracts which serve as the basis for village statistics.

2. *The Concurrent 10% Sample :*—The Age (Sample) Tables have been prepard from the enumeration slips by taking a 10% sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. *Preservation of Census Records and Registers :*—In the past, the abstract, (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following data are included in the District Census Handbook and printed as such:—

I. Introduction to the Distract Census Handbook.

II. District Census Tables (furnishing district data with break up for Census tracts, within the district).

III. Census Abstracts, (a) Primary Census Abstracts (b) Occupational Abstracts and (c) Census Abstracts of Small scale industries.

The following tables have been included in the Handbook.

A.—GENERAL POPULATION TABLES

I. *Area, Houses and Population.* The area figures given in this table have been supplied by the Dupty Commissioners of the districts and hence do not tally with the area figures maintained by the Survey Deptt: No. of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; un-occupied houses do not figure in the table).

II. *Variation and Population during fifty years* (The population figures given in this table for the previous censuses have been adjusted, taking into consideration the adjustment of enclaves during the period 1941-51. Population of areas transferred to and or from each tahsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941).

III. *Towns and Villages Classified by Population.*

1V. *Towns Classified by Population with Variation since 1901*

V. *Towns Arranged Territorially with Population by Livelihood Classes.* (In this table figures for livelihood classes I to 111. have not been given separately but have been clubbed together).

B--ECNOMIC TABLES.

I. *Livelihood Classes and Sub-Classes* (Non-earning dependants in this table mean economically passive persons i.e. who do not earn anything ; and earning dependant implies a person who is semi-active, i.e. whose earnings do not suffice his living and who has, therefore, to depend upon others ; self-supporting persons means economically active persons i.e. who do not depend upon others; and are at least able to maintain themselves.

II. *Secondary means of Livelihood.* Non earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self supporting person may have more than one means of livelihood in some cases the second best source of income has been given in this table as his secondary means of livelihood.)

III. *Employers, Employees and Independant Workers* (The self supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independant Workers and are distributed in the various divisions and sub-divisions of Industries and Services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive e.g. persons living principally on pensions, remittances, scholarships and funds, inmates of jails, asylums, almshouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-divisions in which no self-supporting person falls).

C—HOUSEHOLD AND AGE (SAMPLE) TABLES.

I. *Household* (*size and composition*) This table has not been pubsished in the handbook.

II. *Livelihood classes by age Groups.*

III. *Age and Civil Condition.*

IV. *Age and Literacy.*

V. *Single year Age returns.* Infants below 1 year of age have been shown under the age '0'

D—SOCIAL AND CULTURAL TABLES.

I. *Language.* This table has not been published in the handbook.

II. *Religion.*

III. *Scheduled Castes and Tribes.* (The fly-leaf of this table gives the number of Anglo-Indians which have been included in the figures of Christians in Table D-II).

IV. *Migrants.* (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district).

V. *Displaced Persons.* (For Census purposes, a displaced person was taken to mean "any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan." But some persons, who had migrated to India from Western Pakistan even before 1st March, 1947, returned themselves as displaced persons at the time of Census taking for the simple reason that they had left their immovable property in Pakistan: such persons have also been included in the definition of 'Displaced Persons'.)

VI. *Non-Indian Nationals.*. (This table was not prepared in the previous censuses : it has been based on a suggestion made by the U. N. Population Commission.)

VII. Livelihood Classes, by Educational Standards. (This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes).

E—SUMMARY FIGURES BY DISTRICTS.

This table furnishes selected data by Tahsils/tracts in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 population figures has been given after giving effect to the adjustment of enclaves).

*The Figurs for both male and female Literates are incumplete. On account of Fire, the National Register of this Village was partly destroyed. The Figurss, therefore, represent only that part of the National Register which was not affected by the fire.

NOTE—Figures of Literates have not been filled in for some villages under the Colum 9 and 10. These are the villages whose National Registers were destroyed by fire and hence this information could not be made available.

*The Figurs for both male and female Literates are incumplete. On account of Fire, the National Register of this Village was partly destroyed. The Figures, therefore, represent only that part of the National Register which was not affected by the fire.

NOTE—Figures of Literates have not been filled in for some villages under the Colum 9 and 10. These are the villages whose National Registers were destroyed by fire and hence this information could not be made available.
