A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Punjab bear Volume No. XIII, and are bound separately as follows :—

Part I-A	..	General Report
Part I-B	..	Report on Vital Statistics
Part I-C(i)	..	Subsidiary Tables
Part I-C(ii)	..	Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B(i)	..	General Economic Tables (Tables B-I to B-IV, B-VIII and B-IX)
Part II-B (ii)	..	General Economic Tables (Tables B-V to B-VII)
Part II-C (i)	..	Social and Cultural Tables
Part II-C (ii)	..	Migration Tables
Part III	..	Household Economic Tables
Part IV-A	..	Report on Housing and Establishments
Part IV-B	..	Tables on Housing and Establishments
Part V-A	..	Special Tables on Scheduled Castes and Scheduled Tribes
Part V-B	..	Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI	..	Village Survey Monographs 44 in number, each relating to an individual village
Part VII-A	..	Report on Selected Handicrafts
Part VII-B	..	Report and Tables on Fairs and Festivals
Part VIII-A	..	Administrative Report Enumeration (Not for sale)
Part VIII-B	..	Administrative Report: Tabulation (Not for sale)
Part IX	..	Socio-Economic Atlas

PREFACE

The main reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections and by students of social sciences interested in local problems. It was, therefore, decided to continue with this series at the 1961-census. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some very useful information collected from various State Departments has been included in it, trying to make it a self-contained book of reference for the District.

The book is divided into four parts. Part I is mostly descriptive and consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry, co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. Then comes a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing the location of educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply; area; number of occupied residential houses and households living therein; population; persons belonging to Scheduled Castes and Scheduled Tribes; number of literate and educated persons; number of workers in nine broad industrial categories; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population in the District by dots: the population of towns is shown by proportionate circles; and of rural areas by dots, one dot representing 200 persons. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared in the Cartographic Section in the State Census Office, jointly by Kumaris Ranbir Sokhi and Satwinder H. Singh, both M.As. in Geography.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant and Shri Vishwa Mitter, Supervisor, under the supervision of Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, for preparing the Tables presented in Part II and of Shri Goverdhan Dass Singla, Statistical Assistant and Sarvshri Dharam Paul Jain and Joginder Nath Suri, Tabulation Assistants, under the supervision of Shri Pawan Kumar, Tabulation Officer, for preparing the Tables presented in Parts III and IV.

Shri Sita Ram, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the various parts of the Jullundur District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K. C. Kuriyan, Controller of Printing & Stationery, Punjab, and his Deputy, Shri Pawittar Singh Walia, for their personal attention in the printing of the book.

R. L. ANAND,

Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Jullundur is one of the nine Districts forming the Commissioner's Division of Jullundur. It lies in the Bist Doab, the territory lying between the Sutlej and the Beas Rivers. Its area is 1,342.2 sq. miles, and its population at the 1961-census was 1,227,367. It is quite fertile and is most densely populated. Administratively it is divided into four Tahsils; Nakodar, Jullundur, Nawashahr and Phillaur. Jullundur Tahsil comprises the northern portion, and Nakodar, Phillaur and Nawashahr Tahsils lie side by side from west to east in the south.

Name, location and boundaries.—The District is named after Jalandhara, a demon-king about whom more will be said in the section dealing with history of the District. The District lies between 30°-97′-05″ and 31°-32′-00″ north latitude and 75°-04′-10″ and 76°-15′-50″ east longitude. It occupies the apex of the Bist Doab and is an irregular triangular in shape whose one side is dented by Phagwara Tahsil of Kapurthala District which projects some 15 miles into it. The Sutlej forms the base of the triangle and separates the District from Ludhiana and Ferozepur Districts in the south. Hoshiarpur District lies to the east and north of the District and Kapurthala District to the west.

Area (Table A-I)*.—The area of the District is reported to be 1,335 sq. miles by the Surveyor General of India and 1,342.2 sq. miles by the Director of Land Records, Punjab. The difference between the two sets of figures is due to the different methods of measurement adopted by the two agencies. In this book, unless otherwise stated, the figures as supplied by the Director of Land Records, Punjab, and which are also referred to as the figures according to the village papers, have been adopted.

Among the four Tahsils of the District the area is divided as follows:—

Tahsil	Area (sq. miles)		
	Total	Rural	Urban
Nakodar	364.4	363.3	1.1
Jullundur	389.4	364.0	25.4
Nawashahr	299.3	295.6	3.7
Phillaur	289.1	286.7	2.4

Jullundur is the fourth smallest District of the State, the three still smaller Districts being Ludhiana (1,324 sq. miles), Kapurthala (630 sq. miles) and Simla (267 sq. miles). There has been no change, either inter-District or intra-District, in the area of the District between 1951 and 1961.

PHYSICAL FEATURES

The main natural sub-divisions of the District are:—

(i) The Sutlej lowlands comprising the *Bet* area of Nawashahr, Nakodar and Phillaur Tahsils;

(ii) The uplands east of the Bein stream; and

(iii) The uplands west of the Bein stream.

The old north bank of the Sutlej divides Nawashahr, Phillaur and Nakodar Tahsils into two parts, the uplands and the lowlands. The lowlands are called the *Bet* and the uplands as *Dha* or *Dhaia*. The extent of *Bet* lands in each of these Tahsils varies according to the shift that has taken place in the course of the river. In Nawashahr Tahsil the *Bet* is about four miles broad; in Phillaur, except at two places, it is rarely more than 1½ miles broad, but in Nakodar Tahsil, where the new river bed runs almost parallel to the old one, it is uniformly about eight miles broad. Drainage from the uplands to the *Bet* is through small torrents which often bring sand with them, cut up the bank into ravines and form swamps and marshes.

The uplands of the three river Tahsils present the appearance of an unbroken plain, except west of Nakodar where low sand-ridges are not uncommon. The soil gets lighter and lighter as one goes further west; in Nawashahr mostly stiff loam or clay is found and in Phillaur generally moderately firm loam. In Nakodar, to the east of Bein,

*Page 163

the soil is rather reddish loam and to the west of Bein sand predominates and low sand hillocks exist. In popular parlances these uplands are divided into two parts, the *Dhak* and the *Manjki*. The *Dhak* tract extends from the east border of Nawashahr to about the Grand Trunk Road in Phillaur Tahsil and derives its name from the abundance of the growth of *Dhak* trees over the area before they were cleared off for cultivation. The *Manjki* tract runs from the *Dhak* tract to west of Bein and is named after the Rajput clan, Manj, who were once powerful in these parts.

The uplands west of Bein consist of two tracts popularly called *Dona* and *Sirwal*. The *Dona* tract is part of Nakodar and Jullundur Tahsils west of Bein. The word *Dona* means that the soil is formed of two constituents, sand and clay, though in fact now sand predominates and there is very little of clay. The rest of Jullundur Tahsil comes in *Sirwal* tract and lies along the north-east border of the District. It possesses the characteristics of the Bet though no river passes through it. Numerous hill streams coming from Hoshiarpur District keep the soil sufficiently moist all the year round, though they flow only during heavy rains. Some of these streams are silt-laden and at first deposit fertile soil on the area they traverse though their later deposits become more and more sandy. Due to the existence of these drainage channels in all directions, patches and strips of hard clay are also to be found.

Rivers and drainage.— The District lies in the basin of the Sutlej and the Beas: a major portion belongs to the basin of the Sutlej, and a small portion consisting of about half of Jullundur Tahsil in the north-west belongs to the basin of the Beas. There is very little direct drainage into the Sutlej; most of the area drains itself into the Sutlej indirectly through the Bein stream which is the main tributary of the Sutlej in this District.

The Sutlej.—The Sutlej enters the District at village Malikpur some 60 miles west of Rupar. It runs nearly west forming the southern boundary of Nawashahr, Phillaur and Nakodar Tahsils, then turns a little north-west along the common boundary of Nakodar and Zira Tahsils, and then turning again west and south-west it receives the waters of the Beas some four miles away from the boundary of Jullundur District. When in spate, the river is notorious for changing its course; it overflows its banks and fills its old branches and depressions. But its damming up-stream at Rupar and Bhakra and the opening of the Sirhind Canal System and Bhakra Canal System have greatly reduced the flooding capacity of the river. In winter, the river contains small streaks of water and it is only during the rains that it assumes its form.

The Eastern Bein.—The drainage of the Shiwalik hills passes through the Jullundur Doab in two streams-the Eastern or White Bein and the Western or Black Bein.

The Eastern Bein is first formed by a couple of drainage channels bringing rain water from the Garhshankar Tahsil villages. It enters Nawashahr Tahsil some 5 miles from the Sutlej and is there known as Jadla Bein. Thence it runs north-west for about 16 miles till it is joined by the Garhshankar Bein in village Bhaura. From Bhaura it continues its north-westerly direction for about 14 miles in Nawashahr Tahsil and 8 miles in Phagwara Tahsil of Kapurthala District till it touches Ucha village in Jullundur Tahsil. It is joined by a number of small water-courses all along, the Pithlawa *cho* being the most important. From Ucha the stream takes south-westerly direction and is joined by Kail *Nadi* from the western part of Nawashahr Tahsil. The various draining chanenls of Phillaur also join it from the south. It then reaches the Nakodar Bet a few miles to the south-west of Malsian and runs almost west through the Bet joining the Sutlej about 4 miles above its confluence with the Beas. The stream is mostly knee-deep in winter but after heavy rains it rises rapidly and overflows its banks flooding the lands on either side. Even the bridge on Grand Trunk Road between Jullundur and Phagwara used to get submerged during rainy season and had to be converted into a high level bridge.

Other Streams.—The north-west of Jullundur Tahsil drains into the Wesetrn Bein. This stream touches the District at only two villages Kudowal and Dhirpur, a few miles north-west of Kartarpur. The main drainage channels in the area are three and running westward join the Western Bein. The most northerly channel is on the Hoshiarpur border. The middle one lies three to four miles southward. The most southerly channel is known as the Kingra *cho*. During the rainy season this *cho* causes considerable damage to soil and crops and creates unhealthy conditions.

In the Bet area the most important water courses are found in Nawashahr Tahsil known as Eastern Neri and Western Neri. The Eastern Neri comes from the Bet area of Garhsbankar Tahsil. It first flows through low swampy rice lands and then to saline clay soil till it reaches the great marsh below Rahon. On account of the nature of the soil through which the stream passes, it is quite unsafe to pass it without a guide. The Western Neri is mainly a continuation of the Eastern channel. It flows out of the Rahon marsh and divides itself into two branches, of which the eastern branch joins the Sutlej at Bairsal and the western branch further to the south-west at Gopalpur. Generally the Western Neri is dry as it is higher than the lower parts of the swamp at Rahon.

In Phillaur Tahsil, there is a water-course also called the Neri. It leaves the Sutlej at Kariana and falls into the Tehang marsh near Phillaur. This stream is also dry except in the rains. In the Nakodar Bet there are very few water-courses worth mention. There are two *nullahs*, the Shah Kamalwala and the Choli towards the south

of Lohian which unite and drain into the Bein stream at Kang Khurd and Kotah flooding a lot of land on their way.

Chambs (marshes).—The fairly heavy rains and the numerous torrents and the low lying beds of the Sutlej and other streams have led to the formation of marshes, but their extent and number have steadily decreased with natural silting up and reclamation and extension of cultivation. Still a few marshes of respectable dimensions exist. The most important among them is immediately to the south and east of Rahon in Nawashahr Tahsil. It is fed by the Sutlej when in floods, through its branches of the Neri, and by percolation from the swampy country further east. Some small *chambs* exist in Nawashahr Tahsil, near Charan, Muzafarpur, Soeta and Gurupar. In Phillaur Tahsil a large marsh is that of Tehang, a little to the north of Phillaur town. It is also fed from the Sutlej and by the upland drainage. Another large swamp in the Tahsil is near the border village of Ajtani. In Nakodar Tahsil the marsh worth notice is that in village Kang Sahibu on the Jullundur-Nakodar road. In Jullundur Tahsil the principal *chamb* is that at Bulhuwal, eight miles north-west of Kartarpur and still another at Dhogri, some eight miles north-west of Jullundur city.

Geology.—The geology of the District has no notable features. The entire District is composed of alluvium, old or new, and its soil at different places consists of varying degrees of clay, loam and sand. The only mineral found here and there is *kankar* (calcarious nodules) which is used for road making or is burnt into lime.

Archaeology.—Despite human habitation since the hoary past in this area the District contains surprisingly very few monuments of the early Hindu period. At Jullundur, there is the tank of Gupha Temple which is said to be the bathing place of the demon king Jalandhara. There is another tank of Bhikham Sar at Mehammadpur near Alawalpur which is said to have been dug by Bhisham Pitama, the grand uncle of the Kaurvas and Pandvas. There are mounds at Malsian and Nakodar which are supposed to be the ruins of ancient towns.

The earliest buildings of the Muslim period are the shrine of Imam Nasar-ud-din and the Jama Masjid and Hafiz Alamgir Masjid, in Jullundur. The shrine and Hafiz Alamgir Masjid were built in the 15th century and the Jama Masjid in 1508 A.D. In *basti* Sheikh Darvesh in Jullundur, the mosque and tomb of Sheikh Darvesh are good specimens of architecture of Pathan time. The royal *sarais* at Nurmahal and Dakhini are the remains of the Mughal architecture on the Mughal royal road then joining Delhi with Lahore through the District. This road crossed the Bein by a fine bride bridge, and its course is marked by *Kos-minars* standing to this day. The Baradari of Nawashahr also belongs to the Mughal period. The Sikh buildings of religious importance exist at Kartarpur. The fort at Phillaur was built by Maharaja Ranjit Singh. Tara Singh Ghaiba's fort at Nakodar and Diwan Mehkam Chand's tomb at Phillaur are worth notice, as also the *Naugazah* graves at Rahon, Jullundur and between Alawalpur and Kartarpur.

CLIMATE

The climate of the District is more or less typical of the Punjab plains, *i.e.*, quite hot in summer and sufficiently cold in winter. The temperature begins to rise in March and continues to rise till the mercury touches the highest—114°F or even more towards the middle of June. Hot winds blow over the land and they become more and more dust-laden as the summer advances. The rainy season sets in by the middle of July and continues till about the end of September or sometimes middle of October. During this period the temperature comes down considerably when it rains, but shoots up when the rain stops and the close sultry and humid atmosphere becomes quite depressing. Towards the middle of September or early October, the weather turns to fine and by the end of October mild cold season sets in. November and December are pleasant, generally free from rains. January and February are severe cold and have mild showers. Light frost may be experienced from about middle of December till about end of January. Towards the beginning of March the spring season sets in with the return of the pleasant weather.

Temperature (Table 1)*.—Table 1 embodies record of monthly temperature from 1951 to 1960 at Jullundur. It will be noticed that the hottest days fall in May and June, the maximum temperature for the decade being 114.4°F. January has recorded the lowest temperature, though in some years December nights and still in some others November and February nights have recorded still lower temperature. The lowest minimum temperature has been 28.4°F. There is sufficient variation in temperature between the seasons and even within the span of 24 hours of day and night. But it would appear that the fluctuations are not so wide as in the neighbouring Districts of Ludhiana and Ferozepur.

Rainfall.—In Table 2† are shown, among other things, monthly figures of rainy days and the amount of rainfall during 1951-60 for the Tahsil headquarter towns. The annual average figures are given below:—

Town	Average rainfal (inches)
Nakodar	23.2
Jullundur	33.9
Nawashahr	34.5
Phillaur	30.0

*Page 55 †Page 58

The District has adequate rains which are slightly heavier nearer the hills. However, most of the rainfall is concentrated in July to October. Slight rainfall is experienced also during January and February.

Fauna.—The extensive cultivation leaves no cover for the wild beasts and they are practically non-existent in the District. Wild pig is found in the *bet* areas and swamps. Antelope may occassionally be met within the west. Even hares, jackals and foxes are not common. Mongoose and field rats are there. Small crocodiles are found in the Sutlej. Tortoise, porpoise and various kinds of fish are also found in the river and the Bein. A variety of fish is found in the Sutlej : *rahu, saul, sangari, mori, mali, pari, dola* and *jhajli.*

Goh is one of the reptiles found in the District, as also *karait* and a variety of cobras.

The common birds are pigeons, doves, crows, parrots, *mainas*, vultures, scavanger kites (eels) and hocks. Among the game birds are grey partridges and quails (*bater*). The Sutlej, the Bein and the marshes are frequented by geese, ducks, *sarus* and stork. *Tiliar* is also found.

Flora.—Generally speaking, there is dearth of trees due to extensive cultivation. The large number of wells, however, provide so many sites for the growth of trees, particularly *kikar* and *shisham*, to provide shade. *Kikar* and *ber* are also to be found elsewhere. *Shisham* is to be found along the canal banks and road sides. Regular plantations of *shisham* with a slight mixture of *kikar, phalahi, tut, nim* are also maintained by the Forest Department. *Dhak* tree is to be found in the Sarangwala *beer* near Phagwara and in the south-east area of the District which is called *Dhak* territory after this tree. *Pipal* and *bohr* may also be found in or near about the villages. Palm is also to be seen in the extreme south-east. The garden trees are much the same as elsewhere in the Punjab plains. Mango trees are to be found mostly towards Hoshiarpur border. Among the common shrubs found are *karil, jhar-beri, aak, danda thor, harmal, pohli*, and *piaji*. These are the shrubs of the uplands, though they are also to be found in the *bet* area. In the *bet, leh, jhau, pilchi* and *bila* are also to be found. Among the acquatic plants, the more important are the *jala, kareli* and *bhalu*. *Sarkanda* and *kahi* are useful reeds in the riverain tract. *Kans* grows on sandy soil. *Palwan, khabbal, chimbar, dhaman, lamb, dab, panni, kaser* and *dila* are the other common varieties of grasses.

HISTORY

Legendry and mythological.—The District is of undoubted antiquity, and finds mention in the Puranas and Mahabharata. According to Padma Purana the territory takes its name from the great demon king Jalandhara, the son of the Ganges by Ocean. Jalandhara was a prodigy of nature. When he was grown up, Sukra, the preceptor of the demons appeared before Ocean and requested him to withdraw from Jambudwipa, the sacred abode of holy persons, and to leave sufficient land unwashed by his waters for Jalandhara. The Ocean acceded to the request and withdrew for about 300 *zojanas*. This mythological story embodies a tradition of a time when, as geologists affirm, the sea stretched in a long arm up the Jullundur Doab to the neighbourhood of the Hoshiarpur Shiwaliks. According to another legend Jullundur was the capital of the kingdom of Lava, the son of Rama before he founded Lahore. According to still another account based upon Mahabharata, the kingdom of Jalandhara was founded by a Rajput king Susarma Chandra of Multan who had fought in the great battle of Mahabharata on the side of Kauravas and had thereafter retired with his followers to the Jullundur Doab. This kingdom was also called Trigartta, as it was watered by the three rivers Sutlej, Beas and Ravi.

Hindu period.—The earliest historical mention of Jullundur occurs in the reign of Kanishka, the Kushan king of northern India in whose time a council of Buddhist teachers was held near Jullundur about 100 A.D. to collect and arrange the sacred writings of Buddhism and to bring about reconciliation between its various sects. In the 7th century when the famous Chinese traveller and pilgrim Huen Tsiang visited India in the reign of Harsha Vardhana, the kingdom of Jalandhara or Trigartta was under Raja Utito (whom Cunningham identifies with the Rajput Raja Attar Chandra). It was said to extend 167 miles from east to west and 133 miles from north to south, thus including the hill states of Chamba, Mandi and Suket, and Satadru or Sirhind in the plains. Raja Utito was a tributary of Harsha Vardhana. The Rajput Rajas appear to have continued to rule over the country right up to the 12th century, interrupted sometime or the other by their skirmishes with the Rulers of Kashmir. Generally their capital was Jullundur, and Kangra formed an important stronghold.

Muslim period.—The Rajput Rajas lost Jullundur to a Turkish chief, Ibrahim Shah of Ghazni sometime between 1179 to 1188 A.D. The territory was a fief of the Delhi kingdom in the reign of Muizz-ud-Din Behram Shah (1240—1242). Thence forward the plains portion of the territory remained under the Muslim rule and the hills portion, called Kangra, continued under the rule of the former Rajput Rajas. Alla-ud-Din Khilji sacked the fo of Kangra and desecrated the temple. Then came the sack of Delhi by Timur (1398) as a result of which the ruling house of Tughlak fell. The Sayyads succeeded and remained in power from 1414 to 1450. But the country remained in a disturbed condition and many insurrections appeared, those of Malik Tughan and the Khokhar chief, Jasrat Khan, being conspicuous. The rebellious chiefs aimed at the Governors at Jullundur and Sirhind who represented the Sultanate at Delhi and whenever the imperial forces marched against them and they found them stronger they

would withdraw, but only to reappear with the going away of the imperial forces. The Sultanate was further weakened by the Mughal attacks from the north-west and finally in 1450, Behlol Lodhi, the Governor of Sirhind seized power at Delhi and became the first Lodhi Sultan. The matters did not improve under the Lodhis. The Afghan nobles who were the mainstay of the empire were disloyal and rebellious and would take every opportunity to grab more and more power from the Sultanate. In the meantime the Mangols or Mughals had been attacking and plundering the north-west part of the country. Babar had risen to power and was casting avaricious eyes on the empire of Delhi. He got a golden opportunity when the rebellious Afghan Chiefs invited him to attack hoping that, after plundering, he would return leaving them supreme in the territory ruled over by the Delhi Sultan. Babar attacked and defeated Ibrahim Lodhi in the first battle of Panipat in 1526, but he did not oblige the inviting chiefs, particularly the Afghan Governor of Punjab, and instead of going back he settled down at Delhi and became the founder of the Mughal Empire.

In 1540 Babar's son, Humayun, was defeated and expelled from India by the Turko-Afghan Chief, Sher Shah Suri, and it was only after the latter's death that he could return to India in 1555. Sher Shah Suri's son Sikander Sur, was defeated at Sirhind but he retreated to the hills and Humayun had to send his son Akbar along with Bairam Khan in pursuit of him. Akbar took up his residence at Jullundur but in the meantime Humayun died and it was only after defeating Hemu in the second battle of Panipat in 1556 that Akbar could return to deal with Sikander Sur, whom he ultimately defeated. Then came the fall of Bairam Khan in 1560 from the position of his power over Akbar and he intended to withdraw and proceed to Mecca. But he changed his mind in the way and collected troops and prepared to attack Jullundur. He was, however, defeated at Gunachaur north-west of Rahon and he finally surrendered to Akbar at the fort of Talwara on the Beas. During Akbar's reign, copper coins were minted at Jullundur and his capable minister, Todar Mal, made a settlement of land revenue in Jullundur Doab.

During Jehangir's reign (1605—27), Jullundur Doab received special attention because of Nur Jehan's attachment with Nurmahal. She had been brought up there and among other things, she got a big *sarai* built there in which,it is said, she halted whenever she passed between Delhi and Lahore. Guru Arjan Dev founded Kartarpur in 1588 on the site given by Jehangir to Guru Arjan Dev's father, Guru Ramdas. In Shah Jehan's reign (1627—58), the highway between Delhi and Lahore was laid out and one of the sites, where a *sarai* on the road was constructed, developed as Phillaur. The *sarai* at Dakhni, some of the *bastis* of Jullundur and Phagwara which was originally called Shah Jehanpur came into existence during those days. During the rest of the 17th century, Jullundur remained firmly attached to the Delhi empire. With the death of Aurangzeb in 1707, the Mughal empire began to totter, but Nadar Shah's invasion in 1739 gave it the greatest jolt. Enemies of the empire rose from all sides and among them were the Sikhs from the Punjab.

Sikh period.—Having matured his plans, Guru Gobind Singh commenced open opposition to the imperial power near about 1695 and for ten years was engaged in war-fare with varying degrees of success with the Governors of Lahore and Sirhind in the vicinity of the Jullundur Doab. Ultimately he was defeated in 1705. His two younger sons were bricked alive and put to death at Sirhind by the Governor of that place, Wazir Khan. Guru Gobind Singh left for Deccan where he was killed by an Afghan fanatic in 1708 on the banks of Godawari, but he had inspired Banda Bairagi to continue the struggle against the Mughal tyranny. Banda Bairagi proceeded to Punjab, defeated Wazir Khan, sacked Sirhind and put to death the slayers of Guru Gobind Singh's sons. He marched through Jullundur Doab showing no quarter to the religious persecutors. The imperial forces, however, pursued him and ultimately he was defeated, captured and tortured to death in 1716. This silenced the Sikhs for a while but as soon as Nadar Shah appeared on the scene and put Nurmahal to ransom, they took up arms again but were defeated in 1743 by Adina Beg, the Mughal Governor of Jullundur Doab.

In 1747, Ahmed Shah Abdali invaded Punjab, but was defeated near Sirhind by the Mughal forces under Mir Mannu who had also the support of the Sikhs and Adina Beg. Mir Mannu became Governor of Punjab and ruled from 1748 to 1752, retaining Adina Beg as his deputy in the Jullundur Doab. Ahmed Shah invaded Punjab for the second time in 1748 and for the third time in 1752. A great damage, however, came from his fourth invasion in 1755. He plundered Nurmahal and slaughtered its inhabitants. He plundered Delhi and retired, leaving his son, Prince Taimur, as Governor of Punjab. On his way back, he pillaged and burnt Kartarpur but the Sikhs took the revenge in 1757 when, under Guru Barbhag Singh, they ransacked Jullundur and punished the Afghans living in the *bastis* there. Adina Beg, who had in the meantime retired to the hills, invited the Marhattas against the Afghan. The Marhattas came, expelled the Afghans and made Adina Beg Governor of the Province in 1758. This infuriated Ahmed Shah and he invaded for the fifth time in 1761 and defeated the Marhattas in the third battle of Panipat. He returned to Kabul leaving Buland Khan as Governor of Lahore and Zain Khan as Governor of Sirhind. The Sikhs had also in the meantime mustered strength and attacked Zain Khan. Ahmed Shah appeared again and defeated the Sikhs in 1762 at Barnala in the battle known as *Ghallughara*, meaning the great destruction. No sooner had Ahmed Shah returned to Kabul, the Sikhs attacked Zain Khan, defeated and slew him near Sirhind in 1763. This established Sikh supremacy which was not disturbed though Ahmed Shah made another few attempts.

Thus began the era of Sikh Confederacies (*misls*). Brought into existence principally by the religious persecution of the Mughals, the Sikh *misls* were feudal in character. The leaders of the Confederacies had under them minor chiefs, who in turn had their subordinates, till the common soldiers were reached. The greater chiefs

divided their lands among their subordinate chiefs and these again assigned villages to their dependents for their support. These *misls* were twelve in number : (1) the Nikais, (2) the Nishanias, (3) the Kanhaias, (4) the Sukarchakias, (5) the Shahids, (6) the Bhangis, (7) the Phulkians, (8) the Ahluwalias, (9) the Ramgarhias, (10) the Faizullapurias, (11) the Krora Singhias, and (12) the Dalawalas. The Nikais and Nishanias had no connection with the Jullundur Doab. The Kanhaias for some time held a large tract in the upper part of the Doab. The Sukarchakias, ultimately in the person of Ranjit Singh, became master of the whole Doab, but till then the scene of their history lay mostly outside it. The connection of the Shahid and Bhangi *misls* with Jullundur was also not much. Similarly the Phulkians were also not directly concerned with the Doab except that they had created marital relations with some of the Sardars there. The remaining 5 *misls* had large possessions in the Doab. The possessions of the Ahluwalias mostly lay outside the Jullundur District. Jassa Singh Ramgarhia had taken service with Adina Beg in 1752, though he deserted him a little later. On his (Adina Beg) death, he took possession of a considerable tract in the north-west of the Doab in which he was helped by the mutual wranglings of the other *misls*. It was on the death of his son, Jodh Singh, in 1816 that his possessions were taken over by Ranjit Singh as a consequence of family quarrels.

Consequent to the death of Adina Beg, Jullundur proper passed on to the Faizullapurias under the leadership of Khushal Singh. Khushal Singh's son, Budh Singh, built the fort at Jullundur but he was driven out of his possession to the south of the Sutlej by Diwan Mohkam Chand in 1811 whom Ranjit Singh had deputised to take over the whole Doab. The Kalsia branch of the Krora Singhias were in strength nearabout Talwan in the south-west of Phillaur Tahsil under Baghel Singh. The latter got a fort built at Talwan, but on his death, the consequent family quarrels enabled Ranjit Singh to take over his possessions in 1809-10. The Dalawala Confederacy was founded in the extreme south-west of Jullundur near the confluence of Beas and Sutlej rivers by Tara Singh Gheba. It was the strongest amongst the *misls* and, among other possessions, had all the three southern Tahsils of the District under its control. Tara Singh extended his dominion far and wide even beyond Sutlej; it included Rahon where he took up his residence. Tara Singh Gheba accompanied Ranjit Singh in the latter's exploits across Sutlej in 1807, but he died in the way and Ranjit Singh lost no time in taking hold of his possessions, despite the heroic resistance offered by his wife Rattan Kaur, in which she perished.

British period.—Even before Ranjit Singh had succeeded in absorbing the various *misls* in his domain, the British had appeared on the scene and in 1809 a treaty was concluded between Ranjit Singh and the British where by the cis-Sutlej Sikh States passed on to the protection of the East India Company and Ranjit Singh agreed to confine his dominion to the north of Sutlej. Though Ranjit Singh broke the power of the great chiefs, he did not proceed to extremes against their feudal subordinates. These were mostly left in possession of a considerable portion of their estates, in return for a proportionate number of men for the Army and in some cases personal service. The rest of the country was either given on a similar tenure to other followers of the Sikh Government or were held by *Nazims* (Governors) for the ruler.

The Jullundur Doab had a chain of *Nazims* during the reign of Ranjit Singh, the first and the most important being his Commander-in-chief, Diwan Mohkam Chand. Ranjit Singh died in 1839. Confusion and disorder followed his death. In 1845,the Khalsa Army crossed the Sutlej and thus started the First Sikh War. The Jullundur Doab was not the scene of any remarkable military event. The Army of Ranjodh Singh Majithia marched through the Doab and was joined by the troops of Nihal Singh Ahluwalia of Kapurthala. It crossed the Sutlej at Phillaur on 17th January,1846 and after a temporary success at Badowal was defeated at Aliwal by the British forces led by Sir Henry Smith. The Sikhs retreated to Phillaur and thence dispersed, pursued by Brigadier Wheeler who occupied the fort at Phillaur. The main body of the English Army marched to Sabraon where the Khalsa Army was finally defeated. And thus the first Sikh War ended. The British annexed the Jullundur Doab and formed it into a Commissionership. They built cantonments at Jullundur, Phillaur, Nakodar and Kartarpur, only one of which at Jullundur continues to this day, the remaining three having been abandoned a little later. The British authority set about getting the various Sikh forts in the region demolished. This was highly distasteful to some of the Sikh Chiefs and the Second Sikh War broke out in 1848-49. Again the Jullundur District was not the scene of any military operations. The Khalsa Army was finally defeated at Gujarat and the whole of the remain under the Sikh Darbar of Lahore was annexed by the British. The latter soon established law and order and till the Mutiny nothing of importance occurred in Jullundur District.

The first War of Independence and after.—During the first War of Independence (Mutiny so-called) the District was of importance because one of the main lines of communication between Punjab and Delhi passed through it, and was commanded, where it crossed the Sutlej. by the Phillaur fort. All the native troops stationed in Jullundur mutinied, with the exception of the Artillery. Though the forces of the Raja of Kapurthala kept peace in the town and there was also a small European garrison present, there was not much resistance to the main body of the mutineers setting out for Delhi. At Phillaur, they were joined by the native infantry. At Ludhiana, they found plenty of guns and powder in the fort. They succeeded in reaching Delhi. In the District, however, the situation remained under control thanks to the Kapurthala troops and other levies which the authorities were able to raise with the help of the loyal elements. After the fall of Delhi, the country was disarmed and matters did not take long to settle down.

After the Mutiny, nothing of importance has occurred in the District. In 1858-59, the portion of the Grand Trunk Road between Sutlej and Beas, passing through Phillaur, Phagwara and Jullundur was realigned and metalled. A decade later, the railway line between Beas, Jullundur and Phillaur was opened. The Doab was linked with the rest of the Punjab by great railway bridges over the Beas and the Sutlej as also over the Bein. Except for minor adjustments here and there the boundaries of the District continued to remain the same as they were when it was first constituted. The District shared with the rest of the country the benefits of settled regime and administration. It also took its due share in the various phases of the national struggle which finally brought the country its political emancipation from foreign rule in 1947. More about it will be found in the section dealing with political activities in Chapter IV. Along with Independence came Partition which brought about unprecedented communal disturbances. The entire Muslim population of the District, as of many other Districts, migrated to West Pakistan and their place was taken up by lakhs of Hindus and Sikhs uprooted from there. During the past decade or so, the District has taken appreciable strides in the field of industrial development and Jullundur City has now become one of the most important industrial towns in the State.

TOWNS AND PLACES OF INTEREST

Jullundur City (Area 17.00 sq. miles : Pop. (1961) 222,569).— Jullundur City is the third largest town in Punjab, the two larger towns being Amritsar (376,295) and Ludhiana (244,032). It is situated in the north atitude 31°-19′-36″ and east longitude 75°-38′-46″. It lies on the Grand Trunk Road and the main railway line between Amritsar and Delhi. It is the headquarters of the District and the Division of that name.

As has already come, the city derives its name from the demon king Jalandhara, the son of the Ganges by Ocean. Another legend describes Jalandhara as the demon king who opposed the colonization of the Bist Doab. He was killed by Vishnu who is believed to have erected the town on the back of the demon. Mythological accounts apart, the town is reputed by tradition to have been founded or at least re-built by a *jogi* named Jalandhar Nath. The *smadh* of the *jogi* is said to have been destroyed to make room for the present mosque of Imam Nasir-ud-din.

A town of considerable antiquity, it finds its mention in the writings of the Chinese pilgrim Huen Tsang who visited this country in the 7th century A.D. The seizure of the town by Ibrahim Shah of Gazhni in the 12th century A.D. has been mentioned in the Diwan-i-Salma. The town suffered repeated raids by Jasrat Khokhar, the powerful Rajput Chieftain between 1422-42 A.D. Under the Mughals, Jullundur remained capital of their northern Province for a considerable time. It was occupied by the Sikh Sardars of Faizulpuria *misl* in 1776 A.D. Sardar Budh Singh built a masonry fort in the city and its site is now known as Qila Mohalla. The city was conquerred by Diwan Mohkam Chand for Maharaja Ranjit Singh in October, 1811 and when Jullundur Doaba was ceded to the British after the 1st Sikh War, the city became the headquarters of a Commissionership.

Following the Partition, the population of the city went up by about a lakh. It became the temporary headquarters of the Provincial Government. Industry, which has hitherto remained insignificant, became the mainstay of city's economy. The manufacturers of sports goods from Sialkot made it their new home. The city boasts of some 1,600 registered factories. New colonies like Bhargav Camp, Model Town, Industrial Area and Adarsh Nagar sprang up and imparted a new look to the city. It is now administered by a Class I Municipal Committee of 33 members. Grandiose piped water-supply scheme estimated to cost about 1.5 crores and underground drainage scheme estimated to cost about 2 crores of rupees are in advanced stage of implementation. The Committee also maintains a fire brigade. The municipal budget for 1960-61 showed an income of Rs. 3,044,593 and expenditure of Rs. 3,161,198. The main sources of income were octroi, water-supply, property and profession taxes. The main items of expenditure were medical and public health, water-supply and public safety measures.

The city has been a seat of learning since old. It was here that Katyana, the master of Shastras, composed his Abhi Dharma Janana—Prasthana Shastra in the 1st century B. C. And now the city has perhaps the largest number of educational institutions in the State. There are 6 Arts and Science Colleges, 2 Training Colleges, 2 Technical Training Institutes and one Sports College. Of these, the D.A.V. College is reputed to be one of the largest institutions in the State while Kanya Mahavidyalya is the pioneer institution in the sphere of female education.

Among the ancient places of interest in the city, the Tamasvana Sangharama, where the Buddhists Council met under Kanishka to *inter alia* write a commentary on Katyana's Shastra, still lies in ruins on the out-skirts of the city. Near it is the temple of Gupha, with the image of Annapurna, the Goddess of Plenty, installed in it. Also nearby lies the Braham Kund and some temples dedicated to Shiva.

Jullundur gave rise to the Nath Movement between 8th and 10th century A.D. At the site where the *smadh* of one of the foremost representatives of the movement, *Jogi* Jalandhar Nath, once stood, was built the present mosque of Imam Nasir-ud-din. The qila mohalla stands on the site of the fort built by Sardar Budh Singh, whereas the various *Bastis* outside the town are remnants of the Muslim rule. Also located near the Devi *Talab* area is the *smadh* of Baba Sodal, the local child-deity. A large fair is held every year at the *smadh*. Rev. Golakh Nath chose the site of the present mission compound for founding the Jullundur Mission in 1847.

Yet another festival connected with Jullundur is the music festival in the memory of saint Harvallabh started by Tola Ram, a disciple of the saint towards the close of the 19th century. The festival is held every year during the Christmas Week at the Devi *Talab* and is attended by classical singers and musicians of repute from all over the country.

Jullundur Cantt. (Area 6.03 sq. miles : Pop. (1961) 42,461).—It lies four miles to the south-east of the city on the Grand Trunk Road and the main railway line between Delhi and Amritsar. It is a Class I Cantonment and its affairs are managed by a Board consisting of 14 members. The budget of the Board in 1960-61 showed an income of nearly Rs. 839,774 and expenditure of Rs. 749,123. It maintains two over-head water storage tanks for supply of water to the inhabitants but the arrangement is not adequate, as a portion of Sadar Bazar, Khatik Mandi and Rama Mandi still remain to be catered for. Surface drainage system prevails. The Board also maintains a General Hospital where arrangements for both indoor and out-door treatment exist. Among the educational institutions maintained by the Board are the Cantonment Higher Secondary School for boys, a High School for girls, one Primray School for girls, 4 Primary Schools for boys and 2 Social Education Centres, one for men and the other for women. Besides many small parks for children, the Board maintains a Cantonment Garden for recreation of the general public. Among the privately managed institutions in the Cantonment area are the N.D. Victor Higher Secondary School for boys, D.R. Jain National Higher Secondary School for boys, Montogomery Khalsa Higher Secondary School for boys, Guru Nanak Khalsa High School for boys, S.D. Tulsi Higher Secondary School for girls, and K.L. Arya Higher Secondary School for girls.

Adampur (Area 1.05 sq. miles : Pop. (1961) 5,177).—Situated 31°26′ N and 75°43′ E on the Jullundur—Hoshiarpur road, it lies at a distance of about 12 miles from Jullundur City. It is primarily known for its Air Fields and Indian Air Force Station. It has two Government High Schools, one for boys and the other for girls, a Canal Rest House, a big Khadi Centre, a Civil Dispensary, a Veterinary Hospital and a Police Station. The headquarters of the Block *Samiti* are also located here. It is a Class III Municipality whose budget of 1960-61 showed an income of about Rs. 9,253 and expenditure of about Rs. 10,042.

The tradition has it that it was founded by a Lit Jat named Rai and was originally known as Raipur Lit. Subsequently it came into the possession of Bon Jats who sold it to the Afghan Chief, Adam Khan. He re-named it after himself.

Kartarpur (Area 1.30 sq. miles : Pop. (1961) 12,202).—It lies 31° 26′ N and 75° 30′ E on the Grand Trunk Road and the main railway line between Delhi and Amritsar, ten miles away from Jullundur City. It is a place of pilgrimage for the Sikhs as it is associated with Guru Arjan Dev who is believed to have founded it on the land granted to him by Akbar. A myth goes that a demon who inhabited the trunk of a tree would not permit any wood to be cut until the Guru promised that he would not be disturbed and would receive worship for ever. A 50 feet high sandalwood post which is said to have been erected by the Guru in fulfilment of his promise still stands and is worshipped under the name of Thamji. A fine Gurdwara was built around it by Maharaja Ranjit Singh when he visited Kartarpur in 1833. Kartarpur was burnt by Ahmed Shah in 1756. The Guru's fort and tank were built 27 years later. In a room in the fort are preserved the original *Adi-Granth* composed by Guru Arjan Dev, the *Tega Sahib* (Guru Hargobind's sword) and Guru Nanak's cap. The well sunk by Guru Arjan Dev is known as *Ganga Sar* and is frequented by pilgrims who consider it as holy as the Ganges. On Baisakhi and Diwali days, thousands of people come to pay their homage to Thamji Sahib and the *Adi-Granth* and bathe in *Ganga Sar*. The gurus of Kartarpur recite the *Granth* from the *Damdama Sahib* which is a platform beneath which are said to lie the bodies of the adherents of Pande Khan who were killed by the followers of Guru Hargobind.

Kartarpur is well known for its woodwork industry. Recently a factory for the manufacture of electric goods has also been set up here. The municipal affairs are looked after by a Class II Municipal Committee of 11 members (1960-61) which controls a budget of about Rs. 1 lakh.

Nakodar (Area 1.09 sq. miles : Pop. (1961) 14,452). It is situated 31° 8′ N and 75° 29′ E on a metalled road 15 miles south of Jullundur City. It is the headquarters of the Sub-Division and Tahsil of that name. It is a Police Station as also a Railway Station.

Nakodar is a corrupted form of the persian words *neki dar* which means 'gate of goodness virtue'. It is said to have been founded by a saint Baba Malik in whose name a fair is celebrated annually here. Another tradition describes an Afghan, Nakodar Khan, as the founder of the town. Still another account makes a Manj Rajput Chieftain Malik Nekdar Khan, as the founder. The Manj Rajputs were ousted during the Sikh period by Tara Singh Gheba who built a fort here. Ranjit Singh seized the town in 1816.

Two imposing tombs lying in an old garden outside the town are among places of historical interest, and are being maintained as protected monuments by the Archaeological Department. Both these tombs are ornamented on the outside with various patterns in glazed tiles. One is said to be of Mohammad Momin Hussaini, a great musician and *tambura* master in the service of Khan Khana. It contains 3 graves inside and another grave outside on the platform. The tomb is octagonal outside and square inside unlike the other

tomb which is octagonal inside and square outside. The other tomb is said to be of a pupil of Mohammad Momin Hussaini, named Haji Jamal. On the east of these tombs are two gate-ways. Near the eastern gate-way has been constructed a rest house. To the north of the tombs is a tank, the bricks of which are said to have been used in building a cantonment in Nakodar by the British. On one side of the tank is a building used as Sub-Judge's Court and also a small temple of Shiva. Beyond the tank is a *baradari* containing a shrine and an old mosque.

Among the public buildings here are the Tahsil, Office of *Panchayat Samiti*, Electric-supply station and municipal offices. There is a branch of the District Co-operative Bank as also a Civil Hospital and a Veterinary Hospital. The town is famous for the manufactures of *daris* and khadi goods. Among its educational institutions are the Government High School for boys, a private Higher Secondary School for boys, and a Government High School for girls. The Government has also set up Artisan Training Centre along with an Industrial Development Centre here. The civic administration is in the hands of a Class II Municipal Committee of 13 members. The budget of the Committee showed an income of Rs. 112,524 and expenditure of Rs. 110,783 in 1960-61.

Alawalpur (Area 0.08 sq. mile : Pop. (1961) 4,539). It is a small town, nine miles from Jullundur City on a metalled road, 31° 26′ N and 75° 46′ E. It is named after Alawal Khan, an Afghan Chief whose father is said to have founded it. There are remains of an unfinished mud fort called Thah Lakhman and a *mat* of Samir Parbat, a local saint, which is a place of pilgrimage and fair. Its civic administration is in the hands of a Class III Municipal Committee whose budget in 1960-61 showed an income of about Rs. 6,335 and expenditure of Rs. 8,594.

Phillaur (Area 0.17 sq. mile : Pop. (1961) 11,058).—It is on 31° 1′ N and 75° 48′ E, situated on the right bank of the Sutlej, 28 miles south-east of Jullundur on the Grand Trunk Road. It is also a railway junction and is linked with Nawashahr, Ludhiana, Nakodar by pucca roads. It is the headquarters of the Sub-Division and Tahsil of the same name and is also a Police Station.

The town owes its origin to a Sanghera Jat, Phul, who named the town after himself as Phul Nagar. During the time of Shah Jahan it was selected for the construction of a *sarai* on the imperial road from Delhi to Lahore. On the rise of the Sikhs to power, the place was seized by one Sudh Singh Kakarah who made it the capital of a considerable estate. Later it fell into the hands of Maharaja Ranjit Singh. The *sarai* was then converted into a fort. The Sikhs vacated the fort after the battle of Aliwal in 1846 and it was thereafter occupied by the British. The British military authorities transferred it to the civil authorities in 1891 and since then it is being occupied by the Police Training School and the Central Bureau of the Criminal Identification Department. The School is the biggest and the oldest institution in the country for advanced training of police men of all ranks. Since Independence the school is serving the Punjab, Delhi, Himachal Pradesh and Jammu and Kashmir States and on the average trains 1,600 trainees a year in various courses. Places of public utility in the town include a Grain Market, a Civil Hospital, a Veterinary Hospital, P.W.D. and *Zila-Parishad* Rest Houses, Municipal Office, Block Development and Panchayat Officer's office and Divisional Forest Officer's office. There are a few factories manufacturing agricultural implements and motor parts. The famous Hindi writer and composer of the popular *arti Jai Jagdish Hare*, Shastri Sharda Ram, was a native of this town; a library and a park have been constructed in his memory. There are two Government High Schools, one for boys and the other for girls. Every year on 12th February, a Sarvodaya *mela* is held on the bank of the river in memory of Mahatama Gandhi, whose ashes were immersed here on this day in 1948. A pillar inscribed with the Mahatama's sayings has been erected on the spot to commemorate the occasion. A Class II Municipal Committee consisting of 13 members looks after the civic affairs of the town. The Municipal budget for 1960-61 showed an income of Rs.99 thousand and an expenditure of over Rs.1 lakh.

Nurmahal (Area 2.22 sq. miles: Pop. (1961) 6,905).—It is a Municipal town situated on the Phillaur-Nakodar pucca road and is directly connected with Jullundur by a pucca road via Jandiala and Jullundur Cantt. It is also linked by rail with Phillaur and Nakodar. It is the headquarters of the Nurmahal Development Block and is a Police Station. There are a Government High School for boys and two private High Schools, one for boys and one for girls. There is a good Civil Dispensary in the town and a good Grain Market. Recently a Regional Piggary and Poultry Centre and a Common Facility Workshop have been set up here at a cost of Rs. 160,000 and 40,844, respectively. A Class II Municipal Committee looks after its civic administration. The Municipal budget in 1960-61 showed an income of Rs. 60,287 and expenditure of about Rs. 51,566.

The town is named after Nur Jahan, the consort of Emperor Jahangir. She is said to have been brought up here. She got a *sarai* built here which forms the chief object of interest to this day and is being looked after by the Archaeological Department. It houses Police Station, P.W.D. Rest House, a Government High School, Municipal Office and a Library.

Nawashahr (Area 1.48 sq. miles: Pop. (1961) 14,097).—It lies 31° 8′ N and 76° 7′ E on the metalled road from Phagwara to Garhshankar, 38 miles distant from Jullundur. It is the headquarters of the Sub-Division and Tahsil of the same name and is a Police Station.

The town is said to have been built by Nausher Khan, an Afghan, in the time of Ala-ud-din Khilji. Another version is that the city got its name Nawashahr, which means a new city, because people from the ancient city of Rahon shifted to this place which was far removed from the ravages of the Sutlej river. The town has a *Baradari* with a garden attached to it, built during the Muslim regime. The Sikh Chief, Tara Singh Gheba built a fort here of which the remains still exist. The town is administered by a Class II Municipal Committee consisting of 11 members. The Municipal budget for 1960-61 accounted for an income of 2½ lakhs and an expenditure of Rs. 262,258.

The places of public utility in the town include the Sub-Divisional, Tahsil and Block Samiti Offices, a Post Office, a Municipal Library, a Civil Hospital, a Veterinary dispensary, *Zila Parishad* and Canal Rest Houses, a grain market, and a vegetable and fruit market. There are two private Degree Colleges here, (one for girls only), and a Training College. Besides, there are four High Schools for boys and two High Schools for girls. The town is linked by pucca roads with Jullundur, Ludhiana, Rupar and Garhshankar and has made good progress since Independence. A Co-operative Sugar Mill is under construction. A Government Technical Institute has started functioning.

Banga (Area 0.19 sq. mile: Pop. (1961) 10,212).— It lies 31° 11′ N and 76° E, on the metalled road from Garhshankar and Nawashahr to Phagwara, and is 9 miles from Nawashahr and 29 miles from Jullundur. The town is said to have been founded by one Gola *alias* Banga, a Maan Jat of Paniani in Garhshankar Tahsil, in 1663 A.D. Banga is the headquarters of *Panchayat Samiti* of that name and is a Class II Municipality. It is a commercial centre and has considerable trade in sugar and wheat. It is well built and well paved and has one private Degree College, one Government High School, 2 private High Schools for boys, besides one Government High School and one private High School for girls. It has a grain market and a vegetable and fruit market and is a good centre for the manufacture of agricultural implements, handloom cloth and brass utensils. It has an historical Gurdwara, Charan Kanwal, associated with Guru Hargobind. It has a Municipal library and a *Samiti* Rest House.

Rahon (Area 2.00 sq. miles: Pop. (1961) 6,316).—It lies 31° 4′ N and 76° 8′ E, in Nawashahr Tahsil seven miles distant from Nawashahr. It is connected by a metalled road and railway line (through Phagwara) with Jullundur City. A Class III Municipal Committee looks after its civic affairs. It has a Post and Telegraph Office, Civil Hospital, and a Police Station. It has a Government High School which claims to be the oldest school in Punjab. The school has a log book beginning from 1856.

The town has a long history. It is said to have been founded by one Raja Raghab, a Rajput Chieftain some 2,000 years ago. He called it Raghupur. Subsequently it fell in to the hands of Gujars, whose Chief, Raho, re-named it Rahon. From Gujars it came to Mahtons and from the latter to Ghorewala Rajputs in the time of Shahab-ud-din Ghori. One of the versions is that the town was re-named Rahon after a certain lady, named Raho, by the leader of those Rajputs, Rana Rajpal. In the time of Ibrahim Lodhi the town is reported to have a population of 145,000 and was a flourishing trading centre on the route to Tibet and Central Asian countries. The art of shoe-making attained a high degree of skill and a pair prepared by one Mian Khaki Shah of Rahon is said to be still lying in the museum of Lahore. Towards the beginning of the Mughal era, the town was occupied by the Raja of Machhiwara, Rana Udho. He actively assisted Akbar during his fight for the Delhi throne and defeated and captured the rebellious Bairam Khan. As a reward, the Raja was allowed to retain the *jagir* of Rahon. In Aurangzeb's reign a brick fort was built here. The town was seized by Tara Singh Gheba in 1759 A.D. and remained in his possession till his death when it was taken over by Ranjit Singh. On the conclusion of the First Sikh War in 1846 it was taken over by the British.

Rahon's importance was primarily due to its location on the ancient trade route to Tibet and Central Asia and it began to fall in importance as soon as a new route through Kabul was opened during the Mughal times. Its proximity to big marsh made it a victim of periodic out-breaks of malaria in an epidemic form. Consequently its population has greatly declined. It was said to be 69,000 when the British took it over in 1846; it was 6,541 in 1951, and 6,316 in 1961.

There are many places of historical interest in Rahon. Just near the post office lies the *smadh* of Rana Udho. There is the Panch Tirthian tank which was got excavated by Rana Udho as a place of pilgrimage for his five sons who could not proceed on pilgrimage due to the illness of his father. Another tank Ram Sar was got constructed by Tara Singh Gheba. Near it lies his *smadh* and the *smadh* of his brave widow. Another holy place in the town is Suraj Kund which is said to have been built by one Bawa Aughar during the Pathan period of rule. Another tomb which is said to enshrine the remains of another saint was built here during the reign of the Tughlaks.

Bhogpur (Area 0.62 sq. mile : Pop. (1961) 1,789).— It is situated on the Jullundur-Pathankot road, 18 miles from Jullundur City. It is the headquarters of Block *Samiti* Bhogpur and has gained importance only after Independence due to the establishment of the Janta Co-operative Sugar Mills. There is a Government High

School for boys and a privately managed High School for girls and a P.W.D. Rest House. The village has been linked by pucca roads with Adampur and Bholat.

Sansarpur (Area 0.53 sq. mile : Pop. (1961) 2,358).— It is a small village about 4 miles from Jullundur City. The village has served as a nursery for hockey players and has produced hockey players of international repute. It is claimed that no Indian hockey team has left Indian shores without a representative from this village. The winners of the Olympic Hockey Tournament at Tokyo in 1964 included five players from this village.

Mahatpur (Area 4.69 sq. miles : Pop. (1961) 3,548).—It is a village of considerable antiquity in Nakodar Tahsil about 5 miles south of Nakodar, with which it is connected by a pucca road. It is said it was founded by one Mohammed Khan in the time of Akbar and was a part of the territory of Manj Rajputs. With the rise of the Sikhs to power it passed on to Tara Singh Gheba and after his death to Ranjit Singh. During the British regime it was once a Municipality and ceased to be so in 1886. There is a Government High School for boys and a Middle School for girls, as also a private High School. A Civil Dispensary and a Veterinary Hospital are also there.

Rurka Kalan (Area 4.78 sq. miles: Pop. (1961) 6,699).—It lies 31° 7′ N and 75° 42′ E in the interior of Phillaur Tahsil and is connected with the Grand Trunk Road by a metalled road. It has a number of factories manufacturing agricultural implements and the Government has established an Industrial Estate here. There are two privately run High Schools. During the British regime, the place has a Municipality till 1874.

Bilga (Area 6.19 sq. miles : Pop. (1961) 8,065).—It lies 31° 3′ N and 75° 39′ E in Phillaur Tahsil, about two miles south of the road from Phillaur to Nurmahal. It is the biggest village of the Doaba and had a Municipal Committee till 1874. The village played a unique part in the freedom struggle and there was hardly any movement in which its people did not take a leading role. Sarvshri Karam Singh, Ujaggar Singh, Santa Singh, Niranjan Das, Bhagat Singh were some of the prominent workers from the village participating in the freedom struggle. The British Government imposed a heavy fine on the village which, however, was refunded to it soon after the attainment of Independence. The village has a National High School and a Girls' Higher Secondary School. A big *Gurdwara* commemorating the visit of Guru Arjan Dev to this place exists where the Guru's dress is also being preserved.

Jandiala (Area 5.31 sq. miles : Pop. (1961) 6,397).—It lies 31° 34′ N and 75° 2′ E in the north-east of Phillaur Tahsil. It is said to have been founded some five centuries ago by one Laddha, who planted here a dry trunk of *jand* tree which sprouted and hence the name. The inhabitants of the village also played a significant role in the freedom struggle and three of its sons were involved in the tragic Kamagata Maru episode, which sparked off the freedom-fight in Punjab. A fine of Rs. 25,000 was imposed on the villagers which, however, was refunded after Independence. The village has a Government High School for boys. It was once a Municipality and ceased to be so in 1872.

Khatkhar Kalan (Area 1.29 sq. miles : Pop. (1961) 1,487).—This small village in Nawashahr Tahsil is the native place of the great revolutionery Bhagat Singh. Every year a big *mela* is held on 23rd of March in memory of this martyr. Another great hero of the freedom struggle, S. Ajit Singh, uncle of Bhagat Singh also belonged to this village

Aur (Area 2.13 sq. miles : Pop. (1961) 2,378).—It is a very old and a big village in the south of Nawashahr Tahsil, situated on the Phillaur-Rahon metalled road, 8½ miles from Nawashahr. S. Kapur Singh Canadian who lived in Canada for a number of years has constructed a beautiful hospital here at a cost of Rs. 1½ lakhs which is equipped with modern X-Ray plant and operation theatre. This is supposed to be the best equipped hospital in the rural areas of the State. The village also has a Government High School for boys.

ADMINISTRATIVE MACHINERY

Jullundur is one of the nine Districts of Jullundur Division, and is in the over-all charge of a Deputy Commissioner.

Deputy Commissioner and his Assistants.—The Deputy Commissioner continues to be the hub of District administration. As the District Magistrate, he is responsible for maintaining law and order, and is head of the District Police, Magistracy (executive) and Prosecuting Agency. As Collector, he is in charge of the revenue administration and is responsible for the collection of land revenue and other Government dues. He is the highest revenue judicial authority in the District. He is the Registrar of all transactions of immovable property. He is the executive head of the civil administration and all departments in the District, which otherwise have their own officers, look to him for guidance and co-ordination. He plays an important role in the administration of the Municipal Committees, Market Committees, Community Development Blocks, *Panchayats*, *Panchayat Samitis*, and *Zila Parishad*, which are coming into shape with the decentralisation of authority and expansion of the *Panchayati Raj*. He is

responsible for the execution of development and planning schemes in the District, and, as Chairman of the Standing Committee of General Administration and Development, he co-ordinates the activities of the various nation-building Departments. He has to keep his fingers on the pulse of the people and presents such of their grievances to Government as he himself cannot redress.

In these multifarious duties, the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra Assistant Commissioners, at the District headquarters and at the Sub-Divisional and Tahsil level. The General Assistant helps him in executive and administrative functions. He controls the office of the Deputy Commissioner and is in charge of the Establishment, English and Vernacular Record Rooms, Copying Agency, Nazarat Branch, Passport and Licencing Branch, relief work, Red Cross and the election work. He is also an Executive Magistrate.

The District Development and Panchayat Officer looks after the work relating to Community Development and *Panchayati Raj* institutions at the District level.

The Revenue Assistant assists the Deputy Commissioner in the revenue work not so far transferred to the Sub-Divisions. He supervises the maintenance of the land records and the land revenue accounts. He controls the revenue establishment. However, with the conversion of Jullundur Tahsil into a Sub-Division and appointment of a Sub-Divisional Officer (Civil) thereto which is in the offing at the moment (May, 1965), the post of Revenue Assistant would be abolished.

The Settlement Officer of Consolidation of Holdings is a revenue-trained Extra Assistant Commissioner, who works under the dual control of the Deputy Commissioner and the Director of Consolidation of Holdings. The former's control is of purely administrative nature where as all work relating to Consolidation of Holdings is controlled by the latter.

The Deputy Commissioner is also the Registrar of the District for the registration of all the documents pertaining to the transfer of immovable property in the District and also for the performance of all other duties laid upon him by the Indian Registration Act. The Tahsildars and Naib-Tahsildars work as sub-Registrars within their respective jurisdiction.

As District Magistrate, the Deputy Commissioner is not concerned with the disposal of criminal judicial cases, as the Judiciary is separate from the Executive in the District. His functions are limited to law and order side. In this work he is assisted by the Sub-Divisional Magistrates and Executive Magistrates.

Sub-Divisions and Tahsils.—There are four Tahsils in the District : Nakodar, Jullundur, Nawashahr and Phillaur.

All the Tahsils, except Jullundur which is also about to become a Sub-Division, have been converted into Sub-Divisions, each Sub-Division being in the charge of a Sub-Divisional Officer (Civil) who is of the rank of an Assistant or an Extra Assistant Commissioner. His powers vis-a-vis the Sub-Division are analogous to those of the Deputy Commissioner vis-a-vis the District though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner. The Tahsildars and Naib-Tahsildars in the Sub-Division work under him assisted by Office *Kanungos* and a number of Field *Kanungos*, and *Patwaris*. A *Patwar* Circle is the smallest unit of revenue administration and is in the charge of a *Patwari*.

The Revenue Agency is helped in the villages by *lambardars* and village *chaukidars*. The *lambardar* collects the land revenue and deposits it in the Tahsil Sub-Treasury or the local branch of the State Bank of India, and helps the administration generally assisted by the village *chaukidar*. In return, he gets *pachotra*, which is a sum equal to five per cent of the land revenue collections.

Judiciary.—Judiciary has been separated in the District since long and the administration of justice both on the civil and criminal side is headed by the District and Sessions Judge, Jullundur. He is assisted by an Additional Sessions Judge. The Chief Judicial Magistrate and Judicial Magistrates work under him primarily on the criminal side and the Senior Sub-Judge and Sub-Judges on the Civil side. The criminal work is assigned to the various Magistrates police station-wise. The Sub-Judges exercise their powers within the prescribed pecuniary limits.

Government cases in the Civil Courts and in the Sessions' Courts are represented by District Attorney and Assistant District Attorney who are controlled by the Legal Remembrancer. They are assisted by Public Prosecutors appointed by the Government from amongst the members of the Bar. The Prosecuting Agency conducts the cases for the State in the Courts of the Magistrates.

Police.—The District Police administration is under a Superintendent of Police who functions under the administrative control of the Deputy Inspector General of Police, Jullundur Range. The staff under him consists

of Deputy Superintendents, Inspectors, Sub-Inspectors, Assistant Sub-Inspectors, Head Constables, and Foot Constables (Table 46)*. The smallest unit of Police administration is the Police Station serving a number of villages or a town or part of a town. It is in the charge of a Sub-Inspector and in some cases an Inspector.

The C.I.D. staff in the District works directly under the Deputy Inspector General, C.I.D., Punjab.

Jails.—There is a District Jail in Jullundur city. It is under the charge of a Superintendent who is assisted in his work by Deputy and Assistant Superintendents, one Welfare Officer, one Medical Officer and a number of Head-Warders and Warders. The authorised accommodation available in the Jail is for 387 prisoners. It has its own hospital where a Medical Officer looks after the medical requirements of the prisoners. There is a canteen, a library and a radio set for the use of prisoners. Arrangements also exist to give them adult education. Vocational training in different crafts like furniture making, weaving, soap-making and the like are given. There is a separate female ward in the jail and a matron looks after the women prisoners.

Community Development.—The entire rural area of the District now stands divided into 12 National Extension Service Blocks : Phillaur, Goraya, Nurmahal, Nawashahr, Banga, Nakodar, Jullundur West, Bhogpur, Adampur, Mukandpur, Jullundur East and Shahkot. Each Block is in charge of a Block Development and Panchayat Officer. This officer works under the *Panchayat Samiti* concerned though the general supervision of the Deputy Commissioner and the Sub-Divisional Officer (Civil) concerned is also there. He has no administrative functions and is mainly concerned with the promotion and execution of development schemes, besides being the Panchayat Officer under the Gram Panchayat Act in his Block. He has a number of Extension Officers working under him though they belong to different departments like Panchayats, Co-operation, Agriculture, Industries. At the lowest rung of the Extension Service Scheme are the Village Level Workers and Lady Social Workers who handle the activities of the department at the village level.

Zila Parishad, Panchayat Samitis and Panchayats.—Formerly a District Board constituted under District Board Act used to look after the construction of roads, maintenance of public buildings and general development of the countryside. Now it has been abolished and in its place a *Zila Parishad* with a non-official Chairman has been formed. Members of the *Zila Parishad* are elected by the *Panchayat Samitis.* There is a *Panchayat Samiti* looking after the development programme in each N.E.S. Block. Its members are elected from amongst the members of the village *panchayats* which form the basic units of the decentralised form of authority in the country-side. Detailed working and sphere of activities of these organisations of local self-Government in the rural areas has been discussed in Chapter IV .

Other Departments.—Practically all State Government Departments have their units in the District. The District Industries Officer with his headquarters at Jullundur looks after the industrial activities in the District. The District Education Officer, with separate wings for girls' education and boys' education, looks after the education at the school stage. The Medical and Public Health activities are supervised by the Chief Medical Officer of the District. There is a District Animal Husbandry Officer in the District. The District Food Controller looks after the procurement, movement and distribution of food supplies and other controlled commodities. The District Welfare Officer looks after the social and economic development of Scheduled Castes and Backward Classes. The District Public Relations Officer posted at the headquarters of the District serves as a link between the District Officers and the press on the one side and the administration and the people on the other.

The District Agriculture Officer is expected to guide the farmers in the proper cultivation of land, and to supply chemical fertilizers and good quality seeds to them. The Bist Doab Canal system is working under the charge of a Superintending Engineer assisted by Executive Engineers. Different drainage systems are working under different Superintending Engineers and Executive Engineers. An Executive Engineer is working for roads and buildings in the District. Three Assistant Registrars Co-operative Societies look after the working of co-operative societies in the District. The District Excise and Taxation Officer is responsible for the excise administration and the collection of the Entertainment Duty, Sales Tax and the like.

Local Bodies (Table 40)**.—Municipal Committees under the Punjab Municipal Act of 1911 are functioning in ten towns of the District. Only the one at Jullundur city is Class I; those at Nakodar; Kartarpur, Banga, Nawashahr, Nurmahal and Phillaur are Class II; those at Alawalpur, Adampur and Rahon are Class III. Jullundur Cantonment is being looked after by a Class I Cantonment Board.

*Page 110 **Page 104

CHAPTER II

ECONOMY

This chapter is divided into four sections, dealing with A-Agriculture, Irrigation and Livestock, B-Industries, C-Trade and Commerce and D-Communications.

A—AGRICULTURE

The economy of the District depends primarily upon agriculture. At the 1951-census, 49.3 per cent of the population consisted of agricultural classes dependent upon agriculture in one way or the other. At the 1961-census, 42.4 per cent of the total working force were cultivators and agricultural labourers. Land in the District is fertile and irrigation facilities are on the increase. The peasantry is sturdy and hard-working and is making good use of the facilities offerred to them under the Five Year-Plans. The holdings are small and the farmers try to make best use of them by raising at least two crops in a year. They are making increasing use of improved seeds, implements, fertilizers and the know-how which the Government is making available to them through its various agencies.

There are three economic groupings among the peasants : proprietors, tenants, and labourers. Most of the cultivators are peasant proprietors, owning and cultivating their own land. Accretion to their number has accrued of late due to the various land reforms introduced in the post-Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. The occupancy tenants have become full-fledged proprietors. Similarly such of the tenants-at-will as could purchase land under the law have also become proprietors. Ceilings on holdings have been prescribed and the surplus land left with the landlords is being made available to the landless cultivators on payment of compensation prescribed by law. For fear of being deprived of their land, many landlords have taken to self-cultivation and as they would like to avoid tenants, they are taking to mechanical means of farming which augurs well for the future of agriculture in the District. The tendency of the landlords to avoid tenants has, however, resulted in turning many former tenants into more agricultural labourers, because they cannot afford to buy land even when the law affords them the opportunity and there is no other alternative means of earning livelihood suited to their taste and training.

LAND UTILISATION

Total geographical area.—Table 3* shows the geographical area of the District and its classification according to land use in terms of quinquennial average figures from 1901 to 1961. The difference in the total area figures over a period of time has been due to chiefly alluvium and diluvium, and remeasurement of land. The average total geographical area of the District decreased from 868,124 acres in 1901 to 858,994 acres in 1961 (according to the Village Papers).

Forests.—The forests have all along occupied a position of secondary importance. The maximum acreage under forests was 1,318 acres in 1911. In the subsequent decade there was a steep decline and in 1921 there were only 221 acres of forests. The subsequent decades have registered a tendency for still further decrease and in 1961, the figures stood at 208 acres. There is a reserve forest of a little above 200 acres near Phillaur. It mainly consists of scrub and is being maintained for the supply of fire wood. As the fellings go on, they are replaced by more valuable trees of *shisham* and mulbery to meet the growing demand of timber and sports industry. The management of road sides, canal banks, strips of land along the railway lines has also passed on to the Forest Department for purpose of growing trees and such lands have been declared protected forests. *Shisham* is the chief tree planted on these lands.

Land not available for cultivation.—This includes absolutely barren and uncultivable land, which cannot be brought under plough except at exorbitant cost (49,337 acres) or, the land covered by buildings, roads, railways and water, grave yards,or otherwise appropriated for non-agricultural purposes (90,475 acres). The total area in this category is 139,812 acres or 16.3 per cent of the total area.More and more of land would appear to be coming under this category due to the vast constructions going on under the Five-Year Plans.

Other uncultivated land excluding fallow lands.—This denotes land available for cultivation, whether not taken up for cultivation, or abandoned later, and includes culturable wastes, grazing lands and lands under tree growth not included in the net sown area.

The area in this category is sharply decreasing, particularly after the introduction of the Five-Year Plans; it was 71,011 acres in 1951 and 9,984 acres in 1961. The holdings in the District are small and the farmers are keen

*Page 60

on extending cultivation to the maximum. No appreciable cultivable waste is, therefore, available with individual farmers. Most of the cultivable waste is the village common land which is in the possession of village *panchayats*. Some *panchayats* have started direct cultivation and such areas as remain uncultivated are utilised by the villagers for cattle. The swamps have been mostly cleared but still flood water stays in low-lying areas. With the introduction of canal irrigation since 1954-55 and excessive rains since 1955, water-logging has appeared in some parts of the District, as in Nawashahr Tahsil. The resultant swampy conditions have discouraged fruit cultivation. Construction of drains has been taken in hand as a result of which the unwanted water is being drained off and vast areas are being reclaimed.

Cultivated area.—In revenue terminology any land if it has had even one sowing during the previous four harvests is classed as cultivated land. Cultivated land thus consists of (i) current fallows and (ii) net sown area. The position of the cultivated area in the District is brought out by the following figures :

	Percentage to total area	
	1948-53	1958-63
Forests	..	...
Land not available for cultivation	12.0	16.3
Other uncultivated land	8.3	1.1
Current fallow	8.3	6.3
Net sown area	71.4	76.3
Total	100.0	100.0

In the State, as a whole, cultivated area (current fallows plus net sown area) forms 65 per cent of the total area. The corresponding figure for Jullundur District works out to 82.6 which is a tribute both to the benevolence of nature and diligence of the farmer. As between the two quinquenniums the share of the cultivated area has improved from 79.7 to 82.6 per cent. This increase has been partly at the expense of the current fallow. In 1948-53, they formed 8.3 per cent of the total area and during 1958-63 only 6.3 per cent. With the growing trend for intensive cultivation, the practice of taking crops from the same plots successively for a number of years is coming into vogue. And there is nothing wrong in it, for agricultural research has proved that with good manuring and judicious rotation of crops, it is seldom necessary to allow land to lie fallow.

The figures further show that cultivation has made a significant dent into 'other uncultivated lands' the share of which in total area has declined from 8.3 to 1.1 per cent. Evidently there is almost no scope for further extension in cultivated area and further increase in production recourse will have to be had to more intensive farming and better techniques.

IRRIGATION*

The District is enclosed by the rivers Sutlej and Beas and lies in their basin. Most of its soil is alluvial and fertile. The annual rainfall ranges between 23 and 35 inches. The sub soil water is suitable for irrigation and the water-table is also low. The average size of holdings is about 4.75 acres. All these circumstances are conducive to individual well irrigation and this mode of irrigation has been popular since long. Pumping sets and tube-wells are recent introduction and so is canal irrigation, which started in 1954 after the construction of the Bist Doab Canal from the Rupar Headworks.

There has been overall increase in irrigation in the District ever since the beginning of the present century; the net area irrigated being 379,885 acres during 1898-1903; 366,012 during 1948-53 and 457,340 during 1958-63. In 1961 56.6 per cent of the total cropped area received irrigation.

Wells.—Percolation wells are the chief means of irrigation. There was time when *kacha* wells were popular in the *bet* areas, but they have now gone out of use and wells all over are pucca and fitted with Persian Wheels, almost all parts of which are made of iron. The Government advances loans generously both for sinking and repairing of wells and people take full advantage of his facility. A new type of Persian Wheel known as Disc-Chain Pump is becoming popular in areas where water-table is within 15 feet. This lifts water as much as double the quantity lifted by ordinary Persian Wheels. *Charas* is also used at some places where water-table is low. *Dhingli* is used where water is within 5 feet of the surface soil.

Ever since the beginning of this century, the acreage under well irrigation had reached the peak figures of 447,569 acres by 1941. Then, perhaps on account of the disturbed conditions created by Partition, the acreage went down to 365,793 acres by 1951. The subsequent decade has again noticed a fairly sharp increase to 404,300 acres by 1961, which forms 88.4 per cent of the total net irrigated area. Tube-wells and pumping sets have been

*Page 62

introduced after Independence. Initially they were driven by oil engines, but now electricity is exclusively used, particularly for tube-wells. A separate division in the Irrigation Department has been created to make them popular and to run some of them on Government account. Financial and technical assistance is also given by the Government to run private tube-wells.

Canal irrigation.—The Bist Doab Canal serving this District takes off from the right bank of the river Sutlej from Rupar Headworks. It was constructed during the First Five-Year Plan and, besides Jullundur, irrigates Hoshiarpur and Kapurthala Districts as well. In Jullundur District, it has a length of 430.5 miles including its tributaries and minors and covers culturable commanded area of about 432,000 acres. Irrigation from this source was started in the District in 1954-55 with 14,256 acres and had reached the figures of a little over one lakh acres in 1963-64.

Crops irrigated (Table 6)*.—The Table shows that though both food crops and non-food crops are sharing in irrigation facilities, the former are having a lions share. During the quinquennium 1958-63, out of the total irrigated area under all crops of 491,604 acres, as much as 366,514 acres were under food crops and the remaining under the non-food crops. Among the food crops, foodgrains occupied the largest acreage (307,076 acres), wheat being on top (190,806 acres). Next to wheat came sugar-cane (42,224 acres), then pulses (25,814 acres) and rice (15,252 acres). Among non-food crops, cotton occupied a small acreage of 31,651 acres. Other non-food crops like fodder and groundnut occupied 93,439 acres.

MAIN CROPS**

As elsewhere in the State, there are two main harvests in the District : *rabi* (*hari*), and *kharif* (*sawani*). The *rabi* or spring harvest consists of wheat, gram, barley, oilseeds, fodder crops, potatoes and the winter vegetables. It is sown in October-November and is harvested from mid-March to mid-May. The *kharif* or autumn harvest consists of rice, maize, surgar-cane, cotton, most pulses, *bajra* and vegetables like chillies, onions and gourd. It is sown in June-August and is reaped from early September to late December. Sugra-cane and cotton are sown a little earlier. Some crops come in between these two harvests. For example, *toria* matures late in December and is classed as *zaid* (extra) *kharif*. Similarly tobacco and melons are harvested late in June and are classed as *zaid* (extra) *rabi*.

As between the two main harvests, the area devoted to *rabi* crop is a little more than that devoted to *kharif* crops. The preponderance of *rabi* over the *kharif* is due to the existence of irrigation facilities. In Districts where land is dependent entirely on rains, *kharif* is the major harvest because rains for the major part occur during the monsoon months.

Wheat.—Among foodgrains, wheat is the most important. It is the staple diet of the people and is sown all over the District. About one-third of it is sown under *barani* conditions and two-third under irrigated conditions. The improved varieties grown are C-273, C-286 and C-519. Since 1898-99 till Independence the highest average yearly acreage under the crop was 289,353 acres during 1908-13. In the post-Independence period, the corresponding highest figure was 290,449 acres during 1958-63.

The District was estimated to produce 149 thousand tons of wheat in 1960-61. This gave a middle position (9th) to it among the Districts of the State, the District of the highest production being Ferozepur (362 thousand tons) and of the lowest production Lahaul & Spiti (less than 500 tons). The District produced 1,192 lbs. per acre in 1960-61, which was more than the per acre production of the Punjab State of 1,077 lbs. and gave it 6th position among the Districts of the State; the District of the highest per acre production being Patiala (1,368 lbs.) and of the lowest per acre production Simla (419 lbs.). The per acre production of District Lahaul & Spiti is not known.

Maize.—The next important foodgrain of the District is maize. It is the chief food of the people during the cold weather. It is generally sown all over the District on about 1 lakh acres annually, about a third of it in Nawashahr Tahsil. The crop is grown both under irrigated and *barani* conditions, about 33 per cent being rain-fed. Local varieties are mostly sown but of late hybrid varieties like Ganga No. 1 and Ganga No. 101 evolved in India have been introduced.

In 1960-61, the total production of the crop in the District was 55 thousand tons, which (bracketed with Ambala and Ludhiana Districts) gave third position to the District among the Districts of the State, the first two positions being occupied by Kangra (113 thousand tons) and Hoshiarpur (67 thousand tons). For the same year, the yield of the crop per acre in the District was 1,206 lbs., which was much better than the per acre production of Punjab State, (994 lbs.) but gave to the District the 5th position, the Districts of Amritsar (1,280 lbs.), Ludhiana (1,273 lbs.), Kangra (1,264 lbs.) and Ferozepur (1,242 lbs.) leading it.

*Page 62 **Page 63

Rice.—Rice is grown in parts of Nawashahr, Jullundur and Nakodar Tahsils. During the past few years, there has been an appreciable increase in the area under the crop. Thus, whereas on the average 3,241 acres were put under this crop annually during 1948-53, the corresponding figures for the years 1958-63 shot up to 19,736 acres. Both coarse and fine varieties are grown, but the coarse variety is in preponderance. The total production of the crop in the District was 14 thousand tons in 1960-61. The same year, the per acre yield worked out to 1,385 lbs. which gave 11th position to the District among the Districts of the State, the District of the highest per acre yield being Simla (1,642 lbs.).

Other cereals.—Barley, *bajra* and *jowar* are other cereals cultivated in the District. *Bajra* and *jowar* are minor *kharif* crops and are mostly grown in the *barani* areas. Barley is a minor *rabi* crop and for the most part, it is milled along with wheat.

Pulses.—The pulses grown in the District are gram, *mash*, *moong*, *moth* and *massar*. Gram is an important cash crop, and is sown mostly under *barani* conditions, only about 30 per cent being irrigated..

Fruits and Vegetables.—Not much area is devoted to fruit cultivation in the District. This is due to the small holdings, and heavy rains and floods damaging the fruit plants. In the post-Partition period, two garden colonies were planned to be set up in Khurla Kingra and Maholan but they have not proved successful. Citrus plants which were mainly recommended for them proved unsuccessful and had to be uprooted. Even the plantation of mango and guava had proved discouraging due to the damage done by the frosts during 1963 and 1964. Grape cultivation and cultivation of decidious plants like peaches and plums are being tried by some farmers.

Due to the establishment of a number of cold stores, there has been an appreciable increase in the area under vegetables, especially potatoes, during the last few years. Potatoes are now grown as an important commercial crop by progressive farmers.

Sugar-cane.—It is grown mostly under irrigated conditions. Though it is sown all over the District, the acreage under the crop is concentrated in Jullundur, Nawashahr and Phillaur Tahsils. With the setting up of a sugar mill at Bhogpur in Jullundur Tahsil and the prospects of another mill being started at Nawashahr in the near future, the crop has assumed importance in the economy of the District. In acreage (50 thousand acres), production (80 thousand tons), and per acre yield (3,617 lbs.), Jullundur occupied the fourth position amongst the Districts of the State in 1960-61, the first position being that of Rohtak District with the corresponding figures of 101 thousand acres, 203 thousand tons and 4,482 lbs.

Condiments and spices.—Chillies is also a good commercial crop of the District, grown all over but mostly in Nakodar Tahsil.

Oil-seeds.—Among oil-seeds, groundnut is important. It is mostly sown *barani*, chiefly in Jullundur and Nakodar Tahsils. During the past few years, there has been an appreciable increase in the area under the crop due to heavy rainfall. Rape and mustard, sesamum and linseed are also grown in all Tahsils.

Cotton.—Climatic conditions in the District are not so favourable for the cultivation of cotton. The American variety was introduced in the mid-fifties and it soon became quite popular. Due to heavy rains and floods during the past few years, which it cannot stand, there is a decline in its production and the *desi* cotton, which can stand unfavourable conditions better, is holding the sway. In 1960-61, the area under the American variety was 14 thousand acres and under the *Desi* variety 16 thousand acres.

Fodder crops.—Except for a few patches here and there in the *bet* area, there is no land where animals can graze. They have to be stall-fed : hence the importance of fodder crops. During 1958-63, they occupied 22 per cent of the total cropped area. *Chari* and maize are the main fodders during the *kharif* and *senji*, *metha*, *halon*, and *barseem* during the *rabi*. *Barseem* is the latest introduction amongst the fodder crops and is becoming quite popular due to the large number of cuttings it gives.

CROPPING PATTERN

Two systems of cropping are in vogue in the District, namely, *dofasli harsala* and *ekfasli harsala*.

The *dofasli harsala* means two harvests in a period of twelve months. It usually takes the form of sowing maize in *kharif* followed by wheat, gram or fodder in *rabi*. If the *kharif* crop is cotton, it is usual to sow *senji* or *metha* for fodder among the bushes for the *rabi*. On some well irrigated fields, particularly near the cities, some times as many as three crops of vegetables and fodder are raised in a year.

Ekfasli harsala means a single crop in a year. This system is restricted to some *barani* lands of low fertility. If the soil is pure sand, the crop grown is gram. If good soil lies under the sand, then a mixture of wheat and gram

is grown year after year. In dry tracts the emphasis is on *bajra* and *jowar* though at places *mash* may be grown in *kharif*.

Crop-mixtures.—Mixed crops are quite familiar particularly in *barani* tracts. There are various reasons which prompt such mixed sowing. Gram and wheat are sown mixed to provide against the uncertainty of weather. If the rains favour, wheat comes up better, but should they be inadequate then atleast gram may be expected to give some yield. A sprinkling of *sarson* is given in wheat fields; *sarson* thus sown is removed early for green fodder and wheat is allowed to grow to maturity. Melons are sown with cotton and removed before the cotton shades the ground. It is also a common practice to grow pulses which do not acquire height alongwith *kharif* cereals *e.g.* maize and *mash, jowar* and *gowara, bajra* and *moong*, barley and *massar*.

Mechanised cultivation.—The farmers of the District are progressive and have taken with zeal to improved and modern implements. Practically every farming family has an iron stirring plough which is being supplied by Government to the farmers at 50 per cent subsidy. Improved cotton drills and pneumatic tyred carts are recent additions to the farmer's equipment. Tractors are gaining in popularity, and their number rose from 185 in 1956 to 369 in 1961.

In 1961, the District had 24,021 iron ploughs against the State total of 478,122. 704 oil engines with pumping sets, out of a total of 8,156 in the State, and 1,963 electric pumps for tube-wells out of a total of 8,784 in the State; the number of electric pumps for tube-wells in Jullundur was the highest among the Districts of the State.

LIVESTOCK*

In a densely populated area still mainly dependent on agriculture man competes with livestock for food. Animal husbandry is not a strong point with Jullundur. The local breed of cattle is poor and for better bullocks the District depends on southern Districts. Pedigree Hariana bulls purchased from the Government Livestock Farm, Hissar, are distributed among *Panchayats* and now there is a fair number of such bulls working in the District. The Veterinary Department has opened three Artificial Insemination Centres with key village centres and sub-centres attached to them. To further improve the breed of cattle, a mass castration scheme has been introduced in the State. It has started working in the District. The idea is to castrate the scrub bulls which are at present a source of multiplying useless progeny. Old and worn-out cattle who have out-lived their usefulness are sent to *gowshalas* and *gow-sadans* where they are properly looked after.

Attention is also being paid towards the improvement of mule and horse breeds. At every Tahsil headquarters, horse and donkey stallions have been stationed and they serve the mares of the surrounding areas. Government is also greatly interested in encouraging poultry farming and supplies eggs of improved breeds like White Leghorn and Rhodes Island Red to prospective farmers. Incubators have been installed at the Government Poultry Stations where eggs are hatched at a nominal fee.

Cattle.—Table 12* shows the results of various livestock censuses held from 1920 to 1961 and some broa inferences which can be drawn from it are given in the paras below.

The peak number of the cattle was recorded at the 1923 livestock census, (324,333). In 1951, the numbe was the lowest (238, 268) which may be due to the disturbed conditions created by the Partition. Subsequently th number has looked up and in 1961 it stood at 272,936. Bullocks constituted a major portion of this number . Th breeding bulls counted 120 only against 69,120 cows above three years of age. The number of cattle per thousan human beings in the District in 1961 was 223 which is the lowest figure amongst the Districts of the State, excep Amritsar (213).

Buffaloes.—Their number was the highest at the 1945 cattle census, (240,328) which dropped suddenly a the count made in 1951 (171,024), perhaps due to the disturbed conditions following Partition, as in the case of th kine population. The subsequent decade has, however, registered a sharp increase and the number stood at 236,91 in 1961. The female buffalo made up for most of this number. It requires less attention than cow, thrives well o stall feeding, and gives an excellent return for her up-keep. He-buffaloes are not popular because they are sluggis and very sensitive to sun. The number of buffaloes per thousand human beings in 1961 was 193, the highest corres ponding figure of 281 being for Kapurthala District.

Horses and ponies.—With speedier modes of travel coming in vogue, there has been an over-all decreas in the number of these animals from 6,977 in 1920 to 2,096 in 1961. The number declined to half between 195 and 1961.

*Page 71

Donkeys and mules.—These animals are used as beasts of burden, particularly for carrying earth and bricks for construction works, but as now motor vehicles are increasingly available for the purpose, there is less demand for these animals. The donkey population has decreased from 12,396 in 1920 to 4,504 in 1961, but the number of mules has gone up from 260 in 1920 to 595 in 1961.

Sheep and goats.—The rearing of sheep and goats appears to have received a definite set-back on Partition due to the migration of the Muslim population who mainly maintained them. The number of sheep came down from 17,109 in 1945 to 889 in 1951, and of goats from 77,822 to 57,496. In the subsequent five years there was increase both in the number of sheep and goats but the next five years again showed a decrease for reasons not known.

Camels.—The camel does not occupy an important place among the domestic stock in this District, as it does in the dry and sandy Districts of Hissar, Bhatinda and Ferozepur. Their number (3,486) was the highest in 1945 but it has come down to 874 by 1961.

Pigs.—Pigs could not be tolerated by the Muslim population. In 1945 they counted only 291, but after Partition due to settlement of non-Muslim population in place of Muslim population the number of pigs went up to 1,842 by 1951. The number has fluctuated in the subsequent years.

Poultry.—Poultry population increased from 54,176 in 1945 to 104,017 in 1951; in 1961 it was 101,455; in that year the number of poultry per thousand human-beings worked out to 83 which gives the District a middling position among the Districts of the State, with Patiala District being on top with its figure of 192.

Livestock diseases.—Except for the swampy areas the District is healthy for the up-keep of livestock. The common cattle diseases are *rora, andi* and *gal-ghotu. Rora* is ordinary foot-and-mouth disease. *Andi* is also called *mann* and is dysentry. It generally occurs in the rains. *Gal-ghotu* (Halmorlajir Septicxemia) is so called because of its characteristic symptom of a swelling in the throat. It often proves fatal. *Phar-sujan* (Black Quarter) is another cattle disease. Goitre and liver-rot are among sheep and goat and *surra* among the camels. Fowl-fox is common among the poultry.

The prevention and cure of livestock diseases are in the hands of the Veterinary Department, which on 31st December, 1961 maintained 24 veterinary hospitals and 9 dispensaries in the District in addition to a number of first-aid centres. These hospitals and dispensaries were manned by 32 doctors, 11 compounders and 58 other staff.

B-INDUSTRIES

The District is known for its industrial aptitude and it has been having a good range of artisans engaged in cotton weaving and spinning, silk weaving and spinning, utensil making and manufacture of woollen blankets and drugs. Among the old time industries, making of *phulkaris*, lacquer-wares, *gur* and *khandsari*, *desi* shoe, *bani dari*, furniture, agricultural implements and musical instruments, oil crushing by wooden *ghanis*, handloom weaving and tanning are worth mention. Out of them, *phulkari*-making, lacquer-wares and oil crushing by wooden *ghanis* have almost disappeared.

The industrial development of the District is, however, post Partition history and credit for it goes to the initiative and determination of the entrepreneurs uprooted from West Pakistan, and the encouragement and facilities provided by Government. Industrialists and artisans migrating from cities like Sialkot settled down and lost no time in re-starting their business aided and encouraged by the Government in all possible ways. Thus sports goods, surgical instruments, rubber goods and many other engineering trades took birth in the District and have expanded fast.

Sugar manufacture, steel re-rolling, enamelling, water pipe fittings, bolts and nuts, agricultural implements, electrical equipment, radio receivers, automobile parts, and cycle parts claim units in the line of large scale industries. Among the small scale industries are agricultural implements, machine tools, bolts and nuts, cycle and cycle parts, steel re-rolling , sewing machine and parts, water pipe fittings, brass-wares, sports goods, wood and machine screws, rubber goods, rosin and turpentine, scientific instruments, automobile parts, electrical goods, paints and varnishes, surgical instruments, plastic goods, ball bearing and furniture. The more noteworthy industries are described below.

Sports goods industry.—Jullundur is known all over the country as the biggest centre for the manufacture of various sports goods, and the industry has entered successfully the international market. In 1963-64, goods worth about Rs. 1½ crores were sold. With a view to improving the quality of leather, which is a very important raw material for the sports goods, an extension centre of the Central Leather Research Institute, Government of India, has been set up in Jullundur, imparting technical guidance in the manufacture of non-stretching leather.

Surgical instruments.—This is another important industry of the District tracing its origin to Sialkot. The migrants from that area started units at Jullundur and, after imparting training to a number of local workers, have

been able to produce some of the best varieties of surgical instruments. With a view to modernising the manufacturing techniques, some mechanisation is being gradually introduced and arrangements are being made for providing a Heat Treatment Centre.

Water pipe fittings.—One of the top most industries in the District is the manufacture of brass cocks and valves. The Leader Engineering Works, M/s Amin Chand and Pyare Lal, and M/s Amin Chand and Bhola Nath, all of Jullundur, are large scale enterprises in the line. Besides selling their goods to all areas in India they are making efforts to put them in the foreign market.

Hand tools.—It is an important industry and the possibility of exporting large quantities of the manufactured articles is being explored.

Automobile parts.—This is another industry which has made spectacular achievements and is trying for finding foreign market.

Agricultural implements.—The industry has acquired significance in view of the target of the Government to double up agricultural production. Goraya is said to be the birth place of chaff-cutters. A noticeable feature of this industry is that apart from urban areas, it is also found in some rural areas where hereditary engineering skill and marketing facilities are available. The latest innovation in the industry is the production of multi-purpose implements which can dig, sow and fertilize the fields in a single operation.

Ball bearings.—Ball bearings of all sizes are being manufactured mostly at Goraya and Jullundur.

Radio and sound equipment.—Jullundur is well known for the manufacture of loudspeakers, amplifiers, cheap radio sets, radio-grams, and transisters. The industry is followed both by large scale units and small scale units. M/s G.W. Balkar and Co. of Jullundur is a unit in the large scale, and in 1963-64 it produced goods worth 18 lakh rupees and employed 81 persons.

Sugar.—There is only one sugar mill in the District, the Janta Co-operative Sugar Mills, at Bhogpur. It is being run on co-operative basis and in 1963-64 it produced 5,600 metric tons of sugar and employed 1,240 persons. Another mill, again in the co-operative sector, is coming up at Nawashahr.

Rubber.—There are a number of industrial units manufacturing a variety of rubber goods like motor parts, bicycle and sewing machine parts, sports items, machine parts, toys. The latest in the series of the production are rubber *chappals*, pressure cooker faskets, and rubber shoes. M/s Allied Rubber Works are well known for production of rubber belting.

Furniture.—This industry is mostly concentrated at Kartarpur. In 1962-63, there were 122 units working in the District and their production amounted to 86 lakh rupees, employing 760 persons. With the setting up of a Wood Seasoning Plant at Kartarpur, the industry has a great chance of improving the quality of production.

Village industries.—Village industries have always found an important place in the economy of the District. The seasonal nature of agriculture and the efforts at keeping villages self-sufficient provide impetus for the growth of the rural industries. The important village industries are handloom weaving, tanning, *desi* shoe making, carpentry, *gur* and *khandsari* making, and *ban* and rope making. *Khaddar* and various kinds of *khes* are the main products of the hand weaving industry.

STATE AID TO INDUSTRIES

The State Bank of India and other banks assist the industries in making available working capital. The Government also provides financial aid in the form of loans, subsidies and grants-in-aid. The Industries Department issues essentiality certificates for granting import licences for raw materials, machinery and their components. It also arranges procurement and distribution of coal, coke, cement, iron and steel. The Industries Department also provides technical guidance for starting new industries and imparts industrial training at various institutions described in Chapter IV.

The Quality Marking Centre for sports goods at Jullundur is a very valuable instrument of help and assistance to the sports goods industry. The Wood Seasoning Plant at Kartarpur would be one step more in the direction of helping the sports goods and furniture industry to improve quality. The Sound Products Centre, Jullundur has been established with a view to providing testing facilities to the manufacturers of sound equipment and other allied items. The Government Musical Instruments Training Centre has been started with the idea of encouraging handicrafts connected with the manufacture of musical instruments like *sitars* and *tanpuras*. With a view to harnessing skill in the rural areas for industrial development, the Government has decided to have a net work of industrial development and artisan training centres along with the rural industrial estates. An Artisan Training Centre along with an Industrial Development Centre has been provided at Nakodar in connection with making shoes and other

leather goods, *dari* making, turning, and moulding. At Rurka Kalan has been started an Industrial Development Centre for the promotion of light engineering industries. It is intended to serve as a Common Facility Workshop for Heat Treatment, etc. There is also a Common Facility Workshop at Nurmahal. A centre for imparting training in repairing cycles and sewing machines has been set up at village Apra. There is a Women Home Craft Centre meant for the Community Development areas. It imparts training to women for six months in one Block and then shifts to another Block.

Yet, another assistance, which the Government gives for the establishment of industries, is in the form of establishing industrial areas and industrial estates. The industrial area, which came into being at Jullundur soon after Partition, spreads over an area of 131 acres and is humming with industrial activities of various kinds—sports goods, engineering, oil and other miscellaneous industries. An Industrial Estate covering an area of over 3,900 *kanals* is coming up nearby. It is also intended to establish rural industrial estates in rural areas. One such estate has already been set up at Rurka Kalan, a few miles from Goraya and yet another at Nakodar. An Industrial Estate is also being established at Adampur. It is also intended to start an Industrial Estate at Alawalpur.

C-TRADE AND COMMERCE

The District is most centrally placed in the State. It can boast of very good means of communication. Land is fertile and cultivation extensive. Industry is well developed and diversified. All these factors give to the District an advantageous position in Trade and Commerce.

The District is surplus in agricultural produce and has some very good grain markets. Those at Jullundur City, Jullundur Cantt., Nawashahr, Banga, Phillaur and Nakodar are regulated markets. Kartarpur, Bilga, Nurmahal, Rahon and Alawalpur have unregulated markets. Table 11* shows the quantity of different commodities brought for sale in some of these markets. The principal arrivals at Nakodar are wheat, gram, maize, *bajra*, *gur*, *desi* cotton, groundnut, potatoes, chillies and onions. Jullundur Cantonment attracts large quantities of wheat, maize, paddy, potatoes and onions. Nawashahr would appear to be the main market for agricultural produce in the District and among the main arrivals here are wheat, gram, maize, paddy, *jowar*, *gur* and *shakkar*, *taramira*, groundnut, *mash*, *massar* and potatoes. Phillaur is noted for marketing wheat, gram, maize, *gur* and *shakkar*, and potatoes.

The regulated markets are governed by the provisions of the Punjab Agricultural Produce and Marketing Act. The farmers mostly use carts for bringing produce to the markets, though trucks and tractor trollies are also quite popular for the purpose. The Market Committees which administer the regulated markets afford the farmers all possible facilities to sell their produce.

Among agricultural produce, the important exports from the District are in wheat, wheat-flour, gram, groundnut, cotton and potatoes. Among the export of manufactured articles the important ones are sports goods, furniture, cycle and cycle parts and sewing machines, and improved agricultural implements. The principal imports of the District are salt, sugar, cloth, kerosene oil, motor spirts, metals, gunny bags, cotton piece goods, warm cloth and machinery.

D-COMMUNICATIONS

The District has a close net-work of railway lines and pucca roads. The postal, telegraphic and telephone services also appear to be adequate.

Railways.—The District is served by various lines of the Northern Railway, there being in all 42 railway stations on them within the District (Table 36)*. All these are broad-gauge lines. The main line is that running from Delhi to Amritsar. It is a double line and enters the District by a strong iron bridge over the Sutlej at Phillaur. Passing north-wards, it serves Phillaur Tahsil and entering Jullundur Tahsil *via* Phagwara, serves that Tahsil, Jullundur Cantonment, Jullundur City, and Kartarpur being the principal stations on it.

The Jullundur-Ferozepur line serves the eastern part of Jullundur Tahsil on its way to Kapurthala and, further south-west, the eastern portion of Nakodar Tahsil. The northern portion of Jullundur Tahsil is served by: (i) the railway line leaving for Pathankot, Bhogpur being an important station on it within the boundaries of the District, and (ii) the railway line connecting Jullundur Cantonment with Hoshiarpur. Nawashahr Tahsil is served by the railway line leaving from Phagwara to Nawashahr *via* Banga. Nawashahr is connected by rail with Rahon in the south and Garhshankar in the north. Another railway line connects Phillaur with Nurmahal, Nakodar and joins the Jullundur-Ferozepur line.

*Page 101

Roads.—The post-Partition period has seen a note worthy extension in road construction in the District, as the following figures show :

Year	Road mileage		
	Total	Metalled	Unmetalled
1950-51	484	196	288
1960-61	588	381	207

The road mileage per 1,000 population worked out to 0.45 in 1959-60 as against the corresponding figure of 0.75 for the entire State of Punjab. During the same year, the per 100 square miles road mileage was 35.98 in the District, as against 25.65 for Punjab; this placed it in the fifth position among the Districts of the State, the first position being occupied by Simla (388.89).

The roads are maintained by the Public Works Department and Local Bodies. Most of them are maintained by the former and they include the National Highways, the State Highways and the District Major and Minor roads. 37 miles of the Grand Trunk Road (The National Highway No. 1), lies in the District. This includes a bye-pass, 6.25 miles long, which has recently been constructed near Jullundur city in order to avoid the congested area of the city through which the Grand Trunk Road otherwise passes. The Jullundur-Pathankot road is another National Highway, running for 18 miles in the District. It is a metalled road and has been widened from 12 to 22 feet after 1959.

The State Highways passing through the District are Jullundur-Hoshiarpur-Dharamkot road, Dharamkot-Shahkot road, Jullundur-Nakodar section and Nakodar-Malsian Section. The Major and Minor District roads are confined within the boundaries of the District and serve as important arteries of communication between different regions. Some important of them are Jullundur-Kapurthala road, Phagwara-Nawashahr road, Nawashahr-Garhshankar road, Nakodar-Phillaur road, Jullundur-Talwan road and Phillaur-Lisara-Rahon road.

The roads formerly maintained by the District Board are now the responsibility of the *Zila Parishad.* Total length of such roads was 169 miles in 1960-61, out of which 146 miles were *kacha* and the rest *pacca.* Jullundur Cantonment and the various Municipal Committees maintain a road length of 104 miles within their respective jurisdiction most of which (93.45 miles) were metalled (Table 34)*.

Major bridges in the District having a span of at least 300 feet are those over the Sutlej and the Beas and the Eastern Bein, all the three on the Grand Trunk Road (Table 38).†

Road transport.—Though motor vehicles are becoming increasingly popular, yet the bullock carts still hold sway in the country-side both for conveyance and carriage of goods. They are eminently suited to the rugged country-side where the sophisticated modern vehicles dare not tread. A few carts are fitted with pneumatic tyres instead of the traditional wooden wheels.

With the improvement and extension of roads and the indigenous cycle industry, push-cycles are as popular in villages as in the towns.

A remarkable feature of the post-Independence period has been a rapid decline in the use of tongas and *ekkas* drawn by horses. This is primarily due to the emergence of the cycle-rickshaws, which are cheaper and easier to maintain. The horse-carts, however, still continue to be used on the country roads. Tempoes, three-wheeled vehicles, have also lately been put on roads and they are becoming popular in the rural areas as a cheap and swift means of conveyance.

The increase in the use of motor vehicles is a marked feature of the post-Independence period. The number of the registered vehicles rose from 2,057 in 1950 to 6,214 in 1960. Noticeable increase was in the number of cars, buses, motor-cycles, public carriers and tractors.

Post, telegraph and telephones.—The District has a net work of post offices, telegraph offices and telephone exchanges. The number of post offices on 31st March, 1961 was 321 : 78 in Nakodar Tahsil, 93 in Jullundur Tahsil, 84 in Nawashahr Tahsil and 66 in Phillaur Tahsil (Table 35)**. Telegraph service was started in 1930. A separate exchange for telegraph was installed in 1948. The telegraph office in Jullundur city has now shifted to the new building of post offices near Nehru Gardens. Telegraph facilities are now available at 28 post offices. An automatic telephone exchange has been set up at Jullundur since 1960. Sub-exchanges exist at Nawashahr, Phillaur and Nakodar. Phono-communication facilities are also available at 17 post offices.

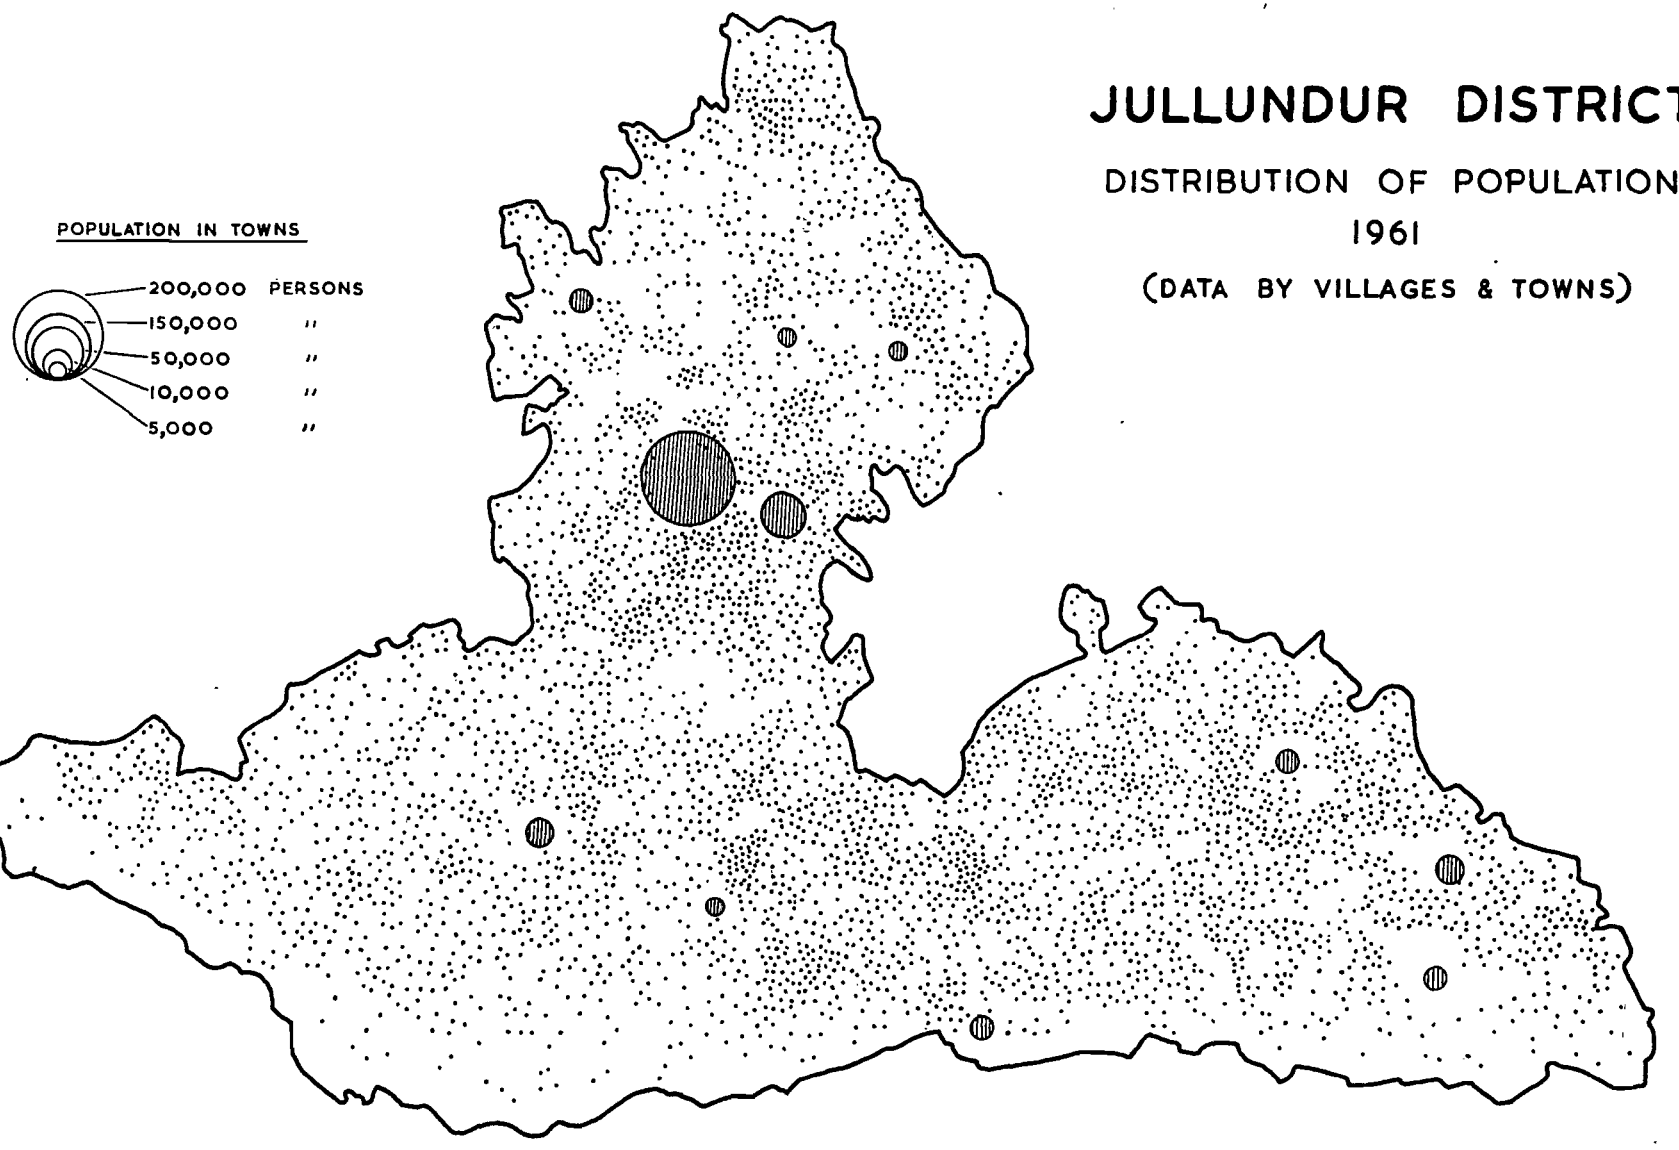

*Page 98 †Page 102 **Page 100

JULLUNDUR DISTRICT

DISTRIBUTION OF POPULATION

1961

(DATA BY VILLAGES & TOWNS)

RURAL POPULATION:— ONE DOT REPRESENTS 200 PERSONS.

CHAPTER III

POPULATION

Part III of this book contains Tables relating to the 1961-census. These Tables are preceeded by an exhaustive note explaining their arrangement and the terms used. Only the broad facts thrown up by these statistics are stated below.

On the sunrise of the 1st March, 1961, Jullundur District had 1,227,367 persons, giving it 10th position among the Districts of Punjab : Ferozepur District had the largest population (1,619,116) and Lahaul & Spiti District the smallest (20,453).

Growth of population (Table A-II)*.—The area now constituted as Jullundur District had 918,939 persons in 1901. During the next sixty years 1901-61, the population increased by 33.6 per cent. The population of Punjab, as at present constituted, similarly increased from 13,265,860 in 1901 to 20,306,812 in 1961 denoting an increase of 53.1 per cent. The smaller increase in the District can be attributed to ravages of plague and malaria during 1901-11, the migration following the Partition, and the general tendency for out-migration from the District owing to its being already thickly populated.

The rates of decennial variations in the District since 1901 are placed below side by side with those for Punjab.

Decade	Jullundur	Punjab
1901-11	—12.61	—9.96
1911-21	+2.58	+4.35
1921-31	+14.76	+9.64
1931-41	+19.43	+17.81
1941-51	—6.50	+0.21
1951-61	+16.27	+25.86

It will be noticed that, as compared to the State as a whole, out of the six decades as listed above, the rate of growth was faster in the District only in two decades. The decade 1901-11 was marked by severe ravages of plague and malaria, which took a heavy toll of life . The percentage loss was greater in the District than in the State. During 1911-21 occurred the great influenza epidemic but the District appears to have suffered less than the State as a whole. The years 1921 to 1941 were generally healthy and the population expanded faster in the District than in the State as a whole. The decade 1941-51 saw maleria breaking out in an epidemic form due to heavy rains and floods. This decade also bore the holocaust of unprecedented communal trouble and mass migration in the wake of Partition. Most of the Muslim population migrated to Pakistan and their place was taken up by a large number of non-Muslim immigrants uprooted from West Pakistan. The years 1951-61 were free from disease and the health measures taken by the Government reduced the death rate from 15.72 per thousand in 1951 to 13.28 per thousand in 1960 while the birth rate went up from 41.04 per thousand to 44.57 per thousand. Extension in agriculture and Industrialisation during the post-Partition period under the Five-Year Plans have also contributed to this high rate of growth in population, and should this rate persist, it would be a matter of great concern.

Density of population.—The District has remained a most densely populated area among the Punjab Districts all through since 1901. At the 1961-census, the density of population of Punjab State was 429; the corresponding figure for Jullundur District was 914, and , along with the Districts of Amritsar (782), Ludhiana (773) and Gurdaspur (740), it constituted a block of the most densely populated zone in the State. The reasons for this feature are good climate, fertile land, extensive irrigation, secure agriculture and highly developed transport, education and industry.

The relative density of the Tahsils of the District for the census years 1951 and 1961 is as follows:

	1951	1961
Nakodar	446	502
Jullundur	1,179	1,458
Nawashahr	748	817
Phillaur	749	804

*Page 165

The accelerated growth of density is shared by all Tahsils, but more so is Jullundur Tahsil where the growth of industries has attracted people from outside.

There is a bigger gap in density of human population as between rural and urban areas in the District than in Punjab as a whole. The human density in Punjab is 429 persons per square mile : 346 in rural areas and 9,476 in urban areas. The corresponding figures for Jullundur District are 914, 670 and 10,733, respectively. As between the Tahsils, Jullundur records the highest rural density (771) and Nakodar the highest urban density (13,259) (Table A-I)*.

Villages (Tables A-I and A-III†) .—The District has in all 1,306 villages, of which 122 are un-inhabited (*be-charag*). The distribution of these un-inhabited villages Tahsil-wise is : Nakodar Tahsil 54, Jullundur Tahsil 27, Phillaur Tahsil 22 and Nawashahr Tahsil 19. Most of these un-inhabited villages are located in the bet area running along the Sutlej.

The number of persons per inhabited village works out to 741 in the District as compared with 763 for villages in Punjab as a whole. The average population per village in the Tahsils is : Nakodar 563, Jullundur 709, Nawashahr 789, Phillaur 983. There is preponderance of average-sized villages. There are 7 villages in the District, three in Jullundur Tahsil and four in Phillaur Tahsil, whose population ranges between 5,000 and 9,999. The population of 57 villages ranges between 2,000 and 4,999. 231 villages record population less than 200 each. The population of the remaining villages ranges between 200 and 1,999.

Towns.—In Table A-IV@ are given particulars of 11 towns of the District. Jullundur City and Jullundur Cantonment, have coalesced physically and have a combined population of 265,030. The Jullundur City with 222,569 persons is a Class I town (with population of one lakh and above). The city has shown a tremendous increase of 32 per cent in population during 1951-60, thanks to the concentration of industries there.

There is no Class II town (50,000—99,999) in the District. In Class III (20,000—49,999) comes Jullundur Cantonment with a population of 42,461. Nakodar, Nawashahr, Kartarpur, Phillaur and Banga come in the category of Class IV towns (10,000—19,999). All these towns have shown increase in their population during the decade 1951-61, the highest increase of 27.81 per cent being of Nakodar town. Nurmahal, Rahon and Adampur are Class V towns (5,000—9,999). Adampur has been treated as a town for the first time at the 1961-census. Nurmahal showed a net decrease at 18.38 per cent at the time of the 1951-census, due to the migration of Muslim population, but subsequently (1951-61) there has been a tardy increase of about 2 per cent. Rahon is showing constant decline in population. From 8,065 in 1941 it came down to 6,541 in 1951 and 6,316 in 1961.

Alawalpur is the smallest town in the District with a population of 4,539. It falls in the category of Class VI towns (below 5,000). It has shown a mild increase of about 2 per cent during 1951-61.

71.5 per cent of the total population of the District lives in villages and 28.5 per cent in towns. The corresponding figures for Punjab are 79.9 and 20.1. The towns in the District are generally congested, the urban density of the District being 10,733 as against 9,476 of Punjab. The smaller towns of Alawalpur, Banga and Philaur are deplorably congested with 56,738, 53,747, and 65,047 persons per square mile, respectively. The density in Jullundur City and Jullundur Cantonment, respectively, is 13,092 and 7,042.

Sex-ratio.—Out of the total population of 1,227,367 in the District, 655,493 are males and 571,874 are females, *i.e.* a ratio of 53 : 47.

The number of females per thousand males comes to 872 as against 864 for Punjab and 941 for the Indian Union. This gives 7th position to the District among the Districts of the State : Kangra tops with 987 females per thousand males and Simla comes the last with 731 females.

During the last 50 years, there has been an over-all improvement in favour of females as the following figures show :

Year	Females per 1,000 ma	
	Jullundur	Punja
1911	783	807
1921	807	821
1931	841	830
1941	859	850
1951	862	858
1961	872	864

*Page 163 †Pages 163 & 165 @Page 167

Among the four Tahsils, Nakodar leads with 911 females per thousand males, followed by Nawashahr (894), Phillaur (888) and Jullundur (845).

Sex ratio for rural areas of the District works out to 897, and for urban areas to 813. The corresponding figures in 1951 were 882 and 807, respectively. Thus there is an increase over the decade in the case of both rural and urban areas.

Age Composition.—In Table C-II* the 1961 population of the District is distributed into various age groups. With a view to comprehending the comparative strength of these groups, a Table is placed below in which totals have uniformly been taken as 1,000.

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age group	TOTAL POPULATION			RURAL		URBAN	
	Persons	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	289.75	289.20	290.38	298.21	286.28	267.61	301.19
10—14	127.02	127.85	126.07	133.68	127.55	113.89	122.15
15—19	97.44	97.48	97.40	94.99	95.57	103.44	102.25
20—24	82.53	79.98	85.44	69.45	81.63	105.22	95.52
25—29	72.89	69.95	76.26	63.88	73.75	84.51	82.89
30—34	59.54	57.74	61.62	52.31	60.56	70.74	64.40
35—39	49.21	47.44	51.23	44.59	51.46	54.26	50.63
40—44	46.24	46.30	46.18	43.77	46.94	52.35	44.19
45—49	37.14	36.23	38.18	36.13	39.57	36.46	34.48
50—54	36.80	38.52	34.84	40.11	35.71	34.70	32.56
55—59	22.25	22.46	22.00	23.49	23.50	19.99	18.05
60—64	29.35	32.22	26.06	35.39	27.83	24.65	21.38
65—69	14.78	16.10	13.27	18.33	14.71	10.78	9.44
70+	34.57	38.03	30.60	45.02	34.32	21.28	20.77
Age not stated	0.49	0.50	0.47	0.65	0.62	0.12	0.10

Too much reliance cannot be placed on the inferences drawn from the figures given in the above Table since a District is a small geographical area and the inflow and outflow of population as a disturbing factor cannot be ignored. With this reservation some general remarks on the age-composition in the District are made below.

The age pyramid has a broad base and tapers rather obliquely : 290 persons per thousand are below the age of 10 years and 101 of the age 55 years and above. Roughly speaking, four out of every 10 persons are below the age of 15, 5 in the age groups 15 years to below 55, and only one is past the age of 55. Males below the age of 15 years are 417 per thousand males : corresponding figure for females is 416. For ages between 15 and below 55 years, the males count 474 per thousand males and the females 491. In ages 55 years and above, the males are 109 and females 92.

It is a daily observation that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their village homes and live in the towns by themselves. When past the age of useful work, some among them return to their villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to below 55, and 55 and above, the distribution among males is 432, 445 and 122 per thousand males in the rural areas, and 381, 542 and 77 in the urban area. The corresponding figures for females are 414, 485 and 100 in villages and 423, 507 and 70 in towns.

In Table C-II* persons in different age groups are further classified according to their marital status. To comprehend the significance of these figures one thousand males and one thousand females for the District as a whole and for rural and urban areas are distributed according to marriage.

*Page 244

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital Status	TOTAL		RURAL		URBAN	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never married	585.05	483.62	584.34	470.23	586.74	519.02
Married	366.18	446.40	360.94	459.37	378.73	412.11
Widowed	47.32	68.55	53.27	68.99	33.07	67.38
Divorced or separated	0.88	0.74	0.96	0.73	0.70	0.75
Unspecified status	0.57	0.69	0.49	0.68	0.76	0.74

It will be seen that in the District as a whole some 58 per cent of males and 48 per cent of females are unmarried. The higher number of unmarried males is due to shortage of females, which aspect has been studied earlier. Correspondingly there is a higher proportion of the married among females than among males.

The proportion of married males is higher in towns than in villages but the proportion of married females is higher in villages than in towns.

Marriage in this country is universal and there is always an explanation for an old bachelor or spinster. In the following Table, the unmarried males and females are expressed in terms of 1,000 males and females.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	RURAL		URBAN	
	Males	Females	Males	Femmles
All ages	1,000	1,000	1,000	1,000
0—9	510.33	608.81	456.09	580.31
10—14	225.22	259.80	192.87	232.72
15—19	135.86	113.59	163.93	146.45
20—24	47.18	13.90	110.65	34.39
25—29	20.52	1.52	47.17	3.31
30—34	8.92	0.43	8.52	0.85
35—39	8.95	0.20	5.16	0.83
40—44	7.30	0.23	4.11	0.38
45—49	6.02	0.11	2.58	0.24
50—54	7.10	0.08	2.56	0.21
55—59	4.13	0.01	1.36	0.07
60—64	6.51	0.06	2.18	0.05
65—69	3.45	0.03	0.85	0
70+	7.50	0.13	1.85	0.10
Age not stated	1.01	1.10	0.12	0.09

It will be seen that there are 51 never married males per thousand males in villages who are past the age of 34 years, and there are 3 spinsters per thousand females who are past the age of 24 years, in the rural areas. The corresponding figures for urban areas are 21 and 6, respectively.

Literacy.—The percentage of literacy in the District is 33.7 which compares favourably with State figure of 24.2 and the Indian Union figure of 24.0. Among the Districts of the State, Jullundur occupies the third position in regard to literacy percentage, the first two positions being occupied by Simla (43.6) and Ludhiana District (36.3).

Table C-III* gives information on literacy by age groups and sex, both in respect of rural and urban areas. The position is summarised below.

*Page 250

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

Educational Level	Jullundur		Punjab	
	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000
Illiterate	510	723	611	831
Literate	490	277	389	169
Literate without educational level	169	128	167	85
Primary or Junior Basic	226	124	166	70
Matriculation and above	95	25	56	14

Roughly speaking every second male and every third female can read and write at base one language, which was the test adopted for literacy at the 1961-census. A little less than half this number has had schooling and only one male in 10 and one female in 40 have crossed the Matriculation level.

The ruralites have a considerable leeway to make up in order to come up to the stage reached by the urbanites. In the towns of the District, there are 698 per thousand males and 499 per thousand females who are literate, but in the villages, they are as few as 402 and 194, respectively. This feature is common throughout the State where literacy per thousand is 654 among males and 432 among females in towns and 319 for males and 104 for females in villages.

In female literacy also (23.8 p.c.) Jullundur District ranks third, next to Simla and Ludhiana Districts (27.8 and 27.4 p.c., respectively). The corresponding figure for Punjab is 14.1.

Mother tongue (Table C-V)*.—As many as 36 languages were reported as mother tongues at the 1961-census, the relative importance of the more important is shown below.

DISTRIBUTION OF 1,000 PERSONS ACCORDING TO MOTHER TONGUE

Punjabi	612
Hindi	382
Urdu	1
Malayalam	1
Tamil	1
Others	3

There is a sharp contrast among the languages as spoken in the villages and towns. In rural areas, Punjabi was recorded as the mother tongue by 742 per thousand persons and Hindi by 258. In the towns which have 29 per cent of the District population, 695 per thousand persons recorded their mother tongue as Hindi and only 288 as Punjabi. This may be due to the Hindus forming a big majority among townsmen.

Religion (Table C-VII)†.—Distribution per thousand persons in the District, according to religion, is shown below.

Religion	Number	Per thousand
Total population	1,227,367	1,000
Hindus	662,631	540
Sikhs	550,232	448
Christians	8,733	7
Muslims	3,184	3
Jains	2,278	2
Buddhists	299	N
Other religions and persuations	5	N
Religion not stated	5	N

*Page 252 †Page 254

The Hindus form 54 per cent of the total population and the Sikhs 44.8 per cent. In the towns of the District as a whole, the Hindus count 792 per thousand and the Sikhs 192. Christians rank third, and live mostly in the villages of Jullundur Tahsil. At the time of 1941-census, the Muslims in the District counted 509,804, forming 45.2 per cent of the population. In the wake of Partition, they migrated enblock to Pakistan, and at the time of 1951-census they counted 2,569 and at the 1961-census 3,184, distributed all over the District.

Place of birth.—Table D—II* throws light on migration, based on place of birth. The Table deals only with immigration and does not take into account the persons who had gone out of the District. A three-fold classification has been made in regard to the place of birth (i) of males and females, (ii) their place of enumeration being an urban or rural area, and (iii) their place of birth being an urban or rural area. To bring out the detailed features presented in the Table will take a big space and will interest only a few readers. Hence only some broad features are mentioned below.

Out of 1,227,367 persons enumerated in the District, as many as 658,888 or 53.7 per cent were born at the place of enumeration. Among the rural population, this percentage works out to 59.91 and in urban areas to 38.08 denoting a higher degree of mobility in towns.

Another interesting feature is the difference between the two sexes in this respect. Among males as many as 62.60 per cent were born at the place of enumeration, as against 43.46 per cent in the case of females. The low figure for females springs from the extra factor of their leaving the ancestoral place on marriage.

Another 17.6 per cent of the population was born at another place within the District. This percentage is 11.38 in the case of males and as high as 24.68 in the case of females due to the factor of marriage. Persons born in Punjab Districts other than Jullundur numbered 135,069 or 11.0 per cent of the population. Even in this group, the percentage of females (14.72) is higher than of males (7.76).

The Punjab-born persons formed 82.3 per cent of the District population. The remaining 17.7 per cent hailed from areas shown below.

Place of birth	Number	Percentage to Total population
Other States of India	31,139	2.5
Pakistan	183,108	14.9
Other countries	3,174	0.3
Information not available	242	N

Persons born in other Indian States were mostly from Uttar Pradesh (13,046) Jammu and Kashmir (3,189), Delhi (3,207) and Rajasthan (2,949). A majority of persons hailing from Delhi are in urban areas and of those hailing from Rajasthan in rural areas. Those coming from Jammu and Kashmir and Uttar Pradesh are dispersed over both rural and urban areas with an emphasis on the later.

The Pakistan-born persons were those who migrated in the wake of Partition. The persons reported to have been born in countries other than Pakistan are mostly the children of Punjabis who in their youth went abroad and had now come back or had despatched their children home.

Scheduled castes.—The total population of the Scheduled Castes in the District, at the 1961-census was 363,107 forming 29.6 per cent of the total population. Among them 193,663 were males and 169,444 females. 17.6 per cent of them lived in towns.

Out of the 37 Scheduled Castes in Punjab, 25 were found in the District. The more numerous amongst them are *Ad Dharmis* (218,243), *Balmikis* (80,513), *Ramdasis* (35,168), *Megh* (13,073), *Mazhbis* (4,019), *Bazigars* (3,552) and *Sansis* (2,768).

Households (Table B-X to B-XVII, C-I and SCT-V).—Out of 1,227,367 persons in the District, 549 were houseless persons such as members of wandering tribes, tramps, *sadhus* and pavement dwellers. The remaining 1,226,818 lived in households. A household has been defined as a person or a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so.

*Page 256

For studying the size and other characteristics of households, a 20 per cent sample was drawn and analysed. In this sample the persons living in institutions, such as jails, orphanages, hospitals, hostels, boarding houses, Defence and Police personnel living in barracks or under canvas, were excluded since such households do not function as economic entities. The sample thus drawn was 42,428 households consisting of 239,652 persons. An average household consists of 5.6 persons, the number of households and their members are distributed below according to the size of households.

DISTRIBUTION OF SAMPLE HOUSEHOLDS AND SAMPLE POPULATION ACCORDING TO SIZE OF HOUSEHOLDS

Size of Household	Households		Persons	
	Number	Percentage to total	Number	Percentage to total
Total	42,428	100.0	239,652	100.0
1 member	3,309	7.8	3,309	1.4
2—3 members	7,739	18.2	19,712	8.2
4—6 members	16,591	39.1	83,481	34.8
7—9 members	10,501	24.8	81,707	34.1
10 and more members	4,288	10.1	51,443	21.5

Size of operational holdings (Table B-XII*).—As many as 37.5 per cent of the households in villages are engaged in cultivation as peasant proprietors and tenants, but excluding such households as let out their lands in entirety or depend exclusively on agricultural labour. on 1,000 households of peasant proprietors and tenants are distributed below according to the size of their operational holdings (rural area only).

HOUSEHOLDS ENGAGED IN CULTIVATION ARRANGED ACCORDING TO SIZE OF OPERATIONAL HOLDINGS

Size of operational holding	Per thousand distribution of households	
	Jullundur	Punjab
Less than 1 acre	5	23
1.0 to 2.4 acres	46	96
2.5 to 4.9 acres	99	125
5.0 to 7.4 acres	193	155
7.5 to 9.9 acres	142	102
10.0 to 12.4 acres	172	130
12.5 to 14.9 acres	71	60
15.0 to 29.9 acres	218	217
30.0 to 49.9 acres	38	64
50.0 + acres	9	23
Unspecified	7	5

It will be seen that holdings below 5 acres are fewer in the District (150 per 1,000) than in the State (244 per 1,000). Land holdings above 5 acres to below 30 acres are, however, larger in number in the District (796) than in the State (664). There is comparative preponderance of holdings in the District between 5 to below 10 acres. The number of holdings above 30 acres is again higher in the State (87 per 1,000)than in the District (47 per 1,000).

Workers and Non-Workers.—In Table B-I† the population is distributed into broad industrial categories

* Page 220 † Page 168

of workers and non-workers. The terms are explained in the note appearing before Census Tables (Part III of this book). Their comparative figures are given below.

DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY

Industrial Category	JULLUNDUR			PUNJAB		
	P	M	F	P	M	F
Total population	1,000	1,000	1,000	1,000	1,000	1,000
Non-Workers	713	497	960	650	471	858
Workers	287	503	40	350	529	142
As Cultivator	100	179	9	197	274	107
As Agricultural Labourer	22	40	1	27	44	6
In Mining, Quarrying, etc.	2	3	.1	3	6	1
At Household Industry	33	49	15	27	39	13
In Manufacturing	28	52	1	17	31	2
In Construction	6	12	N	7	12	1
In Trade and Commerce	22	42	1	19	35	N
In Transport	10	18	N	7	13	N
In Other Services	64	108	12	46	75	12

It will be noticed that in Jullundur District for every 1,000 persons 287 are engaged in economic activities and 713 are non-workers. The corresponding figures for Punjab are 350 and 650, respectively. This shows a smaller proportion of workers in the District as compared to the State. The percentage of male workers in the District (50.3) is not much different from that in the State as a whole (52.9); but the participation by females is much smaller in the District (4.0) as compared to State (14.2). Some sections of people consider it derogatory to let their women-folk do any work besides the routine household duties.

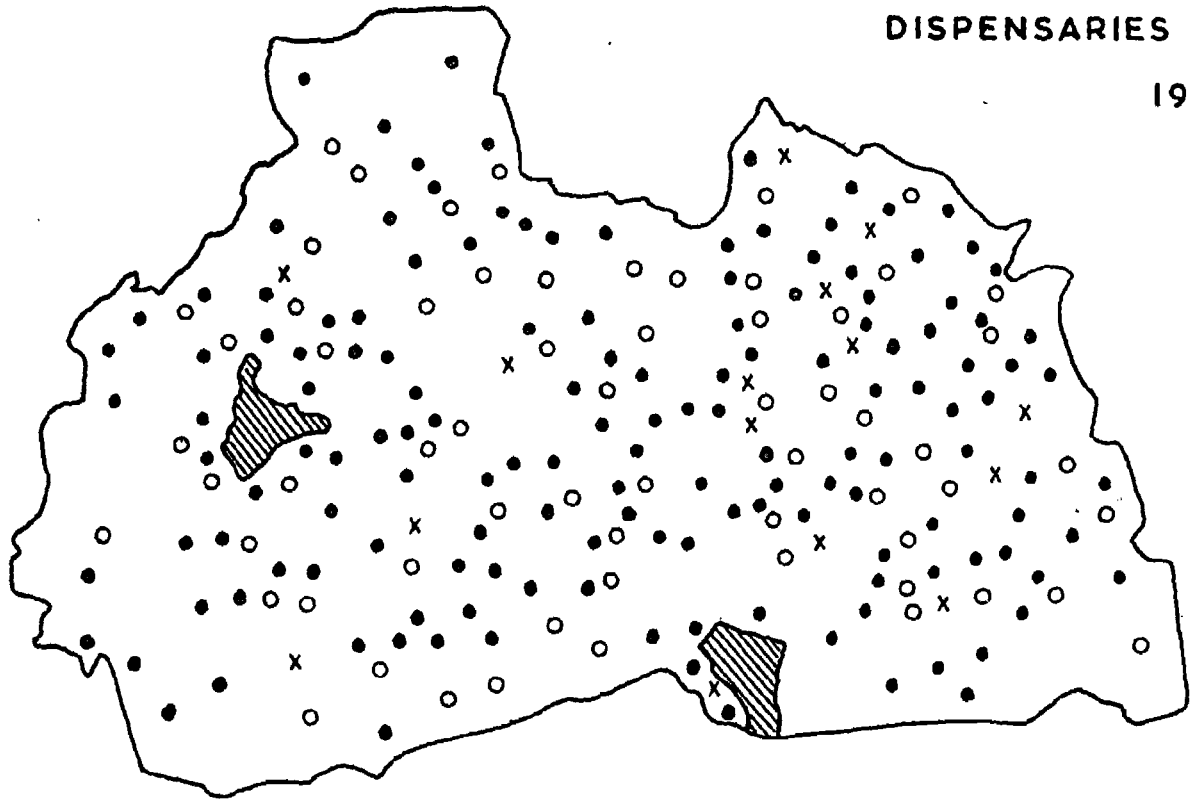

Agriculture (peasant proprietors, tenants and agricultural labourers) absorb 122 persons per thousand in the District as against 224 in the State. The percentage of Agricultural Labourers is a little smaller (2.2) in comparison with the State (2.7).

The proportion of population working in Industry (household and other type) is higher in the District (6.1 per cent) than in Punjab (4.4 per cent). Trade and Commerce, Transport, and Other Services also absorb a fairly large proportion, much larger than in the State, due to the developments taking place under the Five Year Plans and the opportunities of employment offered by them in various spheres.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Tables 18 to 20)*.—We have already seen in the previous chapter that at the 1961-census, Jullundur District had a much higher literacy percentage (33.7) than the Punjab State as a whole (24.2). The Five Year Plans have particularly been responsible for this high percentage of literacy as the following figures will show.

	Schools		Scholars	
	Boys	Girls	Boys	Girls
1951-52				
Primary schools	289	108	N.A.	N.A.
Middle Schools	25	10	N.A.	N.A.
High Schools	40	1	N.A.	N.A.
Total	**354**	**119**	**71,631**	**17,288**
1960-61				
Primary Schools (including Basic)	689	150	46,770	30,506
Middle Schools	35	29	9,621	7,960
High Schools	68	26	31,954	10,514
Higher Secondary Schools	12	6	15,895	5,394
Total	**804**	**211**	**104,240**	**54,374**

The school going boys past 5 years and below 15 years in age are 56.8 per cent of the male population but the girl students in the same age group are 34.5 per cent of the female population. Genuine attempt at female education commenced towards the end of the 19th century, in which Christian Missions were the pioneers. They were soon joined by the enthusiasts of other faiths and they also started similar institutions. The Government, the District Board and the various Municipal Committees also opened various schools but the pace of female literacy was still very slow so that the female literacy in the District was 16.0 per cent at the 1951-census. This percentage has risen to 23.8 at the 1961-census. For this increase, Government efforts under the Five-Year Plans are primarily responsible.

The Scheduled Castes and the Backward Classes, particularly those inhabiting the rural areas are still not enthusiastic about education. The introduction of compulsory primary education, which is free, has had a salutary effect on them and they have been given various other inducements and encouragements. There is free education for them up to M.A. standared in the Government institutions. Free books, free-ships, stipends and scholarships are awarded to the students belonging to these classes in all institutions including colleges under the various schemes sponsored by the State and Union Governments. Examination fees charged from them are refunded to them. Seats for them are reserved in the professional and technical institutions.

As already mentioned, the main brunt of the education in the post-Independence era has fallen on the Government. But before that, a part of the burden was shared by the District Board, Municipal Committees and Cantonment Board, and more by various religious missions and social welfare agencies some of which are worth notice.

(i) *Christian Missions.*—Since the later half of the 19th century, Christian Mission have been playing an important role in the educational life of the District. The Ludhiana Mission started the A.P. Mission High School in Jullundur City in 1857, with Rev. Golak Nath, a Bengali Christian, as its founder Principal. This was the first school established in Jullundur Doaba on western lines. It had two branch schools for girls up to primary standard. For lack of funds it closed down in 1930 but was re-opened in 1932 by the City Church as Church High School. The United Christian School, Sura Nussi, some 6 miles from

* Pages 86 to 88

Jullundur, took the place of the Church High School in 1944. The institution now comprises a Boys Higher Secondary School, a Girls Higher Secondary School, a Technical School, an Agricultural Farm and an Extension Centre. Two Primary Schools, one in Jullundur Cantt. and the other in village Pholriwala, are being run by the American Christian Mission. The Catholic Prefecture of Jullundur is running the St. Joseph Convent School in Jullundur Cantt. The Doaba Church Council is running Primary Schools in villages Bhagela (Nakodar Tahsil), Sansarpur and Lamba Pind (Jullundur Tahsil).

(ii) *Arya Samaj.*—The Arya Samaj has been a very active agent in the promulgation of education. It established a Primary School in Jullundur Cantonment in 1886, which was later raised to High Standard and is now known as the N.D. Victor School. The Kanya Mahavidalya, which is now a premier women institution in the State, was also founded in 1886 by Lala Dev Raj, an Arya Samaj leader. The Doaba High School and the Anglo Sanskrit High School were started in 1886. The D.A.V. College, Jullundur, came into being in 1918 with the untiring efforts of Pt. Mehar Chand. Arya Samaj Schools came up also at Alawalpur, Nakodar, Kathgarh, Rurka Kalan and Kartarpur. After the Partition, the Hans Raj Mahavidalya, Daya Nand Normal School, and Daya Nand Ayurvedic College have been rehabilitated in Jullundur and they are doing great service to the area. The Mehar Chand Polytechnic and Technical Institute, Jullundur are also being run by the D.A.V. management.

(iii) *Sanatan Dharam Sabha.*—It founded a school in 1935, which was raised to the High Standard in 1959, and is a flourishing institution.

(iv) *Shri Guru Singh Sabha (Montgomery), Jullundur.*—The Sabha is running a number of schools in the District on being up-rooted from Montgomery in West Pakistan. They include a High School for boys and another for girls in Jullundur City, a High School for boys in Jullundur Cantt., a Basic Training School for boys and girls in Jullundur City, and a Post-Graduate Basic Training College in Jullundur City.

(v) *Managements, Lyallpur Khalsa College, Jullundur and Lyallpur Khalsa School, Jullundur.*—Both these managements were running their respective institutions in Lyallpur. After Partition, they have re-established them at Jullundur. The Lyallpur Khalsa College is a co-educational institution and has separate hostels for boys and girls. Its management is running a Women's College separately known as the Lyallpur Khalsa College for Women, Jullundur. The management of the Lyallpur Khalsa School is running one Higher Secondary School for boys and a High School for girls.

(vi) *Guru Ravi Das Sabha.*—It is running a High School since 1952 in Jullundur City with arrangement for instructions in J.B.T. Course. All the members of the Managing Body are Harijans.

Pre-primary institutions.—There are about 20 nursery and junior model schools in the District imparting education to the children on modern lines. Two among them are being run by the Punjab Government at Jullundur proper. Others are under the control of private managements. Most of these schools are situated in Jullundur City and Cantonment, two in Goraya, and one each in Phillaur, Banga, and village Pholriwala (Jullundur Tahsil). The Government Nursery School, Jullundur city near Nehru Gardens deserves special mention. It was started in 1949 for promotion of education among the children of Scheduled Castes, Backward Classes and Labour Class. Unlike other pre-primary institutions, no fee is charged from the children here and during recess, children are given refreshment and mid-day meals. The school uniform is also provided by the School.

Education of the orthopaedically handicapped.—A school is working for the deaf and dumb children since 1957 at Jullundur through the personal efforts of Shri Jaswant Singh Sachdev who is himself deaf and dumb by birth and is at present Principal of the School and Secretary of the Managing Committee. The School is up to 4th Primary Standard and gives training in lip-reading, tailoring, wood work and embroidery. Hearing aids are also used. It is being run by the Organisation for the Deaf and Dumb, a registered institution in Jullundur City.

Arts and Science colleges (Table 20)*.—There were 4 Arts and Science Colleges in 1951. The number rose to 10 by 1960. The number of students attending these colleges was 3,603 (3,093 boys and 510 girls) in 1951 and 6,710 (5,169 boys and 1,541 girls) in 1960. It is heartening that girls are going in for college education in increasing number.

Industrial and other Technical Education.—Adequate facilities exist for various types of technical and professional education. Some of the important institutions are as under :

(i) *The Mehar Chand Polytechnic and Technical Institute, Jullundur.*—Both these institutions are under the D.A.V College Managing Committee, New Delhi. The Ploytechnic prepares students for diploma

* Page 88

course in civil, electrical and mechanical engineering. The Institute coaches in trades like carpentry, blacksmithy, tailoring, leather work, welding and sports goods.

(ii) *Government Tanning Institute, Jullundur.*—Established in 1926, the Institute has a three years course in leather technology and a two years' Artisan Course. No fee is charged. Scheduled Caste students are given preference and get stipends. The Institute has also a Commercial Practical Training Section.

(iii) *Government Wood Working Institute, Jullundur.*—This is to meet the demand of technical personnel and skilled labour for wood work industry. It provides a course for carpentry-instructors, and a certificate course for artisans in carpentry and cabinet making. Sports goods classes are also run where the manufacture of various sports goods is taught.

(iv) *Government Industrial School for Girls, Jullundur.*—Established in 1945, it teaches handicrafts like tailoring-embroideby embroidery, *salma, tilla,* knitting and leather-work.

(v) *Shoe and Leather Centre, Mukandpur.*—It runs one year's Certificate Course in making of shoes, suit-cases and other leather articles. The trainees get stipends.

(vi) *Cycles, Sewing Machines, Socks Machines Training Centre, Apra.*—The centre is meant for the uplift of Scheduled Castes, Backward Classes and *Vimukat Jatis* who in a one-year course are trained in the repair of machines.

(vii) *Women Home Craft Centre, Mahatpur* provides a six months course in hndicrafts for women.

(viii) *Kumar Engineering College* is working under a Trust in Jullundur since 1949 and turns out motor mechanics, radio mechanics and motor drivers.

Medical Education : (i) *Daya Nand Ayurvedic College, Jullundur.*—Here the students are prepared for the Five-year Course of Ayurvedacharya (G.A.M.S.). The College has well equipped laboratories. Its disrection hall is also fully equipped with models and diagrams. The D.A.V. Pharmacy attached to the college provides opportunity for research work and preparation of ayurvedic medicines.

(ii) *Nursing Course for Women.*—A training centre providing a three-year course for nurses is attached to the Civil Hospital, Jullundur City.

Teacher's training.—There are three institutions in this line : the Government Training College, Jullundur; the Montgomery Post-Graduate Basic Training College, Jullundur; and Dr. Amar Nath Training College, Nawashahr. The former two colleges also provide facilities for training of language teachers. Training as Junior Basic Teacher is imparted at the Montgomery Guru Nanak Basic Training College, Jullundur, D.N. Normal School, Jullundur, the Government Girls Basic Training School, Naura, and the Daya Nand Training Institute, Nawashahr. J.B.T. Training Classes are attached also to eleven other Government and private institutions.

Physical education.—In all High and Higher Secondary Schools physical education is organised under the guidance of a Physical Director or a Physical Training Instructor. Mass drill, mass marching and play-for-all are arranged either at the opening of the schools or after the schools close. Major games are organised in the evening. Annual District and Inter-District tournaments are held. Scouting is encouraged. In Middle Schools and Primary Schools, the work of physical education is done by one of the school teachers and is directed from the District headquarters. Smaller children are taught action songs, motion stories and games. The colleges have their own Physical Training Instructors and regular teams in various sports and games. They participate in Inter-College and Inter-University sports.

There are associations in the District for games like football, cricket, hockey, volleyball, *kabaddi* and athletics. They are affiliated to the District Olympic Association. They organise tournaments in the District and select players for inter-District and Inter-State competitions. N.C.C. and A.C.C. are important activities in schools and colleges. The National Discipline Scheme is also in force in the District.

Since 1961, the Government has started a Sports School and a Sports College in Jullundur City. The aim is to produce physical directors and coachers for athletes and sportsmen.

Cultural activities.—There is no institution in the District for imparting training in fine arts like, music, painting, and dancing. These arts are, however, taught in most of the Girls' Schools and Girls

Colleges as a part of the curriculum. A number of private academies for music which prepare students for Allahabad, Lucknow and Bombay Universities Examinations in the line, the prominent among them being the Sangeet Bihar and Hari ballabh Sangeet Academy, both at Jullundur. Private academies for teaching music also exist in Nawashahr and Banga.

There is one unregistered Cultural Society known as the Jullundur Cultural Sabha which organises dramas, symposiums, etc., from time to time in Jullundur City. Among the literary societies, the Kendri Punjab Lekhik Sabha, Punjab, Jullundur City, and the Punjabi Lekhik Sabha, Jullundur, aim at promoting Punjabi language and literature. The former brings out a quarterly magazine called Sahitya Pattar. The Hindi Sahitya Sangam, the Punjab Pradeshak Hindi Sahitya Sammelan, the Punjab Hindi Sahitya Academy and the Hindi Sahitya Parishad, Jullundur aim at promoting Hindi language and literature. The cause of Urdu is espoused by the Bazam-i-adab, Punjab, Jullundur. All these societies and organisations arrange symposiums, dramas and discussions and bring out their publications from time to time.

Clubs also exist in various towns where both officials and non-officials assemble for recreation.

Cinemas (Table 23)*.—The number of cinema houses in the District increased from 9 in 1951-52 to 11 in 1959-60. Most of them are located in Jullundur City and Jullundur Cantt., though the Tahsil headquarters are also not without them. Besides the permanent cinemas, moving talkies, theatrical societies and circuses also visit the District, off and on. Besides providing entertainment to the public, such activities bring a handsome income to the State Exchequer. The proceeds from the Entertainment Tax amounted to over Rs. 280 thousands in 1951-52 and over Rs. 539 thousands in 1959-60 (Table 48).†

Libraries and museums.—There are six categories of libraries in the District.

1. *Municipal libraries.*—Practically all the Municipal Committees, and the Cantonment Board, Jullundur Cantt. maintain public libraries.

2. *Public libraries.*—The following other public libraries, with reading rooms attached to them, in Jullundur City are worth notice :
   (i) Jain Library,
   (ii) Bapu Library,
   (iii) Gurdwara Singh Sabha Library,
   (iv) Ramgarhia Library, and
   (v) District Library, Model Town.

3. *Information centres.*—There are two Information Centres in Jullundur City, one run by the Punjab Government and the other by the Government of India. Here books and periodicals are supplied for study and reference.

4. *Rural libraries and reading rooms.*—They are maintained by the District Public Relations Department at various places in rural areas.

5. *Block libraries.*—Block authorities also maintain libraries and reading rooms under their Social Education Organizer.

6. *College and school libraries.*—All colleges and schools maintain their own libraries for the use of their students and staff.

There is no State museum in the District. The D.A.V. College, Jullundur, the Doaba College, Jullundur and the Government Training College for Teachers, Jullundur maintain small departmental museums for the use of the students. The D.A.V. College also maintains botanical gardens.

Newspapers, magazines and periodicals.—In Punjab, the largest number of newspapers is published in Jullundur District. On Partition, almost all the Urdu and Punjabi daily newspapers uprooted from Lahore settled in Jullundur. Table 22** contains a list of such newspapers and magazines. According to the subjects with which they deal, their distribution is as follows :—

General interest, news and current affairs	35
School and college magazines	22
Literary and cultural	11
Religion and philosophy	9
Education	5
Films	4
Children	3
Health and medicine	3
Transport/Transport and communications	3
Co-operation	4
Market reports	2
Labour	2
Others	6
Total	109

* Page 95 † Page 111 **Page 92

It is significant to note that, barring 10, all these newspapers and magazines were started after Independence.

Printing presses.—Particulars of 105 printing presses are given in Table 21†. 99 are located in Jullundur City, 2 in Jullundur Cantt., 3 in Nawashahr, and 1 in Banga. All work on electricity, except 14 which work with manual labour.

Radios.—There is hardly a village in the District without a receiving set owned individually or by the *Panchayats*. In 1961, 22,840 broadcast receiving licences were issued in the District. The All India Radio has also an important station in Jullundur City.

Fairs and festivals.—Particulars of the fairs and festivals held in the District are shown in Table 54* The Baisakhi fair at Kartarpur and the Sodal fair and Harballabh fair in Jullundur City deserve special mention. The Kartarpur Baisakhi attracts about half a lac people from far and wide. Homage is paid to Granth Sahib, written in his own hand by Guru Arjan Dev which is now in the possession of the local Sodhi family. The Baba Sodal fair of Jullundur City is attended by about one lakh people. It is held in honour of a saint whose *smadh* exists here and who is worshipped as a child deity. The belief is that Baba Sodal has the power of blessing issueless women with children. It is said that the child, Sodal, accompanied his mother when she went to the pond to wash clothes. Inspite of her repeated warnings, the child went into deep waters and got drowned. When the mother raised hue and cry, the child appeared in the form of a snake and again disappeared. The people raised his tomb on the spot and started worship. The Harballabh fair of Jullundur is a cultural festival. It is held during the Christmas in honour of Harballabh Swami, who touched great heights in classical music. Renowned singers from all over India attend this music festival and attract thousands of people. The *Shahidi Mela* of S. Bhagat Singh at the village Khatkhar Kalan in Nawashahr Tahsil attracts a large gathering on the 23rd March. The martyr belonged to this village and on this day he along with his compatriots Sukhdev and Rajguru was executed by the Britishers. The Sarvodaya Mela at Phillaur is held on February 12 on the banks of the Sutlej to commemorate immersion ceremony of Mahatama Gandhi's ashes.

Social welfare activities.—Social Welfare Officers are working at the District and Tahsil headquarters under the State Social Welfare Department. They look after the interests of the Scheduled Castes and Backward Classes in various ways. A number of schemes are being run under the Union and State Governments under which loans and grants are given to these people for acquiring land, building houses, drinking-water facilities, agricultural implements and bullocks. Community Welfare Centres have been opened for them, which are serving as light houses for the uplift of these backward sections of society. Their children are taught there good manners and crafts. Adult classes are also held to teach crafts. They are also given loans to start trades and professions. Reservation of seats in the various educational institutions is arranged for them and they are given stipends, books, etc. to do their education.

A number of non-official agencies are also working among the Scheduled Castes and Backward Classes such as the Depressed Classes League, the Vimukt Jatis Sudhar Sabha, Backward Classes League and the Welfare Section of the District Congress. The Indian Red Cross Society has its branch in the District. The All India Women's Organisation for Moral and Social Hygiene through its branch in the District looks after the fallen and forsaken women and helps the administration in the checking of immoral traffict Bharat Sewak Samaj is also functioning in the District. The Jullundur Branch of the All India Women Conference, the Nari Niketan, Jullundur, which has now been made over to the Government as Rescue Home, and the Sewa Sadan are rendering useful service for the uplift of women in general particularly those among them who are in distress. The Bhartia Gramin Mahila Sangh is looking after the Women Welfare Centres at villages Gaghal, Saminpur, Partappura, Bulandpur and Kang Sahibu and some other sub centres in the District. The Gandhi Vanta Ashram, Jullundur was set up to function as a Reception Centre for women and girls abducted in Pakistan at the time of Partition and recovered and brought to this part of the country. It restored those women and girls to their relatives and proceeded to help the unclaimed ones and children. It provides facilities for general education and teaching in crafts. It is also serving as a Training-cum-Production Centre. The Vidhwa Sahaik Sabha, Punjab, Jullundur also works towards the uplift of widows and destitute women. The Shishu Grih, Jullundur provides for the protection, up-bringing and education of the unlawful children as also the children of widows who are unable to bring them up. The District Child Welfare Council has opened a number of Recreation Centres for children mostly in Jullundur. The Milap Bal Sangh, which has its branches in various towns, also looks after the welfare of the children. The School for Deaf and Dumb, Jullundur, looks after the maintenance and education of the deaf and dumb children. Various Labour Unions look after the interest of the labour. The Apahaj Ashram founded by the Hans Raj Mahavidalya looks after the old, crippled and

† Page 90 * Page 115

helpless persons. The Pingal Ghar, Jullundur, which was formerly known as Pingalwara, Jullundur, also serves the poor, needy and mentally upset persons. It has its own management. The District Soldiers, Sailors and Airmen's Board looks after the interest of the ex-service men and their families.

Political activities.—The District is highly conscious politically. It took active part in the Guru Ka Bagh and Jaitu Morchas where the people came in direct conflict with the British authorities. The Babar Akali Movement which was the off-shoot of the Gurdwara Reform Movement in which Guru Ka Bagh and Jaitu Morchas were started had its founder organiser in Kishan Singh Gargaj, an ex-Havildar of the 35th Sikh Infantry born in the village Baring near Jullundur Cantt. The villages Pandori, Nijran, Pragpur, Daulatpur, Sanghewal, Khurdpur and Baring in the District were centres of Babar Akalis and suffered heavily in conflict with the British authorities when many died fighting pitched battles, and many were arrested and mounted the gallows. The District also took active part in the various phases of the Freedom Movement like Swadeshi, Non-Co-operation, Salt Satyagreh and Quit-India Movements. Many members of the Ghadar Party which was a revolutionary organisation hailed from Jullundur District. S. Balwant Singh of Khurdpur, S. Banta Singh and S. Aroor Singh of village Sanghewal, who took leading part in the activities of the party were all hanged. S. Ajit Singh who was deported along with Lala Lajpat Rai in 1907, was the uncle of Bhagat Singh and belonged to Jullundur District. The great martyr Bhagat Singh hailed from village Khatkhar Kalan in Nawashahr Tahsil and was hanged along with his comrades, Rajguru and Sukhdev on 23rd March, 1931 for the murder of Saunders who was responsible for ordering lathi charge as a result of which Lala Lajpat Rai lost his life.

The various political parties of the country have their branches in the District and contest elections enthusiastically for the Parliament, the State Assembly, Municipal Committees, *Zila Parishad*, *Panchayat Samitis* and *Village Panchayats*. The table given below shows the representation of the various parties in the District at the various General Elections since 1952.

Year	Political Party	M.Ps. elected	M.L.As. elected	Votes in the District		Votes polled		Percentage of votes polled

Medical and public health (Tables 25 to 31)*—With the spread of education and scientific treatment of human ills coming nearer the reach of the people, the methods of faith cure and quackery are taken resort to by fewer people now. Homoeopathy is practised by some practitioners in towns. Ayurvedic and Unani systems are liked because of the simpler and familiar medicines. Government is giving better recognition to these systems and the number of Ayurvedic dispensaries in the District increased from one in 1953-54 to 17 in 1960-61 (Table 26)† , each under the charge of a *Vaid* or *Hakim* working under the administrative control of the Ayurvedic Department.

The first regular hospital of the District was opened in 1849 in Jullundur City. By and by, medical facilities were extended and dispensaries opened at Tahsil headquarters, towns and bigger villages, all under the Civil Surgeon. The office of the District Medical Officer of Health was established some time during the twenties of this century with a view to looking to the preventive side of the problem. Subsidized dispensaries were established at various places. The Partition brought about the establishment of dispensaries at Bhargoa Camp and Gandhi Vanta Ashram in Jullundur City. The Five Year Plans provided more and more funds for the extension of medical and health facilities. In 1954-55, the rural dispensaries run by the District Board were provincialised . Rural dispensaries were converted into Primary Health Centres. In 1960-61, there were 51 hospitals and dispensaries in the District equipped with 747 beds run by the State Government, local bodies, and charitable trusts and endowments. By the end of 1964, the total number of the hospitals was 52; 28 in the rural areas and 24 in the urban areas; the total number of beds was 886. Since July 1964, the administrative set up of the medical and health services has been revised. Now all medical and public health activities are under the control of the District Chief Medical Officer, who is assisted by two Deputies, one on the Medical side and the other on the Health side.

The following private hospitals and dispensaries run by charitable trusts and endowments deserve special mention:

(i) The Sanatan Dharam Mahabir Dal Homoeopathic Dispensary, Mitha Bazar, Jullundur City;

(ii) Mukerjee Unani Dispensary, Bhopal Nagar, Jullundur City;

(iii) Daya NandAyurvedic Hospital, Jullundur City;

(iv) Charitable Ayurvedic Aushdhalya, Jullundur Cantt.;

(v) Rai Bahadur Sewak Ram Maternity Hospital, Jullundur City;

(vi) Gulab Devi Tuberculosis Hospital, Jullundur;

(vii) Fenton Gunj Free Dispensary, Jullundur; and

(viii) Salag Ram Sondhi Charitable Dispensary, Jullundur.

The most important of them is Gulab Devi Tuberculosis Hospital which is an up-rooted institution from Lahore, where it was founded by Lala Lajpat Rai with an endowment of Rs. 2 lakhs in the memory of his mother. It has two X-ray Plants and has its own laboratory. It has 160 beds, some of which are reserved by the Northern Railway, the Union Rehabilitation Ministry, and Municipal Committees, Jullundur, Moga and Khanna. The R. B. Sewak Ram Maternity Hospital has 31 beds. The Daya Nand Ayurvedic Hospital is attached to the Daya Nand Ayurvedic College, Jullundur, which is a premier Ayurvedic Institution of the State, run and controlled by the D.A.V. College, Managing Committee, New Delhi.

The Red Cross Society is also doing useful work. Besides maintaining its Hospital Welfare Section and St. John Ambulance Section, it looks after the Blood Bank at the Civil Hospital, Jullundur, 14 Trained *Dai* Centres in the District and the Maternity and Child Welfare Centres in central town and Kot Kishan Chand, Jullundur City. It distributes milk to the needy persons and school children and supplies artificial limbs to those in distress.

SOME SPECIAL DISEASES AND THEIR TREATMENT

(i) *Tuberculosis*—Arrangements exist in all the major institutions for the treatment of this disease. The Gulab Devi Tuberculosis Hospital is a specialised institution in the line. The District stands covered by the mass B.C.G. Vaccination Programme. The Municipal Committee, Jullundur, maintains a separate B.C.G. team for the requirements of the city.

* Page 95 to 96 † Page 95

(ii) *Leprosy.*—A Lepers' Asylum was opened in 1870 at Dakhni Sarai in Nakodar Tahsil by one Mr. Liesaunders, but it is no more functioning. Similarly ten Leper Homes were expected to work near various dispensaries in the District but none is now working. No figures of the prevalence of this disease in the District are available.

(iii) *Venereal diseases.*—There is no special clinic for the treatment of this disease in the District. Necessary treatment is given at the various hospitals and dispensaries.

(iv) *Malaria.*—The District being flood affected, the incidence of the diseace has been quite high. A Malaria Control Unit is now functioning. Starting with the control operations, it has switched over to the National Malaria Eradication Programme and reached the stage of surveillance bringing the morbidity and mortality due to the disease almost to the base line. In 1954-55, D.D.T. was sprayed in 740 towns and villages covering 61,470 houses and costing a little over Rs. 30,000. In 1960-61, the number of towns and villages sprayed with D.D.T. was 1,229 and covered 158, 733 houses and 878,487 persons involving an expenditure of about Rs. 2.3 lakhs.

(v) *Tetanus.*—This disease is common due to road accidents. Preventive measures like giving A.T.S. to the injured persons are taken at the various hospitals and dispensaries.

(vi) *Smallpox.*—A centrally situated District like Jullundur can hardly be expected to remain immune from a communicable disease like smallpox in these days of vast communications and rapid travels. Cases are imported off and on and spread the infection, but thay are easily contained and controlled. The programme of primary vaccination and re-vaccination is regularly carried on under the supervision of the District Vaccination Superintendent, who in turn functions under the District Chief Medical Officer.

General sanitation.—Sanitation in the various towns is the responsibility of the respective Municipal Committees, and in Jullundur Cantonment of the Cantonment Board. In the rural areas, sanitation work is looked after by the Block staff and Primary Health Centres and Units. Special attention is now being given to protected water-supply and sewerage, both in towns and villages. A separate P.W.D. Public Health Division executes these schemes in the various towns as and when funds are made available. In rural areas, where the water-supply has along been through open wells, emphasis is being laid on the installing hand-pumps. The Block authorities provide grants and technical assistance. The open wells are periodically dis-infected by the sanitation staff. Many wells are re-modelled by having parapet walls, platform and floor with a drain outside, pacca tanks are provided for cattle. At some places roofs are also provided over the wells. The villagers are encouraged to have dry or dug-well latrines for which assistance, both financial and technical, is given by the Government. The villagers are encouraged to pave the lanes with bricks and construct pacca drains, manure pits, chimneys and ventilators.

Standard of health and medical facilities.—The general standardof health in the District is satisfactory. The people in villages, as a rule, have robust physique. Milk, butter-milk, butter and *ghee* form regular items of diet in most of the families, though. The sale of milk and *ghee* to the towns, is lowering the in-take of these healthy ingridients of food by villagers. there is no special disease peculiar to the District and the diseases that are found are being tackled both at National and State level. With the spread of education, there is better awareness towards treatment of ailments in earlier stages. The number of persons seeking treatment at the various hospitals and dispensaries increased from 444,345 in 1950 to 472,950 in 1961. The total expenditure in the District on Medical and Health measures amounted to Rs. 523,220 in 1956-57 and Rs. 1,149,830 in 1960-61. The hospitals and dispensaries are being equipped with appliances of the latest type and the number of medical personnel manning them has increased from 323 in 1950 to 459 in 1961 (including ministerial staff and class IV employees).

The area covered per medical institution in the District works out to 26.3 square miles and the population served per medical institution comes to 23,677. As regards the area per medical institution, the District occupies the second position among the Punjab Districts, the first position being occupied by Simla District with its corresponding figure of 13.1. In respect of population served per medical institution, Jullundur District occupies 8th position, the District showing the best figure (6,515) being again Simla.

Crime (Table 45)*.—The incidence of crime in the District is quite high. The reason is that some sections of the rural population are notorious for being impulsive and violent; secondly, the consumption of liquor is heavy and is on the increase; thirdly, the criminal investigation sometimes leaves much to be wanted, particularly in the case of serious crimes and the result is easy acquittals which encourage criminal tendencies.

Table 45 shows the results of trials in the criminal courts. The number of cases brought to trial is on the increase which may partly be due to better registration and detection. For studying the nature of crimes and their trend, the number of cases instituted in 1951 and 1960 were looked into in some detail. There appears a marked increase in the incidence of murder over the past few years so that the District appears to have almost caught

* Page 110

up in this respect with the more notorious Districts of Amritsar, Ferozepur and Gurdaspur. The number of merders was 35 in 1950; the peak number of 55 was reached in 1959; in 1961 the number stood at 47. There were 5 ur gities in 1950, but as a result of various anti-dacoity measures taken by the Government all over the State, the crime appears to be under control and only one dacoity was reported in 1961. Robbery has also registered a decline though the outlaws from the neighbouring territories of Kapurthala, Ferozepur and Ludhiana Districts still take advantage of the riverain tracts of Sutlej and Beas and enter the District to commit the crime. Only 4 cases occurred in 1961 as against 26 in 1950. Burglary, theft and cattle-lifting figure among the chief crimes of the District. The cconditions brought about by partition and the repeal of Criminal Tribes Act letting loose a large number of criminal tribes are the main factors responsible. Quite a large number of families of the Sansi tribe have settled in the District and many burglaries and thefts have been traced to them. Cattle theft is confined to rural areas where the great demand for cattle on the one hand and the insecure conditions in which the cattle are kept on the other hand, afford good chances for cattle lifters. However, the crime is under control. Burglaries came down from 421 in 1950 to 225 in 1961. 47 cattle thefts were reported in 1950 and 26 in 1961. The number of other thefts increased from 357 in 1950 to 460 in 1961. Cheating is another offence which appears to be on the increase. The growing industrialisation provides an opportunity to this sort of crime. A mushroom growth of bogus travel agencies has come into existence exploiting the ignorance of the village folk who go to foreign countries in large numbers. A special passport staff has been set up to detect the nefarious activities of the passport racketeers.

Illicit distillation is another serious crime of the District. The topography of the huge *bet* areas makes them attractive venues for the commission of this crime. Excise liquor is costly, the consumption of liquor is on the increase and, therefore, illicit distillation is proving to be a lucrative trade. The cases under the Excise Act have registered a steep increase from 528 in 1950 to 1,645 in 1961.

DEVELOPMENTAL ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehkari Samaj* and *Panchayati Raj*, i. e., Community Development, Co-operatives, and *Panchayats*.

Community development (Table 41)*.—The administrative set up of the Community Development work has already been given in Chapter I.

The object of the Community Development is to improve the whole texture of the rural life by organising a self-generating process of change and growth. People's participation and contribution in it is of prime importance. It is not easy to assess this contribution because mostly it takes the shape of mannual labour which is difficult to evaluate. However, it cannot be gainsaid that the Community Development programme has on the whole met with popular support and is slowly changing the face of the villages. The achievement of these Blocks cannot be set out in exact terms, but a broad outline of their activities is given below.

The cultivators are supplied with improved seeds, improved implements and fruit plants. New strains of crops with better yielding capacity and resistance to diseases and pests are developed at the research centres. Improved seeds are multiplied on the various seed-multiplication farms and distributed through the agency of co-operatives. Green-manure seeds and fertilizers are supplied to the cultivators on subsidy basis. The farmers are encouraged to dig up and maintain compost pits. The Community Development authorities also help the farmers in reclaiming land and laying out model farms.

Financial assistance is given for constructing percolation wells, and installing pumping sets and tubewells.

Improved animals like the *Nili* buffalo bulls, *Sahiwal* and *Hariana* cow bulls, are supplied to the villagers. Artificial insemination centres have been set up. Each centre has six key villages attached to it and has pedigree bulls to propagate pure strains. Improved varieties of fowls are also supplied to encourage poultry-farming.

Health and sanitation activities cover opening of new hospitals , primary health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and smokeless *chullas*, and pavement of streets, installation of hand-pumps and construction of wells for drinking water.

Educational activities cover starting of new schools, up-grading of old schools, conversion of schools into basic type, and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the three Rs'. Libraries and reading rooms are started and the young villagers,are encouraged to organise themselves into youth clubs. *Mahila Samitis* are organised for women-folk. Children parks and *Balwadis* (nurseries) are started for the benefit of children. *Panchayatghars* and Community centres and Community listening radio sets are provided for the benefit of the community at large.

* Page 105

Most of the villages are faction-ridden. The system of elections appears to have only accentuated this factional spirit and the general experience is that the *Panchayat* proceedings are marked by group rivalries and group feelings. These are perhaps pangs of birth, and with the spread of education, proper guidance and maturity of public opinion, it is hoped the things will improve. A pleasant feature, however, is that most of the cases coming up before the *Panchayats* are compromised. This is conducive to harmony among the village community.

Besides the judicial work, the *Panchayats* look to the requirements of their respective areas in regard to agriculture, education, animal husbandry, public health and sanitation including water-supply, works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the Development Department, either in cash, kind or labour, and with the help of the concerned departments, they have been responsible for starting a number of single teacher primary schools, construction of new school buildings and repairing and remodelling of old ones, provision of drinking water arrangements in the schools, raising of aided libraries, provision of community listening sets, construction and repairing of *Panchayatghars*, building of dispensaries, planting of trees, arranging playgrounds and children parks, construction of village approach roads, repairing and levelling of public paths, construction of drains, construction of culverts and pavement of streets, construction, repair and remodelling of wells for drinking water, and remodelling and repairing of ponds.

The village common lands now vest with the *Panchayats*. They receive a percentage of land revenue collection in the villages under their charge and grants from Government and sometimes from local bodies. They levy House Tax and Professions Tax, and raise voluntary contributions. The fines and penalties they impose are also transferred to their funds. In 1960-61, the total income of the *Panchayats* in the District was Rs. 1,040 thousands and their total expenditure on education and libraries, public works, public health, agriculture and veterinary services, administration and other miscellaneous items amounted to Rs. 813 thounsands (Table 39)*.

Panchayat Samitis.—There is a *Panchayat Samiti* for each Block. It consists of (i) 16 members, elected by the *Panches* and *Sarpanches;* (ii) two members elected by the co-operative societies; and (iii) one member elected by the Market Comittees. Besides, every M.L.A. with his constituency in the Block and such members of the Punjab Legislative Council as the Government may specify, work on the *Samiti* as associate members. Two women interested in social and four persons belonging to the Scheduled Castes, if not elected otherwise, work as co-opted members. The S.D.O. (Civil) and the Block Development and Panchayat Officer of the Block, work as *ex-officio* members. The associate and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of three years.

The *Panchayat Samitis* provide and make arrangements for carrying out the requirements of the area under its jurisdiction, in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communication, social education, co-operation, and such other miscellaneous duties as development of cottage and small scale industries and other local development works. The *Samiti* is also the agent of the Government for the formulation and execution of Community Development Programme.

The sources of income with the *Samiti* would be local rate as charged by the defunct District Board, fee derived from public institutions like schools and markets, fee from fairs and shows, rents and profits accruing from properties vested in it, and such moneys and grants which the Government may place at its disposal. The *Samiti* can, with the permission of the *Zila Parishad*, impose any tax which the State Legislature has power to impose under the Constitution.

Zila Parishad.—The *Zila Parishad* consists of the Chairman of every *Panchayat Samiti*, two members elected by each *Panchayat Samiti*, every M.P., M.L.A., M.L.C., representing the District or any part thereof, and the Deputy Commissioner. Two women and five members belonging to the Scheduled Castes, if not elected otherwise, are co-opted as members. The M.Ps., M.L.As., M.L.Cs., and the Deputy Commissioner do not have the right to vote. The *Parishad* has a Chairman and a Vice-Chairman, elected by the elected members for three years.

The *Parishad* consolidates and co-ordinates the plans prepared by the *Panchayat Samitis*, examines and approves the budgets of the *Panchayat Samitis* and advises the Government in regard to *Panchayats* and *Panchayat Samitis* and keeps a watch over agricultural and production programmes and construction works.

The income of the *Parishad* accrues from Central or State Government funds allotted to it, grants from all-India bodies and institutions for the development of cottage, village and small scale industries, share of the land cess, State tax or fees, income from endowments and such contributions as the *Zila Parishad* may levy on the *Panchayat Samitis*.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot note under each Table.

There are in all 52 Tables in this Part, grouped under the following heads:—

Rainfall and Temperature	Tables 1 and 2
Agriculture	Tables 3 to 11
Livestock and Implements	Tables 12 and 13
Industry	Tables 14 and 15
Co-operation	Tables 16 and 17
Education	Tables 18 to 20
Printing and Publishing	Tables 21 and 22
Entertainments	Tables 23 and 24
Medical and Health	Tables 25 to 31
Vital Statistics	Tables 32 and 33
Transport and Communications	Tables 34 to 38
Local Administration	Tables 39 to 41
Banks, Insurance and Savings	Tables 42 to 44
Justice and Administration	Tables 45 to 51
Miscellaneous	Tables 52 and 53
Fairs and Festivals	Table 54

RAINFALL AND TEMPERATURE

Table 1 gives information regarding mean maximum, mean minimum, highest maximum and lowest minimum temperatures, mean relative humidity, mean wind speed, number of days of dust storm, thunder and hail storms, recorded at one or more stations in the District for each month for the years 1951 to 1960.

Table 2 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting, since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimetres. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 3 shows the utilisation of land in the District for the period 1901—1961. Information has been worked out for the quinquenniums centring around the census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year ending with the 30th June.

The classification of area has been made according to the following scheme:—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and uncultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.

(iv) *Other uncultivable land* includes (a) culturable wastes and other fallows; (b) permanent pastures and other grazing lands; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained uncultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types : First, lands which have remained out of cultivation for a period not less than one year but not more than 4 years; second, lands which are left fallow up to one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volumes 1 and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 4 shows assessment circle-wise classification of land in the District for 1960-61 : total area according to Village Papers; area under forests; area not available for cultivation; area available for cultivation; and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 5 presents net area irrigated from (1) Government canals, (2) private canals, (3) tanks, (4) tubewells, (5) other wells and 'other sources'. The information is presented for the same quinquenniums as selected for Table 3.

Table 6 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901—61.

Table 7 shows area under principal crops in the District for selected quinquenniums during 1901—61. The principal crops have been classified into three categories : I Basic food crops; II Other food crops; and III Non-food crops.

Table 8 presents the average yield per acre of principal crops in the District : rice, wheat, *jowar*, *bajra*, maize, barley, gram, potatoes, sugar-cane, chillies, sesamum, rape, mustard and cotton. Information is given for 11 years ending 1960-61, and the yield figures are in terms of lbs. per acre.

Table 9 presents wages for man, woman and child separately for skilled and unskilled workers in selected agricultural occupations in the District during 1951, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 10 presents wholesale prices of various agricultural products like the rice (unhusked), wheat, barley, *jowar*, *bajra*, maize, gram, rape seed, *til*, *gur*, unginned cotton, etc., as obtaining in the market at Jullundur. Prices are in terms of rupees and maunds, and are for each month, 1951 to 1960.

Table 11 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 12 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes hens, cocks, chickens, ducks, drakes and ducklets.

Table 13 provides information on agricultural implements and machinery for the District and each Tahsil for 1951, 1956 and 1961. The information is collected alongwith quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 14 relates to the working of registered factories during the year 1951, 1956 and 1960.

Table 15 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 16 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 17 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 18 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary Schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 19 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 20 gives the number of Arts and Science and Professional Colleges in the District during the years 1951—60.

PRINTING AND PUBLISHING

Table 21 relates to printing presses in the District working in 1960 : the year of declaration, the language in which the matter can be printed, the number of printing machines and the power used.

Table 22 lists the newspapers, magazines and periodicals published in the District during 1961 ; the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 23 shows the number of Cinema Houses in the District during the years 1951-52 to 1959-60.

Table 24 shows the number of Broadcast Receiving Licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND HEALTH

Table 25 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 26 shows the number of Hospitals and Dispensaries providing Ayurvedic treatment in the District during the years 1951 to 1961 and the number of *Vaids* and *Hakims* working there.

Table 27 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 28 presents the work done and expenses incurred by the Malaria Control Unit from 1953 to 1961 in the District.

Table 29 informs about the number of persons sterilized and other steps undertaken by the Family Planning Centres in the District during years 1960 and 1961.

Table 30 shows the location of the Primary Health Units and Centres and Rural Health Centres as on 1st October, 1961.

Table 31 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 32 shows the number of births and deaths sex-wise as recorded in the District during the years 1951 to 1960.

Table 33 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 34 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees ; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads, and according to metalled and unmetalled roads.

Post Offices.—Tables 35 gives a list of Post Offices in the District as on 31st March, 1961.

Railway Stations.—Table 36 is a list of railway stations located in the District.

Table 37 shows distances as between different places in the District.

Table 38 shows the major bridges having a span of 300′ or above in the District.

LOCAL ADMINISTRATION

Panchayats.—Table 39 shows the working of *panchayats* in the District during 1960-61 : number of *panchayats*, their members, beneficial and judicial activities, and income and expenditure.

Local Bodies.—Table 40 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, area served, population, the number of members and income and expenditure during 1960-61.

Community Development.—Table 41 shows the community development activities in the District as on 31st March 1961, for each Block ; its stage, area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 42 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 43 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 44 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 45 gives information regarding criminal justice, cases tried and persons convicted in the District annually, from 1951 to 1960.

Table 46 shows the sanctioned strength of the Police and the number of Police Stations in the District as on 31st December, 1960.

Table 47 gives information about Jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 48 shows the receipts from State Excise Duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually, from 1950-51 to 1959-60.

Table 49 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 50 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1951-52 to 1960-61.

Table 51 presents the number of instruments registered and value of property transferred in the District annually, from 1951 to 1960.

MISCELLANEOUS

Table 52 lists the important events those took place in the District during the period 1951—61.

Table 53 shows the monuments and better-known places of worship or tourist interest in rural areas of the District, arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

FAIRS AND FESTIVALS

Table 54 relates to fairs and festivals. The material for this Table was collected from a number of agencies : Headmasters of schools, *Patwaris*, Police Stations, District Officers of Health, and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the Hadbast Numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular castes or observed generally, and the commodities sold.

TABLE 1

TEMPERATURE, HUMIDITY AND WIND SPEED AT JULLUNDUR : 1951 TO 1960

*In memory of Maharshi Bias Dev and Swami Shankar Acharya. The first to be attracted to this place was Swami Param Hans who came from Kartarpur and practised austerity in a cave some 150 years ago. He was succeeded by Swami Hazoor Anand who started the practice of Guru worship on Bias Puja day. The tradition was maintained by his disciple Swami Brahmanand who also constructed a tank and a number of houses here. He has now been succeeded by Swami Narain Sarup who carries on the tradition and arranges *bhandara* (free meals).

†To commemorate death anniversary of Bhagat Jamna Das. Belonging to a well-to-do and influential Khatri Mahajan family, he had a religious bent of mind from his very early years. After the death of his father, he returned documents worth 10/15 thousand rupees executed by the people in favour of his father, *gratis*, and became disciple of the renowned ascetic Baba Sarup Dass. To relieve un-employment he would set up brick kilns and distribute the profits among the poor. He was opposed to caste-system and married a Harijan woman. He died on August 19, 1933, leaving behind a son and a daughter.

*A local boy was not on good terms with his parents. One day his mother snubbed him and remarked that he had better drown himself. The boy actually drowned himself and his body truned in to a snake. The people raised his tomb and began to worship him. The place is now called Sodhal after the name of the saint. According to another version, the boy accompanied his mother when she went to the pond to wash clothes. Inspite of her repeated warnings, the boy went into deep waters and was drowned. And when the mother raised hue and cry, he appeared in the form of a snake and again disappreared. The people raised his tomb and started worship. It is believed that Baba Sodhal has the power of blessing issueless women with children.

†The fair is associated with the name of famous classical singer Harballabh Swami who belonged to a village Bajwara of District Hoshiarpur. He stayed at his grand-father's house at Jullundur and was the disciple of Tul Jagir Swami who initiated him into this art. Harballabh touched great heights in classical music and attracted a large number of disciples and admirers. He started a *sangeet mela* to commemorate the death anniversary of his Guru. After the death of Harballabh Swami, Pt. Tolu Ram, his disciple continued the celebrations of the fair in the name of his Guru. The dates of the fair are adjusted to synchronise with the Christmas Holidays for the convenience of the patrons of the fair. Devotees of Harballabh Swami, regard it as a place of pilgrimage.

	Mela Baba Rahmat Shah	Asarh 1 (June-July) One day	Religious In memory of Baba Rahmat Shah	Homage at the shrine of the saint. *Qwalis* and songs	2,000	All, mostly women	Edibles
	Mela Masatgir	Chet (March-April) One day	Religious Dedicated to a local saint Masatgir	Worship of the *smadh* of the saint. *Qwalis*	2,000	All	..
	Mela Guru Arjan Dev	July Three days	Religious Guru Arjan Dev stayed here for one night, when he was on his way to his would be in-law's to celebrate his marriage. A gurdwara has been constructed in his name here.	Procession; *diwan*; non-stop *rectital* of Granth Sahib; free *langar*; distribution of *karah parshad; kirtan*	8,000	Sikhs and Hindus	Edibles, toys
Mau H.B. 111	Khawaja Wali Roshan Sahib	June Three days	Religious Dedicated to Khawaja Wali Roshan Sahib, who looked after the horse of Guru Arjan Dev. He died simultaneously with the horse at the time of Guru Arjan Dev's marriage which took place in this village.	People worship the sacred place. *Qwalis*	2,000	All	Eatables, general merchandise
	Mela Guru Arjan Dev	Asarh (June-July) Four days	Religious To commemorate Guru Arjan Dev's marriage in the village with Mata Ganga Devi. The people tested Guru's strength by asking him to pull out a big peg of *jand* tree from the earth	Homage and prayers at the Gurudwara Illuminations and fire-works	15,000	Sikhs and Hindus	-do-
Partap pura H.B. 121	Mela Baba Sen Bhagat	Katak Sudi 1 (October-November) Two days	Religious In memory of Baba Sen Bhagat	Homage to the saint at his *smadh*; recital of Granth Sahib; bath in the tank. Wrestling; *Qwalis*	2,000	All, chiefly barbers	Eatables
Tehang H.B. 142	Mela Baba Farid	Asarh 13 (June-July) One day	Religious In memory of Baba Farid who visited this place		5,000	All	Eatables, general merchandise

Kang Jagir H.B. 144	Bhai Tal fair	On Lohri day in Poh (December-January) One day	Religious In memory of Bhai Bala, a companion of Guru Nanak Dev, who visited this place. The fair is named after Bhai Bala and a *kacha talab* (tank) which exists here.	Recital of Granth Sahib; a holy dip in the tank	10 miles	Sikhs and Hindus	..
Rasulpur H.B. 146	Nirjala Ikadashi	Jeth Sudi 11 (May-June) Three days	Religious	*Bhajans*; *kirtan*	1,500 20 miles	Hindus and Sikhs	Toys
Nagar H.B. 147	Shiv Chaudash	Phagan Badi 14 (February-March) One day	Religious	See descriptive notes on Shivratri. *Kabaddi;* Wrestling; weight-lifting.	1,500 10 miles	Hindus	Sweets
Thala H.B. 161	Mela Jandjiwala	Asarh 12 (June-July) One day	Religious There is a sacred well Jandjiwala where the fair is held.	..	500	All	..
Kariana H.B. 168	Chet Chaudash	Chet Badi 14 (March-April) One day	Seasonal and religious	Bath in the river Sutlej	2,000 5 miles	All	Sweets, toys
Raipur Arian H.B. 170	Mela Sher Abdulla	Every Thursday	Religious	..	200	All	..
Lasara H.B. 173	Mela Krishan Lila	Katak Puranmashi (October-November) Three days	Religious Dedicated to Krishna	Chief events from the life story of Krishna staged	3,000	All, especially Hindus	Sweets, toys
Aujla H.B. 191	Baba Purana Mela	Chet 14 (March-April) One day	Religious*	Bath in the tank; worship of the *devta* (god)	3,000 15 miles	All	..
Dhandawar H.B. 194	Baba Nandgir fair	Magh 13 (January-February) One day	Religious	Procession; prayers; havan; free meals	2,000 15 miles	Hindus, mostly women	Toys, sweetmeats
	Chhinj	Poh (December-January) One day	Recreational also to seek blessings for the cattle	Wrestling bouts are arranged	.. 20 miles	All	..
Padi Jagir H.B. 204	Death anniversary of Baba Nanak Parkash	Asoj 1 (September-October) One day	Religious	Homage paid to the saint; non-stop recital of Granth Sahib; free *langer*	10 miles	Sikhs and Hindus	..
	Nirjala Ikadashi	Jeth Sudi 11 (May-June) Three days	Religious**	Non-stop recital of religious books; *kirtan*; religious preachings	..	Sikhs and Hindus	..

*About 100 years ago, the present site of the fair was infested with a jungle and 'Nanga' sadhus used to live here. At one time a woman Jeewi used to run the *dera*. She used to spin in the forest; a serpent would crawl over her body and would not bite her. Sometime later, a married women, Karmi, went in to a fit of frenzy and suggested to the villagers to celebrate the fair to worship the *guru*. Drought conditions prevailed and there was famine in the village. Karmi asked a passer-by bullock cart driver to drink water from the reeds. On his refusal, the cart got jammed, and moved only when he drank the water and paid obeisance to Karmi. The later prophesied that there would be heavy rains after a week. The prophecy came out true and the belief of the people in the *dera* tremendously increased. Now a devotee Harbans Singh looks after the *dera* and its management.

**In memory of Baba Dhyan Dass who was a saint and used to make a tour of the country-side for purposes of preaching, beginning with an *akhand path* at Jagir Padi on Nirjala Ikadashi. After visiting a number of villages on the way he would reach Amritsar on Dewali where an *akhand path* was performed. Then he would return to Samravan doing an *akhand path* there on Maghi and finally reach back Jagir Padi. His successor Baba Nanak Parkash maintained the tradition. He established his *gaddi* (permanent seat) at Padi Jagir and the Maghi festival also came to be celebrated here instead of Samravan. The tradition is now being followed up by Baba Sohan Dass, disciple of Baba Nanak Parkash.

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information up to Tahsil and Town level, and have been prepared exculsively for this volume. Tables A-IV, B-III (Part A), B-VI, B-VIII (Part A), C-III (Part B), and SCT-III (Part A) give information only for urban areas. Tahsil-wise tables for urban areas could not be prepared since sorting of slips was done for non-city urban areas of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres; number of villages, inhabited and uninhabited; number of towns; number of occupied houses; and population for the District, each Tahsil and Town, with sex break-up. The figures for Towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board, or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated whereever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so asssessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit as '*phati*'. In Lahaul and Spiti District the revenue estate is referred to as '*kothi*' and its components as '*gaon*'.

Appendix I shows the territorial changes which took place during the decade 1951—61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under cols. 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population.* These persons were enumerated on the night between the 28th February and 1st March, 1961.

Residential institutions such as jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional Population.*

Table A-II shows the population of the District at the time of censuses from 1901 to 1961, and variation in population—in absolute figures and percentage —in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

In **Table A-III** the villages have been graded according to the size of population as shown below, and each group the number of villages and their population have been shown.

Villages with population—

(a) less than 200;

(b) 200 to 499 ;

(c) 500 to 999 ;

(d) 1,000 to 1,999 ;

(e) 2,000 to 4,999 ; and

(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities : thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into workers and non-workers. The workers have been classified into (a) nine industrial categories, further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification" (Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called "working dependent" in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961 census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royality or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age groups. Workers have been classified into the following nine industrial categories:—

(1) as cultivators ;

(2) as agricultural labourers ;

(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;

(4) at household industry ;

(5) in manufacturing other than household industry ;

(6) in construction ;

(7) in trade and commerce ;

(8) in transport, storage and communications ; and

(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e., an owner cultivator or tenant.

Agricultural labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc. The other five categories are self-explanatory.

Non-worker is a person who is not at work as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree" is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers. They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification"(Annexure A). Figures have been given for total rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in Industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to the "Indian

Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An employer is a person who employs other persons in order to perform economic activity in which he is engaged.

An employee is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their employer have also been taken as employees.

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of "Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and up to the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts : **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups : (i) seeking employment for the first time; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsil-wise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups:—

(i) whole-time students doing no other work ;

(ii) persons engaged in unpaid home duties ;

(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age;

(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work ;

(v) beggars, vagrants or independent women without an indication of their source of income ;

(vi) convicts in Jail or inmates of a penal, mental or charitable institutions;

(vii) persons seeking employment for the first time; or

(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribe, the following particulars were recorded about the household:—

A. If the household was engaged in cultivation, the area of land with in under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories:—

(i) engaged neither in cultivation nor in household industry ;

(ii) engaged in cultivation only ;

(iii) engaged in household industry only ; and

(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In **Table B-XI** the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;

(ii) held from private persons or institutions for payment in money, kind or share ; and

(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross-tabulated by different sizes of land-holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification" (Annexure A).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A**, the households have been distributed by nature of household industry and number of persons engaged into the following five size groups:—

(i) 1 person;

(ii) 2 persons;

(iii) 3 to 5 persons;

(iv) 6 to 10 persons; and

(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given:—

(i) households engaged neither in cultivation nor in household industry;

(ii) those in household industry only;

(iii) those engaged in cultivation; and

(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in Table B-XVII.

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into : (i) never married; (ii) married; (iii) widowed; and (iv) divorced or separated. In 1961-census, quinquennial age groups, as recommended by the United Nations for population census, have been adopted.

Age groups 0-4 and 5-9 have been combined since all the persons up to the age of 9 have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in Col. 9 on married females by age groups can be utilised for forecasting the future births. In 1951-census, this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : **Part-A** for all areas; **Part-B** for urban areas; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this Volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others". Tahsil wise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO/2477-A, dated the 29th October, 1956). These castes, in Punjab are :

1. Throughout the State—

   (1) Ad Dharmi; (2) Bangali; (3) Barar, Burar or Berar; (4) Batwal (5) Bauria or Bawaria; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi or Ravidasi; (10) Chanal; (11) Dagi; (12) Dhanak; (13) Dumna, Mahasha or Doom; (14) Gagra; (15) Gandhila or Gandil Gondola; (16) Kabirpanthi or Julaha; (17) Khatik; (18) Kori or Koli; (19) Marija or Marecha; (20) Mazhabi; (21) Megh; (22) Nat; (23) Od; (24) Pasi; (25) Perna; (26) Pherera; (27) Sanhai; (28) Sanhal; (29) Sansi, Bhedkut or Manesh; (30) Sapela; (31) Sarera; (32) Sikligar; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur—
   (1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the District of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur—

   Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other Countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa.*

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent sample out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here

for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dwelling with a separate main enterance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling, or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented".

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominant material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In the case of multi storeyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these Castes separately, though they have been included in the general population Tables.

According to the Presidential order referred to above the Scheduled Tribes are found in this State only in Lahaul and Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul and Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Castes, giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as "tanning and curing of hides and skins" and "scavanging", number of persons following these occupations have also been given under cols. 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0-14, 15-44, and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under "Others" in cols. 11 and 12.

ANNEXURE 'A'

INDIAN STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, livestock, forestry, fishing and hunting		
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugarcane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation vines and orchards	006
	Production of wood, bamboo, canereeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja; cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland water including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Rearing of sheep and production of wool	041
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandary products such as skin, bone, ivory and teeth	048

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 1—Mining and Quarrying		
10	*Mining and Quarrying—*	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Division 2 & 3—Manufacturing		
20	*Foodstuffs—*	
	Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering , preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages—*	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruit, and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	*Tobacco Products—*	
	Manufacture of bidi	220
	Manufacture of cigars and cheroot	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226
23	*Textile—Cotton—*	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Divisions 2 & 3—Manufacturing—*contd.*		
23	*Textile-Cotton*—concld.	
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Emboridery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—*contd.*		
29	*Paper and Paper Products—*	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing—*	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products—*	
	Currying tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code Nos. 311, 312) such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products—*	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purpose	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products—*	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire-works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal—*	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stonewares, other than images	344

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—*contd.*		
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*—concld.	
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen images, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
	Basic Metals and their Products except Machinery and Transport Equipment—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, roads	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can	367
	Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G. I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369
37	*Machinery (All kinds other than Transport) and Electrical equipment—*	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment—*	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—*concld.*		
38	*Transport Equipment*—concld.	
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502
51	*Water Supply and Sanitary Services*—	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6—Trade and Commerce		
60-63	*Wholesale Trade*—	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf), coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja etc.	605
	Wholesale trading in tobacco, bidi cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade & Commerce—*contd.*		
60-63	*Wholesale Trade*—concld.	
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in pertol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade*—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (Seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat, condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products ; (this includes retail trading in piecegoods of cotton wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, headgear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes, and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood bamboo cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Divisio n 6—Trade and Commerce—*concld.*		
64-68	*Retail Trade*—concld.	
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
Division 7—Transport, Storage and Communication		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc., by river, canal	706
	Transporting by boat, steamer ,ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	Services incidental to transport such as packing, carting travel agency	710
72	*Storage and Warehousing*—	
	Operation of storage such as warehouses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services* (This does not include Government, Quasi-Government or loca body activities, other than administrative, in such fields as transport, communication, information and broadcasting , euducation and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public Service in Navy	801
	Public Service in Air Force	802
	Public Service in Police	803

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—*contd.*		
80	*Public Services*—concld.	
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of quasi-government organisation, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Government	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public health and medical services rendered by organisations and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, (this includes missions, ashrams and other allied organisations)	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals	850
	Business services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisation or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	*Community Services and Trade and Labour Associations* —	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens, etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, muscians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc., racing	873

INDIAN STANDARD INDUSTRIAL CLASSIFICATION—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—*concld.*		
88	*Personal Services—*	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, (this includes all types of cleaning, dyeing, bleaching, dry cleaning, services)	883
	Hair dressing, other services rendered by organisation and individuals such as those by barber, hairdressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)—*	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—Activities not adequately described—		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

ANNEXURE 'B'

NATIONAL CLASSIFICATION OF OCCUPATIONS

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers		
00	*Architects, Engineers and Surveyors—*	
	Architects	000
	Civil Engineers (including Overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurgical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers, and Surveyors, n.e.c.	009
01	*Chemists, Physicists, Geologists and other Physical Scientists—*	
	Chemists except Pharmaceutical Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and Related Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homoeopathic	032
	Physicians, Other	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and Related Workers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—*concld.*		
05	*Teachers*—concld.	
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059
06	*Jurists*—	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069
07	*Social Scientists and Related Workers*—	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Psychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and Related Workers*—	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Painters, Decorators and Commercial Artists	083
	Sculptors and Modellers	084
	Actors and Related Workers	085
	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen and Science and Engineering Technicians, n.e.c.*—	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n.e.c.	099
0x	*Other Professional, Technical and Related Workers*—	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers		
10	*Administrators and Executive Officials, Government*—	
	Administrators and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative Executive, and Managerial—*concld.*		
12	*Directors, Managers and Working Proprietors, Financial Institutions*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Other*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors, Transport and Communication	134
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, Other Services	136
	Directors, Managers and Working Proprietors, n.e.c.	139
Division 2—Clerical and Related Workers		
20	*Book-keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)	202
21	*Stenographers and Typists*—	
	Stenographers	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers, Miscellaneous*—	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office Workers including Record Keepers, Muharrers, Despatchers, Packers and Binders of Office papers	289
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-Porters, etc. n.e.c.	290
Division 3—Sales Workers		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors, Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers*—	
	Agents and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers	320
	Manufacturers' Agents	321
	Commercial Travellers and Manufacturers' Agents, n.e.c.	329

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3—Sales Workers—*contd.*		
33	*Salesmen, Shop Assistants and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-lenders and Pawn-brokers*—	
	Money-lenders (including Indigenous Bankers)	340
	Pawn-brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural Labourers	414
	Plantation Labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers n.e.c.	439
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers		
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511
52	*Mineral Treaters*—	
	Mineral Treaters	520

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 5—Miners, Quarrymen and Related Workers—*concld.*		
59	*Miners, Quarrymen and Related Workers, n.e.c.—*	
	Miners, Quarrymen and Related Workers, n.e.c.	590
Division 6—Workers in Transport and Communication Occupations		
60	*Deck Officers, Engineer Officers and Pilots, Ship—*	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen*	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers—*	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine—*	
	Drivers	630
	Firemen	631
64	*Drivers Road Transport—*	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)	649
65	*Conductors, Guards and Brakesmen, Railway—*	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport—*	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Tele-communication Operators—*	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printer Operators	673
	Telephone, Telegraph and Related Tele-communication Operators, n.e.c.	679
68	*Postmen and Messengers—*	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations n.e.c.—*	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communications	693
	Workers in Communication Occupations, n.e.c.	694

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.		
70	*Spinners, Weavers, Knitters, Dyers and Related Workers—*	
	Fibrepreparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers—*	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern Makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719
72	*Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers—*	
	Shoe Makers and Shoe Repairers	720
	Cutters, Lasters, Sewers, Footwear and Related Workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (except Gloves and Garments) and related Workers, n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers—*	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers, n.e.c.	739
74	*Precision Instrument Makers, Watch Makers, Jewellers and Related Workers—*	
	Precision instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742
75	*Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers*	
	Fitter-machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-assemblers and Machine Erectors (except Electrical and Precision Instrument Fitter- assemblers)	752
	Mechanics-repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and Structural Metal Workers	757
	Electro-platers, Dip Platers and Related Workers	758
	Tool-makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than printing)	759

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—*contd.*		
76	*Electricians and Related Electrical and Electronics Workers—*	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics Workers, n.e.c.	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers—*	
	Carpenters, Joiners and Pattern Makers (Wood)	770
	Shipwrights and Body Builders (Wood)	771
	Sawyers and Wood Working Machinists	772
	Coach and Body Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet Makers	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c.	779
78	*Painters and Paper Hangers—*	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.—*	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers, Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-binders and Related Workers—*	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-readers and Copy-Holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-litho Operators, Photo-lithographers	805
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-binders	808
	Compositors, Printers, Engravers, Book-binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers—*	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers Bakers, Brewmasters and Related Food and Beverage Workers—*	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil Seeds	821
	Dairy Workers (Non-farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825

NATIONAL CLASSIFICATION OF OCCUPATIONS—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers and Labourers, n.e.c.—*concld.*		
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers*—concld.	
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers*—	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tobacco Preparers and Products Makers*—	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Products Makers n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.*—	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastic Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen and Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers*—	
	Checkers, Testers, Sorters, Weighers and Counters	860
	Packers, Labellers and Related Workers	861
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers*—	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Riggers and Cable Splicers	873
	Operators of Earth-moving and other Construction Machinery, n.e.c.	874
	Materials-handling Equipment Operators	875
	Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment	876
	Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.	879
89	*Labourers, n.e.c.*—	
	Loaders and Unloaders	890
	Labourers, n.e.c.	899
Division 9—Service, Sport and Recreation Workers		
90	*Fire Fighters, Policemen, Guards and Related Workers*—	
	Fire Fighters and Related Workers	900
	Police Constables, Investigators and Related Workers	901
	Customs Examiners, Patrollers and Related Workers	902
	Watchmen and Chowkidars	903
	Fire Fighters, Policemen, Guards and Related Workers, n.e.c.	909

NATIONAL CLASSIFICATION OF OCCUPATIONS—concld.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 9—Service, Sport and Recreation Workers—*concld.*		
91	*House Keepers, Cooks, Maids and Related Workers—*	
	House Keepers, Matrons, Stewards (Domestic and Institutional)	910
	Cooks, Cook-bearers (Domestic and Institutional)	911
	Butlers, Bearers, Waiters, Maids and other Servants (Domestic)	912
	Ayas, Nurse-maids	913
	House Keepers, Cooks, Maids and Related Workers, n.e.c.	919
92	*Waiters, Bartenders and Related Workers—*	
	Waiters, Bartenders and Related Workers (Institutional)	920
93	*Building Care Takers, Cleaners and Related Workers—*	
	Building Care Takers	930
	Cleaners, Sweepers and Watermen	931
94	*Barbers, Hair dressers, Beauticians and Related Workers—*	
	Barbers, Hair dressers, Beauticians and Related Workers	940
95	*Launderers, Dry-cleaners and Pressers—*	
	Laundrymen, Washermen and Dhobies	950
	Dry-cleaners and Pressers	951
96	*Athletes, Sportsmen and Related Workers—*	
	Athletes, Sportsmen and Related Workers	960
97	*Photographers and Related Camera Operators—*	
	Movie Camera Operators	970
	Other Photographers	979
99	*Service, Sport and Recreation Workers n. e.c.—*	
	Embalmers and Undertakers	990
	Service, Sport and Recreation Workers, n.e.c.	999

Notes—1.† The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Town treated as such for the first time in 1951-census which continues as town in 1961-census is shown with an asterisk (*) on its left.
3. Town treated as such for the first time in 1961-census is printed in italics.
4. The following abbreviations have been used for the status of a Town :—
   M.C. = Municipal Committee.
   C.B. = Cantonment Board.

APPENDIX I TO TABLE A-I

Statement showing the 1951 Territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area
1	2	3
Jullundur District	**Jullundur District**	**1,333.0**

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1% of workers of the respective Division (less than 0.5% in case of Minor Groups of Division 2 & 3), have been shown in this Appendix. The following abbreviations have been used :—

HI=Household Industry;
NHI=Non-Household Industry;
M=Males; and
F=Females.

Jullundur District

006 : Total NHI (M 98, F 3), Urban NHI (M 67, F 1). **007 :** Total HI (F 5), NHI (M 29, F 46), Urban HI (F 1), NHI (M 29, F 46). **009 :** Total NHI (M 8). **010 :** Total NHI (M 1). **015 :** Total NHI (M 12), Urban NHI (M 1). **020 :** Total NHI (M 106), Urban NHI (M 60). **021 :** Total NHI (M 39), Urban NHI (M 3). **022 :** Total NHI (M 3). **023 :** Total HI (M 6), NHI (M 34), Urban HI (M 1), NHI (M 34). **024** Total HI (M 2, F 5), NHI (M 1), Urban NHI (M 1). **025** Total HI (M 1), NHI (M 2). APPENDIX TO TABLE B-VII PART A

Major Groups of Household Industry, where persons having Secondary Work as Cultivation or Agricultural Labour, are less than 5% of the persons having the Major Group as Principal Work, have been shown in this Appendix.

The following abbreviations have been used:—

I=Cultivator
II=Agricultural Labourer
M=Males
F=Females

Jullundur District

04 : Total I (M 193, F 35), II (M73, F 1), Rural I (M183, F 35), II (M 65, F 1), Urban I (M 10), II (M 8); **20** : Total I (M 22), II (M 12), Rural I (M 22), II (M 12); **23** : Total I (M 86, F 17), II (M 65, F 3), Rural I (M 86, F 17), II (M 63, F 3), Urban II (M 2); **24** : Total I (M 19, F 1), II (M 20), Rural I (M 17, F 1), II (M 19), Urban I (M 2), II (M 1); **27** : Total I (M 17, F 32), II (M 11, F 1), Rural I (M 17, F 32), II (M 7, F 1), Urban II (M 4); **28** : Total I (M 70), II (M 19), Rural I (M 64), II (M 19), Urban I (M 6); **34-35** : Total I (M 14), II (M 9), Rural I (M 14), II (M 9); **36** : Total I (M 26), II (M 4), Rural I (M 26), II (M 4); **38** : Total I (M 6), II (M 6), Rural I (M 3), II (M 6), Urban I (M 3); **39** : Total II (M 5), Rural II (M 5).

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry, having less than 10% of the figures of the respective Division, have been shown in this Appendix. The following abbreviations have been used:—

IN ADDITION TO CULTIVATION	WITHOUT CULTIVATION
A means 1—3 Months	E means 1—3 Months
B means 4—6 Months	F means 4—6 Months
C means 7—9 Months	G means 7—9 Months
D means 10 Months to 1 Year	H means 10 Months to 1 Year
X means Months not stated	Y means Months not stated

Notes.—(1) Mother Tongues printed in italics belong to countries outside the Indian Sub-continent.

(2) Names occuring after hyphen (-) have been introduced by the Linguist to indicate groupings.

(3) Daggar (†) denotes that the Mother Tongue though classified in Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.

PART IV

DIRECTORY

Information is presented separately for each tahsil of the District as under:

A. Village Directory (Rural Areas), and

B. Town Directory (Urban Areas).

CONTENTS

		Page
Nakodar Tahsil	: Villages	iv
	: Towns	xviii
Jullundur Tahsil	: Villages	xx
	: Towns	xxxvi
Nawashahr Tahsil	: Villages	liv
	: Towns	lxvi
Phillaur Tahsil	: Villages	lxx
	: Towns	lxxx

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified by sex and main industrial categories. The term *village*, in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an *estate*. This definition of village is identical with that of *mauza* under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as *mauza*, but the smaller units are called *tikkas* in Kangra District, except in Kulu where the revenue estate is termed as *kothi* and the smaller unit as *phati*. In Lahaul and Spiti District, the revenue estate is referred to as *kothi* and its smaller component as *gaon*.

2. Villages, having no population, have been shown as *Uninhabited*. They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsil-wise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961 Census work, as for as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **Column 2**. The Tahsil map shows the location of each village, identified by its Hadbast number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having :

(*a*) a population of over 5,000; and

(*b*) 75 p. c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on *amenities* based on the *Village Notes*, prepared by the Patwaris at the time of the 1961 Census. These *Village Notes* contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* mentioned, relate to education, medical facilities, Post and Telegraph, safe water supply and electrification and are indicated by the following abbreviations:—

P—Primary School.

M—Middle School.

H—High School.

C—College, including Higher institutions.

T—Technical Institution.

D—Dispensary.

Rhc—Rural Health Centre

Hos—Hospital.

Mp—Medical Practitioner.

Mcw—Maternity and Child Welfare Centre.

Po—Post office.

P & T—Post and Telegraph Office.

S—Safe or protected supply of drinking-water.

E (A)—Electricity for agricultural use.

E (D)—Electricity for domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self Government.

7. **Column 5** relates to *occupied houses*, i.e., houses used as dwellings, or conjointly as dwelling and for some other purpose, e. g., shop-cum-dwellings. **Column 6** shows the number of *households*. A *household* means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956, and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A *literate* person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as *educated.*

10. **Columns 16 to 37** present figures for *Workers* and *Non-workers.* For the definition of the term Worker and a *Non-worker* and description of the categories of workers, the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by Roman numberals :

I—Working as cultivator (owner cultivator or tenant).

II—Working as agricultural labourer.

III—Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

IV—Working on household industry.

V—Working in manufacturing other than household industry.

VI—Working in construction.

VII—Working in trade and commerce.

VIII—Working in transport, storage and communications.

IX—Working in other services.
