DISTRICT MUZAFFARNAGAR

Name of the Tahsil	Area in Km²	Population	No. of Villages	No. of Towns
KAIRANA	941.9	476,723	274	2
MUZAFFARNAGAR	915.5	555,427	325	1
BUDHANA	741.8	363,103	168	1
JANSATH	1271.9	407,036	320	3
TOTAL	4245.0	1802,289	1087	7

ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the Village and block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Hand books are being published by us on their behalf. I wish to express my gratitute to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G. A. D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-opration in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published one in Hindi and two in English. The arrangements made by Sri A.Dar, Superintendent, Printing and Stationery, U.P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Shri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Techical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandrasekhar, Registrar General, India, Sri K. D. Ballal, and Dr. B. K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravarty. Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations,
Uttar Pradesh.

Lucknow
Dated: October 3, 1972.

Introductory Note

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recognised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory

Part B : Village and Town-wise Primary Census Abstract

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religous, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Education facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and scheduled Castes/Scheduled Tribes.

Part B represents data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex, scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc, in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion, migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. Town Directory—given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated s Towns :—

1. All Municipal Corporations Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three under mentioned conditions :
   (i) Population exceeds 5,000.
   (ii) At least 75% of the male working population engages in non-agricultural pursuits, and
   (iii) The density of population exceeds 1,000 persons per sq. mile (386 persons pe sq. km.).

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) Statement I—This statement presents the population of the towns at the end of each decade from 1901 to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which, the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(i) Primary Activities-Categories I, II, III & IV
(ii) Industry-Categories V (a), V (b) and VI
(iii) Trade and Commerce-Category VII
(iv) Transport-Category VIII, and
(v) Services-Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60%

or above, the town is designated as bifunctional. If the total does not yield 60%, the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The altitudes of the towns given in col. 3 have been supplied by the Surveyor General of India.

(c) **Statement III**—It reveals the municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the town have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Col·3	PR	..... For Pucca Road
	KR	---- ,, Kachcha Road
Col.4	PT	---- ,, Pit Tank
	OSD	---- ,, Open surface drain
Col.8	B	---- ,, Basket
	HC	---- ,, Hand Cart
	HL	---- ,, Head Load
	MT	---- ,, Mechanical Transport
Col.9	TW	---- ,, Tube well
	OHT	---- ,, Overhead Tank

(e) **Statement V**—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Col.3	H	---- For Hospital
	D	---- ,, Dispensary
	HC	---- ,, Health Centre
	FC	---- ,, Family Planning Centre
	TBC	---- ,, T.B.Clinic
	MCW	----- ,, Maternity and Child welfare Centre
Col..5	AS	----- ,, Arts and Science College
Col.17	PL	..... ,, Public Library
	RR	----- ,, Reading Room

(f) **Statement VI**: This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured,imported and exported, the number of Banks and agricultural as well as non-agricultural credit socities are given in the statement, The commodities mentioned therein are those

having the highest value in currency. In a few cases, if the town is famous for manufac turing or exporting some particular item, even though the monev value is not high, such items have been included.

(g) Statement VII : The census table C VII giving distribution of population by religion and scheduled castes/schedule tribes has been reproduced in this statement. While sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of Others.

(5) Village Directory : reveals the general living conditions of peasentry and the over all development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water communications, Post and telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market hat and places of religious, historical or archaeological interest is also given in the statement. If the village is un-inhabited or power is being used for agricultural purpose only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production prorgamme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) unirrigated, (iv) Culturable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code nos. allotted to them at 1971 Census. The information has been presented with the help of the following abbreviations:

In Column 4

JBS for Junior Basic School
SBS „ Senior Basic School
HSS „ Higher Secondary School
C „ College
O „ Others

In Column 5

H for Hospital
D „ Dispensary
FC „ Family planning Centre
HC „ Health Centre
MCW „ Maternity & Child welfare Centre
O „ Others

In Cloumn 6

E for Electricity

In Column 7

T for Tap
Hp „ Hand Pipe
W „ Well
WE „ Well with Electricity
TK „ Tank
R „ River
F „ Fountain

C for Canal
WF „ Waterfall
L „ Lake
TWE „ Tube-well with Electricity
O „ Others

In Column 8

KR for Kachcha Road
PR „ Pucca Road
T „ Train
CR „ Canal Road
R „ River
C „ Canal

In Column 9

PO for Post office
TO „ Telegraph office
PTO „ Post and Telegraph office
Phone „ Telephone

In Column 12

T for Total
C „ Canal
W „ Well
WE „ Well with Electricity
TW „ Tube-well
TWE „ Tube-well with Electricity
TK „ Tank
R „ River
WF „ Waterfall
L „ Lake
F „ Fountain
O „ Others

In Column 18

T for Temple
M „ Mosque
C „ Church
G „ Gurudwara
HP „ Historical Place
RP „ Religious Place
A „ Archaeological monument
EA „ Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil wise break up.

THE DISTRICT

A – Town Directory

(a) **Statement I** – There is no change in the number of towns in the district since 1961 Census. There are seven towns viz. Muzaffarnagar, Kairana, Shamli, Khatauli, Kandhla (all Municipal Boards), Miranpur and Jansath (Town Areas). The functional distribution of these towns is as below :—

Functional Category	**Name of Town**
Services—*cum*—Commercial—*cum*—Industry	Muzaffarnagar
Primary Activities	Kairana
Industrial—*cum*—Commercial	Shamli
Commercial—*cum*—Industry—*cum*—Service	Khatauli
Primary Activities	Kandhla
Primary Activities—*cum*—Industry	Miranpur
Primary Activities—*cum*—Services—*cum*—Industry	Jansath

Municipal Board Muzaffarnagar, the district headquarters, is a multi-functional town comprising 29.2 percent Service class followed by Trade & Commerce (28.4 percent) & Industry (23.7 percent). Two more towns are multi-functional namely Jansath & Khatauli, of which the former has its predominant functional characteristics as Primary Activities (36.5 percent) followed by Services (21.9 percent) and Industry (19.7 percent): and the latter's occupational pattern is commercial (28.1 percent), Industry (27.7 percent) and Services (20.9 percent). Both Jansath and Khatauli towns are situate at a distance of 22 Kms. from the district headquarters. Miranpur & Shamli are bi-functional towns situate at a distance of 33 and 38 Kms. respectively from Muzaffarnagar. Of these, Miranpur has its predominant functional characteristics as Primary Activities (31 6 percent) followed by Industry (28.4 percent) and Shamli has Industry (38.4 percent) followed by Trade and Commerce (25.7 percent). Both Kairana & Kandhla are situate at a distance of 50 kms. from Muzffarnagar These are mono-functional in their characteristics having 42.3 & 43.8 percent respectively of their workers engaged in Primary Activities.

(b) **Statement II**—The physical and locational aspects have been covered in the statement. Figures of annual rainfall & temperature were not separately available with the Director of Meteorological Centre, Delhi. All the towns enjoy the same rainfall and temperature as recorded at the nearest observatory at Meerut.

(c) **Statement III**—The per capita receipt & expenditure of all the local bodies of the strict is as below :—

Table 2

Class of Town	No. of Town	Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health & conveniences	Expenditure on public institutions	Expenditure on all other aspects
Class I 100,000 & over	1	35.32	9.85	25.47	35.24	7.19	3.62	24.43
Class III 20,000—49,999	4	20.94	12.56	8.38	21.19	6.86	3.83	10.50
Class IV 10,000—19,999	1	2.58	1.16	1.42	2.88	—	—	2.88
Class V 5 000—9,999	1	5.41	0.55	4.86	5.17	—	—	5.17

The per capita receipt of Muzffarnagar Municipal Board which is a class I town, is Rs. 35.32 while the class III towns viz Kairana, Kandhla, Khatauli & Shamli altogether show Rs. 20.94. Miranpur & Jansath (Class IV & V towns) respectively have their per capita receipt as Rs. 2.58 & 5.41. The per capita expenditure of the aforesaid towns is Rs. 35.24, 21.19, 2.88 and 5.17 respectively.

(**d**) **Statement IV**—All the seven towns have protected water supply and road lighting arrangements but no fire fighting service is available any where except in Muzaffarnagar M. B. The most prevailing method for removing the night soil in the towns is hand cart & head load, but Mechanical transport has also been provided for the purpose in Muzaffarnagar & Shamli.

While the residents of Municipal Board Muzaffarnagar have the largest measure of medical facilities i. e. 9 of all kind with 300 beds, there is no medical facility available to the residents of Miranpur.

(**e**) **Statement V**—Altogether there are 14 hospitals in all the towns. Besides these, 4 Family Planning Centres, 2 Health Centres, 3 Nursing homes, 1 T. B.Clinic and 1 Maternity and Child Welfare Centre have also been provided The number of beds per 1,000 persons has been shown in the following table :—

Table 3

Total No. of beds in medical institutions	No. of beds per 1,000 persons.
3.94	2 (1.58)

A polytechnic as well as 4 Degree colleges, 2 Inter Science, 1 Inter Art & Science & 1 Inter College with Arts, Science & Commerce faculities are located in Muzffarnagar M. B. Shamli has 2 degree colleges 1 with Science & 1 with Art & Science. Khatauli has one degree college only with Arts & Science faculities. Jansath, Kairana, Kandhla & Miranpur have no

degree college. There is no Medical or Engineering College in any of the towns of the district. Muzaffarnagar has three shorthand and typewriting institutions. The number of Higher Secondary, Senior Basic & Junior Basic Schools per 1,000 persons are given in the following table :—

Table 4

Name of the Town	Number per 1000 persons		
	H. S. S.	S. B. S.	J. B. S.
Muzaffarnagar	0. 11	0.01	0.29
Kairana	0.09	–	0.30
Shamli	0.13	0.08	0.68
Khatauli	0.16	0.12	0.60
Kandhla	0.14	–	0.09
Miranpur	0.15	0.07	0.22
Jansath	0.20	0.12	0.30

There are 5 Cinema halls in Muzaffarnagar, 2 in Shamli, 2 in Khatauli & one each in Kairana & Kandhla. There is no Cinema hall in Jansath or Miranpur. Muzaffarnagar, Kairana and Shamli each have 2 public libraries and Muzaffarnagar has 2 drama halls also.

(f) **Statement VI**—Shamli is a predominantly industrial town manufacturing agricultural implements followed by sugar & buffaloe carts. In Kairana, the most important article of manufacture is handloom fabrics followed by rugs. Muzaffarnagar & Khatauli also play a role in the industrial field, manufacturing sugar as their main product followed by blankets in Muzaffarnagar & ice in Khatauli. Shoe laces followed by Oxe's jhool and *gur* are manufactured at Kandhla. The main products of Miranpur are blankets, earthen pots & *Kolhu*, which are exported also. *Gur* is the main item of export in Muzaffarnagar & Khatauli towns besides wheat & blankets in the former and sugar and grains in the latter. Shamli exports brass equipments followed by sugar & *gur*. Leather, shoe laces & rice are exported from Kandhla & red chillies, onion & cotton from Kairana. Cloth is the main article of import for Shamli and Khatauli followed by iron, timber and grain. Steel, fertilizers & electrical goods are imported in Muzaffarnagar. The main items of import among other towns are wheat, vegetables & cloth in Jansath; machine parts, cloth & medicine in Kairana; wire, wheat & vegetable in Kandhla wool and timber and hard and soft coke in Miranpur.

(g) **Statement VII**—The population of all the seven towns is largely shared by Hindus & Muslims. The highest percentage of Hindus is found in Shamli (76%). It is 67.4% in Muzaffarnagar, 52.9% in Jansath, 52.8% in Khatauli and 49.8% in Miranpur. In the remaining two towns namely Kairana and Kandhla, the position is reversed and Muslims are 59.6% & 51.1% respectively against 38.2% & 44.3% Hindus. Altogether the percentage growth rate of Muslim population of these towns during the last decade is 37.8 which exceeds considerably the growth rate of Hindu population (25.86). The percentage of Scheduled Castes to total population in Jansath is 13.7, highest in the urban stratum. In other towns the percentage of Scheduled Castes is 10.8 in Kairana and Miranpur each, 9.9 in Kandhla, 9.1 in Shamli, 8.9 in Khatauli & 8.2 in Muzaffarnagar. There are 502 persons belonging to Scheduled Tribes living in Muzaffarnagar; 28 in Khatauli & 3 in Shamli.

(B) Village Directory

(a) The villages with reference to their area in acres have been stratified in the following table.

Table 5

Area (in Acres)	No. of villages	Percentage
50 acres or less	5	0.46
51-100	13	1.19
101-200	39	3.59
201-500	268	24.66
501-1000	431	39.65
1001-2000	241	22.17
2001-5000	82	7.54
5001 and above	8	0.74

The above table shows that the number of medium size villages i. e. having an area of more than 200 acres but not more than 1000 acres are highest, claiming the percentage of 64.31. Thereafter the number of villages goes on decreasing *paripassu* as the size of villages increases. There are only 8 villages of very big size having an area of more than 5000 acres. As regards smaller villages there are 5 only having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table :—

Table 6

Distance from the nearest town	Total No. of villages	No. of villages having				
		J. B. S.	S. B. S.	H. S. S.	Colleges	Others
5 Kms. or less	252	101	16	6	—	—
6-10 Kms.	213	146	20	9	—	—
11-15 Kms.	197	123	18	13	—	—
16-25 Kms.	271	241	40	9	1	1
26-50 Kms.	154	57	10	1	—	—
51-100 Kms.	—	—	—	—	—	—
101-200 Kms.	—	—	—	—	—	—
201 Kms. and above		—	—	—	—	—

The above table indicates that most of the institutions exist in the villages situate between 16—25 Kms. from the nearest town. The villages which lie within the distance group of 26-50 Kms. have the least number of institutions presumably because the students in these areas experience difficulty in travelling such long distances for prosecuting their studies. As regards the higher secondary schools only 1 lies within the distance of 26-50 Kms. as against 37 such schools in the villages having distance from the nearest town upto 25 Kms.

(c) 26 villages in district Muzaffarnagar have hospitals. If all kinds of medical institutions including dispensaries, health centres, etc. are taken into account, 65 villages have medical institutions out of the total No. of 1087 villages.

The following table presents the No. of medical institutions per 100 Sq. Kms.

Table 7

Tahsil	Total Area (in Sq. Kms.)	No. of medical institutions of any kind per 100 Sq. Kms.
Muzaffarnagar	1168.55	2
Kairana	1100.89	1
Jansath	1141.80	1
Budhana	734.59	3

The above table reveals that in tahsils Kairana and Jansath there is 1 medical institution per 100 Sq. Kms. Muzaffarnagar and Budhana are slightly better provided having 2 and 3 institutions per 100 Sq. Kms. respectively.

(d) 456 villages are electrified in the district out of the total number of 1,087 villages. Their percentage comes out to 41.95

The largest No. of electrified villages (143) are in tahsil Jansath and minimum in tahsil Muzaffarnagar (104). Power supply in villages with reference to their distance from the nearest town is given in the following table.

Table 8

Distance from the nearest town	Total No. of villages	Number of villages	
		Electrified	Percentage of electrified villages to total villages.
5 Kms. or less	252	93	36.90
6-10	213	106	49.77
11-15	197	78	39.59
16-25	271	152	56.09
26-50	154	27	17.53
51-100	—	—	—
101-200	—	—	—
201 and above	—	—	—
Total	**1,087**	**456**	**41.95**

The percentage of electrified villages to the total villages is highest i. e. 56.09 for villages which are situate at the distance of 16-25 Kms. from the nearest town and the minimum percentage of 17.53 is for those situate at the distance of 26-50 Kms. from the nearest town. It would appear that the percentage of electrified villages to total villages decreases with the increase of distance from the nearest town.

(e) The means of communications within the radius of 1.6 Kms. from the village have been shown in column 8 of the village Directory. As many as 17 villages of the district have other means of communications.

Out of 1,087 villages, 44.8% are connected with Kuchcha Road followed by Pucca Road, 24.74% and 10.85% villages by both Kachcha and Pucca Roads. The nature of communica-

tion has been shown in the following table, where the villages have been classified according to their distance from the nearest town.

Table 9

Distance from the nearest town	Total No. of villages	Number of villages connected by				
		Pucca Road	Kachcha Road	Pucca & Kachcha Road	Pucca Road & River	Others
5 Kms. or less	252	71	35	16	5	4
6-10 Kms.	213	61	71	32	7	5
11-15 Kms.	197	52	73	29	2	5
16-25 Kms.	271	73	192	37	—	3
26-50 Kms.	154	12	116	4	—	—
51-100 Kms.	—	—	—	—	—	—
101-200 Kms.	—	—	—	—	—	—
201 and above Kms.	—	—	—	—	—	—
Total	**1,087**	**269**	**487**	**118**	**14**	**17**

It is evident from the above table that the villages nearest to the town have better facilities of communication. *Per contra* the villages situated at a distance of 16 to 50 Kms. from the towns have no other means of commnication except Kachcha Roads.

(f) There are in all 200 Post Offices in rural areas of the district. On an average, 1 Post Office caters to the need of about 5 villages. The number of post offices per 100 Sq. Kms. in the various tahsils has been shown in the following table :—

Table 10

Tahsil	Total Area in (Sq. Kms.)	No. of Post Offices per 100 Sq. Kms
Muzaffar-nagar	1,168.55	5
Kairana	1,100.89	4
Jansath	1.141.80	4
Budhana	734.59	7
Total	**4,145,83**	**5**

Tahsil Budhana has the highest number of Post Offiices, the average being 7 per 100 Sq. Kms. In the remaining tahsils, the corresponding average is about 5 in tahsil Muzaffarnagar and 4 in Kairana and Jansath each.

(g) Wheat and rice are the staple food in the district.

(h) The cultivated area is 80.28% of the total rural area of the district and out of this, 73.66% is irrigated. The cultivated area having so far no facilities for irrigation is, therefore barely 26.33%.

The following table shows the average cultivated land per village, the villages having been classified according to the distance from the nearest town :

Table 11

Distance from the nearest town	Number of villages	Total cultivated land	Avarage cultivated land per village	Total cultivable waste	Average cultivable waste per village.	Percentage of average cultivable waste per village to average cultivated land per village
5 Kms. or less	252	136,189	540	5,239	21	3.9
6—10 Kms.	213	153,854	722	8,903	42	5.8
11—15 Kms.	197	154,756	786	9,267	47	6.0
16—25 Kms.	271	287,249	1,060	31,955	118	11.1
26—50 Kms.	154	90,437	587	12,544	81	13.8
51—100 Kms.	—	—	—	—	—	—
101—200 Kms.	—	—	—	—	—	—
201 and above.	—	—	—	—	—	—
Total	**1,08 7**	**822,485**	**757**	**67,908**	**62**	**8.2**

The average cultivated area and cultivable waste per village shows an increasing trend as the distance from the nearest town increases up to 25 Kms., but subsequently there is a slight fall. The percentage of cultivable waste to cultivated area is highest in villages within 26-50 Kms. from the towns.
