CENSUS OF INDIA 1971

SERIES 10

MADHYA PRADESH

DISTRICT CENSUS HANDBOOK

PARTS X(A) & X(B)

VILLAGE AND TOWN DIRECTORY
VILLAGE AND TOWN-WISE PRIMARY CENSUS ABSTRACT

MORENA DISTRICT

A. K. PANDYA
OF THE INDIAN ADMINISTRATIVE SERVICE
DIRECTOR OF CENSUS OPERATIONS, MADHYA PRADESH

PUBLISHED BY THE GOVT. OF MADHYA PRADESH
1975

1971 CENSUS PUBLICATIONS, MADHYA PRADESH

(All the Census Publications of this State will bear series No. 10)

PART I (in Sub-Parts)	..	Census General Report including Subsidiary Tables.
PART II-A	..	Census Tables on population
PART II-B (in Sub-Parts)	..	Economic Tables.
PART II-C (in Sub-Parts)	..	Social and Cultural Tables
PART III-A		Establishment Report and Subsidiary Tables.
PART III B		Establishment Tables.
PART IV		Housing Report and Tables.
PART V (in Sub-Parts)		Special Tables & Ethnographic Notes on Scheduled Castes & Scheduled Tribes.
PART VI-A	..	Town Directory.
PART VI-B	..	Special Survey Reports on selected Towns.
PART VI-C	..	Survey Reports on selected Villages
PART VII	..	Special Report on Graduates and Technical Personnel.
PART VIII-A	..	Administration Report--Enumeration.
PART VIII-B	..	Administration Report—Tabulation.
PART IX	..	Census Atlas.
PART IX-A	..	Administrative Atlas.

STATE GOVERNMENT PUBLICATIONS

PART X-A	..	Village and Town Directory
PART X-B	..	Village and Town Primary Census Abstracts
PART X-C	..	Analytical Report and Administrative statements & District Census Tables

(District Census Handbooks are published under Part X in 3 Parts—A, B & C for each of the 43 districts in the State. Parts A and B are published in one volume).

PREFACE

Prior to the 1951 Census, there was no regular separate publication at the district level regarding the data collected, although the seeds of the District Census Handbooks can be traced to the 'Village Lists' brought out for every district in 1901 and 'Village Statistics' of every district published in 1911 and 1941. No definite answer is forthcoming as to why such publications, giving village-wise information of occupied houses, break-up of population into males/females and literates, were not brought out in 1921 and 1931. The reason could be transfer from 1921 of certain charges on Census previously met from the provincial revenues to the Central revenues and the Government of India may not have considered it necessary to publish statistics upto the village level. 'Village Statistics' in 1941 were brought out by the Central Provinces and Berar Government and this practice of bringing out district-wise publications at the cost of the State Government has since been continuing.

2. The scope of the district-wise publications, now called the District Census Handbooks, has been undergoing change with each successive Census from 1951. In 1951, the District Census Handbooks only contained the Primary Census Abstract and the Census tables. In view of the usefulness of separate publication for each district, improvements were made at the time of the 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, education, etc. An 'Introductory Note' was also added to highlight the more striking features. Unfortunately, the desire to make district-wise Census publications very comprehensive resulted in late availability of the books to the users. Therefore, this time the District Census Handbooks have been divided into three parts in order to release maximum data, as and when finalised, so that the publications may have a useful life of about seven to eight years of inter-Censal decennium. Part A will contain Primarily non-Census statistics, Part B the Primary Census Abstract and Part C various administrative statistics with a chapter titled "Introducing the district". It may be mentioned here that subsequently a decision has been taken to merge Parts A and B in one volume on grounds of economy.

3. Much of the delay in the publication of the District Census Handbooks after the 1961 Census was due to delay in collection of administrative statistics and the decision to write the Introductory Note in the head office, Separation of administrative statistics and the decision to write the Introductory and the kind Co-operation of the State Government permitting Collectors of the 1961—71 decade to write the chapter on "Introducing the District", likely to go a long way in early publication of all the parts of the District Census Handbooks. Anotherfavourable factor this time is the early decision of the State Government to permit printing in private presses as and when the work-load on the State Government Presses is heavy and likely to result in delay in the bringing out of the District Census Handbook of any district. It would not be out of place to point out here that the work-load in connection with the District Census Handbooks is very much more this time, not only on account of wider coverage but largely due to the decision to bring out the District Census Handbooks in Hindi as well as English. In all, there will be 172 publications, 4 per district of which 2 will be in Hindi and 2 in English. Advance action was taken this time to collect the non-Census data and it is hoped that the combined volume of Parts A and B of all the 43 districts would be out by the end of 1973 and Part C of all the districts by the middle of 1975. This would be a definite improvement on the 1961 performance when printing of the District Census Handbooks covered the period 1964 to 1967.

4. In his Preface to the 1961 District CensusHandbooks, my predecessor, Shri G. Jagathpathi, had observed thus, "It was not possible at this Census to base all Census statistics on the development block as the unit mainly because in 1961 there were many areas not till then covered by blocks. The coverage had become complete by about the middle of 1963 and it is not unlikely that the 1971 Census will recognise the block as the basic field unit as much for purposes of presentation as for operational purposes.". It has not been possible to adopt the development block as the basic unit for operation and presentation in this Census for more than one reason. Firstly, the office of the Block Development Officer was abolished in December, 1965; its resurrection in the form of office of the Block Development Assistant from 2-10-69 had not taken firm roots up to the time field arrangements for the 1971 Census were finalised. Secondly, the tahsil as a unit of field arrangements has many more advantages, the most significant being the ready availability of that legendary functionary—the patwari—without whose active co-operation it would be a formidable task to determine whether a habited structure in a cultivated field is part of village X or Y. Even, otherwise, since village-wise figures are available, it should not be difficult for those in need of data for intermediate units between the village and the tahsil, like the development block or patwari halka, to compile it by adding figures of concerned villages. The tahsil has for long been a fixed unit of administration and, to my mind, should be retained in preference to the development block whose jurisdiction may undergo a change in accordance with the pace of future development.

5. In conclusion, I would like to place on record my grateful thanks to the Government of Madhya Pradesh for having so kindly agreed to undertake the publication of the Handbooks in hindi as well as english to the various government and semi-government offices for un-hesitatingly making available the non-Census statistics, and to the Controller, Government Press, and his staff for arranging early printing in the Government and private Presses.

BHOPAL:
15th August, 1972.

A. K. PANDYA

VILLAGE AND TOWN DIRECTORY

PART X (A)

EXPLANATORY NOTE

History :

Prior to 1951 there were no separate Census publications for every district. But at the time of preparatory arrangements for the first Census of Independent India, it was felt that Census statistics should be made available for smaller territorial units basic to the needs of an administration wedded to welfare of the masses. Accordingly, the scheme of District Census Handbooks was conceived and implemented. In view of the usefulness of separate publications for each district, further improvement was made at the time of 1961 Census by including non-Census data like climate, agriculture, co-operation, industry, banking, education, health, etc. An introductory note was also added to highlight the more striking features. Unfortunately the desire to make districtwise Census publication very comprehensive resulted in late availability of the books to the users. Therefore, the organisers of the 1971 Centenary Census decided in favour of splitting the District Census Handbooks into three parts and thereby release maximum data, as and when available, so that the publication may have a useful life of seven to eight years of inter-censal decennium.

Scope :

(a) Part A of the book is the Village and Town Directory. The Village Directory contains for each village particulars of amenities available in the field of education, medicine, power supply, drinking water supply, post and telegraph facilities and communications. In addition, data relating to particulars of land use, weekly market, places of religious, historical or archaeological interest in the village has also been included. The Town Directory gives for each town in the district in the form of suitable statements, the origin and status of the town administration, growth of population, functional category of the town, physical aspects and location, latest municipal financial statements, civic and other amenities, medical, educational and cultural facilities, trade, industry, commerce and banking facilities, population by religion, scheduled castes and scheduled tribes. The abbreviations used in the Directory have been explained separately.

(b) Part B contains for each village and town, the primary census data incorporating area, occupied residential houses, number of households, total population and its break-up by sex, scheduled caste and scheduled tribe population, literate population and working population by nine broad categories.

(c) Part C will mainly incorporate the administrative statistics pertaining to the district in all the fields of development. The other Census tables pertaining to the district regarding language, religion, migration, etc., will also be reproduced. There will be a write-up indicating the changes in the socio-economic and demographic characteristics of the district in the last decade.

Village Directory :

This is in the form of one statement. Important statistics for each village have been given under the main head —Amenities and Land Use Data. Other information regarding nearest town with distance, market, staple food and places of religious, historical or archaeological interest have also been given in separate columns. The information regarding "Amenities" cover items like educational and medical institutions, power supply, drinking water, communications and post and telegraph. Under "Land Use", the break-up of the total area of the village has been indicated under sub-heads forest, irrigated, unirrigated, cultivable waste and area not available for cultivation.

(*a*) There are 1,425 villages in the 6 tahsils of the district and the number of villages, tahsilwise, in 1961 and 1971 are as under :—

Sl. No.	Tahsil	1961	1971	Difference
1	2	3	4	5
1	Ambah	152	152	..
2	Morena	180	180	..
3	Joura	245	245	..
4	Sabalgarh	239	239	..
5	Bijeypur	223	223	..
6	Sheopur	385	386	+1
	Total	**1,424**	**1,425**	**+1**

It may be seen that there has been a net increase of one village in the district. The reasons for the difference are as below :—

1. **Ambah Tahsil.**—There is an increase of one village and decrease of one village in the tahsil. Thus there is no difference in the total number of villages in the tahsil :—

(i) The revenue area of Ambah town, has been treated as a separate village in 1971 Census with Location Code No. 1/1/35.

(ii) Village Kumharpura (L.C. No. 1/1/68) of 1961 is included in village Ambah, L.C. No. 1/1/35 of 1971 as its hamlet.

2. **Bijeypur Tahsil.**—(i) Non-Municipal urban area of 1961 of Bijeypur town has been treated as a separate village, Bijeypur Gaon. with L.C. No. 1/5/223 of 1971.

(ii) Village Bartenkapura (Sithaiyapura), L.C. No. 1/5/73 of 1961, has been treated as a hamlet (Sithaiyapura) of village Bijeypur, L.C. No. 1/5/223 of 1971. Thus there is an increase of one village and decrease of one village. Consequently there is no difference in the total number of villages in the tahsil.

3. **Sheopur Tahsil.**—Non-municipal urban area of 1961 of Sheopur town has been treated as a separate village Sheopur with L.C. No. 1/6/145 of 1971 Census.

The distribution of the villages with reference to their area in acres is as shown in the inset table below :—

Area (in acres)	No. of villages
1	2
50 acres or less	3
51—100	6
101—200	26
201—500	204
501—1,000	386
1,001—2,000	399
2,001—5,000	274
5,001 acres and above	126
Area figures not available	—
Total	**1,424***

Village Kheda Sakatpur (L.C. No. 1/3/68) in tahsil Joura has the smallest area of 17.0 acres and is located at a distance of 6.0 kms. from the nearest town, Joura, while village Budhera (L.C. No. 1/6/385) of Sheopur tahsil has the largest area of 29,273.0 acres in the district and is located at a distance of 25.6 kms. from the nearest town, Sheopur.

Out of 1,424 villages (separate area of one village is not available in view of the fact indicated above) 204, 386, 399 & 274 villages are in the area ranges of 201-500, 501-1,000, 1,001-2,000, 2,001-5,000 acres, respectively.

Only 126 villages are in the range of 5,001 and above. Maximum villages in Joura and Sabalgarh tahsils, come within the area range of 501-1,000 acres, and in Ambah, Morena and Sheopur tahsils they come in the area range of 1,001-2,000 acres, while in Bijeypur tahsil they come in area range of 2,001-5,000 acres as will be seen from the following table containing tahsilwise data :—

Area (in acres)	Ambah	Morena	Joura	Sabalgarh	Bijeypur	Sheopur	Total
1	2	3	4	5	6	7	8
50 acres or less	2	..	1	..	..	..	3
51—100	1	..	..	2	2	1	6
101—200	3	2	3	10	2	6	26
201—500	21	19	44	58	18	44	204
501—1,000	34	52	80	84	39	97	386
1,001—2,000	49	73	57	46	56	118	399
2,001—5,000	35	30	46	26	63	74	274
5,001 & above	7	4	14	13	43	45	126
Area figures not available	..	..	..	..	..	..	..
Total	**152**	**180**	**245**	**239**	**223**	**385**	**1,424**

*The area of village Sarari Kalan, L.C.No. 1/6/325 of Sheopur tahsil, has been clubbed with that of village Sarari Khurd, L.C. No. 1/6/324. Separate area of village Sarari Kalan is not available hence there is a difference of one village so far as distribution of villages with reference to area figures is concerned.

(*b*) *Educational facilities.*—The total number of villages having various educational facilities, within various distance ranges from the nearest town are as indicated in the inset table below:—

Distance from nearest town	Total No. of villages	Number of villages having				
		Primary School	Middle School	High or Higher Secondary School	College	Others
1	2	3	4	5	6	7
5 kms. or less	102	70	4	1	..	..
6—10 kms.	210	141	16	4	..	..
11—15 kms.	163	112	15	2	1	..
16—25 kms.	422	252	36	14	..	..
26—50 kms.	372	170	18	3	..	..
51—100 kms.	156	32	1	..	..	..
101—200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Total	**1,425**	**777**	**90**	**24**	**1**	..

Maximum number of villages (422) lie within the distance range of 16-25 kms. and maximum number of villages having educational facilities also lie in this range. The number of educational institutions in the villages of different tahsils is given below:—

Sl. No.	Tahsil	Number of Educational Institutions				
		High or Higher Secondary School	Middle School	Primary School	College	Others
1	2	3	4	5	6	7
1	Ambah	8	32	150	..	..
2	Morena	2	14	144	..	..
3	Joura	9	16	198	1	..
4	Sabalgarh	3	11	138	..	..
5	Bijeypur	1	8	86	..	..
6	Sheopur	2	14	131	..	..
	Total	**25**	**95**	**847**	**1**	..

Thirty two villages have two primary schools each and nine villages have three primary schools each, while three villages have four primary schools. Village Rajaudha with L.C. No. 1/1/128 in Ambah tahsil has as many as twelve primary schools. Three villages have two middle schools each, while village Useth (L.C. No. No. 1/1/139) in Ambah tahsil has three middle schools. Village Porsa with L.C. No. 1/1/136 in Ambah tahsil has two higher secondary schools. The area of these villages with distance from the nearest town are indicated below. It may be interesting to note that village Subhawali, (L.C. No. 1/3/123) in Joura Tahsil, has a college.

S. No	Name of village	Tahsil	L. C. No.	Area of village (in acres)	Distance from the nearest town in kms. with name		Educational Institutions and number (if more than one)

46	Kathon	Bijeypur	1/5/220	2,368.00	Bijeypur 11.2	2	..	..
47	Barauda	Sheopur	1/6/352	7,913.00	Sheopur 22.4	2	2	..
					Total	**115**	**9**	**2**

(*c*) *Medical facilities.*—The availability of medical facilities per 100 sq. kms. and, tahsilwise, is as given in the following inset table:—

Sl.No.	Tahsil	Total area (in sq. kms.)	No. of medical institutions of any kind per 100 sq. kms.
1	2	3	4
1	Ambah	1,035.95	3.2
2	Morena	1,063.23	1.0
3	Joura	1,584.28	0.8
4	Sabalgarh	1,273.83	0.6
5	Bijeypur	2,878.18	0.3
6	Sheopur	3,746.34	0.4

The above table will show that the villages of Ambah tahsil have, comparatively, greater medical facilities per 100 sq. kms. The number of medical institutions, tahsilwise, is as indicated below:—

Sl.No.	Tahsil	No. of Medical Institutions
1	2	3
1	Ambah	38
2	Morena	11
3	*Joura*	12
4	Sabalgarh	8
5	Bijeypur	10
6	Sheopur	11
	Total	**90**

Forty per cent of the medical institutions in the rural areas of the district are in the villages of Ambah tahsil.

(*d*) *Power supply.*— The number of villages having electric power supply within various distance ranges from the nearest town are as indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	No. of villages with electric power supply
1	2	3
5 kms. or less	102	23
6—10 kms.	210	22
11—15 kms.	163	21
16—25 kms.	422	47
26—50 kms.	372	9
51—100 kms.	156	..
101—200 kms.	..	—
201 kms. and above	—	—
Total	**1,425**	**122**

It would be seen that about 9 per cent of the total number of villages have electricity and all of them are in the distance range up to 50 kms. from the nearest town. The number of villages having electric power supply, tahsilwise, is as below:—

Sl. No.	Tahsil	Total No. of villages	Villages having electric power supply	Percentage of villages covered by electricity
1	2	3	4	5
1	Ambah	152	61	40.13
2	Morena	180	32	17.78
3	Joura	245	16	6.53
4	Sabalgarh	239	6	2.51
5	Bijeypur	223	3	1.35
6	Sheopur	386	4	1.04
	Total	**1,425**	**122**	**8.56**

The percentage of villages (about 9) having electric power supply in the district is higher than the State average (about 7). Within the district, villages of Ambah and Morena tahsils have, comparat-

ively, more of this facility, while only 1.04 and 1.35 per cent villages of Sheopur and Bijeypur tahsils, respectively, have electricity.

(*e*) *Communications.*—The total number of villages and the number of villages connected by different types of communication, falling in different distance ranges from the nearest town, are indicated in the inset table below:—

Distance from the nearest town	Total No. of villages	Number of villages connected by				
		Pucca road	Kutcha road	Pucca road & rail	Kutcha road & rail	Others (Rail)
1	2	3	4	5	6	7
5 kms. or less	102	32	30	6	..	..
6—10 kms.	210	42	74	5	..	1
11—15 kms.	163	21	58	2	..	2
16—25 kms.	422	60	102	11	2	5
26—50 kms.	372	53	87	3	1	1
51—100 kms.	156	11	14	..	1	3
101—200 kms.	..	..	..	..	..	..
201 kms. & above	..	..	..	..	..	..
Total	**1,425**	**219**	**365**	**27**	**4**	**12**

About 17 per cent of the villages are served by 'pucca' road. Out of 1,425 villages in the district, 615 villages are served either by 'pucca' or 'kutcha' roads. The number of villages served by 'pucca' roads, tahsilwise, and the total number of villages with percentages covered are as below : —

Sl. No.	Tahsil	Total No. of villages	No. of villages having "pucca" road	Percentage
1	2	3	4	5
1	Ambah	152	30	19.74
2	Morena	180	50	27.78
3	Joura	245	23	9.35
4	Sabalgarh	239	42	17.57
5	Bijeypur	223	28	12.11
6	Sheopur	386	73	18.91
	Total	**1,425**	**246**	**17.26**

Comparatively, Morena, Ambah and Sheopur tahsils have better communication facilities, while Joura tahsil is poor in this facility. Very few villages are connected by railway line.

(*f*) *Posts and telegraphs.*—The total number of villages in the tahsils of the district having post offices, telegraph offices and telephone facility are given below:—

Sl. No.	Name of tahsil	Total No. of villages	No. of villages having post offices	No. of villages having telegraph offices	No. of villages having telephone
1	2	3	4	5	6
1	Ambah	152	39	..	..
2	Morena	180	18	3	1
3	Joura	245	25	1	..
4	Sabalgarh	239	22	2	..
5	Bijeypur	223	13	2	4
6	Sheopur	386	14	2	1
	Total	**1,425**	**131**	**10**	**6**

The number of post offices per 100 sq. kms. area in each tahsil is indicated in the following inset table:—

Sl.No.	Name of tahsil	Total area (in sq. km.)	No. of post offices per 100 sq. km.
1	2	3	4
1	Ambah	1,035.95	3.8
2	Morena	1,063.23	1.7
3	Joura	1,584.28	1.6
4	Sabalgarh	1,273.83	1.7
5	Bijeypur	2,878.18	0.5
6	Sheopur	3,746.34	0.4

Comparatively, rural areas of sheopur tahsil have less postal facility. Only ten villages of the district have telegraph facility, while six villages have telephone

facility. The names and particulars of these villages are as under:—

S. No.	Name of tahsil	Name of village having telegraph office		Name of village having telephone		Remarks
		Name	L.C. No.	Name	L.C. No.	
1	2	3	4	5	6	7
1	Morena	Jaitpur Nurabad	1/2/162	Bichola	1/2/97	
		Piparseva	1/2/164	..	..	
		Bamaur Kalan	1/2/169	..	..	
2	Joura	Subhawali	1/3/123	..	..	
3	Sabalgarh	Tentara	1/4/20	..	..	
		Kailaras	1/4/190	..	..	
4	Bijeypur	Shyampur	1/5/55	Shyampur	1/5/55	
		Birpur	1/5/69	Birpur	1/5/69	
				Chhawar	1/5/59	
				Bijeypur	1/5/223	
5	Sheopur	Hansalpur	1/6/9	Barauda	1/6/352	
		Hirapur	1/6/19	..	..	

(*g*) *Staple food.*—Wheat, 'Jowar' and 'Bajra' constitute staple food in bulk of the villages of the district. Gram is also important staple food in few villages of Joura tahsil.

(*h*) *Land use pattern.*— (i) According to the village papers, about 28 per cent of the area in the district is under forest. The percentage of the forest area, tahsilwise, is as indicated below:—

Sl.No.	Name of tahsil	Percentage of forest area
1	2	3
1	Ambah	4.96
2	Morena	5.93
3	Joura	10.92
4	Sabalgarh	17.29
5	Bijeypur	42.82
6	Sheopur	39.71
	Total	**27.87**

It may be noticed that, comparatively, less forest area is in Ambah and Morena tahsils, while in Bijeypur and Sheopur tahsils the percentage of forest area is quite high.

(ii) The net cropped area in the year 1969 increased by 8.53 per cent as compared to the area in 1960-61. The percentage of area under irrigation to area under crops during the years 1960-61 and 1968-69 comes to 5.24 and 16.20, respectively. The area under irrigation during this period increased by 235.64 per cent.

(iii) The following inset table shows the average percentage of cultivable waste per village in different

distance ranges from the nearest town:—

Distance	No. of villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7
5 kms. or less	102	75,136.00	736.63	13,595.00	133.28	18.09
6—10 kms.	210	164,534.00	783.50	29,608.00	140.99	17.99
11—15 kms.	163	131,404.00	806.16	33,186.00	203.60	25.26
16—25 kms.	422	322,995.00	765.39	96,488.00	228.64	29.87
26—50 kms.	372	203,494.00	547.03	185,774.00	499.39	91.29
51—100 kms.	156	28,245.00	181.06	103,371.00	662.63	365.97
101—200 kms.	..	..	..	..	..	—
201 kms. and above	..	..	..	..	—	—
Total	**1,425**	**925,808.00**	..	**462,022.00**	..	..

Ordinarily, the nearer a village to an urban area, the lesser is the proportion of cultivable waste, but the above inset table will show that there is some deviation only in the distance range 6-10 kms.

In the whole district, 462,022 acres (in round figures) of land has been classified as cultivable waste which constitutes about 16 per cent of the total area of the villages in the district. The percentage of cultivable waste in each tahsil is as indicated below:—

Sl.No.	Name of tahsil	Percentage of cultivable waste
1	2	3
1	Ambah	7.60
2	Morena	9.91
3	Joura	10.26
4	Sabalgarh	11.93
5	Bijeypur	20.66
6	Sheopur	20.52
	Total	**16.08**

It would be seen that, comparatively, the percentage of cultivable waste in Ambah tahsil is less (about 8 per cent), while in Bijeypur and Sheopur tahsils it is quite high (about 21 per cent).

Town Directory :

(a) This is in the form of Seven Statements. But before discussing the information collected in the Seven Statements, it would be better to first understand certain concepts which determines urban areas.

(i) *Definition of town.*—A 'town' in the 1961 Census was either—(i) a Municipality, Cantonment or Corporation; or (ii) a habitation with a population of at least 5,000, with atleast three-fourths of the adult male population engaged in non-agricultural pursuits. Accordingly there were 219 towns in the State. However, seven towns did not satisfy either the minimum population criterion or the one relating to ratio of non-agricultural adult males being 75% or more. But the list already finalised was not changed subsequently; the reason for not disturbing the original list of towns was that as many as 14 habitations

which did not satisfy one or the other of the criteria laid down earlier managed to get included in the list of towns as Municipalities and inclusion of seven more such towns was not supposed to introduce greater demographic distortion than what was already present. In the 1971 Census there was no material change in the concept of town and a list of 247 towns was prepared originally. Three more towns were added in the list due to the fact that two places were declared as municipal and the third fulfilled the necessary criterion to qualify a place as urban and ultimately 250 towns were recognised in the State. All areas which are not towns have been included in the list of villages.

(ii) *Urban Agglomeration*.— The concept of Urban Agglomeration has been adopted for the 1971 Census with the intention to present the population data in the District Census Handbook in respect of urban areas in such a manner that "*de-facto* urban agglomeration" is a recognisable entity, data pertaining to which will be the sum of the data of not only the *de-jure*(within Municipal/other statutory limits) urban area but also of its outgrowths in different directions which are obviously urban in character and form a continuous urban spread. This has been considered necessary so that future comparisons or studies of the particular urban agglomeration is factual and not vitiated by the time differential which exists between the delineation of municipal boundaries and the actual growth of the urban area.

(iii) *Standard Urban Area*.— This new concept has been developed for the 1971 Census and the essentials of a Standard Urban Area are :—

(1) It should have a core town of a minimum population size of 50,000.

(2) The contiguous areas made up of other urban as well as rural administrative units should have close socio-economic links with the core town, and

(3) The probabilities are that this entire area will get fully urbanised in a period of two to three decades. This concept has been developed to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture.

(*b*) *The Seven Statements*.—Very useful data regarding the towns have been given in the statements and they have been collected and compiled from various agencies and official publications. The source and period of the information has been indicated below each Statement. It would not be out of place to mention here that analysis of data collected from diverse sources has its own limitations, mostly due to sketchy and incomplete information. All the same, the data compiled and presented throws sufficient light on the present stage of progress in each town.

(*i*) *Statement No. I*.— This statement presents the basic data relating to population of the towns for each decennium from 1901 to 1971 and the civic administration status in 1970. The civic administration status of the town indicates the authority incharge of its administration. Thus a town could have a Municipal Corporation, a Municipality, a Cantonment Board, a Gram Panchayat, a Notified Area Committee, etc.

(*ii*) *Statement No. II*.—This statement contains information regarding location (longitude/latitude), annual rainfall, temperature, distance from the nearest city with population of 1 lac or more and State, District and Tahsil headquarters. Distances from railway station and bus route have also been indicated.

(*iii*) *Statement No. III*.—The statement contains information regarding receipt and expenditure of local bodies under different main heads indicating the indebtedness and general financial position and expenditure on public utility works. The information has been furnished for the years 1968-69,1969-70 and 1970-71 in order to have an idea whether the concerned urban body is improving financially or not.

(*iv*) *Statement No. IV*.—This statement contains information regarding amenities, *e. g.*, road length, sewerage system, types of latrines, water supply, fire-fighting service, etc. in the different towns.

(*v*) *Statement No. V*.—This statement contains information regarding various important facilities available in the town, *viz.*, medical, educational, recreational and cultural.

(*vi*) *Statement No. VI*.—This statement throws light on the business and credit facilities commanded by the towns and conta ins information regarding trade, commerce, industry and banking.

(*vii*) *Statement No. VII*.—This statement contains data regarding population by religion and Scheduled Castes/Scheduled Tribes with male/female break-up for the year 1971. Tnis is the only statement based on 1971 Census figures.

Towns:

There are 6 tahsils and 6 towns in Morena district as indicated below :—

Sl. No.	Name of tahsil	Name of town	L.C. No.	Class of Town
1	2	3	4	5
1	Ambah	Ambah	1/I	IV
2	Morena	Morena	1/II	III
3	Joura	Joura	1/III	IV
4	Sabalgarh	Sabalgrah	1/IV	V
5	Bijeypur	Bijeypur	1/V	V
6	Sheopur	Sheopur	1/VI	IV

All the tahsil headquarters are towns. Morena is also the headqurater of the district. Sabalgarh and Sheopur continue to be recognised as towns since 1901, while Morena, Bijeypur and Ambah continue as towns since 1911, 1961 and 1931, respectively. Joura was recognised as a town in 1931 but was declassified in 1951. It regained the status of a town in 1961. Four towns have the following outgrowths :—

Sl. No.	Name of Tahsil	Name of city/town forming urban agglomeration	Name(s) of village(s) localities treated as urban outgrowth	Included Wholly/Partly	L.C. No.
1	2	3	4	5	6
1	Joura	Joura	(i) Sankra	Partly	1/3/75
			(ii) Alapur	Partly	1/3/138
2	Sabalgarh	Sabalgarh	(i) Sunhera	Partly	1/4/50
			(ii) Tindoli	Partly	1/4/51
			(iii) Shivlal Ka Pura	Wholly	1/4/85
3	Bijeypur	Bijeypur	(i) Bijeypur Gaon	Wholly	1/5/223
			(ii) Ladpura	Partly	1/5/90
			(iii) Mohanpura	Wholly	1/5/92
4	Sheopur	Sheopur	(i) Sheopur Kalan	Wholly	1/6/145

There is no Standard Urban Area in the district because there is no town having a population of more than 50,000.

Statement I.—(i) The category of town administration in 1970 has been indicated in column 5 of the statement. All the towns have municipality.

The population of the towns have, by and large, shown constant increase in every decade since their continued recognition as towns except as indicated below :—

Sl.No.	Name of town	Decade population		Reduction in population
		Year	Population	
1	2	3	4	5
1	Sheopur	1901	6,712	
		1911	5,531	1,181
2	Sabalgarh	1901	6,039	
		1911	4,985	1,054
		1911	4,985	
		1921	4,424	561
		1921	4,424	
		1931	4,248	176

During the decade 1901-1911 Sheopur and Sabalgarh towns decreased in population due to malaria epidemic and plague of 1908*.

During the decade 1911-21 Sabalgarh town fell in population due to influenza epidemic of 1918-19.**

During the decade 1921-31 Sabalgarh town registered a slight fall in population. This reduction in population may be due to migration within the district.

(ii) Column 14 of the statement shows the functional classification of the towns in 1961 as indicated in the following inset table :—

Functional category	Total number of towns
1	2
Primary activities	1
Primary activities-*cum*-Industry-*cum*-Services	1
Primary activities-*cum*-Trade & Commerce-*cum*-Services	1
Primary activities-*cum*-Service-*cum*-Commerce	1
Industry-*cum*-Services	1
Service-*cum*-Trade & Commerce	1
Total	**6**

The method adopted for the functional classification is elucidated below:—

The nine industrial categories were grouped into the following five functional characteristics:—

(i) Primary Activities (Comprising Category I—Cultivation II—Agricultural Labourer and III—Mining and Quarrying, Fishing, Livestock, Hunting, etc.).

(ii) Industrial (Comprising Category IV—Household Industry, V—Manufacturing other than Household Industry and VI—Construction).

(iii) Commercial (Comprising Category VII—Trade and Commerce).

(iv) Transport (Comprising Category VIII—Transport, Storage and Communications).

(v) Services (Comprising Category IX—Other services).

The percentage of total workers under the above five functional characteristics were calculated for each town and predominant function(s) of each town was/were determined. If one functional characteristic of a town absorbed more than 40 per cent of the total workers the town was designated by that function. In case no single characteristic claimed 40 per cent of the workers, two predominant characteristics together claiming a percentage of 60 or above were taken to represent the town. If these two failed to account for 60 per cent of the total workers, the first three characteristics were taken to represent the town.

Statement II.—The physical and locational aspects as in 1969 have been covered. The district is situated in the north-west corner of the State. In shape it resembles a gourd and is bounded by Rajasthan in the north-west and Uttar Pradesh in north.*** The district have two distict physical features, † *viz.* (i) areas covered with plains. Crisscrossed by rivers, and ravines, (ii) the other covered by the forests. This is one of the very few northern districts of the State which has ravines which provides an ideal shelter for the lawless elements. It may be interesting to quote below from the brief note on decoity at Appendix A in the District Census Hand Book 1961.‡

"Dacoity has been a part of the life in the district. In the region it has had a continuous existence in some form or other. Nature has lent almost a helping hand in shaping this problem which has assumed gigantic proportions. The areas abundant with forest particularly, Bijeypur Sabalgarh, Sheopur and part of Joura tahsils. These extend a safe sanctuary to the lawless elements, inaccessible and a little beyond the reach of the arm of law

Census of India, 1941 Vol. XX page 13.

** *Ibid.*

*** Census of India, 1961, District Census Handbook, Morena District—Page-xxxviii.

† Ibid—Page, xxxvii.

‡ Ibid Page—lv.

Where there are no forests, years of soil erosion of the Chambal and the Kunwari have created large ravines which promise a safe heaven to the dacoits. The ravines are so thick and deep and spread over such undulating surface that even the versatile jeep becomes helpless."

However, much of the fearsome outlook is now gone consequent to mass surrender of dacoits due to efforts of the sarvodaya workers having full backing of the State Government. If the new situation is handled carefully and followed up with suitable development and rehabilitation programmes, it should be possible to bring about a new climate of social transformation in the area.

The district is subjected to extremes of climate. The temperature data of Sheopur town has been indicated for Bijeypur town, while data of Gwalior town has been indicated for the other four towns. The data for these five towns is not available and temperature is more or less similar to the towns, the data concerning which have been substituted.

The towns get annual rainfall of about 710 m.m. to 927 m.m. The range of maximum and minimum temperature of the towns is from 32.5°C to 18.5°C. The temperature data is based on daily average temperature.

All the towns are on bus route. All the towns have railway facility except Ambah and Bijeypur towns, for which Morena and Bijeypur Road (Sabalgarh tahsil) are the nearest rail heads. Gwalior is the nearest city by road from all the towns. The district headquarter town, Morena, is at a distance of 465 Kms. by road from the State headquarter, Bhopal.

Statement III.—On the basis of population in 1971 Census, the towns of the district have been categorised as under :—

S. No.	Name of town	Population	Class of town
1	2	3	4
1	Ambah	10,652	IV
2	Joura	10,007	IV
3	Bijeypur	5,289	V
4	Morena	44,901	III
5	Sheopur	16,418	IV
6	Sabalgarh	9,341	V

The statement would show that the total expenditure is within the total receipts of the local bodies except in the following cases :—

Sl. No.	Name of town	Year of excess expenditure	Total receipt	Total expenditure	Amount by which total expenditure is more than total receipt	Percentage of excess expenditure to total receipt
1	2	3	4	5	6	7
1	Ambah	1969-70	269,400	284,600	15,200	5.64
2	Joura	1968-69	222,400	232,500	10,100	4.54
3	Sheopur	1969-70	537,200	586,700	49,500	9.21
4	Sabalgarh	1969-70	306,600	328,700	22,100	7.21

Column 7 of the above table would show that the percentage of excess expenditure to total receipts of the local bodies of Sheopur and Sabalgarh for the year 1969-67 is noticeably high. This is mainly due to substancial expenditure under the heads connected with public utility works and general administration.

Receipts through taxes etc. have also shown, by and large, an upward trend during these years except in the following cases:—

Sl. No.	Name of town	Year	Extent of shortfall in receipt through taxes, etc.
1	2	3	4
1	Joura	1970-71	2,000
2	Morena	1969-70	123,800

The above table would show that the shortfall in the receipts through taxes etc. of Morena town for the year 1960-70 decreased substantially as compared to the previous years.

The total receipts of the local bodies have, by and large, shown an upward trend except in the following cases :—

Sl.No.	Local body in the town of	Year
1	2	3
1	Sabalgarh	1970-71

Government grants have substantially supplemented the receipts of the local bodies. Loan has been obtained by the local body of Sheopur. The per capita receipt and expenditure under broad heads is as indicated in the inset table below :—

Class of town	No. of towns	Year	Per capita						
			Receipt			Expenditure			
			Total receipt	Receipt through taxes, etc.	Receipt from all other sources	Total expenditure	Expenditure on Public health conveniences	Expenditure on Public Institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9	10
Class I (100,000 & over)		..	..	..	..	..	..	..	..
Class II (50,000—99,999)		..	..	..	..	..	..	..	..
Class III (20,000—49,999)	1	1968—69	17.08	14.75	2.33	13.97	5.08	0.04	8.85
		1969—70	20.01	11.99	8.02	16.60	5.47	0.19	10.94
		1970—71	22.06	12.09	9.97	16.10	4.83	0.16	11.11
Class IV (10,000—19,999)	3	1968—69	22.46	14.10	8.36	19.22	3.29	..	15.93
		1969—70	28.15	18.21	9.94	28.59	4.73	..	23.86
		1970—71	32.68	19.45	13.23	29.11	5.65	..	23.46
Class V (5,000—9,999)	2	1968—69	20.99	13.76	7.23	17.82	5.25	..	12.57
		1969—70	25.58	16.40	9.18	26.86	4.48	0.01	22.37
		1970—71	25.63	18.87	6.76	22.62	4.52	0.01	18.09
Class VI (Below 5,000)		..	..	..	..	..	..	..	..

The above table would show that the total per calita receipt matches fairly well with the total per capita expenditure and in a few cases the total per capita expenditure is higher than the total per capita receipt. The per capita expenditure on public health and conveniences as against per capita receipt through taxes etc. is encouraging. In a good number of cases, the expenditure of the local bodies shown in colum 15 of Statement No. III, under head 'Others', constitutes quite a high percentage of the total expenditure.

Statement IV.—All the towns have electricity. Electric connections have also been given for industrial and commercial purposes. Street lights have been provided in all the towns. Water supply through taps is avilable in all the towns except Bijeypur. Fire-brigade is not available in any of the towns.

Statement V.—(*i*) *Medical facilities.*—Hospital facility is available in Ambah and Morena towns, while other towns have Primary Health Centre. Besides hospital, Morena town has a Family Planning Clinic and a T. B. Clinic.

The number of beds per thousand population is as indicated in the insent table below:—

No. of beds in medical institutions	No. of beds per 1,000 population
1	2
220	2.3

(*ii*) *Educational facilities.*—Sheopur has a combined college, while Ambah and Morena have Arts and Science college. College facility is not available in the remaining towns. Higher Secondary/high Schools are located in all the towns. The number of higher secondary/high schools, middle schools and primary schools per thousand population is as shown in the following inset table. For a more realistic appreciation, the population in the age-group 0-14 has been considered for primary and middle schools, while population in the age-group 15-19 has been considered for higher secondary/high schools.

S. No.	Name of the town	Number per 1,000 population		
		Higher Secondary or High School	Middle School	Primary School
1	2	3	4	5
1	Ambah	3.2	1.3	0.9
2	Bijeypur	1.6	0.6	0.6
3	Joura	2.2	0.8	0.8
4	Morena	1.3	0.5	1.1
5	Sabalgarh	0.2	0.6	0.6
6	Sheopur	1.7	0.7	1.1

(*iii*) *Recreational and Cultural facilities.*—Morena, Sheopur and Sabalgarh have cinema houses. Public library and reading-room facility is available in all the towns, except Bijeypur.

Statement VI.—All the towns have bank facility. Agricultural Credit Societies are available in all the towns except Morena. Non-Agricultural Credit Societies are located at Morena and Sheopur towns. cloth, grocery, sugar, cotton, 'bidi', kerosene, oil seeds, iron-goods and vegetable oil, are the main items of the import in the towns. The main items of export from the towns are 'ghee', oil, mustard, 'bajra', gum, gram, oil-seeds, and jaggery. Oil, 'ghee' and soaps are the important items of local manufacture.

Statement VII.—About 46 per cent of the urban population is in Morena town followed by Sheopur, Ambah, Joura, Sabalgarh and Bijeypur, where the percentage of urban population is about 17, 11, 10(10.36), 10 (9.67) and 5, respectively.

Majority of the urban population follow hindu religion, next come followers of islam religion. In Ambah the followers of jain religion is also substantial (8.90 per cent). Town wise percentage of the population following hindu and islam religions is indicated below :—

Sl. No.	Town	Percentage in round figures	
		Hindu	Islam
1	2	3	4
1	Ambah	82	9
2	Bijeypur	89	11
3	Joura	82	13
4	Morena	86	11
5	Sabalgarh	89	11
6	Sheopur	67	32

Townwise percentage of the population following different religions and percentage of Scheduled Castes and Scheduled Tribes has been indicated below:—

Sl. No.	Name of town	PERCENTAGE								Percentage of Scheduled Castes	Percentage of Scheduled Tribes
		Buddhist	Christian	Hindu	Jain	Islam	Sikh	Others	Religion not stated		
1	2	3	4	5	6	7	8	9	10	11	12
1	Ambah	..	..	81.67	8.90	9.43	..	..	..	17.95	0.01
2	Bijeypur	..	..	88.66	..	11.34	..	..	..	18.74	0.25
3	Joura	..	..	82.33	4.59	13.07	0.01	..	..	11.83	..
4	Morena	0.01	0.04	86.10	2.90	10.79	0.16	..	..	18.94	0.12
5	Sabalgarh	..	..	88.97	0.07	10.87	0.09	..	..	17.13	0.01
6	Sheopur	..	0.01	67.37	0.76	31.85	0.01	..	..	11.83	0.15

The percentage of population following other religions is negligible. The percentage of Scheduled Castes in Joura and Sheopur towns is less (about 12), while in other towns it ranges from about 17 to 19 per cent. There is no Scheduled Tribe population in Joura town, while the percentage in other towns is very insignificant.

L.C. No.	Name of village	Total area of the village (in acres)	Amenities available within the villages

PRIMARY CENSUS ABSTRACT

PART X (B)

EXPLANATORY NOTE

I. General:—In Part A, the picture of the district as revealed by non-Census data has been discussed. In this note, the progress made by the district in the 1961-71 decade has been dealt with on the basis of information collected in the individual slip that was canvassed in the 1971 Census. Broadly speaking, the changes that have come about in the matter of total population, its growth-rate and density, sex-ratio, literacy, scheduled castes and scheduled tribes, working population, occupied residential houses and number of households have been discussed.

II. Population.—The population of Morena district is 985,338 while the population of Madhya Pradesh is 41,654,119. The population of Morena district, thus comes to 2.37 per cent of the State population. The rural population is about 90 per cent of the district population whereas the urban population is 10.45 per cent as against the State percentage of 16.29. In other words, the district is rural in character. Highest percentage of the district population is found in Morena tahsil (20.94 per cent) and one of the reasons for this is that the population of the district headquarter Morena town, is included in Morena tahsil.

Morena district ranks 14th among the 43 districts of the State in population. During the decade 1961-71, the district population growth rate has been 25.79 against the State growth rate of 28.67. The area of the district is 11,586 sq. km. In other words, it has 2.62 per cent of the State area and ranks 11th in area among the districts of the State. The density of population per sq. km. of the district is 85 against the State density of 94 and the district ranks 26th in density in the State. The sex-ratio, number of females per 1,000 males, of the district and the State is 837 and 941, respectively. Tahsil Morena and Joura have got sex-ratio lower than the district sex-ratio, while, the other tahsils have higher sex-ratio than the district sex-ratio.

III. Literacy.—(1) The percentage of literacy in the district comes to about 20 as against the State literacy percentage of about 22. In 1961 also, the literacy percentage of the district (about 15) was lower than the State percentage of 17.13. The district has made some progress to increase the rate of literacy during the decade 1961-71.

(2) The literacy percentage among the males in the district (30) is lower than the State percentage of about 33. Among females also, the literacy percentage in the district (7.07) is lower than the State percentage of about 11.

(3) Among the tahsils, Morena tahsil has the highest literacy percentage of about 24, while Bijeypur tahsil has the lowest percentage of about 13.

(4) The same pattern is seen in male and female literacy in the tahsils. Among males, Morena tahsil is at the top (about 35 percent), while Bijeypur tahsil with about 22.01 percent comes last. Among females also, Morena tahsil leads in literacy (about 11 percent), while Bijeypur tahsil with 3.39 percent comes last.

IV. Workers.—In the district, about 31 percent of the population comes under the category of workers (main activity) against the State percentage of about 37. The percentage of female workers to total femal population (about 5) is much lower than the State percentage (about 19). Within the district, comparatively greater percentage of workers (males and females) have been returned from Bijeypur tahsil. Ambah tahsil has returned the lowest percencentage of workers (28.11). Among female workers, Sabalgarh tahsil with about 12 percent leads other tahsils of the district while Ambah tahsil with 1.20 percent comes last. Among the workers in the district, about 78 and 7 per cent are cultivators and agricultural labourers, respectively as against

the State percentage of about 53 and 27. Under the category "other workers", the district percentage (about 15) is less than the State percentage of 20.58. Among females, the district percentage of cultivators (about 66) and other workers (about 11) is higher than the State percentage of about 41 and 10, respectively, while for agricultural labourers the district percentage (about 23) is less than the State percentage (about 49). Comparatively, highest percentage of cultivators (about 87) has been returned from Joura tahsil, while Sheopur tahsil has returned highest percentage of agricultural labourers about 19. Lowest percentage of cultivators (about 63) and agricultural labourers (about 3) have been returned from Sheopur and Joura tahsils, respectively.

V. Scheduled Caste and Scheduled Tribe.—The percentage of Scheduled Castes to total population of the district (about 21) is higer than the State percentage (about 13). The percentage of Scheduled Tribes to total population of the district (about 5) is much lower than the State percentage (about 20). Highest percentage of Scheduled Castes (22.81) is in Ambah tahsil, while lowest percentage (about 17) is in Sheopur tahsil in the district. As regards population of Scheduled Tribes highest percentage (18.79) has been returned from Sheopur tahsil while lowest with negligible percentage (0.002) is in Ambah tahsil.

VI. Occupied Residential Census Houses.—The district has 135,037 occupied residential Census houses against the State figure of 6,822,767 which comes to 1.98 per cent. During 1961, there were 134,708 occupied residential Census houses in the district against the State figure of 6,230,854 which came to 2.16 percent. There has been very slight change in the percentage during the decade. The number of households and persons per occupied residential Census house in 1961 and 1971 are indicated below:—

State/ District	year	No. of residential Census houses	No. of households	No. of households per occupied residential Census house	No. of person per residential Census house
1	2	3	4	5	6
State	1961	6,230,854	6,615,580	1.06	5.2
Distt.	1961	134,708	142,804	1.06	5.8
State	1971	6,822,767	7,740,289	1.13	6.1
Distt.	1971	135,037	159,003	1.18	7.3

It would thus be seen that the pressure on occupied residential Census houses has increased during the decade in the district as well as in the State. Comparatively, Sheopur tahsil (with about 21 percent) claims the highest percentage of occupied residential Census houses in the district.

VII. Villages and Towns.—There are 1,425 villages in Morena district which comes to 1.85 percent of total villages in the State. The percentage of inhabited villages to total villages in the district is 88 against the State percentage of about 92. There are 250 towns in the State out of which the district claims 6 :—Ambah, Morena, Joura, Bijeypur, Sabalgarh and Sheopur.

Note.—(1) M. = Municipality.
U.A. = Urban Agglomeration.
O. G. = Urban Outgrowth.

(2) **Urban Outgrowth :—**
1 Village Sankra, L.C. No. 75 of tahsil Joura is partly included.
2 Village Alapur, L.C. No. 138 of tahsil Joura is partly included.
3 Village Sunhera, L. C. No. 50 of tahsil Sabalgarh is partly included.
4 Village Tindoli, L. C. No. 51 of tahsil Sabalgarh is partly included.
5 Village Shivlal-Ka-Pura, L.C. No. 85 of tahsil Sabalgarh is wholly included.
6 Village Bijeypur Gaon, L.C. No. 223 of tahsil Bijeypur is wholly included.
7 Village Ladpura, L.C. No. 90 of tahsil Bijeypur is partly included.
8 Village Mohanpura L.C. No. 92 of tahsil Bijeypur is wholly included.
* Village Sheopur Kalan, L.C. No. 145 of tahsil Sheopur is wholly included.

(3) Town treated as such for the first time in 1961 Census which continues as town in 1971 Census is shown with an asterisk (*) on its left.

(4) The total area figure given for the district is provisional 'Geographical Area' as supplied by the Surveyor General of India.

(5) The urban area figures are those supplied by the local bodies.

(6) The rural area of the district has been derived by subtracting the urban area figures supplied by local bodies from the total area figure of the district.

(7) Total area figures of tahsils are according to village papers as supplied by the Director of land Records; Madhya Pradesh.
