ACKNOWLEDGEMENTS

At the 1971 Census it has been our endeavour to compile both Census and non-Census statistics at the Village and Block level in a uniform manner. To ensure that these statistics are available to the users as soon as these are sifted and compiled, the District Census Handbook has been divided into three parts. This is the first part of the series, the Village and Town Directory, which mostly comprises Non-census data.

We are deeply indebted to the State Government for their ever willing and prompt help to us at all stages. The District Census Handbooks are being published by us on their behalf. I wish to express my gratitude to Sri M. Lal, Chief Secretary to U. P. Government, for all the guidance and facilities afforded to us in the conduct of Census in this State. I am also grateful to Sri P. C. Pandey, Secretary, G.A.D. (Now Commissioner, Rohilkhand Division, Bareilly) and his successor, Sri A. P. Dixit, for the facilities given by them in sorting out various administrative matters relating to the publication of these Handbooks. I am extremely thankful to the District Officers for their whole hearted co-operation in furnishing the desired information and the District Census Officers for their hard work and sustained efforts in collecting the same.

The programme for the printing of District Census Handbooks has been heavy indeed, more so as three parts are being published, one in Hindi and two in English. The arrangements made by Sri A. Dar, Superintedent, Printing and Stationery, U. P., Allahabad for the printing of these volumes, are thankfully acknowledged. Joint Superintendent, Sri J. S. Gupta, I/c New Government Press, Aishbagh, Lucknow has also been extremely helpful in bringing out the maps.

In the Census Office, everyone has done something for this stupendous task of compilation and collation of statistics, preparation of notes and reading of proofs. I am grateful to Shri K. S. Sinha, Deputy Director, Headquarters, the Tabulation Officer, and other staff of the Technical Section, who have shared the burden and helped in bringing out these Handbooks.

I must also express my gratitude to Sri A. Chandrasekhar, Registrar General, India, Sri K.D. Ballal, and Dr. B.K. Roy Burman, Deputy Registrars General and Sri K. K. Chakravorty, Central Tabulation Officer for their constant help and guidance despite their own heavy preoccupations.

D. M. SINHA
Director of Census Operations
Uttar Pradesh.

Lucknow
Dated : October 3, 1972.

INTRODUCTORY NOTE

1. History of District Census Handbook.

It has been customary to bring out vital statistics at most of the Censuses. A list showing the population of villages in each district was published after the 1891 Census. Such information was, however, not brought out in 1901. Village Directories were prepared for all districts in 1911, but could be published only for thirteen due to the out break of the First World War. At the 1921 Census, these were published for all districts in the form of District Census Statistics. In 1931 villagewise statistics were compiled but could not be published owing to financial stringency, resulting in loss of valuable data. At the 1941 Census, restricted tabulation was undertaken in the wake of the Second World War, but the utility of Census statistics was recoguised and these were published. The District Census Handbook in its present form was brought out at the 1951 Census, and was published alongwith another volume titled District Population Statistics. In 1961 Census, attempts were made to render the District Census Handbook more informative, as in addition to Census data pertaining to each village, data about its level of development and amenities were also collected. At the 1971 Census, efforts have been made to compile both Census and Non-census statistics at village/town level in a uniform manner with an enlarged scope.

As the District Census Handbook makes Census statistics available for the smaller territorial units, it is constantly referred to for several purposes of administration, demarcation of electoral constituencies, planning and development and so on. To ensure that these statistics are available to the users early, the District Census Handbook has been divided for being published separately into three parts :

Part A : Town and Village Directory.

Part B : Village and Town-wise Primary Census Abstract.

Part C : Analytical Report and Administrative Statements—District Census Tables.

2. Scope of District Census Handbook.

Part A of the Handbook comprises the Town and Village Directory. In Village Directory, particulars of amenities in regard to Education, Medical, Power supply, drinking water supply, Post and Telegraph and Communications have been given. Besides, it contains land-use statistics, days of weekly markets and places of religious, historical or archaeological interest in each village. The Town Directory comprising seven statements throws light on the status of the town, its origin, growth of population, functional category, location and physical aspects, Municipal finances, Civic and other amenities, Medical and Educational facilities and statistics pertaining to Trade, Commerce, Industry and Banking. Apart from these, it also gives the distribution of population of a town by religion and Scheduled Castes/Scheduled Tribes.

Part B represets data down to village level for rural area and block level for towns. It contains the Primary Census Abstract which incorporates figures of area, number of occupied residential houses and households, total population and its break-up by sex,

scheduled caste and scheduled tribe, literate population, working population by nine broad industrial categories of cultivators, agricultural labourers, workers engaged in forestry and live stock etc. in mining and quarrying, in manufacture or repair, in construction, in trade and commerce, in transport and communications and in other services as well as the non-working population.

Part C deals with the administrative statistics pertaining to the district in all fields of development. The Census tables pertaining to language, religion migration and economic activities are being reproduced in this part. A write up indicating changes in socio-economic and demographic characteristics of the district during the last decade is also being included in it.

3. **Town Directory**.—Given in Part A presents data for all the Census towns of the district. There is no uniformly accepted definition of a town. The historical, political, cultural and administrative considerations are generally taken as criteria for rural-urban classification. An urban area, in contradistinction to the rural, comprises a large majority of inhabitants who are engaged in industrial and non-agricultural activities. In addition to its size, population and occupational characteristics, an urban area provides such facilities as transportation, banking, commercial and technical services, community facilities and other civic services. According to the State Government, all Municipal Corporations, Municipal Boards, Cantonment Boards, Notified Areas and Town Areas are considered as towns, and according to their average annual income from their own resources, these have been classified into different classes of local bodies. The Criteria adopted under the Census Operations is slightly different from the State Government. In 1971 Census all places satisfying the following conditions have been treated as Towns :—

1. All Municipal Corporations, Municipal Boards, Cantonments & Notified Areas.
2. All localities though not in themselves local bodies but forming part of a city or town agglomeration.
3. Other places satisfying all the three under mentioned conditions :

   (*i*) Population exceeds 5,000.

   (*ii*) At least 75% of the male working population engages in non-agricultural pursuits, and

   (*iii*) The density of population exceeds 1,000 persons per Sq. mile (386 persons per Sq. km.)

The information given in the Town Directory relates to the year 1969. The data has been presented in the following seven statements :

(a) **Statement I**—This statement presents the population of the towns at the end of each decade from 1901, to 1971, the Civic status of the towns and their functional categories at 1961 and 1971 Censuses. The functional categories given in columns 14 and 15 have been determined on the basis of the predominant functional character of the town, to derive which the working population under the broad industrial categories has been regrouped into five broad functional classifications.

(*i*) Primary Activities—Categories I, II, III & IV

(*ii*) Industry—Categories V (a), V (b) and VI

(*iii*) Trade and Commerce—Category VII

(*iv*) Transport—Category VIII, and

(*v*) Services—Category IX

For each town, the percentage of workers under each of the aforesaid classes to total workers is worked out, and where the workers under one of the classes comprise 40% or more of the total workers, the town is taken as mono-functional. In other cases, the next predominant occupation is taken into account and if the total of the two comes to 60% or above, the town is designated as bifunctional. If the total does not yield 60% the third predominant occupation is also taken and such a town is treated as multi-functional.

The notations used in column 5 of the statement are :

C—Municipal Corporation
M—Municipal Board
NAC—Notified Area Committee
TC—Town Area Committee
CB—Cantonment Board

(b) **Statement II**—This statement gives the physical aspects and location of towns. The annual rainfall, maximum and minimum temperature, nearest City with its distance, name of district and tahsil headquarters, railway stations and bus routes etc. have been indicated. The altitudes of the towns given in column 3 have been supplied by the Surveyor General of India.

(c) **Statement III**—It reveals the Municipal finances for the year 1968-69. The receipts through taxes and other sources alongwith the expenditure on general administration, public works and conveniences have been given therein.

(d) **Statement IV**—In this statement, the Civic and other amenities available in the towns have been shown such as the system of sewerage, drainage, the number of latrines and method of disposal of night soil, the source and capacity of protected water supply, fire fighting service and electrification. The notations used in the statement are as below :

Column 3	PR	For Pucca Road
	KR	For Kachcha Road
Column 4	PT	For Pit Tank
	OSD	For Open surface drain
Column 8	B	For Basket
	HC	For Hand Cart
	HL	For Head Load
	MT	For Mechanical Transport
Column 9	TW	For Tube well
	OHT	For Overhead Tank

(e) **Statement V**—The medical, educational, recreational and cultural facilities available in the towns have been shown in this statement with the help of the following notations :

Column 3	H	For Hospital
	D	For Dispensary
	HC	For Health Centre

	FC	For Family Planning Centre
	TBC	For T.B. Clinic
	MCW	For Maternity and Child Welfare Centre
Column 5	AS	For Arts and Science College
Column 17	PL	For Public Library
	RR	For Reading Room

(f) Statement VI : This statement contains information relating to trade, commerce, industry and banking facilities in the towns. The names of important commodities manufactured, imported and exported, the number of Banks and agricultural as well as non-agricultural credit societies are given in the statement. The commodities mentioned therein are those having the highest value in currency. In a few cases, if the town is famous for manufacturing or exporting some particular item, even though the money value is not high, such items have been included.

(g) **Statement VII**—The census Table C VII giving distribution of population by religion and scheduled castes/schedule tribes has been reproduced in this statement. Where sex-wise following of the more common religions viz. Hinduism, Islam, Buddhism, Jainism, Sikhism and Christianity has been given separately, the persons belonging to other religions and pursuations have been shown in columns 15 and 16 under the heading of 'Others.'

(4) **Village Directory** reveals the general living conditions of peasantry and the over all development that has taken place in the country side. The amenities available within each village in the field of education, medical and health, power-supply, drinking water communications, Post and Telegraph have been given in columns 4 to 9 of this Directory. Besides, the information relating to staple food, distance from nearest town, days of market/hat and places of religious, historical or archaeological interest is also given in the statement. If the village is uninhabited or power is being used for agricultural purposes only, these characteristics have been indicated in the remarks column.

The land use statistics are constantly in demand for Agricultural production programme. These statistics have been given in columns 11 to 15 under the headings (i) Forest, (ii) Irrigated, (iii) Unirrigated, (iv) Cultivable waste and (v) Area not available for cultivation. In column 12, the irrigated area under different sources of irrigation has been separately given.

The villages have been arranged according to the code numbers allotted to them at 1971 Census. The information had been presented with the help of the following abbreviations :

In Column 4

JBS	for Junior Basic School
SBS	for Senior Basic School
HSS	for Higher Secondary School
C	for College
O	for Others

In Column 5

H	for Hospital
D	for Dispensary
FC	for Family Planning Centre
HC	for Health Centre
MCW	for Maternity & Child Welfare Centre
O	for Others

In Column 6

E	for Electricity

In Column 7

T	for Tap
HP	for Hand Pipe
W	for Well
WE	for Well with Electricity
TK	for Tank
R	for River
F	for Fountain
C	for Canal
WF	for Waterfall
L	for Lake
TWE	for Tube-well with Electricity
O	for Others

In Column 8

KR	for Kachcha Road
PR	for Pucca Road
T	for Train
CR	for Canal Road
R	for River
C	for Canal

In Column 9

PO	for Post Office
TO	for Telegraph Office
PTO	for Post and Telegraph Office
Phone	for Telephone

In Column 12

T	for Total
C	for Canal
W	for Well
WE	for Well with Electricity
TW	for Tube-well
TWE	for Tube-well with Electricity
TK	for Tank
R	for River
WF	for Waterfall
L	for Lake
F	for Fountain
O	for Others

In Column 18

T	for Temple
M	for Mosque
C	for Church
G	for Gurudwara
HP	for Historical Place
RP	for Religious Place
A	for Archaeological monument
EA	for Electricity for Agricultural purpose

An appendix has been included summing up the amenities at district level with tahsil wise break up.

THE DISTRICT

A—TOWN DIRECTORY

(a) Statement I—Mathura District has seven towns namely Baldeo, Govardhan, Kosi Kalan, Mathura Cantt., Mathura M. B., Sadabad and Vrindaban. In 1961 there were six towns in the district and Baldeo has now been added to the list. The functional distribution of the towns is as below :

TABLE—1

Functional Category	Name of Towns
1	2
1. Services	Mathura Cantt., Vrindaban and Baldeo
2. Services-*cum*-Industry-*cum*-Commercial	Mathura M. B.
3. Services-*cum*-Primary Activities-*cum*-Commercial	Govardhan
4. Commercial-*cum*-Industry-*cum*-Services	Kosi Kalan
5. Commercial-*cum*-Primary Activities-*cum*-Services	Sadabad

It would be seen from the above table that Mathura Cantt., Vrindaban and Baldeo are mono-functional towns having 91·54 percent, 53·1 percent, and 44·51 percent respectively of the working population belonging to service class.

Four towns *viz.* Mathura M. B., Govardhan, Kosi Kalan and Sadabad are multifunctional towns. In the first two towns, service class comprises 32·81 percent and 26·04 percent of the working population, whereas commercial workers predominate in Kosi Kalan (32·86 percent) and Sadabad (26·10 percent).

(b) Statement II—The physical and locational aspects have been covered in the statement. The figures of annual rainfall and the maximum and minimum temperature were not available with the Director of Meteorological Centre, Delhi, and the information given in Cols. 4—6 relates to the nearest observatory in the adjoining district Agra.

(c) Statement III—The per capita receipt and expenditure by the local bodies in the seven towns is as below :

TABLE—2

Class of Towns	No. of Towns	Per Capita						
		Receipt (Rs.)			Expenditure (Rs.)			
		Total Receipt	Receipt through Taxes etc.	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class I 1,00,000 and above Mathura M. B.	1	22·88	11·25	11·63	25·75	10·81	5·17	9·77
Class III 20,000 to 49,999 Vrindaban.	1	38·33	14·26	24·07	42·50	11·16	0·09	31·25
Class IV 10,000 to 19,999 Kosi Kalan.	1	38·70	18·02	20·68	39·87	10·57	10·22	19·08
Class V 5,000 to 9,999 Mathura Cantt., Baldeo, Govardhan and Sadabad.	4	22·56	1·73	20·83	20·50	8·95	0·45	11·10

The per capita receipt of Class I, III, IV and V towns is Rs. 22·88, 38·33, 38·70 and 22·56, respectively. Against this the per capita expenditure is Rs. 25·75, 42·50, 39·87 and 20·50, respectively.

(d) **Statement IV**—All the towns have protected water supply and road lighting arrangements but fire fighting service is available in Mathura M. B. only. There is arrangement of mechanical transport in Kosi Kalan, Mathura Cantt., Mathura M. B. and Vrindaban for removing the night soil, but hand carts are used in Baldeo and Sadabad. Hand carts and baskets are used for this purpose in Govardhan.

(e) **Statement V**—The highest number(16) of medical institutions comprising 7 Hospitals, 2 dispensaries, 2 Family Planning Centres. 1 T. B. Clinic and 4 Maternity and Child Welfare Centres are functioning in Mathura Urban Agglomeration followed by 8 institutions in Vrindaban comprising 2 Hospitals, 3 Maternity and Child Welfare Centres and 1 Family Planning Centre. Baldeo has 2 Health Centres and 1 Family Planning Centre. Govardhan has 1 Hospital, 1 Health Centre and 1 Family Planning Centre. Sadabad has 1 Health Centre and 1 Family Planning Centre. The number of beds per 1,000 persons has been shown in the following table :—

TABLE—3

Total No. of beds in Medical Institutions	No. of beds per 1,000 population
1179	6 (5·54)

One Degree College with faculty of Science and two Degree Colleges with Arts faculty are located in Mathura M. B. whereas one Degree College with Faculty of Arts is located in each of the towns, Govardhan and Vrindaban. Baldeo, Kosi Kalan, Mathura Cantt. and Sadabad are devoid of such facility. Higher secondary, middle and primary schools are located in all the towns of the district. The following Table gives details of the number of institutions per 1,000 population :—

TABLE—4

Name of Town	No. per 1,000 population		
	Higher Secondary	Middle	Primary
1	2	3	4
1. Baldeo	0·18	1 44	0·36
2. Govardhan	0·21	—	0·42
3. Kosi Kalan	0·16	—	0·84
4. Mathura Cantt.	0·25	—	0·25
5. MathuraM. B.	0·12	0·03	0·58
6. Sadabad	0·11	0·34	0·45
7. Vrindaban	0·17	0·10	0·51
Average	0·14	0·08	0·56

The average number of Higher Secondary, Middle and Primary Schools per 1,000 population in the towns is 0·14, 0·08 and 0·56, respectively.

There are 4 Cinema halls in Mathura Urban Agglomeration and 1 in Kosi Kalan Public libraries are available in all the towns except Baldeo and Govardhan.

(f) **Statement VI**—The most important article manufactured in Baldeo and Sadabad are shoes, whereas Gur, Pulses, printed calenders and Kanthi mala are manufactured in Govardhan, Kosi Kalan, Mathura and Vrindaban, respectively. The most important articles imported in Baldeo, Govardhan, Kosi Kalan, Sadabad and Vrindaban towns are butter, crystal sugar, oil seeds, sugar and cloth respectively. Wheat is imported in Mathura Cantt. and Mathura M. B. and it is exported from the towns Baldeo, Govardhan, Mathura M. B. and Sadabad. Mustard oil and Kanthmala are exported from Kosi Kalan and Vrindaban, respectively.

(g) **Statement VII**—The population of all the towns is largely shared by Hindus and Muslims. Muslims comprise 13·11 per cent. of the urban population as against 85·58 per cent Hindus. The percentage growth of Hindu population of these towns during the last decade is 17·84 which falls short of the growth rate of 26·27 of the Muslim population.

The percentage of scheduled caste persons is higher (9·94 per cent) in comparison to scheduled tribes (0·38 per cent) in all the towns.

B—VILLAGE DIRECTORY

(a) According to their area in acres the villages have been stratified in the following table :—

TABLE—5

Area (in acres)	No. of villages	Percentage
1	2	3
50 acres or less	20	1·98
51—100	30	2·98
101—200	74	7·34
201—500	279	27·69
501—1000	297	29·46
1001—2000	202	20·04
2001—5000	98	9·72
5001 acres and above	8	0·79
Total	1008	

It is evident from the above table that the number of villages having an area of more than 200 acres but not more than 1,000 acres are highest claiming the percentage of 57·15. Thereafter, the number of villages goes on decreasing as the size of villages increases. There are 8 villages having an area exceeding 5,000 acres. As regards smaller villages, there are only 20 having an area of less than 50 acres.

(b) The distribution of villages having educational institutions is given in the following table :—

TABLE—6

Distance from the nearest town (in kms.)	Total No. of villages	No. of villages having				
		Primary Schools	Middle Schools	Higher Secondary Schools	Colleges	Others
1	2	3	4	5	6	7
0—5	119	62	6	3	—	—
6—10	180	130	20	5	—	—
11—15	224	150	15	5	—	—
16—25	287	198	34	8	—	—
26—50	133	73	7	2	—	—
51—100	65	28	6	1	—	—
101—200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—
Total	1008	641	88	24	—	—

The above table shows that the largest number of institutions (86·11 per cent) including Higher Secondary Schools exist in the villages situate between 6 to 10 kilometers from the nearest town. The villages which lie within 51 to 100 kms. have the least no. of institutions (53·85 per cent).

(c) 31 villages in district Mathura have hospitals. If all kinds of medical institutions including dispensaries, health centres etc. are taken into account, 109 villages out of 1,008 have medical institutions.

The following table presents the number of medical institution per 100 sq. kms. :—

TABLE—7

Name of Tahsil	Total area (in sq. kilometers)	No. of medical institution of any kind per 100 sq. kilometers
1	2	3
Mathura	1041·2	3
Sadabad	794·4	4
Chhata	1050·3	2
Mat	857·3	3

It transpires that Tahsils Mathura and Mat each have 3 medical institutions per 100 sq. kms. Sadabad is slightly better off having 4 institutions per 100 sq. kms. There are only 2 institutions per 100 sq. km. in Chhata Tahsil.

(d) 211 villages are electrified in the district out of 1,008 villages. Their percentage comes to 20·93.

The largest number of electrified villages (99) lie in Tahsil Sadabad and minimum in Tahsil Chhata (5). The power supply in villages with reference to their distance from the nearest town is given in the following table :

TABLE—8

Distance from the nearest town	Total No. of villages	Number of villages with Electric Power Supply	
		Electrified	Percentage of total electrified villages to total villages
1	2	3	4
0—5	119	52	43·70
6—10	180	65	36·11
11—15	224	42	18·75
16—25	287	37	12·89
26—50	133	12	9·02
51—100	65	3	4·62
101—200	—	—	—
201 and above	—	—	—
Total	1008	211	20 93

The percentage of electrified villages to the total villages is highest (43·70) for those, situate within a radius of 5 kilometers and the minimum percentage of 4·62 is for those situate at a distance of 51 to 100 kms from the nearest town. It is evident from the above table that the percentage of electrified villages to total villages generally decreases with the increase of distance from the nearest town.

As many as 4·66 per cent villages of the district are connected by rail, out of the total number of villages. 17·16 per cent are connected by pucca road and 3·08 percent by kachcha and pucca roads. The percentage of villages having only kachcha roads is 15·67. The nature of communications have been shown in the following table, where the villages have been classified according to their distance from the nearest town : —

TABLE—9

Distance from the nearest town	Total no. of villages	No. of villages connected by							
		PR	KR	PR & KR	PR & R	KR & R	PR & T	KR & T	Others
1	2	3	4	5	6	7	8	9	10
0—5	119	39	18	11	—	—	7	—	2
6—10	180	36	34	4	—	—	3	—	4
11—15	224	32	50	2	—	—	9	—	18
16—25	287	36	45	11	—	—	25	1	24
26—50	133	23	11	3	—	—	2	—	7
51—100	65	7	2	—	—	—	—	—	4
100—200	—	—	—	—	—	—	—	—	—
201 and above	—	—	—	—	—	—	—	—	—
Total	1008	173	160	31	—	—	46	1	59

It is evident from the above table that the villages nearest to the town have better facilities of communications.

(f) There are in all 151 Post Offices in the rural areas of the district. On an average, 1 post office caters to the need of about 7 villages. The number of Post Offices per 100 sq. kms. in the various tahsils have been shown in the following table :

TABLE—10

Name of Tahsil	Total area (in sq. kilometers)	No. of Post Offices per 100 sq. kilometers
1	2	3
Mathura	1,041·2	3
Sadabad	794·4	5
Chhata	1,050·7	3
Mat	857·3	5

Tahsils Mathura and Chhata have 3 Post Offices per 100 sq. kms., whereas Sadabad and Mat are better off with an average number of 5 Post Offices per 100 sq. kms.

(g) Wheat and rice are the staple food in the district.

(h) The cultivated area is 83·26 per cent of the total rural area of the district, of which 62·93 per cent is irrigated area.

The following table shows the average cultivated land, average cultivable waste and its percentage to average cultivated area per village. The villages in this table have again been classified according to their distance from the nearest town.

TABLE– 11

Distance from the nearest town	Number of villages	Total cultivated land (in acres)	Average cultivated land per village (in acres)	Total cultivable waste (in acres)	Average cultivable waste per village (in acres)	Percentage of average cultivated waste per village to average cultivated land per village
1	2	3	4	5	6	7
0—5	119	77850	554	8789	74	13·36
6—10	180	192052	1065	15620	87	8·15
11—15	224	170257	760	15539	69	9·08
16—25	287	230302	802	19445	68	8·48
26—50	133	72050	542	7119	54	9·96
51—100	65	31918	491	4510	69	14·05
100—200	—	—	—	—	—	—
201 and above	—	—	—	—	—	—
Total	1008	774429	768	71022	70	9·11

The average area of cultivated land per village is highest (1067) in the distance group of 6 to 10 kms., followed by 802 in the distance group of 16 to 25 kms. It is lowest (491) in the distance group 51 to 100 kms. The average cultivable waste per village is 87 in the distance group of 6 to 10 kms. It is 74 per village in the distance group of 5 kms. or less. The average area of cultivable waste per village is lowest (54) in the distance group 26 to 50 kms. The percentage of average cultivable waste to average cultivated land per village is highest (14·05) in the distance group 51 to 100 kms., whereas it is only 8·15 in the case of villages in the distance group 6 to 10 kms.
