A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Punjab bear Volume No. XIII, and are bound separately as follows :—

Part I-A	..	General Report
Part I-B	..	Report on Vital Statistics
Part I-C(i)	..	Subsidiary Tables
Part I-C(ii)		Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B(i)	..	General Economic Tables (Tables B-I to B-IV, B-VIII and B-IX)
Part II-B (ii)	..	General Economic Tables (Tables B-V to B-VII)
Part II-C (i)	..	Social and Cultural Tables
Part II-C (ii)	..	Migration Tables
Part III	..	Household Economic Tables
Part IV-A	..	Report on Housing and Establishments
Part IV-B	..	Tables on Housing and Establishments
Part V-A	..	Special Tables on Scheduled Castes and Scheduled Tribes
Part V-B	..	Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI	..	Village Survey Monographs : 44 in number, each relating to an individual village
Part VII-A	..	Report on Selected Handicrafts
Part VII-B	..	Report and Tables on Fairs and Festivals
Part VIII-A	..	Administrative Report: Enumeration (Not for sale)
Part VIII-B	..	Administrative Report: Tabulation (Not for sale)
Part IX	..	Socio-Economic Atlas

DCH-9	..	Hoshiarpur	DCH-19	..	Mahendragarh
DCH-10	..	Jullundur			

PREFACE

The main reports and statistical volumes pertaining to the 1961-census fall under three broad groups on the basis of territory coverage. The All-India Reports and Tables compiled in the office of the Registrar General, India, encompass the entire country. The reports compiled by the State Superintendents relate to individual States and Centrally Administered Territories. The third group consists of District Census Handbooks the scope of which is limited to individual Districts, and they give information for each town and village. The Handbooks have been compiled by the Superintendent of Census Operations, but are published by the State Government.

The District Census Handbooks were published for the first time at the 1951-census. They proved very useful with the officers working in Community Development Blocks, Tahsils and Districts, and were consulted in connection with elections and by students of social sciences interested in local problems. It was, therefore, decided to continue with this series at the 1961-census. This Handbook contains the essential census data for each village and town (according to wards) in the District. Besides, some very useful information collected from various State Departments has been included in it, trying to make it a self-contained book of reference for the District.

The book is divided into four parts. Part I is mostly descriptive and consists of four chapters. Chapter I introduces the District, giving information on its location, physical features, climate, fauna and flora, towns and places of interest, a brief history of the District and its administrative machinery. In Chapter II are discussed the use of land, main crops and irrigation, industries, trade and commerce, and communications. In Chapter III the salient features of population are discussed. Chapter IV deals with social and developmental activities, and achievements during the First and Second Five-Year Plans.

In Part II are presented the statistics secured from various Government Departments relating to rainfall, temperature, land utilisation, irrigation, area and yield of principal crops, livestock, industry co-operation, education, printing and publishing, entertainments, medical and health, births and deaths, transport and communications, community development activities, banks and insurance, and justice. Then comes a Table on the fairs and festivals in the District.

The Tables relating to the 1961-census are presented in Part III. Part IV contains a Directory of Villages and Towns, showing the location of educational institutions, hospitals and dispensaries, post and telegraph offices, electrification and protected water-supply; area; number of occupied residential houses and households living therein; population; persons belonging to Scheduled Castes and Scheduled Tribes; number of literate and educated persons; number of workers in nine broad industrial categories; and number of non-workers.

The book contains several maps. There is a map of the District showing the administrative boundaries, roads and railways, rivers and canals, and location of towns. Another map shows the distribution of population in the District by dots: the population of towns is shown by proportionate circles; and of rural areas by dots, one dot representing 200 persons. For each Tahsil in the District two types of maps have been prepared, one showing the location of social amenities, and the second showing the boundaries of villages and towns. These maps were prepared in the Cartographic Section in the State Census Office, jointly by Kumaris Ranbir Sokhi and Satwinder H. Singh, both M.As'. in Geography.

This publication is the outcome of the joint efforts of a large number of workers and Government Departments, and grateful acknowledgement is made of the help received from them. Within the Census Organisation mention needs to be made of Shri Jaswant Singh Dilawary, Statistical Assistant and Shri Vishwa Mitter, Supervisor, under the supervision of Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, for preparing the Tables presented in Part II and of Shri Goverdhan Dass Singla, Statistical Assistant and Sarvshri Dharam Paul Jain and Joginder Nath Suri, Tabulation Assistants, under the supervision of Shri Pawan Kumar, Tabulation Officer, for preparing the Tables presented in Parts III and IV.

Shri T. P. Garg, P.C.S., Deputy Superintendent of Census Operations, Punjab, paid a number of visits to the various parts of the Mahendragarh District, and after collecting information by personal observations and discussions with a large number of persons, produced the draft of this Handbook.

My thanks are due also to Shri K. C. Kuriyan, Controller of Printing & Stationery, Punjab, and his Deputy, Shri Tara Chand, for their personal attention in the printing of the book.

R. L. ANAND,

Superintendent of Census Operations,
and Enumeration Commissioner, Punjab.

PART I

INTRODUCTION TO THE DISTRICT

CHAPTER I

INTRODUCTION

Name.—The District takes its name from the town of Mahendragarh once called Kanaud. But the District headquarters are located mainly because of the availability of office accommodation, at Narnaul, which is said to be founded about 900 years ago near the Dhosi hill in the midst of a vast forest and was called 'Nahar Haul' or Lion's dread. Another folk etymology ascribes it to the wife of a Raja Laun Karan. Narnaul, according to this story, is a corrupted form for 'Nar Laun'.

Location and boundaries.—Mahendragarh is one of the four Districts in the Patiala Division, and occupies the southern extremity of the State, jointly with Gurgaon. It lies between 27°-47′-50″ and 28°-48′-50″ north latitude, and 75°-48′-50″ and 76°-28′-00″ east longitude, and lies in the extreme south of the State. Bounded by Hissar and Rohtak Districts in the north, Gurgaon in the east, Alwar District of Rajasthan in the south and Jhunjhunu District of Rajasthan in the west; the District is some 60 miles south-west of Delhi.

*Area**.—The area of the District, according to the Surveyor General of India is 1343.00 sq. miles and according to the Director of Land Records, Punjab 1341.4 sq. miles. The District ranks fifteenth in area among the 19 Districts of Punjab. The area of its three Tahsils, according to the village papers is given below :—

Tahsil	Total	Rural	Urban
Dadri	572·9	564·4	8·5
Mahendragarh	400·8	396·1	4·7
Narnaul	367·7	365·0	2·7

PHYSICAL FEATURES

The hill ranges are a marked feature of the District; they are part of the great Aravali chain. They provide natural meadows for animals and also contain a number of rich minerals. The Dhosi hill touches a height of about 2,100 feet above the sea-level. This hill is a sacred place for pilgrimage. It is believed that the 'Pandvas', while wandering in banishment, had to scale this hillock. At present it is known for a well, called *Chander Koop* whose water is considered to be sacred. The hill presents pleasant scenery in the rainy season and is a spot for picnic. A fair is held here on *Somavati Amavas*.

The level land abounds in sand and dunes, particularly in Mahendragarh Tahsil. The loam of the District may be divided into hard, light and sandy. The first of these is termed as *Dakar*, the second *Rausli* and the third *Bhur*. The *Dakar* being hard, requires much ploughing and good rain; while the *Rausli* needs little ploughing and readily retains moisture. *Rausli* is the best soil for *barani* cultivation. *Bhur* is very poor land but it requires little ploughing as the sub-soil retains whatever moisture it receives. Sometimes it produces a fine crop, the heavy rainfall is prejudicial to it.

The *Dakar* is mostly found in the Dadri tract and the *Rausli* towards the west of the road running from Dadri to Narnaul and it changes into sandy loam near the hills. The *Bhur* is found all over the District yet it is more common in Mahendragarh Tahsil. At many places the soil is bedded with lime, *kankar*, stone and rock and the depth varies from 0 to 250 feet, *e.g.* in Satnali area where the water table is below 200 feet, the rocky bed depth is below 250 feet.

The desert from Rajasthan is advancing into the District at a rate of about half a mile per year and to prevent this alarming loss the State Government is pursuing a 'Green Belt Scheme'. The land is generally fertile, but due to the absence of irrigation facilities and scanty rainfall the yield of crops is low as compared with other Districts. The soil contains a good deal of calcium and consequently there is a tendency for its becoming alkaline. It is generally poor in organic matter and requires fairly heavy doses of manure for improving its fertility but heavy manuring is not possible without abundant water-supply which is not to be had unless irrigation facilities are extended to this District.

*Table A-I (Part III)

River system.—There is no perennial river in the District. There are, however, a few small streams and channels which flow only during the monsoon. The Dohan and Krishnawati are important among them. The former originates from the Jaipur hill and flows in Rajasthan territory for some 18 miles before entering the District. Its course in Punjab runs for 30 miles and thereafter it finishes in the plains of the Mahendragarh Tahsil. It has a defined waterway up to village Bhur Jat but thereafter it just spreads out in the fields. The Krishnawati also originates from the Jaipur hills. It enters Narnaul Tahsil near the villages Bhedenti and Dostpur, some 16 miles south of Narnaul town. After a course of about 30 miles, it fans out near the villages Nooni Kalan, Saluni and Dublana in Narnaul Tahsil. The soil in the river basin is sandy loam with varying percentage of sand. Besides, there are a few small seasonal streams such as the Dhani Cheema Wali *nadi*, Sarai Panchnoota, Mosnuta and Meghot Binja *nadi*, Ganwari Jat stream, Nangal Durgu, Kalba, Atela Kalan (in Dadri Tahsil) and the Kheri Bura (in Dadri Tahsil). These streams take off mostly from the local hills and traverse through the lands of the villages after which they have been named.

Geology.—The District has various minerals. The major minerals which are controlled by the Industries Department and the minor minerals which are controlled by the Collector. The major minerals are as follows:—

Mineral	Area of quarry (acres)	Villages where found
Iron ore	325	Dancholi, Dhanota
-do-	58	Chhapra Bibipur
Calcite	245	Rasulpur
-do-	11	Narnaul
Slate stone	680	Behali, Bas (Kanti) Rampura, Nawdi
Marble stone	N.A.	Antri, Beharipur, Mosampur, Dancholi, Dhanota, Jainpur
Lime-stone, Dolomite Calcite	115	Chhapra Bibipur, Kalba, Nayan, Bnehari, Bhedenti, Niaz Alipur, Nangal Durgu, Bhankri, Totaheri, Nangal Kalia
-do-	11	Dhani Bathotha
Quartz	120	Bakreeja, Ghatasher, Islampura
Glass	N.A.	Atela

The quarries, where these minerals are found are leased out by the Director of Industries, Punjab.

Bajri, building stone, marble, slate stone, *kankar* lime-stone are among the minor minerals remained under the control of the Director of Industries till 1959, when they were transferred to the *Panchayats*. Control over their extraction was made over to the Collector in 1961-62. He issues the terms for the specified amount of minerals to be extracted from the quarries, and the royalty and compensation are charged at fixed rates. The royalty varies from Rs. 3.12 P. per 100 cft. on lime-stone (burning) and *bajri* to 0.50 P. on building stone. The compensation is half this amount. The minerals are located as shown below :—

Mineral	Villages where available	No. of villages
Bajri	Mosnuta, Nangal Pipa, Nangal Kalia, Shabazpur, Dantal, Lajota, Nangal Chaudhri, Akbarpur Serohi, Antri, Beharipur, Mosampur, Jainpur, Dhani Bathotha, Totaheri, Selarpur, Shahpur I, Kodinja, Deroli Ahir, Khatoti, Sultanpur, Hamidpur, Khorma, Nangal Kalia, Gelhi, Mahrampur, Bhankri, Amarpur Jorasi, Narnaul	29

Mineral	Villages where available	No. of villages
Building stone	Nizampur, Mourund, Gothri, Panchnota, Nangal Durgu, Gangutana, Chhapra, Bibipur, Kamania, Meghot Hala, Meghot Binja, Shabazpur, Dantal Lajota, Kalba, Karota, Antri, Beharipur, Mosampur, Jainpur, Azambad, Mokhuta, Bayal, Said Alipur, Thanwas, Nayan, Dholera, Khuwazpur, Sareli, Roopur Saria, Ganwari Jat, Islampura, Khatoli Jat, Khatoli-Ahir, Niaz Alipur, Shahpur I, Tajipur, Deroli Ahir, Nasibpur, Nooni Awal, Nangtihari, Ganiyar, Bajar, Khaspur, Shahpur II, Rampura, Nawdi, Rughnathpura, Thana, Bhankri, Dochana, Badopur, Mukandpura, Maloli, Taloth, Amarpur Jarosi, Rambas, Ghatasher, Bashirpur, Nizampur, Chhilro, Pavern, Faizabad, Siehor, Lahroda, Mandlana, Selang, Nangal Mela, Rambas, Mayen Kalan, Mayen Khurd, Unhani, Chandeni, Kadma, Atela Kalan, Seeswala, Badal, Gudana, Tewala, Todi, Pichopa Kalan, Bilawal, Jhanjhar, Jhojhu Kalan, Kalali, Kalyana, Ramalwas, Pandwan, Assawari, Kheri Battor, Mankawas, Balali, Mori, Kapur	94
Marble	Islampura	1
Slab-stone	Gowala, Donkhora, Panchnota, Mosnuta, Begopur, Berundla, Khuwazpur, Sareli, Roopur Saria, Ganwari Jat, Islampura, Khatoli Jat, Khatoli Ahir, Ganiyar, Bajar, Nawdi, Kalyana	18
Kankar	Antri, Mosampur, Beharipur, Jainpur, Begopur, Berundla, Dhani Bathotha, Dholera, Khuwazpur, Shahpur I, Kodinja, Deroli Ahir, Hamidpur, Momanpur, Bhankri, Dochana, Kirarod Afghanan, Khatodra	18
Lime-stone	Dhani Bathotha, Dochana, Mosnuta, Sareli, Bhankri	5

The amount realised as royalty and compensation on account of the extraction of major minerals was Rs. 46,550 and for minor minerals it was Rs. 26,901 during 1961-62.

Some of the minerals are of very high quality. It will thus be seen that besides the scope for improving agriculture, the District has large industrial potentialities. Till now all the minerals that are extracted are, however, sent out of the District in raw form since there is no big establishment here to process them.

CLIMATE

The climate is hot and dry in summer and dry and cold during winter. The severity of the weather is increased by the sandy soil and shortage of water. Being very near the Rajasthan desert, the District gets frequent dust-storms during summer. It is only during the cold months that the climate is good and atmosphere is free from dust. From March onwards the day temperature starts rising and in the month of May and June it becomes very hot. By the end of July the monsoon clouds appear on the horizon. On the whole, the climate is dry and healthy. For hours before a storm there is a lull and it becomes very close, dust particles hang in the air ; and after some time the storm breaks suddenly and the dust spreads all over. Sometimes a dust-storm is followed by light shower which brings down the temperature. But soon after the mercury begins to rise and the atmosphere is again worked up for another storm. Thus, storm follows storm almost at equal intervals all through the summer months, except when an occasional shower settles it down. Fortunately the District is never frequented by disastrous cyclones or hurricanes. Even the worst storm does nothing beyond felling a few trees or blowing up the roofs of some thatched huts.

Rainfall.—Being situated at the tail end of both the Bay of Bengal and the Arabian Sea currents of the monsoon, the District gets very little rain. The Table I* of Part II contains monthwise figures of number of rainy days and amount of fall during 1951 to 1960 for the three Tahsil headquarters towns. The decennial average figures are given below.

Town	Average annual rainfall (cms.)
Dadri	54·1
Mahendragarh	53·6
Narnaul	52.3

There is practically no rain during May and June. The rainfall during December, January and February is sometimes negligible. The little fall during the cold months is very much welcomed since it is good for the *rabi* crops. A characteristic of the local rainfall is its extreme partiality. Heavy rain is often received at one place,

*Page 38

while a mile away, a drop does not fall. A very big portion of the annual rains occurs during July to September. Consequently the *kharif* crop is the main stay of the farmers and the *rabi* harvest on unirrigated lands is a big gamble. Should the rains fail during the monsoon, scarcity conditions prevail, accompanied by acute shortage of fodder.

In an ideal year from agricultural point of view the monsoon commences by the middle of June. The first showers should not be heavy lest the seed in sandy lands is washed out. Mild showers alternating with sunshine are required in July and August. Continuous clouds and rain during these months causes the crops to mildew and hamper weeding, while poor rains and strong westerly wind dry up the crops. The first half of September is a critical period as on the rains during this period depends the ripening of the *kharif* and the sowing of the *rabi*. The success of the *rabi* crop depends on adequate showers spread from mid-September to mid-January. A shower in the last half of February is also beneficial but after this the rain is not good as there is always the danger of hail falling, which may ruin the standing *rabi* crops.

Statistics regarding temperature are not forthcoming as the Meteorological Department does not record temperature at any place in the District.

Fauna.—In the hills various kinds of deer are occasionally found whereas in the plains there are the black buck, and *neelgai* (Blue Bull). Other common wild animals are the wild cat, the fox, the jackal and the mongoose (*niola*). The hare is very plentiful. The birds of a great variety are found in all parts of the District and include the peacock, partridge, quail, pigeon and snipe. Cobra and karait are found throughout the District.

Flora.—The District is inadequately wooded, and some parts are practically bare of trees. The *kikar* (Acacia Arabica) is found all over the District, as also *beri* (Zizyphus Nummularia). The *beri* is a multipurpose plant : its leaves are lopped and fed to cattle, its fruit is eaten and its thorny branches are used for the fence or as fuel while its root is a tanning material. *Neem* (Melia Agadirachta) is seen in and around the villages. *Pipal* (Ficus Religiosa) is a common tree for shade. *Shisham* (Dilbergia Sissoo) is planted along roads and railway lines.

*History**.—The old history of the District is little better than the local legends. The Narnaul town and its surrounding villages are said to have their origin in the days of Raja Anangpal, a ruler of Ajmer and the grandfather of Prithvi Raj Chauhan. He ruled over this area through his cousin Raja Laun Karan, who had his seat on the top of Dhosi hill where he built a fort, the remains of which are still to be seen. Other parts of the District came into being during the Moghul times and thereafter. After having been ruled by the Moghuls and then for some time by the Marathas, the *Nawab* of Jhajjar, and the British as part of the Hissar District the District was finally parceled out among the Phulkian States of Patiala, Nabha and Jind, by the British Government in recognition of the services rendered by these rulers in the uprising of 1857.

The Land Settlement Commissioner, Mr. Popham Young writes in his Settlement Report prepared in 1901, "Baba Ala Singh, the founder of the Patiala *raj* could never have dreamt of the time when the fruits of the labour of Narnaul *zamindars* would help to fill the Patiala treasury. The association of the Narnaul and the adjoining tracts with the three Phulkian States was directly due to the incidents of 1857. It was as a result of the splendid services rendered to the British Government by the chiefs of the Sikh Cis-Sutlej States that the Narnaul, Dadri and Kanti-Bawal *ilaqas* have crystallised as integral parts of the three States of Patiala, Jind and Nabha". The subsequent history of the District is more or less the history of the rulers of the erstwhile Phulkian States.

After Independence and the consequent formation of the PEPSU in 1948, the three tracts of Narnaul and Mahendragarh from Patiala, Dadri from Jind and Ateli (part of the Bawal *Nizamat*) from Nabha, were combined into the present District of Mahendragarh. With the States' Reorganisation Scheme, the entire State of PEPSU was merged into Punjab on 1st November, 1956 and consequently the District is now one of the 19 Districts of Punjab.

TOWNS AND PLACES OF INTEREST

Charkhi Dadri [Area 8.50 sq. miles : Pop. (1961) 13,839].—The town of Dadri, a Tahsil headquarters lies 87 miles south-west of Delhi, and has a railway station on the Rewari-Bhatinda section. It has a Municipal Committee of Class II.

The town is of great antiquity. The name Dadri is derived from a *Jhil* called Dadri (dadiar means frog) which adjoins it. Formerly it was in the possession of *Nawab* Bahadur Jang, a relative of the Jhajjar *Nawab*. In 1857, his estate was confiscated and conferred upon Raja Sarup Singh as a reward. The tank of Soma-Ishwara, built by L. Sita Ram, a treasurer of Mohammad Shah, an Emperor of Delhi, with stone quays (*ghats*), towers and temples, the *Nawab's* court, the Tahsil and the police station are the old buildings in the town. The town is important because of the Dalmia Cement Factory established in 1938, which has a capital investment of over Rs. 2 crores and employs nearly 700 workers. Its capacity is 750 tonnes per day. The raw material for cement is obtained from the *kankar* quarries of villages Loharwal, Kalia-ka-Bas and Bhagvi. The town has a big *mandi* where the local produce is marketed.

*The Punjab Gazetteer of Phulkian States, 1904.

Mahendragarh [Area 3.75 sq. miles : Pop. (1961) 9,071].—The town of Mahendragarh was once called Kanaud. It is the headquarters of a Sub-Division and lies 25 miles from Charkhi Dadri and 16 miles from the District headquarters. The town has a Municipal Committee of Class III.

According to the Punjab Gazetteer of Phulkian States of 1904, the town was founded by Malik Mahdud Khan, a servant of Babar and was inhabited, in the beginning, by the Brahmans of Kanaudia group. It remained a *pargana* of the Government of Narnaul under the Moghul Emperors, but later on it was conquered by a Thakur of Jaipur, who in turn was expelled by Nawab Najaf Quli Khan, the great minister of the Delhi Court under Shah Alam. On his death his widow maintained her independence in the fortress, but in 1792 the Scindia General De-Boigne sent a force against her. She was killed in the battle which ensued under the walls of Kanaud. Mahendragarh then became the principal stronghold of Appa Khande Rao, Scindia Feudatory who held the Rewari territory. It eventually became a possession of the British by whom it was granted to the Nawab of Jhajjar. By a *Sanad* of 1861, the *pargana* of Mahendragarh was granted, by the British Government, to Maharaja Narinder Singh. The fort of Mahendragarh is said to have been built by the Marathas.

The town will soon have an industrial estate and an Industrial school for girls. It is electrified, and in 1963 was benefited by the drinking water-supply scheme. An Industrial Training Institute for boys has already started functioning.

Narnaul [Area 2.50 sq. miles : Pop. (1961) 23,959].—The town of Narnaul is the administrative headquarters of the District. It lies about 100 miles south-west of Delhi and is connected with it both by rail and road. The town is of great antiquity. The Punjab Gazetteer of Phulkian States, 1904, gives the following account of Narnaul, "Founded according to tradition 900 years ago near the Dhosi hills in the midst of a vast forest, it was called the 'Nahar Haul' or the 'Lion's dread'. Another account gives its foundation to Raja Laun after whose wife, Nar Laun is named. After Laun Karan's time, it fell into the hands of the Muslims. In the Dig Vijay of Saihdeo (Sabha Parb of the Mahabharata) it is said that Saihdeo marched southwards from Delhi to the Chambal river, after conquering Narrashtra or Narnaul. Narnaul is mentioned by Muslim historians as having been given by Altmash in fief to his Malik Saif-ud-Din, afterwards a Feudatory of Sunam. In his *Ghurrat-ul-Kamal*, Amir Khusro mentions it as under Malik Kutlaghtagin Azam, Mubarak, Amir of Narnaul under Feroze Shah Khilji. In 1441 (689 H) it was held by Iklim Khan and Bahadur Nahir and plundered by Khizr Khan on his expedition into the turbulent Mewat. Ibrahim Khan, grand father of Sher Shah, entered the service of Jamal Khan, Sarang-Khani of Hisar-Firoza, who bestowed on him several villages in *pargana* of Narnaul for the maintenance of 40 horses, and at Narnaul Ibrahim Khan died. His tomb is still shown in the town, which claims to be Sher Shah's birth-place. Sher Shah's vassal Haji Shah was expelled from Narnaul by the redoubtable Tardi Beg on Humayun's restoration ; and, in the reign of Akbar, Shah Quli Mahram adorned the town with buildings and large tanks. Narnaul was the centre of Abu-Ma' Ali's revolt under Akbar. Under Alamgir in 1672 occurred a serious revolt of a body called themselves the *Satnamis* or *Mundihs*, inhabitants of Mewat, who considered themselves immortal, 70 lives being promised to every one who fell in action.

A body of about 5,000 collected near Narnaul and plundered cities and Districts. Tahir Khan Faujdar, at first unable to withstand them deputed a force under several of his officers and the rising was suppressed with great slaughter and the Hindus called it the 'Mahabharat' on account of the number of elephants killed in the campaign. The *Muntkhab-ul-Lubab* states that the *Satnamis* got possession of Narnaul, killed the Faujdar and organised a rude administration. The royal army was sent against Raja Ajit Singh who had revolted and taken possession of Ajmer, Sambhal and Narnaul, but he abandoned the latter place on the advance of the army. Under Ahmad Shah, Itmad-ud-Daula obtained the *subahadari* of Ajmer and the Faujdar of Narnaul vice Sa'adat Khan deposed, with the title of Imam-ul-Mulk Khan-Khanan. On the break of the Moghul dynasty, Narnaul became an appanage of Jaipur and in 1793—97, Narnaul and Kanaud were taken by De-Boigne and given to Murtaza Khan Bharaich. In reward for his services in the Mutiny Maharaja Narinder Singh was granted the *ilaqa* of Narnaul of the annual value of Rs. 200,000 with all the accompanying sovereign rights."

The town is a centre for the local trade in the country produce. It lies on high ground and the houses are almost entirely built of stone. Its lanes are steep and narrow but paved with cabbled stone. Its climate, though hot and dry, is healthy. The town used to boast of a considerable trade in painted bed-legs, *jajams*, sarotas, embroidered shoes, brass *hookas* (hubble-bubble), silver-buttons and *chunries* (women's headscarf). *raths* and majholis also used to be made. But with the passage of time these have become almost extinct. At present a large number of houses previously belonging to the Muslims who migrated to the West Pakistan in the wake of partition are lying unoccupied and delapidating since many Hindus have not been attracted to the town for want of means of occupation and scarcity of drinking water.

Narnaul has many important buildings including a large *sarai* constructed by Rai Mukand and Rai Kaith during the reign of Shah Jahan. Presently the District courts and some other offices are housed in it. The other old buildings are the Khan Sarwar tank, Chhatta of Rai Mukand Rai, Chor Gumbaz, Shobha Sagar *talab*, etc. On the Dhosi hill is the famous *Chander Koop* sacred to Chavan *Rishi* whom the Hindus worship and where a fair is also held on *Somavati Amavas* day.

The town has the privilege of having the only college in the District. Besides other educational institutions, one girls high school caters to the needs of women education. The town has a Municipal Committee of Class II.

ADMINISTRATION

For general administration, Punjab is divided into three Commissioners' Divisions and further into 19 Districts. Mahendragarh is one of the four Districts under the administrative control of the Commissioner, Patiala Division subject to overall control of the State Government. The District is in the overall charge of a Deputy Commissioner.

Deputy Commissioner and his Assistants.—The District administration is vested in the Deputy Commissioner who has multifarious duties. As District Magistrate he is responsible for maintaining law and order and is the head of the District police and prosecuting agency. As Collector, he is incharge of the revenue administration and is responsible for the collection of land revenue and other Government dues. He is the Registrar of all transactions of immovable property. As Deputy Commissioner, he is the executive head of the District, co-ordinating the activities of the various departments, executing the developmental schemes and looking after the emergent situations, such as floods and locusts attacks. He supervises the functioning of Municipal Committees, Market Committees, Community Development Blocks, *Panchayat Samitis* and the *Zila Parishad.* He is responsible for the execution of development and planning schemes in the District, and as Chairman of the Standing Committee of General Administration and Development, he co-ordinates the activities of the various development departments. He has to keep his fingers on the pulse of the people and to refer such of their grievances to Government as he himself cannot redress.

In these multifarious duties the Deputy Commissioner is assisted by a number of Assistant Commissioners and Extra Assistant Commissioners at the District headquarters and at the Sub-Division and Tahsil level. The Revenue Assistant assists him in revenue work, and attends to the revenue work not so far transferred to the Sub-Division, and supervises the maintenance of land records and land revenue accounts at the District level. He controls the Revenue Establishment and is incharge of the famine relief work and anti-locust measures. The General Assistant assists the Deputy Commissioner in administrative functions. He controls the various branches in the office of the Deputy Commissioner and is also incharge of the Red Cross and elections. The District Development and Panchayat Officer (D.D. & P.O.) looks after the work relating to Community Development, Municipal and Market Committees and the *Panchayats.*

One revenue trained Extra Assistant Commissioner works as Settlement Officer for the consolidation of holdings, with headquarters at Narnaul. For consolidation work he is responsible to the Director of Consolidation of Holdings, but the Deputy Commissioner exercises general administrative control over him.

Sub-Divisions and Tahsils.—There are three Tahsils in the District : Dadri, Mahendragarh and Narnaul. In pursuance of the Government policy of decentralising authority and converting Tahsils into Sub-Divisions, a Sub-Divisional Officer (Civil) has been posted at Mahendragarh, and similar officers will be posted shortly at Narnaul and Dadri. The Sub-Divisional Officer is either an Assistant or an Extra Assistant Commissioner and exercises control over the Tahsildar and Naib-Tahsildar. He has been vested with first class magisterial powers. His powers vis-a-vis the Sub-Division are analogous to those of the Deputy Commissioner vis-a-vis the District, though he exercises them in consultation with and without detriment to the authority of the Deputy Commissioner. This decentralisation has been effected in order to enable the Deputy Commissioner to devote more time for development work.

The Tahsildars and Naib-Tahsildars are vested with Class II and Class III magisterial powers respectively, and on the revenue side they are II grade Assistant Collectors. Their main task being the collection of revenue, they have to tour extensively, but at the same time they play an important part in accelerating the execution of various development schemes, and are utilised to the maximum during the times of emergency. They are assisted in revenue work by an office *Kanungo* and a number of field *Kanungoes* and *Patwaris.*

For the purposes of assisting the various revenue agencies, a number of *Kanungoes* have been provided. The preparation of annual village records and revenue statistics rests with the *Patwaris* and for this purpose the District is divided into *patwar* circles, each circle being looked after by a *Patwari.*

The *Lambardar* collects the land revenue from the landowners and deposits it in the Tahsil Sub-Treasury. He is an important link in the administration, since he promotes law and order in his village and sends information regarding breach of law and births and deaths to the nearest police station. A *Chaukidar* is appointed to assist him. The *Patwari* and *Chaukidar* receive monthly salaries while the office of the *Lambardar* is hereditary and carries an emolument of 5 per cent of the land revenue collections.

Judiciary.—Separation of the judiciary from the executive has been effected in the District. The administration of justice, on both the civil and criminal sides, is headed by the District and Sessions Judge, Sangrur, who is assisted by a whole-time Senior Sub Judge-cum-Additional District Magistrate at Narnaul. He also exercises summary powers and also has some police stations under his direct control like other magistrates. There are two Sub Judges-cum-First Class Magistrates at Mahendragarh and Dadri. Government cases for the civil and criminal courts are presented by the Prosecuting Inspector who is assisted by a number of Prosecuting Sub-Inspectors.

Police.—The police administration in the District is controlled by a Superintendent of Police who is responsible for assisting the District Magistrate in maintaining law and order. He functions under the administrative control of the Deputy Inspector-General of Police, Patiala Range, and is assisted by two Inspectors, 13 Sub-Inspectors, 56 Head Constables and 373 Constables.

The lowest unit of police administration, serving a number of villages or a town is the police station each in the charge of a Sub-Inspector. There are 7 such police stations and two police posts in the District.

Jails.—There is one Sub-Jail in the District at Mahendragarh which is under the charge of a part-time Superintendent (Sub-Divisional Officer) who is assisted by full-time staff of an Assistant Superintendent, one head warder and a number of warders. The authorised accommodation in the jail is for 50 inmates. The jail hospital has a part-time medical officer and a whole-time dispenser. This jail has a small library in the office.

Community Development.—The District stands divided into the eight Community Project and National Extension Service Blocks (early 1962), listed below :—

Tahsil	Block
Dadri	Dadri I
	Dadri II
	Bardha
Mahendragarh	Mahendragarh I
	Mahendragarh II
Narnaul	Narnaul I
	Narnaul II
	Nangal Chaudhri

A block covers some 70 villages and is under the charge of a Block Development and Panchayat Officer who is also the *ex-officio* Executive Officer of the Block *Samiti.* The B.D. & P.Os are under the administrative control of the S. D. Os (Civil). They have no administrative functions and are mainly concerned with the promotion and executions of development schemes.

A B. D. & P.O. has a number of Extension Officers, belonging to various departments, to assist and advise him in their respective spheres like the Agriculture, Industries, Co-operation and Education. At the lowest rung of the Extension Service Scheme are the Village Level Workers and Lady Social Workers who work for the development and social education plans, aiming at improving the social, economic and health conditions of the rural population.

The first two Community Development Blocks in the District were instituted in 1952. By the close of 1962, their number rose to 8.

Zila Parishad, Panchayat Samitis and Panchayats.—The eight *Panchayat Samitis*, one for each Development Block, elected under the Panchayat Samitis and Zila Parishads Act (1961) are supposed to make arrangements for meeting the requirements of the area under their jurisdiction in respect of agriculture, health and rural sanitation, social education, co-operation and other allied matters. Their members are elected from amongst the members of the village *Panchayats* in the block. At the District level, a *Zila Parishad* consisting of representatives from village *Panchayats, Panchayat Samitis,* and some co-opted and nominated members, have taken over the entire Community Development work replacing the District Boards of the British regime. The *Zila Parishad* is responsible for framing the District Development Plans. It guides and supervises the *Panchayat Samitis,* scrutinises their budgets and undertakes a good bit of special development works. The new pattern of administration, which has started functioning, is thus responsible for local works, measures likely to promote the health, comfort, convenience and interest of the rural folks, the social and cultural advancement, village self-sufficiency and economic prosperity in rural areas.

The Punjab Gram Panchayat Act (1952) provides for a *Panchayat* in every village with a population of not less than 500 persons and a joint *Panchayat* for smaller villages with a total population of not less than 500. Accordingly there exist in the District 414 *Gram Panchayats* with a total membership of 2,254. Elected on the basis of adult franchise, the *Gram Panchayats* are the statutory bodies. Their functions include criminal (judicial) civil and revenue (judicial) work besides administrative and executive duties. These powers at the moment are limited, but will be extended in due course, as and when this experiment in decentralisation of authority proves successful. They have been empowered to levy certain taxes and are allowed a specified percentage of the land revenue of the village to provide them with funds necessary for discharging their functions. The setting up of these small village republics is, in fact, a bold step forward in the process of democratic decentralisation as they assume an important and potentially paramount role.

Co-operative Department.—The working of the Co-operative Department in the District is looked after by an Assistant Registrar with headquarters at Mahendragarh.

Agriculture Department.—The work of the Agriculture Department in the District is under the District Agriculture Officer. He is assisted by specialists in horticulture, plant protection and soil science, etc., at the District headquarters, and by Agriculture Inspectors and Sub-Inspectors in the N. E. S. Blocks.

Industries Department.—There is a District Industries Officer, assisted by a number of Inspectors and Sub-Inspectors. For rural industrialisation and development work, Block Level Extension Officers are posted in various blocks, Technical Education in various crafts is imparted by the Industrial Training Institute for girls at Narnaul and an Industrial Training Institute for boys at Mahendragarh. There is also a Women's Home Craft Centre at Kheri in Mahendragarh Tahsil. Besides, there are instructors and administrators working in the various industrial centres.

Medical and Public Health Departments.—The Civil Surgeon is incharge of the hospitals and civil dispensaries in the District, and the District Medical Officer of Health looks after the rural dispensaries and the Primary Health Centres and general sanitation in rural areas. Besides, each Municipality has health staff of its own.

Veterinary Department.—The District Animal Husbandry Officer has under him 5 doctors, 26 compounders and 81 livestock assistants and others, spread over the entire District, in 5 veterinary hospitals and 21 dispensaries (1961).

Other Departments.—The District Excise and Taxation Officer with headquarters at Mahendragarh, looks after the excise administration and the collection of entertainment duty, sales tax, immovable property tax and the state excise duties.

The District Food and Supplies Officer looks after the procurement, movement and distribution of foodgrains and other controlled commodities.

The District Inspector and Inspectress of Schools are responsible for the inspection of middle and primary schools for boys and girls, respectively. The supervision of high and higher secondary schools is done by the Divisional Inspector of Schools, Nabha.

The construction and maintenance of government buildings and roads in the District are in the charge of the Executive Engineer, Dadri. Similarly, there are Sub-Divisional Officers for electricity and public health works.

The District Welfare Officer looks after the welfare programmes for scheduled castes and backward classes. The District Public Relations Officer does publicity and propaganda work.

Local Bodies.—Municipal Committees function under the Municipal Committees Act (1911) at Narnaul, Charkhi Dadri, Mahendragarh, Kanina and Ateli. None of these Municipal Committees is of the first class, because the towns in the District are of small size.

CHAPTER II

ECONOMY

This chapter is divided into four sections dealing with, A-Agriculture, Irrigation and Livestock; B-Industries ; C-Trade and Commerce ; and D-Communications.

A-AGRICULTURE

Peasantry.—Like any other District of Punjab, Mahendragarh is mainly dependent upon agriculture, and its economy is agriculture-oriented. At the time of 1951-census 83.5 per cent of its population was dependent on agriculture. The 1961-census revealed that 80.9 per cent of the workers in the District were cultivators and agricultural labourers. Whereas the figure for 1951 relates to the whole population, the figure for 1961 takes into account only the workers. The District is fortunate in having sturdy and hard-working Rajputs, Ahirs and Jats as the farmers who fight their way against insufficient rainfall and inadequate irrigation facilities; farming in the District still continues to be a big gamble in weather conditions.

There are three broad types of workers in agriculture, proprietors, tenants and labourers. A large majority of the cultivators are peasant proprietors. Accretion to their numbers has accrued from the various land reforms introduced in the post-Independence period. Feudal institutions like *jagirdari* and *biswedari* have been liquidated. The occupancy tenants have come to acquire proprietorship. Similarly many tenants-at-will, who purchase the land they tilled have availed of the opportunity afforded by law to become proprietors. Some landlords were able to circumvent the law by entering into *benami* transactions and mutate their lands in favour of their relatives and confidants, so as to retain ownership under disguise. But now ceilings have been prescribed and law is becoming more helpful to tenants in purchasing the lands they till.

The recent land reforms have induced many big landlords who previously used simply to let out their lands to tenants have taken to self-cultivation. This change has given a drive to mechanised farming. This change has resulted in the eviction of many tenants some of whom have accepted to work as agricultural labourers in the absence of alternative vocations of their choice. In many other cases even such tenants as could have purchased land because of the opportunity afforded by law, have not been able to do so, because of their slender resources. The overall result has been that the number of agricultural labourers is swelling.

LAND UTILISATION

Total area.—The total area of the District (1961), according to the Surveyor General of India is 1,343 sq. miles (859,590 acres). However, according to Village Papers maintained by the Director of Land Records, Punjab, the area of the District is shown as 1,341.4 sq. miles (858,523 acres). The small discrepancy in the two sets of figures may be due to the Survey Department calculating the area in big blocks while the area in Village Papers is obtained by adding the area figures of fields and villages. For showing land utilisation and density of population the figures as supplied by the Director of Land Records, Punjab, and referred to also as the figures according to Village Papers, have been adopted in this report.

The District enjoys 15th position in area among the 19 Districts of the State. Table 2* shows the geographical area of the District and its classification according to use, in terms of quinquennial average figures from 1901 to 1961. The difference in the total area figures over the period of time is attributable to inter-district transfers, alluvium and diluvium and re-measurement of land. The total area during the quinquennium 1958-63 works out to 858,355 acres.

Forests.—Mention has already been made about the District not having any regular forests. In 1960-61, however, 2,049 acres, mostly along roads, canal banks and railway lines, were administered by the Forest Department.

There are three reserve forests; one at Bir Kanti with an area of 225 acres; the second at Bir Jatwas comprising 15 acres; and the third at Bir Rawaldi comprising an area of 16 acres. Presently, the Forest Department is mainly engaged in extending its activities to check wind erosion and advancement of Rajasthan Desert towards the District. Shelter belts along local streams and in the gaps between hills, have been created and the work regarding fixation of sand dunes, creation of wind breaks and fuel plantation is in progress. There are no industries worth the name depending upon forests except rope-making. The important forest trees are *jand* (Prosopis Spicigera) and *rohera.*

*Page 40

Area not available for cultivation.—This class comprises of absolutely barren and uncultivated lands (nil) and lands put to non-agricultural uses such as lands under buildings, roads and canals or otherwise appropriated for non-agricultural purposes. The area of such lands is 76,048 acres (1960-61) or 8.9 per cent of the total area of the District. There has been some increase in this type of land during the decade due to construction of buildings and roads.

Other uncultivated lands excluding fallow lands.—This category denotes lands available for cultivation, whether taken up for cultivation at some stage and abandoned later and culturable wastes, grazing lands and lands under tree groves not included under sown area. Such lands measure 56,520 acres or 6·6 per cent of the total area.

Cultivated area.—In revenue terminology, land is styled as 'cultivated' if it was sown even once during the four previous harvests. As such, the cultivated area comprises (i) fallow lands and (ii) net area sown. The extent of change during the last five years is brought out by the following figures :—

Type	1956-57	1960-61
Fallow lands (acres)	12,209	13,189
Percentage to total area	1.4	1·5
Net area sown (acres)	709,341	710,717
Percentage to total area	82·7	82. 8
Cultivated area (acres)	721,550	723,906
Percentage to total area	84·1	84·3

In the State as a whole, cultivated area forms 65 per cent of the total area. The high figure of 84 in Mahendragarh is due to nature being generous in giving the District a larger share of land which can be ploughed. At the same time it is a tribute to the diligence of the farmers who have exploited this advantage.

Irrigation (Table 4)*.—The handicap of inadequate and uncertain rainfall in the District has been offset by artificial irrigation very meagrely. Amritsar and Ferozepur, admittedly the best irrigated Districts in India, have 90 and 64 per cent of the net sown area receiving irrigation. The corresponding figure for Mahendragarh is only 2.4.

Canal irrigation in the District is entirely from Dadri Irrigation Project which serves a portion of Dadri Tahsil through the Western Jumna Canal. It was initiated during 1956-57 on the pattern of Bhakra Canal System. The project provides irrigation by extension and construction of new channels from the Bhiwani sub-branch of Bulana Branch. The Dadri Feeder, taking off from the tail of Bhiwani sub-branch, delivers water to the Dadri Distributary System and the Bond Distributary System. The total length of these distributaries is 76 canal miles. A portion of the canal system has been completed and the remaining work is expected to be completed within two years. This project served 13,300 acres during 1960-61.

Government has under consideration a number of schemes aiming at utilising irrigation facilities to the full, such as the Dadri, Rewari and Gurgaon Lift Schemes. The Rewari Lift Scheme is a major project which would cost about 107 lakhs and would cover 88 villages of Jhajjar Tahsil of Rohtak District, 26 villages of Gurgaon Tahsil and 36 villages of Rewari Tahsil in Gurgaon District and eight villages in the Dadri Tahsil of Mahendragarh District.

Basin Irrigation. —By this term is meant collecting water in streams by bunds and to utilise it for irrigating the *kharif* crops and for sowing the *rabi* crops. This method is being practised in the Narnaul Tahsil since long. The most important of such dams is the Narnaul Dam, constructed two miles from Narnaul town at the confluence of the Chorassi and Malo seasonal streams. With a maximum depth of 45 feet and a length of 8,500 feet, the dam has a storage capacity of 800 to 900 feet acres and a spillway capacity of 3,000 cusecs. It was built at a cost of Rs. 6.70 lakhs and can irrigate about 7,000 acres in the *kharif* season, besides leaving some 700 acres for the cultivation of *rabi* crops. The other bunds of this type in the District are : (1) Maghot Biga Bund, (2) Sarai Bund, (3) Loharu Bund, (4) Raghunath Pura Bund, and (5) Durg Nangal Bund. These bunds conserve the soil and impound water which soaks into the ground and raises the sub-soil water level in the wells in the vicinity.

Wells.—Well irrigation in the District is of considerable importance. Some 37,000 acres were irrigated by them during 1959-60 chiefly in the Narnaul and Mahendragarh Tahsils. The wells are generally worked by *charas* and the supply of water exhausts after five or six hours working.

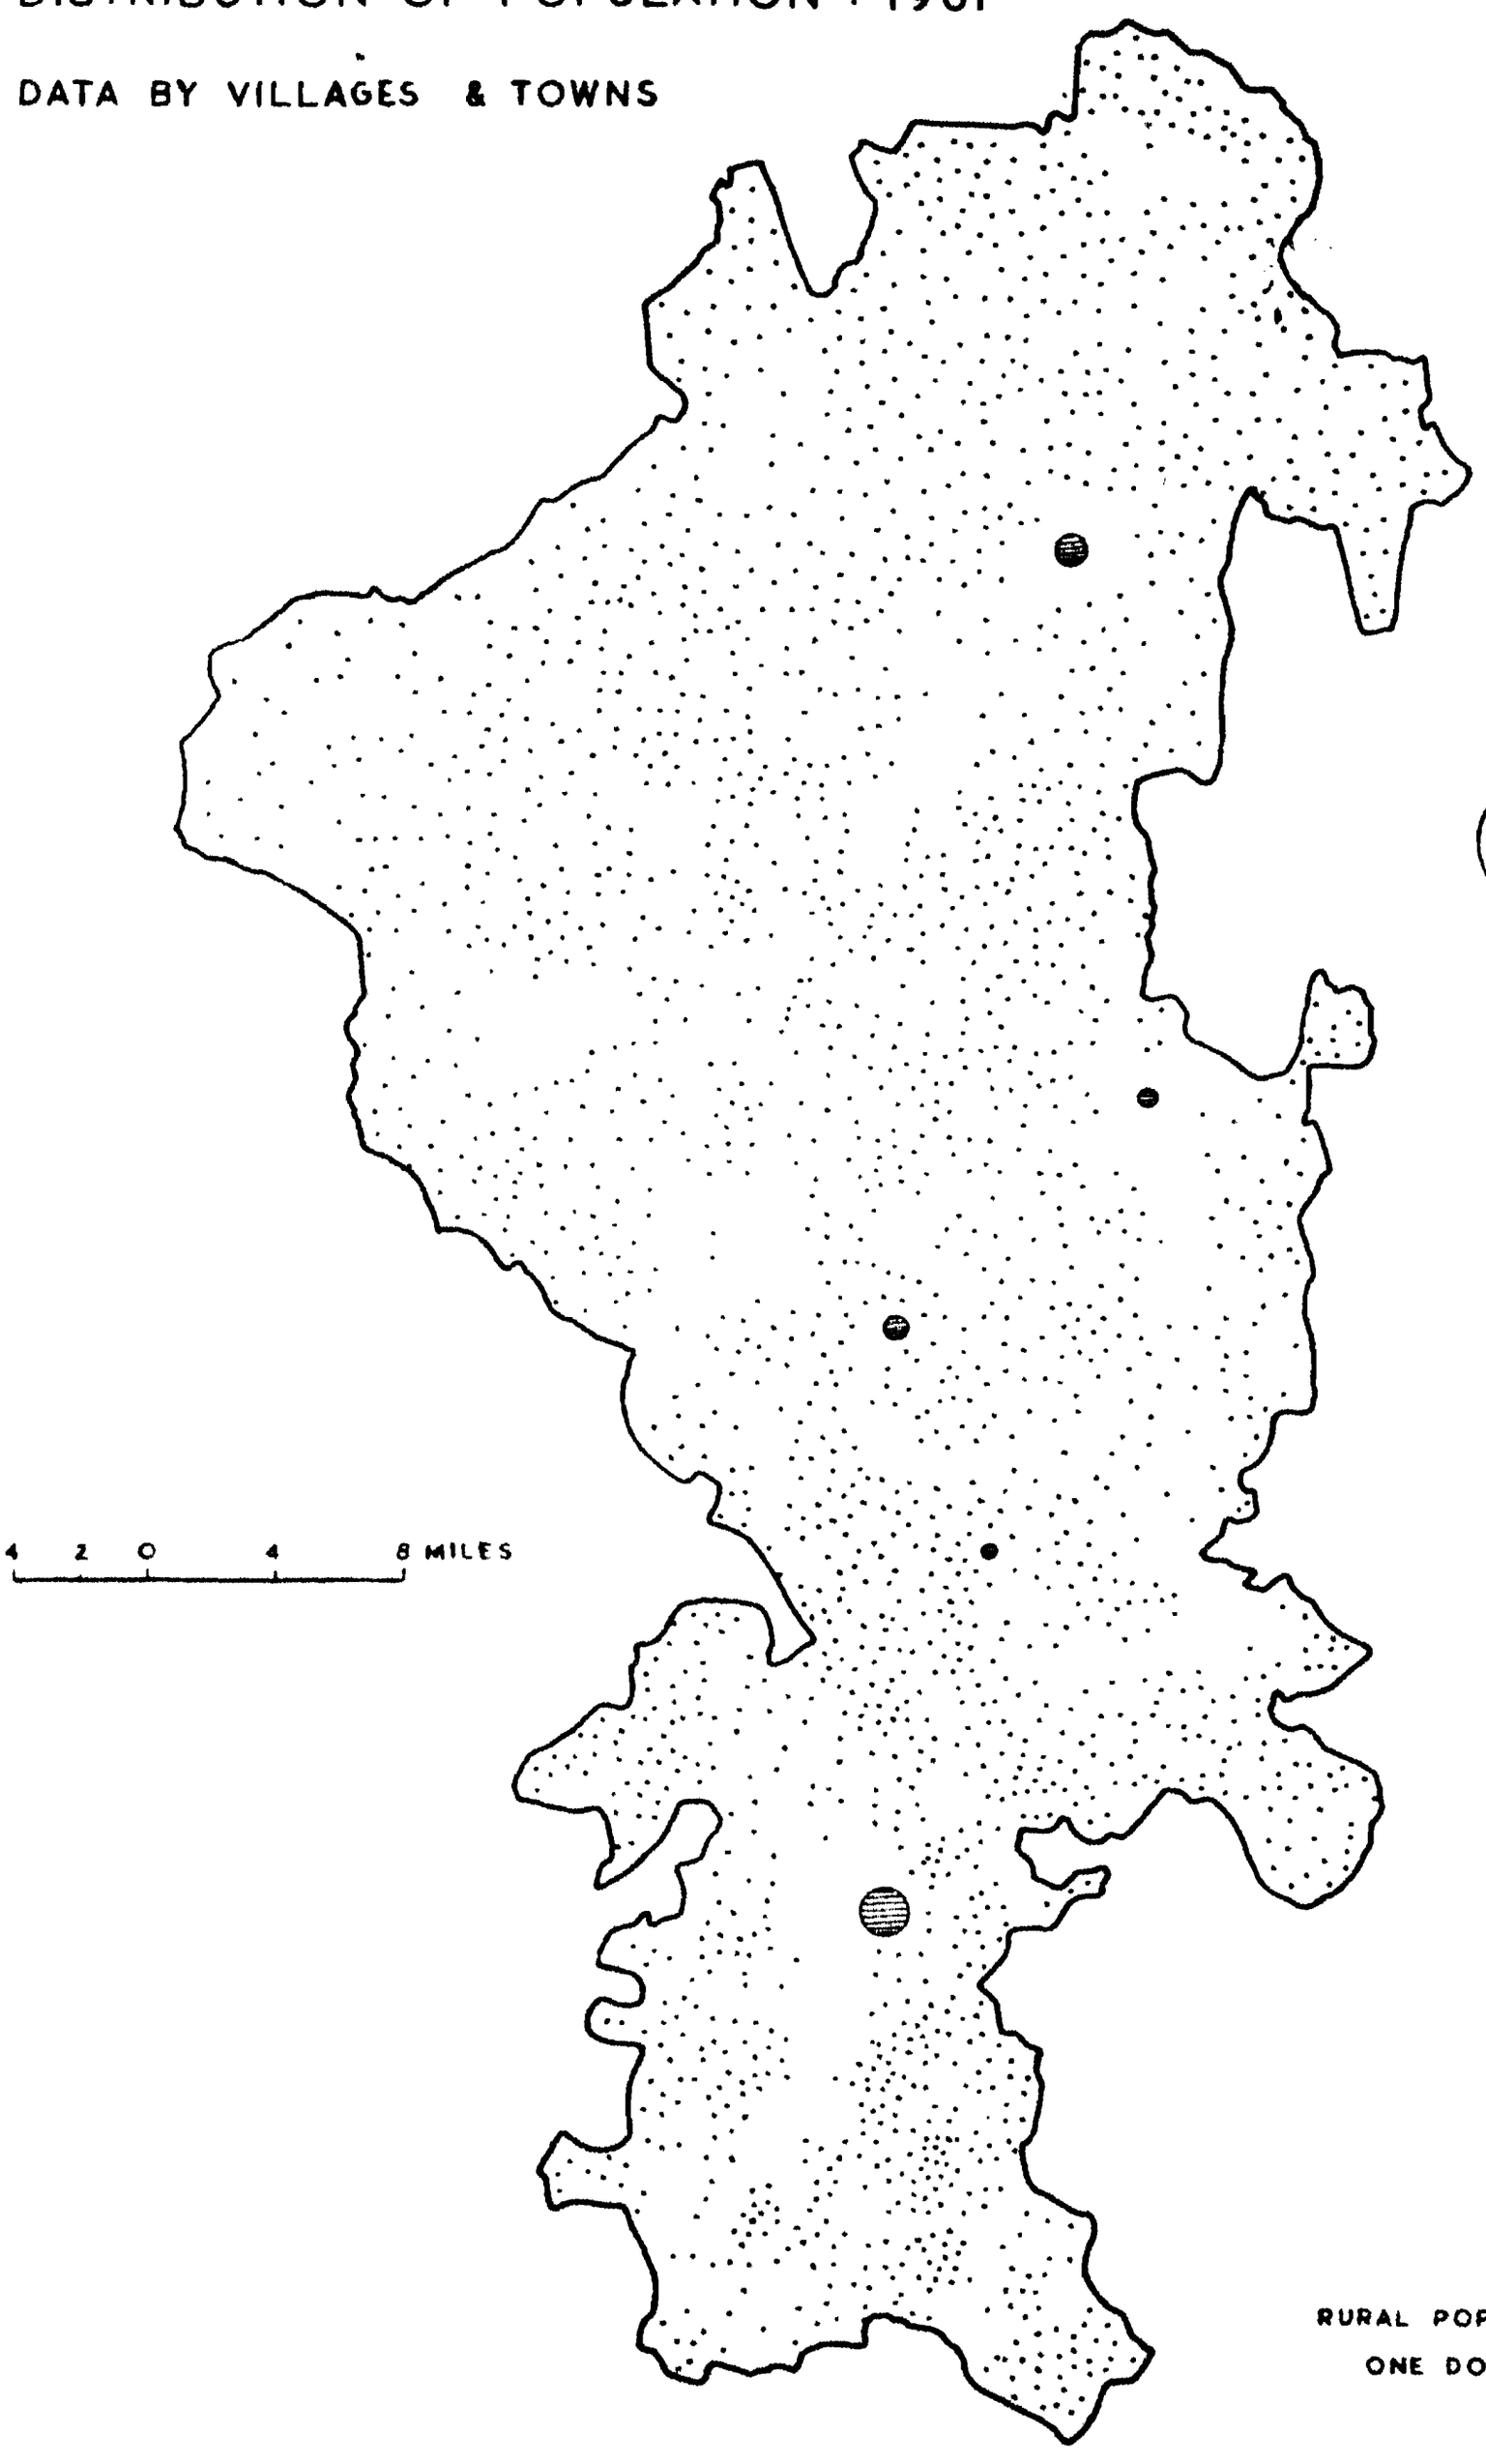

A number of bore-holes were drilled by the Exploratory Tube-wells Organisation of the Government of India at various places in the District recently but the results obtained were not encouraging. The quality of water was found to be either chemically defective or its supply was not adequate. Even deep boring up to a depth of 618 feet has not met with suitable water bearing strata. The Government is, however, encouraging the installation of pumping sets in the District and in 1962-63 Rs. 1,252,500 were advanced to 263 parties for this purpose.

MAIN CROPS

There are two main harvests in a year ; the *rabi* (*hari*) and the *kharif* (*sawani*). The *rabi* or spring harvest consists mainly of wheat, gram, barley. It is sown in October-November and harvested from mid-March to mid-April. The *kharif* or autumn harvest consists chiefly of *bajra*, *jowar* and pulses. These crops are sown in June to August and reaped from September to December.

Wheat.—Because of scarcity of water, wheat is not an important crop in the District. It occupied 19,174 acres in 1960-61 producing 8,800 tons of grain as compared with 8,000 acres producing 3,000 tons during 1950-51. The production of wheat in the District is on the increase with the development of irrigation—three-fold during the last decade. The yield per acre at 1,031 lbs. during 1960-61 is, however, modest.

Gram.—Gram is a *rabi* crop and is sown *barani* extensively. It is consumed in various ways in the form of *chapaties*, from mixed flour of wheat, gram and barley, fried, as *pakoras*, as parched grains and its green shoots and pods cooked as a vegetable. It is also an important concentrate in the food of livestock.

The area under gram was 414,913 acres in 1960-61 and its production was estimated at 87,100 tons. The cultivation of gram varies widely from year to year depending on the timeliness of rains.

Barley.—Barley is sown in the same period as wheat. In a dry area it is better suited than wheat because of its lower water requirements and quicker maturity. It is consumed in various forms. Mixed with wheat and gram, its flour is made into *chapaties*. Parched and powdered, it is taken as *sattu*. Barley of this District has, besides, a good demand from breweries because of its good malting qualities. The crop occupied 42,996 acres producing 9,000 tons of grain in 1960-61.

Bajra.—*Bajra* is grown extensively in the District chiefly in Narnaul and Mahendragarh Tahsils, on *barani* lands and even on poor sandy soils. In 1960-61, it was sown over 452,000 acres and its production was 66,000 tons.

Jowar.—Like *bajra*, *jowar* is also a *kharif* and *barani* crop. A portion of the crop is consumed locally and the rest is sent to the central Districts of the State where it is sown for green fodder. In 1960-61, it occupied 52,275 acres and the production of grain was estimated at 5,100 tons.

Mung.—*Mung* is largely a *barani* crop. It is commonly sown as a subordinate crop with maize, *jowar* and sometimes *bajra*. It occupied 10,184 acres in 1960-61, producing 1,500 tons of pulses.

Rape and mustard.—These two *rabi* oil-seeds (*sarson* and *taramira*)are important cash crops in the District. They are suited to this dry region and are sown mostly in *barani* fields. An area of 44,783 acres was under these crops in 1960-61 producing about 9,100 tons of oil-seeds.

Groundnuts, sesamum and sugar-cane are also sown on a small area in the District. Cotton and sugar-cane are conspicuous for their absence in this area.

Agricultural machinery and implements (Table 12—Part II)*.—In 1961, the District had 48 tractors, 17 oil-engines with pumping sets and 45 electric pumps. The high prices have encouraged the big farmers to make investments in this direction.

Rotation of crops.—Dearth of water places a limitation over the selection of crops but the farmer makes the best use of the circumstances. Shallow-rooted crops are generally followed by deep-rooted crops in the next season to get maximum yields. Hence *bajra* and *jowar* are always followed by gram in the *barani* fields. *Sarson* is sown generally after keeping the land fallow in *kharif* and by conserving moisture. The fields vacated by *gowara* are sown with wheat and barley under irrigated conditions and gram and mustard under *barani* conditions provided there is enough moisture in land. In case there is no moisture at the sowing time, *bajra* is sown in the fields during the next *kharif*. The dry farming practices recommended by the Agriculture Department, are followed by the more intelligent farmers who realise at least 50 per cent better yields.

Livestock (Table 11—Part II)@.—Mahendragarh District has a good stock of bullocks, camels and goats. The camel is just as good as a bullock to the farmer in this dry tract, for farming, transport and drawing water from the well. The cattle are of the *Hariana*, *Nagori* and mixed breeds. The Animal Husbandry Department is issuing *Hariana* bulls to improve the breed. Two artificial insemination centres have also been started at Dadri and Narnaul. Table 11 shows the number of animals in the District counted on two occasions in 1956 and 1961. The total number of cattle during 1961 was 141,464 including 454 approved bulls.

*Page 47 @Page 47

Buffaloes.—The buffalo finds favour with the farmer because of its richer milk and incidentally ample *lassi*. Besides, the buffalo stands stall feeding better than the cow. Buffaloes in the District are of local *Datta Singi* (sickle shaped horns type) breed, but a few *Murrahs* are also to be seen in the Dadri Tahsil. After Partition the Animal Husbandry Department started issuing *Murrah* buffaloes to improve the breed. It may be mentioned that the *Murrah* buffaloes of Dadri Tahsil have been getting the first prize in breeding championships in all-India cattle shows. The number of buffaloes in the District was 97,535 in 1961.

Horses and donkeys.—With the introduction of speedier modes of travel, the equine population has been dwindling, their number being only 718 in 1961. The number of donkeys was 4,218 in that year as compared to 4,662 in 1956.

Sheep and goats.—These small animals are kept all over the District but more commonly in villages near the hills. This District is suited for sheep breeding as there are no sheep epidemics in a dry area. The most suitable breed of sheep in this District is the *Bikaneri*. With a view to improve and increase the number of these animals, a Sheep and Wool Extension Centre was started at village Pali in 1960 where 18 typical good *Bikaneri* rams are being maintained. These rams are being distributed to the sheep owners of the surrounding villages from the month of April to July for covering purposes.

The number of sheep and goats in the District was 77,286 in 1961.

Livestock diseases.—The District is healthy and livestock diseases are not common. The prevalent diseases are rinderpest and foot-and-mouth diseases. The District appears to be fairly well-served by the present five veterinary hospitals and 21 out-lying dispensaries and other centres. The minor disorders are treated by the farmers themselves.

Animal fairs.—The *Zila Parishad* and a few Block *Samitis* arrange animal fairs at various places in the District. Apart from providing marketing facilities to the farmers and encouragement to breeders, these fairs bring handsome income to the authorities concerned. The more important fairs are held at Haluwas, Charkhi Dadri, Kanina Gujjarwas and Ateli.

B—INDUSTRIES

The District is rich in minerals. During the princely rule much attention was not paid towards exploitation of these minerals. On the formation of the PEPSU in 1948, leases were granted to various firms for the extraction of marble, calcite, iron ore, etc. After the merger of PEPSU with Punjab, the development of mineral resources was taken up more methodically. Surveys by the Geological Survey of India, Controller of Mines and the Atomic Energy Commission are now proceeding in the District with a view to know the extent and location of the mineral wealth. As a result, deposits of rich iron ore have been found out in villages Solab, Khadana and Pali Zairpur and preliminary surveys have shown that it would repay setting up a pig and cast iron plant. Lime stone, which is required in the process and in other chemical industries, is being searched and it is expected that huge deposits would be found in the District. Intensive drilling operations have also been going on at village Antri Beharipur under the Survey Programme of the Geological Survey of India. Similarly survey work in regard to calcite, quartz and other minerals is in progress.

There are only two big factories in the District. The Dalmia Cement Factory at Dadri and the Partap Slate Factory at Ateli Mandi. The Cement Factory at Dadri was established as a private enterprise in 1938 with a capital investment of Rs. 30 lakhs. The present investment of the concern is more than Rs. 2 crores. Against a capacity of 750 tonnes its present production is 600 tonnes of cement per day, and it employs 713 workers. *Kankar*-the main raw material for cement production is had mainly from the nearby villages of Loharwala, Kalia-Ka-Bas and Bhagvi. The slate factory at Ateli Mandi draws its supply of slate stone from the quarries at Rampur, Bohari and Bas. Its montnly production is more than 40,000 slates. Another slate factory, near the one at Ateli is located at Kund in Gurgaon District and together they are responsible for about 60 per cent of the total production in the country. There is a very long and deep belt of slate stone along the thirty mile Rewari-Narnaul route.

Several cottage and small scale industries which flourished in the District by the beginning of the century but have decayed or are declining gradually, such as lacquered bed legs, nut crackers (*sarotas*), silver buttons, country shoes, brass ***huqqas*** (hubble bubble), dyeing of women's scarfs, brass wares, iron pans and spoons, etc. Unfortunately the District cannot boast of these industries now.

Embroidery frames.—Embroidery frames are manufactured by an establishment at Narnaul. The materials used in their making are wood and brass pins which are purchased from Delhi.

Bangles.—Making of lac and glass bangles is a very old industry pursued by ***maniars*** as an ancestral occupation. After Partition many among them migrated to Pakistan, and the craft is now followed by a few families in the Seola village in Mahendragarh Tahsil and in Narnaul town. The bangles produced are plain and not so good as the ones manufactured at Ferozabad.

Furniture from reed.—A few families of *Naik* and other low castes engaged themselves in making *murrahs* in Chandpura, Jhoju Kalan and Seema villages. The raw material is obtained from *sarkanda* (Sachharum Sara) growing on waste lands.

Shoe industry.—In the times gone by, shoes made in the District had earned a name in northern India for their being light and brocade work. With the extinction of *nawabs* and rich muslim families who patronised such craftsmen, the industry has become almost extinct. Moreover shoes of western type made at Kanpur and Agra have now taken the place of country shoes. Only a few workmen produce such *jutis*, mostly of cheap price and for local sale.

Stone work.—Stone carving and dressing is an old industry of the District. Near every railway station small workshops make stone columns, tiles and *khutis*. The workers known as *sangtrash* are dextrous in stone dressing. Stone tiles and logs are also imported from Khatu near Jodhpur in Rajasthan. Mill stones are another item of the industry and the stone for the purpose is brought from Mala Khera near Alwar.

Marble chips and slabs.—A private concern excavates marble from a quarry at Antri Beharipur. This work is done manually. The stones after rough dressing are brought to Narnaul where they are made into marble slabs by electrically driven saws. The residual pieces are ground into chips and powder to be used in flooring. The concern employs 130 workers and its monthly output is about 396,000 kilograms of marble chips and 1,914 sq. centimeters of marble slabs. This marble is of variegated colours and commands a high demand even from other countries.

Lime and mortar.—At Dhani Bathutha in particular and all over the District in general, lime stone of high quality is quarried which is sent out in raw form and burnt into lime in small kilns locally. Mortar is a by product of lime. Both the products find a ready market for their quality.

Industrial estates and areas.—There is an urban industrial estate at Narnaul with fourteen sheds, the main objective being to assist the small scale industrialists by providing them factory buildings of standard design, fitted with electric power and water. The immediate availability of ready-made factory buildings on rent or higher purchase basis reduces the time lag between the planning and starting of industries and also saves the entrepreneur from blocking his productive capital in land and building. The programme of industrial estates also checks haphazard growth in industries in towns, thus avoiding industrial slums.

A rural industrial estate is being established at Mahendragarh. The Common Facility and Development Centre, which forms a part of the estate, assists entrepreneurs by providing requisite technical know-how for planning and standardising production. A Common Facility Workshop has also been set up in the village Bond Kalan and another is under construction at Kukse in Mahendragarh Tahsil. A Stone and Marble Carving Centre was started in Narnaul with thirteen trainees. An Industrial Training Institute for Girls at Narnaul imparts training in embroidery and tailoring. A Women Home Craft Centre is functioning in the village Kheri near Ateli. An Industrial Training Institute for boys has been established at Mahendragarh with a capacity for 350 students.

The District is making progress in industries. At Dadri a cable factory is being constructed where another concern is manufacturing buckets, wire netting and hospital wares. A big glass factory in private sector is under way, and it has been sanctioned a long lease of Kalayana sand stone. Units have spring up also for the manufacture of G.I. Pipes, chaff-cutters, stainless steel utensils, embroidery rims and agricultural implements variously at Narnaul, Ateli, Mahendragarh and Dadri. The tempo of industrial development is expected to increase in the years ahead.

C—TRADE AND COMMERCE

Mahendragarh District is bounded by the Alwar and Jhunjnu Districts of Rajasthan and Rohtak and Gurgaon Districts of Punjab. Trade with these areas is fairly brisk mostly in agricultural commodities. The mineral products are sold mostly at Delhi from where consumer goods are imported which are fairly heavy, such as wheat, sugar and *gur*, fruits, cotton seed and cloth. The District is frequented by famines when fodder has also to be imported from distant places both by road and rail which are adequate for the purpose.

The Phulkian State Gazetteer mentions about the export trade of the District in cotton, *ghee*, mustard, wool, bed legs, *sarotas*, brass *huqqas* (hubble bubble), marble, lime, etc. But now cotton production has

almost completely ceased and there has been different pattern of export trade during the last few decades. The important commodities at present exported are, cement, iron ore, slates and slate stone, lime and lime-stone and marble slabs and chips, raw wool, embroidery frames, reed furniture, *bajra*, gram and *ghee*. Besides, cattle are sent out in substantial numbers. Table 10@ shows the arrivals of agricultural produce for sale in the five regulated markets in the District during 1961.

D—COMMUNICATIONS

The District is fairly well served with roads, railway lines traverse all Tahsils, and generally speaking post offices are located at convenient distances.

Railways.—A net work of railway lines connects all towns in the District with Delhi. The three metre gauge railway lines pass through the District. Rewari-Phulera chord, which runs in the south, on which fall Ateli, Narnaul and Nizampur Stations; the Rewari-Bikaner chord passes through the centre connecting Kanina, Bajawas, Mahendragarh, Zerpur Pali and Satnali ; Rewari-Hissar chord runs in the northern part with important stations as Charkhi Dadri and Manehru.

Roads (Table 33).*—There has been a considerable road expansion in recent years. On the 31st March, 1961, the Public Works Department was maintaining 162 miles of metalled and 78 miles of unmetalled roads in the District, and the Municipal Committees another 18 miles of metalled and 6 miles of unmetalled roads. These roads link the District with Rewari, Rohtak, Bhiwani and Loharu and a number of bus servises ply on various routes.

Postal facilities.—In 1961 there were 114 post offices in the District distributed among the Tahsils as shown below :—

Tahsil	*Post Offices*
Dadri	44
Mahendragarh	37
Narnaul	33
Total	**114**

Telegraph offices open to the public, however, operated only at four places.

@Page 46 *Page 57

CHAPTER III

POPULATION

Part III of this book contains Tables relating to the 1961-census. These Tables are preceded by an exhaustive note explaining their arrangement and the terms used. Hence only the broad facts thrown up by these statistics are stated below.

Area (Table A-I).*—The District covers an area of 1,341.4 sq. miles : Dadri Tahsil (572.9 sq. miles), Mahendragarh (400.8 sq. miles) and Narnaul (367.7 sq. miles).

Population (Table A-I).—On the 1st March, 1961, the District had 547,850 persons (283,950 males and 263,900 females). In this respect it ranks sixteenth among Punjab Districts, led by Ferozepur with 1,619,116 persons.

Growth of Population.—At the time of 1951-census the District recorded a population of 443,074 persons. Population figures for earlier years are not readily available since the District as such did not then exist.

The population of the District increased by 23.65 per cent during the ten years 1951-61. Similar increase ranged between 60.7 per cent in the case of Lahaul & Spiti and 6.1 per cent in the case of Simla. The years 1951-61 were free from major diseases and the health measures taken by the Government considerably reduced death rate while birth rate remained almost unchanged. The high rate of population growth is a matter of great concern and should this rate persist it will lead the country in difficulties.

Density of Population (Table A-I).—Punjab has, on an average, 429 persons to a square mile : Jullundur District is the most thickly populated (914) and Lahaul & Spiti the sparsest (6). The number of persons per square mile in Mahendragarh District works out to 408 and in this respect it ranks 15th among the 19 Districts of the State. The density of population in Narnaul Tahsil works out to 532 persons to a square mile, Mahendragarh Tahsil has 379 persons and Dadri Tahsil 350.

Because of the small size of its towns the difference in the density of human population as between rural and urban areas of the District is narrow as compared with other parts of the State. The mean density in Punjab is 346 for rural areas and 9,476 for urban areas. The corresponding figures for Mahendragarh are 373 and 3,329 respectively.

Villages (Table A-I and A-III†).—The District has in all 559 villages of which 13 are uninhabited (*becharag*). The number of persons per inhabited village works out to 906 in Mahendragarh District as compared with 763 for the villages in the State as a whole. The villages in Dadri and Mahendragarh Tahsils are generally big units with 1,032 and 915 persons per village, respectively, whereas the villages in Narnaul Tahsil are comparatively small units with an average population of 794.

Bond Kalan in Tahsil Dadri is the biggest village in the District with a population of 5,206. Thirty-one villages have population ranging between 2,000 and 4,999, while 135 villages have population between 1,000 and 1,999. In 23 villages the population is less than 200. Thirteen villages are *becharag* where no one sleeps at night.

Towns.—In Table A-IV†† particulars are given of the 5 towns in the Mahendragarh District. There is neither Class I (population one lakh and above) town or Class II (population ranging between 50,000 and 99,999) town in the District. The only Class III town (population ranging between 20,000 and 49,999) in Narnaul. The population of Narnaul has risen fast from 18,180 persons in 1951 to 23,959 in 1961, thus showing a percentage increase of 31.79. It is mainly due to the location of many educational and other institutions in the town.

Mahendragarh is essentially a rural District. Charkhi Dadri is the next biggest town and its population increased from 8,795 in 1951 to 13,839 in 1961. Mahendragarh ranks third in population (9,071) and Kanina the fourth (4,582). Ateli has still smaller population.

*Page 126 †Page 128 ††Page 129

Sex Ratio (Table A-I)*.—Of the 547,850 persons in the District, 283,950 are males and 263,900 are females. In Punjab there are 864 females per 1,000 males which is the lowest figure among the States in India : the corresponding figure for the Indian Union is 941. In the area comprising Mahendragarh, Gurgaon and Rohtak Districts, the sex ratio is higher than the State average and the number of women per 1,000 men is 929, 881 and 891, respectively. This feature may be attributed to some men working out side the District. The sex ratio in Mahendragarh has decreased during the decade in opposition to a general rise in the State.

FEMALES PER THOUSAND MALES

Year	Mahendragarh	Punjab
1951	939	858
1961	929	864

The sex ratio varies within a wide margin in different parts of the District according to local opportunities for employment. Among the three Tahsils, Mahendragarh leads with 956 females per 1,000 males followed by Narnaul (955) and Dadri (886). The sex ratio in rural areas works out to 935 and for urban areas 876 ; the corresponding figures in 1951 were 940 and 932.

Age Composition.—In Table C-II,‡ the 1961 population of the District is distributed in various age groups. With a view to comprehend the comparative strength of these groups, a Table is given below in which totals have uniformly been taken as 1,000.

DISTRIBUTION OF 1,000 PERSONS OF EACH SEX BY AGE GROUPS

Age groups	Total Population			Rural		Urban	
	Persons	Males	Females	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000	1,000	1,000	1,000
0—9	334.87	335.00	334.73	337.50	333.93	312.42	342.49
10—14	125.17	127.34	122.83	128.13	123.69	120.13	114.49
15—19	81.56	83.43	79.55	83.02	80.18	87.20	73.52
20—24	70.65	65.07	76.65	63.80	75.62	76.51	86.58
25—29	69.04	64.81	73.59	63.67	73.29	75.13	76.47
30—34	59.20	54.67	64.06	53.48	64.03	65.47	64.34
35—39	48.49	47.68	49.37	47.12	49.12	52.83	51.80
40—44	49.24	48.76	49.75	48.34	49.98	52.54	47.52
45—49	36.86	39.24	34.30	39.22	34.24	39.37	34.94
50—54	38.64	39.93	37.24	39.84	37.52	40.75	34.54
55—59	20.95	23.44	18.28	23.91	18.31	19.26	17.95
60—64	28.15	28.98	27.26	29.34	27.44	25.67	25.52
65—69	13.10	15.16	10.89	15.52	10.98	11.90	10.03
70+	23.37	25.64	20.93	26.23	21.08	20.29	19.45
Age not stated	0.71	0.85	0.57	0.88	0.59	0.53	0.36

A District is too small an area to comment with confidence on the age structure of its people, since the inflow and outflow of population at different stages of life is considerable.

The age pyramid of the District, as built from the above figures, has a broad base and tapers rather obliquely : 335 persons per 1,000 population are below the age of 10 and only 86 of age 55 years and above. Roughly speaking four out of every ten persons are below the age of 15, five in the groups 15 years to below 55 and only one past the age of 55.

The age span of females is lower than of males. Males below the age of 15 years are 462 per 1,000 ; the corresponding figure for females is 458.

It is a daily observation that a large number of persons shift from villages to towns for study and livelihood. The low paid among them leave their families in their native homes and live in the towns by themselevs. When past the age of useful work, most of them return to villages. The effect of this type of movement is reflected in the statistics of rural and urban age composition. For age groups below 15, 15 to below 55 and 55 and above, the distribution among males in rural areas is 466, 438 and 95 and in the urban areas 433, 490 and 77 respectively. The corresponding figures for females in rural areas are 458, 464 and 78 and for urban areas 457, 470 and 73.

*Page 126 ‡Page 200

In Table C-II*, persons in different age groups are further classified according to marital status. To comprehend the significance of these figures 1,000 males and 1,000 females for the District as a whole in urban and rural areas are distributed according to their marital status.

1,000 MALES AND FEMALES CLASSIFIED ACCORDING TO MARITAL STATUS

Marital status	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Never married	584.08	451.09	588.46	449.04	544.40	470.88
Married	367.92	467.98	363.05	469.69	412.02	451.47
Widowed	47.47	80.51	47.96	80.88	43.02	76.88
Divorced or separated	0.15	0.09	0.12	0.08	0.46	0.20
Unspecified status	0.38	0.33	0.41	0.31	0.10	0.57

It will be noticed that in the District as a whole some 58 per cent of the .nales and 45 per cent of females are unmarried. The higher proportion of unmarried males is due to shortage of females which aspect has been studied earlier. Correspondingly, there is a higher proportion of married among female (47 per cent) than among males (37 per cent). The proportion of married males is higher in towns (41 per cent) than in villages (36 per cent) but the proportion of married females is higher in villages (47 per cent) than in towns (45 per cent).

Marriage in our country is universal and there is always an explanation for almost every old bachelor and spinster. In the Table given below the unmarried males and females are classified according to age in terms of 1,000 males and females.

AGE COMPOSITION OF 1,000 NEVER MARRIED MALES AND FEMALES

Age group	Never Married			
	Rural		Urban	
	Males	Females	Males	Females
All ages	1,000	1,000	1,000	1,000
0—9	573.53	743.64	573.64	727.33
10—14	207.31	224.65	215.92	223.03
15—19	102.04	28.41	126.24	44.31
20—24	39.49	1.05	46.63	3.18
25—29	19.94	0.45	12.68	0.77
30—34	14.05	0.28	5.79	0.17
35—39	8.78	0.13	3.84	0.26
40—44	9.41	0.15	3.84	0.09
45—49	6.63	0.02	2.54	0.26
50—54	5.87	0.04	3.32	..
55—59	3.29	0.03	1.30	0.09
60—64	3.82	0.04	1.69	..
65—69	1.79	..	0.71	..
70+	2.90	0.11	1.30	0.08
Age not stated	1.15	1.00	0.32	0.43

It will be seen that in rural areas there are 42 bachelors per thousand males who are past the age of 34 years and only 2 spinsters per 1,000 females who are past the age of 19 years. The corresponding figures for urban areas are 19 and 5 respectively.

Literacy.—Three Tables labelled as C-III† give information on literacy by age groups, sex, and educational levels in rural and urban areas of the District. The position is summarised on the next page :—

*Page 200 †Page 204

LITERATES PER THOUSAND POPULATION ABOVE THE AGE OF FIVE YEARS

Educational levels	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
I. Mahendragarh District						
Total	1,000	1,000	1,000	1,000	1,000	1,000
Illiterate	631	945	656	963	406	765
Literate	369	55	344	37	594	235
Literate without educational level	233	40	227	29	292	152
Primary or Junior Basic	110	14	101	8	192	70
Matriculation & above	26	1	16	N	110	13
II. Punjab						
Total	1,000	1,000	1,000	1,000	1,000	1,000
Illiterate	611	831	681	896	346	568
Literate	389	169	319	104	654	432
Literate without educational level	167	85	155	63	211	175
Primary or Junior Basic	166	70	137	38	276	200
Matriculation & above	56	14	27	3	167	57

Roughly speaking only one male out of 3 and one female out of 18 can read and write, the test adopted for literacy. About half this number had had schooling and only one male in 39 and one female in 1,000 had crossed the Matriculation.

The ruralites have a considerable leeway to make up in order to come in line with the urbanites. In the towns of Mahendragarh District, there are 594 per 1,000 males and 235 per 1,000 females who are literate, but in villages they are as few as 344 and 37 respectively. This feature is common throughout the State where the literacy per 1,000 is 654 for males and 432 for females in towns and 319 and 104, respectively in rural areas.

Mother tongue (Table C-V).*—99.4 per cent of the people stated Hindi as their mother tongue and another 0.5 per cent gave it as Punjabi.

Religion (Table C-VII)‡.—Distribution per 1,000 persons in the District according to religion is shown below :—

	Number	per 1,000
Total Population	547,850	1,000
Hindus	543,480	992
Sikhs	2,222	4
Muslims	1,456	3
Jains	663	1
Christians	29	N

The Sikhs live mostly in towns. Muslims are chiefly in the Dadri Tahsil (1,048).

Place of Birth.—Table D-II† throws light on migration, based on place of birth. The Table deals only with immigrants, once the persons who had gone out of the District were enumerated wherever they were during the enumeration period. The Table shows that as many as 74 per cent of the persons enumerated in the District were born at the very place where they were enumerated. For the rural population this percentage is 75.4 and in urban areas it is 59.5, denoting a higher degree of mobility in towns.

Another interesting feature is that among males as many as 92 per cent were born at the place they were enumerated, as against 54 per cent in the case of females. The lower figure among females is due to their leaving the paternal house on marriage.

*Page 206 ‡Page 206 †Page 210

11.3 per cent of the population were born elsewhere in the District. This percentage is 3 in the case of males and as high as 20 in the case of females due to the factor of marriage. Persons born in Punjab Districts other than Mahendragarh numbered 36,082 or 6.6 per cent of the population. Even in this group the percentage for females (11) is higher than males (2).

The Punjab born persons formed 91.7 per cent of the District's population. The remaining 8.3 per cent hailed from outside the State, including 3,506 persons (or 0.6 per cent of the population) from Pakistan in the wake of partition. Persons coming in the District from other Indian States were mostly born in Rajasthan (38,036) Uttar Pradesh (1,514) and Delhi (679).

Scheduled Castes.—Members of the Scheduled Castes numbered 82,194 forming 15 per cent of the total population of the District at the time of 1961-census.

Among the Scheduled Caste persons *Chamars* were the most numerous (50,413) and next in order were the *Dhanak* (18,971), *Balmik* (7,267), *Khatik* (2,558), *Bawaria* (1,374) and *Kabirpanthi* (695).

The 1951-census recorded 63,388 persons belonging to the Scheduled Castes in the District denoting an increase by 29.7 per cent during 1951-61. Neither the 1951-census nor the 1961-census recorded any person as belonging to Scheduled Tribes in the District.

The Scheduled Caste persons lag in education. Only 9.2 per cent among them could read and write as compared with 18 per cent of the general population

Households (Tables B-X to B-XVII, C-I and SCT-V)*.—Out of 547,850 persons in the District,387 were 'houseless', not having any regular place for living (Table A-I, Appendix III)@. They were members of wandering tribes, tramps, *sadhus* and pavement dwellers. The remaining 547,463 persons lived in 87,885 households. A 'household' has been defined as a person or a group of persons who commonly live together and take their meals from a common kitchen unless exigencies of work prevent any one of them from doing so.

A 20 per cent systematic sample was drawn from among the Schedules relating to households. The results of analysis of these schedules are contained in Tables B-X to B-XVII, C-I and SCT-V. Some interesting points emanating from these figures are presented below.

The average size of the household in the District works out to 6 persons. As many as 39 per cent of the households consist of 4 to 6 persons. One out of every 18 households consists of a lone man while one out of 7 has 10 persons or more.

DISTRIBUTION OF SAMPLE HOUSEHOLDS AND SAMPLE POPULATION ACCORDING TO SIZE OF HOUSEHOLDS

Households composed of	Households		Persons	
	Number	Percentage to total	Number	Percentage to total
1 person	961	5·50	961	0·88
2-3 persons	2,583	14·78	6,667	6·12
4-6 persons	6,785	38·83	34,383	31·57
7-9 persons	4,743	27·15	36,963	33·94
10 or more	2,400	13·74	29,937	27·49
Total	17,472	100·00	108,911	100·00

Size of Cultivating Holdings.—As many as 73 per cent of the households in villages are engaged in cultivation as peasant proprietors and tenants. Such households as have let out their lands in entirety or work as agricultural labourers do not come in this group. The households of peasant proprietors and tenants are distributed below according to size of their operational holdings.

*Pages 176 to 196, 198 & 229 @ Page 127

DISTRIBUTION OF 1,000 HOUSEHOLDS ENGAGED IN CULTIVATION BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY

Size of operational holdings	Per 1,000 distribution of Households	
	Mahendragarh	Punjab
Less than 1 acre	22·42	23·16
1.0 to 2.4 acres	101·40	95·49
2.5 to 4.9 acres	141·51	125·25
5.0 to 7.4 acres	163·19	154·63
7.5 to 9.9 acres	109·88	101·63
10.0 to 12.4 acres	121·62	130·11
12.5 to 14.9 acres	72·30	60·25
15.0 to 29.9 acres	201·74	217·47
30.0 to 49.9 acres	49·97	64·09
50.0 +	13·20	22·86
Unspecified	2·77	5·06

It will be seen that holdings of 15 acres and above are comparatively few in the District as compared with the State. This may be due to the sandy soils dependent on scanty rainfall discouraging cultivation on tiny plots, as also making big holdings unmanageable.

Industrial Classification of Population (Table B-1)*.—Distributes the population according to nine broad industrial categories. The reader is advised to read the note appearing before the Census Tables in Part III of this Book where these categories have been explained. These figures are expressed below interm of one thousand persons both for the District and for the State as a whole.

DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY

Industrial Category	Mahendragarh			Punjab		
	P	M	F	P	M	F
Total Population	1,000	1,000	1,000	1,000	1,000	1,000
Non-Workers	610	500	729	650	471	858
Workers	390	500	271	350	529	142
As Cultivators	308	365	247	197	274	107
As Agricultural Labourers	8	11	4	27	44	6
In Mining, Quarrying, etc.	3	4	1	3	6	1
At Households Industry	24	34	13	27	39	13
In Manufacturing	5	10	N	17	31	2

In Mahendragarh District for every 1,000 persons the workers count 390 and the remaining 610 persons are non-workers. Among males the workers are exactly half the total number and among females they are one in four (27 per cent).

Mahendragarh has a higher proportion of workers in its population than Punjab as a whole. This qosition has been brought about by women in very large numbers working in the fields. As noted earlier the percentage of men working outside the District appears to be substantially high necessitating higher participation by women in agriculture. Agriculture (Peasant proprietors, tenants and agricultural labourers) absorbs 316 persons per 1,000 in this District as compared to 224 in Punjab as a whole.

CHAPTER IV

SOCIAL AND DEVELOPMENTAL ACTIVITIES

Education (Tables 17 to 19-Part II)*.—Literacy in Mahendragarh District works out to 18 as against 24.2 in Punjab as a whole. The corresponding figure for the Indian Union is 24.0. In this respect the District is backward ; the highest position is held by Simla (43.6 per cent) and the lowest by Sangrur (16.5 per cent).

It is, however, comforting to note that during 1951-61 literacy has made progress in the District from 4.4 to 18 per cent. The number of schools and scholars during the two years are shown below :—

	Schools		Scholars	
	Boys	Girls	Boys	Girls
1951-52				
Primary Schools	87	5	4,831	287
Middle Schools	46	..	9,014	..
High Schools	11	..	1,839	..
Total	**144**	**5**	**15,684**	**287**
1960-61				
Primary Schools	347	80	19,471	3,407
Middle Schools	48	..	8,569	263
High Schools	29	5	11,393	1,402
Higher Secondary Schools	2	..	1,365	43
Total	**426**	**85**	**40,798**	**5,115**

In 1961 the school going boys in the District were 38.4 per cent of the male population in the age groups 5 to below 20 years but the girl students formed only 5.4 per cent of the females in this age group.

These figures indicate the extent to which concerted efforts have still to be made to pull up the people from the quagmire of illiteracy. The Scheduled Castes and Backward Classes are still not much enthusiastic about education despite primary education having made compulsory and encouragements being provided to them by the State. Education is free up to the middle standard in all Government and provincialised schools. Free books, freeships, stipends and scholarships are awarded to the students belonging to these classes in all institutions including colleges under the various schemes sponsored by the Central and State Governments.

Technical Education.—There is at present (1965) an Industrial School for girls at Narnaul and an Industrial Training Institute for boys at Mahendragarh, teaching smithy, wood work, radio mechanism, sewing embroidery and similar other arts and crafts. The Government Stone and Marble Carving Centre is located at Narnaul where training in stone and marble carving is imparted. Also a Women Home Craft Centre functions at Kheri in Mahendragarh Tahsil.

Colleges (Table 19)**.—The Government College at Narnaul started in 1957, had on its roll 355 boys and 7 girls in 1960. At present this is the only college in the District though another college, is expected to be established soon by a private management.

Cultural activities.—In the entire District there is not a single cultural institution or society. Some educational institutions, however, have dramatic and fine arts clubs of their own. A club where both officials and non-officials get together exist at Narnaul.

In the rural areas of the District a number of Youth Clubs, *Mahila Samitis*, *Kisan Sewak Sanghs*, *Balwaries* (Nurseries) and Community Centres have started in various Community Development Blocks for the enjoyment and recreation of ruralites.

*Page 52 **Page 52

Cinemas (Table 22)*.—There is only one cinema house in the District which was established at Narnaul in 1955-56. Some moving talkies, theatrical societies and circuses visit the District off and on. The general demand for recreation can be judged from the fact that the proceeds from the entertainment tax amounted to Rs. 624 in 1954-55 and Rs. 22,420 in 1959-60 (Table 46)**.

Libraries.—The District library at Narnaul has some good books. Besides, a number of libraries have been opened in the rural areas under the Community Development Programme during 1951-61.

Newspapers and Journals.—The only journal published in the District is the weekly 'Narnaul Patrika' started at Narnaul in 1960. It covers diverse topics and is published in Hindi.

Printing presses.—Particulars of five printing presses in the District are given in Table 20@. Two of them are located each at Narnaul and Charkhi Dadri and one at Mahendragarh. These presses are small units but are fairly adequate for the local needs.

Radios (Table 23)†.—Radio is gaining in popularity. In 1961, 1,361 licences for radio sets were issued in the District as against 849 in 1959. The radios installed in the *panchayatghars* are made good use of by the village folk and the *Dehati* programme is their special attraction.

Social welfare activities.—The District Welfare Officer looks after the interests of the scheduled castes and backward classes, and arranges for loans and subsidies for building houses, starting small scale and cottage industries for the education of children, and assists them in acquiring land for cultivation.

The Indian Red Cross Society has a branch in the District. Branches of Child Welfare Society and St. John Ambulance also exist in the District.

Political parties.—The various political parties of the country have branches in the District and the following Table shows the interests of the electorate in the last three general elections.

Year	Number of votes in the District		Votes polled in the District		Percentage of votes polled		Political Party	No. of M.L.As. elected from District	No. of M.Ps. elected from District
	For Lok Sabha	For Vidhan Sabha	For Lok Sabha	For Vidhan Sabha	For Lok Sabha	For Vidhan Sabha

							Jan Sangh	1	1

Medical and Public Health (Tables 24, 25 and 26).††—With the spread of education and the scientific treatment for ailments coming nearer the reach of the people, the methods of faith cure and quackery are being discarded gradually. Homeopathy is practised by a few practitioners in towns. The *ayurvedic* and *unani* systems are liked by the people because of simpler and familiar medicines prescribed. Government have given better recognition to these systems and the number of *ayurvedic* dispensaries in the District has increased from four in 1951-52 to 20 in 1960-61, each under the charge of a *Vaid* or *Hakim* and under the direct administrative control of the Director of Ayurvedic, Punjab.

In 1961, there were 20 allopathic hospitals and dispensaries in the District equipped with 170 beds. The Civil Surgeon looks after the civil hospitals and dispensaries run by the State Government. The District Medical Officer of Health has under him two primary health centres, four rural health centres, two family planning centres and one maternity and child welfare centre.

*Page 54 **Page 66 @Page 54 †Page 54 ††Pages 54 & 55

SPECIALISED INSTITUTIONS

A Malaria Control Unit was established in the District in 1957-58 under the National Malaria Control Programme to undertake the malaria eradication operations. The unit now carries malaria surveillance operations side by side with the spraying operations. It covered 1,148 villages and towns in 1960-61 involving 900,027 persons and an expenditure of Rs. 199,391. The number of villages, towns and persons has been counted according to the number of surveillance operations (Table 27).*

The small pox eradication programme was launched and completed in the District in 1961, when more than 90 per cent of the population was vaccinated by a team of doctors, supervisors and vaccinators. The District had been covered under this programme once before also. Facilities for vaccination and revaccination exist in all hospitals and dispensaries.

General sanitation.—Sanitation in towns is the function of the municipal committees. In rural areas, which are now covered by the national extension service blocks, the work is being looked after by the block staff, primary health units and the *panchayats*.

The P.W.D., Public Health Division, Gurgaon, executes the various health schemes in the District. In the towns of Narnaul, Mahendragarh, Charkhi Dadri and Ateli water-supply schemes have been completed. In the rural areas, water-supply schemes have been completed at Jhoju Khurd, Jhoju Kalan, Badhra Kheri, Butter, Kheri, Bura and Fatehgarh. No sewerage scheme has so far been planned in the District.

Standard of health and medical facilities.—Because of the dry climate, outdoor habits and the absence of congestion even in towns, the District remains generally free from epidemics, and the standard of health is good. Public health measures and medical facilities have improved in recent years. The number of hospitals and dispensaries in the District increased from 17 in 1955 to 20 in 1961. The number of beds in these institutions increased from 86 in 1955 to 170 in 1961, and the number of patients treated rose from 99,825 in 1956 to 153,145 in 1961. In 1956 the total expenditure on hospitals and dispensaries was Rs. 83,443 and it went up to 156,046 in 1961. The level of health of the people is accordingly rising.

Despite the improvements described above, Mahendragarh continues to be poorly served medically among the Punjab Districts. The area per medical institution worked out 67.1 sq. mile in 1960, placing Mahendragarh in the 14th position among the Punjab Districts, the lowest figure being for Simla District (13.1) and the highest for Kangra District (135.0). Similarly the population served per medical institution in the District is 26,838 which gives the District the 15th position, the lowest figures being for Lahaul & Spiti (2,272) and Simla District (6,515) and the highest for Sangrur District (33,188).

Crimes.—The District has happily a low incidence of crimes. However, being on the border of Rajasthan, the District offers temptation for smuggling goods from one State to another and for other anti-social activities.

Table 43** shows the results of trials in the criminal courts. They appear to be on the increase which, may be partly due to better registration and detection. For studying the nature of crimes in the District and their trend, the number of cases instituted in 1950 and 1961 were looked into some detail. It was found that there was a decline in cases against person and property. This was matched by an increase in excise cases. Thus whereas in 1950, 10 murders occurred in the District, their number came down to six in 1961. Two dacoities occurred in 1950, whereas none occurred in 1961. The number of burglaries was 119 in 1950 and 53 in 1961. The number of robberies declined from 15 in 1950 to one in 1961 and of thefts from 86 to 46. Eighteen cases of riot occurred in 1950 but in 1961 there were only 8. Sixteen cases were detected under the Arms Act in 1950 but only 8 in 1961. Under the Excise Act, the cases, however, increased from 4 in 1950 to 126 in 1961. The number of cases for all crimes declined from 548 in 1950 to 431 in 1961.

DEVELOPMENTAL ACTIVITIES

The following account relates to the trinity of *Samoohik Vikas, Sehkari Samaj and Panchayati Raj, i.e.* Community Development, Co-operation and *Panchayats*.

Community Development.—The administrative set up of the Community Development work has been given in the 1st Chapter. The first block in the District was started on 1st April, 1956 and by 1962 the entire rural area had been covered by 8 development blocks.

The programme of Community Development and National Extension Service has come to occupy an important place for taking the technological advances, particularly in the field of agriculture, right to the door of the farmers. The object is to improve the whole texture of rural life by originating a self-generating process of change

*Page 55 **Page 65

and growth. People's participation and contribution in this programme is of prime importance. It is not easy to assess this contribution because it is mostly in the shape of manual labour and voluntary participation which is difficult to evaluate. The achievements of these blocks cannot be set out in exact terms. Hence, a broad outline of their activities is given below.

Improved seeds, implements, green manure and fertilizers are supplied to cultivators at subsidized rates. They are encouraged to preserve dung in pits. The development authorities also help the farmer in reclaiming land and in laying out model farms. Financial assistance is given for constructing percolation wells and installing pumping sets and tube-wells.

Cow and buffalo bulls of good breed are supplied to villagers. Artificial insemination centres have been opened at 13 centres, each having a few key villages attached to it, and maintaining some pedigree bulls.

Health and sanitation activities cover opening of new hospitals, rural health centres, rural dispensaries, child welfare and maternity centres, construction of drains, dry latrines and smokeless *chullahs*, pavement of streets, installation of hand-pumps and construction of wells for drinking water.

Educational activities cover opening of new schools, upgrading of old schools, conversion of schools into basic type and construction and repairing of school buildings. In adult literacy centres, men and women are encouraged to learn the three Rs' The experiment has, however, yet to prove its efficacy. Libraries and reading rooms are started and young villagers are encouraged to organise into youth clubs. *Mahila Samitis* are organised for the welfare of women folk. Children's parks and *balwaries* (nurseries) are started for the benefit of the children. *Panchayatghars* and community centres are provided, and radio sets are supplied for the benefit of the community.

People are encouraged to construct and improve roads. The villagers are also encouraged to organise themselves into co-operative credit societies, industrial societies, farming societies and service societies of various kinds.

Village and small scale industries are encouraged by setting up demonstration-cum-training centres where villagers are trained in various arts and crafts. The block development authorities have tried also to set up model villages to serve as examples for other villages.

Co-operation (Tables 15 and 16).*—Co-operation has been practised in the District since long. In Dadri Tahsil, which was part of the erstwhile Jind State, 21 agricultural co-operative societies were functioning at the time of its merger with the District in 1948. In Narnaul and Mahendragarh Tahsils of the former Patiala State, the movement made good progress during the controlled era. A number of grain dealers' co-operative associations were organised from 1943 onwards almost in every marketing centre. In 1950 the District office of State Co-operative Department was established, with an Assistant Registrar, assisted by a number of Circle and Tahsil Inspectors. The following figures will indicate the progress made by the movement in recent years:—

Year	Societies	Members
1956-57	600	24,698
1959-60	1,119	53,058

By 1960-61, 9.6 per cent of the entire population of the District had been brought within the fold of co-operation. Banks and banking unions finance the societies affiliated to them. There was one such bank in the District in 1959-60 with a membership of 541 and working capital of 2,296 thousand rupees. The bank issued loans to the tune of 1,931 thousand rupees.

In 1956-57, there were 125 agricultural credit socities with a membership of 8,393 and a working capital of 875 thousand rupees and these societies issued loans of 333 thousand rupees. By 1959-60, their number went up to 281 with a membership of 18,757 and a working capital of 2,702 thousand rupees, in that year they issued loans to the tune of 1,367 thousand rupees.

There were 3 marketing societies, 14 weavers' societies, 10 consumer societies, 2 housing societies, 5 farming societies and one milk-supply society in the District in 1959-60. These societies have proved helpful in eliminating the exploitation of the artisans by the middlemen and also to the members in the purchase of raw material and disposal of finished products.

Panchayati raj (Table 37)**.—According to Mahatma Gandhi, "India's independence must begin at the bottom. Thus every village will be a republic or a *panchayat* having full powers. In this structure composed of

*Pages 49 & 50 †Page 59

innumerable villages, there will be ever-widening, never-ascending circles. Life will not be a pyramid with the apex sustained by the bottom. But it will be an oceanic circle whose centre will be the individual, always ready to perish for the village."

The organisation of the village *panchayats* is one of the directive principles of the State policy in the Constitution of India. The Punjab Gram Panchayat Act, 1952, as amended up to date, and the Punjab Panchayat Samitis and Zila Parishads Act, 1961, form the corner-stone of the *Panchayati Raj* in the State. This structure consists of 3 tiers, namely, a *panchayat* at the village level, a *Panchayat Samiti* at the block or tahsil level and a *Zila Parishad* at the District level. These three institutions are organically linked with each other by means of indirect elections. They do not constitute a hierarchy where one is subordinate to another. They have clearly defined spheres of activities and have independent sources of revenue. This enables them to function without losing initiative and self-reliance.

Gram Panchayats.—The vilage *panchayat* has 5 to 9 members including a sarpanch elected by adult franchise. There is adequate representation for women and for the scheduled caste persons. In case no woman is elected as a *panch*, one is co-opted as additional *panch*. The election to the *panchayat* is held by secret ballot and its term is three years. The first general election for *gram panchayats* were held in 1953 and for a second time in 1961.

In 1951-52, there were 75 *gram panchayats* in the District with very restricted functions. It increased to 280 in 1955-56 with a membership of 2,430 and to 414 with 2,254 members in 1960-61.

The *panchayats* are expected to provide cheap and ready justice. On the criminal side they have powers to try minor offences like petty theft, hurt, affray and committing public nuisance. They are under the control of the District Magistrate who hears appeals against their orders and can transfer cases from one *panchayat* to another. On the civil and revenue side, the *panchayats* have powers to try civil and revenue cases up to a certain limit and in respect of these cases they are under the control of the District Judge and the Collector respectively.

Most of the villages are, however, faction ridden and the elections appears to have added to the factional spirit. The *panchayat* proceedings are often marred by group rivalries.

With the spread of education, proper guidance and maturity of public opinion, it is hoped that things will improve.

In 1953-54, 114 criminal cases were instituted with the *gram panchayats* in the District. Of these 89 cases were decided and 12 cases were transferred. In that year the *panchayats* also tried, 3,181 civil and revenue cases, out of which 2,067 cases were transferred and 597 cases were decided. In 1960-61, the number of fresh criminal cases instituted before the *panchayats* was 89 while 13 cases were pending in the beginning of the year. The number of cases decided was 53. On the civil and revenue side in 1960-61, 742 new cases were instituted while 164 cases were pending in the beginning of the year. 555 cases were decided.

The figures quoted above call for two observations. First there has been a substantial reduction in the number of cases coming before the *panchayats*. This reduction is attributed by some to the villagers having preference for regular courts to adjudicate their disputes where they expect more impartiality. Second, a majority of cases coming to the *panchayats* are compromised. This is a healthy feature making for harmony among the village community.

Besides, the *panchayats* look to the requirements in their respective areas in regard to agriculture, education, animal husbandry, health and sanitation, including water-supply works of public utility, games and sports, industries, medical health and relief to the poor. They are expected to arrange 50 per cent of the cost of local development works sponsored by the development department in cash, kind or labour. With the help of the Departments concerned, the *panchayats* have done some really good work. Tables 37 and 39* throw light on the progress made by *panchayats* in various spheres through their own efforts and through the assistance of the community development and other departments.

The village common lands now vest with the *panchayats*. They receive a percentage of land revenue collected in the villages under their charge and grants from the Government and sometimes from local bodies. They levy house tax, professions tax and raise voluntary contributions. The fines and penalties they impose are also transferred to their funds. In 1960-61 the total income of *panchayats* in the District was 939,000 rupees and their total expenditure on education, libraries, public works, public health, agriculture and veterinary services and administration amounted to 949,000 rupees.

Panchayat Samitis.—There is a *panchayat samiti* for each block consisting of 16 members elected by the *panches* and *sarpanches*, two members elected by co-operative societies, and one member elected by the market

*Pages 59 & 61.

committees. Besides, every M.L.A. with his constituency in the block and such members of the Punjab Legislative Council as the Government may specify, work on the *samiti* as associate members. Two women interested in social work and 4 persons belonging to the scheduled castes, if not elected otherwise, work as co-opted members. The S. D. O. (Civil) and the Block Development and Panchayat Officer of the block work as *ex-officio* members. The associated and *ex-officio* members do not have the right to vote. The Chairman and the Vice-Chairman are elected from among the elected members for a term of 3 years. The Block Development and Panchayat Officer is, howerver, the *ex-officio* Executive Officer of the *samiti*.

The *panchayat samiti* provides and makes arrangements for carrying out the requirements of the area under its jurisdiction in respect of agriculture, animal husbandry and fisheries, health and rural sanitation, communications social education, co-operation and other such miscellaneous duties as development of cottage and small scale industries and other local development works. The *samiti* is also the agent of the government for the formulation and execution of community development programmes.

The sources of income with the *samiti* are the local rates as charged by the *zila parishad*, the fees derived from public institutions like schools and markets, fees from fairs and shows, rents and profits accruing from property vested in it and such monies and grants as Government may place at its disposal from time to time. The *samiti* can with the permission of the *zila parishad*, impose any tax which the State Legislature has powers to impose under the Constitution.

Zila Parishad.—The *zila parishad* consists of the Chairman of every *panchayat samiti*, two members elected by each *panchayat samiti*, every M.P., M.L.A., M.L.C. representing the District or any part thereof and the Deputy Commissioner. Two women and 5 members belonging to the scheduled castes, if not elected otherwise, are co-opted as members. The M.Ps, M.L.As and M.L.Cs and the Deputy Commissioner do not have the right to vote. The *parishad* has a Chairman and a Vice-Chairman elected for three years by the members.

The *parishad* consolidates and co-ordinates the plans prepared by the *panchayat samitis*, examines and approves the budgets of the *panchayat samitis* and advises the Government concerning *panchayats* and *panchayat samitis* and keeps watch over agricultural production programmes and construction works.

The income of the *parishad* accrues from the Central or State Government funds allotted to it, grants from all India bodies and institutions for the development of cottage, village and small scale industries, a share in the land cess, income from endowments and such contributions as the *zila parishad* may levy on the *panchayat samitis*.

The *zila parishad* has already started functioning in the District replacing the age-old District board.

Local bodies (Table 38)*.—As mentioned in Chapter I, there are municipal committees functioning in all the five towns of the District. Charkhi Dadri municipal committee is of long standing, constituted in 1937. Mahendragarh and Narnaul municipal committees were constituted in 1945 whereas Kanina and Ateli were constituted in 1949. Among the present municipal committees only 2 belong to Class II while the other 3 belong to Class III. Two municipal committees have less than 1 square mile area to administer. The Charkhi Dadri municipal committee has the maximum area to administer which is 8·50 sq. miles. The number of members of various municipal committees in the District varies between 8 to 10.

The combined revenue of the local duties and other sources of income of all the municipal committees in the District during 1960-61 amounted to Rs. 1,107,242. Mahendragarh municipal committee has a revenue of over 4 lakh rupees. Charkhi Dadri and Narnaul municipal committees have revenue of over 3 and 2 lakh rupees respectively. The income of Kanina and Ateli municipal committees is less than 50,000 rupees. The income per capita was highest for Mahendragarh (50.51) and the lowest for Kanina (7.16). Octroi is the major source of revenue of all the municipal committees constituting 40.84 per cent of the total revenue. The combined expenditure of the local bodies during 1960-61 amounted to Rs. 1,314,048. The maximum amount is spent on water-supply (19.26 per cent) followed by public health (12.3 per cent). The expenditure per capita was highest for Mahendragarh (Rs.51.22) and the lowest for Kanina (Rs. 5.23).

Electrification.—By 31st March, 1961 all the 5 municipal towns and thirteen villages in the District had been electrified. The target during the Third Five-Year Plan is to electrify another 226 villages in the District. Electricity brings mirth in domestic life and provides cheap and ever ready energy for industry and irrigation to fields. It is hoped that during the next few years the face of the country will change with this new power.

EXPLANATORY NOTE

The scope of the District Census Handbook has been enlarged this time, so as to include statistics on a variety of subjects listed below. The material was collected from the concerned departments and the co-operation from them is acknowledged in the form of a foot-note under each Table.

There are in all 52 Tables in this Part grouped under the following heads :—

Rainfall and Temperature	Table 1
Agriculture	Tables 2 to 10
Livestock and Implements	Tables 11 and 12
Industry	Tables 13 and 14
Co-operation	Tables 15 and 16
Education	Tables 17 to 19
Printing and Publishing	Tables 20 and 21
Entertainments	Tables 22 and 23
Medical & Public Health	Tables 24 to 30
Vital Statistics	Tables 31 and 32
Transport & Communications	Tables 33 to 36
Local Administration	Tables 37 to 39
Banks, Insurance & Savings	Tables 40 to 42
Justice & Administration	Tables 43 to 49
Miscellaneous	Tables 50 and 51
Fairs & Festivals	Table 52

RAINFALL AND TEMPERATURE

Table 1 presents monthly and annual rainfall and the number of rainy days, separately during ten years ending 1960, for the various stations in the District. In the last column has been shown the average rainfall in each month during the years 1951 to 1960. These figures are very interesting since they bring out the seasonal distribution of rains.

The rainfall figures have been given in inches, but the annual figures have been shown also in centimetres. Rainfall records are maintained at various important stations in the District.

AGRICULTURE

Table 2 shows the utilisation of land in the District for the period 1901—1961. Information has been worked out for the quinquenniums centring around the census years 1901, 1911, 1921, 1931, 1941, 1951 and 1961. In this case the year is the agricultural year, ending with 30th June.

The classification of area has been made according to the following scheme :—

(i) *Geographical area* represents the total land area as worked out from the Surveyor General and Village Papers. The changes in the area may be due to territorial adjustments, or remeasurement of land.

(ii) *Forests* include all area actually under forests, whether State owned or private, and administered as forests.

(iii) *Land not available for cultivation* comprises land put to non-agricultural uses, barren and un-cultivable land like mountains, river and canal beds, roads and railway lines, buildings, etc.

(iv) *Other un-cultivable land* includes (a) culturable wastes and other fallow ; (b) permanent pastures and other grazing lands ; and (c) land under miscellaneous tree crops and groves, not included under net area sown.

Category (a) comprises land which can be brought under cultivation but which has not yet been cultivated or has remained un-cultivated successively for more than four years. Category (b) includes all such lands which are used permanently for grazing or collection of grass. Category (c) includes lands bearing fruit orchards and other plantations.

(v) *Fallow land* is of two types: First, lands which have remained out of cultivation for a period not less than one year but not more than 4 years, second, lands which are left fallow upto one year only (current fallows).

(vi) *Net area sown* is the area on which sowing is actually done during the course of a year.

(vii) *Area sown more than once* is that portion of the net sown area which was sown more than once in a year.

(viii) *Total cropped area* is the gross area under all crops in a year, and is the total of net area sown and area sown more than once.

The sources of information for this Table are the Indian Agricultural Statistics (Volumes I and II) and the Annual Season and Crop Reports published by the Director of Land Records, Punjab.

Table 3 shows assessment circle-wise classification of land in the District for 1960-61 : total area according to Village Papers ; area under forests ; area not available for cultivation ; area available for cultivation ; and cultivated area according to means of irrigation. No publication has so far given such a useful and comprehensive data. It is for the first time that such information was collected.

Table 4 presents net area irrigated from (1) Government canals, (2) private canals, (3) tanks, (4) tube-wells, (5) other wells and 'other sources'. The information is presented for the same quinquenniums as selected for Table 2.

Table 5 presents gross area irrigated under various food and non-food crops in the District, for selected quinquenniums during 1901—61.

Table 6 shows area under principal crops in the District for selected quinquenniums during 1901-61. The principal crops have been classified into three categories : (I) Basic food crops, (II) Other food crops, and (III) Non-food crops.

Table 7 presents the average yield per acre of principal crops in the District: *jowar*, wheat, *bajra*, barley, gram, rape, and mustard. Information is given for 11 years ending 1960-61, and the yield figures are in terms of lbs. per acre.

Table 8 presents wages for man, woman and child separately for skilled and un-skilled workers in selected agricultural occupations in the District during 1953, 1956 and 1960. Wages are in terms of rupees per normal working day of 8 hours and have been given for each month separately. The information relates to only one village.

Table 9 presents wholesale prices of various agricultural products like the rice (unhusked), wheat, barley, *jowar*, *bajra*, maize, gram, rape seed, *til*, *gur*, unginned cotton, etc., as obtaining in the market at Narnaul. Prices are in terms of rupees and maunds, and are for each month, 1957 to 1960.

Table 10 presents arrival of various agricultural commodities for sale in different regulated markets in the District during the year ending 30th June, 1961.

LIVESTOCK AND IMPLEMENTS

Table 11 presents figures for livestock and poultry for the District for the years 1920, 1923, 1935, 1940, 1945, 1951, 1956 and 1961. Poultry includes, hens, cocks, chickens, ducks, drakes and ducklets.

Table 12 provides information on agricultural implements and machinery for the District and each Tahsil for 1956 and 1961. The information is collected along with quinquennial livestock census, conducted by the Director of Land Records, Punjab.

INDUSTRY

Table 13 relates to the working of registered factories during the year 1956, 1958 and 1960.

Table 14 gives particulars about registered factories in Punjab as on 31st December, 1961. It also gives detailed information regarding the number of workers and nature of work.

CO-OPERATION

Table 15 presents information on various types of co-operative societies in the District. Particulars are given of the number of societies, their membership, working capital and loans issued. The figures relate to the years 1950-51 to 1959-60.

Table 16 gives the number and membership of various types of non-credit co-operative societies in the District during 1950-51 to 1959-60.

EDUCATION

Table 17 presents the progress of school education in the District during the years 1951-52 to 1960-61. Information has been given separately for Primary, Middle, High and Higher Secondary schools. Part (a) of the Table shows the number of schools and Part (b) the number of scholars for boys and girls schools.

Table 18 presents for each industrial school in the District scholars studying during the years 1951 to 1960.

Table 19 gives the number of Arts and Science and Professional colleges in the District during the year ending 1960.

PRINTING AND PUBLISHING

Table 20 relates to printing presses in the District working in 1960 : the year of declaration, the languages in which the matter can be printed, the number of printing machines and the power used.

Table 21 lists the newspapers, magazines and periodicals published in the District during 1961 : the place of publication, the year of establishment, the language, the number of copies printed, retail selling price, and its main interest. The publications have been arranged according to the frequency of their circulation.

ENTERTAINMENTS

Table 22 shows the number of cinema houses in the District during the years 1951-52 to 1959-60.

Table 23 shows the number of broadcast receiving licences issued in the District during the calendar years 1959, 1960 and 1961.

MEDICAL AND PUBLIC HEALTH

Table 24 shows the number of hospitals and dispensaries in the District as on 1st January, 1961, and the number of beds for each type of hospital and dispensary.

Table 25 shows the number of hospitals and dispensaries providing ayurvedic treatment in the District during the years 1951-52 to 1960-61 and the number of 'Vaids' and 'Hakims' working there.

Table 26 shows the cases treated and expenditure incurred by each maternity and child welfare centre in the District during the calendar year 1960.

Table 27 presents the work done and expenses incurred by the Malaria Control Unit from 1953-54 to 1960-61 in the District.

Table 28 informs about the number of persons sterilized and other steps undertaken by the family planning centres in the District during the years 1960 and 1961.

Tables 29 shows the location of the primary health units and centres and rural health centres as on 1st October, 1961.

Table 30 shows prosecutions under Pure Food Act in the District during 1960.

VITAL STATISTICS

Table 31 shows the number of births and deaths sex-wise as recorded in the District during the years 1951 to 1960.

Table 32 gives the number of deaths classified according to different causes and of infant mortality for the years 1951 to 1960.

TRANSPORT AND COMMUNICATIONS

Table 33 gives road mileage in the District as on the 31st March, 1961. Information is categorised according to the roads maintained by Public Works Department and *Zila Parishad* and by the Municipal Committees ; according to National Highways, State Highways, Major District Roads, Minor District Roads and Village Roads ; and according to metalled and un-mettaled roads.

Table 34 gives a list of Post Offices in the District as on 31st March, 1961.

Table 35 is a list of railway stations located in the District.

Table 36 shows distances as between different places in the District.

LOCAL ADMINISTRATION

Panchayats.—Table 37 shows the working of *panchayats* in the District during 1960-61 ; number of *panchayats*, their number, beneficial and judicial activities, and income and expenditure.

Local Bodies.—Table 38 deals with Local Bodies in the District as on 31st March, 1961. It gives information for each Local Body, area served, population, the number of members, and income and expenditure during 1960-61.

Community Development.—Table 39 shows the community development activities in the District as on 31st March, 1961 : for each block; its stage; area, number of villages and population covered, Government expenditure and people's participation in terms of money in the First and Second Five-Year Plans, and achievements in different spheres.

BANKS, INSURANCE AND SAVINGS

Table 40 shows the various banks operating in different towns of the District as on the 31st March, 1961.

Table 41 shows the number of new insurance policies issued and sum assured annually in the District from 1957 to 1960.

Table 42 gives a detailed account of various small saving schemes launched and progress achieved in the District during 1957-58 to 1960-61.

JUSTICE AND ADMINISTRATION

Table 43 gives information regarding criminal justice, cases tried and persons convicted in the District annually from 1951 to 1960.

Table 44 shows the sanctioned strength of Police and the number of Police Stations in the District as on 31st December, 1960.

Table 45 gives information about jails and their inmates classified according to the periods of sentence in the District as on the 31st December, 1960.

Table 46 shows the receipts from State Excise Duties, Sales Tax, Entertainment Tax and Motor Spirit Tax in the District annually from 1950-51 to 1959-60.

Table 47 presents land revenue receipts in the District during 1950-51 to 1960-61.

Table 48 shows transactions in land by sales, mortgages, redemption and gifts and exchanges during 1956-57 to 1960-61.

Table 49 presents the number of instruments registered and value of property transferred in the District annually from 1951-1960.

MISCELLANEOUS

Table 50 presents important events occurred in each Tahsil of the District during the period 1951—60.

Table 51 shows the monuments and better known places of worship or tourist interest in rural areas of the District, arranged according to Tahsils. Information is also given about its distance from nearest railway station and whether any fair is held there.

37

FAIRS AND FESTIVALS

Table 52 relates to fairs and festivals. The material for this Table was collected from a number of agencies: Headmasters of Schools, *Patwaris*, Police Stations, District Officers of Health, and Municipal Committees.

The fairs and festivals are arranged for villages in Tahsils according to the Hadbast Numbers. Information is given for each fair relating to the date on which it falls, duration, its significance and any legend connected with it, mode of observance and other entertainments, approximate number of visitors and the distance they come from, whether restricted to any particular caste or observed generally, and the commodities sold.

Nautana H.B. 48	Teej	Sawan Sudi 3 (July-August) One day	Seasonal and recreational† In honour of Raja Sultan and his Rani Nihalde who were united here.

†The legend goes that Raja Sultan, the son of the ruler of Keechakgarh, was exiled by his parents. During the period of his exile was married to the daughter of Maan, the brother of Raja Magh, the ruler of Kelagarh and the father of Rani Nihalde.

One day, Raja Sultan, accompanied by Phool Singh, went out on hunting. It began to rain ; Phool Singh came back home enjoying swinging with her companions. Since it was raining, the Raja offered and covered Rani's head with his shield. They both fell mother who felt infuriated and decided to arrange her *swaymber* (Marriage by fulfilling a condition). The condition was to strike an and won the Rani in marriage.

When only six months of his exile were left, the Raja leaving his Rani at Indergarh, left for Nawalgarh, for spending the lapse of six months, the Raja came back to Indergarh. It was night time and Rani Nihalde did not recognise his voice pyre she had prepared to end her life. But fortunately Rani's companions recognised the voice of Raja Sultan and thus the

After the period of exile was over, the Raja went back to Keechakgarh where he found his parents in great distress, one Balwant restored the kingdom of his father. After his father's death, Raja Sultan ascended the throne and lived happily with Rani Nihalde.

EXPLANATORY NOTE

The Tables presented below have been prepared from the data collected during the 1961-census. Some of the Tables give information upto Tahsil and Town level, and have been prepared exclusively for this volume. Tables A-IV, B-III (Part A), B-VI, B-VIII (Part A), C-III (Part B), and SCT-III (Part A) give information only for urban areas. Tahsilwise Tables for urban areas could not be prepared since sorting of slips was done for non-city urban area of the District as a single unit. Slips for the five cities in the State were, however, sorted separately. The Tables have been grouped under suitable series and are explained below.

A—SERIES : GENERAL POPULATION TABLES

These Tables deal with distribution of population in 1961 and its growth since 1901. There are four Tables and three Appendices in this series.

Table A-I shows area both in square miles and square kilometres ; number of villages, inhabited and uninhabited ; number of towns ; number of occupied houses : and population for the District, each Tahsil and Town, with sex break-up. The figures for Towns have been given below the Tahsils in which they are located. Figures are given for the total, rural and urban areas, separately.

The area figures for the District and Tahsils were obtained from the Director of Land Records, Punjab and those for urban areas from the respective Local Bodies. Rural figures were worked out by substracting the urban figures from the total area figures.

Occupied residential house refers to those houses which were actually used for residence, either exclusively or jointly with some other use. Thus vacant houses and houses used for shops, factories, workshops, offices, etc., have not been included in these figures.

In the 1961-census an *urban area* or *town* was defined as a place having a local administration, such as Municipal Committee or Cantonment Board,or an area treated as a town because of its having (a) population exceeding 5,000, and (b) at least 75 per cent of its male workers were engaged in non-agricultural pursuits.

Persons were enumerated according to the place of their residence and not their place of work, except in the case of visitors who were enumerated wherever the enumerators met them and on inquiry were told that such persons had not been enumerated before. The population so recorded in towns has been styled as *urban population* and the rest as *rural population.*

Village, as in previous censuses, refers to an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government had otherwise declared as an 'estate'. This definition of *village* is identical with that of '*mauza*' under section 3 (1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to a residential site. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit is '*phati*'. In Lahaul & Spiti District the revenue estate is referred to as '*kothi* and its components as '*gaon*'.

Appendix I shows the territorial changes which took place during the decade 1951-61. Such Tahsils as had not undergone any change of area during the decade have not been mentioned in the Appendix.

Appendix II shows the number and population of villages each having 5,000 or more persons, and towns with population under 5,000. The population living in such big villages and towns of small size has also been shown as percentage of total, rural and urban population, under cols. 4 and 7.

Appendix III relates to the houseless and institutional population.

Members of wandering tribes, tramps, pavement dwellers and others who do not live as households comprise the *houseless population*. These persons were enumerated on the night between the 28th February, and 1st March 1961.

Residential institutions such as, jails, hostels, hotels and boarding houses, were treated as households, and their inmates were treated as members of these households. Policemen and Defence personnel living in barracks or under canvas, and taking their meals from a common kitchen, were also treated as *institutional* population.

Table A-II shows the population of the District at the time of censuses from 1901 to 1961, and variations in population—in absolute figures and percentages—in each decade. The population figures for the previous censuses have been adjusted according to the 1961 territory of the District.

In Table A-III the villages have been graded according to the size of population as shown below, and for each group the number of villages and population have been shown.

Villages with population—

(a) less than 200 ;
(b) 200 to 499 ;
(c) 500 to 999 ;
(d) 1,000 to 1,999 ;
(e) 2,000 to 4,999 ; and
(f) 5,000 or more.

The term 'village' has already been defined.

Table A-IV shows the population of each town since 1941. The absolute and percentage variations during the two decades have also been worked out. Where a town was not treated as such in any earlier census, its population for that census has not been shown in this Table.

Where two or more towns are adjacent and together form a compact urban unit, their combined population as a town group has also been worked out.

B—SERIES : ECONOMIC TABLES

The Tables of this series relate for the most part to economic activities : thirteen among them deal with the population as individuals and the other nine as households. The population has been distributed in the first instance into Workers and Non-workers. The Workers have been classified (a) into nine industrial categories further sub-divided into major and minor groups as listed in the "Indian Standard Industrial Classification"(Annexure A) adopted by the Government of India, and (b) according to occupations listed in the "National Classification of Occupations" (Annexure B).

In earlier censuses income or economic independence was taken as the criterion for measuring the economy of the country. Account was made of all the persons who were economically independent and those who were economically dependent. An intermediate category of semi-dependence was introduced from the 1931-census. This category was called 'working dependent' in 1931, 'partly dependent' in 1941 and 'earning dependent' in 1951. A radical change was made in 1961 on the basis of classification of population, discarding economic independence in favour of work.

In the 1961-census a person was classed as worker if engaged in seasonal work and worked at least for an hour a day throughout the greater part of the working season. If engaged in any trade, profession or service, the basis of work was satisfied if the person was employed during any of the fifteen days preceding the enumeration. Of course, the concept of work covered also supervision and direction of work.

A person who was working but was absent from work due to illness or other reasons, was also counted as a worker. A person who was offered work but did not actually join was, however, taken as a non-worker. Persons under training as apprentices with or without stipends or wages were also recorded as workers.

An adult woman who was engaged in household duties but did no other productive work to directly augment the family resources was not considered to be a worker. But if in addition to her household work she engaged herself in an activity, such as rice-pounding for sale or wages, domestic service for wages, collecting and selling grass or firewood, or making and selling cow-dung cakes, she was treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty or rent or dividend receivers, who earned an income but were not participating in any productive work were not treated as workers unless they also worked in cultivation, industry, trade, profession, business or commerce.

A public or social service worker actively engaged in public service or furthering the cause of a political party was recorded as a worker.

The census questionnaire did not have any question to determine the position about a person being fully or partially employed.

A person doing more than one work was classed under the principal work which consumed a larger portion of his working time, and not according to the work which brought him a major portion of income.

Table B-I gives figures for workers and non-workers according to sex and broad age-groups. Workers have been classified into the following nine industrial categories :—

(1) as cultivators ;
(2) as agricultural labourers ;
(3) in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities ;
(4) at household industry ;
(5) in manufacturing other than household industry ;
(6) in construction ;
(7) in trade and commerce ;
(8) in transport, storage and communications ; and
(9) in other services.

Cultivator is a person who is engaged in cultivation on his own or rented land, i.e., an owner-cultivator or tenant.

Agricultural Labourer is a person who works on another person's land for wages in cash, kind or share of produce.

Household Industry is an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas.

Construction refers to construction and maintenance of buildings, roads, railways, bridges, canals, etc. The other five categories are self-explanatory.

Non-worker is a person who is not at work, as defined above.

Table B-III (Part A) has been prepared only for the urban areas and gives the classification of workers and non-workers by educational levels. Workers have been distributed further into nine industrial categories.

In the 1961-census, the test for literacy was ability to read and write a simple letter. A person who fulfilled this test was taken as *literate*. In case he had attained any educational standard, the highest examination passed was recorded in the enumeration slip.

These qualifications have been grouped into six educational levels. The sixth level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree" is sub-divided into seven groups.

Table B-III (Part B) relates to rural areas, and the educational levels are confined only to (i) Primary or Junior Basic, and (ii) Matriculation or above.

Table B-IV (Part A) shows the distribution of workers engaged in household industry by sex and class of workers, They have been divided further into branches of industry listed in the "Indian Standard Industrial Classification" (Annexure A). Figures have been given for total, rural and urban areas for the District. Tahsil figures are only for rural areas, and up to the industrial Divisions. Major groups which do not have any figures, have been excluded from this Table. In cols. 5 and 6 the workers, who work as employees in the household industry run by others, have been shown. 'Others' under cols. 7 and 8 include workers, who work at their own household industries.

Table B-IV (Part B) shows the distribution of workers engaged in industrial categories III, V, VI, VII, VIII and IX. Workers have further been divided into various Divisions and Major Groups according to the "Indian Standard Industrial Classification" (Annexure A). Material is given only for total and urban areas. Figures for rural areas have not been given in order to save space. Workers have further been classified into employers, employees, single workers and family workers.

An employer is a person who employs other persons in order to perform economic activity in which he is engaged.

An employee is a person who works under others for wages or salary in cash or kind. Persons who are employed as Managers, Superintendents, Agents, etc., and in that capacity employ or control other workers on behalf of their employer have also been taken as employees.

Single worker is a person who works of his own accord without employing others and without the help of other members of the family. This includes members of co-operatives also.

Family worker is a person who works in his own family without wages or salary.

Table B-IV (Part C) shows the distribution of all workers, other than cultivators and agricultural labourers into various Industrial Divisions, Major Groups and Minor Groups of "Indian Standard Industrial Classification" (Annexure A). The number of workers in each Division, Major Group or Minor Group has been divided further into workers in household industry and workers in non-household industries. Material is given only for total and urban areas. Tahsil figures for rural areas are given up to Industrial Divisions. Major and Minor Groups, which do not employ any worker, have not been included in this Table.

Table B-V gives the distribution of persons at work, other than cultivators and agricultural labourers, according to their occupation. Occupations have been divided into various Divisions, Groups and Families according to the "National Classification of Occupations" (Annexure B). Break-up according to Industrial categories has also been shown for each Occupational Division, Group and Family. Total and urban figures have been given for the District. But in the case of Tahsils, rural figures have been given only up to Occupational Divisions.

Table B-VI presents the distribution of workers, other than those engaged in cultivation. This has been prepared only for urban areas and upto the Divisions of the "National Classification of Occupations" (Annexure B). Persons of each Occupational Division have been further classified by broad age groups and educational levels.

Table B-VII has been prepared into two parts. **Part-A** is a cross tabulation of persons whose principal and secondary work are any two of (i) cultivation, (ii) agricultural labour, or (iii) household industry. **Part-B** gives data of the persons who are principally engaged in non-household industry, trade, business, profession or service but have household industry as secondary work.

This Table has been prepared separately for total, rural and urban population for the District. For Tahsils, figures have been given only for Industrial Divisions and that too for rural areas.

Table B-VIII has been prepared in two parts : **Part-A** for urban areas, and **Part-B** for rural areas. They show the distribution of unemployed persons aged 15 and above, by educational levels. The unemployed persons are the total of columns 19 to 22 of Table B-IX.

In **Part-A**, unemployed persons have been further divided into two groups : (i) seeking employment for the first time ; and (ii) persons employed before but now out of employment and seeking work. These groups have been divided into different age groups also. **Part-B** gives Tahsilwise information also.

Table B-IX relates to non-workers and gives their distribution into the following eight types of activities by broad age groups :—

(i) whole-time students doing no other work ;
(ii) persons engaged in unpaid home duties ;
(iii) dependents, including children not attending school, and persons permanently disabled from work because of illness or old age ;
(iv) retired persons, not employed again, rentiers and other persons of independent means without having to work ;
(v) beggars, vagrants or independent women without an indication of their source of income ;
(vi) convicts in jail or inmates of a penal, mental or charitable institutions ;
(vii) persons seeking employment for the first time ; or
(viii) persons employed before but now out of employment and seeking work.

Separate figures have been given for total, rural and urban areas for the District and only rural figures in case of Tahsils.

HOUSEHOLD ECONOMIC TABLES

Household Economic Tables (B-X to B-XVII) have been prepared from a 20 per cent sample of household Schedules. In the census history, information for the household as a whole has been collected for the first time.

The Household Schedule consists of two parts. In **Part-I**, after recording the name of the head of the household and whether he belonged to a Scheduled Caste or Scheduled Tribes, the following particulars were recorded about the household.

A. If the household was engaged in cultivation, the area of land with it under ownership and tenancy, and any portion of holding given out to others for cultivation. Information about area rented out was also recorded for the households who owned land and had given the entire holding to others for cultivation ;

B. If the household was engaged in household industry, the nature of the industry and the number of the months in a year it was conducted ; and

C. Number of members of the household and any hired workers pursuing household cultivation, household industry, or both these activities.

Part-II was filled in from Individual Slips of the persons residing in that household.

Table B-X contains information on sampled households which have been divided into the following four categories :—

(i) engaged neither in cultivation nor in household industry ;
(ii) engaged in cultivation only ;
(iii) engaged in household industry only ; and
(iv) engaged both in cultivation and household industry.

The number of households given in column 3 if multiplied by 5 will not tally with that given in the Primary Census Abstract, because the schedules relating to institutions were not taken into account for drawing the sample.

In Table B-XI the sampled households, engaged in cultivation, have been classified by interest in land and size of land cultivated. This Table has been prepared for rural and urban areas separately. Interest in land is of the following three types :—

(i) owned or held from Government ;
(ii) held from private persons or institutions for payment in money, kind or share ; and
(iii) partly owned or held from Government, and partly from private persons for payment in money, kind or share.

These types of interest in land have been cross-tabulated by different sizes of land-holdings.

Table B-XII classifies the cultivating households by (1) size of land cultivated, and (2) number of family and hired workers engaged in cultivation. Sex break-up of the family workers has also been given.

Table B-XIII shows the distribution of sampled households engaged both in cultivation and household industry, into different sizes of land holding, separately for rural and urban areas of the District. Household industries have been divided into Major Groups according to "Indian Standard Industrial Classification" (**Annexure A**).

Table B-XIV has been prepared into two parts, separately for total, rural and urban population of the District. In **Part-A** the households have been distributed by nature of household industry and number of persons engaged into the following five size groups :—

(i) 1 person ;
(ii) 2 persons ;
(iii) 3 to 5 persons ;
(iv) 6 to 10 persons; and
(v) more than 10 persons.

This part gives data up to Major Groups, while **Part-B** gives the distribution up to Minor Groups. Col. 2 gives description of the industry.

Table B-XV is similar to Table B-XII, but relates to such households as were engaged simultaneously in cultivation and household industry.

Table B-XVI attempts distribution of sampled households engaged in household industry, according to period of working and number of persons engaged therein, separately for total, rural and urban areas of the District. Data in respect of households engaged in household industry only or both in household industry and cultivation has been given separately.

Table B-XVII distributes the households according to the number of their members. For rural areas the following additional information has been given :—

(i) households engaged neither in cultivation nor in household industry ;
(ii) those in household industry only ;
(iii) those engaged in cultivation ; and
(iv) distribution of cultivating households according to the size of their operational holdings.

C—SERIES : SOCIAL AND CULTURAL TABLES

Eight Tables, dealing with social and cultural aspects such as age, marital status, literacy and education, language, religion appear under this series. Table C-I has been prepared from a 20 per cent sample of the household schedules, while other Tables are prepared on full count from the individual slips.

Table C-I shows the composition of sampled households according to relationship to the head of the family. Size of operational holdings with the households is also shown for rural areas on the same lines as in Table B-XVII.

Table C-II presents data on age and marital status for total, rural and urban population of the District, and for rural population only in the case of Tahsils. Marital status has been divided into : (i) never married ; (ii) married ; (iii) widowed ; and (iv) divorced and separated. In 1961 census, quinquennial age groups, as recommended by the United Nations for population census, have been adppted.

Age groups 0-4 and 5-9 have been combined, since all the persons up to the age of 9, have been treated as 'never married'.

From this Table, it can be ascertained whether proportions, in various marital status conditions, have increased or decreased since the last census and whether any trend is observed in the age of marriage. This also gives an account of mortality in each marital status and also in different age groups. Data in col. 9 on married females by age groups can be utilised for forecasting the future births. In 1951-census, this Table was prepared on 10 per cent sample, but this time on a full count.

Table C-III has three parts : **Part-A** for all areas ; **Part-B** for urban areas ; and **Part-C** for rural areas. Population in various age groups has been classified according to educational levels. The educational levels for all areas and rural areas are the same whereas for urban areas they have been further divided into various groups since education is more pronounced and diversified in urban areas.

Table C-V shows the distribution of population by mother tongue separately for total, rural and urban population in the District and for rural population in the Tahsils.

Mother tongue was defined as the language spoken by the person's mother to the person in his childhood or mainly spoken in the house. If the mother died in a child's infancy, the language mostly spoken in the person's home in childhood was recorded.

A Table on bilingualism has also been prepared in 1961-census. This Table is not included in this volume, and may be found in Part II-C (i) of Punjab Census Report.

Table C-VII shows the distribution of population according to six main religions, for total, rural and urban areas of the District. All other religions have been grouped under "Others." Tahsilwise figures have also been given for rural areas.

Table C-VIII shows the distribution of Scheduled Caste population according to literacy and nine industrial categories of workers, and non-workers, separately for total, rural and urban population in the District.

Scheduled Castes are the castes listed in the Scheduled Castes and Scheduled Tribes List Modification Order (Ministry of Home Affairs Notification No. SRO/2477-A, dated the 29th October, 1956). These castes, in Punjab are :—

1. Throughout the State—

(1) Ad Dharmi ; (2) Bangali ; (3) Barar, Burar or Berar ; (4) Batwal; (5) Bauria or Bawaria; (6) Bazigar ; (7) Balmiki, Chura or Bhangi ; (8) Bhanjra ; (9) Chamar, Jatia Chamar, Rehgar, Raigar, Ranidasi or Ravidasi ; (10) Chanal ; (11) Dagi ; (12) Dhanak ; (13) Dumna, Mahasha or Doom ; (14) Gagra ; (15) Gandhila or Gandil Gondola ; (16) Kabirpanthi or Julaha ; (17) Khatik ; (18) Kori or Koli ; (19) Marija or Marecha ; (20) Mazhabi ; (21) Megh ; (22) Nat ; (23) Od ; (24) Pasi ; (25) Perna ; (26) Pherera ; (27) Sanhai ; (28) Sanhal ; (29) Sansi, Bhedkut or Manesh ; (30) Sapela ; (31) Sarera ; (32) Sikligar ; and (33) Sirkiband.

2. Throughout the State except the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur—

(1) Darain ; (2) Dhogri, Dhangri or Siggi ; and (3) Sansoi.

3. In the Districts of Patiala, Bhatinda, Mahendragarh, Kapurthala and Sangrur—
Deha, Dhaya or Dhea.

D—SERIES : MIGRATION TABLES

Six Tables were prepared on this subject. Migration has been inferred from the place of birth, a question asked from each individual during the 1961-census. Two allied questions were whether the birth place was a rural or urban area, and the duration of residence at the place of enumeration if born elsewhere.

In this book only one Table has been included ; the other Tables are to be found in Part II-C (ii) of the Punjab Census Report.

Table D-II presents the figures for persons born (1) at place of enumeration, (2) elsewhere in the District, (3) in other Districts of the State, (4) in other States of India, and (5) in other countries. Births have been classified into rural and urban areas. This information when studied with the place of enumeration sheds an interesting light on the movement of population from villages to towns and *vice versa.*

E—SERIES : HOUSING TABLES

Prior to 1961-census, the preparation of houselists differed from State to State since the main idea was to prepare the framework for conducting the census. In the 1961-census, one uniform pattern for houselist has been adopted. In the houselist, data on housing such as material of wall, roof, number of rooms, the uses to which they are put, as well as data relating to establishments such as the names of the establishments and the products produced, number of persons working, and kind of fuel and power used and number of males and females living therein in case it was used as dwelling, was collected. Five Tables have been prepared in this series from the data so collected. Tables E-I and E-III have been prepared on full count and the other three Tables on 20 per cent samples out of the dwellings. Table E-III, which gives the number of workshops and factories in each industry by kind of fuel and size of employment, has not been given here for want of space. Instead, a running statement, showing the number of establishments in each industry for each village and town has been given. Industries have been shown according to Code numbers of the "Indian Standard Industrial Classification" reproduced at Annexure 'A'. Other Tables present data for the District and its Tahsils for total, rural and urban areas, separately, as well as for towns with a population of 50,000 or more. Urban figures of each Tahsil are inclusive of town figures, if any shown thereunder.

Table E-I shows the distribution of census houses according to the use they are put to. Col. 4 gives the number of "vacant houses" which are found vacant at the time of houselisting.

In the earlier censuses the "*census house*" was defined as a dewlling with a separate main entrance. In the 1961-census the concept of "census house" was made broad as to cover any "structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance."

Table E-II prepared on 20 per cent sample shows the distribution of census households living in census houses according to their tenure status. Houses lived in by the owners were classed as "owned" and the houses lived in any other capacity were shown as "rented."

Table E-IV has been prepared from a 20 per cent sample and distributes the houses according to the predominent material going into the construction of walls and the roofs.

Where a house consisted of separate structures, each of different materials, the material out of which the walls of the main bed-rooms had been built, was recorded. The roofs were classified on the same basis. In case of multi-storeyed buildings, the intermediate floor or floors have been taken as the roofs of the lower floors.

Table E-V has also been prepared on 20 per cent sample, and shows the distribution of households according to number of rooms occupied by them, such as no regular room, one room, two rooms, three rooms, four rooms, and five rooms or more. The number of persons comprising the households have also been given according to the number of rooms they occupied.

SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

The Constitution of India has provided special safeguards for the members of the Scheduled Castes and President of India has notified the Castes which fall in the list of Scheduled Castes for this purpose. This list has been given in the explanatory note to Table C-VIII above. Hence it has been found desirable to give information in regard to these castes separately, though they have been included in the general population Tables.

According to the Presidential Order referred to above the Scheduled Tribes are found in this State only in Lahaul & Spiti District. Similar Tables have also been prepared for them and may be found in the State Census Report, Part V-A, and District Census Handbook for Lahaul & Spiti.

Table SCT-I classifies into workers and non-workers the number of each Scheduled Caste giving further details according to nine industrial categories of workers. Since most of the members of the Scheduled Castes are engaged in special types of occupations, such as " tanning and curing of hides and skins" and "scavenging" number of persons following these occupations have also been given under cols. 27 to 30.

Table SCT-II presents data for each caste according to age and marital status. The age groups adopted are 0—14, 15—44, and 45+.

Table SCT-III has been prepared in two parts, dealing with urban and rural areas, respectively. In this Table members of each caste have been classified according to educational levels.

Table SCT-IV furnishes data for each caste according to religion, separately for rural and urban areas of the District. Members of the Scheduled Castes can only be either Hindus or Sikhs, so their religion-wise break-up is confined to these two religions.

Table SCT-V has been prepared on 20 per cent sample from the households, showing their distribution according to interest in land cultivated and size of operational holdings.

Table SC-I classifies the members of the Scheduled Castes who are not at work by the type of activity according to educational levels. Only three activities of non-workers out of the eight adopted for the general population (given in the note for Table B-IX) have been taken and others have been lumped together under 'Others' in cols. 11 and 12.

ANNEXURE 'A'

Indian Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
	Division 0—Agriculture, livestock, forestry, fishing and hunting	
00	*Field Produce and Plantation Crops—*	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001
	Production of raw jute and kindred fibre crops	002
	Production of raw cotton and kindred fibre crops	003
	Production of oilseeds, sugar-cane and other cash crops	004
	Production of other crops (including vegetables) not covered above	005
	Production of fruits and nuts in plantation vines and orchards	006
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007
	Production of juice by tapping palms	008
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009
01	*Plantation Crops—*	
	Production of tea in plantation	010
	Production of coffee in plantation	011
	Production of rubber in plantation	012
	Production of tobacco in plantation	013
	Production of ganja, cinchona, opium	014
	Production of other plantation crops not covered above	015
02	*Forestry and Logging—*	
	Planting, replanting and conservation of forests	020
	Felling and cutting of trees and transportation of logs	021
	Preparation of timber	022
	Production of fuel including charcoal by exploitation of forests	023
	Production of fodder by exploitation of forests	024
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production and gathering of other forest products not covered above	026
03	*Fishing—*	
	Production of fish by fishing in sea	030
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
04	*Livestock and Hunting—*	
	Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, livestock, forestry, fishing and hunting—concld.		
04	*Livestock and Hunting*— concld.	
	Rearing of sheep and production of wool	041
	Rearing and pro luction of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048
Division 1—Mining and Quarrying		
10	*Mining and Quarrying*—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
Division 2 & 3—Manufacturing		
20	*Foodstuffs*—	
	Production of rice, atta, flour, etc., by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, gur from sugar-cane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, chease and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspati)	208
	Production of other food products such as sweet-meat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	209
21	*Beverages*—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—contd.		
22	*Tobacco Products*—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	1
	Manufacture of jerda and other chewing tobacco	5
	Manufacture of other tobacco products	5
23	*Textile-Cotton*—	
	Cotton ginning, cleaning, pressing and baling	)
	Cotton spinning (other than in mills)	1
	Cotton spinning and weaving in mills	2
	Cotton dyeing, bleaching	233
	Cotton weaving in powerlooms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	*Textile-Jute*—	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	*Textile-Wool*—	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in powerloom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	*Textile-Silk*—	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	*Textile-Miscellaneous*—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—contd.		
27	*Textile-Miscellaneous*—concld.	
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	*Manufacture of Wood and Wooden Products*—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixture	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289
29	*Paper and Paper Products*—	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292
30	*Printing and Publishing*—	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block-making and other work connected with printing industry	302
	All types of binding, stitching, sizing and other allied work connected with binding industry	303
31	*Leather and Leather Products*—	
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312
	Manufacture of leather products (except those covered by code No. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	*Rubber, Petroleum and Coal Products*—	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purposes	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries	324

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—contd.		
32	*Rubber, Petroleum and Coal Products*— concld.	
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	*Chemicals and Chemical Products*—	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and material (including synthetic rubber)	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
34-35	*Non-metallic Mineral Products other than Petroleum and Coal*—	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone dressing and stone crushing	343
	Manufacture of stoneware, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
	Manufacture of earthenware and earthen pottery	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code No. 355	356
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	*Basic Metals and their Products Except Machinery and Transport Equipment*—	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361
	Manufacture of armaments	362
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin cane	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, belt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39)	369

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3 Manufacturing—concld.		
37	*Machinery (All kinds other than Transport) and Electrical equipment*—	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	*Transport Equipment*—	
	Manufacture, assembly and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by Code No. 363	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehilces engine parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal-drawn and hand-drawn vehicles	389
39	*Miscellaneous Manufacturing Industries*—	
	Manufacture of optical instruments and lenses, opthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399
Division 4—Construction		
40	*Construction*—	
	Construction and maintenance of buildings including erection, flooring, decorative, constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tube-wells, wells	403
Division 5—Electricity, Gas, Water and Sanitary Services		
50	*Electricity and Gas*—	
	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 5—Electricity, Gas, Water and Sanitary Services—concld.		
51	*Water Supply and Sanitary Services*—concld.	
	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511
Division 6—Trade and Commerce—		
60-63	*Wholesale Trade*—	
	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639
64-68	*Retail Trade*—	
	Retail trading in cereals , pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644
	Retails trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retails trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products ; (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes and cosmetics	651

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 6—Trade and Commerce—concld.		
64-68	*Retail Trade*—concld.	
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653
	Retail trading in tyres, tubes and allied rubber products	654
	Retail trading in petrol, mobil oil and allied products	655
	Retail trading in wooden, steel and other metallic furniture and fittings	660
	Retail trading in stationery goods and paper	661
	Retail trading in metal, porcelain and glass utensils	662
	Retail trading in earthenware and earthen toys	663
	Retail trading in other household equipment not covered above	664
	Retail trading in bricks, tiles and other building materials	670
	Retail trading in hardware and sanitary equipment	671
	Retail trading in wood, bamboo, cane, bark and thatches	672
	Retail trading in other building materials	673
	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680
	Retail trading in transport and storage equipments	681
	Retail trading in electrical goods like electric fan, bulb, etc.	682
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683
	Retail trading in clock and watch, eye glass, frame	684
	Retail trading in scientific, medical and surgical instruments	685
	Retail trading in precious stones and jewellery	686
	Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Book-selling	688
	Retail trading in goods unspecified	689
69	*Trade and Commerce Miscellaneous*—	
	Importing and exporting of goods and commodities	690
	Real estate and properties	691
	Stocks, shares and futures	692
	Providents and insurances	693
	Money lending (indigenous)	694
	Banking and similar type of financial operation	695
	Auctioneering	696
	Distribution of motion pictures	697
	All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fans, microphone, rickshaw, etc.	699
Division 7—Transport, Storage and Communication		
70	*Transport*—	
	Transporting by railways	700
	Transporting by tramway and bus service	701
	Transporting by motor vehicles (other than omnibus)	702
	Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Animal transporting by animals such as horses, elephant, mule, camel	704
	Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Transporting by boat, steamer, ferry, etc. by river, canal	706
	Transporting by boat, steamer ship, cargo boat by sea or ocean	707
	Transporting by air	708
	Transporting by other means not covered above	709
71	**Services incidental to transport such as packing, carting, travel agency**	710

Indian Standard Industrial Classification—contd.

Major Group (Code)	Description	Minor Group (Code)
Division 7—Transport, Storage and Communication—concld.		
72	*Storage and Warehousing*—	
	Operation of storage such as ware houses	720
	Operation of storage such as cold storage	721
	Operation of storage of other type	722
73	*Communication*—	
	Postal, telegraphic, wireless and signal communications	730
	Telephone communication	731
	Information and broadcasting	732
Division 8—Services		
80	*Public Services* (This does not include Government, Quasi-Government or local body activities, other than administrative, in such fields as transport, communication, information and broadcasting, education and scientific services, health, industries, production, construction, marketing and operation of financial institution each of which is classified in the appropriate industry groups)	
	Public Services in Union and State army including territorial corps and volunteer corps	800
	Public service in Navy	801
	Public service in Air Force	802
	Public service in Police	803
	Public service in administrative departments and offices of Central Government	804
	Public service in administrative departments and offices of Quasi-Government organisations, municipalities, local boards, etc.	805
	Public services in administrative departments and offices of State Government	809
81	*Educational and Scientific Services*—	
	Educational services such as those rendered by technical colleges, technical schools and similar technical and vocational institutions	810
	Educational services such as those rendered by colleges, schools and similar other institutions of non-technical type	811
	Scientific services and research institutions not capable of classification under any individual group	812
82	*Medical and Health Services*—	
	Public Health and medical services rendered by organisations, and individuals such as by hospitals, sanatoria, nursing homes, maternity and child welfare clinic as also by hakimi, unani, ayurvedic, allopathic and homeopathic practitioners	820
	Veterinary services rendered by organisations and individuals	821
83	*Religious and Welfare Services*—	
	Religious services rendered by religious organisations and their establishments maintained for worship or promotion of religious activities, this includes missions, ashrams and other allied organisations	830
	Religious and allied services rendered by pandit, priest, preceptor, fakir, monk	831
	Welfare services rendered by organisations operating on a non-profit basis for the promotion of welfare of the community such as relief societies, red-cross organisation for the collection and allocation of contributions for charity	832
84	*Legal Services*—	
	Legal services rendered by barrister, advocate, solicitor, mukteer, pleader, mukurie, munshi	840
	Matrimonial services rendered by organisations and individuals	841

Indian Standard Industrial Classification—concld.

Major Group (Code)	Description	Minor Group (Code)
Division 8—Services—concld.		
85	*Business Services*—	
	Engineering services rendered by professional organisations or individuals	850
	Business Services rendered by organisations of accountants, auditors, book-keepers or like individuals	851
	Business Services rendered by professional organisations or individuals such as those of advertising and publicity agencies	852
	Business services rendered by professional organisations or individuals such as of those rendered by news-agency, newspaper correspondent, columnist, journalists, editors, authors	853
86	*Community Services and Trade and Labour Associations*—	
	Services rendered by trade associations, chambers of commerce, trade unions and similar other organisations	860
	Services rendered by civic, social, cultural, political and fraternal organisations such as rate payers association, club, library	861
	Community services such as those rendered by public libraries, museums, botanical and zoological gardens etc.	862
87	*Recreation Services*—	
	Production of motion picture and allied services such as processing, editing, etc.	870
	Recreation services rendered by cinema houses by exhibition of motion pictures	871
	Recreation services rendered by organisations and individuals such as those of theatres, opera companies, ballet and dancing parties, musicians, exhibitions, circus, carnivals	872
	Recreation services rendered by indoor and outdoor sports by organisations and individuals including horse, motor, etc. racing	873
88	*Personal Services*—	
	Services rendered to households such as those by domestic servants, cooks	880
	Services rendered to households such as those by governess, tutor, private secretary	881
	Services rendered by hotels, boarding houses, eating houses, cafes, restaurants and similar other organisations to provide lodging and boarding facilities	882
	Laundry services rendered by organisations and individuals, this includes all types of cleaning, dyeing, bleaching, dry cleaning, services	883
	Hair dressing, other services rendered by organisations and individuals such as those by barber, hair dressing saloon and beauty shops	884
	Services rendered by portrait and commercial photographic studios	885
89	*Services (not elsewhere classified)*—	
	Services rendered by organisations or individuals not elsewhere classified	890
Division 9—Activities not adequately described		
90	Activities unspecified and not adequately described including activities of such individuals who fail to provide sufficient information about their industrial affiliation to enable them to be classified	900

ANNEXURE 'B'

National Classification of Occupations

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—		
00	*Architects, Engineers and Surveyors—*	
	Architects	000
	Civil Engineers (including overseers)	001
	Mechanical Engineers	002
	Electrical Engineers	003
	Chemical Engineers	004
	Metallurgical Engineers	005
	Mining Engineers	006
	Surveyors	007
	Architects, Engineers, and Surveyors, n.e.c.	009
01	*Chemists, Physicists, Geologists and other Physical Scientists—*	
	Chemists	010
	Pharmaceutical Chemists	011
	Physicists	012
	Meteorologists	013
	Geologists and Geophysists	014
	Mathematicians	015
	Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.	019
02	*Biologists, Veterinarians, Agronomists and Related Scientists—*	
	Biologists and Animal Scientists	020
	Veterinarians	021
	Silviculturists	022
	Agronomists and Agricultural Scientists	023
	Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.	029
03	*Physicians, Surgeons and Dentists—*	
	Physicians and Surgeons, Allopathic	030
	Physicians, Ayurvedic	031
	Physicians, Homoeopathic	032
	Physicians, Others	033
	Physiologists	034
	Dentists	035
	Physicians, Surgeons and Dentists, n.e.c.	039
04	*Nurses, Pharmacists and other Medical and Health Technicians—*	
	Nurses	040
	Midwives and Health Visitors	041
	Nursing Attendants and Related Workers	042
	Pharmacists and Pharmaceutical Technicians	043
	Vaccinators	044
	Physiotherapists, Masseurs and Related Technicians	045
	Sanitation Technicians	046
	Optometrists and Opticians	047
	Medical and Health Technicians, n.e.c. (excluding Laboratory Assistants, see 091)	049
05	*Teachers—*	
	Teachers, University	050

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 0—Professional, Technical and Related Workers—concld.		
05	*Teachers*—concld.	
	Teachers, Secondary Schools	051
	Teachers, Middle and Primary Schools	052
	Teachers, Nursery and Kindergarten Schools	053
	Teachers, n.e.c.	059
06	*Jurists*—	
	Judges and Magistrates	060
	Legal Practitioners and Advisers	061
	Law Assistants	062
	Jurists and Legal Technicians, n.e.c. (including Petition Writers)	069
07	*Social Scientists and Related Workers*—	
	Economists	070
	Accountants and Auditors	071
	Statisticians and Actuaries	072
	Geographers	073
	Phychologists	074
	Personnel Specialists	075
	Labour and Social Welfare Workers	076
	Sociologists and Anthropologists	077
	Historians, Archeologists, Political Scientists and Related Workers	078
	Social Scientists and Related Workers, n.e.c.	079
08	*Artists, Writers and Related Workers*—	
	Authors	080
	Editors, Journalists and Related Workers	081
	Translators, Interpreters and Language Specialists	082
	Printers, Decorators and Commercial Artists	083
	Sculptors and Modellers	084

	Musicians and Related Workers	086
	Dancers and Related Workers	087
	Artists, Writers and Related Workers, n.e.c.	089
09	*Draughtsmen, and Science and Engineering Technicians, n.e.c.*—	
	Draughtsmen	090
	Laboratory Assistants	091
	Science and Engineering Technicians, n. e. c.	099
0X	*Other Professional, Technical and Related Workers*—	
	Ordained Religious Workers	0X0
	Non-ordained Religious Workers	0X1
	Astrologers, Palmists and Related Workers	0X2
	Librarians, Archivists and Related Workers	0X3
	Other Professional, Technical and Related Workers, n.e.c.	0X9
Division 1—Administrative, Executive and Managerial Workers—		
10	*Administrators and Executive Officials, Government*—	
	Administrative and Executive Officials, Central Government	100
	Administrators and Executive Officials, State Government	101
	Administrators and Executive Officials, Local Bodies	102
	Administrators and Executive Officials, Quasi-Government	103
	Village Officials	104
	Administrators and Executive Officials, Government, n.e.c.	109
11	*Directors and Managers, Wholesale and Retail Trade*—	
	Directors and Managers, Wholesale Trade	110
	Directors and Managers, Retail Trade	111

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 1—Administrative, Executive and Managerial Workers—concld.		
12	*Directors, Managers and Working Proprietors, Financial Institutions*—	
	Directors, Managers and Working Proprietors, Banks	120
	Directors, Managers and Working Proprietors, Insurance	121
	Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.	129
13	*Directors, Managers and Working Proprietors, Others*—	
	Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling	130
	Directors, Managers and Working Proprietors, Construction	131
	Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary	132
	Directors, Managers and Working Proprietors, Manufacturing	133
	Directors, Managers and Working Proprietors Transport and Communications	134
	Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services	135
	Directors, Managers and Working Proprietors, other Services	136
	Directors, Managers and Working proprietors, n.e.c.	139
Division 2—Clerical and Related Workers—		
20	*Book-keepers and Cashiers*—	
	Book-keepers, Book-keeping and Accounts Clerks	200
	Cashiers	201
	Ticket Sellers, Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)	202
21	*Stenographers and typists*—	
	Stenographers	210
	Typists	211
22	*Office Machine Operators*—	
	Computing Clerks and Calculating Machine Operators	220
	Punch Card Machine Operators	221
	Office Machine Operators, n.e.c.	229
28	*Clerical Workers, Miscellaneous*—	
	General and other Ministerial Assistants and Clerks	280
	Miscellaneous Office Workers including Record Keepers, Muharrers, Despatchers	
	Packers and Binders of office papers	289
29	*Unskilled Office Workers*—	
	Office Attendants, Ushers, Hall-porters, etc., n.e.c.	290
Division 3—Sales Workers—		
30	*Working Proprietors, Wholesale and Retail Trade*—	
	Working Proprietors, Wholesale Trade	300
	Working Proprietors Retail Trade	301
31	*Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers*—	
	Agents and Salesmen, Insurance	310
	Agents, Brokers and Salesmen, Real Estate	311
	Brokers and Agents, Securities and Shares	312
	Auctioneers	313
	Valuers and Appraisers	314
	Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	319
32	*Commercial Travellers and Manufacturers' Agents*—	
	Commercial Travellers	320
	Manufacturers' Agents	321
	Commercial Travellers and Manufacturers' Agents, n.e.c.	329

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 3—Sales Workers—concld.		
33	*Salesmen, Shop Assistants and Related Workers*—	
	Salesmen and Shop Assistants, Wholesale and Retail Trade	330
	Hawkers, Pedlars and Street Vendors	331
	Salesmen, Shop Assistants and Related Workers, n.e.c.	339
34	*Money-Lenders and Pawn Brokers*—	
	Money-Lenders (including Indigenous Bankers)	340
	Pawn Brokers	341
Division 4—Farmers, Fishermen, Hunters, Loggers and Related Workers—		
40	*Farmers and Farm Managers*—	
	Cultivators (Owners)	400
	Cultivators (Tenants)	401
	Farm Managers, Inspectors and Overseers	402
	Planters and Plantation Managers	403
	Farmers and Farm Managers, Animals, Birds and Insects Rearing	404
	Farmers and Farm Managers, n.e.c.	409
41	*Farm Workers*—	
	Farm Machinery Operators	410
	Farm Workers, Animals, Birds and Insects Rearing	411
	Gardeners (Malis)	412
	Tappers (Palm, Rubber trees, etc.)	413
	Agricultural Labourers	414
	Plantation Labourers	415
	Farm Workers, n.e.c.	419
42	*Hunters and Related Workers*—	
	Hunters	420
	Trappers	421
	Hunters and Related Workers, n.e.c.	429
43	*Fishermen and Related Workers*—	
	Fishermen, Deep Sea	430
	Fishermen, Inland and Coastal Waters	431
	Conch and Shell Gatherers, Sponge and Pearl Divers	432
	Fishermen and Related Workers	439
44	*Loggers and Other Forestry Workers*—	
	Forest Rangers and Related Workers	440
	Harvesters and Gatherers of Forest Products including lac (except logs)	441
	Log Fellers and Wood Cutters	442
	Charcoal Burners and Forest Product Processers	443
	Loggers and Other Forestry Workers, n.e.c.	449
Division 5—Miners, Quarrymen and Related Workers—		
50	*Miners and Quarrymen*—	
	Miners	500
	Quarrymen	501
	Drillers, Mines and Quarries	502
	Shot Firers	503
	Miners and Quarrymen, n.e.c.	509
51	*Well Drillers and Related Workers*—	
	Well Drillers, Petroleum and Gas	510
	Well Drillers, other than Petroleum and Gas	511

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 5—Miners, Quarrymen and Related Workers—concld.	
52	*Mineral Treaters*—	
	Mineral Treaters	520
59	*Miners, Quarrymen and Related Workers, n.e.c.*—	
	Miners, Quarrymen and Related Workers, n.e.c.	590
	Division 6—Workers in Transport and Communication Occupations—	
60	*Deck Officers, Engineer Officers and Pilots, Ship*—	
	Deck Officers and Pilots, Ship	600
	Ship Engineers	601
61	*Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen*—	
	Deck Ratings (Ship), Barge Crews and Boatmen	610
	Engine-Room Ratings, Firemen and Oilers, Ship	611
62	*Aircraft Pilots, Navigators and Flight Engineers*—	
	Aircraft Pilots	620
	Flight Engineers	621
	Flight Navigators	622
63	*Drivers and Firemen, Railway Engine*—	
	Drivers	630
	Firemen	631
64	*Drivers, Road Transport*—	
	Tramcar Drivers	640
	Motor Vehicle and Motor Cycle Drivers	641
	Cycle Rickshaw Drivers and Rickshaw Pullers	642
	Animal Drawn Vehicle Drivers	643
	Drivers, Road Trasnsport, n.e.c. (including Palki and Doli Bearers)	649
65	*Conductors, Guards and Brakesmen (Railways)*—	
	Conductors	650
	Guards	651
	Brakesmen	652
66	*Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport*—	
	Inspectors, Supervisors and Station Masters	660
	Traffic Controllers	661
	Signalmen and Pointsmen	662
67	*Telephone, Telegraph and Related Tele-communication Operators*—	
	Telephone Operators	670
	Telegraphists and Signallers	671
	Radio Communication and Wireless Operators	672
	Tele-printers Operators	673
	Telephone, Telegraph and Related Tele-communication operators, n.e.c.	679

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 6—Workers in Transport and Communication Occupations	
68	*Postmen and Messengers*—	
	Postmen	680
	Messengers (including Dak Peons)	681
69	*Workers in Transport and Communication Occupations, n.e.c.*—	
	Ticket sellers, Ticket Inspectors including Ushers and Ticket Collectors on moving transport	690
	Conductors, Road Transport	691
	Workers in Transport Occupations, n.e.c.	692
	Inspectors, Traffic Controllers and Despatchers, Communication	693
	Workers in Communication Occupations, n.e.c.	694
	Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—	
70	*Spinners, Weavers, Knitters, Dyers and Related Workers*—	
	Fibre Preparers, Ginners, Cleaners, Scourers, etc.	700
	Blow-room Workers and Carders	701
	Spinners, Piecers and Winders	702
	Warpers and Sizers	703
	Drawers and Weavers	704
	Pattern Card Preparers	705
	Bleachers, Dyers and Finishers (excluding Printers)	706
	Knitters and Lace Makers	707
	Carpet Makers and Finishers	708
	Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.	709
71	*Tailors, Cutters, Furriers and Related Workers*—	
	Tailors, Dress Makers and Garment Makers	710
	Hat and Head-gear Makers	711
	Furriers	712
	Upholsterers and Related Workers	713
	Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves	714
	Sewers, Embroiderers and Darners, Textile and Fur Products	715
	Tailors, Cutters, Furriers and Related Workers, n.e.c.	719
72	*Leather, Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers*—	
	Shoe makers and Shoe repairers	720
	Cutters, Lasters, Sewers, Footwear and Related Workers	721
	Harness and Saddle Makers	722
	Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related Workers, n.e.c.	729
73	*Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workees*—	
	Furnacemen, Metal	730
	Annealers, Temperers and Related Heat Treaters	731
	Rolling Mill Operators, Metal	732
	Blacksmiths, Hammersmiths and Forgemen	733
	Moulders and Coremakers	734
	Metal Drawers and Extruders	735
	Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.	739

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
Division 7-8—Craftsmen, Production Process Workers and Labourers, n.e.c.—contd.		
74	*Precision Instrument Makers, Watch Makers, Jewellers and Related Workers*	
	Precision Instrument Makers, Watch and Clock Makers and Repairmen	740
	Jewellers, Goldsmiths and Silversmiths	741
	Jewellery Engravers	742
75	*Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers*—	
	Fitter-Machinists, Tool-makers and Machine Tool Setters	750
	Machine Tool Operators	751
	Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)	752
	Machanics-Repairmen (except Electrical and Precision Instrument Repairmen)	753
	Sheet Metal Workers	754
	Plumbers and Pipe Fitters	755
	Welders and Flame Cutters	756
	Metal Plate and Structural Metal Workers	757
	Electro-Platers, Dip Platers and Related Workers	758
	Tool-Makers, Machinists, Plumbers, Welders, Platers and Related Workers, n.e.c. (including Metal-engravers other than Printing)	759
76	*Electricians and Related Electrical and Electronics Workers*—	
	Electricians, Electrical Repairmen and Related Electrical Workers	760
	Electrical and Electronics Fitters	761
	Mechanics-Repairmen, Radio and Television	762
	Installers and Repairmen, Telephone and Telegraph	763
	Linemen and Cable Jointers	764
	Electricians and Related Electrical and Electronics, n.e.c.	769
77	*Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers*—	
	Carpenters, Joiners, Pattern Makers (Wood)	770
	Shipwrights and Body Builders, (Wood)	771
	Sawyers and Wood working Machinists	772
	Coach and Body Builders	773
	Cart Builders and Wheel Wrights	774
	Cabinet Makers	775
	Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers, n.e.c.	779
78	*Painters and Paper Hangers*—	
	Painters and Paper Hangers	780
79	*Bricklayers, Plasterers and Construction Workers, n.e.c.*—	
	Stone Cutters, Stone Carvers and Stone Dressers	790
	Bricklayers, Plasterers, Masons	791
	Glaziers	792
	Cement Finishers and Terrazzo and Mosaic Workers	793
	Hut Builders and Thatchers	794
	Well Diggers	795
	Bricklayers, Plasterers and Construction Workers, n.e.c.	799
80	*Compositors, Printers, Engravers, Book-Binders and Related Workers*—	
	Type-setting Machine Operators	800
	Compositors	801
	Proof-Readers and Copy holders	802
	Printers (Paper)	803
	Printers (Textile)	804
	Photo-Litho Operators, Photo-Lithographers	805

National Classification of Occupations –contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 7-8—Craftsmen, Production Process Workers, and Labourers, n.e.c.—contd.	
80	*Compositors, Printers, Engravers, Book-Binders and Related Workers*—concld.	
	Engravers, Etchers and Block Makers (Printing)	806
	Stereotypers	807
	Book-Binders	808
	Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.	809
81	*Potters, Kilnmen, Glass and Clay Formers and Related Workers*—	
	Furnacemen, Kilnmen and Ovenmen	810
	Potters and Related Clay Formers	811
	Blowers and Benders, Glass	812
	Moulders and Pressers, Glass	813
	Grinders, Cutters, Decorators and Finishers	814
	Pulverisors and Mixers, Cement, Clay and other Ceramics	815
	Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.	819
82	*Millers, Bakers, Brewmasters and Related Food and Beverage Workers*—	
	Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers	820
	Crushers and Pressers, Oil seeds	821
	Dairy Workers (Non-Farm)	822
	Khandsari, Sugar and Gur Makers	823
	Bakers, Confectioners, Candy and Sweetmeat Makers	824
	Makers of Aerated Water and Brewers	825
	Food Canners, Preservers and Related Workers	826
	Butchers	827
	Coffee and Tea Blenders and Related Workers	828
	Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.	829
83	*Chemical and Related Process Workers*—	
	Batch and Continuous Still Operators	830
	Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes	831
	Crushers, Millers and Calenderers, Chemical and Related Processes	832
	Paper Pulp Preparers	833
	Paper Makers	834
	Chemical and Related Process Workers, n.e.c.	839
84	*Tabacco Preparers and Products Makers*—	
	Curers, Graders and Blenders, Tobacco	840
	Cigarette Machine Operators	841
	Cheroot, Cigar and Bidi Makers	842
	Snuff and Zarda Makers	843
	Tobacco Preparers and Product Makers, n.e.c.	849
85	*Craftsmen and Production Process Workers, n.e.c.*—	
	Basketry Weavers and Related Workers	850
	Tyre Builders, Vulcanisers and Related Rubber Products Makers	851
	Plastics Products Makers	852
	Tanners, Fellmongers, Pelt Dressers and Related Workers	853
	Photographic Dark Room Workers	854
	Makers of Musical Instruments and Related Workers	855
	Paper Products Makers	856
	Craftsmen Production Process Workers, n.e.c.	859
86	*Testers, Packers, Sorters and Related Workers*—	
	Checkers, Testers, Sorters, Weighers and Counters	860
	Packers, Labellers and Related Workers	861

National Classification of Occupations—contd.

Occupational Group (Code)	Description	Occupational Family (Code)
	Division 7-8—Craftsmen, Production Process Workers and Labourers, n.e.c.—concld.	
87	*Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers*—	
	Operators, Stationary Engines and Related Equipment	870
	Boilermen and Firemen	871
	Crane and Hoist Operators	872
	Riggers and Cable Splicers	873
	Operators of Earth-moving and Other Construction Machniery, n.e.c.	874
	Materials handling Equipment Operators	875
	Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment	876
	Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.	879
89	*Labourers, n.e.c.*—	
	Loaders and Unloaders	890
	Labourers, n.e.c.	899
	Division 9—Service, Sport and Recreation Workers —	
90	*Fire Fighters, Policemen, Guards and Related Workers*—	
	Fire Fighters and Related Workers	900
	Police Constables, Investigators and Related Workers	901
	Customs Examiners, Patrollers and Related Workers	902
	Watchmen and Chowkidars	903
	Fire Fighters, Policemen, Guards and Related Workers, n.e.c.	909
91	*House Keepers, Cooks, Maids and Related Workers*—	
	House Keepers, Matrons, Stewards (Domestic and Institutional)	910
	Cooks, Cook-Bearers (Domestic and Institutional)	911
	Butlers, Bearers, Waiters, Maids and Other Servants (Domestic)	912
	Ayas, Nurse-maids	913
	House Keepers, Cooks, Maids and Related Workers, n.e.c.	919

Notes.—1. †The sq. km. and density figures of urban areas of Tahsil/District are worked out using the area figures corrected up to 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this the area figures relating to sq. km. are further adjusted to make the Tahsil/District totals tally.

2. Towns treated as such for the first time in 1951-census which continue as towns in 1961-census are shown with asterisk (*) on their left.

3. The following abbreviation has been used for the status of a town:—
M. C. = Municipal Committee.

APPENDIX I TO TABLE A-I

Statement showing 1951 territorial units constituting the present set up of District and Tahsils

District/Tahsil	Name	Area
1	2	3
Mahendragarh District	**Mahendragarh District**	**1,340.0**

TABLE B-V

OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

Note.—Families having less than 1 per cent of the workers of the respective Division (less than 0.5 per cent in case of Families of Division 7-8) have not been shown in this Table, but are given in the Appendix to this Table. Divisions thus affected are marked with an asterisk (*).

APPENDIX TO TABLE B-V

Families having less than 1 % of workers of the respective Division, (less than 0.5 % in case of Families of Division 7-8) have been shown in this Appendix. The following abbreviations have been used :—

III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activities ;

IV. At Household Industry ;

V. In Manufacturing other than Household Industry,

VI. In Construction ;

VII. In Trade and Commerce ;

VIII. In Transport, Storage and Communications ;

IX. In Other Services ;

M=Males and F=Females.

Mahendragarh District

001 : Total V (M1), VI (M36), IX (M7), Urban V (M1), VI (M35), IX (M3). **002** : Total V (M3). **003**: Total V (M2), VIII (M1), IX (M6), Urban VIII (M1), IX (M5). **007** : Total III (M2), VI (M3), Urban III (M2), VI (M2). **009** : Total V (M1), VI (M1). **010** : Total V (M2), IX (M1), Urban V (M2), IX (M1). **021** : Total IX (M22), Urban IX (M2). **023** : Total III (M1), IX (M3), Urban III (M1), IX (M3). **032** : Total IX (M4), Urban IX (M3). **033** : Total IX (M45, F1), Urban IX (M15, F1). **035** : Total IX (M35), Urban IX (M5). **041** : Total IX (F46), Urban IX (F8). **042** : Total III (M1), IX (M40, F3), Urban III (M1), IX (M8, F1). **044** : Total IX (M11), Urban IX (M10). **046** : Total IX (M54), Urban IX (M36). **049** : Total IX (M1), Urban IX (M1). **050** : Total IX (M21), Urban IX (M21). **060** : Total IX (M4), Urban IX (M4). **061** : Total VII (M1), VIII (M1), IX (M43), Urban VII (M1), VIII (M1), IX (M41). **062** : Total IX (M1). **069** : Total IX M(14), Urban IX (M14). **071** : Total V (M1), VII (M3), VIII (M2), IX (M20), Urban V (M1), VII (M3), VIII (M2), IX (M20). **075** : Total IX (M1), Urban IX (M1). **076** : Total VIII (F1), IX (M15, F6), Urban VIII (F1), IX (M8, F2). **079** : Total VII (M2), Urban VII (M2). **080** : Total IX (M7), Urban IX (M1). **081** : Total IX (M7), Urban IX (M1). **083** : Total IX (F5). **089** : Total IX (M12, F1), Urban IX (F1). **090** : Total V (M7), VI (M9), IX (M1), Urban V (M7), VI (M9). **091** : Total V (M2), IX (M3), Urban V (M1), IX (M3). **0X3** : Total IX (M7, F1), Urban IX (M3). **102** : Total IX (M13, F1),Urban IX (M13,F1). **103** : Total IX (M12), Urban IX (M1), **109** : Total IX (M2). **110** : Total VII (M14), Urban VII (M14). **120** : Total VII (M13), Urban VII (M9). **121** : Total VII (M1). **129** : Total VII (M1), Urban VII (M1). **130** : Total III (M5), Urban III (M2). **132** : Total IX (M1), Urban IX (M1). **134** : Total VIII (M18), Urban VIII (M17). **135** : Total IX (M19, F1) Urban IX (M16). **136** : Total IX (M19, F2), Urban IX (M11). **201** : Total III (M1), V (M1), VII (M8), IX (M5), Urban V (M1), VII (M8), IX (M4). **202** : Total VIII (M15), Urban VIII (M11). **210** : Total V (M1), IX (M10), Urban V (M1), IX (M10). **10** : Total VII (M7, F1), Urban VII (M7). **311** : Total VII (M1).

APPENDIX TO TABLE B-XVI

Major Groups of Household Industry having less than 10 per cent of the figures of respective Division, have been shown in this Appendix. The following abbreviations have been used :—

IN ADDITION TO CULTIVATION

A means 1—3 Months
B means 4—6 Months
C means 7—9 Months
D means 10 Months to 1 Year
X means Months not stated

WITHOUT CULTIVATION

E means 1—3 Months
F means 4—6 Months
G means 7—9 Months
H means 10 Months to 1 Year
Y means Months not stated

Mahendragarh District

20 : Total (A-1, B-3, D-20, E-1, F-2, G-1, H-15), Rural (A-1, B-3, D-20, E-1, F-1, G-1, H-8), Urban (F-1, H-7); **21** : Total, (G-1), Urban (G-1); **24** : Total (A-1, H-1); Rural (A-1, H-1), **25** : Total (H-1); Rural (H-1) ; **36** : Total (A-3, B-2, C-2, D-21, G-1, H-23, Y-9), Rural (A-3, B-2, C-2, D-21, G-1, H-20, Y-8), Urban (H-3, Y-1); **38** : Total (H-2), Rural (H-1), Urban (H-1); **39** : Total (A-4, B-8, C-1, D-10, X-5, E-3, F-5, G-3, H-44, Y-16), Rural (A-4, B-8, C-1, D-10, X-5, E-3, F-5, G-2, H-37, Y-14), Urban (G-1, H-7, Y-2).

PART IV

DIRECTORY

Information is presented separately for each tahsil of the District as under :

A. Village Directory (Rural Areas), and

B. Town Directory (Urban Areas).

Alphabetical List of Villages			xxxiii

EXPLANATORY NOTE

1. In this Part are presented for each Village and Town in the District, its area and 1961 population, classified by sex and main industrial categories. The term '*village*', in all censuses from 1901, has been used for an area for which a separate Record of Rights is maintained, or which has been separately assessed to Land Revenue, or would have been so assessed if the Land Revenue had not been realised or compounded or redeemed, or which the State Government has otherwise declared as an '*estate*'. This definition of village is identical with that of '*mauza*' under section 3(1) of the Punjab Land Revenue Act, 1887. The definition applies to a demarcated area of land and not to residential sites. In hills cultivation is generally scattered and the population generally lives in homesteads built on individual farms or in groups of hamlets. There also the revenue estate is known as '*mauza*', but the smaller units are called '*tikkas*' in Kangra District, except in Kulu where the revenue estate is termed as '*kothi*' and the smaller unit as '*phati*'. In Lahaul & Spiti District, the revenue estate is referred to as '*kothi*' and its smaller component as '*gaon*'.

2. Villages having no population have been shown as '*Uninhabited*'. They have been retained in the Directory since they bear Hadbast numbers.

3. In the Village Directory, villages are presented Tahsil-wise, and within a Tahsil in order of their Location Code Numbers. The Code Numbers were assigned for the purpose of 1961-census work, as far as possible arranging the villages from north-west to south-east. The Hadbast numbers are shown in **Column 2**. The Tahsil map shows the location of each village identified by its Hadbast number.

4. The Town Directory, appearing after the Village Directory of each Tahsil, presents Census figures for all towns in that Tahsil, giving details for their Wards/Blocks. An Urban area or Town is a place having local administration, such as Municipal Committee or Cantonment Board, or has been treated as a Town because of its having :

(a) a population of over 5,000 ; and

(b) 75 p.c. or more of male workers there engaged in non-agricultural occupations.

5. **Column 3** gives information on '*amenities*' based on the '*Village Notes*' prepared by the *Patwaris* at the time of the 1961-census. These '*Village Notes*' contain several useful items of information which it has not been possible to present in this Directory for want of space. The *amenities* mentioned, relate to education, medical facilities, post and telegraph, safe water-supply and electrification, and are indicated by the following abbreviations :—

P—Primary School;

M—Middle School;

H—High School;

C—College, including Higher Institution;

T—Technical Institution;

D—Dispensary;

Rhc—Rural Health Centre;

Hos—Hospital;

Mp—Medical Practitioner;

Mcw—Maternity and Child Welfare Centre;

Po—Post Office;

P&T—Post and Telegraph Office;

S—Safe or Protected supply of Drinking-water;

E(A)—Electricity for Agricultural use; and

E(D)—Electricity for Domestic use.

Information on 'amenities' was not collected for urban areas.

6. **Column 4** shows geographical area, information for which was obtained from the Village Papers as supplied by the Deputy Commissioners in the case of rural areas. The information for urban areas was obtained from local authorities, and wherever possible checked from the records of the Department of Local Self-Government.

7. **Column 5** relates to '*occupied houses*', *i.e.*, houses used as dwellings, or conjointly as dwellings and for some other purpose *e.g.*, shop-cum-dwellings. **Column 6** shows the number of '*households*'. A '*household*' means the entire group of persons who commonly live together in the same house, and take their meals from the common kitchen or mess.

8. **Columns 10 to 13** present the number of persons belonging to Scheduled Castes and Scheduled Tribes as notified in Government of India, Ministry of Home Affairs communication No. S.R.O. 2477-A, dated the 29th October, 1956 and published as "The Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956".

9. **Columns 14 and 15** give the number of literate and educated persons. A '*literate*' person was taken as one who could read and write a simple letter. In case he had passed a written examination as proof of an educational standard, he was recorded as '*educated*'.

10. **Columns 16 to 37** present figures for '*Workers*' and '*Non-workers*'. For the definition of the term '*Workers*' and a '*Non-worker*' and description of the categories of workers,the reader may see the Explanatory Note to Part III in this volume. The nine categories of workers have been denoted by roman numerals :

I—Working as cultivator (owner cultivator or tenant);

II—Working as agricultural labourer;

III—Working in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities;

IV—Working at household industry;

V—Working in manufacturing other than household industry;

VI—Working in construction;

VII—Working in trade and commerce;

VIII—Working in transport, storage and communications; and

IX—Working in other services.
