1951 DISTRICT CENSUS HANDBOOK

DISTRICT : MADHYA SAURASHTRA

This district comprises Gondal, Morvi, Wankaner, Rajkot, Jetpur and other former Indian States which formed part of the Western Kathiawar Agency. The total number of units of the former Indian States and thanas included in this district was 41.

Atkot, Paddhari and Jam-Kandorna talukas of Halar were added to the district after its constitution, and three enclave villages were transferred from this district to Amreli district of Bombay State.

The district had a population (1951 Census) of 1,045,675 and an area of 4,660.2 square miles according to the area figure furnished by the Surveyor General of India.

This Handbook contains tables for Madhya Saurashtra district, compiled after the 1951 Census of India. The main results of the 1951 Census are embodied in the State Tables published for the States of Bombay, Saurashtra and Kutch. In this Handbook, the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this Handbook :—

A-II Variation in population during fifty years.
A-IV. Towns classified by population with variations since 1901.
D-IV. Migrants.

In the E—Summary table in this Handbook, some columns have been omitted.

In the case of the C—series of tables, except C—I, the data were extracted on the basis of a sample count of approximately 10 per cent. of the census slips instead of a full count of all the slips. The C—I table was prepared from a four per cent. sample of the households recorded in the National Register of Citizens relating to each town or village.

Till the 1951 Census the basis of classification of the population was a social one, namely according to religion, castes and communities. At the 1951 Census the basis was changed from a social to an economic one and the figures for villages given in the Primary Census Abstracts and in tables A-V, B-I, B-II, C-II and E are according to the following eight Livelihood Classes :—

Agricultural Classes

I. Cultivators of land, wholly or mainly owned ; and their dependants.
II. Cultivators of land, wholly or mainly unowned ; and their dependants.
III. Cultivating labourers ; and their dependants.
IV. Non-cultivating owners of land ; agricultural rent receivers ; and their dependants.

Non-Agricultural Classes

Persons (including dependants) who derive their principal means of livelihood from

V. Production other than cultivation.
VI. Commerce.
VII. Transport.
VIII. Other services and miscellaneous sources.

Dependants, whether earning or non-earning, were classified at the census according to the principal means of livelihood of the persons on whom they were dependent.

The Primary Census Abstracts, which contain basic information in respect of every village and town, have been arranged according to talukas and petas, units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main census tables. Therefore, in the B, C and D series of tables figures have been given for tracts and not for talukas and petas. Before sorting the census slips and tabulating the results tracts were formed by combining the rural and urban areas of two or more talukas or petas.

The tracts into which Madhya Saurashtra district was divided for this purpose are shown below :—

Rural Tracts

(1) Rural areas of Rajkot, Jasdan and Babra Talukas and Paddhari and Lodhika Petas
(2) Rural areas of Morvi and Wankaner Talukas and Maliya Peta.
(3) Rural areas of Gondal and Kunkavav Talukas and Kotda-Sangani Peta.
(4) Rural areas of Jetpur and Dhoraji Talukas and Jam-Kandorna Peta.

Urban Tracts

(1) Urban area of Rajkot City.
(2) Urban areas of Jasdan, Babra, Morvi and Wankaner Talukas and Paddhari, Lodhika and Maliya Petas.
(3) Urban areas of Gondal and Kunkavav Talukas and Kotda-Sangani Peta.
(4) Urban areas of Jetpur and Dhoraji Talukas and Jam-Kandorna Peta.

Urban areas comprise the towns shown in table A-V.

Shortly before the 1951 population Census, a census of Small Industries was taken, and the results of this census are given in the tables called " Small Scale Industries Census-Employment in Establishments " included in this handbook.

The intention was to find out some thing about Cottage and Home Industries and small workshops. The larger establishments, that is, power-using establishments with 10 or more workers and non-power using establishments with 20 or more workers, were excluded from the scope of the enquiry.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. If even one loom was used a return was required. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

14 Wankaner ..	432.4	101	1	12,394	8,797	3,597

Note.—(1) The area figure of the district of Madhya Saurashtra supplied by the Surveyor General of India is 4,660.2 sq. miles. The area figures for talukas and petas shown in column 2 of this table and of the E-Table are those supplied by the Collector. In the Primary Census Abstracts area figures for villages and towns obtained from local records are given. In the case of many talukas the arithmatical totals of the area figures for villages and towns do not agree with the area figures for talukas and petas supplied by the Collector.

(2) The number of towns given in column 3 is the number of revenue villages, excluding uninhabited villages and villages which form part of municipal areas.

181,619	49,550	132,069	92,438	25,208	67,230	89,181	24,342	64,839
60,821	44,052	16,769	30,855	22,575	8,280	29,966	21,477	8,489

(3) The number of towns given in column 4 is the number of towns shown in table A-V. In general, a town means a municipal area, cantonment area or a place which has a population of 5,000 or more persons and exhibits urban characteristics.

(4) The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.

A house for census purposes means "a dwelling with a separate main entrance." Thus more than one household might be found in the same census house.

B-I.—LIVELIHOOD CLASSES

District :

Note :—Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he, (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Any one who was not a self-supporting person in this sense was a dependant. A dependant might be either an earning dependant or a non-earning

Livelihood Classes and Sub-Classes.			Rural Areas of Talukas and Petas of

B-III—EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS

District :

Note.—(1) In this table, the self-supporting persons in the non-agricultural classes have been classified according to the productive industries and services in which they were engaged. In addition to the 132,703 self-supporting persons shown in the table, there were 6,803 self-supporting persons who derived their livelihood from unproductive activities as shown below :—

Non-productive means of livelihood	Persons	Males	Females
(1) Persons living principally on income from non-agricultural property	850	435	415
(2) Persons living principally on pensions, remittances, scholarships and funds	1,143	1,001	142
(3) Inmates of jails, almshouses and recipients of doles ..	182	131	51
(4) Beggars and vagrants ..	4,383	3,667	716
(5) All other persons living principally on income from non-productive activities	245	102	143

IN INDUSTRIES AND SERVICES BY DIVISIONS AND SUB-DIVISIONS

Madhya Saurashtra.

(2) The census definitions of the terms employer, employee and independent worker were as follows :—

Employer.—A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason).

Employee.—A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livehlihood.

Independent worker.—A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

DISTRICT INDEX OF NON-AGRICULTURAL OCCUPATIONS

District : **Madhya Saurashtra**

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic Table B-III. There were 6,803 self-supporting persons who derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column '2' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation	Group Code No.	POPULATION		
		Persons	Males	Females
1	2	3	4	5

Note.—The slips of persons returning Kachchhi as their mother-tongue in this and other districts in Saurashtra were not sorted separately, but were included in the slips of persons returning Gujarati as their mother-tongue. Therefore the figures for Gujarati given in the following table include those for Kachchhi. In order to arrive at an estimate of the Kachchhi-speaking population the 10 per cent. sample slips were re-sorted with the following result :—

Number of persons in the sample population having Kachchhi as their mother-tongue.		Estimated number of persons in the total population having Kachchhi as their mother-tongue.

PRIMARY CENSUS ABSTRACTS

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. They are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the Mamlatdars. The area figure of Madhya Saurashtra district furnished by the Surveyor General of India, is 4,660.2 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers of Citizens, prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in Table D-VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. The percentage of literacy in the district was 22.17 per cent. according to the 10 per cent. sample table C-IV. It was 23.59 per cent. according to table D-VII and 21.24 per cent. according to the Primary Census Abstracts total. Information contained in columns 29 to 33 was obtained from Mamlatdars and Mahalkaris.

The following abbreviations have been used in the abstract :—

M.	for Municipality.
P.S.	for Primary School.
V.P.	for Village Panchyat.
C.C.S.	for a Co-operative Credit Society.
C.S.	for a Co-operative Society of any other kind.

Note.—The villages of Kharachiya (S.No. 20) and Reshamdi Galol (S.No. 35) were in Jetpur Taluka on 1-3-1951 as shown in the Primary Census Abstract. They had however, been transferred to this taluka in October 1950 and the actual census of these villages was taken by the Charge Superintendent of Kunkavav taluka because till October 1950 they had belonged to his charge. The Tabulation Office treated them as part of Kunkavav taluka. When this was noticed the necessary corrections were made in the Primary Census Abstract and the 'A' Tables. It was not possible to revise tract figures given in other tables.

Note.—The villages of Bantwa Devli (S. No. 10) and Devalki (S. No. 19) were in Kunkavav Taluka on 1-3-1951 as shown in the Primary Census Abstract. They had however, been transferred to this taluka in October 1950 and the actual census of these villages was taken by the Charge Superintendent of Jetpur taluka because till October 1950 they had belonged to his charge. The Tabulation Office treated them as part of Jetpur taluka. When this was noticed the necessary corrections were made in the Primary Census Abstract and the 'A' Tables. It was not posisible to revise tract figures given in the other tables.

Literates		Agricultural Classes							
		I—Cultivators of land wholly or mainly owned and their dependants		II—Cultivators of land wholly or mainly unowned and their dependants		III—Cultivating labourers and their dependants		IV—Non-cultivating owners of land, agricultural rent receivers, and their dependants

NOTE.—(1) The Census of Small Scale Industries was done by revenue officers in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the small scale industries carried on in the District.

(2) The figures given in the above table are incomplete. They do not include information in regard to small-scale industries in Kotda-Sangani, Wankaner, Rajkot and Morvi talukas. In these areas information in regard to the number of establishments was included by the enumerators but they omitted to collect data about the number of persons employed in these establishments. The number of establishments found in these talukas were as under :—

Kotda-Sangani	..	Cotton weaving 107 and oil pressing 16.
Wankaner	..	Cotton weaving 255, cotton spinning 12 and flour mills 45.
Rajkot	..	Cotton weaving 330 and flour mills 29.
Morvi	..	Cotton weaving 370, oil pressing 53 and flour mills 47.

(3) Males under 15 were classified as boys and females under 15 as girls.

Abbreviations used:—
T=Total ; R—Rural ; U=Urban ; W—Whole-time; P=Part-time.
